

Rahi 2002 Challenge Yourself

"Big Jim" Kowalsky Director

Big Jim received his Bachelor's/Masters degree in music from the University of Wisconsin, Madison. He taught music in the public school for eight years, and at the college level for six years. He was an environmentalist for 7 years. He is a professional trumpet player and has worked for the Tanana Chiefs Conference for 6 years. After RAHI he plans to continue remodeling his house.

He is married and has three children. He likes music, reading and bicycling. His message to the students is "that it is a really rewarding experience to see you come to RAHI and to watch you make your best efforts, they were your best, RIGHT? Take time to think about your future, make a plan, and follow your plan, to stick to it. Amend it as needed, but have a plan. Good luck to you. Stay in touch with RAHI and ask us for help with educational plans."

The Students of RAHI 2002

Crystal E. Alstrom
From: St. Marys / Sitka

Best part of RAHI: The prep for college and the friends that I made.

Future goals: To join the Navy, get them to pay for my college, go to college, graduate and then get a man, get married and pop out some kids today.

Karl Louis Alstrom
From: The small Yup'ik village of Alakanuk, AK

Best part of RAHI: I would have to say the best part of RAHI was the rafting.

Future goals: To graduate Barrow High School as Valedictorian and to be happy with my accomplishments, living life to the fullest.

Yvonne Reneei Ashenfelter "Galsy"
From: White Mountain, attend Mt. Edgecumbe High School

Best Part of RAHI: Getting a feel of what college will be like. It helped me out a lot. Now I know what to expect. I can't forget all the awesome people I have met here. It was a fun six weeks that I'll always remember.

Future goals: Go to college, don't know where yet, to become an optometrist or maybe an architect.

Arlo Blake Beetus
From: Originally from Hughes, Alaska now residing in Fairbanks, Alaska.

Best part of RAHI: I like a lot of things; it is hard to pick a few. If I had to it would be Native Dance Class, Twin Bears, and teasing 'Tricia.'

Future goals: I plan to earn a degree in aeronautical science at UAA. I would also like to earn degrees in political and environmental science from UAA. Marry a nice girl and raise a cup of pups! I just hope I get old!!!

Karen Bergman
From: Atiakaket

Best part of RAHI: Shopping.
Future goals: I don't know.

Danann Blandov
From: Metlakatla, Alaska

Best part of RAHI: My favorite activity was going white water rafting!
Future goals: Finish high school and go to college.

Dustin Boeshart
From: Dillingham, AK

Best part of RAHI: Learning valuable skills that will help me throughout my college years.
Future goals: To become an officer in the USAF.

Patricia Campbell
From: Fairbanks - All my life!

Best part of RAHI: One rule in my life is to not pick favorites and in this case I cannot. Everybody is extremely nice, and I enjoyed talking with all of them. Even though the work was hard, it was exactly what I need to prepare me for college. I enjoyed the water fights with Dallas and Sam, maybe someday I will get Dallas back for putting cheese in my hair. Twin bears was great, but I really don't like being teased, Arlo.
The whole experience good and bad was the best part.

Charlene Chamberlain
From: Aniak (a.k.a. Middle of No-where)

Best part of RAHI: In my view, the best part of RAHI would have to be the chances that I got to sleep.
Future goals: In my future I can see myself married to a millionaire, living a great life. Well, it's a goal.

Jolene Chikigak
From: Alukanuk

Best part of RAHI: Going to Twin Bears and getting tipped over in the canoe. Also playing the Fun Olympics games, especially the watermelon game.
Meeting new people!
Future goals: Passing DEVS 104 and 108 and major in acting or something else with business management.

Anita M. Fisher
From: King Cove

Best part of RAHI: The best part of RAHI is learning new things and making lots of new friends from all over the state.
Future goals: My future goals are to graduate from high school. I would like to work with small children later in life. It was my first time ever on white water and I enjoyed every moment of it.

Cheryl Renee Foster
From: Kotzebue, Alaska

Best part of RAHI: The activities, even though we didn't have many they were fun. RAHI gave me a great experience of what college life is like.
I love you TC's.

Marjeena K. Griffin
From: Kodiak Island

Best part of RAHI: Rafting, my roommate, and spending time with my friend that I have not been able to see for eleven years.

Future goals: I want to be a pediatric traveling nurse or a CNA.

Mary Beth Hiratsuka
From: Dillingham, Alaska

Best part of RAHI: Meeting new people was definitely the highlight, but also the personal challenges that RAHI provided have made me feel more prepared for college.

Future goals: Ideally I would like to attend college on the East coast, study law and political science, possibly go in to the Peace Corp. and travel.

Allana Hefley
From: Sitka, Alaska

Best part of RAHI: The best part of RAHI was not one thing in particular but rather the combination of a variety of things. One such thing is that the lessons learned in RAHI will be helpful not only in terms of college, but also in terms of life in general. Another wonderful aspect of RAHI is that it provided the opportunity to meet people who I would otherwise never have met and who (hopefully) may now end up being life-long friends.

Future goals: To travel and experience a wide variety of what the world has to offer, to live life as I want to, not as society tells me I should, to help others along the way, to be successful in whatever I decided to spend my life doing, and to have a good time along the way!

Mariecris Dela Rosa Hernandez
From: Barrow, Alaska born in San Diego, California

Best part of RAHI: Staying up until three or four in the morning then sleeping the whole day on Saturday to make up for it, that and Maria's breakfast, yum!

Mylon T. Kingeekuk
From: Savoonga, Alaska

Best Part of RAHI: First the education and fun, second the friends.
Future goals: To become a mechanical engineer and a teacher.

Angelina Lott
From: Palmer / Tuluksak

Best part of RAHI: Meeting good friends and of course being prepared for college.
Future goals: Right now I am just focused on getting through college.

Denali Malinowski
From: Chitina

Best Part of RAHI: Meeting new people and hanging out with people. The friends I met here will last forever.
Future goals: Law school

Matt Russell
From: Metlakatla

Best part of RAHI: Learning lots, meeting new people, making friends, going rafting, and swimming class
Future goals: Go to college, most likely to become a teacher

Nathan Moran
From: Metlakatla

Best part of RAHI: Extensive shopping at value village, free food, the hilarious idiocies of a TC whom shall remain nameless, repeated nights completely devoid of anything even slightly resembling sleep, free cash weekly, a roommate who redefined my definition of "odd," a teacher who redefined my definition of "academic brutality," people who actually understand what I mean when I talk technical and a nice weekend spent next to a mosquito infested lake.
Future goals: To amass vast fortunes and live life in the lap of luxury, sipping wine and eating cheese.

Minnie Lucy Naylor
From: Kotzebue, Alaska

Best part of RAHI: meeting new people, eating the wonderful Wood Center food, hehe just kidding, winning musical chairs, just kidding again.
Future goals: I plan to go to college, but I am undecided on what to major on. I want to go to Australia and stay there for a couple of months.

Tiffany Nicolos
From: Barrow, Alaska

Best part of RAHI: Discovering that I might be able to handle college.
What are your future goals: Go to Vassar College in NY. Major in psychobiology/physiological psychology with honors.

Dallas Ningealook
From: Shishmaref, AK

Best part of RAHI: Meeting all the people and learning material that I need for college.
Future goals: Graduate from college and become an elementary school teacher.

Karen Rose Okitkun
From: Kotlik

Best part of RAHI: Meeting staff and students and doing those papers, not. Learning everything I need to know before going to college. To all my friends, I'll miss you guys, but hopefully I'll see you again. Thanks to everyone who helped me and those who made me smile. I had so much fun and I will never forget you guys.
Future goals: Go to college next year and major in elementary education.

Jonathan Richar
From: Trapper Creek

Best part of RAHI: The best part of RAHI is the people – the students, the staff and the teachers.
Future goals: A master's degree in Marine Biology, then perhaps a Ph.D., preferably from UAF.

Charles D. Seater
From: Nikiski

Best part of RAHI: Being here and meeting new people.
Future goals: I plan to go to college and major in civil engineering and minor in computer science, along with a certificate in architecture/civil drafting. I plan to get married and live a happy life.

Charis Lynae Sheldon
From: Noorvik, Alaska

Best part of RAHI: Going to Twin Bears and not having to worry about homework! Also, hanging out with everyone on the weekends. These are my most enjoyable memories at RAHI.
Future goals: Right now I don't have any specific goals, but after I graduate I'd like to further my education and attend college.

Timothy Snowball
From: Saint Michael

Best part of RAHI: Learning and expanding the mind.
Future goals: My main goal is to learn and share the word of God to people.

Laura Sorensen
From: Dillingham / Sitka

Best part of RAHI: Undecided
Future goals: To see the Seven Wonders, to go sky diving, bike across Europe, become fluent in another language, sail around the world, visit every continent and work for the Peace Corps for awhile.

Melissa Tabor
From: Kotzebue, Alaska

Best part of RAHI: The weekend at Twin Bears.
Future goals: Attend and graduate college and visit India

Krystine Tinker
From: Kasigluk, AK

Best part of RAHI: The weekend activities like rafting, camping at Twin Bears and shopping, the staff, and the experience itself.
Future goals: I plan to go to college, law school and become a lawyer.

Sylvia Tuckfield
From: Kiana, Alaska

Best part of RAHI: The whole experience itself, meeting new people and learning different backgrounds. I enjoyed my time here and I encourage others to come. Future goals: I plan to finish high school and go to college.

Ann Wilson
From: Almost every town in Alaska

Best part of RAHI: I enjoyed Mr. Owens math class and meeting new people. Future goals: I would like to graduate from Harvard Medical School and then be a medical officer for the CIA.

Shelly Woods
From: Dillingham

Best part of RAHI: New Friends! With these new friends I had some of the greatest times in my life. Some of the great times were finding a room to skip out on working during study hall. Remember when we just hung out in Matt and Mylon's room and they weren't even in there? Great times friends! I'll always remember you guys and I don't want to think about leaving RAHI. Thanks for all the great games of fooze ball guys! Go STRIKER!

Darren Zibell
From: Noorvik, AK

Best part of RAHI: Making new friends and going on trips like whitewater rafting and twin bears. Future goals: Get into a college with a good basketball program. I don't know about after college.

Iris Janene Lie
From: Kotzebue Alaska!!

Best part of RAHI: White water rafting and twin bears!!!
Future goals: To get into a good college, graduate,
have a great job, marry, and have some kiddies!

Instructional Staff RAHI 2002

George Guthridge
Writing and Study skills/World Knowledge Instructor

George is a Professor of English -UAF. He is a novelist, former science editor and high school English and History teacher. He has a BA in English, MFA in Creative Writing; masters work in business and applied linguistics; doctoral work in Adult Education and rhetorical theory. He plans to continue teaching for UAF. Now in his 23rd year teaching on the college level, Professor Guthridge is recognized as one of the world's leading authorities on using accelerated learning to teach language arts. He has four times been nationally honored for excellence in education, including having been named as one of the 78 top teachers in America, having been co-winner of Alaska's first Outstanding Distance Educator Award, and having been the first Alaskan to receive the prestigious Christa McAuliffe Fellowship

Tammy Thompson
Chemistry Instructor

Tammy has a B.S in Biological Sciences and B.S in Chemistry. She is currently in the M.S program in Molecular Biology/BioChemistry. She plans to attend vet school. After RAHI she plans to teach lab and to have fun. She likes blowing stuff up, tennis, scuba and quilting. Her message to the students is "Remember that you only get one life to lead. Make conscious decisions; don't just let it go by if you are not happy. Pyrotechnics + blowing stuff up helps".

Autographs:

Instructional Staff RAHI 2002

Greg Owens
Academic Coordinator
Math Instructor

Greg Owens is in his eighteenth year of RAHI and his nineteenth year of teaching. He was raised in the Nebraska and attended school in the University of Wisconsin system majoring in math, and minoring in English and coaching. After college he spent a year working as a warehouseman shipping bread wrappers throughout the Midwest. Seeking a change before he totally lost his mind, he taught for two years as a volunteer on the South Pacific island of American Samoa. Seeking respite from the inexorable tropical sun, he then worked a year at St. Mary's, Alaska, in the role of math and English teacher, basketball coach, and boys' dorm assistant supervisor.

Greg is married to Bev and has four children. When not taking his children to soccer practices or swimming lessons, he enjoys reading, fishing, and coaching track (jumpers) at West Valley High School.

He says his students this year are capable, friendly, and focused. He hopes that many will go on to pursue degrees in mathematical and scientific fields.

Howard Maxwell
IT Coordinator
Computer Instructor

Howard is in his twelfth year with RAHI. He attended UAF Graduate school and has worked for Arctic Siumnum (sp) Ilisagvik college as an instructor as well as UAF. He is also a computer consultant and a teacher at Ryan Middle School. After RAHI he plans to golf and go camping with his family. Howard is married and has two children. He likes to play soccer, golf and biking. His message to the students is that he really enjoyed working with the RAHI students this summer. You are a very savvy group of computer users. Keep on Computing and stay in touch.

Instructional Staff RAHI 2002

Ossie Kairaiuak
Alaska Native Art/Dance Instructor

Yupik-Eskimo born in Bethel and raised in Chefornak, Alaska. Yup'ik is my first language and English is my second. I am the youngest of 10 children that Maria and Hilary Kairaiuak produced (my numero uno heros: they're celebrating their 54th year together this October) raised in a subsistence village. I, along with my brother Larry and sister Rose, graduated from UAF with a degree Art-Sculpture.

My love for the Native Culture is apparent in my works and working mostly with youth in teaching Native Arts: Dancing and Fine Arts. I am also a member of group Pamyua that exposed me to the rest of the world for several years. We have 2 albums under our belt, and have been voted local and tourist favorite in an Alaska Magazine December article, and also one of the 10 most important Artists to come from Alaska by Anchorage Daily News.

My message to RAHI students, there are many, many possibilities in the world in what you want to become-especially how we want the world to look at our Native Culture(s) many years from now. I say let the rest of the world say, "WOW!! That is cool!"

Ron Robinson
Computer Science Instructor

Fairbanks has been my home since 1963. I graduated from Lathrop High School in 1965 and completed the requirements for a BS in Computer Science at UAF in 2001. During the years in between, I served in the military as SF Medic, worked in construction, and was employed by Wien Airlines and other air carriers for over 18 years. I have enjoyed working with people (especially kids) as a trainer and a coach. After this year's RAHI, I will be doing volunteer work with Adult Learning Center and the Literacy Council of Alaska.

I have two sons, Patrick and Joshua who are enrolled at the Oregon Institute of Technology in Klamath Falls, OR. Pat, majoring in Software Engineering, is finishing his junior year and is a programming whiz, plus a really good gamer. Josh was awarded a Gates Millennium Scholarship and is finishing his freshmen year but hasn't chosen a major.

Instructional Staff RAHI 2002

Shane Coleman
Chemistry TA

My name is Shane and I teach the Chemistry 100 labs. I live in Fairbanks, but have also lived in Florida and North Pole. My favorite hobbies are snowboarding, music and stereos, my Pit-bulls, and working out. The best vacation I've ever taken was when I went to Arizona to visit my best friends.

In five years I'd like to be starting up a medical residency. I will have just graduated from med school and will be looking for something to specialize in. In ten years it's hard to say... I would hope I'd be on my way to starting a new stage of life. That is, I should be mostly out of debt, out of school, and have my own practice somewhere. There are still so many unknowns for me that it's hard to say exactly where I'll be or what I'll be doing.

No picture available:

Hello my name is Jennifer Fitzgerald, I live in Fairbanks, Alaska. I live in Jillian Square. Some of my favorite things to do are to teach swim lessons for all ages, shopping, going on vacation, and visiting with friends. I love to watch my son play soccer. He has played two games and scored 5 points each game. I hate rainy days and she has a new 2002 Grand AM and its white!!! It gets dirty and I have to clean it 2 times a week!!!!

I have lived here in Fairbanks for 26 years, but I have visited California, New York, and Florida. My next vacation will be to the Bahamas. I usually work two jobs in the summer, and I was told about this program and so I took the job. I love living here, but I get tired of the snow and cold but its not bad if you have auto start. My son is 5 years old and you never know what is going to come out of his mouth or what he is going to do next.

Support Staff RAHI 2002

Denise Wartes
RAHI Administrative Assistant

This Denise's 14th year with RAHI she recently earned her Interdisciplinary Bachelor of Arts Degree in Alaska Native Studies & Business. Her future plans include gaining a Masters in Cross-Cultural Communication at UAF.

Her husbands name is Mark, and they have two children, a son Marwan getting his Ph.D. in geology at University of Wisconsin Madison (doing field work in Brooks Range) and daughter Marita is coordinator of Fairbanks Youth Court. When Denise is not holding RAHI together she enjoys, reading, walking, and computer research.

Statement to students; You can achieve anything you want to, if you want it badly enough.

Autographs:

Dorm Staff RAHI 2002

Sam A. Chanar
Tutor/Counselor

Sam is going on his tenth year working for RAHI. He received a BA in Rural Development from UAF. Since 1997 he has been working as a Grant Writer and Tribal Administration. His future job plans include retiring at the age of 35. He is most likely to be seen wearing a camera and most likely the person responsible for starting the water fights. His message to the students is, "Preparation is one key to success. Prepare for career by finishing higher education and play later! Those who played first have a hard adjustment to career as I have seen in villages".

January Scott
Tutor/Counselor

I am originally from the moon. I enjoy living here on earth much more than when I was in suspension on the moon for 400 years. I was in suspension for the criminal act of creating people. For further punishment, I was sent to earth as a baby human. I was born to the parents Jay and Jennifer Scott in Kake, Alaska.

I spent much of my time playing outside and being followed by domestic dog creatures my parents named Gunnuck and Misty. When I reached adolescence my parents transported me and my sibling sister, Jessica, to the town of Juneau, Alaska.

I attended High School there and graduated in 1996 (go crimson bears!). I then haphazardly chose a college to attend for my undergraduate education. Something inside me (perhaps the transmission from "home"--the moon) told me to attend Reed College in Portland, OR, which I did. I graduated with a B.A. in psychology in 2002. Immediately after graduation, I was transported back to Fairbanks through the very slow, and inefficient method of flying to work with young students at RAHI in Fairbanks, Alaska. It has been 23 years since the entrance into this society which I was accidently responsible for, and I decided that I enjoy it.

Dorm Staff RAHI 2002

Rustin Beam
Tutor/Counselor

While their 1996 brawl created Sean Kennedy's legendary 1/4" interdental gap, it also created Tutor-Counselor Rustin Beam's still-lingering tonsure. Remorse over the incident led to Rustin's harsh humanitarianism; in fact, his revolutionary group-hugging methods are scientifically proven to reduce the RAHI attrition rate. An instructional CD-ROM based on his theories is scheduled for release in 2003 (packet includes soy protein sample and small bandana.)

Instructor of composition, rhetoric, and literature, writing center coordinator, and English tutor, Rustin also shaves his body. Those who laugh at his large silky calves, however, can never beat him in the pool. To supplement his RAHI experience, Rustin studies medieval literary history. He enjoys teaching students foul Old English words over dinner.

Sean Kennedy
Tutor/Counselor

An abridged biography of sean kennedy. I was born in Wisconsin. At an early age I was taken from my family by a group of Chicken McNuggets. I spent my formative years erroneously believing myself to be a McNugget. When I went to UAF for the first and second time I held to this belief. I failed out of college twice.

My third attempt at college proved to be successful. Although I hesitate to define what success means to me I acknowledge graduating without the assumption of my McNuggetness. To what degree I can attribute my graduation to loss of said identity I am unsure.

Not being a McNugget has opened many doors for me. I plan on getting my pilot's license and returning and ill-fitting pair of jeans to Fred Meyer's. That is success to me. When I thought I was a McNugget I was afraid to return things and fly. This is failure to me.

More importantly what is not not failing to me. Not not failing is essentially success and to be successful is to not think you are a McNugget when you are actually human. That is not not failing which is success. Cease cows, life is short.

Dorm Staff RAHI 2002

Larissa Gall
Tutor/Counselor

Born and raised in the icy yet pristine arctic of Kotzebue Alaska. Larissa Gall is currently chasing a degree in Biology at the University of Alaska, Fairbanks. The daughter of James and Natalia Gall, she is the last of her four critical yet loving sisters. Larissa's interests include Chinese paintings, fantasy and science fiction novels, and rock music. In her free time, Larissa paints watercolors, writes short stories, and spends time playing with her attention demanding pair of pet birds who scream in fury when not having their head petting needs attended to.

Sara Rearden
Tutor/Counselor

My name is Sara, but I like to be called Sarasue. I was born September 11, 1980. My hobbies are playing ultimate frisbee, water polo, and broom ball.

My favorite saying is: [silence]

Other favorite things/people:

- * Rustin
- * January's toes
- *this city's got big buildings....I like food....bye!

My Brief History:

I was born and raised in Bethel, Alaska. I was a student in RAHI in 1997 & in 1998. I then started school at UAF in 1998. I will graduate next May (2003) with a Bachelor of Arts in Education. I hope to travel the world when I'm done with school and learn how to scuba dive and fly fish.

Dorm Staff RAHI 2002

Maria Phillips
Tutor/Counselor

My name is Maria Phillips and I am a tutor-counselor for RAHI. I live in Fairbanks, Alaska. Fairbanks will be home until I finish college. I have lived in Sitka, Alaska and Fallon, Nevada. During my down time I like to play softball, volleyball, and any outdoor activities one can imagine.

The greatest vacation that I have ever taken is probably the one I worked the hardest to get. I went to Europe. It was an experience!

My most embarrassing experience as a young teen was the first time I ever went bowling. Instead of throwing the bowling ball down the alley like everyone else, somehow I let go of the ball and it went straight behind me. The ball landed right in the lap of some guy. To this day I'm not very good at bowling.
