to me, Kara, Stan

Josh,
cc: Kara Axx and Stan Justice

NCS met yesterday to update the group on COVID-19 procedures for the trails. At that meeting, Stan Justice did a presentation about trail drainage. The committee passed the below resolution to encourage and support Facilities Services to take his advice, money and help. We recognize we do have authority to demand action, but this demonstrates the broad support for this project. It would be nice to see MPC support this resolution too.

Date: September 9, 2020
Resolution Passed:
Ken Tape Motioned
Dan Callahan second
No one opposed

NCS supports the Trails Club efforts to address drainage issues up to and including ditching and culvert installation along the 6-mile trail to Ballaine Lake. The Trails Club is ready to financially support culvert purchasing. UAF XC and Ski team are ready to support with volunteer time. Ideally, this work would be done before freeze-up 2020.

Thanks,
Mark
