

*Tuesday Tips* is a new outreach effort by OGCA. The idea behind *Tuesday Tips* is to convey tips, tricks and other helpful information around the area of research administration. Our goal is to post on (almost every) Tuesdays. If there is something you would like to see covered on *Tuesday Tips*, email: [UAF-GCReATE@alaska.edu](mailto:UAF-GCReATE@alaska.edu). For more Tips visit [OGCA website](#).

## NIH Resource Sharing Plan

As a reminder, NIH has specific requirements for when to include a Resource Sharing Plan in a proposal submission. Any proposal that includes \$500,000 or more in direct costs (exclusive of consortium F&A) in any budget period is required to include a Data Sharing Plan. Any proposal where the development of model organisms is anticipated must include Sharing Model Organisms plan. All proposals that includes research efforts that will generate large-scale human or non-human genomic data must provide a Genomic Data Sharing (GDS) plan.

Please view the General Instructions for NIH and Other PHS Agencies (currently, [Forms Version F](#)) document for more information.

Per [NOT-MH-19-033](#), all proposals involving human subjects submitted after January 1, 2020 are required to include a Resource Sharing Plan if the proposal is submitted or referred to NIMH.
