Articulation Agreement
2019-2020

University Alaska Fairbanks
Interior Alaska Campus
810 Draanjik
Fairbanks, Alaska 99709

Yukon Flats School District
Po Box 350
Ft. Yukon, Alaska 99740

Purpose:
In addition to the current Tech Prep Agreement between University of Alaska Fairbanks and Yukon Flats School District, we have agreed to add the following course that is within CRCD Construction Trades Technology programs.

1. Yukon Flats School District will follow a UAF Construction Trades Technology curriculum in coordination with the administration and faculty of the University of Alaska Fairbanks pertaining to the following courses on the course below.
2. Yukon Flats School District will teach for the attached outcomes.
3. The attached syllabus will follow the learning outcomes of the university-approved course listed.

1. The attached syllabus will be followed.
2. Yukon Flats School District will provide necessary support for students to be successful in this course which may include computer support, reference books and academic assistance.
3. Interior Alaska Campus will process the registrations.
4. In order to receive concurrent credit, the student will register for the Tech Prep class during the semester in which the competencies will be completed.

COURSE SYLLABUS

Course Title: Plastic and Copper Pipe and Fittings  
Course No: CTT 153  
NCCER Module/s No.: 02106-05  
Credits: 1 (.5+1)  
Prerequisites: None  
Instructor: James Ryan Ford  
Office Hours: by appointment  
Location: Ft. Yukon  
Dates: 02/21-02/28/2019  
Times: 08:30-16:30  
Text: NCCER Plumbing Trainee Guide Level 1 Published Prentice Hall or equivalent course handout related to topics covered.

The (NCCER) National Center for Construction Education and Research is a nationally recognized standard curriculum for more than 37 different crafts such as carpentry, electrical, plumbing, HVAC, insulating, pipeline maintenance, welding, heavy equipment operations, field safety, and construction management.

Course Description:  
This course will provide students practical experience with methods in measuring, cutting, and joining piping; adapting these techniques to various pipe material (copper and plastic) using the approved National Plumbing and Local Building codes. Students will be instructed in plumbing blueprints and diagrams; locating and installing piping in residential and commercial areas. Instructor will follow proper safety practices.

Course Goals:  
Students will acquire knowledge and practical experience with methods in measuring, cutting, and joining copper and plastic piping. Instruction will include the proper care, maintenance, and safety procedures of piping. Students’ understanding and familiarity with these plumbing concepts and applications will support village construction.
**Instructional Methods:**

Instructional method will be a combination of face-to-face instruction/lecture, small group discussions, and practical application in the field. Classroom environment may consist of work tables/desks; overhead projector/LCD projector; wipe boards; TV/VCR; and standard instructional equipment dealing with power tools, drawings, and blueprints.

**Student Outcomes:**

Upon completion of the course students should be able to:

<table>
<thead>
<tr>
<th>Students should be able to:</th>
<th>Evaluated by:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Demonstrate knowledge and use of safety and ethical practices related to plumbing with</td>
<td>Relevant activities, small class projects, and reading</td>
</tr>
<tr>
<td>various hand and power tools used in the plumbing trade.</td>
<td></td>
</tr>
<tr>
<td>2. Identify, interpret, and follow aspects of plumbing blueprints/diagrams to locate/install piping in residential and commercial areas.</td>
<td>Readings, class discussions relevant group activities</td>
</tr>
<tr>
<td>3. Demonstrate correct methods in measuring, cutting, and joining copper pipe; adapting these techniques to various pipe material using the approved National Plumbing and Local Building codes</td>
<td>Readings, small class projects</td>
</tr>
<tr>
<td>4. Demonstrate proper knowledge and use of joining copper and plastic pipes utilizing manufacturing specifications.</td>
<td>Relevant activities and small class projects</td>
</tr>
</tbody>
</table>

**Course Evaluation:**

A letter grade will be issued for participants who successfully complete the course.

<table>
<thead>
<tr>
<th>% of Total</th>
<th>Grade</th>

<tbody>
<tr>
<td>91 to 100%</td>
<td>A letter grade</td>
</tr>
<tr>
<td>81 to 90%</td>
<td>B letter grade</td>
</tr>
<tr>
<td>71 to 80%</td>
<td>C letter grade</td>
</tr>
<tr>
<td>60 to 70%</td>
<td>D letter grade</td>
</tr>
<tr>
<td>59% and below</td>
<td>F letter grade</td>
</tr>
</tbody>
</table>

Total points for the course will be assigned and weighted based on the following:

- Attendance/Participation ............................10%
- Student Activity/Practice ..........................30%
- Return Demonstration for Skill Mastery ..........30%
- Exam ......................................................30%
Course Calendar:

<table>
<thead>
<tr>
<th>Day of Activity</th>
<th>Activity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Day 1</td>
<td>Introduction of students, instructor, syllabus, community needs, evaluation process, reading material, and proper handling of special plumbing tools. Instructor’s demonstrations of methods in measuring, cutting, and joining piping using correct care, and safety procedures. Student activities/practice with tools.</td>
</tr>
<tr>
<td>Day 2</td>
<td>Practical application and group exercises for students measuring, cutting, and joining piping; adapting these techniques to various pipe material (copper and plastic) using safe methods of hand/power tools.</td>
</tr>
<tr>
<td>Day 3</td>
<td>Instruction and practical application in interpreting and following plumbing blueprints and diagrams in measuring, cutting, and joining pipe. Group activities that support knowledge in following blueprints and drawing to locate and install piping in residential and commercial areas. Final exam and instructor evaluation.</td>
</tr>
</tbody>
</table>

Course Policies:

Students are expected to arrive ready to actively participate in discussion of advance plumbing applications and activities. Attendance is a critical component of this course and students must be on time and prepared for the course material.

Support Services:

The instructor is available upon appointment for additional assistance outside normal session/class hours

UAF Disabilities Services for Distance Students:

I encourage students with documented disabilities, including nonvisible disabilities such as chronic diseases, learning disabilities, head injury, attention deficit/hyperactive disorder, psychiatric disabilities, to discuss with me, after class or during my office hours, possible reasonable accommodations.
For more information, please visit http://www.uaf.edu/disability/ or contact a student affairs staff person at your nearest local campus.
You can also contact Disability Services on the Fairbanks Campus at (907) 474-5655 or TTY (907) 474-1827, uaf-disabilityservices@alaska.edu
Professional Conduct:

The following ground rules apply to all students and are designed to ensure a classroom environment conducive to learning for all students:

- Come to class awake, sober and alert. The use of alcohol, drugs or tobacco products is not allowed in the classroom. Do not attend class with the smell of or under the influence of drugs or alcohol.
- If you come to class impaired by drugs or alcohol you will be asked to leave the class for the first offense, and your behavior will be documented. If a second offense occurs, you will be asked to leave the class immediately and your behavior will be referred to UAF Student Conduct for alleged policy violations. Additionally, you may be interim restricted from returning to class pending the outcome of the student conduct process. Students found responsible for policy violations may be removed from the course.

Students who engage in disruptive classroom behavior will be asked to leave the classroom for the first offense, and the behavior will be documented. If the disruptive behavior continues, it will be reported to UAF Student Conduct.

- Disruptive behavior includes, but is not limited to, arriving late to class without explanation; leaving class early without explanation; sleeping in class; use of cell phone during instruction except for emergency purposes; being under the influence of drugs or alcohol; harassment, bullying, and verbal or physical threats to another student or to the instructor.

Every qualified student is welcome in my classroom. As needed, I am happy to work with you, disability services, veterans' services, rural student services, etc to find reasonable accommodations. Students at this university are protected against sexual harassment and discrimination (Title IX), and minors have additional protections. As required, if I notice or am informed of certain types of misconduct, then I am required to report it to the appropriate authorities. For more information on your rights as a student and the resources available to you to resolve problems, please go to the following site:
