

# ARTSci TEEN Workshops

Discover a new skill. Register for a single workshop or the whole series.

## Op Art, November 11 • 12-2pm

Discover the science behind optical illusions. Find out about the history of op art and the work of op artists. Learn drawing techniques to create your own optical illusions.

## Gyotaku, January 20 • 12-2pm

Explore the Japanese art of fish printing. Discover fish anatomy and how art can be a record of our world. Go beyond the basics to discover the fine art of nature printing. Make your own prints using block printing ink.

## Paleo Art, February 17 • 12-2pm

See the special exhibit, *Cruisin' the Fossil Coastline*. View artwork of Ray Troll and learn how paleo artists represent animals of the past. Work with patterns and color to create art with chalk pastels.

**For ages 13-18.** Parents/guardians must sign a registration form.  
*No experience necessary. Instructions and materials will be provided.*

**Cost: \$20** (non-members), **\$15** (UAMN members)

*Pre-registration required. Space is limited.*

Register online: [bit.ly/uamnartsci](http://bit.ly/uamnartsci)

*These Monday events coincide with no school days for the Fairbanks North Star Borough School District.*
