Text Messaging Students through Nanook Navigator (EAB Navigate)

Texting Policy
Review the texting policy before texting students through the Nanook Navigator platform. Pull this report in NN to see which students have opted out of texting in NN (column in report “Student Opted Out of SMS”) or UAOnline (column “Students Allowed to be Sent Messages”).

Default Automatic Message Reminder Sent to Students
Students will receive an automatic reminder email 24 hours & a reminder text 90 minutes before their appointments.

Text a student through the student profile, continued

5. Enter your message-Ex: “This is your advisor, Jessica Skipper: Fall registration is open, check your email for appointment scheduling instructions.” It is important for staff /instructors to identify themselves in the text since phone numbers may not recognizable to students.

6. If the student does not have a valid cell phone number or has opted out of texting then the message will be redirected to the student’s UAOnline preferred email address. Students can update their texting preference, phone number or email address in UAOnline.

7. Messages sent to 1-100 students simultaneously come from a randomized 10-digit number. If students respond to the text, their reply will be sent to the staff member/instructor who sent the text and will appear in My Conversations (Staff Home).

8. If a text is sent to 101+ students simultaneously, the staff member/instructor will not be able to receive text message replies. You may include this information in the original text to prevent students from attempting to reply. Students can opt out of texting.

9. Click “Send Message”
