The Annual Activities Reports are designed to help guide the career of faculty in consultation with their dean and/or director, and are used as a tool for faculty performance evaluation as stated in the Collective Bargaining Agreements. The system being tested from Digital Measures focuses on measuring university performance. These are two separate goals which have limited overlap. The attempt to achieve both at once has made for a system with critical failings for each goal.

The Faculty Alliance in 2004 drafted objectives, guidelines and constraints of an electronic interactive database system for faculty workload and activity reports. A detailed analysis of the Digital Measures system has shown that few of these objectives, guidelines and constraints were met. Further, the proposed system doubled the required information over the current Annual Activity report. The primary concerns of the faculty are the security of sensitive information, use of this information for inappropriate purposes, duplication of effort through lack of coordination with other on and off campus databases, and compliance with the respective Collective Bargaining Agreements. As a database for measuring university performance, the system is poorly designed, error prone, cumbersome and does not take advantage of modern computing capabilities.

The recommendation of the Faculty Senate is to drop the effort to use electronic Annual Activities Reports as input for a comprehensive university database. The faculty would support an electronic version of Annual Activities

Reports if it met the criteria specified by the Faculty Alliance in 2004. A separate database of faculty activities could be created with only the public professional products of the faculty; however, considering the poor result from the time, effort, and resources already devoted to adapting the Digital Measures software for the University of Alaska, further investment in this system as a public professional products database is not advisable.

See the Faculty Affairs Committee report on the automated Annual Activity Reports for more detailed information. A copy is posted online at the following web address:

SUBJECT: UAF Faculty Senate Actions – Meeting #151

Enclosed for your information are actions approved by the UAF Faculty Senate at their May 5, 2008 meeting.

1. Motion to approve the Unit Criteria for Library Science.
2. Motion to approve the Unit Criteria for the Graduate Program in Marine Science and Limnology.
3. Motion to amend the approved alternatives to a Minor.
4. Motion to reject use of the Digital Measures software for electronic Faculty Annual Activities Reports at UAF.
5. Motion to approve the list of 2007-2008 degree candidates.
6. Resolution to support student success initiatives by hiring more full-time tenure track faculty.
7. Resolution of Appreciation for Chancellor Stephen B. Jones.
8. Resolution of Appreciation for Jon Genetti.
9. Resolution for the Outstanding Senator of the Year Award.
10. Motion to endorse 2008-2009 committee membership.
11. Motion to approve the 2008-2009 Faculty Senate Meeting Calendar.
12. Motion to authorize the Administrative Committee to act on behalf of the Senate during the summer months

If you have any questions, please contact me at 474-7964.

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT, PROMOTION, TENURE, AND SABBATICAL LEAVE AND LIBRARY SCIENCE UNIT CRITERIA STANDARDS AND INDICES

APRIL 2008

THE FOLLOWING IS AN AMPLICATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN LIBRARY SCIENCE. ITEMS IN BOLDFACE ARE THOSE ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO LIBRARY FACULTY, AND ARE CLARIFICATIONS OF UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. A MASTER'S DEGREE IN LIBRARY SCIENCE (MLS) OR EQUIVALENT FROM AN AMERICAN LIBRARY ASSOCIATION (ALA) ACCREDITED PROGRAM IS THE RECOGNIZED QUALIFICATION FOR ACADEMIC LIBRARIANS. IN SOME CIRCUMSTANCES, A MASTER'S OR PHD IN A SPECIFIED FIELD MAY SERVE AS AN ALTERNATIVE. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, AND LIBRARY SCIENCE UNIT CRITERIA AND INDICIES, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

A CUSTOMARY TEACHING WORKLOAD FOR LIBRARY SCIENCE FACULTY MAY RANGE FROM 1-2 UNITS PER YEAR; TEACHING IS A SMALL PORTION OF THE LIBRARY SCIENCE WORKLOAD.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design.

LIBRARY FACULTY MEMBERS ENGAGE IN REGULAR REVISION OF THE CURRICULUM TO REFLECT CHANGES IN LIBRARY AND INFORMATION RESEARCH METHODS AND ACCESS TECHNOLOGIES. IN ADDITION TO TEACHING CREDIT COURSES, LIBRARY FACULTY MAY ALSO PROVIDE LECTURES, WORKSHOPS, AND SEMINARS FOR DISCIPLINE-BASED COURSES AT ALL LEVELS OF UAF'S ACADEMIC PROGRAMS IN COOPERATION WITH COURSE INSTRUCTORS.

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

A CUSTOMARY RESEARCH WORKLOAD FOR LIBRARY SCIENCE FACULTY IS 2-3 UNITS OF THEIR TOTAL WORKLOAD. RESEARCH, SCHOLARLY, AND CREATIVE ACTIVITY ARE A SMALL PORTION OF THE NORMAL LIBRARY SCIENCE WORKLOAD.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, CASE STUDIES, PEER-REVIEWED TRANSLATIONS, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development. DEVELOPMENT OF PEER-REVIEWED ADAPTATIONS OF NEW TECHNOLOGY INCLUDING SOFTWARE DEVELOPMENT TO SOLVE PROBLEMS RELEVANT TO INFORMATION ACCESS AND/OR DELIVERY OF LIBRARY SERVICES.

m. PEER-REVIEWED EXHIBIT CURATION.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

A CUSTOMARY SERVICE WORKLOAD FOR LIBRARY SCIENCE FACULTY MAY RANGE FROM 16 TO 37 UNITS. UNIVERSITY SERVICE IS THE LARGEST PORTION O F THE LIBRARY SCIENCE WORKLOAD.

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves

planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

ALONG WITH UNIVERSITY SERVICE, LIBRARIANS MUST ALSO PERFORM SERVICE IN THE UNIT. AS SUCH, LIBRARIANS MUST DEMONSTRATE COMPETENCE AND EVIDENCE OF DEVELOPING EXCELLENCE IN HIS/HER PRIMARY AREA(S) OF RESPONSIBILITY WHICH ARE DESCRIBED BELOW. LIBRARY FACULTY WORKLOADS MAY SHOW ACTIVITY AND/OR RESPONSIBILITY FOR SOME BUT NOT ALL OF THESE SERVICE ACTIVITIES AND MAY ALSO INCLUDE ACTIVITIES SPECIFIED IN INDIVIDUAL WORKLOAD REQUIREMENTS.

REFERENCE
REFERENCE SERVICES PROVIDE A LINK BETWEEN USERS SEEKING INFORMATION AND THE INFORMATION SOURCE. SERVICES INCLUDE PROVIDING ASSISTANCE IN LOCATING BASIC INFORMATION AND INSTRUCTION IN THE SELECTION AND USE OF LIBRARY RESOURCES AND RESEARCH TOOLS.

COLLECTION DEVELOPMENT
COLLECTION DEVELOPMENT IS THE PROCESS BY WHICH LIBRARIANS DETERMINE THE MATERIALS TO BE INCLUDED IN LIBRARY COLLECTIONS THROUGH: SELECTION OF MATERIALS CHOSEN TO SUPPORT THE CURRICULUM AND THE UNIVERSITY'S MISSION; DEVELOPMENT OF DEPARTMENTAL LIAISON RELATIONSHIPS; MANAGEMENT OF THE COLLECTION DEVELOPMENT INFRASTRUCTURE; COLLECTION AND MANAGEMENT OF DATA FOR COLLECTION ASSESSMENT AND ACCREDITATION/ASSESSMENT; AND DIRECTING LIBRARY PARTICIPATION IN CONSORTIAL OR OTHER JOINT PROJECTS SUCH AS COOPERATIVE PURCHASES AND SHARING OF ONLINE RESOURCES WITH OTHER INSTITUTIONS.

MANAGEMENT OR ADMINISTRATIVE ACTIVITIES
THIS AREA INCLUDES MANAGING BUDGETS; SUPERVISING AND EVALUATING LIBRARY STAFF; BROAD-BASED PLANNING; AND POLICY DEVELOPMENT, DATA ANALYSIS, AND REPORT WRITING RELATED TO THE FUNCTIONING OF THE LIBRARY.

INFORMATION TECHNOLOGY
INFORMATION TECHNOLOGY INVOLVES ASSESSING AND USING CURRENT TECHNOLOGIES TO CREATE AND MAINTAIN SYSTEMS AND PUBLIC INTERFACES THAT DEVELOP OR IMPROVE ACCESS TO LIBRARY COLLECTIONS AND INFORMATION RESOURCES, INCLUDING: PLANNING, INSTALLATION AND MAINTENANCE OF SOFTWARE SYSTEMS; CREATION OF SOFTWARE AND DESIGN OF WEB SITE ARCHITECTURE; AND WRITING AND IMPLEMENTING POLICIES TO SUPPORT AND CARRY OUT LIBRARY SYSTEMS/TECHNOLOGY WORK.

ARCHIVES
ARCHIVAL ACTIVITIES INCLUDE FACILITATING DONOR RELATIONSHIPS AND DONATIONS, RESULTING IN NEW ACQUISITIONS AND/OR FUNDING FOR ARCHIVAL PROJECTS; APPRAISAL OF COLLECTIONS TO DETERMINE ADMINISTRATIVE OR HISTORICAL VALUE; ARRANGEMENT AND DESCRIPTION OF COLLECTIONS TO FACILITATE RESEARCHER ACESS; PRESERVATION OF FRAGILE MATERIALS AND/OR OBSOLETE MEDIA; DEVELOPMENT OF OUTREACH PROGRAMS; AND PROVISION OF RESEARCH SERVICES TO ASSIST PUBLIC ACCESS TO HISTORICAL COLLECTIONS OF PAPERS, PHOTOGRAPHS, AND OTHER UNIQUE AND UNPUBLISHED MATERIALS.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring OF NEW FACULTY.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

ALTHOUGH ALL FACULTY MEMBERS ARE INDIVIDUALLY RESPONSIBLE FOR PROFESSIONAL ACHIEVEMENT, SCHOLARSHIP AND OTHER RELEVANT EXPERIENCE, A HIGH PROPORTION OF COOPERATIVE WORK IS ESSENTIAL FOR PROGRESS IN THE FIELD OF LIBRARIANSHIP. THEREFORE, EVALUATION OF LIBRARY SCIENCE FACULTY IS BASED

UPON INDIVIDUAL AND COLLECTIVE ACCOMPLISHMENTS IN THE PRACTICE OF LIBRARIANSHIP, SCHOLARLY, RESEARCH OR CREATIVE ACTIVITY AND SERVICE.

EFFECTIVENESS IN SERVICE MAY BE EVALUATED BY ANY OF THE FOLLOWING METHODS:

A. DOCUMENTATION DEMONSTRATING SUCCESSFUL DEVELOPMENT AND IMPLEMENTATION OF PROJECTS, POLICIES, PROCEDURES, AND STANDARDS.

B. LETTERS SUPPLIED BY COLLEAGUES WITHIN AND OUTSIDE THE UNIVERSITY EVALUATING PERFORMANCE, CONTRIBUTIONS TO THE LIBRARY AND ASSISTANCE TO INDIVIDUALS AND/OR GROUPS.

C. UNSOLICITED TESTIMONIALS DEMONSTRATING OUTCOMES AND/OR EFFECTIVENESS OF SERVICE ACTIVITIES.

D. HONORS AND AWARDS FOR PERFORMANCE EXCELLENCE WITHIN AND OUTSIDE THE UNIVERSITY, INCLUDING LIBRARY AND PROFESSIONAL ORGANIZATIONS AND ASSOCIATIONS.

AND
GRADUATE PROGRAM IN MARINE SCIENCE AND LIMNOLOGY, INSTITUTE OF MARINE SCIENCE, GLOBAL UNDERSEA RESEARCH UNIT STANDARDS AND INDICES

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Graduate Program in Marine Science and Limnology.

EFFECTIVE:	Immediately Upon Chancellor / Provost Approval
RATIONALE:	The committee assessed the unit criteria submitted by the Graduate Program in Marine Science and Limnology.. With some changes agreed upon by the college representative, the unit criteria were found to be consistent with UAF guidelines.

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:
INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT,
PROMOTION, TENURE, AND SABBATICAL LEAVE
AND
GRADUATE PROGRAM IN MARINE SCIENCE AND LIMNOLOGY,
INSTITUTE OF MARINE SCIENCE,
GLOBAL UNDERSEA RESEARCH UNIT
STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY WHO TEACH PRIMARILY IN THE GRADUATE PROGRAM IN MARINE SCIENCE AND LIMNOLOGY (GPMSL), AND ARE APPOINTED WITHIN THE SCHOOL OF FISHERIES AND OCEAN SCIENCES (SFOS) UNITS INSTITUTE OF MARINE SCIENCE (IMS) AND GLOBAL UNDERSEA RESEARCH UNIT (GURU). ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO GPMSL FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience, and performance requirements are set forth in “UAF Faculty Policies,” Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans or schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

1. General Criteria

Criteria outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV**, AND GPMSL UNIT CRITERIA, STANDARDS AND INDICES,** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty. Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in

classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

TEACHING IS AN IMPORTANT MISSION OF ALL SFOS TENURE-TRACK FACULTY; TEACHING IN SFOS IS NORMALLY CONDUCTED THROUGH EITHER THE GRADUATE PROGRAM IN MARINE SCIENCE AND LIMNOLOGY (GPMSL) OR THE FISHERIES PROGRAM. THE SCOPE FOR UNDERGRADUATE TEACHING BY MOST GPMSL FACULTY IS LIMITED, BECAUSE THE PRIMARY MISSION OF GPMSL IS GRADUATE EDUCATION. THE MAJOR TEACHING ACTIVITIES OF MOST GPMSL FACULTY ARE CLASSROOM/LABORATORY/FIELD INSTRUCTION AT THE GRADUATE LEVEL AND ADVISING GRADUATE STUDENTS ON THESIS AND DISSERTATION RESEARCH. GRADUATE CLASSROOM INSTRUCTION OFTEN REQUIRES EFFORT DISPROPORTIONATE TO THE NUMBER OF STUDENTS SERVED. THE NORMAL EXPECTATION FOR FULL-TIME (9 MONTH) TENURE-TRACK FACULTY IS 6 CREDITS PER YEAR. FACULTY CAN REDUCE CLASSROOM TEACHING TO A MINIMUM OF 3 CREDITS PER YEAR WITH EXTERNAL FUNDING BUY-OUT. FOR FACULTY WITH DIFFERENT WORKLOADS, THE EXPECTATION FOR FORMAL TEACHING IS TO BE ADJUSTED PROPORTIONATELY IN ACCORDANCE WITH ANNUAL WORK LOAD STATEMENTS.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers.

   EFFECTIVE TEACHERS:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students**,** develop good rapport with students**,** show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student and clientele diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

PERFORMANCE AS MAJOR ADVISOR IS EVALUATED BASED ON DEGREES COMPLETED UNDER THE FACULTY MEMBER'S SUPERVISION, SINCE EACH REPRESENTS A MAJOR INVESTMENT OF FACULTY TIME. HOWEVER, IT IS RECOGNIZED THAT DEMAND FOR GRADUATE DEGREES IS NOT UNIFORM ACROSS DISCIPLINES, AND LIMITED AVAILABILITY OF STUDENTS MAY LIMIT A FACULTY MEMBER'S ACTIVITY IN GRADUATE ADVISING. PROMOTION TO ASSOCIATE PROFESSOR REQUIRES THAT AT LEAST ONE M.S. GRADUATE DEGREE HAS BEEN COMPLETED, OR ONE Ph.D. STUDENT HAS MADE SUBSTANTIAL PROGRESS TOWARDS COMPLETION UNDER THE FACULTY MEMBER'S SUPERVISION AS MAJOR ADVISOR IF THE FACULTY MEMBER'S WORKLOAD INCLUDES TEACHING. PROMOTION TO PROFESSOR REQUIRES THAT AT LEAST TWO GRADUATE DEGREES (M.S. OR PH.D.) HAVE BEEN COMPLETED UNDER THE FACULTY MEMBER'S SUPERVISION AS MAJOR ADVISOR IF THE FACULTY MEMBER'S WORKLOAD INCLUDES TEACHING. ADDITIONAL EVIDENCE OF PERFORMANCE QUALITY INCLUDES PUBLICATION OF PEER-REVIEWED JOURNAL ARTICLES OR BOOK CHAPTERS BASED ON THE ADVISED STUDENT'S THESIS OR DISSERTATION RESEARCH; STUDENT PRESENTATIONS AT NATIONAL AND INTERNATIONAL MEETINGS; AWARDS TO STUDENTS; AND STUDENT SUCCESS IN INITIAL EMPLOYMENT AFTER GRADUATION.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/ space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in

other scholarly or creative pursuits that are appropriate the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

THE PRIMARY EVIDENCE OF HIGH RESEARCH QUALITY IS PUBLICATION OF RESEARCH RESULTS AND INTERPRETATIONS IN RESPECTED, NATIONAL OR INTERNATIONAL, PEER-REVIEWED JOURNALS OR PEER-REVIEWED BOOKS OR BOOK CHAPTERS. IN EVALUATING SUCH PUBLICATIONS, QUALITY, AS JUDGED BY GPMSL/SFOS FACULTY PEERS, IS MORE IMPORTANT THAN QUANTITY.

SECONDARY EVIDENCE OF RESEARCH SUBSTANCE AND QUALITY CAN INCLUDE PUBLICATIONS THAT ARE NOT PEER-REVIEWED, SUCH AS FINAL CONTRACT REPORTS, DATA REPORTS, AND WEBSITES.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

SECONDARY EVIDENCE OF RESEARCH SUBSTANCE AND QUALITY CAN INCLUDE EXTERNAL FUNDING FROM SOURCES KNOWN FOR RIGOROUS PEER OR ORGANIZATIONAL REVIEW OF PROPOSALS.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries, selection for these exhibitions being based on rigorous review and approval by peers**,** juries, recognized artists, or critics.

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations**.**

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

FACULTY APPLYING FOR PROMOTION OR TENURE MUST PRESENT EVIDENCE OF HIGH-QUALITY CONTRIBUTIONS IN RESEARCH. FOR A FULL-TIME (9-MONTH) WORKLOAD, THE MINIMUM EXPECTATION FOR AWARD OF TENURE AND PROMOTION TO ASSOCIATE PROFESSOR IS A SUSTAINED PUBLICATION RECORD AVERAGING ONE PER YEAR, WITH A MINIMUM OF SIX. THE MINIMUM EXPECTATION OF PEER-REVIEWED PUBLICATIONS FOR PROMOTION TO PROFESSOR IS A SUSTAINED PUBLICATION RECORD AVERAGING ONE PER YEAR, WITH A MINIMUM OF TWELVE. TYPICALLY, AT LEAST HALF OF THE PUBLICATIONS AT EACH PROMOTION LEVEL WILL BE FIRST-AUTHORED BY THE CANDIDATE OR BY A GRADUATE STUDENT, UNDERGRADUATE STUDENT, OR POST-DOCTORAL SCHOLAR UNDER THE CANDIDATE'S DIRECT SUPERVISION.
IT IS THE CANDIDATE'S TOTAL PUBLICATION RECORD, REGARDLESS OF AFFILIATION, THAT IS CONSIDERED IN DETERMINING THESE COUNTS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

TO BE CONSIDERED IN PERFORMANCE EVALUATIONS, PUBLIC SERVICE ACTIVITIES MUST BE RELATED TO THE FACULTY MEMBER'S UNIVERSITY POSITION. SOME GPMSL FACULTY HAVE PART-TIME ADMINISTRATIVE POSITIONS THAT PROVIDE SERVICE TO A NATIONAL SCIENTIFIC COMMUNITY AND SIGNIFICANTLY INCREASE THE SERVICE PORTION OF THEIR WORKLOAD. THE PROPORTION OF WORKLOAD ASSIGNED TO FORMAL ADMINISTRATIVE DUTIES AND TO UNIVERSITY, PROFESSIONAL AND PUBLIC SERVICE IS OUTLINED IN THE ANNUAL WORKLOAD STATEMENT.

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities that extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. VOLUNTARY consulting **IN THE FACULTY MEMBER'S AREA OF EXPERTISE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE**.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper or trade journal articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair, or term-limited and part-time assignment as assistant/associate dean in a college, school, **OR PROGRAM.**

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring **JUNIOR FACULTY**

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

FOR GPMSL FACULTY, EVIDENCE OF HIGH-QUALITY PERFORMANCE MAY INCLUDE (1) EVALUATION LETTERS FROM PEERS, ADMINISTRATORS, OR OTHERS WITH DIRECT KNOWLEDGE, (2) SPECIFIC ACCOMPLISHMENTS AS REPORTED IN THE SELF-EVALUATION AND/OR ACTIVITY REPORTS, AND (3) EVIDENCE OF REPEATED REQUESTS FOR THE FACULTY MEMBER TO PERFORM NEW OR EXPANDED SERVICE ACTIVITIES. SUCH REQUESTS ARE STRONG EVIDENCE FOR QUALITY PERFORMANCE.
FACULTY APPLYING FOR PROMOTION OR TENURE MUST PRESENT EVIDENCE OF QUALITY SERVICE CONTRIBUTIONS. FOR PROMOTION TO ASSOCIATE PROFESSOR AND TENURE, SERVICE IN AT LEAST TWO OF THE THREE CLASSES OF SERVICE (PUBLIC, UNIVERSITY, PROFESSIONAL) IS NORMALLY EXPECTED. FOR PROMOTION TO PROFESSOR, FACULTY SHOULD DEMONSTRATE AN EXPANDED SERVICE CONTRIBUTION, NORMALLY INCLUDING SERVICE AT THE NATIONAL OR INTERNATIONAL LEVEL.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

MOTION:

The UAF Faculty Senate moves to amend approved alternatives to a Minor to include certificates in addition to A.A.S. degrees (p. 121, 2007-2008 UAF Catalog).

CAPS = Additions
[[ ]] = Deletions

An associate of applied science (A.A.S.) degree **OR CERTIFICATE OF AT LEAST 30 CREDITS** earned at any regionally accredited college or university may be used to meet requirements for a minor for the bachelor of arts (B.A.) degree.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: Since a certificate requires a greater number of credits in a discipline than a minor, this addition is well within the spirit of a minor concentration and makes completing the requirements for a minor easier for students who begin with limited academic goals and progressively work towards a bachelor's degree.

Jon Gantt 5/5/08
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 5-13-08
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

MOTION:

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: a copy of the list is available in the Governance Office, 312 Signers' Hall]

EFFECTIVE:	Immediately
RATIONALE:	These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, UAF Faculty Senate makes that recommendation.

****

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

SUBMITTED JOINTLY BY THE STUDENT ACADEMIC DEVELOPMENT AND ACHIEVEMENT COMMITTEE AND THE FACULTY AFFAIRS COMMITTEE

RESOLUTION:
==========

SUPPORTING SUCCESS INITIATIVES THROUGH HIRING OF FULL TIME TENURE TRACK FACULTY

WHEREAS, UAF has been engaged over the past several years in an increasing emphasis on programs and policies that enhance student success; and

WHEREAS, national data indicates that students are more successful when their first contact with instructors is with full-time faculty in stable positions who are involved in and committed to planning and evaluation of entry-level programs; and

WHEREAS, with upcoming changes in admissions and placement for entering students, there will be a greater need for faculty in entry level classes, including student success and developmental classes; and

WHEREAS, in motions to implement mandatory placement and to endorse the recommendations of the Developmental Education Implementation Task force, the Faculty Senate clearly stated that these motions require financial commitment from UAF, including the creation and support of full-time tenure track faculty positions; and

WHEREAS, many in the general public and the state Legislature are becoming increasingly concerned about the disproportionately rising administration costs while funding for direct classroom instruction comparatively shrinks;

THEREFORE, BE IT RESOLVED THAT the UAF Faculty Senate strongly encourages the creation and hiring of full-time, tenure track positions in all areas that specifically address entering students and student success; and

BE IT FURTHER RESOLVED THAT the UAF Faculty Senate strongly encourages funding be dedicated to hiring and supporting full-time tenure-track faculty members and away from burgeoning administration costs as documented in the MacTaggart and Rogers report.

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

RESOLUTION OF APPRECIATION
FOR
UAF CHANCELLOR STEPHEN B. JONES

WHEREAS, Stephen B. Jones has served the University of Alaska for the past four years as Chancellor of the University of Alaska Fairbanks; and

WHEREAS, Stephen B. Jones has worked diligently to increase the national and international reputation of UAF as a premier education and research institution, and to establish the identity of UAF as "America's Arctic University"; and

WHEREAS, Chancellor Stephen B. Jones brings prestige and recognition to UAF in his position as the Chair of the governing board, University of the Arctic, a circumpolar consortium of colleges and universities in eight circumpolar nations; and

WHEREAS, during his tenure, UAF has seen an increase in the number of UA Scholars enrolling in UAF, in the number of students entering high-demand workforce programs to meet the needs of the state of Alaska, and in the number of PhD candidates; and

WHEREAS, during the four years of Stephen B. Jones's tenure as Chancellor, the number of degrees awarded has increased in 2007; and

WHEREAS, Stephen B. Jones has begun building a culture of philanthropy in support of UAF, by establishing an annual fund program and providing the resources to build a development and advancement program at UAF; and

WHEREAS, Stephen B. Jones has promoted UAF education and research internationally, by creating agreements with selected universities in China and India; and nationally, by creating MOAs with community colleges in Washington and California; and

WHEREAS, Stephen B. Jones convened the Vision 2017 Task Force, a body of statewide leaders who will help set the future course for UAF;

NOW, THEREFORE, BE IT RESOLVED, that the University of Alaska Fairbanks Faculty Senate expresses its gratitude to Stephen B. Jones for his years of service to the university, commends him for his advocacy on behalf of UAF, and extends best wishes to him and his wife Judy in their future endeavors.

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

Resolution of Appreciation for Jonathan Genetti

Whereas, Jon Genetti has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

Whereas, Jon Genetti has served as Senator to the UAF Faculty Senate from 2004-2008, as a member of the Faculty Affairs Committee from 2004-2006 and as chair of the Faculty Affairs Committee from 2005-2006; and

Whereas, Jon Genetti has served as a member of the Administrative Committee from 2006-2008, as Chair of the Administrative Committee and as President-Elect of the UAF Faculty Senate from 2006-2007; and

Whereas, Jon Genetti has served as a member of the UAF Governance Coordinating Committee from 2006-2008; and

Whereas, Jon Genetti effectively advocated for UAF faculty as a member of the UA Faculty Alliance from 2006-2008; and

Whereas, Jon Genetti, as a member of the Statewide Student Success Steering Committee advocated for UAF students and worked to increase their success as students; and

Whereas, Under the leadership of Jon Genetti as Chair of Faculty Affairs, the by-laws of the Faculty Senate were changed to allow the full participation of faculty with research appointments on Faculty Senate; and

Whereas, With his extensive knowledge of computer programming and applications, Jon Genetti has worked with Faculty Senate committees and UAF and statewide administrators to test and refine UA-wide computing initiatives; and

Whereas, Jon Genetti has raised awareness of the differences in UAF's various retirement benefit programs, and has worked to maintain equal retirement benefits for all UAF employees; and

Whereas, Jon Genetti has served as President of the UAF Faculty Senate from 2007-2008 and with keen insight and good humor has successfully led the Faculty Senate through difficult and often contentious discussions; and

Whereas, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Jon Genetti as he concludes his term as president; now

THEREFORE, BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Jon Genetti and expresses its appreciation for his exemplary service.

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

OUTSTANDING SENATOR OF THE YEAR AWARD
FOR
ACADEMIC YEAR 2008

WHEREAS, Rainer Newberry has served the university in the UAF Faculty Senate for the past six years; and

WHEREAS, Rainer Newberry has provided leadership as Chair of the Curricular Affairs Committee during academic years 2003 through 2006; and

WHEREAS, Rainer Newberry has served as Chair of the Curriculum Review Committee for the past four years; and

WHEREAS, Rainer Newberry has served as a representative of both Curricular Affairs and Curriculum Review on the Faculty Senate Administrative Committee; and

WHEREAS, Rainer Newberry has led the Curriculum Review Committee to provide a clear, consistent and rigorous process to guide curriculum changes; and

WHEREAS, Rainer Newberry has spearheaded the establishment of guidelines regarding the structure of academic credits; and

WHEREAS, Rainer Newberry engaged faculty in dialog about the plus-minus grading system and its implementation and consequences; and

WHEREAS, Rainer Newberry has provided thorough, provocative and tireless advocacy for issues about which he is passionate; now

THEREFORE, BE IT RESOLVED, that the UAF Faculty Senate recognizes Rainer Newberry as Outstanding Senator of the Year for Academic Year 2008.

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

MOTION:
=======

The UAF Faculty Senate moves to endorse the 2008-2009 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighed against membership distribution from schools and colleges.

159	5-4-09	Monday	1:00 PM	Face to Face

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

MOTION:

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2008. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 5, 2008

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

SUBJECT: UAF Faculty Senate Actions – Meeting #150

Enclosed for your information are actions approved by the UAF Faculty Senate at their April 7, 2008 meeting.

1. Motion to approve the Library Science Unit Criteria -- Referred back to Committee
2. Motion to approve the Unit Criteria for the Departments of English, Philosophy, and Humanities
3. Motion to approve a B.A. in Fisheries
4. Motion to approve a Minor in Fisheries
5. Motion to Confirm the Nomination of Rainer Newberry for the 2008 Outstanding Senator of the Year Award
6. Resolution to Ratify the Election of Jonathan Dehn as FS President-Elect

If you have any questions, please contact me at 474-7964.

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:
INITIAL APPOINTMENT, PERIODIC REVIEW, RE-APPOINTMENT,
PROMOTION, AND TENURE
AND
DEPARTMENTS OF ENGLISH AND PHILOSOPHY & HUMANITIES UNIT
CRITERIA
STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE DEPARTMENTS OF ENGLISH AND PHILOSOPHY & HUMANITIES. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENTS' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA MAY BE USED IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank

positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***SOME FACULTY SERVE ON A LARGE NUMBER OF GRADUATE COMMITTEES, AND SUCH WORK IS HIGHLY VALUED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS.***

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design, ***POSSIBLY INCLUDING THE DEVELOPMENT OF VALUED TEACHING RESOURCES SUCH AS IT-BASED EDUCATIONAL TOOLS;***

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and/OR approval by peers in the discipline. ***BOOKS AND SCHOLARLY ARTICLES ARE HIGHLY VALUED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS, INCLUDING BOOKS SELECTED BY EDITORS RATHER THAN BY EDITORIAL BOARDS OR THROUGH PEER REVIEW.***

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval. ***GRANTS ARE VALUED, BUT THERE IS NO EXPECTATION THAT FACULTY WILL WRITE OR ADMINISTER GRANTS DUE TO THE SMALL NUMBER OF GRANTS AVAILABLE FOR FACULTY WORKING IN THESE DISCIPLINES.***

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers. ***PRESENTATION OF RESEARCH PAPERS OR OTHER SCHOLARLY OR CREATIVE WORK IS VALUED. HOWEVER, TRAVEL FUNDS ARE, AT TIMES,***

DIFFICULT TO OBTAIN FOR FACULTY IN THIS UNIT. A LACK OF SUCH PRESENTATIONS SHOULD NOT COUNT AGAINST FACULTY.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.
e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications. ***CITATION INDEXES ARE NOT REGARDED AS RELIABLE INDICATORS OF STANDING IN THE HUMANITIES, AND ARE NOT COMMONLY USED. A HIGH LEVEL OF CITATION MIGHT INDICATE A HIGH STANDING IN A FACULTY MEMBER'S FIELD. HOWEVER, A LOW LEVEL OF CITATION SHOULD NOT BE TAKEN TO INDICATE A LACK OF STANDING.***

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. ***READINGS OR OTHER PRESENTATIONS OF CREATIVE AND/OR SCHOLARLY WORK (OUTSIDE OF CONFERENCE PRESENTATIONS) ARE VALUED BY THESE DEPARTMENTS***.

o. ***THE CREATIVE AND SCHOLARLY WORKS PRODUCED BY FACULTY ARE EXPECTED TO BE SUBJECT TO A RIGOROUS REVIEW PROCESS THROUGH PEER-REVIEW, REVIEW BY AN EDITORIAL BOARD, OR EDITOR. CREATIVE AND SCHOLARLY PRODUCTIONS ARE VALUED FOR ALL FACULTY, AND MAY INCLUDE (BUT ARE NOT LIMITED TO) POETRY, FICTION,***

CREATIVE NON-FICTION, FILMS, DRAMATIC WORKS, DRAMATIC PRODUCTIONS, WEBPAGES, AND SCHOLARLY EDITIONS AND TRANSLATIONS OF EXISTENT TEXTS. ALTHOUGH THE DEPARTMENTS VALUE CONVENTIONALLY PUBLISHED WORKS, THEY ALSO VALUE WORK RIGOROUSLY REVIEWED BUT DISSEMINATED BY OTHER MEANS, SUCH AS (BUT NOT LIMITED TO) WORK PRESENTED ELECTRONICALLY THROUGH WEBPAGES, OR THROUGH PUBLIC PERFORMANCES.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies. ***SIGNIFICANT FACULTY PARTICIPATION IN DEPARTMENTAL COMMITTEES IS OFTEN EXPECTED IN ORDER TO RUN THE PROGRAMS OFFERED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS, AND THIS WORK IS HIGHLY VALUED.***

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY***.

j. Prizes and awards for excellence in university service.

k. ***SERVING AS AN OUTSIDE EXAMINER TO OTHER GRADUATE PROGRAMS IN THE UNIVERSITY***.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Brief Statement of the Proposed BA in Fisheries Program

1. **Overview:**
Alaska's fisheries are entering a period of rapid change. Climate change influences the abundance and dynamics of fish stocks. Institutional changes (such as the rationalization of fisheries, federal imposition of subsistence priority, and the allocation of harvest to community development) continue to alter the structure and function of industry by promoting the emergence of industrial firms and Alaska Native organizations as dominant sectors in the fishing industry. Legal protections for threatened and endangered species and essential habitats and the development of

new ecosystem-based management plans are continuously changing Alaska's fisheries.

The fisheries curriculum offered by the University of Alaska Fairbanks (UAF) through the School of Fisheries and Ocean Sciences (SFOS) must meet the challenges. The health of Alaska's biologically and ecologically sustainable fisheries, the growth and development of Alaska's economy, and the persistence of traditional subsistence communities require that we train and educate scientists and managers with a wide range of knowledge and experience to confront these challenges.

Alaska's fisheries provides unique opportunities not available elsewhere. Students studying fisheries in Alaska will work with robust stocks, healthy ecosystems, effective management, and a highly diverse community of users and harvesters. Fisheries students at UAF will have direct experience with public agencies that play a vital role in fisheries science and management, a vibrant fishing industry, and nongovernmental organizations with a strong interest in a sustainable fishery. In developing curricula to meet the challenges of changing times, the SFOS faculty can take advantage of the opportunities available in fisheries science and management found only in Alaska.

Alaska's vision of sustainable development of its fishery resources requires that we offer a broad academic curriculum to our future fisheries managers and scientists. Currently, fisheries curricula at UAF and at other universities in North America focus primarily on the conservation of biological resources and the sustainable harvesting of stocks. While the need for these programs will continue, other academic disciplines must be included to address the unique characteristics of Alaska's fisheries.

We envision a new undergraduate curriculum within SFOS, a Bachelor of Arts in Fisheries. This degree will be offered by many of the same faculty that offer our Bachelor of Science in Fisheries degree, and the two curricula would share some courses. The Bachelor of Arts degree would still require students to complete coursework in the fundamentals of fishery biology but would expand that curriculum to include course requirements in one of several potential concentrations, including Business Management (Fisheries, Harvesting, and Processing), Food Science, Policy, or others.

An essential component of the new degree program is the integration of an experiential learning/internship experience into the curriculum. Successful applicants to this program will work as interns with SFOS partners, including private industry firms, public agencies, and nongovernmental organizations. The addition of an internship component to the B.A. curriculum will also strengthen our current Bachelor of Science in Fisheries by providing additional opportunities for experiential learning to all of our fisheries students.

As a Bachelor of Arts degree, our new fisheries degree will require students to complete a minor. Students must satisfactorily complete the requirements for a minor before a B.A. degree is awarded. A minor from UAF consists of a minimum of 15 credits, at least three (3) credits of which have to be earned at UAF. Students must earn a cumulative GPA of at least 2.00 (C) in the minor and follow minor requirements from the same academic catalog used for their baccalaureate program. An Associate of Applied Sciences degree earned at any regionally accredited college or university may also be used to meet requirements for a minor in B.A. degree programs. Appropriate minors for B.A. Fisheries students could include any offered at UAF, but most likely would focus on some aspect in business administration, political science, anthropology, or rural development.

2. Objectives:

The objective of this proposed Bachelor of Arts in Fisheries degree program is to provide students with the knowledge base, skill sets, and hands-on experience to be highly competitive in obtaining positions within the fishing and seafood processing industries in Alaska. To meet this need, the University of Alaska Fairbanks will be the university of choice for training and educating the fisheries and marine resource experts needed to sustain and grow Alaska's vital fishing and seafood industries. As one of the premier fisheries and ocean sciences programs in the nation, the UAF School of Fisheries and Ocean Sciences will educate the professionals necessary to guarantee the sustainability of Alaska's vast and healthy marine and freshwater resources. This proposed degree program will increase student recruitment and retention at UAF, with a particular emphasis on Alaska Native and rural Alaskan students. We also anticipate that this degree program will support the long-term sustainability of fisheries in Alaska.

3. Career Opportunities:

Undergraduates that completed the Bachelor of Arts in Fisheries degree program would be competitive for a wide variety of agency and organization positions, particularly within the state of Alaska. For example, graduates with a Bachelor of Arts in Fisheries would be qualified to work for traditional fisheries governmental agencies, such as the Alaska Department of Fish and Game, U.S. Fish and Wildlife Service, U.S. Forest Service, or Bureau of Land Management in the areas of business administration, policy development, fisheries education and outreach, or as social scientists. Alaska Native Organizations, such as the Association of Village Partnerships, Bristol Bay Native Association, Tanana Chiefs Conference, or Kuskokwim Native Association, would want to hire these students in the same capacity, as well as from the standpoint of rural community development. Fishing organizations, such as the six (6) CDQ (Community Development Quota) programs in Alaska, would also hire students in the aforementioned areas as well as in fisheries quota management. Relevant organizations include the Yukon Delta Fisheries Development Association, Norton Sound Economic Development Corporation, and Aleutian Pribilof Island Community Development Association.

Private non-profit salmon hatchery corporations, including the Prince William Sound Aquaculture Corporation, Cook Inlet Aquaculture Association, and Northern Southeast Regional Aquaculture Association, would be interested in hiring students to serve as hatchery managers and outreach specialists in their respective communities. Finally, the Alaskan seafood processing industry, the largest private-sector employer in the state, would want to hire students with a B.A. in Fisheries with expertise in accounting, finance, marketing, organizational management, and other areas of business administration to help run their organization. Peter Pan Seafoods, Ocean Beauty Seafoods, and Icicle Seafoods are businesses that have expressed interest in this program. Through the proposed Bachelor of Arts in Fisheries, we will prepare students for these job opportunities by providing valuable, practical experience, individualized instruction and on-the-job training, application of classroom theories in the real world, and networking with people in the chosen career field. These attributes will better prepare students for post-graduation employment and, consequently lead to a higher employability for our graduates. Not only will our students be prepared for the specific requirements associated with the agencies and organizations listed above, but they would also be well qualified for similar jobs throughout North American through the unique program that we propose to deliver.

Proposed Catalog Layout:

GENERAL CATALOG LAYOUT

1. Complete the general university requirements (page 116).
2. Complete the B.A. degree requirements (page 120).
3. Complete the following fisheries core requirements:

* Rasmuson Foundation funding and UAF match over 5 years (funding began Jan. 1, 2007).

University of Alaska Board of Regents
Program Approval Summary Form
Requirements:

MAU: UAF
Title: Bachelor of Arts in Fisheries
Target admission date: Fall 2008

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

Over the past two years, SFOS faculty members have surveyed the Alaskan fishing industry and its regulators to determine how our fisheries program can be broadened to serve a larger sector of Alaska's fishing community. Faculty members in SFOS have visited fishing companies, seafood processors, and industry regulators to gather standardized information about industry needs and potential areas for growth. Our Marine Advisory Program faculty has organized meetings to determine the specific needs of Alaska's coastal communities. We have also completed a written survey of 244 individuals and groups involved in Alaska's fishing industry.

To date, there has been no formalized degree program that has been formulated to address the needs of a liberal arts degree in fisheries. As a result, fisheries industry professionals in Alaska have had a primarily science degree out of a Bachelors of Science program or have a primarily business, political science, social science, or anthropology degree out of a Bachelor of Arts program. Our proposed degree melds those two programs so that students receive both an adequate foundation in the sciences and a broad background in business and political science/policy.

The creation of a Bachelor of Arts in Fisheries does have the potential of impacting student enrollment in other degree programs with the UA system, particularly at UAF. We do not necessarily anticipate drawing students from other programs. Instead, we anticipate an increase in student enrollment which would have the positive benefit of increasing credit-hour production in fisheries courses as well as courses in degree programs intricately involved in this program (e,g., Business Administration, Political Science). It should be mentioned that this degree program does have the support of Interim Dean of the School of Management and the Department Head of Political Science.

What **State Needs** are met by this program.

Alaska’s fisheries are entering a period of rapid change. Climate change influences the abundance and dynamics of fish stocks. Institutional changes continue to alter the structure and function of industry by promoting the emergence of industrial firms and Alaska Native organizations as dominant sectors in the fishing industry. Legal protections for threatened and endangered species and essential habitats and the development of new ecosystem-based management plans are continuously changing Alaska's fisheries.

The fisheries curriculum offered by the University of Alaska Fairbanks through the School of Fisheries and Ocean Sciences must meet the challenges of these changes. The health of Alaska's biologically and ecologically sustainable fisheries, the growth and development of Alaska's economy, and the persistence of traditional subsistence communities require that we train and educate scientists and managers with the knowledge and experience to confront these challenges.

What are the **Student** opportunities and outcomes? Enrollment projections?
The proposed Bachelor of Arts on Fisheries degree program will offer enrolled undergraduates the unique ability to combine business administration, finance, accounting, marketing, organizational management, policy development, and rural community development skills with their technical knowledge of fisheries management issues within the context of the Alaskan fishing and seafood industries. Undergraduates that completed the Bachelor of Arts in Fisheries degree program would be competitive for a wide variety of agency and organization positions, particularly within the state of Alaska. Areas of focus would include business administration, policy development, fisheries education and outreach specialists, or social scientists.

The undergraduate enrollment in Fisheries is expected to increase to 50 students in the Academic Year (AY) 2009. As the program evolves and grows, it is anticipated that the combined student enrollment in the B.S. and B.A. in fisheries programs will increase to 100 in AY 2012. In addition, it is anticipated that the Alaska Native and rural Alaskan student enrollment will increase from its present level over the past five years (1 to 5 students) to 10 to 15 students in AY 2009. Based on this anticipated increase in enrollment, the number of graduates each year is expected to increase from 2 (current average) to 6 student per year in AY 2009, 20 per year in AY 2012, and then stabilize at 20 graduates per year for program years 5 to 20.

Describe **Research** opportunities:
Through internship experiences, students will be able to develop independent study and senior thesis research projects. Through these experiential learning initiatives, students will be paired with relevant faculty members and their graduate students who will provide mentoring through the process of project development, implementation, and sample and data analysis. Students will also have an opportunity to present their research findings at scientific meetings as posters or oral presentations and, potentially, publish these results in the peer-reviewed literature.

An additional step in our implementation of the new degree program that is critical will be the establishment of an effective internship program that represents a partnership between the student, the university, and the company or agency to provide both experience and education to the students in our program. An internship is a three-way cooperative venture among an employer, the university, and a student. Participating employers gain a high quality, enthusiastic employee and a cost-effective means of recruiting and training potential employees. The students gain real-world experience and the university receives credit for instruction. If matched properly, the internship is a win-win-win proposition.

Describe Fiscal Plan for development and implementation:
The SFOS has received a $5 million grant from the Rasmuson Foundation with a $5 million match from UA Statewide. These funds will be used over the next six (6) years to hire new faculty, renovate teaching classrooms and laboratories, purchase field and laboratory equipment, recruit and retain students through scholarships and other initiatives, and meet other teaching needs associated with the delivery of the fisheries program.

A total of $500,000 has been allocated by UAF to SFOS to develop and refurbish teaching classrooms and laboratories. To date, both classrooms in the O'Neill Building (rooms 201 and 214) have been completed. Room 214 has been outfitted with video conference equipment and is a functional teaching room that can hold up to 20 students. Room 201 will be outfitted with its video conference equipment by the end of 2007. This room can hold up to 50 students and will

also serve in the capacity as a model “Smart” classroom. Offices for three of the new fisheries faculty in O’Neill Building have been completed and two of these offices are currently occupied. A five-room laboratory complex in the Arctic Health Research Building is slated to be refurbished during winter and spring of 2008 and available for use for the fall 2008 semester. The Lena Point facility, which houses SFOS faculty, staff, and students in Juneau, will be completed in fall 2008. This facility will have a number of teaching classrooms and laboratories, and teaching rooms will be outfitted with video-conference equipment. Finally, SFOS teaching facilities in Seward and Kodiak will also be outfitted with video-conference equipment for distance delivery.

Five new faculty members in Fisheries will be hired in SFOS prior to the start of the fall 2008 semester. In addition, two faculty members (Amanda Rosenberger and Trent Sutton) have already been hired in Fisheries in support of this program. Further, there will be three additional hires in Oceanography and these positions will serve to interface the Fisheries and Ocean Observing programs. One of our new faculty members (Trent Sutton) has been designated as the Undergraduate Fisheries Coordinator with the responsibility for overseeing the development and maintenance of this program. In several years, a distinguished visiting professor will be brought in to Fairbanks or Juneau to interact with our faculty and students to broaden the program.

In order to make this degree program accessible at other UAF facilities, UA campuses, and rural communities, distance-learning equipment has been or will be upgraded at all SFOS locations to allow faculty at any location to deliver instruction at any other location. A new high-definition distance learning system will be used to assure the best quality communication. Desktop computers will also be purchased for students at UAF campuses in Fairbanks and Juneau so that they have access to the computational capabilities needed for some of the classes. Instructional field and laboratory equipment will be upgraded to assure that students have access to the top-of-the-line equipment available at other institutions. Funds to cover these costs have been provided by the Rasmuson Foundation.

Brief Statement of the Proposed Minor in Fisheries Program

1. **Overview:**
The Minor in Fisheries will be administered by the Fisheries Division in the SFOS. This minor will not be available for undergraduate students enrolled in the Bachelor of Science in Fisheries or Bachelor of Arts in Fisheries degree programs. Instead, the minor outlined in this proposal will only be available to students in non-fisheries degree programs. The minor, as outlined in this proposal will consist two core courses (6 credits) and two fisheries course requirements (6 credits). In addition, students will need to choose a minimum of one class (3 credits) from one of the following three concentration areas: fisheries science, fisheries business administration and economics, and fisheries policy and rural development. As a result, a total of 15 credits will be required for the Minor in Fisheries.

2. Objectives:

The objective of this proposed Minor in Fisheries degree program is to provide students with the knowledge base, skill sets, and hands-on experience which will augment their educational experience at the University of Alaska Fairbanks (UAF). This minor will strengthen the abilities of UAF graduates to lead and effectively contribute to the management, research, and administration of the fishing and seafood processing industries in Alaska.

3. Career Opportunities:

Undergraduates that have completed the Minor in Fisheries degree program would be competitive for a wide variety of agency and organization positions, particularly within the state of Alaska. For example, graduates would be qualified to work for traditional fisheries governmental agencies, such as the Alaska Department of Fish and Game, U.S. Fish and Wildlife Service, U.S. Forest Service, or Bureau of Land Management in the areas of fisheries research and management business administration, policy development, fisheries education and outreach, or as social scientists. Alaska Native Organizations, such as the Association of Village Partnerships, Bristol Bay Native Association, Tanana Chiefs Conference, or Kuskokwim Native Association, would want to hire these students in the same capacity, as well from the standpoint of rural community development. Fishing organizations, such as the six (6) CDQ (Community Development Quota) programs in Alaska, would also hire students in the aforementioned areas as well as in fisheries quota management. Relevant organizations include the Yukon Delta Fisheries Development Association, Norton Sound Economic Development Corporation, and Aleutian Pribilof Island Community Development Association. Private non-profit salmon hatchery corporations, including the Prince William Sound Aquaculture Corporation, Cook Inlet Aquaculture Association, and Kodiak Regional Aquaculture Association, would be interested in hiring students to serve as hatchery managers and outreach specialists in their respective communities. Finally, the Alaskan seafood processing industry, the largest private-sector employer in the state, would want to hire students with a Minor in Fisheries with expertise in accounting, finance, marketing, organizational management, and other areas of business administration to help run their organization. Peter Pan Seafoods, Ocean Beauty Seafoods, and Icicle Seafoods are businesses that have expressed interest in this program. Through the proposed Minor in Fisheries, we will prepare students for these job opportunities by providing valuable, practical experience, individualized instruction and on-the-job training, application of classroom theories in the real world, and networking with people in the chosen career field. These attributes will better prepare students for post-graduation employment and, consequently lead to a higher employability within the fisheries profession. Not only will our students be prepared for the specific requirements associated with the agencies and organizations listed above, but they would also be well qualified for similar jobs throughout North American through the unique program that we propose to deliver.

Proposed Catalog Layout:

Minor

1. Students must take the following two courses (6 credits):
   FISH 101 Introduction to Fisheries or NRM 101 Natural Resources Conservation and Policy.....3
   FISH 288 Marine and Freshwater Fishes of Alaska.....3

2. Students must take at least 6 credit hours from the following list of courses:
   FISH 261 Introduction to Fisheries Utilization… 3
   FISH 336 Introduction to Aquaculture.....3
   FISH 421 Fish Population Dynamics.....4
   FISH 425 Fish Ecology.....3
   FISH 436 Salmon Culture.....3
   FISH 487 Fisheries Management.....3

3. Students may take at least 3 credit hours from one of the following concentrations:

   Fisheries Science
   BIOL 305 Invertebrate Zoology.....5
   BIOL 310 Animal Physiology.....3
   BIOL 328 Biology of Marine Organisms.....3
   BIOL 441 Animal Behavior.....3

* Rasmuson Foundation funding and UAF match over 5 years (funding began Jan. 1, 2007).

University of Alaska Board of Regents
Program Approval Summary Form
Requirements:

MAU: UAF
Title: Minor in Fisheries
Target admission date: Fall 2008

How does the program relate to the **Education** mission of the University of Alaska and the MAU?:

Over the past two years, SFOS faculty members have surveyed the Alaskan fishing industry and its regulators to determine how our fisheries program can be broadened to serve a larger sector of Alaska's fishing community (see Appendix 3 for survey questionnaire). Faculty members in SFOS have visited fishing companies, seafood processors, and industry regulators to gather standardized information about industry needs and potential areas for growth. Our Marine Advisory Program faculty (in Unalaska, Anchorage, Bethel, Sitka, Homer, Cordova, Dillingham, Petersburg, Kodiak, and Ketchikan) has organized meetings to determine the specific needs of Alaska's coastal communities. We have also completed a written survey of 244 individuals and groups involved in Alaska's fishing industry. The information acquired from these meetings, visits, and surveys has been compiled and was used to formulate a new Minor in Fisheries curriculum.

Alaska Sea Grant, a unit within SFOS, conducted a similar survey of 1,000 Alaskans while formulating their strategic plan in 2006. Their assistance in the survey process has been beneficial. In addition, we have sought input from the UAA Institute for Social and Economic Research (ISER) on how to structure the survey document to be most effective. As a consequence, we feel that the survey results, which strongly guided development of the degree program presented in this proposal, accurately reflected the fishing and seafood industry needs in Alaska.

To date, there has been no formalized degree program that has been formulated to address the needs of a liberal arts degree in fisheries. As a result, fisheries industry professionals in Alaska have had a primarily science degree out of a Bachelors of Science program (such as the B.S degree in Fisheries offered by UAF SFOS) or have a primarily business, political science, social science, or anthropology degree out of a Bachelor of Arts program. Our proposed Minor in Fisheries allows students to choose among three tracks, all of which will provide a foundation in fisheries sciences. These three tracks will allow students to specialize in fisheries science, business administration, or policy as it relates to fisheries and aquatic sciences.

What **State Needs** are met by this program?:

Alaska's fisheries are entering a period of rapid change. Climate change influences the abundance and dynamics of fish stocks. Institutional changes continue to alter the structure and function of industry by promoting the emergence of powerful industrial firms and Alaska Native organizations as dominant sectors in the fishing industry. Legal protections for threatened and endangered species and essential habitats and the development of new ecosystem-based management plans are continuously changing Alaska's fisheries.

The fisheries curriculum offered by the University of Alaska Fairbanks through the School of Fisheries and Ocean Sciences must meet the challenges of these changes. The health of Alaska's biologically and ecologically sustainable fisheries, the growth and development of Alaska's economy, and the persistence of traditional subsistence communities require that we train and educate scientists and managers with the knowledge and experience to confront these challenges.

The objective of this proposed Minor in Fisheries degree program is to provide students with the knowledge base, skill sets, and hands-on experience which will augment their educational experience at

the University of Alaska Fairbanks (UAF). This minor will strengthen the abilities of UAF graduates to lead and effectively contribute to the management, research, and administration of the fishing and seafood processing industries in Alaska.

What are the **Student** opportunities and outcomes? Enrollment projections?:
Over the past 10 years, the annual undergraduate enrollment in the Bachelor of Science in Fisheries program has ranged from 18 to 29 students. However, over the past five years, student enrollment in this program has averaged 25 students. There has been recent interest expressed by students at UAF in Natural Resources Management, Biology and Wildlife, and Business Administration for a Minor in Fisheries degree program. Given the revision to the B.S. program and the new B.A. degree, the undergraduate enrollment in Fisheries is expected to increase which will help to attract students form other programs to this minor. Based on this anticipated increase in enrollment, the number of graduates each year is expected to increase from 5 to 8 student per year in AY 2009, 10 per year in AY 2012, and then stabilize at 10 graduates per year for program years 5 to 20.

The most important measure of success is the number of students who complete the minor. With the number of faculty and resources anticipated during the course of this program, we consider 10 students to complete the Minor in Fisheries each year at year ten to be the sustainable level of productivity for the next 20 years.

Describe **Research** opportunities:
There is no research component associated with the Minor in Fisheries. However, students would become exposed to research projects through fisheries classes that they might take in this degree program. In turn, this knowledge base may be used by them in the future if/when they develop research projects related to fisheries issues.

Describe Fiscal Plan for development and implementation:
The SFOS has received a $5 million grant from the Rasmuson Foundation with a $5 million match from UA Statewide. These funds will be used over the next six (6) years to hire new faculty, renovate teaching classrooms and laboratories, purchase field and laboratory equipment, recruit and retain students through scholarships and other initiatives, and meet other teaching needs associated with the delivery of the fisheries program.

A total of $500,000 has been allocated by UAF to SFOS to develop and refurbish teaching classrooms and laboratories. To date, both classrooms in the O'Neill Building (rooms 201 and 214) have been completed. Room 214 has been outfitted with video conference equipment and is a functional teaching room that can hold up to 20 students. Room 201 will be outfitted with its video conference equipment by the end of 2007. This room can hold up to 50 students and will also serve in the capacity as a model "Smart" classroom. Offices for three of the new fisheries faculty in O'Neill Building have been completed and two of these offices are currently occupied. A five-room laboratory complex in the Arctic Health Research Building is slated to be refurbished during winter and spring of 2008 and available for use for the fall 2008 semester. The Lena Point facility, which houses SFOS faculty, staff, and students in Juneau, will be completed in fall 2008. This facility will have a number of teaching classrooms and laboratories, and teaching rooms will be outfitted with video-conference equipment. Finally, SFOS teaching facilities in Seward and Kodiak will also be outfitted with video-conference equipment for distance delivery.

Five new faculty members in Fisheries will be hired in SFOS prior to the start of the fall 2008 semester. In addition, two faculty members (Amanda Rosenberger and Trent Sutton) have already been hired in Fisheries in support of this program. Further, there will be three additional hires in Oceanography and these positions will serve to interface the Fisheries and Ocean Observing programs. One of our new faculty members (Trent Sutton) has been designated as the Undergraduate Fisheries Coordinator with the responsibility for overseeing the development and maintenance of this program. In several years, a distinguished visiting professor will be brought in to Fairbanks or Juneau to interact with our faculty and

students to broaden the program.

In order to make this degree program accessible at other UAF facilities, UA campuses, and rural communities, distance-learning equipment has been or will be upgraded at all SFOS locations to allow faculty at any location to deliver instruction at any other location. A new high-definition distance learning system will be used to assure the best quality communication. Desktop computers will also be purchased for students at UAF campuses in Fairbanks and Juneau so that they have access to the computational capabilities needed for some of the classes. Instructional field and laboratory equipment will be upgraded to assure that students have access to the top-of-the-line equipment available at other institutions. Funds to cover these costs have been provided by the Rasmuson Foundation.

The UAF Faculty Senate passed the following at Meeting #150 on April 7, 2008:

MOTION:

The UAF Faculty Senate moves to confirm the nomination of Rainer Newberry for the 2008 Outstanding Senator of the Year Award.

EFFECTIVE: Immediately

RATIONALE: The Outstanding Senator of the Year Award Screening Committee has carefully reviewed the 2008 nomination of Rainer Newberry. The committee has concluded that Professor Newberry is a well-deserving candidate for this award. Procedure stipulates that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting of the Senate.

Masters of Natural Resource Management and Geography Program Goals:

The goals of the MNRMG degree are to provide coursework and training for (1) students who are currently working in or wish to work in the NRM/Geography (NRM/G) fields in a professional capacity, but who lack specific training or an appropriate undergraduate degree; (2) students seeking additional skills or advanced training in NRM/G in order to enhance their professional effectiveness and/or advance in their professional careers; and (3) students who wish to pursue the NRM/Peace Corp Masters program and focus on applying existing NRM/G technologies and knowledge in the context of the developing world and in conjunction with their Peace Corps assignment.

Because of the diversity and broad scope of the Natural Resources Management and Geography fields, the objectives of this degree will be tailored to each individual student in a manner similar to our current MS degree. The graduate committee will be the main body that assesses the student's background, individual deficiencies, and specific coursework needs. There will, however, be a minimal number of common courses that all will take, plus a requirement for an individual academic project addressing some existing NRM/G problem or issue. While not requiring scientific experimentation or sampling or the gathering of primary data, the work is expected to involve critical reflection, empirical inquiry, and intellectual honesty. A written product (opus) and an oral presentation demonstrating sound scholarship will be required. Final acceptance of the opus will be by the student's committee and the Associate Dean of SNRAS. It will not require review by the graduate school.

Natural Resources Management and Geography
School of Natural Resources and Agricultural Sciences

Master's of Natural Resources Management and Geography (MNRMG)
Minimum Requirements for the Degree: 35 credits
Natural resources management is making and implementing decisions to develop, maintain or protect ecosystems to meet human needs and values. The core natural resources management curriculum provides students with a broad education in the various natural resources and their related applied fields. Programs can be tailored to enhance a student's depth or breadth in a given field of interest.
The Master's Natural Resources Management and Geography is designed for those planning a management career involving largely non-research responsibilities such as general planning and administration, communication and public information, and impact assessment. Because of the diversity and broad scope of the Natural Resources Management and Geography fields, the objectives of this degree will be tailored to each individual student. The graduate committee will be the main body that assesses the student's background, individual deficiencies, and specific coursework needs. There will, however, be a minimal number of common courses that all will take, plus a requirement for an individual academic project addressing some existing NRM/G problem or issue. While not requiring scientific experimentation or sampling or the gathering of primary data, the work is expected to involve critical reflection, empirical inquiry, and intellectual honesty. A written product (opus) and an oral presentation demonstrating sound scholarship will be required. Final acceptance of the opus will be by the student's committee and the Associate Dean of SNRAS.

Graduate Program – MNRMG Degree

1. Complete the general university requirements
2. Complete the master's degree requirements
3. Complete or have prior general familiarity with the major resource fields through prior coursework or experience. Deficiencies will be identified by the student's committee. Course requirements in any one field will depend on the needs of the candidate and the capabilities of the university.
4. Complete or have prior course work within the program in computer science, statistical methods and basic economics. The student's committee will decide how any identified deficiencies in these areas will be met.
5. Complete the following requirements
   i. Courses (All of the required courses are currently distance delivered).

NRM 601--Research Methods in Natural Resources--2 credits
or an approved research methods course*
NRM 692--Graduate Seminar--3 credits
NRM 698--Non-thesis research/project--6 credits
Statistics course at the 400-level or above**--3 credits
Additional approved courses as needed to sum to a total of 35 credits (these courses will be approved by the student's committee and SNRAS dean). Up to 9 of these credits may be 400 level courses.
Students who have deficiencies in natural resources, geography, natural sciences, economics, or related fields, as determined by the student's committee, may be required to take courses to

fulfill these deficiencies. These credits will not count towards the 35 credits required for the degree.

ii. Complete and successfully defend opus

6. Minimum credits required: 35

**Requirements may be met with a research methods course in a discipline related to natural resources management or geography*
***Requirements may be met with a statistics course in mathematical sciences or in a discipline related to natural resources management or geography*

Requirements:
1. 2 pages or less
2. Must be a stand-alone document

MAU: UAF
Title: Master's Degree in Natural Resources Management and Geography

Target admission date: Fall 2008

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

The development of this program was suggested and promoted by the faculty of the School of Natural Resources and Agricultural Sciences in response to a growing recognition of the inadequacies of the non-thesis option of the natural resources management M.S. program. Thus, a committee was formed to develop the program, but with input from all faculty in the school. An external survey was administered to assess need for the program.

This program is fully compatible with UAA's and UAF's missions as it is designed to enrich Alaska through teaching and research as it relates to development and conservation of Alaska's natural resources and it advances and disseminates knowledge in Alaska and the Circumpolar North by enhancing student's knowledge to in the management of Alaska's natural resources. This in turn will result in more opportunities for career advancement and will improve management of Alaska's natural resources.

What **State Needs** met by this program.

Many of the practitioners in natural resource public agencies and private firms in Alaska were trained outside of Alaska and many have degrees not closely related to natural resources or geography. Because of this, their knowledge of Alaska and its resources is often limited and their opportunities for advancement in their careers are limited. This degree option will allow students to become well versed in the latest knowledge and in cutting edge techniques for managing Alaska's resources and will enhance opportunities for career advancement. Thus, it will enhance work-force development in Alaska.

What are the **Student** opportunities and outcomes? Enrollment projections?

This degree program will target students who are currently working in or wish to work in natural resources/geography fields but who lack specific training or an appropriate undergraduate degree and students seeking advanced training in order to advance their professional effectiveness or advance their professional careers. It will replace the current non-thesis option of the NRM M.S. degree. A recent web survey indicated more than 50 people currently employed in natural resources and geography fields in Alaska are likely to

pursue this degree, with most indicating they would use it to advance their current career and to increase and update their technical skills.

We anticipate 5-10 students enrolled in the program each year.

Describe **Research** opportunities:

While students in this program will not be expected to conduct primary research requiring scientific sampling or experimentation, each student will be required to complete a project in which the student addresses some existing natural resources management or geography issue or problem and will therefore require background research and problem solving by the student. It will also enhance students' abilities to evaluate and conduct research in their profession.

Describe Fiscal Plan for development and implementation:
*Identify funding requirement, sources and plan to generate revenue and meet identified costs to include:

The degree program will replace a current degree program (non-thesis option of M.S. in NRM) and will use existing courses and thus will not require any new resources. Thus, the only anticipated change will be an increase in enrollment, and may require some changes in faculty workloads to allow for increased demands for graduate student advising.

The UAF Faculty Senate passed the following at Meeting #149 on March 3, 2008:

ORIGINAL

MOTION:
=======

The UAF Faculty Senate moves to approve an Associate of Science degree program.

EFFECTIVE: Fall 2008 and/or
Upon Board of Regents approval.

Brief Statement of the Proposed Program

Overview: An increasing number of students are seeking degrees in the sciences. Many of these students, however, have limited high school experience with and preparation for the rigor and investigation required by science courses. In addition, many of the potential students have been out of school for several years and their learning skills may be dormant. Finally, many students are interested in acquiring specific vocationally related science skills that they can immediately use while enroute to a baccalaureate degree. According to an October 2005 report entitled "A Profile of the American High School Senior in 2004: A First Look" released by the National Center for Educational Statistics (NCES) a third of the students who planned to get a four-year degree had not mastered "simple problem solving, requiring the understanding of low-level mathematics concepts." And almost one-half of those who anticipate getting a graduate or professional degree had only "an understanding of intermediate-level mathematical concepts" or "the ability to formulate multistep solutions to word problems." (http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2006348) This proposed AS degree

provides the preparation needed to enter into a science-related baccalaureate while gaining the basic academic preparation and sought after vocationally related skills. The Associate of Science degree will be offered through the Interior-Aleutians Campus of the College of Rural and Community Development (CRCD) and is designed to allow students to select a concentration area in a science related field.

Objectives:

- To prepare students for Baccalaureate of Science coursework.
- To provide an articulated pathway for science-related certificate students to progress to the Baccalaureate of Science.
- To prepare students for employment in science-related fields.

Proposed Catalog Description
Associate of Science Requirements

The associate of science degree represents the completion of a broad-based course of study with an emphasis in the sciences. This degree may serve as a stepping-stone to a science-related baccalaureate program. You may earn only one AS degree.

All credits for the AS degree must be at the 100 or above with 20 credits at the 200 level or above. Variation in credits would depend on the number of credits brought in via the Area of Concentration.

1. Complete the general university requirements (page ___).
2. Complete the following general AS requirements:

Communication 9
ENGL 111X -- Introduction to Academic Writing.....3
ENGL 213X -.....3
COMM 131X/141X -- 3

Humanities and Social Sciences 15
ANTH/SOC 100X – Individual, Society and Culture.....3
ECON or PS 100X – Political Economy.....3
HIST 100X – Modern World History.....3
ENGL/FL 200X – World Literature.....3
Complete on of the following 3 courses:
ART/MUS/THR 200X – Aesthetic Appreciation 3
HUM 201X – Unity in the Arts.....3
ANS 202X – Aesthetic Appreciation of Alaskan Native Performance.....3
Two semester length courses in a single Alaska Native language or other non-English language or three semester length courses (9 credits) in American Sign Language taken at the university level may substitute for two of the courses above.

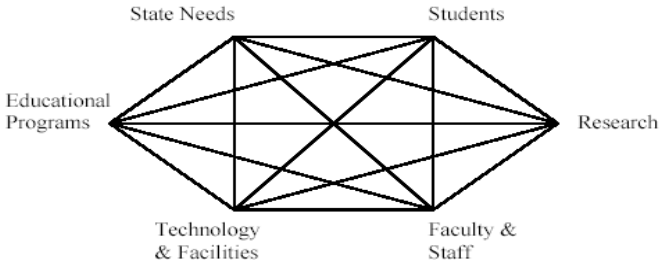
Mathematics
Math 107X -- ..... 4 or
Math 200X or 272X.....4

Natural Sciences 16
1) Complete any two 4 credit science courses from Baccalaureate core
2) Complete a one year sequence in one natural science beyond the baccalaureate core.
3) The total natural science courses used to satisfy this requirement shall represent at least two different natural sciences.

Library and Information Research 0-1

Concentration Area
Complete Concentration Area of at least 15 credits from a science-focused area such as Veterinary Science, General Science, and High Latitude Range Management, or other Bachelor of Science degree areas as determined in coordination with your advisor.

4. Minimum credits required.....60



Note: Students intending on pursuing a Baccalaureate of Science degree should plan on completing a calculus course as part of the Math requirements.

RESOURCE COMMITMENT TO THE PROPOSED DEGREE PROGRAM

Signature_____ Date _____

Executive Dean of College Proposing the New Degree Program

University of Alaska Board of Regents
Program Approval Summary Form

MAU: UAF
Title: Associate of Science
Target admission date: Fall 2008

How does the program relate to the
Education Mission of the University of Alaska and the MAU?
The Associate of Science Program was created by the Interior-Aleutians Campus, in cooperation with employers and educators, and is focused on preparing students for entry into science-related employment and continued baccalaureate science-related education. This program is focused on preparing students for immediate jobs and for subsequent education.

The Associate of Science degree program provides students with quality academic instruction needed for baccalaureate and other advanced degrees in the sciences while providing an articulated pathway for certificate students to progress to the Baccalaureate of Science as well as to qualify program graduates for employment in science-related fields.

a) Objectives

- To contribute to an educated Alaskan workforce by providing coursework relevant to student science-focused degree goals.
- To reach out to and recruit prospective students and listen to rural and urban communities and employers, linking learning with real life.
- To prepare students for baccalaureate or other course work in the sciences.
-

This program relates to and supports the goals of the UAF 2005 Strategic Plan by:

- Serving as the premiere higher educational center for Alaska Natives by both increasing the number of Alaska Native students at UAF and by increasing the proportion of degrees awarded to Alaska native students
- Providing high quality undergraduate education for traditional and non-traditional students by increasing the numbers of students who enroll in and successfully complete their 100-level and above coursework and degrees
- Forming active collaborations with communities, organizations, businesses and government to meet identified state, national and global needs through increased numbers of students graduating with degrees in science related fields

What **State Needs** met by this program.
Immediate employment market needs relate to those concentration areas which students choose. Responses to the Veterinarian Technicians Program survey, for example, show the potential for 36-42 jobs in the 39 villages surveyed. These jobs include veterinary technician, tribal resource management, wildlife disease inspection, fish and game personnel and public health. In addition, outside employment (non- village) is readily available for licensed veterinary technicians, medical illustrators, or public health workers.

State statistics

State statistics from the Department of Labor substantiate workforce and skill development needs in rural Alaska. Figures provided by the Department of Labor Website (http://almis.labor.state.ak.us) project, by 2012, a 12.1% increase in jobs in Professional,

Scientific, and Technical Services, a 50% increase in jobs in Waste Management and Remediation, a 32.2% increase in jobs in Health and Social Services, and a 57.1% increase in jobs in the Mining industry. The Associate of Science degree and its associated concentration area will either prepare the student to directly enter this work force or will prepare the student for the baccalaureate degree which will provide entry to these jobs.

What are the **Student** opportunities and outcomes? Enrollment projections?
The Associate of Science degree will provide the student the opportunity to develop the skills and training necessary either for immediate employment in a variety of science-related fields or for entry into a science-related baccalaureate discipline.

Enrollment Estimates University-wide:

Year	Headcount*
08-09	25
09-10	40
10-11	65
11-12	90
12-13	110

*Includes both full and part time

Describe **Research** opportunities:
While research is not a primary focus of this program, it is a unique model which will be documented and shared throughout the academic community. This program will produce a wealth of information in student outcomes assessments, changes in academic programs and teaching style, and other information relating to workforce and skill development in rural Alaska. This Associate of Science program will allow for increased scientific inquiry and research opportunities on a local basis. Stronger collaboration between the scientific community and local entities should result from this program.

Describe Fiscal Plan for development and implementation:
*Indirect costs to other units (e.g. GERs)
Program development is supported by the United States Department of Agriculture Alaska Native/Native Hawaiian (AN/NH) Serving Institutions Education Grants program. This project addresses the USDA goal of increasing the number of AN/NHs engaged in USDA careers. These careers include, among others, increasing the number of students entering Associates of Sciences programs that articulate into Bachelor and Masters of Science degrees.

Because USDA's interest is, ultimately, in bringing more AN/NHs into USDA careers at the bachelors and masters level, the grant will fund the current effort until at least 2010. USDA support currently stands at one half-time science faculty member plus funding for a total of 12 Alaska Native students to complete the Associate of Science program within approximately three years. One fund 1 faculty member developed the Associate of Science degree contributing a total of $10,747 in fund 1 dollars. Another $42,650 in salaries and benefits will come from the grant for support staff (program assistant, web technician and media technician).

While the Interior-Aleutians Campus has developed this new program, other fund 1 faculty and staff from all campuses, both urban and rural, will potentially be involved with this program. The program will generate $62,700 per year with a minimum of 15 full-time

students. As student participation increases, tuition income will increase, gradually replacing grant funding.

The primary faculty are already employees of the University, current faculty of the College of Rural and Community Development as will Fairbanks-based UAF faculty. Fairbanks based classes will show a slight increase in student registrations.

Office and classroom space will be provided by existing University urban and rural campuses throughout Alaska. Some of the rural communities with available facilities include Galena, Fort Yukon, Tok, Nenana, McGrath, Unalaska, Dillingham, Bethel, Nome, Kotzebue, Barrow, and Sitka. In villages without a University facility, training space can be found in the private sector and reasonably supported by tuition fees. No new facilities or space will be required.

Brief Statement of the Proposed Program
Ph.D., Natural Resources and Sustainability

Alaska and the Circumpolar North face increasingly complex challenges in use and management of natural resources. These challenges require the education and training of high-level professionals with skills for considering the interaction of social and natural systems and informing the development and implementation of practices and policies that enhance natural resource management. The proposed Ph.D. in Natural Resources and Sustainability (NRS) at the University of Alaska Fairbanks would prepare future leaders as academic researchers, educators, agency and industry professionals and analysts of non-governmental organizations and communities for careers at the frontiers of science in the management of natural resources and environment. The program objectives and its curriculum center around three thematic areas of study, i) resource economics, ii)

resource policy and sustainability science, iii) forest and agricultural sciences. In the proposed Ph.D. program, each student draws on a common set of core courses, and with his/her graduate committee, develops a program of coursework and research that produces a unique intellectual contribution to the applied field of Natural Resource and Sustainability. Students elect to focus on one of the three thematic areas or they choose to integrate themes to develop their areas of knowledge and dissertation research.

The proposed Ph.D. program builds on existing resources at UAF and directly complements and supports the mission of several funded university and national initiatives. The Ph.D. program would require the addition of only one new course and no new faculty. It would complement the Resilience and Adaptation Program at UAF, which is funded by NSF -IGERT and focused on Ph.D. education and training in the integration of social and natural science to address questions of sustainability in the North. Students of the program would be eligible for support through the newly funded EPSCoR (Phase 3) "Resilience and Vulnerability of a Rapidly Changing North," which is now being launched and for the next three years will fund approximately 22 graduate students per year. The EPSCoR program emphasis is on building the research capacity at UA to integrate social, biological, and physical sciences. Other initiatives and current research projects relevant to this Ph.D. program include The Alaska Center for Climate Assessment and Policy, part of NOAA's national Regional Integrated Science Assessment program; the newly funded Scenarios Network for Alaska Planning project at UAF, which is funded by UA and part of a circumpolar IPY program, and the Center for Global Change at IARC, which funds graduate student research on global change. Our research indicates that at least 37 current UAF undergraduates would consider applying for this program if it were offered and, at least 30 current UAF graduate students, most in the UAF Interdisciplinary Ph.D. Studies program, would consider transferring into this program if it were available. Likewise 46 current UAF graduate students indicated that they would have considered applying had the program been available at the time of their application. The program therefore builds on the existing strengths of the university to fill a needed niche in Ph.D. studies.

Program objectives are:

1. Educate and train scholars at the Ph.D. level with in-depth and integrated knowledge in research and management of natural resources.
2. Develop leaders who will direct the use and management of natural resources in Alaska and other northern latitude settings.
3. Create a nationally recognized program in the natural resources and sustainability that will contribute to science and inform public decisions.
4. Contribute to the sustainable development of Alaska's rural and urban environments.

Preliminary Catalog *Sample Course of Study*

Program in Natural Resources and Sustainability
School of Management, and
School of Natural Resources and Agricultural Sciences

Ph.D. Degree
Minimum requirement for Degree: 18 thesis credits

The joint Ph.D. Program in Natural Resources and Sustainability at the University of Alaska Fairbanks prepares future leaders as academic researchers, agency professionals and analysts of non-governmental organizations and communities for careers at the frontiers of science in the management of natural resources and environment.

Those who seek to explore and understand natural resource management systems need both a well defined skill set and a clear understanding of how specific problems are linked to broader cultural, ecological, and geopolitical contexts. Thus, the study of Natural Resources and Sustainability encompasses a spectrum of topics. In the UAF Ph.D. in NRS, we build on the existing strengths of SNRAS and SOM faculty members to educate students in specific areas, while training them to be conversant in the broader range of relevant topic areas.

The program objectives and its curriculum center around three thematic areas of study, i) resource economics, ii) resource policy and sustainability science, iii) forest and agricultural sciences. In the proposed Ph.D. program, each student draws on a common set of core courses, and with his/her graduate committee, develops a program of coursework and research that produces a unique intellectual contribution to the applied field of Natural Resource and Sustainability. Students elect to focus on one of the three thematic areas or they choose to integrate foci to develop their areas of knowledge and dissertation research.

Graduate Program—Ph.D.

Complete the admission process including the following:

1. Complete the general university requirements as listed in the UAF catalog
2. Complete the Ph.D. degree requirements as listed in the UAF catalog
3. Complete coursework in thematic area(s) as determined by the advisory committee.
4. Required and Elective Elements of the Plan of Study
    a. Coursework: Students must complete the following core course requirements: NRM 647, NRM 649, and two semesters NRM 697.
    b. Outreach activity of one annual public presentation.
    c. Advancement to Candidacy occurs when the student demonstrates mastery in understanding of the problems and theories of natural resource management and sustainability and in-depth knowledge of the student's dissertation research topic area. Requirements for advancement to candidacy are determined by the academic committee of the student, and shall be consistent with the candidacy requirements for Ph.D. studies at UAF. The basis of the evaluation will be written and oral comprehensive exams.

d. Dissertation Defense Seminar
e. Dissertation Defense Examination
f. Doctoral Dissertation

Notes on Resource Commitment

The School of Natural Resources and Agricultural Sciences and the School of Management are committed to delivering the proposed doctorate program in Natural Resources and Sustainability at zero additional cost to the two schools. This will be accomplished by reallocating existing resources within the Schools, including resources that are already committed through our graduate programs, and by utilizing externally sponsored research projects to fund additional requirements associated with student graduate work. Below are specific notes on the Resource Commitment form categories.

Regular Faculty: The School of Management will be offering one additional 3-unit course that is currently on the books but has never been taught (Econ 602 – Economic Modeling). The Economics Program will reallocate existing faculties time to teach this course. Thus, the 1/10 time to teach this course ($9,926 salary and benefits) will be a workload reallocation.

The School of Natural Resources and Agricultural Sciences and the School of Management will jointly teach one additional 1-unit course (NRM/Econ 697 – SNRES Seminar). The Natural Resources Management and Economics programs will reallocate existing faculties' time to teach this course. Thus, the 1/30 time to teach this course ($3,309 salary and benefits) will be a workload reallocation.

Instructional Facilities: For the two new courses there will be a need for approximately a 400 sq ft. classroom per course. The classroom used may replace one in another course or be offered during a non-peak time, such as evenings. Classroom requirements should not be a burden to UAF and most likely will be a reallocation of space.

Office Space: We estimated 1,392 sq ft. for students based on an assumption of a sustainable 12 students in the program using 116 sq ft. of office space. This space will be reallocated from existing uses.

Computers: As both schools upgrade their faculty computers the replaced computers will be made available for the new students. Other computer equipment will come from sponsored research.

Support Staff: The main support staff will be housed in the School of Natural Resources and Agricultural Sciences. The Administrative Assistant for the Natural Resource Management program and the Administrative Assistant for UA Geography program will have 1/10th of their annual time reallocated to provide administrative services to the NRS Ph.D. program (e.g., monitor and track student applications, coordinate academic paperwork, etc…). The Student Coordinator for SNRAS will have 1/10th of their time reallocated to provided student recruitment and support services. The expense listed, $25,295, is calculated as the sum total of this 1/10th annual time reallocation for each of the current support staff based on their current salary and benefits.

Supplies: Supplies for students will be negligible. Any large supply needs will come from sponsored research.

Travel: Student travel will come from sponsored research or UAF travel grants.

University of Alaska Board of Regents
Program Approval Summary Form
MAU: UAF
Title: Ph.D. Natural Resources and Sustainability
Target admission date: Fall 2008

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

The Ph.D. Program in Natural Resources and Sustainability (NRS) directly services the educational mission of the University of Alaska Fairbanks. The UAF Vision Statement (Strategic Plan 2010) states that UAF will "Offer undergraduate and graduate education that takes advantage of our location in the Far North." This Ph.D. program focuses on the education of high-level professionals with skills for considering the interaction of social and natural systems and informing the development and implementation of practices and policies that enhance natural resource management with emphasis on Alaska and the Circumpolar North.

The University of Alaska Fairbanks is currently involved in several funded national initiatives that are relevant to the educational goals and objectives of the NRS Ph.D. program. The *Resilience and Adaptation Program* at UAF is focused on Ph.D. education and training in the integration of social and natural science to address questions of sustainability in the North. The NRS Ph.D. program would provide an important educational complement to the emphasis of the newly funded *EPSCoR* (Phase 3) on building the research capacity at UA to integrate social, biological, and physical sciences; The NRS Ph.D. program would also provide a key educational linkage to several other UAF initiatives and research projects including The Alaska Center for Climate Assessment and Policy, the newly funded Scenarios Network for Alaska Planning project at UAF, which is part of a circumpolar IPY program and the Center for Global Change at IARC, which funds graduate student research on global change.

What **State Needs** met by this program.

Alaska and the Circumpolar North face increasingly complex challenges in use and management of natural resources. These challenges require the education and training of high-level professionals with skills for considering the interaction of social and natural systems and informing the development and implementation of practices and policies that enhance natural resource management. The Ph.D. in Natural Resources and Sustainability at the University of Alaska Fairbanks would prepare future leaders as academic researchers, educators, agency and industry professionals and analysts of non-governmental organizations and communities for careers at the frontiers of science in the management of natural resources and environment.

What are the **Student** opportunities and outcomes? Enrollment projections?

Graduates electing a career in academics will find a range of faculty positions in schools of natural resource, ~~political sciences~~, resource economics, and environmental studies and sciences. These Ph.D.'s will also find an increasingly expanding number of research funding

opportunities related to integrated or interdisciplinary programs that explicitly link social, economic, and ecological dimensions. Several examples of this type of research currently exist through the National Science Foundation, and graduates of the program will be well positioned to serve as grant PIs. Those electing to pursue professional careers with government agencies, such as the National Park Service or the Alaska Department of Environmental Conservation, will find that their skills as applied resource management researchers will be in high demand as agencies address societal-ecological problems, such as the economic implications of climate change. Other professional tracks are available as well. There is currently a trend among nongovernmental organizations (i.e. non-profits) of Alaska and the US as a whole to build the organizational research capacity with internally hired Ph.D.'s. The Nature Conservancy, the Wilderness Society, and Audubon Society are examples of such organizations that currently employ research staff with Ph.D. training. These Ph.D.'s will also have ample opportunities to work as private consultants, especially given the need for rigorous analysis by private consultant firms that are hired to conduct environmental impact assessments. As well, the recent stated objective of the Alaska Federation of Natives board of directors to train more Alaskan Native Ph.D.'s reflects to the need for well-trained researchers to be staff organizations like the First Peoples Institute and Native profit and not-for-profit organizations. We anticipate that the demand for Ph.D.'s in the area of natural resources and sustainability will grow significantly as Alaska addresses future questions of sustainable development.

Targeted enrollment is five students per year. Total enrollment is seen as twenty students by year four of the program.

Describe **Research** opportunities:

The NRS Ph.D. Program is centered on training students in original research. The NRS Program will distinguish itself from other programs by emphasizing research focused on both disciplinary (e.g., forest ecology, resource economics) and interdisciplinary (e.g., reaching ecological and economic objectives via adaptive management) natural resource issues at high latitudes, focused primarily on Alaska. In so doing, the NRS Program will contribute directly to the research mission of the University of Alaska, particularly with respect to the following elements of the Vision Statement in the 2006 Strategic Plan:

- Spearhead integrated research, emphasizing our complex high latitude physical, biological and social systems
- Link research discoveries with teaching, service and community engagement
- Create innovative collaborations with communities, businesses and governments that meet state, national and global needs

Describe Fiscal Plan for development and implementation:

There are no new funds being sought for the program. Courses included in the program are currently being offered. Existing faculty and administrative staff will deliver and administrate the program. Students will be located in existing student office facilities at SOM and SNRAS.

The UAF Faculty Senate passed the following at Meeting #148 on February 4, 2008:

ORIGINAL

MOTION:
=======

The UAF Faculty Senate moves to amend the Mandatory Placement criteria for English and Mathematics (page 33 of the 2007-2008 UAF Catalog).

CAPS = Addition

[[ ]] = Deletion

ENGLISH AND MATHEMATICS

On the basis of test scores, you may be required to take developmental English and/or mathematics. These courses are designed to help you achieve competencies necessary to succeed in college-level courses. [[Generally,]] **Y**ou will be placed in [[developmental]] English **F111X** if your ACT English score is [[below]] 17 **OR ABOVE** (or **YOUR** SAT verbal score is [[below]] 430 **OR ABOVE, OR YOUR SCORE ON ANOTHER UNIVERSITY-APPROVED PLACEMENT TEST IS EQUIVALENT**). **HOWEVER, IF YOUR STANDARDIZED TEST SCORES ARE BELOW THESE MINIMUMS AND IF YOUR HIGH SCHOOL CUMULATIVE GPA IS 3.0 OR HIGHER, YOU MAY ENROLL IN ENGLISH WITH PERMISSION OF THE DIRECTOR OF COMPOSITION OR RURAL CAMPUS ENGLISH/HUMANITIES FACULTY.**

Mathematics course placement will vary according to the type of degree you are planning to pursue and the corresponding math course(s) needed (see the requirements for your degree program for more detail). ACT, SAT, COMPASS or ASSET test scores and your previous mathematical background are used to determine your math placement. Minimum test scores for placement into math courses are listed in Table 2 on the following page.

It is best to consult with your advisor or faculty in the English or math department(s) if you have questions regarding the appropriate course placement.

EFFECTIVE: Fall 2008

RATIONALE: If mandatory placement is implemented using current criteria, a significant number of students will be mistakenly sent to developmental English. Standardized test scores alone are not an indicator of how well a student will perform in the freshman level English course (English 111) at UAF. UAF PAIR data shows that in Fall, 2006, students

ORIGINAL

with standardized test scores of 17 or below on the ACT and 430 or below on the SAT received the following grades: F = 28%, D = 6 %, C = 13%, B = 20%, and A = 33%. Seventy-two percent of students with scores that would require developmental English according to current standardized test criteria passed English 111. This data should not come as a surprise. Many students who will not do well writing for an hour on a standardized test will do quite well, for example, on a research paper that requires extensive rewriting over a period of weeks or months. Adding the high school gpa as additional criteria by which students may enroll in 111 will help remedy the situation, although it will not completely solve the problem.

Implementation: It is understood that the Assistant Provost will work toward instituting a mechanism by which students with standardized test scores below the minimum required for placement in English 111 can be screened for high school gpa. In the interim, the Assistant Provost will inform all advisors to advise all students with test scores below the minimum and a gpa of 3.0 or higher that they may use permission forms to enter English 111.

Jon Gutt 2/4/08

President, UAF Faculty Senate Date

APPROVAL: Steve B Jones DATE: 2/12/08

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #148 on February 4, 2008:

ORIGINAL

MOTION:
=======

The UAF Faculty Senate moves to revise the Fresh Start policy (pages 25 and 28 of the 2007-08 UAF catalog) for returning students.

CAPS = Addition

[[ ]] = Deletion

Fresh Start for Returning Students
Fresh Start can offer a new beginning for students who performed poorly at UAF when enrolled at least two years ago. Those who withdrew from school or were dismissed for academic reasons may apply for readmission [[by disregarding]] **AND REQUEST TO DISREGARD** their entire prior academic record. Those who apply on this basis begin their college study anew with no credits attempted or earned, and no quality points reflected in future GPA calculations. Fresh Start may be used only once.

Fresh Start application forms are available at the Office of Admissions. Admission on this basis requires that at least two years have elapsed since the [[end]] **BEGINNING** of the last semester the applicant attended UAF [[full time]].

[[Prior academic records]] **ALL PRIOR COURSEWORK WILL** remain part of [[a]] **THE** student's overall academic record and appear on transcripts, but none of the previously earned credits can be used in a new program. These credits will be included only in GPA computations for graduation with honors (see Graduation with Honors, page 118). A student admitted under Fresh Start may be allowed advanced standing or a waiver of requirements just as any other student, but will not be allowed credit by exam for courses lost in Fresh Start.

EFFECTIVE: Fall 2008

RATIONALE: There are two issues that both appear in the following sentence: "At least two years must have elapsed since the END of the semester in which the applicant was last in FULL-TIME attendance." Institutional memory suggests the original intent of this policy was to accommodate students who got a rocky start at college, went away for a few years, then returned more mature and motivated to do well. As written now we commonly get requests from students who were disqualified two years ago but attended part time each semester since. We also get a lot of students who come in and say "My gpa is too low, I need to use Fresh Start to raise it so I can get financial aid." Thus, the "full-time" attendance issue is questioned. In addition, the "end" of the semester is typically confusing to students because this implies about 2 and 1/2 years must pass before

ORIGINAL

they can reapply using Fresh Start. A complete break from classes is supported by the registrar, admissions, RSS, and the Academic Advising Center.

Chancellor's Office

Dental Hygiene Program, Objectives, and Career Opportunities

The primary goal of the Dental Hygiene program is provide students with the knowledge and clinical skills required for entry-level positions as dental hygienists. The program goals are achieved by meeting or exceeding the requirements established by the Commission of Dental Accreditation. A successful graduate of the University of Alaska Fairbanks/ Tanana Valley Campus dental hygiene program will take and pass the required exams for licensure in the State of Alaska as established by the State of Alaska Board Dental Examiners. Those exams consist of the Dental Hygiene National Written Board, and the clinical and local anesthetic boards administered by the Western Regional Examining Board (WREB).

Career opportunities are strong as sited by the State of Alaska Department of Labor and Workforce Development (DOLWD) 2002-2012 study. An article based on this study in the October, 2004 *Alaska Economic Trends* predicts an increase of over 40% in the need for dental hygienists, one of the highest rates of anticipated need among the occupations tracked by the state. A related DOLWD report projects 22 annual openings for dental hygienists statewide. The site specifies an average entry-level wage of $38,960 and a mean salary of $63, 810.

The UAF/TVC dental hygiene program will consist of a two-year academic schedule. Students will be selected for admission to the AAS in Dental Hygiene following successful completion of the prerequisite course work and other qualifications outlined in the application packet. The UAF/TVC dental hygiene program was directly modeled after the successful dental hygiene program at the University of Alaska Anchorage (UAA). The UAA dental hygiene program has been established for over 20 years and is accredited by CODA. UAF/TVC has the full support and cooperation of UAA in this endeavor. Further, the Allied Health Alliance and Karen Purdue, Vice President for Health Programs, are in agreement that it is in the best interest of the University and the State that UAF align its program with UAA.

The proposed dental hygiene program at the University of Alaska Fairbanks/ Tanana Valley Campus received initial accreditation from the Commission on Dental Accreditation **(**CODA) in August of 2007, following the site visit on May 3-4 of 2007. CODA is the governing division of the American Dental Association that sets the standards and requirements for curriculum and facilities, conducts site visits which review curriculum (existing and proposed) and school facilities, and grants accreditation for dental and dental hygiene programs and schools. CODA will conduct another site visit prior to the graduation of the first cohort of six students to review standards and compliance to curriculum and goals of the school.

Proposed general catalog layout:

Dental Hygiene

Tanana Valley Campus
College of Rural and Community Development
(907) 455-2834 or (907) 455-2822
fydh@uaf.edu
www.tvc.uaf.edu/programs/health/dh

A.A.S. Degree
Minimum Requirements for the AAS: 69

The registered dental hygienist is a licensed oral health educator and clinical operator who uses preventive, educational, and therapeutic methods which aid individuals and groups to attain and maintain optimum oral health. Dental hygienists can work as clinicians, educators, researchers, administrators, managers, preventive program developers, consumer advocates, sales and marketing managers, editors, and consultants. Clinical dental hygienists may work in a variety of health care settings such as private dental offices, schools, public health clinics, hospitals, managed care organizations, correctional institutions, or nursing homes.

The Dental Hygiene Associate of Applied Science degree is a three-year endeavor comprising one year of science prerequisite courses and general education courses and two years of course work in dental hygiene. The program prepares graduates clinically and academically to take the National and Western Regional Examining Boards for licensure.

Application for obtaining an Alaska dental hygiene license requires information concerning illegal activity, crimes, hospitalization history regarding emotional or mental illness, drug addiction, alcoholism and contagious diseases. If these are issues for the applicant it is highly recommended the applicant contact the Alaska Department of Occupational Licensing or a similar government agency in any state in which the applicant wants to practice.

Some expenses beyond tuition generally include individual course lab fees, instruments, uniforms, student organization membership, graduation pin, immunizations, cost of Basic Life Support class, licensure fees, student health insurance and malpractice insurance for the Western Regional Examining Boards and professional liability insurance. Once enrolled as a dental hygiene student, the student can anticipate a four semester, 40-hour-per-week intensive endeavor. Some evening classes and clinics are scheduled.

The Dental Hygiene program has received initial accreditation from the Commission on Dental Accreditation of the American Dental Association, 211 East Chicago Avenue, Chicago, Illinois 60611, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education.

ADMISSION REQUIREMENTS
Admission to the dental hygiene program is competitive. Six students per year are accepted. Acceptance is based on the following criteria:

a. Completion of a UAF application
b. Completion of a Dental Hygiene Program application
c. Proof of immunity to rubella, rubeola, varicella, hepatitis A, hepatitis B, tetanus, diphtheria, and pertussis
d. Evidence of freedom from tuberculosis by PPD or chest x-ray within the previous 6 months
e. Current CPR certification for health care providers
f. Completion of the required prerequisite and AAS requirement courses with a C (2.0) or better in each course, and an overall GPA of at least 2.5. GPA is considered in the admission criteria.
g. Scores on the Health Occupational Basic Entrance Test (HOBET)
h. Personal interview for top tier candidates

Prerequisite courses: (26 credits)

BIOL F111X	Human Anatomy and Physiology I	4
BIOL F 112X	Human Anatomy and Physiology II	4
BIOL F 240	Beginnings in Microbiology	4
CHEM F 103X	Basic General Chemistry and lab	4
CHEM F 104X	Beginning in Biochemistry:	
A survey of organic chemistry and biochemistry		4
PSY 101	Introduction to Psychology	3
HLTH 203	Science of Nutrition	3

Courses with equivalent content transferred from another University may be substituted for the above UAF courses.

A.A.S. required courses in communication, computation and human relations: (15 Credits)

ENGL 111X	Introduction to Academic Writing	3
ENGL 211 X or	Academic Writing about Literature or	3
ENG 213X	Academic Writing about Social or Natural Sciences	
COMM 131X or	Fundamentals of Oral Communications: Group Context	3
COMM 141X	Fundamentals of Oral Communications: Public Context	
DEVM 105 or	Intermediate algebra	3
MATH at the 100-level		
SOC 100X	Individual, Society and Culture	3

Additional information and a complete application packet is available at (907) 455-2834 or (907) 455-2822, fydh@uaf.edu, or www.tvc.uaf.edu/programs/health/dh. It is strongly recommended that interested students work with the Dental Hygiene advisor while preparing to apply to the program.

Major—A.A.S. Degree

1. **Complete the general university requirements (see page 83).**
2. **Complete the A.A.S. requirements (see page 87).**
   Students should take SOC 100X to meet the human relations requirement for the AAS.
3. **Complete the following program (major requirements)***

HLTH 150	Dental Radiography and lab	4
DH 111	Dental Anatomy Embryology & Histology	2

Regents Guidelines Summary form:

MAU: University of Alaska Fairbanks
Tanana Valley Campus
College of Rural and Community Development
Title: AAS, Dental Hygiene
Target admission date: Spring 2008

The Tanana Valley Campus, College of Rural and Community development, University of Alaska Fairbanks, requests approval of an Associate of Applied Science in Dental Hygiene to be implemented in the Spring Semester, 2008.

The dental hygiene program is an intensive, science-based and competency-based degree program. Courses proposed for the degree prepare the graduate with the knowledge, skills, attitude, and values to take and pass national and regional dental hygiene written and clinical exams and be licensed in the State of Alaska. The program received initial accreditation through the Commission on Dental Accreditation in August of 2007.

How does the program relate to the *Education* mission of the University of Alaska and the MAU?

TVC's mission is to provide community-driven education. For more than 20 years, the Fairbanks dental community has been asking UAF to establish a dental hygiene program here in Fairbanks to increase the number of dental hygienists who will remain in the community and serve the dental needs of Fairbanks and Interior Alaska. The proposed AAS in Dental Hygiene would do that. Further, we plan to engage our rural campuses in providing the AAS requirements and the prerequisite courses that will allow rural Alaskan students to compete effectively for admission to the Dental Hygiene program. This science-based, competency-based program provides high quality vocational and technical skills that meets the national standards of the Commission on Dental Accreditation, and will allow graduates to sit for the national and western region exams to become licensed Dental Hygienists.

The decision to initiate a dental hygiene program at the University of Alaska Fairbanks was made after gaining input and advice from the local Fairbanks dental community, the Allied Health Alliance, the administrators of the University of Alaska Fairbanks, and Statewide Administration. An external needs survey of professionals, including dental hygienists and dentists, was conducted by Crosby and Associates in Fall of 2005. That survey confirmed the results of a previous survey (early 1990's), and demonstrated a continuing need for additional dental hygienists in the Fairbanks area. A 1999 white paper produced by the southeast Alaska Regional Health Consortium documented the magnitude of the dental disease crisis experienced by Alaska Natives. Data from 1990-1999 Indian Health Services surveys revealed that Alaska Native children experience caries at a rate twice the national rate, and that at least a portion of that problem is attributable to a lack of dental professionals, including hygienists, in rural Alaska. Finally, a group of dental professionals serves as a Dental Hygiene Advisory Committee to the TVC Dental Hygiene Program.

What *State Needs* met by this program.

An article based on Alaska Department of Labor and Workforce Development (DOLWD) statistics in the October, 2004 *Alaska Economic Trends* predicts an increase of over 40% in the need for dental hygienists, one of the highest rates of anticipated need among the occupations tracked by the state. A related DOLWD report projects 22 annual openings for dental hygienists statewide. The site specifies an average entry-level wage of $38,960 and a mean salary of $63,810.

Despite the documented need for hygienists and hygiene services around the state, there is currently only one dental hygiene program at UAA, which has 12 graduates per year. It is not possible to increase the cohort at UAA due to limited operatory capacity. In addition, increasing the capacity of the UAA dental hygiene program does not meet the need for the Interior Alaska and Fairbanks as Anchorage has its own unmet need for dental hygienists and Anchorage may well recruit all the graduates from their own program which would leave the most underserved areas still in need of care.

What are the *Student* opportunities and outcomes? Enrollment projections?

The proposed program would admit 6 students per cohort, and by fall of 2010 will have both a first year and second year cohort studying at the same time. Keeping the cohort at 6 students will meet several needs: 1) one student per operatory is required by CODA, and we have only 6 operatories; 2) a faculty:student ratio of 1:6 for all lab and clinical experiences; and 3) we estimate that 6 graduates per years will come close to meeting the needs of Fairbanks and Interior Alaska for dental hygienists.

Vacancy surveys conducted by the UAA Alaska Center for Rural Health indicate that in August 2007 there were approximately 14 vacancies in urban communities and 17 vacancies in rural Alaska. We anticipate that all graduates will be able to obtain employment.

Describe *Research* opportunities:

We do not anticipate establishing research programs in association with this AAS degree program.

Describe *Fiscal Plan* for development and implementation:

Funding to support the needs surveys, the development of the application for initial accreditation through the Commission on Dental Accreditation, and the hiring of a program director was provided by a combination of funds from TVC, CRCD, and the office of the Vice President for Health Programs. A funding request to continue support of the program was placed in the FY 08 budget, however, SB 137 rather than general fund money was provided for FY08. Support for the continuation of the program was submitted on the cross-MAU request for Allied Health Program funding for FY09. It was ranked highest of the 4 proposals submitted by UAF. We have received assurances from the Chancellor's Cabinet, and from Karen Perdue, the Vice-President for Health Programs, that this program is a high priority and that funding ($240K) is assured for the FY09 budget.

Funding for lab supplies and equipment will be borne by the students via lab fees. We anticipate that members of the local dental community will continue to support the program by volunteering their time to train students, provided some equipment and supplies, and developing scholarship support for the students. Further, the Alaska Dental Society is generating an endowment fund for all dental programs within the state.

The UAF Faculty Senate passed the following at its Meeting #147 on December 10, 2007:

MOTION:
=======

The UAF Faculty Senate moves to adopt a new "High School Entrance Credit Requirements for All Bachelor's Degree Programs" table, replacing Table 1 at page 27 of the UAF Catalog with the new simplified table (see next page).

EFFECTIVE: Fall 2008

RATIONALE: Moving from eight separate High School Core Requirements to two. This is easier to understand for potential students and their parents and simplifies the work for Admissions. This proposed change was passed to each Dean and their respective Curriculum Council and it was approved by all Deans.

Jon Gantt 12/13/07
President, UAF Faculty Senate Date

APPROVAL: Stph RJ 12-15-07
Chancellor's Office DATE

DISAPPROVED: _____ DATE: _____
Chancellor's Office

Simplified High School Entrance Requirements for All Bachelor's Degree Programs prepared by Dana Thomas and Lael M. Croteau.

	English	Math	Social Sciences	Natural/Physical Sciences
High School Core Curriculum--Required for all freshmen; 2.50 GPA in core; 16 cr total, which must include:	4 cr	3 cr in college preparatory mathematics (selected from Algebra I, II, geometry, trigonometry, elementary functions, precalculus or calculus)	3 cr	3 cr (includes 1 credit lab science course in biology, chemistry or physics)
CEM CNSM SFOS SNRAS	4 cr	Algebra-2 cr; Geometry-1 cr; Trigonometry-1/2 cr; At least an additional ½ cr of advanced math is recommended for computer science, mathematics, physics, statistics, and engineering.	3 cr	Physics or Chemistry-1 cr; Natural Sciences-1 cr; Elective-1cr Both physics and chemistry are strongly recommended for engineering.
CLA SOE SOM CRCD Undecided = General Studies at UAF	4 cr	Same as high school core SOM students should be well prepared in mathematics with at least algebra II but precalculus or higher preferred.	3 cr	Same as high school core

The UAF Faculty Senate passed the following at its Meeting #147 on December 10, 2007:

MOTION:
=======

The UAF Faculty Senate moves to amend the Bachelor of Arts degree requirements under the Foreign / Alaska Native language option to include American Sign Language (p. 120, 2007-2008 UAF Catalog).

CAPS = Additions
[[ ]] = Deletions

Bachelor of Arts
Requirements

Complete the baccalaureate core 38–39

Complete the following B.A. requirements in addition to the core:

Humanities and social sciences (18 credits)

Any combination of courses at the 100-level or above, with a minimum of 6 credits from the humanities and a minimum of 6 credits in the social sciences OR up to 12 credits in a single non-English language taken at the university level and a minimum of 6 credits in social science.

Mathematics (3 credits)

One course at the 100-level or above in mathematical sciences (math, computer science, statistics)

Complete one of the following:

Minor complex* at least 15 credits

Foreign/Alaska Native language**/AMERICAN SIGN LANGUAGE** option 12–18 credits

Two years study of one foreign or Alaska Native language **OR AMERICAN SIGN LANGUAGE** at the university level (high school language credits or native language proficiency may allow students to begin at the intermediate or advanced level)

Major complex* at least 30 credits

Electives (12–19 credits)

Minimum credits required for degree 120*

EFFECTIVE: Immediately.

RATIONALE: As there are now a sufficient number of American Sign Language credits available, it is reasonable to include them as part of the Foreign / Alaska Native language option in the Bachelor of Arts degree requirements. American Sign Language courses have been allowed for over a decade as a non-English language option for the Baccalaureate Core's Perspectives on the Human Condition.

The UAF Faculty Senate passed the following at its Meeting #147 on December 10, 2007:

RESOLUTION:
==========

WHEREAS, it was announced that the Tanana Valley Campus (TVC) is no longer able to sustain the operating costs of the Bunnell House Early Childhood Lab School during the summer months and that it will close during summer, starting in May 2008; and

WHEREAS, the provision of adequate childcare is a critical issue affecting all members of the university community, including faculty, staff, students, and administrators who depend on Bunnell House year-round; and

WHEREAS, with approximately 70 families on the Bunnell House wait list, there is a demonstrated need for expanded childcare on the UAF campus; and

WHEREAS, the loss of year-round childcare would have a disproportionate and negative impact on women, especially their recruitment, professional development, and retention; and

WHEREAS, childcare in Fairbanks is in critically short supply and the closing of Bunnell House during summer months will add to the growing crisis; and

WHEREAS, Bunnell House has an experienced and knowledgeable permanent staff who will be unlikely to be retained if Bunnell House is closed during summer months; and

WHEREAS, Faculty Senate affirms that providing on-campus childcare is critical to recruiting and retaining excellent faculty, staff, students, and administrators; and

WHEREAS, Faculty Senate believes the University should provide a family-friendly environment, including family-friendly policies; now

THEREFORE BE IT RESOLVED, That the Faculty Senate urges the UAF administration to provide the additional funds necessary to keep Bunnell House open year-round.

The UAF Faculty Senate passed the following at its Meeting #146 on November 5, 2007:

MOTION:
=======

The UAF Faculty Senates moves to amend the English Proficiency Requirements for international student admissions to allow the IELTS (the standard European test for English language proficiency) to be substituted for the TOEFL (2007-2008 UAF Catalog, page 32).

The Senate further recommends that we adapt an IELTS score of 6.5 as equivalent to our current TOEFL requirement.

CAPS - Addition
[[ ]] - Deletion

Applying for Admission: International Students (UAF Catalog, p. 32)

English Proficiency Requirements

1. Students who require an F-1 student visa must pass the TOEFL (Test of English as a Foreign Language) with a minimum score of 213 (computer exam), 550 (paper exam) or 80 (Internet-based exam) OR THE IELTS WITH A MINIMUM SCORE OF 6.5. The TOEFL/IELTS requirement may be waived for applicants whose native language is English.
2. All applicants, including permanent residents on an immigrant visa, must demonstrate English proficiency by:
   a. Passing the TOEFL with a minimum score of 213 (computer exam), 550 (paper exam) or 80 (Internet-based exam) OR THE IELTS WITH A MINIMUM SCORE OF 6.5; OR
   b. Graduation from high school or equivalent in a country where English is an official language or the language of instruction in higher education; OR
   c. Successful completion of at least one year of full-time study in a degree program at a college or university in a country where English is an official language or the language of instruction in higher education; or
   d. Other substantiation acceptable to the Office of Admissions

Other tests may be required to satisfy application requirements for specific undergraduate or graduate degree programs. Additional information for international students is available at www.uaf.edu/admissions/international/ and www.uaf.edu/oip/, by e-mail at fyisa@uaf.edu or by calling (907) 474-7677 or (907) 474-5327.

EFFECTIVE: Immediately

RATIONALE: Increased demand and problems with test administration have made the TOEFL increasingly difficult for many students to take; in many parts of the world the number of test slots is significantly below the demand, resulting in long delays for

potential students. A large number of US universities now accept the IELTS as a substitute for the TOEFL. Common minimum IELTS scores range from 5.5 to 7.0, corresponding to TOEFL scores of 500-600 (paper version). It is recommended that we adapt an IELTS score of 6.5 based on the average for mid- and top-tier research universities. Examples of peer universities that use this level are the University of Texas at Austin, the University of Minnesota and the University of Michigan at Ann Arbor.

The UAF Faculty Senate passed the following at its Meeting #146 on November 5, 2007:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on probation (p. 78, 2007-2008 UAF Catalog) to increase the number of credits a student can enroll in each semester.

CAPS = Additions
[[ ]] = Deletions

Academic Standards

PROBATION (UAF Catalog, p. 78)

Undergraduate students-- Students whose cumulative and/or semester GPA falls below 2.0 will be put on academic probation. Students on probation may not enroll in more than [[12]] **13** credits a semester, unless an exception is granted by the appropriate dean. Probation may include additional conditions, as determined by the dean of the college or school in which the student's major is located. Students on probation will be referred for developmental advising/education and/or to an advising or support counseling center. The student will work with an academic advisor to prepare an academic plan for achieving a higher GPA; the advisor is responsible for forwarding this plan to the appropriate dean. A student on probation will not be allowed to register unless the academic plan is on file. Removal from probation requires the student's cumulative and semester GPAs to be at least 2.0."

EFFECTIVE: Spring 2008

RATIONALE: Changing the credit limit from 12 to 13 allows students to take a regular course load that may contain a lab or math course. The intent is so that a traditional full-time student who is on probationary status can take up to four courses.

The UAF Faculty Senate passed the following at its Meeting #146 on November 5, 2007:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on Course Prerequisites (p. 39, 2007-2008 UAF Catalog) to clarify that a grade of C means a 2.0 C and not a 1.7 C-.

CAPS = Additions
[[ ]] = Deletions

Registration

COURSE PREREQUISITES (UAF Catalog, p. 39)

Course prerequisites tell you what previous preparation you need to enroll in a course. An instructor has the right to drop any student from the course if he or she does not meet the prerequisite or has not received a grade of "C" (**2.0**) or better in all prerequisite courses. Under special circumstances, an instructor may allow a student who does not meet prerequisites to enter a class.

You should not register for a course for which you have not completed the appropriate prerequisite courses and received a grade of "C" (**2.0**) or higher unless you have received the instructor's explicit permission. You are expected to check all the prerequisites for the classes for which you intend to register. Prerequisites must be met in order to enroll in some math and developmental courses. Check for prerequisites in the current class schedule, the courses section of the catalog or at http://uaonline@alaska.edu.

EFFECTIVE: Immediately

RATIONALE: This clarifies that a C grade means a 2.0 C and not a 1.7 C-.

The UAF Faculty Senate passed the following at its Meeting #146 on November 5, 2007:

RESOLUTION
==========

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2007-08 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

RESOLUTION OF APPRECIATION FOR SHERI LAYRAL

Whereas, Sheri Layral has served the UAF Faculty Senate for 17 years in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

Whereas, Sheri Layral has provided the institutional memory that has allowed UAF shared governance to reach new levels; and

Whereas, Sheri Layral has mentored many young faculty into the leadership roles necessary to support the UAF Faculty Senate; and

Whereas, Sheri Layral was instrumental in ensuring that deadlines were met by the UAF Faculty Senate committees; and

Whereas, Sheri Layral was successful in ensuring that the UAF Faculty Senate meetings ran smoothly; and

Whereas, Sheri Layral enthusiastically agreed to continue serving after retirement to ensure a smooth transition to a new office manager; and

Whereas, Sheri Layral's thorough knowledge of UAF system policies and regulations, academic programs and course catalog was invaluable; and

Whereas, Sheri Layral has made the impossible job of UAF Faculty Senate President possible; and

Whereas, The past and current UAF Faculty Senate Presidents and current President-elect wish to acknowledge the outstanding service rendered the faculty and the University by the work of Sheri Layral; now

THEREFORE BE IT RESOLVED, That the past and current UAF Faculty Senate Presidents and current President-elect acknowledge the many contributions of Sheri Layral and express their appreciation for her exemplary service.

The UAF Faculty Senate passed the following at its Meeting #144 on May 7, 2007:

RESOLUTION OF APPRECIATION

FOR

PAUL B. REICHARDT

WHEREAS, Paul Reichardt is retiring on June 30, 2007 after serving UAF in many roles for 35 years in a manner deserving of the University of Alaska's greatest admiration and respect; and

WHEREAS, Paul Reichardt has served as Professor of Chemistry from 1972-1990 and as Dean of the College of Natural Sciences (College of Science, Engineering and Mathematics) from 1990-1998; and

WHEREAS, Paul Reichardt was instrumental in planning the building of the Natural Sciences Facility and getting the funding from the State Legislature necessary for the furnishing of the Natural Sciences Facility; and

WHEREAS, Paul Reichardt served as Director of the UA Museum, 1993, and was very supportive of the UA Museum of the North's expansion project and the fund raising campaign; and

WHEREAS, Paul Reichardt has served as Interim Provost, 1993, and from 1998 to present as Provost demonstrating a commitment to graduate and undergraduate education; and

WHEREAS, Paul Reichardt helped develop UAF 2005 and produced UAF's Academic Development Plan that resulted in useful and practical guidelines for a variety of endeavors helping establish a basis by which decisions about programs, budget and space assignments are made and helps us to obtain state funding; and

WHEREAS, Paul Reichardt, while Provost, led significant UAF efforts resulting in the 2001 institutional accreditation and the 2006 reaffirmation of accreditation with no subsequent reports, a relatively uncommon event among institutions of higher education; and

WHEREAS, Paul Reichardt has served on various Statewide Committees and other university committees including SAC and the Chancellor's Cabinet representing the interests of UAF faculty to the administration of UAF and statewide; and

WHEREAS, Paul Reichardt has established the Academic Leadership Institute where faculty, staff and administrators spend time studying and talking about academic leadership; and

WHEREAS, The University of the Arctic honored Paul Reichardt for his contributions to the circumpolar organization; and

WHEREAS, Paul Reichardt is currently a member of the Northwest Commission on Colleges and Universities; and

WHEREAS, Paul Reichardt was recently named the winner of the Edith R. Bullock Prize for Excellence in service to the University of Alaska by the UA Foundation, one of the highest honors bestowed by the Foundation; and

WHEREAS, Paul Reichardt has served under three chancellors at UAF, which serves nearly 10,000 students and hundreds of scientists working within multiple, world-class research institutes. Each one of the chancellors under which Paul Reichardt worked looked to him as a source of inspiration and initiative to move the university forward; and

WHEREAS, The faculty of the University of Alaska Fairbanks, through its Faculty Senate, wish to acknowledge the outstanding contributions to higher education and intellectual development of Paul B. Reichardt, UAF faculty member, dean, and provost; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges and proclaims to all that Paul B. Reichardt has rendered outstanding service to the faculty, staff, students, alumni, and administration of UAF and to the citizens of Alaska, and hereby expresses its deep appreciation.

Executive Summary
Deletion of Athletic Coaching Minor

The Athletic Coaching minor was offered by the Physical Education Dept. in the late 1980s and early 1990s. When the department was discontinued in the mid-1990s, this minor was left in the catalogue, partly because it was thought that varsity coaches and trainers might want to offer some of the classes and perhaps even the minor. However, that proved not to be feasible without an academic department. The current UAF Athletic Director, Forest Karr, has no interest in the program or its classes. Most have not been offered in at least five years. The UAF School of Management is exploring a sports management or sports information minor, which is more appropriate to current students' needs and interests. Deleting this minor is only a matter of cleaning up the catalogue.

The UAF Faculty Senate passed the following at its Meeting #144 on May 7, 2007:

MOTION:
=======

The UAF Faculty Senate moves to approve a Certificate in High Latitude Range Management.

EFFECTIVE: Fall 2007 and/or Upon Board of Regents approval.

RATIONALE: See course proposals #98-106 and full program proposal #107 from the Fall 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

To receive a Certificate in HLRM, students must attain at least 31 credits of lower division courses. Nine credits will be met through general university requirements. The remaining

credits will be met through completion of the program's required courses.

****

BRIEF STATEMENT OF PROPOSED PROGRAM
High Latitude Range Management (HLRM)

The High Latitude Range Management (HLRM) certificate proposes a two year academic program that directly meets the needs of the peoples of the Seward Peninsula region and other rural Alaska regions. In addition, this program carries out the mission of the University of Alaska Fairbanks (UAF) Northwest Campus (NWC) by providing a program of college instruction to teach students, who wish to continue their formal education, skills for employability that will assist in economic and community development of the region, while placing special emphasis on using the region's rich history, to build a sustainable future through higher learning.

The HLRM program will offer a rural-specific, culturally relevant and accredited Certificate through the College of Rural and Community Development (CRCD). The HLRM program has developed an entry-level curriculum which will meet the skill needs for rural Alaska communities. Agency or corporation personnel educated and trained outside the state of Alaska conduct much of the management of natural resources in Rural Alaska. Many local people have a profound knowledge of the resource base but no formal training in which to participate or contribute to management decisions at the state or federal level. Students receiving the HLRM certificate will be trained in conventional field-based techniques used by agencies to inventory and monitor high latitude plant and animal populations. Students will also be trained in the ecological concepts of sustained yield and the manipulations and management of animal populations in northern ecosystems. The HLRM program will also serve as a bridge for students pursuing a science-related associate or baccalaureate program.

Objectives:

- To promote the development of a skill set in the local resource base that is relevant to local employability and promotes wellness, self-sufficiency, and community development.
- To prepare students for entry-level employment in the field of natural resources that will contribute to an educated Alaskan workforce by providing relevant coursework to residents of rural Alaskan villages.
- For students to actively participate in an informed stewardship of high latitude natural resources – a stewardship grounded in traditional knowledge combined with contemporary studies and research in the sciences.
- To utilize the HLRM certificate as a building block for advanced university coursework in an associate or baccalaureate program or other science coursework.

DESCRIPTION OF THE PROGRAM
Program title: High Latitude Range Management (HLRM) Program
Credential level of the program: Certificate
Admissions requirements and prerequisites:

A HLRM Program Certificate represents the completion of at least 31 credits in the conventional field-based techniques to inventory and monitor northern animal and plant populations combining traditional knowledge with contemporary studies necessary for entry-level natural resource jobs statewide. The certificate also emphasizes place-based domesticated ungulate husbandry and health, applicable regionally and statewide. This certificate may also serve as a bridge to a variety of natural science associate and baccalaureate programs

Admission is open to all individuals, especially those employed by or interested in employment with state, federal or tribal agencies or other local entities in rural Alaska which provide natural resources management services.

Students should have a high school diploma or GED and an interest in science –related fields. It is strongly recommended that students seeking admission to this program have completed two high school, lab-based science courses preferably in biology, chemistry, or physics.

Students whose ACT/SAT scores are not high enough to place them into regular college level classes will be required to take the ASSET or COMPASS test and will be placed into the appropriate developmental level course.

To remain in good standing, students must:

a) Maintain an overall 2.0 grade point average
b) Maintain a C grade or better in all required courses

HLRM Certificate Program Outline

1. Complete the general university requirements
2. Complete the general Certificate requirements 9 cr

Communication…..... 3 cr:

ENGL 111X – Introduction to Academic Writing..... 3 cr

Computation (complete one of the following)..... 3 cr:

MATH 103X – Concepts & Contemp Aps of Math..... 3 cr
or

ABUS 155 – Business Math..... 3 cr

Human Relations (complete one of the following)..... 3 cr;

ANTH 100X/SOC 100X – Individual, Society & Culture..... 3 cr
OR

ABUS 154 – Human Relations..... 3 cr

3. **Complete the HLRM program requirements 22 cr**

NRM 101 - Nat. Res. Conservation and Policy..... 3 cr
BIOL 104X - Natural History of Alaska …….....4 cr. OR
BIOL 104 – Natural History of Alaska……..…3 cr. AND
BIOL 104L – Natural History of Alaska Laboratory…….....1 cr.
HLRM 120 - History of Domesticated Alaskan Ungulates..... 1 cr
HLRM 130 – Research Field Logistics..... 2 cr
HLRM 140 - High Latitude Range Management ..... 2 cr
HLRM 150 - Alaskan Ungulate Husbandry ..... 2 cr
HLRM 160 - Meat Production ..... 2 cr
HLRM 170 - Health Issues in Domestic Herds ..... 2 cr.
HLRM 201 – Field Tech. for Range Management ..... 2 cr
HLRM 205 – Research Methods in Range Management..... 2 cr

Minimum credits required ..... 31 credits

The UAF Faculty Senate passed the following at its Meeting #144 on May 7, 2007:

MOTION:
=======

The UAF Faculty Senate moves to approve a Certificate in Veterinary Science.

EFFECTIVE: Fall 2007 and/or Upon Board of Regents approval.

RATIONALE: See course proposals #136-143 and full program proposal #144 from the Fall 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

To receive a Veterinarian Science Certificate, students must attain 37-38 credits of lower division (100-200 level) courses. The requirements include 9-10 credits of general university requirements (computations, communications, and human relations), a four credit entry level Biology course, a four credit entry level Chemistry course, and 20 credits of required Veterinary Science courses.

****

BRIEF STATEMENT OF PROPOSED PROGRAM
Veterinary Science Program

Overview: In response to a shortage of trained veterinary paraprofessionals in Alaska, the Interior-Aleutians Campus and the Chukchi Campus supported by the College of Rural and Community Development is proposing the Veterinary Sciences certificate (VTS) consisting of a 37-38 credit certificate program. This certificate is designed to articulate into a proposed AS degree and a proposed track for individuals to complete requirements to be eligible for the National Veterinary Technician Examination.

Statistics on higher education attainment for Alaskans are troubling. Only 28% of 9th graders in the state of Alaska enroll in college 4 years later. Only 18% are still enrolled in their sophomore year and only 6% graduate from college within 6 years (Source: NCES: Common Core Data, IPEDS Residency and Migration, Fall Enrollment, and graduation rate surveys, 2004). The educational needs in rural Alaska are particularly acute. Improving these statistics will involve effort on many fronts and one is developing programs that can engage students' interest before they get to college, encouraging them to stay in school, enroll in college, obtain useful and marketable skills, and perhaps continue towards a 4 year degree. Veterinary science is a program that can positively affect student engagement and perseverance in all age groups.

Alaska is one of only 7 states that currently have no Veterinary Science (VTS) program. Currently, there are 108 licensed veterinary technicians (VT) for the 264 licensed veterinarians in the state. Of the licensed veterinarians, fewer than 10 practice in rural areas resulting in a critical shortage in veterinary care throughout rural Alaska. This shortage of rural veterinary care holds true nationwide.

The State of Alaska has a great need for individuals trained in veterinary sciences in both rural and urban areas. To become a licensed VT a person must work for a licensed veterinarian for two years in the capacity as a technician or pass an American Veterinary Medical Association (AVMA) certified training program. Both require passing a national examination before the license is issued. In Alaska, the option for experience in lieu of education will be phased out in the year 2010, leaving more formalized veterinary education as the only option for becoming a certified veterinary technician.

Alaskan students who want to receive a paraprofessional veterinary education face serious barriers, the most critical of which is the lack of training available in the state. To become trained in veterinary sciences currently, a student must be admitted to and attend an out-of-state program, as well as pay out-of-state tuition costs. A multi-year absence from Alaska could also result in a student not returning to the state for employment.

In the absence of trained veterinary care in rural Alaska, primary and crisis care for animals has come from a variety of sources, including local dog mushers or other animal enthusiasts and village based health care workers. These rural residents already have life-skills in animal and or human care and would like to formalize these skills. When even these informal options are unavailable injured and sick animals are most often disposed of by local law enforcement, if available or by the owner themselves. Formal training in veterinary science would allow rural communities to practically and humanely deal with animal health issues.

In the alternative food production arena, the shortage of adequate rural veterinary care has affected the ability of interested people to have successful large animal or poultry farming operations. Such production operations may involve cattle, swine, sheep, goat, reindeer, bison, musk oxen, and poultry. These producers ideally would have access to individuals with the skill to help appropriately manage disease, nutrition and husbandry issues.

Additional roles of students trained in the veterinary field are identification and management of public health issues. These may include zoonotic diseases including rabies education and prevention, animal disease recognition and education, water and food quality testing, and meat and seafood inspection.

The Veterinary Science program (VTS) will offer a core certificate from which the student can articulate to a proposed A.S. degree in Veterinary Science and expand into different learning tracks. These tracks include a veterinary technician track and a veterinary medical illustration track. The veterinary technician track has been designed to fulfill the needs for AVMA accreditation.

Other employment and educational fields can be entered from this program. The program will provide a strong educational starting point for students interested in entering an undergraduate program, veterinary college or becoming a veterinary medical illustrator. An added application of this program is in tribal resource management. Here the individual trained in the veterinary sciences could provide assistance to Alaskan Native corporations, in regards to public and animal health.

This program will be a rural oriented program that may be adapted for urban delivery. The rural orientation will be reflected in the distance delivery methods of courses and the types of information included. For example, information about animal adaptations to cold climates and remote areas as well as the unique history of animal/human relations in rural Alaska would be included. Regarding urban orientation of the program, information about small animals such as those seen in typical urban and suburban small animal general practices would be included. The core of the program in any area will be basic veterinary knowledge and skills. Students from this program should be able to transfer their knowledge to different environments.

Realizing that students entering this program are at many different levels, it is predicted that the course work to completion for the Veterinary Science certificate will take approximately 2 to 5 years. It is expected that highly motivated students will complete this within the 2 year time frame. Time to completion is obviously dependent on many factors a student may have, such as number of classes taken per term, job, work and family commitments. Classes will be delivered primarily by distance education, as well as face to face and intensive 2-4 day laboratories and practica at central locations.

Objectives of the VTS certificate program:

1. To prepare a group of educated Alaskans that meet current life-skill and workforce needs in veterinary sciences, focusing on the rural worker.

2. To contribute to our vocational educated Alaskan workforce by providing a program that links work-based skills and hands-on learning to postsecondary education, particularly in rural Alaska in keeping with the university mission.

3. To provide a career ladder beyond entry-level to an underemployed rural workforce.

4. To provide an education ladder beyond the certificate by providing a pathway leading to additional degrees and educational tracks.

Proposed Catalog Description

College of Rural and Community Development
Interior-Aleutians Campus (907) 474-5439
Chukchi Campus (907) 442-3400

Veterinary Science Certificate:

Training in veterinary science and medicine provides a strong base for careers in farming, dog mushing, wildlife management, public health, tribal resource management, environmental health, veterinary technology and as a veterinarian.

Incorporated into these courses are information and training for work with domestic small animals, domestic farm animals, reindeer, bison and musk ox. Certificate graduates are prepared to continue on in learning tracks for veterinary technology, public health, wildlife management, veterinary medical illustration, veterinary medicine and other science related fields.

Program Outline and Course Descriptions

Veterinary Science (VTS) Certificate

- **1. Complete the general university requirements (page ____)**
- **2. Complete the following certificate requirements:**
  - Communication (complete the following)
    - ENGL 111X – Introduction to Academic Writing..... 3 cr
  - Computation (complete one of the following)
    - MATH 107X -- Functions for Calculus..... 4 cr or
    - DEVM 105 – Intermediate Algebra..... 3 cr
  - Human Relations (complete one of the following)
    - ANTH 100X/SOC 100X – Individual, Society & Culture..... 3 cr OR
    - ABUS 154 – Human Relations..... 3 cr
- **3. Complete the following major program requirements***
  - CHEM 103X– Basic General Chemistry..... 4 cr OR
    CHEM 105X– General Chemistry I **..... 4 cr
  - BIOL 103X– Biology and Society ..... 4 cr OR
  - BIOL 106X– Fund. of Biology II **..... 4 cr
  - VTS 101 Introduction to Veterinary Science..... 2 cr
  - VTS 110 Veterinary medical Terminology..... 3 cr
  - VTS 130 Animal Anatomy and Physiology for Veterinary Sci. ..... 4 cr
  - VTS 140 Basic Animal Husbandry for Veterinary Sciences..... 3 cr
  - VTS 150 Basic Animal Nutrition and Feeding for Veterinary Sci..... 3 cr
  - VTS 160 Animal Diseases for Veterinary Sciences..... 3 cr
  - VTS 199 Veterinary Science Practicum I..... 2 cr

Total: 37-38 cr.

* Students must earn a 2.0 grade or better in each course.
** Students should take the higher

****

The UAF Faculty Senate passed the following at its Meeting #144 on May 7, 2007:

MOTION:
=======

The UAF Faculty Senate moves to amend Section 3 (ART V: Committees) of the UAF Faculty Senate By-laws as follows:

[[ ]]- Deletions
CAPS- Additions

E. The standing and permanent committees of the Senate are:

PERMANENT

2. [[The Developmental Studies Committee will include one representative from each of the following units: Academic Advising Center, Bristol Bay Campus, Chukchi Campus, the College of Liberal Arts English Department, Interior-Aleutians Campus, Kuskokwim Campus, Northwest Campus, Student Support Services Program, and Tanana Valley Campus; two representatives from the College of Science, Engineering and Mathematics: one from the Sciences (Biology, Chemistry, Geology, or Physics), and one from Math; and three representatives from the College of Rural Alaska: one from the Department of Developmental Education, one from Rural Student Services, and one from rural campus student services.]]

THE STUDENT ACADEMIC DEVELOPMENT AND ACHIEVEMENT COMMITTEE WILL INCLUDE ONE REPRESENTATIVE FROM EACH OF THE FOLLOWING UNITS OF THE COLLEGE OF RURAL AND COMMUNITY DEVELOPMENT: BRISTOL BAY CAMPUS, CHUKCHI CAMPUS, INTERIOR-ALEUTIANS CAMPUS, KUSKOKWIM CAMPUS, NORTHWEST CAMPUS, AND TANANA VALLEY CAMPUS. ONE OR MORE OF THESE SHOULD BE FROM RURAL CAMPUS STUDENT SERVICES. THE COMMITTEE WILL ALSO INCLUDE ONE REPRESENTATIVE FROM THE DEPARTMENT OF DEVELOPMENTAL EDUCATION; TWO REPRESENTATIVES FROM THE COLLEGE OF NATURAL SCIENCES AND MATHEMATICS: ONE FROM THE SCIENCES (BIOLOGY, CHEMISTRY, GEOLOGY, OR PHYSICS), AND ONE FROM MATH; ONE FROM THE COLLEGE OF LIBERAL ARTS ENGLISH DEPARTMENT; AND ONE EACH FROM RURAL STUDENT SERVICES, THE ACADEMIC ADVISING CENTER, AND THE STUDENT SUPPORT SERVICES PROGRAM.

The STUDENT ACADEMIC DEVELOPMENT AND ACHIEVEMENT [[Developmental Studies]] Committee shall consider policies concerning STUDENT DEVELOPMENT AND RETENTION [[developmental education: programs, courses, instructional development, evaluation, and assessment]]. This committee will function as a curriculum council review committee for all developmental EDUCATION [[studies]] courses AND OTHER COURSES FACILITATING STUDENT PROGRESS. Discipline based developmental EDUCATION courses AND COURSES FACILITATING STUDENT PROGRESS will be reviewed by the appropriate college curriculum council before submission to this committee for review and coordination.

EFFECTIVE: Immediately

RATIONALE: The Developmental Studies committee has long had oversight of developmental courses and programs. The efforts of this committee led to the formation of the Department of Developmental Education in 2003. Now, with the department on a sound footing, the committee sees a need to redefine itself and realign its mission toward

"Student Success," a rubric for current compelling activities throughout the UAF campuses. The proposed mission change complements responsibilities already undertaken by this committee; much of the current impetus toward "Student Success" (i.e.: mandatory placement, intensive advising, supplemental instruction, mastery learning, and first-year programs) grew out of discussions and motions initiated in the current committee.

Additionally, this motion recognizes a need for a Faculty Senate committee to provide faculty oversight and input on "Student Success" initiatives that are currently administration-driven. While maintaining the committee's role in curriculum review for developmental courses, a revised mission for the current Developmental Studies Committee will fill a gap in the current Faculty Senate committee structure and further signal strong investment in the principles of student academic development and achievement. Furthermore, it will add new practicable perspectives on "student success" issues, will monitor and oversee "student success" courses and programs, and will clearly designate a committee with a broad expertise on student academic progress, retention, and developmental education curricula and trends.

.

.

****

The UAF Faculty Senate passed the following at its Meeting #144 on May 7, 2007:

MOTION:
=======

The UAF Faculty Senate moves to approve the revised Unit Criteria for the School of Management (SOM).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the School of Management. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:
INITIAL APPOINTMENT, PERIODIC REVIEW, RE-APPOINTMENT,
PROMOTION, AND TENURE
AND
SCHOOL OF MANAGEMENT UNIT CRITERIA
STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE SCHOOL OF MANAGEMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE SCHOOL'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

.

CHAPTER I.
PURVIEW

The University of Alaska Fairbanks document, “Faculty Appointment and Evaluation Policies,” supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II.
INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor’s designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university’s stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor’s designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

.

CHAPTER III.
EVALUATION OF FACULTY FOR TENURE/PROMOTION

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND SOM UNIT CRITERIA, STANDARDS AND INDICES***, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

> Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers **WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:**

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

H. DISSEMINATE NEW IDEAS TO THE STUDENTS RESULTING FROM RESEARCH AND OTHER MANAGEMENT ACTIVITIES, SUCH AS CONSULTING AND SERVICE ON REVIEW PANELS;

***I. MENTORING STUDENTS, UNDERGRADUATES AS WELL AS GRADUATES, IN QUALITY RESEARCH ACTIVITIES*;**

J. ENGAGE IN ADVISING STUDENTS.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms.

And at least TWO of:

b. narrative self-evaluation, ***WHICH PROVIDES*** **A CLEAR STATEMENT OF TEACHING OBJECTIVES AND A SELF ASSESSMENT OF HOW THOSE OBJECTIVES ARE MET. EXAMPLES MAY INCLUDE STUDENT PROGRESS, REPRESENTED BY IMPROVEMENTS IN EARLY AND LATE SEMESTER PROJECTS, OR OTHER MECHANISMS THAT CAN DOCUMENT IMPROVEMENT, AND AN INVENTORY OF SKILLS LEARNED SELECTED FROM INDIVIDUAL STUDENTS' WORK**.

c. peer/department chair classroom observation(s).

d. peer/department chair evaluation of course materials.

e. **A CLASS PRE TEST AT THE BEGINNING OF THE SEMESTER OF NO MORE THAN TEN QUESTIONS FOLLOWED BY A POST TEST OF SIMILAR FORMAT AT THE END OF THE SEMESTER TO ASSESS STUDENT LEARNING.**

f. DOCUMENTATION OF SCORES FROM ANY NATIONALLY NORMED COURSE-SPECIFIC EXAM.

C. Criteria for Research, Scholarly, and Creative Activity Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC SOM CRITERIA FOR RESEARCH PERFORMANCE:

FOR PROMOTION TO ASSOCIATE OR FULL PROFESSOR, IT MAY BE SUFFICIENT FOR A FACULTY MEMBER TO DEMONSTRATE RESEARCH PRODUCTIVITY SINCE THE TIME OF LAST PROMOTION OF AT LEAST SIX JOURNAL ARTICLES THAT ARE EITHER SINGLE OR DOUBLE BLIND REFEREED, OR PUBLISHED IN AN EDITORIALLY REVIEWED JOURNAL OF RECOGNIZED QUALITY. ALTERNATELY, A FACULTY MEMBER MAY PUBLISH FIVE SUCH JOURNAL ARTICLES AND TWO PAPERS PUBLISHED IN LESSER FORMAT, SUCH AS PAPERS AND PROCEEDINGS. HOWEVER, A FACULTY MEMBER MAY NOT RECEIVE CREDIT MORE THAN ONCE FOR A PAPER THAT IS ESSENTIALLY THE SAME CONTENT. THOSE THAT PERFORM SIGNIFICANT PROFESSIONAL ACTIVITY AND ATTAINMENT OF PROFESSIONAL CERTIFICATION AS A CONDITION OF ACCREDITATION MAY CONSIDER A DETAILED PROFESSIONAL/INDUSTRY WORK REPORT OR DOCUMENTATION OF SUCCESSFUL COMPLETION OF A PROFESSIONAL EXAMINATION, SUCH AS C.P.A., C.F.A., OR SIMILAR ACCREDITATION.

ALL FACULTY MEMBERS MUST DEMONSTRATE AN INDEPENDENT AND COHERENT RESEARCH AGENDA. EVIDENCE OF THIS CAN INCLUDE SOLE AUTHORED PAPERS OR A CONVINCING RECORD OF INITIATION OF INDEPENDENT RESEARCH. TO DEMONSTRATE A CONSISTENT FLOW OF RESEARCH, A FACULTY MEMBER WHO HAS COMPLETED WORK BEFORE ARRIVING AT THIS UNIVERSITY CAN COUNT NO MORE THAN THREE PAPERS TOWARD PROMOTION IF THOSE PAPERS WERE PUBLISHED WITHIN SIX YEARS OF THE DATE THE CANDIDATE PETITIONS FOR PROMOTION.

D. Criteria for Public and University ServicePublic service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring of faculty.

j. Prizes and awards for excellence in university service.

K. PARTICIPATION IN STUDENT RECRUITING.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC MANAGING CRITERIA FOR SERVICE

A. ASSOCIATE PROFESSOR; POSITIVE CONTRIBUTIONS TO SCHOOL AND OR UNIVERSITY MATTERS, EFFECTIVE PROFESIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICES TO THE PROFESSION ARE EXPECTED.

B. PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF SCHOOL AND/OR UNIVERSITY PROGRAMS SUCH AS COMMITTEE LEADERSHIP OF UAF FACULTY SENATE SERVICE, A UNION COMMITTEE, AND ASSOCIATED COMMITTEES ARE EXPECTED. EFFECTIVE APPLICATION OF SERVICE INCLUDES PROFESSIONAL EXPERTISE PROVIDED TO PROFESSIONAL OR PUBLIC ORGANIZATIONS SUCH AS BUSINESS SOCIETY LEADERSHIP, REVIEWING PROPOSALS, REFEREEING MANUSCRIPTS, AND EDITING FOR PROFESSIONAL ORGANIZATIONS OR PUBLICATIONS.

4/30/07.

The UAF Faculty Senate passed the following at its Meeting #144 on May 7, 2007:

MOTION:
=======

The UAF Faculty Senate moves to approve a B.A. in Yup'ik Language and Culture (*Yupiit Nakmiin Qaneryaraat Piciryaraat-llu)*.

EFFECTIVE: Fall 2007 and/or Upon Board of Regents' Approval.

RATIONALE: See course proposals #1-3 and full program proposal #131 from the Fall 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

Requires 9 credits in language sequence, 15 credits of major course work, and 6 credits of electives. Offered through the Kuskokwim Campus.

****

BRIEF STATEMENT OF PROPOSED PROGRAM
Yup'ik Language and Culture*(Yupiit Nakmiin Qaneryaraat Piciryaraat-llu*)

A four-year Baccalaureate program in Yup'ik Language and Culture *(Yupiit Nakmiin Qaneryaraat Piciryaraat-llu*) will be made available to students who complete 120 credits in Yup'ik Language and related course work through the Kuskokwim Campus of the College of Community and Rural Development (KUC). The program is designed to accommodate students from three different backgrounds, including traditional on-campus students attending KUC, non-traditional students who have completed the 30-credit certificate or 60-credit A.A.S. in *Yup'ik Language Proficiency*, and non-traditional students who have completed the 30-credit certificate or 60-credit A.A.S. in *Native Language Education: Yup'ik Option*.

The proposed degree program will be offered through the Kuskokwim Campus only and will include traditional on campus classes as well as summer intensive and distance delivery options. Traditional on campus students will be offered the option of enrolling directly in the proposed B.A. program or one of two "feeder" programs: Certificate/AAS in *Yup'ik Language Proficiency* or Certificate/AAS in *Native Language Education*. Significant numbers of non-traditional students are already pursuing these "feeder" programs.

At the lower division level, the proposed B.A. program overlaps significantly with both "feeder" programs. This overlap is intentional and will encourage feeder program graduates (10 of whom are expected to graduate in December 2006) to pursue their baccalaureate degrees.

Most students pursuing the Certificate/AAS in either *Yup'ik Language Proficiency* or *Native Language Education: Yup'ik Option* are currently employed as teacher's aides within local school districts within the Kuskokwim Campus service area. Most of these students will be non-traditional students in the sense that they are older and often with family and job responsibilities.

These students will be unable to attend courses full-time on campus. Courses targeted explicitly at these students will be offered in summer and via distance delivery. This academically sound program will increase both the quality and quantity of Yup'ik language programming available through the schools and villages from which the students are drawn by providing them with advanced knowledge of Yup'ik language, literature, linguistics, and cultural traditions. This knowledge will in-turn enhance the teaching and learning within their own classrooms.

PROPOSED GENERAL CATALOG LAYOUT:

Yup'ik Language and Culture
(*Yupiit Nakmiin Qaneryaraat Piciryaraat-llu*)

College of Liberal Arts
Department of Alaska Native Languages
543-4500 *or* 474-7874

Degree: B.A.
Minimum Requirements for Degree: 120 credits

1. Complete the general university requirements (page __).

2. Complete the B.A. requirements (page __).

3. Complete the following program (major) requirements.*

a. Complete one of the following sequences (9 cr.):

- ESK 221 Intermediate CY Apprenticeship 1(3 cr.)
- ESK 222 Intermediate CYApprenticeship 2 (3 cr.)
- ESK 223 Intermediate CYApprenticeship 3 (3 cr.)
- or
- ESK 204 Conversational Central Yup'ik IV (3 cr.)
- ESK 205 Regaining Fluency in Yup'ik (3 cr.)
- ESK 206 Regaining Fluency in Yup'ik (3 cr.)
- or
- ESK 240 Introduction to Reading Yup'ik (3 cr.)
- ESK 250 Yup'ik Literature for Children (3 cr.)
- ESK 251 Teaching Yup'ik Reading & Writing (3 cr.)

b. Complete the following (15 cr.):

- ESK 130 Beginning Yup'ik Grammar (3 cr.)
- ESK 208 Yup'ik Composition (3 cr.)
- ESK 375 Yup'ik Philosophy and Spirituality *(Umyuarteqsaraq*) (O) (3 cr.)
- ESK 330 Central Yup'ik Literature (*Yupiit Quliraitnek Igaryaraq*) (W) (3 cr.)
- ESK 488 Documenting Cultural and Oral Traditions (*Caliarkaq*) (W) (3 cr.)

c. Complete two of the following (6 cr.):

- ANL 287 Teaching Methods for Alaska Native Languages (3 cr.)
- ANL 288 Curriculum and Materials Development for Alaska Native Languages (3 cr.)
- ANS 111 History of Alaska Natives (3 cr.)
- ANS/ANTH 242 Native Cultures of Alaska (3 cr.)
- ANS/ANTH 320 Language & Culture (3 cr.)
- LING 402 Second Language Acquisition (3 cr.)
- LING 410 Theory and Methods of Language Teaching (3 cr.)
- LING 450 Language Policy and Planning (O) (3 cr.)
- ESK 230 Introduction to Interpreting and Translating I (3 cr.)
- ESK 231 Introduction to Interpreting and Translating II (3 cr.)
- ESK 240 Introduction to Reading Yup'ik (3 cr.)
- ESK 250 Yup'ik Literature for Children (3 cr.)
- ESK 251 Teaching Yup'ik Reading & Writing (3 cr.)

*Student must earn a *C* or better in each course.

The UAF Faculty Senate passed the following at its Meeting #144 on May 7, 2007:

MOTION:
=======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2006. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 7, 2007

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

..

.

The UAF Faculty Senate passed the following at its Meeting #143 on April 9, 2007

RESOLUTION OF RECOGNITION

FOR THE

UAF RIFLE TEAM

WHEREAS, The UAF Rifle Team won its ninth NCAA championship title in March 2007, and

WHEREAS, The UAF Rifle Team successfully hosted the first NCAA Championship tournament in the state of Alaska, and

WHEREAS, The UAF Rifle Team won the national title with a team aggregate score of 4,662 (air rifle and smallbore), and

WHEREAS, The UAF Rifle Team was led by Christian Lejon, Matthias Dierolf, Matt Rawlings, and Patrik Sartz, and

WHEREAS, six team members were named All-Americans with Dierolf, Lejon, Rawlings and Sartz earning first-team honors in air rifle and Becky Hershberger received second-team honors. First-team honors in smallbore went to Dierolf, Lejon and Rawlings and Sartz and Jace Bures earned second-team honors, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate congratulates the 2006-2007 UAF Rifle Team as NCAA champion and commends the team's superior performance.

****

The UAF Faculty Senate passed the following at its Meeting #143 on April 9, 2007:

MOTION:
=======

The Faculty Senate moves to modify the "Guidelines for the Evaluation Process for Administrators" (Senate Meeting #115, 2003):

Group B Administrators:

In addition to being reviewed annually by his/her immediate Supervisor, "Group B" administrators are to undergo a 3-year comprehensive review. At a time designated by the Supervisor during the fall semester of the academic year of comprehensive review, the "Group B" administrator will submit a self-evaluation report to his/her Supervisor. The self-evaluation shall include: (1) comments on the annual performance evaluations; (2) a summary of his/her notable activities/accomplishments in the previous years; and (3) a statement of relevant goals/objectives relative to assigned or planned administrative duties for the upcoming years. The Supervisor's evaluation shall include faculty and/or staff opportunity for comment on the "Group B" administrator's performance. Comments received shall be referenced in anonymous and aggregate summary in the written evaluation provided to the "Group B" administrator. The Supervisor will include, as part of the written evaluation, an appended workload assignment and/or statement of performance expectations for the "Group B" administrator for the subsequent review period. A copy of the Supervisor's review, along with a summary statement of the process used to assure faculty/staff input into the evaluation, will be forwarded to the Faculty Senate Office by March 15 of the academic year the "Group B" administrator is scheduled for review.

The Faculty Appeals & Oversight Committee shall review the written evaluation in performance of its oversight function in administrator review.

The following criteria will be used to determine which administrators are placed on or removed from the "Group B" list. As vacancies and appointments occur, changes to the list shall be determined annually by the Provost in consultation with the Faculty Senate President.

• "Group B" administrator responsibilities must be administrative in nature.
("Group B" administrators must not be Union members, UNAC or ACCFT).

• "Group B" administrators report to "Group A" administrators.
("Group A" administrators report to the Chancellor, Provost, or a Vice Chancellor.)

• "Group B" administrators supervise faculty and are involved in faculty performance reviews.

A current list of both "Group A" and "Group B" administrators follows.

"Group A" Administrators (report to Chancellor, Provost or a Vice Chancellor)

Braddock	Joan	CNSM	Dean
Barnes	Brian	IAB	Director
Henrichs	Susan	Graduate School	Dean
Huesmann	James	Library	Dean
Joseph	Bernice	CRCD	Vice Chancellor
Hinzman	Larry	IARC	Director
Jonaitis	Aldona	Museum	Director
Lewis	Carol	SNRAS	Dean
Madsen	Eric	SOED	Dean
Marr	Wayne	SOM	Dean
Morrow	Phyllis	CLA	Dean
Reichardt	Paul	Provost	
Sharpton	Virgil "Buck"	Vice Chanc. for Research	
Smith	Roger	GI	Director
Wiesenburg	Denis	SFOS	Dean
Williams	Frank	ARSC	Director
Vacant/Acting		CEM	Dean

"Group B" Administrators (report to the above "Group A" administrators)

Allee	Brian	SFOS Sea Grant	Director
Castellini	Michael	SFOS IMS	Assoc. Dean
Caulfield	Rick	TVC	Director
Christie	David	SFOS GURU	Director
Connor	Billy	CEM, INE	Director
Cullenberg	Paula	SFOS MAP	Program Leader
Foote	Victoria	RC Health Programs	Director
Happ	George	IAB, INBRE	Program Dir.
Haugen	Lee	NWC	Director
Horner-Miller	Barbara	ARSC	Assoc. Dir.
Johnson	Clara	IAC	Director
Karulkar	Pramod	DPP, OEM	Director
Labelle-Hamer	Annette	GI Remote Sensing (ASF)	Director
Madison	Curt	CDE/IL	Director
McLean	Deborah	BBC	Director

Mitchell	G. Allen	AFES	Assoc. Dir.
Mohatt	Gerald	IAB, CANHR	Director
Pete	Pinney	CES	Interim Director
Pete	Mary	KUC	Director
Pullar	Gordon	CRCD, DANRD	Director
Saito	Linc	CC	Director
Vacant/Acting		SFOS, FITC	Director
Smoker	William	SFOS Fisheries	Director
Sugai	Susan	IARC	Assoc. Dir.
White	Daniel	CEM, INE	Director
Whitledge	Terry	SFOS, IMS	Director

EFFECTIVE: Fall Semester 2007

RATIONALE: Because of the lack of uniform and consistent review of Group B administrators, the need for adequate criteria for identification of administrators in this category, the need to assure annual as well as comprehensive review with faculty/staff input, and the need to diminish Faculty Appeals & Oversight direct control of the process, the Faculty Appeals & Oversight Committee proposes revision to the process as stipulated.

****

The UAF Faculty Senate passed the following at its Meeting #143 on April 9, 2007

MOTION:
=======

The UAF Faculty Senate moves to revise the requirements for how pre-majors move to major status (UAF 2006-2007 catalog, page 26 and 67) as follows:

PRE-MAJOR

If you do not meet the minimum requirements for admission to a baccalaureate degree program, you may be admitted to pre-major status within the department of your choice.

[[You may later apply for a baccalaureate degree program and will be admitted if you]] STUDENTS WHO are in good standing and have completed 14 credits at the 100-level or above with a C grade average (2.0) or higher, of which 9 credits must satisfy [[general]] baccalaureate [[degree]] CORE requirements SHALL BE MOVED TO MAJOR STATUS.

EFFECTIVE: Fall 2007

RATIONALE: This is proposal is being submitted upon recommendation of the Dean's Council. The phrase *general baccalaureate degree* is not well defined. For example, a student could take 14 credits of electives such as ABUS courses that may not count toward any specific baccalaureate program. We would like to see progress toward baccalaureate completion for pre-majors to move to major status.

Pre-majors are typically of two types; first year students who are under prepared with respect to their high school core courses and/or gpa AND

transfer students whose gpa is low. Transfer students who transfer 14 credits (C or better) with 9 credits in courses counting toward the Core would simply have to achieve good standing (C gpa) to be moved to major status.

NOTE: We no longer make pre-majors reapply for their specific four-year degree program. The Assistant Provost reviews pre-majors at the end of each semester and moves those who qualify for major status by sending a list to the registrar. A letter of congratulations is sent to these students.

****

The UAF Faculty Senate passed the following at its Meeting #143 on April 9, 2007

MOTION :
========

The UAF Faculty Senate moves to approve a policy on Retention of Course Records.

Retention of Course Records

The classroom records pertaining to course work of any student that have not been returned to the student must be retained by the instructor for a period of one full semester (excluding summer session) after the semester in which the course was completed. These records may include but are not limited to: exams and answer sheets, homework, course papers, term papers, essays, laboratory reports, and other assignments submitted by the student in order to fulfill the requirement of the particular course. The Office of Information Technology must archive all Blackboard course content, including statistics, for a period of 1 1/2 years following completion of the course.

Classroom records of any instructor for the purpose of evaluation of grade must also be retained for a period of at least one full semester (excluding summer session) following the semester in which the course was competed. These records may include but are not limited to: syllabus, class attendance, complete list of student's performance in all relevant course work, paper work related to the determination of a grade, and a record of final grades.

In case of any dispute or grievance process initiated by the student all the above records must be retained until the end of the process. Any records or copies of records that are required for program review, accreditation purposes, or any other audit as mandated by the university may be retained for a period as deemed required by the process.

After the retention period, all records may be destroyed or properly discarded.

EFFECTIVE: Fall 2007

RATIONALE: The University does not have any policies or regulations regarding the retention of course materials, which has led to confusion among the faculty and has resulted in different retention practices and polices across the disciplines. This proposed motion will help alleviate the confusion and provide a uniform retention policy across all disciplines. The one-semester guideline is what was suggested by UA General Counsel as a reasonable policy to accommodate grade appeals. This policy should be added to the faculty handbook.

****

The UAF Faculty Senate passed the following at its Meeting #143 on April 9, 2007

MOTION:
=======

The UAF Faculty Senate moes to confirm Marsha Sousa and Larry Roberts as the 2007 Outstanding Senators of the Year.

EFFECTIVE: Fall 2007

****

The UAF Faculty Senate passed the following at its Meeting #143 on April 9, 2007

RESOLUTION:
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of President-Elect on the basis of the following ballot.

BALLOT

PRESIDENT-ELECT

Please vote for ONE individual to serve as the President-Elect of the UAF Faculty Senate for 2007-2008.

___ Jonathan Dehn

_X__ Marsha Sousa

The UAF Faculty Senate passed the following at its Meeting #142 on March 5, 2007

MOTION:
=======

The UAF Faculty Senate moves to amend the minimum grade requirement for graduate students as follows:

[[ ]] - Deletion
CAPS - Addition

UAF Catalog, 2006-2007, Page 176:

How to Earn a Graduate Degree

General University Requirements

• Grades and Grade Point Average (GPA)

You must have a cumulative GPA of 3.0 (B) in the courses identified on your Advancement to Candidacy form to remain in good standing and in order to graduate. You must earn a[[n A or B grade]] (3.0) OR BETTER GRADE (no P grades) in 400-level courses; a (2.0) C grade will be accepted in 600-level courses for the purposes of satisfying degree requirements, provided you remain in good standing.

• Deficiencies

Your advisory committee may require that you remedy certain deficiencies in your program. Your committee will determine early in the program both how to remedy the deficiencies and the minimum level of performance required of you. Graded undergraduate courses taken to remedy a deficiency must receive a grade of (3.0) B or better. Deficiency courses are not listed on the Advancement to Candidacy form.

UAF Catalog, 2006-2007, Page 178:

Advancement to Candidacy

Advancement to candidacy formally establishes your specific degree requirements and should be done as soon as possible after qualifying. At the latest, you should submit your application for advancement to candidacy one semester before you are awarded your degree. If you are completing your programs primarily during the summer sessions, you should submit your application the summer session before you are awarded your degree.

The finalized Graduate Study Plan should be the basis for completing the Advancement to Candidacy form. The GPA for all courses listed on the Advancement to Candidacy form must be ≥3.0, and no graduate courses with grades below (2.0) C, or undergraduate courses with grades below (3.0) B, can be used.

Admission to graduate study does not imply advancement to candidacy for a degree. The graduate advisory committee has the option of refusing to recommend a student to candidacy.

EFFECTIVE: Fall 2007

RATIONALE: These changes clarify that the minimum requirement is a 3.0 B grade rather than a B- for all 400 level courses and a C (2.0) grade rather than a C- for all 600-level courses. Student must still maintain a 3.0 overall GPA for the Advancement to

Candidacy. Individual departments may choose to establish different criteria or to petition the requirements for a particular student

****

The UAF Faculty Senate passed the following at its Meeting #142 on March 5, 2007:

MOTION:
=======

The UAF Faculty Senate moves to endorse the "Report of the Developmental Education Implementation Task Force to the Vice-Chancellor for Rural, Community and Native Education on Recommendations for Improving Developmental Education at UAF."

EFFECTIVE: Immediately

RATIONALE: The task force report, besides providing a historical overview of actions to highlight and improve developmental education delivery at UAF, signals that the Department of Developmental Education is charged with spearheading immediate and long-term activities and requires appropriate funding levels to accomplish those activities. The report's eight (8) recommendations sketch what the Department of Developmental Education needs to address for its own hiring and internal review in order to achieve data-gathering goals, to implement effective pedagogy, to integrate student support services, and to interface curricula so that departments work together for student success.

****

The UAF Faculty Senate passed the following at its Meeting #142 on March 5, 2007

MOTION:
=======

The UAF Faculty Senate moves to amend the Grade Error Policy (2006-2007 UAF Catalog, page 75) to add clarification that this in not an appeal of an academic decision.

[[ ]] - Deletion
CAPS - Addition

Grade Error Policy

A grade, other than an incomplete or deferred, submitted by your instructor after a course is completed, is your final grade and becomes part of your permanent academic record. Your grade will not be changed unless your instructor made a legitimate error in calculating the grade. If you believe an error has occurred contact your instructor. Grading errors must be corrected within 30 class days after the beginning of the next regular semester, and must be approved by the instructor's department head and dean. THIS IS NOT AN APPEAL OF AN ACADEMIC DECISION.

EFFECTIVE: Immediately

RATIONALE: Wording that clarifies that this is not an appeal of an academic decision is needed.

****

The UAF Faculty Senate passed the following at its Meeting #142 on March 5, 2007

MOTION:
=======

The UAF Faculty Senate moves to amend the Transfer credit policies, stated on page 32 of the 2006-2007 UAF Catalog, as follows:

[[ ]] = Deletion
CAPS = Addition

Transferring Credits

4. Any student who has completed a bachelor's degree from a regionally accredited institution will be considered to have completed the equivalent of the baccalaureate core AND THE ASSOCIATE OF ARTS CORE when officially accepted to a baccalaureate degree program OR ASSOCIATE OF ARTS PROGRAM at UAF. FURTHER, THOSE STUDENTS WILL ALSO BE CONSIDERED TO HAVE COMPLETED THE EQUIVALENT OF THE COMMUNICATION, COMPUTATION AND HUMAN RELATIONS REQUIREMENTS FOR THE ASSOCIATE OF APPLIED SCIENCE AND THE CERTIFICATE.

EFFECTIVE: Immediately

RATIONALE: The catalog already states that a student transferring in with a Bachelor's degree has met core requirements for the Baccalaureate. Since the core (for AA) or the communications, computations and human relations (AAS and Certificate) requirement are less than the core for the Baccalaureate Degree, it is logical to state that those requirements have also been met. This motion will help alleviate the large number of petition received for these situations.

****

The UAF Faculty Senate passed the following at its Meeting #142 on March 5, 2007

MOTION REFERRED BACK TO COMMITTEE:
==========

The UAF Faculty Senate moves to approve a policy on Retention of Course Records.

Retention of Course Records

The classroom records pertaining to course work of any student that have not been returned to the student must be retained by the instructor for a period of one full semester (excluding summer session) after the semester in which the course was completed. These records may include but are not limited to: exams and answer sheets, homework, course papers, term papers, essays, laboratory reports, and other assignments submitted by the student in order to fulfill the requirement of the particular course.

Classroom records of any instructor for the purpose of evaluation of grade must also be retained for a period of at least one full semester (excluding summer session) following the semester in which the course was competed. These records may include but are not limited to: syllabus, class attendance,

complete list of student's performance in all relevant course work, paper work related to the determination of a grade, and a record of final grades.

In case of any dispute or grievance process initiated by the student all the above records must be retained until the end of the process. Any records or copies of records that are required for program review, accreditation purposes, or any other audit as mandated by the university may be retained for a period as deemed required by the process.

After the retention period, all records may be destroyed or properly discarded.

EFFECTIVE: Fall 2007

RATIONALE: The University does not have any policies or regulations regarding the retention of course materials, which has led to confusion among the faculty and has resulted in different retention practices and polices across the disciplines. This proposed motion will help alleviate the confusion and provide a uniform retention policy across all disciplines. The one-semester guideline is what was suggested by UA General Counsel as a reasonable policy to accommodate grade appeals. This policy should be added to the faculty handbook.

RESOLUTION

ON

April 3rd Advisory Vote

WHEREAS, The Constitution of Alaska states that "all persons are equal and entitled to equal rights, opportunities, and protection under the law" (Article 1, Section 1); and

WHEREAS, discrimination against faculty and staff on the basis of marital status and other statuses is expressly prohibited by the University of Alaska Board of Regents Statement of Non-discrimination; and

Whereas, the UAF Faculty Senate affirms the importance of complying with university non-discrimination policies as well as upholding our State's Constitution; and

Whereas, the voters of Alaska on April 3, 2007, will decide whether to place a proposed Constitutional Amendment on the ballot in 2008 that would "prohibit the state, or a municipality or other subdivision of the state, from providing employment benefits to same-sex partners of public employees and to same-sex partners of public employee retirees"; and

WHEREAS, the Constitutional Amendment, if passed would render the Constitution internally inconsistent, simultaneously asserting and denying equal rights, opportunities and protection under the law; and

WHEREAS, the Constitutional Amendment, if passed, would compel the university to deny financially interdependent partners (FIPs) health insurance benefits, tuition waivers, faculty housing, library cards, and other opportunities and benefits currently offered other similarly situated persons under university policy; and

WHEREAS, the aforementioned consequences would prohibit the university from complying with its own policies of non-discrimination as well as require the university to violate both the spirit and the letter of the Alaska Constitution as it was written; and

WHEREAS, the Faculty Senateaffirms thatproviding insurance and other benefits to FIPs is a valuable way to recruit and retain excellent faculty and staff; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate is opposed to the April 3rd Advisory Vote and to any proposed Constitutional Amendment that would abridge the rights of faculty and staff; and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate commends the University of Alaska statewide administration for its ongoing support of financially interdependent partner (FIPs) benefits.

****

The UAF Faculty Senate passed the following at its Meeting #142 on March 5, 2007

MOTION:
=======

The UAF Faculty Senate moves to amend the Governance Coordinating Committee (GCC) Procedures to add the Joint Committee on Student Success as a Standing Committee. The GCC Procedures shall be amended as indicated below.

EFFECTIVE: Immediately

RATIONALE: The Governance Coordinating Committee passed a resolution calling for a Joint Committee on Student Success. Committee members agreed that a collaborative, shared leadership among administrators, students, faculty, and staff is a key component to creating campus environments that foster student success. The GCC Procedures call for amendments to be approved by a two-thirds vote from each of the three governance bodies: ASUAF, Faculty Senate, and Staff Council.

****

Deletions - [[ ]]
Additions - CAPS

UAF GOVERNANCE COORDINATING COMMITTEE

PROCEDURES

ARTICLE V Committees

Sect. 1 The standing committees of the UAF Governance Coordinating Committee shall include:

JOINT COMMITTEE ON STUDENT SUCCESS

Sect. 2 A. Standing committees shall have at least one representative from each of the governance constituencies, exception will be made when

agreed upon by all constituencies.

B. Terms of all committee members will be one year for students and two years for faculty and staff.

C. Committee chairs will be elected from and by the respective committees.

D. Committee chairs shall forward committee business to the UAF Governance Coordinating Committee for disposition, except when limited by University of Alaska regulations.

E. Policy items from the standing committees must be forwarded to the individual governance bodies for action.

F. In addition to the committees' specific charges, the primary responsibility of the committees are formulation and oversight of university-wide policies under the purview of each committee.

G. Committees will meet as needed during the academic year to fulfill their duties.

H. The chairs of the standing committees will report recommendations at the [[monthly]] UAF Governance Coordinating Committee meetings.

Sect. 3 Standing Committees Charges

A. JOINT COMMITTEE ON STUDENT SUCCESS

THE CHARGE OF THE JOINT COMMITTEE ON STUDENT SUCCESS SHALL BE TO:

1. CREATE A CAMPUS ENVIRONMENT THAT FOSTERS STUDENT SUCCESS.

2. WORK COLLABORATIVELY TO RECOMMEND STUDENT-FRIENDLY POLICIES, PRACTICES AND COMPLEMENTARY PROGRAMS THAT PROMOTE AND ENHANCE STUDENT SUCCESS AT UAF.

3. EX-OFFICIO MEMBERS OF THE COMMITTEE SHALL INCLUDE A REPRESENTATIVE FROM THE CHANCELLOR'S CABINET AND THE PROVOST COUNCIL.

Sect. 4 Ad Hoc Committees may be established as demand warrants.

Sect. 5 The Governance Coordinating Committee will receive reports from other committees outside its control who are also concerned with campus issues. Examples include: police advisory board, technology board, one-card committee, and any other committee deemed relevant to faculty, staff, and students.

The UAF Faculty Senate passed the following at its Meeting #142 on March 5, 2007

RESOLUTION TO NAME THE NATURAL SCIENCES FACILITY

THE

PAUL B. Reichardt BuILDING

WHEREAS, Paul Reichardt has served UAF in many roles for 35 years in a manner deserving of the University of Alaska's greatest admiration and respect; and

Whereas, Paul Reichardt has served as Professor of Chemistry from 1972-1990; and

Whereas, Paul Reichardt has served as Dean of the College of Natural Science from 1990-1998; and

Whereas, Paul Reichardt was instrumental in planning the building of the Natural Sciences Facility and getting the funding from the State Legislature necessary for the furnishing of the Natural Sciences Facility; and

Whereas, Paul Reichardt served as Director of the Museum, 1993, and was very supportive of the UA Museum of the North's expansion project and the fund raising campaign; and

Whereas, Paul Reichardt has served as Interim Provost, 1993, and from 1998 to present as Provost demonstrating a commitment to graduate and undergraduate education; and

WHEREAS, Paul Reichardt helped develop UAF 2005 and produced UAF's Academic Development Plan that resulted in useful and practical guidelines for a variety of endeavors helping establish a basis by which decisions about programs, budget and space assignments are made and helps us to obtain state funding; and

WHEREAS, Paul Reichardt, while Provost, led significant UAF efforts resulting in 2006 institutional reaffirmation of accreditation with no subsequent reports, a relatively uncommon event among institutions of higher education; and

WHEREAS, Paul Reichardt has served on various Statewide Committees, and other university committees representing the interests of UAF faculty to the administration of UAF and statewide; and

Whereas, Paul Reichardt has established the Academic Leadership Institute where faculty, staff and administrators spend time studying and talking about academic leadership; and

Whereas, Paul Reichardt hasbeen one of UAF's most consistent and significant donors, donating $139,711.10 since 1974; and

WHEREAS, the UAF Faculty Senate wishes to acknowledge the outstanding service rendered to the faculty and the University by the work of Paul Reichardt as he concludes his term as Provost, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate respectfully requests that UAF's Natural Science Facility be named for Paul B. Reichardt as an acknowledgement of his exemplary service and philanthropy to the university.

The UAF Faculty Senate passed the following at its Meeting #141 on February 5, 2007

MOTION:
=======

The UAF Faculty Senate moves to define academic credit for practicum, internship, or scholarly activity as follows (2006-2007 UAF Catalog, page 221):

[[ ]] - Deletion
CAPS - Addition

COURSE CREDITS

One credit represents satisfactory completion of 800 minutes of lecture or 1600 or 2400 minutes of laboratory (OR STUDIO OR OTHER SIMILAR ACTIVITY), whichever is appropriate. (IT IS UNDERSTOOD THAT AN AVERAGE STUDENT WILL BE EXPECTED TO SPEND 1600 MINUTES OF STUDY AND PREPARATION OUTSIDE OF CLASS IN ORDER TO MEET THE LEARNING OBJECTIVES FOR THE UNIT OF CREDIT IN LECTURE.)

THE FOLLOWING STANDARDS ESTABLISH THE MINIMUM REQUIREMENTS FOR AN ACADEMIC UNIT OF CREDIT:

1. 800 MINUTES OF LECTURE (PLUS 1600 MINUTES OF STUDY)
2. 1600 OR 2400 MINUTES OF LABORATORY (OR STUDIO OR OTHER SIMILAR ACTIVITY)
3. 2400 - 4800 MINUTES OF SUPERVISED PRACTICUM
4. 2400 - 8000 MINUTES OF INTERNSHIP (OR EXTERNSHIP, CLINICAL)
5. 2400 - 4800 MINUTES OF SUPERVISED SCHOLARLY ACTIVITY

Credit hours may not be divided, except one-half credit hours may be granted at the appropriate rate. For short courses and classes of less than one semester in duration, course hours may not be compressed into fewer than three days per credit. Any course compressed into fewer than six weeks must be approved by the college or school's curriculum council. Furthermore, any core course compressed to less than six weeks must be approved by the core review committee.

Following the title of each course, the number of credits is listed for each semester. Thus "3 credits" means three credits may be earned. Credit may not be given more than once for a course unless a course has been designated as repeatable for credit. Figures in parentheses at the end of course descriptions indicate the number of lecture; [[and]] laboratory; AND PRACTICUM, INTERNSHIP, OR SCHOLARLY ACTIVITY hours the class meets each week for one semester. The first, lecture hours; the second, laboratory, AND THE THIRD PRACTICUM, INTERNSHIP OR SCHOLARLY ACTIVITY. For example (2+3) indicates that a class has two hours of lecture and three of laboratory work each week. A DESIGNATION (1 + 0 + 6) INDICATES THAT THE COURSE MEETS FOR ONE HOUR EACH WEEK OF LECTURE AND 6 HOURS EACH WEEK OF PRACTICUM, INTERNSHIP OR OTHER SCHOLARLY ACTIVITY.

EFFECTIVE: Fall 2007

RATIONALE: With an increased number of programs requiring supervised work experiences prior to graduation, often to meet national standards, it has become important to establish some guidelines for awarding credit for these learning experiences outside of the traditional classroom. The guidelines proposed are broad as is the terminology (internship, externship, scholarly activity) so they may encompass the variety of traditions and requirements in individual fields of study, as well as requirements of external accrediting agencies (NCATE, CAAHEP, etc.)

****

The UAF Faculty Senate passed the following at its Meeting #141 on February 5, 2007:

MOTION:
=======

The UAF Faculty Senate moves to amend the Residency Requirements for the Baccalaureate degree (2006-2007 UAF Catalog, p. 112).

CAPS = additions
[[ ]] = deletions

How to Earn a Baccalaureate Degree

<u>General University Requirements</u> (p. 112)

For a UAF bachelor's degree, you need at least 120 semester credits, including transfer credits. Of these, 39 credits must be upper-division (300-level or above) OF WHICH 24 MUST BE UA RESIDENCE CREDITS AND 15 MUST BE UAF CREDITS.

At least 30 semester credits applicable to any baccalaureate degree must be earned at UAF. Transfer students need to earn at least 24 upper-division semester credits at UA OF WHICH 15 MUST BE UAF CREDITS. TRANSFER STUDENTS MUST EARN at least 12 semester credits in the major and at least 3 semester credits in the minor.

Table 19 **General University Requirements for Baccalaureate Degrees**

Minimum number of credits required	120 credits
Credits earned at UAF (residence credit)	30 credits
Upper -division credit (courses with numbers between 300 and 499)	39 credits total (some degrees require more); 24 of the 39 must be earned at UA AND 15 AT UAF
Additional UAF credit that must be earned by transfer students	12 credits in the major; 3 credits in the minor
Grade point average required	2.0 cumulative and in major and minor
Minimum grades required for major	No grade lower than C**<u>(2.0)</u>** in courses required for major
Catalog year that can be used to determine requirements	May use any catalog in effect when enrolled as a degree-seeking student, regardless of major; seven-year limit on catalog year
Second degree requirements	24 credits beyond the first baccalaureate degree and all requirements for the second degree must be met

EFFECTIVE: Fall 2007

RATIONALE: The purpose of the proposed change is to allow more flexibility for students transferring between MAUs of the University of Alaska.

****

The UAF Faculty Senate passed the following at its Meeting #141 on February 5, 2007

MOTION:
=======

The UAF Faculty Senate moves to approve a Certificate in Power Generation.

EFFECTIVE: Fall 2007 and/or Upon Board of Regents approval

RATIONALE: See course proposals #126-129 and full program proposal #130 from the Fall 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

Program is composed of general certificate requirements and 29 credits in PGEN, PRT and WMT courses for a total of 38 credits

****

Statement of Proposed Program:

The power generation program will help students develop entry-level skills needed in industrial and commercial electrical power generation and maintenance. Courses combine the technical know-how and hands-on experience necessary to develop entry level workers in a variety of power generation and industrial fields. In the classroom students will become familiar with the operation and maintenance of the standard equipment encountered in the power generation industry.

Proposed General Catalog Layout

Certificate Program Power Generation

1. Complete the general university degree requirements (page 80)
2. Complete the certificate requirements (page 82)
3. Complete the following program requirements:

PGEN 101 – Intro to Power Generation, Distribution & Alternative Energy …3
PGEN 102- Basic Electricity for Power Generation Operators 4
PGEN 103 – Introduction to Power Generation: Maintenance……. . . . . …4
>PGEN 104 – Gas & Steam Turbines; Co-Generation and Combined Cycle Technologies...4
PRT 110 – Introduction to Occupational Safety,
Health and Environmental Awareness……. . . . . ….3
PRT 120 – Water Quality Management for Process Industries. . ……...4
PRT 140 – Industrial Process Instrumentation I. . ……..3
WMT 101 – Introduction to Welding . . ……..4

4. Minimum credits required 38

University of Alaska Board of Regents

Program Approval Summary Form

MAU: UAF – TVC/CRA

Title: Power Generation

Target admission date: Fall 2007

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

TVC has long had a concentration in power generation under the former Maintenance Technology degree. In addressing emerging needs in Fairbanks and Interior Alaska, TVC's Process Technology advisory committee and academic leadership identified the need to expand this to a certificate program meeting high-growth, high-demand job requirements. The advisory committee is comprised of representatives from the various industries and businesses within the Interior who work closely with the Process Technology program to identify the needs for this program. In surveying these members, it became clear that the practice for filling vacant power generation positions within Alaska was to hire from Outside. By offering this program locally, in conjunction with a current articulation agreement with the Operators Local Union #302, industry partners will no longer need to go outside the State of Alaska to fill these positions and we will be meeting our mission of training Alaskans for Alaska's jobs.

The proposed 38-credit Certificate in Power Generation will enable the University to fulfill its mission through advancing and disseminating knowledge of commercial and industrial type power generation practices by creative teaching to diverse people. Specifically, courses will be coordinated across multiple MAUs and offered through a variety of instructional methods consistent with current accredited teaching and delivery methodologies, practices and standards. The content of the courses is relevant to the power generation field and consistent with current national standards as reviewed by the Center for the Advancement of Process Technology (CAPT) and Alaska Process Industry Careers Consortium, with core content building towards the Operating Engineers Journeyman rating.

Currently, there will be no impact on existing programs and units across MAU and system, including GERs.

What **State Needs** met by this program.

It is important for Alaska business and industry to provide safe automated working environments for all workers in Alaska. This provision creates less injury in the workplace which in turn equates to quality life experiences, as it reduces insurance costs and costs in remedial education retraining and costly social services later in life. The quality and existence of the safe automated working environment is directly linked to the education of the skilled technician as the individual responsible for calibration and set-up of highly technical, sensitive monitoring and control equipment. More automated systems are implemented daily throughout the state of Alaska and these automated industries and systems require highly trained and skilled individuals. Research has shown that education of power generation technicians reduces the level of equipment damage and injury as well as reducing the number accidents that occur in the workplace.

It is in the best fiscal interests of the state to have high quality programs and training in power generation, maintenance, calibration and set-up of fully automated industrial power generation systems.

There is currently a shortage of qualified power generation operators and maintenance technicians and managers in the state of Alaska. Industry growth and natural resource development in the state increases the number of working environments which will in turn increase demand and employment opportunities, for qualified power generation operators and power generation maintenance technicians.

What are the **Student** opportunities and outcomes? Enrollment projections?

The UAF certificate in power generation was requested by the industries in the interior region. The initial promotion of the program was proposed by the Golden Valley Electric Association (GVEA) and the Operating Engineers Local 302. Many of the current students of the proposed certificate want greater knowledge in this field, and in many cases it is required for their jobs. Since there is no relevant degree or certificate/training program available here, they go to Valdez or out of state, seek a less satisfying degree or training or change careers completely, or leave the university with unfulfilled career aspirations unprepared for the more challenging positions in the power generation profession.

Based on current needs, industry growth and projections Alaska will continue to suffer shortages in the workforce in all sectors including power generation technicians and related positions.

National surveys provided by CAPT indicate shortages in power generation operators and power generation maintenance professionals in all industries on a national scale. Operating Engineers Local 302 has also indicated that training individuals in conjunction with UAF to enter their ranks as a means of meeting the needs of industry, by addressing both attrition and industry expansion.

Alaska has high potential for workforce expansion. According to the Alaska State Department of Labor, there are nearly 10,000 new jobs in industry settings being developed with known projected projects in the state. All of these industries will require power generation maintenance technicians to monitor, regulate, and calibrate and automated systems for Alaska's power generation industries.

With the trends in the profession for the last 30 years, the new automation systems within industry identified by industry and the Department of Labor indicate a well established need now, and for the foreseeable future, for trained power generation operators and power generation maintenance technicians. With the aging workforce and projected industry growth and development the need for additional trained power generation operators has never been more urgent.

Describe **Research** opportunities:

N/A

Describe Fiscal Plan for development and implementation:

Three year funding for the project is coming from the USDOL Project Northern Wave Grant (Fast Track Training). By developing this program over the 3 year grant period we will be building capacity. We anticipate the program to be self-sustaining through student tuition, industry partner support and general fund money through the Process Technology Program, which shares courses and adjuncts with the Power Generation Program.

The UAF Faculty Senate passed the following at its Meeting # 140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to require general studies students with 75 or more earned credits to declare a major prior to registration.

EFFECTIVE: Fall 2008

RATIONALE: Encouraging students to declare a major as soon as possible is believed to improve retention and graduation rates (see, for example, www.pellinstitute.org/graduates/Pell_Web.pdf). General studies students at UAF, those baccalaureate degree seeking students who have not declared a major, have the lowest retention rate at our institution. 139 out of the 523 (27%) first time full time baccalaureate seeking freshmen were general studies students fall semester 2005. While advisors generally encourage students to select a major, many students do not do so in a timely fashion. In 2005-06 UAF had 44 general studies students with more than 90 credits and 111 with more than 60 credits. It is not uncommon for general studies students with more than 120 credits to request interdisciplinary undergraduate degrees based upon what they have taken rather than pursuing some well thought-out curriculum. The intent of this motion is to reduce time to degree and raise graduation rates by pushing students into selecting a major so they have a clear idea of what will be required of them to complete a degree. The motion does not distinguish between developmental and non developmental course credits. No change in the ability of students to change their major is proposed. New transfer students with more than 45 credits would have 30 credit hours, approximately two semesters, to select a major. This motion does not impact full time students who are officially non degree seeking but are clearly enrolled in courses related to specific degree programs.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve the deletion of the M.S. in Botany degree.

EFFECTIVE: Fall 2007 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposal #12 from the Fall 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

UAF offers a M.S. in Biology, which is an adequate alternative to the M.S. in Botany, only four students are enrolled in the program.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve the deletion of the M.S. in Zoology degree.

EFFECTIVE: Fall 2007 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposal #13 from the Fall 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

UAF offers a M.S. in Biology, which is an adequate alternative to the M.S. in Zoology, only one student is enrolled in the program.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve a M.F.A /M.A. in Creative Writing and Literature degree program.

EFFECTIVE: Fall 2007

RATIONALE: See full program proposal #1 from the Fall 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

Allow a student to acquire the MFA/MA in Creative Writing and Literature by taking 30 required credits for the MA in Literature, plus taking 15 additional credits to fulfill the 45 credit requirement for the MFA in Creative Writing.

****

MFA/MA Summary

The M.F.A./M.A. in creative writing and literature combines the M.A. in literature and the M.F.A. in creative writing, both of which are currently offered by English Department faculty. We propose that the student be permitted to acquire the M.F.A./M.A. in creative writing and literature by taking the 30 credits required for the M.A. in literature, and then taking the 15 additional specified credits which (when added to the 30 credits for the M.A.) would also fulfill the 45 credit course requirements for the M.F.A. in creative writing. The M.F.A./M.A. will also require comprehensive examinations, a thesis, and an oral defense of thesis.

The M.F.A./M.A. in creative writing and literature is not a separate degree. It is a combination of two degrees offered by the English Department, the M.F.A. in creative writing and the M.A. in literature. The M.F.A./M.A. is similar to the UAF undergraduate double-major which allows a student to acquire, for example, a B.A. in literature and history by filling the requirements for both degrees, and allowing double counting of common degree requirements.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Foreign Languages & Literature.

EFFECTIVE: Immediately, Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Department of Foreign Languages & Literature. With some changes, agreed upon by the college representative, the unit criteria were found to be consistent with UAF guidelines.

****

UNIVERSITY OF ALASKA FAIRBANKS

REGULATIONS FOR THE

APPOINTMENT AND EVALUATION OF FACULTY

AND

DEPARTMENT OF FOREIGN LANGUAGES & LITERATURES UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE DEPARTMENT OF FOREIGN LANGUAGES. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT OF FOREIGN LANGUAGES FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND DEPARTMENT OF FOREIGN LANGUAGES UNIT CRITERIA, STANDARDS AND INDICES,*** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

FACULTY IN FOREIGN LANGUAGES ARE REQUIRED TO TEACH ALL LEVELS OF THEIR LANGUAGE, AND OFTEN HAVE UNUSUALLY HIGH TEACHING LOADS. THUS, EXCELLENCE IN TEACHING IS THE DEPARTMENT'S HIGHEST PRIORITY. EXCELLENCE IN RESEARCH AND SERVICE CANNOT COMPENSATE FOR AN INSUFFICIENT TEACHING RECORD.

UNTENURED FACULTY MEMBERS WILL HAVE A YEARLY PEER EVALUATION OF THEIR TEACHING, EITHER BY THE DEPARTMENT CHAIR OR ANOTHER FACULTY MEMBER. PEER AND STUDENT EVALUATIONS WILL BOTH BE CONSIDERED WHEN JUDGING A CANDIDATE'S TEACHING RECORD. THE CANDIDATE MUST ADDRESS CONSISTENTLY LOW STUDENT EVALUATIONS IN HIS OR HER SELF-NARRATIVE.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

ALL PEER-REVIEWED PUBLICATIONS SHALL BE CONSIDERED SIGNIFICANT. THIS INCLUDES NOT ONLY THE WRITING OF JOURNAL ARTICLES AND BOOK CHAPTERS BUT ALSO ANY PEER-REVIEWED TRANSLATION OF ARTICLES, BOOKS OR JOURNAL VOLUMES, AS WELL AS CONTRIBUTIONS TO TEXTBOOKS AND OTHER PEDAGOGICAL RESOURCES.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

PRESENTATIONS AT CONFERENCES ARE ENCOURAGED AND SHOULD BE CONSIDERED VALID PROFESSIONAL RESEARCH ACTIVITY. HOWEVER, TRAVEL FUNDING EITHER FROM THE UNIVERSITY OR OUTSIDE SOURCES IS OFTEN UNAVAILABLE. THE CANDIDATE SHOULD ADDRESS THE FREQUENCY OF CONFERENCE PRESENTATION AND AVAILABILITY OF FUNDING IN HER/HIS NARRATIVE STATEMENT.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. PUBLICATIONS IN FOREIGN JOURNALS ARE STANDARD IN THE DISCIPLINE. CANDIDATES WILL SUPPLY A TRANSLATION OF THE TITLE OF ANY WORK IN A LANGUAGE OTHER THAN ENGLISH AND ARE ENCOURAGED TO PROVIDE AN ABSTRACT IN ENGLISH AS WELL AS A DESCRIPTION OF THE JOURNAL.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community

or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. TRANSLATION OF DOCUMENTS FOR THE PUBLIC

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY***.

j. Prizes and awards for excellence in university service.

k. OUTSIDE REVIEWER ON THESIS COMMITTEES.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on Academic Disqualification (2006-2007 UAF Catalog, page 77) as follows:

[[ ]] - Deletion
CAPS - Addition

Academic Disqualification (pg 77)

Undergraduate students—Undergraduate [[probation]] students on probation whose semester and cumulative GPAs are less than 2.0 at the end of spring semester will be disqualified from degree-seeking status. Disqualified students may continue their enrollment at UAF only as non-degree students and are limited to a maximum of 9 credits per semester. To be eligible for reinstatement in an academic degree program, the student is expected to earn at least a **C grade (2.0)** in all courses taken as a non-degree student. To be restored to degree-seeking status, the student must apply for readmission. A student may be reinstated but may still be on probation, and if so, will be so notified.

EFFECTIVE: Fall 2007

RATIONALE: This clarifies that a C grade means a 2.0 C and not a 1.7 C-. The petition process is always in place if there are extenuating circumstances that warrant a continuing probation rather than academic dismissal in some circumstances where a student fails to attain a 2.0 C in all courses. No changes were made to the probation policy since it already clearly states the 2.0 GPA.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the minimum grade earned in all major and minor course work under the UAF General University Requirements for Certificate or Associate Degrees (2006-2007 UAF Catalog, page 80) and for Baccalaureate Degrees (2006-2007 UAF Catalog, page. 112) as follows:

CAPS = additions
[[ ]] = deletions

How to Earn a Certificate or Associate Degree (page 80)

General University Requirements

You must earn at least 30 semester hours for a certificate and 60 semester hours for an associate degree, including transfer credits, to earn a UAF certificate or degree. At least 15 semester credits applicable to any certificate or associate degree must be earned at UAF. A minimum GPA of 2.0 is required in all work as well as in your major fields. In addition, you must earn a minimum C **(2.0)** grade in courses required for your [[associate degree]] major.

Table 18 **General University Requirements for Certificate and Associate Degrees**

	Certificate	**Associate Degree**
Minimum number of credits required	30 credits	60 credits
Credits that must be earned at UAF (residence credit)	15 credits	15 credits
Grade point average required	2.0 cumulative and in major	2.0 cumulative and in major
Minimum grades required for major		No grade lower than C**(2.0)** in courses required for major
Catalog year that can be used to meet requirements	May use any catalog in effect when enrolled as a degree-seeking student, regardless of major; five-year limit on catalog year	May use any catalog in effect when enrolled as a degree-seeking student, regardless of major; five-year limit on catalog year
Second degree requirements		Only one A.A. degree may be earned; 12 credits beyond first A.A.S. degree and all requirements for the second degree must be met

How to Earn a Baccalaureate Degree (page 112)

General University Requirements

For a UAF bachelor's degree, you need at least 120 semester credits, including transfer credits. Of these, 39 credits must be upper-division (300-level or above).

At least 30 semester credits applicable to any baccalaureate degree must be earned at UAF. Transfer students need to earn at least 24 upper-division semester credits at UAF, at least 12 semester credits in the major and at least 3 semester credits in the minor. You must earn a minimum GPA of 2.0 in all work as well as in your major and minor fields. In addition, you must earn a minimum C **(2.0)** grade in courses required for your major.

Table 19 **General University Requirements for Baccalaureate Degrees**

Minimum number of credits required	120 credits
Credits earned at UAF (residence credit)	30 credits
Upper -division credit (courses with numbers between 300 and 499)	39 credits total (some degrees require more); 24 of the 39 must be earned at UAF
Additional UAF credit that must be earned by transfer students	12 credits in the major; 3 credits in the minor
Grade point average required	2.0 cumulative and in major and minor
Minimum grades required for major	No grade lower than C**(2.0)** in courses required for major
Catalog year that can be used to determine requirements	May use any catalog in effect when enrolled as a degree-seeking student, regardless of major; seven-year limit on catalog year
Second degree requirements	24 credits beyond the first baccalaureate degree and all requirements for the second degree must be met

EFFECTIVE: Fall 2007

RATIONALE: These changes clarify that the minimum requirement is a 2.0 C rather than a C-. Individual departments may choose to establish different criteria or to petition the requirements for a particular student.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the Graduation with Honors policy (2006-2007 UAF Catalog, page 81 and 114) as follows:

CAPS = additions
[[ ]] = deletions

•Graduation with Honors

Graduation with honors is a tribute that recognizes academic achievement. Honors graduates have earned a cumulative GPA of 3.5 or higher in all college work. If a student's overall cumulative GPA is 3.5 or higher, a student graduates with the distinction of *cum laude*; [[3.8]] **3.75** or higher, *magna cum laude*; [[4.0]] **3.9** OR HIGHER AND NO GRADE LOWER THAN A-, *summa cum laude*. Your cumulative GPA for graduation with honors is based on all college work attempted at UAF, including any repeated or omitted credits due to fresh start.

EFFECTIVE: Fall 2007

RATIONALE: It is rare that a student completes all work with A grades, and will be even more rare if the A- grade is used and only a 4.0 A is accepted for summa cum laude. By lowering the grade point to 3.9 and requiring that all grades be A- or above, students who under previous policies (without +/-) would still be eligible for summa cum laude honors. Lowering the magna cum laude range to 3.75 establishes some distance between magna and summa cum laude, and allows again for the possibility of decreased GPA as a result of the addition of +/- grades. For honor grades, all grades are

checked by hand to insure than any transfer credits meet the requirements for honors.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the Grade Point computation policy (2006-2007 UAF Catalog, pages 74-75) as follows:

CAPS = additions
[[ ]] = deletions

Grading System and Grade Point Average Computation (pg 74-75)

All course grades are letter grades unless otherwise specified in the class schedule. The method of grading (letter or pass/fail) is an integral part of the course structure and is included in the course description. Instructors are expected to state their grading policies in writing at the beginning of each course. Grades appearing on academic records are:

(There follows a description of the grades: A, B, C, D, F, P, Cr, DF, AU, W, I, NB)

(Add the following language after the descriptions.)

THE letter grade A, B, C, and D, may INCLUDE a‘+’ or ‘-‘ to indicate a STUDENT’S level of performance isslightly higher or lower than that of the letter grade alone.

•Computing your GPA

Your grade point average (GPA) is a weighted numerical average of the grades you earn in your courses at UAF. To compute your GPA, divide the total number of credits you have attempted into the total number of grade points you have earned. Grade points are calculated by multiplying the number of grade points awarded, according to the chart below, by the number of credits attempted for the course. The following grades are figured in your GPA: A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F. Grades of I, DF, W, P, AU and CR do not carry grade points and do not affect your GPA.

Grade	**Grade points per credit**
A+	**4.0**
A	4.0
A-	**3.7**
B+	**3.3**
B	3.0
B-	**2.7**
C+	**2.3**
C	2.0
C-	**1.7**
D+	**1.3**
D	1.0
D-	**0.7**
F	0.0

EFFECTIVE: Fall 2007

RATIONALE: The extra sentence clarifying the use of +/- grades should be added at the end of the descriptions of the standards grades. The table should be updated to include the numerical values for all of the +/- grades. The list of grades that are included in the GPA should be clearly identified.

****

The UAF Faculty Senate passed the following at its Meeting # #140 on December 11, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF Academic Honors policy (2006-2007 UAF Catalog, page 76) as follows:

CAPS = additions
[[ ]] = deletions

ACADEMIC HONORS

Undergraduate and certificate students--To be eligible for academic honors at the end of a semester, you must be a full-time undergraduate degree or certificate student who has completed at least 12 UA institutional credits graded with the letter grades A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, or F. If you have received an incomplete or deferred grade, your academic honors cannot be determined until those grades have been changed to permanent grades. Academic honors are recorded on your permanent record. You will make the Chancellor's List with a semester GPA of [[4.0]] 3.9, and the dean's list with a GPA of 3.5 or higher.

EFFECTIVE: Fall 2007

RATIONALE: Changing to 3.9 will give students who earn A- grades a chance to be on the Chancellor's List. A student who earned 15 credits of 4.0 A and 3 credits of B (total 18 credits) will have only a 3.8. A student who earns 15 credits of A and one credit of B will have 3.9. So, yes, occasionally a student with less than all A's may make Chancellor's list.

The UAF Faculty Senate passed the following at its Meeting #139 on November 6, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the Associate of Arts degree requirements (2006-2007 UAF catalog, page 83) to the following:

[[ ]] = Deletion
CAPS = Addition

General Associate Degree Requirements

You must have completed at least 60 semester hours, including transfer credits, to earn a UAF associate degree.

At least 15 credits applicable to any associate degree must be UAF resident credits.

Associate of Arts Requirements

The Associate of Arts degree represents the completion of broad-based college study. This degree may serve as a starting point for your career or as a stepping-stone to a baccalaureate program. You may earn only one A.A. degree.

THE CURRICULUM OF THE ASSOCIATE OF ARTS DEGREE CONSISTS OF ALL COURSES REQUIRED TO MEET THE UNIVERSITY OF ALASKA FAIRBANKS BACCALAUREATE CORE, WITH THE FOLLOWING EXCEPTIONS:

1. THE UPPER DIVISION WRITING AND ORAL INTENSIVE COURSES ARE NOT REQUIRED

2. IN PLACE OF THE UPPER DIVISION ETHICS COURSE A HUMANITIES OR SOCIAL SCIENCE ELECTIVE MAY BE SUBSTITUTED

All credits for the A.A. degree must be at the 100-level or above with at least 20 credits at the 200-level or above and be distributed as follows:

BACCALAUREATE CORE CREDITS.....38-44 CREDITS

GENERAL ELECTIVES .....16-22 CREDITS

[[Communication (9 credits)

ENGL 111X--Introduction to Academic Writing (3)

Complete one of the following:

- ENGL 211X--Academic Writing about Literature (3)
- ENGL 212--Business, Grant and Report Writing* (3)
- ENGL 213X--Academic Writing about the Social and Natural Sciences (3)

Complete one of the following:

- COMM 131X--Fundamentals of Oral Communication: Group Context (3)
- COMM 141X--Fundamentals of Oral Communication: Public Context (3)

Mathematics or natural science (10 credits)

Complete one of the following:

- MATH 107X--Functions for Calculus** (4)
- MATH 161X--Algebra for Business and Economics (3)
- MATH 103X--Concepts and Contemporary Applications of Mathematics (3)
- MATH 200X, 201X, 202X, 262X, 272X or any math course having one of these as a prerequisite (4)

One natural science course, with lab, from the baccalaureate core (4)

Mathematics (computer science, mathematics or statistics course at the 100-level or above) or natural science elective (3)

Humanities and social science (18 credits)

- ANTH 100X/SOC 100X--Individual, Society and Culture (3)
- ECON 100X/PS 100X--Political Economy (3)
- HIST 100X--Modern World History (3)

Complete one of the following:

- ART/MUS/THR 200X--Aesthetic Appreciation: Interrelationship of Art, Drama and Music (3)
- HUM 201X--Unity in the Arts (3)
- ANS 202X--Aesthetic Appreciation of Alaska Native Performance (3)
- ENGL/FL 200X--World Literatures (3)
- Humanities or social science elective (3)

Two semester-length courses in a single Alaska Native language or other non-English language or three semester-length courses (9 credits) in American Sign Language taken at the university level may substitute for two of the courses above.

Library and information Research (0–1 credit)

Successful completion of library skills competency test or LS 100X or LS 101X (0–1)

Successful completion of the library skills competency test satisfies this requirement of the core curriculum, but does not carry degree credit.
(It is strongly recommended that this requirement be completed before enrolling in the 200-level English course requirement or that it be completed concurrently with enrollment in the 200-level English core requirement.)]]

[[General electives (22–23 credits)

Any combination of courses. (Students planning to go on to the baccalaureate degree are advised to select courses meeting remaining core requirements and courses designated within baccalaureate majors and minors.) (22–23)

Electives to total (60 credits)]]

STUDENTS PLANNING TO GO ON TO THE BACCALAUREATE DEGREE ARE ADVISED TO SELECT COURSES MEETING REMAINING CORE REQUIREMENTS AND COURSES DESIGNATED WITHIN BACCALAUREATE MAJORS AND MINORS.

TOTAL CREDITS REQUIRED .....60 CREDITS.

[[* *ENGL 212 does not fulfill the second half of the written communication requirement for the baccalaureate degree.*

** *No credit may be earned for more than one of MATH 107X or 161X.*]]

EFFECTIVE: Fall 2007, Upon Chancellor's Approval

RATIONALE: The AA degree should directly articulate with the baccalaureate core degree requirements. Students should be able to move seamlessly from the AA degree to a four year degree. There should not be wasted credits or exceptions that will confuse the student's ability to move to a four year degree. The current AA degree requirements are different from the baccalaureate core degree requirements. The catalog description and the degree checklist are also different from the current baccalaureate core requirements. The AA degree should articulate directly with the baccalaureate core. By linking the degree requirements for the Associate of Arts program directly to the baccalaureate core, the AA program requirements will always be consistent with the baccalaureate core requirements.

The UAF Faculty Senate passed the following at its Meeting #138 on September 18, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend Section 3, (Article V, Committees, Standing) of the Bylaws by deleting E. 4., the Faculty Research Oversight Committee.

[[ ]] = Deletion
CAPS = Addition

Sect. 3 (ART V: Committees)

E. The standing and permanent committees of the Senate are:

STANDING

[[4. Faculty Research Oversight Committee

The Faculty Research Oversight Committee shall review all classified and proprietary proposals, grants, and contracts according to the guidelines of the UAF policy concerning classified and proprietary research and advise the chancellor of their compliance or lack thereof with university policy.

The committee will publish an annual report on the status of classified and proprietary contracts, grants and proposals at UAF to the Faculty Senate. The Faculty Research Oversight Committee will offer changes to the UAF policy as needed through periodic reviews occurring no less than once every 5 years.

Membership on the committee shall be limited to 9 senators, with no more than 2 members being from the same unit. A Facilities Security Officer shall be an ex-officio member of the committee. The committee will also include someone from the Office of Sponsored Research and a designee of the chancellor as ex-officio members. Committee membership must broadly represent the university community.]]

EFFECTIVE: Immediately

RATIONALE: University Regulation (R10.07.02) promulgated by President Hamilton on February 3, 2005, states that an MAU which intends to engage in classified or proprietary research shall have a standing advisory committee, and that the chancellor will appoint up to three tenured faculty members to the committee. Chancellor Jones has appointed a committee for UAF that follows the requirements specified in University Regulations. Therefore, it is no longer necessary to have a Faculty Senate committee to serve in an oversight capacity.

****

The UAF Faculty Senate passed the following at its Meeting #138 on September 18, 2006:

MOTION:
=======

The UAF Faculty Senate moves to accept STAT 200 as a Mathematics Literacy component of the Core Curriculum and that it be included in the list of courses that will satisfy the Core Math requirement.

EFFECTIVE: Fall 2007

RATIONALE: The CORE Review Committee has received and unanimously passed a request from the Department of Mathematics to make STAT 200 (Statistics) available to students as a CORE course.

The Philosophy of the CORE Curriculum states:

> Advanced literacy in mathematics implies a solid grasp of quantitative reasoning and appreciation of mathematical applications. Most important is acquiring the knowledge necessary for informed judgments on the uses of mathematical and statistical interpretations confronting us in everyday life

We observe that statistical interpretations have become the stuff of daily news, especially in political matters significant to citizenry. STAT200 will be a welcome addition to the CORE Curriculum as we prepare students for the 21st century.

****

[[ ]] = Deletions
CAPS = Additions

Baccalaureate Core

Courses used to meet a science or mathematics core requirements may also be used to satisfy the major and/or minor degree requirements. Other core courses may not be used to meet any other requirements for a degree.

Requirements **Credits**

Mathematics (3 credits) ……...……..……. 3

Complete one of the following:

MATH 103X - Concepts and Contemporary Applications of Mathematics (3)
MATH 107X - Functions of Calculus* (4)
MATH 161X - Algebra for Business and Economics (3)
OR STAT 200 - ELEMENTARY PROBABILITY AND STATISTICS (3)

* No credit may be earned for more than one of MATH 107X or MATH 161X.

OR complete one of the following:*

MATH 200X, 201X, 202X, 262X, 272X

*Or any math course having one of these as a prerequisite

****

The UAF Faculty Senate passed the following at its Meeting #138 on September 18, 2006:

MOTION:
=======

The Faculty Senate moves to modify "Guidelines for the Evaluation Process for Administrators" (Senate Meeting #99, February 5, 2001; amended Senate Meeting #111, October 28, 2002) to include (1) the Dean of Libraries and

(2) the Vice Chancellor for Research in the "Group A" list of administrators.

EFFECTIVE: Immediately

RATIONALE: The Vice Chancellor for Research supervises research faculty via various institute directors, while the Dean of Libraries supervises library faculty. Both positions make budgeting decisions affecting faculty and staff at UAF. These responsibilities are consistent with those of the "Group A" list of administrators. They are therefore hereby added to that list for administrator review.

****

Group A Administrators

Provost
Executive Dean, College of Rural and Community Development
Dean, School of Natural Resources and Agricultural Sciences
Dean, School of Fisheries & Ocean Sciences
Dean, Graduate School
Dean, College of Engineering & Mines
Dean, School of Management
Dean, School of Education
Dean, College of Liberal Arts
Dean, College of Natural Sciences & Mathematics
Dean of Libraries
Vice Chancellor for Research

****

The UAF Faculty Senate passed the following at its Meeting #138 on September 18, 2006:

MOTION:
=======

The UAF Faculty Senate moves to suspend the "Group B" Administrative reviews scheduled for 2006-2007, pending discussion by the Provost Council of recommended changes in the review process.

EFFECTIVE: Immediately

RATIONALE: The Faculty Appeals & Oversight Committee (FAOC) recently forwarded a motion to the Administrative Committee for review and which was referred to the FAOC for further discussion. The substance of the motion requires further discussion between the UAF administration and the FAOC so as to arrive at a mutually satisfactory process for evaluation of Group B administrators. The Administrative Committee recommends the Provost and the FAOC work together to arrive at a reasonable process before action by the Senate is taken on a revision to the current policy.

****

The UAF Faculty Senate passed the following at its Meeting #138 on September 18, 2006:

MOTION:
=======

The UAF Faculty Senate moves to modify the University of Alaska Fairbanks' document, "Policies and Regulations for the Appointment and Evaluation of Faculty" Chapter IV, D, 1,b, (3), as follows:

(3) Professor. Those faculty awarded the rank of professor at the university shall exemplify the attainment of performance and achievement consistent with a high standard of excellence.

The faculty member shall present a record of continuing sustained excellence which demonstrates that the candidate is recognized for contributions to knowledge in the discipline; is recognized by peers and students as an excellent teacher; contributes to the overall effort and reputation of the university through appropriate extension of knowledge and discipline-related service, within the context of the faculty member's proportionate responsibilities as identified in his/her annual workload distribution agreement. A promotion/tenure peer review committee (unit or university-wide) shall recommend promotion to the rank of professor only if a majority of the committee rates the faculty member's tripartite (or bipartite) areas of activity as "very good" or "excellent" (ratings, in order of improved performance, being "UNSATISFACTORY" "satisfactory," "good," "very good," and "excellent").

EFFECTIVE: Immediate, Upon Chancellor Approval

RATIONALE: There is some limitation in the categories for ranking or evaluating candidates in annual review and review for promotion and tenure in Board of Regent's policy and university regulation. Current policy provides for four levels: "satisfactory," "good," "very good," and "excellent". In the view of the Unit Criteria Committee of the Faculty Senate, these categories do the University and individual faculty members a disservice because under the current system, the lowest rank is *Satisfactory*. The current scheme does not provide a formal mechanism for indicating that a candidate's performance in any area *is unsatisfactory*. It has been suggested that the level "*unsatisfactory*" should be added.

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

RESOLUTION OF APPRECIATION

FOR

PAUL LAYER

WHEREAS, Paul Layer has served Faculty Governance in its many forms over the years in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

WHEREAS, Paul Layer has served as Senator to the UAF Faculty Senate from 1994-1996; and

WHEREAS, Paul Layer has served as Chair of the Scholarly Activities Committee from 1994-96, as a member of the Ad Hoc Committee on Unit Criteria from 1994-1996, as Chair of the Faculty Appeals & Oversight Committee from 2002-2004; and

WHEREAS, Paul Layer has served as a member of the Administrative Committee from 1994-96 and 2002-2004, as Chair of the Administrative Committee and as President-Elect of the UAF Faculty Senate from 2004-2005; and

WHEREAS, Paul Layer has served as a member of the UAF Governance Coordinating Committee from 2004-2006 and as Chair from 2005-2006; and

WHEREAS, Paul Layer has served as a member of the UA Faculty Alliance from 2004-2006 and represented UA Faculty Alliance to the UA Statewide Research Advisory Council from 2005-2006; and

WHEREAS, Paul Layer has served on various Search Committees, and other university and statewide committees representing the interests of faculty to the administration of UAF and statewide; and

WHEREAS, Paul Layer has served as President of the UAF Faculty Senate from 2005-2006 and has effectively represented the interests of the UAF Faculty Senate to the administration of UAF; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered to the faculty and the University by the work of Paul Layer as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Paul Layer and expresses its appreciation for his exemplary service.

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

OUTSTANDING SENATOR OF THE YEAR AWARD

FOR

SINE ANAHITA

WHEREAS, Sine Anahita's willingness to serve the university is evident in the fact that she joined the UAF Faculty Senate in her second year; and

WHEREAS, Sine Anahita worked with passion as a member of Faculty Affairs Committee during 2004-05; and

WHEREAS, Sine Anahita served as a member of the Committee on Status of Women, during 2005-06; and

WHEREAS, Sine Anahita with professionalism and dedication demonstrated leadership in the development and analysis of the *Study of Faculty Work Life at the University of Alaska Fairbanks* survey and communicated the results of the study across the UA community; and

WHEREAS, Sine Anahita has distinguished herself as an active and engaged colleague in the UAF Faculty Senate, ever mindful of her constituency and sees her constituency as the entire university community; and

WHEREAS, Sine Anahita's commitment to equity for all make her a valuable Faculty Senator who deserves recognition; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recognizes Sine Anahita as Outstanding Senator of the Year for Academic Year 2005-2006.

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

RESOLUTION OF APPRECIATION

FOR

DR. WANDA MARTIN

WHEREAS, Wanda Martin has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's esteem; and

WHEREAS, Wanda Martin has served as a member of the UAF Faculty Senate Curricular Affairs Committee since 1992; and

WHEREAS, Wanda Martin has served as a member of the UAF Faculty Senate Developmental Studies Committee since 1989; and

WHEREAS, Wanda Martin has dedicated 22 years of service to the University of Alaska and the Academic Advising Center; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the exemplary service rendered the faculty and the University by Wanda Martin; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate thanks Dr. Wanda Martin for her decades of service to UAF--through working with and for undergraduate students--and wishes her success in future endeavors.

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate ratifies the recommendation of the Governance Coordinating Committee to remove the Diversity & Tolerance Action Committee and the Intercollegiate Athletic Committee (IAC) from the Governance Coordinating Committee (GCC) Procedures and the further recommendation from GCC that the IAC be reclassified as an advisory board reporting to the UAF Director of Athletics and Recreation and the Vice Chancellor for Advancement and Community Engagement.

EFFECTIVE: Immediately

RATIONALE: According to governance policy, changes in the GCC committee structure require a 2/3 vote of each governing body represented by the GCC (Faculty Senate, Staff Council and ASUAF). Having succeeded in establishing the Chancellor's Campus Diversity Action committee (CCDAC) the UAF Governance Coordinating committee concludes that the goals and charges of the Diversity and Tolerance Action Committee are being met under the CCDAC, therefore; the Diversity and Tolerance Action Committee is no longer necessary. The scope of the work conducted by the Intercollegiate Athletic Committee is better served by having a more direct link to the Director of Athletics and the Vice Chancellor for Advancement and Community Engagement. Faculty, staff and student representation on the IAC is sufficient for providing information and input to the three governance organizations.

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the Mandatory Placement Policy (Senate meeting #116, May 5, 2003) to read:

CAPS - Addition
[[ ]] - Deletion

Mandatory Placement

Students who do not meet basic skills standards in reading, writing, and mathematics must complete appropriate Developmental Education course instruction. Such students may not enroll in 100-level or

above courses that depend on these skills until they have satisfactorily met the exit criteria of the appropriate Developmental Education course(s).

STUDENTS WITHOUT APPROPRIATE STANDARDIZED TEST SCORES (ACT/SAT/COMPASS/ASSET), ADVANCED PLACEMENT CREDITS, TRANSFER CREDITS, OR PREREQUISITE COURSEWORK MUST HAVE UAF-APPROVED PLACEMENT TEST SCORES PRIOR TO REGISTERING FOR CLASSES THEIR FIRST SEMESTER AT UAF. STUDENTS MAY NOT ENROLL IN CLASSES UNLESS THEY MEET THE PLACEMENT REQUIREMENTS. PLACEMENT INTO APPROPRIATE DEVELOPMENTAL OR CORE CLASSES MUST BE DONE WITH THE HELP OF AN ADVISOR. STUDENTS WHO ENROLL IN A COURSE WITHOUT MEETING THE REQUIREMENTS WILL BE WITHDRAWN FROM THE COURSE BY FACULTY INITIATED WITHDRAWAL.

FOR PLACEMENT INTO ANY DEVELOPMENTAL MATH COURSE, OR ANY COURSE SATISFYING CORE MATH REQUIREMENTS, PREREQUISITE COURSES AND/OR PLACEMENT EXAMS MUST BE TAKEN WITHIN ONE CALENDAR YEAR PRIOR TO COMMENCEMENT OF THE COURSE.

STUDENTS MAY NOT ENROLL IN PERSPECTIVES ON THE HUMAN CONDITION COURSES UNLESS THEY MEET THE PLACEMENT REQUIREMENTS FOR ENGLISH 111 (INCLUDING READING). STUDENTS MAY NOT ENROLL IN CORE SCIENCE CLASSES UNLESS THEY HAVE PLACEMENT AT DEVM 105 OR ABOVE AND PLACEMENT INTO ENGLISH 111.

THE UAF FACULTY SENATE REITERATES ITS REQUIREMENT THAT FINANCIAL SUPPORT FOR ACADEMIC RESOURCES TO ASSIST MANDATORY PLACEMENT OF STUDENTS AT UAF BE INCREASEDTO AN ADEQUATE LEVEL PRIOR TO IMPLEMENTATION.

EFFECTIVE: Fall 2006, with phase in completed no later than Fall 2007.

RATIONALE: Mandatory testing, advising, and placement have been identified as elements which have a strong correlation with increased student success in college-level coursework. A motion to phase in mandatory placement in appropriate Developmental Education courses was approved by the UAF Faculty Senate on May 5, 2003.

Further, the additions more clearly spell out the implicit expectations for Core 100-level courses at UAF—namely, that a student has sufficient academic preparation to be able to complete college-level English and math classes.

Note: Additional Banner augmentation to support prerequisite and test compliance will need to be coordinated with UAA and UAS. The UAA Faculty Senate recently approved a similar motion on Mandatory Placement.

The Developmental Studies committee will work with the Department of Developmental Education, the Math department, the English department, and other affected departments and committees to develop guidelines for enforcement of placement.

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the grading policy and grade point average (GPA) computation to include +/-'s as specified in University Regulations R10.04.09.

EFFECTIVE: Fall 2007

RATIONALE: Plus/minus grades allow for more accurate instructor feedback to students. The majority of four-year colleges and universities use the plus/minus grades system. In a recent UAF referendum faculty supported changing to +/-'s by a nearly 3:1 margin.

****

UNIVERSITY REGULATION R10.04.09

Numerical Equivalencies for Grades

A+ = 4.0	A = 4.0	A- = 3.7
B+ = 3.3	B = 3.0	B- = 2.7
C+ = 2.3	C = 2.0	C- = 1.7
D+ = 1.3	D = 1.0	D- = 0.7
F = 0.0		

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve a Minor in Global Studies.

EFFECTIVE: Fall 2006

RATIONALE: See full program proposal #155 from the Spring 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

Requires 16-18 credits from two or more departments, selected from one of four tracks as an area of emphasis and requires a civic engagement/internship project of 1-3 credits.

****

Minor, Global Studies

The proposed interdisciplinary minor in Global Studies provides undergraduate students the opportunity to focus on this topic with a systematic and organized curriculum. The goal of the minor is to offer students an understanding of globalization from a variety of disciplinary perspectives. Four tracks are presented, with a choice of established entry courses. In addition, students will participate in a community involvement internship.

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve a Bachelor's of Emergency Management (B.E.M) degree program.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposal #202 from the Spring 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

Complete 33 credits of major requirements from the UAF Emergency Services A.A.S. degree or any regionally accredited institution AAS Fire Science degree with a cumulative GPA of 2.25 or higher; requires 40 credits in major complex courses in ACCT, ECON, BA, PS; 15 credits in minor complex of Leadership and Civic Engagement; 9 credits of electives from list of PS, HIST, RD courses; total credits of 126-128.

****

Executive Summary
Bachelor of Emergency Management (B.E.M.)

The UAF-TVC Emergency Services Program (ESP) is seeking approval for the UAF School of Management (SOM) to initiate a new Baccalaureate Degree in Emergency Management. This will enable students to combine the technical expertise derived from the Associate of Applied Science (AAS) degree in Emergency Services with a curriculum in Business Administration to become the future fire chiefs and equivalent emergency services administrators within fire departments and other related providers of emergency services throughout Alaska, Canada and the Lower 48. There is an ever increasing demand for fire department and emergency services administrators that are educated in fire science, emergency medical services (EMS) and business management practices. The National Fire Academy Executive Fire Officer (EFO) Program will soon be establishing a minimum of a bachelor's degree as an enrollment qualification. Many fire departments throughout Alaska have searched for fire chiefs and found few Alaskan candidates with adequate administration education and experience except those who have gone to school and worked in the Lower 48. The intent of this proposed BEM degree is to retain our AAS degree graduates at UAF by offering them an opportunity to complete a baccalaureate degree while obtaining additional vocational experience through numerous local fire departments. The UAF Emergency Services Program averages 24 graduates per year or 11% of the associate degrees from the College of Rural and Community Development (CRCD). An ESP outcome assessment goal is to encourage our UAF graduates to become the best candidates for chief officer or equivalent fire administrator positions by utilizing their AAS degree as a building block to pursue the proposed BEM degree.

The UAF-TVC Emergency Services Program has become nationally recognized as one of the best in the U.S. with students coming from all over Alaska, Canada and the Lower 48. This program offers a unique combination of education, training, certification and vocational experience that is available at very few fire science programs throughout the U.S. UAF currently offers AAS degree concentrations in Municipal Fire, Wildland Fire, Hazardous Materials, Public Safety and Emergency Medical Services. Our arctic environment, boreal forests and the oil industry offers our students challenges and opportunities second to none.

The UAF School of Management offers a wide variety of business administration courses nationally accredited by the Association to Advance Collegiate Schools of Business. The proposed BEM degree offers a business administration curriculum tailored to meet the needs of a fire department business manager with a minor in Leadership and Civic Engagement.

PROPOSED GENERAL CATALOG LAYOUT:

BUSINESS ADMINISTRATION
School of Management
Department of Business Administration

(907) 474-7253
www.uafsom.com

B.E.M. Degree

Minimum Requirements for Degree: 126-128 credits

1. Complete 33 credits of major requirements from the UAF Emergency Services AAS degree or any regionally accredited institution AAS Fire Science degree with a cumulative GPA of 2.25 or higher.

2. Complete the general university baccalaureate core requirements. (See page __. As part of the core curriculum requirements complete MATH 161X* **OR** MATH 107X* AND STAT 200*)

3. Complete beyond the associate degree the following 40 credits of major complex courses with grades of "C" or better:

PS 101- Introduction to American Government/ Politics 3
ACCT 261 - Accounting Concepts/ Uses 3
ECON 200 - Principles of Economics 4
BA 151 - Introduction to Business 3
BA 307 - Personnel Management 3
BA 317W - Employment Law 3
BA 390 - Organizational Theory and Behavior 3
BA 452W - Internship in Emergency Management 3
BA 457 - Training and Management Development 3
COMM 335O - Organizational Communications 3
ENGL 314 W, O/2 - Technical Writing 3
PS 321 - International Politics 3
PS 403W - Public Policy 3

4. Complete 15 credits in the minor complex of Leadership and Civic Engagement as follows:
a. Complete the following (6 credits):

NORS 205 - Leadership, Citizenship and Choice 3
NORS 486 - Senior Seminar/ Leadership and Civic Engagement 3

b. Complete **three courses** (9 credits) from the following. At least one course must be a PS elective and one course must be a HIST elective:

PS 202 - Democracy and Global Society 3
PS 263 - Alaska Native Politics 3
PS 301 - American Presidency 3
PS 315 - American Political Thought 3
PS 462 - Alaska Government and Politics 3
HIST 131 - History of the U.S 3
HIST 132 - History of the U.S 3
HIST 361 - Early American History 3
HIST 364 - History of the U.S. 1945- Present 3
RD 300W - Rural Development in a Global Perspective 3
RD 325 - Community Development Strategies 3

Of the above, at least **39 credits must be taken in upper division** (300-level or higher) courses.

Must take two upper division writing intensive and one upper division oral intensive course(s).

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the College of Engineering and Mines (CEM).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the College of Engineering and Mines. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:

INITIAL APPOINTMENT, ANNUAL REVIEW, PRE-AND POST-TENURE,

PROMOTION, TENURE REVIEW

AND

COLLEGE OF ENGINEERING AND MINES

UNIT CRITERIA

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR ANNUAL REVIEW, PRE- AND POST-TENURE, PROMOTION, AND TENURE REVIEW, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN THE COLLEGE OF ENGINEERING AND MINES. ITEMS IN BOLDFACE LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO CEM FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS.

Chapter I

Purview

The University of Alaska Fairbanks document, “Faculty Appointment and Evaluation Policies,” supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

Chapter II

Initial Appointment of Faculty

A.Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B.Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C.Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D.Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E.Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F.Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

Chapter III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV **and CEM unit criteria, standards, and indices**, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development; and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

- **Effectiveness in Teaching**

Evidence of excellence in teaching may be demonstrated through, but is not limited to, evidence of the various characteristics that define effective teachers. Effective teachers **will demonstrate some, but not necessarily all, of the following characteristics in an individual year**:

a.are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b.express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c.emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d.emphasize regular feedback to students and reward student learning success;

e.demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

- regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;
- may receive prizes and awards for excellence in teaching;
- **disseminate new ideas to the students resulting from research and other engineering activities, such as consulting and service on review panels;**
- **engage in advising and mentoring students;**
- **Involve students, especially graduate students, in quality research activities.**

Specific CEM Criteria for Teaching Performance Before Appointment or Promotion to:

A. Assistant Professor: Evidence of teaching ability and a commitment to a quality teaching program must be provided, as well as evidence of an effort toward continual improvement.

B. Associate Professor: The record must show that the material taught is contemporary and relevant, and that the presentations stimulate the learning process. Evidence of the expected quality of instructional performance may include (but is not limited to) course and/or curriculum development, novel approaches to instruction, effective guiding and mentoring of students, and effective classroom teaching performance. There must be evidence of supervision of graduate student research (as a major supervisor or co-supervisor).

C. Professor: Significant contributions to the instructional program are expected. These may include, but are not limited to, contributions to major improvements in course and/or curriculum offerings, upgrading of instructional facilities, ability to motivate and/or inspire students, and exemplary training of graduate students. There should be a record of successful completion of graduate work by his or her students. It is expected that assessment of teaching by students and faculty demonstrate consistently high quality performance.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a.systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b.narrative self-evaluation,

c.peer/department chair classroom observation(s),

d.peer/department chair evaluation of course materials.

C.Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. **The level of creative productivity expected of a faculty member will be commensurate with the percentage of his or her workload dedicated to such activity.**

1.Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

- They must occur in a public forum.
- They must be evaluated by appropriate peers.
- They must be evaluated by peers external to this institution so as to allow an objective judgment.
- They must be judged to make a contribution.

2.Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but is not limited to:

a.Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b.Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c.Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d.Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e.Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f.Scholarly reviews of publications, art works and performance of the candidate.

g.Citations of research in scholarly publications.

h.Published abstracts of research papers.

i.Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j.Prizes and awards for excellence of scholarship.

k.Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l.Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. Involve students, especially graduate students, in quality research activities.

Specific Criteria for Research Performance Before Promotion or Appointment to:

A. Assistant Professor: Evidence of the ability to establish a viable research program in the area of specialization, normally a sub discipline of engineering (with the option of engineering education in certain circumstances), must be provided.

B. Associate Professor: The faculty member must have established an appropriate research program that produces satisfactory publications in refereed professional journals and presented research results at professional meetings. The submission of research proposals and acquisition of external research funding, the completion of contract research reports, and publication in conference proceedings constitute supplementary evidence that the research program is of high quality. Evidence of sustained research productivity and publication must be shown. The faculty member must show independence and leadership by the creation of research ideas that involve students.

C. Professor: The research program should have produced sufficient publications in the refereed professional literature, and there should be a record of student involvement. The publications should be of sufficient quality and quantity to demonstrate the existence of an on-going, professional, independent research program. A national or international reputation (as demonstrated by professional activities or presentations at meetings and documented opinions of other engineers and scientists in the field) is expected.

D.Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1.Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

- Providing information services to adults or youth.
- Service on or to government or public committees.
- Service on accrediting bodies.

- Active participation in professional organizations.
- Active participation in discipline-oriented service organizations.
- Consulting.
- Prizes and awards for excellence in public service.
- Leadership of or presentations at workshops, conferences, or public meetings.
- Training and facilitating.
- Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
- Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2.University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

- Service on university, college, school, institute, or departmental committees or governing bodies.
- Consultative work in support of university functions, such as expert assistance for specific projects.
- Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.
- Participation in accreditation reviews.
- Service on collective bargaining unit committees or elected office.
- Service in support of student organizations and activities.
- Academic support services such as library and museum programs.
- Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.
- Mentoring.
- Prizes and awards for excellence in university service.

1. **Professional Service**

- Editing or refereeing articles or proposals for professional journals or organizations.
- Active participation in professional organizations.
- Active participation in discipline-oriented service organizations.
- Committee chair or officer of professional organizations.
- Organizer, session organizer, or moderator for professional meetings.
- Service on a national or international review panel or committee.

1. **Evaluation of Service**

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Specific Engineering Criteria for Service Performance Before Appointment or Promotion to:

- **A. Assistant Professor: None in addition to UAF criteria**

- **B. Associate Professor: Positive contributions to departmental and/or university matters, effective professional contributions to the public, and/or effective services to the profession are expected.**

- **C. Professor: Evidence of leadership in the service area is expected. Significant contributions to the development of departmental and/or university programs including committee leadership or UAF faculty senate service and associated committees are expected. Effective application of service includes professional expertise provided to professional or public organizations such as engineering society leadership, reviewing proposals, refereeing manuscripts, and editing for professional organizations or publications.**

Examples of Service Activities Appropriate for Faculty in Engineering Include (But Are Not Limited To):

- **K-12 and/or informal engineering education;**
- **Presentation of engineering to the public.**

Measures of Effectiveness of Performance Include (But Are Not Limited To):

- **Accomplishments of the effort for organization to which service was provided;**
- **Opinions of clients served and/or colleagues involved in delivery of service.**

E.Unit Criteria, Standards and Indices

Unit criteria, standards and indices are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in B, C, D, above, and in "UAF Faculty Appointment and Evaluation Policies," Chapter IV for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review.

Unit criteria, standards and indices may be developed by those units wishing to do so. Units that choose not to develop discipline-specific unit criteria, standards and indices must file a statement stating so with the Office of the Provost, which shall serve as the official repository for approved unit criteria, standards and indices.

A unit choosing to develop discipline-specific criteria, standards and indices shall have such criteria, standards and indices approved by a majority of the discipline faculty. The unit criteria, standards and indices will be reviewed and approved by the cognizant dean who will forward the unit criteria, standards and indices to the provost. The provost will review for consistency with BOR and UAF policies and will forward these criteria, standards and indices to the Faculty Senate, which shall review and approve all discipline-specific criteria according to a process established by the Faculty Senate.

Unit criteria, standards and indices will be reviewed at least every five (5) years by the faculty of the unit. When reorganization results in a unit's placement in another college/school structure, the cognizant dean, in consultation with the unit faculty, shall review unit criteria, standards and indices and revise if warranted. Unit criteria, standards and indices approved by the Faculty Senate prior to a unit's reorganization shall remain in effect until reviewed and revised. Revision of unit criteria, standards and indices must

follow the review process established by the Faculty Senate. If the unit criteria, standards and indices are not revised, a statement of reaffirmation of the current unit criteria, standards and indices must be filed with the Office of the Provost, following the review.

Unit criteria, standards and indices, when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is **NOT** optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review to include these approved unit criteria, standards and indices in the application file.

F.Annual Evaluation of Non-tenured Faculty with Academic Rank

1.Process of Evaluation

There will be annual evaluations of all untenured faculty members holding academic rank. Each faculty member shall submit a professional activities report to the campus director or college/school dean according to a schedule announced by the provost. The annual professional activities report will be accompanied by a current curriculum vita.

The evaluations performed by the campus director or college/school dean shall include explicit statements on progress toward meeting criteria for tenure and promotion in their written evaluations. The dean's/director's evaluation shall reference the faculty member's workload agreement in commenting on progress. The director or dean shall provide a copy of a written evaluation to the faculty member.

In the case of a faculty member having a joint appointment, the dean will coordinate the review and recommendation with the director as appropriate.

G.Periodic Evaluation of Tenured Faculty Members

1.Frequency of Evaluation

- All tenured faculty at UAF shall be evaluated once every three years according to a schedule and process announced by the Provost.
- For tenured faculty with joint appointments, the cognizant dean will arrange a review that assures that all appropriate administrators provide a written evaluation of the faculty member. The dean will inform the faculty member of these arrangements.

2.Annual Activities Report

All tenured faculty shall prepare a professional activities report annually and submit it to the dean or director according to a schedule announced by the provost.

H.Evaluation of Faculty with Special Academic Rank

Special academic rank faculty are appointed for a specified period of time. They are to provide evidence of effectiveness in their assigned responsibilities during the term of their appointment when requested by their college/school dean or institute director according to the process set forth by the provost.

1.Process of Evaluation

The college/school dean or institute director shall require an annual activities report of a faculty member who has an appointment renewed beyond the initial year of appointment. The review process outlined above for academic rank faculty shall apply. The optional

process for the development and approval of the unit criteria, standards and indices as outlined above in Chapter III, E. shall also apply to the definition and evaluation of faculty in special academic rank positions.

The appointment to special academic rank shall terminate on the date specified in the letter of appointment, and implies no expectation of a subsequent appointment.

3/06

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate moves to adopt the following calendar for its 2006-2007 meetings.

EFFECTIVE: Immediately

RATIONALE: Meetings have to be scheduled and the Wood Center rooms reserved well in advance.

****

UAF FACULTY SENATE

2006-2007

Calendar of Meetings

Mtg. #	Date	Day	Time	Type
138	9/18/06	Monday	1:00 p.m	audioconference
139	11/6/06	Monday	1:00 p.m	face-to-face
140	12/11/06	Monday	1:00 p.m	audioconference
141	2/5/07	Monday	1:00 p.m	audioconference
142	3/5/07	Monday	1:00 p.m	face-to-face
143	4/9/07	Monday	1:00 p.m	audioconference
144	5/7/07	Monday	1:00 p.m	face-to-face

Location: Wood Center Carol Brown Ballroom (face-to-face meetings)
Wood Center Conference Room C/D (audioconference meetings)

****

The UAF Faculty Senate passed the following at its Meeting #137 on May 1, 2006:

MOTION:
=======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2006. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 1, 2006

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

The UAF Faculty Senate passed the following at its Meeting #136 on April 3, 2006:

MOTION:
=======

The UAF Faculty Senate endorses the Enrollment Management Task Force's recommendation that the requirements for admission to UAF's baccalaureate program be raised to:

3.0 cumulative high school GPA or
2.5 cumulative high school GPA and ACT Composite score ≥ 18. An equivalent combined SAT score can be substituted for the ACT Composite score requirement.

We further endorse the recommendation that financial support for academic resources to assist Baccalaureate Intended (BI) students at UAF be significantly increased prior to implementation.

EFFECTIVE: Fall 2007

RATIONALE: By accepting a student into a baccalaureate program UAF is essentially saying to the student: "you're ready to start this program". At one time an Alaskan high school student with a C (2.0) average was in fact ready for UAF. Today, however, an Alaskan high school student with an overall GPA of 2.0 is simply not ready. Either the student hasn't learned enough of the subject matter taught or hasn't displayed the study skills necessary to complete assignments successfully. By raising the requirements for admission to the baccalaureate program we are more realistically specifying the level of academic background that we expect incoming students to have before beginning baccalaureate courses at UAF and to succeed in those courses. For those students who do not meet these admission criteria, we'd be sending the message: 'based on your previous level of academic accomplishments, you're not yet ready and we want to help you get ready." Our intention would be to identify such 'at risk' students and give them a chance to 'get up to speed' in terms of whatever they need--be it academic background or study/academic work habits.

****

The UAF Faculty Senate passed the following at its Meeting #136 on April 3, 2006:

MOTION:
=======

Every five years, to correspond to the UAF accreditation schedule (i.e., 2000, 2005, 2010, etc.), the Provost will request that the Registrar provide a list of courses that have not been taught in the preceding five years. That list will be submitted to the Deans with the following instructions

a. The Dean reviews the lists carefully and identifies courses no longer offered that will be deleted from the catalog and from the Banner system. The regular Faculty Senate process for deleting courses must be followed. To simplify the process one form per subject area may be used, with a list of the courses that are to be deleted attached.
b. If the Dean requests it by the given deadline, the course will be retained in the Banner system, but deleted from the catalog.
c. If the Dean sends a substantive justification and a request to retain the course in the Catalog to the Provost by the given deadline, and the request is approved, the course will continue to be published in the catalog.

EFFECTIVE: Fall 2006

RATIONALE: There are nearly 300 courses still active in Banner (and about 200 still listed in the catalog) that have not been offered for five years. We need to give

students (and prospective students) a realistic view of our course offerings. Given that none of these courses has been taught for five years, it is very unlikely that any of them is needed by a student to complete degree requirements.

****

The UAF Faculty Senate passed the following at its Meeting #136 on April 3, 2006:

MOTION REFERRED BACK TO COMMITTEE:
==========

The UAF Faculty Senate moves to include the following clarification on course stacking to be added to current regulations:

"With the exception of 400/600, stacked courses must be of adjacent levels (e.g. 200/300). Other stacked combinations (e.g., 100/600) are not allowed under any circumstances."

EFFECTIVE: Immediately

RATIONALE: Although never explicitly stated, the stacked course concept was intended for 400/600 courses. Stacking could be applied to other combinations, but some, e.g., 100/600, are clearly not appropriate for such. These other stacked combinations have occurred recently for several summer courses and have been proposed for regular semester courses. This change is to clarify that some course stackings are simply not acceptable.

****

The UAF Faculty Senate passed the following at its Meeting #136 on April 3, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend walk through requirements for graduate students as follows:

[[ ]] - Deletion
CAPS - Addition

Graduation "Walk-Through" Policy

To meet the definition of having "essentially completed all degree requirements" (current policy) to "walk through" graduation ceremonies, a student must have met the following requirements:

a. successfully completed all required tests, course work and thesis/project defense; and

b. submitted to the Graduate School by the date set for filing a thesis/dissertation in Spring Semester, a memorandum signed by the student and the major advisor certifying that any required revisions to the project/thesis/dissertation can be completed by july 31 of the same year. FOR A THESIS/DISSERTATION, THE STUDENT MUST MAKE A COMMITMENT TO SUBMIT THE FINAL COPY TO THE GRADUATE SCHOOL BY JULY 31 OF THE SAME YEAR. [[the student is essentially completed the graduate degree, and that all required signatures will be obtained and the thesis, project or dissertation filed by the last day of instruction.]] If the student is a Ph.D. candidate, the major advisor or designated committee member must also agree to participate in the graduation ceremonies; and

c. [[filed a copy of the required project/thesis/dissertation with the Graduate School with all required signatures, by the last day of instruction in Spring Semester; and

d.]] for Ph.D. candidates, filed a ≤ 50 word abstract of the dissertation research along with the signed [[dissertation]] MEMORANDUM.

NOTE: Individuals who "walk through" graduation ceremonies will NOT be listed in the graduation program. These students' names, and if Ph.D. recipients, descriptions of dissertation research, will appear in the program of the academic year in which the Degree is formally granted.

EFFECTIVE: Immediately

RATIONALE: Because students currently can participate in commencement only in May, and most relocate soon after completing their graduate degrees, the present policy is overly stringent. On the other hand, GAAC feels that passing the important milestone of the project/thesis/dissertation defense is a necessary condition. Further, this should be limited to cases in which the project/thesis/dissertation requires only minor or moderate revision, which can be accomplished in time for summer graduation.

****

The UAF Faculty Senate passed the following at its Meeting #136 on April 3, 2006:

RESOLUTION:
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Jon Genetti as President-Elect of the UAF Faculty Senate for 2006-2007 by affirmation.

The UAF Faculty Senate passed the following at its Meeting #135 on March 6, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the "UAF Advanced Placement Credit" for Foreign Languages/Alaska Native Language to delete Foreign Languages from the policy (p. 31-33 of the 2005-2006 catalog).

CAPS - Additions
[[ ]] - Deletions

Alternate Ways to Earn Credit

UAF Advanced Placement Credit

***[[Foreign Language/]] Alaska Native Language**

After completing the course in which you were placed (above 101) and earning a B grade or higher, you may ask to receive credit for the two immediately preceding prerequisite courses, if any. However, credit cannot be awarded for such courses if university credit has already been granted for them (e.g., through College Board Advanced Placement national tests or credit transfer from another college). Credit will not be awarded for special topics courses, individual study courses, literature or culture courses, conversation courses, or any course taught in English.

EFFECTIVE: Fall 2006

RATIONALE: The Dept. Foreign Languages is asking to do away with this manner of earning credit for the following reasons:

- **it is redundant:** Students may earn up to 16 credits in French, German, and Spanish through the CLEP test offered by Testing Services. Tests in Japanese and Russian are offered by BYU and are also accepted by UAF. (see p. 31 of the UAF catalog)
- **it duplicates AP credit:** local AP language teachers are advising students not to take the AP test if they are planning to attend UAF because they can get the credit simply by taking a class.
- **it is inconsistent with other academic disciplines**: Foreign Languages and Alaska Native Languages are the only programs that offer this sort of credit. ANL chooses to maintain the policy because there are no tests available in Alaskan Native languages. Other departments have no such policy- why should we be different? Students cannot earn credit for Biology 104 and 105 by taking Biology 106.
- **it does not benefit heritage and native speakers:** as languages grow in popularity more and more heritage and native speakers (in Spanish particularly, but also in other languages) are signing up for classes. Under the current policy they must begin at the 300-level in order to earn bonus credits for the prior courses. Many of these students are not served by 300-level classes and should go directly into more advanced courses, but cannot do so because they will lose their chance to earn “bonus” credits.
- **it creates difficulties for instructors:** students take classes that they really should not be in (for which they are either under- or over-prepared) so that they can try to get bonus credits. This creates difficulties for instructors who are trying to deal with, for example, a native speaker in a third-year language class.
- **it is overly complicated**: along with increased popularity and enrollment come increased difficulties. While we attempted to draft a policy that would cover all situations, this has not turned out to be so. Not a week goes by without some new, unexpected request for credit that must be dealt with on a case by case basis. The evaluation of these cases is causing an undue burden to faculty and staff.

****

The UAF Faculty Senate passed the following at its Meeting #135 on March 6, 2006:

MOTION:
=======

The UAF Faculty Senate moves to change the Grading System policy for the "I" -- Incomplete grade and add the "NB" -- No Basis grading option (2005-2006 Catalog, page 70-71), as follows:

[[ ]] - Deletions
CAPS - Additions

Grading System and Grade Point Average Computation

"I" Incomplete -- [[Indicates that you have not been able to complete the course during the scheduled course time. When the I grade is given, the instructor will include a statement of the work required of you to complete the course and the time limit you have to complete the work. The maximum allowed time is one year. At the end of the defined time limit, the instructor may issue a grade based on the work turned in. If the instructor does not change the I grade, it becomes permanent at the end of one year. The I grade is not computed in your GPA. You cannot graduate with an I grade in any required course.]]

THE LETTER GRADE "I" (INCOMPLETE) IS A TEMPORARY GRADE USED TO INDICATE THAT THE STUDENT HAS SATISFACTORILY COMPLETED (C OR BETTER) THE MAJORITY OF WORK IN A COURSE BUT FOR PERSONAL REASONS BEYOND THE STUDENT'S CONTROL, SUCH AS SICKNESS, HAS NOT BEEN ABLE TO COMPLETE THE COURSE DURING THE REGULAR SEMESTER. NORMALLY, AN INCOMPLETE IS ASSIGNED IN THE CASE WHEN THE STUDENT IS CURRENT IN THE CLASS UNTIL AT LEAST THE LAST THREE WEEKS OF THE SEMESTER OR SUMMER SESSION. NEGLIGENCE OR INDIFFERENCE ARE NOT ACCEPTABLE REASONS FOR AN "I" GRADE. THE DEFERRED GRADE (DF) SHOULD BE USED FOR THOSE CASES WHEN A STUDENT IS UNABLE TO COMPLETE A COURSE DUE TO INSTITUTIONAL REASONS, SUCH AS BREAKDOWN OF LABORATORY EQUIPMENT.

THE INSTRUCTOR WILL ALSO INCLUDE A STATEMENT OF THE WORK REQUIRED OF THE STUDENT TO COMPLETE THE COURSE AT THE TIME THE "I" GRADE IS ASSIGNED AND A COPY OF THE NOTICE OF THE INCOMPLETE GRADE WILL BE SENT TO THE DEAN OF THE SCHOOL OR COLLEGE IN WHICH THE COURSE IS GIVEN. *AN INSTRUCTOR INTENDING TO ASSIGN A GRADE OF 'I" WILL MAKE A CONCERTED EFFORT TO CONTACT THE AFFECTED STUDENT AND SECURE HIS/HER ACKNOWLEDGEMENT OF THE CONDITIONS.*

AN INCOMPLETE MUST BE MADE UP WITHIN ONE YEAR OR IT WILL AUTOMATICALLY BE CHANGED TO AN "F" GRADE BY THE RECORDS OFFICE. THE "I" GRADE IS NOT COMPUTED IN THE STUDENT'S GRADE POINT AVERAGE UNTIL IT HAS BEEN CHANGED TO A REGULAR LETTER GRADE BY THE INSTRUCTOR OR UNTIL ONE YEAR HAS ELAPSED AT WHICH TIME IT WILL BE COMPUTED AS AN "F". A SENIOR CANNOT GRADUATE WITH AN "I" GRADE IN EITHER A UNIVERSITY OR MAJOR COURSE REQUIREMENT. TO DETERMINE A SENIOR'S GRADE POINT AVERAGE AT GRADUATION, THE "I" GRADE WILL BE COMPUTED AS A FAILING GRADE.

"NB" NO BASIS --

INSTRUCTORS MAY AWARD A NO BASIS (NB) GRADE IF THERE IS INSUFFICIENT STUDENT PROGRESS AND/OR ATTENDANCE FOR EVALUATION TO OCCUR. NO CREDIT IS GIVEN, NOR IS THE "NB" CALCULATED IN THE GPA. THIS IS A PERMANENT GRADE AND MAY NOT BE USED TO SUBSTITUTE FOR THE INCOMPLETE (I). IT CANNOT BE REMOVED BY LATER COMPLETING OUTSTANDING WORK.

EFFECTIVE: Fall 2006

RATIONALE: On December 9th, 1996, the Faculty Senate eliminated the No Basis (NB) grade and changed the 'I' so that it would not turn into an 'F' after a year.

With NB no longer an option, some faculty assigned grades of 'I' to students who had no intention of ever completing a particular course. This caused a huge amount of paperwork (each 'I' requires a separate sheet of paper) and massive paper jams in Admissions & Records, as they're supposed to keep a record of every 'I' grade. CRCD faculty, through the Associate Dean, request restoration of the 'NB' grade—essentially viewing the changes of 12-9-96 as a failed experiment. In doing so, it would be logical to return to the old 'I' at the same time. Consequently, this proposal is to essentially turn back the clock to November 1996; restore the grade of 'I' to its originally intended use; and restore the option of giving a grade of 'NB' to a student who has registered but not substantially participated, and not withdrawn. The addition of the line in italics is to help prevent giving an 'I' to a student who would prefer to take a (low) grade instead of finishing a course.

****

The UAF Faculty Senate passed the following at its Meeting #135 on March 6, 2006:

RESOLUTION

ON

Constitutional Amendment: Benefits & Marriage
(SJR 20 and HJR 32)

WHEREAS, Discrimination against faculty on the basis of marital status is expressly prohibited by the University of Alaska Board of Regents Statement of Non-discrimination; and

Whereas, the UAF Faculty Senate affirms the importance of complying with university non-discrimination policies; and

WHEREAS, to comply with SJR 20 and HJR 32 the university would deny financially interdependent partners (FIPs) insurance benefits, family membership at the Student Recreation Center, tuition waivers, faculty housing, and other valuable benefits currently offered counter to university policy prohibiting discrimination based on marital status; and

WHEREAS, The Faculty Senateaffirms thatproviding insurance and other benefits to FIPs is a valuable way to recruit and retain excellent faculty; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate is opposed to SJR 20/HJR 32; and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate commends the University of Alaska statewide administration for its ongoing support of financially interdependent partner (FIPs) benefits.

The UAF Faculty Senate passed the following at its Meeting #134 on February 6, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the Computation requirements for the Certificate and A.A.S. degree (2005-2006 UAF Catalog, page 78, 80).

EFFECTIVE: Fall 2006

RATIONALE: This change eliminates CIOS 116 from the options available to complete the related instructional Computation requirement. CIOS 116 has been deleted as a course. Existing course ABUS 155 will continue to meet this requirement.

****

[[ ]] = deletion
CAPS = addition

Computation..... **2-3**

Complete one of the following:

- any course at the 100 level or above in mathematical sciences (math, computer science, statistics) (3)
- ABUS 155 -- Business Math (3)
- [[CIOS 116 -- Business Math Using Calculators (3)]]
- DEVM 105 – Intermediate Algebra (3)
- ECE 117 – Math Skills For Early Childhood Education (3)
- HLTH 116 -- Mathematics In Health Care (3)
- HSV 117 – Math Skills For Human Services (3)
- TTCH 131 -- Maintenance Mathematics (3)
- other program approved discipline-based computation course or discipline-based courses with embedded computation content to total..... 2-3

****

The UAF Faculty Senate passed the following at its Meeting #134 on February 6, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF Faculty Senate By-laws, Section 3 (Art. V: Committees, Permanent) increasing membership on the Committee on the Status of Women as follows:

[[ ]] - Deletions
CAPS - Additions

Sect. 1 (ART III: Membership)

E. The standing and permanent committees of the Senate are:

PERMANENT

7. The Committee on the Status of Women. Membership will consist of [[eight]] NINE people, [[one]] TWO of whom will be senators, the others

to be elected at large from among UAF faculty.

The purpose of this committee is to monitor the status of women faculty at UAF and to work proactively for gender equity.

Such actions will include, but are not limited to: Maintaining lists of women faculty with hire, tenure and promotion dates; Organizing and supervising surveys on the status of women and assessing the cultural climate of the university as it pertains to women; Recommending policy to address the needs of women faculty; Supporting mentoring of women, both new and mid-career faculty, including running workshops on mentoring, promotion & tenure, negotiating techniques and other forms of faculty development identified as necessary; Addressing family-work issues, such as child care, parental leave, spousal/partner hire; Coordinating with other campus and university groups which deal with women's and gender issues; and any other issues which would help women to achieve equity at UAF.

EFFECTIVE: Immediately

RATIONALE: The Faculty Senate recently approved a motion on mixed gender representation for all Senate committees. Adding an additional Senate seat will assist in fulfilling that goal.

The central component of the intellectual experience at the university is the core curriculum. It is possible to achieve a better correspondence between the content of the core and the courses selected to substitute for core courses without making the curriculum into a procrustean bed.

****

The UAF Faculty Senate passed the following at its Meeting #134 on February 6, 2006:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF Faculty Senate By-laws, Section 1 (Art. III: Membership) as follows:

[[ ]] - Deletions
CAPS - Additions

Sect. 1 (ART III: Membership)

B. Representation shall be by academic OR RESEARCH unit and based on the number of full-time faculty equivalent (FTFE) in each unit as described below.

1. A unit is a single school or college or a collection of schools and/or colleges OR COLLECTION OF RESEARCH INSTITUTES (see item 7).

2. For representational purposes only a faculty member shall be defined as one who holds academic rank or special academic rank.

3. Each faculty member whose annual academic appointment equals or exceeds 1560 hours will be considered 1 FTFE.

4. Each faculty member whose annual academic appointment is less than 1560 hours will be considered a fractional FTFE with the fraction being the number of hours of annual academic appointment divided by 1560.

5. Each unit will elect the number of representatives to the Senate equal to the number of FTFE in that unit divided by the total UAF FTFE, multiplied by 35 and rounded to the nearest integer.

6. A faculty member having appointment split between units shall be included in each unit in proportion to the respective appointment for the computation of item 5.

7. All schools or colleges whose representation under item 5 is zero shall be grouped into the conglomerategroup and this group shall be treated as a single unit for purposes of the computation of item 5. If a unit which would have been grouped in the conglomerategroup decides instead that the unit would be better served by joining with another school or college, it may do so upon the mutual agreement of those units.

8. Re-apportionment will be done for the elections held in even numbered years or upon two-thirds vote of the Senate.

9. EACH UNIT WILL HAVE AT LEAST 2 REPRESENTATIVES.

C. Election Procedure

1. Election shall be held by the ACADEMIC units OR THE SENATE OFFICE FOR THE RESEARCH INSTITUTES to provide representatives to the Senate according to Article III of the Senate Constitution. Elections and election procedures are the responsibility of the units, subject to the following:

2. A faculty member may vote for Senate representatives in only one unit. That unit must be the unit of primary appointment or, in the case of evenly split appointment, the unit of the faculty member's choice.

3. Units with full-time permanent faculty based on other than the Fairbanks campus should elect Senate representatives in a number that is at least equal to the proportion of the non-Fairbanks based FTFEs.

4. Units with faculty who teach in associate, certificate, or noncredit programs should elect representatives in proportion to such faculty.

5. Units with senior faculty should elect associate and full professors as Senate representatives in a number that is at least equal to the proportion of such faculty.

6. Units with graduate programs should elect at least one graduate faculty member.

7. Each unit shall elect at least half as many alternate representatives as representatives.

D. Vacancies

1. In the case of death, resignation, or transfer of an elected representative of the Senate, an alternate shall immediately become the representative. [[The alternate selected to fill the vacancy shall be the highest vote-getter from the constituency election for alternates as specified in the bylaws. If no alternate is available, then]] The president of the Senate will appoint a[[n alternate]] REPLACEMENT with the concurrence of the affected constituency, and the consent of the Administrative Committee.

EFFECTIVE: Immediately

RATIONALE: This change will give the research faculty that don't have an affiliation with a college/school a separate unit for representation on the Faculty Senate. Small units will be able to have continued membership on the Senate by guaranteeing at least two seats for each unit, therefore having staggered terms. Specifying the alternate to fill vacancies shall be the highest vote getter is not always possible and is not necessary.

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

RESOLUTION OF APPRECIATION

FOR

GAYLE GREGORY

WHEREAS, Gayle Gregory has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's esteem; and

Whereas, Gayle Gregory has served as a member of the UAF Faculty Senate Curricular Affairs Committee since 1993; and

Whereas, Gayle Gregory has served as a member of the UAF Faculty Senate Curriculum Review Committee since 2003; and

Whereas, Gayle Gregory has served as a member of the UAF Faculty Senate Graduate Academic and Advisory Committee since 1996; and

WHEREAS, Gayle Gregory has been instrumental in providing guidance and direction in the compilation of the University Catalog for many years; and

Whereas, Gayle Gregory certified degree requirements for UAF's annual commencement ceremonies since 1988; and

Whereas, Gayle Gregory has dedicated 24 years of service to the University of Alaska and the Office of the Registrar; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the exemplary service rendered the faculty and the University by Gayle Gregory; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recognize the many contributions of Gayle Gregory to the University of Alaska Fairbanks and expresses its appreciation for her outstanding service.

****

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on Graduate Advisory Committee membership for Interdisciplinary doctoral degree students (2005-2006 UAF Catalog, page 169) as follows:

[[ ]] - Deletion
CAPS - Addition

Doctoral Degree

The core advisory committee of doctoral degree students must consist of four approved UAF faculty members. For interdisciplinary students, one advisory committee member must be from a Ph.D.-granting department OR BE APPROVED AS THE GRADUATE SCHOOL REPRESENTATIVE BY THE GRADUATE SCHOOL DEAN,

BASED ON PRIOR EXPERIENCE ADVISING PH.D. STUDENTS. Participating faculty above this number are considered additional committee members. Committee membership must be approved by the home department, unit dean, and the dean of the Graduate School.

EFFECTIVE: Immediately

RATIONALE: It is often difficult for INDS Ph.D. students to find appropriate committee members from Ph.D.-granting departments. Anthropology faculty are overloaded with requests, and Psychology faculty will be soon, since many INDS students are in liberal arts of social science fields. Also, sometimes Anthropology faculty end up on committees where they have only a limited interest and familiarity with the research topic.

****

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve a Post-Baccalaureate Certificate for the Elementary Post-Baccalaureate Licensure Program.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposals #27 from the Fall 2005 review cycle on file in the Governance Office, 312 Signers' Hall.

Elementary post-Baccalaureate Licensure Program - Year long program designed to provide students with course work and internship experience necessary to meet the UAF/Alaska Teacher Standards. Current program results in an Alaska teacher license and this will add a UAF post-baccalaureate certificate. Students can apply program credits to a M.Ed. in Elementary Education.

****

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks

Title of Existing Program:

Elementary Post-Baccalaureate LicensureProgram

Proposed Program: Elementary Post-Baccalaureate Licensure *and UAF* Certificate Program

Target Admission Date: Summer 2006

The current program results in an Alaska teacher license but not a UAF certificate.
The proposed program will result in both Alaska teacher licensure and a UAF post-baccalaureate certificate.

Brief Overview

The current Elementary Post-Baccalaureate Licensure Program was approved by the UAF Faculty Senate and the Alaska State Board of Education and Early Development in 1998, and by the national elementary professional organization, the "Association for Education of Childhood International" in 2003. In the spring of 2003 the program was thoroughly review during the internal UAF Program Review (with a team comprised of two UAF faculty from other units and a local elementary teacher). In March of 2005, the UAF School of Education received national accreditation from the National Council for the Accreditation of Teacher Education/NCATE.

Currently, post-baccalaureate students who complete their teacher preparation programs at UAF are eligible to receive a State of Alaska Elementary Teaching License. However, they are currently *not* eligible to receive any formal recognition from UAF for having completed an "official" UAF program. We are requesting that the UA Board of Regents approve the UAF Elementary Post-Baccalaureate Licensure Program as a UAF "Certificate" Program. This proposed certificate will provide a valuable university award to students who complete this well-defined and fully approved program. The certificate will become a valuable addition to the portfolio of Alaska professionals who now have only a series of courses listed on their transcripts. The certificate will verify the completion of an integrated set of courses that is directly aligned with a year long internship in an elementary classroom. The certificate will be useful for job seekers, those seeking professional advancement, and for employers who will have better documentation of the capabilities of their applicant or employees. In addition, the School of Education, UAF and UA Statewide will be able to gather and analyze data on post-baccalaureate licensure candidates in a far more accurate manner than is currently possible because program data will be included in the Banner system. Therefore, the UAF School of Education is seeking approval from the UA Board of Regents to offer our existing UAF Elementary Post-Baccalaureate Program as a program that will lead to a UAF certificate, in addition to an Alaska Teacher License**.**

How Does the Program Relate to the Education Mission of the University of Alaska and UAF?

There is a well-documented and critical need for teachers in Alaska, and throughout the United States. The Elementary Post-Baccalaureate Program provides the option for students in rural areas, as well as those on the Fairbanks Campus, to seek licensure as an Alaska teacher. The development of the UAF post-baccalaureate program for elementary teacher preparation was a direct response to the stated mission of the University of Alaska, which is to: "inspire learning, and advance and disseminate knowledge through teaching, research, and public service, emphasizing the North and its diverse peoples." In addition to supporting the Mission of the University of Alaska, the Elementary Post-Baccalaureate Licensure Program at UAF directly responds to, and supports, each of the six primary goals in the 2005 University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: (1) collaboration across UAF departments to assure academic content requirements; (2) program requirements for year-long internships in schools based on on-going collaboration with nearly all of Alaska's 52 school districts; (3) the built-in required professional development for cooperating mentor teachers; and (4) increasing the number of Alaska Native professionals (approximately 20% of students completing requirements for elementary licensure at UAF are Alaska Native).

There is no negative impact of this program, or of the request that a UAF certificate be awarded, on UAF programs or on similar post-baccalaureate programs at UAA and UAS. Faculty and administrators at each of the MAU's communicate regularly, and we continue to work collaboratively on all of our teacher preparation programs.

State Needs Being Met by this Program

Each of the MAU's provides elementary teacher preparation programs at both the undergraduate and post-baccalaureate and graduate level. The need for Alaska-prepared teachers is so great that it is necessary for all of the MAU's to continue to provide elementary programs at both undergraduate and post-baccalaureate graduate levels. One of the special attractions of the UAF post-baccalaureate program is that students are able to apply 13 of their post-baccalaureate credits to an M.Ed. in Elementary Education.

In a report to the Governor and State Board of Education and Early Development prepared by the State's "Education Funding Task Force," the statement is made that:

Alaska's college and universities supply about 30% of our state's annual demand for new teachers. More than two-thirds of new teachers come from out-of-state. A national shortage of teachers and administrators forces Alaska to

compete with other states for an ever-shrinking pool of applicants. Other states are offering teachers signing bonuses, down payment on homes, mortgage subsidies, and student loan repayment plans. With attractive salaries and incentives in their home states, far fewer out-of-state teachers are applying for available Alaska teaching positions, some of which go vacant for a year or more (page 10).

Supporting data are available from each of the 52 Alaska School Districts, the Alaska Department of Education and Early Development, the Alaska Teacher Placement Service, and from the UAF School of Education's own hiring database which includes data on approximately 3,600 students who have completed our teacher education programs since 1975.

Student Opportunities and Outcomes and Enrollment Projections

Through our collaboration with the Alaska Department of Education and Early Development, our own extensive hiring database, and our own telephone surveys of our post-baccalaureate graduates, we have detailed and accurate information on each of the 59 students who have completed the existing elementary post-baccalaureate program since its beginning in 1998. Ninety percent of the program completers are working in the field of education—although not all are in positions as classroom teachers. Approximately 95% of our program completers are in Alaska. Students who are not place-bound are always able to find employment in an Alaska school.

Projections for enrollment are based on a review of enrollments in our licensure programs over the last ten years. The hiring data we have on approximately 3,600 graduates since 1975 allow us to know which districts and schools are hiring our graduates. For instance, we know that approximately 46% of the professional staff in the Fairbanks North Star Borough School District have received degrees from the UAF School of Education, and we know that the UAF School of Education supplies a much higher percent of teachers for rural Alaska than do the other Alaska institutions. We can accurately predict enrollments for our undergraduate BA in Elementary Education students, but we are not able to predict the numbers of post-baccalaureate students, although it averages to about eight per year. Since the post-baccalaureate students enroll in the same internship year courses as BA in Elementary Education students, the continuation of the program is not dependent upon the number of students each year. (And, in Alaska, as elsewhere the large majority of students seeking an elementary license do so through an undergraduate degree program rather than through a post-baccalaureate program). Since the State Board of Education and Early Development has recently changes its licensure requirements, it is possible that the new options provided by these changes will lead to an increase in the number of applicants to the elementary post-baccalaureate program.

With the full implementation of our Elementary Standards-based Assessment Plan/ESSAP in the 2004-2005 academic year, we now have in place a complete standards-based outcomes assessment system which allows us to carefully monitor and track individual student progress as well as being able to analyze strengths and weaknesses of our program.

Research Opportunities

The Elementary post-baccalaureate licensure program assures the continued involvement of UAF faculty in rural and urban public education throughout the state. The full-year internship is dependent upon close working partnerships with schools, districts and communities. In addition, the UAF School of Education continues to focus nearly all of its research opportunities on issues related to assuring equity in opportunities and outcomes for all Alaska students—regardless of their geographic location or their cultural, racial or linguistic background.

Fiscal Plan for Development and Implementation.

No additional funding is required for the posting of a UAF certificate. Currently, the School of Educational budget includes the necessary instructional funds to support the program at its current level. If the enrollment were to increase substantially and/or if the applicants were from rural areas where there are no School of Education faculty, it would be necessary to identify additional travel funds for supervisor travel.

****

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve a Post-Baccalaureate Certificate for the Secondary Post-Baccalaureate Licensure Program.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposals #29 from the Fall 2005 review cycle on file in the Governance Office, 312 Signers' Hall.

Secondary Post-Baccalaureate Licensure Program - Provides teacher certification program that includes coursework and internship to meeting NCATE standards, standards of academic specialty areas, Alaska Teacher Standards and Alaska Standards for Culturally Responsive School. Current program results in an Alaska teacher license and this will add a UAF post-baccalaureate certificate.

****

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks

Title and Brief Description:

Post-Baccalaureate Certificate for Secondary Education

Create a new Regents awarded, university certificate for students who already hold a baccalaureate degree.

Target date: Spring 2006

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

There is a well-documented and critical need for teachers in Alaska, and throughout the United States. The Secondary Post-Baccalaureate Licensure Program provides the option for students in rural areas, as well as those on the Fairbanks campus, to seek post-baccalaureate teaching licensure at the undergraduate or graduate level. There are many programs throughout the UA system that are designed to help students attain professional standing or meet established standards after the award of the first baccalaureate degree. The proposed Post-Baccalaureate certificates will provide a valuable university award to students who complete a well defined and approved program. The proposed certificate will become a valuable addition to the portfolio of Alaskan professionals who now have only a series of courses listed on their transcripts. The certificate will verify the completion of a coherent set of courses covering a defined body of knowledge that has been established by a knowledgeable faculty. It will be useful for job seekers, those seeking professional advancement, and for employers who will have better documentation of the capabilities of their applicant or employees. In addition, the School of Education, UAF, and UA Statewide will be able to gat her and analyze data on post-baccalaureate licensure candidates in a far more accurate manner than is currently possible.

As a public institution, and as the state's land-, sea- and space-grant institution, the University of Alaska responds to the interests and needs of the people of Alaska. Close working relationships between the K-12 public education system and the state's higher education system are essential for the social and economic well-being of our state. The secondary post-baccalaureate licensure teacher preparation program is a direct response to the stated mission of the University of Alaska which is to "address the needs of the North and its diverse peoples**.**" There

most certainly is a “need” in Alaska for teachers—and for teacher preparation programs that prepare people to professionally and respectfully work in our unique Northern context with Alaska’s diverse peoples—i.e., with students and families from *all* ethnic, cultural and linguistic backgrounds.

In addition to supporting the Mission of the University of Alaska, the secondary post-baccalaureate licensure teacher preparation program at UAF directly responds to, and supports many of the primary goals of the University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: (1) academic content requirements and the necessary collaboration across UAF departments; (2) requirements for on-going fieldwork in schools and communities; and (3) the built-in professional development for cooperating teachers and administrators and the required formal partnerships with schools and districts in rural and urban areas.

The Secondary Post-Baccalaureate Licensure Programs speaks to the following components of the University Strategic Plan;

- Provide high quality education for traditional and non-traditional students
- Form active collaborations with communities, organizations, businesses and government to meet identified state, national and global needs
- Be an educational center for Alaska Natives
- Be a model that demonstrates how gender, racial, and cultural diversity strengthen a university and society

What **State Needs** met by this program.

In a recent Report to the Governor and State Board of Education & Early Development prepared by the State’s "Education Funding Task Force," the statement is made that:

Alaska’s college and universities supply about 30% of our state’s annual demand for new teachers. More than two-thirds of new teachers come from out-of-state. A national shortage of teachers and administrators forces Alaska to compete with other states for an ever-shrinking pool of applicants. Other states are offering teachers signing bonuses, down payment on homes, mortgage subsidies, and student loan repayment plans. With attractive salaries and incentives in their home states, far fewer out-of-state teachers are applying for available Alaska teaching positions, some of which go vacant for a year or more (page 10).

Supporting data is available from each of the 54 Alaska School Districts, the Alaska Department of Education and Early Development, and the Alaska Teacher Placement Service’s annual comprehensive report Statewide Educator Supply and Demand.

What are the **Student** opportunities and outcomes? Enrollment projections?

Nearly eighty percent of last years secondary job seekers are currently working in the field of education. Those who are not employed are likely to be place bound and unable to seek employment outside local areas. In addition, the Secondary Post-Baccalaureate Licensure Program serves a number of teacher interns working under Alaska statute 14.20.022 which allows teacher candidates who are completing an accredited licensure program to teach with Subject-mater expert limited teacher certificates. As long as there are sufficient numbers of faculty and field site placements, the program can accommodate anticipated enrollments.

Describe **Research** opportunities:

The Secondary Post-Baccalaureate Licensure Program assures the continued involvement of UAF faculty in P-12 public education throughout the state. The full-year internship is dependent upon close working partnerships with schools, districts and communities.

Describe Fiscal Plan for development and implementation:

The Secondary Post-Baccalaureate Licensure Program anticipates no additional funding for continuation of program or to add the certificate of completion

****

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve a Post-Baccalaureate Certificate for the K-12 Art Licensure Program.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposals #28 from the Fall 2005 review cycle on file in the Governance Office, 312 Signers' Hall.

K-12 Art Licensure Program - Provides teacher certification program that includes coursework and internship to meeting NCATE standards, the national fine arts standards, Alaska Teacher Standards and Alaska Standards for Culturally Responsive School. Current program results in an Alaska teacher license and this will add a UAF post-baccalaureate certificate.

****

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks

Title and Brief Description:

Post-Baccalaureate Certificate for K-12 Art Licensure

Create a new Regents awarded, university certificate for students who already hold a baccalaureate degree.

Target date: Spring 2006

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

There are many programs throughout the UA system that are designed to help students attain professional standing or meet established standards after the award of the first baccalaureate degree. The proposed K-12 Art certificate will provide a valuable university award to students who complete a well defined and approved program. The proposed certificate will become a valuable addition to the portfolio of Alaskan professionals who now have only a series of courses listed on their transcripts. The certificate will verify the completion of a coherent set of courses covering a defined body of knowledge that has been established by a knowledgeable faculty. It will be useful for job seekers, those seeking professional advancement, and for employers who will have better documentation of the capabilities of their applicant or employees. In addition, the School of Education, UAF, and UA Statewide will be able to gat her and analyze data on post-baccalaureate licensure candidates in a far more accurate manner than is currently possible.

As a public institution, and as the state's land-, sea- and space-grant institution, the University of Alaska responds to the interests and needs of the people of Alaska. In addition to supporting the Mission of the University of Alaska, the K-12 Art licensure teacher preparation program at UAF directly responds to, and supports many of the primary goals of the University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: (1) academic content requirements and the necessary collaboration across UAF departments; (2) requirements for on-going fieldwork in schools and communities; and (3) the built-in professional development for cooperating teachers and administrators and the required formal partnerships with schools and districts in rural and urban areas.

The K-12 Art Licensure Program speaks to the following components of the University Strategic Plan.

- Provide high quality education for traditional and non-traditional students
- Form active collaborations with communities, organizations, businesses and government to meet identified state, national and global needs
- Be an educational center for Alaska Natives
- Be a model that demonstrates how gender, racial, and cultural diversity strengthen a university and society

What **State Needs** met by this program.

The market for K-12 art teaches is small however UAF is the only institution in the state preparing students to meet market need. Some urban districts and most rural district who hire art teachers prefer K-12 licenses to secondary only licenses.

What are the **Student** opportunities and outcomes? Enrollment projections?

While raw numbers of completers are low nearly all of those who complete the licensure program should be able to find employment. The high employability percentage of other secondary program completers in the same content area allows us to speculate that the demand for K-12 Art Licensure completers will grow.

Describe **Research** opportunities:

The K-12 Art Licensure Program assures the continued involvement of UAF faculty in P-12 public education throughout the state. The full-year internship is dependent upon close working partnerships with schools, districts and communities.

Describe Fiscal Plan for development and implementation:

Because the K-12 Art Licensure Program is a subset of the Secondary Post-Baccalaureate Licensure Program, no additional funding for continuation of program or to add the certificate of completion is anticipated.

****

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve a Post-Baccalaureate Certificate for the School Counselor Certification Program.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposals #30 from the Fall 2005 review cycle on file in the Governance Office, 312 Signers' Hall.

School Counselor Certification Program - Defined set of courses to recognize the professional training to become certificated as elementary and or secondary school counselors. Current program results in an Alaska license and this will add a UAF post-baccalaureate certificate.

****

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks

Title and Brief Description:

Post-baccalaureate Certificate for the School Counselor Certification Program

Create a new, Regents awarded, university certificate for students who already hold a master's degree.

Target date: Spring 2006

How does the program relate to the Education mission of the University of Alaska and the MAU?

There is substantial evidence that indicates a chronic shortage of fully-certified professional school counselors in Alaska, and throughout the United States. The School Counselor Certification Program allows students throughout the state, including those in rural areas, to complete the necessary professional training to become certificated as elementary and/or secondary school counselors. The proposed certificate program with its well-defined set of courses will allow the university to recognize the professional training students have completed to receive this certification. It will be useful for job applicants, those seeking professional advancement, and for employers who will have better documentation of the capabilities of their potential employees. In addition, the School of Education, UAF, and UA statewide will be able to gather and analyze data on post-master's licensure candidates in a far more accurate manner than is currently possible.

As a public institution the University of Alaska responds to the interests and needs of the people of Alaska. Close working relationships between the K-12 public education system and the states higher education system are essential for the social and economic well being of our state. The School Counselor Certification Program is a direct response to the stated mission of the University of Alaska, which is to "address the needs of the North and its diverse peoples". There most certainly is a need in Alaska for professional school counselors and for school counselor preparation programs that prepare people to professionally and respectfully work in our unique Northern context with Alaska's diverse peoples. We would serve as a model to demonstrate how gender, racial and cultural diversity can strengthen a university and society.

In addition to supporting the Mission of the University of Alaska, the School Counselor Certification Program at UAF directly supports many of the primary goals of the University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: providing high quality graduate education for traditional and non-traditional students; forming active collaborations with school districts and communities throughout the state by requiring on-going fieldwork in those arenas; actively recruiting Alaska Native students; and providing professional development opportunities for practicing school counselors in rural and urban areas.

What state needs met by this program:

At the recent Behavioral Health Symposium (BHS) held in Anchorage, Alaska seventy-two percent of the individuals polled noted the need to maintain or increase the number of professional school counselors in the state. Participants at the BHS included: state commissioners and other officials, university personnel, and practicing clinicians representing both urban and rural communities. University training programs were identified as the primary source for meeting this work force demand.

- The University of Alaska has a responsibility to be part the solution
- Growing our Own
  - --Quantity
  - --Quality
- Research
- Increasing supply from certificate to doctoral
- Improving course and program articulation
- More distance and flexible learning
- Curriculum reflects new practice trends

(Behavioral Health Summit, September 2005)

The proposed certification program for school counselors helps to meet each of the above noted topics. In addition, anecdotal evidence from the UAF masters' program in school counseling supports the chronic shortage of certificated K-12 school counselors in the state. Supporting data is also available from each of the 54 Alaska School Districts, the Alaska Department of Education and Early Development, and the Alaska Teacher Placement Service's annual comprehensive report Statewide Educator Supply and Demand.

What are the student opportunities and outcomes? Enrollment projections?

One hundred percent of last year's graduates from the UAF Guidance and Counseling program are working either in the field of education as school counselors or in closely related positions. This employment statistic has remained constant for the past five years. The exception being those graduates who are place bound and must wait a year or two for a position opening to occur. As long as there are sufficient numbers of faculty and field site placements, the program can accommodate anticipated enrollments.

Describe research opportunities:

The School Counselor Certification Program assures the ongoing involvement of the UAF counseling faculty in K-12 education throughout the state. The full-year internship is dependent upon the continuing close working partnerships with schools, districts, and communities.

Describe Fiscal Plan for development and implementation:

The School Counselor Certification Program anticipates no need for additional funding for adding the proposed certificate of completion.

****

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve the deletion of the Certificate in Phlebotomy.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposals #151 from the Fall 2005 review cycle on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary

Deletion of Certificate in Phlebotomy

The Allied Health Division of the Tanana Valley Campus, College of Rural and Community Development, UAF, requests to delete the Certificate in Phlebotomy.

There are three primary reasons to delete the Certificate: 1) National Certification, rather than the UAF Certificate, is important in the workplace; 2) there have been very few graduates in this program; and 3) there is very little phlebotomy training in the certificate.

The important credential in the workplace is National Certification through the American Society for Clinical Pathology as a Phlebotomy Technician. Since 1997 there have been only 12 graduates with the Certificate in Phlebotomy, although we have trained 279 students in Principles and Methods of Phlebotomy and 145 of those

students have completed their externship. There are only 2 phlebotomy courses in the Certificate program. The remaining courses are required for other Allied Health degrees.

We will continue to offer training in Phlebotomy so that students can sit for National Certification through the American Society for Clinical Pathology to become Phlebotomy Technicians. In fact, we will not be deleting any courses. Therefore, students currently declared as Phlebotomy Certificate majors will be able to complete their Certificate requirements. We will continue to meet the needs of the workplace by training students in phlebotomy and preparing them for their national credential.

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

RESOLUTION

ON

SALE OF TOBACCO PRODUCTS IN WOOD CENTER

WHEREAS, The UAF Faculty Senate realizes the dangers of cigarettes and tobacco products; and

Whereas, Cigarettes and tobacco products are legal products to purchasers of legal age; and

Whereas, UAF Students are adults who can make informed decisions; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recommends that the students decide what legal products are or are not offered in the Wood Center; and

BE IT FURTHER RESOLVED, That the Chancellor involve appropriate organizational entities prior to implementation of policies directly affecting them.

****

The UAF Faculty Senate passed the following at its Meeting #133 on December 12, 2005:

RESOLUTION:
==========

WHEREAS, The University of Alaska Fairbanks provides an open academic environment that is and should be based on honesty and respect, and is committed to academic freedom; and

WHEREAS, The programming changes at KUAC implemented in July 2005 were made without consultation of the KUAC membership and listeners; and

WHEREAS, One of the programs eliminated, Counter Spin, had the sponsorship of an underwriter and received the highest pledges per half hour of air time during the pledge drive; and

WHEREAS, The general manager and CEO of KUAC, Greg Petrowich, withheld public information regarding fundraising totals for several months and only released some of the information after a Freedom of Information Act request was made; and

WHEREAS, The general manager and CEO of KUAC, Greg Petrowich, was insincere about some of the requested information by denying its existence; and

WHEREAS, The general manager and CEO of KUAC, Greg Petrowich, employed an advisory committee called the Community Leadership Council, and for several months kept the names of its members secret and only released this information after a Freedom of Information Act request was made; and

WHEREAS, About one-third of the KUAC membership, i.e., the KUAC Listeners Alliance of 454 people, have withheld pledges of a total of $48,600; and

WHEREAS, The KUAC Listeners Alliance requests that KUAC institute an elected Community Advisory Board to advice on major policy and programming decisions; and

WHEREAS, A KUAC Forum organized by the KUAC Task Force from 7-11pm on Wednesday, 7 December 2005, was attended by about 165 members of the public and at which about 75 people provided public testimony; and

WHEREAS, Of those 75 people testifying, all 75 expressed displeasure with the KUAC management; and

WHEREAS, Of those 75 people testifying, most spoke against the KUAC programming changes and a large proportion asked for an elected Community Advisory Board; and

WHEREAS, KUAC management is employed by the University of Alaska Fairbanks and answers to the Chancellor through the Vice-Chancellor for University Advancement and Community Engagement; now

BE IT FURTHER RESOLVED, That the Faculty Senate request an explanation by Chancellor Steve Jones for the apparent mismanagement at KUAC that has led to the loss of confidence in the KUAC management by the listeners; and

BE IT FURTHER RESOLVED, That the Faculty Senate request that Chancellor Steve Jones direct the KUAC management to release to the community public information when requested; and

BE IT FURTHER RESOLVED, That the Faculty Senate request that Chancellor Steve Jones direct the KUAC management to take steps to better insure involvement of the public in major policy and programming decisions; and

BE IT FURTHER RESOLVED, That the Faculty Senate request that Chancellor Steve Jones address the management at KUAC with appropriate actions, such as the formation of an elected Community Advisory Board.

The UAF Faculty Senate passed the following at its Meeting #132 on October 31, 2005:

MOTION:
=======

The UAF Faculty Senate recommends approval of the proposed change in Board of Regents Policy and University Regulations 10.04.02-03 adding Workforce Credentials and Occupational Endorsements.

EFFECTIVE: Immediately

RATIONALE: The Curricular Affairs Committee discussed the proposed revisions to the policies on Degree and Certificate Programs forwarded to the Faculty Senate for review and moves to forward them to the full Senate, with its recommendation that they be accepted.

UAF through the College of Rural and Community Development has had a long standing practice of awarding departmental certificates of completion for occupational and workforce development programs. This change to Regent's policy formalizes that practice at the UA level and will allow development of additional credential and endorsement programs.

****

REGENTS POLICY

Program Approval P10.04.02

All program additions, deletions, major revisions, and offerings of existing programs outside the State of Alaska will be approved by the Board of Regents. The Board delegates approval authority of Occupational Endorsements and Workforce Credentials to the President. This Policy has a corresponding University Regulation.

(05-07-81, revised 02-16-96, revised XX-XX-05)

Program Credit Hour Requirements P10.04.03

The minimum number of credits which may be required by a degree or certificate program will be, for each level:

Workforce Credential - CEU, contact hour, non-credit only – no specified minimum
Occupational Endorsement 9 credits
Certificate 30 credits Master's degree 30 credits
Associate degree 60 credits Graduate Certificate 12 credits
Bachelor's degree 120 credits Post-Baccalaureate Certificate 24 credits

The maximum number of credits which may be required by a degree or certificate program is, for each level:

Workforce Credential - CEU, contact hour, non-credit only – no specified maximum
Occupational Endorsement 29 credits
Certificate 60 credits Master's degree 45 credits

Associate degree 75 credits Graduate Certificate 29 credits
Bachelor's degree 132 credits Post-Baccalaureate Certificate 60 credits

The actual number of credits required for each degree and certificate, including prerequisites for required courses, will be specified in the current catalog of each university, community campus or community college.

The President may make exceptions to minimum or maximum credit hours for individual programs upon approval of the MAU faculty senate and the recommendation of the appropriate Chancellor.

While no minimum or maximum credit hours are required for the doctorate, a student is expected to be affiliated with the university for at least two years and complete all requirements for the degree within ten years.

UNIVERSITY REGULATION

Program Approval R10.04.02

A program summary form shall be submitted through the Systemwide Academic Council to the President in a format approved by SAC. Occupational Endorsement and Workforce Credential program approvals shall be submitted to the President by the Chancellor through SAC. SAC will ensure appropriate review by industry or other vested parties.

****

The UAF Faculty Senate passed the following at its Meeting #132 on October 31, 2005:

MOTION:
=======

The Faculty Senate moves to amend the UAF catalog "Table of Substitutions: non-University of Alaska institutions" (page 31 of the 2004-05 catalog):

EFFECTIVE: Immediately
Upon approval of the Chancellor.
This will appear in the 2006-07 catalog.

RATIONALE: The purpose is to align credit for transfer courses from out of state more closely with university core-curriculum requirements. Currently, transferring students receive core credit for taking courses elsewhere that do not approximate content required in the core curriculum. The proposed changes will achieve greater consistency between the experience of general-education requirements for students starting their studies at the university and those transferring from out of the state system.

The central component of the intellectual experience at the university is the core curriculum. It is possible to achieve a better correspondence between the content of the core and the courses selected to substitute for core courses without making the curriculum into a procrustean bed.

A STUDENT ON PROBATION WILL NOT BE ALLOWED TO REGISTER UNLESS THE ACADEMIC PLAN IS ON FILE. Removal from probation requires the student's cumulative and semester GPAs to be at least 2.0.

Academic Disqualification

* ***Undergraduate students***--Undergraduate STUDENTS ON probation [[students]] whose semester and cumulative GPAs are less than 2.0 at the end of spring semester [[may]] WILLbe disqualified from degree-seeking status. Disqualified students may continue their enrollment at UAF only as non-degree students and are limited to a maximum of 9 credits per semester. To be eligible for reinstatement in an academic degree program, the student [[will normally be]] IS expected to earn at least a C grade in all courses taken as a non-degree student. To be restored to degree-seeking status, the student must apply for readmission. A STUDENT MAY BE REINSTATED BUT MAY STILL BE ON PROBATION, AND IF SO, WILL BE SO NOTIFIED.

EFFECTIVE: Fall 2006

RATIONALE: The current regulations are models of vagueness and lend themselves to arbitrary, inconsistent, and capricious interpretations. In addition, they provide penalties, but no assistance, for students with poor academic performance. These proposed changes are designed to address these problems.

The UAF Faculty Senate passed the following at its Meeting #131 on September 19, 2005:

MOTION:
=======

The UAF Faculty Senate moves that all Senate committees, including subcommittees and ad hoc committees, have mixed gender representation, and further, the Senate strongly recommends that all university-wide committees have mixed gender representation.

EFFECTIVE: Immediately

RATIONALE: Although women make up approximately 40% of the faculty, they are not always represented in University-wide committees. To avoid the appearance of bias and to include more views, background and experience, the CSW believe that increasing mixed gender representation on committees will help to further integrate women into all levels of the university community. This motion reaffirms that the university values gender equity.

The UAF Faculty Senate Administrative Committee passed the following on August 26, 2005:

RESOLUTION:
==========

Supporting Continuation of the UA Senior Tuition Waiver

WHEREAS, The University of Alaska established a program to provide tuition waivers for seniors 60 years of age or older who register on a space available basis; that is, when courses can accommodate such students in addition to all tuition-paying students;

WHEREAS, Seniors 60 or older who receive this tuition waiver still pay all incidental costs for their classes including books, lab, student government/activity, and parking fees;

WHEREAS, The presence of seniors in University of Alaska classes is a significant benefit to younger students because of the life experience and often different world view that seniors have compared to younger students;

WHEREAS, The University of Alaska major academic units are striving to enhance their fundraising capabilities, with seniors leading the demographic group most likely to donate to the institutions; and

WHEREAS, Relatively little fiscal analysis has been done that would allow a cost-benefit analysis of this proposal to discontinue the senior tuition waiver; such an analysis would take into account at least the inelasticity of the demand for courses under this program, the lost fee revenues, and, perhaps most significantly, the potential to lose major donations to the institution as a result of this policy change; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate supports continuation of the senior tuition waiver, and recommends the University Statewide Administration look at alternative measures to reduce the supposed cost impacts of the program.

The UAF Faculty Senate Administrative Committee passed the following at its meeting on May 12, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve a Certificate in Automotive Technology.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposals #145 from the Fall 2005 review cycle on file in the Governance Office, 312 Signers' Hall.

The Certificate in Automotive Technology requires 34 credits in Automotive Technology courses. Related Instruction in Communication, Computation, and Human Relations is embedded in discipline-related courses

****

Certificate in Automotive Technology

The proposal for a new Certificate in Automotive Technology is part of a larger package of changes to the current Certificate and AAS Degree in Maintenance Technology.

It is important to note that while the request is a "new" certificate in Automotive Technology such a program already exists and has for many years at TVC/UAF. It is currently offered as a concentration under the Certificate in Ground Vehicle Maintenance Technology. TVC has long had a regular faculty position (1.0 FTE) in Automotive Technology and a budget for adjunct faculty, administrative support, and commodities.

Our goal is to enhance and expand quality offerings in this area. Among other changes, this proposal separates out the auto program from what is now known as Maintenance Technology and allows it to stand alone.

PROPOSED CHANGES:

UAF's automotive offerings are currently part of the Certificate and AAS degree in Maintenance Technology. Our goal is to "unpack" these certificates and degrees so that their requirements are clear and each is easily found in the UAF catalog. Students and community members alike tell us that each should stand alone so that the career pathways associated with them are evident. Doing so also allows them to be listed separately in the UAF catalog and marketed properly at distinct programs. At the same time, we propose updating our curriculum and delivery methods to align with industry standards and expressed community needs.

The new Certificate in Automotive Technology aligns UAF's program with related offerings at UAA. The Anchorage program offers Ford and GM factory service programs that may be of interest to UAF students (it is unlikely that these factory programs will be offered in Fairbanks in the foreseeable future). This alignment of UAF and UAA programs enables those students interested in these factory programs to move on to the UAA program if desired (something not now easily done).

AUTOMOTIVE TECHNOLOGY Certificate Program

College of Rural and Community Development
Tanana Valley Campus
(907) 455-2809
www.tvc.edu

Minimum Requirements for Certificate: 34 credits

The TVC Automotive Technology Certificate program provides students with the education and training needed to become an entry level Automotive Technician. The automotive service industry is one of constant change as cars become more complicated. As we venture through the new millennium, the automobile isn't something that can be properly fixed by a weekend mechanic. Highly trained technicians are needed to be able to understand, diagnose, and repair modern automobiles.

The program emphasizes hands-on training and in-class experience as students perform preventive maintenance inspections, determine causes of equipment problems and make necessary repairs and adjustments to the complex systems that make up today's cars. The certificate training qualifies students for entry-level positions within the automotive service and repair industry in the areas of Electricity/Electronics, Brakes, Suspension and Alignment, and Engine Performance.

Successful graduates from the TVC Automotive Technology program go on to careers in dealerships, independent shops, service/IM stations, fleet repair facilities, and aviation ground support. Salaries vary depending on job placement and the student's skill level. Many opportunities exist in the automotive service field for technicians, service writers, parts counterpersons and service sales.

1. Complete the certificate requirements.

Communication

Communication content is imbedded in the following discipline-based courses:
AUTO 102, 110, 122, 131, 150, 162, 190, 202, 222, 227

Computation

Computation is imbedded in the following discipline-based courses:
AUTO 102, 110, 131, 150, 162, 227

Human Relations

Human relations is imbedded in the following discipline-based courses:
AUTO 102, 122, 131, 222, 227

2. Complete the following major requirement courses:

AUTO 102 Introduction to Automotive Technology	3 credits
AUTO 110 Basic Electrical Systems	3 credits
AUTO 122 Engine Theory and Diagnosis	3 credits
AUTO 131 Automotive Electrical II	3 credits
AUTO 150 Brake Systems	4 credits
AUTO 162 Suspension Alignment	4 credits
AUTO 190 Automotive Practicum I	1-6 credits
AUTO 202 Auto Fuel and Emissions Systems	4 credits
AUTO 222 Automotive Engine Performance	3 credits
AUTO 227 Automotive Electrical III	3 credits

****

University of Alaska Board of Regents
Program Approval Summary Form

MAU: UAF/Tanana Valley Campus (TVC)
Title: Certificate in Automotive Technology

Target admission date: Fall semester 2006

****

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

The University of Alaska system has an expressed commitment to providing workforce development, vocational and occupational instruction, and programs specifically designed to be responsive to the needs of local communities and to adult learners in particular (UA Strategic Plan 2009). The UA and UAF strategic plans both speak about responsiveness to job training and workforce development needs in the state.

Automotive Technology is not new at UAF and TVC. This proposal for a new certificate simply repackages those offerings which are now found as a concentration under the Maintenance Technology AAS. Doing so allows us to expand enrollments and successful graduates through improved curriculum, expanded marketing, increased program visibility, and greater community support.

Importantly this new UAF certificate will improve articulation between the UAF, UAA, and UAS programs so that students can move easily between programs if desired (this proposal was developed with active support from faculty in other MAUs). This proposal was developed through active consultation with automotive industry employers in the Fairbanks area. They have endorsed these changes and expressed a willingness to expand their support for program students.

What **State Needs** are met by this program?

Alaska's construction, oil and gas, mining, and related industries—all critical to Alaska's resource-based economy—need skilled workers and technicians to operate and maintain fleets of automobiles, trucks, and heavy equipment. The same is true for the tourism and hospitality sector, which maintains fleets of tour buses and automobiles for rental markets. Alaska's climate is tough on private automobiles and trucks as well; service technicians are essential to repairing and maintaining these vehicles, tuning them to address emissions standards, and assisting in making Alaska's vehicles safe for both drivers and passengers.

Alaska faces a severe shortage of skilled automotive technicians in the coming years. The Alaska Department of Labor and Workforce Development reports that workforce needs in this area are growing and that the existing workforce is 'graying'—over 40% of bus, truck, diesel, and heavy equipment repair personnel and operators are over 50 years of age. A major conference on Alaska's workforce development needs in Kenai in April 2005 highlighted these concerns. Business, labor, and university participants alike expressed common concern about a coming 'perfect storm' where Alaska's resource development opportunities are expanding but in the end could be hampered by a lack of skilled technicians, operators, and other workers.

Transportation and construction have been on the Alaska Workforce Investment Board's short list of high-need "job clusters" since at least 2003 due to their growth potential (see *Commonwealth North* report "Alaska's Jobs for Alaska's people," June 2003, p. 5). In the Fairbanks area, employers and community leaders have confirmed these high-demand, high-growth trends in three advisory committee meetings held in the past year.

What are the **Student** opportunities and outcomes? Enrollment projections?

In October 2005, TVC received a $1.99M federal grant to expand offerings in automotive technology and other program areas. The basis of this enhanced funding is a model of fulltime enrollment in job training over a 9-12 month period—a model that expedites opportunities for students to move into gainful employment. This proposed Certificate of Automotive Technology is key to implementation of this new opportunity for students.

We expect to enroll a minimum of 15 students each year in this program and to produce at least 75 new automotive technicians in the coming five years.

Describe **Research** opportunities:

This proposal is part of a broader redesign of TVC's Automotive Technology program that will expand collaboration between the university and the automotive industry. Representatives of industry believe that expanding the program in this manner will open up opportunities for having top-quality factory training in university facilities that will benefit students, faculty, and community.

Describe Fiscal Plan for development and implementation:

TVC's FY06 budget contains approximately $75K for the automotive program, including salary and benefits for one FTE faculty member plus support for adjuncts. We expect this to continue into the future.

New grant funding from the US DOL "President's Community-Based Job Training Grant" program provides approximately $150K annually for enhancements to the program. This includes up to $100K for each of three years (FY06-09) for leased shop space (approx. 8100 sq.ft. of shop, classroom, office, and storage. It also includes additional funding for adjunct faculty plus tools and other commodities.

Alaska Economic Trends, September 2004; Statewide Employment Forecast, p. 4.

****

The UAF Faculty Senate Administrative Committee passed the following at its meeting on May 12, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve an Associate of Applied Science degree program in Construction Management.

EFFECTIVE: Fall 2006 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposals #200 and the course proposals #189-199 from the Spring 2006 review cycle on file in the Governance Office, 312 Signers' Hall.

Designed to provide students with the interdisciplinary skill set needed to succeed in construction management. Requires 13 credits in general AAS degree requirements, Human Relations is embedded in discipline-based courses; 52 credits in major requirement courses in ABUS, CM, DRT, MATH, and PHYS; total credits 65.

****

PROPOSED CATALOG COPY

CONSTRUCTION MANAGEMENT

Tanana Valley Campus (TVC)
College of Rural and Community Development
455-2800, www.tvc.uaf.edu/constructionmanagement

TVC's Construction Management (CM) AAS program meets growing needs in the construction industry by training entry-level construction managers and by providing continuing education for construction employees.

Construction managers plan, direct, and are responsible for managerial oversight of construction projects. They are responsible for coordinating and managing people,

materials, and equipment; budgets, schedules, and contracts; and safety of employees and the general public. Construction managers determine construction means and methods and the most cost-effective plans and schedules. They track construction costs and administer contract changes to the project budget to maximize profitability. Construction managers monitor work progress to ensure compliance with architectural and engineering drawings and specifications.

Construction managers work in all phases of the construction business – public and private owners; small multifamily projects to the largest of skyscrapers and industrial projects; rural roads to major highways. Construction managers work closely with architects, engineers, owners, and the various contractors on a construction job. The construction manager's duties are varied, challenging, and rewarding.

UAF's Construction Management program mirrors that offered at UAA and was developed with input from local contractors and professional industry organizations and provides students with a broad knowledge of building systems and construction techniques. CM graduates understand basic principles of business and have knowledge of the technical aspects of the construction industry. Graduates are able to function both in the construction office and on the job site.

The CM Associate of Applied Science (AAS) degree requires 4 to 5 semesters to complete. While not a prerequisite, we recommend that students applying for admission have experience in the construction industry.

ADVISING

All students are encouraged to meet with their academic advisor each semester for the purpose of reviewing their academic progress and planning future courses. It is particularly important for students to meet with their advisor whenever academic difficulties arise.

Students are encouraged to consult the faculty in the Construction Management program for assistance in designing their course of study to ensure all prerequisites have been met and that university and major degree requirements are understood and followed.

PREPARATION

Students seeking the Associate of Applied Science degree in Construction Management should prepare for entrance into the program by completing the following high school courses:

MathematicsAlgebra II (Skill level as demonstrated by ACT, SAT, or a placement test to qualify for enrollment in MATH F107X.)

EnglishComposition (Skill level as demonstrated by ACT, SAT, or placement test to qualify for enrollment in ENGL F111X.)

The University offers courses to help students without this preparation to meet the skill level required in the Construction Management program. Insufficient preparation will increase the number of semesters required to complete the degree.

A.A.S. Degree - CONSTRUCTION MANAGEMENT

1. Complete the general university requirements.

2. Complete the AAS degree requirements.*

a. COMMUNICATIONS

ENGL 111X - Introduction to Academic Writing
3
ENGL 212 - Business, Grant, and Report Writing
3
COMM 131X - Fundamentals of Oral Communication: Group Context
or COMM 141X - Fundamentals of Oral Communication: Public Context 3 cr.

b. COMPUTATION:

MATH 107X - Functions for Calculus 4

c. HUMAN RELATIONS

Human Relations is embedded in the following discipline-based courses: CM F163, CM F201, CMF 202, CM F205

3. Complete the following program (major) requirements (52 credits)*

ABUS F101 - Principles of Financial Accounting I 3
ABUS F201 - Principles of Financial Accounting II 3
CM F102 - Methods of Building Construction 3
CM F123 - Codes and Standards 3
CM F142 - Mechanical and Electrical Technology 4
CM F163 - Building Construction Cost Estimating 3
CM F201 - Construction Project Management 3
CM F202 - Project Planning and Scheduling 3
CM F205 - Construction Safety 3
CM F213 - Civil Technology 4
CM F231 - Structural Technology 4
CM F263 - Civil Construction Cost Estimating 3
CM F299 - Construction Management Internship 3
DRT F170 - Beginning AutoCAD 3
MATH F108 - Trigonometry 3
PHYS F103X - College Physics 4

4. A total of 65 credits is required for the degree.

* Students must achieve a grade of "C" or better in all courses required for the degree.

****

University of Alaska Board of Regents
Program Approval Summary Form

University of Alaska Fairbanks
Tanana Valley Campus (TVC)
College of Rural and Community Development

Target Admission date: Fall semester 2006

Associate of Applied Science in Construction Management

How does the program relate to the EDUCATION mission of the University of Alaska and the MAU?

UAF's Tanana Valley Campus proposes to offer the Associate of Applied Science degree program in Construction Management (AAS-CM) already approved by the Regents for delivery at UAA. TVC's proposal is to adopt program requirements and curriculum identical to those offered at UAA and to make them available to UAF students.

By training Alaskan construction managers, this program meets high-demand job needs and provides a path into the challenging and rewarding careers available in industry. The proposed program is aligned with the University of Alaska mission to meet state and local needs and to provide opportunities to all who can benefit from educational programs of high quality.

Specifically, the program addresses UA Strategic Plan 2009's goal of responding flexibly to state needs in the areas of workforce development (UA Strategic Plan 2009, Goal 5). The program fulfills the Regents' commitment to the university's community college mission, developing new and relevant programs, and increasing collaboration across campuses (*ibid*, goal 2).

The AAS-CM program is designed to provide students with the interdisciplinary skill set needed to succeed in construction management. The program has been designed in accordance with the accreditation Standards and Criteria for Associate Degree Programs (Form 103A) published by the American Council for Construction Education (ACCE). This program was created with high academic standards while providing a broad foundation of technical knowledge.

TVC's expansion of the AAS-CM to UAF is being done in active collaboration and partnership with industry and construction professionals in the Fairbanks and Interior Alaska areas, with deans and faculty in UAF's College of Engineering and Mines and School of Management, and with UAA Construction Management faculty.

What State Needs are met by this program?

Construction contributes about 7.5% of the approximate $25 billion annual gross state product. According to *Alaska Economic Trends*, May 2005, "Over the last five years construction jobs have grown at the remarkable average rate of 5.5% annually. The *Fairbanks Daily News-Miner* quotes the Executive Director of the Associated General Contractors reporting a 6% shortfall in the construction industry, which is expected to compound every year for the coming decade. The industry will need 1,000 new workers per year, the majority of them for construction in oil and gas and mining.

The BOR approved UAA's offering of the AAS-CM in 2004. Planning for UAA's initial offering of the degree involved interested groups from within the University and extensive involvement of business and industry. These discussions culminated in a thorough Design a Curriculum (DACUM) exercise in February of 2003.

In considering this proposal for the Fairbanks area, TVC held a meeting on October 18, 2006 with construction industry leaders as well as UAF faculty from SOM and SOE. All reviewed the rationale for the proposed degree, the curriculum, and the plan for seeking approval. All voiced strong support for TVC's proposal (see proposal package for letters).

What are the Student opportunities and outcomes? Enrollment Projections?

Bringing the approved AAS-CM to TVC/UAF opens up new opportunities for students in Fairbanks and Interior Alaska to advance their skills in construction management. Anticipated enrollment in the TVC/UAF program is 15 students for the first year. After the first year enrollment and advising data

will be analyzed and decisions will be made whether to limit enrollment and/or add sections as necessary.

Describe Research opportunities.

This program is primarily focused on building a skilled workforce in Construction Management through lecture and hands-on instruction. Research is not a major element although we anticipate possibilities for future research collaboration with development of the Cold Climate Housing Research Center and its activities.

Describe Fiscal Plan for development and implementation.

TVC expects the total cost of the AAS-CM in Year One to be $225,000. This includes personnel (1 FTE faculty, .25 FTE administrative staff, adjunct faculty) and a CADD facility with 20 stations. The program will be housed in the TVC Downtown Center/Chena Building. In subsequent years annual program costs are expected to be approximately $175,000. Funding at the level shown is anticipated from UA Statewide workforce development sources and from industry and labor support.

The regular faculty member/coordinator will have primary responsibility for instruction, program coordination, advising, and hiring of adjuncts. A drafting faculty member, now being hired through separate funding, will be offering CADD courses of relevance to AAS-CM students. Funding will also be provided to hire 2-3 adjunct faculty each semester who will supplement faculty resources.

Importantly, TVC's CM program will have an advisory committee led by industry to guide its development and strategic direction. Like other TVC programs, this committee will have between 7-9 members and will meet at least quarterly.

****

The UAF Faculty Senate Administrative Committee passed the following at its meeting on May 12, 2006:

MOTION:
=======

The UAF Faculty Senate moves to approve a New Occupational Endorsements Request (Format 3A).

EFFECTIVE: Immediately.

RATIONALE: We need an expedited process for approving Occupational Endorsement requests.

****

FORMAT 3A

Submit original with signatures + 4 copies

NEW OCCUPATIONAL ENDORSEMENT REQUEST

(UA Regulation 10.04.02)

Submit the request according to the following format: (Please number pages and include a table of contents.)

I. Cover Memorandum should include:

A. Name of person preparing request

B. Brief statement of the proposed endorsement, industry objectives and abbreviated student learning outcomes assessment and implementation plan.

C. Provision for review signatures of preparation:

Industry or advisory council representative
Program head responsible for the transcription request and completion checklist
Dean of school/college housing the occupational endorsement
College of Rural and Community Development Academic Council

Signatures for approval:

Curricular Affairs Committee chair
President, UAF Faculty Senate
Chancellor or designee
President or designee (designated by BOR as approving authority)

II. Identification of the Endorsement (All pages should be numbered.)

A. Description of the Occupational Endorsement

1. Occupational Endorsement title
2. Admissions requirements and prerequisites
3. Course descriptions of required catalogue courses. (Endorsements use existing courses.)
4. Requirements for the endorsement. (Include a sample course of study and a 3-Year Cycle of course offerings. Also include a proposed general catalog layout copy of the endorsement.)

B. Endorsement Goals

1. Brief identification of objectives and subsequent means for their evaluation
2. Relationship of endorsement objectives to industry needs
3. Occupational/other competencies to be achieved
4. Relationship of courses to the endorsement objectives

C. Describe Student Learning Outcomes Assessment Plan, and identify the individual (by position) who will be responsible for directing its implementation.

III. Personnel Directly Involved with Program

A. List current faculty teaching the required and elective courses and titles, including brief statement of duties and qualifications

B. Administrative, coordinating and classified staff personnel associated with the endorsement

IV. Enrollment Information

A. Projected enrollment

B. How determined/who surveyed/how surveyed

C. Maximum enrollment which endorsement can accommodate (endorsement capacity)

V. Need for Occupational Endorsement

A. Employment market needs:

1. Who surveyed? How? (Standard procedures with industry/advisory council listed)

2. Job opportunities now, and two, five, and ten years from now. How were these predictions determined? (Local, regional, State surveys, periodic review will ensure the currency.)

3. How have positions been filled to date?

VI. Other

Any justification for the endorsement, which might not fit under III and IV above.

VII. Relation of Endorsement to other Programs within the System

VIII. Implementation/Termination

A. Date of implementation

B. Plans for recruiting students

C. Plans for phasing out endorsement if it proves unsuccessful

D. Assessment of the endorsement. (Include a Student Outcomes Assessment Plan.)

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

RESOLUTION OF APPRECIATION

FOR

ABEL BULT-ITO

WHEREAS, Abel Bult-Ito has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

Whereas, Abel Bult-Ito has served as Senator to the UAF Faculty Senate from 2001-2004; and

Whereas, Abel Bult-Ito has served as a member of the Faculty Development, Assessment, and Improvement Committee from 2001-2003 and as chair from 2002-2003, and as a member of the Faculty Affairs Committee and the Administrative Committee from 2002-2003; and

Whereas, Abel Bult-Ito has served as Chair of the Administrative Committee and as President-Elect of the UAF Faculty Senate from 2003-2004; and

Whereas, Abel Bult-Ito has served as a member of the UAF Governance Coordinating Committee from 2003-2005; and

WHEREAS, Abel Bult-Ito has served as a member of the UA Faculty Alliance and the UA Systemwide Governance Council from 2003-2005; and

WHEREAS, Abel Bult-Ito has served on various Task Forces, Search Committees, and other university and statewide committees representing the interests of faculty to the administration of UAF and statewide; and

Whereas, Abel Bult-Ito has served as President of the UAF Faculty Senate from 2004-2005 and has effectively represented the interests of the UAF Faculty Senate to the administration of UAF; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Abel Bult-Ito as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Abel Bult-Ito and expresses its appreciation for his exemplary service.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

RESOLUTION:
==========

OUTSTANDING SENATOR OF THE YEAR AWARD

FOR

SHIRISH PATIL

WHEREAS, Shirish Patil has served the UAF Faculty Senate in numerous capacities, most notably as a member and chair of the Faculty Affairs Committee, since 2002; and

WHEREAS, Shirish Patil, in service to the Faculty Senate, has made truly outstanding contributions to improving the quality of life at the university through his service on the Master Planning Committee and as chair of the Circulation and Parking Subcommittee; and

WHEREAS, Shirish Patil, as committee chair, has worked with willingness, passion and dedication for issues related to the University of Alaska, and takes responsibilities well beyond what is expected from a faculty senator; and

WHEREAS, Shirish Patil has handled very sensitive issues for the faculty through shared governance; now

THEREFORE BE IT RESOLVED THAT, the UAF Faculty Senate recognizes Shirish Patil as Outstanding Senator of the Year for Academic Year 2004-2005.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to accept an academic calendar for 2006-2007 for which the first day of classes for fall semester is on the Thursday before Labor Day (our traditional start date) and the first day of classes for spring semester is on the first Tuesday after Martin Luther King/Alaska Civil Rights Day.

EFFECTIVE: Immediately

RATIONALE: Several proposals have been floated concerning ‘common’ start dates for the various UA Campuses. Forward planning requires that we set our academic calendar well in advance of the start of a given semester. Given a Thanksgiving Holiday, it is impossible to accommodate a 14-week schedule without starting on a Thursday: the semester will either be too long or too short otherwise. Spring semester isn’t as constrained, and shifting to a different start day (from our traditional Thursday start) does not create schedule hassles.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate urges the UA administration to facilitate UA academic calendars to a common 'start week'. We further urge the UA administration to facilitate changes in UA calendars to create common days for major financial and academic deadlines, including add/drop, fee payment, withdrawal with refund, and registration.

EFFECTIVE: Immediately

RATIONALE: We recognize the need for more uniformity in dates that effect students' across-MAUs and feel that uniformity in critical academic and financial deadlines are the highest priority.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve a policy that a student may only earn a specific UAF degree in a specific discipline once. Using different emphases or concentrations within a degree program to count as different degrees is not allowed.

EFFECTIVE: Immediately

RATIONALE: Currently the practice of awarding the same degree with a different concentration does not reflect significantly new knowledge or transferable accomplishment of the student within the discipline with multiple concentrations.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to amend the Course Designation/ Classification Criteria policy as follows:

[[ ]] - Deletion
CAPS - Addition

COURSE DESIGNATION/ CLASSIFICATION CRITERIA

2. Courses are designated Social Science according to the following criteria:

[[a. Courses may be classified appropriately as Social Science if they exclusively address one or more of the following areas of study:

--Models or theories of social phenomena.
--Social processes and institutions.
--The social framework of human existence.
--The activities of the individual as a member of a group.]]

A. CONTENT IS DIRECTLY DEFINED BY MAJOR MODELS OR THEORIES OF THE SOCIAL SCIENCE DISCIPLINES OF ANTHROPOLOGY, COMMUNICATION, ECONOMICS, GEOGRAPHY, HISTORY, JUSTICE, POLITICAL SCIENCE, PSYCHOLOGY, SOCIAL WORK, SOCIOLOGY OR INTERDISCIPLINARY SOCIAL SCIENCE DISCIPLINES.

b. Excludes courses [[whose primary]] FOR WHICH A MAJORITY OF focus is on research skills or techniques, practicum experience, or professional or vocational skill development.

C. COURSES APPROVED FOR "S" DESIGNATORS PRIOR TO MAY 2005 WILL RETAIN THEIR "S" DESIGNATOR.

EFFECTIVE: Immediately

RATIONALE: At one time, criteria for S, N, and H courses were all discipline-based. Several years ago the criteria for S courses were changed by attempting to define 'social science'. Given the broad scale of the definition, however, virtually any course offered at UAF could quality. Subsequently, the Curricular review committee has received applications for 'S' designators for courses well outside of 'social science' as generally understood. The proposed change is to return to the better-defined discipline-based definition as still employed for 'N' and "H" designators. Similarly, argument in Curricular Review Committee about 'how much focus constitutes a "primary" focus' would be solved by using 'majority' instead. The grandfather clause is to ensure continuity in 's' designated courses.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION REFERED BACK TO COMMITTEE:
==========

The Faculty Senate moves to amend the UAF catalog "Table of Substitutions: non-University of Alaska institutions" (page 31 of the 2004-05 catalog) as follows.

EFFECTIVE: Immediately

RATIONALE: To align credit for transfer courses more closely with UAF core curriculum requirements. Currently, transfer students can get core credit for courses that will not fulfill core requirements for UAF students, which disadvantages UAF students. These changes allow all students, transfer and UAF, the same opportunities to fulfill the UAF core requirements

We tell our students, their parents, and the world at large that our graduates have a very specific intellectual experience when they have earned a degree from UAF. The central component of that intellectual experience is UAF's CORE Curriculum. Faculty of the College of Liberal Arts, which houses the Perspectives on the Human Condition area of the CORE Curriculum, and the CORE Review Committee believe that we must make good on that claim for all of UAF's graduates.

****

[[ ]] = Deletion
CAPS = Addition

TABLE OF SUBSTITUTION: Non-University of Alaska institutions

Perspectives on the Human Condition:	**Transfer Courses**
HIST 100X: Modern World History	a Western or non-Western Civilization course at the 100-level or [[above]] 200 LEVEL (LOWER DIVISION), EXCLUDING INDIVIDUAL NATIONAL HISTORIES
ECON/PS 100X: Political Economy	[[a foundation course in political science, economics or law]] A COURSE IN US OR COMPARATIVE POLITICAL ECONOMY, OR US ECONOMIC HISTORY, OR MACROECONOMICS AT THE 100-LEVEL OR HIGHER
ANTH/SOC 100X: Individual, Society and Culture	a foundation course in [[sociology,]] social/cultural anthropology OR FOUR-FIELD ANTHROPOLOGY (CULTURAL ANTHROPOLOGY, ARCHEOLOGY, PHYSICAL ANTHROPOLOGY, AND ANTHROPOLOGICAL LINGUISTICS), AT THE 100 OR 200 LEVEL (LOWER DIVISION) [[, social psychology; psychology, language and culture, or cultural geography at the 100level or above]] AN INTRODUCTORY LEVEL COURSE IN SOCIOLOGY, OR LOWER-DIVISION SOCIAL PROBLEMS COURSE. A COURSE IN CROSS-CULTURAL PSYCHOLOGY.
ENGL/FL 200X: World Literatures	a literature course at the [[100-]] 200-level or above THAT STUDIES WORKS OF LITERATURE FROM WESTERN AND NON-WESTERN TRADITIONS, AN EARLIER AND A LATER PERIOD, MORE THAN ONE LITERARY GENRE, AND ISSUES OF GENDER, RACE, AND CLASS.
ART/MUS/THR 200X: Aesthetic Appreciation or HUM 201X or ANS 202X	a history or appreciation course in art, theatre or music at the 100-level or above
PHIL 322X: Ethics (Values and Choices) or COMM 300X or JUST 300X or NRM 303X or PS 300X	an upper-division course in ethics, or, with approval of the philosophy department, a lower-division course in ethics.
Other	**Transfer Courses**
Foreign Language	[[a minimum of two semesters in a single, non-

English language.]]

OR COMPLETE 12 CREDITS FROM THE PHC OPTIONS ABOVE, PLUS TWO SEMESTER-LENGTH COURSES IN A SINGLE ALASKA NATIVE LANGUAGE OR OTHER NON-ENGLISH LANGUAGE OR THREE SEMESTER-LENGTH COURSES (9 CREDITS) IN AMERICAN SIGN LANGUAGE AT THE UNIVERSITY LEVEL.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to amend Section 1, (Article III: Membership) and Section 3, (Article V, Committees, Standing) of the Bylaws pertaining to membership and the Faculty Affairs Committee as follows:

[[ ]] = Deletion
CAPS = Addition

Sect. 1 (ART III: Membership)

A. The membership of the Faculty Senate, hereinafter referred to as "Senate," shall consist of approximately [[41]] 44 members plus one non-voting presiding officer. Approximately 35 members shall be elected by and from the faculty and will have voting privileges. Six non-voting members will be selected by and from other university constituencies as follows: one non-graduate student and one graduate student selected by the ASUAF, one professional school dean and one college dean selected by the Deans' Council; one staff representative from the registrar's office; and one additional staff member selected by the Staff Council. [[If the staff representative from the registrar's office is APT, the second staff member must come from the classified staff ranks. If the staff representative from the registrar's office is classified, the second staff member must be APT.]] THREE ADDITIONAL NON-VOTING MEMBERS WILL BE SELECTED BY AND FROM THE UNIONS AS FOLLOWS: ONE ELECTED OFFICIAL EACH FROM UNITED ACADEMICS-AAUP/AFT, ACCFT, AND ADJUNCT (UNITED ACADEMICS)-AAUP/AFT.

Sect. 3 (ART V: Committees)

STANDING

2. The Faculty Affairs Committee shall review issues dealing with faculty prerogative and recommend policy changes to the Faculty Senate. Issues of faculty prerogative include academic freedom, faculty ethics, research and creative activity, and legislative and fiscal issues that may impact faculty concerns at the university. The committee will act as a faculty advocate with legislators and candidates. In its concern for fiscal issues the committee shall monitor budget appropriations to the university and evaluate any notice to the faculty of financial exigency. In performing these duties, the committee will coordinate as necessary with the relevant officers (and/or their representatives) of the extant collective bargaining units WHO SERVE AS NON-

VOTING MEMBERS OF THE SENATE AND EX-OFFICIO MEMBERS OF THIS COMMITTEE.

EFFECTIVE: IMMEDIATELY

RATIONALE: Representation by three faculty union elected officials on Faculty Senate and Faculty Affairs Committee will open channels of communication and serve as a conduit of information exchange between the unions and faculty senate. The Union elected members, who serve on Faculty Senate and Faculty Affairs Committee will be ex-officio members with no voting rights. This is consistent with the Faculty Senate bylaws.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Fisheries Division (SFOS).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Fisheries Division of SFOS. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Institute of Marine Science (SFOS).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Institute of Marine Science. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Fisheries Industrial Technology Center (SFOS).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Fisheries Industrial Technology Center. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to endorse the 2005-2006 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighted against membership distribution from schools and colleges.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2005. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 2, 2005

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

****

The UAF Faculty Senate passed the following at its Meeting #130 on May 2, 2005:

MOTION:
=======

The UAF Faculty Senate reaffirms that authority for setting the academic calendar traditionally--and for good academic reasons--belongs to the individual universities, i.e., UAF, UAA, and UAS, that comprise the University of Alaska System.

The UAF Faculty Senate further reaffirms that substantive changes to UAF's academic calendar can only be made with the explicit involvement of UAF's Governance Coordinating Committee, which makes a recommendation to the Chancellor. Substantive changes include a change of the length of the semester or time available for grading. The Governance Coordinating Committee receives recommendations from UAF faculty (through the Faculty Senate), staff (through Staff Council), and students (through ASUAF).

The UAF Faculty Senate hereby charges the UAF Registrar to not publish a UAF academic calendar that has not been reviewed by UAF's Governance Coordinating Committee.

EFFECTIVE: Immediately

RATIONALE: UAF faculty, staff, and students are directly impacted by changes to the academic calendar. These changes can affect academic issues, such as the length of the semester or time available to faculty to determine the course grade of their students. Therefore, faculty, staff, and students should be part of the decision making process that establishes the academic calendar. The purpose of this motion is to clarify to all concerned our commitment to shared governance.

The UAF Faculty Senate passed the following at its Meeting #129 on April 4, 2005:

RESOLUTION:

==========

WHEREAS, The UAF Faculty Senate wishes to express its most sincere condolences to the family and friends of our most distinguished colleague, Doug Schamel. His untimely passing has left a sorrowful void both in our hearts and on our campus. He will be remembered for many, many years by faculty, staff, students, and the Fairbanks community;

WHEREAS, The University of Alaska Fairbanks Faculty Senate wishes to offer our respect to the memory of Professor Doug Schamel for his thirty years of exemplary service to UAF;

WHEREAS, Doug's many years of distinguished service to the University, his unavailing support of science instruction, and his participation in all aspects of University life will long be remembered;

THEREFORE BE IT RESOLVED, THAT as a small token of our respect, we dedicate a few moments of silence, to remember our friend, and also to reflect on the vocation of teaching and the importance to our lives of our colleagues in the community of scholars.

****

The UAF Faculty Senate passed the following at its Meeting #129 on April 4, 2005:

MOTION:
=======

The UAF Faculty Senate moves to establish the following uniform procedures for UAF student registration:

a. Every department at UAF will have at least one designated person that can use Banner to allow a student to register ('pin' a student). For small departments this person can be from a different department, but in a location convenient to the students of the department. This person or persons agree to (1) not pin a student unless presented with a completed and signed registration form (2) to collect the registration form and (3) to send it to the registrar's office. A faxed or other electronic copy of the advisor's approval, attached to the registration form, is acceptable.

b. A department that does not currently have a designated pinner will have one by April 2005. Any departmental faculty or staff with banner access can become a designated pinner by emailing the Registrar's office (registrar@uaf.edu) with such a request. If/when a department-designated pinner permanently leaves the department, that person must notify the department regarding the need for a new pinner. A department-designated pinner should be physically available during usual working hours at registration and pre-registration periods.

c. All faculty in every department will be informed that there is a department-designated pinner and who that person is. During registration-related advising, advisors will inform students that they have a choice between turning in the registration form at Signers' Hall and to the departmental pinner.

EFFECTIVE: Immediately

RATIONALE: Currently some students know that they can register without going to the Registrar's Office; most do not. The purposes of this regulation are (a) to allow all students the option of not going to the registrar's office, (b) to allow for flexibility in showing advisor's approval of courses (electronic approval is an

option), and (c) to let all students and undergraduate advisors know that students have these options.

****

The UAF Faculty Senate passed the following at its Meeting #129 on April 4, 2005:

MOTION:
=======

The UAF Faculty Senate moves to establish the following policy on minimum grades needed for prerequisite courses.

Students should not register for a course for which they have not taken--and received a grade of "C" or higher--in all the prerequisite courses, unless they have received the instructor's explicit permission.

Course instructors have the right to withdraw a student who has not received a grade of "C" or higher in all prerequisite classes for a given course, if that student has not received the instructor's permission to register.

EFFECTIVE: Immediately or Fall 2005

RATIONALE: Many undergraduate students do not recognize the vital importance of mastering a particular subject before moving on to the next higher level of instruction. The most direct way of impressing students with the importance of this concept is to publicize the threat of faculty withdrawal. Sufficient mastery can be demonstrated by a course grade or other means, but it is incumbent on a student to demonstrate such mastery. Although this regulation leaves the enforcement up to individual faculty members, the threat that it could be enforced will presumably motivate students with questionable course qualifications to contact the instructor. Instructors can readily determine the academic qualifications of students signed up for classes from the UA web site.

****

The UAF Faculty Senate passed the following at its Meeting #129 on April 4, 2005:

MOTION:
=======

The UAF Faculty Senate moves to amend the computation requirements for the Certificate and Associate of Applied Science degree as follows:

EFFECTIVE: Fall 2005

RATIONALE: This amendment adds PRT 155 to the list of courses in the Related Instructional areas of Computation.

****

The UAF Faculty Senate passed the following at its Meeting #129 on April 4, 2005:

RESOLUTION:
==========

WHEREAS, Classified and Proprietary research is subject to Regents' Policy 10.07.02, University Regulation, laws, regulations, and MAU rules and procedures applicable to research; and

WHEREAS, Classified and Proprietary research will be conducted in a responsible and ethical manner consistent with the mission of the University of Alaska Fairbanks; and

WHEREAS, The UAF Faculty Senate at its Meeting #116, unanimously passed a motion to establish a UAF policy on Classified and Proprietary Research; and

WHEREAS, The UAF Faculty Senate at its Meeting #117, passed a motion to establish a Reconciliation Committee after a Chancellor's veto; and

WHEREAS, The UAF Faculty Senate at its Meeting #122, unanimously passed a new motion based on recommendations from the Reconciliation Committee to establish a policy on Classified and Proprietary Research, which called for the formation of a Faculty Research Oversight Committee; and

WHEREAS, The UAF Faculty Senate at its Meeting #124, unanimously passed a motion to amend Section 3 (Article V, Committees, Standing) of the Bylaws pertaining to membership and adding the Faculty Research Oversight Committee; and

WHEREAS, The UAF Faculty Senate at its Meeting #128, adopted a motion to override the veto of the motion to amend Section 3 (Article V, Committees, Standing) of the Bylaws pertaining to membership and adding the Faculty Research Oversight Committee; and

WHEREAS, The process laid out in the Board of Regents' regulation now supercedes the UAF Faculty Senate motion passed at its meeting #122; now

THEREFORE BE IT RESOLVED, That to fulfill and uphold the principles of shared governance and to recognize the expressed intent of Chancellor Jones towards the Faculty Senate position on Classified and Proprietary Research, the Faculty Senate recommends a process of mutual consultation that will lead to an amicable agreement about the composition of the committee.

****

The UAF Faculty Senate passed the following at its Meeting #129 on April 4, 2005:

RESOLUTION:
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Shirish Patil as President-Elect of the UAF Faculty Senate for 2005-2006 by affirmation.

****

The UAF Faculty Senate passed the following at its Meeting #129 on April 4, 2005:

MOTION:
=======

The UAF Faculty Senate moves to approve the Joint UAA-UAF Ph.D. Program in Clinical-Community Psychology.

EFFECTIVE: Fall 2005 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposal #72 and course proposals #40-71 from the Fall 2004 review cycle on file in the Governance Office, 312 Signers' Hall.

****

Brief Statement of the Proposed Program
Ph.D., Clinical-Community Psychology

The proposed joint Ph.D. Program in Clinical-Community Psychology with a Rural Indigenous Emphasis will be a partnership between the Departments of Psychology at UAA and UAF. The program focus will include clinical, community, and cross-cultural psychology with an emphasis on indigenous, Alaska Native, and American Indian psychology. This UA partnership will integrate the strengths and resources of both departments to advance academic excellence, promote innovative and practical research, and provide solid graduate training in clinical-community psychology. The five-year program will have a single curriculum, joint governance, and program faculty at each of the two MAUs. The program will seek accreditation from the American Psychological Association, ensuring that graduates have obtained the full range of clinical training mandated for doctoral-level clinical psychologists and providing assurance that graduates will be adequately prepared for licensure as psychologists. The program will graduate six to eight Ph.D.-level psychologists annually.

The primary objectives of the proposed program are as follows:

- To train doctoral-level psychologists with integrated expertise in clinical, community, and cross-cultural psychology with an emphasis in indigenous, Alaska Native, and American Indian psychology.
- To increase significantly the number of doctoral-level psychologists with expertise and sensitivity to cross-cultural issues who will practice clinical-community psychology throughout Alaska, in particular, but also in isolated rural communities in the Circumpolar North and the Lower 48 U.S. states.
- To increase significantly the number of doctoral-level psychologists who will conduct research on clinical, community, and cross-cultural issues relevant to Alaska, underserved ethnic minorities, and rural communities in Alaska and the Circumpolar North.
- To increase significantly the number of doctoral-level psychologists who are of Alaska Native and American Indian descent.

University of Alaska Board of Regents

Program Approval Summary Form

MAU: UAA and UAF

Title: Ph.D. Program in Clinical-Community Psychology with a Rural Indigenous Emphasis

Target admission date: Fall 2006

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

The Ph.D. Program in Clinical-Community Psychology with a Rural Indigenous Emphasis is fully compatible with UAA's mission and purpose, as it is designed to "*inspire learningand enrich Alaska, the nation, and the world through our teaching, research, creativity, and service.*" The program is also compatible with UAF's mission as it "*advances and disseminates knowledge through creative teaching, research, and public service with an emphasis on Alaska, the North and their diverse peoples."* The program is on the forefront of creative and enriching knowledge dissemination that is locally relevant; focused on public service; sensitive to the unique environments of Alaska; and concerned with acknowledging, fostering, and celebrating diversity. It also strives to be a world-class program that will enhance UA's reputation as an international research center that contributes to the building of knowledge with relevance to the North and its diverse peoples.

Two extensive statewide needs assessments were conducted that documented the need for the Ph.D. program in Clinical- Community Psychology with a Rural Indigenous Emphasis

What **State Needs** met by this program.

Mortality rates in Alaska are dominated by behavioral health diseases. Cancer and heart disease are the top causes of death and the types of cancer are clearly related to behaviors associated with smoking, alcohol, diet and physical activity. Additionally, injuries and suicide, and alcohol related deaths are the next highest causes of death.

Alaska has a need for psychologists who are able to work in the domains of (a) Clinical and Health Intervention, (b) Community and Organization Development, and (c) Applied Research. There are clear needs for psychologists who are (a) culturally competent to serve in rural, indigenous, multi-cultural settings, (b) can provide service in specific content areas such as psychopharmacology, community and organizational psychology, neuropsychological testing, continuing education, child psychology, substance abuse prevention and treatment, telemedicine, and cross-disciplinary training of other behavioral health professionals, and (c) can do the applied research focused on Alaska needs to develop policy, programs, and interventions that work for Alaska. At present, no mechanism exists to train such individuals in our state, resulting in recruitment of graduates from universities Outside. At the Western Interstate Commission of Higher Education seminar on rural mental health in 2004, all of the western commissioners of mental health indicated that individuals at the doctoral-level who come to rural areas are not prepared for the work that they must do, attrition is very high, and quality of initial services compromised. Additionally, our own program Needs Assessment and other State of Alaska reports indicate that counseling and human services are one of the fastest growing areas for positions in Alaska. There is currently a lack of research evidence about effective interventions in preventing and treating behavioral health and mental health problems in rural settings, and Alaska ranks last of all states in NIH funding. Research at the university in this area lacks depth in infrastructure because it lacks doctoral-level education. Alaska is the only state in the union without a doctoral-level program in psychology.

What are the **Student** opportunities and outcomes? Enrollment projections?

The program will be designed to meet criteria for a practitioner-scientist model of doctoral-level psychology training. Graduates will have (1) the requisite applied clinical and community assessment and intervention skills to become ***accomplished practitioners*** in the area of behavioral health care at the individual and communitywide level; and (2) the necessary research skills and competencies to become ***expert researchers*** who can develop applied research that is relevant to rural and frontier communities with ethnically and culturally diverse populations and capable evaluators who can evaluate and design effective intervention programs for diverse contexts and settings. The dual focus on practice and research assures the well-rounded nature of the graduates, who, in Alaska, often must fulfill both roles in a single position.

Targeted enrollment is four students per year per campus, ***for a total annual program cohort of eight students***. In the first year of program operations, two cohorts will be accepted, for a total of 16 students. Enrollments are expected to be 48 by year 4 with 8 Ph.D.'s graduating each year beginning in year four.

Describe **Research** opportunities:

Doctoral students will be expected to conduct research in the course of their studies and will have opportunities to work within the research infrastructure of both UAF and UAA. At UAF the Center for Alaska Native Health Research (CANHR) and individual investigators offer opportunities for research within areas including health, biomedical, and behavioral research, sobriety and recovery, trauma, resiliency and children's mental health. At UAA, the Behavioral Health Research and Services Program offers research opportunities in areas including substance abuse, mental illness, coexisting disorders, rural health care, HIV prevention, HIV risk behavior, and program evaluation. Research opportunities are expected to increase with an increase in grant funding. For research funding in behavioral health to increase there is a need for a doctoral program with Ph.D. students to serve as research assistants.

Describe Fiscal Plan for development and implementation:

There are four planned sources of funding for this program: incremental state appropriations, including Behavioral Health Program Partnership funding; system reallocations; MAU reallocations; departmental revenue including tuition and research revenue. The total operating expenses in FY06 is $327,000. The current budget request includes $200,000 in Behavioral Health Program Partnership funding for this program. Another $100,000 in system reallocation is anticipated leaving only $27,000 for the MAU to cover in FY06. At full maturation, FY13, the annual operating expenditures will total $2.2 million. It is anticipated that this will be funded by approximately $1.2 million in departmental revenue, just over $700,000 in state appropriations, $230,000 in MAU reallocations, and $100,000 from system reallocations.

The total start-up/one-time/capital cost for the program FY06-FY09 is estimated at $1.2 million, approximately $800,000 of which will go into an FY07 capital request. The remaining $400,000 in expenses will be the responsibility of the MAUs, $335,980 of which is needed in FY06 ($159,490 at UAA and $176,490 at UAF).

The UAF Faculty Senate passed the following at its Meeting #128 on March 7, 2005:

MOTION:

=======

The UAF Faculty Senate reaffirms that authority for setting the academic calendar traditionally--and for good academic reasons--belongs to the individual MAUs that comprise the University of Alaska.

The UAF Faculty Senate further reaffirms that substantive changes to UAF's academic calendar can only be made with the explicit agreement and approval of UAF's Governance Coordinating Committee; that is, with the implicit approval by UAF faculty (through the Faculty Senate), staff (through Staff Council), and students (through ASUAF).

The UAF Faculty Senate hereby charges the UAF Registrar to not publish a UAF academic calendar that has not been approved by UAF's Governance Coordinating Committee.

EFFECTIVE: Immediately

RATIONALE: The UA VP for Academic Affairs recently announced a unilateral decision to establish a common start date for all MAUs, which most likely will change UAF's start date effective Fall 2006. UAF's faculty, staff, and students have not been part of the decision making process. The purpose of this motion is to clarify to all concerned how shared governance is supposed to work.

****

The UAF Faculty Senate passed the following at its Meeting #128 on March 7, 2005:

MOTION:

=======

The UAF Faculty Senate moves to override the veto of the motion to amend Section 3, (Article V, Committees, Standing) of the Bylaws pertaining to membership and adding the Faculty Research Oversight Committee.

EFFECTIVE: Immediately

RATIONALE: Research is a prerogative of the faculty, therefore it's the Faculty Senate's obligation and right to make recommendations to the Chancellor regarding classified and proprietary research.

****

ORIGINAL MOTION:

==========

The UAF Faculty Senate moves to amend Section 3, (Article V, Committees, Standing) of the Bylaws pertaining to membership and adding the Faculty Research Oversight Committee.

[[ ]] = Deletion
CAPS = Addition

Sect. 3 (ART V: Committees)

B. Membership on standing and permanent committees will be for two years except as noted below with the possibility of re-appointment. The initial appointment or re-appointment is made by the Administrative Committee or as specified in the definition of a Permanent Committee and confirmed by the full Senate. [[Senators are limited to serving on a maximum of one standing committee at any one time.]] To provide continuity, terms will be staggered and an initial appointment may be made for one or two years as determined by the Administrative Committee based on need.

STANDING

8. Faculty Research Oversight Committee

The Faculty Research Oversight Committee shall review all classified and proprietary proposals, grants, and contracts according to the guidelines of the UAF Policy concerning Classified and Proprietary Research and advise the chancellor of their compliance or lack thereof with university policy. The committee will publish an annual report on the status of classified and proprietary contracts, grants and proposals at UAF to the Faculty Senate. The Faculty Research Oversight Committee will offer changes to the UAF policy as needed through periodic reviews occurring no less than once every 5 years.

Membership on the committee shall be limited to 9 senators, with no more than 2 members being from the same unit. A Facilities Security Officer shall be an ex-officio member of the committee. The committee will also include someone from the Office of Sponsored Research and a designee of the chancellor as ex-officio members. Committee membership must broadly represent the university community.

EFFECTIVE: Immediately

RATIONALE: The new UAF Policy Concerning Classified and Proprietary Research calls for the Faculty Senate to establish a Faculty Research Oversight Committee to review all proposals and make recommendations to the chancellor for action. The policy includes guidelines for the review process.

The number of Faculty Senate committees has increased to a level that may require some of the senators to serve on more than one committee. Therefore, restrictions on committee membership on standing committees are removed.

The UAF Faculty Senate passed the following at its Meeting #127 on February 7, 2005:

MOTION:

=======

The UAF Faculty Senate moves to enhance the Freshmen Progress Reports system to include the following:

· All faculty and instructors teaching 100- and 200-level classes must submit a progress report for all freshmen indicating the grade being earned by the fifth week of the semester.

· All new courses that permit freshmen enrollment must explicitly include the method(s) used to determine freshman mid-semester grades in the syllabus. The freshmen reporting requirement will be evaluated as part of the curriculum review process.

EFFECTIVE: Fall 2005

RATIONALE: Freshmen Progress Reports are a crucial part of our student retention plan. UAF is committed to the success of its students by providing an environment conducive to teaching and learning. The Freshmen Progress Report system (formerly Low Grade Report) was intended to serve as a retention tool to improve students' persistence and promote survival skills. It is based on a model that the faculty will be proactive, supportive and involved in facilitating the academic components of student retention. Faculty awareness of potential student problems constitutes the foundation of this retention program by assisting with the early detection and intervention of students who are doing poorly in class, chronically absent from class (since attendance is an integral part of the learning process), or experiencing other kinds of problems that affect academic performance.

As L. Noel stated in Increasing Student Retention (1985), "It is the people who come face-to-face with students on a regular basis who provide the positive growth experiences for students that enable them to identify their goals and talents and learn how to put them to use. The caring attitude of college personnel is viewed as the most potent retention force on a campus (p. 17)."

To augment this important function, incorporating the grading policy and time frame in the syllabus will indicate to students the commitment faculty and instructors have to the success and persistence of UAF students.

****

The UAF Faculty Senate passed the following at its Meeting #127 on February 7, 2005:

MOTION:

=======

The UAF Faculty Senate moves to approve a Certificate and A.A.S. in Construction Trades Technology.

EFFECTIVE: Fall 2005 and/or
Upon Board of Regents' Approval.

RATIONALE: See full program proposals #74 & 75 and course proposals #57-73 & 146 from the Fall 2004 review cycle on file in the Governance Office, 312 Signers' Hall.

Certificate, Construction Trades Technology - Nine credits of general certificate requirements including CTT 106 or TTCH 131; CTT core requirements of CTT 100, 110, 115, HLT 122, and CTT 199 for a total of 38.5 credits; effective Upon BOR approval.

A.A.S., Construction Trades Technology - General AAS degree requirement of 15 credits including CTT 106 or TTCH 131; completion of certificate requirements (CTT 100, 110, 115, HLTH 122 and CTT 199); and additional courses CTT 170, 175, 150, 155, 299 for a total of 76.5 credits; effective Upon BOR approval.

****

Brief Statement of the Proposed Program

Certificate and A.A.S. in Construction Trades Technology

Overview: Responding to the construction industry and rural Native organizations, the Interior-Aleutians Campus supported by the Northwest Campus and the College of Rural Alaska (CRA) is proposing the Construction Trades Technology (CTT) consisting of a 38.5-credit certificate program, which articulates into an AAS degree program requiring 76.5 credits.

The Certificate and AAS Program is based upon the National Center for Construction Education and Research requirements for National Certification which provides students the opportunity to enter apprenticeship programs. The certificate graduate will know construction terminology and have entry-level skills in carpentry. The AAS Degree will further develop their skills. Upon completion of the AAS Degree, the student will have basic skills in plumbing and electrical. Career paths developed and under going development include plumbing, electrical, carpentry, heavy equipment operations, pipeline management, insulating, heating, ventilation, and air conditioning (HVAC), and instrumentation.

The CTT Program was developed in consultation with Native Non-profits and rural organizations, rural campuses and College of Rural Alaska Vocational faculty. The program responds to the unique vocational educational needs of Alaska's workforce and the needs of employers. Currently, each rural region of the state has 20-30 million dollars worth of construction projects. The rural workforce is not prepared to participate in these projects beyond the general laborer position. The CTT program offers new opportunities for Alaska's rural and urban-based students.

To address the years of construction experience held by many village residents, the CTT program offers opportunities of credit for prior training and experience.

CRA is working with the Council of Athabascan Governments, an Approved Training Sponsor for the National Center for Construction Education & Research (NCCER). Through CATG, the students will eligible for entry into the national database.

NCCER is a national organization of construction trade organizations and businesses, which promote training through a nationally standardized and certified curriculum. This curriculum is constantly reviewed and revised by industry professionals to keep it current with industry standards. There are several trade organizations in Alaska that endorse this curriculum and promote its use in their training. For students to be entered on the national registry, they must pass written and hands-on competency tests. The instructors providing the training must be certified by NCCER as craft proficient in their respective trades.

The mission of the CTT Program is to provide vocational, skill-based education to students through flexible course delivery methods to meet the needs of college and rural Alaska students.

Ojectives of the Proposed CTT Program:

- To prepare a cadre of skilled Alaskan workers that meet current workforce deficiencies in construction trades, focusing on the rural worker.
- To contribute to our vocational educated Alaskan Workforce by providing a program that links work-based skills and hands-on learning to postsecondary education, particularly in rural Alaska in keeping with the university mission.
- To provide a career ladder beyond entry-level to an underemployed rural workforce, particularly Alaska Native men, who are also under-represented at the university.

****

The UAF Faculty Senate passed the following at its Meeting #127 on February 7, 2005:

MOTION:

=======

The UAF Faculty Senate moves to amend Section 1 (ART III: Membership) of the UAF Faculty Senate By-laws as follows:

[[ ]] - Deletions

CAPS - Additions

F. RECALL

1. UNETHICAL AND/OR UNPROFESSIONAL CONDUCT BY ANY ELECTED OFFICER OR MEMBER OF THE SENATE MAY CONSTITUTE A CAUSE FOR A VOTE OF NO CONFIDENCE AND HENCE A RECALL. IN ORDER TO RECALL AN ELECTED OFFICER OR MEMBER, THE SENATE MUST HAVE A 2/3 MAJORITY VOTE OF ITS TOTAL MEMBERSHIP.

EFFECTIVE: Immediate, Upon Chancellor Approval

RATIONALE: To preserve Faculty Senate's integrity and to assure that the members and/or officers of the Senate are held at highest professional, and ethical standards.

****

The UAF Faculty Senate passed the following at its Meeting #127 on February 7, 2005:

MOTION:

=======

The UAF Faculty Senate moves to approve the Unit Criteria for Natural Sciences (CNSM).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the Natural Science unit criteria submitted by the College of Natural Sciences and Mathematics. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines.

****

January 23, 2005

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:

ANNUAL REVIEW, PRE-AND POST-TENURE,

PROMOTION, TENURE REVIEW

AND

NATURAL SCIENCES

UNIT CRITERIA

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR ANNUAL REVIEW, PRE- AND POST-TENURE, PROMOTION, AND TENURE REVIEW, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING NATURAL SCIENCE FACULTY IN CNSM. ITEMS IN BOLDFACE CAPITAL LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO CNSM FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS. THE CNSM MATHEMATICAL, STATISTICS AND COMPUTER SCIENCE DISCIPLINES CRITERIA ARE SUBMITTED AS A SEPARATE DOCUMENT.

I. Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

II. Initial Appointment of Faculty

A. Criteria for Initial Appointment. Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

- Academic Titles. Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline. Units wishing to appoint academic rank faculty within

schools and colleges to titles must have the concurrence of the specific discipline in which the title resides.

C. Process for Appointment of Faculty with Academic Rank. Deans of schools and Colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's affirmative action policies and shall provide for participation in hiring by faculty and administrators as a unit.

- Process for Appointment of Faculty with Special Academic Rank. Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's stated affirmative action policies, and shall provide for participation in hiring by faculty and administrators in the unit. These procedures shall be on file in the Chancellor's Office.
- Following the selection process, the dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the Chancellor or his/her designee.
- Letter of Appointment. The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, and any special conditions relating to the appointment. This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution, the part(s) defining the position may not. Subsequent letters of appointment may vary the work load distribution and nature of the assignment.

III. PERIODIC EVALUATION OF FACULTY

A. General Criteria and Definitions

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV **AND NATURAL SCIENCES UNIT CRITERIA, STANDARDS, AND INDICES**, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty members' professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service**.** As used in these procedures, unless otherwise specified, the following terms shall mean**:**

1. "Faculty." Those persons who have accepted and hold appointment to academic rank or special academic rank.

2. "Academic Ranks." Ranks held by persons having the title of professor, associate professor, and assistant professor. These titles denote academic rank exclusively. The title of instructor may also be a title of academic rank at the discretion of the policies and procedures approved for each university; or when included in the description of membership in the relevant Article of a collective bargaining agreement. Faculty holding academic rank are eligible for promotion and tenure.

3. "Special academic ranks." Ranks held by persons having the following title and the qualification specified:

Lecturer: employed to teach full- or part-time; or titles of academic rank preceded by:

Adjunct: employed to teach on or more courses up t o15 credit hours per year, or other academic assignment at less than 50 percent of a full-time appointment;

Affiliate: voluntary faculty service, not employed by the university;

Visiting: employed to perform the faculty functions expected of academic rank for a specific period;

Research: supported primarily by grant funding;

Clinical: special category reserved for practitioners in the health care delivery professions.

These titles denote special academic rank exclusively. The title of instructor may also be a title for special academic rank at the discretion of the policies and procedures approved for each university; or when included in the description of membership in the relevant Article of a collective bargaining agreement.

4. "Tenure." The status of holding a faculty appointment on a continuing basis following evaluation and award according to the terms of Chapter IV and BOR Policy 04.04.04.B.

5. "Tenure track position." A tenure track position is one which may lead to consideration for appointment to tenure as described in the policies and procedures for each university. A tenure track position requires the performance of faculty function at least 50% of full-time. For exceptional case, and when in the judgment of the Chancellor the best interests of the university will be served, a faculty member may be appointed to a tenure track position at less than 100% but more than 50% of a full-time appointment.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers **WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR**:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

SPECIFIC NATURAL SCIENCES CRITERIA FOR TEACHING PERFORMANCE:

ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO A QUALITY AND CURRENT TEACHING PROGRAM IN THE DEPARTMENT.

ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE TEACHING MATERIAL IS CONTEMPORARY AND RELEVANT AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT NOT IS LIMITED TO) COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, VERSATILITY IN INSTRUCTIONAL ASSIGNMENTS, EFFECTIVE GUIDING AND MENTORING OF INDIVIDUAL STUDENTS, AND HIGH QUALITY CLASSROOM TEACHING PERFORMANCE.

PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE MAY INCLUDE CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND CURRICULUM OFFERINGS, ABILITY TO MOTIVATE OR INSPIRE STUDENTS, AND EXEMPLARY TRAINING OF GRADUATE STUDENTS INCLUDING SUCCESS IN GRADUATING STUDENTS. BOTH FACULTY AND STUDENTS MUST CONSIDER THE TEACHING PERFORMANCE TO BE OF HIGH QUALITY.

2**. Components of Evaluation**

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observations,

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska, Fairbanks, and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more the following characteristics:

a. They must occur in a public forum,

b. They must be evaluated by appropriate peers,

c. They must be evaluated by peers external to this institution so as to allow an objective judgment,

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval;

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers;

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics;

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges;

f. Editing or refereeing articles or proposals for professional journals or organizations

g. Scholarly reviews of publications, art works and performance of the candidate;

h. Citations of research in scholarly publications;

i. Published abstracts of research papers;

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts; these materials appearing in reputable works of the discipline;

k. Prizes and awards for excellence of scholarship;

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study;

m. Development of processes or instruments useful in solving problems, such as computer programs, **SOPHISTICATED COMPUTER MODELS THAT HELP IN THE UNDERSTANDING OF COMPLEX SYSTEMS,** and systems for the processing of data, genetic plant and animal material, and where appropriate, obtaining patents and/or copyrights for said development.

SPECIFIC CRITERIA FOR NATURAL SCIENCE RESEARCH PERFORMANCE:

ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE AREA OF SPECIALIZATION, NORMALLY A SUB-DISCIPLINE OF THE NATURAL SCIENCES (WITH THE OPTION OF RESEARCH IN SCIENCE EDUCATION).

ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM THAT PRODUCES SIGNIFICANT PUBLICATIONS IN REFEREED PROFESSIONAL JOURNALS. PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS, THE SUBMISSION OF RESEARCH PROPOSALS, AND THE ACQUISITION OF EXTERNAL RESEARCH FUNDING CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE RESEARCH IS OF HIGH QUALITY. THE FACULTY MEMBER SHOULD SHOW INDEPENDENCE AND LEADERSHIP BY THE CREATION OF RESEARCH IDEAS THAT TRANSLATE INTO PROJECTS THAT INVOLVE BOTH GRADUATE AND UNDERGRADUATE STUDENTS.

PROFESSOR: THE RESEARCH PROGRAM SHOULD HAVE PRODUCED A SUFFICIENT NUMBER OF PUBLICATIONS IN THE REFEREED PROFESSIONAL LITERATURE, AND THERE SHOULD BE A RECORD OF STUDENT INVOLVEMENT INCLUDING SUCCESSFUL MENTORING OF PH.D. STUDENTS. THE PUBLICATIONS SHOULD BE OF SUFFICIENT QUALITY AND QUANTITY TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM. AN INTERNATIONAL REPUTATION (AS DEMONSTRATED BY PROFESSIONAL ACTIVITIES OR PRESENTATIONS AT MEETINGS AND BY CITATIONS OF PUBLICATIONS OR DOCUMENTED OPINIONS OF OTHER SCIENTISTS IN THE FIELD) IS EXPECTED.

D. Criteria for Public and University Service and PROFESSIONAL SERVICE

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service".

1. Public Service

Public service is the application of teaching, research, and other scholarly activity and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be a systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, or professional contributions to the community or to one's discipline, or other

activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

Examples include, but are not limited to:

a. Providing information services to adults and youth;

b. Service on or to government or public committees;

c. Service on accrediting bodies;

d. Active participation in professional organizations;

e. Active participation in discipline-oriented service organizations**;**

f. **CONSULTING, INCLUDINGUNPAID** consulting**.**

g. Prizes and awards for excellence in public service;

h. Leadership of or presentations at workshops, conferences, or public meetings;

i. Training and facilitating

j. Radio and TV programs **and interviews**, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media;

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions;

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activities include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies;

b. Consultative work in support of university functions, such as expert assistance for specific projects;

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school;

d. Participation in accrediting reviews;

e. Service on collective bargaining unit committees or elected office;

f. Service in support of student organizations and activities;

g. Academic support services such as library and museum programs;

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer;

i. Mentoring**, INCLUDING MENTORING NEW FACULTY;**

j. Prizes and awards for excellence in university service.

3. Professional Service

a. **Editing or refereeing articles or proposals for professional journals or organizations; (IF NOT COUNTED AS RESEARCH; SEE C.2.F.)**

b. **Active participation in professional organizations;**

c **Active participation in discipline-oriented service organizations;**

d. **COMMITTEE CHAIR OR OFFICER OF PROFESSIONAL ORGANIZATIONS;**

e. **SESSION ORGANIZER OR MODERATOR FOR PROFESSIONAL MEETINGS.**

4. Evaluation of Service

Each faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public, university, and **PROFESSIONAL** service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

SPECIFIC NATURAL SCIENCES CRITERIA FOR SCIENCE SERVICE PERFORMANCE:

ASSISTANT PROFESSOR: NONE IN ADDITION TO UAF CRITERIA.

ASSOCIATE PROFESSOR: POSITIVE CONTRIBUTION TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS, EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICE TO THE PROFESSION ARE EXPECTED.

PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS MANDATORY. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS ARE EXPECTED, INCLUDING SERVICE TO THE GENERAL PUBLIC AND ALASKA TEACHERS.

MEASURES OF EFFECTIVENESS OF PERFORMANCE INCLUDE (BUT ARE NOT LIMITED TO):

ACCOMPLISHMENTS OF THE EFFORT OF ORGANIZATION TO WHICH SERVICE WAS PROVIDED.

OFFICIAL RECOGNITION OF QUALITY OF SERVICE (E.G., AWARDS, LETTERS OF RECOMMENDATION).

OPINIONS OF CLIENTS SERVED AND/OR COLLEAGUES INVOLVED IN DELIVERY OF SERVICE.

CURATORIAL SERVICE

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY AT CNSM, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH AND SERVICE.

1. **CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:**

- **MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);**
- **INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;**
- **FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;**
- **MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);**
- **SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;**
- **WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;**
- **PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;**
- **PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS;**
- **ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS THAT PERTAIN TO THE COLLECTION**.

<u>SPECIFIC CRITERIA FOR CURATORIAL SERVICE PERFORMANCE:</u>

<u>ASSISTANT PROFESSOR AND CURATOR</u>

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

1. **CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA AND THE CIRCUMPOLAR NORTH AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.**
2. **COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.**
    - **CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.**
    - **CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.**

- **CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGUES OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.**
- **CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CAUTION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.**

CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA. IN THIS REGARD, PREPARATION OF SMALL EXHIBIT IS APPROXIMATELY THE EQUIVALENTS OF PUBLICATION OF A PROFESSIONAL ARTICLE; PROJECT DIRECTION OF A LARGE COMPLEX EXHIBIT THAT INCLUDES PREPARATION OF A SERIOUS CATALOGUE IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A SCHOLARLY BOOK.

CURATORS WILL ACTIVELY PREPARE GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.

ASSOCIATE PROFESSOR AND CURATOR

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH MUST BE EVIDENT.

PROFESSOR AND CURATOR

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. THEY MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.

****

The UAF Faculty Senate passed the following at its Meeting #127 on February 7, 2005:

MOTION:

=======

The UAF Faculty Senate moves to amend Article III and IV of the UAF Faculty Senate Constitution as follows:

[[ ]] - Deletions

CAPS - Additions

ARTICLE III - Membership

Sec. 1 The Senate shall be constituted according to the provisions specified in the bylaws.

Sec. 2 Voting members of the Senate must either hold academic rank with full-time continuing appointment at the University of Alaska Fairbanks or hold special academic rank with title preceded by "research" or "term".

Sec. 3 Senate members shall be elected from and by the faculty of their respective units, as set forth in the bylaws, to two-year terms which shall be staggered to ensure continuity.

Sec. 4 The terms of the newly elected and appointed members shall commence at the beginning of "New Business" of the last regularly scheduled Senate meeting of the academic year.

Sec. 5 Any ELECTED OFFICER OR voting member of the Senate may be recalled according to the provisions of the by-laws.

Sec. 6 Non-voting members of the Senate shall have voting privileges on any Senate committee on which they serve.

ARTICLE IV - Officers

Sect. 1 The two officers of the Senate shall be the President and the President-Elect.

Sect. 2 The President and President-Elect shall be elected by the elected representatives of the Senate for one-year terms. Eligible nominees for the offices of President and President-Elect shall be elected representatives and/or chairs of standing and permanent committees of the Senate.

Sect. 3 The President-Elect, after serving for one year in this position, subject to Sections 4, [[and]] 5, AND 6, will automatically become President for one year.

Sect. 4 The term of the President may be extended for one additional year by a two-thirds majority vote of the entire voting membership of the Senate. The vote will be by secret ballot and, if passed, the term of the President and the current President-Elect will be extended for no more than one additional year.

Sect. 5 If for any reason the President should relinquish or be recalled from office, the President-Elect will automatically and immediately assume the Presidency. The Senate shall elect a Vice President to fill out the remainder of the year at which time a new election for President-Elect will be held [[as outlined in ARTICLE III, Section 6]]. The previously elevated President-Elect will complete the next academic year as President.

SECT. 6 IF FOR ANY REASON THE PRESIDENT-ELECT SHOULD RELINQUISH OR BE RECALLED FROM OFFICE, THE SENATE SHALL ELECT A PRESIDENT-ELECT TO FILL OUT THE REMAINDER OF THE YEAR AT WHICH TIME A NEW ELECTION FOR PRESIDENT-ELECT WILL BE HELD.

SECT. 7 The terms of the newly elected President and President-Elect shall commence at the beginning of the last regularly scheduled Senate meeting of the academic year.

EFFECTIVE: Immediate, Upon Chancellor Approval

RATIONALE: To preserve Faculty Senate's integrity and to assure that the members and/or officers of the Senate are held at highest professional, academic, and ethical standards.

****

The UAF Faculty Senate passed the following at its Meeting #127 on February 7, 2005:

MOTION:

=======

The UAF Faculty Senate moves to recommend the amendment of Regents' Policy 10.06.01 (Assessment) as recommended by SAC and the Faculty Affairs Committee with deletions as noted.

PART X - Academic Policy
CHAPTER VI

Assessment

Program Assessment **P10.06.01**

Each MAU will conduct regular assessments of all instructional, research, and service programs with respect to quality, efficiency, and contribution to mission and goals. Assessments of instructional programs will stress outcomes as an essential part of the ongoing institutional self-study and accreditation processes. The President [[will establish a Performance Based Budgeting system based on measures derived from assessments,]] will require each Chancellor to include program assessment results in program planning and operational reviews, and will provide an annual report on the implementation and results of assessment practices to the Board of Regents.

****

The UAF Faculty Senate passed the following at its Meeting #127 on February 7, 2005:

MOTION TABLED:

==========

The UAF Faculty Senate moves to override the veto of the motion to

amend Section 3, (Article V, Committees, Standing) of the Bylaws pertaining to membership and adding the Faculty Research Oversight Committee.

EFFECTIVE: Immediately

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

RESOLUTION:
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Paul Layer as President-Elect of the UAF Faculty Senate for 2004-2005 by acclamation.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to establish a Policy on the Identification and Use of Acceptable Academic Degrees.

EFFECTIVE: Immediately, Upon Chancellor Approval

RATIONALE: Preservation of UAF's integrity as a degree-granting institution is very important. A significant aspect of UAF's academic integrity is the assurance that UAF students, staff, faculty, and administrators only claim possession of academic degrees deemed acceptable to UAF. In the last decade, unregulated degree 'suppliers' has become more common. Definition and regulation of the use of academic degrees and academic credits acceptable to UAF is therefore necessary.

Organizations exist that research and evaluate the quality of academic oversight for degree suppliers and publish lists of accredited degree-granting institutions. For UAF to create its own 'degree evaluation' program is neither necessary nor worthwhile. Rather, UAF may identify outside agencies upon which to base evaluations of what degree granting institutions are acceptable for UAF purposes.

Organizations that UAF relies upon to evaluate and identify degree-granting institutions acceptable to UAF include:

- U.S. Department of Education, to the extent that it evaluates foreign and domestic accrediting agencies.
- Oregon Office of Degree Authorization, which is charged by the State of Oregon to evaluate degree suppliers.
- American Association of Collegiate Registrars and Admissions Officers, which annually publishes a CD of worldwide accredited degree-granting institutions.
- World Education Services, which (along with the AACRAO) provides evaluations of foreign degrees.

****

THE FOLLOWING DEFINITIONS AND REGULATIONS CONSTITUTE THE UAF POLICY ON THE IDENTIFICATION AND USE OF INVALID ACADEMIC DEGREES:

1. An academic degree acceptable to UAF is one that has been issued by a degree-granting institution identified by UAF either generally or with respect to a specific degree as acceptable, or one that has been accredited by an accrediting agency identified as acceptable to UAF.
2. Only accrediting agencies that have been approved by the U.S. Department of Education, or which have been deemed acceptable by this policy or by the UAF Chancellor or Provost are acceptable to UAF.
3. UAF identifies as acceptable degree-granting institutions those that are accredited by an acceptable accrediting agency or those which are listed in the American Association of Collegiate Registrars and Admissions Officers International Registry of degree-granting institutions.
4. The holder of a degree or credits issued by an institution that is not identified as acceptable as set forth above may seek identification of the degree or credits as acceptable by providing a transcript and an evaluation made by either
   (a) the American Association of Collegiate Registrars and Admissions Officers, or
   (b) the World Education Services that states the degree in question is in fact equivalent to a degree granted by an accredited U.S. institution. A copy of this transcript evaluation should be filed with the individual's Dean. Unless and until the Provost or the Chancellor determines in writing that the degree or credits are acceptable, they will not be considered acceptable for use within UAF, provided, however, that unless otherwise directed by the Chancellor or Provost, a Dean may determine in writing that the degree or credits are acceptable solely for use within the academic unit of the Dean.
5. Only academic degrees and credits earned from acceptable degree-granting institutions may be used for the purposes of identification, credit transfer, hiring, promotion, or tenure at UAF.
6. Employees and students of the UAF who possess academic degrees that do not qualify as acceptable to UAF are forbidden to indicate that they possess such degrees in any official UAF context, including --but not limited to-- UAF classes, UAF syllabi, UAF web sites, and at meetings where they are identified as UAF employees or UAF students; provided, however, that they may state that they hold the degree if they also qualify the statement with a statement that the degree is not acceptable to UAF. "Indicating" one possesses a degree includes --but is not limited to-- using the title "Dr." or other degree-related title before one's name or listing the degree abbreviation (e.g., B.S., M.S., PhD) after one's name.
7. The Provost, after approval of the Faculty Senate, is authorized to develop and revise lists of accrediting agencies and/or degree granting institutions that are acceptable and/or unacceptable to UAF as necessary and appropriate to advance the business of UAF.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the Bachelor of Business Administration degree requirements to the following:

[[ ]] = Deletion
CAPS (or underline) = Addition

BACHELOR OF BUSINESS ADMINISTRATION

All majors must earn a "C" or better in all Common Body of Knowledge courses, department-specific general requirements, major specific requirements, and specific math and statistics requirements.

Requirements	Credits
Baccalaureate Core Requirements	38-39

(BA 323X--BUSINESS ETHICS [[A core Ethics class]] must be included in the courses used to meet the Perspectives on the Human Condition requirements [[for accounting and business administration majors]].)

B.B.A. Degree Requirements

Complete the following in addition to the core:

Mathematics:
- MATH 161X--Algebra for Business and Economics 3
  (Math 262 should be taken to complete the mathematics requirement for the core.)

Social Science and Statistics: 10
- STAT 200--Elementary Probabilities and Statistics (3)
- ECON 200--Principles of Economics (4)
- ECON 227--Intermediate Statistics for Economics and Business (3)

Common Body of Knowledge: 31-34
- AIS 101--Effective Personal Computer Use OR Demonstrated Computer Literacy (0-3)
- ACCT 261-262--Accounting Concepts & Uses (6)
- AIS 310--Introduction to Information Systems *or* AIS 316--Accounting Information Systems (3)
- BA 325--Financial Management (3)

BA 330--Legal Environment of Business (4)
BA 343--Principles of Marketing (3)
BA 360--Production/Operations Management (3)
BA 390--Organizational Theory and Behavior (3)
BA 462--Corporate Strategy (3)
ECON 324--Intermediate Macroeconomics
or ECON 350--Money and Banking (3)

Major complex*	at least 27
Minor complex** (optional)	at least 15
[[Electives	11 or more]]
Minimum credits required for degree	[[123]] 120

Of the above, at least 39 credits must be taken in upper division (300 level or higher) courses.

*Departmental requirements for majors may exceed the minimum indicated. Specific requirements are listed in the Degrees and Programs section of the catalog.

**Requirements for minors may exceed 15 credits. Specific requirements are listed in the Degree and Programs section of the catalog.

EFFECTIVE: Fall 2005
Upon Chancellor's Approval

RATIONALE: Reducing the BBA degree program credits to 120 is in keeping with the Board of Regents policy. This also keeps the BBA degree consistent in credit hours with most business programs in the country. BA 323X is more applicable ethics course for business students. Reducing the elective credits make that requirement more depend on specific programs under the BBA.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

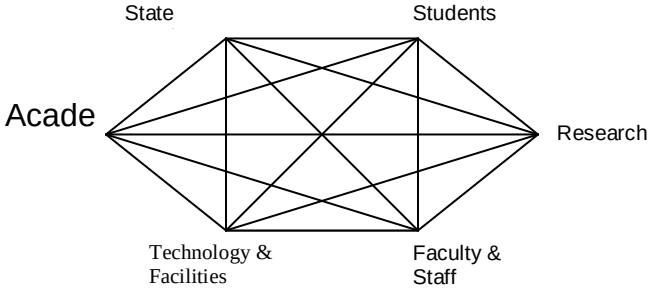
The UAF Faculty Senate moves to approve a Certificate in Medical Assisting.

EFFECTIVE: Fall 2005 and/or
Upon Board of Regents' Approval.

RATIONALE: See full program proposal #54 from the Fall 2004 review cycle on file in the Governance Office, 312 Signers' Hall.

Requires 33-36 credits; general communication and human relations requirements are embedded in the major required courses. All required courses are part of the existing A.A.S. degree requirements.

****



Brief Statement of the Proposed Program
Certificate, Medical Assisting

UAF already offers an AAS degree in Medical Assisting. Our goal in the creation of the Certificate in Medical Assisting is to train individuals for the specific skills they will need to be able to sit for the national exam to become a Certified Medical Assistant (CMA), so that they may gain employment within a year of beginning the program. We are selecting the pertinent vocational skill classes, as well as the required math, communication, and human relations classes for the certificate requirements. A total of 36 credits is proposed for the certificate. All of the classes currently exist and have been taught for several years. There should be no financial impact on UAF/TVC by creating this certificate. Should students desire to continue their education, we would strongly encourage them to continue to take additional classes to obtain their AAS in Medical Assisting.

Medical Assistants are trained to be versatile members of the healthcare team in physicians' offices and outpatient clinics. Their skills include management of the front office reception and scheduling, billing, coding, records management. Their back office skills are to assist the physician with intake information, measurements, vital signs, patient history, injections, and to assist the physician in all medical procedures. They are also trained in basic laboratory skills such as safe handling of various laboratory specimens, and routine analysis of blood and urine samples. In the past several years, more physicians are employing Medical Assistants because of their specific training and their flexibility. They are rapidly replacing the LPN and RN staff in many medical clinics.

They are rapidly replacing the LPN and RN staff in many medical clinics.

Target Admission date:
Fall, 2005

****

How does the program relate to the **Education Mission** of the University of Alaska?

Tanana Valley Campus focuses on student-centered learning with an emphasis on self-growth and skill-based competencies for success in business, labor, industry and general community and individual life-long development. See Appendix B for Draft of Strategic Plan UAF 2005 and UAF Tanana Valley Campus Strategic Plan 2000.

The Medical Assisting Profession is a competency-based program designed to build solid skills for the workplace. We have been guided in development by national standards. The program has been recognized by being accredited by the Commission on the Accreditation of Allied Health Education Programs (CAAHEP). Tanana Valley Campus, and UAF, have been working to align our programs with nationally recognized credentials. Medical Assisting is one of the successful areas.

One of the stated objectives in the UAF Strategic Plan 2005 is to:

> *Actively Collaborate with Communities, Organizations, Businesses and Government to Meet Identified State, National and Global Needs.*

Currently, the Medical Assisting program relies on the collaboration and cooperation of local medical practitioners and local clinics. These individuals, businesses and organizations provide us with guidance about industry needs, feedback about our students, and sites for practicum experiences. In fact, it is largely because of the interest and feedback from the community that we are creating the certificate program.

Describe the **State Needs** being met by this program.

Surveys conducted by the State of Alaska Dept. of Labor, the Workforce Investment Board, Alaska State Hospital and Nursing Home Association, and the others, the State has determined that Medical Assisting, Dental Assisting, Registered Nursing, Practical Nursing, Radiologic Technology, and pharmacy technician, are the top needs in healthcare to serve the Alaskan population and workforce. The State of Alaska determined that over the years 2000-2010 there will be a projected need for an additional 60 Medical Assistants in the state annually.

What are the **Student** opportunities and outcomes? The enrollment projections?

There is a continual need in the Fairbanks Community for Certified Medical Assistants. Gains in stature in the profession have contributed to the growth of that need as physicians' offices begin to see the value in these versatile employees. As stated above, the State predicts an average of 60 openings annually for the next several years. We currently have 35 students actively seeking the AAS in Medical Assisting. We anticipate doubling that number within the next few years as the Certificate becomes available and those students seeking a faster route into the workforce become aware of it.

Describe the **Research** opportunities, if applicable.

NA

Identify any additional **Faculty and Staff** requirements as well as any existing expertise and resources that will be applied.

Because the AAS Degree in Medical Assisting already exists, all the faculty and staff necessary to deliver this program are already in place.

Identify the impacts on existing **Technology & Facilities** as well as projected needs.

Because the AAS Degree in Medical Assisting is already in place, we do not anticipate an impact on Technology or Facilities. The Medical Assisting teaching suite is currently available and in use. We anticipate expanding the facility next year when funding becomes available.

Resource Commitment to the Proposed Degree Program

I have attempted to identify existing support for the Medical Assisting AAS Program. No new funds or resources are requested in relation to the proposed Certificate in Medical Assisting.

Resources	Existing	New		Total
	College/School	College/School	Others(Specify)	
Regular Faculty (FTE's & dollars)	2 FTE $120,000	NA	NA	
Adjunct Faculty (FTE's & dollars)	4 adjuncts $10000	NA	NA	
Teaching Assistants (Headcount)	2 $5000	NA	NA	
Instructional Facilities (in dollars and/or sq. footage)	Fourth floor TVCC labs, 300 sq foot lab, 600 sq foot lecture room, access to computer lab	NA		
Office Space (Sq. footage)	180 sq ft	NA	NA	
Lab Space (Sq. Footage)	Fourth floor TVCC labs, 300 sq foot lab currently. Current plans exist for expansion, independent of this certificate request. The new lab will be approximately 780 sq ft.	NA	NA	
Computer & Networking (in dollars)	One computer lab with 20 computers is currently available. $22,000	NA	NA	
Research/ instructional/ office Equipment (in dollars)	Various lab and office equipment, $100,000	NA	NA	
Support Staff (FTE's & dollars)	One administrative assistant $40,000	NA	NA	
Supplies (in dollars)	Various supplies $ 25,000	NA	NA	
Travel (in dollars)	One meeting annually $3000	NA	NA	

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

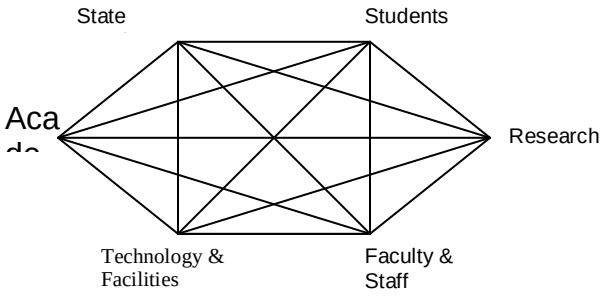
MOTION:
=======

The UAF Faculty Senate moves to approve a Certificate in Instrumentation Technology.

EFFECTIVE: Fall 2005 and/or
Upon Board of Regents' Approval.

RATIONALE: See full program proposal #96 from the Fall 2004 review cycle on file in the Governance Office, 312 Signers' Hall.

Requires 32 credits; requires four semesters, designed to be taken in conjunction with the AAS in Process Technology.



****

Brief Statement of the Proposed Program
Certificate, Instrumentation Technology

The instrumentation technology program will develop entry-level skills in industrial instrumentation. Courses combine the technical know-how and hands-on experience necessary for work in a variety of industrial fields. In the classroom students use state-of-the-art equipment coupled with hands-on experience to develop skills necessary to gain entry-level positions in the workforce.

Title and brief description:

Instrumentation Technology

The instrumentation technology program will develop entry-level skills in industrial instrumentation. Courses combine the technical know-how and hands-on experience necessary for work in a variety of industrial fields. In the classroom students use state-of-the-art equipment coupled with hands-on experience to develop skills necessary to gain entry level positions in the workforce.

Target Admission date: Spring 2005

****

How does the program relate to the **Education Mission** of the University of Alaska?

The instrumentation program will help meet the educational mission of the University of Alaska and Tanana Valley campus by providing a quality instrumentation training program providing more Alaskans with the skills needed to fill industry positions.

Describe the **State Needs** being met by this program.

Industry partners have identified additional needs in providing instrumentation technicians as rapidly growing process technology industry's move towards automated systems. Currently many positions are being filled from outside the state of Alaska; this program will help eliminate the need to look outside our state for qualified instrumentation technicians.

What are the **Student** opportunities and outcomes? The enrollment projections?

The program will expose the students to the necessary information required to take the entry-level ISA (Instrumentation Society of America) certification examination. This is a nationally recognized certification by industry partners, individuals holding this certification are sought-after by industry partners to fill instrumentation technician positions throughout the state. Anticipated enrollment will come from students enrolled in the Process Technology Program and from Industry partners who's workforce need incumbent training.

Describe the **Research** opportunities, if applicable.

N/A

Identify any additional **Faculty and Staff** requirements as well as any existing expertise and resources that will be applied.

The process technology program currently has as part of its requirement instrumentation one and instrumentation two, the certification would require the addition of two new instrumentation courses and one valve maintenance and instrumentation class. The current process technology program requires nine elective credits in the major field for graduation, these three classes would provide an additional 11 elective credits that could be utilized for the degree program. The current degree program requires 63 credits for an AAS degree, students could finish the instrumentation certificate and the AAS with only two additional credits. The instrumentation and valve maintenance classes are currently being taught as special topics courses and would require no additional staff or faculty resources for program implementation.

Identify the impacts on existing **Technology & Facilities** as well as projected needs.

The addition of the instrumentation certificate program would require additional instrumentation equipment and tools. This equipment and tools will be provided through industry support with minimal impact on the current process technology budget.

Resource Commitment to the Proposed Degree Program

Resources	**Existing**	**New**		**Total**
	College/School	College/School	Others(Specify)	
Regular Faculty (FTE's & dollars)	FTE 1 $50,838	N/A	N/A

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend Article III and IV of the UAF Faculty Senate Constitution as follows:

[[ ]] - Deletions
CAPS - Additions

ARTICLE III - Membership

Sec. 1 The Senate shall be constituted according to the provisions specified in the bylaws.

Sec. 2 Voting members of the Senate must either hold academic rank with full-time continuing appointment at the University of Alaska Fairbanks or hold special academic rank with title preceded by "research" or "term".

Sec. 3 Senate members shall be elected from and by the faculty of their respective units, as set forth in the bylaws, to two-year terms which shall be staggered to ensure continuity.

Sec. 4 The terms of the newly elected and appointed members shall commence at the beginning of "New Business" of the last regularly scheduled Senate meeting of the academic year.

Sec. 5 Any ELECTED OFFICER OR voting member of the Senate may be recalled according to the provisions of the by-laws.

Sec. 6 Non-voting members of the Senate shall have voting privileges on any Senate committee on which they serve.

ARTICLE IV - Officers

Sect. 1 The two officers of the Senate shall be the President and the President-Elect.

Sect. 2 The President and President-Elect shall be elected by the elected representatives of the Senate for one-year terms. Eligible nominees for the offices of President and President-Elect shall be elected representatives and/or chairs of standing and permanent committees of the Senate.

Sect. 3 The President-Elect, after serving for one year in this position, subject to Sections 4, [[and]] 5, AND 6, will automatically become President for one year.

Sect. 4 The term of the President may be extended for one additional year by a two-thirds majority vote of the entire voting membership of the Senate. The vote will be by secret ballot and, if passed, the term of the President and the current President-Elect will be extended for no more than one additional year.

Sect. 5 If for any reason the President should relinquish or be recalled from office, the President-Elect will automatically and immediately assume the Presidency. The Senate shall elect a Vice President to fill out the remainder of the year at which time a new election for President-Elect will be held [[as outlined in ARTICLE III, Section 6]]. The previously elevated President-Elect will complete the next academic year as President.

SECT. 6 IF FOR ANY REASON THE PRESIDENT-ELECT SHOULD RELINQUISH OR BE RECALLED FROM OFFICE, THE SENATE SHALL ELECT A PRESIDENT-ELECT TO FILL OUT THE REMAINDER OF THE YEAR AT WHICH TIME A NEW ELECTION FOR PRESIDENT-ELECT WILL BE HELD.

SECT. 7 The terms of the newly elected President and President-Elect shall commence at the beginning of "New Business" of the last regularly scheduled Senate meeting of the academic year.

EFFECTIVE: Immediate, Upon Chancellor Approval

RATIONALE: To preserve Faculty Senate's integrity and to assure that the members and/or officers of the Senate are held at highest professional, academic, and ethical standards.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to recommend the amendment of Regents' Policy 04.04.040 A.1.e.(1) as follows:

[[ ]] - Deletions
CAPS - Additions

REGENTS POLICY P04.04.040.A.1.e.(1)

Appointment **P04.04.040**

e. Appointments of distinction for faculty.

(1) Distinguished [[and University]] Professors. Tenured appointment as Distinguished [[Teaching]] Professor [[Distinguished Research Professor, Distinguished Service Professor or University Professor]] may be made by the President, SUBJECT TO A PROCESS OF REVIEW AND RECOMMENDATION ESTABLISHED BY THE CHANCELLOR OF THE MAJOR ADMINISTRATIVE UNIT (I.E., UAA, UAF, UAS) IN WHICH THE FACULTY MEMBER HOLDS TENURE.

EFFECTIVE: Immediately, Upon BOR Approval

RATIONALE: In line with common practice, the title is being changed to Distinguished Professor. The addition of the process of review and recommendation is to bring it in accord with usual university practice in the matter of faculty appointments.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF Regulations for the Appointment and Evaluation of Faculty ("Blue Book") Section IV.B.5.d, paragraph 2 as follows

[[ ]] = Deletions
CAPS = Additions

d. Constitution and Operation of the University-wide [[Promotion and Tenure]] REVIEW CommitteeS.
For the purpose of 4th year comprehensive and diagnostic review[[, and post-tenure review]] of members of the United Academics – AAUP/AFT bargaining unit, the Faculty Senate will present a list of names of seven (7) faculty members to the provost who will select the committee or committees. Each unit peer review committee may nominate one of its members to serve. The list [[will]] MAY be determined from those nominees by vote of all faculty who serve on unit peer review committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No more than one faculty member on the list can be a member of any specific peer review committee.

FOR THE PURPOSE OF POST-TENURE REVIEW OF MEMBERS OF THE UNITED ACADEMICS – AAUP/AFT BARGAINING UNIT, THE FACULTY SENATE WILL PRESENT A LIST OF NAMES OF SEVEN (7) FACULTY MEMBERS TO THE PROVOST WHO WILL SELECT THE COMMITTEE OR COMMITTEES. EACH UNIT PEER REVIEW COMMITTEE MAY NOMINATE ONE OF ITS MEMBERS TO SERVE. THE LIST MAY BE DETERMINED FROM THOSE NOMINEES BY VOTE OF ALL FACULTY WHO SERVE ON UNIT PEER REVIEW COMMITTEES. FACULTY SHALL REMAIN ON THE LIST FOR A TERM OF TWO YEARS WITH THE TERMS BEING STAGGERED. NO MORE THAN ONE FACULTY MEMBER ON THE LIST CAN BE A MEMBER OF ANY SPECIFIC PEER REVIEW COMMITTEE. A faculty member shall not serve as a member of the university-wide committee reviewing post-tenure files in the year in which s/he is undergoing post-tenure review.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: This amendment provides for separate university-wide review committees for 4th-year and post-tenure review. The amendment affects the UNAC review process only. Currently, files for 4th-year and post-tenure review are handled by a single committee. (Promotion and tenure files are already handled by a separate committee.) Given the increasing number of 4th-year and post-tenure review files, the workload is becoming too large for a single committee to handle effectively.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Marine Advisory Program (MAP).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the School of Fisheries and Ocean Sciences, Marine Advisory Program (MAP) in consultation with representatives. These criteria have been approved by both MAP and SFOS faculty and by the Dean of SFOS. The committee found that the unit criteria sufficiently elaborate the nature of MAP research, teaching and service activities and provide effective guidelines for evaluating these activities. As such, the unit criteria were found to be consistent with UAF guidelines

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT, PROMOTION, TENURE, AND SABBATICAL LEAVE AND MARINE ADVISORY PROGRAM (MAP) UNIT CRITERIA STANDARDS AND INDICES

The following is an adaptation of UAF and Board of Regents (BOR) criteria for promotion and tenure, specifically developed for use in evaluating faculty in the Marine Advisory Program (MAP). Items in boldface are those specifically added or emphasized because of their relevance to MAP faculty, and because they are additions and clarifications to UAF regulations. These unit criteria are for use in the annual evaluation of faculty as well.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience, and performance requirements are set forth in “UAF Faculty Policies,” Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans or schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

In accordance with the BOR policy on promotion and tenure, MAP agents and specialists generally have bipartite appointments. Bipartite responsibilities are to be clearly stated at the time of hire and can be any combination of two of the three tripartite missions, i.e., teaching, research, or service. A MAP faculty member can request a tripartite appointment in their employment contract if such a status is consistent with the goals of the Marine Advisory Program.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor’s designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

MAP faculty members are designated at the time of hiring as either agents or specialists, and workloads and evaluations are to be based on which of those two assignments the individual holds. A MAP faculty member may be granted a change of assignment based on his/her request and the needs of the program.

CHAPTER III

Periodic Evaluation of Faculty

1. General Criteria

Criteria outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV**, and MAP unit criteria, standards and indices,** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty. Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

MAP faculty may participate in formal teaching when the opportunity arises, however, standard academic teaching is not a common form of information delivery

by the Marine Advisory Program. Instruction may include community-based or distance-delivered noncredit and/or credit courses, workshops, seminars, trainings and public presentations to adults or K-12 students. Instructional activities primarily deliver information relevant to community needs.

Development and preparation of instructional materials such as workshop outlines, training syllabuses or lesson plans, handouts, slide presentations, displays, lecture materials etc. are also components of MAP teaching activities. Educational videos and/or other media produced for public education are also included.

Marine Advisory Program agents usually function as generalists by contributing breadth and diversity in their teaching efforts. Rurally located agents usually respond to requests to develop and/or teach discrete sessions, workshops, or short-term courses on subjects not available to rural Alaska.

Specialists have a depth of topical knowledge and primarily focus on teaching technical information in their specialty area to clientele.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. **Effective teachers will demonstrate some, but not necessarily all, of the following characteristics in an individual year.**

MAP education differs from resident education in that the instruction is designed to deliver information relevant to specific clientele and public needs.

Effective teaching must enable the learner to gain knowledge and /or skills that can result in changes to attitudes/behavior.

EFFECTIVE TEACHERS:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students **and clientele**;

b. express positive regard for students, **become familiar with their public,** develop good rapport with students **and clientele,** show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student **and clientele** participation for student learning and teacher effectiveness, are sensitive to student and clientele diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings i.e. student opinion of instruction summary forms, and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/ department chair evaluation of course materials.

EVALUATION OF TEACHING FOR MAP FACULTY:

Systematic university approved student evaluations are not usually available or appropriately designed to evaluate MAP teaching activities. In addition, instruction by MAP faculty is often conducted in rural locations where evaluation by peers or department chair is not available. However, a means of evaluation appropriate to the instructional content should be administered by the principal instructor whenever possible.

Additional indices for documenting effective teaching for MAP faculty may include:

A. Evidence that teaching addresses client-centered needs, as expressed by requests for courses and by client/student participation in those courses;

B. Evidence that the teaching is meeting specific, quantifiable instructional objectives;

C. Demonstration of changes in knowledge, skills and/or attitudes/behavior resulting from MAP information transfer;

D. Clientele evaluations of both the program and the instructor;

E. Testimonials and/or repeated invitations to teach;

F. Documentation of contact hours with clientele as an assessment of response effort;

G. Evidence of creativity and success in distance delivery of educational programming; and

H. Evidence of creativity in material development or outreach mechanisms.

In addition to the indices of effective teaching, additional criteria that qualify a MAP faculty for promotion to the rank of Professor may include:

1. Development and/or adaptation of new methods and approaches in the discipline, such as:

A. Creative use of media and/or distance- delivery methods of instruction which extends the bounds of the discipline and improves educational outreach;

B. New curriculum or program development that improves the information transfer in the faculty member's area of expertise;

2. Regional, national and/or international recognition as an expert as illustrated through invitations to and presentations at conferences, meetings, workshops, and trainings;

3. Receipt of state or national awards in recognition of outstanding teaching;

4. Clientele/student reviews and/or evaluations that show continued quality performance as a teacher; and

5. Recognition through invitational teaching opportunities.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Many MAP faculty have limited opportunities to conduct traditional research and limited or no access to laboratories and graduate students.

For MAP faculty, research, scholarly, and creative activities may consist of:

1. **Applied research designed to address specific client needs;**
2. **Production of peer reviewed informational media; and**
3. **Publication of peer reviewed publications.**

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

1. They must occur in a public forum.

2. They must be evaluated by appropriate peers.

3. They must be evaluated by peers external to this institution so as to allow an objective judgment.

4. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

A. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

B. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

C. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

D. Exhibitions of art works at galleries, selection for these exhibitions being based on rigorous review and approval by peers**,** juries, recognized artists, or critics.

E. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

F. Editing or refereeing articles or proposals for professional journals or organizations **and MAP or Sea Grant publications.**

G. Scholarly reviews of publications, art works and performance of the candidate.

H. Citations of research in scholarly publications.

I. Published abstracts of research papers.

J. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

K. Prizes and awards for excellence of scholarship.

L. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

M. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

N. New and unique adaptations of existing research-based technology or knowledge in order to solve problems relevant to Alaska.

Excellence in the areas of research or scholarly activity by MAP faculty which qualifies him/her for promotion to Professor may include:

1. **Authorship of a peer-reviewed book or major reference in the faculty member's area of scholarly activity;**

2. **Receipt of a national research fellowship;**

3. **Continuous performance in research with a corresponding publication record; and**

4. **Introduction of a new technology, product, or idea which demonstrably improves the quality of life for Alaskans, and is a clear result of a MAP faculty member's activity.**

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

For MAP faculty, a significant portion of each workload will consist of service. In general, this will be higher than that found in traditional faculty workloads and reflect the community or specific client needs approach of Marine Advisory Program educational activities.

1. **Public Service**

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities that extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be

informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.
d. Active participation in professional organizations.
e. Active participation in constituency organizations.
f. Active participation in discipline-oriented service organizations.
g. Consulting **in the faculty member's area of expertise and the discipline consistent with the obligation for public service**.
h. Prizes and awards for excellence in public service.
i. Leadership of or presentations at workshops, conferences, or public meetings.
j. Training and facilitating.
k. Radio and TV programs, newspaper or trade journal articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
l. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
m. Participation in K-12 educational programs
n. Assessing the research needs of clientele and communicating those needs to the research community.
o. Developing and managing effective community and agency partnerships which extend MAP resources and/ or develop leadership skills.
p. Representing and answering questions at public events.
q. Site visits for problems solving and consultation
r. Rapidly responding to urgent client needs in a timely, flexible, and appropriate manner.
s. Other service activities consistent with the School of Fisheries and Oceans Sciences to contribute to Alaska's coastal economy.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair, or term-limited and part-time assignment as assistant/associate dean in a college, school, **or program.**
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees or elected office.
f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

3. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, **invitations to participate at clientele meetings, conferences, and workshops**, and other public means of recognition for services rendered.

INDICES FOR PUBLIC AND UNIVERSITY SERVICE

In addition to university regulations on the evaluation of public service, the following activities further exemplify public service indices for MAP faculty:

A. Documentation of the quality and distribution of publishing popular press articles and newsletters;

B. Presentation of applied research results to user groups such as public agencies, governmental bodies, private businesses, constituent groups, and lay public, both in published and oral forms;

C. Quality and distribution of media presentations and public interviews, e.g., TV, radio, film, newspapers and videotapes;

D. Evidence of response to new knowledge and developments in the discipline by rapidly raising public understanding and awareness through available educational media and methods;

E. Results of individual consultations;

F. Role and effort involved in the development and planning of conferences and workshops;

G. Writing and distribution of MAP, School of Fisheries and Ocean Sciences, and Sea Grant publications;

H. Documentation of service activities conducted on a continuing basis;

I. Testimonials demonstrating effectiveness of service activities or other documentation which demonstrates the impacts of MAP faculty's public service;

J. Documentation of public needs and response;

K. **Appropriateness of the response effort toward urgent clientele issues;**

L. **Development and maintenance of partnership relationships; and**

M. **Committee appointments and any leadership role in committee assignments.**

Evidence of leadership in service which qualifies a MAP faculty member for promotion to Professor may include, but is not limited to:

1. **Invitation to serve on national or international boards, review committees, award commissions or scholarship commissions;**

2. **Appointment or election to a leadership position on local, state, national, and international public service committees or organizations;**

3. **National leadership in a professional organization;**

4. **Recognition through invitational speaking engagements on topics which constitute public service;**

5. **Evidence of effective application of professional expertise to professional or public processes and organizations;**

6. **Service as committee chair. Session organizer, or officer of professional organizations;**

7. **Evidence of important contributions to the development of school, departmental, and/or university programs;**

8. **Recognition through receipt of public service awards, or awards for service to the university;**

9. **Receipt of a national association, government, or professional society service award; and**

10. **Participation in a voluntary mentoring relationship with junior faculty to facilitate their progress toward promotion and tenure.**

Revised August 2004

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve the deletion of the E.M. (Engineer of Mines) degree.

EFFECTIVE: Fall 2005 and/or
Upon Board of Regents' Approval.

RATIONALE: See full program proposal #16 from the Fall 2004 review cycle on file in the Governance Office, 312 Signers' Hall.

The program has not had any enrollment and graduates since 1987. At the last program review in 2002, the review committee recommended the removal of this degree program.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on Special or Reserved Numbers (p. 206, 2004-2005 UAF catalog), and the class schedule as follows:

[[ ]] - Deletions
CAPS - Additions

Special or Reserved Numbers
Courses identified with numbers ending in -92 are seminars; ending in -93 are special topics courses; -94 TRIAL courses; -95 special topics summer session courses, offered only during the summer; -97 indicates individual study; -98 NON-THESIS [[individual]] research/PROJECT; and -99, thesis/DISSERTATION.

Changes to the class schedule:

Courses with the -698 designator would be renamed NON-THESIS RESEARCH/ PROJECT.

Courses with the -699 designator would be renamed THESIS/DISSERTATION

EFFECTIVE: Fall 2005

RATIONALE: The term "individual research" is confusing: the -98 designator is intended for projects or other non-thesis research, but students often sign up under this course number instead of under the -99 designator when conducting thesis research. To change the credits requires additional paperwork for the graduate committee chair, department chair, and dean of the college and graduate school. Inserting the phrase "non-thesis" will make it clear that this is not the appropriate course number for thesis research.

The UAF Faculty Senate passed the following at its Meeting #126 on December 13, 2004:

RESOLUTION:
==========

WHEREAS UA Dial Up service at all locations will end on December 31, 2004; and

WHEREAS students and faculty will be expected to purchase their own internet access through "local" Internet Service Providers (ISPs); and

WHEREAS discontinuation of this service is alleged to save the University $269,000; and

WHEREAS students and faculty who reside or do all of their internet work on campus will still have access without costs while rural off campus students, faculty, and staff will be expected to find and pay for their own internet access thereby creating a condition of inequity; and

WHEREAS the University is encouraging faculty to put more of their courses online via Blackboard, however, these courses require internet access; and

WHEREAS major commercial providers such as GCI offer flat rate dialup in the Bethel and Fairbanks areas but not in other hub communities; and

WHEREAS students in rural villages outside of the hub areas have limited internet access and where available, the costs are significantly greater than those in hub communities; and

WHEREAS the availability of internet access is inconsistent across the state with the least availability and greatest cost associated with small villages placing the greatest financial burden on those least able to pay; and

WHEREAS the proposed discontinuance runs counter to the mission of the University to provide opportunities for learning throughout the state; now

THEREFORE, BE IT RESOLVED THAT, the UAF Faculty Senate asks the UA administration to put a hold on discontinuance of the contracted University Modem Service until such time as a UA-wide faculty, staff, student, and administration committee can be formed to review the various options, make a recommendation, and have that recommendation reviewed for implementation, and

BE IT FURTHER RESOLVED THAT, the UAF Faculty Senate asks the UA administration to quickly develop a plan to provide reliable and low cost internet access for students, faculty, and staff in rural Alaska.

The UAF Faculty Senate passed the following at its Meeting #125 on November 1, 2004:

MOTION:
=======

Upon recommendation of the Curricular Affairs, Faculty Appeals & Oversight, and the Unit Criteria Committees, the UAF Faculty Senate moves to establish a Policy on the Identification and Use of Invalid Academic Degrees.

EFFECTIVE: Immediately

RATIONALE: Preservation of UAF's integrity as a degree-granting institution is very important. A significant aspect of UAF's academic integrity is the assurance that UAF students, staff, faculty, and administrators only claim possession of valid academic degrees. In the last decade, unregulated degree 'suppliers' have become rampant. Definition and regulation of the use of invalid academic degrees and academic credits at UAF is therefore necessary.

Reputable organizations exist that research and evaluate the quality of academic oversight for degree suppliers and publish lists of accredited degree-granting institutions and non-accredited degree suppliers. For UAF to create its own 'degree evaluation' program is neither necessary nor worthwhile. Rather, UAF should depend on outside agencies for such evaluations.

Reputable organizations include:

- U.S. Department of Education, which evaluates foreign and domestic accrediting agencies.
- Oregon Office of Degree Authorization, which is charged by the State of Oregon to identify non-legitimate degree suppliers.
- American Association of Collegiate Registrars and Admissions Officers, which annually publishes a CD of world-wide accredited degree-granting institutions.
- World Education Services, which (along with the AACRAO) provides evaluations of foreign degrees.

****

THE FOLLOWING DEFINITIONS AND REGULATIONS CONSTITUTE THE UAF POLICY ON THE IDENTIFICATION AND USE OF INVALID ACADEMIC DEGREES:

1. A valid academic degree is one issued by a legitimate degree-granting institution. An invalid academic degree is one issued by any other organization or person.

2. For the purposes of determining competency of accrediting agencies, UAF only recognizes those foreign and domestic accrediting bodies that have been approved by the U.S. Department of Education. A list of non-approved "accrediting" bodies will be posted on the Provost's web site (see Attachment I).

3. A legitimate degree-granting institution is one that is accredited by a competent and qualified accrediting agency and consequently listed in the American Association of Collegiate Registrars and Admissions Officers International Registry of degree-granting institutions. All other organizations and persons, especially those specifically listed as unacceptable by the Oregon Office of Degree Authorization, are recognized by UAF as suppliers of invalid academic degrees and invalid academic credits. A list of suppliers of invalid degrees and credits will be posted on the Provost's web site.

4. An individual who possesses a degree or credits defined by the above criteria as invalid can over-rule this determination if (s)he can obtain a transcript evaluation made by either (a) the American Association of Collegiate Registrars and Admissions Officers or (b) the World Education Services that states the degree in question is in fact equivalent to a degree granted by an accredited U.S. institution. A copy of this transcript evaluation should be filed with the individual's Dean.

5. Only valid academic degrees and credits earned from legitimate degree-granting institutions may be used for the purposes of credit transfer, hiring, promotion, or tenure at UAF.

6. Employees and students of the UAF who possess academic degrees defined as invalid by UAF are forbidden to indicate that they possess such degrees in any official UAF context, including --but not limited to-- UAF classes, UAF syllabi, UAF web sites, and at meetings where they are identified as UAF employees or UAF students. "Indicating" one possesses a degree includes --but is not limited to-- using the title "Dr." or other degree-related title before one's name or listing the degree abbreviation (e.g., B.S., M.S., PhD) after one's name.

7. The list of suppliers of invalid degrees and credits, posted on the Provost's web site (Attachment II), is to be updated annually by the Faculty Senate Curricular Affairs Committee. Additions to this list are to be based on (a) the listing of invalid degree suppliers provided by the Oregon Office of Degree Authorization and (b) names of any additional degree suppliers that do not appear in the annual 'American Association of Collegiate Registrars and Admissions Officers International Registry' and come to the attention of the UAF Registrar or Admissions Office.

****

The UAF Faculty Senate passed the following at its Meeting #125 on November 1, 2004:

MOTION:
=======

The UAF Faculty Senate moves to recommend the Board of Regents eliminating specific Residency Requirements from BOR Policy 10.05.03 and move them to University Regulations with changes proposed as follows:

[[ ]] - Deletion
CAPS - Additions

Residency Requirements P10.05.03

In order to satisfy the residency requirements for the degree or certificate program from which a student wishes to graduate, students will be required to earn specified numbers of credits from the university or community college offering the program. [[These requirements for undergraduate degrees will be:

Associate degree
15 credits

Bachelor's degree
30 credits overall
24 upper division credits
12 credits in the major]]

SPECIFIC [[More]] residency credit requirements to meet program accreditation standards SHALL [[may]] be established BY THE PRESIDENT IN REGULATION following THE recommendation OF [[by the]] program faculty and the Chancellor. [[and approval by the President.]]

If a program is delivered collaboratively, credit from each participating institution will be counted toward fulfillment of residency requirements. Residency requirements will be specified in catalogs.

(05-07-81, revised 02-16-96)

Proposed Regulation R10.05.03

Residency Requirements

Certificate and Associate degrees
15 credits taken at UA

Bachelor's degree

at least 30 credits taken at UA
21 upper division credits must be taken at UA, of which
at least 15 credits must be taken at the degree granting MAU
12 credits in the major taken at UA

EFFECTIVE: Immediately

RATIONALE: The purpose of the proposed change is to allow transfer students more flexibility in their schedule and especially allow more flexibility for students transferring between MAUs of the University of Alaska.

****

The UAF Faculty Senate passed the following at its Meeting #125 on November 1, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF Regulation for Emeritus Status as follows:

CAPS - Additions
[[ ]] - Deletions

Emeritus Status

A. A full-time faculty member who has already attained the rank of full professor and who has retired after a minimum of ten years at the University of Alaska immediately prior to retirement [[is eligible for consideration as an]] MAY BE HONORED THROUGH APPOINTMENT AS PROFESSOR emeritus [[professor]]. Nominations for [[the]] CONFERRING emeritus STATUS [[professor must]] originate with the APPROPRIATE DEAN IN CONSULTATION WITH THE FACULTY, OR WITH THE faculty. IF THE NOMINATION ORIGINATES WITH THE FACULTY, IT SHALL BE THE APPROPRIATE PEER REVIEW COMMITTEE. RECOMMENDATIONS ARE FORWARDED TO THE CAMPUS PROMOTION COMMITTEE TO BE EVALUATED ON THE BASIS OF THE CRITERIA FOR PROMOTION TO THE RANK OF FULL PROFESSOR WITH THE ADDED CAVEAT THAT THE POSITION OF PROFESSOR EMERITUS IS THE HIGHEST HONOR THAT IS BESTOWED UPON A RETIRING FACULTY MEMBER. [[The process may be initiated by *any three faculty members, one of whom must belong to the retiree's primary academic unit, for review by the appropriate dean. The dean, in consultation with the retiree's primary academic unit, will make]] THE COMMITTEE'S recommendations WILL BE MADE to the Provost who will then forward his/her recommendations to the Chancellor[[. The Chancellor's]] WHOSE decision is final and non-reviewable.

B. In exceptional circumstances, the Chancellor, or in the case of statewide administration employees, the President, may confer emeritus status on other meritorious employees who have provided a minimum of ten (10) years of faithful service of high quality to the institution. Recommendations will proceed along the appropriate administrative channels to the Chancellor or President.

C. The Board of Regents may confer emeritus status upon a retiring President of the University.

D. Privileges available to emeritus employees include the following:

1. Listing in the appropriate university directory and catalog.

2. Invitations to major university functions.

3. [[Mailing]] Notices of campus functions and social gatherings.

4. Use of library, gymnasium, and food facilities on the same basis as active employees in their category.

5. Access to ELECTRONIC MAIL, laboratories, office space at the discretion of the dean or director, AND/OR research [[and/or electronic communication]] facilities (where such access is available at no charge to the university and does not displace other faculty and/or students).

6. Free parking permit (UPON APPLICATION TO THE APPROPRIATE PARKING FACILITIES SERVICE).

7. Receipt of aN [[permanent]] identification card.

8. Waiver of tuition for courses in which they themselves are enrolled.

E. Upon appointment to emeritus status a retiring employee shall be designated by the proper title Emeritus/Emerita.

[[* nominations must have the support of three faculty]]

EFFECTIVE: Immediately

RATIONALE: These changes provide a more rigorous review of nominations and bring the UAF Regulations in line with Regents' Policy & Regulations.

****

The UAF Faculty Senate passed the following at its Meeting #125 on November 1, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on Graduate Degrees - General University Requirements - Registration Requirement (p. 166, 2004-2005 UAF catalog), as follows:

CAPS - Additions
[[ ]] - Deletions

Registration Requirement

Graduate students must be registered for at least six [[graduate]] credits per year (fall, spring, summer) IN GRADUATE OR 400-LEVEL COURSES RELEVANT TO THE GRADUATE DEGREE, while actively working toward a degree. Those who wish to temporarily suspend their studies should obtain an approved leave of absence. Students who do not register or obtain a leave of absence will be dropped from graduate study and will have to be reinstated before resuming graduate studies.

You must be registered for at least 3 graduate credits in the semester in which you receive your degree and you must apply for graduation in that semester.

EFFECTIVE: Fall 2005

RATIONALE: This addresses an inconsistency in the UAF Graduate School policy regarding the minimum registration requirement of 6 credits per year.

UAF policy states that credits from both 600-level and 400-level courses may be used toward graduate degrees at UAF. Some graduate programs require specific 400-level courses as part of the graduate degree requirements. Graduate programs may set their own limits on the number of 400-level courses that may be counted toward the graduate degree.

UAF policy also requires that graduate students register for a minimum of 6 credits per year. However, the policy refers to "graduate courses", thus excluding 400-level courses from eligibility. The revised policy will allow graduate students to use relevant 400-level courses to fulfill the minimum registration requirement of 6 credits per year.

****

The UAF Faculty Senate passed the following at its Meeting #125 on November 1, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on Deficiencies for Graduate Students (p.166, 2004-2005 UAF catalog) as follows:

CAPS - Additions
[[ ]] - Deletions

Deficiencies

Your advisory committee may require that you [[correct]] REMEDY certain deficiencies in your program. Your committee will determine early in the program BOTH how to remedy the deficiencies and the minimum level of performance required of you. [[Such courses may be taken under the credit/no credit option, by audit, or through credit by examination.]] GRADED UNDERGRADUATE COURSES TAKEN TO REMEDY A DEFICIENCY MUST RECEIVE A GRADE OF "B" OR BETTER. Deficiency courses are not listed on the Advancement to Candidacy form.

EFFECTIVE: Fall 2005

RATIONALE: This motion will clarify ambiguities in the current requirements regarding deficiencies. Since deficiencies may be remedied in other ways besides taking courses, and since these other ways are at the discretion of the Advisory Committee and the Department, removing the sentence in brackets will prevent students from being misled into thinking they may select one or the other method as an option at their own discretion. Adding the sentence about the minimum grade of B will prevent students from assuming they must merely pass a course at the lowest level in order to remedy a deficiency, and makes the requirement equivalent to that of undergraduate courses taken for credit toward the graduate degree (B or better).

****

The UAF Faculty Senate passed the following at its Meeting #125 on November 1, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the current Cooperative Programs policy (p.166-67, 2004-2005 UAF catalog) by adding the following statement:

CAPS - Additions
[[ ]] - Deletions

Cooperative Programs

Some students may develop cooperative programs using specific courses from other universities before being admitted to graduate study at UAF. As part of the application process, the cooperative program must be included in an approved Graduate Study Plan (GSP) (see page 167). The student must complete a minimum of 12 semester credits in residence at UAF, in addition to thesis and research.

The following guidelines are for collaborative Ph.D. graduate studies across all UA academic units [[:]] SOME INDIVIDUAL DEGREE PROGRAMS HAVE DIFFERENT REQUIREMENTS WHICH ARE INCLUDED IN THE SPECIFIC PROGRAM REQUIREMENTS IN THE GRADUATE DEGREE PROGRAM SECTION IN THE CATALOG. THE REQUIREMENTS DESCRIBED HERE APPLY ONLY TO PROGRAMS THAT HAVE NOT ESTABLISHED DIFFERENT REQUIREMENTS.

* At least four faculty members shall serve on the graduate advisory committee for each Ph.D. student. At least two committee members shall be UAF faculty. One of the UAF committee members must be on a tenure-track appointment in a Ph.D.-granting department. The committee shall be chaired or co-chaired by a UAF faculty member.

* The graduate advisory committee and its chair and/or co-chairs must be approved by the program director and the dean of the Graduate School.

* UAF rules and regulations on graduate studies shall apply to all UAF graduate students, including those concurrently enrolled at UAA and UAS.

* The graduate advisory committee must meet at least once a year to update the Graduate Study Plan and to review the student's progress toward the degree. The annual progress report must be signed by all committee members and submitted to the dean of the UAF Graduate School.

* A comprehensive exam committee composed of the student's advisory committee will administer the Ph.D. comprehensive exam for each student.

* The Ph.D. thesis defense is to be conducted on the UAF campus.

EFFECTIVE: Fall 2005

RATIONALE: One program, Engineering, has already established its own requirements; if approved, the proposed Psychology Ph.D. will also have different requirements. Therefore, clarification is needed to assure that the catalog does not include contradictory information, and that the general catalog requirements for collaborative Ph.D. graduate studies apply unless different requirements have been approved by the Faculty Senate.

DRAFT UNIVERSITY REGULATION 03.01.01

FACULTY, STAFF AND STUDENT GOVERNANCE

L. TRANSMITTAL OF RECOMMENDATIONSAND ACTIONS

1. Transmittal of System Governance Recommendations and Actions to the Administration or Board of Regents

Actions of the system governance groups affecting the university system or system community shall be transmitted in writing to the President of the University and the responsible executive within 40 days of the action taken. Transmittal shall NORMALLY include evidence of dialogue with the responsible executive and a faithful characterization of the views [[that]] OF THE RESPONSIBLE executive and of THE SYSTEM governance GROUP.

REVISION DRAFTED SEPTEMBER 24, 2004/pmi

Regents' Policy

PART III - Faculty, Staff and Student Governance
CHAPTER I

Faculty, Staff and Student Governance

P03.01.01

The opportunity for faculty, staff and students to participate in the governance of the University is important to its effective operation. The Board of Regents intends that faculty, staff and student participation in University governance be an integral part of the University community's culture.

After consultation with University faculty, staff and students, the President shall promulgate University Regulations establishing the systemwide governance structure and its constituent organizations. The structure shall include a systemwide organization for faculty, staff and students; an alliance of faculty senates; an alliance of classified and APT staff; an intercampus student network; and appropriate campus constituent organizations.

Each systemwide organization shall development a constitution establishing its name, role and responsibilities which, upon approval by the President, shall be entered into University Regulations. CONSTITUTIONS FOR EACH SYSTEMWIDE ORGANIZATION ARE SUBJECT TO THE APPROVAL OF THE PRESIDENT. Constitutions for campus employee organizations are subject to the approval of the cognizant chancellor. Student government constitutions are subject to Regents' Policy 09.01.01. THE ROLES AND RESPONSIBILITIES FOR EACH SYSTEMWIDE ORGANIZATION SHALL BE ENTERED INTO UNIVERSITY REGULATIONS.

Governance organizations shall carry out their functions subject to the authority of the Board of Regents and the President and chancellors of the University. The organizations' purposes are to:

- provide an effective opportunity for University faculty, staff and students to play a meaningful role in matters affecting their welfare;
- represent the viewpoints of University faculty, staff and students on Regents' Policy, University Regulations, and other matters affecting the interests of the University;
- address through legislative action other matters as described in their approved constitutions;
- advise the President and chancellors of the University in a timely fashion and in a manner set forth in individual organizational constitutions; and
- communicate to faculty, staff and students information which is of interest and concern to the University.

The President and the chancellors shall respond to actions taken by governance groups in a timely fashion as described in the approved constitutions.

Participants in governance shall carry out their governance responsibilities in good faith and to the best of their abilities without fear of reprisal. Spokespersons for governance groups may present their views directly to the Board of Regents in accordance with Board procedures.

REVISION DRAFTED SEPTEMBER 24, 2004/pmi

DRAFT UNIVERSITY REGULATION 03.01.010

FACULTY, STAFF AND STUDENT GOVERNANCE

Originated March 30, 2000, revised March 31, April 2, April 8, April 22, April 27, 2004, May 4 and May 10, 2004, August 26, 2004, August 31, 2004

A. INTENT

It is the intent of the Board of Regents 1) that the faculty, staff and students shall share in the governance of the university, 2) that shared governance is an integral part of the business of the university and 3) that participants in shared governance are empowered by the Board of Regents to carry out their governance responsibilities to the best of their abilities without fear of reprisal.

B. GOVERNANCE GROUPS

1. Systemwide

The University hereby establishes a mechanism for faculty, staff and students to participate in system governance through the following organizations:

Faculty Alliance

Staff Alliance

Coalition of Student Leaders

System Governance Council

Additionally, alumni associations are established at the three academic units and participate ex-officio on the System Governance Council.

2. MAU-Specific

The University hereby recognizes that institution-specific governance groups are an integral part of and are established at the University of Alaska Anchorage (UAA), the University of Alaska Fairbanks (UAF), the University of Alaska Southeast (UAS), and the University of Alaska Statewide (SW).

C. AUTHORITY

1. Systemwide

The Faculty Alliance, Staff Alliance, Coalition of Student Leaders and System Governance Council receive their authority and shall carry out their functions subject to the authority of the Board of Regents and the President of the University.

2. MAU-Specific

Faculty and staff governance groups at UAA, UAF, UAS and SW receive their authority from their cognizant chancellor, with the Vice President for University Relations serving as the cognizant chancellor for SW.

Student governments receive their authority from Regents' Policy Part IX, Chapter 7, and corresponding University Regulations.

Alumni associations receive their authority from Regents' Policy 02.08.01.

D. PURPOSE

The purposes of the system governance groups within the University of Alaska are set forth and maintained in Board of Regents Policy 03.01.01.

E. ORGANIZATIONAL RESPONSIBILITIES

Governance groups shall carry out their functions subject to their respective charters, constitutions, and bylaws.

Responsibilities of the local governance groups are reflected in their respective charters, constitutions and bylaws. Responsibilities of the system governance groups are listed below.

1. Faculty Alliance

It is the responsibility of the Faculty Alliance to represent the faculty in areas that may include but are not limited to: coordination on matters relating to academic affairs such as academic program review; the addition, deletion or merging of academic programs; curriculum; subject matter and methods of instruction; degree requirements; grading policy; course coordination and transfer; student probation and suspension; standards of admission and scholastic standards; and other matters affecting the faculty, and/or the general welfare of the university and its educational purposes and effectiveness.

2. Staff Alliance

It is the responsibility of the Staff Alliance to represent the Classified and APT (Administrative Professional and Technical) employees who are not represented by a collective bargaining agent in areas that may include but are not limited to: staff affairs, excluding those relating exclusively to faculty; personnel policies and regulations; compensation and benefits; and other issues affecting the work environment and/or the general welfare of the university staff.

3. Coalition of Student Leaders

It is the responsibility of the Coalition of Student Leaders to represent the students in areas that may include, but are not limited to: tuition and fees: financial aid and scholarships; residence life; minority and rural services; clubs and social activities; student media in all forms; health and safety; grievances; tools and resources; student employee relations, and other issues affecting the educational environment and availability of resources for student use.

4. System Governance Council

It is the responsibility of the System Governance Council to coordinate matters of mutual interest or concern to the Faculty Alliance, the Staff Alliance, the Coalition of Student Leaders, and the alumni associations.

F. MEMBERSHIP RESPONSIBILITIES

For faculty and staff, it is understood that while governance participants' primary responsibilities are performance of the duties for which they are employed, supervisors and employees will coordinate to ensure that departmental and governance needs are met.

Serving on university governance groups is considered to be within the regular work duties of university employees and is supported by the university.

Students serve on governance groups in accordance with Regents Policy and University Regulation 09.07.05.

Members who serve as officers or participate in special projects, research activities, events or committees directed by their governance organizations require sufficient time to meet those obligations in a reasonable fashion.

Guidelines for participation in governance that are not included in governance group charters, constitutions or bylaws shall be promulgated by the system governance executive officer and made available for use by all members of the university community.

G. MEMBERSHIP

Numbers of members and terms of office are prescribed in the constitutions, or equivalent documents of the respective system governance groups. MAU-specific governance groups determine the method of selection of their own members and their representatives to the system governance groups.

H. MEETINGS

Meeting schedules are determined by the governance groups. Meetings may be held on-site or by audio or videoconference or some combination of these methods. Meeting notices will be published and available through commonly used means.

I. QUORUM

Quorum is defined by each governance group in their constitutions, or equivalent documents.

J. PARLIAMENTARY AUTHORITY

The parliamentary authority for system governance groups shall be the latest version of Robert's Rules of Order on file and available from the system governance office.

K. CHARTERS, CONSTITUTION AND BYLAWS

1. System Governance Groups

Constitutions and amendments for system governance groups, once passed by the groups, shall be:

* transmitted to the President of the University for information,

* placed in system governance group handbooks, and

* retained in System Governance and Board of Regents offices.

2. MAU-Specific Governance Groups

a. Faculty and Staff Governance

MAU-specific faculty and staff governance group constitutions and bylaws and amendments, once passed by the groups, shall be transmitted to the cognizant chancellor, or in the case of the statewide administration assembly, to the Vice President for University Relations, for approval.

b. Student Governance

Student government group constitutions, once approved by the individual student government groups shall be transmitted to the President of the University for approval in accordance with University Regulation 09.07.05.

L. TRANSMITTAL OF RECOMMENDATIONSAND ACTIONS

1. Transmittal of System Governance Recommendations and Actions to the Administration or Board of Regents

Actions of the system governance groups affecting the university system or system community shall be transmitted in writing to the President of the University and the responsible executive within 40 days of the action taken. Transmittal shall NORMALLY include evidence of dialogue with the responsible executive and a faithful characterization of the views [[that]] OF THE RESPONSIBLE executive and of THE SYSTEM governance GROUP.

2. Transmittal of Items from Administration and the Board of Regents to System Governance

Items initiated by the President of the University, the President's designee, or the Board of Regents affecting matters within the scope of staff, faculty and/or student governance normally shall be submitted to the appropriate system governance group through the system governance office in a timely fashion to allow sufficient time for adequate review and response prior to implementation.

However, Regents' Policies and University Regulations requiring immediate implementation may be implemented prior to review by governance. Such policies and regulationswill also be forwarded to governance in an expedient manner and may be modified after governance review.

M. ACKNOWLEDGEMENT ANDREVIEW OF GOVERNANCE RECOMMENDATIONS

A. Recommendations Transmitted to the President

The President's office shall acknowledge governance recommendations within ten (10) business days following receipt using a means equivalent to that used for transmittal.

The President of the University shall notify the spokesperson of the sponsoring governance group and the system governance executive officer of the approval, disapproval, or modification of a governance action within forty-five (45) days of receiving the recommendation.

In cases where this arrangement cannot be satisfied, the responsible executive will notify the sponsoring governance group as to the review process and anticipated date the review is likely to be concluded. and administrative recommendations forwarded to the president.

B. Recommendations Transmitted to the Board of Regents

The Board of Regents' office shall acknowledge governance recommendations within ten (10) business days following receipt using a means equivalent to that used for transmittal.

The Executive Officer of the Board of Regents shall notify the spokesperson of the sponsoring governance group and the system governance executive officer of the approval, disapproval, or modification of a governance action within ninety (90) days of receiving the recommendation.

N. PRESIDENTIAL ACTION ON RECOMMENDATIONS

If the President determines that Board of Regents action is warranted as a result of a governance recommendation, including, but not limited to changes to Regents' Policy, the governance item is placed on the Regents' agenda for discussion or action as appropriate and the sponsoring governance leader(s) are invited to participate in the discussion of the issue.

Spokespersons for governance groups may also present their views directly to the Board of Regents in accordance with Board procedures.

The UAF Faculty Senate passed the following at its Meeting #124 on September 20, 2004:

MOTION:

======

The UAF Faculty Senate moves to amend Section 3, (Article V, Committees, Standing) of the Bylaws pertaining to membership and adding the Faculty Research Oversight Committee.

[[ ]] = Deletion

CAPS = Addition

Sect. 3 (ART V: Committees)

B. Membership on standing and permanent committees will be for two years except as noted below with the possibility of re-appointment. The initial appointment or re-appointment is made by the Administrative Committee or as specified in the definition of a Permanent Committee and confirmed by the full Senate. [[Senators are limited to serving on a maximum of one standing committee at any one time.]] To provide continuity, terms will be staggered and an initial appointment may be made for one or two years as determined by the Administrative Committee based on need.

STANDING

8. Faculty Research Oversight Committee

The Faculty Research Oversight Committee shall review all classified and proprietary proposals, grants, and contracts according to the guidelines of the UAF Policy concerning Classified and Proprietary Research and advise the chancellor of their compliance or lack thereof with university policy. The committee will publish an annual report on the status of classified and proprietary contracts, grants and proposals at UAF to the Faculty Senate. The Faculty Research Oversight Committee will offer changes to the UAF policy as needed through periodic reviews occurring no less than once every 5 years.

Membership on the committee shall be limited to 9 senators, with no more than 2 members being from the same unit. A Facilities Security Officer shall be an ex-officio member of the committee. The committee will also include someone from the Office of Sponsored Research and a designee of the chancellor as ex-officio members. Committee membership must broadly represent the university community.

EFFECTIVE: Immediately

RATIONALE: The new UAF Policy Concerning Classified and Proprietary Research calls for the Faculty Senate to establish a Faculty Research Oversight Committee to review all proposals and make recommendations to the chancellor for action. The policy includes guidelines for the review process.

The number of Faculty Senate committees has increased to a level that may require some of the senators to serve on more than one committee. Therefore, restrictions on committee membership on standing committees are removed.

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

****

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

RESOLUTION OF RECOGNITION
FOR
F. STUART CHAPIN III

WHEREAS, F. Stuart "Terry" Chapin, Professor in the Department of Biology and Wildlife and Institute of Arctic Biology is the first person in Alaska to be elected to the National Academy of Sciences, and

WHEREAS, Terry Chapin is the recipient of numerous awards, including Member of the Swedish Royal Academy of Agriculture and Forestry, Member of the American Academy of Arts and Sciences 2002, Outstanding faculty member, UAF (2002), and

WHEREAS, Terry Chapin initiated and served as the director of the Interdisciplinary Graduate Education and Training Program in Regional Resilience and Adaptation, and

WHEREAS, Terry Chapin is internationally known for his work on arctic plant ecology and global climate change and has published over 280 scientific papers in these research areas, and

WHEREAS, Terry Chapin has greatly increased the attention to interactions between humans and global climate change, including recognition of the value of knowledge held by Native Alaskans, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate congratulates Terry Chapin on his election to the National Academy of Sciences and recognizes him as an outstanding faculty member and international ambassador for UAF.

****

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

RESOLUTION OF RECOGNITION
FOR

WENDY EHNERT

WHEREAS, Wendy Ehnert, AP science teacher at Lathrop High School, in March received the National Presidential Award for Excellence in Mathematics and Science Teaching and was one of four of the 94 awardees invited to address Congress, and

WHEREAS, Wendy Ehnert was selected to be a Fulbright exchange teacher for the Czech Republic in 2001-02, and

WHEREAS, Wendy Ehnert has earned a Masters degree from UAF, and

WHEREAS, Wendy Ehnert has long maintained contacts and collaborations with UAF faculty to further her teaching skills and provide opportunities for students, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate congratulates Wendy Ehnert in receipt of her award and recognizes her as an outstanding graduate of UAF and contributor to education in Alaska.

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

OUTSTANDING SENATOR OF THE YEAR AWARD
FOR
C. PETER McROY

WHEREAS, C. Peter McRoy has served as the president of the University Assembly from 1981-1983; and

WHEREAS, C. Peter McRoy has served the UAF Faculty Senate in numerous capacities, often in leadership roles, since 2000; and

WHEREAS, C. Peter McRoy has made major contributions to bylaw changes that made the UAF Faculty Senate more representative of university faculty as a whole; and

WHEREAS, C. Peter McRoy has made major contributions in review of the draft Master Plan for the UAF campus to ensure a faculty voice; and

WHEREAS, C. Peter McRoy has proven skills as a negotiator between faculty and university administration that have contributed significantly to successful conclusion of Faculty Senate business;

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recognize C. Peter McRoy as Outstanding Senator of the Year for Academic Year 2003-2004.

****

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

OUTSTANDING SENATOR OF THE YEAR AWARD
FOR
JANE WEBER

WHEREAS, Jane Weber has served the UAF Faculty Senate in numerous capacities, often in leadership roles, since 1993; and

WHEREAS, Jane Weber has communicated effectively with the UAF College of Rural Alaska (CRA) faculty about relevant and important issuesthat come to the Faculty Senate, and, therefore, the CRA faculty have been connected to the on-going process of shared governance; and

WHEREAS, Jane Weber has done a wonderful job representing CRA in the Faculty Senate and, therefore, the CRA faculty have come to rely on Jane to represent the interests of the CRA students, mission, and faculty; and

WHEREAS, Jane Weber has made major contributions to UAF Developmental Studies culminating in the establishment of the CRA Department of Developmental Education, which Jane will chair next academic year; and

WHEREAS, Jane Weber always has had the education of students as her top priority;

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recognize Jane Weber as Outstanding Senator of the Year for Academic Year 2003-2004.

****

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

RESOLUTION OF APPRECIATION
FOR
MARSHALL LIND

WHEREAS, Marshall Lind is retiring on July 1, 2004, after serving 40 years in Alaska education; and,

WHEREAS, Marshall Lind was Commissioner of the Alaska Department of Education from 1971-1983, and again from 1986-1987, serving under four governors for a combined total of more than 13 years; and,

WHEREAS, Marshall Lind was involved with the creation of the Regional Educational Attendance Areas and the implementation of the Molly Hootch Consent decree; and,

WHEREAS, Marshall Lind has served in various positions for the UA system, from visiting professor of education to dean of the School of Extended and Graduate Studies; and,

WHEREAS, Marshall Lind served as chancellor of the University of Alaska Southeast from 1987-1999 prior to coming to UAF and served as chancellor of the University of Alaska Fairbanks from 1999-2004; and,

WHEREAS, Marshall Lind, in that time, has been a strong proponent of academic freedom and has consistently advanced the concept of shared governance with staff and faculty; and,

WHEREAS, Marshall Lind continually sought to strengthen the commitment to diversity and workplace ethics and has been instrumental in strengthening university ties to the larger community; and

WHEREAS, Marshall Lind was the recipient of the 2002 Denali Award from the Alaska Federation of Natives, the highest honor AFN gives to non-Natives, for his commitment to serving the educational needs of rural and Native Alaskans; and,

WHEREAS, the faculty of the University of Alaska Fairbanks, through its Faculty Senate, wish to acknowledge the outstanding contributions to higher education of Marshall Lind, the chancellor of UAF; now,

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges and proclaims to all that Marshall Lind has rendered outstanding service to the faculty, staff, students, alumni and administration of UAF and to the citizens of Alaska, and hereby express its deep appreciation.

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the "UAF Advanced Placement Credit" for Foreign Languages to incorporate Alaska Native Languages (p. 16 of the 2003-2004 catalog).

CAPS - Additions
[[ ]] - DeletionsUAF Advanced Placement Credit

Foreign Language/ ALASKA NATIVE LANGUAGE

After completing the course in which you were placed (above 101) and earning a B grade or higher, you may ask to receive [["bonus"]] credit for the two immediately preceding prerequisite courses, if any. However, credit cannot be awarded for such courses if university credit has already been granted for them (for example, through College Board Advanced Placement national tests or credit transfer from another college). [[Bonus]] Credit will not be awarded for special topics courses, individual study courses, literature or culture courses, CONVERSATION COURSES, OR ANY COURSE TAUGHT IN ENGLISH.

EFFECTIVE: Fall 2004

RATIONALE: Alaska Native Languages may be used to fulfill the Foreign/Alaska Native languages option in the B.A. , as part of the "Perspectives on the Human Condition" in the Baccalaureate Core, and they may also be used to fulfill the Humanities and Social Science requirement in the A.A.S. This brings the Advance Placement Credit in line with other degree requirements which include Alaska Native Languages as a language option.

****
The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======
The UAF Faculty Senate moves to amend the policy on Stacked and Cross-listed Courses (p. 181, 2003-2004 UAF Catalog and UAF Faculty Senate Academic Course and Degree Procedures Manual).

CAPS - Additions
[[ ]] - Deletions

Stacked and Cross-listed Courses

[[The same course is sometimes offered by more than one discipline. Such offerings are referred to as "cross-listed" courses]] SOME COURSES ARE OFFERED BY AN INTERDISCIPLINARY PROGRAM (SUCH AS "WOMEN'S STUDIES) WITH A SPECIFIC DISCIPLINARY CONTENT (E.G., HISTORY). SOME COURSES CONTAINING INTERDISCIPLINARY CONTENT ARE SPONSORED BY SEVERAL DEPARTMENTS (E.G. THEATER/ART/MUSIC 200X). BOTH TYPES OF COURSES ARE 'CROSS-LISTED' and are designated in the class listings by "cross-listed with _____".

Courses are [[also]] sometimes offered simultaneously at different levels (100/200 or 400/600, for example) with higher level credit requiring additional effort and possibly higher order prerequisites from the student. Such courses are referred to as "Stacked" courses and are designated in the class listings by "Stacked with ____". In the case of 400/600 level stacked courses, graduate standing or permission of the instructor is required for graduate enrollment and a higher level of effort and performance is required on the part of students earning graduate credit.

Courses simultaneously stacked and cross-listed [[will be]] ARE designated in the class listing as "stacked with ___ and cross-listed with ___."

FOR ALL STACKED COURSES, [[In all cases,]] the course syllabus (not the catalog) must stipulate the course content and requirements for each level [[and/or discipline]]. The catalog should indicate [[if there is a difference

in content.]] THE DIFFERENCE IN PREREQUISITES FOR EACH LEVEL.

EFFECTIVE: Fall 2004

RATIONALE: This wording clarifies the cross-listing/stacked course descriptions and removes the contradiction between paragraphs 1 ('the same course') and 4 ('difference in content').

****
The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve a change in the residency requirements for military personnel (and dependents) pursuing an AA/AAS approved* program as part of the ServiceMembers Opportunity College (SOC) from 15 credits to 6 credits.

(*NOTE: Current approved AAS degree programs are: Applied Accounting, Airframe & Powerplant and Culinary Arts)

EFFECTIVE: Upon approval by the Board of Regents

RATIONALE: UAF is listed as a ServiceMembers Opportunity College (SOC) institution. The ability to continue this relationship is dependent upon the participation displayed by agreements signed by the military personnel with UAF. There has not been an incentive to prepare this documentation with the existing policy--typically military personnel can meet the residency requirement during their service time and have not felt the need to formalize the process. However, the lack of such agreements has jeopardized the continuation for UAF in this network. By having an incentive, similar to UAA's, and more feasibly formalizing electronically the SOC agreement, UAF stands to maintain status and gain a greater working relationship with the military units in the Fairbanks community.

- UAF's membership as a SOC Network institution assures the continued presence of UAF on Ft. Wainwright (weekly visits by UAF Admissions Counselor and a representative from TVC).

- As a SOC Network institution, UAF would be "eligible" to offer degree programs on the Army installations in Alaska, to include Ft. Greely as it becomes an Army Guard installation manned by 350+ active duty Guard members and their families.

- The Army Education Center is eager to have UAF retain its status as a SOC Network institution as it views UAF as a critical partner in the educational opportunity arena for Ft. Wainwright soldiers and their families. Family members, spouses and age-appropriate dependents, are eligible for the SOC programs.

- The Department of the Army, Voluntary Education division, and SOC are waiting to hear from UAF, through the Education Center, about their decision to retain status as a SOC Network institution.

- UAA currently has a 3-credit residency requirement for this program

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to adopt regulations for course syllabi as follows:

"Syllabus Requirements for all UAF courses"

During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this document will contain the following information (as applicable to the discipline):

1. Course information: title, number, credits, prerequisites, location, meeting time.

2. Instructor (and if applicable, Teaching Assistant) information: name, office location, office hours, telephone, email.

3. Course readings/materials: course textbook, author, publisher. Supplementary readings (indicate whether required or recommended) and any supplies required.

4. Course description: content of the course and how it fits into the broader curriculum; expected proficiencies required to undertake the course, if applicable. May include, and must be consistent with, catalog course description.

5. Course Goals (more general) and Student Learning Outcomes (provide examples)

6. Instructional methods: describe the teaching techniques (eg: lecture, case study, small group discussion, private instruction, studio instruction, values clarification, games, journal writing, use of Blackboard, audio/video conferencing, etc.).

7. Course calendar: a schedule (daily or weekly major topics or assignments). You may call the outline Tentative or Work in progress to allow for modifications during the semester.

8. Course policies: specify course rules, including your policies on attendance, tardiness, class participation, make-up exams, and plagiarism/academic integrity.

9. Evaluation: specify how students will be evaluated, what factors will be included, their relative value, and how they will be tabulated into grades (on a curve, absolute scores, etc.)

10. Support Services: describe the student support services (local and/or regional) appropriate for the course.

11. Disabilities Services: The Office of Disability Services implements the Americans with Disabilities Act (ADA), and insures that UAF students have equal access to the campus and course materials. State that you will work with the Office of Disabilities Services (203 WHIT, 474-7043) to provide reasonable accommodation to students with disabilities."

EFFECTIVE: Fall 2004

RATIONALE: The quality and content of syllabi vary tremendously across UAF. This legislation will both provide a guide to what needs to be in a syllabus and require instructors to provide them.

****
The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the Graduate Full or Part-time Status/Study Load policy (p. 40, 2003-2004 Catalog) as follows:

CAPS - Additions
[[ ]] - Deletions

FULL OR PART-TIME STATUS/STUDY LOAD

As a graduate student if you're registered for nine or more semester credits, with three or more at the 600 level, you are classified as a full-time student (audited credits are not counted toward workload). You may enroll in up to [[18]] 14 credits per semester without special permission. To enroll in 15-19 credits [[or more, you need a 3.0 cumulative grade point average]], YOU MUST BE IN GOOD STANDING AND YOU MUST OBTAIN an overload approval from your advisor and department [[head]] CHAIR. ENROLLMENT IN 20 OR MORE GRADUATE CREDITS WILL BE ALLOWED ONLY IN EXTRAORDINARY CIRCUMSTANCES, AND REQUIRES GOOD STANDING AND OVERLOAD APPROVAL FROM YOUR ADVISOR, DEPARTMENT CHAIR, AND DEAN, AND THE DEAN OF THE GRADUATE SCHOOL.

EFFECTIVE: Fall 2004

RATIONALE: This proposes new wording on limits to number of credits/semester. This would replace the first paragraph under "FULL OR PART-TIME STATUS/STUDY LOAD" on p. 40 of the current catalog. The limit of 14 credits is calculated by using the ratio to full-time credit load for the undergraduate limit of 18: 18/12 = 3/2. Multiplying this ratio by the full-time graduate load gives 3/2 X 9 = 27/2 = 13.5, and rounding up gives 14.

****
The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the Graduate Degree Requirements for the Master of Arts with Project and the Master of Science with Project (p. 47 of the 2003-2004 Catalog) as follows:

[[ ]] = Deletions
CAPS = Additions

Master of Arts – with Project

a. Successfully complete at least 30 credits of course work
including at least [[six]] THREE credits of project work (698).

Master of Science – with Project

a. Successfully complete at least 30 credits of course work
including at least [[six]] THREE credits of project work (698).

EFFECTIVE: Fall 2004

RATIONALE: The purpose of the project is to provide students with a "capstone experience" that differs from a standard class in the level of independent work required. At least nine departments or programs (including Physics, Resource and Applied Economics, and the proposed program in Community Psychology) consider three credits sufficient to provide such an experience, especially for projects that are practical in nature. It is the type of work rather than the number of credits that distinguishes the project from a standard class. The current 6-credit requirement reduces the flexibility of the student in taking other recommended or required courses. This amendment will allow the programs that currently list 3-6 credits among their requirements to keep these requirements while not affecting programs wishing to maintain a 6-credit minimum.

****
The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the "Appeals Policy for Academic Decisions Other Than Assignment of Grades" to require that the faculty members who rendered the decision (faculty committee or department chair) review their decision during the informal review process.

EFFECTIVE: Immediately

RATIONALE: The intent of the Informal review process is for the Provost to request that the original committee or department chair review their academic decision (as is done in grade appeals) to make sure that the decision was not made in error. The intent was not that one faculty member (e.g. a department chair) could override the findings of another group of faculty (such as a comprehensive examination committee) without consultation. This amendment calls for the faculty members who rendered the original decision to revisit that decision to determine if it was made in error, or if the decision stands. The student may then proceed with the formal appeals process.

****

CAPS - Additions
[[ ]] - Deletions

APPEALS POLICY FOR ACADEMIC DECISIONS
Other Than Assignment of Grades

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that academic decisions [[(i.e., non-admission to or dismissal from any UAF program)]] are a faculty responsibility. Therefore, the University administration shall not unduly influence or affect the review of academic decisions that are a faculty responsibility.

The following procedures are designed to provide a means for students to seek review of academic decisions alleged to be arbitrary and capricious. THESE ACADEMIC DECISIONS MAY INVOLVE NON-ADMISSION TO OR DISMISSAL FROM ANY UAF PROGRAM THAT WERE MADE BY A DEPARTMENT OR PROGRAM THROUGH THE DEPARTMENT CHAIR, OR INVOLVE PASS/FAIL DECISIONS BY A COMMITTEE OF FACULTY ON NON-COURSE EXAMINATIONS (SUCH AS QUALIFYING, COMPREHENSIVE OR THESIS EXAMINATIONS) OR SATISFACTORY/UNSATISFACTORY EVALUATIONS ON STUDENT REVIEWS (SUCH AS THE ANNUAL REVIEW OF GRADUATE STUDENT PERFORMANCE). Before taking formal action, a student must attempt to resolve the issue informally. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. As used in the schedule for review of academic decisions, a class day is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review. Final examination periods are counted as class days.

B. "Department Chair" for the purposes of this policy denotes the administrative head of the academic unit offering the [[course]] PROGRAM (e.g., head, chair or coordinator of an academic department, or division coordinator or program chair if the faculty member is in the College of Rural Alaska).

C. "COMMITTEE OF FACULTY" FOR THE PURPOSES OF THIS POLICY DENOTES THE GROUP OF FACULTY WHO RENDERED THE INITIAL DECISION BEING APPEALED. SUCH GROUPS MAY INCLUDE, BUT ARE NOT LIMITED TO: GRADUATE EXAMINATION COMMITTEES, GRADUATE ADVISORY COMMITTEES, AND THESIS DEFENSE COMMITTEES.

[[C]] D. The "dean/director" is the administrative head of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

[[D]] E. The next regular semester is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester for a final grade issued for a course completed during the previous spring semester or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

III. Procedures

A. A student wishing to appeal an academic decision other than a grade assignment must first request an informal review of the decision.

1. Notification must be received by the Provost within 15 days from the first day of instruction of the semester in which the decision takes effect.

2. There may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. In such a case, upon request from the student, the Provost, after review of supporting documentation provided by the student, may adjust the deadlines accordingly. An extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

3. IN CASES WHERE THE DECISION WAS RENDERED BY A COMMITTEE OF FACULTY (SUCH AS THOSE DEALING WITH GRADUATE EXAMINATIONS AND EVALUATIONS), THE PROVOST WILL REQUEST THE APPROPRIATE COMMITTEE TO CONDUCT AN INFORMAL REVIEW OF ITS DECISION. THE COMMITTEE OF FACULTY WILL DETERMINE WHETHER ITS ORIGINAL DECISION SHOULD BE OVERTURNED OR CHANGED IN ANY WAY. THE COMMITTEE OF FACULTY WILL SUBMIT ITS

RECOMMENDATION TO THE PROVOST THROUGH THE DEPARTMENT CHAIR AND DEAN/DIRECTOR WITHIN 10 DAYS.

[[3]] 4. IN ALL OTHER MATTERS, The Provost will request the appropriate department chair to conduct an informal review of the decision. The Department chair will determine whether the original decision should be overturned or changed in any way. The department chair will submit his/her recommendation to the provost through the dean/director within 10 days. In the event that the department chair is directly involved, the provost can ask the dean/director to conduct an informal review and submit his/her recommendations directly to him.

[[4]] 5. The Provost will consult with the student on the COMMITTEE OF FACULTY'S OR department chair's recommendation. If the student does not find that recommendation acceptable, he/she may request the Provost to conduct a formal review.

B. The formal review will be conducted as follows.

1. This formal review is initiated by the student through a signed, written request to the Provost.

a. The student's request for formal review may be submitted using university forms specifically designed for this purpose and available from the Office of the Provost.

b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the formal review of the decision, and that the university's administration including the college dean/director can not influence or affect the outcome of the formal review.

c. The request for a formal review must be received no later than 10 days after the student has learned the outcome of the informal review (IIIA4).

d. The request must detail the basis for the allegation that the decision was made on a basis other than sound professional judgment based upon standard academic policies, procedures and practices.

2. The Provost will appoint a 5 member review committee composed of the following:

a. One non-voting tenure-track faculty member from the academic unit in which the decision was made. This individual shall serve in an advisory role. This faculty member shall not be the individual(s) against whom the appeal is directed.

b. Two tenure-track faculty members from within the college or school but outside of the unit in which the decision was made. If available, one of these two members will be selected from the members of the UAF Faculty Appeals and Oversight Committee.

c. One tenure-track faculty member from outside the college or school in which the decision was made. If available, this member is to be selected from the members of the UAF Faculty Appeals and Oversight Committee.

d. The fifth member to be appointed by the Provost will be a non-voting student representative.

e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

3. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 working days of receipt of the student's formal request.

a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

b. To be considered by the committee, all written materials shall be submitted to the hearing facilitator no later than 48 hours before the start of the scheduled appeals hearing. To give all interested parties a chance to submit written materials, at least three business days shall elapse between the time the meeting is announced and the start of the meeting. New written materials presented after the 48-hour deadline or presented during the meeting will only be considered by agreement of all voting committee members. These procedures related to written materials also apply to all subsequent meetings.

c. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

d. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) The student has not provided sufficient reason in support of the allegation that the academic decision was arbitrary and capricious.

2) This is not the first properly prepared request for appeal.

3) The request was not made within the policy deadlines.

e. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department chair, dean/director and provost within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

4. Acceptance for consideration of the student's request will result in the following:

a. A request for, and receipt of, a formal written response from the program department chair to the student's allegation.

b. A second meeting scheduled to meet within 10 days of the decision to review the request.

1) The student and the department chair or a representative of the program will be invited to attend the meeting.

2) The meeting will be closed to outside participation, and neither the student nor the instructor or department chair may be accompanied by anadvocate or representative. Other matters of format will be announced in advance.

3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor or department chair may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

5. The final decision of the committee will be made in private by a majority vote.

a. Actions which the committee can take if it accepts the student's allegation may include, but are not limited to, the following:

1) direct the program instructor or department chair to reconsider the decision,

2) provide a final alternative decision.

b. The academic decision review committee proceedings will result in the preparation of written findings and conclusions.

c. A formal, written report of the decision must be forwarded to the student, instructor, program/department chair, dean and Provost within five days of the meeting. The Provost shall then be responsible for communicating the decision to other relevant offices (e.g., Admissions, Registrar).

d. The decision of the committee is final.

C. The entire process must be completed by the end of the semester in which the decision first took effect.

****

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Anthropology.

EFFECTIVE: Immediately, Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Department of Anthropology. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines.

****

4/19/04

UNIVERSITY OF ALASKA FAIRBANKS

REGULATIONS FOR THE
APPOINTMENT AND EVALUATION OF FACULTY
AND
DEPARTMENT OF ANTHROPOLOGY UNIT CRITERIA
STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE DEPARTMENT OF ANTHROPOLOGY. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT OF ANTHROPOLOGY FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, AND DEPARTMENT OF ANTHROPOLOGY UNIT CRITERIA, STANDARDS AND INDICES, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.
Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

h. CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT OF ANTHROPOLOGY WILL EVALUATE THE CURATOR'S TEACHING RECORD.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. ALL PEER-REVIEWED PUBLICATIONS SHALL BE CONSIDERED SIGNIFICANT. THIS INCLUDES NOT ONLY THE WRITING OF JOURNAL ARTICLES AND BOOK CHAPTERS BUT THE EDITING OF BOOK AND JOURNAL VOLUMES.

o. MULTIPLE-AUTHORED, PEER-REVIEWED PUBLICATIONS SHALL BE EVALUATED IN TERMS OF THE AUTHOR'S CONTRIBUTION, TO BE DELINEATED IN THE NARRATIVE STATEMENT OF THE PROMOTION AND TENURE FILE.

p. RESEARCH CONTRIBUTIONS AS EDITOR OF VOLUMES OF THE APUA (ANTHROPOLOGY PAPERS OF THE UNIVERSITY OF ALASKA) SHALL BE CONSIDERED COMPARABLE TO RESEARCH CONTRIBUTIONS AS EDITOR OF OTHER PEER REVIEWED BOOKS AND JOURNAL VOLUMES.

q. CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT WILL EVALUATE THE CURATOR'S RECORD OF RESEARCH.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service
Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. APPLIED ANTHROPOLOGICAL WORK WITH COMMUNITIES AND ORGANIZATIONS.

2. University Service
University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Evaluation of Service
Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR TIME ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT WILL EVALUATE THE CURATOR'S RECORD OF SERVICE TAKING INTO CONSIDERATION THE RECOMMENDATION OF THE UNIVERSITY OF ALASKA MUSEUM COMMITTEE (SEE BELOW).

Curation

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY IN THE DEPARTMENT OF ANTHROPOLOGY, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH AND SERVICE.

1. CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:

a. MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);

b. INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;

c. FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;

d. MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);

e. SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

f. WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;

g. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE; AND

h. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS.

i. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS THAT PERTAIN TO THE COLLECTION.

2. SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:

ASSISTANT PROFESSOR AND CURATOR

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

a. CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA AND THE CIRCUMPOLAR NORTH AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.

b. COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.

c. CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.

d. CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.

e. CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGUES OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.

f. CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CAUTION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.

g. CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA. IN THIS REGARD, PREPARATION OF SMALL EXHIBIT IS APPROXIMATELY THE EQUIVALENTS OF PUBLICATION OF A PROFESSIONAL ARTICLE; PROJECT DIRECTION OF A LARGE COMPLEX EXHIBIT THAT INCLUDES PREPARATION OF A SERIOUS CATALOGUE IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A SCHOLARLY BOOK.

h. CURATORS WILL ACTIVELY PREPARE GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.

ASSOCIATE PROFESSOR AND CURATOR

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR

THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH MUST BE EVIDENT.

PROFESSOR AND CURATOR

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. THEY MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.

3. EVALUATION OF CURATION
A COMMITTEE COMPOSED OF THE TENURED CURATORS AT THE MUSEUM WILL PROVIDE AN EVALUATION TO THE UNIT PEER COMMITTEE. IN FORMULATING CRITERIA, STANDARDS AND INDICES FOR EVALUATION, PROMOTION, AND TENURE, THE MUSEUM SHOULD INCLUDE EXAMPLES OF CURATORIAL ACTIVITIES AND MEASURES FOR EVALUATION APPROPRIATE FOR THAT UNIT. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

****
The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Mathematics.

EFFECTIVE: Immediately, Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Department of Mathematics. With some changes, agreed upon by the school representative the unit criteria were found to be consistent with UAF guidelines.

Regulations for the
Appointment And Evaluation Of Faculty

AND
DEPARTMENT OF MATHEMATICAL SCIENCES

UNIT CRITERIA STANDARDS AND INDICESTHE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS' CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING DEPARTMENT OF MATHEMATICAL SCIENCES (DMS) FACULTY IN THE COLLEGE OF SCIENCES, ENGINEERING AND MATHEMATICS. ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF DMS FACULTY AS WELL.

CHAPTER I

PURVIEW

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.
This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

PERIODIC EVALUATION OF FACULTY

A. General Criteria
Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, AND DMS UNIT CRITERIA, STANDARDS AND INDICES evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. IN EACH AREA CANDIDATES WILL BE RANKED BY THE DMS PEER REVIEW COMMITTEE (PRC). THE PRC CONSISTS OF ALL TENURED MEMBERS OF THE DMS. MEMBERS OF THE PRC WHO ARE ON SABBATICAL OR OFF CAMPUS FOR EXTENDED PERIODS HAVE THE OPTION OF PARTICIPATING, BUT THIS IS NOT REQUIRED. CANDIDATES WILL BE RANKED IN EACH CATEGORY ACCORDING TO THE FOLLOWING SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT AND UNACCEPTABLE.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

1. TENURE. A CANDIDATE FOR TENURE WILL BE JUDGED ON THE BASIS OF PERFORMANCE AND INDICATIONS OF POTENTIAL IN ALL THREE CATEGORIES, WITH EMPHASIS PLACED ON THE INTERVAL SINCE THE LAST PROMOTION OR HIRE, WHICHEVER IS MOST RECENT. A CANDIDATE NEED NOT DEMONSTRATE EQUAL PERFORMANCE IN ALL THREE AREAS. IN ORDER TO QUALIFY FOR TENURE, A FACULTY MEMBER SHOULD NORMALLY HAVE SERVED FOR AT LEAST FIVE YEARS AT THE RANK OF ASSISTANT PROFESSOR. A CANDIDATE SHOULD NORMALLY ATTAIN AT LEAST A SATISFACTORY RATING IN TEACHING, RESEARCH AND SERVICE AND AT LEAST SUPERIOR IN TEACHING OR RESEARCH.

2. ASSISTANT PROFESSOR. A FACULTY MEMBER AT THE ASSISTANT PROFESSOR LEVEL MUST HAVE AN EARNED DOCTO RATE OR DEMONSTRATED EQUIVALENT. DEMONSTRATED EQUIVALENCE WILL BE DECIDED ON AN AD HOC BASIS BY THE PRC. A COMMITMENT TO TEACHING, RESEARCH AND SERVICE MUST BE APPARENT.

3. ASSOCIATE PROFESSOR. AN ASSOCIATE PROFESSOR SHOULD NORMALLY HAVE SERVED AT LEAST FIVE YEARS AT THE RANK OF ASSISTANT PROFESSOR OR HIGHER. A RECORD OF QUALITY INSTRUCTION AND RESEARCH IS IMPORTANT. THE DMS RECOGNIZES THAT AT THIS LEVEL SERVICE IS SECONDARY TO TEACHING AND RESEARCH. YOUNG FACULTY CAN PROFITABLY SPEND THEIR TIME ESTABLISHING A

RESEARCH RECORD AND PERFECTING TEACHING TECHNIQUE. IN ORDER TO QUALIFY FOR THE RANK OF ASSOCIATE PROFESSOR, A FACULTY MEMBER SHOULD, UNDER NORMAL CONDITIONS, HAVE MET THE REQUIREMENTS DESCRIBED FOR TENURE.

4. PROFESSOR. THIS IS THE GREATEST SINGLE HONOR THAT THE UNIVERSITY CAN BESTOW UPON A MEMBER OF ITS FACULTY. THE HONOR MUST THEREFOR BE MADE UPON CAREFUL CONSIDERATION OF THE CANDIDATE'S TOTAL DEMONSTRATED CONTRIBUTION TO THE UNIVERSITY AND THE MATHEMATICAL SCIENCES. THE HONOR IS RESERVED FOR THOSE WHO HAVE DEMONSTRATED OUTSTANDING PERFORMANCE IN THEIR FIELDS. SPECIFICALLY, A CANDIDATE MUST HAVE ATTAINED AN OVERALL AVERAGE RANKING OF SUPERIOR IN TEACHING, RESEARCH AND SERVICE, WITH NO AREA LOWER THAN SATISFACTORY. ADDITIONALLY, IF ONE OF RESEARCH OR TEACHING IS RANKED SATISFACTORY, THE OTHER MUST BE OUTSTANDING.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction
A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching
Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

h. DEMANDS HIGH PEDAGOGIC STANDARDS ESSENTIAL TO THE DEPARTMENT'S MISSION. THIS INCLUDES A DEMAND FOR EXCELLENCE AND AWARENESS OF STUDENTS' NEEDS.

i. DISSEMINATION OF IDEAS INSIDE AND OUTSIDE THE CLASSROOM. THIS INCLUDES, BUT IS NOT RESTRICTED TO, STATISTICAL AND COMPUTING CONSULTING FOR STUDENTS; ASSISTING STUDENTS IN THE DESIGN OF EXPERIMENTS; DIRECTING UNDERGRADUATE AND GRADUATE RESEARCH.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s). THIS IS REQUIRED FOR UNTENURED FACULTY. THEY WILL BE EVALUATED BY THE PRC (WHICH INCLUDES THE DEPARTMENT HEAD AS A NONVOTING MEMBER). THIS COMMITTEE WILL SEND REPRESENTATIVES TO EVALUATE CLASSROOM PERFORMANCE AS WELL AS SYLLABI AND SAMPLES OF GRADED MATERIAL. REPRESENTATIVES WILL WRITE A REPORT WHICH INCLUDES A NARRATIVE PORTION AS WELL AS AN OVERALL RANKING OF TEACHING WHICH USES THE SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT, UNACCEPTABLE. UNDER NORMAL CIRCUMSTANCES, WHEN A FACULTY MEMBER STANDS FOR TENURE, REPORTS FROM AT LEAST TWO YEARS SHOULD BE INCLUDED IN THE FILE. IN THE CASE OF DISAGREEMENT BETWEEN PEER OPINIONS AND STUDENT OPINIONS, THE FORMER WILL BE CONSIDERED TO BE MORE ACCURATE.

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. CANDIDATES AT ALL LEVELS MUST DEMONSTRATE ACHIEVEMENT CONDUCTING RESEARCH IN AN INDEPENDENT AND CREATIVE FASHION. WORK WILL BE JUDGED FOR IMPORTANCE, ORIGINALITY AND QUALITY. CONSIDERATION WILL INCLUDE, BUT NOT BE RESTRICTED TO, THE CANDIDATE'S PAPERS PUBLISHED IN REFEREED JOURNALS AND REFEREED CONFERENCE PROCEEDINGS, PAPERS, LECTURES AND PRESENTATIONS DELIVERED, OTHER PAPERS AND TECHNICAL REPORTS, BOOKS, RESEARCH PROPOSALS, SOFTWARE DEVELOPED AND RESEARCH DONE THR OUGH CONSULTING. THE WORK MUST BE PRESENTED IN A PUBLIC FORUM WHERE ITS CONTRIBUTION CAN BE JUDGED BY PEERS EXTERNAL TO UAF. THE RESEARCH CONTRIBUTIONS FOUND IN A BOOK WILL BE BASED ON THE EXPOSITION OF NEW IDEAS. BOOKS WHICH ONLY GATHER

MATERIAL FOUND IN OTHER LOCATIONS WILL BE CONSIDERED TO BE EXPOSITORY AND NOT RESEARCH DOCUMENTS.

THE DEPARTMENT EXPECTS FACULTY WITH A 30% RESEARCH LOAD TO BE PUBLISHING AT A RATE OF APPROXIMATELY ONE PAPER PER YEAR. AT A 50% LEVEL OR ABOVE THERE SHOULD BE APPROXIMATELY TWO. HOWEVER, IT SHOU LD BE EMPHASIZED THAT THIS IS ONLY AN APPROXIMATE GOAL. THE MORE IMPORTANT GOAL IS QUALITY RESEARCH. HIGH QUALITY RESEARCH CAN BE PRODUCED AND DISSEMINATED IN SPECIAL CIRCUMSTANCES AT A LOWER RATE. ACCORDINGLY, CANDIDATES SHOULD NOT TRY TO MEET A RESEARCH TARGET IN TERMS OF NUMBER OF PAPERS PUBLISHED. FURTHER, HEAVY PRODUCTION RATES OF LOW QUALITY PUBLICATIONS IS DISCOURAGED.

A CANDIDATE'S PUBLICATION AND FUNDING RECORD SHOULD BE COMPARED WITH INDIVIDUALS IN THE SAME OR RELATED DISCIPLINES. THE PRACTICE OF LISTING COAUTHORS WHO HAVE CONTRIBUTED LITTLE TO A PUBLICATION IS UNCOMMON IN THE MATHEMATICAL SCIENCES. NORMALLY, EACH COAUTHOR WILL HAVE MADE A SIGNIFICANT CONTRIBUTION. COAUTHORS ARE OFTEN LISTED ALPHABETICALLY.

CERTAIN DISCIPLINES FOUND IN MATHEMATICAL SCIENCES HAVE LITTLE OPPORTUNITY IN THE WAY OF EXTERNAL FUNDING. ACCORDINGLY, THE ABILITY TO FIND FUNDING SPEAKS WELL FOR A CANDIDATE AT ANY LEVEL. HOWEVER, ABSENCE OF FUNDING MAY NOT NECESSARILY SPEAK AGAINST THE CANDIDATE. DMS DOES NOT CONSIDER THE FUNDING OF GRANT PROPOSALS TO BE THE GOAL OF ANY RESEARCH PROJECT. RATHER, WE FOCUS ON WHAT IS ACHIEVED WITH OR WITHOUT RESEARCH FUNDING.

TO SUMMARIZE, THE PRIMARY RESEARCH METRIC IS NOT NUMBER OF PUBLICATIONS NOR GRANT MONEY. IT IS RESEARCH RESULTS AS MEASURED BY QUALITY, DEPTH AND ORIGINALITY.

1. Achievement in Research, Scholarly and Creative Activity
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by PEERS, juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

PROFESSIONAL SERVICE INCLUDES, BUT IS NOT LIMITED TO, CONSULTING ON AND OFF CAMPUS, REFEREEING, JOURNAL WORK, SERVICE TO NATIONAL PROFESSIONAL ORGANIZATIONS, ORGANIZING CONFERENCES, IN-SERVICE TRAINING PROGRAMS, GIVING COLLOQUIUM LECTURES, REVIEWING PROPOSALS AND BOOKS.

Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service
University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring OF FACULTY.

j. Prizes and awards for excellence in university service.

K. SERVICE AS OUTSIDE REVIEWER ON THESIS COMMITTEES.

L. PREPARATION OF UNIVERSITY REPORTS.

M. PRESENTATION OF EXPOSITORY MATERIAL INCLUDING SOME TEXTBOOKS.

3. Evaluation of Service
Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

****

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF "Regulation for the Appointment and Evaluation of Faculty" as follows:

CAPS - Addition
[[ ]] - Deletion

Pg. 6
2. Components of Research, Scholarly and Creative Activity
[[f. Editing or refereeing articles or proposals for professional journals or organizations.]]

Pg. 8.
Insert after category **2. University Service** but before **3. Evaluation of Service**

3. PROFESSIONAL SERVICE

A. EDITING OR REFEREEING ARTICLES OR PROPOSALS FOR PROFESSIONAL JOURNALS OR ORGANIZATIONS;

B. ACTIVE PARTICIPATION IN PROFESSIONAL ORGANIZATIONS;

C. ACTIVE PARTICIPATION IN DISCIPLINE-ORIENTED SERVICE ORGANIZATIONS;

D. COMMITTEE CHAIR OR OFFICER OF PROFESSIONAL ORGANIZATIONS;

E. ORGANIZER, SESSION ORGANIZER, OR MODERATOR FOR PROFESSIONAL MEETINGS;

F. SERVICE ON A NATIONAL OR INTERNATIONAL REVIEW PANEL OR COMMITTEE.

EFFECTIVE: Immediately

RATIONALE: The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

The UAF Faculty Senate Ad Hoc Committee on Unit Criteria has found aspects of the UAF document "Faculty Appointment and Evaluation Policies" unclear, inconsistent with current University practice, and of less than optimal utility.

There is currently inconsistency in how the Blue Book breaks down the category of Service and how it is treated in our annual reporting for the University. In the "Blue Book", Service consists of two parts: Public Service and University Service. In our annual reports, we must also indicate activities that constitute Professional Service. We believe it is appropriate to modify the "Blue Book" to reflect the way we are required to report our activities under the heading of Service so that all three types of service are included. Doing so will streamline the process of preparing a tenure or promotion file and allow faculty to more precisely categorize our activities in the evaluation process.

Under the current guidelines, activities such as reviewing grant proposals for funding agencies, serving as a referee for peer-reviewed journals, and serving as editor of a journal are categorized as research and creative activity. Discussions with faculty members at UAF and other institutions clearly indicate that these activities are more appropriately categorized under Professional Service. We propose to change such activities from being counted as Research and Creative Activities to examples of Professional Service. Activities such as authoring an edited book will continue to be counted as research and creative activities.

The UAF Faculty Senate passed the following at its Meeting #123 on May 3, 2004:

MOTION:
=======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 2004. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 3, 2004

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

The UAF Faculty Senate passed the following at its Meeting #122 on April 5, 2004:

Preamble:
Statement of Faculty Senate representatives of the Classified Policy Reconciliation Committee

The Faculty Senate is "The primary mechanism for the formulation and oversight of academic policy is the Faculty Senate. Among concerns addressed by the Faculty Senate are: course and program development and change; policies related to academic procedures; academic freedom and faculty rights and responsibilities; and, quality of teaching, research and service" (http://www.uaf.edu/uafgov/faculty). Underlying the following revision of the senate's proposal are these concerns.

1. The institutional officer charged with security oversight (the Facility Securities Officer or equivalent) must be funded fully so that she or he can conduct a complete and thorough review of proposals and assess all the impacts of the proposed activity. Full funding of this office is the most important guarantee for the safety of the community, the protection of the academic environment, and compliance with federal requirements for security.

2. The UAF Faculty Research Oversight Committee must not only be independent but also seen to be so. The review panel members will not require a security clearance as they will review an unclassified report of the proposal that is prepared by the Facility Securities Officer. The review committee will give a finding of advice to the chancellor. It is critical that the chancellor is not seen to be shaping the advice coming to her or him.

3. The senate must be able to meet its responsibilities so that the academic integrity of the university is maintained in teaching, research, and service. A faculty review panel elected from the senate will enable the senate to meet these responsibilities.

The purpose of academic research in the university is the education of students, at all levels, and the generation of new knowledge. It is important that the university undertake research of high quality and originality. Ongoing research strengthens the university in a variety of ways.

- through the stimulation of creative and intellectual investigation by faculty and students,
- through the discovery and dissemination of new knowledge that benefits society,
- through participation in a learning process that is unique to research and creative investigation,
- through transmission of new knowledge to students in the classroom.

UAF Policy Concerning Classified and Proprietary Research

RATIONALE: This policy is offered pursuant to Regents' policy 10.07.02, which says that the university may engage in classified or proprietarily research, subject to approval of the chancellor, "in accordance with Regents' Policy, University Regulation, applicable laws and regulations, and MAU rules and procedures."

Towards ensuring that classified and proprietary research will be conducted in a responsible and ethical manner consistent with mission of the University of Alaska Fairbanks, this policy will provide the chancellor with findings on research proposals reached after a review by a duly constituted committee of faculty.

The Faculty Senate seeks a policy, in principle, of complete disclosure of research activities and sources of funds. The conduct of classified research inherently restricts participation of students and faculty who work on such research.

At times, freedom of discourse and dissemination conflicts with the greater, immediate needs of society. Research funded by industrial organizations may involve patent applications that require a short delay of publication of a

thesis resulting from that research. Faculty members may also wish to act as consultants on classified research projects not involving the use of University facilities.

For reasons such as the above, proposals to conduct classified and proprietary research will be reviewed on a case-by-case basis by the university campus chancellor. With disclosure to the Faculty Senate, an Faculty Research Oversight Committee will advise the chancellor by means of a finding arrived at by a review following the guidelines set forth below.

Basic Principles

The UAF mission statement proclaims that the University of Alaska Fairbanks is "the nation's northern most Land, Sea and Space Grant university and international research center, [which] advances and disseminates knowledge through creative teaching, research and public service with an emphasis on Alaska, the North and their diverse peoples" (BOR policy 10.01.03). Through exercising the fulfillment of that mission, the university has made possible relationships with government and industry presenting intellectual and professional opportunities to faculty and students that they would not otherwise have. Concomitant with the open and full pursuit of that mission comes our understanding that the pursuit of knowledge must be tempered by ethical obligations to society; hence our concern with an ethical approach to permitting classified and proprietary research on campus.

Definitions

Classified Research: Research that has a security classification established by a federal agency. Various agencies of the federal government may designate some federally sponsored research project, either all or a portion of a particular project, as Top Secret, Secret, or Confidential. Under the terms of this policy, research projects so designated are considered classified.

Proprietary Research: Industrially sponsored proprietary research for which the sponsor requires a delay in publication of the results after submission of the final report.

Faculty Research Oversight Committee

The Faculty Senate shall establish a Faculty Research Oversight Committee as a standing committee of the senate to review all classified and proprietary proposals, grants, and contracts according to the guidelines listed below and to advise the chancellor of their compliance or lack thereof with university policy. Membership on the committee shall be limited to 9 senators, with no more than 2 members being from the same unit. A Facilities Security Officer shall be an ex-officio member of the committee. The committee will also include someone from the Office of Sponsored Research and a designee of the chancellor as ex-officio members. Committee membership must broadly represent the university community.

Guidelines for the Faculty Research Oversight Committee for Reviewing Classified or Proprietary Research Proposals

Proposal review requires that each principal investigator prepare a short non-classified or non-proprietary description and title for the project that can be publicly reviewed. The following will apply to such statements. The Facilities Security Officer must participate in the review process to clarify questions pertaining to classified material.

1. The university will undertake only those contracts and activities that do not compromise the safety and/or well being of Alaskans and that honor existing agreements with the diverse peoples of Alaska.

2. The university will under no circumstances enter into any agreement or contract for which the direct primary purpose of the research or application of the results is the destruction of human life or harm to humans.

3. The university will make every reasonable effort to keep classified information and activities separate from the normal academic functions of the university.

4. No thesis or project that may not be published because it contains federally classified or proprietary information will be accepted toward fulfillment of the requirements for an advanced degree.

5. For proprietary research the university will not enter into or renew any contract or accept any grant that prohibits the open publication or dissemination of research results within a reasonable period, typically (and expected to be) no more than 60 days or a period negotiated at the time of contract initiation.

6. No university courses given for degree credit shall be classified in any part.

7. The university will not accept any contract that cannot be publicly acknowledged. The university will maintain an open record of all classified and proprietary research contracts.

8. The university will permit the participation of faculty members in classified research of their choice by means of normal consulting arrangements or leaves of absence without pay. Faculty shall not use classified research work in consideration for tenure, promotion, or post-tenure review.

9. Any unique security costs associated with classified or proprietary research will be borne by the unit within which the contract is sponsored.

10. The university will establish and maintain Facilities Security Officers to the degree necessary to ensure the legal compliance of all classified agreements.

11. The Faculty Research Oversight Committee will offer changes to this policy as needed through periodic reviews occurring no less than once every 5 years.

Review Process for Classified and Proprietary Research Proposals

The following procedures shall apply to all proposals submitted to the Office of Sponsored Programs.

1. The Office of Sponsored Programs will use a checklist to determine if a project requires formal review by the Faculty Research Oversight Committee.

2. The Faculty Research Oversight Committee will review proposals identified as classified or proprietary according to the guidelines given above and offer recommendations to the chancellor in an expedited fashion.

3. The committee will publish an annual report on the status of classified and proprietary contracts, grants and proposals at UAF to the Faculty Senate.

Obligation

The university guarantees each member of the academic community the freedom to inquire and affirms the right of each member to access all available information in his or her field. A basic function of the university is to carry out research in an open and unrestricted manner with complete freedom to publish or otherwise disseminate the results of its search for knowledge. The requirements of secrecy and restrictions on freedom to publish, which are inherent in security classification, or the restrictions on dissemination, which derive from proprietary rights of privately sponsored research, are in direct opposition to this function.

Exercising this function does not, however, prohibit self-imposed restrictions based on the professional ethics of a particular discipline. It also does not prohibit the existence of classified information to reside on campus such as

sometimes arises, for instance, in connection with consulting work. This policy is directed towards maintaining a separation between classified information and the teaching and research functions of the university.

****

The UAF Faculty Senate passed the following at its Meeting #122 on April 5, 2004:

Resolution:
========

Whereas current University practice does not allow a person to register for a class if there is an outstanding parking ticket even if the ticket is being contested, and

Whereas such a practice constitutes an undeclared qualification for course registration that is not stated in the catalog, and

Whereas students are being denied access to the University because of this practice, now

Therefore be it resolved that the Faculty Senate requests that the Business Office, Registrar, and Parking Services end this practice and sever all connections between parking violations and student registration.

****

The UAF Faculty Senate passed the following at its Meeting #122 on April 5, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend Section 3 (Article V, Committees, E. Standing) of the bylaws to establish a standing "Unit Criteria Committee."

CAPS = Additions
[[ ]] = Deletions

3. THE UNIT CRITERIA COMMITTEE WILL REVIEW PROPOSED UNIT CRITERIA FOR EVALUATION OF FACULTY SUBMITTED BY THE VARIOUS PEER-REVIEW UNITS OF UAF, AND TO WORK WITH THE HEADS OF THOSE UNITS (OR THEIR DESIGNEES) TO ENSURE THAT THEIR CRITERIA ARE CONSISTENT WITH CRITERIA DEFINED IN THE UAF FACULTY APPOINTMENT & EVALUATION POLICIES & REGULATIONS "BLUE BOOK". THE COMMITTEE WILL ALSO REVIEW PROPOSED CHANGES TO THE "BLUE BOOK."

TO ENSURE THAT PERSPECTIVES FROM ACROSS UAF ARE REPRESENTED, MEMBERSHIP WILL CONSIST OF FACULTY SENATORS, WITH ONE MEMBER DRAWN FROM EACH OF THE FOLLOWING SCHOOLS/COLLEGES: CLA; CRA/CES; CSEM; SFOS; ENGINEERING; AND ONE FROM SNRAS, SOED, OR SOM.

EFFECTIVE: Immediately

RATIONALE: Currently the Senate has an Ad Hoc committee that fulfills this responsibility. That committee is composed of members drawn from the Senate's other standing committees, with the result that members of the Unit Criteria committee are effectively pulling double duty. It is apparent that the work done by this committee will be ongoing, as each unit develops criteria and is required to renew them via the Faculty Senate every five years.

****
The UAF Faculty Senate passed the following at its Meeting #122 on April 5, 2004:

MOTION:
======

The UAF Faculty Senate moves to approve the Unit Criteria for the Science and Engineering units of CSEM. These criteria shall remain in effect in the event that there is a dissolution of CSEM until such time as the units develop criteria of their own.

EFFECTIVE: Immediately, Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the College of Science, Engineering, and
Mathematics (CSEM). With some changes, agreed upon by the school representative, the unit criteria were found
to be consistent with UAF guidelines.

There is a proposal to move Engineering into a new College of Engineering and Mining. These criteria will continue to
be in effect until each of the separate units develop criteria of their own.

****

March 8 2004
UAF REGULATIONS FOR THE EVALUATION OF FACULTY:
ANNUAL REVIEW, PRE-AND POST-TENURE,
PROMOTION, TENURE REVIEW
AND
COLLEGE OF SCIENCE, ENGINEERING AND MATHEMATICS
UNIT CRITERIA

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR ANNUAL REVIEW, PRE- AND POST-TENURE, PROMOTION, AND TENURE REVIEW, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN CSEM. ITEMS IN BOLDFACE CAPITAL LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO CSEM FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS. The CSEM Mathematical, Statistics and Computer Science Disciplines Criteria are submitted as a separate document.

I. Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

II. Initial Appointment of Faculty

A. Criteria for Initial Appointment. Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles. Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline. Units wishing to appoint academic rank faculty within schools and colleges to titles must have the concurrence of the specific discipline in which the title resides.

C. Process for Appointment of Faculty with Academic Rank. Deans of schools and Colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's affirmative action policies and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank. Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's stated affirmative action policies, and shall provide for participation in hiring by faculty and administrators in the unit. These procedures shall be on file in the Chancellor's Office.

E. Following the selection process, the dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the Chancellor or his/her designee.

F. Letter of Appointment. The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, and any special conditions relating to the appointment. This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution, the part(s) defining the position may not. Subsequent letters of appointment may vary the workload distribution and nature of the assignment.

III. PERIODIC EVALUATION OF FACULTY

A. General Criteria and Definitions
Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV AND CSEM UNIT CRITERIA, STANDARDS, AND INDICES, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty members' professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service. As used in these procedures, unless otherwise specified, the following terms shall mean:

1. "Faculty." Those persons who have accepted and hold appointment to academic rank or special academic rank.

2. "Academic Ranks." Ranks held by persons having the title of professor, associate professor, and assistant professor. These titles denote academic rank exclusively. The title of instructor may also be a title of academic rank at the discretion of the policies and procedures approved for each university; or when included in the description of membership in the relevant Article of a collective bargaining agreement. Faculty holding academic rank are eligible for promotion and tenure.

3. "Special academic ranks." Ranks held by persons having the following title and the qualification specified:

Lecturer: employed to teach full- or part-time; or titles of academic rank preceded by:

Adjunct: employed to teach on or more courses up t o15 credit hours per year, or other academic assignment at less than 50 percent of a full-time appointment;

Visiting: employed to perform the faculty functions expected of academic rank for a specific period;

Clinical: special category reserved for practitioners in the health care delivery professions.

These titles denote special academic rank exclusively. The title of instructor may also be a title for special academic rank at the discretion of the policies and procedures approved for each university; or when included in the description of membership in the relevant Article of a collective bargaining agreement.

4. "Tenure." The status of holding a faculty appointment on a continuing basis following evaluation and award according to the terms of Chapter IV and BOR Policy 04.04.04.B.

5. "Tenure track position." A tenure track position is one which may lead to consideration for appointment to tenure as described in the policies and procedures for each university. A tenure track position requires the performance of faculty function at least 50% of full-time. For exceptional case, and when in the judgment of the Chancellor the best interests of the university will be served, a faculty member may be appointed to a tenure track position at less than 100% but more than 50% of a full-time appointment.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;
f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;
g. may receive prizes and awards for excellence in teaching;

Specific Engineering criteria for teaching performance before appointment or promotion to:

Assistant Professor: Evidence of teaching ability and a commitment to a quality teaching program in the department

Associate Professor: The record must show that the material taught is contemporary and relevant and that the presentations stimulate the learning process. Evidence of the expected quality of instructional performance may include (but is not limited to) course and/or curriculum development, novel approaches to instruction, versatility in instructional assignments, effective guiding and mentoring of individual students, and effective classroom teaching performance.

Professor: Significant contributions to the instructional program are expected. These may include contributions to major improvements in course and/or curriculum offerings, ability to motivate and/or inspire students, and exemplary training of graduate students. Both faculty and students must consider the teaching performance to be high quality.

Specific Sciences criteria for teaching performance:

Assistant Professor: Evidence of teaching ability and a commitment to a quality and current teaching program in the department.

Associate Professor: The record must show that the teaching material is contemporary and relevant and that the presentations stimulate the learning process. Evidence of the expected quality of instructional performance may include (but not is limited to) course and/or curriculum development, novel approaches to instruction, versatility in instructional assignments, effective guiding and mentoring of individual students, and high quality classroom teaching performance.

Professor: Significant contributions to the instructional program are expected. These may include contributions to major improvements in course and curriculum offerings, ability to motivate or inspire students, and exemplary training of graduate students including success in graduating students. Both faculty and students must consider the teaching performance to be of high quality.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observations,

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska, Fairbanks, and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity
Whatever the contribution, research, scholarly or creative activities must have one or more the following characteristics:

a. They must occur in a public forum,

b. They must be evaluated by appropriate peers,

c. They must be evaluated by peers external to this institution so as to allow an objective judgment,

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval;

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers;

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics;

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges;

f. Editing or refereeing articles or proposals for professional journals or organizations;

g. Scholarly reviews of publications, art works and performance of the candidate;

h. Citations of research in scholarly publications;

i. Published abstracts of research papers;

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts; these materials appearing in reputable works of the discipline;

k. Prizes and awards for excellence of scholarship;

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study;

m. Development of processes or instruments useful in solving problems, such as computer programs, SOPHISTICATED COMPUTER MODELS THAT HELP IN THE UNDERSTANDING OF COMPLEX SYSTEMS, and systems for the processing of data, genetic plant and animal material, and where appropriate, obtaining patents and/or copyrights for said development.

Specific criteria for Engineering research performance before promotion or appointment to:

Assistant Professor: Evidence of the ability to establish a viable research program in the area of specialization, normally a sub discipline of engineering (with the option of research in engineering education in certain circumstances).

Associate Professor: Must have established an appropriate research program which produces significant publication in refereed professional journals and presentation of research results at professional meetings. The submission of research proposals, and acquisition of external research funding, the completion of contract research reports, and publication in conference proceedings constitute supplementary evidence that the research program is of high quality. The faculty member may show independence and leadership by the creation of research ideas that translate into projects which involve students.

Professor: The research program should have produced several publications in the refereed professional literature, and there should be a record of student involvement. The publications should be of sufficient quality and quantity to demonstrate the existence of an on-going, professional independent research program. A national or international reputation (as demonstrated by professional activities or presentations at meetings but especially by citations of publications and/or documented opinions of other engineers and scientists in the field) is expected. There should be a record of successful completion of graduate work by his or her students.

Specific Criteria for Science research performance:

Assistant Professor: Evidence of the ability to establish a viable research program in the area of specialization, normally a sub-discipline of the natural sciences (with the option of research in science education).

Associate Professor: Must have established an appropriate research program that produces significant publications in refereed professional journals. Presentation of research results at professional meetings, the submission of research proposals, and the acquisition of external research funding constitute supplementary evidence that the research is of high quality. The faculty member should show independence and leadership by the creation of research ideas that translate into projects that involve both graduate and undergraduate students.

Professor: The research program should have produced a sufficient number of publications in the refereed professional literature, and there should be a record of student involvement including successful mentoring of Ph.D. students. The publications should be of sufficient quality and quantity to demonstrate the existence of an on-going, professional, independent research program. An international reputation (as demonstrated by professional activities or presentations at meetings and by citations of publications or documented opinions of other scientists in the field) is expected.

D. Criteria for Public and University Service and PROFESSIONAL SERVICE

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service".

1. Public Service

Public service is the application of teaching, research, and other scholarly activity and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be a systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, or professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

Examples include, but are not limited to:

a. Providing information services to adults and youth;

b. Service on or to government or public committees;

c. Service on accrediting bodies;

d. Active participation in professional organizations;

e. Active participation in discipline-oriented service organizations;

f. UNPAID CONSULTING.

g. Prizes and awards for excellence in public service;

h. Leadership of or presentations at workshops, conferences, or public meetings;

i. Training and facilitating

j. Radio and TV programs AND INTERVIEWS, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media;

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions;

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activities include, but are not limited to;

a. Service on university, college, school, institute, or departmental committees or governing bodies;

b. Consultative work in support of university functions, such as expert assistance for specific projects;

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school;

d. Participation in accrediting reviews;

e. Service on collective bargaining unit committees or elected office;

f. Service in support of student organizations and activities;

g. Academic support services such as library and museum programs;

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer;

i. Mentoring new faculty;

j. Prizes and awards for excellence in university service.

3. PROFESSIONAL SERVICE

A. EDITING OR REFEREEING ARTICLES OR PROPOSALS FOR PROFESSIONAL JOURNALS OR ORGANIZATIONS; (IF NOT COUNTED AS RESEARCH; SEE C.2.F.)

B. ACTIVE PARTICIPATION IN PROFESSIONAL ORGANIZATIONS;

C. ACTIVE PARTICIPATION IN DISCIPLINE-ORIENTED SERVICE ORGANIZATIONS;

D. COMMITTEE CHAIR OR OFFICER OF PROFESSIONAL ORGANIZATIONS;

E. SESSION ORGANIZER OR MODERATOR FOR PROFESSIONAL MEETINGS.

4. Evaluation of Service

Each faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public, university, and PROFESSIONAL service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

Specific Engineering criteria for service performance before appointment or promotion to:

Assistant Professor: None in addition to UAF criteria

Associate Professor: Positive contributions to departmental and/or university matters, effective professional contributions to the public, and/or effective services to the profession are expected.

Professor: Evidence of leadership in the service area is mandatory. Significant contributions to the development of departmental and/or university programs including committee leadership or UAF Faculty Senate service and associated committees are expected. Effective application of service is professional expertise provided to professional or public organizations as in engineering society leadership including reviewing proposals, refereeing manuscripts, and editing for professional organizations or publications.

Examples of service activities appropriate for faculty in engineering include (but are not limited to):

- K-12 and/or informal engineering education;
- Presentation of engineering to the public.
- Measures of effectiveness of performance include (but are not limited to):
- Accomplishments of the effort for organization to which service was provided;
- Opinions of clients served and/or colleagues involved in delivery of service.

Specific Sciences criteria for science service performance:

Assistant Professor: None in addition to UAF criteria.

Associate Professor: Positive contribution to departmental and/or university matters, effective professional contributions to the public, and/or effective service to the profession are expected.

Professor: Evidence of leadership in the service area is mandatory. Significant contributions to the development of departmental and/or university programs are expected, including service to the general public and Alaska teachers.

Measures of effectiveness of performance include (but are not limited to):

- Accomplishments of the effort of organization to which service was provided.
- Official recognition of quality of service (e.g., awards, letters of recommendation).
- Opinions of clients served and/or colleagues involved in delivery of service.

E. Curation

Curators at the University of Alaska Museum (UAM) can hold a tenure-track faculty position. Rank and tenure are held within departments at UAF, and Curators are thus treated as joint appointments between a department and UAM. As is the case for all tenure-track faculty at CSEM, Curator's performances are evaluated on the basis of their activities in teaching, research and service.

1. Curation involves the management and development of a formally recognized University collection that exists to serve as a research resource for students and researchers at university, state, national, and international levels. Examples of curatorial activities include, but are not limited to:

a. maintaining, enhancing, and enlarging the collection (includes computerization and database development, archival upgrades, specimen conservation and identification, and adding specimens or objects to existing collection);

b. interacting with state and federal agencies and with the public on collections-related issues;

c. facilitating collections use through loans, exchanges, and visiting researchers;

d. maintaining appropriate permits (as needed for the collections);

e. supervising collections managers, student employees, and volunteers;

f. working with public program staff to create exhibits and educational activities appropriate to the collection;

g. pursuing funding for collections growth and maintenance;

h. producing curatorial or collections-related publications, reports, and/or manuals;

i. ensuring university compliance with state and federal laws that pertain to the collection.

2. Specific criteria for curatorial performance:

Assistant Professor and Curator
Evidence of curatorial ability and a commitment to developing and managing research collections relevant to the area of specialization includes the following:

a. Curators will develop the collections as a permanent record of the natural and/or cultural diversity of Alaska and the Circumpolar North and as a research resource for studies of biological and/or cultural diversity.

b. Collections care includes responsibility for the physical condition and storage of objects/specimens, corresponding documentation, budgetary management, and annual reports.

1. Curators will preserve the specimens, artifacts, objects, and material under their purview through the use of methods and techniques professionally accepted within their respective disciplines.

2. Curators will ensure that all records and field notes concerning collection materials are maintained in a secure fashion and meet or exceed documentation standards for their respective discipline.

3. Curators will maintain current accession files, deaccession files, and catalogues of objects in their collections. They will develop electronic databases with computer data formats that follow data standards of the respective discipline and UAM.

4. Curators will develop, maintain, and revise written policies and procedures for caution of objects or specimens in their collections.

c. Curators will take part in interpretive activities of the Museum in order to fulfill the Museum's mission to interpret the natural and cultural history of Alaska. In this regard, preparation of small exhibit is approximately the equivalents of publication of a professional article; project direction of a large complex exhibit that includes preparation of a serious catalogue is approximately the equivalent of publication of a scholarly book.

d. Curators will actively prepare grant applications for external support for their curatorial activities and collection-based research.

Associate Professor and Curator
Consistent contributions to interpretive (education and exhibition) activities of the Museum, response to collection-related inquiries (from other professionals, the public and state agencies) and/or development of interpretive materials for the public-at-large are expected. Use of the collections for teaching and/or research must be evident. Active solicitation for external funds to support curatorial activities and collection-based research must be evident.

Professor and Curator
Significant development of the collections under the Curator's care is expected. This development includes sustained growth of the collections as research resources and as a means of fulfilling the Museum's mission of acquiring, preserving in perpetuity, investigating, and interpreting objects and specimens relating to the natural and or cultural history of Alaska and the Circumpolar North. Significance of collections will be measured in terms of research significance, value to University of Alaska research and instructional programs, and value to national and international research programs. The Curator should be a recognized authority in his/her field, locally and nationally. They must have a record of success in acquiring external funds for their curatorial activities and collection-based research.

3. Evaluation of Curation
A committee composed of the tenured curators at the museum will provide an evaluation to the unit peer committee. In formulating criteria, standards and indices for evaluation, promotion, and tenure, the Museum should include examples of curatorial activities and measures for evaluation appropriate for that unit. Excellence in curation may be demonstrated through, e.g., appropriate letter of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

****

The UAF Faculty Senate passed the following at its Meeting #122 on April 5, 2004:

RESOLUTION OF RECOGNITION

WHEREAS, The UAF rifle team won its sixth consecutive NCAA Rifle Championship title in March,

WHEREAS, freshman Matt Rawlings was named a Co-Shooter of the NCAA Championship, and

WHEREAS, Matt Rawlings captured the individual smallbore championship and finished second in air rifle; Joe Hein was second in smallbore and fifth in individual air rifle; Jamie Beyerle took third in both smallbore and air rifle; and Karl Olsson posted a sixth place finish in smallbore, and

WHEREAS, four members of the Nanook rifle team earned National Rifle Association All-American status--Matt Rawlings and Joe Hein were named first-team All-American by the National Rifle Association in both smallbore and air rifle; Karl Olson was named first-team All-American in the smallbore division and second-team honoree in air rifle; and Matthew Wallace was named first-team All-American in smallbore, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate congratulates the 2003-2004 UAF rifle team as NCAA champion and commends the team's superior performance.

The UAF Faculty Senate passed the following at its Meeting #121 on March 1, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve a BA in Child Development & Family Studies.

EFFECTIVE: Fall 2004 and/or Upon Board of Regents' Approval.

RATIONALE: See new course requests #64-71 and full program proposal #72 from the Fall 2003 review cycle on file in the Governance Office, 312 Signers' Hall. ECE major requirement of 33 credits and three specialized concentrations of 15 credits in Administration, Curriculum and Teaching, and Family Support for a total of 126 credits; requires seven new courses.

****

Brief Statement of the Proposed Program
Bachelor of Arts in Child Development & Family Studies

Mission: The mission of the CDFS program is to provide necessary preparation for early childhood educators who wish to advance their professional knowledge and career opportunities with specialized study in curriculum, administration or family support.

Delivery Method: The program will be offered through flexible course delivery methods to early childhood educators, living in both rural and urban Alaska outside of Anchorage bowl.

Intent: The intent of this degree is to qualify persons interested in upper level, higher paying employment in the early childhood career field.

Background: In the Headstart Reauthorization Act, 50% of Headstart Teachers are required to have a Bachelors degree by 2008, with the intent that eventually all Headstart teachers will be so qualified. In addition, qualifications beyond an Associate degree are required or recommended for all preschool teachers and many other positions in the field including: family advocates, home visitors, curriculum coordinators and administrators. Employers for all of these positions regularly seek applicants with baccalaureate degrees. Recently employers have been hiring candidates from out of state in order to find qualified applicants.

Furthermore, many of the current graduates of the ECE AAS degree want greater knowledge in this field, even if it is not required for their jobs. Since there is no relevant degree available here, they go out of state, seek a less satisfying degree through the complex interdisciplinary process, change careers completely, or leave the university with unfulfilled career aspirations, unprepared for the more challenging positions in the early childhood profession.

According to multiple sources there are approximately 5000 early childhood jobs in Alaska. The new BA in ECE at the UA campus is trying to prepare people for approximately 50% of those jobs, plus K-3 teachers in the Anchorage bowl. The UAF program is intended to serve the rest of the state, focusing on Child Development and Family Studies, rather than Education. Most early childhood professionals are mature women, with growing families and strong family values. Many work in small villages and cannot leave their families and communities to move to the city and obtain the UAA degree. The BA CDFS, with distance delivery, is designed for them.

The UAF Faculty Senate passed the following at its Meeting #121 on March 1, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend Section 3, (Article V, Committees, Permanent) of the Bylaws to establish a permanent "Committee on the Status of Women."

CAPS - Addition
[[ ]] - Deletion

PERMANENT

7. THE COMMITTEE ON THE STATUS OF WOMEN. MEMBERSHIP WILL CONSIST OF EIGHT PEOPLE, ONE OF WHOM WILL BE A SENATOR, THE OTHERS TO BE ELECTED AT LARGE FROM AMONG UAF FACULTY.

THE PURPOSE OF THIS COMMITTEE IS TO MONITOR THE STATUS OF WOMEN FACULTY AT UAF AND TO WORK PROACTIVELY FOR GENDER EQUITY.

SUCH ACTIONS WILL INCLUDE, BUT ARE NOT LIMITED TO:

MAINTAINING LISTS OF WOMEN FACULTY WITH HIRE, TENURE AND PROMOTION DATES.

ORGANIZING AND SUPERVISING SURVEYS ON THE STATUS OF WOMEN AND ASSESSING THE CULTURAL CLIMATE OF THE UNIVERSITY AS IT PERTAINS TO WOMEN.

RECOMMENDING POLICY TO ADDRESS THE NEEDS OF WOMEN FACULTY.

SUPPORTING MENTORING OF WOMEN, BOTH NEW AND MID-CAREER FACULTY, INCLUDING RUNNING WORKSHOPS ON MENTORING, PROMOTION & TENURE, NEGOTIATING TECHNIQUES AND OTHER FORMS OF FACULTY DEVELOPMENT IDENTIFIED AS NECESSARY.

ADDRESSING FAMILY-WORK ISSUES, SUCH AS CHILD CARE, PARENTAL LEAVE, SPOUSAL/PARTNER HIRE.
COORDINATING WITH OTHER CAMPUS AND UNIVERSITY GROUPS WHICH DEAL WITH WOMEN'S AND GENDER ISSUES.

AND ANY OTHER ISSUES WHICH WOULD HELP WOMEN TO ACHIEVE EQUITY AT UAF.

EFFECTIVE: Immediately

RATIONALE: Women faculty at UAF have not achieved a level of equity congruent with their numbers either at the University or in the academic profession. This is apparent through several miscellaneous data, any one of which might be explained away, but which together make up a picture of inequity. For example:

- The Faculty Opinion Survey prepared for Statewide Human Resources, July 2003, found that only 55% of faculty (male and female) agreed or strongly agreed with the statement, "Women faculty are treated fairly here." This compares with a nationwide response rate of 85% agreement. When men's and women's responses are separated, women's disagreement rate goes up (http://www.alaska.edu/hr/hractivities/surveys/FacultyReport2003.pdf), p. 37.
- Since the formation of the UAF Faculty Senate in 1988, there has been only one woman president.
- In the 12 years of Usibelli Awards, only five awards have gone to women—3 women received awards for service and one each for teaching and research. Out of a total of 36 awards, women have received only 14% (http://www.uaf.edu/univrel/awards/faculty/index.html).
- According to the United Academics website (www.unitedacademics.net), there were 11 recipients of retention raises in the past year and a half. None went to women.
- Of the 26 members of the UAF Chancellor Search Committee, only 9 (36%) are women. Of the 8 UAF faculty members, only 2 (25%) are women. CLA, which has the largest number of women faculty, is

represented on the committee by two men (http://www.uaf.edu/chancellor/search/committee.html).

- There are 158 full professors at UAF; of these, 20 (13%) are women. Of these, only 10 are in the liberal arts, the disciplines which have the highest concentration of women faculty.
  Put another way, out of 200 women faculty at UAF, only 20 (10%) are full professors. Out of 407 men faculty, 138 (34%) are full professors.
  Or, out of a total of 607 faculty members, 33% are women, mostly concentrated at the lower levels of the academic hierarchy (http://www.uaf.edu/pair/2003/D4spr03.html).
- 58% of the students at UAF are women (http://www.uaf.edu/pair/2003/C3bsp03.html). It is not unreasonable to expect that women would make up a greater percentage of the total faculty at UAF and be more equitably represented in various faculty venues.
  These inequities may be due to any number of individual reasons, to conscious or unconscious discrimination, or the unwillingness or inexperience of women to take advantage of opportunities. In any case, we need to find out why and then take action to address the problem. A Committee on the Status of Women would be the focal point for remediative action.

The UAF Faculty Senate passed the following at its Meeting #120 on February 2, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve a Certificate in Yup'ik Language Proficiency.

EFFECTIVE: Fall 2004 and/or Upon Board of Regents' Approval.

RATIONALE: See full program proposal #128 from the Fall 2003 review cycle on file in the Governance Office, 312 Signers' Hall.

Requires 30 credits of ESK courses; offered at Kuskokwim Campus

****

Brief Statement of the Proposed Program
Certificate, Yup'ik Language Proficiency

A one-year Certificate program in Yup'ik Language Proficiency will be made available to students who complete 30 credits in Yup'ik Language through the Kuskokwim Campus of the College of Rural Alaska (KUC). The program is designed for students who may not wish to pursue an A.A.S. or B.A. degree but would like recognition that they have completed a structured curriculum designed to develop basic proficiency in Yup'ik. Many students are already enrolled in Yup'ik language classes through the Kuskokwim Campus, but due to the lack of a structured degree program are forced to take these classes as general electives and are structurally discouraged from pursuing the continuous, structured language study necessary to become proficient in the language.

Courses will be offered through the Kuskokwim Campus only and will include traditional on campus classes as well as summer intensive and distance delivery options. Most on campus students will be traditional students directly out of high school pursuing entry level courses and course work toward an A.A.S. Upon completion of their degree programs many of these students will be encouraged to pursue B.A. programs through a variety of colleges and universities throughout Alaska and the lower-48. As the only institution in the world offering opportunities to pursue more advanced study in Yup'ik, it is hoped that many of these students will choose to pursue B.A. programs in Fairbanks.

Many distance delivery students will be currently employed as teacher's aides within local school districts within the Kuskokwim Campus service area. Most of these students will be non-traditional students in the sense that they are older and often with family and job responsibilities.
These students will be unable to attend courses full-time on campus. Courses targeted explicitly at these students will be offered in summer and via distance delivery and will necessarily involve local language experts from within the student's own village. This academically sound program will increase both the quality and quantity of Yup'ik language programming available through the schools and villages from which the students are drawn by providing them with a basic working knowledge of Yup'ik that they can immediately put to use within their own classrooms.

Closely linked to the Certificate is another program proposed degree program, a two-year integrated course of studies leading to an Associate of Applied Science degree in Yup'ik Language Proficiency, available to students who complete the Certificate-level courses and an additional 30 credits in related subjects including core undergraduate courses for all students pursuing the A.A.S. degree.

****

The UAF Faculty Senate passed the following at its Meeting #120 on February 2, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve an A.A.S. in Yup'ik Language Proficiency.

EFFECTIVE: Fall 2004 and/orUpon Board of Regents' Approval.

RATIONALE: See full program proposal #129 from the Fall 2003 review cycle on file in the Governance Office, 312 Signers' Hall.

Requires the 30 credits of ESK coursework from the certificate and the 15 credits of required related instruction for the AAS for a total of 60 credits; offered at Kuskokwim Campus

****

Brief Statement of the Proposed Program
A.A.S., Yup'ik Language Proficiency

A two-year Associate of Applied Science (A.A.S.) program in Yup'ik Language Proficiency designed for students who have completed, or intend to complete, the 30-credit Certificate program and would like to proceed on to a higher level. Students will complete 30 credits in Yup'ik Language through the Kuskokwim Campus of the College of Rural Alaska (KUC), followed by an additional 30 credits of University requirements for the A.A.S.

Many students are already enrolled in Yup'ik language classes through the Kuskokwim Campus, but due to the lack of a structured degree program are forced to take these classes as general electives and are structurally discouraged from pursuing the continuous, structured language study necessary to become proficient in the language.

Core courses will be offered through the Kuskokwim Campus only and will include traditional on campus classes as well as summer intensive and distance delivery options. Most on campus students will be traditional students directly out of high school pursuing entry level courses and course work toward an A.A.S. Upon completion of their degree programs many of these students will be encouraged to pursue B.A. programs through a variety of colleges and universities throughout Alaska and the lower-48. As the only institution in the world offering opportunities to pursue more advanced study in Yup'ik, it is hoped that many of these students will choose to pursue B.A. programs in Fairbanks.

Many distance delivery students will be currently employed as teacher's aides within local school districts within the Kuskokwim Campus service area. Most of these students will be non-traditional students in the sense that they are older and often with family and job responsibilities. These students will be unable to attend courses full-time on campus. Courses targeted explicitly at these students will be offered in summer and via distance delivery and will necessarily involve local language experts from within the student's own village. This academically sound program will increase both the quality and quantity of Yup'ik language programming available through the schools and villages from which the students are drawn by providing them with a basic working knowledge of Yup'ik that they can immediately put to use within their own classrooms.

The proposed A.A.S. will allow students to progress beyond the 30-credit Certificate and earn a two-year degree in Yup'ik Language Proficiency, attesting to a higher degree of academic preparation. The A.A.S. is again designed for both traditional and non-traditional students. For traditional students the A.A.S. will provide a structured stepping stone to advanced study of Yup'ik at UAF as well as a variety of B.A. degree options, including (but not limited to) Alaska Native and Rural Development, Linguistics, Alaska Native Studies. For non-traditional students the A.A.S. will provide courses to enhance local school and community programming for Yup'ik language and culture.

****
The UAF Faculty Senate passed the following at its Meeting #120 on February 2, 2004:

MOTION:
=======

The UAF Faculty Senate moves to approve the Unit Criteria for the School of Education (SOEd).

EFFECTIVE: Immediately Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the School of Education (SOEd). With some changes, agreed upon by the school representative, Delena Norris-Tull, the unit criteria were found to be consistent with UAF guidelines.

****

Approved by the Unit 12/3/03

UNIVERSITY OF ALASKA FAIRBANKS
REGULATIONS FOR THE EVALUATION OF FACULTY
AND
SCHOOL OF EDUCATION UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE SCHOOL OF EDUCATION. ITEMS IN CAPITAL LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE SCHOOL'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

PERIODIC EVALUATION OF FACULTY

A. General Criteria
As outlined in UAF Faculty Policies, Chapter IV. evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty.
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.
Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction
A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom,

correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

IN ADDITION TO THE UNIVERSITY COMMUNITY, SCHOOL OF EDUCATION FACULTY SERVE ALASKA'S SCHOOL DISTRICTS. MUCH OF OUR TEACHING, RESEARCH, AND SERVICE ARE CONDUCTED IN AND FOR SCHOOLS. WE THEREFORE SERVE THREE CONSTITUENCIES – UNDERGRADUATE AND GRADUATE STUDENTS; OUR PROFESSIONAL RESEARCH COMMUNITY; AND K-12 SCHOOLS, INCLUDING DISTRICTS, TEACHERS, K-12 STUDENTS, AND THEIR FAMILIES AND COMMUNITIES.

SCHOOL OF EDUCATION PROGRAMS AND COURSES ARE RESPONSIVE TO STATE LICENSURE REQUIREMENTS, NATIONAL ACCREDITATION REQUIREMENTS, AND STATE BOARD OF EDUCATION AND UA BOARD OF REGENTS' MANDATES FOR THE PREPARATION OF K-12 TEACHERS, COUNSELORS, AND ADMINISTRATORS. THESE REQUIREMENTS CHANGE PERIODICALLY, WHICH REQUIRES REGULAR REVISION TO OUR CURRICULA. THUS CURRICULAR REVISION IS A REGULAR ASPECT OF THE INSTRUCTIONAL ROLE OF FACULTY.

FOR SOME FACULTY, ADVISING AND RECRUITING STUDENTS IS A REGULAR INSTRUCTIONAL ACTIVITY. FACULTY RESPONSIBLE FOR ADVISING REMOTELY-LOCATED STUDENTS TYPICALLY PROVIDE NUMEROUS SUPPLEMENTAL SERVICES TO STUDENTS, WHICH MAY INCLUDE PROVIDING INFORMATION ON FINANCIAL AID, PLACEMENT TESTS, REGISTRATION, TUTORING, AND UNIVERSITY ADMISSIONS. THESE ACTIVITIES MAKE ADVISING OF REMOTELY-LOCATED STUDENTS A TIME-CONSUMING ACTIVITY, WHICH SHOULD BE TAKEN INTO CONSIDERATION IN THE TENURE AND PROMOTION PROCESS.

1. Effectiveness in Teaching
Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics which define effective teachers. Effective teachers:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students.

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject.

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity.

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level.

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design.

g. DEVELOP EFFECTIVE CURRICULAR MATERIALS AND MODES OF INSTRUCTION.

h. may receive prizes and awards for excellence in teaching.

i. MAY ENGAGE IN DIVERSE INSTRUCTIONAL ACTIVITIES SUCH AS TEACHING AT RURAL OR BRANCH CAMPUSES, TEACHING DISTANCE DELIVERED COURSES, TEACHING IN SUMMER

SCHOOL, AND DEVELOPMENT OF CURRICULUM MATERIALS FOR COURSES, SUCH AS THOSE UNIQUELY SUITED TO ALASKAN SCHOOLS.

j. MAY PROVIDE SUPERVISION OF STUDENTS DURING FORMAL CLINICAL PRACTICE, STUDENT TEACHING, OR INTERNSHIPS.

k. MAY INVOLVE STUDENTS, UNDERGRADUATES AS WELL AS GRADUATES, IN RESEARCH ACTIVITIES.

l. ARE EFFECTIVE IN ADVISING, MENTORING, AND RECRUITING STUDENTS.

2. Components of Evaluation
Effectiveness in teaching AND OTHER INSTRUCTIONAL ACTIVITIES will be evaluated through information on formal and informal teaching, course and curriculum materials, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings (i.e. student opinion of instruction summary forms),
and at least two of the following:
b. narrative self-evaluation.
c. peer/department chair classroom OR ALTERNATIVE SETTING observation(s) of teaching.
d. peer/department chair evaluation of course materials.

ADDITIONAL SOURCES OF EVIDENCE OF EFFECTIVENESS IN TEACHING MAY CONSIST OF BUT ARE NOT LIMITED TO:

e. A CLASS PRE TEST AT THE BEGINNING OF THE SEMESTER FOLLOWED BY A POST TEST OF SIMILAR FORMAT AT THE END OF THE SEMESTER OR YEAR TO ASSESS STUDENT PROGRESS.

f. EXAMPLES OF STUDENT PROGRESS OR SKILLS, REPRESENTED BY IMPROVEMENTS IN EARLY AND LATE SEMESTER SKILLS OR PRODUCTS, OR OTHER MECHANISMS THAT CAN DOCUMENT IMPROVEMENT.

g. INSTRUCTOR- OR STUDENT-DESIGNED STUDENT OPINION OF INSTRUCTION SUMMARY.

h. LETTERS OF SUPPORT FROM STUDENTS OR PEERS.

SPECIFIC SOE CRITERIA FOR INSTRUCTIONAL PERFORMANCE BEFORE APPOINTMENT OR PROMOTION TO:

A. ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO QUALITY TEACHING AND EVIDENCE OF CONTINUED IMPROVEMENT.

B. ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE MATERIAL TAUGHT IS RELEVANT AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT NOT LIMITED TO) COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, EFFECTIVE ADVISING AND MENTORING OF STUDENTS, EFFECTIVE CLASSROOM TEACHING PERFORMANCE, AND/OR EVIDENCE OF SUPERVISION OF GRADUATE STUDENT RESEARCH (AS A MAJOR SUPERVISOR OR COSUPERVISOR) LEADING TO SUCCESSFUL COMPLETION OF THE DEGREE PROGRAM.

C. PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE MAY INCLUDE, BUT ARE NOT LIMITED TO: CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS, RECEIPT OF AWARD FOR EXCELLENCE IN TEACHING, LEADERSHIP IN

DIRECTING GRADUATE STUDENTS' RESEARCH, SIGNIFICANT EXPERIENCE AS GRADUATE COMMITTEE CHAIR LEADING TO SUCCESSFUL COMPLETION OF GRADUATE DEGREE PROGRAM(S), AND/OR EFFECTIVE RECRUITMENT OR RETENTION OF STUDENTS, AS EVIDENCED BY LETTERS OF SUPPORT FROM ADVISEES OR OTHER ADVISORS.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

IN ADDITION TO THE UNIVERSITY COMMUNITY, SCHOOL OF EDUCATION FACULTY SERVE ALASKA'S SCHOOL DISTRICTS. MUCH OF OUR TEACHING, RESEARCH, AND SERVICE ARE CONDUCTED IN AND FOR SCHOOLS. WE THEREFORE SERVE THREE CONSTITUENCIES – UNDERGRADUATE AND GRADUATE STUDENTS; OUR PROFESSIONAL RESEARCH COMMUNITY; AND K-12 SCHOOLS, INCLUDING DISTRICTS, TEACHERS, K-12 STUDENTS, AND THEIR FAMILIES AND COMMUNITIES.

1. Achievement in Research, Scholarly and Creative Activity
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.
b. They must be evaluated by appropriate peers.
c. They must be evaluated by peers external to this institution so as to allow an objective judgment.
d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but ARE not limited to AN ASSORTMENT OF THE FOLLOWING ITEMS THAT THE UNIT CONSIDERS TO BE MOST VALUABLE FOR CONSIDERATION FOR PROMOTION AND TENURE:

a. Books, BOOK CHAPTERS, EDITED BOOKS, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses, INCLUDING ELECTRONIC JOURNALS AND PRESSES, that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers OR INVITED PAPERS before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions RELATED TO THE FIELD OF EDUCATION; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Development of processes or instruments useful in solving problems, such as EDUCATIONAL MODELS, computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

g. BOOKS, BOOK CHAPTERS, EDITED BOOKS, REVIEWS, MONOGRAPHS, BULLETINS, ARTICLES, PROCEEDINGS AND OTHER SCHOLARLY WORKS PUBLISHED BY REPUTABLE JOURNALS, SCHOLARLY PRESSES, AND PUBLISHING HOUSES, INCLUDING ELECTRONIC JOURNALS AND PRESSES, THAT ACCEPT WORKS ONLY AFTER RIGOROUS REVIEW AND APPROVAL BY EDITORIAL BOARDS.

h. REFERREED RESEARCH ARTICLES AND REPORTS OF PRACTICE IN EDUCATION APPEARING IN PUBLICATIONS DESIGNED FOR EDUCATION PRACTITIONERS (SUCH AS JOURNALS DESIGNED FOR K-12 TEACHERS, ADMINISTRATORS OR SCHOOL COUNSELORS).

i. TEXTBOOKS, CURRICULA, OR CURRICULA MATERIALS FOR K-12 SCHOOLS OR COLLEGES THAT RESULT IN PUBLICATIONS THAT ARE PEER REVIEWED OR EDITORIAL BOARD REVIEWED.

j. NATIONAL AND STATE EDUCATIONAL POLICY AND PLANNING THAT RESULTS IN PEER REVIEWED OR EDITORIAL BOARD REVIEWED PUBLICATION.

k. PRODUCTION OF VIDEOTAPES OR MULTIMEDIA DIGITAL WORKS REVIEWED BY PEERS IN THE DISCIPLINE.

ADDITIONAL PIECES OF EVIDENCE CONSIST OF BUT ARE NOT LIMITED TO:

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Scholarly reviews of publications, art works and performance of the candidate.

c. Citations of research in scholarly publications.

d. Published abstracts of research papers.

e. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

f. Prizes and awards for excellence of scholarship.

g. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

h. PRESENTATION OF INVITED PAPERS, RESEARCH, OR REPORTS OF BEST PRACTICE IN EDUCATION BEFORE LEARNED SOCIETIES.

i. INVITED EDITORIALS PUBLISHED IN SCHOLARLY WORKS.

j. PRODUCTION OF EDUCATIONAL VIDEOTAPES OR MULTIMEDIA DIGITAL WORKS REVIEWED AND UTILIZED BY SCHOOL PERSONNEL, COLLEGES, OR COMMUNITY ORGANIZATIONS.

k. INVITED PERFORMANCES AND PRODUCTIONS RELATED TO EDUCATIONAL RESEARCH OR PRACTICE IN EDUCATION REQUESTED BY SCHOOLS, COLLEGES, OR COMMUNITIES.

l. DEVELOPMENT OF CURRICULA OR CURRICULA MATERIALS WHICH ARE REVIEWED AND UTILIZED BY STATE OR LOCAL AGENCIES, SCHOOL DISTRICTS OR COMMUNITY BOARDS.

m. PUBLICATIONS, PRODUCTS, AND POLICY IMPLEMENTED FOLLOWING REVIEW BY NATIONAL, STATE AND LOCAL AGENCIES OR COMMITTEES, SCHOOL DISTRICTS AND COMMUNITY BOARDS OR AGENCIES.

n. PROFESSIONAL REPORTS REVIEWED BY PEERS IN STATE AND NATIONAL EDUCATION ORGANIZATIONS, REQUIRED FOR ACCREDITATION PURPOSES.

SPECIFIC SOE CRITERIA FOR SCHOLARLY PERFORMANCE BEFORE APPOINTMENT OR PROMOTION TO:

A. ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH, SCHOLARLY, OR CREATIVE PROGRAM IN THE AREA OF SPECIALIZATION.

B. ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH, SCHOLARLY, OR CREATIVE PROGRAM AS EVIDENCED BY ANY OF THE FOLLOWING: REFEREED PROFESSIONAL JOURNALS, BOOKS, BOOK CHAPTERS, AND/OR EDITED BOOKS PEER REVIEWED OR REVIEWED BY AN EDITORIAL BOARD, PROFESSIONAL REPORTS OR SCHOLARLY PRODUCTS, CURRICULAR MATERIALS, OR OTHER APPROPRIATE CREATIVE PRODUCTS IN THE FIELD OF SPECIALIZATION.

THE SUBMISSION OF RESEARCH PROPOSALS, THE COMPLETION OF CONTRACT RESEARCH REPORTS, AND PUBLICATION IN CONFERENCE PROCEEDINGS CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE SCHOLARLY PROGRAM IS OF HIGH QUALITY. MUST SHOW EVIDENCE OF SUSTAINED SCHOLARLY PRODUCTIVITY. THE FACULTY MEMBER SHOWS INDEPENDENCE AND LEADERSHIP BY THE CREATION OF SCHOLARLY IDEAS THAT INVOLVE COLLABORATIONS WITH PEERS IN THEIR FIELD OF SPECIALIZATION, STUDENTS, SCHOOL PERSONNEL OR PERSONNEL IN STATE OR NATIONAL ORGANIZATIONS.

RESEARCH AND SCHOLARLY ACTIVITY IN EDUCATION IS NOTABLY COLLABORATIVE IN NATURE. THUS IT IS CONSIDERED COMMON PRACTICE IN THE FIELD TO PRODUCE PUBLICATIONS OR OTHER PRODUCTS COLLABORATIVELY. TO DEMONSTRATE A CONSISTENT FLOW OF RESEARCH, A FACULTY MEMBER WHO HAS COMPLETED WORK BEFORE APPOINTMENT CAN COUNT UP TO THREE PUBLICATIONS OR OTHER PRODUCTS TOWARD PROMOTION.

C. PROFESSOR: THE SCHOLARLY PROGRAM SHOULD HAVE PRODUCED CLEAR EVIDENCE THAT CANDIDATE IS A LEADER IN THEIR FIELD. PUBLICATIONS AND OTHER PRODUCTS SHOULD BE OF SUFFICIENT QUALITY AND QUANTITY TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL SCHOLARLY PROGRAM. A NATIONAL OR INTERNATIONAL REPUTATION (AS DEMONSTRATED BY PROFESSIONAL ACTIVITIES OR PRESENTATIONS AT MEETINGS, THE RECEIPT OF AWARDS, AND DOCUMENTED OPINIONS OF OTHERS IN THE FIELD) IS EXPECTED. THERE SHOULD BE A RECORD OF SUCCESSFUL COMPLETION OF GRADUATE WORK BY HIS OR HER STUDENTS. THERE SHOULD BE DEMONSTRATED EVIDENCE OF EXTERNAL RESEARCH FUNDING.

D. Criteria for Public and University Service
Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service
Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units; such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and othereducational media, NON-REVIEWED CURRICULAR MATERIALS, INFORMATIONAL BULLETINS, JOURNALS AND NEWSLETTERS UTILIZED BY STATE OR LOCAL AGENCIES, SCHOOL DISTRICTS OR COMMUNITY BOARDS.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. PROVIDING PROFESSIONAL DEVELOPMENT FOR K-12 TEACHERS AND OTHER K-12 SCHOOL PERSONNEL AND COMMUNITY MEMBERS.

2 . University Service
University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department head or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring faculty.

j. Prizes and awards for excellence in university service.

3. Evaluation of Service
Each individual faculty member’s proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units

should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SOE FACULTY TYPICALLY DEVOTE A SIGNIFICANT PERCENTAGE OF THEIR ACTIVITIES TO SERVICE. DUE TO UA BOARD OF REGENTS' AND OTHER UA ADMINISTRATIVE MANDATES, ALASKA DEPARTMENT OF EDUCATION AND EARLY DEVELOPMENT LICENSURE REQUIREMENTS, AND THE REQUIREMENTS OF NATIONAL ACCREDITATION, FACULTY HAVE RESPONSIBILITIES TO NUMEROUS COLLABORATIVE RELATIONSHIPS WITH ENTITIES EXTERNAL AND INTERNAL TO THE UNIT. SOME COLLABORATIONS RESULT IN FREQUENT TRAVEL AND SERVICE ON NUMEROUS COMMITTEES. THESE ACTIVITIES ARE OF GREAT IMPORTANCE TO THE UNIT AND SHOULD BE EVALUATED AS SUCH.
SPECIFIC SOE CRITERIA FOR SERVICE PERFORMANCE BEFORE PROMOTION OR APPOINTMENT TO:

A. ASSISTANT PROFESSOR: EVIDENCE OF UNIVERSITY/PUBLIC SERVICE

B. ASSOCIATE PROFESSOR: CONTRIBUTIONS TO DEPARTMENT/SCHOOL/ COLLEGE/UNIVERSITY MATTERS.
CONTRIBUTIONS TO THE PUBLIC, INDUSTRY, GOVERNMENT AGENCIES AND SERVICE TO THE PROFESSION.

C. PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. CONTRIBUTIONS TO DEPARTMENTAL/SCHOOL/COLLEGE/ UNIVERSITY MATTERS ARE EXPECTED AS WELL AS EFFECTIVE APPLICATION OF EXPERTISE TO PROFESSIONAL AND PUBLIC ORGANIZATIONS.

THE FOLLOWING ARE EXAMPLES OF EXCELLENCE IN SERVICE :

a. INVITATIONAL SERVICE ON STATE, NATIONAL OR INTERNATIONAL BOARDS, REVIEW COMMITTEES, AWARD COMMISSIONS OR SCHOLARSHIP COMMISSIONS.

b. NATIONAL OR STATE LEADERSHIP IN A PROFESSIONAL ORGANIZATION.

c. RECOGNITION THROUGH INVITATIONAL SPEAKING ENGAGEMENTS.

d. OUTSTANDING UNIVERSITY SERVICE, SUCH AS SERVING AS A FACULTY SENATE OFFICER, FACULTY SENATE COMMITTEE CHAIR OR MEMBER OF A MAJOR ADMINISTRATIVE SEARCH COMMITTEE.

e. RECOGNITION THROUGH RECEIPT OF PUBLIC SERVICE AWARDS OR AWARDS FOR SERVICE TO THE UNIVERSITY.

f. RECEIPT OF A NATIONAL ASSOCIATION OR PROFESSIONAL SOCIETY SERVICE AWARD.

E. Unit Criteria, Standards and Indices
Unit criteria, standards and indices are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in B, C, D, above, and in "UAF Faculty Appointment and Evaluation Policies," Chapter IV for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review.

Unit criteria, standards and indices may be developed by those units wishing to do so. Units that choose not to develop discipline-specific unit criteria, standards and indices must file a statement stating so with the Office of the Provost, which shall serve as the official repository for approved unit criteria, standards and indices.

A unit choosing to develop discipline-specific criteria, standards and indices shall have such criteria, standards and indices approved by a majority of the discipline faculty. The unit criteria, standards and indices will be reviewed

and approved by the cognizant dean who will forward the unit criteria, standards and indices to the provost. The provost will review for consistency with BOR and UAF policies and will forward these criteria, standards and indices to the Faculty Senate, which shall review and approve all discipline-specific criteria according to a process established by the Faculty Senate.

Unit criteria, standards and indices will be reviewed at least every five (5) years by the faculty of the unit. When reorganization results in a unit's placement in another college/school structure, the cognizant dean, in consultation with the unit faculty shall review unit criteria, standards and indices and revise if warranted. Unit criteria, standards and indices approved by the Faculty Senate prior to a unit's reorganization shall remain in effect until reviewed and revised. Revision of unit criteria, standards and indices must follow the review process established by the Faculty Senate. If the unit criteria, standards and indices are not revised, a statement of reaffirmation of the current unit criteria, standards and indices must be filed with the Office of the Provost, following the review.

Unit criteria, standards and indices, when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review to include these approved unit criteria, standards and indices in the application file.

****

The UAF Faculty Senate passed the following at its Meeting #120 on February 2, 2004:

MOTION:
=======

The UAF Faculty Senate strongly recommends that the UA Statewide Administration maintain and fully fund the Faculty Liaison position at the UA Statewide office. Furthermore, the Faculty Liaison must be a fully involved participant in UA Statewide deliberations.

EFFECTIVE: Immediately

RATIONALE: The mission of the University of Alaska Fairbanks (UAF) states that UAF "as the nation's northernmost Land, Sea, and Space Grant university and international research center, advances and disseminates knowledge through creative teaching, research, and public service with an emphasis on Alaska, the North and their diverse peoples." Faculty are the heart of the university and the driving force for accomplishing UAF and UA's mission because the faculty teach the students, perform the research, and engage in community and university service. Faculty input in Statewide matters is crucial for accomplishing our mission and ensuring a balanced and successful future for the university. Furthermore, the Faculty Liaison is a crucial link between the UAF Faculty and the Statewide Administration by being present during UA Statewide deliberations, by providing a largely non-academic Statewide Administration with an academic and faculty point of view, and by reporting Statewide issues to the faculty.

****

The UAF Faculty Senate passed the following at its Meeting #120 on February 2, 2004:

RESOLUTION:
===========

WHEREAS, The Faculty Senate Budget Liaison Report dated 24 April 2003 was presented to the UAF Faculty Senate on 5 May 2003; and

WHEREAS, The major conclusions of this report indicate that on average funds for the executive administrative purposes increased 3.5-fold compared to funds allocated for academic purposes during a 5-year period from fiscal year 1998 (FY98) through FY02; and

WHEREAS, In this report, the Budget Liaison strongly encouraged the UAF Administration, i.e., Provost Reichardt and Chancellor Lind, to give a rationale for the disproportionate growth of executive administration at UAF in Fairbanks; and

WHEREAS, The UAF Faculty Senate president-elect requested a written justification for the disproportionate growth of executive administration at UAF from the UAF Administration during the 27 October 2003 Faculty Senate meeting, to be presented during the 8 December 2003 Faculty Senate meeting; and

WHEREAS, The UAF Administration has not provided such a written justification to date;

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate will assume that the UAF Administration agrees with the recommendations expressed in the 24 April 2003 Budget Liaison Report if a detailed written justification is not received by 5 April 2004; and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate subsequently expects the UAF Administration to act upon these recommendations and cut executive administration budgets by twice the amount (as specified in the report) compared to academic budgets in the next budget year.

****
The UAF Faculty Senate passed the following at its Meeting #120 on February 2, 2004:

MOTION:
=======

The UAF Faculty Senate moves to amend Section 3, (Article V, Committees, Permanent) of the Bylaws pertaining to the Developmental Studies Committee and Curriculum Review Committee membership.

[[ ]] - Deletion
CAPS - Addition

[[2. The Developmental Studies Committee will include one representative from each of the following units: Northwest Campus; Chukchi Campus; Kuskokwim Campus; Bristol Bay Campus; Interior-Aleutians Campus; College of Science, Engineering and Mathematics: Science Department (Biology, Chemistry, Geology, or Physics), and Mathematics Department; the College of Liberal Arts: English Department, and Cross-Cultural Communications Department; the College of Rural Alaska Developmental Studies Division; Rural Student Services; Advising Center; Student Support Services Program; and two representatives from the Tanana Valley Campus.]]

2. THE DEVELOPMENTAL STUDIES COMMITTEE WILL INCLUDE ONE REPRESENTATIVE FROM EACH OF THE FOLLOWING UNITS: ACADEMIC ADVISING CENTER, BRISTOL BAY CAMPUS, CHUKCHI CAMPUS, THE COLLEGE OF LIBERAL ARTS ENGLISH DEPARTMENT, INTERIOR-ALEUTIANS CAMPUS, KUSKOKWIM CAMPUS, NORTHWEST CAMPUS, STUDENT SUPPORT SERVICES PROGRAM, AND TANANA VALLEY CAMPUS; TWO REPRESENTATIVES FROM THE COLLEGE OF SCIENCE, ENGINEERING AND MATHEMATICS: ONE FROM THE SCIENCES (BIOLOGY, CHEMISTRY, GEOLOGY, OR PHYSICS) AND ONE FROM MATH; AND THREE REPRESENTATIVES FROM THE COLLEGE OF RURAL ALASKA: ONE FROM THE DEPARTMENT OF DEVELOPMENTAL EDUCATION, ONE FROM RURAL STUDENT SERVICES, AND ONE FROM RURAL CAMPUS STUDENT SERVICES.

The Developmental Studies Committee shall consider policies concerning developmental education: programs, courses, instructional development, evaluation, and assessment. This committee will function as a curriculum council/review committee for all developmental [[studies]] EDUCATION courses. [[Discipline based]] Developmental EDUCATION courses will be reviewed by the appropriate college curriculum council before submission to this committee for review and coordination.

5. The Curriculum Review Committee evaluates proposed substantive undergraduate course and program additions, changes, and deletions submitted by the appropriate school/college curriculum committees.

Among the topics of its review are number and duplication of courses, credit assignment, establishment of need for new programs, and resource impacts of curricular changes. Decisions of the Curriculum Review Committee may be appealed to the Curricular Affairs by the department submitting the proposal.

The Committee shall be composed of the chairs of the college/school curriculum councils, [[the chair of the Developmental Studies Committee,]] the University Registrar or the Registrar's designee, and shall be chaired by a member of the Curricular Affairs Committee.

EFFECTIVE: Immediately

RATIONALE: Restructuring the College of Rural Alaska has led to the formation of the Department of Developmental Education and rural Student Support Services. It also includes Rural Student Services. The Developmental Studies Committee needs to be restructured to reflect these changes and keep a balanced composition of all interested units.

The chair of the Developmental Studies Committee no longer needs to be a member of the Curriculum Review Committee.

****
The UAF Faculty Senate passed the following at its Meeting #120 on February 2, 2004:

MOTION:
=======

The UAF Faculty Senate moves to endorse the Faculty Alliance report on the targets for the established outcomes based budgeting measures.

The UAF Faculty Senate passed the following at its Meeting #119 on December 8, 2003:

MOTION:
=======

The UAF Faculty Senate moves to approve a minor in Leadership and Civic Engagement.

EFFECTIVE: Fall 2004

RATIONALE: See full program proposal #43 on file in the Governance Office, 312 Signers' Hall. Requires two new courses, NORS 205 and 492, plus three electives from select PS, HIST, or RD courses for a total of 15 credits.

****

Brief Description of the Proposed Program
Minor in Leadership and Civic Engagement

The minor in leadership and civic engagement will be administered by the Northern Studies Program,an interdisciplinary program housed within the College of Liberal Arts on the University of Alaska Fairbanks campus. Its purpose is tostrengthen the abilities of UAF graduates to lead and contribute effectively in both the public and private spheres, especially in the Alaska public policy context.

****
The UAF Faculty Senate passed the following at its Meeting #119 on December 8, 2003:

MOTION:
======

The UAF Faculty Senate moves to approve a BA in Social Studies.

EFFECTIVE: Fall 2004 and/or
Upon Board of Regents' Approval.

RATIONALE: See full program proposal #26 from the Spring 2003 review cycle on file in the Governance Office, 312 Signers' Hall.

The Interdisciplinary degree requires 3 of the Core "Perspective" courses, 14 major requirement courses, one elective from five social studies categories, a concentration in a social studies area, and a capstone experience of 6 credits for a total of 120 credits.

****

Brief Statement of the Proposed Program
Bachelor of Arts in Social Studies

Bachelor of Arts in Social Studies. The social studies interdisciplinary degree provides students with a broad background in various disciplines of social studies, including Anthropology, Alaska Native Studies, Economics, Geography, History, Political Science, Psychology, and Sociology, while providing depth in at least one of the

social studies disciplines. The degree, combined with the one-year UAF School of Education post-baccalaureate teacher licensure program, is designed to prepare students to become effective social studies teachers.

The National Council for Accreditation of Teacher Education (NCATE) requires teachers who are certified in any of the social studies disciplines (for example, Anthropology, Economics, Geography, History, Political Science, Psychology, or Sociology) to have a background in a significant number of courses outside of their specific discipline. Those students would find that a double major, combining a field such as history with the social studies major, would provide them with the broad background required by NCATE, and with the academic background required by the No Child Left Behind legislation, to enable them to teach in more than one subject area.

The objectives of the creation of the new degree are two-fold: (1) to provide a broad background in a variety of disciplines, so as to better prepare secondary teachers to teach a variety of social studies subjects than would a major in a single field alone; (2) to prepare students with the broad background in the social studies required by the National Council for Accreditation of Teacher Education (NCATE) and the National Council of Social Studies.

The UAF Faculty Senate passed the following at its Meeting #119 on December 8, 2003:

MOTION:
======

The UAF Faculty Senate moves to amend the Bachelor of Technology degree to eliminate the business option (4a).

EFFECTIVE: Fall 2004

RATIONALE: The School of Management does not recognize the B.T. as a business option. Removing the business option from the BT will avoid conflict with AACSB accreditation issues where SOM reviews all business management courses. The Interdisciplinary degree can incorporated these courses with SOM approval.

Interdisciplinary Program
(907) 474-7464
Degree: B.T.
Minimum Requirements for Degree: 120 credits

This program offers qualified applicants the opportunity to expand upon their vocational/technical education. [[The B.T. degree allows students to choose business or interdisciplinary studies.]]

[[Business enhances managerial/entrepreneurial skills.]] THE Interdisciplinary studies B.T. DEGREE allows the exceptional student to tailor a baccalaureate program to their unique needs. Information and advising for this degree is through the VICE PROVOST FOR INSTRUCTIONAL AFFAIRS.

Undergraduate Program
Major
Technology -- B.T. Degree

1. Complete the general university requirements. [[As part of the core curriculum requirements, complete MATH 161X.]]

2. Complete the following B.T. degree requirements.

3. Complete the following:

ENGL 314W,O/2 -- Technical Writing (3 credits)
MATH/CS/STAT elective at the 100-level (3 credits)
TTCH 301 -- Technology and Society (3 credits)
Computer competency (3 credits)
Specialty Electives (6 credits)
(Advisor approved upper division internship or advanced technical experience.)

4. Complete [[1 of the following specialization options:*]] 30 CREDITS OF INTERDISCIPLINARY STUDIES APPROVED BY A FACULTY COMMITTEE.* 30 CREDITS

[[a. Complete the following:*

ACCT 261 -- Accounting Concepts and Uses I (3 credits)
ACCT 262 -- Accounting Concepts and Uses II (3 credits)
BA 151 -- Introduction to Business (3 credits)
ECON 200 -- Principles of Economics (4 credits)
STAT 200 -- Elementary Probability and Statistics (3 credits)
Complete 5 courses from the following:
BA 307 -- Personnel Management (3 credits)
BA 317W -- Employment Law (3 credits)
BA 325 -- Financial Management (3 credits)
BA 330 -- The Legal Environment of Business (4 credits)
BA 343 -- Principles of Marketing (3 credits)
BA 390 -- Organizational Theory and Behavior (3 credits)
BA 447W,O -- Compensation Management (3 credits)
BA 457 -- Training and Management Development (3 credits)
BA 475 -- Transportation and Logistics (3 credits)

b. Interdisciplinary***]]

5. Complete 30 credits at UAF in the area of specialization (either completed in residence or accepted by transfer as equivalent to specific UAF courses).

Complete 1 of the following to demonstrate competence in the area of specialization:

a. An associate of applied science degree from an accredited institution of higher education. In general, the name of the degree shall be bachelor of technology. [[The following concentration areas are available to students who complete a UAF A.A.S. degree.
* Apprenticeship Technology
* Community Health
* Culinary Arts
* Dental Assistant
* Early Childhood Education
* Emergency Services
* Human Services
* Information Technology Specialist
* Interdisciplinary
* Maintenance Technology
* Medical Assistant
* Office Management and Technology
* Paralegal Studies

* Process Technology
* Professional Piloting
* Renewable Resources
* Tribal Management]]

b. Substitute 1 of the following [[as a demonstration of competency]] QUALIFICATIONS in an applied or technical field with the approval of the Curricular Affairs Committee of the Faculty Senate:

* A.A.S. or similar degree earned at a non-accredited institution, deemed appropriate by the faculty.
* State or federal certification deemed appropriate by the faculty.
* Journeyman status in trades and industry, deemed appropriate by the faculty.

6. Minimum credits required (120 credits)

* Student must earn a C grade or better in each course.
[[** No more than 25% of total coursework may be taken in the School of Management.]]
[[***]]See "Interdisciplinary Studies" in the Degrees and Programs section.
Note: At least 39 credits must be 300-level or above.

****

The UAF Faculty Senate passed the following at its Meeting #119 on December 8, 2003:

MOTION:
=======

The UAF Faculty Senate moves to accept the recommendation of the CORE Review Committee to amend the Natural Science requirement of the CORE Curriculum to allow "Student may complete any two Core science courses to fulfill the Core science requirement."

EFFECTIVE: Spring 2004

RATIONALE: The intent of the UAF Core science requirement is to provide students with: (1) a basic understanding of main concepts in science, (2) a solid grounding in the process of science as a way of knowing, (3) understanding of the interaction of science and society, and (4) an interest in learning more about science.

The original vision for UAF Core science courses was that students would either delve deeply into a single discipline ("depth") or they would explore two separate disciplines, each in less detail ("breadth").

The change in policy would allow maximum flexibility in course selection in the sciences by UAF students. It would not punish those students who enroll in an exploratory course (a "breadth" course), get excited about that discipline, then enroll in that discipline. It encourages faculty teaching "breadth" courses to teach exciting courses that might attract students to that discipline. Equally important, it does not "punish" students for attending UAF. We allow transfer students to bring in ANY 2 SCIENCE COURSES WITH LABS, regardless of discipline, or "breadth" vs. "depth" designation.

There is obviously some overlap of material between introductory-level courses within a discipline, but not enough to be of major concern. In addition, the area of overlap will, hopefully, cover important concepts that might well warrant repetition.

****
The UAF Faculty Senate passed the following at its Meeting #119 on December 8, 2003:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF Graduate Academic Standards, as published in the 2003-2004 UAF Catalog, as follows:Delete the following from p. 40 of the UAF Catalog, in the section on Academic Regulations for graduate students:

[[**Academic Standards**

Good Standing

To remain in good standing, you must maintain a cumulative GPA of 3.0 in courses identified on your Advancement to Candidacy. Before advancing to candidacy, however, a cumulative GPA of 3.0 is required on all courses taken since admission to graduate study. You will be placed on probation if your GPA falls below 3.0 and will remain on probation until grades are brought up to 3.0.

Academic Disqualification

Upon the recommendation of either the dean of your college or school or your advisory committee (and with the concurrence of the dean), you may be disqualified from graduate study when your performance is deemed unsatisfactory.]]Add the following section to the UAF Catalog:

START ADDITION

Academic Standards

Good Standing in UAF Graduate Degree Programs

To maintain good academic standing in UAF graduate programs, students:

a. Must maintain a cumulative GPA of 3.0 in courses taken since admission to graduate school. Before advancing to candidacy, however, a cumulative GPA of 3.0 is required based on all courses identified on your Advancement to Candidacy. The student must earn at least a B grade in 400 level courses.

b. Must be registered at UAF with a minimum 6 credits per year unless on approved leave of absence.

c. Must not violate any part of the Student Code of Conduct.

d. Have a current graduate study plan or an advancement to candidacy submitted and approved, unless the student is within the first year of graduate study.

e. Have in the student's file by May 15 of each year an annual report from the graduate advisory committee, certifying satisfactory progress. This is the responsibility of the student. Students starting in January need not submit an annual report until April of the next academic year. If a satisfactory annual report is not filed as specified, the student may be placed on probation.

f. Pass any required qualifying exams or comprehensive exams. Departments may set the number of times an exam may be repeated.

Probation in UAF Graduate Degree Programs

Probationary status indicates that the student is not in good standing. When a student is placed on probation, the dean of the school or program, and the advisory committee will notify the student of requirements to be met before

the student may be returned to good standing. If a student does not return to good standing by the end of two semesters, the student may be dismissed from the degree program.

Dismissal from UAF Graduate Degree Programs

If recommended by the department chair, the graduate advisory committee, and the dean of the college or school, and approved by the Dean of the Graduate School, a student will be dismissed because of unsatisfactory performance. Unsatisfactory performance is deemed as one or more of the following:

a. Exceeding maximum time limit for degree.

b. Not being registered at UAF for a minimum 6 credits per year unless on approved leave of absence.

c. Having less than 3.0 cumulative GPA on courses taken since admission to graduate school.

d. Being on probationary status for more than two consecutive semesters.

e. Violating the Student Code of Conduct.

f. Lacking progress as judged by the advisory committee and documented on the student's annual report.

g. Having substantive inaccuracies in the student's application for admission.

If the student does not have a graduate advisory committee, dismissal can occur upon the recommendation of the department chair and the dean of the college or school, with approval by the Dean of the Graduate School.

END ADDITION

EFFECTIVE: Spring 2004

RATIONALE: This motion addresses the need for a clear and consistent, university-wide policy for graduate student "good standing." This need arises because of (1) current problems with removing students from programs even when they are clearly not progressing, due to the absence of a written policy defining the conditions and procedures under which this may be done; and (2) the federal government's requirement that the University report whether or not each foreign student is in "good standing." The policy proposed here is adapted from the current (brief) UAF policy as stated in the UAF Catalog, and from the CSEM draft policy addressing student status in CSEM graduate degree programs.

The description of "Good Standing" restates and clarifies existing requirements for graduate students, and applies them to students' formal standing in graduate degree programs. It will replace the section on Good Standing for graduate students in the UAF Catalog.
The definition of "Probationary Status" is new, as there was previously no definition. The use or application of probation was unclear and therefore legally indefensible.

The description of conditions for "Dismissal" explicitly states the grounds under which a student may be dismissed, upon recommendation of the department chair, the dean of the school or program, and the Dean of the Graduate School. This will replace the section on Academic Disqualification for graduate students in the UAF Catalog. The term "Dismissal" replaces "Disqualification." The inclusion of a two-semester maximum period on probation has been added; all other grounds for dismissal are restatements of existing formal or informal policy.

****

The UAF Faculty Senate passed the following at its Meeting #119 on December 8, 2003:

RESOLUTION:
==========

WHEREAS, The mission of the University of Alaska Fairbanks (UAF) states that UAF "as the nation's northernmost Land, Sea, and Space Grant university and international research center, advances and disseminates knowledge through creative teaching, research, and public service with an emphasis on Alaska, the North and their diverse peoples"; and

WHEREAS, UAF Faculty are the heart of the university and the driving force for accomplishing UAF's mission because the faculty teach the students, perform the research, and engage in community and university service; and

WHEREAS, UAF Faculty to date have not been involved in any meaningful way in the development of the University of Alaska (UA) Outcomes Based Budgeting process; and

WHEREAS, The currently proposed goals and measures/metrics of the UA Outcomes Based Budgeting process are based almost exclusively on economic indicators instead of on academic excellence and a sound long-term academic vision; and

WHEREAS, Infrastructure needs to make the UA Outcomes Based Budgeting process feasible have not been proposed; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate rejects the current Outcomes Based Budgeting process as directed by the UA Statewide Administration; and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate demands that the UA Statewide Administration include UAF Faculty in the decision making process of the development, review, and implementation of the Outcomes Based Budgeting process at the UA Statewide as well as UAF levels; and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate demands that the Outcomes Based Budgeting process be integrated with the outcomes assessment and accreditation processes already in place in every unit at UAF.

****

The UAF Faculty Senate passed the following at its Meeting #119 on December 8, 2003:

MOTION:
======

The UAF Faculty Senate moves to approve the Unit Criteria for the School of Natural Resources and Agricultural Sciences (SNRAS).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the School of Natural Resources and Agricultural Sciences (SNRAS). With some minor changes, agreed upon by the school representative, Steve Sparrow, the unit criteria were found to be consistent with UAF guidelines.

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:
ANNUAL REVIEW, PRE-AND POST-TENURE,
PROMOTION, TENURE REVIEW
AND
SCHOOL OF NATURAL RESOURCES AND AGRICULTURAL SCIENCES
UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR ANNUAL REVIEW, PRE- AND POST-TENURE, PROMOTION, AND TENURE REVIEW, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN THE SCHOOL OF NATURAL RESOURCES AND AGRICULTURAL SCIENCES (SNRAS). ITEMS IN BOLDFACE CAPITAL LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO SNRAS FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS.

I. Purview.

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

II. EVALUATION OF FACULTY

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV AND SNRAS UNIT CRITERIA, STANDARDS, AND INDICES, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty members' professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods,

laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

h. EFFECTIVELY ADVISE AND MENTOR INDIVIDUAL STUDENTS DURING THE TERM OF THEIR DEGREE PROGRAM;

i. EFFECTIVELY SERVE AS MAJOR ADVISOR OR MEMBER OF SENIOR THESIS AND GRADUATE COMMITTEES;

j. PROMOTE UNDERGRADUATE STUDENT INVOLVEMENT IN FACULTY SCHOLARLY PROJECTS;

k. DEVELOP INNOVATIVE AND INTERACTIVE INSTRUCTIONAL METHODS AND MEDIA, INCLUDING WEB-BASED MATERIALS AND DISTANCE-DELIVERY TEACHING;

l. CREATE AN ATMOSPHERE OF OPENNESS IN THE CLASSROOM THAT ENCOURAGES STUDENTS TO FREELY EXPRESS THEIR OWN IDEAS AND VIEWPOINTS.SPECIFIC

SNRAS CRITERIA FOR TEACHING PERFORMANCE:

ASSISTANT PROFESSOR: EVIDENCE OF EXCELLENCE IN TEACHING AND A COMMITMENT TO A QUALITY TEACHING

PROGRAM IN THE DEPARTMENT.

ASSOCIATE PROFESSOR: EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT IS NOT LIMITED TO) EXCELLENCE IN CLASSROOM TEACHING, COURSE AND/OR CURRICULUM DEVELOPMENT INCLUDING CONTEMPORARY AND RELEVANT MATERIAL THAT STIMULATES THE LEARNING PROCESS, NOVEL APPROACHES TO INSTRUCTION AND USE OF ASSIGNMENTS, AND EFFECTIVE GUIDING AND MENTORING OF INDIVIDUAL STUDENTS.

PROFESSOR: MAJOR CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE CONTRIBUTIONS MAY INCLUDE (BUT ARE NOT LIMITED TO) MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, UPGRADING OF INSTRUCTIONAL FACILITIES, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS. MUST PROVIDE EVIDENCE OF EXCELLENCE IN TRAINING AND MENTORING OF GRADUATE STUDENTS FOR FACULTY IN PROGRAMS THAT GRANT GRADUATE DEGREES.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observations,

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

RESEARCHERS WHO RECEIVE FEDERAL AND STATE FORMULA FUNDS (SUCH AS HATCH AND MACINTIRE-STENNIS FUNDS) THROUGH THE AGRICULTURAL AND FORESTRY EXPERIMENT STATION (AFES) HAVE A SPECIAL MISSION TO CONDUCT RESEARCH WITH DIRECT APPLICATION TO GOVERNMENT AGENCIES, PRIVATE BUSINESSES, AGRICULTURAL AND FORESTRY PRODUCERS, NATURAL RESOURCE MANAGERS, EDUCATORS, AND OTHER RESEARCHERS IN ALASKA. THIS IS A FUNDAMENTAL OBLIGATION OF THE AFES TO THE PEOPLE OF ALASKA. EACH

FACULTY MEMBER SO FUNDED IS EXPECTED TO DISSEMINATE THE RESULTS OF THEIR RESEARCH IN ACTIVITIES SUCH AS AFES PEER REVIEWED PUBLICATIONS, WORKSHOPS, SEMINARS, CONFERENCES, NEWSLETTERS, AND FORUMS DIRECTED SPECIFICALLY AT END USERS, AS WELL AS IN APPROPRIATE SCIENTIFIC JOURNALS, CONFERENCES, AND REPORTS TO THE FUNDING AGENCIES.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more the following characteristics:

a. They must occur in a public forum,

b. They must be evaluated by appropriate peers,

c. They must be evaluated by peers external to this institution so as to allow an objective judgment,

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, PEER REVIEWED ELECTRONIC JOURNALS, INTERACTIVE ELECTRONIC PUBLICATIONS, MAPS, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline. THIS ACTIVITY IS OF FOREMOST IMPORTANCE AND CAN NOT BE SUBSTITUTED FOR BY ITEMS BELOW;

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval;

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers;

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics;

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges;

f. Editing or refereeing articles or proposals for professional journals or organizations;

g. Scholarly reviews of publications, art works and performance of the candidate;

h. Citations of research in scholarly publications;

i. Published abstracts of research papers;

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts; these materials appearing in reputable works of the discipline;

k. Prizes and awards for excellence of scholarship;

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study;

m. Development of processes or instruments useful in solving problems, such as computer programs, SOPHISTICATED COMPUTER MODELS THAT HELP IN THE UNDERSTANDING OF COMPLEX SYSTEMS, and systems for the processing of data, genetic plant and animal material, and where appropriate, obtaining patents and/or copyrights for said development;

n. AUTHORSHIP OF A MAJOR BOOK OR OTHER MAJOR REFERENCE IN THE FACULTY MEMBER'S AREA OF SCHOLARLY RESEARCH;

o. PUBLISHED PHOTOGRAPHS AND MAPS THAT RESULT FROM RESEARCH ACTIVITY AND WHICH ARE INDEPENDENT OF PUBLISHED ARTICLES;

p. PEER-REVIEWED PUBLICATIONS, PUBLISHED BY AFES OR CES, INCLUDING CIRCULARS, BULLETINS, RESEARCH PROGRESS REPORTS, AND MISCELLANEOUS PUBLICATIONS.

SPECIFIC SNRAS CRITERIA FOR RESEARCH PERFORMANCE:

ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE AREA OF SPECIALIZATION AND SHOW CREATIVITY AND PRODUCTIVITY IN RESEARCH.

ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM THAT PRODUCES IMPORTANT SENIOR AUTHORED PUBLICATIONS IN THE PEER-REVIEWED, PRIMARY LITERATURE; DEMONSTRATED RECORD OF PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS, SUBMISSION OF RESEARCH PROPOSALS, AND ACQUISITION OF EXTERNAL RESEARCH FUNDING. THE FACULTY MEMBER MUST SHOW INDEPENDENCE AND LEADERSHIP THROUGH CREATIVITY AND PRODUCTIVITY IN ORIGINAL RESEARCH.

PROFESSOR: A FULL PROFESSOR IN SNRAS SHOULD BE A RECOGNIZED LEADER IN AN APPROPRIATE DISCIPLINE AT NATIONAL AND INTERNATIONAL LEVELS AS EVIDENCED BY HIS/HER RESEARCH QUALITY AND PRODUCTIVITY; MUST HAVE ESTABLISHED AN INDEPENDENT, CREATIVE RESEARCH PROGRAM THAT HAS PRODUCED IMPORTANT, SENIOR AUTHORED PUBLICATIONS IN THE REFEREED PROFESSIONAL LITERATURE, HAS DEMONSTRATED A RECORD OF PRESENTATION OF RESEARCH RESULTS AT IMPORTANT PROFESSIONAL MEETINGS, SUBMISSION OF RESEARCH PROPOSALS, AND ACQUISITION OF EXTERNAL RESEARCH

FUNDING. THE PUBLICATIONS SHOULD BE OF SUFFICIENT QUALITY AND QUANTITY TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM THAT CONTRIBUTES IMPORTANT, ORIGINAL KNOWLEDGE.

D. Criteria for Public and University Service and PROFESSIONAL SERVICE

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service." SERVICE AND CONTRIBUTION TO THE FUNCTIONING OF ONE'S PROFESSIONAL DISCIPLINE IS IDENTIFIED AS "PROFESSIONAL SERVICE."

1. Public Service

Public service is the application of teaching, research, and other scholarly activity and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be a systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, or professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. PUBLIC SERVICE IN ALASKA IS CONSIDERED ESSENTIAL FOR SNRAS FACULTY AND IS EMPHASIZED IN SNRAS BECAUSE ALASKA HAS AN ABUNDANCE OF IMPORTANT ISSUES IN NATURAL RESOURCES, FORESTRY, AND AGRICULTURE. PUBLIC SERVICE INCLUDES COOPERATION WITH AGENCIES ADMINISTERING NATURAL RESOURCE POLICIES, PUBLIC EDUCATION, AND RESPONSE TO THE PROBLEMS OF LOCAL INDUSTRY, AGRICULTURAL AND FORESTRY PRODUCERS, AND THE ALASKAN PUBLIC.

Examples include, but are not limited to:

a. Providing information services to adults and youth;

b. Service on or to government or public committees;

c. Service on accrediting bodies;

d. Active participation in professional organizations;

e. Active participation in discipline-oriented service organizations;

f. UNPAID Consulting;

g. Prizes and awards for excellence in public service;

h. Leadership of or presentations at CLIENTELE-ORIENTED workshops, conferences, or public meetings;

i. Training and facilitating IN ONE'S DISCIPLINE IN WAYS TO BENEFIT CLIENTELE OR THE GENERAL PUBLIC;

j. Radio and TV programs AND INTERVIEWS, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media;

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions;

l. ONE ON ONE CONSULTATION WITH CLIENTELE;

m. ACTIVE PARTICIPATION IN CONSTITUENCY ORGANIZATIONS;

n. USER ORIENTED PRESENTATIONS AT WORKSHOPS, FIELD DAYS, CONFERENCES, AND TOURS;

o. EXTENSION OF EDUCATIONAL MATERIAL TO CONSTITUENTS OUTSIDE THE UNIVERSITY;

p. SITE VISITATIONS TO AGENCIES, FARMS, AND PRODUCTION FACILITIES FOR PROBLEM-SOLVING CONSULTATION;

q. PRODUCTION OF FACT SHEETS AND USER-ORIENTED PUBLICATIONS FOR GENERAL INFORMATION;

r. PARTICIPATION IN K-12 EDUCATIONAL PROGRAMS AND SCIENCE FAIRS;

s. PRESENTATIONS OUTSIDE ONE'S SPECIALTY BUT OF A PROFESSIONAL NATURE IN PUBLIC FORUMS SUCH AS COMMUNITY GROUPS, PROFESSIONAL GROUPS, GOVERNMENT BODIES, AND RELATED FORUMS, SUCH AS MEETINGS OF CIVIC ORGANIZATIONS;

t. PRESENTATION OF RESEARCH RESULTS TO USER GROUPS SUCH AS PUBLIC AGENCIES, GOVERNMENT BODIES, PRIVATE BUSINESSES, CONSTITUENT GROUPS, AND THE LAY PUBLIC, BOTH IN PUBLISHED AND ORAL FORM;

u. OTHER SERVICE THAT SATISFIES UA AND UAF MISSION STATEMENTS FOR BENEFIT TO ALASKA, ALASKA'S ECONOMY AND THE CIRCUMPOLAR NORTH

.2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activities include, but are not limited to;

a. Service on university, college, school, institute, or departmental committees or governing bodies;

b. Consultative work in support of university functions, such as expert assistance for specific projects;

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school;

d. Participation in accrediting reviews;

e. Service on collective bargaining unit committees or elected office;

f. Service in support of student organizations and activities;

g. Academic support services such as library and museum programs;

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer;

i. Mentoring NEW FACULTY;

j. Prizes and awards for excellence in university service.

3. Professional Service

a. EDITING OR REFEREEING ARTICLES OR PROPOSALS FOR PROFESSIONAL JOURNALS OR ORGANIZATIONS;

b. ACTIVE PARTICIPATION IN PROFESSIONAL ORGANIZATIONS;

c ACTIVE PARTICIPATION IN DISCIPLINE-ORIENTED SERVICE ORGANIZATIONS;

d. COMMITTEE CHAIR OR OFFICER OF PROFESSIONAL ORGANIZATIONS;

e. SESSION ORGANIZER OR MODERATOR FOR PROFESSIONAL MEETINGS.

4. Evaluation of Service

Each faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public, university, and PROFESSIONAL service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, INVITATIONS TO SPEAK AT CLIENTELE MEETINGS/ CONFERENCES, and other public means of recognition for services rendered.

ASSISTANT PROFESSOR: SHOULD EMPHASIZE PUBLIC SERVICE, LIMITED UNIVERSITY SERVICE, AND PROFESSIONAL SERVICE IN ACCORDANCE WITH DISCIPLINE STANDARDS AND INDIVIDUAL WORKLOAD.

ASSOCIATE PROFESSOR: IMPORTANT CONTRIBUTIONS TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS, EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC, AND EFFECTIVE SERVICE TO THE PROFESSION ARE EXPECTED.

PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED AND MAY INCLUDE, BUT IS NOT LIMITED TO, SERVICE AS COMMITTEE CHAIR, SESSION ORGANIZER, OFFICER OF PROFESSIONAL

ORGANIZATIONS. EVIDENCE OF IMPORTANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS. EVIDENCE OF EFFECTIVE APPLICATION OF PROFESSIONAL EXPERTISE TO PROFESSIONAL OR PUBLIC PROCESSES AND ORGANIZATIONS.

The UAF Faculty Senate passed the following at its Meeting #118 on October 27, 2003:

MOTION:
=======

The UAF Faculty Senate moves to amend the UAF Academic Honors policy (Pg. 22, 2003-04 Catalog) as follows:

CAPS = additions
[[ ]] = deletions

ACADEMIC HONORS

To be eligible for academic honors at the end of a semester, you must be a full-time undergraduate degree or certificate student who has completed at least 12 [[UAF]] UA INSTITUTIONAL credits graded with the letter grades A, B, C, D, or F. If you have received an incomplete or deferred grade, your academic honors cannot be determined until those grades have been changed to permanent grades. Academic honors are recorded on your permanent record. You will make the Chancellor's List with a semester GPA of 4.0. A GPA of 3.5 or higher earns you a place on the Dean's List.

> EFFECTIVE: Fall 2004 or When change is made to the Banner Student system semester credits calculation.
>
> RATIONALE: This change will allow for all semester credits from any MAU for honors calculations and is a small step towards making the UA system more uniform and seamless.

****

The UAF Faculty Senate passed the following at its Meeting #118 on October 27, 2003:

MOTION REFERRED BACK TO COMMITTEE:
==========

MOTION:
=======

The UAF Faculty Senate moves to amend the Graduate Degree Requirements for the Master of Arts with Project and the Master of Science with Project (p. 47 of the 2003-2004 Catalog) as follows:

[[ ]] = Deletions
CAPS = Additions

Master of Arts – with Project

> a. Successfully complete at least 30 credits of course work including at least [[six]] THREE credits of project work (698).

Master of Science – with Project

a. Successfully complete at least 30 credits of course work including at least [[six]] THREE credits of project work (698).

EFFECTIVE: Spring 2004

RATIONALE: The purpose of the project is to provide students with a "capstone experience" that differs from a standard class in the level of independent work required. At least nine departments or programs (including Physics, Resource and Applied Economics, and the proposed program in Community Psychology) consider three credits sufficient to provide such an experience, especially for projects that are practical in nature. It is the type of work rather than the number of credits that distinguishes the project from a standard class. The current 6-credit requirement reduces the flexibility of the student in taking other recommended or required courses. This amendment will allow the programs that currently list 3-6 credits among their requirements to keep these requirements while not affecting programs wishing to maintain a 6-credit minimum.

****

The UAF Faculty Senate passed the following at its Meeting #118 on October 27, 2003:

MOTION FAILED:
==========

The UAF Faculty Senate moves to amend the Graduate Academic Regulations as follows:

[[ ]] = Deletions
CAPS = Additions

Course Restrictions (page 44, 2003-2004 catalog)

You may not use credit by examination, audited courses, 500-level courses, or courses taken under the credit/no credit option to fulfill the basic course requirements of any degree program. IF A COURSE IS OFFERED AT BOTH THE 400-LEVEL AND THE 600-LEVEL ("STACKED"), YOU MUST ENROLL AT THE 600-LEVEL. No more than 12 credits of special topics courses (693 or 695) or individual study (697) may be used toward a graduate degree. Requests for exceptions to the limit must be approved by the dean of the Graduate School.

Stacked and Cross-listed Courses (p. 181 in the 2003-2004 catalog—an addition to the second paragraph)

Courses are also sometimes offered simultaneously at different levels (for example: 100/200 or 400/600) with a higher level credit requiring additional effort and possibly higher order of prerequisites from the student. Such courses are referred to as "stacked" courses and are designated in the class listing by "stacked with ____". In the case of 400/600 level stacked courses, graduate

enrollment and a higher level of effort and performance is required on the part of students earning graduate credit. GRADUATE STUDENTS MUST ENROLL AT THE 600-LEVEL FOR STACKED COURSES.

EFFECTIVE: Spring 2004

RATIONALE: The purpose of "stacking" courses at the 400 and 600 levels is to allow specialized courses to be offered that would otherwise not have sufficient enrollment. These courses must clearly distinguish between undergraduate and graduate level work; usually a higher level of effort and performance is required for graduate students. 400-level courses can be used to fulfill a portion of the graduate degree requirements where no appropriate 600-level courses exist. Some graduate students enroll at the 400-level because the workload is lower or because it is cheaper. This runs counter to the purpose of graduate level education and the intent of stacking courses.

****

The UAF Faculty Senate passed the following at its Meeting #118 on October 27, 2003:

MOTION:
=======

The UAF Faculty Senate moves to amend the "Attendance" policy under "Academic Regulations" (Pg. 22, 2003-04 Catalog) as follows:

CAPS = additions
[[ ]] = deletions

Attendance

You are expected to regularly attend classes; unexcused absences may result in a failing grade. You are responsible for conferring with your instructor concerning absences and the possibility of arranging to make up missed work.

[[If you choose to be absent from class to participate in university-sponsored or other activities, you may be permitted to make up any work you have missed, but you must make arrangements with your instructor before the absence. You and your instructor should make a good faith effort to assure that you are not unduly penalized for each absence. University sponsored activities should be scheduled so that they do not conflict with final exams.]]

IF YOU ARE REQUIRED TO PARTICIPATE IN EITHER (A) MILITARY OR (B) UAF-SPONSORED ACTIVITIES THAT WILL CAUSE YOU TO MISS CLASS, YOU MUST NOTIFY YOUR INSTRUCTOR AS SOON AS POSSIBLE OF YOUR ABSENCE. YOU MUST NOTIFY YOUR INSTRUCTOR(S) OF ALL SCHEDULED UAF-REQUIRED ABSENCES FOR THE SEMESTER (E.G., TRAVEL TO ATHLETIC EVENTS) DURING THE FIRST WEEK OF CLASSES. YOU AND YOUR INSTRUCTOR WILL MAKE A GOOD FAITH EFFORT TO MAKE SUITABLE ARRANGEMENTS TO ASSURE THAT YOU CAN MAKE UP CLASSES AND WORK YOU MISS AND ARE NOT PENALIZED FOR YOUR

EXCUSED ABSENCE. IF SUITABLE ARRANGEMENTS CANNOT BE MADE, YOU WILL BE ALLOWED TO WITHDRAW FROM THE COURSE WITHOUT PENALTY. HOWEVER, YOUR INSTRUCTOR IS UNDER NO OBLIGATION TO ALLOW YOU TO MAKE UP MISSED WORK FOR UNEXCUSED ABSENCES OR IF NOTIFICATION AND ARRANGEMENTS ARE NOT MADE IN ADVANCE OF THE ABSENCE.

EFFECTIVE: Fall 2004

RATIONALE: This change is intended to clarify vague wording in the catalog regarding "required" absences for military service or for participation in intercollegiate athletics.

****

The UAF Faculty Senate passed the following at its Meeting #118 on October 27, 2003:

MOTION:
======

The UAF Faculty Senate recommends to the Governance Coordinating Committee that All-Campus Day be eliminated.

EFFECTIVE: Immediately

RATIONALE: All Campus Day was instituted in the 1950s as a day of service to the campus and the community. It is now simply a day when students don't have class. It no longer serves its intended purpose.

****

The UAF Faculty Senate passed the following at its Meeting #118 on October 27, 2003:

RESOLUTION REFERRED BACK TO COMMITTEE:
==========

RESOLUTION:
=========

WHEREAS current University practice does not allow a person to register for a class if there is an outstanding parking ticket even if the ticket is being contested, and

WHEREAS such a practice constitutes an undeclared qualification for course registration that is not stated in the catalog, and

WHEREAS students are being denied access to the University because of this practice, now

THEREFORE BE IT RESOLVED, That the Faculty Senate requests that the University end this practice and sever all connections between parking violations and student registration.

The UAF Faculty Senate passed the following at its Meeting #117 on September 22, 2003:

MOTION PASSED AS AMENDED:

The UAF Faculty Senate moves to confirm the membership on the Ad Hoc Committee on Unit Criteria consisting of one member (AND ALTERNATE) from each of the following committees: Curricular Affairs; Faculty Affairs; Faculty Development, Assessment, and Improvement; and Faculty Appeals & Oversight Committee.

EFFECTIVE: Immediately

****

AD HOC COMMITTEE ON UNIT CRITERIA

Curricular Affairs - Jeannette Smith
Faculty Affairs - Dan Odess
Faculty Development, Assessment & Improvement - Shunpu Zhang
Faculty Appeals & Oversight - Julie Riley

****

MOTION:
======

The UAF Faculty Senate moves to amend the "Academic Bankruptcy for Returning Students' policy (Pg. 13-14, 2003-04 Catalog) as follows:

CAPS = additions
[[ ]] = deletions

[[**Academic Bankruptcy**]] **FRESH START for Returning Students**

If you performed at an academic level that made you ineligible to continue your studies at UAF and dropped out or were dismissed from school, [[academic bankruptcy]] FRESH START can offer you a new undergraduate [[start]] BEGINNING. You may apply for readmission on the basis that your prior academic record be disregarded. You begin your college study again with no credits attempted, no credits earned and no quality points reflected in subsequent grade point average calculations. You may use [[academic bankruptcy]] FRESH START only once.

To declare [[academic bankruptcy]] FRESH START, you must submit an Application for [[Academic Bankruptcy]] FRESH START form. Before applying for admission on this basis, at least two years must have elapsed since the end of the last full-time semester you attended. [[Academic bankruptcy]] FRESH START application forms are available at the Admissions [[or Registrar's]] office. DISCUSSING THIS OPTION WITH AN ACADEMIC ADVISOR IS RECOMMENDED SHOULD OTHER COURSES OF ACTION BE APPROPRIATE.

Your prior academic record remains a part of your overall academic record and appears on your transcript, but none of the credits you earned previously can be used in your new program. The only time these credits will be included in

GPA calculations is for graduation with honors (See Graduation with Honors). [[You may be allowed advanced standing or a waiver of requirements just as any non-bankrupt student, but you won't be allowed credit by examination for courses lost in bankruptcy]].

EFFECTIVE: Fall 2004

RATIONALE: The faculty committee who participated and developed the Early Warning Program made several recommendations for improving or simplifying terms and procedures for UAF students. The intent with this motion is to provide a more positive framework for a process that is currently in place and support the "paradigm shift from a punitive approach to customer service modality that incorporates a commitment to developing a personal connection to the student."

****

MOTION PASSED AS AMENDED:
==========

The UAF Faculty Senate, upon recommendation of the Faculty Development, Assessment, and Improvement Committee, moves to establish a Faculty Travel Committee AS A SUBCOMMITTEE OF THE FACULTY DEVELOPMENT, ASSESSMENT & IMPROVEMENT COMMITTEE. This committee will assist the Office of Faculty Development in the evaluation of faculty development travel funding requests, and will be charged with setting the procedures for submitting requests and the criteria for evaluating requests.

EFFECTIVE: Immediately

RATIONALE: Currently, faculty development travel requests are submitted to the Office of Faculty Development on an ad hoc basis and reviewed on a case-by-case basis. This is a very cumbersome process for the Office of Faculty Development Director and also does not allow for careful planning of the budget. This motion establishes a Faculty Travel Committee as a subcommittee of the Faculty Development, Assessment & Improvement Committee, which will set rules for submissions of travel funding requests, set guidelines by which those requests will be reviewed, and assist the Office of Faculty Development in the review of those requests.

****

MOTION:
======

The UAF Faculty Senate moves to refer to a Reconciliation Committee for further review the veto by the Chancellor of the Classified Research Policy passed at

its May 5, 2003 meeting.

EFFECTIVE: Immediately

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate moves to approve the Unit Criteria for the School of Management.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The School of Management (SOM) has developed Unit Criteria which set very specific standards for promotion and tenure. The proposed criteria were submitted by the SOM Dean with approval of a majority of SOM faculty. The Unit Criteria proposal incorporates minor changes in format and wording requested by the committee. The resulting criteria have been found to be consistent with UAF guidelines.

****

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate, upon recommendation of the Faculty Affairs Committee and the Ad Hoc Committee on Classified Research, moves to approve a UAF Policy on Classified and Proprietary Research as follows.

EFFECTIVE: Immediately

RATIONALE: BOR Policy P10.07.02 specifies that the university may engage in classified research, subject to approval of the Chancellor, but no procedures or guidelines are in place for faculty review and advice on such contracts. The suggested guidelines provide for oversight and faculty review of classified and proprietary research contracts while honoring ongoing agreements with university constituents.

****

UAF Policy Concerning Classified and Proprietary Research

This statement of policy and procedures addresses the issues of whether and, if so, under what conditions, classified and proprietary research should be conducted at the University. The goal of this policy is to establish a rigorous procedure guaranteeing that any classified or proprietary research be conducted in a responsible and ethical manner consistent with the mission of the University of Alaska Fairbanks.

The conduct of classified research restricts participation of students and limits faculty who work on such research. The results of classified research may not be contained in theses nor used for faculty review or advancement. The University seeks a policy, in principle, of complete disclosure of research activities and sources of funds.

At times, freedom of discourse and dissemination conflicts with the greater, immediate needs of society. Research funded by industrial organizations may involve patent applications that require a short delay of publication of a thesis resulting from that research. Faculty members may also wish to act as consultants on classified research projects not involving the use of University facilities.

For reasons such as the above, proposals to conduct classified and proprietary research will be reviewed on a case-by-case basis by the University campus chancellor and the UAF Faculty Research Oversight Committee, with disclosure to the Faculty Senate, following the guidelines set forth below.

Definitions

Classified Research: Research that has a security classification established by a federal agency.

Various agencies of the federal government may designate some federally sponsored research project, either all or a portion of a particular project, as Top Secret, Secret, or Confidential. Under the terms of this policy, research projects so designated are considered classified.

Proprietary Research: Industrially sponsored proprietary research for which the sponsor requires a delay in publication of the results after submission of the final report.

GUIDELINES ON NEGOTIATING CLASSIFIED RESEARCH CONTRACTS OR ACTIVITIES

1. The University will under no circumstances enter into any agreement or contract for which the direct primary purpose of the research or application of the results is the destruction of human life or harm to humans. The University will undertake only those contracts and activities that do not compromise the safety and/or well-being of Alaskans and that honor existing agreements with the diverse peoples of Alaska.

2. The University will make every reasonable effort to keep classified information and activities separate from the normal academic functions of the University.

3. No thesis that may not be published because it contains federally classified or proprietary information will be accepted toward fulfillment of the requirements for an advanced degree.

4. For proprietary research the University will not enter into or renew any contract or accept any grant that prohibits the open publication or dissemination of research results within a reasonable period, typically (and expected to be) no more than 60 days or a period negotiated at the time of contract initiation.

5. No University courses given for credit shall be classified in any part.

6. The University will not accept any contract that cannot be publicly acknowledged. The University will maintain an open record of all classified and proprietary research contracts.

7. The University will permit the participation of faculty members in classified research of their choice by means of normal consulting arrangements or leaves of absence without pay. Faculty shall not use classified research work in consideration for tenure, promotion or post-tenure review

8. Any unique security costs associated with classified or proprietary research will be borne by the unit within which the contract is sponsored.

9. The University will establish and maintain Facilities Security Officers to the degree necessary to ensure the legal compliance of all classified agreements.

10. A Faculty Research Oversight Committee will be established as a Standing Committee of the Faculty Senate to review all classified and proprietary proposals, grants and contracts to advise the chancellor of their compliance or lack thereof with University policy. Membership on the committee shall be limited to 9 senators, with no more than 2 members being from the same unit. The Facilities Security Officer shall be an ex-officio member of the committee. Committee membership must broadly represent the university community.

11. The committee will offer changes to this policy as needed through periodic reviews occurring no less than once every 5 years.

Basic Principles

The UAF mission statement proclaims that the University of Alaska Fairbanks is "the nation’s northern most Land, Sea and Space Grant university and international research center, [which] advances and disseminates knowledge through creative teaching, research and public service with an emphasis on Alaska, the North and their diverse peoples" (BOR Policy 10.01.03). Through exercising the fulfillment of that mission, the University has enabled relationships with government and industry

presenting intellectual and professional opportunities to faculty and students that they would not otherwise have. Concomitant with the open and full pursuit of that mission comes our understanding that the pursuit of knowledge must be tempered by ethical obligations to society; hence our concern with an ethical approach to permitting classified and proprietary research on campus.

The purpose of academic research in the University is the education of students, at all levels, and the generation of new knowledge. It is important that the University undertake research of high quality and originality. Ongoing research strengthens the University in a variety of ways;

* through the stimulation of creative and intellectual investigation by faculty and students,
* through the discovery and dissemination of new knowledge that benefits society,
* through participation in a learning process that is unique to research and creative investigation,
* through transmission of new knowledge to students in the classroom.

Obligation

The university guarantees each member of the academic community the freedom to inquire and affirms the right of each member to access all available information in his or her field. A basic function of the University is to carry out research in an open and unrestricted manner with complete freedom to publish or otherwise disseminate the results of its search for knowledge. The requirements of secrecy and restrictions on freedom to publish, which are inherent in security classification, or the restrictions on dissemination, which derive from proprietary rights of privately sponsored research, are in direct opposition to this function.

Exercising this function does not, however, prohibit self-imposed restrictions based on the professional ethics of a particular discipline. It also does not prohibit the existence of classified information to reside on campus such as sometimes arises, for instance, in connection with consulting work. This policy is directed towards maintaining a separation between classified information and the teaching and research functions of the University.

The review process for classified and proprietary research proposals shall be as follows:

* The Faculty Research Oversight Committee shall use a checklist to determine if a project requires formal review.
* The Faculty Research Oversight Committee shall review classified or proprietary proposals and offer recommendations to the chancellor in an expedited fashion.
* The Faculty Research Oversight Committee will publish an annual report on the status of classified and proprietary contracts, grants and proposals to the UAF Faculty Senate on an annual basis.
* The Faculty Research Oversight Committee (see above) shall also include a person from the Office of Sponsored Research and a designee of the chancellor as ex-officio members.

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

RESOLUTION OF RECOGNITION

WHEREAS, The UAF rifle team won its fifth consecutive NCAA title in March, setting NCAA records in smallbore and aggregate scoring, and

WHEREAS, Matt Emmons captured the smallbore title for the third straight year, breaking his own NCAA record and becoming the first person to win four individual titles in a career, and

WHEREAS, Per Sandberg led UAF's air rifle team to a new NCAA composite score, and

WHEREAS, Jamie Beyerle was crowned the champion in air rifle, the first freshman in school history to win a national title, and

WHEREAS, Matt Wallace earned a silver medal in smallbore at the Junior Olympics, and

WHEREAS, Seven members of the Nanook rifle team earned National Rifle Association All-American status based on their performance throughout the 2002-2003 season with an emphasis on the NCAA sectionals and their grade point averages, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate congratulates the 2002-2003 UAF rifle team as NCAA champion and commends the team's superior performance.

Godwin A. Chukwu
President, UAF Faculty Senate
May 6, 2003

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate moves to amend the Reserving Courses for Graduate Programs policy (page 26 of the 2003-04 UAF catalog) as follows:

[[ ]] = Deletion

_____ = Addition

CAPS = Addition

RESERVING COURSES FOR GRADUATE PROGRAMS

If [[you're]] YOU ARE a senior with only a few remaining requirements for your bachelor's degree, you may take courses at the 400-LEVEL [[upper division]] or graduate level and have them reserved for an advanced degree. To do this, you must be in your final year of an undergraduate program and must submit a written petition during the first four weeks of the semester identifying which courses being taken that semester are to be reserved for graduate study and not counted toward your bachelor's degree. (Reserving courses does not, however, assure they will be accepted by a graduate advisory committee as part of your eventual graduate program.)

EFFECTIVE: Immediately

RATIONALE: This motion specifies the upper division level requirement that is allowed in graduate programs. Current policy is out of compliance with graduate program requirements.

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate moves to delete the Emergency Services (formerly Fire Science) Certificates.

EFFECTIVE: Fall 2003 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #28 on file in the Governance Office, 312 Signers' Hall.

The demand for Emergency Services (formerly Fire Science) Certificates with concentrations in Emergency Medical Services, Hazardous Materials Control, Municipal Fire Control, Public Safety, and Wildlands Fire Control have always been low.

****

Executive Summary
Certificate, Emergency Services

The UAF-TVC Emergency Services (formerly Fire Science) Program requests the deletion of Certificates in Municipal Fire Control, Wildlands Fire Control, Hazardous Materials Control, Public Safety, and Emergency Medical Services. Since 1979 only 25 certificates have been issued compared to 283 A.A.S. degrees and 6 B.T. degrees. Most fire departments place little value on certificates compared to A.A.S. degrees for hiring and promotions. This was confirmed by outcomes assessment questionnaires from both employers and graduates that indicate a new trend within the fire service. Employers are now seeking emergency personnel that are proficient in areas of written and oral communication, computation and human relations rather than graduates with only the FIRE and EMS courses. Graduates without general education skills are unable to pass highly competitive written entrance exams administered by larger fire departments for placement on hiring rosters. The certificate has outlived it usefulness for highly competitive careers in fire departments and emergency services. Graduates seeking leadership roles in the fire services are recognizing the benefit of completing the B.T. degree which combines the technical knowledge of the A.A.S. degree with business administration to become Fire Chiefs of the future.

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

RESOLUTION OF APPRECIATION FOR GODWIN A. CHUKWU

WHEREAS, Godwin Chukwu has professionally and ethically served the Faculty Senate since 1999; and,

WHEREAS, Godwin Chukwu has served as a member of the Faculty Appeals and Oversight Committee from 1999 to 2001, and as Chair from 2000 to 2001; and,

WHEREAS, Godwin Chukwu initiated the Faculty Senate newsletter to better inform the faculty on pertinent university information that would assist faculty in their jobs; and,

WHEREAS, Godwin Chukwu included rural sites prominently in faculty discussions by virtue of conducting meetings from extended campuses throughout the year; and,

WHEREAS, Godwin Chukwu has served as Chair of the Administrative Committee and as President-Elect of the UAF Faculty Senate for 2001-2002; and,

WHEREAS, Godwin Chukwu has served as a member of the UAF Governance Coordinating Committee from 2001-2003; and

WHEREAS, Godwin Chukwu has served as a member of the Faculty Alliance and UA Systemwide Governance Council from 2001-2003; and,

WHEREAS, Godwin Chukwu has served as President of the UAF Faculty Senate from 2002-2003; and,

WHEREAS, the UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the university by Godwin Chukwu, as he concludes his term as President; now,

THEREFORE BE IT RESOLVED, that the UAF Faculty Senate acknowledges the many contributions of Godwin Chukwu and expresses its appreciation for his exemplary service.

Pete Pinney
President, UAF Faculty Senate

May 6, 2003

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate, upon recommendation of the Developmental Studies Committee and the Curricular Affairs Committee, moves to approve the following Mandatory Placement Policy:

Placement Policy

Students who do not meet basic skills standards in reading, writing, and mathematics must complete appropriate Developmental Education course instruction. Such students should not enroll in 100-level or above courses that depend on these skills until they have satisfactorily met the exit criteria of the appropriate Developmental Education course(s).

EFFECTIVE: Fall 2003 to be phased in gradually over the next two years.

RATIONALE: Current policies in place at UAF require assessment and advising, but not placement. First-term students entering certificate or degree programs, transfer students with less than 30 acceptable credits, and non-degree seeking students planning on taking 100-level written communication or mathematics courses, or courses with these as a prerequisite, will be assessed in reading, writing, and mathematics. The UAF Developmental Studies program underwent an external review during AY 2002. One of the recommendations of that external review was to establish a mandatory placement policy. Because implementation of this policy is likely to require the establishment of additional sections of existing courses and additional assessment opportunities, the recommendation included a phase-in approach over a 2 year period.

The professional associations for the Developmental Studies area, the National Association of Developmental Education (NADE), the College Reading and Learning Association (CRLA), American Mathematical Association of Two Year Colleges (AMATYC) all recommend mandatory assessment and mandatory placement. These recommendations are based on the results of extensive national research projects. These two elements,

mandatory assessment and mandatory placement, have been identified as two elements which have a strong correlation with increased student success in college-level coursework.

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate, upon recommendation of the Faculty Development Assessment, and Improvement Committee, moves to approve the following addition to the IAS student evaluation package:

PLEASE READ THE FOLLOWING STATEMENT TO THE CLASS. (If possible have your department chair visit your class and read this statement, and take questions.)

Since 1980 UAF students have been filling out teaching evaluations at the end of each class each semester. There are several important reasons for this exercise:

1. To aid future students by curriculum improvement;
2. To aid future students by improvement of teaching by individual faculty members;
3. To aid future students in course selection;
4. For input in faculty tenure and/or promotion reviews.

The evaluation consists of TWO different forms. The first is computer-scored. Each question on this form needs to be carefully read and answered. Questions 1-4 are the most important and relevant, so pay special attention to them. The average of these four questions is the primary measure of the instructor's performance in the class. The statistical results from this form are returned, well after grades are submitted, to the instructor and their dean. They also go into the instructor's permanent file.

The yellow comment forms are returned, well after grades are submitted, to the instructor ONLY. Use this form to give your faculty member helpful suggestions about improving the class.

Your careful input on both forms is very important.

EFFECTIVE: Immediately

RATIONALE: During extensive discussions in the Faculty Development Assessment, and Improvement Committee, areas were identified, which could improve the IAS student evaluation process. One of those included the improvement of students' understanding of the importance of the IAS and “yellow sheet” evaluations and what they are used for. This motion will establish such an improvement.

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate moves to endorse the 2003-2004 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighted against membership distribution from schools and colleges.

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate moves to adopt the following calendar for its 2003-2004 meetings.

EFFECTIVE: Immediately

RATIONALE: Meetings have to be scheduled and the Wood Center Carol Brown Ballroom reserved well in advance.

****

UAF FACULTY SENATE
2003-2004
Calendar of Meetings

Mtg. #	Date	Day	Time	Type
117	9/22/03	Monday	1:00 p.m.	audioconference
118	10/27/03	Monday	1:00 p.m.	face-to-face
119	12/8/03	Monday	1:00 p.m.	audioconference
120	2/2/04	Monday	1:00 p.m.	audioconference
121	3/1/04	Monday	1:00 p.m.	face-to-face
122	4/5/04	Monday	1:00 p.m.	audioconference
123	5/3/04	Monday	1:00 p.m.	face-to-face

Location: Wood Center Carol Brown Ballroom

The UAF Faculty Senate passed the following at its Meeting #116 on May 5, 2003

MOTION:
======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 2003. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 5, 2003

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

The UAF Faculty Senate passed the following at its Meeting #115 on April 7, 2003:

RESOLUTION:
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Abel Bult-Ito as President-Elect of the UAF Faculty Senate for 2003-2004 by affirmation.

The UAF Faculty Senate passed the following at its Meeting #115 on April 7, 2003:

RESOLUTION:
=========

WHEREAS, Ron Illingworth has served the UAF Faculty Senate in numerous capacities, often in leadership roles, since 1988, and

WHEREAS, Ron Illingworth, in service to the Faculty Senate, has made truly outstanding contributions to improving the academic quality of the university, and

WHEREAS, Ron Illingworth has worked tirelessly for ALL UAF students, both urban and rural, through his Faculty Senate representation, and

WHEREAS, Ron Illingworth has helped to make the UAF Faculty Senate a critical element in the retention of students throughout UAF, and

WHEREAS, Ron Illingworth has made major contributions to students' welfare, to faculty's ability to carry out their duties and responsibilities, and to the betterment of UAF as an institution of higher education,

THEREFORE BE IT RESOLVED THAT, the UAF Faculty Senate recognize Ron Illingworth as Outstanding Senator of the Year for Academic Year 2002-2003.

The UAF Faculty Senate passed the following at its Meeting #115 on April 7, 2003:

MOTION:
======

The UAF Faculty Senate, upon recommendation of the Faculty Development Assessment, and Improvement Committee, moves to approve the following Faculty Mentoring Program Policy:

FACULTY MENTORING PROGRAM POLICY:

The Provost, in consultation with the Director of the Office of Faculty Development, and the Faculty Development Assessment, and Improvement Committee, will establish and implement a comprehensive and effective Faculty Mentoring Program for new/untenured faculty members no later than by the fall 2003 semester.

EFFECTIVE: Immediately

RATIONALE: This Faculty Mentoring Program Policy will provide a framework for effective mentoring of new/untenured tenure-track faculty members. Currently, the mentoring of new/untenured faculty members is variable, from non-existent to effective. Too many new/untenured faculty members appear to receive inadequate mentoring, because guidelines and expectations for mentoring are not well developed. This policy remedies this situation.

****

SUGGESTED GUIDELINES FOR THE IMPLEMENTATION OF THE FACULTY MENTORING PROGRAM POLICY:

These guidelines are to be evaluated periodically for effectiveness by the Provost, the Director of the Office of Faculty Development, and the Faculty Development Assessment, and Improvement Committee, and adjusted whenever necessary:

1. New/untenured faculty members will be assigned (a) mentor(s) by their dean/director during their first semester or as soon as possible thereafter.
2. The Office of Faculty Development hosts a luncheon or other type of gathering for new/untenured faculty and their assigned mentors each fall semester. Deans/directors are to strongly encourage attendance at this meeting. Guidelines and expectations for mentoring are discussed then. A Handbook on Mentoring is given to each new/untenured faculty member.
3. In addition to the fall semester activities, deans/directors seek out senior faculty volunteer mentors who will be given Service credit on their Workloads to meet at regular intervals with a small group of new/untenured faculty in the spring semester. Small groups of new/untenured faculty will be assigned to each of these mentors depending on their discipline. Faculty members are encouraged to seek out their mentor(s) of choice.
4. A template of the Annual Activities Report is added to the Orientation Kit for new/untenured faculty members so they know what to expect at the end of the year.
5. The senior mentors have examples of Annual Activities Reports and Fourth Year Reviews to show to their groups of new/untenured faculty members.
6. Both mentors and mentees report on their meetings in their Annual Activities Report. A section is added to the online Annual Activities Report template for this information. Also a section be included in the Narrative about mentoring meetings.
7. A training workshop is offered in fall for all mentors.
8. The individual and/or group mentor(s) assist(s) the new/untenured faculty members with preparation of the Annual Activities Report up to the fourth year review.
9. At the dean/director level, a list of new/untenured faculty members and their mentors is maintained.
10. Untenured faculty members are encouraged to maintain an effective mentoring relationship through their tenure and promotion review.

The UAF Faculty Senate passed the following at its Meeting #115 on April 7, 2003:

MOTION:
======

The UAF Faculty Senate moves to amend the administrator review guidelines (passed at Meeting #99, February 5, 2001) to establish a timeline and process for Group "B" administrators and to add Director of the Museum to the Group "B" list.

EFFECTIVE: Immediately

RATIONALE: The current administrator evaluation process defined two groups of administrators, Group "A" and Group "B". Group "A" administrators are being reviewed by the established process. However the Group "B" review process was not well defined in the original motion. Under this motion, the process for Group "B" administrators is less involved than for Group "A", and relies on the Faculty Appeals and Oversight committee to run the process. The Director of the Museum is at the same administrative level as other Group "B" administrators but was not included on the original list and should be included in the review process.

****

Process for Evaluation of Group "B" Administrators

Campus/Program Directors in Group "B" (as listed below) are to be reviewed annually by their immediate Supervisor. On July 1st, Group "B" Directors shall submit a report/evaluation form to their Supervisor on the previous year's activities/accomplishments and include goals for the upcoming year. The performance of the Director under review shall be ranked 'Satisfactory' or 'Unsatisfactory'.

On a 4-year cycle the evaluation shall be more extensive. By October 15 the Campus/Program Director being reviewed will submit a vita, position description, brief self-evaluation and past annual evaluations to the Faculty Appeals and Oversight Committee (FAOC), who will conduct the review. The FAOC may form a subcommittee or subcommittees of 3 or more faculty from FAOC to conduct the review and report back to the committee as a whole. If appropriate, a staff member from the Campus/Program Director's unit may be added to the subcommittee.

The FAOC shall set procedures for soliciting input from all relevant constituencies on- and off- campus including faculty, staff and students based on the Director's performance during the previous three years. This will be accomplished through a standard questionnaire completed anonymously and returned to the Ad Hoc Director Review Committee chair and through interviews with a select sample of faculty, staff, students and relevant others, if appropriate, and may include an interview with the administrator being reviewed.

The FAOC will prepare an evaluative summary, and submit its report to the Director's Supervisor by March 1.

At a date to be determined by the Supervisor of the Director under review, the Supervisor shall meet in joint conference with the Faculty Appeals & Oversight Committee to share his/her preliminary evaluation of the Director under review. The Supervisor will then complete the review process.

Supervisory Administrators may add additional administrators to this review list (for review in the 2007-2008 cycle), with approval from the Faculty Senate.

Review Cycle: Every four years beginning with:

2003-2004

Director, Geophysical Institute
Director, Interior-Aleutian Campus
Director, Institute for Northern Engineering
Director, Cooperative Extension Service
Director, University of Alaska Museum

2004-2005

Director, Institute of Arctic Biology
Director, Bristol Bay Campus
Director, Tanana Valley Campus
Director of Fisheries Division, Juneau
Director, International Arctic Research Center

2005-2006

Director, Institute of Marine Science
Director, Chukchi Campus
Director of Library
Director, Northwest Campus
Program Chairman, Marine Advisory Program

2007-2008

Director, Kuskokwim Campus
Director, Fishery Industrial Technology Center, Kodiak
Director, Arctic Region Supercomputer Center
Director, Agricultural and Forestry Experiment Station

The UAF Faculty Senate passed the following at its Meeting #115 on April 7, 2003:

MOTION REFERRED BACK TO COMMITTEE:
==========

MOTION:
======

The UAF Faculty Senate moves to approve the Unit Criteria for the School of Management.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The School of Management (SOM) has developed Unit Criteria which set very specific standards for promotion and tenure. The proposed criteria were submitted by the SOM Dean with approval of a majority of SOM faculty. The Unit Criteria proposal incorporates minor changes in format and wording requested by the committee. The resulting criteria have been found to be consistent with UAF guidelines.

The UAF Faculty Senate passed the following at its Meeting #115 on April 7, 2003:

MOTION REFERRED BACK TO COMMITTEE:
==========

MOTION:
======

The UAF Faculty Senate, upon recommendation of the Faculty Affairs Committee, moves to approve the following Spousal Hiring Policy:

EFFECTIVE: Immediately

RATIONALE: Currently, UAF does not have a policy by which all tenure-track faculty candidates and their academic spouse/partner are treated equally across different departments/academic units. This situation results in ad hoc decisions about hiring decisions of a spouse/partner that vary substantially among units and can be perceived as unfair to the candidate, the spouse/partner, the faculty member seeking a retention offer, or the receiving department/academic unit. This Spousal Hiring Policy will provide guidelines for the hiring of spouses/partners of new tenure-track faculty members, or those who seek a retention offer, that are transparent, include all parties involved, and treat all candidates and their spouses/partners equally. To be able to hire and retain the best faculty, UAF also needs to recognize the importance of accommodating dual-career couples.

The UAF Faculty Senate passed the following at its Meeting #115 on April 7, 2003:

MOTION POSTPONED:
==========

MOTION:
======

The UAF Faculty Senate, upon recommendation of the Faculty Affairs Committee and the Ad Hoc Committee on Classified Research, moves to approve a UAF Policy on Classified and Proprietary Research as follows.

EFFECTIVE: Immediately

RATIONALE: BOR Policy P10.07.02 specifies that the university may engage in classified research, subject to approval of the Chancellor, but no procedures or guidelines are in place for faculty review and advice on such contracts. The suggested guidelines provide for oversight and faculty review of classified and proprietary research contracts while honoring ongoing agreements with university constituents.

****

UAF Policy Concerning Classified and Proprietary Research

This statement of policy and procedures addresses the issues of whether and, if so, under what conditions, classified and proprietary research should be conducted at the University. The goal of this policy is to establish a rigorous procedure guaranteeing that any classified or proprietary research be conducted in a responsible and ethical manner consistent with the mission of the University of Alaska Fairbanks.

The conduct of classified research restricts participation of students and limits faculty who work on such research. The results of classified research may not be contained in theses nor used for faculty review or advancement. The University seeks a policy, in principle, of complete disclosure of research activities and sources of funds.

At times, freedom of discourse and dissemination might conflict with the greater, immediate needs of society. Research funded by industrial organizations may involve patent applications that require a short delay of publication of a thesis resulting from that research. Faculty members may also wish to act as consultants on classified research projects not involving the use of university facilities.

For reasons such as the above, proposals to conduct classified and proprietary research will be reviewed on a case-by-case basis by the University campus chancellor and the UAF Faculty Research Oversight Committee, with disclosure to the University Faculty Senate, following the guidelines set forth below.

Definitions

Classified Research: Research that has a security classification established by a federal agency.

Various agencies of the federal government may designate some federally sponsored research project, either all or a portion of a particular project, as Top Secret, Secret, or Confidential. Under the terms of this policy, research projects so designated are considered classified.

Proprietary Research: Industrially sponsored proprietary research for which the sponsor requires a delay in publication of the results after submission of the final report.

GUIDELINES ON NEGOTIATING CLASSIFIED AND PROPRIETARY RESEARCH CONTRACTS OR ACTIVITIES

1. The University will under no circumstances enter into any agreement or contract for which the direct primary purpose of the research or application of the results is the destruction of human life or harm to humans. The University will undertake only those

contracts and activities that do not compromise the safety and/or well-being of Alaskans and that honor existing agreements with the diverse peoples of Alaska.

2. The University will make every reasonable effort to keep classified information and activities separate from the normal academic functions of the University.

3. No thesis that may not be published because it contains federally classified or proprietary information will be accepted toward fulfillment of the requirements for an advanced degree.

4. For proprietary research, the University will not enter into or renew any contract or accept any grant that prohibits the open publication or dissemination of research results within a reasonable period, typically (and expected to be) no more than 60 days or a period negotiated at the time of the contract initiation.

5. No University courses given for credit shall be classified in any part.

6. The University will not accept any contract that cannot be publicly acknowledged. The University will maintain an open record of all classified and proprietary research contracts.

7. The University will permit the participation of faculty members in classified research of their choice by means of normal consulting arrangements or leaves of absence without pay. Faculty shall not use classified research work in consideration for tenure, promotion, or post-tenure review.

8. Any unique security costs associated with classified or proprietary research will be borne by the unit within which the contract is sponsored.

9. The University will supply a Facilities Security Officer to ensure the compliance of all classified agreements with the law.

10. A Faculty Research Oversight Committee, elected from each unit (college, school and institute) for staggered 2 year terms, and confirmed by the Faculty Senate, shall review all classified and proprietary proposals, grants and contracts to advise the chancellor of their compliance or lack thereof with university policy. The committee shall consist of members elected from the pool of faculty who are qualified to be members of the senate. Committee membership must broadly represent the university community with no more than 1 member being from the same unit.

11. The committee will offer changes to this policy as needed through periodic reviews occurring no less than once every 5 years.

Basic Principles

The UAF mission statement proclaims that the University of Alaska Fairbanks is “the nation’s northernmost Land, Sea and Space Grant university and international research center, [which] advances and disseminates knowledge through creative teaching, research and public service with an emphasis on Alaska, the North and their diverse

peoples” (BOR Policy 10.01.03). Through exercising the fulfillment of that mission, the University has enabled relationships with government and industry presenting intellectual and professional opportunities to faculty and students that they would not otherwise have. Concomitant with the open and full pursuit of that mission comes our understanding that the pursuit of knowledge must be tempered by ethical obligations to society; hence our concern with an ethical approach to permitting classified and proprietary research on campus.

The purpose of academic research in the University is the education of students, at all levels, and the generation of new knowledge. It is important that the University undertake research of high quality and originality. Ongoing research strengthens the University in a variety of ways:

* through the stimulation of creative and intellectual investigation by faculty and students,
* through the discovery and dissemination of new knowledge that benefits society,
* through participation in a learning process that is unique to research and creative investigation,
* through transmission of new knowledge to students in the classroom.

Obligation

The university guarantees each member of the academic community the freedom to inquire and affirms the right of each member to access to all available information in his or her field. A basic function of the University is to carry out research in an open and unrestricted manner with complete freedom to publish or otherwise disseminate the results of its search for knowledge. The requirements of secrecy and restrictions on freedom to publish, which are inherent in security classification or the restrictions on dissemination which derive from proprietary rights of privately sponsored research, are in direct opposition to this function.

Exercising this function does not, however, prohibit self-imposed restrictions based on the professional ethics of a particular discipline. It also does not prohibit the existence of classified information to reside on campus such as sometimes arises, for instance, in connection with consulting work. This policy is directed towards maintaining a separation between classified information and the teaching and research functions of the University.

The review process for classified and proprietary research proposals shall be as follows:

* The Faculty Oversight Committee shall use a checklist to determine if a project requires formal review.
* The Faculty Oversight Committee shall review classified or proprietary proposals and offer recommendations to the chancellor in an expedited fashion.
* The Faculty Oversight Committee will publish a report on the status of classified and proprietary contracts, grants and proposals to the UAF Faculty Senate on an annual basis.
* The Faculty Oversight Committee should include faculty representation (see above), a person from the Office of Sponsored Research, the Facilities Safety Officer, and a designee of the Chancellor.

The UAF Faculty Senate passed the following at its Meeting #114 on March 3, 2003:

MOTION:
======

The UAF Faculty Senate moves to approve a Certificate and A.A.S. in Educator: Para-Professional which includes 12 new courses.

EFFECTIVE: Fall 2003 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #41-52 and #53-54 on file in the Governance Office, 312 Signers' Hall.

Certificate consists of general requirements of 12 credits, 8 credits of certificate core, 10 credits of program requirements for total of 30 credits.

AAS consists of AAS degree requirements of 12 credits, 18 credits of program requirements, and 12 credits in a concentration area (Alaska Native Languages, Elementary Education, Special Education, Counseling/Social Work, Early Childhood Education, Microcomputer Support Specialist, Rural Development), and 18 elective credits to total 60 credits.

Board of Regents Summary Form

MAU: **University of Alaska Fairbanks**
College of Rural Alaska, Interior-Aleutians Campus

Title and brief description: **Educator: Para-Professional (EDPA)**
Certificate in Educator: Para-Professional
AAS in Educator: Para-Professional

The Educator: Para-Professional Program is designed to prepare students to work in K-12 classrooms assisting the classroom teacher. The EDPA curriculum emphasizes school protocols, classroom methods, management, and assessment. The EDPA program will provide the student the opportunity to develop the skills and qualities required for employment in a variety of educational settings.

The program was developed in consultation with school district personnel from the College of Rural Alaska service area, para-professionals, and state representatives from the Department of Education and Early Development under guidance of the University of Alaska Fairbanks faculty.

Target Admission Date: Fall, 2003

****

How does the program relate to the **Education Mission** of the University of Alaska?

The mission of the EDPA program is to provide academic and hands-on, skill-based education to students through flexible course delivery methods to meet the needs of both Alaska's rural and urban based students. To this end this program meets the vocational-technical educational responsibility of the University of Alaska Fairbanks and directly affects the following UAF 2005 Strategic Plan Goals:

- Provide high quality undergraduate education for traditional and non-traditional students
- Form active collaborations with communities, organizations, businesses, and government to meet identified state, national, and global needs
- Serve as a premiere higher educational center for Alaska Natives
- Serve as a model to demonstrate how gender, race, and cultural diversity strengthen a university and society

Describe the **State Needs** being met by this program.

As of fall 2002, there are 2,481 FTE para-professional educators in the state of Alaska. To be in compliance with the Act, each local educational agency receiving assistance under Title I must ensure that all para-professional educators have:

a. completed at least 2 years of study at an institution of higher education; or
b. obtained an associate's (or higher) degree; or
c. met a rigorous standard of quality and can demonstrate, through a formal State or local academic assessment: (i) knowledge of, and the ability to assist in instructing, reading,

writing, and mathematics; or (ii) knowledge of, and the ability to assist in instructing, reading readiness, writing readiness, and mathematics readiness, as appropriate.

These requirements must be met by existing para-professional educators by January 2006. As of January 2002, no new para-professional educators may be hired unless they have met these requirements.

The EDPA program was developed to improve educational content and classroom based skills of the para-professional educator, and to meet the requirements for para-professional educators established by the federal No Child Left Behind Act of 2002. Completion of the coursework proposed for the EDPA AAS degree will also meet and exceed the Draft State of Alaska Core Competency Standards for para-professional educators developed in 2002. This program will contribute to an educated Alaskan workforce by providing a cadre of para-professional educators.

What are the **Student** opportunities and outcomes? The enrollment projections?

The EDPA program provides a career ladder opportunity for Alaskans to enter teaching and other related fields. The following concentration area options (in addition to general requirements and program requirements) are available: Native Language, Elementary Education, Special Education, Counseling/Social Work, Early Childhood Education, Microcomputer Support Specialist, Rural Development, or other advisor approved, discipline-based concentration area.

Enrollment Estimates CRA wide:

Year	*Headcount**	*Graduates*
03-04	78	20
04-05	101	66
05-06	131	85
06-07	144	94
07-08	158	103

* Includes both full and part time

Describe the **Research** opportunities, if applicable.

While research is not a primary focus of this program, the delivery modes and utilization of local school district teachers as university instructors make the program a unique model which can be shared throughout the academic community. This program will provide long range research opportunities to compare the improvement of targeted Title I students before and after the required education of para-professional educators, the number of EDPA students transitioning into a four year program, specifically a teacher program and the comparison of rural/urban, Native, non-Native students to program completion.

Identify any additional **Faculty and Staff** requirements as well as any existing expertise and resources that will be applied.

The primary faculty/program manager and administrative support will be hired through the Interior-Aleutians Campus. Other faculty will be secured from the teaching staff of rural extended campuses as well as school district teachers, administrators and other experts and professionals qualified to teach specific courses.

Identify the impacts on existing **Technology & Facilities** as well as projected needs.

The faculty/program manager to be hired to head the EDPA Program may reside anywhere within the region served by the Interior-Aleutians Campus, thus local facilities will not be taxed for office space. In addition, current administrative support will be used.

Most of the resources used in the EDPA classes will be materials provided by school districts that support their curriculum. The impact on library and technology resources are minimal and will be limited to those needed for core classes and Internet based resources.

The College of Rural Alaska community campuses will provide classroom space for EDPA training sessions. In communities without a local university facility, training space can be found in the private sector and reasonably supported by tuition fees through partnership arrangements. In addition, collaboration with school districts will provide space to teach university courses. Therefore, through community and school district partnerships, the impact on existing UAF and CRA technology resources and facilities can be limited to existing resources.

Resource Commitment to Proposed Degree Program

Resources	Existing	New		Total
	College/School	College/School	Others(Specify)	
Regular Faculty (FTE's & dollars)	$51,365		Title III $7,500	$58,865
Adjunct Faculty (FTE's & dollars)			Title III $15,000	$15,000
Teaching Assistants (Headcount)				
Instructional Facilities (in dollars and/or sq. footage)			Partnerships: $30,000	$30,000
Office Space (Sq. footage)				
Lab Space (Sq. Footage)				
Computer & Networking (in dollars)				
Research/instructional/office Equipment (in dollars)				
Support Staff (FTE's & dollars)		Admin. Asst. $20,675	Title III for $9,014	$29,689
Supplies (in dollars)			Title III for $1,000	$1,000
Travel (in dollars)			Title III for $4,500	$4,500
Totals	**$51,365**	**$20,675**	**$67,014**	**$139,054**

Signature_____ _____

Executive Dean of College Proposing the New Degree Program

Date

The UAF Faculty Senate passed the following at its Meeting #114 on March 3, 2003:

MOTION:
======

The UAF Faculty Senate moves to add ENGL 211X or ENGL 213X (or permission of instructor) as a prerequisite for all "W" courses.

EFFECTIVE: Fall 2003

Course syllabi for "W" courses will include this prerequisite beginning with Fall 2003. This prerequisite will be added to all catalog course descriptions for "W" courses for the 2004-2005 catalog.

RATIONALE: "W" courses are intended to allow students to hone their writing skills within their chosen discipline AFTER they have successfully completed the required basic composition courses, ENGL 111X and ENGL 211X/ 213X. We are simply suggesting an alignment of the required curriculum in a manner that makes academic sense.

The Core document assumed this alignment in several places. With respect to ENGL 211X/213X, the document states:

"**To prepare students for the research papers**, the course gives students a review of library skills and familiarization with the library's holdings."

With respect to "W" courses, the document states:
"Writing-Intensive and Oral Communication-Intensive Courses:

1. **After completing the two required writing courses** and one required speech course, students will extend their experience by taking two designated Writing-Intensive courses and one Oral Communication-Intensive course."

Faculty may certainly over-ride a prerequisite, such as the one offered here, by issuing special permission.

The UAF Faculty Senate passed the following at its Meeting #114 on March 3, 2003:

MOTION:
======

The Faculty Senate moves to amend the UAF catalog "Table of Substitutions: non-University of Alaska institutions" (page 14 of the 2002-03 catalog) as follows:

[[ ]] = Deletion
CAPS = Addition

TABLE OF SUBSTITUTION

CORE CURRICULUM COURSES	**COURSES WHICH TRANSFER AS**
PHIL 322X, Ethics (Values and Choices)	an upper division course in ethics OR A LOWER-DIVISION COURSE IN ETHICS, WITH APPROVAL OF THE PHILOSOPHY DEPARTMENT.

EFFECTIVE: Immediately
Upon approval of the Chancellor.
This will appear in the 2004-05 catalog.

RATIONALE: Many schools outside of the UA system offer and encourage students to take a lower-division ethics course. Some of these courses are more-or-less equivalent, in terms of breadth and depth of coverage, to upper-division courses at UAF that satisfy the ethics core requirement. Some lower-division ethics courses taught outside of the UA system, however, are not equivalent to UAF ethics courses. It is manifestly unfair to transfer students to retake a course already taken outside of UAF. However, there is no simple mechanism to identify which lower-division ethics courses are equivalent. Hence, the Philosophy Chair is the designated gatekeeper.

The Core Review Committee routinely routes all petitions for an ethics course to the Philosophy Chair for review and advice. The Philosophy Chair often defers recommendations to other departments offering ethics courses. This catalog change will primarily formalize our current practice; it will also transfer some authority from the Core Review Committee to the Philosophy Chair. Most importantly, it alerts transfer students to the possibility of using a lower-division ethics course to satisfy the Core ethics requirement. Current wording of the catalog does not encourage students to pursue this option.

The UAF Faculty Senate passed the following at its Meeting #114 on March 3, 2003:

MOTION:
======

The UAF Faculty Senate moves to approve the Unit Criteria for the Cooperative Extension Service.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the updated unit criteria submitted by the Cooperative Extension Service. The unit criteria were found be consistent with UAF guidelines.

****

AND
COOPERATIVE EXTENSION SERVICE UNIT CRITERIA STANDARDS AND INDICES

The following is an adaptation of UAF and regents criteria for promotion and tenure, specifically developed for use in evaluating faculty in the Cooperative Extension Service. Items in capitalized and boldface are those specifically added or emphasized because of their relevance to CES faculty, and because they are additions and clarifications to UAF regulations. These unit criteria are for use in the annual evaluation of faculty as well.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment Minimum degree, experience, and performance requirements are set forth in "UAF Faculty Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans or schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

IN ACCORDANCE WITH THE BOARD OF REGENTS POLICY ON PROMOTION AND TENURE, EXTENSION AGENTS ARE EXEMPTED FROM A TRIPARTITE RESPONSIBILITY. SUCH FACULTY HAVE BIPARTITE RESPONSIBILITY. THE BIPARTITE RESPONSIBILITIES ARE TO BE CLEARLY STATED AT THE TIME OF HIRE AND CAN BE ANY COMBINATION OF TWO OF THE THREE TRIPARTITE MISSIONS, I.E., TEACHING, RESEARCH, OR SERVICE IN COMBINATION. EXTENSION SPECIALISTS AND OTHER EXTENSION FACULTY HAVE A TRIPARTITE RESPONSIBILITY.

THE COOPERATIVE EXTENSION SERVICE FACULTY HAS DEVELOPED A POLICY ON MENTORING RELATIONSHIPS FOR FACULTY WHICH PROVIDES GUIDELINES FOR THE MENTORING SYSTEM. FACULTY MEMBERS SHALL BE INFORMED OF THE OPPORTUNITY TO MAINTAIN A VOLUNTARY MENTORING RELATIONSHIP DURING THEIR CAREER DEVELOPMENT PRIOR TO THE AWARD OF TENURE.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV**, AND CES UNIT CRITERIA, STANDARDS AND INDICES,** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

STANDARD ACADEMIC TEACHING IS NOT A COMMON FORM OF INFORMATION DELIVERY IN THE COOPERATIVE EXTENSION SERVICE. INSTRUCTION OFTEN INCLUDES CONTACT WITH CLIENTELE THROUGH DISTANCE DELIVERY METHODS, WORKSHOPS, SEMINARS, TRAINING AND PUBLIC INFORMATION EVENTS.

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students **AND CLIENTELE;**

b. express positive regard for students, **BECOME FAMILIAR WITH THEIR PUBLIC,** develop good rapport with students **AND CLIENTELE,** show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student **AND CLIENTELE** participation for student learning and teacher effectiveness, are sensitive to student **AND CLIENTELE** diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings i.e. student opinion of instruction summary forms, and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair classroom observation(s),

   d. peer/department chair evaluation of course materials.

EVALUATION OF TEACHING IN AN EXTENSION CONTEXT:

TEACHING IS DEFINED AS A FORMAL PRESENTATION OF RESEARCH BASED SUBJECT MATTER. EFFECTIVE TEACHING IS COMPLEX, BUT MUST PROVIDE A LEARNING EXPERIENCE ENABLING THE LEARNER TO GAIN KNOWLEDGE, SKILLS AND/OR CHANGES IN ATTITUDES/BEHAVIOR. IT SHALL BE EVALUATED WHENEVER POSSIBLE.

EXTENSION EDUCATION DIFFERS FROM RESIDENT EDUCATION IN THAT IT ADDRESSES CLIENTELE AND PUBLIC NEEDS BY DELIVERING INFORMATION RELEVANT TO THOSE NEEDS.

STANDARDS AND INDICES OF TEACHING ACTIVITY IN THE COOPERATIVE EXTENSION SERVICE:

TEACHING AND TRANSFER OF KNOWLEDGE ARE CHARACTERIZED BY:

A. COURSES, WORKSHOPS, SEMINARS, DEMONSTRATIONS AND CURRICULUM OR PROGRAM DEVELOPMENT.

B. EDUCATIONAL VIDEOTAPES AND/OR OTHER MEDIA PRODUCED FOR PUBLIC EDUCATION, THAT REQUIRES RESEARCH AND PREPARATION.

INDICES FOR DOCUMENTING EFFECTIVE TEACHING IN AN EXTENSION CONTEXT INCLUDE:

A. DOCUMENTATION OF TEACHING TO MEET A FACULTY MEMBER'S AGREED UPON WORKLOAD.

B. DOCUMENTATION OF CHANGES IN KNOWLEDGE, SKILLS AND/OR ATTITUDES/BEHAVIOR RESULTING FROM CES INFORMATION TRANSFER.

C. DEMONSTRATING THAT CES TEACHING IS A RESPONSE TO CLIENTELE NEEDS.

D. SYSTEMATIC CLIENTELE EVALUATION OF BOTH THE PROGRAM AND THE INSTRUCTOR.

E. UNSOLICITED TESTIMONIALS.

F. DOCUMENTATION OF CONTACT HOURS WITH CLIENTELE RELATIVE TO POTENTIAL AUDIENCES.

G. EVIDENCE OF CREATIVITY AND SUCCESS IN DISTANCE DELIVERY EDUCATIONAL PROGRAMMING.

EXAMPLES OF EXCELLENCE IN TEACHING PERFORMANCE WHICH QUALIFIES A CES FACULTY MEMBER FOR PROMOTION TO THE RANK OF FULL PROFESSOR MAY INCLUDE:

1. DEVELOPMENT AND/OR ADAPTATION OF NEW METHODS AND APPROACHES IN THE DISCIPLINE, SUCH AS:

A. CREATIVE USE OF MEDIA FOR CLIENTELE EDUCATION WHICH EXTENDS THE BOUNDS OF THE DISCIPLINE AND IMPROVES EDUCATIONAL OUTREACH.

B. CURRICULUM OR PROGRAM DEVELOPMENT, WHICH ENHANCES TEACHING EFFECTIVENESS.

2. RECEIPT OF STATE OR NATIONAL AWARDS IN RECOGNITION OF OUTSTANDING TEACHING.

3. CONTINUED EXCELLENT CLIENTELE/STUDENT REVIEWS AND EVALUATIONS AS A TEACHER.

4. RECOGNITION THROUGH INVITATIONAL TEACHING OPPORTUNITIES.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research

or engage in other scholarly or creative pursuits that are appropriate the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

FACULTY ARE EXPECTED TO CONDUCT APPLIED RESEARCH OR ENGAGE IN OTHER SCHOLARLY OR CREATIVE PURSUITS THAT ARE APPROPRIATE TO THE MISSION OF THE COOPERATIVE EXTENSION SERVICE. CONSISTENT WITH THIS MISSION, EXTENSION FACULTY PROVIDE THE PUBLIC WITH RESEARCH BASED INFORMATION IN AN EASILY UNDERSTOOD FORMAT THAT CAN BE APPLIED TO DAILY LIVING AND IMPROVE THE QUALITY OF LIFE. COOPERATIVE EXTENSION SERVICE BULLETINS, FACT SHEETS AND PUBLICATIONS SHALL BE CONSIDERED A MAJOR PART OF THE DISSEMINATION OF INFORMATION BY EXTENSION FACULTY. COOPERATIVE EXTENSION SERVICE FACULTY HAVE VERY LIMITED OPPORTUNITIES TO CONDUCT TRADITIONAL RESEARCH AND VERY LIMITED ACCESS TO LABORATORIES AND GRADUATE STUDENTS. ADDITIONALLY, BIPARTITE FACULTY MAY OR MAY NOT HAVE A RESEARCH OBLIGATION.

1. **Achievement in Research, Scholarly, and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

   b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries, selection for these exhibitions being based on rigorous review and approval by **PEERS,** juries, recognized artists, or critics.

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations **AND CES PUBLICATIONS**.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

N. AWARDS OF SPECIAL FELLOWSHIPS TO DEVELOP IDEAS.

O. AUTHORSHIP OF ONE OR MANY CES PUBLICATIONS OR ARTICLES WITHIN CES PUBLICATIONS BASED ON ORIGINAL OR APPLIED RESEARCH WHICH MEETS THE CRITERIA SET FORTH IN CHAPTER III C.1. OF THIS DOCUMENT WILL BE DEEMED EQUAL TO ONE WORK PUBLISHED IN A NATIONAL OR INTERNATIONAL JOURNAL (THE NUMBER TO BE DETERMINED AND DESIGNATED BY THE CES PEER REVIEW COMMITTEE ON AN INDIVIDUAL BASIS ACCORDING TO THE LENGTH AND COMPLEXITY OF EACH PUBLICATION OR ARTICLE).

P. **NEW AND UNIQUE ADAPTATIONS OF EXISTING RESEARCH-BASED TECHNOLOGY OR KNOWLEDGE IN ORDER TO SOLVE PROBLEMS RELEVANT TO ALASKA.**

EXCELLENCE IN THE AREA OF RESEARCH OR SCHOLARLY ACTIVITY IN EXTENSION, WHICH QUALIFIES A FACULTY MEMBER FOR PROMOTION TO FULL PROFESSOR MAY INCLUDE:

1. **AUTHORSHIP OF A BOOK OR MAJOR REFERENCE IN THE FACULTY MEMBER'S AREA OF SCHOLARLY ACTIVITY.**

2. **RECEIPT OF A NATIONAL RESEARCH FELLOWSHIP.**

3. **CONTINUOUS PERFORMANCE IN RESEARCH WITH A CORRESPONDING PUBLICATION RECORD.**

4. **INTRODUCTION OF A NEW TECHNOLOGY, PRODUCT, OR IDEA WHICH DEMONSTRABLY IMPROVES THE QUALITY OF LIFE FOR ALASKANS, AND IS A CLEAR RESULT OF A FACULTY MEMBER'S EXTENSION ACTIVITY.**

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting **IN THE FACULTY MEMBER'S AREA OF EXPERTISE AND THE DISCIPLINE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE.**

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

L. ASSESSING THE RESEARCH NEEDS OF CLIENTELE AND COMMUNICATING THOSE NEEDS TO THE RESEARCH COMMUNITY.

M. MANAGING AN EFFECTIVE VOLUNTEER PROGRAM TO HELP EXTEND CES RESOURCES OR DEVELOP LEADERSHIP SKILLS.

N. REPRESENTING AND ANSWERING QUESTIONS AT CES EDUCATIONAL DISPLAYS, BOOTHS AND EXHIBITS AT PUBLIC EVENTS.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair, **PROGRAM CHAIR, OFFICE COORDINATOR** or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

3. **Evaluation of Service**
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

STANDARDS AND INDICES FOR PUBLIC AND UNIVERSITY SERVICE:

IN ADDITION TO UNIVERSITY REGULATIONS ON THE EVALUATION OF PUBLIC SERVICE, THE FOLLOWING ACTIVITIES FURTHER EXEMPLIFY PUBLIC SERVICE STANDARDS IN EXTENSION'S ROLE:

A. INITIATION AND FACILITATION OF PUBLIC EDUCATIONAL EVENTS.

B. PRODUCING AND PUBLISHING POPULAR PRESS ARTICLES AND NEWSLETTERS.

C. MEDIA PRESENTATIONS AND PUBLIC INTERVIEWS, E.G., TV, RADIO, FILM, NEWSPAPERS AND VIDEOTAPES.

D. DEMONSTRATED ABILITY TO RESPOND TO NEW KNOWLEDGE AND DEVELOPMENTS IN THE DISCIPLINE BY RAPIDLY RAISING PUBLIC UNDERSTANDING AND AWARENESS THROUGH AVAILABLE EDUCATIONAL MEDIA AND METHODS.

E. **INDIVIDUAL INSTRUCTION, INCLUDING PERSONAL CONSULTATIONS.**

F. **EXEMPLARY RESPONSE IN EMERGENCY SITUATIONS RENDERED IN AN EXTENSION ROLE, AS AGENT OR STATEWIDE SPECIALIST, TO CLIENTELE WHICH FACED THE EMERGENCY/IES.**

INDICES FOR PUBLIC SERVICE PERFORMANCE BY COOPERATIVE EXTENSION SERVICE FACULTY:

A. **CES PUBLICATIONS WITH A DOCUMENTED RECORD OF INTERNAL PEER REVIEW. ADDITIONAL REVIEW OUTSIDE CES IS ENCOURAGED.**

B. **DOCUMENTATION OF SERVICE ACTIVITIES PLANNED ON A CONTINUING PROGRAMMATIC BASIS.**

C. **UNSOLICITED TESTIMONIALS DEMONSTRATING OUTCOMES AND/OR EFFECTIVENESS OF SERVICE ACTIVITIES.**

D. **AWARDS AND RECOGNITIONS FROM THE PUBLIC SECTOR.**

E. **DOCUMENTING PUBLIC NEEDS AND BRINGING TO BEAR THE RESOURCES OF THE UNIVERSITY AND OTHER ENTITIES IN MEETING THOSE NEEDS.**

F. **DEMONSTRATING THE IMPACTS WHICH RESULT FROM PUBLIC SERVICE THROUGH EXTENSION.**

EXCELLENCE IN SERVICE OR RECOGNITION OF SERVICE WHICH QUALIFIES A CES FACULTY MEMBER FOR PROMOTION TO FULL PROFESSOR MAY INCLUDE:

1. **INVITATIONAL SERVICE ON NATIONAL OR INTERNATIONAL BOARDS, REVIEW COMMITTEES, AWARD COMMISSIONS OR SCHOLARSHIP COMMISSIONS.**

2. **NATIONAL LEADERSHIP IN A PROFESSIONAL ORGANIZATION.**

3. **RECOGNITION THROUGH INVITATIONAL SPEAKING ENGAGEMENTS ON TOPICS WHICH CONSTITUTE PUBLIC SERVICE.**

4. **OUTSTANDING UNIVERSITY SERVICE, SUCH AS SERVICE AS A FACULTY SENATE OFFICER, FACULTY SENATE COMMITTEE CHAIR, OR MEMBER OF A MAJOR ADMINISTRATIVE SEARCH COMMITTEE.**

5. **RECOGNITION THROUGH RECEIPT OF PUBLIC SERVICE AWARDS, OR AWARDS FOR SERVICE TO THE UNIVERSITY.**

6. **RECEIPT OF A NATIONAL ASSOCIATION, USDA, OR PROFESSIONAL SOCIETY SERVICE AWARD.**

7. **PARTICIPATION IN A VOLUNTARY MENTORING RELATIONSHIP WITH JUNIOR FACULTY TO FACILITATE THEIR PROGRESS TOWARD PROMOTION AND TENURE.**

Revised December 2002

The UAF Faculty Senate passed the following at its Meeting #113 on February 3, 2003:

MOTION:
=======

The UAF Faculty Senate moves to change the Low Grade Report system for freshmen students to Freshmen Progress Reports, in which all freshman grades would be reported.

EFFECTIVE: Fall 2003

RATIONALE: The eight faculty and other staff members of the Early Warning Program recommended this change as part of an overall effort to provide personal intervention in a more positive assistance approach rather than what might appear as punitive. Specific issues forwarded by this group include:

* All faculty and instructors teaching classes with freshmen enrolled should submit Freshmen Progress Reports for <u>all</u> freshmen, not just for those who are doing poorly
* This switch from Low Grade Reports to Freshmen Progress Reports will assist all freshmen with the transition into college and provide an additional connection between students and faculty
* To make the process expedient, timely, and user-friendly, Freshmen Progress Reports should be available for faculty and instructors to submit electronically
* Students should be able to access their individual progress report electronically, as well as continued mailings to students at their current local address
* Freshmen Progress Reports need to be formatted in a clear and concise manner to eliminate extraneous information.
* The report will be provided to students at all UAF campuses.

The UAF Faculty Senate passed the following at its Meeting #113 on February 3, 2003:

MOTION:
======

The UAF Faculty Senate moves to amend the Baccalaureate Core Curriculum (page 29 of the 2002-03 catalog) as follows:

[[ ]] = Deletion
CAPS = Addition

BACCALAUREATE CORE

[[Courses used to meet core requirements may not be used to meet any other requirements for a degree.]]

COURSES USED TO MEET A SCIENCE OR MATHEMATICS CORE REQUIREMENT MAY ALSO BE USED TO SATISFY OTHER DEGREE REQUIREMENTS. OTHER CORE COURSES MAY NOT BE USED TO MEET ANY OTHER REQUIREMENTS FOR A DEGREE.

EFFECTIVE: Fall 2003

RATIONALE:

(1) This motion is a simplified version of one unanimously approved by the Dean's council of CSEM in December 2002 for consideration by the Faculty Senate. The wording of this simplified version was suggested and approved by Ms. Gayle Gregory, Graduation Manager. This motion has received the unanimous approval of the Faculty Senate's Core Review Committee.

(2) In effect, this policy will simply formalize current degree requirements. For example, the B.S. Chemistry requirements start off:
"1. Complete the general university requirements. (As part of the core curriculum requirements, complete Math 200X; Phys 103X and Phys 104X or Phys 211X and Phys 212X)."

Degree requirements for all other B.S. and B.A. degrees in sciences have similar wording to accomplish the same task.

(3) It was the intention of the science core committee (at

the invention of the current UAF Core) that the science and math core requirements serve as ‘minimum’, not as stand-alone requirements. We simply wish to ensure that all baccalaureate students graduate with at least one college-level math and 2 college-level science courses. It was expected that in many cases these minimum courses were used to satisfy other requirements. The proposed wording simply clarifies the situation.

The UAF Faculty Senate passed the following at its Meeting #113 on February 3, 2003:

MOTION:
======

The UAF Faculty Senate moves to approve the Unit Criteria for the School of Mineral Engineering (SME).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the School of Mineral Engineering (SME). With some minor changes, agreed upon by the department representative, Godwin Chukwu, the unit criteria were found to be consistent with UAF guidelines.

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, PERIODIC REVIEW, RE-APPOINTMENT, PROMOTION, AND TENURE

AND
SCHOOL OF MINERAL ENGINEERING UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE SCHOOL OF MINERAL ENGINEERING. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE SCHOOL OF MINERAL ENGINEERING FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I.

PURVIEW

The University of Alaska Fairbanks document, “Faculty Appointment and Evaluation Policies,” supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II.

INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor’s designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university’s stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III.

EVALUATION OF FACULTY FOR TENURE/PROMOTION

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND SME UNIT CRITERIA, STANDARDS AND INDICES***, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching.

H. DISSEMINATE NEW IDEAS TO THE STUDENTS RESULTING FROM RESEARCH AND OTHER ENGINEERING ACTIVITIES, SUCH AS CONSULTING AND SERVICE ON REVIEW PANELS;

I. INVOLVE STUDENTS, UNDERGRADUATES AS WELL AS GRADUATES, IN QUALITY RESEARCH ACTIVITIES.

J. ENGAGE IN ADVISING AND MENTORING STUDENTS.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation, ***WHICH DOCUMENTS EFFORTS TO IMPROVE INSTRUCTIONAL PERFORMANCE.***

   c. peer/department chair classroom/***LABORATORY*** observation(s),

   d. peer/department chair evaluation of course materials.

SPECIFIC SME CRITERIA FOR TEACHING PERFORMANCE BEFORE APPOINTMENT OR PROMOTION TO:

A. ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO QUALITY TEACHING AND EVIDENCE OF CONTINUED IMPROVEMENT.

B. ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE MATERIAL TAUGHT IS RELEVANT AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT NOT LIMITED TO) COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, EFFECTIVE GUIDING AND MENTORING OF STUDENTS, AND EFFECTIVE CLASSROOM TEACHING PERFORMANCE. THERE MUST BE EVIDENCE OF SUPERVISION OF GRADUATE STUDENT RESEARCH (AS A MAJOR SUPERVISOR OR CO-SUPERVISOR) LEADING TO SUCCESSFUL COMPLETION OF THE DEGREE PROGRAM.

C. PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE INCLUDE , BUT ARE NOT LIMITED TO CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, UPGRADING OF INSTRUCTIONAL FACILITIES, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS, AND TRAINING OF GRADUATE STUDENTS LEADING TO SUCCESSFUL COMPLETION OF THEIR DEGREE PROGRAM(S).

C. Criteria for Research, Scholarly, and Creative Activity
   Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research

or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

   f. Editing or refereeing articles or proposals for professional journals or organizations.

   g. Scholarly reviews of publications, art works and performance of the candidate.

   h. Citations of research in scholarly publications.

   i. Published abstracts of research papers.

   j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

   k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC CRITERIA FOR RESEARCH PERFORMANCE BEFORE PROMOTION OR APPOINTMENT TO:

A. ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE AREA OF SPECIALIZATION.

B. ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM WHICH PRODUCES SATISFACTORY PUBLICATIONS IN REFEREED PROFESSIONAL JOURNALS AND PRESENTED RESEARCH RESULTS AT PROFESSIONAL MEETINGS. THE SUBMISSION OF RESEARCH PROPOSALS, THE COMPLETION OF CONTRACT RESEARCH REPORTS, AND PUBLICATION IN CONFERENCE PROCEEDINGS CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE RESEARCH PROGRAM IS OF HIGH QUALITY. MUST SHOW EVIDENCE OF SUSTAINED RESEARCH PRODUCTIVITY AND PUBLICATION. THE FACULTY MEMBER MUST SHOW INDEPENDENCE AND LEADERSHIP BY THE CREATION OF RESEARCH IDEAS THAT INVOLVE STUDENTS.

C. PROFESSOR: THE RESEARCH PROGRAM SHOULD HAVE PRODUCED SUFFICIENT PUBLICATION IN THE REFEREED PROFESSIONAL LITERATURE, AND THERE SHOULD BE A RECORD OF STUDENT INVOLVEMENT. THE PUBLICATIONS SHOULD BE OF SUFFICIENT QUALITY AND QUANTITY TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM. A NATIONAL OR INTERNATIONAL REPUTATION (AS DEMONSTRATED BY PROFESSIONAL ACTIVITIES OR PRESENTATIONS AT MEETINGS AND DOCUMENTED OPINIONS OF OTHER ENGINEERS AND SCIENTISTS IN THE FIELD) IS EXPECTED. THERE SHOULD BE A RECORD OF SUCCESSFUL COMPLETION OF GRADUATE WORK BY HIS OR HER STUDENTS. THERE SHOULD BE DEMONSTRATED EVIDENCE OF EXTERNAL RESEARCH FUNDING.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial

obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting.

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

   i. Training and facilitating.

   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service
   University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

K. PARTICIPATION IN STUDENT RECRUITING.

3. Evaluation of Service
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC SME CRITERIA FOR SERVICE PERFORMANCE BEFORE PROMOTION OR APPOINTMENT TO:

A. ASSISTANT PROFESSOR: EVIDENCE OF UNIVERSITY/PUBLIC SERVICE

B. ASSOCIATE PROFESSOR: CONTRIBUTIONS TO DEPARTMENT/SCHOOL/COLLEGE/UNIVERSITY MATTERS. CONTRIBUTIONS TO THE PUBLIC, INDUSTRY, GOVERNMENT AGENCIES AND SERVICE TO THE PROFESSION.

C. PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. CONTRIBUTIONS TO

DEPARTMENTAL/SCHOOL/COLLEGE/ UNIVERSITY MATTERS ARE EXPECTED AS WELL AS EFFECTIVE APPLICATION OF EXPERTISE TO PROFESSIONAL AND PUBLIC ORGANIZATIONS.

12/12/02

The UAF Faculty Senate passed the following at its Meeting #113 on February 3, 2003:

MOTION TABLED:
==========

The UAF Faculty Senate moves to add ENGL 211X or ENGL 213X as a prerequisite for all "W" courses.

EFFECTIVE: 2003-04 academic year.

Course syllabi for "W" courses will include this course as a prerequisite beginning Fall 2003. This prerequisite will be added to all catalog course descriptions for the 2004-05 catalog.

RATIONALE: "W" courses are intended to allow students to hone their writing skills within their chosen discipline. ENGL 211X/213X provides "instruction in critical reading and argumentative writing". These are foundation courses for Written Intensive courses, and should be treated as such. Successful completion of ENGL 211X/213X should ensure that students are fully prepared meet the writing requirements of the advanced courses.

Past Senate action 1) added ENGL 111X as a prerequisite for "W" courses, AND 2) adopted the position that all Core requirements should be completed before the junior year. This motion is consistent with past Senate actions.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

RESOLUTION OF RECOGNITION

WHEREAS, The UAF men's basketball team made history as the first NCAA Division II team to win an eight-team Division I tournament in the history of college basketball, and

WHEREAS, Several UAF players were formally recognized for their exceptional performances, and

WHEREAS, The UAF men's basketball staff and players exhibited their dedication to teamwork and sportsmanlike conduct, and

WHEREAS, Throughout the tournament the entire team and staff were outstanding representatives of UAF, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate wishes to recognize the outstanding achievement of the UAF Men's Basketball Team.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to amend the UAF Governance Coordinating Committee (GCC) Procedures for the purposes establishing a new standing committee for Diversity and Tolerance. The GCC Procedures shall be amended as indicated below.

EFFECTIVE: Immediately

RATIONALE: The promotion of diversity and tolerance at UAF transcends any single group of constituents, and the activity extends beyond a limited timeframe. The GCC has determined the need to address topics of discrimination, freedom of speech, and a multi-cultural campus environment can be served best by leveraging support from all UAF governance bodies.

****

Deletions = [[ ]]
Additions = CAPS

GOVERNANCE COORDINATING COMMITTEE PROCEDURES

ARTICLE V Committees

Sect. 1 The standing committees of the UAF Governance Coordinating Committee shall include:

Intercollegiate Athletics Committee
Rural Affairs Committee
Health Issues
DIVERSITY AND TOLERANCE

Sect. 2

A. Standing committees shall have at least one representative from each of the governance constituencies, exception will be made when agreed upon by all constituencies.
B. Terms of all committee members will be one year for students and two years for faculty and staff.

C. Committee chairs will be elected from and by the respective committees.

D. Committee chairs shall forward committee business to the UAF Governance Coordinating Committee for disposition, except when limited by University of Alaska regulations.

E. Policy items from the standing committees must be forwarded to the individual governance bodies for action.

F. In addition to the committees' specific charges, the primary responsibility of the committees are formulation and oversight of university-wide policies under the purview of each committee.

G. Committees will meet as needed during the academic year to fulfill their duties.

H. The chairs of the standing committees will report recommendations at the [[monthly]] UAF Governance Coordinating Committee meetings.

Sect. 3 Standing Committees Charges

A. Intercollegiate Athletics Committee

The charge of the Intercollegiate Athletic Committee shall be to:

1. exercise oversight of the direction of the Intercollegiate Athletics Program.
2. investigate compliance with NCAA and conference regulations.
3. participate in the evaluation of intercollegiate programs

B. Rural Affairs

The charge of the Rural Affairs committee shall be to:

1. oversee the general welfare of the UAF community not residing on the Fairbanks campus.
2. monitor all activities affecting compliance with the Rural College mission statement of the University of Alaska Fairbanks.

C. Health Issues Committee

The charge of the Health Issues committee shall be to:

1. address health issues which affect the work environment.

2. coordinate efforts with the Health Center, Fire Department, Risk Management, and Public Safety to find solutions to health issues.

D. DIVERSITY AND TOLERANCE COMMITTEE

THE CHARGE OF THE DIVERSITY AND TOLERANCE COMMITTEE SHALL BE TO:

1. ADDRESS ISSUES REGARDING THE PROMOTION OF DIVERSITY AND TOLERANCE OF THE UAF CAMPUS AND AFFILIATED RURAL SITES.

2. RECOMMEND POLICIES, PROCEDURES, AND ACTIVITIES TO PROMOTE NON-DISCRIMINATION, HARASSMENT PREVENTION, FREEDOM OF SPEECH, AND MULTI-CULTURAL AWARENESS.

3. COORDINATE EFFORTS WITH THE OFFICE OF MULTICULTURAL AFFAIRS, THE ASSISTANT TO THE CHANCELLOR FOR CAMPUS DIVERSITY AND COMPLIANCE, UAF HUMAN RESOURCES, AS WELL AS OTHER OFFICES OR GROUPS NEEDED TO ACCOMPLISH THE COMMITTEE'S MISSION.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Permanent) of the Bylaws pertaining to the Developmental Studies Committee membership.

EFFECTIVE: Immediately

RATIONALE: SSSP is a component area and should be included as a member.

****

CAPS - Addition
[[ ]] - Deletion

PERMANENT

2. The Developmental Studies Committee will include one representative from each of the following units: Northwest Campus; Chukchi Campus; Kuskokwim Campus; Bristol Bay Campus; Interior-Aleutians Campus; College of Science, Engineering and Mathematics: Science Department (Biology, Chemistry, Geology, or Physics), and Mathematics Department; the College of Liberal Arts: English Department, and Cross Cultural Communications Department; the College of Rural Alaska Developmental Studies Division; Rural Student Services; Advising Center; STUDENT SUPPORT SERVICES PROGRAM; and two representatives from the Tanana Valley Campus.

   The Developmental Studies Committee shall consider policies concerning developmental education: programs, courses, instructional development, evaluation, and assessment. This committee will function as a curriculum council review committee for all developmental studies courses. Discipline based developmental courses will be reviewed by the appropriate college

curriculum council before submission to this committee for review and coordination.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to delete the B.A. in Human Service (HMSV).

EFFECTIVE: Fall 2003 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #23 on file in the Governance Office, 312 Signers' Hall.

Students no longer accepted into the program after 1987, last graduate was in 1994; all but two advising courses have been dropped.

****

Executive Summary
B.A., Human Service

The program was initiated in 1986 as an option for those interested in working in the human services. Insofar as human services program is not constrained by accreditation standards, it was seen at the time as a viable option for rural students who had limited course offerings. The social work program is constrained only in maintaining educational standards by its accreditors. The social work program has been successfully delivering its curriculum to rural sites since 1987. It was difficult to explain to students and others the differences between the two programs. There was neither need nor resources to deliver two programs to train social service providers. Therefore it was decided in 1987 that students would no longer be accepted in the Human Services Program. The last graduation from the Human Services program was in 1994.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (w/1 nay)
==========

The UAF Faculty Senate moves to approve a B.S. in Computer Engineering degree program.

EFFECTIVE:	Fall 2003 or Upon Board of Regents' Approval
RATIONALE:	See full program proposal #119 and 120 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary
Bachelor of Science in Computer Engineering

Computer engineering is a relatively new discipline that merges the fields of electrical engineering and computer science. The discipline of computer engineering (CompE) educates engineers in the theory, design, technology and application of computing devices. This discipline draws on hardware (electrical engineering) and software (computer science) concepts to design and implement computer hardware and software systems to solve problems. The understanding of both software and hardware allows the computer engineer to view the design and development of hardware and software as two intimately linked parts of one activity. A computer engineer might be involved in fundamental research, hardware design and fabrication, software system design, or systems integration. Applications of computer engineering can be found in communication systems, the entertainment industry, mobile robot systems, motor vehicle systems, instrumentation, manufacturing processes, intelligent electronics, and many others.

The graduates of the computer engineering program will fill technological needs in Alaskan industry that are increasing, and that are currently filled by immigrants to the state. The computer engineering program will retain Alaskan students in state. The program will provide a high tech foundation for supporting state government, existing state industry, and high tech or computer start up companies, fostering economic growth.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to approve a minor in Environmental Politics.

EFFECTIVE: Fall 2003 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #22 on file in the Governance Office, 312 Signers' Hall.

Uses existing courses to provide a focused minor requiring 15 credits--requires PS 101, recommends PS 100X as part of the Core, and 12 credits of 400 level courses.

****

Executive Summary
Minor in Environmental Politics

Students taking this minor will explore the local, national and international contexts within which key political decisions about the environment are made. Courses examine philosophical and theoretical perspectives on the environment; the ways in which different countries address issues of resource development and environmental regulation; international environmental laws, treaties and institutions; the relationship between environmental protection and national security; the relationship between politics and environmental science; and the interplay of environmental concerns and the international political economy.

The UAF Faculty Senate took the following action at its Meeting #112 on December 9, 2002:

MOTION REFERRED BACK TO COMMITTEE:
==========

The UAF Faculty Senate moves to amend the Local Advance Placement Credit for Foreign Languages (p. 15, 2002-2003 catalog).

[[ ]] = Deletion
CAPS = Addition

Foreign Language

After completing A FOREIGN LANGUAGE COURSE TAUGHT AT UAF (102-431) [[the course in which you were placed (above 101)]] and earning a "B" grade or higher, you may ask to receive [["bonus]] credit for the two [[immediately]] preceding [[prerequisite]] courses[[, if any]]. However, credit cannot be awarded for such courses if university credit has already been granted for them (for example, through College Board Advanced Placement national tests or credit transfer from another college). [[Bonus]] Credit will not be awarded IF THE COURSE TAKEN IS A CONVERSATION COURSE, [[for]] special topics course[[s]], individual study course[[s]], [[literature or culture courses]] OR FOREIGN LANGUAGE COURSE TAUGHT IN ENGLISH. YOU MUST SUBMIT AN APPLICATION FOR FOREIGN LANGUAGE CREDIT FORM FROM THE DEPARTMENT OF FOREIGN LANGUAGES TO THE OFFICE OF ADMISSIONS AT THE END OF THE SEMESTER IN WHICH YOU COMPLETED YOUR COURSE.

EFFECTIVE: Immediately

RATIONALE: Foreign Language's request to grant credits for prior courses for students who begin at the 400-level (rather than the 300-level, as is the current procedure) is to allow for the increasing number of native speakers, especially in Spanish. These students do not need to take 200- and 300- level language review classes, and should be able to start in the 400-level literature and culture courses. But since the 200- and 300- level courses are required for the major, native speakers of the language currently have to enroll for those courses.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to amend the requirements for the Associate of Applied Science degree as follows:

EFFECTIVE: Fall 2003

RATIONALE: This amendment adds courses to the Related Instructional areas of Computation and Human Relations. Additionally, it brings requirements from various portions of the catalog together that affect the AAS Degree.

****

[[ ]] = deletion
CAPS = addition

ASSOCIATE OF APPLIED SCIENCE

Associate of Applied Science degrees are awarded in specific occupational fields with emphasis on entering the job market. This degree, usually seen as a terminal degree, can serve as the basis for additional education. For specific major requirements, refer to the degrees and programs section of this catalog.

Note: students planning to go on to a baccalaureate degree need to work closely with their advisors and are encouraged to select courses meeting core requirements and courses designated within majors and minors. Only those courses with an "X" designator count towards the baccalaureate core

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to amend the requirements for the Certificate Programs as follows.

EFFECTIVE: Fall 2003

RATIONALE: The accreditation self-study and the subsequent accreditation visit identified that UAF has no stated certificate requirements in the catalogue for related instruction nor any statement of a standard for the inclusion of related instruction in certificate programs to guide the design of curricula. Consequently, it has not been widely recognized that there is such a requirement. This motion corrects that deficiency. Additionally, it brings requirements from various portions of the catalog together that affect the Certificate Programs.

****

[[ ]] = deletion
CAPS = addition

CERTIFICATE PROGRAMS

Certificate programs vary in length; however, you can usually complete them in one year. CERTIFICATES ARE AWARDED IN SPECIFIC OCCUPATIONAL FIELDS WITH EMPHASIS ON ENTERING THE JOB MARKET. THESE CERTIFICATES CAN SERVE AS THE BASIS FOR ADDITIONAL EDUCATION AND ARE THE FIRST STEP TOWARDS AN ASSOCIATE OF APPLIED SCIENCE DEGREE. FOR SPECIFIC MAJOR REQUIREMENTS, REFER TO THE DEGREES AND PROGRAMS SECTION OF THIS CATALOG.

Only degree requirements in effect within five academic years prior to your graduation date for a certificate may be used. You are considered enrolled in your degree program when you complete the appropriate degree student registration procedure. If you do not enroll for a semester or more, or if you enroll through the non-degree process, you are not considered enrolled as a degree student during that time. IF YOUR DEGREE PROGRAM IS DELIVERED COLLABORATIVELY WITHIN THE UA SYSTEM THEN THE CREDITS YOU EARN FROM EACH UA INSTITUTION WILL BE

COUNTED TOWARD FULFILLMENT OF THE DEGREE REQUIREMENTS AND FULFILLMENT OF THE MINIMUM INSTITUTIONAL RESIDENCY REQUIREMENTS.

YOU MAY ENROLL IN ANY COURSE FOR WHICH YOU ARE ELIGIBLE. TO EARN A CERTIFICATE, YOU MUST FORMALLY BE ADMITTED AND YOU MUST EARN AT LEAST 30 CREDITS, INCLUDING TRANSFER CREDIT. FIFTEEN SEMESTER HOURS MUST BE RESIDENCE CREDITS. YOU MUST HAVE A CUMULATIVE GRADE POINT AVERAGE OF AT LEAST 2.0 IN ALL WORK, AS WELL AS IN YOUR MAJOR. PROGRAMS OF STUDY FOR WHICH CERTIFICATES ARE GRANTED MUST CONTAIN A RECOGNIZABLE BODY OF INSTRUCTION IN THE PROGRAM-RELATED AREAS OF 1) COMMUNICATION, 2) COMPUTATION, AND 3) HUMAN RELATIONS. ADDITIONAL TOPICS WHICH MAY BE COVERED AS APPROPRIATE INCLUDE SAFETY, INDUSTRIAL SAFETY, AND ENVIRONMENTAL AWARENESS. INSTRUCTION IN THE RELATED INSTRUCTIONAL AREAS MAY BE EITHER EMBEDDED WITHIN THE PROGRAM CURRICULUM OR TAUGHT IN BLOCKS OF SPECIALIZED INSTRUCTION. EACH APPROACH, HOWEVER, WILL HAVE CLEARLY IDENTIFIED CONTENT THAT IS PERTINENT TO THE GENERAL PROGRAM OF STUDY.

NOTE: STUDENTS PLANNING TO GO ON TO A BACCALAUREATE DEGREE NEED TO WORK CLOSELY WITH THEIR ADVISORS AND ARE ENCOURAGED TO SELECT COURSES MEETING CORE REQUIREMENTS AND COURSES DESIGNATED WITHIN MAJORS AND MINORS. ONLY THOSE COURSES WITH AN "X" DESIGNATOR COUNT TOWARDS THE BACCALAUREATE CORE

REQUIREMENTS ..... **CREDITS**

[[To enroll in a certificate program, and before receiving a certificate, you must formally be admitted. To earn a certificate, you may enroll in any course for which you are eligible. To earn a certificate, you must earn at least 30 credits, including transfer credit. Fifteen semester hours must be residence credits. You must have a grade point average of 2.0 in all work, as well as in your major.]]

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to delete the M.A.T., Secondary.

EFFECTIVE: Fall 2003 or
Upon Board of Regents' Approval

RATIONALE: Admission was suspended in 2000; new option in the M.Ed. has replaced this degree. See full program proposal #28 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary
M.A.T., Secondary

In 1998, in conjunction with the development of new post-baccalaureate teacher education programs for elementary and secondary teachers, the School of Education developed a secondary program that allowed post-baccalaureate teacher education students to earn an MAT degree in conjunction with the coursework and internship required for a teacher education license. After three years, with ongoing review and reflection of the advantages and disadvantages of the MAT option (including the solicitation of a great deal of feedback from mentor teachers and administrators), the School of Education suspended admission to its MAT programs in 2000.

In place of the MAT, the School of Education designed an option for post-baccalaureate teacher education students to pursue the more respected and more rigorous M.Ed. This option allows post-baccalaureate students to use 15 of the required 30 credits from their licensure program to satisfy one-half of the 30 credits required for a M.Ed. degree in Curriculum and Instruction.

This new option has been in place for two years and the response from students, university faculty, and school district personnel has been very positive. In contrast to the MAT degree, the M.Ed. provides the option for students who complete our post-baccalaureate teacher education programs to continue their graduate work with us, and it provides the opportunity for the School of Education to provide professional development and support for beginning teachers. The M.Ed. can also be used as a foundation for a Ph.D. because of its requirement for research and the completion of a research project or a thesis.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

MOTION PASSED: (unanimous)
==========

The UAF Faculty Senate moves to delete the M.A.T., Secondary Licensed Teachers.

EFFECTIVE: Fall 2003 or
Upon Board of Regents' Approval

RATIONALE: New option in the M.Ed. has replaced the need for this degree; no students currently in program. See full program proposal #29 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary
M.A.T., Secondary Licensed Teachers

In 1999, in conjunction with the development of new post-baccalaureate teacher education programs for elementary and secondary teachers, the School of Education developed: (1) a secondary MAT degree for teachers who held either BA/BS degrees and (2) B.Ed. degrees, and additionally were licensed K-12 teachers, to pursue a MAT degree to enhance their content knowledge and receive current educational philosophy and pedagogy courses. After four years, with ongoing review and reflection of the advantages and disadvantages of the MAT option, during which only one student applied for either option and then choose to complete a different degree, the School of Education made a decision to delete both options of this degree.

In place of the MAT, the School of Education offers the option to pursue the more respected and more rigorous M.Ed.

The M.Ed. provides the opportunity for the School of Education to provide professional development and support for teachers. The M.Ed. can also be used as a foundation for a Ph.D. because of its requirements for research and for the completion of a research project or a thesis.

The UAF Faculty Senate did not approve the following at its Meeting #112 on December 9, 2002:

MOTION FAILED: (6 yes, 13 nays)
==========

The UAF Faculty Senate moves to recommend that the proposed Revised Regents' Policy and draft Regulations 04.04.040.A.1.e(1) - "Distinguished and University Professors" as submitted by the Faculty Alliance be accepted.

EFFECTIVE: Immediately

RATIONALE: The Faculty Senate discussed the revised draft of the Regents' Policy and proposed Regulations for the selection of Distinguished University Professor, forwarded to the Faculty Senate for review, and moves to support the draft, with its recommendation that it be accepted by the Faculty Alliance.

****

REVISED REGENTS POLICY 04.04.040.A.1.e.(1)

Distinguished [[and]] University Professors. [[Tenured a]] Appointment as Distinguished [[Teaching Professor, Distinguished Research Professor, Distinguished Service Professor or]] University Professor may be given by action of the Board of Regents on recommendation of the faculty and concurrence of the Chancellor and the President. THE SELECTION CRITERIA AND PROCEDURES ARE SET FORTH IN UNIVERSITY REGULATION.

****

PROPOSED REGULATION 04.04.040.A.1.e. (1)

DISTINGUISHED UNIVERSITY PROFESSOR*

The title "distinguished professor" is bestowed on members of the faculty who have distinguished themselves as exemplary teachers, scholars, and public servants, and who are individuals having extraordinary international importance and recognition. The designation of "distinguished professor" is established by the Policies of the Board

of Regents. The title "Distinguished University Professor" is a lifetime award/honor, meaning that the award lasts as long as the professor is employed at the University of Alaska.

University-wide Criteria

The title "Distinguished Professor" is extended to recognize the outstanding contributions of University of Alaska faculty members to their academic disciplines. Candidates recommended for a distinguished professorship must demonstrate accomplishments in exemplary teaching and/or distinguished scholarship or creative work.

The very nature of the title "distinguished" implies that there will be a limited number of faculty holding this title. It is intended to signify a select group of faculty members who are leaders in their respective fields as attested to by national or international recognition and/or their significant public service achievements. Candidates for the honor of being selected as Distinguished University Professor should have attained the rank of tenured full professor.

Procedures

1. Each campus will develop its own internal procedures for nominating distinguished professorships, consistent with Regents policy. Such nominations must be reviewed by the dean of the appropriate school or college, and must be screened by a committee of senior faculty peers who will advise the chancellor on the merits of each proposal. Each MAU may develop its own minimum criteria for nominations.

2. Following campus review and approval by the chancellor, recommendations and supporting documentation will be submitted to the President's Office. The following materials will accompany each recommendation:

    A. Evidence concerning the distinguished accomplishments of the individual’s tripartite or bipartite responsibilities, including letters from faculty peers both within and outside the institution who are qualified to judge the accomplishments of the individual;

    B. Evidence concerning the national and, where appropriate, international recognition of the candidate including national and international honors and awards, and significant original contributions to his/her discipline; and

    C. Evidence concerning the public service achievements of the candidate as appropriate to the discipline at interest.

3. A systemwide committee of the Alliance shall review all the proposals and shall forward their recommendations on to the President.

4. Recommendations approved by both the Alliance and the President will be transmitted to the Board of Regents for action, accompanied by appropriate documentation. If the President does not approve a campus recommendation, he will transmit his reasons to the Alliance and the campus chancellor.

5. This is a single type of appointment and the number should be capped by the MAU and the president. Since this is selective, the number should not exceed five percent of the faculty.

6. This award includes, at a minimum, a plaque and special cords to be worn with their graduation regalia, as well as all the rights, honors and privileges thereto.

The UAF Faculty Senate passed the following at its Meeting #112 on December 9, 2002:

RESOLUTION PASSED: (11 yes, 7 nays)
==========

WHERAS, In order to support the UAF strategic plan, the UAF academic development plan, and UAF's aspirations as the nation's northernmost Land, Sea, and Space Grant institution, the university needs a strong graduate school headed by a full-time dean, and

WHEREAS, the Faculty Senate believes that it would be a serious mistake to replace the existing Dean of the Graduate School position with a new Vice Provost for Graduate and Instructional Affairs and Dean of the Graduate School position, and

WHEREAS, A full-time Dean of the Graduate School with responsibilities dedicated to graduate education and research, who is the product of an aggressive external search, will best serve graduate education and research at UAF, now

THEREFORE BE IT RESOLVED, That the Faculty Senate proposes the following:

1. The proposed plan to eliminate the existing full-time Dean of the Graduate School position should be abandoned.
2. The proposed plan to create a new Vice Provost for Graduate and Instructional Affairs and Dean of the Graduate School position should be abandoned.
3. The University should implement an immediate external search for a full-time Dean of the Graduate School in order to fill the existing position.

The UAF Faculty Senate passed the following at its' Meeting #111 on October 28, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the requirements for the Associate of Arts degree to include Math 161 as a course that will satisfy the Mathematics or Natural Science requirement as follows:

EFFECTIVE: Fall 2003

RATIONALE: The Math department has recommended that Math 161 be included in the list of math classes that will satisfy the Core math requirement. This motion will bring the AA degree into line with the Core requirements.

****

[[ ]] = deletion
CAPS = addition

Associate of Arts

The Associate of Arts degree represents the completion of broad-based college study. This degree may serve as a starting point for a career or a stepping stone to a baccalaureate program. A student may earn only one A.A. degree.

Requirements **Credits**

All credits for the A.A. degree must be at the 100 level or above, and 20 credits must be at the 200 level or above, and be distributed as follows:

Communications: (9 credits)

ENGL 111X --Introduction to Academic Writing 3
ENGL 211X --Academic Writing about Literature
or ENGL 212-- Business, Grant and Report Writing
or ENGL 213X--Academic Writing about the Social
and Natural Sciences 3
COMM 131X --Fundamentals of Oral Communication:
Group Context
or COMM 141X --Fundamental of Oral Communication:
Public Context 3

Mathematics or Natural Science: (10 Credits)

MATH 107X-Functions of Calculus		
OR MATH 131X-Concepts and Contemporary Applications of Mathematics		
OR MATH 161X-ALGEBRA FOR BUSINESS AND ECONOMICS		3
(OR Math 200X, 201X, 202X, 272X, or any math course having one of these as a prerequisite)		
One natural science course, with lab, selected from the baccalaureate core	4	
Mathematics (computer science, mathematics or statistics course at the 100-level or above) or natural science	3	

Humanities and Social Science: (18 Credits)

ANTH 100X/SOC 100X --Individual, Society and Culture	3	
ECON 100X/PS 100X --Political Economy	3	
HIST 100X --Modern World History	3	
ART/MUS/THR 200X -- Aesthetic Appreciation: Interrelationship of Art, Drama and Music		
or HUM 201X --Unity in the Arts		3
ENGL/FL 200X --World Literature		3
Humanities or social science elective	3	
Two semester-length courses in a single Alaska Native Language or other non-English language or three semester-length courses (9 credits) in American Sign Language taken at the university level may substitute for two of the courses above.		

Library and Information Skills: (0-1 credit)

Successful completion of library skills competency test, or LS 100X, or LS 101X	0-1

Successful completion of the library skills competency test satisfies this requirement of the core curriculum, but does not carry degree credit.
(It is strongly recommended that this requirement be completed before enrolling in the 200-level English course requirement or that it be completed concurrently with enrollment in the 200-level English core requirement.)

General Electives: (22-23 credits)

Any combination of courses (Students planning to go on to the baccalaureate degree are advised to select courses meeting remaining core requirements, and courses designated within majors and minors.)	22-23

Electives to Total **60**

*English 212 doesn't fulfill the second half of the written communication requirement for the baccalaureate degree.

[[**MATH 161 --Algebra for Business and Economics, is not an equivalent course for MATH 107X.]]

The UAF Faculty Senate passed the following at its' Meeting #111 on October 28, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the Guidelines for the Evaluation Process for Administrators as follows:

EFFECTIVE: Immediately

RATIONALE: This will clarify who appoints the chair of the review committee.

****

GUIDELINES FOR THE EVALUATION PROCESS FOR ADMINISTRATORS

1. Within the first three weeks of the Fall Semester the Supervisor of the Administrator to be reviewed will appoint an Ad Hoc Administrator Review Committee consisting of five members, at least three of whom must be faculty. (It is recommended that staff be included on the ad hoc committee as appropriate.) The chair of the committee shall be appointed from the Faculty Senate BY THE SUPERVISOR OF THE ADMINISTRATOR TO BE EVALUATED. One of the three faculty shall be appointed from the Faculty Appeals & Oversight Committee.

   In the case of evaluation of the Dean of the Graduate School, the Provost will appoint an Ad Hoc Committee consisting of two faculty drawn from the UAF Faculty Senate's Graduate Academic & Advisory Committee, one Dean/ Director, one member of the Faculty Appeals and Oversight Committee, and a student representative from the Graduate Student Organization.

   The Ad Hoc Committee will solicit input from all relevant constituencies on- and off-campus, including faculty, staff, and students. This may be accomplished through various instruments, e.g., a standard questionnaire completed anonymously and returned to the Committee Chair.

2. The Administrator to be evaluated will prepare a narrative self-evaluation of activities performed during the three-year period (academic years) prior to the year of evaluation or since the last evaluation. This narrative should include reflections about how adequately s/he has fulfilled responsibilities of leadership consistent with his/her own performance expectations and those of faculty, staff, and students in the unit. Major or otherwise significant accomplishments should be highlighted. Any issues raised in the last evaluation should be referenced with a view to what progress has been made on those items. Finally, the self-evaluation should identify a limited set of reasonable goals for the unit over the next three years, with some discussion about specific strategies that may be undertaken through his/her administrative leadership.

3. The Ad Hoc Committee will interview a select sample of faculty, staff, students and others as relevant for further evaluative comments about the Administrator's performance.

4. The Ad Hoc Committee will interview the Administrator either in person or by conference call. The interview shall proceed on the basis of a set of questions which reference the Administrator's self-evaluation, the results of returned questionnaires, and the interviews of faculty, staff, and students.

5. The Ad Hoc Committee will prepare an evaluative summary, and submit its report to the Provost (in the case of evaluation of Deans) or to the Chancellor (in the case of evaluation of the Provost or any other administrator who reports directly to the Chancellor). The Ad Hoc Committee shall work as expeditiously as possible in completing its report and submit it to the Provost or Chancellor as the case may be by March 15 of the Spring Semester.

   (a) At a date to be set by the Provost, the Provost or administrator's supervisor shall meet in joint conference with the Ad Hoc Committee and the Faculty Appeals & Oversight Committee for final review, recommendations, and disposition of the Administrator's evaluation. The supervisor of the administrator will thereafter provide his/her formal evaluation taking into account the Ad Hoc Committee's report.

   (b) At a date to be set by the Chancellor, the Provost and the Chancellor shall meet to discuss the Ad Hoc

Committee's evaluation of the Provost. During this meeting the Chancellor and Provost shall identify performance priorities for the next review period. The Chancellor shall meet in joint conference with the Ad Hoc Committee and the UAF Faculty Senate's Faculty Appeals & Oversight Committee to summarize his evaluation.

The UAF Faculty Senate passed the following at its' Meeting #111 on October 28, 2002:

MOTION:
=======

The UAF Faculty Senate moves to approve the establishment of an Outstanding Senator of the Year Award (OSYA) as outlined in the attached.

EFFECTIVE: Immediately

RATIONALE: The Outstanding Senator(s) of the year award is an award to be given by the UAF Faculty Senate for truly outstanding contribution of service for academic quality at the University. The recipient should be a serving member of the UAF Faculty Senate or a serving member of a permanent or standing committee of the Faculty Senate who has made a major contribution to the faculty's and student's welfare, to the faculty's ability to carry out its duties more effectively, to the general betterment of the University outside the teaching and research function, or has shown wise and courageous leadership (and responsibility) on behalf of the faculty and University

****

OUTSTANDING SENATOR OF THE YEAR AWARD (OSYA)

PURPOSE:

The Outstanding Senator(s) of the year award is an award to be given by the UAF Faculty Senate for truly outstanding contribution of service for academic quality at the University. The contribution to be recognized would be far beyond that normally made by an individual in the normal performance of his or her job.

CRITERIA:

The recipient should be a serving member of the UAF Faculty Senate or a serving member of a permanent or standing committee of the Faculty Senate who has made a major contribution to the faculty's and student's welfare, to the faculty's ability to carry out its duties more effectively, to the general betterment of the University outside the teaching and research function, or has shown wise and courageous leadership (and responsibility) in behalf of the faculty and University. This should be an award for service, not teaching or research, above and beyond that normally expected from an individual.

NON-ELIGIBILITY:

The President and President-Elect of the Faculty Senate are not eligible to receive this award in their positions during their years of service.

PROCEDURES:

Any eligible Faculty Senate member may nominate a candidate for the OSYA. The letter of nomination should include a brief list of the Senator's accomplishments and a cover letter that makes the case for the nominee. The nomination should be submitted to the Faculty Senate President by March 1.

The Screening Committee will consist of five members. One member will be appointed from the Provost Council by the Provost. The Faculty Senate will select four (4) members one of whom will be the President-Elect, and three others, none of whom is a nominee, in the March meeting of the Senate. This committee will meet prior to the April meeting of the Senate to screen all applicants and select one or two candidates that are recommended to the Senate President.

In the April Faculty Senate meeting, the committee shall move the appropriate resolution(s). After appropriate discussion, the full Senate shall vote by secret ballot on the motions. A simple majority vote of those attending will be necessary for the Senate to confirm an OSYA. The votes will be counted by the President and Secretary of the Senate, and the award is announced by the President of the Senate.

The award is to be presented by the President of the Senate and the form of the award shall be a framed, hand-lettered certificate that contains the resolution passed by the Senate and the signatures of the Faculty Senate President and President-Elect.

The UAF Faculty Senate passed the following at its' Meeting #111 on October 28, 2002:

RESOLUTION:
==========

INASMUCH as a pattern of mishap has emerged over time with respect to the supply of textbooks to students by the university bookstore, and

WHEREAS, the letter from the interim manager reproduced below, and hereby read into the minutes of the senate, shows a due appreciation of the importance of the supply of the correct books to students so that classes can get off to a good start each term, and

WHEREAS, the four measures listed in the letter seem well calculated to remedy the problem, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate commends the measures listed and wishes the manager and her staff all success in their implementation.

****

October 1, 2002

Dear Dr. Box,

I would like to thank both you and Dr. Leguard for taking the time to share with me your concerns, and the concerns of other faculty members, regarding the bookstore's textbook adoption policies. I appreciate the opportunity to speak with you about this matter, and also your offer to pass along to other faculty members this summary of our discussion.

The most important message I would like to convey is an assurance to you and all of the other faculty members that it is not bookstore policy to substitute a textbook of our choosing for the textbook that the instructor has selected. We realize that the textbook is a valuable learning tool, and that we have neither the knowledge to select that tool for the instructor, or the right to disrupt the planned learning process by making an unauthorized textbook substitution. Unfortunately, it appears that several textbook orders for the fall semester were filled with books that were different either in edition or format from the books that were ordered, without prior knowledge of the instructor. This is inexcusable and should never happen. Because of this lapse in communication

on our part, the bookstore has developed the following procedure to deal with requested textbooks that are no longer available:

1- If a textbook is not available as ordered, no matter what the reason (old edition, out of stock, now bundled with something else, etc….) the textbook department will attempt to contact the instructor immediately by phone to discuss the textbook options available.
2- If the instructor can't be reached by phone, the textbook department will e-mail both the instructor, and the department administrative assistant. (If an instructor is off contract, or otherwise unavailable via the contact points listed in the UAF directory, it would be helpful to us if an alternate method of contact is listed on the textbook adoption form.)
3- If the textbook department doesn't hear back from the instructor or the administrative assistant by the time the order needs to be placed for timely arrival, the textbook coordinator will use his best judgment and order the edition the publisher deems a substitute for the edition the instructor has selected, but is no longer available. We will not substitute titles (only new editions for old editions, bundle packed for textbook only, etc.) and we will only substitute editions if we are advised the edition ordered is no longer available. The textbook department will then send a notification/explanation letter to the department.
4- As a resource, approximately one month prior to the start of the semester, the bookstore will send a report to each department listing all of the books on order for that department. Books ordered for individual classes can also be viewed on the bookstore's website: www.uaf.edu/bookstore via the "textbook lists" link. The bookstore's website also features a textbook adoption link where faculty members can both adopt books online, and research the textbook adoption history of all UAF courses for the last three years.

We hope that these measures will prevent the type of problems that occurred this fall. If you or other faculty members have any questions or comments regarding bookstore procedure, please don't hesitate to contact me at extension 5275, or the Textbook Coordinator, Steve Tate, at extension 5778.

Thanks again for being kind enough to call these problems to my attention.

Most Sincerely,

Becky Phillips
Interim Manager
UAF Bookstore
fybook@uaf.edu
474-5275

The UAF Faculty Senate passed the following at its Meeting #111 on October 28, 2002:

RESOLUTION OF SUPPORT OF 10% TUITION INCREASE

WHEREAS,

- from 1998-2002, UA increased the number of faculty and staff and,
- UA introduced a suite of online student services including registration, financial aid, and fee payment, and

WHEREAS,

- Total scholarship dollars awarded at UA have increased by 80%, from $5.5 million in academic year 1997-1998 to $10 million in academic year 2000-2001, while tuition has increased by 12% since 1997, and
- From 1999-2001, the number of course sections with associated fees decreased by 11.3%, and

WHEREAS, UA instructional costs (direct instruction, academic and student support) per FTE student have increased significantly from 1997-2002, and

WHEREAS, new operating costs are associated with improved services such as

- The operating cost of the new UAA library,
- The operating costs of the TVC Courthouse, the UAA University Center and
- The University's commitment to the Nursing education, and

WHEREAS, UA tuition over the last five years has increased at a fraction compared to other universities and UA students pay a smaller share of their educational costs than other universities, and

WHEREAS, the increase amounts to, respectively, $8 for in-state lower-division credit, $9 for in-state upper-division credit, and $18 for in-state graduate level credit, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate supports a 10% tuition increase to maintain the quality and value of a UA education.

The UAF Faculty Senate passed the following at its Meeting #110 on September 23, 2002:

MOTION:
======

The UAF Faculty Senate moves to confirm the membership on the Ad Hoc Committee on Unit Criteria consisting of one member from each of the following committees: Curricular Affairs; Faculty Affairs; Faculty Development, Assessment, and Improvement; and Faculty Appeals & Oversight Committee.

EFFECTIVE: Immediately

****

AD HOC COMMITTEE ON UNIT CRITERIA

Curricular Affairs - Gary Holton
Faculty Affairs - Dan Odess
Faculty Development, Assessment & Improvement - Abel Bult-Ito
Faculty Appeals & Oversight - Julie Riley

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

RESOLUTION OF RECOGNITION

WHEREAS, The UAF rifle team won its fourth consecutive NCAA title in March as well as an individual NCAA title and record-setting score in small bore by junior Matt Emmons, who finished fifth at the World Cup for shooting in Sydney, Australia, and

WHEREAS, Freshman Joe Hein won the men's 3x40 smallbore rifle event at the 2002 U.S. Junior Olympic Championships, earning him a place on the USA Shooting National Development Team, and

WHEREAS, The Nanooks boast ten National Rifle Association All-Americans based on the shooters' scores throughout the season with an emphasis on the NCAA sectionals and their grade point averages, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate congratulates the 2001-2002 Rifle Team as NCAA champion and commends the teams superior performance.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION
======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION:
======

The UAF Faculty Senate moves to adopt the recommendation of the Core Review Committee requiring a syllabus statement for Writing Intensive "W" courses.

EFFECTIVE: Fall semester 2002.

RATIONALE: With the high turnover of faculty, there appears to be some confusion about what constitutes a "W" course. The inclusion of this type of statement will guide the faculty in formulating the course, and inform students not only that this is a "W" course, but the requirements of such a course.

****

Syllabus Statement Regarding the Writing-Intensive (W) Requirement

This statement, or a statement similar to it, MUST appear in the syllabus of each "W" course. Courses failing to provide this information jeopardize their continuing status as "W" courses.

Below is an example paragraph that teachers could include on their syllabi when instructing Writing-Intensive (W) courses. The paragraph includes the key elements of the Writing-Intensive requirement.

This course is designated as Writing-Intensive (W). This designation means that the "W" is evident in the course number on the syllabus (e.g., English 313W). The designation applies to upper-division courses and means that a majority of the graded work in the course will be derived from writing activities. Here are the general guidelines for the writing expected in this course:

* Students will complete an ungraded writing sample on or near the first day of class to help the teacher assess writing ability and general competence.
* Students will receive comments from the teacher and/or peers on drafts of written work. In other words, students will work through a draft-and-redraft process so that they can apply feedback and become more effective writers. If students complete a major research project, the teacher will supervise the students' writing in stages.

* Students will meet individually with the teacher at least once during the term to discuss their writing.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the Graduate Academic Regulations (pages 36 and 37 of the 2001-2002 Catalog) and How to Earn a Degree section (page 39 of the 2001-2002 Catalog) as follows:

[[ ]] = Deletions
CAPS = Additions

(page 36):

ACADEMIC STANDARDS

[[**Graduate Scholastic Standing**]]

[[Your UAF academic record will reflect the GPA for all courses taken after the bachelor's degree (or last degree at UAF). However, your scholastic standing in the graduate program is determined by the GPA of the courses identified on your Advancement to Candidacy (including repeats). If you haven't advanced to candidacy, your scholastic standing is determined by the GPA of all courses taken since the bachelor's or last degree.]]

(page 37):

Repeating Courses

All grades (original and retakes) for a course completed at UAF will be shown on the permanent record. [[For scholastic standing calculations, the GPA calculation for graduate students includes all courses listed on your advancement of candidacy (including repeats and undergraduate courses approved for your program). If you haven't been advanced to candidacy yet, your GPA will include all courses (including repeats) you have taken since your admission to graduate study.]] ONLY THE LAST GRADE EARNED FOR A COURSE IS USED IN COMPUTING YOUR GPA UNLESS THE COURSE IS ONE THAT CAN BE REPEATED FOR CREDIT.

(page 39):

GENERAL UNIVERSITY REQUIREMENTS

Grade Point Average and Grade Requirements

You must have a cumulative GPA of 3.0 (B) for good standing and IN COURSES IDENTIFIED ON YOUR ADVANCEMENT TO CANDIDACY FORM to graduate. You must earn an A or B grade (no P grades) in 400-level courses; a C grade will be accepted in 600-level courses [[provided you maintain a B average. For the purposes of graduate good standing and meeting degree requirements, all grades, including those generated from retaking a course, are included in the GPA.]] FOR THE PURPOSES OF SATISFYING DEGREE REQUIREMENTS PROVIDED YOU REMAIN IN GOOD STANDING.

EFFECTIVE: Immediately Upon Chancellor approval

RATIONALE: The dual concepts of 'graduate scholastic standing' and 'good standing' are redundant and confusing. Though 'graduate scholastic standing' is defined in the existing catalog, it has no consequences. Eliminating 'graduate scholastic standing' will produce one concept of 'good standing' as for undergraduates, but with a higher GPA standard (3.0 vs. 2.0). The manner in which retaken courses will contribute to the GPA is hereby clarified and will match the situation for undergraduates. Confusion about how the GPA is calculated before advancement to candidacy is hereby eliminated. The catalog will be slightly shorter.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION
======

The UAF Faculty Senate, upon recommendation of the Faculty Affairs Committee, moves to amend the Appeals Policy for Academic Decisions Other Than Assignment of Grades as follows:

EFFECTIVE: Immediately

RATIONALE: The presence on the committee of a tenure-track faculty member from the academic unit in which the decision was made creates a perception of conflict of interest. By making this member a non-voting member, conflict of interest issues are avoided. In addition, this faculty member will be able to provide the voting members with clarifications and information relevant to the academic unit negating the necessity of a "program's monitor." In addition, the presence of the department chair of the program in which the decision was made as the program's monitor of all proceedings also creates a perception of conflict of interest. This section has been deleted because the campus judicial officer or his/her designee, who serves as a nonvoting facilitator, serves in an advisory role to help preserve consistent hearing protocol and records and, therefore, additional oversight by the department chair is unnecessary. Procedures for the submission of written materials that shall be considered by the committee have been added for clarification.

****

CAPS = Additions
[[ ]] = Deletions

APPEALS POLICY FOR ACADEMIC DECISIONS
Other Than Assignment of Grades

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that academic decisions (i.e., non-admission to or dismissal from any UAF program) are a faculty responsibility. Therefore, the University administration shall not unduly influence or affect the review of academic decisions that are a faculty responsibility.

The following procedures are designed to provide a means for students to seek review of academic decisions alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. As used in the schedule for review of academic decisions, a class day is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review. Final examination periods are counted as class days.

B. "Department Chair" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department, or division coordinator or program chair if the faculty member is in the College of Rural Alaska).

C. The "dean/director" is the administrative head of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

D. The next regular semester is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester for a final grade issued for a course completed during the previous spring semester

or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

III. Procedures

A. A student wishing to appeal an academic decision other than a grade assignment must first request an informal review of the decision.

1. Notification must be received by the Provost within 15 days from the first day of instruction of the semester in which the decision takes effect.

2. There may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. In such a case, upon request from the student, the Provost, after review of supporting documentation provided by the student, may adjust the deadlines accordingly. An extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

3. The Provost will request the appropriate department chair to conduct an informal review of the decision. The Department chair will determine whether the original decision should be overturned or changed in any way. The department chair will submit his/her recommendation to the provost through the dean/director within 10 days. In the event that the department chair is directly involved, the provost can ask the dean/director to conduct an informal review and submit his/her recommendations directly to him.

4. The Provost will consult with the student on the department chair's recommendation. If the student does not find that recommendation acceptable, he/she may request the Provost to conduct a formal review.

B. The formal review will be conducted as follows.

1. This formal review is initiated by the student through a signed, written request to the Provost.

a. The student's request for formal review may be submitted using university forms specifically designed for this purpose and available from the Office of the Provost.

b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the formal review of the decision, and that the university's administration including the college dean/director can not influence or affect the outcome of the formal review.

c. The request for a formal review must be received no later than 10 days after the student has learned the outcome of the informal review (IIIA4).

d. The request must detail the basis for the allegation that the decision was made on a basis other than sound professional judgment based upon standard academic policies, procedures and practices.

2. The Provost will appoint a 5 member review committee composed of the following:

a. One **NON-VOTING** tenure-track faculty member from the academic unit in which the decision was made. **THIS INDIVIDUAL SHALL SERVE IN AN ADVISORY ROLE**. **THIS FACULTY MEMBER SHALL NOT BE THE INDIVIDUAL(S) AGAINST WHOM THE APPEAL IS DIRECTED.**

b. Two tenure-track faculty members from within the college or school but outside of the unit in which the decision was made. If available, one of these two members will be selected from the members of the UAF Faculty Appeals and Oversight Committee.

c. One tenure-track faculty member from outside the college or school in which the decision was made. If available, this member is to be selected from the members of the UAF Faculty Appeals and Oversight Committee.

d. The fifth member to be appointed by the Provost will be a non-voting student representative.

e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

[[f. The department chair of the program in which the decision was made will act as the program's monitor of all proceedings.]]

3. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 working days of receipt of the student's formal request.

a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

B. TO BE CONSIDERED BY THE COMMITTEE, ALL WRITTEN MATERIALS SHALL BE SUBMITTED TO THE HEARING FACILITATOR NO LATER THAN 48 HOURS BEFORE THE START OF THE SCHEDULED APPEALS HEARING. TO GIVE ALL INTERESTED

PARTIES A CHANCE TO SUBMIT WRITTEN MATERIALS, AT LEAST THREE BUSINESS DAYS SHALL ELAPSE BETWEEN THE TIME THE MEETING IS ANNOUNCED AND THE START OF THE MEETING. NEW WRITTEN MATERIALS PRESENTED AFTER THE 48-HOUR DEADLINE OR PRESENTED DURING THE MEETING WILL ONLY BE CONSIDERED BY AGREEMENT OF ALL VOTING COMMITTEE MEMBERS. THESE PROCEDURES RELATED TO WRITTEN MATERIALS ALSO APPLY TO ALL SUBSEQUENT MEETINGS.

[[b.]] C. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

[[c.]] D. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) The student has not provided sufficient reason in support of the allegation that the academic decision was arbitrary and capricious.

2) This is not the first properly prepared request for appeal.

3) The request was not made within the policy deadlines.

[[d.]] E. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department chair, dean/director and provost within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

4. Acceptance for consideration of the student's request will result in the following:

a. A request for, and receipt of, a formal written response from the program department chair to the student's allegation.

b. A second meeting scheduled to meet within 10 days of the decision to review the request.

1) The student and the department chair or a representative of the program will be invited to attend the meeting.

2) The meeting will be closed to outside participation, and neither the student nor the instructor or department chair may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor or department chair may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

5. The final decision of the committee will be made in private by a majority vote.

a. Actions which the committee can take if it accepts the student's allegation may include, but are not limited to, the following:

1) direct the program instructor or department chair to reconsider the decision,

2) provide a final alternative decision.

b. The academic decision review committee proceedings will result in the preparation of written findings and conclusions.

c. A formal, written report of the decision must be forwarded to the student, instructor, program/department chair, dean and Provost within five days of the meeting. The Provost shall then be responsible for communicating the decision to other relevant offices (e.g., Admissions, Registrar).

d. The decision of the committee is final.

C. The entire process must be completed by the end of the semester in which the decision first took effect.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION:
======

The UAF Faculty Senate, upon recommendation of the Faculty Affairs Committee, moves to amend the Grade Appeals Policy as follows:

EFFECTIVE: Immediately

RATIONALE: The presence on the grade appeals committee of a tenure-track faculty member from the academic unit in which the course was offered creates a perception of conflict of interest. By making this member a non-voting member, conflict of interest issues are avoided. In addition, this faculty member will be able to provide the voting members with clarifications and information relevant to the academic unit against which the appeal is directed.

****

[[ ]] = Deletions

GRADE APPEALS POLICY

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that the assignment of grades is a faculty responsibility. Therefore, the University administration shall not influence or affect an assigned grade or the review of an assigned grade.

The following procedures are designed to provide a means for students to seek review of final course grades alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally with the instructor of the course. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. A "grade" refers to final letter grades A, B, C, D, F, and Pass. The I (incomplete) designates a temporary grade, for one year not a final grade, so it is not subject to appeal until it becomes final.

B. For the purpose of this procedure, "arbitrary and capricious" grading means:

1. The assignment of a course grade to a student on some basis other than performance in the course,
   or

2. The assignment of a course grade to a student by resorting to standards different from those which were applied to other students in that course,
   or

3. The assignment of a course grade by a substantial, unreasonable and unannounced departure from the instructor's previously articulated standards.

C. "Grading errors" denotes errors in the calculation of grades rather than errors in judgment.

D. As used in the schedule for review of academic decisions, a class day is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review. Final examination periods are counted as class days.

E. "Department [[head]] CHAIR" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department, or the campus director if the faculty member is in the College of Rural Alaska).

F. The "dean/director" is the administrative head of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

G. "Final grade" for the purposes of this policy is the grade assigned for a course upon its completion.

H. A "grading error" is a mathematical miscalculation of a final grade or an inaccurate recording of the final grade.

I. The next regular semester is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester for a final grade issued for a course completed during the previous spring semester or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

III. Procedures

A. Errors by an instructor in determining and recording a grade or by the university staff in transcribing the grade are sources of error that can be readily corrected through the student's prompt attention following the normal change of grade procedure.

1. It is a student's obligation to notify the instructor of any possible error immediately by the most direct means available. If this is through an oral conversation and/or the issue is not immediately resolved, it is the student's responsibility to provide the instructor with a signed, written request for review of the grade, with a copy to the unit department [[head]] CHAIR and the dean of the college or school in which the course was offered.

2. Notification must be received by the instructor and/or department [[head]] CHAIR within 15 days from the first day of instruction of the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester).

3. The instructor is responsible for notifying the student in writing of his or her final judgment concerning the grade in question within 5 days of receipt of the request, and for promptly submitting the appropriate change of grade form to the [[Director of Admissions and Records]] REGISTRAR'S OFFICE if an error occurred.

4. If the student does not receive a response from the instructor or the unit department [[head]] CHAIR by the required deadline, the student must seek the assistance of the dean of the college or school in which the course was offered.

5. If the instructor is no longer an employee of the university or is otherwise unavailable, the student must bring the matter to the attention of the unit department [[head]] CHAIR who will make every effort to contact the instructor by the 15th class day of the next regular semester.

    a. If the instructor can not be contacted but course records are available, the department [[head]] CHAIR will effect resolution within 5 class days of notification by the student. The department [[head]] CHAIR may correct a grading error through the regular change of grade process on behalf of the instructor.

    b. If the instructor can not be contacted and course records are either unavailable or indecisive, the student may request a review following the procedure outlined below.

    c. If the instructor can be contacted and elects to participate, then a constructive participation is to be welcomed by the review committee. The procedures of Paragraph III.A.5.a. or Paragraph III.A.5.b. will be instituted if the instructor withdraws from participation.

6. There may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. In such a case, upon request from the student, the dean of students, after review of supporting documentation provided by the student, may recommend to the grade appeals committee that the deadlines be adjusted accordingly. An extension of the deadline will be limited

to one semester but every effort should be made to complete the appeal process within the current semester.

B. If no such error occurred, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and satisfaction is not forthcoming from the appropriate department [[head]] CHAIR.

1. This review is initiated by the student through a signed, written request to the department [[head]] CHAIR with a copy to the dean of the college or school in which the course was offered.

a. The student's request for review may be submitted using university forms specifically designed for this purpose and available at the [[Admissions and Records]] REGISTRAR'S Office.

b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration can not influence or affect the outcome of the review.

c. The request for a review must be received no later than 20 days after the first day of instruction in the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester) or within 5 days of receipt of notification of the process by the dean/director of the college or school in which the course was offered.

d. The request must detail the basis for the allegation that a grade was improper and the result of arbitrary and capricious grading and must present the relevant evidence.

2. It is the responsibility of the department [[head]] CHAIR to formally notify both the instructor who issued the grade and the dean of the unit's college or school that a request for a review of grade has been received.

3. If the instructor of the course is also the department [[head]] CHAIR, the Dean of the College will designate another department [[head]] CHAIR within the college to act as the department's representative for all proceedings. If the instructor of the course is also the Dean of the College, the Provost will designate another

Dean within the University to act as the college's monitor of all proceedings.

4. The dean will appoint a 5 member review committee composed of the following:

    a. One **NON-VOTING** tenure-track faculty member from the academic unit in which the course was offered (other than the instructor of the course). **THIS INDIVIDUAL SHALL SERVE IN AN ADVISORY ROLE**.

    b. Two tenure-track faculty members from within the college or school but outside of the unit in which the course was offered. If available, one of these two members will be selected from the members of the UAF Faculty Appeals and Oversight Committee.

    c. One tenure track faculty member from outside the college or school in which the course was offered. If available, this member is to be selected from the members of the UAF Faculty Appeals and Oversight Committee.

    d. The fifth member to be appointed by the dean will be a non-voting student representative.

    e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for grade appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

5. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 working days of receipt of the student's request.

    a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

    b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

    c. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) This is not the first properly prepared request for appeal of the particular grade.

2) The actions of the instructor do not constitute arbitrary and capricious grading, as defined herein.

3) The request was not made within the policy deadlines.

4) The student has not taken prior action to resolve the grade conflict with the instructor, as described under section III, A.

d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department [[head]] CHAIR and dean within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

6. Acceptance for consideration of the student's request will result in the following:

a. A request for and receipt of a formal response from the instructor to the student's allegation.

b. A second meeting scheduled to meet within 10 days of the decision to review the request.

1) The student and instructor will be invited to attend the meeting.

2) The meeting will be closed to outside participation, and neither the student nor instructor may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

7. The final decision of the committee will be made in private by a majority vote.

a. Actions which the committee can take if it accepts the student's allegation of arbitrary and capricious grading must be directed towards a fair and just resolution, and may include, but are not limited to, the following:

1) Direct the instructor to grade again the student's work under the supervision of the department [[head]] CHAIR,

2) Direct the instructor to administer a new final examination and/or paper in the course,

3) Direct a change of the student's registration status (i.e., withdrawn, audit, dropped) in the course.

b. The academic decision review committee proceedings will result in the preparation of written findings and conclusions. Conclusions will result in one of the following:

1) The request for a grade change is denied.

2) The request for a grade change is upheld; the review committee requests the course instructor to change the grade; and the course instructor changes the grade in accordance with MAU rules and procedures.

3) The request for a grade change is upheld; the course instructor is either unavailable to change the grade or refuses to, and the review committee directs the dean/ director to initiate the process specified by MAU rules and procedures to change the grade to that specified by the review committee.

c. A formal, written report of the decision must be forwarded to the student, instructor, department [[head]] CHAIR, dean and Director of Admissions and Records within five days of the meeting.

d. The decision of the committee is final.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the UAF Regulation for Emeritus Status as follows:

[[ ]] = Deletions
CAPS = Additions

Emeritus Status

A. A full-time faculty member who has already attained the rank of full professor and who has retired after a minimum of ten years at the University of Alaska immediately prior to retirement is eligible for consideration as an emeritus professor. Nominations for the emeritus professor must originate with the faculty. The process may be initiated by *any three faculty members, one of whom must belong to the retiree's primary academic unit, for review by the appropriate dean. The dean, in consultation with the retiree's primary academic unit, will make recommendations to the Provost who will then forward his/her recommendations to the Chancellor. The Chancellor's [[recommendations are to be forwarded to the President for approval]] DECISION IS FINAL AND NON-REVIEWABLE.

B. In exceptional circumstances, the CHANCELLOR, OR IN THE CASE OF STATEWIDE ADMINISTRATION EMPLOYEES, THE president, may confer emeritus status to other meritorious employees who have provided A MINIMUM OF TEN (10) YEARS OF [[long and]] faithful service of high quality to the institution. Recommendations [[should]] WILL proceed along the appropriate administrative channels to the CHANCELLOR OR president.

C. The Board of Regents may confer emeritus status upon a retiring President of the University.

D. Privileges available to emeritus employees include the following:

1. Listing in the appropriate university directory and catalog.
2. Invitations to major university functions.
3. Mailing notices of campus functions and social gathering.
4. Use of library, gymnasium, and food facilities ON THE SAME BASIS AS ACTIVE EMPLOYEES IN THEIR CATEGORY.
5. Access to laboratories, office space at the discretion of the dean or director, research and/or electronic communication facilities (where such access is available

at no charge to the university and does not displace other faculty and/or students).

6. Free parking permit.
7. Receipt of a permanent identification card.
8. Waiver of tuition for courses in which they themselves are enrolled.

E. Upon appointment to emeritus status a retiring employee shall be designated by the proper title Emeritus/Emerita.

* nominations must have the support of three faculty

EFFECTIVE: Immediately
Upon Chancellor's Signature

RATIONALE: These changes will bring the UAF Regulations in line with Regents Policy & Regulations.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

RESOLUTION:
==========

WHEREAS, the University of Alaska Fairbanks aspires to serve as the premiere higher educational center for Alaska Natives, and

WHEREAS, the University of Alaska Fairbanks aspires to serve as a model to demonstrate how cultural diversity strengthens a university and society, and

WHEREAS, these strategic plan goals include proactive pursuit of opportunities to incorporate indigenous culture into higher education, and

WHEREAS, these strategic plan goals include celebrating Alaska Native cultural activities at UAF to encourage and promote cross-cultural understanding and learning opportunities, and,

WHEREAS, the Chancellor's Advisory Committee on Alaska Native Education (CACNE) has submitted its recommendations on the UAF 2001 Draft Master Plan in a position statement dated 25 March 2002, and

WHEREAS, CACNE "takes a strong stand in keeping the area between the Natural Science Building and the UAF Museum as an open space…[to be] dedicated to culturally relevant symbols representing Alaska's First Nations: the Athabascans, Tlingit, Haida, Tsimshian, Eyak, Inupiaq, Yupiaq/Cupiaq, Yupiget, Alutiiq, Sugpiaq and Unangan/Unangus", and

WHEREAS, "Each Alaska Native group would have the opportunity to determine what form the representation [of cultural symbols] would be", and

WHEREAS, CACNE proposes further "that UAF consider adding Native Alaskan artwork and symbols to as many buildings and outdoor spaces on campus as possible",

THEREFORE BE IT RESOLVED, the UAF Faculty Senate endorses the proposal of the Chancellor's Advisory Committee on Alaska Native Education and recommends that the university administration implement the CACNE proposal as part of the UAF 2001 Master Plan.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION:
======

The UAF Faculty Senate moves to adopt the revised "UAF Faculty Appointment and Evaluation Policies" and the "UAF Regulations for the Appointment and Evaluation of Faculty".

EFFECTIVE: "UAF Faculty Appointment & Evaluation Policies" - Upon Board of Regents Approval

"UAF Regulations for the Appointment & Evaluation of Faculty" - Upon Chancellor's Approval

RATIONALE: Changes in collective bargaining agreements, accreditation standards, and inadvertent deletions from earlier versions of said policies and regulation require a comprehensive revision herein presented for Senate approval.

****

Draft "UAF Regulations for the Appointment and Evaluation of Faculty" - http://www.uaf.edu/uafgov/faculty/facreg2002.rtf

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION:
=====

The UAF Faculty Senate, upon recommendation of the Curricular Affairs Committee, moves to add a "Pre-major" admissions status to the baccalaureate degree and to change the Baccalaureate Degree catalog description on page 11 of the current catalog as follows:

[[ ]] = Deletions
CAPS = Additions

ADMISSION REQUIREMENTS

Baccalaureate Degree (Bachelor's Degree)

D. IF YOU DO NOT MEET THE BACCALAUREATE DEGREE ENTRANCE REQUIREMENTS, YOU WILL BE PLACED INTO A PRE-MAJOR DEGREE STATUS IN THE DISCIPLINE TO WHICH YOU HAVE APPLIED. WITH THE CONCURRENCE OF YOUR PRE-MAJOR ADVISOR, YOU MAY LATER ENTER A BACCALAUREATE DEGREE PROGRAM AFTER EARNING, WITH A C GRADE (2.0) AVERAGE OR HIGHER, 14 CREDITS AT THE 100 LEVEL OR ABOVE, OF WHICH NINE CREDITS MUST SATISFY GENERAL BACCALAUREATE DEGREE REQUIREMENTS. YOUR PRE-MAJOR STATUS WILL BE REVIEWED ANNUALLY.

EFFECTIVE**:** Fall 2003

RATIONALE**:** The pre-major status connects the student to the degree to which they applied and requires the creation of pre-major advisors who will provide the advising for these students. Additionally, many students currently admitted to the Associate of Arts degree are, in fact, baccalaureate degree seeking students and applied for admissions as such. Because they did not meet admissions status for the baccalaureate degree, they were admitted into an associate program without their prior knowledge or concurrence. Upon discovering this, some students have opted not to attend UAF but to enroll as pre-major students at another UA school. Students admitted to pre-major status will receive advising from specifically identified and trained pre-major advisors identified from each school and college. They will receive discipline-specific advising as well as recommendations to help them meet the baccalaureate admissions requirements. Student pre-major status will be reviewed annually.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION
======

The UAF Faculty Senate moves to endorse the 2002-2003 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighted against membership distribution from schools and colleges.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION
======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 2002. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 6, 2002

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

RESOLUTION OF APPRECIATION

FOR

NORMAN K. SWAZO

WHEREAS, Norm Swazo has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

WHEREAS, Norm Swazo has served as Senator to the UAF Faculty Senate from 1995-97, and 1999-2002; and

WHEREAS, Norm Swazo has served as a member of the Faculty Affairs Committee from 1995-97 and 1999; and

WHEREAS, Norm Swazo has served as Chair of the Administrative Committee and as President-Elect of the UAF Faculty Senate for 2000-2001; and

WHEREAS, Norm Swazo has served as a member of the UAF Governance Coordinating Committee from 2000-2002; and

WHEREAS, Norm Swazo has served as a member of the UA Faculty Alliance, as a member of the UA Systemwide Governance Council from 2000-2002; and

WHEREAS, Norm Swazo has served as President of the UAF Faculty Senate from 2001-2002; and

WHEREAS, Norm Swazo has served as Chair of the UAF Standard Nine (Integrity) Accreditation Working Group; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Norm Swazo as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Norm Swazo and expresses its appreciation for his exemplary service.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION:
=======

The UAF Faculty Senate moves to suspend approval of all classified research projects normally reviewed by the UAF Office of Sponsored Programs and undertaken by UAF faculty in UAF-owned or UAF-operated facilities until such time as:

(1) the Provost, acting on the written recommendations of the UAF Vice Provost for Research, the Director of the Office of Research Integrity, and the Committee on Research Integrity, certifies in writing to the UAF Faculty Senate that the university is compliant with the National Industrial Security Program (NISP) regulations, including any modifications to these regulations adopted by the Department of Defense following from the draft document, "Mandatory Procedures for Research and Technology Protection Within the DOD"; and,

(2) the UAF Faculty Senate approves adoption of such regulations and related institutional procedures governing and enabling the responsible conduct of classified research.

Exclusion: This action excludes proprietary research and private consulting undertaken by UAF faculty according to extant institutional policy and procedures.

EFFECTIVE: Immediately

RATIONALE: Federal regulations governing classified research carried out in U.S. institutions of higher education are set forth in the *National Industrial Security Program* (NISP) manual distributed by the U.S. Department of Defense. An institution of higher education may not conduct classified research unless the regulations set forth in this manual are adopted and implemented at such institutions. UAF, as a research university, is an institution of higher education. Therefore, UAF is obligated to demonstrate that it is compliant with these regulations. As of the date of this motion, UAF is not compliant with NISP and, in fact, according to the Vice Provost for Research, has recently failed a security review.

Moreover, according to a report issued in *The Chronicle of Higher Education* (April 24, 2002; http://chronicle.com/daily/2002/04/ 2002042401n.htm), the U.S. Department of Defense "is considering new restrictions on research sponsored by the military, including the possibility of imposing criminal sanctions against individuals who publish **unclassified** studies involving basic research…The proposed rules, detailed in a 110-page document titled 'Mandatory Procedures for Research and Technology Protection Within the DOD' are under review within the military." (bold

letter-emphasis mine) The new procedures as drafted "potentially [include] all unclassified science and technology", with required "authorization to disclose [unclassified] research findings or results". "Sharing such information without clearance could lead to administrative sanctions or criminal penalties, even for work defined as fundamental research". It should be noted that the proposed inclusion of "fundamental research" in the draft regulations revises the current exemption for fundamental research allowed under ITAR and EAR. In light of this latest regulatory development, UAF needs to proceed cautiously and avoid committing itself to Department of Defense funded projects as well as classified research projects that may impose additional restrictions on the conduct of open science and subject faculty to additional criminal and administrative sanctions governing **unclassified** fundamental research.

The UAF Faculty Senate passed the following at its Meeting #109 on May 6, 2002:

MOTION REFERED BACK TO COMMITTEE:
==========

The UAF Faculty Senate moves to adopt the following statement (procedure) on Censure of Administrators.

EFFECTIVE: Immediately

RATIONALE: At present there is no policy or procedure statement in force and one is needed

****

CENSURE OF ADMINISTRATORS

1. The review (in the broadest sense) of the performance of administrators is an important complementary activity to the review of faculty. Both groups contribute to the advancement of the University when they carry out their respective responsibilities effectively, and either can seriously interfere with the proper functioning of the University as a whole when they perform ineffectively.

2. The various peer reviews of faculty, including the mentoring of untenured faculty, promotion, and tenure review, and post-tenure review as well as continuing, in-depth contact with students equip UAF faculty with a unique and comprehensive understanding of the general health of the University and its actual progress in meeting its stated goals.

3. In a system of shared governance, the administrative function includes a critical catalytic role which, when performed well, results in the accomplishments of academic units surpassing the sum of individual faculty effort.

4. UAF faculty are in a unique position to offer insights on the effectiveness of academic administrators of particular and campus-wide programs at UAF. They can readily see whether their efforts to teach, conduct research, and provide professional services are enhanced, not affected, or compromised by academic administrators.

5. Faculty input into periodic reviews of academic administrators is provided for, although the system for accomplishing reviews is relatively new and lacking in a record of experience upon which to make judgments.

6. As responsible members of the academic community, UAF faculty have an inherent responsibility, when circumstances indicate that academic programs and the health of the University are being impacted negatively by the behavior and decisions of State-wide administrators and their immediate staffs, the UAF chancellor and provost and their immediate staffs, and deans and directors and their immediate staffs to initiate the passage of a vote of no-confidence or censure.

7. When, in the considered opinion of the majority of the Faculty Senate, an administrative decision or series of decisions are seriously harmful to the health and future of the University, the Senate may pass a vote of no-confidence or censure of the administrator or administrators making and carrying out such harmful decisions. Such a petition to the Senate should include precise delineation and documentation of the problem and the attempts undertaken to mediate and resolve the problem before asking the Senate to pass a motion of censure.

8. After the submission of a petition to the Senate, the Senate should appoint an Ad hoc committee to investigate the allegations and make recommendations for a final attempt for resolving the situation before turning the matter over to the full Faculty Senate for discussion and passage of censure.

The UAF Faculty Senate passed the following at its Meeting #108 on April 8, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the Certificate Program requirements (page 27 of the 2001-02 UAF catalog) as follows:

[[ ]] = Deletion
CAPS = Addition

CERTIFICATE PROGRAMS

Certificate programs vary in length; however, you can usually complete them in one year.

Requirements

[[To enroll in a certificate program, and]] Before receiving a certificate, you must formally be admitted. [[To earn a certificate,]] You may enroll in any course for which you are eligible. To earn a certificate, you must earn at least 30 credits, including transfer credit. Fifteen semester hours must be residence credits. You must have a CUMULATIVE grade point average of AT LEAST 2.0 [[in all work, as well as in your major]]. PROGRAMS OF STUDY FOR WHICH CERTIFICATES ARE GRANTED MUST CONTAIN A RECOGNIZABLE BODY OF INSTRUCTION IN THE PROGRAM-RELATED AREAS OF 1) COMMUNICATION, 2) COMPUTATION, AND 3) HUMAN RELATIONS. ADDITIONAL TOPICS WHICH MAY BE COVERED AS APPROPRIATE INCLUDE SAFETY, INDUSTRIAL SAFETY, AND ENVIRONMENTAL AWARENESS. INSTRUCTION IN THE RELATED INSTRUCTIONAL AREAS MAY BE EITHER EMBEDDED WITHIN THE PROGRAM CURRICULUM OR TAUGHT IN BLOCKS OF SPECIALIZED INSTRUCTION. EACH APPROACH, HOWEVER, WILL HAVE CLEARLY IDENTIFIED CONTENT THAT IS PERTINENT TO THE GENERAL PROGRAM OF STUDY.

Only degree requirements in effect within five academic years prior to your graduation date for a certificate may be used. You are considered enrolled in your degree program when you complete the appropriate degree student registration procedure. If you do not enroll for a semester or more, or if you enroll through the non-degree process, you are not considered enrolled as a degree student during that time. IF YOUR DEGREE PROGRAM IS DELIVERED COLLABORATIVELY WITHIN THE UA SYSTEM THEN THE CREDITS YOU EARN FROM EACH UA INSTITUTION WILL BE COUNTED TOWARD FULFILLMENT OF THE DEGREE REQUIREMENTS AND FULFILLMENT OF THE MINIMUM INSTITUTIONAL RESIDENCY REQUIREMENTS.

EFFECTIVE: Fall 2002

RATIONALE: The accreditation self-study and the subsequent accreditation visit identified that UAF has no stated certificate requirements in the catalogue for related instruction nor any statement of a standard for the inclusion of related instruction in certificate programs to guide the design of curricula. Consequently, it has not been widely recognized that there is such a requirement. This motion corrects that deficiency.

The UAF Faculty Senate passed the following at its Meeting #108 on April 8, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the Master's Degree residency requirement (page 41 of the 2001-02 UAF catalog) as follows:

[[ ]] = Deletion
CAPS = Addition

Master's Degree

You may apply for advancement to candidacy for a specific master's degree if you are in good standing and have satisfied the following requirements:

1. satisfactorily completed at least 9 semester credits of graduate study [[in residence]] at the University of Alaska Fairbanks (i.e., study after admission to a specific degree program)
2. received approval of a provisional thesis or project topic
3. received approval of the finalized Graduate Study Plan, including specific coursework to be completed and any other requirements

EFFECTIVE: Fall 2002

RATIONALE: This motion brings the residency requirement into compliance with the offering of UAF web-based degrees and supports UAF's statewide mission of Graduate Education.

The UAF Faculty Senate passed the following at its Meeting #108 on April 8, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the New Degree Program Request (Format 3) in the Academic Course and Degree Procedures Manual to require the completion of a Resource Commitment Form, to be signed by the program proponents and the respective Dean.

EFFECTIVE: Fall 2002

RATIONALE: The introduction of the Resource Commitment Form encourages new-degree program proponents to adequately consider the issue of existing and future resources required for the program as well as providing a record of the current and additional amount of support committed to the program in order to ensure its viability.

The UAF Faculty Senate passed the following at its Meeting #108 on April 8, 2002:

MOTION:
======

The UAF Faculty Senate moves to amend the New Course Request (Format 1) and the Change Course Request (Format 2) in the Academic Course and Degree Procedures Manual to include a question on the impact of proposed action as follows:

PLEASE SPECIFY POSITIVE AND NEGATIVE IMPACTS ON OTHER COURSES, PROGRAMS AND DEPARTMENTS RESULTING FROM THE PROPOSED ACTION.

EFFECTIVE: Fall 2002

RATIONALE: This motion is aimed to improve the current forms, requiring a more focused and constructive response on a question that in the past often has not been considered by proponents.

The UAF Faculty Senate passed the following at its Meeting #108 on April 8, 2002:

MOTION:
======

The UAF Faculty Senate moves to accept Math 161 as a Mathematics Literacy component of the Core Curriculum and that it be included in the list of math courses that will satisfy the Core Math requirement.

EFFECTIVE: Fall 2002

RATIONALE: The Math department has recommended that Math 161 be included in the list of math classes that will satisfy the core math requirement.

****

The UAF Faculty Senate passed the following at its Meeting #108 on April 8, 2002:

MOTION:
======

The UAF Faculty Senate moves to endorse the Core Review Committee's recommendation for a university's Writing-Across-the Curriculum Program and curriculum specialist and recommends that the Provost council explore implementation of the proposal.

EFFECTIVE: FY 2003

RATIONALE: There has been a very high turnover of faculty teaching Writing Intensive courses, especially in the aftermath of the RIP program. Examination of course syllabi this spring indicated that about half the "W" courses did not meet the minimum expectations for "W" – at least not on paper. Transitioning between instructors (passing of the baton) in these courses apparently has not gone smoothly. The Core Review Committee believes quite strongly that students and instructors should not be punished for this oversight. Instead, UAF needs to nurture faculty who are new to "W" requirements. The best way to do this is through faculty development. The establishment of this position would help mitigate the problem we have identified.

****

WRITING-ACROSS -THE-CURRICULUM PROGRAM PROPOSAL

The Core Curriculum Review Committee recognizes the importance of the university's Writing-Across-the-Curriculum program and the need for students to work on their writing in all disciplines and at all grade levels. Thus, to improve the effectiveness of this program, the Core Review Committee proposes that a faculty member from the English Department specifically be designated as the Writing-Across-the-Curriculum specialist. This individual will receive a course-load reduction for coordinating the Writing Intensive courses (W), promoting Writing-Across-the-Curriculum on a university-wide basis, and providing workshops to faculty teaching these courses.

The UAF Faculty Senate passed the following at its Meeting #108 on April 8, 2002:

RESOLUTION
=========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Pete Pinney as President-Elect of the UAF Faculty Senate for 2002-2003 by acclamation.

The UAF Faculty Senate passed the following at its Meeting #106 on February 4, 2002:

MOTION:
======

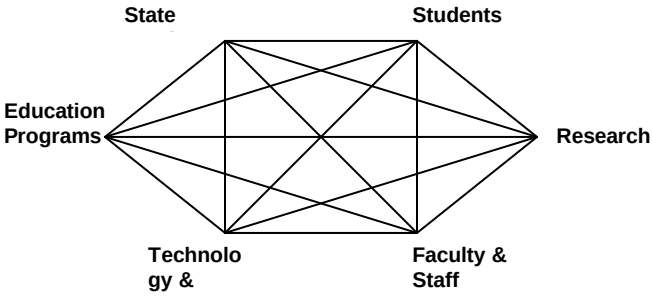
The UAF Faculty Senate moves to approve a M.A. degree program in Applied Linguistics which includes four new courses.

EFFECTIVE: Fall 2002 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #3-6 and #7 on file in the Governance Office, 312 Signers' Hall.

****

(Submitted by Linguistics, ANLP, English, and Foreign Languages)



3. NEW COURSE: LING 603 - Phonetics and Phonology (3+0) 3 credits; offered Alternate Fall; first offered Fall 2004.
4. NEW COURSE: LING 604 - Morphology & Syntax (3+0) 3 credits; offered Alternate Spring; first offered Spring 2003.
5. NEW COURSE: LING 652 - Linguistic Applications (3+0) 3 credits; offered Alternate Year; first offered Fall 2003.
6. NEW COURSE: LING 660 - Internship, 3 credits; offered once a year; first offered Spring 2004.
7. NEW DEGREE PROGRAM: MA, Applied Linguistics - Consists of 4 new core courses, LING 603, LING 604, LING 652, LING 660. Program will require minimum of 30 credits including a 6 credit Thesis or Applied Language Project. Effective Fall 2002 or upon BOR approval.

****

M.A., Applied Linguistics

The Linguistics Program, with the Alaska Native Language Center, the English Department, and the Foreign Languages and Literatures Department, proposes a Master of Arts degree in Applied Linguistics with emphases in Language Teaching and Materials Development. This degree program will allow UAF to meet the growing need statewide for qualified language teachers in Native languages, world languages, and English as a second language. The primary candidates for the degree program are students who intend to teach adults at the community college level, to work on materials and curriculum for Alaska Native languages, or to teach abroad--jobs for which K-12 certification is not required. Additionally, the proposed program will appeal to language teachers who already are certified and who seek a Masters of Arts degree.

****

University of Alaska New Program Approval

Board of Regents Summary Form

MAU: UAF

Title and brief description: Master of Arts in Applied Linguistics

The Linguistics Program, in consort with the Alaska Native Language Program, the English Department, and the Foreign Languages and Literatures Department, proposes a Master of Arts degree in Applied Linguistics with emphases in Language Teaching, Materials Development, and Language Policy and Planning.

Objectives:

- To provide theoretical and practical foundations in second language acquisition and pedagogy, as well as grammatical explication, for students wishing to teach Alaska Native languages, world languages, or English as a second language.
- To provide a cadre of Master's Level language instructors to meet a growing need at UAF, both in World Languages and in Alaska Native Languages.
- To create opportunities for distance delivery or summer offerings of the graduate courses in the Program

Target Admission date: Fall, 2002

****

How does the program relate to the **Education Mission** of the University of Alaska?

The proposed program emphasizes interdisciplinary research and scholarship on language in the North. For example, the Alaska Native Language Center is world renowned for its documentation and comparative research on Alaska Native and other Northern languages. This program will help prepare graduates to take important roles in language policy and planning for Alaskan communities. It also will provide more qualified teachers, interpreters, and translators of world languages, thus meeting state, national, and global needs.

Describe the **State Needs** being met by this program.

There is a growing need within Alaska to provide qualified language teachers. An Anchorage, Alaska survey revealed that 86 different languages were spoken in the schools. The demand is for qualified teachers of indigenous Native languages in Alaska, English as a second language, and for world languages. Language planning is vital to addressing the needs and opportunities for each of these language groups.

What are the **Student** opportunities and outcomes? The enrollment projections?

The type of organizations that responded to a survey revealed that language teachers are required in public school settings, universities, non-profit tribal colleges, and adult education programs. There are opportunities for students to teach, to conduct research, and to develop language policies in Alaska. In a student survey, 23 people stated they would apply to a UAF Master's degree program in Applied Linguistics with an emphasis on language teaching if it were offered. The enrollment projection is 10 students per academic year.

Describe the **Research** opportunities, if applicable.

The proposed program would allow graduate students to work with scholars in ANLC, Linguistics and Anthropology, Foreign Languages and English to carry out research projects utilizing the resources and expertise available on these languages and cultures. The proposed MA in Applied Linguistics would provide opportunities for faculty and students to create language teaching materials.

Identify any additional **Faculty and Staff** requirements as well as any existing expertise and resources that will be applied.

One full-time faculty member will be requested. This position is expected to be jointly appointed in Linguistics and one of the other disciplines (ANL, Foreign Languages, English). One half-time administrative support position is being requested. Three TA-ships will be requested. The TA- ships will be coordinated through the new program but the student will provide teaching assistance in ANL, Foreign languages, and English as a second language.

Identify the impacts on existing **Technology & Facilities** as well as projected needs.

One additional faculty office space is needed, as well as a space for the administrative assistant.

The UAF Faculty Senate passed the following at its Meeting #106 on February 4, 2002:

MOTION:
======

The UAF Faculty Senate moves to request that the Chancellor delay by one semester the schedule of implementation of the Draft Master Plan to allow modifications based on recommendations and comments from faculty, staff and students.

EFFECTIVE: Immediately

RATIONALE: The full draft of a new Master Plan was presented to the university community in October of 2001. The Faculty Affairs Committee took up the review of this draft and produced a review in December. The Master Planning Committee has a January date for publication of the hard-copy version of the Master Plan. This publication schedule does not allow for adequate consideration of new comments and recommendations. Faculty Affairs met with representatives of the Master Planning Committee in December and January and in each case was informed that it was really too late to consider any substantive changes to the Plan. The Faculty Affairs Committee has received numerous comments about the new draft plan and introduces this motion to ensure adequate review before implementation of any new Master Plan. Given the usual pace of university governance, the Faculty Affairs Committee views the inadequate time for review a shortfall in the master plan process.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION PASSED AS AMENDED:
==========

The UAF Faculty Senate recommends that the University of Alaska Board of Regents' amend the UA Nondiscrimination Statement (P04.01.020) as follows:

CAPS = Additions to the statement

In accordance with federal and state laws, illegal discrimination in employment against any individual because of race, color, religion, national origin, age, sex, veteran status, physical or mental disability, marital status or changes in marital status, pregnancy or parenthood is prohibited. FURTHER, DISCRIMINATION BASED ON SEXUAL ORIENTATION IS PROHIBITED. Decisions affecting an individual's employment will be based on the individual's qualifications, abilities and performance, as appropriate.

EFFECTIVE: The UAF Faculty Senate requests that first discussion of the amendment be placed on the Human Resources Committee agenda at the March BOR meeting.

RATIONALE: Under the current policy, students, staff and faculty could be discriminated against because of their sexual orientation. As an institution of higher learning, the University of Alaska should be setting an example to the rest of the state in terms of recognizing and respecting all of the diverse peoples of Alaska. By adding sexual orientation to the policy, the university is further sending a message to all students, staff, and faculty that this is a place where they are welcome, accepted, and protected against discrimination.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to amend the interim procedures for votes of censure or votes of no confidence of administrators as approved by the Senate at its meeting #104 on October 29, 2001.

CAPS = Additions

In the interim, the Senate requires that faculty calling into question their confidence in an administrator of a college, school, or campus request by memorandum to the UAF Provost and the UAF Faculty Senate President an immediate evaluation of the administrator according to the process defined in the current policy "Guidelines for the Evaluation Process for Administrators" (as passed at Senate Meeting #97, 30 October 2000). This request must be warranted by a simple majority vote (absentee vote included) of all academic FACULTY and/or special rank faculty WITH TITLE PRECEEDED BY 'RESEARCH' OR 'TERM' of that unit. This vote must be taken in a manner that accords with Board of Regents regulation on Open Meetings (R02.06.01 ff.). A faculty vote of censure or vote of no confidence taken contrary to this interim procedure will be considered out of order by the Faculty Senate and without merit for official action.

EFFECTIVE: Immediately, to be in effect until the Senate approves a revised procedure for votes of censure/votes of no confidence of administrators.

RATIONALE: This clarifies which faculty are eligible to vote.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to approve a Certificate in Medical Billing and Coding which includes two new courses.

EFFECTIVE: Fall 2002 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #43-44 and #45 on file in the Governance Office, 312 Signers' Hall.

(Submitted by Allied Health)

43. NEW COURSE: HLTH 208 - Human Diseases (3+0) 3 credits; offered Fall and As Demand Warrants; effective Fall 2002.
44. NEW COURSE: HLTH 236 - Insurance Reimbursement for the Medical Office (3+0) 3 credits; offered Fall and Spring; may be repeated; effective Fall 2002.
45. NEW DEGREE PROGRAM: Certificate, Medical Billing and Coding - Requires 31 credits (10 courses); effective Fall 2002 or upon BOR approval.

****

Executive Summary
Certificate, Medical Billing and Coding

The field of medical administration has expanded in recent years. The Medical Billing and Coding Program is designed to incorporate theory and application. This focused delivery will provide the student with the knowledge and job skills required for entry-level employment in the medical field.

There is a current and future need for trained medical billers and coders. Health care delivery is changing. Practitioners are being challenged to deliver quality patient care as well as contain the rising costs. Managed care programs, patient's loss of insurance and reduction in benefits, cost containment measures, and community pressure have amplified the market for competent and cross-trained medical billers and coders.

To summarize, there is a current need for educated medical billers and coders, which is projected to extend into the foreseeable future. The proposed Medical Billing and Coding Certificate program will prepare students for employment in the medical field. Implementation of this program will position the College of Rural Alaska, Tanana Valley Campus to meet the present and increasing demand for vocational-technical training and provide the medical community with medical billers and coders.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to delete the B.Ed.

EFFECTIVE:	Spring 2003 or Upon Board of Regents' Approval
RATIONALE:	See full program proposal #78 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary
B.Ed.

The University of Alaska provided four-year undergraduate B.Ed. degrees at UAA, UAF and UAS until the Board of Regents suspended admission to these degrees in 1998. Since they have been replaced by new degrees, we are requesting that the B.Ed. be deleted. Students who were declared as B.Ed. majors prior to that time have had the option, and the support necessary, to complete their degree requirements by December of 2002.

Between 1998 and 2001, the only route for students wishing to gain teacher certification within the UA system was to complete a 5th year, post-baccalaureate teacher preparation program. However, in 2000, each MAU was given permission to develop a new undergraduate degree program that would prepare students as elementary teachers. In June of 2001, the UA Board of Regents approved new undergraduate degrees at each of the MAU's. These degrees, all defined as a Bachelor of Arts in Elementary Education, serve as a replacement for the B.Ed. at each of the three campuses. The new degrees were designed collaboratively by UAA, UAF and UAS faculty and there is transferability for students throughout the University of Alaska system.

The new degree incorporates many of the courses and components of the previous degree, but its design includes new responsibilities for students and faculty, and it responds directly to new national and state standards including NCATE standards, the Alaska Teacher Standards, the Alaska Student Content Standards and the Alaska Standards for Culturally Responsive Schools. It is also fully compatible with the Alaska Quality Schools Initiative.

Since there is a well-documented and critical need for teachers in Alaska, the addition of a new undergraduate degree to replace the B.Ed. is an important step to take in responding to this need.

The new BA in Elementary Education provides the option for students in rural areas, as well as those on the Fairbanks Campus, to seek an undergraduate degree and teaching certificate in a much-needed profession. The teacher shortage in rural areas, the high teacher turnover rate, and the predicted shortage in urban areas is a critical problem that the University system can, and should, respond to by providing this new degree option.

In addition to supporting the Mission of the University of Alaska, the replacement of the B.Ed. with the new BA in Elementary Education directly responds to, and supports, each of the six primary goals in the final draft of the University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: (1) academic content requirements and the necessary collaboration across UAF departments; (2) degree requirements for on-going fieldwork in schools and communities; and (3) the built-in professional development for cooperating teachers and administrators and the required formal partnerships with schools and districts in rural and urban areas.

Alaska's comprehensive educational reform effort--i.e., the Alaska Quality Schools Initiative--has generated an unprecedented public interest in Alaska’s educational system. At this critical juncture in determining educational policy in the state, the University has the opportunity to make a long and lasting contribution to the state and to its children. The high level of collaboration among UAA, UAF and UAS faculty in the development of three new undergraduate teacher education degrees, the interest and support provided by a significant number of arts and sciences faculty members, and the prospects for increased attention to, and support for, teacher preparation programs are reason to believe that the University does indeed have the will to respond to the great need to prepare teachers for our unique Alaska contexts.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to amend the requirements for the Associate of Applied Science degree as follows:

[[ ]] = deletion
CAPS = addition

ASSOCIATE OF APPLIED SCIENCE

Associate of Applied Science degrees are awarded in specific occupational fields with emphasis on entering the job market. This degree, usually seen as a terminal degree, can serve as the basis for additional education. FOR SPECIFIC MAJOR REQUIREMENTS, REFER TO THE DEGREES AND PROGRAMS SECTION OF THIS CATALOG.

Note: students planning to go on to a baccalaureate degree need to work closely with their advisors and are encouraged to select courses meeting core requirements and courses designated within majors and minors. Only those courses with an "X" designator count towards the baccalaureate core

ANL 287 – TEACHING METHODS FOR ALASKA NATIVE LANGUAGES 3

Major specialty at least 30

Electives to total 60

EFFECTIVE: Fall 2002

RATIONALE: This amendment brings the AAS degree into compliance with NWASC accreditation standards by adding a Human Relations component and by clarifying the Computation component requirements. Additionally, it increases the computation requirement by eliminating the option to take a natural science course instead of computation courses. It also improves the relevancy of

the degree by requiring a written composition course which is application intensive. It continues to exceed accreditation standards in the Communication area.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to amend the requirements for the Associate of Arts degree as follows:

[[ ]] = deletion
CAPS = addition

Associate of Arts

The Associate of Arts degree represents the completion of broad-based college study. This degree may serve as a starting point for a career or a stepping stone to a baccalaureate program. A student may earn only one A.A. degree.

Requirements	**Credits**
All credits for the A.A. degree must be at the 100 level or above, and 20 credits must be at the 200 level or above, and be distributed as follows:	
Communications: (9 credits)	
ENGL 111X --Introduction to Academic Writing	3
ENGL 211X --Academic Writing about Literature or ENGL 212-- Business, Grant and Report Writing or ENGL 213X--Academic Writing about the Social and Natural Sciences	3
COMM 131X --Fundamentals of Oral Communication: Group Context or COMM 141X --Fundamental of Oral Communication: Public Context	3
Mathematics or Natural Science: (10 Credits)	
MATH 107X ---Function for Calculus** or MATH 131X -- Concepts and Contemporary Applications of Mathematics (OR Math 200X, 201X, 202X, 272X, or any math course having one of these as a prerequisite)	3
One natural science course, with lab, selected from the baccalaureate core	4
Mathematics (MATH, COMPUTER SCIENCE, STATISTICS AT THE 100 LEVEL OR ABOVE) or natural science	3

Humanities and Social Science: (18 Credits)

ANTH 100X/SOC 100X --Individual, Society and Culture	3	
ECON 100X/PS 100X --Political Economy	3	
HIST 100X --Modern World History	3	
ART/MUS/THR 200X -- Aesthetic Appreciation: Interrelationship of Art, Drama and Music or HUM 201X --Unity in the Arts	3	
ENGL/FL 200X --World Literature	3	
Humanities or social science elective		3
Two semester-length courses in a single Alaska Native Language or other non-English language or three semester-length courses (9 credits) in American Sign Language taken at the university level may substitute for two of the courses above.		

Library and Information Skills: (0-1 credit)

Successful completion of library skills competency test, or LS 100X, or LS 101X	0-1

Successful completion of the library skills competency test satisfies this requirement of the core curriculum, but does not carry degree credit.
(It is strongly recommended that this requirement be completed before enrolling in the 200-level English course requirement or that it be completed concurrently with enrollment in the 200-level English core requirement.)

General Electives: (22-23 credits)

Any combination of courses (Students planning to go on to the baccalaureate degree are advised to select courses meeting remaining core requirements, and courses designated within majors and minors.)	22-23

Electives to Total **60**

*English 212 doesn't fulfill the second half of the written communication requirement for the baccalaureate degree.

**MATH 161 --Algebra for Business and Economics, is not an equivalent course for MATH 107X.

EFFECTIVE: Fall 2002

RATIONALE: To clarify the mathematical science elective requirements.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to accept the recommendation of the CORE Review Committee to restate the Natural Science requirement of the CORE Curriculum to allow a student to complete two 4-credit courses, with labs, from two different areas (departments) of the approved Natural Science CORE courses (e.g. Biology and Chemistry) - OR - a 2 course depth sequence.

EFFECTIVE: Spring 2002

RATIONALE: Students changing from majors that require specific Natural Science courses to majors that allow students to make their own CORE Natural Science choices are regularly caught up in completing a second half (most usually a depth emphasis) of a CORE sequence not needed for the new major. This restatement of the requirement would eliminate the most petitioned aspect of the CORE Curriculum, widen student options, and maintain the integrity of this important element of the CORE Curriculum.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to delete the MAT, Elementary.

EFFECTIVE:	Fall 2002 or Upon Board of Regents' Approval
RATIONALE:	See full program proposal #21 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary
MAT, Elementary

In 1999, in conjunction with the development of a new post-baccalaureate teacher education programs for elementary and secondary teachers, the School of Education decided to test a pilot program that allowed post-baccalaureate teacher education students to earn an MAT degree in conjunction with the coursework and internship required for a teacher education license. After two years, with ongoing review and reflection of the advantages and disadvantages of the pilot MAT option (including the solicitation of a great deal of feedback from cooperating mentor teachers and administrators), the School of Education suspended admission to its MAT programs in spring 2001.

In place of the MAT, the School of Education designed an option for post-baccalaureate teacher education students to pursue the more respected and more rigorous M.Ed. This option allows post-baccalaureate students to use 15 of the required 27 credits from their licensure program to satisfy one-half of the 30 credits required for an M.Ed. Degree in Curriculum and Instruction.

This new option has been in place for two years and the response from students, university faculty and school district personnel has been very positive. In contrast to the MAT degree, the M.Ed. provides the option for students who complete our post-baccalaureate teacher education programs to continue their graduate work with us, and it provides the opportunity for the School of Education to provide professional development and support for beginning teachers. The M.Ed. can also be used as a foundation for a Ph.D. because of its requirements for research and the completion of a research project or a thesis.

The UAF Faculty Senate passed the following at its Meeting #105 on December 10, 2001:

MOTION:
======

The UAF Faculty Senate moves to approve a Master's of Software Engineering degree program.

EFFECTIVE: Fall 2002 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #18 on file in the Governance Office, 312 Signers' Hall.

In forwarding this request for approval, the Graduate Academic & Advisory Committee notes the importance of allocating a further (i.e., third) faculty position with this new program to ensure its viability.

****

Master's of Software Engineering

The Masters in Software Engineering is meant to prepare students for careers as software practitioners, i.e., those whose primary job is to develop or maintain software. It this goal is well met, then the program will directly benefit software practitioners and their employers.

The main reason for the existence of the field of software engineering is to seek and find solutions to various software practitioners' performance problems. Thirty-two years of software engineering efforts have produced good results in software engineering technical areas such as tools, process, re-use, testing, et cetera and in management areas such as software project management. Unfortunately the fruits of this labor are often not known to or used by software practitioners. Thus the UAF Software Engineering program goal is to help improve the performance of software practitioners through knowledge, understanding and use of software engineering principles and practices.

This program has been a successful track in the computer science graduate program since its inception in 1993. The software engineering track in the Computer Science Master's program was originally intended as an independent program, but was developed as a track for budgetary reasons. We are now proceeding with the separation of this track into a separate program according to our original plan. The program is not otherwise being changed from its already

successful form. Indeed, the graduates of this program have been successful in obtaining employment.

The UAF Faculty Senate passed the following at its Meeting #104 on October 29, 2001:

MOTION:
=======

The UAF Faculty Senate moves to approve the UAF Academic Development Plan developed in 2001 with the recommendation that the plan be formally reviewed by the UAF Administration and the UAF Faculty Senate during spring semester 2003.

EFFECTIVE: Immediately

RATIONALE: This motion provides the formal approval of the plan by the Senate and sets a timeline for its implementation and evaluation for prospective revision as needed.

The UAF Faculty Senate passed the following at its Meeting #104 on October 29, 2001:

MOTION:
=======

The UAF Faculty Senate moves to eliminate the credit hour restriction limiting the use of correspondence study work for certificates, associate and AAS degrees, and bachelor's degrees (page 26, 2001-2002 UAF catalog).

CAPS = Additions
[[ ]] = Deletions

GENERAL UNIVERSITY REQUIREMENTS

[[No more than 15 semester hours of correspondence study work are accepted toward an associate degree, 32 semester hours are accepted toward a bachelor's degree.]] If you want to use correspondence study credits from a school other than UAF to satisfy degree requirements, you must have the approval of those courses by the dean of the school or college from which you will graduate; otherwise, you take the risk of not having the courses accepted.

EFFECTIVE: Fall 2002

RATIONALE: In a time of technological change in the area of instructional delivery, the existing policy has become outdated and no longer reflective of our existing capabilities in this area of distance delivery. UAF departments are developing and delivering courses and entire programs wholly by distance delivery and UAF has an extensive history of delivering courses to rural students via distance delivery. It no longer seems reasonable or appropriate to single out one distance delivery mode for these restrictions.

The UAF Faculty Senate passed the following at its Meeting #104 on October 29, 2001:

MOTION:
=======

The UAF Faculty Senate moves to amend the policy on Course Restrictions (page 40, 2001-2002 UAF catalog) for graduate degrees as follows:

CAPS = Additions
[[ ]] = Deletions

Course Restrictions

You may not use [[correspondence courses,]] credit by examination, audited courses, 500-level courses or courses taken under the credit/no credit option to fulfill the basic course requirements of any degree program. No more than 12 credits of special topics courses (693 or 695) or individual study (697) may be used toward a graduate degree. Requests for exceptions to the limit must be approved by the dean of the Graduate School.

EFFECTIVE: Fall 2002

RATIONALE: The existing policy on course restrictions has not kept pace with technological innovations in distance delivery of courses, most of which have been implemented at UAF. At the same time, current policy (i.e., that governing transfer of credits from other institutions as well as instruments of oversight for graduate courses) ensures that distance-delivered courses meet the standards of UAF's graduate degree programs. The reference to "correspondence courses" as one particular, ill-defined form of distance-delivered courses is deemed superfluous in this context.

The UAF Faculty Senate passed the following at its Meeting #104 on October 29, 2001:

RESOLUTION:
==========

WHEREAS, The UAF Faculty Senate notes that the recent search process by the statewide administration for the candidates for Vice President for Research did not proceed according to normal practices of university governance; and

WHEREAS, In particular, the UAF Faculty Senate expresses concern that Dr. Craig Dorman was not interviewed on campus as a candidate for this position; and

WHEREAS, The UAF Faculty Senate recognizes that he did come to campus as a candidate for the IARC director position, but faculty outside that area are unlikely to have met him then and he was not interviewed on campus as a vice president finalist; and

WHEREAS, This seems particularly problematic since there has been faculty concern over the need for, and the scope of, the position of the Vice President for Research; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate sends notice to President Hamilton that such practices are considered outside the norm for university governance; and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate considers this an unfortunate gap in the process and reminds the President that such administrators are here on behalf of the faculty and students, both of whom have every intent of reviewing, criticizing, commenting, evaluating, and passing judgment on their actions.

The UAF Faculty Senate passed the following at its Meeting #104 on October 29, 2001:

MOTION TO REFER:
==========

The UAF Faculty Senate moves to refer the motion to amend the UA Nondiscrimination Statement back to the Administrative Committee for further information on the legality of the change and to bring it back to the Senate at the December meeting.

EFFECTIVE: Immediately

****

REFERRED TO COMMITTEE

MOTION:
=======

The UAF Faculty Senate recommends that the University of Alaska Board of Regents' amend the UA Nondiscrimination Statement (P04.01.020) as follows:

CAPS = Additions to the statement

Nondiscrimination Statement **P04.01.020**

In accordance with federal and state laws, illegal discrimination in employment against any individual because of race, color, religion, national origin, age, sex, veteran status, physical or mental disability, marital status or changes in marital status, pregnancy or parenthood, or SEXUAL ORIENTATION is prohibited. Decisions affecting an individual's employment will be based on the individual's qualifications, abilities and performance, as appropriate.

EFFECTIVE: The UAF Faculty Senate requests that first discussion of the amendment be placed on the Human Resources Committee agenda at the March BOR meeting.

RATIONALE: Under the current policy, students, staff and faculty could be discriminated against because of their sexual orientation. As an institution of higher learning, the University of Alaska should be setting an example to

the rest of the state in terms of recognizing and respecting all of the diverse peoples of Alaska. By adding sexual orientation to the policy, the university is further sending a message to all students, staff, and faculty that this is a place where they are welcome, accepted, and protected against discrimination.

The UAF Faculty Senate passed the following at its Meeting #104 on October 29, 2001:

MOTION:
======

The UAF Faculty Senate moves to suspend the procedure for votes of censure or votes of no confidence of administrators as approved by the Senate at its Meeting #17 on 9 March 1990, pending review and revision of this procedure by the Senate Faculty Appeals & Oversight Committee.

In the interim, the Senate requires that faculty calling into question their confidence in an administrator of a college, school, or campus request by memorandum to the UAF Provost and the UAF Faculty Senate President an immediate evaluation of the administrator according to the process defined in the current policy "Guidelines for the Evaluation Process for Administrators" (as passed at Senate Meeting #97, 30 October 2000). This request must be warranted by a simple majority vote (absentee vote included) of all academic and/or special rank faculty of that unit. This vote must be taken in a manner that accords with Board of Regents regulation on Open Meetings (R02.06.01 ff.). A faculty vote of censure or vote of no confidence taken contrary to this interim procedure will be considered out of order by the Faculty Senate and without merit for official action.

EFFECTIVE: Immediately, to be in effect until the Senate approves a revised procedure for votes of censure/votes of no confidence of administrators.

RATIONALE: Faculty at several schools and campuses at UAF have in recent time called for and taken votes of censure/votes of no confidence of administrators without following the approved Senate procedure. The procedure itself that was passed by the Senate in 1990, however, suffers from several flaws as noted in a statement made by then Chancellor Patrick J. O'Rourke (in memorandum dated April 20, 1990). Changes in accreditation standards concerning institutional integrity provide incentive for the Senate to revisit the approved Senate procedure to assure due process to administrators, including attention to requisite confidentiality when premature and/or unsubstantiated allegations may otherwise impact negatively on an administrator's reputation and ability to administer effectively a college, school, or campus.

The UAF Faculty Senate passed the following at its Meeting #103 on September 24, 2001:

MOTION:
======

The UAF Faculty Senate moves to confirm the membership on the Ad Hoc Committee on Unit Criteria consisting of one member from each of the following committees: Curricular Affairs, Faculty Affairs; Faculty Development, Assessment, and Improvement; and Faculty Appeals & Oversight Committee.

Gary Holton, Curricular Affairs
Joan Leguard, Faculty Affairs
Debi McLean-Nelson, Faculty Development, Assessment & Improvement
Julie Riley, Faculty Appeals & Oversight

EFFECTIVE: Immediately

The UAF Faculty Senate passed the following at its Meeting #103 on September 24, 2001:

MOTION:
======

The UAF Faculty Senate moves to amend the Baccalaureate Core Curriculum by adding a General Statement and updating the Philosophy Statement.

EFFECTIVE: Immediately

RATIONALE: The updated Philosophy statement has been open to comment on the CORE web site since January as a motion to replace the 1990 version.

The Committee was asked to create a basic CORE statement, which we have done and is also on the web site as well as in the CORE Notebook.

The Committee feels that replacing the outdated philosophy statement with this carefully updated statement is significant to the Accreditation process.

****

PROPOSED GENERAL STATEMENT:
==========

The Baccalaureate Experience

General Statement

UAF Core Curriculum Courses

The University of Alaska Fairbanks Baccalaureate Core Curriculum provides students with a shared foundation of knowledge and skills. Required of all graduates, the Core introduces students to the content and methodology of the major areas of knowledge: the humanities and fine arts, the natural sciences, mathematics, and the social sciences. These requirements help students develop the mental skills that will make them more effective participants, both in college and life in general.

Continually reviewed and enriched, the Core offers more than 80 courses to fulfill degree requirements. Not only does the Core provide students with a common learning experience, but it also enhances students' appreciation of cultural diversity and its implications on an individual and a social basis. Students must complete a minimum of 38 credits to satisfy the Core requirement:

Communications (9 credits)

ENGL 111X Methods of Written Communication (3)
ENGL 211X Intermediate Exposition, with Modes of Literature (3) OR
ENGL 213X Intermediate Exposition (3)
COMM 131X Fundamentals of Oral Communication: Group Context (3) OR
COMM 141X Fundamentals of Oral Communication: Public Context (3).

Library Information and Research (0-1 credits)

Successful completion of library skills competency test OR
LS 100X or 101X prior to junior standing

Writing- and Oral-Intensive Courses (0 additional credits)

Successful completion of two Writing-Intensive courses designated (W) and one Oral-Intensive course designated (O) or two oral-communication courses designated (O/2), at the upper-division level. Please consult the UAF Catalog to find out which courses are designated (W) and (O).

Perspectives on the Human Condition (18 credits)

ANTH 100X OR SOC 100X Individual, Society, and Culture (3)
ECON 100X (3) OR PS 100X Political Economy (3)
HIST 100X Modern World History (3)
ART/MUS/THR 200X Aesthetic Appreciation: Interrelationship of Art, Drama, and Music (3) OR
HUM 201X Unity in the Arts (3)
ANS 202X Aesthetic Appreciation of Alaska Native Performance (3)
ENGL/FL 200X World Literatures (3)
COMM 300X Communicating Ethics (3) OR
JUST 300X Ethics and Justice OR
NRM 303X Environmental Ethics and Actions OR
PS 300X Values and Choices OR
PHIL 322X Ethics

OR complete 12 credits from the above courses plus two semester-length (10 credits) courses in a single Alaska Native language or other non-English language or three semester-length courses (9 credits) in American Sign Language taken at the university level.

Mathematics (3 credits)

Math 107X Functions for Calculus (3) OR
Math 131X Concepts and Contemporary Application of Mathematics (3) OR
Math 200X, 201X, 202X, 262X, 272X (3), OR any math course having one of these as a prerequisite.

*Math 161 is not an equivalent course to Math 107X.

Natural Sciences (8 credits)

Complete two 4-credit courses, with labs, from approved natural science core courses with depth or breadth emphasis. Both courses must be from the same emphasis area, that is, either breadth or depth.

Breadth Emphasis
The two courses must be in different natural sciences or must be interdisciplinary in nature.

Select two courses from the following:

ATM 101X Weather and Climate of Alaska (4)
BIOL 100X Human Biology (4) OR
  BIOL 103X Biology and Society (4) OR
  BIOL 104X Natural History of Alaska (4) OR
CHEM 100X Chemistry and the Modern World (4)
GEOG 205X Physical Geography (4)
GEOS 100X Introduction to Earth Science (4) OR
    GEOS 125X Humans, Earth, and Environment (4) OR
    GEOS 120X Glaciers, Earthquakes, Volcanoes (4)
MSL 111X The Oceans (4)
PHYS 102X Energy and Society (4) OR
    PHYS 175X Astronomy (4)

Depth Emphasis
The two courses must be sequential courses or a two-semester survey in the basic natural sciences (biology, chemistry, earth
science, physics). Select one sequence from the following:

BIOL 105X-106X Fundamentals of Biology I and II (8)
BIOL 211X-212X Human Anatomy and Physiology I and II (8)
CHEM 103X-104X Basic General Chemistry/Beginnings in Biochemistry (8)
CHEM 105X-106X General Chemistry (8)
GEOS 101X and 112X The Dynamic Earth/History of Earth and Life (8)
PHYS 103X-104X College Physics (8)
PHYS 211X-212X General Physics (8)
PHYS 211X and 213X General Physics/Elementary Modern Physics (8)
PHYS 212X-213X General Physics/Elementary Modern Physics (8)

CURRENT PHILOSOPHY STATEMENT (1990):
==========

The Baccalaureate Experience

The Philosophy

The pursuit of the baccalaureate degree in the late twentieth century is a formidable undertaking. Social change and the knowledge explosion create new disciplines and alter the conventions, content, methods, and the applications of existing disciplines. We in higher education have reacted to this phenomenon by promoting an ever-growing curriculum of specialized majors, often at the expense of the basic liberal arts education concept of unity of knowledge as expressed by a common core of intellectual experiences.

As UAF students advance toward a degree goal they, too, encounter an array of general education and specialized curriculum offerings of the university. If these encounters are to reflect a clear learning purpose, then the curriculum must reflect a

clearly stated academic philosophy defining the meaning and purpose of the baccalaureate degree at the University of Alaska Fairbanks. Formulation of this philosophy starts directly with this question.

What intellectual experiences shall be deemed essential for all UAF students, regardless of academic major or career aspirations?

On the Conduct of Intellectual Inquiry. The development of the intellect is a basic aim of the baccalaureate degree. The university experience must demand more than "recipe knowledge," that is, the rote learning of material currently held to be "factual" and of the elemental "mechanics" of applied knowledge. What must be emphasized are intellectual activities which connect the mental processes of critical thinking and problem solving, and which explore certain metaphysical issues in knowledge creation.

Problem solving is a constant feature of human existence and we expect a learned demonstration of an intellectual ability to systematically design and conduct critical inquiry. To arrive at plausible answers or solutions requires first having plausible questions—an analysis task built on abstract conceptualization, logical reasoning, and on the exegesis of appropriate text material.

Finally, the opportunity for synthesizing knowledge must be present. The ultimate form of knowing is the perception and articulation of the "pattern"—of the significant relationships among pieces of knowledge. The synthesizing exercise should stimulate creative work and, hopefully, the joy of intellectual discovery and accomplishment.

Advanced Literacy in Language and Mathematics. Functional literacy is not a goal of university education. Regardless of the skill levels in English and mathematics students bring to the university, they must experience an educational process that pushes them beyond the functional to advanced levels.

For language literacy this means multi-dimensional competency in the use of English: 1) the critical comprehension of complex reading material; 2) the preparation of clear, organized and soundly reasoned statements in a variety of written forms; and 3) the capability and confidence to orally participate in public forums.

Advanced literacy in mathematics implies a solid grasp of quantitative reasoning and appreciation of mathematical applications. Most important is acquiring the knowledge necessary for informed judgement on the uses of mathematical and statistical interpretations confronting us in everyday life.

Inherent in these advanced literacies is an empowering process. Achievement of the range of competencies comprising these fields of study represents real personal power. It is a power, which keys success, satisfaction and greater self-determination throughout the total academic experience and in the modern world.

The Nature and Use of Science. At its heart, "science," represents a distinct approach to the study and explanation of both the natural and social world. College-level work in the sciences should foster an intellectual comfort with different aspects of the scientific method such as the quest for objectivity, hypothesis building

and testing, and with the explanatory functions of theory. Facility with quantitative manipulations and measures associated with basic scientific enterprises is an important part of this academic process.

The student should also become closely acquainted with the larger intellectual frameworks which have nurtured the development of scientific thought, including the ways we have come to understand and articulate the basic concepts of these frameworks. No student, for example, should graduate without a fundamental understanding of evolutionary theory because its major assumptions and propositions have triggered substantial work in virtually every other discipline. Einstein's theory of relativity is another such framework.

While particular emphasis is placed on the scientific approach in its various forms, adequate attention should be given to other traditions of human inquiry, both empirical and non-empirical.

In modern times, technological developments have had an enormous impact on all facets of the world's ecosystems, raising philosophical and ethical questions critical to the making of humane public policy. These are questions that simply will not go away and should be directly dealt with in the natural and social science curriculums.

Studies in History, Language, and Culture. In one sense, we all are members of a "global village" because of almost instantaneous communication networks, speedy transportation systems, and interlocking world economies. But in another sense, we live in a highly uncertain and fragmented world comprising a multitude of differing historical and cultural traditions. We all have a history, which has shaped the way we define ourselves as cultural, linguistic and national groups.

For the American university, the study of western civilization, including the culturally pluralistic tradition of America, is an essential prerequisite to related studies of our contemporary cultural consciousness and major social institutions. However, we must go beyond this to the comparative study of non-Western history and culture since it ultimately has the chance of making more comprehensible international complexities and certain seemingly intractable conditions such as was, poverty, and oppression.

The comparative study of history and culture also should include content that forces a critical examination of how the shared images, values, and convictions of a cultural group directly form the fundamental assumptions by which people make sense of everyday life and of the world around them. This kind of intellectual journey will raise many issues about values formation, the power of cultural identity, and the sources of ethnocentrism. The most sanguine presumption is that at journey's end, there will be more than mere tolerance for cultural differences. Rather, there will emerge a solid understanding and appreciation for different cultural traditions, and the way history has mixed many of these traditions into multicultural societies.

Finally, there exists one other literacy pertinent to being an educated citizen of the modern world—the development of a basic competence in a foreign or non-English language. Together with the pure intellectual benefits of the learning exercise (and

there are many), facility in a second language opens a very large window to real experiences in different cultural realities.

Humanistic Expressions. It is the humanistic study of aesthetics, literature, and ideas, which reveal the full meaning of being human. Unfortunately, it is precisely the humanities, which the modern technocratic world view has most de-emphasized. Nowhere else in the curriculum are the human senses and emotions so completely engaged as in the study of literature, the visual and performing arts, and philosophic discourse.

Moreover, humanistic expressions are cultural products vividly portraying the salient realities of a particular people at a particular time. For example, the prose and poetry of a historical period can bring the human condition to life in ways the literal style of textbooks cannot. It is in this realm of learning that beauty, creativity, and the powers of the human imagination and intellect are most directly encountered and shared through time and space.

Within this domain, the question of values becomes significant. Much of everyday life is spent dealing with value ambiguity. People continually must make decisions within multiple environments loaded with conflicting moral possibilities. Then they must bear responsibility for the consequences of their decisions. Through enculturation people develop a set of principles to guide the making of these real-life choices. These principles—and everybody has them and uses them constantly—reflect the core values and moral standards each of us believe we live by (or try to live by).

Enculturation, hence value formation, derives collectively from the ethos of those social institutions in which people spend good portions of their lives—the family, the church, peer groups, and schools, including the university. At a university, students should directly confront the nature of values.

The cultural values of society—of humankind—are for learning and for debating. The ultimate benefit of this exercise depends on the way we use it to reflect upon and refine our own personal codes of conduct.

Content Concentration. Intellectual concentration in a specific discipline serves as conceptual anchor to the baccalaureate experience and as the professional foundation of the student's post-baccalaureate career. The major field or area of specialization is where we expect the intellectual development of a solid grounding in a defined body of knowledge. Instruction in the advanced aspects of the field is an integral part of this undertaking; but full understanding is not gained without directed independent study and synthesizing activities. Also, each specialized field of study should examine the ethics and values associated with the application of its methods and knowledge.

PROPOSED PHILOSOPHY STATEMENT (2001):
==========

The UAF Baccalaureate Experience

The Philosophy

The pursuit of the baccalaureate degree in the twenty-first century is a formidable undertaking. Social change and the knowledge explosion create new disciplines and alter the conventions, content, methods, and the applications of existing disciplines. We in higher education have reacted to these phenomena by promoting an ever-growing curriculum of specialized majors, often at the expense of the basic liberal arts education concept of unity of knowledge as expressed by a common core of intellectual experiences.

As UAF students advance toward a degree goal they, too, encounter an array of general education and specialized curriculum offerings of the University. In order to assure that the baccalaureate experience of all University of Alaska Fairbanks students reflects the academic philosophy of a liberal education, the University has created a core curriculum. The core curriculum is designed to include the intellectual experiences considered essential for all UAF students, regardless of academic major or career aspirations.

The Core Curriculum will be sustained in quality through an on-going process of student learning outcomes assessment. The assessment will be conducted and reported by the Core Review Committee of the Faculty Senate, according to the plan approved by the Faculty Senate.

On the Conduct of Intellectual Inquiry. The development of the intellect is a basic aim of the baccalaureate degree. The university experience must demand more than the rote learning of material currently held to be "factual" and of the elemental "mechanics" of applied knowledge. What must be emphasized are intellectual activities which connect the mental processes of critical thinking and problem solving, and which explore certain metaphysical issues in knowledge creation.

Problem solving is a constant feature of human existence and we expect a learned demonstration of an intellectual ability to systematically design and conduct critical inquiry. To arrive at plausible answers or solutions requires first having plausible questions—an analysis task built on abstract conceptualization, logical reasoning, and on the exegesis of appropriate text material.

Finally, the opportunity for synthesizing knowledge must be present. The ultimate form of knowing is the perception and articulation of the "pattern"—of the significant relationships among pieces of knowledge. The synthesizing exercise should stimulate creative work and, hopefully, the joy of intellectual discovery and accomplishment.

Advanced Literacy in Language and Mathematics. Functional literacy is not, in itself, a goal of university education. Regardless of the skill levels in English and

Mathematics students bring to the university, they must experience an educational process that pushes them beyond the functional to advanced levels.

For language literacy this means multi-dimensional competency in the use of English: 1) the critical comprehension of complex reading material; 2) the preparation of clear, organized and soundly reasoned statements in a variety of written forms; and 3) the capability and confidence to competently participate orally and aurally in public forums.

Advanced literacy in mathematics implies a solid grasp of quantitative reasoning and appreciation of mathematical applications. Most important is acquiring the knowledge necessary for informed judgement on the uses of mathematical and statistical interpretations confronting us in everyday life.

Inherent in these advanced literacies is an empowering process. Achievement of the range of competencies comprising these fields of study represents real personal power. It is a power which keys success, satisfaction, and greater self-determination throughout the total academic experience and in the contemporary world.

The Nature and Use of Science. At its heart, "science," represents distinct approaches to the study, explanation, and understanding of both the natural and social worlds. College-level work in the sciences should foster an intellectual comfort with different scientific methods and with the scientific functions of theory. Facility with the quantitative manipulations and measures associated with basic natural and social scientific enterprises is an important part of this academic process as is recognition of the qualitative approaches of human science.

The student should also become closely acquainted with the larger intellectual frameworks which have nurtured the development of scientific thought, including the ways we have come to understand and articulate the basic concepts of these frameworks. Examples of such frameworks are Einstein's theory of relativity and evolutionary theory.

While particular emphasis is placed on scientific approaches, adequate attention should be given to other traditions of human inquiry, both empirical and non-empirical.

In contemporary times, technological developments have had an enormous impact on all facets of the world's ecosystems, raising philosophical and ethical questions critical to the making of humane public policy. These are questions that simply will not go away and should continue to be dealt with directly in the natural, social, and human science curriculums.

Studies in History, Language, and Culture. In one sense, we all are members of a "global village" because of almost instantaneous communication networks, speedy transportation systems, and interlocking world economies. But in another sense, we live in a highly uncertain and fragmented world comprising a multitude of differing historical and cultural traditions. We all have a history, which has shaped the way we define ourselves as cultural, linguistic, and national groups.

For the American university, the study of western civilization, including the culturally pluralistic tradition of America, is an essential prerequisite to related studies of our contemporary cultural consciousness and major social institutions. However, we must go beyond this to the comparative study of non-Western history and culture since it ultimately has the chance of making more comprehensible international complexities and certain seemingly intractable conditions such as was, poverty, and oppression.

The comparative study of history and culture also should include content that forces a critical examination of how the shared images, values, and convictions of a cultural group directly form the fundamental assumptions by which people make sense of everyday life and of the world around them. This kind of intellectual journey will raise many issues about values formation, the power of cultural identity, and the sources of ethnocentrism. The most sanguine
presumption is that at journey's end, there will be more than mere tolerance for cultural differences. Rather, there will emerge a solid understanding and appreciation for different cultural traditions and the ways that exposure to cultural differences can add to and enhance our
everyday lives.

Finally, there exists one other literacy pertinent to being an educated citizen of the contemporary world—the development of a basic competence in a foreign or non-English language. Together with the pure intellectual benefits of the learning exercise (and there are many), facility in a second language opens a very large window to real experiences in different cultural realities. UAF students should be encouraged to recognize both the personal and professional benefits of speaking and reading other languages.

Humanistic Expressions. It is the humanistic study of aesthetics, literature, and ideas, which reveal the full meaning of being human. Unfortunately, it is precisely the humanities, which the technocratic world view has most de-emphasized. Nowhere else in the curriculum are the human senses and emotions so completely engaged as in the study of literature, the visual and performing arts, and philosophic discourse.

Moreover, humanistic expressions are cultural products vividly portraying the salient realities of a particular people at a particular time. For example, the prose and poetry of a historical period can bring the human condition to life in ways the literal style of textbooks cannot. It is in this realm of learning that beauty, creativity, and the powers of the human imagination and intellect are most directly encountered and shared through time.

Within this domain, the question of values becomes significant. Much of everyday life is spent dealing with value ambiguity. People continually must make decisions within multiple environments loaded with conflicting moral possibilities. Then they must bear responsibility for the consequences of their decisions. Through enculturation people develop a set of principles to guide the making of these real-life choices. These principles—and everybody has them and uses them constantly—reflect the core values and moral standards each of us believe we live by (or try to live by).

Enculturation, hence value formation, derives collectively from the ethos of those social institutions in which people spend good portions of their lives—the family, the church, peer groups, and schools, including the University. At UAF, students should directly confront the nature of values in their baccalaureate experience.

The cultural values of society—of humankind—are for learning and for debating. The ultimate benefit of this exercise depends on the way we use it to reflect upon and refine our own personal codes of conduct.

Content Concentration. Intellectual concentration in a specific discipline serves as conceptual anchor to the baccalaureate experience and as the professional foundation of the student's post-baccalaureate career. The major field or area of specialization is where we expect the intellectual development of a solid grounding in a defined body of knowledge. Instruction in the advanced aspects of the field is an integral part of this undertaking; but full understanding is not gained without directed independent study and synthesizing activities. Also, each specialized field of study should examine the ethics and values associated with the application of its methods and knowledge.

The UAF Faculty Senate Administrative Committee passed the following on May 23, 2002:

MOTION:
=======

The UAF Faculty Senate Administrative Committee, acting on behalf of the Faculty Senate, moves to amend the "UAF Faculty Appointment and Evaluation Policies" and the "UAF Regulations for the Appointment and Evaluation of Faculty".

EFFECTIVE: "UAF Faculty Appointment & Evaluation Policies" - Upon Board of Regents Approval

"UAF Regulations for the Appointment & Evaluation of Faculty" - Upon Chancellor's Approval

RATIONALE: The comprehensive revision of the policies and regulation have been reviewed by the ACCFT union and these changes bring them into line with the collective bargaining agreement.

****

Draft "UAF Faculty Appointment and Evaluation Policies" , May 23, 2002

Draft "UAF Regulations for the Appointment and Evaluation of Faculty", May 23, 2002

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

RESOLUTION OF RECOGNITION

WHEREAS, the students of the UAF Chapter of the American Indian Science and Engineering Society (AISES) have won the Stelvio Zanin Distinguished Chapter Award for an unprecedented third time (1994, 1996 and 2000) and twice was runner-up (1995 and 1998), and

WHEREAS, through their collaborative efforts AISES Chapter students have effectively reinforced each other's continued progress toward academic and career goals, and

WHEREAS, under the leadership of Adrienne Orr, Kimberly Ivie, Delores Huffman, Loda Griffeth, Jessica Warrior, Johanna Bauman, Joshua Peter, Wily Splain, Lee DeWilde, Calvin Moses and Jeff Davis, an endowed scholarship fund was established by the UAF AISES Chapter, and

WHEREAS, numerous internship and professional employment opportunities as well as travel opportunities were made available through the UAF AISES Chapter, and

WHEREAS, the Chapter members have establish ongoing mentoring relationships with many Native UAF alumni, and

WHEREAS, the AISES students have implemented outreach programs to high school groups and started a volunteer tutoring program, and

WHEREAS, the AISES UAF graduates are taking important positions in the professional world and contributing to the decision making which will shape the future of Alaska, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate wishes to recognize the outstanding students of the UAF Chapter of AISES.

****

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

RESOLUTION OF RECOGNITION

WHEREAS, the students of NABL (Native American Business Leaders), the UAF Chapter of the American Indian Business Leaders' Organization (AIBL), were presented with the "Student Chapter of the Year" award at the recent National AIBL Leadership Academy held in San Diego, and

WHEREAS, the UAF Chapter of AIBL also won the Thousandaire Competition, took third place in the Tribal Business Plan competition and third place in the Owl Dance Competition, and

WHEREAS, the UAF Chapter is a student-based organization designed to

support and promote students interested in business and rural economic development, and

WHEREAS, under the leadership of Carol Hollingsworth, Mary Sage, Brenda Erlich, Louise Chikigak, Russell Snyder and Timothy Murphrey the UAF Chapter of AIBL has excelled in building its membership base, shows teamwork, and is active year round, and

WHEREAS, the AIBL student group is very supportive of one another, work together to accomplish goals, and

WHEREAS, the AIBL students work to establish networks with local businesses by bringing in guest speakers to speak on important issues to members, and

WHEREAS, the AIBL student members volunteer for the Festival of Native Arts and work on various fundraisers to benefit non-profit youth organizations in the community, and

WHEREAS, along with Rural Student Services, the UAF Chapter of AIBL helps organize and select recipients for the annual Dennis Demmert Appreciation and Recognition Awards which recognizes UAF staff and faculty who have shown their support for Native and rural students, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate wishes to recognize the outstanding students of NABL, the UAF Chapter of the American Indian Business Leaders' Organization.

****

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

****

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
=======

The UAF Faculty Senate moves to amend Article IV, Section 2, of the Constitution as follows:

[[ ]] = Deletions
CAPS = Additions

ARTICLE IV - Officer

Sec. 2 The President and President-Elect shall be elected [[from and]] by the [[voting]] ELECTED REPRESENTATIVES of the Senate for one-year terms. ELIGIBLE NOMINEES FOR THE OFFICES OF PRESIDENT AND PRESIDENT-ELECT SHALL BE ELECTED REPRESENTATIVES AND/OR CHAIRS OF STANDING AND PERMANENT COMMITTEES OF THE SENATE.

EFFECTIVE: Immediately

RATIONALE: Members of the Senate Administrative Committee include chairs of the SenateÕs Standing and Permanent Committees. The Senate Administrative Committee performs those functions which are executive in setting the agenda of the Senate. Since the Chairs of the Permanent Committees are involved in this executive function of the Senate, they have the experience qualifying them for the offices of President and President-Elect. The Permanent Committee Chairs should therefore have the opportunity to serve as officers of the Senate.

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
======

The UAF Faculty Senate moves to approve a Ph.D. degree program in Engineering.

EFFECTIVE: Fall 2001 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #42 on file in the Governance Office, 312 SignersÕ Hall.

****

Executive Summary
Ph.D., Engineering

This request is for a new degree program, the Ph.D. in Engineering. The engineering faculty of the three engineering departments of the UAF College of Engineering, Science, and Mathematics (CSEM) make this request jointly. Over the past six years, the engineering departments have produced an average of two Ph.D.'s each year through the existing Interdisciplinary Ph.D. Program. Currently there are nine Ph.D.-level students in the Interdisciplinary Ph.D. Program, whose work would fit into the Ph.D. in Engineering. The faculty of these departments believe that advertising the Ph.D. in Engineering degree will simultaneously attract high-quality students, add to the prestige of the engineering departments, and improve their ability to obtain externally funded research. The faculty believes that the Ph.D. in Engineering will benefit Alaska directly because much of their research will focus on Alaska and Arctic issues. It will also benefit Alaska indirectly through increases in research funding from sources outside the state.

We are proposing one degree: The Ph.D. in Engineering. The degree will,

at a minimum, meet the published UAF and Graduate School requirements. Admission to the degree program and overall policy beyond the Graduate School policies will be determined by a four member Engineering Ph.D. Committee, appointed by the Dean of the CSEM and approved by the Dean of the Graduate School. This proposal recognizes that most engineering Ph.D. work will fall into one of these emphasis areas: Arctic, Civil, Electrical, Engineering Management, Environmental, or Mechanical. Depending on a student's emphasis area, the day-to-day administration of the degree will be by one of the existing engineering departments: Civil and Environmental, Electrical, Mechanical.

There is wide support for this degree in Alaska, both from industry and government. There is a strong demand for hi-tech graduates and this demand is expected to continue.

The new degree program is an extension of the interdisciplinary Ph.D., which has been underway for many years. The engineering faculty recognize that current initiatives to increase the size of the engineering faculty, staff and laboratories are required for this program to grow.

****

University of Alaska New Program Approval

Board of Regents Summary Form

MAU: UAF

Title and brief description: Ph.D. in Engineering

Target Admission date: Fall 2001

****

How does the program relate to the Academic Mission of the University of Alaska?
The civil, electrical, and mechanical engineering faculties of UAF jointly request a new degree program, the Ph.D. in Engineering. This degree will require production of new engineering knowledge through research and dissemination of that knowledge to peers, the profession, and the public.

Describe the State Needs being met by this program.
The new degree will benefit Alaska directly because the doctoral research will focus on Alaska and Arctic issues. It will also benefit Alaska indirectly through increases in research funding from sources outside the state. There is support for this degree from Alaskan industries and government.

What are the Student opportunities and outcomes? The enrollment projections?
Over the past six years, the engineering departments have produced an average of two Ph.D.s each year through the existing Interdisciplinary Ph.D. Program. An enrollment increase to four or five Ph.D.s each year is a reasonable expectation over the next five to seven years. There is a strong demand for hi-tech graduates and this demand is expected to continue.

Describe the Research opportunities, if applicable.
Advertising this degree will simultaneously attract high-quality students, improve the ability of the College of Science Engineering and Mathematics (CSEM) to obtain externally funded research, and develop new areas of research for the state

Identify any additional Faculty and Staff requirements as well as any existing expertise and resources that will be applied.

This degree will draw on the combined strength of the three engineering departments in CSEM, approximately 27 faculty. As the program grows to four or five Ph.D.s per year, at least one new faculty and two research assistants in each of the three CSEM departments should accompany this growth.

Identify the impacts on existing Technology & Facilities as well as projected needs.
The majority of the needs will be met within the renovated Duckering Building. Student offices for 10 new graduate students will be required.

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
=======

The UAF Faculty Senate moves to approve a M.S. degree program in Computational Physics.

EFFECTIVE: Fall 2001 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #41 on file in
the Governance Office, 312 SignersÕ Hall.

****

Executive Summary
M.S., Computational Physics

Computer modeling and simulation has become a central tool in many science disciplines. Computational physics includes numerical modeling and computer simulation of processes in physical systems such as fluids, gases, space plasmas, solid state physics, and high energy physics. Computational physics is not computer science. The goal is the advancement of physics using modern computer technology. Computational physics requires expertise in advanced computing environments, in the mathematical background, and in the specific physics discipline. Computational Physics is a new branch of physics that is identified by separate degree programs at many US universities.

New career options have emerged in industry, research, and government for graduates in the physical sciences with additional capabilities in mathematics, numerical modeling and simulation using advanced computational methods. Incoming graduate students to this new program will have appropriate backgrounds in physics, applied physics, or an equivalent. This new graduate program will offer a combination of courses involving advanced physics, mathematics, numerical and computational techniques. UAF already offers appropriate coursework and this new degree re-packages existing UAF courses to focus students into a new career option.

The co-location of the Arctic Regions Supercomputer Center alongside internationally renowned research institutes provides a unique opportunity for student research projects and the opportunity for UAF to emerge as an international academic leader in this field.

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
======

The UAF Faculty Senate moves to approve the following policy concerning the Graduate Advisory Committee composition of Master's and Ph.D. degree students.

EFFECTIVE: Immediately

RATIONALE: The Graduate School requested that the Faculty Senate review the composition of the graduate student advisory committees and formalize the process that is currently being used.

****

GRADUATE ADVISORY COMMITTEE COMPOSITION

Master's Degree

The core advisory committee of Master's degree students must consist of three approved University of Alaska Fairbanks faculty members. Faculty participating above this number are considered additional committee members. Committee membership must be approved by the home department, Unit Dean, and the Dean of the Graduate School.

Retired and/or Emeritus faculty of the University of Alaska Fairbanks who have an association with the home department may serve on Master's advisory committees, upon expressed approval by the home department.

Faculty from other universities and other professionals who are not employed by University of Alaska Fairbanks may serve as either core or additional committee members on Master's advisory committees, upon expressed approval by the home department. They may not serve as the chair of an advisory committee, but may serve as the co-chair.

Doctoral Degree

The core advisory committee of Doctoral degree students must consist of four approved University of Alaska Fairbanks faculty members. For interdisciplinary students, one member must be from a Ph.D. granting department. Faculty participating above this number are considered additional committee members. Committee membership must be approved by the home department, Unit Dean, and the Dean of the Graduate School.

Retired and/or Emeritus faculty of the University of Alaska Fairbanks who have an association with the home department may serve on Doctoral advisory committees, upon expressed approval by the home department.

Faculty from other universities and other professionals who are not employed by University of Alaska Fairbanks may serve as either core or additional committee members on Doctoral advisory committees, upon expressed approval by the home department. They may not serve as the chair of an advisory committee, but may serve as the co-chair.

MOTION:
======

The UAF Faculty Senate moves to approve an A.A.S. degree program in Process Technology which includes nine new courses.

EFFECTIVE: Fall 2001 and
Upon Board of Regents' Approval

RATIONALE: See full program proposal #157-166 on file in the Governance Office, 312 SignersÕ Hall.

****

(Submitted by Process Technology)

157. NEW DEGREE PROGRAM: AAS, Process Technology - Major requirements include 8 credits of natural science, 28 credit in Process Technology courses (9 new courses), and 9 applied technology electives for a total of 63 credits; effective Upon BOR Approval.

158. NEW COURSE: PRT 101 - Introduction to Process Technology (3+0) 3 credits; offered Fall & Spring; effective Upon BOR Approval.

159. NEW COURSE: PRT 110 - Introduction to Occupational Safety, Health and Environmental Awareness (3+0) 3 credits; offered Fall & Spring; effective Upon BOR Approval.

160. NEW COURSE: PRT 130 - Process Technology I: Equipment (4+0) 4 credits; offered Fall & Spring; effective Upon BOR Approval.

161. NEW COURSE: PRT 140 - Industrial Process Instrumentation I (3+0) 3 credits; offered Fall & Spring; effective Upon BOR Approval.

162. NEW COURSE: PRT 144 - Industrial Process Instrumentation II (3+0) 3 credits; offered Fall & Spring; effective Upon BOR Approval.

163. NEW COURSE: PRT 230 - Process Technology II: Systems (3+2) 4 credits; offered Fall & Spring; effective Upon BOR Approval.

164. NEW COURSE: PRT 231 - Process Technology III: Operations (3+2) 4 credits; offered Fall & Spring; effective Upon BOR Approval.

165. NEW COURSE: PRT 250 - Process Troubleshooting (3+0) 3 credits; offered Fall & Spring; effective Upon BOR Approval.

166. NEW COURSE: PRT 255 - Quality Concepts for the Process Industry (1+0) 1 credits; offered Fall & Spring; effective Upon BOR Approval.

****

Executive Summary
A.A.S., Process Technology

In August of 1999 a group of over 100 people met at a two-day workshop to discuss the workforce needs in the process industries. Those present included representatives of oil and gas production, refineries, seafood processing, mining power generation, unions, several of the UA campuses, AVTEC, Ilisagvik, State Department of Labor, and AHRIC. The purpose of the meeting was to share information on the current workforce; projections of need for the future; available training and rate of graduation; and, to identify training needs. The motivation for the meeting was the growing awareness that due to the aging of the present workforce the needs over the next three to ten years would exceed the number currently available or in training. The result of that

two-day workshop was the creation of the Alaska Process Industry Careers Consortium (APICC) whose mission is:

"The purpose of APICC is to increase the ability of its members to provide quality education and training services to Alaskans. The Consortium will establish standards for Process Technology education and training and strive to collectively reach or exceed those standards." (See Attachment C for further information)

Although shortages were projected in several categories, the one with the largest was process operator. APICC therefore identified the development and support of a degree program in Process Technology as their first priority. The standards Committee identified the basic job functions of an operator and from that developed the "Process Operator Critical Work Functions, Key Activities and Performance Criteria" found in Attachment A. The Curriculum Committee used this information to design a degree program that can train individuals to these standards. BP Exploration hired a consultant work with the Curriculum Committee to develop the new courses and instructional materials to develop the new courses and instructional materials. This person also worked closely with TVC faculty and Director.

These two committees had members from both industry and education and there was a crossover membership between standards and curriculum. The standards and subsequently the Process Technology A.A.S. degree were reviewed and approved by the APICC membership.

APICC and its members have also provided support by:

- Developing promotional materials to recruit students into the courses
- Helping to recruit adjuncts from the industry to teach the courses
- Offering scholarships
- Making summer internships available
- Donating equipment for use in the instruction
- Industrial site tours

Within the University of Alaska the two lead campuses have been Kenai Peninsula College and Tanana Valley Campus with courses also offered in Anchorage through MAPTS, a component of UAA. The University received $250,000 in FYÕ01 funding for the Process Technology initiative. These funds have been allocated between the three sites for continued curriculum development, instruction, training of instructors, equipment and materials. The response to the initial course offerings has been strong with some sections at each site reaching maximum enrollment.

This degree proposal has been developed at the request of and with the involvement of the companies that will hire its graduates. It is an opportunity for the University of Alaska to be responsive to the needs of industry and to partner with industry to meet the needs of the State by training Alaskans to work in Alaska.

In addition, the following groups and individuals have participated in the review of and/or made recommendations regarding the proposed Process Technology degree: (See Attachment B)

- Tanana Valley Campus Advisory Council
- Alaska Process Industrial Careers Consortium
- Richard Campbell, President, Alaska, BP Exploration Inc.
- Mike Andrews, Executive Director, Alaska Human Resource Investment Council (AHRIC)
- Randy M. Newcomer, President, Williams Alaska Petroleum, Inc.
- Kevin O. Meyers, President, Phillips Alaska, Inc.

****

University of Alaska New Program Approval

Board of Regents Summary Form

MAU: UAF

Title and brief description:

The Process Technology program provides training for students who seek employment in the industries that use and control mechanical, physical or chemical processes to produce a final product. The program provides technical, management, general education, and regulatory training. The first Process Technology courses were presented during the spring 2000 semester. 25 students entered the program in spring 2000 and there are presently 76 students enrolled.

The Process Technology AAS program has been developed cooperatively between UAA and UAF. In partnership with the Alaska Process Industry Career Consortium, TVC, KPC and MAPTS have developed a common curriculum that will allow for maximum student flexibility.

Target Admission date: Fall 2001

(Students have been taking the courses as special topics since spring 2000.)

****

How does the program relate to the Academic Mission of the University of Alaska?

The proposed Associate of Applied Science Degree in Process Technology addresses the UA goal to "Focus academic programs and services on state and student needs" with the objective to "meet the highest demands in our region for professional education and workforce training." The Tanana Valley Campus has a long history of working with industry on both a local and statewide basis to develop and offer training programs to meet their needs. Vocational education has always been an important component of this college.

Describe the State Needs being met by this program.

The AAS degree in Process Technology is designed to provide educations/training that will enable individuals in Alaska to obtain employment in the industries that use and control mechanical, physical or chemical processes to produce a final product. In Alaska this includes the process industries of oil and gas production; chemical manufacturing; petroleum refining; mining and refining; power generation and utilities; water and wastewater treatment; and seafood and other food processing.

This program was developed in response to a request from the Alaska Process Industry Careers Consortium (APICC), which was organized to create, connect and enhance the quality of training, and educational programs that prepare Alaskans for good jobs. Industry is facing a skilled workforce shortage both in Alaska and nationwide. The present workforce is aging, technical skill requirements are increasing, and adequate and appropriate training to meet the project demand does not exist. The process industry has a need for over 50 new employees annually in Alaska.

Other factors contributing to the workforce shortage are the ups and down in employment opportunities in the oil and gas industry and

enrollment in related training programs declined. Not only did existing workers see no reason to upgrade their skills, but also high school graduates did not consider this a good career choice.

What are the Student opportunities and outcomes? The enrollment projections?

Upon completion of the program students will possess the training and skills for employment as an entry-level process operator as indicated by the following student outcomes

_ Graduates will be able to maintain a safe work area.
_ Graduates will be able to monitor area operations.
_ Graduates will be able to maintain process parameters.
_ Graduates will be able to maintain emergency response preparedness.
_ Graduates will be able to maintain regulatory compliance.
_ Graduates will be able to coordinate maintenance activities.
_ Graduates will be able to perform administrative activities appropriate to the job.
_ Graduates will be able to continue professional development.

Enrollment Information

Projection	SEMESTER	Year 1	Year 2	Year 3	Year 4	Year 5
Headcount (Full- & part-time)						
	Fall	NA	75	100	145	145
	Spring	25	76	130	145	145
Anticipated Graduates		0	15	20	30	30

Describe the Research opportunities, if applicable.

NOT APPLICABLE

Identify any additional Faculty and Staff requirements as well as any existing expertise and resources that will be applied.

Faculty Jonathan Prater, Assistant Professor/Coordinator,
Process Technology
M.Ed. Curriculum and Instruction
B.S. Occupational Education

Five part-time adjuncts

All faculty associated with this program will be required to have industry experience appropriate to the subject matter being taught. As each new course is brought on line all faculty teaching that course will receive an instructorÕs manual and training. They will also be involved in a review process to identify any needed revisions. This program has the full support of the process industries and they are committed to helping to identify and recruit qualified adjuncts. As enrollment increases there will be a need to hire an additional full time faculty member. This will not occur until year 4 or 5.

Administrator John C. "Jake" Poole, Director, Tanana Valley Campus, College of Rural Alaska/University of Alaska Fairbanks

Classified Personnel Julene Lowdermilk, Program Assistant, Process Technology

Identify the impacts on existing Technology & Facilities as well as projected needs.

The vocational shops and classrooms at TVC are adequate to support this program. Initially the Fairbanks program will use classroom space at the Hutchison Career Center.

Some resource materials will need to be purchased for the library. This will not be extensive as there are a limited number of publications available in this field. Equipment to support this program will be extensive. TVC will need to acquire a significant amount of equipment. APICC and its members have made a commitment to provide much of the equipment needed at both sites through company donations. It is anticipated that some items will still need to be purchased and funding has been provided through the UA initiatives process.

****

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
======

The UAF Faculty Senate moves to establish a policy on academic program review and assessment.

EFFECTIVE: Immediately

RATIONALE: This motion establishes a procedure for regular review and assessment of UAF degree programs as mandated in Board of Regents' policies and regulations 10.06.01.

****

UAF ACADEMIC PROGRAM REVIEW

REFERENCE: BOR Policy P10.06.01.A and Regulation R10.06.01

PURPOSE: Regularly review and assess UAF degree programs relative to mission, quality and efficiency

PROCESS:

1. Annual Audit: All programs shall be informally reviewed annually by the Dean based upon annual profile data supplied by the Office of Policy Analysis and Institutional Research and additional relevant information, as determined by the Dean and Department Chair.
2. Cyclic Review
   - A. All degree programs within a department shall be reviewed in a 5 year cycle.
   - B. The data used in the review shall consist of the updated Departmental Notebook (NWASC Self-Study), DeanÕs Annual Audit reports (if any written reports were done), outcomes assessment plan and results, and departmental self-analysis of strengths, weaknesses, needs, and significant changes since the last Cyclic Review.
   - C. The Review Committee shall be appointed by the Provost in consultation with the President of the Faculty Senate

and shall consist of three faculty members (one from the department under review) and one person external to UAF but having knowledge of the discipline.*

D. The committeeÕs report for each degree program shall address program strengths, weaknesses/deficiencies, and one of the following recommendations: continuation without change, continuation with changes, or discontinuation.

E. The departmental faculty shall write a response to the committeeÕs report.

F. The Dean shall write a response which indicates actions, if any, which will be taken at the college level and any recommendations for university action. A recommendation by the Dean to discontinue a program must provide rationale consistent with Board of Regents Policy and Regulation 10.04.02C, including appropriate review and recommendation by the collegeÕs academic council.

G. The Provost shall write a response which indicates any university actions which will be taken.

3. The Annual Timetable for Cyclic Reviews shall be as follows:

Dec 1	Departmental materials are finalized and committee is appointed
Mar 1	Committee report
Mar 20	Departmental response
Apr 15	Dean response
Jun 15	Provost response/action

* At the discretion of the departmental faculty, any degree program which holds professional accreditation may be reviewed by an alternate process if a substantive accreditation evaluation has been conducted since the last Cyclic Review. In this case the departmental faculty may elect to use the report of the accreditation evaluators instead of a report issued by the committee described in 2C.

****

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

RESOLUTION
=========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Godwin Chukwu as President-Elect of the UAF Faculty Senate for 2001-2002 by acclamation.

****

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

RESOLUTION
==========

WHEREAS, Board of Regents Regulation R04.05.040B.2.c on "Salary Range Movement" requires that "Periodically, but no less than every five years, an analysis of the UniversityÕs faculty compensation program will be conducted"; and

WHEREAS, Board of Regents Regulation R04.05.040B.2.c on "Salary Range Movement" requires further that "If it is found that faculty compensation is overall, or by discipline, leading or lagging the market relative to

prevailing market conditions as indicated by surveys of faculty salaries from sources appropriate to the hiring department or program which will include, but not be limited to, the AAUP, OSU, and CUPA, competitive levels will be achieved through salary range adjustments"; and,

WHEREAS, faculty compensation, including components of salary range, annual base salary, retention offers, equity adjustments, promotion increases, merit bonus, and other discretionary salary adjustments are to occur according to a process of negotiation outlined in extant United Academics and ACCFT collective bargaining agreements; and,

WHEREAS, an analysis of the UniversityÕs faculty compensation program as mandated by Board of Regents Regulation R04.05.040B.2.c is consistent with the extant collective bargaining agreements; and,

WHEREAS, the Statewide Faculty Alliance, acting at its meeting on 13 April 2001, recommended that the University Administration deal with faculty concerns about salary compensation; and,

WHEREAS, faculty at all ranks at UAF have expressed heightened concern that salary scales are below market, that new faculty hires are adding to salary compression, and that there remains an unresolved and now exacerbated issue of salary inequity; and,

WHEREAS, the 2001 UAF Accreditation Self-study Draft on Standard 4-Faculty (April 2001 revised version) claims (a) "UAF salaries lag 11.5% behind peer institutions and this difference is statistically significant", and (b) "Assistant and Associate Professor salaries are around 6.5% below and Full Professors are about 19.5% below average and these deviations are statistically significant" (sources referenced include AAUP June 2000 data and OSU 2000 salary data, compared to UAF data supplied by UA Office of Labor Relations); and,

WHEREAS, the UAF Faculty Senate retains it prerogative to address issues of faculty concern notwithstanding the fact that faculty compensation is a mandatory item of collective bargaining; now

THEREFORE, BE IT RESOLVED THAT the UAF Faculty Senate recommends that the University Administration address heightened faculty concerns about compensation by (1) analyzing the UniversityÕs faculty compensation program in accord with Board of Regents Regulation R04.05.040B.2.c, and (2) issuing a report with results of this analysis and correlative recommendations, this report to be issued to the UniversityÕs faculty governance representatives no later than March 15, 2002.

****

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
=======

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, standing, Permanent) of the Bylaws by deleting E. 4. (Committee to Nominate Commencement Speaker and Honorary Degree Recipients).

[[   ]] =   Deletion
CAPS =   Additions

Sect. 3   (ART V: Committees)

STANDING

A. An Administrative Committee will be composed of the chairpersons of all standing Senate Committees and of permanent Senate committees. [[except the Committee to Nominate Commencement Speakers and Honorary Degree Recipients.]]

PERMANENT

[[4. The Committee to Nominate Commencement Speaker and Honorary Degree Recipients will nominate commencement speakers and candidates for honorary degrees as specified in University Regulation 10.03.02. This Committee will work in concert with the University of Alaska Fairbanks Office of University Relations to review the nominee files and make a formal nomination to the Chancellor.]]

EFFECTIVE: Immediately

RATIONALE: Because of it's heavy administrative load, this committee more appropriately belongs under the Provost office. A large portion of the committee work is conducted during the summer months. University Regulation 10.03.02 stipulate that nominations must be review by a faculty committee. However, it does not have to be a Faculty Senate committee. The committee will continue to have Faculty Senate representation.

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

RESOLUTION OF APPRECIATION

FOR

LAWRENCE K. DUFFY

WHEREAS, Larry Duffy has served Faculty Governance in its many forms over the years in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

WHEREAS, Larry Duffy has served as Senator to the UAF Faculty Senate from 1988-92, 1993-95, and 1999-2000, and as Alternate from 1992-93 and 1996-99; and

WHEREAS, Larry Duffy has served as a member of the Curricular Affairs Committee from 1989-92; Chair of the Curriculum Review Committee for 1990-91; and Chair of Curricular Affairs for 1991-92; and

WHEREAS, Larry Duffy has served as a member and Chair of the Graduate Council for 1993-94; and as member and Chair of the Graduate School Advisory Committee for 1998-99; and

WHEREAS, Larry Duffy has served on a variety of other committees such as: Chair, Task Force on Department Chairpersons for 1989-90, 1990-91; Legislative & Fiscal Affairs, 1990-92; Ad Hoc Committee on Compensation & Workload, 1994-95; Committee to Nominate Commencement Speaker and Honorary Degree Recipients, 1996-2000; and

WHEREAS, Larry Duffy has served as Chair of the Administrative Committee and as President-Elect of the UAF Faculty Senate for 1999-2000; and

WHEREAS, Larry Duffy has served as a member of the UAF Governance

Coordinating Committee from 1999-2001; and

WHEREAS, Larry Duffy has served as a member of the UA Faculty Alliance, as a member of the UA Systemwide Governance Council from 1999-2001 and as Chair of the UA Faculty Alliance from 2000-2001 ; and

WHEREAS, Larry Duffy has served as President of the UAF Faculty Senate from 2000-2001; and

WHEREAS, Larry Duffy has served as Chair of the UAF Standard Four (Faculty) Accreditation Working Group; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Larry Duffy as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Larry Duffy and expresses its appreciation for his exemplary service.

The UAF Faculty Senate passed the following at its Meeting #102 on May 7, 2001:

MOTION
======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 2001. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 7, 2001

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

The UAF Faculty Senate passed the following at its Meeting #101 on April 2, 2001:

RESOLUTION OF RECOGNITION

WHEREAS, The UAF rifle team is the only collegiate sports team in Alaska to ever bring home a number one National Collegiate Athletic Association title, and

WHEREAS, The Nanooks successfully defended their national championship title for the third year in a row, and an unprecedented fourth time in less than a decade during competitions at Ohio State March 10, 2001.

WHEREAS, Sophomore Matt Emmons led the way winning both the air rifle and smallbore individual national titles, and

WHEREAS, individual honors went to Emmons and teammates Melissa Mulloy and Karl Olsson who were named first team All-Americans in both air rifle and smallbore, and

WHEREAS, Per Sandberg was named first team for smallbore and second team air rifle, and Grant Mecozzi was also named first team air rifle and second team smallbore and Amber Darland was named second team for both air rifle and smallbore, and

WHEREAS, All six of the qualifiers finished in the top ten individually and the top four places in the smallbore.

WHEREAS, During the 2000-2001 season the team shattered the team smallbore record and Emmons set two new individual national records including a perfect 400/400 in the air rifle event, and Mulloy finished out her UAF rifle career by attaining the second highest team average after coming back from the Olympic games last fall.

WHEREAS, Also making contributions to the season were junior John Holz, sophomore Ginny Schlichting, and freshmen Karen Gerde.

WHEREAS, Seven UAF athletes qualified for All Academic honors and led the team to the top rifle team grade point average in the nation, and

WHEREAS, The success of our students is a major strength of UAF, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate wishes to recognize the outstanding student athletes achievement of the UAF Rifle Team.

****

The UAF Faculty Senate passed the following at its Meeting #101 on April 2, 2001:

RESOLUTION OF RECOGNITION

WHEREAS, UAF's College Bowl team thrashed four of the most powerful administrators on campus in a warmup match in February by a score of 370-85, and

WHEREAS, UAF's College Bowl team, composed of Tina Buxbaum, Nick

Palso, Joe Hardenbrook, David Jessup, and William Bourke recently returned from the Association of College Unions International Region 14 tournament where they beat prestigious competitors to place second, and

WHEREAS, In the first round of competition UAF prevailed over the University of Washington 245 to 130, and

WHEREAS, UAF won 160 to 60 over the University of Idaho in the final round of the Round Robin play, and

WHEREAS, In single elimination UAF defeated Idaho State and Whitworth College, and

WHEREAS, After going undefeated most of the day UAF lost to Washington in best two out of three matches to finish the College Bowl tournament in second place, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate wishes to recognize the outstanding student academic achievement of the UAF College Bowl Team.

****

The UAF Faculty Senate passed the following at its Meeting #101 on April 2, 2001:

RESOLUTION OF SUPPORT
FOR THE BOARD OF REGENTS
FY02 OPERATING BUDGET REQUEST

WHEREAS, the Faculty Senate of the University of Alaska Fairbanks provides a mechanism whereby the faculty participate in the academic decision making of the University of Alaska system; and

WHEREAS, through committee representation the UAF faculty participated in the selection of projects to fulfill UA initiatives at the campus and system level, and

WHEREAS, the Board of Regents operating budget request includes funding for those program initiatives approved by the faculty through the shared governance process, and

WHEREAS, full funding of the Board of Regents operating budget request last year was a great beginning toward rebuilding UAF, and the legislature and the Governor should be applauded for their efforts thus far, and

WHEREAS, the long term goals of the initiative process cannot be maintained at an appropriate rate needed by the university and by the state to restore UAF to the level of other land grant, doctoral universities without full funding of the Board of Regents FY2002 operating budget request, now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate thanks the Governor for including the Board of Regents operating budget request in his FY2002 budget request, and

BE IT FURTHER RESOLVED, That the UAF Faculty Senate urges the Alaska State Legislature, and in particular, the Alaska State Senate to fully fund the Board of Regents operating budget request for FY2002.

****

Executive Summary
M.A., Administration of Justice

The Department of Justice, College of Liberal Arts, University of Alaska Fairbanks, requests approval of a Master of Arts Degree in Administration of Justice to be implemented in Fall Semester, 2001.

Alaska, like states throughout the United States, is faced with an increasing demand on the services of its criminal justice system. There is the realization that no one unit of government or public organization can successfully address the issue of providing public safety and response to criminal activity. To illustrate this realization, in 1995 Governor Tony Knowles directed that a group of his cabinet members meet on a regular basis for the purpose of coordinating efforts in the area of criminal justice planning. From this group's efforts the Final Report of the Alaska Criminal Justice Assessment Commission was published in May 2000. The Report contained a sweeping array of proposals. Upon close study one commonality emerges ? a call for creative and effective management in the administration of Alaska's Criminal Justice System.

The M.A. Degree in Administration of Justice will bring the resources of the University of Alaska to serve in the State's efforts. The course of study is suitable for those personnel who are currently policy makers, administrators, or managers in the criminal justice system. Additionally, the Degree will be attractive to those who wish to better prepare themselves for entry into the system or for promotion within. Of special note, there will be a focus on the Administration of Justice in Alaska's rural communities ? an area where the Justice Department has established expertise and which meets a major goal of the University of Alaska, Fairbanks. Rigorous academic standards will be maintained through a faculty who are experienced, successful instructors having recognized expertise and experience in their area of instructional responsibility.

To address the criminal justice needs throughout the State, the M.A. Degree will offer the majority of its courses through the internet, and will compliment those courses with a one week intensive capstone course conducted on the UAF campus. Over the past 21 years the Justice Department has graduated an average of 25 students a year. Many of these students have entered the justice professions as police officers, correctional officers, probation officers, and parole officers among a variety of other positions. Many of these past graduates are now in mid-level management positions throughout Alaska (and in some cases outside). Through continued communication with our graduates alone, the Justice Department has established an interest in having a program delivered by a distance delivery method. Surveys of Justice professionals within the State verify this need. The Justice Department is recognized for its pioneering efforts in using the internet to deliver undergraduate courses. The expertise now contained in the Justice Department will be used to develop a unique, innovative degree available to anyone who has access to the internet.

The M.A. Degree in Administration of Justice has four major objectives:

1. Provide advanced knowledge and skills to leaders in Alaska's criminal justice system to enhance their effectiveness as managers, administrators, and policy makers.

2. Create a communication medium whereby criminal justice personnel can exchange ideas within an academic setting.

3. Establish the Department of Justice, Fairbanks campus, as a leader in usage of the Internet to deliver graduate education.

4. Establish the Department of Justice, Fairbanks campus, as a recognized locale of expertise for administration of justice in Rural Alaska.

130. NEW COURSE: EDSE 482 - Inclusive Classrooms for All Children (3+0) 3 credits; offered Fall & Spring; first offered Spring 2002.

****

Executive Summary
B.A., Elementary Education

There is a well-documented and critical need for teachers in Alaska, and the University of Alaska system has the opportunity to respond to this need. The Bachelor of Arts in Elementary Education is a new undergraduate degree that will provide students on the Fairbanks Campus and in rural remote sites with the coursework and classroom experiences necessary to be eligible for an elementary teacher certificate. The integrated major/minor degree requirements are designed to prepare students to meet national and state standards for quality teachers, and to meet standards that recognize, respect and build upon the unique cultural, linguistic and geographic factors specific to the Alaska context. All students will be assessed relative to NCATE standards, the Alaska Teacher Standards, the Alaska Student Content Standards, and the Alaska Standards for Culturally Responsive Schools.

As a public institution, and as the state?s land-, sea- and space-grant institution, the University of Alaska has a responsibility to respond to the interests and needs of the people of Alaska. Close working relationships between the K-12 public education system and the state?s higher education system are essential for the social and economic well-being of our state.

A series of recent reports issued by The Kellogg Commission on the Future of State Land-Grant Universities examines the need for land-grant universities to re-assess their role relative to public school education and local communities. In the January/February 2001 issue of Change: The Magazine of Higher Education, the authors of the lead article "Rethinking the Land-Grant Research University" state that:

> Typically, research universities' interaction with K-12 schools has been the province of Schools of Education. . . .A more robust, inclusive engagement is needed today between university and K-12 faculty in order to build the kind of understanding, collaboration, respect, and innovation that will be needed to improve K-12 student achievement. . . . The land-grant research university will [need to] take active steps to incorporate collegial partnerships with the K-12 system as an integral part of its missions of teaching, research and public service. (Parker, Greenbaum & Pister, pp. 12-17)

The new undergraduate degrees for elementary teacher preparation at each of the UA major campuses are a direct response to the stated mission of the University of Alaska which is to "address the needs of the

North and it?s diverse peoples." There clearly is a "need" in Alaska for teachers--and for teacher preparation programs that prepare people to professionally and respectfully work in our unique Northern context with Alaska?s diverse peoples--i.e., with students and families from all ethnic, cultural and linguistic backgrounds.

In addition to supporting the Mission of the University of Alaska, the new BA in Elementary Education at UAF directly responds to, and supports, each of the six primary goals in the final draft of the University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: (1) academic content requirements and the necessary collaboration across several UAF academic units; (2) degree requirements for on-going fieldwork in schools and communities; and (3) built-in professional development for cooperating teachers and administrators and required formal partnerships with schools and districts in rural and urban areas.

* Be a world leader in arctic research and related graduate education
_ Provide high quality undergraduate education for traditional and non-traditional students
_ Form active collaborations with communities, organizations, businesses and government to meet identified state, national and global needs
_ Be an educational center for Alaska Natives
_ Be a model that demonstrates how gender, racial, and cultural diversity strengthen a university and society
_ Be an academic gateway to the North Pacific and the Circumpolar North

Alaska?s comprehensive educational reform effort--i.e., the Alaska Quality Schools Initiative--has generated an unprecedented public interest in Alaska?s educational system. At this critical juncture in determining educational policy in the state, the University has the opportunity to make a long and lasting contribution to the state and to its children. The high level of collaboration among UAA, UAF and UAS faculty in the development of three new undergraduate teacher education degrees, the interest and support provided by a significant number of arts and sciences faculty members, and the prospects for increased attention to, and support for, teacher preparation programs are reason to believe that the University does indeed have the will to respond to the great need to prepare teachers for our unique Alaska contexts.

****

SCHOOL OF EDUCATION
Undergraduate Program

MAJOR
Bachelor of Arts, Elementary Education
BA Degree

1. Complete the general university requirements. (As part of the core curriculum requirements, complete the following:*
   ANTH/SOC 100X, HIST 100X, PS 100X, MATH 107X*,
   ART/MUS/THR 200X, BIOL 100X or BIOL 104X, CHEM 100X
   Students who choose the language option to meet Core Perspectives on the Human Condition requirements, can substitute their language credits only for the ENGL/FL 200X and Ethics Course requirements.)
2. Complete the following B.A. Elementary Education degree major requirements in addition to the core curriculum:
   a. Complete the following mathematics requirements:*
      MATH 205--Mathematics for Elementary School Teachers I
      (3 credits)

MATH 206--Mathematics for Elementary School Teachers II (3 credits)

b. Complete GEOS 100X--Introduction to Earth Science or GEOS 125X--Humans, Earth and the Environment (4 credits)

c. Complete the following social sciences requirements:
ANTH 242--Native Cultures of Alaska (3 credits)
GEOG 101--Introductory Geography (3 credits) or GEOG 203--World Economic Geography (3 credits)
HIST 131-- History of the U.S. (3 credits)
HIST 461 W--History of Alaska (3 credits) or HIST 115--Alaska, Land and Its People (3 credits)
PSY 101--Introduction to Psychology (3 credits)
PSY 245--Child Development (3 credits)

d. Complete the following humanities requirements:
1. Complete one of the following to meet the writing course requirement:
ENGL 271--Introduction to Creative Writing--Fiction (3 credits) or ENGL 272--Introduction to Creative Writing--Poetry (3 credits) or ENGL 314 W, O/2--Technical Writing (3 credits) or JRN 311W--Magazine Article Writing (3 credits)
2. Complete one of the following to meet the literature course requirement:
ENGL 306--Survey of American Literature: Beginnings to the Civil War (3 credits) or ENGL 307--Survey of American Literature: Civil War to the Present (3 credits) or ENGL 308--Survey of British Literature: Beowulf to the Romantic Period (3 credits) or ENGL 309--Survey of British Literature: Romantic Period to the Present (3 credits) or complete another literature-focus, upper division English course on approved list (3 credits)
3. JRN 486--Media Literacy (3 credits) or JRN 308--Film and TV Criticism (3 credits)
4. LING 101--Nature of Language (3) or LING 303 W,O--Language Acquisition (3 credits)

e. Technology Skills ? Demonstrated competence (through School of Education assessment) or enrollment in ED 429 Computer Application in the Classroom (3 credits)

f. Complete the following Education Requirements (48 credits)*
1. Foundation Coursework and Field Experiences
ED 110--Becoming a Teacher in the 21st Century (1 credit)
ED 201--Introduction to Education (3 credits)
ED 304--Literature for Children (3 credits)
ED 330--Assessment of Learning (3 credits)
ED 350--Communication in Cross-Cultural Classrooms (3 credits) or ANS/ED 420?Alaska Native Education (3 credits)
ED 410W--Foundations of Literacy Development (3 credits)
EDSE 422--Curriculum and Strategies II: High Incidence (3 credits)
EDSE 482--Inclusive Classrooms for All Children (3 credits)
2. Capstone Experience: Professional Internship Year with Integrated Coursework and Internship Requirements
a. First Semester of Professional Internship Year
ED 411-- Reading, Writing, Language Arts: Methods and Curriculum Development (3 credits)
ED 412W--Integrated Social Studies and Language Arts: Methods and Curriculum Development (3 credits)
ED 413--Mathematics and Science: Methods and Curriculum Development (3 credits)
ED 466 -- Internship and Collaborative Student

Teaching (3 credits)
ED 467 -- Portfolio Development I (1 credit)

b. Second Semester of Professional Internship Year
ED 310--Art, Music and Drama in Elementary Classrooms (3 credits)
ED 327--Physical Education and Health in Elementary Classrooms (3 credits)
ED 468 (O)--Internship and Student Teaching (6 credits)
ED 469--Portfolio Development II (1 credit)

3. Minimum credits required (127 credits)

* Student must earn a C or better in each core communication course and in each required mathematics and education course.

****

Admission Requirements ? BA, Elementary Education

Admission to the University of Alaska Fairbanks, as a student seeking a BA degree in Elementary Education, provides students with the opportunity to enroll in and complete subject area courses and a series of education courses that provide a foundation for participation in the final Professional Internship Year. All students, however, must submit the materials listed below and meet admission requirements as a prerequisite for participation in the Professional Internship Year (i.e., prior to enrollment in professional year courses and prior to receiving an internship placement in a classroom). Declaring a BA in Elementary Education as one's major does not guarantee acceptance to the Professional Internship Year.

Internships begin in August or September on the date when teachers return to school (this varies across districts). Since internship placements are arranged with principals and mentor teachers in the spring, all materials necessary for determining admission to the School of Education must be submitted by February 15th. In order to make valid and reliable judgments about each applicant?s knowledge, skills and dispositions prior to approval for the year-long internship in a classroom with elementary children, faculty in the School of Education use multiple criteria to make admission decisions.

The following information must be provided to the Office of Certification and Advising in the School of Education by February 15th.

1. Transcripts from all institutions attended
2. Evidence of completion of all B.A. in Elementary Education degree courses (except for those required in the Professional Internship Year), with a minimum of a 2.75 overall GPA, a 2.0 in each major academic area, and a C or better in the UAF Core communication courses and in all required education and math courses. Students with less than a 2.75 overall GPA may be considered for conditional admission in special circumstances
3. Alaska passing scores from the Praxis I exams in reading, writing and math
4. Two letters of reference that address qualifications and potential as a teacher
5. A current and complete resume/curriculum vitae
6. Completion of two one-page essays on topics determined by the School of Education
7. Completion of the Elementary Teacher Education Academic Analysis Form and the Life Experiences Form to provide information on breadth and depth of prior coursework and/or documented life experiences relative to ten Alaska Student Content Standard areas.
8. Completion of a one to two page autobiographical sketch (appropriate for presenting to prospective principals and mentor teachers)

9. Completion of extemporaneous writing sample
10. Evidence of technology competence at a level appropriate for the year-long internship
11. Evidence of successful experiences in teaching and learning situations based on evaluations from teachers or community members who participated in applicant?s previous classroom and community fieldwork experiences
12. Evidence of ability to work collaboratively and respectfully in cross-cultural contexts
13. Submission of completed Alaska Student Teacher Authorization Packet (including fingerprint cards and criminal background check. Forms are available from the School of Education)
14. Interview, when appropriate

* Students are admitted for a specific academic year and must reapply if they do not enroll in the year in which they were reviewed.

The UAF Faculty Senate passed the following at its Meeting #101 on April 2, 2001:

MOTION
======

The UAF Faculty Senate moves to amend the Appeals Policy for Academic Decisions as follows:

EFFECTIVE: Immediately

RATIONALE: The Department Chair is the Administrative and Academic Officer of the department and as such has the primary responsibility and authority for: (1) leadership in developing high quality academic programs which fulfill department, college/school and university objectives; (2) leadership in the implementation of college and university policies and programs at the department level. The Department Chair also has the responsibility of acting on student petitions, and addressing student concerns as appropriate.

****

CAPS = Additions
[[ ]] = Deletions

APPEALS POLICY FOR ACADEMIC DECISIONS
Other Than Assignment of Grades

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that academic decisions (i.e., non-admission to or dismissal from any UAF program) are a faculty responsibility. Therefore, the University administration shall not UNDULY influence or affect the review of academic decisions THAT ARE A FACULTY RESPONSIBILITY.

The following procedures are designed to provide a means for students to seek review of academic decisions alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to

resolve the issue informally. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. As used in the schedule for review of academic decisions, a class day is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review. Final examination periods are counted as class days.

B. "Department Chair" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department, or [[the campus director]] DIVISION COORDINATOR OR PROGRAM CHAIR if the faculty member is in the College of Rural Alaska).

C. The "dean/director" is the administrative head of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

D. The next regular semester is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester for a final grade issued for a course completed during the previous spring semester or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

III. Procedures

A. A student wishing to appeal an academic decision other than a grade assignment must first request an informal review of the decision.

1. Notification must be received by the Provost within 15 days from the first day of instruction of the semester in which the decision takes effect.

2. There may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. In such a case, upon request from the student, the Provost, after review of supporting documentation provided by the student, may adjust the deadlines accordingly. An extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

3. The Provost will request the appropriate department chair [[or dean]] to conduct an informal review of the decision. [[and a determination of whether]] THE DEPARTMENT CHAIR WILL DETERMINE WHETHER the original decision should be overturned or changed in any way. [[This review shall take no more than ten (10) days.]] THE DEPARTMENT CHAIR WILL SUBMIT HIS/HER RECOMMENDATION TO THE PROVOST THROUGH

THE DEAN/DIRECTOR WITHIN 10 DAYS. IN THE EVENT THAT THE DEPARTMENT CHAIR IS DIRECTLY INVOLVED, THE PROVOST CAN ASK THE DEAN/DIRECTOR TO CONDUCT AN INFORMAL REVIEW AND SUBMIT HIS/HER RECOMMENDATIONS DIRECTLY TO HIM.

4. The Provost will consult with the student on the department chair?S [[/dean's]] recommendation. If the student does not find that recommendation acceptable, he/she may request the Provost to conduct a formal review.

B. The formal review will be conducted as follows.

1. This FORMAL review is initiated by the student through a signed, written request to the Provost.

   a. The student's request for FORMAL review may be submitted using university forms specifically designed for this purpose and available from the Office of the Provost.

   b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the FORMAL review of the decision, and that the university's administration INCLUDING THE COLLEGE DEAN/DIRECTOR can not influence or affect the outcome of the FORMAL review.

   c. The request for a formal review must be received no later than 10 days after the student has learned the outcome of the informal review (IIIA4).

   d. The request must detail the basis for the allegation that the decision was made on a basis other than sound professional judgment based upon standard academic policies, procedures and practices.

2. The Provost will appoint a 5 member review committee composed of the following:

   a. One tenure-track faculty member from the academic unit in which the decision was made.

   b. Two tenure-track faculty members from within the college or school but outside of the unit in which the decision was made. If available, one of these two members will be selected from the members of the UAF Faculty Appeals and Oversight Committee.

   c. One tenure track faculty member from outside the college or school in which the decision was made. If available, this member is to be selected from the members of the UAF Faculty Appeals and Oversight Committee.

   d. The fifth member to be appointed by the Provost will be a non-voting student representative.

   e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol

and records.

f. The department chair of the program in which the decision was made will act as the program's monitor of all proceedings.

3. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 working days of receipt of the student's formal request.

a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

c. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) THE STUDENT HAS NOT PROVIDED SUFFICIENT REASON IN SUPPORT OF THE ALLEGATION THAT THE ACADEMIC DECISION WAS ARBITRARY AND CAPRICIOUS.

[[1]] 2) This is not the first properly prepared request for appeal.

[[2]] 3) The request was not made within the policy deadlines.

d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department [[head]] CHAIR [[and]], dean/DIRECTOR AND PROVOST within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

4. Acceptance for consideration of the student's request will result in the following:

a. A request for, and receipt of, a formal WRITTEN response from the program DEPARTMENT CHAIR to the student's allegation.

b. A second meeting scheduled to meet within 10 days of the decision to review the request.

1) The student and THE DEPARTMENT CHAIR OR a representative of the program will be invited to attend the meeting.

2) The meeting will be closed to outside participation, and neither the student nor THE instructor OR DEPARTMENT CHAIR may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor OR DEPARTMENT CHAIR may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

5. The final decision of the committee will be made in private by a majority vote.

a. Actions which the committee can take if it accepts the student's allegation may include, but are not limited to, the following:

1) direct the program INSTRUCTOR OR DEPARTMENT CHAIR to reconsider the decision,

2) provide a final alternative decision.

b. The academic decision review committee proceedings will result in the preparation of written findings and conclusions.

c. A formal, written report of the decision must be forwarded to the student, INSTRUCTOR, program/department chair, dean and Provost within five days of the meeting. The Provost shall then be responsible for communicating the decision to other relevant offices (e.g., Admissions, Registrar).

d. The decision of the committee is final.

C. The entire process must be completed by the end of the semester in which the decision first took effect.

The UAF Faculty Senate passed the following at its Meeting #101 on April 2, 2001:

MOTION POSTPONED
==========

The UAF Faculty Senate opposes the Alaska State Legislature's move to re-name the Fairbanks International Airport for William R. Wood.

RATIONALE: Given this former University of Alaska president's record as an academic leader in Alaska, both in disregarding academic freedom and in disrespecting the indigenous population of Alaska, re-naming the Fairbanks airport is both inappropriate and unwise at this time. During the Wood administration, upward of 11 faculty members lost their jobs in arbitrary firings, including four popular creative writing professors called the "Flying Poets" who were fired

because they didn't fit the proper "image" the Wood administration desired for his university.

As another example, two science professors lost their jobs in connection with Project Chariot, a scheme by the U.S. Atomic Energy Commission to create a deepwater harbor near Point Hope in northwest Alaska by detonating up to six thermo-nuclear bombs. The blast likely would have had serious negative effects on Native people and their lands. Expressing one's professional opinion should never be grounds for firing faculty at any well-respected university. For his part, Wood never publicly acknowledged any wrongdoing, misgivings or misjudgments with regard to such actions, even though he was given ample opportunity to do so, and even decades after. In fact, when the two professors were awarded honorary doctorate degrees by the UAF faculty in 1993, rather than embracing their heroism and integrity, Wood did not attend UAF's commencement ceremony for the first time in 32 years.

The link between academic freedom and respect for the integrity of Alaska Native people and their land is significant in this regard, particularly in light of recent racially motivated events in Alaska against "Eskimos."

The UAF Faculty Senate, by adopting this motion, joins the Native community and the growing number of groups and individuals, including the Pioneers of Alaska Igloo No. 4, a prominent aviation organization in Fairbanks, in opposition to this airport re-naming. Furthermore, as the Fairbanks Daily News-Miner reported recently, Wood himself opposed naming the airport or any other public facility after him upon his death. His wishes should be respected.

The UAF Faculty Senate passed the following at its Meeting #100 on March 5, 2001:

MOTION
======

The UAF Faculty Senate moves to approve a new integrated B.S./M.S. degree program in Computer Science.

EFFECTIVE: Fall 2001
Upon Board of Regents' Approval

RATIONALE: See full program proposal #66 on file in the Governance Office, 312 Signers¹ Hall.

****

Executive Summary
B.S./M.S., Computer Science

The Department of Mathematical Sciences proposes a NEW integrated Computer Science BS/MS degree program for qualified undergraduate students to complete BS and MS degrees in a shorter time than traditional BS plus MS degrees. The combined accelerated degree for Computer Science undergraduate students is designed for students to complete both a Bachelor in Science and a Master in Science in five years. The basic rationales for the program are:

1. Better use of University resources

2. Leverage existing strong BS programs to increase graduate enrollment.

3. A national trend in a highly demanding field

4. An attractive option for qualified undergraduate students

Students, university, and industry are three most important components for the technology advancement. Since this is an integrated program for excellent students through planning and commitments, it is a win-win-win (WWW) program. Students can finish both degrees in shorter time without sacrificing educational quality in the discipline. The university can retain excellent undergraduate students in the graduate program and increase the enrollment and throughput. Computer science graduates have accepted positions with Microsoft, IBM, SUN, DEC, ARCO, BP as well as government agencies (state and federal), research institutes and centers. They are main stream workforces for the information era.

The UAF Faculty Senate passed the following at its Meeting #100 on March 5, 2001:

MOTION:
======

The UAF Faculty Senate moves that the Senate agenda will include a standing agenda item on the university budget and it associated priorities, to be presented by the Chancellor and/or designated

representative.

EFFECTIVE: Immediately

RATIONALE: Review of the university budget is one of the charges of the Faculty Affairs Committee.

The UAF Faculty Senate passed the following at its Meeting # 99 on February 5, 2001:

MOTION
======

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Standing, Permanent) of the Bylaws by deleting E. 9. (Steering Committee, Bachelor of Arts and Sciences Degree Program).

[[ ]] = Deletion
CAPS = Additions

STANDING

A. An Administrative Committee will be composed of the chairpersons of all standing Senate Committees and of permanent Senate committees except [[the University-wide Promotion and Tenure Committee,]] the Committee to Nominate Commencement Speakers and Honorary Degree Recipients. [[, and the BAS Steering Committee.]]

PERMANENT

[[9. The BAS Steering Committee is responsible for overseeing the BAS degree program. Specific duties of the Committee include: 1) evaluating proposals for including or deleting courses within the BAS degree and making recommendations to the CLA Academic Council and the Faculty Senate; 2) developing and evaluating procedures for advising BAS majors; 3) developing and assessing the BAS degree program. The Committee is responsible for establishing procedures for selecting the BAS coordinator and will select the coordinator for a 2-year term.

The committee shall be composed of one faculty member elected from each of the following units: (CLA, CSEM, SOEd, CRA); one faculty member appointed by Faculty Senate; one representative from the Advising Center; the BAS coordinator; and the Dean of the School of Education and the CLA dean or dean designee as ex-officio members.]]

EFFECTIVE: Immediately

RATIONALE: The School of Education is now responsible for the establishment of an advisory council for the BAS degree. The Colleges of Liberal Arts and Science, Engineering and Mathematics will be responsible for providing faculty members for the advisory council.

****

Executive Summary
Certificate & A.A.S., Dental Assistant Program

The field of dentistry has expanded in recent years. The Dental Assistant Certificate and A.A.S. degree program is designed to incorporate theory and application. This focused delivery will provide the student with the knowledge and job skills required for entry-level employment in the dental field.

There is a current and future need for trained dental assistant. In a September 2000 analysis of employment of health care occupations in Alaska from 1998-2008, the Alaska Department of Labor and Workforce Development project a 64% increase in estimated growth of dental assisting positions in Alaska. This reflects an annual growth of 6.44% per year, for the next eight years. In a report prepared for the Human Resource Investment Council titled: University of Alaska Vocational Education Students FY 1998 -- Employment Earnings Before and After Training, student incomes were studied. Statistics showed that after successfully completing a dental assisting program there was a significant rise in total wage and salary earnings.

Dental health care delivery is changing. Dentists are being challenged to deliver quality patient care as well as contain the rising costs. Managed care programs, patients loss of dental insurance and reduction in benefits, cost containment measures, and community pressure have amplified the market for competent and cross-trained dental assistants. Hiring Certified Dental Assistants allows the dentist to delegate advanced functions and thus extends dental services to more people.

To summarize, there is a current need for educated dental assistants, which is projected to extend into the foreseeable future. The proposed Dental Assistant Certificate & A.A.S. program will prepare students for employment in the dental field. Following accreditation of the program, the graduates will be eligible to take the D.A.N.B. Certification examination. The modular format also provides early entry into the job market with completion of specific modules of the course work. This permits full time work while the student completes the remaining modules. Implementation of this program will position the College of Rural Alaska, Tanana Valley Campus to meet the present and increasing demand for vocational-technical training and provide the dental community with credentialed dental assistants.

Executive Summary
Certificate & A.A.S., Tribal Management Program

The Interior-Aleutians Campus, College of Rural Alaska, University of

Alaska Fairbanks, request approval of a Certificate and A.A.S. degree program in Tribal Management to be implemented in Fall Semester 2001.

Through courses delivered locally in the home communities of our students, the Tribal Management Program will build the capacity of local governments in rural Alaska villages to take control of assets and resources for economic enhancement.

In line with the mission of Interior-Aleutians Campus, the TMP will provide educational opportunities for students throughout the state without requiring them to change or leave their culture or heritage. The Interior-Aleutians Campus is committed to educating Alaska Natives and rural residents, assisting them to affect social changes in their communities, thereby enriching the quality of their lives and cultures. Particular consideration is given to the needs of permanent residents and students in non-traditional settings who seek skills and degrees suited to the rural economy and to the well being of rural communities.

Due to the boom and bust cycles of Alaska's economic history, coupled with the thrust of Native peoples into the corporate world, many skills have been "imported" to regions by persons outside of the community and most often outside of the state. Many rural areas exist in a technology deficit, and the residents are becoming part of a "have-not" society. Given the lack of opportunity for education and employment as well as an infrastructure of tools for educational use, this challenge is especially poignant. The Tribal Management program is an oppor-tunity for students in rural Alaska to attain and maintain skills that sustain wellness, self-sufficiency, and on-going economic development.

As Alaskan tribes and rural workforce take control of local resources and the local economy, we will continue to see a rise in the need for quality and relevant education in rural Alaska. As more jobs are created to meet the economic demand of rural government and business development, there will be a growing need for adequate skill development programs. Working in cooperation with organizations like the Tanana Chiefs Conference, Bristol Bay Native Association and other regional nonprofits throughout Alaska increases the probability of success for the Tribal Management Program.

The UAF Faculty Senate passed the following at its Meeting # 99 on February 5, 2001:

MOTION:
======

The UAF Faculty Senate moves to amend the Foreign Language Advanced Placement Credit policy (pp. 14-15, UAF 2000-2001 catalog) as follows:

[[ ]] = Deletion
CAPS = ADDITION

Local Advanced Placement Credit

Foreign Language

After completing the course in which you were placed (above 101) and earning a B grade or higher, you may ask to receive [["bonus credit"]] CREDIT for the two immediately preceding prerequisite courses, if any. IN ADDITION, CREDIT (MAXIMUM 10) MAY BE RECEIVED IF THE COURSE WAS TAKEN AT AN ACCREDITED UNIVERSITY AND IS ACCEPTED AS EQUIVALENT TO AN APPROVED FOREIGN LANGUAGE COURSE AT UAF (B GRADE OR HIGHER). However, credit cannot be awarded for such courses if university credit has already been granted for them (for example, through College Board Advanced Placement national tests) or special topics courses, individual study courses, and literature or culture courses. CONTACT THE FOREIGN LANGUAGE DEPARTMENT.

EFFECTIVE: Fall 2001
Upon Chancellor Approval

RATIONALE: The existing wording in the catalog permits a UAF student who has foreign language expertise to 3 5credit for the two immediately preceding prerequisite UAF courses, if any, after completing the foreign language course in which they were placed (above 101) and after earning a B grade or higher. This modification allows for the same credit option to be available for students who desire to transfer in credit from an accredited institution.

****

The UAF Faculty Senate passed the following at its Meeting # 99 on February 5, 2001:

MOTION:
======

The UAF Faculty Senate moves to recommend to the UAF Administration that the following administrators be reviewed on a four year cycle according to the Guidelines outlined below:

EFFECTIVE: Immediately

RATIONALE: The Faculty Appeals and Oversight Committee was tasked with reviewing the policy for the faculty's role in the evaluation of administrators. The primary qualification for selection for periodic review by the Provost's office was administrators holding academic rank whose positions directly impact the academic programs and whose performance directly affects the ability of faculty to carry out their academic duties.

****

GROUP "A"

Provost
Executive Dean, College of Rural Alaska
Dean, School of Agriculture & Land Resource Management
Dean, School of Fisheries & Ocean Sciences
Dean, Graduate School
Dean, School of Mineral Engineering
Dean, School of Management
Dean, School of Education
Dean, College of Liberal Arts
Dean, College of Science, Engineering & Math

GROUP "B"

Director, Geophysical Institute
Director, Institute of Marine Science
Director, Bristol Bay Campus
Director, Chukchi Campus
Director, Interior-Aleutians Campus
Director, Tanana Valley Campus
Director of Library
Director, Institute of Arctic Biology
Director, Institute of Northern Engineers
Director, Kuskokwim Campus
Director, Northwest Campus
Director, Alaska Cooperative Extension
Director, Arctic Region Supercomputer Center
Director, International Arctic Research Center
Director, Fishery Industrial Technology Center, Kodiak
Program Chairman, Marine Advisory Program
Director of Fisheries Division, Juneau

Campus/Program Directors in Group "B" should be periodically reviewed by their immediate supervisory administrator according to a process established at the discretion of the supervising administrator.

Interim administrators who are still in place after four years should be considered for evaluation. Administrators holding interim appointment will be evaluated in their fourth year according to the process outlined below. Any administrator will be reviewed on an ad hoc basis when requested by 25 percent of the faculty in their unit.

****

GUIDELINES FOR THE EVALUATION PROCESS FOR ADMINISTRATORS

1. Within the first three weeks of the Fall Semester the Supervisor of the Administrator to be reviewed will appoint an Ad Hoc Administrator Review Committee consisting of five members, at least three of whom must be faculty. (It is recommended that staff be included on the ad hoc committee as appropriate.) The chair of the committee shall be appointed from the Faculty Senate. One of the three faculty shall be appointed from the Faculty Appeals & Oversight Committee.

   In the case of evaluation of the Dean of the Graduate School, the Provost will appoint an Ad Hoc Committee consisting of two faculty drawn from the UAF Faculty Senate's Graduate Academic & Advisory Committee, one Dean/ Director, one member of the Faculty Appeals and Oversight Committee, and a student representative from the Graduate Student Organization.

   The Ad Hoc Committee will solicit input from all relevant constituencies on- and off-campus, including faculty, staff, and students. This may be accomplished through various instruments, e.g., a standard questionnaire completed anonymously and returned to the Committee Chair.

2. The Administrator to be evaluated will prepare a narrative self-evaluation of activities performed during the three-year period (academic years) prior to the year of evaluation or since the last evaluation. This narrative should include reflections about how adequately s/he has fulfilled responsibilities of

leadership consistent with his/her own performance expectations and those of faculty, staff, and students in the unit. Major or otherwise significant accomplishments should be highlighted. Any issues raised in the last evaluation should be referenced with a view to what progress has been made on those items. Finally, the self-evaluation should identify a limited set of reasonable goals for the unit over the next three years, with some discussion about specific strategies that may be undertaken through his/her administrative leadership.

3. The Ad Hoc Committee will interview a select sample of faculty, staff, students and others as relevant for further evaluative comments about the Administrator's performance.

4. The Ad Hoc Committee will interview the Administrator either in person or by conference call. The interview shall proceed on the basis of a set of questions which reference the Administrator's self-evaluation, the results of returned questionnaires, and the interviews of faculty, staff, and students.

5. The Ad Hoc Committee will prepare an evaluative summary, and submit its report to the Provost (in the case of evaluation of Deans) or to the Chancellor (in the case of evaluation of the Provost or any other administrator who reports directly to the Chancellor). The Ad Hoc Committee shall work as expeditiously as possible in completing its report and submit it to the Provost or Chancellor as the case may be by March 15 of the Spring Semester.

   (a) At a date to be set by the Provost, the Provost or administrator's supervisor shall meet in joint conference with the Ad Hoc Committee and the Faculty Appeals & Oversight Committee for final review, recommendations, and disposition of the Administrator¹s evaluation. The supervisor of the administrator will thereafter provide his/her formal evaluation taking into account the Ad Hoc Committee's report.

   (b) At a date to be set by the Chancellor, the Provost and the Chancellor shall meet to discuss the Ad Hoc Committee¹s evaluation of the Provost. During this meeting the Chancellor and Provost shall identify performance priorities for the next review period. The Chancellor shall meet in joint conference with the Ad Hoc Committee and the UAF Faculty Senate¹s Faculty Appeals & Oversight Committee to summarize his evaluation.

The UAF Faculty Senate passed the following at its Meeting # 98 on December 11, 2000:

MOTION:
======

The UAF Faculty Senate moves to amend the Bachelor of Business Administration degree requirements to the following:

[[ ]] = Deletion
CAPS = Addition

BACHELOR OF BUSINESS ADMINISTRATION

All majors must earn a "C" or better in all Common Body of Knowledge courses, department-specific general requirements, major specific requirements, and specific math and statistics requirements.

Core Curriculum Requirements	38-39 credits
B.B.A. Degree Requirements	82-85 credits

Complete the following in addition to the core:

Mathematics:	
MATH 161 Algebra for Business and Economics	3 credits
(Math 262 should be taken to complete the mathematics requirement for the core.)	
Social Science and Statistics (10 credits):	
STAT 200 Elementary Probabilities and Statistics	3 credits
ECON 200 Principles of Economics	4 credits
ECON 227 Intermediate Statistics for Economics and Business	3 credits
Common Body of Knowledge (31-34 credits):	
AIS 101 Effective Personal Computer Use Or Demonstrated Computer Literacy	0-3 credits
ACCT 161 And 262 Accounting Concepts & Uses	6 credits
AIS 310 Introduction to Information Systems OR AIS 316 ACCOUNTING INFORMATION SYSTEMS	3 credits
BA 325 Financial Management	3 credits
BA 330 Legal Environment of Business	4 credits
BA 343 Principles of Marketing	3 credits
BA 360 Production/Operations Management	3 credits
BA 390 Organizational Theory and Behavior	3 credits
BA 462 Corporate Strategy	3 credits
ECON 324 Intermediate Macroeconomics or ECON 350 Money and Banking	3 credits

Major complex*	at least 27 credits
Minor complex** (optional)	15 credits or more
Electives	11 or more credits
Minimum credits required for degree	123 credits

Of the above, at least 39 credits must be taken in upper division (300 level or higher) courses.

*Departmental requirements for majors may exceed the minimum indicated. Specific requirements are listed in the Degrees and Programs

section of the catalog.

**Requirements for minors may exceed 15 credits. Specific requirements are listed in the Degree and Programs section of the catalog.

EFFECTIVE: Fall 2000
Upon Chancellor's Approval

RATIONALE: Changes are a result of a proposed new course (AIS 316) and is contingent upon approval of AIS 316.

****

The UAF Faculty Senate passed the following at its Meeting # 98 on December 11, 2000:

MOTION:
======

The UAF Faculty Senate moves to replace the current High School Enrollment Policy with the following:

CURRENT POLICY

High School Students
UAF offers three opportunities for high school students to enroll in university classes: dual enrollment, the AHEAD program and TECH PREP. For information on these programs please contact your high school guidance counselor or the UAF Admissions counselor phone (907) 474-7500 or (800) 478-1823, or web www.uaf.edu/admred/admissions/docs/highschool/.

Dual Enrollment
The dual enrollment program allows high school students to register for UAF classes. This program is open to the following:
* High school seniors with a GPA of 2.5 or above may register for two classes for a maximum of six credits.
* High school seniors with a GPA of 2.0 to 2.5 may register for one class.
* High school juniors with a GPA of 2.75 or above may register for one class.
* All other students are encouraged to contact the director of Admissions for information on course enrollment at UAF.

*High school students may enroll in vocational and developmental courses, depending upon program requirements, after obtaining approval signatures from their parent (guardian), high school official, the instructor of the class, and the appropriate university program coordinator.

Pick up a Dual Enrollment Application Form (valid for one semester) from your high school counseling office. You must file an application for each semester you wish to attend.

Note: enrollment in UAF courses through the Dual Enrollment program does not constitute admission to the university.

PROPOSED POLICY

Secondary School Students
UAF offers three opportunities for secondary students to enroll in university classes: secondary student enrollment, the AHEAD program, and TECH PREP. For information on these programs please contact your high school guidance counselor, your local rural campus, or the UAF Admissions Office, phone (907) 474-7500 or (800) 478-1823, or web www.uaf.edu/admred/admissions/docs/highschool/.

Secondary Student Enrollment
The secondary student enrollment process allows secondary students to register for UAF classes. A student meeting course prerequisites may enroll in university courses with permission of the instructor.

Secondary students must consult their appropriate school district officials and school counselors prior to registration for approval if they wish to use university courses to meet high school graduation requirements.

Registering for courses at UAF establishes a permanent academic record that will reflect student academic performance in all courses attempted.

Note: enrollment in UAF courses as a secondary student does not constitute formal admission to the university for the purposes of earning a certificate or degree.

AHEAD Program
Remains the same.

TECH PREP Opportunities
Remains the same.

EFFECTIVE: Immediately

RATIONALE: This motion clarifies the process necessary for the enrollment of secondary students into courses at UAF and removes obstacles from students who are eager to learn. Additionally, it allows us to treat these students the same way we treat older students who just sign up for a course or two. Streamlining this process will serve to encourage participation by secondary students who would profit from UAF courses. There are no changes to the AHEAD Program or the Tech Prep program.

****

The UAF Faculty Senate passed the following at its Meeting # 98 on December 11, 2000:

MOTION:
=======

The UAF Faculty Senate moves to approve a M.S. degree program in Statistics.

EFFECTIVE: Fall 2001 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #40 on file in the Governance Office, 312 Signers¹ Hall.

****

Executive Summary
M.S., Statistics

To properly manage the State's renewable and non-renewable resources and advance scientific enquiry requires the careful application of statistical methods. The creation of a master's program in Statistics at the UAF Department of Mathematical Sciences (the only such master's program in the State of Alaska) will help supply locally trained biometricians and consulting statisticians for employment in Alaska. The Department of Mathematical Sciences at UAF has successfully run an interdisciplinary master's program in applied statistics for five years, and seeks only to formalize the program. The creation of a master's program in Statistics will thus incur no additional costs, while the program will supply University researchers and State agencies access to highly qualified graduate students in Statistics.

The Masters in Statistics is meant to prepare students for careers in applied statistics. Graduates of the program could be labeled quantitative biologist, biometricians, quantitative geologists, geostatisticians, psychometricians, epidemiologists or mathematical statisticians, depending upon their specific coursework. As an organizing principle of the program, we will ensure that all students meet the requirements of successful employment as a biometrician for the Alaska Department of Fish and Game and will qualify for the State of Alaska's Biometrician register. In addition, this program will prepare students to enter a Ph.D. program in Statistics.

The program combines core courses in statistical theory with elective courses in statistical methodology. In addition, each student will take electives in one or more of mathematics, biology, fisheries, wildlife, geology, forestry, marine sciences, economics or other applied sciences. Doctoral students in these areas may pursue the Masters in Statistics simultaneously. The program is intended to take two academic years to complete. It is designed to work especially well as a joint program for Ph.D. students in the sciences.

This program has been a successful interdisciplinary graduate program since its inception in 1996. The ten graduates of the graduate program have all been successful in obtaining employment.

The UAF Faculty Senate passed the following at its Meeting # 97 on October 30, 2000:

MOTION:
======

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Permanent) of the Bylaws, as follows:

CAPS - Addition
[[ ]] - Deletion

PERMANENT

7. The Core Review Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the core curriculum at UAF. The Core Review Committee coordinates and recommends changes to the core curriculum, develops the process for assessment of the core curriculum, regularly reports on assessment of the core curriculum, monitors transfer guidelines for core courses, acts on petitions for core credit, and evaluates guidelines in light of the total core experience. This committee will also review courses for oral, written, and natural science core classification.

The committee shall be composed of one faculty member from each of the core component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, [[and]] Communication, AND LIBRARY SCIENCE) and one faculty member from a non-core component area. Membership on the committee will include an undergraduate student.

EFFECTIVE: Immediately

RATIONALE: Library Science is a Core component area and should have full voting membership.

****

The UAF Faculty Senate passed the following at its Meeting # 97 on October 30, 2000:

MOTION
=======

The UAF Faculty Senate moves to approve the M.A. degree program in Cross-Cultural Studies.

EFFECTIVE: Fall 2001 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal on file in the Governance Office, 312 Signers¹ Hall.

****

Executive Summary
MA, Cross-Cultural Studies

The intent of this request is to convert the current Ed.S. in Cross-Cultural Education to an M.A. In Cross-Cultural Studies, to be administered through the Department of Alaska Native Studies and the Center for Cross-Cultural Studies, College of Liberal Arts, University of Alaska Fairbanks. This will serve to broaden the applicability and appeal of the degree/coursework currently available for graduate students under the Education Specialist degree to fields beyond education that also involve cross-cultural issues and utilize indigenous knowledge systems (e.g., ecological studies, natural resources, health care, community development, social services, justice, Native studies, etc.). The M.A. degree is also designed to incorporate and contribute to newly emerging bodies of scholarship that have much to offer in addressing critical needs of the state, and it will continue to be available to students by distance education, in combination with intensive seminars and summer courses on campus.

These program changes will help to improve the quality and availability of services and provide for more efficient utilization of existing resources as current faculty contribute to the instructional and research functions associate with the reconstituted program. No additional faculty resources are required, since instructional/advising responsibilities previously associate with the Ed.S. program will be shifted to the M.A. program. In addition, the revised program draws on several existing courses and will continue to utilize the established distance education course delivery system. Graduate students in education who have already completed an M.Ed. degree but wish to pursue advanced work in "cross-cultural studies" will still be able to do so, but as a second master's degree, rather than at the post-masters level.

Objective 1 - To extend graduate opportunities in cross-cultural studies to students outside Fairbanks and beyond the field of education, including people working in ecological sciences, natural resources management, health care, community development, social services, justice and Native Studies.

Objective 2 - To provide research and advanced study opportunities in comparative knowledge systems, world views and ways of knowing.

Objective 3 - To increase cross-cultural understanding through the dissemination of student/faculty research and cultural documentation.

****

The UAF Faculty Senate passed the following at its Meeting # 97 on October 30, 2000:

MOTION
=======

The UAF Faculty Senate moves to delete the Ed.S.

EFFECTIVE: Fall 2001 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal on file in the
Governance Office, 312 Signers¹ Hall.

****

Executive Summary
Education Specialist, Cross-Cultural Studies

This request for the deletion of the Ed.S. degree reflects the reconstruction of the current Ed.S. in Cross-Cultural Education into an M.A. in Cross-Cultural Studies to broaden it applicability and appeal for graduate students in a greater variety of fields involving cross-cultural issues and indigenous knowledge systems, and to incorporate newly emerging bodies of scholarship that have much to contribute in addressing critical needs of the state.

The Ed.S. has been a stand-alone degree within the UAF School of Education since the mid-1960s. It was initially created to provide a post-masters degree program for the preparation of school superintendents and was later expanded to include advanced study in the areas of cross-cultural education. Due to staffing reductions in the School of Education, the superintendents program was suspended in 1985, and then discontinued altogether at UAF when the responsibility for preparing school administrators was shifted to UAA in 1998. In the meantime, the Center for Cross-Cultural Studies (which had responsibility for the Ed.S. program in cross-cultural studies under SOE) was retained in the College of Liberal Arts when the School of Education was administratively shifted to the Graduate School in 1998, so this proposal is, in part, intended to bring the degree program in line with the academic unit under which it is to be administered.

The impact of the proposed revision on student enrollment will be relatively minor, as only five students have completed the Ed.S. since 1990, and there are no active students enrolled in the program at the present time. Graduate students in education who have already completed an M.Ed. degree but wish to pursue advance work in "cross-cultural studies" will still be able to do so, but as a second master's degree or an interdisciplinary Ph.D., rather than at the post-masters level.

****

The UAF Faculty Senate passed the following at its Meeting # 97 on October 30, 2000:

MOTION
======

The UAF Faculty Senate recommends that the "Guidelines for the Evaluation Process for Administrators" formulated by the Faculty Appeals and Oversight Committee be adopted for use by committees assigned the task of reviewing administrators.

EFFECTIVE: Immediately

RATIONALE: Each time an administrator is evaluated the committee assigned the task spends half their time developing a process for evaluation. This would save the committee time and also inform the administrators of the process prior to their evaluation.

****

GUIDELINES FOR THE EVALUATION PROCESS FOR ADMINISTRATORS

1. Within the first three weeks of the Fall Semester the Supervisor of the Administrator to be reviewed will appoint an Ad Hoc Administrator Review Committee consisting of three faculty and two staff members from the Administrator's unit.

   In the case of evaluation of the Dean of the Graduate School, the Provost will appoint an Ad Hoc Committee consisting of one faculty drawn from the UAF Faculty Senate's Graduate Academic & Advisory Committee, two graduate program department chairs, two Deans/Directors, and a student representative from the Graduate Student Organization.

   In the case of evaluation of the Dean of Students, the Provost will appoint an Ad Hoc Committee consisting of one faculty member from the UAF Faculty Senate's Curricular Affairs Committee and one faculty member from the Graduate Academic & Advisory Committee, two Deans/Directors, and one student representative from ASUAF and one student from the Graduate Student Organization.

   Additionally, two members of the UAF Faculty Appeals and Oversight Committee shall serve in an ex officio capacity as representatives of the Faculty Senate.

   The Ad Hoc Committee will solicit input from all relevant constituencies on- and off-campus, including faculty, staff, and students. This may be accomplished through various instruments, e.g., a standard questionnaire completed anonymously and returned to the Committee Chair.

2. The Administrator to be evaluated will prepare a narrative self-evaluation of activities performed during the three year period (academic years) prior to the year of evaluation or since the last evaluation. This narrative should include reflections about how adequately s/he has fulfilled responsibilities of leadership consistent with his/her own performance expectations and those of faculty, staff, and students in the unit. Major or otherwise significant accomplishments should be highlighted. Any issues raised in the last evaluation should be referenced with a view to what progress has been made on those items. Finally, the self-evaluation should identify a limited set of reasonable goals for the unit over the next three years, with some discussion about specific strategies that may be undertaken through his/her administrative leadership.

3. The Ad Hoc Committee will interview a select sample of faculty, staff, students and others as relevant for further evaluative comments about the Administrator's performance.

4. The Ad Hoc Committee will interview the Administrator either in person or by conference call. The interview shall proceed on the basis of a selected set of questions which reference the Administrator's self-evaluation, the results of returned questionnaires, and the interviews of faculty, staff, and students.

5. The Ad Hoc Committee will prepare an evaluative summary, and submit its report to the Provost (in the case of evaluation of Deans and Directors) or to the Chancellor (in the case of evaluation of the Provost). The Ad Hoc Committee shall work as expeditiously as possible in completing its report and submit

it to the Provost or Chancellor by March 15 of the Spring Semester. The report shall be submitted also to the UAF Faculty Senate's Faculty Appeals & Oversight Committee for review.

(a) At a date to be set by the Provost, the Provost shall meet in joint conference with the Ad Hoc Committee and the Faculty Appeals & Oversight Committee for final review, recommendations, and disposition of the Administrator¹s evaluation. An evaluative summary of the Ad Hoc Committee's report will be made available to the faculty and staff of the Administrator's unit upon written request to the appropriate supervisor. The supervisor of the administrator will then provide his/her formal evaluation taking into account the Ad Hoc Committee's report.

(b) At a date to be set by the Chancellor, the Provost and the Chancellor shall meet to discuss the Ad Hoc Committee¹s evaluation of the Provost. During this meeting the Chancellor and Provost shall identify performance priorities for the next review period. The Chancellor shall meet in joint conference with the Ad Hoc Committee and the UAF Faculty Senate¹s Faculty Appeals & Oversight Committee to summarize his evaluation. The Chancellor shall prepare an executive summary of the Provost's evaluation to be made available to the University community upon written request to the Office of the Chancellor.

****

The UAF Faculty Senate passed the following at its Meeting # 97 on October 30, 2000:

RESOLUTION
==========

Whereas, in recent years there has been a movement nationwide as well as within the Alaska legislature to evaluate higher education using the market driven approach of consumer satisfaction.

Whereas, a relationship has been shown to exist between a student¹s persistence and his or her expectations being met.

Whereas, unmet expectations and low satisfaction appear to be the key factor in the attrition of students in good standing from institutions of higher learning.

Whereas, it is a priority to attract and retain Alaskan students in the University of Alaska Fairbanks and keeping students satisfied while meeting their expectations, now,

Therefore, Be it Resolved, That the UAF Faculty Senate supports the use of the Noel-Levitz Student Satisfaction Inventory which will examine the student expectations at the University of Alaska Fairbanks. Specifically, it will examine what is satisfying and important to UAF students, compare student ratings to national benchmark data and check student perceptions against those of faculty and staff, and

Be It Further Resolved, That the UAF Faculty Senate encourages faculty whose classes are randomly selected to allow time to hand out the survey and to encourage students to return it at the next class period.

****

The UAF Faculty Senate passed the following at its Meeting # 97 on October 30, 2000:

MOTION:
======

The UAF Faculty Senate moves to send the motion on "The Baccalaureate Experience" back to committee.

EFFECTIVE: Immediately

****

REFERRED BACK TO COMMITTEE

MOTION:
======

The UAF Faculty Senate moves to accept "The Baccalaureate Experience: Core Curriculum Requirements" as updated by the Core Review Committee.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The Core Curriculum requirements were approved by the UAF Faculty Senate in April 1990 and this document was printed and distributed in August 1990. Since then the Senate has approved numerous changes and additions to the guidelines. This document includes all the changes and an updated philosophy statement.

The UAF Faculty Senate passed the following at its Meeting # 96 on September 25, 2000:

MOTION PASSED
============

The UAF Faculty Senate moves to withdraw the motion to amend the Constitution presented at the May 5, 2000 meeting concerning research faculty membership on the Senate.

EFFECTIVE: Immediately

RATIONALE: The Faculty Affairs Committee discussion raised several issues with this motion as presented and they will study the issue further before bringing it back to the Senate.

****

FIRST READING

MOTION
======

The UAF Faculty Senate moves to amend Article III, Section 2 of the UAF Faculty Senate Constitution as follows:

[[ ]] = Deletions
CAPS = Additions

ARTICLE III - Membership

Sect. 2 Voting members of the Senate must EITHER hold academic rank [[and must be]] WITH full-time CONTINUING APPOINTMENT AT [[permanent employees of]] the University of Alaska FAIRBANKS OR HOLD SPECIAL ACADEMIC RANK WITH TITLE PRECEDED BY ŒRESEARCH¹ AND HAVE A THREE-YEAR CONTINUING APPOINTMENT IN THE YEAR OF ELIGIBILITY AND ELECTION.

EFFECTIVE: Upon Chancellor approval

RATIONALE: The number of research faculty on campus has increased in recent years. Members of this faculty group seek participation in faculty governance as well as representation on the Faculty Senate. This change accommodates this group of faculty.

****

The UAF Faculty Senate passed the following at its Meeting # 96 on September 25, 2000:

MOTION PASSED
============

The UAF Faculty Senate moves to approve the following Appeals Policy for Academic Decisions.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: This motion will bring UAF into compliance with the new UA Regulation 09.03.02 and extend UAF's appeals policy beyond grade appeals.

****

APPEALS POLICY FOR ACADEMIC DECISIONS
Other Than Assignment of Grades

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that academic decisions (i.e., non-admission to or dismissal from any UAF program) are a faculty responsibility. Therefore, the University administration shall not influence or affect the review of academic decisions.

The following procedures are designed to provide a means for students to seek review of academic decisions alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. As used in the schedule for review of academic decisions, a class day is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review. Final examination periods are counted as class days.

B. "Department Chair" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department, or the campus director if the faculty member is in the College of Rural Alaska).

C. The "dean/director" is the administrative head of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

D. The next regular semester is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester for a final grade issued for a course completed during the previous spring semester or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

III. Procedures

A. A student wishing to appeal an academic decision other than a

grade assignment must first request an informal review of the decision.

1. Notification must be received by the Provost within 15 days from the first day of instruction of the semester in which the decision takes effect.

2. There may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. In such a case, upon request from the student, the Provost, after review of supporting documentation provided by the student, may adjust the deadlines accordingly. An extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

3. The Provost will request the appropriate department chair or dean to conduct an informal review of the decision and a determination of whether the original decision should be overturned or changed in any way. This review shall take no more than ten (10) days.

4. The Provost will consult with the student on the department chair/dean's recommendation. If the student does not find that recommendation acceptable, he/she may request the Provost to conduct a formal review.

B. The formal review will be conducted as follows.

1. This review is initiated by the student through a signed, written request to the Provost.

   a. The student's request for review may be submitted using university forms specifically designed for this purpose and available from the Office of the Provost.

   b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the decision, and that the university's administration can not influence or affect the outcome of the review.

   c. The request for a formal review must be received no later than 10 days after the student has learned the outcome of the informal review (IIIA4).

   d. The request must detail the basis for the allegation that the decision was made on a basis other than sound professional judgment based upon standard academic policies, procedures and practices.

2. The Provost will appoint a 5 member review committee composed of the following:

   a. One tenure-track faculty member from the academic unit in which the decision was made.

   b. Two tenure-track faculty members from within the college or school but outside of the unit in which the decision was made. If available, one of these two members will be selected from the members of the UAF Faculty Appeals and Oversight Committee.

   c. One tenure track faculty member from outside the college or school in which the decision was made.

If available, this member is to be selected from the members of the UAF Faculty Appeals and Oversight Committee.

d. The fifth member to be appointed by the Provost will be a non-voting student representative.

e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

f. The department chair of the program in which the decision was made will act as the program's monitor of all proceedings.

3. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 working days of receipt of the student's formal request.

a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

c. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) This is not the first properly prepared request for appeal.

2) The request was not made within the policy deadlines.

d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department head and dean within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

4. Acceptance for consideration of the student's request will result in the following:

a. A request for and receipt of a formal response from the program to the student's allegation.

b. A second meeting scheduled to meet within 10 days of the decision to review the request.

1) The student and a representative of the program will be invited to attend the meeting.

2) The meeting will be closed to outside participation, and neither the student nor instructor may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

5. The final decision of the committee will be made in private by a majority vote.

a. Actions which the committee can take if it accepts the student's allegation may include, but are not limited to, the following:

1) direct the program to reconsider the decision,

2) provide a final alternative decision.

b. The academic decision review committee proceedings will result in the preparation of written findings and conclusions.

c. A formal, written report of the decision must be forwarded to the student, program/department chair, dean and Provost within five days of the meeting. The Provost shall then be responsible for communicating the decision to other relevant offices (e.g., Admissions, Registrar).

d. The decision of the committee is final.

C. The entire process must be completed by the end of the semester in which the decision first took effect.

****

The UAF Faculty Senate passed the following at its Meeting # 96 on September 25, 2000:

MOTION
=======

The UAF Faculty Senate moves to amend the UAF Faculty Appointment and Evaluation Policies and Regulations for the Evaluation of Faculty: Initial Appointment, Annual Review, Reappointment, Promotion, Tenure, and Sabbatical Leave as attached.

EFFECTIVE: Immediately
Upon Chancellor's Approval

RATIONALE: Unit Criteria as a component of evaluation, tenure, and promotion was apparently removed from the last "Blue Book" due to an erroneous belief that the faculty union contracts rendered them void or redundant in the "Blue Book". This is emphatically not the case, and so we have reinserted the relevant paragraphs on Unit Criteria from the previous "Blue Book".

****

[[ ]] = Deletion
CAPS = Addition

III. PERIODIC EVALUATION OF FACULTY

B. UNIT STANDARDS AND INDICES. UNIT STANDARDS AND INDICES ARE THE RECOGNIZED VALUES USED BY A FACULTY WITHIN A SPECIFIC DISCIPLINE TO ELUCIDATE, BUT NOT REPLACE, THE GENERAL FACULTY CRITERIA ESTABLISHED IN A., ABOVE, FOR EVALUATION OF FACULTY PERFORMANCE ON AN ONGOING BASIS AND FOR PROMOTION, TENURE AND SABBATICAL REVIEW.

UNIT STANDARDS AND INDICES MAY BE, BUT ARE NOT REQUIRED TO BE, DEVELOPED BY THOSE UNITS WISHING TO DO SO. UNITS THAT CHOOSE NOT TO DEVELOP DISCIPLINE-SPECIFIC UNIT STANDARDS AND INDICES MUST FILE A STATEMENT SO STATING WITH THE CHANCELLOR'S OFFICE WHICH SHALL SERVE AS THE OFFICIAL REPOSITORY FOR APPROVED UNIT STANDARDS AND INDICES.

UNIT STANDARDS AND INDICES, IF DESIRED, WILL BE DEVELOPED BY THE FACULTY IN A DISCIPLINE. AFTER APPROVAL BY A MAJORITY OF THE DISCIPLINE FACULTY, THE UNIT STANDARDS AND INDICES WILL BE REVIEWED AND APPROVED BY THE COGNIZANT DEAN WHO WILL FORWARD THE UNIT STANDARDS AND INDICES TO THE PROVOST. THE PROVOST WILL REVIEW FOR CONSISTENCY WITH POLICY AND WILL FORWARD THESE STANDARDS AND INDICES TO THE SENATE FOR ITS AND THE CHANCELLOR'S APPROVAL.

UNIT STANDARDS AND INDICES WILL BE REVIEWED PERIODICALLY BY THE FACULTY OF THE UNIT. REVISION OF UNIT STANDARDS AND INDICES MUST FOLLOW THE ESTABLISHED REVIEW PROCESS. IF THE UNIT STANDARDS AND INDICES ARE NOT REVISED, A STATEMENT OF REAFFIRMATION OF THE CURRENT UNIT STANDARDS AND INDICES MUST BE FILED WITH THE CHANCELLOR'S OFFICE, FOLLOWING THE REVIEW.

UNIT STANDARDS AND INDICES, WHEN DEVELOPED BY THE FACULTY AND APPROVED BY THE SENATE AND THE CHANCELLOR'S OFFICE, MUST BE USED IN THE REVIEW PROCESSES BY ALL LEVELS OF REVIEW. THEIR USE IS NOT OPTIONAL.

IT SHALL BE THE RESPONSIBILITY OF THE CANDIDATE FOR TENURE OR PROMOTION TO INCLUDE THESE APPROVED STANDARDS AND INDICES IN THE APPLICATION FILE.

IV. EVALUATION PROCESS FOR RETENTION, PROMOTION, TENURE, AND POST TENURE REVIEW

A. Linkage of Promotion/Tenure. An award of tenure is concurrent with promotion and vice versa. Any faculty member applying for promotion to the associate level must also apply for tenure; and a faculty member at the rank of assistant professor may not apply for tenure without concurrently seeking advancement to the rank of associate professor.

B. Faculty with Academic Rank

1. Criteria and Eligibility. A record of continuing effective performance shall be expected. Procedures, performance criteria and requirements are set forth in the applicable union contracts, UAF Faculty Policies, and in policies of the Board of Regents and the regulations of the University system currently in effect and as they may change.

2. Review Process. Promotion and tenure of a faculty member results from a multi-level process of evaluation beginning in the academic unit of the candidate.

a. Constitution and Operation of the University-wide Peer Review committees.

(1) For the purpose of evaluation for tenure and/or promotion of members of the United Academics bargaining unit, a list of the names of seven tenured unit members will be presented BY THE UAF FACULTY SENATE to the Provost who will select the committee or committees. Each unit peer review committee may nominate one of its members to serve. The list will be determined from those nominees by vote of all faculty who serve on unit peer review committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No specific peer review committee can be represented by more than one person. A faculty member may not stand for promotion during the term of appointment to the list.

(2) For the purpose of pre or post tenure evaluation of members of the United Academics bargaining unit, a list of the names of seven faculty members will be presented BY THE UAF FACULTY SENATE to the Provost who will select the committee or committees. Each unit peer review committee may nominate one of its members to serve. The list will be determined from those nominees by vote of all faculty who serve on unit peer review committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No more than one faculty member on the list can be a member of any specific peer review committee. A faculty member may not stand for post tenure revue during the term of appointment to the list.

(3) For the purpose of evaluation for tenure and/or promotion of members of the ACCFT bargaining unit, a list of the names of nine faculty members will be presented BY THE CRA EXECUTIVE DEAN to the Provost who will select the committee or committees. The list will be selected from the tenured faculty in the ACCFT bargaining unit by vote of those faculty. Faculty shall remain on the list for a term of two years with the terms being

staggered. A faculty member may not stand for promotion during the term of appointment to the list. The Provost will appoint two members from the United Academics University-wide Promotion/ Tenure Committee to serve on the ACCFT Promotion/Tenure Committee.

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION:
======

The UAF Faculty Senate moves to amend the Graduate Degree Requirements (page 39 & 43 of the 2000-2001 UAF Catalog) as follows:

[[ ]] = Deletions
CAPS = Additions

GENERAL UNIVERSITY REQUIREMENTS

Grade Point Average and Grade Requirements

You must have a cumulative GPA of 3.0 (B) for good standing and to graduate. You must earn an A or B grade (no P grades) in [[300-]] 400 level courses; a C grade will be accepted in 600-level courses provided you maintain a B grade average. For the purposes of graduate good standing and meeting degree requirements, all grades, including those generated from retaking a course, are included in the GPA.

MASTER'S DEGREES

Credit Requirements

a. Successfully complete a minimum of 30 semester credits.

b. Complete at least 21 semester credits, including those earned for the thesis and research/project, at the 600-level. Remaining credits may be applied from courses at the [[300- and]] 400-level.

c. No 100-, 200-, 300-, or 500-level credits may be applied toward master's degree requirements.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The above changes delete the use of 300-level courses as fulfilling graduate level course requirements. This brings UAF policy in the catalog into compliance with the Board of Regents' decision to disallow the use of 300-level courses for graduate study.

****

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION
=======

The UAF Faculty Senate moves provisionally to amend the UAF Faculty Appointment and Evaluation Policies and Regulations for the Evaluation of Faculty: Initial Appointment, Annual Review, Reappointment,

Promotion, Tenure, and Sabbatical Leave as attached.

EFFECTIVE: Immediately
Upon Chancellor's Approval

RATIONALE: Unit Criteria as a component of evaluation, tenure, and promotion was apparently removed from the last "Blue Book" due to an erroneous belief that the faculty union contracts rendered them void or redundant in the "Blue Book". This is emphatically not the case, and so we have reinserted the relevant paragraphs on Unit Criteria from the previous "Blue Book".

The Faculty Appeals and Oversight Committee will make corrections to bring the policy into agreement with the ACCFT contract and submit it for reconsideration at the October 2000 Faculty Senate meeting.

CAPS = Addition

III. PERIODIC EVALUATION OF FACULTY

B. UNIT STANDARDS AND INDICES. UNIT STANDARDS AND INDICES ARE THE RECOGNIZED VALUES USED BY A FACULTY WITHIN A SPECIFIC DISCIPLINE TO ELUCIDATE, BUT NOT REPLACE, THE GENERAL FACULTY CRITERIA ESTABLISHED IN A., ABOVE, FOR EVALUATION OF FACULTY PERFORMANCE ON AN ONGOING BASIS AND FOR PROMOTION, TENURE AND SABBATICAL REVIEW.

UNIT STANDARDS AND INDICES MAY BE, BUT ARE NOT REQUIRED TO BE, DEVELOPED BY THOSE UNITS WISHING TO DO SO. UNITS THAT CHOOSE NOT TO DEVELOP DISCIPLINE-SPECIFIC UNIT STANDARDS AND INDICES MUST FILE A STATEMENT SO STATING WITH THE CHANCELLOR'S OFFICE WHICH SHALL SERVE AS THE OFFICIAL REPOSITORY FOR APPROVED UNIT STANDARDS AND INDICES.

UNIT STANDARDS AND INDICES, IF DESIRED, WILL BE DEVELOPED BY THE FACULTY IN A DISCIPLINE. AFTER APPROVAL BY A MAJORITY OF THE DISCIPLINE FACULTY, THE UNIT STANDARDS AND INDICES WILL BE REVIEWED AND APPROVED BY THE COGNIZANT DEAN WHO WILL FORWARD THE UNIT STANDARDS AND INDICES TO THE PROVOST. THE PROVOST WILL REVIEW FOR CONSISTENCY WITH POLICY AND WILL FORWARD THESE STANDARDS AND INDICES TO THE SENATE FOR ITS AND THE CHANCELLOR'S APPROVAL.

UNIT STANDARDS AND INDICES WILL BE REVIEWED PERIODICALLY BY THE FACULTY OF THE UNIT. REVISION OF UNIT STANDARDS AND INDICES MUST FOLLOW THE ESTABLISHED REVIEW PROCESS. IF THE UNIT STANDARDS AND INDICES ARE NOT REVISED, A STATEMENT OF REAFFIRMATION OF THE CURRENT UNIT STANDARDS AND INDICES MUST BE FILED WITH THE CHANCELLOR'S OFFICE, FOLLOWING THE REVIEW.

UNIT STANDARDS AND INDICES, WHEN DEVELOPED BY THE FACULTY AND APPROVED BY THE SENATE AND THE

CHANCELLOR'S OFFICE, MUST BE USED IN THE REVIEW PROCESSES BY ALL LEVELS OF REVIEW. THEIR USE IS NOT OPTIONAL.

IT SHALL BE THE RESPONSIBILITY OF THE CANDIDATE FOR TENURE OR PROMOTION TO INCLUDE THESE APPROVED STANDARDS AND INDICES IN THE APPLICATION FILE.

IV. EVALUATION PROCESS FOR RETENTION, PROMOTION, TENURE, AND POST TENURE REVIEW

A. Linkage of Promotion/Tenure. An award of tenure is concurrent with promotion and vice versa. Any faculty member applying for promotion to the associate level must also apply for tenure; and a faculty member at the rank of assistant professor may not apply for tenure without concurrently seeking advancement to the rank of associate professor.

B. Faculty with Academic Rank

1. Criteria and Eligibility. A record of continuing effective performance shall be expected. Procedures, performance criteria and requirements are set forth in the applicable union contracts, UAF Faculty Policies, and in policies of the Board of Regents and the regulations of the University system currently in effect and as they may change.

2. Review Process. Promotion and tenure of a faculty member results from a multi-level process of evaluation beginning in the academic unit of the candidate.

a. Constitution and Operation of the University-wide Peer Review committees.

(1) For the purpose of evaluation for tenure and/or promotion of members of the United Academics bargaining unit, a list of the names of seven tenured unit members will be presented BY THE UAF FACULTY SENATE to the Provost who will select the committee or committees. Each unit peer review committee may nominate one of its members to serve. The list will be determined from those nominees by vote of all faculty who serve on unit peer review committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No specific peer review committee can be represented by more than one person. A faculty member may not stand for promotion during the term of appointment to the list.

(2) For the purpose of pre or post tenure evaluation of members of the United Academics bargaining unit, a list of the names of seven faculty members will be presented BY THE UAF FACULTY SENATE to the Provost who will select the committee or committees. Each unit peer review committee may nominate one of its members to serve. The list will be determined from those nominees by vote of all faculty who serve on unit peer review

committees. Faculty shall remain on the list for a term of two years with the terms being staggered. No more than one faculty member on the list can be a member of any specific peer review committee. A faculty member may not stand for post tenure revue during the term of appointment to the list.

(3) For the purpose of evaluation for tenure and/or promotion of members of the ACCFT bargaining unit, a list of the names of nine faculty members will be presented BY THE CRA EXECUTIVE DEAN to the Provost who will select the committee or committees. The list will be selected from the tenured faculty in the ACCFT bargaining unit by vote of those faculty. Faculty shall remain on the list for a term of two years with the terms being staggered. A faculty member may not stand for promotion during the term of appointment to the list. The Provost will appoint two members from the United Academics University-wide Promotion/ Tenure Committee to serve on the ACCFT Promotion/Tenure Committee.

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION
=======

The UAF Faculty Senate moves to delete the B.A. in Physical Education, the B.S. in Exercise Science, and the Minor in Physical Education.

EFFECTIVE: Fall 2000 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #114 on file in the Governance Office, 312 Signers¹ Hall.

****

Executive Summary

As a consequence of the Program Assessment conducted in the mid 1990s, the Physical Education and Exercise Science degrees came under review and preliminary consideration was given to phasing out the degrees. In May 1997, following a resignation of the sole faculty member in Physical Education and Exercise Science, new admissions to the degree programs and minor were suspended. From 1997 through fall 1999, existing majors and minors in these degree programs were provided courses through lecturers and adjunct faculty. All of the students impacted completed their coursework by December 1999 and will have graduated by spring 2000.

Since May 1997, the degree programs have functioned without full or part-time faculty, without a budget, and with no staff. Consequently,

there will be no personnel effects, no budgetary effects, no effects on facilities, and no effects on current student enrollment if deletion of the degrees is approved.

It is important to retain the courses within the discipline of PE and offer them as service courses as demands warrants. Several of the aquatic courses are taught periodically by American Red Cross Instructors or Instructor Trainers. A number of the courses have been taught as needed by the Athletic coaches. Two courses continue to be cross-listed, one with Education and taught by Education, and the other with Psychology and taught by Psychology. Finally, several courses are extremely useful for teacher education and advancement, as well as teacher training in PE. Courses will be offered as demand warrants during the academic year and during summer sessions.

****

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION:
======

An Associate of Applied Science degree earned at any regionally accredited college or university may be used to meet requirements for a minor for the Bachelor of Arts degree.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: Currently we accept only those AAS degree programs listed in the Catalog (Pg. 30, 2000-2001 Catalog). There are other associate of applied science degrees offered through UAF (TVC) that cannot be used in this manner unless approved through the petition process. In addition, UAF recognizes any AAS degree from an accredited institution towards the Bachelor of Technology degree.

****

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION:
======

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Standing, Permanent) of the Bylaws, as follows:

CAPS - Addition
[[ ]] - Deletion

[[STANDING

3. The Graduate & Professional Curricular Affairs Committee will include five Senate members and will be responsible for the review and approval of graduate courses, curriculum and graduate degree requirements, and other academic matters related

to instruction and mentoring of graduate students. The committee will also have responsibility for oversight, review and approval of all professional degree courses and programs including 500-level courses. The Dean of the Graduate school, Director of the Library, the Univesity Registrar, and one graduate student, are non-voting ex-officio members.

PERMANENT

1. The Graduate School Advisory Committee will include three full-time faculty members appointed by the Senate President, three full-time faculty members appointed by the Provost, and one graduate student selected by the Provost from nominations submitted by the graduate faculty and student senate. The graduate student must have completed a minimum of one full year of attendance at UAF. Each department with a graduate program is limited to no more than one member. The Dean of the Graduate School and the President of the Faculty Senate are ex-officio non-voting members. The Dean of the Graduate School will convene regular meetings, and must convene additional meetings if requested by two members of the committee. The committee will advise the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial and tax-related issues and dealings with other universities. All recommendations regarding curricular matters will go to the Graduate Curricular Affairs Committee and the Faculty Senate for approval.]]

PERMANENT

1. THE GRADUATE ACADEMIC & ADVISORY COMMITTEE WILL INCLUDE TEN FACULTY MEMBERS. THE DEAN OF THE GRADUATE SCHOOL, DIRECTOR OF THE LIBRARY, THE UNIVESITY REGISTRAR, AND TWO GRADUATE STUDENT, ARE NON-VOTING EX-OFFICIO MEMBERS. THE COMMITTEE WILL BE RESPONSIBLE FOR THE REVIEW AND APPROVAL OF GRADUATE COURSES, CURRICULUM AND GRADUATE DEGREE REQUIREMENTS, AND OTHER ACADEMIC MATTERS RELATED TO INSTRUCTION AND MENTORING OF GRADUATE STUDENTS. THE COMMITTEE WILL ALSO HAVE RESPONSIBILITY FOR OVERSIGHT, REVIEW AND APPROVAL OF ALL PROFESSIONAL DEGREE COURSES AND PROGRAMS INCLUDING 500-LEVEL COURSES. THE COMMITTEE WILL ADVISE THE DEAN OF THE GRADUATE SCHOOL AND THE PROVOST ON ADMINISTRATIVE MATTERS PERTINENT TO THE OPERATION AND GROWTH OF GRADUATE STUDIES AT UAF, INCLUDING FINANCIAL AND TAX-RELATED ISSUES AND DEALINGS WITH OTHER UNIVERSITIES.

EFFECTIVE: Immediately

RATIONALE: The UAF Faculty Senate committee structure is more effectively and efficiently served by combining the duties of the Graduate & Professional Curricular Affairs and the Graduate School Advisory Committee.

****

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION
======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

****

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION
======

The UAF Faculty Senate moves to endorse the 2000-2001 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighted against membership distribution from schools and colleges.

The UAF Faculty Senate passed the following at its Meeting #95 on May 1, 2000:

MOTION
======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 2000. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 1, 2000

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

The UAF Faculty Senate passed the following at its Meeting #94 on April 3, 2000:

MOTION
======

The UAF Faculty Senate moves to amend the Bachelor of Business Administration degree requirements to the following:

BACHELOR OF BUSINESS ADMINISTRATION

All majors must earn a "C" or better in all Common Body of Knowledge courses, department-specific general requirements, major specific requirements, and specific math and statistics requirements.

Core Curriculum Requirements 38-39 credits

B.B.A. Degree Requirements [[91-92]] 82-85 credits

Complete the following in addition to the core:

Mathematics:
- MATH 161 Algebra for Business and Economics 3 credits
- (Math 262 should be taken to complete the mathematics requirement for the core.)

Social Science and Statistics (10 credits):
- STAT 200 Elementary Probabilities and Statistics 3 credits
- ECON 200 Principles of Economics 4 credits
- ECON 227 Intermediate Statistics for Economics and Business 3 credits

Common Body of Knowledge (31-34 credits):
- AIS 101 EFFECTIVE PERSONAL COMPUTER USE OR DEMONSTRATED COMPUTER LITERACY 0-3 CREDITS
- ACCT [[101 and 102 Elementary Accounting]] 161 AND 262 ACCOUNTING CONCEPTS & USES 6 credits
- AIS 310 Management Information Systems 3 credits [[or AIS 316 Accounting Information Systems]]
- BA 325 Financial Management 3 credits
- BA 330 Legal Environment of Business 4 credits
- BA 343 Principles of Marketing 3 credits
- BA 360 Production/Operations Management 3 credits
- BA 390 Organizational Theory and Behavior 3 credits
- BA 462 [[Administrative Policy]] CORPORATE STRATEGY 3 credits
- ECON 324 Intermediate Macroeconomics or ECON 350 Money and Banking 3 credits

Major complex* [[30]] AT LEAST 27 credits

Minor complex** (optional) 15 credits or more

Electives [[13]] 11 or more credits

Minimum credits required for degree [[130]] 123 credits

OF THE ABOVE, AT LEAST 39 CREDITS MUST BE TAKEN IN UPPER DIVISION (300 LEVEL OR HIGHER) COURSES.

*Departmental requirements for majors may exceed the minimum indicated. Specific requirements are listed in the Degrees and Programs section of the catalog.

**[[The minor must be selected outside of the School of Management.]] Requirements for minors may exceed 15 credits. Specific requirements are listed in the Degree and Programs section of the catalog.

EFFECTIVE: Fall 2000
Upon Chancellor's Approval

RATIONALE: Changes are a result of amendment made over the past several years and reflect revised standards of AACSB. Deletes requirement that the minor must be selected from outside the School of Management to allow Business Administration and Economics students to complete an Accounting minor.

****

The UAF Faculty Senate passed the following at its Meeting #94 on April 3, 2000:

MOTION
======

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Standing, Permanent) of the Bylaws by adding E. 9. (Steering Committee, Bachelor of Arts and Sciences Degree Program).

[[ ]] = Deletion
CAPS = Additions

STANDING

A. An Administrative Committee will be composed of the chairpersons of all standing Senate Committees and of permanent Senate committees except the University-wide Promotion and Tenure Committee, [[and]] the Committee to Nominate Commencement Speakers and Honorary Degree Recipients, AND THE BAS STEERING COMMITTEE.

PERMANENT

9. The BAS Steering Committee is responsible for overseeing the BAS degree program. Specific duties of the Committee include: 1) evaluating proposals for including or deleting courses within the BAS degree and making recommendations to the CLA Academic Council and the Faculty Senate; 2) developing and evaluating procedures for advising BAS majors; 3) developing and assessing the BAS degree program. The Committee is responsible for establishing procedures for selecting the BAS coordinator and will select the coordinator for a 2-year term.

The committee shall be composed of one faculty member elected from each of the following units: (CLA, CSEM, SOEd, CRA); one faculty member appointed by Faculty Senate; one representative from the Advising Center; the BAS coordinator; and the Dean of the School of Education and the CLA dean or dean designee as ex-officio members.

EFFECTIVE: Immediately

RATIONALE: The BAS Degree Program consists of courses

offered within different schools and colleges at UAF. Creating the Steering Committee as a Permanent Committee of the Faculty Senate retains faculty oversight of the degree program while at the same time providing logistical support and means of accountability.

It would be inappropriate for the Bachelor of Arts and Science Degree Program to have a seat on the Administrative Committee where other degree programs do not.

****

The UAF Faculty Senate passed the following at its Meeting #94 on April 3, 2000:

RESOLUTION
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Norm Swazo as President-Elect of the UAF Faculty Senate for 2000-2001 by acclamation.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #93 on March 6, 2000:

RECEIVED
MAR - 7 2000
CHANCELLORS OFFICE

MOTION PASSED (14 yes, 5 nays)
==========

The UAF Faculty Senate moves to amend the Department Head Policy to be consistent with Collective Bargaining Agreements.

EFFECTIVE: Immediately

RATIONALE: This motion would bring the description of Department Head duties in line with current Collective Bargaining Agreement's. It would also close a loophole in Department Head Elections Policy that previously allowed Deans and Directors to reject democratically elected Department Heads at will.

The first change (to the description of Department Head duties) is a cleanup measure requested by the Administrative Committee & Provost, to bring the policy in line with present union contracts. The changes have been reviewed by representatives of both faculty unions for accuracy.

The second change removes a statement that under present policy theoretically allows deans and directors to unilaterally reject the elected choice of a department for it's head. Removing this clause would reaffirm the democratic process of Department head election, and remove suspicion of improper electioneering from the deans/directors.

CAPS = Additions
[[ ]] = Deletions

The following is a description of the role and duties of the department CHAIR [[head]], and procedures for the election of department CHAIRS [[heads]] at the University of Alaska Fairbanks. The size and composition of departments and programs are defined by each individual college and school.

I ROLE OF THE DEPARTMENT CHAIR [[HEAD]]

A. The department CHAIR [[head]] is the administrative and academic officer of the department and as such has the primary responsibility and authority for: (1) leadership in developing high quality academic programs which fulfill department, college, and university objectives; (2) leadership in the implementation of college and university policies and programs at the department level; (3) leadership in developing resource requests and an appropriate departmental budget; and (4) service on the college/school executive committee.

B. The department CHAIR [[head]] is first a faculty member. The department CHAIR [[head]] is primarily a teacher-scholar serving as a leader of his/her department colleagues. The department CHAIR [[head]] is a role model for faculty responsibility.

C. The department CHAIR [[head]] is responsible for providing mechanisms and processes for members' participation in discussion and decision making within the department. All members of the department should be informed of these mechanisms and processes. Regular meetings should be held for purposes of communicating information, discussing issues, and making decisions on department matters.

D. The department CHAIR [[head]] is expected to communicate faculty perspectives and concerns to the administration and other segments of the community as appropriate. The

department CHAIR [[head]] is the primary spokesperson the faculty of the department. The department CHAIR [[head]] will also convey administration views and concerns to the faculty.

II DUTIES OF THE DEPARTMENT CHAIR [[HEAD]]

The department CHAIR [[head]] is responsible, either directly or by delegation, for performance of at least the specific duties enumerated below (the duties are not prioritized) WHICH SHALL BE PERFORMED IN ACCORDANCE WITH THE EXTANT COLLECTIVE BARGAINING AGREEMENTS ON THE ROLE AND STATUS OF DEPARTEMENT CHAIR [[HEADS]].

A. Academic Programs

1. Initiate, plan, oversee implementation of, and review the preparation and offering of the academic program, after appropriate involvement of members of the department and consultation with the dean.

2. Ensure interdepartmental coordination and cooperation.

3. Take leading role in ensuring academic program quality.

4. Ensure reports are prepared as needed. Ensure that course schedule are prepared in a timely manner.

5. Ensure catalog is current.

6. Supervise departmental office and ensure that files and records are maintained.

7. Keep the dean informed of departmental and faculty activities. Act as a liaison with the University community.

B. Personnel

1. Coordinate and evaluate professional activities of all members of the department, to include providing guidance to faculty concerning expectations regarding promotion and tenure. [[Provide periodic evaluation of

faculty performance in accordance with UAF promotion and tenure policy.]] Request and obtain faculty activity reports as appropriate to this process.

2. Provide recommendations for appointments, promotion, sabbatical leaves, tenure, and release of faculty after consultation with members of the department.

3. [[Assign, with faculty consultation, workload in accordance with university, college/school policy.]] REVIEW AND RECOMMEND TO DEAN/DIRECTOR WORKLOADS AS PROPOSED BY FACULTY MEMBERS.

4. Take lead role in departmental faculty and staff recruitment and retention.

5. Provide for the management and supervision of support staff.

6. Appoint appropriate committees within the department.

7. Facilitate support for faculty teaching, research and service activities.

8. Function as spokesperson and advocate for the department, both within and outside the University community.

C. Students

1. Administer the departmental student advisement program and counsel students.

2. Recruit students in cooperation with other members of the department and the dean.

3. Act on student petitions.

4. Provide for the management of student assistants.

5. Address student concerns as appropriate.

D. Budget, Inventory, Facilities, Etc.

1. Initiate resource and budget requests with justifications.

2. Maintain fiscal control of departmental budgets.

[3. Serve as a voting member of the college/school budget/executive committee.]

[4.] 3. Ensure upkeep of equipment and facilities assigned to the department.

III ELECTION AND TERMS OF SERVICE OF THE DEPARTMENT CHAIR [[HEAD]]

A. Departments Involved

The procedures will apply to every unit that is considered a department.

B. Eligibility to Vote

All full-time faculty members holding academic rank who are affiliated with the department are eligible to vote. Visiting faculty who are in an academic rank position are eligible to vote.

A full-time faculty member currently holding academic rank is affiliated with a department if:

1) the CHAIR [[head]] of that department evaluates the faculty member or;
2) the CHAIR [[head]] of the department [[signs]] REVIEWS the faculty member's workload agreement.

C. Eligibility to be Nominated and Serve as Department CHAIR [[Head]]

Only tenured members of a department who are eligible to vote are eligible to be nominated and serve as department CHAIR

[[head]]. Only in exceptional circumstance, where the majority of the department faculty feel that options are severely limited, should there be deviation from this policy.

D. Procedures for Elections [[and Ratification]]

1. By March 15, those faculty in the department who are eligible to vote will establish a list of nominees for department CHAIR [[head]]. The names of the nominees will be placed on an official secret ballot for the department and distributed from the dean's office to those faculty eligible to vote.

2. Faculty members eligible to vote but who are absent because of sabbatical leave, leave of absence, or for other official reasons will be provided with an absentee ballot.

3. Secret ballots are to be cast and. the person receiving a simple majority of the votes cast will be elected. In the case of a tie which cannot be resolved by the voters, the dean shall select the department CHAIR [[head]] from those faculty involved in the tie vote.

4. If no nominee receives a simple majority of the votes, a run-off election of the top two nominees shall be held immediately under the same procedures outlined above. The deadline for accepting ballots for the run-off election will be the last working day prior to April 15.

5. [[If ratified by the Dean, official appointment of the elected department head will be made by the dean]] DEPARTMENTS AND THE PROVOST WILL BE NOTIFIED OF ELECTION RESULTS by May 15.

E. Term of Elected Department CHAIR [[Head]]

A department CHAIR [[head]] shall serve for a term of two years, beginning July 1, following his/her election. The department CHAIR [[head]] may continue in the position indefinitely by a simple majority of the voting faculty of the department, [[and the ratification of the Dean.][

F. [[Non Ratification of Election, Grievance,]] DEPARTMENT CHAIR [[HEAD]] DISPUTES, Vacancies, AND Recall

[[1. In the event a dean does not ratify the department's election of a department head, the dean shall discuss the reasons in writing with the department and hold another election no later than May 1. In the event an impasse develops, final authority to appoint an acting department head for one year shall rest with the Provost.]]

[[2.]] 1. If an action of the department CHAIR [[head]] is appealed by a simple majority of the eligible voting members of the department and the issue cannot be resolved within the department, the matter shall be referred to the dean for arbitration. If necessary, the dean will refer the matter to the Provost. (See Section F [[.5.]] 6 for recall procedure.)

[[3.]] 2. If the department CHAIR'S [[head's]] position becomes vacant due to unexpected prolonged leave, illness, death, resignation, or other circumstances, the dean shall appoint a department faculty member to act as department CHAIR [[head]]. An election to fill this position will be held the following April 15.

[[4.]] 3. The department CHAIR [[head]] shall appoint an acting department CHAIR [[head]] whenever their absence from the department is for a period of less than two months. If this absence extends beyond two months, the procedure defined in Section F. [[3.]] 2. above is to be followed.

[[5.]] 4. Election of a new department CHAIR [[head]] may be requested by petition to the dean signed by three-quarters of the eligible voting members of the department or by the petition of the Dean to the department approved by 3/4's of the voting members of the department. After the election by the faculty [and ratification by the Dean], the new department CHAIR [[head]] will take office immediately and serve the unexpired term.

G. Acknowledgement for Department CHAIR [[Head]] Duties

A Department CHAIR's [[Head's]] duties may be acknowledged through release time, remuneration, and/or their service component of their faculty duties. Any acknowledgement must be agreed upon between the Department CHAIR [[Head]] and the Dean and must be consistent with UAF and Board of Regent's policies AND EXTANT COLLECTIVE BARGAINING AGREEMENTS.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #93 on March 6, 2000:

RECEIVED
MAR - 7 2000
CHANCELLORS OFFICE

MOTION PASSED
==========

The UAF Faculty Senate moves to amend the policy on Course Restrictions (page 40, 1999-2000 UAF catalog) for graduate degrees as follows:

CAPS = Additions
[[ ]] = Deletions

Course Restrictions

You may not use correspondence courses, credit by examination, audited courses, 500-level courses or courses taken under the credit/no credit option to fulfill the basic course requirements of any degree program. No more than [[six]] TWELVE credits of special topics courses (693 or 695) or individual study (697) may be used toward a graduate degree. Requests for exceptions to the limit must be approved by the dean of the Graduate School.

EFFECTIVE: Immediately

RATIONALE: During this period of smaller course offerings and graduate enrollments, many programs serve students with combinations of these courses. These courses are not always independent study courses where students lack group interaction. The 693 courses often take advantage of a faculty member or visiting faculty member's special expertise. The 695 courses are trial courses which typically become part of the standard graduate program. The 697 courses are often tutorials where a distance student commutes part of the semester or classes at the 400 level which students take as 697 courses by including independent research and class presentations. Such customized approaches to the education of students make distance delivery possible and make it possible to offer students graduate education in efficient and effective ways.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #93 on March 6, 2000:

MOTION PASSED (unanimous)
==========

RECEIVED
MAR - 7 2000
CHANCELLORS OFFICE

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Standing, Permanent) of the Bylaws, as follows:

CAPS - Addition
[[ ]] - Deletion

STANDING

E. 2 The Faculty [[and Scholarly]] Affairs Committee [[will deal with policies related to workload, appointment, termination, promotion, tenure, sabbatical leave]] SHALL REVIEW ISSUES DEALING WITH FACULTY PREROGATIVE AND RECOMMEND POLICY CHANGES TO THE FACULTY SENATE. ISSUES OF FACULTY PREROGATIVE INCLUDE academic freedom, FACULTY ETHICS, research and creative activity, AND LEGISLATIVE AND FISCAL ISSUES THAT MAY IMPACT FACULTY CONCERNS AT THE UNIVERSITY. THE COMMITTEE WILL ACT AS A FACULTY ADVOCATE WITH LEGISLATORS AND CANDIDATES. IN ITS CONCERN FOR FISCAL ISSUES THE COMMITTEE SHALL MONITOR BUDGET APPROPRIATIONS TO THE UNIVERSITY AND EVALUATE ANY NOTICE TO THE FACULTY OF FINANCIAL EXIGENCY. IN PERFORMING THESE DUTIES, THE COMMITTEE WILL COORDINATE AS NECESSARY WITH THE RELEVANT OFFICERS (AND/OR THEIR REPRESENTATIVES) OF THE EXTANT COLLECTIVE BARGAINING UNITS.

PERMANENT

E. [[5. The Legislative and Fiscal Affairs Committee will follow legislative and fiscal issues which may impact faculty concerns at the university and will act as a faculty advocate with legislators and candidates.]]

PERMANENT

E. 6. [[Committee members shall review issues dealing with faculty prerogative and make recommendations for policy changes to the Faculty Senate.]]

EFFECTIVE: Immediately

RATIONALE: Responsibilities that have been the traditional purview of the Faculty and Scholarly Affairs Committee are now mandatory items of collective bargaining and are, therefore, included in collective bargaining agreements of extant faculty unions. United Academics/AAUP-AFT and ACCFT are, by Alaska labor law, the sole bargaining agents for represented faculty and have the legal authority to negotiate terms of agreement with the University Administration on these items.

The UAF Faculty Senate committee structure is more effectively and efficiently served by transferring the duties of the Permanent Committee (Legislative and Fiscal Affairs) to the Standing Committee (Faculty and Scholarly Affairs). With this amalgamation of duties, the committee may resume its former name of the Faculty Affairs Committee.

The UAF Faculty Senate passed the following at its Meeting #93 on March 6, 2000:

MOTION PASSED
==========

Department heads are requested to submit to Graduate and Professional Curricular Affairs a request to add GRE/GMAT scores as a requirement for admission to their graduate program descriptions in the UAF catalog.

EFFECTIVE: Immediately

RATIONALE: A motion was approved to delete GRE/GMAT scores from the University requirements for admission to graduate study if the applicants have an undergraduate GPA of at least 3.0. This motion will give departments that want to require GRE scores for all applicants regardless of GPA the opportunity to bypass the normal paperwork required for changes to the University catalog.

The UAF Faculty Senate passed the following at its Meeting #93 on March 6, 2000:

MOTION FAILED (5 yes, 11 nays)
==========

The UAF Faculty Senate moves to amend the policy on Admission Requirements (page 32, 1999-2000 UAF catalog) for graduate degrees as follows:

CAPS = Additions
[[ ]] = Deletions

2. Transcripts--If you've attended other colleges and/or universities, you must request official transcripts from [[each]] THE college or university [[you attended.]] THAT GRANTED THE BACHELOR'S DEGREE. [[The]] OFFICIAL transcripts should be sent to the Office of Admission by the schools. [[Transcripts will not be accepted if you submit them.]] OTHER TRANSCRIPTS MAY ALSO BE REQUIRED IF THE DEPARTMENT WANTS TO USE SPECIFIC, SPECIALIZED UNDERGRADUATE COURSES TO DEMONSTRATE COMPETENCY TO UNDERTAKE GRADUATE LEVEL COURSES.

EFFECTIVE: Immediately

RATIONALE: Current policy creates a nightmare for students who have taken college courses from various institutions in addition to the bachelor's degree, such as special interest courses or recency credits to maintain teacher certification. Often students can not get these transcripts despite repeated efforts and their graduate program is at risk. UAF should require transcripts only from those institutions which awarded the baccalaureate degree or which awarded courses which are prerequisites or foundation knowledge for UAF graduate programs.

57. NEW COURSE: EMS 180 - Paramedicine I (7+2+15) 8 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.
58. NEW COURSE: EMS 182 - Paramedicine II (6+4+15) 8 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.

59. NEW COURSE: EMS 186 - Clinical Rotation I (0+8+4) 4 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.
60. NEW COURSE: EMS 271 - Paramedicine III (4+10+13) 9 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.
61. NEW COURSE: EMS 275 - Clinical Rotation II (0+8+4) 4 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.
62. NEW COURSE: EMS 277 - Clinical Rotation III (0+6+3) 3 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.
63. NEW COURSE: EMS 283 - Paramedic Internship (0+36) 12 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.
64. NEW COURSE: EMS 287 - Update in Paramedicine (2+2+3) 3 credits; offered Alternating Semesters; effective Fall 2000 or upon BOR approval.
65. NEW PROGRAM: Certificate & AAS, Emergency Services - Emergency Medical Services - New certificate & AAS degree concentrations in Emergency Medical Services under the renamed Emergency Services Program; Certificate will include 31 EMS credits; AAS will include BIOL 211 & 212 and 54 EMS credits for a total of 71 credits; effective Fall 2000 or upon BOR approval.

****

Executive Summary
Certificate & A.A.S. degree concentration in
Emergency Medical Services (EMS)

The UAF-TVC Fire Science (to be renamed, "Emergency Services") Program requests approval to initiate new Certificate and A.A.S. degree concentrations in Emergency Medical Services (EMS).

The Fire Science Program currently has Certificate and A.A.S. concentrations in Municipal Fire, Wildland Fire, and Hazardous Materials Control. Student also receive State certifications for Fire Fighter I and Emergency Medical Technician (EMT).

This new EMS degree concentration will enable students to expand their prehospital emergency care skills and be eligible to take the National

Registry Examination to become licensed paramedics. There is an ever increasing demand for paramedics within fire departments, rescue squads, rural community health aids, clinics and hospitals throughout Alaska and the Lower 48. Most large faire departments give hiring preference to licensed paramedics. This proposed curriculum will provide students with the knowledge and skills to become employed as licensed paramedics or within a closely related health care occupation.

The UAF-TVC Fire Science program has become nationally recognized as one of the best in the U.S. with students coming from all over Alaska, Canada and the Lower 48. It offers a unique learning environment where students can obtain high quality classroom education, hands-on training and practical vocational experience through ten local fire and rescue organizations. Students who have State EMTII and EMT III certifications and one year of Human Anatomy and Physiology will be given enrollment preference. This new EMS curriculum offers two semesters of didactic sessions and clinical rotations in Fairbanks followed by two semesters of clinical rotations and internship at prearranged hospital sites in Anchorage or large cities in the Lower 48. The field internship provides experience on an advanced life support mobile intensive care vehicle under the direct supervision of a paramedic preceptor. The outcome assessment goal for all UAF-TVC graduates will be to obtain a minimum score of 80% on the National Registry Exam and an 80% employment rate.

A survey of the large fire departments throughout Alaska was conducted which shows a need to hire 20 to 25 paramedics within two to five years and 50 to 73 paramedics within five to ten years. Although the health industry was not survey, it is expected that their needs for licensed paramedics will be similar. A student survey showed 60 interested in enrollment. The majority of the 196 licensed paramedics within Alaska have received their paramedic training in the Lower 48.

All but four UAF-TVC Fire Science graduates seeking paramedic training have chosen to go to the Lower 48. The Aurora North Academy in Anchorage offers the only paramedic program in Alaska with an average annual enrollment of 20 students. Although UAA currently has an A.A.S. degree in Paramedical Technology in their catalog, there is no active program in place. UAA has awarded three A.A.S. degrees through nontraditional certified experience credit. This new UAF-TVC EMS degree concentration will complement Aurora North and the program at UAA by meeting the future paramedic hiring needs of Alaska. This new UAF-TVC degree concentration in EMS will likely double the current average number of 28 graduates per year and exceed 30% of all the Associate degrees conferred by the College of Rural Alaska (CRA).

SUBJECT: Proposal for Emergency Medical Services (EMS)
Certificate and A.A.S. Degree Concentrations

Associate of Applied Science (A.A.S.) and Certificate degrees in Emergency Medical Services

The UAF-TVC Fire Science Program (to be renamed Emergency Services in the Fall 2000 catalog) is seeking approval to initiate new Certificate and A.A.S. degree concentrations in Emergency Medical Services (EMS). This will enable students to expand their prehospital emergency care skills and be eligible to take the National Registry Examination to become licensed paramedics. There is an ever increasing demand for paramedics within fire departments, rescue squads, rural community health aides, clinics and hospitals throughout Alaska and the Lower 48. Most large fire departments give hiring preference to licensed paramedics. The objective of this proposed curriculum is to provide students with the knowledge and skills necessary to become employed as licensed paramedics or within a closely related health care occupation. Our goals for outcome assessment will be a minimum of 80% score on the National Registry Examination and 80% employment rate for all UAF-TVC graduates.

The UAF-TVC Fire Science Program has become nationally recognized as one of the best in the U.S. with students coming from all over Alaska, Canada and the Lower 48. This program offers a unique learning environment where students can obtain high quality classroom education, hands-on training and practical vocational experience through ten local fire and rescue organizations. Our arctic environment, boreal forests and the oil industry offer students of emergency services challenges and opportunities second to none.

Objective and Rationale

The objective of this proposed curriculum is to provide students with the knowledge and skills necessary to become employed as licensed paramedics or within a closely related health care occupation. Our goals for outcome assessment will be a minimum of 80% score on the National Registry Examination and 80% employment rate for all UAF-TVC graduates.

The UAF-TVC Fire Science Program has become nationally recognized as one of the best in the U.S. with students coming from all over Alaska, Canada and the Lower 48. This program offers a unique learning environment where students can obtain high quality classroom education, hands-on training

and practical vocational experience through ten local fire and rescue organizations. Our arctic environment, boreal forests and oil fields offer our students challenges and opportunities second to none. The UAF-TVC Fire Science Program maintains an annual average of 100 majors with A.A.S. degree concentrations in Municipal Fire, Wildland Fire and Hazardous Materials Control. Of the top fifty institutions in the U.S. offering A.A.S. degrees in Fire Science, UAF-TVC ranked 15th in 1996 for the number of degrees conferred. In the last five years, this program has produced an annual average of 28 graduates or 17% of all the Associate degrees from the College of Rural Alaska (CRA). Past surveys have indicated a graduate job placement rate of 80% with an average annual income of $48.5K.

The proposed EMS A.A.S. degree concentration will strengthen our goal to make our graduates the most attractive candidates for job openings and promotions within the fields of emergency services and the health care industry. The new paramedic curriculum will increase student retention at UAF for the Bachelor of Technology (B.T.) degree in Emergency Services and student employment at the University of Alaska Fire Department.

MOTION:
======

The UAF Faculty Senate moves to approve the 2001-2002 Academic Calendar as presented by the Registrar prepared in accordance with Senate policy and Board of Regents' policies and forward it to the Governance Coordinating Committee for action.

EFFECTIVE: Immediately

RATIONALE: The Curricular Affairs Committee has reviewed the draft 2001-2001 Academic Calendar for compliance with Senate policy and recommends approval of the calendar.

****

DRAFT
UNIVERSITY OF ALASKA FAIRBANKS - Fairbanks Campus
ACADEMIC CALENDAR 2001-2002
Classes begin after Labor Day for Fall Semester and after Civil Rights Day for Spring Semester.

FALL SEMESTER-2001

Registration and fee payment for the 2001 fall semester begins	Mon., Apr. 9, 2001
Application for admission deadline for fall semester	Wed., Aug. 1
Orientation for new students	Sun.-Wed., Sept. 2-5
Labor Day (no registration or fee payment)	Mon., Sept. 3
Residence halls open, 9 am	Mon., Sept. 3
First day of instruction	Thurs., Sept 6
Late registration begins	Thurs., Sept 6
Late registration and fee payment end	Fri., Sept. 14
Last day for 100% refund of tuition and materials fees	Fri., Sept. 14
Last day for student-initiated and faculty-initiated drops (course does not appear on academic record)	Fri., Sept. 21
Last day for 50% refund of tuition (only)	Fri., Sept. 21
Low grade reports for freshmen due not later than	Fri., Oct. 12
Last day to apply for 2001 fall graduation	Mon., Oct. 15
Last day for student-initiated and faculty-initiated withdrawals (W grade given for course)	Fri., Nov. 2
Registration and fee payment for the 2002 spring semester begin	Mon., Nov. 12
Thanksgiving holidays (no classes)	Thurs.-Sun., Nov. 22-25
Last day of instruction	Fri., Dec. 14
Final examinations	Mon.-Thurs., Dec. 17-20
Residence halls close, noon	Fri., Dec. 21
Grades due to the Registrar's Office	Fri., Dec. 21
Campus closed	5 p.m., Fri., Dec. 21, 2001 - 8 a.m., Wed., Jan 2. 2002

SPRING SEMESTER-2002

Application for admission deadline for spring semester	Mon., Dec. 3, 2001
Orientation for new students	Tues.-Wed, Jan. 15-16, 2002
Residence halls open, 9 a.m.	Mon., Jan. 14
Alaska Civil Rights Day (registration and fee payment continue)	Mon., Jan. 14
First day of instruction	Thurs., Jan. 17
Late registration begins	Thurs., Jan. 17
Late registration and fee payment end	Fri., Jan. 25

Last day for 100% refund of tuition and material fees	Fri., Jan. 25
Last day for student-initiated and faculty-initiated drops (course does not appear on academic record)	Fri., Feb. 1
Last day for 50% refund of tuition (only)	Fri., Feb. 1
Last day to apply for 2002 spring graduation	Fri., Feb. 15
Low grade reports for freshmen due not later than	Fri., Feb. 22
Spring recess	Mon.-Sun., Mar. 11-17
Last day for student-initiated and faculty-initiated withdrawals (W grade given for course)	Fri., Mar. 22
Registration and fee payment for the 2002 fall semester begin	Mon., Apr. 8
All Campus Day (no classes)	Fri., Apr. 26
Last day of instruction	Fri., May 3
Final examinations	Mon.-Thurs., May 6-9
Residence halls close, noon	Fri., May 10
Commencement**	Sun., May 12
Grades due to the Registrar's Office	Wed., May 15

**Saturday, May 11 may be an alternate date for Commencement (to coordinate with other MAU's).
Proposed by Ann Tremarello, January 25, 2000.

The UAF Faculty Senate passed the following at its Meeting #92 on February 7, 2000:

MOTION:
======

The UAF Faculty Senate moves to approve the Unit Criteria for Alaska Native Language Center (ANLC).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by Alaska Native Language Center (ANLC). With some minor changes, agreed upon by the department representative, Larry Kaplan, the unit criteria were found to be consistent with UAF guidelines.

****

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:
INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT,
PROMOTION, TENURE, AND SABBATICAL LEAVE

AND

ALASKA NATIVE LANGUAGE CENTER
STANDARDS AND INDICIES

I. PURVIEW

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies" (hereinafter referred to as UAF Faculty Policies), supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks. Contained herein are

regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for UAF.

The University, through the UAF Faculty Senate, may wish to change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

II. INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment. Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles. Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline. Units wishing to appoint academic rank faculty within schools and colleges to titles must have the concurrence of the specific discipline in which the title resides.

C. Process for Appointment of Faculty with Academic Rank. Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's affirmative action policies and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank. Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's stated affirmative action policies and shall provide for participation in hiring by faculty and administrators in the unit. These procedures shall be on file in the Chancellor's Office.

E. Following the selection process, the dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the Chancellor or his/her designee.

F. Letter of Appointment. The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution, the part(s) defining the position may not. Subsequent letters of appointment may vary the work load distribution and nature of the assignment.

III. PERIODIC EVALUATION OF FACULTY

A. Criteria. As outlined in UAF Faculty Policies, Chapter IV.A.3. evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by activity and excellence in the following tripartite areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

B. Bipartite Faculty. Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

As defined in UAF Faculty Policy (IV.A.2.), only vocational/ technical faculty and extension agents may hold bipartite rank. No other faculty may hold bipartite rank.

The determination of which of the criteria defined above will apply to these faculty shall be in accordance with nstitutional needs for the given position, will be coordinated by the dean of the appropriate school or college in consultation with the director, in cases of joint appointment, and with the program faculty.

While bipartite faculty may choose to engage in a tripartite function, they will not be required to do so as a condition for evaluation, promotion, or tenure.

C. Definitions of Criteria.

1. Effectiveness in Teaching.

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom or through distance delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting.

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics which define effective teachers.

Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design.

G. OFTEN DEAL WITH STUDENTS IN SMALLER GROUPS. BECAUSE OF THE DEMOGRAPHY OF ALASKA NATIVES AND THE ENDANGERED STATUS OF ALL ALASKA NATIVE LANGUAGES, INDIVIDUAL STUDY CLASSES ARE OFTEN THE ONLY MEANS OF PROVIDING CRUCIAL INSTRUCTION TO MEMBERS OF SMALL NATIVE GROUPS WHO HAVE THE POTENTIAL TO BECOME LINGUISTS AND LANGUAGE SPECIALISTS.

H. ARE REQUIRED TO MAKE THEIR OWN CLASSROOM MATERIALS TO A MUCH GREATER EXTENT THAN IN MOST OTHER DISCIPLINES, SINCE PUBLISHED INSTRUCTIONAL MATERIALS FOR ALASKA NATIVE LANGUAGES ARE LIMITED.

i. Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum materials, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings (required source of data)

and at least two of the following:

b. self-evaluation

c. peer/head classroom observation(s)

d. peer/head evaluation of course materials

2. Achievement in Research, Scholarly, and Creative Activity.

Inquiry and originality are central functions of a land grant/ sea grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media

appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Whatever the contribution, research, scholarly or creative activities must have the following characteristics:

- They must occur in a public forum.

- They must be evaluated by appropriate peers.

- They must be evaluated by peers external to this institution so as to allow an objective judgment.

- They must be judged to make a contribution.

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline. THE MISSION OF ANLC PROVIDES FOR THE DISTRIBUTION OF NATIVE LANGUAGE PUBLICATIONS, INCLUDING GRAMMARS, DICTIONARIES, TEXTS AND INSTRUCTIONAL MATERIALS, TO THE PEOPLE OF ALASKA AND NATIVE GROUPS IN PARTICULAR. THE ALASKA NATIVE LANGUAGE CENTER¹S PUBLICATION PROGRAM IS AN EFFECTIVE MEANS OF ACCOMPLISHING THIS GOAL AND IS VIEWED AS A REPUTABLE PRESS IN THE FIELD OF NATIVE AMERICAN LINGUISTICS. ANLC IS FOREMOST IN PUBLISHING IN ATHABASKAN WORLDWIDE AND FOREMOST IN ESKIMO-ALEUT PUBLISHING IN NORTH AMERICA. MANUSCRIPTS TO BE PUBLISHED ARE SENT FOR REVIEW AND COMMENT TO APPROPRIATE SPECIALISTS OUTSIDE THE INSTITUTION WHEREVER POSSIBLE.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Presentation of research papers before learned societies.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts; these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

1. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

N. OTHER MEANS OF DISSEMINATING INFORMATION ABOUT ALASKA NATIVE LANGUAGES, SUCH AS MAPS, CD¹S, AUDIO TAPES, VIDEO TAPES, AND WEB PAGES.

O. INSTRUCTIONAL MATERIALS FOR ALASKA NATIVE LANGUAGES.

NOTE: GIVEN THE MISSION OF ANLC, THERE IS OFTEN AN OVERLAP BETWEEN RESEARCH AND PUBLIC SERVICE, SO THAT RESULTS OF RESEARCH ARE MOST OFTEN OF DIRECT BENEFIT TO THE ALASKAN PUBLIC AS WELL AS THE SCHOLARLY COMMUNITY. SINCE PUBLICATIONS ARE INTENDED FOR THE PUBLIC AND ESPECIALLY THE NATIVE COMMUNITY, THEY VERY OFTEN TAKE A DIFFERENT FORM FROM OTHER SCHOLARLY RESEARCH.

3. Effectiveness of Service

The notion of public service is intrinsic to the land grant/sea grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

a. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units; such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

(1) Providing information services to adults or youth.

(2) Service on or to government or public committees.

(3) Service on accrediting bodies.

(4) Active participation in professional organizations.

(5) Active participation in discipline-oriented service organizations.

(6) Editing or refereeing articles or proposals for professional journals or organizations.

(7) Consulting.

(8) TEACHING OF LINGUISTICS AND ALASKA NATIVE LANGUAGES IN NOT-FOR-CREDIT SITUATIONS.

Methods of delivering public service may include, but are not limited to:

(1) Leadership of or presentations at workshops, conferences, or public meetings.

(2) Training, facilitating, and consultative services.

(3) Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

(4) Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

b. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

(1) Service on university, college, school, institute, or departmental committees or governing bodies.

(2) Consultative work in support of university functions, such as expert assistance for specific projects.

(3) Service as department head or similar part-time administrator.

(4) Participation in accreditation reviews.

(5) Service in support of student organizations and activities.

(6) Academic support services such as library and museum programs.

(7) Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

c. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements and performance evaluations. In formulating standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities appropriate for that unit, and measures for evaluation. Effectiveness of public service is "demonstrated by such things as: professionally related and publicly recognized service to constituencies external to the university, including public and private sector groups, governmental agencies, boards, commissions, committees, public interest groups, community groups, businesses, and urban and rural residents; successful design and implementation of technology-transfer programs to external constituencies; application of directed research to the needs of constituencies; recognition, awards and honors from constituent groups; and reputation among peer deliverers of public service. Effectiveness of university service is demonstrated by such things as work on university committees and task forces; participation in faculty governance; colleague assistance; administrative work, and work with students beyond formal teacher-student relationships.

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION
======

The UAF Faculty Senate moves to amend the Policy on Approval of Academic Changes which includes the spring review cycle.

[[ ]] = Deletion
CAPS = Addition

The spring review cycle will include academic and course changes that do not require UAF Faculty Senate and Board of Regents approval. Changes in the spring review cycle will be approved effective the following Fall. [[, however, they may not be included in the course catalog.]] ANY CHANGES THAT INVOLVE A DIFFERENCE IN TUITION, E.G. CHANGE FROM LOWER DIVISION TO UPPER DIVISION, OR CHANGE IN PREREQUISITES, WILL BECOME EFFECTIVE THE FOLLOWING SPRING.

EFFECTIVE: Immediately
Upon Approval of the Chancellor

RATIONALE: Since the Fall course schedule goes to the printer around March 15, there is not time for course changes reviewed in the spring to be included. Course changes which involve an increase in tuition or change in prerequisite are felt to be unfair to the student who enrolls based on the published schedule.

****

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION
=======

The UAF Faculty Senate moves that UAF graduates who successfully complete an Honors Thesis and satisfy all other graduation requirements from the UAF Honors Program will have "University Honors Scholar" printed on their official transcript.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The phrase "University Honors Scholar" is routinely printed on diplomas of UAF graduates from the Honors Program who complete requirements for graduation with honors. Unfortunately, the phrase has not appeared on students' official transcripts. This past year the Faculty Senate authorized the "Honors Thesis Scholar" option, including a provision for the phrase "Honors Thesis Scholar" to be printed both on successful graduates' official transcripts and diplomas. If this can be done for Honors Thesis Scholars, it ought to be done for University Honors Scholars as well.

****

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION
======

The UAF Faculty Senate moves that, pending action to clarify the use of Unit Criteria in the faculty review process, UAF Regulations for the Evaluation of Faculty, section III, D. Unit Standards and Indices (Reprinted September 1997), shall apply to the extent it does not conflict with union contracts.

EFFECTIVE: Immediately

RATIONALE: Reference to Unit Criteria was inadvertently deleted from the UAF Regulations for the Evaluation of Faculty. The Faculty Appeals & Oversight Committee will present an appropriate motion to the Senate to reinsert Unit Criteria into policy and regulations.

****

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION
======

The UAF Faculty Senate moves to confirm the membership on the Ad Hoc Committee on Unit Criteria consisting of one member from each of the following committees: Curricular Affairs, Faculty & Scholarly Affairs; Faculty Development, Assessment, and Improvement; and Faculty Appeals Committee.

Janice Reynolds, Curricular Affairs
Susan Grigg, Faculty & Scholarly Affairs
Scott Huang, Faculty Development, Assessment & Improvement
Godwin Chuhwu, Faculty Appeals

EFFECTIVE: Immediately

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION
======

The UAF Faculty Senate moves to amend the policy on Dual Enrollment (p. 12 UAF catalog) as follows:

[[ ]] = Deletion
CAPS = Additions

Dual Enrollment

The dual enrollment program allows high school students to register for UAF classes. This program is open to the following:
* High school seniors with a GPA of 2.5 or above may register for two classes for a maximum of six credits.
* High school seniors with a GPA of 2.0 to 2.5 may register for one class.
* High school juniors with a GPA of 2.75 or above may register for one class.
* All other students are encouraged to contact the director of Admissions for information on course enrollment at UAF.

*HIGH SCHOOL STUDENTS WHO DO NOT MEET THE ABOVE GPA REQUIREMENTS MAY ENROLL IN VOCATIONAL AND DEVELOPMENTAL COURSES, DEPENDING UPON PROGRAM REQUIREMENTS, AFTER OBTAINING APPROVAL SIGNATURES FROM THEIR PARENT (GUARDIAN), HIGH SCHOOL OFFICIAL, THE INSTRUCTOR OF THE CLASS, AND THE APPROPRIATE PROGRAM COORDINATOR.

[[Dual enrollment is available for many university classes appropriate for high school students. Two very popular areas of study are Airframe & Powerplant and Culinary Arts.]]

Pick up a Dual Enrollment Application Form (valid for one semester) from your high school counseling office. You must file an application for each semester you wish to attend.

EFFECTIVE: Spring 2000

RATIONALE: Current policy excludes students with a high school GPA of lower than 2.0 from taking any UAF courses. This change would allow enrollment in developmental and vocational courses only upon agreement by all designated parties.

****

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION
=======

The UAF Faculty Senate moves to approve the Accounting Technician Certificate.

EFFECTIVE: Fall 2000 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #42 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary
Accounting Technician Certificate

A commonality among all Alaskan businesses, non-profits, organizations, and agencies is the language of accounting. All entities that deal with money need accounting clerks and jobs continue to beg for experienced or educated accounting technicians.

The University of Alaska Fairbanks requests approval of a certificate degree program for the College of Rural Alaska that would prepare students for entry level positions in accounting and bookkeeping. Training received in general accounting principles and practices, fund accounting, tax, payroll, mathematics, English composition, human relations, computer technology, and business would be applicable to working in private enterprises, corporations, non-profits, and government agencies. The certificate draws courses from, and would directly articulate with, the Associates of Applied Sciences in Applied Accounting for those students wishing to further their education in this field.

The knowledge and skills needed by accounting clerks in Alaska were determined in collaboration with a number of employers across the State of Alaska. Those determinations and the resulting program changes from the initial concept were verified by widely surveying diverse Alaskan employers. See letters of support in Appendix A. The program was also reviewed by the UAF College of Rural Alaska Faculty Council and the UAF faculty curriculum review committees for meeting academic standards. The degree is designed to meet needs of Alaskan industries, organizations and individuals for accounting and bookkeeping to meet generally accepted accounting standards and other documentation or legal requirements.

No additional funding needs are anticipated to implement this certificate program. The program will use existing courses, faculty and staff plus adjunct professors to ensure quality instructional delivery and conduct ongoing outcomes assessment to insure currency in the instructional program. Current library collections, equipment, and facilities are adequate.

In 1997 a certificate of applied business was approved and in two years department credit hours double, while graduates rose from 7 to 33 per year. Similar growth in credit hours and graduation rates are anticipated within two years of approving an Accounting Technician Certificate.

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION
=======

The UAF Faculty Senate moves to delete the M.A.T. in Geology.

EFFECTIVE: Fall 2000 or
Upon Board of Regents' Approval

RATIONALE: See full program proposal #23 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary

The Department of Geology and Geophysics requests that the MAT program in Geology be deleted. This program has had two graduates in

the last 30 years, the last being in 1989. The program has had no student enrollment since 1989, and currently no resources (faculty or budgetary) are allocated to it. The Department offers no courses that are specific to this program and deletion will not effect other programs in the system. The School of Education offers MAT programs and these are the ones that most students enroll in. Deletion of the Geology MAT program "cleans up the catalog" by removing an unused and somewhat redundant program.

Executive Summary
M.A. in Rural Development

The Department of Alaska Native and Rural Development, College of Rural Alaska, University of Alaska Fairbanks, requests approval of a Master of Arts Program in Rural Development to be implemented in Fall Semester, 2000.

Rural Alaska communities face alarmingly high rates of unemployment, sharply limited economic opportunities, and a host of social, political, and ecological problems. In attempting to address these problems, many

communities find that indigenous leadership capacity is often limited and over-taxed. This reality highlights a pressing need in rural Alaska: the development of human capital. The need exists for indigenous and other rural leaders who are skilled in managing corporations, governments, and organizations in a responsible, effective, and culturally appropriate manner.

The M.A. program in Rural Development will enable these leaders to complete a flexible program of graduate study that prepares them for effective and culturally informed community development. The program will provide a broad overview of regional, national, and global forces influencing rural communities. It will also provide specific analytical, communication, and information technology skills necessary for leadership in rapidly changing environment. There will be a cultural dimension throughout the program recognizing traditional knowledge and involving indigenous elders. Rigorous academic standards will be maintained through a well-trained faculty and prominent guest presenters.

The RD M.A. degree will be available to both campus and place-bound students in rural communities. A cornerstone for the program will be a ten-day "Circumpolar Indigenous Leadership Symposium," to be held in the fall semester of each year. Internet, audio-conference, and other means will combine face-to-face seminars with distance delivery courses; a model used successfully in the RD B.A. degree program. Prospective M.A. students are typically place-bound due to employment, family obligations, community responsibilities, and personal preference. Moving to a campus is often impossible for mid-career employees.

The Rural Development M.A. Program has four major objectives:

1. Educate leaders for indigenous and other rural Alaska communities who understand the dynamic interrelationship of those communities with global economy and who are competent to fill community leadership and management positions.

2. Provide a quality program of advanced study for place-bound students in rural communities, combining face-to-face seminars and the development of a statewide network of rural leaders with cutting-edge distance delivery of instruction.

3. Build strong ties to business and community leaders in rural Alaska, including creation of professional development plans for indigenous employees seeking career advancement.

4. Create a model for innovation and flexibility in circumpolar graduate study that attracts international indigenous students and prominent national and international indigenous leaders and others as visiting scholars and affiliate faculty.

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION:
======

The UAF Faculty Senate moves to amend the Ph.D. requirements (page 40 of the 1999-2000 UAF catalog) as follows:

[[ ]] = Deletion
CAPS = Addition

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy Degree is granted in recognition of scholarly attainment and proven ability. University of Alaska Fairbanks [[staff holding rank of assistant professor (or equivalent) or above]] TENURED FACULTY, TENURE TRACK FACULTY, AND RESEARCH FACULTY are not eligible to become candidates for the Ph.D. WITHIN THE DISCIPLINE IN WHICH THEY TEACH at the University of Alaska Fairbanks.

Requirements

1. The Ph.D. degree requires at least three full years of study beyond the baccalaureate degree. [[including up to 9 credits of applicable and acceptable work transferred from other institutions.]] (SEE TRANSFER CREDIT)
2. A minimum of [[one and one-half years (three semesters)]] 18 GRADUATE UAF CREDITS must be EARNED. [[spent in residence at UAF.]]
3. In addition to satisfactory completion of a plan of study developed in accordance with requirements listed above, the Ph.D. candidate must complete the following:
   a. Submit a Graduate Study Plan (GSP), Appointment of Committee form, and annual Report of Committee form to the Graduate School. It is suggested that the GSP and Appointment of Committee forms be submitted by the end of the first year of study.
   b. Maintain [[enrollment of at least 6 graduate credits per year (fall, spring, summer) or have an approved leave of absence on file.]] ACTIVE STATUS. (SEE REGISTRATION REQUIREMENT)
   c. Pass a written comprehensive examination.
   d. Complete a minimum of 18 UAF thesis credits and satisfactorily complete a thesis that is a substantial contribution to the body of knowledge in the area.
   e. Pass an oral defense of thesis examination.
   f. Apply for graduation and be registered for at least 3 graduate credits in the semester in which the degree is awarded.
   g. Complete all degree requirements within the 10-year time limit allowed.

EFFECTIVE: Fall 2000

RATIONALE: This motion gives faculty approval to the Ph.D. requirements and supports UAF's statewide mission of Graduate Education. It works for consistency in the catalog by using UAF credits as defining points.

Wording changes in the first paragraph "...tenured faculty, tenure track faculty, and research faculty....within the discipline in which they teach...." are changes approved by the Senate in April 1998 and modified by the Chancellor in May 1999.

****

The UAF Faculty Senate passed the following at its Meeting # 91 on December 6, 1999:

MOTION:
======

The UAF Faculty Senate moves to add the following guidelines in the section of the catalog (p. 40) which discusses Cooperative Programs.

The following are guidelines for collaborative Ph.D. Graduate Studies ACROSS MAU'S.

1. There shall be at least four faculty members on the Graduate Advisory Committee for each UAF Ph.D. student. At least two committee members shall be UAF faculty. One of the UAF committee members must be on a tenure-track appointment in a Ph.D. granting department. The committee shall be chaired or co-chaired by a UAF faculty.

2. The Graduate Advisory Committee and its chair and/or co-chairs must be approved by the program director and the Graduate Dean.

3. UAF rules and regulations on graduate studies shall apply to all UAF graduate students, including those concurrently enrolled at UAA or UAS.

4. The Graduate Advisory Committee must meet at least once a year to update the Graduate Study Plan and to review the student's progress toward the degree. The annual progress report must be signed by all committee members and submitted to the UAF Graduate Dean.

5. A comprehensive exam committee composed of the student's advisory committee and an additional member if appointed by the Graduate Dean will administer the Ph.D. comprehensive exam for each student.

6. The Ph.D. thesis defense is to be conducted on the UAF campus.

EFFECTIVE: Fall 2000

RATIONALE: This motion gives faculty approval to the policy currently in place regarding collaborations between faculty at different MAU's for mentoring Ph.D. students. It supports the use of the catalog to communicate Graduate School policy to students and faculty. This will be added to the catalog (p. 40) under Cooperative Programs.

The UAF Faculty Senate passed the following at its Meeting # 90 on November 1, 1999:

MOTION:
======

The UAF Faculty Senate moves to change the deadline for students to select the credit/no credit option as follows:

CURRENT POLICY: The credit/no credit option deadline is the 10th day of instruction for the semester.

PROPOSED CHANGE: The credit/no credit option deadline is the 3rd Friday following the first day of instruction.

EFFECTIVE: Spring 2000

RATIONALE: This change will put the deadline for this option in line with all other deadlines (adding classes, dropping classes, withdrawal deadline, etc.) that were adjusted several years ago. This adds two days (normally) to the amount of time a student has to select this option.

****

The UAF Faculty Senate passed the following at its Meeting # 90 on November 1, 1999:

MOTION:
======

The UAF Faculty Senate moves to amend the wording for substitutions under the Humanities and Social Science section for the Associate of Arts degree as follows:

[[ ]] = Deletion
CAPS = Additions

Two semester-length courses in a single Alaska Native language or non-English language or three semester-length courses (9 credits) in American Sign Language taken at the university level may substitute for TWO [[one]] of the [[required]] courses above. [[and the 3-credit humanities or social science elective.]]

EFFECTIVE: Fall 2000

RATIONALE: To provide consistency between the baccalaureate and associate degree options.

****

The UAF Faculty Senate passed the following at its Meeting # 90 on November 1, 1999:

MOTION PASSED AS AMENDED:
=====================

The UAF Faculty Senate moves to amend the policy on Advancement to Candidacy for Ph.D. as follows:

[[ ]] = Deletion
CAPS = Addition

Doctor of Philosophy

You may apply for advancement to candidacy for the Doctor of Philosophy degree if you are in good standing and have accomplished the following:

1. completed the full-time equivalent of two academic years of graduate study.

2. completed at least [[one semester in residence]] 9 UAF CREDITS [[at the University of Alaska Fairbanks]].

3. received approval of the [[finalized]] Graduate Study Plan.

4. obtained approval of the advisory committee for the title and synopsis of the thesis.

5. passed a written comprehensive examination.

EFFECTIVE: Fall 2000

RATIONALE: Follow current policy of having residence tied to UAF registration for credit (see page 41 in catalog).

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting # 89 on September 27, 1999:

MOTION APPROVED AS AMENDED (unanimous)
==========

The UAF Faculty Senate moves to amend the Graduate Student Admission requirements as follows:

[[ ]] = Deletions
CAPS = Additions

Graduate Admission Requirements:

You may be admitted to graduate status if you have a bachelor's degree from an accredited institution with at least a 3.0 ("B") cumulative grade point average in your undergraduate studies, and a 3.0 ("B") average in your major, and the major is deemed suitable for continuation of studies in the field of choice. SOME PROGRAMS REQUIRE THE GRE OR GMAT AND OTHER SPECIAL CRITERIA FOR ADMISSION OF STUDENT'S TO THEIR PROGRAM.

Results of the Graduate Examinations (GRE & GMAT)--Results of the GRE OR GMAT are required from all applicants IF THEIR UNDERGRADUATE GPA IS BELOW 3.0 AND THEY ARE SEEKING SPECIAL ADMISSION. [[except those applying for the MBA program. If you are applying to the MBA program, you are required to submit scores from the GMAT.]] Refer to the admission requirements of the specific degree program for which you are applying to determine what other tests might be required.

EFFECTIVE: Fall 2000

RATIONALE: The GRE and GMAT has become more difficult to administer in Alaska resulting in an increasing number of waivers.

UAF GRADE APPEALS POLICY

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that the assignment of grades is a faculty responsibility. Therefore, the University administration shall not influence or affect an assigned grade or the review of an assigned grade.

The following procedures are designed to provide a means for students to seek review of final course grades alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally with the instructor of the course. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. A "grade" refers to final letter grades A, B, C, D, F, [[NB]] and Pass. The I (incomplete) designates a temporary grade, FOR ONE YEAR not a final grade, so it is not subject to appeal UNTIL IT BECOMES FINAL.

B. For the purpose of this procedure, "arbitrary and capricious" grading means:

1. the assignment of a course grade to a student on some basis other than performance in the course, or

2. the assignment of a course grade to a student by resorting to standards different from those which were applied to other students in that course, or

3. the assignment of a course grade by a substantial, unreasonable and unannounced departure from the instructor's previously articulated standards.

C. "Grading errors" denotes errors in the calculation of grades rather than errors in judgment.

D. [[All references to duration in "days" refers to university working days, which exclude weekends, holidays and days in which the university is officially closed.]] AS USED IN THE SCHEDULE FOR REVIEW OF ACADEMIC DECISIONS, A CLASS DAY IS ANY DAY OF SCHEDULED INSTRUCTION, EXCLUDING SATURDAY AND SUNDAY, INCLUDED ON THE ACADEMIC CALENDAR IN EFFECT AT THE TIME OF A REVIEW. FINAL EXAMINATION PERIODS ARE COUNTED AS CLASS DAYS.

E. "Department head" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department, or the campus director if the faculty member is in the College of Rural Alaska).

F. THE "DEAN/DIRECTOR" IS THE ADMINISTRATIVE HEAD OF THE COLLEGE OR SCHOOL OFFERING THE COURSE OR PROGRAM FROM WHICH THE ACADEMIC DECISION OR ACTION ARISES. FOR STUDENTS AT EXTENDED CAMPUSES THE DIRECTOR OF THE CAMPUS MAY SUBSTITUTE FOR THE DEAN/DIRECTOR OF THE UNIT OFFERING THE COURSE OR PROGRAM.

G. "FINAL GRADE" FOR THE PURPOSES OF THIS POLICY IS THE GRADE ASSIGNED FOR A COURSE UPON ITS COMPLETION.

H. A "GRADING ERROR" IS A MATHEMATICAL MISCALCULATION OF A FINAL GRADE OR AN INACCURATE RECORDING OF THE FINAL GRADE.

I. THE NEXT REGULAR SEMESTER IS THE FALL OR SPRING SEMESTER FOLLOWING THAT IN WHICH THE DISPUTED ACADEMIC DECISION WAS MADE. FOR EXAMPLE, IT WOULD BE THE FALL SEMESTER FOR A FINAL GRADE ISSUED FOR A COURSE COMPLETED DURING THE PREVIOUS SPRING SEMESTER OR SUMMER SESSION. THE SPRING SEMESTER IS THE NEXT REGULAR SEMESTER FOR AN ACADEMIC DECISION MADE DURING THE PREVIOUS FALL SEMESTER.

III. Procedures

A. Errors by an instructor in determining and recording a grade or by the university staff in transcribing the grade are sources of error that can be readily corrected through the student's prompt attention following the normal change of grade procedure.

1. It is a student's obligation to notify the instructor of any possible error immediately by the most direct means available. If this is through an oral conversation and/or the issue is not immediately resolved, it is the student's responsibility to provide the instructor with a signed, written request for review of the grade, with a copy to the unit department head and the dean of the college or school in which the course was offered.

2. Notification must be received by the instructor and/or department head within [[20]] 15 days from the first day of instruction of the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester).

3. The instructor is responsible for notifying the student in writing of his or her final judgment concerning the grade in question within [[10]] 5 days of receipt of the request, and for promptly submitting the appropriate change of grade form to the Director of Admissions and Records if an error occurred.

4. If the student does not receive a response from the instructor or the unit department head by the required deadline, the student must seek the assistance of the dean of the college or school in which the course was offered.

5. If the instructor is no longer an employee of the university or is otherwise unavailable, the student must bring the matter to the attention of the unit department head who will make every effort to contact the instructor BY THE 15TH CLASS DAY OF THE NEXT REGULAR SEMESTER..

a. If the instructor can not be contacted but course records are available, the department head WILL EFFECT RESOLUTION WITHIN 5 CLASS DAYS OF NOTIFICATION BY THE STUDENT. THE DEPARTMENT HEAD may correct a grading error through the regular change of grade process on behalf of the instructor.

b. If the instructor can not be contacted and course records are either unavailable or indecisive, the student may request a review following the procedure outlined below.

c. If the instructor can be contacted and elects to participate, then a constructive participation is to be welcomed by the review committee. The procedures of Paragraph III.A.5.a. or Paragraph III.A.5.b. will be instituted if the instructor withdraws from participation.

6. There may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. In such a case, upon request from the student, the dean of students, after review of supporting documentation provided by the student, may recommend to the grade appeals committee that the deadlines be adjusted accordingly. An extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

B. If no such error occurred, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and satisfaction is not forthcoming from the appropriate department head.

1. This review is initiated by the student through a signed, written request to the department head with a copy to the dean of the college or school in which the course was offered.

a. The student's request for review may be submitted using university forms specifically

designed for this purpose and available at the Admissions and Records Office.

b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration can not influence or affect the outcome of the review.

c. The request for a review must be received no later than [[45]] 20 days after the first day of instruction in the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester). OR WITHIN 5 DAYS OF RECIPT OF NOTIFICATION OF THE PROCESS BY THE DEAN/DIRECTOR OF THE COLLEGE OR SCHOOL IN WHICH THE COURSE WAS OFFERED.

d. The request must detail the basis for the allegation that a grade was improper and the result of arbitrary and capricious grading and must present the relevant evidence.

2. It is the responsibility of the department head to formally notify both the instructor who issued the grade and the dean of the unit's college or school that a request for a review of grade has been received.

3. If the instructor of the course is also the department head, the Dean of the College will designate another department head within the college to act as the department's representative for all proceedings. If the instructor of the course is also the Dean of the College, the Provost will designate another Dean within the University to act as the college's monitor of all proceedings.

4. The dean will appoint a 5 member review committee composed of the following:

a. One tenure-track faculty member from the academic unit in which the course was offered

(other than the instructor of the course).

b. Two tenure-track faculty members from within the college or school but outside of the unit in which the course was offered. If available, one of these two members will be selected from the members of the UAF Faculty Appeals and Oversight Committee.

c. One tenure track faculty member from outside the college or school in which the course was offered. If available, this member is to be selected from the members of the UAF Faculty Appeals and Oversight Committee.

d. [[At the option of the student whose grade is being reviewed, t]] The fifth member to be appointed by the dean will be a NON-VOTING student REPRESENTATIVE. [[or another tenure track faculty member outside the college or school in which the course was offered. If the fifth member is a faculty member, this member will be selected from the members of the UAF Faculty Appeals and Oversight Committee if one is available.]]

e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for grade appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

5. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 working days of receipt of the student's request.

a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

c. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) This is not the first properly prepared request for appeal of the particular grade.

2) The actions of the instructor do not constitute arbitrary and capricious grading, as defined herein.

3) The request was not made within the policy deadlines.

4) The student has not taken prior action to resolve the grade conflict with the instructor, as described under section III, A.

d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department head and dean within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

6. Acceptance for consideration of the student's request will result in the following:

a. A request for and receipt of a formal response from the instructor to the student's allegation.

b. A second meeting scheduled to meet within 10 days of the decision to review the request.

1) The student and instructor will be invited to attend the meeting.

2) The meeting will be closed to outside participation, and neither the student nor instructor may be accompanied by an advocate or representative. Other matters

of format will be announced in advance.

3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

7. The final decision of the committee will be made in private by a majority vote.

[[a. The committee is not authorized to award a grade (letter or pass/fail) or take any action with regard to the instructor.]]

[[b.]] a. Actions which the committee can take if it accepts the student's allegation of arbitrary and capricious grading must be directed towards a fair and just resolution, and may include, but are not limited to, the following:

1) direct the instructor to grade again the student's work under the supervision of the department head,

2) direct the instructor to administer a new final examination and/or paper in the course,

3) direct a change of the student's registration status (i.e., withdrawn, audit, dropped) in the course.

B. THE ACADEMIC DECISION REVIEW COMMITTEE PROCEEDINGS WILL RESULT IN THE PREPARATION OF WRITTEN FINDINGS AND CONCLUSIONS. CONCLUSIONS WILL RESULT IN ONE OF THE FOLLOWING:

1) THE REQUEST FOR A GRADE CHANGE IS DENIED.

2) THE REQUEST FOR A GRADE CHANGE IS UPHELD; THE REVIEW COMMITTEE REQUESTS THE COURSE INSTRUCTOR TO CHANGE THE GRADE; AND THE COURSE INSTRUCTOR CHANGES THE GRADE IN ACCORDANCE WITH MAU RULES AND PROCEDURES.

3) THE REQUEST FOR A GRADE CHANGE IS UPHELD; THE COURSE INSTRUCTOR IS EITHER UNAVAILABLE TO CHANGE THE GRADE OR REFUSES TO, AND THE REVIEW COMMITTEE DIRECTS THE DEAN/DIRECTOR TO INITIATE THE PROCESS SPECIFIED BY MAU RULES AND PROCEDURES TO CHANGE THE GRADE TO THAT SPECIFIED BY THE REVIEW COMMITTEE.

c. A formal, written report of the decision must be forwarded to the student, instructor, department head, dean and Director of Admissions and Records within five days of the meeting.

d. The decision of the committee is final.

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION PASSED
==========

The UAF Faculty Senate moves to approve the following changes to the Governance Coordinating Committee Procedures. The recommended changes clarify the role of the Governance Coordinating Committee in the governance structure at the University of Alaska Fairbanks.

EFFECTIVE: Upon Chancellor's Approval

****

Add = CAPS
Delete = (( ))

UAF GOVERNANCE COORDINATING COMMITTEE PROCEDURES

INTRODUCTION

FACULTY, STAFF, AND STUDENT GOVERNANCE IS ESTABLISHED BY UNIVERSITY OF ALASKA BOARD OF REGENTS' POLICY. EACH GOVERNANCE ORGANIZATION OPERATES INDEPENDENTLY, BUT WITH FORMAL INTERCHANGES OF INFORMATION MADE POSSIBLE BY REPORTS AS PART OF REGULAR MEETINGS. FOR EXAMPLE, THE ASUAF AND STAFF COUNCIL PRESIDENTS ARE NON-VOTING MEMBERS OF THE UAF FACULTY SENATE, AND REPORT ON THE WORK OF THEIR INDIVIDUAL GOVERNANCE ORGANIZATIONS AT EACH MEETING OF THE FACULTY SENATE. THE FACULTY SENATE PRESIDENT ALSO DELIVERS A REPORT ON SENATE ACTIVITIES AT EACH MEETING OF THE STAFF COUNCIL.

ISSUES CAN ARISE WITHIN GOVERNANCE THAT REQUIRE THE ATTENTION OF MORE THAN JUST ONE GOVERNANCE BODY. IN SUCH A CASE, THE ISSUE CAN EITHER BE BROUGHT DIRECTLY TO EACH BODY BY AN APPROPRIATE INDIVIDUAL OR GROUP (E.G., ADMINISTRATION) OR IT CAN BE BROUGHT TO THE UAF GOVERNANCE COORDINATING COMMITTEE, WHICH IS THEN CHARGED WITH THE RESPONSIBILITY.

THE FUNDAMENTAL OBLIGATION OF THE COORDINATING COMMITTEE, ONE ASSOCIATED WITH THE REASON FOR ITS CREATION, IS TO ASSURE TIMELY CONSIDERATION OF AN ISSUE BY EACH GOVERNANCE BODY AND FINAL ACTION ON THE ISSUE: IT ACTS AS MONITOR OF PROGRESS AND GUARANTOR OF COMPLETION.

TO FURTHER AID THE COORDINATING COMMITTEE IN CARRYING OUT ITS OBLIGATIONS, IT ALSO SUPPORTS THE EXISTENCE OF CERTAIN STANDING COMMITTEES CONCERNED WITH CAMPUS-WIDE ACTIVITIES (SUCH AS THE HEALTH ISSUES COMMITTEE) AND RECEIVES REPORTS FROM OTHER COMMITTEES OUTSIDE ITS CONTROL WHO ARE ALSO CONCERNED WITH CAMPUS-WIDE ISSUES (SUCH AS THE POLICE ADVISORY BOARD).

THE COORDINATING COMMITTEE ALSO CREATES AD HOC COMMITTEES AS NEEDED TO ADDRESS PARTICULAR ISSUES NOT UNDER THE PURVIEW OF AN EXISTING COMMITTEE. THE PROCEDURES DETAILED HEREIN DEFINE THE STRUCTURE AND WORKING OF THE UAF

GOVERNANCE COORDINATING COMMITTEE.

ARTICLE I Name

Sect. 1. The name of this organization shall be the UAF Governance Coordinating Committee

ARTICLE II Purposes, Responsibilities, and Authority

Sect. 1 The purposes of the UAF Governance Coordinating Committee are:

A. The body will exist for the express purpose of coordinating unified action from the individual governance bodies and ((to establish conference committees)) to address issues of common concern.

B. Provide a mechanism of communication between the governance bodies.

C. ((Set up)) WORK WITH ((conference)) STANDING committees to consider issues affecting multiple constituencies. The committees will report to the UAF Governance Coordinating Committee ((and their respective governance bodies)).

D. Appoint members to ((permanent)) STANDING committees AS NEEDED, ensuring that there is representation from each of the governance constituencies((,)). ((e))Exceptions TO COMMITTEE COMPOSITION will be made when agreed upon by all constituencies.

E. CREATE AND APPOINT AD HOC COMMITTEES AS NEEDED.

((E))F. The body coordinates recommendations from the STANDING AND AD HOC committeeS.

((F))G. The body will ((recommend)) COORDINATE THE REVIEW AND ACCEPTANCE OF the academic calendar((.)) UPON RECEIPT FROM THE FACULTY SENATE ADMINISTRATIVE COMMITTEE. THE COORDINATING COMMITTEE WILL SUBMIT THE ACADEMIC CALENDAR TO THE CHANCELLOR FOR APPROVAL.

ARTICLE III Membership

Sect. 1 The UAF Governance Coordinating Committee will consist of the president and president-elect, or their designee, of the three governance bodies. In the case of ASUAF, the senate president will serve on the UAF Governance Coordinating Committee. (For the purpose of identifying membership, the three governance bodies are the Associated Students of the University of Alaska Fairbanks, Faculty Senate, and Staff Council.)

ARTICLE IV Leadership

Sect. 1 The chairperson of the UAF Governance Coordinating Committee will be elected from its members for a one-year term. The election will occur at the last UAF Governance Coordinating Committee meeting of the academic year, WHICH MUST FOLLOW THE COMPLETION OF ALL GOVERNANCE ELECTIONS.

ARTICLE V Committees

Sect. ((1))2 The ((conference)) STANDING committees of the UAF Governance Coordinating Committee shall include:

((Academic Computer Users Committee))
Intercollegiate Athletics Committee
((Chancellor's Advisory Committee on Public Safety, Transportation and Parking))
Rural Affairs Committee
UAF Grievance Council
Health Issues

Sect. ((2))1 A. ((Conference)) STANDING committees shall have at least one representative from each of the governance constituencies, exception will be made when agreed upon by all constituencies.

B. Terms of all ((conference)) committee members will be one year for students and two years for faculty and staff.

C. Committee chairs will be elected from and by the respective committees.

D. Committee chairs shall forward committee business to the UAF Governance Coordinating Committee for disposition, EXCEPT WHEN LIMITED BY UNIVERSITY OF ALASKA REGULATIONS.

E. Policy items from the ((conference)) STANDING committees must be forwarded to the individual governance bodies for action.

F. In addition to the committees' specific charges, the primary responsibility of the committees are formulation and oversight of university-wide policies under the purview of each committee.

G. Committees will meet ((at least monthly)) AS NEEDED during the academic year TO FULFILL THEIR DUTIES.

H. The chairs of the ((conference)) STANDING committees will report recommendations at the monthly UAF Governance Coordinating Committee meetings.

Sect. 3 ((Conference)) STANDING Committees Charges

((A. Academic Computer Users Committee

The charge of the Computer Users Committee shall be to:

1. review and assess the academic computing needs of the University of Alaska Fairbanks.
2. plan towards improving the academic computer capabilities at the University of Alaska Fairbanks.))

((B. Chancellor's Advisory Committee on Public Safety, Transportation and Parking

The charge of the Chancellor's Advisory Committee on Public Safety, Transportation and Parking shall be to:

1. review and make policy recommendations to the Chancellor and UAF Governance Coordinating Committee regarding campus safety, security, and the transportation system at UAF.
2. serve as an appeal board, deciding appeals regarding motor vehicle citations and privileges.))

((C))A. Intercollegiate Athletics Committee

The charge of the Intercollegiate Athletic Committee shall be to:

1. exercise oversight of the direction of the Intercollegiate Athletics Program.
2. investigate compliance with NCAA and conference regulations.
3. participate in the evaluation of intercollegiate programs

((D))B. Rural Affairs

The charge of the Rural Affairs committee shall be to:

1. oversee the general welfare of the UAF community not residing on the Fairbanks campus.
2. monitor all activities affecting compliance with the Rural College mission statement of the University of Alaska Fairbanks.

((E))C. UAF Grievance Council

The UAF Grievance Council will administer grievance procedures and make recommendations in compliance with Board of Regents grievance policy and University regulations.

((F))D. Health Issues Committee

The charge of the Health Issues committee shall be to:

1. address health issues which affect the work environment.
2. coordinate efforts with the Health Center, Fire Department, Risk Management, and Public Safety to find solutions to health issues.

Sect. 3 Ad Hoc Committees may be established as demand warrants.

SECT. 4 THE GOVERNANCE COORDINATING COMMITTEE WILL RECEIVE REPORTS FROM OTHER COMMITTEES OUTSIDE ITS CONTROL WHO ARE ALSO CONCERNED WITH CAMPUS ISSUES. EXAMPLES INCLUDE: POLICE ADVISORY BOARD, TECHNOLOGY BOARD, ONE-CARD COMMITTEE, AND ANY OTHER COMMITTEE DEEMED RELEVANT TO FACULTY, STAFF, AND STUDENTS.

ARTICLE VI Meetings

Sect. 1 The UAF Governance Coordinating Committee will ((hold monthly meetings)) MEET AT LEAST TWICE A SEMESTER during the academic year.

ARTICLE VII Quorum

Sect. 1 A quorum will constitute at least one member from each of the governing bodies.

ARTICLE VIII Parliamentary Authority

Sect. 1 The parliamentary authority shall be the latest edition of Robert's Rules of Order.

ARTICLE IX Amendments

Sect. 1 Amendments to the Procedures require a two-thirds vote from each of the three governing bodies.

Sect. 2 Amendments to the Procedures shall be forwarded to the Chancellor's office for approval.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION PASSED AS AMENDED
==========

The UAF Faculty Senate moves to approve the establishment of a new degree, the Bachelor of Arts and Sciences (BAS).

EFFECTIVE: Upon Board of Regents' Approval

RATIONALE: The Board of Regents has directed campuses to eliminate the Bachelor of Education in Elementary Education. The Bachelor of Arts and Sciences is designed to replace this degree, by providing a content alternative for the preparation of teachers, which will lead up to the 5th year post-baccalaureate program for teacher educators. National study groups consistently have recommended that content preparation be emphasized in the education of teachers, which the new degree program does by preparing teachers for the breadth of knowledge that they must possess in order to teach elementary students.

****

FORMAT 3

NEW DEGREE PROGRAM REQUEST

I. COVER MEMORANDUM

A. Name of person preparing request: John Leipzig, Interim Dean
College of Liberal Arts

B. Brief Statement of the proposed program, its objectives and career opportunities:

1. A new degree in Arts and Sciences (BAS) which is interdisciplinary in nature constructed primarily to provide breadth and depth of content in those areas needed for students wishing to prepare themselves to teach in elementary schools.
2. A general studies degree requiring a breadth of content exploration in the arts and sciences available for students at the extended sites as well as at the

Fairbanks campus.

II. IDENTIFICATION OF THE PROGRAM

A. Description of the Program

1. Program Title: Bachelor of Arts and Sciences (BAS)
2. N/A
3. Admissions requirements and prerequisites. Standard entrance requirement for UAF. Entrance into the Post-Baccalaureate Teacher Education Program would follow School of Education policies and would be separate from admission to the BAS.
4. Course Descriptions: Except for the new interdisciplinary senior seminar courses, all courses currently are approved courses at UAF. The courses selected for inclusion were intended to meet Alaska Content Standards and NCATE Content Standards (included) as well as being vetted by both the Task Force and the CLA Academic Council as being those courses which would provide a diversified degree program in the arts and sciences.
5. Requirements for the degree: Attached. Three year cycle of course offerings follows the current offering cycles for the departmental offerings. All courses will be offered on an annual basis. Some extended campus offerings may be offered on an every other year basis.

B. Program Goals

1. Brief identification of objectives and subsequent means for their evaluation: Given the BOR mandate to develop content based teacher preparation programs, this degree will be the recommended preparation avenue for elementary teachers. Ultimately the acceptance rate of teachers trained on this program as well as their performance on the recently mandated teacher competence tests will indicate the strength of the program.
2. Relationship of program objectives to "Purposes of the University": As a Land-Sea-Space Grant university, UAF has the responsibility for the training of teachers. This degree will provide a stronger content preparation for elementary teachers as well as provide a general studies degree option for students wanting a broader interdisciplinary approach to higher education.
3. Occupational/other competencies to be achieved: Content preparation in the arts and sciences for those wishing to teach in the elementary schools or to receive a broad based interdisciplinary degree.
4. Relationship of courses to the program objectives: Courses were selected because they met the Alaska and NCATE Content Standards while providing a comprehensive overall general studies degree.

III. PERSONNEL DIRECTLY INVOLVED IN THE PROGRAM

A. List of Faculty involved in the Program including brief statement of duties and qualifications: Faculty from CLA, CSEM, CNRDM, School of Education and the College of Rural Alaska will cooperate in the offering of the courses. A list would include most of the teaching faculty in the university since all will be involved in the content preparation of future teachers.

B. Administrative and coordinating personnel: The program will be housed administratively in the College of Liberal Arts. The

Deans of the cooperating colleges in conjunction with the Director of the School of Education will provide the necessary personnel to administrate the program. A director of the program will coordinate all aspects of the degree.

C. Classified Personnel: Since most courses will be administrated by the departments the support for those courses will rest in the departments. Support for the degree will be attached to the director of the BAS program position in terms of having some dedicated classified support provided by the collaborating colleges and the School of Education.

IV. ENROLLMENT INFORMATION

A. Projected enrollment/present enrollment: Approximately 350 students are currently enrolled in elementary education programs. This number of students is anticipated to continue.

B. How determined/who surveyed/how surveyed: Data provided by the School of Education based on trend data for demand for the B.Ed.

C. Minimum enrollments to maintain program in years 1-5. Not applicable since this will be the primary preparation route for elementary teachers replacing the B.Ed.

D. Maximum enrollment which program can accommodate: Again not applicable since the degree is made up of a multitude of disciplinary offerings.

V. NEED FOR PROGRAM

A. Required for other programs: Will take the place of the B.Ed in Elementary Education.

B. Employment market needs: The Alaska Teacher Placement Service provides a yearly comprehensive report on "Statewide Educator Supply and Demand". This document contends that there will be an increasing demand for teachers in the state with a large gap between jobs available and those filled by UAF graduates. Included is the 1998 report.

VI. OTHER

The Board of Regents directive to eliminate B.Ed. programs necessitates that the colleges determine content alternatives for the preparation of teachers, which will lead up to the 5th year post-baccalaureate program for teacher educators. Especially important is the development of an elementary program that appropriately prepares teachers for the breadth of knowledge that they must provide to elementary students. Visiting in the life space of an elementary teacher provides guidance for the development of the present degree.

VII. RESOURCE IMPACT

A. Budget: Currently the Provost Office and the College of Rural Alaska are assessing the costs of this program. But with that said and irrespective of the design, if we are to prepare teachers at UAF the university ultimately has to bear the cost of doing so. To get us started CLA has committed to identify a person to take on the directorship of the BAS and to work with the Advising Center and the other colleges to ensure that

sufficient resources are available to support the programs startup.

B. Facilities/space needs: Delightfully, I can report that no additional space will be required for the program.

C. Credit hour production: Since the bulk of the courses are disciplinary driven the credit hours will stay with the disciplines offering the courses.

D. Faculty: Disciplinary faculty cover courses. A cross-disciplinary team will advise the director or the BAS on Academic, Advising and other issues.

E. Library Media materials: The structure of the degree being interdisciplinary means that specialized library media are unnecessary.

VIII. RELATION OF PROGRAM TO OTHER PROGRAMS IN THE SYSTEM

A. Effects of enrollments elsewhere in the system: We intend to coordinate the offerings with the BLA at UAS. This coordination will allow us to maximize delivery and minimize cost. UAA doesn't have the extensive off campus delivery demand but we will be looking at this degree as well.

B. Does it duplicate/approximate programs anywhere in the system? If so, what is the justification for the duplication: Not really but if anything the BLA at UAS is the closest approximation. We will be working together to ensure rural access to degrees to prepare teachers. With this said still the BAS is a more depth intensive curriculum with a greater concentration in science and mathematics than the BLA.

C. How does the program relate to research and service activities? Service to teachers in the state is an advantage of this program. The program will provide opportunities for students interested in elementary teaching to become involved in the classrooms early in the degree process which certainly enhances our service mission. In terms of scholarship this degree would provide the opportunity for researchers to ascertain the impact of heightened content preparation in terms of teacher success on competency exams and students progress.

IX. IMPLEMENTATION/TERMINATION

A. Date of Implementation: Optimistically Fall of 1999 with catalog copy the following year.

B. Plans for recruiting students: Will be the primary recruiting tool for students wishing to be elementary teachers. Will coordinate with the Executive Director of Admissions and Enrollment Management regarding student recruitment.

C. Termination date, if any: This will follow the standard review process for all degrees.

D. Plans for phasing out program if it proves unsuccessful: If required, the Provost will appoint a task force to phase out the program.

E. Assessment of the Program: An outcomes assessment plan will include a review of student performance on the PRAXIS exams. Admission into the post-baccalureate licensure

program will be a further indication of successful preparation of students in the program. Additional assessment will be patterned after the requirements for the NCATE self-study and will lead toward accreditation of the program.

F. Admission to the B.Ed. program will not be suspended until the B.A.S. is deliverable in rural Alaska.

X: REGENTS GUIDELINES

The proposed BAS will provide one of the strongest content bases for the preparation of elementary teachers currently available in the states. This degree meets or exceeds the Alaska Content Standards as well as the NCATE content standards. With the Regents directive of eliminating B.Ed. programs in favor of content driven preparation programs this is a strong response to that initiative. Two faculty committees and four deans at UAF have been involved in this process to date and the goal is to provide a credible interdisciplinary degree that meets the needs for elementary school teacher preparation. This degree meets intent and quality requirements for a general studies degree which will provide an excellent content preparations base for future teachers.

CATALOG COPY FOR THE B.A.S.

BACHELOR OF ARTS AND SCIENCES REQUIREMENTS

Requirements		Credits
Complete the baccalaureate core (Must complete ART/MUS/THR 200X, HIST 100X, ANTH/SOC 100X, ENG/FL 200X, MATH 107X, COMM 131X and two different science discipline breadth-emphasis laboratory courses selected from (BIOLOGY, CHEMISTRY, PHYSICS, & GEOSCIENCE). Two years of a non-English Language highly recommended)	38-39	
Complete the following B.A.S. Arts and Sciences major requirements in addition to the core:		
Mathematics (MATH 205 and MATH 206)		6
Science (Two additional breadth-emphasis laboratory courses in the two science disciplines not completed for the baccalaureate core)		8
Social sciences (GEOG 101, HIST 131 or HIST 132, HIST 461 and PS 101)		12
Literature, grammar and writing (ENGL 306 or ENGL 307; ENGL 317; and 3 credits from ENGL 271, ENGL 272, ENGL 313, ENGL 314, J/B 311)	9	
Psychological and language development (PSY 240 and either LING 101 or LING 303)	6	
Creative Expression (An applied course or courses in Music, Theatre, Photography, or Art)		3
Understanding diversity and culture (ANTH 242 and one other approved three credit course selected from a list to be developed by the appropriate review committee.	6	
Interdisciplinary senior seminars (LAS 410 and either LAS 420 or LAS 430 Each course will be written intensive and 1/2 oral intensive.)	6	

Minor Complex*..... at least 15

Electives..... at least 7

Minimum credits required for degree..... 120*

Of the above, at least 39 credits must be taken in upper division (300-level or higher) courses. Courses which are taken to fulfill the Arts and Sciences major can also be counted for content minors or second majors.

*Departmental requirements for minors may exceed the minimums indicated. Specific requirements are listed in the Degrees and Programs section.

Interdisciplinary senior seminars for the B.A.S. degree: A brief description

Three new courses were created (LAS 410, 420, 430) to provide a integrative experience across content areas tied to teaching practice. B.A.S. students will be required to take the Scientific Research (LAS 410) course and either the Social Science Inquiry and Research (LAS 420) or the Humanities: Creative Activities and Research (LAS 430) course.

LAS 410 covers the formulation and testing of scientific hypotheses using field observation and experimentation. Students will be required to complete two projects one of which would involve working within a local K-12 school.

LAS 420 and LAS 430 examine critical events which have shaped the modern world from the perspectives of different disciplines and differently situated actors. Both courses examine the processes in the social sciences or humanities that help us make sense of our world and how different people hold differing worldviews. LAS 420 and LAS 430 have project assignments that would have students working on K-8 teaching assignments. Both courses will involve School of Education Faculty working with College of Liberal Arts faculty.

All three LAS courses have been developed to be written intensive and 1/2 oral intensive. These three courses should clarify for the outside observer that the intent of the degree is to prepare K-8 teachers.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION PASSED
==========

The UAF Faculty Senate moves to approve the following procedure regarding laguage credit for the Core Curriculum:

CREDIT FOR TESTING: UAF will accept as language credit for the CORE curriculum the successful completion of accredited testing in languages not offered by UAF. ONLY tests that are equivalent to the first two semesters of specifically LANGUAGE STUDY (5+5 or 3+3+3 in ASL) will count toward CORE. Other language tests and transfer credit will continue to be accepted for humanities credit.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: Currently, UAF lacks a formal procedure for handling work in languages not offered as UAF, as it pertains to the core curriculum option in the "Perspectives on the Human Condition." This motion provides a procedure.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION PASSED AS AMENDED
==========

The UAF Faculty Senate moves to approve the following minimum requirements for Master's Degrees.

Master's Degree Requirements

The University of Alaska Fairbanks offers two catagories of master's degrees: 1) research-oriented (thesis or project) and 2) practice-oriented (non-thesis) master's degrees. Research-oriented programs prepare graduate students for scholarly or research activity directed mainly toward the acquisition of new knowledge, while that of practice-oriented graduate programs prepare graduate students for professional practice directed mainly toward application or transmission of existing knowledge. All degree requirements must be completed within a seven-year time period. The minimum requirements for a master' s degree at the University of Alaska Fairbanks are as follows (individual departments may have additional requirements):

Requirements

1. Formulate a unified degree program, in cooperation with your graduate advisory committee. Degree programs must be composed of courses in the discipline or clearly related to and/or supportive of that discipline. All courses to be applied toward the degree must be approved by the advisory committee and follow the requirements set forth by the department that sponsors the degree.

2. Specific requirements for the master's degree are:

   a. Submit a Graduate Study Plan (GSP), Appointment of Committee form, and annual Report of Committee form to the Graduate School. It is suggested that the GSP and Appointment of Committee forms be submitted by the end of the first year of study.

   b. Be registered for at least 6 credits per year (fall, spring, summer) or have an approved leave of absence on file.

   c. Pass a written and/or oral comprehensive examination which may be combined with a project or thesis defense, OR in some programs (e.g. the MBA program) a capstone course OR SYNTHESIZING PAPER, that includes demonstration of the ability to synthesize information in the field at a level appropriate for a master's degree, may be substituted for a comprehensive examination.

d. Submit an Advancement to Candidacy form to the Graduate School. Once submitted, this form supplants the GSP and serves to formally establish specific degree requirements.

e. If a thesis or project is required, pass an oral defense of the thesis/project.

f. Submit an application for graduation and be registered for at least 3 graduate credits in the semester in which the degree is to be awarded.

g. Complete all degree requirements within the seven year time limit allowed.

Credit Requirements

a. To earn a master's degree, you must satisfactorily complete a minimum of 30 semester credits.

b. At least [[24]] 21 semester credits, including those earned for thesis and research/project, must be at the 600-level. The rest may be made up of 300-400 level credits.

c. No 100-, 200- or 500-level credits may be applied toward master's degree requirements.

d. A maximum of 12 semester credits of thesis (699) and/or research (698) may be applied toward degree requirements. You may enroll in more than 12 thesis and/or research credits, but only 12 may be applied toward your degree. When a thesis is required, it must carry 6 or more credits. In nonthesis programs, a maximum of 6 credits may be devoted to research.

EFFECTIVE: Fall 1999

RATIONALE: The master's degree requirements, passed during UAF faculty senate meeting #71 eliminated all non-thesis master's degrees except those that fall under the professional category. Eliminating these non-thesis degrees has serious ramifications for students pursuing master's degrees in several programs. The intent of the original motion was to set minimum standards and reduce the disparity in requirements for different categories of master's degrees. In the end the motion served to complicate the master's degree requirements and left at least 23 master's degrees out of compliance with the new requirements. Bringing these degrees into compliance would likely result in a drop in graduate applications since these new requirements are more stringent than those of many universities across the nation. This new motion makes minor alterations to the master's degree requirements as they existed prior to meeting #71 and insures that non-thesis master's degrees which are a vital part of the UAF graduate curriculum will continue to be offered in a manner competititve with similar programs at other universities.

****

The UAF Faculty Senate passed the following at its Meeting #88 on

May 3, 1999:

MOTION PASSED
==========

The UAF Faculty Senate moves to recommend that the Board of Regents change its policy 05.10.01, section I (Tuition and Student Fees) to enable foreign students to be exempt from the non-resident surcharge after their first year.

EFFECTIVE: Immediately

RATIONALE: Previously, foreign students at UAF were treated like out-of-state students: they paid resident tuition after their first year. The rules changed, however, and now they pay non-resident tuition for all their years at UAF. This reduces foreign students' incentives to attend our University, at a time when we seek to internationalize our student body. Most foreign students are serious about their academic work, contribute diversity to the campus community, and link our programs/activities to those abroad. Further, the cost of eliminating non-resident tuition for foreign students is likely to be recouped through a substantial increase in the number of such students at UAF.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION PASSED
==========

The UAF Faculty Senate moves to amend the UAF Faculty Appointment and Evaluation Policies and Regulations for the Evaluation of Faculty: Initial Appointment, Annual Review, Reappointment, Promotion, Tenure, and Sabbatical Leave as attached.

EFFECTIVE: Immediately
Upon Chancellor's Approval

RATIONALE: The Senate's motion will revise and simplify the two documents of the Faculty Appointment and Evauation Policies and the Regulations for the Evaluation of Faculty. The two items are now covered by the collective bargaining agreement between the University of Alaska and the applicable bargaining union.

****

For full documents see:

Draft UAF Faculty Appointment and Evaluation Policies (4/20/99)
http://www.uaf.edu/uafgov/www/draftpol.html

Draft UAF Regulations for the Evaluation of Faculty (4/20/99)
http://www.uaf.edu/uafgov/www/draftreg.html

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION PASSED AS AMENDED
==========

The UAF Faculty Senate moves to recommend to the Provost that the following administrators be reviewed on a four year cycle:

Executive Dean, College of Rural Alaska
[[Director, School of Agriculture & Land Resource Management
Director, UAF Museum
Director, Institute of Marine Science
Director, Bristol Bay Campus
Director, Chukchi Campus
Director, Interior-Aleutians Campus
Director, Tanana Valley Campus
Director, Geophysical Institute]]
Dean, School of Fisheries & Ocean Sciences
[[Director of Library]]
Dean of Graduate School
[[Director, School of Mineral Engineering]]
Dean, College of Natural Resource Development & Management
[[Director, School of Management
Director, School of Education]]
Dean, College of Liberal Arts
Dean, College of Science, Engineering, & Math
[[Director, Institute of Arctic Biology
Director, Institute of Northern Engineering
Director, Kuskokwim Campus
Director, Northwest Campus
Director, Alaska Cooperative Extension
Director, Center for Distance Education
Director, Arctic Region Supercomputer Center
Director, International Arctic Research Center]]

(If interim administrators are still in place after four years they should be considered for evaluation.)

(Any other administrators will be reviewed on an ad hoc basis when requested by 25 percent of the faculty in their unit.)

EFFECTIVE: Immediately

RATIONALE: The Appeals and Oversight Committee was tasked during fall semester 1998 with reviewing the policy for the evaluation of administrators. The primary qualification for selection for periodic review by the Provost's Office was administrators holding academic rank whose positions directly impact the academic programs and whose performance directly affects the ability of faculty to carry out their academic duties.

The committee met at its ninth and last meeting of the Spring semester and reviewed previous policy (Dec. 17, 1990, Mtg. #23, May 7, 1990, Mtg. #19 and Feb. 8,1996, Mtg. #61) concerning evaluation of administrators. The committee recommended resubmission of the list of

administrative positions for periodic review based on the rationale determined by previous Senate motions.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION PASSED
==========

The UAF Faculty Senate moves to recommend a plan for the evaluation of the Office of Chancellor, University of Alaska Fairbanks.

EFFECTIVE: Immediately

RATIONALE: The purpose of any assessment is to enhance the quality and contribution of the University. The Faculty Appeals & Oversight Committee sought information from other colleges regarding their experience with senior officer evaluation. The Chancellor Assessment Plan is based on information derived from a publication by The Association of Governing Boards of Universities and Colleges, Washington, D.C.; Presidential Assessment--A Guide to the Periodic Review of the Performance of Chief Executives, by John Nason, 1984.

****

CHANCELLOR ASSESSMENT

PURPOSE

The purpose of the evaluation is to enable the Board to assess the performance of the Chancellor.

To develop strategies to enhance strengths and correct weaknesses.

To define by the Chancellor and perceive by the President and Board of Regents the scope and role of the Office and the Chancellor's performance in it.

CHANCELLOR EVALUATION: OBJECTIVES

Identify specific areas of institutional management that need improvement.

Develop evaluation procedures and foster the kind of interaction that would direct university resources toward educational change and service.

Encourage a mutually supportive relationship between the various governing boards and the Chancellor.

Clarify the balance between internal and external views of the decision making process.

Provide the Chancellor with an assessment of the way in which s/he

is perceived to be fulfilling the institution's expectations by faculty, staff, students, alumni and the public.

Support other aspects of University performance review by focusing attention upon management and by using evaluation as a vehicle to analyze institutional assumptions and priorities.

EVALUATION COMPONENTS

A conscious intent to evaluate through foresight and planning.

Appoint an individual or committee to take charge of the evaluation review. The committee should consist of faculty, staff, students and alumni.

Any review of the Chancellor's performance should take into account the unique characteristics of the University and its governance structure.

Prior to an evaluation, criteria must be explicit, understood and agreed to by all concerned.

Consider beginning with a self-evaluation. This may be the most important component of the whole process.

The Chancellor should have an opportunity to review and respond to the committee's report.

The committee must be sensitive to the Chancellor's legitimate concerns and yet insist on having the final word.

After the review committee has considered the results of the evaluation, it should be made public by the Chancellor's supervisor.

Time is an important factor in conducting evaluations. An evaluation frequency of five years is recommended, with the evaluation process completed within a four month time period.

EVALUATION CRITERIA

Academic Management and Leadership:

Demonstrates exemplary leadership and management in educational matters including respect for professorial evaluation procedures and recognition of the value of the tripartite mission (teaching, research, and service) of the University of Alaska Fairbanks.

Demonstrates: respect for academic freedom, concern about curriculum, concern about recruitment and retention of faculty, staff, and students.

Relates in a positive manner to university faculty and school administrators.

Generates and sustains a vision of what the University should be.

Administrative Management and Leadership

Demonstrates exemplary administrative skills that enhances the University's mission and purpose. This would include: appropriate staffing, delegation of authority, supervision, long-range planning, etc.

Demonstrates good personnel policies; a willingness to consult others and to act decisively when action is needed.

Ability to relate in a positive manner with labor groups.

Budget and Finance

Demonstrates exemplary practices involving university finances to include understanding of the institution's finances through effect management of its resources.

Effectively communicates the institution's budget and financial decisions to internal and external clientele.

Provides leadership and direction to effective financial management policies and procedures. Is knowledgeable and equitable in resource allocation.

Fund Raising

Demonstrates effective leadership in securing public and private funding for the tripartite mission of the University.

External Relations

Represents the University in a knowledgeable and effective manner to the public.

Provides leadership and recognition of important external groups such as: alumni, local and state officials, and prospective students.

Provides leadership to the establishment of effective community relations with school boards, chambers of commerce, service clubs, advisory councils, and native organizations.

Internal Relations

Demonstrates impartial leadership across schools and departments.

Effectively articulates and gives direction to a vision for the campus.

Facilitates a positive morale.

Chancellor Self-Assessment Guidelines

A resume of expectations and objectives on assuming the office.

An assessment report that specifies the degree to which expectations and objectives were achieved.

Discussion of major factors which may have altered expectations and the manner in which these factors where addressed.

Description of mechanism used to redefine goals and objectives.

Outline and description of areas of major concern over next five years.

Description of possible institutional changes that might address areas of future concern.

Goals and objectives which the Chancellor might wish to achieve over the next evaluation period.

SUMMARY OF GUIDELINES FOR CHANCELLOR EVALUATION

Chancellor prepares statement of self-assessment, including the objectives defined upon assuming office and progress toward achieving those objectives.

Appointment of Chancellor evaluation committee. Faculty Senate will initiate the evaluation process by forwarding a list of recommendations for the membership of the evaluation committee to the University President.

Develop plan of evaluation by which the Chancellor will be appraised.

Review the quality of leadership with University constituencies: administrative officers, faculty, students, and leaders of the community.

Evaluation committee prepares its preliminary report and submits it to Chancellor for response.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION
========

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION
========

The UAF Faculty Senate moves to endorse the 1999-2000 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighted against membership distribution from schools and colleges.

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION
========

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 1999. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 3, 1999

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

MOTION
=======

The UAF Faculty Senate moves to adopt the following calendar for its 1999-2000 meetings.

EFFECTIVE: Immediately

RATIONALE: Meetings have to be scheduled and the Wood Center Ballroom reserved well in advance.

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

RESOLUTION OF APPRECIATION

FOR

JOAN K. WADLOW

WHEREAS, Joan K. Wadlow began her academic career in higher education with baccalaureate and Ph.D. degrees from the University of Nebraska-Lincoln; and

WHEREAS, Joan K. Wadlow received a master's degree from the Fletcher School of Law & Diplomacy; and

WHEREAS, Joan K. Wadlow has a certificate from the Graduate Institute of International Studies, Geneva, Switzerland as a Rotary Scholar; and

WHEREAS, Joan K. Wadlow has served academe as a professor of political science; and

WHEREAS, Joan K. Wadlow has served academe as a dean, vice-president of academic affairs and provost; and

WHEREAS, Joan K. Wadlow participated as a member of the University President's Mission to Israel; and

WHEREAS, Joan K. Wadlow has lectured on conflict resolution for the ministry of economic affairs for the government of Taiwan; and

WHEREAS, Joan K. Wadlow traveled to Vietnam in November 1995 as a member of one of the first official delegations to visit that country after normalization of relations; and

WHEREAS, Joan K. Wadlow has conducted educational accreditation visitations in Kenya, Zimbabwe, Britain, and Spain; and

WHEREAS, Joan K. Wadlow has received teaching and community service awards, and has published on topics such as U.S. foreign policy, international education and educational equity; and

WHEREAS, Joan K. Wadlow participated as a panel member for "Opening Our Own Doors: Women and Higher Education in Wyoming" at the American Heritage Center's 7th Annual Symposium, "Schoolmarms and Scholars: Women Educators of the American West" at the University of Wyoming; and

WHEREAS, Joan K. Wadlow has served a three-year term on the Defense Advisory Committee on Women in the Service (DACOWITS), an appointment made by the U.S. Secretary of Defense; and

WHEREAS, Joan K. Wadlow is past chair of the International Affairs Commission of the National Association of State Universities and Land Grant Colleges (NASULGC); and

WHEREAS, Joan K. Wadlow is past chair of the executive committee of the Board of Directors of the Associated Western Universities, is a former member of the Board of Directors for the National Merit Scholarship Corporation and the Commission on Minorities of the American Council on Education; and

WHEREAS, Joan K. Wadlow has served as past-president of the Northcentral Association--one of the largest accrediting organizations in the world; and

WHEREAS, Joan K. Wadlow is currently a member of the Commission on Colleges of the Northwest Association of Schools and Colleges; and

WHEREAS, Joan K. Wadlow is a member of the National Collegiate Athletic Association (NCAA) Division II President's Commission; and

WHEREAS, Joan K. Wadlow presently serves on the Board of Directors of the Greater Fairbanks Chamber of Commerce, the Alaska SeaLife Center, the Associated Western University, and the Washington Center; and

WHEREAS, Joan K. Wadlow received the 1998 Alumni Scholar Achievement Award of the Rotary International Foundation; and

WHEREAS, Joan K. Wadlow is a member of the Fairbanks Rotary Club, the Alaska Airlines Community Advisory Board, and a past member of the Key Bank of Alaska Board of Directors; and

WHEREAS, Joan K. Wadlow has served nine years as Chancellor at UAF; and

WHEREAS, Joan K. Wadlow developed a long-range strategic plan to lead UAF into the 21st century; and

WHEREAS, Joan K. Wadlow completed a $12.1 million dollar private fundraising campaign, the first ever, for the university; and

WHEREAS, Joan K. Wadlow spearheaded public and private partnership sectors to address Alaska and arctic issues aggressively; and

WHEREAS, Joan K. Wadlow has sought alternative funding to maintain momentum for UAF during a decade of shrinking state dollars; and

WHEREAS, Joan K. Wadlow has demonstrated a commitment to the students of UAF through these fundraising efforts; and

WHEREAS, Joan K. Wadlow has shared with UAF and the Fairbanks community her determined drive for excellence; and

WHEREAS, Joan K. Wadlow will now enjoy the fruits of her career through retirement with her husband Dick and her Newfoundland on the Oregon Coast; and

WHEREAS, The faculty of the University of Alaska Fairbanks, through its Faculty Senate, wish to acknowledge the outstanding contributions to higher education of Joan K. Wadlow, the UAF Chancellor; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges and proclaims to all that Joan K. Wadlow has rendered outstanding service to the faculty, staff, students, alumni, and administration of UAF and to the citizens of Alaska, and hereby expresses its deep appreciation.

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

RESOLUTION OF APPRECIATION

FOR

MADELINE F. SCHATZ

WHEREAS, Madeline Schatz has served the UAF Faculty in a manner faculty; and

WHEREAS, Madeline Schatz has served as Senator to the UAF Faculty Senate from 1995-1997, as a member of the Curricular Affairs Committee from 1995-97; and

WHEREAS, Madeline Schatz has served as President-Elect of the UAF Faculty Senate from 1997-1998, as a member of the UAF Governance Coordinating Committee from 1997-99, as a member of the UA Faculty Alliance of the UA Systemwide Governance Council from 1997-99; and

WHEREAS, Madeline Schatz has served as a member of the Provost's Search Committee in 1998, as a member of the Presidential Evaluation Committee of the Board of Regents in 1998; and

WHEREAS, Madeline Schatz has served as President of the UAF Faculty Senate from 1998-1999; and

WHEREAS, The UAF Faculty Senate wishes to recognize the outstanding service rendered the faculty and the University by the work of Madeline Schatz as she concludes her term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Madeline Schatz and expresses its appreciation for her exemplary service.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

RESOLUTION OF APPRECIATION

FOR

CLIFTON A. LANDO

WHEREAS, Clif Lando has for many years served the UAF Faculty and merits the greatest admiration and respect of that faculty; and

WHEREAS, Clif Lando has served on the Fairbanks Assembly from 1978-1980, as a member of the Academic Council from 1979-1980, chaired the Baccalaureate Sub-Committee from 1978-1980; and

WHEREAS, Clif Lando has served as a Senator on the UAF Faculty Senate from 1992-1994, as Chair of the Curricular Affairs Committee from 1992-1994, on the Administrative Committee from 1992-1994; and

WHEREAS, Clif Lando has served as an alternate on the UAF Faculty Senate from 1996-1997, and again as a Senator from 1997-1999, as a member of the Graduate and Professional Curricular Affairs Committee from 1997-1999; and

WHEREAS, Clif Lando has served UAF and its faculty as Head of the Department of Mathematical Sciences, Acting Dean of the College of Liberal Arts, and in other capacities too numerous to enumerate; and

WHEREAS, On the occasion of his retirement, the UAF Faculty Senate wishes to recognize the outstanding service rendered the faculty and the University by the work of Clif Lando; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Clif Lando and expresses its appreciation for his exemplary service.

****

The UAF Faculty Senate passed the following at its Meeting #88 on May 3, 1999:

RESOLUTION OF APPRECIATION

FOR

MAYNARD G. PERKINS

Whereas, Maynard Perkins served on the UAF Assembly from 1989-1990; and

Whereas, Maynard Perkins served as an alternate on the UAF Faculty Senate from 1988-1989, and as a Senator from 1989-1999, this being the longest consecutive term of any Senate member to date; and

Whereas, Maynard Perkins served on the UAF Faculty Senate Curricular Affairs Committee from 1989-1999, as chair from 1996-1997; and

Whereas, Maynard Perkins served on the UAF Faculty Senate Developmental Studies Committee from 1989-1999, as co-chair from 1989-1994; and

Whereas, Maynard Perkins served on the UAF Faculty Senate Administrative Committee from 1989-1994 and again in 1996-1997; and

Whereas, Maynard Perkins has been teaching for 22 years, eleven of which have been spent teaching in rural Alaska for the University of Alaska Fairbanks; and

Whereas, Maynard Perkins excels in the audioconferenced delivery of classes to distant students; and

Whereas, Maynard Perkins has successfully worked with students who are considered to be developmentally unprepared to succeed at college level work; and

Whereas, Maynard Perkins is highly respected by his colleagues, students and fellow UAF Faculty Senators; and

Whereas, Maynard Perkins will be retiring from UAF at the end of the Spring semester 1999; now

Therefore Be It Resolved; That the University of Alaska Faculty Senate does express its sincere appreciation to Maynard Perkins for his dedicated service to the University of Alaska Fairbanks, its rural education mission, and the students who have benefited from his untiring quest for excellence.

The UAF Faculty Senate passed the following at its Meeting # 87 on April 5, 1999:

MOTION
=======

The UAF Faculty Senate moves to amend the petition process (exceptions to academic policy) as follows:

CAPS = Additions
[[ ]] = Deletions

1. For matters involving the CORE CURRICULUM: Faculty advisor, head of the department in the curricular area involved, through the Graduation Office to the chair of the Core Review Committee. An appeal of the chair's decision will be referred to the Provost for resolution.

2. For matters involving the MAJOR OR MINOR DEGREE REQUIREMENTS: Faculty advisor, department head in the major or minor area, to the Graduation Office. An appeal of this decision will be referred to the Dean in the major or minor area for resolution.

3. For OTHER matters: Faculty advisor, dean/director of the college/school of the student's major (who will consult with the appropriate department head(s)) to the Graduation Office. An appeal of this decision will be referred to the Provost for resolution.

4. FOR PETITIONS SEEKING TO WAIVE OR SUBSTITUTE DEGREE REQUIREMENTS OR OTHER MATTERS ON THE BASIS OF DISABILITY, THE UAF COORDINATOR OF DISABILITY SERVICES WILL BE CONSULTED.

   By the end of September, the Registrar's Office will supply the Curricular Affairs Committee with a brief summary of petition actions taken during the previous academic year.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The Senate's motion revising and simplifying the petition process did not make provisions for students with disabilities. Those who have interpreted the ADA and in particular Section 504 recommend that when petitions are sought on the basis of a student's disability, that the disability services office be consulted to determine if the student's documentation supports the request.

****

The UAF Faculty Senate passed the following at its Meeting # 87 on April 5, 1999:

MOTION
=======

The UAF Faculty Senate authorizes the UAF Honors Program to institute an Honors Thesis Scholar Option as a part of its offering.

Applicants for the Honors Thesis Scholar Option must have a cumulative GPA of 3.5 or above, or a GPA of 3.5 for the semester preceding application. They will present a letter of application no later than the end of their junior year, along with two letters of recommendation, to the Director of the Honors Program. Students accepted to complete the Honors Thesis Scholar Option must complete 12 hours of credit in honors courses and must complete an Honors Thesis (paper, project, performance, or other substantial work agreed upon by the thesis committee) for 3 hours of credit in their senior year. Of the 12 hours of honors courses, a total of 9 may come from the honors core offering. At least 3 of the 12 hours must be accomplished as contract hours in connection with a regular upper-division course in the student's major. Graduates who successfully defend their honors thesis and fulfill course requirements will have "Honors Thesis Scholar" printed on their diploma and on their official transcript.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: The Honors Program currently offers honors graduate designation to members of the program who successfully complete 27 hours of honors credit in addition to a 3-hour honors thesis and who maintain a 3.5 GPA. In the past, the honors program has best served the needs of students who enter UAF directly out of high school and has attracted an impressive number of National Merit Scholars and recipients of UAF Chancellor's scholarships. The addition of the Honors Thesis Scholar Option will enable the honors program to better satisfy the needs of nontraditional students, transfer students, and others who show promise later in their academic careers. The Honors Thesis Scholar Option would be available to all UAF students, whether on the main campus or residing away from Fairbanks. The Honors Thesis Scholar Option also would give UAF departments a way to encourage excellent students who show particular promise as they concentrate on upper-division courses in their major.

****

The UAF Faculty Senate passed the following at its Meeting # 87 on April 5, 1999:

MOTION
=======

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Permanent) of the Bylaws by deleting E.2. (The Service Committee) and renumbering the remaining sections as appropriate.

EFFECTIVE: Immediately

RATIONALE: Duplication of the Provost's Outreach Working Group which includes a Senate representative. This action minimizes duplication and accomplishes the same result.

****

The UAF Faculty Senate passed the following at its Meeting # 87 on April 5, 1999:

MOTION
=======

The UAF Faculty Senate moves to recommend that the Provost continue to ask the Senate for representation on the Outreach Working Group.

EFFECTIVE: Immediately

****

The UAF Faculty Senate passed the following at its Meeting # 87 on April 5, 1999:

MOTION REFERRED BACK TO COMMITTEE
==========

The UAF Faculty Senate moves to recommend to the Provost that the following administrators be reviewed:

1999-2000
Executive Dean, College of Rural Alaska
Director, School of Agriculture & Land Resource Management
Director, UAF Museum
Director, Institute of Marine Science
Director, Bristol Bay Campus
Director, Chukchi Campus
Director, Interior-Aleutians Campus
Director, Tanana Valley Campus
Director, Geophysical Institute
Dean, School of Fisheries & Ocean Sciences

2000-2001
Director of Library
Dean of Graduate School
Director, School of Mineral Engineering

2001-2002
Dean, College of Natural Resource Development & Management
Director, School of Management
Director, School of Education*
Dean, College of Liberal Arts*
Dean, College of Science, Engineering, & Math*
Director, Institute of Arctic Biology*
Director, Institute of Northern Engineering*
Director, Kuskokwim Campus
Director, Northwest Campus
Director, Alaska Cooperative Extension
Director, Center for Distance Education

*If present temporary person is still in place in 2001

EFFECTIVE: Immediately

RATIONALE: The Appeals and Oversight Committee was tasked during fall semester 1998 with reviewing the policy for the evaluation of administrators. The primary qualification for selection for periodic review by the

Provost's Office was administrators holding academic rank whose positions directly impact the academic programs and whose performance directly affects the ability of faculty to carry out their academic duties.

****

The UAF Faculty Senate passed the following at its Meeting # 87 on April 5, 1999:

RESOLUTION
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Larry Duffy as President-Elect of the UAF Faculty Senate for 1999-2000 by acclamation.

The UAF Faculty Senate passed the following at its Meeting # 86 on March 8, 1999:

MOTION PASSED AS AMENDED
==========

The UAF Faculty Senate moves to amend Section 3, (ARTICLE V: Committees), E., PERMANENT, 8. of the Bylaws as follows:

[[ ]] = Deletion
CAPS = Addition

8. The Faculty Appeals and Oversight Committee shall be composed of two tenured faculty members, elected from each college/school and confirmed by the Faculty Senate.

FACULTY APPEALS WILL BE DEALT WITH IN ACCORDANCE WITH THE APPROPRIATE UNION CONTRACT.

THE COMMITTEE WILL ACT AS A POOL TO BE DRAWN UPON TO ACT AS THE UNITED ACADEMICS REPRESENTATIVES TO THE APPEALS BOARD. THE CHAIR OF THE FACULTY APPEALS AND OVERSIGHT COMMITTEE WILL SELECT, FROM THE COMMITTEE, MEMBERS OF THE UNITED ACADEMICS BARGAINING UNIT WHO WILL SERVE ON THE PARTICULAR APPEALS BOARD.

[[A promotion/tenure appeals subcommittee composed of five tenured faculty will hear all promotion and/or tenure reconsideration requests and report its findings to the Chancellor according to University of Alaska Fairbanks Regulations, Section IV,B,4. The subcommittee will be selected by the Chair of the Faculty Appealsand Oversight Committee and will not Include faculty from the units in which the requests for reconsideration originated. No two faculty from the same unit, as currently elected to the committee, will be selected for the subcommittee.]]

[[Committee members shall constitute a hearing panel pool to serve as needed on grievance hearing panels, as specified in Regents' Policy 04.08.08.VI.A.]]

Committee members shall oversee the process of evaluation of academic administrators.

[[A non-retention appeals subcommittee composed of five tenured faculty will hear all non-retention reconsideration requests and report its findings to the Chancellor. This subcommittee will conduct business in the same fashion as the promotion/tenure appeals subcommittee, i.e., will review the available documents and made a determination on whether or not appropriate policy and due process was followed.]]

Committee members shall review issues dealing

with faculty prerogative and make recommendations for policy changes to the Faculty Senate.

EFFECTIVE: Immediately

RATIONALE: Deletion of the appeals subcommittees are a result of union negotiations and are now reflected in the new union contracts. The changes reflect the need to clarify the committee's role under the United Academic contract, Article 7.34.a.

The addition of a hearing panel pool reflects activities of the committee stipulated by the UAF Grade Appeals Policy.

****

The UAF Faculty Senate passed the following at its Meeting # 86 on March 8, 1999:

MOTION PASSED
==========

The UAF Faculty Senate moves that graduate degree credit will be transferable within the UA system and from any other accredited institution for courses where the student has received a grade of B or better with the following stipulations: up to 1/2 of all graduate degree credits may be transferred with no more than 1/3 of all graduate degree credits transferred from any other accredited institution outside the UA system. For use in a specific graduate program, the student's graduate committee must approve the transfer credit and it must be clearly indicated in the Graduate Study Plan and on the Advancement to Candidacy Form.

EFFECTIVE: Immediately

RATIONALE: UAF graduate students are currently prevented from transferring more than 9 graduate credits. This motion would change university policy to permit transfer of a higher proportion of graduate degree credits. The stipulations of this policy provide greater flexibility in transferring graduate credits especially from within the UA system. Currently there is no stipulation concerning the grade of graduate credits transferred to UAF. This motion would impose a minimum grade of "B" for all graduate transfer credits. Individual departments could have other standards that permit exclusion of some credit transfers.

****

The UAF Faculty Senate passed the following at its Meeting # 86 on March 8, 1999:

RESOLUTION PASSED AS AMENDED
==========

Whereas, as recognized by the policies of the American Association of University Professors (AAUP), effective shared university governance is necessary for the sound administration of an

institution of higher learning for the common good of the community, and

Whereas, as recognized in AAUP policies, an effective system of shared governance is necessary to insure that an institution of higher learning adheres to the principles of academic freedom with respect to academic matters in the classroom and in research, academic matters of institutional policy, and issues which are in the general public interest, and

Whereas, as recognized by AAUP policies, in the search for chief administrative officers of institutions of higher learning, such as university presidents and chancellors, faculty should have a primary role in accordance with the long-standing principles of shared university governance, and

Whereas, in order for a university to work toward the common good, faculty, staff, students, and stakeholders from the general public should be allowed to participate in the search for chief administrative officers of institutions of higher learning, such as university presidents and chancellors, as well as searches for other administrative officers, and

Whereas, when the appointment process for an administrative officer such as a chancellor ignores the long-established processes of shared university governance, the ability of that administrator to effectively govern the institution will be jeopardized, now

Therefore Be It Resolved, That the UAF Faculty Senate strongly condemns unilateral action of President Hamilton in appointing replacement Chancellors and demands that any further academic appointments be made in accordance with accepted academic standards.

The UAF Faculty Senate passed the following at its Meeting # 85 on February 8, 1999:

MOTION
=======

The UAF Faculty Senate moves to approve the 2000-2001 Academic Calendar as presented by the Registrar prepared in accordance with Senate policy and Board of Regents' policies and forward it to the Governance Coordinating Committee for action.

EFFECTIVE: Immediately

RATIONALE: Curricular Affairs reviewed two drafts of the 2000-01 academic calendar and forwards the following calendar to the full Senate. This calendar meets Senate policy requiring a study day prior to finals.

****

Registration for the 2000 fall semester begins	Mon., Apr. 3, 2000
Fee payment begins	Wed., July 5
Application for admission deadline for fall semester	Tues., Aug. 1
Orientation for new students	Sun.-Wed., Sept. 3-6
Labor Day (no registration or fee payment)	Mon., Sept. 4
Residence halls open, 9 am	Mon., Sept. 4
Financial aid disbursement begins	Tues., Sept. 5
First day of instruction	Thurs., Sept. 7
Late registration begins	Thurs., Sept. 7
Late registration and fee payment end	Fri., Sept. 15
Last day for 100% refund of tuition and materials fees	Fri., Sept. 15
Last day for student-initiated and faculty-initiated drops (course does not appear on academic record)	Fri., Sept. 22
Last day for 50% refund of tuition (only)	Fri., Sept. 22
Low grade reports for freshmen due not later than	Fri., Oct. 13
Last day to apply for 2000 fall graduation	Fri., Oct. 16
Last day for student-initiated and faculty-initiated withdrawals (W grade given for course)	Fri., Nov. 3
Registration and fee payment for the 2001 spring semester begin	Mon., Nov. 13
Thanksgiving holidays (no classes)	Thurs.-Sun., Nov. 22-26
Last day of instruction	Fri., Dec. 15
Final examinations	Mon.-Thurs., Dec. 18-21
Residence halls close, noon	Fri., Dec. 22
Grades due to the Registrar's Office	Fri., Dec. 22
Campus closed	5 p.m., Fri., Dec. 22, 2000 - 8 a.m., Wed., Jan 3, 2001

SPRING SEMESTER-2001

Application for admission deadline for spring semester	Wed., Dec. 1, 2000
Residence halls open, 9 a.m.	Mon., Jan. 15
Alaska Civil Rights Day (registration and fee payment continue)	Mon., Jan. 15
Orientation for new students	Tues.-Wed., Jan. 16-17, 2001
Financial aid disbursement begins	Tues., Jan. 16
First day of instruction	Thurs., Jan. 18
Late registration begins	Thurs., Jan. 18
Late registration and fee payment end	Fri., Jan. 26
Last day for 100% refund of tuition and material fees	Fri., Jan. 26
Last day for student-initiated and faculty-initiated drops (course does not appear on academic record)	Fri., Feb. 2
Last day for 50% refund of tuition (only)	Fri., Feb. 2
Last day to apply for 2001 spring graduation	Tues., Feb. 15
Low grade reports for freshmen due not later than	Fri., Feb. 23
Spring recess	Mon.-Sun., Mar. 12-18
Last day for student-initiated and faculty-initiated withdrawals (W grade given for course)	Fri., Mar. 23
Registration for the 2001 fall semester begin	Mon., Apr. 9
All Campus Day (no classes)	Fri., Apr. 27
Last day of instruction	Fri., May 4
Final examinations	Mon.-Thurs., May 7-10
Residence halls close, noon	Sun., May 13
Commencement	Sun., May 13
Grades due to the Registrar's Office	Wed., May 16
Fee Payment for the 2001 fall semester begins	Mon., July 2

The UAF Faculty Senate passed the following at its Meeting # 85 on February 8, 1999:

MOTION
=======

The UAF Faculty Senate moves to approve the new MFA degree program in Art and forward it to the Chancellor and Board of Regents.

EFFECTIVE: Upon Board of Regents' Approval

RATIONALE: See new course requests #2-7 and full program proposal #8 on file in the Governance Office, 312 Signers' Hall.

****

Executive Summary
MFA Degree Program in Art

Civilizations throughout history have all held one thing in common, that is the rich tapestry of art. The visual arts are fundamental to the human experience. We therefore propose the establishment of a Master of Fine Arts degree program in the visual arts. This program will serve students in the areas of ceramics, compute art, drawing, native arts, painting, printmaking and sculpture in their quest for professional excellence. At present, Alaska is the only state in the country not offering the M.F.A. degree and it marks the highest level of professionalism in the field. The inclusion of this degree program means that this

University would be one of only two schools nationally to offer a degree program with a concentration in Native Arts beyond the Associate level.

MFA Program Description:

The MFA in visual art is the terminal degree in the field. It customarily requires 60 graduate credit hours. Students take between 9 and 15 credits per semester. Two thirds of their classes must be in studio art. The graduate career culminates in a solo gallery exhibition of a substantial body of original work. An oral examination must be passed prior to advancement to candidacy. The work must be consistent and thematically coherent and must adhere to the highest professional standards. A written thesis is required which documents and discusses ideas and execution of the exhibition.

The MFA Program will:

Produce well-trained and competent artists to be qualified in various state and federal arts organization, galleries, museums, colleges and universities.

Supply the necessary background for students to participate in state, national and international art competitions and exhibitions. This participation is extremely important to the professional careers in the visual arts.

Enhance the University of Alaska's interests by producing highly trained, knowledgeable, and competent visual artists for the benefit of the people of Alaska.

The University will evaluate the MFA Program by the following criteria:

Number and quality of enrolled graduate students.

Number and quality of positions in the art field achieved by graduates of the program.

The Art Department will evaluate the MFA Program by the following criteria:

Quality and quantity of artwork produced by students enrolled in the program.

Maturity of artistic development achieved by its students while enrolled in the program and the continued achievements of graduates of the program.

Relationship of the MFA Program to the Purpose of the University:

The MFA program will substantially enhance the scope and richness of the University experience for the entire University community. It will enhance and enrich the artistic life of the entire state. The unique Native Art component of the program will encourage enrollment, retention and graduation of Native students. The TA's associated with the program will provide for more and more varied course offerings, bringing art and an appreciation of art to a wider audience. An important consequence of this program will be the general betterment of the artistic environment of the community.

Assessment of the MFA Program:

MFA graduates typically choose these career paths: College art instructors, Museum and Gallery positions, Independent curators, Arts Administrators, Elementary and Secondary Teachers, Workshops and Residences, Graphic Designer/ Computer Graphic Artists, Art therapy and Artists.

We will send questionnaires to employers of our graduates

after they are placed to assess the type of education they received to determine where our strengths and weaknesses are in the program. Specific data from the information received will then be analyzed for curricular improvement.

We will use the resource of visits by artists of national and international renown to provide feedback for our graduates and the program.

We supply the necessary background for students to participate in state, national and international art competitions and exhibitions. This can be evaluated by the criteria outlined in our own unit criteria that states the level of professional standard for each type of exhibition. This is also the standard outlined by the College Art Association.

We will provide access and overall site maintenance for a departmental web site that will help track our graduates. It will provide a means to check on employment and progression of their careers.

We will send questionnaires to all graduates after completion of the program requesting information assessing the program impact on the students¹ lives and on the advancement of their careers.

Resource Impact:

Budget

We are requesting a 50-50 match for 4 TAs between CLA and the graduate school. The cost of 2 TAs is presently fully funded by CLA. This would allow us to add two more TA positions without any additional cost to the college. This affords us the opportunity to add a program without any additional costs for faculty or funding for lecture positions. We are also requesting that the Graduate School continue its 50-50 funding with Summer Sessions for a TA to coordinate the Summer Art Education Institute. John Leipzig, CLA Interim Dean, has said that he will guarantee the four teaching TAs.

Faculty workload

Advising students and teaching graduate classes is a significant impact on faculty workload. We anticipate that graduate TAs will each teach 3 classes per year and that this will more than offset the impact on faculty workload. We anticipate 4 TAs who will teach classes plus one who will manage the Art Education Institute. In total 12 classes can be covered by TAs. In the art department this equates to 2 full-time teaching loads. We will not have more than 7 graduates with this TA funding. Work load will not be reduced so we will be able to offer more classes than we do now; in particular we will be able to add the new graduate classes without overloading our faculty.

Facilities

MFA students need studio/office space. Painters and sculptors need ventilated space. At present, there are 3 spaces for graduate students, which are not adequately ventilated for solvent use. While not required to start the MFA program, these upgrades are highly desirable.

Graduate students need to continue their use of periodicals and access to media facilities. If the current periodicals continue to be supported it will provide part of the need for library resources.

Graduate students use studio facilities more than

undergraduates. They will be taught maintenance as part of their program and this will offset their greater use of the facilities. Their maintenance activities will not serve to replace equipment that is completely worn out.

****

The UAF Faculty Senate passed the following at its Meeting # 85 on February 8, 1999:

MOTION
=======

The UAF Faculty Senate moves that post-baccalaureate teacher licensure programs be subject to graduate policy and regulations and that students in the licensure programs be considered graduate students.

EFFECTIVE: Upon Implementation of Post-baccalaureate programs

RATIONALE: The post-baccalaureate teacher licensure programs are graduate-level programs. UAF Graduate School Admission Standards apply to the post-baccalaureate licensure programs. Students in the post-baccalaureate certification programs are counted as UAF graduate students. This policy brings UAF into compliance with National Graduate Student Policy

The UAF Faculty Senate passed the following at its Meeting #84 on December 7, 1998:

MOTION PASSED (unanimously)
==========

The UAF Faculty Senate moves to amend the New Degree Program Request (Format 3) and Major Program Change (Format 5) in the Academic Course and Degree Procedures Manual to include a full description of the student learning outcomes assessment process for new programs and revision for major program changes.

EFFECTIVE: Immediately

RATIONALE: Development and implementation of student learning outcomes assessment programs are professional teaching duty are also a requirement of our institutional accreditation. This motion brings us into compliance with accreditation standards.

****

The UAF Faculty Senate passed the following at its Meeting #84 on December 7, 1998:

MOTION RECOMMITTED TO COMMITTEE
==========

The UAF Faculty Senate moves to establish a Departmental Honors policy. Criteria for award of departmental undergraduate honors include:

1. An overall GPA of 3.0 and 3.5 in the student's major
2. Evidence of exceptional academic achievement in one or more of the following areas:
   a. completion of significant research under guidance of university faculty member;
   b. completion of a specific cluster of advanced courses with a GPA of 3.5 or higher;
   c. completion of a senior thesis with distinction;
   d. score at or above the 85th percentile on specialty GRE test or other "standard" test;
   e. completion of an outstanding portfolio of student work.

Departments wishing to award this honors designation will submit a plan to the curricular affairs committee, indicating the specific evidence of exceptional academic achievement the department requires. Departments with approved plans are responsible for notifying the registrar's office of their honorees one month before graduation. Names of students receiving departmental honors will be listed with other student honorees in the commencement program, and the designation will appear on students' transcripts.

EFFECTIVE: 1999-2000 academic year

RATIONALE: UAF lacks a system for recognizing outstanding graduates in their fields of study, which this proposal would establish. Also, departmental

honors will be an incentive spurring student achievement in UAF's disciplines and programs.

****

The UAF Faculty Senate passed the following at its Meeting #84 on December 7, 1998:

MOTION PASSED (1 nay)
==========

The UAF Faculty Senate moves to recommend that the draft common grading system submitted by the UA Faculty Alliance be accepted.

EFFECTIVE: Immediately

RATIONALE: Last year the Senate approved the recommendations of the Curricular Affairs Committee as their response to the UA Faculty Alliance common grading policy. This fall, representatives from all three campus curricular affairs committees and the registrars have worked together to formulate a new draft based on the recommendations made last year.

****

12/1/98

PROPOSED REGENTS' POLICY 10.XX.XX

UNIVERSITY OF ALASKA COMMON GRADE SYSTEM

The University of Alaska will establish a common grade system which will be applicable across the university system. This policy has a corresponding university regulation.

PROPOSED UNIVERSITY REGULATION 10.XX.XX

UNIVERSITY OF ALASKA COMMON GRADE SYSTEM

Grading System

All course grades are academic letter grades unless otherwise specified in the catalog or class schedule. The method of grading is an integral part of the course structure and is the same for all students taking the course, except for students auditing a course or electing the credit/no-credit option. Instructors are expected to give each student a written course syllabus at the beginning of the course that includes the course grading policy, the subject matter of the course, and the course requirements. Non-academics grading options such as credit/ no-credit, pass/no-pass and pass/fail are available at the option of a MAU.

Grades

A

Indicates a thorough mastery of course content and the outstanding performance in completion of all course requirements. (Includes A- if accepted at that MAU.)

B
Indicates an above average level of acquired knowledge and above average performance in completion of course requirements. (Includes B+ and B- if accepted at that MAU.)

C
Indicates an average level of acquired knowledge and average performance in completion of course requirements. (Includes C+ and C- if accepted at that MAU.)

D
The lowest passing grade, it indicates a below average level of acquired knowledge and below average performance in completion of course requirements. (Includes D+ and D- if accepted at that MAU.)

F
Indicates failure to meet a minimal level of understanding of course content and/or performance in completion of course requirements.

CR
Credit. Indicates that full course credit was awarded under the credit/no-credit option and the student's work was equivalent to "C" or better.

Credit/No-Credit Student Option. The Credit/No-Credit option is a student-initiated grading option that encourages students to explore areas of interest not related to their academic major (i.e., undesignated electives). The instructor is not aware that this option has been selected by the student and grades the student using the grading basis approved for that course (A-F, P/NP, or P/F). Students are awarded credit for the course if their final grade is "P" or "C" or higher, and a grade of "CR" is entered in the student's transcript. If performance falls below that level ("D", "F", "NP") neither the grade "NC" nor the course is recorded in the student's transcript.

The student may elect the CR/NC option for one undesignated elective each semester during the first two weeks of the semester, with a maximum of 15 credits earned by this option applied to an Associate or Baccalaureate degree. Courses in a student's major or minor, GER/core, or specific degree requirements are not allowed under this option. If a student later changes a major or minor and the course becomes a requirement, the course may be accepted in the new major or minor at the discretion of the new department. The CR/NC option is not available for graduate courses, nor can this option be used on courses repeated for GPA improvement. A student may either elect credit/no-credit status or change from it during the first two weeks of any regular semester or for a prorated length of time in a compressed course period (e.g., the summer session or in any fall- or spring- semester course completed in less than the full duration of the semester) by filing the appropriate forms.

P
Pass. Indicates the satisfactory completion of course requirements under either the pass/fail or the pass/no-pass option. A satisfactory level of work is equivalent to a "C" or better in an undergraduate course and "B" or better in a graduate course.

NP
No pass. Indicates failure to meet a minimal level of understanding of course content and/or completion of course requirements.

Pass/No-Pass and Pass/Fail Course Options. These grading systems are established at the time the course is approved and must apply to the class as a whole; it is not a student option. When a course is graded Pass/No-Pass or Pass/Fail, the faculty member must clearly explain this fact to the students at the beginning of the class. For performance comparison only, a grade of "P" (Pass) is considered equivalent to a grade of C or higher in undergraduate courses and a grade of B or higher in graduate courses. Pass/No-Pass and Pass/Fail grades are used to determine satisfactory academic progress and may be used to meet degree requirements. In the Pass/Fail course option, a "F" is recorded in the student's transcript and used in computing the GPA.

DF
Deferred grade. Indicates that the course requirements may extend beyond the end of one semester; e.g., thesis, project, research courses, internships, etc. A final grade and credit will be withheld without penalty until the course requirements are met within an approved time.

NB
No-basis for grade. Indicates that a student has not completed the coursework by the end of the semester. No credit is given nor is NB calculated in GPA. This is a permanent grade and may not be used to substitute for the Incomplete, "I." The "NB" is not used at UAA and UAF.

I
Incomplete. Indicates that a student has not completed the coursework by the end of one semester. Credit will be withheld without penalty until the course requirements are met within an approved time, not to exceed one year.

AU
Audit. A student-option registration status indicating that the student has enrolled for informational instruction only. No course credit is granted. The student may be given a "W" if he or she does not attend the course being audited.

W
Withdrawal. This is a registration status that indicates withdrawal from a course after the official course drop date.

Computation of Grade Point Average (GPA)

The grade point average (GPA) is a weighted numerical average of the grades earned in courses by level (undergraduate or graduate) at a MAU. To compute a GPA, the cumulative number of grade points earned by level at a MAU is divided by the total number of credits for which a grade was received. Grade points for a course are calculated by multiplying the numerical value of the grade awarded, according to the chart below, by the number of credits attempted for the course. As an example, the number of credits (for example, 3) is multiplied by the grade point value of the grade (for example, A=4) to give the total grade point (for example, 12) for each course. The sum of the grade points is then divided by the total number of credits attempted to give the GPA. UAA and UAF use the 4-point system as a measure of scholastic

success (A, B, C, D, F only), while UAS includes plus and minus grades. Grades of AU, CR, NC, P, NP, I, and W do not carry grade points and therefore do not affect the GPA. Non-credit courses, transfer credits and credit-by-examination do not affect the GPA calculations. All grades (original and retakes) for a course completed are included on the student's academic record, but only the last grade earned for a course is computed in the GPA unless the course is one that can be repeated for credit.

Once the student completes the Bachelor's degree, the student's GPA in future work is calculated only on the credits and grades earned since the degree was awarded. An exception to this is made if the student is officially admitted to a second bachelor's degree program. Undergraduate courses taken while in a graduate degree program are calculated in the student's graduate GPA.

Academic letter grades at UAA and UAF carry the following grade points:

A=4.00
B=3.00
C=2.00
D=1.00
F=0.00

Academic letter grades at UAS carry the following grade points:

A =4.00
A- =3.70
B+ =3.30
B =3.00
B- =2.70
C+ =2.30
C =2.00
C- =1.70
D+ =1.30
D =1.00
D- =0.70
F =0.00

****

The UAF Faculty Senate passed the following at its Meeting #84 on December 7, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to recommend that the draft course level definitions submitted by the UA Faculty Alliance be accepted.

EFFECTIVE: Immediately

RATIONALE: Last year the UAF Faculty Senate approved the recommendations made by the Curricular Affairs and the Graduate & Professional Curricular Affairs on the draft course level definitions. This fall, representatives from all three campus curricular affairs committees and the registrars have worked together to formulate a new draft based on the recommendations made last year.

****

12/1/98

DRAFT REPLACEMENT FOR UNIVERSITY REGULATION 10.04.09 AND
PROPOSED STATEMENT FOR UAA, UAF AND UAS CATALOGS

COURSE DEFINITION SYSTEM

A. Course Numbering System

Each course offered by the University is identified by the department designator and a three-digit course number. The designator commonly abbreviates the name of a discipline or department (for example, ENGL for English). In general, the first numeral of the three-digit course number indicates the course level and the year in which the course is ordinarily taken, For example, ENGL 111 is a 100-level course and is ordinarily taken by first-year (freshman) students, and ENGL 318 is a 300-level course taken by third-year (junior) students.

B. Course Level Expectations

Students are expected to demonstrate learning skills commensurate with the appropriate course level, and are expected to meet, prior to registering, prerequisites for all courses as listed with the course descriptions. Prerequisites indicate the preparation and/or background necessary to undertake academic study. If a student has not taken and passed the necessary prerequisites, but feels confident of performing the course work, the student may request permission from the instructor of the course to enroll in the class. An instructor withdrawal may be initiated for those students who enroll without either prerequisites or instructor permission.

Courses numbered 001-049 are career development courses intended to fulfill special needs of students or the community and are not designed as preparation for 100-level college work. They are offered for Continuing Education Units (CEU) or for non-credit. Courses numbered 050-099 usually cover basic or developmental material and are intended to help prepare students to enter 100-level college courses. They are applicable to some vocational certificates. The 100-level courses generally require learning basic concepts. The 200- 300-, and 400-level courses require increasing sophistication in the ability to extract, summarize, evaluate, and apply relevant class material. The 500-level courses are specifically designed for professional development at the post-baccalaureate level, while the 600-level courses for advanced degrees demand rigorous analysis, synthesis, and research skills.

C. Non-degree and Preparatory Courses

001-049: Career development or community interest courses. These courses are intended to fulfill special needs of students or the community and are not designed as preparation for 100-level college work. Career development courses are offered for Continuing Education Units (CEU). One CEU is granted for satisfactory completion of 10 contact hours of classroom instruction or for 20 contact hours of laboratory or clinical instruction. Community
interest courses not offered for credit. They are not applicable to any degree requirements (even by petition).

050-099. Remedial or preparatory courses. These courses are applicable to some vocational certificates but not to any

associate degrees, baccalaureate degrees, master's degrees, or professional certificates. These are developmental courses that provide supplemental preparation for introductory college courses.

D. Academic Credit Courses

Lower Division Courses

100-199: Freshman-level courses. These courses are applicable to certificates, associate, and baccalaureate degrees. They introduce a field of knowledge and/or develop basic skills. These are usually foundation or survey courses.

200-299: Sophomore-level courses. These courses are applicable to certificates, associate, and baccalaureate degrees. They provide more depth than 100-level courses and/or build upon 100-level courses. These courses may connect foundation or survey courses with advanced work in a given field, require previous college experience, or field, require previous college experience, or develop advanced skills.

Upper Division Courses

As a general guideline upper division courses require at least junior standing or equivalent experience in addition to any stated prerequisites. The student is expected to have adequate preparations and background to complete courses at this level. Upper-division courses may not be required as prerequisites for lower-division courses.

300-399: Junior-level courses. These courses are applicable to baccalaureate degrees and may be applicable to some associate degrees. They may not be applied to both a baccalaureate and a master's degree. These courses build upon previous course work and require familiarity with the concepts, methods and vocabulary of the discipline.

400-499: Senior-level courses. These courses are applicable to the baccalaureate degree and may be applicable to some associates degrees. They may also be applied to graduation requirements for some master's degrees with prior approval of the student's Graduate Study Committee. They may not be applied to both a baccalaureate and a master's degree. These courses require the ability to analyze, synthesize, compare and contrast, research, create, innovate, develop, elaborate, transform, and/or apply course material to solving complex problems. These courses generally require a substantial background of study in lower-level courses.

600-699: Graduate-level courses. These courses are for post-baccalaureate study towards advanced degrees with approval of the student's Graduate Study Committee. A few well qualified undergraduates may be admitted to graduate courses with appropriate approval of the instructor. These courses may be used to meet graduation requirements for some baccalaureate degrees with prior approval of the major department. A student may not apply such a course to both a baccalaureate and a graduate degree.

D. Professional Development Courses.

500-599: Professional development courses. These courses are intended as post-baccalaureate education for various professional groups who desire to continue their education at a level distinct from graduate-level education. Courses are neither

graduate nor undergraduate in nature. These 500-level courses shall not be stacked with any credit courses, shall not apply toward any degree, certification or credential program, and are not interchangeable with 600-level courses.

RATIONALE:

To meet the requirements of existing Regents' Policy 10.04.09:

Course Definitions

The University of Alaska will develop a course definition system which clearly distinguishes among the various types of coursework provided and the level of academic experience expected for their successful completion. This system will be constructed with the consistency needed across University of Alaska institutions to facilitate systemwide academic advising. This Policy has a corresponding University Regulation.

****

The UAF Faculty Senate passed the following at its Meeting #84 on December 7, 1998:

RESOLUTION PASSED (1 nay)
==========

WHEREAS, the University of Alaska Fairbanks Faculty Senate considers the appointment of individuals to the University of Alaska Board of Regents to be of crucial importance, and

WHEREAS, this board governs Alaska's only public university system, and women and men from Alaska's diverse ethnic and cultural landscape should be appropriately reflected in its composition, and

WHEREAS, the Board of Regents must work in close association with and supervise the activities of the President of the University, and

WHEREAS, academic concerns and political matters of the state should be entirely separate issues, and

WHEREAS, a regent should have first-hand experience with a very large organization that has multiple objectives, functions, and geographic locations, and

WHEREAS, a regent must be a goodwill ambassador as well as a zealous defender and protector of the University of Alaska on all fronts, and

WHEREAS, a regent must possess a wide range of knowledge in order to understand issues from the perspective of faculty, staff, researchers, students, and community members at large, and

WHEREAS, a regent must possess the vision for Alaska to think far into the future, and must base decisions on the goal of maintaining the University of Alaska as one of the State's greatest and most important resources, now

THEREFORE BE IT RESOLVED, That the University of Alaska Fairbanks Faculty Senate encourages the Honorable Tony Knowles, Governor of the State of Alaska, to use every resource and counsel available to him, and urges him to weigh his thoughts carefully in order to place individuals on the Board of Regents who will act in the best interest of the University of Alaska and the great State of Alaska.

The UAF Faculty Senate passed the following at its Meeting # 83 on November 16, 1998:

MOTION PASSED
==========

The UAF Faculty Senate moves to approve the Unit Criteria for Music.

EFFECTIVE: Immediately

Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Music Department. With some minor changes, agreed upon by the department representative, David Stech, the unit criteria were found to be consistent with UAF guidelines.

****

UNIT CRITERIA

for Evaluation of Faculty for Promotion and Tenure

Department of Music
University of Alaska Fairbanks

STATEMENT OF PURPOSE.

These unit criteria are to supplement the University of Alaska Fairbanks Policies and Regulations for the Evaluation of Faculty for Promotion and Tenure (hereafter referred to as the "University Policies and Regulations") and to clarify their application to faculty of the UAF Department of Music. These unit criteria are subordinate to the University Policies and Regulations.

INTRODUCTION.

These criteria define for the University Promotion/Tenure Review Committee the kinds of music performance and conducting events that are most appropriately assigned to the categories of Teaching, Research and Service.

With respect to performance or conducting activities done under the category of research, the professional prestige of any performance or conducting event is determined by the visibility of the performance forum and the likelihood that a printed review could result. Also affecting visibility of the event is the level of sophistication of the audience, and the reputation of the forum in the eyes of the music professionals in the same performance discipline.

A review can be a significant part of a performer's professional record; however, the lack of a printed review for any one concert should not be construed as a negative assessment of the work of the artist. The artist has no control whether a reviewer is present or whether a review is ultimately printed.

Each live performance is itself a separate creative act where the professional risk is not reduced by the fact that the

same program may have been done previously in another location.

Performers are evaluated and chosen for professional management sponsorship after a screening process that parallels the review process used for printed forums. Vitae and recordings of prior concerts are carefully evaluated by sponsors before contractual terms are agreed upon.

The value of university and public school service in music is fully recognized. In many aspects of music performance, service represents a major part of the professional time commitment, even for faculty with heavy teaching loads. Music faculty participation in such events brings favorable notice to the institution as a whole.

Finally, public performance or exhibition activity was described as the appropriate research product for the discipline. Chancellor Patrick O'Rourke wrote, in a memorandum to the Executive Council in 1985:

> "Each faculty member must be involved in some effort to make a valid contribution to the body of knowledge in his/her own discipline. This contribution can be made in a variety of ways: research and publication in learned journals, monograph publications, papers at professional meetings, sculpting, painting, music composition, and other performance media which may be appropriate to the discipline. The medium is not near as important as the effort to make a contribution."

SUGGESTIONS FOR DEPARTMENTAL USE OF THE UNIT CRITERIA

It is recommended the faculty member including music performance or conducting activities as part of their promotion and tenure files classify their creative activities according to the categories defined below. The candidate should describe explicitly which events were refereed, juried, or otherwise screened, and precisely how this process was accomplished.

The Departmental Peer Review Committee and Department Chair should offer its collective opinion as to whether the events listed by the candidate appear in the appropriate categories.

The Unit Criteria document defines how the following professional activities apply to the discipline of music:

I. TEACHING

II. RESEARCH/SCHOLARLY ACTIVITY

III. UNIVERSITY/PUBLIC SERVICE

for the three levels of professional forum:

a. local and surrounding community

b. statewide; mostly outside the local community

c. national or international; mostly outside the state.

MUSIC PERFORMANCE activities defined as part of TEACHING

DEFINITIONS: Performance done as an adjunct to formal course instruction, principally to provide role models for students in the classroom environment.

LOCAL: Local solo and ensemble events done as part of studio teaching, master classes, student recitals, or non-solo participation with credit-producing university music ensembles.

Method for Evaluation: This activity should be evaluated by use of the Learning Assessment System (LAS).

STATEWIDE: Similar activities done as part of formal course instruction delivered at other units of the University.

Method for Evaluation: Opinion of professional peers on site, if such opinions are available. Also measured by whatever evaluation tool might be in place at that event.

NATIONAL: Similar activities done as part of formal teaching done at institutions beyond the state or done at institutions outside the U.S.

Method for Evaluation: Opinion of professional peers on site, if such opinions are available. Also measured by whatever evaluation tool might be in place at that event.

Statewide and national teaching activities should not be confused with workshop-type performance activities described in Public and University Service.

MUSIC PERFORMANCE activities defined as part of RESEARCH/SCHOLARLY ACTIVITY

DEFINITION: Formal concerts given clearly independently of formal instruction or service activities. Shall include performance of music created through electronic music synthesis.

LOCAL: Faculty solo recitals, chamber music, and solo concerto events where the visibility of the event is limited to the local community.

Method for Evaluation: Based upon opinions expressed by music faculty, or by members of the Performing/Fine Arts/ JB Promotion & Tenure Review Committee.

STATEWIDE: Similar events where the visibility of the events extends beyond the community but appears limited to the confines of the state

Method for Evaluation: Faculty who do much performing should be expected to have received some printed press reviews for some of the concerts. Unsolicited written comments may also be used to substantiate the impact and success of the performance.

NATIONAL: Similar events given mostly at nationally or internationally recognized forums. A forum located in the state such as the Fairbanks Summer Arts Festival, the Anchorage

Festival, or the Sitka Festival may be included in this category if the professional visibility of the individual is judged to go beyond the State. Also includes faculty participation at an internationally-known music ensemble or at a nationally-visible professional forum. Includes sound recordings commercially and distributed beyond the State.

Method for Evaluation: Faculty engaged in such activities Are expected to have accumulated reviews for some of the events, if they appeared as a soloist. For evaluation of nationally-released sound recordings, the existence of printed reviews would reflect significance of the product in the professional world.

In the absence of published reviews, the Department Chair or the Department Peer Review Committee could (at their discretion) solicit opinions from knowledgeable persons who attended out-of-town performances. Faculty members desiring to engage local peers should discuss specifics with the Department Head well in advance of the concert event.

The principal determinant for measuring the impact placement of an event is the scope of professional visibility achieved.

Special recognition will be given to those performances which

1) expose the performer to critical public evaluation by professional peers, or

2) major statewide events in which the performer was selected from a national or international pool of performers, or

3) where the performer placed well in a formal competition, or in a similar juried evaluation process.

MUSIC PERFORMING
activities defined as part of PUBLIC AND UNIVERSITY SERVICE

DEFINITION: defined as that done in a non-solo capacity to support departmental ensembles, or done as part of University public relations events. Performance done to benefit an extra-university host or sponsor, especially where the host or sponsor is principally involved with activities other than sponsorship of the performance arts.

LOCAL: Performances given at a municipal event, given to benefit of a host or sponsor such as service organization, church, public school or private business. Also includes performances with municipal non-profit performance groups (e.g. municipal band, light opera theatre, youth orchestra) or other activities done as part of public relations events held locally.

Method for Evaluation: Since such activities are done to benefit the sponsor or host directly, no printed review should be expected. Evaluation can be based upon the opinion of faculty peers who attended the event. There is no formalized tool to measure quality for such events. The invitation to participate should be judged as significant in and of itself.

STATEWIDE: Similar performances given out of town. Also

includes performances with departmental-sponsored music ensembles on tour in the state; performing at music clinics at state regional music festivals by invitation, or performing done at public schools, for purposes of recruitment. Local events may be included in this category if the event drew an audience which is statewide.

Method for Evaluation: Opinion of professional peers on site, if such opinions are available. The importance of the event could be assessed according to the professional prestige of the sponsor or the host. There is no formalized tool to measure quality for such events. The invitation to participate should be judged as significant in and of itself.

NATIONAL or INTERNATIONAL: Similar events done outside of the state. A local or statewide event may be included in this category if the event drew an audience which was national or international in scope.

Method for Evaluation: There is no formalized tool to measure quality for such events. The invitation to participate should be judged as significant in and of itself. The importance of the event could be assessed according to the professional prestige of the sponsor or the host.

MUSIC CONDUCTING
activities defined as part of TEACHING

DEFINITION: Conducting done by the instructor as part of required day-to-day preparation of credit-bearing music ensemble courses.

LOCAL: Conducting activities as defined above, including department-sponsored performance.

Method for Evaluation: Through use of the Learning Assessment System (LAS).

STATEWIDE: Similar activities done as part of formal credit-bearing course instruction delivered University wide.

Method for Evaluation: Opinion of professional peers on site, if such opinions are available. Also measured by whatever evaluation tool might be in place at that event.

NATIONAL or INTERNATIONAL: Similar activities done as part of formal credit-bearing course instruction done at institutions beyond the state or done internationally.

Method for Evaluation: Opinion of professional peers on site, if such opinions are available. Also measured by whatever evaluation tool might be in place at that event.

MUSIC CONDUCTING
activities defined as part of RESEARCH/SCHOLARLY ACTIVITY

DEFINITION: Formal concerts given independently of formal instruction and independent of service activities, except where noted below.

LOCAL: Conducting of non-credit producing department-sponsored music ensembles given locally. Conducting of faculty chamber recitals given locally would be considered part of this category.

Method for Evaluation: Based primarily upon opinions by music unit faculty who attended the performance. Printed reviews would not normally be expected. The provision to allow occasional credit-producing events into the category is NOT to be misunderstood to mean that any successful course-related performance may be automatically included in this category. The assertion by the candidate that the "exceptionally favorable" test was met would need to be supported by Departmental Peer Review and Chair evaluations.

STATEWIDE: Similar events where the visibility extends beyond the community (e.g., if televised to the general public, or if noted in out-of-town press).

Method for Evaluation: Faculty do much conducting would be expected to have received some printed reviews for some of the concerts. Letters of appreciation, or other unsolicited written comments recognizing the merit of the performances, could also be used to substantiate the impact and success of the performance.

NATIONAL: Similar events given mostly at nationally or internationally recognized forums. May include local performance if visibility is judged to extend to beyond the state. Also includes faculty conducting appearances with a national, or internationally, known music ensemble or at nationally, or internationally, visible concert forums. Sound recordings commercially marketed and distributed beyond the State would also be included in this category.

Method for Evaluation: The significance of such participation would derive from the visibility or prestige of the ensemble. For evaluation of nationally-released sound recordings, the existence of printed reviews, would reflect the significance of the product in the professional world.

In the absence of published reviews, the Department Chair or the Departmental Peer Review Committee could (at their discretion), solicit opinions from knowledgeable persons who attended out-of-town performances. Such evaluations, if available, can supplement the candidate's professional file. Faculty members desiring to implement this evaluation tool should suggest the possibility of the music executive well in advance of the concert advance. The lack of external peer evaluations should not reflect negatively on the record of the faculty candidate

The principal determinant for categorizing conducting events described above is the scope of the professional visibility achieved by the performance, and to a lesser degree, where the performance actually took place.

Special recognition should be given to those performances which

1) exposed the conductor to critical public evaluation by professional peers,

2) major statewide events in which the conductor was elected from a national or international pool of conductors, or

3) where the conductor placed well in a formal competition or in a similar juried evaluation process.

MUSIC CONDUCTING
activities defined as part of UNIVERSITY AND PUBLIC SERVICE

DEFINITION: to benefit an extra-university host or sponsor, especially where the host or sponsor is principally involved with activities other than sponsorship of the performing arts.

LOCAL: Performances given at a municipal event sponsored by a service organization, church, public school, or private business. Also includes conducting municipal band, light opera theater, youth orchestra, conducting of departmental ensembles for public school music ensembles (including those out-of-town groups which were hosted locally).

Method for Evaluation: There is no formalized tool to measure quality for such events. The invitation to participate should be judged as significant in and of itself.

STATEWIDE FORUM: Similar performances given out-of-town. Also includes conducting of department-sponsored music ensemble on tour of the state. Also includes conducting of music clinics at state region festivals by invitation and other clinics done around the state.

Method for Evaluation: There is no formalized tool to measure quality for such events. The invitation to participate should be judged as significant in and of itself.

NATIONAL or INTERNATIONAL: Similar events done where professional visibility of the conductor extends beyond the confines of the state or local region. May include being a clinician at a nationally-recognized event held locally, if sponsors of the event have a previously established record of selecting clinicians from a national pool.

Method for Evaluation: The importance of the event could be assessed according to the professional prestige of the sponsor or the host. There is no formalized tool to measure quality for such events. The invitation to participate should be judged as significant in and of itself.

PROFESSIONAL PERFORMANCE EXPECTATION DOCUMENT
SUMMARY OF UNIT CRITERIA DESIGNATIONS AND PROFESSIONAL EXPECTATIONS

I. Teaching	A. Local and surrounding community
II. Research	B. Statewide; mostly outside the local community
III. University and Public Service	C. National or International, mostly outside of the state.

PROFESSIONAL VISIBILITY EXPECTED FOR
PROMOTION TO DIFFERENT ACADEMIC RANKS

Lecturer (non-tenure)	IA
Instructor (non-tenure)	IA
Instructor (tenure)	IA, IIA, IIB, IIIA
Assistant Professor (tenure)	IA, IIA, IIB, IIIA
Associate Professor (tenure)	IA, IIA, IIB, IIC, IIIA, IIIB
Professor (tenure)	IA, IIA, IIB, IIC, IIIA, IIIB

Criteria for tenure are assumed to be the same as those used for promotion to the rank of Associate Professor.

Candidates for promotion are expected to have a record of recent professional activities beyond the professional record used to achieve promotion to previous rank.

****
The UAF Faculty Senate passed the following at its Meeting # 83 on November 16, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to recommend that the proposed Regents' Policy 09.03.00--Student Dispute Resolution as submitted by the Board of Regents to the Faculty Alliance be accepted.

EFFECTIVE: Immediately

RATIONALE: The Curricular Affairs Committee discussed the revised draft policies on Student Dispute Resolution, forwarded to the Faculty Senate for review and moves to forward them to the full Senate, with its recommendation that they be accepted.

****

Date: 12 October, 1998

To: Pat Ivey, Executive Officer, for distribution to Systemwide Governance Organizations

From: 'Nanne Myers, Assistant Vice President for Academic Affairs, for the Policy Revision Work Group

Subj: Re-draft of Regents' Policy/University Regulation 09.03.01--Student Dispute Resolution

Last spring, as a result of the dissatisfaction expressed in this policy and regulation by the Faculty Alliance and the Coalition of Student Leaders, the drafting team met with representatives of the Faculty Alliance. It was agreed that the team would revise the policy and regulation to reflect the AAUP guidelines for review of assignment of final grades. The resulting drafts are herewith forwarded for your consideration, with apologies that they were not available at the beginning of the semester. Editing reflects changes

from the first draft forwarded for review by governance.

The changes to the policy are summarized below.

09.03.02.A The word "generally" is inserted to indicate that an informal resolution is not a necessary first step in the initiation of a review.

09.03.02.B.2 This section has been substantively changed to make a policy statement that only faculty may authorize a change in grade.

09.03.02.B.3 This paragraph is rewritten but not substantively changed

The regulation has been revised to address reviews of final grade assignments as distinct from all other reviews of academic decisions, and reflect student concerns regarding eligibility for services while a review is in progress.

The review of final grade assignment results in a process by which a faculty committee may change a grade given by an instructor. It is important to note, as the AAUP guidelines point out, that institutions receiving federal funds are legally obligated to provide procedures by which students might successfully challenge grades that they believe may have been tainted by race or sex discrimination. A copy of the AAUP statement is attached.

On the advice of the Systemwide Academic Council, procedures for resolving other academic disputes are left to definition by MAU rules and procedures. The chancellor or designee is specified as the person to make the final decision, since in some cases, e.g., for decisions regarding graduate studies at UAS, the chief academic officer may make the decision which is subsequently challenged.

Section 09.03.02.E has been revised in response to a recommendation from the Coalition of Students Governments that eligibility for services not be affected while a dispute is in progress. Unfortunately, this is not always possible or desirable.

The drafting team requests the Faculty Alliance and the Coalition of Student Leaders to consider completing final recommendations on the policy in time for its presentation to the board in November. Because the regulation is approved not by the board, but by the president, more time could, and probably should, be taken for consideration of final recommendations regarding the regulation.

This request is made out of respect for Academic and Student Affairs Chair Sharon Gagnon, who was primarily instrumental in calling for and expediting the sorely needed revisions to policy regarding academic matters and student affairs. Regent Gagnon's term is coming to an end, and the November meeting is most likely to be her last. It would be fitting to accomplish as much revision as possible before she leaves.

(The following policy draft is the equivalent of the hard copy with the footer "For Governance Review, second reading; Disp Res Pol 10.13gov.doc)

PART IX

STUDENT AFFAIRS

CHAPTER III

Student Dispute Resolution

General Statement: Student Dispute Resolution P09.03.01

The University of Alaska will provide fair, consistent, and expeditious procedures for students to contest actions or decisions which adversely affect them. These procedures will be published in student catalogs or handbooks. Students may direct a complaint to the MAU senior student services officer, the chief academic officer, the chief administrative services officer, or designee. This official will initiate action to resolve the complaint or will inform the student of the appropriate procedure, if any, for review of the action or decision in dispute.

Actions or decisions of the Board of Regents or the substance of Regents Policy, University Regulation, and MAU rules and procedures are not subject to review pursuant to the provisions of this policy.

General Procedures For Dispute Resolution P09.03.02

A. Informal Resolution Procedures

Unless specified to the contrary, the first step for a student to challenge a university action or decision will [[GENERALLY]] be to seek an informal resolution with the person responsible for the decision or action, or with the person's immediate supervisor.

B. Formal Review Procedures

If the matter [is not] CAN NOT BE resolved informally, a student may submit a written statement to initiate one of the following formal review procedures. A request for formal dispute resolution may not be filed under more than one procedure, or more than once on an issue. Each procedure will include at least one level of review prior to the final decision, and will provide due process appropriate to the issue.

1. Review of student employment decisions or actions

Issues related to student employment will be reviewed in accordance with the grievance procedure specified in Regents' Policy on human resources, except as specifically modified by Regents' Policy on employment of students.

2. Review of academic decisions or actions

Challenges to academic decisions or actions of the faculty or academic administration will be reviewed in accordance with the procedures set forth in the accompanying regulation and in MAU rules and procedures. [Review of the assignment of grades will start with the faculty member assigning the grade, unless this person is unavailable within the review schedule provided in the regulation.] Appropriate

issues for this procedure include such things as alleged arbitrary or capricious dismissal from or denial of admission to an academic program based upon academic considerations, or assignment of final grades. ONLY THE COURSE INSTRUCTOR OR A REVIEW BODY COMPOSED OF FACULTY MAY AUTHORIZE A CHANGE IN THE ASSIGNMENT OF A FINAL GRADE.

3. Review of university judicial decisions or disciplinary SANCTIONS [actions]

NOTE: THE FOLLOWING TWO PARAGRAPHS ARE NEW WORDING

Procedures by which students may challenge decisions resulting from university judicial procedures and/or the imposition of sanctions for violation of the Student Code of Conduct are set forth in University Regulation 09.02.04 - Student Rights and Responsibilities, sections G - K.

The Code, examples of violations of the Code (which include cheating, plagiarism, and disruption of the living or learning environment), university judicial procedures, and disciplinary sanctions are set forth in Regents' Policy and University Regulation 09.02.00 - Student Rights and Responsibilities, and MAU rules and procedures.

NOTE: THE FOLLOWING PARAGRAPH WAS PROPOSED FOR DELETION

[Challenges of university judicial decisions or disciplinary sanctions related to behavioral or academic misconduct will be reviewed in accordance with procedures set forth in University Regulation on student rights and responsibilities and in MAU rules and procedures. Appropriate issues for this procedure include such things as allegations of cheating, plagiarism, disruption of the living or learning environment, or other violations of the Student Code of Conduct.

4. Review of administrative decisions or actions

Chancellors will be responsible for providing and promulgating MAU rules and procedures which provide a mechanism for students to challenge certain administrative decisions or actions not otherwise covered in this policy. Not all administrative decisions and actions will be subject to challenge.

C. Final decision

At the end of the review proceedings the university will issue a written decision, identified as the "final decision," after which point the matter under dispute will not be reviewed further by the university. Notification of the final decision will be made in accordance with Regents' Policy on student rights and responsibilities regarding seeking further redress in the court system to university decisions and actions. (See also Regents' Policy 09.02.08 - Student Rights and Responsibilities: Final University Decision.)

Confidentiality P09.03.03

Access to files pertaining to student disputes will be governed by

state and federal laws and regulations, Regents' Policy, University Regulation, and MAU rules and procedures and may vary with the issue under review and the review process.

The university cannot guarantee confidentiality but will make a reasonable effort to preserve the legitimate privacy interests of the persons involved. In order to preserve the legitimate privacy interests of the persons involved, all participants in the proceedings will be expected to maintain confidentiality.

The person in charge of the review procedure may release information if appropriate permission from the parties is provided or if other applicable legal requirements are met.

Access to Formal Review Proceedings P09.03.04

Student dispute resolution proceedings will normally be closed. Requests for an open proceeding must be made by a party prior to the start of the proceeding. Such requests will be granted to the extent allowed by law unless the person in charge of the proceeding determines that all or part of a proceeding should be closed based upon considerations of fairness, justice, and other relevant factors. A party may choose an advisor to be present at all times during the proceedings.

The person in charge of the proceeding may direct that witnesses, but not the parties or their advisors, be excluded from the proceedings except during their testimony. The deliberations of the hearing panel or officer will be closed to the public and the parties.

The UAF Faculty Senate passed the following at its Meeting # 82 on October 12, 1998:

MOTION POSTPONED
==========

The UAF Faculty Senate moves to approve the following changes to the Governance Coordinating Committee procedures.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: The recommended changes clarify the role of the Governance Coordinating Committee in the governance structure at the University of Alaska Fairbanks. Amendments to the Procedures require a two-thirds vote from each of the three governing bodies.

****

The UAF Faculty Senate passed the following at its Meeting # 82 on October 12, 1998:

MOTION PASSED
==========

The UAF Faculty Senate moves to recommend that the proposed Regents' Policy and University Regulation 09.99.01--Recreational and Intercollegiate Athletics as submitted by the Board of Regents to the Faculty Alliance be accepted.

EFFECTIVE: Immediately

RATIONALE: Proposed changes to the original policy are to: 1) clarify the intention of the policy and bring it up to date, particularly with expectations for non-discrimination and gender equity; and 2) stress that expectations for recreational and intercollegiate athletics should be commensurate with the resources available to and controlled by the MAU.

REGENTS' POLICY 09.99.00

PART IX
STUDENT AFFAIRS
CHAPTER XCIX

Recreational and [[Competitive]] INTERCOLLEGIATE Athletics
GENERAL STATEMENT: RECREATIONAL AND INTERCOLLEGIATE ATHLETICS
[[Preamble]] P09.99.01

THE UNIVERSITY OF ALASKA WILL SUPPORT OPPORTUNITIES FOR STUDENTS TO PARTICIPATE IN RECREATIONAL AND/OR INTER-COLLEGIATE ATHLETICS. EACH MAU WILL DETERMINE THE LEVEL OF SUPPORT FOR SUCH ACTIVITIES WHICH IS CONSISTENT WITH THE MAU'S MISSION AND WITHIN THE LIMITS OF ITS FACILITIES, RESOURCES, AND PERSONNEL. WHILE OPPORTUNITIES MAY BE MADE AVAILABLE TO THE TOTAL CAMPUS COMMUNITY, PRIORITY WILL BE GIVEN TO STUDENT PARTICIPANTS.

[[The University of Alaska supports the development of opportunities for men and women to participate in recreational and competitive athletics ancillary to academic development throughout its system. The university will provide opportunities for student participation in sports experiences through recreational, intramural, and extramural physical activities, and further will develop selected intercollegiate competitive team programs with which units of the University of Alaska system and their respective communities can identify.

(12-11-81)

Student Participation P09.99.02

Each campus encourages the participation of each student in at least one sports activity of life time value which may be achieved through spontaneous recreational participation, intramural, extramural, and competitive sports programs.

(12-11-81)]]

ATHLETIC [[Physical]] Activities P09.99.02 [[03]]

A. Recreational Athletics [[P09.99.03(A)]]

The University of Alaska will encourage [[spontaneous]] recreational activities by providing facility use [[time.]], WITHIN THE LIMITS OF FACILITY AVAILABILITY, RESOURCES, AND PERSONNEL. [[Priority in recreational athletics will be given to student participants with opportunities available to the total campus constituency. These opportunities are inclusive of all casual physical activities and limited only by the mind of the user and the appropriateness of the facilities. The University of Alaska will strive to provide the fiscal and physical support that is necessary to create this opportunity. (12-11-81)]]

B. Intramural Athletics [[P09.99.03(B)]]

The University of Alaska WILL encourage[[s]] the development of campus intramural ATHLETICS [[sports]] which allows [[non-varsity]] competition among [[men and women]] students and faculty-staff groups. [[in a wide variety of athletic activities.]] Students should play a primary role in the selection and management of [[the particular]] intramural activities. [[conducted.]]

C. Extramural Athletics [[P09.99.03(C)]]

[[Institutions within]] The University of Alaska [[system]] may establish and sponsor teams in organized competitive programs outside of the CAMPUS [[institution]] SUCH AS WITH [[including but not limited to]] city leagues, church leagues,

inter-school competition, and organized tournaments. Preference for participation on these teams [[shall]] WILL be given to [[currently enrolled]] students. [[Rules of competition shall be established by the sponsoring organization. The University of Alaska system shall be encouraged to sponsor such organized competitive tournaments for participating institutions.]] University of Alaska facilities may be USED ON A SPACE AVAILABLE BASIS FOR EXTRAMURAL ATHLETICS. [[made available for such programs.]]

D. Intercollegiate Athletics [[P09.99.03(D)]]

Intercollegiate [[sports]] ATHLETICS ORGANIZED TO provide [[advance]] competitive opportunities for student athletes [[The University of Alaska shall promote, through recruiting and funding, competitive sports appropriate to the Alaska scene.]] WILL BE OPERATED UNDER MAU CONTROL WITH ACADEMIC AND FINANCIAL INTEGRITY, AND IN COMPLIANCE WITH APPLICABLE ATHLETIC ORGANIZATION RULES.

1. Authorized Sports [[P09.99.03(D.1)]]

Sports authorized for intercollegiate competition are:

Basketball
Cross-country Running
Gymnastics
Ice Hockey
Riflery
Skiing - Nordic and Alpine
Swimming
Volleyball

Amendments to this list must be approved by the Board of Regents. (12-11-81)

2. Levels of Competition [[P09.99.03(D.2)]]

The intercollegiate teams of the University of Alaska shall compete at a national organizational classification level commensurate with available funding, facilities, and skill levels of the athletes. Requests for membership in a particular organization and change in the approved classification level of competition will originate at the [[institution]] MAU, and must be approved by the Board of Regents

3. Participation by Alaskans [[P09.99.03(D.3)]]

Participation by Alaskan athletes will be encouraged through active recruitment of Alaskans who are capable of athletic performance at the designated level of competition.

4. Participation by Alaskans [[P09.99.03(D.4)]]

In order to participate in intercollegiate athletics, a student must:

a. meet the standards set by the appropriate national athletic organization; and

b. meet the academic standards as established by the appropriate [[major administrative unit]] MAU.

[[5. Intercollegiate Tournaments Sponsorship [[P09.99.03(D.5)]]

[[Institutions within the University of Alaska may sponsor intercollegiate athletic tournaments provided funding for such tournaments has been approved in the intercollegiate athletics budget. In any newly established tournaments, the host Alaskan institution of such tournaments shall include the other Alaskan institutions among tournament participants when the teams are participating at the same division classification level.]]

5[[6.]] Common Opponents [[P09.99.03(D.6)]]

[[The university endorses]] A "common opponents" philosophy WILL BE UTILIZED WHERE POSSIBLE within the conference structure and scheduling TO ALLOW MORE THAN ONE CAMPUS TO ENGAGE A VISITING TEAM DURING ITS TRAVEL IN THE STATE. [[possibilities.]]

SOURCES OF Funding FOR [[of]] Athletics P09.99.03[[04]]

[[For the four physical activities programs listed above, specific funds for capital improvements to accommodate increased student participation and for the management and support of the different programs will be identified in the long-range and annual planning and budgeting process at each MAU. The needs of these programs, in addition to the instructional needs of the academic units and programs, will be considered when planning for the development and use of sports facilities. (12-11-81)

Intercollegiate athletics shall not dominate facility use nor funding to the detriment of recreational, extramural or intramural athletic opportunities nor shall one sport exclude the development of other intercollegiate, recreational, intramural, or extramural sports activities. Facilities of the institution may be available for public use as stated in Policy and Regulation 06.02.01.]]

The support of athletic program expenses by local private sources (such as booster clubs or individuals) or supplementary activities MAY BE ENCOURAGED BUT SUCH SUPPORT MUST BE MADE [[will be channeled]] through MAU [[the university]] accounting systemS and WILL be subject to university accounting procedures, review and audit.

NON-DISCRIMINATION AND GENDER EQUITY
[[Equal Opportunity]] P09.99. 04[[05]]

EACH CHANCELLOR WILL BE RESPONSIBLE FOR COMPLIANCE WITH APPLICABLE NON-DISCRIMINATION AND GENDER EQUITY MANDATES.

[[The University of Alaska affirms its policy of providing equal opportunity for the participation of men and women in all intercollegiate, extramural, intramural, and recreational athletic activities (04.01.15), as well as equivalent institutional services, in compliance with federal and state law and regulation. Each chancellor and campus president is responsible for maintaining equal opportunity for men and women.]]

(12-11-81; revised [[12-17-81)]] DATE

****

The UAF Faculty Senate passed the following at its Meeting # 82 on October 12, 1998:

MOTION PASSED
==========

The UAF Faculty Senate moves to amend the 1999-2000 Academic Calendar as presented by the Registrar prepared in accordance to BOR policies and forward it to the Governance Coordinating Committee for action.

EFFECTIVE: Immediately

RATIONALE: The consensus of the Curricular Affairs Committee was that the 1999-2000 academic calendar should adhere to senate policy and can do so by scheduling final examinations in both fall and spring semesters for the period Wednesday through Saturday.

****

DRAFT DRAFT DRAFT
UNIVERSITY OF ALASKA FAIRBANKS - Fairbanks Campus
ACADEMIC CALENDAR 1999-2000

FALL SEMESTER-1999

Registration for the 1999 fall semester begins	Mon., Apr. 5, 1999
Fee payment begins	Thurs., July 1
Application for admission deadline for fall semester	Mon., Aug. 2
Orientation for new students	Sun.-Wed., Aug. 29-Sept. 1
Residence halls open, 9 am	Sun., Aug. 29
Financial aid disbursement begins	Mon., Aug. 30
First day of instruction	Thurs., Sept 2
Late registration begins	Thurs., Sept 2
Labor Day (no classes)	Mon., Sept. 6
Late registration and fee payment end	Fri., Sept. 10
Last day for 100% refund of tuition and materials fees	Fri., Sept. 10
Last day for student-initiated and faculty-initiated drops (course does not appear on academic record)	Fri., Sept. 17
Last day for 50% refund of tuition (only)	Fri., Sept. 17
Low grade reports for freshmen due not later than	Fri., Oct. 8
Last day to apply for 1999 fall graduation	Fri., Oct. 15
Last day for student-initiated and faculty-initiated withdrawals (W grade given for course)	Fri., Oct. 29
Registration and fee payment for the 2000 spring semester begin	Mon., Nov. 8
Thanksgiving holidays (no classes)	Thurs.-Sun., Nov. 25-28
Last day of instruction	Mon., Dec. 13
Final examinations	[[Tues.-Fri., Dec. 14-17]] WED.-SAT., DEC. 15-18
Residence halls close, noon	[[Sat., Dec. 18]] Sun., Dec. 19
Grades due to the Registrar's Office	Tues., Dec. 21
Campus closed 5 p.m., Fri., Dec. 24, 1999 - 8 a.m., Mon., Jan 3. 2000	

SPRING SEMESTER-2000

Application for admission deadline for spring semester	Wed., Dec. 1, 1999
Orientation for new students	Mon.-Tues., Jan. 10-11, 2000
Residence halls open, 9 a.m.	Sun., Jan. 9
Financial aid disbursement begins	Tues., Jan. 11
First day of instruction	Thurs., Jan. 13
Late registration begins	Thurs., Jan. 13
Alaska Civil Rights Day (no classes‹late registration and fee payment continue)	Mon., Jan. 17
Late registration and fee payment end	Fri., Jan. 21
Last day for 100% refund of tuition and material fees	Fri., Jan. 21
Last day for student-initiated and faculty-initiated drops (course does not appear on academic record)	Fri., Jan. 28
Last day for 50% refund of tuition (only)	Fri., Jan. 28
Last day to apply for 2000 spring graduation	Tues., Feb. 15
Low grade reports for freshmen due not later than	Fri., Feb. 18
Last day for student-initiated and faculty-initiated withdrawals (W grade given for course)	Fri., Mar. 10
Spring recess	Mon.-Sun., Mar. 13-19
Registration for the 2000 fall semester begin	Mon., Apr. 3
All Campus Day (no classes)	Fri., Apr. 21
Last day of instruction	Mon., May 1
Final examinations	[[Tues.-Fri., May 2-5]] Wed.-Sat., May 3-6
Residence halls close, noon	[[Sat., May 6]] Sun., May 7
Commencement	Sun., May 7
Grades due to the Registrar's Office	Wed., May 10
Fee Payment for the 2000 fall semester begins	Mon., July 3

****

The UAF Faculty Senate passed the following at its Meeting # 82 on October 12, 1998:

MOTION PASSED (2 nays)
==========

The UAF Faculty Senate moves to delegate the authority to approve exceptions to academic policy (petitions) as follows:

1. For matters involving the CORE CURRICULUM: Faculty advisor, head of the department in the curricular area involved, through the Graduation Office to the chair of the Core Review Committee. An appeal of the chair's decision will be referred to the Provost for resolution.

2. For matters involving the MAJOR OR MINOR DEGREE REQUIREMENTS: Faculty advisor, department head in the major or minor area, to the Graduation Office. An appeal of this decision will be referred to the Dean in the major or minor area for resolution.

3. For OTHER matters: Faculty advisor, dean/director of the college/school of the student's major (who will consult with the appropriate department head(s)) to the Graduation Office. An appeal of this decision will be referred to the Provost for resolution.

   By the end of September, the Registrar's Office will supply the Curricular Affairs Committee with a brief summary of petition actions taken during the previous academic year.

EFFECTIVE: Spring 1999

RATIONALE: The current petition process is too cumbersome and involves too many parties. Current policy also lacks any point of reference in the petition process. The proposed motion will simplify the process by reducing the number of parties, and by establishing a point of reference in the Graduation Office. The proposal provides academic quality assurance.

****

The UAF Faculty Senate passed the following at its Meeting # 82 on October 12, 1998:

MOTION PASSED
==========

The UAF Faculty Senate moves to refer the issue of amending the UAF Faculty Appointment and Evaluation Policies & Regulations for the Evaluation of Faculty to the Faculty & Scholarly Affairs Committee. They will report back to the Senate no later than the May 1999 meeting.

EFFECTIVE: Immediately

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting # 81 on September 14, 1998:

MOTION PASSED (without objection)
==========

The UAF Faculty Senate moves to establish the membership on the Ad Hoc Committee on Unit Criteria consisting of one member from each of the following Senate committees: Curricular Affairs, Faculty & Scholarly Affairs; Graduate & Professional Curricular Affairs; Faculty Development, Assessment, and Improvement; and Service Committee.

Alexandra Fitts, Curricular Affairs
John Olson, Faculty & Scholarly Affairs
Michael Whalen, Graduate & Professional Curricular Affairs
David Porter, Faculty Develop., Assessment, & Improvement

The UAF Faculty Senate passed the following at its Meeting # 81 on September 14, 1998:

MOTION
======

The UAF Faculty Senate moves to establish an Ad Hoc Committee on Out-of-Class Learning. Membership will consist of:

Maynard Perkins, Northwest Campus
John Fellerath, Student Services
Jean Richardson, ASUAF
Rick Goeb, Athletics & Recreation
James Bicigo, Theatre/Music/Arts
Lisa Lehman, Library

EFFECTIVE: Immediately

RATIONALE: UAF's Evaluation Of Educational Effectiveness Policy includes an Evaluation of Out of Class Learning-- "An important element of a student's overall education is learning that occurs outside of classes. Therefore, an evaluation of activities and student support services will be conducted." This evaluation should be faculty driven.

The UAF Faculty Senate passed the following at its Meeting # 81 on September 14, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend Section IV. B. (Faculty with Academic Rank) of the UAF Faculty Appointment and Evaluation Policies and Regulations for the Evaluation of Faculty as follows:

[[ ]] = Deletion
CAPS = Addition

B. Faculty with Academic Rank

1. Criteria and Eligibility. A record of continuing effective performance shall be expected [[with emphasis on the record of achievement since the latest promotion in rank]]. PROCEDURES, [[P]]performance criteria and requirements [[for eligibility for promotion and/or tenure]] are set forth in THE APPLICABLE UNION CONTRACTS, UAF Faculty Policies, [[Chapter IV,]] and in policies of the Board of Regents and the regulations of the University system currently in effect and as they may change.

3. d. [[Constitution and Operation of University-wide Promotion and Tenure Committee. The University-wide Promotion and Tenure Committee will be composed of twelve representatives; three from the College of Liberal Arts (one each from education, humanities, and social sciences); three from the College of Science, Engineering and Mathematics (one from each area); three from the College of Resource Development and Management (one each from the schools of management, agriculture and land resources

each from the School of Fisheries and Ocean Sciences, Alaska Cooperative Extension and College of Rural Alaska. (Revised by the Senate and Approved by the Chancellor 3/26/97)

Additionally, the chair of the unit peer review committee for each candidate or another committee member designated by the chair will sit as an ad hoc, non-voting member of the university-wide committee during the review of candidates from that unit. The chair of the unit peer review committee or a designee may participate in the discussion of the candidate's application for promotion or tenure and will present the file to the university-wide committee. (Revised by Senate and Approved by the Chancellor 10/21/91)

Each college's/school's representative to the university-wide committee will be elected by the faculty of that college/school during the spring semester. One alternate will also be elected. Terms of service on the committee will be three years, with the terms being staggered so that continuity between committees is maintained. All representatives must be tenured and hold the rank of either associate professor or professor.

The committee shall elect a chair from its membership. The committee shall establish operating rules and procedures in a public meeting and file these with the Chancellor's Office.

Voting members of the university-wide committee shall not serve on any committee, or have input at any other level of review, related to promotion or tenure.

The discussion regarding a candidate's file shall be held in executive session, unless the candidate requests an open meeting. The voting

process shall be conducted in such a manner that the public may know the vote of each person entitled to vote.]]

CONSTITUTION AND OPERATION OF THE UNIVERSITY-WIDE PEER REVIEW COMMITTEES.

(1) FOR THE PURPOSE OF EVALUATION FOR TENURE AND/OR PROMOTION OF MEMBERS OF THE UNITED ACADEMICS BARGAINING UNIT, A LIST OF THE NAMES OF SEVEN TENURED UNIT MEMBERS WILL BE PRESENTED TO THE PROVOST WHO WILL SELECT THE COMMITTEE OR COMMITTEES. EACH UNIT PEER REVIEW COMMITTEE MAY NOMINATE ONE OF ITS MEMBERS TO SERVE. THE LIST WILL BE DETERMINED FROM THOSE NOMINEES BY VOTE OF ALL FACULTY WHO SERVE ON UNIT PEER REVIEW COMMITTEES. FACULTY SHALL REMAIN ON THE LIST FOR A TERM OF TWO YEARS WITH THE TERMS BEING STAGGERED. NO SPECIFIC PEER REVIEW COMMITTEE CAN BE REPRESENTED BY MORE THAN ONE PERSON. A FACULTY MEMBER MAY NOT STAND FOR PROMOTION DURING THE TERM OF APPOINTMENT TO THE LIST.

(2) FOR THE PURPOSE OF PRE OR POST TENURE EVALUATION OF MEMBERS OF THE UNITED ACADEMICS BARGAINING UNIT, A LIST OF THE NAMES OF SEVEN FACULTY MEMBERS WILL BE PRESENTED TO THE PROVOST WHO WILL SELECT THE COMMITTEE OR COMMITTEES. EACH UNIT PEER REVIEW COMMITTEE MAY NOMINATE ONE OF ITS MEMBERS TO SERVE. THE LIST WILL BE DETERMINED FROM THOSE NOMINEES BY VOTE OF ALL FACULTY WHO SERVE ON UNIT PEER REVIEW COMMITTEES. FACULTY SHALL REMAIN ON THE LIST FOR A TERM OF TWO YEARS WITH THE TERMS BEING STAGGERED. NO MORE THAN ONE FACULTY MEMBER ON THE LIST CAN BE A

MEMBER OF ANY SPECIFIC PEER REVIEW COMMITTEE. A FACULTY MEMBER MAY NOT STAND FOR POST TENURE REVUE DURING THE TERM OF APPOINTMENT TO THE LIST.

(3) FOR THE PURPOSE OF EVALUATION FOR TENURE AND/OR PROMOTION OF MEMBERS OF THE ACCFT BARGAINING UNIT, A LIST OF THE NAMES OF NINE FACULTY MEMBERS WILL BE PRESENTED TO THE PROVOST WHO WILL SELECT THE COMMITTEE OR COMMITTEES. THE LIST WILL BE SELECTED FROM THE TENURED FACULTY IN THE ACCFT BARGAINING UNIT BY VOTE OF THOSE FACULTY. FACULTY SHALL REMAIN ON THE LIST FOR A TERM OF TWO YEARS WITH THE TERMS BEING STAGGERED.. A FACULTY MEMBER MAY NOT STAND FOR PROMOTION DURING THE TERM OF APPOINTMENT TO THE LIST. THE PROVOST WILL APPOINT TWO MEMBERS FROM THE UNITED ACADEMICS UNIVERSITY-WIDE PROMOTION/TENURE COMMITTEE TO SERVE ON THE ACCFT PROMOTION/TENURE COMMITTEE.

[[e. Candidate Review <delete in its entirety>]]

EFFECTIVE: Immediately

RATIONALE: Procedures for retention, promotion, tenure and post tenure review will be determined by union contract. The current contracts do require a MAU Peer Review Committee but the Senate's role is only to submit a slate of names for this committee. Section B.3.d. specifies the derivation of that slate of names. The MAU Peer Review Committee slate is based on unit peer review committees in the belief that, while there may be modifications to the contract mandated procedures, unit peer review committees in some form will remain in future instantiations. This basis, rather than that of college/school, removes the slate selection from the vagaries of administrative

reorganization (over which the Senate has no authority) while retaining a slate that represents a cross section of the University. We recommend that the provost should appoint all seven faculty on the lists (for (1) and (2)) to the respective committees. We also recommend that a faculty member who has taken part in a decision at the unit peer review level abstain from voting at the MAU peer level. It is the intent tradition dictates this practice.

We further realize that other sections of the policy need to be revisited at a later date.

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to adopt recommendations of the Curricular Affairs Committee as the UAF Faculty Senate's response to the UA Faculty Alliance common grading policy.

EFFECTIVE: Immediately

RATIONALE: The committee considered how it should respond to the proposal of the UA Faculty Alliance concerning a common grade policy. It was compared to current UAF practice by UAF Registrar Ann Tremarello who made specific recommendations concerning language on grading system, academic letter grades, individual grades of A, B, C, D, F, non-academic grades, the credit/no-credit option, P, pass/no-pass and pass/fail, DF, NB, I, AU, W, and computation of grade point average. The committee suggested changes to the list of recommendations in three areas.

1) recommendation on the "F" grade should add the word "satisfactorily;" That is, an "F" grade is defined as "Indicates failure to meet course requirements satisfactorily."

2) That the "NB" section should be removed from the common grade policy, because UAF no longer recognizes the NB grade;

3) That the recommendation on the "I" grade conform to current UAF practice, which no longer requires students to have earned a "C" grade or better in the majority of the work for the course in order to be assigned an incomplete.

The committee moved to adopt the amended recommendations as the committee's proposal for the UAF Faculty Senate response to the UA Faculty Alliance.

Signed: John D. Craven, President, UAF Faculty Senate Date: 5/7/98

****

ANALYSIS OF THE UNIVERSITY OF ALASKA COMMON GRADE POLICY
As proposed by the UA Faculty Alliance

Grading System:
This is an elaborated UAF grading system statement. It has been embellished by stating what is required in the syllabus in addition to the course grading system.

Recommendation: Go back to the UAF statement: "Instructors are expected to state their grading policies in writing at the beginning of each course."

"Academic Letter Grades"
What follows are definitions for letter grades. By classifying these as "academic," the impression is given that "non-academic" grades, such as Pass and Credit, could not be used with academic courses. The "academic" grades are simply those that are used to compute the grade point average.

Recommendation: Change the name and do not separate these grades from those not counted in the grade point average. There is a clear enough indication of what counts and does not count in the GPA in the section dealing with computing grade point averages.

"A"
UAF's definition included "?.completion of more work than is regularly required."

Recommendation: Go with the suggested definition. I imagine that many A grades are given at UAF without requiring additional work.

"B"
UAF's previous definition indicated this was "outstanding" ability.

Recommendation: Accept the new definition.

"C"
Defined as "average mastery" which seems a contradiction in terms.

Recommendation: Change "mastery" to "performance."

"D"
Defined as "less than average mastery" and "minimum acceptable completion of all course requirements."

Recommendation: Change "mastery" to "performance." Remove or change "minimum acceptable completion of all course requirements" because it is unnecessary and may be misunderstood to mean that "D" grades are minimally accepted as meeting degree requirements in all cases.

"F"
Definition seems awkward: "Indicates failure to meet a minimum level of understanding of the subject and minimum acceptable level of completion of all course requirements. All "F" grades earned in pass/fail courses are included in the GPA calculations."

Recommendation: Change definition to: "Indicates failure to meet course requirements satisfactorily. All "F" grades, including those earned in courses graded under the pass/fail option, are calculated in the GPA."

"Non-Academic Grades"
Identifies grades that are not computed in the grade point average.

Recommendation: Beside changing the "label" for these courses, combine the last two sentences to read: "However, grades of "CR" and "P" earn credit toward graduation, except as specified and may be used to determined satisfactory academic progress, where satisfactory progress means a "C" or better for undergraduate courses and "B" or better for graduate courses."

"CR"
OK

"NC"
OK.

Credit/No-Credit Student Option
Essentially the same as now used at UAF with these two exceptions: (1) maximum of 15 credits earned by this option may apply to an associate or baccalaureate degree; (2) option can not be used with courses repeated for GPA improvement.

Recommendation: Stay with the present UAF policy that limits the student to one course per semester using the credit/no-credit option. The fact that only "undesignated" electives can be taken with this option limits the number that can be applied toward any degree. Adopt the policy that credit/no-credit can not be used when repeating a course for a higher grade.

"P"
Equivalent undergraduate and graduate grades are not part of the definition.

Recommendation: Include in the definition of the "P" grade that it is equivalent to a "C" grade for an undergraduate course and a "B" grade in a graduate course.

"NP"
Used only at UAA. Use of this grade should be an option at each MAU.

Pass/No-Pass and Pass/Fail Course Options
The explanation of these options goes into more detail than is necessary. Equivalents of the "P" grade are given here rather than in the definition of the grade (see above).

Recommendation: Remove the reference to equivalent grades (to be placed with the definition of the "P" grade above).

"DF"
Includes this from the UAA policy: "If course work is not completed prior to applying the course towards a graduation requirement, the "DF" becomes a permanent grade and it will be necessary for the student to re-register to obtain credit for the course."

Recommendation: Clarify what this means. A course could not be applied towards a degree requirement if it is not completed. Without a better explanation, I would recommend this be removed from the policy statement.

"NB"
Used only at UAS. Use of this grade should be an option at each MAU.

Recommendation: The "NB" section should be removed from the common grade policy, because UAF no longer recognizes the NB grade.

"I"
States that the student must have earned a "C" grade or better in the majority of the work for the course (this was just removed from the UAF policy) and that an Incomplete Grade contract or a Course Completion Contract be signed by both the faculty member and the student.

Recommendation: Eliminate the "C" grade requirement. Delete the "contract" requirements. That is a process and should be left up to the individual MAU's.

"AU"
This appears to be the UAF policy.

Recommendation: Remove all reference to process and deadlines for changes from credit to audit from the policy statement.

"W"
The "W" grade is defined as a "registration status." Since the student does not "register" for a "W" grade, this appears to be inappropriate wording.

Recommendation: Change the wording to "Indicates withdrawal from a course??"

Computation of Grade Point Average
Again, use of "non-academic" grades may be confusing. It is important to note that this policy defines the GPA to be calculated only on credits and grades earned at a specific MAU. There is no mention of a "statewide" GPA (something the Regents have mentioned). The Banner system separates the academic history record by level, that is, undergraduate, graduate, professional, non-credit/CEU. A separate GPA is calculated by level. There is not a combined MAU GPA.

Recommendation: Change wording as follows (additions are in CAPS):
1. "The grade point average (GPA) is a weighted numerical average of the grades earned in courses BY LEVEL at a MAU. To compute a GPA, the cumulative number of grade points earned BY LEVEL at a MAU is divided by the total number of credits for which a grade was received."
2. "Undergraduate courses TAKEN BY A STUDENT while in a graduate degree program are calculated in the student's graduate GPA IF THEY ARE PART OF THE GRADUATE PROGRAM AS INDICATED ON THE STUDENT'S APPROVED ADVANCEMENT TO CANDIDACY FORM.

****

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to recommend that the proposed Regents' Policy and Univesity Regulation 09.02.00--Student Rights and Responsibilities as submitted by the Board of Regents to the Faculty Alliance be accepted.

EFFECTIVE: Immediately

RATIONALE: The Curricular Affairs Committee discussed draft policies and regulations on Student Rights and Responsibilities, forwarded to the Faculty Senate for review by a UA administrative committee chaired by 'Nanne Myers and moved to forward them to the full senate, with its recommendation that they be accepted.

Signed: John D. Craven, President, UAF Faculty Senate Date: 5/7/98

****

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

MOTION PASSED (unanimous)

==========

The UAF Faculty Senate moves to amend the Baccalaureate Core Curriculum for Aesthetic Appreciation under the "Perspectives on the Human Condition" as follows:

CAPS = Additions
[[ ]] = Deletions

"PERSPECTIVES ON THE HUMAN CONDITION"

AESTHETIC APPRECIATION

1. Objectives
   a. To compare and contrast the methods, process, and expression of the three arts (visual, music, and drama) in western and non-western civilizations;
   b. To develop basic and practical tools of aesthetic perception, awareness and appreciation;
   c. To develop an understanding of how the arts are related to one another and to the world; and
   d. To develop understanding of the value and application of aesthetics to everyday life.

2. Options: Proposed courses MAY [[would]] be team-taught by members of similar interests and background representing the Departments of Art, THEATRE [[Drama]], and Music and would follow the above objectives. Courses offered will depend upon the emphasis and background of the faculty [[team]]. Five examples of possible courses are:

   a. An art appreciation course drawing upon material from Music 123, Music Appreciation; Art 100, Art Appreciation; and Theatre [[211, Theater Appreciation]] 215, DRAMATIC LITERATURE.

   b. A course emphasizing Native Alaskan music and drawing together content from Theatre 161, Introduction to Tuma Theatre; Music 223, Alaskan Native Music; and ART 365, Native Art of Alaska.

   c. A course emphasizing the modern creative process as manifested in the art of the twentieth century, drawing upon content offered in courses in modern theatre, modern art (Art 363), and modern music (Music 424).

   d. A course examining art from an historical perspective, with content drawn from Theatre [[211]] 215, DRAMATIC LITERATURE, Music 222, and Art 261-262.

   e. A course considering art of the Pacific Rim cultures and drawing material from Music 124, Music in World Cultures; Art 261-262, History of World Art; and Theatre [[211, Theater Appreciation]] 215, DRAMATIC LITERATURE (with emphasis on Theater practice throughout the Pacific Rim).

   EFFECTIVE: Immediately

   RATIONALE: The CORE Curriculum Review Committee has approved a change in the wording of the CORE Curriculum Requirements (1990) regarding Aesthetic Appreciation.

These cosmetic changes have been requested by the Department Heads of Art, Music, and Theatre.

These changes DO NOT affect the CORE or the Spirit of the CORE, but do reflect the existing realities of the courses AS CURRENTLY PRESENTED. The changes also reflect the Theatre Department's desire to be recognized as Theatre rather than "Drama."

Signed: John D. Craven, President, UAF Faculty Senate Date: 5/7/98

Approved: J. Wadlow, Chancellor Date: 5/8/98

The UAF Faculty Senate moves to refer the motion to amend the minimum requirements for Master's Degrees back to committee for additional consideration.

Effective: Immediately

Signed: John D. Craven, President, UAF Faculty Senate Date: 5/7/98

****

MOTION REFERED BACK TO COMMITTEE
==========

The UAF Faculty Senate moves to approve the amendments to the minimum requirements for Master's Degrees. These new requirements should be listed in the UAF catalogue as follows:

CAPS = Additions
[[ ]] = Deletions

For all Master's Degree Programs, the following must be met:

a. Submit a Graduate Study Plan (GSP) and an Appointment of Committee Form to the Graduate School by the end of the second semester in attendance.

b. Be registered for at least 6 credits per year (fall, spring, and summer combined), or have an approved leave of absence form on file.

C. PASS A WRITTEN AND/OR ORAL COMPREHENSIVE EXAMINATION WHICH MAY BE COMBINED WITH A PROJECT OR THESIS DEFENSE. IN SOME PROGRAMS (E.G. THE MBA PROGRAM) A CAPSTONE COURSE, THAT INCLUDES DEMONSTRATION OF THE ABILITY TO SYNTHESIZE INFORMATION IN THE FIELD AT A LEVEL APPROPRIATE FOR A

MASTER'S DEGREE, MAY BE SUBSTITUTED FOR A COMPREHENSIVE EXAMINATION.

[[c.]] D. Submit an Advancement to Candidacy form to the Graduate School. Once submitted, this form supplants the GSP and serves to formally establish specific degree requirements.

[[d.]] E. Submit an application for graduation and be registered for at least 3 graduate credits in the semester in which the degree is to be awarded; and

[[e.]] F. Complete all degree requirements within the 7-year time limit allowed.

Furthermore, the following OUTLINES additional MINIMUM requirements [[are the minimum requirements]] for FOUR DIFFERENT CATEGORIES OF Master's Degrees:

A. For a Master's of Science or Master's of Arts Degree - with thesis

Successfully complete at least 30 credits of course work including at least 6 credits of thesis (699). No more than 12 thesis/research (699/698) credits may be counted towards the minimum degree credits.

At least 24 credits must be at the 600 LEVEL [[or above]], except for a Master's of Arts in Music, which must have at least 21 credits at the 600 level [[or above]].

[[Pass a written and/or oral comprehensive exam (may be combined with the thesis defense.)]]

Publicly present and defend thesis.

Submit a completed and signed thesis defense form to the Graduate School.

Archive thesis in UAF Library.

B. Master's of Science or Master's of Arts Degree - with project

Successfully complete at least 30 credits of course work including at least 3 credits of RESEARCH or project work (698). No more than 6 research OR PROJECT WORK (698) credits may be counted towards the minimum degree credits.

At least 24 credits must be at the 600 level [[or above]], except for a Master's of Arts in Music, which must have at least 21 credits at the 600 level [[or above]].

[[Pass a written and/or oral comprehensive exam (may be combined with the project defense.)]]

Publicly present and defend project.

Submit a completed and signed project defense form to the Graduate School.

Archive project in UAF Library.

C. MASTER'S OF SCIENCE OR ARTS DEGREE - COURSEWORK BASED

SUCCESSFULLY COMPLETE AT LEAST 30 CREDITS OF COURSEWORK. AT LEAST 24 CREDITS MUST BE REGULAR COURSEWORK AT THE 600 LEVEL NOT INCLUDING RESEARCH, PROJECT OR THESIS COURSEWORK.

D. For a Professional Master's Degree (E.G. [i.e.] Master's of Business Administration, Education, etc.)

Successfully complete at least 30 credits of course work (research or thesis credits NOT included).

At least 24 credits must be at the 600 level [[or above]] (research or thesis credits NOT included).

[[Successful completion of a comprehensive exam or capstone course that includes demonstration of the ability to synthesize information in the field at a level appropriate for a Master's degree.]]

Note on Implementation of Motion: It is the understanding of the Graduate AND PROFESSIONAL Curricular Affairs Committee that changes to existing programs degree requirements or the name of the degree which may be necessitated by this policy, if implemented, will need final approval of the Graduate AND PROFESSIONAL Curricular Affairs Committee, but does not constitute a new degree offering, and will not need approval by the Board of Regents.

No minimum presented herein prohibits programs from requiring additional work. The adjustments that have been made from existing programs include the requirement for the non-thesis project to be documented and in some manner archived in the Library (i.e. slides, recording, report.)

EFFECTIVE: Fall 1998

RATIONALE: The master's degree requirements, passed during UAF Faculty Senate meeting #71, omitted or eliminated several categories of master's degrees that had previously been offered by UAF and are commonly offered at other universities nationwide. These omissions or eliminations would have had serious ramifications for students pursuing master's degrees in several programs. The intent of the original motion was to set minimum standards and reduce the disparity in requirements for different categories of master's degrees. The proposed amendments to the motion serve to further that goal and rectify the omission or elimination of master's degree programs that have been and continue to be a vital part of the UAF graduate curriculum.

****

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

MOTION PASSED
==========

The UAF Faculty Senate moves that, for the academic year 1998-99 only, incoming graduate students may elect to fulfill the master's degree requirements from either the 1997-98 or 1998-99 catalog.

EFFECTIVE: Immediately

RATIONALE: The new master's degree requirements essentially eliminate an entire category of degrees and the implementation of these requirements has proved to be much more arduous and contentious than anyone in the 1996-97 Senate thought.

Signed: John D. Craven, President, UAF Faculty Senate Date: 5/7/98

Approved: J. Wadlow, Chancellor Date: 5/8/98

****

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to request that the Appeals and Oversight Committee select four of its members to be recommended to United Academics by the Senate for service on the Appeals Board. The individuals should be members of the bargaining unit (eligible for membership in United Academics). One each should be selected from CLA and CSEM, one from CNRDM or CRA combined, and one from SFOS, ACE or Education combined. One of the above members should be recommended to serve as president of the Appeals Board.

This motion is an interim motion effective for one year.

EFFECTIVE: Immediately

RATIONALE: The United Academics will form an Appeals Board. The relation of the Senate with United Academics and of the Appeals and Oversight Committee with the Appeals Board has yet to be determined. By having some common members for the first year, the two appeals groups will be able to coordinate their activities and make recommendations concerning the future relationship.

Signed: John D. Craven, President, UAF Faculty Senate Date: 5/7/98

****

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to request that Peter Knoke and John Morack be recommended to United Academics to serve on the Labor Management Committee on Distance Learning and Technology.

This motion is an interim motion effective for one year.

EFFECTIVE: Immediately

RATIONALE: The Distance Learning and Technology Committee will be considering matters which are traditionally academic in nature and consequently of interest to the Senate. By having the Senate recommend members to serve on this committee, the Senate will be able to coordinate its actions with those of United Academics in this area. Further, the experience will help guide the long-term relationship of the Faculty Senate and United Academics on academic issues. The Distance Learning and Technology Committee is mandated to present an interim report by October 30, 1998.

Signed: John D. Craven, President, UAF Faculty Senate Date: 5/7/98

****

COMMUNICATION UNIT CRITERIA
STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN THE DEPARTMENT OF COMMUNICATION. ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO COMMUNICATION FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

I. PURVIEW

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies" (hereinafter referred to as UAF Faculty Policies), supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks. Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for UAF.

The University, through the UAF Faculty Senate, may wish to change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

II. INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment. Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles. Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline. Units wishing to appoint academic rank faculty within schools and colleges to titles must have the concurrence of the specific discipline in which the title resides.

C. Process for Appointment of Faculty with Academic Rank. Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's affirmative action policies and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank. Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the University's stated affirmative action policies and shall provide for participation in hiring by faculty and administrators in the unit. These procedures shall be on file in the Chancellor's Office.

E. Following the selection process, the dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the Chancellor or his/her designee.

F. Letter of Appointment. The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution, the part(s) defining the position may not. Subsequent letters of appointment may vary the work load distribution and nature of the assignment.

III. PERIODIC EVALUATION OF FACULTY

A. Criteria. As outlined in UAF Faculty Policies, Chapter IV.A.3. evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the

university and activity in the areas outlined above will be defined by activity and excellence in the following tripartite areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

B. Bipartite Faculty. Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

As defined in UAF Faculty Policy (IV.A.2.), only vocational/technical faculty and extension agents may hold bipartite rank. No other faculty may hold bipartite rank.

The determination of which of the criteria defined above will apply to these faculty shall be in accordance with institutional needs for the given position, will be coordinated by the dean of the appropriate school or college in consultation with the director, in cases of joint appointment, and with the program faculty.

While bipartite faculty may choose to engage in a tripartite function, they will not be required to do so as a condition for evaluation, promotion, or tenure.

C. Definitions of Criteria.

1. Effectiveness in Teaching.

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom or through distance delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting.

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics which define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design.

g. UTILIZE AND DEMONSTRATE THEIR KNOWLEDGE OF WHAT CONSTITUTES EFFECTIVE ORAL COMMUNICATION IN THEIR TEACHING METHODS.

h. DEMONSTRATE CONSISTENT ATTENTION TO STUDENTS IN THE ROLE OF AN ADVISOR REGARDING UAF AND DISCIPLINE RELATED MATTERS.

i. DEVELOP AND REVISE INSTRUCTIONAL MATERIALS FOR USE IN SUPPORT OF THEIR TEACHING.

j. ACTIVELY PARTICIPATE IN AND CONTRIBUTE TO THE WORK OF THE FACULTY OR THE DISCIPLINE IN CURRICULUM MATTERS.

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum materials, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings (required source of data).

and at least two of the following:

b. self-evaluation

c. peer/head classroom observation(s)

d. peer/head evaluation of course materials

2. Achievement in Research, Scholarly, and Creative Activity.

Inquiry and originality are central functions of a land grant/sea grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Whatever the contribution, research, scholarly or creative activities must have the following characteristics:

- They must occur in a public forum.

- They must be evaluated by appropriate peers.

- They must be evaluated by peers external to this institution so as to allow an objective judgment.

- They must be judged to make a contribution.

ACHIEVEMENT IN RESEARCH AND SCHOLARLY ACTIVITY INVOLVES:

1. IDENTIFYING AND EXPLORING NEW RESEARCH PROBLEMS IN THE DISCIPLINE, AND/OR CRITICALLY EXAMINING EXISTING RESEARCH PROBLEMS TO PROVIDE NEW INSIGHTS.

2. DEVELOPING NEW METHODS, THEORIES, OR APPROACHES TO RESEARCH PROBLEMS IN THE DISCIPLINE.

3. DEVELOPING AND MAINTAINING A FOCUSED PROGRAM OR PROGRAMS OF RESEARCH.

4. DEMONSTRATING GROWTH IN KNOWLEDGE OF THE DISCIPLINE, OR GROWTH IN EMPIRICAL AND/OR CRITICAL RESEARCH ABILITIES.

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. CHAPTERS IN EDITED BOOKS, books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Presentation of research papers before learned societies.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

I. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts; these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

1. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

3. Effectiveness of Service

The notion of public service is intrinsic to the land grant/sea grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as

"public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

a. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units; such service may occur on a periodic or limited-term basis.

EFFECTIVENESS IN PUBLIC SERVICE INVOLVES:

1. ACTIVELY PARTICIPATING ON AND CONTRIBUTING TO THE WORK OF PROFESSIONAL ORGANIZATIONS IN THE DISCIPLINE, AND/OR PUBLIC AND GOVERNMENTAL BODIES.

2. SUMMARIZING KNOWLEDGE IN THE DISCIPLINE FOR THOSE OUTSIDE UAF.

3. APPLYING THEORIES OR FINDINGS OF THE DISCIPLINE IN PUBLIC SERVICE.

Examples include, but are not limited to:

(1) Providing information services to adults or youth.

(2) Service on or to government or public committees.

(3) Service on accrediting bodies.

(4) Active participation in professional organizations.

(5) Active participation in discipline-oriented service organizations.

(6) Editing or refereeing articles or proposals for professional journals or organizations.

(7) Consulting.

Methods of delivering public service may include, but are not limited to:

(1) Leadership of or presentations at workshops, conferences, or public meetings.

(2) Training, facilitating, and consultative services.

(3) Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

(4) Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

b. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations.

EFFECTIVENESS IN UNIVERSITY SERVICE INVOLVES:

1. ACTIVELY PARTICIPATING ON AND CONTRIBUTING TO THE WORK OF COLLEGE, UAF, AND STATEWIDE COMMITTEES, PANELS, TASK FORCES, ETC.

2. EXHIBITING LEADERSHIP AND MANAGERIAL EFFECTIVENESS IN POSITIONS IN THE DEPARTMENT, COLLEGE, UNIVERSITY OF ALASKA FAIRBANKS, OR STATEWIDE.

Examples of such activity include, but are not limited to:

(1) Service on university, college, school, institute, or departmental committees or governing bodies.

(2) Consultative work in support of university functions, such as expert assistance for specific projects.

(3) Service as department head or similar part-time administrator.

(4) Participation in accreditation reviews.

(5) Service in support of student organizations and activities.

(6) Academic support services such as library and museum programs.

(7) Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

c. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements and performance evaluations. In formulating standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities appropriate for that unit, and measures for evaluation. Effectiveness of public service is "demonstrated by such things as: professionally related and publicly recognized service to constituencies external to the university, including public and private sector groups, governmental agencies, boards, commissions, committees, public interest groups, community groups, businesses, and urban and rural residents; successful design and implementation of technology-transfer programs to external constituencies; application of directed research to the needs of constituencies; recognition, awards and honors from constituent groups; and reputation among peer deliverers of public service. Effectiveness of university service is demonstrated by such things as work on university committees and task forces; participation in faculty governance; colleague assistance; administrative work, and work with students beyond formal teacher-student relationships.

****

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

RESOLUTION OF APPRECIATION

FOR

JOHN D. CRAVEN

WHEREAS, John Craven has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's greatest admiration and respect; and

WHEREAS, John Craven has served as Senator to the UAF Faculty Senate from 1993-1998; and

WHEREAS, John Craven has served as a member of the Graduate Council for 1993-95; and

WHEREAS, John Craven has served as a member of the Curricular Affairs Committee from 1995-96; and

WHEREAS, John Craven has served as President-Elect of the UAF Faculty Senate from 1996-1997; and

WHEREAS, John Craven has served as a member of the UAF Governance Coordinating Committee from 1996-98; and

WHEREAS, John Craven has served as a member of the UA Faculty Alliance of the UA Systemwide Governance Council from 1996-97, and as Spokesperson from 1997-1998; and

WHEREAS, John Craven has served as a member of the Provost's Ad Hoc Committee on Distance Delivery and Technology Enhanced Education from 1997-1998; and

WHEREAS, John Craven has served as a member of the Provost's Search Committee in 1998; and

WHEREAS, John Craven has served as a member of the Presidential Evaluation Committee of the Board of Regents in 1998; and

WHEREAS, John Craven has served as President of the UAF Faculty Senate from 1997-1998; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of John Craven as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of John Craven and expresses its appreciation for his exemplary service.

Signed: Madeline Schatz, President, UAF Faculty Senate

Dated: May 4, 1998

The UAF Faculty Senate passed the following at its Meeting #80 on May 4, 1998:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 1998. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 5, 1998

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

Signed: Madeline Schatz, President, UAF Faculty Senate Date: 5/5/98

The UAF Faculty Senate passed the following at its Meeting # 79 on
April 6, 1998:

MOTION PASSED (14 yes, 11 nays)
==========

The UAF Faculty Senate moves to prohibit tenured faculty, tenure track faculty, and research faculty hired after this motion becomes effective, or not currently enrolled in a graduate degree program, from receiving a graduate degree from UAF* WITHIN THE DISCIPLINE IN WHICH THEY TEACH.

EFFECTIVE: Immediately

RATIONALE: It is ethically questionable for faculty to confer graduate degrees upon themselves. Included are tenured, tenure track, and research faculty. Though research faculty are not tenured, they are equivalent to regular faculty in other ways: they are full-time, they are presumed to have graduate degrees or the equivalent before starting the job, and most importantly, they supervise graduate students and sometimes teach as affiliates to academic departments. Thus they are involved in the degree-granting process.

The motion is not intended to restrict faculty professional development derived from enrolling in courses to enhance one's performance in one's own field.

Tenured, tenure track, and research faculty already in graduate degree programs by the effective date of the motion, are grandfathered. For questionable cases, the affected individual should process his/her appeal through the Faculty Appeals and Oversight Committee of the UAF Faculty Senate.

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

Approved with modifications as indicated: Joan Wadlow, Chancellor Date: 5/3/98

****

The UAF Faculty Senate passed the following at its Meeting # 79 on
April 6, 1998:

RESOLUTION (unanimous)
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of President-Elect on the basis of the following ballot.

BALLOT
PRESIDENT-ELECT

Please vote for ONE individual to serve as the President-Elect of the UAF Faculty Senate for 1997-98.

** Ron Gatterdam, Professor

Computer Sciences & Mathematics

_____

** President-Elect

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

****

The UAF Faculty Senate passed the following at its Meeting # 79 on April 6, 1998:

MOTION
=======

The UAF Faculty Senate recommends the revisions of the proposed Regents' Policy and University Regulation 09.06.00--Services for Students with Disabilities as proposed by the Curricular Affairs Committee and to forward these recommendations to the Faculty Alliance

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

****

The committee considered the proposed policy and regulations for students with disabilities as submitted by the Board of Regents to the Faculty Alliance.

Chapter 06. Definitions

F. Student with a Disability. In the opinion of the committee, this section required either a cross-reference to the definitions in the regulations (Chapter 6, Provision of Appropriate Academic Adjustments ... A. Requesting Accommodation for Students...) or the definition in policy should state that documentation of disability status needs to be supplied.

Accommodation of Students with Disabilities.

Maynard Perkins questioned how this section of policy would apply to rural sites. The committee thought the language in the section (for example, implementation subject to resource limitations and the making of reasonable modifications and adjustments) would protect the university against exorbitant costs, but thought the language should be reviewed by university legal counsel

Provision of Appropriate Academic Adjustments...

Section B.2. The committee found the wording of this section inappropriate in a university that prizes cooperative and not adversarial approaches to the resolution of issues. It recommended substituting the following language:

"2. Suggesting appropriate academic adjustments and other programmatic accommodations for qualified students with disabilities in consultation with faculty and staff, in accordance

with Regents' Policy, University Regulation, MAU rules and procedures, and established faculty senate procedures, and working cooperatively with faculty and staff for their provision and coordination."

Section C. Responsibilities of Faculty and Staff in providing accommodations for students with disabilities. The committee thought this section was adversarial and instituted administrative directives to faculty and staff. It recommended these changes:

"Faculty and staff will work with the DSS coordinator to agree upon and provide appropriate academic adjustments and other programmatic accommodations. The university will make training available to faculty and staff regarding adequate accommodation for students with disabilities."

The committee recommended the deletion of the following paragraph (beginning "The dean or director of a program....) because it would be superfluous if a cooperative approach were instituted.

Comments on Regulations

Section A. Requesting Accommodations for students.

1. This paragraph has the same problems as the parallel policy language. The committee recommended substituting it with the following:

"If the student is eligible for services, the DSS coordinator or designee will work cooperatively with faculty and staff to design appropriate academic adjustments and other programmatic accommodations, with a copy to the student.

Section B. Implementation of Authorized Appropriate...

The committee proposed the deletion of this paragraph, which would be unnecessary if a cooperative approach were implemented. In the opinion of the committee, these issues required a joint effort of the DSS official and faculty/staff.

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

****

The UAF Faculty Senate passed the following at its Meeting # 79 on April 6, 1998:

MOTION
=======

The UAF Faculty Senate moves to assign academic credit for the special or reserve numbers (-91 through -99) to the faculty member(s) immediately and directly responsible for supervising the students or the courses.

EFFECTIVE: Immediately

RATIONALE: Student supervision is a time consuming instruction activity and is recognized in BOR policy and the United Academics contract, which requires a greater accountability for workload. Tracking the credit hours back to the faculty will help document actual workload. At present, some credit can be incorrectly assigned, for example, to a departments' graduate program coordinator.

It is often the case that more than one faculty member takes the lead role in directing a student. It is likely and desirable that the committee members will sort out an appropriate allocation of the credit hours; however, it is important to ensure that these allocations are not triggered by some mechanical algorithm that always assigns credit to the committee chair.

For reference, the current special or reserved numbers at UAF are as follows:

- -92 Seminar
- -93 Special Topics courses (intended to be offered only once)
- -94 Trial Courses
- -95 Special Topics Summer Session courses (offered only in the summer)
- -96 NICSA Course offerings
- -97 Individual Study
- -98 Individual Research
- -99 Thesis

These numbers are applicable at all levels, from 100 through 600. These courses may be repeated for credit.

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

Approved: Joan Wadlow, Chancellor Date: 4/23/98

****

The UAF Faculty Senate passed the following at its Meeting # 79 on
April 6, 1998:

MOTION
=======

The UAF Faculty Senate moves to endorse the following
membership on the Ad Hoc Committee on Unit Criteria.

Ron Gatterdam, Curricular Affairs
Ray Gavlak, Faculty & Scholarly Affairs
Michael Whalen, Graduate & Professional Curricular Affairs
Rich Seifert, Faculty Development, Assessment & Improvement
Kara Nance, Service Committee

EFFECTIVE: Immediately

RATIONALE: The UAF Faculty Senate has been informed by Executive Dean Ralph Gabrielli that the ACCFT "Guidelines for Promotion and Tenure Review Process for UAF ACCFT members (Unit Criteria) needs to be approved by the Senate in order to proceed with the review of the candidate up for tenure this year. (The Senate approved a one-time acceptance of the ACCFT review procedures at the last meeting.)

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

****

The UAF Faculty Senate passed the following at its Meeting # 79 on
April 6, 1998:

MOTION
=======

The UAF Faculty Senate moves to endorse the following membership
on the Ad Hoc Committee on Senate/Union Relations.

Ron Gatterdam, Curricular Affairs (Chair)
Ray Gavlak, Faculty & Scholarly Affairs
David Porter, Faculty Development, Assessment & Improvement
Ron Illingworth, ACCFT
John French, United Academics

EFFECTIVE: Immediately

RATIONALE: Senate bylaws specify that the Senate President may create and appoint members to any ad hoc committee necessary for conducting Senate business. Ad hoc committees are subject to later ratification by the Senate. This committee was formed in November and has met several times. With the ratification of the ACCFT and United Academics contracts this committee continues to serve a function for the Senate.

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

****

The UAF Faculty Senate passed the following at its Meeting # 79 on April 6, 1998:

MOTION
=======

The UAF Faculty Senate moves to accept the interim Standards and Indices for Promotion and Tenure to Associate Professor, bipartite academic, developed and approved by the ACCFT faculty of the College of Rural Alaska and incorporated on pages 9 & 11-13 of their document, Guidelines for Promotion and Tenure Review Process for University of Alaska Fairbanks Alaska Community College Federation of Teachers Bargaining Unit Members. These interim standards and indices will be for academic year 1997-98.

EFFECTIVE: Immediately

RATIONALE: ACCFT faculty have, for the last 6 years, had a regional review promotion and tenure process with standards and indices by which all ACCFT faculty at UAF were evaluated for promotion and tenure.

The standards and indices approved by the UAF CRA ACCFT faculty are identical to the currently existing standards and indices identified above.

The collective bargaining agreement between the University of Alaska and the ACCFT effective from July 1, 1997 to June 30, 2000 mandates in item 5.4.B that "The University and the Union agree that evaluation policies in which decisions are made within MAUs are desirable. New policies which reflect this goal will be generated through the normal governance structure and will be patterned on the current Regional Review Process."

In light of the newly agreed upon contract the University of Alaska and United Academics, it is recognized that a rewrite of the current University of Alaska Fairbanks Faculty Appointment and Evaluation Policies and Regulations for the Evaluation of Faculty will be necessary and that this rewrite should reflect the contract language binding on both unions and the University thus it is appropriate to establish interim standards and indices pending this rewrite.

Signed: John Craven, President, UAF Faculty Senate Date: 4/8/98

Approved: Joan Wadlow, Chancellor Date: 4/23/98

****

PROMOTION

MINIMUM CRITERIA

BIPARTITE ACADEMIC

The criteria listed below are intended as the minimum for determining eligibility for consideration for promotion. However, it is specifically recognized that University programs may require faculty whose education and/or experience may be different from the stated criteria. Exceptions to the minimum time in rank, terminal degree, or experience qualifications for rank must be fully justified through all review levels. The basis for exception shall be outstanding academic performance and/or outstanding professional experience.

Associate Professor	Meet criteria for initial appointment to associate professor or Master's degree in the discipline or appropriate field and Demonstrated evidence of successful college-level teaching and service and Five (5) years at the rank of assistant professor, or which three (3) must be at UAF.*

EVALUATION GUIDELINES
ASSOCIATE PROFESSOR STANDARDS AND INDICES

The key concept for promotion to Associate Professor is "successful," which means "resulted in a positive outcome." The candidate must demonstrate through the promotion file that each workload component meets this requirement.

STANDARD 1: (Teaching)

Provides leadership and guidance regarding curriculum issues and in the development, delivery, and evaluation of educational activity.

INDICES:

The following accomplishments are representative of "successful" performance of the above criteria. The list is not exhaustive, nor is it expected that faculty will accomplish all items. Rather, the quality and quantity of accomplishments is expected to increase with time in rank. The list is not a set of criteria nor is it exhaustive or weighted. The list is merely illustrative and should serve as a guide for faculty and faculty evaluators.

* Positive student evaluations.
* Colleagues recognize and seek out the expertise of this individual.
* Serves as a resource for other faculty in advising students.
* Demonstrates mature levels of critical thinking and contributes knowledge to the field.
* Demonstrates leadership in course and curriculum development activities.
* Serves as a role model in providing academic advising, educational planning, vocational/career counseling on an individual or group basis.
* Demonstrates leadership in designing and teaching/facilitating credit/non-credit workshops, seminars, and

short courses.
* Demonstrates leadership in designing and developing and/or evaluating materials to enhance the teaching process (i.e. planning sheets, degree formats, etc.).
* Provides guidance and direction designing and delivering educational services to special student populations (i.e. Alaska Native, disabled, re-entry, economically disadvantaged, etc.).
* Initiates course development appropriate to area of expertise and student need.

STANDARD 2: (Service)

Demonstrates leadership in service activities.

INDICES:

The following accomplishments are representative of "successful" performance of the above criterion. The list is not exhaustive, nor is it expected that faculty will accomplish all items. Rather, the quality and quantity of accomplishments is expected to increase with time in rank. The list is not a set of criteria nor is it exhaustive or weighted. The list is merely illustrative and should serve as a guide for faculty and faculty evaluators.

* Chairs or provides leadership on a Campus/College committee.
* Serves as Campus/College representative to a community or regional organization.
* Takes responsibility for development of junior faculty.
* Develops an area of service that makes a recognizable impact on one of the missions of the Campus/College.
* Carries out administrative responsibilities skillfully as documented by peers and supervisors.
* Provides leadership that generates a climate conducive to professional growth within the Campus/College.
* Serves on a major university committee.
* Serves as a University representative to a community, regional, or state organization.
* Actively participates in professional organizations.
* Campus/College representative to University committee.

STANDARD 3: (Research/Creative Activity)

Initiates, designs, executes, and reports original research/creative activity independently or in collaboration with others. Provides consultative assistance related to research/creative activity to faculty and/or other professionals. Expertise is recognized within the community, region, and state.

INDICES:

The following accomplishments are representative of "successful" performance of the above criteria. The list is not exhaustive, nor is it expected that faculty will accomplish all items. Rather, the quality and quantity of accomplishments is expected to increase with time in rank. The list is not a set of criteria nor is it exhaustive or weighted. The list is merely illustrative and should serve as a guide to faculty and faculty evaluators.

* Research/creative activity is published in refereed

journals or professionally recognized publications.

* Reports research/creative activities at regional and national meetings.
* Research projects or program evaluation projects are actively developed and implemented.
* Consultation on research is sought by faculty members.
* Authors chapter for book or entire book.
* Research proposals for external support are approved and/or funded.
* Non-research manuscripts are published as monographs, book sections, books, or articles.
* Reputation as an expert researcher is initiated.
* Serves as guest editor of a journal issue.

The UAF Faculty Senate passed the following at its Meeting #78 on March 9, 1998:

MOTION PASSED AS AMENDED
==========

The UAF Faculty Senate moves to approve the following new policy on academic probation which replaces the existing policy passed by the Fairbanks Academic Council on October 14, 1987.

****

PROBATION

An undergraduate degree status or full-time NON-DEGREE [[special]] student whose semester or cumulative GPA is less than 2.0 will be on probation until that situation changes. Probation reviews are done after both fall and spring semesters.

EFFECTIVE: May 10, 1998

RATIONALE: Current policy and practice provide for three levels of review for probation: for students on good standing whose semester or cumulative GPAs are less than 2.0; for students placed on probation at admission whose semester or cumulative GPA are less than 2.0; and for readmitted students continued on probation whose semester or cumulative GPAs are less than 2.0. This proposal simplifies the probation action, reducing three distinctions to one.

Signed: John Craven, President, UAF Faculty Senate Date: 3/10/98

Approved: Joan Wadlow, Chancellor Date: 3/13/98

****

The UAF Faculty Senate passed the following at its Meeting #78 on March 9, 1998:

MOTION PASSED
==========

The UAF Faculty Senate moves to approved the following new policy on Academic Disqualification which replaces the existing policy passed by the Fairbanks Academic Council on November 20, 1978.

****

ACADEMIC DISQUALIFICATION

Undergraduate students on probation whose semester and cumulative GPAs are less than 2.0 at the end of the spring semester may be disqualified from degree status. Disqualified students may continue

their enrollment at UAF only as non-degree students, limited to enrolling in nine credits per semester, until reinstated into an academic program.

EFFECTIVE: May 10, 1998

RATIONALE: Current UAF practice is to review students for academic disqualification at the end of both fall and spring semesters. Disqualifying students after the fall semester imposes undue hardships on those who have already returned to campus in the expectation that they will be able to continue in their degree programs. Moreover, because eligibility determinations for financial aid and athletic participation are made only at the end of the academic year, some students may be academically disqualified while remaining eligible for financial aid and athletic participation. The new policy language will make the academic disqualification time line consistent with that used for determining financial aid and athletic participation elibility.

Signed: John Craven, President, UAF Faculty Senate Date: 3/10/98

Approved: Joan Wadlow, Chancellor Date: 3/13/98

****

The UAF Faculty Senate passed the following at its Meeting #78 on March 9, 1998:

MOTION PASSED AS AMENDED
==========

The UAF Faculty Senate moves to adopt an interim promotion and tenure process IN ACADEMIC YEAR 1997-98 for ACCFT faculty associated with the UAF MAU. The specific steps (mirroring existing UAF policy & regulations) shall be:

1. Submission of materials by the faculty member.
2. Review of material by the campus director.
3. Review by a peer review committee.
4. Review by the CRA Executive Dean.
5. Review by the University-wide Promotion & Tenure Committee.
6. Review by the Chancellor's Office.

EFFECTIVE: Immediately

RATIONALE: For the last several years ACCFT faculty at UAF have utilized a Regional Review Process for promotion and tenure decisions which was modeled on the system in place at UAA. This process involved forwarding P&T packages to UAA for review by their University-wide P&T committee. This committee was augmented by representatives from UAF (ACCFT members). This UAA committee made recommendations for or against P&T and sent their recommendations to the UAF Chancellor.

The most recent ACCFT collective bargaining agreement states in item 5.4.B. that "The University and the Union agree that evaluation policies in which decisions are made within MAUs are desirable. New policies which reflect this goal will be generated through the normal governance structure and will be patterned on the current Regional Review Process (RRP). These policies will become effective when approved by the University and the Union. No changes will be made in UAA policy."

ACCFT faculty at UAF established an ad hoc P&T policy and procedures development committee. This committee developed Standards and Indices (Unit Criteria) which have been approved by CRA faculty and forwarded to the CRA Executive Dean, approved, and forwarded to the UAF Provost office in accordance with UAF Faculty Appointment and Evaluation Policies and Regulations for the Evaluation of Faculty.

Changes in the procedures from RRP to local review include establishment of a peer review committee within CRA, inclusion of the CRA Dean within the review process, and inclusion of the UAF University-wide P&T committee in the review process.

However, given the establishment of a new bargaining unit at UAF (United Academics), and given that UAF ACCFT faculty have existed under UAA policy for faculty appointment and evaluation for several years, we recommend that an interim process be approved to accommodate those UAF ACCFT faculty who wish to stand this year. Subsequently, the entire UAF Faculty Appointment and Evaluation Policies and Regulations for the Evaluation of Faculty will require revision to include UAF ACCFT faculty as well as the new United Academics contract language. This is a longer process but one which should be initiated soon.

Signed: John Craven, President, UAF Faculty Senate Date: 3/10/98

Approved: Joan Wadlow, Chancellor Date: 3/13/98

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION
=======

The UAF Faculty Senate moves to approve the Certificate program in Microcomputer Support Specialist.

EFFECTIVE: Upon Board of Regents' Approval

RATIONALE: See full program proposal #28 on file in the Governance Office, 312 Signers¹ Hall.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

Approved: Joan Wadlow, Chancellor Date: 3/2/98

****

Executive Summary
Certificate, Microcomputer Support Specialist
33 credits

As computers become indispensable in our daily lives, agencies and businesses are discovering that providing ongoing support for computer users is an absolute necessity. The critical need for well-trained professionals with the requisite technical computer knowledge and people support skills is becoming every more apparent. Thus, the objective of this Certificate program is to provide the essential elements of both technical knowledge and interpersonal skills for a new cadre of microcomputer support specialists who can fill permanent staff positions, like the new State of Alaska Microcomputer/Network Technician I and II, or develop private microcomputer support enterprises throughout Alaska.

As one of the programs approved last year for funding through the President's Reallocation Fund, this program meets the criteria for being collaborative statewide, focused on vocational/technical training, and utilizing alternative modes of delivery. The group of faculty and staff who compose the committee making this project proposal come from all three MAUs. Microcomputer support represents an area of vocational/technical expertise that is increasingly desired and needed within the state but which is not currently satisfied by any University of Alaska program. And, there is a direct relationship between the requirements of the courses and the expected skills and knowledge the student will need on the job; the program will be competency based, individualized, and available at a distance through a variety of delivery modes.

The program staff developed a questionnaire regarding microcomputer classes that was sent to 1247 people in state government, educational institutions, libraries, military bases, private corporations and businesses including Native corporations: 257 responses were received for a response rate of 21%. About 78%

of the respondents indicated there was a need for a program leading to a certificate as a microcomputer support specialist, and 84% said it would be helpful to have a person trained in this area working for their organization; 58% said, if they were in a position to hire staff, they would seek to hire someone with such a certificate. Finally 56% said they themselves would be interested in obtaining a microcomputer specialist certificate.

A great number of students have already inquired about this program, having heard by word of mouth, apparently, of its imminent availability. Extended campus directors, faculty in this area, and others have told us that many potential students are waiting to enroll. Therefore, it is anticipated that a sufficient number of students will enroll in the program. In fact, the opposite problem of having too many students too quickly may materialize.

Students will be required, at minimum, to complete a 9 credit core to earn the Certificate. If they have prior experience and/or can demonstrate their competencies in the required subject area, all the remaining credits may be waived; however, many will need to take all 33 credits of course work. Courses are being redesigned for distance delivery during the Fall 1997 and Spring 1998 semesters; and equivalencies across all three MAUs have been determined. The Certificate will not be available for matriculation until all approvals have been achieved hopefully by the Fall 1998 semester.

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION
=======

The UAF Faculty Senate moves to approve the A.A.S. in Microcomputer Support Specialist.

EFFECTIVE: Upon Board of Regents' Approval

RATIONALE: See full program proposal #29 on file in the Governance Office, 312 Signers¹ Hall.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

Approved: Joan Wadlow, Chancellor Date: 3/2/98

****

Executive Summary
A.A.S., Microcomputer Support Specialist
60 credits

As computers become indispensable in our daily lives, agencies and businesses are discovering that providing ongoing support for computer users is an absolute necessity. The critical need for well-trained professionals with the requisite technical computer knowledge and people support skills is becoming every more apparent. Thus, the objective of this A.A.S. program is to build on the Certificate for Microcomputer Support Specialist and provide additional skill development in the major area as well as associate level general education requirements. Completion of this A.A.S.

degree is not a preparation for a computer science baccalaureate degree.

As one of the programs approved last year for funding through the President's Reallocation Fund, this program meets the criteria for being collaborative statewide, focused on vocational/technical training, and utilizing alternative modes of delivery. The group of faculty and staff who compose the committee making this project proposal come from all three MAUs. Microcomputer support represents an area of vocational/technical expertise that is increasingly desired and needed within the state but which is not currently satisfied by any University of Alaska program. And, there is a direct relationship between the requirements of the courses and the expected skills and knowledge the student will need on the job; the program will be competency based, individualized, and available at a distance through a variety of delivery modes.

The program staff developed a questionnaire regarding microcomputer classes that was sent to 1247 people in state government, educational institutions, libraries, military bases, private corporations and businesses including Native corporations: 257 responses were received for a response rate of 21%. About 78% of the respondents indicated there was a need for a program leading to a certificate as a microcomputer support specialist, and 84% said it would be helpful to have a person trained in this area working for their organization; 58% said, if they were in a position to hire staff, they would seek to hire someone with such a certificate. Finally 56% said they themselves would be interested in obtaining a microcomputer specialist certificate.

A great number of students have already inquired about this program, having heard by word of mouth, apparently, of its imminent availability. Extended campus directors, faculty in this area, and others have told us that many potential students are waiting to enroll. Therefore, it is anticipated that a sufficient number of students will enroll in the program. In fact, the opposite problem of having too many students too quickly may materialize.

The A.A.S. will require general education and computer courses beyond the Certificate to total 60 credits. Courses are currently being redesigned for distance delivery during the Fall 1997 and Spring 1998 semesters; and equivalencies across all three MAUs have been determined. The A.A.S. degree will not be available for matriculation until all approvals have been achieved hopefully by the Fall 1998 semester.

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION
=======

The UAF Faculty Senate moves to approve the Ph.D. program in Marine Biology.

EFFECTIVE: Upon Board of Regents¹ Approval

RATIONALE: See full program proposal #44 on file in the Governance Office, 312 Signers¹ Hall.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

Approved: Joan Wadlow, Chancellor Date: 3/3/98

****

Executive Summary
Ph.D. Degree Program in Marine Biology

We propose a Ph.D. degree program in Marine Biology, to be housed within the Graduate Program in Marine Sciences and Limnology (GPMSL) and the School of Fisheries and Ocean Sciences (SFOS). Our goals are to attract students with excellent qualifications; offer them unique opportunities to conduct research in the Arctic, Bering Sea, and Gulf of Alaska regions; help them to develop expertise in research through courses and mentorship; facilitate their authorship of important contributions to Marine Biology, increase SFOS capability to address significant problems of Alaska's marine life; and educate professionals who are especially well-qualified to address these problems. The Strategic Plan: UAF 2000 states that the university should "become the world's leader in arctic research and graduate education." Assuming that this will remain an important UAF goal into the next century, a new Marine Biology Ph.D. program will contribute by attracting outstanding students, who will conduct high-quality research in the Arctic and elsewhere.

The doctoral degree program will educate students using both course work and a research-based thesis. The program is flexibly designed and modeled after the successful GPMSL doctoral program in Oceanography. Like all biological fields, Marine Biology requires collaborative research in many different areas in order to understand the demands placed upon the organism and how it has adapted to the environment. It can include studies in modern methods of molecular biology as well as classical methods of physiology or genetics. Courses offered by the other UAF graduate programs, in addition to a wide range of courses within SFOS, will enable Marine Biology Ph.D. students to attain both breadth and depth of knowledge. The opportunities for collaboration with researchers in Oceanography and Fisheries within SFOS, and with faculty from the Biology and Wildlife Department, the Department of Chemistry and Biochemistry, and other UAF departments and institutes will be especially valuable to Marine Biology students.

The strong, extramurally-funded Marine Biology research programs of GPMSL faculty are crucial to the success of the Marine Biology Ph.D. program. SFOS has several outstanding research facilities for marine biological research which provide opportunities to conduct research at a wide range of sites along Alaska's coastline. These include the Seward Marine Center; the Kasitsna Bay Laboratory, located near Seldovia; the Juneau Center for Fisheries and Ocean Sciences; and the Fisheries Industrial Technology Center in Kodiak. Marine Biology Ph.D. students will also have the opportunity to use the Seward SeaLife Center, which is being built by a private foundation and will open in the Spring of 1998. The SeaLife center will have state-of-the-art research facilities for captive studies of marine mammals and sea birds and will also support field research in the nearby fjords.

Five students transferred to the Interdisciplinary Studies Ph.D. program in 1995 to pursue studies in Marine Biology, with major advisors and a "home base" in GPMSL. Four of these students have completed the program and moved on to professional positions; one is still in progress. Four additional students, now enrolled in either Oceanography, have expressed interest in transferring to the Marine Biology Ph.D. program if it becomes available. SFOS and GPMSL have the faculty, the courses, the facilities, and the experience to offer

an excellent Ph.D. program in Marine Biology without additional cost to the university.

****

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION
=======

The UAF Faculty Senate moves to approve the following policy on Stacked and Cross-listed courses to be included in the UAF Catalog under the Course Numbers section of the Course Descriptions (p. 133 of current UAF Catalog) and to amend the 600-699--Graduate courses paragraph as follows:

"A few well-qualified undergraduates may be admitted to graduate courses with APPROVAL OF THE INSTRUCTOR. [[the permission of the head of the department in which the course is offered. Admission to graduate courses cross-listed with undergraduate courses requires graduate standing or permission of the instructor.]] A STUDENT MAY NOT APPLY SUCH A COURSE TO BOTH A BACCALAUREATE AND A GRADUATE DEGREE."

****

Stacked and Cross-listed Courses

The same course is sometimes offered by more than one discipline. Such offerings are referred to as "cross-listed" courses and are designated in the class listings by "cross-listed with _____".

Courses are also sometimes offered simultaneously at different levels (100/200 or 400/600, for example) with higher level credit requiring additional effort and possibly higher order prerequisites from the student. Such courses are referred to as "Stacked" courses and are designated in the class listings by "Stacked with _____". In the case of 400/600 level stacked courses, graduate standing or permission of the instructor is required for graduate enrollment and a higher level of effort and performance is required on the part of students earning graduate credit.

Courses simultaneously stacked and cross-listed will be designated in the class listing as "stacked with _____ and cross-listed with _____".

In all cases, the course syllabus (not the catalog) must stipulate the course content and requirements for each level and/or discipline. The catalog should indicate if there is a difference in content.

****

Note: this proposal extends, modifies and partially rescinds Senate policy concerning double listing of 400/600 courses enacted on Feb. 14, 1994 during Meeting # 47.

EFFECTIVE: Immediately

RATIONALE: As more departments add 400/600 courses, a clearer catalog description of this method of combining offerings is needed, as is a better way of designating them than the "same as ____" used in the current UAF

catalog. Similar comments pertain to other stacked offerings. Students need to understand the nature of these courses and the difference between levels of credit deriving from them.

This proposal will eliminate the prohibition against undergraduates (or anyone else not already enrolled in a graduate program) taking 400/600 courses for graduate credit which is embodied in policy enacted by the Senate in meeting #47. There seems to be little logic in treating these graduate offerings differently from all others and it is often desirable to encourage exceptionally well-qualified undergraduates to expand their horizons by taking graduate courses.

It should be noted that the additional effort required for higher level credit must be clearly spelled out in the course syllabus. This reduces the opportunity for later conflicts by providing students with a clear understanding of the differences in requirements and grading. This will be given serious consideration in the approval process for such courses.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

Approved: Joan Wadlow, Chancellor Date: 3/3/98

****

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION PASSED (AS AMENDED)
=======

The UAF Faculty Senate has reviewed the draft course definitions submitted by the UA Faculty Alliance and moves to make the following recommendations:

CAPS = Insertion
[[ ]] = Deletion

DRAFT

A. Course Numbering System

Each course offered by the University is identified by the department designator and a three-digit course number. The designator commonly abbreviates the name of a discipline or department (for example, ENGL for English). In general, the first numeral of the three-digit course number indicates the course level and the year in which the course is ordinarily taken. For example, ENGL 111 is a 100-level course and is ordinarily taken by first-year (freshman) students, and ENGL 318 is a 300-level course taken by third-year (junior) students.

B. Course Level Expectations

Students are expected to demonstrate learning skills commensurate with the appropriate course level, and are expected to meet, prior to

registering, prerequisites for all courses as listed with the course descriptions. Prerequisites indicate the preparation and/or background necessary to undertake academic study. If a student has not taken and passed the necessary prerequisites, but feels confident of performing the course work, the student may request permission from the instructor of the course to enroll in the class. An instructor withdrawal may be initiated for those students who enroll without either prerequisites oR[[f]] instructor permission. Courses numbered 001-049 are career development courses intended to fulfill special needs of students or the community and are not designed as preparation for 100-level college work. They are offered for Continuing Education Units (CEU) or for non-credit. Courses numbered 050-099 usually cover basic or developmental material and are intended to help prepare students to enter 100-level college courses. They are applicable to some vocational certificates. The 100-level courses generally require learning basic concepts. The 200-, [[level]] 300-, and 400-level courses require increasing sophistication in the ability to extract, summarize, evaluate, and apply relevant class material. The 500-level courses are specifically designed for professional development at the post-baccalaureate level, while the 600-level courses for advanced degrees demand rigorous analysis, synthesis, and research skills.

C. Non-degree and Preparatory Courses

001-049: Career development or community interest courses.

Courses are intended to fulfill special needs of students or the community and are not designed as preparation for 100-level college work. Career development courses are offered for Continuing Education Units (CEU). One CEU is granted for satisfactory completion of 10 contact hours of classroom instruction or for 20 contact hours of laboratory or clinical instruction. Community interest courses ARE not offered for credit. THEY ARE not applicable to any degree requirements (even by petition)

050-099. Remedial or Preparatory Courses.

Courses applicable to some vocational certificates but not to any associate degrees, baccalaureate degrees, master's degrees, or professional certificates. These are developmental courses that provide supplemental preparation for introductory college courses.

D. Academic Credit Courses

Lower Division Courses

100-199: Freshman-level courses.

These courses are applicable to ALL certificates, associate, and baccalaureate degrees. They introduce a field of knowledge and/or develop basic skills. These are usually foundation or survey courses.

200-299: Sophomore-level courses.

These courses are applicable to ALL certificates, associate, and baccalaureate degrees. They provide more depth than 100-level courses and/or build upon 100-level courses. These courses may connect foundation or survey courses with advanced work in a given field, require previous college experience, or develop advanced skills.

Upper Division Courses

As a general guideline upper division courses require at least junior standing or equivalent experience in addition to any stated prerequisites. The student is expected to have adequate preparations and background to complete courses at this level. [[Freshman and sophomore students are required to obtain special permission to take any upper division courses.]] Upper-division courses may not be used as prerequisites for lowER-division courses.

300-399: Junior-level courses.

These courses are applicable to [[associate and]] baccalaureate degrees, and may BE APPLICABLE TO SOME ASSOCIATE DEGREES. THEY MAY also be applied to graduation requirements for some master's degrees with prior approval of the student's Graduate Study Committee. They may not be applied to both a baccalaureate and a master's degree. These courses build upon previous course work and require familiarity with the concepts, methods and vocabulary of the discipline.

400-499: Senior-level courses.

These courses are applicable to the baccalaureate degree and may be applicable to some associates degrees. They may also be applied to graduation requirements for some master's degrees with prior approval of the student's Graduate Study Committee. They may not be applied to both a baccalaureate and a master's degree. These courses require the ability to analyze, synthesize, compare and contrast, research, create, innovate, develop, elaborate, transform, and/or apply course material to solving complex problems. These courses [[are]] generally [[supported by]] REQUIRE a substantial [[body of]] BACKGROUND OF STUDY IN lower-level courses.

600-699: Graduate-level courses.

These courses are for post-baccalaureate study towards advanced degrees with approval of the student's Graduate Study Committee. A few well qualified undergraduates may be admitted to graduate courses with APPROVAL OF THE INSTRUCTOR. [[appropriate approval in the department in which the course is offered. Admission to graduate courses cross-listed with undergraduate courses requires graduate standing or permission of the instructor.]] THESE COURSES MAY BE USED TO MEET GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREES UPON APPROVAL OF THE DEPARTMENT IN WHICH THE COURSE IS OFFERED. A STUDENT MAY NOT APPLY SUCH A COURSE [[These courses may not be applied]] to both a baccalaureate and a graduate degree.

D. Professional Development Courses.

500-599: Professional development courses.

These courses are intended as post-baccalaureate education for various professional groups who desire to continue their education at a level distinct from graduate-level education. Courses are neither graduate nor undergraduate in nature. [[They are not applicable to any grading system.]] These 500-level courses shall not be stacked with any credit courses numbered 050-499 or 600-699. NO [[The]] 500-level (special topics and independent study) courses shall [[not]] apply toward any UNIVERSITY degree,

UNIVERSITY certification or UNIVERSITY credential program, and are not interchangeable with 600-level courses for graduate degree programs. Courses may be graded Pass/No Pass or, if the course includes an evaluation component, by letter grading. The measurement of student effort is indicated by professional development credits. One credit requires at least 12.5 classroom contact hours, two credits at least 25 classroom contact hours, three credits at least 37.5 classroom contact hours, etc. These courses will be provided on a self-support basis.

EFFECTIVE: Immediately

RATIONALE: Curricular Affairs and the Graduate & Professional Curricular Affairs reviewed the entire text of the motion and made several recommendations, by section.

Upper division courses--The committee recommended that the third sentence be deleted. In the opinion of the committee, this language is unduly restrictive of student choice, as currently UAF lower-division students do take upper division courses without "special" permission.

300-399: Junior-level courses.--The committee recommended that the phrase marked for deletion (also be applied to graduation requirements for some master's degrees with prior approval of the student's Graduate Study Committee) be retained. This should be reinstated in the text and transformed into a sentence: "They may also be applied to graduation requirements....." The reasoning of the committee was that under current UAF policy, graduate students are allowed to apply a junior-level course to degree requirements, with the approval of their committee.

400-499: Senior-level courses.--The committee recommended the retention of the phrase marked deletion: (and may be applicable to some associates degrees). The committee also found this proposal to be unusually restrictive. Under current UAF policy, students may use senior-level courses to meet associate degree requirements.

500-599: Professional development courses.--The committee recommended the deletion of the third sentence. In the opinion of the committee, this statement is unnecessary. The committee also recommended changes to the fifth sentence. The argument for this change was to improve clarity.

600-699: Graduate-level courses.--Change suggested by the UAF Graduate and Professional Curricular Affairs Committee.

The prohibition on courses being used for both baccalaureate and advanced degrees is not to be applied to courses listed in a catalog as repeatable.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

****

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION
=======

The UAF Faculty Senate moves to modify the date of Freshman Low Grade notification to the 6th Friday following the first day of classes.

EFFECTIVE: Fall 1998

RATIONALE: The present policy, which provides for reporting of low grades at the end of the 4th week of classes, was set to coincide with the last day to withdraw. At that time, the deadline for freshman withdrawals was the end of the 6th week of classes. In an action during the 1996-97 academic year, however, the senate changed the withdrawal deadline to the 9th Friday after classes begin, without changing the date for freshman low grade notification.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

Approved: Joan Wadlow, Chancellor Date: 3/2/98

****

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

RESOLUTION IN SUPPORT OF UNITED ACADEMICS ONGOING NEGOTIATIONS
1/22/98

Whereas United Academics is a democratic organization founded to protect the professional integrity of the faculty;

Whereas United Academics is an organization with a profound interest in maintaining effective faculty governance throughout the University system;

Whereas United Academics and the UAF Faculty Senate both strongly support academic freedom;

Whereas both the UAF Faculty Senate and United Academics are democratically run organizations acting on behalf of the faculty for complementary interests;

Whereas United Academics takes an active part in constructively critiquing and advising the administration of the University of Alaska on a wide variety of matters of interest to faculty members;

Whereas United Academics seeks to support student and staff constituencies in matters of mutual interest;

Whereas both United Academics and the UAF Faculty Senate share an intense interest in current and future funding of the University, the consequences to academic programs of that funding, and the application of those resources to the living and working conditions of the faculty and their families;

Whereas both United Academics and the UAF Faculty Senate

recognize the critical central role of faculty governance in assuring academic quality;

Whereas the issue of declining faculty morale is of great concern to both United Academics and the UAF Faculty Senate;

Whereas there is an emerging and highly successful working relationship between United Academics and the UAF Faculty Senate in areas of mutual concern;

Whereas United Academics has been engaged for well over a year in a good faith effort to negotiate contract with the administration of the University of Alaska;

Therefore be it resolved that the UAF Faculty Senate shares the United Academics position protecting the faculty's rights and responsibilities in curricular review, assurance of the quality of academic programs, and granting of degrees at the University;

Furthermore be it resolved that the UAF Faculty Senate supports the efforts of United Academics to successfully negotiate a fair, equitable, and timely collective bargaining agreement with the administration of the University of Alaska.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

****

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION
=======

The UAF Faculty Senate moves that drafting of the UAF academic calendar be the responsibility of the Senate's administrative committee, based upon information supplied by the Office of the Registrar. The draft calendar would then be approved by the UAF Faculty Senate, the UAF Staff Council, and ASUAF, with the UAF Coordinating Committee responsible for coordinating the three reviews and submitting the completed calendar to the chancellor. The final draft submitted to the Chancellor cannot violate relevant UAF rules regarding the number of days instruction and related rules unless the UAF Faculty Senate provides a needed one-time dispensation required by extraordinary circumstances.

EFFECTIVE: Immediately

RATIONALE: The UAF Governance Coordinating Committee has failed to abide by certain UAF rules regarding the calendar or to ask the Senate for revisions to the rules. Neither has it submitted its drafts to the three governance groups for their concurrence. Recent policies by the Board of Regents have made it increasingly difficulty to maintain our high level of student contact hours and still satisfy the Regents' demand that we specify the exact day being added to the calendar to make up for the loss of instruction on Civil Rights Day.

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

Approved*: Joan Wadlow, Chancellor Date: 3/16/98

*With understanding that Senate motion does not put UAF at variance with BOR policy/action(s).

****

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION
=======

The UAF Faculty Senate moves to approve the proposed amendments to the Faculty Alliance Constitution.

EFFECTIVE: Immediately

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

****

(( )) = deletions
CAPS = additions

University of Alaska
FACULTY ALLIANCE

Constitution
Proposed Revisions

ARTICLE I. INTENT

It is the intent of the Board of Regents: 1) that the faculty shall share in the governance of the university, 2) that shared governance is an integral part of the business of the university, and 3) that participators in shared governance are empowered by the Board of Regents to carry out their governance responsibilities to the best of their abilities without interference or fear of reprisal.

ARTICLE II. NAME

The Board of Regents hereby establishes a mechanism for faculty system governance consisting of an Alliance, hereinafter "Alliance."

ARTICLE III. AUTHORITY, PURPOSES AND RESPONSIBILITIES

A. Authority

The Alliance receives its authority by policy 03.01.01 of the University of Alaska Board of Regents which derives its authority from the Constitution and statutes of the State of Alaska. The Alliance shall carry out its functions subject to the authority of the Board of Regents and the President of the University.

B. Purposes

1. Representation

To provide official representation for the faculty of the University of Alaska in matters which affect the general welfare of the University and its educational purposes and effectiveness.

2. Consultation

To provide consultation to the President of the University and the Board of Regents ((on academic matters and faculty welfare issues)).

3. Communication

To serve as an instrument by which information which is of interest and concern to the university system faculty may be freely collected, disseminated, coordinated, and discussed.

C. Responsibilities

The Alliance recognizes the faculty of the individual academic major administrative units as having the primary responsibility and authority for recommending the establishment of degree requirements; implementing the degree requirements; establishing the curriculum, the subject matter and methods for instruction; determining when established degree requirements are met; and recommending to the President of the Board of Regents the granting of degrees thus achieved. The Alliance shall have AN advisory and coordinating role in academic affairs; no action of the Alliance shall abridge individual academic major administrative unit's authority in academic matters OR BARGAINING UNIT AUTHORITY REGARDING SUBJECTS OF MANDATORY COLLECTIVE BARGAINING.

When issues have statewide impact, the responsibilities of the Alliance may include, but are not limited to: 1) coordination on matters relating to academic affairs such as academic program review; the addition, deletion or merging of academic programs; curriculum; subject matter and methods of instruction, those aspects of student life relating to the educational process such as degree requirements, grading policy, course coordination and transfer, student probation and suspension, standards of admission and scholastic standards; and faculty welfare issues, including, but not limited to compensation, benefits, appointments, reappointments and termination, workload, promotions, the granting of tenure, dismissal, ethics, and 2) other matters relating to the general welfare of the university, its educational purposes and effectiveness.

Representatives shall promote maximum dissemination of information to the local faculty senates and before voting in the Alliance.

ARTICLE IV. MEMBERSHIP AND ORGANIZATION

A. Membership

The membership of the Alliance shall consist of three faculty each from the University of Alaska Anchorage, University of Alaska Fairbanks and University of Alaska Southeast.

If issues require special knowledge, one or more of the three

votes from each campus may be designated to alternate faculty members.

B. Selection

Representatives to the Alliance shall be selected in such a manner as prescribed by the UAA Faculty Senate, the UAF Faculty Senate and the UAS Faculty Council, hereinafter "local faculty governance groups".

C. Term of service

The term of service shall be one year.

D. Recall of members

Any member may be recalled by the local faculty governance group by which the member was chosen. The method of recall shall be determined by the local faculty governance group. That local faculty governance group shall select a replacement to complete the term of office.

E. Official Spokesperson

1. Election

The official spokesperson of the Alliance is the Alliance Chair. The Chair shall be elected by and from the voting membership by a majority vote, with at least one vote from each MAU required.

2. Duties

The Alliance Chair shall a) preside over all meetings of the Alliance and b) represent the Alliance, except that the Chair is required to present majority and minority opinions regardless of personal opinion. The chair may delegate these duties to another Alliance member.

F. Task Forces

The Alliance may establish task forces independently or in response to requests of the Board of Regents or the President of the University to consider complex system wide issues relating primarily to academic matters or faculty welfare issues.

Issues and suggestions of the task force, from whatever source, shall be referred to local faculty senates and council before action occurs at the Alliance level.

ARTICLE V. MEETINGS

A. Regular and special meetings

The Alliance shall have ((four)) A MINIMUM OF EIGHT regular meetings during the academic year. At least once per semester, the Alliance shall meet with the President of the University to identify system issues and plan for the coming year. Special Alliance meetings may be called by the Board of Regents, the President of the University, the Chair of the Alliance, or on petition of one-third of the membership of the Alliance.

B. Voting

Voting shall be by simple majority of the full voting membership to include at least one member from each MAU, except for amendments to the Alliance constitution or bylaws. Amendments to membership rights require a unanimous vote.

Representatives may defer voting pending action by local faculty senates and council on the issue.

ARTICLE VI. QUORUM

A minimum of a simple majority of the voting membership to include at least one member from each MAU shall constitute a quorum.

ARTICLE VII. PARLIAMENTARY AUTHORITY

The parliamentary authority shall be the latest edition of Robert's Rules of Order.

ARTICLE VIII. CONSTITUTIONS AND BYLAWS, AMENDMENTS, APPROVAL

A. Constitutions and bylaws

The constitution and bylaws, once passed by the Alliance, shall be transmitted to the President of the University for approval and to the Board of Regents for action. Copies of the Alliance constitution and bylaws shall be maintained in the system governance office.

B. Amendments; distribution prior to voting

Amendments to the constitution and bylaws shall be sent to Alliance members and to the local faculty senates and council at least 30 days prior to the Alliance meeting at which they will be considered. Amendments to the constitution require seven Alliance member votes.

ARTICLE IX. REVIEW AND TRANSMITTAL OF PROPOSALS

A. Review

Submission of administrative proposals and issues affecting the statewide university system faculty shall be in accordance with University Regulation 03.01.01. Those administrative proposals submitted in the summer months shall be acted upon by the local faculty senates and council, and the Alliance by October 15. Proposals relating to faculty requiring immediate implementation for compliance with state or federal law shall be submitted to the Faculty Alliance for review, and may be implemented prior to Alliance action but do not represent official action until the local senates and council are involved in the actions.

B. Transmittal to the President

The system governance executive officer shall submit the original proposal in writing, together with faculty governance input, including majority and minority viewpoints, to the President of the University for information or action.

C. Transmittal to the Board of Regents

The Chair of the Alliance shall present Alliance views. The Chair shall present the minority viewpoint to the Board of Regents if requested by the minority in writing to the Chair before the meeting.

ARTICLE X. ACTIONS OF THE PRESIDENT AND BOARD OF REGENTS

A. Action by the President

The President of the University shall, in writing, approve, disapprove, or modify an Alliance action, and notify the Chair and the system governance executive officer within forty-five (45) days of receiving notification of the action by the system governance executive officer.

B. Modifications by the President

The President of the University may modify an Alliance action if the modification does not effectively contravene or nullify the purpose or principle involved in the action.

C. Disapproval's

The President of the University shall inform the Alliance of the reasons for any disapproval or modification within one month of disapproving or modifying an Alliance action.

D. Board of Regents notification and action

Alliance actions which are modified or disapproved by the President of the University, together with the statement of reasons, shall be placed on the next Board of Regents' meeting agenda for the information of the Board if requested by the Alliance. At the request of either the President of the University or the Alliance, the Alliance action which has been modified or disapproved shall be brought before the Board for action. The decision of the Board of Regents is final.

ARTICLE XI. HANDBOOK

The Alliance shall annually submit a directory of Alliance members, a description of the Alliance and how it works, and the annual Alliance calendar to the system governance executive officer for inclusion in the governance handbook. This handbook shall be distributed to the Board of Regents and to the shared governance groups.

ARTICLE XII. REPORTS

The Alliance shall ((annually)) prepare ((a)) reportS of activities TO THE BOARD OF REGENTS PRIOR TO EACH MEETING OF THE BOARD OF REGENTS. ((This)) THESE reportS shall be submitted to the system governance executive officer for compilation into ((a)) single ((annual)) reportS of governance activities for submission to the President of the University and the Board of Regents. The system governance executive officer shall maintain Alliance ELECTRONIC communications ((via vax, the vax bulletin board)) and prepare system governance news for inclusion in ((vax)) ELECTRONIC and printed newsletters.

****

The UAF Faculty Senate passed the following at its Meeting #77 on February 9, 1998:

MOTION:
=======

The UAF Faculty Senate moves to affirm the Faculty Alliance motion passed on January 22. It is imperative that there be faculty representation on a systemwide Presidential search committee.

EFFECTIVE: Immediately

Signed: John D. Craven, President, UAF Faculty Senate Date: 2/11/98

****

MOTION:
=======

"The Faculty Alliance of the University of Alaska, by unanimous vote, expresses its astonishment and deep regret that the University of Alaska's Board of Regents intent to proceed on its own to screen, interview, and select the University's next president while offering only token participation to the University's faculty. Should this decision stand in the form implied by the Board's motion of 14 January, 1998, it will do harm to the morale of the academic institution, demean its reputation, and make more difficult the work of the new president of the Regents' institution as he or she struggles to gain the respect of its faculty and become president of the University of Alaska. These are not the attributes of leadership we expect of the Board of Regents and the procedure would call into question the academic standards of any person who would accept the position as president. We urge you to consider that a successful search cannot be defined merely by the attributes of the individual who accepts the position. Of at least as great relevance to a successful search is a process that unites the university community in a common purpose, resulting in a president with broad- based support among the various university constituencies. In the end, a successful search is one in which the process ultimately forges a stronger and more resilient institution. In the end, a successful search is one in which the process is fully integrated with the principles of shared governance. This action is effective January 22, 1998."

Rationale:

A. It is the general practice of most colleges and universities to form presidential search committees out of representatives from their diverse constituent groups: faculty, staff, administrators, students, community representatives, and members of the board. The president of our University will be working with all of these groups and their collective assessment should be allowed to narrow the pool of candidates to those whom all or most of these groups could work with comfortably and profitably in the years to come.

Further, most prospective candidates expect to deal with search committees of this type. What message is sent to the candidates when the Board is its own search committee? (1) It does not trust or respect the judgment of its own personnel.

(2) It and it alone will be making many of the decisions which this person will be executing. (3) It will be micro-managing the operations of the University.

B. The Board may find that its search procedure discourages and alienates able candidates, who are looking for a cooperative and supportive environment. This is especially true when they will be faced with the fiscal and organizational challenges of this university.

C. Finally, this action of the Board harms the morale of the University's faculty. To be excluded in this way from the presidential search speaks eloquently to the University community of the Board's evaluation of faculty. The Board's action says they, not we, are the university. It is the Board's vision, not our shared vision that will determine the University's shape in the years to come.

The UAF Faculty Senate passed the following at its Meeting #76 on December 8, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to refer the motion to approve the Certificate program in Microcomputer Support Specialist to the Curricular Affairs Committee for review.

EFFECTIVE: Immediately

Signed: John D. Craven, President, UAF Faculty Senate Date: 12/15/97

Signed: John D. Craven, President, UAF Faculty Senate Date: 12/15/97

****

The UAF Faculty Senate passed the following at its Meeting #76 on December 8, 1997:

MOTION PASSED
==========

The UAF Faculty Senate encourages individual departments to design their own criteria where appropriate to evaluate the work done towards developing distance education, including the creation of materials for such instruction.

EFFECTIVE: Immediately

RATIONALE: The University of Alaska Fairbanks Regulations for the Evaluation of Faculty, Section III.C.1f (Effectiveness in Teaching) specifically states that "Effective teachers . . . regularly develop new courses,

workshops and seminars and use a variety of methods of instructional delivery and instructional design." This implicitly states that periodic evaluation of faculty includes distance delivery-based courses as part of teaching evaluation. It is appropriate to develop such criteria at the department level.

****

The UAF Faculty Senate passed the following at its Meeting #76 on December 8, 1997:

RESOLUTION PASSED AS AMENDED
==========

WHEREAS, The University of Alaska Faculty Senate has discussed in depth the consequences of the 1996-97 academic year Retirement Incentive Program; and

WHEREAS, Positions vacated in that RIP were not refilled on a one-to-one basis by the administration; and

WHEREAS, The loss of faculty members to retirement in certain departments caused undue hardship to certain academic programs; and

WHEREAS, College deans were given the power to decide in which way faculty members in their units would have input into the decisions as to which positions were more important to departments than others; and

WHEREAS, Recommendations from the dean's level in colleges were not always followed in replacing faculty positions once these recommendations reached the Provost and Chancellor levels; and

WHEREAS, The RIP program unduly impacts departments with a majority of senior faculty; now

THEREFORE BE IT RESOLVED, That a faculty member be selected from and by each of the departments affected by faculty who have exercised the RIP option, to serve as an advisory board to the Provost and Chancellor in making final decisions regarding RIP replacements.

Signed: John D. Craven, President, UAF Faculty Senate Date: 12/15/97

****

The UAF Faculty Senate passed the following at its Meeting #76 on December 8, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to refer the motion to approve a policy concerning UAF faculty and advanced degrees back to the Faculty and Scholarly Affairs Committee for additional review with

instruction to give more detail and information in the rationale.

EFFECTIVE: Immediately

Signed: John D. Craven, President, UAF Faculty Senate Date: 12/15/97

****

The UAF Faculty Senate passed the following at its Meeting #76 on December 8, 1997:

MOTION PASSED
==========

The UAF Faculty Senate has reviewed the draft Board of Regents' Policy and Regulations 09.01.00, 09.03.00, 09.04.00, and 09.05.00, at the request of the Faculty Alliance, and recommends that Regulation 09.03.00 be rejected as written and makes no suggestions with regard to the other draft regulations and policies.

EFFECTIVE: Immediately

RATIONALE: The basis for the draft language submitted to the Board of Regents was the existing and functioning UAF rules, which were specifically designed to guarantee completion of the procedure in ONE semester with only one meeting of a review committee, and to keep it as simple as possible. The draft procedures do not guarantee completion in one semester, provide for as many as three review committee meetings, and turn it into a student-unfriendly procedure that will dissuade many from seeking corrections of what may have truly been arbitrary and capricious grading. The present UAF rules were written in response to a request by the Provost (UAF Chief Academic Officer) to get this issue out of his office. The draft reverses this by replacing the dean with the "Chief Academic Officer", hence putting it back in his office and the other MAUs' chief academic officers; it is regressive. The draft review does not protect faculty rights to due process. The draft rules violate the fundamental axiom of academe that degrees are awarded by faculty in that it violates the corollary that only faculty award grades that count toward degrees. Based on experience by several faculty members, having two students on the committee rather than another faculty member is probably detrimental to the student's chance of a successful appeal. There are basic structural problems with the draft. For example, in Section B, "Resolution of Disputes Regarding Academic Decisions or Actions", the first sentence is general, and states that section is not limited to assignment of final course grades. The second sentence limits this entire section to assignment of the final grade. It can't be both and the material that follows is designed to address the question of final grades, but with confusing language related to the other issues. There are other serious structural problems.

The UAF Faculty Senate's Curricular Affairs Committee has spent many hours on this review and has concluded there are too many issues involved for a simple markup

of the draft. The UAF Faculty Senate offers to meet with the drafting committee to make clear the areas of concern and to aid in the creation of regulations that will truly aid as opposed to hinder students.

The UAF Faculty Senate passed the following at its Meeting #76 on December 8, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to send the following letter to the Governor on behalf of the Senate after editing and inclusion of a statement that it was passed by a unanimous vote.

EFFECTIVE: Immediately

Signed: John D. Craven, President, UAF Faculty Senate Date: 12/17/97

****

December 15, 1997

The Honorable Tony Knowles
Governor, State of Alaska
P.O. Box 110001
Juneau, AK 99811-0001

Dear Governor Knowles,

The University of Alaska plays a vital role in the future of our very young, promising state, as it is one of the keys to Alaska's economic, intellectual, cultural, and political development. Alaska is unique in many ways, and it requires an outstanding institution of higher learning inside its borders to help craft solutions to its numerous challenges. However, in the face of repeated budget constraints in funding at the state level, the quality of higher education available in the state is being severely compromised. Such constraints can not continue without extensive damage to the University and its ability to fulfill its stated mission and goals. Alaska does not need its University so crippled that it is merely a shadow of what a strong university should be. Instead, the University of Alaska must provide an environment in which students are stimulated, challenged, and encouraged to reach their full potential, while knowing that they are receiving a superior education from a healthy, outstanding institution.

We appreciate the fact that you also hold many of these views about the University of Alaska and have stated so publicly. We have been gratified to hear you recognize the budget trimming efforts and sacrifices many have made and that through several assessment procedures the faculty, staff, and administration have actively sought to increase efficiency and lower costs. Since you are aware

of our efforts, you must know that the Board of Regents' budget request of 174 million dollars for the coming fiscal year is not only reasonable, but reflects an anticipated 10 million dollar reduction to the administrative branch of the University while merely sustaining the rest of the system at minimal levels. Your proposed budget of 167.8 million dollars, which you described as "a modest increase," is an increase that means further reductions will occur, continuing the process of irreparable harm to the University of Alaska System.

By unanimous vote the UAF Faculty Senate, through its elected representatives, has moved the adoption of this letter and, as faculty members of the University of Alaska, stand ready to provide any information and assistance you may seek in a quest to more clearly understand the predicament of the University of Alaska. We can provide such assistance through perspectives gained as we carry out our obligations to teaching, research, and public service. It is the faculty and the students that are engaged in learning, not the administration. While they represent us to you, their task is greatly complicated by the additional obligations to the physical institution and support functions, further removed from the central obligation of a university, which is to higher education. We can provide that focused perspective.

Respectfully submitted for the
University of Alaska Fairbanks Faculty Senate,

John D. Craven, President

Madeline F. Schatz, President-Elect

The UAF Faculty Senate passed the following at its Meeting #75 on November 10, 1997:

MOTION
=======

The UAF Faculty Senate moves to amend Article VI of the Constitution as follows:

(( )) = Deletion
CAPS = Addition

ARTICLE VI - Relation to the University of Alaska Fairbanks ((Assembly and the University of Alaska General Assembly)) GOVERNANCE COORDINATING COMMITTEE AND THE UNIVERSITY OF ALASKA SYSTEM GOVERNANCE.

Sect. 1 THE UAF FACULTY SENATE PRESIDENT AND PRESIDENT-ELECT ((Senate members)) shall represent the faculty on the University of Alaska Fairbanks GOVERNANCE COORDINATING COMMITTEE ((Assembly and the University of Alaska General Assembly)).

Sect. 2 The UAF FACULTY SENATE President, ((and)) President-Elect, AND ONE OTHER DESIGNEE APPOINTED BY THE SENATE PRESIDENT SHALL ((will)) represent the Senate on the University of Alaska FACULTY ALLIANCE ((General Assembly)) and one will serve on the SYSTEM GOVERNANCE COUNCIL ((Executive Committee of the General Assembly)).

EFFECTIVE: Immediately

RATIONALE: Changes in the structure and name of the UAF Governance Coordinating Committee and to the UA System Governance bodies neccessitate a change in the UAF Faculty Senate Constitution to bring it up to date.

Signed: John D. Craven, President, UAF Faculty Senate Date: 11/12/97

Approved: Joan Wadlow, Chancellor Date: 11/28/97

The UAF Faculty Senate passed the following at its Meeting #74 on October 13, 1997:

MOTION
======

The UAF Faculty Senate moves to amend Section 1 (Article III: Membership) of the Bylaws as follows:

(( )) = Deletion
CAPS = Addition

Section 1 (Article III: Membership)

B. 2. FOR REPRESENTATIONAL PURPOSES ONLY a faculty member ((is)) SHALL BE DEFINED AS one who holds academic rank OR SPECIAL ACADEMIC RANK. (((Currently includes lecturer, research or senior research associate, instructor, assistant professor, associate professor, or professor be they full-time, part-time, or visiting.)))

EFFECTIVE: Immediately

RATIONALE: Simplification of wording. Current UAF Faculty Appointment and Reevaluation Policies (Chapter III.1.c.(2)) define Special academic rank as "lecturer, instructor, and titles of academic rank preceded by the terms adjunct, affiliate, visiting, research, or clinical." At present the "special academic rank" faculty are not excluded anywhere in the constitution or bylaws from being counted in the head-count toward representation.

Signed: John D. Craven, President, UAF Faculty Senate Date: 10/15/97

Approved: Joan Wadlow, Chancellor Date: 10/29/97

****

The UAF Faculty Senate passed the following at its Meeting #74 on October 13, 1997:

MOTION
======

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Permanent) of the Bylaws as follows:

(( )) = Deletion
CAPS = Addition

Section 3 (Article V: Committees)

E. PERMANENT

4. The Developmental Studies Committee will include one representative from each of the following units:
Northwest Campus
Chukchi Campus
Kuskokwim Campus
Bristol Bay Campus

Interior-Aleutians Campus
College of Science, Engineering and Mathematics
Science Department (Biology, Chemistry, Geology, or Physics)
Mathematical Sciences Department
College of Liberal Arts
English Department
((Student Support Services Program))
Cross Cultural Communications Department
College of Rural Alaska Developmental Studies Division
Rural Student Services
Advising Center
and two representatives from the Tanana Valley Campus.

5. The Faculty Development, Assessment and Improvement Committee will be composed of faculty members and ((the Director of Faculty Development)) A REPRESENTATIVE FROM THE OFFICE OF FACULTY DEVELOPMENT TO BE SELECTED BY THE PROVOST. This committee will deal with faculty and instructional development and evaluation.

6. The Committee to Nominate Commencement Speaker and Honorary Degree Recipients, will nominate commencement speakers and candidates for honorary degrees AS SPECIFIED IN UNIVERSITY REGULATION 10.03.02. THIS COMMITTEE WILL WORK IN CONCERT WITH THE UNIVERSITY OF ALASKA FAIRBANKS OFFICE OF UNIVERSITY RELATIONS TO REVIEW THE NOMINEE FILES AND MAKE A FORMAL NOMINATION TO THE CHANCELLOR.

10. The Core Review Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the core curriculum at UAF. The Core Review Committee coordinates and recommends changes to the core curriculum, develops the process for assessment of the core curriculum, regularly reports on assessment of the core curriculum, monitors transfer guidelines for core courses, acts on petitions for core credit, and evaluates guidelines in light of the total core experience. This committee will also review courses for oral, written, and natural science core classification.

The committee shall be composed of one faculty MEMBER from ((the following)) EACH OF THE core component areas: ((Behavioral)) (SOCIAL Sciences, ((Business/Engineering,)) English, Humanities, Mathematics, Natural Sciences, and Communication) AND ONE FACULTY MEMBER FROM A NON-CORE COMPONENT AREA. Membership on the committee will include an undergraduate student.

EFFECTIVE: Immediately

RATIONALE: The present bylaws do not accurately reflect the realities of committee membership.

Signed: John D. Craven, President, UAF Faculty Senate Date: 10/15/97

Approved: Joan Wadlow, Chancellor Date: 10/27/97

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

****
The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED
==========

The UAF Faculty Senate supports the further development of the "Wellness Program" to provide accessible activities promoting a healthy lifestyle as a low cost way to enhance the currently eroding medical benefits.

EFFECTIVE: Immediately

RATIONALE: The Health Issues Subcommittee of the UAF Coordinating Committee is in the process of developing a Wellness Program to promote healthy lifestyles. Currently, this fall it is planned that fitness activities will be scheduled during convenient times for faculty and staff. In addition, the Statewide Health Benefits Task Force is examining the implementation of a wellness program component to the university health plan. This motion has two purposes. First and most obviously it is intended to show support for this UAF program. Secondly, since it is frequently the case that wellness plans erode overall health benefits, the motion is intended to limit our support for a wellness program to a program which enhances overall benefits.

Sect. 3 (ART V: Committees)

PERMANENT

((7. The Legislative and Fiscal Affairs Committee will follow legislative and fiscal issues which may impact faculty concerns at the university and will act as a faculty advocate with legislators and candidates.))

EFFECTIVE: July 1, 1997

RATIONALE: The committee, as a source of information concerning the state of legislative actions and/or fiscal affairs of the University is redundant. Information is readily available via the Internet, the Legislative Information Office (LIO), as well as local news media. Information concerning the fiscal status of the University is available via the office of the Vice Chancellor for Finance, as well as internal and external institutional sources.

****
The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Standing) of the Bylaws as follows:

(( )) = Delete
CAPS = Addition

Sect. 3 (ART V: Committees)

STANDING

3. The Graduate & PROFESSIONAL Curricular Affairs Committee will include five Senate members and will be responsible for the review and approval of graduate courses, curriculum and graduate degree requirements, and other academic matters related to instruction and mentoring of graduate students. THE COMMITTEE WILL ALSO HAVE RESPONSIBILITY FOR OVERSIGHT, REVIEW AND APPROVAL OF ALL PROFESSIONAL DEGREE COURSES AND PROGRAMS INCLUDING 500-LEVEL COURSES. The Dean of the Graduate School, Director of the Library, the University Registrar, and one graduate student are non-voting ex-officio members.

EFFECTIVE: Immediately

RATIONALE: Recently, the Senate passed and the Chancellor approved a new Master's Degree concept of the "professional Degree". This degree should fall under the review and approval processes of the Faculty Senate Graduate Curricular Affairs Committee. Similarly, there has been much discussion on the lack of a review process for professional certificates and professional 500-level courses. This amendment to the bylaws would clearly place all of these areas under the review and approval authority of the Graduate and Professional Curricular Affairs Committee.

****
The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED (1 nay)
==========

The UAF Faculty Senate moves to establish for the UAF Faculty a Statement of Professional Ethics as given below. Thereby, the UAF faculty commit themselves severally and jointly as academic citizens both to abide by and to enforce this standard of conduct.

EFFECTIVE: Immediately

RATIONALE: This statement is an adoption of the AAUP ³Statement on Professional Ethics² as well as portions of the AAUP Statement on ³Freedom and Responsibility² (cf. AAUP, Policy Documents and Reports, 1995 Edition, pp. 105-106 and pp. 107-108) as given below. In addition to acknowledging various extant regulations governing faculty conduct at UAF in specific contexts (e.g. policy on plagiarism, research protocol on the use of animals and/or humans as subjects, etc.). UAF faculty may choose expressly and positively to affirm the principles and norms governing their conduct generally as members of the academic community.

****

UAF FACULTY STATEMENT OF PROFESSIONAL ETHICS

I. Professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end professors devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although professors may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.

II. As teachers, professors encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Therefore, Professors have high expectations for their students and expect students to meet those expectations to the best of their ability. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Professors make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student¹s true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. Professors protect students' academic freedom.

III. As colleagues, professors have obligations that derive from common membership in the community of scholars. Professors do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates. In the

exchange of criticism and ideas professors show due respect for the opinions of others. Professors acknowledge academic debt and strive to be objective in their professional judgment of colleagues. Professors accept their share of faculty responsibilities for the governance of their institution.

IV. As members of an academic institution, professors seek above all to be effective teachers and scholars. Although professors observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize and seek revision. Professors give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it. When considering resignation or the interruption of their service, professors recognize the effect of their decision upon the institution and give due notice of their intentions.

V. As members of their community, professors have the rights and obligations of other citizens. Professors measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons they avoid creating the impression of speaking or acting for their college or university. As citizens engaged in a profession that depends upon freedom for its health and integrity, professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

****

The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to amend its transfer credit policy passed March 24, 1997 so that it reads as follows:

(( )) = Deletions
CAPS = Additions

Any student who has completed a bachelor's degree from ((an)) A REGIONALLY accredited institution will be considered to have completed the equivalent of the baccalaureate core when officially accepted to an undergraduate degree program at UAF.

EFFECTIVE: Immediately

RATIONALE: The policy as originally passed states, "from an accredited institution", rather than "from a regionally accredited institution". There are many accrediting bodies; UAF only accepts transfer work from regionally accredited schools.

****

The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to amend Section 3 (ARTICLE V: Committees, Permanent) of the Bylaws as follows:

[[ ]] = Deletion
CAPS = Addition

PERMANENT

1. The University-wide Promotion and Tenure committee will be [[one member from each school or college.]] COMPOSED OF TWELVE REPRESENTATIVES: THREE FROM THE COLLEGE OF LIBERAL ARTS (ONE EACH FROM EDUCATION, HUMANITIES, AND SOCIAL SCIENCES); THREE FROM THE COLLEGE OF SCIENCE, ENGINEERING, AND MATHEMATICS (ONE FROM EACH AREA); THREE FROM THE COLLEGE OF RESOURCE DEVELOPMENT AND MANAGEMENT (ONE EACH FROM THE SCHOOLS OF MANAGEMENT, AGRICULTURE AND LAND RESOURCES MANAGEMENT, AND MINERAL ENGINEERING); AND ONE EACH FROM THE SCHOOL OF FISHERIES AND OCEAN SCIENCES, ALASKA COOPERATIVE EXTENSION, AND COLLEGE OF RURAL ALASKA. Terms of service on the committee will be three years. Members of this committee must hold tenured senior level appointment at UAF. This committee will review candidate files for promotion and/or tenure and will recommend for or against the promotion and/or tenure of each candidate who presents a file for consideration by the committee.

EFFECTIVE: Immediately
Upon Chancellor's Approval

RATIONALE: The UAF Faculty Senate approved an amendment to the UAF Regulations for the Evaluation of Faculty: Initial Appointment, Annual Review, Reappointment, Promotion, Tenure, and Sabbatical Leave, IV.B.3.d. which made changes in the University-wide Promotion and Tenure Committee membership at its meeting #70 on March 10, 1997. The Senate Bylaws need to be updated to reflect this change in the committee membership.

****
The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to endorse the 1997-98 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighted against membership distribution from schools and colleges.

****
The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview which may arise until the Senate resumes deliberations in the Fall of 1997. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 12, 1997

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

****
The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

MOTION PASSED

==========

The UAF Faculty Senate moves to amend the calendar for its 1997-98 meetings as follows:

UAF FACULTY SENATE

1997-98
Calendar of Meetings

Mtg. #	Date	Day	Time	Type
73	9/15/97	Monday	1:30 p.m	audioconference
74	10/13/97	Monday	1:30 p.m	audioconference
75	11/10/97	Monday	1:30 p.m	face-to-face
76	12/8/97	Monday	1:30 p.m	audioconference
77	2/9/98	Monday	1:30 p.m	face-to-face
78	3/9/98	Monday	1:30 p.m	audioconference
79	4/6/98	Monday	1:30 p.m	audioconference
80	5/4/98	Monday	1:30 p.m	audioconference/ face-to-face

*Location: Wood Center Ballroom

EFFECTIVE: May 12, 1997

RATIONALE: This motion will reduce the number of face-to-face meetings. Colleges and schools faced with tigher budget constraints for the upcoming year are passing the cost of traveling to Senate meetings on to the individual units. Reducing the number of face-to-face will help lessen this burden for the upcoming year. This motion will, however, put additional burden on the Governance Office budget.

****
The UAF Faculty Senate passed the following at its Meeting #72 on May 12, 1997:

RESOLUTION OF APPRECIATION

FOR

DONALD F. LYNCH

WHEREAS, Professor Donald F. Lynch has served as a member of the UAF faculty for 27 years; and

WHEREAS, Professor Donald F. Lynch has served as a member of the Curricular Affairs committee from 1994 to 1995; and

WHEREAS, Professor Donald F. Lynch has served as President-Elect of the UAF Faculty Senate from 1995 to 1996; and

WHEREAS, Professor Donald F. Lynch has served as chair of the UAF Faculty Senate Administrative Committee from 1995 to 1996;

and

WHEREAS, Professor Donald F. Lynch has served as a member of the UAF Governance Coordinating Committee from 1995 to 1997; and

WHEREAS, Professor Donald F. Lynch has served as a member of the Faculty Alliance of the UA Systemwide Governance Council from 1995 to 1997; and

WHEREAS, Professor Donald F. Lynch has served as a member of the UA Systemwide Governance Council from 1996 to 1997; and

WHEREAS, Professor Donald F. Lynch has served as President of the UAF Faculty Senate from 1996 to 1997; and

WHEREAS, Professor Donald F. Lynch has effectively represented the interests of the UAF Faculty Senate to the administration of UAF; and

WHEREAS, Professor Donald F. Lynch has effectively represented the UAF faculty and the UA institution before the UA Board of Regents; and

WHEREAS, Professor Donald F. Lynch has unselfishly shared with all his extensive knowledge of UAF and its administrative and academic history; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Professor Donald F. Lynch as he concludes his term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Professor Donald F. Lynch and expresses its appreciation for his exemplary service.

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

RESOLUTION PASSED
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of President-Elect on the basis of the following ballot.

BALLOT
PRESIDENT-ELECT

Please vote for ONE individual to serve as the President-Elect of the UAF Faculty Senate for 1997-98.

Maynard Perkins, Associate Professor
General Studies/Northwest Campus

*** Madeline Schatz, Professor
Music

*** President-Elect

****

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to add the following to the list for Transfer of Credit on page 11 of the UAF catalog:

10. Any student who has completed a bachelor's degree from an accredited institution will be considered to have completed the equivalent of the baccalaureate core when officially accepted to an undergraduate degree program at UAF.

EFFECTIVE: Fall 1997

RATIONALE: This motion addresses baccalaureate CORE courses only. The motion accepts students' baccalaureate degrees as meeting the UAF baccalaureate core requirement. The student could be re-enrolling into the UAF system after having completed a baccalaureate degree at UAF in the past (when possibly the core requirement was different), or the student could be enrolling from another institution. Because of the core transfer policy there are actually few courses that students would need to take and this policy, in the majority of cases, would allow a core transfer without a course by course evaluation.

****
The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (unanimous)
==========

Departments and programs will annually review courses not offered in the previous five-year period and consider if they should be deleted from the printed catalog. A list of courses to be deleted will be forwarded to the Provost with the request to have the courses removed from the catalog.

EFFECTIVE: Immediately

RATIONALE: This motion responds to the actions of the provost in deleting courses from the University catalog. The motion reconfirms that changes to the catalog made by administration affecting any academic concerns should only be implemented after appropriate faculty deliberation.

****

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to clarify walk through requirements for graduate students as follows:

To meet the definition of having "essentially completed all degree requirements" (current policy) to "walk through" graduation ceremonies, a student must have meet the following requirements:

a. successfully completed all required tests, course work and thesis/project defense; and

b. submitted to the Graduate School by the date set for filing a thesis/dissertation in Spring Semester, a memorandum signed by the student and the major advisor certifying that the student is essentially completed the graduate degree, and that all required signatures will be obtained and the thesis, project or dissertation filed by the last day of instruction. If the student is a Ph.D. candidate, the major advisor or designated committee member must also agree to participate in the graduation ceremonies; and

c. filed a copy of the required project/thesis/dissertation with the Graduate School with all required signatures, by the last day of instruction in Spring Semester; and

d. for Ph.D. candidates, filed a 50 word abstract of the dissertation research along with the signed dissertation.

NOTE: Individuals who "walk through" graduation ceremonies will NOT be listed in the graduation program. These students names, and if Ph.D. recipients, descriptions of dissertation research, will appear in the program of the academic year in which the Degree is formally granted.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: Dana Thomas requested the Committee review the current policy and clarify the meaning of "essentially complete". The above definition ensures that the student has "essentially completed" the degree requirements and should be allowed to "walk through" the ceremony.

****
The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve the minimum requirements for Master's Degrees shall be as follows:

For all Master's Degree Programs, the following must be met:

a. Submit a Graduate Study Plan (GSP) and an Appointment of Committee Form to the Graduate School by the end of the second semester in attendance.

b. Be registered for at least 6 credits per year (fall, spring, and summer combined), or have an approved leave of absence form on file.

c. Submit an Advancement to Candidacy form to the Graduate School. Once submitted, this form supplants the GSP and serves to formally establish specific degree requirements.

d. Submit an application for graduation and be registered for at least 3 graduate credits in the semester in which the degree is to be awarded; and

e. Complete all degree requirements within the 7-year time limit allowed.

Furthermore, the following additional requirements are the minimum requirements for Master's Degrees:

For a Master's of Science or Master's of Arts Degree - with thesis

Successfully complete at least 30 credits of course work including at least 6 credits of thesis (699). (No more than 12 thesis/research (699/698) credits may be counted towards the minimum degree credits).

At least 24 credits must be at the 600 or above, except for a Master's of Arts in Music, which must have at least 21 credits at the 600 level or above.

Pass a written and/or oral comprehensive exam (may be combined with the thesis defense.

Publicly present and defend thesis.

Submit a completed and signed thesis defense form to the Graduate School.

Archive thesis in UAF Library.

Master's of Science or Master's of Arts Degree - with project

Successfully complete at least 30 credits of course work including at least 6 credits of project work (698). (No more than 6 research (698) credits may be counted towards the minimum degree credits.)

At least 24 credits must be at the 600 level or above, except for a Master's of Arts in Music, which must have at least 21 credits at the 600 level or above.

Pass a written and/or oral comprehensive exam (may be combined with the project defense.)

Publicly present and defend project.

Submit a completed and signed project defense form to the Graduate School.

Archive project in UAF Library.

For a Professional Master's Degree (i.e. Master's of Business Administration, Education, etc.)

Successfully complete at least 30 credits of course work (research or thesis credits NOT included).

At least 24 credits must be at the 600 level or above (research or thesis credits NOT included).

Successful completion of a comprehensive exam or capstone course that includes demonstration of the ability to synthesize information in the field at a level appropriate for a Master's degree.

Note on Implementation of Motion: It is the understanding of the Graduate Curricular Affairs Committee that changes to existing programs degree requirements or the name of the degree which may be necessitated by this policy, if implemented, will need final approval of the Graduate Curricular Affairs Committee, but does not constitute a new degree offering, and will not need approval by the Board of Regents.

No minimum presented herein prohibits programs from requiring additional work. The adjustments that have been made from existing programs include the requirement for the non-thesis project to be documented and in some manner archived in the Library (i.e. slides, recording, report.)

EFFECTIVE: Fall 1998

RATIONALE: Currently there is great disparity in the administration of Master's degrees using a thesis or non-thesis option. In addition, there is an increasing movement towards Professional Master's Degrees which require only course work. To ensure the quality and workload for a degree is comparable for the thesis, project option, and professional (non-thesis and non-project) minimum must be set and applied across all degrees.

****

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED AS AMENDED (16 yeas, 8 nays)

The UAF Faculty Senate moves to amend the resolution submitted by the Faculty Alliance regarding "upon recommendation of the faculty" to include the following:

WHEREAS, The University of Alaska Fairbanks, the University of Alaska Anchorage, and the University of Alaska Southeast are each separately accredited and are from a student perspective separate universities,

EFFECTIVE: Immediately

RATIONALE: The purpose here is to justify inserting the individual MAU after the University of Alaska on dipolmas. The current wording, "University of Alaska," comes from the time when there was only one University and that was located in Fairbanks. For two decades, now, we have had three universities forming one statewide system, and that should be recognized on diplomas and at graduation.

****

RESOLUTION

WHEREAS, The University of Alaska Faculty Alliance gains it authority by policy 03.01.01 of the University of Alaska Board of Regents, and

WHEREAS, The University of Alaska Faculty Alliance provides official representation for the faculty of the University of Alaska in matters which affect the general welfare of the University and its educational purposes; and

WHEREAS, The University of Alaska Faculty Alliance provides consultation to the President of the University and the Board of Regents on academic matters; and

WHEREAS, The University of Alaska Faculty Alliance recognizes the faculty of the individual academic major administrative units as having the primary responsibility and authority for recommending the establishment of degree requirements; implementing the degree requirements; establishing the curriculum, the subject matter and the methods for instruction; determining when established degree requirements are met; and

WHEREAS, The University of Alaska Faculty Alliance has advisory and coordinating role in academic affairs of the individual academic major administrative units; and

WHEREAS, The University of Alaska Fairbanks, the University of Alaska Anchorage, and the University of Alaska Southeast are each separately accredited and are from a student perspective separate universities; now

THEREFORE BE IT RESOLVED, That the University of Alaska Board of Regents shall have included at all University of Alaska graduations and in all diplomas the phrase ". . . and upon the recommendation of the Faculty of the University of Alaska . . . ." with the insertion of the appropriate major academic unit's name.

****

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (unanimous)
==========

The Faculty Senate moves to approve the disbanding of the Academic Computer Users Committee and let this function be moved to the Provost's Office.

EFFECTIVE: Immediately

RATIONALE: The Academic Computer Users Committee handles academic issues and should fall under the Faculty Senate or the Provost who is the chief academic officer. The Committee also feels that it would be more effective if it reported directly to the Provost.

****

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED AS AMENDED (unanimous)
==========

The UAF Faculty Senate moves to approve the following prerequisite for all core ethics courses in the Perspective on the Human Condition: "Junior standing; completion of two courses in the Perspectives on the Human Condition recommended but not required."

EFFECTIVE: Fall 1997

RATIONALE: Upon consensus among Political Science, Philosophy, Natural Resources Management, and Communication, Junior Standing will be the prerequisite for all the ethics courses. Requiring the same prerequisite will enable students to have equal access to all these courses.

****

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (1 nay)
==========

The UAF Faculty Senate moves to amend the Department Head Policy to clarify department affiliated faculty members' eligible to vote for department head as follows:

A full-time faculty member currently holding academic rank is affiliated with a department if:

1) the head of that department evaluates the faculty member or;
2) the head of the department signs the faculty member's workload agreement.

EFFECTIVE: Immediately

RATIONALE: The motion to amend the policy defining the role and duties of the department head, which also establishes the procedures for the election of department heads at UAF (as passed by the UAF Faculty Senate at its Meeting #21 [October 15, 1990] and #23 [December 17, 1990] and modified by the Chancellor) is intended to clarify Section III. B. Eligibility to Vote.

****

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate forwards to the Faculty Alliance its concerns and recommendations regarding proposed changes to Regents' Policies and Regulations on Discrimination, Harassment and Sexual Harassment as follow:

1) the proposed policies and regulations are poorly organized. The regulations for general harassment seem to have been simply inserted into the regulations on Sexual Harassment (R04.06.09 B). Given the organization of University Regulations, the regulations on general harassment and discrimination should be contained in R04.06.09 B; an existing section in University regulations which is titled Harassment and Discrimination. The blending of sexual harassment regulations and the regulations for general harassment and discrimination is contrary to the organization of University Regulations and adds confusion to the distinct issues.

2) The provisions regarding third party sexual harassment (R04.06.09 B.7) are redundant since harassment of an individual resulting from a relationship with a third party would already constitute harassment under P04.06.09 A. (Harassment and Discrimination). Also, in the current form, the third party sexual harassment provision as a special form of sexual harassment has the potential to violate an individual's freedom to association.

3) The language in the proposed regulations allowing anonymous complaints (R04.06.09 B. 7) on the surface seems to be benign in that a formal investigation of charges and possible disciplinary actions would only occur if anonymous complainant names his/her self. However, the regulation also states that the acceptability of anonymous complaints depends on the number of or persuasiveness of anonymous complaints. Hence, if enough "poison pen" complaints are made or if they are sufficiently well written, a formal investigation my occur. This is completely unacceptable. This clause simply opens the way for institutionalized character assassination. While this clause seems to afford protection from formal disciplinary action due simply to anonymous complaints, it does not prevent informal actions. For example, repeated or persuasive anonymous complaints may result in the perception on the part of peers or supervisors that an individual acts unprofessionally, thus affecting periodic evaluations or chances for tenure or promotion.

4) In R04.06.09 B. 2. h (Definition of Harassment Review) it appears that the review will typically be conducted by a single individual. This would give a single individual excessive power. An investigatory committee of three (or more) individuals should be constituted to investigate an alleged violation of harassment or discrimination policies.

5) Policy P04.04.09 A. 1. (a) through (d) (Examples of Harassment) outlines examples of harassment. Given these examples, policy seems to state that the situations, if they occur, are sufficient to constitute harassment. The policy should be reworded to state that the examples listed may be lead to harassment and that the determination that harassment has occurred is made by examining the total context of the situation. In addition, the many examples are vague and potentially open the door to limiting academic freedom. For example, examining supposedly "sexually charged literature" may restrict an English professor's academic freedom. Or, prohibiting supposedly "suggestive objects" may restrict an anthropology professor's academic freedom. Lastly in a separate issue, with respect to examples of discrimination, modifiers need to be added such as the "reasonable accommodation" language of the American's with Disabilities Act.

6) Since it is frequently the case that an individual who violates this policy does so out of ignorance, policy and regulations should stress this. Hence, with respect to disciplinary actions, more emphasis needs to be placed upon the education role that the harassment policy can fulfill.

7) Throughout the proposed policy there is language which is prejudicial to the accused which seems to imply "guilty until proven innocent". For example in R04.06.09 B. 4., the accused is referred to as the "aggressor". In order to remove some of the prejudicial language when referring to an individual accused of harassment or discrimination, the definition of a "respondent" should be added to R04.06.09 B. 2. (Definitions) where "Respondent" should be defined as an individual accused of violating Regents' Policies and Regulations regarding harassment or discrimination.

EFFECTIVE: Immediately

RATIONALE: The motion responds to a formal request from Faculty Alliance to UAF Faculty Senate regarding input on the proposed changes in Board of Regents' Policies and Regulations on Discrimination, Harassment and Sexual Harassment. The poorly written document received from BOR was scrutinized by the UAF FASAC in response to that request.

The UAF Faculty Senate passed the following at its Meeting #70 on March 10, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the Evaluation of Educational Effectiveness policy as indicated below:

EFFECTIVE: Upon approval by the Chancellor

RATIONALE: The first paragraph of additions offers some protection to students and faculty from the misuse of the outcomes assessment process. The second paragraph provides a means of recognition for involvement in this process. The third and fourth additional paragraphs identify department heads and the core review committee as the responsible parties for preparing outcomes assessment reports, identifies the required committee as the responsible parties for preparing outcomes assessment reports, identifies the required content of those reports, identifies the timing of such required reports, and identifies the housing of these reports.

If there is no practical reason for the chairs of each department (or equivalent as identified by the Dean or Director) to prepare a report every 3 years, there is no reason to do it more often than every 4 years.

****

CAPS = Additions
[[ ]] = Deletions

UAF
EVALUATION OF EDUCATIONAL EFFECTIVENESS POLICY

In accordance with its mission, the University of Alaska Fairbanks has a continuing responsibility to review and improve performance of its students, faculty, and programs. The UAF therefore establishes the Educational Effectiveness Evaluation to describe the effects of curriculum, instruction, and other institutional programs. The process will be useful for curricular and institutional reform and will be consistent with UA Board of Regents Policy and institutional and specialized accreditation standards.

The university shall ensure the academic freedom of the academic community in the development and maintenance of this process.

THE DATA GATHERED AND SUMMARIZED AS PART OF THE EDUCATIONAL EFFECTIVENESS EVALUATION PROCESS SHALL NOT BE USED FOR EVALUATING INDIVIDUAL FACULTY. FURTHERMORE, NO STUDENT SHALL BE DENIED GRADUATION BASED SOLELY UPON INFORMATION GATHERED FOR THE EDUCATIONAL EFFECTIVENESS EVALUATION PROCESS.

EACH FACULTY MEMBER'S ACTIVITIES IN DEVELOPING AND/OR IMPLEMENTING PROGRAMMATIC AND INSTITUTIONAL EDUCATIONAL

EFFECTIVENESS EFFORTS MAY BE SUMMARIZED IN THE INSTRUCTIONAL SECTION OF ANNUAL EVALUATIONS AND PROMOTION AND TENURE FILES.

Evaluations shall be conducted with regard to the following:

1) Student Information
   Students shall be assessed upon entry to the university for purposes of course advising and placement, especially in mathematics and English, and for describing the gender, age, ethnicity, and previous education of students recruited, retained, and graduated over time.

2) Evaluation of the CORE Curriculum
   Evaluation of the CORE curriculum shall include course assessment embedded within CORE courses as well as the assessment of students within upper division courses, especially oral and writing intensive courses. the assessment of students within upper division courses, especially oral and writing intensive courses.

3) Programmatic assessment
   Each degree and certificate program shall establish and maintain a student outcomes assessment process useful for curricular reform and consistent with institutional and specialized accreditation standards.

4) Evaluation of Out of Class Learning
   An important element of a student's overall education is learning that occurs outside of classes. Therefore, an evaluation of activities and student support services will be conducted.

The chair of each department (or equivalent as identified by the Dean or Director) shall prepare a report at least every FOUR [[three]] years summarizing the Educational Effectiveness program for each certificate and degree program offered by that department. The report shall include a summary of the following:

A. STUDENT OUTCOME GOALS AND OBJECTIVES OF THE PROGRAM,

B. THE METHODS AND CRITERIA USED TO EVALUATE WHETHER THE GOALS AND OBJECTIVES ARE BEING MET,

C. A DESCRIPTION OF WHAT INFORMATION IS COLLECTED ANNUALLY, AND

D. HOW THE RESULTS OF SUCH INFORMATION ARE BEING USED TO IMPROVE THE CURRICULUM.

THE REPORT SHALL BE PRESENTED TO THE DEAN OR DIRECTOR'S OFFICE DURING THE MONTH OF MAY. AT LEAST SOME INFORMATION GATHERING FOR THIS PROCESS SHALL OCCUR ANNUALLY.

ONCE AN EDUCATIONAL EFFECTIVENESS EVALUATION PROGRAM HAS BEEN IMPLEMENTED FOR THE CORE, THE CORE REVIEW COMMITTEE OF THE FACULTY SENATE SHALL PREPARE A REPORT, AT LEAST BIANNUALLY, SUMMARIZING THE EDUCATIONAL EFFECTIVENESS OF THE COMPONENTS OF THE CORE CURRICULUM. THIS REPORT SHALL BE SIMILAR IN CONTENT TO THE REPORT DESCRIBED ABOVE FOR INDIVIDUAL PROGRAMS BUT SHALL PROVIDE A SUMMARY FOR THE COMPONENTS OF THE CORE CURRICULUM. THE COMPONENTS OF THE CORE MAY BE SUMMARIZED IN THE REPORT ON A ROTATIONAL BASIS, BUT AT LEAST SOME INFORMATION SHOULD BE GATHERED ANNUALLY.

****
The UAF Faculty Senate passed the following at its Meeting #70 on March 10, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend Section 3 (ARTICLE V: Committees, Permanent) of the Bylaws as follows:

(( )) = Deletion
CAPS = Addition

9. THE CURRICULUM REVIEW COMMITTEE EVALUATES PROPOSED SUBSTANTIVE UNDERGRADUATE COURSE AND PROGRAM ADDITIONS, CHANGES, AND DELETIONS SUBMITTED BY THE APPROPRIATE SCHOOL/COLLEGE CURRICULUM COMMITTEES. AMONG THE TOPICS OF ITS REVIEW ARE NUMBER AND DUPLICATION OF COURSES, CREDIT ASSIGNMENT, ESTABLISHMENT OF NEED FOR NEW PROGRAMS, AND RESOURCE IMPACTS OF CURRICULAR CHANGES. DECISIONS OF THE CURRICULUM REVIEW COMMITTEE MAY BE APPEALED TO CURRICULAR AFFAIRS BY THE DEPARTMENT SUBMITTING THE PROPOSAL. THE COMMITTEE SHALL BE COMPOSED OF THE CHAIRS OF THE COLLEGE/SCHOOL CURRICULUM COUNCILS, THE CHAIR OF THE DEVELOPMENTAL STUDIES COMMITTEE, THE UNIVERSITY REGISTRAR OR THE REGISTRAR'S DESIGNEE, AND SHALL BE CHAIRED BY A MEMBER OF CURRICULAR AFFAIRS.

EFFECTIVE: Immediately
Upon Chancellor¹s Approval

RATIONALE: The purpose of this proposed change is to delineate the differences between the functions of the college/school curriculum councils and that of the Curriculum Review Committee. The college/school curriculum councils are the sole judge of the substantive content of proposed new courses, programs. The Curriculum Review Committee is responsible for coordinating the proposals to insure against needless duplication, proper assignment of course levels against university-wide criteria, etc.

The Core Review Committee is responsible for reviewing and approving courses for inclusion in the Core.

There is no reason why a course should go to both the Curriculum Review and Core Review Committees if it is to be included in the Core. The only exception to this might be Written and Oral Intensive Courses.

****
The UAF Faculty Senate passed the following at its Meeting #70 on March 10, 1997:

MOTION PASSED (unanimous)

==========

The UAF Faculty Senate moves to amend Section 3 (ARTICLE V: Committees, Permanent) of the Bylaws as follows:

(( )) = Deletion
CAPS = Addition

10. THE CORE REVIEW COMMITTEE REVIEWS AND APPROVES COURSES SUBMITTED BY THE APPROPRIATE SCHOOL/ COLLEGE CURRICULUM COUNCILS FOR THEIR INCLUSION IN THE CORE CURRICULUM AT UAF. THE CORE REVIEW COMMITTEE COORDINATES AND RECOMMENDS CHANGES TO THE CORE CURRICULUM, DEVELOPS THE PROCESS FOR ASSESSMENT OF THE CORE CURRICULUM, REGULARLY REPORTS ON ASSESSMENT OF THE CORE CURRICULUM, MONITORS TRANSFER GUIDELINES FOR CORE COURSES, ACTS ON PETITIONS FOR CORE CREDIT, AND EVALUATES GUIDELINES IN LIGHT OF THE TOTAL CORE EXPERIENCE. THIS COMMITTEE WILL ALSO REVIEW COURSES FOR ORAL, WRITTEN, AND NATURAL SCIENCE CORE CLASSIFICATION.

THE COMMITTEE SHALL BE COMPOSED OF ONE FACULTY FROM THE FOLLOWING CORE COMPONENT AREAS: BEHAVIORAL SCIENCES, BUSINESS/ENGINEERING, ENGLISH, HUMANITIES, MATHEMATICS, NATURAL SCIENCES, AND COMMUNICATION. MEMBERSHIP ON THE COMMITTEE WILL INCLUDE AN UNDERGRADUATE STUDENT.

EFFECTIVE: Immediately
Upon Chancellor's Approval

RATIONALE: The status of the Core Review Committee should be raised to that of a Permanent Committee. The nature and amount of work accomplished regularly by this committee indicates the need for its recognition in the bylaws.

****
The UAF Faculty Senate passed the following at its Meeting #70 on March 10, 1997:

MOTION PASSED (1 nay)
==========

The UAF Faculty Senate moves to include the following statement in the new class schedule and in the Catalog.

Course Prerequisites

Course prerequisites indicate the previous preparation that a student must have in order to enter a course. An instructor has the right to drop from the course any student not meeting the course prerequisites. Permission of the instructor to enter a class may be granted to a student not meeting prerequisites under special circumstances.

EFFECTIVE: Immediately

RATIONALE: Prerequisites will become an even more important issue now because of the new option that

allows faculty to drop students from their classes. The issue of prerequisites will become even more important for distance delivered courses.

****
The UAF Faculty Senate passed the following at its Meeting #70 on March 10, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve the M.S. & Ph.D. in Environmental Chemistry.

EFFECTIVE: Upon Board of Regents¹ Approval

RATIONALE: See full program proposal #44 on file in the Governance Office, 312 Signers¹ Hall.

****

EXECUTIVE SUMMARY

For more than a decade UAF has provided graduate training in environmental chemistry through the Chemistry and Biochemistry Department MS Program and the Interdisciplinary Ph.D. Program. In recent years this activity has expanded substantially because of increasing student demand and the recruitment of new chemistry faculty with environmental research interests. The UAF Chemistry and Biochemistry Department believes that further development of this effort can now be accomplished without commitment of additional resources by providing increased visibility through establishment of a Graduate Program in Environmental Chemistry leading to Ph.D. and MS degrees.

The goal of the Graduate Program in Environmental Chemistry will be to train scientists for research, teaching and other professional positions in atmospheric chemistry, environmental chemical measurement, marine chemistry, chemical aspects of global change and related fields with emphasis on northern environments. These skills are in high demand in Alaska and around the world as societies turn away from preoccupations of the cold war era and focus on issues of sustainable development and environmental quality.

The Graduate Program in Environmental Chemistry will enhance the educational opportunities at UAF, not only at the graduate level, but also for undergraduates by attracting high quality graduate students, some of whom will become teaching assistants in undergraduate classes. This program will also contribute to UAF¹s research focus on the northern environment. In addition, it will expand links between the university and private sector and governmental organizations in Alaska and throughout the north by means of internships and exchanges.

****
The UAF Faculty Senate passed the following at its Meeting #70 on March 10, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the UAF Regulations for the Evaluation of Faculty: Initial Appointment, Annual Review, Reappointment, Promotion, Tenure, and Sabbatical Leave, IV.B.3.d. as follows:

[[ ]] = Deletions
CAPS = Additions

IV. CONSIDERATION OF FACULTY FOR PROMOTION AND TENURE

B. Faculty with Academic Rank

3. d. Constitution and Operation of University-wide Promotion and Tenure Committee. The University-wide Promotion and Tenure committee will be composed of [[one representative from each college or school in existence at the beginning of each academic year.]] TWELVE REPRESENTATIVES: THREE FROM THE COLLEGE OF LIBERAL ARTS (ONE EACH FROM EDUCATION, HUMANITIES, AND SOCIAL SCIENCES); THREE FROM THE COLLEGE OF SCIENCE, ENGINEERING, AND MATHEMATICS (ONE FROM EACH AREA); THREE FROM THE COLLEGE OF RESOURCE DEVELOPMENT AND MANAGEMENT (ONE EACH FROM THE SCHOOLS OF MANAGEMENT, AGRICULTURE AND LAND RESOURCES MANAGEMENT, AND MINERAL ENGINEERING); AND ONE EACH FROM THE SCHOOL OF FISHERIES AND OCEAN SCIENCES, ALASKA COOPERATIVE EXTENSION, AND COLLEGE OF RURAL ALASKA.

EFFECTIVE: Immediately
Upon Chancellor's Approval

RATIONALE:

1. The current definition of the committee makeup is not consistent with the new "mega-colleges" planned or in existence. The motion essentially maintains the status quo, but adds one representative each in CLA and CSEM.

2. A new definition of the committee makeup must be in place so that timely elections may be held this Spring for next year.

3. Five committee members (CLA-Education, SOM, SFOS, ACE, and SALRM) and five alternates [CLA (2), SOM, SFOS, and SALRM] will return next year. Thus elections would be necessary in CSEM (3 rep and 3 alternates), CLA (2 reps and 1 alternate), SME (rep and alternate), ACE (alternate) and CRA (rep and alternate).

4. During the past several years the overall composition and size of the P/T committee has been satisfactory. The P/T committee traditionally has included representatives from a variety of academic disciplines in order to provide expertise and understanding of the mores and standards within the vastly different disciplines present on this campus.

5. Some consideration, however, should be made for the number of tenure track faculty (assistant, associate, and full professors, or research versions thereof) within the different units and disciplines. We have counted these in two sources: the 95-96 faculty senate reapportionment census and the 96-97 telephone book. They agree closely, with the former source yielding 428 faculty, the latter 442. The difference was essentially due to the (apparent) exclusion of Geophysical Institute research faculty in the former compilation. Two promotion files

from that unit were considered by the P/T committee this year, suggesting that these faculty should be counted in any P/T committee representation list.

6. The numbers show that basically CLA and CSEM have been underrepresented on the committee, and that this could be redressed by adding a rep from each college. Logical divisions exist in both colleges: mathematics is a large department that has noticeably different standards and working conditions compared to scientists and engineers, and in CLA there are approximately equal numbers of faculty in humanities and social sciences, again with these two groups having noticeably different scholarly standards and working conditions.

7. Increasing the size of the committee by two members actually would be a good thing. Even with alternates, there is usually one member and sometimes two out for sickness or conflict of interest. This has decreased the actual voting members to 8 in the past, which may be too small. A larger committee will make organizing slightly more difficult, but on the other hand will ease the task of drafting letters. Two more members can easily be accommodated in any of common meeting rooms.

****

The UAF Faculty Senate passed the following at its Meeting #70 on March 10, 1997:

RESOLUTION
==========

WHEREAS, Provost Jack Keating has supported the idea of a Faculty Seminar Series from its inception early this year; and

WHEREAS, Dr. Keating responded quickly and appropriately to a request for financial support to provide for a reception following the inaugural and two other faculty seminars, to help start the seminar series on its way;

THEREFORE BE IT RESOLVED That the Faculty Senate recognizes, applauds, and thanks the Provost for his support of the Faculty Seminar Series in keeping with the intent of the series to reach a wide audience and demonstrate to the University and Fairbanks communities, the contribution that faculty make to our community life.

The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

RESOLUTION PASSED (unanimous)
==========

BE IT RESOLVED THAT, The UAF Faculty Senate expresses its most sincere condolences to the family and friends of our most distinguished colleague, Professor Linda Ellanna. Her untimely passing has left a sorrowful void both in our hearts and on our campus. She will be remembered for many, many years by both faculty and students.

BE IT RESOLVED THAT, The UAF Faculty Senate extends its most sincere condolences to the family and friends of Professor Jack Distad. Jack's many years of distinguished service to the University, his unavailing support of mathematical instruction, and his participation in all aspects of University life will long be remembered.

BE IT RESOLVED THAT, The UAF Faculty Senate expresses its wish that our distinguished colleage, Professor Carol Gold, enjoy a most rapid and speedy recovery from her unfortunate accident. Get well Carol: we miss you.

****

The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve the resolution of appreciation forwarded by the University-wide Promotion and Tenure Committee.

RESOLUTION OF APPRECIATION

FOR

JOHN KELLER

WHEREAS, Dr. John Keller has served with distinction as a member of the University-wide Promotion and Tenure Committee for three years; and

WHEREAS, Dr. John Keller has served with special distinction as the committee¹s chair for two eventful years; and

WHEREAS, Dr. John Keller has always handled his chairperson duties with fairness, calmness, integrity and concern for both the candidate and the quality of the academy; and

WHEREAS, the committee appreciates his special talents in time management, committee organization, and communication; and

WHEREAS, Dr. John Keller will retire from the committee after the spring semester 1997; now

THEREFORE BE IT RESOLVED, That the University-wide Promotion and Tenure Committee express its profound gratitude to Dr. John Keller for a job well done.

BE IT FURTHER RESOLVED, That the committee express its appreciation for his gentle urgings with respect to citation analysis, bibliographic annotation, peer evaluation of instruction, and other measures of faculty excellence.

BE IT FINALLY RESOLVED, That copies of this resolution be spread upon the minutes of this meeting, provided to Dr. John Keller and forwarded to the UAF Faculty Senate.

Done at Fairbanks, Alaska February 7, 1997

Witnessed by the following non-Keller members of the committee:

Scott Huang, Mariam Karlsson, Debendra Das, Sheryl Stanek, T. Harikumar, Walter Benesch, F. Lawrence Bennett, Dauna Browne

****

The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION PASSED (unanimous)

The UAF Faculty Senate moves to amend the Transfer of Credit Policy as listed in the UAF 1996-97 catalog, page 11 as follows:

(( )) = Deletions
CAPS = Additions

Transfer of Credit

3. COLLEGE LEVEL ACADEMIC CREDITS EARNED BY A STUDENT AT ANY MAU WITHIN THE UNIVERSITY OF ALASKA WILL BE TRANSFERRED TO UAF, SUBJECT TO APPLICABILITY TOWARD DEGREE REQUIREMENTS AND MEASURES OF ACADEMIC PERFORMANCE AS DELINEATED BY THE APPROPRIATE COLLEGE AND DEPARTMENT. Undergraduate credits earned at the 100-level or above with a grade of "C" or higher at institutions outside of the UA system, and accredited by one of the six regional accrediting agencies, will be considered for transfer. Transfer credit normally isn't granted for courses with doctrinal religious content or for graduate courses (for undergraduate programs). ((Credit is not transferred for advanced placement credit or credit by examination awarded by another institution.))

EFFECTIVE: FALL 1997

RATIONALE: This means that a UA transfer student would be able to transfer to UAF any UA course having a grade of "D" or better; and that course would transfer to a College or Department as long as there was not conflicting College or Department criteria.

This change brings UAF in accord with Regents' Policy and University Regulation:

****

P10.04.06 A.3.

3. A student who has completed some of the general education requirements at one University of Alaska university or community college will have those credits count toward fulfillment of the same categories of general education requirements outlined in the common core at all University of Alaska universities and community colleges. This applies even if there is no directly matching coursework at the institution to which the student transfers. This statement will be published in each university and community college catalog.

R10.04.06

Transfer of Credit

In accepting credits from accredited colleges and universities, maximum recognition of courses satisfactorily completed will be granted to transfer students toward satisfying requirements at the receiving institution. Coursework must be at the 100 level or above to transfer and, from institutions outside the University of Alaska, must be completed with a grade of C or better. A student's entire transcript from any MAU within the University of Alaska will be transferred to another MAU, subject to applicability toward degree requirements and measures of academic performance as established elsewhere in Regents' Policy, University regulation, and the rules and procedures of the MAU from which the student is to receive a degree or certificate.

****
The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve the Core Review Committee recommendation that any course proffered for consideration of CORE designation must include, in it description, a careful and complete plan for its effectiveness evaluation. Plans for effectiveness evaluation should be consonant with effectiveness evaluation plans for other courses which fulfill the same CORE requirement.

Departments offering courses for CORE designation during the period in which effectiveness evaluation plans are being initiated, and which are accepted for CORE designation by the Core Review Committee, will join with the other departments offering that CORE option in planning effectiveness evaluation.

This motion does not include courses submitted for "W" or "O" designation.

EFFECTIVE: Fall 1997

RATIONALE: The Core Review Committee is charged with determining which courses shall be included in the CORE

curriculum, and has been appointed oversight of the Educational Effectiveness Evaluation of the CORE Curriculum

The Core Review Committee believes that the Effectiveness Evaluation process will become a permanent aspect of the committee¹s responsibility and in regard to the future, do not want subsequent Core Review Committees to have to reinvent the wheel. The committee feels that the faculty SHOULD begin to perceive both the CORE and their participation in the CORE in regard to the Effectiveness Evaluation process; to share, if you will, the commitment to Evaluation to which the University is committed.

****

The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the Policy on Approval of Academic Changes to include a spring review cycle deadline in March. The spring review cycle will include academic and course changes that do not require UAF Faculty Senate and Board of Regents approval. Changes in the spring review cycle will be approved effective the following Fall, however, they may not be included in the course catalog.

EFFECTIVE: Immediately
Upon Approval of the Chancellor

RATIONALE: Once a year in the fall the Graduate Curricular Affairs Committee and the Curriculum Review Committees review numerous requests for course changes. Currently, this is the only opportunity for programs to enact changes in their degree program, add, drop or modify courses. The current deadline requires all suggestions to be drawn up and submitted relatively early in the academic year. This may not be sufficient time for faculty to complete the required paperwork and to sufficiently consider all the potential ramifications of a change. In addition, new faculty are often at a severe disadvantage if they wish to introduce a new course. Currently, if the fall deadline is missed, the action must wait an entire academic year before being considered, thereby delaying any changes for almost two years from the time the idea originated.

By adding an additional review cycle in the spring, programs will be able to react more efficiently to changes, address administrative concerns more completely, and have an opportunity to optimize their program in a less hectic manner.

****

The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION PASSED AS AMENDED (unanimous)
==========

The UAF Faculty Senate moves to amend the UAF Regulations for the Evaluation of Faculty: Initial Appointment, Annual Review, Reappointment, Promotion, Tenure, and Sabbatical Leave, Article IV.B.2. with the additional of a fifth paragraph.

IV. CONSIDERATION OF FACULTY FOR PROMOTION AND TENURE

B. Faculty with Academic Rank

2. (add paragraph 5)

ACCESS TO THE CANDIDATE¹S FILE WILL BE LIMITED TO THE CANDIDATE AND, DURING THE OFFICIAL REVIEW PERIODS ESTABLISHED BY THE PROVOST, THE APPROPRIATE PERSONNEL AT EACH REVIEW LEVEL (DEPARTMENT HEAD, PEER COMMITTEE, DEAN AND/OR DIRECTOR, UNIVERSITY-WIDE PROMOTION AND TENURE COMMITTEE, PROVOST, AND CHANCELLOR, AND INCLUDING STAFF AS DESIGNATED AT THE LEVEL OF REVIEW).

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: This paragraph makes explicit current policy in most of the University. Currently there is no statement of this policy in UAF Regulations, which has led to some confusion regarding this issue. On the other hand, if the file is not a confidential dossier, then perhaps is it a public document? In any case, access to these files should be well defined in University Regulations. The large majority of the University-wide Promotion and Tenure Committee (by a 9 to 1 vote) agreed with the above confidentiality policy.

****
The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION PASSED AS AMENDED (unanimous)
==========

The UAF Faculty Senate moves to amend Section 3 (ARTICLE V: Committees) of the Bylaws as follows:

(( )) = Deletion
CAPS = Addition

A. An Administrative Committee will be composed of the chairpersons of all standing SENATE COMMITTEES and OF ALL permanent Senate Committees EXCEPT THE UNIVERSITY-WIDE PROMOTION AND TENURE COMMITTEE AND THE COMMITTEE TO NOMINATE COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENTS.

B. Membership on standing and permanent committees will be for two years EXCEPT AS NOTED BELOW with the possibility of RE-APPOINTMENT ((reelection and will be appointed by the Administrative Committee)). THE INITIAL APPOINTMENT OR RE-APPOINTMENT IS MADE BY THE ADMINISTRATIVE COMMITTEE OR AS SPECIFIED IN THE DEFINITION OF A PERMANENT COMMITTEE and ((endorsed)) CONFIRMED by the full Senate. Senators are limited to

serving on a maximum of one standing committee at any one time. TO PROVIDE CONTINUITY, TERMS WILL BE STAGGERED AND AN INITIAL APPOINTMENT MAY BE MADE FOR ONE OR TWO YEARS AS DETERMINED BY THE ADMINISTRATIVE COMMITTEE BASED ON NEED.

C. Standing committees will be constituted entirely of Senate members. Permanent committees can be constituted without Senate members.

D. All permanent and standing committee chairs will be elected from and by the members of their respective committee and must be full-time faculty at UAF.

E. The standing and permanent committees of the Senate are:

STANDING

1. The Curricular Affairs Committee will deal with curricular and academic policy changes on all levels except the graduate level.

2. ((The Scholarly Activities Committee will deal with policies concerning research and creative activity.))

((3.)) The Faculty AND SCHOLARLY Affairs Committee will deal with policies related to workload, appointment, termination, promotion, tenure, sabbatical leave, ((and)) academic freedom, RESEARCH AND CREATIVE ACTIVITY.

3((4)). The Graduate Curricular Affairs Committee will include five SENATE members and will be responsible for the review and approval of graduate courses, curriculum and graduate degree requirements, and other academic matters related to instruction and mentoring of graduate students. The Dean of the Graduate school, ((and the)) Director((s)) of the Library, ((and Admissions and Records)) THE UNIVERSITY REGISTRAR, and one graduate student are non-voting ex-officio members.

PERMANENT

1. The University-Wide Promotion and Tenure Committee will be one member from each school and college. TERMS OF SERVICE ON THE COMMITTEE WILL BE THREE YEARS. Members of this committee must hold tenured senior level appointment at UAF. This committee will review candidate files for promotion and/or tenure and will recommend for or against the promotion and/or tenure of each candidate who presents a file for consideration by the committee.

2. The Service Committee will be 7 members who represent the academic community and the general public, with not less than two members being non-university employees. The chair must be a faculty member. ((Members' terms will be staggered to provide continuity.)) This committee will deal with policies relating to the service mission of the university and its faculty.

3. The Graduate School Advisory Committee will include three full-time faculty members appointed by the Senate President, three full-time faculty members appointed by the Provost, and one graduate student selected by the Provost from nominations submitted by the graduate faculty and student senate. The graduate student must have completed a minimum of one full year of

attendance at UAF. Each department with a graduate program is limited to no more than one member. The Dean of the Graduate School and the President of the Faculty Senate are ex-officio non-voting members. The Dean of the Graduate School will convene regular meetings, and must convene additional meetings if requested by two members of the committee. The committee will advise the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial and tax-related issues and dealings with other universities. All recommendations regarding curricular matters will go to the Graduate Curricular Affairs Committee and the Faculty Senate for approval.

4. The Developmental Studies Committee will include one representative from each of the following units: Northwest Campus, Chukchi Campus, Kuskokwim Campus, Bristol Bay Campus, Interior-Aleutians Campus; ((the College of Natural Sciences)) COLLEGE OF SCIENCE, ENGINEERING AND MATHEMATICS SCIENCE DEPARTMENT (BIOLOGY, CHEMISTRY, GEOLOGY, OR PHYSICS) AND MATHEMATICS DEPARTMENT; the COLLEGE OF LIBERAL ARTS English DEPARTMENT, ((Mathematical Sciences)), STUDENT SUPPORT SERVICES PROGRAM, and Cross Cultural Communications Department; the Developmental Studies Division of the College of Rural Alaska; Rural Student Services; and the Advising Center; and two representatives from the Tanana Valley Campus.

   The Developmental Studies Committee shall consider policies concerning developmental education: programs, courses, instructional development, evaluation, and assessment. This committee will function as a curriculum council review committee for all developmental studies courses. Discipline based developmental courses will be reviewed by the appropriate college curriculum council before submission to this committee for review and coordination.

5. The Faculty Development, Assessment and Improvement Committee will be composed of faculty members and the Director of Faculty Development. This committee will deal with faculty and instructional development and evaluation.

6. The Committee to Nominate Commencement Speaker and Honorary Degree Recipients will nominate commencement speakers and candidates for honorary degrees.

7. The Legislative and Fiscal Affairs Committee will follow legislative and fiscal issues which may impact faculty concerns at the university and will act as a faculty advocate with legislators and candidates.

8. The Faculty Appeals and Oversight Committee shall be composed of two tenured faculty members, elected from each college/school and confirmed by the Faculty Senate. ((who shall serve for a two year term. Members' terms will be staggered to provide continuity.)) This committee will function as an appeal body for issues of faculty prerogative, oversee evaluation of academic administrators, and make recommendations to the Provost or Chancellor.

Committee members shall constitute a hearing panel pool to serve as needed on grievance hearing panels.

A promotion/tenure appeals subcommittee composed of five tenured faculty will hear all promotion and/or tenure reconsideration requests and report its findings to the Chancellor according to University of Alaska Fairbanks Regulations, Section IV,B,4.

F. Any standing or permanent committee may create subcommittees to assist the committee.

G. The Senate President may create and appoint the members of any ad hoc committee necessary for conducting Senate business. Ad hoc committees are subject to later ratification by the Senate.

H. Committees must forward any legislation which involves the setting or altering of policy to the full Senate for approval. Committees which are specifically charged with applying policy to make decisions may do so without having the Senate approve those decisions. A review by the full Senate may be requested by the reviewing Senate committee. A request to the Senate Administrative Committee for a further Senate review may also be submitted by individual Senators if the question has policy implications. THE COMMITTEE CHAIR IS RESPONSIBLE FOR THE PRESENTATION OF THE COMMITTEE¹S MOTION TO THE SENATE AT THE MEETING IN WHICH IT WILL BE CONSIDERED.

EFFECTIVE: Immediately
Upon Chancellor¹s Approval

RATIONALE:

A. The work of the University-wide Promotion and Tenure Committee and the Committee to Nominate Commencement Speakers and Honorary Degree Recipients is more seasonal than routine and the work is done largely in executive session for which there can be no public report. Hence the chairs are much less involved in the routine work of the Senate.

B. These changes apply the length and staggering of appointments uniformly to all committees and provide the mechanism for creating staggered committee appointments.

E. STANDING, 2 & 3 Scholarly Affairs has done nothing for three years, yet its reason for being may have some importance. By combining the two committees, such matters as may perhaps come up in the future which would normally be considered by Scholarly Affairs could be handled by the combined Faculty and Scholarly Affairs.

E. PERMANENT, 4. Changes in the college structure and realignment of departments delivering developmental courses require the name changes and the inclusion of another program.

H. It is difficult to proceed with a proper discussion of a motion submitted to the Senate if the committee chair is not there to provide information on the

committee¹s deliberation.

FALL:
Orientation for New Students - Sunday-Wednesday, August 30-September 3, 1997
Labor Day - Monday, September 1, 1997
Registration/Course Selection - Tuesday-Wednesday, September 2-3, 1997
First Day of Instruction - Thursday, September 4, 1997
Thanksgiving Holiday- Thursday-Friday, November 27-28, 1997
Last Day of Instruction - Friday, December 12, 1997
Final Examinations - Monday-Thursday, December 15-18, 1997
Winter Closure - December 25, 1997-January 4, 1998

SPRING:
Orientation for New Students - Monday-Tuesday, January 12-13, 1998
Registration/Course Selection - Tuesday-Wednesday, January 13-14, 1998
First Day of Class - Thursday, January 15, 1998

Alaska Civil Rights Day (no classes) - Monday, January 19, 1998
Spring Break - Monday-Sunday, March 16-22, 1998
Last Day of Instruction - Friday, May 1, 1998
Final Examinations - Monday-Thursday, May 4-7, 1998

****
The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION PASSED
==========

The UAF Faculty Senate moves to conduct the first half of the last meeting of each year by audioconference and conduct the second half of the meeting face-to-face.

EFFECTIVE: Immediately

RATIONALE: The first half of the meeting is conducted by the outgoing Senate and the second half is conducted by the new Senate. Holding the meeting is such a manner will reduce the cost of travel for units with outgoing members and still allow new members to meet face-to-face.

****
The UAF Faculty Senate passed the following at its Meeting #69 on February 10, 1997:

MOTION TABLED (17 yes, 7 nays)
==========

The UAF Faculty Senate moves to RE-AFFIRM its position on salary/compensation, locus of tenure, and post-tenure review as expressed in the following motions passed at UAF Senate meetings #56 and #63 with the further understanding that the position on post-tenure review articulates the preliminaries of a formative, rather than a summative, policy which is to be linked to faculty development.

In so moving, the UAF Faculty Senate directs that these policy statements be transmitted to the appropriate committees of United Academics currently working on the contract proposal to be negotiated with the University of Alaska administration, the intent of this transmittal being that these Senate policy statements be incorporated in the contract proposal.

EFFECTIVE: Immediately

RATIONALE: The motion is presented in the spirit of solidarity and cooperation with United Academics concerning mandatory items of collective bargaining. United Academics committees are currently working on contract language and stand to benefit from the work of the UAF Faculty Senate insofar as it has spoken to these specific mandatory items of collective bargaining. The motion, furthermore, directly responds to Lawrence Weiss[1] memo to D. Lynch and P. Slattery of 2/2/97 inviting [3]substantial contribution to the contract proposal.[2] Moreover, the UAF Faculty Senate reserves it right to pronounce on policy recommendations pertinent to faculty affairs, this consistent with AAUP's "Statement on Academic Government for Institutions Engaged in Collective Bargaining", in particular that "Collective bargaining should

not replace, but rather should ensure, effective traditional forms of shared governance...Collective bargaining should ensure institutional policies and procedures that provide access for all faculty to participation in shared governance. Employed in this way, collective bargaining complements and supports structures of shared governance consistent with the "Statement on Government."

The UAF Faculty Senate passed the following at its Meeting #68 on December 9, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve changing the name of the Alliance of Faculty Senates to Faculty Alliance.

EFFECTIVE: Immediately

RATIONALE: This name change is proposed by the Alliance which is a coordinating body of all three campus governing bodies because of the University of Alaska Southeast Reorganization. In this change, Southeast has replaced its Senate with a Council, and, therefore, the current name is not correct. The change to Faculty Alliance is appropriate.

****

The UAF Faculty Senate passed the following at its Meeting #68 on December 9, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to disband the Health Issues Committee of the UAF Governance Coordinating Committee and approves the following revisions to the Procedures:

(( )) = Deletion

ARTICLE V Committees

Sect. 1 The conference committees of the UAF Governance Coordinating Committee shall include:

Academic Computer Users Committee
Intercollegiate Athletics Committee
Chancellor¹s Advisory Committee on Public Safety, Transportation and Parking
Rural Affairs Committee
UAF Grievance Council
((Health Issues))

Sect. 3 Conference Committees Charges

((F. Health Issues Committee

The charge of the Health Issues committee shall be to:

1. address health issues which affect the work environment.
2. coordinate efforts with the Health Center, Fire Department, Risk Management, and Public Safety to find solutions to health issues.))

EFFECTIVE: Upon Faculty Senate, Staff Council, and ASUAF approval, prior to Chancellor¹s approval

RATIONALE: A Statewide committee has been formed to address possible changes to the health benefits program. The Health Issues Committee would only duplicate efforts by this committee and would not be a productive use of staff, faculty and student time.

****
The UAF Faculty Senate passed the following at its Meeting #68 on December 9, 1996:

MOTION PASSED (20 ayes, 5 nays)
==========

The UAF Faculty Senate moves to refer the motion to adopt a procedure for petitions to the CORE based on documentation of student disability to Curricular Affairs for review of the context of the motion in the overall petition process.

****
The UAF Faculty Senate passed the following at its Meeting #68 on December 9, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve a new program in Health Technology which includes an AAS in Medical Assistant and two certificates: Medical/Dental Reception and Phlebotomy & Laboratory Assisting.

EFFECTIVE: Upon Board of Regents¹ Approval

RATIONALE: See attached Executive Summary. Full program proposal #83 on file in the Governance Office, 312 Signers¹ Hall.

Executive Summary of Medical Assistant Certificate and Degree Program Request, Division of Health Technology, College of Rural Alaska

Request prepared by:
Betsy Tozzi, Assistant Professor, Health Technology, CRA/TVC
Linda Curda, Assistant Professor, Division Head, Health Technology, CRA/KUC
Ruth Lister, Director, Tanana Valley Campus, College of Rural Alaska

The Medical Assistant Certificate and A.A.S. Programs prepare students for careers as health care paraprofessionals. Employers have indicated needs for workers that crossed functional borders within their organizations (i.e. identified the need for skilled, cross-trained individuals), and most frequently cited a need for administrative staff (receptionists and billing/reimbursement specialists) and out-patient care paraprofessionals (phlebotomists, procedure assistants, instrument care specialists). The specialty certificates in Medical/Dental Reception and Phlebotomy and Lab Assisting as well as the Medical Assistant A.A.S. degree have been designed to be responsive to these local employers' needs.

Welfare reform has reduced education and training benefits to

eligible recipients; eligible individuals may receive financial support for a maximum of 12 months. To address these welfare reform changes and the needs of many students to enter the work force as soon as possible, the Medical/Dental Reception Certificate and Phlebotomy and Lab Assisting Certificate programs document proficiency in specialized skill areas and provide employment options when students have completed approximately 1/2 the necessary credits required for the Medical Assistant A.A.S. degree. After graduating with a certificate, a student may elect to complete the Medical Assistant A.A.S. degree requirements in order to enhance employability. As a direct result of their course work within the program, three students have been hired as phlebotomists in Fairbanks, and one of these three individuals has already sat for the ASCP national examination and received a passing score, thereby achieving national certification as a Phlebotomy Technician (PBT, ASCP).

These proposed programs have been developed to align with the UAF 2000 strategic plan. As accreditation of health care programs will be required for students to be eligible to sit for national certification examinations, curricula have been constructed to meet all necessary accreditation standards. Inasmuch as all required program components have been developed and are in place, no complications are foreseen in implementation of certificate and A.A.S. degree programs upon approval. Resources and equipment needs will not require allocation of any additional funds to Tanana Valley Campus or College of Rural Alaska. No new funding is required or requested to support the programs. Disposable medical supplies for classes are paid for with student material fees; donations of equipment and supplies from numerous sources have helped offset start-up costs and ongoing expenditures.

In conclusion, due to current and future needs for skilled health care workers and cost containment mandates in health care, the Medical Assistant Certificate and A.A.S. Degree programs in the College of Rural Alaska are well positioned to provide vocational-technical training for interested students. The implementation of these programs will benefit the university by generating increased student credit hours and improved ties with the community, employers, and government agencies. The Medical / Dental Reception Certificate, Phlebotomy and Lab Assisting Certificate, and the Medical Assistant A.A.S. degree programs will generate a cadre of well-qualified cross-trained health care paraprofessionals and allow employers to recruit from their local communities rather than hiring new staff from outside of Alaska.

October 28, 1996

The UAF Faculty Senate passed the following at its Meeting #68 on December 9, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve the Certificate in Applied Business.

EFFECTIVE: Upon Board of Regents¹ Approval

RATIONALE: See attached Executive Summary. Full program proposal #48 on file in the Governance Office, 312 Signers¹ Hall.

CERTIFICATE OF APPLIED BUSINESS
UNIVERSITY OF ALASKA FAIRBANKS
COLLEGE OF RURAL ALASKA
TANANA VALLEY CAMPUS

Regents Executive Summary

The UAF College of Rural Alaska proposes an innovative vocational, technical education certificate in Applied Business. This certificate is intended to serve Alaskan businesses and organizations by providing a pool of graduates who have received comprehensive training (30 credits) in critical aspects of business management. The certificate will further act as a stepping stone for the Associates Degree in Applied Business and various Bachelor Degrees.

Currently, there are over 60 declared majors in the Applied Business program and credit hour production increased 30% in the fall of 1996 compared to fall of 1995. While subscription to the applied business courses are strong, the credit hours do not currently produce a corresponding number of graduates Low numbers of graduates are a result of program demographics. Nearly all students are non-traditional and part-time (i.e. more mature, experienced, and working full or part-time, taking 6 credits). As a result of work and family demands completing all the academic requirements for an A.A.S. may take more than 5 years. This intermediate vocational education certificate is therefore vital to continued student motivation.

Many small to medium size business, non-profits, and agencies in Fairbanks promote employees into management positions without benefit of formal supervisory training. There is a strong need for a structured and credible management training certificate program in Fairbanks. The Northwest, Kuskokwim, and Tanana Valley Campuses already provide that management training through existing applied business courses as part of the A.A.S. degree. An intent of this certificate is to "bundle" those courses already offered in other programs into a meaningful management curriculum which will fulfill a current training need in both Rural Alaska and Fairbanks and provide a path for business people who have no college experience to earn degrees.

Faculty who teach the courses required in this certificate have significant credibility within their respective local business sectors. Once the certificate program is approved, the College of Rural Alaska Applied Business department will implement an image campaign to stimulate additional demand by business for employees awarded this certificate.

Implementation of the Certificate in Applied Business will support the University of Alaska's commitment to business development within the State of Alaska and the vocational education component of the university's mission. Credits from the certificate are readily transferred and accepted within the A.A.S. business degrees of UAA and UAF. Implementation of the certificate will significantly benefit students who transfer between universities prior to award of their A.A.S. degree.

Finally, there is no additional cost to UAF or the University of Alaska System for this certificate. All faculty required to teach the certificate courses are currently employed and all courses required are currently offered through other degree programs.

9/30/96

The UAF Faculty Senate passed the following at its Meeting #68 on December 9, 1996:

RESOLUTION PASSED (19 ayes, 4 nays)
==========

WHEREAS the UAF Faculty Senate is the duly elected assembly of faculty representatives, serving as the legislative body of the university faculty, having authority to recommend on formulation and implementation of policy pertinent to faculty governance at UAF; and

WHEREAS the UAF Faculty Senate carries out the tasks of faculty governance through a number of Standing and Permanent Committees; and

WHEREAS the charge of the UAF Faculty Senate's various Standing and Permanent Committees includes evaluation and recommendation on policy initiatives affecting faculty governance; and

WHEREAS the UAF Faculty Senate's Standing Committee on Faculty Affairs and the UAF Faculty Senate's Ad Hoc Committee on Union-Governance Relations have specific charge to evaluate and recommend on policy directly and substantially pertinent to mandatory items of collective bargaining; and

WHEREAS United Academics/AAUP-AFT is a duly recognized collective bargaining agent negotiating with the University of Alaska Administration on behalf of faculty concerns; and

WHEREAS United Academics/AAUP-AFT, notwithstanding its legally independent incorporation, is constituted inter alia explicitly to sustain and enhance faculty governance at the University of Alaska;

THEREFORE BE IT RESOLVED That the UAF Faculty Senate hereby requests the Executive Board of United Academics/AAUP-AFT:

(1) to reaffirm, by way of written communication to the President of the UAF Faculty Senate and to the President of the Faculty Alliance, UA/AAUP-AFT's commitment to sustain and enhance faculty governance at the University of Alaska;

(2) to make provision, by way of exchange of written and oral communications, for the UAF Senate's Ad Hoc Committee on Union-Governance Relations to review and recommend on the substance of UA/AAUP-AFT contract negotiations with the University of Alaska Administration;

(3) to include a member of the UAF Faculty Senate's Standing Committee on Faculty Affairs, who is also a member of United Academics, in UA/AAUP-AFT Executive Board deliberations on contract negotiations; and,

(4) to appoint, as representative of the UAF Faculty Senate, a member of the UAF Faculty Senate's Standing Committee on Faculty Affairs, who is also a member of United Academics, to the UA/AAUP-AFT Contract Negotiating Team,

with all rights and privileges of participation thereto pertaining.

****
The UAF Faculty Senate passed the following at its Meeting #68 on December 9, 1996:

MOTION PASSED (21 ayes, 5 nays)
==========

The UAF Faculty Senate moves to change the policies on "Withdrawing from a Class" and "Faculty Initiated Withdrawal" and the grading policies of "I" Incomplete and "NB" No Basis, as follows:

(( )) = deletions,
CAPS = ADDITIONS

Withdrawing from a Class --

If you withdraw from a class after the third Friday after the first day of instruction, a grade of "W" will appear on your academic record. The "W" grade does not affect your GPA. The last day you can withdraw from a class is the ((fourth)) NINTH Friday after the first day of instruction. ((unless you are a freshman or a non-degree students. Freshman and non-degree students may withdraw from classes until the sixth Friday after the first day of instruction.))

Faculty Initiated Withdrawal/DROP--

((If you do not meet the prerequisites for a course in which you have enrolled the faculty member teaching that course has the right to drop you from the class prior to the fourth Friday after the first day of instruction.))

IF YOU DO NOT MEET THE PREREQUISITES FOR A COURSE IN WHICH YOU HAVE ENROLLED, OR IF YOU HAVE NOT PARTICIPATED SUBSTANTIALLY IN THE COURSE, THE FACULTY MEMBER TEACHING THAT COURSE HAS THE RIGHT TO WITHDRAW YOU FROM THE CLASS BY THE NINTH FRIDAY AFTER THE FIRST DAY OF INSTRUCTION. IF YOU ARE WITHDRAWN FROM A CLASS AFTER THE THIRD FRIDAY AFTER THE FIRST DAY OF INSTRUCTION, A GRADE OF "W" WILL APPEAR ON YOUR ACADEMIC RECORD. FACULTY INITIATED WITHDRAWALS PREVIOUS TO THE THIRD FRIDAY AFTER THE FIRST DAY OF INSTRUCTION WILL BE TREATED AS A DROPPED CLASS.

"I" Incomplete--

A grade used to indicate that ((you've satisfactorily completed (C or better) the majority of the work in a course, but for personal reasons beyond your control,)) YOU haven't been able to complete the course during the scheduled course time.

When the "I" grade is given, the instructor includes a statement of the work required of you to complete the course AND THE TIME LIMITS YOU HAVE TO COMPLETE THE WORK. THE MAXIMUM TIME TO BE ALLOWED IS ONE YEAR. AT THE END OF THE DEFINED TIME LIMITS THE INSTRUCTOR MAY ISSUE A GRADE BASED ON THE WORK TURNED IN. IF THE INSTRUCTOR DOES NOT CHANGE THE "I" GRADE IT BECOMES PERMANENT AT THE END OF ONE YEAR.

((You must make up an incomplete within one year or it will automatically be changed to an "F" grade.)) The "I" grade is not computed in your GPA. ((until it has been changed to a regular letter grade by the instructor or until one year has elapsed, at which time it will be computed as an "F")) Seniors cannot graduate with an "I" grade in either a UAF or major course requirement. ((To determine a senior's GPA at graduation , an "I" grade will be computed as a failing grade))

((("NB" No Basis--

Instructors may award a No Basis (NB) grade if there is insufficient student progress and/or attendance for evaluation to occur. No credit is given, nor is "NB" calculated in the GPA. This is a permanent grade and may not be used to substitute for the Incomplete (I). It can¹t be removed by later completing outstanding work.))

EFFECTIVE: Fall 1997

RATIONALE: With the change in the cap on tuition student credit shopping does not seem to be a problem, which was one of the main reasons for the double tiering of the original policy. This change makes the withdrawal policy uniform for all students. This policy does not effect the CRA policy which states that students have nine weeks for their withdrawal period.

The faculty initiated withdrawal policy change gives the instructor the ability to remove from the class students who have a very high probability of failing the class if they were to attempt to start participation at a later date. It also provides a bit of a grade safety net for students who for what ever reason sign up for a class and then never turn in any work, but also never withdraw, from accumulating a series of "F" grades.

Students who are Faculty dropped during the first three weeks, because they do not meet the course prerequisites, will not have the course appear on their transcript and they will receive a full tuition refund. Students who are Faculty Withdrawn after the fourth Friday will receive a "W" on their transcript and will not receive any tuition refund.

This may place students who are receiving financial aid in jeopardy of loosing that aid but in most cases this policy will be no more onerous than if the student received a grade other than an A, B, C, or D.

This change in the "I" grade gives the instructor the option to control the time limits and to issue a grade based on the work turned in. The permanent "I" more correctly reflects what the student did not accomplish, as compared to the transformation of the "I" to an "F". A student who receives a permanent "I" grade would have to retake the course to earn credit. The criteria by which the instructor will issue the "I" can be delineated at the beginning of the course, just as they do for all other grades. As per the catalog instructors are expected to state their grading policies in writing at the beginning of each course.

Changes in the "I", and "W" grading policies address the

purposes for having the "NB" grade. Therefore the "NB" grade is no longer needed.

The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

MOTION PASSED
==========

The UAF Faculty Senate moves to continue the tabling of the Withdrawal/ No Basis grade issue until the December 9, 1996 face-to-face meeting.

EFFECTIVE: Immediately

RATIONALE: The Curricular Affairs (CA) and the Developmental Studies (DS) Committees have a sub-committee tasked with developing a compromise motion. This sub-committee is meeting by audioconference and will report back to CA and DS from which a motion will be sent to the Faculty Senate.

The December 9, 1996, Senate meeting is face-to-face allowing for full participation of all Senators.

****

The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

MOTION PASSED (22 aye, 6 nays)
==========

The UAF Faculty Senate moves to approve the Core Review Committee¹s recommendation on when basic Core skills courses shall be accomplished.

Beginning Fall 1997 all students are required successfully to accomplish English 111X prior to enrollment in written intensive (³W²) courses and Communication 131X (or 141X) prior to enrollment in oral intensive (³O²) courses. Exceptions are allowable on the basis of permission of instructor.

EFFECTIVE: Fall 1997

RATIONALE: Having spent a week with Jim Ratcliff discussing the University's mandate for Effectiveness Evaluation, we have identified an obvious flaw in the way the University has enacted the CORE curriculum. For whatever historical reasons the current lack of an imposed time frame for accomplishing CORE skills has come about, if the University is serious about current efforts to do a curriculum-enhancing assessment and to improve the retention of a greater percentage of incoming students, it is time to change the expectation of when basic CORE skills courses shall be accomplished.

As the requirements stand, no student is required to complete basic skills courses at any specific point before graduation. This situation is antithetical to any sense of what those courses are intended to accomplish. If, as stated, we intend to give our students the tools with which to be competitive, both in classes at the

University and life experience beyond, the most primary skills of writing, speaking, and working with diverse groups must be a part of the educational experience as close to the student's entry into the educational process as we can accommodate. How can we expect to encourage content education of students who are preoccupied with a lack of or deficit in basic student skills? And how can students participate in experiences that encourage retention if a lack of basic skills robs them of the satisfaction that learning successes engenders? It is the position of the Core Review Committee that English IIIX and Communication 131X (or 141X) should be accomplished, as a requirement, in the student's first year of classes. In recognizing that such a shift in requirements, while it is in line with practices at many other state universities, might be a hardship to this University, we believe that we must require basic skills courses to be completed before the end of the sophomore year. Both Communication and English serve over 100% of demand by the end of enrollment. Given the anecdotal experience of teaching faculty in regard to the current policy vacuum, we submit this motion.

****

The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to eliminate the requirement for an advisor's signature on a registration form for all continuing graduate students

Furthermore, it will become policy of the University of Alaska Fairbanks starting in Fiscal Year 1998 that all graduate research assistantships, teaching assistantships, fellowship and tuition scholarship stipend letters contain the following language:

tuition paid as part of graduate assistantships, fellowships, or tuition scholarships covers only courses approved by the student's Advisory Committee.

EFFECTIVE: July 1, 1997

RATIONALE: The signature requirement was originally instituted to ensure that 1) graduate students get advising and work closely with their advisor and committee in course selection; and 2) the university and/or grants which pay tuition are not paying for courses that are not reasonably related to the progress of the student. However, it was the consensus of the Graduate Curricular Affairs Committee that the requirement to obtain an advisor's signatures for registration did not meet either of these goals, and could be construed as paternalistic towards graduate students. However, removal of the signature requirement leaves concern about oversight of the classes being taken by those graduate students receiving research or teaching assistantships, fellowships or tuition scholarships.

After further discussion of the role of faculty advisors and the necessity for advisors to play a pro-active role in reaching out to students to track class enrollment,

progress and performance, and discussion on the necessity for the University to be clear about what courses a student can take when the UAF or a research grant is paying for tuition, the motion above was unanimously approved by members of GCAC.

****
The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend Section 3 (ARTICLE V: Committees) E., PERMANENT, 8. of the Bylaws as follows:

(( )) = deletion
CAPS = addition

8. The Faculty Appeals and Oversight Committee shall be composed of two tenured faculty members, elected from each college/school and confirmed by the Faculty Senate, who shall serve for a two year term. Members' terms will be staggered to provide continuity. ((This committee will function as an appeal body for issues of faculty prerogative, oversee evaluation of academic administrators, and make recommendations to the Provost or Chancellor.))

A promotion/tenure appeals subcommittee composed of five tenured faculty will hear all promotion and/or tenure reconsideration requests and report its findings to the Chancellor according to University of Alaska Fairbanks Regulations, Section IV,B,4. THE SUBCOMMITTEE WILL BE SELECTED BY THE CHAIR OF THE FACULTY APPEALS AND OVERSIGHT COMMITTEE AND WILL NOT INCLUDE FACULTY FROM THE UNITS IN WHICH THE REQUESTS FOR RECONSIDERATION ORIGINATED. NO TWO FACULTY FROM THE SAME UNIT, AS CURRENTLY ELECTED TO THE COMMITTEE, WILL BE SELECTED FOR THE SUBCOMMITTEE.

Committee members shall constitute a hearing panel pool to serve as needed on grievance hearing panels, AS SPECIFIED IN REGENTS' POLICY 04.08.08.VI.A.

Committee members shall oversee the process of evaluation of academic administrators.

A NON-RETENTION APPEALS SUBCOMMITTEE COMPOSED OF FIVE TENURED FACULTY WILL HEAR ALL NON-RETENTION RECONSIDERATION REQUESTS AND REPORT ITS FINDINGS TO THE CHANCELLOR. THIS SUBCOMMITTEE WILL CONDUCT BUSINESS IN THE SAME FASHION AS THE PROMOTION/TENURE APPEALS SUBCOMMITTEE, I.E., WILL REVIEW THE AVAILABLE DOCUMENTS AND MAKE A DETERMINATION ON WHETHER OR NOT APPROPRIATE POLICY AND DUE PROCESS WAS FOLLOWED.

COMMITTEE MEMBERS SHALL REVIEW ISSUES DEALING WITH FACULTY PREROGATIVE AND MAKE RECOMMENDATIONS FOR POLICY CHANGES TO THE FACULTY SENATE.

EFFECTIVE: Immediately

RATIONALE: This motion clarifies the charge of the committee as currently stated in the Bylaws. It also adds a non-retention appeals subcommittee to hear

non-retention reconsideration requests. This will provide an avenue for appeals by non-retained faculty similar to that provided by the promotion/tenure appeals subcommittee for faculty who are denied tenure or promotion.

****
The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

RESOLUTION PASSED (17 ayes, 12 nays)
==========

WHEREAS, current UA Board of Regents policy calls for faculty returning from a sabbatical leave to submit a written report; and

WHEREAS, the Faculty Development, Improvement, and Assessment Committee of the UAF Faculty Senate recommends that an oral report to the faculty of the university, one in the series of Faculty Seminars sponsored jointly by the Faculty Senate, Provost¹s Office, and the Academic Unit in which the faculty member holds their appointment, be a new requirement of the returning sabbatical leave faculty member; and

WHEREAS, this fosters intellectual exchange within UAF academic community, reinforces the legitimacy of sabbatical leaves to reinvigorate faculty, and provides opportunities to share UAF's research and scholarly traditions and experiences with the broader constituencies of UAF and the community statewide;

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recommends the development of a Faculty Seminar Series. The purpose of the seminar is to enable faculty returning from sabbatical leave to share their experiences with the University community and the public at large. The Senate anticipates that faculty will be required to participate.

****
The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees) A., of the Bylaws as follows:

(( )) = deletion
CAPS = addition

A. An Administrative Committee will be composed of the chairpersons of all standing and permanent Senate committees, AND THE PROVOST OF THE UNIVERSITY SHALL BE AN EX OFFICIO, NON-VOTING MEMBER. SPECIFIC DUTIES OF THE ADMINISTRATIVE COMMITTEE IN ITS OBLIGATION TO FULLY PREPARE THE AGENDA AND MATERIALS FOR EFFICIENT OPERATION OF THE SENATE ARE:

1. RECEIVE REPORTS FROM THE PRESIDENT OF THE SENATE, THE PROVOST, AND, AS DEEMED TIMELY, OTHER INDIVIDUALS, ON ISSUES OF CURRENT AND FUTURE IMPORTANCE TO THE SENATE;

2. ACCEPT AND REVIEW THE MOTIONS OF STANDING AND PERMANENT COMMITTEES, AND FROM MEMBERS OF THE ADMINISTRATIVE COMMITTEE;

3. MAKE CERTAIN THAT THE MOTIONS ARE READY FOR SENATE ACTION TO THE MAXIMUM DEGREE POSSIBLE, AND IF NOT, REFER THEM BACK FOR FURTHER WORK AND/OR DIRECT THEM TO OTHER RELEVANT COMMITTEES THAT MAY NOT HAVE CONSIDERED THE MOTIONS;

4. MOVE THE MOTIONS TO THE SENATE'S AGENDA;

5. REVIEW AND APPROVE OTHER ITEMS OF THE SENATE'S AGENDA, AS DEEMED NECESSARY;

6. REVIEW REPORTS OF ALL COMMITTEE WORK IN PROGRESS; AND

7. DISCUSS OTHER ISSUES, THAT MAY OR SHOULD LEAD TO LATER COMMITTEE AND SENATE ACTIONS.

IN ADDITION,

8. WITHIN THE SCOPE OF AUTHORITY GRANTED BY THE SENATE AT THE LAST MEETING OF THE SPRING SEMESTER, THE ADMINISTRATIVE COMMITTEE WILL REPRESENT THE SENATE FROM THE CLOSE OF THE LAST SENATE MEETING IN THE SPRING UNTIL THE OPENING OF THE FIRST SENATE MEETING OF THE FALL SEMESTER; AND

9. AT THE FIRST MEETING IN THE FALL SEMESTER MAKE A REPORT OF ALL ACTIONS CARRIED OUT IN THE NAME OF THE SENATE SINCE THE LAST MEETING IN THE SPRING SEMESTER.

EFFECTIVE: Immediately

RATIONALE: The duties and obligations of the Administrative Committee are not clearly defined in the Constitution and Bylaws, and can vary from year to year based on the experiences and desires of individuals chairing the committee.

****

The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

MOTION PASSED (unanimous)

==========

The UAF Faculty Senate moves to appoint an ad hoc committee to study the relationship and/or structures of faculty governance at universities in which the faculty are unionized, and to report back to the Senate in a timely manner. Members will be:

Rich Seifert, Chair, Faculty Development, Assessment & Improvement Committee
Diane Bischak, Chair, Faculty Appeals & Oversight Committee
Norm Swazo, Chair, Faculty Affairs Committee

EFFECTIVE: Immediately

RATIONALE: Significant interest has been expressed for

a senate study of these issues, and one committee has already formed a subcommittee. A coordinated effort is required. Greater understanding of these relationships can aid the Senate in its preparations for the new environment. Three individual committee chairs have agreed to serve on such a committee.

****

The UAF Faculty Senate passed the following at its Meeting #67 on November 11, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to confirm that any and all UAF courses were included in the course compression and course approval motion passed by the Faculty Senate's #59 meeting dated November 13, 1995.

EFFECTIVE: Immediately

RATIONALE: In the Curricular Affairs meeting dated October 11, 1996 this issue was discussed and it was moved in committee to confirm that the 500 level courses were included in the November 13, 1995 motion. The November 13, 1995 motion originally came from the Curricular Affairs Committee.

Motion in question:

Any course compressed to less than six weeks must be approved by the college or school's curriculum council. Furthermore, any core course compressed to less than 6 weeks must be approved by the Core Review Committee.

Any new course proposal must indicate those course compression formats in which the course will be taught. Only those formats approved will be allowed for scheduling.

The UAF Faculty Senate passed the following at its Meeting #66 on October 14, 1996:

MOTION PASSED
==========

The UAF Faculty Senate moves to amend the Associate of Arts Requirements in the following way:

To allow three semester-length courses (9 credits) in American Sign Language taken at the university level to be substituted for one of the required humanities and social science core courses, and the three-credit humanities or social science elective.

EFFECTIVE: Fall 1996

RATIONALE: During the 1995-96 year, the Faculty Senate approved the use of three semester-length courses (9 credits) in American Sign Language to substitute for two courses in the Perspectives on the Human Condition section of the baccalaureate core curriculum. At the time this was presented and approved, no consideration was given to the associate of arts degree requirements.

The humanities and social science requirements for the associate of arts degree are identical to the baccalaureate core ³Perspectives on the Human Condition² area with the exception that 3 credits of humanities or social science electives are required instead of Phil. 3232X/PS 300X.

This motion meets the intent of the Faculty Senate to facilitate the movement of associate of arts students into baccalaureate degree programs.

****

The UAF Faculty Senate passed the following at its Meeting #66 on October 14, 1996:

RESOLUTION PASSED
==========

BE IT RESOLVED, That the UAF Faculty Senate moves to confirm the Chemistry and Biochemistry Department Peer Review Committee for the 1996-97 academic year as indicated below:

Don Button, Marine Science & Biochemistry
Tom Clausen, Chemistry/Biochemistry
John French, Fisheries & Biochemistry
Dan Jaffe, Chemistry/Biochemistry
Gerry Plumley, Marine Science
Glen Shaw, Geophysics
Richard Stolzberg, Chemistry/Biochemistry

EFFECTIVE: Immediately

RATIONALE: According to UAF Regulations, units with less than seven tenured faculty must have their Unit Peer Review committees augmented with additional appropriate faculty. Presently the Chemistry Department has six tenured faculty, one of whom is serving on the University-wide Promotion and Tenure

Committee. Thus, Chemistry has only five faculty eligible for serving on the Unit Peer Review Committee.

****

The UAF Faculty Senate passed the following at its Meeting #66 on October 14, 1996:

MOTION TABLED
==========

The UAF Faculty Senate moves to change the Student-Initiated Withdrawal Policy that applies to all Fairbanks campus courses (i.e., all UAF courses except those given by the rural campuses or the Center for Distance Education); and change the no basis (NB) grade to the following:

The last day for student-initiated withdrawal for all Fairbanks campus students shall be the sixth Friday of the semester.

Class roll correction forms completed by faculty during the sixth week of class (rural campuses will follow their own time line) will also serve as faculty initiated withdrawal forms for students not attending or participating in that course. For courses with duration other than the normal fall or spring semester the time period will be prorated according to the length of the course. For non-semester based correspondence students a course length of one year will be used.

The no basis (NB) grade will be eliminated from grades given at UAF.

EFFECTIVE: Fall 1997

RATIONALE: One major factor in the senate vote that created the relatively short time period for student initiated withdrawals was a belief that students were shopping for credits. The elimination of the tuition cap and implementation of new late add fees have changed the situation.

Each semester the faculty is requested by the registrar to correct class rolls but often see no change in the status of nonparticipating students in subsequent class rolls. Although our registrar may check student initiated withdrawal records, or change to audit requests, and may even attempt to contact these students, in many cases no change occurs in the student's status.

With the faculty being able to withdraw students who are not attending class or who have not submitted work by the end of the sixth week, there is no longer a need for the NB grade.

Together these changes should reduce student resentment for missing a deadline, reduce the number of negative interactions between students, faculty, and administrators, and reduce the abuse of NB grades.

The UAF Faculty Senate passed the following at its Meeting #65 on September 23, 1996:

MOTION
=======

The UAF Faculty Senate moves to approve the Associate of Applied Sciences degree in Apprenticeship Technology as amended by the Curricular Affairs Committee and with the Registrar¹s certification that the degree meets UAF requirements.

EFFECTIVE: Immediately

RATIONALE: See full program proposal on file in the Governance Office, 312 Signers¹ Hall.

****

The UAF Faculty Senate passed the following at its Meeting #65 on September 23, 1996:

MOTION:
========

The UAF Faculty Senate reaffirms its position on non-discrimination in the workplace as originally passed by the UAF Faculty Senate at its Meeting #39 on February 8, 1993:

RESOLUTION PASSED
==================

WHEREAS, the University of Alaska Board of Regents is currently discussing University policy on nondiscrimination; and

WHEREAS, the issues of discrimination and harassment are being debated in universities nationwide; and

THEREFORE, The Faculty Senate of the University of Alaska Fairbanks affirms its expectation that no discrimination against or harassment of individuals will be condoned on any of the campuses or in the programs or activities of the University. Consistent with this expectation, the Faculty Senate urges that all professional judgments be based on qualifications, abilities and performance. Attitudes, practices, and preferences of individuals that are essentially private in nature and that are unrelated to performance should provide no basis for judgment.

ORIGINAL

The Administrative Committee of the UAF Faculty Senate passed the following on May 3, 1996:

MOTION

=======

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: copy of the list is available in the Governance Office, 312 Signers' Hall.]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, we are making that recommendation.

The UAF Faculty Senate passed the following at its Meeting #64 on May 13, 1996:

MOTION PASSED
==========

The UAF Faculty Senate moves to empower the Administrative Committee to act on behalf of the Senate until the Senate resumes deliberations in the Fall of 1996 on all matters within its purview which may arise. Senators will be kept informed of the Administrative Committee meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 13, 1996

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their reights to participate in the governance process.

Steven J. Gilbert 5-13-96

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #64 on May 13, 1996:

RESOLUTION PASSED
==========

WHEREAS, The University of Alaska is dedicated to promoting an environment of non-discrimination and fairness in which all employees, staff and students are treated equally; and

WHEREAS, The establishment of domestic partnership benefits programs has been used by top institutions and companies around the country to attract and retain highly qualified employees (over 450 companies and 100 institutions of higher education, both public and private, including Princeton, Harvard, the University of South Carolina, the University of South Dakota, Stanford, and the University of Iowa, offer similar domestic partnership programs); and

WHEREAS, The University of Alaska, last September instituted a Domestic Partnership benefits program that has not resulted in economic or administrative impacts; and

WHEREAS, The cost of continuing the domestic partnership program already in place is less than 0.05% of all the benefits costs incurred by the University per year ($88,000 out of $18 million) and has increased the number of people insured by less than 1%; and

WHEREAS, The current and continuing advantages of the domestic partnership benefits program are the creation of a fairer and less discriminatory workplace environment, and improved morale among faculty and staff who feel more fairly treated and valued;

THEREFORE, BE IT RESOLVED, That the Faculty Senate of the University of Alaska Fairbanks requests that the Board of Regents leave the existing domestic partnership benefits program in place and take no action to remove or reduce benefits provided to bona fide domestic partners, spouses and legal dependents of UA employees.

The UAF Faculty Senate passed the following at its Meeting #63 on April 22, 1996:

MOTION PASSED
==========

The UAF Faculty Senate moves to recommend the adoption of a policy on evaluating educational effectiveness as described below.

EFFECTIVE: Immediately
Upon Chancellor Approval

RATIONALE: In order to maintain our institutional accreditation, UAF must develop and implement a process of educational evaluation. In addition, the UA Board of Regents has a draft policy requiring such a process which they will consider at their June meeting. Copies of the accreditation standards and proposed BOR policy are available at the Faculty Development Office. The provost has named the following team to coordinate UAF's effort in this regard; Dana Thomas (Chair), Paul Reichardt, Joan Worley, Jin Brown, Meriam Karlsson, Ralph Gabrielli, and Ron Johnson. This team offers the proposed UAF policy below to begin our development and implementation of an educational effectiveness evaluation process. Evaluating educational effectiveness methods may include, but are not limited to, interviews, transcript analyses including persistence, performance, and course taking patterns, student self-evaluations, standardized tests, portfolio samples, capstone courses, course grades, exit surveys, and graduate employee or employer surveys. The Office of Faculty Development will arrange a workshop this fall for training faculty in this area.

Ted Hayes April 23, 1996
President, UAF Faculty Senate Date

APPROVAL: Joan Weeks DATE: 5/1/96
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

UAF EDUCATIONAL EFFECTIVENESS EVALUATION POLICY

In accordance with its mission, the University of Alaska Fairbanks has a continuing responsibility to review and improve performance of students, faculty, and programs. UAF therefore establishes the Educational Effectiveness Evaluation to describe the effects of curriculum, instruction, and other institutional programs. The process will be useful for curricular and institutional reform and will be consistent with UA Board of Regents Policy and institutional and specialized accreditation standards.

The university shall ensure the academic freedom of the academic community in the development and maintenance of this process.

Evaluations shall be conducted with regard to the following:

1) Student Information - Students will be assessed upon entry to the university for purposes of course advising and placement, especially in mathematics and English, and for describing the gender, age, ethnicity, and previous education of students recruited, retained, and graduated over time.

2) Evaluation of the CORE Curriculum - Evaluation of the CORE curriculum will include assessment embedded within CORE courses as well as the assessment of students within upper division courses, especially oral and writing intensive courses.

3) Programmatic Evaluation - Each degree and certificate program will establish and maintain a student outcomes assessment process useful for curricular reform and consistent with institutional and specialized accreditation standards.

4) Evaluation of Out of Class Learning - An important element of a student's overall education is learning that occurs outside of classes. Therefore, an evaluation of those activities and student support services impacting a student's education shall be conducted.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #63 on April 22, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to recommend that the proposed language in Regents' Policy on Post-Tenure Evaluation (P OX-01.06) be amended as follows:

CAPS = Additions
[[ ]] = Deletions

Tenured faculty members, INCLUDING ADMINISTRATORS HOLDING TENURED FACULTY STATUS, will be evaluated intensively [[at least]] every five years by peer faculty and administrators HAVING LINE AUTHORITY AND RESPONSIBILITY OF SUPERVISION (E.G., DEPARTMENT HEAD/CHAIR, SCHOOL/CAMPUS DIRECTOR, COLLEGE DEAN) OF THE TENURED FACULTY MEMBER. INASMUCH AS DETERMINATION OF FACULTY STATUS IS PRIMARILY A FACULTY RESPONSIBILITY, ADMINISTRATORS PARTICIPATING IN THE POST-TENURE EVALUATION PROCESS SHOULD CONCUR WITH THE PEER FACULTY JUDGMENT EXCEPT IN RARE INSTANCES AND THEN ONLY BY PROVIDING COMPELLING REASONS IN WRITING AND IN DETAIL. These evaluations will be conducted in accordance with the criteria and process for evaluation in Regents' Policy, University Regulation, and MAU rules and procedures on evaluation of faculty. NEITHER THE CRITERIA NOR THE PROCESS OF POST-TENURE EVALUATION WILL BE CONSTRUED AS EQUIVALENT TO THE PROBATIONARY EVALUATION OF TENURE-TRACK FACULTY, THE AWARD OF TENURE ITSELF SERVING AS PRIMA FACIE EVIDENCE OF A FACULTY MEMBER'S DEMONSTRATED COMPETENCE AS TEACHER, SCHOLAR, AND CITIZEN OF THE ACADEMY AT LARGE. THEREFORE, POST-TENURE EVALUATION MUST BE ESPECIALLY CAREFUL TO BE COMPLIANT WITH STANDARDS OF DUE PROCESS AND ACADEMIC FREEDOM, I.E., TEACHING, RESEARCH, PUBLIC SERVICE, AND EXTRAMURAL ACTIVITIES FREE OF CAPRICIOUS INSTITUTIONAL CENSORSHIP OR DISCIPLINE. MAU rules and procedures will include a process for remediation to address situations in which the competence and/or performance of a faculty member is deemed to be unsatisfactory. At any time prior to the scheduled evaluation, the TENURED faculty member's Dean or Director may, as a result of [[other]] PEER FACULTY evaluations, initiate processes to improve faculty performance [[which could include the post-tenure review process]].

Once a TENURED faculty member receives an unsatisfactory evaluation as a result of the intensive post-tenure review process, annual evaluations will take place until the TENURED faculty member receives a satisfactory POST-TENURE evaluation. THE YEAR IN WHICH A SATISFACTORY EVALUATION IS GIVEN WILL BE THE BASE YEAR FOR THE NEXT SCHEDULED INTENSIVE POST-TENURE REVIEW. Unsatisfactory evaluations REFLECTING [[AN]] THE TENURED FACULTY MEMBER'S unwillingness or inability to fulfill [[the]] A REASONABLE performance assignment for three consecutive years constitute grounds for termination for cause. 'CAUSE' SHALL BE UNDERSTOOD TO BE A DECLARATION OF INCOMPETENCE DIRECTLY AND SUBSTANTIALLY (1) IN THE FACULTY MEMBER'S RESPONSIBILITIES IN TEACHING, RESEARCH, AND SERVICE, AND/OR (2) FOR MORAL TURPITUDE.

EFFECTIVE: Immediately

RATIONALE: Regents' Policy revisions have been presented to the UAF Faculty Senate for formal review and recommendation on content. The section on Post-Tenure Evaluation is an entirely new addition to Regents' Policy concerning faculty status. The proposed amendment to policy seeks to highlight the UAF faculty perspective on the issue of post-tenure evaluation, and to do so in such a way as to safeguard the enduring attitude and standards endorsed by the American Association of University Professors and associated institutions of higher education.

Tim Hayes April 23, 1996

President, UAF Faculty Senate / Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #63 on April 22, 1996:

MOTION PASSED (1 nay)
==========

The UAF Faculty Senate moves to recommend that the proposed language in Regents' Policy on locus of tenure (OX-01.05.2c) be amended as follows:

CAPS = Additions
[[ ]] = Deletions

Faculty will be tenured [[within an academic unit of a community college, extended college or campus, or school or college of an MAU within the University of Alaska]] AT THE LEVEL OF THE UNIVERSITY OF ALASKA FAIRBANKS, THE UNIVERSITY OF ALASKA ANCHORAGE, OR THE UNIVERSITY OF ALASKA SOUTHEAST. Faculty may transfer with tenure to another academic unit (E.G., DEPARTMENT, PROGRAM) in the same or another [[MAU]] UNIVERSITY OF THE UNIVERSITY OF ALASKA SYSTEM only upon the approval of the faculty and the Chancellor of the receiving academic unit.

EFFECTIVE: Immediately

RATIONALE: Having been presented to the UAF Faculty Senate for formal review and recommendation, the most recent revisions to Regents' Policy ("Collection III: Faculty Policies," 04.04.04-07 and 10.09.01, 4th Draft) are found unsatisfactory in locating tenure "within an academic unit of a community college, extended college or campus, or school or college of an MAU within the University of Alaska." Revised language in)X-01.05.2c, specifically the words "academic unit" and MAU," remain ambiguous and subject to interpretation which may undermine the award of tenure as a continuous appointment. "Academic unit" is, for the most part, an artificial administrative entity, all too readily subject to the contingencies of changing educational objectives and mission and corresponding reorganization of the academy. The UAF Faculty Senate's amendment to the proposed language, "at the level of the University of Alaska Fairbanks, The University of Alaska Anchorage, or the University of Alaska Southeast," seeks to assure that there will be no termination of an appointment with continuous tenure except as a *bona fide* formal discontinuance of a program or department of instruction, which discontinuance must "be based essentially upon educational considerations, as determined primarily by

the faculty as a whole or an appropriate committee thereof" (cf. AAUP Recommended Institutional Regulations on Academic Freedom and Tenure).

Lee Hagen April 23, 1996

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #63 on April 22, 1996:

RESOLUTION PASSED
==========

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of President-Elect on the basis of the following ballot.

BALLOT

PRESIDENT-ELECT

Please vote for ONE individual to serve as the President-Elect of the UAF Faculty Senate for 1996-97.

*** John Craven, Professor
Physics/GI

Michael Jennings, Assistant Professor
School of Education

***President Elect

Tim Thompson April 23, 1996
President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #63 on April 22, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to recommend that Regents' Policy on Tenure (0X.01.05, F.5. Failure to Receive Tenure.) as currently approved remain the same.

Eric Hayes April 23, 1996
President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #63 on April 22, 1996:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to recommend that the proposed language in Regents' Policy on Tenure (0X.01.05) be amended as follows:

CAPS = Additions
[[ ]] = Deletions

Proposed Regent's Policy 0X.01.05
F.5. Failure to Receive Tenure.
{Rearranged}

[[A faculty member may stand]] A CANDIDATE STANDING for tenure prior to the mandatory year of review [[In so doing, the candidate]] MUST PROCEED THROUGH ALL STEPS [[may withdraw at any step]] in the process. [[prior to review by the Chancellor.]] If the decision of the Chancellor is to deny tenure, the faculty member [[shall be offered a terminal appointment]] WILL CONTINUE TO SERVE AS TENURE TRACK FACULTY SUBJECT TO REGENTS' POLICY 0X.01.07 (Termination of Faculty Appointment), BUT MAY NOT STAND AGAIN FOR TENURE PRIOR TO THE MANDATORY YEAR OF REVIEW. THE DECISION OF THE CHANCELLOR IN THIS INSTANCE IS FINAL.

A faculty member must stand for tenure BY OR in the mandatory review year. [[as defined in section 4.b.(1-4) above.]] If tenure is not awarded IN THE MANDATORY YEAR, the faculty member [[shall]] WILL be offered a terminal appointment for one additional year of service.

EFFECTIVE: Immediately

RATIONALE: The previous wording of this policy stated that a faculty member denied tenure prior to the mandatory year MAY continue as a tenure track faculty, implying the Chancellor could, outside of Regent's Policy 0X.01.07 (Termination of Faculty Appointment), issue a terminal contract upon the denial of early tenure. Provost Keating stated in a previous UAF Faculty Senate meeting that was not the intent of the proposed policy. Hence, this change in wording better reflects the intention on the proposed policy.

Teri Hayne April 23, 1996

President, UAF Faculty Senate Date

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #63 on April 22, 1996:

MOTION PASSED (3 nays)
==========

The UAF Faculty Senate moves to recommend that Regents' Policy (01.03 Definitions) include the following sections on governance and consultation.

CAPS = Additions
[[ ]] = Deletions

J. FACULTY, STAFF, AND STUDENT GOVERNANCE

FACULTY, STAFF AND STUDENT GOVERNANCE IS DEFINED IN REGENTS' POLICY 03.01.01.

[[J.]]K. Regents' Policy

[[K]]L. University Regulation

[[L]]M. MAU Rules and Procedures

N. CONSULTATION

TO FACILITATE OPEN COMMUNICATION AND EFFECTIVE UNIVERSITY GOVERNANCE, THE PRESIDENT AND OTHER ADMINISTRATIVE OFFICERS OF THE UNIVERSITY WILL PROACTIVELY EXERCISE DILIGENCE IN CONSULTING WITH THE FACULTY, APT AND CLASSIFIED STAFF, STUDENTS, AND EXTERNAL CONSTITUENTS ON ISSUES AFFECTING THEM. CONSULTATION IS CHARACTERIZED BY EARLY DISCUSSIONS WITH THE AFFECTED CONSTITUENCIES, JOINTLY FORMULATED PROCEDURES FOR CONSULTATION, REASONABLE DEADLINES WITHIN THE CONSTRAINTS OF THE ACADEMIC CALENDAR, ACCESS TO APPROPRIATE INFORMATION, ADEQUATE FEEDBACK, AND TIMELY COMMUNICATION OF DECISIONS TO THE AFFECTED CONSTITUENCIES.

EFFECTIVE: Immediately

RATIONALE: The role of everyone else involved in developing policy and/ore regulation in 01.02is defined in 01.03 except governance. Governance is defined in 03.01.01, "Faculty, Staff,

and Student Governance," so a cross-reference would take care of that.

Those who develop, pass, anbd implement Regents' policy, University Regulation, and MAU rules and procedures, and what those documents are, are already defined. Placement of how they would do it (consultation) seems to clarify and complete the picture.

[[ ]] = Deletions

Post-Tenure Evaluation

Tenured faculty members will be evaluated intensively at least every FIVE [[three]] years by peer faculty and administrators. These evaluations will be conducted in accordance with the criteria in Regents' Policy, University Regulation, and MAU rules and procedures on evaluation. MAU rules and procedures will include a process for addressing situations in which the competence and/or performance of a faculty member is deemed to be unsatisfactory.

Once a faculty member receives an unsatisfactory evaluation, annual evaluations will take place until the faculty member receives a satisfactory evaluation. Unsatisfactory evaluations for three consecutive years constitute grounds for termination for cause. AN UNSATISFACTORY EVALUATION MUST BE BASED ON THE FACULTY MEMBER'S UNWILLINGNESS OR INABILITY TO FULFILL A REASONABLE AND CUSTOMARY PROFESSIONAL OBLIGATION FOR THAT POSITION.

EFFECTIVE: Immediately

ORIGINAL

The UAF Faculty Senate moves to suspend for one year the change in the last day of late registration.

EFFECTIVE: Immediately

RATIONALE: At its Meeting #59 on November 13, 1995 the Faculty Senate approved several date changes to simplify and clarify dates for various deadlines. We have since found that moving the last day for late registration to the second Friday of instruction causes major problems with the refund policy and for the fee assessment and collection processes. A one-year delay in implementing this change will give the Accounting and Business Operations Office an opportunity to review the current policies affected by this change.

MOTION PASSED (2 nays)
==========

ORIGINAL

The UAF Faculty Senate moves to approve that high school students accepted into the concurrent enrollment (AHEAD) program will be admitted to full freshman status at UAF, and that the minimum high school cumulative grade point average for admission to the concurrent enrollment (AHEAD) program will be 2.50.

EFFECTIVE: Immediately

RATIONALE: The AHEAD program will provide for the formal admission to UAF for high school students enrolled in their senior year. Because the UAF admission policy requires high school graduation and/or 18 years of age as the basic admission criteria, this change provides for the admission of non-high school graduates under the age of 18 who meet the requirements for admission to the AHEAD program. This change allows these students to register earlier and to be assigned an advisor. No change is being made for high school students that are simply taking a few courses.

The AHEAD program is designed for high school students who have completed three-fourths of their high school core curriculum, have exceptional general scholastic and/or specific talent abilities, and have been recommended for acceptance into the AHEAD program by both their high school and university representatives. The committee felt that the required cumulative grade point average should be above average. The current criteria for high school students to take university courses is a 2.00 GPA so a higher standard is required for acceptance into the AHEAD program.

CONCURRENT ENROLLMENT -- THE AHEAD PROGRAM
Overview

The University of Alaska Fairbanks, in conjunction with the Fairbanks North Star Borough School District and a representative from private schools, has developed a program to provide a more formalized process and structure for high school students taking courses at UAF.

The purpose is to admit qualified high school students into UAF as concurrently enrolled students (simultaneously enrolled for credit in high school and university courses) using a coordinated, systematic, four-way model (student, parents, high school AHEAD advisor and UAF academic advisor) of planning and academic advising.

The objectives are to:

1. Offer advanced, non-duplicative instructional opportunities at UAF for local high school students;
2. Provide secondary and postsecondary credit for the instruction as appropriate (dual credit);
3. Provide eligible high school students official UAF admittance (with degree-seeking, undeclared major, freshman status);
4. Provide services for AHEAD Program participants commensurate with UAF degree-seeking students;
5. Foster planned, cooperative advising between the high school student, parents, high school counselor or teacher, and a UAF academic advisor; and
6. Provide local high school students with unique opportunities for enriched scholastic and talent development.

High school students will be introduced to the AHEAD Program during their freshman year of high school. While planning for entrance into the program is encouraged during the freshman year of high school, nothing precludes identification of participants in their sophomore or junior year. However, the earlier the participation in the AHEAD Program, the better the opportunity for planning an integrated high school and university curriculum which best meets the needs of the student.

The AHEAD Program will occur in three phases during a high school student's career; information and planning, admission/enrollment (usually the senior year), and orientation and advising.

Information and Planning: As the most important phase, the student, parents, high school counselor and/or teacher, and UAF academic advisor should be actively involved in preparing the student to make the most out of the opportunity to use the AHEAD Program.

Admission and Enrollment: Admittance to UAF is based on an evaluation of GPA and coursework. A minimum high school grade point average of 2.50 is required. The applicant must have completed æ of the high school academic core curriculum required for admission as a freshman at UAF.

Orientation and Advising: Students accepted into the AHEAD Program will attend the orientation and early registration program held in late April for all local, incoming freshmen for the fall semester at UAF.

CONCURRENT ENROLLMENT -- THE AHEAD PROGRAM
(Alaska Higher Education Admission Decision)

The University of Alaska Fairbanks welcomes the enrollment of qualified high school students in selected university courses. In the past, local high school sophomores, juniors and seniors have successfully completed courses at UAF. In these cases, the high school students were "on their own" without coordinated support between the university and the local high schools. The Concurrent Enrollment Program (the AHEAD Program) provides a framework through which high school students will receive better coordinated assistance in enrolling and completing university courses.

The AHEAD Program is designed to add structure to the currently exiting informal method of enrolling high school students at UAF. High school students who want to receive academic advising, official admission into UAF with degree-seeking status (an advantage in the registration process), and high school and university credit will want to enroll at UAF through the AHEAD Program. However, participation is voluntary: some high school students may want to self-select university courses and proceed independently as non-degree students.

STATEMENT OF NEED

At the present time, local high school students can, and do, enroll in courses at UAF. Approximately 40 high school students enroll each semester in disciplines such as mathematics, music, computer science and foreign languages. They do not apply to the university or receive admission status. They register as non-degree students, the same category as a community member taking a class for personal interest. Thus, they are at a disadvantage because they do not receive priority registration privileges and are the last to register each semester. Furthermore, as non-degree seeking students, they do not receive academic advising unless they ask for it, they are not readily accounted for in academic progress reports so faculty and/or deans can track progress, and very little coordination exists for planning the coursework with high school and university credit in mind. The AHEAD Program provides high school seniors an opportunity to be admitted with degree seeking status, registration priority equivalent to university freshmen, coordinated support services from the school district and the university, and dual credit where appropriate.

GOALS AND OBJECTIVES

The goal/purpose of the AHEAD Program is to:

> Admit qualified high school students into UAF as concurrently enrolled students (simultaneously enrolled for credit in high school and university courses) using a coordinate, systematic, 4-way model (student, parents, high school AHEAD advisor, and UAF academic advisor) of planning and academic advising.

The objectives are to:

1. Offer advanced, non-duplicative instructional opportunities at UAF for local high school students.
2. Provide secondary and postsecondary credit for the instruction as appropriate (dual credit);
3. Provide eligible high school students official UAF admission (with degree-seeking, undeclared major, freshman status);
4. Provide services for AHEAD Program participants commensurate with UAF degree-seeking students;
5. Foster planned, cooperative advising between the high school student, parents, high school counselor or teacher, and a UAF academic advisor; and
6. Provide local high school students with unique opportunities for enriched scholastic and talent development.

GENERAL PROGRAM DESCRIPTION

High school students with exceptional general scholastic and/or specific talent abilities will be introduced to the AHEAD Program during their freshman year of high school. Examples of disciplines (subjects) that may be used for concurrent enrollment include mathematics, computer science, English, art, music, and theater; however, this is not an exhaustive list.

While planning for entrance into the program is encouraged during the freshman year of high school, nothing precludes identification of participants in their sophomore or junior year. However, the earlier the participation in the AHEAD Program, the better the opportunity for planning an integrated high school and university curriculum which best meets the needs of the participant.

The AHEAD Program will occur in three phases during a high school student's career: information and planning, admission/enrollment (usually the senior year), and orientation and advising.

• Information and Planning

Information sessions for interested students and their parents will be held several times during the academic year. High school counselors and teachers and university staff will jointly conduct the program. Brochures outlining the AHEAD Program will be available.

Early identification of possible participants in the program will facilitate planning and enhance the integration of the high school and university curricula to best meet the needs of each individual enrollee. The high school student should strive to complete as many high school requirements through the junior year as possible. This will leave the senior year more open for the inclusion of university-level courses.

The planning phase is the period in which the 4-way model is most important. The student, parents, high school counselor and/or teacher, and UAF academic advisor should be actively involved in preparing the student to make the most out of the opportunity to use the AHEAD Program. Courses to be taken for dual credit (meeting a

high school requirement accruing university credit) should be carefully planned and pre-approved during this phase. Also, with advanced notice, the university may be able to schedule classes at times that meet the needs of the students enrolled in the AHEAD Program.

The AHEAD advisor in each high school will expedite requests for dual credit. Decisions regarding dual credit rest with the school district. An admitted, enrolled student who has successfully completed a university course, automatically receives university credit for that course and establishes a UAF academic record. However, the degree to which a selected university course meets high school credit and graduation requirements is determined by the school district.

- **Admission/Enrollment**

Admittance to UAF is based on an evaluation of GPA and coursework. A minimum high school grade point average of 2.50 is required. In addition, the applicant must have completed æ of the high school academic core curriculum required for the admission as a freshman at UAF or be able to demonstrate progress equivalent to æ of the core.

Students wishing to enter the program will be evaluated by their high school advisor and a UAF academic advisor. The evaluation will include a review of qualifications and assessment of the student's ability to succeed and benefit from participation in the program. Each student must have an unconditional recommendation from each of the two representatives in order to be accepted into the AHEAD Program. Parental permission also will be required.

Tuition and fees for concurrently enrolled students are based on the current tuition and fee rates. The AHEAD advisor in each high school may be able to provide information on possible sources of funding. In some cases, student may qualify for a tuition waiver or a special scholarship.

Participation in the program will require a high level of commitment from a student. The full cooperation and active support from parents also will be essential. Furthermore, the parents need to acknowledge that their son or daughter will be functioning in an adult-based environment at UAF. This will differ significantly from the highly-supervised environment of a high school campus.

- **University Orientation and Advising**

Students accepted into the AHEAD Program will attend an orientation and early registration program held in late April for incoming freshman for the following fall semester at UAF. Usually this will occur during the spring semester of the student's high school junior year. At this time, the student and the UAF academic advisor will meet and finalize plans for courses for the year. Actual registration for the fall semester classes will be done at that time. The student will be eligible for priority (early) registration for the spring semester that will be held in November. An orientation-to-college seminar will be offered during the first semester of concurrent enrollment.

PROGRAM ADMINISTRATION

General oversight for the AHEAD Program will be the responsibility of an individual designated through the Student Services Division at UAF. The ongoing administration of the program will be accomplished through an advisory committee composed of the following representatives:

one concurrently enrolled high school student
one university student (preferably a concurrent enrollment graduate)
one staff of the FNSB School District Central Office
one high school advisor of a concurrently enrolled student (not of the student representative)
one university academic advisor of a concurrently enrolled student
one staff of UAF Student Services, and
one parent of concurrently enrolled student (not parent of any student connected with the advisory committee

The committee will monitor the program and provide advice concerning program policies and procedures. Meetings will occur at least once per semester, with additional meetings as necessary. Members will be appointed by the FNSB School District Central Office and the UAF Dean of Student Services.

In addition to the administrative advisory committee, a program leadership team will exist for each high school involved in concurrent enrollment. The team will consist of a student, a high school advisor, a parent, and the principal (or designee). The high school advisor will be the team leader and will be the liaison with the UAF employee designated as the supervisor of the concurrent enrollment program. The purpose of the team is to monitor and evaluate the concurrent enrollment program as it occurs within each high school. If situation-specific problems occur, the team should endeavor to expedite solutions. For problems that are recurring or are not resolvable at the team level, the issue/concern should be passed to the administrative advisory committee. It will not be necessary for the team to meet on a regular basis unless there are problems that require attention.

DISAPPROVED: _____ Chancellor's Office DATE: _____

EXECUTIVE SUMMARY FOR THE BOARD OF REGENTS

The Bachelor of Fine Arts is a professionally oriented degree designed to prepare students for careers in theatrical design. This degree is also the usual prerequisite for graduate studies in theatre. The B.F.A. in Theatrical Design's main objective is to give a more thorough and concentrated focus into the various methods, bases, and applications of all theatrical design.

Theatre UAF has unique opportunities open for our design students. Our audience counts/house records are steadily growing; interest is rising and our program is expanding. Through a portfolio/interview enrollment, the B.F.A. program presented here will aid in drawing in new students as well as in retaining those we have due to the larger demand of graduate schools requiring a B.F.A. of their applicants.

Resources and equipment needs will barely be effected; in fact, in the long run, design faculty will be able to take on a more supervisory role in the design process; thereby allowing them more time to teach more classes.

This program will aid the department's productions better, will supply a more qualified "labor force" for the mounting of departmental productions, and will aid the community by offering them (Fairbanks Drama Association, Fairbanks Light Opera Theatre,etc.) a variety of better-trained designers willing to work in exchange for resume credits.

In conclusion, I feel that because all the pieces are already in place for the B.F.A. program in Theatre, we should take advantage of it and add the program to attract more students into our already growing program.

DEGREE PROGRAM REQUEST

Defining a B.F.A. program in Theatre
University of Alaska-Fairbanks

Request prepared by:
Kade Mendelowitz, Assistant Professor, Theatre
Thomas Riccio, Associate Professor, Chair, Theatre
October, 1995

UAF Theatre Program: History, evolution, and objectives

The Theatre program at UAF has recently undergone several transformations in response to the changing needs of students, the discipline, and the society it serves. The present Theatre Department at UAF traces its origins to 1952 when Lee Salisbury founded the Department of Radio and Speech. Since that time it evolved into the Department of Speech and Drama, and then in 1990, into the Theatre Department.

Since becoming the Theatre Department several fundamental curricular changes have occurred. Those changes have included the addition of new classes such as: Dramatic Literature, History of Fashion and Costume, Advanced Acting I and II, Movement for the Theatre, among others. Curricular adjustments have also included clarification of other class offerings that transformed Tuma Theatre into a more academically founded Introduction to Alaska Native Performance. And simplification and clarity of degree tracks: a major can now earn a BA in Theatre with a Performance or Technical Theatre emphasis. Adjustments were made with the intent of making the Theatre Department more professional in its orientation without sacrificing the student's Liberal Arts pursuits.

The Theatre's initiative has been successful in attracting majors (going from three majors in 1988 to thirty-five during the 1994-95 year) and better preparing students for work in professional theatre or graduate studies. Adjustments have also had the effect of developing a stronger community base of support and interaction.

The development of the Theatre's curriculum and programming (which are inherently linked and interactive) to address the needs of the discipline have occurred gradually over the last several years. This growth has remade the Theater Department to the point where what the Theatre Department is offering a de facto BFA program.

The objective of a BFA program in Theatre or any of the arts, is to offer the student a more thorough preparation, both academic and practical. A BFA program prepares the student for the increasingly competitive, and limited, opportunities in graduate school and the professional theatre.

The Theatre Department has evolved a BA program that is, with minor adjustment, a BFA program. A BFA program will not add expense to our programming, but rather more fully realize what is already in place. A BFA offering will better serve our students, community, and discipline. A BFA program has the potential to attract students both in-state and out-of-state, to a professionally oriented program. BFA is synonymous with professional.

The Theatre Faculty request the ability to evolve its programming to its next logical step.

Degree Program Request - Theatre Department: Adding a B.F.A. in Theatre.
University of Alaska Fairbanks

IDENTIFICATION OF THE PROGRAM

Program Title: B.F.A. in Theatre.

Admissions requirements and prerequisites: Enrollment in the B.F.A. program is recommended only for those students willing to make the considerable commitment of time and energy necessary to strive for professional competence in their major areas. Admission to the B.F.A. program requires a portfolio review (for design emphasis students) or a monologue review (by the performance emphasis students) by the Theatre Faculty and is generally done in the junior year.

Course Descriptions:

Required of All B.F.A. Candidates

121 Fundamentals of Acting *Basic stage acting techniques for persons with little or no prior acting experience. Emphasis on physical, emotional and imaginative awareness. Scene work fundamentals introduced.*

190 Audition and Review Participation *Students are required to partake in auditions or portfolio review every semester as declared theatre majors. They are also expected to attend all departmental productions (tickets are provided free) and they must attend departmental meetings.*

191 Musical Audition and Review Participation *Students are required to partake in auditions or portfolio review every semester as declared theatre majors. They are also expected to attend all departmental productions (tickets are provided free) and they must attend departmental meetings.*

215 Dramatic Literature *Studies of drama and forms of plays such as tragedy, comedy, melodrama, farce, tragic comedy. Reading plays of the classic theatre designed to give basic knowledge of masterpieces of the world drama.*

241 Basic Stagecraft *Materials of scene construction, painting, lighting design and their use. Students will be trained to use standard construction tools safely. the fundamentals of theatre drafting will also be covered. 39 hour lab required. Theatre Majors are encouraged to fulfill this requirement by their Junior year.*

247 Introduction to Theatrical Design *Introduction to all the design elements used in the theatre. Analysis of line, texture, color, and how they relate to designing for the theatre including costumes, scenery and lighting.*

254 Beginning Costume Design and Construction *Introduction to theory and practice of costume design for the theatre, methods used to make costumes out of a variety of media. Projects include simple hat making, mask making, stenciling, hot gluing and body padding.*

290 Production Participation or Review *Students are required to partake in auditions or portfolio review every semester as declared theatre majors. They are also expected to attend all departmental productions (tickets are provided free) and they must attend departmental meetings.*

291 Musical Production Participation or Review *Students are required to partake in auditions or portfolio review every semester as declared theatre majors. They are also expected to attend all departmental productions (tickets are provided free) and they must attend departmental meetings.*

331 Fundamentals of Stage Direction *Introduction to the history, theory, basic concepts of stage direction, interpretive script analysis, creative visualization, use of space, working with actors and designers. direction of short scenes and plays.*

411 Theatre History I *Theatrical form an practice from its origins in storytelling and ritual through the French Neo-classic Theatre.*

412 Theatre History II *Theatrical form and practice from the English Restoration through the present.*

Required of all B.F.A. Performance Track Students:

220 Voice and Diction for the Theatre *Development of fluency and clarity in the voice, study and practice to improve speech and eliminate faults of articulation and pronunciation. Emphasis on preparing the student for vocal work in theatre, radio, and television, including individual analysis and tape recordings.*

221 Intermediate Acting *Continued development of physical, emotional and imaginative awareness. Text and character analysis, scene and monologue study and presentation. Introduction to improvisation.*

225 Movement for the Actor *Principles of stage movement, body awareness, and control as explored through analysis, exercise, study of historical dance and scene work.*

245 Stage Management *Organizational skills for a successful stage manager, completion of a prompt script including creating all forms and schedules necessary, working with actors, directors and designers.*

321 Advanced Acting I *Refinement of physical, emotional and imaginative awareness. Introducing a variety of character building methods. Study and performance of scenes and short plays. Introduction of audition techniques.*

351 Makeup for the Theatre *Theatrical makeup for actors, teachers, directors, and other theatre workers; makeup materials and use, straight and character makeup, illusory and plastic relief, national types, and influence of lighting.*

413 Playscript Analysis *Investigation of the structure of play scripts designed to develop skills in analysis and interpretation for performance.*

421 Advanced Acting II *Acting techniques for periods and styles. Intensive scene and monologue work / Introduction of ensemble work / Public performance of short plays. Intensive audition work.*

Three From

SPC 222 Fundamentals of Interpersonal Communication *The communication process, focusing on listening, perception, verbal and non-verbal communication, and organizing materials. Emphasizes understanding of and effective performance in two-person communication situations.*

ENG 422 Shakespeare: History Plays and Tragedies *Major chronicle plays and tragedies, including significant criticism.*

ENG 425 Shakespeare: Comedies and Non-Dramatic Poetry *Major comedies and non-dramatic poems, including significant criticism.*

ENG 445 20th Century Drama: From Chekhov to Ionesco *The major dramatists and their achievements.*

Two From

341 Intermediate Stagecraft *An examination of the less common scenic materials with methods and techniques for their use.*

343 Scene Design *Principles and techniques of theatrical scene design. Includes designing projects directed at solving particular scenic problems or in a specific scenic style with specific physical limitations.*

347 Lighting Design *Principles and techniques of theatrical lighting design. The student will conduct practical experiments and design projects applying the experience gained from the experiments.*

355 History of Fashion and Dress *Social history of costume in Western Civilization, from Ancient Greece to the present time. Includes instruction in the methods of research used to find visual source material, and assignments that exercise these research skills.*

Two From

161 Intro. to Alaska Native Performance *For Native and non-Native students with no prior acting or theatre experience. Includes both academic and practical components to examine traditional Alaska Native theatre mythology, ritual, ceremony and performance methods. Application of exercises and developmental scenes drawn from the Alaska Native heritage.*

361 Advanced Alaska Native Performance *In-depth study of Alaska Native theatre techniques and tradition, including traditional dance, song and drumming techniques, mask characterizations and performance application and presentation of a workshop production develops by the students during the semester.*

416 Performance Studies Abroad *An intensive course for actors, directors and playwrights interested in script development / training with the participation of international theater professionals. Experience working in a mulicultural environment developing new scripts and performances. under supervision of a theatre faculty member. Previous faculty and student work abroad includes: Russia, Siberia, Zambia, South Africa, and Scandinavia. Requirements of the course will vary according to project.*

435 Advanced Stage Direction *Major theories and current trends in stage direction including different styles periods and stage configurations. Emphasis on practical preparation for production, from concept to execution, of a one act play for public performance.*

499 Thesis Project *Final step in acting/directing/design or playwright training which involves performing a leading role on main stage, or a one-person show, or a directing/designing/writing project for the UAF season.*

Required of all B.F.A. Design Track Students:

ART 105 Beginning Drawing *Basic elements in drawing. Emphasis on a variety of techniques and media.*

ART 162 Color and Design *Fundamentals of color principles and interactions. Emphasis on two dimensions.*

ART 205 Intermediate Drawing *Exploration of pictorial composition and creative interpretation of subjects.*

ART 261 History of World Art *Origins of art and its development from the beginning through contemporary painting, sculpture and architecture. ART 261-262 may be taken in reverse order; however, course content is presented in a chronological sequence beginning with fall semester.*

ART 262 History of World Art *See ART 261*

Three From

341 Intermediate Stagecraft *An examination of the less common scenic materials with methods and techniques for their use.*

343 Scene Design *Principles and techniques of theatrical scene design. Includes designing projects directed at solving particular scenic problems or in a specific scenic style with specific physical limitations.*

347 Lighting Design *Principles and techniques of theatrical lighting design. The student will conduct practical experiments and design projects applying the experience gained from the experiments.*

355 History of Fashion and Dress *Social history of costume in Western Civilization, from Ancient Greece to the present time. Includes instruction in the methods of research used to find visual source material, and assignments that exercise these research skills.*

Eight (Or a total of 24 Credits) From

(Up to six credits worth of) **Independent Study**

(Up to six credits worth of) **Special Topics Courses**

(Up to six credits worth of) **101-401 Theatre Practicum** *Participation in drama workshop or lab production as performer or technical staff member.*

245 Stage Management *Organizational skills for a successful stage manager, completion of a prompt script including creating all forms and schedules necessary, working with actors, directors and designers.*

348 Sound Design for the Theatre *Exploration and application of the elements of design as they relate to sound for theatre, dance, other art forms, and life in American and other cultures. Production work required.*

351 Makeup for the Theatre *Theatrical makeup for actors, teachers, directors, and other theatre workers; makeup materials and use, straight and character makeup, illusory and plastic relief, national types, and influence of lighting.*

413 Playscript Analysis *Investigation of the structure of play scripts designed to develop skills in analysis and interpretation for performance.*

416 Performance Studies Abroad *An intensive course for actors, directors and playwrights interested in script development / training with the participation of international theater professionals. Experience working in a mulicultural environment developing new scripts and performances. under supervision of a theatre faculty member. Previous faculty and student work abroad includes: Russia, Siberia, Zambia, South Africa, and Scandinavia. Requirements of the course will vary according to project.*

456 Advanced Costume Design and Construction *Examination of the methods and materials used in the design and construction of costumes for the theatre. Special projects in design, pattern drafting, and advanced construction.*

447 Lighting Design II *Further exploration and application of elements of design (color, texture, intensity, line, composition) as they relate to lighting for the theatre, dance, other art forms, and life. Production work required.*

499 Thesis Project *Final step in acting/directing/design or playwright training which involves performing a leading role on main stage, or a one-person show, or a directing/designing/writing project for the UAF season.*

4. Complete a minimum of 130 credits.

Brief identification of objectives

The bachelor of fine arts is a professionally oriented degree designed to prepare students for careers in theatrical design. This degree is also the usual prerequisite for graduate studies in theatre. The B.F.A. in Theatrical Design's main objective is to give a more thorough and concentrated focus into the various methods, bases, and applications of all theatrical design.

Relationship of program objectives to "Purposes of the University"

By offering a B.F.A. in Theatre at UAF, we will be the only University in Alaska that offers this option. It will aid our goal in becoming a University that offers an excellent education by offering more choices and a better grounding for the student theatrical designer. We have, in just the last year, lost at least 3 students because we do not offer a B.F.A. in theatre; two transferred to another school, and one has changed majors for the time being. At the current rate, we will lose many more of our design-oriented (as opposed to actor/director/playwright oriented) students.
This program will also aid in our ties to the community (see below).

Occupational/other competencies to be achieved

For students that want to continue onto graduate school, the B.F.A. is almost a prerequisite which we do not offer.

The theatre department's link with the community is very strong; our students are constantly working with F.D.A. (Fairbanks Drama Association) and FLOT (Fairbanks Light Opera) on their productions as well as the department's. A B.F.A. program will also better-train our students to be able to design for community productions in addition to acting in them. Having students design Mainstage productions has also proved to help boost morale in the department; and the students work would be better if they had a more rigorous/focused training in the field.

Students in the B.F.A. Design program will, as a side effect / goal, be required to make and update a portfolio of their work which we will aid in and supervise. This will aid greatly in their ability to employ themselves once they graduate from UAF.

Students in the B.F.A. Performance program will, as a side effect / goal, be required to have a repertoire of monologues and an updated resume which we will aid in and supervise. This will aid greatly in their ability to employ themselves once they graduate from UAF.

Relationship of courses to the program objectives

Design:

Beginning with Introduction to Design and basic-level design courses, the student will be better aware of the many possibilities of design available to them.

By taking at least beginning courses in all the design fields - as well as acting, directing, playscript analysis, the student will be a better (more rounded) designer in whichever emphasis/design elements they choose to pursue.

By including both Theatre History as well as Art History courses, the student will have a better understanding of where they fit in "the big scheme of things" as a theatrical designer.

Performance:

Focusing more on movement, speech and diction in addition to more acting courses, the student will have more knowledge / training to use when preparing for future roles and projects.

Taking more directing and playscript courses will also help them better understand the management aspects of theatre.

Personnel Directly Involved with Program

Primary Faculty Involved:

Tara Maginnis, Costume Designer, Ph.D. in design/theatre history.
Kade Mendelowitz, Lighting Designer/Technical Director, M.F.A. in design.
A set designer, who will hold at least an M.F.A. in design (we currently don't have one due to CLA hiring freeze).

Anatoly Antohin, Director/Playwright
Tom Riccio, Director/Playwright/Tuma Coordinator

Secondary Faculty Involved:
Jeanine Patane, Staff / Costume Shop Supervisor

Administrative and coordinating personnel

Amy Fatland, Administrative Assistant/Dept. Secretary.
Gordon O. Hedahl, Dean of CLA, Director/Lighting Designer.

Enrollment Information

Projected: At least four to start; four students have asked me about the possibility of this program - they are why I started to look into adding this program. They came to me when I took over as Department Head because they want a B.F.A. and know it is not presently offered here - and were looking into other schools.

Minimum enrollment to maintain program: 1. Because the department does not need to add any other additional courses or faculty at this time to start the B.F.A. program, its impact is minimal on the department. If we get a great deal of interested students we may need to later add specific high-end theatre design courses.

Maximum enrollment which program can accommodate: 20 acting emphasis, 16 design emphasis.

Special restrictions on enrollments: no more than 4 students in each of the design areas (Costume, Lighting, Scenic, Technical Direction) if we keep up with the present number of productions. This will allow sufficient design opportunities for those members in the program.

Need for program

Required for other programs; required for many M.F.A. programs. How has this requirement been met to date: it hasn't. Most of our students interested in a B.F.A. have left UAF in search for a different school.

Employment market needs; Designers, especially for community theatres, are needed all over; to take a guess at a number would not be possible for me at this time - but there is a publication called ARTSearch which is filled with job opportunities, internships and apprenticeships available for theatrical designers, and a B.F.A. is usually a required minimum for those jobs. Theatre UAF, to date, has only graduated two technical theatre emphasis majors to my knowledge. Most others have either left UAF, or changed majors or emphasis. Realize that the Theatre Department at UAF is 5 years old.

Acting is still a hard field for newcomers to "break into", but a B.F.A. can aid a students marketability.

Other

The Theatre Department, which is small already, is constantly losing students to other programs and schools because of the lack of a B.F.A. program. The worst part of this fact is that we own the facilities and courses to offer a B.F.A.; but up to this point no one has aided in making this program happen. Although the

enrollments might be low at first, due to the nature of the program the cost will be low while it still allows students to get the best educational opportunity here - at UAF.

This program will aid greatly in actually reducing the load on the design faculty by freeing up some time to act as advisors for designers as opposed to having to design all the productions themselves. This will free the designers to eventually be able to offer more classes or commit more time to research.

The program would also benefit the community - as the local theatre groups don't have money to hire designers (so they use untrained volunteers or tax the resources of the Theatre Department) - a B.F.A. program would give them a viable pool of resources to pull from for no money; while offering our students opportunities to get professional credits on their resumes.

Our B.F.A. program would also stand out from others because in conjunction with the Tuma theatre program, we can provide design opportunities that other universities do not have available to them.

Resource Impact

Budget, Facilities, Faculty, Library; because we already regularly offer all of the required courses for a B.F.A. at this time; the impact would be minimal. In fact, as pointed out above, the program would eventually aid in reducing faculty load. The facilities are already equipped to handle student designers and actors. Although we do need the Scene Designer position filled.

Relation of Program to other Programs within the System

Effects on enrollments elsewhere in the system; could only help increase.

Does it duplicate/approximate programs anywhere in the system; No.

How does the program relate to research or service activities; (as stated above) The program would also benefit the community - as the local theatre groups don't have money to hire designers (so they use untrained volunteers or tax the resources of the Theatre Department) - a B.F.A. program would give them a viable pool of resources to pull from for no money; while offering our students opportunities to get professional credits on their resumes.

Implementation/Termination

Date of implementation: Fall, 1996

Plans for recruiting students: send posters/flyers to high schools and other Undergraduate colleges that do not offer a B.F.A. in theatre.

Plans for phasing out program if it proves unsuccessful: wouldn't be needed because the program does not add any additional taxing on the faculty already available.

Provide an executive summary of about one page for inclusion in the Board of Regents committee agenda.

Degree Program Request

Theatre Department UAF: Adding a B.F.A. in Theatrical Design

Request prepared by:
Kade Mendelowitz, Assistant Professor, Theatre UAF
October 11, 1995

The bachelor of fine arts is a professionally oriented degree designed to prepare students for careers in theatrical design. This degree is also the usual prerequisite for graduate studies in theatre. The B.F.A. in Theatrical Design's main objective is to give a more thorough and concentrated focus into the various methods, bases, and applications of all theatrical design.

Theatre UAF has unique opportunities open for our design students. Our audience counts/house records are steadily growing; interest is rising and our program is expanding. Through a portfolio/interview enrollment, the B.F.A. program presented here will aid in drawing in new students as well in retaining those we have due to the larger demand of graduate schools requiring a B.F.A. of their applicants.

Resources and equipment needs will barely be effected; in fact, in the long run, design faculty will be able to take on a more supervisory-role in the design process; thereby allowing them more time to teach more classes.

This program will aid the department's productions better, will supply a more qualified "labor force" for the mounting of departmental productions, and will aid the community by offering them (Fairbanks Drama Association, Fairbanks Light Opera Theatre, etc.) a variety of better-trained designers willing to work in exchange for resume credits.

In conclusion, I feel that because all the pieces are already in place for the B.F.A. program in Theatre, we should take advantage of it and add the program to attract more students into our already growing program.

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #61 on February 5, 1996:

MOTION PASSED AS AMENDED (unanimous)
==========

The UAF Faculty Senate moves to amend the UAF Grade Appeals Policy as indicated below.

EFFECTIVE: Immediately

RATIONALE: The existing appeals policy defines the letter grades A, B, C, D, F and Pass as being subject to appeal, while the I and NB are explicitly exempted. However, as the NB is a permanent grade, it too must be subject to appeal. It is recommended that Paragraph II.A. be revised.

The policy does not provide a course of action for the case in which an instructor whose grade is being appealed is no longer an employee of the university but who is willing to participate in the appeals procedure. It is recommended that Paragraph III.A.5.c. be inserted.

It appears that grade appeals committees are not always making certain that the student's request for a review is valid. The committee recommends that the first sentence of Paragraph III.B.4.c be revised.

The present policy does not identify a clear course of action for cases in which the instructor is either the dean or the department head. It is recommended that the present Paragraphs III.B.3-6 be renumbered III.B.4-7, and that a new Paragraph III.B.3 be inserted.

Tim Hayes 2/7/96
President, UAF Faculty Senate Date

APPROVAL: Joan Wadlow DATE: 2/8/96
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

[ ]] = Deletions
CAPS = Additions

GRADE APPEALS POLICY

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that the assignment of grades is a faculty responsibility. Therefore, the University administration shall not influence or affect an assigned grade or the review of an assigned grade.

The following procedures are designed to provide a means for students to seek review of final course grades alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally with the instructor of the course. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. A "grade" refers to FINAL letter grades A, B, C, D, F, NB and Pass. The [[NB (no basis) and]] I (incomplete) [[designators are not grades and, therefore, are]] DESIGNATES A TEMPORARY GRADE, NOT A FINAL GRADE, SO IT IS not subject to appeal.

B. For the purpose of this procedure, "arbitrary and capricious" grading means:

1. the assignment of a course grade to a student on some basis other than performance in the course, or

2. the assignment of a course grade to a student by resorting to standards different from those which were applied to other students in that course, or

3. the assignment of a course grade by a substantial, unreasonable and unannounced departure from the instructor's previously articulated standards.

C. "Grading errors" denotes errors in the calculation of grades rather than errors in judgment.

D. All references to duration in "days" refers to university working days, which exclude weekends, holidays and days in which the university is officially closed.

E "Department head" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department, OR THE CAMPUS DIRECTOR IF THE FACULTY MEMBER IS IN THE COLLEGE OF RURAL ALASKA).

III. Procedures

A. Errors by an instructor in determining and recording a grade or by the university staff in transcribing the grade are sources of error that can be readily corrected through the student's prompt attention following the normal change of grade procedure.

1. It is a student's obligation to notify the instructor of any possible error immediately by the most direct means available. If this is through an oral conversation and/or the issue is not immediately resolved, it is the student's responsibility to provide the instructor with a signed, written request for review of the grade, with a copy to the unit department head and the dean of the college or school in which the course was offered.

2. Notification must be received by the instructor and/or department head within 20 days from the first day of instruction of the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester).

3. The instructor is responsible for notifying the student in writing of his or her final judgment concerning the grade in question within 10 days of receipt of the request, and for promptly submitting the appropriate change of grade form to the Director of Admissions and Records if an error occurred.

4. If the student does not receive a response from the instructor or the unit department head by the required

deadline, the student must seek the assistance of the dean of the college or school in which the course was offered.

5. If the instructor is no longer an employee of the university or is otherwise unavailable, the student must bring the matter to the attention of the unit department head who will make every effort to contact the instructor.

   a. If the instructor can not be contacted but course records are available, the department head may correct a grading error through the regular change of grade process on behalf of the instructor.

   b. If the instructor can not be contacted and course records are either unavailable or indecisive, the student may request a review following the procedure outlined below.

   C. IF THE INSTRUCTOR CAN BE CONTACTED AND ELECTS TO PARTICIPATE, THEN A CONSTRUCTIVE PARTICIPATION IS TO BE WELCOMED BY THE REVIEW COMMITTEE. THE PROCEDURES OF PARAGRAPH III.A.5.a OR PARAGRAPH III.A.5.b WILL BE INSTITUTED IF THE INSTRUCTOR WITHDRAWS FROM PARTICIPATION.

6. There may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. In such a case, upon request from the student, the dean of students, after review of supporting documentation provided by the student, may recommend to the grade appeals committee that the deadlines be adjusted accordingly. An extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

B. If no such error occurred, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and satisfaction is not forthcoming from the appropriate department head.

1. This review is initiated by the student through a signed, written request to the department head with a copy to the dean of the college or school in which the course was offered.

   a. The student's request for review may be submitted using university forms specifically designed for this purpose and available at the Admissions and Records Office.

   b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration can not influence or affect the outcome of the review.

   c. The request for a review must be received no later than 45 days after the first day of instruction in the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester).

   d. The request must detail the basis for the allegation that a grade was improper and the result of arbitrary and capricious grading and must present the relevant evidence.

2. It is the responsibility of the department head to formally notify both the instructor who issued the grade and the dean of the unit's college or school that a request for a review of grade has been received.

3. IF THE INSTRUCTOR OF THE COURSE IS ALSO THE DEPARTMENT HEAD, THE DEAN OF THE COLLEGE WILL DESIGNATE ANOTHER DEPARTMENT HEAD WITHIN THE COLLEGE TO ACT AS THE DEPARTMENT'S REPRESENTATIVE FOR ALL PROCEEDINGS. IF THE INSTRUCTOR OF THE COURSE IS ALSO THE DEAN OF THE COLLEGE, THE PROVOST WILL DESIGNATE ANOTHER DEAN WITHIN THE UNIVERSITY TO ACT AS THE COLLEGE'S MONITOR OF ALL PROCEEDINGS.

4.[[3.]] The dean will appoint a 5 member review committee composed of the following:

a. One tenure-track faculty member from the academic unit in which the course was offered (other than the instructor of the course).

b. Two tenure-track faculty members from within the college or school but outside of the unit in which the course was offered.

c. One tenure track faculty member from outside the college or school in which the course was offered.

d. At the option of the student whose grade is being reviewed, the fifth member to be appointed by the dean will be a student or another tenure track faculty member outside the college or school in which the course was offered.

e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for grade appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

5.[[4.]] The committee must meet within 10 days of receipt of the student's request.

a. During this and any subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

c. THE MANDATORY FIRST ITEM OF BUSINESS At this meeting[[,]] IS FOR the committee [[will]] TO rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) This is not the first properly prepared request for appeal of the particular grade.

2) The actions of the instructor do not constitute arbitrary and capricious grading, as defined herein.

3) The request was not made within the policy deadlines.

4) The student has not taken prior action to resolve the grade conflict with the instructor, as described under section III, A.

d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department head and dean within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

6.[[5.]] Acceptance for consideration of the student's request will result in the following:

a. A request for and receipt of a formal response from the instructor to the student's allegation.

b. A second meeting scheduled to meet within 10 days of the decision to review the request.

1) The student and instructor will be invited to attend the meeting.

2) The meeting will be closed to outside participation, and neither the student nor instructor may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor may provide additional relevant and useful information

and can provide clarification of facts for materials previously submitted.

7.[[6.]] The final decision of the committee will be made in private by a majority vote.

a. The committee is not authorized to award a grade (letter or pass/fail) or take any action with regard to the instructor.

b. Actions which the committee can take if it accepts the student's allegation of arbitrary and capricious grading must be directed towards a fair and just resolution, and may include, but are not limited to, the following:

1) direct the instructor to grade again the student's work under the supervision of the department head,

2) direct the instructor to administer a new final examination and/or paper in the course,

3) direct a change of the student's registration status (i.e., withdrawn, audit, dropped) in the course.

c. A formal, written report of the decision must be forwarded to the student, instructor, department head, dean and Director of Admissions and Records within five days of the meeting.

d. The decision of the committee is final.

The UAF Faculty Senate passed the following at its Meeting #61 on February 5, 1996:

MOTION PASSED AS AMENDED (w/o objection)
==========

The UAF Faculty Senate moves to amend the UAF Grade Appeals Policy III. B. 3. as indicated below.

EFFECTIVE: Immediately

RATIONALE: Currently, the UAF Grade Appeals Policy does not specify how the faculty members of grade appeals review committees will be selected. The Faculty Appeals and Oversight Committee functions as an appeal body for issues of faculty prerogative, and thus grade appeals are included in its mandate. This motion requires that the unit dean select two of the four faculty members appointed to any grade appeals review committee from among the members of the Faculty Appeals and Oversight Committee. If the student requests that the fifth member be a faculty member, the unit dean will also select that faculty member from the Faculty Appeals and Oversight Committee. The unit dean will appoint the other two faculty members on a committee at his or her discretion.

The UAF Faculty Senate passed the following at its Meeting #61 on February 5, 1996:

MOTION TABLED (unanimous)
==========

The UAF Faculty Senate moves to amend the guidelines for Faculty Role in the Evaluation of Administrators endorsed at the Faculty Senate Meeting #23 on December 17, 1990 as indicated below.

EFFECTIVE: Immediately

RATIONALE: These amendments delete from the list of administrators to be evaluated those administrative positions that no longer exist and add existing administrative positions.

Eric Hayes 2/7/96

President, UAF Faculty Senate Date

[[ ]] = Deletion
CAPS = Addition

GUIDELINES FOR FACULTY ROLE IN THE EVALUATION OF ADMINISTRATORS

1. All faculty in a given administrative unit will have the opportunity to provide anonymous written input into the evaluation of their EXECUTIVE DEAN, dean or director, associate dean or director, deputy director, and department head. In small units, interviews with individual faculty members may also be appropriate.

2. A representative sample of faculty will be asked to provide written input into the evaluation of the [[Vice Chancellor for Academic Affairs and the Vice Chancellor for Research]] PROVOST. The Faculty Senate and its leadership will be included in this sample, as well as any ad hoc groups and individuals who have worked closely with the administrators during the time covered by the evaluation.

3. In each evaluation cycle, a uniform procedure will be used in all academic units to obtain faculty input.

4. The procedure for evaluation of the Chancellor is codified in Board of Regents' policy. The Faculty Senate urges the Regents and the President to consult with faculty as a crucial part of this evaluation.

5. The administrative characteristics that faculty will have the opportunity to comment upon will include at least the following:

   Administrative Tasks
   - Building and maintaining excellence
   - Resource allocation

   Leadership
   - Maintenance of strong faculty morale
   - Problem resolution
   - Delegation of duties to appropriate colleagues
   - Building a team
   - Providing a means to involve department heads and other faculty in decisionmaking

Skills as a mediator between faculty and
administration/community/legislature
General leadership abilities

Academic Contributions

The UAF Faculty Senate passed the following at its Meeting #60 on December 4, 1995:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate recommends that American Sign Language be recognized as fulfilling the non-English language option of the "Perspectives on the Human Condition" as required by the Baccalaureate Core.

The UAF Faculty Senate further recommends that given the structure and depth of ASL courses, that three semesters of ASL (9 hours) be counted as we presently count two semesters (10 hours) of other languages.

EFFECTIVE: Fall 1996

RATIONALE: For an inordinately long time, voices of reason within the UAF academic community have urged that the University's Core Curriculum be extended in a way that offers students the opportunity of using American Sign Language (ASL) courses to meet Core Requirements in the same manner as other languages. At the same time, vocal resistance to this minor change has been forthcoming. The reasons offered for this resistance seem to emanate from a lack of awareness in an educated community.

In prefacing the motion from the Core Review Committee urging acceptance of ASL as Core Curriculum credit, we wish to address the specifics of the aforementioned objections and to offer supporting reasons for the Committee's recommendation.

1. It has been suggested that there is no "body of literature" associated with ASL that would stand as foundation for this language as a perspective on the human condition.

This objection is perhaps the most offensive to the culture at the very center of which ASL stands as core. First, the implication shows little understanding of the concept of culture. Many of us who actually teach the concept of culture refer definitionally to Geertz (1973) who says culture is a "design for living," or to Goodenough (1970) who claims it is "whatever one has to know or believe in order to operate in a manner acceptable to its members." However one chooses to define culture, all cultures share the objectives of adaptation and survival in a specific environment, and maintenance of group identity and unity over time. For Deaf Americans, their families, friends, and authentic associates, ASL, as the heart of their culture, functions in exactly the same way.

As a language in and of itself, ASL is not a transformation of any oral language, but rather an evolution of the need to communicate among and with persons who have little or no access to sound. The language sets Deaf culture apart from others with similar sensory loss (e.g., the blind). ASL has its own unique phonological, syntactic, and semantic structure, with the flexibility required to develop new vocabulary and new grammatical structures (Friedman, 1977). It serves the same social and intellectual functions as spoken languages. It also has regional dialects and slang. All by way of explaining that ASL is a unique, evolving language and not some manual/digital code for English.

Note that identity comes not from being deaf per se, but from the cultural matter of ASL use. Further, cultural matters (such as marriage patterns, societal structure, and material artifacts) define ASL users, documentation of which is extensive and available on request from Deaf Community Services of Fairbanks or from the Chairperson of the Core Curriculum Review Committee.

In specifically addressing the matter of a "body of literature," we speculate that such an objection seems to be that there is no accumulation of written literature. We hope that it is recognized that no native language which is taught and accepted as Core Curriculum credit has written literature. Frishberg (1992) discusses Deaf traditions of oratory, folklore, and performance art, and notes that "...written forms of language are not required for a community to possess a well-formed aesthetic in poetry, narrative, humor, and rhetoric" (p. 45). Please become aware, however, that ASL culture has fostered an extensive wealth of materials across a variety of genres. There exists a body of ASL history, poetry, stories, plays, and novels. There are libraries of print, videotape, and film (Please see: Gannon, 1981; Lane, 1984; Groce, 1980; Miles, 1975; Klima & Bellugi, 1975, 1979; Eastman, 1974; Bragg & Bergman, 1981; Rutherford, 1983, 1984, 1985, 1987). The folkloristic tradition of Deaf America is over 175 years old, replete with legends, tall tales, jokes, folkspeech, games, sign play, folk poetry, customs, rituals, and celebrations (Rutherford, 1984, 1987; Carmel, 1980). The study of American Deaf Culture has shown distinct differences between that culture and the mainstream society in social attitude, patterns for daily living, world view, humor, and literature. Additionally, the deaf community in America has a long and extensive tradition in all forms of the visual arts (Rutherford, 1992, pp. 32-33).

There are Deaf publishers whose primary focus is the publication of Deaf literature and related materials in print and electronic

media. Among them are T.J. Publishers, Inc.; Dawn Sign Press, Inc.; National Association of the Deaf; and Gallaudet University Press/ Linstok Press, Inc. focuses on scholarly publication. Mainstream publishers, including Harvard University Press, University of California Press, University of Illinois Press, Alfred A. Knopf, and Random House, among many others, have published major works on Deaf culture and literature and are becoming increasingly interested in the field. National publishers focusing primarily on videotape and film production of works in ASL include D.E.A.F. Media, Inc., Sign Media, Inc., and Beyond Sound, Inc. Other producers of ASL videotape materials include Gallaudet University, the National Technical Institute for the Deaf, and the San Francisco Public Library (Rutherford, 1992).

Persons with an interest to further their awareness of ASL culture, literature, and tradition will find useful bibliographic material attached to this background material. (See especially Corwin and Wilcox, 1985).

2. It has been implied that ASL courses are taught without standard syllabi and are taught by persons who do not have "University-level credentials."

The Core Review committee has requested and received evidence that conclusively refutes the syllabus rumor. ASL courses are conceived, organized, and taught with as much or more care than many courses accepted by UAF.

The matter of who teaches ASL is significant but "university-level credentials" most certainly are not. Any University in which accredited courses in indigenous languages are available (University of New Mexico, University of Nebraska, University of Arizona, University of Oklahoma, University of Alaska Fairbanks,) sensibly recognizes that no better source of a language can exist than native speakers. Yet we know further that all ASL teachers in the UAF system are either degreed or are working to become so at this time. Further interest in the topic might be referred to "Who is Qualified to Teach American Sign Language" (Kanda, J., and Fleischer, L., 1992).

As additional information, the Core Review Committee would like to offer the following:

- Modern Languages at UAF not only has no objections, but endorses ASL for use in the core.
- The State of Alaska recognizes ASL as a language.

- The State of Alaska mandates ASL as foreign language credit at the public school level.
- Major Universities throughout the Lower 48 allow students to satisfy foreign language requirements using ASL (e.g. Iowa State University).
- ASL is the fourth most commonly used language in the United States of America.

The Core Review Committee and others who endorse this minor alteration of the UAF core recognize that changes can be unsettling, particularly to persons comfortable with the status quo. We must understand, however, that standing still puts us behind in the broad movement towards better education as the central product of our institution. Lamb & Wilcox (1992), in discussing the establishment of ASL as a baccalaureate degree program at the University of New Mexico, say that " ... we were aware of the rather cumbersome bureaucracy through which any request of this nature would have to move" (p. 165). But there, too, the faculty and administration came to understand the significance of Deaf culture to the American plurality and moved toward a supportive recognition of ASL as both language and as the central feature of an extensive American culture. Selover (1992) tells us that in establishing ASL as a language in the curriculum of higher education we will " ... meet with opposition. This largely stems from basic misunderstanding of the language and culture of Deaf persons. Your job is to educate as you go - most people will listen" (p. 160).

As members of the Core Review Committee, we certainly hope so.

The UAF Faculty Senate passed the following at its Meeting #60 on December 4, 1995:

MOTION PASSED
==========

The UAF Faculty Senate moves to amend the UAF Governance Coordinating Procedures as indicated below.

EFFECTIVE: Immediately

RATIONALE: The actions of the Budget Council and the budget process have changed over the last few years. As a result, the committee has been inactive. The individual governing bodies all have some type of budget or fiscal committee to track information. This committee duplicates functions that are covered in other areas and this duplication is deemed unnecessary.

To delete the Budget Committee from the UAF Governance Coordinating Committee requires an amendment to the Procedures. The amendment requires a two-thirds vote from each of the three governing bodies, ASUAF, Faculty Senate, and Staff Council, and Chancellor's approval.

****

(( )) = Delete

ARTICLE V Committees

Sect. 1 The conference committees of the UAF Governance Coordinating Committee shall include:

Academic Computer Users Committee
((Budget Committee))
Committee on Transportation and Campus Security
Intercollegiate Athletics Committee
Library and Information Technology Users Committee
Rural Affairs Committee
UAF Grievance Council
Health Issues

Sect. 3 Conference Committees Charges

((B. Budget Committee

The charge for the UAF budget Committee shall be:

1. follow and study the annual budget development including methods of determining budget allocations among and within the Major Administrative Units of the University of Alaska.
2. conduct hearings on the UAF budget as deemed appropriate or necessary.))

The UAF Faculty Senate passed the following at its Meeting #60 on December 4, 1995:

MOTION PASSED (15 yes, 11 nays)
==========

The UAF Faculty Senate moves to adopt a policy statement on "Consensual Sexual (Amorous) Relations between Faculty and Students" as formulated by the AAUP Council.

The UAF Faculty Senate so moves with the understanding that adoption of the AAUP statement does not preclude amendments consistent with the Faculty Affairs Committee's "Report on Rationale and Options."

AAUP Policy Statement

on

Consensual Sexual Relations Between Faculty and Students

Sexual relations between students and faculty members with whom they also have an academic or evaluative relationship are fraught with the potential for exploitation. The respect and trust accorded a professor by a student, as well as the power exercised by the professor in an academic or evaluative role, make voluntary consent by the student suspect. Even when both parties have initially consented, the development of a sexual relationship renders both the faculty member and the institution vulnerable to possible later allegations of sexual harassment in light of the significant power differential that exists between faculty members and students.

In their relationships with students, members of the faculty are expected to be aware of their professional responsibilities and avoid apparent or actual conflict of interest, favoritism, or bias. When a sexual relationship exists, effective steps should be taken to ensure unbiased evaluation or supervision of the student.

RESOLUTION PASSED AS AMENDED (with 1 nay)
==========

Whereas, the Administrative Committee of the UAF Faculty Senate, in a memorandum dated October 18, 1995 disagreed with the Chancellor's action in setting aside "university policy for the search committees for Deans/Directors" and requested appointment of "a representative search committee"; and

Whereas, the CRA Faculty Council, in a memorandum dated October 26, 1995, supported the request of the UAF Faculty Senate Administrative Committee and additionally requested "that the search not be limited to the UAF community but at least be extended statewide"; and

Whereas, the UAF Faculty Senate, at its Meeting #59 held on November 13, 1995, passed a resolution, viz., "The UAF Faculty Senate does not recognize the validity of the current selection process for the Executive Dean of the College of Rural Alaska and directs the Chancellor to follow the established procedure"; and

Whereas, President Heyne, in a letter to President Komisar dated November 14, 1995, expressed the Senate's position "that if procedures developed through shared governance are to have any credibility or validity at all, they must be followed by the Chancellor"; and

Whereas, the Chancellor has refused to follow to follow existing procedure for the hiring of either a Vice-Chancellor or Dean;

THEREFORE BE IT RESOLVED THAT, the UAF Faculty Senate moves to censure Chancellor Joan K. Wadlow.

BE IT FURTHER RESOLVED THAT, the UAF Faculty Senate moves to direct Chancellor Joan K. Wadlow to follow both the spirit and the letter of the procedures and policies for all hiring of a Vice-Chancellor or Deans or any other positions with responsibilities that include supervision of faculty.

UNIVERSITY OF ALASKA FAIRBANKS
LEADERSHIP HONORS

Purpose:

Leadership Honors will be publicly awarded to individuals in order to recognize and honor student leadership contributions to the University of Alaska Fairbanks. The leadership activities must enhance the Mission Statement of UAF and promote student life through individual and collective growth, and enhance the communities in which UAF campuses are located.

Criteria:

1. Minimum 2.5 cumulative GPA.

2. Must have had leadership involvement for four semesters at UAF, this includes Rural Campuses, for a bachelor's degree or two semesters for an associate's or master's degree.

3. Involvement can be demonstrated by, but not limited to, the following:
   - A. Elected or appointed office.
   - B. Holding a leadership position, or a position of ultimate responsibility, i.e., Chairperson, President, Figurehead, Big Kahuna.
   - C. Participation in community events, club activities, student government for the improvement of student life, campus life, or university relations with the greater community.

The students' involvement must have contributed to the improvement of student and campus life, either at the main or rural campus. They saw a need and filled it! They didn't just watch from the sidelines. There was a significant difference made by their involvement.

Awarding:

1. Students must apply or be nominated for the award and show proof of leadership by submitting letters of recommendation. There must be at least two letters of recommendation along with the Leadership Honors Form. These are to be turned in to the Dean of Student Services by date XXXX, time XXXX. This date must be at least two months before graduation. Date to be set by Leadership Honors Committee.

2. A. The Leadership Honors Committee will be composed of
   - a. one designee from Faculty Senate,
   - b. one designee from the Student Services Office,

c. one student designee from ASUAF,
d. one designee from the Student Activities Office,
e. one other student and one other faculty/staff respectively.
f. on student from a rural campus.

B. Students who sit on this committee cannot apply for Leadership Honors during the semester in question.

C. The Leadership Honors Committee is the final authority for all matters related to this award.

3. Students will receive a crimson Leadership Honors cord at graduation. An explanation about the purpose of the honor will be in the graduation program with the student's names highlighted.

The UAF Faculty Senate passed the following at its' Meeting #59 on November 13, 1995:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the statement on Interdisciplinary Studies as currently listed in the UAF Catalog with the following noted changes:

[[ ]] = Deletions
CAPS = Additions

> Interdisciplinary Studies is a program available to UAF students within the associate of applied science, bachelor of arts, bachelor of science, and bachelor of technology degree options. The interdisciplinary program option provides flexibility to students with well-defined goals who do not fit into one of the established majors offered by the university.
>
> A student may submit his/her proposal for an interdisciplinary program upon completion of 15 credits at UAF [[and preferably 30 credits (for the associate's degree), or 60 credits (for the bachelor's degree) prior to graduation.]], AND HE/SHE SHALL HAVE AT LEAST 30 CREDITS REMAINING IN HIS/HER PROPOSED DEGREE PROGRAM WHEN SEEKING APPROVAL FOR AN INTERDISCIPLINARY DEGREE. The proposed curriculum must differ significantly from established degree programs at UAF and will require evidence that the necessary facilities and faculty are available to ensure an approximation of a normal undergraduate degree. All general requirements for the A.A.S., B.A., B.S., or B.T. degree must be met.
>
> In developing an interdisciplinary proposal, the student should specify the degree (A.A.S., B.A., B.S., or B.T.), include an explanation of how the proposed program differs substantially from established UAF programs, and a discussion that current UAF resources are adequate to meet the requirementS of the proposed program. (A MINIMUM OF TWO DISCIPLINES IS REQUIRED FOR THE INTER-DISCIPLINARY DEGREE). The student then obtains an advisory committee of at least three faculty members from the appropriate disciplines THERE SHALL BE AT LEAST ONE FORMAL MEETING WITH THE FULL COMMITTEE TO REVIEW THE STUDENT'S PROPOSAL. The committee will appoint a chair, review the proposed program, select a degree title in concert with the student, and make its recommendation. Applicants then submit to the Provost their proposal for the program they wish to pursue, specifying the degree, proposed curriculum WORKSHEET, and rationale. THE DEGREE

IS AWARDED THROUGH THE SCHOOL OR COLLEGE OF THE CHAIR OF THE COMMITTEE, SUBJECT TO APPROVAL BY THE PROVOST.

Students interested in pursuing an interdisciplinary A.A.S., B.A., B.S., or B.T. degree, or who want to explore this as a degree option, can contact the Academic Advising Center to receive assistance in finding faculty advisors and developing their curriculum proposal.

EFFECTIVE: Fall 1996

RATIONALE: Clarification of procedures and requirements for interdisciplinary degrees.

The UAF Faculty Senate passed the following at its' Meeting #59 on November 13, 1995:

MOTION
=======

The UAF Faculty Senate moves to modify the deadline schedules for add/drop, withdrawal, credit/audit, and freshman low grade reports as indicated below:

[[ ]] = deletion
CAPS = addition

1. Change *Last Day to Add* from [[End of 1st week of instruction]] to: SECOND FRIDAY AFTER 1ST DAY OF INSTRUCTION.
2. Change *Late Add* from [[Until the 4th Friday after classes begin]] to: 4TH FRIDAY AFTER 1ST DAY OF INSTRUCTION.
3. Change *Drop* from [[Until the end of the 2nd week of Instruction]] to: 3RD FRIDAY AFTER 1ST DAY OF INSTRUCTION.
4. Change *Freshman Low Grade Reports* from [[4th week of classes]] to: THE WEDNESDAY OF THE FOURTH FULL WEEK AFTER THE 1ST DAY OF INSTRUCTION.
5. Change *Withdrawal for Freshman and Non-degree Students* from [[Until the 6th Friday after classes begin]] to: 6TH FRIDAY AFTER 1ST DAY OF INSTRUCTION.
6. Change *Withdrawal (for all other students)* from [[Until the 4th Friday after classes begin]] to: 4TH FRIDAY AFTER 1ST DAY OF INSTRUCTION.
7. Change *Faculty Initiated Withdrawal* from [[Prior to the 4th Friday of classes]] to: 4TH FRIDAY AFTER 1ST DAY OF INSTRUCTION.
8. Change *Change from Credit to Audit* from [[Subsequent to the 3rd Friday after Instruction begins]] to: FOLLOWING 3RD FRIDAY AFTER 1ST DAY OF INSTRUCTION.
9. Change *Change from Credit to Audit After 3rd Friday of Class (freshmen and non-degree students)* from [[Same deadlines as Withdrawal but instructor's signature required]] to: UNTIL THE 6TH FRIDAY AFTER 1ST DAY OF INSTRUCTION.
10. Change *Change from Credit to Audit After 3rd Friday of Class (all others)* from [[Same deadlines as Withdrawal but instructor's signature required]] to: 4TH FRIDAY AFTER 1ST DAY OF INSTRUCTION.

Late withdrawal and late total withdrawal remain the same as printed (Until the Last Day of Instruction).

Note: First day of instruction identified in catalog.

EFFECTIVE: Fall 1996

RATIONALE: To simplify the placement of dates and make the calendar more comprehensible.

The UAF Faculty Senate passed the following at its' Meeting #59 on November 13, 1995:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to amend the policies on course compression and course approval by adding the following:

Any course compressed to less than six weeks must be approved by the college or school's curriculum council. Furthermore, any core course compressed to less than 6 weeks must be approved by the Core Review Committee.

Any new course proposal must indicate those course compression formats in which the course will be taught. Only those formats approved will be allowed for scheduling.

EFFECTIVE: Fall 1996

RATIONALE: There is no existing institutional policy establishing an approval process for offering specific courses in a compressed format. This lack of an approval process has caused some faculty to question the appropriateness of some compressed courses. The proposed policy change implements an approval process using the existing governance structure and places the burden of review at the college/school level. A more general review by the Core Curriculum Committee is required for proposals to compress core courses because of their common use across disciplines.

Courses currently offered in a compressed format were not granted blanket approval so that individual colleges and schools could review their current compressed offerings. The proposed policy does not prohibit colleges/schools from granting such a blanket approval themselves.

RESOLUTION PASSED
==========

WHEREAS, the recently adopted Regents' policy on non-bargaining unit faculty compensation has nothing in common with the UAF Faculty Senate and statewide Faculty Alliance recommendations for faculty compensation developed over the last year in consultation with the Systemwide Academic Council; and

WHEREAS, Regents' policy assumes that at least one-fifth of University of Alaska faculty are not satisfactorily performing their jobs and therefore do not deserve annual raises, and furthermore asks faculty to identify those undeserving professors; and

WHEREAS, Regents' policy allows for a maximum of fourth-fifths of the faculty to receive annual raises in a given year, but does not offer any minimum, so that "annual" raises are actually entirely discretionary; and

WHEREAS, Regents' policy also includes an explicitly "discretionary" fund for administrators to grant raises to whomever they please, including raises for promotion of anywhere between zero and ten percent; and

WHEREAS, Regents' policy is insulting, divisive, and not responsive to the collaborative work of faculty on all three campuses;

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate joins the UAA Faculty Senate in urging the Board of Regents immediately to suspend the new policy and hold adequate public hearings to consider adoption of the UA Faculty Alliance recommended compensation policy.

RESOLUTION ON OFFICE OF FACULTY DEVELOPMENT

RESOLUTION
==========

WHEREAS , Faculty Development services on campus improve effectiveness of instruction and advising, encourage collegial exchange of ideas, and provide training and materials to inspire and support creative teaching and research,

THEREFORE BE IT RESOLVED, that the Faculty Senate recommends that the Office of Faculty Development be more fully supported, with a half-time faculty officer and half-time clerical support; and

BE IT FURTHER RESOLVED , that the first priorities for the OFD be as follows:

1) generation of funding to support development of teaching, supervision, and mentoring of undergraduate and graduate students, including travel to seminars, presentation of on-campus seminars, and a collection of teaching resources to be housed at the OFD:

2) encouragement of peer support for teaching, including a mentoring program for new faculty, and peer visit programs to supplement SOI's and stimulate cross-classroom exchange;

3) implementation of the UAF Featured Faculty Program, in conjunction with the Office of the Provost.

RATIONALE: In the past, the UAF Office of Faculty Development has provided seminars on teaching, on the assessment of teaching, and on faculty promotion and tenure. The office has generated outside funding for off-campus faculty training and for presentation of successful UAF teaching programs at conferences. Program efforts to achieve and retain accreditation are also enhanced by the existence of vital faculty development services.

Unfortunately, the Fall 1994 Assessment report (Kuykendall, Worley) concluded that the funding of faculty development provides "such minimal services that it is difficult to locate on campus" and that "the absence of such an office jeopardizes both faculty morale and the quality of teaching and advising services."

The faculty senate should support current efforts of the Provost to reinvigorate this valuable office.

RESOLUTION ENDORSING FACULTY ALLIANCE POSITION
ON FACULTY SALARY STRUCTURE

RESOLUTION
==========

The UAF Faculty Senate endorses the following position taken by the Alliance of Faculty Senates.

For simplicity and standardization, we propose a system of compensation based on the staff pay scale which successfully recognizes increased experience over time. Our proposal addresses the goal of formulating a simple mechanistic system of pay increases that could prevent the demoralizing practice of holding experienced faculty members' salaries constant while bringing in new faculty at higher pay. This proposal is similar to the staff compensation system in that it offers three percent annualized increases awarded every two years based on satisfactory or better performance. These increases fall to an annualized rate of 1.5 percent at the higher end of the ranges. It also offers the opportunity for promotions, which are equivalent to moving to a higher grade in the staff compensation scale. This proposal is a product of senate deliberations over the past few months, and, time permitting, will be reviewed by the senates one last time in the next couple of weeks.

The new salary schedule for non-bargaining unit faculty should contain the following elements.

1. salary increases annualized at 3 percent;

2. cost of living adjustments to the faculty salary scale applied in the same manner as to the staff salary scale;

3. step increases based on overall satisfactory or better performance every two years for the first 12 years;

   a. salary increases for promotion are equivalent to a 2 year salary jump, from year 7 to year 10.

4. step increases of 1.5% after 12 years; and

5. appropriate discipline based started salaries

Faculty Appeals - Bylaw Change

I proposed The following motion for introduction to the Faculty Senate meeting of February 6, 1995.

Motion to Amend Faculty Senate Bylaws Sec. 3 (Article V-Committees) Permanent 8:

The UAF Faculty Senate moves to amend its bylaws Sec. 3(Article V-Committees) Permanent 8 to read as follows:

The Faculty Appeals AND OVERSIGHT Committee shall be composed of two [[one]] tenured faculty members, ELECTED [[selected]] from each college/school and confirmed by the Faculty Senate, who shall serve for a two year term. Members' terms will be staggered to provide continuity. THIS COMMITTEE WILL FUNCTION AS AN APPEAL BODY FOR ISSUES OF FACULTY PREROGATIVE, OVERSEE EVALUATION OF ACADEMIC ADMINISTRATORS, AND MAKE RECOMMENDATIONS TO THE PROVOST OR CHANCELLOR.

Committee members shall CONSTITUTE [[serve as]] a hearing panel pool to serve as needed on grievance hearing panels.

A promotion/tenure appeals subcommittee composed of five tenured faculty will hear all promotion and/or tenure reconsideration requests and report its findings to the Chancellor according to University of Alaska Fairbanks Regulations, Section IV,B,4.

EFFECTIVE: Immediately on Chancellor's approval

RATIONALE: The current faculty appeals committee has a narrow charge. There is no appropriate faculty-governed process to consider issues such as: student grade appeals; student actions against faculty; challenges to academic freedom; faculty appeals of dismissals, non-retentions, and administrative decisions; and faculty initiated actions against other faculty or faculty governance. This committee will also provide a representative body of senior faculty to oversee the evaluation of administrators, which

has previously been carried out on an ad hoc basis.

This committee is not designed to replace the current University Wide Grievance Council but rather to create a forum to resolve issues of faculty prerogative or faculty appeal. It is hoped that this forum would resolve some issues before they reach the Grievance Council.

This committee and the UAF Faculty Senate will develop procedures for the appeal and administrative evaluations. Appropriate University regulations governing the function of this committee will be formulated.

The UAF Faculty Senate passed the following at its meeting #56 on March 20, 1995.

MOTION PASSED (1 Nay)
==========

The UAF Faculty Senate moves to adopt the following Grade Appeals Policy:

GRADE APPEALS POLICY

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that the assignment of grades is a faculty responsibility. Therefore, the University administration shall not influence or affect an assigned grade or the review of an assigned grade.

The following procedures are designed to provide a means for students to seek review of final course grades alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally with the instructor of the course. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. A "grade" refers to letter grades A, B, C, D, F and Pass. The NB (no basis) and I (incomplete) designators are not grades and, therefore, are not subject to appeal.

B. For the purpose of this procedure, "arbitrary and capricious" grading means:

1. the assignment of a course grade to a student on some basis other than performance in the course, or

2. the assignment of a course grade to a student by resorting to standards different from those which were applied to other students in that course, or

3. the assignment of a course grade by a substantial, unreasonable and unannounced departure from the instructor's previously articulated standards.

C. "Grading errors" denotes errors in the calculation of grades rather than errors in judgment.

D. All references to duration in "days" refers to university working days, which exclude weekends, holidays and days in which the university is officially closed.

E. "Department head" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department).

III. Procedures

A. Errors by an instructor in determining and recording a grade or by the university staff in transcribing the grade are sources of error that can be readily corrected through the student's prompt attention following the normal change of grade procedure.

1. It is a student's obligation to notify the instructor of any possible error immediately by the most direct means available. If this is through an oral conversation and/or the issue is not immediately resolved, it is the student's responsibility to provide the instructor with a signed, written request for review of the grade, with a copy to the unit department head and the dean of the college or school in which the course was offered.

2. Notification must be received by the instructor and/or department head within 20 days from the first day of instruction of the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester).

3. The instructor is responsible for notifying the student in writing of his or her final judgment concerning the grade in question within 10 days of receipt of the request, and for promptly submitting the appropriate change of grade form to the Director of Admissions and Records if an error occurred.

4. If the student does not receive a response from the instructor or the unit department head by the

required deadline, the student must seek the assistance of the dean of the college or school in which the course was offered.

5. If the instructor is no longer an employee of the university or is otherwise unavailable, the student must bring the matter to the attention of the unit department head who will make every effort to contact the instructor.

    a. If the instructor can not be contacted but course records are available, the department head may correct a grading error through the regular change of grade process on behalf of the instructor.

    b. If the instructor can not be contacted and course records are either unavailable or indecisive, the student may request a review following the procedure outlined below.

6. there may be extenuating circumstances when the deadlines cannot be met due to illness, mail disruption, or other situations over which the student may have no control. in such a case, upon request from the student, the dean of students, after review of supporting documentation provided by the student, may recommend to the grade appeals committee that the deadlines be adjusted accordingly. an extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

B. If no such error occurred, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and satisfaction is not forthcoming from the appropriate department head.

1. This review is initiated by the student through a signed, written request to the department head with a copy to the dean of the college or school in which the course was offered.

    a. The student's request for review may be submitted using university forms specifically designed for this purpose and

available at the Admissions and Records Office.

b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration can not influence or affect the outcome of the review.

c. The request for a review must be received no later than 45 days after the first day of instruction in the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester).

d. The request must detail the basis for the allegation that a grade was improper and the result of arbitrary and capricious grading and must present the relevant evidence.

2. It is the responsibility of the department head to formally notify both the instructor who issued the grade and the dean of the unit's college or school that a request for a review of grade has been received.

3. The dean will appoint a 5 member review committee composed of the following:

a. One tenure-track faculty member from the academic unit in which the course was offered (other than the instructor of the course).

b. Two tenure-track faculty members from within the college or school but outside of the unit in which the course was offered.

c. One tenure track faculty member from outside the college or school in which the course was offered.

d. At the option of the student whose grade is being reviewed, the fifth member to be appointed by the dean will be a student or another tenure track faculty member outside the college or school in which the course was offered.

e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for grade appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

4. The committee must meet within 10 days of receipt of the student's request.

a. During this and any subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

c. At this meeting, the committee will rule on the validity of the student's request. Grounds for dismissal of the request for review are:

1) This is not the first properly prepared request for appeal of the particular grade.

2) The actions of the instructor do not constitute arbitrary and capricious grading, as defined herein.

3) The request was not made within the policy deadlines.

4) The student has not taken prior action to resolve the grade conflict with the instructor, as described under section III, A.

d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department head and dean within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

5. Acceptance for consideration of the student's request will result in the following:

   a. A request for and receipt of a formal response from the instructor to the student's allegation.

   b. A second meeting scheduled to meet within 10 days of the decision to review the request.

      1) The student and instructor will be invited to attend the meeting.

      2) The meeting will be closed to outside participation, and neither the student nor instructor may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

      3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

      4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

6. The final decision of the committee will be made in private by a majority vote.

   a. The committee is not authorized to award a grade (letter or pass/fail) or take any action with regard to the instructor.

d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department head and dean within five days of the decision, and will state clearly the reasoning for the dismissal of the request.

5. Acceptance for consideration of the student's request will result in the following:

   a. A request for and receipt of a formal response from the instructor to the student's allegation.

   b. A second meeting scheduled to meet within 10 days of the decision to review the request.

      1) The student and instructor will be invited to attend the meeting.

      2) The meeting will be closed to outside participation, and neither the student nor instructor may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

      3) The proceedings will be tape recorded and the tapes will be stored with the campus Judicial Officer.

      4) The meeting must be informal, non-confrontational and fact-finding, where both the student and instructor may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

6. The final decision of the committee will be made in private by a majority vote.

   a. The committee is not authorized to award a grade (letter or pass/fail) or take any action with regard to the instructor.

ORIGINAL

b. Actions which the committee can take if it accepts the student's allegation of arbitrary and capricious grading must be directed towards a fair and just resolution, and may include, but are not limited to, the following:

1) direct the instructor to grade again the student's work under the supervision of the department head,

2) direct the instructor to administer a new final examination and/or paper in the course,

3) direct a change of the student's registration status (i.e., withdrawn, audit, dropped) in the course.

c. A formal, written report of the decision must be forwarded to the student, instructor, department head, dean and Director of Admissions and Records within five days of the meeting.

d. The decision of the committee is final.

EFFECTIVE: Beginning of Fall Semester 1995

RATIONALE: No such formal appeals process currently exists. This has lead to inconsistencies in the handling of such cases.

Carl Rennick March 22, 1995

President, UAF Faculty Senate Date

APPROVED: Joan M. Wadlow (see Statement) DATE: 3/31/95

Chancellor's Office

DISAPPROVED_____ DATE:_____

Chancellor's Office

In signing this I want to emphasize two points:
1. The grade appeals policy fills a very serious gap in UAF procedure and I am pleased that the Senate acted and appreciate the efforts that resulted in its development.
2. Experience may suggest formal revisions. Yet I hope that meanwhile the committee exercises its full authority in the last provision to secure a "fair and just resolution"; this provision authorizes the committee to take actions beyond those that are specifically listed. For example, the committee might find it desirable to appoint a faculty peer committee to grade the student's work again. And, the committee might also want to include in its written report any conclusion that the instructor's action was unethical and possibly illegal.

The UAF Faculty Senate passed the following at its Meeting #56 on March 20, 1995.

Submitted by Faculty Development, Assessment, and Improvement
Featured Faculty Proposal- Joan Worley

MOTION (PASSED AS AMENDED - 4 Nays)

Amendments in CAPS

The UAF Faculty Senate moves to accept the proposal on Featured Faculty.

POLICY AND PROCEDURES FOR TEACHING RECOGNITION AT UAF

PREAMBLE

UAF is creating the UAF Featured Faculty as its way of recognizing and certifying teaching excellence within the institution. While UAF endorses and encourages the granting of awards to outstanding teachers, it also wishes to recognize teaching excellence in a way which emphasizes performance relative to explicit criteria rather than the competitive comparisons which are inherent in award programs. Thus, election to the Featured Faculty will identify a faculty member as an excellent teacher as determined by criteria rather than by comparison to peers. The Featured Faculty will, in addition to providing recognition for faculty, become an important part of UAF's efforts to maintain and improve the quality of instruction within the institution.

Faculty at the University of Alaska Fairbanks may be recognized for exemplary teaching practices when their teaching performance for at least three years demonstrates consistently high-quality instruction and this performance quality is confirmed by students, colleagues within their unit, supervisor, Dean or Director and Provost. Faculty selected to be recognized for exemplary teaching practices shall receive a Certificate of Teaching Excellence Recognition and will be given membership in the UAF Featured Faculty. The membership term will be five years. Newly elected members serve the following calendar year as "Featured Faculty of UAF". Other faculty will be encouraged to observe the teaching practices of Featured Faculty for one month during the calendar year after appointment. The purposes of these awards shall be to improve teaching, recognize high quality teaching, and further develop and support faculty collegiality.

Procedures:

A. Teaching Excellence Recognition, UAF Featured Faculty

Faculty interested in applying for the UAF Featured Faculty shall initiate the process by submission of a letter and support materials to Department Heads. Faculty with an average of 4 or higher over the last three years on any or all of the items: I-1,I-3, or I-4 of the Student Opinion of Instruction (SOI), or "very good" or higher on this or other comparative measures, are strongly encouraged to apply.

Any student, faculty, or staff member may nominate a faculty member for consideration by submitting the nomination to the faculty member's supervisor. The supervisor shall inform the faculty member of his/her nomination and encourage him/her to apply according to procedures described in 1.a

1. Faculty Application Procedures

a. Letter shall indicate:

1) Interest of the faculty member in being considered for the award.

2) Agreement to serve the following calendar year as Featured Faculty.

3) Reasons for being considered for this honor, including personal teaching strengths, areas of significant teaching improvement, successful connection of research and teaching, advising of graduate and undergraduate students, mentorship/supervision of graduate students, and/or record of course/curriculum/pedagogy development.

b. Support materials shall include:

1) Documentation of student evaluation of instruction through student opinion of instruction measures and/or letters of support or other evaluative instruments.

2) Copies of two letters of support for exemplary teaching from peer review of teaching and support materials during the prior three years.

2. Selection Procedures:

a. SUPERVISORS SHALL REVIEW THE SUBMITTED REQUESTS, ADD ANY RECOMMENDATIONS OR COMMENTS, AND FORWARD THE SUBMISSIONS TO THE DEAN OF THE COLLEGE OR SCHOOL BY OCTOBER 25 ANNUALLY.

b. DEANS SHALL REVIEW THE SUBMITTED REQUESTS, ADD ANY RECOMMENDATIONS OR COMMENTS, AND FORWARD SUBMISSIONS TO THE FACULTY SELECTION COMMITTEE BY NOVEMBER 15 ANNUALLY.

c. THE FACULTY SELECTION COMMITTEE SHALL SELECT FEATURED FACULTY AND ANNOUNCE SELECTIONS TO THE PROVOST BY DECEMBER 15.

d. PROVOST SHALL REVIEW THE REQUESTS APPROVED BY THE COMMITTEE OF THE FACULTY AND ANNOUNCE APPOINTMENTS TO FEATURED FACULTY.

e. AFTER SELECTION IS COMPLETED, APPLICATION FILES WILL BE RETURNED TO CANDIDATES.

B. Featured Faculty procedures

1. Faculty Expectations:

Faculty receiving UAF Featured Faculty Membership shall serve as Featured Faculty at UAF during the following calendar year.

a. Faculty shall serve as Featured Faculty for 1 month during the calendar year following their award.

b. Faculty shall admit peers interested in observing their teaching practices during the month they are featured on the Featured Faculty calendar. Faculty will select the month during which they will serve and will notify the coordinator.

c. Faculty shall have the right to refuse peer observation when there is unavailable space or its is deemed inappropriate (hazardous, confidential, other).

d. Faculty shall make every effort to support the intent of peer observations, by providing observation opportunities to at least 3 peer faculty members making such requests, during their agreed-upon month of service.

e. Faculty shall agree to serve as Featured Faculty in the spirit of improving collegiality, providing mentor opportunities to others, and improving teaching practices.

2. Peer observation expectations:

Peer faculty interested in observing a Featured Faculty member(s) shall for the purpose of improving their own teaching practices, shall exhibit every consideration to the instructional environment, Featured Faculty member, and students.

a. Peer faculty interested in observing must contact the Featured Faculty member to arrange an appointment to observe during their month of service.

b. Faculty who observe a peer shall honor and comply with all ethical and professional expectations, as outlined in the Code of Ethics of the Education Profession, State of Alaska, and expected of a professional faculty member.

3. Supervisor expectations:
