The increasing complexity and integration of emergency management fields call for new emergency managers and security professionals who are prepared for the nature and severity of man-made, natural, and technological disasters.

Secure your future with a Homeland Security and Emergency Management degree!

With the HSEM program you can...

- Take courses in leadership and management - including risk management and business continuity
- Build on your experience as a firefighter, EMT, or law enforcement officer
- Start a new career in a complex, growing field
- Apply your military experience toward your degree requirements
- Earn an Alaskan degree, but study from ANYWHERE!

Student Spotlight
RACHAEL DONIGER, BEM 2016
Dispatcher, Snohomish County Police Staff & Auxiliary Services Center, WA

“The HSEM program at UAF allows people in the military or the emergency service fields to highlight their skills and experiences and apply them toward the growing fields of emergency management and homeland security.

Working as a full-time 9-1-1 dispatcher, I needed an affordable, quality program that was available online and flexible for my schedule, and I found it at UAF. For me, a highlight of this program has been receiving instruction from experienced professionals who can relate the course material to practical, real-world applications. In addition, my fellow students come from a broad range of professions and offer unique perspectives.

My experience in the HSEM program has broadened my own emergency dispatcher viewpoint to a more global emergency management perspective. I strongly believe this degree can provide career advancement opportunities in both the private and public sectors of emergency management.”

PROGRAM HIGHLIGHTS
• Degrees can be completed online
• Online and in-person courses with real-world learning opportunities
• Utilize prior experience in many fields including military and emergency services (firefighting, law enforcement, paramedicine), process technology, cyber security, and occupational health and safety
• Undergrad Students: approximately 180

The UAF School of Management is accredited by The Association to Advance Collegiate Schools of Business (AACSB), the premier global accrediting body for business and accounting programs and schools
