JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why: are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

With the program changes taking place, the CDFS program faculty and staff have carefully looked at the courses currently provided within the program. ECE 442 has been taught with a large internship piece. This internship has been exceptionally challenging for rural students to complete because of the type of internship activities required as well as capacity for space within the rural communities. Through review of student dropout rate and not being successful in completing the course within the semester, the CDFS staff and Faculty have decided that this course would better serve students as a course that works as a continuum building on theory and knowledge that will be offered within the Family Support concentration of the CDFS BA degree program. There will not be field experience/practica. The course will be facilitated through lecture, readings and a final project where students develop a resource management file in conjunction to a document demonstrating a plan that can be shared with parents guiding them towards appropriate resources within their community and state. Opportunity for facilitation for use and referral of these resources will take place within the ECE 471 Clinical Practice: Organizational Action Research, capstone for the concentration.

The requirements for pre-requisites and recommendations have been changed to fit the new program structure of classes for the ECE AAS and CDFS BA programs. ECE 245 Child Development is not to be offered within the general delivery of the ECE AAS and Psy 240 is not a course guarantee ably taken by all students, therefore, having the two courses as a requirements were not appropriate. Students from the ECE AAS program may take this course as their required “family” course.

ECE 442 may be taught within a 10-week or traditional 15-week semester schedule. The attached syllabus demonstrates a 15-week schedule. There is also interest for developing this course as a CDE web delivered course.

Computer, Internet and Software
Problem: you cannot get your email Make sure your Internet connection is working; to test it, you can try to go to a new web page and see if it loads.

- If you are having problems with a UAF account, you will need to contact the UAF help desk 1.800.478.4667. If it is another company’s account, you will need to contact their customer support. There is very little we can do to assist you as we have no control or access to the computers that serve the email.
Problem: you forgot your password

- Only the organization that issued your password can do anything to change it. You will need to contact them. For UAF email and Blackboard it is the UAF help desk 1.800.478.4667. For most web services there is a link you can click if you forgot your password. I also recommend writing them down somewhere for back up.

Problem: you are having problems with Blackboard

- You will need to contact the Blackboard administrator, at: http://classes.uaf.edu/ Office of Information Technology Help Desk 474.6564 or 1.800.478.4667
