If you have a physical or learning disability, please advise me in writing of any special consideration necessary by the beginning of the second class. I will do everything possible to accommodate you in accordance with the Americans with Disabilities Act.

This class covers the major laws and policies governing the management of federal public lands and resources. The goals of the course are to gain an understanding of the agencies that manage the different land units and resources and the laws which animate their management strategies. Additionally, we will cover important issues that affect public lands in the Western United States and Alaska.

Class Schedule

Thursday January 16

Thursday April 24

13. Coastal Zone Management
- Coastal Zone Management Act (CZMA) [Reading Packet 312-319]

Tuesday April 29

Review for Final

Thursday May 1

In Class Final Exam

Course Requirements and Grading:

Textbooks:

There is a required reading packet which I will hand out in class, and a text book that you must purchase entitled *Crossing the Next Meridian: Land, Water, and the Future of the West*, by Charles F. Wilkinson (Island Press, Washington DC, 1992). In the syllabus, readings in the text will be denoted as “Wilkinson” and those in the reading packet as “Reading packet.”

Exams:

There will be one midterm exam and one final exam, the final exam is not cumulative. Each exam will account for 30% of your total final grade. Exams will take place in class and will be **closed book**. Exam questions will be drawn from the required readings, lectures, and the classroom discussions. A close understanding of the course material is important as exam questions may require you to apply information you learned in class to new situations, rote memorization will often not be enough to get an A. Exams will include essay and short answer questions. Please make sure that you write legibly as illegible answers may not be graded. There will be no makeup exams, if you are unable to take the exam on the date scheduled and you have a good reason, please see me as soon as possible.

Assignments and Quizzes:

There will be 2-4 take home assignments and 2-4 quizzes worth a total of 30% of your grade.

Assignments will be **open note**, and may require additional research. You may not work together, except to prepare for in-class debates. Assignments must be typed and must be handed in on time. Late work will lose 10% of the total available points each day it is late.

Quizzes will be in-class, pop quizzes. They will be **open note** and will take place in the first 15 minutes of the class period, so timeliness is crucial. Missed quizzes cannot be made up.

Attendance, Preparation, and Class Participation:

Attendance and proper preparation for each class session are mandatory. Regular class participation is strongly encouraged and will impact your grade. Together these three components will make up 10% of your final grade.

Grades:

This course is graded with a letter grade corresponding to the numerical score you receive. This class will use +/- grades.

Extra Help:

If you find, at any time during the semester, that you are having trouble understanding the concepts discussed in class, please see me before you fall behind. I am happy to provide additional explanations and other help to any student who is interested.

Good luck to each of you this semester.
