

Let us bring the museum to you!

Enhance your school's science night or other special event. We can provide a museum educator and activities for a complete event, or complement your existing plans with an educator and single activity.

UAMN Science Night

Complete event with six activities. Staffed by a museum educator and volunteers from your school. *Planning guide and flyer provided.*

Duration: 2 hour event **Cost:** \$500

We will provide hands-on activities to be staffed by your volunteers. An educator will be present to set up, train your volunteers, and answer questions throughout the event.

Choose A Theme:

- **Art & Science**
Explore relationships between art and science through creative activities.
- **Aurora**
Learn how the sun helps create northern lights on Earth, and other secrets of the aurora.
- **Climate Science**
Discover how climate affects our world. Investigate albedo, sea ice, and more.
- **DNA**
Explore the building blocks of life. Learn what genes do and how genetic material is preserved.
- **Museum Collections**
See specimens! Investigate how museum researchers make new discoveries.
- **Nanoscience**
Discover the science of the very small. Explore how nanotechnology impacts our lives.
- **Outer Space**
Explore our solar system and beyond on a journey out of this world.

UAMN Science Activity

Single station. Staffed by a museum educator.

Duration: Up to 2 hours **Cost:** \$100

All activities incorporate hands-on learning and encourage interaction between family members. Inquire about available activity topics!

All costs are for events in the Fairbanks area. Contact us to discuss travel fees for other areas.
