|      |              |                    | Episcopal Church ordained Frank as its first female Native American priest. In her various roles, Frank has served as a counselor, confidante and source of spiritual strength. She has served on the boards of numerous organizations, including the Denakkanaaga elders group and the Alaska Commission on Aging. At UAF, she has been an elder advisor to the rural human services program.   |                            |       |
| 445. | 2019         | Richard Carstensen | A Southeast Alaska naturalist who has made the region's ecological, cultural systems and landscape evolution his primary field of research. He is the co-founder of and senior naturalist for Discovery Southeast, an organization that promotes environmental education, research, and awareness. He is a renowned cartographer, researcher, and innovator. Carstensen has had a career of over 40 years, working with numerous state and federal agencies, private companies, and educational institutions in sharing his knowledge and methods. Carstensen's educational focus includes study of biogeography, landforms, natural communities, forest, alpine and stream ecology, birding, mammals, wild edibles, tracking and sign interpretation, GIS mapping and air photo interpretation, journaling, and field sketching. His pioneering use of drone-assisted aerial photography was used to locate and catalog some of the Tongass National Forest's oldest and tallest trees. In this effort he was updating previous work on the Landmark Tree Project, a decade long, science-based effort to map the old-growth evergreens of Southeast Alaska.  | D. Sciences                | UAS   |
| 446. | 2019<br>Fall | Margaret L. Brown  | A lifelong Alaskan of Yup'ik descent, Margaret "Margie" L. Brown is from Takotna, a small village in central Alaska. She earned a bachelor's degree in biology from the University of Oregon and a Master of Business Administration from the University of Colorado. In 1976, Brown joined Cook Inlet Region Inc. (CIRI), where she was enrolled as an Alaska Native shareholder, not long after CIRI was established under the Alaska Native Claims Settlement Act of 1971. After joining CIRI as an assistant land planner, her business skills established her ability to take on leadership roles and she quickly rose through the company's executive ranks. Brown was named president and CEO of CIRI in 2005 and served in this role until her retirement in 2013. During her long tenure at CIRI, Brown helped implement the Cook Inlet Land Exchange, considered to be one of the largest land-exchange deals in U.S. history. Brown has served on many boards during her career. She currently serves as vice chair of the CIRI board of directors and chair of the CIRI Settlement Trust. She has served on the board of Alaska Communications, the national boards of The Student Conservation Association and the Smithsonian's National Museum of the American Indian. She also serves on the advisory board for the Alaska Airlines and has served on the advisory board of the University of Alaska Anchorage Honors College. | D. of<br>Humane<br>Letters | UAA   |
| 447. | 2019<br>Fall | Peter A. Michalski | Michalski earned his B.A. and J.D. from the University of Minnesota. Michalski came to Juneau in 1971. He served as a legal asst. and asst. attorney general there for two years, then moved to the Fairbanks District Attorney's Office for four years. In 1977, he moved to Anchorage to open the Department of Law's new Office of Special Prosecutions and Appeals. In 1985, Gov. Bill Sheffield appointed him to the superior court of the State of Alaska. Over the next 27 years, Judge Michalski presided over every type of case in the superior court and many cases of significant statutory and constitutional interpretation. Since retirement in 2012,   | D. of<br>Humane<br>Letters | UAA   |

|      |      |                                 | Michalski has served on the board of the Anchorage Museum Association, the Anchorage Museum Foundation and the Alaska Community Foundation, which he currently chairs. Michalski and his wife Jo donate to and support a variety of community organizations including the University of Alaska, the University of Minnesota, the Anchorage Museum, Alaska Public Media, Alaska Legal Services, the Alaska Institute for Justice, the Anchorage YWCA, the Awesome Foundation of Alaska and the Alaska Community Foundation. The Michalski's were honored with the 2019 Shining Lights Award given to Alaskans dedicated to improving the world and demonstrating the highest level of character, integrity and ethics. In 2007 they were honored as philanthropists of the year by the Association of Fundraising Professionals at the National Philanthropy Day Awards Luncheon.   |                      |       |
| 448. | 2020 | Jean Pollard                    | Pollard is a UAA alumna, retired school counselor and administrator. Her experience in both education and history have coalesced in her lifelong efforts to raise awareness about the African American troops who helped construct the Alaska Highway during World War II. Thanks to her work as the lead organizer for the Alaska Highway Memorial Project, scholars now broadly agree that the story of African Americans in Alaska during WWII quite literally paved the way for the modern civil rights movement. Her Alaska History Project includes a curated, online archive of footage, photos, documents and memorabilia that recount the experience of black soldiers in WWII-era Alaska. In spring 2017, Pollard's efforts were realized when Gov. Bill Walker signed into law Senate Bill 46 to establish African American Soldiers Contribution to Building the Alaska Highway Day, a state day of commemoration to occur annually on Oct. 25.  | D. of Humane Letters | UAA   |
| 449. | 2020 | Molly "Mary Elizabeth" McCammon | McCammon came to Alaska in the early 1970s as a young journalist. She became a homesteader and wilderness guide in the remote Brooks Range and a public policy specialist working for the governor and legislature to develop natural resources and fisheries policies. McCammon is most proud of contributing to Alaska's wild fish priority statute, subsistence priority and community development quota program. When the Exxon Valdez oil spill occurred, she stepped up to become executive director of the Exxon Valdez Oil Spill Trustee Council — a position she held for 10 years. In that role, she administered one of the largest habitat protection programs in the nation and developed an oil spill restoration and long-term monitoring program now viewed as an international model. Currently, McCammon serves as Alaska representative to the U.S. Integrated Ocean Observing System (IOOS). Her primary role is executive director of the Alaska Ocean Observing System, an organization she founded in 2003. Most recently, she received the Walter J. and Ermalee Hickel's Lifetime Achievement Award by the Alaska Sealife Center. | D. of Humane Letters | UAA   |
| 450. | 2020 | John Torgerson                  | John Torgerson has honorably served his state, communities and the nation with great distinction. An Alaska resident since 1950, Torgerson has lived in Fairbanks, Seward and currently Kasilof, where he's resided since 1975. Torgerson has a long list of roles include   | D. of Laws           | UAA   |

|      |      |                     | <p>serving as chairman of the Alaska Redistricting Board, special assistant to the Commissioner of Transportation, acting director of the Alaska Vocational Technical Center, acting executive director of the Kenai Peninsula Economic Development District, executive director of the Kenai Peninsula Economic Development District and a member of the Kenai Peninsula Borough Assembly. He also served ten years as an Alaska state senator and was chairman of the Resources Committee, chairman of the Joint Committee on Natural Gas Pipelines, co-chair of the Finance Committee and vice chair of the Labor and Commerce Committee. From April 2018 to April 2019, he was as the interim federal co-chair of the Denali Commission, which was established by U.S. Congress in 1998 to fund economic development and infrastructure in rural Alaska and serve as the lead agency to assist communities facing coastal erosion, flooding and permafrost degradation threats. Torgerson was nominated for the position by Alaska's congressional delegation and appointed by U.S. Commerce Secretary Wilbur Ross. Torgerson's long-lasting impact, while co-chairing the Senate Finance Committee in 2000, he authored and sponsored legislation creating the Technical Education Vocational Education Program.</p> |                |       |
| 451. | 2020 | Clark Gruening      | <p>Gruening is known throughout Alaska for his contributions to our state. Born in California, but raised in Juneau, Clark graduated from Juneau Douglas High School in 1961. University of Oregon granted him a bachelor's degree in political science in 1965, and he earned his Juris Doctor with honors from George Washington University in 1969. Clark is the grandson of the well-known Ernest Gruening, who was the Alaska territorial governor from 1939 to 1953. Clark served two terms in the House of Representatives for the Alaska Legislature. During this time, he was key to the creation of the Alaska Permanent Fund. There is a long list of his contributions to our state's philanthropic and public service sectors, including many years of work with the Juneau Community Foundation, the Foraker Group, Southeast Alaska Independent Living (SAIL) and Outdoor Recreation Community Access (ORCA), among many other organizations.</p>  | D. of Laws     | UAS   |
| 452. | 2020 | Randy J. Brown      | <p>As a young man, Brown lived a remote subsistence lifestyle near Eagle, Alaska. After he and his wife and family moved to Fairbanks, he studied at UAF and earned a bachelor's degree in biology and a master's degree in fisheries science. While working at the Fairbanks Fisheries Office of the U.S. Fish and Wildlife Service, he established himself as a preeminent fisheries biologist in Alaska, documenting his work with 21 peer-reviewed journal publications and numerous agency reports. Throughout his career, he has served as a mentor to UAF students, a valuable contact for researchers and a facilitator of dozens of projects on federal lands. His projects have greatly increased information about many Alaska fish species, providing for both resource conservation and user harvest opportunities.</p>  | D. Sciences    | UAF   |

|      |              |                   | and respect for sea ice. After supervising energy programs for villages throughout the North Slope Borough, Glenn joined ASRC in 2001. As executive vice president of external affairs, he is responsible for all facets of government affairs, corporate communications, and has served as an invaluable presence at the interface between Inupiaq and Western science and engineering. A certified professional geologist in Alaska, he earned a master's degree in geology from UAF and has been appointed twice to the U.S. Arctic Research Commission.  |                            |       |
| 454. | 2020         | Willie Kasayulie  | Kasayulie grew up attending Bureau of Indian Affairs schools in Akiachak, Wrangell, and Chemawa, Oregon, before completing his high school education in Vermont. Since then, he has had a long and distinguished career promoting the health and welfare of indigenous people through service, activism, advocacy and reform. He is one of the founders of the Yupiit Nation and served as its chief. He has served with many other organizations and agencies at the community, state and national levels. A tireless advocate for Alaska's public school students, he has served on the board of the Yupiit School District and was a plaintiff in a lawsuit to correct injustices he saw in Alaska education funding. His many honors include a Citizen of the Year Award from the Alaska Federation of Natives and the Champion of Equal Rights Award from the Alaska Civil Liberties Union.   | D. Educatio                | UAF   |
| 455. | 2020         | Patrick J. Webber | Webber, a professor emeritus from Michigan State University, has spent his long research career focused on the Arctic and cold regions. Born in England, he became a naturalized U.S. citizen in 1992 and has long considered Alaska as his "home base" for research. He is recognized as a pioneer in the study of Arctic vegetation, including studies to evaluate the impact of the Prudhoe Bay oil field on plant and animal ecosystems. During four years as a program director at the National Science Foundation, Webber fostered the growth of funding for Arctic research and advised investigators and institutions about proposal strategy and opportunity. This greatly benefited Arctic sciences, many UAF faculty and students, and the Toolik Field Station. His many leadership positions included the presidency of the International Arctic Science Committee from 2002-2006. In 2010, he received the first International Arctic Science Medal. | D.
