Justify Upper/Lower Division Status & Number of Credits:
Professional Program required course – see CSU syllabus attached

3. PROPOSED COURSE TITLE:

Foundations of Veterinary Medicine III

4. Do you Cross List?

YES/NO

If yes, Dept: 
Course #

5. Do you Stack?

YES/NO

If yes, Dept: 
Course #

6. FREQUENCY OF OFFERING:

Fall, Spring, Summer (Every, or Even-numbered Years, or Odd-numbered Years) — or As Demand Warrants

7. SEMESTER & YEAR OF FIRST OFFERING (AY2013-14 if approved by 3/1/2013; otherwise AY2014-15)

AY2016-2017

8. COURSE FORMS:

NO: Course will not be compressed into fewer than three days per credit. Any course compressed into fewer than five weeks must be approved by the college or school's curriculum council. For courses, if course credit compressed to less than six weeks, must be approved by the college or school's curriculum council. Please refer to the course credit guidelines.

Course Form:
(check all that apply)

Other Forms (specify):

More of delivery (specify lecture, field trips, labs, etc):
Simulation and live animal laboratories with case-based/small group discussion

9. CONTACT HOURS PER WEEK

<table>

Note: * of credits are based on contact hours. 2600 minutes or lecture-1 credit. 2400 minutes of lab in a science course-1 credit. 1600 minutes in non-science class-1 credit. 2000-4000 minutes of practical-1 credit. 21000-4000 minutes of laboratory-4 credits. Other must match with syllabus. See http://www.uaf.edu/paracol/faculty-senior/curriculum/course-degree-procedures/ for more information on number of credits.

Other Hours (specify type):

10. COMPLETE COURSE DESCRIPTION INCLUDING PAR., الشخصيات, DATES, CRADAS, CRADAS REQUIREMENTS, CROSS-LISTINGS AND/OR SHARING (If more than 1 less if possible):

Course of a complete description:

FISH 4127 W 0 Physicians Uremmatron

RECEIVED

APR 15 2015
Dean's Office
College of Natural Science & Mathematics
DVM 710  Department of Veterinary Medicine
1 Credit  Offered Fall
Foundations of Veterinary Medicine III  The third semester of a four-course series in Foundations of Veterinary Medicine. The full course series will encompass topics in Ethics, Communication, Physical Exam Skills, Surgical Skills, Clinical Reasoning and Professional Development. This course will help you develop the professional skills necessary for the successful practice of veterinary medicine.

Pre-requisites: Successful completion of DVM 611 Foundations of Veterinary Medicine II

11. COURSE CLASSIFICATIONS: Undergraduate courses only. Consult with CLA Curriculum Council to apply S or N classification appropriately. Cross-listed with HNL 327, (B-0)

12. COURSE REPEATABILITY: If yes, repeatable for credit?

13. GRADING SYSTEM: Specify only one. Hours: Choosing and grading system for a course listed on curriculum: Major Course Credit - Form 2 page.

14. PREREQUISITES: Professional Veterinary Medical program student or permission of instructor

15. SPECIAL RESTRICTIONS, CONDITIONS: Professional Veterinary Medical program student or permission of instructor

16. PROPOSED COURSE FEES

17. PREVIOUS HISTORY

Has the course been offered as special topics or under course names?

Yes/No

If yes, give semester, year, course #, etc.:
18. ASSESSMENT IMPACT

Impact, if any, will have on budget, facilities/space, faculty, etc.

Professional Program approved by BOR, Chancellor and Provost – Impact to budget in second year will ease with second cohort of students.

19. LIBRARY COLLECTIONS

Have you contacted the library collection development officer (k+len@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, cite date of contacts and resolution. If not, explain why not.

No [ ] Yes [ ]

[ ] Applicants will need compliance letter of required course materials in AKB office.

20. IMPACTS ON PROGRAMS DEPARTMENTS

What programs/departments will be affected by this proposed action?

[ ] Include information as the Program/Department contacted (e.g., email, memo)

21. POSITIVE AND NEGATIVE IMPACTS

Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

There should be no impact on other departments.

JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide Curriculum Committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. Use as much space as needed to fully justify the proposed course.

The course is required for second year veterinary students and the syllabus is provided by CSU CVMBS. The course has been approved by their accreditation requirements and will be offered at UAF as part of the 2+2 program (first two years at UAF and last two years at CSU).

APPROVALS: Add additional signature lines as needed.

Faculty Senate Review Committee: _Curriculum Review _GMAC

_ Core Review _ SADAC
ATTACH COMPLETE SYLLABUS (as part of this application). This list is online at:
http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures/uaf-syllabus-requirements/
The Faculty Senate curriculum committee will review the syllabuses to ensure that each of the items listed below are included. If items are missing, or unclear, the proposed course (or changes to it) may be denied.

SYLLABUS CHECKLIST FOR ALL UAF COURSES
During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this document will contain the following information (as applicable to the discipline):

1. Course Information:
   - Title, # number, course, prerequisites, location, meeting time.
   (Make sure that contact hours are in line with credits).

2. Instructor (and if applicable, Teaching Assistant) Information:
   - Name, office location, office hours, telephone, email address.

3. Course Readings/Materials:
   - Course textbook title, author, edition/publisher.
   - Supplementary readings (indicate which are required or recommended) and
   - Any supplies required.

4. Course Description:
   - Content of the course and how it ties into the broader curriculum;
   - Expected proficiencies required to undertake the course, if applicable.
   - Inclusion or catalog description is strongly recommended; and
   - Description in syllabus must be consistent with catalog course description.

5. Course Goals (general), and (see #6)

6. Student Learning Outcomes (more specific)

7. Instructional Methods:
   - Describe the teaching techniques (e.g., lecture, case study, small group discussion, private instruction, studio instruction, values clarification, games, journal writing, use of Blackboard, audio/video conferencing, etc.).

8. Course Calendar:
   - A schedule of class topics and assignments must be included. Be specific so that it is clear how the instructor wishes this to unfold and will not be making it up on the fly (e.g., it is not adequate to say “Lab”. Instead, give each lab a title that describes its content). You may call the online Registrar for help in Progress to allow for modifications during the semester.

9. Course Policies:
   - Specify course rules, including your policies on attendance, tardiness, class participation, make-up exams, and plagiarism/academic integrity.

10. Evaluation:
    - Specify how students will be evaluated, how factors will be included, their relative weight, and how they will be tabulated into grades (on a curve, absolute scores, etc.).
    - Publicize UAF regulations with regard to the grades of “C” and below as applicable to this course.
    (Not required in syllabus, but is a convenient way to publicize this.) Link to PDF summary of grading policy for “C”:

11. Support Services:
    - Describe the student support services such as tutoring (local and/or regional) appropriate for the course.

12. Disabilities Services: Note that the phone and location have been updated. http://www.uaf.edu/disability/ The Office of Disability Services implements the Americans with Disabilities Act (ADA), and ensures that UAF students have equal access to the campus and course
DVM 710 FOUNDATIONS OF VETERINARY MEDICINE III
SYLLABUS – Fall Year 2

Department of Veterinary Medicine, University of Alaska Fairbanks

1. Course Information:
   Title: Foundations of Veterinary Medicine III
   Number: DVM 710
   Credit: 1
   Prerequisites: Successful Completion of Foundations of Veterinary Medicine II
   Location: Various lab areas – Irving, LARS, Fairbanks Experimental Farm
   Meeting time: Tuesday 1-4pm

2. Instructor Contact Information:
   Name: Dr. Lisa Lunn
   Office Location: 182A Arctic Health Research Building
   Office Hours: By appointment
   Office Phone: 907-474-1928
   Email: llunn2@alaska.edu

   Email is the best way to reach the instructor. You should receive a response to your email within 24 hours of when it is received. If you do not receive a reply within this time frame, assume the email was not received and please resend your message.

3. Course Reading/Materials:
   There are no required textbooks for this course. Course material will consist of written notes, PowerPoints, journal articles, and videos. All course materials will be posted on Blackboard.

   Required Equipment:
   - Stethoscope, timepiece with second hand (wrist watch or timer on stethoscope. Cell phone is not acceptable.)

   Required Attire:
   - Indoor laboratories: Green scrub top and bottom, white lab coat. Closed toed shoes. No hats or dangling jewelry.
   - Farm laboratories: Sleevd coveralls and washable rubber overboots. Insulated coveralls and jacket are recommended when outdoor temperatures are below your comfort zone. Winter hats, gloves can be worn. Scarves are not allowed due to risk of injury when working with the farm animals.

   Students are expected to dress professionally and adhere to the Department dress code. You will be dismissed from a lab session for lack of proper attire.

4. Course Description:
   DVM 710 is the third semester of a four-course series in Foundations of Veterinary Medicine. The full course series will encompass topics in Ethics, Communication, Physical Exam Skills, Surgical Skills, Clinical Reasoning and Professional Development. This course will help you develop the professional skills necessary for the successful practice of veterinary medicine, by providing opportunities for you to practice in
these areas. The emphasis of this course will be on self-directed learning, and encouraging YOU to take responsibility for your own learning.

5. Course Goals:
The goals for this course are to build upon skills acquired in Foundations of Veterinary Medicine I and II. Basic physical examination skills will be augmented to include otic examination in dogs, mammary gland and milk evaluation in cattle, and colic evaluation in horses. Students will begin expand on critical reasoning and case investigation skills with the addition of modules in medical math, case work-up, ethical dilemmas, as well as gastrointestinal case-based sessions.

6. Student Learning Outcomes:
- Build upon basic physical examination skills learned in DVM 610, 611
- Evaluate mammary gland and milk sample (California Mastitis Test/sterile milk culture) of cattle
- Perform otological examination of companion animals
- Develop physical examination, abdominocentesis, and rectal palpation skills for the evaluation of equine colic
- Learn and apply medical math as it relates to pharmacology
- Evaluate the ethical principles central to the practice of veterinary medicine
- Expand upon history taking skills and use of problem-oriented medical record
- Expand cardiopulmonary auscultation skills
- Use written self-reflection for continued professional skill development
- Practice clinical reasoning skills in a case-based discussion
- Learn how to properly generate health certificates (domestic and international) for companion animals and livestock

7. Instructional Methods:
This course is designed to provide critical reasoning skills as well as physical examination skills. A combination of simulation laboratories (utilizing low and medium-fidelity training models), live animal labs (companion animals and domesticated livestock), and critical thinking modules (small group case-based discussions, ethical debates, and problem-based simulations) will be used to provide instruction. Students are expected to read assigned material before the start of laboratory so that class time can be spent of active discussion, development of hands-on skills, and problem solving of assigned material. On-line laboratory quizzes and homework assignments will be utilized throughout the course to assess student learning. Blackboard will be used for publishing of course notes, PowerPoints, supplemental reading material, as well as audio/visual teaching aids.

9. Course Policies:

- **Attendance:** Students are expected to attend all classes and actively participate in discussions. Requests for excused absences must first be discussed with the instructor for the section to be missed. It is the responsibility of the student to provide an excused absence form to the instructor for signature. In the event of emergencies resulting in absence, it is the student's responsibility to contact the Department office and register the cause as soon as possible.

- **Classroom Behavior:** Any type of behavior in the classroom that is disruptive, distracting, or disrespectful to the instructor or to students will not be tolerated and will result in dismissal from the classroom. This includes, but is not limited to, disrespectful comments, use of tobacco products, consumption of food, and use of cell phones or wireless devices. All cell phones or other means of communication must be turned off during class. Browsing of the internet (unless part of a required class activity) and text messaging is prohibited during class time. These laboratories are designed for critical thinking and hands-on activities. Taking of notes is not required. If a session requires notes to be taken or information to be looked up, cell phones, tablets, or computers may be used (at professor discretion) for an appropriate amount of time.

- **Plagiarism:** Plagiarism is the overt or covert use of other people's work or ideas without acknowledgment of the source. This includes using ideas or data from a classmate or colleague without permission and acknowledgement, including sentences from journal articles in your writing without citing the author, or copying parts of a website into your essay. Plagiarism and cheating are serious offenses that violate the student code of conduct which may result in a grade of "F" in the course and/or referral to the university disciplinary committee.

10. Evaluation:

**Rubrics:**
A rubric will be used to assess student mastery of techniques presented in the physical exam, animal handling and trigger point anatomy laboratories. Each student is responsible for seeking feedback and evaluation from their laboratory instructors. A list of required tasks for each of the laboratory activities will be posted to Blackboard. You must demonstrate successful/satisfactory completion of each task in order for your instructor to sign off on it as "mastered". Rubrics and task booklets may only be signed off by your instructor during your scheduled lab. Any overall scores less than 70%, or individual tasks marked as "weak" will need to be remediated during a scheduled make-up lab. Please see the guidelines handout on Blackboard for more details.

Students will have the opportunity to earn 300 points in the course.

- **Pre-laboratory quizzes:** 70 points
  - There will be seven (7) pre-laboratory quizzes that reflect assigned reading material. Each quiz is worth twenty-five (25) points.

- **Critical Reasoning Homework assignments:** 75 points
  - There will be three (3) post-section critical reasoning homework assignments. The homework will involve application of section material as it relates to a case-based scenario. Each homework assignment is worth twenty-five (25) points.

- **Final examination:** 50 points
  - The final examination will be cumulative in nature. The format will include short answer/essay assessments as well as hands-on skills. The short answer/essay questions will be graded. The hands-on skills will be assessed on a pass/fail basis. It is required that students be able to
accurately perform skills learned during the semester. Students not achieving a passing grade on hands-on portion of the final examination will need to schedule a retake exam.

- Grading Scale: Grades will be calculated as follows

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Numeric Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A/A+</td>
<td>93 - 100%</td>
</tr>
<tr>
<td>A-</td>
<td>90 - 92.9%</td>
</tr>
<tr>
<td>B+</td>
<td>87 - 89.9%</td>
</tr>
<tr>
<td>B</td>
<td>83 - 86.9%</td>
</tr>
<tr>
<td>B-</td>
<td>80 - 82.9%</td>
</tr>
<tr>
<td>C+</td>
<td>77 - 79.9%</td>
</tr>
<tr>
<td>C</td>
<td>70 - 76.9%</td>
</tr>
<tr>
<td>D</td>
<td>65 - 69.9%</td>
</tr>
<tr>
<td>F</td>
<td>&lt;65%</td>
</tr>
</tbody>
</table>

11. Support Services:
If you require more assistance than can be provided in class, and office hours, you may want to contact Student Support Services (http://www.uaf.edu/sssp/) or the Department of Veterinary Medicine for assistance.

12. Disability Services:
All students, including those with disabilities, are welcome in this course. Equal access to the course will be provided to all students. If you have a disability (including learning disabilities) it is your responsibility to inform the instructor during the first week of class so that you're specific need may be accommodated. If you have not already done so, you will also need to contact UAF's Office of Disability Services by email at uaf-disabilityservices@alaska.edu, by phone at (907)474-5655, or by TTY at (907)474-1827.
