CHANGE COURSE (MAJOR) and DROP COURSE PROPOSAL
Attach a syllabus, except if dropping a course.

SUBMITTED BY:
Department  Elementary Education  College/School  School of Education
Prepared by  Jann Laiti/Carol Barnhardt  Phone  6447/6457
Email Contact  jmlaiti@alaska.edu  cabarnhardt@alaska.edu  Faculty  Carol Barnhardt

1. COURSE IDENTIFICATION: As the course now exists.

     Dept  ED  Course #  F417  No. of Credits  2

     COURSE TITLE  Physical and Health Education for Elementary Teachers

2. ACTION DESIRED: Changes to be made to the existing course.

     Change Course  X  If Change, indicate below what change.
     Drop Course

     NUMBER
     TITLE
     DESCRIPTION
     PREREQUISITES
     CREDITS (including credit distribution)  3
     CROSS-LISTED
     DEPT. (Requires approval of both departments and deans involved. Add lines at end of form for such signatures.)
     STACKED (400/600)
     Include syllabi.
     OTHER (please specify)  To take effect summer 2013

3. COURSE FORMAT

     NOTE: Course hours may not be compressed into fewer than three days per credit. Any course compressed into fewer than six weeks must be approved by the college or school’s curriculum council and the appropriate Faculty Senate curriculum committee. Furthermore, any core course compressed to less than six weeks must be approved by the core review committee.

     COURSE FORMAT:  (check all that apply)
     OTHER FORMAT (specify all that apply)
     Mode of delivery (specify lecture, field trips, labs, etc)

8 weeks to full semester

4. COURSE CLASSIFICATIONS: (undergraduate courses only. Use approved criteria found on Page 10 & 17 of the manual. If justification is needed, attach on separate sheet.)

     H = Humanities
     S = Social Sciences

     Will this course be used to fulfill a requirement for the baccalaureate core?
     YES  NO  X

     IF YES, check which core requirements it could be used to fulfill:
     O = Oral Intensive,  W = Writing Intensive, Format  Natural Science, Format
5. COURSE REPEATABILITY:

<table>
<thead>
<tr>
<th>Is this course repeatable for credit?</th>
<th>YES</th>
<th>NO</th>
<th>x</th>
</tr>
</thead>
</table>

Justification: Indicate why the course can be repeated (for example, the course follows a different theme each time).

How many times may the course be repeated for credit? TIMES

If the course can be repeated with variable credit, what is the maximum number of credit hours that may be earned for this course? CREDITS

6. CURRENT CATALOG DESCRIPTION AS IT APPEARS IN THE CATALOG: including dept., number, title and credits

ED F417 Physical and Health Education for Elementary Teachers

2 Credits

Introduction and application of the relationship between physical fitness and good health in a school setting. Includes introducing students to fundamental movement activities and games. Includes incorporating health curriculum and first aid procedures into practices and policies, and issues specific to the Alaska context. Concurrent internship required. Prerequisites: Admission to the Internship Year. (1+2)

7. COMPLETE CATALOG DESCRIPTION AS IT WILL APPEAR WITH THESE CHANGES: (Underline new wording strike-through-old-wording and use complete catalog format including dept., number, title, credits and cross-listed and stacked.) PLEASE SUBMIT NEW COURSE SYLLABUS. For stacked courses the syllabus must clearly indicate differences in required work and evaluation for students at different levels.

ED F417 Physical and Health Education for Elementary Teachers

2 3 Credits

Introduction and application of the relationship between physical fitness and good health in a school setting. Includes introducing students to fundamental movement activities and games. Includes incorporating health curriculum and first aid procedures into practices and policies, and issues specific to the Alaska context. Concurrent internship required. Prerequisites: Admission to the Internship Year. (1.5+0+4.5)

8. IS THIS COURSE CURRENTLY CROSS-LISTED?

<table>
<thead>

</thead>
</table>

(Requires written notification of each department and dean involved. Attach a copy of written notification.)

9. GRADING SYSTEM: Specify only one

<table>
<thead>
<tr>
<th>LETTER</th>
<th>x</th>
</tr>
</thead>
</table>

PASS/FAIL: 

10. ESTIMATED IMPACT
WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.

No impact.

11. LIBRARY COLLECTIONS
Have you contacted the library collection development officer (kljensen@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.

No  x  Yes  No change.

12. IMPACTS ON PROGRAMS/DEPTS:
What programs/departments will be affected by this proposed action?
Include information on the Programs/Departments contacted (e.g., email, memo)

None other than the School of Education.

13. POSITIVE AND NEGATIVE IMPACTS
Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

None.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why; are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

Teacher education programs are under a great deal of scrutiny to assure policy makers and the general public that future elementary teachers have sufficient content knowledge and skills in the areas in which they have teaching responsibilities and that they have clearly defined coursework to assure that they also have opportunities to acquire the methods needed to successfully teach and develop meaningful curriculum in multiple content areas.

UAF elementary teacher education interns (i.e., students in their senior year of the BA in Elementary Education degree and elementary post-baccalaureate students completing their year-long internship) currently DO have these opportunities and requirements but this has not been accurately reflected in the current distribution of credits during their internship year. As an artifact of the process of development of the original BAEd degree, the number of hours that interns spend in their elementary classroom placements and in their university methods and curriculum development courses has never been accurately reflected in the course credit allocations.

It is important that we correct these inaccuracies now for the following reasons:

1. External agencies (political entities and accreditation groups) now want more specific evidence that elementary teacher education students have dedicated coursework and internship requirements to prepare them to teach Reading, Writing, Math, Science, PE/Health and the Arts. This evidence needs to be reflected more directly and more accurately on our program requirements than it has been. Some of the work currently completed by students as part of ED 468 (a 6 credit course currently co-taught by 4 instructors) is being distributed to other courses so that the content of the courses is more clearly evident to reviewers.

2. To be eligible for the newly created Alaska Performance Scholarship, university students must be enrolled in 30 credits per academic year. The intern year requirements in the current BA in Elementary Education degree include only 26 credits. These 26 credits are not an accurate representation of the amount of coursework and fieldwork that students actually complete.

“Preparing professional educators who are culturally responsive, effective practitioners”

ED417: Physical & Health Education for Elementary Teachers
3 Credits (1.5+0.0+1.5) 4.5 (1.5 + 0 + 4.5)
Spring 2013
Selected Wednesdays, 12:00-2:00pm ~ Audio-Conference Lecture/Elluminate
1-800-570-3591
Participant PIN 2774373

This is a course that has both lecture (i.e., university course time) and internship (i.e., elementary classroom time) requirements. Specific times for university course meeting times and elementary classroom internship times are included on the year-long internship calendar that is distributed each August by the UAF Department of Elementary Teacher Education.

Website: classes.uaf.edu

The Mission of the School of Education is to prepare professional educators who are culturally responsive, effective practitioners for Alaska’s Schools. Such educators have the following professional characteristics. They

• respond to the individual needs of the child,
• seek to develop the classroom as an inclusive community of learners,
• work collaboratively within the community of which the school is a part, and
• affirm the varied cultures and languages of Alaska’s children.

This course supports the UAF School of Education’s mission by providing students with the understandings and skills necessary to successfully address the diverse individual and cultural needs of Alaska’s students, schools, and communities. Emphasis is placed upon the development of literacy of Alaska students through thoughtful instruction based on current research and responsiveness to student needs.

COURSE DESCRIPTION:
ED 417 will provide interns with an introduction and application of the relationship between physical fitness and good health in a school setting. Interns will participate in fundamental movement activities and games with students at the school site. Interns will incorporate health curriculum and first aid procedures into practices and policies, and issues specific to the Alaska context. Through class discussions, written responses to course readings, and observing and teaching physical education and health lessons, ED417 interns will begin to develop a philosophy of education in respect to physical education and health based on current research and personal experience.

COURSE OBJECTIVES:
This course is designed to provide students who will be teaching in elementary classrooms the opportunity to:

• Identify the purposes, values and objectives of elementary school physical education and health programs;
• Clarify and expand their understanding of the values, goals, and place of physical education, physical activity and health in the community, the educational system, and the individual student’s development;
• Learn how to integrate physical education and health across the curriculum in a meaningful way;
• Increase personal skills in physical education and health through individual practice and interaction in physical education/health classes and activities;
• Understand how to establish and maintain an effective teaching/learning environment in a physical education and/or health education setting;
• Understand what is developmentally appropriate elementary physical education and health education

SCHEDULED MEETINGS AND TENTATIVE TOPICS:
January 11    What are Physical Education and Health Education?
               Course Overview
               Begin PE Observations – 4 total (at least 2 in February and 2 in March)
January 25    Your Curricula for Health and PE; Alaska State Priorities
February 22   Issues in Health Education
               Plan and teach four lessons: two for Health and two for PE by April 27
March 21      Issues in Physical Education
               Developing your Philosophy of Education relating to Physical and Health Education
April 25      Sharing philosophies and plans for further professional development

REQUIRED ACTIVITIES:
1. Class Participation
   ED417 students are expected to attend all class meetings and actively discuss and share learning activities that support healthy living for elementary students. Each intern will be required to tell two brief jokes appropriate for elementary students – one at the beginning of class and one at the end of class – to promote well-being. (see http://www.mayoclinic.com/health/stress-relief/SR00034 and http://kids.yahoo.com/jokes)

2. Individual Reading Plans and Presentations
   January (Curriculum Areas for Health, PE Program in your school), February (Health Education), March (Physical Education) and April (Intern’s Choice – either or both)
   Each month, interns will research an area of health/physical education related to current classroom health issues, needs or curriculum to share with classmates and build background for teaching. Readings will be
self-selected each month. Interns will create one presentation related to the assigned focus topic to share in class. PowerPoint presentations should include:

- Rationale for topic - Why is this topic important in your classroom?
- 5-10 slides of information regarding topic
- Slide of resource links

3. **Physical Education Observations**
Each intern will complete 4 observations, participating as appropriate, in physical education classes and reflect on your experience. Observations must cover the entire class period. The observations must involve two primary (K-3) and two intermediate (4-6) grade classes. These observations must be completed before you can schedule your PE lesson because the observations will prepare you for teaching, acquainting you with the physical education program at your school. Please record your observations using the ED417 PE Observation form available here and on Blackboard.

4. **Teaching: Health and Physical Education**
Each intern will create and teach at least four lessons: two developmentally appropriate physical education lessons and two health education lessons. For the physical education, interns will schedule the dates for instruction with their mentor teacher and school PE teacher, if necessary. Students will work cooperatively with the PE teacher or mentor teacher to develop lessons that will benefit students.

Lessons must be submitted to the instructor for review prior to teaching the lesson. The lesson format should follow the guidelines provided in the Internship Year Handbook with the optional addition of a section that includes short descriptions of at least two cross-curricular correlative or follow-up activities.

For the health lessons, informal feedback notes from the mentor teacher are encouraged but not required. For the PE lessons, at least one PE Lesson Observation Feedback form is required (available here and on Blackboard). The lesson plans, student work samples (as appropriate), reflections and mentor feedback are due to the instructor one week after teaching.

5. **Philosophy of Physical Education and Health Education**
How do you plan to encourage your students develop healthy lifestyles? ED 417 interns will develop a one page philosophy of Physical Education and Health Education that will help to guide interns in their implementation of Physical Education or Health Curricula.

All assignments will be turned in via the Blackboard or email unless other arrangements have been made. When submitting assignments always include your last name within the name of the file. For example, kardash_health_lessonplan.doc

---

**GRADING**
Feedback on assignments will be in narrative form. The final grade will be based on the course rubric (see page 5) feedback scores as follows:

- **A** = All competencies are rated at the meets or target level. All assignments were completed on-time and overall feedback scores were 90% or higher; no more than 1 needed to be redone
- **B** = All competencies are rated at the meets or target level by the end of the course; most assignments were turned in on time and overall feedback scores were 80% or higher.
- **C** = All competencies are rated at the meets or target level by the end of the course; more than three assignments were submitted late overall feedback scores were 70% or higher.
D = One or more competencies were not rated at the meets or target level; assignments were often submitted late, needed to be redone overall feedback scores were 60% or higher.

F = Most assignments were not completed; little or no effort was evident from intern.

OTHER POLICIES:

Attendance Policy
Students are expected to attend all classes and be actively involved in class discussions and class projects. In case of absence students are responsible for getting information from other students. Due to the high level of student group work involved in this class, regular attendance is very important and will be included in determination of the course grade. All handouts will be posted on the Blackboard site. Students are expected to submit all assignments on time. Late assignments will be accepted only when students have an occasional legitimate and excused absence.

Plagiarism
The following is excerpted from the UAF Student Code of Conduct (BOR POLICY 09.02.02):

As with all members of the university community, the University of Alaska requires students to conduct themselves honestly and responsibly, and to respect the rights of others. Conduct that unreasonably interferes with the learning environment or that violates the rights of others is prohibited by the standards and guidelines described in this section and in University Regulation and MAU rules and procedures, collectively referred to as the Student Code of Conduct, or Code. Students and student organizations will be responsible for ensuring that they and their guests comply with the Code while on property owned or controlled by the university or at activities authorized by the university.

Disciplinary action may be initiated by the university and disciplinary sanctions imposed against any student or student organization found responsible for committing, attempting to commit, or intentionally assisting in the commission of prohibited forms of conduct including cheating, plagiarism, or other forms of academic dishonesty.

The University has established procedures for enforcing the UA code of conduct. Each student at the University shall be afforded due process in all disciplinary matters. For a complete guide to these procedures, please refer to Regents regulation 09.02. Copies of this are available at http://www.alaska.edu/bor/policy/09-02.doc and the library.

Support Services
http://www.uaf.edu/rural/students/
http://www.uaf.edu/rural/students/genresource/

The College of Rural and Community Development (CRCD) provides academic and vocational education and outreach that promote workforce preparation, economic development, life-long learning, and community development through Alaska, with an emphasis on Alaska Natives and underserved communities.

CRCD geographically serves nearly two-thirds of the state, representing more than 160 primarily Native Alaska communities. The college is also the center for support and development of distance delivery of education throughout the university. The main office is located in the Brooks Building on the University of Alaska Fairbanks (UAF) campus.

Disabilities Services
http://www.uaf.edu/disability/

The University of Alaska Fairbanks is committed to equal opportunity for students with disabilities. Disability Services provide a variety of services to assure equal access for all students. Interpreting services, educational assistants, note taking, and exam accommodations for students are the most frequently provided
accommodations. Disability services also provides assistance to the university's rural campuses; Tanana Valley Campus, Bristol Bay, Chukchi, Interior-Aleutians, Kuskokwim, and Northwest.

The staff of Disability Services works with faculty in arranging appropriate services in the classroom. Questions should be directed to the Director of Disability Services at (907)-474-5655.
