

Match the Alaska Animal!

Each square has examples of an animals' tracks, fur, and diet. Print out and glue the common and scientific name of the animal to the matching front. Laminate to make them last longer!

Give your child photos of each animal or figurines and have match the animal to their correct diet, coat and tracks. For more of a challenge you can cover some of the squares!

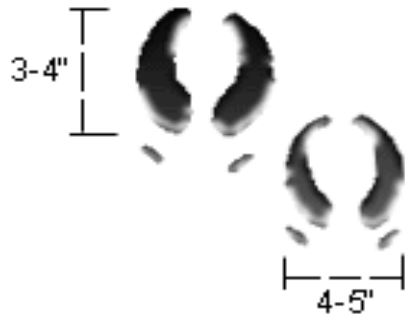

Match the animal to the square.
Flip it over to see if you are correct!

Who is it?
