Re: MPC Recommendation 2018-02, GBG Improvements

The Master Planning Committee recommends that the Georgeson Botanical Garden (GBG) Society's currently planned improvements for Drew Plaza improvements be approved. We encourage the GBG society to consider including formal bicycle parking in the planned improvement.

We further recommend that the GBG Society begin discussions with appropriate university personnel such as the AFES Director, the farm manager, Reindeer Research Program Director, and Summer Sessions Director to develop a circulation plan that includes expanded parking to accommodate daily visitation and special events at the garden and other farm attractions. The MPC would welcome the opportunity to facilitate the meeting.
