

Acknowledgements

The UAF campus master plan is a product of efforts by many that have spanned almost three years. From initial discussions regarding the need for an updated plan to the finalization of virtually a new plan, thanks are due to those on the following lists. As with any project of this magnitude, there may be individuals whose names were overlooked. We apologize for any oversights, but please accept our general acknowledgement of your contributions.

First and foremost, thank you to all of the students, faculty, staff, alumni, and community members who provided their valuable comments. A special thanks goes to those who took time out of their busy schedules to take photos of campus for the Participatory Photography Project.
