Re: MPC Recommendation 2018-03, Moore Hall rooftop antenna

The Master Planning Committee supports the placement of antenna, microwave dish and associated cell equipment owned by Sprint on the Moore Building rooftop. UA Land Management is the contact for contractual issues and UAF EHSRM will be the contact for maintenance /installation issues. Sprint will be responsible for removal of the antennae and equipment at the end of its lifespan. The MPC notes that the exclusion zone and placement of the antenna should be established by UAF EHSRM and Design and Construction prior to installation.
