

PUBLIC PLACES To Post or Not to Post?

Mariah Jerman
State of Alaska Pesticide Control Program

Definition of a public Place

1. Government offices and grounds*
2. Plazas, parks and playing fields
3. Shared areas of multi family dwellings
 - Example of shared area: hallway, laundry room, parking area, lawn, grounds.

An Apartment Building Laundry Room

The front lawn of a 4-plex?

The lawn of an apartment building?

The lawn of a state of Alaska run retirement home?

The flower bed on a sidewalk downtown?

The inside of a dining room?

Plaza's aka Shopping Centers

A government office building?

A hallway?

Playing fields?

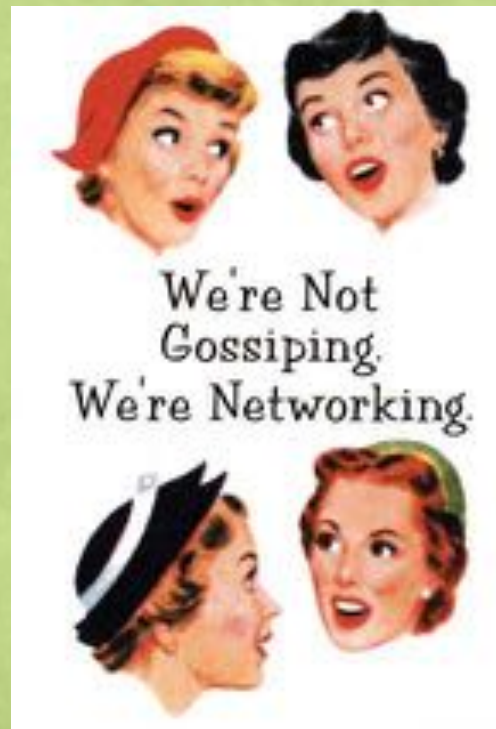

The Grocery Store?

Do I have to post?

Landlord refuses to allow posting?

What if everyone already knows?

Who is liable if I don't post?

PERMIT vs. IPM

Project Type	Description of Location or Method	DEC Requirements
Aerial	Application of pesticide from any type of aircraft or hovercraft, regardless of who owns the land being treated.	•Pesticide-use permit
Aquatic	Application of pesticide to a water body, including creeks, rivers, streams, ponds, wetlands, and swamps, regardless of who owns the surrounding lands.	•Pesticide-use permit •APDES permit
Public Project On Private Properties	Pesticide program or project by a government entity (state, borough, or city) that applies pesticide to more than one private property.	•Pesticide-use permit
State Owned Land	Application of pesticide on more than one acre of state owned or leased land.	•IPM Plan
State Right-of-Way	Application of pesticide on more than one acre of state owned or leased right-of-way.	•IPM Plan

Ariel application - PERMIT

Aquatic – PERMIT & APDES PERMIT

Public Project on Private Property? PERMIT

- 2 or more people's land
- State, borough or government ran

State owned land – IPM Plan
