

Josh,

Can the MPC think about how to identify spaces and places on campus that may not convey our priority on being a respectful, diverse, inclusive and caring environment. We have talked about art in various places but I think there are other things, words, signage, organization that may need to be updated to be more inclusive. Perhaps the MPC create a inclusive campus subcommittee or something.

Chancellors cabinet: I would like to make sure that the MPC has a connection to Chancellor's Cabinet. I am not sure if this is Nickole Conley, University EO, or if it is Cam Wohlford through Jenny or if it is you. Cam does not attend cabinet but that may be something that I can talk to Jenny about. Your thoughts?

Can the MPC connect with Pat Druckenmiller about helping with placement of the Healy bus? I am not sure when it comes and what thoughts are currently in circulation.

Thank you,
Dan
