Certificate

Minimum Requirements for Certificate: 30 – 32 credits

The ethnobotany certificate program involves interdisciplinary study of the role of native plants in indigenous cultures. Students will learn about native plants and their uses and ecology in the context of their cultural, social and economic importance by combining scientific and anthropological concepts and methods. The program emphasizes culturally relevant, place-based courses that highlight the ways this information contributes to other fields of study, such as cultural and natural resource management, community development, adaptive resilience, and human health. It is also designed to serve as a bridge to a variety of associate and baccalaureate programs in natural sciences and liberal arts.

This program may be especially of interest to individuals employed by or interested in employment with state, federal or tribal agencies or other local entities in rural Alaska which provide natural resource management services.

Admission requires a high school diploma or GED and interest in science-related fields. It is highly recommended that students have completed two high school lab-based science courses, preferably in biology, chemistry or physics.

Students whose ACT/SAT scores are not sufficient for placement into college level courses will be required to take the ASSET or ACCUPLACER test and will be placed into the appropriate developmental level course.

Certificate Program

- 1. Complete the general university requirements (page 95).
- 2. Complete the certificate requirements (page 97).*
- 3. Complete the following:

b.	Complete one of the following computation courses: DEVM F105—Intermediate Algebra (3) or MATH F103X—Concepts and Contemporary Applications of Mathematics (3) or MATH F107X—Functions of Calculus (4)
c.	Complete the following human relations courses: ANTH/SOC F100X—Individual, Society and Culture
4. a.	Complete the following program requirements:* Complete two science foundation courses: BIOL F103X—Biology and Society (4) or BIOL F104X—Natural History of Alaska (4) or BIOL F116X—Fundamentals of Biology II (4)
b.	Complete the following: EBOT F100—Introduction to Ethnobotany
c.	Complete 3 – 4 credits of approved electives: ENGL F212—Business, Grant and Report Writing (3) or ENGL F213X—Academic Writing About the Social and Natural Sciences (3)
	or 100 – 200-level advisor-approved electives from the following subject areas: Alaska Native Languages, Alaska Native Studies, Applied Art, Anthropology, Economics, Education, Eskimo, Biology or Natural Resource Management
5. *	Minimum credits required

All degrees (e.g. Certificate, A.A., A.A.S., A.S., etc) require additional courses. Refer to specific degree and program requirements.
