

Qualified SUBSTITUTE TEACHER CAMPUS CREDENTIAL

University of Alaska Fairbanks Northwest Campus

The substitute teacher campus credential includes 8-credits of coursework focused on training regional residents to be effective substitute teachers in schools throughout the region. Courses help build a valuable foundation for becoming a certified teacher in the future, or continuing as a qualified substitute. Students build confidence, learn basic classroom management skills, lay the groundwork for a degree in education as well as increase employment opportunities! Courses are delivered over a series of semesters.

COURSES

ED F237 C D Technology Tools for Teachers (1 cr)

Comprehensive introduction to various ways that technology can be utilized in the classroom. Students will be exposed to practical computer use such as exploring software, lesson plans, graphics, Internet use and Internet safety. Focuses on Microsoft and Google applications.

ECE F110: Safe and Healthy Learning Environments (3 cr)

Establishing and maintaining safe, healthy and inclusive environments for children ages 0-8. Emphasis is on environments that are developmentally and culturally appropriate and encourage play, exploration and learning. Topics include common illnesses, preventative health care, safety aspects in indoor and outdoor settings as well as on field trips. Laws and regulations relative to course content are included.

ED F111: Teaching For Alaska's Future (3 cr)

Participants will complete a series of six web-based modules introducing and investigating five core practices in place-based teaching and classroom management. For students interested in pursuing a teaching certification program, this course provides an introduction to the profession and an overview of pathways to teaching in Alaska.

ECE F249: Current Topics for Educators (1 cr)

Focus on in-service training offered through school districts to update and train para- professionals and teachers on the use of district curriculum, policies, procedures, etc.
