Three ways to Issue An Alert

The alert dialogue box also asks for the reason(s) the student needs assistance, users will choose from a pre-set list of reasons that the SSC Leadership Team has created. Additional fields on the alert dialogue box are the option to select if the concern is related to a specific course and to add any comments related to the issue or referral.

**Filling Out Progress Reports:** As a faculty member you will receive an email during the semester prompting you to provide feedback on students in your courses. The email will be similar to the below:

By clicking on the link within this email you will be taken to a web page that displays the courses you teach and the class roster for those courses. You will be asked to report on whether the students are at risk to fail your course and why; you are able to provide as many reasons as apply. You are then able to provide optional information on the absences and grades of the student as well as share any additional context.

Only those students for whom you are concerned about need to be marked, the un-marked students can be submitted as not at-risk in the course by clicking the blue button at the bottom of the screen once finished.
Message a Student

**Home:** From any Home screen with either students assigned or students enrolled in a course, messages can be issued by selecting the box beside the student’s name(s) and choosing the Send Message option from the Actions dropdown. When using this method the student’s name and therefore institution-specific email address will be auto-filled in the dialogue box.
