Re: MPC Recommendation 2012-04 – Temporary placement of modular office unit for the Institute of Northern Engineering

*The MPC recommends approving the Institute of Northern Engineering's request for temporary placement of a modular office building at the proposed site of the future Energy Building (close proximity to the Energy Technology Test Center). Consideration should be given to minimize the visual impacts from Tanana Loop (i.e., placing it in a North/South direction versus East/West).*

Motion made by Gary Newman, seconded by Bill Schnabel.

Motion passed unanimously.

Thank you.
