myToolik

- Online portal that will allow you to manage all things Toolik under one log-in

- All Toolik residents will have an account in the system

- By March 1 the system will be live for all housing and truck reservations and project management activities. Additional modules will be added as they are developed

Next Steps

- Additional modules
  - Userday and billing summaries
  - Multi-reservation tool
  - Shipping and receiving
  - Common use equipment
  - Snow machine requests
  - Science support requests
  - GIS service requests
  - Lab space assignments
  - And many more…

Next Steps

- Project metadatabase
  - Publications
  - Spatial data
  - Links to data
  - All publicly available and easily searchable
