Phys 212X: General Physics II Syllabus
Fall 2021

Instructor Information
Instructor: Wang Xu (Caleb)
Email: wxu3@alaska.edu
Office Location & Hours: REIC 110, TBD

General Information
Course Description
Physics 212 is a 4 credit course. In the first part of the course, you will learn basic thermodynamics, including the 3 laws of thermodynamics and applications to some problems as temperature, the efficiency of engines, and the fate of the universe. Then the course will explore electricity and magnetism. We will start by discussing electrostatics, followed by DC circuits and magnetostatics. Then we will talk about the interactions between electric fields and magnetic fields, which will lead to AC circuits. We will then end the semester with an introduction to Electromagnetic waves.

Lecture Schedule
Lectures: REIC 201/Mondays, Wednesdays, and Fridays, 5:50 pm - 6:50 pm

Required Text
Physics for Scientist & Engineers w/Mod Physics 4th Ed., Knight

Grading Policy

</tr>
</tbody>
</table>

Your final grade for this course will be based on a curve. The average of the curve will be the breakpoint between letter grade B- and C+. The standard deviation of the grade point distribution will separate subsequent letter grades.

### Additional Requirements & Policy

**Homework:**

On average, 8-12 problems will be assigned each week on **Friday**. The homework will be due by 5:50 pm the following **Friday** and you need to submit it on the blackboard. **NO LATE HOMEWORK WILL BE ACCEPTED. NO EXCEPTIONS** (barring emergencies and extreme situations). Group work is encouraged for solving problems. Students are welcome to consult the instructor during office hours or by appointment for additional help with homework. All homework you submit should reflect your own work. Copying of homework is absolutely not acceptable and will result in a grade of ZERO for the assignment.
Quizzes:
11 short quizzes will be given in class during the semester. They will be open-book quizzes, and calculators will be allowed. The quiz material given will be similar to the recent homework or topics covered in class. All necessary formulas will be provided.

Exams:
There will be two midterms and a final comprehensive exam. The first midterm will test the material covered in the first 4 weeks, and the second test will cover the material in weeks 5-11. The final will include material covered from the beginning of the semester, with more weight on the material covered after the second midterm (weeks 12-15). NO MAKEUP QUIZZES OR EXAMS WILL BE GIVEN. If the student must miss a quiz or an exam and the student has a legitimate reason, prior to the exam, the student must notify the instructor that the exam will be missed. The student must present written verifiable proof of the reason for missing the exam, e.g., a doctor’s note, police report, court notice, etc., clearly stating the date AND time of the mitigating problem. If these conditions are met, the score on the comprehensive final exam will be substituted for the quiz or exam the student missed. Otherwise, a ZERO score will be given for the missed quiz or exam. In the event the Final Exam is not taken, under rare circumstances where the student has a legitimate reason for missing the final exam, a makeup exam will be administered.

Laboratory:
The laboratory is an integral part of this course, and each student must register for and attend the lab section. All labs and reports must be completed on time. Every effort must be made to make up a lab during the same week if possible. The last week of the semester will be set aside for makeup labs. ALL LABS MUST BE COMPLETED IN ORDER TO PASS THE COURSE. Questions about the lab should be directed to your TA.

Student Code of Conduct:
You are expected to submit work that is your own and properly acknowledge the work of others. You are responsible for understanding and adhering to the Student Code of Conduct that is printed in the UAF Course Catalog. Violations of the Code will be reported to the Dean of Students.

Disabilities Services:
If applicable, it is your responsibility to arrange for these services. The UAF Center for Health and Counseling provides services for UAF students with disabilities to ensure equal access to educational opportunities. The Center’s Disability Services Program ensures compliance with §504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990. If you believe you are eligible for 504 and/or ADA accommodations, please contact them at 474-7043 (WHIT 203).
