The following motion passed at Faculty Senate meeting #264 on May 2, 2022

MOTION:

The UAF Faculty Senate moves to adopt the following calendar for its 2022-2023 meetings.

Effective: Fall 2022

Rationale: Dates must be firmed up for the meeting schedule to allow for advance planning, and Wood Center room reservations must be scheduled well in advance.

****

2022-23 Faculty Senate Meetings
Wood Center Carol Brown Ballroom or via zoom

Meeting	Date	Day	Time
#265	September 12, 2022	Monday	1:00-3:20 PM
#266	October 3, 2022	Monday	1:00-3:20 PM
#267	November 7, 2022	Monday	1:00-3:20 PM
#268	December 5, 2022	Monday	1:00-3:20 PM
#269	February 6, 2023	Monday	1:00-3:20 PM
#270	March 6, 2023	Monday	1:00-3:20 PM
#271	April 3, 2023	Monday	1:00-3:20 PM
#272	May 1, 2023	Monday	1:00-3:20 PM

****

The following motion passed at Faculty Senate meeting #264 on May 2, 2022

MOTION:

The UAF Faculty Senate moves to authorize the 2021-2022 Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2022. Senators will be kept informed of the Administrative Committee meetings and will be encouraged to attend and participate in these meetings.

Effective: May 2, 2022

Rationale: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

Outstanding Senate Service of the Year Award
Academic Year 2022

WHEREAS, William Simpson has served on the Faculty Senate as a senator from 2020-2022;

WHEREAS, William Simpson has served on the Graduate Academic & Advisory Committee from 2020-2022;

WHEREAS, William Simpson has established and served as the chair of the the CAC/GAAC Stacked committee from 2021-2022;

WHEREAS, William Simpson has taken the lead on stacked programs and courses his efforts were instrumental in creating the Accelerated Masters guidelines;

WHEREAS, William Simpson was very active and productive creating guidelines for the stacked courses and programs;

WHEREAS, William Simpson has improved the curriculum review process leading to a more organized structure;

WHEREAS, William Simpson leads thoughtful curriculum discussions, his organization and detailed communication expedite the review process;

WHEREAS, William Simpson gives insightful reviews, is open minded, respectful, and very inclusive on his reasoning and in the decision making process;

WHEREAS, William Simpson works collaboratively to support faculty and their vision when reviewing curriculum;

WHEREAS, William Simpson goes above and beyond to inform faculty and solicit faculty input on Faculty Senate matters;

WHEREAS, William Simpson is a dedicated to the tripartite mission of the University of Alaska Fairbanks and works within and without the Faculty Senate to further that mission;

THEREFORE BE IT RESOLVED that the UAF Faculty Senate acknowledges these valuable contributions of William Simpson, and bestows upon him the 2021-2022 Outstanding Senate Service of the Year Award.

_____

Sandra Wildfeuer, UAF Faculty Senate President

Resolution of Appreciation for Sandra Wildfeuer

WHEREAS, Sandra Wildfeuer has been involved with the Faculty Senate since 2014, and has served the university community quite admirably; and

WHEREAS, Sandra Wildfeuer admirably served as the Chair of the Student Academic Development & Achievement (SADA) Committee for five years; and

WHEREAS, Sandra Wildfeuer served as Faculty Senate President-Elect from 2020-2021, and as Faculty Senate president from 2021-2022; and

WHEREAS, Sandra Wildfeuer is very passionate about students wellbeing, and has brought forward the development of a Bereavement of Extended Absence Policy for students; and

WHEREAS, Sandra Wildfeuer has the credit of serving on a large number of statewide and university committees, including Common Calendar committee, the committee to determine the future structure of the College of Education, Strategic Enrollment Planning committee, the IT committee, the Administrative Review committee, and many more; and

WHEREAS, Sandra Wildfeuer was recognized for her excellent work as a Senator as the recipient of 2019 Outstanding Senate Service of the Year Award; and

WHEREAS, Sandra Wildfeuer did her best to navigate the Senate professionally through the tough time of COVID over the last year; and

WHEREAS, Sandra Wildfeuer demonstrated outstanding leadership skills and respect for faculty senators and committee members, and

THEREFORE BE IT RESOLVED, the UAF Faculty Senate extends its deep appreciation for President Sandra Wildfeuer.

The following motion passed at Faculty Senate meeting #264 on May 2, 2022

MOTION:

The UAF Faculty Senate moves to change the Faculty Senate Department Chair Policy section III.C. as follows:

C. Eligibility to be Nominated and Serve as Department Chair

The Senate recommends that only tenured members of a department who are eligible to vote be nominated and serve as department chair, except ~~under exceptional circumstances~~ **when no tenured faculty members are available**.

Effective: Immediately

Rationale: When the Department Chair policy was modified in 2015, the "exceptional circumstance" clause was added to acknowledge that not all departments at UAF have tenured faculty. However, what constitutes an exceptional circumstance was not defined, which has led to confusion. This change clarifies the recommendation.

Tenure is an integral part of the academic system and its role in preserving academic integrity should not be lightly dismissed. Tenured faculty are better protected in case difficult decisions need to be made, have experience in the department's requirements and criteria, as evidenced by their successful promotion and tenure, and their experience helps maintain the academic quality of the department.

TO: Ataur Chowdhury, President, Faculty Senate

FROM: Daniel M. White, Chancellor

RE: Response to May 2, 2022 motion regarding Faculty Senate Department Chair Eligibility

I have acknowledged the Faculty Senate motion recommending the change to Faculty Senate Department Chair Policy section III.C. as follows:

> C. Eligibility to be Nominated and Serve as Department Chair
>
> The Senate recommends that only tenured members of a department who are eligible to vote be nominated and serve as department chair, "**except when no tenured faculty members are available**."

While I acknowledge that this is a recommendation from the Faculty Senate, I have significant concerns that the new language, further restricting eligibility for Department Chair, does not align with our objective to promote diversity and inclusion at the University. I agree that tenure can be an asset to a department chair. However, I find greater value in promoting an inclusive process that allows for the election of Department Chairs who are supported by their colleagues, regardless of their rank. The new language "except when no tenured faculty members are available," narrows the recommendation's inclusivity and I fear could reduce diversity in leadership at UAF. I hope that the Faculty Senate will join me in working on policies and practices that increase diversity and inclusion at UAF.

SUBJ: Policy Regarding COVID-19 Mitigation

The Faculty Senate calls for the UAF administration to establish clear policies regarding managing and mitigating the continuation and/or end of the COVID-19 pandemic.

- Establish clear guidelines for when the campus may require masking, including:
  - Establish a level based on a **fixed standard measure** to determine when we require or relax mask requirements.
    - For example, require masks when the Alaska DHSS risk level or CDC risk level[1] is orange or red, but stop requiring masks at a given campus when the level is in yellow or blue; note that this could mean that certain campuses (e.g., Troth Yeddha' Campus) would be required to be masked when other campuses (e.g., Chukchi Campus) would not have such a requirement.
- Allow faculty to change their course teaching modality and classroom COVID mitigation strategies based on their personal COVID concerns, without requiring that they submit personal medical information to the university. Provide faculty and deans with options for various levels of mitigation, such as:
  - Move course to complete distance learning
  - Move to a hybrid course delivery (some students in person, but the faculty member could be teaching remotely)

[1] Determined at this website: https://covid.cdc.gov/covid-data-tracker/#county-view?list_select_county=02090

DocuSign Envelope ID: 8167ADA3-EF89-4E0D-8E5F-A5D1316C5B2C

    - Rework course assignments between faculty so that the concerned faculty member is no longer required to be teaching a specific face-to-face course
    - Require masks in the classroom (if masks are no longer required campus-wide)
- Allow individual instructors/groups of courses/campuses/cohorts to request vaccine mandates for individual courses, similar to the Spring 2022 process for close contact/long duration classes, and communicate this option clearly and directly to all faculty.
- Require vaccines for all residential students (as part of their required immunizations), student athletes, and other groups of high risk students who currently are required to show they are vaccinated.
- Offer multiple vaccination clinics at the start of fall semester at student orientations and other start-of-the-semester activities.
- Require proof of vaccination as a written part of risk management processes for faculty, staff, and students who are doing remote field work.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

April 19, 2022

TO: Sandra Wildfeuer, President, Faculty Senate

FROM: Daniel M. White, Chancellor

RE: Response to April 4, 2022 Memo regarding COVID Mitigation Policy

I am in receipt of your memo requesting "clear policy and guidelines regarding COVID-19 mitigation". During the last two years, I have provided weekly (or more recently monthly) COVID columns with regular updates on UAF's approach to COVID-19 mitigation. In addition, I provided briefings to Faculty Senate and answer questions related to UA and UAF's approach to COVID-19 mitigation. As you know, faculty range across the spectrum in their desired approach to COVID-19 mitigation. We have sought to take a balanced approach to COVID-19 mitigation while meeting the diverse needs of our faculty, staff and students.

Following are bullets that I believe address each element of your memorandum.

- Up-to-date COVID status and mitigation guidance is available centrally through UAF's COVID webpage. If there are specific elements of the website that you believe are out of date, please specify them so they can be updated.
- Clear guidelines on COVID mitigation measures depending on the COVID status of the respective UAF campuses are available. These were shared through my March 2, 2022 COVID communication and the application of this guidance in classrooms and labs was re-emphasized in the March 18, 2022 Message from the Provost.
- Guidance on requesting vaccine requirements for Fall 2022 courses and timelines for review were shared with faculty through my April 5, 2022 response to faculty senate. This memo also included guidance on accommodations for immunocompromised faculty.
- In my COVID column this week, I noted that unless we receive different guidance from President Pitney, there will not be a vaccination requirement for residential students next Fall. As has been made clear, the UA Policy is that there are no vaccination requirements for students. The President agreed to some exceptions to this policy for Fall 2021, Spring 2022, and Summer 2022. Exceptions were made over the last year given the conditions during that time. Exception requests for Fall 2022 will be evaluated in July 2022.
- Faculty who wish to receive a medical accommodation due to medical conditions may seek one from UA HR.
- UAF is a residential campus with international students, students on VA benefits, and many students who attend for the face-to-face experience. The deans have a responsibility to ensure that face-to-face courses are being offered to meet the student needs as well as regulatory or specialized accreditation needs. UAF has followed CDC's layered approach throughout the pandemic and we are currently following the newest

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual.
www.alaska.edu/nondiscrimination

guidance. Faculty will need to continue working with their Deans/Directors on getting a formal approval for course modality change.

- Vaccinations will continue to be available for UAF students through our Student Health and Counseling Center.
- Remote fieldwork requires Field Safety Plans that contain COVID mitigation measures that are reviewed and approved by the supervisor.

Re: Supporting Graduate Programs at UAF

Graduate education is a fundamental part of what makes a *university*. It appears that UAF is losing sight of that important fact. Providing education and training at a level beyond the undergraduate curriculum is one of the core educational missions of a university. In addition, graduate programs and graduate students support undergraduate education, where graduate student TAs expand education opportunities for undergraduates through additional course offerings and labs, and research, where graduate student RAs support and increase the research productivity of faculty while developing their own knowledge and expertise. For 86 years, UAF has been a university that has offered an array of high-quality graduate programs to students from Alaska and beyond and produced research and graduates with influence throughout the world. Despite continuous references to the goal of becoming a Tier 1 research institution, that success is now endangered by the lack of a coherent strategy for funding and supporting the colleges and schools that house our graduate programs and their graduate students.

UAF must act now to stabilize funding for academic programs across the university with a plan that recognizes the essential value of these programs beyond simply tuition revenue.

Provost Prakash's March 3 email explaining that we should expect increased teaching workloads to help deal with budget shortfalls, followed by CNSM Dean Doerner's proposal to eliminate funding for TAs at the college, are the most recent examples of how UAF as an institution lacks coherent planning across its colleges, schools, and institutes. Dean Doerner's suggestion highlights the impossible situation colleges and schools and their deans have been placed in: "balance your budget by destroying your college". While the Provost eventually rejected eliminating TAs, there appear to be no plans for a long-term solution. Colleges and schools with graduate programs will likely be in the same situation next year facing the same impossible choices. As a research university, we cannot take a piecemeal approach.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: A6F32D29-70C4-4129-80C5-8F4788EA3879

UAF FACULTY SENATE
P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

- UAF's academic programs, colleges, schools, and institutes are funded unevenly and for many, unsustainably. While it is understandable that some academic programs and some areas of research are more lucrative than others, as a university we need to ensure that each unit can fulfill its part of the university's educational mission.

- While increased enrollment may be a solution for undergraduate programs, nationwide, graduate programs that include the research and extensive mentoring expected of a Tier 1 research institution are not and cannot be supported solely through tuition dollars.

- Increased undergraduate enrollment also requires increased numbers of faculty (and, often, TAs) in order to support the increased course load and increased research capacity. We are swiftly approaching a time when we have neither the faculty nor the graduate student capacity to fulfill the teaching and research requirements of having a university.

- Increased teaching loads for faculty endanger research productivity by reducing the amount of research faculty are able to do and siloing teaching from research when tripartite faculty have to reduce their research productivity.

- Increased teaching loads for faculty endangers tenure, denying faculty the opportunity to advance in the traditional academic setting and making UAF an increasingly less attractive place for new faculty hires.

- UAF's support for graduate students, particularly through TA positions, has been lagging for some time. The Graduate Academic & Advisory Committee submitted a memorandum through the Faculty Senate in March of 2021 noting the diminishing funding for TAs and the low level of the minimum graduate assistantship stipend that has left UAF uncompetitive with other institutions, including UAA, and resulted in inequity between graduate TAs in different colleges and schools. The Chancellor's response was, "I have asked Provost Prakash to coordinate with the PIT crew in the fall to investigate a new funding mechanism for TAs." To date, nothing has come of this investigation.

- Eliminating TA positions would destroy graduate programs across the university and destroy our credibility as a university.

- Part of the requirement to achieve Tier 1 status involves graduating more PhDs per year. Increasing the number of PhDs graduated by UAF requires more faculty supervising more students, which can be facilitated by ensuring that there are available TA positions when faculty do not have available RA positions—that is by increasing, not decreasing the number of TA positions.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: A6F32D29-70C4-4129-80C5-8F4788EA3879

- Many undergraduate programs rely on TAs to run student assistant programs as well as leading labs and other essential teaching activities. Without TAs these services could not be provided and undergraduate enrollment would decline.

- RA positions are an essential part of research and graduate students in the academic programs, particularly in CNSM, support research at the institutes. The institutes don't exist in a vacuum.

- Quality higher education cannot be separated from quality research and quality research cannot be separated from quality higher education. In addition, quality education and research in one area or discipline can only be enhanced by quality education and research in others.

- UAF leadership cannot continue to treat each college, school, and institute as separate pieces that compete independently of one another. Each unit depends on the health of the other.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

Re: Endorsement of Graduate Academic & Advisory Committee Memo re: Support for Graduate Programs

The Faculty Senate endorses the Graduate Academic & Advisory Committee's memo re: Support for Graduate Programs. The health of graduate programs at UAF is critical to undergraduate academic programs and key to attaining Tier 1 Research status, and a comprehensive plan for their sustainability is needed.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

TO: Sandra Wildfeuer, President, Faculty Senate

FROM: Daniel M. White, Chancellor

RE: Supporting Graduate Programs at UAF

Thank you for your March 21, 2022 memo highlighting the greater need to support graduate programs at UAF.

Graduate education is and continues to be important for UAF. UAF has engaged in four years of strategic enrollment management planning to increase recruitment, retention, and graduation of students pursuing all levels of our academic programs. Undergraduate and graduate enrollment efforts are not at odds. As I have emphasized in my remarks previously, efforts to promote undergraduate enrollment supports the growth of graduate programs through reinvestment of a select part of the tuition revenue for graduate student funding support, especially TA support.

Adapting curriculum offerings in some departments or adjusting workloads as needed to meet the needs of different units is not new. This has been a long-standing practice and is essential to revitalize our academic programs, meet our student needs, and to navigate within our current budget realities.

Active work is underway through the Provost Office and Graduate School to evaluate the graduate student minimum stipends. UAF is also running a pilot project on funding models for central support for an additional graduate student when a faculty member includes a fully-funded graduate student on their research grant. This work is anticipated to help with increasing our graduate student numbers.

Thank you for all your efforts in supporting the multi-prong approach that UAF is taking to build up our funding through improved state and federal support, enrollment management, growth in research, philanthropy, commercialization, facilities monetization, and other creative approaches.

DMW:jdp

cc: Anupma Prakash, Provost and Executive Vice Chancellor

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the College of Business and Security Management.

Effective:

Fall 2022
Upon Chancellor Approval

Rational:

The Unit Criteria Committee assessed the unit criteria submitted by the College of Business and Security Management. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF Guidelines.

The revisions reflect the name change from the School of Management to the College of Business and Security Management, and document formatting was brought into compliance with the current UAF Unit Criteria template. There were minor edits made to the existing unit specific criteria that did not modify the content or intent of the criteria.

UAF Unit Criteria
for
College of Business and Security Management

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of **the College of Business and Security Management** Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C ***and CBSM unit criteria, standards, and indices****.*

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. Effectiveness in Teaching

   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers ***will demonstrate some, but not necessarily all, of the following characteristics in an individual year:***

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.
   i. disseminate new ideas to the students resulting from research and other management activities, such as consulting and service on review panels;
   j. mentor students, undergraduates as well as graduates, in quality research activities;
   k. engage in advising students;
   l. participate in assurance of learning activities.

   2. Components of Evaluation

   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two ***(CBSM requires at least three****)* of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom
- ***Narrative self-evaluation, which provides a clear statement of teaching objectives and a self-assessment of how those objectives are met. Examples may include student progress, represented by improvements in early and late semester projects, or other mechanisms that can document improvement and an inventory of skills learned selected from individual students' work.***
- ***A class pre-test at the beginning of the semester followed by a post-test of similar form at the end of the semester to assess student learning.***
- ***Documentation of scores from any nationally recognized course-specific exam,***
- ***Review of online materials by eCampus, Quality Matters, or recognized external authority.***

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Specific CBSM Criteria for research performance:

For promotion to associate or full professor, it may be sufficient for a faculty member to demonstrate research productivity since the time of last promotion of at least four journal articles that are either single- or double blind refereed, or published in an editorially reviewed journal of recognized quality, as recognized by The College of Business and Security Management Research Quality Policy. The committee may choose to evaluate an article published in an A or A* ranked journal as equivalent to two articles published in a lesser ranking journal. Alternatively, a faculty member may publish three such journal articles and two papers published in lesser format, such as papers and proceedings. However, a faculty member may not receive credit more than once for a paper that is essentially the same content. Those who perform significant professional activity and attainment of professional certification as a condition of accreditation may consider a detailed professional/industry work report or documentation of successful completion of a professional examination, such as a CPA, CFA, or similar accreditation, to count as a paper published in a lesser format.

All faculty members must demonstrate an independent and coherent research agenda. Evidence of this can include sole authored papers or a convincing record of initiation of independent research. To demonstrate a consistent flow of research, a faculty member who has completed work before arriving at this university can count no more than three papers toward promotion if those papers were published within six years of the date the candidate petitions for promotion.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

Specific CBSM criteria for service:

A. Associate Professor: Positive contributions to school and/or university matters, effective professional contributions to the public, and/or effective services to the profession are expected.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

B. Professor: Evidence of leadership in the service area is expected. Significant contributions to the development of school and/or university programs such as committee leadership of UAF Faculty Senate service, a union committee, or associated committees are expected. Effective application of service includes professional expertise provided to professional or public organizations such as a business society leadership, reviewing proposals, refereeing manuscripts, and editing for professional organizations or publications.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting.
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.
   i. Training and facilitating.
   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
   l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.
   m. Online contributions, such as blogs or other forms of digital media that can be assessed for quality and professional impact.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

2. University Service
   University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

   a. Service on university, college, school, institute, or departmental committees or governing bodies.
   b. Consultative work in support of university functions, such as expert assistance for specific projects.
   c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
   d. Participation in accreditation reviews.
   e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
   f. Service in support of student organizations and activities.
   g. Academic support services such as library and museum programs.
   h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
   i. Mentoring.
   j. Prizes and awards for excellence in university service.
   k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service
   Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

   a. Editing or refereeing articles or proposals for professional journals or organizations.
   b. Active participation in professional organizations.
   c. Active participation in discipline-oriented service organizations.
   d. Committee chair or officer of professional organizations.
   e. Organizer, session organizer, or moderator for professional meetings.
   f. Service on a national or international review panel or committee.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for English and Philosophy & Humanities.

Effective:

Fall 2022
Upon Chancellor Approval

Rational:

The Unit Criteria Committee assessed the unit criteria submitted by English and Philosophy & Humanities. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF Guidelines.

The document formatting was brought into compliance with the current UAF Unit Criteria template. There were minor edits made to the existing unit specific criteria that did not modify the content or intent of the criteria.

UAF Unit Criteria
for
English and Philosophy & Humanities

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **English and Philosophy & Humanities**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development. ***Some faculty serve on a large number of graduate committees, and such work is highly valued by this peer unit.***

1. Effectiveness in Teaching add course proposals
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials, ***including the development of digital teaching materials and online resources****;*
   g. regularly expend effort towards future oriented educational development***, including updates to classes and pedagogical methods****;*
   h. may receive prizes and awards for excellence in teaching.
   i. ***may develop a textbook or an open educational resource that is used beyond UAF.***
   j. ***may prepare proposals for new courses or instructional programs.***

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

This peer unit encourages peer review of teaching for untenured and term faculty as well as for those applying for promotion. Observers will provide an evaluative letter or form for the file.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

Work is expected to be subject to a formal, systematic external review process by peers, an editorial board, and/or an editor. Although the departments value conventionally published works, they also value work formally reviewed but disseminated by other means, such as (but not limited to) work presented in online journals. Consideration will include, but not be restricted to, the candidate's work published in refereed books (whether monographs, edited collections, or anthologies), journals, and conference proceedings, whether online or in print form; papers, lectures, presentations, and readings delivered; participation in exhibits or public performances; other papers, books, book chapters, articles, creative production (e.g. poetry, fiction, creative nonfiction, films, dramatic works); scholarly editions and translations of existent texts; community-based action research projects; grant and other proposals for research and creative work; software development that draws on language, narrative, and other aspects of faculty expertise. The work must be presented or circulated in a public forum where its contribution can be judged by peers external to UAF.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline. ***Books, articles, essays, fiction, poetry, dramatic works, works in hybrid genres, and translations are highly valued by the English and Philosophy & Humanities Departments, including work selected by editors rather than by editorial boards or through peer review. This unit values open access scholarship.***
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval. ***Successful research, scholarly, and creative work in this peer unit is not contingent on the availability of grants or on the services of graduate assistants and postdoctoral researchers funded by them. Grants are highly valued, but there is no expectation that faculty will write or administer grants.***
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers. ***In addition to conference presentations, invited lectures, craft talks, workshops, and readings–whether in-person or virtual–of research papers, scholarly works, and creative works outside of conferences are valued by these departments.***
   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications. ***Citation indexes are not commonly used in the humanities. A high level of citation might indicate a high standing in a faculty member's field. However, a low level of citation should not be taken to indicate a lack of standing. This unit values qualitative review of research, scholarly, and creative activity.***
   h. Published abstracts of research papers.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.
o. ***This unit values collaborative research, scholarship and creative activity, including work produced with collaborators outside this peer unit. This unit assumes that each coauthor will have made a significant contribution. Coauthors are often listed alphabetically.***
p. ***This unit values scholarship on teaching and learning. Research products, in addition to those noted above, may also include publicly circulated arts and humanities curricula that are innovative and based on original research.***
q. ***Community engaged scholarship (CES) is scholarship that involves the scholar in a mutually beneficial partnership with the community. CES requires a high level of expertise; it is innovative activity that has impact; that can be replicated and elaborated; the work and its results can be elaborated, documented, peer reviewed (peer includes both community and academy), and disseminated. Characteristics of CES include but are not limited to:***
- ***Work that is grounded in the unit/institutional mission***
- ***Community contributes to/benefits from project***
- ***Increases funding to continue/expand/replicate project for community partners***
- ***Increases capacity of individuals and community organizations to advocate for themselves***

Overall the work adds consequentially to discipline(s), CES, and community and may include outcomes such as online material, videos, manuals, curricula, and other products.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting.
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.
   i. Training and facilitating.
   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media. ***Readings, presentations, lectures, roundtables, panels, and workshops in Fairbanks and throughout Alaska are also highly valued.***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies. ***Significant faculty participation in departmental committees is often expected in order to run the programs offered by the peer unit, and this work is highly valued. Not all faculty from this unit are involved in interdisciplinary work; when faculty from this peer unit participate in interdisciplinary programs or initiatives on campus, this unit highly values that service.***
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews. ***Preparation of other university reports, such as program reviews, SLOA reports, and ad hoc responses to such bodies as the Faculty Senate or the Office of Assessment & Accreditation.***
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs. ***This peer unit especially values service to the University Writing Center.***
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring ***of faculty.***
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.
l. Participation, often invited, in university strategic initiatives and planning.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

This unit highly values the emotional labor of Diversity, Equity, and Inclusion work as well as work on other university initiatives.

m. Serving as an outside examiner to graduate programs outside the faculty member's home department.

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.
g. Organization of conferences.
h. Outreach to schools and educators
i. This peer unit especially values service to local communities.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

UAF Unit Criteria
for
Department of Foreign Languages and Literatures

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **Department of Foreign Languages and Literatures**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Faculty in Foreign Languages are required to teach all levels of their language, and often have unusually high teaching loads. Thus, excellence in research and service cannot compensate for an insufficient teaching record.

Untenured faculty members will have a yearly peer teaching observation, either by the department chair or another faculty member. Student opinions of instruction will also be considered when assessing a candidate's teaching record. The candidate must address consistently low student opinions of instruction in their self-narrative.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. <u>Effectiveness in Teaching</u>
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.

2. <u>Components of Evaluation</u>

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

   All peer-reviewed publications shall be considered significant. This includes not only the writing of journal articles and book chapters but also any peer-reviewed translations of articles, books or journal volumes, as well as contributions to textbooks and other pedagogical resources.

b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   Presentations at conferences are encouraged and should be considered valid professional research activity. However, travel funding either from the university or outside sources is often unavailable. The candidate should address the frequency of conference presentation and availability of funding in their narrative statement.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

o. ***Publications in foreign journals are standard in the discipline. Candidates will supply a translation of the title of any work in a language other than English and are encouraged to provide an abstract in English as well as a description of the journal.***

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

e. Active participation in discipline-oriented service organizations.
f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring ***of faculty***.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.
l. ***Outside reviewer on thesis committees.***

3. Professional Service

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

UAF Unit Criteria
for
ALASKA NATIVE LANGUAGE CENTER (ANLC) AND ALASKA NATIVE LANGUAGE PROGRAM (ANLP)

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **ANLC and ANLP**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development, ***and academic recruiting and retention activities. Instructors of Alaska Native languages often deal with students in smaller groups. Because of the demographics of Alaska Natives and the endangered status of all Alaska Native languages, individual study classes are often the only means of providing crucial instruction to members of small Native groups who have the potential to become linguists, educators, language specialists, and language advocates in many fields.***

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.
   i. create, design and test their own classroom and teaching materials that address the lack of published instructional material for Alaska Native Languages.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post-tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere. ***The mission of ANLC provides for the production and distribution of Native language publications to the people of Alaska and Native groups in particular. The Alaska Native Language Center's publication program, with the guidance of ANLC's Editorial Board consisting of ANLC faculty, is an effective means of accomplishing this goal and is viewed as a reputable press in the field of Native American linguistics. ANLC is foremost in Athabascan worldwide and foremost in Eskimo-Aleut in North America. Manuscripts to be published are reviewed by ANLC Editorial Board and other appropriate specialists outside the institution wherever possible.***

Publications intended for the public and especially the Native community often take a different form from other scholarly research. These materials are evaluated by their intended users in language communities and by other linguists and language specialists worldwide who produce similar materials. ANLC faculty are expected to produce both scholarly and applied publications.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Given the ANLC and ANLP missions, research on Alaska Native languages and related languages will be weighted more heavily than non-Alaskan research for purposes of evaluation.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications.
   h. Published abstracts of research papers.
   i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
   j. Prizes, ***recognition,*** and awards for excellence ***in*** scholarship.
   k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
   l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.
o. Grammars, dictionaries, texts, and instructional material for Alaska Native languages.
p. Other means of disseminating information about Alaska Native languages, such as maps, CDs, DVDs, other digital material currently popular in the media that focuses on language teaching, learning, and development.
q. The design of templates for dictionaries, grammars, text collections, and teaching materials applicable to closely-related languages.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service." ***Because of its statewide mission, ANLC is strongly committed to public service to Alaska Native agencies and communities at their request.***

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative,

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.
m. ***Teaching in not-for-credit situations, such as workshops during teacher in-services, other universities statewide who request guidance in Native language teaching and learning.***
n. ***Partnerships with Native organizations and language program support, including materials production and teacher education. Evidence of such services include activities in support of community language goals, such as workshops and not-for-credit courses, Native language teacher education, and materials resulting from these activities.***
o. ***Sustained engagement and collaboration with language communities that result in local leadership or research in language efforts, language revitalization, and language maintenance.***
p. ***Materials created specifically for a workshop.***

2. University Service

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate to that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

DocuSign Envelope ID: 9EDF46F9-DDBF-4ACB-8EA1-8EDEFEF8ADC9

Given the ANLC/ANLP missions, service to Alaskan language communities and native organizations is most highly-valued, examples of such service include but are not limited to criteria under M-Q, Section F.1. Public Service.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

MOTION:

The UAF Faculty Senate moves to approve the Computer Science, Bachelor of Arts.

EFFECTIVE: Fall 2022, upon all approvals

RATIONALE: Currently, the only bachelor's degree in CS at UAF is a bachelor of science, an ABET-accredited degree program with enough required math coverage that students at graduation have enough math courses for a math minor.

Adding this bachelor of arts degree would broaden access to the CS degree for students who have other interests, such as in linguistics, languages, humanities, or art. While retaining rigorous C++ programming, we have removed most of the upper-division math requirements in the BA pathway to make space for the required 15-credit minor complex in a bachelor of arts degree.

Calculus, particularly Calculus II, has been identified as a key impediment to women pursuing STEM careers (Ellis et al, 2016 https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0157447). Offering the minimal-calculus degree path of the BA may help improve the gender ratio in CS.

In the long run, the many courses shared between the BS and BA will keep both programs strong. It should also help keep our MS program sustainable, and a BA/MS accelerated program should be possible in the future.

MOTION:

The UAF Faculty Senate moves to delete the BS-ANTH : Anthropology, Bachelor of Science

EFFECTIVE: Fall 2023

RATIONALE: Historically we have offered both a BA and a BS in Anthropology. The former was centrally focused on sociocultural and linguistic anthropology, while the latter was focused primarily on biological anthropology and archeology. Due to lack of sufficient numerical competency skills among our students, including those interested in the BS program (enrollment and retention have been problematic for a decade), we are eliminating it. Consequently, we are redesigning the BA program so that it provides students with a broad exposure to all four subfields of anthropology. In addition, we have added to the courses that focus on methods to ensure that students take courses dedicated explicitly to methods, rather than hope that they receive instruction in applicable methods as an ancillary outcome of successful completion of the entire curriculum.

The following motion passed the Faculty Senate meeting #263 on April 4, 2022

Motion to Create a Masters of Marine Policy

MOTION:

The UAF Faculty Senate moves to approve a new Masters of Marine Policy, housed in the UAF College of Fisheries and Ocean Sciences and the UAS School of Arts & Sciences.

The Master of Marine Policy (MMP) degree will be jointly offered by UAS and UAF, with UAF acting as the lead institution. Graduates will receive a diploma indicating that the degree is awarded jointly by UAF and UAS. Applications for admission to the MMP program will be processed through the UAF Graduate School. Enrolled students may select from various required and elective courses offered by UAF or UAS. Most of these courses can be taken in-person or remotely via synchronous or asynchronous modalities. UAF tuition and fees will apply to courses taken through UAF, while UAS tuition and fees will apply to courses taken through UAS.

Rationale: The joint UAF-UAS Master of Marine Policy (MMP) is a 30-credit hour non-thesis graduate degree program designed to complement existing University of Alaska graduate programs and to meet a need unfilled by those programs. The University of Alaska houses outstanding graduate training and research programs that explore physical and biological aspects of marine systems. Cultural and social dimensions of marine resource systems are addressed in courses offered by University of Alaska faculty in Alaska Native Studies and Rural Development, Anthropology, Fisheries, Geography, Political Science, and Resource Management and Environment. In addition, the marine economy's business and entrepreneurship aspects are the focus of the STEM Blue MBA offered by the UAF College of Business and Security Management (CBSM) in cooperation with CFOS and the UAF Alaska Blue Economy Center. Together, these programs and centers support graduate education covering a broad perspective of marine social-ecological systems. However, they do not provide graduate students with a comprehensive background in the legal and policy context of utilizing and managing marine social-ecological systems. Consequently, graduates hired for their technical expertise often find themselves promoted to positions focussed on marine policy yet lack formal training in the legal, policy, and cultural aspects of living marine resource management. It is anticipated that MMP graduates will be well-positioned to compete for marine resource management-focused positions in local, state, federal, and tribal government, agencies, and organizations, non-governmental organizations, and private industry in Alaska and elsewhere.

The MMP degree program engages students in a curriculum that instills an integrated background in four core dimensions of Marine Policy, (1) Living Marine Resources and their Management, (2) Analytic Methods, (3) Law and Policy, and (4) Economics, Development, and Sustainability. The wide selection of courses that satisfy these core and elective requirements facilitates individualization of the curriculum to support each student's goals. Courses are drawn from the Alaska Native Studies, Anthropology, Arctic and Northern Studies, Biology, Cross-cultural Studies, Economics, Fisheries, Geography, Marine Science and Limnology, Natural

DocuSign Envelope ID: 90C2CABF-8A83-4D84-9FB2-46A4F1017C63

Resource Management, Political Science, Public Administration, Rural Development, and Statistics programs at UAF and UAS. Because most of these courses are already offered at remote sites through video-conferencing, this new degree program can serve prospective students throughout Alaska and beyond.

Federal and State waters off Alaska's coast comprise nearly one-third of the U.S. total. These pristine waters support abundant living marine resources, hold substantial petroleum, mineral, and alternative energy resources, serve as vital global shipping routes, and are the cultural heritage of Alaska's people. In 2019, Alaska's fisheries produced 60% of U.S. landings by weight and 32% by value. By itself, Alaska ranks as the world's seventh-greatest capture fishery—slightly behind Peru, on par with Japan, and well ahead of Vietnam and Norway. Management of Alaska's fisheries is globally recognized for adherence to sound science and policy to support these sustainable marine resources.

The need for science and policymaking expertise is ever more pressing as the changing climate affects marine ecosystems. New science is needed to anticipate changes in biological productivity and the distribution of species. New analysis is needed to identify resource management policies resilient to shifts in ecological systems and their volatility. Recognition that the design and implementation of effective marine policy requires a working knowledge of natural and social sciences has inspired the development of graduate and undergraduate programs in Marine Affairs and Marine Policy in other coastal states.

The University of Alaska has a long history of providing expertise to support state and federal management of living marine resources and environmental assessments related to outer continental shelf resource development and marine transportation. In addition, University of Alaska graduates hold leadership roles in state and federal agencies, tribal, corporate, and non-profit organizations that engage in governance, management, and policy design to support Alaska's fisheries, ecosystems, and the communities that depend on Alaska's living marine resources.

EFFECTIVE: Fall 2022

The following motion passed the Faculty Senate meeting #263 on April 4, 2022

Motion to Create a Graduate Certificate in Climate Security

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate in Climate Security, housed in the College of Business and Security Management.

Rationale: Climate change is increasingly being recognized as a 'threat multiplier' globally, due to the numerous and complex intersections climate creates between natural events, humans, and the built environment. National and international institutions have identified a need for greater attention toward climate related threats and a growth in practitioners with the skills needed to address this global problem at all levels of decision making. With the rapidly rising focus of security concerns from environmental and climate related hazards, and the potential for threat escalation, there is a need for new and current decision and policy makers to gain a better understanding of connections between climate and security. A Climate Security certificate within the MSDM program will help students to better understand how climate related factors influence not only hazards and disasters, but also their connections to planning, policy and the expansion of security related concerns at the regional, national, and international levels. Additionally, this certificate option allows professionals or new students to explore this topic, while providing a pathway into a full Masters degree for those interested in pursuing security and disaster planning further.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

MOTION:

The UAF Faculty Senate moves to replace the existing Program Review structure to align with Board of Regents Policy and UA Regulations (10.06) and NWCCU standards. This motion revises the committee structure. Specifically, the two committee levels of review will be a College or School Level Committee that provides recommendations for program improvement or a recommendation for further review and a University Wide Level Committee that may recommend actions up to and including program deletion.

Rationale:

The 2017 revision to the program review process was conceived as a response to budget-driven expedited program reviews that have concluded. This motion revises the regular program review process to align with Board of Regents policy and NWCCU standards and recommendations following work by a Faculty Senate ad hoc committee created in April 2021 and a year-long Process Improvement Effort, involving multiple stages of stakeholder feedback and redesign.

The new process is intended to increase flexibility and provide a formative and collegial review at the College or School level, eliminate the need for additional levels of review for the majority of programs, and focus attention on program improvement and growth. **During the period 2016-2020 in the regular program review cycle, 98.7% of programs reviewed were continued.**

A side-by-side comparison showing additions and deletions and the original previous motion are attached.

****

The program review committee structure shall be as follows:

Program reviews are conducted by a committee formed in each College or School **consisting of a minimum of 4 faculty members from the College or School. These committees will be formed by the Dean or Director in consultation with the programs within the College or School. Each program within the College or School will put forward their recommendation of faculty members to serve on the committee. The Dean or Director shall choose from these recommendations. The committee will consist of these faculty members, one faculty member from outside the unit, and a Dean or Director or Dean's or Director's representative external to the school or college as an ex officio member.**

The unit-level committee will provide recommendations and feedback, which may include a recommendation for further review.

If a program receives a further review recommendation, then the review will move to the University Wide Program Review Committee. The University Wide Committee will comprise a faculty representative from each School and College and three administrative representatives (the

DocuSign Envelope ID: 31C7D80B-B2B1-4BA8-ADEA-9B64B7299C37

administrator of the program being reviewed, the Vice Provost, and one additional administrator external to the program). Possible recommendations from the University Wide Committee are:

a. Program continuation
b. Program continuation with an action plan
c. Other actions, such as a major program restructuring
d. Suspend admissions to program
e. Program discontinuation

The Provost, in consultation with the Chancellor's Cabinet, shall review the recommendations of the university wide committee and take one of the following actions:

a. Program continuation is confirmed with any recommendations for improvement suggested by the committee.
b. An action such as a major program restructuring, in which case an action plan shall be required by the end of the next regular academic semester.
c. Recommend to discontinue program. When appropriate, admissions may be suspended pending action.

Programs shall have the following opportunities for response to committee recommendations:

The College or School Level Review Committee shall allow representatives from the program under review to attend the meeting and to answer questions **if no representatives of that program are members of the committee. The College or School level review committee shall complete the reporting template.** The program under review has the option to send a response to the **Dean, Dean's representative or Director** within two weeks.

Faculty Senate reviews the recommendations to discontinue or suspend programs and states their collective agreement or disagreement with the Chancellor's Cabinet's recommendation. If the Faculty Senate disagrees, it shall provide an alternate recommendation by the end of the semester in which the Chancellor 's Cabinet's recommendation is made.

The Chancellor reviews all levels of recommendations and decides whether to recommend program discontinuation to the Board of Regents.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

Deletions: strikethrough

Proposed Motion	Motion passed at UAF Faculty Senate Meeting #222 on April 3, 2017
The program review committee structure shall be as follows: **Program reviews are conducted by a committee formed in each College or School consisting of a minimum of 4 faculty members from the College or School. These committees will be formed by the Dean or Director in consultation with the programs within the College or School. Each program within the College or School will put forward their recommendation of faculty members to serve on the committee. The Dean or Director shall choose from these recommendations. The committee will consist of these faculty members, one faculty member from outside the unit, and a Dean or Director or Dean's or Director's representative external to the school or college as an ex officio member.** **The unit-level committee will provide recommendations and feedback, which may include a recommendation for further review.** **The unit-level committee will make recommendations ~~for continued improvement~~, which may include a recommendation for further review.**	~~The program review process shall be completed as follows:~~ ~~1. An initial review based on centrally generated productivity and efficiency summary and a unit- provided brief narrative describing mission centrality, the prospective market for graduates , the existence of similar programs elsewhere in UA, and any special circumstances that explain features of the centrally generated productivity and efficiency summary (see attached program review template for more details). The information reviewed meets the Board of Regents Policy and Regulation (10.06; current PDF posted with motion). A single Faculty Program Review Committee shall be comprised of one faculty representative from each college and school (not including CRCD) plus one representative from CRCD and one representative from CTC. The Faculty Program Review Committee shall be nominated by the Provost in consultation with the deans and directors, and, once formed, the list of committee members shall be submitted to the Faculty Senate for comment , and finalized by the Chancellor . The Faculty Program Review Committee shall review the materials and make one of the following recommendations:~~ ~~• Continue program~~ ~~• Continue program but improve outcomes assessment process and reporting~~ ~~• Continue program but improve other specific areas~~ ~~• Modify program through~~

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

DocuSign Envelope ID: 2071B6B0-48EE-4F9E-A0FF-67DC4B741012

ORIGINAL

MOTION:

The UAF Faculty Senate moves to amend the approved updated procedure to accomplish the program review process as required by Board of Regents and UA Regulations (10.06) which it passed at Meeting #219 on December 5, 2016. The amendment adds a conflict of interest policy to Section One of the program review procedure.

EFFECTIVE: Immediately

Rationale: Faculty members selected to serve on the UAF Program Review and Special Program Review Committees are often faculty within the programs under review. This motion recognizes this conflict of interest by establishing the policy of abstaining from voting on programs in which one is a faculty member.

This has been historical practice, but passage of this motion makes it a formal policy.

AMENDMENT:

Faculty members serving on the UAF Program Review Committee must abstain from voting on programs in which they are affiliated.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017:

MOTION:

The UAF Faculty Senate moves to amend the approved updated procedure to accomplish the program review process as required by Board of Regents Policy and UA Regulations (10.06) which it passed at Meeting #219 on December 5, 2016. The more recent amendment of March 15, 2017 is indicated in bold, italicized text (below).

Effective: Spring 2017

Rationale: The existing process was modified at Meeting #181 (March 5, 2012) to accommodate a five year review cycle. The revisions approved at Meeting #219 are intended to ensure faculty input, and clarify the role of the Faculty Senate in program eliminations. The Program Review Template as well as the BOR Policy for 10.06 have also changed since the last Faculty Senate motion in 2012, and current versions are included. The most recent amendment proposed here in red text concerns the process at step 2.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

Additions: ***bold italics***
Deletions: ~~strikethrough~~

The program review process shall be completed as follows:
1. An initial review based on centrally generated productivity and efficiency summary and a unit-provided brief narrative describing mission centrality, the prospective market for graduates, the existence of similar programs elsewhere in UA, and any special circumstances that explain features of the centrally generated productivity and efficiency summary (see attached program review template for more details). The information reviewed meets the Board of Regents Policy and Regulation (10.06; current PDF posted with motion). A single Faculty Program Review Committee shall be comprised of one faculty representative from each college and school (not including CRCD) plus one representative from CRCD and one representative from CTC. The Faculty Program Review Committee shall be nominated by the Provost in consultation with the deans and directors, and, once formed, the list of committee members shall be submitted to the Faculty Senate for comment, and finalized by the Chancellor. The Faculty Program Review Committee shall review the materials and make one of the following recommendations:

- Continue program
- Continue program but improve outcomes assessment process and reporting
- Continue program but improve other specific areas
- Modify program through consolidation with another program or other significant re-organization
- Suspend admissions to program or
- Discontinue program

The Faculty Program Review Committee shall allow up to two representatives from the program under review to attend the meeting and to answer questions. The Faculty Program Review Committee shall provide a brief narrative justifying their recommendation and describe any areas needing improvement prior to the next review. A summary of the recommendation shall be shared with the program under review and the Faculty Senate President, who may request a copy of the full narrative. The Faculty Senate President, in consultation with members of the Faculty Senate Administrative Committee, then has the option to send a response to the Provost within two weeks. The program under review also has the option to send a response to the Provost within two weeks.

2. An Administrative Program Review Committee comprised of the Deans of Colleges and Schools and four administrative representatives from CRCD shall review the recommendations of the Faculty Program Review Committee, may request additional information from the program, and shall state their collective agreement or disagreement with the Committee's recommendation. ***A summary of the recommendation shall be shared with the program under review and the Faculty Senate President, who may request a copy of the full narrative. The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

REGENTS' POLICY
PART X – ACADEMIC POLICY
Chapter 10.06 - Academic Program Review

P10.06.010. Academic Program Review.

A. In accordance with P10.04.020, it is the responsibility of the board to review and cause the initiation, augmentation, reduction or discontinuance of programs according to the mission of the university and its constituent institutions. This includes a degree or certificate program approved by the board.

B. Each MAU will conduct assessments of all instructional, research, and service programs with respect to quality, efficiency, and contribution to mission and goals. Assessments of instructional programs will include analysis of educational effectiveness as an essential part of the ongoing continuous improvement and accreditation processes. Assessments will be conducted at a minimum of every seven years. Occupational endorsements and workforce credentials approved by the president will be subject to review at the MAU level.

C. Exceptional reviews may be conducted as needed, to respond to issues including but not limited to specific academic or budgetary concerns. An expedited review process tailored to the particular circumstances shall be used for exceptional reviews.

(04-04-14)

P10.06.020. Educational Effectiveness.

A. To improve the effectiveness of its educational programs and the fulfillment of its mission and objectives, each MAU will regularly undertake studies of the impact of its academic programs on its students and graduates.

B. MAUs will describe achievements expected of their students and adopt reliable procedures for assessing those achievements. Assessment practices will be coordinated among MAUs. An annual report on the implementation and results of assessment practices will be provided to the board. Assessment outcomes will be used in program and institutional planning.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

UNIVERSITY REGULATION
PART X – ACADEMIC POLICY
Chapter 10.06 - Academic Program Review

R10.06.010. Academic Program Review.

A. Purpose

This regulation suggests the elements each campus of the statewide system should employ in its review of academic programs.

B. Elements for Evaluation

The programs of each of the university's major units follow from its respective mission (Policy 01.01); changes in programs should be consistent with and guided by these mission statements.

The necessary elements that a unit should assess during the program review process include the following:

1. Centrality of the program to the mission, needs and purposes of the university and the unit;

2. Quality of the program, as determined by the establishment and regular assessment of program outcomes. Outcomes should be comprehensive, and indications of achievement should involve multiple measures and satisfy the properties of good evidence.

3. Demand for program services, as indicated by measures such as: credit hour production appropriate to the program's mission, services performed by the program in support of other programs, graduates produced, the prospective market for graduates, expressed need by clientele in the service area, documented needs of the state and/or nation for specific knowledge, data, or analysis, other documented need;

4. Program productivity and efficiency as indicated by courses, student credit hours, sponsored proposals and service achievements produced in comparison to the number of faculty and staff and the costs of program support;

5. Timeliness of an action to augment, reduce or discontinue the program;

6. Cost of the program relative to the cost of comparable programs or to revenue produced;

7. Unnecessary program duplication resulting from the existence of a similar program or programs elsewhere in the University of Alaska statewide system.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

Motion to Address to Standardize the Acceptance of National Exams at UAF.

Effective: Immediately Upon Approval

Motion:
Standardize the acceptance of national exams at UAF. Departments may review exams for direct equivalencies. If no equivalencies are determined students will receive elective credit for successful completion as determined under each exam section. Courses may be added degree attributes based on exam documentation per the professional judgment of the Office of the Registrar.

Rationale:
The current policy was established many years ago and the policy was last reviewed in 2006.

Currently UAF allows departments to decide which exams UAF will accept in their disciplines. All tests are recommended for college credit through third party organizations. High school students in particular assume these exams will count toward college credit as this is how the tests are marketed, which makes this a recruitment and retention issue. A review of our peers and aspirational peer institutions shows UAF is more restrictive with our national exam credit acceptance policy.

We propose that UAF accept all exams offered by AP, CLEP and IB. Departments can review exams to determine if credits may be awarded for specific course credit. If no UAF equivalent is available, credit is to be awarded either as departmental elective credit (e.g., BA F1) or general elective credit. Where an exam meets criteria for a general education credit, degree humanities credit or degree social science credit, the applicable credit is to be awarded. Courses may be added degree attributes based on exam documentation per the professional judgment of the Office of the Registrar.

This change would align with the current UAF DSST exam acceptance policy.

Reasonable turnaround time for departmental review is one month within the academic year. If a decision has not been made, the Office of the Registrar will refer the decision to the appropriate Dean’s office.

Students whose evaluations have already been completed may request a reevaluation under the new policy.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

Revised Policy:

CREDIT FOR NATIONAL EXAMS

There are several ways to earn college credit by receiving a passing score on a national exam. UAF currently accepts the following exams:

- College-level Examination Program (CLEP)
- College Board Advanced Placement Exams (AP)
- International Baccalaureate (IB)
- Credit for Language Testing
- DANTES-DSST (Standardized Subject Tests)

For any of the following exam options, grades are not computed in the UAF GPA. Credit received for exams is not considered UAF residence credit and is not considered to be part of the semester course load for classification as a full-time student. Credit is awarded to current or previously enrolled degree students at UAF. Rules that apply to transfer courses (including the tables of substitutions) also apply to course credit received through a national exam. The credit for national exam options are briefly outlined here.

DEPARTMENTS MAY REVIEW EXAMS FOR DIRECT EQUIVALENCIES. IF NO EQUIVALENCIES ARE DETERMINED STUDENTS WILL RECEIVE ELECTIVE CREDIT FOR SUCCESSFUL COMPLETION AS DETERMINED UNDER EACH EXAM SECTION.COURSES MAY BE ADDED DEGREE ATTRIBUTES BASED ON EXAM DOCUMENTATION PER THE PROFESSIONAL JUDGMENT OF THE OFFICE OF THE REGISTRAR.

UAF currently accepts the following exams: College-level Examination Program (CLEP), College Board Advanced Placement Exams (AP), International Baccalaureate, Credit for Language Testing, DANTES-DSST (Standardized Subject Tests).

College-Level Examination Program (CLEP)

- CLEP is a national testing program that awards college credit for some introductory courses. The exams cost $120 each (cost subject to change) and are administered by appointment only.
  See a list of College-Level Examination Program (CLEP) general and subject exams approved for credit at UAF below. To register for a CLEP exam or for more information, contact UAF eCampus Exam Services at 907-474-5277 or uaf-testing@alaska.edu. The following criteria apply to CLEP exams:
- Students can earn up to 6 semester credits upon successful completion of a General CLEP exam in the discipline of college mathematics, humanities, natural sciences or social sciences/history. Students who have earned less than 6 credits in the discipline (or 3 credits for mathematics), from any source, will be awarded the difference in credits upon successful completion of the exam. Students who already have 6 or more credits in the discipline (or 3 credits for mathematics) will not receive credit for the exam. General

DocuSign Envelope ID: A16330BB-B95B-4BDD-B557-3B5FB1CF0923

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

CLEP exams are listed in bold font in the College-Level Examination Program (CLEP) Exams Currently Accepted table.

- [[Each academic department at UAF determines if a CLEP exam will be accepted for credit.]]
- Students may not duplicate a course for which credit has already been earned or in which the student is currently enrolled.
- Students must wait at least one year after the end of an audited course before taking the CLEP Subject exam for that course.
- The minimum passing score for approved CLEP exams is 50, with the exception of the following foreign languages scores: **French** semester I and II minimum 50, semesters III and IV minimum 59; **German** semester I minimum 39, semester II minimum 50, semester III minimum 55, semester IV minimum 60; **Spanish** semester I minimum 39, semester II minimum 50, semester III minimum 57, semester IV minimum 63.

DANTES DSST

DSST is a national testing program that offers exams in traditional academic, vocational/technical and business subject areas. Credit is awarded for successfully completing DSST tests as recommended by the American Council on Education. [[Acceptance of the DSST exam for a specific catalog course or as a major/minor requirement is subject to department approval.]] DSST exams cost $120 each (cost subject to change). Contact UAF eCampus Exam Services at 907-474-5277 or uaf-testing@alaska.edu about the availability of DSST testing.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

Motion to standardize numbering of special topics courses in summer.

Effective: summer semester 2023

Motion:
Amend UAF's reserved course numbering schema to eliminate the number (-95) for summer special topics. There is no benefit to having a different number in the summer versus fall/spring. All special topics will use a -93 course number regardless of the term offered.

From "How to Read the Course Descriptions" in the UAF Catalog:

SPECIAL OR RESERVED NUMBERS

Courses with the suffix X (WRTG F111X, MATH F113X), meet specific general education requirements.

Courses identified with numbers ending in -92 are seminars, covering various topics which may include group discussions and guest speakers; ending in -93 are special topics courses, normally offered one time only; -94, trial courses, offered in anticipation of becoming a permanent course; **[-95, special topics summer session courses, offered only during the summer;]** -97, individual study in subject areas not normally available; -98, non-thesis research/project, preparing for professional practice; and -99, thesis/dissertation, preparing for scholarly or research activity.

Courses identified with these special or reserved numbers may be available at all levels (e.g., 193, 293, 393, etc.) at the discretion of any department, although offerings above the level of approved programs must be approved in advance by the Provost (e.g., 600-level offerings in areas without approved graduate programs or 300- and 400-level courses in areas without approved baccalaureate programs). These courses may be repeated for credit.

Rationale:
There is no discernible benefit of having a different number for summer special topics sections as compared to fall and spring. As it causes some technical challenges, we recommend that UAF use the same number designation (-93) for special topics whether they are offered in the fall, spring or summer.

The UAF Faculty Senate passed the following motion at meeting #262 on March 14, 2022

Motion to Create a Graduate Certificate in Justice Administration

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate in Justice Administration, housed in the College of Liberal Arts.

Rationale: The program is designed to advance the careers of existing justice agency managers and to prepare the next generation of managers. This curriculum is focused to accomplish this mission and the electives allow each student the flexibility to design a certificate that works for their career path. The justice field provides a stable supply of criminal justice related jobs. Once in the field, students need advanced education to assist in preparation for promotion and in the performance of management tasks; however, not every student is interested or able to dedicate the time for a full M.A. degree. Student feedback also indicates a need for a step between the B.A. and the M.A. degree, which this certificate provides.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

The following motion passed at Faculty Senate meeting #261 on February 7, 2022:

MOTION
The UAF Faculty Senate GER and Core Committee moves to amend the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 3, Article V: Committees, Subsection H.5 under Permanent Committees, to amend its membership and clarify its procedures concerning assessment.

EFFECTIVE: Immediately following approval

RATIONALE: The main charge of the committee is to oversee assessment of the general education learning outcomes and to work with the vice-provost's office to complete and submit reports on Assessment. In past years, this assessment has not been done or documented, partly due to the turnover in the committee, but also because we are no longer assessing courses but assessing learning outcomes. In addition the faculty fellow in assessment and accreditation should be added to the committee to help ensure that GER assessment is aligned with accreditation standards and that it is completed on schedule.

****

BOLD CAPS = Addition
Bold ~~Strikethrough~~ = Deletion

Faculty Senate Bylaws, Section 3, article 5: Committees, Subsection H:
. . .

PERMANENT

. . .

5. The GER and Core Committee regularly reports on assessment of the GER. This committee also monitors transfer guidelines, acts on petitions, and evaluates materials related to the core and GER experience. Two GER & Core Committee members will serve on the Curriculum Review Committee to provide expertise in GER Curriculum.

The committee shall be composed of one faculty member from each of the GER component areas as well as one faculty member from a non-GER component area, and one faculty member from CRCD, as voting members. The member from a non-GER component area shall be elected at large from among UAF faculty, while seats from GER component areas and CRCD shall be elected by their respective faculties. Membership on the committee also may include an undergraduate student as a non-voting member, and representatives from the colleges specifically tasked with core and GER assessment.

THE FACULTY FELLOW IN ASSESSMENT AND ACCREDITATION MUST REMAIN A MEMBER OF THE FACULTY. THEY WILL SERVE AS A VOTING MEMBER OF THE COMMITTEE. IF AN ELECTED MEMBER OF THE COMMITTEE ALREADY SERVING ON THE COMMITTEE BECOMES A FELLOW, THEN THEY SHALL BE RESTRICTED TO ONE SINGLE VOTE ON ALL MATTERS. THE FACULTY FELLOW IN ASSESSMENT AND ACCREDITATION

DocuSign Envelope ID: 9592F546-147A-4B9C-AF89-AE5A28D67231

SHOULD ENSURE THAT THE ASSESSMENT OF GER COURSES IS COMPLETED AND SERVE AS THE FACULTY LIAISON FOR ASSESSMENT.

UNIVERSITY OF ALASKA FAIRBANKS

P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

RESOLUTION:

WHEREAS, Pursuant to Regents' Policy 03.10.010 "The president of the university will be appointed by a majority vote of the whole Board of Regents with such compensation, other benefits, term of appointment and subject to such special conditions as the board may establish";

WHEREAS, Pursuant to Regents' Policy 03.10.010 "The opportunity for faculty, staff and students to participate in the governance of the university is important to its effective operation. The board intends that faculty, staff and student participation in university governance be an integral part of the university community's culture";

WHEREAS, Pursuant to Regents' Policy 03.10.010 "Governance organizations shall carry out their functions subject to the authority of the board and the president and chancellors to provide an effective opportunity for university faculty, staff and students to play a meaningful role in matters affecting their welfare";

WHEREAS, the 1966 joint statement by the American Association of University Professors (AAUP), the American Council on Education (ACE) and the Association of Governing Boards of Universities & Colleges (AGB) maintained that "The variety and complexity of the tasks performed by institutions of higher education produce an inescapable interdependence among governing board, administration, faculty, students, and others. The relationship calls for adequate communication among these components, and full opportunity for appropriate joint planning and effort.";

WHEREAS, in an email on January 31, 2022, Board of Regents Chair Sheri Buretta sent a memo to Governance leaders stating that, "The Board of Regents appoints Pat Pitney as President of the University of Alaska and authorizes Chair Buretta to negotiate the terms and conditions of the contract and to execute an appointment letter as appropriate. This motion is effective February 25, 2022."

WHEREAS, the perspective of all UA personnel (faculty, staff, and students) is invaluable in making sound decisions about allocating resources, setting goals, choosing top officers, and other significant issues affecting the universities and university system;

WHEREAS, Governance groups were not included in the decision to appoint Pat Pitney as permanent President of the University of Alaska;

WHEREAS, the UAF Faculty Senate believes that there should be a review of Interim President Pitney's performance in the position of President of the University of Alaska prior to determining whether she should be made the permanent president;

THEREFORE BE IT RESOLVED, that the UAF Faculty Senate requests that the Board of Regents keep Interim President Pitney in the interim role for such time as is needed to gather input from the various governance groups and other partners across the UA system.

****

RATIONALE: The University of Alaska Board of Regents is proposing to appoint Pat Pitney as President of the University of Alaska system without any review of her performance as president to date and without input from other important constituent and shared governance groups.

****

Motion to include language on public defense of graduate thesis or project in catalog

MOTION:

The UAF Faculty Senate moves to include the following language in the 2022-2023 UAF academic catalog:

“Graduate project, thesis, and dissertation defense examinations are public events and open to the university and wider community. The student should submit their name and project, thesis, or dissertation title and the date, time, and location of their defense examination to the Graduate School at least two weeks prior to their defense examination date. The Graduate School, along with the home program, department, college, or school, will advertise the examination.

The defense examination includes a public presentation of the project, thesis, or dissertation moderated by the chair of the graduate advisory committee, followed by a private executive examination by the committee.”

Rationale: This policy would enforce the university commitment to public dissemination of research and scholarly activity. This is an existing practice but has not been implemented uniformly across the campus(es) amongst programs or degree types (Masters and PhD). Placing the language in the catalog will establish the policy and help to ensure that it is followed.

EFFECTIVE:

Fall Semester 2022.

The following motion passed at Faculty Senate meeting #259 on November 1, 2021:

Amended Motion to Extend Duolingo (Now, Motion to Accept TOEFL iBT Home Edition and the IELTS Indicator)

MOTION:

The UAF Faculty Senate moves to accept the TOEFL iBT Home Edition and the IELTS Indicator through Spring of 2023 and extend acceptance of Duolingo only when an at home version of the other tests are not available.

EFFECTIVE: Immediately upon Chancellor approval or acknowledgement

RATIONALE: In February 2021 Faculty Senate approved a motion to revise the TOEFL requirement for admission through Spring 2022 to accept the Duolingo English Test examination results. Since TOEFL and IELTS have now developed "at home" tests these tests should be accepted for the next year and acceptance of Duolingo should end per the original motion. In countries where the at-home versions of the TOEFL and IELTS assessments are not available, Duolingo may be accepted.
International students need to know as soon as possible what tests will be accepted.

The catalog language should be updated to reflect this revision.

English Proficiency Requirements

Students on an F-1 visa are required to submit scores from the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System) exam. Some permanent residents (green card holders) are not required to submit TOEFL or IELTS scores (see exceptions below). English proficiency may be demonstrated by:

1. A minimum TOEFL score of 79 (either TOEFL iBT or TOEFL iBT At Home).
2. A minimum IELTS score of 6.5 (either IELTS or IELTS Indicator).
3. A minimum Duolingo English Test score of 105.*
4. Completion of secondary education in Great Britain, New Zealand, Australia or Canada (excluding Quebec).

Requests for exception to this policy may be submitted via email to the Office of Admissions. Acceptable grounds for waiving this requirement may include:

1. Successful completion (C or higher) of a college-level, non-ESL English composition course.
2. A comparable score on another approved exam such as the ACT, SAT or ACCUPLACER exam.

DocuSign Envelope ID: 6E443337-A46A-42F0-BAC8-B30DDD26D4CB

are able to provide adequate documentation (transcripts, test scores, etc.) demonstrating academic readiness for WRTG 111x.

- Duolingo is only acceptable if an at home version of the TOEFL or IELTS exams are not available in the student's country of residence.

The following motion passed at Faculty Senate meeting #259 on November 1, 2021:

Motion to clarify language on course stacking guidelines

MOTION:

The UAF Faculty Senate moves to clarify the course stacking guidelines that appear in the Academic Course and Degree Program Manual Appendix A as described in the attached document.

RATIONALE: Review of stacked course proposals has shown that the existing guidelines are not sufficiently clear for reviewers. Clearer guidelines should also help faculty members in creating stacked courses. In this revision, we sought to improve language reflecting:

- That there must be partial differentiation between student learning outcomes at the two course levels. Advice on differentiation was enhanced.
- That student learning outcomes, course content, and completion of requirement differences must be reflected in assessments.
- That both levels of the stacked course must have expectations commensurate with those outlined in BOR policy on course level definitions.

EFFECTIVE:

Spring Semester 2022.

Original Course Stacking	New Course Stacking
Faculty Senate approved the course stacking regulations and guidelines for course stacking at Faculty Senate meeting #232 on May 7, 2018 as shown below:	Faculty Senate approved the course stacking regulations and guidelines for course stacking at Faculty Senate meeting_____on _____ as shown below:
Course Stacking Regulations:	**Course Stacking Regulations:**
With the exception of 400/600, stacked courses must be of adjacent levels (e.g. 200/300). Other stacked combinations (e.g. 100/600) are not allowed under any circumstances. Two existing courses may never be stacked with one another. Stacked courses are required to have the same title, course description, and number of credits. The additional effort required for higher level credit must be clearly spelled out in the course syllabus.	With the exception of 400/600, stacked courses must be of adjacent levels (e.g. 200/300). Other stacked combinations (e.g. 100/600) are not allowed under any circumstances. Two existing courses may never be stacked with one another. However, existing course content can be used to create a new stacked course. If the desire is to do so, one course must be discontinued and a new course created to stack with the remaining existing course. Stacked courses are required to have the same title, course description, and number of credits. The two course levels must be distinguished in terms of SLOs, content, requirements, and evaluation.
Guidelines for Stacking courses:	**Guidelines for Stacking courses:**
It is impossible to offer identical courses simultaneously at two different levels. We use stacking because it helps with course enrollment problems, but the challenge is to create something that's not simply one level. We recognize that the design of a 'stacked' course requires compromise to create content that challenges graduate students while remaining accessible to undergraduates. We offer the following guidelines to help prepare such a course and to provide the UAF Faculty Senate committees with sufficient information to enthusiastically endorse the new creation.	We use stacking for a variety of reasons: ● it allows us to offer more courses without doubling faculty workload, increasing efficiency; however, teaching a stacked course takes more effort than would be required to deliver either unstacked course, and ● advanced undergraduates and graduate students can benefit from similar curriculum content, and ● stacked courses can foster collaboration and mentoring between UG and graduate students. The challenge is to create two distinct courses that stem from the same central material. The higher level offering of the stacked course must have expectations commensurate with those outlined in BOR policy on course level definitions (https://www.alaska.edu/bor/policy/10.04-Academic%20Programs.pdf).
The additional effort required for higher level credit must be clearly spelled out in the course syllabus. This reduces the opportunity for later conflicts by providing students with a clear understanding of the differences in requirements and grading. This will be given serious consideration in the approval process for such courses.	
The creation of two different syllabi will help emphasize the different learning outcomes of	We offer the following guidelines (with further description to follow) to help prepare a stacked

DocuSign Envelope ID: 6E443337-A46A-42F0-BAC8-B30DDD26D4CB

what are supposed to be two different courses. We encourage at least weekly, if not daily, differences in reading assignments, homework assignments, meetings with students, and other class activities. Only adding an extra term paper to the graduate section of a stacked course is unlikely to transform an undergraduate class into a graduate class. Such an extra paper, however, can be part of a systematic difference between the two versions.

With the exception of 400/600, stacked courses must be of adjacent levels (e.g. 200/300). Other stacked combinations (e.g. 100/600) are not allowed under any circumstances. Stacked courses are required to have the same title, course description, and number of credits. The additional effort required for higher level credit must be clearly spelled out in the course syllabus.

The higher level version of the course must require additional student effort. In the case of 400/600 level stacked courses additional student effort for the 600 level version, such as a seminar or a term paper, should reflect the greater acuity that we expect from graduate students. Prerequisites of graduate standing or permission of the instructor is required for graduate enrollment.

400/600 level stacked course applications are reviewed by the (Undergraduate) Curriculum Review Committee (CRC) and by the Graduate Academic and Advising Committee (GAAC). The committees will determine: 1) whether the two versions have sufficiently different learning outcomes (i.e. is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate students being undertaxed? In this context, the CRC and GAAC are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do.

In developing a proposal for a new stacked course or for revising an existing course, keep in mind the education level and training needs

course and to provide the curriculum review committees with sufficient information to approve proposals.

1. Student learning outcomes must be differentiated between the two levels.
2. Differences in course content and requirements for the two levels should be aligned with SLOs and clearly evident in assignment descriptions.
3. Differences in course content and completion of course requirements must be reflected in assessment.
4. The two levels must have separate syllabi that are differentiated in SLOs, course content and assessment.
5. The differences between levels should also be clearly detailed in CourseLeaf to assist in proposal review.

Considerations for Undergraduate Level Stacking

Lower level courses usually serve as basic curriculum or academic prerequisites for upper level courses. The higher level course should require additional effort and possibly additional prerequisites as outlined in BOR policy (link above). The higher level credit course may require students to participate in additional learning experiences such as fieldwork and/or a research project.

Considerations for 400/600 Level Stacking

400/600 level stacked course applications are reviewed by the (Undergraduate) Curriculum Review Committee (CRC) and by the Graduate Academic and Advising Committee (GAAC). The committees will determine whether the two levels of the course have level-appropriate and sufficiently different learning outcomes, content, and assessment metrics. In this context, the CRC and GAAC are looking out for the interests of the students taking the course.

Course content must be differentiated, meaning that they differ significantly between levels, reflecting the higher-level thought and increased skills we expect from graduate students. However, some shared content and learning outcomes are

DocuSign Envelope ID: 6E443337-A46A-42F0-BAC8-B30DDD26D4CB

of undergraduates and graduates and provide documentation to show what each section of the course will offer learning experiences appropriate for the students. Students will be grateful for giving them -- within the limitations of the 'stacked' framework -- the best possible educational experience. When courses are unstacked, this is also considered a minor change; however, the course listed as the secondary course will be deleted. If the secondary course should remain active, the new course proposal for that course will need to be submitted in CourseLeaf, with a different name, different course number, and different course description. This new course proposal will have to go through the entire curriculum approval process.	acceptable. These differences in course content must occur throughout the course, generally on at least a weekly basis. Mastery at a higher level could be demonstrated through problem sets and exams with different or additional advanced questions for graduate students, separate discussion sections for UG and graduate students, discussions where graduate students take leadership / mentoring roles, etc. Simply adding an extra project or paper to the graduate level of a stacked course is unlikely to transform an UG course into a graduate course. BOR requirements indicate the 600 level course must "demand rigorous analysis, synthesis, and research skills", which could be demonstrated by synthesis of prior work, creating hierarchies, or applying covered material to new situations. The differences in course content and completion of course requirements must be reflected in assessments and course grading. A significant portion of the course grade should be based on work that differs between the two levels. In order to communicate the course content and expectations of each level, different syllabi are required. If activities (e.g. exams) have added content at the 600 level, this addition should be described in the higher-level syllabus. Finally, providing in CourseLeaf a clear statement of the differences you have incorporated in SLOs, course content and course requirements will help expedite review of your proposal. **Unstacking courses** When courses are unstacked this is considered a major course change and will be reviewed by either CRC or GAAC. Only one of the unstacked courses can retain its number; the other course will be deleted. If both of the previously stacked courses remain active, one of them will require a new course proposal with a different name, course number, and course description. This new course proposal will go through the entire curriculum approval process.

Excerpt from BOR policy section 10.04….

DocuSign Envelope ID: 6E443337-A46A-42F0-BAC8-B30DDD26D4CB

Academic credit courses are numbered as follows:

a. Lower division courses usually taken by freshmen and sophomores
100-199: Courses with these numbers introduce a field of knowledge and/or develop basic skills and concepts, usually as foundation or survey courses. They are applicable to occupational endorsements, certificates, and associate and baccalaureate degrees, in accordance with certificate/degree requirements.
200-299: Courses with these numbers provide more depth than 100-level courses and/or build upon 100-level courses. These courses may connect foundation or survey courses with advanced work in a given field, require previous college experience, or develop advanced skills. They are applicable to certificates, and associate and baccalaureate degrees, in accordance with certificate/degree requirements.

b. Upper division courses usually taken by juniors and seniors
300-399: Courses with these numbers build upon previous course work and require familiarity with the concepts, methods, and vocabulary of a discipline. They are applicable to baccalaureate degrees and may be applicable to associate degrees, in accordance with degree requirements. These courses are not applicable to graduate degree requirements.
400-499: Courses with these numbers require the ability to analyze, synthesize, compare and contrast, research, create, innovate, develop, elaborate, transform, and/or apply course material to solving complex problems, and generally require a substantial background of study in lower-level courses. These courses are applicable to baccalaureate degrees, in accordance with degree requirements. These courses may be applied to graduate requirements for some master's degrees with prior approval of the student's graduate study committee. However, except as approved for an accelerated master's degree, a student may not apply a course to both a baccalaureate and a master's degree. Accelerated master's degrees may use up to twelve credits of 400-level and/or 600-level coursework to double count toward the baccalaureate and master's degrees.

c. Graduate level courses
600-699: Courses with these numbers demand rigorous analysis, synthesis, and research skills. These courses are applicable to masters and doctoral degrees and to graduate and professional certificates, in accordance with degree requirements. With prior approval of the major department they may be used to meet degree or graduation requirements for some baccalaureate degrees, but, except as approved for an accelerated master's degree, a student may not apply a course to both a baccalaureate and a graduate degree. Accelerated master's degrees may use up to twelve credits of 400-level and/or 600-level coursework to double count toward the baccalaureate and master's degrees.

UAF FACULTY SENATE
P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

MEMORANDUM

TO: Daniel M. White, UAF Chancellor

THROUGH: UAF Faculty Senate, Sandra Wildfeuer, President DocuSigned by: AF33474F608B403...

FROM: UAF Faculty Senate Ad Hoc Covid-19 Committee, Jennie Carroll, Chair DocuSigned by: 77182FF52923422...

DATE: November 1, 2021

SUBJECT: Vaccine requirements for labs, music, theatre and other categories of courses that involve extended interaction

The UAF Faculty Senate COVID-19 Academic Policy Committee believes that a broader-based vaccination requirement for categories of classes is less confusing for students, easier and less time-consuming to administer, safer for students and faculty, and would allow higher enrollments in these courses and increase access for students who need them to move forward in their degree programs.

Categories of courses include science labs, which typically require pairs of students to work together in close proximity using shared equipment; performance classes such as choir, theater performance, or wind symphony, which by their nature require participants to exhale strongly in each other's presence, potentially making masking less effective, as well as other classes that emphasize small group work, which require students to work together in close proximity.

- The current process is confusing for students who are faced with a patchwork of requirements for themselves and uncertainty over their risks.
- It would obviously be extremely confusing to students if some sections of a given course (e.g., hypothetically, CHEM F105L section F01) required proof of vaccination but other sections of the same course (e.g., hypothetically, CHEM F105L section F02) did not. Requiring vaccinations for all sections of designated courses would help to clarify the requirements.

We recommend that certain specific courses, on approval by the department and then the central administration processes, be designated as requiring vaccinations or approved vaccine waivers. These courses could have section notes in UAOnline notifying students of the requirement at registration. Many of these courses (in particular, a number of the GER science labs) now have distance options for students who do not qualify for a waiver but who do not want to get vaccinated. The current processes for verifying vaccinations for specific student groups can be expanded to include students registered for these courses.

RE: Response to Memo of November 1, 2021 titled "Vaccination requirements for labs, music, theatre, and other categories of courses that involve extended interaction"

I am in receipt of your November 1 memo regarding vaccinations.

I have just approved a vaccination requirement for spring 2022 laboratory classes of high contact/high duration, subject to the individual approval of either Provost Prakash or Vice Chancellor Stern. In addition, approvals have been made for faculty, staff and students using the arts studios as well as cohort classes across UAF on an individual basis. I expect to receive other requests soon including theater/film courses.

As additional requests are made, they will be carefully assessed by the Operations Support Team and by me. I will send requests to President Pitney for approval of additional vaccination requirements on a case-by-case basis as warranted.

Thank you for expressing your concern.

MEMORANDUM

TO: Daniel M. White, UAF Chancellor

THROUGH: UAF Faculty Senate, Sandra Wildfeuer, President

FROM: Jennifer Carroll and Javier Fochesatto, Co-Chairs, Graduate Academic & Advisory Committee

DATE: October 14, 2021

Re: Recognizing the effort in creating and delivering stacked courses

The Faculty Senate encourages UAF Administration to direct Deans and Directors to take the additional effort involved in designing and teaching a stacked undergraduate and graduate course in negotiating faculty workloads.

A joint committee of members from the Curricular Review Committee (CRC) and Graduate Academic & Advisory Committee (GAAC) has been reviewing 400/600 level stacked courses. This committee has provided a motion to revise course stacking guidelines to guide faculty in designing courses and improving the review process. The joint committee, as well as CRC and GAAC, recognize the importance of stacked courses for providing opportunities to graduate and undergraduate students in a manner that is more efficient than teaching separate courses.

However, it must be recognized that delivering a stacked course takes significantly more effort than delivering a single course. Faculty must differentiate readings, assignments, and expectations between undergraduate and graduate students. Therefore, the Graduate Academic & Advisory Committee recommends that the UAF Administration and particularly Deans and Directors consider this added effort of creating and delivering stacked courses when negotiating faculty workloads. Deans and Directors should consider assigning additional workload credits to teaching stacked courses, given the significant amount of added work.

Attachment: Revised course stacking guidelines will be attached using the approved final language so that Deans and Directors can have the new information easily accessible.

The following motion passed at Faculty Senate meeting #258 on October 4, 2021:

Faculty Senate Writing Placement motion for FY 2021-22

MOTION:
The UAF Faculty Senate moves to incorporate EdREady into the temporary COVID writing placement method for UAF Writing Placement with the intention of replacing Accuplacer permanently. This remains in addition to placement through SAT/ACT and high school GPA.

Rationale: On March 20, 2020, Faculty Senate passed an emergency motion to allow for temporary academic adjustments as a result of the COVID-19 pandemic. In this motion, SAT/ACT scores were waived for Fall 2020 admission requirements. Additionally, an alternative writing placement method was established in lieu of Accuplacer. This alternative method has been in place since April 2020 and was administered by the Writing Placement Task Force.

During the suspension of Accuplacer, the task force realized the benefits of a more personalized writing placement tool while also learning of widespread concerns regarding Accuplacer and inequity. **But we found the method highly unsustainable and inefficient** for these reasons.

Proposal: We propose to implement **EdReady, a writing placement tool offered by the NROC Project**. It solves the problems of Accuplacer and our temporary alternative writing placement tool. EdReady facilitates assessment of multiple measures for writing placement. With EdReady, the UAF Writing Placement Task Force can customize assessment questions based upon our course outcomes and students can submit a writing sample. EdReady is compatible with Banner, thus eliminating the need for overrides.

EdReady has already shown successes at other educational institutions, including

1. Reduction in number of students placed in development programs,
2. Increase in Writing college-level course enrollments and completions in our students' first year.
3. Reduction in the number of academic fails and withdrawals, while maintaining course grades and learning outcomes equal to or better than historic outcomes.
4. Improved program retention and completion rates.

The Writing Placement Task Force will bring a permanent proposal for writing placement to the Faculty Senate in the Fall of 2023.

The following motion passed at Faculty Senate meeting #258 on October 4, 2021:

MOTION:

The UAF Faculty Senate moves to accept the Bylaws for the Teaching and Learning Permanent Committee, as outlined below.

The purpose of the Committee on Teaching and Learning is to maintain and promote a culture of quality education and quality pedagogy at the University of Alaska Fairbanks through building community while identifying, disseminating, and supporting contributions to best practices in teaching across all disciplines and teaching modalities.

TLC includes at least 10 voting members: one faculty representative from each of the colleges/schools (CLA, CTC, CNSM, CRCD, CFOS, CEM, CBSM, School of Education), and a goal of having a Graduate Student member and an Undergraduate Student. There will also be an Ex officio member from both OIT and eCampus.

EFFECTIVE: Immediately

RATIONALE:

The new permanent committee is focused on promoting a culture of quality education and quality pedagogy. It is critical that diverse pedagogical representation is included, therefore representation from each college is necessary along with student representation.

The following motion passed at Faculty Senate meeting #258 on October 4, 2021

MOTION:

The UAF Faculty Senate moves to create an ad hoc committee to follow up on the expedited administrative management review process with the membership to be appointed by Faculty Senate leadership if possible drawing on members who were a part of the original review process.

EFFECTIVE: Immediately upon Chancellor approval

RATIONALE: In 2019-2020 and 2020-2021 UAF conducted an expedited administrative review process. The purpose of expedited administrative management review is to provide an opportunity for input to UAF's administrative management structure. An ad hoc committee will review the recommendations from the reviews, the response from the chancellor, and the progress or updates on the recommendations.

The following motion passed at Faculty Senate meeting #258 on October 4, 2021:

MOTION:

The UAF Faculty Senate urges the inclusion of a land acknowledgment in the foundational documents of University of Alaska operations. We reject the idea that the land acknowledgment as written is political or inappropriate, and find that statement as anti-Indigenous rhetoric that is dangerous to the University of Alaska.

EFFECTIVE: Immediately

RATIONALE: The UAF Faculty Senate supports the inclusion of a land acknowledgment in the 2021 United Academics Collective Bargaining Agreement.

SUBJ: Call for a Vaccine Requirement

The Faculty Senate calls for a vaccination requirement for all UAF employees and students with exceptions for documented medical reasons and sincerely held religious beliefs, practices, or observances. The university must come out strongly on the side of science and public health and support our beleaguered colleagues in healthcare. Requiring vaccines is a key mitigation measure to allow the university to more effectively protect our students, staff, and community and move forward with the teaching and research that makes UAF the lead educational institution of Alaska.

- The vaccine attestation and encouragement, while sensitive to various experiences and viewpoints, does not convey the true nature of the threat nor the true value of the solution.
- The FDA has fully approved the Pfizer vaccine[1] for individuals 16 years and older (which includes the vast majority, if not all, of UAF students and employees), so there is at least one vaccine that is formally “not experimental”. Schools and universities require other immunizations.
- The Delta variant has increased transmission and changed the risk calculation for vaccinated and unvaccinated alike, so decisions that were made about requiring vaccination should be re-evaluated in light of the new circumstances.
    - Over the 7 days prior to August 20, 2021, the Fairbanks North Star Borough, where the Troth Yeddha’ Campus, Interior Alaska Campus, and Community and Technical College are located, saw 186 new COVID cases[2], for a 7 day

[1] https://www.fda.gov/news-events/press-announcements/fda-approves-first-covid-19-vaccine
[2] This and subsequent Alaska-specific data were taken from Table 2c. Geographic Distribution of Case Rates (20AUG2021) retrieved from the State of Alaska Department of Health and Social Services Coronavirus Response Hub: https://alaska-coronavirus-vaccine-outreach-alaska-dhss.hub.arcgis.com/documents/summary-tables/about

DocuSign Envelope ID: 927C8E61-16E7-41D2-BAE3-731255C03C00

total case rate of 191 cases per 100,000 people, almost double the number of cases needed to put the borough in the CDC's "High" zone and the university in Phase A.

- Our rural campuses are especially vulnerable due to more limited medical resources as well as very high transmission rates within small populations. For the week ending August 20:
  - The Dillingham Census Area, location of the Bristol Bay Campus in Dillingham, reported a 7 day total case rate of 754 cases/100K people.
  - The Northwest Arctic Borough, location of the Chukchi Campus in Kotzebue, had a very high 7 day total case rate of 936 cases/100K people.
  - The Bethel Census Area, location of the Kuskokwim Campus in Bethel, had a 7 day total case rate of 532 cases/100K people.
  - The Nome Census Area, location of the Northwest Campus in Nome, had an astonishing 7 day total case rate of 1771 cases/100K people, which is more than 10 times the number of cases needed to enter the CDC's "High" zone. For context, during the seven days preceding August 23, the total 7 day case rate/100K in Florida which is currently seeing a huge spike in COVID with corresponding increases in hospitalizations and deaths, had a 7-day-total-case-rate of 656.2 /100K, and Louisiana, with the highest 7 day case rate in the nation, had a rate of 755.9 total cases/100K[3]
- As of August 23, 2021, Alaska has the 9th highest 7-day-case rate/100K in the nation.[4]

- The majority of COVID cases and hospitalizations are occurring among a younger and unvaccinated population. Requiring vaccination will protect the health of our students, staff, and community. It will also help ensure continuity of operations including specialized programs due to a reduced risk of sickness and/or hospitalization.
- The majority of hospital beds in Alaska, including ICU beds, are filled with patients being treated for Covid. What is occurring in other states provides a signal of how serious this is and could be for Alaska. Due to the overwhelming increase in hospitalizations linked to the spread of COVID in Texas, hospitals in Dallas are considering rationing ICU beds and selectively providing them to vaccinated patients rather than unvaccinated patients because vaccinated patients are more likely to survive.
- The university has recently added a vaccination requirement for residential students. This is a step in the right direction. However, piecemeal vaccination requirements

leave the university, faculty, staff, and students trying to navigate multiple rules and guidelines and may lead to a lack of clarity as to which rules apply to them. A vaccination requirement for all faculty, students, and staff participating in on-campus work, classes, and activities provides the same rules and protections for everyone.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

MOTION:

The UAF Faculty Senate moves to authorize the 2020-21 Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2021. Senators will be kept informed of the Administrative Committee meetings and will be encouraged to attend and participate in these meetings.

Effective: May 3, 2021

Rationale: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

Outstanding Senate Service of the Year Award
Academic Year 2021

WHEREAS, Javier Fochesatto has served several terms on the Faculty Senate as a senator from 2012-2014, as an alternate from 2016-2018, and as a senator from 2018-2020 and 2020-2022.

WHEREAS, Javier Fochesatto has served on the Administrative Committee (2019-2021), Unit Criteria Committee (2012-2014 and 2019-2020), Research Advisory Committee (2016-2017), Faculty Affairs Committee (2018-2019), Curricular Affairs Committee (2020-2021), Graduate Academic & Advisory Committee (2019-2021), Joint Appointments Ad Hoc Committee (2013-2014), Blue Book Revision Editor's Ad Hoc Committee (2019-2020), AAR Process Advisory Ad Hoc Committee (2019-2020), and COVID-19 Ad Hoc Committee (2020-2021).

WHEREAS, Javier Fochesatto has served as co-chair of the Graduate Academic & Advisory Committee from 2019-2021;

WHEREAS, Javier Fochesatto served as the faculty representative on the UAF COVID Operations Support Team (OST) and was the OST liaison to the COVID-19 Faculty Senate Ad Hoc Committee;

WHEREAS, Javier Fochesatto is always well prepared for Faculty Senate meetings and is diligent in communicating with and representing his constituents;

WHEREAS, Javier Fochesatto is supportive of diverse faculty and diverse perspectives and works to include and elevate faculty and students from all backgrounds;

WHEREAS, Javier Fochesatto never hesitates to speak up on issues of concern, but is always extremely kind and thoughtful;

WHEREAS, Javier Fochesatto has an inclusive and forward-looking vision for the university and works collaboratively with faculty, students, staff, and administration to help develop and implement that vision;

WHEREAS, Javier Fochesatto embodies the vision, dedication, commitment, and tireless work ethic that inspires all who work with him and which also stands to elevate the university's national and international status;

THEREFORE BE IT RESOLVED that the UAF Faculty Senate acknowledges these valuable contributions of Javier Fochesatto, and bestows upon him the 2020-2021 Outstanding Senate Service of the Year Award.

_____

Julie A.K. Maier, UAF Faculty Senate President

RAC survey of Research Support across UAF Institutes and Units

Purpose: To maintain and grow UAF's reputation as a research and creative activity powerhouse, we need to ensure that UAF remains an attractive and supportive home for researchers, even amid declining state revenue. Particularly for a public university in times of shrinking resources, it is important to provide budget transparency and to strive for high morale within the ranks of faculty, staff, and students. We seek to collect and distribute relevant information that will ultimately characterize, track and improve UAF research success across all major Units and Institutes. The information gathered in this survey can help to identify support structures that promote research success, dispel misinformation and uncertainty, and provide metrics to inform our strategy for achieving Tier 1 research status. While this survey directs particular focus to demonstrating the relation between researchers and their home institutes, it also seeks a better understanding of research-related practices of Units whose core mission is not research. Our overarching goal is to better understand how research is supported across UAF.

Hence, this survey is written to collect data in support the following four objectives:

O#1. Identify successful models implemented across UAF for incentivizing and supporting research and other creative activities.
O#2. Demonstrate Faculty and Research Staff contributions to UAF's mission, with particular focus on research activity.
O#3. Compile Unit-specific system state and policy information so that the survey results can be interpreted within sufficient context.
O#4. Track relevant metrics critical for attaining Tier 1 Research Status

In turn, the data and analyses of these data will contribute to a report directed toward the following outcomes:

- Improve transparency and confidence in the financial and operational decisions that affect UAF research.
- Facilitate better-informed input into the ongoing rebudgeting process.
- Provide faculty and staff with knowledge useful for career and research program design decisions.
- Foster a collegial environment in which researchers are valued, thrive, and succeed.
- Help ensure that researchers continue to view UAF as a top destination for conducting high latitude research.
- Strengthen UAF's bid to attain Tier 1 Research Status.

Approach: This survey was developed by the UAF Faculty Senate's Research Advisory Committee (RAC). Survey questions are primarily directed to the leadership of UAF's administrative units, who best know their own unit's operational intricacies and policies. Some questions seek information that would be most efficiently compiled by PAIR, OGCA, OMB, the Provost's Office, or the Graduate School - those questions (highlighted in blue below) will be directed to the relevant office as appropriate. **Except where noted, we seek data that summarizes the FY20 Fiscal Year (July 2019 to June 2020).**

UAF RAC and Faculty Senate request that the Chancellor, Vice Chancellor for Research, Provost, Deans, and Directors assist us in compiling this data. We note that this effort addresses (in part) information needs identified in the 2020 report *Outcomes for UAF's Achieve Tier 1 Research Status Strategic Planning Initiative,* primarily related to increasing doctoral degrees awarded across disciplines and research staff numbers.

List of UAF units identified for survey input:

- Alaska Center for Energy and Power
- Alaska Sea Grant
- College of Engineering and Mines
- College of Fisheries and Ocean Sciences
- College of Liberal Arts
- College of Natural Science and Mathematics
- College of Rural and Community Development
- Geophysical Institute
- Institute of Agriculture, Natural Resources and Extension
- Institute of Arctic Biology
- Institute of Northern Engineering
- International Arctic Research Center
- School of Management
- University of Alaska Museum of the North

Reporting Results: Compilation of survey results will result in a report to the Faculty Senate and VCR that summarize the collected data. The report will be assembled by the Faculty Senate RAC and include the following sections:

- Executive Summary
- Context: Institutional Missions, Structures and Policies
- Research Support Mechanisms
- Research Faculty and Staff Contributions
- Tier 1 Considerations
- Recommendations

Please direct inquiries about this survey to Seth Danielson (sldanielson@alaska.edu)

Not all questions will apply to all Units. Please enter N/A (Not Applicable) where appropriate.

I. Institutional Structural Queries:

- [O#3] What Institute or Unit are you responding for? _____

- [O#3] If your Institute or Unit has a Mission Statement or equivalent, please provide it here:

- [O#3] What was the FY20 total revenue (in dollars) for this Institute/Unit? _____

- [O#3] What was the FY20 revenue (as a percentage of the total) for this Institute/Unit derived from:

  State of Alaska Appropriations _____%
  Extramural Funding (Federal)s _____%
  Indirect Cost Recovery (ICR) _____%
  Student Tuition/Fees _____%
  Charitable Donations _____%
  Other Sources _____%
  TOTAL: 100%

  5.

- [O#3] Does your Institute/Unit grant degrees (Y/N)? _____

- [O#2,3] In AY19-20, how many undergraduate students had a close primary mentorship provided by a Faculty member with an appointment in your Institute/Unit (excluding academic advising for class selection)? _____

- [O#2,3] In AY19-20, how many Master's level student committees were chaired (or co-chaired) by Faculty with appointments in your Institute/Unit? _____

- [O#2,3,4] In AY19-20, how many Doctoral student committees were chaired (or co-chaired) by Faculty with appointments in your Institute/Unit? _____

- [O#2,3] For Research Faculty:
    - How many Research Faculty were employed in FY20? _____
    - How many have been employed in this capacity for:
    < 5 years?_____ ; 5-10 years? _____ ; > 10 years?____
    - How many are full time? ____; Half-time or less?____

- [O#3] For Joint-Appointment Teaching/Research and/or Tenure Track Faculty:
    - How many Joint-Appointment Teaching/Research and/or Tenure Track Faculty were employed in FY20? _____
    - How many have been employed in this capacity for: < 5 years?_____ ; 5-10 years? _____ ; > 10 years?____
    - How many are full time? ____; Half-time or less?____

- [O#3] For Adjunct Instructors:
    - How many Adjunct Instructors were employed in FY20? _____
    - How many have been employed in this capacity for: < 5 years?_____ ; 5-10 years? _____ ; > 10 years?____
    - How many are full time? ____; Half-time or less?____

- [O#2,3,4] For Research Staff and Research Associates (including postdoctoral researchers and non-faculty researchers with PhDs,):
    - How many appointments were employed in FY20? _____
    - How many have been employed in this capacity for: < 5 years?_____ ; 5-10 years? _____ ; > 10 years?____
    - How many are full time? ____; Half-time or less?____

- [O#1,3] Is there a defined path in your Institute/Unit for transitioning from Research Faculty status to Tenure-Track Faculty status (Y/N)? _____
    - How many Research Faculty have made this transition since 2015? _____

- [O#1,3] Is there a defined path in your Institute/Unit for transitioning from Research Associate status to Research Faculty status (Y/N)? _____
    - How many Research Associates have made this transition since 2015? _____

- [O#1,3] Is there a defined path in your Institute/Unit for transitioning from Research Staff status to Research Faculty status (Y/N)? _____

- How many Research Faculty have made this transition since 2015? _____

II. Questions to evaluate policies associated with <u>Research Faculty</u> and their contributions.

- [O#1] If your Institute/Unit offers salary support for **Research Faculty**, what percentage typically take 100% of what is offered? ____. What percentage take 50%-99%? _____. What percentage take 11%-49%? _____. What percentage take <10%? ____.

- [O#1,2,4] What is the total amount of external funding (in dollars) brought to UAF by **Research Faculty** in your Institute/Unit in FY20? _____

- [O#1,2] In your Institute/Unit, what is the average **Research Faculty** workload allocation for Teaching/Research/Service? ____ /____ /____

- [O#1,2] Do **Research Faculty** receive the same Workload credit as Tenure-Track Faculty on a per credit taught basis (Y/N)? _____

- [O#1,2] Do **Research Faculty** serve as chairs of academic committees for graduate students in your Institute/Unit and/or affiliated department? (Y/N)? _____

- [O#1,2,4] How many of the following do **Research Faculty** members within your Institute/Unit provide primary mentorship for (committee chair, staff supervisor, etc)?
  - Undergraduate students ____
  - Master's level graduate students ____
  - Doctoral students ____
  - Postdocs ____
  - Research Staff _____

- [O#1,2,4] How many of the following do **Research Faculty** members within your institute/unit financially support in the form of salary or research stipends at present?:
  - Undergraduate students _____
  - Master's level graduate students _____
  - Doctoral graduate students _____
  - Postdocs _____
  - Research Staff _____

- [O#1,2,4] How many of the following do **Research Faculty** members within your institute/unit financially support by covering tuition payments at present?:
  - Undergraduate students _____
  - Master's level graduate students _____

- Doctoral graduate students _____

III. Questions to evaluate policies associated with <u>Tenure-Track/Joint-Appointment Faculty</u> and their contributions.

- [O#1,3] For **Tenure-Track/Joint-Appointment Faculty** how many faculty bring in more than their expected research funding so that they "buy out" their teaching obligations? _____ For those exercising this option, what is the average number of workload credits purchased with this "buy-out"? _____

- [O#1,3,4] What is the total annual amount of external funding (in dollars) brought to UAF by **Tenure-Track/Joint-Appointment Faculty** in your Institute/Unit in FY20? _____

- [O#1,3] In your Institute/Unit, what is the average workload allocation of **Tenure-Track/Joint-Appointment Faculty** for Teaching/Research/Service? ___/___/____

- [O#1,3] What is the average number of class sections taught by **Tenure-Track/ Joint-Appointment Faculty** in your Institute/Unit per semester? _____

- [O#1,3,4] How many of the following do **Tenure-Track/ Joint-Appointment Faculty** within your Institute/Unit provide primary mentorship for (committee chair, staff supervisor, etc)?
  - Undergraduate students _____
  - Master's level graduate students _____
  - Doctoral students _____
  - Postdocs _____
  - Research Staff _____

- [O#1,3,4] How many of the following do **Tenure-Track/Joint-Appointment Faculty** members financially support in the form of salaries or research stipends at present?
  - Undergraduate students _____
  - Master's level graduate students _____
  - Doctoral students _____
  - Postdocs _____
  - Research Staff _____

- [O#1,2,4] How many of the following do **Tenure-Track/Joint-Appointment Faculty** members within your institute/unit financially support by covering tuition payments at present?

    - Undergraduate students _____
    - Master's level graduate students _____
    - Doctoral graduate students _____

- [O#1,3] Is teaching load in your unit tailored to individual faculty members' recent past research and creative productivity in a way that provides continued support for past levels of research productivity? (Y/N) _____ If yes, In what fashion?

- [O#1,3] Are reductions in the number of formal classroom credits taught available for **Tenure-Track/Joint-Appointment Faculty** in your unit who advise significant numbers of graduate theses? (Y/N)? _____ If yes, are the same reductions available to all faculty? (Y/N)? _____

- [O#3] If workloads for faculty in your Institute/Unit are typically tripartite, is demonstrated evidence (in the form of a record of published/accepted publications, presentations, etc.) of a job candidate's ability to contribute substantially to UAF's research mission a significant hiring criterion for full-time tripartite faculty?

IV. Questions to evaluate Research Staff (non-faculty researchers including both postdoctoral and non-PhD researchers) practices and contributions to Tier 1 objectives:

- [O#1,2,4] How many PhD level, non-faculty **Research Staff** does your Institute/Unit presently employ? _____

- [O#1,2] How many non-PhD level, non-faculty **Research Staff** does your Institute/Unit presently employ? _____

- [O#1,2,4] Are **Research Staff** with PhDs allowed to serve as PI on proposals (Y/N)? _____ If so, what was the total external funding (in dollars) brought to UAF by these Research Staff in FY20? _____

- [O#1,2,4] Are **Research Staff** without PhDs allowed to serve as PI on proposals (Y/N)? _____ If yes, what is the total external funding (in dollars) brought to UAF by these Research Staff in FY20? _____

- [O#1,2,4] Are PhD level **Research Staff** allowed to chair graduate student committees (Y/N)? _____

- [O#1,2,4] Are non-PhD level **Research Staff** allowed to chair graduate student committees (Y/N)? ____

- [O#1,2,4] Are PhD level **Research Staff** allowed to serve on graduate student committees (Y/N)?_____

- [O#1,2,4] Are non-PhD level **Research Staff** allowed to serve on graduate student committees (Y/N)? _____

- [O#1,2,4] How many graduate student committees were chaired by **Research Staff** members in your Institute/Unit in FY20? _____

- [O#1,2] Are **Research Staff** allowed to mentor undergraduate students (Y/N)? _____

- [O#1,2,4] How many of the following in your Institute/Unit were supervised by PhD-level **Research Staff** in FY20?
    - Undergraduate students _____
    - Master's graduate students _____
    - Doctoral students _____
    - Postdocs _____
    - Research Staff _____

V. Questions to assess Institute/Unit research support and incentives:

- [O#1,3,4] Does your Institute/Unit provide research funding for graduate student projects (Y/N)? _____ If so, what amount of funds was distributed in FY20? _____ How many PhD students benefited from these awards? _____How many MS students benefited from these awards? _____

- [O#1,3] Does your Institute/Unit provide research funding for undergraduate student projects (Y/N)? _____ If so, what amount of funds was distributed in FY20? _____ How many undergraduate students benefited from these awards? _____

- [O#1,3] Are Research Faculty in your Institute/Unit encouraged and supported to take on service roles, such as serving on Unit or UAF-wide committees (Y/N)? _____

- [O#1,3] Are Tenure-Track/Joint-Appointment Faculty in your Institute/Unit encouraged and supported to take on leadership roles, such as serving on Unit or UAF-wide committees (Y/N)? _____

- [O#1,3] Are Research Staff in your Institute/Unit encouraged and supported to take on service roles, such as serving on Unit or UAF-wide committees (Y/N)? _____

- [O#1,3] How many Teaching Assistantships or Research Assistantships for graduate students did your Institute/Unit (excluding those paid by faculty) support in FY20? _____

- [O#1,3] If Research Faculty in your Institute/Unit receive F1 salary support,
    - What is the formula for how many months of F1 support per year they receive?

    - How has this formula changed over time?

- [O#1,3] If Research Staff in your Institute/Unit receive F1 salary support,
    - What is the formula for how many months of F1 support per year they receive?

    - How has this formula changed over time?

- [O#1,3] Does your Institute/Unit return funds to the PI's based on their projects' ICR generation?
    - If so, what is the methodology?

    - Is this in addition to, or in place of salary support?
    - How has the methodology changed over time?

- [O#1,3] In the last 10 years, is there a history within your Institute/Unit of F1 monies being made available to Research Faculty for:
    - Startup hire funding (Y/N)? _____
    - Seed funding for research projects or initiatives (Y/N)? _____
    - Proposals that require match (Y/N)? _____

- [O#1,3] In the last 10 years, is there a history within your Institute/Unit of F1 monies being made available to Tenure Track Faculty for:
    - Startup hire funding (Y/N)? _____
    - Seed funding for research projects or initiatives (Y/N)? _____
    - Proposals that require match (Y/N)? _____

- [O#1,3] Does your Institute/Unit have a faculty mentorship program for new Faculty (Y/N)? ____
    - How is this program structured?

- [O#1,3] Including financial incentives, what other methods does your Institute/Unit use to encourage and support Research Faculty productivity?

- [O#1-4] What else would you like to tell us about your institution as it relates to research?

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to amend the Faculty Senate Constitution

MOTION:
The Faculty Senate moves to amend its Constitution to ensure continuity of leadership and to describe the role of the Past-President.

EFFECTIVE: MAY 2021

RATIONALE:
The Faculty Senate Constitution needs to be amended to include the role of the Past-President, and to update the articles to include succession if an officer becomes unable to serve.

Note:

- Amendments must be formally read and incorporated in the minutes of a Senate meeting.
- Approval of amendments to the constitution requires a two-thirds vote and cannot occur sooner than 28 days from the date of the meeting at which the amendments were first read and discussed.

CONSTITUTION
of the
UNIVERSITY OF ALASKA FAIRBANKS
FACULTY SENATE

Preamble

Under Board of Regents' Policy, the University of Alaska Fairbanks Faculty Senate is formed so that the faculty may carry out its professional responsibility as the legislative body of the University of Alaska Fairbanks in matters of instruction, research/creative activity, and service.

ARTICLE I - Name

Sect. 1 The name of the organization shall be the University of Alaska Fairbanks Faculty Senate, hereinafter referred to as "Senate".

ARTICLE II - Rights, Responsibilities and Authority

Sect. 1 Faculty rights include the following:

A. To exercise academic freedom.

B. To form a representative body to develop legislation concerning the professional activities of the faculty.

C. To have elected representatives to appropriate governance bodies.

D. To have primary authority through the Senate to initiate, develop, review and approve academic criteria, regulation and policy with regard to the responsibilities outlined in Section 2.

E. Other rights as may be defined under this constitution and bylaws.

Sect. 2 Faculty responsibilities include the formulation of policies and regulations guiding:

A. Faculty appointment, re-appointment, termination, development, evaluation and workload.

B. Tenure

C. Promotion

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

D. Teaching

E. Research/creative activities

F. Advising

G. Service

H. Sabbatical leave

I. Honorary degree candidates

J. Scholastic standards

1. Degree requirements
2. Curriculum review
3. Admission standards
4. Grading policy
5. Academic probation
6. Academic suspension
7. Academic dismissal
8. Class length and structure of the academic year

K. Other responsibilities as may be defined by the faculty under this constitution and bylaws.

Sect. 3 Further Responsibilities

A. To advise the administration of the University of Alaska Fairbanks on academic and faculty matters.

B. To provide faculty representatives to the appropriate governance bodies.

C. To support student and staff constituencies on matters of mutual concern.

Sect. 4 Authority

The Senate shall carry out its responsibilities and functions subject to the authority of the Board of Regents Policy. Senate actions will be binding, subject to review, veto, and override in accordance with ARTICLE XI (Veto Powers) of this constitution.

ARTICLE III - Membership

Sect. 1 The Senate shall be constituted according to the provisions specified in the bylaws.

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

Sect. 2 Voting members of the Senate must either hold academic rank with full-time continuing appointment at the University of Alaska Fairbanks or hold special academic rank with title preceded by "research" or "term".

Sect. 3 Senate members shall be elected from and by the faculty of their respective units, as set forth in the bylaws, to two-year terms which shall be staggered to ensure continuity.

Sect. 4 The terms of the newly elected and appointed members shall commence at the beginning of "New Business" of the last regularly scheduled Senate meeting of the academic year.

Sect. 5 Any voting member of the Senate may be recalled according to the provisions of the bylaws.

Sect. 6 Non-voting members of the Senate shall have voting privileges on any Senate committee on which they serve.

ARTICLE IV - Officers

Sect. 1 The ~~two~~ **THREE** officers of the Senate shall be the President ~~and~~ **,** the President-Elect ~~.~~ **AND THE PAST-PRESIDENT. THE PAST-PRESIDENT IS A NON-VOTING MEMBER OF THE FACULTY SENATE WHOSE PRIMARY ROLE IS TO REPRESENT UAF FACULTY SENATE ON THE FACULTY ALLIANCE.**

Sect. 2 The President-Elect shall be elected by the Faculty Senators of the Senate for a one-year term. Eligible nominees for the office of President-Elect shall include any currently elected members of the Senate including alternates and chairs of standing and permanent committees of the Senate.

Sect. 3 The President-Elect, after serving for one year in this position, subject to Sections 4 and 5, will automatically become President for one year.

Sect. 4 The term of the President may be extended for one additional year by a two-thirds majority vote of the entire voting membership of the Senate. The vote will be by secret ballot and, if passed, the term of the President and the current President-Elect will be extended for no more than one additional year.

Sect. 5 If for any reason the President should relinquish or be recalled from office**, OR BECOME UNABLE TO SERVE**, the President-Elect ~~will~~ **SHALL** automatically and immediately assume the Presidency. The Senate shall elect a Vice President to fill out the remainder of the year at which time a new election for President-Elect will be held. The previously elevated President-Elect will complete the next academic year as President.

Sect. 6 If for any reason the President-Elect should relinquish or be recalled from office**, OR BECOME UNABLE TO SERVE,** the Senate shall elect a President-Elect to fill out the remainder of the year at which time a new election for President-Elect will be held.

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

SECT. 7 **IF FOR ANY REASON THE PAST-PRESIDENT SHOULD RELINQUISH OR BE RECALLED FROM THE POSITION, OR BECOME UNABLE TO REPRESENT THE SENATE ON THE FACULTY ALLIANCE, THE SENATE SHALL APPOINT A REPLACEMENT TO FILL OUT THE REMAINDER OF THE YEAR AT WHICH TIME THE NEXT PAST-PRESIDENT SHALL TAKE OVER. WHEN FEASIBLE, A RECENT PAST-PRESIDENT SHALL BE APPOINTED. IF NO PAST-PRESIDENTS ARE AVAILABLE, THE PERSON APPOINTED SHALL HAVE SERVED AS A COMMITTEE CHAIR OF A FACULTY SENATE COMMITTEE .**

Sect. ~~7~~ **8** The terms of the newly elected President and President-Elect shall commence at the beginning of "New Business" of the last regularly scheduled Senate meeting of the academic year.

ARTICLE V - Committees

Sect. 1 The requirements for membership on standing, permanent, and ad hoc committees of the Faculty Senate will be specified in the bylaws.

ARTICLE VI - Relation to the University of Alaska Fairbanks Governance Coordinating Committee and the University of Alaska System Governance.

Sect. 1 The UAF Faculty Senate President and President-Elect shall represent the faculty on the University of Alaska Fairbanks Governance Coordinating Committee.

Sect. 2 The UAF Faculty Senate President, President-Elect, and one other designee appointed by the Senate President shall represent the Senate on the University of Alaska Faculty Alliance and one will serve on the System Governance Council.

ARTICLE VII - Meetings

Sect. 1 There shall be a minimum of seven regular meetings each academic year. Other meetings may be held on special call of the Administrative Committee of the Senate.

ARTICLE VIII - Quorum

Sect. 1 The presence of a majority of the membership shall constitute a quorum. Presence may be established by participation in an audioconference.

ARTICLE IX - Parliamentary Authority

Sect. 1 The parliamentary guidelines shall be the most recent version of Robert's Rules of Order.

ARTICLE X - Amendments

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

Sect. 1 Amendments to the constitution may be proposed only by members of the Senate and copies shall be sent to all members of the Senate. Amendments must be formally read and incorporated in the minutes of a Senate meeting.

Sect. 2 Approval of amendments to the constitution requires a two-thirds vote and cannot occur sooner than 28 days from the date of the meeting at which the amendments were first read and discussed.

Sect. 3 Approval of amendments to the bylaws requires a majority vote.

ARTICLE XI - Veto Powers

Sect. 1 The Chancellor's Office shall have the right to veto actions taken by the Senate relating to academic, research, service and faculty affairs. A Senate action shall be considered approved unless written reasons for a veto are received in the Senate Office within 30 days of that action being received by the Chancellor's Office. The Administrative Committee upon request by the Chancellor may extend the 30 day requirement.

Sect. 2 Any action approved by the Senate and vetoed by the Chancellor's Office may be submitted to a reconciliation committee upon a two-thirds vote of the Senate. Up to three members appointed by the Senate and up to three members appointed by the Chancellor's Office shall constitute a reconciliation committee whose task it shall be to formulate recommendations to the Senate and the Chancellor's Office.

If the Senate and the Chancellor's Office are not able to resolve the impasse, then the Senate, upon a two-thirds vote, may elect to forward its previous action through the University of Alaska governance structure as provided for under Regents' policy.

ARTICLE XII - Faculty Referendum

Sect. 1 A faculty referendum on any Senate action will be called when a petition containing the signatures of ten percent of the full-time, permanent faculty is filed with the Senate Office. The Administrative Committee of the Senate will call for a Senate convocation at which time any business of the Senate may be reconsidered if the majority of the faculty eligible to elect members to the Senate, as described in the bylaws, is present at the convocation.

Sect. 2 The convocation must take place within 21 working days after the petition is filed with the Senate Office.

Sect. 3 The Senate actions may be modified by a simple majority vote of the members at the convocation.

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to amend the Faculty Senate By-Laws

MOTION:
The Faculty Senate moves to amend its By-Laws to update language, and to describe the role of the Past-President.

EFFECTIVE: MAY 2021

RATIONALE:
The Faculty Senate By-Laws need to be amended to update language, and to include the role of the Past-President.

Additions in CAPITAL LETTERS and highlighted

BYLAWS of the
UNIVERSITY OF ALASKA FAIRBANKS
FACULTY SENATE
BYLAWS of the UNIVERSITY OF ALASKA FAIRBANKS FACULTY SENATE link

Sect. 1 (ART III: Membership)

A. The membership of the Faculty Senate, hereinafter referred to as "Senate," shall consist of approximately 41 members plus one non-voting presiding officer. Approximately 35 members shall be elected by and from the faculty and will have voting privileges. Four non-voting members will be selected by and from other university constituencies as follows: one student selected by the ASUAF; one dean or director selected by the Provost; one staff representative from the registrar's office; and one additional staff member selected by the Staff Council. ~~Three~~ **TWO** additional non-voting members will be selected by and from the faculty unions as follows: one elected official each from United Academics-AAUP/AFT, ~~UAFT,~~ and ~~Adjuncts (United Academics)-AAUP/AFT.~~ **UNITED ACADEMIC-ADJUNCTS/APEA/AFT.** The Past President of the UAF Faculty Senate shall serve as an ex-officio, non-voting member and shall not be eligible to serve on the Faculty Senate until the term as Past President has ended.

   Terms shall be for two years and staggered, with approximately one-half of the Senate elected each year.

B. Representation shall be by academic or research unit and based on the number of qualifying faculty in each unit as described below.

   1. A unit is a single school or college or research institute, a collection of schools and/or colleges or collection of research institutes (see item 5).

   2. For representational purposes only, a qualifying faculty member shall be defined as one who holds academic rank or special academic rank.

   3. Tenure-track faculty with split appointments will be counted only in the tenure-granting unit. Research faculty and other qualifying faculty with split appointments will be counted only in the unit of primary appointment.

   4. Each unit will elect the number of representatives to the Senate equal to the number of qualifying faculty in that unit divided by the total number of qualifying faculty at UAF, multiplied by 35 and rounded to the nearest integer.

   5. Schools, colleges and research institutes whose representation under item 4 is zero may form a conglomerate group for the purpose of joint representation as a single unit, if together they qualify for representation under item 4. If they do not qualify as a

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

conglomerate group, or if they do not choose to be represented as a group, then each unit shall join with a represented school, college or research institute.

6. Re-apportionment will be done in the year of accreditation review of UAF, expected to be every seven years, or upon two-thirds vote of the Senate.

7. Each unit will have at least 2 representatives.

C. Election Procedure

1. Election shall be conducted by the represented units, or by the Senate office for any conglomerate groups to provide representatives to the Senate according to Article III of the Senate Constitution. Elections are to be held during the spring semester and election procedures are the responsibility of the units, subject to the following:

2. A faculty member may vote for Senate representatives in only one unit. For tenure-track faculty, that unit must be the tenure-granting unit. Research faculty and other qualifying faculty must vote in the unit of primary appointment.

3. Units with full-time permanent faculty based on other than the Fairbanks campus should elect Senate representatives in a number that is at least equal to the proportion of the non-Fairbanks based qualifying faculty.

4. Units with faculty who teach in associate, certificate, or noncredit programs should elect representatives in proportion to such faculty.

5. Units with senior faculty should elect associate and full professors as Senate representatives in a number that is at least equal to the proportion of such faculty.

6. Units with graduate programs should elect at least one graduate faculty member.

7. Each unit shall elect at least half as many alternate representatives as representatives.

D. Vacancies

1. In the case of death, resignation, transfer, or other reason why an elected representative can no longer represent the unit, an alternate shall immediately become the representative. The president of the Senate will appoint a replacement from among the unit's elected alternates, with the concurrence of the affected constituency and the consent of the Administrative Committee.

2. If no alternate is available to replace the departing senator, the affected unit may hold a special election to replace that senator. This special election must be held within 30 days of the last day the departing senator served. All policies and procedures governing regular senate elections apply to these special elections.

3. In the case of death, resignation, transfer, or other reason why an elected alternate can no longer represent the unit, the affected unit may replace that alternate by holding a special election. This special election must be held within 30 days of the last day the departing alternate served. All policies and procedures governing regular senate elections apply to these special elections.

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

E. Changes in Unit Representation

1. Changes in a unit's number of representatives on the Faculty Senate shall be implemented at the time of the next scheduled election. Reductions in a unit's number of representatives shall be accomplished by attrition, as terms expire. Increases in a unit's number of senate representatives shall be implemented through election of additional representatives at the next scheduled election.

2. Representatives should serve out the terms to which they are elected. This includes but is not limited to representatives who hold office at a time of reapportionment of the Faculty Senate, and those whose unit affiliation changes during a term of office. If the representative is no ~~long~~ **LONGER** affiliated with the unit from which they were elected, then an alternate shall be appointed and both shall serve concurrently to the end of the term. This may lead to a temporary increase in the number of elected representatives serving on the Faculty Senate.

F. Absenteeism

1. When elected members are unable to attend the meetings, their alternates will serve.

G. Recall

1. Unethical and/or unprofessional conduct by any elected officer or member of the Senate may constitute a cause for a vote of no confidence and hence a recall. In order to recall an elected officer or member, the Senate must have a 2/3 majority vote of its total membership.

Sect. 2 (ART IV: Officers)

The President of the Senate shall be an ex-officio, non-voting member of all elected and appointed committees of the Senate. The President-Elect of the Senate shall be chairperson of the Administrative Committee of the Senate and shall be an ex-officio, non-voting member of such elected and appointed committees of the Senate as the President of the Senate shall direct. **THE PAST-PRESIDENT IS A NON-VOTING MEMBER OF THE FACULTY SENATE WHOSE PRIMARY ROLE IS TO REPRESENT UAF FACULTY SENATE ON THE FACULTY ALLIANCE.**

The following internal appeals process will be followed to resolve disagreements between members and the Faculty Senate president and/or president-elect.

1. Appellant makes a good-faith effort to resolve the issue directly with the President and/or President-Elect. If appellant is not satisfied with the resolution, continue with the following steps.

2. Appellant requests time to speak to the Administrative Committee at its next regularly scheduled meeting. (Standard time allotment will be five minutes' speaking time.) Appellant may submit a brief summary to be distributed as a written handout to the committee at the meeting, if desired, in addition to being present and speaking. The handout should be submitted five business days before the Administrative Committee

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

meeting and include a description of the decision being appealed, the reasons for the appeal, and the proposed resolution.

3. After the appellant has spoken, the President and President-Elect may respond. (Standard time allotment will be five minutes each. One or both may speak.) The President or President-Elect may also provide a written response as a handout for the consideration of the Administrative Committee.

4. The Appellant will leave the meeting and the Administrative Committee will consider two options: A. No change to the original decision; or, B. Sustain appeal and come to an alternate decision based on the committee's deliberation. The Administrative Committee will vote on the matter. An affirmative vote by an absolute majority of the committee is required to sustain the appeal.

5. A brief report is shared at the next Faculty Senate meeting by the Chair of the Faculty Affairs Committee. There is no further discussion on the matter at the Senate meeting.

Sect. 3 (ART V: Committees)

A. An Administrative Committee will be composed of the chairpersons of all standing Senate committees and of permanent Senate Committees. The Provost of UAF shall be an ex-officio, non-voting member. Specific duties of the Administrative Committee in its obligation to fully prepare the agenda and materials for efficient operation of the Senate are:

1. Receive reports from the president of the Senate, the Provost, and, as deemed timely, other individuals, on issues of current and future importance to the Senate;

2. Accept and review the motions of standing and permanent committees, and from members of the Administrative Committee;

3. Make certain that the motions are ready for Senate action to the maximum degree possible, and if not, refer them back for further work and/or direct them to other relevant committees that may not have considered the motions;

4. Move the motions to the Senate's agenda;

5. Review and approve other items of the Senate's agenda, as deemed necessary;

6. Review reports of all committee work in progress; and

7. Discuss other issues, which may or should lead to later committee and senate actions.

In addition,

8. Within the scope of authority granted by the Senate at the last meeting of the spring semester, the Administrative Committee will represent the Senate from the close of the last Senate meeting in the spring until the opening of the first Senate meeting of the fall semester; and

9. At the first meeting in the fall semester make a report of all actions carried out in the name of the Senate since the last meeting in the spring semester.

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

10. The Administrative Committee shall oversee the process of evaluation of academic administrators.

11. The committee chair will provide committee meeting minutes to the Faculty Senate.

12. When an elected officer of the Faculty Senate believes that an item approved by the Administrative Committee for inclusion on the Faculty Senate's agenda should not appear there, or should appear in a different format than the one approved by the Administrative Committee, the matter shall be returned to the full Administrative Committee for consideration no fewer than four regular business days before the Senate meeting for which the item has been approved. Should there be no vote of the Administrative Committee resulting in a simple majority favoring changes to or cancelation of the agenda item in question, it will stand as originally approved and will be included on the Faculty Senate agenda for which it was originally scheduled.

B. Membership on standing and permanent committees will be for two years except as noted below with the possibility of re-appointment. The initial appointment or re-appointment is recommended by the President and President-Elect or as specified in the definition of a Permanent Committee, approved by the Administrative Committee, and confirmed by the full Senate. Senators are limited to serving on a maximum of one standing committee at any one time. To provide continuity, terms will be staggered and an initial appointment may be made for one or two years as determined by the Administrative Committee based on need.

C. Any faculty member who is eligible to vote for a Faculty Senator can serve on a Senate committee, unless otherwise specified. Standing committees will be constituted entirely of senators or alternates. Permanent committees can be constituted without senators or alternates.

D. On standing committees all voting members must be senators or alternates. Standing committees can have non-voting ex officio members.

E. All permanent and standing committee chairs will be elected from and by the members of their respective committees. Committee chairs are voting members of their committees and of the Administrative Committee.

F. A quorum consists of at least 50% of the voting members of a committee. Mode of attendance and procedure for voting in a committee meeting shall be the prerogative of each committee.

G. Appointment and responsibilities of committee chairs:

The previous chair or a representative approved by the Administrative Committee will convene the first meeting. The committee elects a new chair at that meeting.
Committee chairs:

1. Schedule meetings;
2. Preside over meetings;
3. Write and submit a report to the Administrative Committee at the last meeting of the academic year summarizing the actions of the committee;
4. Provide meeting minutes to the Faculty Senate.
5. **ATTEND ADMINISTRATIVE COMMITTEE MEETINGS.**

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

H. The standing and permanent committees of the Senate are:

STANDING

1. The Curricular Affairs Committee will deal with undergraduate curricular and academic policy changes.

2. The Faculty Affairs Committee shall review issues dealing with faculty prerogative and recommend policy changes to the Faculty Senate. Issues of faculty prerogative include academic freedom, faculty ethics, research and creative activity, and legislative and fiscal issues that may impact faculty concerns at the university. The committee will enhance communication of faculty issues with members of the Board of Regents, public officials, and candidates for public office. In performing these duties, the committee will coordinate as necessary with the relevant officers (and/or their representatives) of the extant collective bargaining units who serve as non-voting members of the Senate and ex-officio members of this committee.

3. The Unit Criteria Committee reviews proposed unit criteria for evaluation of faculty submitted by the various peer-review units of UAF, and to work with the heads of those units (or their designees) to ensure that their criteria are consistent with criteria defined in the UAF Faculty Appointment and Evaluation Policies and Regulations "Blue Book". Special unit criteria may add to the standard template that is drawn from the Blue Book but may not alter its language or formatting. The criteria to be reviewed may include those submitted every five (5) years pursuant to Blue Book Regulations. They may also include those proposed by units for revision at other times. The committee also reviews proposed changes to the "Blue Book."

   To ensure that perspectives from across UAF are represented, membership will consist of at least five senators, one each from the following five schools / colleges: CLA, CRCD, CNSM, CFOS, and CEM; and at least one from CES, SNRE, SOE, SOM or LIB; and at least one senator who has an appointment with a research institute. There are no student members of this committee.

   Final composition of the Unit Criteria Committee is approved by the Faculty Senate Administrative Committee.

PERMANENT

1. The Graduate Academic & Advisory Committee has responsibility for oversight, review and approval of all professional degree courses and programs. The committee advises the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial issues and dealings with other universities.

   The Graduate Academic & Advisory Committee includes ten faculty members and up to two graduate students. The Dean of the Graduate School, Director of the Library, and the University Registrar are non-voting ex-officio members. Graduate student representatives are appointed by the Dean of the Graduate School using the process established by the Graduate Academic and Advisory Committee and passed by the Faculty Senate in March 5, 2018

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

2. The Student Academic Development and Achievement Committee (SADA) considers policies related to student placement, academic advising and student academic appeals, development, and retention.

   SADA includes one faculty representative from each of the following campuses of the College of Rural and Community Development: Bristol Bay, Chukchi, Interior Alaska, Kuskokwim, Northwest, and the Community and Technical College. One or more of these should be from Developmental Education. The committee also includes one representative from the Fairbanks Department of Developmental Education, two representatives from the College of Natural Sciences and Mathematics: one from the Sciences (Biology, Chemistry, Geology, or Physics) and one from Math; two from the College of Liberal Arts, including one from the English Department; and one each from Rural Student Services, Rural Campus Student Services, and the Academic Advising Center. The committee may also invite a student representative to serve as an ex officio member. Two SADA members will serve on the Curriculum Review Committee to provide input from the student success perspective.

3. The Faculty Development, Assessment, and Improvement (FDAI) Committee facilitates faculty development relative to all components of faculty professional activities including teaching, research, and service to the university, the professional community, and the public. FDAI promotes excellence in faculty teaching through evaluating the status of faculty development and assessment, facilitating intellectual activity and interaction among faculty, promoting fair and relevant faculty evaluation systems, and developing and/or piloting professional development initiatives that recognize and promote good practice in teaching and research.

   The FDAI consists of the Chair, and up to 14 other voting members. The membership of the FDAI must include faculty from both rural and Fairbanks campuses and can include faculty who are senators and non-senators. In addition to its regular members, the FDAI includes non-voting ex-officio members. These include a mandatory ex-officio representative from the Office of Faculty Development (to be selected by the Provost), a member from UAF eLearning, as well as a member of UAF's list of deans. Other non-voting ex-officio members may be invited by the committee.

4. The Curriculum Review Committee evaluates proposed substantive undergraduate course and program additions, changes, and deletions submitted by the appropriate school/college curriculum committees. Among the topics of its review are number and duplication of courses, credit assignment, establishment of need for new programs, and resource impacts of curricular changes. Decisions of the Curriculum Review Committee may be appealed to Curricular Affairs by the department submitting the proposal. The Committee shall be composed of the chairs of the college/school curriculum councils, the University Registrar or the Registrar's designee, an eCampus designee, and shall be chaired by a member of the Curricular Affairs Committee. Two SADA and two GER & Core Committee members will serve on the Curriculum Review Committee to provide expertise on student success and GER curriculum.

5. The GER and Core Committee coordinates and recommends changes to the GER, develops the process for assessment of the GER, regularly reports on assessment of the

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

GER, monitors transfer guidelines for core and GER courses, acts on petitions for Core, GER, ANT, Library Science and Ethics credit, and evaluates guidelines in light of the total core and GER experience. This committee will also review courses for the Ethics, Math and Library Science requirements. Two Ger & Core Committee members will serve on the Curriculum Review Committee to provide expertise in GER Curriculum.

The committee shall be composed of one faculty member from each of the GER component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, and Arts), one person from Library and Information Research, CLA rep for Ethics and DANSRD rep for ANT, one faculty member from a non-GER component area, and one faculty member from CRCD, as voting members. The member from a non-GER component area shall be elected at large from among UAF faculty, while seats from GER component areas and CRCD shall be elected by their respective faculties. Membership on the committee also may include an undergraduate student as a non-voting member, and representatives from the colleges specifically tasked with core and GER assessment.

6. The purpose of the Committee on the Status of Women is to monitor the status of women faculty at UAF and to work proactively for gender equity and empowerment of women..

   Such actions may include, but are not limited to: Organizing and supervising surveys on the status of women and assessing the cultural climate of the university as it pertains to women; Recommending policy to address the needs of women faculty; Supporting mentoring of women, both new and mid-career faculty, including facilitating workshops on mentoring, promotion and tenure, negotiating techniques, providing venues for networking, collaboration and advocacy, and other forms of faculty development identified as necessary; Addressing family-work issues, such as child care, parental leave, spousal/partner hire; Coordinating with other campus and university groups which deal with women's and gender issues; and any other issues which would help women to achieve equity at UAF.

   Membership will consist of nine members, at least one of whom will be a senator, and eight to be elected at large from among UAF faculty.

7. The Research Advisory Committee. The Research Advisory Committee (RAC) consists of up to ten voting members, including two co-chair, along with at least one non-voting ex-officio member such as the Vice Chancellor for Research (VCR). Voting members are restricted to those appointed by the Faculty Senate. Members of RAC will be nominated to the Chancellor for service on the UA President’s Research Council (PRC). At least two of the ten voting members must be Research Faculty. The committee reviews the issues of researchers at the University of Alaska Fairbanks and provides reports, recommendations, and resolutions to the UAF Faculty Senate and/or Administration on behalf of the UAF research community. The RAC provides a connection between the Faculty and the UAF Administration, and will advise the Administration on research matters. At the first RAC meeting, the RAC appoints 1) two co-chairs and 2) a RAC member to represent RAC at the VCR’s Research Planning Group (RPG) meetings. It is recommended that each RAC meeting agenda include updates from the RPG and the PRC.

DocuSign Envelope ID: 8D3D8486-FFBA-44D1-B163-4FCFA89260D7

8. The Faculty Administrator Review Committee (FARC) will facilitate the process of evaluation of all Group A and B administrators. This will include ensuring the timely completion of all reviews and resulting letters, as well as presentation of the results of each review to the Provost, Chancellor, Vice Chancellor for Research, or other supervisor in March. The FARC will also approve the process which each ad hoc administrator review committee utilizes.

   The Faculty Administrator Review Committee shall be composed of the chairs of all individual ad hoc administrator review committees plus one Faculty Senate representative appointed by the Faculty Senate President who shall chair the committee. The ad hoc administrator review committee chairs may, but do not have to be, members of the Faculty Senate.

9. The Information Technology Committee will address information technology issues and needs affecting aspects of work faculty engage in. They will also be the recognized committee to work with requests submitted for consideration by the Office of Information Technology (OIT).

   To help ensure that perspectives from across UAF are represented, membership will consist of at least five representatives, with up to three members from each of the schools, colleges, institutes or libraries. Members who are not Faculty Senators may be appointed to one-year terms. Representatives from OIT and eLearning shall be ex-officio members of the committee. The committee chair must be a senator or an alternate.

F. Any standing or permanent committee may create subcommittees to assist the committee.

G. The Senate President may create and appoint the members of any ad hoc committee necessary for conducting Senate business. Ad hoc committees are subject to later ratification by the Senate.

H. Committees must forward any legislation which involves the setting or altering of policy to the full Senate for approval. Committees which are specifically charged with applying policy to make decisions may do so without having the Senate approve those decisions. A review by the full Senate may be requested by the reviewing Senate committee. A request to the Senate Administrative Committee for a further Senate review may also be submitted by individual Senators if the question has policy implications. The committee chair is responsible for the presentation of the committee's motion to the Senate at the meeting in which it will be considered.

Sect. 4 (Art. IX Parliamentary Authority)

Majority and supermajority votes of the Senate shall be counted on the basis of a majority or supermajority of the votes cast by members present, with abstentions not counting as votes.

MEMORANDUM

TO: Chancellor Daniel White and Provost Anupma Prakash

FROM: Julie A.K. Maier, Faculty Senate President DS JAKM

DATE: May 3, 2021

SUBJ: Faculty Mentoring

A growing body of literature demonstrates that mentoring of early career faculty is an important contributor to faculty career success. However, few units at UAF have developed written guidelines or policies that specify mentoring practices. The Faculty Senate FDAI committee has produced a document that summarizes faculty mentoring best practices, adapted from previously published best practices on mentoring. This document could be used as a general guide for engaging in faculty mentoring across UAF in terms of detailing the value of mentoring, general functions of mentors and mentees, and the value of mentoring networks. We encourage units to further develop policy and practice documents around mentoring that take into account their own contexts and needs.

Faculty Senate affirms that mentoring of early career faculty is an important function at UAF, and that such mentoring should adhere to generally accepted best practices in mentoring. We urge departmental and college leaders to adopt guidelines that promote such practices.

Attached: FDAI Best Practices document

Naturally Inspiring.
UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

Faculty Mentoring Best Practices Guidelines

Adapted from: "Guide to Best Practices in Faculty Mentoring,"
https://provost.columbia.edu/content/faculty-mentoring

Why does mentoring matter?

The University of Alaska Fairbanks seeks to be a place where faculty can sustain a lifelong career of engaged and effective teaching, thriving scholarly research, and impactful service to Alaska and beyond. Faculty mentoring is key to achieving this vision. Faculty mentoring, when conducted with care and intention, can enhance research success, improve outcomes for students, promote faculty career satisfaction and retention, and sustain career advancement. Mentoring is particularly important for supporting a diverse faculty. We encourage all units to adopt a mentoring policy and partnership agreement specific to their needs.

What should mentors do?

The literature points to two broad categories for mentorship: technical or instrumental career functions, and psychosocial or expressive career functions. Under the technical or instrumental career functions, the mentor counsels on the professional goals of the mentee; identifies professional development opportunities for the mentee with a focus on achieving these professional goals; and advises on other strategic activities (membership in organizations, committees and groups; attendance at conferences, etc.), which may enhance the mentee's career opportunities. The mentor may also advise on the mentee's academic scholarship and assist with finding opportunities to undertake research. Under the broad category of psychosocial or expressive career functions, the mentor promotes the scholarly and ethical values of the institution and of the profession; provides emotional support as needed; role models expected behaviors; and acts as a 'sounding board' for intellectual and professional ideas.

Mentors work with their mentees to create specific annual goals, schedule regular meetings with specific purpose, and create and then assess deliverable and measurable outcomes. The mentor should be sensitive to specific issues relating to a sense of isolation, exclusion from school/ department, or disproportionate service burden that may be experienced by underrepresented minorities and female faculty members. Good mentoring is a skill that can be developed like any other. All units at UAF assign a primary mentor to mentees that should engage in robust mentoring activities with the mentee, although mentees are encouraged to make connections with additional mentors (see "Mentoring Networks" below).

Examples of Mentoring Activities

1. Mentor and mentee meet twice each semester and set clear rules regarding meetings (frequency, agenda, and deliverables)

2. Mentor assists mentee to articulate written professional goals, objectives, strategies, and timelines

3. Mentor facilitates professional and academic networking within and outside the institution by making introductions, alerting mentee to key opportunities

4. Mentor alerts mentee of opportunities to enhance teaching and advising skills (professional development in field; Faculty Accelerator opportunities within UAF)

5. Mentor is an advocate for mentee

6. Mentor serves as role model, colleague, coach, intellectual challenger, supporter, and promoter of scholarly values and professional integrity for the overall psychosocial and expressive career functions of mentee

7. Mentor assists mentee with progress towards promotion and/or tenure by discussing workload considerations, discussing annual activities reports, providing examples, discussing unit culture with mentee, etc.

8. Mentor provides guidance and resources for developing academic competencies in scholarly research, teaching, scholarly presentations, and overall career management

9. Mentor identifies whether additional support should include proactive recognition and mitigation of factors that disproportionately negatively impact women and underrepresented minority faculty --

10. Mentors provide constructive feedback and maintain confidentiality

11. Mentors and mentees establish mutual accountability guidelines

12. Mentors and mentees acknowledge that mentoring is a skill that grows with time and is based in authentic relationship and caring

Mentoring Networks

Because the conceived roles of mentors are varied and often emphasize different skill sets, it is unlikely that a single person can fulfill all of the mentoring needs of a mentee, particularly when psychosocial functions are considered. Thus, current mentoring paradigms emphasize the development of mentoring networks as a supplement to the traditionally assigned mentor. Some studies have shown that network size and duration are correlated with greater career success. Mentoring networks are typically composed of both senior faculty and peers, and members in the network are often brought about informally, rather than through assignment. UAF's Faculty Accelerator supports faculty efforts to build informal mentoring networks through the Mentoring Hub (https://facdev.uaf.edu/mentoring-hub/).

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Create a Graduate Certificate in Systems Engineering/Program Management

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate in Systems Engineering/Program Management, housed in the College of Engineering and Mines.

Rationale: This certificate will provide graduate students the opportunity to focus a portion of their studies toward the discipline of systems engineering/program management (SE/PM) and to highlight this specialization on their academic transcripts. The certificate will provide valuable options for tailored graduate certificates involving various aspects of organizational communication. Systems engineering/program management (SE/PM) is applicable to any multidisciplinary engineering field (eg, aerospace, mining/petroleum, power, automotive...) and to all engineering/technical fields. These skillsets are in high demand. Students having an identifier on their transcript will have a distinct advantage when applying for jobs within this career field. The certificate is based on existing courses that are currently being offered and requires no additional resources.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

****

Academic Level
Graduate

Effective Catalog
2021 - 2022

Department
Engineering

College
College of Engineering and Mines

Certificate or Degree Type
Graduate Certificate (GCRT)

Program Title
Systems Engineering/Program Management Graduate Certificate

Abbreviated Program Title
SE/PM GCRT

Program Code

Brief Program Statement
This program provides graduate students the opportunity to focus a portion of their studies toward the discipline of systems engineering/program management (SE/PM) and to highlight this specialization on their academic transcripts.

Admissions Requirements
Admission into a master's degree program within the College of Engineering and Mines or approval by the program administrator.
General University Requirements: Complete the general university requirements. (https://catalog.uaf.edu/graduate/#certificateslicensencurestext)

Requirements for the Degree (catalog layout copy of the program)

Minimum requirements for Systems Engineering/Program Management Graduate Certificate: 12 credits

Code	Title	Credits
General University Requirements		
Complete the general university requirements. (http://catalog.uaf.edu/graduate/#certificateslicensencurestext)		
Graduate Certificate Requirements		
Complete the graduate certificate requirements. (http://catalog.uaf.edu/graduate/#certificateslicensencurestext)		
Systems Engineering/Program Management Program Requirements		
Complete the following:		
EE/ME F656	Aerospace Systems Engineering	3
HSEM F632	Project Management	3
Complete two of the following:		6
COJO F600	Introduction to Professional Communication	
COJO F622	Interpersonal Interaction	
COJO F625	Communication Theory	
COJO F631	Teambuilding	

Sample course of study and a 3-Year Cycle of course offerings

It is expected that the SE/PM graduate certificate will be completed within a larger degree program (primarily engineering, computer science, or geosciences). These courses will be a subset of the students' graduate study plan which will be reviewed by their academic committee.

Program Goals

Brief identification of objectives and subsequent means for their evaluation
Through the use of existing courses, provide the student with an identifiable concentration of systems engineering, program management, organizational communications and related subject matter. Evaluation of individual student program objectives will be accomplished through their success in the component courses selected. It is anticipated that overall program effectiveness data may be collected later as graduating students enter the workforce or qualify for further advanced academic programs.

Relationship of program objectives to "Purposes of the University"
Proposed program supports all UAF's mission and all core themes:
- Educate: Undergraduate and Graduate Students and Lifelong Learners
- Research: To Create and Disseminate New Knowledge, Insight, Technology, Artistic and Scholarly Works
- Prepare: Alaska's Career, Technical, and Professional Workforce
- Connect: Alaska Native, Rural, and Urban Communities by Sharing Knowledge and Ways of Knowing
- Engage: Alaskans through Outreach for Continuing Education and Community and Economic Development

Occupational/other competencies to be achieved

Competencies:
- Multidisciplinary engineering
- Systems engineering design process
- Program management
- Organizational structure and communications
- Teambuilding, leadership, and small group dynamics
- Verbal and oral communication skills

Relationship of courses to the program objectives

(1) EE/ME F656: Provides foundational knowledge of systems engineering & practical experience with the systems engineering design process (SEDP)
(2) HSEM F632: Provides foundational knowledge of the program management and leadership issues
(3) COJO F600, F602, F625, F631: Provides valuable options for tailored graduate certificates involving various aspects of organizational communication

It is anticipated that additional courses will be added to this program in coming semesters as various disciplines extend this program to their students.

Personnel directly involved with program

Name	Staff classification	Duties	Qualifications
Michael Hatfield	Admin/Coordinating Personnel	Oversee program. Teach selected courses.	Asst Prof in CEM/ECE, AssocDir of Science & Education forACUASI (GI). 28 years military in leadership positions within the aerospace field (extensive SE & PM experience)
Cam Carlson	Faculty	Help oversee program. Teach selected courses.	HSEM Program Director. retired military with extensive experience in PM, leadership.
Karen Taylor	Faculty	Help oversee program. Teach selected courses.	COJO POC. Extensive experience with organizational communications, structures, and teambuilding.

Enrollment Information

Projected enrollment/present enrollment

It is expected that formal recognition of the proposed program (all courses currently exist) will generate enthusiasm by (1) current students who may decide to stay for a graduate degree, and (2) students considering enrollment at UAF.

How was projected/present enrollment determine? Who was surveyed and how?

This program is expected to provide only a modest increase in student retention/enrollment, at least for the next few years. As this becomes more well-known, it is expected that this program will become popular and will accelerate student enrollment in future years.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 1

1

Year 2

1

Year 3

2

Year 4

2

Year 5

3

Maximum enrollment which program can accommodate

N/A

Are there special restrictions on enrollments?
No

What are the special restrictions?

Need for Program

Required for other programs?
No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?
The proposed program initiator has not conducted a robust (or even formal) survey of the employment market for aerospace engineering. However, a couple supporting datasets infer that the aerospace industry is expected to grow. For the aerospace industry, the employment rate is expected to meet or slightly exceed the average employment rate (3% or +1,900 jobs between 2019-2029, per DOL/BLS projections). Note that more broadly, the Systems Engineering/Program Management field is closely related to that of Industrial Engineering, which is projected as a highly needed skill set (10% or 30,000 jobs between 2019-2019, per DOL/BLS).

Job opportunities, including how these predictions were determined.

Now
See above.

Two years from now
See above.

Five years from now
See above.

Ten years from now
See above.

How have positions been filled to date?
By students from UAF with lesser qualifications (when able to successfully compete) and by students attending other universities' programs which have provided more structured programs.

Resource Impact

Budget
Resources Commitment to the Proposed Certficate, SE PM Graduate Certificate.docx (http://catalog.uaf.edu/courseleaf/archive/programadmin/352/1/Resources%20Commitment%20to%20the%20Proposed%20Certficate,%20SE%20PM%20Graduate%20Certificate.docx)

Facilities/Space Needs
No additional facilities/space needed.

Credit Hour Production
Credit hour production is not expected to be a limiting factor in most cases. Students would only need to complete the 12 credit hours(4 classes) within the limit of their existing CEM master's degree or within graduate school program deadlines.

Faculty
No additional faculty needed. All courses currently exist.

Library/Media Materials, Equipment and Services
No special library/media support needed. All materials are already supported via the component classes.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system
The proposed program is expected to draw engineering students who are looking for an opportunity to brand themselves as systems engineers/program managers.

Does it duplicate/approximate programs anywhere in the system?

No

What is the justification for the duplication?

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

The proposed program is expected to increase UAF's ability to perform research in several engineering disciplines (aerospace, electrical, mechanical, computer engineering, civil/geological, mining, petroleum, computer science, applied geosciences remote sensing). This increase would be due to anticipated increases in student enrollment, community awareness, and increased partnerships between UAF units collaborating on research activities.

Implementation/Termination

Plans for recruiting students

Tactics for recruiting students include:
- Advertisement of program on UAF's academic programs website.
- Advertisement of program on administrator's (Hatfield) personal webpage.
- Share details of program within the aerospace engineering/education community (ASEE Aero Div).
- Share details of program at STEM and community outreach events.

Plans for phasing out program if it proves unsuccessful

If the program were deemed unsuccessful, it could be dropped from the UAF website. However, since no additional classes are being proposed, there would be limited benefit from doing so.

Assessment of the program

Attach SLOA Plan

SE PM Graduate Certificate SLOA.docx (http://catalog.uaf.edu/courseleaf/archive/programadmin/352/1/SE%20PM%20Graduate%20Certificate%20SLOA.docx)

Upload Program Action Request Form

BOR-Program-Action-Request_RVSD, SE PM Graduate Certificate.docx (http://catalog.uaf.edu/courseleaf/archive/programadmin/352/1/BOR-Program-Action-Request_RVSD,%20SE%20PM%20Graduate%20Certificate.docx)

Prospectus

Upload Prospectus Document(s)

PRT-accreditation-prospectus, SE PM Graduate Certificate.docx (http://catalog.uaf.edu/courseleaf/archive/programadmin/352/1/PRT-accreditation-prospectus,%20SE%20PM%20Graduate%20Certificate.docx)

Rationale

Systems engineering/program management (SE/PM) is applicable to any multidisciplinary engineering field (eg, aerospace, mining/petroleum, power, automotive...) and to all engineering/technical fields. These skillsets are in high demand. Students having an identifier on their transcript will have a distinct advantage when applying for jobs within this career field.

Additional Information

Systems engineering involves multidisciplinary engineering and complex program management functions. Having a formally recognized program at UAF would be of much value to our students, the UA system, and the State of Alaska.

Graduate certificate proposals no longer need to submit a SLOA plan, Program Action Request form, or Prospectus documents. The chancellor is the final approval on graduate certificate proposals. - Meryem Udden

Reviewer Comments

Charles Mayer (cemayer) (Sun, 04 Oct 2020 19:07:18 GMT): Rollback: 1. In the “Requirements for the Degree (catalog layout copy of the program” section of the Program Request, there are 2 different requirements for Aerospace cert, but this is SE/PM cert. Lists 5 required COJO courses, and 2 other required courses, but only 12 credit required. 2. EE dept on YY doc should say ECE dept. 3. A letter of support from ECE chair and ME chair would be helpful since those programs are the ones mentioned. 4. Resources Commitment says “Department of Electrical Engineering” and it should say “Electrical and Computer Engineering.” 5. Since it mentions most students will be from ECE and ME, a short letter of support from both the ECE chair and the ME chair would be helpful.
Sun Kim (swkim) (Fri, 19 Feb 2021 23:30:23 GMT): As Meryem commented in "Additional Information", SLOA plan, Program Action Request form, or Prospectus documents are not required for graduate certificate proposals. So, the CEM CRC didn't review those documents.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Alaska Center for Energy and Power (ACEP).

Effective: Spring 2021
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by the Alaska Center for Energy and Power (ACEP). This is the first Unit Criteria for this Center. The document was reviewed by the Unit Criteria Committee on March 17th, 2021 and April 14th, 2021. The ACEP Criteria was approved because it was found to be consistent with UAF guidelines.

UAF Unit Criteria
for
Alaska Center for Energy and Power (ACEP)

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the ***research*** faculty of the ***Alaska Center for Energy and Power (ACEP)*****.** Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

Research faculty are not eligible for tenure. As modified this document represents research faculty that do not have a joint appointment with an academic department. Faculty with joint appointments with ACEP and an academic department are to be evaluated according to the academic department's unit criteria.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

Preamble

The purpose of unit criteria for ACEP is to establish metrics for research faculty to assess their professional growth, to guide faculty preparation of materials for peer review panels, and to guide peer review panel members evaluating candidates seeking promotion. Unit criteria metrics focus on a research faculty member's total contributions, impact, and stature as they relate to the current work assignment, which should demonstrate professional growth at each faculty rank.

The ACEP unit criteria are meant to satisfy a need, identified by both research faculty and peer review panel members, to have specific guidelines describing work performance expectations at each faculty rank (assistant, associate and full professor). The ACEP unit criteria include the base level performance requirements of the university with additions to address the diverse work areas undertaken by ine research faculty.

Research faculty within ACEP conduct a broad array of activities that fall into the categories of basic research, applied research and technology development, engineering research and practice, and commercialization of intellectual property. Research faculty provide technical consulting to industry, government entities, and community stakeholders, and they form research and development and technology implementation partnerships with industry, academic collaborators, and community stakeholders. The range of discipline focus within ACEP can include physical, biological and ecological sciences as well as engineering, economics, and biomedical research. The diversity of activity and discipline focus make it challenging to examine ACEP research faculty's professional accomplishments since measures of contribution, impact, and stature vary for these diverse disciplines. ACEP definitions of contributions, impact, and stature need to be sufficiently general to encompass this breadth of work focus and activities.

Contributions are indicative of a research faculty member's knowledge, skills and experience; they are the means of communicating results to a broader community, thus ensuring the highest degree of potential impact from the work. Contributions may include publications, proposals, innovations and intellectual property, technology development and transfer, and capacity growth within the university or external entities. The type of contribution is less important than its impact. For example, publications may include journal articles, books, customer reports, maps, interpretive materials, physical models, reviews and monographs.

Impact is the measure of the importance of a research faculty member's contributions to science, engineering, communities, industry, economics, and other facets of society and the natural world. Given the inquiry nature of a research faculty member's work, results can affect many areas of society. Measures of impact may include setting new research directions, developing new techniques or tools to be used by others, increasing the capacity or efficiency of programs or organizations to perform their mission or conduct business, and influencing organizational policy outcomes.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

Stature is a function of the recognition that a research faculty member receives from the scientific/engineering community and/or society. Expressions indicative of stature may include requests for expert advice and consultation by other professionals, managers or organizations; requests to lead research teams or projects; and invitations to serve on advisory or review boards/panels. Stature may also be indicated by requests to organize or chair committees, workshops or symposia; invitations to address scientific or professional organizations; recognition by professional societies or external groups; or honors and awards.

The following sections in the ACEP unit criteria describe activities relevant to accomplishments at the assistant, associate and full professor ranks. These sections attempt to account for the broad categories of focused work that encompass ACEP research faculty efforts.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - ***mastery of subject matter;***
   - effectiveness in teaching;
   - ***achievement in research, scholarly, and creative activity;***
   - effectiveness of public service;
   - effectiveness of university service;
   - ***demonstration of professional development; and***
   - ***quality of total contribution to the university.***

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

D. Criteria for Instruction

This section does not apply to bipartite research faculty with bipartite workloads. For a bipartite research faculty with a bipartite workload, any training, education and workforce development activities are described under the criteria for research, scholarly and creative activity. However, bipartite faculty may temporarily accept a tripartite function, i.e. the faculty is formally teaching a class, and if so, a tripartite function should be considered during promotion review if the research faculty member has an assigned teaching workload. The tripartite evaluation should be part of the review in the same proportion as it is to the whole workload for the entire review period.

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.
   i. ***Successful mentoring/teaching of interns, undergraduate and graduate students including but not limited to; formal and informal advising, laboratory training, participation in field work, undergraduate completion of research projects (e.g. URSA, capstone projects etc.), student/intern publications, conference papers, and posters stemming from PI/co-PI research, curriculum***

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

development, guest lectures and other course activities, student recruitment/retention (including funding opportunities for graduate and undergraduate students).

j. ***Successful mentoring of graduate and/or undergraduate student research (which can be demonstrated for instance by one or more of the following: student presentations, publications, awards or grant success).***

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

   and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

   - peer classroom observation(s) and evaluation of lecture(s),
   - peer evaluation of course and compiled materials,
   - pedagogical organization as evidenced through peer evaluation of course syllabi,
   - documented use of best practices in teaching through external or peer review,
   - evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
   - evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline ***and audience***. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

b. They must be evaluated by appropriate peers.
c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art ***and engineering work, scientific visualizations and computer animations*** at galleries, ***conferences and museums,*** selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art ***and engineering works***, ***scientific visualizations and computer animations*** and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. ***Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.***
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

o. ***Technical reports provided to an expert audience or private entity.***
p. ***Acquisition, documentation and transfer to the public domain of significant data sets.***
q. ***Strategic planning and technical and scientific leadership of research facilities and infrastructure to develop new research capabilities, develop research partnerships, and the support of non-traditional business ventures and applied research at the university, e.g. recharge and enterprise centers.***

Specific ACEP criteria for <u>research performance</u> before promotion/ tenure or appointment to:

I. Research assistant professor: evidence of expertise, ability and intent to establish a sustained research program at ACEP.

II. Research associate professor: must have established an appropriate research program. The faculty member should show independence and leadership by the creation of research ideas that translate into funded independent and/or collaborative projects or publications. Examples for such a research program may include:

- ***Leadership in preparation and submission of research proposals;***
- ***Acquisition of external research funding;***
- ***Publications in refereed professional journals, or equivalent, demonstrating significant scientific contributions. It is important for the faculty member to clearly discuss the importance of their scientific contributions in the narrative.***
- ***Presentation of research results at national professional meetings;***
- ***Completion of contract research reports;***
- ***Development of intellectual property into protected formats (patents, including pending patents, copyrights, and trade secrets) and commercialization of such intellectual property through university or private ventures;***
- ***Provision of guidance to professional organizations, and branches of government, e.g., board of advisors, standard committees, consulting on impacts of legislative action;***
- ***Invited participation in peer review activities;***
- ***Publication of relevant data and metadata, contribution to cyber structure, or contribution to publicly available computer models;***

The peer review panel should ensure that publications and meetings are sponsored by reputable organizations. Papers in proceedings of conferences known for rigorous peer-review and documented low acceptance rates may be considered as supplemental

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

publications, where applicable. Publication in conference proceedings constitute supplementary evidence that the research program is of high quality. It is essential for the faculty member to clarify in their narrative their, and their co-author's(s') role and creative contributions in multiple-authored publications. This philosophy of explaining the faculty role and contributions also applies to collaborative proposals.

III. Research professor: must have sustained a consistent, productive, independent and/or collaborative research program(s) since advancement to research associate professor. A research program should have produced quality research products that make significant impact to the field and to have earned the faculty member national and/or international stature in the area of research. This could be documented through:

- ***Service in a leadership role in project and program execution, for example in internal project teams, complex multi-disciplinary and/or multi-agency or multi–institution projects***
- ***Quality publications in rigorous peer-reviewed journal articles, conference publications and other forms of literature such as monographs, books, reviews, agency and customer reports, models, maps, and novel interpretative materials. For example, evidence of quality publications may include:***
  - ***The number of citations past publications have received***
  - ***The quality of the journals such as their "impact factor"***
  - ***External reviews stating the papers made major contributions***
  - ***Invited talks and book chapters***
  - ***Professional awards***
- ***Service in a leadership role in project and program execution, for example in internal project teams, complex multi-disciplinary and/or multi-agency or multi–institution projects***
- ***Impacts may include setting new research directions, developing new techniques or tools to be used by others, increasing the capacity or efficiency of programs or organizations to perform their mission or conduct business, and influencing organizational policy outcomes.***
- ***The faculty member should have attained a national and/or international reputation which may be demonstrated by:***
  - ***A high number of professional article external citations;***
  - ***Professional activities with external collaborators;***
  - ***Presentations at national and international meetings;***
  - ***Invitations to address scientific or professional organizations;***
  - ***Invitations to write synthesis papers;***
  - ***Requests to organize or chair committees, workshops, or symposia;***
  - ***Recognition by professional societies and external groups;***
  - ***Honors and awards; or***
  - ***Documented opinions of other engineers and/or scientists in the field.***

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

The peer review panel should ensure that publications and meetings are sponsored by reputable organizations. Papers in proceedings of conferences known for rigorous peer-review and documented low acceptance rates may be considered as supplemental publications, where applicable. Publication in conference proceedings constitute supplementary evidence that the research program is of high quality. It is essential for the faculty member to clarify in their narrative their, and their co-author's(s') role and creative contributions in multiple-authored publications. This philosophy of explaining the faculty role and contributions also applies to collaborative proposals.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

Expectations for the service component of a bipartite position within ACEP will vary by individual research faculty and will be explicitly outlined in biannual workload assignments. It is not unusual that the service component is 10% or less of the biannual workload.

1. Public Service
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.
m. Hosting events at research facilities, e.g., tours, open houses etc. Intended for public or professional outreach (may also be counted as university or professional service depending on the audience).

2. University Service
University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school. ***Within ACEP this may include research center director.***
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring ***of faculty***.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.
l. Service as outside reviewer on thesis committees.
m. ***Preparation of university reports and online information***

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.
g. ***Serving as a mentor/advisor, committee member or external examiner for students at other institutions.***
h. Provision of guidance to professional organizations, and branches of government, e.g., board of advisors, standard committees, consulting on\impacts of legislative action.
i. Invited participation in peer review activities;
j. Invitation to edit or referee articles or proposals for professional journals or organizations can be taken as evidence of obtaining stature from colleagues.
k. Invitation to participate in the development of standards and regulation by nationally and internationally recognized standardization bodies and regulatory entities, as well as the consulting on the development of standards, regulations and legislation.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Communication and Journalism (Applicable only to the Communication Faculty).

Effective: Spring 2021
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by the Department of Communication and Journalism. The unit has brought their existing document into compliance with the current UAF Unit Criteria template. The unit also made additions to the document that were reviewed by the Unit Criteria Committee. The additions to the Communications and Journalism criteria were approved at the April 14th, 2021 Unit Criteria Committee meeting because they were found to be consistent with UAF guidelines.

UAF Unit Criteria
for
THE DEPARTMENT OF COMMUNICATION AND JOURNALISM
[APPLICABLE ONLY TO THE COMMUNICATION FACULTY]

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of **THE COMMUNICATION AND JOURNALISM DEPARTMENT [APPLICABLE ONLY TO THE COMMUNICATION FACULTY].** Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching***;***
   i. utilize and demonstrate their knowledge of what constitutes effective oral communication in their teaching methods;
   j. demonstrate consistent attention to students in the role of an advisor regarding UAF and discipline related matters;
   k. develop and revise instructional materials for use in support of their teaching, develop innovative instructional technologies, and/or demonstrate the effectiveness of innovative instructional technologies (via quantitative and/or qualitative methods of assessment);
   l. actively participate in and contribute to the work of the faculty or the discipline in curriculum matters.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

   and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:
   - peer classroom observation(s) and evaluation of lecture(s),
   - peer evaluation of course and compiled materials,
   - pedagogical organization as evidenced through peer evaluation of course syllabi,
   - documented use of best practices in teaching through external or peer review,
   - evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
   - evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere. ***Lastly, evaluation of the various forms of research, scholarly, and creative activity listed below must be based on the qualitative evaluative criteria described herein, not on quantitative criteria (such as the number of articles published in a given time frame) that are superimposed ex post facto onto the qualitative unit criteria.***

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works ***(including those that assess instructional technology)*** published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications.
   h. Published abstracts of research papers.
   i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
   j. Prizes and awards for excellence of scholarship.
   k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
   l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
   m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
   n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/ exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

o. Bylines, production credits, contracts, acceptance letters, and other acknowledgements of reporting, researching, photographing, editing or otherwise producing relevant media.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting.
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.
   i. Training and facilitating.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Art.

Effective: Spring 2021
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by the Department of Art. The unit has brought their existing document into compliance with the current UAF Unit Criteria template. The unit also made additions to the document that were reviewed by the Unit Criteria Committee. The additions to the Art criteria were approved at the April 14th, 2021 Unit Criteria Committee meeting because they were found to be consistent with UAF guidelines.

UAF Unit Criteria for Art

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the *Department of Art*. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

CHAPTER III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

- mastery of subject matter;
- effectiveness in teaching;
- achievement in research, scholarly, and creative activity;
- effectiveness of public service;
- effectiveness of university service;
- demonstration of professional development; and
- quality of total contribution to the university.

In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***Curators at the University of Alaska Museum of the North with a faculty appointment in art typically have a portion of their workload assigned in teaching to the department. The Art Department will evaluate the curator's teaching record.***

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;
d. emphasize regular feedback to students and reward student learning success; ***the ability to run effective, cordial and insightful group critiques is also important.***
e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
g. regularly expend effort towards future oriented educational development;
h. may receive prizes and awards for excellence in teaching.
i. ***the "hands on" nature of studio art must be recognized. Demonstrate technical mastery and the acquisition of new techniques including digital media, databases and the internet.***

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, **and** at least two of the following:
b. narrative self-evaluation,
c. peer/department chair classroom observation(s),
d. peer/department chair evaluation of course materials.

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Art faculty are expected to consistently create and exhibit new work. The stature of the exhibition space and scale of the exhibit should also be considered. Note that an art historian's research will be largely presentation, publication, and curatorial while a studio artist's will be largely exhibition based. A digital artist will normally present work in web-based or other digital format. Studio artists, both traditional media and digital, normally make public speaking presentations as a part of their work.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

Curators at the University of Alaska Museum of the North with a faculty appointment in art typically have a portion of their workload assigned to the department. The Art Department will evaluate the curator's creative activity and research record.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, ***catalogs,*** and other scholarly works ***(including those that assess instructional technology)*** published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline. ***Online magazines and other digital publications are valid venues if subject to review and approval by peers.***
   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
   d. Exhibitions of art work at galleries, ***museums, art centers and alternative spaces as well as site specific locations,*** selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics. ***Both juried and invitational group and solo exhibits are valid forums. Online venues are also appropriate for digital work exhibition. The selection process for exhibitions is competitive and comparable to publishing in refereed journals. Solo exhibitions should take place every two years on average and participation in juried or invitational group shows should take place frequently, on average at least two times a year.***
   e. ***Solo and collaborative*** performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications.
   h. Published abstracts of research papers.
   i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

j. Prizes and awards for excellence of scholarship, ***including acquisition of work by prominent private, corporate and public collections.***
k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development. ***Obtaining patents and/or copyrights for artistic creations, research methodologies, and pedagogical techniques.***
m. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.
n. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
o. Creation of public art commissioned by local, state or national government or private organizations.
p. Applied research such as building and design of equipment or processes using historical and/or contemporary technologies.
q. Serving as curator of an exhibit at a recognized institution such as a museum, gallery or alternative space.
r. Public screening and broadcast of video/film works.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees or elected office.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

4. Other Service: Curation

Curators at the University of Alaska Museum of the North (UAMN) with a faculty appointment in art typically have a portion of their workload assigned to the department. The Art Department will evaluate the curator's service record taking into consideration the recommendation of the UAF Museum Committee.

Curation involves the management and development of a formally recognized university collection that exists to serve as a research resource for students and researchers at university, state, national and international levels. Examples of curatorial activities include, but are not limited to:

a. Maintaining, enhancing, and enlarging the collection (includes computerization and database development, archival upgrades, specimen conservation and identification, and adding specimens or objects to existing collection);
b. Interacting with state and federal agencies and with the public on collections-related issues;
c. Facilitating collections use through loans, exchanges, and visiting researchers;
d. Maintaining appropriate permits (as needed for the collections);
e. Directing collections managers, student employees, and volunteers;
f. Working with public program staff to create exhibits and educational activities appropriate to the collection;
g. Pursuing funding for collections growth and maintenance;
h. Producing curatorial or collections-related publications, reports, and/or manuals;
i. Ensuring university compliance with state and federal laws that pertain to the collection.
j. Specific criteria for curatorial performance at the rank of Assistant Professor. Evidence of curatorial ability and a commitment to developing and managing research collection relevant to the area of specialization includes the following:
  i. Curators will develop the collections as a permanent record of the natural and/or cultural diversity of Alaska and the circumpolar North and as a research resource for studies of biological and/or cultural diversity.
  ii. Collections care includes responsibility for the physical condition and storage of objects/specimens, corresponding documentation, budgetary management, and annual reports.
  iii. Curators will preserve the specimens, artifacts, objects, and material under their purview through the use of methods and techniques professionally accepted within their respective disciplines.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

iv. Curators will ensure that all records and field notes concerning collection materials are maintained in a secure fashion and meet or exceed documentation standards for their respective discipline.

v. Curators will maintain current accession files, deaccession files, and catalogues of objects in their collections. They will develop electronic databases with computer data formats that follow data standards of the respective discipline and UAMN.

vi. Curators will develop, maintain, and revise written policies and procedures for curation of objects or specimens in their collections.

vii. Curators will take part in interpretive activities of the Museum in order to fulfill the museum's mission to interpret the natural and cultural history of Alaska. In this regard, preparation of small exhibits is approximately the equivalent of publication of a professional article; project direction of a large complex exhibit that includes preparation of a serious catalogue is approximately the equivalent of publication of a scholarly book.

viii. Curators will actively prepare grant applications for external support for their curatorial and collection-based research.

k. Specific Criteria for Curatorial Performance at the Rank of Associate Professor

Consistent contributions to interpretive (education and exhibition) activities of the museum, response to collection-related inquiries (from other professionals, the public and state agencies) and/or development of interpretive materials for the public-at-large are expected. Use of the collections for teaching and/or research must be evident. Active solicitation for external funds to support curatorial activities and collection-based research must be evident.

l. Specific Criteria for Curatorial Performance at the Rank of Professor

Significant development of the collections under the curator's care is expected. This development includes sustained growth of the collections as research resources and as a means of fulfilling the museum's mission of acquiring, preserving in perpetuity, investigating, and interpreting objects and specimens relating to the natural and /or cultural history of Alaska and the circumpolar North. Significance of collections will be measured in terms of research significance, value to University of Alaska research and instructional programs, and value to national and international research programs. The curator should be a recognized authority in their field, locally and nationally. They must have a record of success in acquiring external funds for their curatorial activities and collection-based research.

5. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation,

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Curators at the University of Alaska Museum of the North with a faculty appointment in Art typically have a portion of their workload assigned to the department. The Art Department will evaluate the curator's service record taking into consideration the recommendation of the UAF Museum Committee.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the International Arctic Research Center (IARC).

Effective: Spring 2021
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by IARC. The unit has brought their existing document into compliance with the current UAF Unit Criteria template. The unit also made additions to the document that were reviewed by the Unit Criteria Committee. The additions to the IARC criteria were approved at the April 14th, 2021 Unit Criteria Committee meeting because they were found to be consistent with UAF guidelines.

UAF Unit Criteria
for
International Arctic Research Center (IARC)

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **International Arctic Research Center (IARC)**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service. ***Evaluations should be consistent with an individual faculty member's job description and workload agreement. IARC has a large number of bipartite faculty that do not have a teaching/mentoring component to their workload. For these faculty, scholarly activity and service criteria are the dominant criteria for evaluation.***

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.
   - ***commitment to diversity, equity, accessibility, and inclusion***

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.
   i. mentor students, research staff, or other audiences such as citizen scientists.
   j. have a commitment to diversity, equity, accessibility, and inclusion in teaching.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

c. Performance as an advisor or mentor of an undergraduate, graduate, or postdoctoral researcher.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems ***in Alaska and the Arctic***, such as computer programs and systems for the processing of data, genetic plant and animal material, ***engagement processes,*** and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.
o. Scientific reports documenting project findings, including reports presented to project contractor/funder.
p. Research engagement and knowledge co-production with diverse audiences, including, but not limited to Indigenous communities.
q. Commitment to diversity, equity, accessibility and inclusion in research.

Individual units may choose to require particular items from this list through their unit criteria.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting.
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.
   i. Training and facilitating.
   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

m. Institutional representation at IARC educational displays, booths and exhibits at public events.

n. Development, interpretation, and dissemination of research-based information in an easily understood format that can be used by federal and state agencies, non-governmental organizations and the public.

o. Commitment to diversity, equity, accessibility and inclusion in public service.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

l. Commitment to diversity, equity, accessibility, and inclusion in university service.

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.
g. Commitment to diversity, equity, accessibility, and inclusion in professional service.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

H. Promotion Guidelines for IARC Research Faculty

The level of productivity in each criterion area shall be evaluated within the context of the faculty member's proportionate responsibility as identified in annual workload distribution agreements. Non-tenure track faculty may be assigned activity in two or three of the workload areas (teaching, research/scholarly/creative activity, and service). Many IARC research faculty are bipartite, with a significant focus on scholarly and service efforts with a corresponding reduction in teaching effort. Each promotion applicant's complete research, teaching, and service record, including papers published before they were affiliated with IARC, should be considered relevant to promotion decisions.

1. Promotion to Research Associate Professor or Associate Professor

To be eligible for promotion, a research assistant professor or assistant professor shall present a record of sustained performance and achievement in their assigned workload areas of activity, which reflects high quality in teaching, research/scholarly/creative activity, and service, as appropriate. This may be demonstrated through:

DocuSign Envelope ID: FB8488D6-4356-4486-8050-068317521DC5

a. Teaching: Although not required for IARC faculty, teaching or mentorship of undergraduate, graduate, and postdoctoral scholars is encouraged and will be viewed as positive indicators of accomplishment.

b. Research: Achievement of technical mastery, maturity, and a national reputation in their research field, and pursued a course of research to the point of establishment of a well-founded line of scholarly investigation.

c. Service: Leadership development in Arctic science and the broader science community as well as engagement in multiple types of service at the university or with the general public.

2. Promotion to Research Professor or Professor.
Faculty promoted to the rank of professor at the university shall exemplify the attainment of performance and achievement consistent with a high standard of excellence. This may be demonstrated through:

a. Teaching: An enhanced level of teaching and mentorship beyond that of a research associate professor will be viewed as a positive indicator of accomplishment.

b. Research: Achievement of technical mastery, maturity, and a national (and possibly international) reputation in their research field.

c. Service: Leadership in Arctic science and the broader science community and be able to demonstrate continued and expanded service beyond that of a research associate professor.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Create an Accelerated Masters in Civil Engineering

MOTION:

The UAF Faculty Senate moves to approve a new Accelerated Master's in Civil Engineering, housed in the College of Engineering and Mines.

Rationale: Integrated BS/MS degrees in Civil & Environmental Engineering are becoming a national trend as employers expect deeper training and more qualifications for engineering graduates. Currently, civil engineering BS students are readily employable and few opt to stay on for an MS degree. However if the current BS students can obtain the MS in about one additional year (along with the BS degree) the economics become neutral or slightly favor remaining for the MS. The program will allow highly qualified students to leverage required undergraduate elective courses into their MS graduate program and decrease their course load in the fifth year. Benefits to the students include the opportunity to develop a civil engineering specialty while being more competitive in the job market. Benefits to UAF are increased enrollments.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

College of Engineering and Mines

Certificate or Degree Type
Master of Science (MS)

Program Title
B.S./M.S., Civil Engineering

Abbreviated Program Title
B.S./M.S., Civil Engineering

Program Code

Brief Program Statement
The Department of Civil, Geological and Environmental Engineering (CGEE) proposes a new integrated B.S./M.S. degree program in Civil Engineering (CE); qualified undergraduate students will be able to complete both B.S. and M.S. degrees in a shorter time than traditional B.S. plus M.S. degrees. The program requires no new resources. Highly qualified students leverage required undergraduate elective courses into their MS graduate program – decreasing their course load in the fifth year. Students interested in research have a thesis option that would require summer research. Benefits to the students include opportunity to develop a civil engineering specialty while being more competitive in the job market. Benefits to UAF are increased enrollments.

Admissions Requirements

1. Complete the following admission requirements:
   a. CE major (junior preferred) or senior standing.
   b. A GPA 3.25 or above (based on minimum of 24 credits in CE major requirements) is required for admission. Students must maintain a cumulative GPA of at least 3.0 to remain in the program.
   c. Submit three letters of references.
   d. Submit GRE (general) scores.
   e. Submit a study goal statement.
   f. Submit a UAF graduate application for admission.

Requirements for the Degree (catalog layout copy of the program)

Minimum Requirements for Civil Engineering B.S./M.S. Degree: 143 credits

Students must satisfy the General University Requirements for minimum grades for the respective B.S. or M.S. program (major) requirements.

Program Goals

Brief identification of objectives and subsequent means for their evaluation

PROGRAM GOAL

To provide an efficient path for our best BS CE students to gain an integrated MS degree and enhance their competitive employment potential. Through this program the BS/MS students will gain:
--One year's work experience credit toward professional licensure;
--Increased knowledge in a specialized area for licensure exams;
--Readiness for forthcoming increases in licensure requirements.

OBJECTIVES

1. Improve engineering practice in the state by:
-Increasing the qualification of entry-level engineers
-Increasing the numbers of engineers with advanced qualifications in a specialty.

2. Increase efficiency for all our CEE programs by:
-Populating graduate classes for research grad students
-Populating and stabilizing undergrad 400-level electives

EVALUATION

Our current BS degree is accredited by the Engineering Accreditation Commission of the Accreditation Board of Engineering and Technology (ABET), which requires a thorough and ongoing assessment of our undergraduate program. The internal processes we currently have for ABET will be extended, as appropriate, to the BS/MS program. For example, ABET does not currently accredit the MS, but, if we are allowing MS courses as part of the BS, ABET will include evaluation of those courses. Some evaluation will be straightforward extension of current practice, for example, the CEE Advisory Board will now provide advice and direction on the BS/MS graduates. Most of that board are employers of our graduates, so their feedback is pertinent.

The next thread of evaluation is the initial employment and career path of our graduates. We monitor the careers of our graduates as part of ABET, as well as for our UA Program Reviews. Our graduates are in great demand in Alaska, and all our graduates find employment.

Relationship of program objectives to "Purposes of the University"

SPECIFIC RELATIONSHIP OF THE PROGRAM TO UAF'S FIVE CORE THEMES:

1. Educate, Undergraduate and Graduate Students
-The proposed program will increase the overall academic production of CEE, since students will recognize the efficiency of the program and more will take the academic courses.

2. Discover, through Research, Scholarship, and Creative Activity including an Emphasis on the North and its Peoples
- The proposed program offers a project or thesis option. Either option will increase research and scholarship, and most of our research involves northern science and engineering. Here for the thesis option the students will normally need to work summers on research.

3. Prepare, Alaska's Career, Technical, and Professional Workforce
-The emphasis of all our engineering programs is workforce preparation. Alaska government agencies, consultants, construction contractors and industries all seek our graduates for employees.

4. Connect, Alaska Native, Rural, and Urban Communities Through Contemporary and Traditional Knowledge
-Our Senior Design Projects and masters research often include design of facilities for rural communities.

5. Engage, Alaskans via Lifelong Learning, Outreach, and Community and Economic Development
-Our ABET accreditation requires an outcomes including the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context, and a recognition of the need for, and an ability to engage in life-long learning.

Occupational/other competencies to be achieved

Our current BS graduates do well in their careers, as do our MS graduates. The proposed program will allow the graduates to start their careers a year or two sooner than the traditional MS. The undergraduate BS in civil engineering that the MS graduates will achieve in their first four years is approved by ABET and assure employers and licensing boards of required competency in civil engineering.

Relationship of courses to the program objectives

All the courses fit within the profession of civil engineering. Civil engineering, the designing, constructing, and maintaining of physical infrastructure, has sub-disciplines or specialties. Some civil engineers practice mainly in one specialty, while others have a more general practice. In either case, it is wise to have at least some knowledge of the various specialties. In the proposed program, a student under the guidance of an advisor, would take a number of courses in one specialty, or take a variety of courses – some from each specialty. Either approach will benefit the student and the future employer.

Personnel directly involved with program

Name	Staff classification	Duties	Qualifications
Srijan Aggarwal	Faculty	Associate Professor, Environmental	PhD, Univ. of Minnesota, ‘11
Ilsang Ahn	Faculty	Assistant Professor, Structural	PhD, SUNY Buffalo, ‘05
David Barnes	Faculty	Professor, Environmental	PhD, Colorado State Univ., '97
Nathan Belz	Faculty	Associate Professor, Transportation	PhD, University of Vermont, ‘13
Augusto Cannone Falchetto	Faculty	Assistant Professor, Materials	PhD, University of Minnesota, '13
Yuri Shur	Faculty	Professor, Geotechnical/ Arctic	PhD, Inst. of Foundations, '68
Sveta Stuefer	Faculty	Associate Professor, Water	PhD, Russian St. Hydrology Inst., '03
Horacio Toniolo	Faculty	Professor, Water	PhD, University of Minnesota, '02

Enrollment Information

Projected enrollment/present enrollment

We usually have 25-30 BS students in our CE program in any class. Based on experiences with similar program offered in ME department (who have similar class sizes as CE), we expect about 5 to 10 students to sign up for the integrated BS/MS program each year.

How was projected/present enrollment determine? Who was surveyed and how?

Integrated BS/MS degrees in Civil & Environmental Engineering are becoming a national trend as employers expect deeper training and more qualifications for engineering graduates. Our CEE program is parallel to that of our sibling department, Mechanical Engineering. ME started their Fast Track Mechanical Engineering Bachelor/Master Degrees in 2010 and we expect our success to follow the pattern ME set out. In general, the demand for civil engineers in Alaska is somewhat higher than for MEs, so our analysis might be conservative.

In addition, we have queried our CEE Advisory Board and other in the engineering community and the response was positive.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 1

2

Year 2

2

Year 3

2

Year 4

2

Year 5

2

Maximum enrollment which program can accommodate

20

Are there special restrictions on enrollments?

Yes

What are the special restrictions?

- Junior BS CE students
- Should meet the admission criteria to the BS/MS program listed above

Need for Program

Required for other programs?

No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?

Integrated BS/MS degrees in Civil & Environmental Engineering are becoming a national trend as employers expect deeper training and more qualifications for engineering graduates.

Who surveyed?
Over the last few years, CEE department chair and faculty queried the CEE Advisory Board, as well as local industry, who fully supported the program. The key is that the MS graduates from this degree will have the same credentials/degree as our current MS graduates. The main difference is that the new program will allow the MS along with the BS in a shorter time.

Engineering and Civil Engineering are identified employment categories on state and federal labor market reports and projections; see below.

How?
Advisory board meetings, telephone, email, and personal queries.

Job opportunities, including how these predictions were determined.

Now

Based on the Alaska Department of Labor on-line report, there are about 74 job openings for civil engineers each year in Alaska and about 25,820 in the entire US.
[http://live.laborstats.alaska.gov/occ/occ.cfm?o=172051]

National Science Foundation data indicates about 15,000 BS degrees in civil engineering each year and 6,000 MS degrees, thus a shortfall of 5000 civil engineers each year.
[https://nsf.gov/nsb/sei/edTool/data/engineering-01.html]

Two years from now

Expected to increase nationwide as the country's aging infrastructure must be repaired and replaced. Also, per several accounts, environmental engineering is one of the top-five engineering disciplines in terms of projected job growth in the next 10 years.

Five years from now

Same as above

Ten years from now

The Alaska DOL data indicates that 48% of the working civil engineers are over 45 years old, and 35 % are older than 50 years, indicating a likely increase in employment opportunities in the future, above the current 10-year prediction.

How have positions been filled to date?

Civil engineering positions in Alaska have been filled by our UAF graduates, UAA graduates, and graduates of other programs in the US.

Resource Impact

Budget

Budget.pdf (http://catalog.uaf.edu/courseleaf/archive/programadmin/326/1/Budget.pdf)

Facilities/Space Needs

NO SEPARATE OR ADDITIONAL BUDGET IS REQUESTED FOR THIS PROGRAM. The program will leverage existing facilities and resources. No additional facilities/space, budget, or faculty are needed.

Credit Hour Production

We expect an estimated increase of ~100 student credit hours, by the addition of this accelerated BS/MS program.

Faculty

This program uses existing faculty resources and courses in the CGEE department. No additional faculty or change in the current faculty workloads is expected.

Library/Media Materials, Equipment and Services

No additional requirements.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

- This proposed accelerated BS/MS program will help increase enrollments in our existing BS and MS courses in the CEE program at UAF.
- This program will also make our BS CE program more attractive.

Does it duplicate/approximate programs anywhere in the system?

Yes

What is the justification for the duplication?

Currently, a BS Civil Engineering program is offered both at MAUs: UAF and UAA; primarily because of the ever-growing demand for engineers in the state. Estimates say that even the two schools put together the number of engineering graduates falls short of the state needs.

Also, as discussed above, integrated BS/MS programs are a growing national trend and the BS/MS program is needed for our CE program to keep our students competitive in the engineering job market. As examples of this trend in the system, UAF mechanical engineering and UAA civil engineering have recently begun to offer such fast-track integrated BS/MS programs.

This proposed accelerated BS/MS program at UAF, however, will NOT compete with the similar fast-track program at UAA, because by their nature the fast-track programs draw students only from their existing BS CE programs.

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

The program will increase research training of students in the proposed program, and will be involved in faculty-led externally-funded research from a variety of sources.

Implementation/Termination

Plans for recruiting students

- The program will recruit from current BS CE students.
- Additionally, the integrated BS/MS program will be featured and highlighted in our current CEM recruiting efforts and programs.
- Will be highlighted on the CEM website.

Plans for phasing out program if it proves unsuccessful

As discussed above, fast-track programs are a growing national trend and we realistically do not expect the proposed program to be unsuccessful. Additionally, since the program places no additional demands on the department or college, any unforeseen phasing out should not be an issue.

Assessment of the program

The student learning outcome assessment is attached.

Prospectus.pdf (http://catalog.uaf.edu/courseleaf/archive/programadmin/326/1/Prospectus.pdf)

Rationale

Integrated BS/MS degrees in Civil & Environmental Engineering are becoming a national trend as employers expect deeper training and more qualifications for engineering graduates. Our civil engineering BS graduates are readily employable and earn competitive starting salaries. Further, they are in high demand by Alaskan employers, and readily employed outside Alaska as well. Had they gone to work with the BS, they would have received two years longevity at their work, and this differential is often more than the increment for an MS. Hence, very few of our BS students opt to stay on for an MS degree and thus many of our MS students are either international students or returning/working/military students, for whom the economics are quite different.

However if the current BS students can obtain the MS in about one additional year (along with the BS degree), with either funded research or an internship between the fourth and fifth year, the economics is now neutral or slightly favoring the MS. This economics

is one of the major drivers of the nationwide trend evidenced by many engineering schools now offering the fast-tack integrated BS/MS. The key is the efficient use of the senior undergraduate electives, which can be substitution of a graduate course or use of the elective to directly support later graduate courses. This use of the electives limits the program to very good students; in our case, we limit the program to civil engineering undergraduate students with a GPA over 3.25.

Other important considerations are noted below:

• Based on the Alaska Department of Labor on-line report, there are about 74 job openings for civil engineers each year in Alaska and about 25,820 in the entire US. Both UAF and UAA put together currently do not produce enough civil engineering graduates to fulfill the state needs.
[http://live.laborstats.alaska.gov/occ/occ.cfm?o=172051]

• National Science Foundation data indicates about 15,000 BS degrees awarded in civil engineering each year and 6,000 MS degrees. [https://nsf.gov/nsb/sei/edTool/data/engineering-01.html]. With the demand of 25, 820, there is a shortfall of almost 5000 civil engineers each year.

• Also, the Alaska DOL data indicates that 48% of the working civil engineers are over 45 years old, and 35 % are older than 50 years, indicating a likely increase in employment opportunities in the future, above the current 10-year prediction.

• The program demand is also expected to increase nationwide as the country's aging infrastructure must be repaired and replaced. Also, per several accounts, environmental engineering is one of the top-five engineering disciplines in terms of projected job growth in the next 10 years.

Additional Information

Two support letters from stakeholders regarding the proposed program are attached herewith.

Reviewer Comments

Santanu Khataniar (skhataniar) (Tue, 05 Nov 2019 02:03:31 GMT): Proposed program is well defined, all required documents seem to be in place. This program has the potential for increasing grad enrollment in civil. Does not have impact on resources at present, however, in view of CONTINUING and probably NEVER ENDING budget cuts, impact on resources in the long run needs to be evaluated carefully by the administration (Dean's level and higher).
Meryem Udden (maudden) (Mon, 25 Nov 2019 21:27:29 GMT): Rollback: Accidentally approved for CRC. Rolling back to fix mistake.
Peter Westley (pwestley) (Mon, 20 Jan 2020 23:10:01 GMT): Reviewed by CRC November 25, 2019. Email asking for revisions sent from Nicole Cundiff. Email thread attached. All changes made to CL. Approved by Peter Westley 1/20
Jennifer Carroll (jlcarroll) (Sun, 07 Feb 2021 21:24:45 GMT): Rollback: Graduate Academic Advisory Committee informed that a significant re-write is underway so we are rolling it back to facilitate this.
Peter Westley (pwestley) (Wed, 14 Apr 2021 18:03:55 GMT): A few questions emerged from my review, but are not impediments to approval: 1) Are the MS requirements in the BS/MS the same as just the MS? In particular, are GREs and GPA or other criteria used similarly? 2) Additional evidence on the strong point about UAA and UAF combined not being able to meet demand would be worthwhile. Just putting in the estimated numbers of open jobs vs. graduates would be worthwhile. 3) It is not entirely clear to me how this BS/MS would allow students to enter job force years earlier. Additional clarification on that point is useful and also honest for the students. They will definitely save money and some time, but we want to be clear on how much time is truly estimated to be saved for students.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Create an Accelerated Masters in Mathematics

MOTION:

The UAF Faculty Senate moves to approve a new Accelerated Master's in Mathematics, housed in the College of Natural Science and Mathematics.

Rationale: This program will allow academically highly-qualified mathematics majors to complete a BS and MS in mathematics at the same time, integrating some of the MS coursework into years 4 and 5 of their course of study, rather than students needing to complete a stand-alone BS degree and then take all their graduate coursework after completion of that degree. There may be a mild increase in SCH in the MS program. The main expected benefit is that it will encourage students who might otherwise not have considered completing an MS in mathematics to stay on one more year to complete an additional degree.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

College of Natural Science and Mathematics

Certificate or Degree Type
Accelerated Bachelor/Masters Program (A B/M)

Program Title
Mathematics, Combined Bachelor of Science and Masters of Science

Abbreviated Program Title
B.S./M.S., Mathematics

Program Code

Brief Program Statement
The combined Bachelors of Mathematics and Masters of Mathematics degree allows dedicated mathematics students to complete two degrees in a compressed time frame (typically, five years instead of six), while still maintaining the rigor and content of both degrees.

Admissions Requirements
- Current admission into a baccalaureate degree program
- At least a 3.0 cumulative GPA
- Completion of 24 credits in the undergraduate major program requirements
- Junior standing

Requirements for the Degree (catalog layout copy of the program)

Students must earn a C- grade or better in each course.

Total Credits		32

1 Fulfills the baccalaureate capstone requirement.

2 Acceptable electives include any 3- or 4-credit mathematics course at the 300-level or above.

3 Acceptable elective courses include any mathematics or statistics course at the F300 level or above, and CS F201. In some cases, courses with strong mathematical content from other disciplines may be used as electives. Such an elective must be approved by an advisor in the Department of Mathematics and Statistics.

4 Acceptable elective courses include any mathematics course at the F600 level or above. In some cases, courses with strong mathematical content from other disciplines may be used as electives. Such an elective must be approved by an advisor in the Department of Mathematics and Statistics.

Note: All mathematics majors must have an advisor from the Department of Mathematics and Statistics.

Note: At least 12 approved mathematics credits at the F300 level or above must be taken while in residence on the Fairbanks campus.

Program Goals

Brief identification of objectives and subsequent means for their evaluation

This program will allow academically highly-qualified mathematics majors to complete a BS and MS in mathematics at the same time, integrating some of the MS coursework into years 4 and 5 (typically) of their course of study, rather than students needing to complete a stand-alone BS degree and then take all their graduate coursework after completion of that degree.

Note that all the requirements of the BS in mathematics and the MS in mathematics are incorporated into this degree proposal.

Program success will be determined by whether or not students choose to apply to the program, and of the students who apply, how many complete, and in what time frame.

Relationship of program objectives to "Purposes of the University"

This proposal explicitly dovetail with the UAF Core Themes of
Educate: It provides incentive for mathematics majors to extend their study with an MS degree, with an easier transition into their graduate study (they do not have to go through the full application process for the MS degree.) It encourages students who might not otherwise consider graduate study to complete an MS.

Prepare: It helps prepare students for employment in quantitative fields.

Occupational/other competencies to be achieved

Students will receive a BS and and MS in mathematics at the end of the program.

Relationship of courses to the program objectives

The courses provide both breadth and depth of study for the standard mathematics curriculum. In particular, students are required to study the core mathematics topics of real and complex analysis, abstract algebra, and topology, at both the upper-division and graduate levels. In addition, students are allowed to choose other areas of mathematical interest as they like, through their choice of mathematics electives at both the undergraduate and graduate levels, allowing study of other pure or applied topics in mathematics.

Personnel directly involved with program

Enrollment Information

Projected enrollment/present enrollment

We project at most one student per year will enroll in this program; more likely is one student every couple of years.

How was projected/present enrollment determine? Who was surveyed and how?

Analysis of eligible students in our current undergraduate program, compared to UAF undergraduate math majors who have chosen to enroll in our masters program.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 1

0

Year 2

1

Year 3

0

Year 4

1

Year 5

0

Maximum enrollment which program can accommodate

15 - 30

Are there special restrictions on enrollments?

No

What are the special restrictions?

Need for Program

Required for other programs?

No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?

No surveys were done. This program combines two existing programs.

Job opportunities, including how these predictions were determined.

Now

Mathematics provides rigorous training in thinking that is highly valued in many careers. It develops your reasoning skills, and ability to analyze complex issues, far beyond the material you learn in courses. While the courses you take are not focused on preparing you for a particular job, the evidence is strong that the major provides a strong flexible background to pursue many options.

From the American Mathematical Society: "Mathematical research and education are at the heart of some careers, while other careers utilize mathematics and its applications to build and enhance important work in the sciences, business, finance, manufacturing, communications, and engineering."

http://www.ams.org/profession/career-info/career-index

From the US Bureau of Labor Statistics: https://www.bls.gov/ooh/math/mathematicians-and-statisticians.htm , the median pay is $92K per year, with typical entry level education of an MS. "Overall employment of mathematicians and statisticians is projected to grow 33 percent from 2019 to 2029, much faster than the average for all occupations. Businesses will need these workers to analyze the increasing volume of digital and electronic data."

Two years from now

Same as now.

Five years from now

Same as now.

Ten years from now

Same as now, although we expect increasing opportunities for students with high levels of quantitative training.

How have positions been filled to date?

Undergraduates enroll in the BS in Mathematics. Graduate students enroll in the MS in mathematics.

Resource Impact

Budget

Budget.pdf (http://catalog.uaf.edu/courseleaf/archive/programadmin/366/1/Budget.pdf)

Facilities/Space Needs

Everything in this program is already used for the two currently existing programs (MS Mathematics and BS Mathematics). There will be no new space needs. We do not anticipating offering students in this program office space, unless there happens to be extra student space in chapman.

Credit Hour Production

We anticipate an increase of 24 - 28 graduate SCH per year from this program (one student per year, taking a full load of graduate courses in their final year, plus two graduate courses in their fourth year).

Faculty

No new faculty are needed.

Library/Media Materials, Equipment and Services

No new materials are needed

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

UAF has the only graduate program in the state. This should not affect enrollments elsewhere. It is possible that students may choose to attend or transfer to UAF from elsewhere in the system to take advantage of this program.

Does it duplicate/approximate programs anywhere in the system?

No

What is the justification for the duplication?

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

This program has the potential to increase student enrollment in our graduate programs in mathematics, which may enhance the research production in mathematics.

Implementation/Termination

Plans for recruiting students

Let current students know about the program. Advertise the program on our web page.

Plans for phasing out program if it proves unsuccessful

We will continue to offer the MS and BS as individual programs. Students in the combined program will be able to complete it using the courses offered for those programs.

Assessment of the program

Because this program is combining two existing programs, student success in this program will be assessed using the current BS and MS SLOAs. Note that BS students will still be required to take the BS capstone course, MATH F490 Senior Seminar, which is where the ETS Fields Test is given (used in the undergraduate SLOA assessment). Students in this program will be eligible to take MS comprehensive exams at the end of their fourth or fifth year (fifth year will be more typical).

Prospectus.pdf (http://catalog.uaf.edu/courseleaf/archive/programadmin/366/1/Prospectus.pdf)

Rationale

While we do not anticipate significant increased enrollment from this proposal, we do feel that it will be attractive to a few students, and given that we are committed to offering both the BS Mathematics and the MS mathematics as stand0alone programs, there should be no cost in having the combined program as well. The main benefit is that it will encourage students who might otherwise not have considered completing an MS in mathematics to stay on one more year to complete an additional degree. We anticipate this will lead to a mild increase in SCH in our MS program.

Additional Information

Students who apply and are accepted to the program and decide to not complete it will be able to convert back to the BS Mathematics (Mathematics concentration) without difficulty in their senior year. All courses required for the BS mathematics are incorporated into the requirements of this program; this program simply specifies that they take Math F410 as one of the undergraduate electives and Math 404 (allocated to the graduate part of this proposal) as two of the seven required math electives for the BS Mathematics degree.

In terms of the "acceleration", we view this as a program where a student can get both an undergraduate degree in mathematics and an MS in mathematics, in 5 years, assuming that they either start in Calculus II in their first semester, or, if they start in Calculus I, by taking Calculus 3 as a summer course.

Differences between this program and the undergraduate Math BS+math concentration:
• in the undergraduate Math BS, students must take 5 undergraduate upper-division math electives (300- or 400-level) and 2 more undergraduate 300- or 400-level math/stats (or CS 201) electives, for a total of seven electives.
• In the combined Math BS/MS, students need to take 7 math electives; however
--one of those electives must be MATH F410 Complex Analysis
-- One of those electives must be MATH F404 Topology, which is also counted as part of the graduate courses.
• The ordinary Math BS requires 120 credits. In the combined program, 12 of those credits (Math 404, and 3 of the 600-level graduate electives) are double-counted between both the undergraduate and graduate part of the program, so that the combined program has a total of 138 credits. (Essentially, 9 of the graduate credits are replacing 9 undergraduate pure elective credits.)

Our undergraduate SLOA collects data using the ETS Fields test, given during MATH F490 which is required for this combined degree, it collects data via a transcript check, and it tracks recent graduates. We can do all these things for students in the combined degree at the point they graduate, so the BA/BS SLOA does not need to be modified to encompass these students in the combined degree. Similarly, the MS Math SLOA will apply to students in the combined program equally well as to the standalone program, so it does not need to be modified to take into account students in the combined program.

Supporting Documents

Reviewer Comments

Patricia Doak (pdoak) (Fri, 09 Apr 2021 01:36:05 GMT): CNSM Curr Review 4/8/2021: The proposal is generally in good shape. Our one major suggestion is that it would be helpful to have a statement up front (perhaps in the brief program statement) addressing how the acceleration is achieved. This would make it much easier for reviewers. In "Additional Information": "All courses required for the BS mathematics are incorporated into the requirements of this program; this program simply specifies that they take Math 410

and Math 404 (allocated to the graduate part of this proposal) as two of the seven required math electives for the BS Mathematics degree." -- confusing given that Math 410 does not seem to be listed as part of the graduate program.
Patricia Doak (pdoak) (Fri, 09 Apr 2021 01:36:34 GMT): Rollback: Please see comments for our suggestions.
Leah Berman Williams (lwberman) (Mon, 12 Apr 2021 00:34:31 GMT): I think I've addressed the CNSM curriculum committee concerns -- I've clarified what is double-counted, tried to clarify about MATH F410, and discussed SLOAS.
Peter Westley (pwestley) (Wed, 14 Apr 2021 18:27:34 GMT): This proposal is in great shape and I'm happy to approve. I deeply appreciate the clear delineation of credit hours that is missing from other proposals. If necessary I suggest we use this as a model.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Create an Accelerated Masters in Statistics

MOTION:

The UAF Faculty Senate moves to approve a new Accelerated Master's in Statistics, housed in the College of Natural Science and Mathematics.

Rationale: This program will allow academically highly-qualified statistics students to complete a BS in mathematics with a statistics concentration and MS in statistics at the same time, integrating MS coursework into years 4 and 5 of their course of study, rather than students needing to complete a stand-alone BS degree and then take all their graduate coursework after completion of that degree. The program will increase the visibility of the statistics program and allow students interested in statistics to easily find the program in the catalog. Currently, students cannot always find the statistics program because at the baccalaureate level statistics is a concentration of the mathematics degree.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

Program Code

Brief Program Statement
The combined Bachelors of Mathematics with a concentration in Statistics and Masters of Statistics degree allows dedicated statistics students to complete two degrees in a compressed time frame (typically, five years instead of six), while still maintaining the rigor and content of both degrees. Students will receive a BS in Mathematics with a concentration in Statistics, and an MS in Statistics.

Admissions Requirements
- Current admission into a baccalaureate degree program
- At least a 3.0 cumulative GPA
- Completion of 24 credits in the undergraduate major program requirements
- Junior standing

Requirements for the Degree (catalog layout copy of the program)

Students must earn a C- grade or better in each course.

Program Goals

Brief identification of objectives and subsequent means for their evaluation

This program will allow academically highly-qualified statistics students to complete a BS in mathematics with a statistics concentration and MS in statistics at the same time, integrating MS coursework into years 4 and 5 (typically) of their course of study, rather than students needing to complete a stand-alone BS degree and then take all their graduate coursework after completion of that degree.

Note that all the requirements of the statistics concentration of the BS in mathematics and the MS in statistics are incorporated into this degree proposal.

Program success will be determined by whether or not students choose to apply to the program, and of the students who apply, how many complete, and in what time frame.

Relationship of program objectives to "Purposes of the University"

This proposal explicitly dovetail with the UAF Core Themes of
Educate: It provides incentive for statistics students to extend their study with an MS degree, with an easier transition into their graduate study (they do not have to go through the full application process for the MS degree.)
Prepare: the program will prepare students more efficiently for quantitative degrees. Recent graduates have found employment in public sector such as Alaska Fish & Game and US Fish & Wildlife, with institutional research, and other industries.

Occupational/other competencies to be achieved

Students will receive a BS in mathematics with a concentration in statistics and an MS in Statistics at the end of the program.

Relationship of courses to the program objectives

The courses provide both breadth and depth of study. Students take courses in mathematics and statistics at the undergraduate level, and then have the opportunity for theoretical understanding of statistics through the three-semester Statistical Theory sequence, while still being able to focus on statistical areas of their own interest through their choice of statistical electives.

Enrollment Information

Projected enrollment/present enrollment

We project at most one student per year will enroll in this program; more likely is one student every couple of years.

How was projected/present enrollment determine? Who was surveyed and how?

Analysis of eligible students in our current undergraduate program, compared to UAF undergraduate math majors (statistics concentration) who have chosen to enroll in our masters program in statistics.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 1

0

Year 2
1
Year 3
0
Year 4
1
Year 5
0

Maximum enrollment which program can accommodate
15 - 30

Are there special restrictions on enrollments?
No

What are the special restrictions?

Need for Program

Required for other programs?
No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?
No surveys were done. This program combines two existing programs.

Job opportunities, including how these predictions were determined.

Now
From https://thisisstatistics.org/jobs-in-statistics/ a website of the American Statistical Association: "From helping companies understand consumer tastes and preferences to analyzing clinical research, statisticians are making sense of the world around us." Statisticians have jobs in Public Service, Health and Wellness, Technology, Environment and Science and many other industries.

From the US Bureau of Labor Statistics: https://www.bls.gov/ooh/math/mathematicians-and-statisticians.htm , the median pay is $92K per year, with typical entry level education of an MS. "Overall employment of mathematicians and statisticians is projected to grow 33 percent from 2019 to 2029, much faster than the average for all occupations. Businesses will need these workers to analyze the increasing volume of digital and electronic data."

Two years from now
Same as now.

Five years from now
Same as now.

Ten years from now
Same as now, although we expect increasing opportunities for students with high levels of quantitative training.

How have positions been filled to date?
Undergraduates enroll in the BS in Mathematics. Graduate students enroll in the MS in statistics.

Resource Impact

Budget
Budget.pdf (http://catalog.uaf.edu/courseleaf/archive/programadmin/367/1/Budget.pdf)

Facilities/Space Needs
No new facilities or space needs are anticipated.

Credit Hour Production
We anticipate 24 - 48 new graduate SCH per year. Hopefully this will increase with additional students.

Faculty

No new faculty are needed for this program. All courses are already taught for the two component pieces and they are not oversubscribed.

Library/Media Materials, Equipment and Services

No effect.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

We offer the only graduate program in statistics in the state. UAA and UAS both offer undergraduate courses in statistics. It is possible that some students will choose to attend UAF to take advantage of this program.

Does it duplicate/approximate programs anywhere in the system?

No

What is the justification for the duplication?

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

This program has the potential to increase student enrollment in our graduate programs in statistics, which may enhance the research production in statistics.

Implementation/Termination

Plans for recruiting students

Advertising to current students, putting information on our website. Possibly working with eCampus to recruit; the entire graduate program can be done synchronously by distance.

Plans for phasing out program if it proves unsuccessful

We will simply stop offering the combined program and students can take the corresponding stand-alone programs.

Assessment of the program

Assessment of the combined programs will be through the SLOA and other assessment processes (e.g, program review) for the stand-alone programs.

Rationale

One benefit of this program is that students interested in statistics can't always find our statistics program, because in the catalog it appears that all we offer at the baccalaureate level is a minor in statistics --- even though we offer what effectively is a degree in statistics, because it is the statistics concentration of the mathematics degree, it does not show up as an option in the catalog listings.

Since this degree will show up as named "statistics" it may help interested students become aware of our statistics offerings.

In addition, statistics and related areas, such as data science, are significant growth areas currently, so the time is right to develop programs to showcase our statistics expertise.

Additional Information

Students who choose to not complete the program in their fifth year should have taken all required courses for the BS Mathematics (statistics concentration) already, so transitioning back to the BS should be straightforward.

[In the first submission, the Technical Writing courses was inadvertently left out of the course list. The courses required for the undergraduate portion of this combined degree and those that are required for the statistics concentration of the Math BS are identical, except that STAT 402 is assigned to the graduate portion of this degree.]

In terms of the "acceleration", we view this as a program where a student can get both an undergraduate degree in mathematics and an MS in mathematics, in 5 years, assuming that they either start in Calculus II in their first semester, or, if they start in Calculus I, by taking Calculus 3 as a summer course.

Differences between this program and the undergraduate Math BS+stats concentration:
• in the undergraduate Math BS with Stats concentration, students must

• In the combined Stat BS/MS, students need to take the same courses required for the concentration in statistics of the math BS. However, one of the required courses, STAT F402 Sampling, is also counted as part of the graduate courses.
• The ordinary Math BS requires 120 credits. In the combined program, 12 of those credits (STAT 402, and 3 of the 600-level graduate electives) are double-counted between both the undergraduate and graduate part of the program, so that the combined program has a total of 138 credits. (Essentially, 9 of the graduate credits are replacing 9 undergraduate pure elective credits.)

Our undergraduate SLOA collects data using the ETS Fields test, given during STAT 454 Statistical Consulting Seminar which is required for this combined degree, it collects data via a transcript check, and it tracks recent graduates. We can do all these things for students in the combined degree at the point they graduate, so the BA/BS SLOA does not need to be modified to encompass these students in the combined degree. Similarly, the MS STAT SLOA will apply to students in the combined program equally well as to the standalone program, so it does not need to be modified to take into account students in the combined program.

Supporting Documents

Reviewer Comments

Patricia Doak (pdoak) (Fri, 09 Apr 2021 01:41:20 GMT): CNSM Curr Review 4/8/2021: As with the math proposal, it would be helpful to have a statement up front (perhaps in the brief program statement) addressing how the acceleration is achieved. If parts of the BS program are dropped from the BS/MS, it would help to provide a justification -- as with the removal of the ENGL 314 or 414 requirement. It would also be helpful to list the BS requirements for this degree in the same order as they are listed in the BS Math with Stats Concentration so that the lists of required courses can be easily compared.
Patricia Doak (pdoak) (Fri, 09 Apr 2021 01:41:39 GMT): Rollback: See comments.
Leah Berman Williams (lwberman) (Mon, 12 Apr 2021 00:36:28 GMT): Leaving off ENGL 314/414 the first time was an error, it was supposed to have been included. It's in there now. The courses required for the undergraduate portion should be identical to the BS Math Stats concentration, except for STAT 402 which has to be double-counted. Courses should be ordered correctly now.
Peter Westley (pwestley) (Wed, 14 Apr 2021 18:30:39 GMT): This is in great shape, I'd flag for approval. Again, I appreciate the attention to detail and clear description of the credit breakdown (which is really the crux of these proposals afterall)

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Create an Accelerated Masters in Chemistry

MOTION:

The UAF Faculty Senate moves to approve a new Accelerated Master's in Chemistry, housed in the College of Natural Science and Mathematics.

Rationale: The Chemistry BS/MS program is designed to assist students in earning both BS and MS degrees quicker and with less cost than earning the degrees individually. The BS/MS program will assist students in successfully preparing for post-graduate programs by helping students follow a curriculum specifically needed for developing successful licensing school applications or scientific careers, while enhancing their critical thinking skill sets, scientific knowledge, writing and presentation skill, and to be overall well-rounded professionals.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

Chemistry, Bachelor and Master of Science with options for Chemistry, Biochemistry and Neuroscience, and Environmental Chemistry concentrations

Abbreviated Program Title

Chemistry BS/MS program

Program Code

Brief Program Statement

The Chemistry BS/MS program with thesis or project prepares students for employment as research chemists in federal, state, municipal, academic or industrial laboratories, and in pre-medicine as laboratory technicians, industry supervisors and technical sales personnel. Graduates also find positions in the environmental sciences, oceanography and related interdisciplinary fields. Many chemistry graduates elect to pursue advanced PhD, pharmacology or MD degrees. The BS/MS program will assist students in successfully preparing for post-graduate programs by helping students follow a curriculum specifically needed for developing successful licensing school applications or scientific careers, while enhancing their critical thinking skill sets, scientific knowledge, writing and presentation skill, and to be overall well-rounded professionals.

The Chemistry BS/MS program is designed to assist students in earning both BS and MS degrees quicker and with less cost than earning the degrees individually. This is accomplished by having 12 credits of 400 and 600-level courses count as electives in both degrees. Additionally, in the program students begin to conduct research in a research laboratory at the beginning of their third year. This early research start will allow students to develop technical laboratory skills and to become familiar with their potential MS project early on in their program.

To complete the MS portion of this program, students will complete a research thesis or a project, in addition to the coursework. This will allow students to tailor their graduate studies to meet their interest and prospective career needs. Students pursuing a MS with research thesis will conduct laboratory research and produce a thesis generally equivalent to a manuscript for a peer-reviewed journal. Students pursuing a MS with a project will conduct a research project that may be based solely or partly in literature review / synthesis. This can include writing a review article or a different activity as decided by the students committee. To ensure the success of students in this program, students will need to be advised very carefully by their faculty advisor and committee.

Admissions Requirements

BS Applicants must:

- Be admitted to the Chemistry baccalaureate program and have at least junior standing.
- Have a 3.0 GPA, and have completed 24 of their undergraduate major requirements,
- Submit a study goal statement,
- Submit a UAF graduate application for admission.

Requirements for the Degree (catalog layout copy of the program)

Minimum Requirements for Chemistry B.S./M.S. Degree: 138 credits*

***Some concentrations may require greater than 138 credits.**

Code	Title	Credits
General University Requirements		
Complete the general university requirements. (http://catalog.uaf.edu/bachelors/)		

General Education Requirements

Complete the general education requirements. (http://catalog.uaf.edu/bachelors/general-education-requirements/)

As part of the general education requirements, complete:

MATH F251X	Calculus I	4
PHYS F123X and PHYS F124X	College Physics I and College Physics II	8
or PHYS F211X and PHYS F212X	General Physics I and General Physics II	

BS Degree Requirements

Complete the B.S. degree requirements. (http://catalog.uaf.edu/bachelors/summary-of-bachelors-degree-reqs/#bachelorofsciencetext)

Students must earn a C- or better in all the below courses in each program concentration.

BS Chemistry Core Requirements

Code	Title	Credits
CHEM F105X	General Chemistry I	4
CHEM F105L	Chemistry F105X Lab	0
CHEM F106X	General Chemistry II	4
CHEM F106L	Chemistry F106X Lab	0
CHEM F202	Basic Inorganic Chemistry	3
CHEM F212	Chemical Equilibrium and Analysis	4
CHEM F321	Organic Chemistry I	4
CHEM F325	Organic Chemistry II	4
CHEM F331	Physical Chemistry I	4
CHEM F332	Physical Chemistry II	4
CHEM F351	General Biochemistry: Metabolism	3
CHEM F434	Chemistry Capstone Laboratory	3
CHEM F481	Seminar	1
CHEM F482	Seminar	2

As part of the B.S. requirements, complete:

Code	Title	Credits
MATH F252X	Calculus II	4

As part of the ACS-certification, complete:

Code	Title	Credits
MATH F253X	Calculus III	4

Students must earn a C- or better in the above courses.

Students can choose to focus on three concentrations: Chemistry, Biochemistry and Neuroscience, and Environmental Chemistry. Below are the courses required for each concentration.

The below requirements must be met to earn a concentration in **Chemistry** in addition to the chemistry program, university, and GER requirements:

Complete one of the following options (3-5 credits):

Code	Title	Credits
CHEM F288	Introduction to Chemical Research	2
CHEM F488	Undergraduate Chemistry and Biochemistry Research	2-3

OR

Code	Title	Credits
CHEM F488	Undergraduate Chemistry and Biochemistry Research	3-4

Complete two of the following (6 credits):

Code	Title	Credits
CHEM F314	Analytical Instrumental Laboratory	3
CHEM F402	Inorganic Chemistry	3
CHEM F450	Information Storage and Transfer: Molecules and Pathways	3

Total Chemistry BS credits: 57-58

The below requirements must be met to earn a concentration in **Biochemistry and Neuroscience** in addition to the chemistry program, university, and GER requirements:

Code	Title	Credits
BIOL F115X	Fundamentals of Biology I	4
BIOL F115L	BIOL F115X Laboratory	0
BIOL F116X	Fundamentals of Biology II	4
BIOL F116L	BIOL F116X Laboratory	0
CHEM F450	Information Storage and Transfer: Molecules and Pathways	3
CHEM F488	Undergraduate Chemistry and Biochemistry Research	3

Complete 10 credits from the following: [1]

Code	Title	Credits
BIOL F240	Beginnings in Microbiology	4
BIOL F260	Principles of Genetics	4
BIOL F260L	BIOL F260 Laboratory	0
BIOL F310	Animal Physiology	4
BIOL F310L	BIOL F310 Laboratory	0
BIOL F342	Microbiology	4
BIOL F342L	BIOL F342 Laboratory	0
BIOL F402	Biomedical and Research Ethics	3
BIOL F417	Neurobiology	3
BIOL F462	Infectious Diseases	3
BIOL F465	Immunology	3
CHEM F360	Cell and Molecular Biology	3
CHEM F455	Environmental Toxicology	3
CHEM F470	Cellular and Molecular Neuroscience	3
CHEM F474	Neurochemistry	3

[1] Courses selected under these areas must meet baccalaureate degree requirements for 39 upper-division credits.

Total Biochemistry and Neuroscience BS credits: 72

The below requirements must be met to earn a concentration in **Environmental Chemistry** in addition to the chemistry program and university and GER requirements:

Code	Title	Credits
CHEM F314	Analytical Instrumental Laboratory	3
CHEM F488	Undergraduate Chemistry and Biochemistry Research	3

Complete two from the following (6-8 credits):

Code	Title	Credits
ATM F401	Introduction to Atmospheric Sciences	3
BIOL F240	Beginnings in Microbiology	4
BIOL F342	Microbiology	4
BIOL F457	Environmental Microbiology	3
GEOS F417	Introduction to Geochemistry	3
NRM F380	Soils and the Environment	3

Total Environmental BS credits: 60-62

MS portion of the Chemistry BS/MS program with Thesis or Project Requirements and Optional Concentrations In Biochemistry & Neuroscience and Environmental Chemistry

30 cr total, with at least 6 cr being project / thesis (F698 / F699)

No more than 12 cr thesis (F699) and no more than 6 cr project (F698)

At least 21 cr at the F600 level

Pass comprehensive exams

Present and defend thesis / project successfully

Two semesters of F688 or F691 (professional skills courses) is required

General University Requirements

Complete the general university requirements. (https://catalog.uaf.edu/graduate/mastersdegrees/#generaluniversityrequirementstext)

Master's Degree Requirements

Complete the master's degree requirements. (https://catalog.uaf.edu/graduate/mastersdegrees/#masterofsciencewithprojecttext)

Chemistry Program Requirements

Complete any deficiencies concurrently with this degree.

Thesis or Project Requirements

Complete the thesis or project option as described below.

Complete two credits of advisory committee-approved seminar courses from the two seminar course choices below. [1] (2 credits)

Code	Title	Credits
CHEM F691	Research Presentation Techniques	1
CHEM F688	Biochemical and Molecular Biology Seminar	1

Complete 6-9 credits from relevant advisory-committee approved graduate-level courses or select one of the following concentrations:

Biochemistry and Neuroscience

Environmental Chemistry

Complete 7-10 credits of courses approved by the advisory committee.

Thesis Option

Code	Title	Credits
CHEM F699	Thesis	6

Thesis credits or credits from courses that are F400-level or higher.[2]

Six (6) 400-level credits earned during the BS portion of the program count towards the MS.

Submit a committee-approved, written research-based thesis proposal and pass an oral comprehensive examination centered on the proposal.

Complete a committee-approved, research-based written thesis and pass an oral defense of the thesis.

Project Option

Code	Title	Credits
CHEM F698	Non-thesis Research/Project	6

Committee-approved courses that are F400-level or higher.[2]

Six (6) 400-level credits earned during the BS portion of the program count towards the MS.

Submit a committee-approved, literature-based written project proposal and pass an oral comprehensive examination centered on the proposal.

Complete a committee-approved, literature-based written project and pass an oral defense of the project.

[1]Students in the Biochemistry and Neuroscience concentration should take Biochemical and Molecular Biology Seminar and students in Environmental Chemistry concentration should take Research Presentation Techniques.

[2]The minimum credits required is 30. The required M.S. course work above represents 18 credits. The minimum number of thesis credits required is 6. For the thesis option the remaining 6 credits can either be thesis credits or courses at the F400-level or higher. For the project option, the remaining 6 credits can be courses at the F400-level or higher.

Optional Concentrations:

Biochemistry and Neuroscience

Complete 9 credits from the following list of core courses

Code	Title	Credits
CHEM F654	Protein Structure and Function	3
CHEM F657	Molecular Foundations of Gene Expression	3
CHEM F670	Cellular and Molecular Neuroscience	3
CHEM F674	Membrane Biochemistry and Biophysics	3
CHEM F675	Cellular Signaling	3

Environmental Chemistry

Complete 6 credits from the following list of core courses:

Code	Title	Credits
CHEM F606	Atmospheric Chemistry	3
CHEM F609	Aquatic and Environmental Geochemistry	3
CHEM F631	Environmental Fate and Transport	3
CHEM F655	Environmental Toxicology	3

See Biochemistry and Neuroscience (http://catalog.uaf.edu/graduate/graduate-degree-programs/biochemistry-neuroscience/).
See Environmental Chemistry (http://catalog.uaf.edu/graduate/graduate-degree-programs/environmental-chemistry/).

Sample course of study and a 3-Year Cycle of course offerings

Sample course of study can be found HERE (https://drive.google.com/file/d/1GrPy3cBX-OUeuCrcg46NNer0KYGDR7uS/view/?usp=sharing) (https://drive.google.com/file/d/1GrPy3cBX-OUeuCrcg46NNer0KYGDR7uS/view).

3-Year Cycle of Course Offerings:

- 100-level courses are offered at least yearly, if not every semester
- Most 200-400 level courses are offered yearly
  - The following courses are offered every other year: CHEM F470 Cellular and Molecular Neuroscience and CHEM F474 Neurochemistry
- Graduate courses are offered every other year

To ensure students take the necessary courses, they will work closely with their academic advisor. This will be especially important for the upper division courses as these are offered once a year or for graduate courses every other year.

Program Goals

Brief identification of objectives and subsequent means for their evaluation

Objectives: The objective of the BS/MS Chemistry program is to better prepare students to be competitive in the workforce, scientific careers, and pre-professional school admittance.

Biochemistry and Neuroscience concentration: Students who go on to professional schools (medical, dental, pharmacy, etc.) frequently need an additional year, either post-BS graduation or by completing a five year BS, to complete additional required course work and admission standardization tests. The proposed program will help students prepare for professional schools while obtaining both a BS and MS, ideally in five years. Obtaining a MS degree will likely improve the student's application and enhance their chances of pre-professional school admission.

Environmental Chemistry concentration: Students who are seeking careers in the environmental consulting, analytical laboratory industry, or state/government research (e.g. State of Alaska DEC, EPA, etc.) can enter at a higher pay rate by having additional training in the MS program. The research skills as documented by completion of project or thesis also increase preparation for working as a laboratory professional in these careers. Thus, spending one extra year to complete the BS/MS provides a significant added value to these students. Some students may also seek the BS/MS on their way to pursue further education in a Ph.D. or other program.

Evaluation: BS Evaluation: Students are required to satisfy UAF BS and MS requirements and graduate with at least a 2.0.

MS with Project/Thesis Evaluation: Students must graduate with at least a 3.0 in their graduate course work. Students will be required to pass a comprehensive exam composed of both written and oral components. Students are required to present and defend their research project/thesis.

Relationship of program objectives to "Purposes of the University"

The Chemistry BS/MS program will support training and research excellence through an anticipated accelerated combined degree program. The program aims to enhance student success in future careers or admittance into additional graduate programs and pre-professional schools. Additionally, this program will prepare students for active citizenship and a lifelong interest in learning. Graduated students will be prepared to enter the workforce as research chemists in federal, state, municipal, academic or industrial laboratories, and in pre-medicine as laboratory technicians, industry supervisors and technical sales personnel. This program will also prepare students to be chemistry teachers in addition to continuing their education at the PhD level or in pre-professional schools (such as medical, pharmacy, physical therapy, physician's assistant, dental, veterinary and nursing). Our program will also provide a technical base for chemistry teachers. Graduates find positions in the environmental sciences, oceanography and related interdisciplinary fields. Many chemistry graduates elect to pursue advanced PhD, pharmacy or MD degrees.

UAF Core Themes
Educate: Chemistry is a central science, serving the needs of many disciplines. We offer fundamental courses in chemistry that meet the needs of many majors on campus. We are the only American Chemical Society#certified BS program in the state of Alaska. We offer an emphasis in Environmental Chemistry and Biochemistry. We educate our BS and graduate students to be competitive at the national level.

Research: We prepare our students to engage in high-level research, and to effectively communicate that research both in oral and written form. All our majors are required to participate in research activities and to present their research. We encourage students to think critically and make discoveries.

Prepare: We prepare undergraduate students for the professional workforce in Chemistry. Many of our undergraduates find employment in the state of Alaska or pursue goals outside the state.
Connect: Our research is Alaska-centric, with studies in hibernation, environment of the arctic, and sled dogs. We strive to convince students of the relevancy of chemistry and biochemistry in their lives. We maintain advising for native and rural students at UAF.

Engage: We engage the Alaskan community by the publication of peer-reviewed manuscripts and the presentations of research at local, regional and national meetings. For example, our students present locally at the annual UAF Environmental Symposium and the One Health Research Conference of Alaska. Our faculty also engage with local government to find solutions to improve air quality in Alaska.

Chemistry is often deemed the "Central Science" because it is a subject that overlaps with and is essential to so many other disciplines, such as biology, geology, and engineering. Chemistry is uniquely central to the mission of the university.

Occupational/other competencies to be achieved

None

Relationship of courses to the program objectives

The Chemistry BS/MS program chosen courses will prepare students to be successful in their future careers or continuing education. The earned BS degree will be ACS-certified.

BS SLOA Objectives
1. Introductory courses provide fundamental chemical knowledge consistent with national standards for chemistry competency.

Courses that meet program objectives: General Chemistry (CHEM 105 and 106), Organic Chemistry (CHEM 321 and 325).

2. BS graduates attain baccalaureate level chemistry knowledge in accordance with American Chemical Society Guidelines.

Courses that meet program objectives: General Chemistry (CHEM F105 and F106), Organic Chemistry (CHEM F321 and F325), Basic Inorganic Chemistry (CHEM F202), Chemical Equilibrium and Analysis (CHEM F212), Analytical Instrumental Laboratory (CHEM F314), Physical Chemistry (CHEM F331 and F332), General Biochemistry: Metabolism (CHEM F351), Introduction to Chemical Research (CHEM F288), Undergraduate Research (CHEM F488), and Chemistry Capstone Laboratory (CHEM F434).

3a. Graduates will have problem solving, laboratory, and safety skills.

Courses that meet program objectives: General Chemistry (CHEM 105 and 106), Organic Chemistry (CHEM 321 and 325), Basic Inorganic Chemistry (CHEM 202), Chemical Equilibrium and Analysis (CHEM 212), Analytical Instrumental Laboratory (CHEM 314), Physical Chemistry (CHEM 331 and 332), General Biochemistry: Metabolism (CHEM 351), and Chemistry Capstone Laboratory (CHEM 434).

3b.Graduates will have hands-on experience with modern chemical instrumentation.
Courses that meet program objectives: Organic Chemistry (CHEM F321 and F325), Basic Inorganic Chemistry (CHEM F202), Analytical Instrumental Laboratory (CHEM F314), Physical Chemistry (CHEM F331 and F332), Introduction to chemical Research (CHEM F288), Undergraduate Research (CHEM F488), and Chemistry Capstone Laboratory (CHEM F434).

4.Communication skills.
4a. Oral: Students effectively communicate their work through oral/audiovisual presentations.
4b. Written: Student writing skills are consistent with professional standards.

Courses that meet program objectives: Seminar (CHEM F481 and F482), Undergraduate Research (CHEM F488) and Chemistry Capstone Laboratory (CHEM F434)

MS SLOA Objectives
1) Graduates attain a level of technical ability and knowledge to function as professionals in their discipline.

Courses that meet program objectives: All chemistry graduate courses and the students required involvement in research will fulfill this objective.

2) Masters graduates have performed research using technical, safety, and problem-solving skills to contribute to their field.

Courses that meet program objectives: Student's efforts in a research lab (CHEM F698)

3) Communication/presentation skills are consistent with professional standards.
Courses that meet program objectives: All graduate courses meet this objective.

Bill Simpson	Faculty	Design of program	Chem and Biochem Faculty

Enrollment Information

Projected enrollment/present enrollment

Once the Chemistry BS/MS program has been advertised, we expect that at least 12 students to be enrolled each year. This is based on our previous four year average for students enrolled in the MS program (Fa 2017: 11 students; Fa 2018: 15 students; Fa 2019: 12 students; Fa 2020: 11 students). We anticipate that by advertising in local high schools and other prospective undergraduates, we will have larger enrollment rates. The program is free for UAF to implement.

How was projected/present enrollment determine? Who was surveyed and how?

This information is not necessary for this program application. However, we anticipate that 12 students will be enrolled in the program yearly. This is based on our four-year student enrollment enrollment in our M.S. program.

This program will be free to implement, therefore minimal student participation in the program is necessary to maintain the program, although we anticipate that this will be a highly sought-after program.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 1

Year 5

1

Maximum enrollment which program can accommodate

no cap

Are there special restrictions on enrollments?

No

What are the special restrictions?

Need for Program

Required for other programs?

No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?

Five-year BS/MS programs are growing in popularity and are appealing to current and prospective students. The ability for students to graduate potentially in five years with BS and MS degrees will increase their competitiveness and time in the workforce. Below are some employment market needs that this program would address:
In-state professional training serving to enhance AK workforce
Improved success rates and placement for employment and post-graduate professional training of UAF students (medical, veterinary, dental, pharmacy, physician assistant, and physical therapy)
More in-depth research experiences and contributions to scholarly activities (i.e. hands-on learning, presentations and publications)
Additional professional skills development
Students in the Biochemistry and Neuroscience concentration program will receive a MS while working on pre-professional school applications, enhancing acceptance rate
Increase student competitiveness in the workforce, including management positions

The national job outlook for Chemists at the BS level is good, with unemployment at 3.3% (see link below). However, unemployment for chemists with only a BS was higher than with an MS (2.1%) or PhD (2.5%). In the Pacific region of the US, the average salary for a BS chemistry is $86,000. The general consensus is that prospects for employment in the chemical industry is much improved with an MS degree. Alaska does not have much chemical industry; however, we have noted that a significant number of our graduates have found employment with local companies engaged in environmental remediation. Government employment is also possible, since environmental regulation in Alaska will continue to be important. Many of our graduates, especially in Biochemistry, pursue opportunities in health fields, such as medicine, nursing, dentistry and pharmaceutical science.

https://cen.acs.org/careers/salaries/What-US-chemists-make-according-to-the-2019-ACS-salary-survey/97/i43

Who surveyed? How?
This information is not needed at this time. However, an informal survey of current undergraduate and graduate students, and UAF alumni identified that these individuals would have pursued entering the BS/MS in Chemistry program if it had been available. Currently 3 of our MS students received their BS degrees from UAF. It is expected that had a BS/MS program been available to these students, they would have pursued the BS/MS option.

Job opportunities, including how these predictions were determined.

Now

Research chemists in federal, state, municipal, academic or industrial laboratories, and in pre-medicine as laboratory technicians, industry supervisors and technical sales personnel. This program will provide the background for secondary education chemistry teachers. Graduates may also find positions in the environmental sciences, oceanography and related interdisciplinary fields. Many chemistry graduates elect to pursue advanced PhD or pursue admittance into pre-professional medical programs (medical, pharmacy, physical therapy, physician's assistant, dental, veterinary, and nursing).

Two years from now

In two years from now, we may be graduating some of our first participants in the BS/MS program. We anticipate that these students will have a higher success rate at obtaining jobs or being accepted into a pre-professional program.

Five years from now

In five years, our first cohort of students who “started” the BS/MS program as freshmen should have graduated (note, acceptance into the program does not occur until after meeting the program requirements including having junior standing). We anticipate that these students will be highly successful at obtaining jobs or being accepted into a pre-professional program.

Ten years from now

We anticipate that UAF students who participate in this program will be highly competitive in the job market and earn acceptance into pre-professional programs.

How have positions been filled to date?

These positions have been filled to date by students who have obtained a BS degree, or those who earned an MS. To be more competitive in the workforce or being accepted into pre-professional programs, students often choose to return to school after achieving their BS degrees to earn a MS degree (or higher) to increase their competitiveness and earning potential. The proposed program would facilitate students to earn both BS and MS degrees quicker then earning these degrees individually.

Resource Impact

Budget

Budget.pdf (http://catalog.uaf.edu/courseleaf/archive/programadmin/370/1/Budget.pdf)

Facilities/Space Needs

This program will be free to implement as no new courses are needed, and the Chemistry Department has all of the facilities, space and resources. We anticipate that the program will be popular among our traditional BS chemistry students. Due to the high demand of these types of programs nationwide, we anticipate that this new BS/MS program would attract local high school students and students from other locations to UAF. This will generate additional tuition funds as students will be at UAF for at least an additional year to complete the BS/MS program, in comparison to students only seeking a BS degree. Importantly, students pursuing this program will increase enrollment in our graduate program.

Credit Hour Production

The Chemistry BS/MS program is estimated to enroll at least one student per year, although it is expected to be a more popular program given that it will prepare students for pre-professional schools and advance placement in the workforce. Further, the Chemistry MS program has on average 12 students enrolled each year, therefore it seems likely that more than one student per year will join the new program. Considering the conservative perspective of one student, courses without a lab component the credit hour production will be at least 3 (1 student * 3 credit hours for the course). For courses with a lab, the credit hour products will be at least 4 (1 student * 4 credit hours). Considering our current MS student enrollment of 12 students, courses without a lab component the credit hour production will be at 36 (12 students * 3 credit hours for the course). For courses with a lab, the credit hour products will be 48 (12 students * 4 credit hours).

Library/Media Materials, Equipment and Services

Nothing beyond what current students use. Access to current chemical literature (e.g. scientific journals) is required for productive undergraduate and graduate education and also for maintaining ACS certification of our BS program.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

This program is anticipated to attract new students to UAF who are interested in earning degrees in Chemistry, Biochemistry, Neuroscience and Environmental Chemistry. These new students will be required to take chemistry courses and general university requirements for undergraduates (departments to be affected include English, Math, Physics, Biology, Anthropology, Sociology, and Art). Graduate courses will be mostly offered by the Chemistry Department, but students can elect to take graduate courses that are applicable to their research projects and will likely be offered by Biology, Geosciences or other related departments.

Does it duplicate/approximate programs anywhere in the system?

No

What is the justification for the duplication?

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

Enrolled students will be required to complete a research project such as writing a topic review article, or a research thesis. These efforts will produce research ideas and data that can be used in grants and peer-reviewed publications. These activities will make UAF research faculty more competitive for grant awards and have enhanced outreach in the scientific community. These activities are likely to generate successful grant awards and collaborations, and help to move UAF towards the goal of becoming a Tier 1 research university.

Implementation/Termination

Plans for recruiting students

Advertisement will occur in the course catalog, in courses, and on social media (Facebook and twitter). Additional outreach will be done at local conferences and CNSM's student recruiter will promote the program. CNSM will update their one-page fliers to include information regarding the new chemistry BS/MS program and discuss the program with potential students. Admissions Counselors will also be informed of our new program so Admissions can also promote the program. Outreach efforts at local high schools are also likely to be successful recruiting efforts.

Plans for phasing out program if it proves unsuccessful

If unsuccessful, students will not continue to be allowed to enter into the program. Current students in the program will be allowed to complete the course work to earn their degrees. As no new courses are needed for the proposed program, these students will have timely access to all of the needed coursework.

Assessment of the program

Undergraduate Assessment:
1) American Chemical Society exams will be administered for General Chemistry I Chem F105X (one semester exam), General Chemistry II F106X (one semester exam), Organic Chemistry I and II (two semester exam), and Capstone Chemistry (F434).

2) Seminars by undergraduate students will be evaluated in written form by peers and faculty in the Chemistry Seminar sequence (Chem F481 and F482). These evaluation forms will be assessed in terms of organization, knowledge, visual aids, and overall strengths and weaknesses of the presentation. The data will be analyzed and assessed by the instructor.

3) Written reports for Chemistry & Biochemistry research students (Chem F488) will be collected, evaluated and archived for future accreditation purposes by the American Chemical Society.

4) Research posters will be presented by undergraduate research students judged by faculty at the annual URSA Research Day at UAF in April, or at a similar presentation opportunity.

MS Assessment:
1) Students will be assessed at all committee meetings and defenses on a 7-point rubric. Students will be assessed with respect to specific criteria and graded as deficient compared to expectations (-1), meeting expectations (0), or exceeding expectations (+1).

2) Students must pass their comprehensive exams.

3) Students completing a MS with Thesis will write and orally defend a research proposal at the end of their first year.

4) Students pursuing a MS with Project will complete their comprehensive exams once they have completed taking the core coursework. Comprehensive exams will be composed of written and oral responses to questions from the student's core course work.

5) Students enrolled in the BS/MS program will be required to write and orally defend a research project by the end of their final program year.

6) Students completing a MS with Thesis must successfully defend their research project.

7) Students completing a MS with Project defense will be based mostly on their coursework and some on their project.

Rationale

The proposed Chemistry BS/MS program will be, if approved, an excellent opportunity for students to enhance their earning potential, and admission success rate to graduate and pre-professional schools. We anticipate that this program will recruit students to UAF and to our department, thus increasing enrollment. This program is free to implement as the Chemistry and Biochemistry Department has all of the necessary courses, instrumentation, space, and other facilities.

Additional Information

Thanks to the committee for taking the time to review our proposal. Below is how we addressed each suggestion.

1) It would be helpful to have a statement up front (perhaps in the brief program statement) addressing how the acceleration is achieved. This would make it much easier for reviewers.

This information has been added into the “Brief Program Statement” section.

2) The proposal contains a lot more detail than necessary. Editing the text to only contain the essential elements will help a lot with the clarity.

Text had been trimmed.

3) There needs to be more clarity on the difference between a thesis and a project. This and the way that the thesis and project options are listed in the "Requirements for the degree" should be aligned between this proposal and the MS Chemistry proposal.

Additional wording has been added to further explain the difference between the project and thesis MS program. The MS program here should now match the MS Chemistry proposal.

4) Under "Requirements for the Degree": Start with the Degree name and total required credits. You can link to some information (general university requirements, GER requirements) rather than listing it here.
Fixed.

5) Remove some redundant text -- e.g., the requirement for a grade of C- or better is repeated many times.

Removed.

6) Under "Assessment of the program" it states that "MS students will be required to present at a local, regional, national or international meeting." This is not listed as a degree requirement. If it is actually a requirement for MS students it should be listed as a degree requirement.

Removed.

7) Under "Sample course of study" it says that 200-400 level courses are offered yearly, but there are some 400 level courses that are offered only in alternative years.

Added “Most” to the statement and followed with a list of 400-level courses that are offered alternating years.

Supporting Documents

Reviewer Comments

Patricia Doak (pdoak) (Fri, 09 Apr 2021 02:24:07 GMT): CNSM Curr Review 4/8/2021: The committee thought that the basic plan for the accelerated BS/MS was fine, but we have some suggestions for improving the proposal: It would be helpful to have a statement up front (perhaps in the brief program statement) addressing how the acceleration is achieved. This would make it much easier for reviewers. The proposal contains a lot more detail than necessary. Editing the text to only contain the essential elements will help a lot with the clarity. There needs to be more clarity on the difference between a thesis and a project. This and the way that the thesis and project options are listed in the "Requirements for the degree" should be aligned between this proposal and the MS Chemistry proposal. Under "Requirements for the Degree": Start with the Degree name and total required credits. You can link to some information (general university requirements, GER requirements) rather than listing it here. Remove some redundant text -- e.g., the requirement for a grade of C- or better is repeated many times. Under "Assessment of the program" it states that "MS students will be required to present at a local, regional, national or international meeting." This is not listed as a degree requirement. If it is actually a requirement for MS students it should be listed as a degree requirement. Under "Sample course of study" it says that 200-400 level courses are offered yearly, but there are some 400 level courses that are offered only in alternative years.
Patricia Doak (pdoak) (Fri, 09 Apr 2021 02:24:47 GMT): Rollback: Please see comments.
Peter Westley (pwestley) (Wed, 14 Apr 2021 18:22:23 GMT): My biggest question is around TOTAL minimum credits needed to graduate in the BS/MS in each concentration. My addition suggested that the TOTAL could be quite less than the 108 minimum I understood to be allowed. For example, if I understood the proposal, the neruscience concentration BS would be 72 (BS) and 30 (MS) = 102. That seems pretty short for a combined degree. Apologies if I missed this clearly laid out in the proposal.
Jennifer Carroll (jlcarroll) (Wed, 21 Apr 2021 23:57:02 GMT): This is the most complex BS/MS submitted so far and we are still working on some issues (for example, how to describe the 6 BS credits that can count in the MS in the catalog layout) as well as formatting, but the basic structure of the program is sound.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Create an Accelerated Masters in Applied Linguistics

MOTION:

The UAF Faculty Senate moves to approve a new Accelerated Master's in Applied Linguistics, housed in the College of Liberal Arts.

Rationale: The Accelerated MA in Applied Linguistics provides students with a thorough background in second language acquisition, language teaching and assessment. Graduates from the program are well prepared to teach in language classrooms, both at home and abroad, or enter the PhD program of their choice. The Accelerated BA to MA will allow the Linguistics program to recruit and prepare our strongest undergraduate students for the job market and/or further graduate work in Applied Linguistics.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

Program Code

Brief Program Statement

The Accelerated MA in Applied Linguistics provides students with a thorough background in second language acquisition, language teaching and assessment. Graduates from the program are well prepared to teach in language classrooms, both at home and abroad, or enter the PhD program of their choice.

Admissions Requirements

Students entering the Accelerated Masters in Applied Linguistics must:

1. Be admitted into the BA in Linguistics
2. Have completed a minimum of 24 credits toward the BA in Linguistics, including LING 101, 318, 320, 315, 302; and ENGL 318.
3. Have a minimum 3.0 GPA overall and a 3.5 GPA in Linguistics.
4. Obtain a letter of recommendation from a current Linguistics Faculty member who is willing to serve as Chair of their graduate committee.
5. Junior standing

Requirements for the Degree (catalog layout copy of the program)

Minimum Requirements for Applied Linguistics B.A./M.A. Degree: 138 credits

Students must satisfy the General University Requirements for minimum grades for the respective B.A. or M.A. program (major) requirements.

1 It is recommended that at least one of the languages be other than an Indo-European language.

2 Except for the minor complex. A minor complex is not required for accelerated Master's of Arts.

3 Per Graduate School rules, up to 6 credits of committee-approved elective credit at the 400 level may be counted toward a graduate degree.

4 Students pursuing postcertification endorsement in second language acquisition, bilingual education and literacy must complete ED F601, ED F670, ED F673 and ED F683.

Sample course of study and a 3-Year Cycle of course offerings

The following course of study incorporates both the BA and MA coursework beginning in the Freshman year. All 600-level courses and marked 400-level courses (LING 410, LING 450, LING 481, LING 482) will be applied to the MA portion of the program.

The existing BA requires two languages. One year of Language 1 is required as part of the GER. Two years of Language 2 is required as part of the BA requirements. Students in the Accelerated MA program are required to complete a third year of Language 2 (the equivalent of a minor in that language).

Program Goals

Brief identification of objectives and subsequent means for their evaluation

Objective 1: Students will have an extensive understanding of the current literature and practice in the fields of second language acquisition, language teaching and assessment.
Evaluation: Comprehensive Examination; Portfolio in LING 610 Teaching Methods; Observation as part of LING 660 Apprenticeship
Objective 2: Students will develop an understanding applied 2nd language research methods to improve the acquisition outcomes for students.
Evaluation: Proposal Defense & Thesis/Project Defense
Objective 3: Students will well prepared for entry into the job market or the PhD program of their choice.
Evaluation: Pre-graduation survey (administered in the same semester as Defense); Post-graduation or '1-year' survey (administered 1-year after graduation)

Relationship of program objectives to "Purposes of the University"

Candidates in the Accelerated Maters in Applied Linguistics will experience hands on education and training (including LING 660 Practicum), engage in research (thesis or project) that will prepare them for a career in language teaching and related fields immediately upon graduation.

Occupational/other competencies to be achieved

Graduates will be well qualified to teach the languages in which they specialize, especially English in adult and overseas contexts.
Graduates will be well qualified to continue linguistics research at the PhD level.
Graduates will be highly competitive when applying for PhD programs.

Relationship of courses to the program objectives

Objective 1: Understanding of literature and practice
All students will complete extensive coursework in (a) second language acquisition and teaching (LING 302-410-602-610) (b) experiential language teaching (LING 451-660) and (c) materials and assessment
(LING 611).
Objective 2: Understanding of research methods
All students will complete extensive coursework in research methods (LING 481-482-600).
All students will complete a thesis or project (LING 698/699).
Objective 3: Market preparation
All students will complete LING 481 ***** in their senior year.
All students will be mentored by their Advisor/Chair throughout the program such that the thesis/project is tailored to facilitate their desired career path.

Personnel directly involved with program

Name	Staff classification	Duties	Qualifications
Sabine Siekmann	Faculty	Teach Courses; Chair Committees; Advise Students	PhD in Second Language Acquisition and Instructional Technology; Specialization in 2nd Language Acquisition, Teaching Methods, Computer Assisted Language Learning
Patrick Marlow	Faculty	Teach Courses; Chair Committees; Advise Students	PhD in Linguistics; Specialization in Socio-linguistics, language policy and planning
Wendy Martelle	Faculty	Teach Courses; Chair Committees; Advise Students	PhD in Applied Linguistics; Specialization in 2nd Language Acquisition, Teaching Methods, ESL and Russian.
Eve Ryan	Faculty	Teach Courses; Chair Committees; Advise Students	PhD in Education; Specialization in 2nd Language Acquisition, Teaching Methods, Assessment
Robin Shoaps	Faculty	Teach Courses; Chair Committees; Advise Students	PhD in Linguistics; Specialization in Linguistic Anthropology

Anna Berge	Faculty	Teach Courses; Chair Committees; Advise Students	PhD in Linguistics; Specialization in Eskimo-Aleut Languages

Enrollment Information

Projected enrollment/present enrollment

Present Enrollment: stable at 8 MA students. Turnover of 2-3 students annually.
Projected Enrollment:
Year 1: 2 Accelerated MA students enter (2+8=10 total MA)
Year 2: 2 Accelerated MA students (10+2=12 total MA)
Year 3: 3 Accelerated MA students enter and 2 complete the program (12+3-2=13 total MA)
Year 4: 3 Accelerated MA students enter and 2 complete the program (13+3-2=14 total MA)
Year 5: 3 Accelerated MA students enter and 3 complete the program (13+3-3=14 total MA)

How was projected/present enrollment determine? Who was surveyed and how?

Present enrollment represents all active MA candidates. Enrollment is relatively stable with annual graduations roughly equivalent to new enrollments.

Projected growth in the MA program represents 1/3 of the total number of students currently meeting all necessary entrance criteria.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 1

8

Year 2

9

Year 3

10

Year 4

11

Year 5

12

Maximum enrollment which program can accommodate

15-20

Are there special restrictions on enrollments?

No

What are the special restrictions?

Need for Program

Required for other programs?

No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?

Information has been taken from reputable online sources.
International TEFL Academy (https://www.internationalteflacademy.com/)
The Career Project (https://www.thecareerproject.org/)
Bureau of Labor Statistics (https://www.bls.gov/)

Job opportunities, including how these predictions were determined.

Now

Jobs Abroad: >100,000 ESL jobs across 50+ countries each year. (International TEFL Academy).
Jobs Abroad: Foreign Service and International Business (The Career Project).
Jobs Domestic: 60,000 Adult ESL jobs annually. (Bureau of Labor Statistics)

Two years from now

Unavailable.

Five years from now

Jobs Abroad: ESL jobs are expected to grow 7.1% by 2025 (Globe News Wire)

Ten years from now

Jobs Domestic: Adult ESL Jobs are expected to decline 10% by 2029. (Bureau of Labor Statistics.)

How have positions been filled to date?

UAF Graduates with a SLATE focus have worked in ESL jobs both domestically and abroad.
Additional UAF graduates would be enter a booming job market.

Resource Impact

Budget

Resource-Commitment-Form Accelerated BA-MA.docx (http://catalog.uaf.edu/courseleaf/archive/programadmin/360/1/Resource-Commitment-Form%20Accelerated%20BA-MA.docx)

Facilities/Space Needs

None. Current space is adequate for the program.

Credit Hour Production

Assumptions:
1. Basic MA program remains stable at 8 candidates annually (8*18 credits =144 credit hours)
2. Accelerated MA candidates take UG credit only in Junior year, 6 G credits in Senior year; 15 G credits in final year in the program).
3. Running percentage (RP) compares current year credit hour production with previous year credit hour production (e.g., Year 4/Year 3); Overall percentage (OP) increase compares the current year credit hour production with a base program credit hour production of 144 credits.

Year 1: RP. 0% OP. 0% (2 Accelerated MA candidates take UG credit only)
Year 2: RP. 8% OP. 8% (2 candidates take 6 G credits each; 2 take UG credit only)
Year 3: RP.19% OP.20% (2 take 15 G credits each; 2 take 6 G credits; 3 take UG credit only)
Year 4: RP. 3% OP.33% (2 take 15 G credits; 3 take 6 G credits; 3 take UG credit only)
Year 5: RP. 8% OP.44% (3 take 15 G credits; 3 take 6 G credits; 3 take UG credit only)

Faculty

Current faculty, including one term-assistant professor, is adequate to support this program.

Library/Media Materials, Equipment and Services

As this is a modification of the existing MA, no changes in Library/Media services is expected.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

We do not anticipate any negative impact on enrollments anywhere in the system.
However, students in English, Foreign Languages and Alaska Native languages may also benefit from this program change.

Does it duplicate/approximate programs anywhere in the system?

No

What is the justification for the duplication?

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

As the Accelerated MA builds on the existing BA and MA programs in Linguistics, we do not anticipate any impact on research and service activities of faculty.

Implementation/Termination

Plans for recruiting students

Year 1: Faculty directly invite talented undergraduates enrolled in LING BA to apply.
Year 2: Working with faculty in English, Foreign Languages and Alaska Native Languages faculty will identify and invite talented TESOL or LING minors to declare a double major and apply for the Accelerated MA.

Year 3: Formally advertise Accelerated MA student achievements and job placements through Departmental websites (LING, English, Foreign Languages, Alaska Native Languages, etc.).

Plans for phasing out program if it proves unsuccessful

If the program does not meet minimum enrollment numbers (i.e., 3 Accelerated Master's students enrolled in the program in Year 5), the program may be discontinued or restructured.

Prospectus.pdf (http://catalog.uaf.edu/courseleaf/archive/programadmin/360/1/Prospectus.pdf)

Rationale

The Accelerated BA to MA will allow the Linguistics program to recruit and prepare our strongest undergraduate students for the job market and/or further graduate work in Applied Linguistics.

Once in place, the Linguistics faculty are committed to collaborating with Foreign Languages and English to identify and recruit potential double majors, or if the demand is sufficient, work with those programs to enable their majors to enter directly into the Accelerated program in Linguistics.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Establish Graduate Admissions Out of Status 2-year Limit Policy

MOTION:

The Faculty Senate moves to establish a graduate admissions policy for students who are out of status for 2 years.

Rationale: The current policy for students who have been inactive for two years or more is for students to be "reinstated" and does not provide an official process for programs to review and readmit students. Programs need a way to formally address students who have been gone for multiple years but are still within their 7 or 10 year time-limit and have older courses. It will allow for the department to reach out to the applicant to determine whether or not the applicant's old courses are still relevant and evaluate them for readmission. The proposed policy will match existing practice and match the undergraduate policy.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

Graduate admissions out of status 2-year limit policy

- Registration Requirement
  Graduate students must be registered for at least 6 credits per academic year (fall, spring, summer), at the graduate or F400-level in courses relevant to the graduate degree, while actively working toward a degree. Those who wish to temporarily suspend their studies should obtain an approved leave of absence.

  Additionally, graduate students must be registered in both the semester that they defend their projects, theses, and dissertations as well as the semester in which they receive their degrees, if not the same as the semester they defend, as per the University Graduation requirements.

  Graduate degree-seeking students who are enrolled in six credits per academic year (fall, spring, summer) are eligible to register for the next academic year. Those students who earn fewer than six credits per academic year become inactive in their program. To reactivate their program students must reinstate in their program and register for courses in the same semester that they reinstate. Students who register for courses without reinstating will be considered non-degree seeking. Please contact the Graduate School for further information at uaf-grad-school@alaska.edu

- Temporary Leave of Absence
  A graduate student can obtain an approved leave of absence if they need to temporarily suspend their studies while earning their degree. This suspension does not pause the time-limit for completion of their degree (Master's 7 years and PhDs 10 years). Students who do not ~~gister for at least 6 graduate or F400-level credits in a school year (fall, spring or summer semester) or to not~~ obtain a leave of absence, will have to be reinstated or readmitted (depending on the length of time you are inactive) before registering and resuming their graduate studies. Please contact the Graduate School for further information at uaf-grad-school@alaska.edu.

- Readmission
  If more than two years have passed without meeting the registration requirements, the student will be required to reapply for admission.

  Students should submit a graduate application for admission along with the application fee and supporting application materials. Students who are unsure about their status should contact the Graduate School at uaf-grad-school@alaska.edu.

The following motion passed at Faculty Senate meeting #256 on May 3, 2021:

Motion to Establish a Permanent Committee on Teaching and Learning

MOTION:

The Faculty Senate moves to establish a Permanent Committee of the Faculty Senate on Teaching and Learning.

Rationale: In December 2019, the Faculty Senate established an Ad Hoc Committee on Distance Education to provide proactive faculty leadership in distance education. After extensive discussion, the Ad Hoc committee determined that distance education was not a separate category of education and that it was important that there be a permanent Faculty Senate committee providing proactive faculty leadership in teaching and learning across all disciplines and modalities. The Ad Hoc committee requested that a permanent committee be formed to elevate teaching and learning and provide faculty guidance.

A final version of committee membership will be brought to the second Faculty Senate meeting of 2021-2022 for approval by the Faculty Senate.

****

Section 3 (ART. V Committees)
PERMANENT
10. The Teaching and Learning Committee. The purpose of the Committee on Teaching and Learning is to maintain and promote a culture of quality education and quality pedagogy at the University of Alaska Fairbanks through identifying, disseminating, and supporting contributions to best practices in teaching across all disciplines and teaching modalities.

The membership of the Teaching and Learning Committee shall consist of *at least* one faculty member from each college and school, one member from CAC or GAAC unless not already represented by college or school faculty) one undergraduate student *across each modality,* one graduate student, ex-officio representatives from eCampus Instructional Design Team, OIT, and the Pedagogy Representative for the Provost's Faculty Development Team.

Inaugural Faculty Citizen Award

The Faculty Citizen Award honors a faculty member who exemplifies the principles of academic citizenship with a strong commitment to the University of Alaska's core values and its student community. The awardee will be a faculty holding a lengthy and well-recognized record of active engagement, participation and leadership in activities pertaining to faculty function and commitment to their constituency, to their students, to their colleagues, to their discipline/profession, to the university at large and the Alaskan public. Faculty Citizen Awardees consist of a small cadre of committed professors across the University System whose names evoke immediate acknowledgement and respect for their deep understanding of faculty matters and their balanced judgement on what relates to shared governance and the interaction between Faculty Senate, the University Administration, and the Board of Regents.

WHEREAS, Professor Debasmita (Debu) Misra has selflessly invested endless hours mentoring junior faculty members and has also given generously of his time to guide faculty colleagues through difficult challenges; and the tenure and promotion process; and

WHEREAS, Debu Misra has provided meaningful contributions and improvements to the tenure process of faculty and actively engaged in the functions of a Faculty Senator, including as Faculty Senate President; and

WHEREAS, Debu Misra has worked with senior leadership in the University of Alaska Fairbanks to add faculty seats to the Chancellor's Cabinet, Provost's Council, Provost's Research Working Group, and numerous statewide committees, thus ensuring that faculty have some voice in these entities; and

WHEREAS, Debu Misra has willingly and effectively served on important committees which were over and above his assigned duties; and

WHEREAS, Debu Misra has consistently dedicated himself to the highest principles of shared governance, as demonstrated by his sustained involvement and invaluable participation in advocacy on behalf of faculty; and

WHEREAS, Debu Misra has worked tirelessly to organize faculty and improve the working conditions throughout the University of Alaska system; and

WHEREAS, Debu Misra's collaborative efforts have unified faculty from across the three universities in the University of Alaska system and contributed to a spirit of solidarity and shared purpose of delivering high quality public higher education in Alaska; and

WHEREAS, Debu Misra is a university asset who has logged many successes at changing the work environment in positive ways for faculty; and

WHEREAS, Debu Misra has served on the UAF Planning and Budget committee and UAF Administrative Structure Review committee to work collaboratively with administration, faculty, staff and students to optimize or balance the budget, especially during changing needs of the academy; and

WHEREAS, Debu Misra served on the UAF Strategic Enrollment Planning Committee, UAF Chancellor's Employee Engagement Committee and led the modification of the UAF Faculty Promotion and Tenure policy (Blue Book) of the Faculty Senate; and

WHEREAS, Debu Misra served on the UA President's Strategic Pathways committee to plan restructuring of programs and administrative units for efficiency in a period of budgetary constraints; and

WHEREAS, Debu Misra has served as the Associate Editor of two journals of the American Society of Agricultural and Biological Engineers (ASABE), winning recognition for Outstanding Service as Associate Editor, and has served as a member of the editorial boards of three other professional journals including the International Journal of Petroleum and GeoScience Engineering, ISRN Geology Journal, and the Scientific Journals International as well as serving as a guest editor of a special issue of Transactions of American Society of Biosystem and Agricultural Engineers; and

WHEREAS, Debu Misra has served as an external reviewer for three funding agencies and holds multiple positions in two professional organizations and has reviewed submissions for over thirty-six different professional journals during his career; and

WHEREAS, Debu Misra led a successful Accreditation Board of Engineering & Technology (ABET) accreditation review for the UAF Geological Engineering program, which requires that students have a "solid educational foundation and are prepared to enter the global workforce, leading the way in innovation and emerging technologies" and Dr. Misra served as the coordinator of Student Learning Outcome Assessment for the Geological Engineering program for accreditation by the Northwest Commission of Colleges & Universities (NWCCU); and

WHEREAS, Debu Misra organized fundraising events to establish foundation investments for the Golden Key International Honor Society and Namaste India student chapters and their events at UAF, as the advisor of these student organizations; and

WHEREAS, Debu Misra successfully reached out to high school students on several instances to engage young minds through public speeches about embracing careers based in sciences and engineering,

WHEREAS, Debu Misra has successfully guided the research of nine undergraduate researchers and thirteen graduate students; and

WHEREAS, Debu Misra has excelled at creating and delivering a curriculum with a high level of academic rigor and content to ensure that his students are well prepared for their careers in Geological Engineering; and students have specifically returned to the university to express their appreciation for the content of his courses and his dedication to their success; and

WHEREAS, Debu Misra epitomizes dignity and integrity at all times, he exhibits sustained positivism and statesmanship even under difficult and contentious circumstances, and unfailingly treats students, faculty, administrators, and the public with caring, kindness, wisdom, and great respect.

THEREFORE, BE IT RESOLVED that the UAF Faculty Senate hereby recognizes and honors the contributions of Professor Debasmita Misra by awarding him the inaugural Faculty Citizen Award for his lengthy and well-recognized record of engagement and leadership in activities improving faculty function and commitment to their constituency. Prof. Debu Misra is the professor that resonates among all faculty across campuses of the University of Alaska System for his deep understanding of faculty matters. Prof. Debu Misra embodies the principles of shared governance and the interaction between the Faculty Senate, the University Administration, and the Board of Regents.

MEMORANDUM

TO: Daniel M. White, UAF Chancellor

THROUGH: Julie A.K. Maier, Faculty Senate President DS JAKM

FROM: Jennifer Carroll, COVID-19 Ad Hoc Committee Chair DS JLC

DATE: May 3, 2021

SUBJ: In Support of Active Encouragement and Incentivization of Vaccination

Throughout the COVID-19 pandemic, UAF has combined a strategy of education, mitigation, and restrictions based on the best science available from the CDC and State Public Health Officials. We have done our best to balance the various concerns and priorities of administration, faculty, students, and staff to keep as many members of the University community as safe as possible. Many faculty and students are eager to begin face-to-face classes in the Fall, but safety must be paramount. The current situation in the Fairbanks North Star Borough, with the second lowest vaccination rate in the state, among the highest rate of infection in the state, and with increasing COVID infections and hospitalizations in younger populations, shows that vaccine hesitancy and loosened restrictions are a dangerous combination.

As the university moves toward more in-person classes and services, the Faculty Senate requests that the university actively encourages and incentivizes vaccination for all students and employees of the university who are medically able to be vaccinated. We think that requiring vaccinations for in-person interaction is necessary to reduce the likelihood of significant community transmission among the university community.

Specifically, the Faculty Senate requests that proof of vaccination or an approved waiver is **required** for all faculty and students attending **in-person classes**, beginning Fall 2021. In addition, the Faculty Senate requests that the administration identify and provide additional incentives for vaccination, possibly including allowing in-person interactions without masks for those who are vaccinated, reducing or eliminating quarantine periods for vaccinated members of the university community, and the ability to share office space with less than 6’ distance without masks for employees and students that are fully vaccinated.

We understand that some students and faculty do not want to get vaccinated. Those students and faculty can choose to take and teach remote classes. The CDC continues to update its guidance with vaccination being a key ingredient for relaxed restrictions and increased

DocuSign Envelope ID: 0C646D4D-37BC-4F3E-9AEB-6DC8F6F177FF

interactions. The fastest way to get students and faculty back in the classroom is for the university community to choose vaccination and the university must take an active role in making that happen.

MEMORANDUM

TO: Daniel M. White, UAF Chancellor

FROM: Julie A.K. Maier, Faculty Senate President DS JAKM

DATE: April 5, 2021

SUBJ: Memorandum of Support for Improving the UAF Academic Program Review Process

Historically, the UAF Faculty Senate has updated the UAF Academic Program Review Process on a 10-year cycle beginning in 1991 and again in 2001 and 2011. In addition to timeliness since the last update, the NWCCU is requiring UAF to enhance our focus on equity to meet the new accreditation standard that "programs are systematically assessed using meaningful indicators to assure currency, improve teaching and learning strategies, and achieve stated student learning outcomes for all students, including underrepresented students and first-generation college students". Regular occurring program review must be aligned with the Northwest Commission on Colleges and Universities (NWCCU) accreditation standards. The Academic Program Review process is currently determined through Board of Regent Policy 10.06 which grants official decision making authority to the UAF Chancellor.

It is unclear whether the current process will improve outcomes for underrepresented and first-generation students and there is a collective desire to make the process more efficient and less burdensome on programs. In light of this, the Office of Accreditation & Assessment has initiated an improvement effort for the regular occuring Academic Program Review Cycle.

The Academic Program Review process is complex with a few individuals positioned to understand and monitor the entire process from beginning to end. The process improvement facilitation model provided by the UAF Process Improvement (PIT) Crew has effectively supported improving complex processes, as recently experienced with the UAF Course and Program Approval Process improvement project.

Collaboration on complex process improvement is necessary and challenging and practice improvements will be implemented to more directly engage Faculty Senate leadership in shared governance and decision-making in this improvement effort. The current Academic Program Review process is implemented via a collaborative shared governance model including

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: E2CBBFB6-CBEE-4A64-AFBC-9B80A6558200

UAF FACULTY SENATE
P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

Academic Units, the Faculty Senate and its corresponding committees, the Accreditation and Assessment Office, and the Office of Planning, Analysis and Institutional Research.

All UAF programs have been reviewed through an expedited academic review process in the past two years and a new five-year review cycle will soon begin creating opportunity and urgency for improvement implementation.

In conclusion, the UAF Faculty Senate supports the creation of an ad hoc committee supported by the Faculty Fellow in Assessment and Accreditation and facilitated by the UAF PIT Crew to investigate, redesign in order to improve the UAF Academic Review Process. This committee shall contain members representing the breadth of academic units and will include representation from the Curricular Affairs Committee (CAC) and the Graduate Academic & Advisory Committee (GAAC), as well as the Vice Provost for Accreditation (as ex-officio member). The committee will recommend changes through the Faculty Senate to the Chancellor.

The following motion passed at Faculty Senate meeting #255 on April 5, 2021:

Motion to Create a Graduate Certificate in Aerospace Engineering

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate in Aerospace Engineering, housed in the College of Engineering and Mines.

Rationale: Aerospace engineering is an active and growing field. Aerospace engineers are in high demand by traditional aircraft firms, agencies such as the FAA, and by the rapidly expanding pool of companies involved in unmanned aircraft systems (UAS). Students having an identifier on their transcript will have a distinct advantage when applying for jobs within this career field. The program is expected to increase student enrollment, aerospace community awareness of UAF, increase partnerships between UAF units collaborating on research activities, and increase UAF's ability to perform research in aerospace engineering and related disciplines (electrical, mechanical, computer engineering, computer science, applied geosciences remote sensing). The program is expected to draw engineering students who are looking for an opportunity to brand themselves as aerospace engineers.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

The following motion passed at Faculty Senate meeting #255 on April 5, 2021:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Integrated Arts.

Effective: Fall 2021
Upon Chancellor Approval

Rationale: The Curriculum Review Committee has reviewed this proposal and approved it.

The Integrated Arts Minor allows students to explore all three Arts disciplines offered at UAF: Art, Film & Performing, Arts, and Music. After taking an introductory course in each department, students will then take electives in each discipline. Although each Arts program at UAF has its distinct objectives, the Integrated Arts Minor would contribute to the health of all the Arts by providing an option for students who want to explore more than one artform in their minor program, thereby benefiting from the breadth of course offerings across the Fine & Performing Arts curricula.

There are no additional costs associated with this minor. The Theatre and Film Department hopes this new minor will boost enrollment for students who are interested in the Arts, but do not want to choose only one discipline in which to minor.

The following motion passed at Faculty Senate meeting #255 on April 5, 2021:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Interdisciplinary Environmental Change.

Effective: Fall 2021
Upon Chancellor Approval

Rationale: The Curriculum Review Committee has reviewed this proposal and approved it.

The Interdisciplinary Environmental Change Minor provides students with an integrative understanding of the causes, impacts, and potential mitigation of anthropogenic environmental change by combining relevant knowledge, perspectives, and critical thinking skills from across the natural sciences, engineering, social sciences, humanities, and Alaska Native studies. This minor is intentionally interdisciplinary, reflective of the multidimensionality of the social-ecological issue of environmental change, and flexible to allow students to pursue their individual lines of interest within this broad field. UAF is a world leader in environmental change and Arctic research due in part to its location, where the impacts of climate change can be observed and felt at an accelerated pace, and is an ideal setting in which to engage with faculty possessing expertise in multiple dimensions of environmental change, through in- person and/or online coursework.

The addition of this minor is expected to generate an increase in enrollment in some UAF courses across multiple colleges and departments, due to its interdisciplinary nature. It is not expected to have a negative impact on other programs at UAF or the UA system. This minor will stimulate students across many majors to actively explore courses outside of their primary focus in our strong and diverse natural sciences, engineering, social sciences, humanities, and Alaska Native studies programs, and engage with like-minded students from different disciplinary backgrounds.

UNIVERSITY OF ALASKA FAIRBANKS
UAF FACULTY SENATE

MEMORANDUM

TO: UAF Chancellor, Provost, Vice Chancellor for Research

FROM: Julie A.K. Maier, UAF Faculty Senate President DS JAKM

DATE: 5 April, 2021

SUBJ: Survey of Institutional Support of Research at UAF

The UAF Faculty Senate requests your assistance in distributing and encouraging Deans and Directors to complete the RAC Research Support Survey. The purpose of this survey is to collect and distribute relevant information that will ultimately characterize, track and improve UAF research success across all major Units and Institutes. The information gathered in this survey will help to identify support structures that promote research success, dispel misinformation and uncertainty, and provide metrics to inform our strategy for achieving Tier 1 research status. The ultimate goal of this survey is to better understand how research is currently supported and to provide recommendations to enhance research success across UAF.

The survey will be distributed via a Google Forms web link to the identified Deans and Directors prior to the end of the 2021 spring semester. Most questions are best answered from within each Unit/Institute, but to help distribute the response burden, questions that can be answered by Institutional Research will be forwarded to PAIR or the Graduate School as appropriate. We would appreciate responses prior to 30 September 2021 so that the AY21/22 RAC may compile, analyze and report results.

The following motion passed at Faculty Senate meeting #255 on April 5, 2021:

MOTION:

The UAF Faculty Senate moves to establish an ad hoc committee to review the UAF annual activities report software, Faculty 180. The purpose of the ad hoc committee will be:

- To review the full annual activities report workflow and process from start to finish
- To identify the current process and software rubs/problems with data entry and with its usability
- To work collaboratively across faculty, staff, and administrators to brainstorm and implement actionable solutions to improve the overall process and system
- And, to determine whether another system should replace Faculty 180
- Or adopt another process that will be more conducive to meet the need and be more effective in evaluating faculty activities

EFFECTIVE: Immediately upon Chancellor approval

RATIONALE: In Spring 2020 UAF faculty were surveyed about their experiences with Faculty 180. In addition, administrators were surveyed about their experiences with Faculty 180 in Fall 2020. The overall sentiment by both faculty and administrators is that Faculty 180 is a challenging process and system that needs to be improved. This Faculty 180 ad hoc committee will be charged with doing a thorough review of the current process, structure, and system that is used for annual activity reporting. The committee should come up with actionable items to improve the current process and system that can then be implemented. The committee must report to the Faculty Senate no later than May 2022.

Membership: The Faculty 180 ad hoc committee shall be comprised of at least five faculty who represent the range of faculty experience, and are voting members nominated by Faculty Senate leadership and confirmed by a vote of the Faculty Senate. A Cooperative Extension faculty, a Research faculty, and a Teaching faculty shall be part of the committee. At least one Faculty Senator shall serve on the Faculty 180 ad hoc committee and will be responsible for communicating back to the Senate. There shall also be at least one administrator to serve as an ex officio who is familiar with the current system and process. The Committee may draw ex officio membership from other constituent groups, as deemed necessary, including staff members that are involved in this process.

UAF FACULTY SENATE
P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

MEMORANDUM

TO: Daniel M. White, UAF Chancellor, and Board of Regents

FROM: Julie A. K. Maier, Faculty Senate President DS JAKM

DATE: April 5, 2021

SUBJ: UAF Faculty Senate support for a Faculty Regent on the Board of Regents

The Faculty Affairs Committee (FAC) strongly endorses the proposal by the Faculty Alliance to create a position of Faculty Regent on the BoR. This will definitely help to improve our relationship with the BoR and would open a direct channel for communication to discuss educational issues that impact the mission of the university.

Rationale: The main mission of the university is to educate our students, and the faculty are at the forefront of that mission. Faculty, along with administration, staff, and students, must contribute to the governing policies that help fulfill our educational mission and must have an avenue to take part in the BoR decision making processes, including those that affect the budget. All UAF faculty are deeply committed to ensuring successful learning outcomes for our students and to maintaining the highest level of excellence in all aspects of higher education and research. We strongly believe the faculty can bring a different perspective to decision making because they are involved on a day-to-day basis with every aspect of the educational mission of our university. So, a faculty regent, along with the student regent (and staff regent), will provide a more holistic and comprehensive inclusive environment for the BoR, supporting more informed decision-making on critical issues, many of these becoming even more critical in the days to come, for the mission of our university.

Naturally Inspiring.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Social Work.

Effective: Spring 2021
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by the Department of Social Work. This is the first Unit Criteria for this department. The document was reviewed by the Unit Criteria Committee on November 3rd, 2020 and January 25th, 2021. The Department of Social Work criteria was approved because it is consistent with UAF guidelines.

UAF Unit Criteria
for
University of Alaska Fairbanks Social Work Department

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **University of Alaska Fairbanks Social Work Department.** Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility. Social Work faculty appointments can be either bipartite or tripartite. The bipartite faculty are designated to perform teaching and service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Community engagement scholarship

In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development. ***A customary teaching workload for social work faculty may range from 12-18 units per year. Teaching is a significant portion of the social work workload.***

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials; ***Social Work faculty members engage in regular revision of the curriculum to reflect changes in CSWE accreditation requirements and best practice in the field of Social Work.***
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.

   i. Coordinating specialized course delivery methods for students in rural Alaska, that include recruitment of adjunct faculty, logistical coordination of week- long in-person intensives, intensive academic advising and support.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

j. May provide supervision of students during formal field practicum or internships.
k. May involve undergraduate students in research activities.
l. Are effective in advising, mentoring, and recruiting students.

Social Work courses are responsive to state licensure requirements, national accreditation requirements, and social work administrators. These requirements change periodically, which requires regular revision to our curricula. Thus, curricular revision is a regular aspect of the instructional role of faculty.

For some faculty, advising and recruiting students is a regular instructional activity. Faculty responsible for advising remotely-located students typically provide numerous supplemental services to students, which may include providing information on financial aid, placement tests, registration, tutoring, and university admissions. These activities make advising of remotely-located students a time-consuming activity, which should be taken into consideration in the tenure and promotion process.

2. Components of Evaluation
   Effectiveness in teaching ***and other instructional activities*** will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

   and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:
   - peer classroom, ***or alternative setting,*** observation(s) and evaluation of lecture(s),
   - peer evaluation of course and compiled materials,
   - pedagogical organization as evidenced through peer evaluation of course syllabi,
   - documented use of best practices in teaching through external or peer review,
   - evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
   - evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom
   - ***letters of support from student or peers***

Individual units may choose to require particular items from this list through their unit criteria.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

A customary research workload for social work is 0-9 units, and can vary greatly depending on the faculty's specific assignment. There is no expectation that bi-partite faculty within the department engage in research, scholarly, and creative activity but it is valued and encouraged.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, ***case studies,*** research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications.
   h. Published abstracts of research papers.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.
o. Presentation of original research concerning new learning and practical application at academic and practitioner conferences, seminars and trainings.
p. Community engaged scholarship (CES) is scholarship that involves the scholar in a mutually beneficial partnership with the community. CES requires a high level of expertise; it is activity that breaks new ground or is innovative; that has significance or impact; that can be replicated and elaborated; the work and its results can be documented and disseminated; and the work and its results can be peer reviewed (peer includes both community and academy). Examples of CES include but are not limited to:

- ***Work that is grounded in the unit/institutional mission***
- ***Community contributes to/benefits from project***
- ***Makes progress toward social equity and/or policy changes***
- ***Improves service delivery process or outcomes***
- ***Increases funding to continue/expand/replicate project for community partners***
- ***Increases capacity of individuals and community organizations to advocate for themselves***
- ***Enhances the ability of trainees to assume positions of leadership and community engagement***

Overall the work adds consequentially to discipline(s), CES, and community and may include outcomes such as online/web material, videos, manuals, curricula, and other products.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

A customary service workload for social work faculty also varies greatly depending on assignments and may range from 6-21 units. Field Director and other service intensive positions will have higher service units while standard faculty positions will have lower service responsibilities.

1. Public Service
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting.
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews. ***The social work department is required to reaffirm accreditation every seven years which can involve up to two years of preparation along with comprehensive evaluation, data compilation and authoring of an intensive self-study report as well as a site visit.***
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.
l. Establishing and maintaining field practicum sites across the state which requires regular site visits and involves monitoring student progress and verifying credentials of instructors and appropriateness of site.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

m. Social Work faculty members engage in regular revision of the curriculum to reflect changes in CSWE accreditation requirements and best practice in the field of Social Work.

- ***CSWE Reaffirmation Self-Study***
- ***Social Work Curriculum Committee***
- ***Field Practicum Committee***
- ***Program Assessment***

n. Coordinating specialized course delivery methods for students in rural Alaska, that include recruitment of adjunct faculty, logistical coordination of week- long in-person intensives, intensive academic advising and support.
o. Exhibiting leadership and managerial effectiveness on the department, college, or University of Alaska level and/or on behalf of statewide programs and services.

3. Professional Service
   Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

   a. Editing or refereeing articles or proposals for professional journals or organizations.
   b. Active participation in professional organizations.
   c. Active participation in discipline-oriented service organizations.
   d. Committee chair or officer of professional organizations.
   e. Organizer, session organizer, or moderator for professional meetings.
   f. Service on a national or international review panel or committee.
   g. Organizing conferences or training opportunities for social work students, professionals, and academics.
   h. Providing professional consultation services to social service agencies and behavioral health organizations.
   i. Providing practice area expertise and services to maintain active social work practice.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Cross-Cultural Studies.

Effective: Spring 2021
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by the Center for Cross-Cultural Studies. The unit has brought their existing document into compliance with the current UAF Unit Criteria template. The updated document was reviewed by the Unit Criteria Committee on January 25th, 2021. The updated Center for Cross-Cultural Studies criteria was approved because it is consistent with UAF guidelines.

UAF Unit Criteria
for
Center for Cross-Cultural Studies

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **Center for Cross-Cultural Studies**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

MISSION

Mission: the mission of the Center for Cross-Cultural Studies is to draw and build upon the academic and research capabilities at UAF to offer an integrated course of advanced graduate study that addresses long-standing issues of concern to the state, the nation and the world. The program consists of an MA in indigenous studies and a PhD in indigenous studies, each with a common core curriculum that all students complete, coupled with six thematic areas of emphasis from which students choose a concentration: indigenous research, indigenous knowledge systems, indigenous education, indigenous language, indigenous leadership, and indigenous sustainability.

The specific skill set of the graduates will include quantitative analysis, scientific applications, qualitative research methods, research design and program management, along with broad conceptual frameworks for understanding the dynamics of social-cultural-ecological systems.

Delivery method: the program will be offered through a variety of flexible course delivery methods to students living throughout Alaska and beyond. The program offers a full complement of campus-based, e-campus and distance education courses consistent with the standards of advanced graduate study at UAF.

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C., ***and cxcs unit criteria, standards and indices****.*

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:
   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials; ***and demonstrate ability to teach effectively through the simultaneous use of more than one delivery method, e.g., courses with students in a face-to-face classroom with the instructor and those in attendance via other means of distance delivery at the same time.***
g. regularly expend effort towards future oriented educational development;
h. may receive prizes and awards for excellence in teaching.

Specific cxcs criteria for teaching for appointment or promotion to:

1. ***Assistant professor: evidence of teaching ability as well as commitment toward continual improvement in areas involving distance delivery and online learning must be provided.***
2. ***Associate professor: the record must show that the material taught is contemporary and relevant, and that the presentations stimulate the learning process. Evidence of the expected quality of instruction may include, but is not limited to, course and/or curriculum development, innovative approaches to instruction, effective guiding and mentoring of students, and effective teaching performance in classroom settings and by distance delivery modalities. There must be evidence of supervision of graduate student research as a major committee chair/member.***
3. ***Professor: significant contributions to the instructional program are expected. These may include, but are not limited to, contributions to major improvements in course and/or curriculum offerings; development of new courses and/or delivery approaches; ability to motivate and/or inspire students; and exemplary training of graduate students. There should be a record of successful completion of graduate work by their students. It is expected that assessment of teaching by students and faculty will demonstrate consistently high quality performance.***

2. <u>Components of Evaluation</u>
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

- peer classroom observation(s) and evaluation of lecture(s), ***including seminar/distance instruction***
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. ***To keep CXCS true to its mission, appropriate dissemination of results must include reporting to and informing community, regional, state, and national organizations such as Alaska Native corporations, the Alaska Federation of Natives, Alaska Native tribal organizations and international indigenous organizations. These are the organizations where appropriate judges for CXCS work are found. All of these entities support media which can publish or otherwise showcase the work of faculty***. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution ***to the communities served by cxcs and to the university***.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, ***needs assessments, program evaluations, annotated bibliographies, translations/transcriptions***, proceedings,

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers, ***or other appropriate judges, submission of research proposals and/or the completion of contracted research reports to agencies and funding sources, formal presentations of research findings to Alaska Native organizations such as the Alaska Federation of Natives, regional corporations, tribal councils, results of community-based research as reported to community entities, development of planning processes reviewed by community boards, drafting and submitting regulatory proposals on behalf of partner communities, etc***.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, ***especially in those productions that present indigenous materials including theater/drama/Festival of Native Arts/Cama-i, and other statewide festivals***, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications ***and publications of special interest to indigenous constituents***.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, ***cataloging and archiving data collections of dance/performance video and audio/DVDs,*** reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

O. Non-refereed journal articles and monographs including authorship of a book or major reference in the faculty member's area of scholarly activity.

Individual units may choose to require particular items from this list through their unit criteria.

Specific criteria for research performance for promotion or appointment to:

A. Assistant professor: evidence of ability to establish a viable research program in the faculty member's area of specialization.

B. Associate professor: the faculty member must have established an appropriate research program that produces satisfactory publications in some or all of the CSCX fields of study and have presented research results at professional meetings and other public forums. Submission of research proposals and acquisition of external research funding, the completion of contract research reports, and publication in conference proceedings constitute supplementary evidence that the research program is of high quality. The faculty member must show independent leadership by the creation of research ideas that involve student participation.

C. Professor: faculty research programs should produce publication in refereed professional literature as well as other publications noted in a thorough review, and there should be a record of student and/or junior faculty involvement. The publications should be of sufficient quality and quantity to demonstrate the existence of an ongoing, professional, independent research program. Additional evidence should be provided showing that research has been presented to entities such as indigenous organizations and tribal entities.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. <u>Public Service</u>

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees, ***or other governmental bodies, including tribal entities, Alaska Native corporations, health corporations, etc***.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies, ***appointment to internal editorial boards and scholarship selection committees***.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews ***and unit or campus-wide evaluation***.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service
Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

Specific CXCS criteria for service performance for appointment or promotion to:

A. Assistant professor: none in addition to UAF criteria

B. Associate professor: positive contributions to departmental and/or university matters. Effective professional contributions to the public and effective services to the profession are expected. Examples include facilitation support for annual events of service to the university and the larger community.

C. Professor: evidence of leadership in the service area is expected. Significant contributions to the development of departmental and/or university programs including committee leadership or service on committees is expected. Effective application of service includes, but is not limited to, reviewing proposals, refereeing manuscripts, and editing for professional organizations or publications. A professor's service may include assisting students and community members in the preparation and publication of their work. A professor's service may include the mentoring of junior faculty that leads in turn to greater service on their part.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Mathematics and Statistics (DMS).

Effective: Spring 2021
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by the Department of Mathematics and Statistics (DMS). The unit has brought their existing document into compliance with the current UAF Unit Criteria template. The updated document was reviewed by the Unit Criteria Committee on February 10th, 2021. The updated DMS criteria was approved because it is consistent with UAF guidelines.

UAF Unit Criteria
for
Mathematics & Statistics

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the ***Department of Mathematics and Statistics (DMS).*** Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

The document governs evaluation of all UAF Faculty with a primary locus of responsibilities in DMS. It is noted that these criteria may differ from those found in the Natural Sciences unit criteria. Regulations in the Natural Sciences unit criteria do not apply to DMS.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service ***in accordance with relative weightings defined in workload reports. The DMS recognizes the value of academic and scholastic diversity. As such, the unit does not require each candidate demonstrate equal strength in each area of tripartite responsibility. Candidates will be ranked in each area by the DMS Peer Review Committee (PRC). The PRC consists of all tenured members of the DMS. Members of the PRC who are on sabbatical or off campus for extended periods have the option of participating, but this is not required. Members of the committee may abstain from voting, but only in accordance with DMS operating procedures, Candidates will be ranked in each category of responsibility according to the following scale: Outstanding, Superior, Satisfactory, Needs Improvement and Unacceptable***.

These correlate with categories sometimes used by the university wide committee as outlined below.

DMS		***University wide***
Outstanding	=	***Excellent***
Superior	=	***Very Good***
Satisfactory	=	***Good***
Needs Improvement	=	***Satisfactory***
Unacceptable	=	***Unsatisfactory***

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

Tenure.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

A candidate for tenure will be judged on the basis of performance and indications of potential in all applicable areas of responsibility, with emphasis placed on the interval since the last promotion or hire, whichever is most recent. A candidate need not demonstrate equal performance in all three areas. In order to qualify for tenure, a faculty member should have demonstrated a sustained performance in all their areas of responsibility. While there is no objective definition of "sustained" nor is there any requirement for any length of time at any particular rank, a typical candidate for tenure should normally have served at least five years at the rank of assistant professor at UAF or elsewhere. Untenured faculty should refer to their collective bargaining agreement and initial appointment letter regarding mandatory year of tenure review.

A successful tenure candidate should attain at least a satisfactory rating in teaching, research and service and at least superior in teaching or research in the vote by the PRC at the time of application for tenure.

Assistant professor.
A faculty member at the assistant professor level must have an earned doctorate or demonstrated equivalent. Demonstrated equivalence will be decided on an ad hoc basis by the PRC. Those working at the rank of assistant professor should demonstrate a commitment to teaching, research and service.

Associate professor.
In order to qualify for this rank, a record of quality instruction and research is important. Those working at this rank are expected to demonstrate a continuing dedication to research, teaching and service.

Professor.
This is the greatest single honor that the university can bestow upon a member of its faculty. The honor must therefore be made upon careful consideration of the candidate's total demonstrated contribution to the university and the mathematical sciences. The honor is reserved for those who have demonstrated outstanding performance in their fields, which is sustained over a significant interval of time. Specifically, in the year the candidate applies for promotion to professor, a vote will be taken by the PRC. A successful candidate for professor should attain at least a satisfactory rating in teaching, research and service in the vote of the PRC. If one of teaching or research is ranked satisfactory, the other must be outstanding.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:
   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

The dissemination of ideas outside the classroom includes, but is not restricted to, statistical and computing consulting for students; assisting students in the design of experiments; directing undergraduate and graduate research. Further, it includes publication of textbooks that are principally intended for classroom use.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
d. emphasize regular feedback to students and reward student learning success;
e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
g. regularly expend effort towards future oriented educational development;
h. may receive prizes and awards for excellence in teaching.
i. ***Demand high pedagogic standards essential to the department's mission.***
j. Develop a textbook that is used external to UAF.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

DMS requires peer review of teaching for untenured faculty. It is recommended for faculty applying for promotion. They will be reviewed by the PRC (which includes the department chair). This committee will send representatives to review classroom performance as well as syllabi and samples of graded material. Representatives will write a report that includes a narrative portion as well as an overall ranking of teaching that uses the scale: outstanding, superior, satisfactory, needs improvement, and unacceptable. Normally, when a faculty member stands for tenure, reports from at least two years

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

should be included in the file, provided the faculty member has been employed at least three years at the time of application for tenure. If the candidate has been employed for at least one year at the time of application for tenure, then at least one report from the PRC should be included in the file. In the case of disagreement between peer opinions and student opinions, the former will be considered more accurate.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

Candidates at all levels must demonstrate achievement conducting research in an independent and creative fashion. Work will be judged for importance, originality and quality. Consideration will include, but not be restricted to, the candidate's papers published in refereed journals and refereed conference proceedings; papers, lectures and presentations delivered; other papers and technical reports; books, book chapters, research proposals, software developed and research done through consulting. The work must be presented in a public forum where its contribution can be judged by peers external to UAF. As such, little consideration will be given to research that appears in non-referred preprints. Nor will work that is done by private contracting be considered if it appears only in internal company reports. The research contributions found in a book will be based on the exposition of new ideas. Books that only gather material found in other locations will be considered expository and not research documents.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

o. ***Research results should be measured by quality, imagination, long term impact, depth and originality. The department expects faculty with a 30% research load to be publishing at a rate of approximately one paper per year. At a 50% level or above there should be approximately two. However, it should be emphasized that this is only an approximate goal. The more important goal is quality research. High quality research can be produced and disseminated in special circumstances at a lower rate. Accordingly, candidates should not try to meet a research target in terms of number of papers published. Further, heavy production rates of low quality publications are discouraged.***

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

p. A candidate's publication and funding record should be compared with individuals in the same or related disciplines. The practice of listing coauthors who have contributed little to a publication is uncommon in the mathematical sciences. Except in unusual circumstances, each coauthor will have made a significant contribution. Coauthors are often listed alphabetically.

q. For DMS faculty conducting research in mathematics education, appropriate research products, in addition to those noted above, may also include development of mathematical curricula that are innovative and based on original research. In addition to journals intended for the research community, DMS will also value peer-reviewed journals intended for the broader education research community. This includes journals devoted to teacher preparation and professional development as well as a reading audience of education policymakers, teachers and administrators.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.
m. Service as an outside reviewer on UAF thesis committees.
n. Preparation of university reports.
o. Consulting with UAF faculty in and outside DMS in discipline-specific activities that are not counted as research (e.g., that do not lead to a coauthored publication).

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

Professional service includes, but is not limited to, journal work; service to national professional organizations; working with testing organizations to develop standardized exams; editing for textbook and scientific publishers; organizing conferences; developing, organizing or presenting in-service training programs; giving colloquium lectures; reviewing proposals and books. It includes presentations of expository material including expository texts, which are not primarily meant for classroom use. Outreach to educators (e.g., offering in-service workshops or institutes for K-12 mathematics teachers) is also appropriate professional service for DMS faculty.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

RATIONALIZATION AND COMMENTARY

The above portion of this document is meant to outline the process and indices of evaluation. What follows below are a few remarks meant to give some explanation to this schematic.

For promotion to the level of associate professor a record of quality instruction and research is important. The DMS recognizes that at the level of assistant professor, service is secondary to teaching and research. This does not imply service at this level is unimportant. Faculty new to the profession can profitably spend their time establishing a research records and perfecting teaching technique.

DMS takes exception with ideas found in certain quarters on specific and objective measures of impact factors. To quote from the October 2006 notice of the American Mathematical Society,

> ***"People misuse the impact factor because there are no explicit principles governing its interpretation. The impact factor is used to measure the value of things for which it was never intended (articles and authors, for example), and it is used to make faculty comparisons between unlike objects, including journals themselves … for decades, scholars have complained about the misuse of the impact factor, and there is extensive literature of such complaints and admonitions. But in a world gone mad with an obsession to evaluate everything 'objectively', it is not surprising that desperate and sometimes incompetent evaluators use a poorly understood, but easily calculated, number to comfort them."***

DMS strongly maintains that in addition to any quantified metrics we must add personal judgement by PRC and outside evaluators. Scholarly peers, subjective though they may be, are the best judges of quality. Making such decisions is hard work but a necessary responsibility of each member of the PRC. To further underscore the above points, we quote from a 2006 white paper released by the American Mathematical Society.

> ***"Mathematics is often considered as part of the physical and natural sciences, but its publications practices differ from these other disciplines in several fundamental ways.***
>
> ***Mathematicians tend to publish at rates that are modest compared to some other sciences. The majority of mathematical research is published in refereed research journals rather than conference proceedings or books. The mathematical literature is spread among a wider collection of journals than in most related fields. And, since an article typically represents a mature treatise on a mathematical question, and since mathematics research is not considered time-sensitive, delays in publication are common.***
>
> ***Even some of the best young mathematicians publish relatively few papers. A study of the 40 mathematicians winning Sloan Fellowships in 2005-2006 shows that 70% publish an average of***

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

> ***two or fewer articles per year in the five years preceding their award. These two groups represent an exceptional group of highly productive mathematicians.***
>
> ***Of the 274 publications by these Guggenheim Fellows, 75% were in refereed journals. Only three publications were books. In fact, of all items covered by mathematical reviews in the years 2001-2005, fully 80% were from refereed journals.***
>
> ***When judging the work of most mathematicians, the key measure of value for a research program is the quality of the publications rather than the rate. The information above about those who have won prestigious awards strongly supports this view."***

Certain disciplines found in mathematical sciences have little opportunity in the way of external funding. Accordingly, the ability to find funding speaks well for a candidate at any level. However, absence of funding may not necessarily speak against the candidate. DMS does not consider the funding of grant proposals to be the goal of any research. Rather, we focus on what is achieved with or without research funding.

To summarize, the primary research metric is not the number of publications, nor the number of citations, nor the quantity of grant money. It is research results as measured by quality, imagination, long term impact, depth and originality.

Further information on the culture of mathematics and distinctions from other academic disciplines can be found in statements from the AMS Committee on the Profession, in particular the statements on "Citation and Impact in Mathematical Publications", "Joint Research and its Publication", and "Research Funding", available at https://www.ams.org/about-us/governance/committees/cprof-home .

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

Faculty Senate Writing Placement motion for FY 2021-22

MOTION:
The UAF Faculty Senate moves to re-adopt temporary writing placement guidelines to substitute for Accuplacer or SAT/ACT scores for placement into WRTG 111X for the Fall 2021 semester and Spring and Summer semesters 2022.

Rationale: On March 20, 2020, Faculty Senate passed an emergency motion to allow for temporary academic adjustments as a result of the COVID-19 pandemic (Covid WRTG Placement spring 2021 & summer 2021 link). In this motion, SAT/ACT scores were waived for Fall 2020 admission requirements.
However, to adequately place students in WRTG 111X courses, some measure is required. As Accuplacer testing is suspended and SAT/ACT exams are waived, the Student Academic Development and Achievement committee proposes to continue addressing the above issues by allowing the following multiple measures for placement for the Fall 2021 semester and Spring and Summer semesters 2022.

- Cumulative High School GPA of 3.0 or higher, within the past two years
- Successful GED completion within past 12 months

If students do not meet the above conditions, they will be asked to complete a survey, attach a writing sample, and report on study habits for success. The completed survey and writing sample will be reviewed on a biweekly basis during peak registration periods and weekly during non-peak times.

It is required that secondary students take placement for dual enrollment.

The Writing Placement Task Force members include: Jennifer Tilbury jltilbury@alaska.edu; CTC Director for Student Success; Sarah Stanley sstanley2@alaska.edu, Director of University Writing; Katie Lubowicki kmlubowicki@alaska.edu, Assistant Professor of Developmental Writing; Dana Greci dgreci@alaska.edu, Professor of Developmental Writing; and Eric Heyne efheyne@alaska.edu, Professor of English. Membership on the Task Force is open to UAF Faculty engaged in the improvement of student writing.

Placement decisions will be shared with Jessica Skipper and Nanook Navigator to further track student success. The task force commits to collect data and report on this process at the conclusion of Fall 2021. The survey is a collaborative project and draws from best practices.

EFFECTIVE:
Immediately upon Chancellor approval.

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

Motion to Establish Accelerated Master's Program General University Requirements

MOTION:

The Faculty Senate moves to establish Accelerated Master's Program General University Requirements to expand options for highly skilled and motivated students to accelerate their education.

Rationale: Peer institutions of UAF provide Accelerated Master's Degree programs that allow students to concurrently earn a baccalaureate and master's degree and apply a limited number of upper division and/or graduate credits towards both degrees.

UAF currently has two approved Accelerated Master's Degrees, but no formal guidelines for the creation and approval of such programs. An expansion of Accelerated Master's Degree programs would improve student recruitment and retention and support student success in numerous ways, including providing an opportunity for high performing students to begin graduate level work earlier in their academic career, reducing time to degree completion, applying eligible undergraduate financial aid to graduate courses, and facilitating the ability of undergraduate students to continue their undergraduate education at the graduate level at UAF.

****

Proposed guidelines are as follows:

Accelerated Master's Degree Guidelines

Purpose

Accelerated Master's degree programs are designed to allow highly-qualified students to earn both Baccalaureate and Master's degrees through an integrated program in a cost-effective, academically rigorous, and timely manner.

Benefits to Student

- Undergraduate and graduate courses may be chosen with greater flexibility
- Graduate credit courses may be taken anytime after entering the accelerated degree program
- Work on a thesis project or research may begin upon acceptance to the accelerated degree program
- Time to completion potentially may be reduced
- Continuity with facilities, faculty, and colleagues is maintained

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Admission Requirements

Minimum admissions requirements for an accelerated Master's degree program include:

- Current admission into a baccalaureate degree program
- A 3.0 cumulative GPA
- Completing 24 credits in the undergraduate major program requirements
- Junior standing

Individual degree programs or departments may establish different admission criteria while meeting these minimum requirements (i.e. a higher GPA, standing, etc.).

Degree Requirements

An accelerated Master's program has a minimum of 138 credits. All general requirements for Baccalaureate degrees (e.g., General Education, Ethics, degree-specific requirements) are maintained, but departments can have different choices of major requirements for a Baccalaureate degree and an accelerated Master's degree. Minors are allowed, but not required for either the Accelerated Master's of Science and the Accelerated Master's of Arts. To maintain the rigor of the Master's degree, the accelerated degree must include a specific "Baccalaureate" section and "Master's" section which indicate which transcript the credits will be listed on. At least 30 credits must be listed in the "Master's" portion of the degree, with a minimum of 21 credits at the 600-level, and students in accelerated programs will still be expected to fill out a Graduate Study Plan and complete other requirements associated with Master's degrees.

After Admission

After admission to the graduate degree program, undergraduate students may be eligible for research or teaching assistantships positions.

Students must maintain a cumulative GPA established by the accelerated Master's degree program, or a minimum of 3.0 while in the accelerated degree program.

Students accepted into an accelerated Master's degree program must complete all degree requirements within seven years from admission to the program and comply with all other graduate school policies and requirements.

A student may decide to transfer back to the Baccalaureate program. In this situation, they can graduate with the Baccalaureate degree if they satisfy all the Baccalaureate degree requirements (which may be different from requirements in the Accelerated Master's Program). Departments proposing accelerated Master's degree programs must indicate potential paths for students to graduate with a Baccalaureate degree via this route. If a student graduates by this route, they have left the accelerated program, and cannot later apply for the Master's degree based upon the accelerated program degree requirements. However, they can apply course

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

work not used for Baccalaureate graduation requirements toward the completion of a normal Master's program requirements.

A student who graduates from the accelerated Master's program will receive both their Baccalaureate and Master's degrees in the same semester.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

Motion to Allow Late Review of Accelerated Master's Program Proposals

MOTION:

The Faculty Senate moves to allow late review of Accelerated Master's Program proposals to be considered for inclusion in the 2021-2022 catalog.

Rationale: After considerable time and effort the UA system has approved guidelines for accelerated master's programs and the UAF Faculty Senate has approved UAF specific guidelines for these programs. In order to allow programs and students to quickly take advantage of this opportunity, the Graduate Academic Advisory Committee, Curriculum Review Committee, and Curricular Affairs Committee have agreed to a late review of proposals on the following timeline:

- Full Proposal Submitted: Friday, April 2
- Proposals reviewed and submitted to Ad Comm: Friday, April 23
- Proposals considered by Faculty Senate: Monday, May 3

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

Motion to Create a Graduate Certificate in Rural Development

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate in Rural Development, housed in the College of Rural and Community Development.

Rationale: Currently, RD MA graduates express satisfaction about how the degree has contributed to their professional and community goals, however not all students have the time or need to complete a full 30 credit MA degree with a project, and we lose some of those students once they receive the skills they want. In addition, many professionals and community development practitioners do not have the time or need to complete a full MA degree, but would like to receive a baseline of training in rural development practices. Graduate students in other programs are also interested in this baseline of training. This graduate certificate will fulfill these needs. In addition, it will support the RD MA program and students by diversifying the students and potentially allowing a higher number of electives to be offered.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

Program Title

Rural Development Graduate Certificate

Abbreviated Program Title

GCRT., Rural Development

Program Code

Brief Program Statement

The graduate certificate in rural development is intended for community development practitioners, agency and industry professionals, and current graduate students working with tribal and municipal governments, Native corporations, regional health corporations or non-profits, state/federal agencies, or private businesses conducting work in rural areas who wish to obtain a foundation in the theory and practice of development processes in Alaska and the Circumpolar North. The certificate will prepare students to conduct work related to human and economic development with rural communities with a particular focus on sustainable development strategies, community-based development, and Indigenous perspectives on development.

Admissions Requirements

Hold a baccalaureate degree from an accredited institution.

Program Goals

Brief identification of objectives and subsequent means for their evaluation

The objectives of the program are to provide interested Indigenous and non-Indigenous community development practitioners, professionals, and graduate students with foundational knowledge in the theory and practice of development and management in rural and Indigenous communities, to provide government agencies, organizations, and private businesses with employees who can work effectively with rural and Indigenous communities, and to support rural and Indigenous communities by increasing awareness and competence in community-based development.

Relationship of program objectives to "Purposes of the University"

The program will provide credentialing for professionals and students who wish to work on development issues with rural and Indigenous peoples.

Occupational/other competencies to be achieved

Students will understand the theory and practice of community development and management in rural and Indigenous communities and how they relate to their specific area of interest.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

Relationship of courses to the program objectives

RD 625 Community Development Strategies: Principles and Practices provides the foundation of theory and practice for community development. RD 651 Management Strategies for Rural Development provides the foundation for management specifically in rural and Indigenous communities. Students will choose an additional two courses that expands on this foundation based on their area of interest.

Personnel directly involved with program

Name	Staff classification	Duties	Qualifications

Charlene Stern	Faculty	Teaching and advising	Currently teaches in the program
Patricia Sekaquaptewa	Faculty	Teaching and advising	Currently teaches in the program
Cathy Brooks	Faculty	Teaching and advising	Currently teaches in the program
Judith Ramos	Faculty	Teaching and advising	Currently teaches in the program

Enrollment Information

Projected enrollment/present enrollment

We expect different audiences for the program. There may be an initial rush (not included in numbers below since they will not contribute to maintaining the program) to apply and receive the credential from students who have already taken the required courses, including RD students who have not/do not intend to complete the program for some reason and students from other programs that regularly take RD courses, such as Indigenous Studies. Long-term, we expect this graduate certificate to provide a small, but steady stream of students from community practitioners, professionals, and graduate students outside the department.

How was projected/present enrollment determine? Who was surveyed and how?

In 2018 the Department hired consulting firm Schoolhouse Partners to map current markets, conduct stakeholder discussions, and develop strategies for expansion and marketing. Graduate certificates were found to be one area of expansion that students outside the program were interested in pursuing. Projected enrollment for specific elements were not made so these projected enrollments are based on estimates from current non-RD enrollment in RD graduate classes.

What are the special restrictions?

Need for Program

Required for other programs?

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?

The Schoolhouse Partners report looked at employment opportunities and surveyed how recent RD MA graduates felt about the impact of the degree on their employment success and found that there was strong agreement that the program helped them achieve their professional goals and contribute to their community.

Job opportunities, including how these predictions were determined.

Now

Most RD MA students come to the program already working in a related career. Current RD MA graduates are employed with Alaska Native non-profits, Alaska Native corporations, tribal governments, institutions of higher education, and other related positions. We expect the RD Graduate Certificate will include professionals, both Alaska Native and non-Native, who currently work in these areas and want to improve their skills as well as professionals who want to begin working in rural and Indigenous areas.

Two years from now

While Alaska Native organizations tend to be the primary employment audience for the rural development program, it does not serve a specific industry. RD graduates work across multiple industries with various employment projections.

Five years from now

Prior to the pandemic, the State of Alaska published employment projections by industry 2016 to 2026. At that time they projected that healthcare and social assistance would grow by 21.4%, local government would grow by 1%, and professional and business services would grow by 4.6%. However, even without the changes brought by the pandemic it is impossible to parse out projections for jobs related to rural and Indigenous communities.

Ten years from now

However, there are certain stabilizing factors including the continuing need for services directly related to Alaska Native peoples and rural and Indigenous governments and the likely continuation of rural Alaska as the locus of resource development in the state.

How have positions been filled to date?

In many organizations positions are filled with available and interested rural employees who then seek additional education to improve their skills. In other cases, positions are filled by employees with the technical knowledge and training, but without a knowledge of working with rural and Indigenous communities. This graduate certificate will support both populations of employees or potential employees.

Resource Impact

Budget

GCRT-Rural Development Budget Comment.rtf (http://catalog.uaf.edu/courseleaf/archive/programadmin/348/1/GCRT-Rural%20Development%20Budget%20Comment.rtf)

Facilities/Space Needs

No additional facilities space is needed. The program repackages courses currently offered in the Rural Development program, which are taught by distance.

Credit Hour Production

Students from outside the program currently take 1 to 3 classes in the program so those students could potentially add 12 to 36 credit hours per year. Students who enroll just for the graduate certificate could add additional credit hours.

Faculty

No additional faculty resources are required.

Library/Media Materials, Equipment and Services

No additional library resources are required.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

This program could potentially impact enrollments in other programs if students choose to take one or two additional RD courses in order to receive the credential instead of taking courses in other disciplines.

DocuSign Envelope ID: 9EE8D40D-3F5E-46E0-886E-FA8D46C0AC1A

6 : Rural Development Graduate Certificate

Does it duplicate/approximate programs anywhere in the system?

No

What is the justification for the duplication?

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

This program will not directly impact research or service activities. However, it may change the nature of research and service activities for some students and faculty.

Implementation/Termination

Plans for recruiting students

Students will be recruited from 1) students from other programs taking RD classes will be made aware of the opportunity for the credential, 2) advertising to Alaska Native organizations and other organizations doing work in rural Alaska about the new program, 3) and advertising/recruitment of existing RD MA students who are not able to complete the program and of RD and ANS BA students who may want an additional credential, but are not ready to commit to a full MA degree.

Plans for phasing out program if it proves unsuccessful

We will stop offering the certificate, but continue to teach the courses for the RD MA degree.

Assessment of the program

No SLOA is required for Graduate Certificates.

Attach SLOA Plan

GCRT-Prospectus - delegated information.docx (http://catalog.uaf.edu/courseleaf/archive/programadmin/348/1/GCRT-Prospectus%20-%20delegated%20information.docx)

Rationale

Currently, RD MA graduates express satisfaction about how the degree has contributed to their professional and community goals, however not all students have the time or need to complete a full 30 credit MA degree with a project, and we lose some of those students once they receive the skills they want. In addition, many professionals and community development practitioners do not have the time or need to complete a full MA degree, but would like to receive a baseline of training in rural development practices. Graduate students in other programs are also interested in this baseline of training. This graduate certificate will fulfill these needs. In addition, it will support the RD MA program and students by diversifying the students and potentially allowing a higher number of electives to be offered.

The following motion passed at Faculty Senate meeting #254 on March 1, 2021:

MOTION:

The UAF Faculty Senate moves to establish an ad hoc committee to review the UAF annual activities report software, Faculty 180. The purpose of the ad hoc committee will be:

- To review the full annual activities report workflow and process from start to finish
- To identify the current process and software rubs/problems with data entry and with its usability
- To work collaboratively across faculty, staff, and administrators to brainstorm and implement actionable solutions to improve the overall process and system
- And, to determine whether another system should replace Faculty 180
- Or adopt another process that will be more conducive to meet the need and be more effective in evaluating faculty activities

EFFECTIVE: Immediately upon Chancellor approval

RATIONALE: In Spring 2020 UAF faculty were surveyed about their experiences with Faculty 180. In addition, administrators were surveyed about their experiences with Faculty 180 in Fall 2021. The overall sentiment by both faculty and administrators is that Faculty 180 is a challenging process and system that needs to be improved. This Faculty 180 ad hoc committee will be charged with doing a thorough review of the current process, structure, and system that is used for annual activity reporting. The committee should come up with actionable items to improve the current process and system that can then be implemented.

Membership: The ad hoc committee on Faculty 180 shall include UAF faculty, staff, and administrators who are familiar with the current system and process.

MEMORANDUM

TO: UAF Chancellor, Provost and Executive Vice Chancellor, Deans, Associate Deans, Department Chairs, and Instructors

FROM: Julie A.K. Maier, UAF Faculty Senate President DS JAKM

DATE: March 1, 2021

SUBJ: Communicating with students at the beginning of the semester

The UAF Faculty Senate encourages all instructors to communicate with the students registered in their course no later than 11:59 pm the night prior to the first day of instruction. This supports student success by providing clear communication with students about the course they have registered for. Communicating with students could include the following (this is not an exclusive list):

- Opening the course up in the Learning Management System (Blackboard or Canvas)
- Post an announcement.
- Sending an email

While the course may not start on the first day of the semester, communicating with students early on is best practice for letting students know what the plan for the course is. Whether the course is synchronous or asynchronous, in person or virtual, students need to know what to expect for the course they have registered for.

The importance of communicating with students prior to the first day of instruction is vital. Students frequently are looking for information about the courses they are taking on the first day of the semester. If there is no information or communication from the instructor, this leads to confusion, frustration, and anxiety. For example, in Spring 2021, of all eCampus courses, 110 courses were unavailable on the first day of class, dropped to 46 on the second day, and all were opened by the third day of class. This data does not include those courses that were taught synchronously online or otherwise not listed as an “eCampus course”. However, eCampus often fields calls and complaints from students who are confused about the status of a course even though it is not technically an eCampus course.

Naturally Inspiring.

SUBJ: Re-envisioning the mechanism for funding Teaching Assistantships at UAF

Research, training of new researchers, and the mission of providing high-quality graduate education is a critical part of the mission of UAF and providing Teaching Assistantships (TA) is an important part of the funding mechanism for many disciplines. TAs allow programs to expand course offerings for undergraduates, provide graduate students with teaching experiences that enhance their professional development, and make graduate education more affordable for graduate students. Funding for TAs, both for tuition awards and for stipends, often provides critical bridge funding between grants for students primarily funded on Research Assistantships, especially in STEM fields. Funding both TAs and RAs directly contributes to the Chancellor's Strategic Goal of becoming a Tier I Research University.

The financial challenges are two-fold: TAs tuition awards at UAF are funded through the surcharge of non-resident tuition over resident tuition, while their stipends are then funded through the associated unit budget. The amount of tuition awards available for TAs is limited by how much non-resident tuition surcharge is generated. This excess is especially limited this year due to COVID and many courses having transitioned to eCampus delivery, with resident tuition for all students in eCampus courses, thus significantly reducing the funds for these assistantships. This limited funding stream has reduced the number of TAs programs are able to fund as well as the quality of the support provided to individual TAs. In addition, the year-over-year unit budget cuts are significantly limiting the amount of money available for TA stipends. The current minimum graduate assistantship stipend rate hasn't increased in at least a decade, and we are no longer competitive with UAA or with other universities in the lower 48.

An increase in funding for TAs can help UAF be even more competitive in the recruitment of graduate students, by allowing programs to guarantee a certain number of years of funding, and can help more PhD students graduate successfully, helping to support the Chancellor's strategic goal of reaching Tier I status.

DocuSign Envelope ID: 6F7F5279-483F-4212-9876-6480C5AC4E8D

Faculty Senate asserts that UAF, as Alaska's research university, needs to commit to supporting graduate education. As part of this commitment, UAF needs to determine a new mechanism, no later than February 1, 2022, and implemented no later than February 1, 2023, for funding teaching assistantships, especially one that doesn't involve a tuition award pool limited by non-resident tuition. The Graduate Academic and Advisory Committee (GAAC) commits to working with the Graduate School and representatives of Central Administration on developing a new funding strategy.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

The following motion passed at Faculty Senate meeting #253 on February 1, 2021:

Motion to Address Graduation with Honors Policy

MOTION:

The UAF Faculty Senate moves to update the UAF Graduation with Honors Policy.

RATIONALE:

The current policy was established in the late 1980s and was written with the student population of the time in mind. It does not accurately reflect the way higher education has changed over time, including an increase in non-traditional students, transfer students, and students returning to college after significant time spent away.

We want to be inclusive of all students who attend the University of Alaska Fairbanks and the unique educational backgrounds they bring to our institution.

The new policy honors the hard work and persistence of students that were not successful when they first attended higher education, decided to take time away, and then, since returning, have excelled in their coursework. It allows the Fresh Start program to be a true Fresh Start.
The new policy honors the coursework completed at the University of Alaska Fairbanks. As the graduation with honors is awarded by UAF, it seems fitting that the honors would consider only coursework completed at UAF.

The new policy removes the caveat of “only A- and above” for the *Summa Cum Laude* distinction. There have been many students through the years who have worked incredibly hard to earn a 3.9, but were not honored because they earned one grade below an A-. This new policy will honor the hard work and dedication of these students. It is also worth noting that UAF is the only institution among our peer institutions that has this added caveat in their graduation with honors policy.

Revised policy:

► **BACHELOR’S DEGREE**
https://catalog.uaf.edu/bachelors/

> Graduation with honors is a tribute that recognizes academic achievement. Candidates who have earned a minimum of 30 credits in residence at UAF and a minimum institutional grade point average of 3.50 at the bachelor’s level will graduate with honors.

DocuSign Envelope ID: D02AEC1C-19A2-4B6F-8F3A-EACEE24B4841

GPA calculations for graduation with honors do not include:

- Credits that were excluded due to retaking a course or through the Fresh Start program
- Noncredit courses, transfer credits, and credit by examination

Please see *Grading System and Grade Point Average Computation* for more information on how the UAF Institutional GPA is calculated.

Students who meet these academic criteria will graduate according to one of the following honor levels:

Honor	UAF Grade Point Average (GPA)
Summa Cum Laude	3.90 or higher
Magna Cum Laude	3.75 - 3.89
Cum Laude	3.50 - 3.74

These designations are effective for all who graduate fall 2021 going forward and will not be retroactively applied to anyone who graduated prior to the fall 2021 semester.

► **ASSOCIATE DEGREE**
https://catalog.uaf.edu/certificates-associate/

Graduation with honors is a tribute that recognizes academic achievement. Candidates who have earned a minimum of 15 credits in residence at UAF and a minimum institutional grade point average of 3.50 at the associate level will graduate with honors.

GPA calculations for graduation with honors do not include:

- Credits that were excluded due to retaking a course or through the Fresh Start program
- Noncredit courses, transfer credits, and credit by examination

Please see *Grading System and Grade Point Average Computation* for more information on how the UAF Institutional GPA is calculated.

Students who meet these academic criteria will graduate according to one of the following honor levels:

Honor	UAF Grade Point Average (GPA)
Summa Cum Laude	3.90 or higher
Magna Cum Laude	3.75 - 3.89

DocuSign Envelope ID: D02AEC1C-19A2-4B6F-8F3A-EACEE24B4841

Cum Laude	3.50 - 3.74

These designations are effective for all who graduate fall 2021 going forward and will not be retroactively applied to anyone who graduated prior to the fall 2021 semester.

Catalog Reference Clean-up:

► **GRADING SYSTEM AND GRADE POINT AVERAGE COMPUTATION**
https://catalog.uaf.edu/academics-regulations/grading-system-gpa-computation/

Repeating Courses
All grades (original and retakes) for a course completed at UAF are included on your academic record, but only the last grade earned for a course is computed in your GPA unless the course is one that can be repeated for credit. ~~**For purposes of calculating honors for graduation, all courses (even those repeated) are included in the GPA.**~~

► **APPLYING FOR ADMISSION: BACHELOR'S DEGREE PROGRAMS**
https://catalog.uaf.edu/getting-started/admission-bachelors-degree/

READMISSION OF FORMER DEGREE-SEEKING STUDENTS

Fresh Start for Returning Students
All prior course work will remain part of the student's overall academic record and appear on transcripts, but none of the previously earned credits can be used in a new program. ~~**These credits will be included only in GPA computations for graduation with honors (see Graduation with Honors).**~~

► **APPLYING FOR ADMISSION: CERTIFICATE OR ASSOCIATE DEGREE PROGRAMS**
https://catalog.uaf.edu/getting-started/admission-certificate-associate/

Fresh Start for Returning Students
All prior course work will remain part of the student's overall academic record and appear on transcripts, but none of the previously earned credits can be used in a new program. ~~**These credits will be included only in GPA computations for graduation with honors (see Graduation with Honors)**~~

► **TRANSFERRING CREDITS**

The following motion passed at Faculty Senate meeting #253 on February 1, 2021:

Motion to Delete SAT/ACT Requirement for Admission

MOTION: The UAF Faculty Senate moves to suspend the SAT/ACT Requirement for Admission through the Summer 2025 admission cycle. It should be reevaluated in 2023 with an eye toward making the suspension permanent for Fall 2025 and beyond. This policy applies to undergraduate associate or bachelor degree programs.

EFFECTIVE:
Immediately upon Chancellor approval or acknowledgement.

RATIONALE: ACT/SAT testing as a requirement for undergraduate admission to UAF has been suspended through Spring 2022. (Approved at Faculty Senate Meeting #251, November 2, 2020). In light of longstanding research and recent developments related to the college admission testing industry, UAF should consider deleting the first year and transfer student application requirement to submit SAT or ACT results for admission to undergraduate (associate and baccalaureate) degree programs.

Alternatively, the current suspension should remain in place through the Summer 2025 admission cycle and be reevaluated in 2023 with an eye toward making the suspension permanent for Fall 2025 and beyond.

There are numerous reasons for UAF to drop its testing requirement:

- More than one-third of 4-year institutions in the United States admit a substantial number of applicants without regard to SAT or ACT results.[1]
- Studies have found:[2] [3]
    - No significant difference in college GPA or graduation rates between those who submitted scores and those who did not,
    - A stronger correlation between high school GPA and college GPA than between test scores and college GPA, and
    - High school grades are a better predictor of graduation than are SAT/ACT test scores.
- Research demonstrates that on average, students from low-income families and students of color underperform on the SAT and ACT. Dropping the requirement may lead to a more diverse student body and eliminate a financial barrier to college.[4]

---

[2] SAT Wars: The Case for Test-Optional College Admissions, edited by Joseph A. Soares (2012)
[3] Crossing the Finish Line: Completing College at America's Public Universities by William G. Bowen, Matthew M. Chingos and Michael S. McPherson (2009)
[4] https://cshe.berkeley.edu/sites/default/files/publications/rops.cshe_.4.16.geiser.satproposalberkeley.5.2.2016.pdf

DocuSign Envelope ID: D02AEC1C-19A2-4B6F-8F3A-EACEE24B4841

- The decision by ACT to allow students to retake certain sections of the test raises concerns about validity and comparability of test scores and further disadvantages students who are low-income or first generation.
- Due to COVID-19, opportunities to take the SAT and ACT recently have been constrained and in the months ahead will continue to be limited.[5]
    - Access for students in rural Alaska has long been an area of concern and may grow more difficult.
    - If school buildings are not opened to the public this fall, it seems likely that ACT will roll out "test at home" options, with accompanying issues related to equity, fairness, reliability and access. The College Board is not offering in-home tests this year but plans to in the future.

As the number of colleges that have gone test optional or test blind has exploded in recent years, UAF no longer needs to be concerned about being perceived as lacking academic rigor if it drops this admission requirement. Furthermore, students may develop a resistance to taking these tests and if UAF insists on receiving test scores, the pool of prospective applicants may shrink. Failure to adopt a test-optional policy might also label UAF as insensitive to concerns about equity and access.

This change would not lower UAF standards — rather it would simplify and streamline the admissions process. It is consistent with UAF's commitment to being student-centered and removing unnecessary barriers and access to higher education.

The following motion passed at Faculty Senate meeting #253 on February 1, 2021:

Motion to Revise TOEFL Requirement for Admission through Spring 2022

MOTION:

The Faculty Senate proposes revising the international student TOEFL admission requirement through Spring 2022.

Rationale: In response to the temporary closings of testing centers in countries impacted by the COVID-19 epidemic, it is necessary to revise the English language proficiency exams used for admission to UAF. UAF will now temporarily accept Duolingo English Test examination results for tests taken between 11/1/2020 and 03/1/2022. The Duolingo English Test will be accepted as an alternative to TOEFL and IELTS for proof of English proficiency for impacted applicants.

The catalog language should be updated to reflect this revision.

English Proficiency Requirements

Students on an F-1 visa are required to submit scores from the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System) exam. Some permanent residents (green card holders) are not required to submit TOEFL or IELTS scores (see exceptions below). English proficiency may be demonstrated by:

1. A minimum TOEFL score of 79.
2. A minimum IELTS score of 6.5.
3. A minimum Duolingo English Test score of 105.
4. Completion of secondary education in Great Britain, New Zealand, Australia or Canada (excluding Quebec).

Requests for exception to this policy may be submitted via email to the Office of Admissions. Acceptable grounds for waiving this requirement may include:

1. Successful completion (C or higher) of a college-level, non-ESL English composition course.
2. A comparable score on another approved exam such as the ACT, SAT or ACCUPLACER exam.
3. Long-term permanent residents of the U.S. who are able to provide adequate documentation (transcripts, test scores, etc.) demonstrating academic readiness for WRTG 111x.

The following motion passed at Faculty Senate meeting #253 on February 1, 2021:

Motion to update Postbaccalaureate Certificate Requirements

MOTION:

The UAF Faculty Senate moves to update the requirements for the post baccalaureate certificates.

Updated Requirements:

- Remove requirement #2- At least 15 credits must be earned after the posting of a previous baccalaureate degree and replace with- Completion of a bachelor's degree from an accredited institution or from a non-US institution that is considered to be a US equivalent degree.
- Update residency requirements as part of #3 from 9 credits to 40% of credits.

REQUIREMENTS FOR POST BACCALAUREATE CERTIFICATES (Current Policy with Changes)

1. The student must complete at least 24 approved semester credits to earn a post baccalaureate certificate. (See Regents' Policy 10.04.030)
2. ~~At least 15 credits must be earned after the posting of a previous baccalaureate degree.~~ Completion of a bachelor's degree from an accredited institution or from a non-US institution that is considered to be a US equivalent degree.
3. Previously earned credits from ~~regionally~~ accredited institutions can be assigned to the certificate as long as at least ~~9 credits~~ 40% of credits applicable to the student's certificate program are earned through UAF ~~after acceptance into the program~~.
4. Certificate programs may include non-coursework requirements.
5. Courses at the 500-level are for professional development and are not applicable toward any postbaccalaureate certificate, even by petition.
6. At all course levels, a student must earn a C- grade or higher in all courses required for the postbaccalaureate certificate unless otherwise specified by the program.
7. At least two-thirds of the credits required for the postbaccalaureate certificate must be taken at the upper division (300-400) or graduate (600) level.
8. If the requirements for a post baccalaureate certificate are not met within seven years of formal acceptance into the program, admission expires and the student must reapply for admission and meet the admission requirements in effect at the time of readmission or graduation. (See How to Earn a Bachelor's Degree in the UAF Catalog)
9. All credits counted toward the postbaccalaureate certificate, including transfer credits, must be earned within the consecutive seven-year period prior to graduation. (See How to Earn a Bachelor's Degree in the UAF Catalog)
10. Students may be awarded two or more post baccalaureate certificates simultaneously if the 15 additional credits and other requirements have been earned for each additional postbaccalaureate certificate.

DocuSign Envelope ID: 8C1C8D06-04AD-428E-99E4-A89F3A7157EE

Rationale:

Requirement #2: This requirement is unnecessary due to the completion of a bachelor's degree. Recommend that this requirement be changed to read: Completion of a bachelor's degree from an accredited institution or from a non-US institution that is considered to be a US equivalent degree. Most Post Baccalaureate certificates require a bachelor's degree prior to admission. If a bachelor's degree is required then you won't have a situation where a student completes the requirements for the post bacc and graduates with it prior to earning a bachelor's degree.

Requirement #3: The courses in a post baccalaureate degree are not general in nature, they are all program specific and designed to prepare students to enter that field, and for some programs serve as the educational requirement for industry certifications or licensure. The 9 credit requirement is too low. For any bachelor's degree there is a requirement that at least 12 credits in the major be taken at UAF and the minimum # of credits for a major is 30, that is 40% of the major courses (in a 30 credit major) taken at UAF. For graduate programs only 6 credits can be transferred in. To align more with current UAF policies, the current regulation for residency requirements should be moved from 9 to 40% of credits at a minimum and remove the requirement of "taken after acceptance into the program." Students will still need to take courses within the 7 year timeframe.

The following motion passed at Faculty Senate meeting #253 on February 1, 2021:

Motion to Establish Guidelines for Coursework Master's of Arts or Master's of Science Degrees

MOTION:

The Faculty Senate moves to establish guidelines for coursework-focused master's of arts and master's of science degrees.

Rationale: UAF currently has one approved coursework-focused MA and one approved coursework-focused MS, but no formal guidelines for the creation and approval of such programs. Coursework-focused master's of arts or master's of science degrees can be appropriate and useful for students seeking to integrate theoretical and applied concepts in their discipline through structured study, students who prefer or need more coursework prior to embarking on a Ph.D., and students who are unable to take the time from work to complete independent research or project. Any coursework-focused MA or MS degree would be approved through the usual Faculty Senate process.

****

Proposed language for the new policy for catalog publication is as follows:

Master of Arts - Coursework

1. Complete at least 30 credits of coursework. At least 24 credits must be at the F600 level.
2. Pass a written or oral comprehensive examination, which may be integrated with the capstone course.
3. Successful completion of a capstone course that includes demonstration of the ability to synthesize information in the field at a level appropriate for a master's degree.

Master of Science - Coursework

1. Complete at least 30 credits of coursework. At least 24 credits must be at the F600 level.
2. Pass a written or oral comprehensive examination, which may be integrated with the capstone course.
3. Successful completion of a capstone course that includes demonstration of the ability to synthesize information in the field at a level appropriate for a master's degree.

MOTION:

The UAF Faculty Senate moves to temporarily change the late withdrawal policy for the fall 2020 semester.

EFFECTIVE: Immediately upon Chancellor approval

RATIONALE: Under current policy, academic difficulties resulting in a failing or poor grade are not acceptable reasons for an appeal for late withdrawal. During the Fall semester there may be situations where students have struggled academically due to COVID-19 related issues not covered in the list of "serious and compelling reasons." This change in policy clarifies that appealing for withdrawal due to COVID-19 related issues is allowed. This addition is only for the fall 2020 semester.

✳✳✳✳✳✳✳✳✳✳✳✳✳✳✳✳✳✳✳✳✳

Addition indicated in **bold** and ALL CAPS.

Policy language in catalog for withdrawals after the deadline:

Appeals for a late withdrawal after the student-initiated withdrawal deadline — the ninth Friday after the first day of instruction — are exceptions to policy and are allowed only in exceptional cases. Approval is not automatic, and you need to provide documented evidence to support your request. Acceptable serious and compelling reasons may include:

1. death in immediate family;
2. serious illness or injury of student or immediate family; and
3. factors outside of student's control (for example, fire or flood).
4. **ACADEMIC DIFFICULTIES RELATED TO COVID-19 MAY BE CONSIDERED AS A REASON FOR AN APPEAL FOR LATE WITHDRAWAL.**

Failing a course, avoiding an unsatisfactory grade or ignorance of policies are not serious and compelling reason for seeking a late withdrawal and will not be approved.

Appeals for late withdrawals must be submitted within 30 class days after the beginning of the next regular semester. Forms for an appeal for late withdrawals are available at the Office of the Registrar forms page, through the Office of the Registrar in Signers' Hall on the Fairbanks campus, or through local campus student services offices. Once received, the appeal will be evaluated by a campuswide committee, which will return a decision to the student. The decision of the university is final, and a student who files a written appeal under these procedures shall be expected to abide by the final disposition of the review, as provided, and may not seek further appeal of the matter under any other procedure within the university.

The following motion passed at Faculty Senate meeting #252 on December 7, 2020:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Justice.

Effective: Fall 2020
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by Justice. The unit has brought their existing document into compliance with the current UAF Unit Criteria template. The unit also made additions to the document that were reviewed by the Unit Criteria Committee on November 9, 2020, and approved because they were found to be consistent with UAF guidelines.

UAF Unit Criteria
for
Justice

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the Justice Department. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials; ***instructional delivery and design such as those uniquely suited to Alaskan communities. Engage in diverse instructional activities such as teaching Distance Delivered courses and teaching Summer School.***
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting.
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.
   i. Training and facilitating.
   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
   l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. University Service
   University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Justice faculty may be either Bipartite or Tripartite. Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure. Justice faculty with a Bipartite appointment may also have the designation of "Clinical" faculty. Clinical faculty may be involved in a variety of functions, which include, but may not be limited to, development of student internships and student supervision, career advising and mentoring, workforce development, coordinating seminar opportunities for students, program coordination (e.g. Fairbanks Community Restorative Justice Project) which also leads to increased engagement with the community, and instructional activities/courses/trainings which are applied and skill-based in nature.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: 43554452-C453-48F7-9A3F-F3473F438FC0

The following motion passed at Faculty Senate meeting #252 on December 7, 2020:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Marine Biology.

Effective: Fall 2020
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by Marine Biology. The unit has brought their existing document into compliance with the current UAF Unit Criteria template. The unit also made additions to the document that were reviewed by the Unit Criteria Committee on October 26, 2020, and approved because they were found to be consistent with UAF guidelines.

UAF Unit Criteria
for
Marine Biology Department

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the ***Marine Biology Department***. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

Teaching is an important mission of all CFOS tenure-track faculty; teaching in the marine biology department is normally conducted through either the graduate program in Marine Biology, the undergraduate Minor in Marine Science, or the undergraduate Fisheries and Marine Sciences program. The major teaching activities of most Marine Biology faculty are classroom/laboratory/field instruction at the graduate and undergraduate level. Teaching activities also include advising graduate students (MMS, MS, and PhD) on their thesis and dissertation research, and advising and research mentorship of undergraduate students and postdoctoral scholars.

The objective for full-time (9 month) tenure-track faculty is to be teaching 6 credits per year of classroom instruction, and maintaining a vibrant lab that supports undergraduate and graduate student research. There is an expectation that a faculty member advises graduate students, maintaining an average of 3 graduate students per year, but advising of undergraduate student research projects is also highly valued and may in part be substituted for a portion of graduate student advising. Graduate classroom instruction often requires effort disproportionate to the number of students served; small class size is not uncommon in Marine Biology courses. Marine Biology faculty with extensive externally funded research programs can reduce classroom teaching to no less than 3 credits per year, when their external funding supports additional graduate students beyond the typical 3. Similarly, faculty with fewer graduate and/or undergraduate student advisees can proportionally increase their classroom teaching load.

Marine Biology research faculty are not required to participate in formal classroom teaching or graduate / undergraduate advising. However, teaching and advising are encouraged, and if included in the research faculty workload provide a significant benefit to the program. Teaching and advising should thus be evaluated according to the metrics outlined below and in proportion to the research faculty member's workload.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
d. emphasize regular feedback to students and reward student learning success;
e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
g. regularly expend effort towards future oriented educational development;
h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

Performance as major advisor is evaluated based on degrees completed under the faculty member's supervision, because each represents a major investment of faculty time.

Promotion to Associate Professor requires that at least one MS graduate degree has been completed, or one PhD student has made substantial progress towards completion (i.e., has submitted at least one peer-reviewed manuscript) under the faculty member's supervision as major advisor, if the faculty member's workload includes teaching.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

Promotion to Professor requires that at least four graduate degrees (MS or PhD) have been completed under the faculty member's supervision as major advisor, if the faculty member's workload includes teaching.

Additional evidence of performance quality includes, but is not limited to, publication of peer-reviewed journal articles or book chapters based on the advised student's thesis or dissertation research; student presentations at national and international meetings; achievement awards to students; successful student-led research proposal; and student success in initial employment after graduation.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

Evidence of high research quality is publication of research results and interpretations in respected, national or international, peer-reviewed journals or peer-reviewed books or book chapters. In evaluating such publications, quality, as judged by the graduate program in Marine Biology/CFOS faculty peers, is more important than quantity.

Evidence of research productivity can also include publications that are not peer-reviewed, such as final contract reports, data reports, and websites.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.

Evidence of research substance and quality also includes external funding from sources known for rigorous peer or organizational review of proposals (e.g., NSF, NIH). Promotion to Associate Professor or Research Associate Professor requires that the faculty member is lead principal investigator on at least one external grant from a nationally competitive source. Promotion to Professor or Research Professor requires lead principal investigator status on at least two grants from a nationally competitive source.

In addition to obtaining external funding, support and training of research personnel, such as postdoctoral scholars and technicians through the acquisition and management of external grants is highly valued.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

Individual units may choose to require particular items from this list through their unit criteria.

Tenure-track and research faculty applying for promotion or tenure must present evidence of high-quality contributions in research. For a full-time (9-month) workload, the minimum expectation for award of tenure and promotion to Associate Professor is a sustained publication record with a minimum of ten publications total. It is the faculty member's total publication record, regardless of affiliation, that is considered in determining these counts. While affiliated with UAF, an average publication rate of one per year or higher is expected for a minimum of six. The minimum expectation of peer-reviewed publications for promotion to Professor is a sustained publication record averaging one per year, with a minimum of 25 total. At least half of the publications at each promotion level will be first-authored by the faculty member or by a graduate student, undergraduate student, post-doctoral scholar, or technician under the faculty member's direct supervision.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

To be considered in performance evaluations, public and university service activities must be related to the faculty member's university position. Some faculty have part-time administrative positions that provide service to a national scientific community or the university/department and significantly increase the service portion of their workload. The proportion of workload assigned to formal administrative duties and to university, professional, and public service is outlined in the annual workload statement.

1. Public Service
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. ***Voluntary*** consulting ***in the faculty member's area of expertise is consistent with the obligation for public service.***
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. <u>University Service</u>

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school ***or program***.
d. Participation in accreditation reviews.

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring ***Junior Faculty***.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service
Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

For Marine Biology faculty, evidence of high-quality performance may include: (1) evaluation letters from peers, administrators, or others with direct knowledge of the faculty member's area of research, (2) specific accomplishments as reported in the self-evaluation and/or activity reports, and (3) evidence of repeated requests for the faculty member to perform new or expanded service activities. Such requests are strong evidence for quality performance.

Faculty applying for promotion or tenure must present evidence of quality service contributions. For promotion to Associate Professor and tenure, service in at least two of the three classes of service (public, university, professional) is normally expected. For promotion to Professor, faculty should demonstrate an expanded service contribution, normally including service at the national or international level.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

The following motion passed at Faculty Senate meeting #252 on December 7, 2020:

Motion to update regulations on transfer credit

MOTION:

The UAF Faculty Senate moves to update transfer credit regulations #7 & #8.

Revised Regulations:

7. Any transfer student from a regionally accredited institution who has completed an associate degree specifically developed for transfer **and is listed as such in the transferring institution's catalog and has completed at least 26 general education semester credit or 39 general education quarter credit requirements as part of the curriculum for the associate's degree at their previous institution(s)** ~~to a four-year institution~~ will be considered to have satisfied the UAF general education requirements.

8. Any transfer student who has completed the baccalaureate general education requirements at **any** regionally accredited ~~four-year~~ institution will be considered to have completed the baccalaureate general education requirements at UAF. The student is responsible for providing an official statement and documentation certifying general education requirements completion at the previous institution.

*Baccalaureate general education requirements are either from a four-year institution or from a two-year institution that was co-created with a baccalaureate program to reflect categories needed.

*Developed for transfer programs created to provide general education requirements that would transfer into a baccalaureate degree.

Rationale:

Rationale for the change in policy #7:

- **Clear Guidelines:** The existing policy is open to interpretation and has caused confusion in student services professionals being able to quickly and accurately communicate with students if they are or are not receiving GER waivers and has caused an increasing number of petitions. Currently UAF requires 35 General Education Requirements, similar to other regulations, adding a number of credits will verify students complete a minimum of 75% of the UAF requirements. For articulation agreements, a clear policy helps marketing and recruitment efforts on both ends. A policy without room for interpretation also helps students make informed decisions.
- **Efficiency:** Providing more detail in the regulations removes confusion and interpretation and increases the ability to quickly answer students' questions and recruit honestly and effectively.
- **Changing Language:** Different states have different language and definitions around transfer programs and AAS-T language has a variance of the number of GER's required for different programs.

Rationale for the change in policy #8:

- **Broadening:** By providing clearer language in this policy and removing the term "four-year" this opens up opportunities and removes potential petitions for those completing baccalaureate

DocuSign Envelope ID: 43554452-C453-48F7-9A3F-F3473F438FC0

general education requirements in two-year programs. For articulations, recruitment and advising, this policy can now be communicated more clearly.

- **Different States/Different Language**: Different states have different ways to describe degrees for transfer and some two-year colleges are providing opportunities for students to complete baccalaureate general education requirements within two-year programs. Removing the specific language opens up regulations to allow students from unique programs and experiences.

The following motion passed at Faculty Senate meeting #252 on December 7, 2020:

Motion to Correct an Error in Academic Disqualification Policy Language

MOTION:

The Faculty Senate moves to remove the phrase "baccalaureate-level" from the paragraph explaining "Appeal of Academic Disqualification" in both the permanent catalog language and the temporary language for the catalog addendum.

Permanent catalog language:

Appeal of Academic Disqualification — A student who wishes to appeal an academic disqualification decision and remain in the**ir** current ~~**baccalaureate-level**~~ **undergraduate** program may submit an appeal form, available at the Office of the Registrar. Appeals must be initiated no later than the first day of instruction in the semester for which a student wishes to be reinstated. The appeal form with a full academic plan for success will be reviewed by a committee for a first-step approval and will then be approved by the dean of the college or school where readmission is being requested.

Temporary language for the catalog addendum:

Appeal of Academic Disqualification — A student who wishes to appeal an academic disqualification decision and remain in the**ir** current ~~**baccalaureate-level**~~ **undergraduate** program may submit an appeal form, available at the Office of the Registrar. Appeals must be initiated no later than the first day of instruction in the semester for which a student wishes to be reinstated. The appeal form with a full academic plan for success will be reviewed by their academic advisor for a first-step approval and will then be approved by the dean of the college or school where readmission is being requested.

RATIONALE:

There is no difference in the appeal process between baccalaureate and associate/certificate levels. An early version of the working draft motion included "baccalaureate-level" but should have been removed before the final motion went to the floor of the Senate.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgment.

The following motion passed at Faculty Senate meeting #252 on December 7, 2020:

Motion to Create a Graduate Certificate in Applied and Computational Mathematics

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate in Applied and Computational Mathematics, housed in the College of Natural Science and Mathematics.

Rationale: This certificate will provide credentialing for current graduate students in disciplines other than mathematics, but who seek greater exposure to mathematical ideas and techniques. As a post-baccalaureate graduate certificate, the Graduate Certificate in Applied and Computational Mathematics is equivalent to most of a year of course work done by graduate students in this area. The Certificate encourages a more in-depth study into mathematics beyond the undergraduate level. The focus is on mathematics that is useful in the sciences and engineering, especially on techniques that can be applied in computer programs. The certificate is based on existing courses that are currently being offered and requires no additional resources.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

Brief Program Statement

As a post-baccalaureate program, the Graduate Certificate in Applied and Computational Mathematics is equivalent to most of a year of course work done by graduate students in this area. The Certificate encourages a more in-depth study into mathematics beyond the undergraduate level. The focus is on mathematics that is useful in the sciences and engineering, especially on techniques that can be applied in computer programs. Futhermore, it provides students a credential recognizing their additional mathematical expertise.

The Certificate is ideal for current graduate students in disciplines other than mathematics, but who seek greater exposure to mathematical ideas and techniques. It is most suitable for students in the sciences and engineering. It is not suitable for students already enrolled in MS Mathematics or PhD Mathematics programs.

Admissions Requirements

Complete the following admission requirements:

- Hold a baccalaureate degree from an accredited institution
- Complete Calculus I (MATH F251X), Calculus II (MATH F252X), Calculus III (MATH F253X), Differential Equations (MATH F302),and Computer Science I (CS F201)[1] or their equivalent;
- Complete Linear Algebra (MATH F314)[1] or its equivalent.

[1] Students must earn a C or better in each course.

Requirements for the Degree (catalog layout copy of the program)

Minimum Requirements for Degree: 12 credits

Code	Title	Credits
General University Requirements		
Complete the general university requirements. (http://catalog.uaf.edu/graduate/)		
Graduate Certificate Requirements		
Complete the graduate certificate requirements. (http://catalog.uaf.edu/graduate/#GraduateCertificate)		
Complete any two of the following:		6
MATH F614	Numerical Linear Algebra	
MATH F615	Numerical Analysis of Differential Equations	
MATH F660	Advanced Mathematical Modeling	
MATH F661	Optimization	
MATH F663	Graph Theory	
Select two or more from the following electives to total 12 credits for the certificate:		6 - 8
Any course listed above not already taken		
Any of MATH F617, MATH F632, MATH F658, MATH F665		
At most one of MATH F631, MATH F641, MATH F645, MATH F651		
At most one of MATH F401, MATH F405, MATH F404, MATH F408, MATH F410, MATH F412, MATH F432, MATH F426, MATH F430, MATH F460		
At most one 3- or 4-credit 600-level statistics course, excluding STAT F698		
Or other elective courses approved by a Mathematics advisor.		
Total Credits		12-14

Program Goals

Brief identification of objectives and subsequent means for their evaluation

The Certificate is ideal for current graduate students in disciplines other than mathematics, but who seek greater exposure to mathematical ideas and techniques. It is most suitable for students in the sciences and engineering. It is not suitable for students already enrolled in MS Mathematics or PhD Mathematics programs.

Relationship of program objectives to "Purposes of the University"

Provides credentialling for students in other graduate programs to show that they have a good level of mathematical mastery at the graduate level.

Supports and encourages additional advanced mathematical training for graduate students in STEM fields

Occupational/other competencies to be achieved

Supports and encourages additional advanced mathematical training for graduate students in STEM fields

Relationship of courses to the program objectives

The courses in the program provide education in applying mathematics to other disciplines, or provide exposure to the theory behind various mathematical applications

Personnel directly involved with program

Name	Staff classification	Duties	Qualifications
Ed Bueler	Faculty	coordinator	developed program and teaches courses in the program
John Rhodes	Faculty	faculty	regularly teaches courses (Numerical Linear Algebra, Optimization) contributing to the program
Jill Faudree	Faculty	faculty	Regularly teaches a course contributing to the program
David Maxwell	Faculty	Faculty	Regularly teaches a course contributing to the program
Alexei Rybkin	Faculty	Faculty	Regularly teaches courses contributing to the program.
Elizabeth Allman	Faculty	faculty	Teaches courses contributing to the program; has in part an applied mathematics research area

Enrollment Information

Projected enrollment/present enrollment

2 -3 graduates/year

Required for other programs?
No

In what way is the program required? How has this requirement been met to date?

Employment Market Needs:

Who surveyed? How?
none

Job opportunities, including how these predictions were determined.

Now
This will provide additional credentialing for quantitatively-inclined students in other graduate programs, including Chemistry, Geosciences (especially Geophysics), Physics and Space Physics. It will help enhance student success in fields associated with those programs but may not likely itself lead to job opportunities.

Two years from now
This will provide additional credentialing for quantitatively-inclined students in other graduate programs, including Chemistry, Geosciences (especially Geophysics), Physics and Space Physics. It will help enhance student success in fields associated with those programs but may not likely itself lead to job opportunities.

Five years from now
This will provide additional credentialing for quantitatively-inclined students in other graduate programs, including Chemistry, Geosciences (especially Geophysics), Physics and Space Physics. It will help enhance student success in fields associated with those programs but may not likely itself lead to job opportunities.

Ten years from now
This will provide additional credentialing for quantitatively-inclined students in other graduate programs, including Chemistry, Geosciences (especially Geophysics), Physics and Space Physics. It will help enhance student success in fields associated with those programs but may not likely itself lead to job opportunities.

How have positions been filled to date?
n/a

Resource Impact

Budget
GCRT-AppliedCompMath-BudgetComment.rtf

Facilities/Space Needs
No additional facilities space is needed; this repackages current regular course offerings to be attractive to current graduate students outside of mathematics

Credit Hour Production
Students from outside mathematics already take these courses; this would encourage them to maybe take one or two more. So, say 12 - 15 additional graduate credit hours per year.

Faculty
No additional faculty are needed

Library/Media Materials, Equipment and Services
No additional materials are needed

DocuSign Envelope ID: 40994C34-2E62-4DEF-8048-96BEAEE7E045

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

This could attract some enrollment from UAA, especially through offering courses via (synchronous) distance delivery. We have trialled this with some courses that would be contributing to the Graduate Certificate and saw an increase in enrollment in those courses from students in Anchorage of 2 - 3 students.

Does it duplicate/approximate programs anywhere in the system?

No

What is the justification for the duplication?

How does the program relate to research or service activies? Contributions to research or service. Benefits from research or service activities.

It will be attractive to graduate students in computational disciplines, providing an incentive to take more mathematics, which would enhance their research productivity

Implementation/Termination

Plans for recruiting students

Advertising to current graduate programs

Plans for phasing out program if it proves unsuccessful

Stop offering the certificate but continue to teach the courses

Assessment of the program

No SLOAs are required for graduate certificates.

The following motion passed at Faculty Senate meeting #252 on December 7, 2020:

Motion to Revise the Appeal Process for Academic Disqualification Temporarily

MOTION:

The Faculty Senate moves to temporarily simplify the new academic disqualification appeal process for fall 2020 only. Rather than sending the appeal to a committee for approval, it will be sent to the advisor and dean for a two-level approval. The student will still be required to submit the appeal form and to work with their advisor to develop an academic plan for success before approval of the appeal can be granted.

Post in the catalog addendum the following:

Appeal of Academic Disqualification — A student who wishes to appeal an academic disqualification decision and remain in the current baccalaureate-level program may submit an appeal form, available at the Office of the Registrar. Appeals must be initiated no later than the first day of instruction in the semester for which a student wishes to be reinstated. The appeal form with a full academic plan for success will be reviewed by ~~**a committee**~~ **THEIR ACADEMIC ADVISOR** for a first-step approval and will then be approved by the dean of the college or school where readmission is being requested.

RATIONALE:

Faculty Senate adopted a new academic disqualification policy to take effect in the fall 2020 semester. The staff (implementation team) who are responsible for developing and implementing a process to enact the new policy intended to do so during the summer of 2020. However, during the COVID crisis, those same staff engaged full time in implementing new temporary policies and rebuilding the spring, summer, and fall class schedules. Having worked on the new process during the fall semester, the implementation team has completed forms and workflows for most parts of the policy. However, both the Registrar and the Director of the Academic Advising Center have concerns that the new *appeal* process will be unduly burdensome on both students and staff during the short break between the fall and spring semesters. Since it is a new process for students, advisors, and faculty, the Registrar and the Director of the Academic Advising Center propose simplifying the process for fall and implementing the new process at the end of the spring semester of 2021. That will allow the implementation team to design a process that is easy for students and advisors to navigate. Implementing it at the end of spring removes the time crunch component that exists between fall and spring and will make for a smoother roll-out.

EFFECTIVE: Immediately upon Chancellor approval or acknowledgment.

The following motion passed at Faculty Senate meeting #252 on December 7, 2020:

Motion to Waive GRE Requirement for Graduate Admission for Fall 2021 and Spring 2022 due to COVID-19

MOTION:

The Faculty Senate waives the GRE admissions requirement (where one is in place) for graduate admissions for Fall 2021 and Spring 2022.

Rationale: Paralleling our waivers of the ACT and SAT at the undergraduate level, in order to address the continuing exam cancellations and lack of proctored testing spaces nationwide due to COVID-19, and lack of access to GRE testing facilities for international students, it is necessary to waive the GRE admissions requirement for graduate admissions, where one is in place, to provide equity to all potential students.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

MEMORANDUM

TO: Daniel M. White, Chancellor

FROM: Julie A.K. Maier, Faculty Senate President DS JAKM

DATE: December 7, 2020

SUBJ: Request extension on the deadline to move CCS, ANLA, ANLD and ANLP from CLA to CRCD and to include shared governance in the process

The Faculty Senate requests that the chancellor extend the December 21, 2020 deadline on the decision to move CCS, ANLA, ANLD, and ANLP from CLA to CRCD. The Faculty Senate also encourages that the decision-making process be all-inclusive, adhering to shared governance principles and involving the faculty, staff, students, tribal entities, and community members who are connected with the affected programs in all decision making processes. The Faculty Senate also recommends that a plan be developed and in place for a transition that clearly identifies elements crucial to a successful transition and that deals with other relevant issues concerning the transition.

The following passed at Faculty Senate meeting #251 on November 2, 2020:

Resolution to Revise University Regulations to Allow up to 12 Credits to Apply to Both a Baccalaureate and a Master's Degree in Defined Accelerated Master's Programs

WHEREAS, the University of Alaska Fairbanks Faculty Senate recognizes the need to update and modernize academic program offerings; and

WHEREAS, peer institutions of UAF provide Accelerated Master's Degree programs that allow students to concurrently earn a baccalaureate and master's degree and apply a limited number of upper division and/or graduate credits towards both degrees; and

WHEREAS, UAF currently offers Accelerated Master's Degree programs in Computer Science and Mechanical Engineering, approved by the Board of Regents, whereby students can apply up to nine credits to both a baccalaureate and master's degree; and

WHEREAS, the expansion of Accelerated Master's Degree programs would improve student recruitment and retention and support student success in numerous ways, including providing an opportunity for high performing students to begin graduate level work earlier in their academic career, reducing time to degree completion, applying eligible undergraduate financial aid to graduate courses, and facilitating the ability of undergraduate students to continue their undergraduate education at the graduate level at UAF; and

WHEREAS, the University of Alaska Anchorage is also in support of developing Accelerated Master's Degree programs; and

WHEREAS, University Regulations Part X-Academic Policy Chapter 10.04 Academic Programs Section R10.04.090 Evaluation of Student Performance and Course Level Definitions Subsections F.2.b and F2.c state:

> b. Upper division courses usually taken by juniors and seniors
>
> 400-499: Courses with these numbers require the ability to analyze, synthesize, compare and contrast, research, create, innovate, develop, elaborate, transform, and/or apply course material to solving complex problems, and generally require a substantial background of study in lower-level courses. These courses are applicable to baccalaureate degrees, in accordance with degree requirements. These courses may be applied to graduate requirements for some master's degrees with prior approval of the student's graduate study committee. ***However, a student may not apply a course to both a baccalaureate and a master's degree.***

DocuSign Envelope ID: DCF011BD-06A6-4CD2-8701-F33266F27FFB

c. Graduate level courses

600-699: Courses with these numbers demand rigorous analysis, synthesis, and research skills. These courses are applicable to masters and doctoral degrees and to graduate and professional certificates, in accordance with degree requirements. With prior approval of the major department they may be used to meet degree or graduation requirements for some baccalaureate degrees, ***but a student may not apply a course to both a baccalaureate and a graduate degree.***

WHEREAS, University Regulations Part X-Academic Policy Chapter 10.02 - Academic Administrative Organization University Regulations section R10.02.040. Academic Unit Establishment, Major Revision, and Elimination, states:

The president must approve the establishment, elimination or major revision of certain academic units unless such authority has been delegated. Academic units requiring president's approval are those units in which faculty hold tenured or tenure track positions or which deliver one or more degree or certificate programs.

The academic structure of the University of Alaska is designed as described by the list below. The Statewide Office of Academic Affairs will periodically review the list with MAU provost offices and update R10.02.040 as appropriate. Approval of academic units and the elimination and major revision of units listed below require approval of the president. Units designated "BOR" (listed in P10.02.040) also require Board of Regents' approval. ***Authority to eliminate or substantially modify existing units is delegated to the chancellors for units designated with a "C" notwithstanding the foregoing Board of Regents approval required for program elimination, reduction, or addition.***

WHEREAS, to be attractive to students an Accelerated Master's Degree program must allow sufficient dual application of credit to provide students with a meaningful reduction in time and cost,

THEREFORE BE IT RESOLVED, the UAF Faculty Senate requests the Chancellor work with UAA, UAS, and UA President Pitney to revise university regulations to allow the application of up to twelve 400 level and/or graduate credits towards both degrees in an accelerated program by amending University Regulations Part X-Academic Policy Chapter 10.04 Academic Programs Section R10.04.090 Evaluation of Student Performance and Course Level Definitions

DocuSign Envelope ID: DCF011BD-06A6-4CD2-8701-F33266F27FFB

Subsections F.2.b and F2.c to provide for additional Accelerated Master's Degree programs as follows:

b. Upper division courses usually taken by juniors and seniors

400-499: Courses with these numbers require the ability to analyze, synthesize, compare and contrast, research, create, innovate, develop, elaborate, transform, and/or apply course material to solving complex problems, and generally require a substantial background of study in lower-level courses. These courses are applicable to baccalaureate degrees, in accordance with degree requirements. These courses may be applied to graduate requirements for some master's degrees with prior approval of the student's graduate study committee. However, ***except as approved for an accelerated master's program***, a student may not apply a course to both a baccalaureate and a master's degree. ***Accelerated master's may apply up to twelve credits of 400-level and/or 600-level coursework to both the baccalaureate and master's degree.***

c. Graduate level courses 600-699: Courses with these numbers demand rigorous analysis, synthesis, and research skills. These courses are applicable to masters and doctoral degrees and to graduate and professional certificates, in accordance with degree requirements. With prior approval of the major department they may be used to meet degree or graduation requirements for some baccalaureate degrees, but, ***except as approved for an accelerated master's program,*** a student may not apply a course to both a baccalaureate and a graduate degree. ***Accelerated master's may apply up to twelve credits of 400-level and/or 600-level coursework to both the baccalaureate and master's degree.***

The following motion passed at Faculty Senate meeting #251 on November 2, 2020:

Motion to Approve Revised Graduate Certificate General University Requirements

MOTION:

The Faculty Senate moves to revise the Graduate Certificate General University Requirements to provide additional clarity and specificity around academic requirements.

Rationale: The current Graduate Certificate General University Requirements lack the specificity of requirements detailed for other graduation degree programs, leading to potential confusion for students, programs, and the Registrar's Office. The updated guidelines clearly define catalog, GPA, grade, and transfer credit requirements.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

****

[strikethrough denotes deletion of existing language; underline denotes inclusion of new language]

Proposed language for the new policy for catalog publication is as follows:

Graduate certificate programs are designed to provide education past the baccalaureate level and/or to meet clearly defined educational needs of students who have already completed a master's degree. Completion of a graduate certificate should prepare students to better accomplish their goals or meet employment criteria.
These programs provide the student with formal recognition of mastery of a clearly defined academic topic. ~~The credit hours may be applied to other graduate programs where applicable. Note that graduate certificates follow the same policies as master's degree programs.~~

~~Requirements for Graduate Certificates~~

~~In order to earn a graduate certificate, students must be admitted to the program and complete the requirements listed in the program section of this chapter. Most graduate certificates are between 12-18 credits. You must have a cumulative GPA of at least 3.0 in all course work and be registered in the semester you plan to graduate.~~
~~Students may elect to complete their program under the requirements of the catalog in effect at the time of formal acceptance to a graduate certificate program or the catalog in effect at the time of graduation. Students may earn more than one graduate certificate by completing all requirements for each additional program.~~
General University Requirements (GURs) for all graduate certificates are as follows:

1. A student must be admitted to the graduate certificate program. Students must fulfill all GURs and graduate certificate program requirements.

DocuSign Envelope ID: A4CFAC09-CDC2-4E43-BA90-3B019B00755D

2. A minimum of 12 credits is required for any Graduate Certificate. Courses used to meet requirements for Graduate Certificates may be applied to other graduate programs where applicable.

3. You may elect to graduate under the graduate certificate requirements in effect and published in the UAF catalog in any one of the previous seven years in which you are enrolled as a graduate certificate student.

   All non-academic policies and regulations listed in the current catalog apply, regardless of the catalog you are using for your graduate certificate requirements. You must satisfactorily complete all course work and all other graduate certificate requirements within seven years for a graduate certificate.

   Students may earn more than one graduate certificate by completing all requirements for each additional program.

4. A cumulative GPA of at least 3.0 (B) must be earned in courses identified on the GSP.

5. In 400-level courses, a minimum grade of B is required for the course to count toward the graduate certificate program requirements. In 600-level courses, a grade of C is minimally acceptable, provided the student maintains a cumulative GPA of 3.0 (B) in all courses applicable to the graduate certificate program. At least two-thirds of the credits required for the graduate certificate must be taken at the graduate level (600-).

6. You may not use credit by examination, audited courses, F100-, F200-, F300-, and F500-level courses, or courses taken under the credit/no credit option, to fulfill the basic course requirements of any degree program.

7. No more than one- quarter of approved program credits may be transferred from other accredited institutions, including those inside the UA system, unless the graduate certificate is a joint program with another UA university. Transferred credits may not be used from previously earned undergraduate degrees. A minimum B grade (3.0) is required in all graduate courses presented for transfer. A P grade (pass) is not acceptable for transfer credit.

8. If the requirements for a graduate certificate are not met within seven years of formal acceptance into the program, admission expires and the student must reapply for admission.

The following motion passed at Faculty Senate meeting #251 on November 2, 2020:

Motion to Waive ACT/SAT Requirement for Admission for Fall 2022 and Spring 2022

MOTION:

The Faculty Senate proposes waiving the ACT/SAT admissions requirement (where one is in place) for Spring 2022 and Fall 2022.

Rationale: In order to address the continuing exam cancellations and lack of proctored testing spaces nationwide due to the COVID-19, it is necessary to extend waiving the ACT/SAT admissions requirement to provide equity to all potential students. The alternative methods of placement where ACT/SAT scores are used for placement, e.g. Writing, that were put in place for Fall 2020 will be continued or revised as necessary by the appropriate Faculty Senate Committee.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

The following motion passed via an electronic vote on October 28, 2020:

MOTION:
The UAF Faculty Senate moves to re-adopt temporary writing placement guidelines to substitute for Accuplacer or SAT/ACT scores for placement into WRTG 111X.

Rationale: On March 20, 2020, Faculty Senate passed an emergency motion to allow for temporary academic adjustments as a result of the COVID-19 pandemic. In this motion, SAT/ACT scores were waived for Fall 2020 admission requirements. However, to adequately place students in WRTG 111X courses, some measure is required. As Accuplacer testing is suspended and SAT/ACT exams are waived, the Student Academic Development and Achievement committee proposes to continue addressing the above issues by allowing the following multiple measures for placement for the Spring 2021 semester and Summer 2021.

- Cumulative High School GPA of 3.0 or higher, within the past two years
- Successful GED completion within past 12 months

It is recommended that secondary students take placement for dual enrollment.

If students do not meet the above conditions, they will be asked to complete a survey, attach a writing sample, and report on study habits for success. The completed survey and writing sample will be reviewed by the Placement Task Force within two working days.

The Writing Placement Task Force members include: Jennifer Tilbury jltilbury@alaska.edu; CTC Director for Student Success; Sarah Stanley sstanley2@alaska.edu, Director of University Writing; Kate Quick kaquick@alaska.edu, Assistant Professor of Developmental Writing; Katie Lubowicki kmlubowicki@alaska.edu, Assistant Professor of Developmental Writing; and Dana Greci dgreci@alaska.edu, Professor of Developmental Writing. We invite our UAF Faculty colleagues to join us, especially those who may have concerns about student writing at the University.

Placement decisions will be shared with Jessica Skipper and Nanook Navigator to further track student success. The task force commits to collect data and report on this process at the conclusion of Spring 2021. The survey is a collaborative project and draws from best practices.

This policy is temporary and shall end when SAT/ACT exams and Accuplacer testing resume.

EFFECTIVE:
Immediately upon Chancellor approval.

The following motion passed at Faculty Senate meeting #250 on October 5, 2020:

Motion to Protect Faculty Members' Proprietary Rights Over Course Material and Delivery Modes

MOTION:

In order to ensure that quality teaching is the first priority in every course, UAF Faculty Senate moves to protect faculty's proprietary rights over materials they create for use in their face-to-face and distance delivery classrooms consistent with the terms of the United Academics CBA. The Faculty Senate affirms **Article 14.2.d.** of the CBA, which specifically includes "syllabi and other course materials" as examples of "university supported" items whose creators enjoy intellectual property rights defined in the CBA. The following terms of **CBA Article 14.3.a.2** apply: "the UNAC member shall retain ownership and control of University supported work produced by the UNAC member. Such work shall not be used in a manner which conflicts with the interests of the University. The University and the UNAC member shall share the net proceeds from supported works according to Article 14.3(c). The UNAC member shall not commit any act which would tend to defeat the University's interest in the work and shall take any necessary steps to protect such interests. The University reserves the right to use all supported works on a royalty free basis." Except as may be otherwise consistent with the University's rights under Article 14.3(a)(2), the University may not compel UNAC members to waive intellectual property rights in course materials. IP rights of all University employees outside of UNAC are governed by P10.07 and R10.07.

UAF Faculty Senate further moves to protect faculty's rights to create our own course with no mandates that we teach from pre-developed or third-party coursework except where departments and/or individuals desire to use these pre-developed or third-party programs.

In addition, the Faculty Senate affirms the right of faculty members to determine modes of distance delivery during the Coronavirus pandemic, so long as their choices comply with applicable laws as well as university policies and regulations. Article II of the Faculty Senate Constitution, under "Rights, Responsibilities, and Authority," grants the Faculty Senate not only "academic freedom" but also "primary authority" over "academic criteria, regulation, and policy" over responsibilities such as teaching. On the basis of this authority, the Faculty Senate moves to clarify that individual UAF faculty have full authority over the measures they will take to implement the directive to move their courses into "alternate delivery formats" during the coronavirus pandemic and to use either synchronous, asynchronous, or blended formats to meet their diverse students' needs. Moreover, the Faculty Senate moves that when we return to normal, non-pandemic times, face-to-face delivery must remain a vibrant and well-supported teaching option throughout the university.

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

Rationale: We are in the midst of Coronavirus closures and mandated social distancing, requiring that faculty quickly convert face-to-face classes to distance delivery formats. Faculty are to be commended for taking on this herculean task.

Third-party vendors, including textbook publishers, are advertising pre-made course-work to faculty and administrators, and we preemptively assert our right to create our own curriculum. In order to preserve the fundamental professional values and standards of quality higher education during these exceptional circumstances, it is essential to protect all faculty members' ownership of online, distance delivery, and other course content.

Further, faculty should, as producers of their instructional content, control how their course is deployed. All modalities of distance delivery, provided they are compliant with university policies and regulations as well as state and federal laws, must be permissible during the coronavirus pandemic to afford faculty the flexibility to meet the needs of our diverse students; face-to-face instruction must remain a supported and viable course delivery option when social distancing rules are lifted.

EFFECTIVE: Immediately upon Chancellor approval or acknowledgement

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

The following motion passed at Faculty Senate meeting #250 on October 5, 2020:

MOTION:

The Faculty Senate moves to update Faculty Senate Bylaws in regard to the charge given to the Curricular Affairs Committee.

The Curricular Affairs Committee proposes to update the committee's charge and scope of work by adding the underlined language to the current bylaws under Section H. Standing Committees, paragraph 1:

The Curricular Affairs Committee will deal with undergraduate curricular and academic policy changes. This can include but is not limited to grading policies, readmission policies, course designations, syllabi, curriculum partnerships, and any other issue impacting curriculum across UAF. The Committee collaborates with other Faculty Senate Committees to achieve its goals.

RATIONALE: The current charge for the committee is overbroad and vague. The additional language explains some of the tasks Curricular Affairs is asked to address. As academic and curriculum processes become more streamlined, the additional charge language provides more detail to faculty, staff, students and administrators about the scope of work CAC undertakes.

The following motion passed at Faculty Senate meeting #250 on October 5, 2020:

Motion to update regulations on cross-listed and stacked courses

MOTION:

The UAF Faculty Senate moves to update regulations and guidelines on offering cross-listed and stacked courses with reserved number courses (-92, -93, -94, -95).

Regulation and policy is revised as follows:

- Non-credit (001-049), special topic (-93 or -95) and trial (-94) courses may only be cross-listed with another course ending in the same numeric suffix.
- Seminar courses (-92) may be temporarily cross-listed with different numbered existing courses in other departments. The temporary cross-listed course (-92) and host course may use slightly different titles but subtitles, descriptions, credit hours and prerequisites must be identical. For example, WGS 492 - Seminar - Emily Dickinson may be cross-listed with ENGL 435 - Authors - Emily Dickinson.
- Departments wishing to offer seminars cross-listed with other courses should consult and collaborate with the host department before scheduling cross-listed seminar courses.
- Special Topic (-93 or -95) and Trial (-94) courses may only be stacked with another course ending in the same numeric suffix.
- Special Topic courses (-93 or -95) may only be offered once. If student interest or demand warrants additional offerings, a trial course proposal should be submitted for the curriculum review process. This does not affect special topic courses on "Current Topics" provided the content is different from offering to offering.

Rationale: Regulations on course stacking were approved on May 7, 2018 at Faculty Senate Meeting #232. However, there remains a very large grey area involving requests to cross-list or stack seminar (-92), special topics (-93 and -95) and trial courses (-94) with already existing catalog courses. The policy clarification provided here will resolve the issues that have been identified.

Reserved number courses should not be cross-listed or stacked with any other course for the following reasons:

- By the original design, special topics should only be taught one time as they are exempt from the curriculum review process beyond the College/School level. Future offerings of a special topic course should be proposed as a trial course and go through

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

the curriculum review process. The number of times special topics have been offered is now being monitored closely.

- In contrast to special topics courses, trial courses are used to gauge the demand and interest in a new topic area. These, in turn, may be offered up to three times which gives faculty and departments the ability to gauge the demand of the course before starting the process of creating it as a catalog course.
- There have been numerous instances where trial courses and special topics course sections were created in the schedule without a fully approved form, which is against Faculty Senate Policy (see chapter 2 of the UAF Faculty Senate Handbook in regards to Special Topics). It is the Office of the Registrar's policy to at all times have fully approved documentation on file for trial courses or a current submission for special topic courses.

Because of the policy to cross-list courses with identical numeric suffixes, some departments are prevented from offering a one-time or rotating seminar course cross-listed with an existing course of a different course number. This hampers a department's ability to attract students, increase enrollment and develop interdisciplinary collaboration with other departments.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

****

Overview:
This minor provides an opportunity for upper level undergraduates from Sciences (e.g., Natural Sciences and Agriculture, Geosciences, Geography, Physics), Mathematics and Engineering across the University of Alaska System to pursue a concentration and specialization in AgroMeteorology. The minor is established at the College of Natural Science and Mathematics (CNSM) and fostered by worldwide specialists in the fields of Meteorology and Climate from the Department of Atmospheric Sciences (DAS) and Agriculture from the Department of Natural Resources and Environment (DNRE). This minor aims to provide the student with training in state-of-the-art experimental and computational methodologies and tools as well as with a deep theoretical understanding of transdisciplinary process at the convergence and intersection between Agriculture and Meteorology/Climate. All courses listed for this minor present a module for professional

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

practices in the field and in computers so that the student can profile a pathway for workforce development.
With a minor in AgroMeteorology, the student would have a well-rounded and hands-on formation in all aspects involving agricultural systems that influence or are influenced by meteorological and climate processes. The program is fully compliant with the standard practices set at the US-Department of Agriculture, the US-National Weather Service and the World Meteorological Organization objectives in terms of seasonal analysis, forecasting activities and decision making processes. This newly created minor requires no extra resources (i.e. faculty, space, etc.).

Relationship to Purposes of the University:
This program provides a focused specialization to upper-level undergraduate students in the transdisciplinary field of AgroMeteorology. This minor provides the formation and tools to shape student's graduate profile with a specialization that would allow them to produce direct contributions throughout multiple organizations at the state and federal level as well as worldwide and in the private sector. The program prepares students with deep knowledge in the convergent field of agriculture and meteorology/climate and provides training in the ultimate methodologies and technologies of current application in AgroMeteorology. This minor prepares highly competitive professionals that would contribute to Alaska's professional workforce or to the workforce of the student's home state or country. The program is established with a full alignment to sciences programs in the UA system and targets the workforce development in the field matching the UA systems' mission in term of education and competitive workforce development. This minor feels a gap as AgroMeteorology does not exist in the University of Alaska System. As such, the implementation of this minor will not affect other enrollments. In fact, this minor as proposed would help better profile science and engineering careers by adding a specialization in a transdisciplinary area that is central for Alaska and the world as the effects of weather and climate have become more intense and widespread distributed influencing food scarcity, food security and food access to society. Diversifying the offers of science programs is one step forward to increase enrollment and attraction to students wishing to obtain a professional career in sciences or engineering with strong impact in agriculture production and sustainability related to the health of the environmental and our society. The implementation of this program do not anticipate undue pressure on any other programs in the system.

Proposed Catalog Layout:
Courses scheduled for the Minor in Agrometeorology comprises 24 credits + one Internship (Field Practice)

NRM-210 Sustainable Agriculture	3 credits
NRM-380 (*) Soil and Environment	3 credits
NRM-338 Introduction to Geographic Information Systems	3 credits
ATM-401 Introduction to Atmospheric Sciences	3 credits
ATM-473 Micrometeorology with focus on Subarctic and Arctic Ecosystems	3 credits
NRM-435 GIS Analysis	3 credits
ATM-444 Meteorology and Weather Analysis	3 credits
NRM-480 Soil Management	3 credits

(*) Notice that NRM 380 is a prerequisite for NRM-480

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

The following motion passed at Faculty Senate meeting #250 on October 5, 2020:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Oceanography.

Effective: Fall 2020
Upon Chancellor Approval

Rationale: The Unit Criteria Committee has assessed the unit criteria submitted by Oceanography. The unit has brought the document into compliance with the current UAF Unit Criteria template and has made no other additions to the old Oceanography criteria. The revisions were reviewed and approved by the Unit Criteria Committee on May 5, 2020, and the unit criteria was found to be consistent with the UAF guidelines.

UAF Unit Criteria
for
Department of Oceanography

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the Department of Oceanography. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development. ***Teaching in Oceanography is predominately conducted through their graduate program. The major teaching activities are classroom/laboratory/field instruction and advising graduate students on thesis and dissertation research. Graduate classroom instruction often requires effort disproportionate to the number of students served. The normal expectation for full-time (9 month) tenure track faculty is 6 credits per year. Faculty may reduce classroom teaching to a minimum of 3 credits with external funding buyout. For faculty with different workloads the expectation is to be adjusted proportionately in accordance with annual workload statements***

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

c. Performance as major advisor is evaluated based on degrees completed under the faculty member's supervision, since each represents a major investment of faculty time. However, it is recognized that demand for graduate degrees is not uniform across disciplines, and limited availability of students may limit a faculty member's activity in graduate advising. Promotion to associate professor requires that at least one M.S. Graduate degree has been completed, or one Ph.D. Student has made substantial progress towards completion under the faculty member's supervision as major advisor if the faculty member's workload includes teaching. Promotion to professor requires that at least two graduate degrees (M.S. or Ph.D.) have been completed under the faculty member's supervision as major advisor if the faculty member's workload includes teaching. Additional evidence of performance quality includes publication of peer-reviewed journal articles or book chapters based on the advised student's thesis or dissertation research; student presentations at national and international meetings; awards to students; and student success in initial employment after graduation.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline. ***The primary evidence of high research quality is publication of research results and interpretations in respected, national or international, peer-reviewed journals or peer-reviewed books or book chapters. In evaluating such publications, quality, as judged by faculty peers, is more important than quantity. Secondary evidence of research substance and quality can include publications that are not peer-reviewed, such as final contract reports, data reports, and websites.***
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval. ***Secondary evidence of research substance and quality can include external funding from sources known for rigorous peer or organizational review of proposals.***
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications.
   h. Published abstracts of research papers.
   i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
   j. Prizes and awards for excellence of scholarship.
   k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
   l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
   m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
   n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations,

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

o. Faculty applying for promotion or tenure must present evidence of high-quality contributions in research. For a full-time (9-month) workload, the minimum expectation for award of tenure and promotion to associate professor is a sustained publication record averaging one per year, with a minimum of six. The minimum expectation of peer-reviewed publications for promotion to professor is a sustained publication record averaging one per year, with a minimum of twelve. Typically, at least half of the publications at each promotion level will be first-authored by the candidate or by a graduate student, undergraduate student, or post-doctoral scholar under the candidate's direct supervision. It is the candidate's total publication record, regardless of affiliation, that is considered in determining these counts.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

To be considered in performance evaluations, public service activities must be related to the faculty member's university position. The proportion of workload assigned to formal administrative duties and to university, professional and public service is outlined in the annual workload statement.

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. ***Voluntary*** consulting ***in the faculty member's area of expertise consistent with the obligation for public service.***
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring ***junior faculty***.

DocuSign Envelope ID: FAC081FC-45A7-464D-90E1-8481F673DCE9

j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service
Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

For Oceanography faculty, evidence of high-quality performance may include (1) evaluation letters from peers, administrators, or others with direct knowledge, (2) specific accomplishments as reported in the self-evaluation and/or activity reports, and (3) evidence of repeated requests for the faculty member to perform new or expanded service activities. Such requests are strong evidence for quality performance.
Faculty applying for promotion or tenure must present evidence of quality service contributions. For promotion to associate professor and tenure, service in at least two of the three classes of service (public, university, professional) is normally expected. For promotion to professor, faculty should demonstrate an expanded service contribution, normally including service at the national or international level.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

Overview:

The purpose of the Minor in Special Education is to provide individuals who are working towards a current Alaska teaching certificate (Elementary or Secondary) with specific training in the areas of special education leading to an additional endorsement in K-12 Special Education. Students will progress through a series of developmentally sequenced field experiences for the full range of ages, types and levels of abilities and collaborative opportunities. All students in the program will demonstrate knowledge of the Council for Exceptional Children (CEC) content standards for Special Education Teachers, which the Council for the Accreditation of Educator Preparation (CAEP) approved.

DocuSign Envelope ID: 30159D6B-41A4-494C-830F-84B3B6779063

Relationship to Purposes of the University:

There is a well-documented and critical need for well-prepared Special Education Teachers in Alaska, and throughout the United States. The Minor in Special Education provides the option for students in rural areas, as well as those on the Fairbanks (Troth Yeddha') and Anchorage campuses, to pursue a Minor in Special Education concurrently with their teacher certification program in elementary or secondary education. The special education teacher shortage in rural areas, the statewide teacher turnover rate, and the predicted shortage in urban areas is a critical problem to which the university system can respond by increasing the options for pathways to special education endorsement.

As a public institution, and as the State's land-sea- and space-grant institution, the University of Alaska responds to the interests and needs of the people of Alaska. Close working relationships between the K-12 public education system and the State's higher education system are essential for the social and economic well-being of our state. The Minor in Special Education is a direct response to the stated mission of the University of Alaska, which is to "address the needs of the North and its diverse peoples." There most certainly is a need in Alaska for special education teacher – and for special education preparation programs that prepare people to professionally and respectfully work in our unique Northern context with Alaska's diverse people – i.e., with students and families from all ethnic, cultural and linguistic backgrounds. In addition to supporting the mission of the University of Alaska, this preparation program at UAF directly responds to and supports the mission of the University of Alaska by directly addressing workforce development in high need areas in the state.

Proposed Catalog Layout:

Program Requirements

1. Complete the general University requirements (**page XXX**).

2. Complete the following course requirements:

a. Complete all of the following courses:

EDSE F410 Assessment of Students with Disabilities (3 credits)

EDSE F412 Curriculum and Strategies I: Low Incidence (3 credits)

EDSE F425 Teaching Mathematics to Special Learners (3 credits)

EDSE F432 Special Education Law: Principles and Practices (3 credits)

EDSE F477 Reading Assessment, Curriculum, and Strategies (3 credits)

EDSE F478 Initial Clinical Practice (3 credits)*

DocuSign Envelope ID: 30159D6B-41A4-494C-830F-84B3B6779063

Elementary education (BA) students will complete EDSE 316 (3 credits) and EDSE 320 (3 credits)

Secondary education (BA) students will complete EDSE 422 (3 credits) and one Special Education elective (3 credits).

Total credits: 24

: Special Education Minor 3

*Additional fee required. Charges are added to fee statements each semester.

DocuSign Envelope ID: 5700C2DF-BB60-4A71-99C5-965BC4803C58

Addition to syllabus checklist

The UAF Faculty Senate Administrative Committee (AdCom) moves to amend the syllabus checklist to add a required component <https://ou-webserver01.alaska.edu/uafgov/faculty-senate/curriculum/Updated-2019-Syllabus-Checklist.pdf>.

ADDITION:

Students should keep up-to-date on the university's policies, practices, and mandates related to COVID-19 by regularly checking this website:
https://sites.google.com/alaska.edu/coronavirus/uaf/uaf-students?authuser=0

Further, students are expected to adhere to the university's policies, practices, and mandates and are subject to disciplinary actions if they do not comply.

EFFECTIVE DATE: immediately upon Chancellor's approval.

TO: Board of Regents

FROM: Julie A.K. Maier, Faculty Senate President DS JAKM

DATE: 14 July 2020

SUBJ: Critical characteristics of the next UA President

The UAF Faculty Senate believes that the following characteristics and background are crucial qualities of our next President of UA –

- The individual must recognize that it is the faculty that creates the vision of the university. He/she must be willing to empower the faculty to create a vision that will sustain and grow the university to the future. Such a vision should be resilient to shifts in external conditions impacting the trajectory of the university, thus reinvigorating the morale of the employees and trust of the students and external stakeholders.

- The individual must have prior experience of teaching, research and public service, reflecting adequate knowledge in the central role of the university as the engine for economic transformation and prosperity. Must also understand the specific responsibilities and requirements in public service of a Land, Space, and Sea Grant university.

- The individual must have a terminal degree in an academic discipline.

- The individual must have excellent interpersonal skills and significant leadership experience, preferably in an academic institution. The candidate should also be knowledgeable and be willing to apply rules of academic settings such as shared governance across the three parts of the University System (administration, faculty and Board of Regents).

- The individual must recognize the importance of indigenous peoples in the identity of the state and university and ensure that the universities include Alaska Native emphases in their decision-making processes and outcomes, as well as providing systems that support rural Alaska students.

- The individual should recognize that the State of Alaska has the highest percentage of veterans per capita (11.9%) and he/she must, therefore, ensure that the universities have policies, opportunities, and systems that support those students.

- The individual must be adept in balancing between the internal and the external constituents of UA. Must be inclusive of all constituents in the decision making process and must respect diversity.

MEMORANDUM

TO: Daniel M. White, Chancellor

FROM: Julie A.K. Maier, Faculty Senate President DS JAKM

DATE: July 14, 2020

SUBJ: Statement affirming faculty authority in their workspaces

The UAF Faculty Senate Administrative Committee (AdCom) moves to affirm that individual UAF faculty members have the authority to set additional policies governing the safe health behavior of students who are in faculty workspaces, including their labs, studios, classrooms, faculty offices, greenhouses, research stations and sites, and other spaces in which faculty work. Specifically, individual faculty members may require students to wear masks, to use hand sanitizer, to wash their hands, to physically distance from others, to sign a pledge to adhere to health safety protocols, and/or other safe health practices as determined by the individual faculty member and as included in the course syllabus. These policies may be more restrictive, but not less restrictive, than UAF policies. Further, the AdCom affirms that students who do not comply with their individual faculty members' established health safety policies may be subject to disciplinary procedures pursuant to the student code of conduct.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: AB9E2805-358E-426A-86AF-9B5ADF9C5F18

The following motion passed at the Administrative Committee meeting on May 29, 2020:

Motion to Waive ACT/SAT Requirement for Admission for Fall 2021 and Spring 2021

MOTION:

The Faculty Senate proposes waiving the ACT/SAT admissions requirement (where one is in place) for Spring 2021 and Fall 2021.

Rationale: In order to address the continuing exam cancellations and lack of proctored testing spaces nationwide due to the COVID-19, it is necessary to extend waiving the ACT/SAT admissions requirement to provide equity to all potential students. The alternative methods of placement where ACT/SAT scores are used for placement, e.g. Writing, that were put in place for Fall 2020 will be continued or revised as necessary by the appropriate Faculty Senate Committee.

EFFECTIVE:

Immediately upon Chancellor approval or acknowledgement.

WHEREAS the Northwest Commission on Colleges and Universities (NWCCU) Standard One is specific to Student Success, and Institutional Mission and Effectiveness. In particular, Standard 1.B.3 states, **"The institution provides evidence that its planning process is inclusive and offers opportunities for comment by appropriate constituencies**, allocates necessary resources, and leads to improvement of institutional effectiveness."

WHEREAS the NWCCU's Standard Two is specific to Governance, Resources, and Capacity. In particular, Standard 2.A.4 states, "The institution's decision-making structures and processes, which are documented and publicly available, **must include provisions for the consideration of the views of faculty, staff, administrators, and students on matters in which each has a direct and reasonable interest.**"

WHEREAS the University of Alaska Fairbanks (UAF) Faculty Senate had the opportunity to discuss and vote on most of the program changes and deletions proposed by the UAF Expedited Academic Program Review committee, but was not given the opportunity to discuss and vote on the proposed deletion of the MS and PhD in Atmospheric Sciences,

WHEREAS UAF Faculty are currently off contract and are not available to express their views on the proposed deletion of the MS and PhD in Atmospheric Sciences, as per NWCCU requirements for accreditation and, therefore, the standard required for shared governance is not being upheld in this instance,

WHEREAS the faculty of the Department of Atmospheric Sciences have been exceedingly successful in graduating MS and PhD students and in getting then successfully into the workforce, getting grants from federal agencies including NOAA, NSF, and others, bringing in an average of just under $10 Million per year for the past five years and sustained an excellent level of funding for the last 20 years,

WHEREAS the Department of Atmospheric Sciences recently received funding to be part of a Cooperative Institute funded by NOAA whose purpose is to facilitate and conduct collaborative, multidisciplinary research to support NOAA's mission; educate and prepare the next generation of scientists to be technically skilled, environmentally literate and reflect the national diversity; and engage and educate the citizenry of the Pacific Northwest, Alaska and the nation about human-caused impacts on ecosystem health and socioeconomic sustainability. In particular, from the NOAA official note: "The regional consortium will include affiliated faculty and staff at UW, the University of Alaska Fairbanks and Oregon State University, who will contribute expertise, research capacity, technological development, and **help train the next-generation of NOAA scientists**, and conduct public education and outreach".

DocuSign Envelope ID: 51B5F628-BD12-435D-9249-1F9E351AD8EE

https://research.noaa.gov/article/ArtMID/587/ArticleID/2627/NOAA-names-University-of-Washington-to-host-institute-for-climate-ocean-and-ecosystem-research

WHEREAS Senator Lisa Murkowski pointed out that "This new collaboration will lead to research which will inform community leaders at the federal, state, local levels, as well as Alaska Native Leadership, on mitigation efforts to address our greatest climate and ocean challenges in the Arctic and the High North."

WHEREAS the NOAA grant will bring in an additional $10 Million per year for the next five to ten years, but has an expectation of training graduate students as one of its key requirements,

WHEREAS it will be extremely difficult to execute the NOAA program and retain UAF leadership in training the future high latitude workforce if the Department of Atmospheric Sciences is deleted.

THEREFORE BE IT RESOLVED that the UAF Faculty Senate requests that the MS and PhD in Atmospheric Sciences be taken off of the list of programs to be deleted at the June 4th and 5th meeting of the UA Board of Regents.

MEMORANDUM

TO: Board of Regents
President James Johnsen

FROM: Julie A.K. Maier, Faculty Senate President DS JAKM

DATE: 2 June 2020

SUBJ: UAF Faculty Senate endorses UA Faculty Alliance resolution 2020-06

UAF Faculty Senate voted to support the University of Alaska Faculty Alliance Resolution 2020-06, which supports Shared Governance principles and processes and supports the establishment of a governance team with the Student Coalition, Staff Alliance, and Faculty Alliance participation from inception to conclusion of a process to review university structure.

UAF Faculty Senate also has some other specific concerns with the transition options being provided to the Board of Regents.

The first major concern UAF Faculty Senate has is the lack of meaningful data and adequate time to address the transformation options provided to the Statewide Councils (Academic Council, Business Council and Executive Council). Options for Transforming the University Alaska were developed by the statewide administration (SW) and shared with the three Statewide Councils for review on May 20, 2020. The councils were required to give feedback on their respective assignments to SW by 5 pm on Friday, May 22. The Academic Council met for one hour on May 21, 2020 to discuss the three items assigned to them and the Business Council also had a short meeting to address their assignment. No substantial financial data was provided to the Councils to guide their work and help them come to meaningful conclusions, including no budgetary data with which to estimate UGF cost savings, as required. Members of the Academic Council entered their opinions into each category in the blank Google document in the one hour that was allotted. VP Layer later summarized and sometimes modified the comments.

A second major concern of UAF Faculty Senate is the lack of shared governance in the recommendations made by the Statewide Councils to the Board of Regents on the Transformation Options. Specifically, there are three faculty members on the Academic Council, one faculty member on the Business Council, and no faculty on the Executive Council. There are no students and no staff on any of the three Statewide Councils. The dearth of faculty and lack of students and staff on the Councils tasked with addressing the options for major university transformation demonstrate a clear lack of shared governance and, therefore, an abridgement of the standards of the NWCCU (Standards 1.B.3 and 2.A.4).

A third major concern of the UAF Faculty Senate is that many of the changes proposed in the Transition Options are not likely to save significant amounts of money overall, and certainly will not save significant amounts of money in the short-term; moreover, the proposed changes

DocuSign Envelope ID: DBDF0154-5DE7-4C91-8885-C52BE8989130

demonstrate a lack of awareness of the amount and extent of the collaborative work that has been accomplished by the faculty across the UA system.

As an example, one of the proposed changes concerns aligning the General Education Requirements (GERs). However, this ignores the significant alignment the UA system has already achieved and threatens student retention and academic standards for the following reasons:

- GERs are completely aligned across the entire UA.
- All three of the separately accredited universities have been accepted into the Interstate Passport System (IPS). Membership in the IPS enables students from any one of the participating universities, including all of the WICHE universities, to transfer their GERs as a block when they transfer to any other university in the IPS.
- Large, online GER courses, the model used by Western Governors University (WGU), is pedagogically unsound, threatens student retention, and could lead to ineligibility for Title IV funds (Pell Grants) as happened to WGU when the U.S. Department of Education (DOE) Inspector General concluded that WGU violated the DOE's standard for faculty-student interaction and must repay $712,670,616 in Title IV funds that the school received beginning July 1, 2014.

It is especially important for first- and second-year students to connect with their university, its faculty, and fellow students in order to build the college students' culture and feel like they belong, while they learn to be a college student. Moreover, curriculum is explicitly the purview of faculty, and faculty are the only ones who should be developing curriculum, including GERs, and programs: note that curriculum development encompasses not only the content of courses, but also aspects such as the mode of delivery and the enrollment caps on the course. In addition, according to the DOE, faculty with continuing appointments (not adjuncts or teaching assistants) should be the primary persons delivering those courses and programs to students. This standard is in place to maintain the academic rigor and excellence that students deserve as they work toward a post-secondary, university education.

In conclusion, as the Board of Regents considers the Transition Options for the University of Alaska System and its three component universities, the UAF Faculty Senate strongly encourages that Faculty, Staff and Student Governance be involved in the decision making in a deep and meaningful way, rather than just having one or two faculty members consulted for one or two hours so that Statewide can pretend to incorporate shared governance; that there is separation between decisions that need to be made to deal with the short-term financial crisis and ones that may only have financial effects on a significantly longer-term time horizon; that decisions be made using actual financial projections, rather than unsubstantiated guesses about what money might be saved; and that we encourage the Board of Regents to be skeptical of summary data presented to them, ask hard questions, and investigate the assumptions being used in models.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: 7DFC3716-24F7-4802-A953-F1AFDCDA1F77

MOTION:

The UAF Faculty Senate moves to authorize the 2019-20 Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2020. Senators will be kept informed of the Administrative Committee meetings and will be encouraged to attend and participate in these meetings.

Effective: May 4, 2020

Rationale: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

Outstanding Senate Service of the Year Award
Academic Year 2020

WHEREAS, Kate Quick has been a key member of the Administrative Committee, working inside and outside of meetings to formulate proposals that protect and advance faculty members' rights and freedoms as members of the academic community;

WHEREAS, Kate Quick has consistently contributed to constructive dialogue and language in negotiating Faculty Senate motions and resolutions;

WHEREAS, Kate Quick has advocated for faculty not only in the Faculty Senate but also as a faculty advocate in United Academics and tireless bridge-builder between UNAC and Faculty Senate;

WHEREAS, Kate Quick has been a leader on the Faculty Affairs Committee, taking a leading role in creating key motions that benefit faculty and students;

WHEREAS, Kate Quick took initiative in critically assessing the Expedited Academic Program Review documents even though she was not a member of the Expedited Academic Program Review committee, lending good insight into the need to protect academic choice for students, current and future;

WHEREAS, even though Kate Quick is an untenured professor, she bravely and effectively participates as a member of the Representative Assembly of the faculty union. Prior to becoming tenure-track, she participated on the union for adjuncts;

WHEREAS, Kate Quick works closely with colleagues in the Department of Developmental Education to develop curriculum that improves student success in their college classes;

WHEREAS, Kate Quick is judicious in her actions while being a tireless advocate for shared governance besides being an outstanding team player in Faculty Senate matters.

THEREFORE BE IT RESOLVED that the UAF Faculty Senate acknowledges these valuable contributions of Kate Quick, and bestows upon her the 2019-2020 Outstanding Senate Service of the Year Award.

Outstanding Senate Service of the Year Award
Academic Year 2020

WHEREAS, Jennifer Carroll has served on the Administrative Committee, Curricular Affairs Committee, Unit Criteria Committee, Graduate Academic & Advisory Committee, GER & Core Committee, Blue Book Revision Editors Ad Hoc Committee, and COVID-19 Ad Hoc Committee during her service on the Faculty Senate;

WHEREAS, Jennifer Carroll chaired the Curricular Affairs Committee in 2015-2016;

WHEREAS, Jennifer Carroll has been a key contributor to the work of the Unit Criteria Committee; she served as as co-chair of the committee in 2018-2019 and was a key contributor to the updated Unit Criteria template finalized in February 2020 because of her knowledge of the new Blue Book;

WHEREAS, Jennifer Carroll was one of the instrumental members in shaping the Blue Book revisions and had significant yet judicious revisions included in the Blue Book;

WHEREAS, Jennifer Carroll has been a key contributor to the work of the Graduate Academic & Advisory Committee as a co-chair in 2019-2020, by exhibiting extraordinary leadership and organizational skills in keeping a large committee on track through both program/course approval and policy-making processes, and by allowing space for healthy collegial dialogue surrounding difficult structural issues embedded in curricular ones;

WHEREAS, Jennifer Carroll is chairing the COVID-19 Ad Hoc Committee in Spring and Summer 2020;

WHEREAS, though Jennifer Carroll is an untenured assistant professor, she exhibits the courage, strength and resolve of a senior faculty member dedicated to shared governance;

THEREFORE BE IT RESOLVED that the UAF Faculty Senate acknowledges these valuable contributions of Jennifer Carroll, and bestows upon her the 2019-2020 Outstanding Senate Service of the Year Award.

BOLD CAPS = Addition

[[ ]] = Deletion

The Alaska Native-themed requirement is a degree requirement for all baccalaureate, associate of arts and associate of science degrees. [[The requirement may be met by completing 3 credits of designated Alaska Native-themed courses anywhere in the student's course of study, including General Education Requirements, major requirements, minor requirements and electives.]]

STUDENTS MAY CHOOSE FROM A NUMBER OF COURSES TO MEET THE TOTAL THREE-CREDIT-HOUR ALASKA NATIVE THEMED DEGREE REQUIREMENT. THESE COURSES EXPLORE ALASKA NATIVE PEOPLES AND CULTURES THROUGH AT LEAST ONE OF THE FOLLOWING: VALUES, LANGUAGE, ART, KNOWLEDGE, GOVERNANCE, SUBSISTENCE, EXPERIENCE, AND/OR WAYS OF LIFE. THIS REQUIREMENT DOES NOT ADD TO THE TOTAL NUMBER OF CREDITS REQUIRED FOR GENERAL EDUCATION REQUIREMENT (GER) OR DEGREE COMPLETION. ALTHOUGH THE ALASKA NATIVE THEMED COURSE REQUIREMENT IS SEPARATE FROM GERS, SOME ANT COURSES ARE ALSO GERS. THESE COURSES ARE MARKED WITH AN X, AND CAN COUNT TOWARDS BOTH A GER AND ANT.

THE UNIVERSITY OF ALASKA FAIRBANKS IS PROUD TO ACKNOWLEDGE THE ALASKA NATIVE NATIONS UPON WHOSE TRADITIONAL LANDS OUR SIX CAMPUSES RESIDE. IN FAIRBANKS, OUR TROTH YEDDHA' CAMPUS IS LOCATED ON THE TRADITIONAL LANDS OF THE CH'ENO' XWUT'ANA (DENA) PEOPLE OF THE LOWER TANANA RIVER AND OUR BRANCH CAMPUSES AND EXTENSION OFFICES ARE HOSTED ON INDIGENOUS LANDS THROUGHOUT THE STATE. WE ARE FEDERALLY DESIGNATED AS AN ALASKA NATIVE SERVING INSTITUTION WITH OVER 20 PERCENT OF OUR STUDENT BODY BEING ALASKA NATIVE AND/OR AMERICAN INDIAN.

IN ORDER TO FULFILL UAF'S MISSION AND HONOR THE FIRST PEOPLES OF ALASKA WE MANDATE THAT ALL INCOMING UNDERGRADUATE STUDENTS LEARN ABOUT ALASKA NATIVE PEOPLES AND BE EXPOSED TO ALASKA NATIVE PERSPECTIVES AND WORLDVIEWS THROUGH THE ALASKA NATIVE THEMED (ANT) COURSE REQUIREMENT. THIS REQUIREMENT WAS

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

DEVELOPED THROUGH THE EFFORTS OF THE STATEWIDE ALASKA NATIVE STUDIES COUNCIL AND WAS SUPPORTED BY THE UAF STUDENT GOVERNMENT AND THE UAF FACULTY SENATE.

Motion to amend the undergraduate Academic Disqualification Policy

MOTION:

The UAF Faculty Senate moves to amend the undergraduate Academic Disqualification Policy as follows:

Effective: Immediately upon chancellor approval.

Rationale: The current Academic Disqualification policy was approved at Meeting #240 on May 6, 2019 and was intended to be a temporary policy for 2019-20, after which time the Curricular Affairs Committee will explore options for a less problematic disqualification and appeal policy beginning 2020-21.

Looking to the academic standing policies and processes surrounding readmission at a number of institutions, the following common themes apply:

- Students are generally required to stop attending the institution for at least one term.
- After a period of separation, students may apply for readmission.
- Readmission applications include statements regarding tools which will be in place to ensure future success, require advising as a condition of return, and may limit the number of credits a student may take upon their return.
- After readmission, previously disqualified students who again fall below a 2.0 cumulative GPA are again removed from the institution for a longer period of time.
- Students who are not readmitted within 2 years of their removal need to reapply for admission with the university.

In recognizing the level of support and student resources available at the Community and Technical College (CTC) and the College of Rural and Community Development (CRCD), the readmission policy includes an opportunity for students to attend CTC or CRCD through admission to an associate-level degree, certificate or occupational endorsement with Dean approval.

Current policies for academic disqualification and readmission are complicated, cumbersome, inconsistent from one student to another, and not in line with best practices. There is no mechanism to appeal an academic disqualification. This motion is intended to clarify policy and procedures for readmission after academic disqualification, and create a disqualification appeal policy.

****

Proposed Policy:

Undergraduate Academic Disqualification

Academic Disqualification is the status assigned to those undergraduate students who begin a semester on academic probation (including students admitted on probation for that term) or are continuing on probation and fail to earn a semester GPA of 2.0 or higher. Academically disqualified students are ineligible for most types of financial aid.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

The student's program will be changed to inactive and the student will not be allowed to attend UAF for one academic (fall or spring) semester. After non-attendance for either fall or spring semester, the student may complete a form for readmission. A student may appeal the academic disqualification immediately.

Readmission

An academically disqualified student who desires to continue admittance to the same program or other Baccalaureate program may submit a request for readmission after not attending the University of Alaska Fairbanks for one academic semester. The student should complete a form for readmission which includes a plan for academic success. This form must be reviewed and approved by an academic advisor. Completed readmission forms must be submitted to the Office of the Registrar no later than the first day of instruction in the semester for which a student wishes to be reinstated. An academically disqualified student must successfully be readmitted within two years of disqualification or will need to reapply for admission.

If readmission is granted, the student will remain on probation and be required to meet with an advisor prior to registration for classes until their cumulative GPA is 2.0 or above. Students must achieve a term GPA of 2.0 or above for each term. Readmitted students who achieve a term GPA of below 2.0 will again be disqualified and will not be allowed to attend UAF for one academic year.

Baccalaureate students who wish to continue attending may apply to the UAF Community and Technical College (CTC) or College of Rural and Community Development (CRCD) for admission into an Associates level degree, Certificate or Occupational Endorsement with dean approval. This process can be completed with a full plan for academic success that has been developed with an academic advisor.

Readmitted students will have a maximum semester course load limit of thirteen credits.

Appeal of Academic Disqualification

A student who wishes to appeal an academic disqualification decision and remain in the current Baccalaureate level program may submit an appeal form, available at the Office of the Registrar. Appeals must be initiated no later than the first day of instruction in the semester for which a student wishes to be reinstated. The appeal form with full academic plan for success will be reviewed by a committee for a first step approval and will then be approved by the Dean of College where readmission is being requested.

Should a 2nd Academic Disqualification be received the student will be required to sit out 1-year before being readmitted to UAF, CTC, or CRCD.

Should a 3rd Academic Disqualification be received the student will be required to sit out 2-years before being readmitted to UAF, CTC, or CRCD.

Current Policy (from current catalog):

Undergraduate students — Undergraduate students on probation whose semester and cumulative GPA fall below a 2.0 for two consecutive semesters will be placed on academic disqualification. Academically disqualified students may continue their enrollment at UAF only as non-degree students, are limited to 10 credits per semester and are ineligible for most types of financial aid.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

To be eligible for readmission to an academic degree program, the student must:

1. Achieve a 2.0 cumulative grade point average by repeating courses previously failed at UAF and reapply for admission, or
2. Complete 9 credits for a baccalaureate or associate program, or 6 credits for a certificate program, with a GPA of 2.0 or higher. The courses may be completed at UAF and/or another regionally accredited institution and must be letter-graded. Grades of P or CR will not be considered. In considering students for readmission, deans will look for course work taken that relates to the student's intended program.
3. Students seeking readmission into an occupational endorsement program must have a minimum of a 2.0 cumulative GPA.

The student must reapply and the application must be approved by the dean. The student may apply to the same program from which they were disqualified, or to a different program or level (e.g. baccalaureate, associate or certificate). Readmission may be granted with a status of probation or with other conditions as specified by the dean. It is vitally important for academically disqualified students to work closely with their academic advisor in developing a realistic and timely educational plan.

A student may be continued on probation, rather than be disqualified, at the discretion of their dean.

Motion to create a "syllabus addendum" for all non-academic information

MOTION:

The UAF Faculty Senate moves to replace the current syllabus checklist with 1) a syllabus checklist for course specific academic information, and 2) a "syllabus addendum" for all non-academic information. The syllabus addendum will be updated prior to each semester and faculty will include the most recent addendum in their course syllabus.

Rationale: There is a growing list of non-academic, non-course related items that need to be communicated to students and the course syllabus has been considered an efficient vehicle for providing that information. However, the number of non-academic items is increasing and changes frequently, making delivery through the syllabus less effective.

Problems with including non-academic information in the syllabus checklist include:

- Information may not be updated regularly in older syllabi.
- Information is not presented uniformly across syllabi.
- Volume of information is overwhelming course related information and vice versa, making both less clear for students.
- A significant amount of time is spent by faculty revising courses and the Graduate Academic & Advising Committee and the Curriculum Review Committee reviewing courses ensuring that each piece of information in the syllabi is the most current version.

Creating a syllabus addendum will:

- Ensure that all information is the most current.
- Ensure that the information is presented in the same manner in all syllabi.
- Clearly identify course related material and non-course related information.
- Reduce the amount of effort in both updating, revising, and reviewing syllabi.

Process for Changing the Syllabus Checklist and Addendum:

- The Curricular Affairs Committee and the Graduate Academic & Advisory Committee will develop and submit a new syllabus checklist and syllabus addendum to the Faculty Senate in the fall of 2020 to go into effect for the spring semester of 2021.
- The process for making substantive changes to the syllabus checklist and addendum will follow the usual Faculty Senate processes through the appropriate Faculty Senate Committees.
- Non-substantive changes such as links and numbers will be reviewed and updated by the Curricular Affairs Committee and the Provost's Office.

EFFECTIVE:

Spring Semester 2021.

MOTION:

The UAF Faculty Senate moves to approve a new undergraduate level Local Knowledge Educator Certificate, to be housed in the School of Education.

Effective: Fall 2020 upon all required approvals

Rationale: This undergraduate certificate provides a guided pathway for Alaskans to mark a significant milestone on their work towards becoming a certified teacher. All, or almost all, courses that make up this certificate fulfill degree requirements required for a bachelor's degree in Elementary education.

See the program proposal in CourseLeaf.

Date: May 8, 2020

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Brief Program Statement:

The Local Knowledge Educator is a 30 credit undergraduate certificate program intended to provide individuals interested in the teaching profession with a benchmark credential that will set them on a path to a Bachelors in Elementary or Secondary Education. 27-30 of the credits in the certificate program will apply to the Elementary BA degree, or 18 of the credits will apply to a Secondary BA degree.

The coursework in the Local Knowledge Educator certificate program represents a collection of courses that have low barriers to entry (no pre-requisites), fulfill the General University Requirements for a certificate program, and provide an individual interested in working in a non-certificated K-12 based position (e.g. as a substitute teacher or a paraprofessional) with a strong introduction to the teaching profession and content knowledge relevant to work in a school context. The collection of classes can both enhance individual knowledge of Alaska and Alaska's Indigenous cultures, as well as equip future educators with tools that will help them incorporate their own local knowledge into K-12 classrooms now and in the future.

Admission Requirements:

For admission to certificate programs, official documentation must be provided showing that the applicant:

1. is at least 18 years old, or
2. has a high school diploma, or
3. has a General Educational Development (GED) diploma.

Applicants under the age of 18 who will not have a high school diploma or GED before the start of their first semester are not admissible but may take courses as a nondegree student. Please note that in order to qualify for federal financial aid, students must have either a high school diploma or a GED.

TRANSFER STUDENTS

Transfer students are eligible for admission if they left their previous accredited institution(s) in good standing. Admission status will be determined on an individual basis if a student attended an unaccredited/nonregionally accredited postsecondary institution.

HIGH SCHOOL STUDENTS

High school students may take classes at UAF. There are two enrollment options for students interested in certificate or associate degree programs: Secondary Student Enrollment and TECH PREP. Both have specific registration requirements but do not require admission to UAF.

HOME-SCHOOLED STUDENTS

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Home-schooled students may be admitted to an associate or certificate program if the student is at least 18 years old, holds a GED, graduated from a state-sponsored correspondence program with a high school diploma, or with the approval of the director of admissions.

Program Goals

Brief identification of objectives and subsequent means for their evaluation

MISSION STATEMENT:

The purpose of this certificate program is to incentivize early program coursework completion that will count towards a Bachelors degree in an initial teaching licensure area at UAF (elementary or secondary)

GOAL STATEMENT:

Students completing this 30 credit introductory certificate program will acquire a credential that provides a strong foundation for non-certificated employment in K12 schools and an introduction to teaching through local knowledge, language and culture

The mission and goals will be evaluated through the measures articulated in the attached SLOA for the program.

Relationship of program objectives to "Purposes of the University"

Two of UAF's Strategic Planning Goals (2019-2025) are to Revitalize key academic programs and to Solidify our global leadership in Alaska Native and Indigenous programs. This program relates to both goals. Pre-service teacher preparation is a key academic program at UAF, and has been so for nearly 100 years. This program is intended to support student credit attainment towards a teacher certification BA. Additionally, the target audience for this program is Alaska Native students in rural communities, who are working towards a BA in elementary or secondary education so that they can eventually become teachers in their home communities. This certificate program not only provides those students with coursework that leads to a BA in teacher certification, but also provides them with a complement of coursework that focuses on Indigenous knowledge, and strategies to tie Indigenous knowledge to academic content in Alaska's schools.

The program aligns with UAF's core themes of Educate, Prepare and Connect. It particularly aligns with and supports workforce development for Alaska.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Occupational/other competencies to be achieved

The purpose of this certificate program is to incentivize early program coursework completion that will count towards a Bachelors degree in an initial teaching licensure area at UAF (elementary or secondary).

Students completing this 30 credit introductory certificate program will acquire a credential that provides a strong foundation for non-certificated employment in K12 schools and an introduction to teaching through local knowledge, language and culture. This credential would benefit any non-certificated employee in K12 schools including aides, paraprofessionals and substitute teachers.

Relationship of courses to the program objectives

Backwards mapping from early sequence courses required for the BA in Elementary and BA in Secondary degree programs at UAF. The certificate program is designed to give students pursuing a teaching BA program an intermediate credential on their way to a Bachelor's degree, and in doing so, speed up credit attainment in the BA programs, particularly in the first two years of course completion. The 30 credit course sequence was designed to include courses with a low or no bar to entry, courses that would provide a solid foundation for non-certificated work in a K12 classroom (e.g. as a substitute teacher or as a paraprofessional or aide), and courses that would count towards a BA degree in elementary or secondary education. The final set of courses would provide 27-30 credits towards a BA in elementary education, or 18 credits towards a BA in secondary education.

Personnel directly involved with program

Name	Staff classification	Duties	Qualifications
Olga Skinner	Faculty	Alaska Indigenous Teacher Corps Faculty member. UAF School of Education elementary and secondary teacher preparation programs.	M.Ed in Language and Literacy and current PhD Candidate in Indigenous Studies. Currently teaching ED 201 and ED 412. Taught ED 201 to rural cohort in the summer. AITC works to promote more Indigenous teachers. This certificate offers a scaffold for place-based and language education that leads to a bachelor's degree.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Julie Griswold	Admin/Coordinating Personnel	Provide advising for undergraduate students pursuing elementary and secondary certificatioin	4 years serving as a rural student advisor for the UAF School of Education. Program coordination and support for Sustaining Indigenous and Local Knowledge, Arts and Teaching partnership program.

Enrollment Information

Projected enrollment/present enrollment

A projected enrollment for Fall 2020 is about 15 students and will increase the following semesters.

How was projected/present enrollment determine? Who was surveyed and how?

To make this projection, we took Fall 2018 (34 students) and Fall 2019 (37 students) enrollments of students with less than 60 credits from rural communities. This was reduced, acknowledging that all of these students may not decide to pursue this degree option. Another consideration is that the Rural Alaska Honors Institute has many applicants with high interest in the teaching field along with language revitalization. Those interests align with this certificate.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 412

Year 512

Maximum enrollment which program can accommodate

75

Are there special restrictions on enrollments?

No

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Need for Program

Required for other programs?

Yes

In what way is the program required? How has this requirement been met to date?

This certificate program is intended to be a stepping stone credential that can fold into the UAF Bachelors in Elementary Education or Bachelors in Secondary Education. 27-30 of the credits in the certificate count towards the BAE, and 18 credits count towards the BA in Secondary.

Currently, there is no certificate or AA program that exists that closely maps on to either program.

Employment Market Needs:

Who surveyed? How?

We have worked with stakeholders in the Bering Strait School District, at the Northwest Campus, and with advisors from Rural Student Services to identify the areas where students slow down in their progress through the Bachelors in Elementary program. It is primarily in the first two years of coursework. Additionally, we frequently encounter paraprofessionals in rural school districts who come to UAF asking for a transcript analysis to start the BAE program, and we find that they have many credits but very few that count towards a BAE degree. We want students to be able to accrue credits that are both relevant to teaching, lead to a certificate credential, and that count towards a bachelor's degree program. An analysis of 50+ transcripts from paraprofessionals in the BSSD contributed to our knowledge base, as did conversations with the school district, who asked for a credential that would help substitute teachers in the district learn basic information about teaching.

Job opportunities, including how these predictions were determined.

Now

As mentioned, this credential will be of value to anyone working in a K12 school setting, with enhanced relevance to Indigenous students in rural communities. It provides a solid foundation for work as a substitute teacher, paraprofessional or aide.

Two years from now

As long as we have schools, there will continue to be a need for both certificated and non-certificated staff members. This credential is a stepping stone for non-certificated school employees who are interested in working towards certification eventually.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Five years from now

See above. There will always be a need for teachers and non-certificated staff in schools.

Ten years from now

See above. There will always be a need for teachers and non-certificated staff in schools.

How have positions been filled to date?

Paraprofessionals and substitute teachers typically are not required to have a four year degree. However, most district pay scales for "classified" (i.e. non certificated) staff offer additional compensation for credit accrual. Parapros are sometimes offered financial incentives to work towards a degree in teaching. This credential could provide an intermediate opportunity for movement on a classified pay scale, while also helping students get credits that count towards a degree.

Resource Impact

Budget

SOE LKE Cert FS-Resource-Commitment-Form.docx

Facilities/Space Needs

There are no additional facility or space needs. However, the UAF School of Education is in the process of constructing an Alaska Future Teacher Space, which will be an 1800sf multi use space for our initial licensure programs. This project is grant funded and scheduled for completion in Summer 2021, and will serve as a complementary facility to this certificate program as it is designed for our certificate program's target audience.

Credit Hour Production

This certificate is intended to increase both enrollment and retention in our initial licensure BA programs. If the program brings in even one new student, or speeds a student along the pathway to degree completion, it will have paid for itself.

The below revenue and expenditures are associated with an increase of 3, 6, and 9 students in each of the first 3 years.

Year 1 – 3 new students Year 2 – 6 new students Year 3 – 9 new students

Expenditures 6300 6300 6300

Revenue 20,070 40,140 60,210

Faculty

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

No additional resources are necessary to implement this program, as it relies on existing course offerings and existing personnel. The only new course required in this 30 credit certificate program is a 3 credit version of an existing 1 credit class. This equates to a .07 FTE workload, or approximately $6300 of a regular faculty salary. Alternately, the course can be taught by a trained adjunct (we have created a training plan for course instructors).

Library/Media Materials, Equipment and Services

There are adequate library resources for this certificate program as it is a segment of the existing degree requirements for the BA in Elementary Education.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system

The program is intended to boost enrollment, retention and degree completion in our BA in elementary and secondary programs. It should not reduce enrollment anywhere, and will only add enrollment in the courses identified in the course sequence.

Does it duplicate/approximate programs anywhere in the system?

No

How does the program relate to research or service activities? Contributions to research or service. Benefits from research or service activities.

As a entry-level certificate program, there is very little research association with the program. However, the program's (hopeful) success will contribute to our evolving knowledge base on how best to recruit, support, retain and graduate people in teacher preparation programs, and specifically how to recruit, support, retain and graduate Alaska Native teachers who are statistically more likely to stay in Alaska as teachers.

Implementation/Termination

Plans for recruiting students

There are multiple populations who are potential recruitment audiences for this program. They include students in the teaching track of the Rural Alaska Honors Institute, currently enrolled BAE and BA in Secondary students in their first or second years of the program, our partner rural school districts who have paraprofessionals enrolled in our teacher ed programs (e.g. BSSD, LKSD), the rural campuses, Rural Student Services advisors, and high school students in rural communities or at regional boarding schools such as Mount Edgecumbe.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Plans for phasing out program if it proves unsuccessful

Phasing out would require hitting the "deactivate program" button on courseleaf :). The courses are going to continue to be offered because they are already part of the existing BAE degree sequence.

Assessment of the program

A SLOA plan focusing on the following objectives has been developed and attached:

Students acquire introductory communication and math skills to support working in a K12 environment

Students are exposed to introductory core teaching practices

Students acquire Alaska specific Indigenous content knowledge

Students encounter initial exposure to teaching through local knowledge, language and culture

Students are motivated to continue on to 4 year Bachelor's degree with initial teaching licensure

Capstone assignments or assessments are not a part of this certificate program, as it is an entry level credential meant to lead to a 4 year degree program

SOE LKE program FS-ProspectusTemplate-WORD.docx

Rationale

The need for this programmatic addition of the Local Knowledge Educator Certificate is twofold. One, it acknowledges that not all paraprofessionals want to complete a bachelor's degree yet rural paraprofessionals often possess valuable local knowledge that is underutilized in schools. This certificate equips paraprofessionals and their schools with stronger skills in collaboration to bring about greater opportunity to incorporate local and Indigenous knowledge into practice. Two, this certificate provides a guided pathway for paraprofessionals to mark a significant milestone on their work towards becoming a certified teacher. All, or almost all, courses that make up this certificate fulfill degree requirements required for a bachelor's degree in Elementary education. Rural Alaska's high teacher turnover rate and the fact that Alaska Natives make up only 5% of our state's teaching workforce really highlights the need for rural and Alaska Native recruitment and retention in the teacher education field.

Additional Information

Within the planning process for our grant, Sustaining Indigenous and Local Knowledge, Arts and Teaching (SILKAT), a top articulated need by stakeholders within the Bering Straits School District was "Continued/better structured support for paraprofessional to teacher pipeline."

Motion to Create a Certificate in Strategic Leadership

MOTION:

The UAF Faculty Senate moves to approve a new graduate certificate in Strategic Leadership, housed in the School of Management.

Rationale: Despite there being several leadership concentrations and minors in the UA system, there isn't currently a graduate-level strategic leadership certificate available. Students have expressed an interest in a program of this type, as developing strategic leadership skills is an ongoing demand and can prove to be helpful in attempts to obtain promotion. This is consistent with an increase in the need for organizations to have individuals who are capable of growing into positions of greater authority and responsibility. This certificate specifically targets those who wish to either transition into or currently serve at the senior/ executive level in the public/private sector, within non-profits and need to better understand the context in which they will be required to develop, collaborate on and consider strategic level decisions.

EFFECTIVE:

Immediately upon Chancellor approval.

Motion to Amend the Implementation of Expedited Review Committee Recommendations

MOTION:

The UAF Faculty Senate moves to clarify the recommendations of the expedited review committee in terms of the timescale needed for recommended implementations in the respective programs/department to make it clear that the one- and two-year timelines recommended for review do not refer to results, but to creating plans for improvement and/or restructuring.

Rationale: On March 09, 2020, results from the Expedited Review Committees were announced across campus. A special session of the UAF-Senate was held on Monday 16, 2020 to provide a motion to endorse, reject, or other. After a careful analysis of the ensemble recommendation by faculty/departments/senators representatives it was found that in several cases such recommendations will require more than one year for proper evaluation. Therefore GAAC proposes to address this issue on this motion to echo the analysis of the expedited review by faculty on different departments and propose that departments affected by the expedited review process be allowed to submit a plan for restructuring to the President and Board of Regents in order to make such academic program modifications sound and appropriate to the rigorous level of evaluation required by the accreditation process.

EFFECTIVE:

Immediately upon Chancellor approval.

Motion to Protect Faculty Members' Proprietary Rights Over Course Material and Delivery Modes

Motion:

In order to ensure that quality teaching is the first priority in every classroom, the UAF Faculty Senate moves to protect all UAF instructors' proprietary rights over all materials they create for use in their face-to-face and distance delivery classrooms. The Faculty Senate affirms that course materials--including syllabi, assignment sheets, discussion questions, handouts, PowerPoints, videos, and other content--may not be used by others without the express written permission of their creators. Moreover, the university may not compel instructors to waive intellectual property rights in their course materials. Instructors can, however, agree to provide ownership of the course or any part of the course material to their unit. The UAF Faculty Senate affirms these rights for each person providing instruction at UAF, whether in face-to-face, hybrid, distance, or online courses.

UAF Faculty Senate further moves to protect faculty's rights to create our own course material in all circumstances, with no mandates that we teach from pre-developed or third-party coursework except where departments and/or individuals desire to use these pre-developed or third-party programs.

In addition, the Faculty Senate affirms the right of faculty members to determine modes of distance delivery during and after the Coronavirus pandemic. Article II of the Faculty Senate Constitution, under "Rights, Responsibilities, and Authority," grants the Faculty Senate not only "academic freedom" but also "primary authority" over "academic criteria, regulation, and policy" over responsibilities such as teaching. On the basis of this authority, the Faculty Senate moves to clarify that individual UAF faculty have full authority over the measures they will take to move their courses into "alternate delivery formats" during the coronavirus pandemic and to use either synchronous, asynchronous, or blended formats to meet their diverse students' needs, so long as their choices comply with applicable laws as well as university policies and regulations. Moreover, the Faculty Senate moves that when we return to normal, non-pandemic times, face-to-face delivery must remain a vibrant and well-supported teaching option throughout the university.

Rationale: We are in the midst of Covid-19 closures and mandated social distancing, which required that faculty quickly convert face-to-face classes to distance delivery formats. Faculty are to be commended for taking on this herculean task. In order to preserve the fundamental professional values and standards of quality higher education during these exceptional circumstances, it is essential to protect all faculty members' ownership of online, distance delivery, and other course content. It is essential that faculty, with our expertise in content

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

delivery and curriculum development, continue to lead in shared governance processes as decisions about curriculum and delivery formats are made now and in the long-term.

Further, third-party vendors, including textbook publishers, are advertising pre-made course-work to faculty and administrators during this Covid-19 crisis, and we preemptively assert our right to continue creating and controlling our own curriculum.

Finally, faculty should, as producers of their instructional content, control how their course is deployed. All modalities of delivery, provided they are compliant with university policies and regulations as well as state and federal laws, must be permissible during the coronavirus pandemic to afford faculty the flexibility to meet the needs of our diverse students. When social distancing rules are lifted, face-to-face instruction must remain a central, well-supported, viable, and vibrant course delivery option for faculty. Ultimately, the decision of course delivery methods, including face-to-face, must be faculty driven and supported by the university.

EFFECTIVE: Immediately upon Chancellor approval

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Marine Advisory Program.

Effective: Fall 2020
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Marine Advisory Program (MAP). The Unit proposed revisions in their criteria and the document formatting was brought into compliance with the current UAF Unit Criteria template. The revisions were proposed during the normal review cycle and unanimously approved by MAP faculty. The revisions were reviewed and approved by the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF guidelines.

UAF Unit Criteria
for
Marine Advisory Program

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **Marine Advisory Program**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

MAP agents and specialists typically have bipartite appointments. Bipartite responsibilities are to be clearly stated at the time of hire and can be any combination of two of the three tripartite missions, i.e., teaching, research, or service. A MAP faculty member can request a tripartite appointment in their employment contract if such a status is consistent with the goals of the Marine Advisory Program. MAP faculty include tenure-track and non-tenure track faculty and will be evaluated equally based on this Unit criteria.

MAP faculty members are designated at the time of hiring as either agents or specialists. An agent is a generalist that does not require concentration of their workload to a specific academic, research, or service discipline. Specialists concentrate their workload toward a specific academic, research, or service discipline as designated in their letter of appointment (examples are: Business Specialist and Fisheries Specialist). Workloads and evaluations are to be based on which of those two assignments the individual holds. A MAP faculty member may be granted a change of assignment based on his/her request and the needs of the program.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

- mastery of subject matter;
- effectiveness in teaching;
- achievement in research, scholarly, and creative activity;
- effectiveness of public service;
- effectiveness of university service;
- demonstration of professional development; and
- quality of total contribution to the university.

In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

MAP faculty may participate in formal and informal teaching. While standard credit classes are a component of some faculty workloads, non-standard academic teaching is the most common form of information delivery in the Marine Advisory Program. Instruction often includes contact with clientele through distance delivery methods, workshops, seminars, training, public presentation events, and invited classroom teaching. In accordance with the UAF credit hour calculator, a 1 unit teaching activity in MAP is considered 13 to 14 hours of instructional contact time (52 hours total contact time and development and preparation of instructional materials).

Curriculum and content developed for public education, including educational videos and/or other media, are included as teaching.

Marine Advisory Program agents usually function as generalists by contributing breadth and diversity in their teaching efforts. Rurally located agents usually respond to requests to develop and/or teach discrete sessions, workshops, or short-term courses on subjects not typically available to rural Alaskans.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Specialists have a depth of topical knowledge and primarily focus on teaching technical information in their specialty area to clientele.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. ***Teaching in the context of a MAP activity is generally defined as proactively planned and delivered instruction. MAP education activities are designed to deliver information relevant to specific clientele and public needs. Clientele may range from kindergarten to adults, and the general public to professionals.*** Effective teachers ***will demonstrate some, but not necessarily all, of the following characteristics in an individual year***:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students ***and clientele***;
   b. express positive regard for students, ***become familiar with their public***, develop good rapport with students ***and clientele***, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student ***and clientele*** participation for student learning and teacher effectiveness, are supportive of student ***and clientele*** diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars ***addressing clientele and public needs*** and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, ***instructional publications***, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

   and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:
   - peer classroom ***or other professionals'*** observation(s) and evaluation of lecture(s),
   - peer ***or other professionals'*** evaluation of course and compiled materials,
   - pedagogical organization as evidenced through peer evaluation of course syllabi,
   - documented use of best practices in teaching through external or peer review,

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

- evidence of meeting course-level student learning outcomes, which may include student pre/post tests, ***and/or classroom evaluations, post-instruction surveys and/or student or clientele testimonials***
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

Systematic university approved student evaluations are not usually available or appropriately designed to evaluate MAP teaching activities. In addition, instruction by MAP faculty is often conducted in rural locations where evaluation by peers or department chair is not available. However, a means of evaluation appropriate to the instructional content should be administered by the principal instructor whenever possible.

Additional indices for documenting effective teaching for MAP faculty seeking promotion and/or tenure to <u>Associate Professor</u> may include:

a. Evidence that teaching addresses client-centered needs, as expressed by requests for courses and by client/student participation in those courses;

b. Evidence that the teaching is meeting specific, quantifiable instructional objectives through student evaluations or follow-up surveys;

c. Demonstration of changes in knowledge, skills and/or attitudes/behavior resulting from MAP information transfer through post instructional evaluations, surveys, and testimonials<u>;</u>

d. Clientele evaluations of both the instructional program and the instructor competence and effectiveness;

e. Testimonials and/or repeated invitations to teach;

f. Documentation of contact hours with clientele as an assessment of response effort;

g. Successful application of distance delivery of educational programming;

h. Evidence of successful teaching by development and application of innovative original teaching methods.

i. Successful mentoring of undergraduate and/or graduate students and participation, as member, in graduate student committees;

Additional indices for documenting effective teaching for MAP faculty seeking promotion to the rank of <u>Professor</u> include:

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

a. Clientele/student reviews and/or evaluations that show continued quality performance as a teacher,

and at least one of the following:

b. Development and/or adaptation of new methods and approaches in the discipline, such as:

i. Creative use of media and/or distance- delivery methods of instruction which extends the bounds of the discipline and improves educational outreach;

ii. New curriculum or program development that improves the information transfer in the faculty member's area of expertise;

c. Regional, statewide, national and/or international recognition as an expert as illustrated through invitations to and presentations at conferences, meetings, workshops, and trainings;

d. Receipt of state or national awards in recognition of outstanding teaching;

e. Recognition through invitational teaching opportunities;

f. Significant contribution in mentoring of undergraduate and/or graduate students and participation, as member, in graduate student committees.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

Many MAP faculty have limited opportunities to conduct traditional research and limited or no access to laboratories and graduate students. Additionally, bipartite faculty may or may not have a research obligation. Faculty without research obligation may conduct research in response to public needs, in this case these activities will be evaluated under service.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Marine Advisory faculty with research responsibilities in their bipartite or tripartite appointments are expected to conduct applied research or engage in other scholarly and creative pursuits that help solve issues facing the people of Alaska.

For MAP faculty, research, scholarly, and creative activities may consist of:

a. Applied research designed to address specific client needs;

b. Production of peer reviewed informational media; and

c. Publication of peer reviewed publications.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum, ***with results and impacts disseminated to appropriate academic and community audiences.***.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution ***and be relevant to Alaskan issues***.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications.
   h. Published abstracts of research papers.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

Individual units may choose to require particular items from this list through their unit criteria.

Additional indices for documenting effective research, scholarly and creative activity for MAP faculty seeking promotion and/or tenure to <u>Associate Professor</u> include:

a. If research composed greater than 60% of a faculty members workload, authorship or co-authorship of a minimum of four (4) refereed publications are expected. These expectations are based on a workload of 60% effort in research and should be interpreted in the context of actual workload and adjusted accordingly,

and at least one of the following:

b. edit or referee articles or proposals for professional journals or organizations and MAP or Sea Grant publications,

c. adapt existing research-based technology or knowledge in order to solve problems relevant to Alaska,

d. participate in extramurally funded research projects.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Additional indices for documenting effective research, scholarly and creative activity for MAP faculty at the rank of Associate Professor and seeking promotion to the rank of <u>Professor</u> include:

a. If research composed greater than 60% of a faculty members workload, authorship or co-authorship of a minimum of eight (8) refereed publications are expected. The candidate must demonstrate sustained performance in research. These expectations are based on a workload of 60% effort in research and should be interpreted in the context of actual workload and adjusted accordingly,

and at least one of the following:

b. authorship, co-authorship, editor or co-editor of a book or major reference in the faculty member's area of scholarly activity,

c. recipient of a regional, national or international research fellowship or award,

d. participate in extramurally funded research projects in a leadership role (e.g. principal investigator or co-principal investigator),

e. introduce new technology, product, or idea which demonstrably improves the quality of life for Alaskans, and is a clear result of a MAP faculty member's activity.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

A significant portion of the workload of MAP faculty will consist of service. In general, this will be higher than that found in traditional UAF faculty workloads and reflect the community or specific client needs approach of Marine Advisory Program educational activities.

1. <u>Public Service</u>

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c*. *Collaborations and partnerships with agencies, regional advisory boards, task forces, focus groups or public special interest groups to identify relevant issues and regional concerns
d. Service on accrediting bodies.
e. Active participation in professional organizations.
f*. *Active participation in constituency organizations.
g. Active participation in discipline-oriented service organizations.
h. Consulting ***in the faculty member's area of expertise and the discipline consistent with the obligation for public service.***.
i. Prizes and awards for excellence in public service.
j. Leadership of or presentations at workshops, conferences, or public meetings.
k. Training and facilitating ***at public fora, group meetings and public events***.
l. Radio and TV programs, newspaper articles and columns, ***MAP*** publications, newsletters, films, computer applications, teleconferences and other educational media ***including website designed and/or managed by faculty.***.
m. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
n. Providing support for K-12 educational programs developed by partnering organizations.
o. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.
p. Assessing and/or responding to research needs of clientele and communicating those needs to the research community.
q. Conducting research in response to public needs.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

r. Developing and managing effective community and agency partnerships, which extend MAP resources and/ or develop leadership skills.

s. Representing and answering questions at public events.

t. Site visits for problem solving and consultation.

u. Rapidly responding to urgent client needs in a timely, flexible, and appropriate manner.

v. Other service activities consistent with University of Alaska programs that contribute to Alaska's coastal economy.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean ***or other leadership role*** in a college/school ***or program.***
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.
l. Representing the University and/or MAP at public events including education displays, tradeshows, booths and exhibits.
m. Act as an outreach consultant on research projects conducted by other University faculty

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a ***regional, statewide,*** national or international review panel or committee.

Additional indices for documenting effective service activity for MAP faculty seeking promotion and/or tenure to <u>Associate Professor</u> includes:

a. ***If service composed greater than 60% of a faculty members workload, creation or co-creation of at least twelve (12) individual service activities, including outreach publications, workshops, conferences, trainings, website development or other service activities. These expectations are based on a workload of 60% effort in service and should be interpreted in the context of actual workload and adjusted accordingly,***

and at least two of the following:

b. Presentation of applied research results to user groups such as public agencies, governmental bodies, private businesses, constituent groups, and lay public, both in published and oral forms.

c. Quality and distribution of media presentations and public interviews, e.g., TV, radio, film, newspapers and videotapes.

d. Evidence of response to new knowledge and developments in the discipline by rapidly raising public understanding and awareness through available educational media and methods.

e. Results of individual consultations.

f. Role and effort involved in the development and planning of conferences and workshops.

g. Writing and distribution of MAP and Sea Grant publications.

h. Documentation of service activities conducted on a continuing basis.

i. Testimonials and letters demonstrating outcomes and/or effectiveness of service activities or other documentation which demonstrates the impacts of MAP faculty service activities.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

j. Documentation of public needs and response.

k. Appropriateness of the response effort toward urgent clientele issues.

l. Development and maintenance of partnership relationships.

m. Appointments to public, university, and professional committees and any leadership role in committee assignments.

n. Evidence of support provided to university faculty in their teaching, research, and/or service activities.

o. Evidence of application of project results by the public.

Additional indices for documenting effective service activity for MAP faculty at the rank of Associate Professor and seeking promotion to the rank of <u>Professor</u> includes:

a. If service composed greater than 60% of a faculty members workload, creation or co-creation of at least twenty-four (24) individual service activities, including outreach publications, workshops, conferences, trainings, website development or other service activities. The candidate must demonstrate sustained performance in service. These expectations are based on a workload of 60% effort in service and should be interpreted in the context of actual workload and adjusted accordingly,

and at least two of the following:

b. Invitation to serve on national or international boards, review committees, award commissions or scholarship commissions.

c. Appointment or election to a leadership position on local, state, national, and international public service committees or organizations.

d. Engaged in profession and scholarly service activities on statewide, national or international level.

e. National leadership in a professional organization.

f. Recognition through invitational speaking engagements on topics that constitute public service.

g. Evidence of effective application of professional expertise to professional or public processes and organizations.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

h. Service as committee chair. Session organizer, or officer of professional organizations.

i. Evidence of important contributions to the development of school, departmental, and/or university programs.

j. Recognition through receipt of public service awards, or awards for service to the university.

k. Receipt of a national association, government, or professional society service award.

l. Participation in a voluntary mentoring relationship with junior faculty to facilitate their progress toward promotion and tenure.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Music Department.

Effective: Fall 2020
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Music Department. The unit has brought the document formatting into compliance with the current UAF Unit Criteria template and has transferred their additions over to the new template from the previous version. The revisions were proposed during the normal review cycle and approved by Music Department faculty. The revisions were reviewed and approved by the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF guidelines.

UAF Unit Criteria
for
Department Of Music

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the Department Of Music. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

Teaching components of music performance faculty may include studio teaching, chamber music coaching, large ensemble directing, and classroom courses.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.
   i. Invitations to give lectures or master classes at other institutions of higher education.

2. Components of Evaluation

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations;

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

Music faculty are expected to consistently perform in their areas of expertise. The stature of the performance venue or the level of review in attaining the performance will be considered.

a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals, ***competitions, conferences***, or productions, selection for these performances being based on stringent auditions and approval by appropriate judges ***or invitations. Solo, chamber, or large ensemble performances are all acceptable research components***.
f. Scholarly reviews of publications, art works and performance of the candidate. ***The lack of formal press reviews should not reflect negatively on the record of the faculty candidate.***
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship ***or creative artistry.***
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

Research criteria for promotion to the rank of associate professor will include significant performances/creative activities at the state or national level.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Research criteria for promotion to the rank of full professor will include significant performances/creative activities at the national or international level.

m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. <u>Public Service</u>
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth, ***including outreach with local schools, school performances, participation in UAF outreach events and masterclasses for pre-college students.***
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in discipline-oriented service organizations.
f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. <u>University Service</u>

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.
g. Adjudications at music contests or festivals at local, state, national, or international levels.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Cooperative Extension Service.

Effective: Fall 2020
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Cooperative Extension Service. Last year the committee reviewed an earlier version of revisions to the CES criteria and put them on hold at the end of spring 2019 while awaiting a new template based on the new version of the UAF Blue Book passed at the end of spring semester 2019 and further amended in February 2020. The current version of the document has been brought into compliance with the new template for all UAF criteria and also includes further amendments to CES special criteria that were made in spring 2020. These revisions were reviewed and approved by Cooperative Extension faculty and the Unit Criteria Committee in April 2020; the unit criteria were found to be consistent with the UAF guidelines.

UAF Unit Criteria
For
Cooperative Extension Service

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **Cooperative Extension Service**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

Cooperative Extension Faculty represent many different disciplines and they may participate in teaching, research and service, but they are all considered part of a single department sharing in the mission of the university with an emphasis on service and public outreach.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

D. Criteria for Instruction

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, paraprofessional/volunteer advising and training, graduate students and serving on their graduate committees, and particularly as their major advisor, curriculum development and academic recruiting and retention activities.

Formal classroom academic teaching is not a common form of information delivery in the Cooperative Extension Service. Instruction often includes contact with clientele through distance delivery methods, workshops, seminars and training programs. A 10% (4 Unit) teaching load in Extension is considered 45 to 50 hours of teaching in front of a group.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students and ***class/workshop/educational program participants;***
   b. express positive regard for students, ***become familiar with their communities/community members***, develop good rapport with students, ***and class/workshop/educational program participants and*** show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student ***and class/workshop/educational program participant*** participation for student learning and teacher effectiveness, are supportive of student ***and clientele*** diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars ***addressing public needs by delivering information relevant to those needs*** and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
b. summaries of teaching evaluations***, which for CES can be aggregations of end of workshop learner assessments created by instructors particularly for the learning objectives of each workshop topic and audience;***

at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s).
- peer evaluation of course and compiled materials.
- pedagogical organization as evidenced through peer evaluation of course syllabi.
- documented use of best practices in teaching through external or peer review.
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests.
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom.
- ***letters of support from students or other professionals.***
- ***documentation of the impacts resulting from teaching activities such as knowledge gained or changes in behavior or attitudes of students through post-instructional evaluations, surveys and testimonials.***
- ***invitations or repeated invitations to teach in a community or for an organization which reflect appropriate, valued engagement and effectiveness in teaching.***

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

Cooperative Extension Service faculty have limited opportunities to conduct traditional research and very limited access to laboratories and graduate students. Additionally, bipartite Cooperative Extension Service faculty usually do not have a research obligation. Most grants pursued by

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

bipartite faculty in the Cooperative Extension Service relate to service or teaching and are not research oriented.

Cooperative Extension Faculty with tripartite responsibilities are expected to conduct research (generally applied) or engage in other scholarly pursuits that challenge and may help solve issues facing the people of Alaska or contribute to national Extension efforts.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum ***with results and impacts disseminated to appropriate academic and community audiences***.
   b. They must be evaluated ***reviewed and validated*** by appropriate peers ***including members of the community.***
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution ***and are typically relevant to current Alaskan issues.***

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline , ***authorship of CES publications or articles selected for publication in CES journals.***.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs ***including applied projects responsive to community needs,*** these grants and contracts being subject to rigorous peer review and approval.
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
   f. Scholarly reviews of publications, art works and performance of the candidate.
   g. Citations of research in scholarly publications.
   h. Published abstracts of research papers.
   i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

CES faculty activities are counted as public service even though the University may charge a fee for some activities. These fees are necessary to recover costs such as those for room rent, printed materials provided to participants, equipment or other program supplies and are not payment for faculty time nor are these fees ever retained by individual faculty.

Non-tenure track faculty, primarily funded by restricted funds (i.e. grants and contracts) may be unable to participate in typical university service to the same degree and extent as tenure-track and tenured faculty. This should be considered when evaluating the service component of non-

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

tenure track faculty. As noted under research, bipartite faculty with no research responsibilities may apply for funding and conduct funded projects as service.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth ***including representing CES and answering questions at CES educational displays, booths and exhibits at public events.***
   b. Service on or to government or public committees; ***collaborations and partnerships established with agencies and groups; and utilization of district or regional advisory boards, task forces, focus groups or public special interest groups to identify relevant issues and problems.***
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting ***as appropriate to the unit including face-to-face in the office or off-site, by telephone or email (i.e. pressure canner gauge testing; interpretation of soil test results, or identification of insect, disease, or weed specimens).***
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.
   i. Training and facilitating ***at public forums, group meetings and public events.***
   j. Radio and TV programs, newspaper articles and columns, ***CES*** publications, newsletters, films, computer applications, teleconferences and other educational media ***including social media, blogs and web sites designed and/or managed by faculty with faculty derived/vetted content and may be responsive to community interests and issues.***
   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
   l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

m. Engage the public in assessing research needs – and communicate those needs to the appropriate research units.

n Managing an effective paraprofessional and/or volunteer program to help extend CES resources and or develop leadership skills.

o Exemplary response in emergency situations rendered in an Extension role to clientele who faced the emergency.

p Demonstration projects or field trials.

q. Development of new Extension programs and projects specifically designed to meet community needs, that are successfully supported by external grants and contracts. Non-tenure track faculty often make contributions in this manner and this may be considered as fulfilling requirements for public, university and unit service.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

****For bipartite Cooperative Extension Service faculty with no research assignment, applying for external funds or participating in applied research related activities is considered service (university, district or unit)***

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair, ***program chair or office coordinator*** or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

3. Professional Service

   Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

   a. Editing or refereeing articles or proposals for professional journals or organizations.
   b. Active participation in professional organizations.
   c. Active participation in discipline-oriented service organizations.
   d. Committee chair or officer of professional organizations.
   e. Organizer, session organizer, or moderator for professional meetings.
   f. Service on a national or international review panel or committee.

Specific indices for Cooperative Extension Service activity and for promotion and tenure.

Since service is the majority of the workload of CES faculty, in addition to University regulations on evaluation of public and university service additional indices for documenting effective service for CES faculty may include the following:

Associate Professor: ***Evidence of department, public, and university service may include some or all, but is not limited the following:***

1. Authorship of CES publications with documented internal peer review. Additional review outside of CES is encouraged.

2. Documentation of service activities planned in an engaged, two-way continuing programmatic basis.

3. Testimonials and letters demonstrating outcomes and/or effectiveness of service activities.

4. Documenting public needs and engaging the resources of the University and other entities in meeting those needs.

5. Documenting impacts which result from engaged public service activities.

Professor: ***Evidence of leadership in the service area is expected. Significant contributions may include***:

1. Invitational service on national or international boards, publication and grant review committees, award commissions or scholarship commissions.

2. National leadership in a professional organization, including editorial roles.

3. Recognition though invitational speaking engagements which constitute public service such as keynote addresses at conferences, meetings and events not sponsored by the

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Cooperative Extension Service.

4. Outstanding university service such as service as a faculty senate officer, faculty senate committee chair, chair of a faculty search committee or member of a major administrative search committee.

5. Recognition through receipt of public service awards or awards for service to the University.

6. Receipt of a national association, USDA or professional society service award.

7. Participation in a voluntary mentoring relationship with a junior faculty to facilitate their progress toward promotion and tenure.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Anthropology.

Effective: Fall 2020
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Department of Anthropology after working with this unit since the 18-19 academic year. The current version of the document has been brought into compliance with the new template for all UAF criteria and also includes further amendments to ANTH special criteria that were made in spring 2020. These revisions were reviewed and approved by all Anthropology faculty and the Unit Criteria Committee in April 2020; the unit criteria were found to be consistent with the UAF guidelines.

UAF Unit Criteria
for
Anthropology

Criteria for UAF Faculty Evaluation are outlined in the document "University Policies and Procedures (The Faculty Blue Book)" Chapter III adopted in February 2020. This Chapter details the: A. Purpose; B. Types of Evaluation for Different Faculty; C Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review; D. Criteria for Instruction; E. Criteria for Research, Scholarly, and Creative Activity; F. Criteria for Public, University and Professional Service; and G. Unit Criteria.

As stated in Chapter III G, Units may develop special Unit Criteria to elucidate, but not replace, the university-wide criteria applicable to all faculty.

The following is an adaptation of the "University Policies and Procedures (The Faculty Blue Book)" Chapter III for use in evaluating the faculty of the **Department of Anthropology**. Items in **boldface italics** are those specifically added or emphasized because of their relevance to the Department/Discipline's faculty, and because they are additions to the University Policies and Procedures.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Chapter III: Faculty Evaluation

A. Purpose

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III A.

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service.

B. Types of Evaluation for Different Faculty

See "University Policies and Procedures (The Faculty Blue Book)" Chapter III B for the description of the types of evaluation for different faculty.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

1. General Evaluation Criteria

   Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

   - mastery of subject matter;
   - effectiveness in teaching;
   - achievement in research, scholarly, and creative activity;
   - effectiveness of public service;
   - effectiveness of university service;
   - demonstration of professional development; and
   - quality of total contribution to the university.

   In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, ***particularly as their major advisor***, and curriculum development.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching***;***
   i. Curators at the University of Alaska Museum with a faculty appointment in Anthropology typically have a portion of their workload assigned to the department. The Department of Anthropology will evaluate the curator's teaching record.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

- peer classroom observation(s) and evaluation of lecture(s),
- peer evaluation of course and compiled materials,
- pedagogical organization as evidenced through peer evaluation of course syllabi,
- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.
d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with community partners and collaborators, rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.
o. Research, scholarly, and creative activity work products from community-based participatory research and/or community-engaged research, scholarly and creative activity, as reviewed by appropriate peers (community partners and collaborators). This includes but is not limited to: books, monographs, reviews, programs, bulletins, articles, proceedings, reports, performances, exhibitions, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, documentary and entertainment-education films, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, workshops, websites, data collections, and professional, industry, or government publications.
p. All scholarly publications shall be considered significant. This includes not only the writing of journal articles but also book chapters.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

q. Contributions as editor or guest editor of books and journal volumes that substantially advance research in the discipline shall be evaluated in terms of the editor's contribution, to be delineated in the narrative portion of the tenure/promotion file.

r. Multiple-authored, peer-reviewed publications shall be evaluated in terms of the author's contribution, to be delineated in the narrative statement of the promotion and tenure file.

s. Curators at the University of Alaska Museum with a faculty appointment in Anthropology typically have a portion of their workload assigned to the department. The department will evaluate the curator's record of research.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

f. Consulting.
g. Prizes and awards for excellence in public service.
h. Leadership of or presentations at workshops, conferences, or public meetings.
i. Training and facilitating.
j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.
m. The provision of scholarly expertise in service to community partners and collaborators, including urban, rural, Native and non-Native communities and organizations.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
i. Mentoring.
j. Prizes and awards for excellence in university service.
k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.
b. Active participation in professional organizations.
c. Active participation in discipline-oriented service organizations.
d. Committee chair or officer of professional organizations.
e. Organizer, session organizer, or moderator for professional meetings.
f. Service on a national or international review panel or committee.

In addition to the service listed above, evaluation of the record of service of curators at the University of Alaska Museum, with a faculty appointment in Anthropology and a portion of their time assigned to the department, shall take into consideration the recommendation of the University of Alaska Museum Committee (see below "Curation").

Curation

Curators at the University of Alaska Museum (UAM) can hold a tenure-track faculty position. Rank and tenure are held within departments at UAF, and curators are thus treated as joint appointments between a department and UAM. As is the case for all tenure-track faculty in the department of Anthropology, curator's performances are evaluated on the basis of their activities in teaching, research, and service.

1. ***Curation involves the management and development of a formally recognized university collection that exists to serve as a research resource for students and researchers at university, state, national, and international levels. Examples of curatorial activities include, but are not limited to:***

    a. ***Maintaining, enhancing, and enlarging the collection (includes computerization and database development, archival upgrades, specimen conservation and identification, and adding specimens or objects to existing collection);***

    b. ***interacting with state and federal agencies and with the public on collections-related issues;***

    c. ***facilitating collections use through loans, exchanges, and visiting researchers;***

    d. ***maintaining appropriate permits (as needed for the collections);***

    e. ***supervising collections managers, student employees, and volunteers;***

    f. ***working with public program staff to create exhibits and educational activities appropriate to the collection;***

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

g. pursuing funding for collections growth and maintenance; and

h. producing curatorial or collections-related publications, reports, and/or manuals.

i. Ensuring university compliance with state and federal laws that pertain to the collection.

2. Specific criteria for curatorial performance:

<u>Assistant Professor and Curator</u>

Evidence of curatorial ability and a commitment to developing and managing research collections relevant to the area of specialization includes the following:

a. Curators will develop the collections as permanent record of the natural and/or cultural diversity of Alaska and the circumpolar north and as a research resource for studies of biological and/or cultural diversity.

Collections care includes responsibility for the physical condition and storage of objects/specimens, corresponding documentation, budgetary management, and annual reports.

b. Curators will preserve the specimens, artifacts, objects, and material under their purview through the use of methods and techniques professionally accepted within their respective disciplines.

c. Curators will ensure that all records and field notes concerning collection materials are maintained in a secure fashion and meet or exceed documentation standards for their respective discipline.

d. Curators will maintain current accession files, deaccession files, and catalogues of objects in their collections. They will develop electronic databases with computer data formats that follow data standards of the respective discipline and UAM.

e. Curators will develop, maintain, and revise written policies and procedures for caution of objects or specimens in their collections.

f. Curators will take part in interpretive activities of the museum in order to fulfill the museum's mission to interpret the natural and cultural history of Alaska. In this regard, preparation of small exhibit is approximately the equivalents of publication of a professional article; Project direction of a large complex exhibit

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

that includes preparation of a serious catalogue is approximately the equivalent of publication of a scholarly book.

g. Curators will actively prepare grant applications for external support for their curatorial activities and collection-based research.

<u>Associate Professor and Curator</u>

Consistent contributions to interpretive (education and exhibition) activities of the museum, response to collection-related inquiries (from other professionals, the public, and state agencies) and/or development of interpretive materials for the public-at-large are expected. Use of the collections for teaching and/or research must be evident. Active solicitation for external funds to support curatorial activities and collection-based research must be evident.

<u>Professor and Curator</u>

Significant development of the collections under the curator's care is expected. This development includes sustained growth of the collections as research sources and as a means of fulfilling the museum's mission of acquiring, preserving in perpetuity, investigating, and interpreting objects and specimens relating to the natural and or cultural history of Alaska and the circumpolar north. Significance of collections will be measured in terms of research significance, value to University of Alaska research and instructional programs, and value to national and international research programs. The curator should be a recognized authority in his/her field, locally and nationally. They must have a record of success in acquiring external funds for their curatorial activities and collection-based research.

3. Evaluation of Curation

A committee composed of the tenured curators at the museum will provide an evaluation to the unit peer committee. In formulating criteria, standards and indices for evaluation, promotion, and tenure, the museum should include examples of curatorial activities and measures for evaluation appropriate for that unit. Excellence in curation may be demonstrated through, e.g., appropriate letter of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

G. Unit Criteria

Excerpted from the "University Policies and Procedures (The Faculty Blue Book)" Chapter III C.

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty

DocuSign Envelope ID: C3011CC8-B3A6-45D9-B465-D55E6EA47578

performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

The following motion passed at Faculty Senate meeting #247 on April 6, 2020:

Motion to create and to appoint members to an ad hoc committee on COVID-related academic policies

MOTION:
In accordance with senate governing documents that allow the president to create an ad hoc committee that is later confirmed by the Faculty Senate, the senate moves to approve the creation of an ad hoc committee on COVID-related academic policies and to confirm its membership.

RATIONALE:
The COVID-19 pandemic requires UAF to adapt its current academic policies to maximize the success of its students and faculty. The committee is formed to accomplish those objectives.

The ad hoc committee was created in an emergency meeting with Faculty Senate leadership, the provost, vice provost, other members of the administration, and faculty members appointed at the beginning of the meeting following senate processes. The ad hoc committee approved the academic adjustments recommended by the Office of the Provost at that meeting. The recommendations were then sent to Senators who voted electronically to approve the adjustments.

The ad hoc committee shall be called upon for further adaptations to academic policy, and additional members shall be appointed as necessary. The convener of the next meeting shall be the senate president, and a chair shall be elected before further business is conducted.

EFFECTIVE:

Immediately upon Chancellor approval.

DocuSign Envelope ID: 5E17EB77-1D92-4B35-9B40-B0D9C0AD9E8F

MEMBERS:
Voting members: Jak Maier; Deana Waters; Javier Fochesatto; Chanda Meek; Nicole Misarti; Jennie Carroll; and Diane McEachern.

Sine Anahita is a non-voting member and was a co-convener of the original meeting with Provost Anupma Prakash.

Non-voting members may include administrators from the units affected by the policy adaptations. At the initial meeting, these included the provost, vice provost, the registrar, and the director of eCampus.

The following motion passed at Faculty Senate meeting #247 on April 6, 2020:

Motion to adopt temporary writing placement guidelines

MOTION:

The UAF Faculty Senate moves to adopt temporary writing placement guidelines to substitute for Accuplacer or SAT/ACT scores for placement into WRTG 111X.

Rationale: On March 20, 2020, Faculty Senate passed an emergency motion to allow for temporary academic adjustments as a result of the COVID-19 pandemic. In this motion, SAT/ACT scores were waived for Fall 2020 admission requirements. However, to adequately place students in WRTG 111X courses, some measure is required. As Accuplacer testing is suspended and SAT/ACT exams are waived, Curricular Affairs proposes to address the above issues by allowing the following multiple measures for placement:

- High School GPA of 3.0 or higher
- Successful GED completion within past 6 months

If students do not meet the above conditions, they will be asked to complete a survey, attach a writing sample, and report on study habits for success. The completed survey and writing sample will be reviewed by the Placement Task Force within two working days.

The Placement Task Force members include: Jennifer Tilbury jltilbury@alaska.edu; CTC Director for Student Success; Sarah Stanley sstanley2@alaska.edu, Director of University Writing; Kate Quick kaquick@alaska.edu, Coordinator for Developmental Writing. We invite our UAF Faculty colleagues to join us, especially those who may have concerns about student writing at the University.

Placement decisions will be shared with Jessica Skipper and Nanook Navigator to further track student success. The task force commits to report on this process at the conclusion of Fall 2020. *The survey is a collaborative project and draws from best practices.*

This policy is temporary and shall end when SAT/ACT exams and Accuplacer testing resume.

EFFECTIVE:

Immediately upon Chancellor approval.

Motion to amend the policy to adopt temporary writing placement guidelines

MOTION:
The Faculty Senate moves to amend the academic policy to adopt temporary writing placement guidelines that passed at Faculty Senate meeting #247 on April 6, 2020 and was approved by the Chancellor on April 10.

RATIONALE:
The Faculty Senate wishes to minimize the disruptions to academics caused by the COVID crisis, such as the closure of testing centers across the US and UAF's resulting decision to waive the requirement for SAT/ACT scores for Fall 2020. The COVID-Related Academic Policy ad hoc committee (C-RAP) recommended that the recently passed academic policy be amended to reduce a barrier to student success.

Deletions are marked as ~~strikeouts~~. Additions are highlighted.

Because the motion was passed only a few days ago, and was signed by the Chancellor on April 10, the policy is still in motion form.

Motion to adopt temporary writing placement guidelines

MOTION:

The UAF Faculty Senate moves to adopt temporary writing placement guidelines to substitute for Accuplacer or SAT/ACT scores for placement into WRTG 111X.

Rationale: (for the original April 6 motion)

On March 20, 2020, Faculty Senate passed an emergency motion to allow for temporary academic adjustments as a result of the COVID-19 pandemic. In this motion, SAT/ACT scores were waived for Fall 2020 admission requirements. However, to adequately place students in WRTG 111X courses, some measure is required. As Accuplacer testing is suspended and SAT/ACT exams are waived, Curricular Affairs proposes to address the above issues by allowing the following multiple measures for placement:

DocuSign Envelope ID: AFF720BF-4034-4334-A1B5-65C3F3FBE8BD

- High School GPA of 3.0 or higher
- Successful GED completion ~~within past 6 months~~

If students do not meet the above conditions, they will be asked to complete a survey, attach a writing sample, and report on study habits for success. The completed survey and writing sample will be reviewed by the Placement Task Force within two working days.

The Placement Task Force members include: Jennifer Tilbury jltilbury@alaska.edu; CTC Director for Student Success; Sarah Stanley sstanley2@alaska.edu, Director of University Writing; Kate Quick kaquick@alaska.edu, Coordinator for Developmental Writing. We invite our UAF Faculty colleagues to join us, especially those who may have concerns about student writing at the University.

Placement decisions will be shared with Jessica Skipper and Nanook Navigator to further track student success. The task force commits to report on this process at the conclusion of Fall 2020. *The survey is a collaborative project and draws from best practices.*

This policy is temporary and shall end when SAT/ACT exams and Accuplacer testing resume.

Motion to clarify minimum grade for students who choose the Credit/No Credit option for a graduate level course during Spring 2020

MOTION:

The Faculty Senate moves to clarify the minimum grade students must earn in order to receive credit for a graduate-level class for which they chose the Credit/No Credit option. This change is temporary and will apply to the Spring 2020 semester only unless Faculty Senate extends it further.

RATIONALE:

Students are not normally allowed to select Credit/ No Credit (CR/NC) as a grading option in graduate-level classes. Because that option was extended to them for the Spring 2020 semester, a minimum grade needs to be set for students to earn credit in 600-level courses. Because a grade of B (or 3.0) is currently required for graduate students in a 600-level course, that shall be the minimum grade to receive credit (CR). Any grade below that will count as NC and not impact the student's GPA.

Current catalog:

- **Grades and Grade Point Average**
  You must have a cumulative GPA of 3.0 in the courses identified on your Advancement to Candidacy form to remain in good standing and to graduate. In addition, for the purpose of satisfying degree requirements, you must earn a B (3.0) or better (no P grades) in each F400-level course and a C grade (2.0) or better in each F600-level course. NOTE: A B- is less than a 3.0 and, if obtained in a F400-level course, will not count for meeting degree requirements; likewise, a C- is less than a 2.0 and, if obtained in a F600-level course, will not count for meeting degree requirements.

EFFECTIVE: immediately upon the Chancellor's approval.

Motion #2020-03

Establish ad hoc joint committee on Concur

MOTION:

The UAF Faculty Senate moves to establish an ad hoc committee on the UAF travel software, Concur. The purpose of the ad hoc committee shall be:

- to identify and to document the problems with Concur
- to determine the extent of the problems
- to work collaboratively across governance organizations and the administration to brainstorm solutions to the problems identified

Rationale:
Some Faculty, staff, and administrators alike have expressed dissatisfaction with Concur, software that was designed to streamline travel processes but which has proved to have many problems as documented here and here. We wish to work together to find solutions to the problems.

Membership: The Ad Hoc Committee on Concur shall be comprised of UAF faculty, students, and staff. There shall be at least one ex officio member who is an administrator. Members may be nominated or self-nominated by sending an email to their respective governance leaders. The membership of the Committee shall be confirmed by the Faculty Senate at its April meeting. Laura Conner will convene the first meeting.

Effective: Immediately upon Chancellor approval.

Additions in bold face and highlighted in yellow
~~Strikeouts~~ highlighted in green

Sect. 3 (ART V: Committees)

A. An Administrative Committee will be composed of the chairpersons of all standing Senate committees and of permanent Senate Committees. The Provost of UAF shall be an ex-officio, non-voting member. Specific duties of the Administrative Committee in its obligation to fully prepare the agenda and materials for efficient operation of the Senate are:

1. Receive reports from the president of the Senate, the Provost, and, as deemed timely, other individuals, on issues of current and future importance to the Senate;

2. Accept and review the motions**, resolutions, memos, information and discussion items, and other items** ~~of~~ presented by standing and permanent committees, and from members of the Administrative Committee; **items approved for the senate agenda shall not be substantively changed without Administrative Committee approval before the senate meeting in which they are scheduled to be discussed;**

3. Make certain that the motions are ready for Senate action to the maximum degree possible, and if not, refer them back for further work and/or direct them to other relevant committees that may not have considered the motions;

4. Move the motions to the Senate's agenda;

5. Review and approve other items of the Senate's agenda, as deemed necessary;

6. Review reports of all committee work in progress; and

7. Discuss other issues, which may or should lead to later committee and senate actions.

DocuSign Envelope ID: DA76F7AF-836D-468F-B634-F8D587F6766D

In addition,

8. Within the scope of authority granted by the Senate at the last meeting of the spring semester, the Administrative Committee will represent the Senate from the close of the last Senate meeting in the spring until the opening of the first Senate meeting of the fall semester; and

9. At the first meeting in the fall semester make a report of all actions carried out in the name of the Senate since the last meeting in the spring semester.

10. The Administrative Committee shall oversee the process of evaluation of academic administrators.

11. The committee chair will provide committee meeting minutes to the Faculty Senate.

UNIVERSITY OF ALASKA FAIRBANKS
UAF FACULTY SENATE
P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

Dear Chancellor White,

The UAF Faculty Senate endorses the Faculty Affairs Committee report on expedited program reviews. The faculty urges you to explore all possible avenues for cost saving before cutting any programs. This university is recognized for the quality of its programs and research, and we should not do anything more to compromise that. Given the economic constraints, we should invest in what we do best. We, the faculty, sincerely believe instruction and research is what we do better than anything else at UAF.

Highlights from the committee's report are the following:

- Academics are the backbone of UAF and the purpose for the university's existence.
- Cuts to academics should be made only after the administrative-structure reviews are completed, and those reviews should not be used to cut support staff. Instead, those reviews should be used to trim upper-administration, which has ballooned in size in the past decade.
- Faulty PAIR data inaccurately captured program costs and revenue.
- Programs had already reorganized for efficiency in the period of time after the data used in the Delaware Cost Project.
- The programs under threat are essential to UAF's mission statement and to the Chancellor's strategic goals for 2019-2025.
- All programs listed budget cuts and lack of support from the state and from UAF as the most serious threats against their programs.
- It's time to be honest about our budget and urge the legislature to provide us more funding in next year's budget; we cannot handle the budget cuts proposed in the Governor's compact without serious harm to UAF and Alaskan communities.
- It is vital that faculty are the leaders in the reorganization of any departments or programs. Faculty know their programs best, provide the education for our students, and
- are the experts in delivering the content.

During this process of expedited academic and administrative reviews, Faculty Senate urges the administration to acknowledge the fact that faculty positions account for only 17% of the total budget. Academic programs, from OEs to PhDs, *are* the university; it is, first of all, an institution of higher learning. Academics should be the last to be cut.

Naturally Inspiring.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

FAC REPORT ON EXPEDITED PROGRAM REVIEWS

The UAF Senate's Faculty Affairs Committee took it upon ourselves to read and examine all of the expedited program review SWOT statements for Troth Yeddha' campus and CTC/CRCD. We recognize that the current budget situation is dire, and our administration is faced with making drastic decisions because of the current lack of state support.

Upon reflection, though, we have determined that all of these programs, in some form, are essential to the mission of UAF as "an international center for research, education, and the arts, emphasizing the circumpolar North and its diverse peoples." Further, all of these programs contribute to UAF's Strategic Goals for 2019-2025, from solidifying our global leadership in Alaska Native and indigenous programs to achieving tier 1 research status; embracing and growing a culture of respect, diversity, inclusion, and caring; and revitalizing our key academic programs, from OE to PhD. UAF and Alaska will be worse off if any of these programs cease to exist.

With faculty taking the lead in decision making, some departments and programs could be reorganized for better efficiency. For example, Theater and Film suggested creating a "department of fine arts" within CLA to house all fine arts, excluding the creative writing minor and creative writing MFA. Oceanography suggested that all oceanographers be consolidated into a single unit. Geosciences is working on an MOU with UAA to increase the number of PhD students at UAF. Electrical and Computer Engineering would like to restructure their degrees to create a total of 3 degree options. Petroleum Engineering would like to move to UAA. Other departments listed ideas for increasing their efficiencies, too, but every SWOT analysis noted that the programs have already seen several years of reduced funding. Programs cannot continue to get more efficient with every passing year. We cannot do more with less forever.

If UAF cuts any of these programs, it will be a loss to our students and our communities. At least a dozen of the programs under expedited review bring in grant revenue--some of them in the tens of millions of dollars-- and contribute to the research and arts mission of UAF. Over half a dozen programs--DANSRD, Environmental Studies Certificate/OE, KuC Ethnobotany, High Latitude Range Management, Alaska Native Language Center and Program, Arctic and Northern Studies, and Cross-Cultural Studies/Indigenous Studies--directly contribute to our mission of emphasizing the circumpolar north and its diverse peoples. All of the programs under special review also contribute to UAF's mission of "educat(ing) students for active citizenship and prepar(ing) them for lifelong learning and careers."

In all cases, programs listed a plethora of achievements, including attaining large grants and major publications/productions, and graduating dozens of UAF students. The primary purpose of UAF, and essential to our renewed accreditation with NWCCU, is to successfully educate our students. All of the programs under this special review are doing that. Without these programs, fewer Alaskans will attain degrees, and fewer Alaskans will be prepared for active citizenship in

our great state. Furthermore, fewer out-of-state and international students will be attracted to UAF if these programs are cut.

In the 'threat' section of these SWOT analysis, every program listed budget cuts and lack of state and institutional support as their main threat. Many of these programs stated that they have undergone reviews and special reviews every single year for four, five, or more years. They also stated that it is difficult to retain good faculty under this budget situation, and whenever a faculty or staff member leaves, their position remains unfilled. Further, the lack of staff support is increasing across all programs; many of them listed this as a cause of concern that is prohibiting departments and programs from reaching their full potential.

Another threat listed by nearly all programs under expedited review was faulty data from the Delaware Cost Project and from PAIR. In some cases, the departments under expedited review have already been reorganized or combined with other departments, and/or they have revised their degree offerings after 2014, which is the last year included in the Delaware Cost Project. Some programs also noted that the data from PAIR did not correctly capture their real student headcounts, course offerings, or number of graduates. In some cases, the data excluded large chunks of a program's revenue, making the department seem more expensive and less productive than it actually is.

While we recognize that the UAF administration did not create our budget situation, the administration needs to resist cutting academic programs that have contributed to the well-being and livelihoods of our UAF students and Alaskan communities for decades. It is very easy to cut a program. However, it will take years, and in some cases will be impossible, to rebuild whatever is lost in this process.

Before any academic programs are cut, cuts should be made to upper-administration, focused especially on administrators in 'vice' and 'assistant' positions. Perhaps some upper-administrative positions could be consolidated, as well. For example, the Dean of CTC could also be the Dean of CRCD. Other opportunities for consolidation likely exist. We acknowledge that these upper-administrative positions are important to UAF, but our academic programs are our backbone. Without our academic programs, we'll have no need for administrators at any level.

Ultimately, we urge the administration of UAF, as well as the systemwide administration, to passionately lobby the legislature for increased funding, such as they tried to give us last year. This is the only real fix to our current budget problems. We cannot continue this cycle of budget cuts, which began nearly a decade ago. It's time for our administrators to quit saying we can take more cuts. Our academic programs are the backbone of UAF, and our faculty are struggling under increasing workloads and decreasing staff and financial support. Our students and our Alaskan communities will pay the ultimate price if these budget and program cuts continue.

Motion #2020-01

Motion to revise graduate assistantship policy

MOTION:

The UAF Faculty Senate moves to revise the Graduate Assistantship policy from "Tuition payments must be used for courses directly related to the student's degree program" to "Tuition payments SHOULD be used for courses related to the student's degree program."

RATIONALE: This change is to decrease unnecessary administrative oversight of student course enrollment. Students and their faculty advisors should discuss and decide the courses the students should take to successfully complete their degree in a timely manner.

EFFECTIVE: Immediately upon Chancellor approval or acknowledgement

Administrator Caveat

I am approving this revised document to achieve greater alignment between the Collective Bargaining Agreement with UNAC and the guidance provided to faculty by the UAF Faculty Handbook. My intent in doing so is to limit confusion rather than to bind the university or faculty to any provisions affecting terms and conditions of employment. I emphasize, consistent with Article 8 of the CBA, that the CBA supersedes any other policy, rule, regulation, or practice of the University which is contrary to, duplicative of, or inconsistent with its terms, and that faculty and the university must consult and comply with the terms of the CBA.

Date: 2/14/20

Daniel M. White, UAF Chancellor

Chapter I: Definitions

As used in these procedures, unless otherwise specified, the following terms shall mean:

1. "University system, University of Alaska, University of Alaska system" The public universities and community colleges of the State of Alaska referenced collectively as a system of higher education.

2. "University" University of Alaska Fairbanks.

3. "Board of Regents" The Board of Regents (BOR) of the University of Alaska System.

4. "President" The chief executive officer of the University of Alaska System and of the BOR.

5. "Chancellor" The chief executive officer of the University of Alaska Fairbanks.

6. "Campus Director" The chief executive officer of one of the community colleges within the University of Alaska system. At UAF, "Campus Director" means Director as used in AS 14.40.590 and reports to the Vice Chancellor of Rural, Community and Native Education.

7. "Faculty" Those persons who have accepted and hold appointment to academic rank or special academic rank.

8. "Academic Ranks" Ranks held by persons having the title of professor, associate professor, and assistant professor. These titles denote academic rank exclusively. The title of instructor may also be a title of academic rank at the discretion of the policies and procedures approved for each university, or when included in the description of membership in the relevant Article of a collective bargaining agreement. Faculty holding academic rank are eligible for promotion and tenure. Non-tenure track faculty also hold academic rank, and are eligible for promotion.

9. "Special academic ranks" Ranks held by persons having the following title and the qualification specified: instructor, lecturer, post-doctoral researcher, and research associate academic.

    a. "Lecturer" Employed to teach full- or part-time.

    b. "Instructor" A person employed to teach and perform other faculty functions as assigned.

c. "Post-Doctoral Researcher" A person holding a terminal degree who is engaged in a temporary period of mentored research and/or scholarly training for the purpose of acquiring professional skills and possibly being the Principal Investigator on proposals.

d. "Research Associate Academic" A person in a temporary Research Faculty position with possible Principal Investigator restrictions on external proposals.

These titles denote special academic rank exclusively. The title of instructor may also be a title of special academic rank at the discretion of the policies and procedures approved for each university, or when included in the description of membership in the relevant Article of a collective bargaining agreement.

10. Academic titles may be preceded by the following terms:

Adjunct: employed to teach one or more courses up to 15 credit hours per regular academic year, or other academic assignment at less than 50 percent of a full-time appointment;

Affiliate: voluntary faculty service, not employed by the university;

Associated: a UAF faculty member who has an association with a unit or department that is not their primary unit or department;

Clinical: special category reserved for practitioners in the health care delivery professions or other relevant professions;

Extension: employed to perform the faculty functions expected of members of cooperative extension

Research: employed primarily to conduct research and implement research programs;

Term: employed for a specified period of time up to five years and may be renewed;

Visiting: employed to perform the faculty functions expected of academic rank for a specific period;

11. "Policies and procedures approved for each university." Policies and procedures designed by each university for its own use and approved by the Board of Regents.

12. "Tenure." The status of holding a faculty appointment on a continuing basis following evaluation and award according to the terms of Chapter IV herein and BOR Policy 04.04.04.B.

13. "Tenure track position." A tenure track position is one which may lead to consideration for appointment to tenure as described in the policies and procedures for each university. A tenure track position requires the performance of faculty function at least 50% of full-time.

14. "Non-tenure track position." A non-tenure track position is one which does not provide a faculty member guaranteed rights to consideration for appointment to tenure.

Chapter II: Appointment of Faculty

A. Appointment Categories

The following categories of appointment shall be used to fully specify the type of appointment and associated rights:

a. Type of Position

(1) Tenure track position. Faculty appointed to tenure track positions either hold tenure or may become eligible for consideration for appointment to tenure under the conditions stated in Chapter III and BOR Policy 04.04.04.B. Time spent in these positions shall be counted towards the maximum time by which a tenure track appointee must be considered for tenure for continuation of employment. Faculty appointed to tenure track positions shall have titles of academic rank. (See also Chapter I, 10 and BOR Policy 04.04.030 A.)

(2) Non-tenure track position. Faculty appointed to non-tenure track positions have no rights to consideration for appointment to tenure. Part-time or full-time appointment in a non-tenure track position shall not count as part of the probationary period of a tenure-track appointment at the university except by agreement between the faculty member and the hiring authority at the time of hire. Credited time so agreed upon shall not reduce the normal time in rank for the mandatory tenure and promotion review unless specified in the initial letter of appointment to a tenure track position. Faculty appointment to these positions shall have titles of special academic rank. (see also Chapter I, 9).

b. Tenure Status

A faculty member appointed to a tenure track position may receive tenure only under the conditions specified in Chapter III herein and BOR Policies 04.04.040 (B) and 4.04.050 (B).

c. Faculty Rank and Title

(1) Academic rank. Titles of academic rank shall be the same throughout the university. Titles designating academic rank exclusively are: assistant professor, associate professor, and professor. Titles of academic rank may be preceded by the terms adjunct, affiliate, associated, term, visiting, research, or clinical.

(2) Special academic rank. Titles of special academic rank shall be the same throughout the university. Titles designating special academic rank exclusively are: instructor, lecturer, post-doctoral researcher, and research associate academic.

d. Continuing, Term, and Terminal Appointments

(1) Continuing appointment. A continuing appointment is one which is expected to continue unless a faculty member is terminated in accordance with policies defined in Chapter IV of this document, BOR Policy 04.04.04(C) and in compliance with the Collective Bargaining Agreements. Continuing appointments shall be given with appointment to academic rank and tenure track positions, with or without tenure. A continuing appointment may be appropriate for an appointment to non-tenure track faculty, in which case continuing appointments may be made for up to five years in duration. Appointment may be renewed in the manner specified in Chapter V of this document and BOR Policy 04.04.04, and in compliance with the extant Collective Bargaining Agreement.

(2) Terminal appointment. A terminal appointment is a term appointment used when a decision has been made to terminate a faculty member at the end of the next appointment period, in accordance with the policies in Chapter V of this document.

(3) Term appointment. A term appointment is one that is expected to expire at the end of a specified period of up to five years unless renewed or terminated early in accordance with P04.04.047, and in compliance with extant Collective Bargaining Agreement. Such appointments may not be made for periods longer than five years, but may be renewed.

e. Appointments of Distinction for Faculty

(1) Distinguished and University Professors. Tenured appointment as Distinguished Teaching Professor; Distinguished Research Professor, Distinguished Service Professor, or University Professor may be given by action of the Board of Regents on recommendation of the appropriate academic unit peer review committee and concurrence of the chancellor and the president.

(2) Distinguished Visiting Professors. Appointment as Distinguished Visiting Professor shall be made by the chancellor, following consideration of recommendations of the appropriate academic unit peer review committee. Such appointment shall be reported to the president and shall be a non-tenure track appointment for a period of time not to exceed three years. These appointments may be renewed, following the consideration of the faculty.

(3) Professor Emeritus or Emerita. Appointment as Professor Emeritus or Emerita is an honor conferred by the chancellor, following consideration of recommendations by the faculty, upon an outstanding retiree of the university as described in this document, the document "UAF Regulations for the

Appointment and Evaluation of Faculty, and Regents' Policy and Regulation 04.04.070 – Emeritus Status.

B. Process for Appointment of Faculty

a. Process for Appointment of Tenure Track and Non-Tenure Track Faculty
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Department of Equity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

C. Evaluation of Faculty for Initial Appointment

The appropriate rank for initial appointment shall be determined based upon the criteria and minimum eligibility requirements identified below for that rank. Years of equivalent service in a comparable institution of higher education shall also be a consideration in determining appropriate initial rank.

a. Minimum Degree Requirements:

Earned doctorate or a disciplinary terminal degree
OR
For appointments for which the doctoral degree is not the appropriate degree, academic preparation as evidenced by advanced degree(s) and experiences sufficient to fulfill the requirements of faculty obligation as defined in Chapter III.C.1 of this document.
OR
Bachelor's degree for faculty in vocational/technical fields for which there is no recognized academic degree, and/or appropriate licenses and certifications and appropriate experience as reflected in unit criteria.

b. Minimum Experience Requirements:

Assistant Professor. Demonstrated capability to perform effectively in the areas of teaching, in research/scholarly/creative activity, and in service to the extent consistent with the position's areas of emphasis.

Associate Professor. Service at the rank of assistant professor, associate professor or equivalent professional experience; and a record of excellence in teaching, in research/scholarly/creative activity, and in service, to the extent consistent with the position's areas of emphasis and the criteria for promotion to this rank.

Professor. Service at the rank of associate professor, professor or equivalent professional experience; and recognized excellence in teaching, in research/scholarly/creative activity, and in service, to the extent consistent with the position's areas of emphasis and the criteria for promotion to this rank.

Exceptions: Exceptional people not meeting the above criteria may be considered for appointment on a case-by-case basis and must be approved by the chancellor or chancellor's designee.

c. Special Academic Ranks:

Qualified Academic Rank Appointments. Degree requirements for these specially focused appointments are the same as those identified for initial placement of regular academic rank faculty (Chapter II.C.a. above).

Experience/performance requirements for appointment in a special academic rank position shall be determined based on performance standards of a quality equivalent to those required for academic rank, except that they shall apply normally to only one area of performance.

Other Special Rank Titles: Instructor or Lecturer. Demonstration of effective teaching performance OR record of appropriate educational and work experience of sufficient length and quality to demonstrate breadth of knowledge in the discipline and indicate high potential for effective teaching.

In order to acknowledge continuing, outstanding quality instruction in certain disciplines, it is intended that the university will provide a mechanism by which faculty having such specialties may be recognized and compensated in a manner which reflects their extended experience, breadth of professional development, and curricular leadership.

D. Following the Selection Process

The dean or director shall appoint the new faculty member in accordance with the processes announced by the provost and advise the provost of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

E. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the Classification of Instructional Program (CIP) Code assigned to the faculty member, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and if applicable any special conditions relating to the appointment.

Initial letters of appointment for UNAC tenure track faculty as Assistant Professor shall also specify the year of 4th Year Comprehensive and Diagnostic Review. The percentage of emphasis for each part of the faculty responsibility may vary with each workload distribution as specified in the annual workload agreement document.

F. Appointment Year and Appointment Obligation

Unless the terms of appointment otherwise provide, the normal appointment year shall be from July 1 to June 30 or a portion thereof, regardless of payroll mode. The duration of appointment obligation may be for a full year or less as described below:

1. Fiscal year obligation
An obligation of service for the full fiscal year, i.e., twelve months.

2. Academic year obligation
An obligation of service for the academic year as set by the university for the Fairbanks campus and/or the community campuses.

3. Institutional year obligation
An obligation of service for any period less than a full year, other than the academic year.

Academic year and institution year faculty may be required to serve at dates necessitated by a unit's operating requirements.

G. Faculty Obligation

1. Duties
Faculty obligation may include teaching, research/scholarly/creative activity, service, and other duties and responsibilities required of a faculty member during the appointment year, and shall be consistent with academic rank and professional or disciplinary field, as agreed to in the faculty workload agreement.

2. Non-University Activities
A faculty member shall not engage in outside activities which interfere with or are inconsistent with the performance of faculty obligation or are determined to run counter to the provisions of the Alaska Executive Branch Ethics Act (AS 39.52) or Board of Regents Policy 04.10.030 or University Regulation 04.10.030 governing conflict of interest.

H. Method of Appointment

All appointments shall be made by the chancellor or the chancellor's designee in accordance with BOR Policy and policy and procedures approved for the University of Alaska Fairbanks.

Chapter III: Faculty Evaluation

A. Purpose

It is the policy of the university to evaluate faculty on the basis of the criteria identified below. Evaluations shall appraise the extent to which each faculty member has met the performance assignment, the extent to which the faculty member's professional growth and development have proceeded, and the prospects for the faculty member's continued professional growth and development. Evaluations shall also identify changes, if any, in emphasis required for promotion, tenure and continued professional growth and may result in the initiation of processes to improve performance.

Coordination of the evaluation processes for annual evaluation, reappointment, promotion, tenure, 4th-year comprehensive and diagnostic review, and post-tenure review shall be the responsibility of the provost, who shall establish and distribute guidelines and schedules for the evaluation processes. Written documentation of the evaluation summary shall be made available to the faculty member being evaluated.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined below will be defined by demonstrated competence from the following areas: 1) effectiveness in teaching; and/or 2) achievement in research, scholarly and creative activity; and/or 3) effectiveness of service. It is the responsibility of the dean or director of each school and college, in concert with the overall mission of the university, to define the proportion of faculty effort which is to be directed toward meeting the responsibility in each of the workload areas. Each individual faculty member's proportionate professional responsibility shall be reflected in annual workload agreements and performance evaluations.

B. Types of Evaluation for Different Faculty

1. Annual Evaluation of Tenured, Tenure-Track, and Non-tenure Track Faculty with Academic Rank

   There will be annual evaluations of all tenured and untenured faculty members holding academic rank. Each faculty member shall submit an Annual Activities Report to the dean, director or designee according to a schedule announced by the provost and as described by the extant bargaining agreement applicable to the faculty member. The Annual Activities Report will be accompanied by a current curriculum vita and a brief self-evaluation narrative. The faculty member may submit additional documentation at their discretion. The dean, director, or designee may consider additional information contained within the faculty member's academic record file and other files as defined in the extant bargaining agreement. The dean, director or designee shall provide a copy of a written evaluation to the faculty member as described in the extant bargaining agreement.

For non-tenure-track faculty members the evaluations performed by the dean, director or designee shall include explicit statements on progress toward meeting criteria for promotion in their written evaluations and shall reference the faculty member's workload agreement in commenting on progress.

For tenure-track faculty members, the evaluations performed by the dean, director or designee shall include explicit statements on progress toward meeting criteria for tenure and promotion in their written evaluations. The dean's/director's evaluation shall reference the faculty member's workload agreement in commenting on progress. Based upon review of the faculty member's performance record, the dean, director or designee shall approve reappointment or issue notification of termination, including non-retention and non-renewal, in the manner and by the deadlines set forth in the extant collective bargaining agreement applicable to the faculty member.

For faculty members with joint appointments, the dean, director or designee of the school or college of the faculty member's primary academic appointment or locus of tenure will arrange a review that assures that the dean, director or designee of the unit of joint appointment of the faculty member provides a written evaluation of the faculty member, as appropriate.

2. Fourth Year Comprehensive Review of Tenure-track Assistant Professors

Faculty members who are appointed at the tenure-track assistant professor rank shall receive a comprehensive and diagnostic review in the fourth year of their appointment. This review will be conducted by the appropriate academic unit peer review committee, the dean, director or designee, and the university-wide peer review committee in accordance with the procedures for evaluation provided by the extant bargaining agreement. The purpose of the comprehensive review is to assess progress toward tenure and promotion. The review shall proceed to the provost; it may proceed to the chancellor at the written request of the faculty member.

The faculty member shall submit a file including the following documents:

a) Current CV;
b) Annual workload assignments for the period under review;
c) A cumulative activity report for the period under review;
d) Feedback from the dean, director, or designee in response to the Annual Activity Reports for the period under review;
e) Evidence of teaching, research and service effectiveness for the years under review, including summarized teaching evaluations, where applicable;
f) Self-evaluation that summarizes the faculty member's scholarly contributions and accomplishments in other areas included in their workload agreements for the period

under review. If the feedback to previous evaluations noted areas for improvement, then the self- evaluation shall include a summary of the progress made to address those areas;

g) Other materials as specified in the unit peer criteria;
h) Other materials at the discretion of the faculty member.
i) Unit criteria of the faculty member's unit.

For faculty members with joint appointments, the dean, director or designee of the school or college of the faculty member's primary academic appointment or locus of tenure will arrange a review that assures that the dean, director or designee of the unit of joint appointment of the faculty member provides a written evaluation of the faculty member. The dean, director or designee of the faculty member's primary academic unit will inform the faculty member of these arrangements.

3. Evaluation of Tenure Track, Tenured, and Non-tenure Track Faculty Members for Promotion

Tenure track, tenured, and non-tenure track faculty members shall receive a comprehensive and diagnostic review for promotion by the appropriate academic unit peer review committee, the dean, director or designee, and the university-wide peer review committee in accordance with the procedures for evaluation provided by the extant bargaining agreement. The review will proceed to the provost and then to the chancellor, who may promote qualified faculty members when promotion would be consistent with institutional need, mission, and resources. The quality of performance expected for CBA eligible non-tenure track faculty is equivalent to that described for tenure-track faculty and is based on the workload. The composition of the file for non-tenure track faculty shall be the same as described below, EXCEPT that each of the three areas, teaching, research, and service should only be included if they are part of the faculty's negotiated workload during the period of review.

The faculty member shall submit a file including the following documents:

a) Current CV;
b) Annual workload assignments for the period under review;
c) A cumulative activity report for the period under review;
d) Feedback from the dean, director, or designee in response to the Annual Activity Reports for the period under review;
e) Evidence of teaching, research and service effectiveness for the years under review, including summarized teaching evaluations, where applicable;
f) Self-evaluation that summarizes the faculty member's scholarly contributions and accomplishments in other areas included in their workload agreements for the period under review. If the feedback to previous evaluations noted areas for improvement, then the self- evaluation shall include a summary of progress made to address those areas;

g) External review letters;
h) Other materials as specified in the unit peer criteria;
i) Other materials at the discretion of the faculty member;
j) Unit criteria of the faculty member's unit.

For faculty members with joint appointments, the dean, director or designee of the school or college of the faculty member's primary academic appointment or locus of tenure will arrange a review that assures that the dean, director or designee of the unit of joint appointment of the faculty member provides a written evaluation of the faculty member. The dean, director or designee of the faculty member's primary academic unit will inform the faculty member of these arrangements.

4. Evaluation of Tenure Track Faculty Members for Tenure

Untenured faculty members shall be evaluated for tenure in accordance with the terms and conditions of appointment and the procedures for evaluation provided by the extant bargaining agreement. The chancellor may award tenure to faculty members whom the chancellor judges to be qualified, when tenure would be consistent with the need, mission, and resources of the university and the unit in which the faculty member would be tenured. The chancellor's decision shall be based upon the recommendations of the appropriate academic unit peer review committee, the dean, director or designee, the university-wide peer review committee, and the provost.

The faculty member shall submit a file including the following documents:

a) Current CV;
b) Annual workload assignments for the period under review;
c) A cumulative activity report for the period under review;
d) Feedback from the dean, director, or designee in response to the Annual Activity Reports for the period under review;
e) Evidence of teaching, research and service effectiveness for the years under review, including summarized teaching evaluations, where applicable;
f) Self-evaluation that summarizes the faculty member's scholarly contributions and accomplishments in other areas included in their workload agreements for the period under review. If the feedback to previous evaluations noted areas for improvement, then the self- evaluation shall include a summary of progress made to address those areas;
g) External review letters;
h) Other materials as specified in academic unit peer criteria;
i) Other materials at the discretion of the faculty member;
j) Unit criteria of the faculty member's unit.

For faculty members with joint appointments, the dean, director or designee of the school or college of the faculty member's primary academic appointment or locus of tenure will arrange a review that assures that the dean, director or designee of the unit of joint appointment of the faculty member provides a written evaluation of the faculty member. The dean, director or designee of the faculty member's primary academic unit will inform the faculty member of these arrangements.

5. Post-Tenure Review

Tenured faculty members shall be evaluated comprehensively every six years in accordance with the procedures set forth by the extant collective bargaining agreement applicable to the faculty member.

The post-tenure review process is generally intended to be a formative rather than a summative process of faculty evaluation, focused on faculty development. The process should review and encourage ongoing development, scholarship, and productivity, including feedback concerning progress toward promotion where applicable. A scheduled review will occur six years from the date that the faculty member's most recent post-tenure review or successful promotion review was initiated. The faculty member shall submit a file including the following documents:

a) Current CV;
b) Annual workload assignments for the period under review;
c) A cumulative activity report for the period under review;
d) Feedback from the dean, director, or designee in response to the Annual Activity Reports for the period under review;
e) Evidence of teaching, research and service effectiveness for the years under review, including summarized teaching evaluations, where applicable;
f) Self-evaluation that summarizes the faculty member's scholarly contributions and accomplishments in other areas included in their workload agreements for the period under review. If the feedback to previous evaluations noted areas for improvement, then the self-evaluation shall include a summary of progress made to address those areas;
g) Other materials as specified in academic unit peer criteria;
h) Other materials at the discretion of the faculty member;
i) Unit criteria of the faculty member's unit.

For faculty members with joint appointments, the dean, director or designee of the school or college of the faculty member's primary academic appointment or locus of tenure will arrange a review that assures that the dean, director or designee of the unit of joint appointment of the faculty member provides a written evaluation of the

faculty member. The dean, director or designee of the faculty member's primary academic unit will inform the faculty member of these arrangements.

C. Evaluation Process for Retention, Promotion, Tenure and Post-Tenure Review

1. General Evaluation Criteria

Evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation, as specified in the workload agreements:

- mastery of subject matter;
- effectiveness in teaching;
- achievement in research, scholarly, and creative activity;
- effectiveness of public service;
- effectiveness of university service;
- demonstration of professional development; and
- quality of total contribution to the university.

In addition, departments or disciplines may elaborate in writing, with Faculty Senate approval, on these or other criteria which take into account the distinctive nature of the discipline or special university assignment. See Unit Criteria.

2. Notification. Before the end of the academic year, the Deans/Directors' offices will announce the deadline for submission of files for tenure, promotion, 4th year comprehensive and diagnostic review and post-tenure review for review during the next academic year, in accordance with the extant bargaining agreement.

The Provost's Office, in consultation with the dean of each college or school and/or the institute or campus director will compile a list of faculty members who are required to stand for tenure and/or promotion review during the next academic year and send written notification to each of these faculty members advising them that they must stand for review and should begin compiling their file. The dean, in consultation with the institute or campus director, will also distribute an announcement to all faculty requesting that the dean be notified if anyone wishes to stand for tenure evaluation prior to the mandatory year of review, or wishes to apply for promotion during the next academic year. This notification of intent should be submitted to the dean in accordance with the date and procedure outlined in the extant CBA. This will help assure that any problems in minimum eligibility are resolved before the review begins.

In accordance with the CBA, the provost shall prepare and distribute guidelines for preparation of a candidate's file, a schedule of review levels and deadlines, and the

unit criteria, standards and indices as appropriate. Refer to the Provost's website for specific formatting details and mode of submission.

3. Composition of the file. It is the responsibility of tenured, tenure track and promotion-eligible non-tenure track faculty members to prepare a file of materials documenting how the criteria for relevant type of review has been met.

   The file shall be comprised of:

   - Promotion/Tenure Materials Checklist. This form not only lists the materials to be included; it also sets forth the sequence in which the materials are to be assembled in the file. Please note that the form, itself, is the first item in the file. The unit member should fill in the information requested at the top of the form and check off those items included at the time the file is submitted. The checklist resides on the Provost's website.

   - Eligibility and Summary of Recommendations Form. Faculty members standing only for tenure or for promotion need to include only the eligibility form for that particular process. If applying for both awards concurrently however, both forms must be included in the file.

   - Special Unit Criteria. If the discipline, department, institute, or college/school has formally prepared unit criteria, which have been officially accepted and approved by the UAF Faculty Senate, a copy should be included in the faculty file.

   - Promotion/Tenure Cumulative Activities Report. Listed below are the general topics for which faculty are asked to provide information. To aid the evaluators in their review of the file, the form should be used to prepare the Activities Report. Unit members undergoing promotion review should include material that covers the period since initial hire (or since the last promotion review if seeking promotion to Full Professor). Unit members undergoing tenure review should include material from the past six (6) academic years, unless individuals have a different stated time interval or are going up early.

     Example Organization and Content of Activities Report

     1. Personal Information
     2. Workload Summary
     3. Teaching
        a. Instructional Activities
        b. Committee Chair
        c. Student Advising - Graduate and/or Undergraduate
     4. Research, Creative and Other Scholarly Activities

a. Publications
b. Publications In Press
c. Professional Creative Activities
d. Sponsored research or projects
e. Other Scholarly Work
f. Conference Participation

5. Public, University and Professional Service
   a. Public service
   b. University service
   c. Professional service
6. Professional Development
7. Honors and Awards

- Self-Evaluation. It is the faculty member's responsibility to prepare and include a summary self-evaluation of contributions and achievements within each of the areas of responsibility required for the position. It provides an opportunity to describe the assignments and expectations placed upon the faculty member and their success in meeting them, from their own perspective. In this self-evaluation, it is appropriate to note any special assignment or responsibilities and identify the nature of the position as defined by their workloads. If the member's duties are strongly weighted in one area of responsibility, the reasons for this assignment can be explained here. It is also the appropriate place to note and adequately justify any exceptions to eligibility or procedural requirements reflected in the application. Note that the emphasis for this part of the application is "evaluation."

- Evidence of Effectiveness. The following items should be included.
  - Previous Evaluations.
  - For unit members undergoing promotion review, include copies of past evaluations since the date of initial hire or the last promotion, as applicable.
  - For unit members undergoing tenure review, include copies of past annual evaluations since initial hire.
  - Evidence of teaching effectiveness, including summarized teaching evaluations; other items which may be included are: peer evaluation of teaching including teaching materials, pedagogical organization as evidenced through peer evaluation of course syllabi, documented use of best practices in teaching, evidence of pedagogical training, and/or evidence that their students meet course learning outcomes.
  - Examples/Evidence of research, scholarly, or creative activities.
  - External comments about service activities.
  - External Reviews, Honors, and Citations.

- Curriculum Vitae and Letters of Support
    - It is strongly recommended that the faculty member write a tenure/promotion-specific version of the vita. Consistent with the nature of the position, activities in the appropriate areas of teaching, research, and service need to be spelled out in greater detail than one's resume might normally contain. The well-developed vita will cover each of the criteria relevant to the position.
    - Letters of support, whether internal or external, should be placed in this section. Group them so that letters which support the same element are together.

- Levels of Review. Please refer to the Checklist. Items 8 through 12, along with "Unit Member's Comments" from each level of review will be placed in the file by the Provost's Office.

4. Access to the candidate's file. Access to the candidate's file will be limited to the candidate and, during the official review periods established by the provost, the appropriate personnel at each review level (unit peer committee, dean and/or director or designee, university-wide promotion and tenure committees, provost, chancellor, and staff as designated at the level of review). No written or electronic copies may be distributed to anyone who is not tasked with reviewing the files.

   Candidates may not add supporting documents, such as letters of acceptance of a manuscript or grant proposal awarded to their original file. Once the file has been submitted for review, candidates may only add supporting documents to the file as attachments to the candidate response at each stage of the review. These documents may include letters of acceptance of a manuscript or grant proposal awarded.

5. Review Process.

a. Definition of the unit. For purposes of faculty evaluation, promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure reviews, a unit is defined either as an academic discipline or a department/cluster/group/unit as determined by the college/school dean or institute/campus director as appropriate, with the consent of the faculty members of that department/cluster/group/unit.

b. Unit peer review. The tenured faculty in a unit will constitute the unit peer review committee for faculty in that unit participating in promotion, tenure, 4th

year comprehensive and diagnostic review, and post-tenure review. The unit peer review committee must include all tenured faculty members from the discipline in which the candidate is being evaluated, unless said members are on leave of absence or sabbatical.

The unit peer review committees shall be composed of at least five (5) tenured faculty at the same or higher rank as the unit member being reviewed, with at least three (3) at the rank of full professor. In the case in which there are not the requisite number of senior tenured faculty, the Dean, Director, or designee will appoint a faculty member at the appropriate rank from another unit, with the consent of the members of the discipline, department, cluster, or academic unit. Absent such consent, the Provost shall resolve issues around the composition of the peer committee.

Unit peer review committees shall develop operational procedures that will be made available to all unit peer members and (re)approved at the first meeting of each annual (if held) unit peer review committee. Each unit peer review committee shall develop written operating procedures in advance of any review of files. A copy of these procedures shall be submitted to the candidate and the provost prior to review of any files. Each unit peer review committee must elect a chair at least annually.

Non-tenure track faculty shall have on their peer review committee at least 5 non-tenure track faculty who hold the ranks of either Associate Professor or Professor within the candidate's unit will normally constitute the peer review committee for non-tenure track faculty applying for promotion. At least 3 of the committee must be at the rank of Professor. In the case in which there are not the requisite number of senior non-tenure track faculty, the provost may augment a peer review committee by adding tenured faculty to achieve the minimum number required if procedures to add additional senior faculty members are not outlined in the standing unit peer committee operating procedures. Norms for development of unit criteria, process, and composition of the unit peer committee shall follow the same rules as those for tenure-track faculty, described below in section 5c.

The unit peer review committee may determine whether discussions shall be open or closed to the public and the candidate. The vote of the peer review committee, however, shall be closed to the public and the candidate. The unit peer review committee vote and written substantive rationale that includes the majority recommendation and minority opinion, without individual attribution, shall be provided to the dean, director or designee. A copy of the written statement shall be provided to the faculty member being reviewed.

A faculty member serving on a university-wide peer committee and the unit peer review committee may participate in the review of a unit peer faculty member's file at both levels of review, but shall vote at only one level.

When evaluating candidates for promotion and/or tenure, unit peer committees shall use the ratings of unsatisfactory, satisfactory, good, very good, and excellent. When evaluating candidates for 4th year comprehensive and diagnostic review, unit peer committees may use the same ratings to evaluate the candidate's performance in each of the areas of the candidate's responsibility, but the unit peer committee shall also provide an overall rating of either "satisfactory progress toward tenure," or "unsatisfactory progress toward tenure." When evaluating candidates for comprehensive post-tenure review, the same ratings shall apply with the exception of the overall ratings being either "satisfactory post-tenure performance" or "unsatisfactory post-tenure performance."

c. Levels of review. The candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review shall prepare and submit a file according to the schedule published by the provost. All members of the unit peer committee shall review all files for promotion, tenure, 4th year comprehensive and diagnostic review and post tenure review from that unit. The review process for non tenure-track faculty shall be essentially the same as and concurrent with the procedures outlined for tenure-track faculty. The completed file will be reviewed by the unit peer review committee (see procedures in section 5b). The candidate's file and written recommendations will be forwarded to the cognizant directors or deans. The cognizant directors or deans will forward the candidate's file, along with written recommendations, to the university-wide promotion and tenure committee. The university-wide promotion and tenure committee will review all files concurrently with promotion applications for non tenure track-faculty. As with all candidate files, the university- wide promotion and tenure committee shall review the non-tenure track faculty member's file in accordance with their negotiated workload. All areas that are part of a candidate's workload (teaching, research, and/or service) should be evaluated.

The levels of review for promotion, tenure, 4th year comprehensive and diagnostic review* and comprehensive post-tenure review* are in this order.

- unit peer review committee;
- dean, in coordination with the director in the case of joint appointments;
- university-wide review committee;
- provost; and
- chancellor who will make the final decision.

Note*: 4th year comprehensive and diagnostic review files and comprehensive post tenure review files proceed to the level of the chancellor only at the request of the candidate.

Dean/Director Level - The dean of the school/college, or the director if the candidate is in an institute only, in consultation with the joint-appointment dean/director when appropriate, shall evaluate the file and prepare a written recommendation or a written summary of the combined dean/director recommendation for or against tenure and/or promotion of the candidate. In the case of 4th year comprehensive and diagnostic review files the dean, and director, where appropriate, shall determine if the candidate is making satisfactory progress toward promotion and tenure and shall provide a written summary, including recommendations if the progress is not satisfactory. In the case of post-tenure review the dean and/or director, where appropriate, shall review the file and provide written comments evaluating evidence of sustained performance according to the relevant criteria for rank. The dean will forward the file to the Office of the Provost. The Office of the Provost collects and maintains all candidate files and provides the university-wide promotion and tenure review committees access to the files for their review and recommendation.

University-wide Committee Level - The university-wide promotion and tenure review committee shall provide a recommendation, along with the record of the committee's vote and a substantive rationale that includes the majority recommendation and minority opinion (if applicable), to the provost.

Provost Level - The provost shall review and evaluate all files and make a recommendation to the chancellor.

Chancellor Level - The chancellor shall evaluate the files and make a decision to promote or not; and notify the candidate of the decision. The chancellor may promote qualified faculty members for whom promotion would be consistent with institutional need, mission, and resources. If the decision of the chancellor is to deny promotion, the faculty member shall retain current academic rank. Tenure, once granted, shall not be affected by a change in bipartite or tripartite workload responsibility.

Candidate Review - The candidate shall have an opportunity to review the recommendations made at each level and may submit comments regarding recommendations. Additional materials may be added to the file by the candidate only as an attachment to the candidate's response.

d. <u>Constitution and operation of the university-wide peer review committees</u>

All University-wide review committees should strive to have members that reflect the diversity of our faculty community.

(1) Tenure and promotion review committee composition
For the purpose of evaluation for tenure and/or promotion of faculty members, the Faculty Senate will present a list of the names of seven (7) tenured and at least (3) non-tenure track faculty unit members holding the rank of associate professor or professor to the provost who will select the committee. Each unit peer review committee may nominate one of its members to serve. The list will be determined from those nominees by vote of all faculty who serve on unit peer review committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No specific unit peer review committee can have more than one representative on the tenure and promotion review committee. A faculty member shall not serve as a member of the university-wide promotion and tenure committee in the year in which they are a candidate for promotion.

At least one, but not limited to one, member of the university wide committee will be a non-tenure track faculty member with a rank of associate professor or higher.

(2) 4th year review committee composition
For the purpose of 4th year comprehensive and diagnostic review of faculty members, the Faculty Senate will present a list of names of seven (7) tenured faculty members to the provost who will select the committee. Each unit peer review committee may nominate one of its members to serve. The list will be determined from those nominees by vote of all faculty who serve on unit peer review committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No specific unit peer review committee can have more than one representative on the 4th year review committee.

(3) Post-tenure review committee composition
For the purpose of post-tenure review of faculty members, the Faculty Senate will present a list of names of seven (7) tenured faculty members to the provost who will select the committee. Each unit peer review committee may nominate one of its members to serve. The list will be determined from those nominees by vote of all faculty who serve on unit peer review committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No specific unit peer review committee can have more than one representative on the post-tenure review committee. No more than one faculty member on the list can be a member of any specific peer review committee. A faculty member shall not serve as a member of the university-wide committee reviewing post-tenure files in the year in which

they are undergoing post-tenure review. During the years when the number of post tenure reviews needed are small, the provost may decide to conduct the post tenure reviews by the university-wide promotion and tenure review committee.

(4) Operating procedures for all university-wide peer reviews

The committee shall elect a chair from its membership. The committee shall establish operating rules and procedures in advance of review of any files and submit these to the Office of the Provost.

The chair of the unit peer review committee or their designee will present the file to the university-wide committee and shall participate in the discussion of the candidate's application.

A faculty member serving on a university-wide peer committee and the unit peer review committee may participate in the review of a unit peer faculty member's file at both levels of review, but they shall vote at only one level.

The university-wide peer review discussions shall be open unless a candidate requests the meeting be closed. The operating rules and procedures must not override the candidate's choice of open or closed discussions and the peer review letter discussion must only reflect the aforementioned information. The vote of the committees shall be closed to the public and the candidate. The vote of the committees and written substantive rationale that includes the majority recommendation and minority opinion, without individual attribution, shall be provided to the provost and the candidate.

6. Evaluation for Tenure.

Section 6 does not apply to non-tenure track faculty.

Tenure assures the academic community an environment that will nurture academic freedom by providing employment security. An appointment with tenure shall be an appointment to academic rank which shall not be affected by changes in such rank and shall be continued until resignation, retirement, or termination. The award of tenure normally guarantees continuing appointment for at least nine months per year, with allowance for exceptional cases as identified in Chapter I, 13 above. Any change in fraction of full-time appointment as a tenured faculty member must be by mutual consent of the university and the faculty member. The award of tenure does not exempt a faculty member from changes in policies and procedures approved for the university system or UAF in particular.

a. Locus of tenure. Faculty are tenured within a single academic unit of a university of the University of Alaska system. Faculty are tenured within a college-based or school-based discipline of the University of Alaska Fairbanks, (e.g. anthropology, biology and wildlife, business administration, music, etc.). Faculty members may transfer with tenure to another academic unit in the university or another university within the University of Alaska system only upon the mutual agreement of the faculty member, the chancellor, and the faculty of the receiving academic unit. For purposes of this document, "discipline" shall be defined as the traditional academic field and recent teaching and research record as demonstrated in workload agreements, annual activity reports, and evaluations.

b. Initial Appointment with Tenure. New faculty who are qualified for the rank of associate professor or professor and who meet the tenure standard may be appointed with the simultaneous award of tenure. However, the decision to award tenure upon initial appointment shall require the same process of review as required for award of tenure at other times.

c. Year of mandatory tenure review. A tenure-track faculty member must be reviewed for tenure in accordance with the following:

(1) After initial appointment to the rank of professor, the faculty member must be reviewed for tenure no later than the third consecutive year of service. Appointment to the rank of professor may continue beyond the fourth year only with tenure. Exception to the mandated time period for tenure review must be considered for time lost due to medical reasons and parental leave, in which case the mandated time period should be extended at the request of the faculty.

(2) After initial appointment to the rank of associate professor, the faculty member must be reviewed for tenure no later than the fourth consecutive year of service. Appointment to the rank of associate professor may continue beyond the fifth year only with tenure. Exception to the mandated time period for tenure review must be considered for time lost due to medical reasons and parental leave, in which case the mandated time period should be extended at the request of the faculty.

(3) Non-tenured tenure-track faculty undergoing review for promotion to the rank of associate professor shall also be reviewed concurrently for tenure. For tenure-track faculty, promotion to the rank of associate professor cannot be made without simultaneous award of tenure. Tenure shall not be granted at the assistant professor rank.

(4) All tenure track-faculty whose initial appointment was at the rank of assistant professor must be reviewed for tenure and concurrent promotion to

the rank of associate professor no later than the seventh consecutive year of service in this rank. Service in this rank may not continue beyond the eighth year. Exception to the mandated time period for tenure review must be considered for time lost due to medical reasons and parental leave, in which case the mandated time period should be extended at the request of the faculty.

d. Linkage of promotion/tenure for tenure-track faculty. An award of tenure is concurrent with promotion to associate professor. All tenure-track faculty at the rank of assistant professor applying for promotion to the associate professor level shall apply for tenure at the same time.

e. Review for tenure prior to the mandatory year. A faculty member may choose to stand for tenure during any year prior to the mandatory year of review. However, in this case, the faculty member must initiate the request and notify the dean of their intention to stand before the end of the academic year preceding the year of review.

f. Withdrawal of candidacy. A faculty member may withdraw the file from consideration at any step in the process prior to review by the chancellor, except in the cases where the tenure review is mandatory or the faculty member otherwise would have been required to undergo a 4th year comprehensive and diagnostic review. Withdrawal of candidacy during a mandatory review will result in the faculty member being issued a terminal contract for the following academic year.

A faculty member standing for tenure prior to the mandatory year of review may proceed through all steps in the process and may withdraw at any step in the process prior to review by the chancellor. If the file continues to the chancellor and if the decision of the chancellor is to deny tenure, the faculty member may continue to serve as a tenure track faculty member but may not stand again for tenure prior to the mandatory year of review. The decision of the chancellor in this instance is final.

g. Years of service.
A "year of service" for purposes of determining the time of mandatory tenure review shall be defined as service in a tenure track position for at least a full academic year.

Partial year of service - A partial year of service which includes at least one semester of faculty service (e.g., as in a mid-year appointment) may be credited as a full year of service for the purposes of eligibility for consideration for promotion and tenure. Such credit must be approved and so

specified in the initial letter of appointment. If used as a full year for promotion and/or tenure, it may also be used for sabbatical leave eligibility. The university administration will notify those eligible faculty members of this option at the time of initial appointment.

Leave of Absence - All consecutive years of service, including periods of leave of absence at full salary and sabbatical leave, shall be counted in the determination of the time of mandatory tenure review. Periods of medical leave at full salary shall be included unless exception is requested in writing by the faculty member and approved by the dean/director and the Provost at the time the leave is granted by Human Resources. Periods of leave of absence at partial or no salary and partial years of service shall also be included unless exception is requested by the faculty member and approved at the time the leave is granted by the chancellor or chancellor's designee. Periods of parental leave shall be excluded unless an exception is requested by the unit member. No more than two (2) academic years or two (2) alternative nine (9) month periods may be excepted from counting toward the mandatory year of tenure review.

Regardless of inclusion in the computation of total years, leave of absence shall not be deemed an interruption of otherwise consecutive service. Years of service preceding a break in consecutive years of university employment may be counted only upon agreement between the unit member and the chancellor or chancellor's designee at the time of re-employment, and must be so specified in the re-employment's initial letter of appointment.

h. Tenure decision. Following the recommendations of the faculty and the procedures outlined above the chancellor may award tenure and will notify the faculty member of the decision.

i. Failure to receive tenure. A tenure-track faculty member must stand for tenure no later than the mandatory review year as defined above. If tenure is not awarded or the faculty member withdraws from candidacy in the mandatory year of review, the faculty member shall be offered a terminal appointment for one additional year, or alternative nine month period, of service.

j. Exclusive process for reconsideration. A faculty member who is denied tenure and/or promotion may request reconsideration in accordance with the dispute resolution process identified in the extant collective bargaining agreement applicable to the faculty member. A faculty member must stand for tenure no later than the mandatory review year as defined above.

k. Rejection of tenure. A faculty member who is offered tenure by the university pursuant to this policy but who declines to accept it may continue to be employed in a manner to be determined by the chancellor.

7. Evaluation for Promotion

A record of continuing effective performance shall be expected. Procedures, performance criteria and requirements are set forth herein, and in policies of the Board of Regents and the regulations of the university system currently in effect and as they may change. Performance shall be evaluated on the basis of the criteria identified in this document and in unit criteria with particular attention to achievements since the latest promotion, and in consideration of the level of obligation in the appropriate areas of faculty responsibility. All faculty members with academic rank shall be expected to demonstrate performance in the areas of responsibility outlined in their workloads, which may include different proportions of a total of thirty (30) workload units per academic year in teaching, research/scholarly/creative activity, and service for promotion to:

Assistant Professor. The faculty member shall demonstrate that they have satisfied the minimum qualification as well as the minimum experience as appropriate to the discipline and described in unit criteria for initial appointment.

Associate Professor. The faculty member shall present a record of sustained performance and achievement in their assigned workload areas of activity, which reflects high quality in teaching, research/scholarly/creative activity, and service, as appropriate. The level of productivity in each criterion area shall be evaluated within the context of the faculty member's proportionate responsibility as identified in annual workload distribution agreements. Non-tenure track faculty may be assigned activity in two or three of the workload areas (teaching, research/scholarly/creative activity, and service). Every faculty member should be evaluated based on their workload assignment.

The total contribution of the faculty member shall be assessed and considered along with evidence in support of substantial potential for continued contributions of excellence. A promotion/tenure peer review committee (unit or university-wide) shall recommend promotion to the rank of associate professor and the award of tenure only if a majority of the committee rates the faculty member's assigned workload areas of activity as "good," "very good," or "excellent" (ratings, in order of improved performance, being "unsatisfactory", "satisfactory," "good," "very good," and "excellent").

Professor. Those faculty awarded the rank of professor at the university shall exemplify the attainment of performance and achievement consistent with a high standard of excellence.

The faculty member shall present a record of continuing sustained excellence. It should demonstrate that the candidate is recognized for contributions to knowledge in the discipline; is recognized by peers and students as an effective teacher; and contributes to the overall effort and reputation of the university through appropriate extension of knowledge and discipline-related service, within the context of the faculty member's proportionate responsibility as identified in annual workload distribution agreements. A promotion/tenure peer review committee (unit or university-wide) shall recommend promotion to the rank of professor only if a majority of the committee rates the faculty member's assigned workload areas of activity as "very good" or "excellent" (ratings, in order of improved performance, being "unsatisfactory", "satisfactory," "good," "very good," and "excellent"). Non-tenure track faculty may be assigned activity in two or three of the workload areas (teaching, research/scholarly/creative activity, and service). Every faculty member should be evaluated based on their workload assignments.

8. Evaluation Process for Administrative Non-Represented Faculty

Non-represented administrative faculty members must present a record of work in two or more of the workload areas (teaching, research, and service) which demonstrates performance of continuing high quality.

a. Eligibility. Non-represented administrative faculty must retain at least 49% faculty workload to be eligible for promotion. Non-represented administrative faculty are not eligible to stand for promotion if the administrative assignment equals more than 51% of the faculty member's workload.

b. Criteria for evaluation. Only the faculty portion of the workload shall be evaluated; the administrative assignment shall not be considered in the evaluation. The general criteria for evaluation of performance are those set forth below as well as any applicable unit criteria.

c. Notification. Non-represented administrative faculty shall follow the schedule as announced by the provost that is associated with their previous peer unit. Each eligible faculty member intending to stand for promotion shall inform the appropriate dean or director in writing by the last day of the academic year immediately preceding the fall semester in which the applicant's file is submitted of the intention to request promotion. It shall be the responsibility of the faculty member to prepare a file of materials according to the guidelines for preparation of files as put forth by the provost documenting how they have met the criteria for promotion to the requested rank.

d. Process See 5 above.

e. Workload. A non-represented administrative faculty member who maintains a workload of at least 49% faculty duties should evaluate their performance record to determine if the minimum expectations set forth in this document have been met.

f. Levels of review. The levels of review for non-represented administrative faculty will be the same as those associated with the faculty member's previous peer unit. Non-represented administrative faculty members shall annually submit an Annual Activity Report and a current CV to their dean/director or campus director or their appropriate supervisor. All levels of review will be given instructions on how to review the file. Only work that results from faculty duties is to be evaluated, and that work is to be evaluated relative to the portion of appointment/workload dedicated to faculty duties. This portion of appointment must not be less than 49%. Faculty at 49% appointment will be evaluated relative to half-time faculty.

(1) Peer review. The unit peer committee process for non-represented administrative faculty shall be the same as that described for regular academic rank faculty, except as otherwise noted herein. The peer review committee for non-represented administrative faculty standing for promotion will be appointed by a dean or director from a unit other than that of the candidate. This dean or director will be selected by the provost. At least one committee member must be from the candidate's unit; if conflicts of interest cannot be avoided in this appointment, then the appointed member will not vote and will participate only in an advisory capacity. The peer committee will not include individuals who are supervised by the candidate, except as described above. Members of the unit peer committee must not have any other type of conflict of interest. To the extent possible, the peer committee should represent the candidate's discipline and faculty work.

(2) University-wide committee review. The university-wide committee process for non-represented administrative faculty shall be the same as that described for regular academic rank faculty, except as otherwise noted herein. The university-wide committee convened to review promotion of represented faculty candidates will also review non-represented administrative faculty candidates. The Faculty Senate and the provost will take this into account when selecting members for the university-wide committee.

g. Exclusive process for reconsideration. See 6i above.

h. Termination of Administrative Appointment

Administrative appointments are given at the sole discretion of the University and are governed by the terms set out in the appointment letter.

9. Evaluation Process for Emeritus/Emerita Status

a. Eligibility. A full-time faculty member who has already attained the rank of full professor and who has retired after a minimum of ten years at the University of Alaska may be honored through appointment as professor emeritus/a within a year of retirement.

In exceptional circumstances, the chancellor may confer emeritus/a status on other meritorious faculty members who have provided a minimum of ten years of faithful service of high quality to the institution. Recommendations will proceed along the appropriate administrative channels to the chancellor.

b. Criteria for evaluation. Nominations are to be evaluated on the basis of the criteria for promotion to the rank of full professor with the added caveat that the position of professor emeritus/a is the highest honor that is bestowed upon a retiring faculty member.

c. Notification. The provost shall announce the deadline for submitting nominations for emeritus/a status and the schedule for the nomination review process.

d. Process. Nominations for conferring emeritus/a status may originate with the appropriate dean in consultation with the faculty, with the unit peer faculty or upon the request of the retiring faculty member. The nomination shall be reviewed and approved by the appropriate unit peer review committee and the dean/director or designee of the unit. Recommendations are forwarded to the campus-wide promotion and tenure committee. The committee's recommendations will be made to the provost, who will then forward the recommendation to the chancellor.

e. Decision. Following the recommendations of the faculty, the dean/director or designee, and the provost, the chancellor may award emeritus/a status to eligible faculty. The chancellor's decision is final and non-reviewable.

D. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the

particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, and curriculum development.

1. Effectiveness in Teaching
   Evidence of effectiveness in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;
   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;
   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are supportive of student diversity;
   d. emphasize regular feedback to students and reward student learning success;
   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery, instructional design, and materials;
   g. regularly expend effort towards future oriented educational development;
   h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, academic advising, training/guiding graduate students, etc., provided by:

   a. evidence in the narrative self-evaluation, which may include their underlying philosophy of teaching as it relates to effectiveness in teaching;
   b. summaries of teaching evaluations;

   and at least two of the following that are supported with evidence that is not solely in the narrative self-evaluation:

   - peer classroom observation(s) and evaluation of lecture(s),
   - peer evaluation of course and compiled materials,
   - pedagogical organization as evidenced through peer evaluation of course syllabi,

- documented use of best practices in teaching through external or peer review,
- evidence of meeting course-level student learning outcomes, which may include student pre/post tests,
- evidence of pedagogical training with peer or external reviewed and documented outcomes as implemented in the classroom

Individual units may choose to require particular items from this list through their unit criteria.

E. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by faculty peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have **one or more** of the following characteristics:

   a. They must occur in a public forum.
   b. They must be evaluated by appropriate peers.
   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, research data and metadata, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.
   b. Competitive grants and contracts to finance the development of ideas or projects and programs, these grants and contracts being subject to rigorous peer review and approval.
   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.
f. Scholarly reviews of publications, art works and performance of the candidate.
g. Citations of research in scholarly publications.
h. Published abstracts of research papers.
i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.
j. Prizes and awards for excellence of scholarship.
k. Awards of special fellowships for research, scholarly or creative activities or selection of tours of duty at special institutes for advanced study.
l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.
m. Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.
n. The provision of expertise, service, performance and/or exhibition, to or with rural and/or Native communities; where such expertise/service/performance/exhibition is documented in books, programs, reviews, monographs, bulletins, articles, proceedings, reports, manuals, needs assessments, program evaluations, strategic plans, proposals, legal research memoranda and tribal judicial opinions, annotated bibliographies, translations, transcriptions, audio recordings, video recordings, websites, data collections, and in professional, industry, or government publications; after review and evaluation by appropriate peers from the entities and/or communities served.

Individual units may choose to require particular items from this list through their unit criteria.

F. Criteria for Public, University and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria for evaluation, promotion, and tenure,

individual units should include examples of service activities and measures for evaluation appropriate for that unit. Effectiveness in public, university and professional service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, media presence and other public means of recognition for services rendered.

1. Public Service

   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.
   b. Service on or to government or public committees.
   c. Service on accrediting bodies.
   d. Active participation in professional organizations.
   e. Active participation in discipline-oriented service organizations.
   f. Consulting.
   g. Prizes and awards for excellence in public service.
   h. Leadership of or presentations at workshops, conferences, or public meetings.
   i. Training and facilitating.
   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
   l. Active engagement in public communication of discipline-based knowledge, defined as using the research methods, theories, and analytical frameworks of the discipline to make discipline-based research and analysis accessible and useful to the lay public. Public service in this area includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained discipline-based presence on social media.

2. University Service
   University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

   a. Service on university, college, school, institute, or departmental committees or governing bodies.
   b. Consultative work in support of university functions, such as expert assistance for specific projects.
   c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
   d. Participation in accreditation reviews.
   e. Service on collective bargaining unit committees, elected office, representative assembly membership and labor management committees.
   f. Service in support of student organizations and activities.
   g. Academic support services such as library and museum programs.
   h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
   i. Mentoring.
   j. Prizes and awards for excellence in university service.
   k. Invoicing, transferring and securing of funds for the University for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. Professional Service
   Professional service includes activities related to promoting a faculty member's profession or specialization, including service to professional associations and organizations. Examples of such activity include, but are not limited to:

   a. Editing or refereeing articles or proposals for professional journals or organizations.
   b. Active participation in professional organizations.
   c. Active participation in discipline-oriented service organizations.
   d. Committee chair or officer of professional organizations.
   e. Organizer, session organizer, or moderator for professional meetings.
   f. Service on a national or international review panel or committee.

G. Unit Criteria

Unit criteria are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in D, E, F, above for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review. Discipline based unit criteria should be fully

aligned with the university-wide evaluation criteria in order to reflect the specific nature of individual disciplines.

Unit criteria may be developed by those units wishing to do so, utilizing the uniform template on the provost's web site. Units that choose not to develop discipline-specific unit criteria must file a statement stating so with the Office of the Provost, which shall serve as the official repository for approved unit criteria.

A unit choosing to develop discipline-specific criteria shall have such criteria approved by a majority of the discipline faculty. The unit criteria will be forwarded to the Faculty Senate Unit Criteria Committee by the cognizant dean. The Unit Criteria committee will review these criteria and request revisions from the department as appropriate. After Unit Criteria has completed its review of the criteria, they will be forwarded to the Faculty Senate for full review and approval. A copy of the unit's criteria as approved by the Faculty Senate will be submitted to the provost.

Unit criteria will be reviewed at least every five (5) years by the faculty of the unit. When reorganization results in a unit's placement in another college/school structure, the cognizant dean will request the unit faculty to review the unit criteria and revise it, if warranted. Unit criteria approved by the Faculty Senate prior to a unit's reorganization shall remain in effect until reviewed and revised. Revision of unit criteria must follow the review process established by the Faculty Senate. If the unit criteria are not revised, a statement of reaffirmation of the current unit criteria must be filed with the Office of the Provost, following the review.

Unit criteria when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review, and post-tenure review to include these approved unit criteria and all their workloads in the application file.

Chapter IV: Termination of Faculty Appointment

Termination is the severance of the employment relationship between a faculty member and the university. Faculty may be terminated under any of the following conditions:

A. Non-Retention of Tenure Track Faculty

Non-retention follows a decision not to continue the employment of a tenure track faculty member.

1. Prior to standing for tenure review, and at the conclusion of the annual review process set forth in Chapter III above, the dean, director or designee may elect to non-retain or non-renew the appointment of a regular, academic rank faculty member.

2. Exclusive Process for Reconsideration
   A faculty member who is not retained may request reconsideration according to the dispute resolution process identified in the extant collective bargaining agreement.

3. The chancellor or the chancellor's designee shall provide written notification of non-retention to the faculty member, according to the following schedule of notification. The schedule of notification shall be based upon consecutive years of uninterrupted service as a tenure track faculty member within the university.

   a. Within the first year, regardless of contract extensions, the faculty member shall be notified no later than February 15 for appointments based on the academic year, or three (3) months prior to the end of the base appointment for appointments based on an alternative nine (9) month period.
   b. Within the second year, regardless of contract extensions, the faculty member shall be notified no later than November 15, for appointments based on the academic year, or six (6) months prior to the end of the base appointment for appointments based on an alternative (9) month period.
   c. After two (2) or more years, the faculty member shall be notified not less than twelve (12) months prior to the expiration of the final appointment.

B. Non-Renewal of Non-Tenure Track Faculty

1. Non-renewal follows a decision not to continue the employment of a non-tenure track faculty member.

2. Exclusive Process for Reconsideration

In as much as non-tenure track appointments are subject to available funds, a faculty member may appeal a decision which results in non-renewal of services only as allowed by the extant collective bargaining agreement.

3. Written notification of non-renewal shall be provided to the faculty member by the hiring authority. Failure to provide notice as provided below shall not result in renewal of appointment. The following schedule of notification shall be based upon consecutive years of uninterrupted service as a non-tenure track faculty member within the university.

    a. Within the first two (2) years, regardless of contract extensions, the faculty member shall be notified no later than seven days prior to the expiration of the appointment.
    b. From the third (3rd) through the sixth (6th) years, regardless of contract extensions, the faculty member shall be notified not less than 45 days prior to the expiration of the appointment.
    c. After seven (7) years, the faculty member shall be notified not less than 90 days prior to the expiration of the appointment.

C. End of Special Academic Rank Appointment

Special academic rank faculty appointments shall end on the date specified in the letter of appointment and no additional notification is required. Instructors appointed to two- or three-year term appointments shall receive notice at least one semester in advance of the end of the appointment period of the university's intention not to renew the appointment. If a term appointment is to be terminated before the date specified in the letter of appointment, the faculty member shall be notified according to the schedule of notification above.

D. Failure to Receive Tenure

Following a decision to not award tenure in the mandatory year for tenure review, the faculty member will receive written notice no less than twelve months prior to the end of the academic year of final appointment.

E. Termination of Employment of Faculty

1. Termination

    Any program change that could result in the loss of a position held by a tenured faculty member must be approved by the Faculty Senate in accordance with the program review procedures identified in UA Regulation 10.06.01 and UAF procedures. Employment of faculty may be terminated for the following reasons:

    a. Discontinuance of program. When a decision is made to discontinue a program (following program review as specified in UA Regulation 10.06.01), a good faith

effort shall be made to place tenured faculty in another program at the university where appropriate.

The chancellor or the chancellor's designee shall notify tenure track or tenured faculty members of the decision to terminate employment in writing on the following schedule based upon consecutive years of uninterrupted service within the university.

- Within the first (1st) year, regardless of contract extensions, the faculty member shall be notified no later than February 15, for appointments based on the academic year, or three (3) months prior to the end of an appointment, for appointments based on an alternative nine (9) month base.
- Within the second (2nd) year, regardless of contract extensions, the faculty member shall be notified no later than November 15, for appointments based on the academic year, or six (6) months prior to the end of the base appointment for appointments based on an alternative nine (9) month period.
- After two (2) or more years of uninterrupted service, the faculty member shall be notified twelve (12) months prior to the expiration of the final appointment.

For non-tenure track faculty members associated with a program, the chancellor or chancellor's designee shall notify of the decision to terminate employment in writing on the following schedule based upon consecutive years of uninterrupted service within the university.

- Within the first two (2) years, regardless of contract extensions, the faculty member shall be notified no later than seven (7) days prior to the expiration of the appointment.
- From the third (3rd) through the sixth (6th) years, regardless of contract extensions, the faculty member shall be notified not less than forty-five (45) days prior to the expiration of the appointment.
- After seven (7) years, the faculty member shall be notified not less than ninety (90) days prior to the expiration of the appointment.

Failure to provide notice as provided above shall not result in renewal of appointment.

If the discontinued program is reactivated within two years, previously tenured and qualified faculty shall be invited to return prior to hiring new full-time faculty. Faculty invited to return to previously discontinued programs shall be provided at least 30 days from the mailing of the invitation to notify the University of the decision to decline or accept. If no response is received within thirty days, the invitation shall be assumed to have been declined. Faculty who wish to receive such

invitations shall be responsible for maintaining a current mailing address with the university.

b. Reduction in program. When a decision is made to reduce a program (following program review as specified in UA Regulation 10.06.01) a good faith effort shall be made to retain tenured faculty qualified in the discipline in preference to non-tenured faculty; to place tenured faculty in another program at the university where appropriate; or to compose a workload for qualified faculty members from activities assigned to part-time faculty in the program.

Opportunities for continued employment in a reduced program, or transfer to another program, shall be offered to unit members qualified in the discipline in the following order: tenured faculty; non-tenured tenure-track faculty; non-tenure track faculty with full-time appointments; non-tenure track faculty with less than full-time appointments; overload or other additional assignments, only to the extent of the additional assignment.

Faculty members not provided opportunities for continued employment according to the terms of this section and the extant collective bargaining agreement applicable to the faculty member shall be terminated. The chancellor or the chancellor's designee shall notify tenure track or tenured faculty members of the decision to terminate employment in writing on the following schedule based upon consecutive years of uninterrupted service within the university.

- Within the first (1st) year, regardless of contract extensions, the faculty member shall be notified no later than February 15 for appointments based on the academic year, or three (3) months prior to the end of the base appointment for appointments based on an alternative nine (9) month period.
- Within the second (2nd) year, regardless of contract extensions, the faculty member shall be notified no later than November 15, for appointments based on the academic year, or six (6) months prior to the end of the base appointment for appointments based on an alternative nine (9) month period.
- After two (2) or more years of uninterrupted service, the faculty member shall be notified twelve (12) months prior to the expiration of the final appointment.

The chancellor or the chancellor's designee shall notify non-tenure track faculty members of the decision to terminate employment in writing on the following schedule based upon consecutive years of uninterrupted service within the university.

- Within the first two (2) years, regardless of contract extensions, the faculty member shall be notified no later than seven (7) days prior to the expiration of the appointment.

- From the third (3rd) through sixth (6th) years, regardless of contract extensions, the faculty member shall be notified not less than forty-five (45) days prior to the expiration of the appointment.
- After seven (7) years, the faculty member shall be notified not less than ninety (90) days prior to the expiration of the appointment.

Failure to provide notice as provided above for non-tenure track faculty shall not result in renewal of appointment.

In the event a program is expanded within two years after reduction, previously tenured faculty members shall be invited to return to the program, in the order provided in this section above, prior to hiring new full-time faculty. The faculty member must notify the University of the decision to decline or accept within thirty (30) days of receipt of this invitation. Faculty who wish to receive such invitations shall be responsible for maintaining a current mailing address with the university.

c. Financial exigency. Following a declaration of financial exigency (as described in BOR Policy 04.09.06 and related university system regulations), faculty members are entitled to a minimum of sixty calendar days' notice in advance of the cessation of their employment.

d. Just cause. Any faculty member may be dismissed for just cause. Just cause shall include, but not be limited to: incompetence, neglect of duty, failure to perform assignment, unprofessional conduct, or other conduct or condition that interferes substantially with the continued performance of duties. Faculty members may be suspended immediately while proceedings are in progress for dismissal for just cause if their continued presence poses the threat of harm to themselves, others, or to the interests of the university, as determined by the university. Just cause terminations shall be conducted in accordance with the dispute resolution and disciplinary action processes identified in the extant collective bargaining agreement.

F. Exclusive Process for Reconsideration for Termination of Tenured Faculty

Tenured faculty who receive a written notification of termination may request reconsideration according to the dispute resolution process identified in the extant collective bargaining agreement.

G. Retirement

Retirement eligibility is determined by the retirement system selected by the faculty member. Faculty members intending to retire from employment with the university shall notify their dean, director or designee with a signed written resignation stating the effective date, as soon as possible prior to the anticipated retirement date.

H. Resignation

A faculty member intending to resign from employment with the university shall submit a written resignation to the dean, director or designee and state the effective date. Faculty are expected to provide adequate notice to allow for their orderly replacement as specified in the extant bargaining agreement. Faculty members may properly request a waiver of this requirement of notice in case of hardship or in a situation where they would otherwise be denied substantial professional advancement or other opportunity.

Chapter V: Sabbatical Leave

A. Sabbatical Leave

1. Policy
   Sabbatical leaves for professional development may be made available to faculty members with academic rank who meet the requirements set forth below. The objective of such leave is to increase the faculty member's value to the university and thereby improve and enrich its programs.

2. Purpose
   Sabbatical leaves at the university shall be granted for study, formal education, research and other scholarly and creative activity or other experiences of professional value and may include associated travel.

   Sabbatical leave should be granted for personal and professional growth of a faculty member. Sabbatical leave shall be granted only when it is shown that the applicant is capable of using the time in a manner that shall increase the faculty member's value to the university.

3. Eligibility
   Tenured or tenure track faculty members who shall have completed at least five (5) consecutive years of service at the university shall be eligible for consideration to take sabbatical leave during the sixth (6th) or subsequent year of service. Applicants who shall have completed at least five (5) consecutive years of service at the university from the date of return from any previous sabbatical leave shall be eligible to be granted another sabbatical leave to be taken during the sixth (6th) or subsequent year.

   In computing consecutive years of service for the purpose of eligibility, periods of time off and periods of sick leave with salary shall be included. If requested in writing at the time of appointment, a partial year of service that includes at least one (1) semester of full-time faculty member service may be approved by the chancellor, or chancellor's designee, as a full year of service and counted toward eligibility for sabbatical leave. Periods of leave of absence (other than time off and sick leave with salary) and periods of part-time service shall not be included, but shall not be deemed an interruption of otherwise consecutive service.

4. Terms and Conditions
   Sabbatical leaves shall be granted only for periods of one (1) academic year at the rate of six (6) months' salary or one semester at the rate of one semester's salary. A sabbatical proposal that extends beyond the academic year may be approved, but no

additional compensation will be paid. Faculty members may, with the prior approval of the chancellor or chancellor's designee, accept fellowships, grants-in-aid, or earned income to assist in accomplishing the purposes of their sabbatical leaves. In such cases, the chancellor or chancellor's designee may adjust the sabbatical leave salaries to reflect such income provided that total earnings for the leave period are not less than full salary had the recipient not been on leave. A faculty member on a terminal appointment loses any rights to a sabbatical leave.

5. Application Process
   Applications for sabbatical leave shall define the purpose of the leave requested. Each application shall include (1) a sabbatical leave application form, (2) a complete description of the proposed leave project, activities and travel plan, (3) documentation indicating arrangements with cooperating institutions, and (4) a current curriculum vitae. The application should also indicate any prospective income from outside the university.

   The process, timelines and application forms can be found on the provost's webpage at http://www.uaf.edu/provost/sabbatical-leave/.

6. Approval
   Consistent with provisions of this chapter, the chancellor or chancellor's designee may approve such sabbatical leave as are deemed appropriate, considering the merits of the applications and the needs of the institution.

7. Obligation to Return
   The recipient is obligated to return to the university for further service of at least one appointment period based on the prevalent appointment period for their unit. Failure of the recipient to fulfill this obligation shall require the full and immediate repayment of salary and benefits received from the university while on leave, except in extenuating circumstances acceptable to the chancellor or chancellor's designee.

8. Reporting
   A written report detailing the professional activities and accomplishments for which the leave was granted and specifying the sources and amounts of additional funds secured for this period shall be submitted by the recipient to the chancellor or chancellor's designee within three months after returning from leave. A sabbatical leave report form can be found on the provost's website at http://www.uaf.edu/provost/sabbatical-leave/.

9. Leave Credits
   Faculty Time Off and Sick Leave credits shall not be accrued or used during sabbatical leave.

Motion 2020-10

Requirements for new ethics courses

brought by the GERC Committee

MOTION:

The Faculty Senate moves to codify the current practices for approving proposed new courses to meet the ethics degree requirement. This policy would replace the policy passed by Faculty Senate at its meeting on December 2, 2019.

RATIONALE:

The GER Committee's current practices for reviewing new ethics courses, significant changes to existing ethics courses, and/or when evaluating transfer courses has not been well codified. There needs to be a written policy so that departments know the requirements when they wish to propose new courses.

EFFECTIVE:

Immediately upon Chancellor approval.

Motion 2020-10

Ethics Designation Rubric

I. Explanation

A. The following rubric will be used to evaluate course proposals to fulfill the Ethics baccalaureate degree requirement and will be effective immediately. The syllabus and supporting documentation must demonstrate clear evidence of the way in which the course will meet the criteria of the rubric. In evaluating a course using the rubric, consider whether the syllabus demonstrates a significant (50% or more) focus on theoretical frameworks (i.e. the ideas, principles, and concepts of past and present experts) in the field of Ethics, and a critical understanding and evaluation of those frameworks. In addition, the course description and course objectives should reflect the importance of developing in students the necessary skills to critically evaluate the quality of the answers given by a moral theory, as well as the moral theory itself.

B. To fulfill the Ethics baccalaureate degree requirement, the proposed course must score a minimum of seven points on the rubric.

C. In addition, in order to maintain consistency within the UA system, courses in fulfillment of this requirement at UAF must be offered at the 300-level and have as a prerequisite junior-level standing. For transfer students who are petitioning a course below the 300-level in fulfillment of this requirement, the GERC committee will make a decision on a case-by-case basis using the rubric.

D. Inasmuch as the language in this document was not in place when the courses that currently meet the Ethics requirement were developed, the following courses are grandfathered into this designation: BA F323X, COJO F300X, JUST F300X, NRM F303X, PHIL F322X, PS F300X. In recognition of the importance of developing in UAF students the skills needed to confront the many challenging moral situations they will face in their personal and professional lives, courses in this list that do not currently meet the rubric are thus encouraged to bring their courses into alignment with the requirements given in this document.

II. Description

Ethics is a discipline within Philosophy that studies the moral difference between right and wrong through various theoretical frameworks. The University of Alaska Fairbanks recognizes the essential need of students to learn these frameworks in order to be able to navigate the complex ethical theater of modern, professional life. If students do not understand and assimilate these ethical theoretical frameworks, then they will lack the necessary navigational skills to recognize complex ethical situations, and calculate the moral course of action. This need is only made more dire when one realizes that ethical problems are generated continuously (e.g. cloning, modern warfare, social media, etc.). For this reason, UAF has adopted an Ethics degree requirement for all baccalaureate students.

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

Thus, courses that satisfy the Ethics baccalaureate degree requirement present a rigorous and extensive study of the prominent theories that underlie ethical decision-making. In these classes, moral issues and dilemmas play the secondary role of promoting critical understanding of these theories. It is important therefore to understand and preserve the difference between an *ethical theory* class, and an *applied ethics* class: the second requires the first, but can not stand in its stead. Important themes should include, but not be limited to, justice, responsibility, the good life, types of value, the greatest good, virtue, and duty. Given the nature of the requirement, courses are expected to spend a majority of their time on explaining and evaluating the theories that underlie moral decision-making. Courses should focus on familiarizing students with the fundamental components required for clear, creative, and thoughtful moral evaluation and theory-backed judgment (e.g. intrinsic v. instrumental value, descriptivism v. prescriptivism, subjectification v. dehumanization; positive v. negative action, etc). The study of ethical frameworks must include metaethics, as well as the normative theories of consequentialism, deontology, and virtue ethics, and other relevant theories as well. The objective of the requirement is to help students develop a systematic, theory-based approach to novel and complex moral issues in their personal, professional, and political communities, so that they can become active and responsible citizens.

As a supplement to those courses that satisfy the Ethics baccalaureate degree requirement, individual colleges, departments, and programs are encouraged to develop a discipline-specific *applied* ethics course, so that students in their discipline have an opportunity to put into practice the skills that they learn in their *ethical theory* course—doing so will help students hone their moral reasoning abilities through an overview of some salient moral dilemmas in their fields. Such courses would be in addition to, but not in fulfillment of, the Ethics baccalaureate degree requirement.

III. Rubric

Criteria	Meets (2)	Approaches (1)	Does not meet (0)
Knowledge: Explain how the course facilitates students' acquisition of knowledge of ethical terminology, theories, and decision-making processes.	The course requires students to learn ethical terminology, theories, and decision-making processes, and connects that knowledge to ideas in other areas of human inquiry and activity.	The course requires students to learn ethical terminology, theories, or decision-making processes.	The course requires students to apply ethical theories and terminology to specific cases.
Analysis: Explain how the course requires students to use formal logic, analysis, and critical thinking to evaluate ethical theories and ethical decision-making.	The course uses rigorous logical and evidence-based standards to examine the material, and requires students to examine and defend their positions this way.	The course requires students to make connections between claims and asks them to engage in evaluative tasks with regard to the material and assignments.	The course does not require students to engage with the material in a critical manner.
Application: Explain how the course develops students' practical skill of taking a theory-driven approach to new and challenging ethical issues and situations.	The course requires students to critically reflect on the way in which different ethical theories handle novel and challenging cases and situations, in order to develop their practical moral reasoning abilities.	The course requires students to apply ethical theories to familiar and/or non-complex cases and situations.	The course does not require students to apply ethical theories to specific cases and situations.
Communication: Explain how the course enhances students' capacity for communication of their own moral reasoning, as well as develops a better understanding of the moral reasoning of others.	The course fosters discussion between students concerning the arguments in support of their moral judgements, using the discussions to critically examine and evaluate the quality of those moral reasons.	The course requires students to provide arguments in favor of the conclusions of their moral decision-making processes.	The course does not require students to communicate or discuss their moral reasoning.

Motion #2020—05

The following motion passed at Faculty Senate meeting #245 on February 3, 2020:

MOTION:

The UAF Faculty Senate moves to revise the policy some graduate students to walk at commencement without completing 100% of their graduation requirements.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: To ensure that master's and Ph.D. candidates who "walk through" have completed their degree requirements. This commencement walk through policy supersedes all previous policies as they pertain to graduate students.

CAPS - Addition
[[ ]] - Deletion

GRADUATE SCHOOL COMMENCEMENT POLICY

[[To meet the definition of having "essentially completed all degree requirements" (current policy) to "walk through" graduation ceremonies, a student must have met the following requirements:

a. successfully completed all required tests, coursework, and thesis/project defense by the Monday preceding commencement; and

b. submitted to the graduate school by the date set for filing a thesis/dissertation in spring semester, the request for commencement walk-through form signed by the student, the major advisor, all committee members, department head and dean, agreeing that any required revisions to the project/thesis/dissertation can be completed by August 1 of the same year. For a thesis/dissertation, the student must submit the final copy to the graduate school by August 1 of the same year to be eligible for summer graduation. If the student is a Ph.D. candidate, the major advisor or designated committee member must also agree to participate in the graduation ceremonies; and

c. for Ph.D. candidates filed a ≦ 50 word abstract of the dissertation research along with the signed request for commencement walk-through form.

Note: Individuals who "walk through" graduation ceremonies will not be listed in the graduation program. these students' names, and if Ph.D. recipients, descriptions of dissertation research, will appear in the program of the academic year in which the degree is formally granted.]]

ANY MASTER'S AND Ph.D. CANDIDATES WHO HAVE NOT COMPLETED ALL ASPECTS OF THEIR DEGREE PROGRAM, BY THE SPRING DEADLINE, WITH THE EXCEPTION OF THE POSTING OF FINAL GRADES FOR THE SPRING SEMESTER, ARE NOT ELIGIBLE TO PARTICIPATE IN THE CURRENT YEAR'S COMMENCEMENT CEREMONY. CANDIDATES WILL RECEIVE INFORMATION TO PARTICIPATE IN THE NEXT YEAR'S CEREMONY.

Motion #2020—06

The following motion passed at Faculty Senate meeting #245 on February 3, 2020:

MOTION:

The UAF Faculty Senate moves to revise the policy that allows some undergraduate students to walk at commencement without having completed 100% of their degree requirements.

Effective: Spring 2020

RATIONALE: The following reasons support the revision of the "walk" policy:

1. The existing policy for undergraduates was last updated in 1994 (Faculty Senate Meeting #47). The thrust of the policy written at that time was to put limitations on who should be allowed to walk. Only those students who were already registered in all remaining requirements (during summer and fall) at the time of the spring commencement would be approved to walk. There was also a requirement that the student "apply to graduate" in the spring, even though their requirements would not be finished until summer or fall.
2. There is more interest now in being more flexible with students and their families. If a student has a plan to graduate within the summer or fall semester, we would like for them to have the opportunity to walk in the spring commencement if that is their choice.
3. We are not interested in "policing" why a student did not previously complete requirements (whereas the prior policy listed "valid" and "not acceptable" reasons). These are not objectively measurable and only serve to confuse the process.
4. We propose to make this policy effective for students earning undergraduate certificates and degrees.

Motion #2020—06

******PROPOSED LANGUAGE FOR POLICY TO BE PUBLISHED ON GRADUATION WEBSITE AND/OR IN THE CATALOG******

Normally, students participating in the annual commencement ceremony shall have satisfactorily completed all degree requirements in the immediately preceding summer, fall or spring semesters.

However, a student who has not yet completed all degree requirements may be allowed to "walk through" the ceremony with approval of their advisor. The process is as follows:

1. The student must submit a "Request to Walk Through Commencement" form on the Registrar/Graduation Services website by the late application deadline for graduation (March 15).
2. The form will ask both the student and the advisor to certify that the student will complete all degree requirements in the summer or fall term immediately following commencement.
3. The student must submit an application for graduation for the term in which they will actually earn their degree.
4. The student will not receive a degree audit for the term in which they're walking. They will receive an audit for the term in which they apply to graduate.
5. The student's name will appear in the commencement book as long as they have filled out a request to walk and their advisor has approved it.

ORIGINAL

Motion #2020–08

The following motion passed at Faculty Senate meeting #245 on February 3, 2020:

MOTION:

The Curriculum Review Committee (CRC) and Student Academic Development & Achievement (SADA) Committee move to update the Faculty Senate Bylaws in regard to the member composition on their respective committees.

EFFECTIVE: Immediately

RATIONALE:

In Fall 2019 Faculty Senate passed two motions to amend the curriculum review process. Based on these actions, SADA no longer reviews curriculum, and CRC will now review all undergraduate curriculum including student success courses and GER courses. The GERC, SADA, and CRC committees have all updated and approved their own bylaw changes to reflect these actions and are bringing the changes to Faculty Senate for final approval. CRC will gain 4 additional members to provide input on student success and GER curriculum. The additional members on CRC will be 2 representatives from GERC and 2 representatives from SADA.

Motion #2020—08

BYLAWS of the UNIVERSITY OF ALASKA FAIRBANKS FACULTY SENATE

Sect. 1 (ART III: Membership)

A. The membership of the Faculty Senate, hereinafter referred to as "Senate," shall consist of approximately 41 members plus one non-voting presiding officer. Approximately 35 members shall be elected by and from the faculty and will have voting privileges. Four non-voting members will be selected by and from other university constituencies as follows: one student selected by the ASUAF; one dean or director selected by the Provost; one staff representative from the registrar's office; and one additional staff member selected by the Staff Council. Three additional non-voting members will be selected by and from the faculty unions as follows: one elected official each from United Academics-AAUP/AFT, UAFT, and Adjuncts (United Academics)-AAUP/AFT. The Past President of the UAF Faculty Senate shall serve as an ex-officio, non-voting member and shall not be eligible to serve on the Faculty Senate until the term as Past President has ended.

   Terms shall be for two years and staggered, with approximately one-half of the Senate elected each year.

B. Representation shall be by academic or research unit and based on the number of qualifying faculty in each unit as described below.

   1. A unit is a single school or college or research institute, a collection of schools and/or colleges or collection of research institutes (see item 5).

   2. For representational purposes only, a qualifying faculty member shall be defined as one who holds academic rank or special academic rank.

   3. Tenure-track faculty with split appointments will be counted only in the tenure-granting unit. Research faculty and other qualifying faculty with split appointments will be counted only in the unit of primary appointment.

   4. Each unit will elect the number of representatives to the Senate equal to the number of qualifying faculty in that unit divided by the total number of qualifying faculty at UAF, multiplied by 35 and rounded to the nearest integer.

   5. Schools, colleges and research institutes whose representation under item 4 is zero may form a conglomerate group for the purpose of joint representation as a single unit, if together they qualify for representation under item 4. If they do not qualify as a conglomerate group, or if they do not choose to be represented as a group, then each unit shall join with a represented school, college or research institute.

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

6. Re-apportionment will be done in the year of accreditation review of UAF, expected to be every seven years, or upon two-thirds vote of the Senate.

7. Each unit will have at least 2 representatives.

C. Election Procedure

1. Election shall be conducted by the represented units, or by the Senate office for any conglomerate groups to provide representatives to the Senate according to Article III of the Senate Constitution. Elections are to be held during the spring semester and election procedures are the responsibility of the units, subject to the following:

2. A faculty member may vote for Senate representatives in only one unit. For tenure-track faculty, that unit must be the tenure-granting unit. Research faculty and other qualifying faculty must vote in the unit of primary appointment.

3. Units with full-time permanent faculty based on other than the Fairbanks campus should elect Senate representatives in a number that is at least equal to the proportion of the non-Fairbanks based qualifying faculty.

4. Units with faculty who teach in associate, certificate, or noncredit programs should elect representatives in proportion to such faculty.

5. Units with senior faculty should elect associate and full professors as Senate representatives in a number that is at least equal to the proportion of such faculty.

6. Units with graduate programs should elect at least one graduate faculty member.

7. Each unit shall elect at least half as many alternate representatives as representatives.

D. Vacancies

1. In the case of death, resignation, transfer, or other reason why an elected representative can no longer represent the unit, an alternate shall immediately become the representative. The president of the Senate will appoint a replacement from among the unit's elected alternates, with the concurrence of the affected constituency and the consent of the Administrative Committee.

2. If no alternate is available to replace the departing senator, the affected unit may hold a special election to replace that senator. This special election must be held within 30 days of the last day the departing senator served. All

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

policies and procedures governing regular senate elections apply to these special elections.

3. In the case of death, resignation, transfer, or other reason why an elected alternate can no longer represent the unit, the affected unit may replace that alternate by holding a special election. This special election must be held within 30 days of the last day the departing alternate served. All policies and procedures governing regular senate elections apply to these special elections.

E. Changes in Unit Representation

1. Changes in a unit's number of representatives on the Faculty Senate shall be implemented at the time of the next scheduled election. Reductions in a unit's number of representatives shall be accomplished by attrition, as terms expire. Increases in a unit's number of senate representatives shall be implemented through election of additional representatives at the next scheduled election.

2. Representatives should serve out the terms to which they are elected. This includes but is not limited to representatives who hold office at a time of reapportionment of the Faculty Senate, and those whose unit affiliation changes during a term of office. If the representative is no longer affiliated with the unit from which they were elected, then an alternate shall be appointed and both shall serve concurrently to the end of the term. This may lead to a temporary increase in the number of elected representatives serving on the Faculty Senate.

F. Absenteeism

1. When elected members are unable to attend the meetings, their alternates will serve.

G. Recall

1. Unethical and/or unprofessional conduct by any elected officer or member of the Senate may constitute a cause for a vote of no confidence and hence a recall. In order to recall an elected officer or member, the Senate must have a 2/3 majority vote of its total membership.

Sect. 2 (ART IV: Officers)

The President of the Senate shall be an ex-officio, non-voting member of all elected and appointed committees of the Senate. The President-Elect of the Senate shall be chairperson of the Administrative Committee of the Senate and shall be an ex-officio, non-voting member of such elected and appointed committees of the Senate as the President of the Senate shall direct.

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

The following internal appeals process will be followed to resolve disagreements between members and the Faculty Senate president and/or president-elect.

1. Appellant makes a good-faith effort to resolve the issue directly with the President and/or President-Elect. If appellant is not satisfied with the resolution, continue with the following steps.

2. Appellant requests time to speak to the Administrative Committee at its next regularly scheduled meeting. (Standard time allotment will be five minutes' speaking time.) Appellant may submit a brief summary to be distributed as a written handout to the committee at the meeting, if desired, in addition to being present and speaking. The handout should be submitted five business days before the Administrative Committee meeting and include a description of the decision being appealed, the reasons for the appeal, and the proposed resolution.

3. After the appellant has spoken, the President and President-Elect may respond. (Standard time allotment will be five minutes each. One or both may speak.) The President or President-Elect may also provide a written response as a handout for the consideration of the Administrative Committee.

4. The Appellant will leave the meeting and the Administrative Committee will consider two options: A. No change to the original decision; or, B. Sustain appeal and come to an alternate decision based on the committee's deliberation. The Administrative Committee will vote on the matter. An affirmative vote by an absolute majority of the committee is required to sustain the appeal.

5. A brief report is shared at the next Faculty Senate meeting by the Chair of the Faculty Affairs Committee. There is no further discussion on the matter at the Senate meeting.

Sect. 3 (ART V: Committees)

A. An Administrative Committee will be composed of the chairpersons of all standing Senate committees and of permanent Senate Committees. The Provost of UAF shall be an ex-officio, non-voting member. Specific duties of the Administrative Committee in its obligation to fully prepare the agenda and materials for efficient operation of the Senate are:

   1. Receive reports from the president of the Senate, the Provost, and, as deemed timely, other individuals, on issues of current and future importance to the Senate;

   2. Accept and review the motions of standing and permanent committees, and from members of the Administrative Committee;

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

3. Make certain that the motions are ready for Senate action to the maximum degree possible, and if not, refer them back for further work and/or direct them to other relevant committees that may not have considered the motions;
4. Move the motions to the Senate's agenda;
5. Review and approve other items of the Senate's agenda, as deemed necessary;
6. Review reports of all committee work in progress; and
7. Discuss other issues, which may or should lead to later committee and senate actions.

In addition,

8. Within the scope of authority granted by the Senate at the last meeting of the spring semester, the Administrative Committee will represent the Senate from the close of the last Senate meeting in the spring until the opening of the first Senate meeting of the fall semester; and
9. At the first meeting in the fall semester make a report of all actions carried out in the name of the Senate since the last meeting in the spring semester.
10. The Administrative Committee shall oversee the process of evaluation of academic administrators.
11. The committee chair will provide committee meeting minutes to the Faculty Senate.

B. Membership on standing and permanent committees will be for two years except as noted below with the possibility of re-appointment. The initial appointment or re-appointment is recommended by the President and President-Elect or as specified in the definition of a Permanent Committee, approved by the Administrative Committee, and confirmed by the full Senate. Senators are limited to serving on a maximum of one standing committee at any one time. To provide continuity, terms will be staggered and an initial appointment may be made for one or two years as determined by the Administrative Committee based on need.

C. Any faculty member who is eligible to vote for a Faculty Senator can serve on a Senate committee, unless otherwise specified. Standing committees will be constituted entirely of senators or alternates. Permanent committees can be constituted without senators or alternates.

D. On standing committees all voting members must be senators or alternates. Standing committees can have non-voting ex officio members.

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

E. All permanent and standing committee chairs will be elected from and by the members of their respective committees. Committee chairs are voting members of their committees and of the Administrative Committee.

F. A quorum consists of at least 50% of the voting members of a committee. Mode of attendance and procedure for voting in a committee meeting shall be the prerogative of each committee.

G. Appointment and responsibilities of committee chairs:
The previous chair or a representative approved by the Administrative Committee will convene the first meeting. The committee elects a new chair at that meeting.
Committee chairs:
1. Schedule meetings;
2. Preside over meetings;
3. Write and submit a report to the Administrative Committee at the last meeting of the academic year summarizing the actions of the committee;
4. Provide meeting minutes to the Faculty Senate.

H. The standing and permanent committees of the Senate are:

STANDING

1. The Curricular Affairs Committee will deal with undergraduate curricular and academic policy changes.

2. The Faculty Affairs Committee shall review issues dealing with faculty prerogative and recommend policy changes to the Faculty Senate. Issues of faculty prerogative include academic freedom, faculty ethics, research and creative activity, and legislative and fiscal issues that may impact faculty concerns at the university. The committee will enhance communication of faculty issues with members of the Board of Regents, public officials, and candidates for public office. In performing these duties, the committee will coordinate as necessary with the relevant officers (and/or their representatives) of the extant collective bargaining units who serve as non-voting members of the Senate and ex-officio members of this committee.

3. The Unit Criteria Committee reviews proposed unit criteria for evaluation of faculty submitted by the various peer-review units of UAF, and to work with the heads of those units (or their designees) to ensure that their criteria are consistent with criteria defined in the UAF Faculty Appointment and Evaluation Policies and Regulations "Blue Book". Special unit criteria may add to the standard template that is drawn from the Blue Book but may not alter its language or formatting. The criteria to be reviewed may include those submitted every five (5) years pursuant to Blue Book Regulations. They may

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

also include those proposed by units for revision at other times. The committee also reviews proposed changes to the "Blue Book."

To ensure that perspectives from across UAF are represented, membership will consist of at least five senators, one each from the following five schools / colleges: CLA, CRCD, CNSM, CFOS, and CEM; and at least one from CES, SNRE, SOE, SOM or LIB; and at least one senator who has an appointment with a research institute. There are no student members of this committee.

Final composition of the Unit Criteria Committee is approved by the Faculty Senate Administrative Committee.

PERMANENT

1. The Graduate Academic & Advisory Committee has responsibility for oversight, review and approval of all professional degree courses and programs. The committee advises the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial issues and dealings with other universities.

   The Graduate Academic & Advisory Committee includes ten faculty members and up to two graduate students. The Dean of the Graduate School, Director of the Library, and the University Registrar are non-voting ex-officio members. Graduate student representatives are appointed by the Dean of the Graduate School using the process established by the Graduate Academic and Advisory Committee and passed by the Faculty Senate in March 5, 2018

2. The Student Academic Development and Achievement Committee (SADA) considers policies related to student placement, academic advising and student academic appeals, development, and retention. ~~This committee further functions as a curriculum review committee for all developmental education courses.~~

   SADA includes one faculty representative from each of the following campuses of the College of Rural and Community Development: Bristol Bay, Chukchi, Interior Alaska, Kuskokwim, Northwest, and the Community and Technical College. One or more of these should be from Developmental Education. The committee also includes one representative from the Fairbanks Department of Developmental Education, two representatives from the College of Natural Sciences and Mathematics: one from the Sciences (Biology, Chemistry, Geology, or Physics) and one from Math; two from the College of Liberal Arts, including one from the English Department; and one each from Rural Student Services, Rural Campus Student Services, and the Academic Advising Center. The committee may also invite a student representative to serve as an ex

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

officio member. TWO SADA MEMBERS WILL SERVE ON THE CURRICULUM REVIEW COMMITTEE TO PROVIDE INPUT FROM THE STUDENT SUCCESS PERSPECTIVE.

3. The Faculty Development, Assessment, and Improvement (FDAI) Committee facilitates faculty development relative to all components of faculty professional activities including teaching, research, and service to the university, the professional community, and the public. FDAI promotes excellence in faculty teaching through evaluating the status of faculty development and assessment, facilitating intellectual activity and interaction among faculty, promoting fair and relevant faculty evaluation systems, and developing and/or piloting professional development initiatives that recognize and promote good practice in teaching and research.

   The FDAI consists of the Chair, and up to 14 other voting members. The membership of the FDAI must include faculty from both rural and Fairbanks campuses and can include faculty who are senators and non-senators. In addition to its regular members, the FDAI includes non-voting ex-officio members. These include a mandatory ex-officio representative from the Office of Faculty Development (to be selected by the Provost), a member from UAF eLearning, as well as a member of UAF's list of deans. Other non-voting ex-officio members may be invited by the committee.

4. The Curriculum Review Committee evaluates proposed substantive undergraduate course and program additions, changes, and deletions submitted by the appropriate school/college curriculum committees. Among the topics of its review are number and duplication of courses, credit assignment, establishment of need for new programs, and resource impacts of curricular changes. Decisions of the Curriculum Review Committee may be appealed to Curricular Affairs by the department submitting the proposal. The Committee shall be composed of the chairs of the college/school curriculum councils, the University Registrar or the Registrar's designee, an eCampus designee, and shall be chaired by a member of the Curricular Affairs Committee. TWO SADA AND TWO GER & CORE COMMITTEE MEMBERS WILL SERVE ON THE CURRICULUM REVIEW COMMITTEE TO PROVIDE EXPERTISE ON STUDENT SUCCESS AND GER CURRICULUM.

5. ~~The GER and Core Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the General Education Requirements (GER) at UAF.~~ The GER and Core Committee coordinates and recommends changes to the GER, develops the process for assessment of the GER, regularly reports on assessment of the GER, monitors transfer guidelines for core and GER courses, acts on petitions for core and GER, ANT, LIBRARY SCIENCE, AND ETHICS credit, and evaluates guidelines in light of the total core and GER experience. ~~This committee will also review~~

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

~~courses for oral, written, and natural science GER classification.~~ TWO GER & CORE COMMITTEE MEMBERS WILL SERVE ON THE CURRICULUM REVIEW COMMITTEE TO PROVIDE EXPERTISE IN GER CURRICULUM. ~~The GER and Core Committee will also periodically review syllabi of courses to which "O" and "W" designators are attached to ensure compliance with Faculty Senate guidelines. If the committee determines that a course fails twice in a row to meet "O" or "W" guidelines as specified by the Faculty Senate, the committee shall have the power to revoke "O" or "W" designators from that course.* Committee actions made prior to March 1 will become effective in the next year's Catalog. Designators will be restored as soon as the course has been reapproved by the committee as once again conforming to "O" or "W" guidelines.~~

~~*As found at: http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-core-desig/~~

The committee shall be composed of one faculty member from each of the GER component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, Library and Information Research, and Arts), ONE PERSON FROM LIBRARY AND INFORMATION RESEARCH, CLA REP FOR ETHICS AND DANSRD REP FOR ANT, one faculty member from a non-GER component area, and one faculty member from CRCD, as voting members. The member from a non-GER component area shall be elected at large from among UAF faculty, while seats from GER component areas and CRCD shall be elected by their respective faculties. Membership on the committee also may include an undergraduate student as a non-voting member, and representatives from the colleges specifically tasked with core and GER assessment.

6. The purpose of the Committee on the Status of Women is to monitor the status of women faculty at UAF and to work proactively for gender equity and empowerment of women.

   Such actions may include, but are not limited to: Organizing and supervising surveys on the status of women and assessing the cultural climate of the university as it pertains to women; Recommending policy to address the needs of women faculty; Supporting mentoring of women, both new and mid-career faculty, including facilitating workshops on mentoring, promotion and tenure, negotiating techniques, providing venues for networking, collaboration and advocacy, and other forms of faculty development identified as necessary; Addressing family-work issues, such as child care, parental leave, spousal/partner hire; Coordinating with other campus and university groups which deal with women's and gender issues; and any other issues which would help women to achieve equity at UAF.

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

Membership will consist of nine members, at least one of whom will be a senator, and eight to be elected at large from among UAF faculty.

7. The Research Advisory Committee. The Research Advisory Committee (RAC) consists of up to ten voting members, including two co-chair, along with at least one non-voting ex-officio member such as the Vice Chancellor for Research (VCR). Voting members are restricted to those appointed by the Faculty Senate. Members of RAC will be nominated to the Chancellor for service on the UA President's Research Council (PRC). At least two of the ten voting members must be Research Faculty. The committee reviews the issues of researchers at the University of Alaska Fairbanks and provides reports, recommendations, and resolutions to the UAF Faculty Senate and/or Administration on behalf of the UAF research community. The RAC provides a connection between the Faculty and the UAF Administration, and will advise the Administration on research matters. At the first RAC meeting, the RAC appoints 1) two co-chairs and 2) a RAC member to represent RAC at the VCR's Research Planning Group (RPG) meetings. It is recommended that each RAC meeting agenda include updates from the RPG and the PRC.

8. The Faculty Administrator Review Committee (FARC) will facilitate the process of evaluation of all Group A and B administrators. This will include ensuring the timely completion of all reviews and resulting letters, as well as presentation of the results of each review to the Provost, Chancellor, Vice Chancellor for Research, or other supervisor in March. The FARC will also approve the process which each ad hoc administrator review committee utilizes.

   The Faculty Administrator Review Committee shall be composed of the chairs of all individual ad hoc administrator review committees plus one Faculty Senate representative appointed by the Faculty Senate President who shall chair the committee. The ad hoc administrator review committee chairs may, but do not have to be, members of the Faculty Senate.

9. The Information Technology Committee will address information technology issues and needs affecting aspects of work faculty engage in. They will also be the recognized committee to work with requests submitted for consideration by the Office of Information Technology (OIT).

   To help ensure that perspectives from across UAF are represented, membership will consist of at least five representatives, with up to three members from each of the schools, colleges, institutes or libraries. Members who are not Faculty Senators may be appointed to one-year terms. Representatives from

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

OIT and eLearning shall be ex-officio members of the committee. The committee chair must be a senator or an alternate.

F. Any standing or permanent committee may create subcommittees to assist the committee.

G. The Senate President may create and appoint the members of any ad hoc committee necessary for conducting Senate business. Ad hoc committees are subject to later ratification by the Senate.

H. Committees must forward any legislation which involves the setting or altering of policy to the full Senate for approval. Committees which are specifically charged with applying policy to make decisions may do so without having the Senate approve those decisions. A review by the full Senate may be requested by the reviewing Senate committee. A request to the Senate Administrative Committee for a further Senate review may also be submitted by individual Senators if the question has policy implications. The committee chair is responsible for the presentation of the committee's motion to the Senate at the meeting in which it will be considered.

Sect. 4 (Art. IX Parliamentary Authority)

Majority and supermajority votes of the Senate shall be counted on the basis of a majority or supermajority of the votes cast by members present, with abstentions not counting as votes.

Motion #2020—07

The following motion passed at Faculty Senate meeting #245 on February 3, 2020:

MOTION:

The GER and Core Review Committee moves to update the Faculty Senate Bylaws in regard to the member composition for the GER and Core Review Committee.

BYLAWS of the UNIVERSITY OF ALASKA FAIRBANKS FACULTY SENATE

Sect. 3 (Article V: Committees) H. Permanent5 5.

~~1. The GER and Core Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the General Education Requirements (GER) at UAF.~~ The GER and Core Committee coordinates and recommends changes to the GER, develops the process for assessment of the GER, regularly reports on assessment of the GER, monitors transfer guidelines for core and GER courses, acts on petitions for Core, GER, ANT, LIBRARY SCIENCE AND ETHICS credit, and evaluates guidelines in light of the total core and GER experience. ~~This committee will also review courses for oral, written, and natural science GER classification.~~ TWO GER & CORE COMMITTEE MEMBERS WILL SERVE ON THE CURRICULUM REVIEW COMMITTEE TO PROVIDE EXPERTISE IN GER CURRICULUM. ~~The GER and Core Committee will also periodically review syllabi of courses to which "O" and "W" designators are attached to ensure compliance with Faculty Senate guidelines. If the committee determines that a course fails twice in a row to meet "O" or "W" guidelines as specified by the Faculty Senate, the committee shall have the power to revoke "O" or "W" designators from that course.* Committee actions made prior to March 1 will become effective in the next year's Catalog. Designators will be restored as soon as the course has been reapproved by the committee as once again conforming to "O" or "W" guidelines.~~

~~*As found at: http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-core-desig/~~

The committee shall be composed of one faculty member from each of the GER component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, and Arts), ONE PERSON FROM LIBRARY AND INFORMATION RESEARCH, CLA REP FOR ETHICS AND DANSARD REP FOR ANT, one faculty member from a non-GER component area, and one faculty member from CRCD, as voting members. The member from a non-GER component area shall be elected at large from among UAF faculty, while seats from GER component areas and CRCD shall be elected by their respective faculties. Membership on the committee also may include an undergraduate student as a non-voting member, and representatives from the colleges specifically tasked with core and GER assessment.

EFFECTIVE: Immediately

DocuSign Envelope ID: CEB589EB-182A-46EA-A590-97C0DE7D563F

RATIONALE:

Based on recent actions passed in the Faculty Senate to amend the curriculum review process, Program approval is no longer under the purview of GERC. With this change these approvals will now be assigned to CRC however there is still a need for representation from GERC. In addition, the oral and written classifications are no longer part of the general education requirements so this is no longer a necessary task for this committee.

Motion #2020-09

To clarify process in Administrative Committee

MOTION:

The Administrative Committee moves to add the following language to the Faculty Senate Bylaws:

- When an elected officer of the Faculty Senate believes that an item approved by the Administrative Committee for inclusion on the Faculty Senate's agenda should not appear there, or should appear in a different format than the one approved by the Administrative Committee, the matter shall be returned to the full Administrative Committee for consideration no fewer than four regular business days before the Senate meeting for which the item has been approved. Should there be no vote of the Administrative Committee resulting in a simple majority favoring changes to or cancelation of the agenda item in question, it will stand as originally approved and will be included on the Faculty Senate agenda for which it was originally scheduled.

RATIONALE:

This addition to the Bylaws clarifies the process for resolving any potential problems that emerge after the Administrative Committee has already approved items for inclusion on the Faculty Senate's agenda.

UAF FACULTY SENATE
P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

To: James R. Johnsen, President, University of Alaska
Sheri Buretta, Chair, University of Alaska Board of Regents

cc: Daniel M. White, Chancellor, University of Alaska Fairbanks

From: Sine Anahita, President, UAF Faculty Senate

DS Sine Anahita

February 5, 2020

Dear President Johnsen and Chair Buretta:

As you may know, the University of Alaska Fairbanks (UAF) is reviewing our administrative structures using a process that is parallel to the expedited academic program review process. Leadership from our three governance organizations (Faculty Senate, Staff Council, and ASUAF), who collectively are the Governance Coordinating Committee (GCC), collaborated with Chancellor White to create the process and to establish timelines. The Expedited Administrative Structure Review Committee is composed of two representatives each from ASUAF, Faculty Senate, Staff Council, and the administration. Provost Emeritus Susan Henrichs is chairing the committee.

Because we all believed that it was important that administrative units have sufficient time to gather the requested data and to write reports, the Chancellor and the GCC agreed to extend the original timelines. According to the established timelines, the Expedited Administrative Structure Review Committee is expected to conduct its reviews of the units' reports during the period February 7 through March 26. There is a public comment period that is scheduled to run from March 26 through April 6. The Chancellor's decisions are scheduled to be released on April 10.

UAF Faculty Senate respectfully requests that no budgetary decisions be made without consideration of both the results of the expedited academic program reviews and the expedited administrative structure reviews together. We are concerned that academic program decisions could be made without consideration of the outcomes of the administrative structure reviews.

We believe that the best decisions about the structure and future of UAF will be made when due consideration and evaluation are given to both reviews in concert, and not independently of each other. As our university is an integration of academic programs, research and all of the administrative support necessitated by an institution of higher education, it follows that any

DocuSign Envelope ID: 9B31DE5D-A398-408C-843D-FD5ADB4D76F0

decision process about its future is best if executed in a similarly integrated manner, with as much information concurrently available to decision-makers as possible.

We understand that the legislative and university budgetary process requires difficult decisions to be made enough in advance for the preparation and submission of the UA operating budget to the Board of Regents during their June meeting. However, we believe that even with the delay in the completion of the administrative review, this deadline can be met. We request that the Board of Regents delay the early April meeting of the Academic and Student Affairs committee to later in April, so that the outcomes and recommendations from *both* review processes may be considered by decision-makers.

Thank you for your consideration. We look forward to your response.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: 04804FCB-4F62-40FE-B465-C48995AA511A

The following motion was passed at Faculty Senate meeting #244 on December 2, 2019:

*****MOTION*****

The UAF Faculty Senate moves to appoint Orion Lawlor to serve as a replacement for the UAF Faculty Senate president on the University of Alaska Faculty Alliance.

Rationale
The current president of the Faculty Senate, Sine Anahita, is unable to adequately represent UAF Faculty Senate on the Faculty Alliance due to a long-term committee assignment that conflicts with Faculty Alliance meetings. Orion Lawlor has three years of experience serving on the Faculty Alliance. Further, he is currently serving as an alternate to Faculty Senate, and thus is immersed in Faculty Senate issues.

Effective: Immediately

The following motion was passed at Faculty Senate meeting #244 on December 2, 2019:

MOTION:

The UAF Faculty Senate moves to amend the syllabus checklist approved Fall 2018 in order to update recommended statements.

Effective: Spring 2020

Rationale: The following reasons are submitted as the basis for amending the UAF syllabus checklist:

1. Add GER educational objectives.
2. Add ANT course qualification.
3. Add reasonable accommodation statement.
4. Revise student protection statement to clarify "responsible employee."
5. Update technology requirements.
6. Update student resource information for math, writing and speaking courses.
7. Add emergency notification language under Recommended Components.
8. Add student absence policy under Recommended Components.

****

Deletions within checklist in ~~strikethrough~~; additions within checklist in **ALL CAPS** is proposed as follows:

Syllabus Checklist for All UAF Courses

The Faculty Senate curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed course (or changes to it) may be denied. DISCLAIMER: radically changing your course requirements once a semester has started is problematic and should be avoided to limit possible negative impacts on you and your students.

The following motion was passed at Faculty Senate meeting #244 on December 2, 2019:

MOTION:

The UAF Faculty Senate moves to establish an ad hoc committee on Open Educational Resources (OER) or other low cost options. The purpose of the ad hoc OER Committee shall be to explore OER at UAF with the intention of expanding access to OER across the university.

Effective: Immediately

Rationale: ASUAF recently asked Faculty Senate to encourage faculty to use Open Educational Resources (OER) to lower students' costs. SADA passed a resolution of support. The prices of textbooks and software have steadily risen over the last several years to the point where students who take a full load of classes can expect to pay over $1300 per year. Open Educational Resources are free (or low cost) course materials, e.g. digital texts, online films, resource-rich websites, and other course materials. Faculty Senate wishes to support students by keeping the costs of attending college down, while providing a high quality education. The ad hoc OER Committee will thus serve an important function.

Membership: The ad hoc OER Committee shall be comprised of at least five faculty who are voting members and who are nominated by Faculty Senate leadership and/or self-nominated, and confirmed by a vote of the Faculty Senate. At least one Faculty Senator shall serve on the OER Committee. There shall be at least one student on the ad hoc OER Committee with full voting rights, and at least one administrator to serve as an ex officio. The Committee may draw ex officio membership from other constituents at UAF as it deems necessary, e.g. Rasmuson Library faculty and staff, the Registrar's Office, staff from eCampus, or other persons interested in OER.

The following motion was passed at Faculty Senate meeting #244 on December 2, 2019:

Distance Education

MOTION:

The UAF Faculty Senate moves to establish an ad hoc committee on Distance Education. The purpose of the ad hoc committee shall be:

- to sponsor a positive discussion on distance education at UAF;
- to work with e-Campus, the registrar, and university administrators to develop a network of collaboration and communication across the university to ensure that students across the entire state and beyond are well served through distance education;
- to help solve the issue of inaccurate coding of classes so that an accurate detailing of those classes is available to help students more easily locate classes that fit their schedule and lifestyle;
- to identify potential problems, e.g. lack of bandwidth in some areas of Alaska, and to brainstorm potential solutions to those problems.

Rationale:

Given the expansion of distance education, and its great potential to increase enrollment and educational opportunities for students, there needs to be a Faculty Senate committee to provide proactive leadership.

Membership: The ad hoc Distance Education Committee shall be comprised of at least five faculty who are voting members and who are nominated by Faculty Senate leadership and/or self-nominated, and confirmed by a vote of the Faculty Senate. At least one Faculty Senator shall serve on the Distance Education Committee. There shall be at least one student on the ad hoc Distance Education Committee with full voting rights, and at least one administrator, e.g. the director of eCampus, to serve as an ex officio. The Committee may draw ex officio membership from other constituents at UAF as it deems necessary.

Effective: Immediately

MEMORANDUM

TO: Anupma Prakash, Provost of the University of Alaska Fairbanks

FROM: Michael Hirt, Construction Trades Technology Program Head

DATE: October 10, 2018

SUBJECT: Deletion of Program

Program and Degree: Construction Trades Technology, Associate of Applied Science

School or College: College of Rural and Community Development

Department: Department of Indigenous, Community and Tribal Programs

The Construction Trades Technology Program (CTT) is requesting the deletion of the Associate of Applied Science (AAS) degree program, which has been in suspension since 2014. The AAS degree was originally suspended due to little to no enrollment, graduates and a lack of industry support, as the AAS is not an industry recognized credential.

There are currently no active students within the AAS, and the discontinuation will not result in the elimination or reassignment of any positions within the CTT Program. Additionally, there will be no budgetary impact and no other programs or areas will be affected by the discontinuation of the program.

No new applications have been accepted since October 1, 2014, for a two-year period the Construction Trades Technology Program will accommodate, through other arrangements, any student who contact the program expressing a desire to complete their degree.

The following was passed at Faculty Senate meeting #243 on November 4, 2019:

Resolution in support of the Faculty Alliance's revisions to Board of Regents policies to protect the accreditation of the universities in the University of Alaska system

WHEREAS, the NWCCU requires a university to have "an effective and widely understood system of governance with clearly defined authority, roles, and responsibilities"; and

WHEREAS, the NWCCU requires, "In a multi-unit governance system, the division of authority and responsibility between the system and the institution is clearly delineated. System policies, regulations, and procedures concerning the institution are clearly defined and equitably administered"; and

WHEREAS, the NWCCU letter dated September 26, 2019, stated their concern "that the University of Alaska Fairbanks, University of Alaska Anchorage, and University of Alaska Southeast have failed to meet the above critical Standards for Accreditation"; and

WHEREAS, the NWCCU letter urged the Board of Regents "to take immediate steps to provide clarity around the authority, roles, and responsibilities of the University of Alaska System and its respective institutions and their leadership;" and

WHEREAS, the Board of Regents policies were written at a time when there was a single university in the system and now there are three independently accredited universities in the system; and

WHEREAS, the three chancellors are the chief operating officers of their accredited universities and must have the authority to fulfill that role and its crucial responsibilities; and

WHEREAS, the Faculty Alliance formed a task force from across the three universities, including faculty and staff, to propose revisions to the pertinent Regents' policies.

THEREFORE BE IT RESOLVED
That the UAF Faculty Senate supports the UA Faculty Alliance Resolution 2020-08 asking that the Board of Regents' Policy Part II – Administration Chapter 02.01 – University President P02.02.010. Academic Administration – be updated as proposed by the Faculty Alliance.

Memorandum

To: Daniel M. White, Chancellor
Anupma Prakash, Provost

From: Sine Anahita, Faculty Senate President DS Sine Anahita

Date: October 4, 2019

Re: Creation of an Administrative and Structural Expedited Review CommitteeDate: X October 2019

In the spirit of shared governance, and given that academic programs are the backbone of the University of Alaska Fairbanks, the UAF Faculty Senate asks that the Chancellor create a transparent UAF Administrative and Structural Review Committee to determine cost-saving measures at the administrative and structural level. The Administrative and Structural Review Committee shall be comprised equally of students, faculty, staff, and administrators. Specifically, this committee shall conduct an Expedited Administrative Expense Review and a review of and need for all Class A and B administrative functions. The committee should also produce a report outlining a plan for cutting administrative and structural expenses in order to protect UAF's academic offerings to the greatest extent possible. The committee shall operate on a timeline that is parallel to the expedited academic program review process. Faculty Senate, ASUAF, and Staff Council shall work with the administration to select committee members.

Naturally Inspiring.
UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: 909FA6B7-1D7A-4B03-ADBB-C830D28F5EE4

The following was passed at Faculty Senate meeting #243 on November 4, 2019:

Resolution in Support of Allowing Candidates for Promotion, Tenure, or Comprehensive Review to Opt for Open Meetings

Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution at Meeting #176 in September 2011, Meeting #184 in September 2012, Meeting #192 in September 2013, Meeting #200 in September 2014, Meeting #208 in September 2015, Meeting #218 in November 2016, Meeting #225 September 2017, and Meeting #233 September 10, 2018. For academic year 2019-2020, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #243 November 4, 2019.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an “open” meeting, and that “mandatory closed” meetings be avoided, including during the 2019-20 review cycle.

RATIONALE:

1. Faculty Committee meetings are “open” at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

DocuSign Envelope ID: 909FA6B7-1D7A-4B03-ADBB-C830D28F5EE4

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

Memorandum

Acknowledged. Thank you!

To: Daniel M. White, Chancellor
Anupma Prakash, Provost
Alex Fitts, Vice Provost

From: Sine Anahita, Faculty Senate President

DS Sine Anahita

Date: November 4, 2019

The UAF Faculty Senate endorses AAUP's "University of Alaska Advisory Letter" and advocates for our UAF administration to follow the AAUP guidelines for faculty roles in program reduction, closure, and elimination. As we proceed with expedited academic program reviews, it is essential that any potential program reductions or closures be based on long-term educational and curricular considerations. Faculty must be the drivers of any downsizing decisions.

Rationale:
NWCCU's letter to our BOR cited failings in our system of shared governance, and shared governance is AAUP's specialty. AAUP policy, as explained in the advisory letter, states that when an institution is not operating under financial exigency, *financial conditions cannot be the main consideration for program downsizing or elimination*. Such decisions would render tenure meaningless and opens the door for the targeting of specific faculty members and/or programs. When not under financial exigency, program discontinuations or downsizing are matters of curriculum and must reflect long-range judgments by faculty that the educational mission of the institution will be enhanced by the decision. The criteria for reviews, including expedited program reviews, must be created in coordination with faculty representatives rather than given to faculty committees to carry-out. These principles must be followed to protect academic freedom and students' educational opportunities, and to ensure the quality and cohesiveness of UAF's programs.

UAF is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination/.

DocuSign Envelope ID: 909FA6B7-1D7A-4B03-ADBB-C830D28F5EE4

The following motion was passed at Faculty Senate meeting #243 on November 4, 2019:

MOTION:

The UAF Faculty Senate moves to amend the approval process for Occupational Endorsements, removing review by the CAC chair and adding a CRC subcommittee and the Provost to the approval process.

EFFECTIVE: Fall 2019, upon Chancellor approval

RATIONALE: Conducting Faculty Senate review via individual committee members (i.e. the Chairs) does not provide a broad set of perspectives and expertise to the review process. A subcommittee of CRC reviews OEs in order apply a broad scope of expertise to the review process. This would reduce the time of review for these programs. In addition, formally including the Provost as a reviewer and approver in the OE workflow follows current practice and brings the OE review process in alignment with the other curriculum workflows.

_____ Date: 11/5/19

Daniel M. White, UAF Chancellor

DocuSign Envelope ID: 909FA6B7-1D7A-4B03-ADBB-C830D28F5EE4

The following motion was passed at Faculty Senate meeting #243 on November 4, 2019:

MOTION:

The UAF Faculty Senate moves to amend the course and program approval process, moving all of the workflow in CourseLeaf from SADA and GERC into CRC and removing CAC from the CourseLeaf workflow so that program proposals go directly from CRC to Faculty Senate leadership (Recommendation 1). We also move to assign two members from GERC and SADA to serve on CRC, and associated Faculty Senate bylaws should be updated to reflect these changes (Recommendation 2).

EFFECTIVE: Fall 2019, upon Chancellor approval

RATIONALE: Numerous challenges are associated with the current Faculty Senate Committees structure and process including:

- Lack of communication
- Unstandardized processes for review and approval
- Uncertainty of roles
- Proposals getting tabled or misplaced
- Multiple levels of review within this step
- Differing levels of expectations (quality)
- Different versions of documents utilized during review

Consolidating these proposal review committees into fewer committees and refining committee practice will help solve these challenges.

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate of Cybersecurity, housed in the School of Management.

Effective: Fall 2019 upon all required approvals

Rationale: There is a substantial need for qualified cybersecurity management professionals, not only nationally, but specifically in Alaska. Currently, the University of Alaska system does not have a degree program, outside of the cybersecurity concentration within the Bachelor's of Security and Emergency Management, to meet that need. In addition, there is no opportunity for professionals already in the field to increase their academic knowledge and obtain such a degree. This certificate would provide students a workforce advantage for both private industry and state agency positions, as it would demonstrate their knowledge of the management of security professionals with regard to computers, peripherals, and networks. This certificate would "boost" a traditional master's of science or PhD degree and indicate that the recipient has a more broad knowledge base. This certificate allows UAF to pursue the Department of Homeland Security (DHS) and the National Security Agency (NSA) joint sponsored National Centers of Academic Excellence (CAE) program. Finally, the certificate supports UAF's core theme of Preparing Alaska's Career, Technical, and Professional Workforce.

See the program proposal in CourseLeaf.

DocuSign Envelope ID: 3FE7A6EB-E176-40E9-A095-05E9AB4B481D

Program Summary Statement:

PROGRAM SUMMARY

Introduction

The Cybersecurity Graduate Certificate is designed for the student who desires an in-depth treatment of an important subject leading to a graduate-level certificate. This gives them the capabilities and insight beyond the headlines into the technical and management basis for the many cybersecurity decisions and trade-offs they will encounter in their careers. Cybersecurity is a very dynamic field that requires lifelong learning - this certificate program counts as Continuing Professional Education (CPE) for the many professional certifications that are relevant for the field as well as credits towards a graduate degree should they pursue that. Recipients of the Cybersecurity Graduate Certificate are more prepared for the challenges of the cybersecurity workforce of the future.

Demand for program

Research was gathered from Bureau of Labor Statistics, the National Initiative for Cybersecurity Education (NICE), and the International Information System Security Certification Consortium (ICS2). In 2017, there were 350,000 job openings in the U.S. (from a student supported by NICE). In Alaska alone, the supply/demand ratio for cybersecurity jobs was 1.8 with a ratio of 2.3 in Fairbanks and 2.4 in Anchorage. There are currently 537 open jobs in Alaska which shows a low supply of workers regionally. The national average is 2.5 shows there are openings throughout the nation also. A skills gap analysis from 2016 estimated a shortage of 2 million works internationally by 2019. A study by ICS2 estimated by 2022, there were would 1.8 million job openings with 265,000 of those in the U.S. alone. The study also cited that 68% of current workers felt there were too few cybersecurity workers in their departments.

e-Campus

The courses associated with this certificate are primarily offered online via eCampus. Some of the classes will offer a "blended delivery" where students can participate in a "live class" or in an online format.

Effects on other programs

This should have no negative effects on enrollment elsewhere as there currently is not a certificate available in a related field. There may be increased enrollment within the Master's in Security and Disaster Management degree program as the Cybersecurity Graduate Certificate is designed in such a way as to dovetail into this degree.

Alignment with university mission, goals, or themes and objectives

a) Educate: This certificate will provide in-depth education in key cybersecurity concepts and prepare students to effectively carry out cybersecurity operations.
b) Research: Cybersecurity is a technologically driven field. With ever-changing technology, developing a workforce that can adapt to those changes is important. Although this certificate is not research-driven in the traditional sense, it is designed to

DocuSign Envelope ID: 3FE7A6EB-E176-40E9-A095-05E9AB4B481D

keep up with the changes in technology and to provide research in the correct operational methods to keep students up-to-date and successful. Through course embedded projects, students will develop and utilize real-life cybersecurity skills. Students will have the opportunity to work with professors on real cybersecurity projects.

c) Prepare: This certificate will academically prepare students for what is becoming a highly sought after career field. There are immense job opportunities for cybersecurity specialist and this certificate will provide them with the required knowledge and skills to be successful in this field in Alaska, nationally, and internationally. This graduate certificate is key to workforce development.
d) Connect: Although primarily thought of as an urban profession, cybersecurity specialists are in high demand throughout every area. This certificate, being available online, will allow students not located in an urban area to get the same high level of education available in big cities. The "blended delivery" format of this graduate certificate will allow students to not only connect with the instructor for classroom requirements but also to network with other students throughout the state and country. This networking will provide a better educational, and possibly an even better professional experience for the student.
e) Engage: This certificate is designed to not only prepare students coming into the field, but to expand on those already working in it. This continuing education is incredibly important in providing a well-educated and effective workforce.

Alignment with shaping Alaska's future themes

• Theme 1: Student Achievement and Attainment- will further develop critical thinking skills, diversity, and good judgement. It also gives a competitive recruiting tool for UAF.
• Theme 3: This provides UAF, specifically SOM, to continue developing strong community ties and providing the community with a strong workforce that will better fit to the ever changing field of cybersecurity.

DocuSign Envelope ID: 3FE7A6EB-E176-40E9-A095-05E9AB4B481D

SUPPORT DOCUMENTATION

Brief Program Statement:
Cybersecurity is a very dynamic field that requires lifelong learning - this certificate program counts as Continuing Professional Education (CPE) for the many professional certifications that are relevant for the field as well as credits towards a graduate degree should they pursue that.

Enrollment Information:

Projected enrollment - Year 1- 5
Year 2- 7
Year 3- 10
Year 4- 10
Year 5- 10

Projected enrollment was determined by extrapolating data from the Bachelor's of Security and Emergency Management undergraduate cybersecurity concentration as well as considering the increase in the need for cybersecurity professionals.

Need for the program:
In Alaska alone, the supply/demand ratio for cybersecurity jobs was 1.8 with a ratio of 2.3 in Fairbanks and 2.4 in Anchorage. There are currently 537 open jobs in Alaska which shows a low supply of workers regionally. The national average is 2.5 shows there are openings throughout the nation also.

These positions are currently being filled by workers with bachelors degrees, professional certifications, and occasionally by students with masters degrees. However, 87% of North Americans started (and have degrees) in other fields. Of that 87%, 70% are in IT fields, but not specifically cybersecurity.

This is primarily a workforce development certificate. It will fulfill a community need by providing skilled and educated workers in an increasingly growing field.

Resource Impact:
No new space is needed for the cybersecurity certificate as the classes are already being taught or will be taught online.

Each course will be offered at least once per academic year, if not more. Total hour production, at a minimum, is 5 students x 3 credits x 12 credits = 180 credit hours per year.

The HSEM program recently hired a cybersecurity faculty member. In combination with the two current adjuncts, no additional faculty will be needed.

Relation of Program to other Programs within the System:

DocuSign Envelope ID: 3FE7A6EB-E176-40E9-A095-05E9AB4B481D

This should not have a negative effect on enrollment elsewhere as there currently is not a certificate available in a related field.

Within the College of Engineering and Mines, UAF maintains a Department of Computer Science. The UAF Department of Computer Science offers BS and MS degrees in Computer Science. The UAF Department of Computer Science does not offer courses that entail cybersecurity management.

UAF's Community and Technical College maintains an Associate of Applied Science degree in information technology with a concentration in network and cybersecurity. When combined with a bachelor's degree, this graduate certificate could serve as a pipeline for students to obtain their master's degree. UAF's Community and Technical College does not offer courses that entail cybersecurity management.

The School of Management's Homeland Security and Emergency Management program has engaged in dialogue with, and will cooperate fully with both the UAF Department of Computer Science and UAF's Community and Technical College where this will be to the benefit of UAF's students.

The following motion passed at Faculty Senate meeting #242 on October 7, 2019:

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate of Business Continuity, housed in the School of Management.

Effective: Fall 2020 upon all required approvals

Rationale: There is a substantial need for qualified business continuity professionals, not only nationally, but specifically in Alaska. Business continuity is the ability of an organization to maintain essential functions during, as well as after, a disaster has occurred. Business continuity planning establishes risk management processes and procedures that aim to prevent interruptions to mission-critical services, and reestablish full function to the organization as quickly and smoothly as possible. Currently, the University of Alaska system does not have a degree program, outside of the business continuity concentration within the Bachelor's of Security and Emergency Management, to meet that need. In addition, there is no opportunity for professionals already in the field to increase their academic knowledge and obtain such a degree. This certificate would provide students a workforce advantage for both private industry and state agency positions, as it would demonstrate their knowledge of the processes necessary to ensure that any organization, either in the public or private sectors is best positioned to respond to, and recover from a crisis. This certificate would "boost" a traditional master's of science or PhD degree and indicate that the recipient has a more broad knowledge base. Finally, the certificate supports UAF's core theme of Preparing Alaska's Career, Technical, and Professional Workforce.

See the program proposal in CourseLeaf.

The Chancellor: ✓ Approves _____ Vetoes

Daniel M. White, UAF Chancellor

Date: 10/22/19

Program Summary Statement:

PROGRAM SUMMARY

Introduction

The Business Continuity Graduate Certificate provides students with an in-depth look at what it takes to help a business mitigate for and survive after a major crisis or disaster. Business continuity is an important component in having a successful business and as such, many organizations are adapting their employee's roles to include continuity components. This certificate will help students understand those components, teach them how to develop a plan, and the best practices to thrive despite a crisis or disaster. This knowledge, in turn, will better prepare employees and businesses for any business disruption that may occur. Recipients of the Business Continuity Graduate Certificate are more prepared for the challenges of the workforce of the future.

Demand for program

In 2016, there were an estimated 1,024,000 business continuity employees. From 2017 to 2018, there was an increase of 14% in companies who said they had a plan and 23.2% of employees said they expected to have an increase in the size of their business continuity plan. The increase in natural and man-made disasters as steadily increased the demand for business continuity professionals. Based on the ten-year growth rate, there should be approximately 50,000 job openings over the next 5 years. According to the Bureau of Labor Statistics, there is an anticipated 9% increase nationally for business continuity professionals from 2016 to 2026. This is an increase of 104,200 jobs. Additionally, there are expected to be 290 openings in Alaska alone. These positions have typically been filled by those with a bachelor's degree in a related field (business, security, IT). After being hired, employees often then earn a professional certification, and this graduate certificate targets those individuals.

eCampus

The courses associated with this certificate are primarily offered online via eCampus. Some of the classes will offer a "blended delivery" where students can participate in a "live class" or in an online format.

Effects on other programs

This should have no negative effects on enrollment elsewhere as there currently is not a certificate available in a related field. There may be increased enrollment within the Master's in Security and Disaster Management degree program as the Business Continuity Graduate Certificate is designed in such a way as to dovetail into this degree.

Alignment with university mission, goals, or themes and objectives

a) Educate: This certificate will provide in-depth education in key business continuity concepts and prepare students to effectively carry out business continuity operations.

b) Research: There isn't much research involved in this particular certificate as it is more of a continuing education or graduate certificate. However, research can be conducted into what made companies successful and hopefully share with areas throughout Alaska.
c) Prepare: The information providing through this certificate will prepare students to carry out continuity roles at their jobs and also the knowledge to begin testing for professional certifications.
d) Connect: Continuity issues are a large concern in Alaska and developing a program that can work with and provide individuals with the required knowledge to be successful in case of disruption throughout the state is key.
e) Engage: This is a continuing education certificate that has the dual purpose of better equipping our local and state economy to any operational business disruptions that can affect the whole community.

Alignment with shaping Alaska's future themes

• Theme 1: Student Achievement and Attainment- will further develop critical thinking skills, diversity, and good judgement. It also gives a competitive recruiting tool for UAF.
• Theme 3: This provides UAF, specifically SOM, to continue developing strong community ties and providing the community with a strong workforce that will better fit into the field of business continuity.

SUPPORT DOCUMENTATION

Brief Program Statement:
Cybersecurity is a very dynamic field that requires lifelong learning - this certificate program counts as Continuing Professional Education (CPE) for the many professional certifications that are relevant for the field as well as credits towards a graduate degree should they pursue that.

Enrollment Information:
Projected enrollment - Year 1- 5 majors
Year 2- 5 majors
Year 3- 7 majors
Year 4- 7 majors
Year 5- 10 majors

Projected enrollment was determined by extrapolating data from the Bachelor's of Security and Emergency Management undergraduate cybersecurity concentration as well as considering the increase in the need for cybersecurity professionals.

Resource Impact:
No new space is needed for the business continuity certificate as the classes are already being taught or will be taught online.

Each course will be offered at least once per academic year, if not more. Total hour production, at a minimum, is 5 students x 3 credits x 12 credits = 180 credit hours per year.

The School of Management already employs faculty members who instruct in the field of business continuity. No additional faculty will be needed.

Relation of Program to other Programs within the System:
This should not have a negative effect on enrollment elsewhere as there currently is not a certificate available in a related field.

The School of Management has been requiring business continuity classes for all undergraduate students for the past few years and it has helped prepare students for the unique challenges that all businesses should prepare for.

By taking it a step further and allowing students to receive specialized instruction in the field of business continuity, students will be that much more valuable to a company. There are very few Business Continuity graduate-level certificates available and UAF is in a position to cater to this niche market.

The following motion passed at Faculty Senate meeting #242 on October 7, 2019:

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate of Arctic Security, housed in the School of Management.

Effective: Fall 2020 upon all required approvals

Rationale: The Arctic Security Graduate Certificate through UAF's School of Management Homeland Security and Emergency Management program is designed to give students the operational knowledge to be successful in the increasing number of circumpolar and US Arctic-related jobs. Such career positions are primarily dominated by the public-sector, since national security remains a government primacy. Although Arctic policy understanding and credentialing is robustly available and developed, there remains a significant lack of Arctic operational knowledge and certification. The implementation and conduct of established Arctic security policy (i.e. national defense, security, and Arctic policies) is the domain of the operational world. An Arctic Security graduate certificate will help recipients achieve an essential baseline knowledge in order to become eligible to competitive for Arctic security-related positions for a spectrum of intergovernmental agencies and organizations with homeland defense responsibilities.

See the program proposal in CourseLeaf.

Sine Anahita

Sine Anahita, UAF Faculty Senate President

The Chancellor: ✓ Approves _____ Vetoes

Daniel M. White, UAF Chancellor

Date: 10/22/19

Program Summary Statement:

PROGRAM SUMMARY

Introduction

The Arctic Security graduate certificate provides students with operational knowledge to be successful in arctic security careers. It offers students a unique perspective, that isn't currently available, into what it takes to secure the Arctic.

This will primarily be a graduate certificate however, since UAF is an arctic research university, there are numerous opportunities for students in the certificate program to carry out research. This certificate would be a good fit for anyone interested in researching how to secure the Arctic against the many changes coming forth.

There is currently only one other school that offers an Arctic Security certificate and it is located in Colorado. With an increasing presence and more activities occurring in the Arctic, there is a whole in the formal education which UAF can provide. UAF is an Arctic university that currently offers coursework and degrees in both the Arctic and security, but not in both. This certificate will combine these topics into a single focus. The HSEM program is already presenting researching, publishing, and providing trainings on these topics, this just makes it a formal degree.

Demand for program

Feedback from a continuing US Department of Defense contract involving Arctic Security studies and a variety of national events and policy development has provided significant interest from public-sector professionals that desire formal Arctic Security certification and knowledge for their professional benefit and needs. Most jobs currently are those belonging to public agencies, primarily those like the Department of Defense, US State Department, Department of Homeland Security, Department of Commerce, Department of Energy, and the Department of Interior. Increase interest from nations outside of the traditional Arctic nations increases, jobs in securing and protecting U.S. interests will continue to grow also. In 2018, the Russian Federation stated national goals for the next several years which included an 800% increase in Northern Sea Route shipping tonnage, much of it expected to transit through the Bering Strait. Southeast Asian shipping activity, esp. China, (fishing, research, container, etc.) is expected to increase significantly. Over the next 10 years, as Russia plans to increases their annual traffic cargo in the Arctic by 10%, other countries will follow which will lead to increased public and private sector jobs in the military. *From Russian President Putin's address to Federal Assembly*

eCampus

The courses associated with this certificate are primarily offered online via eCampus. Some of the classes will offer a “blended delivery” where students can participate in a “live class” or in an online format.

Effects on other programs

This should have no effects on enrollment elsewhere as there currently is not a certificate available in a related field. It may increase enrollment in similar master's degree as students may want to continue on in their education.

Alignment with university mission, goals, or themes and objectives

a) Educate: There is currently only one other school that offers an Arctic Security certificate and it is located in Colorado. With an increasing presence and more activities occurring in the Arctic, there is a whole in the formal education which UAF can provide. UAF is an Arctic university that currently offers coursework and degrees in both the Arctic and security, but not in both. This certificate will combine these topics into a single focus. The HSEM program is already presenting researching, publishing, and providing trainings on these topics, this just makes it a formal degree.
b) Research: An Arctic Security graduate certificate allows those instructors with real-world Arctic operational security credentials and applied expertise to provide knowledge and understanding to those in need and interested.
c) Prepare: Activity in the Arctic continues to increase as access and economic interests rise. National security and homeland defense operational requirements will be required to match such momentum. An Arctic Security graduate certificate will provide the fundamental knowledge required for access to related career positions.
d) Connect: The Arctic is associated with a significant component of Alaska's economy and culture. Operational preparations and capabilities in response to increased activity will better prepare recipients with the variety of aspects associated with Arctic operational security.
e) Engage: Arctic operational knowledge is essential for implementing Arctic policies from all levels of government and interests. Operating in the Arctic requires proficient knowledge of operations in order to better understand how to prepare and execute requirements in the real world, especially in, but not limited to, public-sector responsibilities.

Alignment with shaping Alaska's future themes

• Theme 1: Student Achievement and Attainment- will further develop critical thinking skills, diversity, and good judgement. It also gives a competitive recruiting tool for UAF.
• Theme 3: This provides UAF, specifically SOM, to continue developing strong community ties and providing the community with a strong workforce that will better fit the role of those engaged in arctic activities.

The following was passed at Faculty Senate meeting #242 on October 7, 2019:

MOTION:

EFFECTIVE: Immediately

RATIONALE: The UAF Faculty Senate (FS) Research Advisory Committee (RAC) proposes the creation of a system-wide Research Collaboration Team (RCT) formed under Faculty Alliance. The proposed RCT will collaborate across the UA system and will 1) be composed of faculty researchers from among UA institutions/locations, 2) gather and synthesize input and concerns related to research conducted within UA, 3) advocate for research activities, and 4) relay pertinent issues and matters to Faculty Alliance, Statewide Council on Research, statewide administration, the Board of Regents, Faculty Senates, and other interested parties.

UAF representation on the Research Collaboration Team will be composed of three RAC members and provide UAF perspectives on research-related topics including those pertinent to the ongoing UA process of self-evaluation and potential reorganization. The RAC strongly suggests the Research Collaboration Team be formed as soon as possible in order that it can respond to and help facilitate those aspects of UA-wide restructuring that relate to research across campuses.

UAF FACULTY SENATE

P.O. Box 757500, Fairbanks, AK 99775-7500 | 907-474-7964 | uaf-faculty-senate@alaska.edu | www.uaf.edu/uafgov

To: President Jim Johnsen
VP Paul Layer
Faculty Alliance Chair Maria Williams

From: UAF Faculty Senate

Re: membership on committees, teams, and taskforces

Date: October 7, 2019

In the spirit of shared governance, the UAF Faculty Senate demands representation on committees, teams, and task forces that are convened to consider curricular, research, and other programmatic structures for the UA system. Representation on such committees, teams, and task forces will be selected by the Faculty Senate President and President-Elect from a pool of faculty who self-nominate or are nominated by others. These mechanisms may be used to add members to newly formed committees, team, and task forces as well as to those whose work is already under way.

Moreover, in the spirit of transparency, the UAF Faculty Senate demands that lists of all such committees, teams, and taskforces, their membership, and their charges be promptly posted online: to the New UA website for committees, teams, and taskforces convened by the Statewide administration and to the Faculty Alliance website for those convened by the Alliance.

DocuSign Envelope ID: B639D651-F69A-41EE-AED2-B260E0EE1C3F

The following motion passed at Faculty Senate meeting #241 on September 9, 2019:

MOTION:

The UAF Faculty Senate moves to amend the policy on approval of new courses or course changes to include fall and spring semester review cycles.

EFFECTIVE: Fall 2019, upon Chancellor approval

RATIONALE: The University of Alaska Fairbanks has a new strategic goal to modernize the student experience. In addition, the University is working to increase student enrollment. This amended policy will meet both these goals. Current practice includes only one review cycle and one published course catalog for the full academic year, occurring in the fall semester. The addition of a spring review cycle would allow for the following two goals:

1. New course proposals that were approved in the fall semester could be offered in the following, immediate, spring semester.
2. Faculty could submit proposals in CourseLeaf in the spring semester.

Adding a spring semester review cycle should not only increase the offerings we provide students, but also empower and engage faculty in their innovative pursuits.

MEMORANDUM

To: Provost Anupma Prakash
Chancellor Daniel M. White

From: Faculty Senate President Donie Bret-Harte DS MSBH

Re: Increasing transparency, expanding inclusive decision-making, and reinvigorating shared governance

Date: May 6, 2019

The Faculty Senate acknowledges that the University of Alaska Fairbanks is experiencing difficult budget times that may call for immediate decisions such as planning contingency budgets. However, we are concerned that the budget crisis may be unintentionally used to decrease transparency, to narrow access to decision-making processes, and thus to threaten the principle of shared governance. Faculty Senate is especially concerned about decisions being made that directly relate to faculty responsibilities but which do not include meaningful opportunities for faculty participation.

The Faculty Senate affirms University of Alaska Board of Regents Regulation Part III Faculty, Staff, and Student Governance[1], and acknowledges that faculty, through faculty governance organizations, hold primary responsibility for matters related to the university's curriculum. The Faculty Senate also notes that the UAF Faculty Senate Constitution[2] grants faculty responsibility for curriculum through representation on the Faculty Senate. Additionally, the Faculty Senate recognizes the AAUP's Statement of Governance of Colleges and Universities[3] and emphasizes that matters of curriculum are the purview of the faculty.

The Faculty Senate is concerned that the University leadership may be engaged in restructuring decision-making about academic units that adversely affect curricula and program health, and thus negatively affect our students, and that these discussions and decision-making processes do not involve affected faculty or Faculty Senate as the representatives of faculty.

Faculty Senate therefore calls on the University leadership to increase transparency, to expand the inclusivity of decision-making, and to use the budget crisis as a means to reinvigorate shared governance.

MEMORANDUM

To: Provost Anupma Prakash

From: Faculty Senate President Donie Bret-Harte DS MSBH

Date: May 6, 2019

Faculty expressed dissatisfaction with the process of sabbatical review during AY 2018-2019. We propose the following recommendations for consideration in refinement of this process for future years.

We support:

- A clear sabbatical application process with requirements and expectations consistently outlined and explained throughout all materials, e.g., published guidelines, applications, and websites.
- Sabbatical application evaluation criteria that are consistent with the extant CBA to "increase the UNAC member's value to the University and thereby improve and enrich its programs." Faculty should be given the flexibility to design a sabbatical plan that meets those expectations.
- Meaningful and justified feedback, stating clear reasons for denial, on applications provided to all applicants.
- An opportunity to appeal and to provide a response or furnish additional information should it become necessary for a full and fair evaluation (as is done regularly with P&T process, course proposals, etc.).

****

DocuSign Envelope ID: ED0394BD-65E9-4669-A8FC-A3EB98ABB987

The following motion passed at Faculty Senate meeting #240 on May 6, 2019:

MOTION:

The UAF Faculty Senate moves to adopt the following campus-wide policy regarding the ability of research faculty to chair graduate committees.

EFFECTIVE: Immediately

RATIONALE:
Currently there is no campus-wide policy regarding the ability of research faculty at UAF to chair graduate committees, and in some departments there is no pathway for research faculty to chair the committee of a graduate student, even if they are a student's primary advisor and financially supporting the student through their grants. To clarify, research faculty are employed primarily to conduct research and implement research programs; Research Assistant, Associate, and Full Professors are academic ranks with specified criteria for appointment and advancement. To help enable the stated goal of UAF becoming a Tier One Research University, we believe that it is imperative that qualified research faculty be enabled to chair graduate student committees. The Faculty Senate Research Advisory Committee recommends the following standards for allowing research faculty at UAF that have a formal association with a particular department to chair a student's committee.

****

Research Faculty Chairing Graduate Committees policy

Any UAF Research Faculty with Cooperating or Associate Faculty designation in a department who are at the Associate or Full Professor rank can serve as chair of a graduate committee. UAF Research Faculty at the Assistant Research Professor level with Cooperating or Associate department affiliation may be required to have a co-chair of tenured or tenure-track faculty in the department for student committees until a student under their supervision successfully completes a graduate degree. Individual departments may provide less restrictive policies than stated here.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND SCHOOL OF MANAGEMENT UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE SCHOOL OF MANAGEMENT DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***and SOM unit criteria, standards, and indices,*** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective

teachers ***will demonstrate some, but not necessarily all, of the following characteristics in an individual year:***

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

h. ***disseminate new ideas to the students resulting from research and other management activities, such as consulting and service on review panels;***

i. ***mentor students, undergraduates as well as graduates, in quality research activities;***

j. ***engage in advising students;***

k. ***participate in assurance of learning activities.***

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two ***(SOM requires at least three)*** of the following:

b. narrative self-evaluation, ***which provides a clear statement of teaching objectives and a self-assessment of how those objectives are met. Examples may include student progress, represented by improvements in early and late***

semester projects, or other mechanisms that can document improvement, and an inventory of skills learned selected from individual students' work,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials,

e. ***a class pre-test at the beginning of the semester followed by a post-test of similar format at the end of the semester to assess student learning,***

f. ***documentation of scores from any nationally recognized course-specific exam,***

g. ***review of online materials by eCampus, Quality Matters, or recognized external authority.***

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit ***(SOM)***, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***Online contributions, such as blogs or other forms of digital media that can be assessed for quality and professional impact.***

Specific SOM criteria for research performance:

For promotion to associate or full professor, it may be sufficient for a faculty member to demonstrate research productivity since the time of last promotion of at least four journal articles that are either single- or double-blind refereed, or published in an editorially reviewed journal of recognized quality, as recognized by The School of Management Research Quality Policy. The committee may choose to evaluate an article published in an A or A* ranked journal as equivalent to two articles published in a lesser ranking journal. Alternatively, a

faculty member may publish three such journal articles and two papers published in lesser format, such as papers and proceedings. However, a faculty member may not receive credit more than once for a paper that is essentially the same content. Those who perform significant professional activity and attainment of professional certification as a condition of accreditation may consider a detailed professional/industry work report or documentation of successful completion of a professional examination, such as a CPA, CFA, or similar accreditation, to count as a paper published in a lesser format.

All faculty members must demonstrate an independent and coherent research agenda. Evidence of this can include sole authored papers or a convincing record of initiation of independent research. To demonstrate a consistent flow of research, a faculty member who has completed work before arriving at this university can count no more than three papers toward promotion if those papers were published within six years of the date the candidate petitions for promotion.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

k. ***Participating in student recruiting events.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Specific SOM criteria for service:

A. Associate Professor: Positive contributions to school and/or university matters, effective professional contributions to the public, and/or effective services to the profession are expected.

B. Professor: Evidence of leadership in the service area is expected. Significant contributions to the development of school and/or university programs such as committee leadership of UAF Faculty Senate service, a union committee, or associated committees are expected. Effective application of service includes professional expertise provided to professional or public organizations such a business society leadership, reviewing proposals, refereeing manuscripts, and editing for professional organizations or publications.

The following motion passed at Faculty Senate meeting #240 on May 6, 2019:

MOTION:

The UAF Faculty Senate moves to adopt the newly revised Blue Book. This will be a living document that will be updated regularly and periodically, as needed.

EFFECTIVE: Fall 2019

RATIONALE: The old Blue Book is outdated and has not been revised since 2002, and no longer aligns with current practices or the extant Collective Bargaining Agreement. The new Blue Book entitled "University Policy and Procedure: the Faculty Blue Book" replaces the documents, "Regulations for the Appointment and Evaluation of Faculty" and "Faculty Appointment and Evaluation Policies." The Blue Book is a guide to best practices for tenure and promotion and supplements, but does not override anything in the current CBA.

The following motion passed at Faculty Senate meeting #240 on May 6, 2019:

MOTION:
The UAF Faculty Senate moves to amend the catalog language about academic disqualification to include a statement about how to appeal the decision.
EFFECTIVE: Fall 2019
RATIONALE:
1. Currently the catalog language does not establish the possibility nor mechanism for the student to appeal being academically disqualified.
2. Longstanding practice at UAF is that each dean can make exceptions on a case-by-case basis. The student talks to their advisor or dean and then the dean writes an email to the registrar. The fact that this is not included in the catalog language can cause problems for students whose deans make an exception for them to continue on probation.
3. Because there is no appeal mentioned in the catalog, external funding bodies such as the Veterans Administration or the U.S. Department of Education will not release benefits for students who have been academically disqualified. VA and ED do not recognize the dean's decision, as the catalog does not mention appeals.
4. This is intended as a temporary policy for 2019-20, during which time CAC will explore options for a less problematic appeal policy beginning 2020-21.

Revised Catalog Language (Added text appears in ALL CAPS):

Academic Disqualification

Undergraduate students — Undergraduate students on probation whose semester and cumulative GPA fall below a 2.0 for two consecutive semesters will be placed on academic disqualification. Academically disqualified students may continue their enrollment at UAF only as non-degree students, are limited to 10 credits per semester and are ineligible for most types of financial aid.

To be eligible for [readmission] admission to [an] ANY academic degree program AFTER HAVING BEEN DISQUALIFIED, the student must:

1. Achieve a 2.0 cumulative grade point average by repeating courses previously failed at UAF and reapply for admission, or

2. Complete 9 credits for a baccalaureate or associate program, or 6 credits for a certificate program, with a GPA of 2.0 or higher. The courses may be completed at UAF and/or another regionally accredited institution and must be letter-graded. Grades of P or CR will not be considered. In considering students for readmission, deans will look for course work taken that relates to the student's intended program.

3. STUDENTS SEEKING READMISSION INTO AN OCCUPATIONAL ENDORSEMENT PROGRAM MUST HAVE A MINIMUM of a 2.0 CUMULATIVE GPA.

~~Students seeking readmission into an occupational endorsement program must have a 2.0 GPA.~~

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

~~Readmission to a degree program is not automatic or guaranteed.~~ The student must reapply and the application must be approved by the dean. The student may apply to the same program from which they were disqualified, or to a different program or level (e.g. baccalaureate, associate or certificate). Readmission may be granted with a status of probation or with other conditions as specified by the dean. It is vitally important for academically disqualified students to work closely with their academic advisor in developing a realistic and timely educational plan.

A STUDENT MAY BE CONTINUED ON PROBATION, RATHER THAN BE DISQUALIFIED, AT THE DISCRETION OF THEIR DEAN.

The following motion passed at Faculty Senate meeting #240 on May 6, 2019:

MOTION:

The UAF Faculty Senate moves to approve the Medical Scribe Specialist Certificate.

EFFECTIVE: Fall 2019
Upon Board of Regents approval

RATIONALE: The Medical Scribe Specialist Certificate program has been requested by industry partners for the past two years. The demand is real, industry wants trained and Nationally Certified Medical Scribes. They want them now. Health care is growing and we have been asked to increase numbers. This is an area of growth and would be the first program in UA system.

Please see CourseLeaf for supporting materials.

BRIEF PROGRAM STATEMENT:
The certificate in Medical Scribe Specialist prepares students for employment as members of the healthcare team to provide data collection and input to maintain comprehensive and accurate electronic health records. Medical scribe specialists work in a variety of healthcare settings such as hospitals, ambulatory settings and in specialties (e.g., primary care, urgent care, internal medicine; ophthalmology, etc.). Students will be equipped with skills that maximize the efficiency and productivity of clinical care, enabling real-time clinical documentation and workflow efficiencies for their employers. They will be prepared to take the Medical Scribe Certification and Aptitude Test (MSCAT) to acquire the Certified Medical Scribe Specialist (CMSS), a certification recognized by the American College of Medical Scribe Specialists.

Admission Requirements:
High school graduation or GED; ALEKS Placement: HLTH F116; Accuplacer Placement: WRTG F110; or permission of instructor.

Documentation of the following immunizations: two varicella, two MMR, three Hep B, and two step PPD within previous 12 months or titers to prove immunity to above diseases.
Be at least 18 years old by the first day of the semester in which admitted.

Complete the UAF application process.

Complete FAFSA for financial aid, if needed.

PROGRAM GOALS:
The Certificate in Medical Scribe Specialist will prepare and equip students to perform real-time clinical documentation and workflow efficiency to licensed clinicians in the healthcare system. The Medical Scribe collects information gathered at point-of-care under direction of a licensed healthcare provider, and inputs data to create and maintain comprehensive and accurate electronic healthcare records (EHR) for the benefit of clinicians, healthcare staff, and patients. Students are prepared for employment in a variety of healthcare settings (e.g., hospitals, clinics, primary and urgent care settings). They will be prepared for the American College of Medical Scribe Specialists certification exam.

CATALOG LAYOUT:

Minimum Requirements for Certificate: 30 credits

Students must earn a C- or better in each course.

ENROLLMENT INFORMATION:

There is demand for a skilled workforce in the medical community as the healthcare industry moves steadily forward with the advancements of electronic healthcare record-keeping. Initially an enrollment of 10-20 students or more is anticipated, with a growing trend in the future. Many of the course requirements are also taught for other Allied Health certificates

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

and associate degrees, and, as such, are not dependent upon enrollment in the Medical Scribe Specialist certificate program.

The Certificate Program is designed for completion in two years. Projections are based upon input from the Medical Assisting Advisory committee and input from medical community. Allied Health OE and certificate programs have demonstrated growth over the past five years and this trend is expected to continue if not increase. Currently, no other programs exist within the state to prepare students for this Certificate.

RELATIONSHIP TO "PURPOSES OF THE UNIVERSITY":
(From the UAF Mission) PREPARE: Alaska's Career, Technical, and Professional Workforce

The State of Alaska's Dept. of Labor and Workforce Development report, the Alaska Occupational Forecast 2014 to 2024, indicates that healthcare support occupations will continue to be in high demand. Development of this new certificate is in direct response to workforce needs expressed by local clinics in the medical community.

OCCUPATIONAL/OTHER COMPETENCIES TO BE ACHIEVED:

Students completing the Certificate in Medical Scribe Specialist will be equipped with the necessary skills to succeed in the healthcare workplace. They will be prepared to take the American College of Medical Scribe Specialists national certification exam. They will have the skills and knowledge required to collect information, perform data entry, and maintain comprehensive and accurate Electronic Healthcare Records.

They will be qualified to function independently as a member of the Health Care team under the supervision of a licensed provider.

RELATIONSHIP OF THE COURSES TO THE PROGRAM OBJECTIVES:

Course requirements for the Certificate in Medical Scribe Specialist equip students with the skills and knowledge required for successful employment as a member of the healthcare team, preparing them to collect information, perform data entry and maintain comprehensive, accurate electronic healthcare records. Courses prepare students to take the national certification exam in this field of study.

PERSONNEL DIRECTLY INVOLVED WITH THE PROGRAM:

Name	Staff classification	Duties	Qualifications
Cathy Winfree	Faculty	Program implementation and course development.	Professor
Millie Castro	Faculty	Program implementation.	Assistant Professor
Jacqueline Mitchell	Faculty	Program implementation.	Assistant Professor

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

NEED FOR PROGRAM:
The Allied Health Program has been contacted by members of the Medical Assisting Advisory Committee with requests for specialized skills training in the emerging field of Medical Scribe. Locally and nationally, the healthcare industry is advancing steadily with electronic healthcare record-keeping (EHR), and there is a shortage of trained workers to fill the demand. The majority of the current workforce enters the field with a shortage of skills and formal training and employers must identify potential workers for on-the-job training to fill the gap.

Now: There is no formal training currently available within the state. The need and demand for a trained workforce in Medical Scribe has been expressed to the Allied Health Program by local healthcare industry partners. Those currently employed in the field would benefit from formal training and the potential it provides for national certification. The field of Electronic Healthcare Record-keeping (EHR) is steadily growing within all facets of the healthcare industry, thus the demand for a skilled workforce is growing. Development of this program responds to that growing need / demand.

Two years from now: See the attached PDF of the Alaska Occupational Forecast 2014-2024 from the State of Alaska Department of Labor and Workforce Development, stating the growing demand for skilled workers in Medical Records and Health Information Technicians.

Five years from now: See the attached PDF of the Alaska Occupational Forecast 2014-2024 from the State of Alaska Department of Labor and Workforce Development, stating the growing demand for skilled workers in Medical Records and Health Information Technicians.

Ten years from now: See the attached PDF of the Alaska Occupational Forecast 2014-2024 from the State of Alaska Department of Labor and Workforce Development, stating the growing demand for skilled workers in Medical Records and Health Information Technicians.

RESOURCE IMPACT:
Please see the attached AH RESOURCE COMMITMENT document.

RELATIONS OF PROGRAM TO OTHER PROGRAMS WITHIN THE SYSTEM:
A positive effect is expected as students find formal training in a high demand field, and are exposed to further learning opportunities available in the Allied Health programs.

This program does not duplicate/approximate programs anywhere in the system.

IMPLEMENTATION/TERMINATION:
Plans for recruiting students:

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

Industry Partners will be notified via email, phone calls, and flyers that program has been approved. The Medical Assisting Advisory Council members will help spread the word to their employers. Employers will then encourage and/or schedule employees to attend classes. Advertise throughout UAF CTC and CRCD.

Announcements will be made at the UA Allied Health Alliance meeting.

Plans for phasing out program if it proves unsuccessful:
Current students in the program would be taught-out as required by the NWCCU. The majority of the courses would remain as they apply across the Allied Health programs.

Assessment of the program:
Student evaluations of each class are required. Graduate surveys upon completion of the program practicum are required by the national specialized accreditation for the Program. Employers of program graduates are surveyed.

Please see CourseLeaf for the SLOA Plan document.

Please see CourseLeaf for the BOR Program Action Request pdf.

Please see CourseLeaf for the Prospectus document.

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

The following motion passed at Faculty Senate meeting #240 on May 6, 2019:

MOTION:

The UAF Faculty Senate moves to approve the new One Health Master's:

EFFECTIVE: Fall 2019, with Board of Regents Approval

RATIONALE:

Many, perhaps most, of the challenges that residents of the Circumpolar North will face in the future are in the realm of One Health – the intersection and interdependence of human, animal, and environmental health. Creating solutions to these challenges will require those who are knowledgeable about One Health concepts, can communicate effectively across cultures and educational backgrounds, can bring together stakeholders and disciplinary experts, and can utilize a variety of problem-solving skills that lead to effective mitigation plans emphasizing adaptation and resilience. The Masters in One Health provides training and, most importantly, practice in those specific areas. It is a unique interdisciplinary degree that requires an understanding and integration of science, culture, history, communication, and more. There is no other degree like it in Alaska or the Circumpolar North. We anticipate that this Masters Degree will draw students not just from Alaska, but from across the Circumpolar North. As UAF moves forward with the new Center for One Health Research, many of those students will become collaborators in our One Health Research efforts. Others will enter the workforce as health professionals and as advocates for their communities at the local, regional, national and international levels. The Masters in One Health is a foundational step in the UAF's path to becoming an international leader in this emerging field.

Although this is a new endeavor for UAF, sufficient resources are already in place to support the program. With minor shifts in teaching loads, we have the space, technology, and faculty to teach this program.

****

President, UAF Faculty Senate

The Chancellor: ✓ Approves _____ Vetoes _____ Acknowledges

Date: 5/14/19

Daniel M. White, UAF Chancellor

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

Brief Program Statement:

One Health encompasses the relationship between human health, animal health, and the health of the environment and holds that these entities are inextricably linked to the extent that none can be optimal unless they are all optimal. One Health is interdisciplinary and inclusive; it invites the full participation of community members working together with scientists, health practitioners, tribal leaders, and government agency personnel to identify problems and create realistic, sustainable solutions to those problems. This program will provide knowledge and problem-solving skills for individuals who will be involved in managing One Health challenges at the community, state, federal, and international level. Implementing a constructionist approach and using the knowledge and skills developed in the coursework, the program culminates in the creation of a management plan to address a problem that students and community members have identified. The plan will be presented to stakeholders and content experts in a public forum.

Mission Statement:

The One Health Master's Degree (OHM) educates students to use a constructionist approach to address issues in the Circumpolar North that are at the intersection of human, animal, and environmental health. Graduates of the program will be able to engage key stakeholders to develop and implement realistic management plans that can be implemented in communities across the Circumpolar North.

Vision Statement:

Within the next 10 years, individuals who have a comprehensive understanding of One Health and an ability to utilize a community-centered, constructionist approach to problem-solving are likely to emerge as leaders in solving a wide array of problems in the Circumpolar North. UAF's One Health Master's will be recognized as a leader in educating these individuals.

We anticipate that this degree will attract students who are already engaged or interested in working in their communities to address One Health issues, and that it will also attract students seeking entrance to medical or veterinary schools who want to deepen their understanding of One Health and incorporate the paradigm and problem-solving skills into their future medical careers. For this reason, we propose two concentrations in the One Health Master's: a Community Advocate Concentration and a Biomedical Concentration.

The 19 credits in the core of this degree will provide training in communication, epidemiology, conflict resolution, cultural awareness, and skills for gathering pertinent data. The capstone sequence of courses (DVM F615, DVM F620, and DVM F621) will culminate in utilizing that knowledge and those skills to identify the root causes of a One Health problem and build a comprehensive management plan that addresses the root causes and proposes a realistic pathway to solving the problem. This interdisciplinary, integrative, constructionist approach will involve One Health students working with key stakeholders and community members to identify the problem, interview key stakeholders and knowledge bearers in both traditional knowledge and western scientific knowledge, gather data from reliable sources, and, utilizing various planning techniques such as One Health SMART and scenarios building, create a management plan to address and solve or mitigate the problem.

Because it is central to the One Health Master's Degree, this 19-credit core will be required for students in both concentrations. Additional courses are proposed for the two concentrations: courses in veterinary medicine and biology for those in the Biomedical Concentration and

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

courses in social sciences for those in the Community Advocate Concentration. Successful One-Health professionals will need to be aware of the social, cultural, governmental, historical, and scientific realities that influence One Health issues and their solutions. To accommodate this breadth, we have provided an array of courses from multiple disciplines. With guidance from the OHM faculty and staff, students will select courses that best complement their previous education and experience, and dovetail most closely with their future education and career choices.

The One Health paradigm developed in the Veterinary Medical profession where it focused largely on the difficulties of monitoring and managing zoonotic diseases. It has grown in the past few years to become a framework for solving a wider array of problems. Our program is unique in that identifying and resolving issues begins at the community level and works outward, engaging stakeholders from local, state, national, and even international agencies. One Health is inherently interdisciplinary. The focus of our One Health Master's is on communicating about One Health challenges and proposing solutions to those challenges; it does not rely on all participants having in depth scientific knowledge, but instead on gathering expertise and communicating effectively to provide solutions. The program's strength is in creating a community of diverse participants committed to examining and solving One Health problems by drawing information and data from cultural, social science, natural science, and medical perspectives.

Our plan is to develop and teach this program through face to face meetings, initially. However, within the first 5 years we would like to begin piloting an e-learning version of the classes so that partners across the Circumpolar North may more easily enroll in and complete the OHM.

Requirements for the Degree (catalog layout copy of the program)
Complete the General University Requirements

Complete the Master's Degree Requirements

Program Goals

Brief identification of objectives and subsequent means for their evaluation

Program Goals

The overall objective of the program is to educate individuals who will facilitate problem resolution in the One Health paradigm. These individuals might be community leaders, tribal leaders, individuals who work in local, state, national, or international governments or agencies, or medical practitioners. These individuals must have a comprehensive understanding of One Health, excellent communication skills, cultural understanding, and consensus-building and problem-solving skills. A table titled "Program Goals and Method of Assessment" is attached.

Relationship of program objectives to "Purposes of the University"

Note: This section might be easier to read in the attached "text of Courseleaf OHM,2018" since formatting cannot be preserved in this courseleaf box.

The “Purposes of the University” are teaching, research, and service, and those are focused more specifically by the UAF mission statement:

"The University of Alaska Fairbanks is a Land, Sea, and Space Grant university and an international center for research, education, and the arts, emphasizing the Circumpolar North and its diverse peoples. UAF integrates teaching, research, and public service as it educates students for active citizenship and prepares them for lifelong learning and careers."

The mission of the OHM complements UAF's mission as a land, sea, and space grant university. The OHM focuses on both land and sea, and the critical role these environments play in both animal and human health. Further, the OHM has a specific focus on the Circumpolar North and its diverse people, which is an integral part of the UAF mission. Our goals are to educate students to help solve problems at the intersection of environmental health, animal health, and human health, especially within the context of the Circumpolar North. UAF plays an important role in the University of the Arctic and we hope to draw many students to UAF through UArctic. Graduates of our program will support the economy, culture, and health of people throughout the Circumpolar North and likely beyond. At this time of rapid climate change, there is a critical need for people to come together to develop strategies for managing community- based problems in the Circumpolar North. This program addresses a key knowledge gap in the Arctic: an understanding of the interrelationship between environmental, human, and animal health is crucial in creating sustainable solutions for many of the problems in our Northern communities.

Specific UAF Core Themes that are addressed in our program’s Student Learning Outcomes include the following:

Educate: Undergraduate and graduate students as lifelong learners.

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

This graduate degree educates a range of students, and because of its constructionist approach to solving community-based One Health challenges, it encourages students to be lifelong learners. In addition, those entering the Biomedical Concentration should experience higher admission rates into health professional schools and will carry the One Health mindset into their health occupations.

Prepare: Alaska's Career, Technical, and Professional Workforce

Our focus is on solving One Health problems in Alaska and the wider Circumpolar North. We anticipate attracting diverse students who will return to their communities in these regions to become leaders in addressing challenges in Alaska. We believe that those going into our biomedical track will be better prepared to gain entry to medical and veterinary schools or other professional programs in medicine.

Connect: Alaska Native, Rural, and Urban Communities by Sharing Knowledge and Ways of Knowing.

By their nature, One Health challenges in the Circumpolar North will involve Native communities and their leaders as well as urban community leaders, agency personnel, and medical practitioners. Our program will guide students to be culturally aware so that traditional knowledge and western scientific knowledge are partners in the resolution of One Health challenges.

Engage: Alaskans through Outreach for Continuing Education and Community and Economic Development.

The OHM is designed to engage communities in Alaska and the Circumpolar North. In our capstone sequence of courses, students will be investigating One Health problems that are identified by communities, and they will create management plans that prioritize the community's needs.

Several activities within the University of Alaska Academic Master Plan are also addressed by our Program. Specifically:

Goal 1. Educate students to become informed and responsible citizens.

Objective 4. Embrace the cultural diversity of Alaskans and promote cross-cultural understanding.

Activity: Recruit, retain, and graduate a diverse student body that reflects the population of Alaska.

One of our primary program goals is to recruit and educate a diverse student body from across the Circumpolar North.

Activity: Include a wide variety of cultures in the curriculum and co-curricular activities.

Our program is best served by having students of a variety of cultures in the cohort where they can share knowledge and personal perspectives gained through both formal education and cultural experiences.

Activity: Incorporate the knowledge and wisdom of Alaska Native elders in

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

curricular and co-curricular activities.

A specific student learning outcome is to identify ways to synergize traditional knowledge and western knowledge.

Activity: Maintain and expand opportunities for students to gain international knowledge and experience.

Students from across the Circumpolar North will be working together in our program to solve problems that may have international significance. We will encourage our students to attend international conferences and present workshops on One Health at these conferences.

Our program also addresses some of the specific issues identified in Shaping Alaska's Future.

Theme 1: Student achievement and attainment.

Issue C: UA Students must demonstrate skills and knowledge in their particular majors. In all aspects of the UA educational experience, students also must develop critical thinking skills, good judgment, high ethical standards and an understanding of diversity to be responsible citizens and leaders.

Our program would offer students the opportunity to learn about and practice critical thinking and good judgment, to appreciate diversity and incorporate diverse views into a management plan, and to become responsible citizens and leaders in the emerging field of One Health.

Issue D: UA needs to increase national and international recognition of its quality education, programs of distinction and exceptional research in order to enhance recruitment of undergraduate and graduate students and faculty.

One Health is an emerging field, and we are taking a unique approach to training graduate students to become professionals in this discipline by our constructionist approach and by focusing on the Circumpolar North. By initiating this program now, we have the opportunity to develop a reputation as a leader in One Health. Our vision statement states that UAF will become a leader in this field.

Issue E: UA recruitment, retention and graduation rates are low, especially for disadvantaged and minority populations and for Alaska Natives.

Because our program specifically focuses on communities in the Circumpolar North, it should attract a diverse student body, and be particularly attractive to non-traditional students and Alaska Native leaders who are already working in fields related to One Health. We already have evidence that the One Health paradigm resonates with Alaska Native and rural students (data gathered by BLaST Program), and we anticipate that the clear focus on using a constructionist, inclusive approach to addressing One Health challenges will allow us to recruit, retain, and graduate these underrepresented students.

Issue F: Alaska has serious unmet needs for advanced degree graduates, and UA has opportunities to meet those needs both internally and through

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

partnerships with other institutions.

One Health is an emerging field, and right now there are serious unmet needs in educating individuals to address One Health challenges across the world, and particularly in the Circumpolar North. Only four or five schools in the US have One Health Master's degrees, and none of those take the unique constructionist approach that we do. None focus on the serious issues that are of concern in the Circumpolar North.

Theme 3: Productive Partnerships with Public Entities and Private Industries

Issue C: Alaska Native corporations, tribal governments and other Alaska Native entities are a unique and powerful force in Alaska's economy. They hire UA graduates and some provide considerable financial aid to students. However, meaningful partnerships between UA and these entities are few and limited.

The Alaska Native Tribal Health Corporation has already expressed interest in hiring graduates of our program. As our graduates enter the workplace and become leaders in the field, we anticipate working ever more closely with many Alaska Native tribal governments and corporations, as well as with non-profit and government agencies.

Occupational/other competencies to be achieved

There are no recognized occupational standards or competencies for individuals who solve problems in a One Health framework. However, we anticipate that our graduates will be highly skilled in the transferable skills of identifying problems, gathering appropriate critical information, engaging stakeholders, communicating effectively in written and oral forms, mediating among diverse groups, building consensus, and developing management plans that address important challenges in the Circumpolar North. Further, we believe that students who complete our Biomedical concentration will be better equipped to understand and deal with emerging medical problems in the coming years, and to communicate with patients, clients, and community members about health issues and solutions to those problems.

Relationship of courses to the program objectives

Each of the courses in this program has been chosen to support the objectives of the OHM. Three courses critical to the success of the program are newly created: DVM F615, DVM 620, and DVM 621. These are referred to as the "capstone sequence." In these three courses, students will develop a deep conceptual understanding of One Health (DVM F615), develop a variety of skills for identifying and solving One Health challenges (DVM F620), and practice using those skills to address a current problem (DVM F621). Also included as required core courses are epidemiology (DVM F714, Preventive Veterinary Medicine) where students will learn about disease transmission and statistics, a communications class (COMM F441, F451, or F680), and a class that will promote a broad understanding of the Circumpolar North (ACNS F600). Course suggestions within the two concentrations provide students with the option to advance in areas of personal interest or career relevance. The Student Learning Outcomes map the content of

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

the courses to the student learning outcomes. SLOA is attached to preserve formatting.

Resource Impact

Budget

Budget, OHM, 2018 submission.xlsx

Facilities/Space Needs

The current facilities are sufficient to meet the need as projected. All the program requires is classroom space and space for public presentations. As the program expands to an e-learning format, we will require smart classrooms and video conferencing rooms. Those are also available on campus.

Credit Hour Production

See attached table for details of calculations. These calculations are based on the proposed course sequences, and an estimate that approximately half of the students will be in the Community Advocate Concentration and half in the Biomedical Concentration.

Year 1 = 160 credit hours

Year 2 = 386 credit hours

Year 3 = 536 credit hours

Year 4 = 691 credit hours

Year 5 = 762 credit hours

Faculty

The program can be taught by faculty who are currently at UAF. As the program grows, there may be a need to shift workloads and to potentially hire adjunct instructors, pay overload contracts, or hire new faculty. There should be sufficient tuition income to support those costs.

Library/Media Materials, Equipment and Services

We have not reviewed this program with the Library because we are confident that the library and media resources we require are already available due to the activity of the Vet Med Program and the Northern Studies Program.

Regents Guidelines

OHM, BOR-PAR form, fall 2018.docx

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

The following motion passed at Faculty Senate meeting #240 on May 6, 2019:

MOTION:

The UAF Faculty Senate moves to update the catalog to include Post-Baccalaureate Program requirements.

Effective: Immediately

Rationale: The current policies listed in the catalog do not include post-baccalaureate programs. Requirements for post-baccalaureate programs are needed as these types of programs are beginning to be developed at UAF. The following requirements have been based on UAA's post-baccalaureate programs and modified for UAF's needs. Please see below.

UAF Post-Baccalaureate Certificates

University requirements for all post-baccalaureate certificates are as follows:

1. The student must complete at least 24 approved semester credits to earn a post-baccalaureate certificate. (See Regents' Policy 10.04.030)
2. At least 15 credits must be earned after the posting of a previous baccalaureate degree.
3. Previously earned credits at regionally accredited institutions can be assigned to the certificate as long as at least 9 credits applicable to the student's certificate program are earned through UAF after acceptance into the program.
4. Certificate programs may include non-coursework requirements.
5. Courses at the 500-level are for professional development and are not applicable toward any post-baccalaureate certificate, even by petition.
6. At all course levels, a student must earn a C- grade or higher in all courses required for the post-baccalaureate certificate unless otherwise specified by the program.
7. At least two-thirds of the credits required for the post-baccalaureate certificate must be taken at the upper division (300-400) or graduate (600) level.
8. If the requirements for a post-baccalaureate certificate are not met within seven years of formal acceptance into the program, admission expires and the student must reapply for admission and meet the admission requirements in effect at the time of readmission or graduation. (See How to Earn a Bachelor's Degree in the UAF Catalog)
9. All credits counted toward the post-baccalaureate certificate, including transfer credits, must be earned within the consecutive seven-year period prior to graduation. (See How to Earn a Bachelor's Degree in the UAF Catalog)
10. Students may be awarded two or more post-baccalaureate certificates simultaneously if the 15 additional credits and other requirements have been earned for each additional post-baccalaureate certificate.

Concurrent Certificates

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

Students may pursue concurrent post-baccalaureate certificates as long as they have formally applied and been accepted to each program through the Office of Admissions.

Daniel M. White, UAF Chancellor

Date: 5/14/19

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

The following motion passed at Faculty Senate meeting #240 on May 6, 2019:

MOTION:

The UAF Faculty Senate moves to approve a new Post-Baccalaureate Certificate in Accounting, housed in the School of Management.

Effective: Fall 2019, upon all approvals

Rationale:
The Post-Baccalaureate Certificate in Accounting will attract new and returning students to the University of Alaska Fairbanks, thereby helping to achieve the university's enrollment growth goals. This post-baccalaureate certificate has the potential to draw many students.

It will fulfill a community need by providing skilled and educated workers in an increasingly growing field. The Post-Baccalaureate Certificate in Accounting is designed for students seeking a successful transition into a new career and will provide them with the academic knowledge to obtain a professional certification. This certificate will prepare students to work throughout the rural and urban communities in Alaska and, in turn, will help to increase economic development throughout Alaska. Further, the courses for this certificate are already offered and thus incorporation of this certificate program will incur minimal costs.

SOM already has several students every academic year that meet the requirements for this post-baccalaureate degree but they are leaving UAF without any recognition of the classes they have taken. Post-baccalaureate certificate degrees in accounting are typically sought by students without an accounting undergraduate degree, and not wanting to complete a second baccalaureate degree, to show they have the required knowledge to future employers. It will fulfill a community need by providing skilled and educated workers in an increasingly growing field.

Support:
For information about the program, please see the attached documentation.

Daniel M. White, UAF Chancellor

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

Brief Statement of the Program:

Objectives:

1. To provide students with non-accounting background the academic knowledge to switch careers into the accounting field.
2. To prepare students to successfully take the Certified Public Accounting (CPA exam).

Evaluation of objectives:

1. Academic Performance
2. Career Promotion

Relations to Purpose of the University:

- Educate: This certificate is designed to help those students in different careers to gain the knowledge to make a successful transition into a second career.
- Research: There is not much of a research component to this degree. It will allow future accountants to disseminate their knowledge to the community though.
- Prepare: This certificate is designed to prepare students in pursuit of their accounting career. Providing students with the academic knowledge to obtain a professional certification is key to their preparation.
- Connect: The certificate will prepare students to work throughout the rural and urban communities in Alaska. Many accounts, especially in the interior, work directly with tribal communities as well as those in the city. In a career like accounting, their knowledge is spread throughout the community and benefits everyone.
- Engage: This continuing education program allows students to be prepared for job placement which in turns increases the economic development throughout Alaska.

How does the program relate to research or service activities? Contributions to research or service. Benefits from research or service activities:

It will fulfill a community need by providing skilled and educated workers in an increasingly growing field.

Plans for recruiting students:

Students will be recruited through traditional means just as job fairs and marketing.

Employment Market Needs:

Job opportunities:

Research was conducted through the Bureau of Labor Statistics, the Department of Labor, and DataUSA.

Now: There were 141,800 projected job openings in 2018. This was a 0.9% increase from 2015-2016.

DocuSign Envelope ID: 3CD1F67D-F3FB-455E-B294-1AAD6C48E6D7

Two years from now: Projected employment growth from 2015-2020 was expected to be 3.0 per year.

Five years from now: Accounting has the largest projection for growth for 2022 of any business or financial operations.

Ten years from now: It is projected that accounting jobs openings will increase 10% from 2016-2026. This is faster the average nationwide. In Alaska alone, it is expected to increase by 4%.

Facilities/Space Needs:

No new space is needed for the Accounting Post-Baccalaureate degree as all classes are currently being taught.

Credit Hour Production:

Total hour production, at the estimated 10 students per semester (as a full-time student) is 120 per semester or 240 credit hours per year.

Library/Media Materials, Equipment and Services:

There will be no additional library resources outside of what is already provided to the BBA-Accounting students.

Admission Requirements

Students need to have a completed baccalaureate degree.

Both ACCT F261x and ACCT F262, or equivalents, must be completed prior to starting the program.

President, UAF Faculty Senate

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

The following was passed at Faculty Senate meeting #239 on April 8, 2019:

UAF Faculty Senate Stands on IT

To: Chancellor Dan White

From: Faculty Senate Information Technology Committee

Date: April 3, 2019

The ongoing year-on-year budget cuts have significantly affected support units, including information technology (IT) support.

Yet nearly all our shared university goals require significant IT support:

- Increasing enrollment and the efficiency of **instructional** delivery will require significant investment in both instructional technology and instructor support.
- Improving effectiveness of **distance** teaching and collaboration will require functional, supported tools for distance.
- Modernizing the **student** experience requires build-out of functional networks and services to support those students.

We therefore recommend, at minimum:

- Emphasize a sustainable, predictable, and appropriate **budget** allocation to IT matters on campus
- **Investment** in, and **evaluation** of, lean, effective and cost-effective software platforms for all UAF operations
- A **review** of, and potential set up, a major structural changes to improve the current shortcomings, e.g. smart class rooms, Blackboard, Faculty180, Blue student evaluations, Course Leaf catalogue, and student enrollment checks as candidates to be considered. This review should encompass:
    - Cost and effectiveness
    - Convenience
    - Accessibility

The Faculty Senate would like to remind the administration that IT support is critical to success of many initiatives moving forward across the UA-system. A strong IT sector will attract qualified faculty and staff, and increase student enrollment. IT needs such a sustainable, consistent, long-term budget allocated, to build predictable institutional support for our teaching, research, and service. There is no way to fulfil our institutional mission, or develop our institutional reputation without competent IT support. UAF is internationally recognized and needs to not just lead the state in IT, but help Alaska lead the Arctic and Pacific Rim into the digital century.

Daniel M. White, UAF Chancellor

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

The following motion passed at Faculty Senate meeting #239 on April 8, 2019:

MOTION:

The UAF Faculty Senate moves to amend the catalog to include a definition of "catalog year" and to clarify that summer is a "trailer" term (the final term of the catalog year).

Effective: Fall 2019

Rationale: We are required to state whether summer is a header (first term of the catalog year) or a trailer (final term of the catalog year). The question usually arises in the context of Title IV aid or VA benefits. UAF has had a longstanding practice of treating summer as a trailer, but this has never been formally declared. Having summer be a trailer is generally to the student's favor:

1. If a student's first term is summer, it gives them an additional catalog year (prior year) to choose from at the time of graduation.
2. It allows students to maximize financial aid, counting summer as part of the prior aid year and fall beginning the new aid year.

****

Additions within checklist in **ALL CAPS** is proposed as follows:

Create a new section under "Academics and Regulations" labeled "Catalog Year."

UAF DEFINES CATALOG YEAR AS BEGINNING IN THE FALL AND ENDING AT THE CONCLUSION OF THE SUMMER SEMESTER. FOR EXAMPLE, THE 2021-22 CATALOG YEAR INCLUDES FALL 2021, SPRING 2022 AND SUMMER 2022.

****

The Chancellor: ✓ Approves _____ Vetoes _____ Acknowledges

Daniel M. White, UAF Chancellor

Date: 4/22/19

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

The following motion passed at Faculty Senate meeting #239 on April 8, 2019:

MOTION:

The UAF Faculty Senate moves to remove ten-day specification for the waiting period for the solicitation of comments or objections prior to review of a proposal.

Effective: Fall 2019

Rationale: The process has been outdated due to the implementation of CourseLeaf. The new documented process will replace the process previously approved by the Faculty Senate on March 9, 1992 (Meeting #33).

****

Route to Approval of Curriculum

1. Item is prepared by individual faculty member, department head, etc., in CourseLeaf or using the appropriate paper forms. The submission will be sent to the department head(s) for approval.

2. If approved by the department head(s), the request is sent to the respective College/School Curriculum Council(s).

3. If approved by the College/School Curriculum Council(s), the request is sent to the respective dean/director.

4. If the proposal needs further approval, it will be sent to the UAF Governance Office to be distributed to the appropriate Faculty Senate Curriculum Committee.

5. ~~There will be a ten-day waiting period for the solicitation of comments or objections prior to review by the appropriate Faculty Senate Curriculum committee. Comments and objections will be forwarded to the originating department for discussion with the objecting department and/or the appropriate Faculty Senate Curriculum committee. Comments and objections will be forwarded to the originating department for discussion with the objecting department and/or the appropriate Faculty Senate Curriculum committee.~~ **FACULTY MAY TAKE THEIR COMMENTS AND CONCERNS TO THEIR UNIT'S CURRICULUM COMMITTEE AND/OR THE APPROPRIATE FACULTY SENATE COMMITTEE AT ANY TIME DURING THE OPEN-REVIEW PROCESS IN THE SEMESTER IN WHICH THE PROPOSAL WAS SUBMITTED.**
   PROPOSALS WILL BE ROUTED TO THE FOLLOWING COMMITTEES:

   - The Graduate Academic & Advisory Committee (GAAC) will review graduate programs and graduate-level course offerings and all professional degree courses and programs, including 500-level courses.
   - The Curriculum Review Committee will review substantive undergraduate course and program additions, changes, and deletions.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

- The GER & Core Committee reviews and approves courses submitted by the appropriate college/school curriculum councils for the inclusion in the GER curriculum.
- **THE STUDENT ACADEMIC DEVELOPMENT & ACHIEVEMENT COMMITTEE WILL REVIEW 0-LEVEL COURSE OFFERINGS.**
- The Full Faculty Senate will review Program Deletion requests and New Degree Program requests after the appropriate committee(s) (Curriculum Review, Curricular Affairs, or Graduate Academic & Advisory Committee) have reviewed.

6. Proposed academic changes approved by the Faculty Senate or Faculty Senate Committee will be forwarded to the Chancellor's Office (or designee, routinely the Provost).

7. The Chancellor's Office has 30 days after receipt to review and approve/disapprove the submission. The submission will then be returned to the Governance Office and Provost's Office.

8. The Governance Office notifies academic deans and departments and the Registrar's office of approvals/disapprovals.

9. Item becomes active when it is included in the next UAF catalog

    - Except for Special Topics and Trial Courses which appear only in class schedules until approved as permanent courses.
    - Summer Sessions courses appear in their own catalog.

10. New programs and deleted programs are forwarded by the Provost's Office to the Statewide Academic Council for approval and submission to the UA President and Board of Regents (BoR), and a prospectus is then sent to the Northwest Commission on Colleges and Universities (NWCCU).

    - New Programs cannot be advertised, offered, listed, or enroll students prior to NWCCU approval
    - New minors and occupational endorsements are approved by the Chancellor and do not go to the BoR for approval.

The following motion passed at Faculty Senate meeting #239 on April 8, 2019:

MOTION:

The UAF Faculty Senate moves to approve the Library of Science Unit Criteria.

Effective: Fall 2019
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Faculty of the Library Science Department. Revisions were agreed upon by the department representatives and the Unit Criteria Committee. The unit criteria was found to be consistent with the UAF guidelines. The document formatting was brought into compliance with the current UAF Unit Criteria template; and revisions to the criteria reflect a range in workload distributions common for Library Science tripartite positions.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND LIBRARY SCIENCE UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE LIBRARY SCIENCE DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. ***A master's degree in library science (MLS) or equivalent from an American Library Association (ALA) accredited program is the recognized qualification for academic librarians. In some circumstances a master's or doctoral degree in a specified field may serve as an alternative.*** Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

specified in the annual workload agreement document, the part(s) defining the position may not.

Library science faculty frequently have workload distributions that frequently range between 65-80 percent service, 10-30 percent research and 10-25 percent teaching.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***and library science unit criteria and indices***, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

Teaching workloads for library science faculty vary, usually starting from a base of 2-4 units per year. Instruction may also include contact with students or other audiences through distance delivery, workshops, seminars, training and public presentations.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students ***and other audiences***;

   b. express positive regard for students, develop good rapport with students ***and other audiences and*** show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student ***and other audiences*** participation for student learning and teacher effectiveness, are sensitive to student ***and other audiences*** diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly ***revise curriculum and*** develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design. ***In addition to teaching credit courses, library science faculty may also conduct lectures, workshops, and seminars for discipline-based courses or non-credit programs at any level. They may also organize teaching workshops or prepare course modules for broad distribution.***

   g. may receive prizes and awards for excellence in teaching.

2. **Components of Evaluation**

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

And optionally:

e. ***student opinion summary forms designed by library science faculty for the evaluation of workshops, seminars, or guest instruction sections,***

f. ***testimonials from students and other audiences.***

Teaching criteria for promotion to the rank of professor may include, but are not limited to:

1. ***Development and/or adaptation of new methods and approaches in the discipline;***
2. ***Receipt of university, state or national awards;***
3. ***Student/ other audience reviews and teaching evaluations that are consistently above average;***
4. ***Invited teaching.***

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

Research, scholarly, and creative activity are a small portion of the normal library science faculty workload, usually from a base of about 1-2 units per year.

Library science research may include scholarship of discovery and integration involving the development, evaluation and incorporation of new ideas into existing systems of knowledge; scholarship of instructional theory, methodologies and results; scholarship of application especially addressing specific library, archival or curatorial practices and their results.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, ***case studies, translations, book chapters, annotated bibliographies, presentations and posters at professional meetings***, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

   f. Scholarly reviews of publications, art works and performance of the candidate.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development. ***Peer-reviewed adaptations of new technology including software development relevant to information access and/or delivery of library services.***

m. ***Peer-reviewed exhibit curation.***

Research criteria for promotion to the rank of professor may include but are not limited to:

1. ***Development and/or adaptation of new methods and approaches in their area of expertise;***

2. ***Receipt of university, state or national awards;***

3. ***Ongoing contributions to published research; scholarly, creative, or professional achievement;***

4. ***Invited presentations at the state, national or international level.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

University service is usually the largest portion of the library science workload.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

1. **Public Service**
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting ***in the faculty member's area of expertise.***

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

   i. Training and facilitating.

   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. **University Service**
   University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

Activities relating to the normal and necessary functioning of the UAF library and performed on a regular basis are considered to be components of university service. For most library faculty this comprises the bulk of their university service responsibilities. Specific activities include but are not limited to:

Reference:
Reference services provide a link between library patrons and information sources. They usually include personal assistance in identifying, locating, and using appropriate resource materials.

Collection development:
Collection development is the process by which librarians determine the books, journals, non-print media, on-line databases and other items to be included in the library's holdings. This process includes: assessment of usage data; liaison relationships with academic departments; promotion of resources to potential users; co-institutional cooperative purchases, and establishment of long-term consortial agreements. Management or administrative activities: responsibilities may include: budgeting; supervising and evaluating staff; strategic and other long-term planning; development of policies and procedures; data analysis, and report writing related to the functioning of the library.

Information technology:
Information technology involves assessment and implementation of current technologies pertaining to the library's infrastructure and operations. This may include the planning, creation, installation and maintenance of software systems; design of website architecture; and development of

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

operational policies.

Archives:
Archival activities involve the provision of public access and research services to historical collections of papers, photographs, manuscripts and other unique and unpublished materials. Included are the establishment of donor relationships; grant administration and other funding opportunities that extend normal library budgeting; appraisal of collections to determine administrative or historical value; arrangement and description of collections; preservation of fragile materials and/or obsolete media; development of outreach programs, and the organization and preservation of digital data.

Curation:
Curation at the UAF library typically involves the management and development of a formally recognized collection that serves students and researchers at university, state, national and international levels. Examples of curatorial activities include, but are not limited to:

i. Maintaining, enhancing and enlarging the collection (includes computerization and database development; archival upgrades; conservation and identification, and adding objects to the existing collection);

ii. Interacting with state and federal agencies and with the public on collections-related issues;

iii. Promoting use of the collections through loans, exchanges, and visiting research activities;

iv. Directing collections managers, student employees, and volunteers;

v. Creating exhibits and educational activities and materials appropriate to the collection;

vi. Pursuing funding for collections growth and maintenance;

vii. Producing curatorial or collections-related publications, reports, and/or manuals.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

3. **Professional Service**
   a. Editing or refereeing articles or proposals for professional journals or organizations.

   b. Active participation in professional organizations.

   c. Active participation in discipline-oriented service organizations.

   d. Committee chair or officer of professional organizations.

   e. Organizer, session organizer, or moderator for professional meetings.

   f. Service on a national or international review panel or committee.

4. **Evaluation of Service**
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Effectiveness in service may be evaluated by any of the following methods:

a. Library activities performed on a regular and continual basis are evaluated by the annual review process and may be supplemented by supporting documentation from peers inside or outside the university;

b. Documentation demonstrating successful development and implementation of projects, policies, procedures and standards;

c. Letters supplied by colleagues within and outside the university evaluating performance, contributions to the library and assistance to individuals and/or groups;

d. Testimonials demonstrating outcomes and/or effectiveness of service activities;

e. Honors and awards for performance excellence within and outside the university, including library and professional organizations and associations.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

Service criteria for promotion to the rank of professor may include but are not limited to:

1. ***Record of active leadership and meaningful participation in institutional and professional activities;***

2. ***Receipt of university, state or national awards;***

3. ***Invited consultations at the state, national, or international level;***

4. ***Evidence of continuing growth and maintaining currency in the field.***

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

The following motion passed at Faculty Senate meeting #239 on April 8, 2019:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Alaska Native Studies and Rural Development (DANSRD).

Effective: Fall 2019
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Department of Alaska Native Studies and Rural Development (DANSRD). Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF guidelines. These revisions are proposed outside of the review cycle to address changes that had been made to the criteria during the in-cycle 2017 review, which added content drawn from other units that is not appropriate for all DANSRD faculty. The revisions presented here remove these additional requirements that had been added to require specific evidence for each rank, and retain only the text that elucidates and clarifies the unique nature of DANSRD.

UAF Regulations for the Appointment and Evaluations of Faculty and Department of Alaska Native Studies and Rural Development (DANSRD) Unit Criteria, Standards, and Indices

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE ALASKA NATIVE STUDIES AND RURAL DEVELOPMENT DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

"Our mission is to increase cultural awareness and strengthen leadership capacity for rural and Indigenous communities in Alaska and the Circumpolar North through degree programs that promote academic excellence, personal development, professional skills, global awareness and respect for Indigenous cultures and commitment to community."

Rural development (RD) is an applied program that is made available at both baccalaureate and graduate levels to students on the Fairbanks campus, across the state, and beyond using a combination of high quality, innovative delivery methods including intensive seminars, audioconferencing, web-based teaching and other distance technologies.

Alaska Native Studies (ANS) is an academic program available at the baccalaureate level as both a major and a minor. Students take advantage of the same delivery methods as RD, and DANSRD faculty teach courses in both programs. Students from ANS are encouraged to take RD courses (e.g. as a minor sequence) and vice-versa with the result that both programs produce well rounded graduates.

Both programs encourage national and international engagement with Indigenous scholars and political leaders. Guests from Indigenous communities outside the state deliver lectures to students in both programs, and faculty maintain active connections with international counterparts. International students attend both RD and ANS courses.

As an academic discipline, rural development is a rapidly expanding field with an increased number of universities offering post- baccalaureate opportunities for study. DANSRD offers a unique opportunity for Alaska's students to connect to peers in the field and share new ideas to benefit rural communities and enhance their careers.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

DANSRD serves a large body of non-traditional students and their communities. The program often employs innovative methods to ensure that these students get the most out of their education, and that their communities benefit from department research and scholarly activity. These methods are reflected throughout our unit criteria.

The department often looks to trusted peers from within the communities served for expert review and objective evaluation of its work. These peers possess knowledge and expertise that may or may not be directly tied to formal education. In many cases Indigenous leaders have earned their positions through learning from a wide range of sources over many years. This kind of learning and oversight is essential to DANSRD.

DANSRD's mission identifies specific indigenous populations at community, regional and statewide levels. When DANSRD provides professional expertise to these communities it is not merely a general pro-bono benefit to society at large. Rather, it is a research or scholarly activity within the mandate of the DANSRD mission, and not an act of service.

Given the applied nature of the program, faculty members may from time to time have greater or lesser than average assignments in research. In these cases, expectations of them should be adjusted accordingly, using the level of activity specified in the annual workload assignment as the prime determinant.

The following is an adaptation of UAF and Regents' criteria for promotion and tenure specifically developed for use in evaluating the faculty in the department of Alaska Native studies and rural development (DANSRD). Items in bold italics are those specifically added because of their relevance to the departmental mission. These unit criteria are for use in all evaluations of faculty.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***and DANSRD unit criteria, standards and indices***, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees,

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching;

   h. ***demonstrate ability to teach effectively through the simultaneous use of more than one delivery method, e.g, courses with students in the classroom and in attendance via other means of distance delivery at the same time.***

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

c. peer/department chair classroom observation(s), ***including seminar/distance instruction***

d. peer/department chair evaluation of course materials ***and excellence in development/utilization of course materials.***

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Considering the DANSRD mission and discipline, therefore, the locus and audience for DANSRD research expands to include Native and rural communities and/or constituencies. The key to research/scholarly/creative activities is that these activities should be applicable to the mission of the unit and also that the results of these activities should be disseminated through media accessible to and utilized by those whom they are intended to benefit. Certain activities and definitions, therefore, have also been expanded to reflect DANSRD's particular mission "...to strengthen leadership capacity for rural and indigenous communities in Alaska and the Circumpolar North through degree programs that promote academic excellence, personal development, professional skills, global awareness, respect for Indigenous cultures and commitment to community." Further, there is often an overlap between research and public service such that the results of DANSRD's research, scholarly and creative activities directly benefit Alaska's Native and rural communities as much as they do the university community.

To keep DANSRD true to its mission, appropriate dissemination of results will include reporting to and informing community, regional and state organizations such as Alaska Native Corporation boards, the Alaska Federation of Natives, Alaska Native tribal organizations and international Indigenous organizations. These are the organizations where appropriate judges for DANSRD's work are found. All of these entities support media which can publish or otherwise showcase the work of DANSRD faculty.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

c. They must be evaluated by peers ***including those defined on pages one and two*** external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution ***to the communities served by DANSRD and to the university***.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, ***manuals, needs assessments, program evaluations, annotated bibliographies, translations and transcriptions***, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses, ***or by legal, industry or government publications*** that accept works only after rigorous review and approval by peers in the discipline ***or other appropriate judges.***

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers, ***DVDs, or invited papers*** before learned societies that accept papers only after rigorous review and approval by peers ***or other appropriate judges. Submission of research proposals that reflect the rigor, detail, and expertise required by academic research/grant proposals and/or the completion of contracted research reports to agencies and funding sources, formal presentations of research/information to Alaska Native organizations such as Alaska Federation of Natives, regional corporations, tribal councils, results of community planning processes as reported to community entities, development of planning processes reviewed by community boards, drafting and submitting regulatory proposals on behalf of partner communities, etc.***

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, ***especially in those play or dance productions that present indigenous materials including theater/drama/Festival of Native Arts/Cama-i, and other statewide festivals,*** selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications ***and publications of special interest to Native and rural constituents and/or constituencies.***

h. Published abstracts of research papers.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

i. Reprints or quotations of publications, ***cataloging and archiving data collections of dance/performance video and audio tapes,*** reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities ***including awards for the development of video tapes, websites & CDs which disseminate information about rural development and Alaska Native Studies,*** or selection ***for scholarships for participation in programs of advanced study or*** of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in ***community planning, that will be reviewed by local resident boards as well as those useful in*** solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***Non-refereed journal articles and monographs including authorship of a book or major reference in the faculty member's area of a scholarly activity.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees ***or other governmental bodies including tribal governments, Alaska Native corporations, health corporations, etc.***

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies, ***appointment to internal editorial boards and scholarship selection committees.***

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

DocuSign Envelope ID: 31836571-2BB5-4270-A635-C1827E1E1F98

d. Participation in accreditation reviews ***and unit and campus wide evaluation.***

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee ***and appointment to proposal evaluation/grant selection committees.***

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

ORIGINAL

MOTION:

The UAF Faculty Senate moves to amend the grading policy so that C- (1.7) shall be the minimum acceptable grade that a student pursuing a certificate or associate degree may receive for a course counting toward certificate or degree requirements or as a prerequisite for another course.

EFFECTIVE: Fall 2019

RATIONALE:

1. This will make the grading policy consistent regarding the minimum grade for all certificate- and degree-seeking students (Meeting #191, May 2013)
2. The catalog language for certificates and associate degrees will be brought in-line with the catalog language currently used for a bachelor's degree under General University Requirements.
3. A grade of C- is the minimum acceptable grade for General Education Requirements for Baccalaureate Students. Having a C- minimum standard will better serve students who are considering a bachelor's degree following a certificate or associate degree.
4. The grades of D-, D, and D+ will still be treated as passing grades in electives unless otherwise noted by the program.

Revised Catalog Language:

You must have a cumulative GPA of at least 2.0 in your major and overall. ~~Students~~ **YOU** must earn a ~~minimum grade of~~ C- **OR HIGHER** in all ~~major~~ courses **REQUIRED FOR YOUR DEGREE, UNLESS OTHERWISE SPECIFIED BY YOUR MAJOR (MAJOR, MINOR, GENERAL EDUCATION REQUIREMENTS, AND DEGREE REQUIREMENTS).**
~~Some majors require higher GPAs for major course work.~~

MOTION:

The Faculty Senate moves to update Faculty Senate Bylaws in regards to the member composition for the Curriculum Review Committee. See changes highlighted below:

BYLAWS of the UNIVERSITY OF ALASKA FAIRBANKS FACULTY SENATE
Revised May 7, 2018 (Meeting #232)
Sect. 3 (ART V: Committees) H. Permanent. 4.

The Curriculum Review Committee evaluates proposed substantive undergraduate course and program additions, changes, and deletions submitted by the appropriate school/college curriculum committees. Among the topics of its review are number and duplication of courses, credit assignment, establishment of need for new programs, and resource impacts of curricular changes. Decisions of the Curriculum Review Committee may be appealed to Curricular Affairs by the department submitting the proposal. The Committee shall be composed of the chairs of the college/school curriculum councils, the University Registrar or the Registrar's designee, an eCampus designee, and shall be chaired by a member of the Curricular Affairs Committee.

RATIONALE:
As recent years have witnessed an increase in the number of courses offered in an array of modalities through collaboration with eCampus facilities and staff, there is a growing need to include an eCampus delegate to the Faculty Senate Curriculum Review Committee. The presence of such a delegate serves to facilitate a better understanding of online learning environments and how to review courses that are offered by the myriad modalities this pedagogical platform provides.

ORIGINAL

MOTION:

The UAF Faculty Senate moves to amend the approved updated procedure to accomplish the program review process as required by Board of Regents and UA Regulations (10.06) which it passed at Meeting #219 on December 5, 2016. The amendment adds a conflict of interest policy to Section One of the program review procedure.

EFFECTIVE: Immediately

Rationale: Faculty members selected to serve on the UAF Program Review and Special Program Review Committees are often faculty within the programs under review. This motion recognizes this conflict of interest by establishing the policy of abstaining from voting on programs in which one is a faculty member.

This has been historical practice, but passage of this motion makes it a formal policy.

AMENDMENT:

Faculty members serving on the UAF Program Review Committee must abstain from voting on programs in which they are affiliated.

UAF GOVERNANCE COORDINATING COMMITTEE PROCEDURES

INTRODUCTION

Faculty, staff, and student governance is established by University of Alaska Board of Regents' policy. Each governance organization operates independently, but with formal interchanges of information made possible by reports as part of regular meetings. For example, the ASUAF and Staff Council **REPRESENTATIVES** [[presidents]] are non-voting members of the UAF Faculty Senate, and report on the work of their individual governance organizations at each meeting of the Faculty Senate. The **ASUAF AND** Faculty Senate **REPRESENTATIVES** [[president]] also deliver[[s]] a report on **ASUAF AND** Senate activities at each meeting of the Staff Council.

Issues can arise within governance that require the attention of more than just one governance body. In such a case, the issue can either be brought directly to each body by an appropriate individual or group (e.g., administration) or it can be brought to the UAF Governance Coordinating Committee[[, which is then charged with the responsibility]].

The fundamental obligation of the **UAF GOVERNANCE** Coordinating Committee, one associated with the reason for its creation, is to assure timely consideration of an issue by each governance body and final action on the issue: it acts as monitor of progress and guarantor of completion.

To further aid the **UAF GOVERNANCE** Coordinating Committee in carrying out its obligations, it also supports the existence of certain [[standing]] committees concerned with campus-wide activities [[(such as the health issues committee)]] and receives reports from other committees outside its control who are also concerned with campus-wide issues [[(such as the police advisory board)]].

The **UAF GOVERNANCE** Coordinating Committee also creates [[ad hoc]] committees as needed to address particular issues not under the purview of an existing committee. The procedures detailed herein define the structure and working of the UAF Governance Coordinating Committee.

ARTICLE I Name

Sect. 1 The name of this organization shall be the UAF Governance Coordinating Committee.

ARTICLE II Purposes, Responsibilities, and Authority

DocuSign Envelope ID: 2071B6B0-48EE-4F9E-A0FF-67DC4B741012

Sect. 1 The purposes of the UAF Governance Coordinating Committee are:

A. The body will exist for the express purpose of coordinating [[unified]] action from the individual governance bodies and to address issues of common concern.

B. Provide a mechanism of communication [[between]] **AMONG** the governance bodies.

[[C.]] **E.** Work with [[standing]] committees to consider issues affecting multiple constituencies. The committees will report to the UAF Governance Coordinating Committee.

D. Appoint members to [[standing]] committees as needed, ensuring that there is representation from each of the governance constituencies. [[Exceptions to committee composition will be made when agreed upon by all constituencies.]]

[[E.]] **C.** Create and appoint [[ad hoc]] committees as needed.

F. The body coordinates recommendations from the [[standing and ad hoc]] committees.

[[G. The body will coordinate the review and acceptance of the academic calendar upon receipt from the Faculty Senate Administrative Committee. The Coordinating Committee will submit the academic calendar to the Chancellor for approval.]]

ARTICLE III Membership

Sect. 1 The UAF Governance Coordinating Committee will consist of the [[president and president-elect, or their designee, of the three governance bodies. In the case of ASUAF, the Senate president will serve on the UAF Governance Coordinating Committee (For the purpose of identifying membership, the three governance bodies are the Associated Students of the University of Alaska Fairbanks, Faculty Senate, and Staff Council).]] **GOVERNANCE MANAGER, THE PRESIDENT AND PRESIDENT-ELECT OF FACULTY SENATE, THE PRESIDENT AND VICE PRESIDENT OF STAFF COUNCIL, AND THE PRESIDENT AND VICE PRESIDENT OF THE ASSOCIATED STUDENTS OF THE UNIVERSITY OF ALASKA FAIRBANKS (ASUAF), OR THEIR DESIGNEES.**

ARTICLE IV Leadership

Sect. 1 **THE GOVERNANCE MANAGER WILL CONVENE THE UAF GOVERNANCE COORDINATING COMMITTEE.** The chairperson of the UAF Governance Coordinating Committee will be elected from its members for a one- year term. The election will occur at the last UAF Governance Coordinating Committee meeting of the academic year, which must follow the completion of all governance elections.

ARTICLE V Committees

DocuSign Envelope ID: 2071B6B0-48EE-4F9E-A0FF-67DC4B741012

[[Sect. 1 The standing committees of the UAF Governance Coordinating Committee shall include:]]

Sect. [[2]] **1**

A. [[Standing c]]**C**ommittees shall have at least one representative from each of the governance constituencies, exception will be made when agreed upon by all constituencies.

[[B. Terms of all committee members will be one year for students and two years for faculty and staff.]]

B. COMMITTEES WILL FUNCTION UNTIL THEIR PURPOSE IS COMPLETE. NEW MEMBERS WILL BE APPOINTED AS NECESSARY.

C. Committee chairs will be elected from and by the respective committees.

D. Committee chairs shall forward committee business to the UAF Governance Coordinating Committee for disposition, except when limited by University of Alaska regulations.

E. Policy items from the [[standing]] committees must be forwarded to the individual governance bodies for action.

F. In addition to the committees' specific charges, the primary responsibility of the committees are formulation and oversight of university-wide policies under the purview of each committee.

G. Committees will meet as needed during the academic year to fulfill their duties.

H. The chairs of the [[standing]] committees will report recommendations [[at the monthly]] **TO THE** UAF Governance Coordinating Committee [[meetings]].

[[Sect. 3 Ad Hoc Committees may be established as demand warrants.]]

Sect. [[4]] **2** The **UAF** Governance Coordinating Committee will receive reports from other committees outside its control who are also concerned with campus issues. [[Examples include: police advisory board, technology board, one-card committee, and any other committee deemed relevant to faculty, staff, and students.]]

ARTICLE VI Meetings

Sect. 1 The UAF Governance Coordinating Committee will meet at least twice a semester during the academic year.

DocuSign Envelope ID: 2071B6B0-48EE-4F9E-A0FF-67DC4B741012

ARTICLE VII Quorum

Sect. 1 A quorum will constitute at least one member from each of the governing bodies.

ARTICLE VIII Parliamentary Authority

Sect. 1 The parliamentary authority shall be the latest edition of Robert's Rules of Order.

ARTICLE IX Amendments

Sect. 1 Amendments to the Procedures require**S A MAJORITY VOTE TO INCLUDE ONE MEMBER FROM EACH GOVERNING BODY** [[two-thirds vote from each of the three governing bodies]].

Sect. 2 Amendments to the Procedures shall be forwarded to the Chancellor's office for approval.

Revised January 2019. This page is maintained by Meryem Udden, at maudden@alaska.edu.

RESOLUTION

to support Chancellor Daniel M. White, and the mayors of Fairbanks, North Pole, Ester, and the Fairbanks North Star Borough, in proclaiming Fridays as "Blue and Gold Fridays."

WHEREAS, UAF Staff Council supports the proclamation that Fridays be known as "Blue and Gold Fridays" in the Fairbanks North Star Borough communities; now

THEREFORE BE IT RESOLVED, that UAF Staff Council supports Chancellor Daniel M. White in advocating to the mayors of Fairbanks, North Pole, Ester, and the Fairbanks North Star Borough, that Fridays be known as "Blue and Gold Fridays."

Changes to the Facilities and Administration Rate: Likely Negative Consequences

To: Chancellor Dan White

From: Faculty Senate Research Advisory Committee (RAC)

Date: December 3, 2018

Faculty were recently informed that UAF has applied to the Office of Naval Research to allow the maximum Facilities and Administration rate (F&A, commonly known as "Overhead") that can be charged on grants to rise from 50.5% to 63.9%. If implemented immediately as a change to the standard overhead rate, such an increase would be likely to severely hinder the research effort at UAF and could potentially lead to a reduction, rather than the intended increase, in F&A income. This action would be in direct conflict with the UA President and Chancellor's stated goal of UAF achieving R1 Carnegie Classification (Highest Research Activity), increasing overall research revenues, and increasing enrollment. Some of the reasons why a rate increase of this size would be detrimental are:

- **A Zero-Sum Game:** Many funding sources explicitly or implicitly limit total budget. Consequently, an institutional increase in F&A is effectively a decrement to the money available to execute the work. Given that writing grant proposals is labor intensive and time spent writing proposals is time not doing research, faculty cannot cover the increase in F&A by simply generating more proposals. The likely outcome is that faculty will fund fewer students, postdocs, and technical staff in their proposals to accommodate the increased overhead rate.
- **Price Matters to Reviewers**: Even when a funding agency is sympathetic to higher overhead rates (and they rarely are), reviewers generally are put off by high overhead rates. In the current hyper-competitive environment for grants, where 1 out of 10 funding success is common, the less expensive of two equally worthy proposals will be funded.
- **Comparison with our Peers**: An overhead rate of 63% is higher than most universities, especially public universities (e.g., University of Washington is 55%, University of Idaho is 47.5%). Not only does this hurt faculty's competitiveness in the peer-review process, it hinders UAF's ability to recruit and retain faculty.
- **Collaborative proposals:** Many proposals are collaborative work between several universities. An excessive overhead rate makes UAF a less attractive partner for research proposals lead by other universities. Shared expenses are often directed to the organization with the lowest overhead, further limiting the research dollars to UAF.
- **Impact on Operational Programs:** UAF has many large operational programs, such as the Alaska Satellite Facility (ASF), the Alaska Earthquake Center (AEC), the Alaska Volcano Observatory (AVO), and the Wilson Alaska Technical Center (WATC). Many of these programs (in part) rely on competitive F&A rates to compete against peers. This marked increase in F&A rates will not be received well by funding agencies that have grown accustomed to the ~50% rate over the past ~20 years. This will result in either a

DocuSign Envelope ID: A3572633-8C82-46CE-85D1-BEA7371154F9

loss of these large grants and contracts or reduced staffing in the proposal itself, resulting in a loss of jobs at UAF.

While the Faculty Senate acknowledges that the maximum overhead rate is proposed according to set formulas, how, when, and if that maximum rate is applied is at the discretion of UA administration. Therefore, we urge that UAF implement the following to help mitigate this potential increase and provide improved future decision making:

1. Existing grants and contracts, and those currently in review at the time the new rate is implemented, should be grandfathered in to the F&A rates when they were awarded or proposed.
2. Inform the faculty in advance when large-scale actions are likely to cause an increase in overhead rates, as this should be discussed as part of the decision-making process at the university.
3. Clear processes and pathways should be established for considering a lower F&A rate for a range of programs where the maximum allowed rate will be especially detrimental to the chances of funding success.
4. Any increase in F&A should be phased in over multiple years.

To summarize, there is little opportunity to pass along a higher overhead rate to funding entities, and the result of an overhead increase is likely to be a decrease in overall research funding and student support. We urge UAF administration to engage faculty in the decision-making process for application of allowed overhead rates.

Respectfully,

The Research Advisory Committee on behalf of the UAF Faculty Senate

MOTION:

The Faculty Senate moves to update the description of academic credit calculations to align with current practices.

RATIONALE: The policy is written in several publicly posted places, such as the governance website, on new course submission forms, and in the catalogue, and the wording and thus interpretations vary. The following statement regarding credit hours will replace all such wording in order to enhance understanding and interpretation of how credit hours are actually calculated.

Website version:
The following standards establish the minimum requirements for one academic unit of credit for the course formats commonly used at UAF:

800 minutes of lecture or equivalent instructional activities plus 1600 minutes of student work outside of class.
2400 minutes of science laboratory.
1600 minutes of laboratory (non-science lab) plus 800 minutes of student work outside of class.
2400 - 4800 minutes of supervised practicum
2400 - 8000 minutes of internship (or externship, clinical)
2400 - 4800 minutes of supervised scholarly activity

Short form version:
# of credits are based on contact hours. 800 minutes of lecture + 1600 minutes of outside work=1 credit. 2400 minutes of lab in a science course=1 credit. 1600 minutes in non-science lab + 800 minutes of outside work=1 credit. 2400-4800 minutes of practicum or supervised scholarly activity=1 credit. 2400-8000 minutes of internship or externship=1 credit.

MOTION:

The UAF Faculty Senate moves to form the Student Extended Leave Policy (SELP) ad hoc committee to develop policy to benefit students who need to take an extended leave.

EFFECTIVE: Fall 2018
upon Chancellor acknowledgement

RATIONALE: Currently, there is no Faculty Senate policy that guides faculty or students when students need to take an extended leave of absence from their coursework, e.g. for bereavement, to care for a critically ill family member, to move for military deployment, and other reasons. The ad hoc committee will work with ASUAF and student affairs personnel to craft a policy that would benefit students and act as a guide for faculty.

Charter members may include:
Sandra Wildfeuer, Faculty Senate
Victoria Smith, Director of Student Support Services
Sine Anahita, Faculty Senate (and convener)
Chiebuka Lebechi, ASUAF member
Keith Champagne, Vice Chancellor for Student Affairs (invited)

Program Review, Accreditation and Assessment Committee

An Ad Hoc Committee of the UAF Faculty Senate

Introduction

This committee has been constituted to review, assess and develop proposals to improve UAF's program review, program accreditation, and program assessment processes and policies.

Charge and Bylaws

(Modelled after the CSW and other Permanent committees of Faculty Senate described in the Senate Bylaws.)

Charge

Utilize principles of shared governance to develop a faculty-driven, accountable culture of program review, accreditation, and outcomes assessment by ensuring that a reflective process benefits student learning. PRAAC will review and recommend changes to engender a meaningful and faculty-driven system of continuous improvement and to increase coordination between program review, accreditation, and outcomes assessment. The committee will also facilitate coordination between faculty and administrative entities relating to the formulation and enforcement of review, assessment and accreditation policies.

Rules of order

Meetings of the committee shall be conducted in accordance with Robert's Rules of Order.

Membership

The voting membership of the committee shall consist of faculty representatives with at least one from each of the following areas of representation:

- CNSM
- CLA
- CEM
- CTC
- CRCD
- CFOS
- SoM

- NRE

The committee will also have ex officio (non-voting) members:

- Vice Provost and Accreditation Liaison Officer
- A Dean of a college

Meetings

All meetings of the Committee shall be open. Meeting notes and annual reports shall be provided to the Faculty Senate.

ORIGINAL

MOTION:

The Faculty Senate moves to postpone approval of the minutes from Faculty Senate meeting #233 to the November meeting.

EFFECTIVE: October 8, 2018

RATIONALE: due to unavoidable circumstances, the minutes from the meeting will not be completed until the November meeting.

Title IX Policy Advisory Committee

An Ad Hoc Committee of the UAF Faculty Senate

Introduction

The intent of the committee is to help craft effective policy that not only meets federal requirements but most importantly is practical and effective at protecting the UAF community from threats to physical and mental well being based on gender, as well as to academic freedom from unnecessarily broad and sweeping policies.

Charge and Bylaws

(Modelled after the CSW and other Permanent committees of Faculty Senate described in the Senate Bylaws.)

Charge:

Utilize principles of shared governance to work with the UA and UAF administrations to craft practical and effective policies and practices that ensure adherence to Title IX while protecting academic freedom for students and faculty.

Purpose

This committee advises on Title IX university regulation and policy at the University of Alaska Fairbanks and serves as a pool of faculty representatives for system-wide Title IX faculty committees.

Such actions will include but are not limited to:

- Review current Title IX policies and practices at UAF and UA;
- Research best practices related to Title IX at other universities, OCR guidelines, AAUP statements and reports, scholarly research, and other sources of information;
- Suggest changes to policy and practices to ensure effectiveness, compliance with the law, and respect for the principles of academic freedom, due process, and shared governance
- Advocate for UA and UAF Title IX policy and practices to expand beyond a focus on sexual misconduct to fully embrace the original intent of Title IX as stated in the law itself: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."
- Support academic freedom, shared governance, due process, and other principles as well as strict adherence to the spirit and letter of Title IX;

- Coordinate with UAF governance organizations and other university and external groups and organizations who are engaged in work related to Title IX.

Membership

Membership on the committee consists of up to ten faculty who are voting members including a chair and a co-chair who are selected by the voting members of the committee; at least one staff person appointed by Staff Council and who has voting rights; at least one student appointed by ASUAF and who has voting rights; and the UAF Title IX Coordinator as a non-voting ex officio member. At least two members shall be members or officers of the Faculty Senate.

Meetings

All meetings of the Committee shall be open. Meeting notes and annual reports shall be provided to the Faculty Senate.

ORIGINAL

The following motion passed at Faculty Senate meeting #233 on September 10, 2018

MOTION:

The UAF Faculty Senate moves to approve mandatory academic advising for all undergraduate degree-seeking students for the summer semester.

EFFECTIVE:

Summer 2019

RATIONALE:

UAF is unique to the UA system in that we require mandatory academic advising for all undergraduate degree-seeking students for the fall and spring semesters. Summer session(s), in the past, has been left out of this requirement.

Summer semester has been considered a "regular semester" for purposes of financial aid eligibility and academic standing since the UAF Faculty Senate passed the motion at the December 7, 2015 (meeting #211) to change the academic disqualification policy to apply to students whose GPA falls below 2.0 per semester for two consecutive semesters (including summer session).

Students are now being held to the same standards during summer that they are during their fall and spring semesters. Since UAF is on a three-semester cycle for potential Academic Warning, Academic Probation, and Academic Disqualification standings, summer semester plays a significant role in students' academic standing depending on how many courses they are taking. Therefore, there should be equal support, equal accountability, and equal academic advising offered to students.

Academic advisors will inform students who are taking only one course of the negative effects of not successfully completing that single course offered in the summer. Advisors will explain the policy clearly so that students understand that the GPA associated with that single course is the cumulative GPA for the summer semester and can affect academic standing.

This change should not pose considerable stress on academic departments to provide additional academic advisors since the majority of students register for their summer session courses before the spring semester is completed. All schools and colleges have designated staff or faculty academic advisors that are available throughout the summer for advising of summer or fall.

For summer 2017 (undergraduate degree-seeking students ONLY)

1,143 registrations before May 1 (68%)
531 registrations after May 1 (32%)

For summer 2016 (undergraduate degree-seeking students ONLY)

1,192 registrations before May 1 (67%)
578 registrations after May 1 (33%)

Having mandatory academic advising will benefit the students by:

- Assisting them in identifying courses that will help advance their degree.
- Explore scholarship/grant options available for summer sessions students.
- Educate students on the benefits of taking courses during summer sessions as well as the negative ramifications of doing poorly in summer sessions course work.

The following was passed at Faculty Senate meeting #233 on September 10, 2018

Resolution in Support of Allowing Candidates for Promotion, Tenure, or Comprehensive Review to Opt for Open Meetings

Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution at Meeting #176 in September 2011, Meeting #184 in September 2012, Meeting #192 in September 2013, Meeting #200 in September 2014, Meeting #208 in September 2015, Meeting #218 in November 2016, and Meeting #225 September 2017. For academic year 2017-2018, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #233 September 10, 2018.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2017-18 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

ORIGINAL

The following motion passed at Faculty Senate meeting #232 on May 7, 2018

MOTION:

The UAF Faculty Senate moves to update the regulations and guidelines on course stacking.

Effective: Immediately

Rationale: The current regulations and guidelines on course stacking are unclear and need clarification for the purposes of CourseLeaf coding and its relationship with Banner. Stacked courses are being defined in order to codify the processes that are currently used for these types of courses.

The policy on Stacked and Cross-listed Courses was updated for the catalog at meeting #123 on May 3, 2004. Courses are sometimes offered simultaneously at different levels (100/200 or 400/600, for example) with higher level credit requiring additional effort and possibly higher order prerequisites from the student. Such courses are referred to as "Stacked" courses and are designated in the class listings by "Stacked with ____". In the case of 400/600 level stacked courses, graduate standing or permission of the instructor is required for graduate enrollment and a higher level of effort and performance is required on the part of students earning graduate credit. For all stacked courses, the course syllabus (not the catalog) must stipulate the course content and requirements for each level. The catalog should indicate the difference in prerequisites for each level.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ ____Acknowledges ____Vetoes

Daniel M. White, UAF Chancellor Date: 5/18/18

Please see attached regulations and guidelines.

[[ ]] = deletions
BOLD = additions

COURSE STACKING REGULATIONS

With the exception of 400/600, stacked courses must be of adjacent levels (e.g. 200/300). Other stacked combinations (e.g. 100/600) are not allowed under any circumstances. **STACKED COURSES ARE REQUIRED TO HAVE THE SAME TITLE, COURSE DESCRIPTION, AND NUMBER OF CREDITS. THE ADDITIONAL EFFORT REQUIRED FOR HIGHER LEVEL CREDIT MUST BE CLEARLY SPELLED OUT IN THE COURSE SYLLABUS.**

[[ ]] = deletions
BOLD = additions

Guidelines for Stacking [[of 400 / 600 level]] courses:

IT IS IMPOSSIBLE TO OFFER IDENTICAL COURSES SIMULTANEOUSLY AT TWO DIFFERENT LEVELS. WE USE STACKING BECAUSE IT HELPS WITH COURSE ENROLLMENT PROBLEMS, BUT THE CHALLENGE IS TO CREATE SOMETHING THAT'S NOT SIMPLY ONE LEVEL. WE RECOGNIZE THAT THE DESIGN OF A 'STACKED' COURSE REQUIRES COMPROMISE TO CREATE CONTENT THAT CHALLENGES GRADUATE STUDENTS WHILE REMAINING ACCESSIBLE TO UNDERGRADUATES. WE OFFER THE FOLLOWING GUIDELINES TO HELP YOU PREPARE SUCH A COURSE AND TO PROVIDE THE UAF FACULTY SENATE COMMITTEES WITH SUFFICIENT INFORMATION TO ENTHUSIASTICALLY ENDORSE WHAT YOU'VE CREATED.

THE DIFFERENT LEARNING OBJECTIVES REQUIRED FOR CREDIT AT EACH LEVEL MUST BE CLEARLY SPELLED OUT IN THE COURSE SYLLABI. THIS REDUCES THE OPPORTUNITY FOR LATER CONFLICTS BY PROVIDING STUDENTS WITH A CLEAR UNDERSTANDING OF THE DIFFERENCES IN REQUIREMENTS AND GRADING. THIS WILL BE GIVEN SERIOUS CONSIDERATION IN THE APPROVAL PROCESS FOR SUCH COURSES.

THE CREATION OF TWO DIFFERENT SYLLABI WILL HELP EMPHASIZE THE DIFFERENT LEARNING OUTCOMES OF WHAT ARE SUPPOSED TO BE TWO DIFFERENT COURSES. WE ENCOURAGE AT LEAST WEEKLY, IF NOT DAILY, DIFFERENCES IN READING ASSIGNMENTS, HOMEWORK ASSIGNMENTS, MEETINGS WITH STUDENTS, AND OTHER CLASS ACTIVITIES. ONLY ADDING AN EXTRA TERM PAPER TO THE GRADUATE SECTION OF A STACKED COURSE IS UNLIKELY TO TRANSFORM AN UNDERGRADUATE CLASS INTO A GRADUATE CLASS. SUCH AN EXTRA PAPER, HOWEVER, CAN BE PART OF A SYSTEMATIC DIFFERENCE BETWEEN THE TWO VERSIONS.

WITH THE EXCEPTION OF 400/600, STACKED COURSES MUST BE OF ADJACENT LEVELS (E.G. 200/300). OTHER STACKED COMBINATIONS (E.G. 100/600) ARE NOT ALLOWED UNDER ANY CIRCUMSTANCES. STACKED COURSES ARE REQUIRED TO HAVE THE SAME TITLE, COURSE DESCRIPTION, AND NUMBER OF CREDITS. THE ADDITIONAL EFFORT REQUIRED FOR HIGHER LEVEL CREDIT MUST BE CLEARLY SPELLED OUT IN THE COURSE SYLLABUS.

[[400 level (senior) courses may be double-listed (stacked) as 400/600.]] The [[600]]**HIGHER** level version of the course must require additional student effort[[,]]. **IN THE CASE OF 400/600 LEVEL STACKED COURSES ADDITIONAL STUDENT EFFORT FOR THE 600 LEVEL VERSION,** such as a seminar or a term paper, **SHOULD** [[to]] reflect the greater acuity that we expect from graduate students. [[

In the case of 400/600 level stacked courses,]]**PREREQUISITES OF** graduate standing or permission of the instructor is required for graduate enrollment.[[and a higher level of effort and performance is required on the part of students earning graduate credit.]]

[[The additional effort required for higher level credit must be clearly spelled out in the course syllabus. This reduces the opportunity for later conflicts by providing students with a clear understanding of the differences in requirements and grading. This will be given serious consideration in the approval process for such courses.

It is impossible to offer identical courses simultaneously at two different levels. We use stacking because it helps with course enrollment problems, but the challenge is to create something that's not imply one level between 400 and 600. We recognizing that the design of a 400/600 'stacked' course requirements compromises to create content that challenges graduate students while remaining accessible to undergraduates. We offer the following guidelines to help you prepare such a course and to provide the UAF Faculty Senate committees with sufficient information to enthusiastically endorse what you've created.]]

[[The creation of two different syllabi -- undergraduate and graduate versions -- will help emphasize the different qualities of what are supposed to be two different courses. We encourage at least weekly, if not daily, differences in reading assignments, homework assignments, meetings with students, and other class activities. Only adding an extra term paper to the graduate section of a stacked course is unlikely to transform an undergraduate class into a graduate class. Such an extra paper, however, can be part of a systematic difference between the two versions.]]

400/600 LEVEL [[S]]stacked course applications are reviewed by the (Undergraduate) [[Curricular]]**CURRICULUM** Review Committee (CRC) and by the Graduate Academic and Advising Committee (GAAC). The committees will determine: 1) whether the two versions [[are]] **HAVE** sufficiently different **LEARNING OUTCOMES** (i.e. is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate

students being undertaxed? In this context, the CRC and GAAC are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do.

In developing a proposal for a new stacked course or for revising an existing course, keep in mind the education level and training needs of undergraduates and graduates and provide documentation to show **HOW** each section of the course will offer learning experiences appropriate for your students. Your students will thank you for giving them -- within the limitations of the 'stacked' framework -- the best possible educational experience.

ORIGINAL

The following motion passed at Faculty Senate meeting #232 on May 7, 2018

MOTION
=======

The UAF Faculty Senate moves to conduct a faculty-wide survey in early Fall 2018, no later than October 1, measuring faculty sentiment to adopt a Carnegie Hour course schedule for the 2019-2020 academic year for which the standard course blocks will be of either 50 or 75 minutes duration.

EFFECTIVE
Immediately

RATIONALE
The University of Alaska Board of Regents adopted policy in Spring 2014 (amended in Fall 2015):

> **P10.04.100. Academic Calendar**
> A common academic calendar for all university campuses will provide for a fall and spring semester of not less than fifteen weeks of instruction, which may include examination days; start and end dates, recesses, and daily schedules.

The original policy adopted in Spring 2014 contained the following trailing verbiage that was deleted per suggestion of the Provosts[1]:

> ... and daily schedules, i.e., course blocks, will be common among all campuses. Class schedules must provide for a minimum of 800 minutes of instruction per credit hour.

At present, the semester start and end dates, break periods, add/drop and fee payment dates across the University of Alaska Anchorage, the University of Alaska Fairbanks, and the University of Alaska Southeast are now aligned. The course blocks, however, are not yet aligned. Alignment of course blocks helps to facilitate cross-campus course sharing and other dedicated synchronous activities. This motion continues UAF's initiative to implement the intent of BoR Policy.

Nationwide, most universities use 50 minute and 75 minute course blocks. See AACRAO March 2016 60 Second Survey Results, where for undergraduate courses 81% of institutions use 50 minute course blocks, 18% use 55 minute course blocks. (60 minute course blocks were not explicitly listed.)

In particular, UAA uses 50 minute course blocks. Aligning course blocks between UAA and UAF would enable more sharing of courses via synchronous video, which has been

[1] UA Associate Vice President Saichi Oba, *Re: UA Common Calendar Update*, Memorandum to UA President James Johnsen, 28 August 2015.

extensively used in Engineering; the limiting factor is currently the minimal number of matching course blocks. Currently no course times exactly match across campuses, but start times at 8:00 a.m. and 3:30 p.m. at least begin at the same time. If UAF used 50 minute blocks, the TR schedules would align perfectly with no additional work.

Switching from 60 to 50 minute blocks would allow one more course period per day, which could be used either for dedicated cross-campus meeting.

Because of the common course start times, UAF's 60 minute course blocks mean UAF teaches many more contact minutes than are required (16% more). With the ongoing effort to align GER courses, it is difficult to argue that aligned courses are equivalent when a course at one university meets for a significantly different amount of time than the equivalent course at another university.

ORIGINAL

The following motion passed at Faculty Senate meeting #232 on May 7, 2018

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the School of Natural Resources and Extension / Agricultural and Forestry Experimental Station (SNRE-AFES).

Effective: Fall 2018
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Unit Criteria for the School of Natural Resources and Extension / Agricultural and Forestry Experimental Station. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF guidelines.

The revisions reflect the name change from the School of Natural Resources and Agricultural Sciences to the School of Natural Resources and Extension, and document formatting was brought into compliance with the current UAF Unit Criteria template. There were minor edits made to the existing unit specific criteria that did not modify the content or intent of the criteria.

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____ Vetoes

Daniel M. White, UAF Chancellor

Date: 5/18/18

See attached Unit Criteria.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND UNIT CRITERIA, STANDARDS, AND INDICES FOR FACULTY APPOINTED IN NATURAL RESOURCES AND ENVIRONMENT PROGRAMS AND THE AGRICULTURAL AND FORESTRY EXPERIMENT STATION

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE NATURAL RESOURCES AND ENVIRONMENT PROGRAMS /AGRICULTURAL AND FORESTRY EXPERIMENT STATION. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV ***and in Natural Resources and Environment Programs/Agricultural And Forestry Experiment Station (NRE/AFES) unit criteria, standards, and indices***, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service. ***Evaluations should be consistent with an individual faculty member's job description and workload assignment. This applies to tenured and tenure-track faculty and to non-tenure track faculty such as research faculty.***

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and

counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers ***will demonstrate the following characteristics pertinent to their workload assignment:***

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity; ***create an atmosphere of openness in the classroom that encourages students to freely express their own ideas and viewpoints;***

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design, ***including web-based materials and distance-delivery teaching.***

   g. may receive prizes and awards for excellence in teaching

   h. demonstrate thorough understanding of UAF and NRE/AFES academic requirements in order to facilitate effective advising and mentoring of individual students during the term of their degree program.

   i. demonstrate effective service as an undergraduate advisor, senior thesis mentor, and/or graduate committee chair.

   j. promote undergraduate student involvement in faculty scholarly projects.

   Specific NRE/AFES criteria for teaching performance:

Assistant Professor: ***evidence of high quality teaching and a commitment to a quality teaching program in the department as demonstrated through peer, department, and/or student teaching evaluation.***

Associate Professor: ***evidence of the expected quality of instructional performance may include (but is not limited to) superior classroom teaching as demonstrated by teaching evaluations, course and/or curriculum development including contemporary and relevant material that stimulates the learning process, novel approaches to instruction and use of assignments, and effective guiding and mentoring of individual students.***

Professor: ***major contributions to the instructional program are expected. These contributions may include (but are not limited to) excellent classroom teaching as demonstrated by teaching evaluations, major improvements in course and/or curriculum offerings, upgrading of instructional techniques, ability to motivate and/or inspire students. Must provide evidence of excellence in training and mentoring of graduate students for faculty in programs that grant graduate degrees.***

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair classroom observation(s),

   d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Researchers who receive federal and state formula funds (such as Hatch and Macintire-Stennis funds) through the Agricultural and Forestry Experiment Station (AFES) have a special mission to conduct research with direct application to government agencies, private businesses, agricultural and forestry producers, natural resource managers, educators, and other researchers in Alaska. This is a fundamental obligation of the AFES to the people of Alaska. Each faculty member so funded is expected to disseminate the results of their research in activities such as AFES peer reviewed publications, workshops, seminars, conferences, newsletters, and forums directed specifically at end users, as well as in appropriate journals, conferences, and reports to the funding agencies.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, ***electronic journals, interactive electronic publications, maps,*** and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline and ***external to UAF.***

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs, ***sophisticated computer models that help in the understanding of complex systems,*** and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. Peer-reviewed publications internal to UAF, published by AFES or CES, including circulars, bulletins, research progress reports, and miscellaneous publications

Specific NRE/AFES Criteria for Research Performance:

Assistant Professor: evidence of the ability to establish a viable research program in the area of specialization and show creativity and productivity in research.

Associate Professor: must have established a research program that produces original publications in the peer reviewed or editorial board reviewed, literature. Demonstrated record of presentation of research results at professional meetings, submission of research proposals, and acquisition of external research funding.

Professor: demonstrate continued excellent record of presentation of research results at professional meetings, submission of research proposals, and acquisition of external research funding. The research program should have produced high impact, original publications in the professional literature. There should be a record of graduate involvement for faculty in programs that grant graduate degrees.

D. Criteria for Public and University Service *and Professional Service.*

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. ***Public service includes cooperation with agencies administering natural resource policies, public education, and response to the problems of local industry, agricultural and forestry producers, and the Alaskan public.*** Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting, ***unpaid consulting, one on one consultation with clientele, site visitations to agencies, farms, and production facilities for problem-solving consultation.***

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at ***clientele-oriented*** workshops, conferences, or public meetings, ***field days, conferences, and tours.***

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. Active participation in constituency organizations.

m. User-oriented presentations at workshops, field days, conferences, and tours.

n. Production of fact sheets and extension publications for general information.

o. Participation in K-12 outreach programs such as globe, map teach, math in a cultural context, school-yard LTER, Alaska rural research partnerships, and related programs.

p. Presentations outside one's specialty but of a professional nature in public forums such as community groups, professional groups, government bodies, and related forums, such as meetings of civic organizations.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***new faculty***.

j. Prizes and awards for excellence in university service.

3. **Professional Service**
   a. Editing or refereeing articles or proposals for professional journals or organizations.

   b. Active participation in professional organizations ***and professional meetings, including committee chair or officer of professional organizations, session organizer or moderator for professional meetings, and related activities.***

   c. Active participation in discipline-oriented service organizations.

   d. Committee chair or officer of professional organizations.

   e. Organizer, session organizer, or moderator for professional meetings.

   f. Service on a national or international review panel or committee.

4. **Evaluation of Service**
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in ***professional***, public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, ***invitations to speak at clientele meetings/conferences*** and other public means of recognition for services rendered.

   Specific NRE/AFES Criteria for Service Performance:

   Assistant Professor: should emphasize public service, limited university service, and professional service in accordance with discipline standards and individual workload.

   Associate Professor: contributions to the department and the university, contributions to the public in the faculty member's area of expertise, and service to the faculty member's profession are expected.

***Professor**: evidence of leadership in the service area is expected and may include, but is not limited to, service as committee chair, session organizer, officer of professional organizations. Evidence of excellent contributions to the development of department al and/or university programs and excellent application of professional expertise to professional or public processes and organizations.*

ORIGINAL

The following motion passed at Faculty Senate meeting #232 on May 7, 2018

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the School of Education.

Effective: Fall 2018
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the School of Education. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF guidelines.

The revisions to the existing criteria primarily reflect document formatting and the criteria was brought into compliance with the current UAF Unit Criteria template.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____ Vetoes

Date: 5/10/18

Daniel M. White, UAF Chancellor

See attached Unit Criteria.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND SCHOOL OF EDUCATION UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE SCHOOL OF EDUCATION DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

THE DOCUMENT GOVERNS EVALUATION OF ALL UAF FACULTY WITH A PRIMARY LOCUS OF RESPONSIBILITY IN THE SCHOOL OF EDUCATION. IT IS NOTED THAT THESE CRITERIA DIFFER FROM THOSE FOUND IN THE COLLEGE OF NATURAL SCIENCES AND MATHEMATICS MORE GENERALLY. REGULATIONS IN THE NATURAL SCIENCES UNIT CRITERIA OR THE DEPARTMENT OF MATHEMATICS AND STATISTICS UNIT CRITERIA DO NOT APPLY TO THE SCHOOL OF EDUCATION.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. ***The SOE recognizes the value of academic and scholastic diversity. As such, the unit does not require each candidate demonstrate equal strength in each area of tripartite responsibility. Candidates will be ranked in each area by the SOE peer unit committee (PRC). The PRC consists of all tenured members of the SOE. Members of the SOE who are on sabbatical or off campus for extended periods have the option of participating, but this is not required. Members of the committee may abstain from voting, but only in accordance with SOE operating procedures. Candidates will be ranked in each category of responsibility according to the following scale: excellent, very good, good, satisfactory, unsatisfactory.***

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Tenure. A candidate for tenure will be judged on the basis of performance and indications of potential in all applicable areas of responsibility, with emphasis placed on the interval since the last promotion or hire, whichever is most recent. In order to qualify for tenure, a faculty member should have demonstrated a sustained performance in all their areas of responsibility. While there is no objective definition of "sustained" nor is there any requirement for any length of time at any particular rank, a typical candidate for tenure should normally have served at least five years at the rank of assistant professor at UAF or elsewhere. Untenured faculty should refer to their collective bargaining agreement and initial appointment letter regarding mandatory year of tenure review.

For tenure, a record of quality instruction and research is important. However, SOE also recognizes the particular importance of service to our many stakeholders (E.G., Alaska Department of Education and Early Development, the Council for the Accreditation of Educator Preparation (CAEP), the Council for the Accreditation of Counseling and Related Educational Programs (CACREP), support to clinical mental health organizations, and school counseling-related educational institutions). As such, the unit does not require each candidate demonstrate equal strength in each area of tripartite responsibility.

Assistant Professor. A faculty member at the assistant professor level must have an earned doctorate or demonstrated equivalent. Demonstrated equivalence will be decided on an ad hoc basis by the PRC. Those working at the rank of assistant professor should demonstrate a commitment to teaching, research, and service.

Associate Professor. In order to qualify for this rank, a record of quality instruction, research and service is important. Those working at this rank are expected to demonstrate a continuing dedication to research, teaching, and service.

Professor. This is the greatest single honor that the university can bestow on a member of its faculty. The honor must therefore be made upon careful consideration of the candidate's total demonstrated contribution to the university and the field of education. The honor is reserved for those who have demonstrated excellent performance in their field, which is sustained over a significant interval of time. Specifically, in the year the candidate applies for promotion to professor, a vote will be taken by the PRC.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction
A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, ***supervision of teacher education and counseling students/candidates,*** laboratory or field and preparatory activities, such as preparing for lectures, ***providing professional development training,*** setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, ***directing undergraduate and graduate research, teaching, and service;*** training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, ***including curricular revision required to meet national***

accreditation and/or state licensure requirements, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

h. may engage in diverse instructional activities such as teaching at rural or branch campuses, teaching distance-delivered courses, teaching in summer school, and development of curriculum materials, professional development workshops and courses for counselors, teachers, and educators, including those uniquely suited to Alaska schools, school counseling-related organizations, and clinical mental health organizations.

i. may provide supervision of students during formal clinical practice, student teaching, or internships.

j. may involve students, undergraduates as well as graduates, in research activities.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s), ***or similar observations of instruction outside classrooms,***

d. peer/department chair evaluation of course materials.

Additional sources of evidence of effectiveness in teaching may consist of but are not limited to:

e. Instructor may utilize a class pretest/posttest.

f. Examples of student progress or skills, represented by improvements in early and late semester skills **or products, or other mechanisms that can document improvement.**

g. Instructor-designed student opinion of instruction to supplement (not replace) UAF-approved instructional assessment system.

h. Letters of support from students or peers.

Specific SOE criteria for instructional performance before promotion to:

Associate professor: the record must show that the material taught is relevant and that the presentations stimulate the learning process. Evidence of the expected quality of instructional performance may include (but not limited to) course and/or curriculum development, novel approaches to instruction, effective advising and mentoring of students, effective classroom teaching performance, and/or evidence of supervision of graduate student research (as a major supervisor or co-supervisor) leading to successful completion of the degree program.

Professor: significant contributions to the instructional program are expected. These may include, but are not limited to: contributions to major improvements in course and/or curriculum offerings, ability to motivate and/or inspire students,

awards for excellence in teaching, leadership in directing graduate students' research, significant experience as graduate committee chair leading to successful completion of graduate degree program(s), and/or effective recruitment or retention of students, as evidenced by letters of support from advisees or other advisors.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. ***SOE recognizes the value of diversity in research. As such, the unit values disciplinary and interdisciplinary work as well as independent scholarship with single authorship and collaborative work with joint authorship. Candidates involved in collaborative research are recommended to describe their contributions to the collaborative project and their individual role in joint publications in their narrative self-evaluation.***

A faculty member's complete publication record, including papers published prior to their affiliation with the UAF School of Education, is relevant to promotion and tenure decisions. Candidates will demonstrate relevant research throughout their career, as well as adequate performance in residence at UAF.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to ***the following items, which the unit considers to be important considerations in the promotion and tenure process:***

a. Books, ***book chapters, edited books,*** reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses, ***including electronic journals and presses,*** that accept works only after rigorous review and approval by peers in the discipline. ***SOE also values publication in journals devoted to both scholarly and practitioner audiences.***

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research ***or invited*** papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions ***pertaining to education, counseling and related fields,*** selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline. ***Production of educational videotapes or multimedia digital works reviewed and utilized by schools, colleges or communities.***

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as ***educational and counseling models,*** computer programs and systems

for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

- ***Textbooks, curricula, or curricula materials for k-12 schools or colleges that result in publications that are peer reviewed or editorial board reviewed.***

- ***National and state educational policy and planning that result in peer-reviewed or editorial board reviewed publication.***

- ***Development of curricula or curricular materials that are reviewed and utilized by state or local agencies, organizations, school districts, or community boards.***

Specific SOE criteria for scholarship performance before promotion to:

Associate Professor: must have established an appropriate research, scholarly, or creative program as evidenced by the criteria listed above.

The submission of research proposals, the completion of contract research reports, and publication in conference proceedings constitute supplementary evidence that the scholarly program is of high quality. The faculty member must show evidence of sustained scholarly productivity. The faculty member shows independence and leadership by the creation of scholarly ideas that involve collaborations with peers in their field of specialization, students, school personnel or personnel in state or national organizations.

Professor: the scholarly program should have produced clear evidence that the candidate is a leader in their field. Publications and other products should be of sufficient quality and quantity to demonstrate the existence of an on-going, professional scholarly program. A national or international reputation as demonstrated by professional activities or presentations at meetings, the receipt of awards, and documented opinions of others in the field is expected. There should be a record of successful completion of graduate work by his or her students.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

SOE faculty typically devote a significant percentage of their activities to service. Due to UA board of regents' and other UA administrative mandates, Alaska Department of Education and Early Development licensure requirements, school counseling-related organizations, and clinical mental health organizations and the requirements of national accreditation (e.g., CAEP, CACREP), faculty have significant responsibilities to numerous stakeholders both external and internal to the unit. Some service activities result in frequent travel and participation in numerous committees. These activities are recognized as of great importance to the unit.

1. **Public Service**
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting. ***Consulting in the faculty member's area of expertise and discipline consistent with the obligation for public service.***

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

   i. Training and facilitating.

   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media, ***curricular materials, informational bulletins, journals***

and newsletters utilized by state or local agencies, school districts or community boards, and organizations.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. Providing professional development for teachers, counselors as well as other education personnel, clinical stakeholders, and community members.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews ***is of particular importance and value to the SOE.***

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring, including ***faculty.***

j. Prizes and awards for excellence in university service.

k. Services as outside reviewer on UAF thesis committees.

l. ***Preparation of university reports.***

m. ***Consulting with UAF faculty in and outside SOE in discipline specific activities that are not counted as research (e.g., that do not lead to coauthored publication).***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

g. ***Providing professional discipline-oriented services to individuals, couples, families or organizations.***

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Specific SOE criteria for service performance before promotion to:

Associate Professor: must have demonstrated an appropriate contribution to public, university and/or professional service as evidenced through the criteria listed above.

Professor: Evidence of leadership in the service area is expected. contributions to departmental/school/ college/ university matters are expected as well as effective application of expertise to professional and public organizations.

The following motion passed at Faculty Senate meeting #232 on May 7, 2018

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Geophysical Institute.

Effective: Fall 2018
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Geophysical Institute (GI). Revisions were agreed upon by the GI department representatives and the Faculty Senate Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF guidelines.

The revisions to the criteria include addition of content specifically addressing inventions and development of intellectual property, and minor document formatting.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____Vetoes

Daniel M. White, UAF Chancellor

Date: 5/18/18

See attached Unit Criteria.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND GEOPHYSICAL INSTITUTE (GI) UNIT CRITERIA, STANDARDS, AND INDICES

The following is an adaptation of the UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of the Geophysical Institute (GI) Department/s. Items in boldface italics are those specifically added or emphasized because of their relevance to the department's/s' faculty, and because they are additions to UAF regulations.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment.

Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles.

Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline.

C. Process for Appointment of Faculty with Academic Rank.

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall observe procedures for advertisement, review and selection of candidates to fill any vacant faculty positions. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank.

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies, and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the selection process.

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment.

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage

of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III.

Periodic Evaluation of Faculty

Those faculty of the Geophysical Institute who hold a tenure-track joint appointment with a UAF college or school are evaluated under the unit criteria of the respective college or school.

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

Bipartite faculty members at the Geophysical Institute predominantly fill positions performing in the research and service components of the University's mission, but may have a teaching component.

Specific sciences criteria for teaching performance:

Bipartite faculty who engage in teaching as an overload should not be required to do so as a condition for evaluation or promotion. Evaluations must be consistent with an individual faculty member's workload agreement. If a research faculty member has an assigned teaching component as part of their workload, teaching should be part of the

evaluation in the same proportion as it is to their whole workload for the entire review period.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. ***When evaluating the quality of the teaching, consideration should be given to the nature of the course.*** Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

h. Demonstrate effective mentoring of undergraduate and/or graduate

students.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair classroom observation(s),

   d. peer/department chair evaluation of course materials.

Specific criteria for teaching performance:

- ***Assistant professor: Evidence of teaching ability and a commitment to a quality and current teaching program. Student evaluations and summary statistics should show that the majority of students rate courses favorably, and, if not, there should be a definite upward trend showing improvement over time. Course materials such as syllabi, exams, projects and homework should reflect the course description and be contemporary. The faculty may provide evidence for active support of student research at the undergraduate and/or graduate level.***

- ***Associate professor: The record must show that the teaching material is contemporary and relevant and that the presentations stimulate the learning process. Evidence of the expected quality of instructional performance may include, but is not limited to, course and/or curriculum development, novel approaches to instruction, versatility in instructional assignments, effective guiding and mentoring of individual students, or high quality student or other teaching evaluations (e.g. peer-evaluation). The record may also show active and successful mentorship in research at the undergraduate and/or graduate level. Such mentorship can include membership on graduate advisory committees.***

- ***Professor: Significant contributions to the instructional program are expected. These contributions may include major improvements in course and curriculum offerings, securing funds to enhance instructional and/or laboratory settings, leadership in departmental level curriculum core revisions, student learning outcome assessments, student advising, and***

mentoring of graduate students to the completion of their degree. The faculty must show a consistent record of high-quality teaching.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

   b. Competitive grants and contracts to finance the development of ideas, ***support research and/or contribute to the support and development of research partnerships and research facilities, collaborations and campaigns,*** these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions, selection for these performances

being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving ***research*** *problems, such as computer programs, and systems for the processing of data,* ***sample preparation,*** genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***Mentoring students in research and laboratory techniques.***

n. ***Conducting experiments and producing scientific data used in scholarly publications.***

o. ***Inventions, disclosures with substantial documentation, patent applications and awards, and transfer of developed intellectual property (patents, copyrights, and trade secrets) to a commercial entity.***

Specific criteria for research performance:

- ***Assistant professor: Evidence of the ability to establish a viable research program in the area of specialization, normally a sub-discipline of the natural sciences (with the option of research in science education). This should include several of the following:***
  - ***Peer-reviewed publications from research performed at least in part during their current appointment***
  - ***Proposals that were either funded or received favorable reviews.***
  - ***Recruiting graduate and/or undergraduate research students***
  - ***Acquiring data that promises to result in publications***
  - ***Establishing a professional reputation that demonstrates visibility in the scientific community***

- ***Presentations such as talks or poster presentations at scientific meetings***
- ***Development of intellectual property into protected formats (patents, including pending patents, copyrights, and trade secrets) and commercialization of such intellectual property through university or private ventures.***

➢ ***<u>Associate professor</u>: Must have established an appropriate research program. The faculty member should show independence and leadership by the creation of research ideas that translate into projects that may involve post-doctoral fellows, graduate and undergraduate students. Examples for such a successful research program may include:***

- ***Publications in refereed professional journals, or equivalent, demonstrating significant scientific contributions. It is important for the faculty member to clearly discuss the importance of their scientific contributions in the narrative.***
- ***Publication of discipline-relevant data and metadata, contribution to cyber infrastructure, or contributing to publicly available computer models***
- ***Presentation of research results at professional meetings***
- ***Leadership in preparation and submission of research proposals***
- ***Acquisition of external research funding***
- ***Having demonstrated successful mentoring of graduate and/or undergraduate students in the faculty's field of expertise which can be demonstrated for instance by graduating the student, student presentations and publications, student awards or grant success, professional placement of students after graduation.***
- ***Development of intellectual property into protected formats (patents, including pending patents, copyrights, and trade secrets) and commercialization of such intellectual property through university or private ventures.***

➢ ***<u>Professor</u>: the research program should have produced a sufficient quality and quantity of publications to demonstrate the existence of an on-going, professional, independent research program. There could be a record of student involvement including successful mentoring of graduate and/or undergraduate students. It is expected that the faculty member should have attained an international reputation (as demonstrated by professional activities or presentations at meetings and by citations of publications or documented opinions of other scientists in the field). Evidence of quality publications may include data concerning:***

- ***External reviews stating the papers made major contributions***
- ***Invited talks and book chapters***
- ***Professional awards***

Within many disciplines it is common for the primary author to be listed last (often as the corresponding author); it is also considered favorable for students to be included as

coauthors or first authors. Therefore, in evaluating research performance in publication the number of first or sole authorships should not be given additional weight. Furthermore, it is essential that the faculty member clarifies in their narrative their role and research/creative/scholarly contributions in all collaborative efforts, including multi-authored publications.

D. Criteria for Public and University Service *and Professional Service*

Public service is intrinsic to the land grant/sea grant/space grant tradition and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV program ***contributions, including interviews,*** newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. ***Providing tours of research facilities to the general public (may also be counted as university or professional service depending on the audience).***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, ***research group***, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***including serving as new faculty mentors.***

j. Prizes and awards for excellence in university service.

k. ***Serving on committees that represent the University at other professional institutions.***

l. ***Management and direction of research facilities and infrastructure that may include development of research partnerships, research expeditions and***

research and campaigns and maintaining scientific equipment.

m. ***Curating samples and data and/or the management and development of formally recognized university collections that serve as research resources for students and researchers at university, state, national and international levels.***

n. Invoicing, transferring and securing of funds for the university for contract work (lab fees, consultant work) and intellectual property fees and commercialization fees.

3. **Professional Service**

   a. Editing or refereeing articles or proposals for professional journals or organizations.

   b. Active participation in professional organizations.

   c. Active participation in discipline-oriented service organizations.

   d. Committee chair or officer of professional organizations.

   e. Organizer, session organizer, or moderator for professional meetings.

   f. Service on a national or international review panel or committee.

   g. ***Serving as a mentor/advisor, committee member or external examiner for students at other institutions.***

4. **Evaluation of Service**
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university, ***and professional*** service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Measures of effectiveness of service performance include (but are not limited to):

- ***Accomplishments of the effort of organization to which service was provided.***
- ***Official recognition of quality of service (e.g., awards, letters of recommendation).***

- ***Opinions of clients served and/or colleagues involved in delivery of service.***

Specific criteria for service performance:

- ***Assistant professor:*** ***None in addition to UAF criteria.***
- ***Associate professor:*** ***Positive contribution to research group and/or university matters, effective professional contributions to the public, and/or effective service to the profession are expected.***
- ***Professor:*** ***Evidence of leadership in the service area is mandatory. Significant contributions to the development of research group and/or university programs are expected, including service to the general public and/or Alaskan teachers.***

ORIGINAL

The following resolution passed at Faculty Senate meeting #232 on May 7, 2018

RESOLUTION:

The UAF Faculty Senate moves to adopt a resolution to advise Chancellor Dan White to not take action regarding the School of Natural Resources and Extension at this time, and to instead, provide opportunities for meaningful faculty input in honor of the spirit of shared governance.

EFFECTIVE: Immediately

BACKGROUND: In February, 2018, Provost Susan Henrichs announced that she planned to recommend to Chancellor Dan White that the School of Natural Resources and Extension (SNRE) be eliminated; that the Agricultural and Forestry Experiment Station (AFES) be split from the Natural Resource Management (NRM) academic program; and that the NRM academic faculty be moved into a department within the College of Natural Sciences and Mathematics (CNSM). The Resolution asks the Chancellor to take no action on the Provost's recommendation for a number of reasons including lack of shared governance in the decision-making process, and proposes an alternative action.

Resolution Requesting UAF Chancellor Daniel White To Not Take Action Regarding the School of Natural Resources and Extension Without Faculty Input and Shared Governance

WHEREAS, the University of Alaska faces severe fiscal constraints that require cost savings and innovative approaches to maintain academic quality and breadth, increase enrollment, and build constituent support; and

WHEREAS, the University of Alaska Board of Regents Policy states "...that faculty, staff and student participation in university governance be an integral part of the university community's culture (P03.01.010)"; and

WHEREAS, the University of Alaska Regulations states "...that shared governance is an integral part of the business of the university (03.01A)"; and

WHEREAS, faculty have unique expertise in the University of Alaska system in curriculum development, academic program delivery, identification of academic and research priorities, and research development and success; and

WHEREAS, prior reorganizations and mergers of SNRE that failed to provide for meaningful faculty involvement have had disappointing results; and

WHEREAS, the SNRE Land Grant based mission to promote the responsible development, conservation, and preservation of Alaska's natural resources for the benefit of all Alaskans is unique in the University of Alaska system; and

WHEREAS, the faculty of SNRE were excluded from the process in which school elimination was decided; and

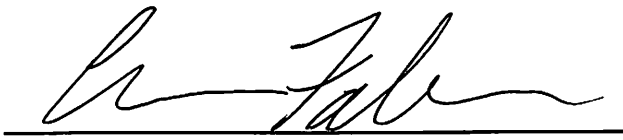
WHEREAS, no analysis has been presented that demonstrates the costs and benefits of the decision to eliminate SNRE and no significant cost savings have been identified; and

WHEREAS, there may be negative impacts to the SNRE academic, research and service programs, undergraduate and graduate students, and other constituents and clientele; and

WHEREAS, elimination of SNRE sends a negative message to faculty, students, clientele, and the public that the school's academic programs are in peril and further reinforces public perception that UAF is in decline; and

WHEREAS, SNRE has long been closely interlinked with the UAF Agricultural and Forestry Experiment Station (AFES), and the effects of the proposed administrative split on SNRE/AFES mission attainment are unclear; and

WHEREAS, elimination of the SNRE may jeopardize the school's ongoing efforts to expand enrollment in its academic programs; and



WHEREAS, realignment at UAF should occur in a thoughtful, thorough, and inclusive process that makes the most efficient use of university resources in delivering quality teaching, research and service programs; and

WHEREAS, the current provost is retiring June 30, 2018 and we recommend that the new provost should be involved in the decision-making process; and

WHEREAS, meaningful faculty involvement will strengthen decision making, result in better decisions, and ensure UAF's future success;

THEREFORE, be it resolved that the UAF Faculty Senate requests that UAF Chancellor Daniel White take no action on the elimination of SNRE until meaningful faculty input has been obtained in the spirit of true shared governance.

The following resolution passed at Faculty Senate meeting #232 on May 7, 2018

RESOLUTION

to endorse the charge given to the Chancellor's Task Force on Inclusion, Diversity, Equity, and Accessibility (IDEA) at the University of Alaska Fairbanks

WHEREAS, in response to the petition, "Supporting Leadership at UAF," (available online at https://goo.gl/PmnqRy) Chancellor Daniel White appointed a sixteen member task force named the Chancellor's Task Force on Inclusion, Diversity, Equity, and Accessibility; and

WHEREAS, the Chancellor further responded to the petition by developing a comprehensive charge for the IDEA Task Force to define the problems, collect and analyze data, and make recommendations (view the complete charge here: https://sites.google.com/alaska.edu/ideataskforce/charge-for-the-idea-task-force; and

WHEREAS, the Task Force expects to complete its work and issue a publicly available final report by March, 2019 and will then disband; and

WHEREAS, the UAF Faculty Senate supports the Chancellor's initiative; now

THEREFORE BE IT RESOLVED, that the UAF Faculty Senate endorses the charge given to the IDEA Task Force.

The following resolution was passed at Faculty Senate meeting #232 on May 7, 2018

RESOLUTION
Open Source Educational Resources

Whereas, this resolution is a response to Associated Students of the University of Alaska Fairbanks (ASUAF) SR 189-004B - Resolution to the Faculty Senate to Encourage Use of Open Educational Resources (ASUAF SR-189-004B_FY18 Resolution to Encourage Use of Open Educational Resources); and

Whereas, the Faculty Senate recognizes that the cost of textbooks places a financial burden on students; and

Whereas, the Faculty Senate recognizes that open educational resources are readily available; and

Whereas, the Faculty Senate acknowledges that UAF eLearning and the Rasmuson Library offer assistance to faculty in the use of open source resources; and **therefore, be it**

Resolved that the Faculty Senate encourages faculty to use or consider using open educational resources in their classes.

The following resolution was passed at Faculty Senate meeting #232 on May 7, 2018

RESOLUTION
Student Emergency Absence

Whereas, this resolution is a response to Associated Students of the University of Alaska Fairbanks (ASUAF) SR 189-001 - Resolution to the Faculty Senate in Regards to Student Bereavement Leave (ASUAF SR-189-001-FY18-Resolution-for-Student-Bereavement-Leave.pdf). This resolution seeks to develop consistency in how faculty respond to emergency student absence; and

Whereas, the University of Alaska Fairbanks recognizes students may have unexpected emergency absences during the semester; and

Whereas, the University of Alaska Fairbanks recognizes students may experience times of grief and bereavement due to the loss of someone close; and

Whereas, the Faculty Senate supports student academic development and achievement; and

Whereas, the Faculty Senate recognizes that students who have experienced a significant loss might not return to school, might choose to drop classes, might be unable to return to classes within a week, might be unable to complete late work, might struggle with returning to academic life, might require delayed assistance/services, and might feel uncomfortable asking for more help; and

Whereas, the Faculty Senate encourages students that have emergencies during the semester to notify a university representative of their absence, and to communicate directly with their instructor; and

Whereas, the Faculty Senate encourages faculty to work with students that have an emergency absence to develop a plan that makes it possible for the student to continue their degree progress; or to discuss other options, including: No Basis (NB), Audit (A), Withdrawal (W), and Incomplete (I); and **therefore, be it**

Resolved that the University of Alaska Fairbanks (UAF) recognizes that students will have emergency absences and that these absences may impact academic performance. Students are encouraged to notify a university representative (e.g., their instructor, the Dean of Students, an academic advisor, a Campus Director) of the unplanned absence, and faculty are encouraged to work together with students to develop a plan to complete the semester.

Be it further resolved that the Faculty Senate create an adhoc committee composed of faculty, staff, and student representatives to formulate a policy regarding Student Bereavement and/or Emergency Absence in 2018-2019.

ORIGINAL

The following motion passed at Faculty Senate meeting #232 on May 7, 2018

MOTION

The UAF Faculty Senate moves to amend the 2018-19 catalog language on WRTG placement as follows:

"Writing placement exams ~~must~~ **SHOULD** be taken within two calendar years before the start of a course; mathematics placement exams must be taken within one calendar year prior. Students enrolling in developmental or lower-division general education requirement courses must have completed any prerequisite courses within two calendar years of their enrollment."

The Faculty Senate further moves to eliminate the lower cutoff score for placement into WRTG 080, allowing any student with a placement score below placement into WRTG 090 to be enrolled in WRTG 080.

EFFECTIVE

Academic Year 2018-2019

RATIONALE

Placement score ranges for Accuplacer are changing this summer, and the UA-wide WRTG Community of Practice has recommended new cut-off score levels for WRTG 080, 090,110, and 111X. In the process, we at UAF became aware of two areas of WRTG placement policy that are out of alignment with UAA and UAS, both of which are not currently being done in practice.

First, when the Faculty Senate passed the most recent English placement motion in 2013, the motion stipulated that placement scores would expire after two years and students would need to retake the placement tests (usually Accuplacer) for placement if their scores had expired . However, according to the Registrar's office, this "expiration" is unenforceable in Banner and is not consistently followed in practice. This motion will eliminate the expiration of placement after a specified time, but will still encourage students to retest if they have not taken a WRTG class within two years after the original test.

Second, UAA does not have a lower cutoff for WRTG 080, which means that our universities are out of alignment for WRTG placement at that level. In the past, our recommendation was that students testing below the 080 cutoff be referred to a program such as Adult Learning Programs of Alaska; however, the number of students affected by this cutoff is very small, and, in practice, these students have been admitted to WRTG 080 despite the lower placement score. This motion will align UAF policy with UAA's and will also align policy with current practice.

These changes primarily affect students placing into developmental WRTG classes, but will have no impact on those placing into WRTG 111X and above.

UAF Faculty Senate Bylaws, Sect. 3 (ART V: Committees), Subsection H. PERMANENT

9. The Information Technology Committee will address information technology issues and needs affecting aspects of work faculty engage in. They will also be the recognized committee to work with requests submitted for consideration by the Office of Information Technology (OIT).

   To help ensure that perspectives from across UAF are represented, membership will consist of at least five representatives, with [[not more than one]] **up to three members** from each of the schools, colleges, institutes or libraries. Members who are not Faculty Senators may be appointed to one-year terms. Representatives from OIT and eLearning shall be ex-officio members of the committee. The committee chair must be a senator or an alternate.

Joint UAF Faculty Senate and Staff Council
Resolution of Appreciation for Emily Perryman

WHEREAS, Emily Perryman is moving on from one year of outstanding service as Faculty Senate and Staff Council Coordinator of the University of Alaska Fairbanks in June 2018; and

WHEREAS, Emily Perryman has been the coordinator for both Staff Council and Faculty Senate; and

WHEREAS, Emily Perryman has managed this dual role with grace, competence, and professionalism; and

WHEREAS, Emily Perryman has developed a variety of tools to make the role of Faculty Senate and Staff Council Coordinator more efficient; and

WHEREAS, Emily Perryman has always been prompt in responding to requests for her assistance; and

WHEREAS, Emily Perryman has provided excellent support to all Faculty Senate and Staff Council committees, to the entire Faculty Senate and Staff Council, and to leadership of both Faculty Senate and Staff Council; and

WHEREAS, Emily Perryman has shown adept skill at prioritizing the many tasks involving Faculty Senate and Staff Council; and

WHEREAS, Emily Perryman has maintained a superb level of friendly professionalism despite daily conflicting demands from a variety of faculty and staff personalities; and

WHEREAS, Emily Perryman has shown a willingness to assist in any capacity necessary in order to accomplish the goals of Faculty Senate and Staff Council; now

THEREFORE BE IT RESOLVED, That the Faculty Senate and Staff Council of the University of Alaska Fairbanks acknowledge the exemplary and lasting contributions to Faculty and Staff governance made by Ms. Emily Perryman during her first year at the university; and

BE IT FURTHER RESOLVED, that this resolution be appropriately signed by the Chancellor of the University of Alaska Fairbanks as further evidence of the esteem and respect in which he holds Ms. Emily Perryman and conveyed to her during this month of May 2018.

WHEREAS, Cynthia L. Hardy has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's greatest admiration and respect for nearly three decades; and

WHEREAS, Cynthia L. Hardy has served as Senator to the UAF Faculty Senate and as an alternate to the UAF Faculty Senate; and

WHEREAS, Cynthia L. Hardy was 2012-2013 Outstanding Faculty Senator of the Year; and

WHEREAS, Cynthia L. Hardy has served as a member of the Student Academic Development and Achievement (SADA) Committee (formerly Developmental Studies Committee) *continually* since 1994, and its chair 1999-2001 and 2006-2014; and

WHEREAS, Cynthia L. Hardy has served on the Committee on the Faculty Senate Status of Women 2005-2009, helping to set its direction as a new committee; and

WHEREAS, Cynthia L. Hardy has been a member of the Administrative Committee; and

WHEREAS, Cynthia L. Hardy has served on the Curricular Affairs Committee, and on the Curriculum Review Committee; and

WHEREAS, Cynthia L. Hardy has served on the CRCD Academic Council, and on the Chancellor's Diversity Action Committee; and

WHEREAS, Cynthia L. Hardy has served as a member of the UAF General Education Revitalization Committee (GERC); and

WHEREAS, Cynthia L. Hardy has served as a member of the UA Faculty Alliance statewide Community of Practice task force on English and Writing placement; and

WHEREAS, Cynthia L. Hardy has served as a member of the UA Faculty Alliance statewide task force on General Education Alignment; and

WHEREAS, Cynthia L. Hardy has served on many other ad hoc and subcommittees of the Faculty Senate; and

WHEREAS, Cynthia L. Hardy was a co-founding member of the Department of Developmental Education, served as Department Chair 2011-2014, and in other capacities too numerous to enumerate; and

WHEREAS, Cynthia L. Hardy has been a mentor to junior faculty; and

WHEREAS, Cynthia L. Hardy served for many years as an academic advisor with the Academic Advising Center, and won the Outstanding Advisor Award in 2000, 2004, and 2008; and

WHEREAS, Cynthia L. Hardy has successfully helped students who are considered to be developmentally unprepared to succeed at college level work; and

WHEREAS, Cynthia L. Hardy is highly respected by her colleagues and students; and

WHEREAS, On the occasion of her retirement, the UAF Faculty Senate wishes to recognize the outstanding service rendered to the students, faculty, and the University by the work of Cynthia L. Hardy; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Cynthia L. Hardy and expresses its profound appreciation for her exemplary service.

Outstanding Senate Service of the Year Award
Academic Year 2018

WHEREAS, Anna Liljedahl has served as a Co-Chair for the Research Advisory Committee during the 2017-2018 academic year and has done so in an exceptional and positive manner; and

WHEREAS, Anna Liljedahl has been a dedicated and highly effective co-chair of the Faculty Senate Research Advisory Committee (RAC) for the past two years, facilitating productive and effective discussions among committee members and UAF leadership; and

WHEREAS, through her leadership, Anna Liljedahl has built up valuable relationships between the RAC and the administrative Research Planning Group, leading to a literal seat at the RPG table for a rotating RAC member; and

WHEREAS, through her leadership, Anna Liljedahl has built up valuable relationships between the Office of Grants and Contracts Administration (OGCA), leading to increased OGCA participation in RAC meetings and activities; and

WHEREAS, Anna Liljedahl is a co-founding member of the Faculty Senate Ad Hoc Faculty Title IX Committee; and

WHEREAS, Anna Liljedahl is a tireless advocate for research faculty and the research enterprise at UAF; and

WHEREAS, Anna Liljedahl as a Faculty Senate member, strongly encouraged our Chancellors to hold appreciation gatherings for faculty; and

WHEREAS, Anna Liljedahl, as a Faculty Senate member, frequently took the time during faculty senate meetings to ask our Chancellor insightful and penetrating questions, that many of us may have been thinking, but certainly were not going to ask; and

THEREFORE BE IT RESOLVED that the UAF Faculty Senate acknowledges these valuable contributions of Anna Liljedahl, and bestows upon her the 2017-2018 Outstanding Senate Service of the Year Award.

RESOLUTION OF APPRECIATION
FOR DR. CHRIS FALLEN

WHEREAS, Chris Fallen has served the University of Alaska Fairbanks (UAF) in the UAF Faculty Senate for seven years; and

WHEREAS, Chris Fallen has served as a Senator to the UAF Faculty Senate from 2011-12 through 2014-15; and

WHEREAS, Chris Fallen has served as Alternate to the UAF Faculty Senate in 2015-16; and

WHEREAS, Chris Fallen served on the Faculty Affairs Committee from 2011-12 through 2015-16, and chair for the Faculty Affairs Committee from 2014-15 through 2015-16; and

WHEREAS, Chris Fallen served as President-Elect of the UAF Faculty Senate in 2016-17; and

WHEREAS, Chris Fallen has served as President of the UAF Faculty Senate during the current academic year where he continued shared collaborative documents to maximize efficiency for Senate Meetings; and

WHEREAS, Chris Fallen has represented UAF Faculty Senate on Faculty Alliance with our colleagues from the University of Alaska Anchorage (UAA) and the University of Alaska Southeast (UAS) to advance education outcomes across the UA system; and

WHEREAS, Chris Fallen's dry sense of humor enlivens Senate meetings while reminding us of important principles of shared governance and the need to treat people kindly and with respect; and

WHEREAS, Chris Fallen is an excellent facilitator and has always made an effort to bring everyone's voices into the conversation in a productive way, while not imposing his personal views, thus exemplifying a servant leader; and

WHEREAS, Chris Fallen has been diligent about responding to input from Senators and attending the myriad of meetings at which his presence is desired; and

WHEREAS, Chris Fallen would rather be "Keeping Calm" in the Tesla Roadster in orbit than participating in the politics of another Faculty Senate meeting, which he could probably control through HAARP; and

WHEREAS, Chris Fallen could identify readily the senators that were effectively "in space," rather than being mindful at the Senate meetings, and bring them back through fervent laughter; and

Higgs boson walks into a church, and the priest says, 'I'm sorry we don't allow Higgs bosons to come to churches.' And [the Higgs] says, 'But without me, you can't have mass.'

WHEREAS, Chris Fallen diligently advocated for thoughtful, intelligent actions by the Faculty Senate and encouraged senators to discuss and research issues pertinent to the UAF community, all the while directing the important research and business of generating artificial auroras at the HAARP Facility as evidenced at #haarpexplodingspaceunicornsatuaffairbanks;

THEREFORE BE IT RESOLVED, that the University of Alaska Fairbanks Faculty Senate acknowledges and proclaims that Dr. Chris Fallen has been a stellar Faculty Senate President, and we look forward to his leadership next year as Chair of the Faculty Alliance.

RESOLUTION OF APPRECIATION
FOR PROVOST SUSAN HENRICHS

WHEREAS, Susan Henrichs is retiring from eleven years of service as the Provost and Executive Vice Chancellor for Academic Affairs of the University of Alaska Fairbanks in June 2018, after 36 years at the university; and

WHEREAS, Susan Henrichs served with distinction as Dean of the Graduate School and Vice Provost from 2003 to 2007; and

WHEREAS, Susan Henrichs served as Program Head of the Marine Sciences and Limnology Graduate Program from 1994 to 2003; and

WHEREAS, Susan Henrichs earned the academic rank of Professor in 1994; and

WHEREAS, Susan Henrichs joined the University of Alaska Fairbanks in 1982 as an Assistant Professor of Marine Science in the Institute of Marine Science, now part of the College of Fisheries and Ocean Sciences; and

WHEREAS, Susan Henrichs has had her chemistry academic work cited more than 3,000 times with an H factor greater than the age of many of our faculty members; and

WHEREAS, Susan Henrichs cares deeply about the University of Alaska Fairbanks community and has earned the respect of faculty; and

WHEREAS, Susan Henrichs has been a role model for many faculty, staff, and administrators over the years, providing selfless service and effective leadership that her successors may envy for years to come; and

WHEREAS, Susan Henrichs has organized and led annual year-long leadership training workshops for faculty and staff, demonstrating her commitment to the future of the University of Alaska Fairbanks; and

WHEREAS, Susan Henrichs is a tireless worker dedicated to the well-being of the entire University of Alaska Fairbanks community as indicated by the fact that she answers emails over the weekend and while on airplanes, is often seen pulling weeds and trimming shrubbery on campus, and picking up cigarette butts in the Eielson parking lot; and

WHEREAS, Susan Henrichs has demonstrated her Alaska-ness by being an ice hockey goalie, presiding over a herd of reindeer through the Office of the Provost, and claiming to be an introvert but owning almost every room she enters with her wit; and

WHEREAS, throughout her distinguished career, Susan Henrichs has served with quiet, respectful, and thoughtful grace and easy but subtle humor; and

WHEREAS, Susan Henrichs has strongly supported the shared governance process and has administered her service within its purview; and

WHEREAS, Susan Henrichs has always approached challenging issues using a rational, data-based approach that also includes caring for the well-being of the people involved; now

THEREFORE BE IT RESOLVED, That the University of Alaska Fairbanks Faculty Senate acknowledges and proclaims that Dr. Susan Henrichs has been an outstanding Provost; and

THEREFORE BE IT FURTHER RESOLVED that the Faculty Senate thanks her sincerely for her contributions to the University of Alaska Fairbanks.

MOTION:

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: a copy of the list is available in the UAF Governance Office, 312B Signers' Hall]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, UAF Faculty Senate makes that recommendation.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____ Vetoes

Daniel M. White, UAF Chancellor

Date: 5/18/18

See attached list of graduates.

ORIGINAL

The following motion passed at Faculty Senate meeting #231 on April 2, 2018

MOTION:

The UAF Faculty Senate moves to approve the new Occupational Endorsement request.

Effective: Fall 2018

Rationale: The previous process was outdated due to the implementation of Courseleaf. The new documented process will replace the previously approved New Occupational Endorsement Request (Format 3A) approved on May 12, 2006 by Faculty Senate.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____ Vetoes

See attached process

New Occupational Endorsement Request

(UA Regulation R10.04.020)

New Occupational Endorsements are requested using the CourseLeaf program effective Fall 2017. You will login to the Program Management page of CourseLeaf and complete all required fields.

The following items must be included within the CourseLeaf proposal:

Description of the Occupational Endorsement:

- Academic Level, Effective Catalog, Department, College (will auto-populate once the department is selected), Certificate or Degree Type (Select OEC) are all required fields.
- Title and Code for the Occupational Endorsement
    - The title appears in the catalog and on student's transcript.
- Brief Program statement needs to be included.
    - Specify the objectives and career opportunities. It is essential that the objectives of the program be clearly identified so that the activity may be evaluated in terms of how successfully it fulfills its stated objectives.
- Admissions requirements
    - This includes any prerequisites needed prior to being admitted to the program.
- Requirements for the Degree (catalog layout copy of the program):
    - Credit Requirements
    - Courses Requirements
    - Grade Requirements
- Sample course of study and a 3-year Cycle of course offerings
    - Include a proposed general catalog layout copy of the program with short descriptive paragraph.

Endorsement Goals:

- Brief identification of objectives and subsequent means for their evaluation.
- Relationship of endorsement objectives to "Purposes of the University"
- Occupational/other competencies to be achieved
- Relationship of courses to the endorsement objectives.

Personnel Directly Involved with the Program:

- List current faculty teaching the required and elective courses and titles, including brief statement of duties and qualifications.
- Administrative, coordinating, and classified staff personnel associated with the endorsement.

Enrollment Information:

- Projected enrollment
- How was projected enrollment determined? Who was surveyed and how?
- Minimum enrollments to maintain program for years 1-5.
- Maximum enrollment which endorsement can accommodate (endorsement capacity).

Need for Occupational Endorsement:

- Employment market needs:
    - Who surveyed? How? (Standard procedures with industry/advisory council listed)
    - Job opportunities now, and two, five, and ten years from now. How were these predictions determined? (Local, regional, State surveys, periodic review will ensure the currency)
    - How have positions been filled to date?

Relation of Endorsement to other Programs within the System:

- Effects on enrollments elsewhere in the system
- Does it duplicate/approximate endorsements anywhere in the system?

Implementation/Termination:

- Plans for recruiting students
- Plans for phasing out endorsement if it proves unsuccessful
- Assessment of the endorsement
- Student Learning Outcomes Assessment Plan (attached file)

Other:

- Additional Rationale not previously stated.
- Additional Attachments - any supporting documentation
    - A letter of Support from Industry or Advisory Council Representatives.*****

Route of Approval:

1. Program Head responsible for the transcription request
2. The Academic Council of the college/school housing the Occupational Endorsement.
3. Dean of school/college housing the Occupational Endorsement
4. Chair for the Faculty Senate Curriculum Review Committee (not the full committee).
5. Chair for the Faculty Senate Curricular Affairs Committee (not the full committee).
6. President of Faculty Senate (not the full Senate).
7. Provost
8. Chancellor (designated by President as approving authority)

ORIGINAL

The following motion passed at Faculty Senate meeting #231 on April 2, 2018

MOTION:

The UAF Faculty Senate moves to amend the syllabus checklist in order to update wording, links, and other contact information, to update required syllabus components for curriculum review, to clarify required and optional syllabus components for faculty to use, and to provide a link to a repository (student handbook) of student rights and resources as follows:

Effective: Fall 2018

Rationale: The following reasons are submitted as the basis for amending the UAF syllabus checklist:

1. A general update was needed to align with the layout of current course formats.
2. Clarification on required versus optional components was needed.
3. Change the format of the form to increase usability by both faculty developing or making changes to courses, as well as those committees reviewing them.
4. Add in clarifying statements for student protections, such as Title IX and protection of minors due to changes in the University's climate, and services.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____Vetoes

Daniel M. White, UAF Chancellor

Date: 4/19/18

New checklist is proposed as follows:

SYLLABUS CHECKLIST FOR ALL UAF COURSES

The Faculty Senate curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed course (or changes to it) may be denied. DISCLAIMER: radically changing your course requirements once a semester has started is problematic and should be avoided to limit possible negative impacts on you and your students.

Instructor's Name and email, Date, course number (enterable fields)

Required components (in no particular order); Responses include: Yes, No, unsure

- ❑ Course information: Title, number, credits, prerequisites, location, meeting time (make sure that contact hours are in line with credits for more information go here: uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-computing-/).
- ❑ Course type indicated: in person, online, online synchronous, field, lab, internship, etc.
- ❑ Instructor (and if applicable, Teaching Assistant) information: such as name, office location, office hours, telephone (if applicable), email address, etc.
- ❑ Course description: Inclusion of current catalog description is *required* in 50 words or less.
- ❑ Representative Course Readings/Materials: Course textbook title, author, edition/publisher. Supplementary readings (indicate whether required or recommended) and any supplies needed.
- ❑ Student Learning Outcomes: (assessment of which are crucial for accreditation) Measurable output that the student can expect to gain and demonstrate by completing the course requirements successfully. For more information on how to develop SLO's go to iteachu.uaf.edu/objectives/
  - ❑ If a GER course: ensure that SLO's align with BOR policy.
  - ❑ Copy/paste SLOs here (enterable field)
- ❑ Instructional methods: Describe the teaching techniques (eg: lecture, case study, small group discussion, private or studio instruction, simulations, games, journal writing, labs, use of distant delivery, audio/video conferencing, etc.).
- ❑ Course calendar: A detailed week-by-week, at a minimum, schedule of class topics, readings, and major assignments and exams. You may refer to the outline as tentative or subject to changes to allow for modifications during the semester.
- ❑ Course policies: Specify course rules, including your policies on expectations on progress in coursework, attendance, tardiness, class participation, make-up exams, and plagiarism/academic integrity; in particular those that would affect evaluation of student performance in the course.

- ❑ Evaluation: Specify how students will be evaluated, what factors will be included, their relative value, and how they will be tabulated into grades (on a curve, absolute scores, etc.).
- ❑ Student protections and services statement: Every qualified student is welcome in my classroom. As needed, I am happy to work with you, disability services, veterans' services, rural student services, etc to find reasonable accommodations. Students at this university are protected against sexual harassment and discrimination (Title IX), and minors have additional protections. *As required,* if I notice or am informed of *certain types of* misconduct, then I am required to report it to the appropriate authorities. For more information on your rights as a student and the resources available to you to resolve problems, please go the following site:https://cms-test.alaska.edu/handbook/
- ❑ Graduate Student version
    - ❑ Student protections and services statement: Every qualified student is welcome in my classroom. As needed, I am happy to work with you, disability services, veterans' services, rural student services, etc to find reasonable accommodations. Students at this university are protected against sexual harassment and discrimination (Title IX), and minors have additional protections. For more information on your rights as a student and the resources available to you to resolve problems, please go the following site: https://cms-test.alaska.edu/handbook/

Optional components (in no particular order)

- ❑ UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: alaska.edu/nondiscrimination.
- ❑Your instructor follows the University of Alaska Fairbanks Incomplete Grade Policy: "The letter "I" (Incomplete) is a temporary grade used to indicate that the student has satisfactorily completed (C or better) the majority of work in a course but for personal reasons beyond the student's control, such as sickness, has not been able to complete the course during the regular semester. Negligence or indifference are not acceptable reasons for an "I" grade."
- ❑ Publicize UAF regulations with regard to the grades of "C" and below as applicable to this course. (Not required in the syllabus, but is a convenient way to publicize this.) PDF summary of grading policy for "C"
- ❑ Department/program In-depth Course description: Additional course description that includes overall instructor vision for the course (i.e., more thorough description of course above the 50 word catalog description).
- ❑ Course Goals: The overall ideas of the course, and the rationale for its respective components.
- ❑ Technology requirements: Access the internet, create pdfs, specific software, play video/audio, record video/audio, bandwidth, access to phone line, etc...
- ❑Effective communication: Students who have difficulties with oral presentations and/or

writing are strongly encouraged to get help from the UAF Department of Communication's Speaking Center (907-474-5470, speak@uaf.edu) and the UAF English's Department's Writing Center (907-474-5314, Gruening 8th floor), and/or CTC's Learning Center (604 Barnette st, 907-455-2860).

Have you included all required elements into your syllabus or provided rationale for not including them? yes/no

The following motion passed at Faculty Senate meeting #231 on April 2, 2018

Motion to Allow
UAF Associate of Arts and Associate of Science Degrees to Meet GER

MOTION:

The UAF Faculty Senate moves to revise the current policy of allowing students with bachelor degrees from regionally accredited institutions to be considered to have met general education requirements (GER), to also allow students with associate of arts and associate of science degrees from regionally accredited institutions to be considered to have met GER.

RATIONALE:

Under current policy, students who have earned bachelor degrees at UAF are considered to have met the GER when they return to complete additional degree programs. (See http://catalog.uaf.edu/bachelors/ under *Bachelor's Degree Requirements*.) Students who have earned UAF associate of arts and associate of science degrees are *not* considered to have met the GER, however transfer students who have completed bachelor, associate of arts, or associate of science degrees at regionally accredited institutions *are* considered to have met the GER. With this proposed revision, UAF students would be given the same consideration as transfer students.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____ Vetoes

Daniel M. White, UAF Chancellor Date: 4/19/18

Proposed catalog language revision at http://catalog.uaf.edu/bachelors/:

Bachelor's Degree Requirements

THE GENERAL EDUCATION REQUIREMENTS

For a summary of the general education requirements see the general education requirements chart. Undergraduate bachelor's study at UAF is characterized by a common set of learning experiences known as the General Education Requirements. General education objective and learning outcomes for undergraduate students seeking baccalaureate degrees at the University of Alaska Fairbanks:

1. Build knowledge of human institutions, sociocultural processes, and the physical and natural world through the study of the natural and social sciences, technologies, mathematics, humanities, histories, languages and the arts.

2. Develop intellectual and practical skills across the curriculum, including inquiry and analysis, critical and creative thinking, problem solving, written and oral communication, information literacy, technological competence, and collaborative learning.

3. Acquire tools for effective civic engagement in local through global contexts, including ethical reasoning, intercultural competence, and knowledge of Alaska and Alaska issues.

4. Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions and responsibilities, and forming a foundation for lifelong learning.

If you completed your bachelor's degree, **ASSOCIATE OF ARTS DEGREE, OR ASSOCIATE OF SCIENCE DEGREE** from a regionally accredited institution, you will be considered to have completed the equivalent of the general education requirements when you have been officially accepted to an undergraduate degree program at UAF.

The following motion passed at Faculty Senate meeting #231 on April 2, 2018

Walk-through Policy 2018 Commencement

MOTION:

The UAF Faculty Senate moves to allow the names of PhD students approved to "walk-through" for the 2018 commencement ceremony be listed in the commencement program booklet at the discretion of the UAF Registrar.

Effective: Immediately

Rationale: The Graduate School is requesting a temporary amendment to the Commencement Walk-Through Policy to add the names of the PhD students approved to "walk-through" at the 2018 Commencement Ceremony to the program booklet, at the discretion of the Registrar who will clearly identify the participating students' intended graduation semester. The current policy does not consider the publishing time required for the commencement program booklets. A permanent change to the Commencement Walk-Through policy is forthcoming. There currently is a Walk-Through Policy in place that allows students to participate if they have finished all but the final revisions to their thesis: http://www.uaf.edu/gradsch/faculty/commencement-walk-through/. Students will not receive their diploma until they have completed all requirements.

ORIGINAL

The following motion passed at Faculty Senate meeting #231 on April 2, 2018

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Fisheries in the College of Fisheries and Ocean Sciences.

Effective: Fall 2018
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the Department of Fisheries. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria was found to be consistent with the UAF guidelines.

The revisions reflect the name change from the Fisheries Division, School of Fisheries and Ocean Sciences, to the Department of Fisheries, College of Fisheries and Ocean Sciences, and document formatting was brought into compliance with the current UAF Unit Criteria template. Aside from these revisions, no substantial modifications were made to the previously approved unit criteria.

See attached Unit Criteria

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND DEPARTMENT OF FISHERIES ~~DIVISION~~ UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE DEPARTMENT OF FISHERIES ~~DIVISION~~ OF THE ~~SCHOOL~~ COLLEGE OF FISHERIES AND OCEAN SCIENCES (CFOS). ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service, INCLUDING CURATION.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. EFFECTIVE TEACHING ENABLES LEARNERS TO GAIN KNOWLEDGE AND /OR SKILLS. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for THEIR students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject BEING TAUGHT;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at AN appropriate level;

IN ADDITION, EFFECTIVE TEACHERS WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:

a. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

b. may receive prizes and awards for excellence in teaching;

C. SUCCESSFULLY MENTOR GRADUATE STUDENTS;

D. MAY WRITE TEXT BOOKS, TEXTBOOK CHAPTERS, OR ARTICLES ON TEACHING METHODS, DEVELOP CASE STUDIES, ORGANIZE TEACHING WORKSHOPS, OR PREPARE COURSE MODULES FOR BROAD DISTRIBUTION.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

TEACHING IS AN IMPORTANT ROLE OF DEPARTMENT OF FISHERIES ~~DIVISION~~—FACULTY. FACULTY MEMBERS DISCHARGE THEIR RESPONSIBILITY BY TEACHING FORMAL COURSES, ADVISING UNDERGRADUATE AND GRADUATE STUDENTS, DIRECTING INDEPENDENT STUDIES (497 OR 697), SUPERVISING EXPERIENTIAL LEARNING AND INTERNSHIPS, AND CONDUCTING INFORMAL COURSES OR WORKSHOPS. TEACHING AND ADVISING GRADUATE STUDENTS IS MORE DEMANDING THAN TEACHING AND ADVISING UNDERGRADUATE STUDENTS; NEVERTHELESS, THE EXTRA EFFORT FACULTY INVEST IN GRADUATE TEACHING AND ADVISING ARE CENTRAL TO THE MISSION OF THE DEPARTMENT OF FISHERIES~~ DIVISION'S MISSION~~. FACULTY WORKLOAD ASSIGNMENTS MAY REFLECT DISSIMILAR LOADS RELATED TO FORMAL CLASSROOM TEACHING AND GRADUATE AND UNDERGRADUATE ADVISING LOADS; HOWEVER THE GUIDELINE EXPECTATION IS THAT FACULTY MEMBERS WILL TEACH AT LEAST FOUR ACADEMIC CREDITS IN THE CLASSROOM EACH YEAR. QUALITY OF CLASSROOM TEACHING IS INDICATED BY PEER EVALUATIONS OF COURSE MATERIALS, PEER EVALUATIONS OF TEACHING PERFORMANCE, AND THE RECURRING LEVEL OF ENROLLMENT IN CLASSES. QUALITY GRADUATE ADVISING IS INDICATED BY THE SUCCESS OF STUDENTS IN COMPLETING DEGREES UNDER THE FACULTY MEMBER'S SUPERVISION. FACULTY WILL BE RECOGNIZED FOR ADVISING GRADUATE STUDENTS WHO ARE NOT BASED IN ~~SFOS~~–CFOS IN THE SAME WAY THAT THEY ARE RECOGNIZED FOR ADVISING GRADUATE STUDENTS WHO ARE BASED IN ~~SFOS~~CFOS. ADDITIONAL EVIDENCE OF EFFECTIVE TEACHING AND MENTORING INCLUDES RESULTS OF STUDENT EVALUATIONS, PEER-REVIEWED PUBLICATION OF STUDENTS' THESIS OR DISSERTATION RESEARCH; STUDENT PRESENTATIONS AT REGIONAL, NATIONAL AND INTERNATIONAL MEETINGS; AND AWARDS TO STUDENTS.

RECOGNIZING THAT WORKLOAD ASSIGNMENTS VARY AMONG FACULTY MEMBERS THE GUIDELINE EXPECTATION IS THAT EACH CANDIDATE FOR TENURE AND PROMOTION TO ASSOCIATE PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST TWO SUCCESSFUL GRADUATE STUDENTS WHO HAVE COMPLETED DEGREES UNDER HER OR HIS SUPERVISION (AS COMMITTEE CHAIR OR CO-CHAIR). SIMILARLY, EACH FISHERIES FACULTY MEMBER WITHOUT A JOINT APPOINTMENT WHO IS A CANDIDATE FOR PROMOTION TO PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST SIX SUCCESSFUL GRADUATE STUDENTS UNDER HER OR HIS SUPERVISION. FISHERIES FACULTY WITH JOINT APPOINTMENTS WITH THE MARINE ADVISORY PROGRAM OR THE MUSEUM (FISH CURATION) WHO ARE CANDIDATES FOR PROMOTION TO PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST FOUR SUCCESSFUL GRADUATE STUDENTS UNDER THEIR MENTORSHIP. IN

ADDITION, CANDIDATES FOR PROMOTION TO ASSOCIATE PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST TWO REGULARLY SCHEDULED COURSES THAT THEY HAVE DEVELOPED OR HAVE PRIMARY RESPONSIBILITY FOR DELIVERING AND WHICH ARE CENTRAL TO THE UNDERGRADUATE OR GRADUATE PROGRAM REQUIREMENTS.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

FACULTY IN FISHERIES APPLYING FOR PROMOTION OR TENURE MUST PRESENT EVIDENCE OF SUBSTANTIAL, HIGH-QUALITY CONTRIBUTIONS IN RESEARCH. WHILE THERE IS NO SUBSTITUTE FOR THE EXERCISE OF GOOD JUDGMENT ON THE PART OF THOSE WHO ARE CALLED UPON TO ASSESS RESEARCH AND SCHOLARLY PRODUCTIVITY, IT IS THE RESPONSIBILITY OF EACH FACULTY MEMBER TO EXPLAIN AND/OR OTHERWISE PROVIDE EVIDENCE OF THE SIGNIFICANCE OF THEIR RESEARCH AND SCHOLARLY ACTIVITIES. THE VARIED NATURE OF RESEARCH AND SCHOLARLY CONTRIBUTIONS MAKE IT DIFFICULT TO IDENTIFY SIMPLE CRITERIA FOR ASSESSING THE QUALITY AND SIGNIFICANCE OF SUCH CONTRIBUTIONS. IN GENERAL, THE PRIMARY EVIDENCE OF HIGH QUALITY RESEARCH IS PUBLICATION OF RESEARCH RESULTS AND INTERPRETATIONS IN RESPECTED PEER-REVIEWED JOURNALS, BOOKS OR OTHER MEDIA AND EVIDENCE OF SUBSTANTIAL CONTRIBUTION TO RESEARCH IS PRIMARY AUTHORSHIP BY THE APPLICANT OR HIS OR HER STUDENT, OR LEADERSHIP AS PRINCIPAL INVESTIGATOR OF THE RESEARCH—QUALITY, AS JUDGED BY ~~FISHERIES DIVISION~~ DEPARTMENT OF FISHERIES FACULTY PEERS, IS MORE IMPORTANT THAN QUANTITY. ~~FISHERIES—DIVISION~~

DEPARTMENT OF FISHERIES FACULTY ARE EXPECTED TO AUTHOR AN AVERAGE OF AT LEAST ONE REFEREED PUBLICATION PER YEAR. THUS CANDIDATES FOR TENURE AND PROMOTION TO ASSOCIATE PROFESSOR ARE EXPECTED TO HAVE AUTHORED AT LEAST SIX REFEREED PUBLICATIONS; CANDIDATES FOR PROMOTION TO PROFESSOR ARE EXPECTED TO HAVE AUTHORED AT LEAST TWELVE REFEREED PUBLICATIONS. THESE EXPECTATIONS SHOULD BE INTERPRETED IN THE CONTEXT OF ACTUAL WORKLOAD AND ADJUSTED ACCORDINGLY.

EACH PROMOTION APPLICANT'S COMPLETE PUBLICATION RECORD, INCLUDING PAPERS PUBLISHED BEFORE THEY WERE AFFILIATED WITH THE UAF DEPARTMENT OF FISHERIES~~FISHERIES DIVISION~~, IS RELEVANT TO TENURE AND PROMOTION DECISIONS. IN ADDITION, THE NATURE OF THEIR WORKLOAD ASSIGNMENTS AND THEIR OPPORTUNITY FOR PUBLICATION THROUGHOUT THEIR CAREER LEADING UP TO THE REVIEW DATE IS CONSIDERED RELEVANT TO PROMOTION AND TENURE DECISIONS. THE STANDARD FOR TENURE, PROMOTION TO ASSOCIATE PROFESSOR, AND SATISFACTORY POST-TENURE REVIEW IS SATISFACTORY RESEARCH PERFORMANCE FOR THE PERIOD BEING EVALUATED. THE STANDARD FOR PROMOTION TO PROFESSOR IS SUSTAINED, EXCELLENT RESEARCH PERFORMANCE, RECOGNIZED NATIONALLY AND INTERNATIONALLY.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

UNIVERSITY AND PUBLIC SERVICE IS EXPECTED OF ALL FISHERIES FACULTY. PERTINENT SERVICE IS RELATED TO THE FACULTY MEMBER'S PROFESSIONAL EXPERTISE OR UNIVERSITY POSITION. SOME MEMBERS MAY HAVE GREATER OR LESSER THAN AVERAGE ASSIGNMENTS IN SERVICE AND THE EXPECTATIONS OF THEM SHOULD BE ADJUSTED ACCORDINGLY. HOWEVER, EXCEPT FOR FACULTY ON SABBATICAL LEAVE, THE GUIDELINE EXPECTATION IS THAT EVERY FACULTY MEMBER WILL SPEND AT LEAST ONE MONTH OF TIME ANNUALLY ON SERVICE RELATED ACTIVITIES REGARDLESS OF THEIR LEVEL OF RESEARCH AND TEACHING. SERVICE IS TYPICALLY LIMITED TO 5 UNITS (APPROXIMATELY 1.5 MONTHS) UNLESS OTHERWISE AUTHORIZED IN THE WORKLOAD PROPOSAL. SOME FACULTY IN THE ~~FISHERIES DIVISION~~ DEPARTMENT OF FISHERIES HAVE A LARGER THAN USUAL SERVICE COMPONENT, WHICH IS REFLECTED ON THEIR ANNUAL WORKLOAD. THE MIX OF PUBLIC, UNIVERSITY, PROFESSIONAL, AND OTHER SERVICE MAY ALSO VARY WITH THE FACULTY MEMBER'S FIELD OF EXPERTISE AND STAGE OF CAREER. SOME FACULTY MAY HAVE SUBSTANTIAL ADMINISTRATIVE OR SPECIAL ASSIGNMENTS THAT INCREASE THE SERVICE PORTION OF THEIR WORKLOAD.

1. **Public Service**
Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. AMONG OTHERS, THESE CONSTITUENCIES INCLUDE MEMBERS OF FISHING COMMUNITIES, SEAFOOD INDUSTRY, AND OTHER FISHERY STAKEHOLDERS. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth, INCLUDING ANSWERING QUESTIONS AND SOLVING PROBLEMS POSED BY THE PUBLIC AND THE INDUSTRY REGARDING FISHERIES, SEAFOOD SCIENCE AND MARINE RESOURCES.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. UNREMUNERATED Consulting IN THE FACULTY MEMBER'S AREA OF EXPERTISE AND DISCIPLINE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE.

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, SEMINARS or public INFORMATIONAL meetings.

   i. Training and facilitating.

   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. **University Service**
   University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

   a. Service on university, college, school, institute, or departmental committees or governing bodies.

   b. Consultative work in support of university functions, such as expert assistance for specific projects.

   c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school, OR PROGRAM.

   d. Participation in accreditation reviews.

   e. Service on collective bargaining unit committees or elected office.

   f. Service in support of student organizations and activities.

   g. Academic support services such as library and museum programs.

   h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

   i. Mentoring.

   j. Prizes and awards for excellence in university service.

3. **Professional Service**
   a. Editing or refereeing articles or proposals for professional journals or organizations.

   b. Active participation in professional organizations.

   c. Active participation in discipline-oriented service organizations.

   d. Committee chair or officer of professional organizations.

   e. Organizer, session organizer, or moderator for professional meetings.

   f. Service on a national or international review panel or committee.

4. **OTHER SERVICE: CURATION**

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND THE UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY IN FISHERIES, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH, AND SERVICE.

CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:

A. MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);

B. INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;

C. FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;

D. MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);

E. SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

F. WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;

G. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;

H. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS;

I. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS AND INTERNATIONAL TREATIES AND AGREEMENTS THAT PERTAIN TO THE COLLECTION.

SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:

ASSISTANT PROFESSOR AND CURATOR

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

A. CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA, THE CIRCUMPOLAR NORTH, AND BEYOND AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.

B. COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.

(I). CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.

(II). CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.

(III). CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGS OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.

(IV). CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CURATION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.

C. CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA.

D. CURATORS WILL ACTIVELY SUBMIT GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

ASSOCIATE PROFESSOR AND CURATOR

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC, AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH MUST BE EVIDENT.

PROFESSOR AND CURATOR

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. HE OR SHE MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

5. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

EVIDENCE OF HIGH-QUALITY PERFORMANCE CAN INCLUDE SPECIFIC ACCOMPLISHMENTS RELATED TO THE SERVICE. SERVICE ON NATIONAL OR INTERNATIONAL BODIES IS EXPECTED OF CANDIDATES FOR PROMOTION TO PROFESSOR.

FOR FACULTY PROVIDING CURATION SERVICES, THE APPLICATION FOR PROMOTION SHOULD INCLUDE A LETTER PREPARED BY A COMMITTEE OF TENURED CURATORS AT THE MUSEUM. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

ORIGINAL

The following motion passed at Faculty Senate meeting #231 on April 2, 2018

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Faculty with primary workload assignment in the Discipline of Sociology.

Effective: Fall 2018
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by the faculty in the Discipline of Sociology and found the unit criteria to be consistent with the UAF guidelines. The discipline specific criteria were agreed upon by the faculty and the Dean of College of Liberal Arts, and reviewed and approved by the Provost.

Over the past three years the University has discontinued some programs and combined others into single departments. The BA in Sociology was discontinued in 2017 and there is one remaining faculty member in Sociology. While this is an unusual circumstance, the Unit Criteria Committee has determined:

- the process of approval of Unit Criteria guidelines have been met (see Guidelines below), and
- the single faculty in the Discipline of Sociology meets current parameters for a "unit" (see Unit below).

Guidelines

The Unit Criteria for Faculty with primary workload assignment in the Discipline of Sociology were developed by the faculty, approved by the Dean of the College of Liberal Arts, and approved by the Provost. This fits current guidelines.

- Blue Book "Regulations for the Appointment and Evaluation of Faculty" Chapter III Section E para. 3 states:

  A unit choosing to develop discipline-specific criteria, standards and indices shall have such criteria, standards and indices approved by a majority of the discipline faculty. The unit criteria, standards and indices will be reviewed and approved by the cognizant dean who will forward the unit criteria, standards and indices to the provost. The provost will review for consistency with BOR and UAF policies and will forward these criteria, standards and indices to the Faculty Senate, which shall review and approve all discipline-specific criteria according to a process established by the Faculty Senate.

- The Faculty Senate approved the following motion regarding the path for approval of unit criteria:

The UAF Faculty Senate passed the following at its Meeting #56 on March 20, 1995.

MOTION PASSED (Unanimous approval)
==========

The Faculty Senate moves to establish the following path for approval of unit criteria for promotion and tenure.

1. New unit criteria or changes to established criteria are submitted to the Faculty Senate Ad Hoc Committee on Unit Criteria.

2. The Committee either returns the criteria to the unit for suggested changes, or approves the criteria and forward them to the Provost for approval. The Provost returns the criteria to the Committee, either asking for suggested changes or approving them. If they are not returned within thirty days they will be assumed to have been approved.

3. Upon return from the Provost, the Committee brings the unit criteria to the Faculty Senate for approval, and then on the Chancellor for final approval.

EFFECTIVE: Immediately on Chancellor's approval

RATIONALE: Unit Criteria have been stranded repeatedly over the last several years, partly because no clear path of approval has been in place. This procedure should make it possible to finally resolve the issue of supplementary unit criteria for promotion and tenure.

Signed: Colin Read, President, UAF Faculty Senate Date: 3/22/95

Approved: Joan Wadlow, Chancellor Date: 3/27/95

Unit

There is currently no specific definition of a "unit" for unit criteria and no clear standard appears in UA or UAF regulation. The Discipline of Sociology fits existing standards and practice.

- Board of Regents Policy Part X – Academic Policy Chapter 10.02 - Academic Administrative Organization P10.02.040. Academic Unit Establishment, Major Revision, and Elimination states:

Academic units are created within the university for the purposes of instruction, research, advanced study, outreach, or economic development. All such units, at any level of the university structure, must provide for the effective management and productivity of their activities. Degree and Certificate programs approved by the board or president in accordance with P10.04.020 may be offered only within accredited units.

- The UAF Provost Website (http://www.uaf.edu/provost/promotion-tenure/unit-peer-criteria/) states:

Units and/or departments may compose special criteria (referred to hereafter as "unit criteria") that must be used in evaluation of their faculty during the promotion and tenure process.

- The list of approved unit criteria on the Provost's website is inconsistent in terms of the level of a "unit" and includes unit criteria for schools and institutes, departments, and disciplines with departments. Given this situation, the Discipline of Sociology falls within the parameters for a "unit."

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Acknowledges ____ Vetoes

Date: 4/19/18

Daniel M. White, UAF Chancellor

See attached Unit Criteria

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND *SOCIOLOGY* UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING FACULTY WHOSE PRIMARY WORKLOAD ASSIGNMENT IS IN THE DISCIPLINE OF SOCIOLOGY. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit,

and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

   f. Scholarly reviews of publications, art works and performance of the candidate.

   g. Citations of research in scholarly publications.

   h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. ***Active engagement in public sociology, defined as using sociological research methods, sociological theories, and sociological analytical frameworks to make sociological research and analysis accessible and useful to the lay public. Public sociology includes, but is not limited to: blogs, documentary films, short films, op-eds published in local, regional, and/or national newspapers and online news sites; radio broadcasts; podcasts; and a strategic and sustained sociological presence on social media.***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The following motion passed at Faculty Senate meeting #231 on April 2, 2018

MOTION:

The UAF Faculty Senate moves to confirm the nomination of Anna Liljedahl for the Outstanding Senate Service of the Year for 2017-2018.

Effective: Immediately

Rationale: The screening committee has carefully reviewed the nominations according to the award criteria, and the concurrence of the Faculty Senate President, forwards the nomination of Anna Liljedahl for confirmation by the Faculty Senate. Procedures stipulate that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting.

****

Chris Fallen, UAF Faculty Senate President

The UAF Faculty Senate passed the following at meeting #230 on March 5, 2018:

RESOLUTION
Commemorating the 30th Anniversary of UAF Faculty Senate

Whereas January 2018 marks the 30th anniversary of the first meeting of the University of Alaska Fairbanks Faculty Senate, called to order by Ron Gatterdam at 4:00 p.m. on Wednesday, January 20, 1988 in the Wood Center Ballroom; and

Whereas the voting members present were B. Barnes, C. Brennen (for Marum), R. Carlson, B. DiCecco, J. Duff, L. Duffy (for Newberry), M. Falk, R. Gabrielli, R. Gatterdam, D. Hagstrom, L. Husley, D. Jones, R. Krejci, J. Leipzig, D. Lokken, S. MacLean, E. Madsen, J. McKendrick, L. Milner, J. Morton, H. Nielsen, R. Ostermann, R. Piacenza, J. Reynolds (for Goering), R. Schroeder, D. Smith, W. Smoker, B. Sponder, D. Stephens, R. Tabbert, K. Torgerson, A. Weflen, and F. Wooding; and voting members absent were R. Highsmith, R. Logan, R. Seifert, and J. Shuler; and the non-voting members present were J. Drew, G. Mohatt, S. Schwael, and Wilhelm (for A. Tremarello); and

Whereas the opening comments by VCAA Wayne Thomas included a welcome to members of the new Senate, noted the importance of Humanities and Social Sciences in the Baccalaureate Core Proposal, urged the Senate to consider how the Graduate Council will fit into processes of the new Senate, informed that the UAF will have difficulty functioning under the new Alaska procurement law, and warned that compensation issues for faculty and staff need to be addressed otherwise the university will continue to lose good people; and

Whereas the first order of business was the Election of Officers, electing David Smith as President, John Leipzig as President-Elect, Rudolph Krejci as Chair of the Promotion and Tenure Committee, and Dennis Stephens as Chair of the Service Committee; and

Whereas the Senate moved to direct the Assembly Committee to consider several actions, failed to adopt a tentative calendar of meetings, and moved to direct the President to form an ad hoc committee on the calendar; and

Whereas the Senate President announced during the second meeting, held on Wednesday, February 17 in the Library Media Classroom, that Agendas and Minutes will be distributed by Computer and that the following Senate meetings will be held in the Wood Center Ballroom, where Senate still meets today; and

Whereas Chancellor P. O'Rourke remarked during the second meeting about the need to maintain open lines of communication between the four representative groups at UAF--The Executive Council of Deans, Directors, the Vice Chancellors, and the three Presidents from Faculty Senate, Assoc. Students of the University of Alaska (ASUA)--The Faculty Senate, the Staff Council, and ASUA; and

Whereas the Senate moved during its second meeting to adopt three Basic Assumptions and seven Guiding Principles as the framework for development of UAF tenure and promotion policies and

regulations, including the assumption that each school and college within the University has a tripartite responsibility that includes teaching, research, and service:

Now, therefore, be it resolved, that the UAF Faculty Senate—

Recognizes the 30th anniversary of the first meeting of the UAF Faculty Senate;

Continues to support the UAF mission of educating students for active citizenship; preparing them for lifelong learning and careers by way of teaching, research, and service emphasizing the circumpolar North and its diverse peoples.

Finds itself immersed in a common effort begun in 1988 with the purpose of unifying the faculty throughout Alaska to respond to the impact of an economic crisis on higher education systems across the state;

Honors the Senate's founders, their successors, and their collective determined efforts as the Senate continues to look to their example while navigating similar storms these three decades later.

Integrates the faculty and campuses throughout Alaska, giving the faculty one voice in the protection and advancement of academics for the benefit of all Alaskans;

Reaffirms its support of shared governance at the University of Alaska Fairbanks and the University of Alaska system;

Recognizes Alaska Board of Regents' Policy stating that the University of Alaska Fairbanks Faculty Senate is formed so that the faculty may carry out its professional responsibility as the legislative body of the University of Alaska Fairbanks in matters of instruction, research/creative activity, and service;

Calls upon the President of the University of Alaska system and administrators in the system to abide by strong principles of shared governance according to Board of Regents' and the Constitution of the University of Alaska Fairbanks Faculty Senate.

Chris Fallen, UAF Faculty Senate President

The following motion was passed at Faculty Senate meeting #230 on March 5, 2018:

MOTION;

The UAF Faculty Senate moves to revise the Student Grade Appeals Policy.

EFFECTIVE: Fall 2018
upon Chancellor approval

RATIONALE: to clarify and simplify the process while ensuring due process for both parties; to reduce the number of people on the hearing committee to increase efficiency and to ease scheduling difficulties; to lower the bureaucratic burden on students and the university by limiting the number of people who must be involved in the process; to align with BoR policy and UA regulation, usually by adopting the specific language of the policies or regulations; and to ensure adherence to federal and state law, especially in regards to due process.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Approves ____ Disapproves

Daniel M. White, UAF Chancellor Date: 3/14/18

See the attached Student Grade Appeals Policy:

additions in bold italic and ~~deletions indicated by strikethrough~~

Changes suggested by Faculty Affairs Subcommittee: Sine Anahita, Jak Maier, Gordon Williams, and Ataur Chowdhury with General Counsel Rachel Plumlee and FY18 chair of the student grade appeals ad hoc committee Jim Arkell. Changes then vetted by Faculty Affairs Committee at its 11-8-17 meeting.

Rationale: to clarify and simplify the process while ensuring due process for both parties; to reduce the number of people on the hearing committee to increase efficiency and to ease scheduling difficulties; to lower the bureaucratic burden on students and the university by limiting the number of people who must be involved in the process; to align with BoR policy and UA regulation, usually by adopting the specific language of the policies or regulations; to ensure adherence to federal and state law, especially in regards to due process.

Grade Appeals Policy

The following is a complete copy of the Grade Appeals Policy as passed by the UAF Faculty Senate at its Meeting # 56 (March 20, 1995) and amended at Meeting #61 (February 5, 1996), Meeting #80 (May 4, 1998), Meeting #89 (September 27, 1999), Meeting #109 (May 6, 2002), Meeting #157 (March 2, 2009), Meeting #183 (May 7, 2012), Meeting #189 (March 4, 2013) and Meeting #215 (May 2, 2016).

- Alignment with BOR Policy and UA Regulations, Chapter 09.03 - Student Dispute Resolution (Meeting #215, May 2, 2016).
- Clarification made to the time period within which grade appeals will be reviewed (Meeting #189, March 4, 2013).
- Policy at Section III, Procedures, subsection B, Item 4, was revised at Meeting #183 (May 7, 2012).
- Deadlines were revised at Meeting #157 (March 2, 2009).

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that the assignment of grades is a faculty responsibility. Therefore, the University administration shall not influence or affect an assigned grade or the review of an assigned grade.

The following procedures are designed to provide a means for students to seek review of final course grades alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally with the instructor of the course. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below~~., and may not seek further review of the matter under any other procedure within the university.~~

II. Definitions

A. A "grade" refers to final letter grades A, B, C, D, F, and Pass or Fail. The I (incomplete) and DF (deferred) designate a temporary grade, not a final grade, so these are not subject to appeal until they becomes final.

B. There may be extenuating circumstances when the deadlines cannot be met due to illness or other situations over which the ***parties or the university*** ~~student~~ may have no control. In such a case, upon request from ***either party or the university,*** ~~the student~~, the ***deadlines may be extended.*** ~~dean/director, after review of supporting documentation provided by the student, may recommend to the grade appeals committee that the deadlines be adjusted accordingly. At the discretion of the dean/director, an extension of the deadline will be limited to one semester but every~~ ***Every*** effort should be made to complete the appeal process within the current semester.

~~B.~~

C. ~~For the purpose of this procedure~~ ***In accordance with Board of Regents (BoR) policy and University of Alaska regulation***, "arbitrary and capricious" grading means:

1. the assignment of a course grade to a student on some basis other than performance in the course, or

2. the assignment of a course grade to a student by resorting to standards different from those which were applied to other students in that course, or

3. the assignment of a course grade by a substantial, unreasonable and unannounced departure from the instructor's previously articulated standards.

D. ~~C~~. "***A*** Grading errors" ~~denotes errors in the assignment of grades rather than~~ ***is a mathematical miscalculation of a final grade or an inaccurate recording of the final grade, not an*** errors in judgment.

E. A class day is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review, as defined in university regulations (R09.03.024). Final examination periods are counted as class days.

F. "Department chair" for the purposes of this policy denotes the faculty member responsible for the academic unit offering the course.

G. The "dean/director" is the administrative head of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

H. The "final grade" is the grade assigned for a course upon its completion.

I. The next regular semester is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester for a final grade issued for a course completed during the previous spring semester or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

III. Procedures

A. Informal Procedures

Errors by an instructor in determining and recording a grade or by the university staff in transcribing the grade are sources of error that can be readily corrected through the student's prompt attention following the normal change of grade procedure.

1. Review the UAF Appeal of Grade form. [The form is available ~~through the Registrar's Office~~ ***online at https://www.uaf.edu/uafgov/faculty-senate/policies-procedures/grade-appeals/***] {Policy revision committee suggests the development of a new template to simplify and clarify the process for students. New template to include information about the grade appeal advisers in the Academic Advising Center}

2. ***To begin the informal process, the student shall*** ~~It is a student's obligation to~~ notify the instructor in writing with an explanation of the perceived grading error within 15 class days of the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester). ~~A copy of the request should also be provided to the department chair.~~

3. The instructor is responsible for notifying the student in writing of ~~his or her~~ ***the instructor's*** final judgment concerning the grade in question within 5 class days of receipt of the request, and for promptly submitting the appropriate change of grade form to the Registrar's Office if an error occurred. If the decision was not to ~~reconsider~~ ***change*** the grade, the instructor ~~should~~ ***shall*** notify the student~~, the department chair, and the dean/director~~ in writing by completing the informal portion on the Appeal of Grade form.

4. If the student does not receive a response from the instructor ~~or the unit department chair~~ by the required deadline, the student ~~must~~ ***shall*** seek the assistance of the ***chair of the department*** ~~dean of the college or school in~~ which the course was offered ~~to begin the formal appeal process~~.

5. If the instructor is no longer an employee of the university or is otherwise unavailable, the student ~~must~~ ***shall seek the assistance*** ~~bring the matter to the attention~~ of the unit department chair who will make every effort to contact the instructor by the 15th class day of the next regular semester.

a. If the instructor ~~can not~~ ***cannot*** be contacted but course records are available, the department chair ~~will~~ ***shall*** effect resolution within 5 class days of notification by the student. The department chair may correct a grading error through the regular change of grade process on behalf of the instructor.

b. If the instructor ~~can not~~ ***cannot*** be contacted and course records are either unavailable or indecisive, the student may request a formal review as described in section B. below.

B. Formal Procedures

If not resolved ~~int he~~ ***in the*** informal process, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and resolution is not forthcoming from the appropriate department chair.

1. This review is initiated by the student through a signed, written request to the department chair with a copy to the dean of the college or school in which the course was offered.

a. The student's request for review ~~may~~ ***shall*** be submitted using university forms specifically designed for this purpose and available ***online*** at ~~the Registrar's Office.~~ ***http://www.uaf.edu/files/provost/new_grade_appeal-form.pdf***

b. The student completes the grade appeal checklist and submits the Grade Appeal form, acknowledging the completion of the informal process.

c. The request for a review must be received by the dean/director of the college or school in which the course was offered within 5 class days of completion of the informal grade appeal process.

d. The request must detail the basis for the allegation that a grade was the result of arbitrary and capricious grading and must present the relevant evidence. {the policy revision subcommittee suggests a new template to make it easier for the student to understand what arbitrary and capricious grading is, and the types of evidence that would assist in making their case}

2. ~~The~~ ***Within five days of receipt of the written request for review, the*** dean ~~formally~~ notifies ***in writing*** ~~both~~ the instructor who issued the grade and the department chair of the unit that a formal grade appeal has been filed***, and supplies a copy of the student's request for a formal grade appeal to the instructor.***

3. The instructor shall be invited to respond in writing to the student's allegations; the instructor's response shall be directed to the grade appeals committee.

4. If the instructor of the course is also the Dean of the College, the Provost will designate another Dean within the University to act as the college's monitor of all proceedings.

5. A review committee will be appointed as follows:

~~a. The dean shall appoint one non-voting faculty member holding academic rank, who is represented through the current applicable collective bargaining agreements, from the academic unit in which the course was offered (other than the instructor of the course). This individual shall serve in an advisory role~~

b. Three faculty members holding academic rank, who are represented through the current applicable collective bargaining agreements, from the Faculty Senate ad hoc Student Appeals Committee (SAC) shall be appointed by the SAC chair. One voting member shall serve as chair of the student appeal committee.

c. ***The Associated Students of the University of Alaska Fairbanks shall appoint a non-voting member to each grade appeal committee.*** ~~The fifth member to *shall* be appointed by the Associated Students of the University of Alaska Fairbanks (ASUAF) *and shall* will be a non-voting *member of the committee* student representative.~~ ***If practicable, an undergraduate student will be appointed when the petitioner is an undergraduate, and a graduate student shall be appointed when the petitioner is a graduate student. This member shall not be excluded from any of the proceedings.***

d. A facilitator appointed by ***the*** administration shall serve as a non-voting member for formal grade appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.~~\~~

~~e. In the case of a grade appeal from a graduate student, a representative of the Graduate School may serve on the committee in a non-voting capacity.~~

5. The committee ~~must~~ ***shall*** schedule, within 10 class days from receipt of the student's request, ~~a mutually agreeable date, time and location for the appeal hearing~~ ***the initial review meeting. Only members of the committee shall attend the initial review meeting.*** ~~If the request for appeal is received any time other than during a regular semester, then the hearing must be scheduled on or before the 10th class day of the next regular semester.~~

a. ~~During this and subsequent meetings~~, ***Throughout the grade appeals process,*** all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

~~b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.~~

~~c.~~ ***b. At the initial review meeting, the committee shall first examine the student's request and the instructor's written response, if any, and shall*** ~~The mandatory first item of business at this *the initial review* meeting is for the committee to~~ rule ***whether to proceed with a formal hearing, to request additional information, or to***

dismiss ~~on the validity of~~ the student's request. Grounds for dismissal of the request for review are:

1) A properly prepared formal appeal of the particular grade has already been denied.

2) The alleged actions of the instructor do not constitute arbitrary and capricious grading, as defined herein.

3) The request was not made within the policy deadlines ***and no extenuating circumstances exist that would allow for the deadlines to be extended.***

4) The student has not completed the informal procedures to resolve the grade conflict with the instructor.

5) In the event that the committee votes to dismiss the request, a written notice of dismissal ~~must~~ ***shall*** be forwarded to the student, instructor, department chair, and dean within five class days of the decision, and will state clearly the reasoning for the dismissal of the request.

6. Acceptance for consideration of the student's request ~~will~~ ***shall*** result in ~~the following~~:

~~a. A request for and receipt of a formal response from the instructor to the student's allegation.~~

~~b. A second meeting~~ ***a review hearing*** scheduled to meet within 10 class days of the decision to review the request.

(the section a-g formerly were numbered 1-6)

a. ~~The~~ ***Both the*** student and instructor will be invited to attend the review ***hearing*** ~~meeting~~. ***In accordance with BoR policy and UA regulation, neither party may be excluded from the review hearing.***

b. At the committee's discretion, witnesses for either party may be invited to testify at the review hearing.

~~c.~~ ***Student dispute resolution proceedings will normally be closed. Requests for an open proceeding must be made by a party prior to the start of the proceeding. Such requests shall be granted to the extent allowed by law unless the committee's chair determines that all or part of a proceeding should be closed based upon considerations of fairness, justice, and other relevant factors.*** ~~The meeting will be closed to outside participation , and~~

*d. **Both*** the student and the instructor may be accompanied by ***a supporter*** ~~an advocate or representative~~. ***Supporters for the student or instructor may speak only at the discretion of the committee. Supporters shall not act as representatives.***

e. Other matters of format will be announced in advance.

~~3)~~ *f.* The proceedings will be recorded and the recordings will be stored with the campus conduct office.

~~4)~~ *g.* The ~~meeting~~ ***hearing*** must be ~~informal, non-confrontational and~~ fact-finding, where both the student and instructor may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

7. The ***committee will make its*** final decision ~~of the committee will be made~~ in private by a majority vote.

~~a. Actions which the committee can take if it accepts the student's allegation of arbitrary and capricious grading must be directed towards a fair and just resolution, and may include, but are not limited to, the following:~~

~~1) direct ***request*** the instructor to grade again the student's work ***with oversight provided by*** under the supervision of the department chair ***or other faculty member appointed by the dean***,~~

~~2) direct ***request*** the instructor to administer a new final examination and/or paper in the course,~~

~~3) direct a change of the student's registration status (i.e., withdrawn, audit, dropped) in the course.~~

a. ~~b.~~ The academic decision review committee proceedings will result in the preparation of written findings and conclusions. Conclusions will result in one of the following:

1) the request for a grade change is denied.

2) the request for a grade change is upheld; the review committee requests the course instructor to change the grade; and the course instructor changes the grade in accordance with the University of Alaska Fairbanks rules and procedures.

3) the request for a grade change is upheld; the course instructor is either unavailable to change the grade or refuses to, and the review committee directs the dean/director to initiate the process specified by the University of Alaska Fairbanks rules and procedures to change the grade to that specified by the review committee.

~~c.~~ ***b.*** A formal, written report of the decision ~~must~~ ***shall*** be forwarded to the student, instructor, department chair, dean, and registrar within five class days of the meeting.

~~d.~~ ***c.*** The decision of the committee is final.

The following motion was passed at Faculty Senate meeting #230 on March 5, 2018:

MOTION:

The UAF Faculty Senate endorses the UA Faculty Alliance request, stated in the letter from the Chair of Faculty Alliance dated February 18, 2018 to the Presidents of the UA Faculty Senates, to amend University Regulation R10.04.040.

Effective: Fall 2018

Rationale: UAF Faculty Senate moved to recommend changes to University Regulation R10.04.040 Section A, Categories for the Common Core of General Education Requirements, General Education Requirements, during meeting #229 as described in the letter from the Faculty Alliance. This motion to endorse the UA Faculty Alliance letter as a recommendation to enact all changes to University Regulation described in the letter, specifically including requested changes to R10.04.040 Section B, Credit Distribution for General Education Requirements, and Section C, Assumptions Regarding General Education Requirements for Baccalaureate Degrees.

****

Daniel M. White, UAF Chancellor Date:_____

Faculty Alliance letter on Revisions to UA Regulation R.10.04.040

UNIVERSITY of ALASKA

Many Traditions One Alaska

Date: February 15, 2018

To: Faculty Senate chairs
Faculty Alliance members

From: Faculty Alliance Chair, Lisa Hoferkamp

Subject: Revisions to UA Regulation R.10.04.040

Dear Governance Colleagues,

The General Education Requirement Coordinating Task Force (GER-CTF) along with disciplinary leads from all three UA universities and representatives from the Faculty Alliance (FA) met on the UAA campus from February 10 through February 11, 2018 at a GER Retreat to discuss what actions remain in order to complete the Board of Regent's (BoR) mandate to align GERs across the UA system. Among the GER courses that have not already been aligned, those for which reasonable modification will bring them into compliance with the alignment criteria set forth by the BoR were distinguished from those requiring unreasonable modification. It was agreed by attendees that between now and the end of faculty contracts, May 12, 2018, alignment of the former will be completed and the latter will be formally unaligned through changes in course number and title. Those in attendance at the GER Retreat agreed to make every possible effort to complete these tasks by May 12, 2018 such that the only task remaining after May 2018 is completion of curriculum committee process. The curriculum committees at each of the universities will process the necessary changes to the GER courses in AY18-19 with the expectation that aligned GERs will be entered into each university's AY

19-20 catalogue. The GER alignment work will be coordinated at each university by the disciplinary leads who will be responsible for reporting progress to that university's GER-CTF representative. The chair of the GER-CTF will report regularly to the FA. Through this line of communication, adherence to the agreed upon timeline will be encouraged and supported.

Changes to University Regulation R.10.04.040 regarding descriptions of GER categories, GER credit distributions and GER credit assumptions previously formulated by the statewide General Education Learning Objectives committee in 2012–2014 and revised by the second iteration of the General Education Learning Objectives committee in 2015 were also discussed at the GER Retreat. The group considered potential benefits and impacts to each university resulting from the proposed revisions and unanimously agreed that the former generally outweighed the latter. It was agreed that the proposed revisions to University Regulation R.10.04.040 should be presented to the UAA and UAS curriculum committees and faculty senates through their Faculty Alliance representatives. The UAF faculty senate has already considered these revisions and passed a motion of support for subsequent action by the FA. If the UAA and UAS curriculum committees and faculty senates approve the revisions, a motion is requested from each of those senates stating curriculum committee and faculty support as well as approval for the FA to move forward with presenting the proposed revisions to the Academic Council. Please note that the motion requested from the UAA and UAS faculty senates should reflect thorough vetting at each university such that the three motions (UAA, UAF and UAS) demonstrate system-wide approval for the proposed revisions to UA R.10.04.040.

A succinct description of each of the proposed revisions followed by the original regulation with edits is appended to this letter. Please consider this request to present these documents to your faculty senates for distribution to curriculum committees and constituent faculty. Once adequately reviewed, please report to me each body's decision regarding a motion of support for presentation to the UA Academic Council.

Best Regards,

Lisa Hoferkamp

Lisa Hoferkamp

Motion: The General Education Task Force 2017-18 proposes that UAA, UAF, and UAS Faculty Senates propose to the UA system president, via the Faculty Alliance, the following modification to University Regulation R.10.04.040.

Effective: Upon approval by all three institutions

Rationale:
The language in Board of Regents Regulation regarding the general education requirements (GERs) has not been revised since 1996. The descriptions in the regulations no longer clearly describe the GER categories in a way that is acceptable to the corresponding academic areas, the humanities description combines two categories. Changing the credit distribution among the categories enables the universities to determine how best to support their individual student populations. Finally, the option for students to use GERs to satisfy major and degree requirements not only allows for more flexibility, especially for students in credit-heavy majors, but it also allows departments to use GERs as recruitment courses for their programs.

While we recognize that separating courses into strict disciplinary buckets may not be ideal, we also recognize that revising and improving these disciplinary descriptions will be helpful to all three universities as they continue to revise their GERs.

In addition, having up-to-date language may be helpful to individual university GER committees, such as the UAF General Education Requirements & Core committee (GER&C), which bases its determination as to which courses are allowable into GER buckets on the language in the university regulations.

The language provided in this motion was developed initially by the statewide General Education Learning Objectives committee in 2012–2014 and revised by the second iteration of the General Education Learning Objectives committee in 2015. The revisions were sent to Faculty Alliance in the report "Report on General Education Alignment across the UA System: A Proposal for Student Success" in May 2015 but were not forwarded to the president for consideration at that time. Simultaneously, this language was being considered in the UAF General Education Revitalization Committee; basically the same language, with the exception of the change from Quantitative Skills to Mathematics, was submitted to UAF Faculty Senate as part of the report "Proposal for Common Baccalaureate Requirements and General Baccalaureate Education at UAF" in March 2014. The Expanded General Education Task Force, comprised of the Statewide GER Task Force plus faculty members from UAA, UAF, and UAS serving as disciplinary leads for each of the GER categories, finalized the language that follows in the revised regulations at the General Education Task Force & Disciplinary Leads retreat in February 2018.

Specific commentary on changing subsection A: the consequences of the revision of each of the disciplinary categories:

- Oral Communication Skills:

- Updates the language to meet the current practice in the discipline; no obvious course changes required by this language.

- Written Communication Skills
  - Updates the language to meet the current practice in the discipline; no obvious course changes required by this language.
- Quantitative Skills/Mathematics
  - This change would require UAA to change the title of one of its GER buckets. At all three universities, all courses that satisfy this GER requirement are mathematics and statistics courses (viewing statistics as a subfield of mathematics); this change would codify this current practice in university regulation.
- Natural Sciences
  - The proposed change *could* be interpreted to mean that natural sciences GER courses must include a laboratory to satisfy the "practice" component, but we don't think it *must* have that interpretation. All UAF GER natural science courses have a lab.
- Arts
  - Currently, the description of arts courses is confusingly smushed in with the description of humanities courses. The new description would allow 'skills' classes into the GER (e.g., painting, drawing, sculpting, movie making, acting....) as long as there is some 'academic discipline' content. Currently only fine arts appreciation and fine arts history classes are allowed. Note that we choose the name "arts" rather than "fine arts" to recognize that there are various arts disciplines, such as creative writing, that are not traditionally recognized as "fine arts".
- Humanities
  - This change clearly separates arts from humanities. Note that specific fields are not mentioned; this change to the language leaves open the contentious question of whether History is a social science (as at UAF) or a humanities (as at UAA).
- Social Sciences
  - Removing the requirement that social sciences be "broad survey courses", which is required of no other category, would allow a greater diversity of acceptable GER courses in the social sciences.

Specific commentary on changing subsection B: minimum credit distribution

- University regulations should allow for as much flexibility as possible for each university, while maintaining a core of commonality across the three universities for general education.
- Moving 'minimum' to the heading saves repetition
- To satisfy their GER, students would be allowed to take one to three social science classes (possibly all in the same

discipline), one to three arts classes and one to three humanities classes; that is, 1 of each category plus 2 more of any. However, each university could choose to set stricter guidelines, with the proviso that---as in current practice---a student who had taken courses to complete GERs at one institution would be considered to have completed GERs at the other university.

- Currently (although not explicitly required by UA regulations) all three Universities require 2 natural sciences plus 1 mathematics (including statistics) class. The proposed wording change would not change this minimum requirement, although it would allow for flexibility in the future if desired.

Specific commentary on changing subsection C: assumptions

- Emphasizes the expectation that general education courses should be at the 100 and 200 level.
- Allows for more flexibility for majors and programs that want to include GER courses explicitly in their major requirements (e.g., calculus is required for engineering courses) while maintaining the credit requirements described in subsection B.

R10.04.040. General Education Requirements.

A. Categories for the Common Core of General Education Requirements for Baccalaureate Degrees

1. Oral Communication Skills

~~Courses that fulfill this requirement are those which emphasize the acquisition of English language skills in orally communicating ideas in an organized fashion through instruction accompanied by practice.~~ Courses that fulfill this requirement provide guided practice in using oral communication as a tool for communicating ideas and responding to diverse and changing audiences.

2. Written Communication Skills

~~Courses that fulfill this requirement are those which emphasize the acquisition of English language skills in organizing and communicating.~~ Courses that fulfill this requirement provide guided practice in using writing as a tool for communicating ideas and responding to diverse and changing audiences.

3. ~~Quantitative Skills~~ Mathematics

Courses that fulfill this requirement ~~are those which emphasize the development and application of quantitative problem-solving skills and~~ expose students to the theory, methods, and practice of mathematics as an intellectual discipline.~~, as well as skills in the manipulation and/or evaluation of quantitative data.~~

4. Natural Sciences

~~Courses that fulfill this requirement are those that provide the student with broad exposure and include general~~

~~introduction to the theory, methods, and disciplines of the natural sciences.~~
Courses that fulfill this requirement introduce the students to the theory, methods, and practice of the natural sciences, integrating basic knowledge and disciplinary methodologies.

5. Arts
Courses that fulfill this requirement introduce the students to the methods and context of the arts as academic disciplines.

~~5~~.6. Humanities
~~Courses that fulfill this requirement are those that provide the student with an introduction to the visual arts and performing arts as academic disciplines as opposed to those that emphasize acquisition of skills. General humanities courses introduce the student to the humanistic fields of language, arts, literature, history, and philosophy within the context of their traditions.~~ Courses that fulfill this requirement introduce the students to the theory, methods, and practice of the humanities, integrating basic knowledge and disciplinary methodologies.

~~6~~7. Social Sciences
~~Courses that fulfill this requirement are broad survey courses which provide the student with exposure to the theory, methods, and data of the social sciences.~~ Courses that fulfill this requirement introduce the students to the theory, methods, and practice of the social sciences, integrating basic knowledge and disciplinary methodologies.

B. Minimum Credit Distribution for General Education Requirements for Baccalaureate Degrees

Written Communication Skills	6 credits ~~minimum~~
Oral Communication Skills	3 credits ~~minimum~~
Humanities/~~Social Sciences~~	~~15~~3 credits ~~minimum~~
Arts	3 credits
Social Sciences	3 credits
~~at least 3 credits in the arts~~	
~~at least 3 credits in general humanities~~	
~~at least 6 credits in the social sciences, from 2 different disciplines~~	
~~Quantitative Skills/Natural Sciences~~	~~10 credits minimum~~
~~at least 3 credits in mathematics~~	

~~at least 4 credits in the natural sciences, including a laboratory~~

Mathematics	3 credits
Natural Sciences, including a laboratory	4 credits

In addition, students must take:

At least 6 more credits from among arts, humanities, and social sciences
At least 3 more credits from among natural science and mathematics

---

Total general education credits: 34 credits ~~minimum~~

C. Assumptions Regarding General Education Requirements for Baccalaureate Degrees

1. All credits must be at 100 level or above.

2. R~~Most r~~equirements should~~will~~ be fulfilled at the 100 or 200 level. In some cases, upper division courses may meet the criteria.

3. ~~Credit may be counted towards general education or a degree major requirement, but not both.~~ A student shall not use a single course to meet more than one general education category. However, general education courses may also satisfy degree or major requirements.

4. General education requirements may extend beyond the 34 credit minimum described by the common core outlined in this Regulation.

DocuSign Envelope ID: AE17FC94-0AD6-46E4-98AE-DD817F505E06

The following motion was passed at Faculty Senate meeting #230 on March 5, 2018:

Motion:

The UAF Faculty Senate endorses the 28-Feb-2018 letter from UAS Faculty Senate President, Dr. Megan Buzby, to the UA Board of Regents about the proposed plans for the Alaska College of Education. We concur with the concerns expressed in that letter. This endorsement will be delivered to the UA Faculty Alliance for consideration for transmission to UA President Johnsen.

Effective: Spring 2018

Rationale: The letter from Dr. Megan Buzby was submitted to the UA Board of Regents (BoR) on 28 February 2018 as public testimony for the 1-2 March 2018 full BoR meeting, was acknowledged received at 4:48 p.m. on 2 March 2018, and was sent as response to a letter from UA President Johnsen to "education students, faculty, and staff" delivered to the UAS Chancellor's Cabinet on 26 February 2018 and subsequently to the UAS Faculty Senate Executive Board. The 26-Feb-2018 letter from UA President Johnsen requests feedback on the Alaska College of Education for discussion during the 1-2 March 2018 full meeting of the BoR.

The proposed Alaska College of Education and associated organizational changes affects all three universities in the UA system, with the Schools of Education at UAF and UAA proposed to be eliminated and their programs moved to other colleges within their respective universities. Inadequate time was provided to faculty, staff, students, and administrators at all three universities to solicit feedback and gather data regarding this potentially disruptive process at all three universities. In addition, students have expressed confusion to faculty about the proposed Alaska College of Education, with some apparently under the impression that students must travel to Juneau to pursue degrees in education. The UAF Faculty Senate has elaborated its own concerns with the decision and the decision-making process, and concurs with the concerns expressed in the letter from Dr. Buzby. The UAF Faculty Senate therefore requests that UA President Johnsen and the UA Board of Regents address those concerns.

The 28-Feb-2018 Buzby letter to the UA Board of Regents
The 26-Feb-2018 Johnsen letter to "education students, faculty, and staff"

February 28, 2018

Dear distinguished members of the Board of Regents,

This letter is in response to President Johnsen's letter, dated February 26, 2018, regarding the latest proposal for the Alaska College of Education structure. It represents my personal opinion informed by numerous discussions I have had with UA faculty, staff, students, community members, and consultants involved with the University of Alaska system.

The changes now before you do not reflect what was approved in concept after Strategic Pathways Phase I in 2016. The President proposed and the Board approved a single college of education for the state of Alaska. The gradual changes being made to that proposal no longer represent one college. While I believe these changes were made to make the best of a flawed decision, it appears as though only names and locations were changed with the addition of an ineffective administrator split between two high priorities. I agree that creating the teacher education council is a wise decision.

Two Schools of Education at UAA and UAF and one branch of the Alaska College of Education at UAS – are still three schools of education, regardless of the title you give them. Whether you call the administrative positions over those entities Directors, Deans, or Executive Deans, they are still responsible for the accreditation of programs, the faculty overseeing those programs, and the students enrolled in those programs. They are still full-time jobs that require experience and expertise in higher education.

Changing the title of "Dean of the College of Education" to "Director of the School of Education" at both UAA and UAF will not decrease the workload nor the responsibility of that position. If the goal is to pay a director less than a dean, you create a situation of high turnover which is inconsistent with the President's 2025 goal. If no money is saved, what is the point of changing names?

A major concern I have over the Executive Dean position is the lack of distinction between the Statewide home for the AKCOE and the UAS AKCOE. This change will most negatively affect UAS students and faculty who will be given a dean that does not have time to address local needs. This position will be split among the priorities for the system of three universities (and many more locations across the state) and trying to manage the daily concerns and accreditation at UAS. I believe UAS needs a Dean and the system needs a chair for the Teacher Education Council. UA does not need an Executive Dean to micromanage three schools of education nor is it reasonable to expect a single person to do such a thing. In addition, the Executive Dean position, as outlined in President Johnsen's letter, has no authority over UAA and UAF schools of education. At best, this position is set up to be ineffective. At worst, the position is set up to make uninformed decisions that create problems rather than fixing them.

It has been stated that one of the reasons for establishing a single college of education stemmed from a concern for a single point of contact for K-12 administrators. This seems like a useful improvement, but these elaborate structural changes and the addition of an Executive Dean are not necessary to create a single point of contact. That duty could easily be assigned to an existing position.

Perhaps the biggest positive outcome that came from Strategic Pathways was an acknowledgement that the three universities need to communicate more and work together. Education is like every other program across the state in that it needs to improve communication. Given its size and importance statewide, I think the education programs and the state could benefit from such a council. However, improving communication does

not require an Executive Dean. Form the UA Teacher Education Council and rotate the chair among the three universities.

The other major concern I have over this proposal is the justification which stems from the currently low percentage of new teacher hires that are UA-educated in the state. Perhaps we should back up and consider why this hiring percentage is only 30%. There are many factors, but availability is an important one that will not be fixed by 2025. Enrollment in colleges and universities is down across the entire country. The number of people pursing a degree in education is down across the entire country. The number of high school graduates is down in the state of Alaska. Now consider that the time it takes to complete an undergraduate degree is four years plus one more year to get a Masters of Arts in Teaching. That means we need to recruit record numbers of students from around the country to enroll in a teacher education program at UAA, UAF, or UAS by the year 2020 – that's 2 years from now. We would then need every single one of those students to earn their degree in five years and every single one of those students to apply for and receive jobs to teach in Alaskan schools. Do we really believe all this is possible in two years' time, simply because we changed the names of UAA and UAF Colleges of Education to Schools of Education and the name of UAS's School of Education to the Alaska College of Education? I do not. *Increase* the percentage of UA-educated new teacher hires, yes - but the state cannot hire people who do not exist.

The goal of 90 percent of new teacher hires to be UA-educated by 2025 is unattainable. What will we do when that goal is not met? All signs point to the new Executive Dean as the fall person. We will be hiring for this position again in 2025, if not before. The people that can make these changes are in the existing colleges and school of education. Mandate these units to increase their enrollment and graduates by an attainable amount. Take the money you save from hiring an executive dean to support their efforts.

In closing, I would like to remind us all that the simple solution is often the right one. Create a UA Teacher Education Council with membership from all three universities and outside stakeholders, but have the chair rotate among the three Education Schools/Colleges. Make that chair the contact person for the superintendents of the state. Support the existing colleges and school of education to achieve an attainable goal of more UA-educated teachers. We do not need an executive dean and we do not need an Alaska College of Education that looks and feels exactly like the system we have now – only less efficient.

I do realize these are challenging times and I very much appreciate your deliberations on this matter.

Sincerely,

Megan Buzby

Megan Buzby, PhD
Associate Professor of Mathematics at UAS
UAS Faculty Senate President

February 26, 2018

Dear Education Students, Faculty and Staff,

After numerous discussions with the Chancellors, I wanted to make you aware that the University of Alaska Board of Regents will discuss the proposed framework for establishing the Alaska College of Education when it meets in Fairbanks, March 1-2. The information that I will present at the board meeting about the Alaska College of Education can be found here: https://www.boarddocs.com/ak/alaska/Board.nsf/files/AWCTQV6A5199/$file/AKCOE%20Update%201%20Mar%202018%20RVSD%20Final.pdf

The university is making good progress toward establishing a single college of education, and the change is crucial to creating a culture in Alaska that encourages education and promotes the value of the teaching profession.

Below is a summary of the proposed changes.

What will change:

- The name: The new name will be the Alaska College of Education (AKCOE), with administrative leadership from the University of Alaska Southeast (UAS). In addition to this statewide coordinating role, the AKCOE will be the academic home for UAS teacher education.
- Leadership: UAS is nearing completion of the search for an Executive Dean for the Alaska College of Education. The Executive Dean will work closely with the schools of education at UAA and UAF to coordinate and align programs and courses and to encourage innovation across the university system. The Executive Dean, working with the UA Teacher Education Council (see below) will have input on budgets, promotion/tenure, marketing, hiring of faculty positions, engagement with external partners, and alignment and coordination of programs statewide.
- Reporting structure: The action will eliminate two dean positions and place the UAA and UAF programs inside existing colleges. The College of Education at UAA will become the School of Education and be part of the College of Arts & Sciences; the School of Education at UAF will become part of the College of Natural Science & Mathematics. These Schools of Education will be led by directors.
- UA Teacher Education Council: The Executive Dean for the College will chair the council with administrative and faculty representatives from all three universities. The Council's charge will be to promote coordination, alignment, and innovation across the UA system.

What will not change:

- Access and courses: UAA, UAF and UAS will continue to offer education programs and have faculty and staff at their campuses to support students in their programs.
- Degrees: Students will continue to earn their degree from any of the three universities.
- Accreditation: To ensure that all UA students receive a quality education, each university will work to maintain its accreditation with the Council for the Accreditation of Educator Preparation (CAEP), the national education accrediting body. The Northwest Commission on Colleges and Universities will also be notified of the administrative changes at UAA, UAF and UAS.

- Marketing: The university system will continue to work to recruit more students and to promote the virtues of a career as an educator.
- The university's goal: Fill 90 percent of new teacher hires in Alaska by 2025 with a UA-educated teacher. Currently, 30 percent of new teachers hired in our schools each year are UA-educated.

What can you do?

- You can express your views to the Board of Regents. **Written testimony** is accepted at *any* time and is shared with the board and the president. Please submit to: ua-bor@alaska.edu.
- If you are in Fairbanks, you can attend the Board of Regents' public gathering and talk to the regents personally. The gathering is from 4:30 p.m. – 5:30 p.m. on Thursday, March 1 in the Globe Room, 215 Elvey Building on the University of Alaska Fairbanks campus.

Sincerely,

Jim Johnsen
President

The following motion was passed at Faculty Senate meeting #230 on March 5, 2018:

MOTION:

The UAF Faculty Senate moves to approve a new Bachelor of Applied Management degree, housed in the School of Management.

Effective: Fall 2018, upon all approvals

Rationale: The Bachelor of Applied Management (B.A.M.) degree will play a vital role in attracting new students, from around Alaska, to attend the University of Alaska Fairbanks while helping to achieve its enrollment growth goals. The B.A.M degree will be the first of its kind in the nation and has the potential to draw many **new** students.

The fully online Bachelor of Applied Management (B.A.M.) degree will give Alaskans, who have educational training in specific skill occupations and often accompanying work experience, the chance to continue their education. Students will be able to finish their four-year degree while continuing to work and obtain a degree that will allow them to become proficient middle-managers and supervisors in their chosen career fields. This unique, AACSB accredited business degree, offers students the opportunity to use their skills and degrees/certificates for academic and career growth. The B.A.M degree will also attract students outside of Alaska, which will enrich the program for Alaskan students and bring in additional revenue allowing the program to be financially sustainable. This degree will eventually be collaborative with the UAA College of Business and Public Policy, which plans to submit their program for review next AY and will allow the two business schools to lower their costs.

The B.A.M. degree is designed specifically for students who have a technical hands-on degree or certificate in fields such as mechanics, culinary arts, welding, healthcare, etc. and who are looking to develop management skills within their fields. Applied Management majors are desired in nearly every industry including, for example, aviation, automotive technology, hospitality and the growing field of healthcare. This desirability provides a unique opportunity as only a limited number of applied management bachelor degrees exist and many of those are located in for-profit institutions. The proposed degree would be even more exceptional as it would likely be the only AACSB accredited applied management degree in the nation.

The Alaskan workforce will experience gains as skill-based workers transform their management practices using a more educated approach. The relationship between the business community and the universities will be strengthened as more business leaders

earn four-year accredited degrees from the University of Alaska. Finally, the Alaskan population will benefit from an increased level of college-educated citizens.

Support:

UAA College of Business and Public Policy Dean Bogdan Hoanca- The proposed joint program will further strengthen the cooperation between the CBPP and the SOM, will better align our course offerings and will provide an opportunity for adults with technical and vocational training to gain management skills that will help them advance in their careers. This type of initiative directly supports President Johnsen's 65% by 2025 initiative (to get 65% of Alaskan workforce to have a postsecondary credential by 2025). We currently lack such an accredited program in Alaska, and I am confident it will be a useful addition to the menu of options available to Alaskans.

Carol Gering UAF eLearning supports development of the new BAM (Bachelor of Applied Management). We appreciate the School of Management's efforts to grow UAF enrollment through innovative new programs. We believe the BAM program will be effective in drawing new students to UAF; offering it online will make the degree accessible to working adults and non-traditional students who wish to grow their skills and advance their careers. eLearning commits to provide faculty development and instructional design support, as well as recruitment efforts and student service support.

****

Chris Fallen, UAF Faculty Senate President

See the attached program description:

Brief Statement of the Program:

The Bachelor of Applied Management (B.A.M.) online degree is designed for individuals who have completed 21-30 credit hours in an area of specialization or trade and aspire to assume middle management-level positions in their chosen field.

Applied Management majors are desired in nearly every industry including, for example, aviation, automotive technology, hospitality and the growing field of healthcare. This desirability provides a unique opportunity as only a limited number of applied management bachelor degrees exist and many of those are located in for-profit institutions. The proposed degree would be even more exceptional as it would likely be the only AACSB accredited applied management degree in the nation.

The online Bachelors of Applied Management degree provides students with the academic education required to be proficient middle-managers in their career fields. It offers students with degrees and certificates, not usually designed to fulfill the requirements within a bachelors program, the opportunity to use their skills and degrees/certificates for academic and career growth.

Objectives:

1. To expose students to a general management degree that can be used across non-traditional business disciplines.
2. To provide students the skills to be proficient and competent middle-managers in their career fields.
3. To provide students the opportunity for both career and academic growth by allowing them to use the skills they already possess and develop them into a baccalaureate degree.

Evaluation of objectives:

1. Academic performance.
2. The number of students who move to managerial roles after completing B.A.M. degree.

Relations to Purpose of the University:

A. Educate: The degree is designed to further educate students who are interested in management and have a technical expertise in a trade.
B. Research: Through course embedded projects, undergraduate students will develop and utilize real-life management skills. Students will have the opportunity to work with professors on real management projects.
C. Prepare: This degree will prepare students for mid-level management positions in their current fields, something that is not currently available to students in Alaska. This degree is key to workforce development.

D. Connect: The online format of the B.A.M. degree will allow students not only to connect with the instructor for classroom requirements but also to network with other students throughout the state and country. This networking will provide a better educational, and possibly an even better professional, experience for the student.
E. Engage: B.A.M. is designed specifically to engage Alaskans, and other students across the nation, in continuing education outreach. The key feature of the program is to target students who would like to continue their education.

Plans for recruiting students:
Alaskan Students will be recruited through traditional means such as job fairs, high school visits and marketing campaigns. Additionally, lower-48 students will be recruited through the use of Articulation Agreements with two-year community colleges. The School of Management (SOM) already has an extensive network of articulation agreement with two-year colleges:

- Allen Hancock College- Santa Maria, California
- Central Texas College- Killeen, Texas
- Clackamas Community College- Oregon City, Oregon
- Coastline Community College- Fountain Valley, California
- Columbus State Community College- Columbus, Ohio
- Mount Hood Community College- Gresham, Oregon
- Rio Hondo College- Whittier, California
- Rogue Community College- Grants Pass, Oregon
- Salt Lake Community College- Salt Lake City, Utah
- Santa Ana College- Santa Ana, California
- Sinclair Community College- Dayton, Ohio
- Skagit Valley College- Mt. Vernon, Washington
- Truckee Meadow Community College- Reno, Nevada
- Red Rocks Community College- Lakewood, Colorado

Employment Market Needs:
This program was discussed extensively with the UAF School of Management Business Advisory Council (BAC) and well as the Accounting Advisory Board (AAB). This group is made up of business leaders, mainly from Fairbanks and Anchorage but also with representation from the Lower 48. Alaska Department of Labor and Workforce Development and the United States Department of Labor statistics were examined. Finally, business faculty from the University of Alaska Anchorage College of Business and Public Policy were also consulted.

Job opportunities:

Now:

From the UAF business advisory councils, there was widespread enthusiasm for the proposed B.A.M. degree as part of the SOM five-year strategic planning process. In addition, the Alaska Department of Labor and Workforce Development categorize General and Operations Managers as those who "plan, direct, or coordinate the operations of public and private sector organizations. Duties and responsibilities include formulating policies managing daily operations, and planning the use of materials and human resources." This is a good description of the graduates of the B.A.M. program. The Alaska mean wage for this group is competitive at over $50,000 annually. In total, the Alaska Department of Labor categorizes over 30,000 jobs that B.A.M. trained students would qualify for, however, this is a substantial understatement as it does not allow for the many students who would already be employed in a technical area and improving their business acumen (these statistics pertain just to Alaska.)

Currently, these positions are being filled by employees with no formal management skills or by managers that have little technical backgrounds in the field in which they are managing. The positions are often filled by employees with business degrees that do not have the technical background required to make them successful leaders in these fields.

Two years from now:

Extrapolating from the 10-year Alaska growth, a two-year growth would be approximately 1.3% new jobs, not counting the jobs opened up by workers retiring, or otherwise, leaving their position. The forecasted nationwide growth is 1.8%.

Five years from now:

Extrapolating from the 10-year Alaska growth, a five-year growth would be approximately 3.2% new jobs, not counting the jobs opened up by workers retiring, or otherwise, leaving their position. The forecasted nationwide growth is 4.5%.

Ten years from now:

Alaska Department of Labor and Workforce Development, for General and Operations Managers, forecasts a 6.3% ten-year rate of growth for this group of mid-level managers which slightly exceeds the 5.8% growth rate overall all occupations. Across the United States, the United States of Labor forecasts the ten-year job growth to be 9% in addition to workers that will need to be replaced as they retire, or otherwise, leave.

Facilities/Space Needs:

No new space is needed for the B.A.M. degree as it is a strictly online program and the B.A.M. courses will be strictly offered online.

Credit Hour Production:

Most all of the required courses are currently offered every spring and fall semester. Credit hour production from 100 sustainable students annually is approximately 3,000 a year.

Library/Media Materials, Equipment and Services:

None, as UAF Elmer E. Rasmuson Library already has management curriculum resources (i.e. texts, journals, databases).

Effects on enrollments elsewhere in the system:

This should have no negative effects on enrollments elsewhere in the system as it is specifically targeting students that do not have a current option for management degrees. It is very different than a B.B.A. degree which is designed for business-specific students and as such should have the ability to attract a much different type of student. It should have substantial positive effects for the Community and Technical College as this degree should be very attractive to its students earning trade focused certificates, endorsements and degrees.

This program will also increase enrollments at UAF for non-business courses and, as it will be a collaborative between UAF and UAA, will benefit the UA system.

Catalog Layout:

The B.A.M. degree requires a minimum of 120 credit hours. It is an online degree designed for students that have a technical hands-on degree or certificate in fields like mechanics, culinary arts, welding, healthcare, etc. that are looking to develop management skills within their fields. This degree is designed for students who already have a career that are looking on expanding their skill-sets to become mid-level managers in their next career step.

Minimum Requirements for Degree: 120 credits

Students must earn a C- grade or better in each course.

Enrollment Information

Projected Enrollment: New Majors annually

- Year 1: 20
- Year 2: 40
- Year 3: 50
- Year 4: 40
- Year 5: 40

Projected sustained enrollment (100 majors)

How was projected/present enrollment determine? Who was surveyed and how?

Projections were based on many things including the figure that UA President Johnsen has often mentioned of 120,000 people in Alaska with some college education but no degrees. This program is also closely modeled after the UAF SOM online Bachelors of Emergency Management in which there are now over 200 majors. UAF SOM has already set up several articulations with two-year colleges across the nation and we would utilize those to draw students from the low-48 who would like an AACSB accredited B.A.M. degree but are often being shut out of college opportunities in their own states (e.g. California; currently, the HSEM

program has students from 28 states). This is a "proof of concept" that will work here. This degree has also been discussed extensively with the UAF SOM Student Advisory Council (SAC) and the students believe there will be a large demand for this program. Finally, a survey was sent out to all current students and alumni with the results coming back favorable.

We believe this program is sustainable with 100 students. UAA School of Business and Public Policy has indicated an interest to share costs through the sharing of online courses.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5

Year 1= 20 new
Year 2= 20 new
Year 3= 20 new
Year 4= 20 new
Year 5= 20 new

Maximum enrollment which program can accommodate = 250

Resources Impact:

Resource Commitment

SOM is not requesting any new resources. It can start the program by leveraging its existing BA faculty. As the program grows resources will be supported from tuition.

Revenue and Expense Projection

The following motion was passed at Faculty Senate meeting #230 on March 5, 2018:

MOTION:

The UAF Faculty Senate moves to amend the Faculty Senate Bylaws.

Effective: Immediately

Rationale: The Graduate Academic and Advisory Committee has established a process for which Graduate Student members are selected and the Bylaws for the committee need to be updated to reflect this change.

****

Chris Fallen, UAF Faculty Senate President

See the attached bylaw changes:

[[ ]] = Deletions
Bold = Additions

UAF Faculty Senate Bylaws, Sect. 3 (ART V: Committees), Subsection H. PERMANENT

1. The Graduate Academic and Advisory Committee **has** responsibility for oversight, review and approval of all professional degree courses and programs. The committee advises the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial issues and dealings with other universities.

   The Graduate Academic & Advisory Committee includes ten faculty members and up to two graduate students. The Dean of the Graduate School, Director of Library, and the University Registrar are non-voting ex officio members. Graduate student representatives are appointed by the Dean of the Graduate School[[.]] **using the process established by the Graduate Academic and Advisory Committee and passed by the Faculty Senate in March 5, 2018.**

The following motion was passed at Faculty Senate meeting #230 on March 5, 2018:

MOTION:

The UAF Faculty Senate moves to establish a process for the selection of the two (2) Graduate Student members of the Graduate Academic and Advisory Committee.

Effective: Immediately

Rationale: According to the Faculty Senate bylaws, "The Graduate Academic & Advisory Committee includes ten faculty members and up to two graduate students. The Dean of the Graduate School, Director of the Library, and the University Registrar are non-voting ex officio members. Graduate student representatives are appointed by the Dean of the Graduate School." http://www.uaf.edu/uafgov/faculty-senate/about/faculty-senate-constituti/

The purpose of this document is to establish an inclusive process by which graduate students select their representative(s), whose names are then sent to the Dean of the Graduate School for appointment to the GAAC.

****

Chris Fallen, UAF Faculty Senate President

See the attached process:

Process for Selecting Graduate Student Representatives on the Graduate Academic & Advisory Committee (GAAC)

Nomination and voting process

1. By the first Friday in March of each academic year, the Graduate School will solicit nominations from the entire graduate student body for the following academic year. Self-nominations are accepted. Each nomination should include the graduate student name, degree program, major, and no more than 100 words describing their background and interest in serving on the GAAC.

The email soliciting nominations will be sent to all graduate students registered for the current (spring) semester and previous fall semester. The Graduate School will request nominations within two (2) weeks of the date of the email.

2. After nominations are received, the Graduate School will set up a voting process and request that graduate student vote for their top two (2) choices within two (2) weeks of the date of the email. The names of the two (2) students receiving the most votes will be appointed to the GAAC by the Dean of the Graduate School. In the case of ties resulting in more than two students receiving the most votes, the Dean of the Graduate School will make the final decision.

The following motion was passed at Faculty Senate meeting #229 on February 5, 2018:

Motion:

The UAF Faculty Senate recommends the UA Faculty Alliance consider the following modification to University Regulation R10.04.040, subsection A:

Effective: Fall 2018

Rationale: The language in Board of Regents Regulation regarding the disciplinary categories has not been revised since at least 1996. The descriptions in the regulations no longer clearly describe the GER categories in a way that is acceptable to the corresponding academic areas, and in some cases (e.g., humanities) the descriptions combine two categories.

While we recognize that separating courses into strict disciplinary buckets may not be ideal, revising these disciplinary descriptions to work better while the three universities continue to work to revise their GER would be helpful.

In addition, having up-to-date language would be helpful to the General Education Requirements & Core committee (GER&C), since the language in the university regulations is the basis on which the UAF GER&C determines which courses are allowable into GER buckets.

The language provided in this motion was initially developed by the statewide General Education Learning Objectives committee in 2012–2014 and revised by the second iteration of the General Education Learning Objectives committee in 2015. the revisions were sent to Faculty Alliance in the report "Report on General Education Alignment across the UA System: A Proposal for Student Success" in May 2015 but were not forwarded to the president for consideration at that time. Simultaneously, this language was being considered in the UAF General Education Revitalization Committee; basically the same language, with the exception of the change from Quantitative Skills to Mathematics, was submitted to UAF Faculty Senate as part of the report "Proposal for Common Baccalaureate Requirements and General Baccalaureate Education at UAF" in March 2014.

Specific commentary on the consequences of the revision of each of the disciplinary categories:

- Oral Communication Skills:
    - Updates the language to meet the current practice in the discipline; no obvious course changes required by this language.
- Written Communication Skills
    - Updates the language to meet the current practice in the discipline; no obvious course changes required by this language.
- Quantitative Skills/Mathematics
    - This change would require UAA to change the title of one of its GER buckets. At all three universities, all courses that satisfy this GER requirement are mathematics and statistics courses (viewing statistics as a subfield of mathematics); this change would codify this current practice in university regulation.
- Natural Sciences
    - The proposed change *could* be interpreted to mean that natural sciences GER courses must include a laboratory to satisfy the "practice" component. All UAF GER natural science courses have a lab.

- Arts
  - Currently, the description of arts courses is confusingly smushed in with the description of humanities courses. The new description would allow 'skills' classes into the GER (e.g., painting, drawing, sculpting, movie making, acting....) as long as there was some 'academic discipline' content. Currently only fine arts appreciation and fine arts history classes are allowed. Note that we choose the name "arts" rather than "fine arts" to recognize that there are various arts disciplines, such as creative writing, that are not traditionally recognized as "fine arts".
- Humanities
  - This change clearly separates arts from humanities. Note that specific fields not mentioned; this change to the language leaves open the contentious question of whether History is a social science (as at UAF) or a humanities (as at UAA).
- Social Sciences
  - Removing the requirement that social sciences be "broad survey courses", which is required of no other category, would allow a greater diversity of acceptable GER courses in the social sciences.

R10.04.040. General Education Requirements.

A. Categories for the Common Core of General Education Requirements for Baccalaureate Degrees

1. Oral Communication Skills

Courses that fulfill this requirement [[are those which emphasize the acquisition of English language skills in orally communicating ideas in an organized fashion through instruction accompanied by practice]] **provide guided practice in using oral communication as a tool for communicating ideas and responding to diverse and changing audiences.**

2. Written Communication Skills

Courses that fulfill this requirement [[are those which emphasize the acquisition of English language skills in organizing and communicating.]] **provide guided practice in using writing as a tool for communicating ideas and responding to diverse and changing audiences.**

3. [[Quantitative Skills]] **Mathematics**

Courses that fulfill this requirement [[are those which emphasize the development and application of quantitative problem-solving skills as well as skills in the manipulation and/or evaluation of quantitative data.]] **expose students to the theory, methods, and practice of mathematics as an intellectual discipline~~, rather than focusing on rote computation.~~**

4. Natural Sciences

Courses that fulfill this requirement [[are those that provide the student with broad exposure and include general introduction to the theory, methods, and disciplines of the natural sciences.]] **introduce the student to the theory, methods, and practice of the natural sciences, integrating basic knowledge and disciplinary methodologies.**

5. **Arts**

Courses that fulfill this requirement introduce the student to the methods and context of the arts as academic disciplines as opposed to those that only emphasize acquisition of skills.

[[5]]**6.** Humanities

Courses that fulfill this requirement [[are those that provide the student with an introduction to the visual arts and performing arts as academic disciplines as opposed to those that emphasize acquisition of skills. General humanities courses introduce the student to the humanistic fields of language, arts, literature, history, and philosophy within the context of their traditions.]] **introduce the student to the theory, methods,**

and practice of the humanities, integrating basic knowledge and disciplinary methodologies.

[[6]]**7**. Social Sciences

Courses that fulfill this requirement [[are broad survey courses which provide the student with exposure to the theory, methods, and data of the social sciences.]] **introduce the student to the theory, methods, and practice of the social sciences, integrating basic knowledge and disciplinary methodologies.**

The following motion was passed at Faculty Senate meeting #229 on February 5, 2018:

MOTION:

The UAF Faculty Senate moves to approve a new Bachelor of Sport and Recreation Business degree, housed in the School of Management.

Effective: Fall 2018, upon all approvals

Rationale: The Bachelor of Sport and Recreation Business (BSRB.) degree will play a vital role in exciting new students, from around Alaska, the nation and the world, to attend the University of Alaska Fairbanks while helping to achieve its enrollment growth goals. The BSRB. degree will be the first of its kind in Alaska and has the potential to draw many **new** students, including many that will reside on campus, helping to fill underutilized dorms, and those that will attend (or partially attend) from distance.

The program will contribute to the mission of the University of Alaska through the dissemination of knowledge which prepares our graduates to succeed as leaders, professionals, responsible global citizens, and lifelong learners. The projected growth in the art, entertainment, recreation, and tourism industries by the United States Department of Labor shows great potential for graduates. Initially, the degree will be launched with two concentrations (Sport Management and Recreation Management), but the potential to offer further concentrations in the future exists.

Support:

- *UAF eLearning* recognizes the initiative SOM has shown in developing new academic programs with appeal and relevance for professionals. We appreciate SOM's efforts to create innovative programs that will attract new students to UAF. We are happy to partner with SOM to develop and deliver quality online programs. UAF eLearning pledges instructional design, faculty development, and marketing support for the proposed BSRB.
- *DRAW* is excited about the opportunity to work with BSRB to capitalize on Alaska's natural beauty and a unmet demand for students to do an intensive summer study in outdoor recreation. - Mark Oldmixon, Director of DRAW. *Outdoor Adventures* would be thrilled to share our expertise in outdoor recreation management and facilitate a summer intensive study program for this new major. - Brandon Worthington - Coordinator of Outdoor Adventures
- The *Applied Business and Applied Accounting (ABUS)* program believes that the new BSRB program will be a valuable addition to UAF, and we support the School of Management's effort in creating this new and innovative program. It is our firm belief that the BSRB's relevant, practical nature will draw students from inside and outside of Alaska.
- The *economics program faculty* strongly support the proposed B.S.R.B degree and view its approval as critical to rebuilding the economics program within the School of Management. Our colleagues have taken care to incorporate our courses within the design of program. This will provide a new opportunity for us to show students the value of study in our field. We hope to leverage these kinds of opportunities for enrollment growth as we develop a new concentration. Joe Little, Ph.D. -Economics M.S. Program Director

Chris Fallen, UAF Faculty Senate President

DocuSign Envelope ID: C34B682A-FE6E-4E9F-827E-331281D79E3C

Brief Statement of the Program:

Bachelor of Sport and Recreation Business will prepare students for careers on the business side of sport, recreation, and/or tourism. The program emphasizes the critical business areas including accounting, marketing, management, economics, and finance applied to the sport, recreation, and tourism industries. The combination of business, leadership, and hands-on education are what set our students up to make an immediate impact within an organization.

Objectives:

1. Apply traditional business management concepts to major issues facing sport, recreation, and tourism managers.
2. Prepare students with a knowledge base and competencies to foster an understanding of the sport, recreation, and tourism industries.
3. Development of oral, written, research, career preparation, and interpersonal skills required for successful careers in sport, recreation, and tourism.
4. Utilize in-classroom and outside the classroom experiences to develop globally minded sport, recreation, and tourism professionals.

Evaluation of objectives:

1. Course-embedded direct, summative assessment including exams, research papers, and final projects.
2. Course-embedded direct, formative assessment including self-assessments, discussion, and strategic questioning.
3. Program-level indirect measures such as student surveys and alumni surveys.

Relations to Purpose of the University:

a) Educate: Students within the BSRB program will be exposed to both business and sport, recreation and tourism management focused undergraduate courses.
b) Research: Through course embedded projects undergraduate students will develop and utilize research skills. Students will also have the opportunity to work with professors on research projects outside of the classroom.
c) Prepare: The BSRB program is grounded in career development. Students will be gaining practical experience in every course as well as career development and exploration skills throughout the program.
d) Connect: The BSRB program will connect Alaskan communities through research as well as the program itself has the potential to attract students from all over the state of Alaska.
e) Engage: The BSRB program will partner with sport, recreation and tourism organizations and small businesses for experiential learning projects, guest speakers, student recruitment, and research projects.

How does the program relate to research or service activities? Contributions to research or service. Benefits from research or service activities:

The BSRB Program (referred to with the SPRT designator) will have a significant impact on research activities.

Over the last two years, SPRT-aligned faculty have developed and founded the SOM Virtual Reality (VR) Lab, obtained over $175,000 in research awards, and successfully advised the school's first Undergraduate Research and Scholarly Activity (URSA) funded student project, ultimately leading to a conference presentation and published journal article. GCI is showcasing the VR lab at the 2018 Alaska Society for Technology in Education annual conference at Anchorage which will be attended by 400-600 education technologists/leaders from all around the State. The VR lab was also be demonstrated at the 2nd annual Careers of Science and Math Opportunity Summit (COSMOS) at UAF.

In a fiscal climate charged with UA-System collaboration, the BSRB Program will do just that as there are meetings scheduled with the UAA College of Business and Public Policy to discuss future collaboration options. One example is a research partnership with the UAA Institute of Social and Economic Research

DocuSign Envelope ID: C34B682A-FE6E-4E9F-827E-331281D79E3C

(ISER) to investigate the economic impact of losing a professional sport franchise with the relocation of the Alaska Aces Ice Hockey club. Additionally, future research and curriculum collaboration will be discussed looking at the future of sport in Alaska (e.g. extreme sport, virtual reality sport consumption, tourism, and franchise survival)

The BSRB Program will also have a high impact on service activities. The UAF School of Management's SPRT-based curriculum has already had a positive presence within the UAF community, off-campus events, and community schools. Every semester, faculty can be seen speaking at local schools about career options and channels for students interested in pursuing sport- and recreation-based careers. Additionally, community organizations such as Explore Fairbanks have expressed interest in acquiring student interns and working with the School of Management on practical classroom projects to benefit the local economy through tourism. This program will serve to recruit for UAF as a whole. This month, one of our SPRT faculty is working with the Athletic Director at Hutchison, to bring 100 high school athletes, who will be in a basketball tournament at Hutch, on campus to visit and hear about UAF programs.

Plans for recruiting students:
The School of Management currently has articulation agreements and overarching memorandum of understandings (MOUs) between several schools in the lower 48 that also have sport, recreation, or tourism associate degrees. The SPRT program plans to expand the current MOUs to include articulation agreements for those degrees into the BSRB degree. The schools that SOM currently has MOU or are working on finalizing MOUs are:

- Allen Hancock College- Santa Maria, California
- Central Texas College- Killeen, Texas
- Clackamas Community College- Oregon City, Oregon
- Coastline Community College- Fountain Valley, California
- Columbus State Community College- Columbus, Ohio
- Mount Hood Community College- Gresham, Oregon
- Rio Hondo College- Whittier, California
- Rogue Community College- Grants Pass, Oregon
- Salt Lake Community College- Salt Lake City, Utah
- Santa Ana College- Santa Ana, California
- Sinclair Community College- Dayton, Ohio
- Skagit Valley College- Mt. Vernon, Washington
- Truckee Meadow Community College- Reno, Nevada
- Red Rocks Community College- Lakewood, Colorado

Also, we would look at the following:

- Two year colleges with a large number of athletic programs (over 500 National Junior College Athletic Association Institutions)
  - Two year colleges with large enrollment numbers
  - Two year colleges with sport /recreation management specific programs already established
  - Two year existing connections – LSU- Eunice, Santa Ana, Michigan CC's

Employment Market Needs:
All statistics are from the Bureau of Labor Statistics and the Alaska Department of Labor and Workforce Development. There are also letters included in this packet from local leaders in sport, recreation, and tourism from Fairbanks in support of the program.

- Bureau of Labor Statistics (BLS) identified Recreation Workers as having an estimated 108,000 jobs open between 2014-2024 and a faster-than-average growth throughout the U.S.
- Coaches and scouts are anticipated to have 99,400 job openings between 2014-2024
- Sales positions have the most openings within the sports industry out of all positions. Sales representatives/managers are anticipated as having a faster-than-average growth nationwide according to the BLS from 2014-2024

DocuSign Envelope ID: C34B682A-FE6E-4E9F-827E-331281D79E3C

Job opportunities:

Now:
From the Bureau of Labor Statistics for the Arts, Entertainment and Recreation Sector which includes wide range of establishments that operate facilities or provide services to meet varied cultural, entertainment, and recreational interests of their patrons:

- Current Employment 2,278,000
- Average wage in recreation in Alaska $47,160 as of July 2017
- Current Job Openings 87,000 as of July 2017
- In Alaska, it is a small, but very visible industry. Job opportunities have grown in this industry 23% over the past decade (Alaska Department of Labor and workforce Development)

From the National Association of Colleges and Employers (NACE) 2016 Survey:

- Employers anticipated in 2016 they would hire 11% more recent college graduates in 2017
- Retail, Miscellaneous Professional Services and Management, all of which would contain sport, recreation, and tourism management professions indicated a good to very good job market rating in 2016
- The highest degree in demand by broad category is business (75.6% of respondents)

Two years from now:
The "bright outlook" occupations listed below are predicted to have faster-than-average growth, as identified by the Bureau of Labor Statistics. "Bright outlook" means the occupations are expected to grow rapidly in the next several years, will have large numbers of job openings, or are new and emerging occupations.

- Recreation Workers
- First line Supervisors and Spa Managers
- Meeting, Convention and Event Planners
- Sales Managers, Marketing Managers, Facility Managers are all relevant for sport management targeted careers.

Five years from now:
10.8% overall increase from 2014-2024 projected for Leisure and Hospitality Industry in Alaska and 10% higher than average growth in Arts, Entertainment and Recreation industries nationwide

Alaska-Specific for Arts, Entertainment and Recreation from Alaska Department of Labor and Workforce Development, Research and Analysis Section.

- 7.3% anticipated growth in Alaska for Lodging Managers
- 5.6% anticipated growth in Alaska for Meeting, Convention and Event Planners
- 5.8% growth for Coaches and Scouts
- 16% of those working in these industries are self-employed, the largest self-employment percentage among all Alaska Industries which emphasizes the need for business savvy entrepreneurs

Ten years from now:

- 10.8% overall increase from 2014-2024 projected for Leisure and Hospitality Industry in Alaska
- Arts, Entertainment, and Recreation Industry anticipated 10.9% projected change in employment from 2014-2024 in Alaska
- Recreation Workers in U.S. (from Bureau of Labor Statistics)
- 10% higher-than-average growth from 2014-2024 projected
- Anticipated employment change from 2014-2024 = 38,900 job

Facilities/Space Needs:

DocuSign Envelope ID: C34B682A-FE6E-4E9F-827E-331281D79E3C

No new space is needed for the BSRB Program, as this program further maximizes the use of UAF SOM classroom space and research space (i.e. SOM Virtual Reality Lab)

Credit Hour Production:

Four SPRT 200- or 400-level courses will be offered per semester on a rotating basis, providing students with 12 semester credits and eligibility for full-time financial aid. Total UAF credit hour production for all school and colleges from 150 sustainable students annually is approximately 4,500 a year.

Library/Media Materials, Equipment and Services:

None, as UAF Elmer E, Rasmuson Library already has SPRT curriculum resources (i.e. texts, journal databases).

Catalog Layout:

The Bachelors of Sport and Recreation Business (BSRB) requires a minimum of 120 credit hours. The BSRB will provide academic preparation and sought-after, critical education necessary for entry-level careers in the sport and recreation industries. This degree will also serve as a capstone program for students with relevant two-year associate degrees in sport and recreation management who wish to continue an education into a four-year business program, such as the Bachelor of Sport and Recreation Business degree at SOM.

Concentrations: Sport Management and Recreation Management, Minimum Requirements for Degree: 120 credits, Students must earn a C- grade or better in each course.

Margaret Keiper	Faculty	Teach courses in School of Management Develop new courses in School of Management Publish original research Serve on academic and administrative committees	Ph.D., Sport Administration
Amber Lammers	Admin/Coordinating Personnel	Develop syllabi, coordinate curriculum changes and scheduling	M.B.A.

Enrollment Information

Projected new enrollment:

DocuSign Envelope ID: C34B682A-FE6E-4E9F-827E-331281D79E3C

- Year 1 = 15 Majors
- Year 2 = 25 Majors
- Year 3 = 30 Majors
- Year 4 = 35 Majors
- Year 5 = 40 Majors (project sustained enrollment 150 Majors)

How was projected/present enrollment determine? Who was surveyed and how?

Projected enrollment is based on our current enrollment of 30 students in SPRT 281 Introduction to Sport Management, matching UAF enrollment trends for the HSEM degree, extensive research into Sport and Recreation programs nationally, student surveys (see attached), the existing marketing channels that SOM has developed for recruiting, discussions with the SOM Business Advisory Council, Accounting Advisory Board, and the Student Advisory Council, and support statements of students.

The enrollment highlight of the BSRB. Program is that this new program has the potential to attract a high percentage of new/unique students who would not otherwise attend UAF. Relationships for articulation agreements are already in place through the School of Management's Bachelors of Emergency Management (B.E.M.) program and discussions have started to coordinate with UAF's Department of Recreation, Adventure, and Wellness (DRAW) for a hands-on summer outdoor recreation management option that will attract and retain new students. This BSRB/DRAW summer program will aid in program growth and visibility as participation will be open to non-UA System students as well.

Minimum Enrollments to maintain program for years 1, 2, 3, 4 and 5
Year 1= 10 new
Year 2= 15 new
Year 3= 20 new
Year 4= 20 new
Year 5= 20 new
Maximum enrollment which program can accommodate = 25/semester, 50/annually

Survey Results
Letter of support 1
Letter of support 2
Letter of support 3

Resources Impact:

Resource Commitment
SOM is not requesting any new resources. It can start the program by leveraging it existing two SPRT faculty and other BA faculty. As the program grows resources will be supported from tuition.

Revenue and Expense Projection
Attached are estimates for the first year (AY19) with a projected 15 new full-time majors and for AY24 with a projected 120 majors. At the sustained 120 students, programs outside of SOM would be able to support two new full-time faculty and adjuncts to teaching the remaining sections. SOM would be able to support one new faculty and adjuncts for the remaining courses. At this point SOM would likely need to start thinking about adding a second new faculty member but the additional revenue over expenses would only partially cover this. However, by this point we would hope to have private donations, or other innovative means, to support a second faculty. Also, if UAF moves to a 80% tuition recovery rate for Schools and Colleges that will help SOM, and all other programs, recover additional revenues from the BSRB to cover expenses. These are only rough ballpark estimates as the composition and success of the students (first-year vs. transfer, on campus vs. off, the extent that existing courses may not be a full capacity, retention and graduation rates) will affect these estimates. Finally, even if costs are just covered, this campus desperately needs revitalization of its student population with new students to

DocuSign Envelope ID: C34B682A-FE6E-4E9F-827E-331281D79E3C

maintain an equitable share of legislative general funds via UAA and also, in general, for the overall health of the campus.

****

Chris Fallen, UAF Faculty Senate President

The following motion was passed at Faculty Senate meeting #228 on December 4, 2017

MOTION:

The UAF Faculty Senate moves to amend the policy on transfer of credits as follows:

Effective: Fall 2018

Rationale: The following reasons are submitted as the basis for amending the AA/AS waiver policy:

1. We currently accept a baccalaureate degree from a regionally accredited school as fulfilling our core/GER.

2. We accept an AA/AS from a regionally accredited school as fulfilling the lower division parts of the core/GER.

3. General education requirements are substantially the same across all the regional accrediting bodies.

4. Transfer programs are specifically designed by the granting institutions to allow students to be directly placed into 4-year institutions with an understanding that the core/GERs would transfer, such programs are not necessarily identified as 'AA' or 'AS' and thus do not fall under existing regulations.

5. As the policy currently stands it is frequently difficult for others (advisors, recruiters, etc.), without consulting the Office of the Registrar, to assure transfer students with these degrees that they will receive general education waivers.

6. If there is an easily understood policy in place, with a minimum of restrictions, it will make it easier for UAF's schools and colleges to develop MOUs with other institutions.

7. Some of the waivers currently being requested can be very labor intensive for the Registrar's office to facilitate.

8. The Registrar's office wants to produce transfer credit evaluations as quickly as possible so students can decide if they want to come to UAF or go elsewhere, or so they can work with their advisors to get registered. Given the current limitations it is difficult to complete the transfer core/GER waiver portion of the evaluation in a timely fashion.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Approves ____ Disapproves

Daniel M. White, UAF Chancellor Date: 12/11/17

See the attached policy changes:

BOLD CAPS = Addition

[[ ]] = Deletion

The following regulations apply to transfer of credit:

1. Students are eligible for transfer of credit when they have been admitted to an undergraduate degree or certificate program.

2. The applicability of transfer credit to a student's major and/or minor requirements is subject to approval by the major and/or minor department. Transfer students must fulfill the UAF graduation and residency requirements, including those specific to their programs.

3. Undergraduate credits earned at the 100 level or above with a C- grade or higher at institutions accredited by one of the six regional accrediting agencies will be considered for transfer. Transfer credit is not granted for courses with doctrinal religious content or for graduate courses (for undergraduate programs).

4. Transfer credit is awarded for courses in which the student received grades of C- or better. Instructor permission may be required for purposes of registration if the transfer credit courses have not satisfied the prerequisite requirements.

5. Any student who has completed a bachelor's degree from a regionally accredited institution will be considered to have completed the equivalent of the baccalaureate general education requirements, the Associate of Arts general education requirements and the Associate of Science general education requirements when officially accepted to a bachelor's, Associate of Arts or Associate of Science program at UAF. These students will also be considered to have completed the communication, computation and human relations requirements for the Associate of Applied Science and the certificate.

6. Any student who has completed an Associate of Arts or an Associate of Science degree from a regionally accredited institution will be considered to have satisfied the UAF general education requirements.

7. **ANY TRANSFER STUDENT WHO HAS COMPLETED AN ASSOCIATE DEGREE AT A REGIONALLY ACCREDITED INSTITUTION, WHICH WAS SPECIFICALLY DEVELOPED FOR TRANSFER TO A 4-YEAR INSTITUTION, WILL BE CONSIDERED TO HAVE SATISFIED THE UAF GENERAL EDUCATION REQUIREMENTS.**

8. Any transfer student who has completed the baccalaureate general education requirements at any regionally accredited four-year institution will be considered to have completed the baccalaureate general education requirements at UAF. The student is responsible for providing an official statement and documentation certifying general education requirements completion at the previous institution

DocuSign Envelope ID: 9FA62FB4-1C7D-444D-AE23-CDA7A3C230C4

The following motion was passed at Faculty Senate meeting #228 on December 4, 2017

MOTION:

The UAF Faculty Senate moves to amend the policy on course withdrawal as follows:

Effective: Fall 2018

Rationale: To date, UAF students have been required to use a paper form to withdraw from a course between the drop deadline and the withdrawal deadline (at which point the student receives a "W") because of the requirement that the student must obtain an advisor's signature. Students have been able to register and add and drop courses using UAOnline since 1998. However, due to limitations of Banner and the fact that it is shared with UAA and UAS, it has not been possible to build a withdrawal workflow that conforms to UAF's mandatory advising model. UAF's paper process stands out as an anachronism in 2017, especially with students who expect to take care of business transactions online. Students who are taking classes at more than one MAU have the experience of being able to withdraw from their UAA and UAS sections without an advisor's signature but not their UAF sections. Students who are taking classes via eLearning still have to get an advisor's signature on a paper form to withdraw from a class. Students who try to withdraw on the deadline date are frustrated to be told they have to track down their advisor, who may or may not be available to meet, and bring the form back. The first day after the deadline, there are always several students queued up at the registrar's office explaining that they couldn't get the signature and get the form back before 5:00 p.m.

Faculty Senate has been unwavering in its affirmation of the value of mandatory advising for all degree- and certificate-seeking students. This proposal is not intended to abrogate our commitment to that ideal. However, most advisors will agree that we would never actually *deny* students' requests to withdraw; the requirement for advisor approval is more a mechanism to ensure an important conversation happen. This proposal will require students to pause and consider the possible negative ramifications of withdrawing and hopefully will prompt a conversation with an academic or financial aid advisor if they have any question or doubt. We also recognize that we, as advisors, can only urge our students to consider the consequences of their choices. Ultimately, they have the right and the responsibility to make their own decisions regarding course enrollment and withdrawal.

Finally, we wish to update the formal policy language regarding withdrawals to conform with the UA Common Calendar.

DocuSign Envelope ID: 9FA62FB4-1C7D-444D-AE23-CDA7A3C230C4

BOLD CAPS = Addition
[[ ]] = Deletion

Part 1

Withdrawing from a Class --

If you withdraw from a class after the **DROP DEADLINE AS ESTABLISHED IN THE UA COMMON CALENDAR [[**third Friday after the first day of instruction**]]**, a grade of "W" will appear on your academic record. The "W" grade does not affect your GPA. The last day you can withdraw from a class is **ESTABLISHED BY THE UA COMMON CALENDAR COMMITTEE AND IS USUALLY THE TENTH [[**the ninth**]]** Friday after the first day of instruction.

Faculty Initiated Withdrawal/DROP--

If you do not meet the prerequisites for a course in which you have enrolled, or if you have not participated substantially in the course, the faculty member teaching that course has the right to withdraw you from the class by the **WITHDRAWAL DEADLINE AS PUBLISHED IN THE UA COMMON CALENDAR [[**ninth Friday after the first day of instruction**]]**. If you are withdrawn from a class after the **DROP DEADLINE AS PUBLISHED IN THE UA COMMON CALENDAR (USUALLY THE SECOND [[**third**]]** Friday after the first day of instruction), a grade of "W" will appear on your academic record. Faculty-initiated withdrawals previous to the **DROP DEADLINE** [[third Friday after the first day of instruction**]]** will be treated as a dropped class.

Part 2

Allow withdrawing at UAOnline:

Allow students to withdraw using UAOnline, without advisor approval, with the advent of a pop-up that the student must acknowledge before finalizing the withdrawal. The pop-up will describe some of the possible negative consequences of withdrawing, and will encourage the student to meet with their advisor if they have any questions or concerns. Finally, the pop-up will give the student an option to cancel the withdrawal.

Are you certain that withdrawing from a class is the best option for you?
UAF recommends that you consult with your instructor, academic advisor, and financial aid office before withdrawing to understand the possible consequences and to determine if you have other options.

Withdrawing after the add-drop period can impact you in several ways including:

- Receiving a 'W' grade on your transcript.
- You may be required to return financial aid already received.
- You may lose your scholarship.
- You will not receive a refund of tuition or fees owed to the university.
- Impacting your eligibility for on-campus housing
- Impacting your Satisfactory Academic Progress (SAP) position, which may impact future financial aid eligibility.

If you understand the consequences and wish to continue withdrawing from a class at this time, click "I agree." Otherwise, click "Cancel" and contact your academic advisor or the financial aid office for assistance.

DocuSign Envelope ID: 9FA62FB4-1C7D-444D-AE23-CDA7A3C230C4

<< I AGREE TO WITHDRAW >> << CANCEL >>

Part 3

Students in official programs that require a specific minimum number of credits may be blocked from withdrawing online. These students will be required to get special permission from the coordinator of their program in order to withdraw from any classes. Examples of student categories with restricted access to online registration are: student-athletes, international students on F or J visas, and graduate students with TA or RA funding.

[END MOTION HERE]

The following motion was passed at Faculty Senate meeting #228 on December 4, 2017

MOTION:

The UAF Faculty Senate moves to update the incomplete grade policy to: 1) clarify the faculty's obligation to communicate outstanding requirements to the student; and 2) establish a formal option and process for extension beyond one year.

Effective: Fall 2018

Rationale: Several times per semester, faculty request to extend beyond one year the time allowed for a student to make up work for an Incomplete. This request is made in writing to the Registrar, who almost always approves them, sometimes in consultation with the Provost. However, the current policy states that an Incomplete becomes F at the end of one year and makes no mention of extensions. Technically, under current policy, no extensions are allowed.

In preparing this motion, the Registrar surveyed UAA, UAS and UAF's peer institutions as defined by PAIR.

- UAA and UAS both allow one year for an Incomplete to be graded. If not graded within one year, the Incomplete remains permanently on the student's record.
- Of 11 peer institutions,
  - Six allow one year for completing the Incomplete.
  - Five designate time periods of less than one year for completing an Incomplete.
  - Seven designate F as the default grade if the Incomplete is not made up during the allowable time frame.
  - Five allow extensions beyond the original allowable time frame. Usually there is some kind of approval required (e.g. department chair and/or dean). Only one of the institutions that allow extensions is on the 1-year list. The other four institutions which allow extensions do so after shorter periods (such as the end of the next regular semester.)
  - Six out of the 11 institutions DO NOT ALLOW any extensions at all.
- Of 9 "aspirational" peer institutions,
  - Only one allowed a full year to make up Incompletes. The other nine allow shorter periods of time, such as the end of the next regular term.
  - The one school that allows a year DOES NOT allow extensions beyond one year.
  - Of the nine schools that allow time periods shorter than one year, five DO allow extensions. However, the total time allowed, including the original Incomplete window and the extension, is most often still less than one year.

The Chancellor: ✓ Approves ____ Disapproves

Daniel M. White, UAF Chancellor Date: 12/11/17

See the attached policy changes:

[[ ]] = Deletions
BOLD CAPS = ADDITIONS

The letter grade "I" (Incomplete) is a temporary grade used to indicate that the student has satisfactorily completed (C or better) the majority of work in a course but for personal reasons beyond the student's control, such as sickness, has not been able to complete the course during the regular semester. Normally, an incomplete is assigned in the case when the student is current in the class until at least the last three weeks of the semester or summer session. Negligence or indifference are not acceptable reasons for an "I" grade. The Deferred grade (DF) should be used for those cases when a student is unable to complete a course due to institutional reasons, such as breakdown of laboratory equipment.

[[The instructor will also include a statement of the work required of the student to complete the course at the time the "I" grade is assigned. A copy of the notice of the Incomplete grade will be sent to the dean of the school or college in which the course is given. *An instructor intending to assign a grade of 'I" will make a concerted effort to contact the affected student and secure the student's acknowledgement of the conditions.*]]

NORMALLY, A STUDENT WILL INITIATE A REQUEST FOR AN INCOMPLETE. IF APPROVING THE REQUEST, THE INSTRUCTOR WILL SEND A COPY OF THE APPROVAL, A STATEMENT OF THE WORK REMAINING, AND THE TIMELINE FOR MAKING UP THE INCOMPLETE TO BOTH THE STUDENT AND THE REGISTRAR. IF THE INSTRUCTOR ASSIGNS A GRADE OF INCOMPLETE WITHOUT THE STUDENT HAVING REQUESTED IT, THE INSTRUCTOR WILL SEND A STATEMENT OF THE WORK REMAINING AND THE TIMELINE FOR MAKING UP THE INCOMPLETE TO BOTH THE STUDENT AND THE REGISTRAR.

An Incomplete must be made up within one year or it will automatically be changed to an "F" grade by the [[records]] **REGISTRAR'S** office. The "I" grade is not computed in the student's grade point average until it has been changed to a regular letter grade by the instructor or until one year has elapsed at which time it will be computed as an "F". A senior cannot graduate with an "I" grade in either a university or major course requirement. To determine a senior's grade point average at graduation, the "I" grade will be computed as a failing grade.

IN EXTRAORDINARY CIRCUMSTANCES WHICH ARE BEYOND THE STUDENT'S CONTROL (SUCH AS MILITARY DEPLOYMENT OR MAJOR AND EXTENDED ILLNESS OF THE STUDENT), AN EXTENSION MAY BE GRANTED. THE STUDENT MUST REQUEST THE EXTENSION IN WRITING PRIOR TO THE ORIGINAL DEADLINE DATE AND THE REQUEST MUST BE APPROVED BY: THE INSTRUCTOR, THE DEAN, AND THE PROVOST.

[END MOTION HERE]

Recent History of Incomplete @ UAF
The UAF Faculty Senate approved the following at its Meeting #7 on November 11, 1988:

MOTION PASSED (Unanimous Approval)
==========

Accept the following current UAF incomplete grade policy university-wide:

Incomplete Grade Policy

The letter grade "I" (incomplete) is a temporary grade used to indicate that the student has satisfactorily completed (C or better) the majority of work in a course but for personal reasons beyond the student's control, such as sickness, has not been able to complete the course during the regular semester. Normally, an incomplete is assigned in the case when the student is current in the class until at least the last three weeks of the semester or summer session. Negligence or indifference are not acceptable reasons for an "I" grade. The deferred grade (DF) should be used for those cases when a student is unable to complete a course due to institutional reasons, such as breakdown of laboratory equipment. THE NO BASIS GRADE (NB) MAY BE USED SOLELY AT THE DISCRETION OF THE INSTRUCTOR IF THERE IS INSUFFICIENT BASIS FOR EVALUATION TO OCCUR. (PJOR)

[[The assignment of an incomplete grade can only be made by the instructor after consultation with the Dean of the school or college in which the course is given. Deans are encouraged to consult with the Dean of Students in questionable cases.]] The instructor will also include a statement of the work required of the student to complete the course at the time the "I" grade is assigned AND A COPY OF THE NOTICE OF INCOMPLETE GRADE WILL BE SENT TO THE DEAN OF THE SCHOOL OR COLLEGE IN WHICH THE COURSE IS GIVEN. (PJOR)

An incomplete must be made up within one year or it will automatically be changed to an "F" grade by the Records Office. The "I" grade is not computed in the student's grade point average until it has been changed to a regular letter grade by the instructor or until one year has elapsed at which time it will be computed as an "F". A senior cannot graduate with an "I" grade in either a University or major course requirement. To determine a senior's grade point average at graduation, the "I" grade will be computed as a failing grade.

FY 1996-97

- Motion on changes to the policies on "W", "I", and "NB". (a) Meeting #68

(Small mention, copied below)
"I" Incomplete--
A grade used to indicate that ((you've satisfactorily completed (C or better) the majority of the work in a course, but for personal reasons beyond your control,)) YOU haven't been able to complete the

course during the scheduled course time.

When the "I" grade is given, the instructor includes a statement of the work required of you to complete the course AND THE TIME LIMITS YOU HAVE TO COMPLETE THE WORK. THE MAXIMUM TIME TO BE ALLOWED IS ONE YEAR. AT THE END OF THE DEFINED TIME LIMITS THE INSTRUCTOR MAY ISSUE A GRADE BASED ON THE WORK TURNED IN. IF THE INSTRUCTOR DOES NOT CHANGE THE "I" GRADE IT BECOMES PERMANENT AT THE END OF ONE YEAR.

((You must make up an incomplete within one year or it will automatically be changed to an "F" grade.)) The "I" grade is not computed in your GPA. ((until it has been changed to a regular letter grade by the instructor or until one year has elapsed, at which time it will be computed as an "F")) Seniors cannot graduate with an "I" grade in either a UAF or major course requirement. ((To determine a senior's GPA at graduation , an "I" grade will be computed as a failing grade))

The UAF Faculty Senate passed the following at its Meeting #135 on March 6, 2006:

MOTION:
=======

The UAF Faculty Senate moves to change the Grading System policy for the "I" -- Incomplete grade and add the "NB" -- No Basis grading option (2005-2006 Catalog, page 70-71), as follows:

[[ ]] - Deletions
CAPS - Additions

Grading System and Grade Point Average Computation

"I" Incomplete -- [[Indicates that you have not been able to complete the course during the scheduled course time. When the I grade is given, the instructor will include a statement of the work required of you to complete the course and the time limit you have to complete the work. The maximum allowed time is one year. At the end of the defined time limit, the instructor may issue a grade based on the work turned in. If the instructor does not change the I grade, it becomes permanent at the end of one year. The I grade is not computed in your GPA. You cannot graduate with an I grade in any required course.]]

THE LETTER GRADE "I" (INCOMPLETE) IS A TEMPORARY GRADE USED TO INDICATE THAT THE STUDENT HAS SATISFACTORILY COMPLETED (C- OR BETTER) THE MAJORITY OF WORK IN A COURSE BUT FOR PERSONAL REASONS BEYOND THE STUDENT'S CONTROL, SUCH AS SICKNESS, HAS NOT BEEN ABLE TO COMPLETE THE COURSE DURING THE REGULAR SEMESTER. NORMALLY, AN INCOMPLETE IS ASSIGNED IN THE CASE WHEN THE STUDENT IS CURRENT IN THE CLASS UNTIL AT LEAST THE LAST THREE WEEKS OF THE SEMESTER OR SUMMER SESSION. NEGLIGENCE OR INDIFFERENCE ARE NOT ACCEPTABLE REASONS FOR AN "I" GRADE. THE DEFERRED GRADE (DF) SHOULD BE USED FOR THOSE CASES WHEN A STUDENT IS UNABLE TO COMPLETE A COURSE DUE TO INSTITUTIONAL REASONS, SUCH AS BREAKDOWN OF LABORATORY EQUIPMENT.

THE INSTRUCTOR WILL ALSO INCLUDE A STATEMENT OF THE WORK REQUIRED OF THE STUDENT TO COMPLETE THE COURSE AT THE TIME THE "I" GRADE IS ASSIGNED AND A COPY OF THE NOTICE OF THE INCOMPLETE GRADE WILL BE SENT TO THE DEAN OF THE SCHOOL OR COLLEGE IN WHICH THE COURSE IS GIVEN. *AN INSTRUCTOR INTENDING TO ASSIGN A GRADE OF 'I" WILL MAKE A CONCERTED EFFORT TO CONTACT THE AFFECTED STUDENT AND SECURE HIS/HER ACKNOWLEDGEMENT OF THE CONDITIONS.*

AN INCOMPLETE MUST BE MADE UP WITHIN ONE YEAR OR IT WILL AUTOMATICALLY BE CHANGED TO AN "F" GRADE BY THE RECORDS OFFICE. THE "I" GRADE IS NOT COMPUTED IN THE STUDENT'S GRADE POINT AVERAGE UNTIL IT HAS BEEN CHANGED TO A REGULAR LETTER GRADE BY THE INSTRUCTOR OR UNTIL ONE YEAR HAS ELAPSED AT WHICH TIME IT WILL BE COMPUTED AS AN "F". A SENIOR CANNOT GRADUATE WITH AN "I" GRADE IN EITHER A UNIVERSITY OR MAJOR COURSE REQUIREMENT. TO DETERMINE A SENIOR'S GRADE POINT AVERAGE AT GRADUATION, THE "I" GRADE WILL BE COMPUTED AS A FAILING GRADE.

"NB" NO BASIS --

The following motion was passed at Faculty Senate meeting #228 on December 4, 2017

MOTION:

The UAF Faculty Senate moves to amend the catalog year and catalog time limit policy.

Effective: Fall 2018

Rationale: Part One: to allow students to graduate using any catalog during their seven years if a master's student or ten years if a doctoral student. Evaluating advancement to candidacies for master's or doctoral students is challenging because some students submit their advancements early in their academic career and we cannot predict what program changes may happen between when they are admitted/begin their program and when they graduate.

Part Two: The catalog does not address time limits for earning either the graduate certificate or graduate licensure. Students enrolled in a graduate certificate or graduate licensure program must complete all program requirements within seven years. Allow students to use any catalog to graduate using those requirements.

****

Chris Fallen, UAF Faculty Senate President

The Chancellor: ✓ Approves ____ Disapproves

Daniel M. White, UAF Chancellor Date: 12/11/17

See the attached policy changes:

BOLD CAPS = Addition

[[ ]] = Deletion

PART 1: Catalog and Time Limit

You may elect to graduate under the degree requirements in effect **AND PUBLISHED IN THE UAF CATALOG IN ANY ONE OF THE PREVIOUS SEVEN YEARS IN WHICH YOU ARE ENROLLED AS MASTER'S OR PREVIOUS TEN YEARS IF A DOCTORAL STUDENT. [[**the first semester of your enrollment in your graduate degree program or under the catalog in effect when you graduate. However, if you do not meet continuous registration requirements, you waive the right to use the catalog in effect when you first entered your graduate program; you will use either the catalog in effect during the semester of your re-entry or the catalog in effect when you graduate.**]] TO BE CONSIDERED ENROLLED IN YOUR MASTER'S OR DOCTORAL DEGREE PROGRAM YOU MUST MEET THE REGISTRATION REQUIREMENTS PER ACADEMIC YEAR. IF YOU ENROLL THROUGH THE NON-DEGREE STUDENT REGISTRATION PROCESS, YOU ARE NOT CONSIDERED ENROLLED AS A DEGREE STUDENT DURING THAT TIME.**

All non-academic policies and regulations listed in the current catalog apply, regardless of the catalog you are using for your degree requirements. You must satisfactorily complete all course work listed on your Advancement to Candidacy form and all other degree requirements within seven years for a master's degree and ten years for a **DOCTORAL STUDENT [[**Ph.D.**]]**

PART 2: CATALOG AND TIME LIMITS FOR GRADUATE CERTIFICATES AND GRADUATE LICENSURES

YOU MAY ELECT TO GRADUATE UNDER THE GRADUATE CERTIFICATE OR GRADUATE LICENSURE REQUIREMENTS IN EFFECT AND PUBLISHED IN THE UAF CATALOG IN ANY ONE OF THE PREVIOUS SEVEN YEARS IN WHICH YOU ARE ENROLLED AS GRADUATE CERTIFICATE OR GRADUATE LICENSURE STUDENT. YOU ARE CONSIDERED ENROLLED IN YOUR GRADUATE CERTIFICATE OR GRADUATE LICENSURE PROGRAM WHEN YOU COMPLETE THE APPROPRIATE GRADUATE CERTIFICATE OR GRADUATE LICENSURE STUDENT REGISTRATION PROCEDURE. IF YOU DO NOT ENROLL FOR A SEMESTER OR MORE, OR IF YOU ENROLL THROUGH THE NON-DEGREE STUDENT REGISTRATION PROCESS, YOU ARE NOT CONSIDERED ENROLLED AS A GRADUATE CERTIFICATE OR GRADUATE LICENSURE STUDENT DURING THAT TIME.

ALL NON-ACADEMIC POLICIES AND REGULATIONS LISTED IN THE CURRENT CATALOG APPLY, REGARDLESS OF THE CATALOG YOU ARE USING FOR YOUR DEGREE REQUIREMENTS. YOU MUST SATISFACTORILY COMPLETE ALL COURSE WORK LISTED ON YOUR ADVANCEMENT TO CANDIDACY FORM AND ALL OTHER DEGREE REQUIREMENTS WITHIN SEVEN YEARS FOR A GRADUATE CERTIFICATE OR GRADUATE LICENSURE."

[END MOTION HERE]

DocuSign Envelope ID: 7CB424B8-63D5-4E5D-BB88-262062844990

The following motion was passed at Faculty Senate meeting #228 on December 4, 2017

MOTION:

The UAF Faculty Senate moves to update the AHEAD enrollment policy to enroll AHEAD high school students as general studies pre-majors.

Effective: Fall 2018

Rationale: The restructuring of AHEAD into a Bachelor Intended track (BI) would allow UAF to effectively advertise and recruit for the program. Recruitment and admission into the program would be maintained for all eligible high school students, both homeschool and public high school. In addition to maintaining this pipeline UAF would begin to microtarget two groups of homeschool students. The first group would be students who complete the state requirements for high school graduation early, but who choose to remain in their homeschool program and use their stipend to pay for college courses. The second group would be students who have mostly completed their high school requirements by their Junior or Senior year but who have accumulated a large amount of unspent stipend. The homeschools, working closely with Admission staff, would assist in identifying these students and referring them to Anna Gagne-Hawes in the Office of Admissions and the Registrar.

Students who selected the BI track in AHEAD would receive a waiver for admission without ACT/SAT scores as long as they had completed 75% of their high school core with a 3.0 or better. The students who received the waiver would be required to take the Accuplacer and ALEKS and test into the required beginning writing and math classes for their chosen degree programs.

The University of Alaska Fairbanks would admit these students as a Bachelor Intended student and advise students to fulfilling the degree requirements for an Associate of Arts (and eventually, Bachelor of Arts) degree. This provides students an advisor to work with every semester with the goal of graduating with an Associate of Arts degree before graduating from high school or soon thereafter and continuing to complete their bachelor's degree.

MOTION:

CTF
4 Dec 2017

The UAF Faculty Senate moves to amend Faculty Senate ~~Constitution and~~ Bylaws.

Effective: Immediately

Rationale: Replacement of Senate Alternates is not defined in the case that an elected alternate cannot represent the unit for the duration of the elected term.

****

[[ ]] = Deletions
Bold = Additions

UAF Faculty Senate Bylaws, Sect. 1 (ART III: Membership)

D. Vacancies

1. In the case of death, resignation, transfer, or other reason why an elected representative can no longer represent the unit, an alternate shall immediately become the representative. The president of the Senate will appoint a replacement from among the unit's elected alternates, with the concurrence of the affected constituency and the consent of the Administrative Committee.

2. If no alternate is available to replace the departing senator, the affected unit may hold a special election to replace that senator. This special election must be held within 30 days of the last day the departing senator served. All policies and procedures governing regular senate elections apply to these special elections.

3. **In the case of death, resignation, transfer, or other reason why an elected alternate can no longer represent the unit, the affected unit may replace that alternate by holding a special election. This special election must be held within 30 days of the last day the departing alternate served. All policies and procedures governing regular senate elections apply to these special elections.**

President, UAF Faculty Senate

The UAF Faculty Senate Passed the following at Meeting #228 on December 4, 2017

RESOLUTION
In Appreciation of Joy Morrison

WHEREAS, Joy Morrison was initially hired by the Department of Journalism in 1990, taught multiple classes in that department for a decade, and acted as Chair for four years; and

WHEREAS, Joy Morrison was influential in the creation of the Women's Studies Program (WMS) in 1991, which was the first Women's Studies Program in Alaska; and

WHEREAS, Joy Morrison chaired Women's Studies 1998-2000, continued as an active faculty member, and created innovative courses and curriculum for WMS; and

WHEREAS, Joy Morrison became the Provost's Associate for Faculty Development in 2000, initiating workshops, discussion groups, orientation processes, and other professional development opportunities for UAF faculty; and

WHEREAS, Joy Morrison became the first full time Director for the Office of Faculty Development in 2002 and has served admirably in that position for the past fifteen years; and

WHEREAS, Joy Morrison, in her capacity of Director of Faculty Development, personally welcomed new faculty, organized social and professional development events for them, mentored and guided them, and in many other ways made new faculty feel connected to the University; and

WHEREAS, every faculty member at UAF has benefitted in some way from Joy Morrison's commitment and dedication to faculty well-being; and

WHEREAS, Joy Morrison is to be especially commended for her work on behalf of women faculty; and

WHEREAS, Joy Morrison's support of Term Faculty is sincerely valued; and

WHEREAS, Joy Morrison was instrumental in initiating the Experiential Learning program by providing opportunity for training to many faculty members and garnering support from a core group of faculty; and

WHEREAS, Joy Morrison has hardly missed a single faculty senate meeting and has at times spoken up courageously against what she considered was not conducive to the health of the university; and

WHEREAS, Joy Morrison has spent much of her life working for equality and connecting academia to communities;

THEREFORE BE IT RESOLVED that the UAF Faculty Senate recognize Joy Morrison's contributions to UAF, commends her on her dedication and commitment to UAF faculty, and expresses its profound gratitude to her for her many years of service.

ORIGINAL

The following motion was passed at Faculty Senate meeting #227 on November 6, 2017.

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for Faculty of Natural Science in the College of Natural Science and Mathematics.

Effective: Fall 2018
Upon Chancellor Approval

Rationale: The Unit Criteria Committee assessed the unit criteria submitted by Natural Science Faculty in the College of Natural Sciences and Mathematics. These revisions implement revisions intended to be approved in the previous unit criteria but were omitted due to oversight.

****

President, UAF Faculty Senate

The Chancellor: ✓ Approves ____Disapproves

Chancellor

Date: 11/13/17

See the attached Unit Criteria:

UAF Regulations for the Appointment and Evaluations of Faculty And *Natural Science* Unit Criteria, Standards, and Indices

The following is an adaptation of UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of Natural Science in the College of Natural Sciences and Mathematics. Items in boldface italics are those specifically added or emphasized because of their relevance to the department's/s' faculty, and because they are additions to UAF regulations.

The CNSM Mathematics and Statistics Unit Criteria are submitted as a separate document.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as

specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

It is expected that the criteria for assistant professor are to be met for the fourth year comprehensive review. For promotion to and tenure as associate professor, an assistant professor has to meet the criteria at the associate level. For promotion to full professor an associate professor has to meet the criteria for full professor. Criteria for associate and full professor include an assumption that criteria at the previous level(s) continue to be met. Listed examples are not meant to imply that all of those provided are equally meritorious. Workloads vary between faculty members in their relative emphasis in the tripartite areas. Therefore expected amount of activity in teaching, research and service should be considered in the context of the faculty member's workload.

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***and Natural Sciences Unit Criteria, Standards, and Indices,*** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. ***Tripartite faculty applying for tenure and/or promotion are strongly encouraged to give a seminar on their research to their peers before the peer-unit committee meets in that year to aid in these considerations.***

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. ***When evaluating the quality of the teaching, consideration should be given to the nature of the course (e.g., core, number of students, writing intensive, student demographics, etc.).*** Effective teachers ***will demonstrate some, but not necessarily all, of the following characteristics in an individual year:***

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

Specific Sciences criteria for teaching performance:

- ***Assistant Professor: Evidence of teaching ability and a commitment to a quality and current teaching program in the department. University-sanctioned teaching evaluation scores should show that the majority of students rate courses favorably, and, if not, there should be a definite upward trend showing improvement in scores over time. Course materials such as syllabi, exams, projects and homework should reflect the course description and be contemporary. The faculty should provide evidence for active support of student research at the undergraduate and/or graduate level.***

- ***Associate Professor: The record must show that the teaching material is contemporary and relevant and that the presentations stimulate the learning process. Evidence of the expected quality of instructional performance may include - but is not limited to - course and/or curriculum development, novel approaches to instruction, versatility in instructional assignments, effective guiding and mentoring of individual students, or high quality University-sanctioned teaching evaluation scores or other teaching evaluations (e.g. peer-evaluation). Chair and/or peer evaluations should provide evidence of effective classroom instruction and student engagement. The record must also show active and successful mentorship in research at the undergraduate and/or graduate level. Such mentorship can include membership on graduate advisory committees.***

➢ ***Professor:*** ***Significant contributions to the instructional program are expected. These contributions may include major improvements in course and curriculum offerings, securing funds to enhance instructional and/or laboratory settings, leadership in departmental level curriculum core revisions, student learning outcome assessments, student advising, and mentoring of graduate students to the completion of their degree. The faculty must show a consistent record of high quality teaching.***

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. Invitation to edit or referee articles or proposals for professional journals or organizations can be taken as evidence of obtaining stature from colleagues.

n. Translational research efforts as evidenced by commercial activity, industrial partnerships, invention disclosures, patents, and licensing.

<u>Specific Criteria for Science research performance</u>:

➢ ***<u>Assistant Professor</u>: Evidence of the ability to establish a viable research program in the area of specialization, normally a sub-discipline of the***

natural sciences (with the option of research in science education). This should include several of the following:

- ***Recruiting and mentoring graduate and/or undergraduate research students***
- ***Peer-reviewed publications from research performed at least in part during their current appointment***
- ***Proposals that were either funded or received favorable reviews.***
- ***Acquiring data that promises to result in publications***
- ***Establishing a professional reputation that demonstrates visibility in the scientific community***
- ***Presentations such as talks or poster presentations at scientific meetings***

➢ ***<u>Associate Professor</u>: Must have established an appropriate research program. The faculty member should show independence and leadership by generating research ideas that translate into projects that involve graduate students and may also include undergraduate students. Examples for such a successful research program should include several of the following:***

- ***Publications in refereed professional journals demonstrating signficant scientific contributions as measured by standard indices (e.g. publication rate, citation rates, journal impact factor). It is important for the faculty member to discuss the importance of their scientific contributions clearly in the narrative.***
- ***Publication of discipline-relevant data and metadata, contribution to cyber structure, or contributing to publicly available computer models***
- ***Presentation of research results at professional meetings***
- ***Leadership in preparation and submission of research proposals***
- ***Acquisition of external research funding***
- ***Successful mentoring of graduate students in the faculty member's field of expertise, which can be demonstrated by student graduation, student presentations and publications, student awards or grant success, professional placement of students after graduation.***

➢ ***<u>Professor</u>: Must have established an internationally recognized research program. The faculty member should show independence and leadership in research by having produced a sufficient quality and quantity of publications to demonstrate the existence of an on-going, professional research program. The program's recognition and***

independence is also demonstrated through acquisition of external funding, as appropriate for the discipline. There should be a record of student involvement including successful mentoring of graduate students. The research program should demonstrate:

- ***Evidence of an international reputation that should include several examples of the following: professional activities or presentations at meetings, citations of publications, documented opinions of other scientists in the field, invited talks, book chapters, professional awards, and invitations to serve on steering committees, review panels, and working groups.***
- ***Evidence of an on-going, professional, independent research program that should include examples of the following: publication quality and quantity indicated by the number of citations, the quality of the journals as indicated by their impact factor, and/or external reviews stating the papers made major contributions. The faculty members acquisition of external funding should be described, including a description of the faculty member's contribution to collaborative projects.***
- ***Evidence of mentoring of graduate students that should include several examples of the following: student graduation, a significant body of student presentations, student awards, or student grant successes, and professional placement of students. Inclusion of undergraduate students in research programs is also valued and mentoring of undergraduate students should be demonstrated if they are included in the research program.***

As a point of clarification, there is no expectation for faculty at any rank to amass publications as either first or sole author. It is common for many disciplines to have the primary author listed last (often as corresponding author), and it is considered favorable for students to be included as coauthors or first authors. It is essential for the faculty member to clarify in their narrative their role and creative contributions in multiple-authored publications. This philosophy of explaining the role also applies to collaborative proposals.

D. Criteria for Public and University Service ***and Professional Service***

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. **Public Service**
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting, ***including clinical consulting in a faculty member's area of expertise.***

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

   i. Training and facilitating.

   j. Radio and TV programs, ***contributions including interviews***, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. **University Service**

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***including serving as new faculty mentors.***

j. Prizes and awards for excellence in university service.

k. Serving on committees that represent the University at other professional institutions.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations ***(if not counted as research; see C.2.F.)***.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

g. ***Serving as a mentor/advisor, committee member or external examiner for students at other institutions.***

4. **Evaluation of Service**
Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public, university, ***and professional*** service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Measures of effectiveness of service performance include (but are not limited to):

- ***Accomplishments of the effort of organization to which service was provided.***
- ***Official recognition of quality of service (e.g., awards, letters of recommendation).***
- ***Opinions of clients served and/or colleagues involved in delivery of service.***

Specific criteria for service performance:

➢ ***Assistant Professor:*** ***None in addition to UAF criteria.***

➢ ***Associate Professor:*** ***Positive contribution to departmental and/or university matters, effective professional contributions to the public, and/or effective service to the profession are expected.***

➢ ***Professor:*** ***Evidence of leadership in the service area is mandatory. Significant contributions to the development of departmental or university programs are expected. Service to the general public or Alaskan teachers is expected.***

E. Criteria for Curation as a service component when relevant.

Curators at the University of Alaska Museum (UAM) can hold a tenure-track faculty position. Rank and tenure are held within departments at UAF, and Curators are thus treated as joint appointments between a department and UAM. As is the case for all tenure-track faculty at CNSM, Curator's performances are evaluated on the basis of their activities in teaching, research, and service.

1. ***Curation involves the management and development of a formally recognized University collection that exists to serve as a research resource for students and researchers at university, state, national, and international levels. Examples of curatorial activities include, but are not limited to:***

    a. ***Maintaining, enhancing, and enlarging the collection (includes computerization and database development, archival upgrades, specimen conservation and identification, and adding specimens or objects to existing collection);***

    b. ***Interacting with state and federal agencies and with the public on collections-related issues;***

    c. ***Facilitating collections use through loans, exchanges, and visiting researchers;***

    d. ***Maintaining appropriate permits (as needed for the collections);***

    e. ***Supervising collections managers, student employees, and volunteers;***

    f. ***Working with public program staff to create exhibits and educational activities appropriate to the collection;***

    g. ***Pursuing funding for collections growth and maintenance;***

    h. ***Producing curatorial or collections-related publications, reports, and/or manuals;***

    i. ***Ensuring university compliance with state and federal laws and international treaties and agreements that pertain to the collection.***

2. ***Specific criteria for curatorial performance:***

Assistant Professor and Curator

Evidence of curatorial ability and a commitment to developing and managing research collections relevant to the area of specialization includes the following:

a. ***Curators will develop the collections as a permanent record of the natural and/or cultural diversity of Alaska, the Circumpolar North, and beyond and as a research resource for studies of biological and/or cultural diversity.***

b. ***Collections care includes responsibility for the physical condition and storage of objects/specimens, corresponding documentation, budgetary management, and annual reports.***

    1. ***Curators will preserve the specimens, artifacts, objects, and material under their purview through the use of methods and techniques professionally accepted within their respective disciplines.***

    2. ***Curators will ensure that all records and field notes concerning collection materials are maintained in a secure fashion and meet or exceed documentation standards for their respective discipline.***

    3. ***Curators will maintain current accession files, deaccession files, and catalogues of objects in their collections. They will develop electronic databases with computer data formats that follow data standards of the respective discipline and UAM.***

    4. ***Curators will develop, maintain, and revise written policies and procedures for curation of objects or specimens in their collections.***

c. ***Curators will take part in interpretive activities of the Museum in order to fulfill the Museum's mission to interpret the natural and cultural history of Alaska. In this regard, preparation of a small exhibit is approximately the equivalent of publication of a professional article; project direction of a large and complex exhibit that includes preparation of a serious catalogue is approximately the equivalent of publication of a scholarly book.***

d. ***Curators will actively submit grant applications for external support for their curatorial activities and collections-based research.***

<u>Associate Professor and Curator</u>

Consistent contributions to interpretive (education and exhibition) activities of the Museum, response to collection-related inquiries (from other professionals, the public, and state agencies) and/or development of interpretive materials for the public-at-large are expected. Use of the collections for teaching and/or research must be evident.

Active solicitation for external funds to support curatorial activities and collections-based research must be evident.

Professor and Curator

Significant development of the collections under the Curator's care is expected. This development includes sustained growth of the collections as research resources and as a means of fulfilling the Museum's mission of acquiring, preserving in perpetuity, investigating, and interpreting objects and specimens relating to the natural and or cultural history of Alaska and the Circumpolar North. Significance of collections will be measured in terms of research significance, value to University of Alaska research and instructional programs, and value to national and international research programs. The Curator should be a recognized authority in his/her field, locally and nationally. He or she must have a record of success in acquiring external funds for curatorial activities and collections-based research.

3. Evaluation of Curation

A committee composed of the tenured curators at the museum will provide an evaluation to the unit peer committee. In case there is just one or no tenured curators, it is imperative that two of the external reviewers be curators. In formulating criteria, standards, and indices for evaluation, promotion, and tenure, the Museum should include examples of curatorial activities and measures for evaluation appropriate for that unit. Excellence in curation may be demonstrated through, e.g., appropriate letter of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

ORIGINAL

The following motion was passed at Faculty Senate meeting #226 on October 9, 2017

MOTION:

The UAF Faculty Senate moves to amend Faculty Senate Constitution and Bylaws.

Effective: Immediately

Rationale: Replacement of Senate Alternates is not defined in the case that an elected alternate cannot represent the unit for the duration of the elected term.

****

[[ ]] = Deletions
Bold = Additions

UAF Faculty Senate Bylaws, Sect. 1 (ART III: Membership)

D. Vacancies

1. In the case of death, resignation, transfer, or other reason why an elected representative can no longer represent the unit, an alternate shall immediately become the representative. The president of the Senate will appoint a replacement from among the unit's elected alternates, with the concurrence of the affected constituency and the consent of the Administrative Committee.

2. If no alternate is available to replace the departing senator, the affected unit may hold a special election to replace that senator. This special election must be held within 30 days of the last day the departing senator served. All policies and procedures governing regular senate elections apply to these special elections.

3. **In the case of death, resignation, transfer, or other reason why an elected alternate can no longer represent the unit, the affected unit may replace that alternate by holding a special election. This special election must be held within 30 days of the last day the departing alternate served. All policies and procedures governing regular senate elections apply to these special elections.**

President, UAF Faculty Senate

The following was passed at Faculty Senate meeting #225 on September 11, 2017

Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution at Meeting #176 in September 2011, Meeting #184 in September 2012, Meeting #192 in September 2013, Meeting #200 in September 2014, Meeting #208 in September 2015, and Meeting #218 in November 2016. For academic year 2017-2018, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #225 on September 11, 2017.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2017-18 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

****

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

The UAF Faculty Senate moves to adopt the following calendar for its 2017-2018 meetings.

EFFECTIVE: Immediately

RATIONALE: Dates must be firmed up for the meeting schedule to allow for advance planning, and Wood Center room reservations must be scheduled well in advance.

President, UAF Faculty Senate

****

2017-18 Faculty Senate Meetings
Wood Center Carol Brown Ballroom

Meeting	Date	Day	Time
#225	September 11, 2017	Monday	1-3 PM
#226	October 9, 2017	Monday	1-3 PM
#227	November 6, 2017	Monday	1-3 PM
#228	December 4, 2017	Monday	1-3 PM
#229	February 5, 2018	Monday	1-3 PM
#230	March 5, 2018	Monday	1-3 PM
#231	April 2, 2018	Monday	1-3 PM
#232	May 7, 2018	Monday	1-3 PM

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

The UAF Faculty Senate moves to authorize the 2016-17 Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2017. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 1, 2017

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

****

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

The UAF Faculty Senate moves to endorse the 2017-2018 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighed against membership distribution from schools and colleges.

President, UAF Faculty Senate

2017-18 Faculty Senate Committee Assignments

CURRICULAR AFFAIRS COMMITTEE
Ken Abramowicz, SOM (18)
Ana Aguilar-Islas, SFOS (18)
Eileen Harney, CLA (19) - Chair/Convener
Rainer Newberry, CNSM (19)
Kate Quick, CRCD (18)

New members:
Chanda Meek, CLA (19 - alternate)
Karen Taylor, CLA (19 - alternate)
Deana Waters, CRCD (19 - alternate)

FACULTY AFFAIRS COMMITTEE
Sine Anahita, CLA (18)
Andy Anger, CRCD - CTC (18) - Chair/Convener
Troy Bouffard, SOM (18 - alternate)
Joshua Greenberg, SNRE (19 - alternate)
Jak Maier, CRCD (19)
Jeff May, CLA (18)
Debu Misra, CEM (18 - alternate)

New members:
Ataur Chowdhury, CNSM (19)
Courtney Carothers, CFOS (19)
Maureen Hogan, SOE (19 - alternate)
Gordon Williams, CNSM (19)

UNIT CRITERIA COMMITTEE
Mara Bacsujlaky, CES (18) - Chair/Convener
Bob Bolton, IARC (18)
Julie Matweyou, SFOS (18)
David Maxwell, CNSM (18)

New members:
Dare Awoleke, CEM (19 - alternate)
Jennie Carroll, CRCD (19 - alternate)
David Henry, CLA (19)
Robert Herrick, GI (19)
Diane McEachern, CRCD (19 - alternate)
Tyson Rinio, Libraries (19)

FACULTY DEVELOPMENT, ASSESSMENT & IMPROVEMENT COMMITTEE
Steven Hunt, LIB (18)
Franz Meyer, CNSM (18 or 19 - alternate) - Chair/Convener
Sarah Stanley, CLA (18 - alternate)
Mingchu Zhang, SNRE (18)

New members:
Heather Dahl, SOE (19)
Karen Jensen, Libraries (19 - alternate)
Sarah Lewis, CES (19)
Kim McGinnis, SOM (19)
(Other continuing non-senate members)

GRADUATE ACADEMIC & ADVISORY COMMITTEE
Roman Makarevich, CNSM (18)
Sean McGee, SOM (non-senate member)
Robin Shoaps, CLA (18 - alternate)
Sean Topkok, SOE (18) - Co-Chair/Convener

New members:
Tathagata Ghosh, CEM (19)
Falk Huettmann, CNSM (19 - alternate)
Amanda Kelley, CFOS (19)
Jessie Robertson, IARC (18 - alternate)
Jennifer Schell, CLA (19)

Non-senate members:
Anne Beaudreau, CFOS (non-senate member)
Michael Daku, CLA (non-senate member)
Don Hampton, GI
Sean McGee, SOM
Graduate student may be appointed.
Ex officio per Bylaws: Mike Castellini, Grad School and Karen Jensen, Libraries

RESEARCH ADVISORY COMMITTEE
Srijan Aggarwal, CEM (18)
Wendy Croskrey, CLA (18)
Larry Duffy, CNSM (19)
Javier Fochesatto, CNSM (18 - alternate)
Melissa Good, SFOS (18 - alternate)
Anna Liljedahl, CEM (18) - Convener
Andrew Mahoney, GI (18 - alternate)

New members:
Jeff Benowitz, GI (18)
Rob Rember, GI (19)
Possibly *Andres Lopez, CFOS (19) - Alternate*

Non-senate members:
Steven Seefeldt, SNRE (non-senate member)
Derek Sikes, Museum Research / CNSM (non-senate member)

INFORMATION TECHNOLOGY COMMITTEE
Art Nash, CES (18 - alternate)

New Members:
Jamie Clark, CLA (18 - alternate)
Robert Herrick, GI (19)
Falk Huettmann, CNSM (19 - alternate)
Andres Lopez, CFOS (19 - alternate)
Rick McDonald, CRCD (19)

The following committees have membership requirements defined in their bylaws. Members are not appointed by FS leadership.

ELECTED MEMBERS:
COMMITTEE ON THE STATUS OF WOMEN
Jennifer Guerard, CNSM (18 - CSW term)
Tamara Harms, CNSM (18 - CSW term)
Stefanie Ickert-Bond, CNSM (18 - Senator)
Ellen Lopez, CANHR (19 - CSW term) - Chair/Convener
Megan McPhee, SFOS (18 - CSW term)
Derek Sikes, CNSM (19 - CSW term)

New elected members:
Robyn Henry (19 - CSW term)
Daisy Huang (19 - CSW term)

ELECTED MEMBERS:
GER AND CORE COMMITTEE
CLA Members:
Daryl Farmer - English (18 - Core term) Going on sabbatical, per CLA
Alex Hirsch - Soc. Sci. (18 - Core term)
(Continued next page)

Kevin Sager - Communication (18 - Core term)
Humanities – vacant

Library Member:
Kathy Arndt (19 - Core term) - reappointed to Core

At-Large Rep (outside CLA):
At large seat to be filled by UAF-wide election in 2017-18.

Math Rep:
Leah Berman, CNSM (19 - Core term)
Science Rep:
Larry Duffy (18 - Core term)
(Continued next page)
Core Assessment:
Tony Rickard, CNSM
Kevin Berry, SOM

APPOINTED MEMBERS (by CRCD) and some Elected:
STUDENT ACADEMIC DEVELOPMENT & ACHIEVEMENT
Sine Anahita, CLA seat (18 SADA term)
Leah Berman, Math Rep (19 SADA term)
Bill Howard Science Rep (19 - SADA term extended)
Ben Kuntz, CRCD Kuskokwim Campus
Vacant, CRCD Northwest Campus
Jennifer Schell, English Rep (18 - SADA term)
Jennifer Tilbury, CRCD - CTC (19) - Co-Chair
Sandra Wildfeuer, CRCD (18) - Co-Chair/Convener
Liaison from SADAC (Cindy Hardy in 16-17)

APPOINTED MEMBERSHIP: Chair must be a Senator
CURRICULUM REVIEW Always updated in early fall
Rainer Newberry, CNSM (19) - Chair/Convener
SNRE: Norm Harris
CRCD: Linda Curda
CTC: Galen Johnson
SOE: Gary Jacobsen
CNSM: Jessica Larsen (attends for Pat Doak)
SOM: Nicole Cundiff (19)
CLA: Rob Duke
CEM: Santanu Khataniar
CFOS: Andres Lopez (attends for Trent Sutton; now an Alternate of FS)

The UAF Faculty Senate passed the following at Meeting #224, on May 1, 2017:

MOTION:

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: a copy of the list is available in the UAF Governance Office, 312B Signers' Hall]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, UAF Faculty Senate makes that recommendation.

****

2017-0501
President, UAF Faculty Senate

The Chancellor X Approves ___Disapproves

Chancellor

Date: 5/3/2017

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

Discontinuation of Cooperative Extension Research

Faculty Senate observes:

- It would be much clearer if the program recommended for discontinuation was called "Extension Specialists" after the tripartite tenure-line job title which is being discontinued. It was called "Extension Research" because "Extension Agent", the remaining job title, is a bipartite position, typically involving teaching and service.
- Because the Cooperative Extension Service (CES) does not bring in much tuition revenue, and because most of their federal funding requires 1:1 state matching funds, state budget cuts have had more impact on cooperative extension than many other UAF entities.
- The definition of a program purely in order to delete it is highly concerning. However, it is not clear how to define programs for units that do not offer degrees.
- This discontinuation has both strong proponents and opponents within the department.
- Not all faculty in CES appear to feel comfortable publicly expressing their opinions on this issue, which is also concerning.
- Research is integral to the mission of the University of Alaska Fairbanks (UAF) and any unit under the broad umbrella of UAF must comply with the mission. Hence, research in extension and outreach is also critical for the growing needs of the state of Alaska.

Therefore, the UAF Faculty Senate does not agree with the discontinuation of the Cooperative Extension Service program titled Extension Research.

Rationale: Because the perceived ad hoc creation of a program in order to delete it is highly concerning and sets a bad precedent.

2017-05-02
President, UAF Faculty Senate

The Chancellor ____Approves ___X___Disapproves

Chancellor

Date: 5/3/2017

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

The UAF Faculty Senate moves to amend the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 3, Article V: Committees, subsection H.5 under Permanent Committees, to rename the Core Review Committee, amend its membership according to new GER component areas and amend its procedures concerning at-large membership.

EFFECTIVE: Immediately

RATIONALE: With the implementation of the General Education Requirements (GER) in the 2016-2017 catalog year, general education course requirements were modified. As a result of the change from using Baccalaureate Core requirements to the GER, the name of the Core Review Committee became outdated and the component areas of the general education course requirements changed. Therefore, we move to change the name of the Core Review Committee and its faculty member composition to reflect the recent change to the GER. Additionally, currently, the committee has no procedure concerning appointment of the at-large voting member. Therefore, we move to add a description of the procedure for appointing the at-large voting member.

Faculty Senate Bylaws, Section 3, Article 5: Committees, subsection E:

H. The standing and permanent committees of the Senate are:

. . .

PERMANENT

. . .

5. The **GER AND** Core **~~Review~~** Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the ~~core~~ **~~curriculum~~ GENERAL EDUCATION REQUIREMENTS (GER)** at UAF. The **GER AND** Core **~~Review~~** Committee coordinates and recommends changes to the **GER ~~core curriculum~~**, develops the process for assessment of the **~~core curriculum~~ GER**, regularly reports on assessment of the ~~core curriculum~~ **GER**, monitors transfer

guidelines for core **AND GER** courses, acts on petitions for core **AND GER** credit, and evaluates guidelines in light of the total core **AND GER** experience. This committee will also review courses for oral, written, and natural science ~~core~~ **GER** classification. **THE GER AND CORE COMMITTEE WILL ALSO PERIODICALLY REVIEW SYLLABI OF COURSES TO WHICH "O" AND "W" DESIGNATORS ARE ATTACHED TO ENSURE COMPLIANCE WITH FACULTY SENATE GUIDELINES.** If the committee determines that a course fails twice in a row to meet "O" or "W" guidelines as specified by the Faculty Senate, the committee shall have the power to revoke "O" or "W" designators from that course.* Committee actions made prior to March 1 will become effective in the next year's Catalog. Designators will be restored as soon as the course has been reapproved by the committee as once again conforming to "O" or "W" guidelines.

*As found at:
http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-core-desig/

The committee shall be composed of one faculty member from each of the ~~core~~ **GER** component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, Library ~~Science~~ **AND INFORMATION RESEARCH, AND ARTS**), ~~and~~ one faculty member from a non-~~core~~ **GER** component area, and one faculty member from CRCD, as voting members. **THE MEMBER FROM A NON-GER COMPONENT AREA SHALL BE ELECTED AT LARGE FROM AMONG UAF FACULTY, WHILE SEATS FROM GER COMPONENTAREAS AND CRCD SHALL BE ELECTED BY THEIR RESPECTIVE FACULTIES.** Membership on the committee **ALSO** may include an undergraduate student as a non-voting member, and representatives from the colleges specifically tasked with core **AND GER** assessment.

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

The UAF Faculty Senate moves to amend the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 1, Article III: Membership, subsection A to include the past president of the UAF Faculty Senate.

EFFECTIVE: *Fall, 2017*

RATIONALE: The faculty senate past president is a member of the faculty alliance and needs to stay connected with the proceedings of the faculty senate in order to provide meaningful and effective contribution at the faculty alliance level. The past president of the senate also has knowledge of senate history and will help contribute to the discussions in the senate proceedings.

See the attached Unit Criteria:

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND ALASKA NATIVE LANGUAGE CENTER (ANLC) AND ALASKA NATIVE LANGUAGE PROGRAM (ANLP) UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE ANLC AND ANLP DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***INSTRUCTORS OF ALASKA NATIVE LANGUAGES OFTEN DEAL WITH STUDENTS IN SMALLER GROUPS. BECAUSE OF THE DEMOGRAPHY OF ALASKA NATIVES AND THE ENDANGERED STATUS OF ALL ALASKA NATIVE LANGUAGES, INDIVIDUAL STUDY CLASSES***

ARE OFTEN THE ONLY MEANS OF PROVIDING CRUCIAL INSTRUCTION TO MEMBERS OF SMALL NATIVE GROUPS WHO HAVE THE POTENTIAL TO BECOME LINGUISTS AND LANGUAGE SPECIALISTS.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

a. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

b. may receive prizes and awards for excellence in teaching.

h. ***DESIGN THEIR OWN CLASSROOM MATERIALS THAT ADDRESS THE LACK OF PUBLISHED INSTRUCTIONAL MATERIAL FOR ALASKA NATIVE LANGUAGES.***

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, **and** at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. ***THE MISSION OF ANLC PROVIDES FOR THE PRODUCTION AND DISTRIBUTION OF NATIVE LANGUAGE PUBLICATIONS TO THE PEOPLE OF ALASKA AND NATIVE GROUPS IN PARTICULAR. THE ALASKA NATIVE LANGUAGE CENTER'S PUBLICATION PROGRAM IS AN EFFECTIVE MEANS OF ACCOMPLISHING THIS GOAL AND IS VIEWED AS A REPUTABLE PRESS IN THE FIELD OF NATIVE AMERICAN LINGUISTICS. ANLC IS FOREMOST IN PUBLISHING IN ATHABASCAN WORLDWIDE AND FOREMOST IN ESKIMO-ALEUT PUBLISHING IN NORTH AMERICA. MANUSCRIPTS TO BE PUBLISHED ARE REVIEWED BY APPROPRIATE SPECIALISTS OUTSIDE THE INSTITUTION WHEREVER POSSIBLE.***

PUBLICATIONS INTENDED FOR THE PUBLIC AND ESPECIALLY THE NATIVE COMMUNITY OFTEN TAKE A DIFFERENT FORM FROM OTHER SCHOLARLY RESEARCH. THESE MATERIALS ARE EVALUATED BY THEIR INTENDED USERS IN LANGUAGE COMMUNITIES AND BY OTHER LINGUISTS AND LANGUAGE SPECIALISTS WHO PRODUCE SIMILAR MATERIALS. ANLC FACULTY ARE EXPECTED TO PRODUCE BOTH SCHOLARLY AND APPLIED PUBLICATIONS.

GIVEN THE ANLC AND ANLP MISSIONS, RESEARCH ON ALASKA NATIVE LANGUAGES AND RELATED LANGUAGES WILL BE WEIGHTED MORE HEAVILY THAN NON-ALASKAN RESEARCH FOR PURPOSES OF EVALUATION.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***GRAMMARS, DICTIONARIES, TEXTS, AND INSTRUCTIONAL MATERIALS FOR ALASKA NATIVE LANGUAGES.***

n. ***OTHER MEANS OF DISSEMINATING INFORMATION ABOUT ALASKA NATIVE LANGUAGES, SUCH AS MAPS, CD'S, AUDIO TAPES, VIDEO TAPES, AND WEB PAGES.***

o. ***THE DESIGN OF TEMPLATES FOR DICTIONARIES, GRAMMARS, TEXT COLLECTIONS, AND TEACHING MATERIALS APPLICABLE TO CLOSELY RELATED LANGUAGES.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service." ***BECAUSE OF ITS STATEWIDE MISSION, ANLC IS STRONGLY COMMITTED TO PUBLIC SERVICE TO ALASKA NATIVE COMMUNITIES.***

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. ***TEACHING IN NOT-FOR-CREDIT SITUATIONS.***

m. ***PARTNERSHIPS WITH NATIVE ORGANIZATIONS AND LANGUAGE PROGRAM SUPPORT, INCLUDING MATERIALS PRODUCTION AND TEACHER EDUCATION. EVIDENCE OF SUCH SERVICE INCLUDES ACTIVITIES IN SUPPORT OF COMMUNITY LANGUAGE GOALS, SUCH AS WORKSHOPS AND NOT-FOR-CREDIT COURSES, NATIVE LANGUAGE TEACHER EDUCATION, AND MATERIALS RESULTING FROM THESE ACTIVITIES.***

n. ***SUSTAINED ENGAGEMENT AND COLLABORATION WITH LANGUAGE COMMUNITIES THAT RESULT IN LOCAL LEADERSHIP OR RESEARCH IN LANGUAGE EFFORTS.***

o. ***PARTICIPANT EVALUATIONS OF WORKSHOPS OR OTHER ACTIVITIES.***

p. ***MATERIALS CREATED SPECIFICALLY FOR A WORKSHOP.***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation,

certificates and awards and other public means of recognition for services rendered.

GIVEN THE ANLC/ANLP MISSIONS, SERVICE TO ALASKAN LANGUAGE COMMUNITIES AND NATIVE ORGANIZATIONS IS MOST HIGHLY VALUED, EXAMPLES OF SUCH SERVICE INCLUDE BUT ARE NOT LIMITED TO CRITERIA M THROUGH P UNDER SECTION D. 1. PUBLIC SERVICE.

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the College of Engineering and Mines.

EFFECTIVE: Fall 2017
Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee assessed the unit criteria submitted by the College of Engineering and Mines. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria were found to be consistent with UAF guidelines.

See the attached Unit Criteria:

UAF Regulations for the Appointment and Evaluations of Faculty And College of Engineering and Mines Unit Criteria, Standards, and Indices

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE COLLEGE OF ENGINEERING AND MINES' DEPARTMENTS. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENTS' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.
THE LEVEL OF PRODUCTIVITY EXPECTED OF A FACULTY MEMBER IN EACH AREA (TEACHING, RESEARCH, AND SERVICE) WILL BE COMMENSURATE WITH THE PERCENTAGE OF HIS OR HER WORKLOAD DEDICATED TO SUCH ACTIVITY.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting

and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers ***WILL DEMONSTRATE MANY, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:***

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design; ***INCLUDING THE DEVELOPMENT OF DISTILLED KNOWLEDGE (FOR EXAMPLE: BOOKS, SOFTWARE, DOCUMENTATION) FOR STUDENT USE;***

   g. may receive prizes and awards for excellence in teaching.

   h. ***DISSEMINATE NEW IDEAS TO THE STUDENTS RESULTING FROM RESEARCH AND OTHER ENGINEERING ACTIVITIES, SUCH AS CONSULTING AND SERVICE ON REVIEW PANELS***;

   i. ***INVOLVE STUDENTS, ESPECIALLY GRADUATE STUDENTS, IN QUALITY RESEARCH ACTIVITIES.***

SPECIFIC CEM CRITERIA FOR TEACHING PERFORMANCE BEFORE PROMOTION/TENURE OR APPOINTMENT TO:

I. ***<u>ASSISTANT PROFESSOR</u>: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO A QUALITY TEACHING PROGRAM MUST BE PROVIDED, AS WELL AS EVIDENCE OF AN EFFORT TOWARD***

CONTINUAL IMPROVEMENT.

II. ***<u>ASSOCIATE PROFESSOR</u>: THE RECORD MUST SHOW THAT THE MATERIAL TAUGHT IS CONTEMPORARY AND RELEVANT, AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT IS NOT LIMITED TO) COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, EFFECTIVE GUIDING AND MENTORING OF STUDENTS, AND EFFECTIVE CLASSROOM TEACHING PERFORMANCE. THERE MUST BE EVIDENCE OF SUCCESSFUL MENTORSHIP OF GRADUATE STUDENT RESEARCH TO COMPLETION OF DEGREE (AS A MAJOR SUPERVISOR OR CO-SUPERVISOR).***

III. ***<u>PROFESSOR</u>: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE MAY INCLUDE, BUT ARE NOT LIMITED TO, CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, UPGRADING OF INSTRUCTIONAL FACILITIES, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS, AND EXEMPLARY TRAINING OF GRADUATE STUDENTS. THERE SHOULD BE A RECORD OF CONTINUING SUCCESSFUL MENTORSHIP OF GRADUATE STUDENTS AS EXEMPLIFIED BY JOINT AUTHORSHIP OF PUBLICATIONS, INVOLVEMENT OF GRADUATE STUDENTS IN RESEARCH PROJECTS, AND COMPLETION OF GRADUATE DEGREES UNDER HIS/HER SUPERVISION SINCE THE PREVIOUS PROMOTION. IT IS EXPECTED THAT ASSESSMENT OF TEACHING BY STUDENTS AND FACULTY DEMONSTRATE CONSISTENTLY HIGH QUALITY PERFORMANCE.***

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

STUDENT RATINGS ARE TO BE CONSIDERED IN CONTEXT WITH OTHER EVALUATIONS AND NOT TO BE CONSIDERED THE SOLE METRIC FOR TEACHING EVALUATION.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art ***AND ENGINEERING*** work, ***SCIENTIFIC VISUALIZATIONS AND COMPUTER ANIMATIONS*** at galleries, ***CONFERENCES AND MUSEUMS,*** selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC CEM CRITERIA FOR RESEARCH PERFORMANCE BEFORE PROMOTION/TENURE OR APPOINTMENT TO:

I. ***<u>ASSISTANT PROFESSOR</u>: EVIDENCE OF RESEARCH ABILITY AND A COMMITMENT TO ESTABLISH A VIABLE RESEARCH PROGRAM.***

II. ***<u>ASSOCIATE PROFESSOR</u>: THE FACULTY MEMBER MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM AS EVIDENCED BY PEER REFEREED HIGH-QUALITY PROFESSIONAL PUBLICATIONS (INDEXED IN THE WEB OF SCIENCE (SCI), THE ENGINEERING INDEX (EI), WHERE APPLICABLE). THE ACQUISITION OF EXTERNAL RESEARCH FUNDING IS ALSO IMPORTANT EVIDENCE OF RESEARCH PRODUCTIVITY. THE FACULTY MEMBER MUST SHOW LEADERSHIP AND INDEPENDENCE AS EVIDENCED BY PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS, SUBMISSION OF***

RESEARCH PROPOSALS AS PI OR CO-PI, AND CREATION OF RESEARCH IDEAS RESULTING IN JOURNAL AND/OR CONFERENCE PUBLICATIONS THAT INVOLVE STUDENTS. SUSTAINED PRODUCTIVITY MUST BE SHOWN WITH ADEQUATE EVIDENCE OF RESEARCH ACTIVITIES SINCE INITIAL APPOINTMENT.

III. ***PROFESSOR: THE FACULTY MEMBER MUST DEMONSTRATE A SUSTAINED, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM AS EVIDENCED BY PEER REFEREED HIGH-QUALITY PROFESSIONAL PUBLICATIONS (INDEXED IN THE WEB OF SCIENCE (SCI) AND/OR THE ENGINEERING INDEX (EI), WHERE APPLICABLE). THE ACQUISITION OF SIGNIFICANT EXTERNAL RESEARCH FUNDING AS PI IS TYPICALLY EXPECTED. THE FACULTY MEMBER MUST SHOW LEADERSHIP AND INDEPENDENCE AS EVIDENCED BY PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS, SUBMISSION OF RESEARCH PROPOSALS AS PI, AND CREATION OF RESEARCH IDEAS RESULTING IN JOURNAL AND CONFERENCE PUBLICATIONS THAT INVOLVE STUDENTS. SUSTAINED PRODUCTIVITY MUST BE SHOWN WITH ADEQUATE EVIDENCE OF RESEARCH ACTIVITIES SINCE THE PREVIOUS TENURE/PROMOTION/APPOINTMENT. A NATIONAL OR INTERNATIONAL REPUTATION OF THE CANDIDATE AS DEMONSTRATED BY A HIGH NUMBER OF ARTICLE CITATIONS, PROFESSIONAL ACTIVITIES, INVITED PRESENTATIONS AT MEETINGS, AND DOCUMENTED OPINIONS OF OTHER ENGINEERS AND SCIENTISTS IN THE FIELD IS EXPECTED.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of

information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY***.

j. Prizes and awards for excellence in university service.

k. ***SERVICE AS OUTSIDE REVIEWER ON THESIS COMMITTEES.***

l. ***PREPARATION OF UNIVERSITY REPORTS AND ONLINE INFORMATION.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC CEM CRITERIA FOR SERVICE PERFORMANCE BEFORE

PROMOTION/TENURE OR APPOINTMENT TO:

I. ***ASSISTANT PROFESSOR: EVIDENCE OF A COMMITMENT TO CONTRIBUTE TO THE SERVICE MISSION OF THE COLLEGE.***

II. ***ASSOCIATE PROFESSOR: POSITIVE CONTRIBUTIONS TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS, EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICE TO THE PROFESSION ARE EXPECTED.***

III. ***PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS INCLUDING COMMITTEE LEADERSHIP OR UAF FACULTY SENATE SERVICE AND ASSOCIATED COMMITTEES ARE EXPECTED. EFFECTIVE APPLICATION OF SERVICE INCLUDES PROFESSIONAL EXPERTISE PROVIDED TO PROFESSIONAL OR PUBLIC ORGANIZATIONS SUCH AS ENGINEERING SOCIETY LEADERSHIP, REVIEWING PROPOSALS, REFEREEING MANUSCRIPTS, AND EDITING FOR PROFESSIONAL ORGANIZATIONS OR PUBLICATIONS.***

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Departments of English and Philosophy & Humanities, housed in the College of Liberal Arts.

EFFECTIVE: Fall 2017
Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee assessed the unit criteria submitted by the Departments of English and Philosophy & Humanities. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria were found to be consistent with UAF guidelines.

See the attached Unit Criteria:

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, PERIODIC REVIEW, RE-APPOINTMENT, PROMOTION, AND TENURE AND ***DEPARTMENTS OF ENGLISH AND PHILOSOPHY & HUMANITIES*** UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE DEPARTMENTS OF ENGLISH AND PHILOSOPHY & HUMANITIES. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENTS' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***SOME FACULTY SERVE ON A LARGE NUMBER OF GRADUATE COMMITTEES, AND SUCH WORK IS HIGHLY VALUED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS.***

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design, ***INCLUDING THE DEVELOPMENT OF VALUED TEACHING RESOURCES SUCH AS IT-BASED EDUCATIONAL TOOLS;***

   g. may receive prizes and awards for excellence in teaching.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair classroom observation(s),

   d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain

active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline. ***BOOKS AND SCHOLARLY ARTICLES ARE HIGHLY VALUED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS, INCLUDING BOOKS SELECTED BY EDITORS RATHER THAN BY EDITORIAL BOARDS OR THROUGH PEER REVIEW.***

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval. ***GRANTS ARE VALUED, BUT THERE IS NO EXPECTATION THAT FACULTY WILL WRITE OR ADMINISTER GRANTS DUE TO THE SMALL NUMBER OF GRANTS AVAILABLE FOR FACULTY WORKING IN THESE DISCIPLINES.***

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers. ***PRESENTATION OF RESEARCH PAPERS OR OTHER SCHOLARLY OR CREATIVE WORK IS VALUED. HOWEVER, TRAVEL FUNDS ARE, AT TIMES, DIFFICULT TO OBTAIN FOR FACULTY IN THIS UNIT. A LACK OF SUCH PRESENTATIONS SHOULD NOT COUNT AGAINST FACULTY.***

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications. ***CITATION INDEXES ARE NOT REGARDED AS RELIABLE INDICATORS OF STANDING IN THE HUMANITIES, AND ARE NOT COMMONLY USED. A HIGH LEVEL OF CITATION MIGHT INDICATE A HIGH STANDING IN A FACULTY MEMBER'S FIELD. HOWEVER, A LOW LEVEL OF CITATION SHOULD NOT BE TAKEN TO INDICATE A LACK OF STANDING. THIS UNIT VALUES QUALITATIVE REVIEWS OF RESEARCH, SCHOLARLY, AND CREATIVE ACTIVITY.***

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. ***READINGS OR OTHER PRESENTATIONS OF CREATIVE AND/OR SCHOLARLY WORK (OUTSIDE OF CONFERENCE PRESENTATIONS) ARE VALUED BY THESE DEPARTMENTS***.

o. ***THE CREATIVE AND SCHOLARLY WORKS PRODUCED BY FACULTY ARE EXPECTED TO BE SUBJECT TO A RIGOROUS REVIEW PROCESS THROUGH PEER-REVIEW, REVIEW BY AN EDITORIAL BOARD, OR EDITOR. CREATIVE AND SCHOLARLY PRODUCTIONS ARE VALUED FOR ALL FACULTY, AND MAY INCLUDE (BUT ARE NOT LIMITED TO) POETRY, FICTION, CREATIVE NON-FICTION, FILMS, DRAMATIC WORKS, DRAMATIC PRODUCTIONS, SCHOLARLY EDITIONS AND TRANSLATIONS OF EXISTENT***

TEXTS. ALTHOUGH THE DEPARTMENTS VALUE CONVENTIONALLY PUBLISHED WORKS, THEY ALSO VALUE WORK RIGOROUSLY REVIEWED BUT DISSEMINATED BY OTHER MEANS, SUCH AS (BUT NOT LIMITED TO) WORK PRESENTED ELECTRONICALLY THROUGH ONLINE JOURNALS OR PUBLIC PERFORMANCES.

p. ***THIS UNIT VALUES COLLABORATIVE RESEARCH, SCHOLARSHIP, AND CREATIVE ACTIVITY, INCLUDING WORK PRODUCED WITH COLLABORATORS OUTSIDE THE ENGLISH DEPARTMENT AND THE DEPARTMENT OF PHILOSOPHY AND HUMANITIES.***

q. ***SUCCESSFUL RESEARCH, SCHOLARLY, AND CREATIVE WORK IN THESE FIELDS IS NOT CONTINGENT ON THE AVAILABILITY OF GRANTS OR ON THE SERVICES OF GRADUATE ASSISTANTS AND POSTDOCTORAL RESEARCHERS FUNDED BY THEM.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies. ***SIGNIFICANT FACULTY PARTICIPATION IN DEPARTMENTAL COMMITTEES IS OFTEN EXPECTED IN ORDER TO RUN THE PROGRAMS OFFERED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS, AND THIS WORK IS HIGHLY VALUED. ALSO, SOME FACULTY FROM THIS UNIT PARTICIPATE IN INTERDISCIPLINARY PROGRAMS ON CAMPUS, AND THIS UNIT VALUES THAT SERVICE. NOT ALL FACULTY FROM THIS UNIT ARE INVOLVED IN INTERDISCIPLINARY PROGRAMS, HOWEVER, AND ABSENCE OF SUCH SERVICE SHALL NOT BE VIEWED NEGATIVELY.***

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY***.

j. Prizes and awards for excellence in university service.

k. ***SERVING AS AN OUTSIDE EXAMINER TO OTHER GRADUATE PROGRAMS IN THE UNIVERSITY***.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The UAF Faculty Senate passed the following at Meeting #224 on May 1, 2017:

See the attached Unit Criteria:

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND *DEPARTMENT OF THEATRE & FILM* UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE THEATRE & FILM DEPARTMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

THEATRE & FILM FACULTY

THE STANDARDS PRESENTED IN BOLD CAPITALS AS ADDED OR EMPHASIZED FOR THE DEPARTMENT OF THEATRE & FILM HEREAFTER IN THIS DOCUMENT ARE DRAWN FROM TWO DOCUMENTS:

- ***THE ASSOCIATION FOR THEATRE IN HIGHER EDUCATION (ATHE) GUIDELINES FOR EVALUATING TEACHER/ARTISTS FOR PROMOTION AND TENURE (2000)***
- ***THE UNIVERSITY VIDEO & FILM ASSOCIATION (UVFA) GUIDE TO FACULTY ADVANCEMENT (2000)***

PERTINENT SECTION FROM THE ATHE DOCUMENT PERTAINING TO THEATRE:

"THIS DOCUMENT IS INTENDED FOR ALL INSTITUTIONS WITH FACULTY IN THEATRE AND PERFORMANCE STUDIES. IT FOCUSES ON THE ASSUMPTION THAT PREPARATION OF THEATRICAL EVENTS FOR PUBLIC PERFORMANCE ALLOWS THE TEACHER/ARTIST A

VIABLE OPPORTUNITY FOR DEMONSTRATING ARTISTIC ACHIEVEMENT WHICH IS CRUCIAL TO PROMOTION AND TENURE DECISIONS…THE PRODUCTION OF PLAYS AND PERFORMANCES (HEREAFTER REFERRED TO AS THEATRICAL EVENTS) AND THE STUDY THEREOF CONSTITUTES THE DISCIPLINE OF THEATRE. IN RECOGNITION OF THE ARTISTIC COMPONENT OF THEATRE, MOST INSTITUTIONS OF HIGHER EDUCATION NOW INCLUDE 'CREATIVE ACTIVITY' AS A LEGITIMATE COMPONENT FOR PROMOTION AND TENURE CONSIDERATION…IN ADDITION, THIS DOCUMENT IS CONGRUENT WITH THE NATIONAL ASSOCIATION OF SCHOOLS OF THEATRE (NAST) ACCREDITATION GUIDELINES, WHICH STATE THAT CREATIVE PRODUCTION AND PROFESSIONAL WORK IN THEATRE MUST BE EQUIVALENT TO SCHOLARLY PUBLICATION OR RESEARCH AS A CRITERION FOR ADVANCEMENT."

PERTINENT SECTION FROM THE UVFA DOCUMENT PERTAINING TO FILM:

"CREATIVE WORK SHOULD BE FULLY ACCEPTED AS PART OF THE FACULTY EVALUATION PROCESS WHEN SUCH WORK IS APPROPRIATE TO BOTH FACULTY SPECIALIZATION AND TEACHING LOAD. JUST AS THE PRIMARY PROFESSIONAL CONTRIBUTIONS OF A FACULTY MEMBER TEACHING MEDIA HISTORY SHOULD BE EXPECTED TO BE IN THE FORM OF PUBLISHED SCHOLARSHIP, SO THE PRIMARY PROFESSIONAL CONTRIBUTIONS OF A FACULTY MEMBER SPECIALIZING IN A CREATIVE AREA SHOULD BE EXPECTED TO BE IN ONE OR MORE OF THE AREAS OF CREATIVE PRODUCTION.

THE FINE ARTS HAVE CLEARLY ESTABLISHED A PRECEDENT FOR THE CONSIDERATION OF CREATIVE WORK AS A PART OF THE EVALUATION PROCESS FOR PROMOTION AND TENURE. EXHIBITIONS OF PAINTINGS, DRAWINGS, SCULPTURES, PHOTOGRAPHS, ETC. ARE ACCEPTED AS EVIDENCE OF PROFESSIONAL CONTRIBUTIONS IN THE VISUAL ARTS. MUSICAL COMPOSITIONS AND REVIEWS OF RECITALS AND SOLO PERFORMANCES ARE ACCEPTED IN THE FIELD OF MUSIC. CREATIVE WRITING, DIRECTION AND DESIGN OF PLAYS, CHOREOGRAPHY, AND DANCE PERFORMANCES ARE LIKEWISE ACCEPTED AS EVIDENCE OF FACULTY CONTRIBUTIONS IN OTHER CREATIVE FIELDS. THE SAME SHOULD BE TRUE OF CREATIVE WORK BY A FILM OR VIDEO FACULTY MEMBER."

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in

classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***ADDITIONAL ADVISING OBLIGATIONS IN THE DEPARTMENT OF THEATRE & FILM INCLUDE: STUDENT DRAMA ASSOCIATION AND FILM CLUB; STUDENT-PRODUCED THEATRICAL EVENTS, LIKE WINTER SHORTS, FAMOUS FOR FIFTEEN PLAYWRIGHTING FESTIVAL, STUDENT FILM FESTIVAL AMONG MANY OTHERS BOTH ON AND OFF CAMPUS; STUDENT ACTORS, DIRECTORS, OR DESIGNERS WORKING ON OFF-CAMPUS PROJECTS AT ANOTHER THEATRE OR FILM COMPANY; UNDERGRADUATE RESEARCH PROJECTS, INCLUDING STUDENT THESIS PROJECTS; COACHING FOR GRADUATE SCHOOL AND UNIVERSITY/ RESIDENT THEATRE ASSOCIATION (U/RTA) AUDITIONS AND PORTFOLIO OR REEL REVIEWS; SUPERVISION OF STUDENT LABOR AND ASSISTANTS IN ALL PRODUCTION AND MANAGEMENT AREAS OVERSEEN BY THE DEPARTMENT.***

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers.
   FACULTY IN THE THEATRE & FILM DEPARTMENT HAVE UNUSUALLY HIGH TEACHING AND ADVISING LOADS. EXCELLENCE IN TEACHING IS THE DEPARTMENT'S HIGHEST PRIORITY. EXCELLENCE IN RESEARCH/CREATIVE WORK AND SERVICE MAY NOT COMPENSATE FOR AN INSUFFICIENT TEACHING RECORD.

   Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. SIGNIFICANTLY REVISE COURSES TO REFLECT NEW DEVELOPMENTS IN THE FIELD;

h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. *ADDITIONAL CLARIFICATION ON THE EVALUATION OF CREATIVE ACTIVITY/ SCHOLARSHIP IN THE DISCIPLINE OF THEATRE & FILM:*

a. *DIRECTORS, ACTORS, AND DESIGNERS ARE EVALUATED BY PEERS AND CHOSEN FOR PROFESSIONAL WORK AFTER A SCREENING PROCESS THAT PARALLELS THE REVIEW PROCESS USED FOR PRINTED FORA.*

b. ***UAF THEATRE & FILM FACULTY SHOULD CATEGORIZE THEIR CREATIVE ACTIVITY IN ANNUAL REPORTS, 4TH YEAR REVIEWS, TENURE REVIEWS, AND POST TENURE REVIEWS AS LOCAL, STATEWIDE, NATIONAL, OR INTERNATIONAL. THE FOLLOWING STANDARDS SHOULD BE USED FOR THE PURPOSES OF THIS CATEGORIZATION. A LOCAL OR STATEWIDE THEATRICAL OR FILM PRODUCTION/ CONFERENCE/ EVENT MAY BE INCLUDED IN THE NATIONAL OR INTERNATIONAL CATEGORY IF IT MEETS ONE OR MORE OF THE FOLLOWING: 1) THE PROFESSIONAL VISIBILITY OF THE THEATRE OR FILM ARTIST IS JUDGED TO GO BEYOND THE STATE/ COUNTRY 2) THE MAJORITY OF THE THEATRE OR FILM ARTISTS/ COLLABORATORS/ PARTICIPANTS INVOLVED ARE FROM OUT OF STATE/ COUNTRY 3) THE PRODUCTION DREW AN AUDIENCE WHICH WAS NATIONAL OR INTERNATIONAL IN SCOPE.***

c. ***A REVIEW IN THE PROFESSIONAL MEDIA CAN BE A SIGNIFICANT PART OF A THEATRE OR FILM ARTIST'S RECORD, HOWEVER THE LACK OF A PRINTED REVIEW SHOULD NOT BE CONSTRUED AS A NEGATIVE ASSESSMENT OF THE WORK OF THE THEATRE OR FILM ARTIST. THE THEATRE OR FILM ARTIST CAN HAVE NO CONTROL OVER WHETHER A REVIEWER IS PRESENT OR WHETHER A REVIEW IS ULTIMATELY PRINTED.***

d. ***ALTHOUGH THE THEATRE & FILM DEPARTMENT STRIVES TO ACQUIRE GRANTS, GRANT FUNDING IN THE ARTS IS OFTEN SCARCE.***

e. ***EXTERNAL PEER EVALUATIONS MAY INCLUDE REPRESENTATIVES OF THE LOCAL, STATEWIDE, NATIONAL AND INTERNATIONAL THEATRE AND FILM COMMUNITIES.***

f. ***FILM AND VIDEO WORKS MAY BE DISSEMINATED THROUGH DISTRIBUTION AGENCIES AND COMPANIES, ALTHOUGH THIS SYSTEM IS CONSIDERABLY LESS COMPREHENSIVE THAN THE EQUIVALENT DISSEMINATION OF PUBLISHED SCHOLARLY WORKS. SOME DISTRIBUTORS ARE HIGHLY SELECTIVE, AND THE INCLUSION OF A FACULTY MEMBER'S WORK WITHIN THEIR INVENTORIES CAN BE CONSIDERED AN INDICATION OF QUALITY. HOWEVER, MOST FILM AND VIDEO DISTRIBUTORS ARE COMMERCIAL, AND THE EXCLUSION OF A FACULTY MEMBER'S WORK FROM SUCH DISTRIBUTION IS NOT NECESSARILY AN INDICATION THAT IT HAS LITTLE OR NO ARTISTIC OR SOCIAL VALUE. IT MUST BE REMEMBERED THAT FACULTY WORKS MUST COMPETE FOR DISTRIBUTION WITH WORKS PRODUCED BY INDIVIDUALS WHOSE CAREERS ARE***

EXCLUSIVELY DEDICATED TO CREATIVE FILM AND VIDEO PRODUCTION.

2. Achievement in Research, Scholarly and Creative Activity
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

3. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship ***OR CREATIVE ARTISTRY***.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***PLAYWRIGHTING, SCREENWRITING, PRODUCTION DRAMATURGY, NEW PLAY DEVELOPMENT AND WORKSHOPPING, LITERARY MANAGEMENT.***

n. ***CRITICAL REVIEWS, CRITICAL DRAMATURGY, THEATRE OR FILM ANTHROPOLOGY, BASIC PERFORMANCE RESEARCH, SCRIPT PREPARATION, PEER REVIEWS OF PRACTICE AND WRITING, CONSULTING.***

o. ***DESIGN (PRODUCTION, LIGHT, SET, COSTUME, SOUND, PROJECTION).***

p. ***PRODUCING, DIRECTING, ACTING, COACHING (VOCAL, STYLE, MOVEMENT, STAGE OR SCREEN COMBAT OR STUNTS), CHOREOGRAPHIC WORK.***

q. ***FILM-MAKING, VIDEO DOCUMENTATION, VIDEO EDITING, DVD AUTHORING, MULTI-MEDIA AND WEB CREATION.***

r. ***PRODUCING, SEASON PLANNING, BUDGETING, PRODUCTION MANAGEMENT AND COORDINATION, STAGE MANAGEMENT, TECHNICAL DIRECTION, PUBLIC RELATIONS, MARKETING.***

s. ***INVITED PRESENTATIONS, LECTURES, AND INVITATIONS TO TEACH MASTER CLASSES OR LEAD INTENSIVE WORKSHOPS.***

t. ***DISTRIBUTION OF ORIGINAL MEDIA CONTENT THROUGH FILM SCREENINGS, FILM FESTIVALS, TELEVISION BROADCAST, PODCAST, OR NEW MEDIA FORMATS WHICH CAPTURES A BROAD AUDIENCE.***

4. DOCUMENTATION OF ABOVE CREATIVE ACTIVITY MAY INCLUDE (BUT IS NOT LIMITED TO):

a. ***WRITTEN EVALUATION BY THE CHAIR, FACULTY PEERS, EXTERNAL PEERS, OR OUTSIDE EXPERTS.***

b. ***REVIEWS IN THE PROFESSIONAL MEDIA.***

c. ***SCRIPTS OF ORIGINAL PRODUCED PLAYS OR SCREENPLAYS, INCLUDING ADAPTATIONS AND TRANSLATIONS.***

d. ***PHOTOGRAPHIC IMAGES OF PRODUCTIONS OR FILMS, WORKING DRAWINGS, RENDERINGS, DVDS, CDS, LIGHT PLOTS, SET MODELS, DESIGN PORTFOLIOS, STORY BOARDS, SHOT LISTS, AND OTHER SUPPORTING MATERIAL.***

e. ***RESEARCH AND ANALYTICAL MATERIALS, DIRECTORS' PRODUCTION BOOKS, STUDY GUIDES, PROGRAM NOTES, OUTREACH MATERIALS, AND LABAN NOTATION.***

f. ***MARKETING AND PUBLIC RELATIONS MATERIALS (INCLUDING POSTERS, PROGRAMS, RADIO, TELEVISION, NEWSPAPER, AND WEB-BASED INTERVIEWS).***

g. ***EVIDENCE OF OUTREACH ACTIVITIES, SUCH AS SYMPOSIA, SEMINARS, WORKSHOPS, AND OTHER EVENTS.***

h. ***LETTERS FROM THE PUBLIC AND/OR TESTIMONIALS.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or

other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth ***INCLUDING OUTREACH WITH LOCAL SCHOOLS, SPECIAL SCHOOL PERFORMANCES, SCHOOL VISITS, PARTICIPATION IN CAMPUS-WIDE OUTREACH EVENTS.***

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. ***SUPPORT OF LOCAL COMMUNITY MEMBERS OR ORGANIZATIONS, INCLUDING LOANING OF THEATRE/FILM UAF COSTUMES AND PROPS.***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews ***INCLUDING AUTHORSHIP OF ACCREDITATION OR OTHER COMPREHENSIVE PROGRAM REPORTS.***

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

k. ***DEVELOPMENT OF ASSESSMENT PROGRAMS.***

l. ***PARTICIPATION IN FACULTY DEVELOPMENT WORKSHOPS.***

m. ***ASSISTING WITH THEATRE & FILM DEPARTMENT FUNDRAISING EVENTS.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation ***OR MEMBERSHIP*** in professional organizations ***INCLUDING BUT NOT LIMITED TO: ACTORS' EQUITY ASSOCIATION (AEA), SCREEN ACTORS GUILD-AMERICAN FEDERATION OF TELEVISION AND RADIO ARTISTS (SAG-AFTRA), STAGE DIRECTORS AND CHOREOGRAPHERS SOCIETY (SDC), INTERNATIONAL ALLIANCE OF THEATRICAL STAGE EMPLOYEES (IATSE), UNITED SCENIC ARTISTS (USA), THEATRE COMMUNICATIONS GROUP (TCG), ASSOCIATION FOR THEATRE IN HIGHER EDUCATION (ATHE).***

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Outstanding Senate Service of the Year Award
Academic Year 2017

WHEREAS, Sine Anahita has served on the Faculty Affairs Committee during the 2016-17 academic year and has done so in an exceptional and positive manner; and

WHEREAS, Sine Anahita demonstrated exemplary leadership and service in the Faculty Affairs Committee through her propositions, energy, and contributions; and

WHEREAS, Sine Anahita has been engaged during the Faculty Senate meetings and has advocated on issues in a productive manner; and

WHEREAS, Sine Anahita voluntarily transcribed audio recordings of several key Senate and Board of Regents meetings for the understanding and benefit of faculty; and

WHEREAS, Sine Anahita has been active in contributing to Faculty Senate resolutions in pragmatic ways; and

WHEREAS, Sine Anahita took a lead role in the University of Alaska Statewide Strategic Pathways Social and Natural Sciences work group; and

WHEREAS, Sine Anahita has been collaborative with other Faculty Senate committees, such as the Curricular Affairs Committee and the Administrative Committee, in serving the senate constructively; and

WHEREAS, Sine Anahita has gone beyond and above her workload responsibilities to serve the interests of the Faculty Senate and the University of Alaska Fairbanks (UAF); and

WHEREAS, Sine Anahita received the Outstanding Senator of the Year Award in 2006 and has once again proven herself to be an involved and active member of the UAF Faculty Senate and the entire university community, and

WHEREAS, Sine Anahita has served the Faculty Senate selflessly in all its activities and has proven herself of value to the faculty; now

THEREFORE BE IT RESOLVED that the UAF Faculty Senate acknowledges these valuable contributions of Sine Anahita, and bestows upon her the 2016-2017 Outstanding Senate Service of the Year Award.

RESOLUTION OF APPRECIATION FOR DANA THOMAS

WHEREAS, Dana Thomas is completing his one-year term as the Interim Chancellor of the University of Alaska Fairbanks (UAF) in June 2017, during a continually challenging period of budget cuts and structural reorganization; and

WHEREAS, Dana Thomas researched, authored, and delivered a highly respected and thorough report *An Assessment of Single Accreditation versus Three Separate Accreditations for the University of Alaska's Three Universities* in July 2016; and

WHEREAS, Dana Thomas has previously served as the University of Alaska (UA) Statewide Vice President of Academic Affairs and Research from 2012 to 2014; and

WHEREAS, in 2005 Dana Thomas was recognized an outstanding teacher by receiving the Emil Usibelli Distinguished Teaching Award for sustained teaching excellence at UAF; and

WHEREAS, Dana Thomas served as a faculty member of the Department of Mathematics and Statistics from 1981 through 2012, and chaired the Department for six of those years, and was honored with UAF Emeritus status in 2015; and

WHEREAS, Dana Thomas served as the UAF Vice Provost and Accreditation Liaison Officer from 2006 to 2012; and

WHEREAS, Dana Thomas served at the invitation of the Northwest Commission on Colleges and Universities as an institutional evaluator of other institutions; and

WHEREAS, Dana Thomas conducted world-renowned interdisciplinary research on assessing resource selection by animals, a national survey of agriculture, and fisheries statistics operations conducted in the United States of America, the Republic of Yemen, and the Sultanate of Oman; and

WHEREAS, throughout his distinguished career, Dana Thomas served with quiet, respectful, and thoughtful grace with easy but subtle humor; and

WHEREAS, Dana Thomas has strongly supported the shared governance process and has administered his service within its purview; and

WHEREAS, it shall not be overlooked and understated that Dana Thomas voluntarily wrote the report on single versus multiple accreditation and furthermore served as Interim Chancellor of UAF at the request of UA President Jim Johnsen less than a full year *after* retiring to Arizona for well-deserved rest and canoeing in the sun; Now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges and proclaims that Dr. Dana Thomas has performed outstanding service to the faculty, staff, students, alumni, and administration of UAF and UA—and to the citizens of Alaska and the world—and hereby the Senate expresses its deep appreciation and admiration.

Resolution of Appreciation for Ms. Jayne Harvie by the UAF Faculty Senate

WHEREAS, Jayne Harvie has served the University of Alaska Fairbanks (UAF) with distinction from 1989 to 2017; and

WHEREAS, Jayne Harvie has provided indispensable support for the operations of UAF Faculty Senate for over a decade, including compiling an index of over twenty years of senate policies and procedures online, helping prepare senate meeting agendas and finding and compiling supporting policies and reference material from diverse sources, preparing minutes for faculty senate meetings, and correctly routing and processing hundreds of curricular changes; and

WHEREAS, Jayne Harvie has provided crucial institutional memory on faculty senate and university policies, including the location of the actual policy texts, how they have been interpreted, and the underlying context for the policies; and

WHEREAS, Jayne Harvie has continually mentored Faculty Senate officers, senators, and alternates to help them be more effective in their roles; and despite an ever increasing workload, she has maintained exemplary professionalism and a pleasant and consistently cordial demeanor; and

WHEREAS, Jayne Harvie has provided immense support for initiatives put forth by faculty and students to change or influence academic policy and has been instrumental in her support and guidance during committee meetings such as the Curricular Affairs Committee and the Faculty Administrative Review Committee; and

WHEREAS, it is characteristic of Jayne Harvie's value to the effective operation of the senate that when the past president, current president, and president-elect first contemplated this resolution, their immediate thought was that Jayne Harvie would know exactly how to format it, and what the correct process and timeline would be to get it approved; and

WHEREAS, this resolution would be more complete, accurate, and improved in almost every respect had Jayne Harvie been requested to help with it: Now,

THEREFORE, BE IT RESOLVED that the University of Alaska Fairbanks expresses its deep appreciation to Jayne Harvie for her invaluable contributions to both the State of Alaska and the University; and

BE IT FURTHER RESOLVED that the University of Alaska Fairbanks, in further recognition of the exemplary services rendered by Jayne Harvie and as evidence of the University's desire that her identification with the University be maintained, hereby welcomes the appointment of Jayne Harvie as the Governance Office Manager and Faculty Senate Coordinator, Emerita; and

BE IT FURTHER RESOLVED that this resolution be appropriately signed by the Chancellor of the University of Alaska Fairbanks as further evidence of the esteem and respect in which he holds Ms. Jayne Harvie and conveyed to her on this day of May 1, 2017.

RESOLUTION OF APPRECIATION FOR DR. ORION SKY LAWLOR

WHEREAS, Orion Lawlor has served the University of Alaska Fairbanks (UAF) in the UAF Faculty Senate for eight years; and

WHEREAS, Orion Lawlor has served as Senator to the UAF Faculty Senate from 2009-10 through 2012-13, and again in 2014-15; and

WHEREAS, Orion Lawlor has served as Alternate to the UAF Faculty Senate in 2013-14; and

WHEREAS, Orion Lawlor served on the Graduate Academic and Advisory Committee from 2009-10 through 2010-11, and chaired the Graduate Academic and Advisory Committee in 2011-12; and

WHEREAS, Orion Lawlor served on the Research Advisory Committee from 2011-12 through 2013-14; and chaired the Research Advisory Committee in 2014-15; and

WHEREAS, Orion Lawlor served as President-Elect of the UAF Faculty Senate in 2015-2016; and

WHEREAS, Orion Lawlor has served as President of the UAF Faculty Senate during the current academic year where he has introduced shared collaborative cloud documents to Senate meetings, thereby increasing communication and participation by all faculty; and

WHEREAS, Orion Lawlor has represented the interests of the UAF Faculty Senate at the Faculty Alliance in open collaboration with our colleagues from the University of Alaska Anchorage (UAA) and the University of Alaska Southeast (UAS) to advance education outcomes across the UA system; and

WHEREAS, Orion Lawlor has made thoughtful and constructive contributions to the University of Alaska Statewide Strategic Pathways process that directly resulted in enhanced collaboration between the Colleges of Engineering at UAF and UAA; and

WHEREAS, Orion Lawlor has distinguished himself as an approachable and innovative leader of the UAF Faculty Senate who seeks transparency and full engagement in Senate processes; and

WHEREAS, Orion Lawlor encourages and respects open debate of issues from diverse perspectives; and

WHEREAS, Orion Lawlor maintained a positive and constructive Senate environment for faculty to make real and lasting impacts on faculty, students and staff at UAF; Now

THEREFORE BE IT RESOLVED, that the University of Alaska Fairbanks Faculty Senate acknowledges the pioneering contributions of Dr. Orion Sky Lawlor and expresses its utmost appreciation for his exemplary service.

Googalution of appreciation for Dr. Orion Sky Lawlor by the UAF Faculty Senate

WHEREAS, Orion (as a constellation) comes from the interstellar cloud and brings us the benefits of the cloud (transparency, editing in real-time); and

WHEREAS, Orion Lawlor, has the best hair in senate; and a very nice goatee; and

WHEREAS, Orion Lawlor, with best of intentions, may never answer your emails, such that he must be called after hours on the weekends, where one finds he is perfectly reachable in his robot lab garage, and fully able to hold a productive conversation while simultaneously tweaking programming code and swapping out circuit boards; and

WHEREAS, Orion Sky Lawlor is the coolest name a Faculty Senate President ever had, and Orion has lived up to his calling as president in stellar fashion, aptly navigating the dense molecular cloud complex known as Administration and Statewide, whilst actively perpetuating star formation among a bright hive of faculty in the Senate; and

WHEREAS, Orion Sky Lawlor is the President with the mostest firearms and quietest tone; and

WHEREAS, among the many hats worn by President Lawlor in service to the Faculty Senate includes a chef's hat, he being an EGGspert on molecular gastronomy, non-stick skillets, and design, analysis and synthesis of beaten-egg foodstuffs, he being the unsung Chair of the little-known EGG department which has whipped up student enrollments and many an appetite, and has put UAF on the map for omelet design and fabrication in the Arctic[1]; and

WHEREAS, Orion often had the best lunches during meetings, and

WHEREAS, Orion Lawlor fearlessly led UAF Faculty Senate through the wilds of Google Docs and, without concern for his own safety, bravely threw himself in the midst of faculty wordsmithing battles; and

WHEREAS, President Lawler's middle name being SKY, he owns the cloud and has shared it with the UAF faculty senate for our space grant status exploitation; and
