10. COMPLETE CATALOG DESCRIPTION including dept., number, title, credits, credit distribution, cross-listings and/or stacking (50 words or less if possible):

Interns will review, evaluate and create assessments to document elementary student literacy development. Interns will analyze results of literacy assessments and develop plans for instruction for each elementary student. Assessments may include teacher-made quizzes or tests, anecdotal records based on observing children, student reading and writing samples, and spelling assessments. Interns will identify important characteristics of each student including, but not limited to, student interests and goals for literacy development. Updated credit distribution is: (0.5+0+0)

11. COURSE CLASSIFICATIONS: Undergraduate courses only. Consult with CLA Curriculum Council to apply S or H classification appropriately; otherwise leave fields blank.

18. ESTIMATED IMPACT
WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.
No impact because no change in total number of credits.

19. LIBRARY COLLECTIONS
Have you contacted the library collection development officer (kljensen@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.
No X Yes The content of this course is already taught within the existing course ED 468.

20. IMPACTS ON PROGRAMS/DEPTS
What programs/departments will be affected by this proposed action?
Include information on the Programs/Departments contacted (e.g., email, memo)
None other than the School of Education.

21. POSITIVE AND NEGATIVE IMPACTS
Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.
None.

JUSTIFICATION FOR ACTION REQUESTED
The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

Teacher education programs are under a great deal of scrutiny to assure policy makers and the general public that future elementary teachers have sufficient content knowledge and skills in the areas in which they have teaching responsibilities and that they have clearly defined coursework to assure that they also have opportunities to acquire the methods needed to successfully teach and develop meaningful curriculum in multiple content areas.

UAF elementary teacher education interns (i.e., students in their senior year of the BA in Elementary Education degree and elementary post-baccalaureate students completing their year-long internship)
currently DO have these opportunities and requirements but this has not been accurately reflected in the current distribution of credits during their internship year. As an artifact of the process of development of the original BAE degree, the number of hours that interns spend in their elementary classroom placements and in their university methods and curriculum development courses has never been accurately reflected in the course credit allocations.

It is important that we correct these inaccuracies now for the following reasons:

1. External agencies (political entities and accreditation groups) now want more specific evidence that elementary teacher education students have dedicated coursework and internship requirements to prepare them to teach Reading, Writing, Math, Science, PE/Health and the Arts. This evidence needs to be reflected more directly and more accurately on our program requirements than it has been. Some of the work currently completed by students as part of ED 468 (a 6 credit course currently co-taught by 4 instructors) is being distributed to other courses so that the content of the courses is more clearly evident to reviewers.

2. To be eligible for the newly created Alaska Performance Scholarship, university students must be enrolled in 30 credits per academic year. The intern year requirements in the current BA in Elementary Education degree include only 26 credits. These 26 credits are not an accurate representation of the amount of coursework and fieldwork that students actually complete.

ED476: Assessment of Literacy Development
1 Credit \((0.5+0+4)\)

This is a course that has both lecture (i.e., university course time) and internship (i.e., elementary classroom time) requirements. Specific times for university course meeting times and elementary classroom internship times are included on the year-long internship calendar that is distributed each August by the UAF Department of Elementary Teacher Education.

During the elementary internship year students are required to participate in university coursework with UAF faculty and in aligned internship year responsibilities in an elementary classroom with a qualified mentor teacher. The internship year follows the school district calendars for teachers (approximately 190 days per academic year) and during each school day, interns are required to be in their elementary classroom whenever they are not participating in university required coursework with their UAF instructor or UAF supervisor. There are additional evening and weekend requirements for students during the internship year.

Following the UAF formula for credit distribution, ED 476 includes approximately 7 hours of “lecture” (i.e., face-to-face instruction and individual e-mail interaction with a UAF instructor and with a UAF supervisor) and 59 hours of internship time in the assigned elementary classroom with a qualified mentor teacher. In the catalog, the credit distribution for this 1 credit class is shown as \(ED\ 476 xx xx xx xx xx xx xx xx\) \((0.5+0+4)\)

The mission of the School of Education is to prepare educators to work in urban and rural Alaska and to work with K-12 students from many backgrounds. Through our programs and professional development courses, we promote the following goals:
- Increase the number of qualified educators for Alaska’s schools
- Enhance the professional skills of Alaska’s K-12 educators
- Develop and support ongoing systemic educational collaborations with Alaska schools and communities
- Conduct collaborative research on cross-cultural and multicultural education

This course supports the UAF School of Education’s mission by providing students with the understandings and skills necessary to successfully address the diverse individual and cultural needs of Alaska’s students, schools, and communities. Emphasis is placed upon the development of literacy of Alaska students through thoughtful instruction based on current research and responsiveness to student needs.

ED476 interns will utilize assessments provided by the cooperating teacher, professional references or developed by the ED476 intern to continue the development of Literacy Development Profiles. ED476 interns will also update and refine a classroom profile that details important characteristics of their students. These profiles will be used to facilitate planning and monitor student progress. Assessments will include teacher-made quizzes or tests, anecdotal records based on observing children, student reading and writing samples, and spelling assessments. ED476 interns will document student progress in reading and writing quarterly for a small group of students. Interns will analyze student reading and writing samples and
create plans for instruction based on student needs throughout the semester. Interns will share student work and progress with parents, as appropriate.

The Alaska and UAF School of Education Standards and Performances for Culturally Responsive, Effective Practitioners are addressed in this course with special emphasis on standards 1, 2, 4, 5, 6, and 8.

ACTIVITIES AND ASSESSMENTS

Class Participation (P) – Rubric on page 5
Participation with classmates in class activities is crucial. ED476 interns are expected to contribute knowledge and experience.

Classroom Profile (CP) - Rubric on page 6
ED476 interns will refine and update a classroom profile to identify important information about each student that can affect student learning. Information such as learning styles, student interests, demographics (class size, ages, grades, family sizes, military deployments, etc), developmental levels in literacy, attitudes about school and learning and media permissions should be included. ED476 interns will develop the profile with their mentor and may include parents in identifying important characteristics about students. Surveys for students and for families can be developed. Attitudes about reading and writing should be included and also used in the Literacy Development Profiles.

Literacy Development Profiles (LDPs) – Rubric on page 8
ED476 interns will utilize assessments provided by the cooperating teacher, professional references or developed by the ED476 intern to develop Literacy Development Profiles on select students. These profiles will be used to facilitate planning and monitor student progress. Assessments will include teacher-made quizzes or tests, anecdotal records based on observing children, student reading and writing samples, and spelling assessments. ED476 interns will document student progress in reading and writing quarterly for a small group of students. Interns will analyze student reading and writing samples and create plans for instruction based on student needs throughout the semester. Interns will share student work and progress with parents, as appropriate.

GRADING
Final course grades will be determined through standards-based and points-based criteria. Interns will receive feedback on assignments through competency-based rubrics and narrative feedback and will earn points through participating in course activities. For any unmet competencies, interns will need to complete an "ESSAP Plan of Improvement" developed by the instructor (see page 3 of syllabus). All competencies must be met in order to pass the course. The ED476 instructor will provide timely feedback to all interns in the form of competency-based rubrics, narratives and postings on the gradebook on Blackboard.

Attendance

Students are expected to attend all classes and be actively involved in class discussions and class projects. In case of absence students are responsible for getting information from other students. Due to the high level of student group work involved in this class, regular attendance is very important and will be included in determination of the course grade. All handouts will be posted on the ED 411 Blackboard site. Students are expected to submit all assignments on time. Late assignments will be accepted only when students have an occasional legitimate and excused absence.

Plagiarism

The following is excerpted from the UAF Student Code of Conduct (BOR POLICY 09.02.02):

As with all members of the university community, the University of Alaska requires students to conduct themselves honestly and responsibly, and to respect the rights of others. Conduct that unreasonably interferes with the learning environment or that violates the rights of others is prohibited by the standards and guidelines described in this section and in University Regulation and MAU rules and procedures, collectively referred to as the Student Code of Conduct, or Code. Students and student organizations will be responsible for ensuring that they and their guests comply with the Code while on property owned or controlled by the university or at activities authorized by the university.

Disciplinary action may be initiated by the university and disciplinary sanctions imposed against any student or student organization found responsible for committing, attempting to commit, or intentionally assisting in the commission of prohibited forms of conduct including cheating, plagiarism, or other forms of academic dishonesty.

The University has established procedures for enforcing the UA code of conduct. Each student at the University shall be afforded due process in all disciplinary matters. For a complete guide to these procedures, please refer to Regents regulation 09.02. Copies of this are available in the Dean of Students office, Wood Center, on the University web page (http://info.alaska.edu/ua/bor/regulation/9r/09-02.html), and the library.

Support Services

All written materials prepared outside of class will be assessed on the basis of content and on the use of appropriate writing conventions. The Writing Center on the 8th Floor of the Guering Building is an excellent resource for all UAF students. Please take advantage of it. There is no charge for UAF students.

Disabilities Services

The University of Alaska Fairbanks is committed to equal opportunity for students with disabilities. Students with disabilities are encouraged to contact the coordinator of Disability Services (Mary Matthews) at the Center for Health & Counseling (474-5655).
**ED476 - Participation Rubric**

*Interns will be assessed through class discussions, written responses, email responses and participation on Blackboard discussion boards, as appropriate.*

ED476 Classroom Profile Assignment and Rubric

ED476 interns will update and refine a classroom profile to identify important information about each student that may impact student learning. Required information includes demographics (class size, ages, grades, family sizes, military deployments, etc), developmental/achievement levels in literacy based on previous year's ending grades or assessments from the beginning of this year, each student's areas of interest, and response from families regarding media permission (VideoReleaseForm_letterhead.doc - Can this student be included in photographs/videos intern takes to illustrate intern's work in the classroom?).

ED476 interns should develop the profile with their mentor and may include parents in identifying important characteristics about students. A short narrative (no more than 2 pages) should be included to describe collaboration and reflect on the collection of the information for this profile. Surveys for students and for families can be developed or interns can meet with students on an individual basis during break times. Preferred learning styles and attitudes about reading and writing can be included and also used in the Literacy Development Profiles.

ED 476 – Literacy Development Profiles Spring 2012

ED476 students will utilize assessments provided by the cooperating teacher, professional references or developed by the ED476 student to develop Literacy Development Profiles on select students. These profiles will be used to facilitate planning and monitor student progress. Assessments will include teacher-made quizzes or tests, anecdotal records based on observing children, student reading and writing samples, and spelling assessments. ED476 students will document student progress in reading and writing quarterly for a small group of students. Interns will analyze student reading and writing samples and create plans for instruction based on student needs throughout the semester. Interns will share student work and progress with parents, as appropriate.

Competencies assessed:
- 2-1/4-2 Apply knowledge of developmental abilities of students when assessing student work and make appropriate revisions to instruction based on the demonstrated ability and knowledge level of students
- 4-7 Clearly communicate information and instructions
- 5-5 Select, adapt, develop and use a variety of types of formal and informal assessment tools and strategies that reinforce student learning and that help students develop an ability to reflect on their own progress
- 5-6 Select, adapt, develop and use performance assessments and understand why it is important to do this
- 5-7 Integrate assessment and instruction
- 5-8 Demonstrate the ability to design a realistic plan for recording and use assessment results that can be shared with students, parents and others
- 8-1 Adheres to the State’s Code of Ethics http://www.eed.state.ak.us/TeacherCertification/20AAC10.html
- 9-1 Demonstrate knowledge and application of technology for professional responsibilities (e.g. lesson planning, recording of grades, communication with students and colleagues, delivering instruction)

Part 3: Third Quarter – Complete before FTST starts!
- Assess each student again in reading through observation during student-with-teacher reading, whole and small group reading and individual reading and document growth from initial assessment. Assess each student again in writing through analyzing two or more writing samples appropriate to the developmental level of each student to document growth from initial assessment.
- Refine a system for recording results of assessments that will facilitate sharing with UAF instructor, mentor, students and parents. Include copies of student work or assessment documentation.
- Develop a plan for instruction based on assessments for the fourth quarter.

Part 4: Final Fourth Quarter Overview (RUBRIC IS DIFFERENT FROM OTHER SUBMISSIONS – SEE FINAL PAGE)
- Be sure to collect at least TWO reading and writing samples of student work during FTST. Assess each student again in reading through observation during student-with-teacher reading, whole and small group reading and individual reading and document growth from initial assessment. Assess each student again in writing through analyzing two or more writing samples appropriate to the developmental level of each student to document growth from initial assessment.
- Refine a system for recording results of assessments that will facilitate sharing with UAF instructor, mentor, students and parents. Include copies of student work or assessment documentation.
- Write a short summary of each child’s progress this year and suggested plans for this child next year. Choose 1-2 sample(s) from each quarter in reading and writing to document progress by students. If appropriate, share with each child and include a short reflection on that meeting. Thank you for noticing these children!
