Thesis: Diet and Dental Health in Predynastic Egypt: A Comparison of Hierakonpolis and Naqada

Seven dietary indicators on 364 dentitions of working class Predynastic Egyptians from Hierakonpolis and Naqada are studied to examine differences between working class inhabitants of the sites and between sex and age groups within each site. While the diets appear similar, this study found some dietary and behavioral differences.

Thesis: Agentive and Patientive Verb Bases in North Alaskan Iñupiaq

This dissertation is concerned with the Upper Kobuk dialect of North Alaskan Iñupiaq Eskimo. It has two goals: (i) to provide a grammatical sketch of this dialect; and (ii) to investigate agentive and patientive verb bases, which can inflect either intransitively or transitively, in terms of their semantic characteristics and their interrelationship.
