Re: MPC Recommendation 2013-06 – Honors House storage shed

The UAF Master Planning Committee recommends approval of the placement of a 320 square foot storage shed at the west end of the Honors House on Copper Lane, contingent on construction occurring through a process approved for temporary University buildings. This recommendation is contingent on the review and approval of the structure by Risk Management and Design and Construction. It is understood that this MPC recommendation is for this site only and that the future use of the storage shed will be revisited when the Honors House is relocated.
