MEMORANDUM**Received**

OCT 08 2008

Office of The President

DATE: October 6, 2008

TO: Mark Hamilton, UA President *approved 10/8/08*

FROM: Brian Rogers, UAF Chancellor *[Signature]*

RE: Naming Opportunity on UAF Campus – Viereck Nature Trail

Pursuant to Board of Regents Policy P05.12.080, I am requesting your approval to rename the Calypso Trail the "Viereck Nature Trail." in honor of Les and Teri Viereck. The trail is located in the North Campus area, an area the Viereck's utilized for recreation, as well as research and education.

The attached recommendation of the UAF Master Planning Committee and petition reveal the great amount of support that is behind this renaming proposal. Les Viereck, who passed away recently, was a respected UAF researcher, instructor, and forest ecologist who authored the classic Alaska Trees and Shrubs. He is noted for being one of the first to climb Mt. McKinley. Both Les and his wife Teri have been active in the Fairbanks community and supporters of the university for over fifty years. The attached petition details many of the Viereck's other accomplishments.

I leave to your discretion whether this naming request is significant enough to warrant Board of Regents approval. I look forward to your decision. Thank you.

Re: MPC recommendation 08-08 – Viereck Nature Trail

At its September 11, 2008, meeting, the MPC considered the motion of the North Campus Subcommittee to rename the Calypso Trail after Les and Teri Viereck. The subcommittee's motion proposed to rename the trail the "Les and Teri Viereck Boreal Forest Trail" and to accept the use of memorial funds to upgrade the interpretative signs on the trail. Two maps are attached that portray the location of the trail.

MPC members discussed not only the wording of the trail's new designation, but the need to improve upon the existing interpretative signage and that it be consistent with other campus nature trails. There was strong support to honor the Viereck's in such a fitting manner. The MPC unanimously passed the following recommendation:

The Master Planning Committee strongly supports the motion to rename the Calypso Trail after Les and Teri Viereck. We recommend the name "Viereck Nature Trail" be adopted.

Furthermore, we recommend that appropriate committees (MPC, CLOA, North Campus, Botanical Garden, etc.) and Facilities Services develop guidelines for interpretative signage, improvements, and maintenance of the Viereck Nature Trail and other nature trails on campus.

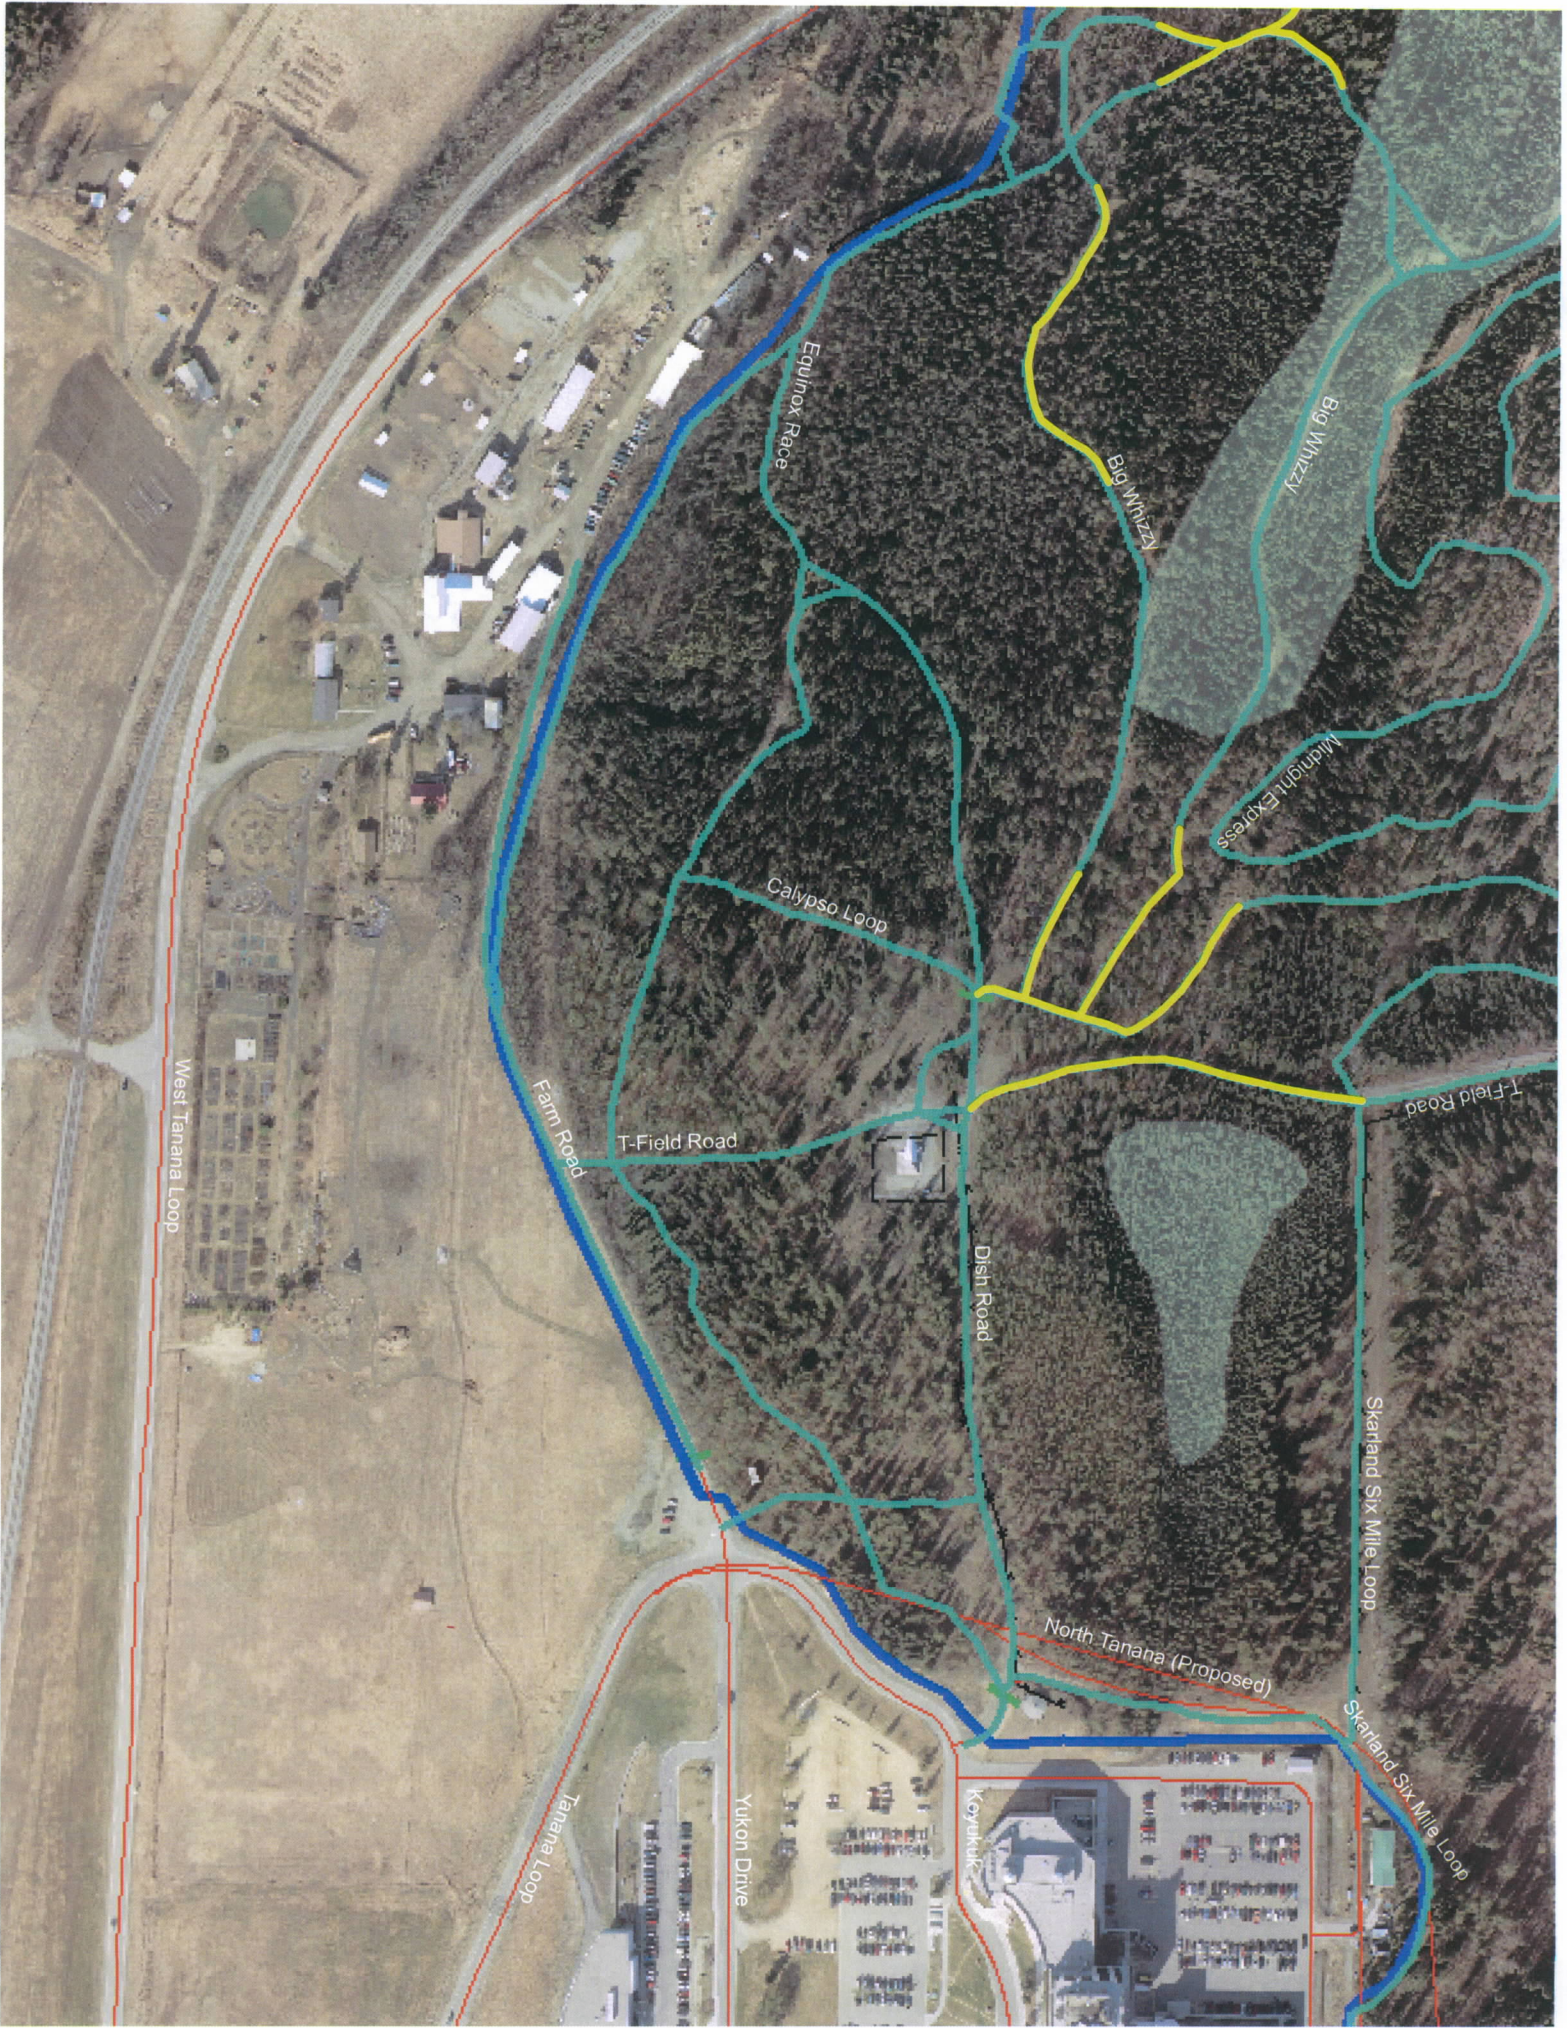

Subsequent to MPC's meeting, the North Campus Subcommittee alerted me to a petition, a copy of which is attached, supporting the renaming of the Calypso Trail in honor of the Viereck's.

September 22, 2008

On behalf of the MPC, thank you for your consideration of this recommendation.

UAF SUMMER TRAILS

This map shows many existing recreation trails and access roads. UAF's multi-use north campus area is home to many research projects and is a valuable area for education. Please respect and do not disturb the numerous scientific research projects, plots, markers and equipment out in the north campus lands. For more information about the north campus area and the trail system visit www.uaf.edu/mastplan/northcampus/.

Help UAF maintain and improve the trails!

Updated 7/2008

Request to the UAF Interim Chancellor Brian Rogers through the North Campus SubCommittee and Master Planning Committee.

Because of:

1. Les Viereck's many years of expertise in boreal forest ecosystems,
2. Les' accomplishments as a forest ecologist and his impact on vegetation mapping, plant identification and analysis for the state of Alaska,
3. Les' work to establish the UAF Boreal forest arboretum in the North Campus area,
4. Les' research in tree hardiness and establishment of the T-field exotic tree plantation in the North Campus area,
5. Teri's dedication to research and education into Alaska native plants and their edible and medicinal uses,
6. Les and Teri's more than 50 years of support for the UAF and Fairbanks communities,

We propose that funds raised to honor Les Viereck be dedicated to establishing the Les and Teri Viereck Boreal Forest Trail in the North Campus area, UAF. This project includes re-naming the existing Calypso Trail and implementing plans for expanded interpretive signs throughout the North Campus and Boreal Arboretum to educate students, visitors, faculty and staff on the Alaska native plants and boreal forest ecology.
