The UAF Faculty Senate passed the following at its Meeting #56 on March 20, 1995.

MOTION PASSED (Unanimous approval)
==========

ORIGINAL

The Faculty Senate moves to establish the following path for approval of unit criteria for promotion and tenure.

1. New unit criteria or changes to established criteria are submitted to the Faculty Senate Ad Hoc Committee on Unit Criteria.

2. The Committee either returns the criteria to the unit for suggested changes, or approves the criteria and forward them to the Provost for approval. The Provost returns the criteria to the Committee, either asking for suggested changes or approving them. If they are not returned within thirty days they will be assumed to have been approved.

3. Upon return from the Provost, the Committee brings the unit criteria to the Faculty Senate for approval, and then on the Chancellor for final approval.

EFFECTIVE: Immediately on Chancellor's approval

RATIONALE: Unit Criteria have been stranded repeatedly over the last several years, partly because no clear path of approval has been in place. This procedure should make it possible to finally resolve the issue of supplementary unit criteria for promotion and tenure.

The UAF Faculty Senate passed the following at its Meeting #56 on March 20, 1995.

The UAF Faculty Senate endorses the Outreach Working Group's "Definition, Criteria, and Evaluation of Service" with the modification that we do not accept paid consulting in excess of appropriate expenses as consistent with public service.

March 22, 1995

President, UAF Faculty Senate Date

5 February 1995

Dr. John P. Keating, Provost
University of Alaska Fairbanks
310 Signers Hall
Fairbanks, AK 99775-7580

Ref: Definition and Evaluation of Service

Dear Dr. Keating:

The Outreach Working Group which you constituted has finished its review and deliberations of this university's policy on the definition and evaluation of service. Our recommended revision of that policy is enclosed with this letter. We suggest that you forward this draft revised policy to the Public Service Committee of the Faculty Senate with a request for full Senate consideration and approval.

After considered discussion of several drafts of the policy on service, the Outreach Working Group has reached consensus. Enroute to consensus, the greatest discussion occurred over three items; a) distinguishing between good citizenship and public service, b) consulting, and c) the issue of whether activity must be free in order to be considered public service. Although the full discussion of these items addressed many things, we offer this brief rationale for what became the core issue in those discussions. It might be useful for these thoughts to also accompany the revised policy as it moves forward.

Good Citizenship versus Public Service. Although we hope the high quality of our faculty extends beyond the university to the communities in which we live, we believe that public service, just as teaching and research, are defined as part of the professional/disciplinary appointment of the faculty member. Thus the definition and evaluation of the public service component of the faculty member's contract with the university must be made within the context of that faculty member's professional appointment. Although good citizenship, e.g. search and rescue missions or helping youth groups, is laudable and to be encouraged, it is not part of the professional appointment of the faculty and thus should not be evaluated as such. Presently there is conflicting policy and practice which the enclosed revision addresses.

Consulting. Consulting results from the professional credibility of faculty and is often compensated beyond the faculty appointment with the university. The university has established policy allowing and controlling the amount of time available to faculty for consulting. This committee believes that consulting should not be considered as part of a faculty member's assigned workload, but that it is beneficial to the university mission, its public visibility, and to university constituencies to recognize and evaluate consulting effort as a part of a faculty member's professional contribution and thus their professional public service.

Free. The present definition of public service is that it must be free. The committee strongly disagrees. Just as with teaching and research, there is a cost to providing public service. Just as with teaching and research, we believe it is appropriate for the university to compensate its faculty for this element of their appointment and to recover some of those costs. Similarly, when publications or other materials are developed for use by university constituencies, we see nothing inappropriate about recovering those costs. It is recognized that the cost recovery structure might vary between those services and materials provided for broad public audiences such as schools and those for more narrow constituencies such as competitive profit making businesses.

Please let us know if there is additional information you would like from us on this subject.

Cordially,

Hollis D. Hall
Chair

2/6/95

DEFINITION, CRITERIA and EVALUATION OF "SERVICE"

As a public university, and as the State of Alaska's Land Grant, Sea Grant, and Space Grant institution, the University of Alaska Fairbanks fulfills the interrelated roles of education, service, and discovery. The core of a university is its faculty. It is in their hands that resides the primary responsibility for teaching both on the campus and to constituencies off the campus, advising students on how to reach their goals, expanding knowledge through basic and applied research, and transferring the fruits from the process of discovery to those who can benefit from the knowledge gained. It is also the responsibility of the faculty to maintain the standards of quality of the university; to ensure that the curriculum is robust; that the faculty is of national quality and diversity; and that their productivity meets prescribed standards. In this context, the faculty performs its important role of governance. The purpose of this discussion is to articulate, distinguish, and to clarify the expectations for faculty in the several areas of service activity.

SERVICE:

Definition of Public Service: The focus of universities is knowledge; expanding knowledge through research, and delivering knowledge both in the classroom

and beyond the campus. When the university focuses its development or delivery of knowledge on the needs of an identified constituency, it is performing its public service function. Thus for each faculty member, the public service role is tied to his/her professional appointment and, as with teaching and research, the expectation for public service of each faculty member varies with his/her discipline and assignment.

In the context of this definition the following changes are recommended to the University regulations as expressed on page 5 of the 8/18/89 document.

3. Effectiveness of Service

The notion of public service is intrinsic to the land grant/sea grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's constituencies is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

a. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to benefit constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional or academic competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or professional assignment. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community; such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

(1) Providing discipline related information services to adults or youth.

(2) Professionally related service on or to government or public committees.

(3) Applying or interpreting research efforts directed towards industry needs.

(4) Developing or delivering a course directed to a constituency issue.

(5) Active participation in discipline-oriented service organizations.

(6) Consulting.

Evaluation of Public Service: Faculty performance is evaluated periodically, especially when promotion or tenure is being considered. As with teaching and research duties, the quality and effectiveness of public service performance, and not just the activity level, is important in developing a full understanding of faculty effectiveness. It is important that faculty activity reporting be changed to include evaluative elements.

Effectiveness in undertaking public service can be demonstrated by such things as:

(a) Publicly recognized professionally related service to constituencies external to the university, including public and private sector groups, governmental agencies, elementary and secondary schools, boards, commissions, committees, public interest groups, community groups, businesses, and urban and rural residents.

(b) Successful application of knowledge and research by constituencies.

(c) Recognition, awards, and honors from constituent groups.

(d) Reputation among peer deliverers of public service.

b. Definition of University Service

Faculty perform a key role in maintaining the quality and balance of programs at a university. Through essential committees, task forces and cooperative enterprises, it is anticipated that faculty members will be involved in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. Examples of such activity include, but are not limited to:

(1) Service on university, college, school, institute, or departmental committees or governing bodies.

(2) Consultative work in support of university functions, such as expert assistance for specific projects.

(3) Service in management as department head or similar part-time administrator.

(4) Participation in accreditation and program reviews.

(5) Service in support of student organizations and activities.

(6) Academic support services such as library and museum programs.

Evaluation of University Service

Faculty performance is evaluated periodically. When promotion or tenure is being considered, an in-depth evaluation of each faculty member is undertaken. As with teaching, research, and public service duties, the quality and effectiveness of university service performance and, not just its performance, is important in developing a full understanding of a faculty member's total effectiveness.

Effectiveness in undertaking university service can be demonstrated by, but is not limited to, the following:

(1) Active contribution through participation in the work of university committees and task forces, especially in a leadership role.

(2) Effective participation in faculty governance, at the departmental, college, and university level.

(3) Contribution to the mission of the university through collaborative or consultative activities related to the expertise of the faculty member.

(4) Effective service as the head of an academic unit, such as department or program.

(5) Recognized expertise or leadership within the university community.

c. Definition of Professional Service

Professional service is the application of one's expertise to the faculty member's academic discipline or area of scholarly interest and is directed towards the promotion, advancement and improvement of the discipline.

Examples of professional service include, but are not limited to:

(1) Active participation or leadership in professional organizations beyond this university.

(2) Editing or reviewing articles or proposals for professional publications or organizations.

(3) Service on accrediting agencies or as a consultant for discipline-based reviews.

(4) Major role in the development of professional conferences or meetings.

(5) Judging or providing educational expertise for discipline-based exhibitions, contests or festivals of peers and colleagues.

Effectiveness in professional service can be demonstrated by such things as:

(a) Selection or election by peers in the discipline for roles requiring leadership, special competence or expertise.

(b) Recognition, awards and honors or other indications of reputation among the faculty member's professional peers.

(c) Recognized leadership or expertise within the discipline.

The UAF Faculty Senate passed the following at its meeting #56 on March 20, 1995.

The UAF Faculty Senate endorses the following Pay Raise Proposal and formula.

PAY RAISE PROPOSAL

STEPS IN RANK	1	2	3	4	5	6
YRS IN RANK	1,2	3,4	5,6	7,8	9,10	11,12
FORMULA						
ASSISTANT	1.00	1.04	1.08	1.12		
ASSOCIATE	1.20	1.24	1.30	1,35	1.38	1.40
FULL	1.40	1.46	1.51	1.57	1.64	1.70

1. These step increases are to reflect increased faculty experience and are in addition to regular cost-of-living increases as provided by the Board of Regents.

2. Assistant Professors shall receive a 4% longevity increase for each step corresponding to every two years of university service (assuming a satisfactory or better evaluation.)

3. Upon promotion to Associate Professor, the faculty members will receive a salary of 20% higher than the base starting Assistant Professor salary.

4. Upon promotion to full professor, the faculty member will receive a base salary of 40% higher than the base starting Assistant Professor salary.

5 Associate Professors must be promoted to full Professor by their 12th year as Associate Professors or forego additional step increases.

6. Full Professors receive a 2% step increase after their 12th year at rank as full Professors.

7. All steps refer to appropriate, discipline based starting salaries.

The UAF Faculty Senate passed the following at its meeting #56 on March 20, 1995.

Resolution of the Faculty Senate of UAF Regarding Increasing the Land Grant for UAF

WHEREAS, the University of Alaska Fairbanks is the land grant institution for the State of Alaska, and

WHEREAS, the concept of utilization of a land grant is to provide a source of revenue for support of the University's activities and to provide for research and intellectual opportunities as a model for landuse and resource utilization for each state, and

WHEREAS, historically the University of Alaska Fairbanks has on several occasions attempted to secure an appropriately sized land grant to enable it to accomplish all of the above, and the accomplishment of this land grant has been disrupted on many occasions in our history, and

WHEREAS, the Legislature of the State of Alaska has recently examined the question and reviewed legislative acts calling for the increase in the University of Alaska Fairbanks' land grant, and

WHEREAS, the original concept of a land grant was intended to provide for a continuing utilization and disposition of typically a percentage of all transferred lands from the Federal Government to the State, and

WHEREAS, this amount of land in Alaska should justifiably be one million acres, and several attempts have been made historically to achieve a land grant of this size, and

WHEREAS, conditions for finally obtaining our land grant have not been better in a long time,

NOW THEREFORE BE IT RESOLVED, That the University of Alaska Fairbanks Faculty Senate endorses the concept of increasing the Fairbanks land grant to one million acres, as in the best interest of the University, its students, and the future of Alaska, and

BE IT FURTHER RESOLVED, That the University of Alaska Fairbanks' Faculty Senate urges the Legislature to pursue full transfer of title to its land grant to the University at the earliest possible date.

The UAF Faculty Senate passed the following at its' Meeting #53 on November 14, 1994:

MOTION PASSED (1 nay)
==========

The UAF Faculty Senate moves to approve the following changes to the M.A. in Professional Communication:

SUMMARY OF CHANGES IN THE M.A. IN PROFESSIONAL WRITING

A change to broaden the degree to a M.A. in Professional Communication has been endorsed by the Departments of Communication, English, Art, and Journalism & Broadcasting. The restructured degree retains the requirement that students complete course work in professional writing and editing in addition to the requirement of demonstrating their professional expertise in the completion of a thesis. When the Departments of English and Journalism & Broadcasting originally developed the degree, the plan was to have both faculties fully involved with the delivery of the degree. With the addition of the faculty in the Department of Communication and the support of faculty in Art, the degree has been changed to offer expanded offerings to students wishing advanced study in Professional Communication. In addition to the writing, editing, and thesis requirements, all candidates for the degree will be required to complete courses in communication theory and communication methodologies. Having completed these courses, students will specialize in either a Journalism & Broadcasting Track or a Communication Track. Each track requires two specialty core courses in addition to their respective editing course and two elective courses. The elective courses can be drawn from discipline specific courses or from within the other track as well as from other approved disciplines.

Following is how the revised M.A. degree in Professional Communication would appear in the UAF catalog:

Degree Requirements:

1. Complete the general university requirements and master's degree requirements.

2. Pass a written, comprehensive examination which is to be taken no later than student's fourth semester of work.

3. Students may advance to candidacy when their advisory committee deems that they have made satisfactory progress in both academic and writing areas.

4. Pass an oral defense of the thesis.

Course Requirements (30-33 credits) for Journalism & Broadcasting and Communication Tracks:
Complete a minimum of 24 credits at the 600 level (a maximum of 6 credits of approved 300-400 level courses may be included in the 30-33 credit requirements):
Required courses (15 credits):

ENGL 687 - Writing Professional Prose	3
COMM/JB 625 - Communication Theory	3
COMM/JB 601 - Communication Methodologies	3
COMM/JB 699 - Thesis	6

Journalism & Broadcasting Track Additional Courses (15 credits):
Required Courses (9 credits):

JB 623 - Advanced Editing for Professionals	3
JB 680 - Diversity and the Media	3
ART/JB 684 - Multimedia Theory and Practice .	3

Elective Courses (6 credits):

JB 605 - Advanced Photography Seminar	3
JB 611 - Advanced Writing for Publication.	3
JB 613 - Advanced Mass Media Law and Regulation	3
JB 633 - Public Relations Theory and Practice	3
JB 640 - Ethics and Reporting	3
JB 641 - Comparative Media Systems	3

Communication Track Additional Courses (15 credits):
Required Courses (9 credits):

COMM 675 - Training & Development Communication	3
COMM 680 - Communication Diversity in the Professional World.	3
ENGL 689 - Editing Prose	3

Elective Courses (6 credits):

COMM 622 - Interpersonal Interaction	3
COMM 631 - Team Building	3
COMM 635 - Organizational Culture and Communication	3
COMM 682 - Seminar in Communication	3

(Alternatively, students in either the JB or the Communication Tracks may take 300, 400, and 600 level courses in Art, Education, English, JB, Communication, Marketing, Business Administration, and Northern Studies as well as graduate level independent studies to fulfill the 6 credit elective requirement, if approved by the student's committee.
Students will also be able to apply up to 6 credits of appropriate graduate level course work from other universities

in the elective area if approved by the student's committee.)

Additional Requirement for Teaching Assistants (3 credits):

COMM 685 - Teaching College Communication	3

NOTE: The UAF Graduate Council approved the changes at their October 14, 1994 meeting.

EFFECTIVE: Upon Board of Regent's Approval

ORIGINAL

The UAF Faculty Senate passed the following at its' meeting #52 on October 17, 1994

MOTION PASSED
==========

The UAF Faculty Senate moves to establish an Ad Hoc Committee on faculty retention composed of elected, tenured faculty from all colleges and schools to review all cases of faculty non-retention resulting from program reductions, eliminations, or declarations of financial exigency.

The Ad Hoc Committee on Faculty Retention is to be elected in the same manner as the current Promotion and Tenure Committee. The Faculty Retention Committee is to be charged with the responsibility for making recommendations to the Chancellor and Provost on each affected individual faculty member before the final decision on retention is made. The recommendation should include consideration of whether the non-retention is PROCEDURALLY justified, possibilities for reassignment, and reasonable assistance in relocation. THIS COMMITTEE SHALL BE ESTABLISHED FOR A PERIOD OF THREE YEARS.

EFFECTIVE: Immediately

RATIONALE: The President of the University of Alaska and the Chancellor of the University of Alaska, Fairbanks have announced a three year program of reducing or eliminating academic programs on the Fairbanks Campus to achieve a budget reduction of between eight and twelve million dollars.

The Regents of the University of Alaska have announced a financial exigency policy which permits the declaration of financial exigency on a unit basis.

Reductions of this order of magnitude could lead to the elimination of a large number of both tenured and non-tenured faculty on the basis of program reduction, cancellation, and/or declaration of financial exigency.

There exists no established procedure under which the Faculty Senate or any of its subordinate committees considers matters of faculty non-retention related to

program elimination or reduction or declaration of financial exigency.

An Ad Hoc Committee is, therefore, urgently needed to review and make recommendations on individual cases of non-retention. Without such faculty involvement, there is a risk of decisions on non-retention being bases on invalid criteria.

The UAF Faculty Senate passed the following at its' meeting on October 17, 1994

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the Senate Bylaws with the addition of the following:

Sect. 4 (Art. IX Parliamentary Authority)

Majority and supermajority votes of the Senate shall be counted on the basis of a majority or supermajority of the votes cast by members present, with abstentions not counting as votes.

EFFECTIVE: Chancellor's Approval

RATIONALE: This interpretation is consistent with the most recent version of Robert's Rules of Order, and clears up confusion about different methods of counting votes. Robert's recommends such clarification be included in an organization's bylaws. Abstaining is recommended only for perceived conflict of interest, not to reflect uncertainty or avoid making a decision. This method of counting votes will tend to discourage the use of abstention as a means of passively preventing motions from being passed. Alternative methods of vote-counting may still be adopted by the Senate for particular situations. The term "supermajority" refers to any voting contingent larger than a simple majority, such as two-thirds, three-fourths, or unanimous.

The UAF Faculty Senate passed the following at its' meeting on October 17, 1994

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to empower the Senate president to create an ad hoc committee comprised of at least one representative from Curricular Affairs, Faculty Affairs, and Faculty Development, which will review issues related to the UA Learning Cooperative and, where necessary, submit motions to the Senate for consideration.

EFFECTIVE: Immediately

RATIONALE: The creation of the UALC has resulted in a number of issues that cross the purposes of existing senate committees. For example,

1. How will UAF faculty unfamiliar with various distance delivery systems receive training in selecting a medium (or technology) for delivering a UALC course. Faculty Development.

2. How will tuition for UALC courses be distributed. Budget Committee? A course offered by UAA with students registered and located at UAF impacts our library, computing facilities, etc. What portion of the tuition, if any, would UAA receive for offering the course, grading papers, etc.

3. What process does the Senate foresee for setting curriculum priorities for the UALC. For example, should the emphasis be on large section courses as a budget saving device systemwide or should the emphasis be on offering a greater diversity of more specialized courses systemwide? More specifically, what process will be used to decide which departments receive funds to develop UALC courses? Note that UAA has decided not to offer any experimental courses via the UALC only well established courses are eligible.

4. What MAU will receive the credit hours for UALC courses? As we understand it now, there is no mechanism for such bookkeeping nor any plan for such.

5. How will the UALC work with the MAUs to adjust faculty workload? Consider the case for example where the faculty member responsible for a UALC course has 30 local students but 120 statewide. Faculty Affairs?

6. How will resources be allocated among MAUs and within MAUs for graders, teaching assistants, library resources, and media support? Budget and Faculty Affairs?

7. How will UALC courses be funded? From within departmental budgets? Or separate UALC funds?

8. If two or more MAUs want to offer the same course or program, who decides which MAU will offer the course and what will be the criteria for the decision.

9. The UALC has suggested offering the AA degree via distance delivery. This implies common degree requirements may have to be agreed upon among the MAUs.

10. What type of course evaluation will be used for UALC courses? The type of media used should be evaluated as well as the instructors handling of the course.

MOTION PASSED (4 abstentions)
==========

The UAF Faculty Senate moves to recommend that University of Alaska Statewide Development and Foundation program be placed on the C list for Program Assessment. Note: This item will be forwarded to the Faculty Alliance for further consideration.

EFFECTIVE: Immediately

RATIONALE: Since the Statewide "investment management" function (under Finance) is on the C list, a coordinated review of the accounting/investment responsibilities within the Development and Foundation office may show ways to realign for greater efficiency and cost savings. Also, all UA functions that are duplicated at the campus level to identify unnecessary overlap, as well as opportunities for savings.

Sept 23, 1994

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its' Meeting #51 on September 19, 1994:

RESOLUTION PASSED (unanimous approval)
==========

WHEREAS, program assessment has so far been conducted separately within individual units of the university, and

WHEREAS, the purpose of program assessment is to more sharply define the university's overall priorities in a time of declining budgets,

THEREFORE BE IT RESOLVED, that the Faculty Senate urges the Chancellor to appoint a campus-wide program assessment committee that includes faculty representation from those groups conducting the separate reviews for academic programs, student services, administrative services, and university relations. The charge of this committee would be to make an integrated recommendation for the university's next step in program assessment, and

BE IT FURTHER RESOLVED, that this committee carry out its deliberations beginning on October 24, and submit its recommendations to the chancellor no later than October 31.

RATIONALE: The piecemeal process by which assessment has so far been conducted creates an illusion of across-the-board cuts, which are exactly what program assessment was designed to avoid. Regents' policy on program assessment does not provide any guide to the integration process or its timing, although it allows for advice from governance and other groups. Our advice is to allow faculty familiar with the earlier stages of assessment to provide significant input in the integration phase. Senators expressed concerns over consolidations that would not enhance the schools or colleges. Professional schools will be looked at throughout the UA system. These programs include the School of Engineering, School of Education, and the School of Management. President Read encouraged senators to take all this information regarding program assessment back to their constituents.

The UAF Faculty Senate moves that recommendations to transfer programs from B list to the C list for a more exhaustive analysis must be:

1. Submitted by 2:00 p.m. September 21 via Vax to the Governance Office.

2. A written rationale must accompany each recommendation.

3. Approved by a 2/3 majority of the Faculty Senate in its meeting on September 22 at 4:00 p.m.

RESOLUTION
==========

Whereas the Board of Regents is considering changes to the University Policy on financial exigency; and

Whereas the Statewide Administration of the University of Alaska has requested governance groups' responses to suggested changes; and

Whereas financial exigency is an extremely serious step, implying a financial emergency beyond the capacity of the administration to handle without seriously undermining the mission and quality of the university; and

Whereas all units of the University of Alaska are heavily dependent on lump-sum general appropriations by the Alaska State Legislature;

Therefore Be It Resolved, That the UAF Faculty Senate urges the Board of Regents to reserve the declaration of financial exigency to the entire UA system.

ORIGINAL

The UAF Faculty Senate passed the following at its' Meeting #50 on May 18, 1994:

A RESOLUTION OF THE UAF FACULTY SENATE AND
THE STATEWIDE ALLIANCE OF FACULTY SENATES

The Alliance of Faculty Senates asks the Board of Regents to direct participation by the UA Statewide System (hereafter Statewide) in Program Assessment according to the criteria enumerated below.

We ask that the UA Faculty Senates, and other governance units, participate in reviewing criteria for Program Assessment for non-academic units that are part of the UA system.

We ask that the Board of Regents convene a committee chaired by Dr. T. Gaylord (UAF), and consisting of faculty and the UAF, UAA and UAS heads of institutional research/fiscal analysis. The function of this committee should be to review the data provided by Statewide for Program Assessment.

We request that the Statewide administration provide information on cost-savings effected over the past five years. We recognize that the Kaludis Report was completed just a few years ago, and that the most crucial cost-savings are likely to have been only recently implemented. However, we feel that the history over the past five years is essential for fairly assessing all Statewide programs.

We request that Statewide programs be defined as small as is feasible, to facilitate ascertaining the acuity of each program. Below is a listing of divisions within Statewide that are, according to our incomplete information, consistent with our definition of small scale programs. This listing is meant to be illustrative and not inclusive.

Academic Affairs Office
Accounting Services
Advance College Tuition
Admin. Systems Coord. Office
Benefits
Board of Regents Office
Budget Development
Cash & Investment Accounting
Cost Accounting

Government/University Relations
Human Resources
UACN Planning, Research Office
UACN Production Services
UACN Technical Services
UACN Telecomm/Networking
UACN ATN
Vocational/Tech. Education

We request that each Statewide program provide specific information.

1. Personnel information: The programs should list employees, their rank and job descriptions. These should equal the total of all the personnel employed by Statewide. The data should be current, for FY94. To facilitate comparisons and evaluation of cost-saving measures implemented over the past five years, we request that the program submit complete personnel information for FY89. In the event that the program was not extant in FY89, we ask for this information from as early a date as is possible.

2. Fiscal information: The programs should provide data to address how Alaska state monies (Fund I minus overhead), and any overhead monies are spent. This should include all revenues, assets, expenses, and liabilities for each program. The sum of all fiscal data for Statewide programs should equal the sums of revenues, assets, expenses, and liabilities for Statewide in toto. Data should be current, for FY94. To facilitate comparisons, particularly with regard to cost-saving measures that have been implemented, full financial information for FY89 should also be included. In the event that the program was not extant in FY89, we ask for this information from as early a date as is possible.

3. A Cost-Benefit Analysis: This should be current, for FY94. If available, a cost-benefit analysis for FY89 should also be included. In the event that the program was not extant in FY89, we ask for this information from as early a date as is possible.

4. Implemented of cost-saving measures: We want to know what cost-saving measures have been implemented over the past 5 years, and how successful they have been. In the event that the program was not extant in FY89, we ask for this information from as early a date as is possible.

5. Self assessment: Each program should provide a self assessment indicating their function; their successes and failures over the past fiscal year (FY94), and over the past five years (since FY89). If applicable, this should include a listing of all formal reports produced. In the event that the program was not extant in FY89, we ask for this information from as early a date as is possible. In this section, programs should indicate if they are mandated because of federal regulations, state regulations, or if they are not so mandated.

ORIGINAL

6. Ancillary or corroborative information: Any data deemed pertinent to a cogent judgment of the cost-benefit of the program should be appended. This might consist of implementation of management programs such as TQM, etc.

RATIONALE: Alaska state budgets have been in decline for several years. The University of Alaska is facing serious shortfalls this year, and predictions for the future are not optimistic. In this budget climate, it is important that the University of Alaska assess the cost-benefit of all of its programs. Previously available criteria for a University-wide Program Assessment are directed to academic programs. However, much of the Alaska state monies received by the University of Alaska are spent on Statewide administration. It is prudent and fair to ask for a cost-benefit analysis for all UA programs, not only academic ones. With this resolution, we ask for the information necessary to clarify how Alaska state monies have been spent by the Statewide administration. Our focus is the implementation of cost-saving measures over the past five years. We believe five years is a reasonable length of time to develop an overview. In addition, State monies have been dwindling for academic programs for the past four years.

MOTION PASSED
==========

ORIGINAL

The UAF Faculty Senate moves to approve a change in the procedures for the program requirements for degrees in Interdisciplinary Studies during the 1994-95 academic year.

****

Procedure for Obtaining an Advisory Committee for an Undergraduate Degree in Interdisciplinary Studies

In developing an interdisciplinary proposal, the student should specify the degree (A.A.S., B.A., B.S., or B.T.), include an explanation of how the proposed program differs substantially from established UAF programs, and a discussion that current UAF resources are adequate to meet the requirement of the proposed program. The student should first find a faculty member to serve as a chair of an advisory committee for the degree program. Thereafter, the degree program will be administratively attached to the department and college/school of the committee chair. The chair will help the student find at least two additional faculty members from appropriate disciplines to serve on the advisory committee. This committee will review the proposed program, select (in concert with the student) a title for the program and make its recommendation to the Provost through the cognizant dean.

EFFECTIVE: Fall 1994

RATIONALE: This minor change will provide an administrative home (college/school) for interdisciplinary degrees and place the cognizant dean in the approval loop. The Curricular Affairs Committee will consider policy changes concerning interdisciplinary degrees during the 1994-95 academic year.

The UAF Faculty Senate passed the following at its' Meeting #49 on April 25, 1994:

MOTION PASSED
==========

ORIGINAL

The UAF Faculty Senate moves to delete the university-wide requirement for a demonstrated "competence in a foreign language or a research tool" for the Ph.D. degree and to allow departments and programs to decide whether or not a foreign language or a research tool will be required for degrees within that department or program.

EFFECTIVE: Fall 1994

RATIONALE: The intent of this recommended action is not to encourage abolition of the language or research tool requirement by any department or program which considers it an important part of their Ph.D. curriculum. By having this requirement decentralized, departments and programs which consider it important can set rigorous standards appropriate to their disciplines. The requirement can be eliminated by departments and programs which believe that the requirement is not adding substantially to their students' education. For example, when nearly all students use a pre-existing language skill to meet the requirement. Departments and programs should develop their own revised requirement for publication in the Graduate Catalog.

The UAF Faculty Senate moves to amend the UAF Regulations for the Evaluation of Faculty; Initial Appointment, Annual Review, Reappointment, Promotion, Tenure, and Sabbatical Leave, Article IV.B.4. Exclusive Process for Reconsideration, fifth and sixth paragraphs to read:

(( )) = Deletions
CAPS = Additions

The Chancellor will refer all reconsideration requests to the PROMOTION/TENURE APPEALS SUBCOMMITTEE OF THE Faculty Appeals Committee, which is a permanent committee of the Senate. The PROMOTION/TENURE APPEALS SUBCOMMITTEE ((Faculty Appeals Committee)) shall be composed of five tenured faculty members selected by the Faculty Senate who shall serve for two-year terms. Members' terms will be staggered to provide continuity.

This SUBCOMMITTEE ((Committee)) shall examine the file to determine whether or not the tenure or promotion process and the decision is consistent with Board of Regents Policy or Regulations, University of Alaska Fairbanks Policy or Regulations, and unit standards or indices; and whether or not there is evidence that a material error was made or that there is reason to believe that substantial unfairness did occur. In conducting the review of the decision, the committee shall not substitute its judgment for that of the reviewing bodies but shall determine whether there were other factors which should be considered in the decision.

EFFECTIVE: Immediately

RATIONALE: Expanding the membership of the Faculty Appeals Committee will result in a pool of faculty to serve as needed on grievance hearing panels. The formation of a subcommittee will fill the need for an appeals process for promotion/tenure reconsiderations.

B. DAVID SPELL

WHEREAS, David Spell has served the University of Alaska Fairbanks Faculty Senate in a manner deserving of the University of Alaska Fairbanks Faculty Senate's greatest admiration and respect; and

WHEREAS, David Spell has served as Senator to the University of Alaska Fairbanks Faculty Senate from 1989-1993; and

WHEREAS, David Spell has served as a member of the Graduate Council from 1989-90; and

WHEREAS, David Spell has served as a member of the Faculty Affairs Committee from 1989-90 and as Chairman from 1990-92; and

WHEREAS, David Spell has served as a member of the Scholarly Activities Committee from 1991-92 and as Chairman from 1990-91; and

WHEREAS, David Spell has served as President-Elect of the University of Alaska Fairbanks Faculty Senate from 1992-1993; and

WHEREAS, David Spell has served as a member of the Executive Committee of the UA statewide General Assembly from 1992-1994; and

WHEREAS, David Spell has served as a member of the University of Alaska Fairbanks Governance Coordinating Committee from 1992-1994; and

WHEREAS, David Spell has served as a member of the Faculty Alliance of the University of Alaska Systemwide Governance Council from 1993-1994; and

WHEREAS, David Spell has served as President of the University of Alaska Fairbanks Faculty Senate from 1993-1994; and

WHEREAS, The University of Alaska Fairbanks Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of David Spell as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the University of Alaska Fairbanks Faculty Senate acknowledges the many contributions of David Spell and expresses its appreciation for his exemplary service.

DISAPPROVED: _____
Chancellor's Office

DATE _____

The UAF Faculty Senate passed the following at its' Meeting #48 on March 21, 1994:

MOTION PASSED
==========

ORIGINAL

The UAF Faculty Senate moves to amend its policy (approved at the Academic Council meeting #103 on November 7, 1984) concerning mid-term grade reports required for freshmen with a grade of less than a C so that these grades shall be due during the fourth week of classes.

****

For the 1994-95 academic year mid-term grade reports for freshmen will be due:

September 27th for the Fall 1994 Semester

February 7th for the Spring 1995 Semester

NOTE: Many of these students will need assistance in evaluating their academic progress. It is therefore suggested that instructors provide as much information as possible concerning course expectations. Aside from meaningful course syllabi, which include grading standards, instructors should provide students with as many of the following as practicable: graded exercises or quizes within the four week period; posting sample graded problem sets, exams, and/or papers from previous years; and publishing grade distributions from previous years.

EFFECTIVE: Fall 1994

RATIONALE: The change in withdrawal dates has necessitated the need for freshmen to know how they are doing in their classes at an earlier date. The last day to withdraw from a class for freshmen is the sixth Friday of classes. Receiving a grade report by the fourth week will give students time to consider dropping the course.

The UAF Faculty Senate moves to recommend that the Provost Office collect information on research, scholarly, and creative activities using a data summary form based on the draft form attached.

RATIONALE: It is becoming increasingly necessary for faculty to cooperate in protecting UAF's status as a research-oriented institution. Unless we take steps to demonstrate the importance of our research to the State of Alaska, we face the prospect of having our status as a research institution whittled away. A form such as the following will provide information that reflects our output and which the Provost's office can use to show the extent of our research. In designing this form, we have incorporated faculty input and expect that further revisions based on faculty input will be necessary. The bottom line is that if we do not take action in proposing such a form, it will be imposed on us from above.

3/21/94

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its' Meeting #48 on March 21, 1994:

RESOLUTION PASSED
==========

ORIGINAL

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of President-Elect on the basis of the following ballot.

BALLOT

PRESIDENT-ELECT

Please vote for ONE individual to serve as the President-Elect of the UAF Faculty Senate for 1994-95.

***	Eric Heyne Associate Professor English
	John Zarling Professor Mechanical Engineering

***President Elect

3/21/94

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its' Meeting #48 on March 21, 1994:

MOTION PASSED AS AMENDED
==========

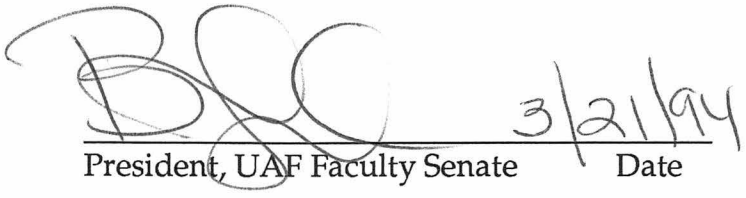
ORIGINAL

The UAF Faculty Senate moves to support the resolution relating to Institutional support for workload description as amended and forward it to the Faculty Alliance.

****

[[ ]] = Deletion
CAPS = Addition

WHEREAS quality education requires the hiring and retention of first rate faculty, and



WHEREAS the greatest incentives to faculty attraction and retention are not necessarily financial but recognition of professional status including a significant role in institutional management and local autonomy, and

[[WHEREAS the greater part of faculty work responsibilities are in support of their teaching and this work is not publicly visible, and]]

WHEREAS these facts are not generally known to the tax-paying public or to legislators; therefore

BE IT RESOLVED THAT the Office of Institutional Research work together with faculty better to describe and explain the work of faculty, making this information widely available to the public and to legislators in standardized formats, and

BE IT FURTHER RESOLVED THAT the same level of scrutiny and the same reporting standards be applied to campus and statewide administrators.

3/21/94

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its' Meeting #48 on March 21, 1994:

MOTION PASSED AS AMENDED
==========

ORIGINAL

The UAF Faculty Senate moves to support the resolution relating to resource utilization as amended and to forward it to the Faculty Alliance.

****

[[ ]] = Deletion
CAPS = Addition

WHEREAS Alaska is facing a fiscal crisis, and

WHEREAS that it is imperative that all State agencies be as efficient as possible without jeopardizing their missions, and

WHEREAS that the University of Alaska could spend additional time identifying alternative ways of reducing the impact of oil revenue shortfalls,

BE IT RESOLVED THAT:

The University of Alaska fully explore all ways of increasing revenues and decreasing costs without jeopardizing the quality of its [[services]] EDUCATIONAL MISSION, including, but not limited to:

a) increasing the effectiveness and efficiency of student recruitment through an identification of appropriate target groups and the development of professional recruitment and retention programs;

b) investment in crucial resources which act as bottlenecks to the recruitment and retention of students, such as limited housing and limited course offerings in general education requirement courses;

c) streamlining the administrative structure of the university through the elimination of administrative layers.

3/21/94

President, UAF Faculty Senate Date

MOTION PASSED AS AMENDED
==========

ORIGINAL

The UAF Faculty Senate moves that Statewide Human Resources set up a wellness program for University employees. This program should be developed in consultation with statewide and local governance bodies and should incorporate guidelines developed from successful programs outlined in the UAF Coordinating Committee's Ad Hoc Committee on Health Benefits.

RATIONALE: By promoting a wellness program, the University of Alaska would see direct results in a decrease in health benefits. Savings in health care costs are well documented for wellness plans which have been able to achieve reasonable levels of participation. One study indicated that total costs for medical care increased 35% in a control company but only 1% at Canadian Life after a work site exercise program was adapted. High adherent participants had a 5% reduction in medical care costs. At Prudential, there was a 45.7% reduction in average major medical costs from the pre-entry to the post-entry period for program participants, while a 48.2% difference between exercisers and non exercisers was reported at Tenneco. Long term studies demonstrate the same trends. Los Angeles County had a 45% reduction in worker's compensation costs during the first 10 years of their program. At Blue Cross/ Blue Shield of Indiana a long term study showed that for every $1.00 in medical costs spent on participating employees, $1.73 was spent on nonparticipating employees. Pillsbury estimates that for every $1.00 spent on its "Be Your Best" wellness program $3.63 is saved in health-related costs.

The UAF Faculty Senate passed the following at its' Meeting #47 on February 14, 1994:

MOTION PASSED (16 yes, 10 nay)
==========

The UAF Faculty Senate proposes the attached policy on graduation "walk-through."

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The lack of policy in this area has led Deans to approve requests by students to "walk-through" graduation on an ad hoc basis. Last spring 38 students were approved to do this. As of this date 14 have not yet completed requirements for their degree. This motion sets firm guidelines for situations where graduation "walk-through" is appropriate.

APPROVED: Joan Wadlow DATE 3/30/94
With Modifications noted on attachment
Chancellor's Office

DISAPPROVED: _____ DATE _____
Chancellor's Office

A Relevant reference document is Mar. 29, 1994 Memo to Wadlow from Lando (also attached)

PROPOSED GRADUATION "WALK-THROUGH" POLICY

Normally, those participating in the annual commencement ceremony shall have satisfactorily completed all degree requirements in the immediately preceding summer, fall or spring semesters.

Under very unusual circumstances, a student may be allowed to "walk through" the ceremony. Approval to do so will seldom be granted and only after a rigorous review of the individual situation.

1. No masters or doctoral candidates may be granted permission to "walk through" the graduation ceremony without completing all <u>essential</u> degree requirements.

2. Only an undergraduate student who has applied for graduation as a May OR subsequent summer degree candidate and who is enrolled in all remaining courses/requirements for his/her degree will be considered for approval to "walk through" the ceremony. Each situation will be reviewed on its own merits by the dean of the college in which the student's major is located. The department head will be recommend approval to the dean, who will make the final decision.

Valid reasons for allowing a student to walk through the ceremony:

If a student is unable to complete requirements due to the serious illness of the student or a close member of the family (mother, father, brother, sister, husband, child) or due to the death of a close member of the family (any of the above or close friend or grandparents).

If a grade in a required course that has been completed by the student is not reported to Admissions and Records by the reporting deadline.

If a student is unable to finish a course due to the illness or absence of the instructor of the course.

Reasons that are not acceptable for approval to walk through the ceremony:

Failure to complete one or more required courses.

Non-approval of last-minute petitions to waive or substitute degree requirements.

Approval for a student to walk through the ceremony must reach the Admissions and Records Office not later than noon on the Friday before Commencement.

UNIVERSITY OF ALASKA FAIRBANKS

Governance Office
Fairbanks, Alaska 99775-0680
(907) 474-7964 • FAX: (907) 474-5213

RECEIVED
MAR 30 1994
CHANCELLORS OFFICE

MEMORANDUM

To: Chancellor Joan Wadlow, UAF

From: Clif Lando, Chair
Faculty Senate Curricular Affairs Committee

Date: 29 March, 1994

Re: Graduation "Walk-through" Policy

The proposed graduation "walk through" policy as recommended by the Curricular Affairs Committee and passed by the Faculty Senate on February 14 was recently discussed by the Provost's Council: Instructional Working Group. Their recommendation was to modify the proposal so as to allow students who would be ready to graduate by the end of the subsequent summer to qualify for "walk through". I took this recommendation back to Curricular Affairs and they concurred with the modification. The intent of this change can be realized by inserting the wording, "or subsequent Summer" into the first sentence of #2 in the proposal. This sentence would then read "Only an undergraduate student who has applied for graduation as a May *or subsequent summer* degree candidate and who is enrolled in all remaining courses/requirements for his/her degree will be considered for approval to "walk through" the ceremony." The rest of the motion would remain unchanged.

I feel certain that the rest of the Senate would go along with this modification, but in the interest of saving time and effort, I suggest that you exercise your prerogative of approving with modifications and simply make this change.

cc. Dave Spell, President, UAF Faculty Senate
Colin Read, President Elect, UAF Faculty Senate
Gorden Hedahl, Chair, Provost's Council: Instructional Working Group
Jack Keating, Provost
Members, Faculty Senate Curricular Affairs Committee

The fourteen students who walked through graduation last spring, but didn't graduate at the end of summer semester 1993 are:

Graduated in Fall 1993:

John Perkins	Poli Sci
Keith Tompkins	Justice
Kelly Tompkins	Education
Claire Worden	Psychology
Sabre Mayrod	Computer Sci
Brian Lamb	Computer Sci
Norman Sayer	English (Masters)

Expected to graduate Spring 1994: (7)

Tim Lamkin	Poli Sci
Jean McWilliam	Social Work
Marilyn Savage	Journalism-Broadcasting
Lisa Thomsen	Education
Charles Walworth	Education (Masters)
Stephanie Bottan-Allen	TVC
Ellie Boone	TVC

The UAF Faculty Senate moves to approved the Program Deletion: A.A.S., Financial Institutions Management.

EFFECTIVE: Fall 1994
Upon Board of Regent's Approval

RATIONALE: Changes in the Alaskan Banking System and a lack of students seeking this degree make this program no longer viable. [Program deletion request is on file in the Governance Office.]

2/14/94
President, UAF Faculty Senate Date

APPROVED: _____ DATE 2/25/94
Chancellor's Office

DISAPPROVED: _____ DATE _____
Chancellor's Office

RECEIVED NOV 5 1993

DELETION OF PROGRAM REQUEST

August, 1993

Prepared by: Jeanette Morton
Coordinator, Business Technologies
College of Rural Alaska
University of Alaska Fairbanks

Program to be Deleted:

Financial Institutions Management

Structural changes in the Alaskan Banking System caused by bank failures, mergers and takeovers have severely limited employment opportunities. At this time there are no active degree seeking students in this program and only one of the core courses in this degree is being offered.

The core courses in this degree are highly specialized and are not part of any other program or degree. Deletion of the degree and supporting courses will not effect any other program.

Since there are no students seeking this degree and very few of the courses have been offered the last six years, there will be no effect on personnel, budgets or other resources as these have all been reallocated.

Background Information:

The Degree was offered by the Tanana Valley Community College prior to the restructuring that eliminated the Community College System and was grand-fathered into the UAF system. A copy of the original instructional program request is not available. The description in the catalog (copy enclosed) is all that is provided.

MINOR in Film Studies

15 credits: ENGL 217, JB 308, THR 380 and JB 105 required plus 3 credits from approved electives.

Financial Institutions Management

College of Rural Alaska
Tanana Valley Campus

(907) 451-7223

Degree: A.A.S.

Minimum Requirements for Degree: 60 credits

The financial institutions management program is designed to meet the specific training needs of local financial institutions. This program was developed with the assistance of local industry leaders and representatives from the American Institute of Banking. Therefore, this associate of applied science degree parallels the skills, training and educational standards set by the AIB.

The financial institutions management degree curriculum focuses on business and banking in addition to some specific technical areas. Graduates of this program will be prepared to pursue many career paths in financial institutions management.

Requirements

Financial Institutions Management — A.A.S. Degree

1. Complete the following general university and A.A.S. requirements:

	Credits
Communications:	
ENGL 111X and ENGL 211X, 212*, or 213X	6
SPC 131X or 141X	3
Mathematics or Natural Science:	
A math or natural science course at the 100 level or above	3
Humanities, social sciences, mathematics, natural science or Perspectives on the Human Condition	3

2. Complete the following major degree requirements:

ABUS 142 — Office Accounting I	2
ABUS 160 — Principles of Banking or	
ABUS 161 — Foundations and Structures of Credit Unions	3
ABUS 165 — Consumer Lending	3
ABUS 179 — Fundamentals of Supervision	3
ABUS 181 — Law and Banking Applications	3
ABUS 224 — Money and Banking	3
ABUS 241 — Business Law	3
CAPS 150 — Computer Business Applications	3
Economics electives (100 level or above)	3
OMT 231 — Business Communications	3
Subtotal	29

3. Complete the following major specialty electives:

Select 12 credits from the following:	
ABUS 166 — Residential Mortgage Lending	3
ABUS 167 — Branch Management	3
ABUS 223 — Real Estate Finance	3
ABUS 234 — Financial Counseling	3
ABUS 244 — Loan Officer Development	3
ABUS 261 — Analyzing Financial Statements	3
Subtotal	12

4. General Elective Credits	4
Degree Total	60

*ENGL 212 does not fulfill the second half of the written communication requirement for the baccalaureate degree.

UAF Faculty Senate

ORIGINAL

The UAF Faculty Senate passed the following at its' Meeting #47 on February 14, 1994:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the policy providing for the admission on non-high school graduates to baccalaureate degree programs as follows:

Non-high school graduates, 18 years of age or older, or students who completed high school by passing the G.E.D. test or its equivalent, and non-qualified high school graduates, may be considered for unrestricted admission to a baccalaureate degree program on a case by case basis. Supporting evidence of the applicant's academic ability must be submitted for review including test results from either the SAT or ACT examinations.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The U.S. Office of Civil Rights received a complaint that suggested UAF's admission policies for non-high school graduates may discriminate against individuals because of age requirements. The policies state that for admission as an associate degree student, a non-high school graduate must be 18 years of age or older; for admission to a baccalaureate degree program, a non-high school graduate must be 21 years of age or older.

The Office of Civil Rights does not argue with the university's use of age as a measure of maturity and readiness assessment. OCR agrees that the intent of the 18 year age requirement for the associate degree is to include more students. Therefore, there is no compliance problem with the requirement for admission of a non-high school graduate into an associate degree program. OCR feels there is difficulty with the 21 year age requirement for admission to baccalaureate programs because it may exclude a small number of people. They have asked us to review the policy to determine whether or not the intent of the policy would be compromised if the age limit was changed.

During the past several years, almost all non-high school graduates have been admitted into associate level programs at UAF. This has allowed a non-graduate to step into a formal program and immediately benefit as a degree seeking student. Once the student has completed satisfactorily one or more semesters of full-time

work, an application for admission into a baccalaureate program may be approved.

UAF can remove the 21 year age restriction for admission of non-high school graduates to baccalaureate programs without reducing the university's academic standards because the same review process still can be followed. Making this change will satisfy the Office of Civil Rights and still provide admission to baccalaureate degree programs for exceptionally talented students who otherwise would not be able to be admitted at this level. Since most non-high school graduate applicants still will be admitted to associate degree programs, the effect of this change will be negligible.

The UAF Faculty Senate passed the following at its' Meeting #47 on February 14, 1994:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the residency credit requirement for the Associate and Baccalaureate Degree as follows:

Current Policy:

At least 15 of your final 30 semester hours applicable to any associate degree must be earned at UAF. If you're a bachelor's degree, student, you must earn at least 24 upper-division credits and at least 30 of the last 36 credits for the degree at UAF. For transfer students, you need to earn at UAF at least 12 semester credits in your major and at least three semester credits in your minor for the baccalaureate degree.

Amended Policy:

At least 15 semester credits applicable to any associate degree must be earned at UAF. At least 30 semester credits, including at least 24 credits at the upper-division level, applicable to any baccalaureate degree must be earned at UAF. For transfer students, at least 12 semester credits in the major and at least three semester credits in the minor must be earned at UAF.

EFFECTIVE: Fall 1994

RATIONALE: With the proliferation of TV courses, correspondence courses, credit for prior learning, internships, exchange programs and the mobility of students, the present residency credit requirements are obsolete.

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the Transfer Within the UA System Policy for students who have fully completed the general education requirements at UAA or UAS.

Current Statewide Policy:

Credit for course work successfully completed at one University of Alaska institution towards fulfillment of the general education requirements at that institution shall transfer towards fulfillment of the same categories at all other University of Alaska institutions.

Current UAF Policy:

When a student transferring to UAF has completed fully the general education requirements at UAA or UAS, he/she automatically will be considered to have completed the requirements of the UAF baccalaureate core *with these exceptions:*

UAA Must complete:
1 additional credit of lab science
3 additional credits at the 300 level in values and choices
0-1 additional credits in library skills
upper division oral and writing intensive courses

UAS Must complete:
4 additional credits of lab science
3 additional credits at the 300 level in values and choices
0-1 additional credits in library skills
upper division oral and writing intensive courses

Amended UAF Policy:

When a student transferring to UAF has completed fully the general education requirements at UAA or UAS, prior to transfer, he/she automatically will be considered to have completed all requirements of the UAF baccalaureate core.

EFFECTIVE: Fall 1994

RATIONALE: UAF will be acceding to statewide administration and Board of Regent's desires by instituting this change. Very few students will qualify for exemption for the core under this proposal. The rest will come under the new core transfer policy for students transferring within the UA system.

The UAF Faculty Senate passed the following at its' Meeting #47 on February 14, 1994:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to ratify the Constitution of the Alliance of Faculty Senates.

EFFECTIVE: Immediately

2/14/94

President, UAF Faculty Senate Date

University of Alaska

ALLIANCE OF FACULTY SENATES

CONSTITUTION

ARTICLE I. INTENT

It is the intent of the Board of Regents: I) that the faculty shall share in the governance of the university, 2) that shared governance is an integral part of the business of the university, and 3) that participators in shared governance are empowered by the Board of Regents to carry out their governance responsibilities to the best of their abilities without interference or fear of reprisal.

ARTICLE II NAME

The Board of Regents hereby establishes a mechanism for faculty system governance consisting of an Alliance of Faculty Senates, hereinafter "Faculty Alliance."

ARTICLE III. AUTHORITY, PURPOSES AND RESPONSIBILITIES

A. Authority

The Faculty Alliance receives its authority by policy 03.01.01 of the University of Alaska Board of Regents which derives its authority from the Constitution and statutes of the State of Alaska. The Faculty Alliance shall carry out its functions subject to the authority of the Board of Regents and the President of the University.

B. Purposes

1. Representation

To provide official representation for the faculty of the University of Alaska in matters which affect the general welfare of the University and its educational purposes and effectiveness.

2. Consultation

To provide consultation to the President of the University and the Board of Regents on academic matters and faculty welfare issues.

3. Communication

To serve as an instrument by which information which is of interest and concern to the university system faculty may be freely collected, disseminated, coordinated, and discussed.

C. Responsibilities

The Faculty Alliance recognizes the faculty of the individual academic major administrative units as having the primary responsibility and authority for recommending the establishment of degree requirements; implementing the degree requirements; establishing the curriculum, the subject matter and methods for instruction; determining when established degree requirements are met; and recommending to the President of the Board of Regents the granting of degrees thus achieved. The Faculty Alliance shall have advisory and coordinating role in academic affairs; no action of the Alliance shall abridge individual academic major administrative unit's authority in academic matters.

When issues have statewide impact, the responsibilities of the Alliance of Faculty Senate may include, but are not limited to, coordination on matters relating to academic affairs such as academic program review; the addition, deletion or merging of academic programs; curriculum; subject matter and methods of instruction, those aspects of student life relating to the educational process such as degree requirements, grading policy, course coordination and transfer, student probation and suspension, standards of admission and scholastic standards ; and faculty welfare issues, including, but not limited to compensation, benefits, appointments, reappointments and termination, workload, promotions, the granting of tenure, dismissal, ethics, and other matters affecting the faculty, the general welfare of the university and its educational purposes and effectiveness.

Representatives shall promote maximum dissemination of information to local faculty senates before voting in the Alliance.

ARTICLE IV MEMBERSHIP AND ORGANIZATION

A. Membership

The membership of the Faculty Alliance shall consist of three faculty each from the University of Alaska Anchorage, University of Alaska Fairbanks and University of Alaska Southeast.

If issues require special knowledge or exclude members because of bargaining unit status, one or more of the three votes from each campus may be designated to alternate faculty members.

B. Selection

Representatives to the Faculty Alliance shall be selected in such a manner as prescribed by local faculty senates.

C. Term of service

The term of service shall be one year.

D. Recall of members

Any member may be recalled by the faculty senate by which the member was chosen. The method of recall shall be determined by the local faculty senate. That faculty senate shall select a replacement to complete the term of office.

E. Official Spokesperson

1. Election

The official spokesperson of the Faculty Alliance shall be elected by and from the voting membership by a majority vote, with at least one vote from each MAU required.

2. Duties

The official spokesperson for the Faculty Alliance shall a) preside over all meetings of the Alliance b) represent the Alliance, except that the spokesperson be required to present majority and

minority opinions regardless of personal opinion. The spokesperson may delegate these duties to another Faculty Alliance member.

H. Task Forces

The Faculty Alliance may establish task forces independently or in response to requests of the Board of Regents or the President of the University to consider complex system wide issues relating primarily to academic matters or faculty welfare issues.

Issues and suggestions of the task force, from whatever source, shall be referred to local faculty senates before action occurs at the Alliance level.

ARTICLE V MEETINGS

A Regular and special meetings

The Faculty Alliance shall have four regular meetings during the academic year. At least once per semester, the Faculty Alliance shall meet with the President of the University to identify system issues and plan for the coming year. Special Faculty Alliance meetings may be called by the Board of Regents, the President of the University, the spokesperson of the Faculty Alliance, or on petition of one-third of the membership of the Faculty Alliance.

B. Voting

Voting shall be by simple majority of the full voting membership to include at least one member from each MAU, except for amendments to the Faculty Alliance constitution or bylaws. Amendments to membership rights require a unanimous vote.

Representatives may defer voting pending action by local faculty senates on the issue.

ARTICLE VI. QUORUM

A minimum of a simple majority of the voting membership to include at least one member from each MAU shall constitute a quorum.

ARTICLE VII. PARLIAMENTARY AUTHORITY

The parliamentary authority shall be the latest edition of Robert's Rules of Order.

ARTICLE VIII. CONSTITUTIONS AND BYLAWS, AMENDMENTS, APPROVAL

A Constitutions and bylaws

The constitution and bylaws, once passed by the Faculty Alliance, shall be transmitted to the President of the University for approval and to the Board of Regents for action. Copies of the Faculty Alliance constitution and bylaws shall be maintained in the system governance office.

B. Amendments; distribution prior to voting

Amendments to the constitution and bylaws shall be sent to Alliance members and to the local faculty senates at least 30 days prior to the Alliance meeting at which they will be considered. Amendments to the constitution require seven Alliance member votes.

C. Transmittal to the President and Board of Regents for approval

The Alliance shall provide a minority viewpoint to the Board of Regents if requested by the minority in writing to the spokesperson before the meeting.

ARTICLE IX REVIEW AND TRANSMITTAL OF PROPOSALS

A. Review

Submission of administrative proposals and issues affecting the statewide university system faculty shall be in accordance with University Regulation 03.01.01. Those administrative proposals submitted in the summer months shall be acted upon by the local senates and the Faculty Alliance by October 15. Proposals relating to faculty requiring immediate implementation for compliance with state or federal law shall be submitted to the Faculty Alliance for review, and may be implemented prior to

Faculty Alliance action but do not represent official action until the local senates are involved in the actions.

B. Transmittal to the President

The system governance executive officer shall submit the original proposal in writing, together with faculty governance input, including majority and minority viewpoint, to the President of the University for information or action.

C. Transmittal to the Board of Regents

The spokesperson for the Faculty Alliance shall present Faculty Alliance views, including majority and minority views, in writing directly to the Board of Regents as a regular agenda item of the full Board or Board committees as appropriate, on any issue within the purview of the Faculty Alliance. The faculty alliance may also provide a spokesperson for the minority viewpoint, if requested by the minority in writing to the spokesperson before the meeting.

Article X. ACTIONS OF THE PRESIDENT AND BOARD OF REGENTS

A Action by the President

The President of the University shall, in writing, approve, disapprove, or modify an Faculty Alliance action, and notify the spokesperson and the system governance executive officer within forty-five (45) days of receiving notification of the action by the system governance executive officer.

B. Modifications by the President

The President of the University may modify an Faculty Alliance action if the modification does not effectively contravene or nullify the purpose or principle involved in the action.

C. Disapprovals

The President of the University shall inform the Faculty Alliance of the reasons for any disapproval or modification within one month of disapproving or modifying an Faculty Alliance action.

D. Board of Regents notification and action

Faculty Alliance actions which are modified or disapproved by the President of the University, together with the statement of reasons, shall be placed on the next Board of Regents' meeting agenda for the information of the Board if requested by the Faculty Alliance. At the request of either the President of the University or the Faculty Alliance, the Faculty Alliance action which has been modified or disapproved shall be brought before the Board for action. The decision of the Board of Regents is final.

ARTICLE XI. HANDBOOK

The Faculty Alliance shall annually submit a directory of Alliance members, a description of the Alliance and how it works, and the annual Alliance calendar to the system governance executive officer for inclusion in the governance handbook. This handbook shall be distributed to the Board of Regents and to the shared governance groups.

ARTICLE XII. REPORTS

The Faculty Alliance shall annually prepare a report of activities. This report shall be submitted to the system governance executive officer for compilation into a single annual report of governance activities for submission to the President of the University and the Board of Regents. The system governance executive officer shall maintain Faculty Alliance communications via vax, the vax bulletin board, and prepare system governance news for inclusion in vax and printed newsletters.

The UAF Faculty Senate passed the following at its' Meeting #47 on February 14, 1994:

MOTION PASSED (w/2 nays)
==========

The UAF Faculty Senate moves to approve the Graduate Council recommendation that the following policy be approved for inclusion in the undergraduate and graduate catalogs and in the UAF Faculty Senate Course and Degree Procedures Manual.

Students enrolling for 600-level credit in double-listed (400/600) courses must have graduate standing (be accepted in a graduate program). Course descriptions for 400/600 courses will include the following statement: "graduate standing or permission of instructor required for 600-level enrollment."

EFFECTIVE: Immediately

RATIONALE: Only students who have been officially admitted as graduate students at UAF should b e permitted to enroll at the 600-level of double-listed (400/600) courses; undergraduate students and students without class standing should enroll at the 400-level in these courses. In order to receive graduate credit, the course must be at a level of complexity and generalization which reflects and extends the knowledge and intellectual maturity of the graduate student, and the student must, by application and acceptance to a graduate program, have demonstrated that he or she has sufficient experience in the field to participate at the graduate level.

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve the Graduate Council recommendation that the following policy be approved for inclusion in the undergraduate and graduate catalogs and in the UAF Faculty Senate Course and Degree Procedures Manual.

All requests from departments without graduate programs for new 600-level courses, including special topics courses, must be approved by Graduate School. Special topics courses will be reviewed by the Graduate Dean, and all other courses will be reviewed by the Graduate Council.

EFFECTIVE: Immediately

RATIONALE: Courses to be taught at the graduate level must be appropriate for graduate credit. Graduate School review of the proposed syllabus should evaluate the level of complexity and scholarly stimulation for graduate level.

The UAF Faculty Senate passed the following at its' Meeting #47 on February 14, 1994:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to adopt, in concept, a Table of Substitutions for students transferring within the UA system. The table shall include all course which can be used to meet general education requirements at UAA and UAS. The chair of Curricular Affairs, the Director of Admissions & Records, and the Provost shall jointly be responsible for maintaining an annual update of the Table of Substitutions. [Note: See attached draft table of substitution.]

EFFECTIVE: Fall 1994

RATIONALE: UAF should facilitate transfer of courses by maintaining a current table of substitutions for use by Admissions & Records. This table would allow Admissions & Records to accurately and promptly assign "core curriculum" transfer credit for individual courses which meet "general education" requirements at UAA and UAS. We should accept for transfer credit into our "core" all courses which can be used to meet "general education" requirements at UAA and UAS, even if we have to strain our definitions in order to give credit. (Our responsibility to facilitate transfer within the UA system transcends our responsibility to adhere strictly to our core requirements.)

Students who have fully completed the general education requirement at UAA or UAS are covered under a separate policy.

The UAF Faculty Senate passed the following at its' Meeting #46 on December 6, 1993:

MOTION PASSED (unanimous)
==========

ORIGINAL

The UAF Faculty Senate moves to amend the Bachelor of Technology degree requirements in the Area of specialization as follows:

*The candidate for the B.T. degree must have 1) a minimum of 30 semester credits at UAF in the area of specialization (either completed in residence or accepted by transfer as equivalent to specific UAF courses), and 2) demonstrated competence in an applied or technical field. Competence must be demonstrated as follows:

1. Having earned an Associate of Applied Science degree from an accredited institution of higher learning.

2. Substitute one of the following as a demonstration of competency in an applied or technical field with the approval of the Curricular Affairs Committee of the Faculty Senate:

   a. an A.A.S. or similar degree earned at a non-accreditated institution

   b. state or federal certification deemed appropriate by the faculty

   c. journeyman status in trades and industry

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: Since Curricular Affairs generally accepts A.A.S. degrees of accreditated institutions anyway, this proposal will save the time and effort of obtaining that approval.

Vice Chancellor's Staff

The UAF Faculty Senate passed the following at its' Meeting #46 on December 6, 1993:

MOTION PASSED

ORIGINAL

The UAF Faculty Senate moves to approve the following policy on Student-Initiated Withdrawal to apply to all Fairbanks campus courses (i.e., all UAF courses except those given by the rural campuses or the Center for Distance Education).

The last day for student-initiated withdrawal shall be the fourth Friday after classes begin for all students except freshman and non-degree students who will have up until the sixth Friday.

Classes less than a semester in length, shall have a withdrawal period in the same proportion as semester length courses.

Withdrawals after the deadlines will require the signatures of the student's adviser, and the cognizant instructor, department head, and Dean.

Students who are already on a class wait list and who have kept up with class activity will be allowed to register for the class up until the fourth Friday after classes begin as vacancies occur.

EFFECTIVE: Fall 1994

RATIONALE: Currently the last day for a student to withdraw from a class is 9 weeks into the semester which is approximately 2/3 of the way through the semester. Since the addition of the core, many students find it difficult to expeditiously satisfy their core requirements due to closed classes. This problem is exacerbated by the present drop policy. The principal reason for this motion is to help students who are unable to get into core courses in a timely manner because of closed classes. This proposal will allow students, who are on a waiting list for a filled class and have kept up with the classroom activities for just over three weeks, an increased opportunity to register for these classes. The second reason for the motion is to get students to commit themselves to a class at an earlier date. Thus, this proposal will produce a class atmosphere that is more conducive to learning.

ORIGINAL

The UAF Faculty Senate moves to amend the Baccalaureate Core Curriculum Guidelines for Oral Communication Intensive Courses.

EFFECTIVE: Upon Chancellor Approval

RATIONALE: The first two year's experience with Oral Intensive courses under the Core Curriculum has shown that the guidelines for designating a course as "O" intensive are applicable to a number of different courses across a variety of disciplines. But it has also become apparent that is difficult to meet the guidelines in other courses that regularly have large enrollments, because of the demands on classroom time. To address this problem we offer the following clarifications of the existing guidelines for Oral Intensive courses, with the addition of a new section of the guidelines (5) specifically for courses that regularly enroll a large number of students (20 or more).

A classroom organized under this new section of the guidelines would fulfill one half of the oral intensive requirement, to be indicated in the Catalog by the new designation "O/2." Students would have to take TWO courses with this new designation to meet the Oral Intensive requirement, whereas a single course designated ""O" would be sufficient.

Apart from the addition of this new section to the guidelines, they remain as previously structured, except for clarifications in terms of the size of class to which they would likely apply. In particular, section 4 of the guidelines, formerly identified as "technical," is now correctly identified as pertaining primarily to small classes (under 12 students), as originally intended.

These guidelines were approved by the Faculty of the Department of Speech Communication on October 5, 1993, and by the Core Review Committee on October 6, 1993.

11/16/93
President, UAF Faculty Senate Date

APPROVED: Joan Wadden DATE 11-18-93
Chancellor's Office

DISAPPROVED: _____ DATE _____
Chancellor's Office

* *

CURRENT GUIDELINES:

GUIDELINES FOR CORE ORAL COMMUNICATION INTENSIVE DESIGNATOR:

1. General Guidelines:

   a A minimum of 15% of the final course grade should be based on effectiveness of oral communication. This minimum is proposed so that a student's failure to attend to the oral communication aspects of his or her work in an "O" designated course will have an important effect on his or her final grade for the course, while at the same time not overshadowing the importance of subject matter mastery.

   b. Attention to oral communication in "O" designated courses must be developmental, in that students need the opportunity (i) to receive intermediate instructor assistance in developing presentational competency, (ii) to utilize their communication competency across the span of the semester, not just in a final project, and (iii) to receive instructor feedback on the success of their efforts at each stage.

   c. Exceptions to these guidelines may be made by the Core Review Subcommittee because of unique circumstances in individual departments.

2. Specific Guidelines for "O" Designated Courses Emphasizing Oral Communication in Public Contexts:

   a. Each student must be involved in the individual preparation and delivery of at least 3 course related presentations of at least 5 minutes duration each, to an audience of at least 12 persons. **

   b. At least one presentation must involve questions from the audience and responses by the presenter.

   c. All presentations must have a clear introduction-body-conclusion organization, appropriate to the discipline.

   d. All presentations should receive evaluation by the instructor on oral communication competency (including responsiveness to audience questions), as well as on subject mastery.

   e. Students must receive, as part of the course structure, information/instruction on effective speaking, on organization of material for effective presentation, and on development and use of media and visual aids.

3. Specific Guidelines for "O" Designated Courses Emphasizing Oral Communication in Group Contexts:

   a. Each student must be involved in at least one ongoing group project or team of 5 to 8 members, with the group spanning 4 to 7 weeks duration. Group projects must be a coordinated, integrated effort by the group members, not simply 5 to 8 individual projects put together.

   b. Each student must present both an intermediate and a final presentation on an aspect of the group's work during the span of the project or team.

   c. Both presentations must be at least 5 minutes in length, must be given to an audience (e.g., the rest of the class), must be integrated with the presentation of the other group members, and must include additional time for a question and answer period.

d. Each presentation should receive evaluation by the instructor on oral communication competency, as well as on subject mastery. In addition, the instructor should evaluate the degree of coherence in the overall presentation of the entire group. Students should receive both an individual and group grade for the presentation.

e. Students must receive, as part of the course structure, information/instruction on how groups function most effectively, on organization of material for effective presentation, and on development and use of media and visual aids.

4. Specific Guidelines for "O" Designated courses Emphasizing Oral Communication in Technical Presentation Contexts:

a. Each student must be involved in the preparation and delivery either of 2 or more course related presentations of at least 20 minutes duration each or of 3 or more presentations of at least 10 minutes duration each. It is highly desirable and strongly encouraged for the benefit of the student that one of the presentations be to an audience of 12 or more. The remaining presentations need to be to an audience of 5 or more. It is also desirable that the presentation to the larger group be given in a large auditorium and involve the use of a public address system.

b. All presentations must involve question and answer interaction with at least one assigned respondent, with questions by other audience members encouraged.

c. In a course with 3 presentations, it is highly desirable that one of the three presentations be video-taped, either in or outside of class. Such video taped presentations need to involve at least the presenter and the respondent, and must be viewed by these individuals with the instructor present to provide feedback on oral communication effectiveness in the presentation and response.

d. For individual presentations that relate to a common theme or project, it is highly desirable that the presentations be organized in a panel format, with a student moderator.

e. All presentations must have a clear introduction-body-conclusion organization, appropriate to the discipline.

f. At least one presentation must involve the development and use of appropriate visual aids, and it is desirable that all presentations do so.

g. All presentations should receive evaluation by the instructor on oral communication competency (including responsiveness to audience questions), as well as on subject mastery.

h. Students must receive, as part of the course structure, information/instruction on effective speaking, effective responding, organization of material for effective presentation, and on development and use of media and visual aids. If thematic panels are used, students should also receive instruction on panel/symposium and moderator techniques.

** Research in Speech Communication, as well as in Social Psychology, shows that in interaction with groups smaller than 10-11 persons, communicators are able to keep track of others as individual persons and to adjust their communication efforts accordingly, much as they do when interacting with only one or two others. In groups of 10-11 or more individuals, this ability rapidly diminishes, so that 12 persons is a recognized minimum audience for developing the competencies needed in public communication contexts, as opposed to those required in small group communication contexts.

AMENDED GUIDELINES:

GUIDELINES FOR CORE ORAL COMMUNICATION INTENSIVE DESIGNATOR:

1. General Guidelines:

   a A minimum of 15% of the final course grade should be based on effectiveness of oral communication. This minimum is proposed so that a student's failure to attend to the oral communication aspects of his or her work in an "O" designated course will have an important effect on his or her final grade for the course, while at the same time not overshadowing the importance of subject matter mastery.

   b. Attention to oral communication in "O" designated courses must be developmental, in that students need the opportunity (i) to receive intermediate instructor assistance in developing presentational competency, (ii) to utilize their communication competency across the span of the semester, not just in a final project, and (iii) to receive instructor feedback on the success of their efforts at each stage.

   C. THESE GUIDELINES DISTINGUISH BETWEEN COURSES EMPHASIZING GROUP PROJECTS AND THOSE EMPHASIZING PUBLIC PRESENTATIONS. THE GUIDELINES FOR COURSES EMPHASIZING PUBLIC COMMUNICATION ARE FURTHER DIVIDED ACCORDING TO THE NUMBER OF STUDENTS REGULARLY ENROLLING IN A GIVEN COURSE, I.E., SMALL CLASS (LESS THAN 12 STUDENTS), MEDIUM OR LARGE CLASS (AT LEAST 12 STUDENTS), AND LARGE CLASS (AT LEAST 20 STUDENTS). **NOTE SPECIFICALLY THAT UNDER GUIDELINE 5 FOR A LARGE CLASS, A GIVEN COURSE FULFILLS ONLY HALF OF THE "O" INTENSIVE REQUIREMENT, SO THAT A STUDENT MUST TAKE TWO SUCH COURSES (HENCE THE DESIGNATION "O/2"). UNDER EACH OF THE OTHER SETS OF GUIDELINES, A SINGLE COURSE WOULD FULFILL THE "O" REQUIREMENT.

   D.. Exceptions to these guidelines may be made by the Core Review Subcommittee because of unique circumstances in individual departments.

2. SPECIFIC GUIDELINES FOR "O" DESIGNATED COURSES EMPHASIZING GROUP COMMUNICATION IN MEDIUM OR LARGE CLASS CONTEXTS:

   a. Each student must be involved in at least one ongoing group project or team of 5 to 8 members, with the group spanning 4 to 7 weeks duration. Group projects must be a coordinated, integrated effort by the group members, not simply 5 to 8 individual projects put together.

   b. Each student must present both an intermediate and a final presentation on an aspect of the group's work during the span of the project or team.

   c. Both presentations must be at least 5 minutes in length, must be given to an audience (e.g., the rest of the class), must be integrated with the presentation of the other group members, and must include additional time for a question and answer period.

   d. Each presentation should receive evaluation by the instructor on oral communication competency, as well as on subject mastery. In addition, the instructor should evaluate the degree of coherence in the overall presentation of the entire group. Students should receive both an individual and group grade for the presentation.

   e. Students must receive, as part of the course structure, information/instruction on how groups function most effectively, on organization of material for effective presentation, and on development and use of media and visual aids.

3. SPECIFIC GUIDELINES FOR "O" DESIGNATED COURSES EMPHASIZING PUBLIC COMMUNICATION IN MEDIUM OR LARGE CLASS CONTEXTS (REGULARLY ENROLLING AT LEAST 12 STUDENTS):**

   a. Each student must be involved in the individual preparation and delivery of at least 3 course related presentations of at least 5 minutes duration each, to an audience of at least 12 persons. **

   b. At least one presentation must involve questions from the audience and responses by the presenter.

   c. All presentations must have a clear introduction-body-conclusion organization, appropriate to the discipline.

   d. All presentations should receive evaluation by the instructor on oral communication competency (including responsiveness to audience questions), as well as on subject mastery.

   e. Students must receive, as part of the course structure, information/instruction on effective speaking, on organization of material for effective presentation, and on development and use of media and visual aids.

4. SPECIFIC GUIDELINES FOR "O" DESIGNATED COURSES EMPHASIZING PUBLIC COMMUNICATION IN SMALL CLASS CONTEXTS (REGULARLY ENROLLING LESS THAN 12 STUDENTS):

   a. Each student must be involved in the preparation and delivery either of 2 or more course related presentations of at least 20 minutes duration each or of 3 or more presentations of at least 10 minutes duration each. It is highly desirable and strongly encouraged for the benefit of the student that one of the presentations be to an audience of 12 or more. The remaining presentations need to be to an audience of 5 or more. It is also desirable that the presentation to the larger group be given in a large auditorium and involve the use of a public address system.

   b. All presentations must involve question and answer interaction. AS APPROPRIATE FOR THE DISCIPLINE, IT IS HIGHLY DESIRABLE THAT THERE BE at least one assigned respondent, with questions by other audience members encouraged.

   c. In a course with 3 presentations, it is highly desirable that one of the three presentations be video-taped, either in or outside of class. Such video taped presentations need to involve at least the presenter and the respondent, and must be viewed by these individuals with the instructor present to provide feedback on oral communication effectiveness in the presentation and response.

   d. For individual presentations that relate to a common theme or project, it is highly desirable that the presentations be organized in a panel format, with a student moderator.

   e. All presentations must have a clear introduction-body-conclusion organization, appropriate to the discipline.

   f. At least one presentation must involve the development and use of appropriate visual aids, and it is desirable that all presentations do so.

   g. All presentations should receive evaluation by the instructor on oral communication competency (including responsiveness to audience questions), as well as on subject mastery.

   h. Students must receive, as part of the course structure, information/instruction on effective speaking, effective responding, organization of material for effective presentation, and on development and use of media and visual aids. If thematic panels are

used, students should also receive instruction on panel/symposium and moderator techniques.

5. SPECIFIC GUIDELINES FOR "O/2" DESIGNATED COURSES EMPHASIZING PUBLIC COMMUNICATION IN LARGE CLASS CONTEXTS (REGULARLY ENROLLING 20 OR MORE STUDENTS):

   A. EACH STUDENT MUST TAKE AT LEAST TWO "O/2" DESIGNATED COURSES TO MEET THE CORE CURRICULUM REQUIREMENT FOR ORAL INTENSIVE COURSEWORK.

   B. EACH STUDENT MUST BE INVOLVED IN THE INDIVIDUAL PREPARATION AND DELIVERY OF AT LEAST 2 COURSE RELATED PRESENTATIONS ONE OF AT LEAST 5 MINUTES DURATION AND ONE OF AT LEAST 8-10 MINUTES DURATION, TO AN AUDIENCE OF ABOUT 20 PERSONS.

   C. THE 8-10 MINUTE PRESENTATION, MUST BE A FORMAL INDIVIDUAL PRESENTATION, AND MUST INVOLVE QUESTIONS FROM THE AUDIENCE AND RESPONSES BY THE PRESENTER.

   D. ALL PRESENTATIONS MUST HAVE A CLEAR INTRODUCTION-BODY-CONCLUSION ORGANIZATION, APPROPRIATE TO THE DISCIPLINE.

   E. ALL PRESENTATIONS SHOULD RECEIVE EVALUATION BY THE INSTRUCTOR ON ORAL COMMUNICATION COMPETENCY (INCLUDING RESPONSIVENESS TO AUDIENCE QUESTIONS), AS WELL AS ON SUBJECT MASTERY.

   F. STUDENTS MUST RECEIVE, AS PART OF THE COURSE STRUCTURE, INFORMATION/INSTRUCTION ON EFFECTIVE SPEAKING, ON ORGANIZATION OF MATERIAL FOR EFFECTIVE PRESENTATION, AND ON DEVELOPMENT AND USE OF MEDIA AND VISUAL AIDS.

** Research in Speech Communication, as well as in Social Psychology, shows that in interaction with groups smaller than 10-11 persons, communicators are able to keep track of others as individual persons and to adjust their communication efforts accordingly, much as they do when interacting with only one or two others. In groups of 10-11 or more individuals, this ability rapidly diminishes, so that 12 persons is a recognized minimum audience for developing the competencies needed in public communication contexts, as opposed to those required in small group communication contexts.

****

PROPOSED CLARIFICATION OF CATALOG DESCRIPTION OF "O" AND "W":

The description of the Oral Intensive requirement on page 24 of the 1993-94 Catalog needs to be modified to make students aware of the distinction between courses designated as "O" and "O/2."

Current Language:

> Two designated writing intensive courses (w) and one oral communication intensive course (o) at the upper division level (see degree and/or major requirements).....0 additional credits

Proposed Language:

> Two writing intensive courses designated (w), and either one oral communication intensive course designated (o) or two oral communication intensive courses designated (o/2), at the upper division level (see degree and/or major requirements).....0 additional credits

The UAF Faculty Senate passed the following at its' Meeting #44 on October 18, 1993:

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT, PROMOTION, TENURE, AND SABBATICAL LEAVE

AND
COOPERATIVE EXTENSION SERVICE UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN THE COOPERATIVE EXTENSION SERVICE. ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO CES FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

I. PURVIEW.

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies" (hereinafter referred to as UAF Faculty Policies), supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks. Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate UAF.

The University, through the UAF Faculty Senate, may wish to change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

The Vice Chancellor for Academic Affairs is responsible for coordination and implementation of matters relating to procedures stated herein.

II. INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment. Minimum degree, experience, and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles. Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline. Units wishing to appoint academic rank faculty within schools and colleges

to titles must have the concurrence of the specific discipline in which the title resides.

C. Process for Appointment of Faculty with Academic Rank. Deans of School and Colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's affirmative action policies and shall provide for participation in hiring by faculty and administrators as a unit. **IN ACCORDANCE WITH THE BOARD OF REGENTS POLICY ON PROMOTION AND TENURE, EXTENSION AGENTS ARE EXEMPTED FROM A TRIPARTITE RESPONSIBILITY. SUCH FACULTY HAVE BIPARTITE RESPONSIBILITY. THE BIPARTITE RESPONSIBILITIES ARE TO BE CLEARLY STATED AT THE TIME OF HIRE AND CAN BE ANY COMBINATION OF TWO OF THE THREE TRIPARTITE MISSIONS, I.E., TEACHING, RESEARCH, OR SERVICE IN COMBINATION. EXTENSION SPECIALISTS AND OTHER EXTENSION FACULTY HAVE A TRIPARTITE RESPONSIBILITY.**

THE COOPERATIVE EXTENSION SERVICE FACULTY HAS DEVELOPED A POLICY ON MENTORING RELATIONSHIPS FOR FACULTY WHICH PROVIDES GUIDELINES FOR THE MENTORING SYSTEM. FACULTY MEMBERS SHALL BE INFORMED OF THE OPPORTUNITY TO MAINTAIN A VOLUNTARY MENTORING RELATIONSHIP DURING THEIR CAREER DEVELOPMENT PRIOR TO THE AWARD OF TENURE.

D. Process for Appointment of Faculty with Special Academic Rank. Deans and/or directors, in conjunction with the faculty in a unit shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's stated affirmative action policies, and shall provide for participation in hiring by faculty and administrators in the unit. These procedures shall be on file in the Chancellor's Office.

E. Following the selection process, the dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the Chancellor or his/her designee.

F. Letter of Appointment. The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, and any special conditions relating to the appointment. This letter of appointment establishes the nature of the position and, while the

percentage of emphasis for each part may vary with each workload distribution, the part(s) defining the position may not. Subsequent letters of appointment may vary the work load distribution and nature of the assignment.

III. PERIODIC EVALUATION OF FACULTY

A. Criteria. As outlined in UAF Faculty Policies, Chapter IV.A.3, **AND CES UNIT CRITERIA, STANDARDS AND INDICES,** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total Contribution to the university and activity in the areas outlined above will be defined by activity and excellence in the following tripartite areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

B. Bipartite Faculty. Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

As defined in UAF Faculty Policy (IV.A.2.), only vocational/technical faculty and extension agents may hold bipartite rank. No other faculty may hold bipartite rank.

The determination of which of the criteria defined above will apply to these faculty shall be in accordance with institutional needs for the given position, will be coordinated by the dean of the appropriate school or college in consultation with the director, in cases of joint appointment, and with the program faculty.

While bipartite faculty may choose to engage in a tripartite function, they will not be required to do so as a condition for evaluation, promotion, or tenure.

C. Definitions of Criteria.

1. Effectiveness in Teaching

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those

activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom or through distance delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting. **STANDARD ACADEMIC TEACHING IS NOT A COMMON FORM OF INFORMATION DELIVERY IN THE COOPERATIVE EXTENSION SERVICE. INSTRUCTION OFTEN INCLUDES CONTACT WITH CLIENTELE THROUGH DISTANCE DELIVERY METHODS, WORKSHOPS, SEMINARS, AND TRAINING AND PUBLIC INFORMATION EVENTS.**

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics which define effective teachers. Effective teachers:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students **AND CLIENTELE;**

b. express positive regard for students, **BECOME FAMILIAR WITH THEIR PUBLIC,** develop good rapport with students **AND CLIENTELE**, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student **AND CLIENTELE** participation for student learning and teacher effectiveness, are sensitive to student and **CLIENTELE** diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design.

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum materials, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings (required source of data) and at least two of the following:

b. self-evaluation

c. peer/head classroom observation(s)

d. peer/head evaluation of course materials

EVALUATION OF TEACHING--IN AN EXTENSION CONTEXT:

EFFECTIVE TEACHING IS COMPLEX, BUT MUST PROVIDE A LEARNING EXPERIENCE ENABLING THE LEARNER TO GAIN KNOWLEDGE, SKILLS AND/OR CHANGES IN ATTITUDES.

EXTENSION EDUCATION DIFFERS FROM RESIDENT EDUCATION IN THAT IT ADDRESSES CLIENTELE AND PUBLIC NEEDS BY DELIVERING INFORMATION RELEVANT TO THOSE NEEDS.

DIFFERENTIATING TEACHING ACTIVITIES AS SEPARATE FROM PUBLIC SERVICE EDUCATIONAL ACTIVITIES IS ACCOMPLISHED BY DETERMINING WHETHER THE TEACHING IS PROACTIVE OR REACTIVE. TEACHING OF COURSES, SEMINARS OR WORKSHOPS IS PROACTIVE AND REQUIRES PREPARATION THROUGH CURRICULUM OR PROGRAM DEVELOPMENT, AND SHALL BE CATEGORIZED AS TEACHING, FULFILLING THE TEACHING MISSION.

PUBLIC SERVICE INCLUDES PUBLIC PRESENTATIONS AND PERSONAL CONSULTATIONS WHICH ARE REACTIVE TO IMMEDIATE PUBLIC NEEDS. THIS DISTINCTION IS A USEFUL TEST TO APPLY TO A TEACHING ROLE TO DISCERN THE CATEGORY OF THE TRIPARTITE MISSION FOR WHICH A GIVEN TEACHING ACTIVITY QUALIFIES.

STANDARDS AND INDICES OF TEACHING ACTIVITY IN THE COOPERATIVE EXTENSION SERVICE:

TEACHING AND TRANSFER OF KNOWLEDGE ARE CHARACTERIZED BY:

A. COURSES, WORKSHOPS, SEMINARS, DEMONSTRATIONS AND CURRICULUM OR PROGRAM DEVELOPMENT.

B. EDUCATIONAL VIDEOTAPES AND/OR OTHER MEDIA PRODUCED FOR PUBLIC E EDUCATION, THAT REQUIRES RESEARCH AND PREPARATION.

INDICES FOR DOCUMENTING EFFECTIVE TEACHING IN AN EXTENSION CONTEXT INCLUDE:

A. DOCUMENTATION OF CHANGES IN KNOWLEDGE, SKILLS AND/OR ATTITUDES RESULTING FROM CES INFORMATION TRANSFER.

B. DEMONSTRATING THAT CES TEACHING IS A RESPONSE TO CLIENTELE NEEDS.

C. SYSTEMATIC CLIENTELE EVALUATION OF BOTH THE PROGRAM AND THE INSTRUCTOR.

D. UNSOLICITED TESTIMONIALS.

E. DOCUMENTATION OF CONTACT HOURS WITH CLIENTELE RELATIVE TO POTENTIAL AUDIENCES.

EXAMPLES OF EXCELLENCE IN TEACHING PERFORMANCE WHICH QUALIFIES A CES FACULTY MEMBER FOR PROMOTION TO THE RANK OF FULL PROFESSOR INCLUDE:

1. DEVELOPMENT OF NEW METHODS AND APPROACHES IN THE DISCIPLINE, SUCH AS:

A. CREATIVE USE OF MEDIA FOR CLIENTELE EDUCATION WHICH EXTENDS THE BOUNDS OF THE DISCIPLINE AND IMPROVES EDUCATIONAL OUTREACH.

B. CURRICULUM OR PROGRAM DEVELOPMENT, WHICH ENHANCES TEACHING EFFECTIVENESS

2. RECEIPT OF STATE OR NATIONAL AWARDS IN RECOGNITION OF OUTSTANDING TEACHING.

3. CONTINUED EXCELLENT CLIENTELE/STUDENT REVIEWS AND EVALUATIONS AS A TEACHER.

2. Achievement in Research, Scholarly, and Creative Activity.

Inquiry and originality are central functions of a land grant/sea grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction

between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

FACULTY ARE EXPECTED TO CONDUCT APPLIED RESEARCH OR ENGAGE IN OTHER SCHOLARLY OR CREATIVE PURSUITS THAT ARE APPROPRIATE TO THE MISSION OF THE COOPERATIVE EXTENSION SERVICE. CONSISTENT WITH THIS MISSION, EXTENSION FACULTY PROVIDE THE PUBLIC WITH RESEARCH BASED INFORMATION IN AN EASILY UNDERSTOOD FORMAT THAT CAN BE APPLIED TO DAILY LIVING AND IMPROVE THE QUALITY OF LIFE. COOPERATIVE EXTENSION SERVICE BULLETINS, FACT SHEETS AND PUBLICATIONS SHALL BE CONSIDERED A MAJOR PART OF THE DISSEMINATION OF INFORMATION BY EXTENSION FACULTY. COOPERATIVE EXTENSION SERVICE FACULTY HAVE VERY LIMITED OPPORTUNITIES TO CONDUCT TRADITIONAL RESEARCH AT THE GRADUATE LEVEL AND VERY LIMITED ACCESS TO LABORATORIES AND GRADUATE STUDENTS. ADDITIONALLY, BIPARTITE FACULTY MAY OR MAY NOT HAVE A RESEARCH OBLIGATION.

Whatever the contribution, research, scholarly or creative activities must have the following characteristics:

--They must occur in a public forum.

--They must be evaluated by appropriate peers.

--They must be evaluated by peers external to this institution so as to allow an objective judgment.

--They must be judged to make a contribution.

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by PEERS, juries, recognized artists, or critics.

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Presentation of research papers before learned societies.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts; these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. **AWARDS OF SPECIAL FELLOWSHIPS TO DEVELOP IDEAS.**

o. **AUTHORSHIP OF SEVERAL CES PUBLICATIONS OR ARTICLES WITHIN CES PUBLICATIONS WHICH MEETS THE CRITERIA SET FORTH IN III. C. 2 OF THIS DOCUMENT WILL BE DEEMED EQUAL TO ONE WORK PUBLISHED IN A NATIONAL OR INTER NATIONAL JOURNAL (THE NUMBER TO BE DETERMINED AND DESIGNATED BY THE CES PEER REVIEW COMMITTEE ON AN INDIVIDUAL BASIS ACCORDING TO THE LENGTH AND COMPLEXITY OF EACH PUBLICATION OR ARTICLE).**

p. **NEW AND UNIQUE ADAPTATIONS OF EXISTING RESEARCH-BASED TECHNOLOGY OR KNOWLEDGE IN ORDER TO SOLVE PROBLEMS RELEVANT TO ALASKA.**

EXCELLENCE IN THE AREA OF RESEARCH OR SCHOLARLY ACTIVITY IN EXTENSION, WHICH QUALIFIES A FACULTY MEMBER FOR PROMOTION TO FULL PROFESSOR MAY INCLUDE:

A. AUTHORSHIP OF A BOOK OR MAJOR REFERENCE IN THE FACULTY MEMBER'S AREA OF SCHOLARLY ACTIVITY.

B. RECEIPT OF A NATIONAL RESEARCH FELLOWSHIP.

C. CONTINUOUS PERFORMANCE IN RESEARCH WITH A CORRESPONDING PUBLICATION RECORD.

D. INTRODUCTION OF A NEW TECHNOLOGY, PRODUCT, OR IDEA WHICH DEMONSTRABLY IMPROVES THE QUALITY OF LIFE FOR ALASKANS, AND IS A CLEAR RESULT OF A FACULTY MEMBER'S EXTENSION ACTIVITY.

3. Effectiveness of Service:

The notion of public service is intrinsic to the land grant /sea grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

a. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in further the goals and mission of the university and its units; such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

1. Providing information services to adults or youth.

2. Service on or to government or public Committees.

3. Service on accrediting bodies.

4. Active participation in professional organizations.

5. Active participation in discipline-oriented service organizations.

6. Editing or refereeing articles or proposals for professional journals or organizations **AND CES PUBLICATIONS.**

7. Consulting **IN THE FACULTY MEMBER'S AREA OF EXPERTISE AND THE DISCIPLINE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE.**

8. **ASSESSING THE RESEARCH NEEDS OF CLIENTELE AND COMMUNICATING THOSE NEEDS TO THE RESEARCH COMMUNITY.**

Methods of delivering public service may include, but are not limited to:

1. Leadership of, or presentations at workshops, conferences, or public meetings.

2. Training, facilitating, and consultative services.

3. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

4. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

5. **MANAGING AN EFFECTIVE VOLUNTEER PROGRAM TO HELP EXTEND CES RESOURCES OR DEVELOP LEADERSHIP SKILLS.**

b. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

1. Service on university, college, school, institute, or departmental committees or governing bodies.

2. Consultative work in support of university functions, such as expert assistance for specific projects.

3. Service as department head, **PROGRAM CHAIR, OFFICE COORDINATOR** or similar part-time administrator.

4. Participation in accreditation reviews.

5. Service in support of student organizations and activities.

6. Academic support services such as library and museum programs.

7. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

c. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements and performance evaluations. In formulating standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities appropriate for that unit, and measures for evaluation. Effectiveness of public service is "demonstrated by such things as: professionally related and publicly recognized service to constituencies external to the university, including public and private sector groups, governmental agencies, boards, commissions, committees, public interest groups, community groups, businesses, and urban and rural residents; successful design and implementation of technology-transfer programs to external constituencies; application of directed research to the needs of constituencies; recognition, awards and honors from constituent groups; and reputation among peer deliverers of public service. Effectiveness of university service is demonstrated by such things as work on university committees and task forces; participation in faculty governance; colleague assistance; administrative work, and work with students beyond formal teacher-student relationships.

STANDARDS AND INDICES FOR PUBLIC AND UNIVERSITY SERVICE:

STANDARDS FOR PUBLIC SERVICE AND UNIVERSITY SERVICE FOR FACULTY IN EXTENSION ARE WELL DESCRIBED IN THE FACULTY POLICIES EVALUATION CRITERIA, SECTION II C.3.A. IN ADDITION, THE FOLLOWING ACTIVITIES FURTHER EXEMPLIFY PUBLIC SERVICE STANDARDS IN EXTENSION'S ROLE:

A. INITIATION AND FACILITATION OF PUBLIC EDUCATIONAL EVENTS.

B. PRODUCING AND PUBLISHING POPULAR PRESS ARTICLES.

C. MEDIA PRESENTATIONS AND PUBLIC INTERVIEWS, E.G., TV, RADIO, FILM, NEWSPAPERS AND VIDEOTAPES.

D. DEMONSTRATED ABILITY TO RESPOND TO NEW KNOWLEDGE AND DEVELOPMENTS IN THE DISCIPLINE BY RAPIDLY RAISING PUBLIC UNDERSTANDING AND AWARENESS THROUGH AVAILABLE EDUCATIONAL MEDIA AND METHODS.

E. INDIVIDUAL INSTRUCTION, INCLUDING PERSONAL CONSULTATIONS.

F. EXEMPLARY RESPONSE IN EMERGENCY SITUATIONS RENDERED IN AN EXTENSION ROLE, AS AGENT OR STATEWIDE SPECIALIST, TO CLIENTELE WHICH FACED THE EMERGENCY(IES).

INDICES FOR PUBLIC SERVICE PERFORMANCE IN THE EXTENSION SERVICE

A. CES PUBLICATIONS WITH A DOCUMENTED RECORD OF INTERNAL PEER REVIEW. ADDITIONAL REVIEW OUTSIDE CES IS ENCOURAGED.

B. DOCUMENTATION OF SERVICE ACTIVITIES PLANNED ON A CONTINUING PROGRAMMATIC BASIS.

C. UNSOLICITED TESTIMONIALS.

D. AWARDS AND RECOGNITIONS FROM THE PUBLIC SECTOR.

E. DOCUMENTING PUBLIC NEEDS AND BRINGING TO BEAR THE RESOURCES OF THE UNIVERSITY AND OTHER ENTITIES IN MEETING THOSE NEEDS.

F. DEMONSTRATING THE IMPACTS WHICH RESULT FROM PUBLIC SERVICE THROUGH EXTENSION.

EXCELLENCE IN SERVICE OR RECOGNITION OF SERVICE WHICH QUALIFIES A CES FACULTY MEMBER FOR PROMOTION TO FULL PROFESSOR INCLUDE:

1. INVITATIONAL SERVICE ON NATIONAL OR INTERNATIONAL BOARDS, REVIEW COMMITTEES, AWARD COMMISSIONS OR SCHOLARSHIP COMMISSIONS.

2. NATIONAL LEADERSHIP IN A PROFESSIONAL ORGANIZATION.

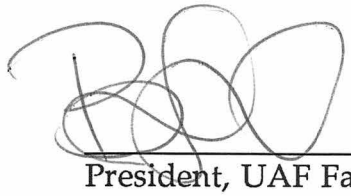
3. RECOGNITION THROUGH INVITATIONAL SPEAKING ENGAGEMENTS.

4. OUTSTANDING UNIVERSITY SERVICE, SUCH AS SERVICE AS A FACULTY SENATE OFFICER, FACULTY SENATE COMMITTEE CHAIR, OR MEMBER OF A MAJOR ADMINISTRATIVE SEARCH COMMITTEE.

5. RECOGNITION THROUGH RECEIPT OF PUBLIC SERVICE AWARDS, OR AWARDS FOR SERVICE TO THE UNIVERSITY.

6. RECEIPT OF A NATIONAL ASSOCIATION, USDA, OR PROFESSIONAL SOCIETY SERVICE AWARD.

7. PARTICIPATION IN A VOLUNTARY MENTORING RELATIONSHIP WITH JUNIOR FACULTY TO FACILITATE THEIR PROGRESS TOWARD PROMOTION AND TENURE.



The UAF Faculty Senate passed the following at its' Meeting #43 on September 20, 1993:

MOTION PASSED
==========

ORIGINAL

The UAF Faculty Senate approves the process of collecting names for the Joint Faculty/Administration Task Forces. Senate and non-Senate faculty names will be collected for a period of two weeks. These names will be forwarded to the Faculty Affairs Committee and that committee will select two names for both the Service Productivity and Research Productivity committees. The selected individuals will also serve as ad hoc members of the appropriate Senate committee. Information from the joint committees will come back to the Senate through the Faculty Affairs Committee for comment and final approval.

EFFECTIVE: Immediately

10/5/93

President, UAF Faculty Senate Date

cc: Chanc Staff

The UAF Faculty Senate passed the following at its' Meeting #42 on May 3, 1993:

MOTION PASSED (unanimous)
==========

ORIGINAL

The UAF Faculty Senate moves to amend the transfer of credit policy to include credit based on the American Council on Education's (ACE) National Guide to Educational Credit for Training Programs or the Directory of the National Program on Noncollegiate Sponsored Instruction (PONSI) of the University of the State of New York. Upon presentation of official documents verifying satisfactory completion of instruction, credit may be awarded as recommended above, subject to approval by appropriate faculty. Credit recommendations for specific UAF courses will be reviewed by the faculty of the department in which the UAF course is offered. Once a review has been done for any given course of instruction, that course need not be reviewed for each subsequent request unless there has been significant change to the course or its credit award. When credit is recommended in areas where there is no UAF equivalent, the recommendation will be reviewed by the faculty of the student's major department.

EFFECTIVE: Fall 1993

RATIONALE: UAF does not currently provide the possibility of transfer credit for ACE/PONSI certified training programs. This motion will provide an opportunity for students to request such credit with approval authority resting with the cognizant faculty.

Timothy Johnson 5-5-93
President, UAF Faculty Senate Date

APPROVED: Joan Wadlow DATE 5/5/93
Chancellor's Office

DISAPPROVED: _____ DATE _____
Chancellor's Office

cc: Chancellor's Staff

The UAF Faculty Senate passed the following at its' Meeting #42 on May 3, 1993:

MOTION PASSED (w/1 nay)
==========

ORIGINAL

The UAF Faculty Senate moves that subsequent to the third Friday after classes begin, all registrations for audit (including those arising from drop/add activity) must be approved by the instructor of the course being audited.

EFFECTIVE: Fall 1994

RATIONALE: Many instructors place requirements such as consistent attendance, participation in labs, undertaking of assignments, etc. on students wishing to audit their courses. The motion will provide an opportunity for agreement between instructor and student concerning such requirements. It should reduce the number of Au grades which the instructor must change to Ws on the final grade report.

It should be noted that, under the revised withdrawal procedure proposal, most students will require the instructor's signature for withdrawals after the date specified above, so the additional signature required for those students seeking to change a course from credit to audit can be requested simultaneously with the withdrawal approval.

The UAF Faculty Senate passed the following at its' Meeting #42 on May 3, 1993:

MOTION PASSED (unanimous)
==========

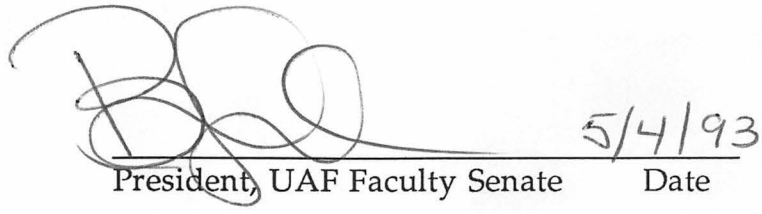
The UAF Faculty Senate moves to adopt the following calendar of meetings for the 1993-94 academic year.

Mtg. #	Date	Day	Time	Type
43	9/20/93	Monday	1:30 p.m.	face-to-face
44	10/18/93	Monday	1:30 p.m.	audioconference
45	11/15/93	Monday	1:30 p.m.	audioconference
46	12/6/93	Monday	1:30 p.m.	face-to-face
47	2/14/94	Monday	1:30 p.m.	face-to-face
48	3/21/94	Monday	1:30 p.m.	audioconference
49	4/25/94	Monday	1:30 p.m.	face-to-face

RATIONALE: The UAF Faculty Senate constitution states that there shall be a minimum of seven regular meetings each academic year.

5-6-93

President, UAF Faculty Senate Date



The UAF Faculty Senate passed the following at its' Meeting #42 on May 3, 1993:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its' Meeting #42 on May 3, 1993:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to empower the Administrative Committee to act on behalf of the Senate during the summer months of 1993 on all matters within its purview which may arise. Senators will be kept informed of the Administrative Committee meetings and will be allowed to attend and participate in these meetings.

EFFECTIVE: May 3, 1993

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

The UAF Faculty Senate passed the following at its' Meeting #42 on May 3, 1993:

RESOLUTION OF APPRECIATION

FOR

TIMOTHY TILSWORTH

WHEREAS, Tim Tilsworth has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

WHEREAS, Tim Tilsworth has served as Chairman, Statewide University Assembly from 1974-76; and

WHEREAS, Tim Tilsworth has served as Chairman, Statewide Administrative Committee on Academic Policy from 1976-78; and

WHEREAS, Tim Tilsworth has served as Senator to the UAF Faculty Senate from 1990-1992; and

WHEREAS, Tim Tilsworth has served as Chairman of the Graduate Council for 1990-91; and

WHEREAS, Tim Tilsworth has served as Chairman, President's Search Committee for UAF Chancellor in 1990; and

WHEREAS, Tim Tilsworth has served as President-Elect of the UAF Faculty Senate from 1991-1992; and

WHEREAS, Tim Tilsworth has served as a member of the Executive Committee of the UA statewide General Assembly from 1991-1993; and

WHEREAS, Tim Tilsworth has served as President of the UAF Faculty Senate from 1992-1993; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Tim Tilsworth as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Tim Tilsworth and expresses its appreciation for his exemplary service.

The UAF Faculty Senate passed the following at its Meeting #41 on April 12, 1993:

RESOLUTION PASSED (unanimous)
==========

ORIGINAL

WHEREAS, the role of the faculty senate in establishing closer parallel Faculty/Student governance at UAF has not been strong in the past, and

WHEREAS, the shared problems of our university community regarding health services, substance abuse counseling, and safety issues of all sorts, have been reviewed by the committees above, and the need to engage the students, faculty, staff and administration in communications and efforts to strengthen our community services and support structure are clearly recognized, and

WHEREAS, a first step in developing a stronger support structure and community awareness of that support would be to establish joint Faculty/Student/Staff efforts toward that end, and

WHEREAS, the emotional, intellectual, physical, spiritual, and psychological needs of students can be better met by a well-informed and aware faculty, staff and student body, and by an inventory and directory of University services, which can result from the work of a joint committee, and

WHEREAS, an overarching goal of the Service Committee and the Faculty Development committee is to develop a stronger sense of community within the university,

THEREFORE BE IT RESOLVED, That the UAF Governance Coordinating Committee establish a joint working committee to begin a review of the student and community support structures available on campus and within the UAF system.

FURTHER BE IT RESOLVED, That this new committee look into building awareness of student needs and the university community support services available to meet those needs, and to improving the access to those services within our university community

The UAF Faculty Senate moves to endorse the Graduate Council proposal to change the number of TA and RA hours required to receive a tuition waiver as attached.

EFFECTIVE: Immediately

4-15-93
President, UAF Faculty Senate Date

* * * * * * * * * * * * * * *

TUITION WAIVERS FOR TEACHING AND RESEARCH ASSISTANTSHIPS

Current (Graduate Manual, p.16):

Teaching and research assistants are entitled to full tuition waivers, if the assistantships are 1/4 time (5 hours per week) or greater, and if the assistantship appointment begins on or before the beginning of the semester. (A research assistant beginning an appointment in October, therefore, world not be eligible for a tuition waiver for fall semester.) Students must present a copy of their letter of appointment to the fee assessors during the regular fee payment period each semester to receive the tuition waiver.

Current (Graduate Catalog, p. 29)

Teaching and research assistants receive full tuition waivers when the assistantship begins on or before the beginning of a semester. Students must present a copy of their contract letter to the fees assessors during registration each semester to receive the tuition waiver.

Proposed:

Unless otherwise stated in the letter of appointment, Teaching and Research Assistants are entitled to full tuition waivers, if the assistantship is half-time (10 hours per week) or greater, and if the assistantship appointment begins on or before the first day of instruction and ends on or after the last day of final examinations for that semester (16 or more weeks). Therefore, a research assistant whose appointment begins in October, for example, would not be eligible for a tuition waiver in that fall semester. Students must present a copy of their letter of appointment to the fee assessors during the regular fee payment period each semester to receive the tuition waiver.

Background and Rationale:

Hourly rates for stipends range from $10.50/hour to $14.00/hour. A 1/4-time appointment for 16 weeks therefore ranges from $840 to $1120, an amount less than or equal to the cost of resident tuition for a full-time graduate student. Of 162 Teaching Assistantships in 1991-92, 121 were full-time (20 hours/week), 17 were half-time (10 hours/week), 20 were less than half-time but at least 1/4-time, and 4 were less than 1/4-time. the 20 positions that would have been affected by this change were distributed as follows: .

Education	2
INDS	1
CE	1
EE	13
ME	1

This listing shows that most departments would be affected little if at all but units within the School of Engineering (particularly EE) could be adversely affected.

For faculty and units offering Research Assistantships, the proposed change would eliminate the requirement to provide a tuition waiver for students who can be provided only minimal stipends.

The general rationale for this proposal is that units should provide stipends that at least approximate the cost of non-resident graduate tuition for entitlement to tuition waivers.

FR: Claudia Clark, Chair
CLA Curriculum Council

RE: **PROPOSAL TO DELETE KOREAN PROGRAM**

On November 13, 1992, the CLA Curriculum Council voted unanimously to delete the Korean program, but with specific amendments to the original deletion proposal. The motion and amendments are:

MOTION:

- Approve deletion of the Korean Program, effective the 1994-1995 academic year with this contingency: that the program be retained if, by January 15, 1994, the program has a commitment for on-going, outside support, beginning the 1994-1995 academic year, that covers a minimum of 50 percent of salary/staff benefits for instructor and materials.
- In addition, the program should meet UAF minimum enrollment standards.
- Recommend that the department head oversee the implementation of a funding search and participate in a program review with the Dean.

ACTION:

- Passed unanimously.

Claudia Clark, Chair, CLA Curriculum Council — 11/13/92 Date

UNIVERSITY OF ALASKA FAIRBANKS

College of Liberal Arts
Fairbanks, Alaska 99775-0980
(907) 474-7231

MEMORANDUM

TO: Joan K. Wadlow, Chancellor

FROM: Jerry McBeath, Acting Dean
College of Liberal Arts

DATE: November 17, 1992

SUBJECT: Deletion of Korean Program

Pursuant to your letter to me of September 17, 1992, I prepared a program deletion request for Korean with an effective date of 1993-94. The CLA Curriculum Council carefully considered this request. It heard testimony from Dr. Koo and one or two students and accepted seven letters for the file.

The Council voted unanimously to delete the Korean program but changed the effective date to 1994-95. I support this change for two reasons:

1. Dr. Koo has announced a retirement date from the University of 1994. A change in the date will make the deletion of the program correspond to the date of Dr. Koo's retirement.

2. Several faculty and students spoke to the possibility that studies in Korean language and culture might be funded by the Korean government or a private foundation. Extending the effective date by one year gives proponents of the program ample opportunity to secure external funding for the program, if that is a viable prospect.

The UAF Faculty Senate moves to accept the Curricular Affairs Committee recommendations concerning the deletion of the Humanities program.

Timothy Ellsworth 3-30-93
President, UAF Faculty Senate Date

APPROVED: J Wadlow Chancellor's Office DATE 4/12/93
With Modifications in April 13, 1993 memo

DISAPPROVED: _____ DATE _____
Chancellor's Office

****

CURRICULAR AFFAIRS COMMITTEE RECOMMENDATIONS ON THE HUMANITIES PROGRAM DELETION:

1. CONCERNING DELETION OF THE HUMANITIES MAJOR-

RECOMMENDATION:
The Humanities major should be deleted.

RATIONALE:
The Humanities major has drawn little interest from students. Its elimination would result in a slight savings in resources.

2. CONCERNING DELETION OF THE HUMANITIES MINOR-

RECOMMENDATION:
The Humanities minor should not be deleted at this time. It is suggested that the Department of Philosophy and Humanities, in cooperation with other departments offering humanities courses, revise the minor program in order to accomplish the following objectives:

a. Make the minor more attractive to students as evidenced by increased declarations;

b. Allow use of humanities courses from other disciplines (e.g., Art, Literature, Music, Theater, etc.) which will, in turn, allow a reduction in the number of Humanities courses offered each semester.

c. Humanities courses which appreciably overlap with courses from other disciplines such as Humanities 220 should be deleted.

RATIONALE:

Although the Humanities minor has evidenced little student demand in the past, it is thought that restructure of the program could result in a viable minor while still providing a savings in resources.

3. CONCERNING RETENTION OF CERTAIN HUMANITIES COURSES-

RECOMMENDATION:

Humanities courses with strong demand as evidenced by consistent "making" of enrollment minimums and/or use as requirements for other programs should be retained. In particular, Humanities 201 and 202 should be retained.

RATIONALE:

Some of the Humanities courses (such as Humanities 202) are used in other programs and some have strong enrollments from students wishing to fulfill humanities requirements. Humanities 201 has now been modified to fulfill the Aesthetics Appreciation area of the core curriculum and has been approved by the Core Review Committee.

4. CONCERNING SHARED CONTROL FOR HUMANITIES 201 AND 202-

The recommendation of the CLA Curriculum Council concerning shared control of Humanities 201 and 202 is seen by the Curricular Affairs Committee as representing unwarranted intrusion into the academic affairs of a department and as setting undesirable precedent. This provision is NOT recommended. It should be noted that as part of the Aesthetics Appreciation area of the core curriculum, any changes in Humanities 201 do come under the approval authority of the Core Review Committee as is the case with any core course.

MEMORANDUM

TO: Tim Tilsworth, President
UAF Faculty Senate

FROM: Joan K. Wadlow, Chancellor
University of Alaska Fairbanks

DATE: April 13, 1993

RE: MOTION CONCERNING HUMANITIES

I am approving with modification the attached Senate motion concerning the deletion of the Humanities program.

I approve Recommendation #1, and agree with the Senate that the Humanities major should be deleted.

However, I do not approve Recommendation #2. I maintain that the Humanities minor should also be deleted. The intent to delete the Humanities program was announced on May 4, 1992, and was a consequence of UAF's program review process that was conducted according to guidelines approved by the Faculty Senate. Subsequently, additional reviews within the College of Liberal Arts and faculty groups occurred. During this second set of reviews, several different recommendations were made. Their various recommendations are in the record. My proposal to the Board of Regents to eliminate both the major and the minor, endorses the recommendation of the CLA Curriculum Council.

FROM: Joan K. Wadlow, Chancellor
University of Alaska Fairbanks

DATE: September 1, 1993

RE: *SENATE MOTION ON GERMAN*

On June 29, I apprised you that I was not in a position to respond to the Senate motion on German. I stated that the matter was involved in an administrative review by legal counsel for both parties. This administrative review included several grievances, one of which pertained to German language offerings. Inasmuch as this administrative review of several grievances has not resolved the matter of German language offerings, I must respond to the Senate motion on German now. I am therefore, taking the following action:

> I am directing Dean Hedahl, in accordance with college policies and procedures, to continue UAF's courses in German. "Strengthening" of German, as called for in the Senate motion, must be made within current budget constraints as suggested by the chair of the CLA Curriculum Council in the Faculty Senate meeting. The German faculty should seek external support as also called for in the motion.

I believe that this concludes the German matter, and conveys my approval of the Senate's action that rejected the Program Review recommendation to delete German.

WHEREAS, Chancellor Wadlow has requested suggestions for the improvement of graduate education at UAF, and based on a survey identifying problems in graduate education, and on input from academic departments, a number of concerns have been raised about faculty member's workload and role in graduate education; these can be divided into three areas:

1. The consideration of a faculty member's participation in graduate education in the evaluation and promotion of faculty members.

2. Faculty annual workload in relation to participation in graduate student advisement and on graduate committees.

3. Faculty annual workload in relation to the assignment of graduate classes versus undergraduate classes.

The Graduate Council feels that departments and colleges must address these concerns in some manner. At present a few departments have adopted policy concerning graduate education; however, many have no stated policy. The Graduate Council offers these guidelines to departments to be modified as deemed necessary.

BE IT RESOLVED THAT, In response to these areas of concern, the UAF Faculty Senate moves to establish the following guidelines:

1. Each peer review unit should specify the role of faculty members in graduate education in their criteria for promotion and tenure.

2. Any faculty member who is teaching a graduate course of three or more credits should not be expected to teach more than one other course during that semester. It is assumed that the faculty member will also have other assignments in research and service.

3. Faculty annual workload assignments should take into account the faculty member's participation on graduate student committees with the following formula:

	Preliminary		Advanced to Candidacy	
	Chair	Member	Chair	Member
Ph.D. or Masters w/thesis	.75 cr.	.3 cr.	1.0 cr.	.5 cr.
Masters non-thesis	.2 cr.	.1 cr.	.3 cr.	.2 cr.

The UAF Faculty Senate moves to amend the Baccalaureate Core Curriculum guideline for World Literatures: Art and Culture under the "Perspectives on the Human Condition" as follows:

CURRENT GUIDELINES:

WORLD LITERATURES: ART AND CULTURE

1. Objectives:
   a. Introducing students to the careful reading of literary texts;
   b. Developing an appreciation of the artistic elements in literature;
   c. Understanding the range of cultural differences and universals through exposure to a variety of approaches to myth, poetry, story telling, and drama.

2. Options: This course is a broad-based literature course covering a wide range of texts and representing different cultures and periods from the perspective of literature as art. Outline of course content:

   a. **Introduction to the role of literature** in the humanities and in critical thinking; overview of literature in the world, cross-cultural perspectives.
   b. **Ancient Sources** (including some attention to myth, song, and religious texts).
   c. **Poetry** (including some non-Western and American minority works).
   d. **Story** (including oral as well as written examples, and including non-Western and American minority works, and at least one novel).
   e. **Drama** (including at least one play by Shakespeare).

   Four examples of possible courses which would fulfill this outline, by using thematic approaches across diverse cultures, time periods and literary genres, are:

   1) Lysistrata (Aristophanes), Othello (Shakespeare), Phaedre (Racine), Madame Bovary (Flaubert), Les Contes d'Amadou Koumba (compiled by Bistro Diop, Senegalese oral narratives)
   2) Orestei (Aeschylus), Merchant of Venice (Shakespeare), The Miser (Moliere), selected short stories of Maupaussant, Mandabi (Sembene Ousmane).
   3) The Iliad or Odyssey (Homer), King Lear (Shakespeare), Song of Roland (anon.), Don Quixote (Cervantes), The Human Condition (Malraux).
   4) Ancient Buddhist texts (Kazuaki's *Moon in a Dewdrop*); Zen poetry from China, Japan and the U.S.; the kaikuesque novel *Kusamakura* by Natsume Soseki; Christian parables and Buddhist moral tales; and the film *Ran* compared with *King Lear*.

AMENDED GUIDELINES:

WORLD LITERATURES: ART AND CULTURE

1. Objectives:
   a. To introduce students to the diversity of oral and written literature from around the world;
   b. To develop historical and cultural awareness, aesthetic appreciation, and analytical thinking, via close study of literature;
   c. To encourage global awareness by comparing literatures from different cultures, continents, and eras;
   d. To introduce a variety of approaches to myth, poetry, narrative, stories, novels, nonfiction, and drama.

2. Content: This course is a broad-based literature course covering a wide range of texts and representing several cultures and centuries. Outline of course content:
   a. **Introduction to the role of literature.** This introduction will place literature in context, as a part of the humanities, as an art form, and as a part of culture and society.
   b. **Cross-cultural perspectives**. Literature from several cultures will be studies, and students will make connections and distinction based on cultural concepts. Each course will include non-Western and/or American minority works.
   c. **Cross-gener perspectives**. Works of literature created by both women and men will be studied.
   d. **Diversity of genres**. Students will learn about several genres, and about adaptations and evolution within and among genres. Each course will consider narrative (both oral and written), poetry, and drama, in a variety of forms, including longer forms like the novel or full-length plays, and briefer forms, like short stories, prose poems, or lyric poems. Traditional sources, such as myths, songs, or religious texts, and more modern works will be studied.

EFFECTIVE: Upon Chancellor Approval

RATIONALE: World Literature faculty from both English and Foreign Language met and discussed the guidelines for World Literature. The revised guidelines represent the pedagogical concerns and the practices of the World Literature faculty. These guidelines reflect changes agreed to by the Core Review Committee.

****

The UAF Staff Council approved the following at its meeting #49 on December 4, 1992:

MOTION PASSED AS AMENDED (1 nay, 1 abstention)
==========

The UAF Staff Council requests that UAF ban smoking in all non residential buildings owned or leased by the University of Alaska Fairbanks and in all motor vehicles owned, leased or operated by the University of Alaska Fairbanks. The Staff Council further moves that Personnel Services schedule several smoking cessation workshops in place of other proposed training sessions. Finally, the Staff Council requests that the Chancellor use the powers of her office to encourage all smokers who desire to quit smoking to attend smoking cessation workshops, form support groups, and seek medical assistance.

EFFECTIVE: Chancellor's Approval

RATIONALE: Tobacco use results in significantly higher health care costs (18% higher than non-smokers), absenteeism, and mortality. A division of Dow Chemical found that smokers average 5.5 more days of absenteeism and 8 more days of disability leave each year. Tobacco use kills more than 360,000 Americans annually. Passive smoking (smoke breathed from other people's tobacco products) kills up to 53,000 Americans annually. Tobacco users drive up health and fire insurance rates, and building maintenance costs from cleaning and equipment replacement. Finally non-smoking employees are winning lawsuits from their exposure to second-hand smoke. For example, a non-smoking waiter in California recently received an $85,000 settlement in a workers compensation case in which he claimed his heart attack was caused by other people's cigarette smoke. Reducing the amount of smoking by UA employees is one of the most cost effective ways to cut the skyrocketing costs of health insurance at the University of Alaska.

The UAF Faculty Senate passed the following at its Meeting #39 on February 8, 1993:

ORIGINAL

MOTION PASSED (2 abstentions)

Tim Tilsworth, President
UAF Faculty Senate
University of Alaska Fairbanks
Fairbanks, Alaska 99775

Dear Tim:

Acting Dean Jerry McBeath has sent you a memorandum about the reforming of CLA's peer review units at the beginning of this year as a result of the additional disciplines within the college.

When the peer review unit committees were formed originally in 1989, the Senate passed a motion accepting the configuration of the units. The UAF regulations state that the Senate is to give overall approval those units which have been augmented or combined.

The peer review group for the School of Education required augmentation, as there are currently only four tenured faculty members. The unit is being augmented with faculty members from Anthropology (2) and Geography (1).

I'd appreciate it if you would present this configuration to the Senate for approval.

Sincerely,

Janice

RESOLUTION OF APPRECIATION
for
GRACE BERG SCHAIBLE

WHEREAS, Grace Schaible is a graduate of the University of Alaska Fairbanks, having earned a Bachelor of Arts degree in History and Political Science in 1949; and

WHEREAS, Grace Schaible has been a major supporter of the University of Alaska Fairbanks and has made innumerable contributions to this University; and

WHEREAS, Grace Schaible is co-chair of the Leadership Committee of the University of Alaska Fairbanks fund-raising campaign; and

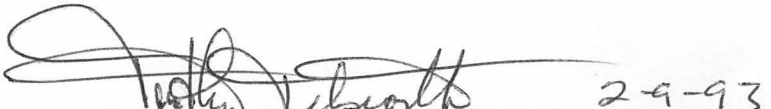
WHEREAS, Grace Schaible is serving on the Strategic Planning Leadership; and

WHEREAS, Grace Schaible served on the University of Alaska Fairbanks Alumni Association Board of Directors from 1971-1979; and

WHEREAS, Grace Schaible is a lifetime member of the University of Alaska Fairbanks Alumni Association and in 1992 was presented with an Alumni Achievement Award for university support; and

WHEREAS, Grace Schaible served on the University of Alaska Foundation Board of Trustees, and was a founding member of the Museum Endowment Board; and

WHEREAS, Grace Schaible served as general counsel to the University of Alaska; and



WHEREAS, Grace Schaible served on the University of Alaska Board of Regents from 1982-1986; and

WHEREAS, Grace Schaible served as state attorney general from 1987-1989; and

WHEREAS, Grace Schaible is a respected attorney and well known business and civic leader, and continues to make important contributions to the state of Alaska

NOW THEREFORE BE IT RESOLVED, That the Faculty Senate of the University of Alaska Fairbanks takes great pride in the success and civic leadership of its graduate Grace Schaible; and

THEREFORE BE IT FURTHER RESOLVED, That the Faculty Senate, on behalf of the faculty of the University of Alaska Fairbanks, extends its sincere appreciation and gratitude to Grace Schaible for her outstanding generosity and numerous acts benefiting the University and the state of Alaska.

RESOLUTION PASSED (Unanimous)
==========

ORIGINAL

WHEREAS, the University of Alaska Board of Regents is currently discussing University policy on nondiscrimination; and

WHEREAS, the issues of discrimination and harrassment are being debated in universities nationwide; and

THEREFORE, The Faculty Senate of the University of Alaska Fairbanks affirms its expectation that no discrimination against or harassment of individuals will be condoned on any of the campuses or in the programs or activities of the University. Consistent with this expectation, the Faculty Senate urges that all professional judgments be based on qualifications, abilities and performance. Attitudes, practices, and preferences of individuals that are essentially private in nature and that are unrelated to performance should provide no basis for judgment.

RESOLUTION PASSED (2 nays) ORIGINAL
==========

WHEREAS, The UAF Faculty Senate has yet to approve criteria for tenure and promotion of campus units, and

WHEREAS, this body proposes that we standardize solicited criteria to ensure that each unit is given the opportunity to define those requirements for tenure and promotion as stated in University Regulations, and

WHEREAS, to approve these definitions, we wish to appoint representatives from interested committees of the UAF Faculty Senate,

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate moves to constitute an ad hoc committee consisting of one member from each of the following committees: Faculty Affairs; Scholarly Activities; Faculty Development, Assessment, and Improvement; and Service Committee. This committee will recommend to approve or deny the criteria for tenure and promotion submitted by campus units to the Faculty Senate. This committee will work with each unit to prepare an appendix that refers directly to University Regulations on Tenure and Promotion and defines how each unit wishes University Regulations to be interpreted for the purposes of tenure and promotion.

The UAF Faculty Senate moves to empower the Administrative Committee to act on behalf of the Senate during the period of time between the December 7, 1992 meeting and the February 8, 1993 meeting on all matters within its purview which may arise. Senators will be kept informed of the Administrative Committee meetings and will be allowed to attend and participate in any voting.

EFFECTIVE: December 7, 1992

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their right to participate in the governance process.

Timothy Ellsworth 12/9/92

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #38 on December 7, 1992:

MOTION PASSED (unanimous)
==========

ORIGINAL

The UAF Faculty Senate strongly disapproves of the University of Alaska budget process wherein UAF is directed to absorb increased costs of operation while receiving insufficient funds to maintain current functions.

The Senate recommends that U of A President Komisar seek sufficient revenue and institute new budgeting procedures which adequately address UAF needs for new growth, physical plant maintenance, quality education, and realistic operational constraints and goals.

The Senate further recommends that these urgent concerns be communicated to the Board of Regents and the executive and legislative branches of state government. UAF must have adequate funding to meet expectations and demands made by the public, state government and the Board of Regents. The Senate believes that UAF cannot survive additional cuts, or continued level funding, without massive program reduction. This reduction would severely damage the quality and reputation of an excellent University.

EFFECTIVE: Immediately

RATIONALE: The FY94 budget proposal for UAF projects a potential $4- to $6-million shortfall. Should this shortfall occur, following seven years of relatively level funding, it would have a crippling effect on the institution.

A catastrophic fiscal problem will occur if UAF is asked to absorb some or all of a 3% compensation adjustment of $1,853,200, a 4% PERS adjustment of $1,087,700, FY94 fixed cost increases of $2,065,900 and additional fixed costs not recognized by the Board of Regents, a projected health benefits shortfall of $1,111,900 (not including proposed additional employee assessments), payments for the Regent's Building Maintenance Plan of $2,254,100, and a projected FY93 deficit roll forward of unfunded fixed costs in the amount of $2,100,000.

UAF has consistently and abundantly demonstrated its ability to do more with less and to commit good faith effort to budget reductions by conducting program review and implementing strategic planning. The continued imposition of across-the-board cuts and the levying of a fiscal tax through "internal reallocation" is devastating to our ability to deliver quality education to our students.

12/9/92

President, UAF Faculty Senate Date

cc: Chancellor's Staff

The UAF Faculty Senate passed the following at its Meeting #38 on December 7, 1992:

MOTION PASSED (1 abstention)
==========

ORIGINAL

The Senate recommends that the Statewide Administration conduct a study comparing compensation of U of A faculty to those at other U.S. institutions of higher education. This study would assist with development of future strategies for maintaining a healthy and pleasant work environment at the University of Alaska.

The Senate, furthermore, endorses the recommendations of the Senate Ad Hoc Committee on Health Benefits, as amended.

The Senate strongly recommends to U of A President Komisar, however, that neither the Ad Hoc Health Benefits Committee's recommendations nor any reductions in compensation be imposed until all other avenues have been pursued to maintain the current health benefits program without employee assessment. Specifically, an appropriation should be sought from the legislature to cover the increased costs.

EFFECTIVE: Immediately

RATIONALE: U of A employees have not enjoyed significant compensation adjustments during the past decade. Reductions in the benefits program could have serious negative effects on faculty and staff morale, retention and recruiting. Changes in the health benefits program during this fiscal year would constitute a good-faith breach of contract for an unnegotiated compensation reduction--in effect a pay cut in mid-contract period.

Conclusions and Recommendations of Ad Hoc Health Benefits Committee, November 4, 1992

The committee recommends to the Faculty Senate the following measures designed to reduce costs and promote the more efficient use of the UA Health Plan by its employees:

1. Revise mental health (MH) and chemical dependency (CD) program:
   -cover both in and out-patient visits at 80%
   -reduce chemical dependency coverage to 50% if patient voluntarily withdraws from program
   -maximum $10,000 annual, $1,000,000 lifetime for CD
   -maximum $15,000 annual, $1,000,000 lifetime for MH
   -expected savings of $65,000 and $246,100 for second half of FY93 and for FY94 respectively

2. Ensure Supplemental Plan premiums cover Plan costs:
   -expected savings of $70,000 and $123,000 respectively

3. Cover emergency room visits at the standard 80% rate until stoploss is reached, delete $500 supplemental accident benefit.
   -expected savings of $146,000 and $312,000 respectively

4. Use mail order drug programs for ongoing prescription services
   -expected savings of $43,000 and $93,000 respectively

5. Provide life insurance coverage of $50,000, regardless of income
   -expected savings of $151,908 and $303,816 respectively

6. Institute a $10 user fee for each visit to a health practitioner. This copayment will not be counted in coinsurance or the annual stoploss.
   -expected savings of $196,000 and $420,000 respectively

These options will save approximately $672,000 in FY93 and $1,498,000 in FY94. To allow for additional but as yet undetermined savings both in the short and the long run, we also recommend indexing copayment and stoploss levels with the consumer price index.

The UAF Faculty Senate moves to endorse the UAA Benefits Task Force Resolution 92-1 and Resolution 92-2 with modification as noted on the attached copy.

Timothy Tedsworth 12/9/92

President, UAF Faculty Senate Date

****

UAA BENEFITS TASK FORCE RESOLUTION 92-1

WHEREAS, to the best of our knowledge the UA Aetna contract has not received an independent audit while several tens of millions of dollars have passed through Aetna during the time of its contract;

WHEREAS, employees of the University of Alaska throughout the state have been working through their governance bodies to investigate and recommend benefit changes;

WHEREAS, UA administration has admitted to having ignored Mercer Consultants and Aetna actuarial recommendations;

WHEREAS, a single item audit of one year's phone calls billed to the University by Aetna led to information that Aetna had double billed the university for these items;

THEREFORE, BE IT RESOLVED, The University of Alaska Anchorage Benefits Task Force on behalf of the UAA employees, request that the UA Board of Regents initiate an independent audit of Aetna as a third party administrator and of the University of Alaska's administration of employee benefits funds, including the reserve funds. We request that such an audit ask these specific questions, as well as those the external auditors believe necessary:

1. Has the University of Alaska handled the health insurance reserve funds in a manner which is both fiscally prudent and responsible in terms of long term projections from the early 1980s to the present time?
2. Since Aetna has had the University's health benefits contract, has it overpaid or underpaid benefits and does Aetna have a definitively legitimate list of benefit beneficiaries who are eligible under the UA program?
3. How does the UA-Aetna contract compare to other similar contracts nationwide?
4. Mercer Consultants investigated a suspicion that Aetna had double charged for collect telephone charges last year, has there been over billing for any element of the contract over the last 10 years?
5. Aetna charges a fixed fee for every claim processed, has Aetna used a correct method of determining what constitutes a processed claim, or have resubmissions of the same claim been billed multiple times?
6. Has Aetna paid claims that should not have been paid or not paid claims that should have been paid?

AND THEREFORE, BE IT RESOLVED, We request that no changes be made in the Health Benefits package until after completion of the requested audit.

ORIGINAL

The UAF Faculty Senate moves to amend the Transfer of Credit policy as follows:

[[ ]] Deletions
CAPS Additions

Credit accepted for transfer to UAF which has been earned at other regionally accredited institutions, through military educational experiences or credit accepted by special approval, is considered transfer credit. Where possible, transfer credit is equated with UAF courses.

THE UNIVERSITY WILL AWARD COURSE CREDIT FOR SPECIFIED NATIONAL AND STATE AUTHORIZATIONS, CERTIFICATES, CREDENTIALS, AND/OR EXAMINATIONS. THE OFFICE OF ADMISSIONS AND RECORDS WILL MAINTAIN AN APPROVED LIST OF THESE TOGETHER WITH APPROPRIATE COURSE EQUIVALENCIES.

EFFECTIVE: Spring 1993
Upon Chancellor's approval

RATIONALE: The proposed change in Credit for Prior Learning policy which implements an accreditation recommendation from the Northwest Association of Schools and Colleges would jeopardize existing agreements with state and national programs which award credit for certain certificates and exams. This change in transfer policy removes credit earned from these agreements from the Credit for Prior Learning category to Transfer Credit classification and thus preserves the agreements.

The UAF Faculty Senate passed the following at its Meeting #37 on October 19, 1992:

MOTION PASSED (unanimous)
==========

ORIGINAL

The UAF Faculty Senate moves to approve the following process for amending the list of professional programs qualifying for transfer credit.

EFFECTIVE: Immediately

RATIONALE: This motion partially implements the change in Transfer Credit policy effected by the previous motion by setting up an approval process for modifications in the list of professional programs qualified for transfer credit maintained by the Office of Admissions and Records. (This motion, as were last meeting's motion on Credit for Prior Learning and the other two transfer credit motions considered at this meeting, results from a strong accreditation recommendation made by the Northwest Association of Schools and Colleges.)

President, UAF Faculty Senate Date

APPROVED: _____ DATE 10-21-92
Chancellor's Office

DISAPPROVED: _____ DATE _____
Chancellor's Office

APPROVAL PROCESS FOR AMENDING LIST OF PROFESSIONAL PROGRAMS QUALIFYING FOR TRANSFER CREDIT

The Office of Admissions and Records shall maintain a list of national, state and professional certificates, examinations, authorizations and/or credentials (hereafter collectively referred to as "certifications") which are approved for transfer credit under revised University Transfer Credit Policy. Each such certification shall be accompanied by a listing of appropriate course equivalencies.

The initial list of authorized programs will be approved by the Senate on recommendation of the Curricular Affairs Committee. Thereafter, the following process will be utilized for amending the list:

Proposed amendments shall be forwarded by cognizant deans to the Senate where they will undergo review identical to that for substantive undergraduate program and course changes, i.e., unanimous approval by the Curriculum Review Committee subsequent to publication and an appropriate comment period (currently 10 days). Irreconcilable disagreement on the part of this committee or between the committee and the proposers shall be referred to the Curricular Affairs Committee for final resolution. Proposals will then be forwarded to the Office of the Vice Chancellor for Academic Affairs.

Proposals for additions to the list shall include:

A. Complete name of sponsoring professional organization and titles of specific certifications qualifying for transfer credit.

B. Rationale, including types of training and/or experiences required for each certification and its relationship to university studies.

C. Expected budgetary impact.

D. List of UAF course equivalences and corresponding credit hours to be used in awarding transfer credit.

The UAF Faculty Senate passed the following at its Meeting #37 on October 19, 1992:

RESOLUTION PASSED (unanimous)
==========

ORIGINAL

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of three individuals selected on the basis of the following ballot.

BALLOT

FACULTY APPEALS COMMITTEE

Please vote for **THREE** individuals to serve on the Faculty Appeals Committee for promotion and tenure.

Jerry Purser, CES
Professor of Extension Agriculture Resources Management

Clifford Cox, SOM
Associate Professor of Accounting Information Systems

Roger Powers, CLA
Professor of Anthropology

Current Membership:

William Harrison, CNS (93)
Professor of Physics

Scott Huang, SME (93)
Professor of Mineral/Geological Engineering

EFFECTIVE: Immediately

RATIONALE: The Faculty Appeals Committee is composed of five members, serving staggered two-year terms. The Senate must ratify the election.

Timothy Tetreault 10-20-92
President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #37 on October 19, 1992:

RESOLUTION PASSED (w/10 abstentions)

WHEREAS, there is a need for someone to coordinate and seek new faculty resources; and

WHEREAS, there is a need for a centralized efforts to coordinate materials, information and resources; and

WHEREAS, there is a need to coordinate activities such as workshops, grants and faculty orientation; and

WHEREAS, there is a need for a faculty member to oversee the Office of Faculty Development and to serve the interests and needs of the faculty; and

WHEREAS, there is a need for all faculty to participate beyond the department level for greater cooperation between departments; and

WHEREAS, there is a need to provide faculty development support beyond the department level; now,

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recommends maintaining the Office of Faculty Development; and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate further recommends staffing the office with a permanent faculty member whose current contract would be extended by one month. This would allow the faculty member to represent the Office of Faculty Development throughout the year.

The remainder of the currently allocated funds could be used for proposals from departments for faculty development and improvement.

The UAF Faculty Senate passed the following at its Meeting #36 on September 21, 1992:

ORIGINAL

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the UAF Credit for Prior Learning policy as follows:

[[ ]] Deletions
CAPS Additions

In acknowledging that individuals learn a great deal outside the walls of educational institutions, some UAF departments participate in a program where up to [[45 credits]] 25% OF TOTAL CREDIT REQUIREMENTS for prior learning may be granted to you if you're a[[n undergraduate degree or certificate student]] CERTIFICATE, ASSOCIATE OR BACHELOR'S DEGREE STUDENT. [[For the Associate of Applied Science degree and the Bachelor of Technology degree, up to 60 credits may be awarded based on federal, state or professional certifications or licenses, if applicable to your degree program.]] Credentials are reviewed by faculty from participating departments who make recommendations for awarding prior learning credit for specific courses that will apply toward CERTIFICATE, associate or baccalaureate degree requirements. Credit received for prior learning doesn't impact your GPA and is not considered as residence credit. For further information concerning credit for prior learning, contact the Advising Center at the Fairbanks campus.

EFFECTIVE: Spring 1993
Upon Chancellor's approval

RATIONALE: A strong recommendation from the Northwest Association of Schools and Colleges made in our last accreditation report of 1990 is to modify our Credit for Prior Learning policy so that no more than 25% of the credit for any academic program can come from such credit. This proposed change implements this recommendation and places us in compliance with Association standards.

Academic Council

The Administrative Committee on behalf of the UAF Faculty Senate passed the following at a meeting on August 31, 1993:

MOTION PASSED
==========

The UAF Faculty Senate moves to approve the following policy on Student-Initiated Withdrawal to apply to all Fairbanks campus courses (i.e., all UAF courses except those given by the rural campuses or the Center for Distance Education).

That the last day for student-initiated withdrawal date be moved to the third Friday after classes begin for all students.

That for classes less than a semester in length, the withdrawal deadline will be determined in the same proportion as for semester length courses.

That withdrawals after that time will be by petition only which requires the signature of the student's instructor, adviser, department head, and Dean.

That students who are already on a class wait list and who have attended class and have kept up with class activity during this period be allowed to register for these classes up until the third Friday after classes begin as vacancies occur.

EFFECTIVE: Fall 1994

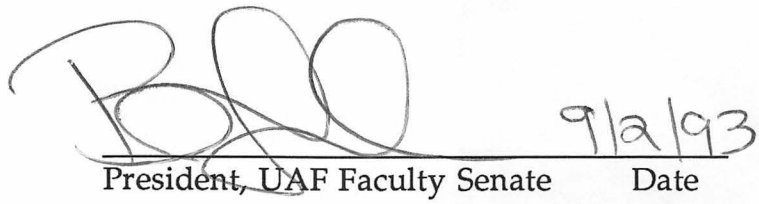
RATIONALE: Currently the last day for a student to withdraw from a class is 9 weeks into the semester which is approximately 2/3 of the way through the semester. The Director of Admissions and Records reported to the Assembly in 1984 that 44% of regular students had some sort of drop/add activity between the 3rd and 9th week of the semester. She has indicated that since then this activity has increased and is probably now over 50%. Since the addition of the core, many students find it difficult to expeditiously satisfy their core requirements due to closed classes. This problem is exacerbated by the present drop policy.

The purpose for making this motion is two fold:

1. The first and principal reason for this motion is to help students who are unable to get into core courses in a timely manner because of closed classes. Many students who are not serious about finishing a particular class sign up for an extra class or two and then drop them too late in the semester for other students to fill the vacancies. This is particularly troublesome in the case of core courses which are intended to be completed by students before they achieve Junior standing. This proposal will allow students, who are on a waiting list for a filled class and have kept up with the classroom activities for just over two weeks, an increased opportunity to register for these classes.

A related factor that should be considered during this time of decreasing budgets is that there is presently a significant work load (and cost) for faculty, graders, and teaching assistants which goes along with carrying along students who in the end drop a class. The University is at a point where we must efficiently use our staff and facilities in order to provide the maximum offerings for our students.

2. The second reason for the motion is to get students to commit themselves to a class at an earlier date. Presently there are students who attend classes, half heartedly performing the exercises required in the classes, but leaving themselves the option of dropping if they don't believe their grade will be as high as they wish. This is a self defeating proposition, since often the reason for a student's low grade is not having made a commitment to learning the course materials. Thus, this proposal will produce a class atmosphere that is more conducive to learning.



SPECIAL CONSIDERATIONS:

Recognizing that beginning students may not have the necessary experience to be able to quickly determine if they have the proper background to succeed in a course, this motion will give Freshman and Non Degree students a longer time to make the decision to drop a course. This will give these students more time to work with advisers, course instructor, and tutors before making a decision to drop a class.

Special cases will certainly arise where it will be necessary for a student to drop a class. The motion allows for these situations by requiring the petition process be used after the deadline date.

Students will need an early indication of how they are doing in each class if this drop policy is to be successful. Indeed, "Students overwhelmingly report that the single most important ingredient for making a course effective is getting rapid response on assignments and quizzes. This makes each assignment a genuine learning experience, rather than simply an obligation to complete toward a final course grade." (Light, Harvard assessment seminars, 1990, p. 31)

Therefore faculty will need to provide students with the opportunity to determine what the class requirements are before the drop date. This should include a detailed syllabus and at least one graded assignment. The added time provided for Freshman and Non Degree Students should provide ample time for additional graded work such as exams and papers.

TO: Joan Wadlow, Chancellor

FROM: David Spell, President
UAF Faculty Senate

DATE: September 1, 1993

SUBJECT: Modification of Motion on Student-Initiated Withdrawal Dates

The UAF Faculty Senate Administrative Committee met on August 31, 1993 and discussed the issue of student-intiated withdrawal dates. Clif Lando indicated that the Curricular Affairs Committee would be amenable to establishing one date for all students. A vote taken by the Administrative Committee recommends setting the deadline at three weeks. Attached is a revised motion for your signature.

MEMORANDUM

TO: David Spell, President
Faculty Senate

FROM: Joan K. Wadlow, Chancellor
University of Alaska Fairbanks

DATE: June 29, 1993

RE: *MOTION ON STUDENT-INITIATE WITHDRAWAL DATES*

At my request, the Senate granted an extension to the deadline for responding to Senate action on student-initiated withdrawal dates. I have now had opportunity to hear a report about the reaction from the deans and to discuss the matter with Dean Carla Kirts. I had telephoned you to discuss the matter, but summer schedules are quite a complicating element. Here is where I stand at this time, and I summarize so that you can think about it when your time allows.

I agree that we need a change and I believe the Senate is moving in the right direction. I really have a problem with two withdrawal dates. In my judgment, we would be spending much time (faculty, staff and students), on definitional matters, e.g., who is a freshman, as well as clarifying to advisers, (faculty and advisers), the distinction and hence the importance of checking the class level status of each student before offering advice. I, therefore, want to approve a change that sets ONE date for all students. I would be willing to sign the present resolution at 3 weeks, so long as it applied to ALL students. I would prefer to sign a revised motion that sets the date for ALL students at 4 weeks. Can we discuss this in the Administrative Committee this summer and reach a conclusion early in the fall? We have time before the fall 1994 implementation date which the Senate established.

University of Alaska Fairbanks

DATE: June 3, 1993

RE: *EXTENSION*

I am requesting an extension of the deadline for chancellor's action on the Senate motion pertaining to student-initiated withdrawal dates. Vacation schedules have simply made it impossible to get the input I have sought. Thanks in advance.

JKW/smw

The UAF Faculty Senate passed the following at its' Meeting #42 on May 3, 1993:

MOTION PASSED
==========

The UAF Faculty Senate moves to approve the following policy on Student-Initiated Withdrawal to apply to all Fairbanks campus courses (i.e., all UAF courses except those given by the rural campuses or the Center for Distance Education).

That the last day for student-initiated withdrawal date be moved to the third Friday after classes begin for all students except freshman and non-degree students who will have up until the sixth Friday.

That for classes less than a semester in length, the withdrawal deadline will be determined in the same proportion as for semester length courses.

That withdrawals after that time will be by petition only which requires the signature of the student's instructor, adviser, department head, and Dean.

That students who are already on a class wait list and who have attended class and have kept up with class activity during this period be allowed to register for these classes up until the third Friday after classes begin as vacancies occur.

EFFECTIVE: Fall 1994

RATIONALE: Currently the last day for a student to withdraw from a class is 9 weeks into the semester which is approximately 2/3 of the way through the semester. The Director of Admissions and Records reported to the Assembly in 1984 that 44% of regular students had some sort of drop/add activity between the 3rd and 9th week of the semester. She has indicated that since then this activity has increased and is probably now over 50%. Since the addition of the core, many students find it difficult to expeditiously satisfy their core requirements due to closed classes. This problem is exacerbated by the present drop policy.

The purpose for making this motion is two fold:

1. The first and principal reason for this motion is to help students who are unable to get into core courses in a timely manner because of closed classes. Many students who are not serious about finishing a particular class sign up for an extra class or two and then drop them too late in the semester for other students to fill the vacancies. This is particularly troublesome in the case of core courses which are intended to be completed by students before they achieve Junior standing. This

proposal will allow students, who are on a waiting list for a filled class and have kept up with the classroom activities for just over two weeks, an increased opportunity to register for these classes.

A related factor that should be considered during this time of decreasing budgets is that there is presently a significant work load (and cost) for faculty, graders, and teaching assistants which goes along with carrying along students who in the end drop a class. The University is at a point where we must efficiently use our staff and facilities in order to provide the maximum offerings for our students.

2. The second reason for the motion is to get students to commit themselves to a class at an earlier date. Presently there are students who attend classes, half heartedly performing the exercises required in the classes, but leaving themselves the option of dropping if they don't believe their grade will be as high as they wish. This is a self defeating proposition, since often the reason for a student's low grade is not having made a commitment to learning the course materials. Thus, this proposal will produce a class atmosphere that is more conducive to learning.

SPECIAL CONSIDERATIONS:

Recognizing that beginning students may not have the necessary experience to be able to quickly determine if they have the proper background to succeed in a course, this motion will give Freshman and Non Degree students a longer time to make the decision to drop a course. This will give these students more time to work with advisers, course instructor, and tutors before making a decision to drop a class.

Special cases will certainly arise where it will be necessary for a student to drop a class. The motion allows for these situations by requiring the petition process be used after the deadline date.

Students will need an early indication of how they are doing in each class if this drop policy is to be successful. Indeed, "Students overwhelmingly report that the single most important ingredient for making a course effective is getting rapid response on assignments and quizzes. This makes each assignment a genuine learning experience, rather than simply an obligation to complete toward a final course grade." (Light, Harvard assessment seminars, 1990, p. 31)

Therefore faculty will need to provide students with the opportunity to determine what the class requirements are before the drop date. This should include a detailed syllabus and at least one graded assignment. The added time provided for Freshman and Non Degree Students should provide ample time for additional graded work such as exams and papers.

The UAF Faculty Senate passed the following at its Meeting #35 on May 4, 1992:

RESOLUTION OF APPRECIATION
for
THE FAMILY OF EMIL USIBELLI
and
THE USIBELLI COAL MINE, INC.

Whereas, Emil Usibelli was a pioneer of the Alaskan mining industry, and

Whereas, Emil Usibelli established the Usibelli Coal Mine, Inc. which continues to make important contributions to the economy and energy needs of Alaska, and

Whereas, Usibelli Coal Mine, Inc. has been a major supporter of the University of Alaska Fairbanks since 1977 in many areas of need, including Korean Studies, Geology and Geophysics, School of Engineering, School of Mineral Engineering, and Nanook Athletics, and

Whereas, Joe Usibelli and Joe Usibelli, Jr. have carried on management of the Usibelli Coal Mine, Inc. and are well known business and civic leaders in the state of Alaska, and

Whereas, Joe Usibelli, Chairman of the Board and Chief Executive Officer of Usibelli Coal Mine, Inc., is a graduate of the University of Alaska Fairbanks, having earned a Bachelor of Science degree in Civil Engineering in 1959, and

Whereas, Joe Usibelli was named the University of Alaska Fairbanks Distinguished Alumnus in 1981, and

Whereas, Joe Usibelli is a co-chair of the University of Alaska Fairbanks fund raising campaign, and

Whereas, Joe Usibelli serves on the University of Alaska Foundation Board of Trustees, and

Whereas, Joe and Shelley Usibelli have supported scholarship programs for students of the University of Alaska Fairbanks and have contributed to the University Museum, and

Whereas, Joe Usibelli, Jr., President and Chief Operating Officer of Usibelli Coal Mine, Inc., is a graduate of the University of Alaska Fairbanks, having earned a Bachelor of Science degree in Civil Engineering in 1981, and

Whereas, Joe Usibelli, Jr. is a lifetime member of the University of Alaska Fairbanks Alumni Association, and

Whereas, Joe Usibelli, Jr. served on the University of Alaska Fairbanks Alumni Association Board of Directors, and

Whereas, the Usibelli family and the Usibelli Coal Mine, Inc. have provided a generous endowment for the Emil Usibelli Distinguished Awards in Teaching, Research and Service,

Therefore be it resolved, that the Faculty Senate of the University of Alaska Fairbanks takes great pride in the success and civic leadership of its graduates, Joe Usibelli and Joe Usibelli, Jr., and

Be it further resolved, that the Faculty Senate, on behalf of the faculty of the University of Alaska Fairbanks, extends its sincere appreciation and gratitude to the Usibelli Family and Usibelli Coal Mine, Inc. for their outstanding generosity and numerous acts benefiting the University.

RE: Proposed A.A.S. in Paralegal Studies

SCCE is prepared to reallocate funds internally to support the Paralegal Studies program. We have been offering two paralegal courses per year as trial courses to respond to community demand. Therefore the additional cost, based on $2,500 per course, would be $10,000 per year. The Applied Business and the General Education faculty pool budgets will be reallocated to support the A.A.S. in paralegal studies.

The UAF Faculty Senate passed the following at its Meeting #33 on March 9, 1992:

RESOLUTION PASSED
==========

RESOLUTION
regarding
U of A President's House and UAF Chancellor's House

BACKGROUND:

A plan has been proposed to build a new residency for the University of Alaska President through private fund raising efforts. The new residence is proposed for a location off Yankovich Road on private property which has been donated to the University for this express purpose.

Should this private fund raising effort be successful and the housing plan implemented, it would follow that the UAF Chancellor would occupy the residence presently used by President Komisar and his family.

Prior to the establishment of a statewide University system it was desirable that the President have a home on the Fairbank's campus. It is no longer necessary that the President reside on campus particularly since the UAF Chancellor is the chief administrative officer for the campus. It is, however, desirable that the University of Alaska President be located in the Fairbanks area along with the U of A Statewide Administration.

Construction of a new off-campus residence for the U of A President will be beneficial to UAF, the U of A system and the residents of Fairbanks. Implementation of the plan will mean that the President will remain in the Fairbanks area, that the Statewide Administration will also remain in the Fairbanks area, and that the President's current residence can be occupied by Chancellor Wadlow.

It is desirable that the UAF Chancellor have a residence suitable for hosting larger groups than is presently possible. These groups could

include off-campus individuals, legislators and other politicians as well as on-campus faculty, staff and students. A larger and more suitable home will provide for better hosting and entertaining of guests, group meetings, fund raising sessions and other matters.

The issue of suitable housing for the UAF Chancellor was of concern during the spring of 1991 to both finalists for the position. Commitments in that regard should be fulfilled.

Use of private funds for the construction of a new residence for the President is a positive step for both the University and the community. The use of private funds shows a timely interest in and appreciation for the University by our community.

On the other hand, some would consider the use of public funds for this effort unsuitable. Even so, it is possible that a residence for the President could be secured through rental or lease agreements that would require the use of public funds to pay the bills.

Tenure in university top management positions is relatively short and on the average ranges from about 5-7 years. Therefore, it is likely to be a relatively short time before the University must again embark on searches for a new President, and a new UAF Chancellor. It will be important that an improved housing arrangement be available prior to those searches and the ongoing effort should help to resolve these concerns.

The opportunity is before us to use private donations to improve the housing arrangement for the President and, subsequently, the UAF Chancellor. Resolution of the matter will be beneficial to both the University and the Fairbanks community.

RESOLUTION

WHEREAS, the chief administrative officer of the University of Alaska Fairbanks campus is the Chancellor, and

WHEREAS, the existing residence of the UAF Chancellor is relatively small and not well suited for the hosting of University guests, and

WHEREAS, the residence for the UAF Chancellor was a concern by both finalists for the position and was a contract issue during recruitment negotiations, and

WHEREAS, it is desirable that the University of Alaska President maintain a residence in the Fairbanks area,

THEREFORE, be it resolved that the Faculty Senate of the University of Alaska Fairbanks supports the proposal to:

Build a new residence for the President of the University of Alaska near the community of Fairbanks using private funds, and to

Provide the present residence of the U of A President for the UAF Chancellor.

BE IT FURTHER RESOLVED, that the Faculty Senate of the University of Alaska Fairbanks expresses its appreciation to those individuals from the Fairbanks area and greater Alaska, who generously contribute funds, resources and energy toward this end.

Inventions, Patents, Copyrights, Trademarks
and Other Intellectual Properties 04.10.03

In meeting the University's mission of teaching, research and public service, the Board of Regents recognizes and encourages the development of intellectual property of value to the public by University personnel and students.

The President of the University shall adopt appropriate regulations to encourage and support intellectual activity by employees and students, and shall detail rights and obligations concerning inventions, patents, copyrights, trademarks and other intellectual properties developed as a result of University support.

****

PROPOSED REGULATION
==========

Inventions, Patents, Copyrights, Trademarks
and Other Intellectual Properties 04.10.03

A. Introduction

This regulation is adopted to encourage and support creative activity by employees and students for the public benefit and shall be deemed to be a part of the conditions of employment of every employee of the University and a part of the condition of enrollment and attendance at the University for every student.

B. Administration

1. All matters relating to inventions, patents, copyrights, trademarks and other intellectual properties in which the University of Alaska Is In any way concerned will be administered by the President of the University or such person as the President may designate.

2. Director of Intellectual Property and Licensing. The University President may appoint a Director of Intellectual Property and Licensing to serve as the President's designee in executing all activities pertaining to all University intellectual property. The Director of Intellectual Property and Licensing will be empowered, with the approval of the President, to:

   a. Waive University rights to an invention or other intellectual properties;

   b. Submit patent, copyright, trademark and license applications on behalf of the University and/or the author(s) or inventor(s);

   c. Obtain copyrights, trademarks and patents on behalf of the University and/or the author(s) or inventor(s);

   d. Grant licenses on behalf of the University;

   e. Promote University intellectual property to Alaska firms to provide opportunities for Alaskan economic development;

   f. Purchase licenses for non-University copyrighted material or patented inventions for University use and/or sub-license;

   g. Grant use of copyrighted materials and patented inventions;

   h. Execute on behalf of the University and/or the inventor(s) any agreements as may be appropriate;

   i. Obtain and maintain requisite documentation as necessary in all matters concerning the management of intellectual properties;

   j. Execute royalty division agreements with the inventor(s) or author(s) on behalf of the University.

   k. Seek out and recommend appropriate patent management and license marketing organizations, recommend to the President working contracts between such organizations and the University and, after consultation with the

Intellectual Property Committee, transmit reports of inventions(s) to such organizations;

l. Assure appropriate involvement of the inventor(s) in licensing and other commercial development activities;

m. Promote the marketing of University-trademarked products;

n. Receive, account for, and properly disperse all proceeds received pursuant to this policy;

o. Facilitate communication between all parties involved, and enforce the terms and conditions of these regulations; and

p. Prepare and submit an annual report on the University patent, copyright, trademark and license activities and finances to the President and the Chancellors and prepare such other reports and perform such other functions as may be requested by the President.

3. The President will appoint a University Intellectual Property Committee. The Committee will be composed of the University Director of Intellectual Property and Licensing and five members from the University faculty, and with the University General Counsel serving as an ex-officio member. The members will serve at the pleasure of the President, with the normal term of appointment to be staggered three-year terms. All members shall serve without additional compensation. The President will appoint a member to serve as Chair.

4. The University Intellectual Property Committee will have the following responsibilities:

a. To support, promote and encourage University personnel in the development of copyrightable and patentable intellectual properties, to promote the patenting of inventions and to encourage personnel in the creation of intellectual property.

b. To evaluate inventions and discoveries for patentability, and, where desirable, to consult such expertise as the Committee may require to examine the merits of each potentially patentable invention.

c. To recommend to the President or President's designee applications for patents.

d. To recommend to the President or President's designee the patent and related rights or equities held by the University of Alaska in an invention, and to review agreements with cooperating organizations, with respect to patent rights or equities.

e. In the absence of overriding obligations to outside sponsors of research, recommend to the President or President's designee the release of patent rights to the inventor(s) in those circumstances where the University elects not to file a patent application and where no further research or development of that invention will be conducted involving University support or facilities. The University's decision not to elect to file a patent application will be made within a period not to exceed three months from the date of first submission of the inventor(s)' written statement of disclosure of an invention to the Intellectual Property Committee. In every instance in which the University determines not to file a patent application or to continue efforts at marketing, or fails to elect to do so within three months from the date of submission of the disclosure, all of the University's rights to the invention will be released to the inventor(s).

f. To recommend to the President or President's designee licenses and related agreements entered into with other parties concerning patent and related property rights held by the University.

g. To review the procedures for the collection of royalties and fees and their distribution, and make recommendations to the President or President's designee for modification of procedures.

h. To review situations of possible infringement of patent rights held by the University, and in association with the Office of the General Counsel, to recommend to the President or President's designee negotiations, litigation, and settlement of matters arising therefrom.

i. To assist University officers in negotiating with cooperating organizations concerning prospective rights to patentable inventions or discoveries made as a result of research carried out under grants, contracts or other agreements to be funded in whole or in part by such cooperating organizations, and assist University offices in negotiating institutional patent agreements or other agreements with Federal agencies or other organizations regarding the disposition of patent rights.

j. To recommend to the President or President's designee appropriate exemptions from the agreement to assign inventions and patents to the University.

k. To make such reports and recommendations to the University President as the University President may direct.

C. Inventions and Patents

1. The assignment of inventions and patents to the University, except for those resulting from permissible consulting activities outside of University employment without the use of University facilities, shall be mandatory for all University personnel, for persons not employed by the University but who use University facilities in the development of intellectual property, and for those who receive grant or contract funds through the University. Exemptions from such assignments may be authorized in those circumstances where the mission of the University is better served by such action, provided that the overriding obligations to other parties are met and such exemptions are not inconsistent with other Board of Regents' policies or University regulations.

2. University personnel and all those using University facilities in the development of intellectual property shall immediately and properly disclose the conception and/or reduction to practice of potentially patentable inventions. Such disclosure shall be made to the President or President's designee. Persons making disclosures shall execute such declarations, assignments or other documents as may be necessary in the course of invention evaluation, patent prosecution, or protection of patent rights.

3. Subject to restrictions arising from overriding obligations of the University pursuant to grants, contracts or other agreements with outside organizations, the University agrees, for and in consideration of the assignment of patent rights, to pay annually to the named inventor(s), the inventor(s)' heirs, successors or assigns, a royalty share of the net proceeds received by the University for each patent or other intellectual property right assigned to the University, as shown below.

Total Net Royalty Per Invention ($)	Inventor(s)' Share (%)	University Share (%)
First $10,000	100%	0%
>$10,000	50%	50%

Where there are two or more inventors, each inventor shall share equally in the inventor's share of net proceeds, unless all inventors previously have agreed in writing to a differing distribution of such share. Distribution of the inventor's share shall be made no less than annually. In the event of any litigation, actual or imminent, or any other action to protect patent rights, the University may withhold distribution of all royalty proceeds until resolution of the matter. Of the remaining net proceeds, the share shall be distributed as determined by the President.

University proceeds from University inventions shall be used for the support of University research and scholarly activities; however, exceptions may be granted by the President or President's designee.

D. Copyrights

1. The President or President's designee shall be responsible for the administration of the University copyright regulation and for securing copyrights in the name of the University. Revenues received through the licensing of copyrights shall be shared with the author as follows: 50% to the author, 50% to the University on all proceeds. Exceptions to the above may be granted by the President in consultation with the Intellectual Property Committee.

2. Ownership and disposition of copyrightable material

Copyright ownership and the rights thereof are terms defined by Federal law. The University believes that its copyright regulation objectives will best be attained within the context of the Federal law by defining the equities of ownership of copyrightable material in terms of the following categories. Copyright ownership of all materials, which are developed with the use of University facilities, shall reside with the University, except as follows:

a. The University will not assert ownership of copyrightable materials produced by faculty members as a part of their normal teaching and scholarly activities at the University and which do not result from project specifically funded in whole or in part by the University or by a sponsor of the University.

b. Copyright ownership of all materials which are developed in the course of, or pursuant to, sponsored research or other agreement(s) will be determined in accordance with the terms of those agreement(s) or, in the absence of such terms, the copyright will be the property of the University.

c. Copyrighted materials not within the provisions of categories "a." and "b." above will be the property of the University, except for theses; however, the author(s) of theses must, as a condition of a degree award, grant royalty-free permission to the University to reproduce and publicly distribute copies of the thesis.

E. Trademarks

All trademarks are the exclusive property of the University. No steps shall be taken by University personnel for securing trademarks by usage or registration with respect to any University products resulting from the University's scholarly, research, athletic or other activities, except with the approval of the President or President's designee after consultation with the University Director of Intellectual Property and Licensing. Applications for trademarks will be made on behalf of the University by the President or President's designee. Revenues received through the licensing of trademarks shall be shared as determined by the President after consultation with the Intellectual Property Committee.

F. Other Intellectual Property

Other forms of intellectual property, including those which may emerge in the future, shall be administered by the President or President's designee after consultation with the Intellectual Property Committee in accordance with the regulations governing the University's interests in inventions, patents trademarks and copyrights.

G. Definitions

As used in this regulation, the following terms have the meaning indicated:

Author - University personnel, singly or as a group, who produce written, visual or recorded materials.

Disclosure - A detailed, complete and accurate description of materials of an item of intellectual property.

Intellectual Property - Inventions, copyrights and copyrightable material, patents, trademarks and trade secrets.

Inventions - All inventions, discoveries, processes, methods, uses, products or combinations, or other intellectual properties, whether or not patented or patentable at any time under the U.S. Patent Act and the Patent Cooperation Treaty as now existing or hereafter amended or supplemented.

Net Proceeds - The gross receipts derived from trademarks, materials, inventions, discoveries and/or intellectual properties, including but not limited to, rents, royalties, dividends, earnings, gains and sale proceeds, less all costs, expenses and losses paid or incurred by the University in connection therewith, including, but not limited to, all direct costs and expenses, indirect costs and expenses as allocated and determined by the University, costs and expenses of obtaining, securing and protecting patents, copyrights and trademarks and all attorney's fees.

Trade Secret - Any information, device, method, formula, etc., whether or not copyrightable or patentable, which is not generally known or accessible apart from the University, and which gives competitive advantage to its owner.

Trademarks - Distinctive marks of authenticity such as words, letters, symbols, designs, etc., identifying the source producer or distributor of goods or services.

University Facilities - All University buildings, laboratories, classes, equipment and for supplies, excluding libraries.

University Personnel - Part-time, full-time, visiting and volunteer members of the faculty, staff, and all other agents and employees, undergraduate and graduate students, and postdoctoral fellows of the University.

Written Materials - All literary, dramatic and musical material or works, and all other works such as lab manuals, study guides and architectural designs published or unpublished, copyrighted or copyrightable at any time under the Federal Copyright Act as now existing or hereafter amended or supplemented.

The UAF Faculty Senate passed the following at its Meeting #32 on February 10, 1992:

RESOLUTION PASSED (with 2 abstentions)
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to support the following ASUAF resolution on Special Graduation.

* * * * * * * * * *

ASUAF Senate Resolution F91-4
Title: Special Graduation
Sponsor: Martin
Date: September 29, 1991

WHEREAS 1496 student, or 23.5% of the 6,355 students enrolled at UAF for the fall semester of 1991 are married; and

WHEREAS Married students at this time and in the future may achieve their respective graduation requirements at the same time from different "schools," and will there for be unable to walk together at the graduation ceremonies;

THEREFORE BE IT RESOLVED That the graduation department and the Deans from individual schools instigate a procedure that would enable married students graduating from different schools to "walk" together during their graduation ceremonies; and,

FURTHER BE IT RESOLVED That this resolution be sent to the UAF Executive Council, the UA Board of Regents, and the UA Executive Officers.

The UAF Faculty Senate passed the following at its Meeting #32 on February 10, 1992:

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate endorses the Graduate Council resolution on overhead.

Graduate student funding is one of the main impediments to increasing the level and quality of graduate education at UAF.

An overhead rate is charged on externally funded grants, of which 12.8% goes to Statewide Administration (UA) and includes moneys which were formerly allocated to the UA Vice President for Research. As most of the research occurs at UAF, the position was transferred to the UAF Vice Chancellor for Research. However, the UA 12.8% share of overhead was not returned to UAF.

It is recommended that an appropriate percentage of the UA statewide system share of overhead be returned to the unit/department and/or the principal investigator for graduate student recruitment and retention.

The UAF Faculty Senate passed the following at its Meeting #32 on February 10, 1992:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to change the approval route for course designations for Social Sciences, the "s" designator, to the following:

> Social Sciences shall be approved individually by the Curriculum Councils of the College of Rural Alaska, the College of Liberal Arts, and the School of Management, such that each college approves courses taught within its own college.
>
> EFFECTIVE: Fall 1992
>
> RATIONALE: The present system of requiring approval by all three colleges is burdensome, time-consuming and redundant. Individual colleges best understand the significance of courses within their own disciplines, allowing the rest of the university to rely on the expertise of those colleges most closely concerned to follow the established criteria.

COVER MEMORANDUM

Department of Foreign Languages — College of Liberal Arts
Karen Colligan-Taylor — -5171; -7396

Proposed program: **Japanese Studies--B.A. Degree**

The Program

An in-depth study of Japanese language and culture, aimed at the application of linguistic skills and cultural insights to specific career opportunities. Japanese is classified among the most difficult of foreign languages for American students. The highlight of the major is, therefore, one semester of intensive study in Japan during the first semester of the fourth year. This interdisciplinary program will culminate in a senior seminar on contemporary Japan. Students will begin their research project for the seminar while studying at our exchange university, Nagoya Gakuin, or at another pre-approved program. The program includes CORE courses focusing on Japanese language and culture and a CONCENTRATION area in 1) Business; or 2) Linguistics and Literature in which students may apply their study of Japan to a specific discipline. For some career choices, students will be encouraged to use this major in conjunction with a discipline-based major.

In conjunction with this proposal, the School of Management is proposing a five-year double major combining the Japanese Studies (or, another area studies emphasis) B.A. with the B.B.A. This reflects a nation-wide trend to integrate the study of business and foreign languages and cultures.

Objectives

The Foreign Language major requires four years of one language and three years of another. To this general language major we would like to **add** several **specific area studies emphases**. These are modeled on the present Russian Studies Program, which has been highly successful at UAF, and area studies programs at other institutions, for example, the East Asian Studies Program at Stanford University. These programs will provide students with the opportunity for in-depth study of a single language and culture area. This focus encourages study abroad, and aims to provide the student with the linguistic tools and cultural insights necessary to apply the language to a range of careers, including teaching, tourism, resource management, journalism and business. An area studies major combined with a discipline-oriented major such as

history or political science would put students at a great advantage in pursuing graduate work which focuses on a specific area.

Language study is not effective without cultural knowledge and sensitivity, and, knowledge of a foreign language alone, without application to a career-oriented discipline, will not enable the student to compete in today's job market. This major is designed to produce students knowledgeable about the geography, history, and art culture of Japan; capable of using the language in a professional setting; and possessing a sound career-oriented background to which they may apply their area studies speciality.

Justification

An increasing number of students at UAF have expressed a desire to focus on one language and culture in order to apply this knowledge effectively to career goals in another discipline.

Two students have graduated with an independent interdisciplinary major similar to the proposed degree. One is pursuing graduate work in East Asian Studies at the University of Michigan. The other will be leaving for Japan in April for two years of graduate work in Japanese economics, funded by a grant from the Japanese Ministry of Education. 80% of students polled in beginning Japanese classes expressed an interest in the major. We have a waiting list of five students ready to sign up for the major this spring, if it is approved.

Interdisciplinary, or "area studies," programs are well-established in university curricula nation-wide, permitting the student to view a subject from multiple perspectives. The area studies emphasis encourages students and faculty from diverse departments to work together toward an understanding of foreign cultures, and the application of this understanding to a professional career.

Study Abroad is a necessary component of the curriculum. The November 25, 1991 issue of Christian Science Monitor contains an interview with Harvard University Japanese professor, Dr. Kazuko Ozawa. She says that after studying Japanese for two to three years in the United States, students are ready to make good progress in Japan. She makes the point that students who intend to use Japanese professionally must expect to spend some time in Japan before considering themselves proficient. "Vocabulary and grammar patterns can be memorized, but cultural aspects of the society that are manifest in the language are far too complicated to be taught in a classroom." (p. 14; please see attached article for more detail).

The Japanese Studies program does not require additional funding. It utilizes existing faculty, courses and library resources. Only one course will be added specifically for the major. This is a senior seminar. We will continue to build library holdings in Japanese through regular UAF funding and by submitting grant proposals to the Japan Foundation.

II. IDENTIFICATION OF THE PROGRAM

A. Program Description

1. Program Title: Japanese Studies--B.A. Degree

2. Credential level: B.A.

3. Admissions Requirements and Prerequisites

Students must be in good standing and have a minimum GPA of 2.0. Admission and course of study must be approved by the Program Committee. Students must complete entrance CORE for admission to the B.A. degree program in the College of Liberal Arts.

4. Catalog Description

Japanese Studies

Interdisciplinary

Degree, B.A.
Minimum Requirements for Degree: 130 credits

Requirements

Japanese Studies--B.A. Degree

An in-depth study of Japanese language and culture, aimed at the application of linguistic skills and cultural insights to specific career opportunities. Japanese is classified among the most difficult of foreign languages for American students. The highlight of the major is, therefore, one semester of intensive study in Japan during the first semester of the fourth year. This interdisciplinary program will culminate in a senior seminar on contemporary Japan. Students will begin their research project for the seminar while studying at our exchange university, Nagoya Gakuin, or at another pre-approved program. Students are encouraged to use this major in conjunction with a discipline-based major.

1. Complete general university requirements (the B.A. CORE curriculum) and B.A. degree requirements.
2. Complete the following program (major) requirements.

Japanese Studies core courses (33 credits)

		Credits
Geog 311	Geography of Asia	3
Hist 121 or 122	East Asian Civilization	3
Hist 331	Modern Japan	3
Jpn 301*, 302*	Advanced Japanese**	6
Jpn 332	Japanese Cultural Traditions	3
Jpn 497*	Advanced language study in Japan. Exchange univ, Nagoya Gakuin	12
Jpn 475	Seminar on Contemporary Japan	3

Concentration courses (12 credits)++

International Business Concentration

Select twelve credits from the following:

BA	443	International Marketing	3
BA	460	International Business	3
BA	461	International Finance	3
Econ	463	International Economics	3
Geog	405	Political Geography	3
PS	312	Government/Politics of East Asia	3
	or		
PS	321	International Politics	3
	or		
PS	322	International Law and Org	3

Language and Literature Concentration

(For teaching, graduate work in Japanese; recommended minor in Linguistics or English literature)

Take

Ling 101	Nature of Language	3
Jpn 431* or 432*	Studies in Jpn Culture/Lit	3

and six credits from the following:

Engl 310	Literary Criticism	3
Hum 411	Dimensions of Literature	3
Jpn 331	Women's Voices in Jpn Lit	3
Jpn 497	Individual Study and Practicum: Teaching Japanese as a Second Language	3
Ling 303	Language Acquisition	3
Ling 410	Theory and Methods of Second Language Teaching	3

3. Minimum credits required 130

*These courses are offered in the Japanese language.

**Prerequisite: Jpn 101-102; 201-202.

++Other career options may be designed with consent of the Program Committee.

Students planning a dual major for a single B.A. may double count nine credits. Students taking a combined BA/BBA are not subject to double counting restrictions.

5. Course Descriptions

Core Courses

Geography 311 Geography of Asia (3) Catalog, p. 150
Regional geography of Asia, exclusive of the Soviet Union. Physical framework, natural resources, peoples, major economic activities, and characteristic landscapes of the major regions of Japan, China, Southeast Asia, India-Pakistan, and the Asiatic countries of the Middle East.

History 121 East Asian Civilization (3) Catalog, p. 154
Origin and development of the civilizations of China, Japan and Korea from the beginning to 1800, with emphasis on traditional, social, political, and cultural institutions.

or

History 122 East Asian Civilization (3) Catalog, p. 154
East Asia from 1800 to the present with emphasis on patterns of social cohesion, transition, and revolutionary change.

History 331 Modern Japan (3) Catalog, p. 155
From 1600 to the present: change within tradition, rise to world power, and the position of Japan in the modern world.

Japanese 301, 302 Advanced Japanese (3, 3) Catalog, p.158
Development of advanced conversational and reading skills. Topics may include: modern Japanese prose fiction; newspaper Japanese; advanced conversation through the study of common contractions and idiomatic usage in the standard Tokyo dialect; and a study of television drama series.

Japanese 332 Japanese Cultural Traditions (3) Catalog, 158
A study of Japanese cultural traditions as revealed in the literary, visual, and performing arts. Discussion of literature in English translation is integrated with slide-lectures on Buddhist painting and sculpture, picture scrolls, castle decoration, woodblock prints, the tea ceremony, gardens, and the Noh, Kabuki and puppet theatres. Course is taught in English.

Japanese 497 Advanced Japanese Language and Culture (12)
One semester of advanced language study in Japan at our exchange university, Nagoya Gakuin, or at another pre-approved university in Japan. Each year UAF receives five students from Nagoya Gakuin and may send five students to Japan for one semester or one full year. Students will conduct research for their senior project.

Japanese 475 Seminar on Contemporary Japan (3)
New Course--Proposal approved by curriculum council.
As the capstone of the interdisciplinary major, Japanese Studies, this course will tie together the various threads of Japanese culture introduced during the four year program. The course will examine aspects of contemporary Japan not touched upon in previous courses, and will provide a forum for student presentations of research papers begun in Japan.

Concentration Courses

International Business Concentration

Select 12 credits from the following:

BA 443 International Marketing (3) Catalog, 124
Comparisons of foreign markets with domestic markets. Market enlargement via direct export, direct investment, or joint ventures. Foreign pricing, communications, distribution, and advertising viewed in terms of marketing management and research.

BA 460 International Business (3) Catalog, 124
Relationships among nations with particular emphasis on the business, economic, and sociocultural institutions that influence the performance of managers. Formulation of objectivies, strategies, and organizational structures within the context of international diversity.

BA 461 International Finance (3) Catalog, 124
Foreign investment projects including foreign capital markets, financing exports, hedging foreign exchange risks, and capital budgeting in an international setting.

Econ 463 International Economics (3) Catalog, 136
Pure theory of international trade: comparative cost, terms of trade, and factor movements. International disequilibrium: balance of payments and its impact on national economy, capital movement, economic development through international trade.

Geog 405 Political Geography (3) Catalog, 150
Geographical analysis of the evolution, structure, internal coherence, and sources of strength of individual nation states, with emphasis on nations of the Pacific realm and Arctic periphery. Consideration of regional blocs, spheres of influence, and potential for international cooperation.

PS 312 Government/ Politics of China and East Asia (3) 177
Modern East Asian politics and society, including governmental institutions, political processes and regional and global foreign relations.

or

PS 321 International Politics (3) Catalog, 177

International political theory; means of influence and power in international politics; arms control and disarmament; international economic relations; contemporary conflict resolution and strategic issues (such as the movement for a nuclear-free zone in the Arctic).

or

PS 322 International Law and Organizations (3) Catalog, 177

Development of international law; Regional and international organizations; non-state actors in the world system.

Language and Literature Concentration

Take:

Linguistics 101 The Nature of Language (3) Catalog, 160

The study of language: systematic analysis of human language and description of its grammatical structure, distribution, and diversity.

Jpn 431 Studies in Japanese Culture (3)

New Course--Proposal approved by curriculum council.

Further study of advanced written and spoken Japanese through essays, newspaper and journal articles, and television documentaries dealing with topics in Japanese culture.

or

Jpn 432 Studies of Literature in Japanese (3) Catalog, 158

Intensive study of authors, literary texts, movements, genres, themes or critical approaches. Conducted in Japanese. Student may repeat course when topics vary.

and six credits from the following:

English 310 Literary Criticism (3) Catalog, 144

History and principles of literary criticism, from earliest days to the present.

Humanities 411 Dimensions of Literature (3) Catalog, 158

Systematic discussion of the medium of literary creation, of the organization of literary texts and the functions of literature.

Japanese 331 Women's Voices in Japanese Literature (3)
New Course--Proposal approved by Curriculum Council.
(Offered as Special Topics, Sp 92)
A close reading of selected novels, short stories, poems, and diaries by Japanese women from the tenth century to the present, which reveal the personal, social, aesthetic and intellectual concerns of women in different periods of Japanese history. We will focus on the changing role of women in Japanese society, the role of women writers as social critics, and cross-cultural differences and similarities in women's issues.

Linguistics 303 Language and Literacy Development (3) 161
A course on Language Acquisition including theories of the acquisition and development of both first and second languages.

Linguistics 410 Theory and Methods of Second Language Teaching (3) Catalog, 161
Theory and practice of teaching a second language, including methodological approaches, second language acquisition theory, materials, and testing.

6. Sample Course of Study

Japanese Studies with International Business Concentration*

(This sample represents the most rigorous course of study, in terms of number of prerequisites, that the student could take. Other programs will offer more room for electives.)

Minor: Business Administration

Freshman Year 1992-93

Fall			**Spring**		
English 111X	3		English 213X	3	
Speech 131X	3		Acct/Inf Syst 101	3	
Math 161	3		Math 262	3

B. Program Goals

1. Objectives and Evaluation

The primary goal of the Japanese Studies program is to provide the student with the linguistic tools and cultural insights necessary to apply the Japanese language to a specific career or field of graduate work. This goal may be broken down into three categories: 1) language training; 2) cultural background; and 3) discipline/career specific training. The program will be evaluated by the number of majors it attracts; student evaluation of the program; and student success in entering professions which utilize the Japanese Area Studies background or in entering graduate programs to which they have been selected for their unique and vigorous background study of Japan in relationship to a specific discipline.

One of the key features of the Japanese Studies major is direct immersion in Japanese culture through one semester of study at our exchange university, Nagoya Gakuin. This experience will allow students to practice and refine their language skills and to see how Japanese society actually functions. Students will conduct research projects, which will be presented in the Senior Seminar the following semester. The quality of seminar papers produced by returning students will be another indicator of the success of the program. We hope that students returning from Japan will work with students in language and other classes to stimulate their interest in Japanese culture. For example, discussion sessions in International Business (BA 460) should be more meaningful with the presence of students who have just returned with first-hand knowledge of Japanese business operations.

2. Relationship of Program to "Purposes of the University."

UAF's commitment to a "balanced education" in a "culturally diverse environment" which will produce students "capable of contributing to the economic well-being of the state and nation and of participating in and contributing to a global society" is surely made on the premise that students will pursue the study of foreign languages and cultures. Japanese is of particular value to Alaskan students who plan to work in the areas of international business, resource management (fisheries, forestry), tourism, and education. Almost all of Alaska's exports go to Japan and other East Asian destinations. A Japanese Studies Program will add to the University's Northern Pacific Rim focus.

In this period of budget cuts, the integration of existing resources to create an interdisciplinary program which will meet student and state needs is preferable to the creation of new major programs which demand additional faculty and funding.

3. Occupational/Other Competencies to Be Achieved

Students graduating from UAF in the last four years with three years of Japanese, often followed by six to twelve months of study in Japan, are now working in the following areas: Teaching Japanese

in Alaska (four); Japan Exchange Teaching Program (four); Foreign Student Counselor (1); Tourism (8); Resource Management (1-fisheries; 1-forestry); Business (8); Graduate Work with focus on East Asia or Japan (11). The Japanese Studies major would prepare students more thoroughly for these occupations and, through the visibility offered by an established, consolidated program, would draw more students to study Japanese language and pursue related career opportunities.

The proposed double major, uniting the B.B.A. with a B.A. in Japanese Studies will better prepare students with a Tourism or International Business career option to deal with this Far Eastern neighbor. The proposed Master's Degree in Applied Linguistics will enable Japanese Studies majors to receive linguistic training, including the study of second-language teaching methods and theory, so that they may teach Japanese effectively within the state at the high school level or as University lecturers or instructors. There is a national shortage of Japanese language instructors. Ph.D.s tend to gravitate toward large research universities where they can teach and pursue research in specialized areas of literature and linguistics. There are few qualified individuals who are satisfied to teach language and culture in an undergraduate setting. Japanese Studies majors who then pursue the Applied Linguistics Master's degree may find themselves in great demand.

4. Relationship of Courses to Program Objectives

All of the proposed courses relate specifically to the program objective--namely, to train students in: 1) language; 2) culture; 3) a specific discipline/career orientation.

Language: Japanese 101-102; 201-202; 301-302; 431; 432; 497.

Culture: Geography 311, 405; History 121,122 331; Japanese 332;431; course work/**living experience in Japan;** Political Science 312; 321, 322.

Career Options: Business and Economics; Literature and Linguistics; other options designed by student with adviser, and approved by Program Committee.

III. Personnel Directly Involved with Program

A. Faculty Involved with the Program

The Japanese Studies program will be administratively housed in the College of Liberal Arts in the Department of Foreign Languages and Literatures. Its faculty governance will be managed by a select committee of faculty teaching regularly scheduled classes in the program. Faculty are drawn from the College of Liberal Arts (English, Foreign Languages, Geography, History, Humanities, Linguistics, Political Science) and from the School of Management (Business Administration, Economics).

B. Administrative and Coordinating Personnel

The Japanese Studies Program will be administered by Dr. Karen Colligan-Taylor, Associate Professor of Japanese in cooperation with Dr. Peter Cornwall, Associate Professor of History, and Dr. John Lehman, Acting Dean, School of Management. The program will come under the joint purview of the Dean of the College of Liberal Arts and the Dean of the School of Management.

C. Classified Personnel

Secretarial support will be provided by staff in the Department of Foreign Languages and Literatures.

IV. Enrollment Information

First-year Japanese classes are filled to capacity, with 40-50 students enrolling each fall. Once the major is implemented, both lower and upper division enrollments will continue to grow. Now that there are two full time positions in Japanese, we will be able to accommodate this growth. The program will probably attract 7-10 majors in its first year. This will greatly increase the productivity of the Foreign Language Department, at no additional cost.

Because the Japanese program and related classes are already in place, we do not anticipate any problems with low or high enrollments. Some of the students who would take these classes anyway, will now be applying them to a major program.

V. Need for the Program

A. Required for Other Programs

Students from the School of Management and from various disciplines within the College of Liberal Arts have taken one to three years of Japanese with the hope of later applying the language to a profession. Majors in International Business, Linguistics, and Philosophy are required to take two years of a single Foreign Language. In other programs, language is merely encouraged. These programs would like to see language study opportunities increased.

The School of Management has proposed a five-year double-major involving the B.B.A. in International Business and the proposed B.A. in Japanese Studies. They are following a nation-wide trend in recognizing the necessity of four years of language and culture study, including study abroad, for professional application of the language to be possible. The proposed Master's program in Applied Linguistics will draw upon language area studies graduates to pursue training that will qualify them to teach the language in high schools or as college level instructors.

Japanese language, literature, and culture courses are already integrated with the University Curriculum in a variety of ways. Japanese is a "second language" for the Foreign Language Major and is a Foreign Language Minor. Japanese courses may be taken in lieu of two CORE courses in Perspectives on the Human Condition, and may be taken as part of the Humanities distribution requirement. One section of the CORE World Literature component deals with Japan: "Interactions of Man and Nature: Japan, the U.S., and the Soviet Union." Honors sections are offered in Jpn 332, "Japanese Cultural Traditions" and in Jpn 331, "Women's Voices in Japanese Literature." The latter course in also a part of the new Women's Studies Minor program. The proposed Environmental Studies Minor will have a cross-cultural component focusing on Japan.

B. Student/Employment Market Needs

Students have been coming to the Japanese instructors for the past five years, inquiring about a Japanese Studies major. Surveys in first-year Japanese classes indicate that 80% of the students would be interested in the Japanese Studies major. Some students have left UAF to pursue East Asian Studies or Japanese Studies at larger institutions in the lower forty-eight. Two students have graduated with an independent interdisciplinary major in Japanese Studies and East Asian Studies, respectively. They are now pursuing graduate work.

There is a demand in the states of Alaska and Washington for students who can apply Japanese language to business and tourist operations. There is a great demand for individuals qualified to teach Japanese at the high school and university levels both within Alaska and nation-wide. Recruitment information drawn from the Newsletter of the Japanese Language Teacher's Network, the Newsletter of the Association of Teachers of Japanese, and the Asian Studies Newsletter indicate that there are far more openings for Japanese language/literature instructors than there are qualified candidates for the positions.

Students have been able to work with what is available here at UAF and at our exchange program in Japan, but have not had the opportunity to concentrate on Japanese Studies within the framework of a well designed major. They have been forced to major in another subject, and spend an additional semester or year taking Japanese language and related area courses.

VI. Resource Impact

A. Instruction/Facilities

Resource impact is virtually negligible. Faculty that are already in place will continue to teach the same courses they now offer. The only new course added specifically for the proposed major is the senior seminar, Jpn 475, Seminar on Contemporary Japan. This will be team taught by faculty most actively involved in the major--initially, Professors Colligan, Cornwall, and Lehman.

B. Library

Holdings about Japan written in English are adequate. We will continue to build holdings in Japanese. This will be done as much as possible through grants from corporations and from the Japan Foundation. Our chances of receiving library grants will increase once the Japanese Studies Program is in place, as it will demonstrate University commitment to this language/culture area.

VII . Relationship to Other Programs

A. Effects on Enrollments Elsewhere in the System

Japanese and international business enrollments may decrease at UAA and increase at UAF, as students are attracted to the Japanese Studies major and to the five-year double-major program proposed by the School of Management.

B. Duplication in the System

There is no duplication in the system. The Japanese Studies Program would be unique in the state, and would serve an academic need which, to date, is unfilled in the State of Alaska.

C. Relation to Research/Service Activities

More students who are capable of using Japanese language skills and cultural knowledge as interns, employees, or consultants, will be available to Alaskan businesses. Students will be able to serve state and community needs for written translation and oral interpretation. Student scholarship in the senior year will reach a more sophisticated level than has been possible through the traditional Foreign Language major, involving two languages. With the Japanese Studies major, the student will benefit from more intense language training; a broad knowledge of the country's geography, history, politics, literature and art culture; personal experience living, studying, and working in Japan; and solid knowledge of a specific career-oriented discipline.

VIII. Implementation

The program will be implemented in Fall 1992. Students will be recruited through class contact in all courses related to the major, through advisers and the advising center, and through high school recruitment efforts in Alaska and other states by UAF recruitment officers.

IX. Regents Guidelines--Executive Summary

New Degree Program Request

Japanese Studies Interdisciplinary B.A. (130 credits)

The proposed program constitutes an in-depth study of Japanese language and culture, aimed at the application of linguistic skills and cultural insights to specific career opportunities. Japanese is classified among the most difficult of foreign languages for American students. The highlight of the major is, therefore, one semester of intensive study in Japan during the first semester of the fourth year. This interdisciplinary program will culminate in a senior seminar on contemporary Japan. Students will begin their research project for the seminar while studying at our exchange university, Nagoya Gakuin, or at another pre-approved program. The program includes CORE courses focusing on Japanese language and culture and a CONCENTRATION area in 1) Business; 2) Linguistics and Literature; or 3) a concentration developed by the student and his or her adviser, and approved in the Japanese Studies Program Committee. For some career choices, students will be encouraged to combine this major with a discipline-based major. In conjunction with this proposal, the School of Management is proposing a five-year double major combining the Japanese Studies (or, another area studies emphasis) B.A. with the B.B.A. This reflects a nation-wide trend to integrate the study of business and foreign languages and cultures.

Language study is not effective without cultural knowledge and sensitivity, and, knowledge of a foreign language alone, without application to a career-oriented discipline, will not enable the student to compete in today's job market. This major is designed to produce students knowledgeable about the geography, history, politics and art culture of Japan; capable of using the language in a professional setting; and possessing a sound career-oriented background to which they may apply their area studies speciality.

Interdisciplinary, or "area studies," programs are well-established in university curricula nation-wide, permitting the student to view a subject from multiple perspectives. The area studies emphasis encourages students and faculty from diverse departments to work together toward an understanding of foreign cultures, and the application of this understanding to a professional career. The Japanese Studies Program is modeled on the present Russian Studies Program, which has been highly successful at UAF, and area studies programs at other institutions, for example, the East Asian Studies Program at Stanford University.

Study Abroad is a necessary component of the curriculum. The November 25, 1991 issue of Christian Science Monitor contains an interview with Harvard University Japanese professor, Dr. Kazuko Ozawa. She says that after studying Japanese for two to three years in the United States, students are ready to make good progress in Japan. She makes the point that students who intend to use Japanese professionally must expect to spend some time in Japan before considering themselves proficient. "Vocabulary and grammar patterns can be memorized, but cultural aspects of the society that are manifest in the language are far too complicated to be taught in a classroom." (p. 14)

The Department of Foreign Languages has received student requests for a Japanese Studies degree for the past five years. Two students have graduated with independent interdisciplinary degrees similar to the program outlined here. One is now pursuing graduate work in East Asian Studies at the University of Michigan. The other has just received a grant from the Japanese Ministry of Education to to conduct graduate studies in economics in Japan. 80% of students polled in beginning Japanese classes expressed an interest in the major. Five to eight students will sign up for the major in its first year of implementation, 1992-93. There is a need for Japanese speaking employees in Alaskan businesses, particular in the tourist industry. Nation-wide there is a shortage of qualified Japanese instructors. This program will fill these market needs.

The Japanese Studies Program does not require additional funding. It will provide an alternative to the existing Foreign Languages major, which requires four years study of one language and three years study of a second language. The Japanese Studies Program utilizes existing faculty, courses and library resources. Only one course will be added specifically for the major. This is a senior seminar. We will continue to build library holdings in Japanese through regular UAF funding and by submitting grant proposals to the Japan Foundation and to Japanese corporations.

B. BRIEF STATEMENT OF PROPOSED PROGRAM & ITS OBJECTIVES

Spanish Studies, a program that integrates the study of the Spanish language with other disciplines, serves to provide students with the opportunity to develop skills in the target language while pursuing career-oriented studies. An extensive review of current Spanish curricula at institutions across the U.S. provided the background for the preparation of this proposal, which incorporates many features common to most Spanish language programs.

The proposed major in Spanish Studies will provide undergraduate academic study in a well established area of scholarship and will contribute directly to the professional and personal development of students and faculty. The Spanish language enjoys a tremendously rich historical, linguistic, cultural, and literary heritage; the proposed major seeks to provide both breadth and depth of study in these areas. The Spanish language is the third most commonly spoken language in the world today; of the Spanish speaking nations, the United States is the fourth largest, making Spanish second only to English as a medium of communication in the U.S. Mexico, the largest Spanish speaking nation in the world, shares a two thousand mile border with the U.S.; it is our third largest trading partner. According to 1990 Census figures, the Spanish speaking population in Alaska has grown 80% in the last ten years. A Spanish Studies program will enhance UAF's ability to offer a curriculum which reflects the importance of this major world language.

The Major in Spanish Studies is a 120 credit degree program which brings together the disciplines of Foreign Languages, the School of Management, Linguistics, Political Science, Geography, and studies at institutions in Latin America. Scholars from these programs will offer a number of upper division courses which will be available for the major. The program will be focused and integrated through a core of studies in the Spanish language, consisting of 21 credits. This core includes studies of the language, literature and culture of Spanish speaking countries as well as specialized individual research in areas of literature, culture, linguistics, language pedagogy and business administration as determined by the individual student and the program advisor. In addition to the core studies, the student will select four additional upper division courses from either

part of an international community, it is difficult to see how it could do so and ignore the Spanish language. Also mentioned earlier was the fact that the United States is the fourth largest Spanish-speaking nation in the world; Spanish is the most widely spoken minority language in this country. If one would participate in and contribute to a national society, one in which the Spanish language is an important and integral means of communication, then the study of that language would merit academic pursuit even in areas which one might consider "remote". Alaska is not an island, and if its citizens are to participate in a North American and international community, they will need the necessary tools in order to do so. The Spanish Studies program helps provide those tools.

3. **Relationship of Courses to Program Objectives**

The structure of the course offerings available in Spanish Studies will expose students to cultural, historical, linguistic and literary aspects of the Spanish language. The courses will contribute to the strength of the study of Spanish in that it is a focused study; the acquisition of a second language, especially by adults, is an extremely demanding task. The major in Spanish Studies allows the student to devote the necessary attention to the acquisition of Spanish as well as studying its literary, historical, cultural and linguistic aspects.

III. PERSONNEL DIRECTLY INVOLVED WITH THE PROGRAM

A. FACULTY TEACHING SPANISH STUDIES

The Spanish Studies program will be administratively housed in the College of Liberal Arts in the Department of Foreign Languages and Literatures. Its faculty governance will be managed by a select committee of faculty teaching regularly scheduled classes in the program. This group will select a program head. Faculty are drawn from the College of Liberal Arts, Departments of Foreign Languages and Literatures, Geography and Political Science, the Linguistics program, and the School of Management, Business Administration and Economics programs.

B. ADMINISTRATIVE AND COORDINATING PERSONNEL

The Spanish Studies program will be administered by Daniel Villa, Instructor of Spanish, ABD, Department of Foreign Languages and Literatures, under the direction of the Dean, College of Liberal Arts.

II. IDENTIFICATION OF THE PROGRAM

A. DESCRIPTION OF THE PROGRAM

1. Program Title: Major in Spanish Studies

The proposed major in Spanish Studies is an interdisciplinary program of study that focuses on the Spanish language, with supporting studies in a foreign setting, International Business or Linguistics. The study of the Spanish language is an important part of the curriculum at institutions throughout the United States, with Spanish being offered as the focus of language study; a brief sampling includes the University of New Mexico, the University of California system, the University of Nevada Las Vegas, the University of Arizona, the University of Ohio, the University of North Carolina at Chapel Hill, the University of Texas system, to name only a few. It is arguably the case that major academic institutions which do not offer a Spanish curriculum are the exception, rather than the rule.

The maturity of research in this field, which strongly supports curriculum development, is reflected in literally hundreds of professional journals published throughout the Spanish speaking world. Major U.S. academic institutions which publish research in Spanish literature, culture and linguistics include the Cambridge University Press, the University of California Press, Georgetown University Press, to name only a few. Mainstream disciplinary journals regularly publish articles in the various fields of study of Spanish. Establishment of this program at UAF will expose students to both the historical and recent research in this well developed area of scholarship, which continues to grow and diversify as new theoretical developments in the study of language and literature are implemented.

The design of the program is the result of the program proposer's discussions with faculty at UAF as well as that of other institutions, such as the University of New Mexico, the University of Texas at El Paso, New Mexico State University, San José State University, and the Universidad de Guadalajara. Program structure includes a focus on the studies of culture, literature and linguistic aspects of Spanish, supported by studies in general linguistics and international business topics. Some special topics may be offered as demand warrants i.e. courses in Spanish phonology, morphology, syntax, special literature studies such as the novel of the Mexican Revolution or Chicano literature, amongst others.

2. Admission Requirements & Prerequisites

Students must be in good standing and have a minimum GPA of 2.0. Admission and course of study must be approved by the

Program Head. There are no prerequisites except college standing.

3. Course Descriptions

The Spanish Studies Program will offer a minimum of 22 regularly scheduled courses drawn from the Department of Foreign Languages and Literatures, the Business and Economics Departments in the School of Management, the Linguistics program, the Department of Political Science, the Department of Geography, and CEPE (Centro de Estudios Para Extranjeros, Center of Studies for Foreign Students) at the Universidad de Guadalajara, Mexico and the Universidad de los Andes, Venezuela.

Course descriptions accompanying this proposal represent the main corpus of the major in Spanish Studies. These courses may be supplemented by Special Topics offerings, reflecting specific research interests of the faculty. Special Topics are also regularly offered at the foreign study sites, with special lectures given by the faculty at those sites. Special Topics lectures at the Universidad de Guadalajara have included recent research on indigenous languages of Mexico, 20th century Mexican literature, Mexican colonial architecture, political relations between Mexico and the U.S., amongst others.

Requirements for the Degree

The Spanish Studies program requires a minimum of 120 credits of coursework. The student must complete general university requirements and B.A. degree requirements. In addition to this, the student must complete a core of 21 credits in Spanish and Linguistics; an additional 12 credits must be completed either at a Foreign Study site, in International Business or in Linguistics, as determined by the student and the program advisor. A student must complete two years of Spanish language study (SPAN 101-102-201-202) as a prerequisite for SPAN 301-302. This prerequisite may be fulfilled by taking ten credits of Spanish (101-102) as part of the humanities requirement, and the remaining credits (201-202) as electives.

Core Requirements

Spanish Studies core courses (21 credits):

LING 101 -	Nature of Language Fall 1992, Fall	3 credits
SPAN 301 -	Advanced Spanish Fall 1992, Fall	3 credits

SPAN 302 - Advanced Spanish 3 credits
Spring 1993, Spring

SPAN 431 - Studies in Hispanic Culture 3 credits
Fall 1992, Fall

SPAN 432 - Studies in Hispanic Literature 3 credits
Spring 1993, Spring

SPAN 487 - Translation of Texts 3 credits
Fall 1992, Fall

SPAN 488 - Senior Project 3 credits
Spring 1993, Spring

Concentration Requirements

A: Foreign Study Concentration: 12 credits

Four content courses (literature, history, geography, political science, etc.) offered in the foreign study programs at Guadalajara, Mexico or Mérida, Venezuela; arrangements for study at other sites may be done on an individual basis

OR Select 12 credits from the following:

B: International Business Concentration:

BA 443 - International Marketing 3 credits

BA 460 - International Business 3 credits

ECON 463 - International Economics 3 credits

PS 321 - International Politics 3 credits
OR
PS 322 - International Law and Organizations 3 credits

GEOG 405 - Political Geography 3 credits

OR Select 12 credits from the following:

C: Linguistics Concentration:

LING 303 - Language Acquisition 3 credits

LING 340 - Aspects of Bilingualism 3 credits

B. PROGRAM GOALS

1. Objectives and Evaluation

The goals of the Spanish Studies program are:

I. To provide a program of depth and breadth in the study of the Spanish language

II. To offer coursework which allows a student to integrate the study of the Spanish language with his or her career goals

III. To encourage a student to experience another culture first-hand, taking the study of cultural differences out of the classroom and into another society

IV. To encourage a good working knowledge of the Spanish language, with emphasis on speaking, reading, writing and listening skills

We will evaluate the achievement of these goals by

I. The number of students who enroll and complete the Spanish Studies program, and by monitoring their continued progress in their fields of endeavor

II. Discussions with participating students in order to determine if the program is serving their career goals

III. Monitoring overall Spanish language enrollments, in order to determine the impact of the new degree program on language class enrollments

IV. Monitoring the enrollment of students from other geographic areas, particularly Anchorage, in order to determine if the program is serving state-wide educational needs.

2. Relationship of Program Objectives to Purposes of the University

The Mission Statement for UAF says "It [UAF] seeks to provide an intellectually stimulating learning process which is culturally sensitive and empowering to its students". We directly address issues of cultural sensitivity in all levels of Spanish; part and parcel of learning a foreign language is the study of the cultures that speak the language. Natural languages are not used in decontextualized communicative situations; rather, they function as an integral part of any culture's structure. We stress this notion.

The Statement continues "As a result, the state benefits from an educated citizenry capable of the independent pursuit of further learning, of contributing to the economic well-being of the state and nation and of participating in and contributing to global society" (proposer's emphasis). There can be absolutely no doubt that the Spanish program contributes directly and centrally to this goal. As noted earlier, Spanish is the third most commonly spoken language in the world. Mexico, the third largest trading partner of the United States, is the largest Spanish-speaking nation in the world and a neighbor which shares a 2,000 mile border with this nation. It is a country whose presence affects the entire North American continent. If Alaska would indeed be

part of an international community, it is difficult to see how it could do so and ignore the Spanish language. Also mentioned earlier was the fact that the United States is the fourth largest Spanish-speaking nation in the world; Spanish is the most widely spoken minority language in this country. If one would participate in and contribute to a national society, one in which the Spanish language is an important and integral means of communication, then the study of that language would merit academic pursuit even in areas which one might consider "remote". Alaska is not an island, and if its citizens are to participate in a North American and international community, they will need the necessary tools in order to do so. The Spanish Studies program helps provide those tools.

3. Relationship of Courses to Program Objectives

The structure of the course offerings available in Spanish Studies will expose students to cultural, historical, linguistic and literary aspects of the Spanish language. The courses will contribute to the strength of the study of Spanish in that it is a focused study; the acquisition of a second language, especially by adults, is an extremely demanding task. The major in Spanish Studies allows the student to devote the necessary attention to the acquisition of Spanish as well as studying its literary, historical, cultural and linguistic aspects.

III. PERSONNEL DIRECTLY INVOLVED WITH THE PROGRAM

A. FACULTY TEACHING SPANISH STUDIES

The Spanish Studies program will be administratively housed in the College of Liberal Arts in the Department of Foreign Languages and Literatures. Its faculty governance will be managed by a select committee of faculty teaching regularly scheduled classes in the program. This group will select a program head. Faculty are drawn from the College of Liberal Arts, Departments of Foreign Languages and Literatures, Geography and Political Science, the Linguistics program, and the School of Management, Business Administration and Economics programs.

B. ADMINISTRATIVE AND COORDINATING PERSONNEL

The Spanish Studies program will be administered by Daniel Villa, Assistant Professor of Spanish, Department of Foreign Languages and Literatures, under the direction of the Dean, College of Liberal Arts.

C. CLASSIFIED PERSONNEL

Secretarial support will be provided by staff in the Department of Foreign Languages and Literatures.

IV. ENROLLMENT INFORMATION

Information on the current enrollments in the 100-200 levels of Spanish courses indicates that these sections fill to capacity. Enrollments in the 300-400 levels are on the rise, and it is expected that the creation of the new program will positively impact that trend. It is expected that the program will initially attract about ten majors; this number is expected to increase as the program matures and becomes better known.

V. NEED FOR THE PROGRAM

A. REQUIRED FOR OTHER PROGRAMS

All BA degrees at UAF require, as part of the Core Requirements, 18 credits on Perspectives on the Human Condition; two semester length courses in a non-English language can serve to fulfill 6 of those credits. Thus, Spanish Studies contributes directly to partial fulfillment of this requirement.

B. EMPLOYMENT MARKET NEEDS

As mentioned earlier, there is an immediate need for Spanish/English bilinguals in the private sector and in language pedagogy at the primary and secondary levels. In addition, the Spanish Studies degree can be used by students who wish to continue on to graduate programs in Spanish, which train scholars in the teaching of language, literature, the study of language acquisition by both children and adults, amongst other special fields.

VI. RESOURCE IMPACT

A. INSTRUCTION

Resource impact is virtually negligible. Faculty that are already in place will continue to teach the same courses that they now offer; no new courses will be necessary.

B. LIBRARY

A Gnosis search keyed on the work "Spanish" reveals a holding of some 5,000 books. Further searches keyed on

the various Spanish speaking nations (Mexico, Spain, Argentina, etc.) reveals a holding of over 5,000 books. The proposer has conducted a brief review of the linguistic and literature sections in Spanish and has found recent publications on the shelves. Students have done senior projects on such topics as the history of the Spanish Civil War, Aztec medicine, Japanese investment in Mexico and the "corrido" as a literary genre; the holdings, along with selected inter library loan material, proved to be adequate for these projects. We will ask that the collection continue to be expanded, although we recognize that current budgetary constraints will have a negative impact on new acquisitions.

VII. RELATION TO OTHER PROGRAMS

A. EFFECTS ON ENROLLMENTS ELSEWHERE IN THE SYSTEM

There may be some decrease in enrollments in Spanish programs elsewhere in the state, as students may choose to come to UAF in order to take advantage of the Spanish Studies program.

B. DUPLICATION IN THE SYSTEM

There is no duplication in the system. The Spanish Studies program would be unique in the state, and would serve an academic need which, to date, is unfulfilled in the State of Alaska.

C. RELATION TO RESEARCH AND SERVICE

The establishment of the Spanish Studies program will encourage student involvement in new scholarship. Currently, the proposer is working with an advanced student on a study of the grammaticization of the preposition <u>para</u> as part of a research project funded by the Faculty Grant program; it is expected that this work will result in an article published in a refereed journal. As more students enroll in the program, it is expected that more of this type of research will be pursued jointly by faculty and students.
In addition, there is a need for translators here in the state; the proposer has done a variety of translation projects for the Fairbanks Head Start program, the Fairbanks Memorial Hospital, for parents adopting children from Latin America, amongst other projects. The training of students in the program will provide a base of skilled translators who can fulfill these needs in the community.

VII. IMPLEMENTATION

The program will be implemented Fall 1992. Students will be recruited through normal channels which include announcements in Spanish classes, by informing all advisors of this new major option, and by recruitment in high schools throughout the state.

IX. REGENTS' GUIDELINES

The proposed major in Spanish Studies is an interdisciplinary program of study that focuses on the Spanish language, with supporting studies in a foreign setting, International Business or Linguistics. The study of the Spanish language is an important part of the curriculum at institutions throughout the United States, with Spanish being offered as the focus of language study. It is arguably the case that major academic institutions which do not offer such a Spanish curriculum are the exceptions, rather than the rule.

The Mission Statement for UAF states "It [UAF] seeks to provide an intellectually stimulating learning process which is culturally sensitive and empowering to its students". We would directly address issues of cultural sensitivity with a Spanish Studies program; part and parcel of learning a foreign language is the study of the cultures that speak the language. Natural languages are not used in decontextualized communicative situations; rather, they function as an integral part of any culture's structure. The program would stress this notion.

The Statement continues "As a result, the state benefits from an educated citizenry capable of the independent pursuit of further learning, on contributing to the economic well-being of the state and nation and of participating in and contributing to global society" (proposer's emphasis). There can be absolutely no doubt that the Spanish program would contributes directly and centrally to this goal. Spanish is the third most commonly spoken language in the world. Mexico, the third largest trading partner of the United States, is the largest Spanish-speaking country in the world and a neighbor which shares a 2,000 mile border with this nation. It is a country whose presence affects the entire North American continent. If Alaska would indeed be part of an international community, it is difficult to see how it could do so and ignore the Spanish language. The United States is the fourth largest Spanish-speaking nation in the world; Spanish is the most

widely spoken minority language in this country. If one would participate in and contributing to a national society, one in which the Spanish language is an important and integral means of communication, then the study of that language would merit academic pursuit even in areas which one might consider "remote". Alaska is not an island, and if its citizens are to participate in a North American and international community, they will need the necessary tools in order to do so.

The goals of the Spanish Studies program are 1) to provide a program of depth and breadth in the study of the Spanish language 2) to offer coursework which allows a student to integrate the study of the Spanish language with his or her career goals 3) to encourage a student to experience another culture first-hand, taking the study of cultural differences out of the classroom and into another society 4) to encourage a good working knowledge of the Spanish language, with emphasis on speaking, reading, writing and listening skills.

The Spanish Studies program would provide these necessary tools to Alaskans and to those who come from other areas to study with us. The time has come for the establishment of this program.

MEMORANDUM

TO: Ray Highsmith, President
Faculty Senate

Tim Tilsworth, President-Elect
Faculty Senate

FROM: Joan K. Wadlow, Chancellor
University of Alaska Fairbanks

DATE: February 27, 1992

RE: CHANCELLOR'S RESPONSE TO SENATE ACTIONS

Recently the Senate forwarded proposals for several new academic programs. I am prepared to act on three of these proposals within the 30-day period specified in the Senate constitution.

For two of the new proposals, I propose an extension of the 30-day requirement through June 30, 1992. This will allow opportunity to consider the new programs within the context of program review.

Shall we discuss at our next meeting?

JKW/jbh

cc: Janice Reynolds
Vice Chancellor for Academic Affairs

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #31 on December 9, 1991:

MOTION PASSED (6 nays, 3 abstentions)
==========

The UAF Faculty Senate moves to approve the following policy on cross-listing 400 and 600 level courses.

That 400 level (senior) courses may be double listed as 400/600. The 600 level version of the course must require additional student effort, such as a seminar or a term paper, to reflect the greater acuity that we expect from graduate students.

That the decision of which 400 level courses become double listed as 400/600 is a departmental one, based on a vote of the faculty. Following this, the changes should follow normal procedures established for other graduate course changes.

That graduate students may not take any 600 level courses for credit if they have already received 400 level credit for that course in their undergraduate work. Individual exceptions to this rule include those courses where there has been a major shift in focus, and should be judged by the Instructor and the department.

EFFECTIVE: Fall 1992

RATIONALE: This motion will allow graduate students to earn credit toward their degree for courses that they may not have taken as undergraduates. The motion also allows for increased enrollment and instructor efficiency in our 400 level courses, increases the educational opportunities for our graduate students, and increased exposure of our advanced undergraduates to graduate students. Additionally, this motion will allow increased graduate student enrollment for credit in formerly 400 level courses without changing the 600 level requirements for our advanced degrees. The quality level will be insured by the Graduate Council review.

UAF Faculty Senate moves to endorse the following statement on educational equity, as amended and charges the Chancellor to proceed with the implementation as appropriate.

* * * * * * * * * * * * * *

[[ ]] = Deletions
CAPS = Additions

EDUCATIONAL EQUITY

A. Policy Statement

The University of Alaska Fairbanks requires equal access regardless of gender to all educational activities, pursuant to Alaska Statute Chapter 18 (S.B.99), "Prohibition Against Discrimination Based on Sex in Public Education" AND REGENTS POLICY 10.10.01, NONDISCRIMINATION IN TEXTBOOKS AND EDUCATIONAL MATERIALS. This includes courses, programs, guidance and counseling services, and recreational and athletic activities. [[The University also requires the use of non-discriminatory textbooks and instructional materials.]] LIBRARY COLLECTIONS SHOULD BE EXPECTED TO REFLECT A DIVERSITY OF OPINIONS.

[[The University further requires non-sexist language in correspondence, classroom materials, and University publications.]] Overtly biased comments, sexist humor, and related behavior on the part of faculty, students, or staff are not appropriate in the classroom, in related learning situations, or in the workplace.

The University also encourages curriculum integration of scholarship on women in order to present students the opportunity to understand women's and men's perspectives within a culturally diverse society.

Finally, the University pledges a classroom and professional environment that supports and nurtures all users regardless of gender.

B. Statement of Responsibility

Ultimate responsibility for implementation of the requirements for [[sex]] GENDER equity in educational programs and in the work environment lies primarily at the Chancellor's level. [[Committees of the Faculty Senate, ASUAF, and Staff Council will have direct responsibility of monitoring the academic and work environments to insure sex equality. They should issue an annual report to the Chancellor.]] It is the responsibility of all members of the University community to assist in achieving and supporting an educational and work environment free of [[sex]] GENDER bias.

The UAF Faculty Senate passed the following at its Meeting #30 on November 11, 1991:

MOTION PASSED (with 1 nay)
==========

The UAF Faculty Senate moves that the following Instructional Assessment System data be distributed to ASUAF, whereupon ASUAF is responsible for further distribution or publication of the data: course number, instructor's name, semester, demographics, the results from items #1-3 providing a general evaluation, and the results from items designated on the selected form for providing information about the course to other students.

RATIONALE: The Student Opinion of Instruction (SOI) format was implemented pursuant to:

1. A Board of Regents directive (1/10/69) to the University Assembly to consider instituting a student opinion of instruction system;

2. Fairbanks Assembly approval (1/30/80) of a resolution on student evaluation of faculty (approved by the chancellor 2/12/80);

3. Fairbanks Assembly passage (4/22/81) of a motion endorsing implementation of recommendations regarding student evaluation of faculty (approved by the chancellor 5/1/81).

The Fairbanks Assembly defeated (3/16/83) a motion requiring instructor permission for public release of student-selected questions.

With the change to the IAS format in 1988, "student-selected items" were no longer possible, although this current format does designate a category of course information to be made available to students.

Since ASUAF currently receives complete results of IAS items, this motion would make appropriate information available to ASUAF in a convenient format, and this motion would also facilitate assistance to students in course selection (to which they were entitled by former governing bodies of the faculty).

BE IT FURTHER RESOLVED, That the UAF Faculty Senate urge the University community and supporters of higher education in Alaska to make their feelings known to Governor Hickel prior to December 1st.

****

GUIDELINES FOR COMMUNICATION WITH GOVERNOR HICKEL

The Legislative and Fiscal Affairs Committee recommends that support for the University of Alaska budget should be general in nature and not support any one program at the price of another Letters should be personal and not on University stationery.

Written messages may be sent to the Office of the Governor, P.O. Box A, Juneau, AK 99811-0101 or dropped off at the Fairbanks office at Station H, 675 7th Ave. Short (25 words or less) verbal Personal Opinion Messages concerning the University of Alaska budget will be taken by the Governor's staff at 451-2920.

If you would like a model letter or more specific information about the University budget, contact Wendy Redman at 7582.

R. C. Hightower 11/14/91

The UAF Faculty Senate passed the following at its Meeting #30 on November 11, 1991:

MOTION PASSED (with 1 abstention and 1 nay)
==========

The UAF Faculty Senate moves to approve the following policy for the search committees for Deans/Directors.

The faculty of the college, school, institute or other academic unit shall elect faculty to serve as members of the Dean/Director Search Committee. Elected faculty members serving on the Search committee must constitute a majority of Committee membership.

The chairperson of the Search Committee shall be nominated by the Vice Chancellor for Academic Affairs or the Vice Chancellor for Research, as appropriate, subject to confirmation by the elected faculty members.

The size of the Search Committee shall be determined by the VCAA or the VCR, as appropriate, but the membership shall not have less than five elected faculty members.

The Search Committee may include other members such as a student representative from the unit, a staff representative from the unit, a faculty member from outside the unit and a public member from the community.

GUIDELINES:

1. A staff representative shall be elected by the staff from the unit for which the Dean/Director is being appointed.

2. Alternates may be selected to serve, only in the event an elected representative cannot or will not serve. Alternates are not to serve as part-time substitutes but rather as replacements for representatives of the aforementioned situations.

3. Search committees should have membership with good judgement, ability to act on behalf of UAF and be cognizant of their overall responsibility to their unit and to UAF.

4. Committee members should reflect a diversity of interests and elected faculty members should reflect the diversity and cross-section of their school/college/institute/unit.

EFFECTIVE: Immediately

RATIONALE: The UAF Administration has not followed the intent of the Senate Resolution passed on September 17, 1990. This motion has been discussed with the VCAA and should be acceptable to the UAF Senate and the UAF Administration.

PURPOSE

As UAF shapes its future during the last years of its first century, its high aspirations may need to be achieved in a climate of diminishing state revenues and increasing public demands. During 1991/92 UAF will conduct academic program reviews and administrative support reviews to identify funds from its current resources to provide more support for high quality programs that capitalize on UAF's unique position as America's northernmost university. Through these reviews, resources will be identified to allow UAF to:

1) Redirect resources to allow us to respond to initiatives that match our strengths and unique location with state and societal needs.

2) Make and keep salaries competitive to continue to attract excellent faculty and staff.

3) Develop flexibility to find our focus and expand our vision.

PROCESS & TIMETABLES

Colleges, schools, institutes, and academic & public service units will conduct a review of all their identifiable research, instructional, public service and academic support programs. Throughout the review, information on the process and its progress will be widely shared and available.

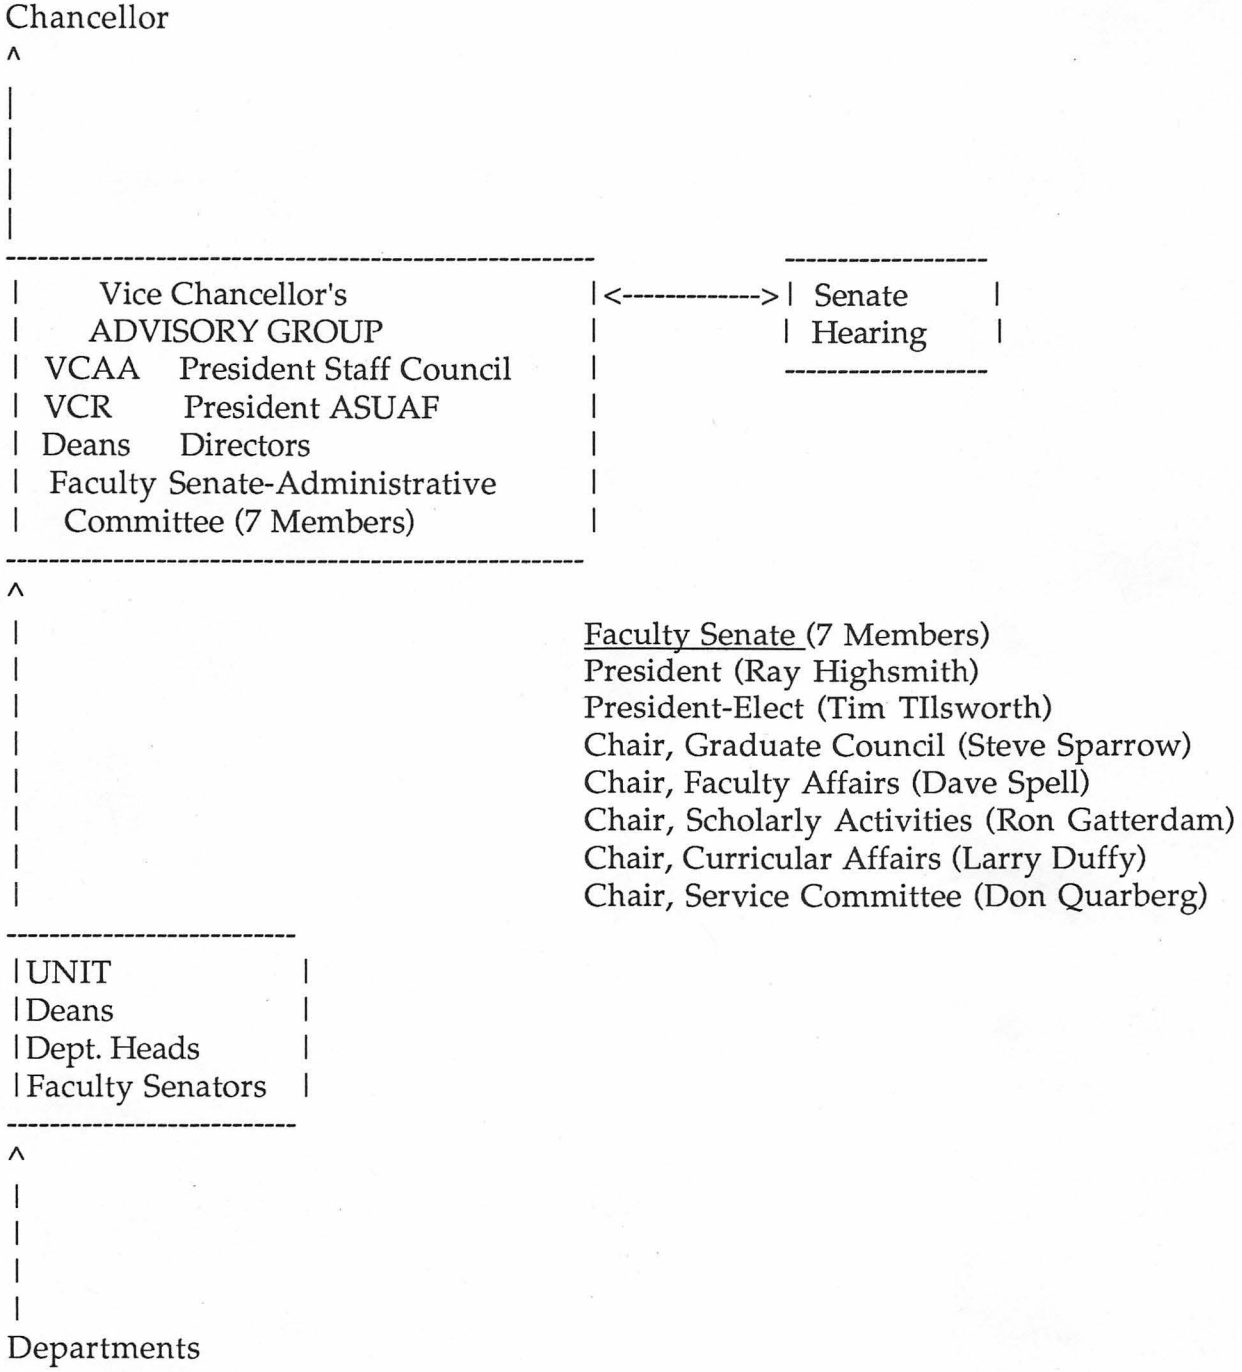
Program review groups formed. (September 16, 1991)
Program review groups will be formed at the Department, Campus, or Program level and chaired by the unit head. The Dean or Director will define the composition of the program review groups. Program review groups will consult with members of the unit in carrying out the review.

Program review will occur at the departmental level for Schools, Colleges, Institutes and the Library. The Rural Campuses of the College of Rural Alaska will review programs at the campus level and by program across campuses. Cooperative Extension Service review will begin at the program level. Inter-unit subgroups may be formed to consider solutions that are multidisciplinary or propose consolidation of units or support services.

Reviews begin. (October 7, 1991)

Deans and Directors will supply instructions, guidelines, information, and questions to the groups assigned program review. Units will be provided a basic format of necessary information relating to the criteria for reviewing programs. In addition, they will be encouraged to bring other relevant information and views to bear on their recommendations.

Using the criteria of centrality to mission, quality, demand and cost benefit, program review groups will be asked create models showing what programs will look like in the future with efforts focused to 95%, 90% and 80% of current levels.



Recommendations forwarded to Deans and Directors. (October 25, 1991)
Program review groups will forward recommendations to their respective Deans or Directors. Department, program and campus heads, as appropriate, will be joined by [[some]] THEIR faculty SENATORS to advise their Dean or Director regarding the recommendations. In consultation with this advisory group, Deans and Directors will consolidate a recommendation for their Schools, Colleges, or Institutes.

Recommendations forwarded to Vice Chancellors. (November 20, 1991)
Consolidated recommendations from Schools, Colleges, Institutes, Library and Extension will be forwarded to Vice Chancellors for Research and Academic Affairs. SEVEN MEMBERS OF THE ADMINISTRATIVE COMMITTEE OF THE FACULTY SENATE, Presidents of the [[Faculty Senate,]] Staff Council, & Associated Students of UAF [[and the President-Elect of the Faculty Senate]] will be asked to serve with the Deans and Directors on an advisory group to the Vice Chancellors. In consultation with this advisory group, the Vice Chancellors will prepare a [[consolidated academic]] FORMAL DRAFT recommendation to be PRESENTED TO THE SENATE AND THE UNIVERSITY COMMUNITY. [[forwarded to the Chancellor.]] AFTER Opportunities for hearings THE ADVISORY GROUP WILL ASSIST THE VICE-CHANCELLORS IN PREPARING A FINAL RECOMMENDATION TO BE FORWARD TO THE CHANCELLOR. [[will be provided to those wishing to address recommendations.]]

Recommendation forwarded to Chancellor. (December 6, 1991)
[[A consolidated]] THE academic recommendation from the Vice Chancellors AND THE ADVISORY GROUP will be forwarded to Chancellor. The Chancellor will finalize recommendation.

Recommendation communicated by Chancellor to our communities around the State. (December, 1991)

The UAF Faculty Senate passed the following at its Meeting #29 on October 14, 1991:

RESOLUTION
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to endorse the following revisions to the Regents Regulation, 04.09.05, Layoff, Recall and Release, as passed by the Staff Council.

(( )) = deletion
CAPS = addition

REGENTS' REGULATION

Layoff, Recall and Release 04.09.05

Layoff is the discontinuation of the active employment relationship which does not reflect discredit on the employee's performance((, and which is intended as being of a temporary or indefinite duration)). A REDUCTION IN THE CONTRACT PERIOD OF A PERMANENT EMPLOYEE SHALL BE COVERED UNDER REGULATION 04.09.05.

A. Reasons for Layoff

The procedure for layoff as contained in this regulation shall be used in cases in which there exists within the employing administrative unit or department either:

1. a lack of or reduction in available work; or

2. lack of sufficient available funds; or

3. a good faith reorganization; or

4. CHANGES IN TECHNOLOGY OR RESEARCH NEEDS; OR

5[4]. another reason, not reflecting discredit upon the affected employee(s), which has been approved in the particular circumstances by the Chancellor or President of the university, as appropriate; or

6[5]. Any combination of the preceding reasons.

B. Notification of Employees

1. Non-exempt Employees

   a. Notice of the intended layoff of an employee in a work unit shall be given 4 calendar weeks prior to the effective date of the layoff.

   b. Four weeks pay may be given to the employee in lieu of 4 weeks notice, but only with the prior approval of the appropriate Chancellor or President of the University.

2. Exempt Non-Faculty Employees

   a. Notice of the intended layoff of an employee in a work unit shall be given six calendar months prior to the effective date of the layoff.

   b. Six months pay may be given to the employee in lieu of six months notice, but only with the prior approval of the appropriate Chancellor or President of the university.

3. All layoff actions will be coordinated through the appropriate personnel officer prior to notification being issued to any employee.

4. Notwithstanding the provisions of Policy 04.09.06, the notice to be provided in accordance with Policy 04.09.05 and this regulation shall control in the event of a layoff.

C. LAYOFF DETERMINATIONS

1. WHILE BROAD DISCRETION IS CONFERRED UPON THE ADMINISTRATIVE UNITS OF THE UNIVERSITY TO DETERMINE LAYOFF NECESSITY, ALL LAYOFF DECISIONS MUST INCLUDE AND DOCUMENT THESE STEPS:

   A. CAREFUL ANALYSIS TO DETERMINE WHICH AREAS, ACTIVITIES, PROGRAMS, OR ORGANIZATIONS SHOULD BE REDUCED. (IF AN ENTIRE ACTIVITY IS TO BE ELIMINATED, STEPS B. AND C. BELOW ARE NOT APPLICABLE.)

   B. IDENTIFICATION OF THE JOBS AND FUNCTIONS THAT WILL NEED TO BE PERFORMED AFTER THE REDUCTIONS.

C. EVALUATION OF PRESENT EMPLOYEES AS TO THEIR QUALIFICATIONS AND ABILITIES TO PERFORM THE JOBS REMAINING, AS DETERMINED IN SECTION D.

D.[C] Order of Layoffs

1. The selection of the individual employees to be retained or laid-off in circumstances other than a declared financial exigency (See: Policy 04.08.06) shall take into consideration the following factors:

   a. employee length of service

   [b. employee ability to do the work remaining in the department]

   B. ABILITY AND WILLINGNESS TO ADJUST TO THE CHANGES NECESSARY IN THE ORGANIZATION'S OPERATION AND TO CONTRIBUTE TO ONGOING PROGRAMS

   C. EFFECTIVENESS ON THE JOB, INCLUDING PAST PERFORMANCE, ACHIEVEMENT, MOTIVATION, AND INITIATIVE

   D. VERSATILITY (I.E., WHETHER THE EMPLOYEE HAS THE ABILITY AND DEMONSTRATED SKILL TO MOVE INTO ANOTHER AREA OF OPERATIONS)

   E. SPECIAL SKILLS THAT ARE NECESSARY FOR A PARTICULAR FUNCTION

   F. AMOUNT OF EXPERIENCE IN THE FIELD

   G[c]. employee status as temporary, probationary or permanent, with preference being given to the permanent over the others, and preference being given to probationary over temporary;

   [d. employee past performance]

   H[e]. source of, and specific nature of funding; and

   I[f]. affirmative action goals and objectives.

2. AFTER DOCUMENTING THE STEPS DESCRIBED ABOVE, A DETERMINATION AS TO THE NATURE OF THE LAYOFF REQUIRED AND THE EMPLOYEE(S) AFFECTED WILL BE MADE. ALL DOCUMENTATION PREPARED IN THE EVALUATION PROCESS AND AN EXPLANATION OF

THE DECISIONS WILL BE SENT THROUGH ADMINISTRATIVE CHANNELS TO THE CHANCELLOR OR HIS/HER DESIGNEE. The final determination of the order for layoff shall be made jointly by the administrative unit or department head and the appropriate personnel officer, subject to review by the Chancellor or President of the university, as appropriate.

E.[D] Alternatives to Layoff

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: The proposed changes in regulation 04.09.05 will help ensure that the full range of an employee's accomplishments and abilities are considered when making reduction in work force decisions. It also requires administrators making layoff decisions to document the decision-making process. This will serve several functions. It will protect the University by providing documentation on the decision-making process in the event of grievances or legal proceedings, and a documented and deliberative process will improve staff morale by reducing the possibility of hasty or capricious decisions. This revision, plus proposed policies regarding program evaluations, should also help to ensure that program reductions are consistent with the goals of the University.

TRANSFER GUIDELINES

The following table specifies courses completed at other institutions which may substitute for UAF's core curriculum requirements. Use of a course for both core and degree requirements will be allowed only with specific approval by departments.

Table of Substitutions

Core Curriculum Courses	Courses which Transfer as
Math 131	a 100-level/above mathematics course having a prerequisite of at least two years of high school algebra
Math 162, 200, 201, 202, 272	a calculus course at the 100-level/above
English 111	the required first semester freshman composition course at the 100-level. Must be basic freshman composition and not developmental.
English 211/213	the second half of the introductory composition series (REQUIRING DOCUMENTED WRITING) at the 100-level or above
Speech 131/141	a 100-level/above PERFORMANCE course in [fundamentals of oral] SPEECH COMMUNICATION, PUBLIC SPEAKING OR SMALL GROUP communication.
Natural sciences, 8 credits	courses in a basic natural sciences--biology, chemistry, earth sciences, physics--with labs, at the 100-level/above. Non-lab courses transferrable only as a second natural science course. To fulfill core requirements a transfer student must complete two lab courses or two labs.

PERSPECTIVES ON THE HUMAN CONDITION

Modern World History	a Western or non-Western civilization course at the 100-level or above
Political Economy	a foundation course in political science, economics, or law
Individual, Society & Culture	a foundation course in sociology, social/cultural anthropology, social psychology, psychology, language and culture, or cultural geography, at the 100-level/above
World Literatures	a literature course taken at the100-level/above
Aesthetic Appreciation	a history or appreciation course in art, theater, or music at the 100-level/above
Values and Choice	an upper division course in ethics
Foreign Language	minimum of two semesters in a single, non-English language

CAPS = Additions [ ] = Deletions

EFFECTIVE: Spring 1992
Upon Chancellor's Approval

RATIONALE: To enhance the articulation of transfer guidelines with those in effect at UAA, UAS, following Regents' policy on transfer credits.

The UAF Faculty Senate passed the following at its Meeting #28 on September, 1991:

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to refer the issue of Program Review to the appropriate permanent committee of the Senate (Curricular Affairs) and ask the committee to advise the Senate, at the October 14, 1991 meeting, regarding the role the Faculty Senate should have in the Program Review.

Chancellor's Office

9 May 1991

I find this a curious motion and wonder what the status would be if it were vetoed. I am wondering if such procedural items should be handled by motions or resolutions. Technically, the prior action was adopted with modification and the reconciliation process is designed for vetoed actions. In any event, I am willing to participate in the reconciliation process. This may all be moot because the original policy passed by the Senate was not in conformity with Board of Regents policy! As an officer of the University I cannot knowingly approve actions not in conformity w/ Board policy

SUBJECT: Transfer of credit motion

Per the attached motion, the Senate has voted not to accept your revisions to the subject. According to Article XI, Sect. 2 of the UAF Faculty Senate Constitution, the Senate wishes to submit the issue to a reconciliation committee with up to three members appointed by the Senate and up to three members appointed by your office. The Senate Administrative Committee will select the three Senate representatives. The Administrative Committee is planning to meet during the week of 3 June. We will notify you when our representatives are selected. Hopefully, the reconciliation group will be able to resolve this matter.

cc: T. Tilsworth

I would appreciate it if you could make your appointments prior to June 3. It would be good if we could meet the week of May 20.

EDUCATION

Rural College
Department of Education

Degrees: B.Ed., M.Ed., Ed.S.

Minimum Degree and Certification Requirements:

B.Ed.- minimum of 130 credits; M.Ed. - minimum of 36 additional credits; Ed.S. - 36 credits beyond master's degree and 60 credits beyond the baccalaureate; Post Baccalaureate: Elementary certification, minimum of Elementary Education minor; Secondary certification and K-12 certification, minimum of 33 credits.

I. CERTIFICATION AND ACCREDITATION INFORMATION

Teaching certificates are issued by the State of Alaska Department of Education. Students who successfully complete a UAF Education program including student teaching will meet the current academic requirements for Alaska certification. Students interested in teaching outside of Alaska should consult the certification department for that state to obtain specific certification requirements.

All UAF education programs are accredited by the National Council for accreditation of Teacher Education (NCATE), and follow the standards for NCATE review. These programs are also approved by the State of Alaska Department of Education.

Students can contact the Office of Certification and Advising in the Department of Education for additional information and support.

II. ADMISSION TO TEACHER EDUCATION

In addition to being accepted by the University, all students wishing to be certified must also formally apply for admission to the Fairbanks elementary education program or secondary Teachers for Alaska program offered on the Fairbanks campus, or the Cross Cultural Education Development (X-CED) elementary or secondary education program offered on the rural campuses. Admission requirements for the Fairbanks program may be found on pages 7 and 13. Admission requirements for the X-CED programs may be found on page 9.

Continuation in these programs is based upon the maintenance of satisfactory performance in all areas of the program. Students who fail student teaching will be exited from their program, and further involvement is dependent upon a re-application process. See the Coordinator of the Office of Practica Experience regarding this procedure.

III. EDUCATION PROGRAMS

Education programs at the University of Alaska Fairbanks have the responsibility for preparing highly qualified professionals in education who are especially prepared to teach in both urban and rural Alaska, and to work with multicultural and minority students, especially Alaska Native students.

These education programs are offered through two delivery systems: resident programs at the Fairbanks campus, and distance-delivery programs through the Cross Cultural Education Development Program (X- CED) at the following rural campus areas: Barrow (Arctic Sivunmun Ilisagvik), Bethel (Kuskokwim), Dillingham (Bristol Bay), Interior Campus, Kotzebue (Chukchi), and Nome (Northwest).

A. Fairbanks Campus Resident Program:

The Fairbanks campus offers resident programs leading to both elementary and secondary teaching certificates. These programs are designed for full-time students, although part-time students are accommodated when possible. The professional year, the last year in the program, is an intensive compressed integrated curriculum that incorporates university classwork with practicum experiences and culminates in student teaching. It requires a full-time commitment since students are placed in the schools for methods' practicum experiences and student teaching.

The Fairbanks campus delivers an elementary B.Ed., an elementary education minor with certification, an elementary education minor without certification, a general education minor, a post-baccalaureate elementary education program (a minimum of the elementary minor), and a secondary and K-12 certification program (the Teachers for Alaska Program). ~~The Fairbanks campus no longer delivers a secondary B.Ed.~~ Undergraduates must complete their bachelor's degree requirements, including all requirements for a certifiable major, before entering the Teachers for Alaska program.

C. Fairbanks Campus Secondary Certification program: Teachers for Alaska (TFA)

The Teachers for Alaska Programs (TFA) is a professional certification program which prepares highly qualified teachers for secondary school positions. The program is especially designed for students who want to teach at the secondary school level either in small rural schools or in Alaska's urban multicultural secondary schools. The program offers two options: 1) secondary (7-12) certification in a certifiable subject area, and 2) K-12 small schools certification in a certifiable subject area. It is an extended two semester program which students begin before the start of one academic semester, and complete after the end of the following academic semester. For further information on this program, please contact the Coordinator of the Office of Certification and Advising.

Admission Requirements

1. Applicants for the TFA program must meet credit requirements for certification in a specific subject area as approved by the Alaska Department of Education Eligible applicants include (1) UAF undergraduates who will have completed bachelor's degree requirements for an Alaska State Department of Education certifiable subject area by the start of the first semester of the TFA program; and (2) post-baccalaureate students who already possess a bachelor degree in a certifiable subject area. Certifiable subject areas are: Alaska Native Languages, Anthropology, Art, Biological Science, Chemistry, English, Foreign Languages, General Science, Geography, History, Mathematics, Music, Physical Education, Physics, Political Science, Speech Communication, Theatre Arts, Language Arts/Humanities (interdisciplinary), Social Science (interdisciplinary), or Math/Science (interdisciplinary). The office of Certification and Advising will evaluate past degrees to determine eligibility.

2. Acceptance to TFA is contingent upon acceptance into the University of Alaska Fairbanks and completion of a TFA application form obtained from the Education Department.

3. For 1991/92, all application materials, including transcripts and letters of reference, must be received by February 15 in order to be reviewed for admission in the following fall semester, and by October 1 in order to be reviewed for admission in the following spring semester.

4. Teachers for Alaska is a selective teacher education program. A comprehensive system that includes more than one measure is used

to assess the personal characteristics, communications, and basic skills proficiency of candidates preparing to teach. This system includes, but is not limited to, the following multiple measures which will be weighed and assessed by various means, including a review of transcripts, essays and/or writing proficiency exams, and letters of reference. Faculty may also require interviews. The range and balance of these four areas will be considered in a review by the faculty. Questions the faculty will ask in making admissions decisions include: does the student have:

a) a diverse, solid academic background (GPA of 2.7 or higher).
b) interpersonal, intercultural, and communication skills,
c) successful experience in one or more of the following contexts:
    1. public school classrooms
    2. other settings with students
    3. rural students
    4. culturally diverse settings, and
d) practical skills and life experiences.

5. Once accepted into the program, TFA has a systematic procedure for monitoring the progress of education students from admission through completion of their professional education program to determine if they should continue in the program, be advanced to student teaching, or be recommended for a teaching certificate. In assessing student progress, faculty review the following information, including grades, observations, faculty recommendations, demonstrated academic competence, and recommendations from the appropriate professionals in the schools. Systematic approaches are used to assist education students who are making unsatisfactory progress in their programs.

6. Reciprocity will be maintained with rural campuses programs. X-CED students wishing to complete their professional year on the Fairbanks campus must send intent to enroll information to the Office of Certification and Advising. Please contact your advisor and the Coordinator for the Office of Certification and Advising for further information.

<u>Course Recruitments: TFA Secondary Subject Area Endorsement</u>

1. First Block: 15 credits

ED 582 Teaching as Reflective Inquiry	4 cr
ED 583 Teaching as Decision Making and Invention	8 cr
ED 584 Practicum: Teaching in Small and Large Schools	3 cr

2. Second Block: 18 credits

ED 585 Reflective Inquiry Into Multicultural Classrooms and Communities (formerly ED 619)	3 cr
ED 586 Designing Learning Environments (formerly ED 692)	3 cr
ED 453 Student Teaching	12 cr

Additional Requirements for TFA K-12 Small Schools Certificate

1. Same as above except ED 453, plus:
2. ED 454 Student Teaching K-12 — 12 cr
   (this is an 18 week student teaching experience)
3. Complete the following 6 credits:

ED 411 (language arts), ED 412 (social studies) or ED 413 (math/science), depending on your area of specialization	3 cr
ED 410 Foundations of Literacy Development	3 cr

TRANSITION POLICY

Students graduating under earlier catalog requirements will substitute ED 582, ED 583, and ED 584, for the past required courses ED 402, ED 407, ED 424/425, and ED 430. For these students only, these courses, together with ED 453, ED 585, and ED 586, will constitute a minor in secondary education leading to certification. Physical Education and Music students seeking a teaching credential should contact their department for information on required education courses

MINOR IN GENERAL EDUCATION

For those students interested in exploring the possibility of a career in education before beginning the elementary education professional year or the TFA program, and for those students who are interested in education but who may not wish to pursue certification, there is the option of completing a minor in general education that is not linked to certification or admission to either education program. Students may also elect to take one or more of the following courses according to their own personal interests. The minor consists of the following courses:

ED 201 Introduction to Education	3 cr
ED 299 Practicum in Education	3 cr

The UAF Faculty Senate passed the following at its Meeting #27 on May 6, 1991:

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate approves the attached catalog description of program requirements for degrees in Interdisciplinary Studies.

EFFECTIVE: Immediately

RATIONALE: This will clarify current practice as well as reflect recent changes made by the Senate.

Raymond C. Highsmith 5/8/91
President, UAF Faculty Senate Date

Interdisciplinary Studies

(907) 474-6396

Degrees: A.A.S., B.A., B.S., B.T., M.A., M.S, Ph. D.

Minimum Requirements for Degrees: A.A.S. - 60 credits; B.A., B.S., or B.T. - 130 credits; M.A. and M.S. - 30 or more credits; Ph.D. - open

Undergraduate -

The exceptional student with well-defined goals which do not fit into the established undergraduate program of the university has an opportunity to achieve recognition for carrying out an approved interdisciplinary program which satisfies the requirements for an associate or baccalaureate degree. For this purpose the associate of applied science, bachelor of arts, bachelor of science, and bachelor of technology degrees in interdisciplinary studies are offered.

Students may develop an interdisciplinary curriculum proposal leading to an A.A.S., B.A., B.S. or B.T. degree in interdisciplinary studies upon completion of 15 credits at UAF, and preferably 30 credits (for the associate's degree), or 60 credits (for the bachelor's degree), prior to graduation. The proposed curriculum must differ significantly from established degree programs at UAF and will require evidence that the necessary facilities and faculty are available to ensure an approximation of a normal undergraduate degree. All general requirements for the A.A.S., B.A., B.S. or B.T. degree must be met.

Students who are interested in pursuing an undergraduate degree in interdisciplinary studies, or who want to explore this as an option, may contact the Academic Advising Center for assistance in finding faculty advisors and developing a curriculum proposal.

Applicants must submit to the Vice Chancellor for Academic Affairs their proposal for the program they wish to pursue, specifying the degree (A.A.S., B.A., B.S., or B.T.), proposed curriculum and rationale. A committee of at least three faculty members who are familiar with the interdisciplinary subject will be appointed to review the proposal and make a recommendation to the vice chancellor. If the curriculum is approved, this committee will advise the student throughout the program. The degree title will be chosen by the committee in concert with the student and with the approval of the vice chancellor. Changes within the approved curriculum would be made only with the approval of this advisory committee.

Graduate-

Interdisciplinary proposals for graduate degrees must be submitted to the Director of Graduate Programs who will coordinate the review process.

For complete information on interdisciplinary graduate programs see the UAF Graduate Catalog.

The UAF Faculty Senate passed the following at its Meeting #27 on May 6, 1991:

MOTION PASSED WITH AMENDMENTS (unanimous approval)
==========

The UAF Faculty Senate moves to amend the Bachelor of Technology degree requirements to the following:

BACHELOR OF TECHNOLOGY DEGREE REQUIREMENTS 81-82 Credits

Complete the following in addition to the core:

	Credits
Communications	3
English 314 (to count as one of the upper-division writing intensive courses)	
Mathematics	3
One course at the 100-level or above in mathematical sciences	
Computer competency	3
Any 3 credit computer application or computer science course	
Technology and society	3

Area of specialization* minimum of 30

Complete one of the following options:

Option 1: (32 Credits)

Note: For this option, no more than 25% of total course work may be taken in the School of Management.

ACCT 101/102--Elementary Accounting	6
ECON 200--Principles of Economics	4
STAT 200--Elementary Probability and Statistics	3
BA 151--Introduction to Business	3
BA 307--Personnel Management	3
BA 325--Financial Management	3
BA 330--Legal Environment of Business	4
BA 343--Principles of Marketing	3
Advisor approved upper division internship or advanced technical experience	3

Option 2: (38 Credits)

Note: For this option, students must apply and be accepted to the Teachers for Alaska Program. The area of specialization must be one that can be certified for teaching.

ED 201--Introduction to Education	3

ED 299--Practicum in Education	2
ED 582--Teaching as Reflective Inquiry	4
ED 583--Teaching as Decision-Making and Invention	8
ED 584--Practicum: Teaching in Large and Small Schools	3
ED 585--Reflective Inquiry into Multicultural Classrooms and Communities	3
ED 586--Designing Learning Environments	3
ED 453--Secondary Student Teaching	12
Electives	1-7
Minimum credits required for degree	120

Of the above, at least 39 credits must be taken in upper division (300-level or higher) courses.

*The candidate for the BT degree must have (1) a minimum of 30 semester credits at UAF in the area of specialization (either completed in residence or accepted by transfer as equivalent to specific UAF courses) and (2) demonstrated competence in an applied or technical field. Competence may be demonstrated as follows:

1) Having earned a ~~UAF~~ Associate of Applied Science degree in one of the following active programs:

- Airframe and Powerplant
- Applied Accounting
- Applied Small Business
- Aviation Technology
- Community Health Practitioner
- Culinary Arts
- Early Childhood Development
- Early Childhood Education
- Financial Institutions Management
- Human Services Technology
- Interdisciplinary
- Office Professions
- Public Safety-Fire Science

2) Substitute one of the following as a demonstration of competency in an applied or technical field with the approval of the Curricular Affairs committee of the Faculty Senate:

a) an AAS or similar degree earned at another institution
b) state or federal certification deemed appropriate by the faculty
c) journeyman status in trades and industry

*It is the intent that the B.T. degree can be offered only in those areas enumerated in item 1 or approved in item 2 above.

EFFECTIVE: Fall 1991
Upon Chancellor's Approval

The UAF Faculty Senate passed the following at its Meeting #26 on April 15, 1991:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to adopt the following policy on 500-level courses:

All 500-level courses offered at UAF will be designated as POST BACCALAUREATE PROF professional development courses.

500-level courses are intended as post-baccaulaurate experiences for professionals who desire to continue their educational experiences at a level distinct from graduate level education.

500-level special topics and independent study courses designated 593, 595, or 597 shall not apply toward any degree, certification or credential program. Responsibility for curricular review of these courses rests with the college or school offering such courses.

Other 500-level numbered courses which are to be applied to degree, certification or credential programs must follow current university academic review procedures which will include a review by the Senate Curricular Affairs Committee.

For purposes of tuition and fee assessment, professional development courses will be charged at a rate equal to or higher than graduate course tuition.

RATIONALE: This motion clarifies the definition and use of 500-level courses.

The UAF Faculty Senate passed the following at its Meeting #26 on April 15, 1991:

MOTION PASSED WITH AMENDMENTS (unanimous approval)
==========

The UAF Faculty Senate approves the attached transfer guidelines for students transferring to UAF beginning Fall 1991.

RATIONALE: These guidelines reflect changes agreed to by the original core committees, by the core review committee and by the curricular affairs committee based on examination of course selections by past transfer students, especially from other MAUs in the UA system.

John D. Teijung 4-15-91
President, UAF Faculty Senate Date

APPROVED: _____ DATE _____
Chancellor's Office

DISAPPROVED: _____ DATE _____
Chancellor's Office

APPROVED WITH MODIFICATION(S) INDICATED Patrick J. O'Rourke DATE 5/6/91
Chancellor's Office

I found it necessary to make two modifications to this policy in order to better facilitate students and to extend a higher level of good faith to other Alaskan institutions within the UA system. Although we have a carefully crafted set of requirements for students who do their work at the University, we better aid students and encourage them when we extend some latitude to them when they have taken courses which fulfilled the general education requirements at another institution. Although they may not exactly match our requirements, we should assume that they have learned similar, albeit alternative knowledge.

Pat O'Rourke 5/6/91

TRANSFER GUIDELINES

The following table specifies courses completed at other institutions which may substitute for UAF's core curriculum requirements. Use of a course for both core and degree requirements will be allowed only with specific approval by departments.

Table of Substitutions

Core Curriculum Courses	Courses which Transfer as
Math 131	a 100-level/above mathematics course having a prerequisite of at least two years of high school algebra
Math 162, 200, 201, 202, 272	a calculus course at the 100-level/above
English 111	the required first semester freshman composition course at the 100-level. Must be basic freshman composition and not developmental.
English 211/213	the second half of the introductory composition series (~~requiring a research paper~~) at the 100-level or above
Speech 131/141	a 100-level/above course in fundamentals of oral communication ~~which requires a formal presentation to an audience~~
Natural sciences, 8 credits	courses in a basic natural sciences--biology, chemistry, earth sciences, physics--with labs, at the 100-level/above. NON-LAB COURSES TRANSFERRABLE ONLY AS A SECOND NATURAL SCIENCE COURSE. TO FULFILL CORE REQUIREMENTS A TRANSFER STUDENT MUST COMPLETE TWO LAB COURSES OR TWO LABS.
PERSPECTIVES ON THE HUMAN CONDITION	
Modern World History	a Western or non-Western civilization course [covering a period of time from 1800 to the present] at the 100-level or above

Political Economy	a [lower-division] FOUNDATION course in political science, [or] economics, OR LAW
Individual, Society & Culture	a foundation course in sociology, social/cultural anthropology, [or] social psychology, PSYCHOLOGY, LANGUAGE AND CULTURE, OR CULTURAL GEOGRAPHY, at the 100-level/above
World Literatures	a literature course taken at the [200] 100-level/above
Aesthetic Appreciation	[an] A HISTORY OR appreciation course in art, [drama] THEATER, or music at the 100-level/above
Values and Choice	an upper division course in ethics
FOREIGN LANGUAGE	MINIMUM OF TWO SEMESTERS IN A SINGLE, NON-ENGLISH LANGUAGE

CAPS = Additions [ ] = Deletions

EFFECTIVE: Fall 1991
Upon Chancellor's Approval

RATIONALE: To enhance the articulation of transfer guidelines with those in effect at UAA, UAS, following Regents' policy on transfer credits.

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate recommends that the Quality Review of Academic programs be required to occur during the year in which those programs normally undergo professional external accreditation review. The Senate further requests the Chancellor to forward this recommendation to the President.

RATIONALE: The current Quality Review proposal does not require the coordination of Quality Program external review with existing professional external review. The current document does indicate that it is preferable for coordination to occur. Given the expense in terms of faculty time and institutional dollars, such a coordination should be mandatory. To ask programs to go through multiple external reviews in a short span of time is not the most efficient or effective use of faculty time and institutional resources.

4-15-91

President, UAF Faculty Senate Date

RESOLUTION OF APPRECIATION
FOR
DR. PATRICK J. O'ROURKE

WHEREAS, Dr. Patrick J. O'Rourke has given ten years of faithful service as Chancellor to the University of Alaska Fairbanks during a very challenging period, and

WHEREAS, Dr. O'Rourke as Chancellor has been a steadfast advocate for UAF with the Statewide Administration, the Board of Regents and the Alaska State Legislature, and

WHEREAS, during his tenure the University grew in terms of numbers of degrees, facilities, and students, and

WHEREAS, he worked diligently to make the restructured UAF work for the betterment of its various publics both before and after restructure, and

WHEREAS, Dr. O'Rourke supported the development of the UAF Faculty Senate and made himself readily available to its members, and

WHEREAS, during his Chancellorship a new enhanced Core Curriculum was approved by the Senate and the administration at UAF, and

WHEREAS, Dr. O'Rourke and the Senate worked together to create an improved climate for shared leadership as evidenced by the creation of a new Department Head Policy and another policy outlining the Faculty Senate's role in the evaluation of academic administrators, so

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate at UAF wishes to extend its appreciation to Dr. Patrick J. O'Rourke for his service to the Senate and to the University of Alaska Fairbanks.

REGULATION 10.01.04

Honorary DEGREES ((Degree Recipients))

Nominations for honorary degree candidates may be made at any time by members of the Board of Regents, members of the university community((, through the cognizant Chancellors, and by the)) OR citizens of the state.

> ((Nominations for honorary degrees to be conferred at spring commencements must be submitted to the Office of the President by September 1st.)) Nominations MUST ((will)) be submitted to the appropriate CHANCELLOR ((campus)) for ((faculty)) REVIEW BY THE FACULTY HONORARY DEGREE COMMITTEE FOLLOWED BY ((and)) recommendation by the ((cognizant)) chancellor to the UNIVERSITY SYSTEM president. The Board OF REGENTS NORMALLY will approve nominations at ((a scheduled board)) MEETINGS SCHEDULED DURING DECEMBER - FEBRUARY. ((meeting preceding December 1st.)) Honorary degree recipients will be announced PRIOR TO THE AWARD CEREMONY AT A TIME TO BE DETERMINED BY THE COGNIZANT CHANCELLOR. ((in February.))

In order to provide sufficient lead time to invite commencement speakers upon whom an honorary degree is to be conferred, nominations for such persons may be proposed and acted upon UP TO TWO YEARS PRIOR TO THE COMMENCEMENT. ((in advance of the schedule in the above paragraph. A ranked slate of candidates may be accepted by the Board with the proviso that the persons on the slate would be contacted in order and only those persons who accept speaking engagements would receive honorary degrees.))

(Moved from above)
Nominations will include a brief statement of the following information on each candidate:

Name and pertinent personal information;
Education (degrees received);
Contributions to the university and/or the state;
Rationale for recommendation for honorary degree;

THE TYPE OF HONORARY DEGREE TO BE AWARDED SHOULD BE ONE OF THE FOLLOWING:

DOCTOR OF LAWS (LL.D.)	*FOR PERSONS DISTINGUISHED IN GENERALSERVICE TO THE STATE, TO LEARNING, AND TO MANKIND;
DOCTOR OF LETTERS (LITT.D.)	*FOR PERSONS DISTINGUISHED IN SCHOLARLY WORK OF A SOMEWHAT RESTRICTED NATURE; USUALLY CONFERRED UPON SCHOLARS IN PARTICULAR DISCIPLINES;
DOCTOR OF SCIENCE (SC.D.)	*FOR PERSONS WHO HAVE MADE DISTINGUISHED CONTRIBUTION AND PERFORMED SERVICES IN THE SCIENCES;
DOCTOR OF HUMANE LETTERS (L.H.D.)	*FOR PERSONS WHO HAVE DISTINGUISHED THEMSELVES IN THE HUMANITIES.

Meritorious Service Awards

Nominations for meritorious service award candidates may be made at any time by members of the Board of Regents, members of the university community, ((through the appropriate campus director, rural education dean or cooperative extension service director and the cognizant chancellor and by the)) OR citizens of the state.

((Nominations for Meritorious Service Awards to be awarded at spring commencements must be submitted to the office of the university president by October 1.)) Nominations MUST ((will)) be submitted to the appropriate COMMUNITY COLLEGE PRESIDENT, campus director, SCHOOL or COLLEGE dean, OR EXTENSION SERVICE DIRECTOR for appropriate faculty review, appropriate advisory council review, and recommendation by the cognizant chancellor to the university president.

The Board of Regents NORMALLY will approve nominations at ((a scheduled BOARD MEETINGS SCHEDULED DURING DECEMBER - FEBRUARY. ((meeting preceding December 1.)) Meritorious Service Award recipients will be announced PRIOR TO THE AWARD CEREMONY AT A TIME TO BE DETERMINED BY THE COGNIZANT CHANCELLOR. ((in February.))

(Moved from above)
Nominations will include a brief statement of the following information on each candidate:

Name and pertinent personal information
Contributions to the university and / or the community / state
Rationale for recommendation for meritorious service award

The UAF Faculty Senate passed the following at its Meeting #25 on March 18, 1991:

RESOLUTION PASSED (unanimous approval)
==========

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recommends that American Sign Language be included as a foreign language alternative in the post-Core (major and minor) B.A. & B.S degree requirements. This action is contingent upon acceptance by the Colleges/Schools offering B.A. & B.S. degrees.

3-19-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #25 on March 18, 1991:

RESOLUTION PASSED (unanimous approval)
==========

WHEREAS, Teachers Retirement System (TRS) and similar funds are currently under the sole management of the Commissioner of Revenue, a gubernatorial appointee possibly subject to political pressures regarding the investment of such funds; and

WHEREAS, Investment of TRS funds should be for the primary benefit of contributors to and beneficiaries of those funds, and therefore TRS members should share in the fiduciary responsibility;

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate, favors the creation of a separate public corporation for the specific purpose of managing the investment and benefit administration of TRS and similar funds. We therefore support proposed legislation (SB #18 and HB #37) that would create such a corporation.

RATIONALE:

1. It seems clear that our interests would be better served by a separate governing board rather than by a single political appointee, particularly if that board membership includes elected representatives.
2. It is likely that the funds may perform better, as well as more safely, under the proposed structure. This would allow the funds to pay for their own maintenance as well as support solvency on behalf of beneficiaries.
3. The proposed legislation covers investment of over 4 billion dollars from 14 different funds. The major portion is from PERS (2.7 bil.) and TRS (1.7 bil.).
4. UAF Staff Council and UAS Faculty Senate have passed similar resolutions in support of a separate management board or corporation.
5. We support the <u>concept</u> embodied in the proposed legislation without judgment on the numerous specific details (definitions, administrative procedures, terms of office, etc.).

3-19-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #25 on March 18, 1991:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate recommends a system of faculty awards to recognize significant accomplishment in public service by requesting that the Vice Chancellor for Academic Affairs establish awards for distinguished public service, with funding from that office and following procedures developed by representative faculty committees. The awards process shall follow that described in the motion passed by the Faculty Senate on 12/17/90 for comparable awards in teaching and research.

RATIONALE:

1. These awards will provide equal recognition for the public service component of the land grant university mission as was approved for teaching and research at the December 1990 meeting of the UAF Faculty Senate.

2. Within the mission of the land grant university, most faculty are responsible for teaching, research and service. "Public service" is the application of teaching, research and other scholarly and creative activity to constituencies outside UAF (UAF Regulations for Evaluation of Faculty . . . III C,3,a).

3. Recent Board of Regents actions can be interpreted as challenges to the public service component of the UA system as follows:

   (a) 8/17/90 and 9/28/90 - native education is identified as one of its "highest priorities"
   (b) 11/2/90 - "commitments to extended education be considered the responsibility of the entire UAF faculty"
   (c) 12/10/90 - revised policy (04.04.05) by expanding public service to specifically include service to "elementary and secondary schools"

The UAF Faculty Senate passed the following at its Meeting #25 on March 18, 1991:

RESOLUTION PASSED (unanimous approval)
==========

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate endorses the establishment of a "Teaching Improvement Partnership," a faculty mentoring program coordinated by the Office of Faculty Development (OFD), that would encourage peer consultation for instructional improvement on an informal, voluntary basis. Through funding made available to OFD, the "Teaching Improvement Partnership" would pay small, annual stipends to five trained faculty members (approximately $2,000 each) from diverse disciplines for their collaboration with peers who request assistance in improving teaching effectiveness.

EFFECTIVE: Immediately

RATIONALE: UAF currently has no program (large or small) dedicated to instructional improvement on an individual basis. The "Teaching Improvement Partnership" is a pilot program emphasizing voluntary, confidential participation so that faculty seeking assistance to improve their teaching can work informally with colleagues, who have undergone intensive training in teaching-consultation procedures. Such a program, which carefully differentiates development and improvement from evaluation, can be an important factor in the instructional growth of an institution by increasing the dialogue about teaching, by making more effective use of available pedagogical resources, and by generating further resources earmarked for faculty development.

RESOLUTION PASSED (unanimous approval)
==========

WHEREAS, appropriations for new parking lots or upgrading existing parking lots are low on the priority list of capital projects; and

WHEREAS, there already exists a lack of core area parking; and

WHEREAS, no steps are being taken to institute shuttle bus service between the existing outer parking lots and the core area; and

WHEREAS, there will not be adequate parking for the Natural Sciences building when it is opened; and

WHEREAS, parts or all of existing parking lots are historically lost to the construction of new buildings or additions to existing buildings; and

WHEREAS, various parking lots are lacking reliable head-bolt plug-ins and adequate lighting; and

WHEREAS, there are no emergency phones or warm-up huts in existing outer parking lots; and

WHEREAS, the present system of collecting decal fees and parking fines does not allow for the direct accounting of how the money is spent; and

THEREFORE BE IT RESOLVED, That all monies collected from decal sales and parking tickets be placed in a separate account to be used for the maintenance and upgrading of existing parking lots, institution of a shuttle service to and from outer parking lots, and the construction of new parking lots; and

BE IT FURTHER RESOLVED, That the Committee on Transportation and Campus Safety be charged with setting a priority list for scheduling projects.

RESOLUTION PASSED AS AMENDED (unanimous approval)
==========

WHEREAS, the value of degrees is determined by academic tradition rather than state law; and

WHEREAS, by academic tradition curriculum authority is vested in the faculty; and

WHEREAS, the existing 1985 Transfer Agreement was passed without faculty input; and

WHEREAS, said agreement has never been used by the UAF Office of the Registrar; and

WHEREAS, even were said policy valid, the new UAF Core Curriculum has created significant transfer problems; and

WHEREAS, the General Assembly Committee on Faculty and Academic Matters is insufficiently representative due to small size; and

WHEREAS, it is desirable to minimize such transfer of credit problems;

THEREFORE BE IT RESOLVED, That a faculty task force be created with representatives from all three academic units in the University of Alaska system, that the members of this task force shall be drawn from the representatives of the committee with authority over curriculum from each faculty governance body, that it include among others representatives from English and Mathematics on each campus, and that this task force shall develop a new transfer policy for lower-division general education credits within the University of Alaska system. It is desirable that non-voting representatives of the various Offices of the Registrar shall attend the task force sessions.

Passed unanimously by the Curriculum Affairs Committee of the UAF Faculty Senate 1/28/91 and submitted to the full Senate for ratification at the February 11th meeting.

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate endorse the following Staff Council's resolution on parking in response to the recommendations of the UAF Assembly Committee on Transportation and Campus Security.

BE IT RESOLVED, That the UAF Staff Council moves to endorse the UAF Assembly Committee on Transportation and Campus Security's recommendations included in the committee's letter dated October 16, 1990, with the following additional comments and recommendations:

1. The long term plan for the university is to have no parking at all in the core area with large parking areas surrounding the campus with ADEQUATE and EFFICIENT shuttle bus service to other campus sites and parking lots and heated warm-up stations in which people can wait for the shuttle bus or wait while their vehicle warms up. Therefore, the plan to expand present parking should follow the guidelines set forth in the Master Plan. This would mean looking at large numbers of parking spaces in surrounding lots.

2. Access to handicapped parking spaces should be improved with additional snow removal and sidewalk maintenance. Adequate handicapped parking near buildings should not preclude adequate shuttle bus service with lifts or designated parking spaces in lots surrounding the campus.

3. Under Ballaine/Taku IMMEDIATE NEED (number 2.), we recommend that pedestrian access to campus from that parking lot should be upgraded when the parking lot is expanded and improved.

4. Under Dead Storage IMMEDIATE NEED (number 3.), we recommend that the West Ridge dead storage area SHOULD NOT be one of the existing headbolt serviced parking lots.

5. Designate east and west end of campus so there is clarity when referring to areas on campus.

****

October 16, 1990
Committee on Transportation and Campus Security

This committee would like to go on record as saying that we believe there to be a major shortage of parking and have formulated a plan, both short and long term, to help ease the situation.

1. Nenana Lot (across from Patty Gym) IMMEDIATE NEED

We recommend that this lot be expanded and upgraded to include parking spaces with plug-ins for 1500 vehicles. We would also like this lot to be equipped with a lighted and heated warm-up shelter (complete with emergency phone).

The reasons for choosing this site for such a large lot are many:

a. The area is already cleared and soils samples were taken during a study done on this area by Gray, Rogers, Myers & Morgan on June 9, 1971. Plans are available from Facilities, Planning and Construction.

b. This lot is easily accessible and close to the main entrance to campus.

c. The location figures in to the Master Plan.

d. The area is on the current shuttle bus route.

e. Because of the study that has already been done on the lot and because of adequate drainage, this lot becomes the least expensive alternative for the amount of new parking gained.

2. Ballaine/Taku IMMEDIATE NEED

We recommend that this lot be expanded by 250 spaces. We would also like for the current lot to be upgraded, including regrading and repaving the existing paved area and paving of the area currently unimproved. This parking lot should also be equipped with a lighted and heated warm-up shelter that includes an emergency phone, and be added to the shuttle bus route.

The reasons for expanding and upgrading this lot include:

a. Transformers already exist in this lot and would, therefore, be less costly to power.

b. There currently exists unimproved parking in this area.

c. This area provides closer access to east campus and consequently relieves stress in the core area.

d. Additional unimproved lots could readily be created.

3. Dead Storage IMMEDIATE NEED

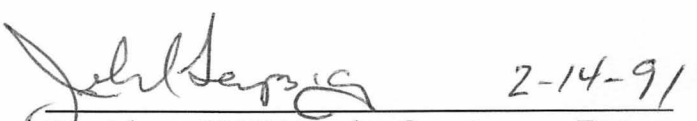
The current dead storage located near the power plant should be enlarged to double its current capacity. At the same time, another dead storage facility should be created on the West Ridge to accommodate the faculty, staff, and students in this area.

The justification for this action is:

a. The Physical Plant dead storage area needs to be expanded in order to house miscellaneous equipment and supplies currently occupying parking spaces around campus.

b. In both areas, occasional use University vehicles should be stored in dead storage. This will open up additional parking spaces.

c. A dead storage area on West Ridge would be more convenient for users on this end of campus, rather than using facilities on the other end of campus.



4. New Natural Sciences Building LONG TERM NEED

We would like for this building to include parking for 500 vehicles at the time of its occupancy.

5. Any Additional Building LONG TERM NEED

This committee feels that it is very important that any time a new building is to be built, adequate parking should be included in the plans at the outset. Historically, buildings have been built without adequate parking to accommodate all employees, students and visitors. It is either too costly or logistically impossible to rectify these situations once the buildings are built.

In summary, we have learned that parking is sorely lacking on this campus. We receive countless complaints and review many appeals to parking citations from faculty, staff, and students who have been cited because they parked illegally as a last resort. We believe the emphasis should be on peripheral parking and expect that if we make these parking areas safe, functional, and accessible by shuttle bus, we can encourage their frequent use.

EFFECTIVE: Immediately

12-14-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

MOTION PASSED AS AMENDED (unanimous aproval)
==========

The UAF Faculty Senate moves to endorse the following Operating Procedures for the UAF Governance Coordinating Commission which replaces the UAF Assembly.

UAF GOVERNANCE COORDINATING COMMISSION

PROCEDURES

ARTICLE I Name

Sect. 1. The name of this organization shall be the UAF Governance Coordinating Commission

ARTICLE II Purposes, Responsibilities, and Authority

Sect. 1 The purposes of the UAF Governance Coordinating Commission are:

A. The body will exist for the express purpose of coordinating unified action from the individual governance bodies and to establish conference committees to address issues of common concern.
B. Provide a mechanism of communication between the governance bodies.
C. Set up conference committees to consider issues affecting multiple constituencies. The committees will report to the UAF Governance Coordinating Commission and their respective governance bodies.
D. Appoint members to permanent committees ensuring that there is representation from each of the governance constituencies, exceptions will be made when agreed upon by all constituencies.
E. The body coordinates recommendations from the committee.
F. The body will recommend the academic calendar.

ARTICLE III Membership

Sect. 1 The UAF Governance Coordinating Commission will consist of the president and president-elect, or their designee, of the three governance bodies. In the case of ASUAF, the senate president will

serve on the UAF Governance Coordinating Commission. (For the purpose of identifying membership, the three governance bodies are the Associated Students of the University of Alaska Fairbanks, Faculty Senate, and Staff Council.)

ARTICLE IV Leadership

Sect. 1 The chairperson of the UAF Governance Coordinating Commission will be elected from its members for a one-year term. The election will occur at the last UAF Governance Coordinating Commission meeting of the academic year.

ARTICLE V Committees

Sect. 1 The conference committees of the UAF Governance Coordinating Commission shall include:

Academic Computer Users Committee
Budget Committee
Committee on Transportation and Campus Security
Intercollegiate Athletics Committee
Library and Information Technology Users Committee
Rural Affairs Committee
UAF Grievance Council

Sect. 2

A. Conference committees shall have at least one representative from each of the governance constituencies, exception will be made when agreed upon by all constituencies.
B. Terms of all conference committee members will be one year for students and two years for faculty and staff.
C. Committee chairs will be elected from and by the respective committees.
D. Committee chairs shall forward committee business to the UAF Governance Coordinating Commission for disposition.
E. Policy items from the conference committees must be forwarded to the individual governance bodies for action.
F. In addition to the committees' specific charges, the primary responsibility of the committees are formulation and oversight of university-wide policies under the purview of each committee.
G. Committees will meet at least monthly during the academic year.
H. The chairs of the conference committees will report recommendations at the monthly UAF Governance Coordinating Commission meetings.

Sect. 3 Conference Committees Charges

A. Academic Computer Users Committee

The charge of the Academic Computer Users Committee shall be to:

1. review and assess the academic computing needs of the University of Alaska Fairbanks.
2. plan towards improving the academic computer capabilities at the University of Alaska Fairbanks.

B. Budget Committee

The Charge of the UAF Budget Committee shall be:

1. follow and study the annual budget development, including methods of determining budget allocations among and within the Major Administrative Units of the University of Alaska.
2. conduct hearings on the UAF budget as deemed appropriate or necessary.

C. Committee on Transportation and Campus Security

The charge of the Committee on Transportation and Campus Security shall be to:

1. act as the reviewing authority of the Department of Security operations, including policy, practices, personnel, and public safety.
2. oversee transportation system policies at UAF; e.g. mass transit, parking and traffic.
3. serve as an appeals board, deciding appeals regarding motor vehicle citations and privileges

D. Intercollegiate Athletics Committee

The charge of the Intercollegiate Athletic Committee shall be to:

1. exercise oversight of the direction of the Intercollegiate Athletics Program.
2. investigate compliance with NCAA and conference regulations.
3. participate in the evaluation of intercollegiate programs

E. Library and Information Technologies Users Committee

The charge of the Library and Information Technologies Users Committee shall be to:

1. review Library and Media Services plans and acquisitions.
2. advise on the application of technological innovations for the Library/Media Services.

F. Rural Affairs

The charge of the Rural Affairs committee shall be to:

1. oversee the general welfare of the UAF community not residing on the Fairbanks campus.
2. monitor all activities affecting compliance with the Rural College mission statement of the University of Alaska Fairbanks.

G. UAF Grievance Council

The UAF Grievance Council will administer grievance procedures and make recommendations in compliance with University grievance policy and regulations.

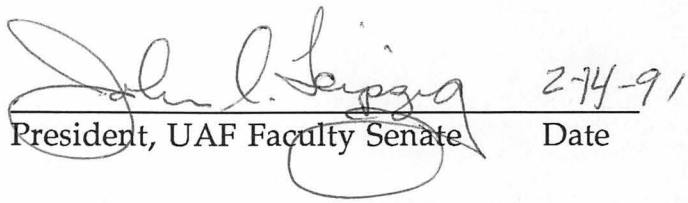
Sect. 3 Ad Hoc Committees may be established as demand warrants.

ARTICLE VI Meetings

Sect. 1 The UAF Governance Coordinating Commission will hold monthly meetings during the academic year.

ARTICLE VII Quorum

Sect. 1 A quorum will constitute at least one member from each of the governing bodies.



ARTICLE VIII Parliamentary Authority

Sect. 1 The parliamentary authority shall be the latest edition of Robert's Rules of Order.

ARTICLE IX Amendments

Sect. 1 Amendments to the Procedures require a two-thirds vote from each of the three governing bodies.

Sect. 2 Amendments to the Procedures shall be forwarded to the Chancellor's office for approval.

President, UAF Faculty Senate 2-14-91 Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate confirm the slate of candidates for President-Elect as follows:

John Lehman
Associate Professor
Business Administration

Tim Tilsworth
Professor
Civil Engineering

The election of the President-elect will occur during the March 18th, 1991 meeting with the designee beginning office at the start of New Business at the April 15th, 1991 meeting.

John Longo 2-14-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate establish an Ad Hoc committee to discuss faculty involvement in the selection of Deans/Directors and Vice-Chancellors.

EFFECTIVE: Immediately

RATIONALE: The faculty desire that policy reflect the formal degree of faculty involvement in the selection of Deans/ Directors and Vice-Chancellors.

2-14-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

RESOLUTION
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to refer action on PERS/TRS changes to the Legislative & Fiscal Affairs Committee.

2-14-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

RESOLUTION PASSED AS AMENDED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate recommend that any FY92 pay increase in excess of 3% be applied to the protection of real income as an across-the-board percentage increase to the base.

RATIONALE: In accordance with Regent's Policy we are exercising our collective judgement as to where this extra money should be spent.

2-14-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate refer the issue of Emeritus Status policy to the Faculty Affairs Committee.

John L. Sonntag 2-14-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #24 on February 11, 1991.

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate refer the issue of EEO/AA review officer to the Faculty Affairs Committee.

12-14-91

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #23 on December 17, 1990:

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate formally requests faculty input through their representatives to the chancellor search process.

RATIONALE: The faculty have a responsibility to input their concerns to the chancellor search process. Because this is a relatively new process for UAF, this resolution is intended to remind the faculty of their responsibility

12-20-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #23 on December 17, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to have the Administrative Committee fully represent and act in the stead of the Senate, until the next scheduled Senate meeting, in the matter of the Faculty Senate input into the Chancellor search.

RATIONALE: The time-line for the chancellor search process is such that the Chancellor Search Committee will need organized input from the Faculty Senate prior to that body's next meeting. The Administrative Committee has sufficient representation to effect the required input.

MEMORANDUM

TO: John Leipzig, President
Faculty Senate

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: January 8, 1991

RE: SENATE MOTION REVISING AAS DEGREE TO REQUIRE ALL CREDITS AT THE 100 LEVEL OR ABOVE

I have approved the senate motion requiring that all credits for the Associate in Applied Science degree be at the 100 level or above. After further research into this issue, I am convinced that this action will align the University with national practice. Attached is the policy statement on the Associate in Applied Science degree established by the *American Association of Community and Junior Colleges.* Please note Policy Statement #5 on the second page of the document. This statement clearly indicates that "Remedial and developmental work should be in addition to the collegiate level requirements of the degree program . . . " but suggests that such developmental or remedial work be taken concurrently with skill training. The statement seems unequivocal, but Linda Schon contacted a number of community colleges to ascertain their practices. We found no cases where developmental coursework counted toward the AAS degree in these community colleges. The respondents indicated that they were not aware of any such trend in postsecondary education.

It is important to realize that this is not an issue between the former community colleges and the University. Rather, we now bring our Associate in Applied Science degree in line with national practices of the *American Association of Community and Junior Colleges*. Please disseminate this information widely so no one misunderstands the issue.

I would also ask that you note Policy Statement #7 regarding the general education component and related studies section of the Associate in Applied Science degree. I am not sure if our current model embraces this policy statement but would suggest that it be reviewed with an eye toward assuring that it does.

The UAF Faculty Senate passed the following at its Meeting #23 on December 17, 1990:

MOTION PASSED (with 1 nay)
==========

The UAF Faculty Senate moves to add the following section to the UAF policy on Department Heads:

Section G - Acknowledgement for Department Head Duties

A Department Head's duties may be acknowledged through release time, remuneration, and/or their service component of their faculty duties. Any acknowledgement must be agreed upon between the Department Head and the Dean and must be consistent with UAF and Board of Regent's policies.

RATIONALE: The Faculty desire the practices by which Department Heads are acknowledged for their service to also appear in the document.

The UAF Faculty Senate passed the following at its Meeting #23 on December 17, 1990:

MOTION PASSED AS AMENDED (unanimous approval)
==========

The UAF Faculty Senate moves to endorse the following guidelines for Faculty Role in the Evaluation of Administrators

1. All faculty in a given administrative unit will have the opportunity to provide anonymous written input into the evaluation of their dean or director, associate dean or director, deputy director, and department head. In small units, interviews with individual faculty members may also be appropriate.

2. A representative sample of faculty will be asked to provide written input into the evaluation of the Vice Chancellor for Academic Affairs and the Vice Chancellor for Research. The Faculty Senate and its leadership will be included in this sample, as well as any ad hoc groups and individuals who have worked closely with the administrators during the time covered by the evaluation.

3. In each evaluation cycle, a uniform procedure will be used in all academic units to obtain faculty input.

4. The procedure for evaluation of the Chancellor is codified in Board of Regents' policy. The Faculty Senate urges the Regents and the President to consult with faculty as a crucial part of this evaluation.

5. The administrative characteristics that faculty will have the opportunity to comment upon will include at least the following:

   Administrative Tasks
   - Building and maintaining excellence
   - Resource allocation

   Leadership
   - Maintenance of strong faculty morale
   - Problem resolution
   - Delegation of duties to appropriate colleagues
   - Building a team
   - Providing a means to involve department heads and other faculty in decisionmaking

The UAF Faculty Senate passed the following at its Meeting #23 on December 17, 1990:

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to request that the Vice Chancellor for Academic Affairs begin the election of all Department Heads in accordance with the procedures recently approved in the UAF policy on Department Heads.

RATIONALE: This resolution specifically requests Department Head elections during the Spring Semester of 1991.

12-20-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #23 on December 17, 1990:

RESOLUTION PASSED AS AMENDED (unanimous approval)
==========

BE IT RESOLVED , That the UAF Faculty Senate renews its support for "a system of faculty awards to recognize significant accomplishment in teaching and/or research" by requesting that the Vice Chancellor for Academic Affairs and the Vice Chancellor for Research establish awards for distinguished teaching and research, with funding from their offices and following procedures developed by representative faculty committees.

RATIONALE:

1. On February 1, 1984, the Fairbanks Assembly approved unanimously a motion including this recommendation:
"A system of faculty awards shall be established to recognize significant accomplishment in teaching and/or research. Awards shall be given to 12 or 2% of the faculty, whichever is greater. Nominations may be made by any member of the UAF community to the Chancellor. Awards shall be granted by the Chancellor. (Recommendation #7)

2. In September, 1984, then Vice Chancellor for Academic Affairs William Phillips asked the Committee on the Evaluation of Teaching Effectiveness to prepare a proposal for a program of awards for teaching excellence at UAF.

3. In April, 1985, the Committee recommended an annual award for teaching excellence, and outlined a process to solicit nominations, evaluate nominees, and honor recipients.

4. Subsequent action by the Assembly and Chancellor in 1988 established a UAF merit awards program, in each school and college. This program does not satisfy the intent of the 1985 committee to make a small number of awards annually to distinguished UAF faculty in teaching and/or research.

5. UAF lacks an institution-wide focus on excellence in teaching and research, which will recognize the extraordinary contributions of our faculty while spurring continued creative efforts.

MOTION PASSED AS AMENDED (unanimous approval)
==========

The UAF Faculty Senate moves to accept the following Associate of Arts degree requirements:

ASSOCIATE OF ARTS REQUIREMENTS

The Associate of Arts degree represents the completion of broad-based college study. This degree may serve as a starting point for your career or as a stepping stone to a baccalaureate program. You may earn only one A.A. degree.

Distribution of Credits
All credit for the A.A. degree must be at the l00-level or above with 20 credit at the 200-level or above, and be distributed as follows:

Communication (9 credits):	Credits
English 111 and English 211, 212*, or 213	6
Speech 131 or 141	3
Mathematics and Natural Science (10 credits):	
Math 131 or a course in calculus (Math 162, 200, 201, 202, 272, or any math course having one of these as a prerequisite)	3
A 4-credit course, with laboratory, from approved natural science core courses	4
An additional 3 credits in either mathematics or natural science, with a "m" or "n" designation	3
Humanities and Social Science (18 Credits):	
The five lower-division courses in '"Perspectives on the Human Condition" (Individual and Society, Political Economy, Modem World History, World Literatures, and Aesthetic Appreciation)	15
An additional 3 credit in either humanities or the social sciences, with an "h" or "s" designation	3

(Two semester-length courses in a single non-English language taken at the university level may substitute for one of the required courses in "Perspectives on the Human Condition" and the three-credit elective.)

ORIGINAL

Library and Information Skills (0-1 credit):
Successful completion of library skills competency test, or LS 100, or LS 101 0-1

It is strongly recommended that this requirement be completed before enrolling in, or concurrently with 200-level English courses.

General Electives (22-23 credits):
Any combination of courses 22-23

Students planning to go on to the baccalaureate degree are advised to select courses meeting remaining core requirements, and courses designated within majors and minors.

Total Credits 60

Residency requirement: Fifteen of the last 30 credits must be taken in residence.

**English 212 does not fulfill the second half of the written communication requirement for the baccalaureate degree*

The Administrative Committee on behalf of the UAF Faculty Senate passed the following motion at a meeting on December 18, 1990. No objections were received during a review period which ended January 11, 1991.

MOTION
=======

The UAF Faculty Senate moves to amend the policy regarding effective date of degree requirements.

A student admitted to or transferring between an associate or baccalaureate degree program at UAF, regardless of major, may complete degree requirements that are in effect in any one of the academic years in which he/she is enrolled as a degree student. Only degree requirements in effect within seven academic years prior to the student's graduation date may be used.

RATIONALE: Currently student's are subject to requirements in the catalog of the year they graduate or the year they elect their major (1990-91 Catalog p. 25), thus students currently enrolled in a degree program who have not declared major's would fall under provisions of the new baccalaureate. core curriculum. Revision enables such students to graduate under existing degree requirements. It also clarifies for all student's the requirements that apply to them.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #22 on November 12, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to approve the following guidelines for writing intensive courses:

A. GENERAL GUIDELINES FOR 3-CREDIT COURSES WITH "W" DESIGNATOR

1. The lower-division writing sequence as specified in the Core Curriculum will be a prerequisite for all "W"- designated courses.

2. Instructors are encouraged to have students write an ungraded diagnostic composition on or near the first day of class to help assess writing ability and general competence in the discipline. [If diagnostic tests indicate that remedial work may be needed, teachers can set up specialized tutoring for their students with UAF Writing Center tutors.]

3. Teachers regularly evaluate students' writing and inform students of their progress. If a major written project (research project) is part of the course, the project should be supervised in stages. If possible, a writing activity should comprise a major portion of the final examination.

4. At least one personal conference should be devoted to the student's writing per term and drafts of papers should receive evaluation from the teacher and/or peers.

5. Written material should comprise a majority of the graded work in the course for it to be designated "intensive." "Written material" can consist of quizzes and exams with short answers or essay sections, journals, field notes, informal responses to reading or class lectures, structured essays, research projects, performance reviews, lab reports, or any forms suitable to the discipline being taught.

B. GUIDELINES FOR THE "W" DESIGNATOR IN TECHNICAL COURSES

1. In order to ensure that technical disciplines can meet the goals of the writing intensive requirements without compromising the technical quality of their courses, such disciplines may substitute longer courses or a series of courses (typically 1-credit labs) for each of the two necessary 3-credit writing intensive or "W"-designated courses. Courses meeting all the general guidelines will, of course, also be acceptable.

ORIGINAL

2. The longer course option allows the "W" designator for a 4- or 5-credit course in which written material comprises a portion of the grade equivalent to "a majority" of a 3-credit course. The course must also meet the other general guidelines.

3. The series option allows a student to replace one or both 3-credit "W" courses with a series of courses, each of which may be less than three credits--e.g., a series of 1-credit or 1-credit-equivalent laboratories. Each series, however, must sum to the equivalent of at least one 3-credit "W"-designated course. The initial course in the series will be designated "W1" and, while less than three credits, will fulfill all the other general requirements for a "W." The subsequent courses will base a majority of the grade on written material. Students must take the "W1" course before taking the other courses in the series.

** To grade a course on written work means to use the student's written work as the basis for his or her grade. Written work is graded mainly on content and organization, with tone, word choice, sentence structure, grammar, punctuation, and spelling accounting for a smaller fraction of the grade.

The UAF Faculty Senate moves to establish the following transfer guidelines for UAF core curriculum requirements:

TRANSFER GUIDELINES

The following table specifies courses completed at other institutions which may substitute for UAF's core curriculum requirements.

Table of Substitutions

Core Curriculum Courses	Courses which Transfer as
Math 131	a 100-level/above mathematics course
Math 162, 200, 201, 202, 272	a calculus course at the 100-level/above
English 111	The Required First Semester Freshman (100R) composition course at the 100-level. Must be Basic Freshman Composition & Not Developmental (100R)
English 211/213	the second half of the introductory composition series (requiring a research paper) at the 100-level or above
Speech 131/141	a 100-level/above course in fundamentals of oral communication which requires a formal presentation to an audience
Natural sciences, 8 credits	courses in a basic natural sciences--biology, chemistry, earth sciences, physics--with labs, at the 100-level/above
PERSPECTIVES ON THE HUMAN CONDITION	
Modern World History	a Western or non-Western civilization course covering a period of time from 1800 to the present at the 100-level or above
Political Economy	a lower-division course in political science or economics

ORIGINAL

Individual, Society & Culture	a foundation course in sociology, social/cultural anthropology, or social psychology, at the 100-level/above
World Literatures	a literature course taken at the 200-level/above
Aesthetic Appreciation	an appreciation course in art, drama, or music at the 100-level/above
Values and Choice	an upper division course in ethics

EFFECTIVE: Fall 1991
Upon Chancellor's Approval

RATIONALE: A simple system is needed to evaluate transfer credits, and to clarify equivalent meanings of core curriculum courses for UAF students transferring elsewhere.

JUSTIFICATION FOR CHANGE

Change in BA requirements is necessary in order to articulate this degree with the new baccalaureate core curriculum. Nineteen faculty members, representing departments offering the BA degree, met three times in May to develop a proposal. This was distributed to faculty in June. Based on comments from faculty throughout the university, the proposal was revised slightly and presented to a general meeting of some 60 faculty, held October 18th. There was consensus in support of the revision to degree requirements.

Humanities and Social Sciences:

Because sufficient breadth in humanities and social sciences instruction will be available in the "Perspective on the Human Condition," students should have the freedom to develop depth within one or two disciplines, or take courses from several disciplines based on interest.

Mathematics:

Logic has been removed from the mathematics requirement because Philosophy 204 is now taught as a course in critical thinking, instead of symbolic logic.

Minor/non-English language option:

Faculty continue to see value in the minor requirement. The consensus of faculty opinion is that study of a foreign or Alaska Native language should be encouraged strongly, but not required.

Minimum credits:

Because the core curriculum contains only one upper-division course, and because most students electing the foreign/Alaska Native language option would take lower-division courses, faculty believe the upper-division requirement should be reduced from 48 to 39 credits.

Double counting:

Current catalog language is unclear as to the circumstances under which double counting is permitted. The revision clarifies this point.

UNIVERSITY OF ALASKA FAIRBANKS
Fairbanks, Alaska 99775-0500

MEMORANDUM

TO: John Leipzig, President
Faculty Senate

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: November 29, 1990

RE: BACHELOR OF ARTS--GENERAL REQUIREMENTS

I have approved the attached motion regarding the Bachelor of Arts general degree requirements with two minor modifications. However, I do so with a degree of reluctance and reticence as it pertains to the lack of a requirement in a non-English language. On one hand, I believe very strongly that the world of tomorrow is going to require a greater level of foreign language proficiency. Therefore, our Bachelor of Arts degree should require such proficiency through at least the intermediate level. On the other hand, I strongly believe that curricular affairs is largely the purview of the faculty. Therefore, such consensus should prevail.

In approving the motion, I have leaned toward this latter value. The University of Alaska Fairbanks, however, is now among a minority of institutions which do not require a second language as part of their Bachelor of Arts degree programs. Only 38% of state universities do not have such a requirement--62% do. This 62% has grown dramatically over the past five years. Actually, it has almost doubled during that period of time indicating that the recent trend has been one which has leaned toward re-establishing such second language requirements. I assume you are aware of this information and that the debate has already taken place. Thus, I let the action stand on the principle I cited above.

Regarding the minor modifications, by specifically indicating under the *Humanities* that a non-English language could prevail, we encourage students to consider such an option within the *Humanities*. My modification does not change the 18 hour requirement but indicates to students that such an option could be used in fulfillment of the requirement. Thus, this will permit a student to still take a minor if he/she chooses.

I appreciate the efforts to clarify where coursework could be double counted, but in the process of clarifying it, we now state that coursework in the major, above 30 hours, may be used in fulfillment of the other requirements. I do not believe this is a good practice nor necessarily in accord with national standards. I have attempted to modify it further in order to clarify that those non-specific disciplinary courses, which may be required by a major complex, could be counted in fulfillment of the other requirements. For example, under psychology, *Sociology 101* and *Anthropology 242* (although specified by the department) could be used in fulfillment of other degree requirements because there are not specific psychology courses.

BE IT RESOLVED, That the UAF Faculty Senate moves to postpone action on the proposed revisions to the AAS degree requirements relating to sub-100 level courses until the BT degree requirements are considered.

11-14-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #22 on November 12, 1990:

RESOLUTION PASSED (w/ 3 nays, 1 abstension)
==========

BE IT RESOLVED, That it is the intent of the faculty of UAF to cooperate with the other University of Alaska institutions to meet the transfer of credit goals of the University of Alaska Board of Regents.

BE IT FURTHER RESOLVED, That the UAF faculty reaffirms the principle that decisions on degree requirements and other curricular matters are the right and responsibility of the UAF faculty.

RATIONALE: All UAF academic degrees are issued "upon recommendation of the faculty." Academic tradition and integrity dictate that it is the faculty who have the final word in setting degree requirements.

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #22 on November 12, 1990:

RESOLUTION PASSED AS AMENDED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to endorse the resolution relating to child care submitted by the General Assembly Executive Committee, with the amendments recommended by the UAF Assembly Ad Hoc Committee on Day Care and with the additional recommendation that the needs assessment study take into account the private sector's capacity to provide quality child care.

[ ] = Delete
CAPS = Add

RESOLUTION RELATING TO CHILD CARE:
==========

WHEREAS, Availability of affordable, convenient child care is a significant factor in students' ability to access educational opportunities; and

WHEREAS, Availability of affordable, convenient child care is a significant factor in the productivity and morale of faculty and staff; and

WHEREAS The University of Alaska, as a high profile public employer, should be in a leadership position in responding to the needs of its students and employees; and

WHEREAS, The University of Alaska, as an institution of higher education, should have a heightened social consciousness regarding the importance of early childhood care and education and the important relationship between family and work; and

WHEREAS, The availability of adequate child care is in short supply at every campus within the University of Alaska system;

THEREFORE BE IT RESOLVED, That the General Assembly of the University of Alaska ask the Board of Regents to consider [implementation of a policy statement similar to the following] ADOPTION OF A STATEMENT OF INTENT AS FOLLOWS:

> [It is the policy of the Board of Regents that each University conduct a regular Child Care Needs Assessment Study for each of its' campus sites for presentation and review by the Board. It is the intention of the Board of Regents that if child care needs exist on individual campuses, plans for new facilities or major renovations on the campus may include space allocation for appropriate child care facilities.]

[It is the policy of the Board of Regents that each University conduct a regular Child Care Needs Assessment Study for each of its' campus sites for presentation and review by the Board. It is the intention of the Board of Regents that if child care needs exist on individual campuses, plans for new facilities or major renovations on the campus may include space allocation for appropriate child care facilities.]

THE BOARD OF REGENTS DIRECTS EACH MAJOR ADMINISTRATIVE UNIT TO CONDUCT A CHILD CARE NEEDS ASSESSMENT STUDY WITH ASSISTANCE FROM REGIONAL INSTITUTIONAL RESEARCH AND FACILITIES, PLANNING, AND CONSTRUCTION OFFICES. THE RESULTS OF THE STUDY WILL BE COMPLETED IN TIME FOR CONSIDERATION AT THE APRIL 18-19, 1991* BOARD OF REGENTS MEETING. IT IS THE INTENTION OF THE BOARD OF REGENTS TO CONSIDER CHILD CARE NEEDS AT EACH MAJOR ADMINISTRATIVE UNIT AND TO CONSIDER PLANNING FOR NEW FACILITIES OR MAJOR RENOVATIONS OF EXISTING FACILITIES FOR HOUSING QUALITY CHILD CARE.

*amended per Ann Secrest, Chair
UAF Assembly Ad Hoc Committee on Day Care

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #22 on November 12, 1990:

RESOLUTION PASSED (unanimous approval)
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to endorse the following General Assembly action relating to salary enhancement:

"The General Assembly urgently requests that the Board of Regents seek increased funding from the legislature to increase compensation levels of university employees. Sufficient funding should be sought to make university salaries competitive on the open market and to preserve real income. This action is effective October 20,1990."

Rationale: Because of the 4-year salary freeze followed by two years of modest increases, university salaries are below market and have lost ground relative to inflation. As an example, the journal SCIENCE indicates that there will be a shortfall of 9,000 Ph.D's by the year 2000. Combined with the estimate that one-third of all present faculty members will retire during this ten year period, we are facing a period of increased challenges in recruiting new faculty members. The article also shows that 63 % of universities had difficulty recruiting their top candidates in 1990, up from 25% in 1987. In order to maintain quality teaching and research at the university into the next century, it is imperative that immediate steps be taken to keep salary levels fully competitive in this increasingly tight market. Further, the current inflation rate has reached 7% independently of increased fuel costs. The university must preserve the real income of its employees.

11-14-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #22 on November 12, 1990:

RESOLUTION PASSED (unanimous approval)

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #21 on October 15, 1990:

MOTION PASSED AS AMENDED (unanimous approval)
==========

The UAF Faculty Senate moves to establish the following policy defining the role and duties of the department head, and to establish the procedures for the election of department heads at the University of Alaska Fairbanks:

The following is a description of the role and duties of the department head, and procedures for the election of department heads at the University of Alaska Fairbanks. The size and composition of departments and programs are defined by each individual college and school.

I ROLE OF THE DEPARTMENT HEAD

A. The department head is the administrative and academic officer of the department and as such has the primary responsibility and authority for: (1) leadership in developing high quality academic programs which fulfill department, college, and university objectives; (2) leadership in the implementation of college and university policies and programs at the department level; (3) leadership in developing resource requests and an appropriate departmental budget; and (4) service on the college/school executive committee.

B. The department head is first a faculty member. The department head is primarily a teacher-scholar serving as a leader of his/her department colleagues. The department head is a role model for faculty responsibility.

C. The department head is responsible for providing mechanisms and processes for members' participation in discussion and decision making within the department. All members of the department should be informed of these mechanisms and processes. Regular meetings should be held for purposes of communicating information, discussing issues, and making decisions on department matters.

D. The department head is expected to communicate faculty perspectives and concerns to the administration and other segments of the community as appropriate. The department head is the primary spokesperson for the faculty of the department. The department head will also convey administration views and concerns to the faculty.

II DUTIES OF THE DEPARTMENT HEAD

The department head is responsible, either directly or by delegation, for performance of at least the specific duties enumerated below (the duties are not prioritized).

A. Academic Programs

1. Initiate, plan, oversee implementation of, and review the preparation and offering of the academic program, after appropriate involvement of members of the department and consultation with the dean.

2. Ensure interdepartmental coordination and cooperation.

3. Take leading role in ensuring academic program quality.

4. Ensure reports are prepared as needed. (A) ENSURE THAT COURSE SCHEDULES ARE PREPARED IN A TIMELY MANNER PJOR

5. Ensure catalog is current.

6. Supervise departmental office and ensure that files and records are maintained.

7. Keep the dean informed of departmental and faculty activities. Act as a liaison with the University community.

B. Personnel

1. Coordinate and evaluate professional activities of all members of the department, to include providing guidance to faculty concerning expectations regarding promotion and tenure. Provide periodic evaluation of faculty performance in accordance with UAF promotion and tenure policy. (B) REQUEST + OBTAIN FACULTY ACTIVITY REPORTS AS APPROPRIATE TO THIS PROCESS. PJOR

2. Provide recommendations for appointments, promotion, sabbatical leaves, tenure and release of faculty after consultation with members of the department.

3. Assign, with faculty consultation, workload in accordance with (C) PJOR UNIVERSITY, college/school policy.

4. Take lead role in departmental faculty and staff recruitment and retention.

5. Provide for the management and supervision of support staff.

6. Appoint appropriate committees within the department.

7. Facilitate support for faculty teaching and research activities. + service

8. Function as spokesperson and advocate for the department, both within and outside the University community.

C. Students

1. Administer the departmental student advisement program and counsel students.

2. Recruit students in cooperation with other members of the department and the dean.

3. Act on student petitions.

4. Provide for the management of student assistants.

5. Address student concerns as appropriate.

D. Budget, Inventory, Facilities, Etc.

1. Initiate resource and budget requests with justifications.

2. Maintain fiscal control of departmental budgets.

3. Serve as a voting member of the college/school budget/executive committee.

4. Ensure upkeep of equipment and facilities assigned to the department.

III ELECTION AND TERMS OF SERVICE OF THE DEPARTMENT HEAD

A. Departments Involved

The procedures will apply to every unit that is considered a department.

B. Eligibility to Vote

All full-time faculty members holding academic rank who are affiliated with the department are eligible to vote. Visiting faculty who are in an academic rank position are eligible to vote.

C. Eligibility to be Nominated and Serve as Department Head

Only tenured members of a department who are eligible to vote are eligible to be nominated and serve as department head. Only in exceptional circumstance, where the majority of the department faculty feel that options are severely limited, should there be deviation from this policy.

D. Procedures for Elections + RATIFICATION PROR

1. By March 15, those faculty in the department who are eligible to vote will establish a list of nominees for department head. The names of the nominees will be placed on an official secret ballot for the department and distributed from the dean's office to those faculty eligible to vote.

2. Faculty members eligible to vote but who are absent because of sabbatical leave, leave of absence, or for other official reasons will be provided with an absentee ballot.

3. Secret ballots are to be cast and. the person receiving a simple majority of the votes cast will be elected. In the case of a tie which cannot be resolved by the voters, the dean shall select the department head from those faculty involved in the tie vote.

4. If no nominee receives a simple majority of the votes, a run-off election of the top two nominees shall be held immediately under the same procedures outlined above. The deadline for accepting ballots for the run-off election will be the last working day prior to April 15.

5. If ratified by the Dean, PPOR Official appointment of the elected department head will be made by the dean by May 15 PPOR

E. Term of Elected Department Head

A department head shall serve for a term of two years, beginning July 1, following his/her election. The department head may continue in the position indefinitely by a simple majority of the voting faculty of the department, ~~subject to~~ and the ratification of the Dean. PPOR

F. Non Ratification of Election, Grievance, Vacancies, Recall

1. In the event a dean does not ratify the department's election of a department head, the dean shall discuss the reasons in writing with the department and hold another election no later than May 1. In the event an impasse develops, final authority to appoint an acting department head for one year shall rest with the Vice Chancellor for Academic Affairs.

2. If an action of the department head is appealed by a simple majority of the eligible voting members of the department and the issue cannot be resolved within the department, the matter shall be referred to the dean for arbitration. If necessary, the dean will refer

the matter to the Vice Chancellor for Academic Affairs. (See Section F.5. for recall procedure.)

3. If the department head's position becomes vacant due to unexpected prolonged leave, illness, death, or other ~~emergency~~ circumstances, the dean shall appoint a department faculty member to act as department head. An election to fill this position will be held the following April 15.

4. The department head shall appoint an acting department head whenever their absence from the department is for a period of less than two months. If this absence extends beyond two months, the procedure defined in Section F.3. above is to be followed.

5. Election of a new department head may be requested by petition to the dean signed by three-quarters of the eligible voting members of the department. After the election, the new department head will take office immediately and serve the unexpired term.

G. Compensation

Department heads' compensation will be based upon a number of factors which include length of the department head's faculty appointment, size of the department, and the complexity of its program. In recognition of the amount of time required to perform in the service component, release time at a minimum of one course per semester, as well as a minimum of one month's additional salary, shall be provided as compensation for all department heads. In cases of larger departments or extraordinary workload, additional compensation may be necessary.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: The University has evolved considerably since the last policy and procedures for department heads was promulgated in 1971. That evolution has evidenced a need for certain amplification and clarification of the original document. In addition, a change in perspective of the document, more in consonance with the concept of faculty governance, was needed.

10-16-90

President, UAF Faculty Senate Date

APPROVED: _____ DATE _____
Chancellor's Office

DISAPPROVED: _____ DATE _____
Chancellor's Office

APPROVED WITH MODIFICATION(S) INDICATED: Patrick J. Rourke DATE 11/15/90
Chancellor's Office

A. Indicates Responsibility for Course Scheduling
B. Establishes dep't. heads responsibility + authority for obtaining these reports. This has been an issue with some faculty in the past
C. Workload must also be in accordance with University policy.
D. Clarifies that there is notification required by the dean.
E. Most frequent cause of vacancy is resignation
F. Again clarifies the notification process + Allows Dean to initiate removal, if necessary.
G. Allows 2 additional weeks for department + Dean to work out differences, should they occur.

H. Deleted this section for the following reasons:
1. Compensation policies are set by the Board of Regents on a statewide basis. Thus, such a policy requiring dollars rather than release time would have an impact on UA + UAS as well. Such a policy should be advanced through the General Assembly.
2. There is a monetary impact caused by this section which UAF could not meet. An estimate approximately $387.0. would be required for implementation.
3. Two course releases per year plus one month's salary is excessive for some + small departments.
4. Requirements for paying additional salary limits future flexibility for departmental configurations due to financial considerations.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #21 on October 15, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to approve the following guidelines for oral communication intensive courses:

1. GENERAL GUIDELINES:

   a A minimum of 15% of the final course grade should be based on effectiveness of oral communication. This minimum is proposed so that a student's failure to attend to the oral communication aspects of his or her work in an "O" designated course will have an important effect on his or her final grade for the course, while at the same time not overshadowing the importance of subject matter mastery.

   b. Attention to oral communication in "O" designated courses must be developmental, in that students need the opportunity (i) to receive intermediate instructor assistance in developing presentational competency, (ii) to utilize their communication competency across the span of the semester, not just in a final project, and (iii) to receive instructor feedback on the success of their efforts at each stage.

   c. Exceptions to these guidelines may be made by the ~~CLA~~ Curriculum ~~Council~~ because of unique circumstances in individual departments.

2. SPECIFIC GUIDELINES FOR "O" DESIGNATED COURSES EMPHASIZING ORAL COMMUNICATION IN PUBLIC CONTEXTS:

   a. Each student must be involved in the individual preparation and delivery of at least 3 course related presentations of at least 5 minutes duration each, to an audience of at least 12 persons. **

   b. At least one presentation must involve questions from the audience and responses by the presenter.

   c. All presentations must have a clear introduction-body-conclusion organization, appropriate to the discipline.

   d. All presentations should receive evaluation by the instructor on oral communication competency (including responsiveness to audience questions), as well as on subject mastery.

e. Students must receive, as part of the course structure, information/instruction on effective speaking, on organization of material for effective presentation, and on development and use of media and visual aids.

3. SPECIFIC GUIDELINES FOR "O" DESIGNATED COURSES EMPHASIZING ORAL COMMUNICATION IN GROUP CONTEXTS:

a. Each student must be involved in at least one ongoing group project or team of 5 to 8 members, with the group spanning 4 to 7 weeks duration. Group projects must be a coordinated, integrated effort by the group members, not simply 5 to 8 individual projects put together.

b. Each student must present both an intermediate and a final presentation on an aspect of the group's work during the span of the project or team.

c. Both presentations must be at least 5 minutes in length, must be given to an audience (e.g., the rest of the class), must be integrated with the presentation of the other group members, and must include additional time for a question and answer period.

d. Each presentation should receive evaluation by the instructor on oral communication competency, as well as on subject mastery. In addition, the instructor should evaluate the degree of coherence in the overall presentation of the entire group. Students should receive both an individual and group grade for the presentation.

e. Students must receive, as part of the course structure, information/instruction on how groups function most effectively, on organization of material for effective presentation, and on development and use of media and visual aids.

4. SPECIFIC GUIDELINES FOR "O" DESIGNATED COURSES EMPHASIZING ORAL COMMUNICATION IN TECHNICAL PRESENTATION CONTEXTS:

a. Each student must be involved in the preparation and delivery either of 2 or more course related presentations of at least 20 minutes duration each or of 3 or more presentations of at least 10 minutes duration each. It is highly desirable and strongly encouraged for the benefit of the student that one of the presentations be to an audience of 12 or more. The remaining presentations need to be to an audience of 5 or more. It is also desirable that the presentation to the larger group be given in a large auditorium and involve the use of a public address system.

b. All presentations must involve question and answer interaction with at least one assigned respondent, with questions by other audience members encouraged.

c. In a course with 3 presentations, it is highly desirable that one of the three presentations be video-taped, either in or outside of class. Such video taped presentations need to involve at least the presenter and the respondent, and must be viewed by these individuals with the instructor present to provide feedback on oral communication effectiveness in the presentation and response.

d. For individual presentations that relate to a common theme or project, it is highly desirable that the presentations be organized in a panel format, with a student moderator.

e. All presentations must have a clear introduction-body-conclusion organization, appropriate to the discipline.

f. At least one presentation must involve the development and use of appropriate visual aids, and it is desirable that all presentations do so.

g. All presentations should receive evaluation by the instructor on oral communication competency (including responsiveness to audience questions), as well as on subject mastery.

h. Students must receive, as part of the course structure, information/instruction on effective speaking, effective responding, organization of material for effective presentation, and on development and use of media and visual aids. If thematic panels are used, students should also receive instruction on panel/symposium and moderator techniques.

** Research in Speech Communication, as well as in Social Psychology, shows that in interaction with groups smaller than 10-11 persons, communicators are able to keep track of others as individual persons and to adjust their communication efforts accordingly, much as they do when interacting with only one or two others. In groups of 10-11 or more individuals, this ability rapidly diminishes, so that 12 persons is a recognized minimum audience for developing the competencies needed in public communication contexts, as opposed to those required in small group communication contexts.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: This motion will place into policy the course guidelines necessary to meet the oral intensive requirements for the core.

A. NAME OF PERSON PREPARING REQUEST

Anne Shinkwin, Dean, College of Liberal Arts; Claus-M. Naske, Head, History Department; Judith Kleinfeld, Northern Studies Program

B. BRIEF STATEMENT OF THE PROPOSED PROGRAM AND ITS OBJECTIVES

The proposed Master of Arts in Northern Studies will provide graduate academic study of northern policy issues and the cultural, historical, economic, and political contexts of the circumpolar north. This graduate program will enable students who live and work in the North to benefit from the extensive northern expertise and research activities of UAF faculty in the social sciences and humanities; the rich Alaska and circumpolar collections of the UAF library and museum; and the ease of access to northern field sites created by the geographical location of the campus. The Northern Studies graduate program will stimulate scholarship and research in the underdeveloped field of Arctic social science and enable the University of Alaska Fairbanks to achieve the world class stature in the social sciences that it has already achieved in the natural sciences. The program will also provide public service to both agencies and businesses in the North through special workshops and seminars which offer both public and private sector personnel a greater understanding of the problems, policy issues, and opportunities of the Circumpolar North.

The Master of Arts in Northern Studies is a 30-credit interdisciplinary degree program which brings together the disciplines and fields of economics, history, anthropology, psychology, political science, justice, geography, and the humanities in the study of the Circumpolar North. Northern scholars in each of these areas will offer one or more graduate courses which have been developed especially for this graduate program. This interdisciplinary program will be focused and integrated through two required introductory seminars which offer 1) a broad survey of the Circumpolar North and major problem areas and policy issues 2) and introduction to social research methods and bibliographic sources important to the study of the North. Students will select four additional courses from the graduate level social sciences and humanities courses which will comprise the Northern Studies core. Students will also be able to select two or more additional courses from the Northern Studies core, northern languages, or other courses relevant to their professional specialties. A thesis or project will provide students with the opportunity either to do original research on a northern issue or to apply existing knowledge of the Circumpolar North to a problem in their professional fields.

Exploratory student surveys indicate strong demand for Northern Studies graduate courses and for a full Master's program. While many students in such fields as history, political science and geography want to pursue graduate studies focused on the Circumpolar North, the University of Alaska Fairbanks currently offers no graduate degrees in these disciplines.

The Northern Studies program will draw a diverse and distinctive group of graduate students who are committed to the North and who will shape its future. This Master's degree is a classic area studies program which offers a regional specialization to students who want to supplement a traditional disciplinary or professional degree with a deeper understanding of the northern context in which they will apply their specialized skills. In addition to traditional graduate students, the Northern Studies Master's program will attract mid-career professionals who are already engaged in work in a northern environment and who are seeking a broader perspective on immediate problem issues. The Northern Studies program will attract teachers who are teaching Alaska Studies or who want to make such subjects as history and geography more interesting and relevant to Alaska students. The program will attract the large and growing number of commissioned officers at Ft. Wainwright and Eielson Air Force Base who are seeking a Master's degree appropriate to their responsibilities to maintain military preparedness in the Circumpolar North. Specific course offerings, such as a proposed special topics course on the Soviet North, will be of great interest to private and public sector personnel in organizations increasing their relationships with the Soviet Union. The Northern Studies program will also draw graduate students in the social sciences and humanities from other universities in the Circumpolar Studies Network, such as McGill and the University of Copenhagen, who presently do not come to the University of Alaska Fairbanks due to the lack of an appropriate graduate program.

The Northern Studies graduate program will also provide important support to other graduate programs at the University of Alaska Fairbanks. Faculty in scientific and technical graduate programs emphasize that their students are well-prepared in their professional specialty but find themselves unprepared for the political and cultural problems they face when they begin work. The Northern Studies program will especially support the graduate program in Natural Resources Management where a recent curriculum review identified a major need for coursework on northern social and economic issues.

The University of Alaska Fairbanks has the opportunity to attain international stature in Northern Studies. No other Alaska institution offers a graduate program in Northern Studies. A few universities, such as the Scott Polar Research Institute in Cambridge, England and Carleton University in Canada, do offer interdisciplinary Northern Studies programs, but these programs are extremely small. The University of Alaska Fairbanks enjoys cooperative relationships with some of these programs and is establishing such relationships with others. With its large group of northern scholars from various disciplines, its potentially large group of graduate students, it geographic location in the North and its extensive library and museum resources, the University of Alaska Fairbanks has a rare opportunity to create a Northern Studies Program of great strength.

The College of Liberal Arts respectfully requests approval of the M.A. in Northern Studies outlined in the appended proposal.

11. IDENTIFICATION OF THE PROGRAM

A. DESCRIPTION OF THE PROGRAM

Program Title: Masters of Arts in Northern Studies

The proposed Master of Arts in Northern Studies is an interdisciplinary degree which brings to bear the disciplines and fields of economics, history, political science, anthropology, psychology, justice, geography, and the humanities on the study of the problems and policy issues of the Circumpolar North. It is a classic area studies degree analogous to such established area studies programs as Latin American Studies, Middle Eastern Studies, or Soviet Studies. Such programs typically bring together scholars from diverse disciplines who share an interest in a regional context. The programs generally share the goals of producing experts who have a broad knowledge of the region and a subtle and nuanced understanding of its problems and cultures. Area studies programs seek to create "problem-communities" of scholars who approach problems and policy issues either from an interdisciplinary perspective or--more commonly-- from their own disciplines but with the enriched perspective that comes from close contact with the intellectual paradigms and methods of scholars in other disciplines.

The proposed Northern Studies program focuses on the Circumpolar North. It is essential to point out, however, that "northern" studies is a conceptual construct which is intended to draw together related problems and issues; "northern" is not a limiting geographic boundary. The problems of northern regions may be illuminated, for example, by analytic comparisons with similar problems in other sparsely populated, remote, culturally diverse regions which are not in the North. As Klitgaard (1981:137) points out in an excellent review of area studies programs, scholars are increasingly emphasizing the need "to move beyond the interdisciplinary and regional hopes of the past, toward problem oriented and theoretical/comparative research that would involve other regions of the world."

In defining the geographic areas encompassed by the "North" for the purposes of defining the scope of the Northern Studies graduate program, we will follow the broad and inclusive definition of the "Arctic" proposed by the Committee on Arctic Social Sciences of the Polar Research Board (1989:8):

> ...the committee has deliberately transcended the geographic boundaries of the Arctic as defined in the U.S. Arctic Research and Policy Act of 1984. The committee has considered northern regions more generically since social systems are not delimited by permafrost, the tree-line, or any other specific environmental factor. Public policy research in the Arctic involves political divisions whose geographic areas extend south to include the subarctic and in some cases even more temperate zones. In general, the political units...are those that border on the Arctic Ocean, including the United States (Alaska), Canada (Yukon Territory, North-

west Territories, northern Quebec, Labrador) Greenland, Norway, Sweden, Finland, the Soviet North, and the Soviet Far East.

In short, the Northern Studies Master's program will take a broad perspective on the geographic scope of the North and will make whatever analytic comparisons with other regions are necessary to illuminate central northern problems and policy issues. Examples of such issues are the survival and well-being of indigenous peoples; resource development and environmental protection; successful and unsuccessful adaptations of northern immigrants; the economic dependency of northern communities and their narrow resource base; the psychological and social importance of the North to people outside the region; the geopolitics of the North and its strategic importance; to mention but a few.

The Northern Studies program is at the Master's level because of the policy emphasis of the program and the importance of bringing together graduate students from diverse professional backgrounds who have some professional experience with northern problems and a more mature understanding of the complexities of policy issues. The University of Alaska Fairbanks currently offers an undergraduate major in Northern Studies, which is often taken as a double major along with a disciplinary major. The undergraduate Northern Studies major, however, consists almost entirely of existing courses in such disciplines as anthropology, history, and geography and does not have the policy focus or the emphasis on research and the application of existing knowledge to policy problems central to the proposed graduate program.

We emphasize that the graduate program in Northern Studies is not an amalgamation of existing courses. The Northern Studies program consists primarily of new courses, which are integrated and complementary, and have been carefully and specifically designed by UAF faculty specifically for the Master of Arts in Northern Studies. These courses have been developed through a series of faculty discussions concerning the appropriate content and emphases for a Northern Studies graduate program, and these discussions will continue in order to maintain program focus and integration.

In designing the Northern Studies program we have been mindful of Bennet's (1951:8) caution in his critical analysis of area studies programs in American universities: "Effective area training must consist of more than a series of courses which happen to deal with a single region if the offerings are to constitute more than a paper program." The proposed Northern Studies graduate program will use several of the techniques Bennet recommends for achieving program depth and integration: a central introductory course in which many faculty and the whole student group participate, advanced seminars concentrating on research problems, a combination of the humanities and the social sciences in program design, and the inclusion of international students whose personal experiences greatly contribute to the understanding of the region.

Integration and relevance of the Northern Studies program will further be achieved by creating a council of faculty who participate in the Northern Studies program and meet regularly to review courses and discuss program directions.

1. ADMISSIONS REQUIREMENTS

The Northern Studies Master's program follows general university requirements for admission to graduate study--a Bachelor's degree from an accredited institution with at least a 3.0 (B) average in the major. A statement of goals and three letters of recommendation are also required.

International students will be actively recruited, especially students from other circumpolar nations. UAF requirements for admission of foreign students will be followed, including the requirement for a score of 550 or above on the TOEFL.

Our preliminary surveys indicate heavier student demand for the program than our faculty can accommodate. The Northern Studies program will establish a faculty council, comprised of all faculty teaching graduate courses in the program and other faculty with a strong interest in the program. The faculty council of the Northern Studies program will establish other selection standards, such as commitment to the North, capacity for original research, and ability to pursue research with faculty, among other criteria, and will establish priorities for student admission.

2. COURSE DESCRIPTIONS

The Northern Studies Master's Program will offer eleven new courses drawn from different departments in the College of Liberal Arts (CLA), from the economics department of the School of Management, and from the Psychology Department in the Rural College (proposals attached.) Students will also be able to select elective courses from existing university courses.

Students will be especially encouraged to study a northern language, taking advantage of the unique instruction offered by the University of Alaska Fairbanks in indigenous Native languages (Yup'ik, Inupiaq, Athabaskan) and in the languages spoken in other northern countries (Russian, Danish, and French). A northern language may be required as part of the Graduate Study Plan.

The courses accompanying this proposal represent the essential core of a Northern Studies Master's program in the social sciences and humanities. As the program develops, the College of Liberal Arts will supplement these courses with additional offerings which are not included in the present proposal. As an example, Professor Richard Pierce, an internationally known scholar specializing in the history of the Russian American period, has offered to teach advanced courses in Russian American as the number of graduate students in Northern Studies increases. Dr. Carol Gold has expressed interest in teaching courses related to her Scandinavian scholarship. Dr. Kolf Jayaweera, Dean of the College of Natural Sciences, has offered to support one or two scientific courses in Northern Studies designed to have broad appeal to students drawn from the social

Northern Studies Master's Program — Three Year Instruction Cycle

Course Number	Course Title	No. Cr. Hrs	Contract Hrs	GIVEN	Est. No. Stu.	1991-1992 Fall	1991-1992 Spring	1992-1993 Fall	1992-1993 Spring	1993-1994 Fall	1993-1994 Spring	Responsible Faculty

NS 693	Special Topics: Soviet North Today	3				X						Fischer
NS 698/699	Project/Thesis	6-12				X	X	X	X	X	X	Northern Studies Program Coord.

sciences, humanities, and natural sciences.

The College of Liberal Arts will also offer special topics courses in areas of current interest or which take advantage of the expertise of visiting faculty from other northern regions. During the 1990-91 year, Professor Victor Fischer, the University of Alaska's Director of Soviet Relations, has offered to teach a special topics course on the Soviet North ("The Soviet North Today"--appended) which will feature experts from the Soviet Union who are visiting Alaska.

The College of Liberal Arts has also developed a cooperative relationship in Northern Studies with the Institute of Social and Economic Research (ISER) at the School of Public Affairs, University of Alaska Anchorage (see attached letter of support.) This agreement enables the College of Liberal Arts to draw upon ISER faculty with special expertise in issues of northern economics and public policy analysis for course offerings and for northern studies graduate students to use the resources of the Arctic Environmental Information and Data Center in Anchorage. The School of Public Affairs in Anchorage does not offer a northern studies program and the proposed UAF program, as we later discuss, does not in any way duplicate UAA's Master's in Public Administration.

From time to time, CLA will offer seminars or special lectures in northern problem and policy areas available both to traditional graduate students and to personnel in public agencies or in the private sector. As will be later discussed in this proposal, several agencies and major businesses in the North--such as the Department of Commerce and Economic Development, Alaska Airlines, Alyeska, and Alascom--have expressed considerable interest in seminars and other special programs on northern policy issues.

Northern Studies graduate students will be able to enroll in courses in other universities in the Circumpolar Studies Network, a consortium of UAF, McGIll University, the University of Copenhagen and other affiliated institutions in Denmark and Greenland. UAF is currently developing student exchange programs with universities in the Soviet Union and these exchange opportunities will also be available to Northern Studies graduate students. Considerable emphasis will also be placed on a) faculty exchanges with other northern universities, b) recruiting international students from other countries in the Circumpolar North and c) attracting northern indigenous people. for example, Dr. Michael Krauss, Director of the Alaska Native Language Center, is interested in the proposed Northern Studies program as a potential graduate program for Native students with expertise in indigenous languages who might work with the Alaska Native Language Center.

As we developed this proposal, the inclusion of a natural science emphasis became a recurrent concern. The first draft of the present proposal did not include this emphasis. When this first draft was sent to outside reviewers (please refer to attached letters), the issue was brought up. Northern Studies faculty met with the Program Review subcommittee of the Graduate Council on April 6, 1990 and reviewed this issue. We identified three options:

1) adding an additional science course to the Northern Studies requirements

2) requiring Northern Studies students to select a northern science course from existing UAF scientific offerings.

3) adding substantial scientific content to two courses: the required introductory course, Northern Studies 600, Perspectives on the North, and the core course Northern Studies 637, Geography of Northern Development.

After considerable discussion, members of the Program Review subcommittee and Northern Studies faculty reached the consensus that the third option was preferable. To add an additional science course to Northern Studies requirements (a "northern science course for non-scientists") was not viewed as an efficient use of UAF scientific resources. Further, its breadth would make it likely that the course would degenerate into a series of guest lectures. To require Northern Studies students to take an existing northern studies course was not seen as a practical alternative because many students would not have the scientific background required for graduate scientific study. Students who do have such background, however, will be urged to take advantage of UAF graduate level northern scientific offerings.

The third option, integrating scientific content into both the basic required course and a course within the Northern Studies core, has the advantage of creating a strong conceptual link between the natural and social science content and thus strengthening the interdisciplinary nature of the program. The present proposal, currently undergoing Graduate Council review, has been re-written in accordance with this approach and the course outlines of NS 600 and NS 637 have been substantially altered to include natural science content.

3. REQUIREMENTS FOR THE DEGREE

The Master of Arts in Northern Studies is a 30-credit degree program requiring a project or a thesis. At least 18 credits of coursework and 6 credits of project/thesis must be at the graduate level. Candidates must pass a comprehensive written examination which demonstrates broad knowledge of the northern context and the ability to analyze northern problems and policy issues with subtlety and depth.

Students must enroll in the required two introductory seminars:

Northern Studies 600	Perspectives on the North	3 credits
Northern Studies 601	Research Methods and Sources in the North	3 credits

Students must choose four courses from the following nine courses in the Northern Studies program core:

Northern Studies 610	Northern Indigenous People and Contemporary Issues.....3 credits
Northern Studies 615	Human Adaptation to the Circumpolar North.....3 credits
Northern Studies 620	Images of the North.....3 credits
Northern Studies 630	Economic Issues of the Circumpolar North.....3 credits
Northern Studies 637	Geography of Northern Development.....3 credits
Northern Studies 650	Comparative Government and Politics in the Circumpolar North.....3 credits
Northern Studies 651	Justice and Social Control in the Circumpolar North.....3 credits
Northern Studies 652	International Relations of the North..3 credits
Northern Studies 690	Researching and Writing Public Northern History.....3 credits

In addition to the four required courses from the Northern Studies core, students will choose two additional electives with the approval of the graduate advisory committee. Substantive courses on northern history (e.g. Twentieth Century Circumpolar History HIST 384; Polar Exploration and its Literature HIST 380) and in the Humanities (e.g. Literature Alaska and the Yukon Territory ENGL 350; Contemporary Native American Literature ENGL 340) are already available on the undergraduate level, and Master's students may incorporate up to six hours of undergraduate courses in their graduate programs. Students might also choose two additional electives from the Northern Studies core or from courses related to their professional specialties. Northern scientific courses, as previously explained, will be strongly recommended as electives.

Depending on the goals of the student, a specific foreign language and/or research tool may be required. If a person is doing research involving Scandinavian or Alaska Native cultures, then a language competency will be built in. If foreign language competency relevant to the student's topic is required, this requirement will become part of the Graduate Study Plan with competency determined by the Department of Foreign Languages and Literature. In order to conduct significant research, it may be necessary for the student to be familiar with one or more of the following languages: Russian, Danish, French, and Native languages such as Yup'ik and Inupiaq.

Each student's graduate advisory committee will be interdisciplinary and drawn from northern specialists at UAF who may or may not be teaching in the Northern Studies program. At least one member of the graduate advisory committee will represent the discipline most closely associated with the candidate's project

or thesis area.

Candidates for a Master's degree in Northern Studies must also complete a project or thesis:

Northern Studies 698 Project OR.....6 credits
Northern Studies 699 Thesis.....6-12 credits

A substantial project or thesis is expected. Such projects or thesis will draw from interdisciplinary sources. We expect that northern policy issues, analyzed from a variety of disciplinary perspectives, will be major subjects of Northern Studies masters projects.

Students will be required to make a public presentation of their thesis or project work in a special seminar. In addition, Northern Studies faculty will, if funds permit, publish students' master's thesis in a "Northern Policy Issues" paper series, sponsored by the Northern Studies program.

Occasionally, Special Topics courses will be offered. For example, in the 1991-92 year we will be offering:

Northern Studies 693 Soviet North Today.....3 credits

Sample MA Program in Northern Studies

A sample course of study for the Master of Arts in Northern Studies might consist of:

Northern Studies 600	Perspectives on the North	3 credits
Northern Studies 601	Research Methods and Sources in the North	3 credits
Northern Studies 610	Northern Indigenous Peoples and Contemporary Issues	3 credits
Northern Studies 615	Human Adaptation to the Circumpolar North	3 credits
Northern Studies 620	Images of the North	3 credits
Northern Studies 637	Geography of Northern Development	3 credits
Northern Studies 693	Soviet North Today	3 credits
Psychology 620	Treatment of Drug and Alcohol Dependency	3 credits
Northern Studies 699	Thesis Topic: A Comparison of Policies Toward Alcoholism Prevention and Treatment in Alaska and Novosibirsk, USSR	6 credits

Three Year Cycle of Course Offerings

The graduate program will be offered on a two-year cycle to use scarce resources most effectively. Thus, a minimum of seven graduate courses in Northern Studies would be offered each academic year. Courses will be offered more frequently if resources permit. This cycle of course offerings enables Northern Studies graduate students to maintain full time graduate student status (9 credits per semester) during the two years necessary to complete the Northern Studies degree. In exceptional cases, a student would be able to complete the Northern Studies degree in an academic year and a summer.

B. PROGRAM GOALS

The goals of the Northern Studies Program are:

Teaching

1. To develop knowledge of the physical features, populations, history, political and institutional structures, and social and cultural environments of circumpolar northern regions.

2. To develop the capacity to identify and analyze with subtlety and depth the central problems and policy issues confronting circumpolar northern regions and to place local problems and policy issues within a larger conceptual and analytic framework.

3. To develop the ability to identify alternative policy choices and different strategies relevant to recurring northern problems and to assess possible short and long term effects.

Research

4. To increase the amount and quality of research in the Arctic social sciences and humanities.

5. To create communities of scholars and graduate students interested in the central human problems of the Circumpolar North.

Public Service

6. To make a graduate program available to personnel in northern agencies and businesses and to interested citizens who live and work in the North; seminars, workshops, and short courses on northern issues of broad interest and policy significance will also be offered as part of the program.

7. To bring to the university community and to Alaska the experience and perspectives of scholars and students from other areas of the Circumpolar North.

We will evaluate the achievement of these goals through a) the number of students attracted to the Master's program and to its course offerings, b) the number of students retained in the program, c) the number and quality of research projects and publications linked to faculty work in the Northern Studies program, d) the availability of special workshops provided to the public and private sectors on northern issues, and d) the number of faculty and students from other northern countries brought to UAF through the Northern Studies program.

2. RELATIONSHIP OF PROGRAM OBJECTIVES TO "PURPOSES OF THE UNIVERSITY"

The proposed Master of Arts program in Northern Studies is highly relevant to the central purposes of the University of Alaska Fairbanks. As Luis Proenza, Vice Chancellor for Research and Dean of the Graduate School, points out in his introductory letter in the University of Alaska Fairbanks 1988-90 Graduate Catalog:

> We are an exceptional institution in areas related to our unique location. The expertise of our scientists and scholars is anchored along the northern edge of the Pacific Rim and extends around the Circumpolar North. We serve not only as the University for Alaska but also as the Arctic institution for the United States and as America's "University of the North."

The mission statement of the University of Alaska Fairbanks emphasizes the importance of programs centered on the study of the Circumpolar North: "The University seeks to use its particular location in the North as a natural laboratory for the study of questions and issues, whose solutions are not only applicable to Alaskan problems but to a broader understanding of our global community."

111. PERSONNEL DIRECTLY INVOLVED WITH THE PROGRAM

The Northern Studies program will be administratively housed in the CLA within either the justice/political science department or the history department, but its faculty governance committee will consist of all faculty teaching Northern Studies courses. The faculty governance committee will make the final decision about the program's departmental base.

The following faculty will teach Northern Studies courses. In addition, many other faculty in the College of Liberal Arts and in other colleges and schools at UAF will be involved in the Northern Studies program as members of graduate committees. The Northern Studies Program especially plans to draw upon Rasmuson Library faculty with special expertise in the Alaska and Polar Regions collections and in oral history in assisting with the supervision of Master's theses and research projects.

Faculty Teaching Northern Studies Courses

Anthropology:

Linda Ellanna----------Associate Professor of Anthropology, Ph.D. University of Connecticut

Economics:

Colin Read-----------Assistant Professor of Economics, Ph.D. Queen's University

Geography:

Roger Pearson---------Associate Professor of Geography, Ph.D. University of Illinois

History:

Terrence Cole---------Assistant Professor of History, Ph.D. University of Washington

Peter Cornwall--------Associate Professor of History, Ph.D. University of Michigan

Claus-M. Naske--------Professor of History, Ph.D. Washington State University

Humanities:

James Ruppert---------Assistant Professor of Alaska Native Studies and English, Ph.D. University of New Mexico

Library:

Marvin Falk-----------Associate Professor of Library Science, Ph.D. University of Iowa

Political Science:

Martha Cottam---------Associate Professor of Political Science, Ph.D. University of California Los Angeles

Jim Gladden-----------Assistant Professor of Political Science, Ph.D. Indiana University Bloomington

Otwin Marenin---------Associate Professor of Political Science, Ph.D. University of California Los Angeles

Gerald A. McBeath-----Professor of Political Science, Ph.D. University of California Berkeley

Psychology:

Judith Kleinfeld------Professor of Psychology, Ed.D. Harvard Graduate School of Education

In addition, the following CLA faculty have substantial northern expertise and may serve, as their time and interest permit, on graduate advisory committees or help supervise research and master's projects:

Alaska Native Language Program:

Steven Jacobson, Associate Professor of Yupik Eskimo, M.A. University of California Berkeley

Lawrence Kaplan, Associate Professor of Linguistics, Ph.D. University of California San Diego

Michael Krauss, Professor of Linguistics and Director of Alaska Native Language Center, Ph.D. Harvard University

Jeffrey Leer, Instructor of Alaska Native Languages, M.A. University of Chicago

Alaska Native Studies:

Michael F. Gaffney, Associate Professor of Alaska Native Studies, Ph.D. University of California Los Angeles

Ramona Soza, Assistant Professor of Alaska Native Studies, Ph.D. University of Washington and J.D. University of Washington

Anthropology:

Lydia Black, Professor of Anthropology, Ph.D. University of Massachusetts, Amherst

Richard Jordan, Professor of Anthropology, Ph.D. University of Minnesota

Roger Powers, Associate Professor of Anthropology, Ph.D. University of Wisconsin

G. Richard Scott, Professor of Anthropology, Ph.D. Arizona State University Tempe

Anne Shinkwin, Professor of Anthropology, Ph.D. University of Wisconsin

Art:

Glen Simpson, Professor of Art, M.F.A. Rochester Institute of Technology

Kesler Woodward, Associate Professor of Art, M.F.A. Idaho State University

Cross-Cultural Communications and Linguistics:

Charlotte Basham, Assistant Professor of Anthropology and Cross Cultural Communications, Ph.D. University of Michigan

Patricia Kwachka, Associate Professor of Anthropology, Ph.D. University of Florida, Gainesville

Phyllis Morrow, Assistant Professor of Anthropology and Cross-Cultural Communications, Ph.D. Cornell University

English:

Michael Schuldiner, Associate Professor of English, Ph.D. Kent State University

Cynthia Walker, Associate Professor of English, Ph.D. Purdue University

Foreign Languages and Literatures:

Wolf Hollerbach, Professor Emeritus of French and Spanish, Ph.D. University of Rennes

Serge Lecomte, Associate Professor of Russian, Ph.D. Vanderbilt University

Tamara Lincoln, Associate Professor of Library Science and Affiliate Associate Professor of Russian, M.L.S. Northern Illinois University

Vincent Pelletier, Assistant Professor of French and Spanish, Ph.D. University of Wisconsin-Madison

Anne-Grethe Lehmann-Routley, Visiting Assistant Professor of Danish, Cand. Mag. University of Copenhagen

History:

Carol Gold, Associate Professor of History, Ph.D. University of Wisconsin

Richard Pierce, Professor of History, Ph.D. University of California Berkeley

Journalism and Broadcasting:

Jerry Brigham, Associate Professor of Broadcasting, M.F.A. University of Oklahoma

Claudia Clark, Assistant Professor of Broadcasting, M.Ed. Montana State University

Lael Morgan, Assistant Professor of Broadcasting, M.A. Boston University College of Communications

Bruce Smith, Assistant Professor of Broadcasting, M.B.A. Murray State University

Alisa White, Assistant Professor of Broadcasting, M.S. University of Tennessee

Justice:

Gary Copus, Associate Professor of Criminal Justice, Ph.D. University of Missouri

KUAC-FM and TV:

Mark Badger, Director of Productions (currently studying for a M.Phil. in Polar Studies at the Scott Polar Research Institute)

Library Sciences:

Marvin Falk, Associate Professor of Library Science, Ph.D. University of Iowa

David Hales, Associate Professor of Library Science, M.A. University of Pennsylvania

William Schneider, Associate Professor of Library Science, Director of Oral History Program, Ph.D. Bryn Mawr College

Philosophy:

Rudolph Krejci, Professor of Philosophy, Ph.D. Leopold Franzen University

A. ADMINISTRATIVE AND COORDINATING PERSONNEL

The Northern Studies graduate program will be administered by Dr. Claus-M. Naske and Dr. Judith Kleinfeld, under the direction of Dean Anne Shinkwin, College of Liberal Arts.

B. CLASSIFIED PERSONNEL

Secretarial support for the Northern Studies program will be provided by Jo Ann Wyman, Personal Secretary, Dean's Office, College of Liberal Arts.

lV. ENROLLMENT INFORMATION

We expect to admit between 15 and 20 Master's degree students each academic year. Teaching assistantships will provide graduate students support and will provide graduate students with instructional opportunities to assist faculty with large undergraduate courses on the North.

In addition, we expect Northern Studies courses to draw a variety of non-degree seeking students, such as teachers seeking recency credits in disciplines relevant to Alaska Studies and graduate students from other programs. The importance of the Northern Studies graduate program as a support for other graduate programs at UAF is detailed below. We expect to close graduate classes

at 30 students in order to create the opportunities for student discussion and analysis important in graduate work. Advanced seminars with a research emphasis, such as NS 690, will be limited to 10-15 students.

V. NEED FOR PROGRAM

A. STRONG STUDENT INTEREST IN NORTHERN STUDIES

In order to explore potential student interest in a Northern Studies Master's program, a short survey was given to students currently (Fall 1989) enrolled in History 384, "Twentieth Century Circumpolar History." (Survey details may be found in appended material to this proposal.) Since this course focuses on northern history and is offered in the evening, the course might attract the kinds of students who would be interested in graduate work in Northern Studies. It should be emphasized, however, that no special efforts were made to recruit or even make post-baccalaureate students aware of this course, so the course size (30 students) does not give a reasonable index of the potential size of the market for Northern Studies.

Of the 27 students attending class on September 19, 1989, 85 percent (23 students) expressed interest in taking graduate level courses in Northern Studies and 67 percent (13 students) expressed interest in a full Master's program in Northern Studies. Many students emphasized their serious interest in the Circumpolar North:

> " I am very interested in comparisons and relations between Alaska and Siberia."
>
> "Defense interests in Alaska need qualified officers that understand arctic conditions and history. Many members of the defense community are ignorant of the uniqueness of the North."

In order to explore student interest further, this short survey was also given to students currently enrolled in Geography 402, "Culture and Environment," a course that also might be expected to draw students with northern interests. Of the 15 students present during the September 27, 1989 class meeting, 93 percent (14 students) expressed strong interest in taking graduate level courses in Northern Studies and 73 percent (11 students) expressed interest in a full Master's program in Northern Studies.

By far the largest number of students in both courses preferred coursework in the evening and daytime of the academic year rather than in the summer months.

We deliberately surveyed students in two courses which might be expected to draw students with an interest in Northern Studies since we were interested in the total number of students who might wish to take Northern Studies courses. These survey results suggest intense student interest in a graduate program in Northern Studies.

Consistent with these surveys results are inquiries students make about Northern Studies graduate work. Dr. Claus-M. Naske, Head of the History Department, states that he receives an average of three or four inquiries a year from students interested in coming to UAF for a Northern Studies graduate program.

B. REQUIRED FOR OTHER PROGRAMS

A Northern Studies Master's program will provide coursework important to the support of other UAF graduate programs, especially in land and resource management, the natural sciences, education, and engineering. When we inquired about the usefulness of northern studies courses in supporting other graduate programs, we received a similar message: Graduates in scientific and technical programs may be well prepared in their disciplinary programs. But when they begin professional work, they find that the vast majority of their time is spent dealing with political, legal, or cultural problems in which their professional specialty is embedded. Many graduates say that their professional training did not prepare them for the larger policy and agency context in which they are working. The graduate program faculty we have interviewed see Northern Studies coursework as offering their graduate students an understanding of the political, legal, economic, social, and cultural context of the North that would broaden students' frame of reference and make them more effective professionals in their specialties.

We summarize below interviews with faculty of other graduate programs at UAF and their projections as to the numbers of students who would be likely to take courses in a Northern Studies program.

We particularly draw attention to the importance of the Northern Studies graduate program for the M.S. degree in Natural Resource Management. The School of Agriculture and Land Resources Management has recently undergone a major curriculum review of its graduate program. A central recommendation emerging from this review is the importance of new graduate coursework in the social and economic contexts of the North. By offering just this type of coursework, the proposed program in Northern Studies will fill important curriculum needs for the School of Agriculture and Land Resources Management.

Anthropology--Interview with Richard Jordan, Department Head, October 1989

The Anthropology Department has approximately 25 graduate students each year. Coursework in Northern Studies would provide these students with courses in northern economics, geography, and the northern political environment important to their professional work.

English--Interview with Russ Tabbert, Associate Professor in English and Faculty Member in the Professional Writing Program

The Professional Writing Program is just starting and admits 5-6 students each year. Since these students are primarily local residents whose professional writing is likely to concern northern issues, they might well find graduate work in Northern Studies or professional importance.

Biology --Interview with Ron Smith, Professor of Biology; Fred Dean, Professor of Biology, October 1989

Biology students would benefit from general coursework in Northern Studies, especially courses in the area of political science. Professor Dean would see 2-3 students each year enrolling in such courses and additional students enrolling if the courses proved worthwhile.

Wildlife Management--Interview with David Klein, Unit Leader of the Alaska Cooperative Wildlife Research Unit, October 1989

The wildlife program has about 20 graduate students. About 3-4 each year might elect a graduate course in Northern Studies and more if the courses proved appropriate.

Education, Interviews with Bill Parrett, Coordinator of M.Ed. Degree with specialization in Curriculum and Instruction; Karen Noordhoff, Director, Teachers for Alaska Program, October, 1989

The M.Ed. graduate programs are swamped with applicants and the graduate committee has been turning students away. The Teachers for Alaska program is a graduate level teacher certification program which combines teacher preparation with graduate level study in order to prepare highly qualified teachers for Alaska schools. The program is experiencing difficulty getting its students admitted to the M.Ed. program, due to the pressure of numbers, and sees a Northern Studies graduate program as offering highly relevant preparation for teachers who are planning to work in the North. About 15-20 students are admitted to this program each year.

M.Ed. students in the Curriculum and Instruction specialty select at least five courses in their curriculum area and would find courses in Northern Studies of great relevance to teaching in Alaska schools. About 20 students are admitted each year to this area of specialization. Since few graduate level courses are offered by the Rural College during the academic year, the Northern Studies graduate program would be of great benefit to its graduate students.

Engineering, Interviews with Vincent S. Haneman, Dean, School of Engineering; John Zarling, Associate Dean, School of Engineering; Larry Bennett, Head, Department of Engineering and Science Management, October 1989

Engineering faculty expressed especially strong interest in Northern Studies courses for engineering graduate students and said that this need had been discussed for a long time. The engineering program enrolls between 50-60 graduate students and many have strong interests in the North as indicated by the large enrollment (45 students) in the course offered in arctic engineering. A Northern Studies program would also be important to engineering undergraduate students who might want to take a graduate course to fulfill a social sciences requirement.

Fisheries, Interviews with Bill Reeburgh, Program Head and Professor, Marine Sciences and Limnology; Jim Reynolds, Unit Leader, Alaska Cooperative Fishery Research Unit, October 1989

The School of Fisheries and Ocean Science enrolls 30-40 students each year. Students are becoming more expansive about course selections and there might well be interest in Northern Studies courses. About 3-4 students might enroll in such courses each year and more if student feedback was positive.

Economics, Interview with Michael Rice, Dean, School of Management, October 1989

Northern Studies courses would be a supportive elective for economics graduate students, who number about 10 students.

Natural Resources Management, Interviews with Jim Drew, Dean of School of Agriculture and Land Resources Management; Carol Lewis, Acting Dean; Tom Gallagher, Assistant Professor, Division of Resources Management and Head of Curriculum Review Committee, October 1989

A major curriculum review indicated the need for coursework which helps graduate students understand the political, cultural, and economic context of land management in the North. Their graduates don't understand problems like holding a public meeting and no one showing up. Most of their graduates work in public agencies where their work is closely connected to northern policy issues, not only technical questions of resource management.

The program enrolls 20-30 graduate students and efforts to recruit more students are proving successful. The Northern Studies graduate coursework would fulfill a central need that their Curriculum Review committee has identified.

C. EMPLOYMENT MARKET NEEDS

The Master's degree in Northern Studies will be attractive to northern agencies seeking personnel with broad graduate level preparation rather than a technical specialty. For example, the Division of Subsistence of the Alaska Department of Fish and Game has indicated that it employs people from a wide variety of fields--recreation, wildlife, planning--and a Northern Studies graduate degree would be highly relevant preparation, especially if the degree had a policy focus. In addition, the Northern Studies graduate program would appeal to mid-career professionals and agency personnel moving to positions which require a broader policy perspective rather than a technical orientation.

Area studies programs, such as Northern Studies, typically enroll students who pursue area studies in combination with a traditional professional or disciplinary specialization. The area studies concentration provides students with contextual knowledge of a region which makes them more attractive to agencies and industries which focus on this region. Some graduate students would enroll in a Northern Studies program at the Master's level as a supplement to a professional degree or a disciplinary specialization.

The Northern Studies graduate program will have special appeal to two occupational groups: Alaskan teachers and military officers at Ft. Wainwright and Eielson Air Force Base. For these students, the program will offer a stand-alone degree.

Teachers in the Fairbanks schools and teachers in other areas in Alaska have strong interest in making their teaching relevant to the northern context in which their students live. Many teachers are responsible for courses in Alaska Studies or Native Studies. Teachers of such subjects as history, geography, and literature are also aware of the importance of emphasizing northern and Native issues in their classrooms.

In order to maintain their teacher certification, Alaska teachers must obtain recency credits and Northern Studies courses would provide highly useful coursework. In addition, many teachers seek a Master's degree because of the greatly increased pay ceiling. In the Fairbanks schools, for example, a teacher with a Bachelor's degree has a maximum salary level of $36,312 a year while a teacher with a Master's degree has a minimum salary level of $46,519 with additional increases dependent on more graduate course work.

While some teachers prefer Master's degrees in education, others prefer a subject-oriented Master's degree. In addition, the graduate program in education at the Rural College is experiencing such strong demand that the program is increasingly forced to turn teachers away. The intrinsic interest of a Northern Studies program, economic and certification pressures, and the limited openings in graduate education programs in Fairbanks will create strong demand for a Northern Studies graduate degree among Alaskan teachers.

Our interviews with University of Alaska personnel who work with military programs (Lt. Col. John Hite, Military Science; Bud Rager, Coordinator, Ft. Wainwright, Eielson, Moose Creek Centers) indicate that the Northern Studies graduate program is likely to expect strong demand from commissioned officers at Ft. Wainwright and Eielson Air Force Base. The arrival of the Sixth Infantry Division (Light) in Fairbanks in the summer of 1990 will substantially increase this demand. Commissioned officers are the primary group arriving with the Sixth Infantry Division (Light), and officers are the major market for degrees. Promotion is highly dependent on obtaining such degrees. A Northern Studies program would be quite relevant to military needs because the Air Force and Army in their northern commands emphasize northern geopolitics and military preparedness in the North.

D. STRONG PRIVATE SECTOR AND PUBLIC AGENCY INTEREST

A Northern Studies program would be valuable for many employees in northern businesses and agencies. Such work would provide a broader perspective on the particular problems facing local and state organizations and would identify a greater range of options for dealing with these problems. The expansion of business and agency contracts in the Soviet North is one example of a development which has created great interest in a Northern Studies course on the Soviet North. Organizations which have employees in rural Alaska, such as Alascom, have

told us that they experience difficulties in cross-cultural communication and would welcome coursework which would help their employees become more aware of the bases of these communication difficulties and ways to alleviate them.

In the course of preparing this proposal, we have contacted a number of major businesses and public agencies to assess potential interest in a Northern Studies program. Most have expressed substantial interest and said that they had already discussed such needs. A few volunteered that they would favorably entertain a request for financial support. Typically, the business or agency has wanted to "get together your people and our people and sit down and talk about how to go about it." As these discussions develop, we expect that a number of workshops and seminars will develop, for example, seminars on the Soviet North and economic patterns throughout the Circumpolar North. Such short courses can simultaneously meet agency and business needs and offer one-credit courses for graduate students in Northern Studies. Joint workshops with practicing professionals in businesses and agencies would greatly enrich the issues and viewpoints that Northern Studies graduate students are exposed to.

We list below a few of the businesses and agencies that have expressed interest in pursuing education in Northern Studies:

Tom Jensen, ALASCOM

Elizabeth Andrews, Subsistence Division, Alaska Dept. of Fish and Game

Mack McCoy, ALYESKA

Jack Quillan, British Petroleum

Jane Angvik, Department of Commerce and Economic Development

Frank Turpin, Alaska Railroad

Diane Wada, Telephone Utilities of Alaska

Judy Sage, KIMO Television

The Northern Studies program offers the university an opportunity to increase its services to the private and public sectors and to shape the future development of Alaska.

VI. OTHER JUSTIFYING INFORMATION

The University of Alaska Fairbanks can achieve preeminence in northern social sciences and humanities, capturing the stature in these fields that it already has in the natural sciences. Of foremost importance is the increasing strength of the College of Liberal Arts in Northern Studies and its growing international reputation. In the last five years, this College has increased the number of faculty with expertise and interests in northern issues in order to position UAF as the lead institution in the world in Arctic Social Science and Humanities.

The History Department has added two political scientists developing northern specialties, and Justice faculty are increasing this program's emphasis on justice in the rural northern context. The English and Alaska Native Studies Departments have added two faculty with interests in Alaska Native literature, frontier literature, and law; while the Anthropology/CCC Departments have added one new faculty. The Anthropology Department established a doctoral program in 1989-90 which emphasizes contemporary Alaska Native studies and Alaska archaeology and ethnology.

The Alaska Native Language Center, under the leadership of Dr. Michael Krauss, is well-known as a center for research and documentation of indigenous Native languages. The research and archival collections contain about 7,000 items--almost everything written in or about Native languages. The Center has developed materials on Native languages both for scholarly and educational purposes, such as story collections, histories, geographies, dictionaries, and grammars. Most recently the Alaska Native Language Center produced a Siberian Yupik translation of an agreement between the United States and the Soviet Union. The Alaska Native Language Center also offers regular instruction in Yupik, Inupiaq, and Koyukon Athabaskan and occasional instruction in other languages, such as Siberian Yupik.

Rasmuson Library continues to increase its Alaska and Polar Regions collections which include the Alaska Collection, oral history materials, rare northern maps, books, and photographs of great scholarly interest. The library buys intensively in northern areas and currently estimates its collections include 50,000 volumes on northern subjects. About 4,000 additional volumes on the North are purchased each year. Rasmuson Library maintains a strong circumpolar focus as well as maintaining the central collection on the Alaskan North. Library collections include about 6,000 volumes on Northern Canada, 4,000-5,000 volumes on Siberia and the Soviet Union, 2,000 volumes on Greenland and about 1,500 volumes on the Scandinavian countries.

The College of Liberal Arts is sponsoring institutes, lecture series, and major international conferences on northern issues. During the summers of 1988 and 1989, an Institute of Circumpolar Studies was held on the Fairbanks campus which brought together students and scholars in Northern Studies from Alaska, Canada, and Finland. The College sponsors the Alaska Living History Series and other lectures on northern issues which bring to the Fairbanks campus important public figures, scholars, and policymakers from Alaska, Canada, and the Soviet Union. The Nordic House has become a center for visiting northern artists and scholars from different northern countries who offer special performances, lecturers, and seminars.

The College of Liberal Arts is sponsoring two major international conferences in 1990. One is the Sixth International Conference on Hunting and Gathering Societies (May 28 - June 1, 1990) which brings together anthropologists throughout the world. The other is the Seventh Inuit Studies Conference (August 19 - 23, 1990), which brings together social scientists and Inuit from countries throughout the Circumpolar North. Both events will greatly increase the centrality and prestige of UAF's College of Liberal Arts.

At the same time that the internal strength of the College of Liberal Arts in northern studies is rapidly growing, new external opportunities are also developing. An analysis of research needs in the Arctic social sciences (Arctic Social Science: An Agenda for Action) was published in 1989 by the Committee on Arctic Social Sciences, established by the Polar Research Board. This document describes the underdevelopment of Arctic social science research and identifies important research directions. A search is currently being conducted for a program director for Arctic social sciences at the National Science Foundation, Division of Polar Programs, who will help to stimulate, develop, and secure funding for research in northern social sciences.

The University of Alaska Fairbanks has the opportunity to attain world-class stature in Northern Studies. A few universities, such as the Scott Polar Research Institute in Cambridge and Carleton University in Canada, do offer interdisciplinary Northern Studies programs, but these are small. The Scott Polar Research Institute, for example, emphasizes Antarctica and typically attracts between two and twelve students a year. The program at Carleton University, according to director Kerry Abel, emphasizes Native Studies and attracts only one to two students each year who are interested in northern studies. A graduate Northern Studies program at Lakehead University in Thunder Bay, Ontario, has been proposed but this program is in the early stages of program formulation. Other Canadian universities, such as the University of Alberta at Edmonton, offer a northern studies emphasis in their graduate anthropology degrees but these northern studies programs are, of course, based in the discipline of anthropology and do not have an interdisciplinary policy focus. In the United States, the Center for Northern Studies in Wolcott, Vermont, offers a Master's program in cooperation with other universities, but the graduate program is quite small.

The University of Alaska Fairbanks already enjoys cooperative relationships with some of these programs, such as the anthropology graduate programs at McMasters, McGill, and the University of Alberta. Efforts are underway to establish cooperative relationships with other programs, particularly the Center for Northern Studies in Wolcott, Vermont and the Scott Polar Research Institute in Cambridge.

With its large number of northern scholars in various disciplines, its potentially large group of graduate students, its geographic location in the North, and its extensive library and museum resources, the University of Alaska Fairbanks has a rare opportunity to create a Northern Studies program of exceptional strength.

VII. RESOURCE IMPACT

The ability of the College of Liberal Arts to launch the Northern Studies graduate program depends on receiving the Northern Studies increment currently in the university budget or on other resources added to the College of Liberal Arts from other budgetary sources.

The Northern Studies program does not have special facilities and space needs. Library and media materials, according to Dennis Stephens, Library Collection Development Officer, with whom this matter has been discussed, are more than adequate.

Faculty with appropriate northern specialties are already available and can teach all the courses described in this proposal. Funds are needed for freeing existing faculty from heavy undergraduate teaching loads so that they can include a northern studies graduate course in their instructional workload. Monies are also needed to support graduate students in teaching assistantships. The large courses in the College of Liberal Arts, which will become even more substantial if the proposed core curriculum is implemented, require the addition of teaching assistants. Students enrolled in the Northern Studies Master's program can help meet this need. Indeed one institutional function of the Northern Studies program will be to provide graduate students who can assist in the teaching of large introductory courses in such areas as history and political science.

The FY91 budget request for the UAF Northern Studies program totals $200,000 (increments #9 and #10). These budget increments are currently within the regents' priorities.

VIII. RELATION OF PROGRAM TO OTHER PROGRAMS WITHIN THE SYSTEM

A. LACK OF DUPLICATION

The proposed Northern Studies program does not duplicate any other program in the statewide system. We have discussed this program extensively with Lee Gorsuch, Dean of the School of Public Affairs at UAA and Director of the Institute of Social and Economic Research (ISER), to explore possible overlap.

According to Lee Gorsuch, the public administration degree offered by UAA focuses on the tools of public policy analysis and deals with northern issues only as examples. The School of Public Administration does not offer courses in northern studies which focus on the Circumpolar North.

The proposed Northern Studies program, as previously discussed in this proposal, will have a cooperative relationship with the School of Public Administration at UAA and the Institute of Social and Economic Research. This cooperative relationship will increase faculty awareness of the strengths of each institution and expand opportunities for collaborative faculty research. The College of Liberal Arts will be able to draw upon ISER faculty with special strength in economics and the tools of public policy analysis.

B. RELATIONSHIP TO RESEARCH AND SERVICE ACTIVITIES

An important advantage of area studies programs is to bring together faculty with common interests in a region in order to develop interdisciplinary research and to stimulate scholars doing disciplinary research by bringing them in contact with ideas and methods from related disciplines. The proposed Northern Studies

program will increase communication among scholars in history, geography, literature, Native Studies, psychology, economics, anthropology, political science, and justice. Such contact may well result in interdisciplinary research proposals and in higher quality, more innovative research.

IX. IMPLEMENTATION

We expect the Northern Studies program to begin in the fall of 1991. Student recruitment will occur during the spring of 1991. We have already received a number of inquiries from students who participated in our surveys and are strongly interested in the program. A sample letter is attached to this proposal. We plan to recruit students through discussion of the program in university classes, discussions with graduate faculty in the programs which previously indicated interest in such courses for their students, announcements to teachers in the Fairbanks schools, work with the university coordinator of educational programs on the military bases, continued contact with the private and public agencies that have expressed interest in this program, and contacts with colleagues in Northern Studies in other universities in the United States, Canada, Denmark, and Greenland.

X. REGENTS GUIDELINES

The proposed Master of Arts in Northern Studies will provide graduate academic study of northern policy issues and the cultural, historical, economic, and political contexts of the Circumpolar North. This graduate program will enable students who live and work in the North to benefit from the northern expertise and research activities of university faculty in the social sciences and humanities, the rich and diverse Alaska and circumpolar collections of the university library and museum, and the ease of access to northern fieldsites created by the geographic location of the University of Alaska Fairbanks. The Northern Studies graduate program will stimulate scholarship and research in the underdeveloped field of Arctic social science and enable the University of Alaska Fairbanks to achieve the world class stature in the social sciences that the university has already achieved in the natural sciences. The Northern Studies graduate program will also provide public service to both agencies and businesses in the North by offering special workshops and seminars which enable both public and private sector personnel to achieve a greater understanding of the problems, policy issues, and opportunities of the Circumpolar North.

The Master of Arts in Northern Studies is a 30-credit interdisciplinary degree program which brings together the disciplines and fields of economics, history, anthropology, psychology, political science, justice, geography, and the humanities in the study of the Circumpolar North. This interdisciplinary program will be focused and integrated through two required introductory seminars, carefully articulated course offerings, and project or thesis work on northern issues. Students will select four additional courses from the nine graduate level social sciences and humanities courses which have been especially developed for this program and which comprise the Northern Studies core. Students will also select two or more additional courses in such areas as northern sciences, northern languages or their professional specialty. A concluding thesis or project will provide students with the opportunity either to do original research on a northern issue or to apply existing knowledge of the Circumpolar North to a problem in their professional fields.

The Northern Studies program will draw a diverse and distinctive group of graduate students who are committed to the North and who will shape the future of the region. Exploratory surveys indicate strong student interest in Northern Studies graduate work. This Master's degree is a classic area studies program which offers a regional specialization to students who want to supplement a traditional disciplinary or professional degree with a deeper understanding of the northern context in which they will apply their specialized knowledge and skills. In addition to traditional graduate students, the Northern Studies program will attract mid-career professionals who are already engaged in work in a northern environment and who are seeking a broader perspective on immediate problem issues; teachers who are teaching Alaska Studies or who want to make such subjects as history and geography more interesting and relevant to their students; military officers from Ft. Wainwright and Eielson Air Force Base who want a graduate program relevant to their responsibilities to maintain military preparedness in the Circumpolar North; and International students from the North. Particular offerings, such as a proposed special topics course on the Soviet

North, will be of great interest to business people and agency personnel who are increasing their relationships with the Soviet Union.

The Northern Studies graduate program will also provide important support to other graduate programs at the University of Alaska Fairbanks. Faculty in such fields as engineering and fisheries emphasize that their students are well-prepared in a scientific or technical specialty but are unprepared to work in the political and cultural context of the North. The Northern Studies graduate program has particular importance to the Master's program in natural resources management where a recent curriculum review has emphasized the need for the type of social and economic coursework that the Northern Studies program will provide.

The University of Alaska Fairbanks has the opportunity to attain international stature in Northern Studies. No other institution in Alaska offers such a graduate program. Northern Studies programs at other universities tend to be small or have other emphases, such as Native Studies. The proposed Northern Studies graduate program at the University of Alaska Fairbanks will possess the critical mass of both faculty and students necessary to make a significant contribution to northern scholarship and policy debate.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #21 on October 15, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to refer to the Faculty Affairs committee the proposed policy and regulation on intellectual properties. The committee will include in their deliberations the following concerns expressed by Graduate Council.

The UAF Faculty Senate moves to recommend approval of the proposed policy and regulation on intellectual properties with the following comments:

1. Section B.2. says the University President may appoint an Intellectual Property Officer, but Section B.3. says the Intellectual Property Committee will be composed of the Intellectual Property Officer and five faculty members. This inconsistency should be clarified.

2. Section C.l. says that exemptions to assign inventions and patents to the university may be authorized but it is not clear who will authorize the exemptions. This should be clarified.

3. In Section C.3., it is recommended that the chart showing the share distribution of net royalty proceeds be moved up in the paragraph, to just after the sentence which ends with ". . . as shown below."

4. Concern was expressed about the share of royalty income allocated to the inventor; an increase in the inventor's share would provide further incentive.

5. Concern was stated about the title "Intellectual Property Officer" being an odd expression.

6. The Graduate Council recommends that the policy be adopted, with the proviso that it be funded within current fiscal and administrative resources and personnel.

EFFECTIVE: Immediately

RATIONALE: This motion allows for the Senate to disseminate this proposal more widely throughout the faculty.

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #21 on October 15, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to confirm the incoming membership of the University-wide Promotion and Tenure Committee as follows:

Susan Henrichs (93)
Associate Professor, Marine Sciences
School of Fisheries and Ocean Sciences

Rainer Newberry (91)
Associate Professor, Geology
College of Natural Sciences

Ruiz Anne Rozell (93)
Associate Professor, Culinary Arts
School of Career and Continuing Education

Dennis Stephens (93)
Associate Professor, Library Science
College of Liberal Arts

EFFECTIVE: Immediately

RATIONALE: The University-wide Promotion and Tenure Committee is composed of nine members, serving staggered three-year terms. The Senate must confirm the three new members, who were elected by faculty in their respective school. Also, Claron Hoskins, CNS representative, resigned from the committee, and his replacement requires confirmation.

John Longyear 10-16-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #21 on October 15,1990:

RESOLUTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to endorse the recommendations of the Ad Hoc Committee on Quality Review of Programs.

Committee Members:

F.M. Husby, SALRM, Chair
John Daly, SCCE
John Olson, CNS
John Whitehead, CLA
Nag Rao, CRA

This committee agrees with the concept of a formal external evaluation of program quality in the University of Alaska System but feels that the present form of the document needs some additional statements to broaden the scope of review and to address some concerns of the faculty.

As presented, the document needs both clarification and direction before implementation and action. Prior to further input by the faculty, the document should be written as a policy statement to represent the whole University of Alaska system. Minor details should be omitted from the policy statement (i.e., item D., sentence 2 "given a list of questions" approved by the Board of Regents) but implemented later by members of the specific campus or unit administration and faculty senate.

The policy statement should include:

1. The need for the initial evaluation to be of the statewide system (including statewide administrative structure) to review structure, program duplication and the need for program development.

2. A review that covers the three campuses as one system and then each campus and its individual program structure.

3. Retain options for individual campuses, units and faculty senate to be actively involved in selecting the review boards or accrediting bodies.

4. Specify the groups or individuals that will be responsible for the final decision to accept or reject the evaluation.

In addition to the above, concern was expressed as to the frequency and cost of reviews. The university budget should include an increment for the cost of bringing

in outside accrediting boards from other than the unit under evaluation. The frequency of reviews would also increase the cost to the university system. The Board of Regents and administration should be aware of all potential long term costs to the system prior to accepting or rejecting an evaluation that would create major budget demands.

The UAF Faculty Senate passed the following at its Meeting #~~17~~ 20 on September 17, 1990.

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to change the meeting date for Faculty Senate Meeting #25 from Monday, March 11, 1991 to Monday, March 18, 1991.

EFFECTIVE: Immediately

RATIONALE: The previously scheduled meeting date falls on the first day of Spring Break which would result in poor attendance due to schedule conflicts.

John L. Jessup 9-25-90

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #~~17~~ 20 on September 17, 1990.

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to approve the following amendment to Article VIII, Section 2 of the General Assembly constitution, Regents' Policy 03.01.01.

(( )) = deletions
CAPS = additions

To change Article VII, Section 2 of the General Assembly constitution, Regents' Policy 03.01.01 to read as follows:

"Amendments to the constitution shall be approved by a majority ((vote of each)) of the local constituent bodies, EXCEPT THAT ANY AMENDMENT CHANGING THE MEMBERSHIP RIGHTS OF ANY MAU SHALL REQUIRE A MAJORITY VOTE OF EACH OF THE LOCAL CONSTITUENT BODIES."

RATIONALE: The amendment, if approved, would remove the veto power of a single MAU regarding amendments to the constitution of the statewide governance organization, the General Assembly. The only exception is that three MAU's could not force out the fourth MAU in terms of membership. This amendment would also provide for the three academic MAU's to join together and forward actions to the Regents without having the non-academic MAU block the actions.

John L. Sexton 9-25-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #20 on September 17, 1990:

MOTION PASSED (unanimous approval)
==========

ORIGINAL

The UAF Faculty Senate moves to nominate the following individuals as faculty representatives on the UAF Chancellor Search Committee and to forward the list of nominees to President Komisar.

MEMBERS		ALTERNATES
Peter Cornwall Associate Professor History College of Liberal Arts	1st	J. Patrick O'Brien Associate Professor Economics School of Management
Jack Distad Professor Mathematical Sciences College of Liberal Arts	2nd	David Smith Professor Education College of Rural Alaska
Jeanette Morton Instructor Vocational Education Northwest Campus College of Rural Alaska	3rd	Michael Gaffney Associate Professor Alaska Native Studies College of Liberal Arts
William Reeburgh Professor Institute of Marine Science School of Fisheries and Ocean Sciences		
Gerald Shields Professor Biology and Wildlife College of Natural Sciences		
Wayne Vandre Associate Professor Cooperative Extension Service - Anchorage		
Sharon West Associate Professor Library Sciences College of Liberal Arts		

EFFECTIVE: Immediately

RATIONALE: President Komisar has requested that the UAF Faculty Senate provide a slate of seven faculty members plus a chairperson to serve on the search committee for a new UAF Chancellor. The above list of nominees will provide broad and capable faculty representation and leadership on the search committee.

9-18-90

RATIONALE: See attached memorandum

Raymond C. Highsmith 6/6/91
President, UAF Faculty Senate Date

The Administrative Committee on behalf of the UAF Faculty Senate passed the following motion at a meeting on June 4, 1991.

MOTION
=======

The UAF Faculty Senate moves to support the concept of a policy encompassing resource recovery and conservation where feasible and economically justifiable. Procedures should be developed by the chancellor of each campus.

The UAF Faculty Senate further moves to recommend approval of the proposed policy on Resource Recovery and Conservation with the following changes:

[ ] = Delete
CAPS = Add

D R A F T REGENTS' POLICY 05.13.01

PART V

FINANCE AND BUSINESS MANAGEMENT

CHAPTER XIII

RESOURCE RECOVERY AND CONSERVATION

Each university department shall take an active role in resource recovery and conservation by recycling, minimizing resource use and waste, increasing electronic data exchange, purchasing recycled, reusable, and recyclable products, purchasing equipment that is compatible with these products, and when feasible printing copies on both sides of paper.

The [chief procurement officer] CHANCELLOR OF EACH CAMPUS shall develop procurement policies and procedures to facilitate the purchase and use of recycled products. The procurement specification process should include consideration for compatibility of recycled products and recycling efforts,where feasible AND ECONOMICALLY JUSTIFIABLE.

The [chief procurement officer] CHANCELLOR OF EACH CAMPUS shall develop and implement an education and awareness program among students, faculty, staff, and vendors of the university to promote resource recovery and conservation. The [chief procurement officer] CHANCELLOR OF EACH CAMPUS is encouraged to [enter into] PROMOTE cooperative arrangements with other governmental entities to enhance the opportunities for resource recovery and conservation.

EFFECTIVE: Immediately

The UAF Faculty Senate passed the following at its Meeting #19 on May 7, 1990:

MOTION PASSED AS AMENDED (unanimous approval)
==========

The UAF Faculty Senate moves to endorse the following recommendations of the UAF Assembly Computer Users Committee included in its report dated April 16, 1990.

Recommendations
==========

A director of academic computing should be appointed as soon as possible. Given that funding for such a position was available last year when Tom Hassler held the position, the appointment of this director should not be contingent on increased state funding for the proposed academic computing increment. The new director of academic computing should act as expeditiously as possible to carry out the following tasks:

- Coordinate with UAA to allow UAF users to make use of ACAD2 in Anchorage, which is operating at less than 20% of capacity.

- Institute procedures to route all CPU-intensive batch jobs to ACAD2 in order to relieve the load on ACAD3.

- Communicate with research faculty regarding the availability of supercomputer grants. The committee feels that it would be appropriate to ban all jobs requiring more than a certain amount of CPU time from the VAX given the availability of such supercomputer grants.

- Communicate with all faculty regarding the availability of off-campus computer resources via the Internet.

- Coordinate with UACN to arrange automatic distribution of computer mail among various campus hosts using the University's new class-B Internet license in order to decrease the load on the VAX from electronic mail.

- Update the census of public computing facilities and prepare a budget for repair and replacement. Our informal estimate is that necessary repairs and replacements would cost around $50,000 at this time.

- Prepare a census of rural campus computing facilities and curriculum-related computer and telecommunication needs and prepare a budget for repair, expansion, and replacement.

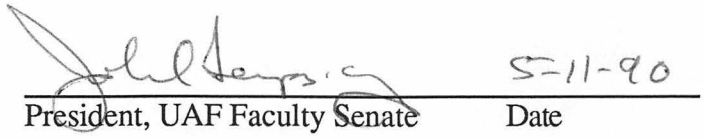
Because of the perception among faculty that funds for academic computing have historically been (and continue to be) diverted to administrative use, we strongly recommend that the new director of academic computing should report directly to the Vice Chancellor of Academic Affairs rather than to the Director of Planning and Information Systems. This recommendation is not intended as criticism of existing individuals, but rather as a way to deal with widespread faculty perceptions by removing any appearance of conflict of interest.

EFFECTIVE: Immediately

RATIONALE: The Academic Computer Users Committee has spent the past three months studying the current state of campus-wide academic computing at UAF, during which we have received input from students, faculty, UAF staff, and statewide staff. This document summarizes our findings, concerns, and recommendations.

This motion deals only with issues regarding campus-wide academic computing.

Findings
======



ACAD3 has been at near 100% of both processor and port capacity since January. Many users are unable even to sign on, since the maximum number of allowed users is often exceeded. For those who are able to sign on, response time is often very slow.

Between 30% and 40% of processor use of the VAX is by numerically-intensive jobs submitted by faculty and graduate students. It appears that much of this is from users in research institutes who use free time on ACAD3 instead of paid time on institute machines, or supercomputer access which requires advance permission.

A significant portion of VAX port use is by statewide administrative users (SX accounts) who remain logged on all day to use the electronic mail system (all users other than statewide administrative users are automatically logged off after a reasonable period of inactivity). This contributes substantially to the problem with exceeding the maximum number of allowed users .

Public-access student labs suffer from old, poorly-maintained equipment.

There is a perception among faculty that funds for academic computing have historically been diverted to administrative use. Both UAF and Statewide personnel have confirmed that this was standard operating practice during the period when Statewide was responsible for all computer administration. There is a strong suspicion among faculty in many units that this practice has continued since academic computing was turned over to the units (with a tiny fraction of its original nominal budget).

MEMORANDUM

TO: John Leipzig, President
Faculty Senate

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: June 12, 1990

RE: TERM APPOINTMENTS FOR ACADEMIC ADMINISTRATORS

As you can see from the attached motion, I have found it necessary to disapprove this motion calling for five-year term appointments for deans, research directors, rural campus directors, the library director, the museum director, and the CES director. I have done so because such a practice would not be in the best interests of the institution.

This practice would discourage many qualified individuals as applicants for our positions. We would be asking individuals, particularly those who might come to these positions from other parts of the country, to give up other notable careers at their current institutions to accept a position at the University of Alaska Fairbanks which may not have a life beyond five years. This would be detrimental to our recruitment process. Regarding positions for which we advertise nationally, including academic administrators, we must try to build an incentive package to attract the individuals we wish to have take on these positions. Moving to Alaska from the Lower 48 is not quite the same as moving from Ohio to Illinois.

I do not believe that the motion is conducive to the exercising of strong, frank leadership within a respective institute or college. Rather, it favors a *don't rock the boat* attitude which will not necessarily advance the institute, college, or the University.

The motion would also automatically limit the maximum term of appointment as a dean or director to ten years. I do not find any particular merit in such a blind limitation. There are many individuals who might continue to serve their respective faculties and the institution quite well beyond such a time period, and I hope it would be the institution's desire in such cases to have them stay in their posts.

Term limitations for such positions are not the norm in public institutions in the United States. Thus, that would put us at a further disadvantage in our recruitment efforts.

While deans and directors have leadership roles within the institution, it also strikes me that senior faculty have leadership roles as well. The roles are different but, nevertheless, deans, directors, and the senior faculty do represent the leadership of an institute, school, or college. I might be willing to reconsider this notion of term appointments if we followed similar suit with senior faculty whereby there were term appointments to rank and tenure.

PJO'R/clb
cc: Executive Council

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #19 on May 7, 1990:

MOTION PASSED AS AMENDED (unanimous approval)
==========

The UAF Faculty Senate moves to establish the following transition guidelines for implementation of the term appointment policy for deans and directors:

1. Deans and directors who have served in their position for four years will be reviewed during the first year that the administrator evaluation policy and procedures become effective;

2. Dean and directors who have served in their position less than four years will be reviewed after completion of their fourth year of service.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: A transition policy is needed to provide for an orderly review of current deans and directors.

Follows as a result of previous action

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #19 on May 7, 1990:

MOTION PASSED AS AMENDED (unanimous approval)
==========

The UAF Faculty Senate moves to establish the following policy on evaluation of administrators:

POLICY

FACULTY ROLE IN ADMINISTRATOR EVALUATION

Coverage: The evaluation system would involve the evaluation of "Academic Administrators" which would include Academic Deans, Directors of Institutes, Director of Libraries, Rural Campus Directors, Vice Chancellor for Academic Affairs, and the Vice Chancellor for Research and Dean of the Graduate School and the Chancellor. Academic Administrators are defined as those administrators holding academic rank whose positions directly impact the academic program and whose performance directly effects the ability of faculty to carry out their academic duties.

Purpose: The purpose of the evaluation is for the faculty to provide appraisal of administrator's performance. The year in which the faculty evaluate administrators, the faculty evaluation will be a part of a regularly scheduled evaluation process carried out by the appropriate Vice Chancellor for those who report to the Vice Chancellor or by the Chancellor for the evaluation of the Vice Chancellors.

Frequency: The faculty contribution to the evaluation process will occur every four years, with each administrator conducting an interim evaluation for their own benefit every two years. It is expected that while administrators will continue to be evaluated on an annual basis by the appropriate individual, the fourth year evaluation will be more extensive and structured and will involve substantial input from all faculty in the appropriate college, institute or unit.

Composition of the Evaluating Committee:

The faculty of each unit shall elect five to seven members of the senior faculty (tenured) of that unit to comprise a committee which will gather, evaluate, analyze the faculty opinion of the performance of the administrator heading that unit. The committee will prepare a detailed report on the administrators performance as seen from a faculty perspective which will be submitted both to the appropriate Vice Chancellor, or in the case of Vice Chancellor's, to the Chancellor and to the administrator being evaluated.

The faculty committee will use a uniform survey instrument in soliciting faculty opinion so as to provide fair and comparable data. This instrument will address both administrative and academic contributions. The review process is expected to occur in the spring semester of the fourth year projected to take no longer than three weeks from the time questionnaires are sent to the faculty, to the time a formal performance report is submitted to both the administrator involved and the representative of the administration.

The report submitted shall be treated, in terms of confidentiality, the same as performance evaluations of senior faculty.

Election of the Evaluating Committee:

The Senate shall conduct the election of members of the Evaluating Committee for each academic unit.

Responsibility and prerogatives of the administrator being reviewed:

ORIGINAL

The administrator being reviewed shall be provided with a copy of the survey instruments to prepare a evaluation addressing significant performance areas for the period under review (4 prior years).

This evaluation shall be distributed to all faculty along with the survey instrument.

The administrator being reviewed will have the opportunity to respond to and address any points developed in the evaluation and submit comments. The report and the comments submitted by the administrator being reviewed shall be considered together by the administrator to whom the administrator being reviewed reports.

Role of the Chancellor or Vice Chancellor:

The Chancellor or appropriate Vice Chancellor may, at his or her discretion, discuss material parts of the report or response with either the committee of senior faculty or the administrator involved prior to finalizing the evaluation of performance of the administrator being reviewed.

The cognizant administrator will review the evaluation with the Committee.

Evaluation of the Process:

Annually, the Senate or appropriate committee shall review the effectiveness of the process and any instrument used with the representatives of the review committees from the various academic units. This review process will focus on improving the effectiveness of the process and will not involve the disclosure of elements of the evaluation report.

MEMORANDUM

TO: John Leipzig, President
Faculty Senate

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: June 7, 1990

RE: FACULTY ROLE IN ADMINISTRATOR EVALUATION

As you can see from my signature on the attached motion, I am not able to approve the proposed senate policy on the faculty's role in administrator evaluations. While the input of faculty, as well as other constituent groups, is a vital and necessary part of the evaluation process, I do not believe this motion is the best way to achieve this. I have many concerns, some of which pertain to the specifics of the motion and others which pertain to the respective responsibilities of the administration and the senate. Let me address the specifics of the motion.

1. Evaluation processes should be handled in a delicate fashion with as much confidentiality as can be brought to bear upon the process. I note the senate indicates that the report should be handled confidentially--*the same as performance evaluations for senior faculty*. The proposed process is very different and does not lend itself to the confidentiality expressed in the motion by the senate. The evaluation of senior faculty is essentially a matter between the individual faculty member, the department head, and the dean. In this proposal, there are five to seven members of the senior faculty, all other members of the faculty, and, perhaps, senate members who would be involved as well as the Vice Chancellor or Chancellor as appropriate.

2. The motion implies that the faculty is the only constituent group who should be consulted in the process. I do not believe this is the intent of the senate, but the nature of the action, if adopted, would imply such. Yet, there are many constituency groups who have a valid perspective to bring to bear on the evaluation of a dean, director, or vice chancellor. Thus, it is my responsibility to develop a process where such constituent input, including faculty, would be involved in the evaluation process. To adopt this motion would be an incomplete evaluation process.

3. The senate unduly interposes itself in the process of evaluation by indicating that it shall be the body to conduct the elections of the evaluation committee. This abridges the responsibilities of the administration which is charged with carrying out these functions. Additionally, it sets up a body between the individual charged with conducting the evaluation (Vice Chancellor or Chancellor as appropriate) and the individual being evaluated. I do not believe this is in the best interest of

the evaluation process. The cognizant officer carrying out the evaluation must be able to talk directly with the individual being evaluated regarding the input he/she has received. If this input is filtered through another body, less frankness could prevail in the evaluation process.

4. I cannot tell from the motion whether or not the survey instrument, included as part of the motion, is meant to be the survey utilized in all cases. By adopting the motion, it may give the impression that this is indeed the case. Additionally, I am not sure that a survey instrument is the best way to elicit information on the performance of an academic administrator. An interview process conducted by the Chancellor or Vice Chancellor (as appropriate) might lead to a more meaningful evaluation and useful information. Thus, I wish to retain the flexibility to utilize either survey or interview.

5. The motion calls for the cognizant administrator to review with the committee the evaluation of the individual. Such a provision further abridges the confidentiality of the process.

6. The motion states that its purpose is *for the faculty to provide formative appraisal of administrator's performance.* Faculty input into the evaluation is an important element of the process, but it is the cognizant officer's responsibility to conduct the evaluation, and this abridges that responsibility.

There are other concerns of a broader nature that I have with this motion.

1. This is a process motion which, in my opinion, is not appropriate to a legislative body. I have no difficulty with a broad policy motion which states that the administration will involve faculty in the evaluations of academic administrators, but it is not in the best interests of the institution for those processes to be developed by the senate. Rather, this is a responsibility of the cognizant officers of the institution.

2. The motion abridges the respective responsibilities of the senate and the administration. The senate does have primary responsibility in legislating academic policy, and although I seek its guidance and advice on many other matters, this motion goes beyond the constitution of the senate. Thus, it is inappropriate for me to set a precedent by adopting it. I realize that the senate reserves for itself under Section 2.K. of the constitution *Other responsibilities as may be defined by the faculty under the constitution and by-laws.* However, the formulation of policies for how academic administrators should be evaluated does not fall within the faculty rights section of the constitution. It is an area where I desire consultation, and I have sought this. However, it is now my responsibility to formulate the process.

For all of the foregoing reasons, I have found it necessary to disapprove the action of the senate.

However, as I stated above, the practice of involving faculty in the evaluation of academic administrators is a valid and good one, and a plan to implement such a process will be developed. To this end, I shall draw upon many items contained within this motion as well as items contained in the report of the Joint Administration/Faculty Committee on Evaluation of Academic Administrators. Accordingly, I shall plan to implement a process in this next evaluation cycle which will involve faculty in the process.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #18 on April 13, 1990:

RECEIVED
APR 25 1990
CHANCELLORS OFFICE

MOTION PASSED (25 ayes, 5 nays)
==========

The UAF Faculty Senate moves to approve the following course requirements which will form the common core requirements for all baccalaureate degrees offered by the University of Alaska Fairbanks. This common core will be required of all entering freshmen beginning Fall 1991.

Mathematics Literacy
==========

At least 6 credit hours: Three credits minimum to be specified by the degree program (BA, BS, BFA, etc.), and three credits minimum to be completed within the first two years of study according to the following general baccalaureate requirement:

Math 131, Concepts of Mathematics

OR (for all BS students and others who desire a technical background)

A course in calculus (Math 162, 200, 201, 202, or 272 or any math course having one of these as prerequisites).

Communication Literacy
==========

1. English 111, Methods of Written Communication. 3 credits

2. English 211, Intermediate Exposition with Modes of Literature OR
   English 213, Intermediate Exposition 3 credits

3. Speech Communication 131, Methods of Oral Communication: Group Context
   OR
   Speech Communication 141, Methods of Oral Communication: Public Context 3 credits

4. 2 Designated Writing-Intensive courses and 1 Designated Oral Communication-Intensive course in students' major or elective fields. These should be upper-division classes chosen from courses required for degree or major programs 0 adt'l credits beyond degree requirements

ORIGINAL

Library and Information Literacy

Students must demonstrate library and/or information competency by passing a library competency test developed, administered and monitored by the Department of Library Science. This testing will be required of all entering undergraduate students and competency must be demonstrated before passing on to junior status. This test shall be administered once each semester.

Students who fail the competency test may take it the following semester. As an alternative to passing the competency test, students may take and pass either of two courses in the Department of Library Science: L.S. 100, Information and Library Strategies (1 credit), or L.S. 101, Library Skills (1 credit). L.S. 100 is a new course developed for rural campuses.

Computer Literacy

Disciplines should be encouraged to include computer related courses within major requirements. The committee, however, is not recommending any university-wide requirement as part of the core.

Natural Sciences

The Natural Science requirement in the Core Curriculum shall be two 4-credit hour courses, each with a laboratory (8 credit hours total). Both courses must be selected from those available in one of the two options defined below.

> Depth Emphasis: The two courses must be sequential courses (or a two-semester survey) which provide introduction to one of the basic natural sciences (biology, chemistry, earth science, physics).
>
> Breadth Emphasis: The two courses must be in different natural sciences or must be interdisciplinary in nature. Rather than provide in-depth introductions to individual branches of natural science, courses in this emphasis will stress interrelationships between the natural sciences as well as the relationship between science and society.

List of courses which can be used to satisfy this requirement shall be developed by the Curriculum Council of the College of Natural Science. The Curriculum Council shall develop its own certification procedures; however, it must follow the guidelines for course certification as follows:

1) a laboratory/field component which emphasizes data collection and analysis, hypothesis building, and experimentation;
2) substantial content dealing with "major concepts;"

3) science-related issues in society and public policy ORIGINAL

Distinctions between courses in the "Depth" and "Breadth" emphases will be concentrated in items 2 and 3. The "Depth" courses will necessarily concentrate on material within a single discipline related to 2 while the "Breadth" courses will have less emphasis on major concepts of a single discipline, substituting either material dealing with concepts from other disciplines or material related to item 3. While "Depth" courses must treat science-related issues as appropriate, "Breadth" courses may include such material as a focal point of the course.

Perspectives on the Human Condition
==========

1.	The Individual and Society--100-level	3 credits
2.	Political Economy--100-level	3 credits
3.	Modern World History--100-level	3 credits
4.	World Literatures: Art and Culture--200-level	3 credits
5.	Aesthetic Appreciation--200-level	3 credits
6.	Values and Choice--300-level	3 credits

Two of the six course areas may be waived for two, semester-length courses in a single non-English language taken at the university-level.

EFFECTIVE: ~~Upon Chancellor's Approval~~ FALL 91 OR

RATIONALE: Based upon significant faculty input at committee, college and university levels, and following the results of an advisory ballot in which 64% of the responding faculty recommended acceptance of this core over the current requirements, Senate endorsement of the core is warranted.

The UAF Faculty Senate passed the following at its Meeting on April 13, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to charge the Curricular Affairs Committee to identify and develop policy on implementation of the new core.

EFFECTIVE: Upon Chancellor's Approval of the Core Curriculum Proposal

RATIONALE: Issues involving course coordination, development, and piloting, in addition to other faculty involvement issues with the core, need faculty input and recommendations.

David M Smith 4-25-90

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #18, April 13, 1990:

MOTION PASSED (with 3 nays, 1 abstention)
==========

The UAF Faculty Senate moves to abolish the current registration practice of centrally controlling waitlists for closed courses. Henceforth, once a class is declared closed by Admissions and Records, waitlisting for that section shall be controlled at the departmental or program level. As students drop from sections of closed courses, those sections will reopen until the present enrollment level is reached.

EFFECTIVE: Fall 1990

RATIONALE: The current system is inefficient and cumbersome, resulting in closed classes which actually have space in them for more students. The proposed procedure would give individual departments and programs control over waitlisting, would ensure fuller enrollment of courses in high demand, and would enable more students to complete enrollment before courses actually begin.

MEMORANDUM

TO: Ann Tremarello, Director
Admissions and Records

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: May 7, 1990

RE: PROPOSED SEMESTER MODIFICATION

Attached you will find a motion from the UAF Faculty Senate, which you have previously provided me some guidance on and which I have signed with a modification. I have received student concerns regarding the shortening of the exam schedule, and I would like you to explore options that would assure the 14-week semester as well as handle the examination period. One option might be the administering of examinations on the final class days of the semester. However, would it be possible to look at an exam schedule that would begin on the last two days of the semester and continue for the first two days of the week following the semester? If the examination schedule is set for the final class days, this would provide the time that people need for class study, and it could still provide us with a two-hour time block for examinations. Perhaps an alternative would be to schedule the first two days of the following week for examinations for those classes where the faculty members feel there is a need for a longer exam than a one-hour time block would provide. If we had a 14-week schedule with an examination week following it, what would this do to the semester length?

I would appreciate your providing me, before the start of the Fall semester, with three or four options which could implement the spirit of this motion. Thank you.

CHARGE
=======

The Task Force on Department Chairpersons is charged with addressing at least the following:

1. making the Senate approved department chair election policy workable by developing subsequent policies that will define the role and tasks of department chairs with respect to deans and to department faculty.

2. developing procedures for selection and removal of department chairs.

3. suggesting methods by which department chairs may be compensated for their service.

4. making suggestions as to the relevance of department size in the selection, removal, and compensation of department chairs.

Dave M. Smith 4-25-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #18, April 13, 1990:

MOTION PASSED (unanimous approval)
==========

Pending completion of all University requirements, the Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees.

Effective: Immediately

Rationale: These degrees are granted upon recommendation of the faculty. As the representative body of the faculty, we are making that recommendation.

David M. Smith 4-25-90

President, UAF Faculty Senate Date

ORIGIN

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (with 2 nays, 2 abstentions)
==========

The UAF Faculty Senate moves to replace the existing policy on selection of academic unit heads to the proposed policy on election of department chairs as follows:

1. Election of department chairs shall be by a simple majority vote of the vote of all tenure-track faculty and permanent instructors of the respective department.

2. Department chairs shall be elected as representatives of their faculty.

3. Among other agreed upon duties, department chairs will have access to the college-wide budget requests and allocations and will operate as a college-wide budget committee.

****

Follow-up: The Faculty Senate is further charged with forming a committee to determine the role, duties, functions, and compensation of department chairs.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: This new policy will enable representative department chairs to assist their departments in meeting the goals that the faculty have determined to be important and will empower department chairs to act on behalf of their faculty.

RE: DEPARTMENT HEADS MOTION--REQUEST FOR EXTENSION

I would like to request an indefinite extension in my taking action on the department head motion which I received in my office on March 20, 1990. According to Article XI, Section 1 of the Faculty Senate constitution, such an extension may be granted upon request by the chancellor and approval by the Administrative Committee of the Faculty Senate.

My reason in doing so is to engage in further exploration and discussion of the issues surrounding department heads/chairs. I found the discussion at the Executive Council of March 28, 1990 to be revealing and useful in my consideration of the action. However, I am also of the belief that, in its current form, I would be doing the University a disservice by taking final action either way. One of the most telling observations that came out of the Executive Council meeting was the fact that we have the *cart before the horse.* This was voiced by a number of people, and it seems clear that we need to scope out the role, duties, and functions of the department heads/chairs and, from that, should follow the means of election/selection.

I would also like to suggest that the senate committee working on this further elaboration work with a few of the deans and current department heads so that a fuller exploration of the issues, desires, and problems might be brought about.

If the Administrative Committee of the Faculty Senate is willing to grant such an extension, I would appreciate knowing of your decision before the April 13, 1990 Faculty Senate meeting. Thank you.

DATE: April 9, 1990

SUBJECT: Department Heads Motion -- Request for Extension

On behalf of the Faculty Senate, the Administrative Committee has agreed to grant you an extension to act on the department head motion passed by the Senate on March 9, 1990, until such time that the Senate receives and acts on recommendations from the Task Force on Department Chairs.

cab

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (17 ayes, 9 nays)
==========

The UAF Faculty Senate moves to establish the following ~~policy~~ procedure PBOR 4/19/90 to consider requests to censure administrators:

A. An investigation for possible censure of an administrator must be initiated by a petition signed by 25 individuals with faculty rank. – see attached PBOR 4/19/90

B. There shall be an independent investigation by faculty of the case against the person being considered for faculty censure, including votes of no confidence. Once a motion to consider censure has been raised in the Senate, the Senate President, in consultation with the Administrative Committee, shall appoint an ad hoc committee of at least three members of the faculty (members may or may not be senators).

C. This committee shall be charged to thoroughly investigate any and all reasons for considering the action, and shall report within (30) days its findings and recommended action. The recommended action can include remediation.

D. Upon acceptance of the ad hoc committee's report, the Faculty Senate will act upon the committee's recommendation.

E. Any motion and consequent vote shall be by secret ballot. The vote of no confidence shall be by simple majority. The vote will be followed by a communication of the action to the Chancellor's Office, or in the case where the Chancellor is involved, to the University of Alaska President, for consideration and response. The appropriate administrator(s) ~~shall~~ MAY communicate their response to the Senate within 30 days. PBOR 4/19/90

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: On occasion, the Faculty Senate needs to address the issue of administrators who have lost the confidence of faculty. However, the Senate has no policy which can provide a fair, deliberate, and responsible procedure for considering these cases. This motion proposes such a procedure.

RE: CENSURE PROCEDURE

I have approved, with the modifications contained in the motion and in this memorandum, the action of the senate regarding a procedure for censure. However, I did find the motion troubling. Let me explain.

The senate has the right to take action at any time regarding any individual within the University including members of the administration. Attempting to regulate how and when such an action might occur is something that I believe is not in the best interests of the University or the senate. Many different issues can be involved including the severity of an action or the chronic nature of such actions. The senate action came to me as a policy item, yet it seems inappropriate as a policy. It also seems inappropriate as part of the senate's constitution and by-laws. Thus, I have modified the action to reflect that it is a senate procedure for it is a means by which the senate will conduct its business.

I am further concerned that the action is out of context. An investigation for possible censure is a very serious action and is one that should be utilized only as a last resort. Yet, I find nothing in the senate action to indicate that other means of problem resolution have been explored. There are other ways of correcting inappropriate actions within the institution, and I would hope that all who are part of the academy would utilize these means.

Let me address the specific items contained within the action. With regard to Section A, there is nothing in the senate action which indicates the substance of charges for which a petition may be initiated. Because 25 faculty members might disagree with a particular action, is this sufficient enough cause to initiate such a petitioning? If such is the case, chaos will reign because many actions taken throughout the institution will be controversial in nature. A petition and investigation can be as damaging to an individual as a censure vote.

Regarding Section B, this mandates an independent investigation once the signature petition is received. Neither the senate president nor the administrative committee appear to be given any latitude, rather, they "shall appoint" an investigating committee. The institution would be better served if the senate president and the administrative committee had the latitude to determine whether or not the charges being alleged (if any) are serious enough to warrant further investigation.

Under Section D, the senate is mandated to act on the committee's report, yet the committee might be of such a nature that no further action is required. Additionally, the procedure does not mandate that the individual being charged has a right to appear either before the committee or the senate to answer the charges. Additionally, there is no requirement that the investigations and deliberations shall be kept confidential. The senate may be bordering on legal liabilities depending on how they carry out their actions.

Under Section E, it assumes that the only form of censure is by a vote of no confidence. Censure could and should take other forms than just a "no confidence vote." Yet, the implication is otherwise. Again in this section is the same issue whereby the administrator is asked to communicate after the action rather than before it. Further, if the action of the senate is against censure, why then should there be any further communication of this throughout the institution?

Given the reservations I have expressed, you might ask why I signed the senate action. Despite the fact that I believe it is a flawed procedure, it is the right of the senate to establish any procedure it wishes in order to bring action against an individual in the institution that it feels it has cause to take such action against. My personal belief is that you do not have a carefully thought-out, working procedure in this action and that the senate would be better served by rescinding its action and giving far more careful thought and consideration to the entire issue. However, that is my opinion, and I endorse the senate's right to conduct its business as it sees fit.

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to conduct a faculty referendum to provide an advisory vote on the Core Curriculum Proposal. On March 22, 1990, the UAF Faculty Senate will distribute to permanent UAF faculty the Core Curriculum Proposal, along with the following advisory ballot. Completed ballots must be returned to the UAF Faculty Senate office by 5:00 p.m., Friday, March 30, 1990. Ballots may be returned by mail, FAX, or VAX. The Faculty Senate will vote on the Core Curriculum Proposal in its April 13, 1990, meeting. (see attached for copy of ballot)

EFFECTIVE: Immediately

RATIONALE: While current Senate procedure does not call for an advisory vote of the entire faculty on the Core Curriculum Proposal, response to the proposal at the level of schools and colleges and in the senate-sponsored convocation makes it obvious that there is strong faculty sentiment in favor of an advisory vote.

David B. Sapp 3/22/90

President, UAF Faculty Senate Date

ADVISORY BALLOT ON CORE CURRICULUM PROPOSAL

Please answer each of the following seven questions:

1. Do you favor implementation of the Mathematics Literacy section of the Core Curriculum Proposal?
   ===== yes =====no

2. Do you favor implementation of the Communication Literacy section of the Core Curriculum Proposal?
   ===== yes ===== no

3. Do you favor implementation of the Library and Information Literacy section of the Core Curriculum Proposal?
   ===== yes ===== no

4. Do you favor implementation of the Computer Literacy section of the Core Curriculum Proposal? ===== yes ===== no

5. Do you favor implementation of the Natural Sciences section of the Core Curriculum Proposal? ===== yes ===== no

6. Do you favor implementation of the Perspectives on the Human Condition section of the Core Curriculum Proposal?
   ===== yes ===== no

7. Overall, do you favor the Core Curriculum Proposal over the current general degree requirements? ===== yes ===== no

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to endorse the following motion presented by the participants of the General Assembly Governance Retreat, February 14, 1990:

> "We adopt, in principle, the concept of a council of presidents and suggest that it replace the General Assembly as it exists today. The council of presidents would improve the representation of the different constituent groups, while resulting in a more efficient form of governance. This structure will allow direct access for student, staff and faculty to the President and the Board of Regents on concerns that are unique to those groups, and will provide an avenue for joint consideration of issues that affect all constituent groups. This statewide organization would in no way dictate how governance is organized at the local campuses."

EFFECTIVE: Immediately

RATIONALE: As an outcome of the systemwide governance retreat, the faculty, staff, and student presidents have requested that each local constituent body at the three universities consider this motion which would begin a process to change the statewide governance structure.

David M. Smith 3-22-90

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (unanimous approval)
==========

A UAF undergraduate minor shall consist of at least 15 hours of coursework to be designated by each discipline or department offering a minor. Such designation shall specify whether courses used to fulfill minor degree requirements may be used at the same time to fill major or general distribution requirements.

EFFECTIVE: September 1991; earlier, by petition

RATIONALE: Since UAF began offering bachelor of science majors the option of obtaining a minor, there has been some confusion as to the content and requirements of minors among different academic disciplines. Implementation of this motion would eliminate confusion and give academic disciplines the freedom as well as the obligation to determine minor degree requirements.

CHARGE
=======

The Task Force on Lecturers and Research Associates/Assistants is charged with addressing the following issues and forwarding recommendations to the Senate at its April 1990 meeting:

1. How much teaching is being undertaken by temporary part-time faculty? How high a percentage is it in certain colleges and disciplines?

2. How much research is being undertaken by research associates and assistants? How high a percentage is it in certain colleges and disciplines?

3. How are these persons selected and how are they integrated (if at all) into the department structure?

4. How are these persons remunerated and what other benefits (if any) do they derive from University affiliation?

5. How much turnover do we have in these positions and what implications does this have for academic integrity at UAF?

6. How can the Faculty Senate and/or Staff Council better represent the temporary part-time faculty and the research associates/assistants?

7. What policies involving the part-time faculty and staff in research and teaching positions at the University should be considered by the Faculty Senate?

EFFECTIVE: Immediately

David McSmith 3-22-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (with 1 nay)
==========

The UAF Faculty Senate moves to refer to the Faculty Affairs Committee the motion regarding separating the EEO function from the hiring authority and instructs the committee to address the spirit of the original motion and recommend action at a future Senate meeting.

Dian M. Smith 3-11-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED
==========

The UAF Faculty Senate moves to refer to the Task Force on Lecturers and Research Associates/Assistants for further consideration the motion to amend bylaws regarding Senate representation of research associate/ assistants. The task force will present its recommendation on the motion at the next Senate meeting.

Dave M. Smith 3-22-90

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to reaffirm its position that if the statewide governance structure is not changed, the Senate will disassociate itself from the General Assembly.

Dave M. Smith 3-22-90

President, UAF Faculty Senate Date

Information Only

The UAF Faculty Senate approved the following at its Meeting #16 on February 12, 1990:

MOTION PASSED AS AMENDED (with 7 nays)
==========

The UAF Faculty Senate instructs the Curricular Affairs Committee to make a careful study of the UAF academic calendar with a view toward extending the length of the semester to 840 minutes of instruction per credit hour, exclusive of the final exam period. The committee should attempt to complete its deliberations in time to submit a motion to the full Senate for action in its April 1990 meeting. In any case, the motion must be acted upon by October 1990 in order to be implemented in the 1991-92 academic year.

Effective: Immediately

Rationale: While there is considerable faculty discontent with the current UAF academic calendar, the 1990-91 calendar has already been published and advertised. If changes are to be made in the academic calendar, it is only reasonable to contemplate such changes with deliberation.

David R. Smith 2-27-90

President, UAF Faculty Senate Date

Information Only

The UAF Faculty Senate approved the following at its Meeting #16 on February 12, 1990:

RESOLUTION PASSED AS AMENDED (unanimous approval)
==========

The UAF Faculty Senate moves to adopt the following resolution relating to the policy on sabbatical leaves for faculty and to the manner by which they are funded.

WHEREAS, Faculty are to be responsible for the understanding of the most current information germane to their specific areas of research and teaching; and

WHEREAS, The concept of faculty sabbatical leave is recognized by this university and others worldwide as a means by which faculty can remain current in their specific areas of responsibility; and

WHEREAS, Faculty of the University of Alaska, because of our geographic remoteness, are at a relative disadvantage to interact with colleagues at other universities and research centers; and

WHEREAS, Sabbatical leave is no longer funded directly by University-wide funds, but rather is now the financial responsibility of the faculty members' administrative unit; and

WHEREAS, Statewide policy on time in residence for faculty applying for a second or subsequent sabbatical has recently been changed from five to six years; and

WHEREAS, The president of the University supports the concept of sabbatical leaves and recognizes that policies on funding and residence time should not have been changed; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recommends that University of Alaska reestablish University-wide funds for sabbaticals and that the residence requirement for second, and subsequent, sabbaticals revert back to the previous period of five years.

BE IT FURTHER RESOLVED, That the Faculty Senate requests the Chancellor to make the reinstitution of sabbatical leave funds a top priority in the next incremental budget request.

David M. Smith 2-27-90

President, UAF Faculty Senate Date

The UAF Faculty Senate approved the following at its Meeting #16 on February 12, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to direct the Administrative Committee to solicit nominations for the next Faculty Senate President Elect and to submit a slate of nominations for consideration by the Senate at its Meeting #17 on March 9, 1990.

Effective: Immediately

Rationale: This motion provides a procedure by which the Senate will be assured of having a strong field of candidates from which to select its next President-Elect.

Dan R. Smith 2-27-90

President, UAF Faculty Senate Date

Information Only

The UAF Faculty Senate approved the following at its Meeting #16 on February 12, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to support in principle the following recommendations of the Ad Hoc Committee on Governance Structure included in the committee's February 1990 report:

1. The Faculty Senate amend its constitution

   a. to include a forceful, coherent statement of purpose
   b. to focus on legitimate faculty concerns (teaching, research, creative activity, service)
   c. to have the major voice in shaping academic policy
   d. to address budgetary issues while items are being discussed and ranked, so that the opinions of faculty will be considered along with those of the Executive Council.

2. The Faculty Senate withdraw from and recommend the dissolution of the UAF Assembly.

3. The Faculty Senate withdraw from and recommend the dissolution of the Statewide General Assembly.

4. The Faculty Senate seek direct access to the President and the Board of Regents via a Presidents' Council made up of the presidents and presidents-elect of the faculty groups at UAF, UAA, and UAS.

David M. Smith 2-27-90.

President, UAF Faculty Senate Date

The UAF Faculty Senate approved the following at its Meeting #16 on February 12, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to refer back to the Graduate Council the motion amending the policy on composition for graduate advisory committees and asks for assurances that the interdisciplinary degree program is not adversely affected by such a motion. Further, the Senate empowers the Graduate Council to act on this motion on behalf of the Senate after making these assurances.

[Motion distributed at Senate meeting:

The UAF Faculty Senate moves to amend the policy on committee composition for graduate advisory committees to require that faculty serving on these committees be primarily employed with the University of Alaska Fairbanks.

Effective: Fall 1990

Rationale: The graduate catalog presently states that the primary employment of faculty members on the graduate advisory committees will be with the University of Alaska. The current composition of graduate advisory committees generally is in accord with the proposed amendment. In addition, the University of Alaska Fairbanks, not the University of Alaska, is the degree granting institution.]

AGENDA

UAF FACULTY SENATE MEETING #15A
Wednesday, January 17, 1990
1:00 p.m. - 5:00 p.m.
Wood Center Ballroom

1:00 I Call to Order - David Smith — 5 Min.
- A. Roll Call
- B. Adoption of Agenda
- C. Introduction

This special session of the Senate has been called to provide our members with the opportunity to begin the new decade with a clearly defined focus. The session has two goals:

1) A discussion and prioritization of the major policy issues that we the faculty at UAF need to consider.
2) A discussion of the role of the faculty and the Faculty Senate at UAF.

1:05 II Overview and reactions to David Smith's issues paper. — 45 Min.

We invite any member to create their own issues paper to share with the Senate (please bring 40 copies for the members).

1:50 III Break into small groups (7-9 members each) to accomplish the following: — 60 Min.
- A. Develop and prioritize list of policy issues that need faculty attention.
- B. Suggest methods, time tables and responsibilities for addressing each issue.

2:50 IV Each group leader presents issues list to the full Senate which will consolidate group lists into a master list. — 40 Min.

3:30 V Discuss and prioritize issues from master list and determine methods, time table, and responsibilities for addressing each issue. — 60 Min.

4:30 VI Develop a statement (synthesis) as to the future role of the faculty and the Senate at UAF. — 30 Min.

5:00 VII Adjournment

MEMORANDUM

TO: UAF Faculty Senate
FROM: David M. Smith, President
UAF Faculty Senate
DATE: January 12, 1990
SUBJECT: Background to issues to be considered at the January 17 Senate meeting

This is the paper I promised at the December meeting of the Senate. I apologize for being so late but have been under the weather much of the break. I have tried to keep this brief and raise only what I see to be some basic issues. It may stimulate other issues you would like to have discussed. In order to illustrate my expectations of the role of university faculty, I have started with some personal notes. Please understand I am not suggesting we recreate one of these institutions in Alaska. I do believe that we would be well served to acquaint ourselves with the academy's traditional view of faculty.

INTRODUCTION. I came to UAF about five years ago after 20 years teaching in universities. My experience includes a State Land Grant Institution (Michigan State), a Jesuit University (Georgetown), a state affiliated private university (Temple) and an Ivy League school (The University of Pennsylvania). My appointments have ranged from pretty traditional teaching to research and administration - serving for six years as the director of a major research center at Penn.

During that time I was never asked to sign a time sheet, I was never subject to formal evaluation by a dean or department head, I don't remember ever hearing my department head or dean referred to as my "supervisor", I never signed a contract and was never hired for less than a three year term while on a tenure track. Furthermore, faculty in all four institutions were expected to take, and took seriously, managerial roles in the hiring and evaluation of other faculty, in the development and oversight of academic programs, and in taking responsibility for their own professional lives and development (i.e., getting research support, deciding how to spend their time, what professional meetings to attend, etc.) With the exception of Georgetown, which with its Jesuit tradition was more autocratic than the other institutions, deans and department heads clearly served at the pleasure of the faculty rather than of the hierarchy.

In none of these institutions was faculty governance a big issue. That the faculty is the university was accepted. This was reflected in virtually every activity and structural arrangement from the roles faculty played in graduation rituals to the recruitment of students to work with particular faculty to the faculty role in budget allocations and the relationship between administrators and faculty. In no institution that I have served would or did an administrator last long if he or she was perceived as failing to serve the interests of the faculty.

I want to make it very clear that I consider none of these institutions as perfect. I am not pining to go back and certainly don't want to see us recreate an Ivy League in Fairbanks. I have mentioned my experiences only to illustrate the kinds of professional expectations I bring to the role of University professor; expectations which are part of the tradition in the academy. Faculty are not employees of the administration but professionals under contract to the institution. The administration does not constitute a management team but management functions are vested primarily in faculty with administration, appropriately selected from the ranks of faculty by the faculty, charged with administering faculty formulated policy. (I might add that in my experience the best academic administrators - deans, chancellors, provosts, presidents, etc. - are those that continue the faculty functions of teaching and research. They value their reputation as faculty to the neglect of control and turf concerns.)

Let me again state the basic proposition, FACULTY ARE THE UNIVERSITY. (It is not by accident that historically the terms "faculty" and "university" were often used as synonyms; e.g., "He studied with the Faculty of Arts and Letters at Cologne.") Following from this, the policy-making purview of the faculty is the general well-being of the institution and the oversight of academic affairs. (I am indebted to Donald O'Dowd for this wording.) This is indeed traditionally accepted.

There are several implications for the view I have adduced that perhaps can be made explicit as a step in moving to the more concrete issues we as UAF faculty representatives are presently facing.

THE STRUCTURE OF GOVERNANCE. The governance structure in existence at UAF reflects the traditional role of faculty in the University. However, our effectiveness at the system level - witness the decisions to build a

presidential house and to seek a new president without any faculty input in the decisions - is mitigated by the systemwide General Assembly structure now in place. Furthermore, we have been thwarted, up to now, in our attempts to bring about change in this structure.

The General Assembly structure is predicated upon the unwritten assumption that we all - faculty, staff and even students - are merely employees of the administration (labor vs management/ownership, if you will) and that we all have an equal, albeit weak, stake in management decisions. The General Assembly constitution cannot be changed unless each constituent group - each student, staff and faculty organization at each of the three universities agree.

President O'Dowd will be underwriting a retreat of sorts in February, to be held in Anchorage, to examine the issue of governance. Plans call for all of the executive staff - president, vice presidents and chancellors - to attend and the presidents of all constituent groups. As a result, out of twenty-six participants invited, three will be faculty. The retreat does not hold much promise to be a basis for developing a system of governance giving pre-eminence to the faculty role.

At issue for us are at least the following:

- How can we effect change in the governance structure? (any change requires unanimous consent by each constituent group at all three universities, the Statewide Administration Assembly,and the General Assembly, and the permission of the chancellors and of the president. Then, the Board of Regents must act.

- Our participation in the February governance retreat - should we and what posture should we take?

- The possibility of withdrawing from the General Assembly and forming a statewide senate.

MECHANISMS FOR FACULTY VOICE AT ALL LEVELS. The systemwide governance structure is only one of the blockages, and in some way the least important, to the effectiveness of faculty input in decision-making. Policy-making structures and procedures within colleges also needs our attention. There are several facets to this issue.

First, deans need to understand that they are accountable to their faculty. This does not mean that they should be weak. However, their strength, contrary to the present situation, should be predicated upon the full support of their faculty for whom they act. (I know one case where the chancellor directed a dean to transfer a position and program to another college. The dean did so forthwith not bothering to consult with the faculty of either unit. Other examples may be easily adduced supporting the contention that deans see themselves acting on behalf of higher administration rather than their faculty.) Neither does this accountability mean that deans are unable to act contrary to the wishes of the faculty. It does mean that such actions come as a last resort, after attempting to get faculty support, and in the full knowledge that faculty will be fully informed and free to dissent.

Second, we need better College based structures to ensure faculty voice. It is easy for a dean to claim that they have consulted with faculty simply by asking several cronies for their opinions, absent a more structured arrangement that promotes regular discussion of issues and direction to the dean. An obvious source of systematic feedback would be a council of department heads. However, as most of us know, our department structures are weak and department heads - mostly appointed by deans and not infrequently being untenured, junior faculty - are subject to manipulation and act largely without faculty authority.

I would like to suggest that we consider, either through legislation or encouragement, several changes in the colleges' ways of doing business:

- Probably each college should have a budget committee that has general oversight of the entire college budget - not just that portion the dean decides to allocate to a department.

- We should look closely at the departments as they presently exist and consider consolidating smaller ones and finding ways to empower department heads - by electing them from the faculty as a start.

- The faculty of each college should undertake an annual evaluation of the dean, and perhaps the department heads, to give systematic feedback to the deans as to faculty perceptions of their performances. This evaluation not to be used by the chancellor for summative purposes and carried out under the auspices of the senators from the college.

MECHANISMS FOR PROFESSIONALLY REMOVING INEFFECTIVE ADMINISTRATORS. If university administrators primarily serve at the pleasure of the faculty, we should operate under a set of understandings and procedures which enable us to know when they have lost the confidence of the faculty and to encourage or force them to step aside with minimal negative personal or professional effects. During the past two years, we have been asked by the university community to investigate the possibility of censuring two vice chancellors. Absent any understandings or set of established procedures, our actions have been awkward and their effectiveness is still unproven.

The sense of impotence we experience in this area is both frustrating and ultimately demoralizing. The clear implicit message to faculty, sometimes articulated, is "if you don't like the way the administration is acting, then leave!"

I would like to have us consider two proposals that would address this situation:

- Campus administrators be selected for set renewable terms. Renewal of the term would follow a careful assessment by faculty. The advantages to this are many and obvious - administrators would be hired with a clear set of expectations, the problem of ossification would be minimized, faculty would be more prone to overlook minor inadequacies knowing that they will have a say in decisions to retain, and knowing that they are truly accountable would affect the performance of the administrator.

- We develop a set of procedures leading up to a motion of censure or no confidence with several intermediate points of possible action.

In addition to considering these issues of general policy we must consider the request by the UAF Assembly (see attached motion) to investigate passing a motion of no confidence in the VCAA. The Administrative Committee of the Senate proposed a University-wide referendum on the issue. Therefore, at issue for us is:

- Should we seek the direction of the faculty, through referendum, for a motion of no confidence in the VCAA? Or, what action should be taken to respond to the UAF Assembly request?

MOTIVATING FACULTY TO ACCEPT THEIR PROFESSIONAL RESPONSIBILITIES. It is well and good to maintain that faculty are the university and should have a major managerial role to play. It is another thing to find ways to make it worth their while to accept the professional responsibilities implied in this view. Our track record in this respect is clearly inadequate. There are several symptoms of the problem as I see it. Faculty Senate representatives are too often chosen by default - no one else wants to do it. We have serious difficulty staffing committees. Faculty are reluctant to pass judgments on their peers in matters of tenure and promotion.

There is probably less agreement as to the causes of this problem but I will venture some possibilities. First, I think we have too many of two kinds of faculty. On the one hand, we have a number of those (like the Rumanian security forces who were recruited from orphanages so they would know no other kind of life) who have never taught elsewhere, have not established extensive outside professional networks, and so aren't aware that the way we do things is atypical. On the other hand, we have a number of senior, tenured, well-paid faculty who have no reason to change the way things are being done.

Second, we are in transition. Faculty are being called upon to apply higher standards in the evaluation of their peers than they were judged by. Faculty who were educated and hired as community college instructors are now expected to comport themselves and be judged as university faculty. These conditions can be sources of serious tension.

However, I am convinced that the most serious problem is the lack of positive support from the administration and the institution as a whole for faculty acting professionally. We have had little opportunity to really take responsibility for our own professional lives, including suffering the consequences of bad decisions. It is axiomatic, that people will become what they are treated like. Treat faculty like hourly employees and they will become that. Treat them as professionals and they will respond professionally.

We see this problem rearing its head whenever a dean makes a budget decision that affects the college without consulting faculty, when a mission statement or a set of program objectives formulated by faculty are altered by a higher level administrator, when legislation or departmental decisions are ignored by administrators, when administrators take credit for the actions of their faculty, when administrators are foregrounded at ceremonial functions

rather than faculty, and when the incentives for achievement of excellence are either patronizing or negative (i.e., we are cajoled to do better or granted little perks for our successes).

Solutions to this problem are particularly difficult, rooted as it is in the models followed by incumbent administrators and our lack of established academic traditions - it is settled tradition that supports the situation found at other institutions alluded to at the beginning of this essay, not specific legislation or written policies. We probably cannot create tradition through legislation.

I would suggest several small steps we can take.

- Do a better job of highlighting the achievement of faculty. (We have a proposal for the institution of a distinguished faculty award.) One way to do this would be through a Senate newsletter - which we voted to establish but have never gotten going.

- Consider establishing some sort of senior faculty advisory groups for each college and perhaps creating something similar at the university level.

- Look into the possibility of creating a "faculty club" where faculty would be encouraged to congregate and develop a collegial presence.

- Establish more colloquia and symposia series involving both local faculty and outside scholars in an attempt to switch the internal dialog to professional and academic issues.

- Actively seek ways to do away with time-sheets, yearly evaluation by administrators and other practices that constantly remind us that we are not really professionals.

- Be vigilant and professional in calling administrators to task who ignore or alter faculty decisions or who fail to consult with faculty.

- Consider developing procedures for ongoing program review. (The Board of Regents has made it clear that they are going to require ongoing program review with the end in view of creating economies.) One of the

faculty's professional responsibilities is that of monitoring ourselves with respect to the effectiveness of the programs we are responsible for. We need to take the initiative in this issue.

CONCLUSION. It is my hope that this short essay will both help us focus attention on some of the crucial issues we need to attend as a faculty senate. It is also my hope that this will stimulate you to raise and articulate other issues that need to be addressed as we assume the roles appropriate to us as a faculty and as a senate. A university can only be as good as its faculty makes it and we can work for the general well-being of the University only as we feel good about ourselves as faculty.

The UAF Assembly approved the following at its Meeting #6 on December 1, 1989:

MOTION PASSED (unanimous approval)
==========

The UAF Assembly requests consideration of a motion of no confidence in Vice Chancellor of Academic Affairs Janice Reynolds in her performance in that office be duly considered by each constituent body and their recommendation brought forward for a vote at the spring Assembly meeting #7.

RATIONALE: The actions of the Vice Chancellor for Academic Affairs during the Fall 1989 semester have created the impression of entrenching "ivory tower" thinking, promoting a superordinate-subordinate atmosphere, and appear to be contrary to the collegial and egalitarian purposes of a state supported public institution. The motion will require each governance unit of the UAF Assembly to address this issue, and forward their recommendation to the UAF Assembly for final disposition.

12/7/89

Chairperson, Coordinating Committee Date
UAF Assembly

The UAF Faculty Senate approved the following at its Meeting #15 on December 8, 1989:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to refer to the Curricular Affairs committee the motion relating to Special Topics, introduced at the December Senate meeting, and directs the Curricular Affairs committee to also review the definition and uses of Special Topics in order to provide a policy on this issue for future Senate consideration.

Dick W Swan 12-15-89

President, UAF Faculty Senate Date

ATTACHMENT 15/4
UAF FACULTY SENATE MEETING #15
DECEMBER 8, 1989
SUBMITTED BY CURRICULAR AFFAIRS

MOTION
=======

The UAF Faculty Senate moves to confirm as policy the following statement: Special Topics courses must be approved by the curriculum council, department head, and dean of the college or school in which the course is offered.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: Curriculum council approval is a crucial part of the course approval process because it assures continuing direct faculty oversight of course offerings.

Furthermore, curriculum council approval of all courses, including special topics courses, is an important step in the protection of the integrity of off-campus courses, as well as the University course offering in general since approved off-campus courses are given status equal to courses offered on the main campus.

Information Only

The UAF Faculty Senate approved the following at its Meeting #15 on December 8, 1989:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to confirm the membership of the University-wide Promotion and Tenure Committee as follows:

Edward J. Brown (92) Professor, Microbiology	School of Engineering
Clifford T. Cox (92) Associate Professor, Accounting	School of Management
Jack Distad (90) Professor, Mathematics	College of Liberal Arts
Claron Hoskins (91) Professor, Chemistry	College of Natural Sciences
Judith S. Kleinfeld (91) Professor, Psychology	College of Rural Alaska
Jay D. McKendrick (92) Associate Professor, Agronomy	School of Agriculture & Land Resources Management
Ruiz Anne Rozell (90) Associate Professor, Culinary Arts	School of Career & Continuing Education
P. D. Rao (91) Professor, Coal Technology	School of Mineral Engineering
Donald M. Schell (90) Professor, Marine Sciences and Ocean Resources	School of Fisheries & Ocean Sciences

Effective: Immediately

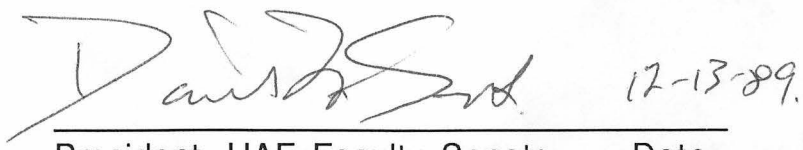
Rationale: Each college/school was requested to hold elections for its representative on the University-wide Promotion and Tenure Committee. The membership presented to the Senate for approval is the response to that request.

David M. Schell Dec 11 1989

President, UAF Faculty Senate Date

Information Only

The UAF Faculty Senate approved the following at its Meeting #15 on December 8, 1989:



RESOLUTION PASSED (with 3 nays)
==========

The UAF Faculty Senate moves to adopt the following resolution clarifying the role of the University-wide Promotion and Tenure Committee:

WHEREAS, The University-wide Promotion and Tenure Committee is now responsible for reviewing the decisions of the senior faculty for consistency across units and is not expected to repeat the substantive evaluation of each unit's peer review committee; and

WHEREAS, This new role represents a major change in the tenure and promotion review process at UAF which not all faculty and administration may clearly understand; now

THEREFORE BE IT RESOLVED, That the primary focus of the University-wide Promotion and Tenure Committee is to: 1) add a recommendation to the file of the candidate where the conclusions of the unit peer review committee do not coincide with the candidate's administrative supervisors (department head, institute director, and/or dean); and 2) review promotion and tenure files to assure that University-wide standards are met, using unit standards and indices as the major benchmarks for review.

12-13-89.

President, UAF Faculty Senate Date

The UAF Faculty Senate approved the following at its Meeting #15 on December 8, 1989:

MOTION PASSED (with 1 nay)
==========

The UAF Faculty Senate moves to establish the following procedure for Senate consideration of the UAF baccalaureate core curriculum proposal:

1. Core curriculum committees finalize the core curriculum proposal for presentation to individual schools and colleges.

2. Faculty members in schools and colleges review the core curriculum proposal and submit comments to core curriculum committees.

3. Core curriculum committees refine the proposal in preparation for presentation to faculty and students in a special convocation.

4. Core curriculum committee heads present and explain proposal to faculty and students in a special convocation sponsored jointly by the core curriculum committees and the UAF Faculty Senate Curricular Affairs Committee.

5. Based on faculty and student response in the convocation, core curriculum committees further refine the proposal for presentation to the UAF Faculty Senate Curricular Affairs Committee.

6. Core curriculum committee heads present the proposal to the UAF Faculty Senate Curricular Affairs Committee in time for the committee to consider the proposal, conduct an advisory vote on the proposal, and submit the proposal to the full Senate for consideration in its March, 1990, meeting.

7. Core curriculum committee heads present the proposal to the UAF Faculty Senate for discussion in its March, 1990, meeting and for further discussion and final vote in its April, 1990, meeting.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE:

1. Throughout the above discussion, the word "proposal" signifies the entire UAF baccalaureate core curriculum proposal, including components devised by committees on "Humanistic Expressions," "Literacy," "Mathematics," and "Natural Sciences."

2. The procedure outlined above is designed to ensure fair and full consideration of the proposal by faculty throughout the university and by UAF Faculty Senate members as their representatives. Furthermore, the procedure is designed to ensure UAF Faculty Senate action on the proposal during the 1989-90 academic year.

3. Core curriculum committees bear full responsibility for devising, refining, and presenting the proposal in a fair and timely manner so that the UAF Faculty Senate as presently constituted may, without acting in undue haste, complete its deliberations on the proposal before new senators take their seats at the April, 1990, meeting.

President, UAF Faculty Senate Date

Information Only

The UAF Faculty Senate approved the following at its Meeting #15 on December 8, 1989:

MOTION PASSED (with 3 nays)
==========

The UAF Faculty Senate moves to postpone until the February 12, 1990, Senate meeting action on the attached motion relating to the use of position numbers in calculating reapportionment figures.

David W Snow 12-13-89

President, UAF Faculty Senate Date

ACTION POSTPONED UNTIL FEBRUARY 12, 1990, SENATE MEETING

MOTION
=======

The UAF Faculty Senate moves to amend Section 1 (ARTICLE III: Membership) B. Representation, Paragraphs 2. and 6. of the Bylaws as follows:

(( )) = deletion
CAPS = addition

Sect. 1 (ART III: Membership) B. Representation

2. A faculty member is one who holds academic rank AND OCCUPIES A UAF POSITION NUMBER ON THE LISTING OF FACULTY. (Currently includes lecturer, research or senior research associate, instructor, assistant professor, associate professor, or professor be they full-time, part-time or visiting.)

6. A faculty member having appointment split between units OR POSITION NUMBERS shall be included in each unit OR POSITION NUMBER in proportion to the respective appointment for the computation of item 5.

EFFECTIVE: Immediately

RATIONALE: Article III, Section 1-B, Paragraph 8 of the Bylaws directs that "Reapportionment will be done for the elections held in even numbered years or upon two-thirds vote of the Senate." Reapportionment is due now for the 1990 election year. The Faculty Affairs Committee, in deliberating reapportionment over three meetings, has been unable to reach a consensus as to how to identify a faculty member. The Listing of Faculty, provided by the Budget Office, identifies every faculty member in UAF by location(s), position number(s), months of appointment(s), and Full-Time Equivalent (FTE) status. This listing is a quantitative, objective and timely document with which to determine apportionment. This amendment will give direction to the Faculty Affairs Committee so that they may present a reapportionment motion

Information Only

The UAF Faculty Senate approved the following at its Meeting #15 on December 8, 1989:

MOTION PASSED (with 4 nays)
==========

The UAF Faculty Senate moves to postpone until the February 12, 1990, Senate meeting action on the attached motion redefining an academic credit hour of non-laboratory instruction.

Paul M Smith 12-13-89

President, UAF Faculty Senate Date

ACTION POSTPONED UNTIL FEBRUARY 12, 1990, SENATE MEETING

MOTION
=======

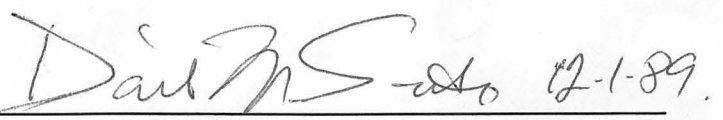
The UAF Faculty Senate moves to redefine an academic credit hour of non-laboratory instruction at UAF as consisting of 840 minutes of instruction, exclusive of the final exam.

EFFECTIVE: Fall Semester, 1990

RATIONALE: For Fall Semester, 1988, in response to the reorganization of UAF, the Faculty Senate redefined an academic credit from the formula motioned above to consist of a minimum of 800 minutes of instruction (implemented as 13, 60 minute weeks plus 20 minutes in finals week). This change, from 14 weeks to 13 weeks, was done as a compromise in order to accommodate the community college and certain rural units which were operating on a 12 week semester. This decrease has impacted certain programs so severely that instructional goals can no longer be met.

The UAF Faculty Senate approved the following at its Meeting #14 on November 10, 1989:

RESOLUTION PASSED AS AMENDED (unanimous approval)
==========



The UAF Faculty Senate moves to adopt the following resolution relating to the role of the unit peer review committees:

WHEREAS, The UAF Faculty Senate has endorsed review by one's tenured peers as the central process whereby candidates are evaluated for promotion and tenure and have codified this role in the new promotion and tenure regulations; and

WHEREAS, Under the new procedures, the unit peer committees are no longer charged with simply making recommendations to the deans but are vested with the major responsibility for tenure and promotion decisions, and

WHEREAS, Unless all parties to the reviews conscientiously and professionally accept their part in the process, the faculty responsible for carrying out the educational mission of the University will have abdicated their role in the decision-making to the ultimate loss of program quality and morale, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate reaffirm the above stated principles and request the President of the Faculty Senate and the Chancellor to take immediate steps to apprise the UAF faculty and administration of them, urging full and conscientious efforts to make the new procedures work.

President, UAF Faculty Senate Date

The UAF Faculty Senate approved the following at its Meeting #14 on November 10, 1989:

MOTION (passed unanimously)
=======

The UAF Faculty Senate moves to recommend the following amendments to the proposed Compensation Policy:

50% of the self-funded compensation increases will be annually devoted to protection of real income, and the other half of this increases will go to an open architecture policy reflecting the priorities of the 1989 UAF faculty vote on compensation, or as revised to reflect future faculty priorities.

The 1989 UAF faculty compensation priorities are:

PROTECTION OF REAL INCOME: ASSURING THAT COMPENSATION STRUCTURES WILL BE ADJUSTED FOR INFLATION.

COMPETITIVENESS: ASSURING THAT THE UNIVERSITY CAN SUCCESSFULLY COMPETE FOR, AND RETAIN, QUALIFIED FACULTY AND STAFF.

EQUITY: ASSURING THAT THE RELATIONSHIP BETWEEN COMPENSATION AND JOB CLASSIFICATION IS FAIR AND JUST.

SATISFACTORY PERFORMANCE: ASSURING THAT EMPLOYEES' COMPENSATION WILL BE ANNUALLY ADJUSTED WITHIN THE SALARY STRUCTURE FOR CONTINUED SATISFACTORY PERFORMANCE.

EXCEPTIONAL PERFORMANCE: ASSURING THAT MONETARY AWARDS ARE MADE TO RECOGNIZE THOSE EMPLOYEES WHO MAKE OUTSTANDING CONTRIBUTIONS TO THE UNIVERSITY.

The allocation of compensation among the second 50% of the self-funded compensation increases shall be negotiated by the UAF Faculty Senate and the University administration.

Rationale: This motion reflects the will of the faculty based on the results of the referendum on the proposed Compensation Policy.

Pres-Elect 11-14-89

President, UAF Faculty Senate Date

The UAF Faculty Senate aproved the following at its Meeting #14 on November 10, 1989:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to amend Section 3 (ARTICLE V: Committees) of the Bylaws as follows:

(( )) = deletion
CAPS = addition

Sect. 3 (ART V: Committees) E. Permanent Committees

2. The Service Committee will be 7 members who represent the academic community and the general public, with not less than two members being non-university employees. The chair must be a ((Senate)) UAF FACULTY member. Members' terms will be staggered to provide continuity. This committee will deal with policies relating to the service mission of the university and its faculty.

Effective: Immediately

Rationale: The requirement that the chair be a member of the Senate was determined at a time when committee membership was predominantly from the Senate; however, current, and possibly future, representation make meeting this requirement impractical. By requiring that the chair be UAF faculty, this prevents the possibility of a non-university employee serving on other related faculty committees, such as the Senate Administrative Committee.

11-21-89

President, UAF Faculty Senate Date

The UAF Faculty Senate approved the following at its Meeting #14 on November 10, 1989:

RESOLUTION PASSED (unanimous approval)
==========

The UAF Faculty Senate moves to adopt the following resolution relating to use of the Railbelt Energy Fund for construction of instructional buildings:

WHEREAS, The campuses of the University of Alaska have a shortage of space particularly in specialized laboratory facilities, office space and large lecture facilities; and

WHEREAS, The University, in order to attract and retain quality students and faculty, needs to provide up-to-date structures and facilities; and

WHEREAS, The University and its continued development is of utmost importance to the State of Alaska because of the University campuses' economic impact on the communities throughout the State; and

WHEREAS, The students of the University of Alaska support the construction of these facilities, and

WHEREAS, Various Alaska scientific and professional societies such as Sigma Xi, Alaska Geological Society, and Unified Fairbanks have endorsed the construction of the classroom/lab facilities; and

WHEREAS, The State of Alaska, in a time of financial difficulty, has been unable to fund new instructional facilities that are needed in Fairbanks and Anchorage; and

WHEREAS, Fairbanks and Anchorage are in need of such capital projects because of high unemployment and the economic benefit said project would have on these communities; and

WHEREAS, In the Railbelt Energy Fund lies the resources necessary to construct the instructional buildings needed so desperately on the Fairbanks and Anchorage campuses; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate goes on record as requesting that the Board of Regents directly approach the legislature and suggest that the legislature utilize a portion of the money in the Railbelt Energy Fund for the purposes of constructing an instructional building dedicated to the natural sciences on the UAF Fairbanks campus and an instructional building devoted to general classroom use at the UAA Anchorage campus.

President, UAF Faculty Senate Date

The UAF Faculty Senate approved the following at its meeting #13 on October 13, 1989:

RECEIVED
OCT 25 1989
CHANCELLORS OFFICE

MOTION PASSED (Unanimous Approval)
==========

The UAF Faculty Senate moves to accept the peer review units as indicated below:

UAF UNIT PEER REVIEW COMMITTEES

UNIT	NUMBER TENURED FACULTY
College of Liberal Arts	
Social Science I (Anth, ANL)	10
Social Science II (Geog, Hist, PS/Just, Sp Comm, PE, Mass Communication)	13
Mathematical Sciences (Math, Stat, CS)	10
Performing Arts (Music, Art, Drama, Broadcast)	14
Humanities I (English, Print Journalism)	9
Humanities II (For Lang, Phil/Hum)	7
Library Science	13
College of Natural Sciences --	
Biological Sciences	13*
Physics	20
Chemistry	8*
Geoscience	14*
College of Rural Alaska -- College as a Whole	19
Additionally, in the case of faculty in disciplines with limited representation within the college or in which the senior faculty felt a need existed for broader peer evaluation, the senior faculty appoint members from the discipline or related disciplines to become voting members of the unit for the purposes of the peer review and to comprise an ad hoc peer committee with members of the College's tenured faculty to advise the unit as a whole.	
School of Agri. & Land Res. Mgmt. -- School as a Whole	16*
School of Career & Continuing Education --	
SCCE Tenured Faculty Augmented by five faculty from CES, CRA, and Other (see proposal)	11*

School of Engineering -- School as a Whole	8
School of Fisheries & Ocean Sci. -- School as a Whole	26*
School of Management -- School as a Whole	13
School of Mineral Engineering -- School as a Whole	7*

In this first year, the unit peer review committee will be augmented with two or more faculty from allied areas.

Cooperative Extension Service -- CES as a Whole	7

*Committees with one or more members who hold dual Peer Committee Membership.

Davis M. Smith Oct 20, 1989.

This approval is subject to further review of those units with only 7+8 to determine whether Deans and Directors are included in the totals. Should the review determine that these units fall short of the 7 minimum, such units will be merged with units of similar interest.

Pat O'Rourke
10/27/89

The UAF Faculty Senate approved the following at its meeting #13 on October 13, 1989:

MOTION (Unanimous Approval)
======

The UAF Faculty Senate moves to endorse and request that the Chancellor forward to the the University of Alaska president the proposal to restructure the General Assembly and to request that the President bring together the presidents of faculty, staff and student governance groups to consider the proposal that follows:

RECEIVED
OCT 25 1989
CHANCELLORS OFFICE

PROPOSAL FOR ALTERING THE STRUCTURE OF THE
UNIVERSITY OF ALASKA GENERAL ASSEMBLY

PROPOSED NEW STRUCTURE
****

The new body would be called the Council of Governance Presidents and would consist of the following members:

UAA: 3 Presidents - 1 from staff governance, 1 from faculty governance, 1 from student governance

UAF: 3 Presidents - 1 from staff governance, 1 from faculty governance, 1 from student governance

UAS: 3 Presidents - 1 from staff governance, 1 from faculty governance, 1 from student governance

SA: 1 President - 1 from staff governance

This body of 10 would elect a chair from their members. If a president of any local governance body should desire to designate someone to sit in their stead on the Council, the designee must be an elected member of the body, must be approved by the body, and must serve for the entire term of the president who designated the member.

WORKING PROCEDURES OF THE COUNCIL
****

The Council would meet face-to-face a minimum of three times per year; once at a UAA campus, once at a UAF campus, and once at a UAS campus. Other meetings would be called via audioconference. The meetings would be scheduled to occur with Board of Regents meetings.

The business of the Council would be forwarded to the Council from the local governance bodies or from the President. All business that is to be acted upon by the Council must first be given to the local governance bodies for their respective comments. The Council will be required to give sufficient time (a minimum of one month) for local governance bodies to respond to specific issues facing the Council. If a local body is non-responsive during that time, the Council will have the authority to consider the business at the scheduled time.

The Council would only consider action on items that affect multiple Universities within the statewide system. Items that only affect one University would not come before the Council and, when appropriate, would be presented to the Board of Regents through their respective Chancellor. If the Board of Regents or the President believe that a proposed policy or action of one University will seriously impact another University in the system, they may request that the Council consider the policy or action prior to ruling upon it. Staff matters of common concern would be voted on by the four staff governance representatives; student matters of common concern would be voted on by the three student governance representatives; and faculty matters of common concern would be voted upon by the three faculty governance representatives.

Additionally, the staff representatives would develop a formal meeting and working relationship with the Vice-President for Human Resources and the faculty representatives would develop a like relationship with the Provost.

ACTIONS OF THE COUNCIL
****

The body is to be a deliberative body which is constituted primarily for the purpose of coordinating the actions of various employee and student groups from the multiple universities within the University of Alaska system. The body would not be a policy making body in itself, rather it would be responsible for coordinating the policy development that occurs in local governance groups so that system-wide policy reflects the needs and desires of each employee and student group at the multiple universities within the system. The Council would work to inform each of the local governance groups about the actions of other governance groups and would, when appropriate, work to coordinate the actions of various governance groups when their actions would affect other groups within the system. In no case would the Council be able to dictate the policies of any University governance body but would work to send system-wide concerns back through the local governance bodies so that those local governance bodies could consider possible modifications.

The Council would also act as the major vehicle for sending multiple University concerns to the Regents through the President. When multiple governance bodies desire to work together to establish system-wide procedures or agreements, this would be the appropriate body to carry those desires to the Regents.

The Council could also continue to act as an outreach arm of the University of Alaska system by working with other State and governmental agencies to promote higher education for the citizens of Alaska. This body could corporately propose ways to attract and retain more Alaska students. They could work on revisions to student loan procedures and could work with the legislature to make life on the campuses more rewarding for employees and students. Conferences and seminars with other educators and the development and dissemination of educational publications about employee efforts throughout the system could be coordinated by this body.

In effect, this body would work with Statewide administration through the respective governance bodies on large issues and leave to the local governance bodies the development of campus policies and regulations.

COMMITTEES
****

There would be no need for standing and permanent committees since the issues facing the body would vary. Instead, the Council would charge each president with the responsibility for appointing University members to special committees and task forces that the body creates to investigate statewide issues and concerns. These committees would report their findings to the Council, who would in turn request action from the individual University governance bodies prior to taking the action to the President for presentation to the Board of Regents.

RATIONALE: We are now a restructured University system that is very different from the system many of the current employees and students began in just a few years ago. While being a single system, we are three increasingly unique universities. Rather than continuing to insist that we be alike, it is time to realize that we clearly are, for most practical purposes, three universities that need to coordinate our efforts with one another so that all three universities can do what they do uniquely in the best possible manner without hindrances placed upon each University by an antiquated system. At times we need to realize (and I would go further to say that we embrace) the different roles each of our Universities has in the statewide system. Statewide governance should flow from local governance and not the converse.

INFORMATION ONLY

The UAF Faculty Senate approved the following at its Meeting #13 on October 13, 1989:

MOTION (passed with 4 nays)
======

The UAF Faculty Senate moves to endorse the recommendations of General Assembly relating to the Board of Regents regulation on Emeritus Status with the following changes:

1. The Faculty Senate recommends emeritus status be reserved for faculty, and only for faculty who have attained the rank of professor.

2. The Senate further recommends that non-faculty employees who have provided long and meritorious service to the University be recognized through some other mechanism yet to be developed.

Rationale: On the point of faculty emeritus being limited to the rank of professor, the sentiment was that only those individuals who had attained the highest honor accorded the professoriate in terms of active rank should be considered for emeritus status.

For other University employees who have given long and meritorious service to the University, there should also be a system of recognition as there is for the professoriate. The Senate is strongly in favor of such a system but respectfully suggests that the use of the word "emeritus" for non-faculty employees is a non-traditional use of the term and as such, the faculty would like a different system to be developed which would include all the provisions accorded emeritus professors.

David M. Smith 11/2/89
President, UAF Faculty Senate Date

General Assembly recommended revisions to University Regulation 04.05.02, "Termination and Retirement:"

1. In Section A., the General Assembly recommends that the faculty senates examine whether or not emeritus status for faculty should be limited to the rank of professor in light of the restructured mission of the university.

2. The General Assembly also recommends the following word change in Section A:

   'The process for AWARDING [[promoting]] an applicant/ nominee to Professor Emeritus will be a multi-level...'

   THE PRESIDENT OR CHANCELLOR MAY AWARD EMERITUS STATUS TO AN EMPLOYEE WHO IS RETIRING AFTER A MINIMUM OF TEN YEARS OF SERVICE WITHIN THE UNIVERSITY OF ALASKA SYSTEM.

   THE PROCESS FOR APPOINTING AN APPLICANT/NOMINEE TO EMERITUS STATUS WILL BE A MULTI-LEVEL REVIEW PROCESS ESTABLISHED BY EACH UNIVERSITY AND STATEWIDE ADMINISTRATION WITH THE CAVEAT THAT EMERITUS STATUS IS THE HIGHEST HONOR THAT CAN BE BESTOWED UPON A RETIRING EMPLOYEE.

   The General Assembly recommends that staff governance groups develop review criteria for employees other than faculty.

4. Section C, recommended word change:

   'The Board of Regents may [[confer]] AWARD emeritus status on a retiring President of the University who has provided long and meritorious service to the University.

5. Section D., revise the first paragraph to read:

   'Privileges which [[may]]WILL be made available by the [[cognizant university]]UNIVERSITY OF ALASKA SYSTEM to an employee with emeritus status include the following:'

6. Insert a new Section D.3 and renumber items 3 through 6. The new section D.3. reads should read:

   '3. PERMANENT WAIVER OF PARKING FEES'

7. Reinstate Section E from the existing regulation to read:

   'E. UPON APPOINTMENT TO EMERITUS STATUS A RETIRING EMPLOYEE SHALL BE DESIGNATED BY THE PROPER TITLE EMERITUS/EMERITA.'

The UAF Faculty Senate approved the following at its meeting #13 on October 13, 1989:

RESOLUTION (Unanimous Approval)
==========

The UAF Faculty Senate moves to adopt the following resolution relating to the University of Alaska system management:

WHEREAS, The UA Board of Regents has recently effected a basic restructuring of the University resulting in a configuration significantly different from past structures in that three universities have been created; each with their own missions, executive officers, budgets, governance structures and academic policies; and

WHEREAS, This restructuring was undertaken in response to financial contingencies still largely in effect; and

WHEREAS, We recognize the advantages to maintaining a statewide university system but are not convinced that the present statewide management structure; i.e., a structure comprising six Statewide executive officers with their staff, is, in light of the new configuration, the most efficient or appropriate management structure for the University of Alaska; and

WHEREAS, At this juncture in our history, principles of prudent management would dictate that we carefully examine our management structure; and

WHEREAS, The announced resignation of the incumbent president, and the attendant requirement that the Board of Regents act on his replacement, presents the Board with a unique opportunity to carry out this examination; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate respectfully request the University of Alaska Board of Regents to immediately appoint a committee to carefully examine the present statewide management structure, and following this examination, to make recommendations to the Board for action; and

BE IT FURTHER RESOLVED, That this committee be charged to examine the variety of management models employed by other public, land-grant universities keeping in mind any Alaskan statutory constraints; and

BE IT FURTHER RESOLVED, That this committee be appointed independent of the present Statewide administration, that it collect data independent of that generated by Statewide Information Services (although it should be free to include those data in its deliberations) and that the committee include among its membership the chancellors, and faculty (who should represent the majority of the committee), staff, and student representatives from the three University of Alaska universities; and

BE IT FURTHER RESOLVED, That we invite the Faculty Senates of University of Alaska Anchorage and University of Alaska Southeast to join with us in support of this resolution.

The UAF Faculty Senate approved the following at its meeting #13 on October 13, 1989:

RESOLUTION (Unanimous Approval)
==========

The UAF Faculty Senate moves to adopt the following resolution relating to the University of Alaska presidential search committee.

WHEREAS, In response to Donald O'Dowd's announced resignation as president of UA the UA Board of Regents has developed plans to constitute an independent committee to search for his successor; and

WHEREAS, Tradition in the academy, specifically as encoded in AAUP standards*, dictates that the choice of a university president is primarily the responsibility of the faculty working with the governing board (either through a joint committee or by separate committees that may later be joined); and

WHEREAS, The process announced by the Board of Regents violates this standard in a least three respects, viz, (1) faculty representation is not in the majority; (2) constituent representation in the process is not by election by the constituency; and (3) the rules governing the search have not been arrived at jointly; and

WHEREAS, Leaving these violations unaddressed will seriously weaken the search process and undermine the leadership effectiveness of the new president; and

WHEREAS, The UAF Faculty, through its senate, has already requested the Board of Regents to appoint an independent committee to examine the UA System management structures and processes before naming a new president

BE IT THEREFORE RESOLVED, That we request the UA Board of Regents to delay implementing the process for a presidential search until this committee has been constituted; and

BE IT FURTHER RESOLVED, That regardless of the establishment of the aforementioned committee, the Board of Regents reformulate the process for a presidential search to give added weight to faculty in the decision, thereby bringing the procedures in line with established practice and AAUP standards.

---

*According to AAUP Policy Documents & Reports (1984 Edition:111:112) "Faculty Participation in the Selection, Evaluation, and Retention of Administrators"

THE SELECTION OF ADMINISTRATORS

The Statement emphasized the primary role of faculty and board in the search for a president. The search may be initiated either by separate committees of the faculty and board or by a joint committee of the faculty

> and board or of faculty, board, students, and others; and separate committees may subsequently be joined. In a joint committee, the numbers from each constituency should reflect both the primacy of faculty concern and the range of other groups, including students, that have a legitimate claim to some involvement. Each major group should elect its own members to serve on the committee, and the rules governing the search should be arrived at jointly. A joint committee should determine the size of the majority which will be controlling in making an appointment. When separate committees are used, the board, with which the legal power of appointment rests, should either select a name from among those submitted by the faculty committee or should agree that no person will be chosen over the objections of the faculty committee.

According to the "Statement on Government of Colleges and Universities" (AAUP Bulletin 63 [February 1977]: 32-36):

> Joint effort of the most critical kind must be taken when an institution chooses a new president. The selection of a chief administrative officer should follow upon cooperative search by the governing board and the faculty, taking into consideration the opinions of others who are appropriately interested.....

The UAF Faculty Senate approved the following at its Meeting #12 on September 22, 1989:

RESOLUTION PASSED AS AMENDED (unanimous approval)

The UAF Faculty Senate moves to adopt the following resolution relating to the Regents' action on a new residence for the president of the University of Alaska:

WHEREAS, The quality of education and the academic environment at the University of Alaska are severely limited by the availability of resources; and

WHEREAS, Funding for instructional equipment and supplies, building maintenance, library acquisitions, and facilities for research and scholarly activities are inadequate to support our needs and aspirations; and

WHEREAS, This environment of limited resources requires careful consideration of priorities for new funding requests; and

WHEREAS, The proposal to invest limited resources in construction of a new residence for the president of the University of Alaska has never been subjected to open discussion and evaluation of its merit and priority vis a vis other academic needs; now

THEREFORE BE IT RESOLVED, That the Faculty Senate of the University of Alaska Fairbanks opposes the proposal from the president of the University of Alaska to build a new residence for the next university president. We urgently request that the Board of Regents of the University refrain from action in support of the proposal until it has been considered in an appropriate public forum within the University, and endorsed by the University community as a project deserving of priority relative to other academic needs of the University.

The UAF Faculty Senate moves to endorse the proposed revisions to University Regulation 06.01.01, Artwork for University Facilities.

President, UAF Faculty Senate

senmin3/14

The UAF Faculty Senate approved the following at its Meeting #12 on September 22, 1989:

MOTION (unanimous approval)
======

The UAF Faculty Senate moves to approve the Faculty Affairs Committee recommendation that a student not be placed on the University-wide Promotion and Tenure Committee.

RATIONALE: A great deal of credibility and weight is placed on the students' evaluation of faculty in the promotion and tenure process. It is not an exaggeration to say that these evaluations are one of the central teaching benchmarks used in the evaluation process at the University of Alaska Fairbanks. Also, the Senate has just approved changing the regulations (Section IV.B.3.c.) specifically allowing department heads to consult with students in preparing their evaluations. With this level of input from the students, given such weight, it is felt that the student concerns and evaluations are adequately addressed in the existing promotion and tenure process.

In addition, since promotion and tenure are conferred by the faculty, honors bestowed by faculty upon other faculty deemed worthy, consideration of the students' evaluation is sufficient to give the student an adequate voice in the process.

Thirdly, promotion and tenure is evaluated as a peer process. Therefore, it would be inconsistent and inappropriate to put the student, who is not a peer of the faculty member, in the peer role of evaluating the faculty member for promotion and tenure.

senmin/14

The UAF Faculty Senate Administrative Committee, as empowered by the Senate, approved the following on May 16, 1990:

MOTION PASSED
==========

The UAF Faculty Senate Administrative Committee, as empowered by the Senate, moves to recommend that all monies available for compensation in excess of the Regents mandated 3% satisfactory performance increase for all employees be used exclusively to adjust the salaries of permanent faculty.

Effective: Immediately

Rationale: Lack of competitive faculty salaries has placed the University in an untenable position in the hiring and retention of highly qualified faculty. The long-term negative impact of sub-standard salaries on the overall health of the institution will be profound and is unacceptable.

5-25-90

President, UAF Faculty Senate Date

The UAF Faculty Senate Administrative Committee, as empowered by the Senate, approved the following on May 16, 1990:

MOTION PASSED (unanimous approval)
==========

The UAF Faculty Senate Administrative Committee, as empowered by the Senate, moves to recommend that all monies available for faculty compensation in FY91 be distributed as follows:

> First, to ameliorate past losses in real income, all permanent faculty whose performance was satisfactory or above should receive a 3.5% salary increase.
>
> Second, any remaining funds should be distributed to colleges and schools in proportion to each college's or school's permanent faculty salary pool. These remaining funds shall be used to help address competitiveness and equity deficiencies and shall be distributed at a level and appropriateness determined by the permanent faculty of each college or school.

This motion would apply only to those faculty members not covered by collective bargaining agreements.

> Effective: Immediately
>
> Rationale: Lack of competitive and equitable faculty salaries poses one of the most serious threats to the scholarly quality of the institution. This motion attempts to address, in part, these threats.

5-18-90

President, UAF Faculty Senate Date

The UAF Faculty Senate approved the following at its meeting #11 on April 24, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to amend the entrance requirements to UAF relating to the preference of ACT examinations over SAT examinations until such time that Curricular Affairs can review the matter, and relating to mathematics as indicated.

(( )) = deletion CAPS = addition

Entrance requirements to UAF:

High School Graduates

To qualify for admission as a freshman, a high school graduate must have a high school grade point average (GPA) of 2.0 (C) or higher. Admission to specific baccalaureate programs will be based on a combination of the high school record and test scores. In addition, the applicant must complete with a minimum grade point average of 2.5 a core curriculum of at least 16 academic credits, including at least four credits in English, three CREDITS IN COLLEGE PREPARATORY ((in)) Mathematics (((including)) SELECTED FROM ALGEBRA I AND ((Algebra)) II, geometry, ((and)) trigonometry, ELEMENTARY FUNCTIONS, PRECALCULUS OR CALCULUS, three in social sciences, and three in natural or physical sciences (including at least one laboratory course in biology, chemistry, or physics.

The University of Alaska Fairbanks strongly recommends that students complete a minimum of 2 years of a non-English language.

All entering freshmen are required to submit the results of either an ACT or SAT examination((, ACT preferred)). [Note: This provision effective 1989-90.]

An applicant who meets the admission requirements stated above is eligible for admission to UAF as a freshman. However, entrance into a specific degree program may require as a prerequisite the completion of specific high school credits beyond those required in the core curriculum. A prospective student is advised to review carefully the high school credit requirements listed below for the specific degree program (in which he/she is interested) of interest in order to meet those requirements prior to entrance to the university.

High school graduates who do not meet the minimum high school entrance credit requirements and 2.5 GPA in the core curriculum may be granted provisional acceptance for a period not to exceed one calendar year from date of entry. Such students may be admitted later as unrestricted baccalaureate candidates provided they make up deficiencies by earning at least a C grade (2.0) in each of the appropriate developmental or university credit courses determined through advising and complete nine credits of the baccalaureate core with a grade of C (2.0) in each course.

Non-High School Graduates

Non-high school graduates 21 years of ago, or older students who completed high school by passing the G.E.D. tests or its equivalent, and other non-qualified high school graduates, may be accepted for unrestricted admission by completing either the ACT or SAT with minimum scores to be determined.

Provisional acceptance to the University of Alaska Fairbanks does not constitute admission as a baccalaureate student. Unrestricted admission is granted only after the fulfillment of the provisions noted above.

Effective: August 1991

Rationale: The restructured University, composed of the main campus at Fairbanks and former community colleges, is faced with the task of providing quality education to a student population with extremely diverse needs and experiences. Therefore, the University must maintain flexible entrance options. There is open admission into certificate and associate degree programs as well as individual University courses; however, requirements for admission into baccalaureate degree programs require specific secondary preparation.

The clause indicating preference of submission of results of ACT examinations over SAT examinations by entering freshmen was a modification when the motion was approved by the Chancellor's Office. At the request of Curricular Affairs, the clause is being removed to allow the committee the opportunity to review the matter.

MEMORANDUM

TO: Ann Tremarello, Director
Admissions and Records

FROM: David Smith, President
UAF Faculty Senate

DATE: March 5, 1990

SUBJECT: Senate action re: entrance requirements

Enclosed please find action approved by the Faculty Senate last year at its meeting #11 on April 24 1989, amending the entrance requirements.

Chancellor O'Rourke received this motion last spring, but to this date has not taken action on the motion. Article XI, Sect. 1 of the UAF Faculty Senate constitution, approved by Chancellor O'Rourke on February 1, 1989, states that "..A Senate action shall be considered approved unless written reasons for a veto are received in the Senate Office within 30 days of that action being received by the Chancellor's Office." In compliance with the UAF Faculty Senate constitution, please proceed with implementation of the amendments to the entrance requirements as indicated in the Senate action.

If you have questions relating to this matter, please contact me at 6962, 7964, or FFDMS.

enclosure

cc: Patrick J. O'Rourke, Chancellor

The UAF Faculty Senate approved the following at its meeting #11 on April 24, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to adopt the attached University of Alaska Fairbanks Faculty Appointment and Evaluation Policies (Revision 10, 4/24/89).

Effective: Upon Board of Regents' Approval

UNIVERSITY OF ALASKA FAIRBANKS FACULTY APPOINTMENT AND EVALUATION POLICIES

[The successful pursuit of the University of Alaska Fairbanks' mission requires policies to regulate matters relating to the appointment and evaluation of faculty. These policies are intended to specify, within the broad framework provided in BOR policy, the manner of application of these policies at the University of Alaska Fairbanks.]

CHAPTER I
Construction and Application

1. Construction. These policies shall regulate matters contained herein and may be altered, revised or repealed by the [University of Alaska Fairbanks] with the concurrence of the Board of Regents.

2. Application. These policies shall apply to all of the units within the [University of Alaska Fairbanks.]

CHAPTER II
Definitions

As used in these procedures, unless otherwise specified, the following terms shall mean:

1. "University system, University of Alaska, University of Alaska system". The public universities and community colleges of the State of Alaska referenced collectively as a system of higher education.

[2. "University". The University of Alaska Fairbanks.]

3. "Community College". A program of education, including both academic degree and non-degree programs, established by the University of Alaska in cooperation with qualified school districts or qualified political subdivisions of the state, and sponsored and funded by the school district or political subdivision and the University of Alaska.

4. "Board of Regents". The Board of Regents of the University of Alaska system.

5. "President". The chief executive officer of the University of Alaska system.

6. "Chancellor". The chief executive officer of the University of Alaska Fairbanks.

7. "Faculty". Those persons who have accepted and hold appointment to academic rank or special academic rank.

8. "Academic ranks". Ranks held by persons having the title of professor, associate professor, and assistant professor. These titles denote academic rank exclusively. Faculty holding academic rank are eligible for promotion and tenure.

9. "Special academic ranks". Ranks held by persons having one of the following titles:

   Lecturer: employed to teach part-time;
   [Instructor I, II, III: employed to teach full-time.]

   or "Qualified Academic Rank" - titles of academic rank preceded by:

   Adjunct: employed to perform faculty functions part-time;
   Affiliate: voluntary faculty service, not employed by the university,;

Visiting: employed to perform the faculty functions expected of academic rank positions for a specific period,;

Research: [employed to conduct research and] supported primarily by grant funding;

Clinical: special category reserved for practitioners in the health care delivery professions.

These titles denote special academic rank, exclusively. Faculty holding special academic rank are not eligible for tenure or promotion, except for those holding the qualified special academic rank titles of Research or Clinical who are eligible for promotion, only.

10. "Tenure". The status of holding a faculty appointment on a continuing basis following evaluation and award according to the terms of Chapter IV. E, herein.

11. "Tenure track position". A tenure track position is one which may lead to consideration for appointment to tenure as described in the policies and procedures. A tenure track position will require the performance of faculty function at least 50% of full-time for at least an entire academic year. For exceptional cases, and when in the judgement of the Chancellor the best interests of the university will be served, a faculty member may be appointed to a tenure track position at less than 100% but more than 50% of a full-time appointment.

12. "Non-tenure track position". A non-tenure track position is one which does not provide a faculty member any rights to consideration for appointment to tenure.

CHAPTER III
Appointment of Faculty

1. Appointment Categories. The following categories of appointment shall be used to fully specify the type of appointment and associated rights:

   a. Type of position

      (1) Tenure track position. Faculty appointed to tenure track positions either hold tenure or may become eligible for consideration for appointment to tenure under the conditions stated in Chapter IV. E. Time spent in these positions shall be counted towards the maximum time by which a tenure track appointee must be considered for tenure for continuation of employment. Faculty appointed to tenure track positions shall have titles of academic rank. (See also Chapter II, 7.)

      (2) Non-tenure track position. Faculty appointed to non-tenure track positions have no rights to consideration for appointment to tenure, nor does time spent in these positions count towards tenure. Faculty appointed to these positions shall have titles of special academic rank. (See also Chapter II, 8.)

   b. Tenure status. A faculty member appointed to a tenure track position may receive tenure only under the conditions specified in Chapter IV. E, herein. [Tenure is a privilege, not a right, and the standards demanded in the awarding of tenure should be rigorously applied. The performance expectations for the award of tenure are indicated in Chapter 4 of this document and in Chapter 3 of UAF Regulations.]

   c. Faculty rank and title.

      (1) Academic rank. Titles designating academic rank exclusively are: assistant professor, associate professor, and professor. [Faculty with academic rank are eligible for tenure and promotion.]

      (2) Special academic rank. Titles designating special academic rank exclusively are: lecturer, [instructor I, II, III,] and titles of academic rank preceded by the terms adjunct, affiliate, visiting, research, or clinical. Special academic rank faculty are not eligible for tenure; but those with qualified academic rank titles of "Research" or "Clinical" are eligible for promotion. Instructors are eligible for placement and advancement (I, II, III) within the special academic ranks of instructor but are not eligible for promotion to other special academic ranks. Special academic rank faculty appointed with qualified academic rank titles will have credentials and scholarly, research and/or creative achievements comparable to those held by faculty in these academic ranks.

d. Continuing, fixed-term, and terminal appointments

(1) Continuing appointment. A continuing appointment is one which is expected to continue unless a faculty member is terminated in accordance with policies defined in Chapter V of this document. [Continuing appointments are used for faculty with appointment to academic rank who are tenured or in tenure track positions.] Appointment may be renewed in the manner specified in Chapter IV, C. of this document.

(2) Terminal appointment. A terminal appointment is an appointment used when a decision has been made to terminate a faculty member [at the end of the contract period in accordance with the policies in Chapter V of this document.]

(3) [Fixed-term appointment. A fixed term appointment is one which is expected to expire at the end of a specified period. Fixed-term appointments are used for faculty members appointed to special academic rank, and may not be made for periods longer than three years. Fixed-term appointments are renewable at any time during the contract period.

Fixed-term appointments of one year or less require no notification of termination other than that specified in the letter of appointment. Fixed-term appointments of periods greater than one year shall require a six-month notice of nonrenewal. For cases in which the agreement is to be terminated prior to the fixed-term ending date, notice of the change and planned termination must be given in accordance with policies included in Chapter V of this document. Fixed-term appointments do not carry any obligation for renewal or continuation; however, subsequent appointments may be made if reappointment is in the best interest of the University and if the faculty member's performance warrants it.]

e. Appointments of distinction for faculty.

(1) Distinguished and University Professors. Tenured appointment as Distinguished Teaching Professor, Distinguished Research Professor, Distinguished Service Professor or University Professor may be given by action of the Board of Regents on recommendation of the faculty and concurrence of the Chancellor and the President.

(2) Distinguished Visiting Professors. Appointment as Distinguished Visiting Professor shall be made by the Chancellor, following consideration of recommendations of the faculty. Such appointment shall be reported to the President and shall be a non-tenure track appointment for a period of time not to exceed three years. These appointments are renewable indefinitely.

(3) Professor Emeritus or Emerita. Appointment as Professor Emeritus or Emerita is an honor conferred by the Chancellor, following consideration of recommendations by the faculty, upon an outstanding retiree of the university as described in Regents' Policy 04.05.02 and related University Regulation pertaining to retirement.

2. Appointment year and appointment obligation. Unless the terms of appointment otherwise provide, the normal appointment year shall be from July 1 to June 30 or a portion thereof, regardless of payroll mode. The duration of appointment obligation may be for a full year or less as described below:

   [a. Continuing appointments will normally be made for a full academic year (9 months) or a full fiscal year (12 months); although if a faculty member is appointed to a twelve-month position, payment of salary for three (3) months may be contingent upon availability of funds.

   b. Fixed-term appointments shall be for all or any portion of each fiscal year consistent with the conditions and terms specified in the appointment letter.]

3. Faculty Obligation.

   a. Duties. Faculty obligation may include teaching, research or other scholarly and creative activity, public service, university service and other duties and responsibilities required of a faculty member during the appointment year, and shall be consistent with academic rank and professional or disciplinary field.

4. Non-university activities. A faculty member shall not engage in outside activities which interfere with or are inconsistent with the performance of faculty obligation or are determined to run counter to the provisions of the Alaska Executive Branch Ethics Act or Board of Regents Policy 04.08.08 or University Regulation 04.08.08 governing conflict of interest.

5. Method of appointment. All appointments shall be made by the Chancellor or the Chancellor's designee in accordance with the policies contained, herein, and in the manner set forth in the document "UAF Regulations for Evaluation of Faculty."

CHAPTER IV
Evaluation of Faculty

A. Evaluation Criteria

1. [Policy. It is the Policy of the University to evaluate faculty on the basis of the criteria and standards identified below and in "UAF Regulations for the Evaluation of Faculty."

   Coordination of the evaluation processes for annual evaluation, reappointment, promotion, and tenure shall be the responsibility of the Chancellor's Office which shall establish and distribute guidelines and schedules for the evaluation processes.

2. Assumption. To fulfill the University's mission, each school and college within the University has a tripartite responsibility to provide teaching, research, and service.

   It is the responsibility of each school and college, in concert with the overall Special Mission of the University, to define the proportion of faculty effort which is to be directed toward meeting the responsibility in each of the tripartite areas.

   In accordance with the nature of the position that they are fulfilling, vocational/technical faculty and extension agents are exempted from a tripartite responsibility. Such faculty have a bipartite responsibility.

   Each individual faculty member's proportionate responsibility shall be reflected in annual workload agreements and performance evaluations.]

3. Criteria. In conducting evaluations of faculty performance, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation. In addition, units may elaborate in writing on these or other criteria which take into account the distinctive nature of the discipline or special University assignment. [For amplification of the following criteria as used for evaluation at UAF, see "UAF Regulations for the Evaluation of Faculty."]

   a. Mastery of subject matter.

   b. Effectiveness in teaching.

   c. [Achievement in Research,] Scholarly and Creative activity.

   d. Effectiveness of Public Service.

e. Effectiveness of University service.

f. [Demonstration of] Professional Development.

g. [Quality of Total Contribution to the University.]

4. Faculty Obligation and Assurance of Opportunity to Meet Obligation

a. [Faculty with Academic Rank. Tenure-track and tenured faculty are obligated to demonstrate performance in the areas of teaching and research/scholarly/creative activity and service in accord with their annual workload agreements and criteria appropriate to their appointment as contained in this policy. It is not expected that they will devote equal effort to each of the areas or that the distribution will remain the same each year.

b. Faculty with Special Academic Rank. Non-tenure track faculty will normally be expected to devote their efforts primarily to one area of responsibility, as defined in the appointment document. Special rank faculty may participate in other performance areas with approval of the appropriate dean or director, but supplementary effort shall not be required.

c. Each faculty member's work load assignments must assure adequate apportionment of time to engage in service, teaching, and scholarly activity sufficient to achieve promotion and tenure.]

B. Evaluation of Faculty for Initial Employment

[1. Standard. Determination of the appropriate rank for initial appointment shall be made based upon the criteria and minimum eligibility requirements identified below for that rank. Years of equivalent service in a comparable institution of higher education shall also be a consideration in determining appropriate initial rank.

2. Minimum Degree and Experience Requirements for Initial Appointment

a. Faculty with Academic Rank

(1) Minimum Degree Requirements

Earned doctorate

OR for appointments for which the doctorate is not the appropriate degree

Academic preparation as evidenced by advanced degree(s) and experiences sufficient to fulfill the requirements of faculty obligation as defined in Chapter IV, Section 4.a. of this document.

OR

Bachelor's degree for faculty in vocational/technical fields for which there is no recognized academic degree and appropriate licenses and certifications and appropriate experience as reflected in unit criteria.

(2) Minimum Experience Requirements

Assistant Professor - Demonstrated capability to perform effectively in the areas of teaching; in research/scholarly/creative activity; and in service to the extent consistent with the position's areas of emphases.

Associate Professor - Service at the rank of assistant/associate professor or equivalent professional experience; and a record of excellence in teaching; in research/scholarly/creative activity; and in service, to the extent consistent with the position's area of emphases.

Professor - Service at the rank of associate/professor or equivalent professional experience; and recognized excellence in teaching, in research/scholarly/creative activity; and in service, to the extent consistent with the position's area of emphases.

(3) Exceptions

Exceptional people not meeting the above criteria may be considered for appointment on a case-by-case basis and must be approved by the Chancellor.

b. Faculty with Special Academic Rank

(1) Qualified Academic Rank Appointments

Degree requirements for these specially focused appointments are the same as those identified for initial placement of regular academic rank faculty (a., above).

Experience/performance requirements for appointment in a qualified academic rank position shall be determined based on performance standards of equivalent quality as those required for academic rank, except that they shall apply normally to only one area of performance.

(2) Other Special Rank Titles

Minimum criteria for initial appointment to the special ranks of Instructor or Lecturer

a. Demonstration of effective teaching performance OR record of appropriate educational and work experience of sufficient length and quality to demonstrate breadth of knowledge in the discipline and indicate high potential for effective teaching.

(3) Exceptions

Exceptional people not meeting the above criteria may be considered for appointment on a case-by-case basis and must be approved by the Chancellor.

3. Process. In accordance with the practices and procedures set forth in "UAF Regulations for the Evaluation of Faculty," new faculty shall be appointed to the appropriate rank. If, however, an initial appointment is to be at the professor level, the dean or director must receive concurrence of the Chancellor or his/her designee.

C. Annual Evaluation of Faculty and/or Evaluation for Renewal of Appointment

1. Faculty with Academic Rank.

a. Standard. Faculty shall be evaluated on the basis of the criteria identified in Part A, above, and in accordance with the agreed upon areas of emphases. Faculty members must present a record which demonstrates performance of continuing high quality.

b. Process. Regular evaluations of non-tenured faculty and tenured faculty shall be conducted in accord with approved guidelines and procedures as contained in the document "UAF Regulations for the Evaluation of Faculty."

c. Decision. Based upon review of the faculty member's performance record and with the recommendations from unit/department level, the dean shall approve reappointment or issue notification of non-renewal in the manner and by the deadlines set forth in Chapter V of this document.]

d. Exclusive Reconsideration Process. A faculty member who is given a notice of non-retention may request reconsideration. Such process will be in accordance with the "UAF Regulations for the Evaluation of Faculty."

2. Faculty with Special Academic Rank.

a. Standard. Satisfactory performance shall not assure reappointment to a subsequent fixed-term contract. The determination of whether or not to enter into a subsequent fixed-term agreement shall be made in consideration of the University's needs and resources availability, as well as the faculty member's level of performance.

b. Process. Frequency and procedures for evaluation of performance shall be in accord with the guidelines and procedures described in the document "UAF Regulations for the Evaluation of Faculty."

c. Termination of Fixed-Term Appointment. Fixed-term appointments shall end on the date specified and no additional notification is required. If resources are not forthcoming and/or performance is unsatisfactory, it may be necessary to terminate the appointment before the original intended ending date. If early termination is necessary, the dean or director shall issue notification of termination in the manner and by the deadlines set forth in Chapter V of this document.

d. Exclusive Reconsideration Process. A faculty member with special rank may appeal a termination of appointment decision only if the contract is terminated before the end of the fixed term originally identified in the appointment. The procedure is the same as cited in Section 1.d. above.

D. Evaluation of Faculty for Promotion

1. Faculty with Academic Rank.

a. [Promotion/Tenure Linkages. Promotion to associate professor is concurrent with the award of tenure, and vice versa. Any faculty member applying for promotion to the associate level must also apply for tenure. An assistant professor who has not achieved promotion to associate professor before the year of mandatory tenure review (i.e., in the seventh year of appointment) must also apply for concurrent promotion to the associate rank and meet the requirements of both.

b. Standard. A continuing high level of performance is expected to be demonstrated to merit the award of promotion from the assistant through the professor rank. Performance shall be evaluated on the basis of the criteria identified in Part A of this Chapter, and in consideration of the level of obligation in the appropriate areas of faculty responsibility.

(1) Associate Professor. The faculty member shall present a record of sustained performance and achievement which reflects high quality in teaching and in research/scholarly/creative activity, and service. The level of productivity in each criterion area shall be evaluated within the context of the faculty member's proportionate responsibility as identified in his/her annual workload distribution agreements.

The total contribution of the faculty member shall be assessed and considered along with evidence in support of a substantial potential for continued contributions of excellence.

(2) Professor. The rank of professor is the highest honor an institution can grant to one of its faculty members. Those awarded this rank at UAF shall exemplify the attainment of performance and achievement consistent with this high standard.

Standard. The faculty member shall present a record which demonstrates that the candidate is recognized for contributions to knowledge in the discipline; is recognized by peers and students as an excellent teacher; contributes to the overall effort and reputation of the University through appropriate extension of knowledge and discipline-related service, within the context of the faculty member's proportionate responsibility as identified in his/her annual workload distribution agreement.]

c. Process. [Evaluation of faculty for promotion shall be conducted in accord with the policies identified herein and in the manner set forth in the document "UAF Regulations for the Evaluation of Faculty."]

d. Decision. [Following the recommendations of the faculty and the procedures outlined in the "UAF Regulations for Evaluation of Faculty," the Chancellor may promote and notify the faculty member of his/her decision.]

e. Exclusive process for reconsideration. [A faculty member who is given a notice of non-retention may request reconsideration. Such process will be in accordance with the "UAF Regulations for the Evaluation of Faculty."]

2. Faculty with Special Academic Rank

a. Eligibility. Faculty holding special academic rank are not eligible for promotion with the following exception:

(1) Faculty with academic rank titles preceded by "Research" or "Clinical" are eligible to apply for promotion. Instructors are eligible to apply for advancement.

b. Standard. For those specially ranked faculty in group (a.1) above, the standard and expectations for high quality performance shall be comparable to those required of faculty with regular academic rank, although the evaluation shall focus on the primary areas of responsibility identified in their appointment. Because of the focused nature of these appointments, the level of effort in the area of emphasis will be greater than expected for academic ranked faculty.

c. Process. [Procedures and guidelines for promotion evaluation of eligible special rank faculty are included in "UAF Regulations for Evaluation of Faculty."]

d. Decision.

[(1) Faculty with qualified academic rank titles of "Research" or "Clinical." Following the recommendations of the faculty and the procedures outlined in the "UAF Regulations for Evaluation of Faculty," the Chancellor shall confer promotion and shall notify the faculty member of his/her decision.]

e. Exclusive process for reconsideration. [If the faculty member's application for promotion is denied, he/she may request that the decision be reconsidered in the manner set forth in "UAF Regulations for the Evaluation of Faculty."]

E. Evaluation for Tenure

1. Purpose. Tenure assures the academic community an environment that will nurture academic freedom by providing employment security.

2. Responsibilities, rights, and privileges of tenure.

   a. Performance. A tenured faculty member has a responsibility to maintain high standards of professional performance and conduct.

   b. Appointment. An appointment with tenure shall be an appointment to academic rank which shall not be affected by changes in such rank and shall be continued until resignation, retirement, or termination. The award of tenure guarantees continuing appointment for at least nine months per year. Any change in fraction of

full-time appointment as a tenured faculty member must be by mutual consent of the University and the faculty member. The award of tenure does not exempt a faculty member from changes in policies and procedures approved for each university or UAF in particular.

c. Locus of tenure. [Faculty are tenured within a college or school-based discipline of the University of Alaska Fairbanks.]

3. Method of appointment to tenure. Tenure is not received automatically. It is awarded only following careful consideration of an applicant faculty member in accordance with the policies and criteria described, herein, and in "UAF Regulations for Evaluation of Faculty." Following consideration of the recommendations of the faculty, the Chancellor may grant tenure to faculty who are qualified.

[4. Criteria and Standard. Using the criteria referenced in part A. of this Chapter, each tenure-track faculty member shall be reviewed for tenure in accordance with the eligibility guidelines listed below. In order to merit the award of tenure, a faculty member shall present a sustained record of performance which shall not only be of high quality, but which shall demonstrate substantial potential for continued teaching, and scholarly/creative activity, or service of high quality within the context of the faculty member's proportionate responsibility as identified in his/her annual workload distribution agreements.]

5. Eligibility for consideration for award of tenure.

a. Tenure may be awarded to faculty holding academic rank [and appointed to a continuing tenure track appointment]. Tenure is not awarded to faculty members holding special academic rank.

b. Initial Appointment with Tenure. Appointment of new faculty who are qualified for the rank of associate or professor and who meet the tenure standard defined above may be made with a simultaneous award of tenure. However, the decision to award tenure upon initial [appointment shall require the same levels of review as required for award of tenure at other times.]

c. Year of mandatory tenure review. A faculty member must be reviewed for tenure in accordance with the following:

(1) After initial appointment to professor, faculty members must be reviewed for tenure no later than the second consecutive year of service. Appointments to professor may continue beyond the third year only with tenure.

(2) After initial appointment to the rank of associate professor, the faculty member must be reviewed for tenure no later than the fourth consecutive year of service. Appointments to associate professor may continue beyond the fifth year only with tenure.

(3) Non-tenured faculty undergoing review for promotion to associate professor must also be reviewed for tenure. Promotion to associate professor cannot be made without prior or simultaneous award of tenure.

(4) All faculty whose initial appointment was at the rank of assistant professor must be reviewed for tenure and concurrent promotion to associate professor no later than the seventh consecutive year of service in this rank. Service in this rank may not continue beyond the eighth year.

[d. Early Review for Tenure. A faculty member may choose to stand for tenure during any year prior to the required year of review. However, in this case, the faculty member must initiate the request and notify the dean of his/her intention to stand before the end of the academic year preceding the year of review.]

e. Withdrawal of Candidacy. A faculty member may withdraw from tenure consideration at any time prior to the time the file is forwarded to the Chancellor for final decision. Withdrawal of candidacy during a mandatory review will result in the faculty member being issued a terminal contract for the following academic year. Withdrawal of candidacy in early tenure review may be made without prejudice, provided the file is withdrawn before it is submitted to the Chancellor. Any faculty member who chooses not to withdraw prior to consideration by the Chancellor shall be bound by the Chancellor's decision, whether or not the review is mandatory.

f. Years of service.

(1) Towards mandatory review. In computing total consecutive years of service for determining the time of mandatory tenure review, periods of leave at full salary and sabbatical leave will be included. Periods of leave of absence at partial or no salary shall not be included unless requested by the faculty member and approved at the time the leave is granted. However, regardless of inclusion in the computation of total years, leave of absence shall not be deemed an interruption of otherwise consecutive service. Years of service preceding a break in consecutive years of University employment may be counted only upon agreement between the faculty member and the University at the time of re-employment.

[(2) A partial year of service which includes at least one semester of faculty service (e.g., as in a mid-year appointment) may be credited as a full year of service for the purposes of eligibility for consideration for promotion and tenure. Such credit must be applied for in writing by the faculty member within six months of appointment, and, if used as a full year for promotion and/or tenure, it may also be used for sabbatical leave. [The University administration will notify those eligible faculty members of this option at the time of initial appointment.]

[6. Tenure Review Process. The Chancellor or his/her designee is responsible for the coordination of the tenure review process at UAF within the guidelines and procedures described herein and in the "UAF Regulations for Evaluation of Faculty."]

7. Tenure Decision. [Following the recommendations of the faculty and the procedures outlined in the "UAF Regulations for Evaluation of Faculty," the Chancellor may award tenure and notify the faculty member of his/her decision.]

8. Failure to receive tenure. A faculty member must stand for tenure no later than the mandatory review year as defined in 5.c., above. If tenure is not awarded, or the faculty member withdraws from candidacy in the mandatory year of review, the faculty member shall be offered a terminal appointment for one additional year of service. A faculty member who stands for tenure prior to the mandatory year of review may withdraw at any step in the process prior to review by the Chancellor. If, however, his candidacy is considered by the Chancellor and the decision of the Chancellor is to deny tenure, the faculty member shall be offered a terminal appointment.

9. Exclusive process for reconsideration. [If the Chancellor's decision is to deny tenure, the faculty member may request reconsideration in the manner set forth in part D. 1. e. of this Chapter.]

10. Rejection of tenure. A faculty member who is offered tenure by the University pursuant to this policy but who declines to accept it may continue to be employed in a manner to be determined by the Chancellor.

CHAPTER V
Termination of Faculty Appointment

Termination is the severance of the employment relationship of a faculty member which is based on a decision to discontinue an existing employment relationship. Faculty may be terminated under any of the following conditions:

1. Non-retention of faculty in continuing appointments. Non-retention follows a decision not to reappoint a non-tenured faculty member in a tenure-track position. The Chancellor or the Chancellor's designee will notify the faculty member of this decision in writing not less than:

   a. Three months prior to the end of an appointment expiring at the end of a faculty member's first year of uninterrupted service at UAF, but not later than March 1 for appointments ending in May, June, July or August;

   b. Six months prior to the end of an appointment expiring after the completion of one, but not more than two, years of service at UAF, but not later than December 15 for appointments ending in May, June, July or August;

   c. Twelve months prior to the expiration of an appointment after two or more years of uninterrupted service at UAF.

2. Failure to receive tenure. Following a decision by the Chancellor not to award tenure, the faculty member will receive notice of termination at least twelve months prior to the end of the academic or fiscal year of final service.

[3. End of Fixed-term appointment. Special Rank faculty apointments shall end on the date specified in the contract. Special rank faculty with contracts of more than one academic year will be given a six-month notice if their contract is not to be renewed. If the appointment is to be terminated before the date specified in the appointment, the faculty member shall be notified according to the deadlines contained in 1., above.]

4. Retirement. Retirement eligibility is determined by the Teachers Retirement System or the Public Employees Retirement System of the State of Alaska or [other retirement systems approved by the Board of Regents.] Faculty planning to retire shall notify their [department head and/or dean/director] as soon as possible prior to the anticipated retirement date.

5. Resignation. A faculty member intending to resign from employment with UAF shall submit a written resignation [to the department head and

dean/director] and state the effective date. Faculty are expected to provide notice adequate to allow for their orderly replacement.

6. Discontinuance of program. When a decision is made to discontinue a program (following program review as specified in UA Regulation 10.02.07), a good faith effort must be made to place tenured faculty in another program where appropriate. The Chancellor or the Chancellor's designee will notify faculty members of the decision to terminate employment in writing not less than:

   a. Three months prior to the end of the academic or fiscal year of a faculty member's first year of uninterrupted service at UAF, but not later than March 1 for appointments ending in May, June, July or August.

   b. Six months prior to the end of the academic or fiscal year after the completion by a faculty member of one, but not more than two, years of service with UAF, but not later than December 15 for appointments ending in May, June, July or August.

   c. Twelve months prior to the end of the academic or fiscal year after two or more years of uninterrupted service at UAF.

   d. Should the program be reactivated within two years, tenured faculty members shall be invited to return to the program faculty. The faculty member must notify UAF of the decision to decline or accept within thirty days of receipt of this invitation.

7. Reduction in program. When a decision is made to reduce a program (following program review as specified in UA Regulation 10.02.07), a good faith effort must be made to retain tenured faculty in preference to non-tenured faculty, or to place tenured faculty in another program where appropriate. The Chancellor or the Chancellor's designee will notify faculty members of the decision to terminate employment in writing not less than:

   a. Three months prior to the end of the academic or fiscal year of a faculty member's first year of uninterrupted service at UAF, but not later than March 1 for appointments ending in May, June, July or August.

   b. Six months prior to the end of the academic or fiscal year after the completion by a faculty member of one, but not more than two, years of at UAF, but not later than December 15 for appointments ending in May, June, July or August.

   c. Twelve months prior to the end of the academic or fiscal year after two or more years of uninterrupted service with UAF.

d. Should the program be expanded within two years, tenured faculty members shall be invited to return to the program faculty. The faculty member must notify the University of the decision to decline or accept within thirty days of receipt of this invitation.

8. Financial exigency. Following a declaration of financial exigency (as described in Regents' Policy 04.09.01-05 and related University regulations), faculty members are entitled to a minimum of sixty calendar days notice in advance of the cessation of their employment (04.09.04.H).

9. Cause. Cause shall mean some substantial shortcoming which renders continuance in employment detrimental to appropriate discipline and efficiency of service. Cause shall include, but not be limited to: incompetency, neglect of duty, unprofessional conduct or other conduct which interferes substantially with the continued performance of duties. Cause may also include physical or mental incapacity. Faculty may be dismissed immediately for cause.

CHAPTER VI
Leave

A. Sabbatical Leave

1. Policy. Sabbatical leaves for professional development may be made available to faculty with academic rank who meet the requirements set forth below. The objective of such leave is to increase the faculty member's value to the University and thereby improve and enrich its programs.

2. [Purpose. Sabbatical leaves at the University of Alaska Fairbanks shall be granted for two distinct purposes:] a) research and other scholarly and creative activity; b) [study and formal education] and other experience of professional value. Both types of sabbatical may include associated travel.

3. Eligibility.

   [a. Research, creative, and scholarly activity sabbatical leaves. Faculty may apply for sabbatical to pursue research, creative or scholarly activities.

   b. Professional development and formal education sabbatical leave. Faculty who wish to pursue an advanced degree or professional certification of value to the university's programs, may apply for a sabbatical for this purpose.]

   Faculty who will have completed at least five consecutive years of service at UAF shall be eligible for consideration to take sabbatical leave during the sixth or subsequent year of service. Applicants must have completed at least five consecutive years of service at UAF from any previous sabbatical leave before being eligible to take another. In computing consecutive years of service for the purpose of this section, periods of vacation leave and periods of sick leave with salary shall be included. A partial year of service which includes at least one semester of full-time faculty service may be included as a full year of service for the purposes of eligibility for sabbatical leave, but it must also be counted as time towards mandatory tenure review. The faculty member must apply for such inclusion in writing. Periods of leaves of absences, other than vacation and sick leave with salary, and periods of part-time service shall not be included, but shall not be deemed an interruption of otherwise consecutive service.

4. Terms and conditions. Sabbatical leaves may be granted for one academic year or an equivalent period at rates not to exceed six months salary or for one semester or an equivalent period at rates not to exceed one

semester's salary. Faculty may, with the prior approval of the Chancellor, accept fellowships, grants-in-aid, or earned income to assist in accomplishing the purposes of their sabbatical leaves. In such cases, the Chancellor may adjust the sabbatical leave salaries to reflect such income provided that total earnings for the leave period are not less than full salary had the recipient not been on leave. A faculty member on a terminal appointment looses any rights to a sabbatical leave.

[5. Process. Applications for sabbatical leaves shall define the purpose of the leave requested. The application will be submitted to the Chancellor in the manner set forth in "UAF Regulations for Evaluation of Faculty."] Each application shall include a statement outlining the program to be followed while on sabbatical leave and indicating any prospective income from outside the University.

6. Approval. Consistent with provisions of this Chapter, the Chancellor [or Chancellor's designee] may approve such sabbatical leave as are deemed appropriate. A record of such leaves shall be reported to the President annually.

7. The recipient is obligated to return to the University for further service of at least one appointment period. Failure of the recipient to fulfill this obligation will require the full and immediate repayment of salary and benefits received from the University while on leave, except in extenuating circumstances acceptable to the Chancellor.

8. A written report detailing the professional activities and accomplishments for which the leave was granted and specifying the sources and amounts of additional funds secured for this period shall be submitted by the recipient to the Chancellor within three months after returning from leave.

9. Leave credits. Vacation and sick leave credits shall not be accrued or used during sabbatical leave.

Tenprom/2

ATTACHMENT 1

SPECIAL REGULATION ACCOMPANYING THE TRANSITION POLICY FOR PROMOTION AND TENURE

The following statements are designed to provide a smooth and harmonious transition from previous policy regarding tenure and promotion to the new policies regarding tenure and promotion which were approved by the Faculty Senate in April 1989 and adopted by the Board of Regents on August 18, 1989.

I. All faculty who began their active employment with the University of Alaska Fairbanks, July 1, 1989 or later, will be evaluated under the policies adopted by the Board on August 18, 1989.

II. Faculty members who began their active service in a tenure-track position, prior to July 1, 1989, shall have the option of standing for review under either the new policies or the old policies at their discretion. A faculty member who chooses to be reviewed under the old policy will be required to meet the minimum time in rank provisions as specified in that policy and must stand separate review for both promotion and tenure.

III. As various peer reviews and administrative reviews were required in both policies, it is determined that the new peer review process and structure does not constitute a change in working conditions. Therefore, all faculty, whether electing to stand for review under the old policies or under the new policies, will be evaluated under the new procedures for peer and administrative review.

IV. The rank of instructor is a non-tenure track rank under both the old and the new policies. Faculty who currently hold appointments at the rank of instructor will be reviewed during the 1989/90 academic year to ascertain whether or not they qualify for appointment to the rank of assistant professor under the new minimum degree experience criteria. With the recommendation of the cognizant faculty, those faculty who do qualify shall be reappointed to the rank of assistant professor and shall be deemed tenure-track. Those faculty who do not qualify shall retain the rank of instructor and be deemed non-tenure track special rank.

V. All faculty who began their employment in a tenure-track position, prior to July 1, 1989, who elect to stand for promotion or tenure review under the old policies must declare their intention, in writing, to stand under the old policies prior to beginning the promotion or tenure process, but not later than May 1, 1990. Any faculty member who does not declare this in writing shall be deemed to have elected to stand review under the new policies.

VI. Faculty at the rank of associate professor or professor, who do not currently hold tenure, may elect to stand review under the new policies using July 1, 1989 as the initiation of their mandatory tenure clock provided total time in rank in a tenure-track position at the University of Alaska Fairbanks does not exceed six years prior to the year of mandatory review, that is the seventh year.

UNIVERSITY OF ALASKA FAIRBANKS

Fairbanks, Alaska 99775-0500

MEMORANDUM

TO: Donald D. O'Dowd, President
University of Alaska Statewide System

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: June 14, 1989

RE: TENURE AND PROMOTION POLICY

At long last, we are submitting for your consideration and advancement to the Board of Regents our proposed policy on rank, tenure, and promotion. Approximately twelve drafts have been considered, discussed, and debated to arrive at the product we now put forward. We have made special efforts to accommodate extension agents and vocational/technical personnel through the development of a bipartite criteria which acknowledges the type of work these individuals perform.

The policy statement is a blend of policy adopted by the Board of Regents along with additional policy elements that we feel are important to the University of Alaska Fairbanks. This policy and the attached regulations are intended as a "stand alone" document which will guide the faculty of the University of Alaska Fairbanks toward tenure and promotion and provide guidance to the various committees and reviewers who participate in the process of evaluation, promotion, and tenure. The policy is submitted for Board action and the regulations are intended as an information item for the Board.

Clearly, throughout this process, compromises were made in many areas of the institution. After receiving the final senate version, I have worked with the vice chancellors and the senate leadership to resolve any differences between the administration and the senate. Professor Smith and his colleagues have worked with us on this and we have been able to achieve a proposed policy and regulation which we think can best accommodate our needs at this time. I imagine you will be subjecting the attached to staff review prior to advancing it to the Board of Regents. I would ask that, if staff have any major problems with either of the documents, we have an opportunity to meet with them and discuss their concerns or considerations. Thank you.

UNIVERSITY OF ALASKA FAIRBANKS

Fairbanks, Alaska 99775-0500

MEMORANDUM

TO: Executive Council

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: August 28, 1989

RE: FACULTY TITLES AND MINIMUM CRITERIA

Effective August 18, 1989, the Board of Regents adopted the UAF polices for promotion and tenure with slight modifications. These will be forthcoming shortly. Please note that this policy now allows for two types of academic rank. These are:

1. Academic Rank
   Titles designating academic rank exclusively are assistant professor, associate professor, and professor. Faculty in such positions are eligible for both tenure and promotion.

2. Special Academic Rank
   Titles designating special academic rank exclusively are: lecturer, instructor, and titles of academic rank preceded by the terms "adjunct, "affiliate," "visiting," "research," or "clinical." Special academic rank faculty are not eligible for tenure, but those with qualified academic rank titles of "research" or "clinical" are eligible for promotion. Special academic rank faculty appointed with qualified academic rank titles (that is, a qualifying adjective such as research, clinical, etc.) will have credentials in scholarship, research, and/or creative achievements comparable to those held by faculty in these academic ranks.

It is the intention of this policy that academic rank, with tenure, reside in a discipline in a school or college. Therefore, only deans, in conjunction with the appropriate discipline faculty, are empowered to appoint academic rank faculty in tenure-track positions. Both deans and institute directors are authorized to appoint special academic rank faculty as appropriate so long as this is done in conjunction with the respective faculties of their units. Appointment letters for special academic rank faculty shall indicate that the position is a non-tenure track position and, where the appointment is for qualified special academic rank, the appropriate qualifier

(research, clinical, visiting) shall be added preceding the word "professor." Thus, we will have as an example:

Assistant Research Professor of _____
Associate Research Professor of _____
Research Professor of _____

The reimplementation of research titles should diffuse the potential points of conflict between the institute and college. Institute directors may, upon consultation with their institute faculty, directly make such appointments without further consultation with the dean of the college. However, if it is the desire of the institute director to appoint an individual to tenurable academic rank, then it is incumbent on that director that he/she receive the concurrence and approval of the dean of the college in conjunction with the cognizant faculty of that college. In such cases, the institute may be expected to provide funding for the minimum faculty line within the college (2.25 months). In cases where there are openings both within an institute and within a college, this is subject to the negotiations between both individuals. However, if an institute has a faculty line that it wishes to fill in a tenure-track position, the only way it may do so is by pledging a commitment of that faculty member's time to the instructional program as well as to the research program. Toward this end, it is reasonable to expect that the institute will transfer the appropriate funds.

In the cases of both academic rank and special academic rank where the proposed candidate may not meet the minimum specified qualifications for that rank, yet a case exists for appointment, the cognizant dean or director, on behalf of the faculty of that unit, must receive the concurrence of the Vice Chancellor for Academic Affairs prior to making the appointment.

For academic rank faculty who may share a position between a college and an institute, please understand that the relationship is a very symbiotic one. For an individual to achieve tenure at the University of Alaska Fairbanks, he/she must be fully engaged in the tripartite function of teaching, research, and service. Such individuals will be evaluated on all three and, thus, it behooves the institute, as well as the college, to assure that the faculty member it seeks to appoint to such a position will have an opportunity to engage fully in the instructional program as well as the research program. Conversely, there are times when it is advantageous for a discipline faculty and a college to request that an institute grant a joint appointment to an

individual that they are seeking to hire. In such cases, it is not unreasonable to expect that the college might then transfer a portion of the funds for the institute appointment to the respective institute.

It is the intent of the new policy that the only faculty appointed to tenure-track appointments are those who can contribute fully to the tripartite function of the University. If any of you should still have difficulty with this notion, please understand that it has been a practice ascribed to by American higher education for quite some time.

Please note that all special academic rank faculty appointments are fixed-term appointments and are renewable. Multi-year appointments are possible but are not encouraged at this time until we work through the new policies and regulations for a period of years. However, should there be a need or desire to appoint a special academic rank faculty member for more than a single year's period of time, approval of such appointments must be obtained from the Vice Chancellor for Academic Affairs.

There is much more in the new policy that we shall gradually work our way through, but I did wish to bring these items to your attention at this time.

PJO'R/clb

The UAF Faculty Senate approved the following at its meeting #11 on April 24, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to adopt the following policy statement effective upon Board of Regents approval of the new UAF Promotion and Tenure Policies:

> All faculty hired previous to these actions and whose conditions of employment would be changed by the new policies will have one year to choose whether to continue under the original agreement or to be evaluated under the provisions of the new policies.
>
> Faculty desiring a change in status under these provisions shall apply in writing to the Chancellor before May 1, 1990.

Effective: Upon Chancellor's Approval and
Concurrent with Board of Regents' Approval
of UAF Faculty Appointment and Evaluation Policies

The UAF Faculty Senate approved the following at its meeting #11 on April 24, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate recommends that the Chancellor's Office work closely with the State Department of Education and the State School Board to provide leadership and assistance to small secondary rural schools in the delivery of courses that prepare rural students for college enrollment.

Effective: Immediately

Rationale: It is important to continue the dialogue between UAF and the State Department of Education as well as the State School Board concerning preparation of students for college entrance at the secondary level. Also, see attached supporting background information.

David R. Smith 9-26-89

President, UAF Faculty Senate

cs/senmin2/21

Motion recommending Chancellor's Office work closely with the State Department of Education and the State School Board to provide leadership and assistance to small secondary rural schools in the delivery of courses that prepare rural students for college enrollment.

Supporting Background Information:

Members of Curricular Affairs and other interested members of the University community discussed the admission requirements with school superintendents, high school principals and teachers as well as members from the State Department of Education during two audioconferences. A summary of the discussion follows:

A. Admission requirements effective August, 1991

There will be four distinct entrance options for students wishing to attend the University of Alaska Fairbanks as full-time students. They are:

1. Admission to all UAF certificate and associate degree programs will require the completion of a high school diploma (or its equivalent) or that the applicant is 18 years of age.

2. To qualify for unrestricted admission as a freshman in a baccalaureate program, a high school graduate must have a high school grade point average (GPA) of 2.0 and a 2.5 average in a core curriculum consisting of at least 16 academic units including:

   a. 4 credits in English
   b. 3 credits in mathematics (to include Algebra II, geometry, and trigonometry) [NOTE: CURRICULAR AFFAIRS HAS PROPOSED MATH REQUIREMENTS BE MODIFIED AS FOLLOWS: 3 CREDITS IN PREPARATORY MATHEMATICS SELECTED FROM ALGEBRA I AND II, GEOMETRY, TRIGONOMETRY, ELEMENTARY FUNCTIONS, PRECALCULUS OR CALCULUS]
   c. 3 credits in social sciences
   d. 3 credits in natural science (to include at least 1 laboratory course in Biology, Chemistry, or Physics)

However, entrance into a specific degree program may require as a prerequisite the completion of specific high school credits beyond those required in the core curriculum as well as minimum scores on the ACT or SAT examinations. UAF also strongly recommends that students complete a minimum of 2 years of a non-English language.

3. High school graduates who do not meet the minimum high school entrance credit requirements and the 2.5 GPA in the core curriculum may be granted provisional acceptance for a period not to exceed one calendar year from date of entry. Such students may be admitted later as unrestricted baccalaureate candidates provided they complete required course work by earning at least a "C" grade in each of the appropriate University credit courses.

4. Non-high school graduates 21 years of age or older, may be considered for unrestricted admission into baccalaureate degree programs on a case-by-case basis.

B. Math Requirements:

The requirement of Algebra II and especially trigonometry appeared to be a difficult standard to those outside of the University community and in fact proved to be the major area of concern. It was stated that these requirements are counter to the national direction for secondary math requirements which emphasize a more integrated math program including such things as "street math" and problem solving skills. It was also stated that with the inclusion of trigonometry, the math requirements were actually four years, as Algebra I would certainly be a prerequisite to those listed. Furthermore, it was argued, not everyone needs to be a scientist or mathematician.

Representatives from the Mathematics Department concurred that the national trend is toward an integrated math program, but that falling national math achievement scores are the result. A large number of students currently enter the University with significant math deficiencies. Not only do these deficiencies prevent them from completing a degree program in a reasonable period of time, but also discourage most of these students from seeking careers in areas that require math competencies.

C. Specific Concerns of Small High Schools:

Small secondary schools have difficulty in the delivery of science and mathematics courses due to a number of factors.

1. Teaching staff may vary in number from 2 to 11 for the entire high school and by necessity are generalists rather than specialists.

2. The number of students in a small school that would enroll in a science course such as physics or in a math course such as trigonometry is very small. It is difficult to conduct a meaningful class with one student.

3. The physical plant of most small high schools does not include space, facilities or equipment for laboratories.

D. Suggestions for Rural Course Delivery

The discussions generated a variety of suggestions as to how the University and secondary schools can collaborate in meeting the educational needs of the secondary students. All agreed that it is essential to continue this dialogue and to expand cooperative efforts.

1. The University is providing courses utilizing distant delivery technologies. These technologies need to be shared with school districts, especially in rural Alaska. In addition, a systematic investigation into alternatives and improvements in the use of existing technology, especially those currently not in use, needs to be undertaken on a statewide basis.

2. The University, again through distant delivery techniques as well as more traditional means, may offer seminars and workshops in addition to the regular course work to those secondary teachers who must provide a broad range of instruction in the smaller schools. The content of these offerings would focus on math and science instruction as well as other areas as they are identified.

E. Curricular Affairs Committee Deliberations

The Math Department reviewed the admission requirements and voted in favor of the existing requirements including trigonometry. While Curricular Affairs does not recommend specific math courses we STRONGLY recommend that math requirements should be such that an entering freshman can successfully complete the 100 level math core requirement.

It is true that not all students need to become scientists, mathematicians, engineers, economists, accountants or have careers in computer technology, among others. However, if the prerequisite math is not available at the secondary level, those career options are in effect closed to rural students.

Students are more likely to be successful in their college career if they have realistic expectations of the required academic preparation. In an effort to be honest, if you will, the University is saying: "To succeed in earning a baccalaureate degree in a reasonable amount of time, these are the skills and knowledge with which you need to begin. If you do not have these upon admission, you will need to develop them in your first years of college."

RESOLUTION PASSED (3 nays)

The UAF Faculty Senate moves to adopt the following resolution relating to the sale of complimentary copies of text books.

WHEREAS, Publishers of textbooks have traditionally been willing to provide complimentary examination copies of textbooks to faculty in a effort to encourage their adoption as course texts; and

WHEREAS, This practice is a service to the profession which we would like to have continued; and

WHEREAS, Some faculty have been abusing this service by selling these free copies to students or others for profit, a practice which is leading publishers to limit or discontinue the offer of complimentary copies; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate strongly oppose the practice of selling examination copies of books provided by publishers.

BE IT FURTHER RESOLVED, That the VCAA work with deans, directors and department heads to discourage this practice.

The UAF Faculty Senate moves to endorse House Bill 216, entitled "An Act establishing an optional university retirement program for certain employees of the University of Alaska and certain community colleges; and providing for an effective date."

Effective: Immediately

Rationale: This bill would increase the flexibility of the retirement program by allowing certain employees who leave the employment of the University prior to being vested to participate in an optional retirement program. Additionally, persons upon joining UAF could continue certain existing retirement programs instead of joining the UAF retirement program.

MEMORANDUM

TO: George Christensen
Vice President for Academic Affairs
University of Alaska Statewide System

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: February 13, 1990

RE: PH.D. -- FISHERIES

Enclosed you will find a proposal to establish a Doctor of Philosophy program in fisheries at the University of Alaska Fairbanks. The establishment of such a program was envisioned at the time the School of Fisheries and Ocean Sciences was formed as a result of restructuring in July 1987. I would like to ask that the proposal be advanced for Board of Regents action at the April 1990 meeting.

The proposal has been under development for approximately two years. It has received substantial internal review as well as external review, copies of which are attached. Revisions have been made as a result of the various levels of review, and you have before you a well thought-out and solid proposal which can contribute much to the state of Alaska and to the University's efforts in fisheries. We are able to bring a strong array of talent to focus on the issues of fisheries within our University and, as a result of a Ph.D. program, we will be able to expand our much needed fisheries research effort.

DATE; February 13, 1990

RE: SCHOOL OF FISHERIES AND OCEAN SCIENCES

At the November Board of Regents meeting, a request was made for a report in the area of fisheries. Enclosed you will find that report. It contains a great deal of information which I hope will be useful to you.

In July 1989, Dr. Vera Alexander, Director of the Institute of Marine Science, was appointed Dean of the School of Fisheries and Ocean Sciences. Dr. Alexander was one of two candidates recommended by the search committee after a nationwide search. The other was Dr. Neil Sullivan from the University of Southern California. Prior to Dr. Alexander's appointment, Dr. Sullivan was extended an offer and negotiations ensued. Unfortunately, we were unable to provide the types of guarantees that Dr. Sullivan demanded. Ultimately, he refused our final offer, and an offer was made to Dr. Alexander who accepted.

As dean of the school, Dr. Alexander functions with an Associate Director for the Institute of Marine Science, an Associate Director for the Fisheries Industrial Technology Center in Kodiak, and an Associate Director for the Juneau Center for Fisheries and Ocean Sciences. Additionally, in order to achieve a national reputation in fisheries, I have authorized the recruitment of a Chief Fisheries Scientist, beginning July 1, 1990, from funds reallocated within the University of Alaska Fairbanks. The addition of this position will bring an overall cohesiveness to our program throughout the state and, because we are seeking someone with an already established reputation in the fisheries field, will enhance the international stature of the school. It already has a strong thrust in oceanography and other areas of marine science, and we need to anchor-in that reputation in fisheries as well.

The SFOS faculty have developed a proposal for the establishment of a Ph.D. in fisheries which was envisioned when the school was formed. By using the strengths of the basic science faculty in Fairbanks as well as the fisheries faculty in Juneau, Kodiak, and Fairbanks, we are able to initiate a high quality program. The proposal has been advanced to the Office of the President, and I anticipate that it will be before the Board of Regents for action at the April meeting.

Over the past two years, we have been able to formulate interactions between the Fairbanks-based science faculty and faculty in Juneau and Kodiak to put forward joint proposals for fisheries-related research. As a result, we are beginning to develop a mode of external funding for research by both the Juneau- and Kodiak-based faculty which has been a long established tradition by the Fairbanks-based faculty. Hopefully, as these proposals bear fruit, we will be able to expand our efforts even further.

In January 1990, an advisory council for the School of Fisheries and Ocean Sciences was appointed and will be holding its first meeting soon. I have asked Dr. Alexander, in concert with this group, to develop a long-range fisheries research plan. The advisory body includes interests from the private fishing sector, the processing sector, state and federal agencies, and other academic institutions. It should be able to provide us with good and coherent thought as to future directions. As this plan develops, it will need Board of Regents support in order to fulfill the expectations that were created with the establishment of the School of Fisheries and Ocean Sciences.

I would encourage the Board to think toward a special piece of legislation, which it might support, in the next legislature in order to facilitate more rapid movement of our fisheries programs.

The largest problem plaguing the school at all three main locations is the issue of space. Expansion in Juneau is sorely limited. However, by funding a basic science building for the University of Alaska Southeast, our Juneau-based faculty and staff would be able to expand within the Anderson Building which would be devoted entirely to the Juneau Center for Fisheries and Ocean Sciences. Our facilities at Kodiak have been sorely limited, but we are currently under construction of a facility which should alleviate our immediate needs and provide us room for expansion into the near future. Unfortunately, we have not yet secured the final portion of the appropriation ($1.8 million) to complete this facility. This remaining request is a high priority within the University of Alaska Fairbanks' budget request currently before the legislature and has support from the Board of Regents at a high priority level within its overall budget. In Fairbanks, we are severely constrained at the present time and future growth is limited unless we can bring about relief soon. I anticipate that, in the long-range plan we are developing for our facilities, we will see a building for the School of Fisheries and Ocean Sciences emerge as a high priority after construction of the Natural Science Facility.

Finally, I should alert the Board that we are in the process of seeking an upgrade to our research vessel. As you know, the Alpha Helix has served us very well for a period of time. However, there has been a long-term need for the National Science Foundation to develop an ice-strengthened vessel. As a result of the work by key members of the Institute of Marine Science, we are now entering a design phase for an upgraded ice-strengthened research vessel.

The entire cost of capital construction of the ship will be borne by the National Science Foundation, but there will be a need to upgrade our Seward dock facilities to handle this larger class vessel. I expect to advance, as a high priority for the University of Alaska Fairbanks, this upgrade for consideration in our FY92 budget request. We expect to take possession of the ship in 1993.

I hope you find the information contained in this memorandum and within the report useful and beneficial to you.

The UAF Faculty Senate approved the following at its meeting #10A on March 24, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to amend requirements for the Associate of Arts degree as follows:

(( )) = deletion CAPS = addition

((The Associate of Arts degree is intended to provide students with a basis of general education in order to undertake baccalaureate degree work and is non-specific in intent.)) THE ASSOCIATE OF ARTS DEGREE REPRESENTS THE COMPLETION OF BROAD-BASED SYSTEMATIC STUDY AT THE COLLEGE LEVEL. THIS DEGREE MAY SERVE AS A STARTING POINT FOR A CAREER OR A STEPPING STONE TO A BACCALAUREATE PROGRAM. A student may earn only one A.A. degree.

Distribution of Credits

((Of the total 60 credits,)) All CREDITS FOR THE A.A. DEGREE must be at the 100 level or above, and 20 credits must be at the 200 level or above, and be distributed as follows:

Communications: (9 credits)	
Written: English 111 plus English 211 or 213	6 credits
Oral: SPEECH 111 or 121 or 131 or 141	3 credits
Mathematics & Natural Science: (9 credits)	
MATHEMATICS AND LOGIC ELECTIVES	3 CREDITS
NATURAL SCIENCE ELECTIVES	3 CREDITS
AN ADDITIONAL 3 CREDITS IN EITHER MATHEMATICS OR LOGIC OR STATISTICS OR NATURAL SCIENCE	3 CREDITS
Humanities: (9 credits)	
Any combination of courses classified as Humanities	9 credits
Social Science: (9 credits)	
Any combination of courses classified as Social Science	9 credits

((Applied Studies (9 credits)))

General Electives (((15)) 24 Credits)
Any combination of courses, including courses classified as Applied Studies — 24 credits

Total Credits — 60 credits.

Effective: Fall 1989

Rationale: To define requirements for the Associate of Arts degree.

MEMORANDUM

TO: Ann Tremarello, Director
Admissions and Records

FROM: David Smith, President
UAF Faculty Senate

DATE: December 15, 1989

SUBJECT: Amendment to requirements for the Associate of Arts degree

Enclosed please find action approved by the Faculty Senate last year at its meeting #10A on March 24, 1989, amending the requirements for the Associate of Arts degree.

Chancellor O'Rourke received this motion last spring, but to this date has not taken action on the motion. Article XI, Sect. 1 of the UAF Faculty Senate constitution, approved by Chancellor O'Rourke on February 1, 1989, states that "..A Senate action shall be considered approved unless written reasons for a veto are received in the Senate Office within 30 days of that action being received by the Chancellor's Office." In compliance with the UAF Faculty Senate constitution, please proceed with implementation of the amendments to the Associate of Arts degree as indicated in the Senate action.

If you have questions relating to this matter, please contact me at 6962, 7964, or FFDMS.

enclosures

cc: Patrick J. O'Rourke, Chancellor

Ann I also talked with Pat & he said that he had approved this but just hadn't gotten around to signing it.

The UAF Faculty Senate approved the following at its meeting #10A on March 24, 1989:

MOTION PASSED (with 1 nay, 3 abstenions)

The UAF Faculty Senate moves to extend terms of President and President-Elect for one year.

Effective: Immediately

Rationale: The issues facing the newly constituted Faculty Senate have been sufficiently complex and continuing that it is felt that an extension of the current leadership's terms by one year would be in the best interest of the Faculty Senate.

An Ad Hoc Committee is currently reviewing the structure of the Senate leadership as noted in the Constitution and Bylaws and has been asked to suggest ways that the Senate can revise the section on their leadership structure to ensure a strong and effective faculty voice.

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED AS AMENDED (Unanimous Approval)

The UAF Faculty Senate moves to amend the policy on make-up work for students participating in university-sponsored activities as follows:

(( )) = deletion CAPS = addition

((1. Students who must be absent from class to participate in university-sponsored activities shall be permitted to make up any work they have missed, in a period of time agreed upon between the instructor and student prior to the absence. Such students shall not be penalized for absences incurred for such university-sponsored activities, although students must meet course requirements in all other respects. University-sponsored activities are defined as officially sanctioned functions. Notwithstanding the above, it is still the student's responsibility to determine for himself/herself whether or not such absences unduly risk successful completion of their courses and choose accordingly.))

STUDENTS WHO CHOOSE TO BE ABSENT FROM CLASS TO PARTICIPATE IN UNIVERSITY-SPONSORED OR OTHER ACTIVITIES MAY BE PERMITTED TO MAKE UP ANY WORK THEY HAVE MISSED. ALL ARRANGEMENTS MUST BE MADE BETWEEN THE STUDENT AND INSTRUCTOR PRIOR TO THE ABSENCE. THE STUDENT AND INSTRUCTOR SHOULD MAKE A GOOD FAITH EFFORT TO ASSURE THAT THE STUDENT IS NOT UNDULY PENALIZED FOR EACH ABSENCE. SUCH ACTIVITIES SHOULD NOT BE SCHEDULED SO AS TO CONFLICT WITH THE FINALS SCHEDULE.

Effective: Upon Chancellor's Approval

Rationale: It is disruptive to the academic process for students to be absent from the final. In addition, it is difficult for the instructor to fairly evaluate a student who takes the final at a different time or may have to take a substitute final.

senmin2/15, 1

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to adopt the following policy for credits earned prior to and during UAF restructure:

One of the following classifications may be selected for credit earned prior to the 1988 fall semester at former community colleges and rural education centers that are now part of UAF by students who move from one UAF unit to another:

1. RESIDENCE CREDIT: Total credits and all grade point factors earned from work attempted at other UAF units will be brought forward to the UAF record.

2. TRANSFER CREDIT: The total credits earned at other UAF units will be brought forward to the UAF record as transfer credit. (Grade point average factors do not transfer.)

NOTE: UAF correspondence study credit has been approved as residence credit beginning with the 1989 Fall semester. UA/UAF correspondence study credit earned prior to that date would continue to be considered only as transfer credit.

Effective: Upon Chancellor's Approval

Rationale: Before restructuring, students attended units of the University of Alaska knowing that their grade point averages would not transfer if they moved to another UA major academic unit. Although most students would want their grade point averages to be combined, some went to other units with the purpose of taking courses which would not impact their GPA's elsewhere.

Approval of this policy would allow students the choice of whether or not to combine their GPA's and have all work considered as residence credit, or to have the credits earned brought forward as transfer credit with no impact on the GPA. The intent of this policy is to lessen the impact of restructuring on students such as those from the former TVCC who, essentially, have been forced to change institutions.

Students electing to have total credits and grade point average factors combined on their academic records would be qualified to apply the repeat policy where courses are equivalent according to the Alaska Transfer Guide.

This would not affect students who were able to continue their education in the same unit (i.e., attended Northwest Community College previously and now attend the UA Northwest campus.) Likewise, students attending UAF at the Fairbanks campus have been relatively unaffected by restructuring and have no need to have an option to allow for an adjustment of their grade point averages and this policy would not apply to them.

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED AS AMENDED (Unanimous Approval)

The UAF Faculty Senate moves to amend policy on auditing as exists in catalog to the following:

Auditing

1. A student wishing to enroll in one or more courses for informational purposes only may register as an auditor provided that space is available in the course(s).

   An auditor must pay the standard credit fees for the course, but the credit is not included in the computation of study load for full-time/part-time determination or for overload status.

   The requirement, acceptance, and review of work and lab privileges are at the discretion of the instructor. No grades will be given, no credit awarded, and courses taken as an audit will not apply toward degree requirements, nor will they transfer to other institutions.

2. The intention to audit a course should be made known within the registration period. The following conditions apply to the change of audit conditions:

   a. Audit to credit must be completed on or before the deadline to add a course.

   b. Credit to audit must be completed on or before the deadline for student initiated withdrawals.

3. It is the responsibility of the instructor to set the requirements under which an "AU" is to be recorded and to submit "AU" for those auditors who satisfy the requirements. An auditor not receiving a grade of "AU" receives a "W".

4. A student who has audited a class may not request local credit by examination for that class for at least one year.

5. The official definition of audit that will appear in the catalog is: "Audit - A registration status indicating that the student has enrolled for informational instruction only. No academic credit is granted."

   Effective: Fall 1989

Rationale: Better enunciates the procedures involved with auditing.

The UAF Faculty Senate passed the following at its Meeting #9 on February 10, 1989:

MOTION PASSED (Unanimous Approval)
==========

The UAF Faculty Senate moves to adopt the following proposal for second master's degree.

PROPOSAL FOR SECOND MASTER'S DEGREE

At the discretion of the student's advisory committee, admitting department, and dean, up to 20% of the total minimum number of credits required for a UAF master's degree may be transferred from a previously earned master's degree. Transferred credit may not be research, project, or thesis credit. The transferred credit must be for complete graduate level courses and not portions of a course. For a 30-credit master's degree, up to 6 graduate credits may be transferred; for a 45-credit master's degree, up to 9 graduate credits may be transferred. The following procedures are required for students who wish to pursue a second master's degree:

1. A new application for graduate study and for the new program is required. All procedures required for the initial degree apply - including a $20 new application processing fee, updated transcripts and three new letters of reference.

2. GRE scores accepted for the first master's degree at UAF may be accepted for a second master's degree when required.

3. ~~For students who have earned their first master's degree at UAF or at another institution, a maximum of 20% of the total minimum credits required for the second master's degree may be approved towards the second degree.~~ *FOR STUDENTS WHO HAVE EARNED A MASTER'S DEGREE FROM AN ACCREDITED COLLEGE OR UNIVERSITY, NO MORE THAN 20% OF THE TOTAL CREDITS REQUIRED FOR THE SECOND MASTER'S DEGREE MAY HAVE BEEN USED IN FULFILLMENT OF THE FIRST MASTER'S DEGREE. The acceptability of specific courses will be determined by the student's advisory committee, admitting department, and dean of the college or school in which the student is enrolled.

4. All students will have to fulfill general university requirements for the second master's degree (same as for the first degree), including passing a comprehensive examination, completing a minimum of 30 credits *(INCLUDING WORK APPLIED FROM A PREVIOUS MASTER'S DEGREE), and if a thesis is required, passing an oral defense of thesis.

5. All the work used to fulfill degree requirements for a second master's degree must be completed within seven (7) years.

Effective: Fall 1989

Rationale: The courses required for different UAF master's degree programs often overlap, and students interested in earning a second master's degree must find other courses to fill in the required minimum number of credits for the degree. Examples of such possible situations are course requirements for degrees in geology and anthropology or archaeology, geology and geological engineering, electrical engineering and physics, and English literature and creative writing. In order for the student to earn both degrees, either concurrently or sequentially, it would be reasonable not to require the student to repeat courses or to fill in with credits solely in order to meet the minimum requirements. In 1975, UAF (then the Northern Region) chose to require a minimum of 30 credits for each master's degree, although the statewide regulations allow the use of up to 9 credits for a second master's degree, and UAS has adopted those criteria.

FOR INFORMATION ONLY
NO ACTION REQUIRED
Meeting 8--Dec. 9, 1988

Motion to amend current merit award program, submitted by Ralph Gabrielli.

MOTION (failed with 12 ayes, 14 nays)
======

The UAF Faculty Senate moves to amend the current financial award program as follows:

(( )) = deletion
CAPS = addition

A financial award program recognizing faculty for meritorious performance OR IN SUPPORT OF PROPOSED PROFESSIONAL ACTIVITIES OF MERIT shall be instituted based on the following principles:

a) A fixed number of awards shall be given within each College or School based on the total number of full time faculty members (or equivalent).

b) Awards shall be ((made in the form of a bonus check)) of substantial amount (say $1000 or $2000) annually (not a continuing percentage increase).

c) The method of nomination of award recipients, criteria for awards, and the selection of recipients within each College or School shall be determined by a committee of four faculty members nominated and elected by the faculty within that College or School, and one student from that College or School appointed by ASUA. Awards shall be made by the cognizant dean from a pool of funds provided to the school or college by the Office of the Chancellor.

Effective: Upon Chancellor's Approval

Rationale: This amendment would permit the faculty of a school or college to go ahead with an award program in precisely the manner originally set forth, it would also give the faculty in each school and college the option of using the funds to underwrite or help underwrite small proposed projects. In the latter case, incentive is encouraged and the criteria could be designed to encourage collaboration. The proposed amendment simply authorizes, rather than mandates, such an option.

The words "made in the form of a bonus check" assume a program of awards to individuals and are not compatible with the proposed option; however, the deletion of those words does not prevent bonus checks from being awarded, if a particular faculty chooses that route. If the motion is silent on that matter, it would be internally consistent with whichever option a faculty might choose.

If the amendment is approved, the three principles set forth in the motion would apply to either option chosen by a faculty.

FOR INFORMATION ONLY
NO ACTION REQUIRED
MEETING 8--Dec. 9, 1988

Amend the resolution on systemwide compensation to change the statement included in the last paragraph of the resolution to read, "On matters of compensation and employee welfare...

RESOLUTION (failed with 10 ayes, 12 nays)
==========

The UAF Faculty Senate moves to adopt the following resolution:

WHEREAS, The University of Alaska is currently considering a new compensation and employee welfare system; and

WHEREAS, Faculty need to be involved in setting the direction of any new compensation and employee welfare system; and

WHEREAS, The Board of Regents are currently trying to decide whether policies should be systemwide or not; and

WHEREAS, A unified system of compensation and employee welfare will provide faculty with a larger and more consistent voice when it comes to issues of compensation and employee welfare; and

WHEREAS, The General Assembly of the University of Alaska has requested that the President and university governance bodies approve a motion giving direction to the Board of Regents; now

THEREFORE BE IT RESOLVED, That the Faculty Senate goes on record as supporting the statement:

"On matters of compensation and employee welfare, the University of Alaska shall be a single institution with a uniform statewide compensation and personnel system."

The UAF Faculty Senate passed the following at its Meeting #8 on December 9, 1988:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate approves the deletion of Bachelor of Arts in Geography and Regional Development.

Effective: Upon Board of Regents' Approval

Rationale: See request attached.

Deletion of Program Request

TO: UAF Faculty Senate

THROUGH: Curriculum Council

FROM: Roger W. Pearson, Head
Department of Geography

RE: Deletion of "Geography and Regional Development" Program

A. This request is being submitted by Dr. Roger W. Pearson, Head, Department of Geography.

B. The Department of Geography is requesting the deletion of the "Geography and Regional Development" Program from our list of major programs. The future thrust of the Department is to maintain a quality B.A. and B.S. program in Geography.

C. There will be no negative impacts associated with the deletion of the Regional Development Program. There are no students currently enrolled in the program and there has been little student interest in this track for some years.

The effects of this program deletion cannot be known since there are no students in this program.

D. There would be no effects on personnel since the Department still offers a B.S. and B.A. degree.

E. There will be no effects on the budget.

F. There are no students in the Geography and Regional Development Program and there haven't been any for several years and since the courses offered in the program are the same as the B.S. and B.A. course requirments the deletion of the program will not affect our course offerings.

II.1. See catalog description.

II.3. Resource requirements: these parallel other Geography courses.

IV. The Geography and Regional Development program has not enrolled any students since 1982. Since the Department of Geography also offers both a B.A. and B.S. degree, it proposes eliminating the B.A. in Regional Development. Dropping the B.A. in Regional Development will have no effect on current students nor on faculty.

major departments listed or in the fields of economics, education (minimum 24 credits), English, French, German, Russian, history, or political science.
4. All prerequisites of courses elected must be met.
5. One year of German or Russian is recommended.
6. Courses selected to complete the requirements in the social sciences must be chosen from the following: anthropology except archeology; sociology; economics; history; and political science.
7. Physics 211-212 may alternate for Physics 103-104 and Chem. 212 may alternate for Chem. 105-106.
8. A minimum of 130 credits is required.

General Science — M.S. Degree
1. Complete the general university requirements and master's degree requirements.
2. Complete a minimum of 30 credits of approved courses. At least 24 credits, including thesis and/or research, must be at the 600 level.

The Departments of Mathematics, Physics, Chemistry, Biological Sciences and Geology offer work toward the master of science degree with a major in general science. This degree may be described as a "breadth" rather than a "depth" degree, and a candidate is ordinarily pursuing a course of study in which one of these departments is cooperating with at least one other department within the university. A prospective candidate must meet the general requirements for admission and for the awarding of the degree. At least 21 credits must be earned in science and mathematics. At least 12 credits must be earned in the department giving the degree. A thesis (maximum of three credits) or project (no credit) must be completed in the major department. It is not intended that the individual courses merely satisfy the credit requirements; each course should contribute to the specific aim of the candidate, and the thesis or project should reflect this aim.

Geography

College of Liberal Arts
Department of Geography

Degrees: B.A., B.S.
Minimum Requirements for Degrees: B.A. — 130 credits; B.S. — 130 credits

The department offers undergraduate courses and degrees in geography and in geography and regional development. Geography provides an organized picture of the earth as a whole and of its interrelated regions and activities. It deals both with the natural resources of the earth and with man's use of them. Its methodology includes the observation, measurement, description, and analysis of places or areas — their likenesses, differences, interdependence and significance. Geography serves as a bridge between the physical sciences and the social sciences. At UAF, geography is offered as: (a) part of a broad cultural background in a liberal arts curriculum; (b) part of a comprehensive program in biological and earth sciences; (c) background for studies in economics, history, political science, and other social sciences; (d) preparation for teaching geography, earth science, or social science in elementary or secondary schools; (e) technical training for professional geographic work in government, business or industry; (f) preparation for further graduate study in geography, regional planning and related disciplines. Students majoring in geography may elect such advanced work in this and other departments as will provide a concentration either in physical science or in social science.

Requirements

Geography — B.A. Degree
1. Complete the general university requirements and B.A. degree requirements:
2. Complete the following program (major) requirements:

A. Complete 24 credits in geography, including the following: Geog. 101 *or* 103; 205; 202 *or* 302; 339 *or* 401; 305 *or* 311; 306 *or* 327; 492; geography elective.

B. Complete 20 credits of the following or approved alternative courses with groupings to emphasize cultural, economic, physical, or regional geography. (Can also be used to meet basic degree requirements and to apply toward minor requirements.):
Cultural Geography
Anth. 101, 205, 206, 242, 321, 428
Soc. 250, 307, 309, 363, 406
Economic Geography
Econ. 201, 235, 335, 437, 463
Physical Geography
Geos. 101, 112, 261, 304, 408, 422
Biol. 271
A.L.R. 101, 350, 380, 430
Regional Geography
Hist. 261, 315, 316, 331, 341, 344, 350, 450
P.S. 201, 315, 321, 322, 415, 435, 436, 480

C. Approved electives to complete 130 credits.

Geography — B.S. Degree
1. Complete general university requirements and B.S. degree requirements, pages 25 and 26.
2. Complete the following program (major) requirements:
A. Complete 12 credits in approved mathematics courses.
B. Complete two minors.
C. Complete the requirements A, B, and C as stated above for the B.A. degree with emphasis in either economic or physical geography.

MINOR in Geography:
A minor in geography requires 15 crdits in geography including Geography 101 or 103 and 205.

Geography and Regional Development

College of Liberal Arts
Department of Geography

Degree: B.A.
Minimum Requirements for Degree: 130 credits

delete

Requirements

Geography and Regional Development — B.A. Degree
1. Complete the general university requirements and B.A. degree requirements.
2. Complete the following program (major) requirements:

A. Complete 36 credits in the following core courses:
Geog. 103, 205, 301, 404, 492
Econ. 235 *or* 324, 335
Biol. 271
A.L.R. 101
P.S. 211, 301

B. Complete 6 credits from each of the following five (5) groups (30 credits):
1. Geog. 202, 302, 311, 327
2. Hist. 341, 440, 450
3. Soc. 201, 307, 309
4. Geos. 101, 112, 304, 408
5. A.L.R. 380, 460

C. Approved electives to complete 130 credits

Geological Engineering

School of Mineral Engineering
Department of Mining and Geological Engineering

Degrees: B.S., M.S.
Minimum Requirements for Degree: B. S. — 131 credits plus 6 credits field course; M.S. — 30-33 additional credits.

Geological engineering is a branch of engineering dealing with the application of geology. Geological engineers work with the environment in the true sense of the word. Properties of earth materials exploration activities, geophysical and geochemical prospecting, site investigations and engineering geology are all phases of geological engineering.

Candidates for the bachelor of science degree in geological engineering will be required to take a comprehensive exam in their general field (completion of the State of Alaska Engineering-in-Training examination will satisfy the requirement). The State of Alaska Engineer-in-Training examination is a first step toward registration as professional engineers.

Graduates of the program are employed by industry, consulting companies, and government agencies.

Students may initiate their geological engineering program in Anchorage and transfer to Fairbanks upon completion of the freshman and sophomore years. Such students should be in communication with a faculty member of the Department of Mining and Geological Engineering, UAF.

The graduate program allows for awarding the master of science degree in geological engineering. The degree consists of a core program

The UAF Faculty Senate approved the following at its meeting #8 on December 9, 1988:

RESOLUTION (passed with 13 ayes, 12 nays)
==========

The UAF Faculty Senate moves to adopt the following resolution:

WHEREAS, Selected faculty at each of the major academic units were recently given market-based adjustments; and

WHEREAS, The development of a formula for securing funds was based upon one national market survey developed by Oklahoma State University; and

WHEREAS, The faculty whose salaries were market adjusted were led to believe that the adjustments would be based upon a single uniform standard; and

WHEREAS, When the funds were distributed, an administrative decision was made to use a separate national formula for one of the major academic units without the consultation of the faculty; and

WHEREAS, This action disadvantaged a number of faculty who previously had been under a systemwide salary scale; and

WHEREAS, The University of Alaska Southeast faculty received only a total of $50,000 in adjustments when by the Oklahoma State University study they were entitled to $143,124; and

WHEREAS, Fairness and equity should be the cornerstones of a just compensation policy; and

WHEREAS, The Board of Regents has scheduled a special session of the Board to consider the University of Alaska Southeast issue brought to their attention by the General Assembly; now

THEREFORE BE IT RESOLVED, That the Faculty Senate goes on record as supporting their fellow faculty colleagues at the University of Alaska Southeast by requesting that the Board of Regents approve and implement the Statewide Assembly motion of August 2, 1988, relating to UAS faculty salaries by securing $93,124 from FY89 general funds to bring the University of Alaska Southeast faculty salaries equal to the Oklahoma State University salary survey adjusted for Alaska which was the basis for faculty salary adjustments at the other two academic major administrative units.

The UAF Faculty Senate approved the following at its meeting #8 on December 9, 1988:

RESOLUTION (passed with 1 nay)
==========

The UAF Faculty Senate moves to adopt the following resolution:

WHEREAS, Faculty and other employees of the University of Alaska should be involved in compensation and employee welfare issues which affect them; and

WHEREAS, Faculty need to be ensured that adequate time be given for consideration of compensation and employee welfare issues before administrative actions are taken; and

WHEREAS, The General Assembly of the University of Alaska has requested that the President and university governance bodies approve a motion setting policy for such cases; now

THEREFORE BE IT RESOLVED, That the Faculty Senate goes on record as supporting the statement that:

> "On any issue involving compensation or employee welfare, the General Assembly and university governance bodies should be given adequate opportunity, not less than 45 days after receipt by the General Assembly and university governance bodies, to review and comment on these matters prior to final action and implementation."

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED AS AMENDED (Unanimous Approval)

Amend policy on full, part-time status/study load as exists in catalog to the following:

Full and Part-time Status/Study Load ~~for Undergraduates~~ FOR

1. An undergraduate student who registers for 12 or more semester credits at UAF is classified as a full-time student; a graduate student registered for nine or more credits at UAF is considered as full time. All other ~~undergraduate~~ FOR UNDERGRADUATES students are considered as part-time.
2. To enroll for 19 credits or more, a student must have a 3.0 cumulative grade point average and an overload approval by the advisor, department head, and dean of college/school in which the student is majoring.
3. Credits carried at any unit of UAF are considered in the determination of study load hours and for full-time or part-time classification in any one semester.

Effective: ~~Upon Chancellor's Approval~~ Fall 89

Rationale: Specifies who approves overloads and removes petition process (and thus Vice Chancellor level approval) from the procedure. Also requires a certain grade point average for students desiring an overload.

Note: Amendment to motion passed (1 nay) to retain the current statement on graduate student status as it appears in the catalog.

Dorl M Smith.
President, UAF Faculty Senate

cs/cover2-1

PB. Editorial changes only.

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED (2 nays)
==========

Amend policy on withdrawal to the following:

(( )) = deletion
CAPS = addition

((After the end of the ninth week of the semester, withdrawals from individual courses will not be accepted.))

STUDENT INITIATED WITHDRAWALS WILL BE ACCEPTED IF THEY ARE OFFICIALLY REQUESTED BEFORE 60% OF THE SCHEDULED LENGTH OF THE SEMESTER OR SESSION HAS ELAPSED.

Total withdrawal from UAF must be initiated by the dean of the college/school where the student is majoring. The Dean of Students must initiate the withdrawal for non-majors.

The dean initiating the withdrawal will immediately notify the course instructors and the student's advisor of the withdrawal.

Withdrawal from UAF is the official discontinuance of attendance prior to the end of the semester or session.

Withdrawals, after the second week, regardless of type, will appear on the student's permanent record as the letter "W" but will have no effect on the student's GPA or any reference to the student's standing in the class.

All withdrawals must be acknowledged by the student in writing.

A STUDENT IN A DEGREE OR CERTIFICATE PROGRAM MUST OBTAIN A SIGNATURE FROM HIS/HER ADVISOR IN ORDER TO WITHDRAW FROM A COURSE.

AN INSTRUCTOR IS NOT REQUIRED TO SIGN THE WITHDRAWAL FORM WHEN A STUDENT IS WITHDRAWING FROM HIS/HER COURSE.

The above withdrawal policy deadlines are adjusted for courses shorter in time than the regular semester.

The appeals route for students or faculty regarding the dean's decision is the Chancellor's Office, and then to the Fairbanks Grievance Council.

Effective: Upon Chancellor's Approval

Rationale: Changes the signature requirements and redefines the time in which a withdrawal must be accomplished. A percentage basis would be applicable to all lengths of courses offered during the academic year.

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED AS AMENDED (Unanimous Approval)

Amend policy on transfer of credit as exists in catalog to the following:

Transfer of Credit

Credit accepted for transfer to UAF which has been earned at other accredited institutions, through military educational experiences or credit accepted by special approval shall be considered as transfer credit. Where possible, transfer credit will be equated with UAF courses.

The following regulations apply to transfer of credit:

1. Only persons accepted as degree or certificate candidates at UAF are eligible for transfer of credit.

2. The applicability of any transfer credit to major and/or minor requirements is subject to approval by the appropriate major and/or minor department. Transfer students must fulfill the graduation and residency requirements of UAF, including those which may be required for a particular program. Baccalaureate degree candidates must complete 30 of the last 36 credits in residence, including 24 credits of upper-division work, and associate degree candidates must complete 15 of the last 30 credits in residence. A maximum of 60% of required course work to earn a certificate may be accepted in transfer.

3. Credits earned at the 100-level or above with a grade of "C" or higher at accredited institutions will be considered for transfer.

4. Transfer credit is not included in UAF grade point computation.

5. The class standing of the entering transfer student is based upon the number of credits UAF accepts of his/her previous college work.

6. Credits may be awarded for formal service schooling and military occupational specialties (MOS) as recommended in the "Guide to the Evaluation of Educational Experience," published by the American Council on Education. A maximum of 49 credits combined from these sources can be applied toward an associate or bachelor's degree. Credit completed through the Community College of the Air Force is considered to be in this category and is subject to the same regulations, as is credit accepted for the completion of Defense Activity Non-traditional Education Support (DANTES) tests.

7. Special review for approval of the transfer credit not meeting the requirements stated above may be requested from the Director of Admissions and Records.

Effective: ~~Upon Chancellor's Approval~~ Fall 89

Rationale: To provide for consistent transfer policy for the restructured university system.

Note: Motion was amended to delete "at other units of the University of Alaska system" for clarification purposes.

Pat O'Rourke

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED (1 abstention)
==========

Amend policy on correspondence study as exists in catalog to the following:

Correspondence Study

UAF Correspondence courses are included in the determination of full-time status for the purpose of consolidated tuition and eligibility for financial aid when enrollment occurs during the regular registration period and the course is completed within the same semester. The student may enroll in correspondence courses at other times of the year but these courses will not be included in the determination of full-time student status. Academic responsibility for correspondence courses will reside in the discipline whose designator they carry.

UAF will allow a total of 32 credits of correspondence study to apply toward a baccalaureate degree and 15 credits toward an associate degree.

Effective: ~~Upon Chancellor's Approval~~ Fall 89

Rationale: This motion provides increased access to courses for students 1) in rural areas, 2) students unable to attend during scheduled hours on campus and 3) students whose required classes are full. This motion also reconfirms the academic housing of correspondence courses while indicating that mode of delivery of courses will not be a factor in determining the cost to students for courses taken as part of their full-time load.

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED (Unanimous Approval)

Accept the following current UAF incomplete grade policy university-wide:

Incomplete Grade Policy

The letter grade "I" (incomplete) is a temporary grade used to indicate that the student has satisfactorily completed (C or better) the majority of work in a course but for personal reasons beyond the student's control, such as sickness, has not been able to complete the course during the regular semester. Normally, an incomplete is assigned in the case when the student is current in the class until at least the last three weeks of the semester or summer session. Negligence or indifference are not acceptable reasons for an "I" grade. The deferred graded (DF) should be used for those cases when a student is unable to complete a course due to institutional reasons, such as breakdown of laboratory equipment. The No Basis grade (N.B) may be used solely at the discretion of the instructor if there is insufficient basis for evaluation to assign. ppr

~~The assignment of an incomplete grade can only be made by the instructor after consultation with the Dean of the school or college in which the course is given. Deans are encouraged to consult with the Dean of Students in questionable cases.~~ ppr The instructor will also include a statement of the work required of the student to complete the course at the time the "I" grade is assigned. and a copy of the Notice of incomplete grade will be sent to the Dean of the school or college in which the course is given. ppr

An incomplete must be made up within one year or it will automatically be changed to an "F" grade by the Records Office. The "I" grade is not computed in the student's grade point average until it has been changed to a regular letter grade by the instructor or until one year has elapsed at which time it will be computed as an "F". A senior cannot graduate with an "I" grade in either a University or major course requirement. To determine a senior's grade point average at graduation, the "I" grade will be computed as a failing grade.

Effective: ~~Upon Chancellor's Approval~~ Fall 89

N.B. The reference to the NB grade is added at the suggestion of the President elect of the Senate.

Neither the Deans nor I can think of any reason why it is necessary for the faculty member to consult with the Dean prior to assigning an "I" grade. However, a copy of the notice of Incomplete grade should be sent to the Dean so that he or she is aware of practices within the college and because at times, a faculty member leaves the University and other arrangements for removing the I must be made.

Pat O'Rourke

Rationale: Former community colleges utilized a permanent "I" system for incompletes after one year. This motion would remove the permanent "I" as an option within the system.

David M. Smith
President, UAF Faculty Senate

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED AS AMENDED (Unanimous Approval)
==========

Amend policy on "pass" and "fail" as exists in catalog to the following:

P Pass - The grade "pass" indicates satisfactory completion of course requirements at either the undergraduate or graduate level. A "pass" grade does not affect the grade point average but credits earned with "pass" grades may apply toward meeting degree requirements and may be used as a measure of satisfactory progress. Satisfactory performance is the equivalent of a grade "C" or better in undergraduate coursework and "B" or better in graduate courses. The entire class must be graded pass/fail and the grading system is to be noted in the course schedule.

F Fail - Indicates failure (no grade points). All "F" grades, including those earned in pass/fail courses, are included in the GPA calculations.

Effective: ~~Upon Chancellor's Approval~~ Fall 89

Rationale: The option to have a pass/fail option should be linked to the nature of a course offering. Students have credit-no-credit options in courses where they desire choice as to grading.

Note: Amendment to motion unanimously passed changing requirement for the grading system to be noted in course schedule instead of being announced at the beginning of the semester.

Dan McSmith
President, UAF Faculty Senate

APPROVED Pat O'Rourke Date 1/4/89
Chancellor's Office

DISAPPROVED _____ Date _____

cs/cover2-14

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED AS AMENDED (16 ayes, 7 nays)

An instructor has the option of awarding a No-Basis grade, "NB", if there is insufficient student progress and/or attendance for evaluation to occur. No credit will be given nor will the "NB" be calculated in the GPA. This is a permanent grade and may not be used as a substitute for the Incomplete (I). It may not be removed by subsequent completion of outstanding work. PAR

Effective: ~~Upon Chancellor's Approval~~ Fall 89

Rationale: This grade will give an instructor the option to not grade students who have not completed assignments or who were absent from class for a significant portion of that class. The "NB" grade was a grade used by certain units within the system. This motion would make that grade available university-wide.

Note: Amendment to motion unanimously passed giving the instructor the option of awarding the No-Basis grade.

Amend policy on academic advising as exists in catalog to the following:

(( )) = deletion
CAPS = addition

Academic Advising

UAF considers advising to be an integral part of the educational process; therefore, the objective of the advising program is to assist students in maximizing their responsibilities for their own academic program and in setting and achieving academic and postgraduate goals. Effective academic advising is perhaps the highest form of service that the individual faculty members can render to students and to UAF.

DEGREE AND CERTIFICATE CANDIDATES ARE REQUIRED TO HAVE AN ACADEMIC ADVISOR. Most of those students who have declared majors will be advised by the faculty in the department of the major. Undeclared students, those without majors, will be assigned advisors from the faculty at the UAF campus or unit where they are enrolled. ADVISOR CONSULTATION IS DESIRED BEFORE CLASS SELECTION IS APPROVED AND REGISTRATION IS ALLOWED FOR NON-DEGREE STUDENTS WHO PLAN TO ENROLL IN MORE THAN 9 CREDITS OR WHO HAVE ACCUMULATED 30 UAF CREDITS.

Effective: ~~Upon Chancellor's Approval~~ Fall 89

Rationale: Requires advising for students enrolled for three-quarters time loads or those having utilized one year of instruction.

Note: Motion to delete advising requirement for students who have accumulated 30 UAF credits failed (8 ayes, 10 nays). Motion to amend motion by having advisor consultation desired instead of required passed (unanimously).

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED (1 nay)
==========

Amend policy on scholastic standards as exists in catalog to the following:

(( )) = deletion
CAPS = addition

Scholastic Standards FOR UNDERGRADUATE DEGREE Students, CERTIFICATE STUDENTS, AND NON-DEGREE STUDENTS ENROLLED IN MORE THAN 9 CREDITS:

UAF has set scholastic standards so undergraduate, CERTIFICATE AND NON-DEGREE students ENROLLED IN MORE THAN 9 CREDITS earning less than satisfactory grades will examine their objectives carefully before continuing. The scholastic standards are designed so that action is taken before a student's record deteriorates to the point that readmission to UAF or to another college or university becomes a problem. In all cases involving poor scholarship, students are encouraged to consult with their advisors, instructors, or deans.

At the end of a semester, an undergraduate, CERTIFICATE OR NON-DEGREE student ENROLLED IN MORE THAN 9 CREDITS failing to earn a GPA of 2.00 in courses at UAF will be subject to scholastic action. Depending upon the circumstances, scholastic action may result in a student being placed on probation, continued on probation or disqualified from the university.

Probation - Academic probation will occur when the semester grade point average of an undergraduate degree student ((or a full-time)), CERTIFICATE DEGREE STUDENT, OR A NON-DEGREE STUDENT TAKING MORE THAN 9 CREDITS falls below 2.00 A student previously on probation whose semester and/or cumulative GPA is less than 2.00 may be continued on probation if circumstances warrant. The probation determination, which is made by the dean of the college in which the student is m majoring, may include conditions and/or credit limitations which the student is expected to fulfill during his/her next enrollment at UAF. Probation students may be referred for developmental advising/education and/or to a counseling center. In order to be removed from probation, a student's cumulative and semester gaps must be 2.00 or higher. Academic probation will be noted on a student's UAF transcript.

Academic Disqualification - If a student's cumulative record indicates poor scholarship, the dean of the college in which the student is majoring may recommend that the student be not permitted to enroll in credit courses at UAF for the next regular semester following disqualification. After one regular semester, a student may enroll at UAF as a special student, limited to six credits or less per semester for any remainder of the disqualification period. A student under academic disqualification must reapply for admission to UAF

when he/she wishes to be considered for readmission as a regular student. The application for readmission should include evidence that the student now has a high probability for success in college. A STUDENT MAY CONTINUE ENROLLMENT AT UAF ONLY AS A NON-DEGREE STUDENT, LIMITED TO ENROLLMENT TO 9 CREDITS OR LESS PER SEMESTER, UNTIL REINSTATED. A STUDENT MUST APPLY FOR READMISSION WHEN HE/SHE WISHES TO BE RESTORED TO DEGREE SEEKING STATUS.

ACADEMIC HISTORY ENTRY - ACADEMIC PROBATION AND REMOVAL FROM DEGREE SEEKING STATUS WILL BE NOTED ON A STUDENT'S ACADEMIC HISTORY RECORD. NO NOTATION WILL APPEAR ON AN OFFICIAL TRANSCRIPT OF THAT RECORD; HOWEVER, PROBATION AND REMOVAL FROM DEGREE SEEKING STATUS WILL APPEAR ON INTERNAL DOCUMENTS SUCH AS UNOFFICIAL TRANSCRIPTS AND COUNSELING REPORTS.

Good Standing - ((To be in good standing, an undergraduate UAF student must maintain an overall and most recent semester GPA of 2.00 or better.)) AN UNDERGRADUATE STUDENT IS IN GOOD STANDING WHEN HIS/HER UAF CUMULATIVE GPA AND MOST RECENT SEMESTER'S GPA ARE 2.00 OR BETTER.

Effective: ~~Upon Chancellor's Approval~~ Fall 89

Rationale: Rationale: Adds certificate and non-degree students to policy. Specifies requirements for continued enrollment after disqualification and indicates how student's status will be noted in official university documents.

The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED (Unanimous Approval)
==========

The UAF Faculty Senate postpones action on the proposed merit award program amendment until the December Senate meeting to allow members to present the motion to their constituents. The motion reads:

Amend the financial award program approved by the Fairbanks Assembly at Meeting #104, October 21, 1987, as follows:

(( )) = deletion
CAPS = addition

A financial award program recognizing faculty for meritorious performance OR IN SUPPORT OF PROPOSED PROFESSIONAL ACTIVITIES OF MERIT shall be instituted based on the following principles:

a) A fixed number of awards shall be given within each College or School based on the total number of full time faculty members (or equivalent).

b) Awards shall be ((made in the form of a bonus check)) of substantial amount (say $1000 or $2000) annually (not a continuing percentage increase).

c) The method of nomination of award recipients, criteria for awards, and the selection of recipients within each College or School shall be determined by a committee of four faculty members nominated and elected by the faculty within that College or School, and one student from that College or School appointed by ASUA. Awards shall be made by the cognizant dean from a pool of funds provided to the school or college by the Office of the Chancellor.

Effective: Upon Chancellor's Approval

Rationale: This amendment would permit the faculty of a school or college to go ahead with an award program in precisely the manner originally set forth, it would also give the faculty in each school and college the option of using the funds to underwrite or help underwrite small proposed projects. In the latter case, incentive is encouraged and the criteria could be designed to encourage collaboration. The proposed amendment simply authorizes, rather than mandates, such an option.

The words "made in the form of a bonus check" assume a program of awards to individuals and are not compatible with the proposed option; however, the deletion of those words does not prevent bonus checks from being awarded, if a particular faculty chooses that route. If the motion is silent on that matter, it would be internally consistent with whichever option a faculty might choose.

If the amendment is approved, the three principles set forth in the motion would apply to either option chosen by a faculty.

The UAF Faculty Senate approved the following at its meeting #6 on October 14, 1988:

MOTION PASSED (Unanimous Approval)

Elected members of the 1988-89 University-Wide Promotion and Tenure Committee will be:

Claron Hoskins Professor, Chemistry	College of Natural Sciences
Doug Kane Professor, Water Resources & Civil Engineering	School of Engineering
Tamara Lincoln Assoc. Professor, Library Science	Library
C. Peter McRoy Professor, Marine Science	School of Fisheries & Ocean Sciences
Nagabhushana M. S. Rao Professor, Sociology	Rural College
Michael Schuldiner Assoc. Professor, English	College of Liberal Arts
Sandra Seppamaki Assoc. Professor, Accounting	School of Career & Continuing Education
Ghanshyam Sharma Professor, Petroleum Engineering and Marine Science	School of Mineral Engineering
Jack Taylor Assoc. Professor, Business Admin.	School of Management
Wayne Vandre Assoc. Professor, Horticulture	Cooperative Extension Service
Frank Wooding Professor, Agronomy	School of Agriculture & Land Resources Management

EFFECTIVE: Immediately

RATIONALE: Each member is an elected faculty representative of a school or college at UAF. Two additional members are included for the 1988-89 year only. The member from the Library is a continuing member and is the representative of the previous Fairbanks Assembly Conglomerate Group. The second member is a member of the Cooperative Extension Service, which as of the date of the action does not have formal representation through a school or college. In 1989-90 when the new promotion and tenure guidelines are in effect, these two groups' representation will be through their school or college.

ATTACHED ARE SOME [redacted] ADDITIONAL THOUGHTS AND SUGGESTIONS WHICH THE SENATE MAY WISH TO CONSIDER.

CORE CURRICULUM

BUILDING THE ESSENTIAL INTELLECTUAL EXPERIENCES: A PROCESS

ASSUMPTIONS:

1. The core will consist of around 40 hours.

2. Advanced Literacy is sought in

   a. English (written and reading)
   b. Speech
   c. Mathematics/Computing (although not explicit in the original philosophy, it is recommended by the Ad Hoc Committee, but not as a science)

3. The humanities and the study of culture, society, and history are desired/desirable

4. Science is desired/desirable

5. There is a desire that some depth in social/cultural/historical and humanities study be built into the core. Although there is some ambivalence about what particular goals are appropriate within this framework, the goals articulated in the philosophical statement have strong support.

6. Faculty with special expertise in the areas of study outlined in May of 1987 (which were basically endorsed by the Ad Hoc review) with collaborative advisement by faculty from disciplines and professions outside of these areas of study, will develop appropriate goals and criteria to be met by courses and/or series of courses.

PROCESS:

1. Creation of Faculty Committees

   Committees concerned with the literacy areas and disciplines defined as components of the core will be established to define the learning objectives and goals to be met by students in the following areas:

   a. Literacy in English Comprehension, Composition and Speech - ~~9 credit hours~~
   b. Computer Literacy - ~~2 credit hours~~
   c. Mathematics Literacy - ~~3 credit hours~~

d. History, Culture, and Society Committee - Goals for courses and ~~2~~ course sequences ~~- 9 credit hours~~ for

e. Humanistics Expression Committee - Goals for courses and ~~2~~ course sequences - ~~9 credit hours~~ for

f. Sciences Committee - ~~7 credit hours~~ for

2. Composition of Committees

Each of these committees will be composed of:

5 faculty with special expertise in the discipline or cluster of cognate disciplines or related subspecialties. (These will be primarily from CLA, CRA, CNS.)

2 faculty from areas which graduate specialized majors, including faculty from areas with specialized accreditation, such as education, business, social work, music, engineering, etc.

3. Charge to Committees:

Each of these committees will be charged with the following responsibilities:

a. Apply the overarching theme in the introduction to and the aims within the Statement of Philosophy to the development of explicit purposes, definitions and criteria for the area of study.

b. Inform themselves by studying core programs or components of programs at other colleges and universities.

c. Inform themselves by consultation with experts in the field.

d. Where appropriate, make recommendations of courses which are designed as foundations for majors or prerequisites to professional programs which are acceptable alternatives to the core course(s).

e. Make recommendations as to the level of courses, sequencing, and whether students will be <u>required</u> to complete before entering the junior year.

f. SUBMIT A STATEMENT OF GOALS AND CRITERIA FOR THE COMPONENT OF THE CORE TO THE SENATE FOR APPROVAL BY FEBRUARY 1, 1989.

g. Solicit, encourage, and assist faculty interested in the development of new courses. Assist in creating a goodness of fit between particular course proposals and the goals, criteria, purpose, and definitions of the particular component of the core in statements submitted to the Senate by the committee.

h. Encourage multidisciplinary course approaches to achieving the purposes developed by encouraging faculty to develop team-taught and other innovative approaches.

IMPLEMENTATION:

After the goal statements have been approved by the Senate, a core curriculum subcommittee which includes one person selected from each of the core component committees should be put in place as a permanent subcommittee of the Senate undergraduate curriculum committee.

MOTION:

THE FACULTY SENATE ENDORSES THE PRINCIPLES AND PROCESSES SET FORTH IN THE OCTOBER 14TH DOCUMENT "CORE CURRICULUM - BUILDING THE ESSENTIAL INTELLECTUAL EXPERIENCES: A PROCESS" AND ADOPTS THE FOLLOWING PROCESS FOR SELECTION OF CORE CURRICULUM COMPONENT COMMITTEES:

1. NOMINATIONS OF APPROPRIATE FACULTY ARE REQUESTED FOR MEMBERSHIP ON EACH COMMITTEE. NOMINATIONS SHOULD SPECIFY WHETHER THAT PERSON IS BEING NOMINATED AS A SPECIALIST IN THE COMPONENT OF THE CORE OR AN OUTSIDE SPECIALIST.

2. NOMINATIONS MUST BE RECEIVED BY _____.

3. THE FACULTY SENATE WILL ELECT SEVEN (7) MEMBERS (5 IN CORE COMPONENT AREA; 2 OUTSIDE) TO EACH COMMITTEE FROM THE LISTS OF NOMINEES SUBMITTED.

Office of the Chancellor
(907) 474-7112

UNIVERSITY OF ALASKA FAIRBANKS

Fairbanks, Alaska 99775-0500

MEMORANDUM

TO: David Smith, President
Faculty Senate

FROM: Patrick J. O'Rourke, Chancellor PJO'R
University of Alaska Fairbanks

DATE: November 10, 1988

RE: CORE CURRICULUM COMMITTEE PROCESS

I have approved with modifications the core curriculum committee process motion which you submitted to me following the October 14, 1988 meeting of the Faculty Senate. While the following are not part of my action, I offer them as points for the senate to consider.

1. I believe each committee needs to embrace the concepts which implement the philosophy prior to dealing with specific courses. Based on my prior conversations with you, you empathize with this approach. Once the concepts are in place, it becomes a matter of development of the core courses or packaging of the concepts into courses in a manner which students might achieve and accomplish their goals. It is possible that the content of the courses we already have in place may embrace the concepts which would implement the philosophy, but we should not presume this has to be the case throughout all facets of the core curriculum. It is possible that new course content may have to be developed to appropriately get at the intellectual experiences which we seek for our baccalaureate graduates.

2. I suggest the Committee on Literacy in English deal with the issue of library skills. As I mentioned in my action on the motion dealing with the ad hoc committee report, the range of possibilities is open. They may wish to incorporate some or all of the concepts of library usage into our existing or new courses or they may wish to indicate it is not desirable or necessary for accomplishing the philosophy. Additionally, I

suggest the faculty representing the core on this committee have at least one representative from English composition, speech, and developmental English studies.

3. I suggest the combining of the computer literacy committee with the mathematics literacy committee. Again, referring to my action on the ad hoc committee proposal, I detect an ambivalence among the faculty regarding the issue of computer literacy. In my prior comments to you, it is possible to look at computer literacy as a separate credit requirement, to look at it as a required competency that one must demonstrate but not necessarily take courses in, or to look at it as a piece of another discipline. For instance, in the area of mathematics, would it be possible in the teaching of mathematics to have sufficient computer familiarization occur to accomplish this objective? In other words, by utilizing computers in initial mathematics courses students take, can we accomplish the objectives of quantitative literacy along with computer literacy?

4. I recommend the Committee on History, Culture, and Society assure at least one representative from psychology/sociology in the Rural College and one representative from economics in addition to other social science representatives from the College of Liberal Arts. This is with specific reference to the core faculty.

5. Regarding the Committee on the Nature and Use of Science, I suggest the core faculty on this committee assure representation to at least one faculty member from each of the four basic sciences: biology, physics, chemistry, and geology.

6. I suggest each of these curriculum committees include, in their final reports to the senate, the specific core content to be completed. In other words, regarding mathematics and English, is it necessary and desirable that these core requirements be completed prior to junior standing?

Finally, I suggest the committees on mathematics and English literacy consider alternative processes for highly variable groups of students who will be pursuing the accomplishment of certain intellectual experiences in each of these cores. I am struck by the fact that students enter our institution with an extremely wide range of abilities in mathematics and English. Yet, other than remedial or developmental courses which we might offer to them, we assume they shall complete the same level of competency regardless of their starting level. This does not seem logical. Is it not possible to consider an approach whereby the expected concepts and competencies remain firm in the end, but we arrange our courses and meeting times to better help students succeed? For instance, can we and should we rearrange our meeting times for courses, such as introductory composition, to better assist students to achieve? Perhaps those who enter with a lesser degree of prior capability in this area would be subjected to a course that might meet six or more hours per week as opposed to the standard three. This allows a faculty member to work more intensively with students needing this type of assistance, yet still allows the faculty member to concentrate on achieving the desired outcomes. Would a similar approach be useful and beneficial in mathematics?

As previously stated, I offer the above only as suggestions.

Fairbanks, Alaska 99775-0500

MEMORANDUM

TO: David Smith, President
Faculty Senate

FROM: Patrick J. O'Rourke, Chancellor
University of Alaska Fairbanks

DATE: November 8, 1988

RE: AD HOC COMMITTEE ON CORE CURRICULUM

I regret that I must disapprove the action of the Faculty Senate at its meeting on October 14, 1988 regarding the report of the Ad Hoc Committee on Core Curriculum. I do so for a number of reasons:

1. In general, I believe the ad hoc committee proposal had far less faculty input into its development than did the original proposal which had been adopted by the Academic Council on April 29, 1987 and approved by Vice Chancellor Thomas on August 28, 1987. This former action established a framework for the distribution of credits within which successor groups were to deal.

2. Although the ad hoc committee report of 9/7/88 states that the real difference between its proposal and the one adopted by the Academic Council on April 29, 1987 is only two credits, closer review indicates there is a substantial altering of the proposal particularly as it pertains to the underlying statement of philosophy which was adopted on March 19, 1986. In my opinion, serious and major alterations occur in three of the intellectual experiences which we, as a University, ascribed to be essential for all baccalaureate graduates regardless of academic major or career aspirations. These three are science, history-culture-society, and humanistic expression.

   Regarding science, in our philosophy we subscribed to the notion of "the nature and use of science." The ad hoc proposal reduces this to science (which could mean a substantially different concept) and reduces by one credit the requirement. This might look relatively minor, but that

one credit represents in practicality either the inclusion or exclusion of two science lab requirements. Its removal forces a situation whereby in one semester a lab requirement would be included and in the second semester it would not. This precludes the coherent approach to a sequence of courses and is not advantageous to the institution and its students. It is my understanding that a number of the professional schools have found the possibility of two lab sciences to be particularly onerous. Given their numerical representation on the ad hoc committee, it appears they saw an opportunity to weaken a requirement to which this University and its faculty had previously subscribed.

With regard to history-culture-society, the ad hoc committee, by reducing this to a notion of social science and including it with humanities, has distorted the original intent of the philosophy to which we had previously committed ourselves. It is not possible to assure the objectives of our philosophy in the form presented by the ad hoc committee. This same dilemma faces us in the area of humanistic expressions. A coherent undergirding in both was sought by the original faculty committee and they tried to assure this by articulating the values that should be included in each intellectual experience. The ad hoc committee reduces these intellectual experiences and combines them in a way that does not assure that each can be accomplished. The ad hoc committee argues that the approach taken by the earlier committee reduces the distribution to one of everything at the elementary level. I do not believe this is necessarily the outcome nor the intent of the philosophy. The ad hoc committee further argues that the requirements are too restrictive and discourage a student from taking a foreign language. This is not necessarily the case.

3. The ad hoc committee reverses the earlier action on the basis that it was considered unworkable and inappropriate by the faculty involved in offering the Bachelor of Science degree and professional degrees. Unfortunately, the natural science faculty has communicated through their dean that the revised proposal is even more unworkable for a coherent experience. Some of the professional degree programs have argued throughout the process that they believe the strengthening of general requirements weakens their professional requirements. However, I don't believe this has been adequately proven by

any of the professional degree programs. As a matter of fact, both ABET (Accreditation Board for Engineering Technology) and AACSB (American Assembly of Collegiate Schools of Business) have expressed concern to us through their evaluation teams that we may not have been adequately meeting the general requirements they seek for engineering and business students. These evaluation teams have indirectly expressed a need for us to assure a strengthening of coursework in other areas for these professional school majors. We started three years ago to define that body of knowledge we believed every baccalaureate graduate of this University should achieve regardless of his/her major. At times, these may appear to be in conflict with the professional major areas, but I believe it is incumbent upon these professional areas to embrace a broad liberal education in addition to the specializations which they provide to their students.

4. I realize it had been argued during the October 14 meeting of the senate that the ad hoc committee had worked for an entire year and had their work disregarded. In reality, their time commitment on this project was substantially less than the ad hoc committee of the Academic Council which worked for two years to bring us to the proposal of April 29, 1987. I reiterate that all of the arguments proffered to the ad hoc committee were heard by the earlier committee and more carefully studied decisions were made. As you are aware, the senate did not have either the ad hoc committee report or the action of April 29, 1987 in front of them when they deliberated this issue. Subsequent to the meeting, senators indicated they did not know specifically what they were voting on. Thus, I question whether or not there was careful deliberation and debate of the proposal and I conclude there was not.

5. Finally, the ad hoc committee proposal closes off options before any of us have the opportunity to see the content and concepts which might be proposed to implement the philosophy. I do not believe this is in the best interests of the University.

I struggled with trying to find a way to approve the ad hoc committee report with modifications. However, as I got into it, I believe to do so would have been a dishonest action on my part. I believe both the ad hoc committee report and the original Academic Council action, which was approved by Vice Chancellor Thomas on August 28, 1987, merit adequate consideration in the next stage of our development. The ad hoc committee report appears to cut off options which may be useful toward implementing our statement of philosophy.

In order to keep our options open, I would like to propose the following:

1. That the faculty committees proceed with implementation of the philosophy statement "the baccalaureate experience at the University of Alaska Fairbanks."

2. That they use the credit hour distribution of the Academic Council proposal of April 29, 1987, as signed by Dr. Thomas on August 28, 1987, as the "framework" for the distribution of credits for implementation of this philosophy.

3. That they consider the ad hoc committee report of 9/7/88 as an alternative view which should be considered in the course of their deliberations. If the points are valid, they should then request modification of the original framework as they put forward the specific content which will fulfill the stated philosophies.

4. That the issues of computer literacy (3 cr) and library skills (1 cr) be addressed by the Committee on Literacy Requirements and a special recommendation be made to the senate for the need to include these as credit requirements or not. As a suggestion, such items could be considered required competencies for graduation at the baccalaureate level without credit attached. In other words, an evaluation would have to be devised whereby students could demonstrate whether or not they have the competencies. If they do not, then they would have to complete certain selected coursework. An alternative approach would be to build these competencies into the required math and English course offerings. This could result in a change of credit value for such courses.

5. An early version of the proposed core suggested that English, math and speech (i.e. advanced literacy) requirements be completed prior to junior standing (i.e. 60 credits). This seemed to have merit to it, but did not appear in either the April 1987 version passed by the Academic Council or the ad hoc committee report of 9/7/88. I would like to suggest that the literacy committee address this recommendation separately in its report to the senate.

Rev. 09/07/88

REPORT OF THE AD HOC COMMITTEE ON CORE CURRICULUM

The Committee

The Ad Hoc Committee on Core Curriculum consisted of the Chairs of the College/School Curriculum Councils (as mandated by action of the Academic Council) -- Ray Barnhardt, Rural College; Peter Biesiot, SOM; John Fox, SALRM; Vincent Pelletier, CLA; Don Schell, SFOS; Lewis Shapiro, CNS; Frank Skudrzyk, SME/Engin; Kurt Torgerson, SCEE; three members of the Senate Curriculum and Instruction I Committee--Laura Milner; Don Lokken; and Ronald Gatterdam, and Debbie Vanasse representing Developmental Education. The Committee was chaired by Ronald W. Gatterdam and acted on the basis of consensus of the Curriculum Council Chairs.

Observations

It was clear from the onset that the document entitled "Baccalaureate Core Curriculum Proposal for UAF" dated April 3, 1987 was considered unworkable and inappropriate by the faculty involved in offering B.S. and professional degrees. The Ad Hoc Committee on Core Curriculum attempted to work within the credit hour guidelines accepted by the Academic Council:

Literacy	13
Science (including computer literacy	11
History, Culture, Society	9
Humanistic Expression	9

The recommendation of the Ad Hoc Committee on Core Curriculum differs by only two credits with some mild repackaging:

Literacy (includes computer literacy)	15
Science (excludes computer literacy)	7
Social Science and Humanities	18

The difference of two credits results from the deletion of LS 101 and the reduction of the science requirement (exclusive of computer literacy) from 8 to 7 credits.

The Ad Hoc Committee's view was that the main problem with the April 3, 1987 document concerned the items C, History, Culture and Society and D, Humanistic Expression. The first concern was that the 18 total credit hours should be replaced by 15 (or 16). With the removal of LS 101, the 18 credits was accepted. The more difficult issue was the internal distribution of credits in C and D. The "one of everything at the elementary level" was viewed as a weakening of the de facto curriculum for many degrees. In addition, these requirements were viewed as too restrictive for students for whom 18 credits may well be the total of humanities and social science taken (in particular the proposal would have discouraged taking a foreign language.) While the Ad

Hoc Committee on Core Curriculum was not opposed to some (but not total) structure for the 18 credits, no specifics were forthcoming from CLA so only guidelines are proposed here.

Models

There are four possible models for a common curriculum and all were implicitly discussed.

1. Degree specific requirements (i.e., BA, BS, BBA, etc.)
2. College/School specific requirements
3. Core plus specific degree requirements
4. Core plus specific College/School requirements.

The current situation is nominally of type 1 but is in fact type 3. The type 3 model would be retained. The core consists of specific course requirements and credit distribution requirements. The specific degree requirements may specify how the distribution requirements are to be met in addition to specifying additional specific courses or credit distribution.

Proposal

I.	Core			15
	A.	Literacy		
		1. English 111 & 211/213	6	
		2. Speech	3	
		3. Any Math class at 100 level or above	3	
		4. Computer literacy new course CS 201, or ES 201 or equivalent	3	
	B.	Science At least one 4 credit laboratory course		7
	C.	Society and Humanities to include		18
		1. At least 3 credits from Social Sciences		
		2. At least 3 credits from Humanities		
		3. At least ~~3~~ 6 credits in same discipline		
				40
II.	Specific Requirements			
	A.	B.A.		
		1. One course in Math, AS 301 or Econ. 226 in addition to I.A.3.	3	

2.	Social Science in addition to I.C.	6
3.	Humanities in addition to I.C.	6
4.	In addition to I.C., one of a) 16 credits of foreign or Alaska Native language b) 18 credits in culture courses (as described in the report of 4/3/87) c) 18 credits in a combination of culture and language	16-18

Note: Music will delete "free electives 14" from its current music requirement for the BA.

B. B.S.

1.	One year of Math or AS beyond I.A.3	6-8
2.	One year laboratory sequence in Biology, Chemistry, Geology or Physics in addition to I.B.	8

C. B.B.A.

1.	Math 161 and 162 (satisfies I.A.E.)	6
2.	Physics, Chemistry, or Biology lab (partially satisfies I.B.)	4
3.	Either PS 101 or 102 (partially satisfies I.C.)	3
4.	Either Psy 101 or Soc 101 (partially satisfies I.C.	3
5.	Either a) 10 credits of foreign language b) 6 credits in one of Fine Arts, Literature or Thought (partially satisfies I.C.)	6-10

D. B.Ed.

1.	LS 101	1
2.	Natural science laboratory courses (satisfies I.B.)	8
3.	Items C & D from the 4/3/87 document (partially satisfies I.C.)	18

E. B.T. (in Education)
Being considered by the Rural College.

F. B. Music
No additional requirements

Notes:

1) Double counting is permitted except as explicitly prohibited.
2) Social Science, Humanities and Science are to be given a broad interpretation. In particular, courses in impact of technology, enhancement of the environment, etc. should be considered under Society.
3) A foreign language partially satisfies I.C. and is to be encouraged.

Rev. 12/1/88

CONSTITUTION
of the
UNIVERSITY OF ALASKA FAIRBANKS
FACULTY SENATE

Preamble

Under Board of Regents' Policy, the University of Alaska Fairbanks Faculty Senate is formed so that the faculty may carry out its professional responsibility as the legislative body of the University of Alaska Fairbanks in matters of instruction, research/creative activity, and service.

ARTICLE I - Name

Sect. 1. The name of the organization shall be the University of Alaska Fairbanks Faculty Senate, hereinafter referred to as "Senate".

ARTICLE II - Rights, Responsibilities and Authority

Sect. 1 Faculty rights include the following:

A. To exercise academic freedom.

B. To form a representative body to develop legislation concerning the professional activities of the faculty.

C. To have elected representatives to appropriate governance bodies.

D. To have primary authority through the Senate to initiate, develop, review and approve academic criteria, regulation and policy with regard to the responsibilities outlined in Section 2.

E. Other rights as may be defined under this constitution and bylaws.

Sect. 2 Faculty responsibilities include the formulation of policies and regulations guiding:

A. Faculty appointment, re-appointment, termination, development, evaluation and workload.

B. Tenure

C. Promotion

D. Teaching

E. Research/creative activities

F. Advising

G. Service

H. Sabbatical leave

I. Honorary degree candidates

J. Scholastic standards

1. Degree requirements
2. Curriculum review
3. Admission standards
4. Grading policy
5. Academic probation
6. Academic suspension
7. Academic dismissal
8. Class length and structure of the academic year

K. Other responsibilities as may be defined by the faculty under this constitution and bylaws.

Sect. 3 Further Responsibilities

A. To advise the administration of the University of Alaska Fairbanks on academic and faculty matters.

B. To provide faculty representatives to the appropriate governance bodies.

C. To support student and staff constituencies on matters of mutual concern.

Sect. 4 AUTHORITY

The Senate shall carry out its responsibilities and functions subject to the authority of the Board of Regents Policy. Senate actions will be binding, subject to review, veto, and override in accordance with ARTICLE XI (Veto Powers) of this constitution.

ARTICLE III - Membership

Sect. 1 The Senate shall be constituted according to the provisions specified in the bylaws.

Sect. 2 Voting members of the Senate must hold academic rank and must be full-time permanent employees of the University of Alaska FAIRBANKS.

Sect. 3 Senate members shall be elected from and by the faculty of their respective units, as set forth in the bylaws, to two-year terms which shall be staggered to ensure continuity.

Sect. 4 The terms of the newly elected and appointed members shall commence at the beginning of "New Business" of the last regularly scheduled Senate meeting of the academic year.

Sect. 5 Any voting member of the Senate may be recalled according to the provisions of the bylaws.

Sect. 6. Non-voting members of the Senate shall have voting privileges on any Senate committee on which they serve.

ARTICLE IV - Officers

Sect. 1 The two officers of the Senate shall be the President and the President-Elect.

Sect. 2 The President and President-Elect shall be elected from and by the voting members of the Senate for one-year terms.

Sect. 3 The President-Elect, after serving for one year in this position, subject to Sections 4 and 5, will automatically become President for one year.

Sect. 4 The term of the President may be extended for one additional year by a two-thirds majority vote of the entire voting membership of the Senate. The vote will be by secret ballot and, if passed, the term of the President and the current President-Elect will be extended for no more than one additional year.

Sect. 5 If for any reason the President should relinquish or be recalled from office, the President-Elect will automatically and immediately assume the Presidency. The Senate shall elect a Vice President to fill out the remainder of the year at which time a new election for President-Elect will be held as outlined in ARTICLE III, Section 6. The previously elevated President-Elect will complete the next academic year as President.

Sect. 6 The terms of the newly elected President and President-Elect shall commence at the beginning of "New Business" of the last regularly scheduled Senate meeting of the academic year.

ARTICLE V - Committees

Sect. 1 The requirements for membership on standing, permanent, and ad hoc committees of the Faculty Senate will be specified in the bylaws.

ARTICLE VI - Relation to the University of Alaska Fairbanks Assembly and the University of Alaska General Assembly.

Sect. 1 Senate members shall represent the faculty on the University of Alaska Fairbanks Assembly and the University of Alaska General Assembly.

Sect. 2 The President and President-Elect will represent the Senate on the University of Alaska General Assembly and one will serve on the Executive Committee of the General Assembly.

ARTICLE VII - Meetings

There shall be a minimum of seven regular meetings each academic year. Other meetings may be held on special call of the Administrative Committee of the Senate.

ARTICLE VIII - Quorum

The presence of a majority of the membership shall constitute a quorum. Presence may be established by participation in an audioconference.

ARTICLE IX - Parliamentary Authority

The parliamentary authority shall be the most recent version of Robert's Rules of Order.

ARTICLE X - Amendments

Sect. 1 Amendments to the constitution may be proposed only by members of the Senate and copies shall be sent to all members of the Senate. Amendments must be formally read and incorporated in the minutes of a Senate meeting.

Sect. 2 Approval of amendments to the constitution requires a two-thirds vote and cannot occur sooner than 28 days from the date of the meeting at which the amendments were first read and discussed.

Sect. 3 Approval of amendments to the bylaws requires a majority vote.

ARTICLE XI - Veto Powers

Sect. 1 The Chancellor's Office shall have the right to veto actions taken by the Senate relating to academic, research, service and faculty affairs. A Senate action shall be considered approved unless written reasons for a veto are received in the Senate Office within 30 days of that action being received by the Chancellor's Office. The Administrative Committee upon request by the Chancellor may extend the 30 day requirement.

Sect. 2 Any action approved by the Senate and vetoed by the Chancellor's Office may be submitted to a reconciliation committee upon a two-thirds vote of the Senate. Up to three members appointed by the Senate and up to three members appointed by the Chancellor's Office shall constitute a reconciliation committee whose task it shall be to formulate recommendations to the Senate and the Chancellor's Office.

If the Senate and the Chancellor's Office are not able to resolve the impasse, then the Senate, upon a two-thirds vote, may elect to forward its previous action through the University of Alaska governance structure as provided for under Regents' policy.

ARTICLE XII - Faculty Referendum

Sect. 1 A faculty referendum on any Senate action will be called when a petition containing the signatures of ten percent of the full-time, permanent faculty is filed with the Senate Office. The Administrative Committee of the Senate will call for a Senate convocation at which time any business of the Senate may be reconsidered if the majority of the faculty eligible to elect members to the Senate, as described in the bylaws, is present at the convocation.

Sect. 2 The convocation must take place within 21 working days after the petition is filed with the Senate Office.

Sect. 3 The Senate actions may be modified by a simple majority vote of the members at the convocation.

The UAF Faculty Senate approved the following at its meeting #6 on October 14, 1988:

MOTION PASSED (Unanimous Consent)

The UAF Faculty Senate adopts the Bylaws as included in Attachment 3 to the Agenda of Senate Meeting 6 dated October 7, 1988 and as further amended at Senate Meeting 6.

BYLAWS
of the
UNIVERSITY OF ALASKA FAIRBANKS
FACULTY SENATE

Sect. 1 (ART III: Membership)

A. The membership of the Faculty Senate, hereinafter referred to as "Senate," shall consist of approximately 41 members plus one non-voting presiding officer. Approximately 35 members shall be elected by and from the faculty and will have voting privileges. Six non-voting members will be selected by and from other university constituencies as follows: one non-graduate student and one graduate student selected by the ASUA, one professional school dean and one college dean selected by the Deans' Council, one staff representative from the registrar's office, and one additional staff member selected by the Staff Council. If the staff representative from the registrar's office is APT, the second staff member must come from the classified staff ranks. If the staff representative from the registrar's office is classified, the second staff member must be APT.

Terms shall be for two years and staggered, with approximately one-half of the Senate elected each year. The first year, each unit shall elect approximately half of its representatives for terms of two and one-half years, and half for one and one-half years. [EXCEPTION: Members from units having only one representative will be elected for terms of two and one-half years. This may necessitate an adjustment of length of initial terms of members from larger units.]

B. Representation shall be by academic unit and based on the number of full-time faculty equivalent (FTFE) in each unit as described below.

1. A unit is a single school or college or a collection of schools and/or colleges (see item 7).

2. A faculty member is one who holds academic rank. (Currently includes lecturer, research or senior research associate, instructor, assistant professor, associate professor, or professor be they full-time, part-time, or visiting)

3. Each faculty member whose annual academic appointment equals or exceeds 1560 hours will be considered 1 FTFE.

4. Each faculty member whose annual academic appointment is less than 1560 hours will be considered a fractional FTFE with the fraction being the number of hours of annual academic appointment divided by 1560.

5. Each unit will elect the number of representatives to the Senate equal to the number of FTFE in that unit divided by the total UAF FTFE, multiplied by 35 and rounded to the nearest integer.

6. A faculty member having appointment split between units shall be included in each unit in proportion to the respective appointment for the computation of item 5.

7. All schools or colleges whose representation under item 5 is zero shall be grouped into the conglomerate group and this group shall be treated as a single unit for purposes of the computation of item 5. If a unit which would have been grouped in the conglomerate group decides instead that the unit would be better served by joining with another school or college, it may do so upon the mutual agreement of those units.

8. Re-apportionment will be done for the elections held in even numbered years or upon two-thirds vote of the Senate.

C. Election Procedure

1. Election shall be held by the units to provide representatives to the Senate according to Article III of the Senate Constitution. Elections and election procedures are the responsibility of the units, subject to the following:

2. A faculty member may vote for Senate representatives in only one unit. That unit must be the unit of primary appointment or, in the case of evenly split appointment, the unit of the faculty member's choice.

3. Units with full-time permanent faculty based on other than the Fairbanks campus should elect Senate representatives in a number that is at least equal to the proportion of the non-Fairbanks based FTFE's.

4. Units with faculty who teach in associate, certificate, or non-credit programs should elect representatives in proportion to such faculty.

5. Units with senior faculty should elect associate and full professors as Senate representatives in a number that is at least equal to the proportion of such faculty.

6. Units with graduate programs should elect at least one graduate faculty member.

7. Each unit shall elect at least half as many alternate representatives as representatives.

Sect. 2 (ART IV: Officers)

The President of the Senate shall be an ex-officio, non-voting member of all elected and appointed committees of the Senate. The President-Elect of the Senate shall be chairperson of the Administrative Committee of the Senate and shall be an ex-officio, non-voting member of such elected and appointed committees of the Senate as the President of the Senate shall direct.

Sect. 3 (ART V: Committees)

A. An Administrative Committee will be composed of the chairpersons of all standing and permanent Senate committees.

B. Membership on standing and permanent committees will be for two years with the possibility of re-election and will be appointed by the Administrative Committee and endorsed by the full Senate.

C. Standing committees will be constituted entirely of Senate members. Permanent committees can be constituted without Senate members.

D. All permanent and standing committee chairs will be elected from and by the members of their respective committee and must be full-time faculty at UAF.

E. The standing and permanent committees of the Senate are:

STANDING

1. The Curricular Affairs Committee will deal with curricular and academic policy changes on all levels except the graduate level.

2. The Scholarly Activities Committee will deal with policies concerning research and creative activity.

3. The Faculty Affairs Committee will deal with policies related to workload, appointment, termination, promotion, tenure, sabbatical leave, and academic freedom.

PERMANENT

1. The University-Wide Promotion and Tenure Committee will be one member from each school and college. Members of this committee must hold tenured senior level appointment at UAF. This committee will review candidate files for promotion and/or tenure and will recommend for or against the promotion and/or tenure of each candidate who presents a file for consideration by the committee.

2. The Service Committee will be 7 members who represent the academic community and the general public, with not less than two members being non-university employees. The chair must be a Senate member. Members' terms will be staggered to provide continuity. This committee will deal with policies relating to the service mission of the university and its faculty.

3. The Graduate Council shall deal with policies concerning graduate degree programs and instruction.

   A. Graduate Council shall consist of:

      1. 5 graduate faculty members elected from and by the Senate with no more than two members from the same college or school.

      2. To the extent not already being represented by the 5 Senate members, 1 member elected from and by faculty in schools and colleges with active graduate programs, or 2 if the school or college has one or more active Ph.D. programs.

      3. 1 graduate student

      4. 4 ex-officio non-voting members: Dean of the Graduate School; Coordinator of Graduate Studies; Director of Admissions and Records; and Director of the Library.

   B. Elections to fill vacancies on Graduate Council will take place as soon as practical following the last regular meeting of the Senate. The chairperson of Graduate Council will identify vacancies and notify the faculty of the affected schools and colleges with a request for nominations. Nominees must be full-time faculty members actively engaged in graduate teaching and research. The election will be administrated by the respective deans' offices. The duration of the terms shall be for two years with staggered terms.

   C. Graduate Council may, by a majority vote and upon confirmation by the Senate, supplement its membership. Such extra appointments will be for a two-year term.

4. The Developmental Studies Committee will be one representative from each of the following units: Northwest ~~College~~ Campus, Chukchi ~~College~~ Campus, Kuskokwim ~~College~~ Campuses, Bristol Bay Campus, the College of Natural Sciences, the Math, English, and Cross Cultural Communication Departments in the College of Liberal Arts, the School of Career and Continuing Education, the General and Developmental Studies Department in the Rural College, and the Rural Education Centers.

Additionally, there will be a non-voting representative from the Advising Center and a non-voting representative from Rural Student Services. This committee will function as a curriculum council review committee for all developmental studies courses. Discipline based developmental courses will first be reviewed by the appropriate college curriculum council before submission to this committee for review and coordination.

5. The Faculty Development, Assessment and Improvement Committee will be composed of faculty members and the Director of Faculty Development. This committee will deal with faculty and instructional development and evaluation.

6. The Committee to Nominate Commencement Speaker and Honorary Degree Recipients will nominate commencement speakers and candidates for honorary degrees.

7. The Legislative Affairs Committee will follow issues which may impact faculty concerns at the university and will act as a faculty advocate with legislators and candidates.

F. Any standing or permanent committee may create subcommittees to assist the committee.

G. The Senate President may create and appoint the members of any ad hoc committee necessary for conducting Senate business. Ad hoc committees are subject to later ratification by the Senate.

H. Committees must forward any legislation which involves the setting or altering of policy to the full Senate for approval. Committees which are specifically charged with applying policy to make decisions may do so without having the Senate approve those decisions. A review by the full Senate may be requested by the reviewing Senate committee. A request to the Senate Administrative Committee for a further Senate review may also be submitted by individual Senators if the question has policy implications.

The UAF Faculty Senate approved the following at its meeting #5 on September 9, 1988:

MOTION PASSED (1 nay)

Colleges form interim Sabbatical Committees following the guidelines noted in the UAF Faculty Senate attachment 4 of meeting 5, September 9, 1988. These committees will function as sabbatical leave committees for each College/School. Each College/School will elect a Sabbatical Leave Committee of at least 7 members from the tenured members of the School/College. If a College/School has less than 7 members, the College/School must in consultation with the Faculty Senate, supplement their Committee with other tenured faculty members from within other Schools/Colleges at UAF. This Committee will be elected for staggered two-year terms.

Interim amendment to the UAF Faculty Senate Constitution (subject to ratification by the Faculty Senate), ART XI, Sections 1, 2, 3 as follows:

Sect. 1. The ((appropriate Vice Chancellor)) CHANCELLOR'S OFFICE shall have the right to veto actions taken by the senate...

Sect. 2 and 3. Delete and rewritten below:

Sect. 2. ANY ACTION APPROVED BY THE SENATE AND VETOED BY THE CHANCELLOR'S OFFICE MAY BE APPEALED TO THE PRESIDENT OF THE UNIVERSITY OF ALASKA SYSTEM AND/OR THE BOARD OF REGENTS UPON A TWO-THIRDS VOTE OF A QUORUM PRESENT AT THE NEXT SENATE MEETING.

Effective: Immediately

Rationale: This action clarifies lines of reporting authority between the Senate and the Chancellor's Office.

David M. Sm

President, UAF Faculty Senate

cs/12

The UAF Faculty Senate passed the following at its Meeting #4A on May 13, 1988:

MOTION PASSED AS AMENDED (Unanimous Approval)

FACULTY REVIEW

There will be yearly evaluations of all untenured faculty members and of all tenured faculty members at ranks below full professor. Full professors will be reviewed every three years. Each faculty member shall be responsible for submitting to his or her dean or director a professional activities report which has been reviewed by the department head and tenured faculty in the discipline. Individuals evaluating faculty members shall make an explicit statement on progress toward tenure and promotion in their written responses. (1) These responses may in turn be answered by the faculty person. (2) These documents will be on file as part of the faculty member's personnel record.

Effective: Upon Chancellor Approval

Rationale: Yearly evaluations for faculty anticipating tenure and promotion need to have explicit statements as to the progress the faculty members are making toward those decisions. Additionally, faculty members familiar with a candidates's discipline should work with deans and directors in providing feedback on the progress of faculty members toward promotion and tenure. The review of tenured full professors does not need to occur as often.

Pres-Elect
President, UAF Faculty Senate

APPROVED _____ Date _____
Chancellor's Office

DISAPPROVED _____ Date _____
Chancellor's Office

APPROVED WITH MODIFICATION(S) INDICATED _____ Date 3 Jun 1988

(1) Replace "responses" with "evaluations" - Needed to clearly distinguish between evaluator product and faculty member response.

(2) Replace next to last sentence with language requiring that faculty be allowed to comment upon each level of review, as follows:

"Faculty members shall be given the opportunity to respond to evaluations at each level of review."

RECEIVED MAY 2 3 1988

FOR INFORMATIONAL PURPOSES ONLY
NO ACTION REQIORED

The UAF Faculty Senate approved the following at its meeting #4A on May 13, 1988:

MOTION PASSED (Unanimous Approval)

Motion to refer back to committee -- The Tenure and Promotion procedures for resubmission of motions for the September meeting of the Faculty Senate. Part of the motion includes a full faculty convocation concerning tenure and promotion to be held prior to the October Senate meeting at which time action upon tenure and promotion procedures will be taken.

Rationale: Senate members wished to have the following issues considered by the Committee:

1. Drop all mention of "mentoring."
2. Give options as to the number of levels of review prior to the VCAA review. Specifically, two and three level review options were requested.
3. See if some level of coordination between review committees is possible. Consider including a member from each peer/college committee as a member of the otherwise elected college/ university committee.

Pres-Elect.

MEMORANDUM

TO: Carolyn Sampson
Faculty Senate

FROM: Mary Ann Borchert MAB
Coordinator of Graduate Studies

SUBJECT: Approval of new program and new courses proposed by the English Department

The Graduate Council and Curriculum and Instruction II Committee at their regularly scheduled meeting on April 28, 1988 approved the following proposals.

1. New Program: Master of Arts in Professional Writing

2. New Courses:
   English 651 - Internship in Publishing
   English 673 - Professional Writing Workshop
   English 687 - Writing Professional Prose
   English 688 - Audiovisual Script Writing
   English 689 - Editing Prose

PROPOSAL FOR MASTER OF ARTS IN PROFESSIONAL WRITING DEGREE

SUBJECT: Master of Arts in Professional Writing

I. A. NAME OF PERSON PREPARING REQUEST:

John Morgan, Head, Department of English

B. BRIEF STATEMENT OF THE PROPOSED PROGRAM AND ITS OBJECTIVES:

The proposed Master of Arts in Professional Writing will prepare students to work as professional writers and editors in such settings as private and public corporations, government agencies, and research institutions. The program will accomplish this in several ways. During their training, students will take courses

that encourage them to read with a writer's eye: to understand the definitions and uses of many kinds of good writing and to incorporate techniques from these forms in their own writing. Students will apply this reading background to a series of workshop courses offering practice both in traditional academic forms of writing and in the rapidly-evolving genres of the professional world. As they move through the program, students will increasingly choose their own topics and forms while continuing to submit their work to the criticism and feedback of professors and fellow student writers. In consultation with their faculty committees, students will select an integrated program of electives from such departments as Journalism and Broadcasting, Speech and Drama and technical fields relevant to the student's career plans.

Graduates of the program can expect to find jobs ranging from writing and editing in-house publications for large companies to preparing training materials for government agencies. Because of the diversity of writing forms required in the corporate and institutional worlds, students in the proposed program will be trained in a wide variety of writing-related skills such as: criticism, exposition, script writing, editing, and publishing. Our market survey indicates that there are over 190,000 jobs nationwide for writers or writer/editors and that employment in the field is expected to increase faster than the average for all occupations through the mid 1990's (see Section V, below).

The program is strengthened by the diversity of writing backgrounds of the English Department staff, which has expertise in many kinds of writing, both academic and non-academic. In addition, the faculties of the departments of Journalism and Broadcasting and Speech and Drama offer expertise in such areas of potential elective interest as publications editing and speech writing. There are growing national demands for writers with these skills and similar needs at the local and state level in Alaska. At present, no institution in Alaska offers a graduate degree in this field.

The Department respectfully requests approval of the M.A. in Professional Writing outlined in the appended proposal.

II. A. DESCRIPTION OF THE PROGRAM:

1. PROGRAM TITLE: Master of Arts in Professional Writing

The Master of Arts degree in Professional Writing has developed over the last twenty years in response to a growing emphasis on the writer/editor position in business and government. Our survey

of schools offering the degree reveals a variety of course requirements, depending upon the particular strengths of the English departments involved. Thus, at the University of Southern California, there is a clear Creative Writing and Film Writing emphasis, whereas at Rensselaer Polytechnic Institute the stress is on Communications Theory. Emerson College and Carnegie-Mellon University allow a wide range of electives, while Eastern Washington University requires extensive coursework in traditional literary topics. We have attempted to strike a balance both in the length of the degree and the subject matter covered.

2. CREDENTIAL LEVEL OF THE PROGRAM:

The degree is at the masters level, which is considered the appropriate advanced degree for writers in business and government. The coursework will total 45 credits, of which 24 credits of coursework and 6 credits of project/thesis must be at the graduate level.

3. ADMISSIONS REQUIREMENTS AND PREREQUISITES:

Complete the general university requirements, as well as submit a writing sample, GRE (general) scores, transcripts, and three letters of recommendation. Applications from students with backgrounds other than English or Journalism are welcome. The application, including the writing sample, a key element in the admissions process, will be reviewed by a committee.

4. COURSE DESCRIPTIONS:

There will be five new courses (proposals attached). The other courses are existing courses.

5. REQUIREMENTS FOR THE DEGREE:

English 684 -- Forms of Non-Fiction 3

One course chosen from the following:

English 681 -- Forms of Poetry
English 682 -- Forms of Fiction
English 683 -- Forms of Drama
English 688 -- Audiovisual Script Writing (new course). 3

Two graduate literature seminars chosen from the existing courses:

English 603 -- Studies in British Literature: Old and Middle English
English 604 -- Studies in British Literature: Renaissance and the 17th Century

English 608 -- Studies in British Literature: 20th Century
English 609 -- Studies in American Literature: Colonial Period and the 19th Century
English 612 -- Studies in American Literature: 20th Century
English 692 -- Graduate Seminar (variable topics) . . . 6

English 687 -- Writing Professional Prose (new course) . . . 3

English 689 -- Editing Prose (new course) 3

English 673 -- Professional Writing Workshop (new course) . . 3

English 651 -- Internship in Publishing (new course) 3

English 698 or 699 -- Project or thesis 6

The project will be the production of a professional quality publication, including the responsibility for editing and format, production and design. The thesis will be a single work or collection of professional writing.

If the students in this program are graduate teaching assistants, they will also be required to take English 685, Teaching College Composition. This course may be used for 3 of the elective credits.

Candidates must pass a written comprehensive examination to demonstrate their knowledge of the forms and practices of professional writing (e.g., revising and editing prose) rather than one based on a standardized reading list.

Courses offered by the Journalism Department may be appropriate electives, as well as courses in areas that reflect the student's specialized career objectives (e.g., science courses for those who wish to write or edit technical scientific prose.)

DISTRIBUTION OF COURSES

We are requiring 45 credit hours, 30 of which must be taken at the graduate level. Thirty hours of work will be in required English courses, with 15 hours of electives. The core courses fall into four sections.

The first section consists of two courses--Forms of Non-Fiction and either Forms of Fiction, Forms of Poetry, Forms of Drama (play writing), or Audiovisual Script Writing--that will provide intensive practice in standard forms of writing. Courses in the

forms of writing will give students a basic knowledge of the major genres of writing. Among other things, such a background enables writers to appreciate, critique, and incorporate techniques from other forms into their own writing projects.

The second section comprises the two graduate literature seminars. These literature courses will offer training in the critical reading of complex texts, as well as giving student writers a background in the essential themes and styles of the written tradition in English.

The third section of the degree requirements includes the courses that concentrate on writing and editing the specialized forms of professional prose: Writing Professional Prose and Editing Prose. The specialized courses will provide intensive practice in the kinds of writing and editing most often demanded of writers and writer/editors in business and government.

The fourth section is composed of the workshop or internship courses in writing, editing, and publishing projects of the student's own choice (Professional Writing Workshop, Internship in Publishing). The workshop and internship courses will allow students to develop extended projects in specialties of their own choosing.

In addition, 6 hours will be spent on the student's own final project or thesis. In consultation with their committees, students will also develop programs of electives or independent study that fit their professional goals. For science writers, for example, electives could include courses in the physical and mathematical sciences. The following courses in English, Journalism and Broadcasting, and Speech and Drama might also be particularly appropriate as complements to the core curriculum:

English 314 Technical Writing
English 414 Research Writing
English 462 Applied English Linguistics

J-B 326 Principles of Advertising
J-B 411 Advanced Writing for Publication
J-B 415 News/Documentary Television Production
J-B 413 Mass Media Law and Regulation
J-B 433 Public Relations
J-B 444 Advanced Newsgathering and Processing

Sp.C. 335 Organizational Communication
Sp.C. 342 Advanced Public Speaking
Sp.C. 425 Communication Theory

Sp.C. 441 Persuasion
Sp.C. 443 Rhetorical Theory
Sp.C. 475 Speech Communication in Education and Training

Thr. 413 Playscript Analysis

B. PROGRAM GOALS:

The primary goal of the program is to prepare students to handle a variety of writing and editing tasks in business, industry, government, and other institutional settings. We expect our graduates to:

1. have a broad and thorough knowledge of the major conventions, forms, and techniques of writing and editing in English and be able to adapt this knowledge to the particular writing demands of corporations and other institutions;

2. be capable of seeing a small publication through all its stages, from collaborating with authors to editing, proofreading, and desktop publishing;

3. be adept at the kinds of research and interview skills that enable writers to learn subject matter quickly and facilitate communication between experts--e.g., researchers, executives, technicians--and their audiences;

4. be employable in writing, editing, and other communications positions in private businesses and public institutions nationwide.

The program is designed to be flexible enough for students to develop their writing in areas that particularly interest them. Core courses in the basic kinds of writing will encourage the flexibility of writing style that many professional writing jobs demand. Students may use their electives to extend their knowledge of professional communication or to improve their understanding of various scientific and technical fields in order to prepare themselves to write in those areas. A final thesis or project will demonstrate the student's mastery of the skills required of professional writers and editors.

III. PERSONNEL DIRECTLY INVOLVED WITH PROGRAM:

A. LIST FACULTY INVOLVED IN THE PROGRAM:

D. A. Bartlett -- Ph.D. University of Oregon
Renaissance, Medieval English, Old Norse and French Literature, Classical Language and Literature--Greek and Latin

Roy Bird -- Ph.D. William Marsh Rice University
Technical Writing, American Literature, Critical Theory,

Joseph A. Dupras -- Ph.D. State University of New York at Binghamton
19th Century British Literature, Literary Criticism

Alice Harris -- Ph.D. University of Tennessee
Technical Writing, Medieval English

Eric Heyne -- Ph.D. Ohio State University
Technical Writing, Critical Theory, 19th Century American Literature, Modern Literature

Janis Lull -- Ph.D. University of Minnesota
Rhetorical Theory, Renaissance, Shakespeare

John Morgan -- M.F.A. The University of Iowa
Creative Writing--Non-Fiction, Poetry, and Fiction

Leroy Perkins -- Ph.D. State University of New York at Buffalo
Technical Writing, English and American Romanticism, Compositon Theory and Pedagogy, ESL

Michael Schuldiner -- Ph.D. Kent State University
Colonial and American Literature

Frank Soos -- M.F.A. University of Arkansas, Fayetteville
Creative Writing--Non-Fiction and Fiction, Modern and Contemporary Literature

David Stark -- M.F.A. University of California, Irvine
Creative Writing--Fiction and Poetry

Russell Stratton -- Ph.D. University of Southern Mississippi
Composition, Medieval Literature

Russell Tabbert -- Ph.D. University of Iowa
Editing, Linguistics, Literature

Cynthia Walker --	Ph.D. Purdue University 20th Century British and American Fiction and Drama with Continental Influences, 19th Century British and American Literature to 1865
Dean Gottehrer --	M.S. Columbia University Graduate School of Journalism Print Journalism, Mass Media Law, Editing
Grant Sims --	M.A. in English and Communications, California State University at Chico Print Journalism, Editing, Script Writing, Publishing

B. ADMINISTRATIVE AND COORDINATING PERSONNEL:

John Morgan, Head, Department of English
Janis Lull, Chair, Graduate Programs Committee, Department of English.

C. CLASSIFIED PERSONNEL:

The department currently has a departmental secretary and an administrative secretary.

IV. ENROLLMENT PROJECTIONS:

We expect to admit 1-6 qualified applicants a year to a maximum enrollment of 15.

We expect that quite a few English majors, looking for a way to put their skills to professional use, will want to enroll. According to Dean Gottehrer, former head of Journalism and Broadcasting at the University of Alaska Fairbanks, many of his department's majors have shown interest in such a program. Dr. Sylvia Broady, head of the Journalism Department at the University of Alaska Anchorage, has also said that her majors would welcome such a program in Alaska.

In addition to English and Journalism majors, we anticipate that the degree will draw a considerable number of students from other disciplines, including those who have been out in the business world and have seen the need for such a credential. The degree will offer them a chance to re-tool for a higher paying position or to switch fields and exploit a skill their current jobs have

not fully utilized. We have already received several requests for information about the program as a result of a recent story in the campus newspaper. Local businesses such as the Fairbanks Daily News-Miner have indicated their interest in enrolling current employees in an M.A. program in professional writing and in hiring our graduates. We also expect that the new courses in this program will serve as electives for non-degree candidates and candidates for degrees other than M.A. in Professional Writing.

V. EMPLOYMENT MARKET NEEDS

The English Department examined employment information nationwide and in the State of Alaska. National data were obtained from the U. S. Department of Labor's Bureau of Labor Statistics and from the Society for Technical Communication. Statewide figures were obtained from the Alaska Department of Labor's Research and Analysis Section and from telephone interviews with representative agencies.

National Employment for Professional Writers

According to the latest figures available from the U. S. Department of Labor (Bulletin 2250), jobs nationwide for writers or writer/editors numbered 191,000 in 1984. This figure does not include other employees whose duties consist mainly of writing, such as reporters, correspondents, and public relations specialists. Employment in the field of professional writing is expected to increase faster than the average for all occupations through the mid 1990's. Nevertheless, according to the Department of Labor, "the outlook for writing and editing jobs is expected to continue keenly competitive" (Bulletin 2250), with preference often going to writers with graduate training or advanced degrees. The Society for Technical Communication, which surveys both business and technical writers, estimates that there are currently 90,000 people employed in these fields nationwide, and that the job market is growing rapidly. According to the STC special report, Profile 85, the educational level of STC members continues to increase. In 1985, 83% had some post-bachelor's degree training, 26% held master's degrees, and 7% held doctorates. An English degree is now the leading educational credential for technical communicators (31%), as it is for professional writers generally. This preference for a background in English reflects the shift in the primary job function of technical communicators from manager/supervisor (49.3% in 1974) to writer/editor (56% in 1985). "In general," concludes Profile 85, "today's technical communicators are younger, more educated, satisfied with their jobs, and have observed an increase in the status of the profession."

Statewide Employment for Professional Writers

The Research and Analysis Section of the Alaska Department of Labor estimates that 231 writer/editors were employed in the state in 1985, with job opportunities approximately evenly divided between government and the private sector. Despite an overall job loss in the state of 3.7% between 1985 and 1986, employment for writer/editors actually increased 1.3% in 1986, to a total of 234. According to analyst Greg Huff, the state is projecting a slight drop in these jobs for 1987, and continued flat figures for 1988 and 1989 as the Alaskan economy completes its adjustment to lower oil prices. Professional writing jobs in the state are expected to increase again in 1990. The Department of Labor points out, however, that all these figures are misleadingly low as estimates of the real job opportunities for professional writers in Alaska, since they do not count jobs with titles other than "writer," or "writer/editor," even when the job consists almost entirely of writing, revising, and editing.

Using a (conservative) estimate of a 20-year turnover in professional writing jobs in Alaska, the state employment figures suggest that on average, 10 or more jobs with the title of "writer/editor" will become available in Alaska annually. Estimates are not available for writing jobs with other titles. The locations of writer or writer/editor jobs in Alaska range from the offices of such companies as Standard Alaska Production Company and Arco Alaska to the Arctic District office of the Bureau of Land Management (BLM), which employs a full-time writer to develop documents related to the management of BLM land holdings in northern Alaska.

Federal Employment in Alaska

The Federal Office of Personnel Management reports that there are 19 federal employees in Alaska who hold jobs as writers, editors, technical writers, or technical editors. Anyone qualified for these positions would also qualify for the public affairs series, in which 22 people are currently employed. Figures were not available for writers working under other job titles.

Examples of federal agencies in Alaska employing substantial numbers of professional writers include the U. S. Forest Service and the BLM . The U. S. Forest Service in the Alaska region employed 6 writers in 1987. For these jobs, flexibility of writing style is accorded highest priority. Preference is given to candidates with training and experience preparing copy for many different kinds of publications and audiences. The BLM in Alaska

employed 6 writers in 1987. The educational requirements for these positions stress experience with a wide range of audiences and writing styles and the ability to acquire information from all kinds and levels of people.

State and Local Government Employment in Alaska

The State of Alaska's Department of Personnel reports that in 1987, the state employed 10 "publications specialists" and 10 "information officers." Again, these statistics do not reflect the full range of job opportunities for writers in the state because they exclude writing jobs with titles such as "research assistant" or "land-use planner."

Private Employment in Alaska

The state estimates that half of the writer's jobs filled annually in Alaska are in private companies. Private employers of writer/editors in the state include such corporations as Standard Alaska Production Company and Arco Alaska. Many of the members of Alaska's STC chapter, headquartered in Anchorage, work in private-sector jobs as editors, public relations writers, and writer/publishers. According to Caroline Dowling of Standard Alaska Production Company, a typical department in her company employs at least two professional writers, one responsible for internal documents and publications and another with experience in print and broadcast journalism who deals with external media.

VI. RESOURCE IMPACT

A. BUDGET: Salary for lecturers to replace members of the faculty of Journalism and Broadcasting or English who will teach the Internship in Publishing and Audiovisual Script Writing courses every two years.

B. FACILITIES/SPACE NEEDS: Additional facilities are not required for the implementation of the program.

C. CREDIT HOUR PRODUCTION: Estimated on full enrollment: 15 X 18 = 270 per year

D. FACULTY: One new faculty member, a writer of non-fiction with editorial and/or publishing experience, will be hired to fill an existing position. We will also need to hire one lecturer per

year to replace a member of the faculty of English or Journalism and Broadcasting who will teach the Internship in Publishing and Audiovisual Script Writing. (These courses will be offered in alternate years.)

E. LIBRARY MEDIA MATERIALS, EQUIPMENT AND SERVICES: The library resources of the Rasmuson Library, UAF, are adequate in the area of professional writing and related disciplines. Holdings for script writing (one of the proposed new courses) are weak, but will be upgraded provided the library has adequate funding. Some computer equipment for the Internship in Publishing course is currently available from Cooperative Extension. In the event that the new M.A. in Professional Writing program attains substantial enrollment, however, we anticipate the need to upgrade the Journalism and Broadcasting Macintosh lab to accommodate more than two interns at a time. Such an upgrade would cost approximately $7,000.

VII. RELATION OF PROGRAM TO OTHER PROGRAMS WITHIN THE SYSTEM

A. EFFECTS ON ENROLLMENTS ELSEWHERE IN THE SYSTEM:

Implementation of this program will have no effect on enrollments elsewhere in the system.

B. DOES IT DUPLICATE/APPROXIMATE PROGRAMS ANYWHERE IN THE SYSTEM?

There is no duplication with any other program in the Statewide system.

C. HOW DOES THE PROGRAM RELATE TO RESEARCH OR SERVICE ACTIVITIES?

1. CONTRIBUTIONS TO RESEARCH OR SERVICE:

This program will make a substantial contribution to the University's ability to provide services in professional writing, editing, and publishing to the local and statewide communities. The new degree program will also enhance the professional development of faculty whose research interests lie in such fields as technical writing, collaborative writing, and writing pedagogy. While in the program, students will be available to do part time work in writing and editing within the University.

VIII. IMPLEMENTATION

A. DATE OF IMPLEMENTATION: Fall 1989

B. PLANS FOR RECRUITING STUDENTS: The Dean of the College of Liberal Arts has stated that she will supply funding for brochures.

IX. REGENTS' GUIDELINES

SUMMARY

The proposed M.A. in Professional Writing will be an asset to the Department of English, the University, and the State of Alaska. There is a need in the business community of our state for qualified writers to handle internal and public-related writing tasks. The degree will enable English and Journalism majors, as well as those from other undergraduate backgrounds, to obtain an important credential in the job market. Nationally, there is a trend toward introducing programs like this one, but no such program currently exists in Alaska.

Members of the local community such as Dr. William R. Wood and Kenneth Noblit, Managing Editor of the Fairbanks Daily News-Miner, have urged the College of Liberal Arts to institute a Master of Arts in Professional Writing. They indicate, and we agree, that there is a strong local need for professionally trained writers and editors. Furthermore, our market survey indicates a substantial need nationally for writers trained at the graduate level in a variety of writing and editing skills. There are over 190,000 jobs nationwide for writers or writer/editors and employment in the field is expected to increase faster than the average for all occupations through the mid 1990's. We have designed our program to meet this need.

The proposed Master of Arts in Professional Writing will prepare students to work as professional writers and editors in such settings as private and public corporations, government agencies, and research institutions. The program will accomplish this in several ways. During their training, students will take courses that encourage them to read with a writer's eye: to understand the definitions and uses of many kinds of good writing and to incorporate techniques from these forms in their own writing. Students will apply this reading background to a series of workshop courses offering practice both in traditional academic forms of writing and in the rapidly-evolving genres of the professional world. As they move through the program, students will increasingly choose their own topics and forms while continuing to submit their work to the criticism and feedback of professors and fellow student writers. In consultation with their faculty committees, students will select an integrated program of electives from such departments as Journalism and Broadcasting, Speech and Drama, and technical fields relevant to the student's career plans.

We are in a position to introduce this new degree with a minimum of adjustments. The English Department already offers a graduate degree in Creative Writing, so that we need add only one faculty member to be able to offer the new M.A. The new faculty member, replacing a retiree, will be a specialist in non-fiction writing with editorial and/or publishing experience. The addition of this hire will insure our ability to offer the new degree. He or she will be an expert in the writing of expository prose and will be able to assist with our composition and creative writing offerings. We are in the process of hiring for this position, using an existing position number.

The UAF Faculty Senate passed the following at its Meeting #4A on May 13, 1988:

MOTION PASSED (Unanimous Approval)

With regard to Draft #4 of the Statewide document on Promotion and Tenure, the UAF Faculty Senate is in opposition to the following principles contained within the document:

1. The statement of a 15 credit standard load. (Article X, title A, section E, part 1)
2. Lecturers being defined as having to be supervised (Article II, section H)
3. The statement that research is to be totally supported by grant funding. (Article II, section H)
4. The inclusion of instructors as a tenure track academic rank (Article (X, title A, section C, part 1)
5. That certain tenure procedures are barred from grievance. (Article "Y", title A, section 5.) (and other locations)

Rationale:

1A. There is currently no standard credit hour load at UAF. The determination of load is linked to discipline and level of teaching (graduate vs. undergraduate).

2A. Currently, lecturers are hired on a semester-to-semester basis to fill teaching sections and are reviewed and are hired by disciplines based on their academic qualifications to teach with the same level of supervision as other teaching faculty.

3A. Currently research positions at UAF are supported by grant funding and/or state funding. This combination is likely to continue and faculty designation as research should not preclude that combination of funding.

4A. The beginning title for fully credentialed members of the professoriate is an assistant professor. Typically the rank of instructor is reserved for individuals who are asked to provide service to the university in only one of the tripartite responsibilities associated with tenure track faculty. Often instructors do not possess complete academic credentials to enter the professoriate and as such should be placed on a fixed term rather than tenure track appointment.

5A. If a tenure or promotion decision is objected to on non-procedural grounds, then the correct avenue for recourse should be an appeal through the current levels of decision making. However, if a tenure and promotion decision is questioned on procedural grounds, then that decision should go to grievance rather than appeal.

John Leipzig, Pres-Elect/c
President, UAF Faculty Senate

cs/Sen/34

MEMORANDUM

DATE: May 18, 1988

TO: Patrick J. O'Rourke, Chancellor

FROM: John Leipzig, President-Elect, UAF Faculty Senate

SUBJECT: Faculty Compensation

For your information, attached are copies of motions passed by the Senate at its May 13, 1988 meeting.

These motions will be sent to Statewide Assembly for further disposition, hopefully by the Board of Regents.

/cs

cc: Wayne Thomas (w/attach.)

The UAF Faculty Senate approved the following at its Meeting #4A on May 13, 1988:

MOTION PASSED AS AMENDED (Unanimous Approval)

A new faculty compensation system is urgently needed.

Rationale: In terms of compensation, faculty in the UAF system are falling behind their counterparts in other universities. The lack of a fair and equitable system of faculty compensation was felt to be one of the major problems in the UAF system.

Pres-Elect

President, UAF Faculty Senate

cs/Sen./17

The UAF Faculty Senate passed the following at its Meeting #4A on May 13, 1988:

MOTION PASSED AS AMENDED (Unanimous Approval)

The new faculty compensation system should be developed through close consultation between the Board of Regents and the three University faculty governance bodies.

Rationale: This requests the Board of Regents to convene a committee composed of representatives of the three MAU's to develop a unified faculty compensation system.

John Dengra -Pres-Elect
President, UAF Faculty Senate

cs/Sen./33

The UAF Faculty Senate passed the following at its Meeting #4A on May 13, 1988:

MOTION PASSED (Unanimous Approval)

It is recommended that the issues of market-based salary adjustments and faculty compensation be separated and treated as distinct issues.

The issue of faculty compensation should be addressed through the development and implementation of a University-wide system of compensation for faculty. This system will identify and weight categories of compensation adjustment, including (but not necessarily limited to) continuing satisfactory service, cost of living adjustments, merit increases, and revision of the system of benefits. Future changes in faculty compensation will be proposed and made according to the agreed-upon compensation system.

Market-based salary adjustments should be addressed as a normal part of the University budgeting process through the system of budget reallocation and incrementation. Proposals for market-based adjustments in particular units should initiate as proposals for changes in the operating budgets of the units requesting the adjustments.

Rationale:

1) The motivation behind the issue of faculty compensation is assuring fair and equitable treatment for all faculty; the motivation behind the issue of market-based salary adjustments is assuring the competitive position of the University in attracting and retaining qualified faculty in certain disciplines that deviate from discipline-specific market levels. These motivations are sufficiently different that they cannot reasonably be included within a single compensation proposal.

2) Proposals for market-based adjustments should initiate as a priority of the units that would be affected. A system of review of budget proposals already exists, and should be used to allow the specific units involved to justify and advance their needs in relation to the priorities advanced by other units of the University.

3) Proposals for Market-based adjustments and for changes in Faculty Compensation should be advanced simultaneously as separate (but not necessarily equal) priorities of the University. Funding of either of these will not obviate the need for the other.

President, UAF Faculty Senate

cs/33

The Faculty Senate passed the following at its Meeting #4 on April 22, 1988:

MOTION (unanimous)

Persons who want an opportunity for a fresh undergraduate start at UAF may apply for readmission on the basis that their prior academic record be disregarded and they begin their college study again with no credits attempted and no credits and quality points earned. (1) This policy may be used by a student only once and is applicable only to students enrolled at UAF. (2)

(3) Prior to applying for admission on this basis, at least two years must have elapsed since the end of the semester in which the applicant was last in full-time attendance at school. The prior academic record remains a part of the student's overall academic record, but none of it is carried forward and none of the credits earned previously can be used in the new program. (4) Students showing competency in any area may be allowed advanced standing or a waiver of requirements just as any non-bankrupt student, but will not be allowed credit-by-examination for courses lost in bankruptcy.

Effective: Fall 1988

Rationale: To establish a uniform UAF policy.

David M. Smith.

RECEIVED MAY 10 1988

M E M O R A N D U M

TO: David Smith, President
Faculty Senate

FROM: Wayne C. Thomas, Acting Vice Chancellor
for Academic Affairs

DATE: 2 June 1988

SUBJECT: Modification to Academic Bankruptcy Policy

I have modified the Academic Bankruptcy Policy passed by the Senate at its Meeting #4 on April 22, 1988. The modifications are indicated by underlines as follows:

Persons who want an opportunity for a fresh undergraduate start at UAF may apply for readmission on the basis that their prior academic record be disregarded and they begin their college study again with no credits attempted
(1) and no credits and quality points earned reflected in subsequent grade point average calculations. This policy may be used by a student only once and is
(2) applicable only to students enrolled at UAF and only for UAF credits. Academic Bankruptcy for records from UAF units which were not part of UAF prior to Fall 1987 may be requested at the time of admission or readmission to undergraduate status.

(New paragraph)

(3) To declare Academic Bankruptcy, a student must submit the "Application for Academic Bankruptcy" form and secure the approval of the dean of the college or school to which the student is admitted or readmitted. Prior to applying for admission on this basis, at least two years must have elapsed since the end of the semester in which the applicant was last in full-time attendance at school.

(New Third paragraph)

The prior academic record remains a part of the student's overall academic record, but none of it is carried forward and none of the credits earned
(4) prioviously can be used in the new program. These credits will be included, however, in computations for graduation with honors (See "Graduation with Honors," page). Students showing competency in any area may be allowed advanced standing or a waiver of requirements just as any non-bankrupt student, but will not be allowed credit-by-examination for courses lost in bankruptcy.

RATIONALE:

The changes reflected in (1) and (4), above, are needed to clarify the relationship between academic bankruptcy and graduation with honors and to assure that all students, whether transfer or wholly resident, are afforded honors on a consistent basis. Notice that the Graduation with Honors policy approved by the Senate at the same meeting specifically requires that all credits attempted at all institutions be considered when determining eligibility for honors. Transfer students, then, do not have the option of having exactly the same kind of false starts ignored in their attempt for honors, regardless of their gpa of record at UAF. It is both inconsistent and inequitable to treat our graduates differently in the award of this distinction.

Students who are allowed Academic Bankruptcy are given the benefit of starting with a new gpa from that point, thus allowing them to continue in good standing and allowing them to be eligible for financial aid, student jobs, etc. Their gpa of record, as well, is significantly higher than would otherwise have been true.

The award of Graduation with Honors is our highest academic distinction. Those students whose entire scholastic record demonstrates that they are eligible for this distinction deserve our recognition, whether they earn this award in four straight years or in twenty semesters over a period of twenty years, and whether as a last-minute transfer student or long-time and only UAF student.

Modification (2) is included to allow students previously enrolled in off-campus units to declare bankruptcy for eligible records even though the credits were not UAF credits at the time.

Modification (3) is included to specify the procedure and approval required to declare bankruptcy.

The Faculty Senate passed the following at its Meeting #4 on April 22, 1988:

MOTION (unanimous)

In order to graduate with honors, an undergraduate student must have earned a cumulative grade point average in all college work attempted at UAF of 3.5 or higher. In addition, a transfer student must have completed 48 semester hours of credit at UAF for a baccalaureate degree or 24 semester hours of credit at UAF for an associate degree. The cumulative grade point average in all college work attempted at all other institutions attended combined with the UAF cumulative grade point average must not be less than 3.5.

Students with cumulative grade point average of 3.5 will be graduated cum laude; 3.8, magna cum laude; 4.0, summa cum laude provided they meet the requirements stated above.

Effective: Fall 1988

Rationale: To establish a uniform UAF policy.

*At the suggestion of the Faculty Senate Administrative Committee, the MOTION is restated as follows, with a new rationale:

cs

MOTION

The UAF Faculty Senate approves in principle an evaluation policy for academic administrators by the faculty, and directs the Faculty Senate to create an ad hoc committee to develop procedures for academic administrator evaluation which is to be based upon AAUP guidelines.

Rationale: A policy for Evaluation of Administrators at UAF needs to be developed cooperatively between UAF faculty and administration.

Effective: Fall 1988

RECEIVED MAY 10 1988

The Faculty Senate passed the following at its Meeting #4 on April 22, 1988:

MOTION (unanimous)

Grades, other than incompletes and deferreds, submitted by the instructor upon completion of a course, is assumed to be the student's final grades and they become part of the student's permanent records. A grade may not be changed unless a legitimate error has been made on the part of the instructor in calculating the grade and such a change must be approved by the instructor's unit head and dean. **

Effective: Fall 1988

Rationale: To establish a uniform UAF policy.

Dave McBride
President, Fairbanks Faculty Senate

APPROVED _____ Date _____
Chancellor's Office

DISAPPROVED _____ Date _____
Chancellor's Office

APPROVED WITH MODIFICATION(S) INDICATED ** _____ Date 3 Jun 88

**ADD TO THE PARAGRAPH THE FOLLOWING SENTENCE:

cs "Corrections of grading errors must be made within 30 days after the beginning of the next regular semester."

RATIONALE:

Requests for changes to grades because of other circumstances or which are requested beyond this time limit should be dealt with on an individual basis as exceptions to policy and require concurrence of the Vice Chancellor for Academic Affairs to assure equity and consistency across the University.

The deadline of 30 days after the beginning of the next regular semester exceeds the 45-day after submission of grade deadline which was previous policy in some of the CCREE units and maintains the standard and policy previously applied to UAF students.

RECEIVED MAY 10 1988

The UAF Faculty Senate approved the following at its meeting #4 on April 22, 1988:

Note: This motion was rewritten for clarification by the Administrative Committee on May 31, 1988.

MOTION (Unanimous)

Courses that may be used in satisfying generally stated degree requirements (e.g., Social Science, Humanities, Natural Science) are classified on an individual course basis.

Effective: Fall 1988

Rationale: To establish a uniform UAF policy regarding course classifications.

and the new motion submitted for VCAA approval.

The Faculty Senate passed the following at its Meeting #4 on April 22, 1988:

MOTION PASSED (1 nay, 1 abstain)

The UAF Senate Faculty approves the following Minimum Eligibility Requirements for Tenure Track Faculty at the University of Alaska Fairbanks.

ASSISTANT PROFESSOR

* 1. Earned doctorate
OR
Master's degree with appropriate experience as reflected in unit criteria
OR
Bachelor's degree with appropriate experience as reflected in unit criteria [for disciplines without a recognized Bachelor's degree, any Bachelor's degree in addition to the appropriate licenses and certifications would be appropriate]

**2 Demonstrated capability for appropriate quality work in two of the following three areas: teaching, research, and public/university service as described in each faculty member's assignment. The faculty member must also demonstrate capability for activity in the third area.

ASSOCIATE PROFESSOR

* 1. Earned doctorate
OR
Master's degree and appropriate experience as reflected in unit criteria
OR
Bachelor's degree with appropriate experience as reflected in unit criteria [for disciplines without a recognized Bachelor's degree, any Bachelor's degree in addition to the appropriate licenses and certifications would be appropriate]

**2. Demonstrated excellent performance in two of the following three areas: teaching, research, and public/university service as defined in each faculty member's assignment and evidence of activity in the third area.

PROFESSOR

* 1. Earned doctorate
OR
Master's degree and appropriate experience as reflected in unit criteria
OR
Bachelor's degree with appropriate experience as reflected in unit criteria [for disciplines without a recognized Bachelor's degree, any Bachelor's degree in addition to the appropriate licenses and certifications would be appropriate]

RECEIVED MAY 1 0 1988

2. Recognized excellence in teaching, research, and public/university service as defined in each faculty member's assignment.

Effective: Immediately

Rationale: Proposal provides for recognition of faculty whose primary responsibilities will be to fulfill the expanded mission of the University and maintain high academic standards at all levels, especially at the rank of full professors.

David M. Smith

President, Fairbanks Faculty Senate

APPROVED _____ Date _____
Chancellor's Office

DISAPPROVED _____ Date _____
Chancellor's Office

APPROVED WITH MODIFICATION(S) INDICATED _____ Date 9 Jun 1988

* Replace requirements in 1. under Assistant Professor, Associate Professor, and Professor as follows:

cs 1. Earned doctorate
OR
Terminal Master's degree in those disciplines with nationally recognized terminal degrees AND appropriate experience as reflected in unit criteria
OR
Bachelor's degree in those Vocational/Technical Fields for which there is no recognized academic degree AND appropriate licenses and certifications AND appropriate experience as reflected in unit criteria.

** ADD the following sentence at the end of 2. in the Assistant Professor and Associate Professor requirements:

2. . . . activity in the third area. "The two-area minimum requirement nothwithstanding, specific disciplines may require in their unit criteria that performance of appropriate quality work be demonstrated in all three areas."

The Faculty Senate passed the following at its Meeting #4 on April 22, 1988:

MOTION (1 nay)

The UAF Faculty Senate approves the following Principles on Service:

1. In a land grant/sea grant university, service to the institution's constituency is a fundamental part of the University faculty's professional academic responsibility.

2. An individual faculty member engages in a variety of activities that constitute service under university policy. The exact nature of that service may vary with the faculty member's assignment.

3. Service is required for award of tenure or promotion and must be recognized as an integral part of every faculty member's activity.

4. Each faculty member's assignment must assure the opportunity to engage in service, teaching, and scholarly activity sufficient to achieve promotion and tenure.

Effective: Upon Chancellor Approval

Rationale: The Committee on Service finds that there are basic questions and ambiguities about the service component of the faculty workload at UAF. This statement of principles reaffirms the fundamental nature of the service activity, recognizes the variety of service performed, and emphasizes that promotion, tenure, and professional work satisfaction depend upon each faculty member having the opportunity to participate in service, teaching, and scholarly activity.

cs

RECEIVED MAY 1 0 1988

The Faculty Senate passed the following at its Meeting #4 on April 22, 1988:

The UAF Faculty Senate approves the following Resolution on Service's Statement of Principles:

RESOLUTION (unanimous)
==========

WHEREAS, The Senate has adopted the Committee on Service's Statement of Principles, and

WHEREAS, Service is not well defined or understood, and

WHEREAS, Service is seldom given proper weight or recognition relative to teaching and scholarly activities in the promotion and tenure process; now, therefore be it

RESOLVED, That the UAF Faculty Senate charges the Permanent Committee on Service to research these matters and to present, for Senate action, recommendations to clarify the issues and to establish policy and guidelines on service.

Effective: Upon Chancellor Approval

Rationale: The Committee on Service is established by Art. V Sec. 4 (B) of the Constitution of the UAF Faculty Senate (10/26/87) and Art. V Sec. 4 (G) of the Bylaws of the UAF Faculty Senate (10/26/87). Neither provides a charge to the committee other than the statement "All University outreach and 'service.'" At its first meeting, the committee found it required a more substantive and specific charge based on an accepted set of principles in order to examine issues relevant to service.

SPECIAL TOPICS, TRIAL COURSE, and NEW COURSE

Department Cross-Cultural Communications College/School COLA - UAF

Prepared by Linda Haugen

1. ACTION DESIRED: Special Topics Course [ ] Trial Course [X] New Course [ ]

2. COURSE IDENTIFICATION:

   Dept. CCC Number 194 Number of Credits 3

   Justify upper/lower division status & number of credits: This course is not preparatory but deals with skills applicable at the freshman/sophomore college level.

3. FREQUENCY OF OFFERING: Every Fall (and as needed)
   (every fall, alternate spring, etc.)

4. DATE OF FIRST OFFERING: Fall 1988

5. PROPOSED TITLE: Thought and Knowledge: An Introduction to Critical Thinking

6. CONTACT HOURS PER WEEK: 3 hrs. lecture _____ hrs. lab

   other hrs.: (specify type) _____

7. COURSE CLASSIFICATION/DESIGNATION-if any. (Use approved criteria found on Page 7 of this Manual of Procedures) (If justification is needed, attach on separate sheet.)

   h-Humanities [ ] n-Natural Science [ ] s-Social Science [ ]
   o-Oral Communication [ ] m-Mathematics [ ] w-Written Communication [ ]

8. COURSE DESCRIPTION FOR CATALOG (50 words or less, if possible):

   This introductory course focuses on the development and improvement of those skills that characterize clear, precise, purposeful thinking. Instruction emphasizes improving memory, problem solving, decision making, reasoning and creative thinking skills.

9. GRADING SYSTEM: Letter [X] Pass/Fail [ ]

10. PREREQUISITES: None

11. SPECIAL RESTRICTIONS, CONDITIONS: _____

RECEIVED JAN 28 1988

12. *CROSS LISTED? No If yes, Dept. _____ No. _____

13. PREVIOUS HISTORY (such as offered as trial, or special topics course, etc.?)

14. ESTIMATED IMPACT OF ACTION ON BUDGET, FACILITIES/SPACE, FACULTY RESOURCES

None

15. Have you reviewed with the Library Collection Development Officer (Dennis Stephens, 6695) any library/media collections, equipment, and services affected by this proposed action?

Yes [ ] No [ ]

If no, why not? No impact

16. JUSTIFICATION FOR ACTION REQUESTED (attach sheets if necessary)

An introductory critical thinking course is an essential part of an undergraduate curriculum.

APPROVALS:

SPECIAL TOPICS, TRIAL COURSE, and NEW COURSE

Department Mining and Geological Eng. College/School Mineral Engineering

Prepared by Hsing Kuang Lin

1. ACTION DESIRED: Special Topics Course [ ] Trial Course [X] New Course [ ]
2. COURSE IDENTIFICATION:
   Dept. Mining and Geological Eng. Number MPR 694 Number of Credits 3
   Justify upper/lower division status & number of credits: This advanced course is designed for graduate students in Mineral Engineering.
3. FREQUENCY OF OFFERING: Alternate fall
   (every fall, alternate spring, etc.)
4. DATE OF FIRST OFFERING: Fall, 1988
5. PROPOSED TITLE: Solution concentration and purification
6. CONTACT HOURS PER WEEK: 3 hrs. lecture _____ hrs. lab
   other hrs.: (specify type)_____
7. COURSE CLASSIFICATION/DESIGNATION - if any. (Use approved criteria found on Page 7 of this Manual of Procedures) (If justification is needed, attach on separate sheet).

   h-Humanities [ ] n-Natural Science [X] s-Social Science [ ]
   o-Oral Communication [ ] m-Mathematics [ ] w-Written Communication [ ]
8. COURSE DESCRIPTION FOR CATALOG (50 words or less, if possible):

   Study of the physical chemistry of reaction encountered in solution concentration and purification processes of hydrometallurgy. The types of reaction discussed are cementation, solvent extraction, ion exchange and carbon adsorption which are studied in terms of solution chemistry, reaction kinetics and mass transfer effects.
9. GRADING SYSTEM: Letter [X] Pass/Fail [ ]
10. PREREQUISITES: Graduate standing or permission from the instructor.
11. SPECIAL RESTRICTIONS, CONDITIONS: None

RECEIVED JAN 2 8 1988

12. *CROSS LISTED? No If yes, Dept. _____ No. _____

13. PREVIOUS HISTORY (such as offered as trial, or special topics course, etc.?)
Not offered before

14. ESTIMATED IMPACT OF ACTION ON BUDGET, FACILITIES/SPACE, FACULTY RESOURCES
Existing faculty, no additional support is requested.

15. Have you reviewed with the Library Collection Development Officer (Dennis Stephens, 6695) any library/media collections, equipment, and services affected by this proposed action?

Yes [ ] No [X]

If no, why not? All the reference books listed in the course outline are available at the Department of Mining and Geological Engineering.

16. JUSTIFICATION FOR ACTION REQUESTED (attach sheets if necessary)

This course will cover engineering methods to recover metal species from leaching solution. The course will be of interest to those involved in mining engineering, mineral preparation engineering and metallurgical engineering.

APPROVALS:

Robert C. Peck Date: 11/24/87
Head, Program/Department of Mining + Geological Engineering

Raoul J. Gruchalla Date: 1/25/88
Chair, College/School Curriculum Council for Schools of Engineering

Donald M. Runnells Date: 1/25/88
Dean, College/School of Mineral Engineering

David M. Snow Date: 4/1/88
Chair, Fairbanks Academic Council

* Requires joint approval of both depts. and deans involved. May add lines at end of form for such signatures.

PLEASE NOTE: YOUR CURRICULUM COUNCIL MAY REQUIRE A COURSE OUTLINE OR SYLLABUS.
csl/30/Aug. 1987

The UAF Faculty Senate approved the following at its meeting #2 on February 17, 1988:

MOTION PASSED AS AMENDED

The UAF Faculty Senate accepts the following three Basic Assumptions and seven Guiding Principles as the framework for development of UAF tenure and promotion policies and regulations.

THREE BASIC ASSUMPTIONS:

1. To fulfill the University's mission, each school and college within the University has a tri-partite responsibility which includes teaching, research and service.

2. It will be the responsibility of each school and college in concert with overall University mission to define the proportion of the efforts of its faculty to be expended in each area of its tri-partite responsibility. It is the responsibility of department heads, deans, and directors to provide explicit assessment on a timely basis of the progress of tenure-track faculty toward achieving tenure and promotion.

3. Each individual faculty member's responsibilities with respect to teaching, research, and service will be reflected on job descriptions used in initial hiring, yearly workload distribution, and in faculty assessments.

SEVEN GUIDING PRINCIPLES:

1. There will be one set of tenure-track ranks. The three ranks will be assistant professor, associate professor, and full professor.

2. To be eligible for the award of tenure and for promotions to associate professor, which will be awarded at the same time, candidates must demonstrate excellence in two of the three traditional areas of faculty responsibilities: teaching, research, and service.

3. To be eligible for promotion to a full professor, the candidate must demonstrate excellence in all three of the areas of faculty responsibility.

4. Consistent with Regents' policy, discipline based unit criteria and relevant indices for performance will be developed which will be used in the award of tenure and promotion.

5. Faculty may stand for promotion/tenure prior to the seventh year. Faculty must stand for promotion/tenure by the seventh year. If tenure is not awarded, the candidate will be awarded a one-year terminal contract.

RECEIVED MAR 0 1 1988

6. Instructor ranks will be non-tenurable and may be negotiated on a multiple year contract basis.

7. Faculty at the associate professor or full professor level may be hired with tenure after appropriate faculty review.

Effective: Immediately

Rationale: After soliciting faculty input on the Task Force II and III recommendations relative to promotion and tenure policies, we have identified several areas of concern with the proposed multi-track system. These concerns tend to fall into two categories: 1) There is some fear that the non-professor tracks will be seen as "second class"; 2) There is also some concern that the three track system will erode the traditional professoriate. Therefore, the above principles are a way out of this dilemma.

APPROVED WITH MODIFICATION(S) INDICATED C. A. Thomas Date 25 March 1988

cs

See attached memorandum regarding modifications.

RECEIVED MAR 0 1 1988

UNIVERSITY OF ALASKA

MEMORANDUM

TO: David Smith, President
Faculty Senate

FROM: Wayne C. Thomas, Acting Vice Chancellor
for Academic Affairs

DATE: March 25, 1988

SUBJECT: Modification of Senate Motion on UAF Tenure and Promotion Policies and Regulations

The parts that are underlined are my modifications of this motion.

SEVEN GUIDING PRINCIPLES:

2. To be eligible for the award of tenure and for promotions to associate professor, which will be awarded at the same time, candidates must demonstrate excellence in two of the three traditional areas of faculty responsibilities: teaching, research, and service, <u>but show evidence of performance in all three</u>.

4. Consistent with Regents' policy, discipline based unit criteria and relevant indices for performance <u>may</u> be developed which will be used in the award of tenure and promotion.

7. Faculty at the associate professor or full professor level may be hired with tenure after appropriate faculty review <u>and approval of the cognizant dean</u>.
