WHEREAS, Orion Lawlor's nodding is addictive, his nodding is nuanced and we can observe the *slow and lengthy nods* usually showing agreement and understanding, he is not urging you to finish talking. "Take your time I'm listening". His *small nods* combined with a smile are an encouraging and bonding signal. A fast *rapid nod*, especially if Orion is pointing his finger, shows impatience and urges you to move on or let them do the talking. "yeah I got it, let's move on".

THEREFORE, BE IT RESOLVED that the UAF Faculty Senate acknowledges and proclaims that Dr. Orion Sky Lawlor has done great stuff for Faculty Senate and hereby the Senate expresses its deep appreciation and admiration; and

BE IT FURTHER RESOLVED that Orion be henceforth known as The Googulator.

---

The UAF Faculty Senate approved the following at Special Meeting #223 on April 24, 2017:

MOTION:

Discontinuation of Specialized Engineering Master's Degrees

The UAF Faculty Senate observes:

- A Civil Engineering MS will remain in the Civil & Environmental Engineering Department if their other MS and MCE degrees listed below are discontinued. Admissions were suspended in 2014 for these degrees. Many of these separate degrees are now available as concentrations within the Civil Engineering MS.*
- A Mining Engineering MS will remain if the Mineral Preparation Engineering MS is discontinued. The Mineral Preparation Engineering MS has not had more than one enrolled student since 2012, and admissions were suspended in 2014.
- A Computer Science MS will remain if the Software Engineering MSWE is discontinued. Admissions to the MSWE were suspended in 2012. The faculty who primarily taught the program's courses have retired. The Computer Science department does not protest the discontinuation.
- The intention of this recommendation is to have minimal impact to students and faculty.

Faculty Senate recommends:

- That the Mineral Preparation Engineering MS program be discontinued, since there are no faculty members currently affiliated with the program and the last student from the program will graduate soon.

Therefore, the UAF Faculty Senate agrees to the discontinuation of the following specialized Engineering Master's Degrees:

MS - Arctic Engineering
MS - Engineering Management
MS - Science Management
MS - Environmental Engineering
MCE - Civil Engineering
MS - Mineral Preparation
MSWE - Software Engineering

Effective: Fall 2017 upon approval of the UA Board of Regents

Rationale: There are not enough students to allow us to afford the expense of these specialized degrees in this budget climate, and each department will still retain a graduate program.

The UAF Faculty Senate took the following action at Special Meeting #223 on April 24, 2017:

MOTION:

Discontinuation of the AAS in Dental Hygiene

The UAF Faculty Senate observes:

- The Dental Hygiene program reliably graduated one cohort of 5 students at the end of each 2-year cycle. Admission to the program was suspended in summer 2016.
- Alaska health care, including dental hygiene, is in acute need of qualified professionals. All graduates of the Dental Hygiene AAS were employed immediately after graduation.
- The Alaska Department of Labor projected * a 21.6% growth rate in the demand for Dental Hygienists through 2024, the highest listed growth rate.
- There is a similar program at UAA that admits a cohort of 14 students each year.
- This is a high cost and low enrollment program for structural reasons, including a need to have dedicated dental office equipment for the students.
- Faculty and Administrator reviews of the program voted to discontinue it primarily for cost reasons and not on its service to Alaska workforce needs.

Faculty Senate recommends:

- Consider merging with the UAA program.

Therefore, the UAF Faculty Senate does not agree with the discontinuation of the AAS in Dental Hygiene.

Rationale: This is an expensive but important program for interior Alaska health care workforce development. The program should continue in its suspended state.

The UAF Faculty Senate took the following action at Special Meeting #223 on April 24, 2017:

MOTION:

Discontinuation of the BA in Geography

The UAF Faculty Senate observes:

- The Geography BS degree will remain even if the BA is discontinued.
- The majority of the Faculty and Administrative review committee members voted to discontinue the Geography BA, although at the Faculty review level, there was significant support for the program.

Faculty Senate recommends:

- Geography might consider establishing collaborations with other social science programs on campus, such as through cross-listed courses, to increase the number of faculty to teach courses, attract new students, and fulfill GER requirements.

Therefore, the UAF Faculty Senate does not agree with the discontinuation of the BA in Geography.

Rationale: The savings from eliminating the BA while retaining the BS is minimal, because all of the classes in the discipline will still be taught by the faculty. Yet for many UAF students, the BA is achievable but earning a BS is not feasible, for example due to the BS degree requirement for calculus. BA degrees also allow students to have a broad experience in their major, while having a minor in a different subject.

The Chancellor ___Approves _X_Disapproves

Chancellor

Date: 5/4/2017

The UAF Faculty Senate took the following action at Special Meeting #223 on April 24, 2017:

MOTION:

Discontinuation of the BA in Sociology

The UAF Faculty Senate observes:

- The department lost three faculty in 2016, and currently has one tenured faculty member and four active majors. These numbers are far too low for a sustainable program.
- The loss of three faculty in 2016 and the hiring freeze that prevented the department from being able to hire tenure track PhD sociologists have crippled the department.
- Recent changes to our bachelor's degree general education requirements mean that instead of choosing between SOC 100X and ANTH 100X, students can now choose from 27 possible courses.* This substantially reduced the tuition dollars earned by the Sociology Department.
- The Sociology BS was suspended in 2014, but has not been discontinued; there is a possibility that the BS could be reinvigorated through collaborative relationships with UAA and UAS to offer a joint online BS degree.
- Other programs would be adversely impacted by this discontinuation, including: Women, Gender, & Sexality Studies; Justice BA; Psychology BA and BS; Alaska Native Studies; and CTC certificate and AAS degrees.
- UAF is a major research university and Sociology is a standard program at nearly all major universities. The MCAT now tests students on their sociological knowledge; UAF students who plan to enter medical school will thus be at a significant disadvantage if they are unable to take Sociology courses. Federal grants increasingly require applicants to include a social science component.

Faculty Senate recommends:

- Since a viable Sociology Department exists at UAA ** and there are also three PhD sociologists affiliated with UAS,*** we should find a way to work together via online course sharing to allow interested Fairbanks students to earn Sociology degrees. A collaborative online degree in Sociology would serve as an excellent model of collaboration that other programs might adapt. A collaborative online program would allow students all across Alaska and beyond to benefit from a Sociology degree.

Therefore, the UAF Faculty Senate does not agree with the discontinuation of the BA in Sociology.

Rationale: The cost savings will be minimal as only one tenure track faculty is employed. Collaboration with UAA and UAS through distance education should be explored for continuing the program, which is consistent with Strategic Pathways objectives for making the three universities collaborate.

President, UAF Faculty Senate

The Chancellor ____Approves X Disapproves

Date: 5/4/2017

Chancellor

The UAF Faculty Senate took the following action at Special Meeting #223 on April 24, 2017:

MOTION:

Discontinuation of the PhD in Clinical and Community Psychology

Faculty Senate observes:

- The program has approximately 20-35 students enrolled, and approximately 1 graduate per year.
- Alaska has an enormous unmet demand for clinical & community psychology professionals.
- Significant faculty and staff turnover has occurred within the Department of Psychology over the past 10 years. This turnover coupled with the fiscal crisis requires the department to shift focus from the PhD program to undergraduate programs including the online bachelor's degree.
- The Faculty Evaluation Committee recommended continuation of the program.
- This department operates a local clinic, the UAF Department of Psychology Clinic,* which serves students, staff, faculty, and community members.
- The accreditation-required oversight for clinical operations (with real patients) in Fairbanks is expensive, and coordination with UAA on this has been complex.
- This was originally designed as a joint program between UAA and UAF.
- This discontinuation has both strong proponents and opponents within the department.

Therefore, the UAF Faculty Senate does not agree with the discontinuation of the PhD in Clinical and Community Psychology.

Rationale: This is an important program for interior Alaska healthcare research and also workforce development. Many mental health issues in Alaska, including Interior Alaska, are unique and deserve local study from America's Arctic University. Coordination with UAA consistent with Strategic Pathways recommendations should be explored. Some of the difficulties faced by the program are noted by the faculty review to result from lack of cooperation with UAA.

President, UAF Faculty Senate

The Chancellor ____Approves X Disapproves

Date: 5/4/2017

Chancellor

The UAF Faculty Senate took the following action at Special Meeting #223 on April 24, 2017:

MOTION:

Discontinuation of the Economics Programs

The UAF Faculty Senate observes:

- Our recent bachelor's degree general education requirements changes mean that fewer students are taking ECON 100X. This reduced the tuition earned by the Economics Program.
- In April 2016, SOM ceased admitting new students* to the economics programs.
- According to the spring 2016 review document:
  - The UAF Economics program appears to have a viable number of students, approximately 20 majors in each of the BA, BBA, and MS programs.
  - Student tuition covers nearly the entire cost of the BA and BBA programs.
  - Student tuition covers approximately 30% of the cost of the MS program.

Therefore, the UAF Faculty Senate does not agree with the discontinuation of the following Economics programs:

BA in Economics
BBA in Economics
MS in Natural Resource Economics

Rationale: UAF is a major research university and Economics is a standard program at nearly all major universities. Economics is one of the foundations of the modern university. Understanding how economies work is one of the most important skill sets students need in order to understand our world. Moreover, trained economists will provide vital insight and guidance to the state as our economy shifts and changes in response to declining oil production and profits. Faculty review voted strongly--unanimous with one abstention--in favor of keeping all three economics programs. This is a viable program, and should not be cut.

The UAF Faculty Senate TABLED the following at Meeting #222 on April 3, 2017:

MOTION:

The UAF Faculty Senate agrees to the discontinuation of the Cooperative Extension Research program.

Effective: On Board of Regents approval

Rationale:

Cooperative Extension Service (CES) faculty, after an in-depth internal review starting in September 2015, identified the Extension Research program for special program review during the spring 2016 review cycle. During the special program review process, the faculty review committee, administrative review committee, and chancellor's cabinet approved the discontinuation; as did the statewide academic council, vice president for academic affairs & research, and academic and student affairs subcommittee of the board of regents. The discontinuation summary and financial analysis are attached.

Because Cooperative Extension is a service unit, it does not offer degrees, so traditional teaching programs do not exist. Like the rest of CES, the Extension Research program does not offer degrees, and so does not appear in the catalog. Historically, the position of "Extension Specialist" has a tripartite appointment, including a research workload component, so during the internal review the Extension Research program was defined to consist of all Extension Specialists: this discontinuation would apply to all Extension Specialists, and only Extension Specialists. Tenured and tenure-track positions would still exist at CES as bipartite "Extension Agent" positions.

The ongoing budget cuts mean CES, like the rest of UAF, has extremely hard decisions to make. Many cooperative extension faculty were deeply involved in the reorganization process, which was both extensive and difficult, and included detailed financial and impact analysis. Some of the tenure-track faculty whose positions will be discontinued with this change, still support it for the good of the unit. Regardless of this discontinuation, the budget cuts mean tenure-track positions will certainly be lost, but this discontinuation allows the unit itself to make those hard choices for the good of the unit and its service to Alaskans.

****

Link to BOR Board Docs for discontinuation summary and financial analysis:
http://www.boarddocs.com/ak/alaska/Board.nsf/files/AJEVEE805D4B/$file/Approval%20of%20Deletion%20of%20Cooperative%20Extension%20Research%20at%20UAF_2.6.17.pdf

The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017:

MOTION:

The UAF Faculty Senate moves to amend the approved updated procedure to accomplish the program review process as required by Board of Regents Policy and UA Regulations (10.06) which it passed at Meeting #219 on December 5, 2016. The more recent amendment of March 15, 2017 is indicated in bold, italicized text (below).

Effective: Spring 2017

Rationale: The existing process was modified at Meeting #181 (March 5, 2012) to accommodate a five year review cycle. The revisions approved at Meeting #219 are intended to ensure faculty input, and clarify the role of the Faculty Senate in program eliminations. The Program Review Template as well as the BOR Policy for 10.06 have also changed since the last Faculty Senate motion in 2012, and current versions are included. The most recent amendment proposed here in red text concerns the process at step 2.

(See attached policy)

Additions: ***bold italics***
Deletions: ~~strikethrough~~

The program review process shall be completed as follows:
1. An initial review based on centrally generated productivity and efficiency summary and a unit-provided brief narrative describing mission centrality, the prospective market for graduates, the existence of similar programs elsewhere in UA, and any special circumstances that explain features of the centrally generated productivity and efficiency summary (see attached program review template for more details). The information reviewed meets the Board of Regents Policy and Regulation (10.06; current PDF posted with motion). A single Faculty Program Review Committee shall be comprised of one faculty representative from each college and school (not including CRCD) plus one representative from CRCD and one representative from CTC. The Faculty Program Review Committee shall be nominated by the Provost in consultation with the deans and directors, and, once formed, the list of committee members shall be submitted to the Faculty Senate for comment, and finalized by the Chancellor. The Faculty Program Review Committee shall review the materials and make one of the following recommendations:

- Continue program
- Continue program but improve outcomes assessment process and reporting
- Continue program but improve other specific areas
- Modify program through consolidation with another program or other significant re-organization
- Suspend admissions to program or
- Discontinue program

The Faculty Program Review Committee shall allow up to two representatives from the program under review to attend the meeting and to answer questions. The Faculty Program Review Committee shall provide a brief narrative justifying their recommendation and describe any areas needing improvement prior to the next review. A summary of the recommendation shall be shared with the program under review and the Faculty Senate President, who may request a copy of the full narrative. The Faculty Senate President, in consultation with members of the Faculty Senate Administrative Committee, then has the option to send a response to the Provost within two weeks. The program under review also has the option to send a response to the Provost within two weeks.

2. An Administrative Program Review Committee comprised of the Deans of Colleges and Schools and four administrative representatives from CRCD shall review the recommendations of the Faculty Program Review Committee, may request additional information from the program, and shall state their collective agreement or disagreement with the Committee's recommendation. ***A summary of the recommendation shall be shared with the program under review and the Faculty Senate President, who may request a copy of the full narrative. The Faculty Senate President, in consultation with members of the Faculty Senate Administrative Committee, then has the option to send a response to the Provost within two weeks. The program under review also has the option to send a response to the Provost within two weeks.***

3. The Provost, in consultation with the Chancellor's Cabinet, shall review the recommendations of the Faculty Program Review Committee, the Faculty Senate President, and the Administrative Program Review Committee and take one of the following actions:

a) Program continuation is confirmed.

b) Program continuation with an action plan prepared by the program and Dean to meet improvements needed by the next review cycle. Annual progress reports will be required in some cases. Actions may also include further review by an ad hoc committee.

c) Other actions, such as a major program restructuring. An action plan shall be required by the end of the next regular academic semester after a request for restructuring or similar action is made.

d) Recommend to discontinue program. When appropriate, admissions may be suspended pending action.

4. Faculty Senate reviews the recommendations to discontinue or suspend programs and states their collective agreement or disagreement with the Chancellor's Cabinet's recommendation. If the Faculty Senate disagrees, it shall provide an alternate recommendation by the end of the semester in which the Chancellor's Cabinet's recommendation is made.

5. The Chancellor reviews all levels of recommendations and decides whether to recommend program discontinuation to the Board of Regents.

Copies of the following are attached to hard-copy printed motion:
Link to current Instructional Program Review Template
Link to BOR Policy and UA Regulation 10.06

PROGRAM REVIEW 2016-17

DEPARTMENT:
PROGRAM:
DEGREE:

I. PROGRAM PRODUCTIVITY AND EFFICIENCY

1) Discuss or provide context for the following components of the PAIR data, and provide an explanation of any numbers that may seem out of place given the size and capacity of your program:
   a. Total SCH
   b. Number of majors
   c. Number of degrees
   d. Time to degree
   e. Department budget
   f. FTEs

   If the data do not accurately reflect the program, explain why not. Also, discuss trends, e.g., is enrollment growing or decreasing? Why?

[Please type your response here]

2) Describe the way this program fits into the department as a whole.
   What other programs are offered in the department and how are they connected with this program?
   What percentage of faculty and staff time is devoted to this program as opposed to others offered?
   What are the budgetary needs associated with this program in particular, e.g., how many faculty teach exclusively or predominantly the courses required for this program?
   Do those courses meet requirements for other programs?
   Are there any special equipment, space, commodity or other needs associated with the program that are not covered by student fees?

[Please type your response here]

3) Does this program have sufficient resources (people, space, time, funding, student interest) to adequately meet its objectives in a sustainable manner?

[Please type your response here]

4) Describe the productivity of the program faculty in publication, scholarship, teaching, funded research and service. Mention specific Unit Criteria if they will help the committee to assess the level of scholarly productivity. List any grant funding associated with the program faculty during the review period.

[Please type your response here]

II. NEED FOR PROGRAM

1) UAF'S mission and Core Themes are attached. How does this program contribute to that mission and those themes? Is this program uniquely central to the mission?

[Please type your response here]

DEPARTMENT:
PROGRAM:
DEGREE:

2) List any active academic, community, or industry partnerships associated with this program, and briefly explain what the partner contributes (including but not limited to monetary and in-kind contributions).

[Please type your response here]

3) Is this program duplicated within the UA system? If there is another program within the system, does this one have any important differences from the other program(s)?

[Please type your response here]

4) Describe the demand for the program by students and the prospective job market for program graduates. (For assessing the job market, you may find the following publication useful (http://labor.alaska.gov/trends/), particularly their annual employment forecast. The national Bureau of Labor Statistics also has potentially applicable information (http://www.bls.gov/ooh/).
If your program tracks actual job placement of its graduates, please provide that information. However, it's recognized that not all degrees qualify recipients for specific occupations, so in some cases, you may need to address this question in broader terms, e.g., what skill set does the degree represent? What kinds of jobs are graduates obtaining?

[Please type your response here]

III. MISSION FULFILLMENT

Attach the most current Student Learning Outcomes (SLOA) plan and most recent SLOA summary.

REGENTS' POLICY
PART X – ACADEMIC POLICY
Chapter 10.06 - Academic Program Review

P10.06.010. Academic Program Review.

A. In accordance with P10.04.020, it is the responsibility of the board to review and cause the initiation, augmentation, reduction or discontinuance of programs according to the mission of the university and its constituent institutions. This includes a degree or certificate program approved by the board.

B. Each MAU will conduct assessments of all instructional, research, and service programs with respect to quality, efficiency, and contribution to mission and goals. Assessments of instructional programs will include analysis of educational effectiveness as an essential part of the ongoing continuous improvement and accreditation processes. Assessments will be conducted at a minimum of every seven years. Occupational endorsements and workforce credentials approved by the president will be subject to review at the MAU level.

C. Exceptional reviews may be conducted as needed, to respond to issues including but not limited to specific academic or budgetary concerns. An expedited review process tailored to the particular circumstances shall be used for exceptional reviews.

(04-04-14)

P10.06.020. Educational Effectiveness.

A. To improve the effectiveness of its educational programs and the fulfillment of its mission and objectives, each MAU will regularly undertake studies of the impact of its academic programs on its students and graduates.

B. MAUs will describe achievements expected of their students and adopt reliable procedures for assessing those achievements. Assessment practices will be coordinated among MAUs. An annual report on the implementation and results of assessment practices will be provided to the board. Assessment outcomes will be used in program and institutional planning.

(04-19-96)

UNIVERSITY REGULATION
PART X – ACADEMIC POLICY
Chapter 10.06 - Academic Program Review

R10.06.010. Academic Program Review.

A. Purpose

This regulation suggests the elements each campus of the statewide system should employ in its review of academic programs.

B. Elements for Evaluation

The programs of each of the university's major units follow from its respective mission (Policy 01.01); changes in programs should be consistent with and guided by these mission statements.

The necessary elements that a unit should assess during the program review process include the following:

1. Centrality of the program to the mission, needs and purposes of the university and the unit;

2. Quality of the program, as determined by the establishment and regular assessment of program outcomes. Outcomes should be comprehensive, and indications of achievement should involve multiple measures and satisfy the properties of good evidence.

3. Demand for program services, as indicated by measures such as: credit hour production appropriate to the program's mission, services performed by the program in support of other programs, graduates produced, the prospective market for graduates, expressed need by clientele in the service area, documented needs of the state and/or nation for specific knowledge, data, or analysis, other documented need;

4. Program productivity and efficiency as indicated by courses, student credit hours, sponsored proposals and service achievements produced in comparison to the number of faculty and staff and the costs of program support;

5. Timeliness of an action to augment, reduce or discontinue the program;

6. Cost of the program relative to the cost of comparable programs or to revenue produced;

7. Unnecessary program duplication resulting from the existence of a similar program or programs elsewhere in the University of Alaska statewide system.

C. Process

1. Each chancellor shall be responsible for setting an academic program review process in place at his/her campus or unit. Results of the process shall be utilized for budgeting and planning purposes of the unit and shall be reported to the Board of Regents upon their request.

2. Exceptional reviews shall be conducted in accordance with an expedited process developed by the chancellor and approved by the president on an ad hoc basis to meet the needs of the campus.

(06-22-05)

The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017, with amendments at Section II.B.:

MOTION:

The UAF Faculty Senate moves to amend the Appeals Policy for Academic Decisions (other than assignment of grades), as shown below.

EFFECTIVE: Fall 2017

RATIONALE: The Appeal for Academic Decisions Policy was last revised in 2012. The current revisions clarify the informal and formal appeals processes and timelines, and brings the policy in line with Board of Regents' Policy (Chapter 09.03 - Student Dispute Resolution).

(See attached policy)

Additions in bold italics and deletions indicated with ~~strike-through.~~

Appeals Policy For Academic Decisions Other Than Assignment of Grades

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that academic decisions are a faculty responsibility. Therefore, the University administration shall not unduly influence or affect the review of academic decisions that are a faculty responsibility. The following procedures are designed to provide a means for students to seek review of academic decisions alleged to be arbitrary and capricious. These academic decisions may involve non-admission to or dismissal from any UAF program that were made by a department or program through the department chair, or involve pass/fail decisions by a committee of faculty on non-course examinations (such as qualifying, comprehensive or thesis examinations) or satisfactory/unsatisfactory evaluations on student reviews (such as the annual review of graduate student performance). Before taking formal action, a student must attempt to resolve the issue informally. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. ~~As used in the schedule for review of academic decisions,~~ ***A*** **"**class day**"** is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review~~.~~**, *as defined in university regulations (R09.03.024).*** Final examination periods are counted as class days.

B. ***The term "academic leader" is used to denote the head of the academic department offering the course or program from which the academic decision or action arose*** (e.g., head, chair or coordinator of an academic department, or division coordinator or program chair if the faculty member is in **CRCD**).

~~B. "Department Chair" for the purposes of this policy denotes the administrative head of the academic unit offering the course (e.g., head, chair or coordinator of an academic department, or division coordinator or program chair if the faculty member is in the College of Rural Alaska).~~

C. "Committee of ~~F~~ ***f***aculty" for the purposes of this policy denotes the group of faculty who rendered the initial decision being appealed. Such groups may include, but are not limited to:

graduate examination committees, graduate advisory committees, and thesis defense committees.

D. The "dean/director" is the administrative head of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

E. The *"*next regular semester*"* is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester **for a decision made during** ~~for a final grade issued for a course completed during~~ the previous spring semester or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

F. For the purpose of this procedure, "arbitrary and capricious" means:

An academic decision that is based on something other than academic performance or that represents a substantial, unreasonable and unannounced departure from previously articulated standards.

III. Procedures

A. ***Informal Procedures***

A student wishing to appeal an academic decision other than a grade assignment must first request an informal review of the decision.

1. ***Review the UAF Appeal of Academic Decisions other than grades form. [The form is available through the Office of the Provost.]***
2. ~~1.~~ Notification must be received by the ~~Provost~~ ***academic leader*** within ~~30~~ ***15*** class days after the beginning of the next regular semester.
3. ***The academic leader notifies the dean that an action has commenced. The dean notifies all relevant parties that an informal review has begun.***
4. ***If the student wishes to appeal an academic decision, the student should work with their committee chair, department chair, associate dean, and dean as necessary to resolve the academic decision. The dean makes the final decision and provides a report to the student and to the affected parties within 10 class days.***
5. ~~2.~~ There may be extenuating circumstances when the deadlines cannot be met due to illness, ~~mail disruption,~~ or other situations over which the student may have no control. In such a case, upon request from the student, the ***academic leader*** ~~Provost~~, after review

of supporting documentation provided by the student, ***may recommend to the appeals committee that the deadlines be adjusted accordingly.*** ~~may adjust the deadlines accordingly.~~ ***At the discretion of the academic leader,*** ~~A~~ ***a***n extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

6. ***If the student wishes to appeal the decision of the academic leader, the student can file a formal appeal with the Office of the Provost.*** ~~3. In cases where the decision was rendered by a committee of faculty (such as those dealing with graduate examinations and evaluations), the provost will request the appropriate committee to conduct an informal review of its decision. The committee of faculty will determine whether its original decision should be overturned or changed in any way. The committee of faculty will submit its recommendation to the provost through the department chair and dean/director within 10 days.~~

~~4. In all other matters, the Provost will request the appropriate department chair to conduct an informal review of the decision. The Department chair will determine whether the original decision should be overturned or changed in any way. The department chair will submit his/her recommendation to the provost through the dean/director within 10 days. In the event that the department chair is directly involved, the provost can ask the dean/director to conduct an informal review and submit his/her recommendations directly to him.~~

~~5. The Provost will consult with the student on the committee of faculty's or department chair's recommendation. If the student does not find that recommendation acceptable, he/she may request the Provost to conduct a formal review.~~

B. ***Formal Procedures*** ~~The formal review will be conducted as follows.~~

1. This formal review is initiated by the student through a ~~signed, written~~ request ***in writing*** to the ***Office of the*** Provost.
    a. The student's request for formal review ***must be submitted using the formal Academic Decisions Other Than Assignment of Grades Appeals form*** ~~may be submitted using university forms specifically designed for this purpose~~ and available ***in person or electronically*** from the Office of the Provost.
    b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the ***informal*** ~~formal~~ review of the decision.~~, and that the university's administration including the college dean/director can not influence or affect the outcome of the formal review.~~

c. The request for a formal review must be received no later than ***5 class*** ~~10~~ days after the student has learned the outcome of the informal review***.*** ~~(IIIA4).~~

d. The student will work with the Office of the Provost on collecting appropriate documentation to support their appeal and must submit this documentation with the appeal.

~~d. The request must detail the basis for the allegation that the decision was made on a basis other than sound professional judgment based upon standard academic policies, procedures and practices.~~

2. The ~~5-member~~ review committee will be appointed ***by the Provost and the Faculty Senate president*** as follows:

   a. The Provost shall appoint one non-voting ~~tenure-track~~ faculty member ***holding academic rank, who is represented through the current applicable collective bargaining agreements,*** from the academic unit in which the decision was made. This individual shall serve in an advisory role. This faculty member shall not be the individual(s) against whom the appeal is directed.

   b. Two ~~tenure-track~~ faculty members ***holding academic rank, who are represented through the current applicable collective bargaining agreements,*** from within the college or school but outside of the unit in which the decision was made shall be appointed. One of these members shall be appointed by the Provost. The other person shall be appointed by the Faculty Senate President and shall be a member of the Faculty Senate (including alternate members), if available.

   c. One ~~tenure-track~~ faculty member ***holding academic rank, who is represented through the current applicable collective bargaining agreements,*** from outside the college or school in which the decision was made. This person shall be a member of the Faculty Senate (including alternate members). The Senate member shall be appointed by the Faculty Senate President.

   d. The fifth member to be appointed by the Provost will be a non-voting student representative.

   e. ***In the case of an appeal from a graduate student, a representative appointed by the Graduate School shall serve on the committee in a non-voting capacity.***

   f. The ***facilitator, appointed by the Provost,*** ~~campus judicial officer or his/her designee~~ shall serve as a non-voting ***committee member*** ~~facilitator~~ for appeals

hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records~~.~~ ***and insure that appeal policies and procedures are followed.***

3. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 ***class*** ~~working~~ days of receipt of the student's formal request. **If the request for appeal is received any time other than during a regular semester, then the hearing must be scheduled on or before the 10th class day of the next regular semester.**
    a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.
    b. To be considered by the committee, all written materials shall be submitted to the ***Office of the Provost along with the formal appeal form*** ~~hearing facilitator~~ no later than ***2 class days*** ~~48 hours~~ before the ***day*** ~~start~~ of the scheduled appeals hearing. To give all interested parties a chance to submit written materials, at least three ***class*** ~~business~~ days shall elapse between the time the meeting is announced and the start of the meeting. New written materials presented after the ***2 class day*** ~~48-hour~~ deadline or presented during the meeting will only be considered by agreement of all voting committee members. These procedures related to written materials also apply to all subsequent meetings.
    c. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.
    d. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:
        i. The student has not provided sufficient reason in support of the allegation that the academic decision was arbitrary and capricious.
        ii. This is not the first properly prepared request for appeal.
        iii. The request was not made within the policy deadlines.
    e. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, ~~*instructor,*~~ **academic leader** ~~department chair,~~ dean/director and provost within five **class** days of the

decision, and will state clearly the reasoning for the dismissal of the request.

4. Acceptance for consideration of the student's request will result in the following:
    a. A request for, and receipt of, a formal written response from the **academic leader** ~~program department chair~~ to the student's allegation.
    b. A second meeting scheduled to meet within 10 ***class*** days of the decision to review the request.
        i. The student and the **academic leader** ~~department chair~~ or a representative of the program will be invited to attend the meeting.
        ii. The meeting will be closed to outside participation, and ***either*** ~~neither~~ the student ***or*** ~~nor the instructor or~~ **appropriate academic representative** ~~department chair~~ may be accompanied by an advocate ~~or representative.~~ Other matters of format will be announced in advance.
        iii. The proceedings will be ~~tape~~ recorded and the ***recordings*** ~~tapes~~ will be stored with the **Office of the Provost** ~~campus Judicial Officer~~.
        iv. The meeting must be informal, non-confrontational and fact-finding, where both the student and **appropriate academic representative** ~~instructor or department chair~~ may provide additional relevant and useful information and **clarify** ~~can provide clarification of facts for~~ **any** materials previously submitted.
5. The final decision of the committee will be made in private by a majority vote.
    a. Actions which the committee can take if it accepts the student's allegation may include, but are not limited to, the following:
        i. direct the **academic leader** ~~program instructor or department chair~~ to reconsider the decision,
        ii. provide a final alternative decision.
    b. The academic decision review committee proceedings will result in the preparation of written findings and conclusions.
    c. A formal, written report of the decision must be forwarded to the student, **academic leader** ~~instructor, program/department chair~~, dean and Provost within five **class** days of the meeting. The Provost shall then be responsible for communicating the decision to other relevant offices (e.g., Admissions, Registrar).
    d. The decision of the committee is final.

~~C. The entire process must be completed by the end of the semester in which the decision first took effect.~~

Record of Changes to the Appeals of Academic Decisions Other Than Assignment of Grades Policy:

The Academic Appeals Policy was passed by the UAF Faculty Senate at its Meeting #96 (Sept. 25, 2000) and amended at its Meeting #101 (April 2, 2001), Meeting #109 (May 6, 2002), Meeting #123 (May 3, 2004), Meeting #157 (March 2, 2009), and Meeting #183 (May 7, 2012).

- Policy at Section III, Procedures, subsection B, Item 2, was revised at Meeting #183 (May 7, 2012).
- Deadlines were revised at Meeting #157 (March 2, 2009).

The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017:

MOTION:

The UAF Faculty Senate, upon recommendation of the Student Academic and Development and Achievement Committee, moves to amend the Admissions policy for how pre-majors are admitted and moved to major status. Students who do not yet meet the requirements for a Bachelor's degree will have pre-major status as General Studies students until they meet the minimum requirements to move to major status in General Studies. At this point students may change major to a department of their choice if they have met that program's requirements.

EFFECTIVE: Fall 2017

RATIONALE: This motion amends the current pre-major policy at UAF. This addresses a concern that students were advancing to major status under the current pre-major policy without meeting the minimum requirements. Classifying pre-major students as General Studies students eliminates confusion about who advises them and provides students with consistent access to advisors and support networks. Under the new policy, students will not be admitted to a major until they have met the minimum requirements for that major.

Applying for Admission: Bachelor's Degree Programs

Pre-Major (Pre-major status when applying for admission, UAF catalog)

Students who have not met the minimum requirements for admission to a baccalaureate degree program will be admitted to pre-major status ~~within the department of their choice~~ ***as General Studies students***.

Students will be changed to ***General Studies*** major status when they are in good standing and have completed 14 credits at the 100 level or above with a C (2.0) ~~average~~ or higher; 9 of the 14 credits must satisfy ~~baccalaureate core~~ ***general education*** requirements. ***At that point, they may change major into the department of their choice, provided they have met that program's admission standards.***

General Studies

Pre-Major (Pre-major in General Studies, UAF catalog)

Students admitted in pre-major standing have not met the admission requirements for bachelor's degrees but are intending to major in a bachelor's degree. ~~As a bachelor's-intended student, you~~ ***Pre-majors*** will ~~generally work~~ meet with advisors in the Academic Advising Center, Rural Student Services or a community campus ***to work toward admission into their desired major.*** ~~, but it is helpful to also contact the department of your intended major. Because not all requirements for immediate admittance to a bachelor's degree will have been met, pre-major students will work with an academic advisor to determine the best selection of courses to pursue.~~ Students who are in good standing and have completed 14 credits at the 100 level or above (9 credits must satisfy baccalaureate general education requirements) with a C grade ~~average~~ (2.0) or **higher** ~~better~~, ~~of which 9 credits must satisfy baccalaureate general education requirements,~~ will be changed to major status ***as General Studies students***. The vice provost will notify students of their change of status and inform the registrar. Pre-major students do not use the change of major form to move from pre-major to major status in General Studies, but may use the form to change ~~from pre-major status in one program to another program~~ **from General Studies to their desired major once they have been accepted as baccalaureate students**. ~~Academic assistance and actions are processed the same as for general studies students.~~

The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017:

MOTION:

The UAF Faculty Senate moves to approve a new Minor in Ancient, Medieval, and Early Modern Studies, housed in the College of Liberal Arts (English Department).

Effective: Fall 2017

Rationale: The proposal for the new minor has been reviewed and approved by the Curriculum Review and Curricular Affairs Committees. The proposal (#87-UNP) is on file in the Governance Office, 312B Signers' Hall.

****

2017-04-03

Overview:

Objectives of the minor:

The minor in Ancient, Medieval, and Early Modern Studies will allow students to broaden and deepen their understanding and knowledge of earlier cultures and civilizations in the Western tradition. Students will take courses in at least three of the noted disciplines. This will provide students with the opportunity to examine multiple aspects of the particular time periods within the scope of the minor. The courses in the minor will explore both dominant and marginalized, threatened, or suppressed constructs, movements, and beliefs of each time period as well as notable influences of and interactions with other cultures and regions. Such engagement not only will ensure a better grasp of the cultures and civilizations studied, but it will also instill a stronger appreciation for the ways in which contemporary North American society perpetuates cultural elements and practices of earlier traditions.

No additional resources (budget, facilities/space, faculty) are required at this time since all of these classes are already regularly offered by the various departments. Any enrollment increase will result in additional tuition revenues.

The interdisciplinary nature of the minor has the additional benefits of increased communication between faculty and students in different departments and scholarly collaboration across disciplines.

Relationship to Purposes of the University:

This minor will respond to student interest in and demand for further access to classes in these time periods. In order to enroll in a few of these classes and use them for electives, current students have to be highly organized, skilled at navigating the catalog and course schedule for several years into the future, and aware of their interests in Antiquity, the Middle Ages, and the Early Modern period almost from the outset of their college careers. The structure of this minor will lay out the current and future offerings in a clear manner and provide space in their degree for the desired strong foundation in and understanding of the Western tradition.

Furthermore, the minor aims to follow the directives of Interim Chancellor Thomas and Provost Henrichs to highlight our faculty members' strengths and areas of expertise and to utilize them in new ways. This minor will connect students and faculty across departments and will allow opportunities for interdisciplinary scholarship and collaboration.

Proposed Catalog Layout:

Ancient, Medieval, and Early Modern Studies

The minor in Ancient, Medieval, and Early Modern Studies will provide students with a background in the Western tradition in disciplines that emphasizes key artistic, literary, philosophical, political, religious, and social movements in these time periods. Students will gain a better understanding of the workings and struggles, advancements and achievements, and conflicts and prejudices of these civilizations and cultures. The curriculum requires that students take classes in at least three fields of study and thereby ensures that students will engage in a well-rounded examination of these time periods.

1. Complete the following:
   HUM F201X Unity in the Arts---3 Credits

2. Complete five of the following:
   Only two electives from this list can be from any one discipline.

   ART F261 History of World Art---3 Credits
   ART F364 Italian Renaissance Art---3 Credits*

MOTION:

The UAF Faculty Senate moves to endorse the Academic Misconduct Policy as shown below.

Effective: Fall 2017

Rationale: The policy and procedures outlined below are the result of extensive collaboration among pertinent staff and administration, faculty, and student representatives. The policy provides clarification of the standards to which students are expected to adhere and details the consequences of violating those standards. The policy also outlines steps for faculty seeking an informal or formal resolution to matters of academic misconduct.

****

UAF STUDENT ACADEMIC MISCONDUCT POLICY

The faculty, staff, administration, and students of the University of Alaska Fairbanks (UAF) consider academic honesty and integrity fundamental to the mission of higher education and promote the highest ethical and professional standards of behavior in the classroom. Accordingly, UAF has developed procedures that address academic misconduct. Students who violate these standards commit academic misconduct and shall be subject to academic and/or disciplinary sanctions.

UAF defines academic misconduct as attempting or helping another to obtain grades, grants, or class credit through fraudulent means. Broad categories of misconduct include cheating, plagiarizing, committing forgery or falsification, facilitating or aiding academic dishonesty, submitting duplicate assignments without the express permission of both instructors, stealing instructional materials or tests, altering grades or files and misusing research data in reporting results. An instructor may create special rules for a class and list them in the syllabus and/or in directions for assignments. Violation of class-specific rules also constitutes academic misconduct.

Below are specific examples for some of the aforementioned categories. A given activity may fall under several different categories

Cheating: attempting to give or use materials, information, notes, study aids, or other devices not authorized by the course instructor. Examples of cheating include copying from another student's paper or receiving unauthorized assistance during a quiz, test or examination; taking an examination or test for another student; using books, notes, or other devices, such as calculators, during a quiz or test, unless authorized by the

instructor; acquiring or distributing without authorization copies of tests or examinations before the scheduled exercise; and copying reports, laboratory work, or computer programs or files from other students.

Plagiarism: presenting the work of another as one's own. Examples of plagiarism include submitting as one's own work that of another student, a ghost writer, or a commercial writing service; directly quoting from a source without acknowledgment; paraphrasing or summarizing another's work without acknowledging the source; using facts, figures, graphs, charts, or other information without acknowledging the source. Plagiarism may be verbal or written and may include computer programs and files, research designs, distinctive figures of speech, ideas and images or any other information that belongs to another person and is not acknowledged as such.

Falsification: inventing or unauthorized altering of any information or citation in an academic work. Examples of falsification include inventing or counterfeiting data or research procedures; falsely citing a source of information; altering the record of, or reporting false information about, practicum or clinical experiences; altering grade reports or other academic records; submitting a false excuse for absence or tardiness; altering a returned examination paper to obtain a better grade.

Tampering: interfering with, altering or attempting to alter academic records, grades, assignments, laboratory experiments, or class-related documents without authorization. Examples of tampering include using a computer or false-written document to change or affect the grade recorded for a student and forging the signature of a University official on a drop/add sheet or other official University record.

Procedures:
If an instructor has reason to believe that a student has engaged in academic misconduct, the following procedures apply:

1) Informal Resolution: The instructor shall personally and privately advise the student there is reason to believe that the student has committed an act that constitutes academic misconduct. The student shall be allowed a reasonable opportunity to respond or explain. This communication may be conducted face-to-face or by phone, email, or other electronic means. This informal resolution might include sanctions agreed upon by the instructor and the student. Among the sanctions listed below, these may include options a, b, or both. Options C, D and E require the formal process listed below. In this case, it is recommended that the instructor provide the student with written confirmation of the agreed-upon resolution.

2) Formal Resolution: If the instructor has evidence that the student engaged in academic misconduct and there is no resolution through the informal process and/or the student does not fulfill the agreement made in the informal process, the instructor shall

inform the student in writing of the instructor's determination and of any intended sanctions.

In such cases, the instructor shall be limited to imposing one or more of the five sanctions listed below. The instructor shall prepare the Academic Misconduct Notification form and submit a copy to the student, the department chair, dean for the College in which the course is offered, and the Dean of Students.

Academic Sanctions:
These sanctions may be imposed for academic misconduct. They are listed in no specific order, and multiple sanctions may be imposed for a single offense:

a) Instruct the student to redo the assignment or examination or to complete an alternate or supplemental assignment;
b) Assign a lower or failing grade on the particular assignment or examination;
c) Assign a lower or failing grade in the course;
d) Remove the student from the course;
e) Report the incident to Student Conduct for review of policy violation

Disciplinary Sanctions:
In cases of egregious or multiple violations, the Dean of Students shall apply the further disciplinary sanctions of reporting the student for violation of the Student Code of Conduct, removing the student from a major program or college, withdrawing from the student a degree or academic credit previously bestowed and/or imposing sanctions for violation of the Student Code of Conduct, which include disciplinary probation and suspension or expulsion from the University.

Academic Misconduct Notification Form - next page

Academic Misconduct Notification Form

The Academic Misconduct Policy at the University of Alaska Fairbanks requires that an instructor complete this form if he/she decides a formal resolution is required. Having completed the form, the instructor should keep the original in his/her files and give a copy to the student, to the department chair, to the appropriate dean, and to the Dean of Students.

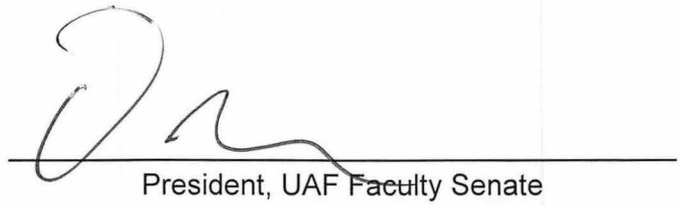
The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017:



MOTION:

The UAF Faculty Senate moves to confirm the nomination of Dr. Sine Anahita for the Outstanding Senate Service of the Year for 2016-2017.

EFFECTIVE: Immediately

RATIONALE: The screening committee has carefully reviewed the nominations according to the award criteria, and with concurrence of the Faculty Senate President, forwards the nomination of Sine Anahita for confirmation by the Faculty Senate. Procedures stipulate that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting.

****

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017:

MOTION:

The UAF Faculty Senate moves to place the Ethics requirement under Baccalaureate Degree Requirements and the Library Science requirement under Associate Degree Requirements and Baccalaureate Degree Requirements and to remove Ethics and Library Science requirements from the General Education Requirements (GERs). Students pursuing Associate of Arts or Associate of Science degrees will no longer be required to take Ethics; however, they will need to fulfill the Library Science requirement as part of the Associate Degree Requirements. All students pursuing Baccalaureate degrees will be required to fulfill both the Ethics and Library Science requirements.

EFFECTIVE: Fall 2017

RATIONALE: The new classification list system for the General Education Requirements (GERs) implemented in 2016-2017 was intended to meet the charge to faculty across the UA system by the UA Board of Regents (BOR) to develop and adopt common GERs. (See BOR's resolution at the April 3-4, 2014 meeting.)

When the UAF Faculty Senate approved the criteria for courses within the GER lists on November 9, 2015, it also voted to retain the Ethics requirement.

The Ethics and Library Science requirements are UAF-specific requirements and do not have counterparts in the GERs of UAA or UAS and, therefore, the UAF GERs do not fully align with the other universities' GERs.

All Ethics courses are at the 300-level and require "junior standing", which demands that a student have at least 60 credits; this is also the minimum number of credits to complete an Associate degree. This may result in unintentional burdens on students seeking Associate degrees.

Library Science courses are at the 100-level and have no prerequisites, which make the Library Science requirement a reasonable expectation for both Associate and Baccalaureate degrees.

Furthermore, the placement of Library Sciences under the Associate Degree Requirements ensures that all transfer students who have completed the GERs at UAS or UAA or have completed equivalent courses at a college or university outside the UA system will still need to fulfill the Library Science requirement.

Finally, the placement of Ethics and Library Sciences under the Baccalaureate Degree Requirements ensures that all students, including transfer students and those who complete the GERs at UAS or UAA, will take courses which we see as essential for students pursuing Baccalaureate degrees at a research institution.

President, UAF Faculty Senate

APPROVAL: _____ DATE: 4/7/2014

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #222 on April 3, 2017, with amendments:

RESOLUTION
of Support for Faculty and Staff Board of Regents Members

WHEREAS, State of Alaska Statute AS 14.40.120 in combination with AS 14.40.130 codifies the composition of the University of Alaska Board of Regents to include a student Regent, but currently does not include any faculty or staff Regents; and

WHEREAS, the outcome of a survey reported[1] by the American Association of University Professors (AAUP) reveals that many universities have included faculty members in their governing boards.

WHEREAS, many institutions of higher education, including Washington's Gonzaga University and public universities in the state of Kentucky, include Faculty and Staff Regent or Trustee designations, to positive and inclusive effect; and

WHEREAS, the 2012 Cornell Higher Education Research Institute Survey of Faculty Trustees[2] reveals that many universities have included faculty members in their governing boards; and

WHEREAS, the Cornell survey notes that "discussions of "best practices" for governing boards consistently cite improved relationships with university employee stakeholders as one of the characteristics of highly effective boards;" and

WHEREAS, several advantages of faculty members of governing boards have been identified, including that a) these board members "come to appreciate better the challenges that the president and others face in leading the institution internally when complex issues are under discussion;" b) there is "shared information about board deliberations" and demystification of board processes; and c) board members "experienced in how things really work at the highest levels of deliberation is a valuable component of the broader faculty's understanding of how issues are resolved at the board level;"[3] and

WHEREAS, the current faculty and staff of the University of Alaska have a wealth of institutional knowledge and serve a vital role in promoting the health and well being of our State's University; now

THEREFORE BE IT RESOLVED, the UAF Faculty Senate goes on record to support the modification of the State of Alaska Statute, as needed, to legislate the addition of faculty and staff members to serve as voting members on the University of Alaska Board of Regents.

See the attached DANSRD Unit Criteria

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND DEPARTMENT OF ALASKA NATIVE STUDIES AND RURAL DEVELOPMENT (DANSRD) UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE ALASKA NATIVE STUDIES AND RURAL DEVELOPMENT DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

"Our mission is to increase cultural awareness and strengthen leadership capacity for rural and Indigenous communities in Alaska and the Circumpolar North through degree programs that promote academic excellence, personal development, professional skills, global awareness and respect for Indigenous cultures and commitment to community."

Rural development (RD) is an applied program that is made available at both baccalaureate and graduate levels to students on the Fairbanks campus, across the state, and beyond using a combination of high quality, innovative delivery methods including intensive seminars, audioconferencing, web-based teaching and other distance technologies.

Alaska Native Studies (ANS) is an academic program available at the baccalaureate level as both a major and a minor. Students take advantage of the same delivery methods as RD, and DANSRD faculty teach courses in both programs. Students from ANS are encouraged to take RD courses (e.g. as a minor sequence) and vice-versa with the result that both programs produce well rounded graduates.

Both programs encourage national and international engagement with Indigenous scholars and political leaders. Guests from Indigenous communities outside the state deliver lectures to students in both programs, and faculty maintain active connections with international counterparts. International students attend both RD and ANS courses.

As an academic discipline, rural development is a rapidly expanding field with an increased number of universities offering post- baccalaureate opportunities for study. DANSRD offers a unique opportunity for Alaska's students to connect to peers in the field and share new ideas to benefit rural communities and enhance their careers.

DANSRD serves a large body of non-traditional students and their communities. The program often employs innovative methods to ensure that these students get the most out of their education, and that their communities benefit from department research and scholarly activity. These methods are reflected throughout our unit criteria.

The department often looks to trusted peers from within the communities served for expert review and objective evaluation of its work. These peers possess knowledge and expertise that may or may not be directly tied to formal education. In many cases Indigenous leaders have earned their positions through learning from a wide range of sources over many years. This kind of learning and oversight is essential to DANSRD.

DANSRD's mission identifies specific indigenous populations at community, regional and statewide levels. When DANSRD provides professional expertise to these communities it is not merely a general pro-bono benefit to society at large. Rather, it is a research or scholarly activity within the mandate of the DANSRD mission, and not an act of service.

Given the applied nature of the program, faculty members may from time to time have greater or lesser than average assignments in research. In these cases, expectations of them should be adjusted accordingly, using the level of activity specified in the annual workload assignment as the prime determinant.

The following is an adaptation of UAF and Regents' criteria for promotion and tenure specifically developed for use in evaluating the faculty in the department of Alaska Native studies and rural development (DANSRD). Items in bold italics are those specifically added because of their relevance to the departmental mission. These unit criteria are for use in all evaluations of faculty.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***and DANSRD unit criteria, standards and indices***, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

h. ***demonstrate ability to teach effectively through the simultaneous use of more than one delivery method, e.g, courses with students in the classroom and in attendance via other means of distance delivery at the same time.***

Specific DANSRD criteria for teaching for appointment or promotion to:

A. Assistant professor: evidence of teaching ability as well as commitment toward continual improvement in areas involving distance delivery and online learning must be provided.

B. Associate professor: the record must show that the material taught is contemporary and relevant, and that the presentations stimulate the learning process. Evidence of the expected quality of instruction may include, but is not limited to, course and/or curriculum development, innovative approaches to instruction, effective guiding and mentoring of students, and effective teaching performance in classroom settings and by distance delivery modalities. There must be evidence of supervision of graduate student research as a major committee chair/member.

C. Professor: significant contributions to the instructional program are expected. These may include, but are not limited to, contributions to major improvements in course and/or curriculum offerings, development of new courses and/or delivery approaches, ability to motivate and/or inspire students, and exemplary training of graduate students. There should be a record of successful completion of graduate work by his or her students. It is expected that assessment of teaching by students and faculty will demonstrate consistently high quality performance.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s), ***including seminar/distance instruction***

d. peer/department chair evaluation of course materials ***and excellence in development/utilization of course materials.***

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Considering the DANSRD mission and discipline, therefore, the locus and audience for DANSRD research expands to include Native and rural communities and/or constituencies. The key to research/scholarly/creative activities is that these activities should be applicable to the mission of the unit and also that the results of these activities should be disseminated through media accessible to and utilized by those whom they are intended to benefit. Certain activities and definitions, therefore, have also been expanded to reflect DANSRD's particular mission "…to strengthen leadership capacity for rural and indigenous communities in Alaska and the Circumpolar North through degree programs that promote academic excellence, personal development, professional skills, global awareness, respect for Indigenous cultures and commitment to community." Further, there is often an overlap between research and public service such that the results of DANSRD's research, scholarly and creative activities directly benefit Alaska's Native and rural communities as much as they do the university community.

To keep DANSRD true to its mission, appropriate dissemination of results will include reporting to and informing community, regional and state organizations such as Alaska Native Corporation boards, the Alaska Federation of Natives, Alaska Native tribal organizations and international Indigenous organizations. These are the organizations where appropriate judges for DANSRD's work are found. All of these entities support media which

can publish or otherwise showcase the work of DANSRD faculty.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers ***including those defined on pages one and two*** external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution ***to the communities served by DANSRD and to the university***.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, ***manuals, needs assessments, program evaluations, annotated bibliographies, translations and transcriptions***, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses, ***or by legal, industry or government publications*** that accept works only after rigorous review and approval by peers in the discipline ***or other appropriate judges.***

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers, ***DVDs, or invited papers*** before learned societies that accept papers only after rigorous review and approval by peers ***or other appropriate judges. Submission of research proposals that reflect the rigor, detail, and expertise required by academic research/grant proposals and/or the completion of contracted research reports to agencies and funding sources, formal presentations of research/information to Alaska Native organizations such as Alaska Federation of Natives, regional corporations, tribal councils, results of community planning processes as reported to community entities, development of planning processes reviewed by community boards, drafting and submitting regulatory proposals on behalf of partner communities, etc.***

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions, ***especially in those play or dance productions that present indigenous materials including theater/drama/Festival of Native Arts/Cama-i, and other statewide festivals,*** selection for these performances

being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications ***and publications of special interest to Native and rural constituents and/or constituencies.***

.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, ***cataloging and archiving data collections of dance/performance video and audio tapes,*** reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities ***including awards for the development of video tapes, websites & CDs which disseminate information about rural development and Alaska Native Studies,*** or selection ***for scholarships for participation in programs of advanced study or*** of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in ***community planning, that will be reviewed by local resident boards as well as those useful in*** solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***Non-refereed journal articles and monographs including authorship of a book or major reference in the faculty member's area of a scholarly activity.***

Specific DANSRD criteria for research performance for promotion or appointment to:

A. Assistant professor: evidence of ability to establish a viable research program in the area of specialization must be provided.

B. Associate professor: the faculty member must have established an appropriate research program that produces satisfactory publications in some or all of the publications noted in a through m in the above section, and have presented research results at professional meetings and other public forums. Such things as the submission of research proposals and acquisition of external research funding, the completion of contract research reports, and publication in conference proceedings constitute supplementary evidence that the research program is of high quality. The faculty member must show independence and leadership by the creation of research ideas that involve students.

C. Professor: the research program should have produced publications in refereed professional literature as well as other publications noted in a through m above, and there should be a record of student and/or junior faculty involvement. The publications should be of sufficient quality and quantity to demonstrate the existence of an on-going, professional, independent research program. Additional evidence must be provided showing that research has been presented to entities such as Indigenous organizations and tribal governments.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees ***or other governmental bodies including tribal governments, Alaska Native corporations, health corporations, etc.***

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies, ***appointment to internal editorial boards and scholarship selection committees.***

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews ***and unit and campus wide evaluation.***

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee ***and appointment to proposal evaluation/grant selection committees.***

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

Specific DANSRD criteria for service performance for appointment or promotion to:

A. Assistant professor: none in addition to UAF criteria

B. Associate professor: positive contributions to departmental and/or university matters, effective professional contributions to the public, and effective services to the profession are expected. Examples would include facilitation support for the annual Festival of Native Arts, active participation in professional organizations and service on boards of Native and other organizations.

C. Professor: evidence of leadership in the service area is expected. Significant contributions to the development of departmental and/or university programs including committee leadership or UAF service committees are expected. Effective application of service includes, but is not limited to, reviewing proposals, refereeing manuscripts, and editing for professional organizations or publications. A professor's service may include the mentoring of junior faculty that leads in turn to greater service on their part.

The following was passed at Faculty Senate Meeting #221 on March 6, 2017:

MOTION:

The UAF Faculty Senate moves to revise the title and procedures of academic progress reporting; to restate the purpose of the progress report, to offer a window of time for faculty to submit their report, and to establish minimum reporting requirements for faculty. All instructors are encouraged to report midterm grades (tenured, tenure-track, term, adjunct, graduate teaching assistant). At minimum, those instructors of 00 level, 100 level, and 200 level courses shall report students who are performing below a C level. This allows faculty to report early enough to give students a chance to improve their grades or to make other academic choices with the support of advisors.

Effective: Fall 2017

Rationale: To bring the previous motions regarding midterm grades and academic progress reporting up to date by clarifying the intent, the definition, the procedures for reporting, and to reflect current policy. This policy has been referred to by various names, including: academic progress reports, early progress reports, freshman progress reports, low grade reports, low grade freshman reports, and midterm grades, and there have also been targeted early warning reports. They are called midterm grades in Banner. The motivation for this intervention is to increase retention by making students aware of the need to take action.

****

The existing processes were originally put in place by a series of motions summarized here.

> At Meeting #127 on February 7, 2005, a motion required all faculty and instructors teaching 100 and 200 level courses to submit freshman progress reports by the 5th week of the semester, and to explicitly state in the syllabus how midterm grades were calculated.
>
> At Meeting #113 on February 3, 2003:
> The motion changed the name from low grade reports to freshman progress reports, and required midterm grades calculated for all freshman.
>
> At Meeting #77 on February 9, 1998:
> The motion changed the timeline to the 6th Friday after the start of classes.
>
> At Meeting #59, passed on Nov. 13, 1995.
> The motion changed the timeline to the Wednesday of the 4th full week of instruction.
>
> At Meeting #4 on April 22, 1988:
> The motion stated that midterm grade reporting was optional for each campus.
>
> At the Academic Council meeting #103 on November 7,1984 a policy was passed that required mid-term grade reports for freshmen with a grade of less than a C, and that these grades shall be due during the fourth week of classes.

****

The Midterm Progress Reporting process shall be completed as follows:

Instructors are encouraged to provide feedback for all students, especially for students who are failing and students in lower division (00, 100 and 200 level) undergraduate sections. In addition, for lower division classes:

1. Faculty shall report grades for all students who are at risk of a C- grade or below.
2. Instructors shall submit midterm progress reports between the beginning of the 4th and the end of the 6th week of the semester.
3. Advisors shall follow up by contacting students to encourage them to utilize the academic support resources available to them.
4. Faculty and advisors shall encourage students to make a plan to be successful or withdraw from the course.

President, UAF Faculty Senate

APPROVAL: _____ DATE: _____

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The following was passed at Faculty Senate Meeting #221 on March 6, 2017:

RESOLUTION

in Support of International Students, Faculty, and Staff at the University of Alaska Fairbanks

WHEREAS, in response to the January 27, 2017 executive order by U.S. President Donald Trump, University of Alaska President Jim Johnsen affirmed "that our university remains committed to the open exchange of students, scholars, and ideas from all over the world;" and "that the University of Alaska is committed to ensuring that all students, staff, faculty and their families can focus on what brought them here in the first place, the pursuit of scholarship in an environment that supports them regardless of their race, ethnicity, or national origin;" and

WHEREAS, the University of Alaska Fairbanks has many international faculty, staff, and students who live, work, and study here and who make valuable contributions to research, teaching, and service; and

WHEREAS, the UAF Faculty Senate hereby goes on record as supporting all members of our University community regardless of their nation of origin, or their citizenship status; now

THEREFORE BE IT RESOLVED, that the UAF Faculty Senate applauds President Johnsen for taking an immediate and strong stance on this issue; and

BE IT FURTHER RESOLVED, that the UAF Faculty Senate stands in full support of all of our international faculty, staff, and students.

****

2017-03-06

President, UAF Faculty Senate

The UAF Faculty Senate tabled the following at Meeting #221 on March 6, 2017:

MOTION:

The UAF Faculty Senate moves to approve a new Associate of Arts in Security Management, housed in the School of Management (Department of Homeland Security and Emergency Management).

Effective: Fall 2017, upon all approvals.

Rationale: The Associate of Arts degree in Security Management (AASM) is designed to serve both aspiring and existing homeland security and emergency response practitioners. Additionally, the AASM will provide students a stepping stone into the fields of homeland security and emergency management as well as the opportunity to enroll in the HSEM program in the School of Management. The AASM degree will strengthen the program's capability to contribute to growing Alaska's own workforce.

See the program proposal #80-UNP on file in the Governance Office, 312B Signers' Hall.

****

The UAF Faculty Senate tabled the following at Meeting #221 on March 6, 2017:

Brief Statement of the Program:

The Associate of Arts in Security Management program will provide both aspiring and existing homeland defense/security and emergency management practitioners the technical and education needs required within the rapidly changing homeland security and emergency management enterprise.

The program builds upon the experience and education of those within this highly interdisciplinary enterprise, providing a relevant entry-level education focusing on the technical to operational requirements of our collective safety and security. Significantly, the bachelor of emergency management degree has grown from four students in 2010 to over two-hundred forty (2016). Growth within the program has occurred due to the evolving nature of the homeland defense and security and emergency management enterprise and the recognized need for a formal education supporting our first responders and those who are expected to lead and manage within these associated fields. We anticipate as part of the continued expansion of our offering 100- 200-level courses for the DHS/TSA initiative, that we will attract students from this program to the BEM. It is also noted that should UAF expand this initiative beyond Alaska to include the Pacific Rim, the UA system will likely continue to have approximately 70 – 80 additional students a semester taking courses as part of their professional development. Current BEM students are first responders in fire and law enforcement, students with diverse backgrounds and a growing interest in emergency management, veterans who are re-tooling for job placement and agency staff using the BEM for professional development.

The degree will be offered online through a combination of both synchronous and asynchronous (hybrid) means. This will provide those who are already employed the flexibility needed to participate in the program while simultaneously providing our in-resident students the ability to interface with other students locally, within Alaska, and nationally as well. The curriculum delivery method for the program builds upon the success of the BEM and MSDM and benefits from those lessons learned from BEM/MSDM development and delivery experience.

Objectives:

1) To expose students to a broad-based curriculum framed within homeland security and emergency management principles and priorities.

2) To provide students with the foundation and credentials to find successful employment as well as advance their career fields.

3) To develop core competencies and introduce the critical thinking-skills needed to enter the homeland security and emergency management career field.

4) To prepare students to advance into a homeland security-and emergency management-related baccalaureate program or other undergraduate coursework in SOM.

Relationship to "Purposes of the University":

Educate: The degree objectives clearly show that HSEM intends to educate students at the associate's level. Students will learn practical skills and introductory academic knowledge essential to communities both in Alaska and elsewhere.

Prepare: The HSEM program is grounded in workforce development. The current academic tracks for associate degrees are in practical, technical fields. This AASM provides an academic inlet to workforce development.

Discover: Through directed and independent studies, students will develop practices for providing management and security principles at the local, regional, state, and national levels.

Connect: Many entry-level practitioners of emergency management and homeland security are located in rural areas where the opportunity to advance their education will be beneficial. An online methodology and delivery option for the AASM degree will help reach students and prepare them for advancement in various fields.

Serve: The proposed AASM extends the reach of service that these practitioners already provide. By their nature, students in emergency- and security-related fields are public servants committed to the communities they call home. An AASM will provide entry-level practitioners meaningful context and introductory tools needed for leadership and management roles in their chosen field.

Relationship to industry needs:

The objective of this Associate of Arts in Security Management is to respond to an increasing TSA demand for higher education in homeland security beyond the occupational endorsement. It is also a stepping stone for new students entering the university who are interested in the field. As the fields continue to grow and change, education is increasingly important. This proposal is a response to industry demand for education and training for managers to handling the scope and pace of change currently experienced.

The UAF Faculty Senate tabled the following at Meeting #221 on March 6, 2017:

Proposed Catalog Layout:

The Associate of Arts in Security Management provides students with the academic education required to obtain entry level employment into homeland security and emergency management related fields. It also offers students the opportunity to further their education and earn a bachelor's degree

1. Complete the general education requirements – (39 credits)

2. Complete the following major courses (21 credits):
   HSEM F120 - Introduction to Emergency Management (3)
   HSEM F121- Introduction to Homeland Security (3)
   HSEM F223 - Terrorism: A Global Threat (3)
   HSEM F225 - Intelligence Analysis and Security Management (3)
   HSEM F227 - Transportation and Border Security (3)
   HSEM F231- The Threat of Weapons of Mass Destruction (3)
   HSEM F233 - Critical Infrastructure Protection (3)

3. Total Credits Required (60)

Resources Impact

The AASM is expected to bring in an annual class of approximately 25 full-time and 20 part-time students. Factoring in a 5% tuition increase, that will take place in FY18, the annual revenue generated from this program to UAF is estimated at $290,850. (There is likely to be additional revenue generated from the AASM students that will continue on to the Bachelors of Emergency Management (BEM) degree that is not calculated here). The cost will be that of an additional one-half time instructor to teach the additional sections of courses needed each year. The salary for a one-half time term instructor is $46,302. The newly generated tuition from the new students attracted to the program will cover the salary. All other staff expenses, such as staff support, will be covered by existing staff or with additional student support from the existing pool.

Full Proposal for new AA in Security Management

The following was passed at Faculty Senate Meeting #220, February 6, 2017:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Ethnobotany, housed in the College of Rural and Community Development (Interior Alaska Campus).

Effective: Fall 2017

Rationale: The proposal for the new minor has been reviewed and approved by the Curriculum Review and Curricular Affairs Committees. The proposal (#62-UNP) is on file in the Governance Office, 312B Signers' Hall.

****

2017-02-06
President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/8/2017
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

Objectives of the minor:

Ethnobotany - Minor only
This interdisciplinary program provides students pursuing a bachelor's degree with an opportunity to continue exploring the complex and invaluable relationships between humans and plants. Although rooted firmly in traditional knowledge of Alaska Natives, this program branches out to include human-plant interactions from all over the globe, comparing and contrasting both traditional and current adaptations and explores the potential for economic development of ethnobotany.

This minor will appeal to students from other disciplines, including Alaska Native Studies, Rural Development, and Anthropology.

Relationship of required courses to the objectives of the minor:

Coursework that is currently required for the Ethnobotany Certificate make up the core of this minor and provides quality interdisciplinary academic instruction in the areas of biology, botany, ecology, anthropology, and chemistry so that students may gain the skill sets needed to become active stewards in natural and cultural resource management in their communities. Included in each of these core courses are aspects of both scientific understanding of plants (phenology, basic biology, chemistry, etc.) and the way that these plants have been traditionally and are currently being used by both indigenous and non-indigenous cultures in Alaska and all over the globe. They also learn techniques need to collect and identify plants, how to interview Elders and others regarding these plants, and conduct their own research projects, which are shared with local communities. Students also learn that harvesting wild plants must be done in an ecologically and culturally appropriate manner, and, in the new Applied Ethnobotany course, will learn how to create their own plant-based products from seasonally-harvest wild plants.

Relationship to Purposes of the University:

UAF's core themes:

Educate: Undergraduate and Graduate Students and Lifelong Learners
Research: To Create and Disseminate New Knowledge, Insight, Technology, Artistic and Scholarly Works
Prepare: Alaska's Career, Technical, and Professional Workforce
Connect: Alaska Native, Rural, and Urban Communities by Sharing Knowledge and Ways of Knowing
Engage: Alaskans through Outreach for Continuing Education and Community and Economic Development

The Minor in Ethnobotany supports several of UAF's core themes by providing new educational opportunities that will allow students to gain the credentials they need to assume leadership positions in their communities and regions across the state. This will promote economic development and community wellness, in addition to reducing the high cost of importing expertise and services. This program provides stronger connections between rural and urban communities by adding to the University's academic offerings based on Alaska Native ways of knowing.

Since its inception in 2009, the students enrolled in the Ethnobotany Certificate Program have been requesting more coursework in this area of study. In the past several years, we have responded by successfully piloting several new courses; Ethnomycology, Folk Medicine, and Intermediate Ethnobotany. We have also received encouraging feedback from a student/community surveys conducted in 2012-2013 that indicated strong interest in development of an Ethnobotany minor. This increasing student interest in the topic of ethnobotany has expanded beyond the Certificate framework now, and is evident by the fact

that our students are taking our courses even if they do not fit within their current program. We would like to be able to offer them the opportunity to take more upper division courses that can lead to a minor in ethnobotany.

In fall 2016 the Ethnobotany program moved to the Department of Alaska Native Studies and Rural Development to emphasize the Alaska Native focus of the program. The placement of the Ethnobotany minor program within the Department of Rural Development and Alaska Native Studies is a good fit for all concerned. Both are based in Alaska Native relevant curriculum, and provide opportunities for students to explore topics that concern rural communities. Ethnobotany provides students with better knowledge of traditional plant use, which can provide for better economic and community health, and Rural Development's "mission is to increase cultural awareness and strengthen leadership capacity for rural and Indigenous communities in Alaska and the Circumpolar North". We have been discussing the opportunities that the Ethnobotany minor will provide to the Rural Development Program over the past nine months, and have come to appreciate the benefits that this minor in Ethnobotany will have for both programs, both in increased student enrollment and in expanding the culturally relevant curriculum available at UAF.

Proposed Catalog Layout:

Ethnobotany Minor

The Minor in Ethnobotany will provide students who have completed the Ethnobotany Certificate program with the opportunity to continue their studies and earn a baccalaureate degree focused on the relationship of plants and humans, an area of emphasis that is not currently available in the UAF catalog offerings. It will also provide students who are not in the EBOT Certificate with the option of fitting ethnobotany courses into their current DANSRD or other baccalaureate programs.

1. Complete the following:*
   EBOT F100—Introduction to Ethnobotany – 3 credits
   EBOT F200—Seminar in Ethnobotany – 1 credit
   EBOT F210—Ethical Wildcrafting – 1 credit
   EBOT F220—Ethnobotanical Techniques – 2 credits
   and
   EBOT F230—Ethnobotanical Chemistry – 3 credits**
   Or
   EBOT F250 and 251 –Applied Ethnobotany I and II –4 credits

2. Complete 3-4 Advisor-approved elective course(s):*

3. Minimum credits required--15 credits

Prerequisites: CHEM F103X or CHEM F105X, or permission of instructor**
* Students must earn a C- grade or better in each course.

The following was passed at Faculty Senate Meeting #220, February 6, 2017:

RESOLUTION of no confidence in UA President Jim Johnsen:

Whereas University of Alaska President James Johnsen has strongly promoted Strategic Pathways as a mechanism to transform the University of Alaska; and

Whereas under Strategic Pathways, substantive and long-lasting decisions about major changes to academic programs have been announced without providing a careful analysis of the impact of those changes, and without coordinating with the affected faculty; and

Whereas some of the President's decisions on Strategic Pathways have blindsided affected faculty and administrative leadership at our campuses, the very people who should be the most involved in the decision-making process; and

Whereas under Strategic Pathways, the holistic needs of the university have been repeatedly drowned out by the demands of narrow interest groups and short-term political considerations; and

Whereas centralized "one size fits all" statewide solutions are often more expensive and less effective than local solutions that are tailored to the specific communities they serve; and

Whereas the uncertainty and disruption caused by these major reorganizations distract faculty from serving the educational mission of the university, and have caused both promising junior faculty and experienced senior faculty to leave the university; and

Whereas President Johnsen's failure to use established decision-making processes embracing shared governance could violate accreditation standards and undermine UAF's existing accreditations; and

Whereas the President's public and internal statements on Strategic Pathways have radically changed direction with little warning, specifically:

- UA Athletics:
  - Will pursue an NCAA waiver, or consortium model (presented by Johnsen at September 15 BOR meeting)
  - Will cut six teams, including track and skiing (announced by Johnsen at October 27 press conference)
  - Will cut no teams, and pursue neither waiver nor consortium model (presented by Johnsen at November 10 BOR meeting)
- UA School of Education:
  - Will phase out Bachelor of Ed degree (presented by Johnsen at September 15 BOR meeting)
  - Will create a statewide administrative headquarters at UAF (presented by Johnsen via November 4 press release)
  - Will create a statewide administrative headquarters at UAS (presented by Johnsen at December 14 BOR meeting)

Whereas in the spring 2016 search for a permanent chancellor, after hiring an external consultant, flying the entire search committee and candidates to Seattle for airport interviews, and arranging community and faculty meetings with the four finalists attended by hundreds, in May 2016 President Johnsen cancelled the search due to a since-abandoned plan to pursue single accreditation and appointed UAF's second interim chancellor, a position which still requires a permanent leader; and

Whereas while the UAF Faculty Senate recognizes the financial problems facing the university, the actions of President Johnsen have actively harmed UAF, and have caused long-term damage to the integrity, reputation, and viability of UAF;

Therefore be it resolved that the University of Alaska Fairbanks Faculty Senate has no confidence in the leadership of University of Alaska President James Johnsen.

The following was passed at Faculty Senate Meeting #220, February 6, 2017 (as amended):

RESOLUTION on the School of Education Decision:

Whereas the Board of Regents of the University of Alaska (hereafter referred to as ("the Board") has constitutional authority and responsibility to govern the University of Alaska per the Constitution of the State of Alaska, Article VII Section 3; and the board appointed the president of the university, Dr. Jim Johnsen, by a majority vote on July 28, 2015; and

Whereas during the public regular board meeting on November 10, 2016 (hereafter referred to as ("November Board meeting"), President Johnsen cited "national best practices in the field" to recommend that the three colleges of education at the University of Alaska be consolidated to the research university, the University of Alaska Fairbanks (UAF), in order to improve academic outcomes; and

Whereas President Johnsen stated during the public special board meeting on December 14, 2016 (hereafter referred to as "December Special Board meeting") that he had received significant feedback from individual faculty at all three universities, people in the community, alumni, and community leaders (timestamp 17:43 in the audio recording) and that opposition to locating the administration of the single college of education at UAF was "overwhelmingly greater" than those in favor of locating the administration at the University of Alaska Southeast (UAS) (timestamp 17:58 in the audio recording); and

Whereas two Regents, UAS Chancellor Caulfield, and President Johnsen acknowledged during the December Special Board meeting that the majority of feedback the Board had received was from the Southeast, including the Southeast legislative delegation, local mayors, and the Juneau Assembly (Johnsen 18:16; Anderson 26:56; Davies 37:05; and Caulfield 58:09); and

Whereas President Johnsen emphasized during the December Special Board meeting that the feedback he received was not about any inadequacies at UAF but about how teacher education was a "halo program" at UAS (timestamp 17:58 in the audio recording); and

Whereas President Johnsen noted during the December Special Board meeting that there were "very strong concerns" about the economic impact of moving teacher education leadership out of Juneau (timestamp 18:14 in the audio recording); and

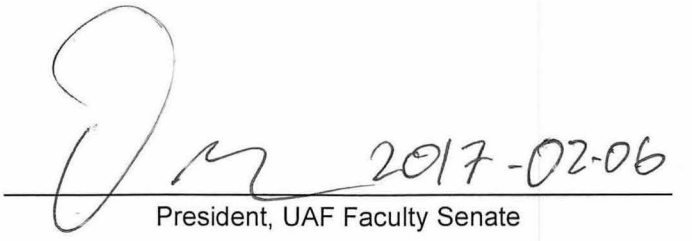
Whereas the City and Borough of Juneau offered to endow UAS with a $1 million contribution if the new College of Education was chosen to be located at UAS (timestamp 21:09 in the audio recording); and

Whereas after approximately 31 minutes of discussion that was open for the public to listen to (timestamp 22:34 to 53:08 in the audio recording), during which no opposition to the amended motion to locate the College of Education at UAS was expressed by the Regents, the Board voted unanimously in favor of a motion to locate the administration of the UA College of Education at the University of Alaska Southeast; and

Whereas the ability of university faculty to participate in making the decision to locate the new College of Education at UAS was non-existent, in spite of the resolutions passed by the Faculty Senates of UAA, UAS, and UAF and the Faculty Alliance calling for the Board and President Johnsen to increase meaningful opportunities for participation by faculty including through governance organizations; and

Whereas the board of regents failed to consider the quality of the programs under consideration, as evidenced by the UAF Elementary Education program's recent rating in the 99th percentile by the National Council on Teacher Quality; and

Whereas effective decisions regarding reorganization of UA, by the Strategic Pathways process or otherwise, require careful consideration of education outcomes by faculty responsible for delivering the UA mission of teaching, research and service; and



Whereas according to the audio recording of the December Special Board meeting the decision seems to have been based not on national best practices, a careful analysis of expected education outcomes, or an inclusive and comprehensive discussion that included university faculty through governance processes, but resulted instead from pressure by politicians, the public, and the lure of a $1 million gift from the City and Borough of Juneau; now

Therefore be it resolved that the University of Alaska Fairbanks Faculty Senate declares it has no confidence in the process by which the University of Alaska Board of Regents came to its decision to locate a single statewide College of Education at the University of Alaska Southeast; and

Be it further resolved that the UAF Faculty Senate asks the Board and the President to set aside the decision to locate the single College of Education at the University of Alaska Southeast until after a comprehensive analysis of expected education outcomes is conducted and until University of Alaska faculty are provided meaningful opportunities to participate in the decision-making through governance organizations; and

Be it further resolved that the UAF Faculty Senate urges the Board of Regents of the University of Alaska to:

- Direct President Jim Johnsen to prepare detailed impact analysis of every proposal from Strategic Pathways presented to the Board, the Summit Team and the Faculty Senates at least two weeks in advance of such a proposal being voted on by the Board,
- Use appropriate shared governance processes in preparing recommendations, including meaningful opportunities for faculty to participate in the decision-making,
- Utilize careful and comprehensive analysis of actual data before making recommendations and decisions that affect academic access and outcomes for Alaskans,
- Acknowledge, formally, the flawed Phase I Strategic Pathways process, annul the Board decision in December, and readdress the Schools/College of Education decision using the new and improved Strategic Pathways process (a process that includes a timeline when faculty are not off contract in the summer months),
- Direct President Jim Johnsen to assist the Board in making rational decisions through processes that are not unduly influenced by political pressures.

as amended and underlined on page 2

The UAF Faculty Senate passed the following at Meeting #219 on December 5, 2016:

MOTION:

The UAF Faculty Senate moves to approve an updated procedure to accomplish the program review process as required by Board of Regents Policy and UA Regulations (10.06).

Effective: Spring 2017

Rationale: The existing process was modified at Meeting #181 (March 5, 2012) to accommodate a five year review cycle. The revisions below are intended to ensure faculty input, and clarify the role of the Faculty Senate in program eliminations. The Program Review Template as well as the BOR Policy for 10.06 have also changed since the last Faculty Senate motion in 2012, and current versions are included.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: December 8, 2016
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Additions: ***bold italics***
Deletions: **bold** ~~strikethrough~~

The program review process ~~**will**~~ ***shall*** be completed as follows:
1. An initial ~~**brief**~~ review based on centrally generated productivity and efficiency summary and a unit ~~**supplied**~~ ***-provided*** ~~**two-page**~~ ***brief*** narrative describing mission centrality, the prospective market for graduates, the existence of similar programs elsewhere in UA, and any special circumstances that explain features of the centrally generated productivity and efficiency summary (see attached program review template for more details). The information reviewed

meets the Board of Regents Policy and Regulation (10.06; ~~attached~~ ***current PDF posted with motion***). A single Faculty Program Review Committee ***shall be*** comprised of one ~~tenured~~ faculty representative from each college and school (not including CRCD) plus ~~five CRCD representatives~~ ***one representative from CRCD and one representative from CTC. The Faculty Program Review Committee shall be nominated by the Provost in consultation with the deans and directors, and, once formed, the list of committee members shall be submitted to the Faculty Senate for comment, and finalized by the Chancellor. The Faculty Program Review Committee*** ~~will~~ ***shall*** review the materials and make one of the following recommendations:

- Continue program
- Continue program but improve outcomes assessment process and reporting
- Continue program but improve other specific areas
- ***Modify program through consolidation with another program or other significant re-organization***
- ***Suspend admissions to program or***
- Discontinue program

The Faculty Program Review Committee shall allow up to two representatives from the program under review to attend the meeting and to answer questions. The Faculty Program Review Ccommittee ~~will~~ ***shall*** provide a brief narrative justifying their recommendation and describe any areas needing improvement prior to the next review. ***A summary of the recommendation shall be shared with the program under review and the Faculty Senate President, who may request a copy of the full narrative. The Faculty Senate President, in consultation with members of the Faculty Senate Administrative Committee, then has the option to send a response to the Provost within two weeks. The program under review also has the option to send a response to the Provost within two weeks.***

2. An Administrative Program Review Committee comprised of the Deans of Colleges and Schools and 4 ***four*** administrative representatives from CRCD ~~will~~ ***shall*** review the recommendations of the ***Faculty*** Program Review Committee, may request additional information from ~~about~~ the program, and ~~will~~ ***shall*** state their collective agreement or disagreement with the Committee's recommendation.

3. The Provost, in consultation with the Chancellor's Cabinet, ~~will~~ ***shall*** review the recommendations of the Faculty Program Review Committee***, the Faculty Senate President,*** and the Administrative Program Review Committee and take one of the following actions:

a) Program continuation is confirmed ~~until the next review cycle.~~

b) Program continuation with an action plan prepared by the program and Dean to meet improvements needed by the next review cycle. Annual progress reports will be required in some cases. Actions may also include further review by an ad hoc committee.

c) Other actions, such as a major program restructuring. An action plan shall be required by the end of the next regular academic semester after a request for restructuring or similar action is made.

d) Recommend to discontinue program. ~~Program deletion will require Faculty Senate~~

~~action. However, w~~ *W*hen appropriate, admissions may be suspended pending action.

4. Faculty Senate reviews the recommendations to discontinue or suspend programs and states their collective agreement or disagreement with the Chancellor's Cabinet's recommendation. If the Faculty Senate disagrees, it shall provide an alternate recommendation by the end of the semester in which the Chancellor's Cabinet's recommendation is made.

5. The Chancellor reviews all levels of recommendations and decides whether to recommend program discontinuation to the Board of Regents.

Copies of the following are attached to hard-copy printed motion:

Link to BOR Policy and UA Regulation 10.06

PROGRAM REVIEW 2016-17

DEPARTMENT:
PROGRAM:
DEGREE:

I. PROGRAM PRODUCTIVITY AND EFFICIENCY

1) Discuss or provide context for the following components of the PAIR data, and provide an explanation of any numbers that may seem out of place given the size and capacity of your program:
   a. Total SCH
   b. Number of majors
   c. Number of degrees
   d. Time to degree
   e. Department budget
   f. FTEs

   If the data do not accurately reflect the program, explain why not. Also, discuss trends, e.g., is enrollment growing or decreasing? Why?

[Please type your response here]

2) Describe the way this program fits into the department as a whole.
   What other programs are offered in the department and how are they connected with this program?
   What percentage of faculty and staff time is devoted to this program as opposed to others offered?
   What are the budgetary needs associated with this program in particular, e.g., how many faculty teach exclusively or predominantly the courses required for this program?
   Do those courses meet requirements for other programs?
   Are there any special equipment, space, commodity or other needs associated with the program that are not covered by student fees?

[Please type your response here]

3) Does this program have sufficient resources (people, space, time, funding, student interest) to adequately meet its objectives in a sustainable manner?

[Please type your response here]

4) Describe the productivity of the program faculty in publication, scholarship, teaching, funded research and service. Mention specific Unit Criteria if they will help the committee to assess the level of scholarly productivity. List any grant funding associated with the program faculty during the review period.

[Please type your response here]

II. NEED FOR PROGRAM

1) UAF'S mission and Core Themes are attached. How does this program contribute to that mission and those themes? Is this program uniquely central to the mission?

[Please type your response here]

DEPARTMENT:
PROGRAM:
DEGREE:

2) List any active academic, community, or industry partnerships associated with this program, and briefly explain what the partner contributes (including but not limited to monetary and in-kind contributions).

[Please type your response here]

3) Is this program duplicated within the UA system? If there is another program within the system, does this one have any important differences from the other program(s)?

[Please type your response here]

4) Describe the demand for the program by students and the prospective job market for program graduates. (For assessing the job market, you may find the following publication useful (http://labor.alaska.gov/trends/), particularly their annual employment forecast. The national Bureau of Labor Statistics also has potentially applicable information (http://www.bls.gov/ooh/).
If your program tracks actual job placement of its graduates, please provide that information. However, it's recognized that not all degrees qualify recipients for specific occupations, so in some cases, you may need to address this question in broader terms, e.g., what skill set does the degree represent? What kinds of jobs are graduates obtaining?

[Please type your response here]

III. MISSION FULFILLMENT

Attach the most current Student Learning Outcomes (SLOA) plan and most recent SLOA summary.

REGENTS' POLICY
PART X – ACADEMIC POLICY
Chapter 10.06 - Academic Program Review

P10.06.010. Academic Program Review.

A. In accordance with P10.04.020, it is the responsibility of the board to review and cause the initiation, augmentation, reduction or discontinuance of programs according to the mission of the university and its constituent institutions. This includes a degree or certificate program approved by the board.

B. Each MAU will conduct assessments of all instructional, research, and service programs with respect to quality, efficiency, and contribution to mission and goals. Assessments of instructional programs will include analysis of educational effectiveness as an essential part of the ongoing continuous improvement and accreditation processes. Assessments will be conducted at a minimum of every seven years. Occupational endorsements and workforce credentials approved by the president will be subject to review at the MAU level.

C. Exceptional reviews may be conducted as needed, to respond to issues including but not limited to specific academic or budgetary concerns. An expedited review process tailored to the particular circumstances shall be used for exceptional reviews.

(04-04-14)

P10.06.020. Educational Effectiveness.

A. To improve the effectiveness of its educational programs and the fulfillment of its mission and objectives, each MAU will regularly undertake studies of the impact of its academic programs on its students and graduates.

B. MAUs will describe achievements expected of their students and adopt reliable procedures for assessing those achievements. Assessment practices will be coordinated among MAUs. An annual report on the implementation and results of assessment practices will be provided to the board. Assessment outcomes will be used in program and institutional planning.

(04-19-96)

UNIVERSITY REGULATION
PART X – ACADEMIC POLICY
Chapter 10.06 - Academic Program Review

R10.06.010. Academic Program Review.

A. Purpose

This regulation suggests the elements each campus of the statewide system should employ in its review of academic programs.

B. Elements for Evaluation

The programs of each of the university's major units follow from its respective mission (Policy 01.01); changes in programs should be consistent with and guided by these mission statements.

The necessary elements that a unit should assess during the program review process include the following:

1. Centrality of the program to the mission, needs and purposes of the university and the unit;

2. Quality of the program, as determined by the establishment and regular assessment of program outcomes. Outcomes should be comprehensive, and indications of achievement should involve multiple measures and satisfy the properties of good evidence.

3. Demand for program services, as indicated by measures such as: credit hour production appropriate to the program's mission, services performed by the program in support of other programs, graduates produced, the prospective market for graduates, expressed need by clientele in the service area, documented needs of the state and/or nation for specific knowledge, data, or analysis, other documented need;

4. Program productivity and efficiency as indicated by courses, student credit hours, sponsored proposals and service achievements produced in comparison to the number of faculty and staff and the costs of program support;

5. Timeliness of an action to augment, reduce or discontinue the program;

6. Cost of the program relative to the cost of comparable programs or to revenue produced;

7. Unnecessary program duplication resulting from the existence of a similar program or programs elsewhere in the University of Alaska statewide system.

C. Process

1. Each chancellor shall be responsible for setting an academic program review process in place at his/her campus or unit. Results of the process shall be utilized for budgeting and planning purposes of the unit and shall be reported to the Board of Regents upon their request.

2. Exceptional reviews shall be conducted in accordance with an expedited process developed by the chancellor and approved by the president on an ad hoc basis to meet the needs of the campus.

(06-22-05)

The UAF Faculty Senate passed the following at Meeting #219 on December 5, 2016:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Tribal Management, housed in the College of Rural and Community Development (Interior Alaska Campus).

Effective: Fall 2017

Rationale: The program proposal #56-UNP is on file in the Governance Office, 312B Signers' Hall.

President, UAF Faculty Senate

APPROVAL: _____ DATE: December 8, 2016
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

The proposed minor in Tribal Management will provide students with the opportunity to acquire skills to work within tribal and local governments and other organizations in rural Alaska. The required courses will give students a foundation for applying the the knowledge gained in their majors to rural and tribal management contexts. The minor will be especially helpful for Alaska Native Studies and Rural Development rural based students completing their bachelor's degree as few minors are available by distance.

Relationship to Purposes of the University:

The Tribal Management minor supports the University's mission to emphasize the circumpolar North and its diverse peoples and to educate students for active citizenship and prepare them for lifelong learning and careers. It addresses the UAF core themes of Educate, Prepare, and Connect.

The Alaska Native Studies (ANS) B.A. and Rural Development (RD) B.A. are both offered to students by distance. Currently there are only a few minors available by distance, including the minors in ANS and RD, which can make it difficult for these students to fulfill the minor requirement for graduation. This additional minor will give rural students another minor option and is closely related to their interests and careers. The Alaska Native Studies and Rural Development requested the development of this minor and is in full support.

Proposed Catalog Layout:

Tribal Management

The minor in Tribal Management will provide students with the skills to work within tribal and local governments and other organizations in rural Alaska. The curriculum will give students a foundation to apply the knowledge gained in their majors to rural and tribal management contexts.

Complete the following:
TM F101 - Introduction to Tribal Government in Alaska - 3 credits
TM F105 - Introduction to Managing Tribal Governments - 3 credits
TM F201 - Tribal Government in Alaska II - 3 credits
TM F205- Managing Tribal Governments II - 3 credits

Tribal Management electives - 3 credits

Minimum credits required: 15 credits

The UAF Faculty Senate passed the following at Meeting #218 on November 7, 2016:

MOTION:

The UAF Faculty Senate moves to authorize the Office of the Registrar to automatically change all pass/fail project credits (F698) on a student's record that are graded "DF" (Deferred) to the grade of "P" (Pass) once the project has been fully approved and accepted by the Graduate School. The responsibility for changing the "DF" grade for **letter-graded** F698 project credits will continue to be the responsibility of the instructor of record.

Effective: Fall 2017

Rationale:

The DF (Deferred) grade indicates that the course requirements may extend beyond the end of one semester; e.g., thesis, project, research courses, internships, etc. A final grade and credit will be withheld without penalty until the course requirements are met within an approved time. Currently, the Registrar's Office changes all F699 (thesis) DF grades to "P" (Pass) after the thesis has been fully approved and accepted by the Graduate School. However, project credits (F698) must be changed from DF to P by a "Change of Grade" form signed by the instructor. It is often difficult to get the instructor to submit a Change of Grade form in a timely manner, and this potentially can hold up a student receiving their diploma. It would be more efficient if the Registrar's Office could change F698 project credits that are graded DF to P once the project has been fully approved and accepted by the Graduate School.

Twenty-six departments were contacted regarding their input on changing the requirement from having an instructor change the DF grade to P to having the Office of the Registrar make the change after receiving confirmation from the Graduate School that the project has been approved and accepted. Of the 18 departments that responded to the survey, only one department (the Art Department) would like to continue offering letter grades every semester for their project students. Departments that offer letter grades for F698 are not included in this motion and their instructors will continue to be responsible for submitting grades every semester. The Office of the Registrar would prefer that all F698 credits be offered by P/F. If departments want to offer a project option with a letter grade they could offer this as a separate course with a different number (i.e., Computer Science uses CS 690 and CS 691 as Seminar/Project credits.)

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 11/9/2016

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #218 on November 7, 2016:

MOTION:

The UAF Faculty Senate moves to revise the catalog statement on attendance as indicated below:

Attendance

UAF is committed to student success and academic integrity. UAF faculty expect that students are committed to academic achievement. You are expected to adhere to the class attendance policies set by your instructors.

General Absences: If you miss class, you are responsible for conferring with your instructor as soon as possible concerning your absence, and to discuss the possibilities for arranging alternative learning opportunities. Note that some departments drop students who miss the first day of class and who fail to obtain their instructor's prior approval for the absence.

UAF-Sanctioned Absences: If you are scheduled to miss class for an academic requirement or to represent UAF in an official capacity (e.g., NCAA athletic competition, music performance**, research opportunities**), you must notify your instructor in writing ~~by the first Wednesday of~~ **within the first five days classes are in session in** the semester in which the absences will occur. The notification should list all scheduled absences and bear the signature of a UAF school official.

Instructors are encouraged to make reasonable accommodations for students who miss class to participate in these official, UAF-recognized activities. However, it is your responsibility to follow up the notification of absence by discussing alternative learning opportunities with your instructors before the end of the drop/add period (typically the second Friday of the semester). Doing so will allow you to drop the class and to add another if, after a good faith effort, you and your instructor cannot arrange for comparable learning opportunities that would enable you to be successful in the class.

Effective: Spring 2017

Rationale: Due to schedule alignment across the UA system, UAF classes now start on a Monday instead of a Thursday, giving students just two class days to notify their instructors instead of the previous five class days. This revision will ensure that students have the full five days to notify their instructors of their participation in official, UAF-recognized activities.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 11/9/2016

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #218 on November 7, 2016:

RESOLUTION:

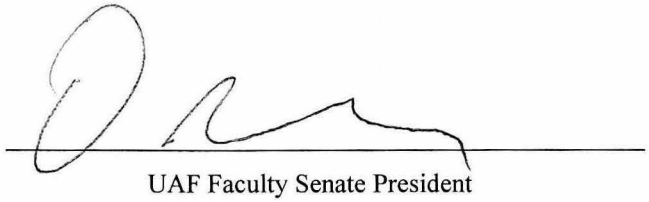
Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution at Meeting #176 in September 2011, Meeting #184 in September 2012, Meeting #192 in September 2013, Meeting #200 in September 2014, and Meeting #208 in September 2015. For academic year 2016-2017, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #218 on November 7, 2016.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,



WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2016-17 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.
2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.
3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.
4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.
5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

****

UAF Faculty Senate President

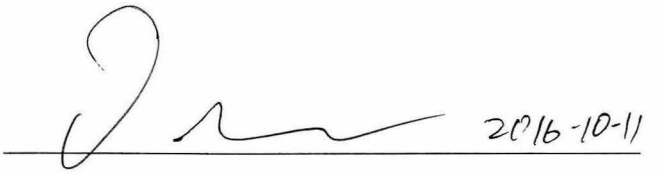
The following was unanimously passed at UAF Faculty Senate Meeting #217 on Oct. 10, 2016:

RESOLUTION:

WHEREAS, for Strategic Pathways to be successful and credible, it needs to be seen as fair and deliberate, and reflect the diversity of viewpoints needed to collect the necessary information and carefully study the impacts of the recommendations being considered; and

WHEREAS, while the Phase I Strategic Pathways Task Forces were formed during the summer when few faculty were on contract or available, and the work was preliminary in nature, this is no longer the case; and

WHEREAS, Strategic Pathways implementation committees are continuing to meet and make decisions and recommendations to implement the recommendations from Phase I, but the composition and operation of the task forces is essentially unchanged; and



WHEREAS, faculty have not been given an opportunity to choose their own representation, and those faculty who are involved have been given instructions that limit their capacity to freely discuss the work of these committees with their colleagues; and

WHEREAS, changes currently being proposed do not always reflect an understanding of vital information about the impact of major changes on students, and faculty can help provide that understanding; and

WHEREAS, as an example, at the last Board of Regents meeting the BoR recommended the elimination of the BA program in education, but much of the material provided to the Board at the meeting contained significant erroneous information or lacked important context; now

THEREFORE BE IT RESOLVED,
The UAF Faculty Senate requests that:

- Faculty members be free to discuss the contents of Strategic Pathways options with the community so that they can collect the necessary feedback to ensure that the conclusions reached by these committees will be well informed and considered,
- Membership in Strategic Pathways Committees affecting academic programs have a plurality of representation from faculty in those programs, and
- Faculty members in Strategic Pathways Committees be selected by their respective constituencies.

2016-10-11

UAF Faculty Senate President

The following was passed, as amended, at UAF Faculty Senate Meeting #216 on Sept. 12, 2016:

RESOLUTION:

Regarding the recent Thomas report analyzing single accreditation [1], we agree that "Single accreditation is neither necessary nor sufficient to achieve cost savings, enhance the student experience, or improve state higher education performance measures."

We agree that the transition to single accreditation would be extremely complex and time-consuming, and the disruption due to this transition would not help the university serve its mission.

We agree that under separate accreditation, faculty at each institution can currently tailor their courses and curriculum to better meet the diverse needs of their students, rather than needing to obtain statewide approval for each new course. This sort of specialization is key to attracting potential students, who may be difficult to reach with a single "one size fits all" solution.

We support the recommendation to develop efficient organizational structures to facilitate cooperation among campuses.

We recommend the Board of Regents use the report to inform the legislature of the negative consequences of single accreditation. The UAF Faculty Senate does not support single accreditation.

UAF Faculty Senate President

---

[1] Dr. Dana Thomas, "An Assessment of Single Accreditation versus Three Separate Accreditations for the University of Alaska's Three Universities," July 26, 2016.

Report is published online at: www.alaska.edu/research/

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Natural Sciences, housed in the College of Natural Science and Mathematics. (See attached Unit Criteria.)

EFFECTIVE: Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted from the Natural Sciences faculty. With some revisions, the unit criteria were found to be consistent with UAF guidelines.

DISAPPROVED: _____ DATE: _____
Chancellor's Office

September 7, 2004 (with modifications by faculty on 10-02-09, and January, 2016)

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: ANNUAL REVIEW, PRE-AND POST-TENURE, PROMOTION, TENURE REVIEW

AND

NATURAL SCIENCES UNIT CRITERIA

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR ANNUAL REVIEW, PRE- AND POST-TENURE, PROMOTION, AND TENURE REVIEW, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING NATURAL SCIENCE FACULTY IN CNSM. ITEMS IN BOLDFACE CAPITAL LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO CNSM FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS. THE CNSM MATHEMATICAL AND STATISTICS DISCIPLINES CRITERIA ARE SUBMITTED AS A SEPARATE DOCUMENT.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment.

Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement

in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles.

Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline.

C. Process for Appointment of Faculty with Academic Rank.

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall observe procedures for advertisement, review and selection of candidates to fill any vacant faculty positions. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank.

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies, and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the selection process.

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment.

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III.

Periodic Evaluation of Faculty

IT IS EXPECTED THAT THE CRITERIA FOR ASSISTANT PROFESSOR ARE TO BE MET FOR THE FOURTH YEAR COMPREHENSIVE REVIEW. FOR PROMOTION TO AND TENURE AS ASSOCIATE PROFESSOR, AN ASSISTANT PROFESSOR HAS TO MEET THE CRITERIA AT THE ASSOCIATE LEVEL. FOR PROMOTION TO FULL PROFESSOR AN ASSOCIATE PROFESSOR HAS TO MEET THE CRITERIA FOR FULL PROFESSOR. CRITERIA

FOR ASSOCIATE AND FULL PROFESSOR INCLUDE AN ASSUMPTION THAT CRITERIA AT THE PREVIOUS LEVEL(S) CONTINUE TO BE MET. LISTED EXAMPLES ARE NOT MEANT TO IMPLY THAT ALL OF THOSE PROVIDED ARE EQUALLY MERITORIOUS. WORKLOADS VARY BETWEEN FACULTY MEMBERS IN THEIR RELATIVE EMPHASIS IN THE TRIPARTITE AREAS. THEREFORE, EXPECTED AMOUNT OF ACTIVITY IN TEACHING, RESEARCH, AND SERVICE SHOULD BE CONSIDERED IN THE CONTEXT OF THE FACULTY MEMBER'S WORKLOAD.

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV **AND NATURAL SCIENCES UNIT CRITERIA, STANDARDS, AND INDICES**, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. **TRIPARTITE FACULTY APPLYING FOR TENURE AND/OR PROMOTION ARE STRONGLY ENCOURAGED TO GIVE A SEMINAR ON THEIR RESEARCH TO THEIR PEERS BEFORE THE PEER-UNIT COMMITTEE MEETS IN THAT YEAR TO AID IN THESE CONSIDERATIONS.**

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service**.**

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility. The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend

to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. **WHEN EVALUATING THE QUALITY OF THE TEACHING, CONSIDERATION SHOULD BE GIVEN TO THE NATURE OF THE COURSE (E.G., CORE, NUMBER OF STUDENTS, WRITING INTENSIVE, STUDENT DEMOGRAPHICS, ETC.).** Effective teachers **WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR**:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching;

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

SPECIFIC SCIENCES CRITERIA FOR TEACHING PERFORMANCE:

- **ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO A QUALITY AND CURRENT TEACHING PROGRAM IN THE DEPARTMENT. UNIVERSITY-SANCTIONED TEACHING EVALUATION SCORES SHOULD SHOW THAT THE MAJORITY OF STUDENTS RATE COURSES FAVORABLY, AND, IF NOT, THERE SHOULD BE A DEFINITE UPWARD TREND SHOWING IMPROVEMENT IN SCORES OVER TIME. COURSE MATERIALS SUCH AS SYLLABI, EXAMS, PROJECTS AND HOMEWORK SHOULD REFLECT THE COURSE DESCRIPTION AND BE CONTEMPORARY. THE FACULTY SHOULD PROVIDE EVIDENCE FOR ACTIVE SUPPORT OF STUDENT RESEARCH AT THE UNDERGRADUATE AND/OR GRADUATE LEVEL.**

- **ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE TEACHING MATERIAL IS CONTEMPORARY AND RELEVANT AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE - BUT IS NOT LIMITED TO - COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, VERSATILITY IN INSTRUCTIONAL ASSIGNMENTS, EFFECTIVE GUIDING AND MENTORING OF INDIVIDUAL STUDENTS, OR HIGH QUALITY UNIVERSITY-SANCTIONED TEACHING EVALUATION SCORES OR OTHER TEACHING EVALUATIONS (E.G. PEER-EVALUATION). CHAIR AND/OR PEER EVALUATIONS SHOULD PROVIDE EVIDENCE OF EFFECTIVE CLASSROOM INSTRUCTION AND STUDENT ENGAGEMENT. THE RECORD MUST ALSO SHOW ACTIVE AND SUCCESSFUL MENTORSHIP IN RESEARCH AT THE UNDERGRADUATE AND/OR GRADUATE LEVEL. SUCH MENTORSHIP CAN INCLUDE MEMBERSHIP ON GRADUATE ADVISORY COMMITTEES.**

- **PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE CONTRIBUTIONS MAY INCLUDE MAJOR IMPROVEMENTS IN COURSE AND CURRICULUM OFFERINGS, SECURING FUNDS TO ENHANCE INSTRUCTIONAL AND/OR LABORATORY SETTINGS, LEADERSHIP IN DEPARTMENTAL LEVEL CURRICULUM CORE REVISIONS, STUDENT LEARNING**

OUTCOME ASSESSMENTS, STUDENT ADVISING, AND MENTORING OF GRADUATE STUDENTS TO THE COMPLETION OF THEIR DEGREE. THE FACULTY MUST SHOW A CONSISTENT RECORD OF HIGH QUALITY TEACHING.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum,

b. They must be evaluated by appropriate peers,

c. They must be evaluated by peers external to this institution so as to allow an objective judgment,

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performance in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate, **OR INVITATION TO EDIT OR REFEREE ARTICLES OR PROPOSALS FOR PROFESSIONAL JOURNALS OR ORGANIZATIONS, WHICH CAN BE TAKEN AS EVIDENCE OF OBTAINING STATURE FROM COLLEAGUES.**

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs, and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC CRITERIA FOR SCIENCE RESEARCH PERFORMANCE:

- **ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE AREA OF SPECIALIZATION, NORMALLY A SUB-DISCIPLINE OF THE NATURAL SCIENCES (WITH THE OPTION OF RESEARCH IN SCIENCE EDUCATION). THIS SHOULD INCLUDE SEVERAL OF THE FOLLOWING:**
  - **RECRUITING AND MENTORING GRADUATE AND/OR UNDERGRADUATE RESEARCH STUDENTS**
  - **PEER-REVIEWED PUBLICATIONS FROM RESEARCH PERFORMED AT LEAST IN PART DURING THEIR CURRENT APPOINTMENT**
  - **PROPOSALS THAT WERE EITHER FUNDED OR RECEIVED FAVORABLE REVIEWS.**

- **ACQUIRING DATA THAT PROMISES TO RESULT IN PUBLICATIONS**
- **ESTABLISHING A PROFESSIONAL REPUTATION THAT DEMONSTRATES VISIBILITY IN THE SCIENTIFIC COMMUNITY**
- **PRESENTATIONS SUCH AS TALKS OR POSTER PRESENTATIONS AT SCIENTIFIC MEETINGS**

- **<u>ASSOCIATE PROFESSOR</u>: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM. THE FACULTY MEMBER SHOULD SHOW INDEPENDENCE AND LEADERSHIP BY GENERATING RESEARCH IDEAS THAT TRANSLATE INTO PROJECTS THAT INVOLVE GRADUATE STUDENTS AND MAY ALSO INCLUDE UNDERGRADUATE STUDENTS. EXAMPLES FOR SUCH A SUCCESSFUL RESEARCH PROGRAM SHOULD INCLUDE SEVERAL OF THE FOLLOWING:**
  - **PUBLICATIONS IN REFEREED PROFESSIONAL JOURNALS DEMONSTRATING SIGNFICANT SCIENTIFIC CONTRIBUTIONS AS MEASURED BY STANDARD INDICES (E.G. PUBLICATION RATE, CITATION RATES, JOURNAL IMPACT FACTOR). IT IS IMPORTANT FOR THE FACULTY MEMBER TO DISCUSS THE IMPORTANCE OF THEIR SCIENTIFIC CONTRIBUTIONS CLEARLY IN THE NARRATIVE.**
  - **PUBLICATION OF DISCIPLINE-RELEVANT DATA AND METADATA, CONTRIBUTION TO CYBER STRUCTURE, OR CONTRIBUTING TO PUBLICLY AVAILABLE COMPUTER MODELS**
  - **PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS**
  - **LEADERSHIP IN PREPARATION AND SUBMISSION OF RESEARCH PROPOSALS**
  - **ACQUISITION OF EXTERNAL RESEARCH FUNDING**
  - **SUCCESSFUL MENTORING OF GRADUATE STUDENTS IN THE FACULTY MEMBER'S FIELD OF EXPERTISE, WHICH CAN BE DEMONSTRATED BY STUDENT GRADUATION, STUDENT PRESENTATIONS AND PUBLICATIONS, STUDENT AWARDS OR GRANT SUCCESS, PROFESSIONAL PLACEMENT OF STUDENTS AFTER GRADUATION.**

- **<u>PROFESSOR</u>: MUST HAVE ESTABLISHED AN INTERNATIONALLY RECOGNIZED RESEARCH PROGRAM. THE FACULTY MEMBER SHOULD SHOW INDEPENDENCE AND LEADERSHIP IN RESEARCH BY HAVING PRODUCED A SUFFICIENT QUALITY AND QUANTITY OF PUBLICATIONS TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL RESEARCH PROGRAM THAT HAS**

ATTRACTED EXTERNAL FUNDING. THERE SHOULD BE A RECORD OF STUDENT INVOLVEMENT INCLUDING SUCCESSFUL MENTORING OF GRADUATE STUDENTS. THE RESEARCH PROGRAM SHOULD DEMONSTRATE:

- **EVIDENCE OF AN INTERNATIONAL REPUTATION THAT SHOULD INCLUDE SEVERAL EXAMPLES OF THE FOLLOWING: PROFESSIONAL ACTIVITIES OR PRESENTATIONS AT MEETINGS, CITATIONS OF PUBLICATIONS, DOCUMENTED OPINIONS OF OTHER SCIENTISTS IN THE FIELD, INVITED TALKS, BOOK CHAPTERS, PROFESSIONAL AWARDS, AND INVITATIONS TO SERVE ON STEERING COMMITTEES, REVIEW PANELS, AND WORKING GROUPS.**
- **EVIDENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM THAT SHOULD INCLUDE EXAMPLES OF THE FOLLOWING: PUBLICATION QUALITY AND QUANTITY INDICATED BY THE NUMBER OF CITATIONS, THE QUALITY OF THE JOURNALS AS INDICATED BY THEIR IMPACT FACTOR, AND/OR EXTERNAL REVIEWS STATING THE PAPERS MADE MAJOR CONTRIBUTIONS. THE FACULTY MEMBER'S ACQUISITION OF EXTERNAL FUNDING SHOULD BE DESCRIBED, INCLUDING A DESCRIPTION OF THEIR CONTRIBUTION TO COLLABORATIVE PROJECTS.**
- **EVIDENCE OF MENTORING OF GRADUATE STUDENTS THAT SHOULD INCLUDE SEVERAL EXAMPLES OF THE FOLLOWING: STUDENT GRADUATION, A SIGNIFICANT BODY OF STUDENT PRESENTATIONS, STUDENT AWARDS, OR STUDENT GRANT SUCCESSES, AND PROFESSIONAL PLACEMENT OF STUDENTS. INCLUSION OF UNDERGRADUATE STUDENTS IN RESEARCH PROGRAMS IS ALSO VALUED AND MENTORING OF UNDERGRADUATE STUDENTS SHOULD BE DEMONSTRATED IF THEY ARE INCLUDED IN THE RESEARCH PROGRAM.**

AS A POINT OF CLARIFICATION, THERE IS NO EXPECTATION FOR FACULTY AT ANY RANK TO AMASS PUBLICATIONS AS EITHER FIRST OR SOLE AUTHOR. IT IS COMMON FOR MANY DISCIPLINES TO HAVE THE PRIMARY AUTHOR LISTED LAST (OFTEN AS CORRESPONDING AUTHOR), AND IT IS CONSIDERED FAVORABLE FOR STUDENTS TO BE INCLUDED AS COAUTHORS OR FIRST AUTHORS. IT IS ESSENTIAL FOR THE FACULTY MEMBER TO CLARIFY IN THEIR NARRATIVE THEIR ROLE AND CREATIVE CONTRIBUTIONS IN MULTIPLE-AUTHORED PUBLICATIONS. THIS PHILOSOPHY OF EXPLAINING THE ROLE ALSO APPLIES TO COLLABORATIVE PROPOSALS.

D. Criteria for Public and University Service and PROFESSIONAL SERVICE

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service".

1. **Public Service**

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be a systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, or professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults and/or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations**.**

f. Consulting, INCLUDING CLINICAL CONSULTING IN A FACULTY MEMBER'S AREA OF EXPERTISE**.**

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs **CONTRIBUTIONS INCLUDING INTERVIEWS**, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media;

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions;

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activities include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accrediting reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring **INCLUDING SERVING AS NEW FACULTY MENTORS.**

j. Prizes and awards for excellence in university service.

k. SERVING ON COMMITTEES THAT REPRESENT THE UNIVERSITY AT OTHER PROFESSIONAL INSTITUTIONS.

3. **PROFESSIONAL SERVICE**

a. Editing or refereeing articles or proposals for professional journals or organizations (**IF NOT COUNTED AS RESEARCH; SEE C.2.F.**).

b. Active participation in professional organizations;

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings**.**

f. Service on a national or international review panel or committee.

G. SERVING AS A MENTOR/ADVISOR, COMMITTEE MEMBER OR EXTERNAL EXAMINER FOR STUDENTS AT OTHER INSTITUTIONS.

4. Evaluation of Service

Each faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public, university, and **PROFESSIONAL** service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

MEASURES OF EFFECTIVENESS OF SERVICE PERFORMANCE INCLUDE (BUT ARE NOT LIMITED TO):

- **ACCOMPLISHMENTS OF THE EFFORT OF ORGANIZATION TO WHICH SERVICE WAS PROVIDED.**
- **OFFICIAL RECOGNITION OF QUALITY OF SERVICE (E.G., AWARDS, LETTERS OF RECOMMENDATION).**
- **OPINIONS OF CLIENTS SERVED AND/OR COLLEAGUES INVOLVED IN DELIVERY OF SERVICE.**

SPECIFIC CRITERIA FOR SERVICE PERFORMANCE:

- **ASSISTANT PROFESSOR: NONE IN ADDITION TO UAF CRITERIA.**
- **ASSOCIATE PROFESSOR: POSITIVE CONTRIBUTION TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS, EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICE TO THE PROFESSION ARE EXPECTED.**
- **PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS MANDATORY. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS ARE EXPECTED, INCLUDING SERVICE TO THE GENERAL PUBLIC AND/OR ALASKAN TEACHERS.**

E. CRITERIA FOR CURATION AS A SERVICE COMPONENT WHEN RELEVANT.

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY AT CNSM, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH, AND SERVICE.

1. **CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:**

    A. **MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);**

    B. **INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;**

    C. **FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;**

    D. **MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);**

    E. **SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;**

    F. **WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;**

    G. **PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;**

    H. **PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS;**

    I. **ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS AND INTERNATIONAL TREATIES AND AGREEMENTS THAT PERTAIN TO THE COLLECTION.**

2. **<u>SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:</u>**

ASSISTANT PROFESSOR AND CURATOR

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

A. **CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA, THE CIRCUMPOLAR NORTH, AND BEYOND AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.**

B. **COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.**

    1. **CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.**

    2. **CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.**

    3. **CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGUES OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.**

    4. **CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CURATION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.**

C. **CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA. IN THIS REGARD, PREPARATION OF A SMALL EXHIBIT IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A PROFESSIONAL ARTICLE; PROJECT DIRECTION OF A LARGE AND COMPLEX EXHIBIT THAT INCLUDES PREPARATION OF A SERIOUS**

CATALOGUE IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A SCHOLARLY BOOK.

D. CURATORS WILL ACTIVELY SUBMIT GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

ASSOCIATE PROFESSOR AND CURATOR

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC, AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH MUST BE EVIDENT.

PROFESSOR AND CURATOR

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. HE OR SHE MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

3. EVALUATION OF CURATION

A COMMITTEE COMPOSED OF THE TENURED CURATORS AT THE MUSEUM WILL PROVIDE AN EVALUATION TO THE UNIT PEER COMMITTEE. IN CASE THERE IS JUST ONE OR NO TENURED CURATORS, IT IS IMPERATIVE THAT TWO OF THE EXTERNAL REVIEWERS BE CURATORS. IN FORMULATING CRITERIA, STANDARDS, AND INDICES FOR EVALUATION, PROMOTION, AND TENURE, THE MUSEUM SHOULD INCLUDE EXAMPLES OF CURATORIAL ACTIVITIES AND MEASURES FOR EVALUATION

APPROPRIATE FOR THAT UNIT. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The Faculty Senate moves to adopt the following changes to the UAF Grade Appeals Policy.

Effective: Immediately

Rationale: The Grade Appeals Policy was last revised in 2013. The current revisions bring the policy in line with Board of Regents' Policy (Chapter 09.03 - Student Dispute Resolution). It clarifies the informal and formal procedures, and addresses the inclusion of any represented faculty member instead of only tenure-track faculty members on the Grade Appeals committee. It establishes an ad hoc faculty senate Student Appeals Committee.

Debasmita Misra
President, UAF Faculty Senate

APPROVAL: _____ DATE: 5/24/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Additions in bold italics and ~~deletions indicated with strike-through.~~

Grade Appeals Policy:

I. Introduction

The University of Alaska is committed to the ideal of academic freedom and so recognizes that the assignment of grades is a faculty responsibility. Therefore, the University administration shall not influence or affect an assigned grade or the review of an assigned grade.

The following procedures are designed to provide a means for students to seek review of final course grades alleged to be arbitrary and capricious. Before taking formal action, a student must attempt to resolve the issue informally with the instructor of the course. A student who files a written request for review under the following procedures shall be expected to abide by the final disposition of the review, as provided below, and may not seek further review of the matter under any other procedure within the university.

II. Definitions

A. A "grade" refers to final letter grades A, B, C, D, F, and Pass ***or Fail***. The I (incomplete) ***and DF (deferred)*** designate~~s~~ a temporary grade, ~~for one year~~ not a final grade, so ~~it is~~ ***these are*** not subject to appeal until ~~it~~ ***they*** become~~s~~ final.

B. For the purpose of this procedure, "arbitrary and capricious" grading means:

1. the assignment of a course grade to a student on some basis other than performance in the course, or

2. the assignment of a course grade to a student by resorting to standards different from those which were applied to other students in that course, or

3. the assignment of a course grade by a substantial, unreasonable and unannounced departure from the instructor's previously articulated standards.

C. "Grading errors" denotes errors in the ~~calculation~~ ***assignment*** of grades rather than errors in judgment.

D. ~~As used in the schedule for review of academic decisions,~~ ~~a~~***A "***class day***"*** is any day of scheduled instruction, excluding Saturday and Sunday, included on the academic calendar in effect at the time of a review, ***as defined in university regulations (R09.03.024).*** Final examination periods are counted as class days.

E. "Department chair" for the purposes of this policy denotes the ~~administrative chair~~ ***faculty member responsible for*** ~~of~~ the academic unit offering the course**.** ~~(e.g., head, chair or coordinator of an academic department, or the campus director if the faculty member is in the College of Rural Alaska).~~

F. The "dean/director" is the administrative ~~chair~~ ***head*** of the college or school offering the course or program from which the academic decision or action arises. For students at extended campuses the director of the campus may substitute for the dean/director of the unit offering the course or program.

G. ***The*** "~~F~~*f*inal grade" ~~for the purposes of this policy~~ is the grade assigned for a course upon its completion.

~~H. A "grading error" is a mathematical miscalculation of a final grade or an inaccurate recording of the final grade.~~

H ~~I~~. The ***"***next regular semester***"*** is the fall or spring semester following that in which the disputed academic decision was made. For example, it would be the fall semester for a final grade issued for a course completed during the previous spring semester or summer session. The spring semester is the next regular semester for an academic decision made during the previous fall semester.

III. Procedures

A. ***Informal Procedures***

Errors by an instructor in determining and recording a grade or by the university staff in transcribing the grade are sources of error that can be readily corrected through the student's prompt attention following the normal change of grade procedure.

1. Review the UAF Appeal of Grade form.

2 ~~1~~. It is a student's obligation to notify the instructor ~~of any possible error~~ ***in writing with an explanation of the perceived grading error within 15 class days of the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester).*** ~~immediately by the most direct means available. If this is through an oral conversation and/or the issue is not immediately resolved, it is the student's responsibility to provide the instructor with a signed, written request for review of the grade, with a copy to the unit department chair and the dean of the college or school in which the course was offered.~~ ***A copy of the request should also be provided to the department chair.***

~~2. Notification must be received by the instructor and/or department chair within 30 class days after the beginning of the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester). [FS Meeting #157, March 2009.]~~

3. The instructor is responsible for notifying the student in writing of his or her final judgment concerning the grade in question within 5 ***class*** days of receipt of the request, and for promptly submitting the appropriate change of grade form to the Registrar's Office if an error occurred. ***If the decision was not to reconsider the grade, the instructor should notify the student, the department chair and the dean/director in writing by completing the informal portion on the Appeal of Grade form.***

4. If the student does not receive a response from the instructor or the unit department chair by the required deadline, the student must seek the assistance of the dean of the college or school in which the course was offered~~.~~ ***to begin the formal appeal process.***

5. If the instructor is no longer an employee of the university or is otherwise unavailable, the student must bring the matter to the attention of the unit department chair who will make every effort to contact the instructor by the 15th class day of the next regular semester.

    a. If the instructor cannot be contacted but course records are available, the department chair will effect resolution within 5 class days of notification by the student. The department chair may correct a grading error through the regular change of grade process on behalf of the instructor.

    b. If the instructor cannot be contacted and course records are either unavailable or indecisive, the student may request a ***formal*** review ~~following the procedure outlined below.~~ ***as described in section B. below.***

    ~~c. If the instructor can be contacted and elects to participate, then a constructive participation is to be welcomed by the review committee. The procedures of Paragraph III.A.5.a. or Paragraph III.A.5.b. will be instituted if the instructor withdraws from participation.~~

6. There may be extenuating circumstances when the deadlines cannot be met due to illness, ~~mail disruption,~~ or other situations over which the student may have no control. In such a case, upon request from the student, the ***dean/director*** ~~dean of students~~, after review of supporting documentation provided by the student, may recommend to the grade appeals committee that the deadlines be adjusted accordingly. ***At the discretion of the dean/director,*** ~~A~~ ***a***n extension of the deadline will be limited to one semester but every effort should be made to complete the appeal process within the current semester.

B. ***Formal Procedures***

If ~~no such error occurred~~ ***not resolved in the informal process***, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and s~~atisfaction~~ ***resolution*** is not forthcoming from the appropriate department chair.

1. This review is initiated by the student through a signed, written request to the department chair with a copy to the dean of the college or school in which the course was offered.

    a. The student's request for review may be submitted using university forms specifically designed for this purpose and available at the Registrar's Office.

    b. ~~By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration cannot influence or affect the outcome of the review.~~ ***The student completes the grade appeal checklist and submits the Grade Appeal form, acknowledging the completion of the informal process.***

    c. The request for a review must be received ***by the dean/director of the college or school in which the course was*** offered, ~~ON OR BEFORE THE 30TH DAY OF INSTRUCTION OF the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester or Wintermester)~~ ~~or~~ within 5 ***class*** days of ~~receipt of~~ ~~notification~~ ***completion*** of the

informal grade appeal process. ~~by the dean/director of the college or school in which the course was offered.~~

d. The request must detail the basis for the allegation that a grade was ~~improper, and~~ the result of arbitrary and capricious grading, and must present the relevant evidence.

2. ~~It is the responsibility of the~~ ~~department chair to~~ ***The dean*** formally ~~notify~~ ***notifies*** both the instructor who issued the grade and the ~~dean~~ ***department chair*** of the unit ~~'s college or school~~ that a ***formal grade appeal has been filed.*** ~~request for a review of grade has been received.~~

3. ~~If the instructor of the course is also the department chair, the Dean of the College will designate another department chair within the college to act as the department's representative for all proceedings.~~ If the instructor of the course is also the Dean of the College, the Provost will designate another Dean within the University to act as the college's monitor of all proceedings.

4. A ~~5-member~~ review committee will be appointed as follows:

a. The dean shall appoint one non-voting ~~tenure-track~~ faculty member ***holding academic rank, who is represented through the current applicable collective bargaining agreements***, from the academic unit in which the course was offered (other than the instructor of the course). This individual shall serve in an advisory role.

b. ~~Two~~ ***Three*** ~~tenure-track~~ faculty members ***holding academic rank, who are represented through the current applicable collective bargaining agreements***, from ***the faculty senate ad hoc Student Appeals Committee (SAC) shall be appointed by the SAC committee chair. One voting member shall serve as chair of the student appeal committee.*** ~~within the college or school but outside of the unit in which the course was offered shall be appointed. One of these members shall be appointed by the dean. The other shall be appointed by the Faculty Senate President. This person shall be a member of the Faculty Senate (including alternate members), if available.~~

~~c. One [[tenure track]] faculty member ***holding academic rank, who is represented through the current applicable collective bargaining agreements***, from outside the college or school in which the course was offered. This person shall be a member of the Faculty Senate (including alternate members). The Senate member shall be appointed by the Faculty Senate President.~~

~~d.~~ ***c.*** The fifth member to be appointed by ***the Associated Students of the University of Alaska Fairbanks (ASUAF)*** ~~the dean~~ will be a non-voting student representative.

~~e.~~ ***d.*** ~~The campus judicial officer or his/her designee~~ ***A facilitator appointed by administration*** shall serve as a nonvoting ***member*** ~~facilitator~~ for ***formal*** grade appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

e. In the case of a grade appeal from a graduate student, a representative of the graduate school may serve on the committee in a nonvoting capacity.

5. The committee must schedule, within 10 ***class*** days ~~of instruction~~ from receipt of the student's request, a mutually agreeable date, time and location for the appeal hearing. If the request for appeal is received any time other than during a regular semester, then the hearing must be scheduled on or before the 10th ***class*** day ~~of instruction~~ of the next regular semester.

    a. During this and subsequent meetings, all parties involved shall protect the confidentiality of the matter according to the provisions of the Family Educational Rights and Privacy Act (FERPA) and any other applicable federal, state or university policies.

    b. Throughout the proceedings, the committee will encourage a mutually agreeable resolution.

    c. The mandatory first item of business at this meeting is for the committee to rule on the validity of the student's request. Grounds for dismissal of the request for review are:

        1) ~~This is not the first properly prepared request for appeal of the particular grade.~~ ***A properly prepared formal appeal of the particular grade has already been denied.***

        2) The ***alleged*** actions of the instructor do not constitute arbitrary and capricious grading, as defined herein.

        3) The request was not made within the policy deadlines.

        4) The student has not ***completed the informal procedures*** ~~taken prior action~~ to resolve the grade conflict with the instructor. ~~as described under section III, A.~~

    d. In the event that the committee votes to dismiss the request, a written notice of dismissal must be forwarded to the student, instructor, department chair and dean within five ***class*** days of the decision, and will state clearly the reasoning for the dismissal of the request.

6. Acceptance for consideration of the student's request will result in the following:

    a. A request for and receipt of a formal response from the instructor to the student's allegation.

    b. A second meeting scheduled to meet within 10 ***class*** days of the decision to review the request.

        1) The student and instructor will be invited to attend the meeting.

        2) The meeting will be closed to outside participation, ***and both the student*** and ~~n either the student nor~~ ***the*** instructor may be accompanied by an advocate or representative. Other matters of format will be announced in advance.

        3) The proceedings will be ~~tape~~ recorded and the ***recordings*** ~~tapes~~ will be stored with the campus ***conduct office.*** ~~Judicial Officer~~.

        4) The meeting must be informal, non- confrontational and fact-finding, where both the student and instructor may provide additional relevant and useful information and can provide clarification of facts for materials previously submitted.

7. The final decision of the committee will be made in private by a majority vote.

a. Actions which the committee can take if it accepts the student's allegation of arbitrary and capricious grading must be directed towards a fair and just resolution, and may include, but are not limited to, the following:

1) direct the instructor to grade again the student's work under the supervision of the department chair,

2) direct the instructor to administer a new final examination and/or paper in the course,

3) direct a change of the student's registration status (i.e., withdrawn, audit, dropped) in the course.

b. The academic decision review committee proceedings will result in the preparation of written findings and conclusions. Conclusions will result in one of the following:

1) the request for a grade change is denied.

2) the request for a grade change is upheld; the review committee requests the course instructor to change the grade; and the course instructor changes the grade in accordance with ~~MAU~~ ***the University of Alaska Fairbanks*** rules and procedures.

3) the request for a grade change is upheld; the course instructor is either unavailable to change the grade or refuses to, and the review committee directs the dean/director to initiate the process specified by ~~MAU~~ ***the University of Alaska Fairbanks*** rules and procedures to change the grade to that specified by the review committee.

c. A formal, written report of the decision must be forwarded to the student, instructor, department chair, dean and ~~Director of Admissions and Records~~ ***registrar*** within five ***class*** days of the meeting.

d. The decision of the committee is final.

Record of Changes to the Grade Appeals Policy:

The following is a complete copy of the Grade Appeals Policy as passed by the UAF Faculty Senate at its Meeting # 56 (March 20, 1995) and amended at its Meeting #61 (February 5, 1996), Meeting #80 (May 4, 1998), Meeting #89 (September 27, 1999), Meeting #109 (May 6, 2002), Meeting #157 (March 2, 2009), Meeting #183 (May 7, 2012), Meeting #189 (March 4, 2013), and Meeting #215 (May 2, 2016).

- Alignment with UA policy & regulation Chapter 09.03 - Student Dispute Resolution. (Meeting #215, May 2, 2016).
- Clarification made to the time period within which grade appeals will be reviewed (Meeting #189, March 4, 2013).
- Policy at Section III, Procedures, subsection B, Item 4, was revised at Meeting #183 (May 7, 2012).
- Deadlines were revised at Meeting #157 (March 2, 2009).

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The UAF Faculty Senate moves to approve a new Minor in Sustainable Agriculture, housed in the School of Natural Resources and Extension.

Effective: Fall 2016

Rationale: The demand for information on sustainable agriculture practices increases every year and competing Land Grant Universities throughout the nation offer degrees at multiple levels in sustainable agriculture. Creating a minor in sustainable agriculture is a necessary step to remain competitive in this field. The courses exist and offering them as part of this minor will address broad interests by students across disciplines, as well as enhance enrollments.

****

Debasmita Misra
President, UAF Faculty Senate

APPROVAL: _____ DATE: 5/4/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

Students of sustainable agriculture learn concepts and techniques that are environmentally and socially sound as well as profitable for agriculture and food production. The proposed minor is a cohesive suite of courses that provides a foundation in the emerging concepts and practices of soil, plant and animal management using a comprehensive, sustainable approach.

The courses in this minor focus on agroecology and the interactions of natural and agricultural ecosystems for a comprehensive sustainable approach. Traditional and alternative production systems will be examined to support healthy environments, cultures and economies, promoting food security and community structure. The sustainable agriculture concepts and principles will also be related to current issues such as population growth, changing climate, social structures and use of resources. The proposed courses already exist. There is no anticipated negative impact on budget, facilities/space or faculty.

Proposed Minor Requirements:

Sustainable Agriculture
The minor in Sustainable Agriculture is based on social, economic and environmental aspects of agriculture and food production. The curriculum supports a basic understanding of sustainability science in global and US. agriculture, and an appreciation for the integrated nature of the biological, physical and social sciences that make up sustainable agriculture.

1. Complete all of the following *
    NRM F101 – Natural Resource conservation and policy – 3 credits
    NRM F210 – Introduction to sustainable agriculture – 3 credits
    NRM F235 – Introduction to Natural Resource Economics (ECON) - 3 credits

2. Complete 3 of the following
    NRM F211 – Introduction to applied plant science – 3 credits
    NRM F220 – Introduction to animal science – 3 credits
    NRM F380 – Soils and the environment – 3 credits**
    NRM F303X - Environmental Ethics and Actions (h) – 3 credits***
    NRM F403 W, O - Environmental Decision Making – 3 credits

3. Minimum credits required – 18 credits
a) Students majoring in NRM are not eligible for the sustainability minor.

** Students must earn a C- grade or better in each course.*
***Prerequisites: CHEM F105X*
****Requires Junior standing*

Relationship to Purposes of the University:

The demand for information on sustainable agriculture practices increases every year. Offering a minor is the first step in addressing this demand and provides the foundation for future program building. The multidisciplinary nature of sustainable agriculture has broad appeal, spanning numerous departments campus wide and creation of the minor is expected to attract students from many of these different programs (e.g., Geography, Philosophy and Humanities, School of Management, Anthropology, Northern Studies, Cross-Cultural Studies, Biology). The minor is open to students from all other Departments and Schools.

Concepts of sustainability embrace current thinking in land use management and food security throughout the world and are informing policy decisions at home and abroad. Competing Land

Grant Universities throughout the nation offer degrees at multiple levels in sustainable agriculture and although we are only proposing a minor, it is a necessary step to remain competitive. http://sustainableaged.org/projects/degree-programs/

Providing this introduction to students gives them insight into the interrelatedness of human and environmental values and the importance of food security at multiple levels.

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The Faculty Senate moves to extend the deadline for submitting an initial Communications Plan to the Provost's Office from April 15, 2016 to May 14, 2016, and clarifies the language regarding how long existing O and W designators will remain in place by specifying the academic year of the catalog.

New implementation timeline for transition:

1. Communication Plans will be reviewed and initially approved by the College or School's Curricular Review Committee, Academic Council, or other committee as appropriate and then continuously reviewed as part of the Student Learning Outcomes Assessment Plan review process.
2. Each baccalaureate degree program will submit an initial Communications Plan to the Provost's office by May 14, 2016.
3. During AY 2016/17 Departments will make any necessary changes to implement their plan.
4. Plans will be in place and implemented by Fall 2017.
5. Existing O and W designators will remain visible (if appropriate) on course numbers through the AY 19/20 catalog to facilitate students under catalogs with O/W requirements.

EFFECTIVE: Fall 2017

RATIONALE: Some programs need additional time to submit their reviewed plans to the Provost's Office. The additional time will not affect the overall implementation timeline of the new Communications Plans. Providing the catalog year provides more clarity.

Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The UAF Faculty Senate moves to approve a new Graduate Certificate of Resilience and Adaptation, housed in the Graduate School.

Effective: Fall 2016 upon all required approvals.

Rationale: This program would enable students already enrolled in a graduate program to obtain a certificate in Resilience and Adaptation (RAP), by completing 12 additional credits of coursework. The certificate program is open to any graduate student, although it is targeted at students in the Resilience and Adaptation Program (RAP). RAP encourages and fosters students to take a "systems" approach to research that explores the interactions of social, economic and ecological components holistically. Hence, RAP students are given the academic freedom to solve complex real world problems, such as resource management, using the best tools available and without the limitations of commonly accepted tools within single disciplines. The certificate would provide students a workforce advantage for both private industry and state agency positions, as it would demonstrate their knowledge of resilience and adaptation theory as well as the practical research techniques associated with interdisciplinary scientific approaches. Certificate awardees will be aware of adaptive cycles, which include both fast and slow variables. The certificate would "boost" a traditional MS or PhD degree and indicate the recipient has a broader knowledge base. The certificate supports UAF's strategic plan's goal of serving Alaska's diverse communities by enhancing the strategy of obtaining a Carnegie Community Engaged Institution designation.

See the program proposal #31-GNP on file in the Governance Office, 312B Signers' Hall.

DISAPPROVED: _____ DATE: _____
Chancellor's Office

Program Summary Statement:

PROGRAM SUMMARY

Introduction

The request for a certification in Resilience and Adaptation Studies grows out of the highly successful Resilience and Adaptation Program or RAP. RAP began as an NSF funded IGERT grant under the direction of Dr. Terry Chapin in 2002 and was designed to promote regional sustainability research via team-taught multidisciplinary courses and internships as well as spawn research collaboration among departments. In 2012, RAP was institutionalized by the University with support from the State of Alaska. Under Dr. Lawrence Duffy's direction, the program continues to adapt, evolve, and improve to meet new challenges and take advantage of new opportunities. Educating students to meet the state of Alaska's needs is of paramount importance.

Demand for Program

Demand for RAP admission remains extremely competitive. RAP affiliated faculty members select a small cohort each year from UAF graduate student applicants. A student can apply to an academic department and RAP simultaneously or can be admitted to RAP after beginning coursework. Over 100 graduate students have participated in the program, representing every college and school at UAF.

e-learning

Due to its focus on cohort building, incoming RAP students are asked to spend fall semester at the UAF campus. The foundation courses (4 credits) are taught at this time and students share office space in the RAP trailer behind the Reichardt Building. After the initial semester RAP students may move to other locations such as the UAS or UAA campus. The students may then take courses via distance delivery as offered or needed. The monthly All RAP seminar is videoconferenced.

Effects on other programs

RAP complements both the traditional academic departments and interdisciplinary students by providing a forum for cross-disciplinary learning and communication. As a result, departments may draw students from other areas that would not normally enroll in a course or conduct research in a given discipline. For example, recent MFA graduate (CLA) and ceramicist Perrin Teal Sullivan conducted some of her studies with the assistance of the Advanced Instrumentation Laboratory (CNSM).

Alignment with university mission, goals, core themes and objectives

The RAP certificate aligns well with UAF's mission to integrate teaching, research and public service with an emphasis on the circumpolar North and its diverse peoples. RAP appeals to students with an intellectual curiosity that are willing to step outside disciplinary boundaries with their research design. Students are selected based on their desire to approach Northern research questions from a holistic perspective that includes both natural and social science elements. RAP already attracts the best and brightest students; the certificate will be one more means of recruiting and retaining talented graduate students.

RAP prepares students for employment in governmental agencies, non-governmental organizations, academia and private industry. 100 percent of alumni respondents surveyed in 2013 felt that RAP increased employment opportunities. *"The RAP allowed me to extend my strong natural science foundation into work as a social scientist with a profound understanding of the cultural and economic issues facing Alaskan individuals and communities."*

RAP students design projects with community needs in mind. They work with community members to observe, listen, document and develop strategies and/or solutions to identified needs. RAP students generously share their insights and promote knowledge and ways of knowing through scholarly articles, presentations, educational outreach and involvement in community organizations. Students are often the force behind new partnerships and collaborations and serve as the catalyst for change. Students provide the energy to move good ideas and projects forward. RAP students have made significant contributions to the understanding of climate change and Arctic research; their success reflects on the university's reputation.

Alignment with Shaping Alaska's Future themes

The certificate will contribute to state accountability by documenting the students' csuccessful program completion. The number of students in relation to the cost of the program will support the "Shaping Alaska's Future" by improving the efficiency of the program.

- Student Achievement and Attainment: The students who apply to RAP are high achievers. They have the initiative to pursue research questions from an interdisciplinary perspective. The awarding of a certificate following 12 credits will acknowledge their progress and provide motivation for completing their Master or PhD degree.

- Productive Partnerships with Public Entities and Private Industries: State and federal agencies and non-governmental organizations have hired a significant number of RAP alumni. Both governmental and non-governmental organizations value the students' ability to analyze complex problems and develop effective strategies. Perhaps as a result of the cohort experience, RAP students are excellent communicators. They learn from day 1 how to express their ideas so that others outside their academic discipline can learn and understand.

- Research and Development and Scholarship to Enhance Alaska's Communities and Economic Growth: The approach to research using both a physical and social science perspective benefits the individual Alaska communities where the research is conducted and contributes knowledge to Alaska as a whole. RAP students are very cognizant that they must keep their communities informed throughout the entire research process from study design through dissemination of results. For example, Katty Jo Deeter is sharing her knowledge of building a successful tourism business in the Interior with Igiugig's ecotourism development goals.

- Accountability to the People of Alaska: The certificate will demonstrate accountability by documenting the students' successful completion of the program. A majority of the students' research addresses impacts of climate change. Whether they are documenting traditional knowledge regarding caribou migration or analyzing cortisol levels in whales to determine stress, the state of Alaska will benefit from the knowledge gained.

Alignment with Academic Master Plan goals

RAP selects students with interests related to the circumpolar North and appeals to students who are informed, responsible citizens. While they often work at the community level, their research often has implications well beyond the state level. Culturally aware, their work extends from Alaska's rural communities to the international stage. RAP alumna Robin Bronen, for example, is considered an international expert on migration as a result of climate change (climigration). Following graduation,

students are in demand to fulfill leadership roles in academia as well as state and federal agencies. RAP students are adept at building partnerships and initiating collaborative work in an effort to build a more sustainable Alaska.

State needs to be met

Workforce Development: RAP students have a good employment track record. They learn to conduct multidisciplinary research, acquire technical expertise from GIS – drone surveillance, and are dedicated to uncovering and sharing knowledge. The majority of RAP students have remained in Alaska.

Budget

Since any student who has an undergraduate degree is eligible to apply for the RAP certificate program, it is expected that enrollment numbers will significantly increase. The certificate is expected to attract both new and existing UA students. Tuition and fees for the six required credits in year 1 (FY18) are expected to generate $65,700. This estimate is based on tuition and fees for 15 students (eight Alaska residents and seven nonresidents*). We anticipate that increased students will apply and be accepted as the program becomes better known. By year 3 we anticipate an enrollment of 30 students generating $134,205.

Adjuncts are recruited from exceptional upper level RAP graduate students or alumni. Using adjuncts provides advanced students (or alumni) excellent teaching experience at minimal cost. It additionally keeps the program fresh and relevant. Additionally, by using courses offered across the university curriculum, the cost of instruction is lowered and the graduate class size is increased. This cost saving measure allows an increased allocation of state funding to student support in the form of fellowships, travel to professional meetings (network formation) and publication costs (Dissemination of research knowledge gains). Administration: RAP uses the existing administration of UAF's graduate school.

*Resident and nonresident numbers are based on the last three RAP cohorts where 50 percent of accepted applicants were in state and 50 percent were nonresidents.

RESOURCE COMMITMENT TO THE PROPOSED DEGREE PROGRAM

Additional resources are not required.

Resources	Existing	New		Total
	College/School	College/School	Others (Specify)	
Regular Faculty (FTE's & dollars)

Board of Regents Program Action Request
University of Alaska
Proposal to Add, Change, or Delete a Program of Study

1a. UA University (choose one) UAF	1b. School or College Graduate School	1c. Department or Program Resilience and Adaptation Program

2. Complete Program Title Resilience and Adaptation Certificate

3. Type of Program

☐ Undergraduate Certificate ☐ Associate ☐ Baccalaureate ☐ Post-Baccalaureate Certificate

☐ Master's ☒ Graduate Certificate ☐ Doctorate

4. Type of Action

☒ Add ☐ Change ☐ Delete

5. Implementation date (semester, year)

☒ Fall ☐ Spring ☐ Summer Year 2016

6. Projected Revenue and Expenditure Summary. Not Required if the requested action is deletion.
(Provide information for the 5th year after program or program change approval if a baccalaureate or doctoral degree program; for the 3rd year after program approval if a master's or associate degree program; and for the 2nd year after program approval if a graduate or undergraduate certificate. If information is provided for another year, specify (1st) and explain in the program summary attached). Note that Revenues and Expenditures are not always entirely new; some may be current (see 7d.)

Projected Annual Revenues to the University in FY 18		Projected Annual Expenditures in FY 18	
Unrestricted		Salaries & benefits (faculty and staff)	$8145
General Fund	$13145.	Other (commodities, services, etc.)	$5000
Student Tuition & Fees	$65658	TOTAL EXPENDITURES	$13145
Indirect Cost Recovery	$	One-time Expenditures to Initiate Program (if >$250,000)	
TVEP or Other (specify):	$	(These are costs in addition to the annual costs, above.)	
Restricted		Year 1	$
Federal Receipts	$	Year 2	$
TVEP or Other (specify):	$	Year 3	$
TOTAL REVENUES	$78803	Year 4	$

Page # of attached summary where the budget is discussed, including initial phase-in: 3

7. Budget Status. Items a., b., and c. indicate the source(s) of the General Fund revenue specified in item 6. If any grants or contracts will supply revenue needed by the program, indicate amount anticipated and expiration date, if applicable.

Revenue source	Continuing	One-time
a. In current legislative budget request	$	$
b. Additional appropriation required	$	$
c. Funded through new internal UA university redistribution	$	$
d. Funds already committed to the program by the UA university[1]	$13145	$
e. Funded all or in part by external funds, expiration date	$	$
f. Other funding source Specify Type:	$	$

8. Facilities: New or substantially (>$25,000 cost) renovated facilities will be required. ☐ Yes ☒ No

If yes, discuss the extent, probable cost, and anticipated funding source(s), in addition to those listed in sections 6 and 7 above.

[1]Sometimes the courses required by a new degree or certificate program are already being taught by a UA university, e.g., as a minor requirement. Similarly, other program needs like equipment may already be owned. 100% of the value is indicated even though the course or other resource may be shared.

9. Projected enrollments (headcount of majors). If this is a program deletion request, project the teach out enrollments.

Year 1: 15	Year 2: 20	Year 3: 30	Year 4: 30

Page number of attached summary where demand for this program is discussed: 1

10. Number* of new TA or faculty hires anticipated (or number of positions eliminated if a program deletion):

Graduate TA	0
Adjunct	0
Term	0
Tenure track	0

11. Number* of TAs or faculty to be reassigned:

Graduate TA	0
Adjunct	0
Term	0
Tenure track	0

Former assignment of any reassigned faculty:

UA Vice President for Academic Affairs Date

*Net FTE (full-time equivalents). For example, if a faculty member will be reassigned from another program, but his/her original program will hire a replacement, there is one net new faculty member. Use fractions if appropriate. Graduate TAs are normally 0.5 FTE. The numbers should be consistent with the revenue/expenditure information provided.

Attachments: ☒ Summary of Degree or Certificate Program Proposal ☐ Other (optional)

Revised: 04/20/2015

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: a copy of the list is available in the Governance Office, 312B Signers' Hall]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, UAF Faculty Senate makes that recommendation.

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The UAF Faculty Senate moves to authorize the 2015-16 Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2016. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 2, 2016

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

****

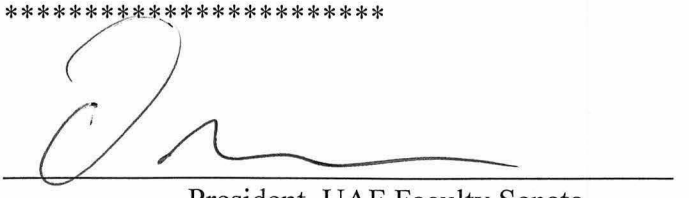
President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016:

MOTION:

The UAF Faculty Senate moves to adopt the following calendar for its 2016-2017 meetings.

EFFECTIVE: Immediately



RATIONALE: Dates must be firmed up for the meeting schedule to allow for advance planning, and Wood Center room reservations must be scheduled well in advance.

****

2016-17 Faculty Senate Meetings
Wood Center Carol Brown Ballroom

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #215, May 2, 2016 (with one friendly amendment to grammar in first line of Rationale section):

RESOLUTION:

WHEREAS research, service, and other activities funded through external grants and contracts represent a significant component of the University of Alaska Fairbanks' (UAF's) revenue; and

WHEREAS UAF faculty are being urged by administrators to increase their sponsored activities to bring in additional external funding; and

WHEREAS preparation and submission of competitive proposals requires effective collaboration between faculty and Administrative Services; and

WHEREAS post-award administration of grants and contracts needs to be done effectively, efficiently, and in such a way to minimize the burden of management on the Principal Investigators fulfilling the award; and

WHEREAS an increase in the number of proposals, grants and contracts will increase the workload for UAF Administrative Services, exacerbating the need for efficient handling; and

WHEREAS recent policy changes enacted by the UAF Administrative Services-based Office of Grants and Contracts Administration (OGCA) regarding approval for pre-proposal submissions and removal of overhead caps on sub-awards did not follow principles of shared governance; and

WHEREAS said changes will likely disincentivize proposal writing and lead to a reduction in the competitiveness of those proposals submitted; and

WHEREAS recent public communications from OGCA have highlighted the need for improved dialog between UAF faculty and OGCA; and

WHEREAS policy discussions on issues pertaining to sponsored activities conducted by faculty at UAF have been largely absent from the agenda of the Faculty Senate; and

WHEREAS the Research Advisory Committee (RAC) of the UAF Faculty Senate and the Office of the Vice Chancellor for Research (VCR) have recently met with the Vice Chancellor for Administrative Services (VCAS), the Associate Vice Chancellor for Financial Services (AVCFS), and OGCA to discuss these matters; now

THEREFORE BE IT RESOLVED, that the UAF Faculty Senate strongly urges that the Research Advisory Committee be consulted in developing policies and resolving administrative issues pertaining to research and other externally sponsored activities at UAF.

RATIONALE

- The efficient submission of proposals and effective post-award financial management are essential **to** sustain the UAF research enterprise.
- During the current budget crisis, it is essential that UAF represent itself to external funding

UAF also needs to improve its management of sponsored activities to retain valuable faculty members. Ideally, Principal Investigators would not be burdened with having to ensure effective University grant and contract management, but until the effectiveness of pre- and post-award processing improves, the stakes are too high for faculty to ignore.

Debasmita Misra

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #214, April 4, 2016:

MOTION:

The UAF Faculty Senate moves to confirm the nomination of Dr. Andrea Ferrante for Outstanding Senate Service of the Year for 2015-2016.

EFFECTIVE: Immediately

RATIONALE: The screening committee has carefully reviewed the nominations according to the award criteria, and with concurrence of the Faculty Senate President, forwards the nomination of Dr. Ferrante for confirmation by the Faculty Senate. Procedures stipulate that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting.

Debasmita Misra

President, UAF Faculty Senate

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #214, April 4, 2016:

MOTION:

The UAF Faculty Senate agrees to discontinuation of the BA in Theatre, housed in the College of Liberal Arts.

EFFECTIVE: Fall 2016

RATIONALE: As part of the special program review process, a curriculum overhaul was approved which phases out the BA in Theatre, while incorporating a Theatre track within the expanded BA in Film, to be called Film and Performing Arts.

****

Debasmita Misra
President, UAF Faculty Senate

APPROVAL: _____ DATE: 4/15/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Background and Information:

In response to Special Program Review, Provost Henrichs has approved the Department of Theatre & Film's Improvement Plan which involves a major curricular overhaul. We are taking our two separate BA degrees, Theatre (THR) and Film (FLM), and combining them to create one BA in Film & Performing Arts, with the new course designator: FLPA. We will maintain minors in both Theatre and Film.

Because we don't want to lose students interested in Theatre, we would like the "Theatre" section of the catalog to remain with information about the Theatre Minor and with a note to see the "Film and Performing Arts (Theatre Track)" BA section of the catalog for major information.

Both the Theatre and Film programs housed within the Department of Theatre and Film contribute substantially to the departmental mission of providing training in the discipline of the Dramatic Arts. *We propose an expansion of the Film BA to include a track in "Theatre" while we phase out the Theatre BA.* This innovative restructuring at the departmental level will yield the most fruitful results in terms of attracting new majors, retaining current majors and minors in both Theatre and Film, increasing class enrollments, producing graduates in a timely manner, and cutting costs.

The Theatre and Film programs are affected by this shift. All of our former FLM and THR courses that were cross-listed with other departments such as Journalism, Art, and English still will be as FLPA courses cross-listed with other departments. By maintaining our strong relationships with Alaska Native Studies, Anthropology, Art, English, Foreign Languages, Journalism, History and Northern Studies, we will continue to support the interdisciplinary approach to film *studies* while maintaining a curriculum for *film production and performance* within our own department.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF *INSTITUTE OF NORTHERN ENGINEERING (INE) RESEARCH* FACULTY AND INE UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE INSTITUTE OF NORTHERN ENGINEERING DEPARTMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

RESEARCH FACULTY ARE NOT ELIGIBLE FOR TENURE. AS MODIFIED THIS DOCUMENT REPRESENTS RESEARCH FACULTY THAT DO NOT HAVE A JOINT APPOINTMENT WITH AN ACADEMIC DEPARTMENT. FACULTY WITH JOINT APPOINTMENTS WITH INE AND AN ACADEMIC DEPARTMENT ARE TO BE EVALUATED ACCORDING TO THE ACADEMIC DEPARTMENT'S UNIT CRITERIA.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

PREAMBLE

THE PURPOSE OF UNIT CRITERIA FOR INE IS TO ESTABLISH METRICS FOR RESEARCH FACULTY TO ASSESS THEIR PROFESSIONAL GROWTH, TO GUIDE FACULTY PREPARATION OF MATERIALS FOR PEER REVIEW PANELS, AND TO GUIDE PEER REVIEW PANEL MEMBERS EVALUATING CANDIDATES SEEKING

PROMOTION. UNIT CRITERIA METRICS FOCUS ON A RESEARCH FACULTY MEMBER'S TOTAL CONTRIBUTIONS, IMPACT, AND STATURE AS THEY RELATE TO THE CURRENT WORK ASSIGNMENT, WHICH SHOULD DEMONSTRATE PROFESSIONAL GROWTH AT EACH FACULTY RANK.

THE INE UNIT CRITERIA ARE MEANT TO SATISFY A NEED, IDENTIFIED BY BOTH RESEARCH FACULTY AND PEER REVIEW PANEL MEMBERS, TO HAVE SPECIFIC GUIDELINES DESCRIBING WORK PERFORMANCE EXPECTATIONS AT EACH FACULTY RANK (ASSISTANT, ASSOCIATE AND FULL PROFESSOR). THE INE UNIT CRITERIA INCLUDE THE BASE LEVEL PERFORMANCE REQUIREMENTS OF THE UNIVERSITY WITH ADDITIONS TO ADDRESS THE DIVERSE WORK AREAS UNDERTAKEN BY INE RESEARCH FACULTY.

RESEARCH FACULTY WITHIN INE CONDUCT A BROAD ARRAY OF ACTIVITIES THAT FALL INTO THE CATEGORIES OF BASIC RESEARCH, APPLIED RESEARCH AND TECHNOLOGY DEVELOPMENT, ENGINEERING RESEARCH AND PRACTICE, AND COMMERCIALIZATION OF INTELLECTUAL PROPERTY. RESEARCH FACULTY PROVIDE TECHNICAL CONSULTING TO INDUSTRY, GOVERNMENT ENTITIES, AND COMMUNITY STAKEHOLDERS, AND THEY FORM RESEARCH AND DEVELOPMENT AND TECHNOLOGY IMPLEMENTATION PARTNERSHIPS WITH INDUSTRY, ACADEMIC COLLABORATORS, AND COMMUNITY STAKEHOLDERS. THE RANGE OF DISCIPLINE FOCUS WITHIN INE CAN INCLUDE PHYSICAL, BIOLOGICAL AND ECOLOGICAL SCIENCES AS WELL AS ENGINEERING, ECONOMICS, AND BIOMEDICAL RESEARCH. THE DIVERSITY OF ACTIVITY AND DISCIPLINE FOCUS MAKE IT CHALLENGING TO EXAMINE INE RESEARCH FACULTY PROFESSIONAL ACCOMPLISHMENTS SINCE MEASURES OF CONTRIBUTION, IMPACT, AND STATURE VARY FOR THESE DIVERSE DISCIPLINES. INE DEFINITIONS OF CONTRIBUTIONS, IMPACT, AND STATURE NEED TO BE SUFFICIENTLY GENERAL TO ENCOMPASS THIS BREADTH OF WORK FOCUS AND ACTIVITIES.

CONTRIBUTIONS ARE INDICATIVE OF A RESEARCH FACULTY MEMBER'S KNOWLEDGE, SKILLS AND EXPERIENCE; THEY ARE THE MEANS OF COMMUNICATING RESULTS TO A BROADER COMMUNITY, THUS ENSURING THE HIGHEST DEGREE OF POTENTIAL IMPACT FROM THE WORK. CONTRIBUTIONS MAY INCLUDE PUBLICATIONS, PROPOSALS, INNOVATIONS AND INTELLECTUAL PROPERTY, TECHNOLOGY DEVELOPMENT AND TRANSFER, AND CAPACITY GROWTH WITHIN THE UNIVERSITY OR EXTERNAL ENTITIES. THE TYPE OF CONTRIBUTION IS LESS IMPORTANT THAN ITS IMPACT. FOR EXAMPLE, PUBLICATIONS MAY INCLUDE JOURNAL ARTICLES, BOOKS, CUSTOMER REPORTS, MAPS, INTERPRETIVE MATERIALS, PHYSICAL MODELS, REVIEWS AND MONOGRAPHS.

IMPACT IS THE MEASURE OF THE IMPORTANCE OF A RESEARCH FACULTY MEMBER'S CONTRIBUTIONS TO SCIENCE, ENGINEERING, COMMUNITIES, INDUSTRY, ECONOMICS, AND OTHER FACETS OF SOCIETY AND THE NATURAL WORLD. GIVEN THE INQUIRY NATURE OF A RESEARCH FACULTY MEMBER'S

WORK, RESULTS CAN AFFECT MANY AREAS OF SOCIETY. MEASURES OF IMPACT MAY INCLUDE SETTING NEW RESEARCH DIRECTIONS, DEVELOPING NEW TECHNIQUES OR TOOLS TO BE USED BY OTHERS, INCREASING THE CAPACITY OR EFFICIENCY OF PROGRAMS OR ORGANIZATIONS TO PERFORM THEIR MISSION OR CONDUCT BUSINESS, AND INFLUENCING ORGANIZATIONAL POLICY OUTCOMES.

STATURE IS A FUNCTION OF THE RECOGNITION THAT A RESEARCH FACULTY MEMBER RECEIVES FROM THE SCIENTIFIC/ENGINEERING COMMUNITY AND/OR SOCIETY. EXPRESSIONS INDICATIVE OF STATURE MAY INCLUDE REQUESTS FOR EXPERT ADVICE AND CONSULTATION BY OTHER PROFESSIONALS, MANAGERS OR ORGANIZATIONS; REQUESTS TO LEAD RESEARCH TEAMS OR PROJECTS; AND INVITATIONS TO SERVE ON ADVISORY OR REVIEW BOARDS/PANELS. STATURE MAY ALSO BE INDICATED BY REQUESTS TO ORGANIZE OR CHAIR COMMITTEES, WORKSHOP OR SYMPOSIA; INVITATIONS TO ADDRESS SCIENTIFIC OR PROFESSIONAL ORGANIZATIONS; RECOGNITION BY PROFESSIONAL SOCIETIES OR EXTERNAL GROUPS; OR HONORS AND AWARDS.

THE FOLLOWING SECTIONS IN THE INE UNIT CRITERIA DESCRIBE ACTIVITIES RELEVANT TO ACCOMPLISHMENTS AT THE ASSISTANT, ASSOCIATE AND FULL PROFESSOR RANKS. THESE SECTIONS ATTEMPT TO ACCOUNT FOR THE BROAD CATEGORIES OF FOCUSED WORK THAT ENCOMPASS INE RESEARCH FACULTY EFFORTS.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

For promotion to associate professor, an assistant professor has to meet the criteria at the associate level. For promotion to full professor an associate professor has to meet the criteria for full professor. Criteria for associate and full professor include an assumption that criteria at the previous level(s) continue to be met. Listed examples are not meant to imply that all of those provided are equally meritorious.

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence ***AS DEMONSTRATED BY FACULTY CONTRIBUTIONS, IMPACT AND STATURE AS DEFINED IN THE PREAMBLE*** from the following areas: 1) effectiveness in teaching ***WHEN INCLUDED IN THE WORKLOAD ASSIGNMENT*** 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

THIS SECTION DOES NOT APPLY TO BIPARTITE RESEARCH FACULTY WITH BIPARTITE WORKLOADS. FOR A BIPARTITE RESEARCH FACULTY WITH A BIPARTITE WORKLOAD, ANY TRAINING, EDUCATION AND WORKFORCE DEVELOPMENT ACTIVITIES ARE DESCRIBED UNDER THE CRITERIA FOR RESEARCH, SCHOLARLY AND CREATIVE ACTIVITY. HOWEVER, BIPARTITE FACULTY MAY TEMPORARILY ACCEPT A TRIPARTITE FUNCTION, I.E. THE FACULTY IS FORMALLY TEACHING A CLASS, AND IF SO, A TRIPARTITE FUNCTION SHOULD BE CONSIDERED DURING PROMOTION REVIEW IF THE RESEARCH FACULTY MEMBER HAS AN ASSIGNED TEACHING WORKLOAD. THE TRIPARTITE EVALUATION SHOULD BE PART OF THE REVIEW IN THE SAME PROPORTION AS IT IS TO THE WHOLE WORKLOAD FOR THE ENTIRE REVIEW PERIOD.

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline ***AND AUDIENCE.*** Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Grants and contracts to fund research, development, creative works and consulting services

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art ***AND ENGINEERING WORK, SCIENTIFIC VISUALIZATIONS AND COMPUTER ANIMATIONS*** at galleries, ***CONFERENCES AND MUSEUMS,*** selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art ***AND ENGINEERING WORKS, SCIENTIFIC VISUALIZATIONS AND COMPUTER ANIMATIONS*** and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal

material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***INVENTION DISCLOSURES WITH SUBSTANTIAL DOCUMENTATION, PATENT APPLICATIONS AND AWARDS, AND TRANSFER OF DEVELOPED INTELLECTUAL PROPERTY (PATENTS, COPYRIGHTS, AND TRADE SECRETS) TO A COMMERCIAL ENTITY.***

n. INVITATION TO EDIT OR REFEREE ARTICLES OR PROPOSALS FOR PROFESSIONAL JOURNALS OR ORGANIZATIONS CAN BE TAKEN AS EVIDENCE OF OBTAINING STATURE FROM COLLEAGUES.

o. INVITATION TO PARTICIPATE IN THE DEVELOPMENT OF STANDARDS AND REGULATION BY NATIONALLY AND INTERNATIONALLY RECOGNIZED STANDARDIZATION BODIES AND REGULATORY ENTITIES, AS WELL AS THE CONSULTING ON THE DEVELOPMENT OF STANDARDS, REGULATIONS AND LEGISLATION.

p. TECHNICAL REPORTS PROVIDED TO AN EXPERT AUDIENCE OR PRIVATE ENTITY.

q. ACQUISITION, DOCUMENTATION AND TRANSFER TO THE PUBLIC DOMAIN OF SIGNIFICANT DATA SETS.

r. STRATEGIC PLANNING AND TECHNICAL AND SCIENTIFIC LEADERSHIP OF RESEARCH FACILITIES AND INFRASTRUCTURE TO DEVELOP NEW RESEARCH CAPABILITIES, DEVELOP RESEARCH PARTNERSHIPS, AND THE SUPPORT OF NON-TRADITIONAL BUSINESS VENTURES AND APPLIED RESEARCH AT THE UNIVERSITY, E.G. RECHARGE AND ENTERPRISE CENTERS.

s. SUCCESSFUL MENTORING/TEACHING OF INTERNS, UNDERGRADUATE AND GRADUATE STUDENTS INCLUDING BUT NOT LIMITED TO; FORMAL AND INFORMAL ADVISING, LABORATORY TRAINING, PARTICIPATION IN FIELD WORK, UNDERGRADUATE COMPLETION OF RESEARCH PROJECTS (E.G. URSA, CAPSTONE PROJECTS ETC.), STUDENT/INTERN PUBLICATIONS, CONFERENCE PAPERS, AND POSTERS STEMMING FROM PI/CO-PI RESEARCH, CURRICULUM DEVELOPMENT, GUEST LECTURES AND OTHER COURSE ACTIVITIES, STUDENT RECRUITMENT/RETENTION (INCLUDING FUNDING OPPORTUNITIES FOR GRADUATE AND UNDERGRADUATE STUDENTS).

SPECIFIC INE CRITERIA FOR <u>RESEARCH PERFORMANCE</u> BEFORE PROMOTION/ TENURE OR APPOINTMENT TO:

1. RESEARCH ASSISTANT PROFESSOR: EVIDENCE OF EXPERTISE, ABILITY AND INTENT TO ESTABLISH A SUSTAINED RESEARCH PROGRAM AT INE.

II. RESEARCH ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM. THE FACULTY MEMBER SHOULD SHOW INDEPENDENCE AND LEADERSHIP BY THE CREATION OF RESEARCH IDEAS THAT TRANSLATE INTO FUNDED INDEPENDENT AND/OR COLLABORATIVE PROJECTS OR PUBLICATIONS. EXAMPLES FOR SUCH A RESEARCH PROGRAM MAY INCLUDE:

- *LEADERSHIP IN PREPARATION AND SUBMISSION OF RESEARCH PROPOSALS;*
- *ACQUISITION OF EXTERNAL RESEARCH FUNDING;*
- *PUBLICATIONS IN REFEREED PROFESSIONAL JOURNALS, OR EQUIVALENT, DEMONSTRATING SIGNIFICANT SCIENTIFIC CONTRIBUTIONS. IT IS IMPORTANT FOR THE FACULTY MEMBER TO CLEARLY DISCUSS THE IMPORTANCE OF THEIR SCIENTIFIC CONTRIBUTIONS IN THE NARRATIVE.*
- *PRESENTATION OF RESEARCH RESULTS AT NATIONAL PROFESSIONAL MEETINGS;*
- *COMPLETION OF CONTRACT RESEARCH REPORTS;*
- *DEVELOPMENT OF INTELLECTUAL PROPERTY INTO PROTECTED FORMATS (PATENTS, INCLUDING PENDING PATENTS, COPYRIGHTS, AND TRADE SECRETS) AND COMMERCIALIZATION OF SUCH INTELLECTUAL PROPERTY THROUGH UNIVERSITY OR PRIVATE VENTURES;*
- *PROVISION OF GUIDANCE TO PROFESSIONAL ORGANIZATIONS, AND BRANCHES OF GOVERNMENT, E.G., BOARD OF ADVISORS, STANDARD COMMITTEES, CONSULTING ON IMPACTS OF LEGISLATIVE ACTION;*
- *INVITED PARTICIPATION IN PEER REVIEW ACTIVITIES;*
- *PUBLICATION OF RELEVANT DATA AND METADATA, CONTRIBUTION TO CYBER STRUCTURE, OR CONTRIBUTION TO PUBLICLY AVAILABLE COMPUTER MODELS;*
- *SUCCESSFUL MENTORING OF GRADUATE AND/OR UNDERGRADUATE STUDENT RESEARCH (WHICH CAN BE DEMONSTRATED FOR INSTANCE BY ONE OR MORE OF THE FOLLOWING: STUDENT PRESENTATIONS, PUBLICATIONS, AWARDS OR GRANT SUCCESS).*

THE PEER REVIEW PANEL SHOULD ENSURE THAT PUBLICATIONS AND MEETINGS ARE SPONSORED BY REPUTABLE ORGANIZATIONS. PAPERS IN PROCEEDINGS OF CONFERENCES KNOWN FOR RIGOROUS PEER-REVIEW AND DOCUMENTED LOW ACCEPTANCE RATES MAY BE CONSIDERED AS SUPPLEMENTAL PUBLICATIONS, WHERE APPLICABLE. PUBLICATION IN CONFERENCE PROCEEDINGS CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE RESEARCH PROGRAM IS OF HIGH QUALITY. IT IS ESSENTIAL FOR THE FACULTY MEMBER TO CLARIFY IN THEIR NARRATIVE THEIR, AND THEIR CO-AUTHOR'S(S') ROLE AND CREATIVE CONTRIBUTIONS IN

MULTIPLE-AUTHORED PUBLICATIONS. THIS PHILOSOPHY OF EXPLAINING THE FACULTY ROLE AND CONTRIBUTIONS ALSO APPLIES TO COLLABORATIVE PROPOSALS.

III. RESEARCH PROFESSOR: MUST HAVE SUSTAINED A CONSISTENT, PRODUCTIVE, INDEPENDENT AND/OR COLLABORATIVE RESEARCH PROGRAM(S) SINCE ADVANCEMENT TO RESEARCH ASSOCIATE PROFESSOR. A RESEARCH PROGRAM SHOULD HAVE PRODUCED QUALITY RESEARCH PRODUCTS THAT MAKE SIGNIFICANT IMPACT TO THE FIELD AND TO HAVE EARNED THE FACULTY MEMBER NATIONAL AND/OR INTERNATIONAL STATURE IN THE AREA OF RESEARCH. THIS COULD BE DOCUMENTED THROUGH:

- *SERVICE IN A LEADERSHIP ROLE IN PROJECT AND PROGRAM EXECUTION, FOR EXAMPLE IN INTERNAL PROJECT TEAMS, COMPLEX MULTI-DISCIPLINARY AND/OR MULTI-AGENCY OR MULTI–INSTITUTION PROJECTS*
- *QUALITY PUBLICATIONS IN RIGOROUS PEER-REVIEWED JOURNAL ARTICLES, CONFERENCE PUBLICATIONS AND OTHER FORMS OF LITERATURE SUCH AS MONOGRAPHS, BOOKS, REVIEWS, AGENCY AND CUSTOMER REPORTS, MODELS, MAPS, AND NOVEL INTERPRETATIVE MATERIALS. FOR EXAMPLE, EVIDENCE OF QUALITY PUBLICATIONS MAY INCLUDE:*
  - *THE NUMBER OF CITATIONS PAST PUBLICATIONS HAVE RECEIVED*
  - *THE QUALITY OF THE JOURNALS SUCH AS THEIR "IMPACT FACTOR"*
  - *EXTERNAL REVIEWS STATING THE PAPERS MADE MAJOR CONTRIBUTIONS*
  - *INVITED TALKS AND BOOK CHAPTERS*
  - *PROFESSIONAL AWARDS*
- *SERVICE IN A LEADERSHIP ROLE IN PROJECT AND PROGRAM EXECUTION, FOR EXAMPLE IN INTERNAL PROJECT TEAMS, COMPLEX MULTI-DISCIPLINARY AND/OR MULTI-AGENCY OR MULTI–INSTITUTION PROJECTS*
- *IMPACTS MAY INCLUDE SETTING NEW RESEARCH DIRECTIONS, DEVELOPING NEW TECHNIQUES OR TOOLS TO BE USED BY OTHERS, INCREASING THE CAPACITY OR EFFICIENCY OF PROGRAMS OR ORGANIZATIONS TO PERFORM THEIR MISSION OR CONDUCT BUSINESS, AND INFLUENCING ORGANIZATIONAL POLICY OUTCOMES.*
- *THE FACULTY MEMBER SHOULD HAVE ATTAINED A NATIONAL AND/OR INTERNATIONAL REPUTATION WHICH MAY BE DEMONSTRATED BY:*
  - *A HIGH NUMBER OF PROFESSIONAL ARTICLE EXTERNAL CITATIONS;*
  - *PROFESSIONAL ACTIVITIES WITH EXTERNAL*

COLLABORATORS;

- *PRESENTATIONS AT NATIONAL AND INTERNATIONAL MEETINGS;*
- *INVITATIONS TO ADDRESS SCIENTIFIC OR PROFESSIONAL ORGANIZATIONS;*
- *INVITATIONS TO WRITE SYNTHESIS PAPERS;*
- *REQUESTS TO ORGANIZE OR CHAIR COMMITTEES, WORKSHOPS, OR SYMPOSIA;*
- *RECOGNITION BY PROFESSIONAL SOCIETIES AND EXTERNAL GROUPS;*
- *HONORS AND AWARDS; OR*
- *DOCUMENTED OPINIONS OF OTHER ENGINEERS AND/OR SCIENTISTS IN THE FIELD.*

THE PEER REVIEW PANEL SHOULD ENSURE THAT PUBLICATIONS AND MEETINGS ARE SPONSORED BY REPUTABLE ORGANIZATIONS. PAPERS IN PROCEEDINGS OF CONFERENCES KNOWN FOR RIGOROUS PEER-REVIEW AND DOCUMENTED LOW ACCEPTANCE RATES MAY BE CONSIDERED AS SUPPLEMENTAL PUBLICATIONS, WHERE APPLICABLE. PUBLICATION IN CONFERENCE PROCEEDINGS CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE RESEARCH PROGRAM IS OF HIGH QUALITY. IT IS ESSENTIAL FOR THE FACULTY MEMBER TO CLARIFY IN THEIR NARRATIVE THEIR, AND THEIR CO-AUTHOR'S(S') ROLE AND CREATIVE CONTRIBUTIONS IN MULTIPLE-AUTHORED PUBLICATIONS. THIS PHILOSOPHY OF EXPLAINING THE FACULTY ROLE AND CONTRIBUTIONS ALSO APPLIES TO COLLABORATIVE PROPOSALS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

EXPECTATIONS FOR THE SERVICE COMPONENT OF A BIPARTITE POSITION WITHIN INE WILL VARY BY INDIVIDUAL RESEARCH FACULTY AND WILL BE EXPLICITLY OUTLINED IN BIANNUAL WORKLOAD ASSIGNMENTS. IT IS NOT UNUSUAL THAT THE SERVICE COMPONENT IS 10% OR LESS OF THE BIANNUAL WORKLOAD.

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership

competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. HOSTING EVENTS AT RESEARCH FACILITIES, E.G., TOURS, OPEN HOUSES ETC. INTENDED FOR PUBLIC OR PROFESSIONAL OUTREACH (MAY ALSO BE COUNTED AS UNIVERSITY OR PROFESSIONAL SERVICE DEPENDING ON THE AUDIENCE).

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school. ***WITHIN THE INE THIS MAY INCLUDE RESEARCH CENTER DIRECTOR.***

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY.***

j. Prizes and awards for excellence in university service.

k. ***SERVICE AS OUTSIDE REVIEWER ON THESIS COMMITTEES.***

l. ***PREPARATION OF UNIVERSITY REPORTS AND ONLINE INFORMATION.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

g. SERVING AS A MENTOR/ADVISOR, COMMITTEE MEMBER OR EXTERNAL EXAMINER FOR STUDENTS AT OTHER INSTITUTIONS.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service

activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #214, April 4, 2016:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Creative Writing, housed in the English Department at the College of Liberal Arts.

Effective: Fall 2016

Rationale: There is a strong interest in creative writing among UAF's students. However, currently creative writing courses can only be used to satisfy (h) or (w) requirements, or as electives. This minor aims to satisfy student demand for creative writing to constitute a formal part of a degree program.

****

Debasmita Misra
President, UAF Faculty Senate

APPROVAL: _____ DATE: 4/4/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

Creative writing is already an .important and high-profile discipline in CLA: the English Department offers an MFA in Creative Writing (with 30 students currently enrolled), as well as a combined MFA/MA degree (creative writing/literature). The faculty expertise and program-strengthening structures necessary for the MFA will form a solid basis for the minor: the English Department already has the faculty needed to run the minor, hosts the Midnight Sun Visiting Writer Series (which brings high-profile writers to UAF to present their work, provide craft talks, and meet one-on-one with students to discuss their writing), and is home to two creative writing journals: the undergraduate journal, *Ice Box* and the graduate journal, *Permafrost*.

The minor in creative writing will build on an already necessary restructuring of the undergraduate creative writing curriculum. The proposed new curriculum replaces the current three introductory genre-specific courses (ENGL F271, F272, F273 that focus on fiction, poetry and nonfiction respectively) with a multi-genre introductory course, offering genre-specific courses in fiction, nonfiction and poetry at the 300-level, and offering the existing Topics in Creative Writing as a 400-level course. Such a restructuring makes for a more pedagogically sound curriculum, providing students a suite of courses that starts with the teaching of principles and skills applicable across the genres then progresses towards more advanced study at the 300- and 400-level.

Proposed Minor Requirements:

Complete the following:

Complete the following:

1. ENGL F270X Introduction to Creative Writing 3credits
2. Two of the following:
   - ENGL F375 W: Intermediate Creative Writing: Fiction (h) 3 credits
   - ENGL F376 W: Intermediate Creative Writing: Poetry (h) 3 credits
   - ENGL F377 W: Intermediate Creative Writing: Nonfiction (h) 3 credits
3. Two of the following:
   - ENGL F470 W: Topics in Creative Writing (h) 3 credits
   - ENGL F471 W: Undergraduate Writers' Workshop (h) 3 credits
   - ENGL F488 W: Dramatic Writing (h) 3 credits
4. Minimum credits required: 15 credits

Relationship to Purposes of the University:

Shaping Alaska's Future asserts that to preserve local traditions, UA should position itself as "a major center of culture and the arts in Alaska." By offering a minor in creative writing, UAF will be further aligning itself with this mission, providing a means to nurture artistic talent and foster Alaska's culture in Interior Alaska. Undergraduate students whose passion lies in artistic and cultural expression through writing will be more likely to attend UAF if creative writing is offered as a formal part of their degree; by addressing their interests and providing a formal means to explore them, UAF will be more likely to engage and retain these students. There is existing demand from students for creative writing to form a recognized part of their degree program. UAF already provides formal study of the arts at the undergraduate level in music, theatre and art. By formalizing creative writing, the arts programs offered at UAF overall will be strengthened.

The UAF Faculty Senate passed the following at Meeting #214, April 4, 2016:

MOTION:

The UAF Faculty Senate moves to approve the memorandum titled *Strategic Pathways Implementation and Potential Impact* (attached), to be sent to UA President Jim Johnsen, Interim Chancellor Mike Powers, Provost Susan Henrichs and VCAS Kari Burrell.

EFFECTIVE: Immediately

RATIONALE: The members of the UAF Faculty Senate wish to collectively express their concerns regarding the implementation of Strategic Pathways planning, and offer constructive feedback in the spirit of shared governance.

MEMORANDUM

To: President Johnsen, Interim-Chancellor Powers, Provost Henrichs, and VCAS Burrell

From: UAF Faculty Senate Debasmita Misra

Approved: April 4, 2016

Re: Strategic Pathways Implementation and Potential Impact

We begin by thanking President Johnsen for requesting the Faculty Alliance and other governance groups on March 14 to develop criteria for evaluation of academic programs and administrative services for inclusion in Phase 1 of Strategic Pathways (SP). We have three broad recommendations for the overall implementation of SP that we believe will assist UA in preserving the academic excellence and service we provide to Alaska during these difficult times:

- That the changes in academic programing at each university be undertaken in a way that does not provide a temporary illusion of cost savings while significantly reducing the ability to generate revenue and that the core mission of the university system be protected.
- That SP and budget adjustments be coordinated across the university system so as not to result in decisions that contravene the ultimate goals of SP.
- That a pathway for reorganization of administrative services be included along with the SP process in order to ensure that all areas of the university system are strategically reorganized.

1. The senate understands that academic programs draw the bulk of cost for the university and are therefore the focus of SP in its current form. However, academic programs are also the core mission of the university and must be handled with care in any restructuring. It is still unclear if there will be significant cost savings through the reorganization of academic programs using SP and it could be anticipated that such reorganization may impact revenue generation and potentially quality of our offerings. **The UAF faculty senate strongly supports the feedback of the Planning and Budget Committee of UAF to you on March 14, 2016, on the SP concept**. In particular, we agree that any changes must be made with the following questions in mind:
   - *Will a particular implementation of Strategic Pathways help UA to educate Alaskans at a reduced cost?*
   - *Will a particular implementation of Strategic Pathways improve Alaska's college enrollment, retention, and graduation rates?*

- *Will a particular implementation of Strategic Pathways improve the ability of students to transfer among UA institutions?*

2. The senate feels that there are still significant unclear aspects of SP, its implementation schedule, and its potential impact. Currently, UAF is struggling with state appropriated budget cuts and strategy to balance the budget for FY 17. However, such planning is being done without the broad consideration of potential alignment to SP concepts. **Each campus is planning independently to meet the gap, without considering how SP is going to shift costs across the UA system**. This is particularly troublesome, because each university will make adjustments that are deeper than a shared planning of cost adjustments within the SP purview. Hence, programs might be cut inadvertently, which could have survived and been strengthened.

3. Finally, the senate feels strongly that there is a significant lack of information or direction on how SP will address reorganization of Administrative Services at UAF and across the UA system in the context of budgetary planning and future directions. It is evident that vacant faculty positions are not being filled at this point while many senior administrative positions are being actively searched for filling. Do these positions contribute critically to the core mission of the university? Or, could the university be equally effective without those positions being filled, focusing instead on serving and strengthening the core mission of academic excellence and job training? For research to remain viable, or even grow as a revenue source, administrative positions related to proposal writing and contracting are important to preserve and align closely with the needs of researchers. **It may be prudent to develop a "concept" similar to SP where administrative services (major blocks or units) be strategically reorganized using the same principles of focus, access, scope, excellency, and consistency put forth by SP for academic programs**. Such concept and implementation, in parallel with academic program reorganization may have a positive impact on the implementation of SP and reduction of adverse impact on each university within the UA system.

Thank you very much for your attention and consideration. We appreciate all your diligence in protecting the interest of UAF during these difficult times.

The UAF Faculty Senate passed the following at Meeting #214, April 4, 2016:

MOTION:

The Faculty Senate moves to limit each program designator (e.g. ANS, ECON) in the list of general education requirements for the baccalaureate degree to no more than five (5) total courses in humanities, arts, and social sciences.

EFFECTIVE: Fall 2016

RATIONALE: Placing this modest limit on the number of courses per program per list will:

- Allow the GER to be regularly and systematically assessed without frequent changes in course offerings
- Provide a list of courses to students from which to choose that realistically reflects available courses
- Ensure that courses on each list are carefully considered and designed to meet GER specifications

The Faculty Senate adopted a resolution at its May 7, 2015 meeting calling for the adoption of a classification list system that will meet general education requirements in arts, humanities, and social sciences.

President, UAF Faculty Senate

APPROVAL: _____ DATE: 4/14/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #214, April 4, 2016:

RESOLUTION:

WHEREAS the UA charges different leave and benefit rates to the units for overload teaching assignments for full-time faculty members than for teaching assignments for adjunct faculty and staff members. The benefit rate charged for overload teaching assignments for full-time faculty members is considerably higher than for teaching assignments for adjunct faculty and exempt staff, leading to the denial of overload contracts for full time faculty due to significantly higher cost; and

WHEREAS the UA currently charges the units combined leave and benefit rates of
UNAC 46.3% ((salary × 13.7% leave) × 28.7% benefits)
UAFT 45.5% ((salary × 12.7% leave) × 29.1% benefits)
for teaching overload contracts for full-time faculty members; and

WHEREAS the full-time faculty member does not receive any additional benefits or leave except for incremental retirement contributions outside their main contract; and

WHEREAS the effective leave and benefit rate charged to units for teaching assignments for adjunct faculty and exempt staff members is 10.70%; and

WHEREAS as a result, overload contract for full time faculty members are charged an additional 35.6% UNAC, 34.8% UAFT in leave and benefits, substantially inflating the cost of these contract to the units. Because of the higher cost, some units regularly and categorically deny overload contracts to full-time faculty members; and

WHEREAS the question arises whether an overload teaching contract for full time faculty members truly generates leave and benefits cost of 35.6% UNAC, 34.8% UAFT warranting the charges to the units; now

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate requests the UA Statewide to set overload teaching contract leave and benefit rates for full-time faculty members in line with the teaching contract leave and benefit rates for adjunct faculty and exempt staff.

The UAF Faculty Senate passed the following at Meeting #213 on March 7, 2016:

MOTION:

The UAF Faculty Senate agrees to discontinuation of the BA and Minor in Russian Studies.

EFFECTIVE: Fall 2016

RATIONALE: Following the 2012-2013 program review process, the Chancellor's Cabinet found enrollments and student credit hours had not increased and recommended the program be discontinued.

****

Debasmita Misoe
President, UAF Faculty Senate

APPROVAL: _____ DATE: 3/10/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Background and Information:

Russian is part of the Department of Foreign Languages and Literatures. There are five languages taught in the department: French, German, Japanese, Russian, and Spanish. The BA in Japanese Studies and the BA in Russian Studies have been separate majors, which incorporate courses from other departments. French, German, and Spanish are majors within the BA in Foreign Languages (or students have the option of focusing on more than one language). With the deletion of the separate Russian Studies major, the Russian language, culture, and literature courses will still be offered and students will be able to major in Russian through the BA in Foreign Languages. There will be some reduction in demand for the elective courses taught in other departments that were required for the Russian Studies degree (Anthropology, Business, Economics, Geography, and History), though the number of Russian Studies majors is so low that the impact will be minimal.

Over the past ten years, enrollments have remained consistently low, from a high of 8 enrolled majors in 2009 to a low of 3 enrolled majors in 2012. The number of graduates has declined from 6 in 2006 to 0 in 2015, with a total of 4 graduates over the past 5 years. During the 2010-2011 Program Review cycle, the program was continued, but the committee stated:

> Upper division SCH for this program have averaged only 64/year for the past five years, albeit with a lot of variation. If five courses a year are offered, there would be an average of four students enrolled in each one. This is only a rough estimate but if there are only 10 majors, which would likewise suggest upper division enrollments of five or less. While in the present relatively favorable budget environment UAF can afford to continue this program, which could change if state financial support decreases. FORL faculty should consider whether there is potential for increasing enrollments, or whether Russian might become an option within the broad FORL BA, reducing the number of courses that need to be taught. Enrollment will be reassessed in two years, and if it falls further, continuation of the program may not be possible.

Following the 2013 Program Review, Chancellor's Cabinet found that enrollments and student credit hours had not increased, and that the degree needed to be folded into the larger and more flexible Foreign Languages BA degree. There is insufficient demand for the stand-alone Russian Studies degree. One of the two full-time faculty members has announced her retirement effective May 2016. The remaining full-time instructor will be able to teach most of the remaining courses with an occasional adjunct. Currently enrolled students will be able to complete their degrees without disruption.

DELETION OF PROGRAM REQUEST
(UA Regulation 10.04.02)

(Please number the pages and include a table of contents if the request is lengthy.)

I. Cover Memorandum should include:

A. Name of person preparing request: Alexandra Fitts, Vice Provost

B. Reasons for requesting deletion of program: Deletion of the Russian Studies program was recommended as a result of the 2012-2013 Program Review cycle.

C. Relation of program to other programs in the local unit and system: Russian is part of the Department of Foreign Languages and Literatures. There are five languages taught in the department: French, German, Japanese, Russian, and Spanish. Japanese Studies and Russian Studies have been separate majors, which incorporate courses from other departments. French, German, and Spanish are majors within the BA in Foreign Languages (or students have the option of focusing on more than one language). Russian courses will still be offered and students will be able to major in Russian through the BA in Foreign Languages. There will be some reduction in demand for the elective courses taught in other departments (Anthropology, Business, Economics, Geography, and History), though the number of Russian Studies majors is so low that the impact will be minimal.

D. Summarize effects on personnel directly involved with the program: The tenure-track faculty member in Russian has announced her retirement in May 2016. There will be one full-time instructor in Russian remaining. If no new tenure-track faculty member is hired, some courses will need to be taught by adjunct instructors.

E. Summarize effects deletion of program will have on budget of department: One faculty member in the Foreign Languages and Literature department has recently resigned. We do not have plans to fill that position, which was dedicated to teaching Russian 50% of the time. This immediately impacts the department budget for FY16.

Reduction of 0.5 F9 Faculty FTE @ $65,053 annually = $32,526 salary + $9,335 staff benefits.
Total: $41,861

TOTAL PERSONNEL REDUCTIONS: $41,861

The final offerings for the Russian language courses will also directly affect the budgetary impact of this change, as our enrollment in the offered courses may well decrease, which will result in a loss of tuition revenue for the department that cannot really be calculated at this time.

Minimum Requirements for Degree: 120 credits

Students majoring in Russian studies are encouraged to spend one or two semesters on an exchange program in Russia.

Major -- B.A. Degree

1. Complete the general university requirements.
2. Complete the B.A. degree requirements.
3. Complete the following:*

RUSS F201--Intermediate Russian I--4 credits

DocuSign Envelope ID: 0BBC1E5F-039C-4258-B37A-EA4D9855D66A

RUSS F202--Intermediate Russian II--4 credits
RUSS F301W,O--Advanced Russian--3 credits
RUSS F302W,O--Advanced Russian--3 credits
RUSS F432--Studies of Russian Literature--3 credits
4. Complete two of the following Russian studies core requirements:*
RUSS F431--Studies in Russian Culture--3 credits
RUSS F482--Selected Topics in Russian Literature--3 credits
RUSS F484--Russian and Soviet Cinema--3 credits
5. Complete 9 credits from the following Russian studies electives:*
ANTH F302--Ethnography of Siberia--3 credits
BA F460O--International Business--3 credits
ECON F463W--International Economics--3 credits
GEOG F306--Geography of Russia--3 credits
HIST F315--Europe: 1900-1945--3 credits
HIST F461--History of Alaska--3 credits
HIST F463--Imperial Russia, 1700-1917--3 credits
HIST F464--Soviet and Post-Soviet Russia--3 credits
PS F468W--Government and Politics of Russia--3 credits
6. Minimum credits required--120 credits

* Students must earn a C- grade or better in each course.

Note: Electives must include at least 12 upper-division credits. BA F460 and ECON F463 are recommended for students who are planning to minor in business administration. Please contact the business administration department for prerequisites.

In Process

Minor

1. Complete 15 credits from the Russian studies core or an advisor-approved combination from the Russian studies core and Russian studies electives.
2. Minimum credits required--15 credits

2. **Enrollment Information: Past and present enrollment statistics should be included:** Enrollments for the past 10 years are presented above. The number of graduates has been very small, totaling 4 in the past 5 years.

YEAR	DEGREE	MAJOR	# GRADUATES
2015	BA	RUST – Russian Studies	0
2014	BA	RUST – Russian Studies	1
2013	BA	RUST – Russian Studies	0
2012	BA	RUST – Russian Studies	1

UAF Regulations for the Appointment and Evaluations of Faculty And Geophysical Institute (GI) Unit Criteria, Standards, and Indices

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE GEOPHYSICAL INSTITUTE (GI) DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment.

Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles.

Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline.

C. Process for Appointment of Faculty with Academic Rank.

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall observe procedures for advertisement, review and selection of candidates to fill any vacant faculty positions. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank.

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies, and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the selection process.

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment.

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage

of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III.

Periodic Evaluation of Faculty

THOSE FACULTY OF THE GEOPHYSICAL INSTITUTE WHO HOLD A TENURE-TRACK JOINT APPOINTMENT WITH A UAF COLLEGE OR SCHOOL ARE EVALUATED UNDER THE UNIT CRITERIA OF THE RESPECTIVE COLLEGE OR SCHOOL.

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

BIPARTITE FACULTY MEMBERS AT THE GEOPHYSICAL INSTITUTE PREDOMINANTLY FILL POSITIONS PERFORMING IN THE RESEARCH AND SERVICE COMPONENTS OF THE UNIVERSITY'S MISSION, BUT MAY HAVE A TEACHING COMPONENT.

SPECIFIC SCIENCES CRITERIA FOR TEACHING PERFORMANCE:

BIPARTITE FACULTY WHO ENGAGE IN TEACHING AS AN OVERLOAD SHOULD NOT BE REQUIRED TO DO SO AS A CONDITION FOR EVALUATION OR PROMOTION. EVALUATIONS MUST BE CONSISTENT WITH AN

INDIVIDUAL FACULTY MEMBER'S WORKLOAD AGREEMENT. IF A RESEARCH FACULTY MEMBER HAS AN ASSIGNED TEACHING COMPONENT AS PART OF THEIR WORKLOAD, TEACHING SHOULD BE PART OF THE EVALUATION IN THE SAME PROPORTION AS IT IS TO THEIR WHOLE WORKLOAD FOR THE ENTIRE REVIEW PERIOD.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. ***WHEN EVALUATING THE QUALITY OF THE TEACHING, CONSIDERATION SHOULD BE GIVEN TO THE NATURE OF THE COURSE.*** Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

h. DEMONSTRATE EFFECTIVE MENTORING OF UNDERGRADUATE AND/OR GRADUATE STUDENTS.

2. **Components of Evaluation**
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

SPECIFIC CRITERIA FOR TEACHING PERFORMANCE:

- **ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO A QUALITY AND CURRENT TEACHING PROGRAM. STUDENT EVALUATIONS AND SUMMARY STATISTICS SHOULD SHOW THAT THE MAJORITY OF STUDENTS RATE COURSES FAVORABLY, AND, IF NOT, THERE SHOULD BE A DEFINITE UPWARD TREND SHOWING IMPROVEMENT OVER TIME. COURSE MATERIALS SUCH AS SYLLABI, EXAMS, PROJECTS AND HOMEWORK SHOULD REFLECT THE COURSE DESCRIPTION AND BE CONTEMPORARY. THE FACULTY MAY PROVIDE EVIDENCE FOR ACTIVE SUPPORT OF STUDENT RESEARCH AT THE UNDERGRADUATE AND/OR GRADUATE LEVEL.**

- **ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE TEACHING MATERIAL IS CONTEMPORARY AND RELEVANT AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE, BUT IS NOT LIMITED TO, COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, VERSATILITY IN INSTRUCTIONAL ASSIGNMENTS, EFFECTIVE GUIDING AND MENTORING OF INDIVIDUAL STUDENTS, OR HIGH QUALITY STUDENT OR OTHER TEACHING**

EVALUATIONS (E.G. PEER-EVALUATION). THE RECORD MAY ALSO SHOW ACTIVE AND SUCCESSFUL MENTORSHIP IN RESEARCH AT THE UNDERGRADUATE AND/OR GRADUATE LEVEL. SUCH MENTORSHIP CAN INCLUDE MEMBERSHIP ON GRADUATE ADVISORY COMMITTEES.

- **PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE CONTRIBUTIONS MAY INCLUDE MAJOR IMPROVEMENTS IN COURSE AND CURRICULUM OFFERINGS, SECURING FUNDS TO ENHANCE INSTRUCTIONAL AND/OR LABORATORY SETTINGS, LEADERSHIP IN DEPARTMENTAL LEVEL CURRICULUM CORE REVISIONS, STUDENT LEARNING OUTCOME ASSESSMENTS, STUDENT ADVISING, AND MENTORING OF GRADUATE STUDENTS TO THE COMPLETION OF THEIR DEGREE. THE FACULTY MUST SHOW A CONSISTENT RECORD OF HIGH-QUALITY TEACHING.**

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and

publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, ***SUPPORT RESEARCH AND/OR CONTRIBUTE TO THE SUPPORT AND DEVELOPMENT OF RESEARCH PARTNERSHIPS AND RESEARCH FACILITIES, COLLABORATIONS AND CAMPAIGNS,*** these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving ***RESEARCH*** *problems, such as computer programs, and systems for the processing of data,* ***SAMPLE PREPARATION,*** genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***MENTORING STUDENTS IN RESEARCH AND LABORATORY TECHNIQUES.***

n. ***CONDUCTING EXPERIMENTS AND PRODUCING SCIENTIFIC DATA USED IN SCHOLARLY PUBLICATIONS.***

SPECIFIC CRITERIA FOR RESEARCH PERFORMANCE:

- **ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE AREA OF SPECIALIZATION, NORMALLY A SUB-DISCIPLINE OF THE NATURAL SCIENCES (WITH THE OPTION OF RESEARCH IN SCIENCE EDUCATION). THIS SHOULD INCLUDE SEVERAL OF THE FOLLOWING:**
  - **PEER-REVIEWED PUBLICATIONS FROM RESEARCH PERFORMED AT LEAST IN PART DURING THEIR CURRENT APPOINTMENT**
  - **PROPOSALS THAT WERE EITHER FUNDED OR RECEIVED FAVORABLE REVIEWS.**
  - **RECRUITING GRADUATE AND/OR UNDERGRADUATE RESEARCH STUDENTS**
  - **ACQUIRING DATA THAT PROMISES TO RESULT IN PUBLICATIONS**
  - **ESTABLISHING A PROFESSIONAL REPUTATION THAT DEMONSTRATES VISIBILITY IN THE SCIENTIFIC COMMUNITY**
  - **PRESENTATIONS SUCH AS TALKS OR POSTER PRESENTATIONS AT SCIENTIFIC MEETINGS**

- **ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM. THE FACULTY MEMBER SHOULD SHOW INDEPENDENCE AND LEADERSHIP BY THE CREATION OF RESEARCH IDEAS THAT TRANSLATE INTO PROJECTS THAT MAY INVOLVE POST-DOCTORAL FELLOWS, GRADUATE AND UNDERGRADUATE STUDENTS. EXAMPLES FOR SUCH A SUCCESSFUL RESEARCH PROGRAM MAY INCLUDE:**
  - **PUBLICATIONS IN REFEREED PROFESSIONAL JOURNALS, OR EQUIVALENT, DEMONSTRATING SIGNIFICANT SCIENTIFIC CONTRIBUTIONS. IT IS IMPORTANT FOR THE FACULTY MEMBER TO CLEARLY DISCUSS THE IMPORTANCE OF THEIR SCIENTIFIC CONTRIBUTIONS IN THE NARRATIVE.**
  - **PUBLICATION OF DISCIPLINE-RELEVANT DATA AND METADATA, CONTRIBUTION TO CYBER INFRASTRUCTURE, OR CONTRIBUTING TO PUBLICLY AVAILABLE COMPUTER MODELS**
  - **PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS**
  - **LEADERSHIP IN PREPARATION AND SUBMISSION OF RESEARCH PROPOSALS**
  - **ACQUISITION OF EXTERNAL RESEARCH FUNDING**

- **HAVING DEMONSTRATED SUCCESSFUL MENTORING OF GRADUATE AND/OR UNDERGRADUATE STUDENTS IN THE FACULTY'S FIELD OF EXPERTISE WHICH CAN BE DEMONSTRATED FOR INSTANCE BY GRADUATING THE STUDENT, STUDENT PRESENTATIONS AND PUBLICATIONS, STUDENT AWARDS OR GRANT SUCCESS, PROFESSIONAL PLACEMENT OF STUDENTS AFTER GRADUATION.**

➢ **PROFESSOR: THE RESEARCH PROGRAM SHOULD HAVE PRODUCED A SUFFICIENT QUALITY AND QUANTITY OF PUBLICATIONS TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM. THERE COULD BE A RECORD OF STUDENT INVOLVEMENT INCLUDING SUCCESSFUL MENTORING OF GRADUATE AND/OR UNDERGRADUATE STUDENTS. IT IS EXPECTED THAT THE FACULTY MEMBER SHOULD HAVE ATTAINED AN INTERNATIONAL REPUTATION (AS DEMONSTRATED BY PROFESSIONAL ACTIVITIES OR PRESENTATIONS AT MEETINGS AND BY CITATIONS OF PUBLICATIONS OR DOCUMENTED OPINIONS OF OTHER SCIENTISTS IN THE FIELD). EVIDENCE OF QUALITY PUBLICATIONS MAY INCLUDE DATA CONCERNING:**
  - **EXTERNAL REVIEWS STATING THE PAPERS MADE MAJOR CONTRIBUTIONS**
  - **INVITED TALKS AND BOOK CHAPTERS**
  - **PROFESSIONAL AWARDS**

WITHIN MANY DISCIPLINES IT IS COMMON FOR THE PRIMARY AUTHOR TO BE LISTED LAST (OFTEN AS THE CORRESPONDING AUTHOR); IT IS ALSO CONSIDERED FAVORABLE FOR STUDENTS TO BE INCLUDED AS COAUTHORS OR FIRST AUTHORS. THEREFORE IN EVALUATING RESEARCH PERFORMANCE IN PUBLICATION THE NUMBER OF FIRST OR SOLE AUTHORSHIPS SHOULD NOT BE GIVEN ADDITIONAL WEIGHT. FURTHERMORE IT IS ESSENTIAL THAT THE FACULTY MEMBER CLARIFIES IN THEIR NARRATIVE THEIR ROLE AND RESEARCH/CREATIVE/SCHOLARLY CONTRIBUTIONS IN ALL COLLABORATIVE EFFORTS, INCLUDING MULTI-AUTHORED PUBLICATIONS.

D. Criteria for Public and University Service AND PROFESSIONAL SERVICE

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial

obligation for the internal functioning of the institution; such service is identified as "university service."

1. **Public Service**
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting.

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

   i. Training and facilitating.

   j. Radio and TV program ***CONTRIBUTIONS, INCLUDING INTERVIEWS,*** newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

   l. ***PROVIDING TOURS OF RESEARCH FACILITIES TO THE GENERAL PUBLIC (MAY ALSO BE COUNTED AS UNIVERSITY OR PROFESSIONAL SERVICE DEPENDING ON THE AUDIENCE).***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, ***RESEARCH GROUP***, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***INCLUDING SERVING AS NEW FACULTY MENTORS.***

j. Prizes and awards for excellence in university service.

k. ***SERVING ON COMMITTEES THAT REPRESENT THE UNIVERSITY AT OTHER PROFESSIONAL INSTITUTIONS.***

l. ***MANAGEMENT AND DIRECTION OF RESEARCH FACILITIES AND INFRASTRUCTURE THAT MAY INCLUDE DEVELOPMENT OF RESEARCH PARTNERSHIPS, RESEARCH EXPEDITIONS AND RESEARCH AND CAMPAIGNS AND MAINTAINING SCIENTIFIC EQUIPMENT.***

m. ***CURATING SAMPLES AND DATA AND/OR THE MANAGEMENT AND DEVELOPMENT OF FORMALLY RECOGNIZED UNIVERSITY COLLECTIONS THAT SERVE AS RESEARCH RESOURCES FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL AND INTERNATIONAL LEVELS.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

g. ***SERVING AS A MENTOR/ADVISOR, COMMITTEE MEMBER OR EXTERNAL EXAMINER FOR STUDENTS AT OTHER INSTITUTIONS.***

4. **Evaluation of Service**
Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university, ***AND PROFESSIONAL*** service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

MEASURES OF EFFECTIVENESS OF SERVICE PERFORMANCE INCLUDE (BUT ARE NOT LIMITED TO):

- **ACCOMPLISHMENTS OF THE EFFORT OF ORGANIZATION TO WHICH SERVICE WAS PROVIDED.**
- **OFFICIAL RECOGNITION OF QUALITY OF SERVICE (E.G., AWARDS, LETTERS OF RECOMMENDATION).**
- **OPINIONS OF CLIENTS SERVED AND/OR COLLEAGUES INVOLVED IN DELIVERY OF SERVICE.**

SPECIFIC CRITERIA FOR SERVICE PERFORMANCE:

- **ASSISTANT PROFESSOR: NONE IN ADDITION TO UAF CRITERIA.**
- **ASSOCIATE PROFESSOR: POSITIVE CONTRIBUTION TO RESEARCH GROUP AND/OR UNIVERSITY MATTERS,**

EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICE TO THE PROFESSION ARE EXPECTED.

- **<u>PROFESSOR:</u> EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS MANDATORY. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF RESEARCH GROUP L AND/OR UNIVERSITY PROGRAMS ARE EXPECTED, INCLUDING SERVICE TO THE GENERAL PUBLIC AND/OR ALASKAN TEACHERS.**

The UAF Faculty Senate passed the following at Meeting #212 on February 8, 2016 (with one clarification to the note in the requirements):

MOTION:

The UAF Faculty Senate moves to approve a new minor in Art History, housed in the CLA Art Department.

Effective: Fall 2016

Rationale: The Art History minor is proposed out of student interest. All the courses exist and are being taught. Increased enrollment in the courses would likely result. See the program proposal #52-UNP on file in the Governance Office, 312B Signers' Hall.

****

Debasmita Mitra
President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/22/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

The Art History minor prepares students to critically analyze and interpret our artistic heritage. Students will receive an overview of the history of art through our World History of Art classes and then delve more specifically into different areas in upper division classes. Currently art history classes are required for the art major and minor but there is no opportunity for students to specialize in the academic study of art. This minor is being created due to student interest.

The classes already exist and are being taught. No additional costs will be incurred by adding this minor.

Proposed Minor Requirements:

Art History Minor: (minimum 15 credits)*

1. Complete the following:
   ART F261- History of World Art - 3 credits
   ART F262 - History of World Art - 3 cred its

2. Complete two of the following:
   ART F363W - History of Modern Art - 3 credits
   ART F364W - I talian Renaissance Art - 3 credits
   ART F365W - Native Art of Alaska -3 credits

3. Complete the following:
   ART F463 - Seminar in Art History - 3 credits (repeatable as long as it is not the same topic)
   - These seminars are currently rotating through European Avant-Garde, Contemporary Art, History of Photography and History of Graphic Design

   * Student must earn a C grade or better in each course

   Note: A minor in art history is currently ***only*** available for non-art majors.

Relationship to Purposes of the University:

This minor is being created due to student interest. Currently there are several students working on Interdisciplinary Degrees that include Art History as one of the components. They, and others, have expressed dismay that there is no way to receive a formal major or minor in Art History. This minor would also have the secondary benefit of increasing enrollment in the Art Department.

The UAF Faculty Senate passed the following at Meeting #212 on February 8, 2016:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Computer Information Technology Specialist, housed in the Information Technology Specialist Department at UAF-CTC.

Effective: Fall 2016

Rationale: The new minor will enhance student skills for the workplace. All the courses are currently taught, and interest could be increased in the certificate and associates programs, as well. See the program proposal #40-UNP on file in the Governance Office, 312B Signers' Hall.

****

Debasmita Misra
President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/22/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

The Computer Information Technology Specialist Minor teaches students foundation-level support skills required in small to medium organization settings. In the world of technology ITS knowledge is useful for any profession. The courses proposed set the foundation for all information technology specialist needs. Students can continue on to earn a certificate or an associates in ITS. The courses are currently being taught for the certificate and associates programs.

Proposed Minor Requirements:

Minor

1. Complete the following:

CITS 204 Introduction to Network Support and Administration	3 credits
CITS 212 Server Operating Systems	3 credits
CITS 261 Computer and Information Security	3 credits

Complete two CITS Elective Courses

2. Minimum credits required 15 credits

Relationship to Purposes of the University:

A minor in Computer Information Technology allows students from all disciplines to increase their employability from the knowledge gained by these courses. IT personnel are highly sought in all industries and fields of study. Adding a CITS minor will also help to increase student enrollment in the ITS program.

The UAF Faculty Senate passed the following at Meeting #212 on February 8, 2016:

MOTION:

The UAF Faculty Senate moves to approve a new Master's of Arts Program in Marine Science, housed in the School of Fisheries and Ocean Sciences, Graduate Program in Marine Sciences and Limnology.

Effective: Fall 2016 upon all required approvals.

Rationale: Globally and locally, the ocean is changing, and harvest and development, such as oil and gas, are both increasing. There is increasing demand for trained scientists at various education levels, including professionals who have broad training at a graduate level, but who do not need in-depth research experience. While there are a variety of ocean-related degrees offered in Alaska and across the nation, currently no M.A. in any marine science field is offered at any institution in Alaska. The M.A. will complement existing degree programs by providing secondary education for professionals such as teachers, agency and industry employees. A Master of Arts in Marine Science would fill a niche for students who want an advanced degree understanding of marine sciences to promptly join the workforce, but do not have career goals that require undertaking original scientific research, as is done when completing M.S.-level thesis research. Recently, the interest in an MA degree in Marine Science has risen, and currently the only option for students is to receive a Master of Arts in a Marine Science-related topic through Interdisciplinary Studies. Letters of support from potential employers attest that students with an M.A. in Marine Science are in demand in Alaska now. The proposed M.A. in Marine Science will be offered by existing faculty currently involved in the Master of Science programs in Marine Biology and Oceanography, with the three curricula sharing many courses. Thus, this program will increase enrollment in existing courses and enhance revenue without increased costs, and will meet employment needs in the state of Alaska.

See the program proposal #11-GNP on file in the Governance Office, 312B Signers' Hall.

Debasmita Misra
President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/22/16
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

Brief Statement of Program:

We envision a new graduate degree within SFOS/GPMSL, a M.A. in Marine Science. This degree will be offered by existing faculty currently involved in the Master of Science programs in Marine Biology and Oceanography, with the three curricula sharing many courses. The M.A. will differ from the two existing M.S. degrees in that it will require a larger number of elective courses to allow students to focus on coursework that is in line with their interests, while at the same time provide students with knowledge in a broad range of subject matters. The M.A. degree will place less emphasis on attaining in-depth knowledge of the scientific process through independent research; rather, students will select either a smaller project or a comprehensive literature review instead of completing a research thesis. Producing M.S. theses requires a significant investment of time and financial support. In GPMSL, most M.S. students receive stipends and tuition waivers that allow them to work full-time on their degrees. These are funded through their advisor's external grants or through competitive fellowships. In many cases, research projects are very time consuming, and additional time spent seeking funding for research expenses can also prolong the time to completion of the degree. In the last 25+ years, GPMSL M.S. programs in Marine Biology and Oceanography have graduated 125 students. Of these students, only 7% graduated in two years or less, with 39% graduating in three years or less. However, many students have taken longer to graduate, with 17% of these 125 graduates taking over five years to complete their degrees. A Master of Arts in Marine Science would fill a niche for students who want an advanced degree understanding of marine sciences to promptly join the workforce, but do not have career goals that require undertaking original scientific research as is done when completing M.S.-level thesis research. Recently, the interest in an MA degree in Marine Science has risen, and currently the only option for students is to receive a Master of Arts in a Marine Science related topic through the Interdisciplinary Studies Department. Offering a Master of Arts in Marine Science through GPMSL would provide a focused option for students who are not interested in a more general Interdisciplinary Studies degree.

This M.A. degree program is intended for college graduates and working professionals to pursue further study in marine sciences. The program will provide broadened and scholarly perspectives in the broad fields of marine biology and oceanography, sustainable use of ocean resources, and related societal impacts. This degree is designed to be relevant to those pursuing careers in a broad range of sectors, including (but not limited to) teaching, government policy, and industry.

Objectives:
The objective of this proposed Master of Arts in Marine Science degree program is to provide students with the knowledge base to be highly competitive in obtaining positions or advancing their careers in state and federal management agencies and /or related industries in Alaska and elsewhere. In meeting this need, the University of Alaska Fairbanks will become the University of Choice for educating today's marine science experts. As one of the premier Arctic Ocean sciences programs in the nation, the UAF School of Fisheries and Ocean Sciences Graduate Program in Marine Science and Limnology will educate the professionals who will work to oversee the sustainability of Alaska's healthy oceans in the face of changing climate and increased human impact. This proposed degree program will increase student recruitment and retention at UAF. It will also support the many agencies and industries with an interest in the health and sustainability of our ocean.

Career Opportunities:
Graduates who complete the Master of Arts in Marine Science degree would be competitive for a wide variety of agency, industry, and private sector positions, particularly within the State of Alaska. For example, graduates would be qualified for entry-level positions in government agencies such as the U.S. Fish and Wildlife Service, U.S. Geological Survey, National Ocean and Atmospheric Administration,

Bureau of Ocean Energy Management, etc. A student with a M.A. in Marine Science would have an academic advantage over those with undergraduate degrees in applying for these highly competitive positions.

The proposed new program will prepare students for success in a competitive job market by providing a more advanced curriculum than can be obtained in an undergraduate program. Students may be attracted to the M.A. as an alternative to the existing M.S. because completion of a research-based thesis project might not be necessary for their career goals, and following a path that does not require rigorous, time-consuming research would allow them flexibility to continue working on their current job and complete their degree relatively promptly. We envision students will be able to complete the degree within two years, compared to the average completion time of four years for our M.S. graduates because M.A. students will obtain their science communication and research synthesis skills through a small project or a literature review instead of through independent research, and external funding will not be necessary while in the program. The M.A. degree will better prepare students for the above-mentioned post-graduation employment possibilities quickly and inexpensively, make them more marketable than baccalaureate graduates and, consequently, produce employable students. The unique program that we propose to deliver will prepare our M.A. graduates for the specific requirements associated with the Alaska agencies and organizations listed above, and would also make them well qualified for similar jobs throughout North America.

Proposed Requirements and Catalog Layout:

The Master of Arts (M.A.) degree in marine science offers a broad degree program, which can include topics such as marine ecology, organismal biology, ecosystem processes, and oceanography. Students will select courses offered by the graduate program in marine sciences and limnology, and a variety of electives, which can also be from the fisheries program or the statistics or biology and wildlife departments. While the M.A. degree is primarily based on a project instead of a research-oriented thesis, M.A. graduate students still are afforded excellent opportunities for laboratory and field experiences through the Institute of Marine Science. Laboratory facilities are available in Fairbanks, the Seward Marine Center, the Juneau Center, and at the Kasitsna Bay Laboratory.

Students considering an M.A. in marine science should have a strong background in the various fields of oceanography, ecology, biology, molecular biology or biochemistry. Students are admitted on the basis of their ability and the capability of the program to meet their particular interests and needs. Faculty review requests for admission throughout the year. There is no financial support for students in this program.

M.A. Degree

1. Complete the following admission requirement:
    a. Submit GRE scores.
2. Complete the general university requirements.
3. Complete the master's degree requirements, including a comprehensive exam
4. Complete a project or literature review.
5. Complete a minimum of 12 credits from the following*:
   MSL F419--Concepts in Physical Oceanography—3 credits
   MSL F610--Marine Biology--3 credits
   MSL F615--Physiology of Marine Organisms--3 credits

MSL F650--Biological Oceanography--3 credits
MSL F620 or MSL 419--Physical Oceanography – 4 credits
MSL F630--Geological Oceanography – 3 credits
MSL F640--Fisheries Oceanography – 4 credits
MSL F660--Chemical Oceanography – 3 credits

6. Complete 2 credits of graduate seminars
   MSL 692--IMS Seminar
   MSL F601--Professional Development
   MSL F602--Proposal Writing
   MSL F605--Controversies in Science
7. Complete 2 credits of practical experience at either the 400 or 600 level. These may be independent studies or regularly scheduled classes such as:
   MSL F421/623--Field Course in Subtidal Ecology
   MSL F450/651--Marine Biology and Ecology Field Course
   MSL F456/656--Kelp Forest Ecology
   MSL F625--Shipboard Techniques
8. Complete 6 credits of graduate project or literature review. To be determine by the major advisor and student.
9. Complete 8 credits of electives. Electives will be selected based on student interest, relatedness to degree and approval by their major advisor.

Minimum credits required--30 credits
* Students must earn a B- grade or better in the core courses of the degree program before being eligible to take the comprehensive exam.

See next pages for the Resource Commitment Form, and the BOR Program Action Summary.

Resource Commitment Form

RESOURCE COMMITMENT TO THE PROPOSED DEGREE PROGRAM

Resources	Existing	New		Total
	College/School	College/School	Others (Specify)	
Regular Faculty (FTE's & dollars)	$ 5,006,900 # 55	None needed	None needed	$ 5,006,900 # 55
Adjunct Faculty (FTE's & dollars)	$ 0 # 5	None needed	None needed	$ 0 # 5
Teaching Assistants (Headcount)	$ 88,100 # 5	None needed	None needed	$ 88,100 # 5
Instructional Facilities (in dollars and/or sq. footage)	2232 sq ft	None needed	None needed	2232 sq ft
Office Space (Sq. footage)	16,755 sq ft	None needed	None needed	16,755 sq ft
Lab Space (Sq. Footage)	19,406 sq ft	None needed	None needed	19,406 sq ft
Computer & Networking (in dollars)	$ 64,900	None needed	None needed	$ 64,900
Research/ Instructional/ office Equipment (in dollars)	$ 232,500	None needed	None needed	$ 232,500
Support Staff (FTE's & dollars)	$ 4,381,651 # 85	None needed	None needed	$ 4,381,651 # 85
Supplies (in dollars)	$ 220,500	None needed	None needed	$ 220,500
Travel (in dollars)	$ 148,900	None needed	None needed	$ 148,900

Board of Regents Program Action Request
University of Alaska
Proposal to Add, Change, or Delete a Program of Study

1a. UA University (choose one) UAF	1b. School or College School of Fisheries and Ocean Sciences	1c. Department or Program Graduate Program in Marine Sciences and Limnology

2. Complete Program Title MA in Marine Science

3. Type of Program

☐ Undergraduate Certificate ☐ Associate ☐ Baccalaureate ☐ Post-Baccalaureate Certificate

☒ Master's ☐ Graduate Certificate ☐ Doctorate

4. Type of Action

☒ Add ☐ Change ☐ Delete

5. Implementation date (semester, year)

☒ Fall ☐ Spring ☐ Summer Year 2016

6. Projected Revenue and Expenditure Summary. Not Required if the requested action is deletion.
(Provide information for the 5th year after program or program change approval if a baccalaureate or doctoral degree program; for the 3rd year after program approval if a master's or associate degree program; and for the 2nd year after program approval if a graduate or undergraduate certificate. If information is provided for another year, specify (1st) and explain in the program summary attached). Note that Revenues and Expenditures are not always entirely new; some may be current (see 7d.)

Projected Annual Revenues to the University in FY 2019		Projected Annual Expenditures in FY 2019	
Unrestricted		Salaries & benefits (faculty and staff)	$
General Fund	$	Other (commodities, services, etc.)	$
Student Tuition & Fees	$146K	TOTAL EXPENDITURES	$ no additional
Indirect Cost Recovery	$	One-time Expenditures to Initiate Program (if >$250,000)	
TVEP or Other (specify):	$	(These are costs in addition to the annual costs, above.)	
Restricted		Year 1	$0
Federal Receipts	$	Year 2	$0
TVEP or Other (specify):	$	Year 3	$0
TOTAL REVENUES	$146K	Year 4	$0

Page # of attached summary where the budget is discussed, including initial phase-in: 32: (based on 6 in-state and 6 out-of state students at FY17 tuition rates). If calculated for the mature program of 20 students, tuition=$243K

7. Budget Status. Items a., b., and c. indicate the source(s) of the General Fund revenue specified in item 6. If any grants or contracts will supply revenue needed by the program, indicate amount anticipated and expiration date, if applicable.

Revenue source	Continuing	One-time
a. In current legislative budget request	$0	$0
b. Additional appropriation required	$0	$0
c. Funded through new internal UA university redistribution	$0	$0
d. Funds already committed to the program by the UA university[1]	$0	$0
e. Funded all or in part by external funds, expiration date	$0	$0
f. Other funding source Specify Type:	$0	$0

8. Facilities: New or substantially (>$25,000 cost) renovated facilities will be required. ☐ Yes ☒ No

If yes, discuss the extent, probable cost, and anticipated funding source(s), in addition to those listed in sections 6 and 7 above.

[1]Sometimes the courses required by a new degree or certificate program are already being taught by a UA university, e.g., as a minor requirement. Similarly, other program needs like equipment may already be owned. 100% of the value is indicated even though the course or other resource may be shared.

9. Projected enrollments (headcount of majors). If this is a program deletion request, project the teach out enrollments.

Year 1: 4	Year 2: 8	Year 3: 12	Year 4: 16

Page number of attached summary where demand for this program is discussed: 2-3

10. Number* of new TA or faculty hires anticipated (or number of positions eliminated if a program deletion):

Graduate TA	0
Adjunct	0
Term	0
Tenure track	0

11. Number* of TAs or faculty to be reassigned:

Graduate TA	0
Adjunct	0
Term	0
Tenure track	0

Former assignment of any reassigned faculty: 0
For more information see page (n/a) of the attached summary.

12. Other programs affected by the proposed action, including those at other MAUs (please list):

Program Affected	Anticipated Effect
Interdisciplinary Studies	Fewer students would receive a M.A. in a marine science related field through Interdisciplinary Studies if this specific degree were available.

Page number of attached summary where effects on other programs are discussed: 3

13. Specialized accreditation or other external program certification needed or anticipated. List all that apply or 'none': none

14. Aligns with University or campus mission, goals, core themes, and objectives (list):
-Promote UAF as Alaska's premier research enterprise in partnership with state and federal agencies, industry, Alaska Native organizations, and civic groups;
-Serve Alaska's diverse communities in ways that are increasingly responsive and accessible and enhance the social, economic, and environmental well-being of individuals and communities;
-Create or expand graduate programs in targeted areas of identified need and existing strengths;
-Enhance UAF's competitive advantage by attracting and keeping the best and brightest students, staff, faculty;
-Develop innovative approaches to managing University resources to support its mission and position it to meet challenges of the future.

Page in attached summary where alignment is discussed: 1-2

15. Aligns with Shaping Alaska's Future themes:

Page in attached summary where alignment is discussed: 1

16. Aligns with Academic Master Plan goals:

Page in attached summary where alignment is discussed: 2

17. State needs met by this program (list): Currently there is no MA in Marine Science in Alaska. This program would produce students with a broad knowledge base that would be useful to many entities (see letters). Students enrolled in this program have the opportunity to focus on topics of interest.

Page in the attached summary where the state needs to be met are discussed: 3

18. Program is initially planned to be: (check all that apply)

☒ Available to students attending classes at UAF campus(es).
☐ Available to students via e-learning.
☐ Partially available students via e-learning.

	Page # in attached summary where e-learning is discussed:

Submitted by the University of Alaska Fairbanks.
(choose one above)

_____/_____ _____/_____
Provost Date Chancellor Date

☐ Consensus Support of SAC ☐ Not Supported by SAC

☐ Recommend Approval by VPAAR
☐ Recommend Disapproval by VPAAR _____/_____
UA Vice President for Academic Affairs Date

*Net FTE (full-time equivalents). For example, if a faculty member will be reassigned from another program, but his/her original program will hire a replacement, there is one net new faculty member. Use fractions if appropriate. Graduate TAs are normally 0.5 FTE. The numbers should be consistent with the revenue/expenditure information provided.

Revised: 04/20/2015

The UAF Faculty Senate passed the following at Meeting #212 on February 8, 2016:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Center of Cross-Cultural Studies.

EFFECTIVE: Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted from the Center of Cross-Cultural Studies. With some revisions, the unit criteria were found to be consistent with UAF guidelines.

UNIVERSITY OF ALASKA FAIRBANKS
REGULATIONS FOR THE EVALUATION OF FACULTY
AND
CENTER FOR CROSS-CULTURAL STUDIES
(CXCS)
UNIT CRITERIA, STANDARDS AND INDICES

MISSION

MISSION: THE MISSION OF THE CENTER FOR CROSS-CULTURAL STUDIES IS TO DRAW AND BUILD UPON THE ACADEMIC AND RESEARCH CAPABILITIES AT UAF TO OFFER AN INTEGRATED COURSE OF ADVANCED GRADUATE STUDY THAT ADDRESSES LONG-STANDING ISSUES OF CONCERN TO THE STATE, THE NATION AND THE WORLD. THE PROGRAM CONSISTS OF AN MA IN CROSS-CULTURAL STUDIES AND A PHD IN INDIGENOUS STUDIES, EACH WITH A COMMON CORE CURRICULUM THAT ALL STUDENTS COMPLETE, COUPLED WITH SIX THEMATIC AREAS OF EMPHASIS FROM WHICH STUDENTS CHOOSE A CONCENTRATION: INDIGENOUS RESEARCH; INDIGENOUS KNOWLEDGE SYSTEMS; INDIGENOUS EDUCATION; INDIGENOUS LANGUAGES; INDIGENOUS LEADERSHIP; AND INDIGENOUS SUSTAINABILITY.

THE SPECIFIC SKILL SET OF THE GRADUATES WILL INCLUDE QUANTITATIVE ANALYSIS, SCIENTIFIC APPLICATIONS, QUALITATIVE RESEARCH METHODS, RESEARCH DESIGN AND PROGRAM MANAGEMENT, ALONG WITH BROAD CONCEPTUAL FRAMEWORKS FOR UNDERSTANDING THE DYNAMICS OF SOCIAL-CULTURAL-ECOLOGICAL SYSTEMS.

DELIVERY METHOD: THE PROGRAM WILL BE OFFERED THROUGH A VARIETY OF FLEXIBLE COURSE DELIVERY METHODS TO STUDENTS LIVING THROUGHOUT ALASKA AND BEYOND. THE PROGRAM OFFERS A FULL COMPLEMENT OF CAMPUS-BASED, E-LEARNING AND DISTANCE EDUCATION COURSES CONSISTENT WITH THE STANDARDS OF ADVANCED GRADUATE STUDY AT UAF.

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE CROSS-CULTURAL STUDIES DEPARTMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF).

Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, **AND CXCS UNIT CRITERIA, STANDARDS AND INDICES**, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design; **AND DEMONSTRATE ABILITY TO TEACH EFFECTIVELY THROUGH THE SIMULTANEOUS USE OF MORE THAN ONE DELIVERY METHOD, E.G., COURSES WITH STUDENTS IN A FACE-TO-FACE CLASSROOM WITH THE INSTRUCTOR AND THOSE IN ATTENDANCE VIA OTHER MEANS OF DISTANCE DELIVERY AT THE SAME TIME;**

g. may receive prizes and awards for excellence in teaching.

SPECIFIC CXCS CRITERIA FOR TEACHING FOR APPOINTMENT OR PROMOTION TO;

A. **ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AS WELL AS COMMITMENT TOWARD CONTINUAL IMPROVEMENT IN AREAS INVOLVING DISTANCE DELIVERY AND ONLINE LEARNING MUST BE PROVIDED.**
B. **ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE MATERIAL TAUGHT IS CONTEMPORARY AND RELEVANT, AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTION MAY INCLUDE, BUT IS NOT LIMITED TO, COURSE AND/OR CURRICULUM DEVELOPMENT, INNOVATIVE APPROACHES TO INSTRUCTION EFFECTIVE GUIDING AND MENTORING OF STUDENTS, AND EFFECTIVE TEACHING PERFORMANCE IN CLASSROOM SETTINGS AND BY DISTANCE DELIVERY MODALITIES, THERE MUST BE EVIDENCE OF SUPERVISION OF GRADUATE STUDENT RESEARCH AS A MAJOR COMMITTEE CHAIR/MEMBER.**
C. **PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE MAY INCLUDE, BUT ARE NOT LIMITED TO CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND OR CURRICULUM OFFERINGS. DEVELOPMENT OF NEW COURSES AND/OR DELIVERY APPROACHES ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS, AND EXEMPLARY TRAINING OF GRADUATE STUDENTS. THERE SHOULD BE A RECORD OF SUCCESSFUL COMPLETION OF GRADUATE WORK BY HIS OR HER STUDENTS. IT IS EXPECTED THAT ASSESSMENT OF TEACHING BY STUDENTS AND FACULTY WILL DEMONSTRATE CONSISTENTLY HIGH QUALITY PERFORMANCE.**

2. **Components of Research, Scholarly and Creative Activity**
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, **NEEDS ASSESSMENTS, PROGRAM EVALUATIONS, ANNOTATED BIBLIOGRAPHIES, TRANSLATIONS / TRANSCRIPTIONS,** proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers **OR OTHER APPROPRIATE JUDGES, SUBMISSION OF RESEARCH PROPOSALS AND/OR THE COMPLETION OF CONTRACTED RESEARCH REPORTS TO AGENCIES AND FUNDING SOURCES, FORMAL PRESENTATIONS OF RESEARCH FINDINGS TO ALASKA NATIVE ORGANIZATIONS SUCH AS THE ALASKA FEDERATION OF NATIVES, REGIONAL CORPORATIONS, TRIBAL COUNCILS, RESULTS OF COMMUNITY-BASED RESEARCH AS REPORTED TO COMMUNITY ENTITIES, DEVELOPMENT OF PLANNING PROCESSES REVIEWED BY COMMUNITY BOARDS, DRAFTING AND SUBMITTING REGULATORY PROPOSALS ON BEHALF OF PARTNER COMMUNITIES, ETC.**

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, **ESPECIALLY IN THOSE PRODUCTIONS THAT PRESENT INDIGENOUS MATERIALS INCLUDING THEATER/DRAMA/FESTIVAL OF NATIVE ARTS/CAMA-I, AND OTHER STATEWIDE FESTIVALS, THE** selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications. **AND PUBLICATIONS OF SPECIAL INTEREST TO INDIGENOUS CONSTITUENTS.**

h. Published abstracts of research papers.

i. Reprints or quotations of publications, **CATALOGING AND ARCHIVING DATA COLLECTIONS OF DANCE/PERFORMANCE VIDEO AND AUDIO/DVD'S,** reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline,

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

M. NON-REFEREED JOURNAL ARTICLES AND MONOGRAPHS INCLUDING AUTHORSHIP OF A BOOK OR MAJOR REFERENCE IN THE FACULTY MEMBER'S AREA OF SCHOLARLY ACTIVITY.

SPECIFIC CRITERIA FOR RESEARCH PERFORMANCE FOR PROMOTION OR APPOINTMENT TO:

A. ASSISTANT PROFESSOR: EVIDENCE OF ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE FACULTY MEMBERS AREA OF SPECIALIZATION.

B. ASSOCIATE PROFESSOR: THE FACULTY MEMBER MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM THAT PRODUCES SATISFACTORY PUBLICATIONS IN SOME OR ALL OF THE CXCS FIELDS OF STUDY AND HAVE PRESENTED RESEARCH RESULTS AT PROFESSIONAL MEETINGS AND OTHER PUBLIC FORUMS. SUBMISSION OF RESEARCH PROPOSALS AND ACQUISITION OF EXTERNAL RESEARCH FUNDING, THE COMPLETION OF CONTRACT RESEARCH REPORTS, AND PUBLICATION IN CONFERENCE PROCEEDINGS THAT CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE RESEARCH PROGRAM IS OF HIGH QUALITY. THE FACULTY MEMBER MUST SHOW INDEPENDENT LEADERSHIP BY THE CREATION OF RESEARCH IDEAS THAT INVOLVE STUDENT PARTICIPATION.

C. PROFESSOR: FACULTY RESEARCH PROGRAMS SHOULD PRODUCE PUBLICATION IN REFEREED PROFESSIONAL LITERATURE AS WELL AS OTHER PUBLICATIONS NOTED IN A THOROUGH REVIEW, AND THERE SHOULD BE A RECORD OF STUDENT AND/OR JUNIOR FACULTY INVOLVEMENT. THE PUBLICATIONS SHOULD BE OF SUFFICIENT QUALITY AND QUANTITY TO DEMONSTRATE THE EXISTENCE OF AN ONGOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM. ADDITIONAL EVIDENCE SHOULD BE PROVIDED SHOWING THAT RESEARCH HAS BEEN PRESENTED TO ENTITIES SUCH AS INDIGENOUS ORGANIZATIONS AND TRIBAL ENTITIES.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty

member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees, **OR OTHER GOVERNMENTAL BODIES, INCLUDING TRIBAL ENTITIES, ALASKA NATIVE CORPORATIONS, HEALTH CORPORATIONS, ETC.**

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies, **APPOINTMENT TO INTERNAL EDITORIAL BOARDS AND SCHOLARSHIP SELECTION COMMITTEES**.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation **AND UNIT OR CAMPUS-WIDE EVALUATION** reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC CXCS CRITERIA FOR SERVICE PERFORMANCE FOR APPOINTMENT OR PROMOTION TO:

A. ASSISTANT PROFESSOR: NONE IN ADDITION TO UAF CRITERIA

B. ASSOCIATE PROFESSOR: POSITIVE CONTRIBUTIONS TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS. EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC AND EFFECTIVE SERVICES TO THE PROFESSION ARE EXPECTED. EXAMPLES INCLUDE FACILITATION SUPPORT FOR ANNUAL EVENTS OF SERVICE TO THE UNIVERSITY AND THE LARGER COMMUNITY.

C. PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED.

SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS INCLUDING COMMITTEE LEADERSHIP OR SERVICE ON COMMITTEES IS EXPECTED. EFFECTIVE APPLICATION OF SERVICE INCLUDES, BUT IS NOT LIMITED TO, REVIEWING PROPOSALS, REFEREEING MANUSCRIPTS, AND EDITING FOR PROFESSIONAL ORGANIZATIONS OR PUBLICATIONS. A PROFESSOR'S SERVICE MAY INCLUDE THE PREPARATION OF PUBLICATIONS. A PROFESSOR'S SERVICE MAY INCLUDE THE MENTORING OF JUNIOR FACULTY THAT LEADS IN TURN TO GREATER SERVICE ON THEIR PART.

E. Unit Criteria, Standards and Indices

Unit criteria, standards and indices are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in B, C, D, above, and in "UAF Faculty Appointment and Evaluation Policies," Chapter IV for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review.

Unit criteria, standards and indices may be developed by those units wishing to do so
Units that choose not to develop discipline-specific unit criteria, standards and indices must file a statement stating so with the Office of the Provost, which shall serve as the official repository for approved unit criteria, standards and indices.

A unit choosing to develop discipline-specific criteria, standards and indices shall have such criteria, standards and indices approved by a majority of the discipline faculty. The unit criteria, standards and indices will be reviewed and approved by the cognizant dean who will forward the unit criteria, standards and indices to the provost. The provost will review for consistency with BOR and UAF policies and will forward these criteria, standards and indices to the Faculty Senate, which shall review and approve all discipline-specific criteria according to a process established by the Faculty Senate.

Unit criteria, standards and indices will be reviewed at least every five (5) years by the faculty of the unit. When reorganization results in a unit's placement in another college/school structure, the cognizant dean, in consultation with the unit faculty shall review unit criteria, standards and indices and revise if warranted. Unit criteria, standards and indices approved by the Faculty Senate prior to a unit's reorganization shall remain in effect until reviewed and revised. Revision of unit criteria, standards and indices must follow the review process established by the Faculty Senate. If the unit criteria, standards and indices are not revised, a statement of reaffirmation of the current unit criteria, standards and indices must be filed with the Office of the Provost, following the review.

Unit criteria, standards and indices, when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is NOT optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review to include these approved unit criteria, standards and indices in the application file.

F. Annual Evaluation of Non-tenured Faculty with Academic Rank

1. Process of Evaluation

There will be annual evaluations of all untenured faculty members holding academic rank. Each

faculty member shall submit a professional activities report to the campus director or college/school dean according to a schedule announced by the provost. The annual professional activities report will be accompanied by a current curriculum vita. The evaluations performed by the campus director or college/school dean shall include explicit statements on progress toward meeting criteria for tenure and promotion in their written evaluations. The dean's/director's evaluation shall reference the faculty member's workload agreement in commenting on progress. The director or dean shall provide a copy of a written evaluation to the faculty member. In the case of a faculty member having a joint appointment, the dean will coordinate the review and recommendation with the DEAN/director as appropriate.

G. Periodic Evaluation of Tenured Faculty Members

1. Frequency of Evaluation

All tenured faculty at UAF shall be evaluated once every three years according to a schedule and process announced by the provost. For tenured faculty with joint appointments, the cognizant dean will arrange a review that assures that all appropriate administrators provide a written evaluation of the faculty member. The dean will inform the faculty member of these arrangements.

2. Annual Activities Report

All tenured faculty shall prepare a professional activities report annually and submit it to the dean or director according to a schedule announced by the provost.

H. Evaluation of Faculty with Special Academic Rank

Special academic rank faculty are appointed for a specified period of time. They are to provide evidence of effectiveness in their assigned responsibilities during the term of their appointment when requested by their college/school dean or institute director according to the process set forth by the provost.

1. Process of Evaluation

The college/school dean or institute director shall require an annual activities report of a faculty member who has an appointment renewed beyond the initial year of appointment. The review process outlined above for academic rank faculty shall apply. The optional process for the development and approval of the unit criteria, standards and indices as outlined above in Chapter III, E, shall also apply to the definition and evaluation of faculty in special academic rank positions.

The appointment to special academic rank shall terminate on the date specified in the letter of appointment, and implies no expectation of a subsequent appointment.

The UAF Faculty Senate passed the following at Meeting #212 on February 8, 2016:

RESOLUTION:

WHEREAS the Faculty Senate of the University of Alaska Fairbanks shares the University's commitment to establish and to maintain a welcoming and inclusive environment for all students regardless of gender;

WHEREAS to help achieve this goal, the University has adopted policies of inclusivity, including using gender neutral words and/or gender inclusive language in the majority of its policies, regulations, handbooks, websites, and other official publications;

WHEREAS the continued use of the terms "freshman" and "freshmen" by official university websites, publications, policies, and regulations to indicate first year students excludes women by definition and is therefore inherently sexist;

WHEREAS several leading universities have in recent years begun using first year student (or first-year) instead of freshman in an effort to demonstrate their inclusivity;

THEREFORE BE IT RESOLVED The UAF Faculty Senate recommends that the University begin using the inclusive term "first year" or "first-year" instead of "freshman," and "first years" or "first-years" for "freshmen," in all official university publications, websites, and oral and written statements by University officials.

****

Rationale:
The University continues to use the terms, "freshman" and "freshmen," on official websites* and other publications although these have long been recognized as being non-inclusive, sexist terms. We have been successful in replacing many sexist words, e.g. postal worker for postman; firefighter for fireman; chairperson or chair for chairman; police officer for policeman; and humankind for mankind. It is time for UAF to be inclusive in all of its publications.

President, UAF Faculty Senate

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #211 on December 7, 2015:

MOTION:

The UAF Faculty Senate agrees to discontinuation of the Master of Electrical Engineering.

EFFECTIVE: Fall 2016

RATIONALE: During the 2014-2015 special academic program review process, the final review by the Chancellor's Cabinet recommended that the Master's in Electrical Engineering be suspended and merged/consolidated with another program to achieve efficiencies or cost savings (category 2). The Engineering Department (which administers this degree) did not appeal that recommendation.

Background and Information:

The MEE program was a non-thesis master's degree program in electrical engineering; the MSEE (Master's of Science in Electrical Engineering) was a thesis-based master's degree program. The two programs share curriculum and students often transfer between the programs based on their desire for research-based thesis work. The deletion of the MEE program required that the options in the MSEE degree program to be expanded to allow non-thesis options, which is the common practice in other UAF engineering master's degree programs (geological, mechanical, mining, and petroleum engineering); this change to the MSEE program has already been approved by the Provost. There are no changes in courses required, and no impacts on personnel, because the MEE and MSEE share curriculum.

The inclusion of a non-thesis option in the MS degree program brings Electrical Engineering in line with other engineering programs (Geological, Mechanical, Mining and Petroleum) in CEM. The change in the minimum degree requirements from 30 to 32 credits was made to unify the requirements for all options under the MSEE degree. An examination of the last 20 masters degrees in EE showed that all students took at least this many credits while earning their master's degree.

Chancellor's Office

Date: 12/8/15

The UAF Faculty Senate passed the following at Meeting #211 on December 7, 2015, as amended:

MOTION:

The UAF Faculty Senate moves to amend the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 3, Article V: Committees, as shown below.

EFFECTIVE: AY 2015-16

RATIONALE: Several of the committees of the Faculty Senate have proposed amendments to their bylaws as part of the larger bylaws project undertaken during 2013-14 and 2014-15. These amendments, along with amendments to the general committee bylaws, have been consolidated into one motion.

****

Bold Italics = Addition
~~Strikethrough~~ = Deletion

Sect. 3 (ART V: Committees)

...

A. An Administrative Committee ~~will be~~ ***is*** composed of the chairpersons of all standing Senate committees and of permanent Senate Committees. The Provost of UAF ~~shall be~~ ***is*** an ex-officio, non-voting member. Specific duties of the Administrative Committee in its obligation to fully prepare the agenda and materials for efficient operation of the Senate are:

1. Receive reports from the president of the Senate, the Provost, and, as deemed timely, other individuals, on issues of current and future importance to the Senate;

2. Accept and review the motions of standing and permanent committees, and from members of the Administrative Committee;

3. Make certain that the motions are ready for Senate action to the maximum degree possible, and if not, refer them back for further work and/or direct them to other relevant committees that may not have considered the motions;

4. Move the motions to the Senate's agenda;

5. Review and approve other items of the Senate's agenda, as deemed necessary;

6. Review reports of all committee work in progress; and

7. Discuss other issues, which may or should lead to later committee and senate actions.

In addition,

8. Within the scope of authority granted by the Senate at the last meeting of the spring semester, the Administrative Committee ~~will~~ represent***s*** the Senate from the close of the last Senate meeting in the spring until the opening of the first Senate meeting of the fall semester; and

9. At the first meeting in the fall semester, ***the Administrative Committee*** make***s*** a report of all actions carried out in the name of the Senate, since the last meeting in the spring semester.

10. The Administrative Committee ~~shall~~ oversee***s*** the process of evaluation of academic administrators.

11. The committee chair will provide committee meeting minutes to the Faculty Senate.

B. Membership on standing and permanent committees ~~will be~~ ***is*** for two years except as noted below with the possibility of re-appointment. The initial appointment or re-appointment is recommended by the President and President-Elect or as specified in the definition of a Permanent Committee, approved by the Administrative Committee, and confirmed by the full Senate. Senators are limited to serving on a maximum of one standing committee at any one time. To provide continuity, terms will be staggered and an initial appointment may be made for one or two years as determined by the Administrative Committee based on need.

C. ***Any faculty member who is eligible to vote for a Faculty Senator can serve on a Senate committee, unless otherwise specified.*** Standing committees will be constituted entirely of ~~Senate members~~ ***senators or alternates.*** Permanent committees can be constituted without ~~Senate members~~ ***senators or alternates.***

D. On standing committees all voting members must be senators or alternates. Standing committees can have non-voting ex officio members.

~~D~~ ***E.*** All permanent and standing committee chairs will be elected from and by the members of their respective committee ~~and must be full-time faculty at UAF~~. ***Committee chairs are voting members of their committees and of the Administrative Committee.***

F. ***A quorum consists of at least 50% of the voting members of a committee. Mode of attendance and procedure for voting in a committee meeting shall be the prerogative of each committee.***

G. ***Appointment and responsibilities of committee chairs:***
The previous chair or a representative approved by the Administrative Committee will convene the first meeting. The committee elects a new chair at that meeting.
Committee chairs:
1. ***Schedule meetings;***
2. ***Preside over meetings;***
3. ***Write and submit a report to the Administrative Committee at the last meeting of the academic year summarizing the actions of the committee;***
4. ***Provide meeting minutes to the Faculty Senate.***

~~E~~ ***H.*** The standing and permanent committees of the Senate are:

STANDING

1. The Curricular Affairs Committee will deal with ***undergraduate*** curricular and academic policy changes ~~on all levels except the graduate level~~**.**

   ~~In addition to the non-voting ex officio member(s) appointed by the provost, the committee may add non-voting ex officio members for one-year terms as deemed necessary.~~

2. The Faculty Affairs Committee shall review issues dealing with faculty prerogative and recommend policy changes to the Faculty Senate. Issues of faculty prerogative include academic freedom, faculty ethics, research and creative activity, and legislative and fiscal issues that may impact faculty concerns at the university. The committee will ~~act as a faculty advocate~~ ***enhance communication of faculty issues with members of the Board of Regents,*** ~~legislators~~ ***public officials,*** and candidates ***for public office.*** ~~In its concern for fiscal issues the committee shall monitor budget appropriations to the university and evaluate any notice to the faculty of financial exigency.~~ In performing these duties, the committee will coordinate as necessary with the relevant officers (and/or their representatives) of the extant collective bargaining units who serve as non-voting members of the Senate and ex-officio members of this committee.

   ~~The committee will also act as a pool to be drawn upon to act as the United Academics representatives to the Faculty Appeals Board. The chair of the Faculty Affairs Committee will appoint, from the committee, tenured members of the United Academics bargaining unit who will serve on the particular appeals board. If no qualified faculty members are available within the Faculty Affairs Committee, the matter will be referred to the Faculty Senate president for appointment of faculty senators to the Faculty Appeals Board.~~

3. The Unit Criteria Committee ~~will~~ review***s*** proposed unit criteria for evaluation of faculty submitted by the various peer-review units of UAF, and works with the heads of those units (or their designees) to ensure that their criteria are consistent with those defined in the UAF Faculty Appointment and Evaluation Policies and Regulations "Blue Book". ***Special unit criteria may add to the standard template that is drawn from the Blue Book but may not alter its language or formatting. The criteria to be reviewed may include those submitted every five (5) years***

pursuant to Blue Book Regulations. They may also include those proposed by units for revision at other times. The committee ~~will~~ also review***s*** proposed changes to the "Blue Book."

To ensure that perspectives from across UAF are represented, membership ~~will~~ consist***s*** of at least five senators, one each from the following five schools / colleges: CLA, CRCD, CNSM, SFOS, and CEM; and at least one from CES, ~~SNRAS~~ ***SNRE***, SOE, SOM or LIB; and at least one senator who has an appointment with a research institute. ***There are no student members of this committee.***

Final composition of the Unit Criteria Committee ~~will be~~ ***is*** approved by the Faculty Senate Administrative Committee.

PERMANENT

1. The Graduate Academic & Advisory Committee has responsibility for oversight, review and approval of all professional degree courses and programs ~~including 500-level courses~~. The committee advises the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial ~~and tax-related~~ issues and dealings with other universities.

   The Graduate Academic & Advisory Committee includes ten faculty members ***and up to two graduate students.*** The Dean of the Graduate School, Director of the Library, ***and*** the University Registrar, ~~and two graduate students~~ are non-voting ex-officio members. ***Graduate student representatives are appointed by the Dean of the Graduate School.***

2. The Student Academic Development and Achievement Committee ***(SADA)*** ~~shall~~ consider***s*** policies ***related to*** ~~concerning~~ student ***placement, academic advising and student academic appeals,*** development, and retention. This committee ~~will~~ ***further*** function***s*** as a curriculum review committee for all developmental education courses. ~~and other courses facilitating student progress.~~

   ~~The Student Academic Development and Achievement Committee (SADA)~~ ***SADA includes*** ~~will include~~ one ***faculty*** representative from each of the following campuses of the College of Rural and Community Development: Bristol Bay, Chukchi, ~~Interior-Aleutians~~ ***Interior Alaska***, Kuskokwim, Northwest, and the Community and Technical College, ~~One or more of these should be from rural campus student services~~ ***One or more of these should be from Developmental Education.*** The committee ~~will~~ also include***s*** one representative from the ***Fairbanks*** Department of Developmental Education, two ~~at large~~ representatives from the College of Natural Sciences and Mathematics: one from the Sciences (Biology, Chemistry, Geology, or Physics) and one from Math; ~~one~~ ***two*** from the College of Liberal Arts, ***including one from the*** English Department; and one each from Rural Student Services, ~~the Academic Advising Center,~~ ***Rural Campus Student Services,*** and ***the Academic Advising Center*** ~~and the Student Support Services Program~~. ***The committee may also invite a student representative to serve as an ex officio member.***

3. ~~The Faculty Development, Assessment and Improvement Committee will be composed of faculty members and a representative from the Office of Faculty Development to be selected by the Provost. This committee will deal with faculty and instructional development and evaluation.~~

The Faculty Development, Assessment, and Improvement (FDAI) Committee facilitates faculty development relative to all components of faculty professional activities including teaching, research, and service to the university, the professional community, and the public. FDAI promotes excellence in faculty teaching through evaluating the status of faculty development and assessment, facilitating intellectual activity and interaction among faculty, promoting fair and relevant faculty evaluation systems, and developing and/or piloting professional development initiatives that recognize and promote good practice in teaching and research.

The FDAI consists of the Chair, and up to 14 other voting members. The membership of the FDAI must include faculty from both rural and Fairbanks campuses and can include faculty who are senators and non-senators. In addition to its regular members, the FDAI includes non-voting ex-officio members. These include a mandatory ex-officio representative from the Office of Faculty Development (to be selected by the Provost), a member from UAF eLearning, as well as a member of UAF's list of deans. Other non-voting ex-officio members may be invited by the committee.

4. The Curriculum Review Committee evaluates proposed substantive undergraduate course and program additions, changes, and deletions submitted by the appropriate school/college curriculum committees. Among the topics of its review are number and duplication of courses, credit assignment, establishment of need for new programs, and resource impacts of curricular changes. Decisions of the Curriculum Review Committee may be appealed to Curricular Affairs by the department submitting the proposal. The Committee shall be composed of the chairs of the college/school curriculum councils, the University Registrar or the Registrar's designee, and shall be chaired by a member of the Curricular Affairs Committee.

5. The Core Review Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the core curriculum at UAF. The Core Review Committee coordinates and recommends changes to the core curriculum, develops the process for assessment of the core curriculum, regularly reports on assessment of the core curriculum, monitors transfer guidelines for core courses, acts on petitions for core credit, and evaluates guidelines in light of the total core experience. This committee will also review courses for oral, written, and natural science core classification. If the committee determines that a course fails twice in a row to meet "O" or "W" guidelines as specified by the Faculty Senate, the committee shall have the power to revoke "O" or "W" designators from that course.* Committee actions made prior to March 1 will become effective in the next year's Catalog. Designators will be restored as soon as the course has been reapproved by the committee as once again conforming to "O" or "W" guidelines.

   *As found at:
   http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-core-desig/

   The committee shall be composed of one faculty member from each of the core component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, and Library Science) and one faculty member from a non-core component area ***and one faculty member from CRCD, as voting members.*** Membership on the committee ***may*** include an undergraduate student ***as a non-voting member,*** and representatives from the colleges

specifically tasked with core assessment.

6. ~~The Committee on the Status of Women. Membership will consist of nine people, two of whom will be a senator, the others to be elected at large from among UAF faculty.~~

   The purpose of ***the Committee on the Status of Women*** ~~this committee~~ is to monitor the status of women faculty at UAF and to work proactively for gender equity.

   Such actions will include, but are not limited to: Maintaining lists of women faculty with hire, tenure and promotion dates; Organizing and supervising surveys on the status of women and assessing the cultural climate of the university as it pertains to women; Recommending policy to address the needs of women faculty; Supporting mentoring of women, both new and mid-career faculty, including ***facilitating*** ~~running~~ workshops on mentoring, promotion and tenure, negotiating techniques, ***providing venues for networking, collaboration and advocacy*** and other forms of faculty development identified as necessary; Addressing family-work issues, such as child care, parental leave, spousal/partner hire; Coordinating with other campus and university groups which deal with women's and gender issues; and any other issues which would help women to achieve equity at UAF.

   Membership will consist of ***ten*** ~~nine~~ ***members, at least one*** ~~two~~] of whom will be a senator, ***eight*** ~~the others~~ to be elected at large from among UAF faculty, ***and the Coordinator of the Women's Center.*** ~~The chair will be a voting member.~~

7. The Research Advisory Committee. The Research Advisory Committee consists of up to ten voting members, a chair and a co-chair, along with at least one ex officio member who is the vice chancellor for research. The committee exists to review the issues of researchers at the University of Alaska Fairbanks and to provide reports, recommendations, and resolutions to the UAF Faculty Senate on behalf of the UAF research community. The Research Advisory Committee will provide a connection between the faculty and the UAF vice chancellor for research, and advise the VCR on developing productive relationships with the different research facilities across UAF.

8. The Faculty Administrator Review Committee (FARC) will facilitate the process of evaluation of ***all Group A and B administrators*** ~~academic administrators in Groups A and B~~. This will include ***ensuring*** ~~encouraging the~~ timely completion of all reviews and resulting letters, as well as presentation of the results of each review to the Provost, Chancellor, Vice Chancellor for Research, or other supervisor in March. The FARC will also approve the process which each ad hoc administrator review committee utilizes.

   The Faculty Administrator Review Committee shall be composed of the chairs of all individual ad hoc ~~academic~~ administrator review committees plus one Faculty Senate representative appointed by the Faculty Senate President who shall chair the committee. The ad hoc administrator review committee chairs may, but do not have to be, members of the Faculty Senate.

9. The Information Technology Committee will address information technology issues and needs affecting aspects of work faculty engage in. They will also be the recognized committee to work with requests submitted for consideration by the Office of Information Technology (OIT).

To help ensure that perspectives from across UAF are represented, membership will consist of at least five representatives, with not more than one from each of the schools, colleges, institutes or libraries. Members who are not Faculty Senators may be appointed to one-year terms. Representatives from OIT and eLearning shall be ex-officio members of the committee. The committee chair must be a senator or an alternate.

F. Any standing or permanent committee may create subcommittees to assist the committee.

G. The Senate President may create and appoint the members of any ad hoc committee necessary for conducting Senate business. Ad hoc committees are subject to later ratification by the Senate.

H. Committees must forward any legislation which involves the setting or altering of policy to the full Senate for approval. Committees which are specifically charged with applying policy to make decisions may do so without having the Senate approve those decisions. A review by the full Senate may be requested by the reviewing Senate committee. A request to the Senate Administrative Committee for a further Senate review may also be submitted by individual Senators if the question has policy implications. The committee chair is responsible for the presentation of the committee's motion to the Senate at the meeting in which it will be considered.

The UAF Faculty Senate passed the following at Meeting #211 on December 7, 2015:

MOTION:

The UAF Faculty Senate moves to revise the catalog statements (page 47 of the 2015-16 Catalog) on academic probation and disqualification as indicated below:

Warning

Students whose semester GPA falls below 2.00 but whose cumulative GPA is 2.00 or higher will be placed on Academic Warning. Students on Academic Warning will be contacted and instructed to meet with an advisor to discuss academic support resources.

Probation

Undergraduate students -- Students whose semester and~~/or~~ cumulative GPA falls below 2.0 after any semester, including the summer session, will be put on academic probation. Students on probation may not enroll in more than 13 credits a semester unless an exception is granted by the appropriate dean. Probation may include additional conditions as determined by the dean of the college or school in which the student's major is located. Students on probation will be referred for developmental advising/education and/or to an advising or support counseling center. The student should work with an academic advisor to prepare an academic plan for achieving a higher GPA. Removal from probation requires the student's cumulative and semester GPAs to be at least 2.0.

Graduate students -- Probationary status indicates a student is not in good standing. When a student is placed on probation, the dean of the school or college and the advisory committee will tell the student what requirements are necessary to return to good standing. If a student does not return to good standing by the end of two semesters, he or she may be dismissed from the degree program.

Academic Disqualification

Undergraduate students -- Undergraduate students on probation whose semester and cumulative GPA fall below a 2.0 for two consecutive ~~**regular (fall/spring or spring/fall)**~~ semesters will be placed on academic disqualification. Academically disqualified students may continue their enrollment at UAF only as nondegree students, are limited to 10 credits per semester and are ineligible for most types of financial aid.

To be eligible for readmission to an academic degree program, the student must:

1. Achieve a 2.0 cumulative grade point average by repeating courses previously failed at UAF and reapply for admission, or
2. Complete 9 credits for a baccalaureate or associate program, or 6 credits for a certificate program, with a GPA of 2.0 or higher. The courses may be completed at UAF and/or another regionally accredited institution and must be letter-graded. Grades of P or CR will not be considered. In considering students for readmission, deans will look for course work taken that relates to the student's intended program.

Students seeking readmission into an occupational endorsement program must have a 2.0 GPA.

Readmission to a degree program is not automatic or guaranteed. The student must reapply and the application must be approved by the dean. The student may apply to the same program from which they were disqualified, or to a different program or level (e.g. baccalaureate, associate or certificate). Readmission may be granted with a status of probation or with other conditions as specified by the dean. It is vitally important for academically disqualified students to work closely with their academic advisor in developing a realistic and timely educational plan.

EFFECTIVE: Fall 2016

RATIONALE: Under the current policy, students are placed on academic probation whenever their semester GPA is below a 2.0, regardless of their cumulative GPA or the number of credits they take in a semester. A student could have a high cumulative GPA, take one 3-credit course, earn a C- and be placed on probation. The student is then limited to 13 credits in the following semester, which may put their financial aid, such as the Alaska Performance Scholarship, at risk. The change would still place students on probation if their cumulative GPA fell below a 2.0 (and would place them on academic disqualification if their cumulative GPA was below 2.0 for 2 consecutive regular semesters) but would not place an otherwise successful student on academic probation based on their performance during a single semester. Because of this change, there is no longer a reason for Summer to be treated differently than Fall or Spring semesters in terms of academic standing.

****

President, UAF Faculty Senate

Approved: X Disapproved: ____

Chancellor's ~~Office~~

Date: 12/2/15

The UAF Faculty Senate passed the following at Meeting #211 on December 7, 2015:

MOTION:

The UAF Faculty Senate moves to revise the catalog statements on the requirements for the Foreign/Alaska Native language/American Sign Language option in the Bachelor of Arts degree (page 132 of current Catalog) as indicated below:

Bachelor of Arts

Requirements (Credits)

Complete the baccalaureate core (38-39 credits)

Complete the following B.A. requirements in addition to the core:

- Humanities and social sciences (18 credits)
  - Any combination of courses at the F100-level or above, with a minimum of 6 credits from the humanities and a minimum of 6 credits in the social sciences OR up to 12 credits in a single non-English language taken at the university level and a minimum of 6 credits in social science.
- Mathematics (3 credits)
  - One course at the F100-level or above in mathematical sciences (math, computer science, statistics) excluding developmental math (DEVM) courses.
- ~~Complete one of the following:~~
  - Minor complex* (at least 15 credits)
  - ~~Foreign/Alaska Native language/American Sign Language option--12-18 credits~~ ~~Two years study of one foreign or Alaska Native language or American Sign Language at the university level (high school language credits or native language proficiency may allow students to begin at the intermediate or advanced level)~~
- Major complex* (at least 30 credits)
- Electives (12-19 credits)

EFFECTIVE: Fall 2016

RATIONALE: This option seems to have been originally designed to create an incentive for students to study languages. However, minors are available in Foreign Languages, Alaska Native Language, and American Sign Language. Allowing this option provides a loophole to the minor requirements in those areas, allowing students to complete fewer credits (12 as opposed to 15), use credits at the 100-level (not allowed in FLL minors), and not meet any residency requirement (3 credits for a minor).

****

Debasmita Misra

President, UAF Faculty Senate

Approved: X Disapproved: ____

Chancellor's Office

Date: 12/8/15

The UAF Faculty Senate did not pass the following at Meeting #211 on December 7, 2015:

RESOLUTION:

The UAF Faculty Senate recommends that the faculty of the University of Alaska Fairbanks make an annual voluntary contribution of at least $40 per faculty to UAF designated for sustainability services, projects, and initiatives. The donation will be invested by the Chancellor, in consultation with the Review of Infrastructure, Sustainability and Energy (RISE) Board, toward energy efficiency programs and renewable energy projects at UAF, starting at the beginning of the spring semester of 2016 and ending with the conclusion of the spring semester of 2026.

EFFECTIVE: Immediately

RATIONALE:

In 2009, the students of the University of Alaska Fairbanks voted to impose a $20 per semester ($40 per year) sustainability fee upon themselves to support sustainability projects and initiatives on campus. Per the resolution, the funds are distributed to campus sustainability projects via a student-initiated proposal process. After submission, these proposals are reviewed by the RISE Board (the UAF Sustainability Board), which is comprised of UAF students, faculty, and staff. Since 2009, RISE has funded 86 student-initiated projects, providing transportation services (e.g., Green Bikes), food services (e.g., community garden), and energy savings (e.g., solar panels on SRC, Engineering Building). The RISE Board has also institutionalized sustainability on campus by spearheading a Sustainability Plan that was adopted by the University and incorporated into the Campus Master Plan.

Recently, RISE has changed its funding structure by establishing a green revolving fund (GRF). The fund mandates that 80% of projects have a return on investment, which is put back into the fund to be reused for new projects. Currently, RISE is seeking funding to supplement a commitment of $250,000 dollars for a solar project on the new coal plant. After completion of that project, RISE will continue to push campus sustainability forward as it seeks to have 25% of the UAF campus powered by sustainable resources by 2025.

Voting for this resolution supports a partnership between faculty, staff, and students for making UAF a sustainable organization. It helps demonstrate that faculty, staff, and students share common goals with respect to sustainability at UAF. It sends the message that faculty thoroughly endorse efforts to make UAF a more environmentally responsible campus.

****

The following was passed (as ***amended***) on November 9, 2015 at Faculty Senate Meeting #210:

ORIGINAL

MOTION:

The Faculty Senate moves to adopt a classification list system to meet general education requirements in humanities and social sciences in lieu of the currently mandated ***lower division*** Perspectives on the Human Condition (PHC) courses. To meet humanities and social sciences requirements, students must take fifteen credits of general education courses that meet the following University Regulations. Of these:

- At least 3 credits ***must be*** in the arts
- At least 3 credits ***must be*** in general humanities
- At least 6 credits ***must be*** in social sciences (from 2 different disciplines)

The UAF Faculty Senate Curricular Affairs Committee will develop an initial list of courses to fulfill these course requirements by January 2016.

EFFECTIVE: Fall 2016

RATIONALE: The UA Board of Regents adopted a resolution at its April 3-4, 2014 meeting charging the faculty across the UA system to develop and adopt common general education requirements.

The Faculty Senate adopted a resolution at its May 7, 2015 meeting calling for the adoption of a classification list system that will meet general education requirements in arts, humanities, and social sciences.

The UAF Faculty Senate desires to widen student choice related to general education.

It is the intention of the Faculty Senate that the current ethics requirement be retained.

Debasmita Misra

President, UAF Faculty Senate

Approved: X Disapproved: ____

Chancellor's Office

Date: 11/23/15

ORIGINAL

The following was passed on November 9, 2015 at Faculty Senate Meeting #210:

MOTION:

The Faculty Senate moves to replace the upper division Oral (O) and Written (W) requirement with the requirement that each baccalaureate degree program must satisfy the following Communications Learning Outcomes within the degree program:

UAF undergraduates will demonstrate effective communication when they are able to:

- Explain disciplinary content using a variety of modes of communication, including oral and written communication.
- Communicate to audiences in the discipline using appropriate disciplinary conventions.
- Translate disciplinary content to audiences outside the discipline as appropriate, making disciplinary knowledge relevant to broader communities.
- Integrate feedback from others to enhance or revise communication.

Each baccalaureate degree program must submit a Communications Plan that demonstrates how students will achieve each of the learning outcomes as part of the requirements of the major or degree program. Not all courses or requirements need to support every outcome; however, all the outcomes must be met by the completion of the degree.

Implementation timeline for transition:

1. Communication Plans will be reviewed and initially approved by the College or School's Curricular Review Committee, Academic Council, or other committee as appropriate and then continuously reviewed as part of the Student Learning Outcomes Assessment Plan review process.
2. Each baccalaureate degree program will submit an initial Communications Plan to the Provost's office by April 15, 2016.
3. During AY 2016/17 Departments will make any necessary changes to implement their plan.
4. Plans will be in place and implemented by Fall 2017.
5. Existing O and W designators will remain in place (if appropriate) for a period of 2 years from Fall 2017 to facilitate students under catalogs with O/W requirements.

EFFECTIVE: Fall 2017

RATIONALE: The GERC committee and Curricular Affairs, as part of their work to revise UAF's core requirements, propose replacing the current W/O designators with a requirement that students achieve the Communications Learning Outcomes that are integrated into each baccalaureate degree program and major.

The responsibility for ensuring that students achieve these Communications Learning Outcomes is being moved from the University level (via specific O and W courses) to the department level (via the requirements of the degree programs), and from a specific degree requirement (taking two Ws and one O) to a

requirement that is achieved by the student completing the degree requirements associated with their program.

The following was passed at Faculty Senate Meeting #208 on September 14, 2015:

Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution at Meeting #176 in September 2011, Meeting #184 in September 2012, and Meeting #192 in September 2013, and Meeting #200 in September 2014. For academic year 2015-2016, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #208 on September 14, 2015

.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2015-16 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

****

Debasmita Misra

President, UAF Faculty Senate

The following was passed at Faculty Senate Meeting #208 on September 14, 2015:

MOTION:

The UAF Faculty Senate moves to endorse the 2015-2016 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighed against membership distribution from schools and colleges.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND **JUSTICE DEPARTMENT UNIT CRITERIA**, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE JUSTICE DEPARMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska, Fairbanks, except insofar as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

Chapter II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (EEO)office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the Chancellor or Chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

Chapter III

Periodic Evaluation of Faculty

A. General Criteria

Criteria are outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility. *JUSTICE FACULTY MAY BE EITHER BIPARTITE OR TRIPARTITE.*

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design *SUCH AS THOSE UNIQUELY SUITED TO ALASKAN COMMUNITIES*;

g. may receive prizes and awards for excellence in teaching;

H. ENGAGE IN DIVERSE INSTRUCTIONAL ACTIVITIES SUCH AS TEACHING AT RURAL OR BRANCH CAMPUSES, TEACHING DISTANCE DELIVERED COURSES AND TEACHING IN SUMMER SCHOOLS;

I. INVOLVE UNDERGRADUATE STUDENTS IN RESEARCH OR INTERNSHIP ACTIVITIES;

J. EFFECTIVELY MENTOR AND RECRUIT STUDENTS;

K. SUPPORT URSA INITIATIVES INCLUDING JOINT PROJECTS WITH STUDENTS, E.G., CASE STUDIES BY STUDENT PRACTITIONERS, FORCE MULTIPLIERS, AND MENTORING.

2. **Components of Evaluation**
Effectiveness in teaching *AND OTHER INSTRUCTIONAL ACTIVITIES* will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, , provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s*) OR OBSERVATIONS IN ALTERNATE INSTRUCTIONAL SETTINGS (E.G. ONLINE COURSES),*

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum *UNLESS CONFIDENTIALITY IS REQUIRED BY LAW, UNIVERSITY POLICIES OR REGULATIONS, CONTRACTUAL REQUIREMENTS OR PROFESSIONAL STANDARDS. HOWEVER, IF SUCH WORK CONSTITUTES A SUBSTANTIAL PART OF FACULTY RESEARCH EFFORT, THERE MUST BE PROVISION FOR B. AND C. TO OCCUR.*

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

ACHIEVEMENT IN RESARCH, SCHOLARLY ACTIVITY AND CREATIVE ACTIVITY INVOLVES THESE CHARACTERISTICS:

- *THEY REGULARLY IDENTIFY AND EXPLORE NEW RESEARCH PROBLEMS IN THE DISCIPLINE AND/OR CRITICALLY EXAMINE EXISTING RESEARCH PROBLEMS TO PROVIDE NEW INSIGHTS;*
- *THEY REGULARLY DEVELOP NEW METHODS, THEORIES OR APPROACHES TO RESEARCH PROBLEMS IN THE DISCIPLINE;*
- *THEY REGULARLY DEMONSTRATE GROWTH IN KNOWLEDGE OF THE DISCIPLINE OR GROWTH IN EMPIRICAL AND/OR CRITICAL RESEARCH ABILITIES;*
- *THEY REGULARLY PARTICIPATE WITH OTHER PRACTITIONERS WITHIN THEIR DISCIPLINE TO IDENTIFY REAL WORLD PROBLEMS AND POSE SOLUTIONS.*

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, *CASE STUDIES* and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications. *CITATION INDEXES ARE NOT REGARDED AS RELIABLE INDICATORS OF STANDING IN JUSTICE, AND ARE NOT COMMONLY USED. A HIGH LEVEL OF CITATION MIGHT INDICATE A HIGH STANDING IN A FACULTY MEMBER'S FIELD. HOWEVER, A LOW LEVEL OF CITATION SHOULD NOT BE TAKEN TO INDICATE A LACK OF STANDING. THIS UNIT VALUES QUALITATIVE REVIEWS OF RESEARCH, SCHOLARLY, AND CREATIVE ACTIVITY.*

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

M.. POLICY EVALUATION, LAW REVIEW AND CASE STUDIES RESEARCH.

N. RESEARCH / PUBLICATIONS STEMMING FROM MANAGERIAL CONSULTATIONS INCLUDING PROBLEM DIAGNOSIS, POLICY DEVELOPMENT, PROGRAM EVALUATION, SEMINARS TO SEED PRACTITIONER EXPERIMENTATION AND NEW PROGRAM IMPLEMENTATION, MONITORING AND EVALUATION.

O. JOINT PROJECTS WITH STUDENTS THAT RESULT IN DISSEMINATION OF WORK PRODUCTS, E.G., URSA, CASE STUDIES FROM STUDENT PRACTITIONERS, FORCE MULTIPLIERS, OR MENTORING. THE PROVISIONS OF (C)(1)(A) APPLY TO JOINT PROJECTS.

P.PRESENTATIONS OF ORIGINAL RESEARCH LEADING TO NEW LEARNING AND PRACTICAL APPLICATIONS AT ACADEMIC AND PRACTITIONER CONFERENCES, SEMINARS AND TRAINING.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a

continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

L. ACTIVELY PARTICIPATING ON AND CONTRIBUTING TO THE WORK OF PUBLIC AND/OR GOVERNMENTAL BODIES.

M. APPLYING THEORIES OR FINDINGS OF THE DISCIPLINE IN PUBLIC SERVICE.

N. FIELD INSTRUCTION AND EXTENSION DELIVERY OF SKILLS TO ALASKA'S WORKFORCE.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations.

Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring *OF NEW FACULTY.*

j. Prizes and awards for excellence in university service.

K. EXHIBITING LEADERSHIP AND MANAGERIAL EFFECTIVENESS ON THE DEPARTMENT, COLLEGE, OR UNIVERSITY OF ALASKA FAIRBANKS LEVELS AND/OR ON BEHALF OF STATEWIDE PROGRAMS AND SERVICES.

L. ASSISTING IN THE DESIGN OF JUSTICE-RELATED COMMUNITY EFFORTS.
M. COORDINATING SPECIALIZED COURSE DELIVERY METHODS FOR STUDENTS IN RURAL ALASKA INCLUDING INTENSIVE ADVISING AND SUPPORT.

3. Professional Service

Examples of such activity include, but are not limited to:

a. Editing or refereeing *REVIEWS, CASE STUDIES*, articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations *OR ORGANIZATIONS CLOSELY RELATED TO THE DISCIPLINE.*

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings, *PRACTITIONER CONFERENCES AND SEMINARS AND OTHER NON-TRADITIONAL VENUES, E.G., NATIVE CORPORATION MEETINGS AND DEVELOPMENT OF CONFERENCES ATTRACTIVE TO PRACTITIONERS. ACADEMICS AND THE PUBLIC WITH THE INTENT OF DEVELOPING KNOWLEDGE AND RESEARCH OPPORTUNITIES.*

f. Service on a national or international review panel or committee.

G. MANAGERIAL CONSULTATION WHICH MAY INCLUDE PROBLEM DIAGNOSIS, POLICY DEVELOPMENT, PROGRAM EVALUATION, NEW PROGRAM IMPLMENTATION, MONITORING AND EVALUATION AND SEMINARS TO SEED PRACTITIONER EXPERIMENTATION.

H. DEVELOPING CONFERENCES ATTRACTIVE TO PRACTITIONERS, ACADEMICS AND THE PUBLIC, E.G., VILLAGES, LAW ENFORCEMENT AND OTHER JUSTICE PROFESSIONALS.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through relevant means, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The UAF Faculty Senate Administrative Committee passed the following on May 7, 2015:

MOTION:

The UAF Faculty Senate Administrative Committee moves to approve a change to language in the **UAF Catalog** for 2015-16 to bring UAF into compliance with current Board of Regents Policy P10.04.062. The change aligns UAF with UAA and UAS concerning UA transfer of credits for General Education Requirements pertaining to natural science laboratory requirements, as shown below.

EFFECTIVE: Fall 2015

RATIONALE: While the UAF Faculty Senate will continue its work to revitalize the General Education Requirements in 2015-2016, this change to align the natural science laboratory requirements of UAF with UAA and UAS will benefit students transferring between the three universities.

The UAF Faculty Senate passed the following at Meeting #207, May 4, 2015:

MOTION:

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: a copy of the list is available in the Governance Office, 312B Signers' Hall]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, UAF Faculty Senate makes that recommendation.

Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #207 on May 4, 2015:

MOTION:

The UAF Faculty Senate moves to authorize the 2014-15 Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2015. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 4, 2015

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

215	May 2, 2016	Monday	1-3 PM	Face to Face

The UAF Faculty Senate passed the following at Meeting #207, May 4, 2015:

RESOLUTION:

WHEREAS, the University of Alaska Fairbanks Faculty Senate recognizes the need to revise the Core Curriculum; and

WHEREAS, the Senate wishes to widen student choice in the university's general education; and

WHEREAS, the General Education Revitalization Committee has proposed a "classification list" system (lists of approved courses which fulfill arts, humanities, and social science general education requirements) to replace the current Perspectives on the Human Condition (PHC) courses;

THEREFORE BE IT RESOLVED that during the 2015-2016 academic year the UAF Faculty Senate will adopt a classification list system that will meet general education requirements in arts, humanities, and social sciences in lieu of the currently-mandated PHC courses, with the new system to take full effect as of the 2016-17 Course Catalog.

****

President, UAF Faculty Senate

The UAF Faculty Senate tabled the following at Meeting #207 on May 4, 2015:

MOTION:

The UAF Faculty Senate moves to amend the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 3, Article V: Committees, as shown below.

EFFECTIVE: AY 2015-16

RATIONALE: Several of the committees of the Faculty Senate have proposed amendments to their bylaws as part of the larger bylaws project undertaken during 2013-14 and 2014-15. These amendments, along with amendments to the general committee bylaws, have been consolidated into one motion.

****

BOLD CAPS = Addition
[[ ]] = Deletion

Sect. 3 (ART V: Committees)

…

A. An Administrative Committee [[will be]] **IS** composed of the chairpersons of all standing Senate committees and of permanent Senate Committees. The Provost of UAF [[shall be]] **IS** an ex-officio, non-voting member. Specific duties of the Administrative Committee in its obligation to fully prepare the agenda and materials for efficient operation of the Senate are:

1. Receive reports from the president of the Senate, the Provost, and, as deemed timely, other individuals, on issues of current and future importance to the Senate;

2. Accept and review the motions of standing and permanent committees, and from members of the Administrative Committee;

3. Make certain that the motions are ready for Senate action to the maximum degree possible, and if not, refer them back for further work and/or direct them to other relevant committees that may not have considered the motions;

4. Move the motions to the Senate's agenda;

5. Review and approve other items of the Senate's agenda, as deemed necessary;

6. Review reports of all committee work in progress; and

7. Discuss other issues, which may or should lead to later committee and senate actions.

In addition,

8. Within the scope of authority granted by the Senate at the last meeting of the spring semester, the Administrative Committee **[[**will**]]** represent**S** the Senate from the close of the last Senate meeting in the spring until the opening of the first Senate meeting of the fall semester; and

9. At the first meeting in the fall semester **THE ADMINISTRATIVE COMMITTEE** make**S** a report of all actions carried out in the name of the Senate since the last meeting in the spring semester.

10. The Administrative Committee [[shall]] oversee**S** the process of evaluation of academic administrators.

B. Membership on standing and permanent committees [[will be]] **IS** for two years except as noted below with the possibility of re-appointment. The initial appointment or re-appointment is recommended by the President and President-Elect or as specified in the definition of a Permanent Committee, approved by the Administrative Committee, and confirmed by the full Senate. Senators are limited to serving on a maximum of one standing committee at any one time. To provide continuity, terms will be staggered and an initial appointment may be made for one or two years as determined by the Administrative Committee based on need.

C. **ALL SENATE COMMITTEE MEMBERS ARE FULL-TIME FACULTY, UNLESS OTHERWISE SPECIFIED.** Standing committees will be constituted entirely of Senate members. Permanent committees can be constituted without Senate members.

D. ON STANDING COMMITTEES ALL VOTING MEMBERS MUST BE SENATORS OR ALTERNATES. STANDING COMMITTEES CAN HAVE NON-VOTING EX-OFFICIO MEMBERS.

[[D]]**E**. All permanent and standing committee chairs will be elected from and by the members of their respective committee and must be full-time faculty at UAF. **COMMITTEE CHAIRS ARE VOTING MEMBERS OF THEIR COMMITTEES AND OF THE ADMINISTRATIVE COMMITTEE.**

[[E]]**F. A QUORUM CONSISTS OF AT LEAST 50% OF THE VOTING MEMBERS OF A COMMITTEE.**

G. ANY POTENTIAL CONFLICTS OF INTEREST WILL BE EXPLORED WITHIN THE COMMITTEES. IN CASE OF A CONFLICT OF INTEREST, AFFECTED COMMITTEE MEMBERS WILL ABSTAIN FROM VOTING.

H. APPOINTMENT AND RESPONSIBILITIES OF COMMITTEE CHAIRS: THE PREVIOUS CHAIR OR A REPRESENTATIVE APPROVED BY THE ADMINISTRATIVE COMMITTEE WILL CONVENE THE FIRST MEETING. THE COMMITTEE ELECTS A NEW CHAIR AT THAT MEETING (QUORUM MUST BE PRESENT). COMMITTEE CHAIRS:

1. **SCHEDULE MEETINGS;**
2. **PRESIDE OVER MEETINGS;**
3. **WRITE AND SUBMIT A REPORT TO THE ADMINISTRATIVE COMMITTEE AT THE LAST MEETING OF THE ACADEMIC YEAR SUMMARIZING THE ACTIONS OF THE COMMITTEE;**
4. **PROVIDE MEETING MINUTES TO THE FACULTY SENATE.**

I. The standing and permanent committees of the Senate are:

STANDING

1. The Curricular Affairs Committee will deal with **UNDERGRADUATE** curricular and academic policy changes **[[**on all levels except the graduate level**]].**

   [[In addition to the non-voting ex officio member(s) appointed by the provost, the committee may add non-voting ex officio members for one-year terms as deemed necessary.**]]**

2. The Faculty Affairs Committee [[shall]] review**S** issues dealing with faculty prerogative and recommend policy changes to the Faculty Senate. Issues of faculty prerogative include academic freedom, faculty ethics, research and creative activity, and legislative and fiscal issues that may impact faculty concerns at the university. The committee [[will]] act as a faculty advocate**]] ENHANCES COMMUNICATION OF FACULTY ISSUES WITH MEMBERS OF THE BOARD OF REGENTS, [[**legislators**]] PUBLIC OFFICIALS,** and candidates **FOR PUBLIC OFFICE**. **[[**In its concern for fiscal issues the committee shall monitor budget appropriations to the university and evaluate any notice to the faculty of financial exigency.**]]** In performing these duties, the committee [[will]] coordinate**S** as necessary with the relevant officers (and/or their representatives) of the extant collective bargaining units who serve as non-voting members of the Senate and ex-officio members of this committee.

   The committee [[will]] also act**S** as a pool to be drawn upon to act as the United Academics representatives to the Faculty Appeals Board. The chair of the Faculty Affairs Committee [[will]] appoint**S**, from the committee, tenured members of the United Academics bargaining unit who [[will]] serve on [[the]] particular appeals board**S**. If no qualified faculty members are available within the Faculty Affairs Committee, the matter [[will be]] **IS** referred to the Faculty Senate president for appointment of faculty senators to the Faculty Appeals Board.

ALL MATTERS ARE DECIDED BY A MAJORITY VOTE OF ALL VOTING COMMITTEE MEMBERS. VOTING BY ELECTRONIC CORRESPONDENCE IS ALLOWED. VOTING BY PROXY IS NOT ALLOWED.

3. The Unit Criteria Committee **[[**will**]]** review**S** proposed unit criteria for evaluation of faculty submitted by the various peer-review units of UAF, and works with the heads of those units (or their designees) to ensure that their criteria are consistent with those defined in the UAF Faculty Appointment and Evaluation Policies and Regulations "Blue Book". **SPECIAL UNIT CRITERIA MAY ADD TO THE STANDARD TEMPLATE THAT IS DRAWN FROM THE BLUE BOOK BUT MAY NOT ALTER ITS LANGUAGE OR FORMATTING. THE CRITERIA TO BE REVIEWED MAY INCLUDE THOSE SUBMITTED EVERY FIVE (5) YEARS PURSUANT TO BLUE BOOK REGULATIONS. THEY MAY ALSO INCLUDE THOSE PROPOSED BY UNITS FOR REVISION AT OTHER TIMES.** The committee **[[**will**]]** also review**S** proposed changes to the "Blue Book."

   To ensure that perspectives from across UAF are represented, membership **[[**will**]]** consist**S** of at least five senators, one each from the following five schools / colleges: CLA, CRCD, CNSM, SFOS, and CEM; and at least one from CES, **[[SNRAS]] SNRE**, SOE, SOM or LIB; and at least one senator who has an appointment with a research institute.

   Final composition of the Unit Criteria Committee **[[**will be**]] IS** approved by the Faculty Senate Administrative Committee.

   THERE WILL BE NO ELECTRONIC VOTING.

PERMANENT

1. The Graduate Academic & Advisory Committee has responsibility for oversight, review and approval of all professional degree courses and programs **[[**including 500-level courses**]]**. The committee advises the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial **[[**and tax-related**]]** issues and dealings with other universities.

   The Graduate Academic & Advisory Committee includes ten faculty members **AND UP TO TWO GRADUATE STUDENTS**. The Dean of the Graduate School, Director of the Library, **AND** the University Registrar, [[and two graduate students]] are non-voting ex-officio members. **GRADUATE STUDENT REPRESENTATIVES ARE APPOINTED BY THE DEAN OF THE GRADUATE SCHOOL**.

2. The Student Academic Development and Achievement Committee [[shall]] consider**S** policies **AND CURRICULUM RELEVANT TO** [[concerning]] student **PLACEMENT**, development, and retention. This committee [[will]] function**S** as a

curriculum review committee for all developmental education courses. [[and other courses facilitating student progress.]]

The Student Academic Development and Achievement Committee (SADA) [[will]] include**S** one **FACULTY** representative from each of the following units of the College of Rural and Community Development: Bristol Bay Campus, Chukchi Campus, Interior-Aleutians Campus, Kuskokwim Campus, Northwest Campus, and Community and Technical College, [[One or more of these should be from rural campus student services]] **ONE OR MORE OF THESE SHOULD BE FROM DEVELOPMENTAL EDUCATION**. The committee [[will]] also include**S** one representative from the **FAIRBANKS** Department of Developmental Education, two [[at large]] representatives from the College of Natural Sciences and Mathematics: one from the Sciences (Biology, Chemistry, Geology, or Physics) and one from Math; [[one]]**TWO** from the College of Liberal Arts, **INCLUDING ONE FROM THE** English Department; and one each from Rural Student Services, [[the Academic Advising Center]], **RURAL CAMPUS STUDENT SERVICES,** and **EITHER THE ACADEMIC ADVISING CENTER OR** the Student Support Services Program. [[**ALL OF THE ABOVE MEMBERS WILL BE CONSIDERED FULL MEMBERS OF THE COMMITTEE. OTHER EX-OFFICIO MEMBERS MAY BE ASKED TO SERVE ON THE COMMITTEE AS NEEDED.]]**

3. **[[**The Faculty Development, Assessment and Improvement Committee will be composed of faculty members and a representative from the Office of Faculty Development to be selected by the Provost. This committee will deal with faculty and instructional development and evaluation.]]

   THE FACULTY DEVELOPMENT, ASSESSMENT, AND IMPROVEMENT (FDAI) COMMITTEE FACILITATES FACULTY DEVELOPMENT RELATIVE TO ALL COMPONENTS OF FACULTY PROFESSIONAL ACTIVITIES INCLUDING TEACHING, RESEARCH, AND SERVICE TO THE UNIVERSITY, THE PROFESSIONAL COMMUNITY, AND THE PUBLIC. FDAI PROMOTES EXCELLENCE IN FACULTY TEACHING THROUGH EVALUATING THE STATUS OF FACULTY DEVELOPMENT AND ASSESSMENT, FACILITATING INTELLECTUAL ACTIVITY AND INTERACTION AMONG FACULTY, PROMOTING FAIR AND RELEVANT FACULTY EVALUATION SYSTEMS, AND DEVELOPING AND/OR PILOTING PROFESSIONAL DEVELOPMENT INITIATIVES THAT RECOGNIZE AND PROMOTE GOOD PRACTICE IN TEACHING AND RESEARCH.

   THE FDAI CONSISTS OF THE CHAIR, AND UP TO 13 OTHER MEMBERS. THE MEMBERSHIP OF THE FDAI MUST INCLUDE FACULTY FROM BOTH RURAL AND FAIRBANKS CAMPUSES AND CAN INCLUDE FACULTY WHO ARE SENATORS AND NON-SENATORS. IN ADDITION TO ITS REGULAR MEMBERS, THE FDAI INCLUDES NON-VOTING EX-OFFICIO MEMBERS. THESE INCLUDE A MANDATORY EX-OFFICIO REPRESENTATIVE FROM THE OFFICE OF FACULTY DEVELOPMENT (TO BE SELECTED BY THE PROVOST), A MEMBER FROM UAF ELEARNING, AS WELL AS A MEMBER

OF UAF'S LIST OF DEANS. OTHER NON-VOTING EX-OFFICIO MEMBERS MAY BE INVITED BY THE COMMITTEE.

…

5. The Core Review Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the core curriculum at UAF. The Core Review Committee coordinates and recommends changes to the core curriculum, develops the process for assessment of the core curriculum, regularly reports on assessment of the core curriculum, monitors transfer guidelines for core courses, acts on petitions for core credit, and evaluates guidelines in light of the total core experience. This committee will also review courses for oral, written, and natural science core classification. If the committee determines that a course fails twice in a row to meet "O" or "W" guidelines as specified by the Faculty Senate, the committee shall have the power to revoke "O" or "W" designators from that course.* Committee actions made prior to March 1 will become effective in the next year's Catalog. Designators will be restored as soon as the course has been reapproved by the committee as once again conforming to "O" or "W" guidelines.

   *As found at:
   http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-core-desig/

   The committee shall be composed of one faculty member from each of the core component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, and Library Science) [[and]] one faculty member from a non-core component area **AND ONE FACULTY MEMBER FROM CRCD, AS VOTING MEMBERS.** Membership on the committee **MAY** include an undergraduate student **AS A NON-VOTING MEMBER,** and representatives from the colleges specifically tasked with core assessment.

6. **[[**The Committee on the Status of Women. Membership will consist of nine people, two of whom will be a senator, the others to be elected at large from among UAF faculty.**]]**

   The purpose of **THE COMMITTEE ON THE STATUS OF WOMEN** [[this committee]] is to monitor the status of women faculty at UAF and to work proactively for gender equity.

   Such actions will include, but are not limited to: Maintaining lists of women faculty with hire, tenure and promotion dates; Organizing and supervising surveys on the status of women and assessing the cultural climate of the university as it pertains to women; Recommending policy to address the needs of women faculty; Supporting mentoring of women, both new and mid-career faculty, including **FACILITATING** [[running]] workshops on mentoring, promotion and tenure, negotiating techniques, **PROVIDING VENUES FOR NETWORKING, COLLABORATION AND ADVOCACY** and other forms of faculty development identified as necessary; Addressing family-work issues, such as child care, parental leave, spousal/partner hire; Coordinating with other campus

and university groups which deal with women's and gender issues; and any other issues which would help women to achieve equity at UAF.

Membership will consist of **TEN** [[nine]] **MEMBERS**, **AT LEAST ONE** [[two]] of whom will be a senator, **EIGHT** [[the others]] to be elected at large from among UAF faculty, **AND THE COORDINATOR OF THE WOMEN'S CENTER**. [[The chair will be a voting member]].

RECOGNITION OF SERVICE BY BRIAN ROGERS

WHEREAS, Brian Rogers is retiring on August 31, 2015, after serving faithfully for seven years as interim Chancellor and Chancellor of the University of Alaska Fairbanks, since 2009, during an increasingly challenging period; and

WHEREAS, Brian Rogers as Chancellor has been a steadfast advocate for UAF with the Statewide Administration, the Board of Regents and the Alaska State Legislature; and

WHEREAS, during his tenure, the University grew in terms of numbers of degrees awarded, students enrolled, and facilities available for education, research, and student services; and

WHEREAS, Brian Rogers has served nearly 20 years in all as a university employee and has 45 years of association with the University of Alaska, beginning with his arrival as a student in 1970 and including eight years of service on the Board of Regents; and

WHEREAS, Brian Rogers has been a strong proponent of academic freedom and has consistently advanced the concept of shared governance with staff and faculty; and

WHEREAS, Brian Rogers continually sought to strengthen the commitment to diversity and workplace ethics and has been instrumental in strengthening university ties to the larger community; and

WHEREAS, Brian Rogers has served as a member of the Alaska House of Representatives from 1979 to 1982, as the director of Budget Development and then as Vice President for Finance at the University of Alaska from 1984 to 1995 and as a member of the Board of Regents of UA from 1999 to 2007, being appointed by Governor Knowles; and

WHEREAS, Brian Rogers has served as the chair of the UArctic Board of Governors, The Nature Conservancy Alaska Trustees and the Great Northwest Athletic Conference CEO board, as well as serving as a member of numerous community and state organizations including the Foraker Group Governance Board, the Greater Fairbanks Chamber of Commerce Board of Directors, and the Fairbanks Downtown Rotary; and

WHEREAS, Brian Rogers and his wife and UAF alumna Sherry Modrow have worked as a strong team to serve various causes for the betterment of UAF and its community; and

WHEREAS, the faculty of the University of Alaska Fairbanks, through its Faculty Senate, wish to acknowledge and appreciate the outstanding contributions to higher education of Brian Rogers, the Chancellor of UAF; now

THEREFORE, BE IT RESOLVED that the UAF Faculty Senate acknowledges the many valuable and far-reaching contributions of Brian Rogers and expresses its utmost gratitude and appreciation for his exemplary service.

RECOGNITION OF SERVICE BY CÉCILE LARDON

WHEREAS, Cécile Lardon has served the UAF Faculty Senate for seven years in a manner deserving of the UAF Faculty Senate's highest admiration and respect; and

WHEREAS, Cécile Lardon has served as Senator to the UAF Faculty Senate from 2006-2007, and from 2009-2010 through 2012-2013; and

WHEREAS, Cécile Lardon has served as President-Elect of the UAF Faculty Senate from 2013-2014; and

WHEREAS, Cécile Lardon has served as UAF Faculty Senate President from 2014-2015; and

WHEREAS, Cécile Lardon has served on the Committee on the Status of Women as a member in 2006-2007; and

WHEREAS, Cécile Lardon has served on the Faculty Affairs Committee as a member in 2009-2010 through 2011-2012, and served as chair in 2012-2013; and

WHEREAS, Cécile Lardon has served on the Faculty Senate Administrative Committee as a member from 2012-2013, and served as chair in 2013-2014; and

WHEREAS, Cécile Lardon has served as President-Elect of the UAF Faculty Senate in 2013-2014; and

WHEREAS, Cécile Lardon has served as President of the UAF Faculty Senate in 2014-2015, with positive and unflagging commitment and dedicated leadership during challenging times of academic change, and exceptionally tough budgetary times; and

WHEREAS, Cécile Lardon has served as liaison between the Faculty Senate and UAF Administration through her service on the UAF Provost's Council from 2013-2015; and

WHEREAS, Cécile Lardon has provided a strong faculty voice as a member of the Planning and Budget Committee (for two and a half years) and the Chancellor's Budget Options Group (in the spring of 2014) in order to provide a vital faculty perspective in addressing the serious budget shortfalls affecting UAF; and

WHEREAS, Cécile Lardon has made valuable contributions as a member of the UA Faculty Alliance, and the System Governance Council; and provided valuable counsel to the Faculty Alliance Chair; and

WHEREAS, Cécile Lardon has represented the Faculty Alliance on the Statewide Academic Council in 2013-2014 (and will again in 2015-2016); and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the Faculty and the University by the work of Cécile Lardon as she concludes her term as President; now

THEREFORE, BE IT RESOLVED that the UAF Faculty Senate acknowledges the many contributions of Cécile Lardon and expresses its appreciation for her exemplary service.

Outstanding Senator of the Year Award
Academic Year 2015

WHEREAS, Brian E.G. Cook has served as Senator to the UAF Faculty Senate during 2014-2015; and

WHEREAS, Brian E.G. Cook has served on the Curricular Affairs Committee during 2014-2015; and

WHEREAS, Brian E.G. Cook stepped adeptly into an important role and served as chair of the Curricular Affairs Committee during 2015; and

WHEREAS, Brian E.G. Cook has actively and thoughtfully engaged members of the Curricular Affairs Committee in discussions concerning academic programs, academic policy, and general education requirements; and

WHEREAS, Brian E.G. Cook worked diligently to involve the UAF faculty in active discussion about general education revitalization, student learning outcomes, and assessment of student learning outcomes; and

WHEREAS, under Brian E.G. Cook's leadership, the Curricular Affairs Committee has effectively worked to fulfill its mission to UAF faculty; and

WHEREAS, Brian E.G. Cook has consistently and actively contributed to the Faculty Senate Administrative Committee, providing valuable assistance to Senate leadership in handling matters both routine and extraordinary; and

WHEREAS, Brian E.G. Cook has been fundamental to the organization and continuing success of the CLA Faculty, Staff, and Student Forum; and

WHEREAS, Brian E.G. Cook consistently is well prepared, takes a thoughtful and well-reasoned approach to issues under discussion, and maintains an open mind to new information; and

WHEREAS, Brian E.G. Cook consistently sets an outstanding example of a committed UAF Faculty Senator and faculty member; now

THEREFORE, BE IT RESOLVED that the UAF Faculty Senate recognizes Brian E.G. Cook as Outstanding Senator of the Year for Academic Year 2014-2015.

RECOGNITION OF SERVICE
BY
ANDREA FERRANTE

WHEREAS, Andrea Ferrante has served as the chair of the Electronic Course Assessment Implementation (ECAI) committee during the 2014-15 academic year; and

WHEREAS, Andrea Ferrante took on a complex task with a very short timeline; and

WHEREAS, Andrea Ferrante demonstrated excellent leadership in guiding the committee through several phases of developing online course evaluations for UAF; and

WHEREAS, Andrea Ferrante led a diverse committee that could discuss and incorporate input on course assessment from multiple perspectives; and

WHEREAS, Andrea Ferrante worked effectively with the company UAF contracted to provide the software for the electronic course evaluations; and

WHEREAS, Andrea Ferrante skillfully coordinated and communicated with multiple constituencies needed to implement electronic course evaluations at UAF, including faculty, students, and administrators; and

WHEREAS, Andrea Ferrante artfully managed the needs of these constituencies throughout the project; and

WHEREAS, Andrea Ferrante has devoted his considerable time and attention to this project as service to the University and not as a Faculty Senator; now

THEREFORE, BE IT RESOLVED that the UAF Faculty Senate acknowledges the many valuable and far-reaching contributions of Andrea Ferrante and expresses its utmost gratitude and appreciation for his exemplary service.

RECOGNITION OF SERVICE
BY
LEAH BERMAN

WHEREAS, Leah Berman has been a member of the General Education Revitalization Committee (GERC) develop the next general education curriculum and outcomes assessment system for UAF and to adopt new student learning outcomes since 2011; and

WHEREAS, Leah Berman has served the University of Alaska Fairbanks as chair of the Core Review Committee during the 2014-15 academic year; and

WHEREAS, Leah Berman served on the statewide General Education Learning Outcomes (GELO) Task Force to develop common learning outcomes for the UA system in 2013-14; and

WHEREAS, Leah Berman served on the statewide General Education Alignment Task Force working to align general education requirements across the UA system in 2014-15; and

WHEREAS, Leah Berman has been a strong advocate for general education reform at UAF and across the UA system; and

WHEREAS, Leah Berman has worked tirelessly, diligently and effectively to communicate to the broader UAF faculty about the work of the General Education Revitalize Committee by means of a UAF-wide faculty survey, faculty forums, and presentations to numerous academic departments; and

WHEREAS, Leah Berman has been instrumental in bridging disparate viewpoints and in artfully managing the needs of various constituencies in all of her governance work; and

WHEREAS, Leah Berman has devoted her considerable time and attention to governance issues as service to the University and not as a Faculty Senator; now

THEREFORE, BE IT RESOLVED that the UAF Faculty Senate acknowledges the many valuable and far-reaching contributions of Leah Berman and expresses its utmost gratitude and appreciation for her exemplary service.

The UAF Faculty Senate passed the following at Meeting #206 on April 6, 2015:

MOTION:

The UAF Faculty Senate moves to confirm the nomination of Brian E.G. Cook for the 2014-2015 Outstanding Senator of the Year.

EFFECTIVE: Immediately

RATIONALE: The selection committee has carefully reviewed the nominations according to the award criteria, and forwards the nomination of Brian E.G. Cook as Outstanding Senator of the Year for confirmation by the Faculty Senate. Procedure stipulates that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting.

****

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #206 on April 6, 2015:

MOTION:

The UAF Faculty Senate affirms by acclamation the election of Dr. Orion Lawlor as the Faculty Senate President-Elect for 2015-2016.

EFFECTIVE: Term of office begins at the May 2015 meeting when the 2015-16 Faculty Senate is convened.

RATIONALE: A single eligible nomination has been accepted for the President-Elect position. Unless further nominations are made and accepted, a secret ballot election need not be held. Acclamation of the single nominee's election will suffice.

****

President, UAF Faculty Senate

PERSONAL STATEMENT: DR. ORION LAWLOR

By clearly articulating the faculty's voice and working constructively with the administration, regents, and state legislature, the faculty senate has the ability to transform our state budget cuts from a crisis into an opportunity to improve our university. This is our chance to renew our focus on our tripartite mission, to free both students and faculty by removing the unnecessary barriers to what we all love about the university: discovering and sharing knowledge.

During these challenging budget years, it is tempting to operate defensively, doing things the way we've always done them, and leave the hard decisions to the administration. But shared governance means the faculty senate should not force our administrators to make these difficult choices without our advice, just as they should not make them without our consent.

Since I first set foot on the UAF campus for a high school summer program in 1992, while earning two bachelor's degrees as an undergraduate from 1995 to 1999, and since returning as a faculty member in 2005, I've continued to be amazed by this institution's drive, innovation, and openness. I would be honored to help the faculty senate shape UAF into a vibrant and engaged arctic university!

Professional Preparation
U. Illinois Urbana-Champaign, Computer Science, PhD, 2005
U. Illinois Urbana-Champaign, Computer Science, MS, 2001
U. Alaska Fairbanks, Computer Science, BS, 1999
U. Alaska Fairbanks, Mathematics, BS, 1999

Appointments
Associate Professor, Computer Science, U. Alaska Fairbanks, 2012–present.
Assistant Professor, Computer Science, U. Alaska Fairbanks, January 2005–2012.

The UAF Faculty Senate passed the following at Meeting #206, April 6, 2015:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Journalism Department (CLA).

EFFECTIVE: Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted from the Journalism Department. With minor revisions, the unit criteria were found to be consistent with UAF guidelines.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND *JOURNALISM* UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE JOURNALISM DEPARTMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity ***AND/OR PROFESSIONAL JOURNALISM, OR RELEVANT CREATIVE MEDIA***; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***OTHER AREAS INCLUDE DEVELOPING INTERNSHIP***

OPPORTUNITIES FOR STUDENTS AND ASSISTANCE FINDING EMPLOYMENT OR ADVANCING PROFESSIONAL CAREERS.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design; ***INCLUDING CREATING OPPORTUNITIES FOR PUBLICATION OF CLASS EFFORTS OR INDIVIDUAL STUDENT WORKS IN PROFESSIONAL JOURNALISM PUBLICATIONS AND RELEVANT MEDIA OUTLETS.***

   g. may receive prizes and awards for excellence in teaching ***AND ADVISING OR ASSITANCE AND ENCOURAGEMENT PLACING STUDENT WORK IN RELEVANT MEDIA.***

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as ***scholars OR PROFESSIONAL JOURNALISTS, WHICH INCLUDES WORK AS BROADCASTERS, COMMENTATORS, PROGRAM TALENT AND OTHER RELEVANT MEDIA CONTENT PRODUCERS.*** Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. ***RECOGNITION OF CREATIVE EXCELLENCE IN JOURNALISM MAY TAKE THE FORM OF PROFESSIONAL AWARDS, EDITORIAL SELECTIONS FOR PUBLICATION, SCREENINGS, INCLUDING FESTIVALS, RELEVANT MEDIA SHOWS AND PRODUCTION CREDITS***.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers. ***THIS INCLUDES PROFESSIONAL JOURNALISTS AND/OR RELEVANT MEDIA PRODUCERS.***

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of *research papers* ***OR BYLINES, PRODUCTION CREDITS, CONTRACTS, ACCEPTANCE LETTERS AND OTHER ACKNOWLEDGEMTS OF REPORTING, RESEARCHING, PHOTOGRAPHING, EDITING OR OTHERWISE PRODUCING RELEVANT MEDIA.***

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***CONTRIBUTING TO THE PRODUCTION OF RELEVANT MEDIA CONTENT, INCLUDING NON-FICTION BOOKS, ARTICLES, AUDIO REPORTS, DOCUMENTARIES, FILMS, PODCASTS, NEWS PROGRAMS, VIDEOS, WEBSITES OR EMERGING MOBILE AND ALTERNATIVE INFORMATION-DELIVERY PLATFORMS***.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial

obligation for the internal functioning of the institution; such service is identified as "university service."

1. **Public Service**
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting.

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

   i. Training and facilitating.

   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. **University Service**
   University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its

colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that

unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The UAF Faculty Senate passed the following at Meeting #206, April 6, 2015:

MOTION:

The Faculty Senate moves to revise wording in the Course Catalog to specify the time limit of 2 years for the temporary grade "DF" (Deferred) in undergraduate courses, after which time the final grade recorded will change to a "W" (Withdrawn).

EFFECTIVE: Fall 2015

RATIONALE: The DF grade is a temporary grade assignment, not a final designation. Currently, the Registrar's office is faced with a significant number of DF grades which have not been finalized, many of them considerably older than 2 years. This motion provides for the automatic conversion of all future DF grade designations in undergraduate courses after two years unless action is taken to either enter a final grade designation or request an extension from the Registrar.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 4/7/15
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

This motion will make the following changes to the UAF Catalog, page 46:

BOLD = Additions

DF Deferred — This designation is used for courses such as theses and special projects, which require more than one semester to complete. It indicates that course requirements cannot be completed or when institutional equipment breakdown resulted in noncompletion by the end of the semester. Credit may be withheld without penalty until the course requirements are met within an approved time. **FOR UNDERGRADUATE COURSES, THE GRADE WILL AUTOMATICALLY CHANGE TO A W (WITHDRAWN) AFTER TWO YEARS UNLESS AN EXTENSION IS REQUESTED AND GRANTED BY THE REGISTRAR.**

(with friendly amendment highlighted on page 2)

The UAF Faculty Senate passed the following at Meeting #206, April 6, 2015:

MOTION:

The Faculty Senate moves to update its policy on academic credit to reflect the updated University Regulations (R10.04.090.F.2) enacted in August 2014.

EFFECTIVE: Fall 2015

RATIONALE: The updated policy is a more inclusive statement about the various types of course credit offered by UAF. It also reflects more accurately the current university regulations:

R10.04.090.F.2 A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than: 1) one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or the equivalent amount of work over a different amount of time; or 2) at least an equivalent amount of work for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours. Equivalencies to this standard may be approved by the chief academic officer of the university or community college.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 4/7/15
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

The following is proposed to replace the current policy from http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-computing-/

Proposed UAF Faculty Senate Policy on Academic Credit
[[ ]] = existing, but to be removed;
BOLD = to be added.

A CREDIT HOUR REPRESENTS AN AMOUNT OF WORK THAT REASONABLY APPROXIMATES NOT LESS THAN:

1. **ONE HOUR OF CLASSROOM OR OTHER FACULTY INSTRUCTION AND A MINIMUM OF TWO HOURS OF OUT-OF-CLASS STUDENT WORK EACH WEEK FOR APPROXIMATELY FIFTEEN WEEKS, OR THE EQUIVALENT AMOUNT OF WORK OVER A DIFFERENT AMOUNT OF TIME; OR**
2. **AT LEAST AN EQUIVALENT AMOUNT OF WORK FOR OTHER ACADEMIC ACTIVITIES, INCLUDING LABORATORY WORK, INTERNSHIPS, PRACTICE, STUDIO WORK, AND OTHER ACADEMIC WORK.**

[[One academic credit hour of non-laboratory instruction at UAF will consist of a minimum of 800 minutes of instruction. It is understood that an average student will be expected to spend 1600 minutes of study and preparation outside of class in order to meet the learning objectives for the unit of credit in lecture.]]

The following standards establish the minimum requirements for one academic unit of credit for the course formats commonly used at UAF:

1. 800 minutes of lecture **OR EQUIVALENT INSTRUCTIONAL ACTIVITIES** plus 1600 minutes of student work outside of class.
2. 1600 minutes of laboratory (or studio or other similar activity) plus 800 minutes of student work outside of class.
3. 2400 minutes of laboratory (or studio or other similar activity)
4. 2400 - 4800 minutes of supervised practicum
5. 2400 - 8000 minutes of internship (or externship, clinical)
6. 2400 - 4800 minutes of supervised scholarly activity

Credit hours may not be divided, except one-half credit hours may be granted at the appropriate rate.

For short courses and classes of less than one semester in duration, course hours may not be compressed into fewer than three days per credit. Any existing semester-long course that is to be offered in a "compressed to less than six weeks" format must be approved by the college or school's curriculum council and the appropriate UAF Faculty Senate Committee (SADA, Core Review, Curriculum Review or GAAC). Any new course proposal must indicate those course compression format(s) in which the course will be taught. Only approved course formats will be allowed for scheduling.

Given the above information the formula used for computing credit/contact hours is 800 minutes (13.3 hrs) per credit. This equates to approximately 1 hour of lecture per week for a normal 14 week semester. **FOR COURSES THAT DO NOT EMPLOY LECTURES, BUT THAT ARE INTENDED TO ACHIEVE LEARNING OUTCOMES EQUIVALENT TO THOSE OF A LECTURE COURSE (E.G., SOME ELEARNING CLASSES), 800 MINUTES OF STRUCTURED INSTRUCTIONAL ACTIVITIES ARE EXPECTED PER CREDIT, IN ADDITION TO AT LEAST 1600 MINUTES/CREDIT OF OTHER WORK THAT THE STUDENT COMPLETES INDEPENDENTLY. "STRUCTURED INSTRUCTIONAL ACTIVITIES" IS NOT RESTRICTED TO MEAN SYNCHRONOUS INTERACTION**

WITH AN INSTRUCTOR, BUT RATHER FACULTY-DESIGNED INSTRUCTIONAL ACTIVITY INTENDED TO FACILITATE STUDENT LEARNING.

Proposed statement for UAF Catalog:
A credit represents an amount of work that reasonably approximates not less than:

1. one hour of classroom or **OTHER** faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks, or the equivalent amount of work over a different amount of time; or
2. at least an equivalent amount of work for other academic activities, including laboratory work, internships, practice, studio work, and other academic work.

[[One credit represents satisfactory completion of 800 minutes of lecture or 1600 or 2400 minutes of laboratory (or studio or other similar activity), whichever is appropriate. (It is understood that an average student will be expected to spend 1600 minutes of study and preparation outside of class in order to meet the learning objectives for the unit of credit in lecture.) **]]**

The UAF Faculty Senate passed the following at Meeting #206 on April 6, 2015:

RESOLUTION

WHEREAS, the University of Alaska Anchorage Faculty Senate has reviewed Board of Regents Policy and University Regulations concerning the Student Code of Conduct; and

WHEREAS, the University of Alaska Anchorage Faculty Senate has recommended a series of clarifications and other changes to the Student Code of Conduct as specified in University Regulation R09.02.020 **subsection A** to address various shortcomings in existing university regulations; and

WHEREAS, the UA Faculty Alliance has requested that the Faculty Senates at the University of Alaska Fairbanks and the University of Alaska Southeast endorse the recommended changes to R09.02.020 **subsection A**; and

WHEREAS, the UAF Faculty Senate Faculty Affairs Committee has favorably reviewed the proposed changes; now

THEREFORE BE IT RESOLVED, that the UAF Faculty Senate endorses the changes as shown below to R09.02.020 subsection A.

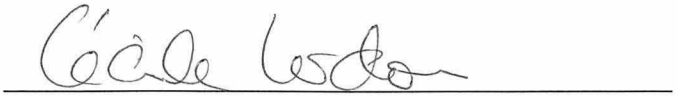
UNIVERSITY REGULATION
PART IX – STUDENT AFFAIRS
Chapter 09.02 - Student Rights and Responsibilities

R09.02.010. General Statement: Student Rights and Responsibilities

The purpose of this regulation is to further define the University of Alaska's Student Code of Conduct, or Code, and to establish a framework for the enforcement of the Code. These procedures, and their elaboration in MAU rules and procedures, will allow for fact-finding and decision-making in the context of an educational community, encourage students to accept responsibility for their actions, and provide procedural safeguards to protect the rights of students and the interests of the university. These procedures are applicable to all students and student organizations.

(11-20-98)

R09.02.020. Student Code of Conduct



Disciplinary action may be initiated by the university and disciplinary sanctions imposed against any student or student organization found responsible for committing, attempting to commit, or intentionally assisting in the commission of any of the following categories of conduct prohibited by the Code.

The examples provided in this section of actions constituting forms of conduct prohibited by the Code are not intended to define prohibited conduct in exhaustive terms, but rather to set forth examples to serve as guidelines for acceptable and unacceptable behavior.

A. Cheating, Plagiarism, or Other Forms of Academic Dishonesty; **ACADEMIC DISHONESTY APPLIES TO EXAMINATIONS, ASSIGNMENTS, LABORATORY REPORTS, FIELDWORK, PRACTICUMS, CREATIVE PROJECTS, OR OTHER ACADEMIC ACTIVITIES.** Examples include:

1. using [[material]] sources **(INCLUDING BUT NOT LIMITED TO TEXT, IMAGES, COMPUTER CODE, AND AUDIO/VIDEO FILES)** not authorized by the faculty member[[during an examination or assignment]];
2. utilizing devices [[that are]] not authorized by the faculty member[[during an examination or assignment]];
3. providing assistance **WITHOUT THE FACULTY MEMBER'S PERMISSION** to another student or receiving assistance **NOT AUTHORIZED BY THE FACULTY MEMBER** from **ANYONE (WITH OR WITHOUT THEIR KNOWLEDGE)** [[another student during an examination or assignment in a manner not authorized by the faculty member]];
4. **SUBMITTING WORK DONE FOR ACADEMIC CREDIT IN PREVIOUS CLASSES, WITHOUT THE KNOWLEDGE AND ADVANCE PERMISSION OF THE FACULTY MEMBER;**
5. [[4.]] presenting as their own the ideas or works of **OTHERS** [[another person]] without proper **CITATION** [[acknowledgment]] of sources;
   [[5. knowingly permitting their works to be submitted by another person without the faculty member's permission;]]
6. acting as a substitute or utilizing a substitute[[in any examination or assignment]];
7. **DECEIVING FACULTY MEMBERS OR OTHER REPRESENTATIVES OF THE UNIVERSITY TO AFFECT A GRADE OR TO GAIN ADMISSION TO A PROGRAM OR COURSE;**
8. [[7.]] fabricating **OR MISREPRESENTING** data[[in support of laboratory or field work]];
9. [[8.]] possessing, buying, selling, obtaining, or using a copy of any material intended to be used as an instrument of **ASSESSMENT** [[examination or in an assignment]] in advance of its administration;
10. [[9.]] altering grade records of their own or another student's work; or
11. [[10.]] offering a monetary payment or other remuneration in exchange for a grade;
12. **VIOLATING THE ETHICAL GUIDELINES OR PROFESSIONAL STANDARDS OF A GIVEN PROGRAM.**

****

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #205, March 2, 2015:

MOTION:

The Faculty Senate moves to adopt the following changes to the UAF Department Chair Policy.

Effective: Immediately

Rationale: The Department Chair Policy has not been revisited or reviewed since 2000. With recent changes made to the United Academics (UNAC) Collective Bargaining Agreement (CBA) in 2014, it is pertinent to review and revise the existing policy.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 3/2/15

CAPS and **Bolded** – Addition; [[ ]] – Deletion

UAF Department Chair Policy

The following is a description of the role and duties of the department chair, and procedures for the election of department chairs at the University of Alaska Fairbanks. The size and composition of departments and programs are defined by each individual college and school.

I. ROLE OF THE DEPARTMENT CHAIR

A. The department chair [[is the administrative and academic officer of the department and as such]] has the primary responsibility [[and authority]] for: (1) leadership in developing high quality academic programs which fulfill department, college, and university objectives; (2) leadership in the implementation of college and university policies and programs at the department level; (3) leadership in developing resource requests and an appropriate departmental budget; and (4) service on the college/school executive committee.

B. The department chair is first a faculty member. The department chair is primarily a teacher-

scholar serving as a leader of his/her department colleagues. The department chair is a role model for faculty responsibility.

C. The department chair is responsible for providing mechanisms and processes for members' participation in discussion and decision-making within the department. All members of the department [[should]] **WILL** be informed of these mechanisms and processes. Regular meetings [[should]] **WILL** be held for purposes of communicating information, discussing issues, and making decisions on department matters.

D. The department chair is **REQUIRED** [[expected]] to communicate faculty perspectives and concerns to the administration and other segments of the community as appropriate. The department chair is the primary spokesperson **FOR** the faculty of the department. The department chair will also **BE REQUIRED TO** convey administration views and concerns to the faculty.

II. DUTIES OF THE DEPARTMENT CHAIR

The department chair is responsible, either directly or by delegation, for performance of at least the specific duties enumerated below (the duties are not prioritized) which shall be performed in accordance with the extant collective bargaining agreements on the role and status of department chairs.

A. Academic Programs

1. Initiate, plan, oversee implementation of, and review the [[preparation]] **PREPARATION,** and offering of the academic program, after appropriate involvement of members of the department and consultation with the dean.

2. [[Ensure]] **FACILITATE** interdepartmental coordination and cooperation.

3. [[Take leading role in ensuring]] **PROMOTE** academic program [[quality]] **QUALITY, INCLUDING PROGRAM ASSESSMENTS.**

4. Ensure reports are prepared as needed. Ensure that course [[schedule]] **SCHEDULES AND OTHER NECESSARY DOCUMENTS** are prepared in a timely manner.

5. Ensure **THE** catalog is current.

6. Supervise **THE DEPARTMENT OFFICE.** [[departmental office and ensure that files and records are maintained.]]

7. Keep the dean informed of departmental and faculty activities. Act as a liaison with the University community.

B. Personnel

1.[[Coordinate and evaluate]] **FACILITATE COORDINATION OF** professional activities of all members of the department, to include providing guidance to faculty concerning expectations regarding promotion and tenure. [[Request and obtain faculty activity reports as

appropriate to this process]].

2. Provide recommendations for appointments, [[promotion]], sabbatical leaves, [[tenure]], and release of faculty after consultation with members of the department.

3. Review and recommend to **THE** dean/director workloads[[,]] **IN CONSULTATION WITH AND** as proposed by faculty members.

4. Take a [[lead]] **LEADING** role in departmental faculty and staff recruitment and retention.

[[5. Provide for the management and supervision of support staff.]]

[[6.]] **5.** Appoint appropriate committees within the department.

[[7.]] **6.** Facilitate support for faculty teaching, research and service activities.

[[8.]] **7.** Function as spokesperson and advocate for the department, both within and outside the University community.

C. Students

1. Administer the departmental student [[advisement program and counsel students.]] **ADVISING PROGRAM.**

2. Recruit students in cooperation with other members of the department and the dean.

3. Act on student petitions.

4. Provide for the management of student assistants.

5. Address student concerns as appropriate.

D. Budget, Inventory, Facilities, Etc.

1. Initiate resource and budget requests with justifications.

2. Maintain fiscal control of departmental budgets.

3. Ensure upkeep of equipment and facilities assigned to the department.

III. ELECTION AND TERMS OF SERVICE OF THE DEPARTMENT CHAIR

A. Departments Involved

The procedures will apply to every unit that is considered a department.

B. Eligibility to Vote

All **[[**full-time**]]** faculty members holding academic rank who are affiliated with the department **AND ARE REPRESENTED THROUGH THE CURRENT APPLICABLE COLLECTIVE BARGAINING AGREEMENTS** are eligible to vote. [[Visiting faculty who are in an academic rank position are eligible to vote.]]

A **[[**full-time**]]** faculty member currently holding academic rank is affiliated with a department if

[[: 1) the chair of that department evaluates the faculty member or;]]

[[2)]] the chair of [[the]] **THAT** department reviews the faculty member's workload agreement.

C. Eligibility to be Nominated and Serve as Department Chair

[[Only tenured members of a department who are eligible to vote are eligible to be nominated and serve as department chair. Only in exceptional circumstance, where the majority of the department faculty feel that options are severely limited, should there may be deviation from this policy.**]]**

THE SENATE RECOMMENDS THAT ONLY TENURED MEMBERS OF A DEPARTMENT WHO ARE ELIGIBLE TO VOTE BE NOMINATED AND SERVE AS DEPARTMENT CHAIR, EXCEPT UNDER EXCEPTIONAL CIRCUMSTANCES.

D. Procedures for Elections

1. By March 15, those faculty in the department who are eligible to vote will establish a list of nominees for department chair. The names of the nominees will be placed on an official secret ballot for the department and distributed from the dean's office to those faculty eligible to vote.

2. Faculty members eligible to vote [[but]] who are absent because of sabbatical leave, leave of absence, or for other official reasons will be provided with an absentee ballot.

3. Secret ballots are to be cast. **EACH BALLOT SHALL INCLUDE THE OPTION TO VOTE FOR "NONE OF THE ABOVE".**

4. **THE DEAN'S OFFICE SHALL TALLY THE VOTES. THE RESULTS MAY BE VERIFIED BY ANY FACULTY MEMBER REQUESTING TO DO SO.**

5. The person receiving a simple majority of the votes cast will be elected. [[In the case of a tie which cannot be resolved by the voters, the dean shall select the department chair from those faculty involved in the tie vote.]] **IF "NONE OF THE ABOVE" RECEIVES A MAJORITY VOTE, A NEW ELECTION MUST BE HELD.**

[[4.]] **6.** If no nominee receives a simple majority of the votes, a runoff election of the top two nominees shall be held immediately under the same procedures outlined above. **IN THE CASE OF A TIE, THE DEAN SHALL SELECT THE DEPARTMENT CHAIR FROM THOSE NOMINEES INVOLVED IN THE TIE VOTE.** The deadline for

accepting ballots for the run-off election will be the last working day prior to April 15.

[[5.]] **7.** Departments and the provost will be notified of election results by May 15.

E. Term of Elected Department Chair

A department chair shall serve for a term of two years, beginning July 1, following his/her election. **THE DEPARTMENT CHAIR MAY SERVE CONSECUTIVE TERMS.** [[The department chair may continue in the position indefinitely by a simple majority of the voting faculty of the department.]]

F. Department Chair Disputes, Vacancies, and Recall

1. If an action of the department chair is [[appealed]] **DISPUTED** by a simple majority of the eligible voting members of the department and the issue cannot be resolved within the department, the matter shall be referred to the dean for arbitration. If necessary, the dean will refer the matter to the Provost. [[(See Section F 6 for recall procedure.)]]

2. If the department chair's position becomes vacant due to unexpected prolonged leave, illness, death, resignation, or other circumstances, the dean shall appoint a department faculty member **OR OTHER TENURED FACULTY MEMBER WHO IS ELIGIBLE TO SERVE AS A DEPARTMENT CHAIR AS DEFINED BY THIS POLICY.** An election to fill this position will be held the following April 15.

3. The department chair shall appoint an acting department chair whenever [[their absence]] **ABSENT** from the department **AND UNAVAILABLE TO CARRY OUT CHAIR DUTIES.** [[is for a period of less than two months]] **THE CHAIR SHALL NOTIFY DEPARTMENT MEMBERS AND DEAN OR DIRECTOR OF SUCH APPOINTMENT.** If this absence extends beyond two months, the procedure defined in Section F. 2. above is to be followed.

4. Election of a new department chair may be requested by petition to the dean signed by three-quarters of the eligible voting members of the department or by the petition of the Dean to the department approved by **THREE FOURTHS** [[3/4's]] of the voting members of the department. After the election by the faculty [[and ratification by the Dean]], the new department chair will take office immediately and serve the unexpired term.

G. Acknowledgement for Department Chair Duties

A Department chair's duties may be acknowledged through release time, remuneration, and/or their service component of their faculty duties. Any acknowledgement must be agreed upon between the Department chair and the Dean and must be consistent with UAF and Board of Regent's policies and extant Collective Bargaining Agreements.

The UAF Faculty Senate passed the following at Meeting #205 on March 2, 2015:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the International Arctic Research Center (IARC).

EFFECTIVE: Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted from IARC. With changes and revisions agreed upon with IARC faculty, the unit criteria were found to be consistent with UAF guidelines.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 3/2/15
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

UAF Regulations for the Appointment and Evaluations of Faculty

And International Arctic Research Center Unit Criteria, Standards, and Indices

The following is an adaptation of UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of the International Arctic Research Center (IARC). Items in boldface italics are those specifically added or emphasized because of their relevance to the department's faculty, and because they are additions to UAF regulations.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.
IN ACCORDANCE WITH THE BOARD OF REGENTS POLICY ON PROMOTION AND TENURE, IARC FACULTY MAY BE EXEMPTED FROM A TRIPARTITE RESPONSIBILITY. SUCH FACULTY HAVE BIPARTITE RESPONSIBILITY. THE BIPARTITE RESPONSIBILITIES ARE TO BE CLEARLY STATED AT THE TIME OF HIRE AND CAN BE ANY COMBINATION OF TWO OF THE THREE TRIPARTITE MISSIONS, I.E., TEACHING, RESEARCH, OR SERVICE.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service. ***EVALUATIONS SHOULD BE CONSISTENT WITH AN INDIVIDUAL FACULTY MEMBER'S JOB DESCRIPTION AND WORKLOAD AGREEMENT.***

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial

sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   ***IARC** HAS A LARGE NUMBER OF BIPARTITE FACULTY THAT DO NOT HAVE A TEACHING COMPONENT TO THEIR WORKLOAD. FOR THESE FACULTY, SCHOLARLY ACTIVITY AND SERVICE CRITERIA ARE THE DOMINANT CRITERIA FOR EVALUATION.*

   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design.

   g. may receive prizes and awards for excellence in teaching.

   ALTHOUGH THESE ACHIEVEMENTS WOULD NOT BE EXPECTED TO OCCUR ON AN ANNUAL BASIS.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. NEW AND UNIQUE ADAPTATIONS OF EXISTING RESEARCH BASED TECHNOLOGY OR KNOWLEDGE IN ORDER TO SOLVE PROBLEMS RELEVANT TO ALASKA

n. EDUCATION AND OUTREACH MATERIALS FOR DISSEMINATION OF RESEARCH FINDINGS AND/OR RESEARCH PROCESS TO A BROAD COMMUNITY OF STAKEHOLDERS. (K-12 STUDENTS, LIFE-LONG LEARNERS, GENERAL PUBLIC, RESOURCE AGENCIES, POLICY MAKERS ETC.)

o. SCIENTIFIC REPORTS DOCUMENTING PROJECT FINDINGS PRESENTED TO PROJECT CONTRACTOR/FUNDER.

p. DOCUMENTATION AND DISSEMINATION OF LOCAL AND TRADITIONAL KNOWLEDGE (LTK) FROM ALASKAN COMMUNITIES (WITH THEIR CONSENT AND APPROVAL) TO THE BROADER COMMUNITY OF STAKEHOLDERS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the

university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. INSTITUTIONAL REPRESENTATION AT IARC EDUCATIONAL DISPLAYS, BOOTHS AND EXHIBITS AT PUBLIC EVENTS.

m. DISSEMINATION OF RESEARCH BASED INFORMATION IN AN EASILY UNDERSTOOD FORMAT THAT CAN BE USED BY FEDERAL AND STATE AGENCIES, NON-GOVERNMENTAL ORGANIZATIONS AND THE PUBLIC.

n. ASSISTING REGIONAL AND LOCAL ORGANIZATIONS UNDERSTAND DATA AND SCIENTIFIC FINDINGS NECESSARY TO PLAN AND FASHION POLICY.

o. PRODUCTION OF IARC FACT SHEETS TO DISSEMINATE INFORMATION TO A BROAD AUDIENCE IN AN EASILY UNDERSTOOD FORMAT.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit (SEE BELOW FOR IARC). Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

CHAPTER IV

PROMOTION GUIDELINES FOR IARC RESEARCH FACULTY

IARC RESEARCH FACULTY ARE PRIMARILY BIPARTITE WITH A SIGNIFICANT FOCUS ON SCHOLARLY AND SERVICE EFFORTS WITH A CORRESPONDING REDUCTION IN TEACHING EFFORT. ACCOMPLISHMENT IN RESEARCH, SERVICE AND TEACHING AS OUTLINED ABOVE WILL BE EVALUATED IN ACCORDANCE TO AN INDIVIDUAL FACULTY MEMBER'S WORKLOAD AGREEMENT.

EACH PROMOTION APPLICANT'S COMPLETE PUBLICATION RECORD, INCLUDING PAPERS PUBLISHED BEFORE THEY WERE AFFILIATED WITH IARC, SHOULD BE CONSIDERED RELEVANT TO PROMOTION DECISIONS. IN ADDITION, THE NATURE OF A FACULTY MEMBERS WORKLOAD ASSIGNMENTS AND THEIR OPPORTUNITY FOR PUBLICATION THROUGHOUT THEIR CAREER LEADING UP TO THE REVIEW DATE IS CONSIDERED RELEVANT TO PROMOTION DECISIONS.

1. PROMOTION TO RESEARCH ASSOCIATE PROFESSOR

TO BE ELIGIBLE FOR PROMOTION TO A RESEARCH ASSOCIATE PROFESSOR:

a. A RESEARCH ASSISTANT PROFESSOR WILL HAVE ACHIEVED TECHNICAL MASTERY AND MATURITY IN THEIR RESEARCH FIELD AND ACHIEVED A NATIONAL REPUTATION FOR THEIR ACHIEVEMENTS.

b. *A RESEARCH ASSISTANT PROFESSOR WILL HAVE PURSUED A COURSE OF RESEARCH TO THE POINT OF ESTABLISHMENT OF A SOUND AND WELL-FOUNDED LINE OF SCHOLARLY INVESTIGATION.*

c. *A RESEARCH ASSISTANT PROFESSOR WILL HAVE DEMONSTRATED SERVICE LEADERSHIP, COLLABORATION, AND ADMINISTRATION.*

EVIDENCE OF ACCOMPLISHMENT FOR PROMOTION TO ASSOCIATE PROFESSOR INCLUDES BUT IS NOT LIMITED TO:

i. *PUBLICATION OF A SERIES OF PAPERS IN REFEREED JOURNALS OR PEER REVIEWED BOOK CHAPTERS. DUE TO THE HIGHLY INTERDISCIPLINARY NATURE OF ARCTIC SYSTEM SCIENCE IT IS EXPECTED THAT MANY OF THESE WILL BE MULTI-AUTHOR ARTICLES BUT A GOOD NUMBER SHOULD BE FIRST-AUTHORED.*

ii. *DEMONSTRATED SUCCESS IN SECURING RESEARCH FUNDING AS PRINCIPAL INVESTIGATOR OR CO-PRINCIPAL INVESTIGATOR.*

iii. *PARTICIPATION IN NATIONAL OR INTERNATIONAL RESEARCH PROJECTS.*

iv. *SERVING ON NATIONAL OR INTERNATIONAL COMMITTEES.*

v. *ASSUMING A LEADERSHIP ROLE IN THE ARCTIC RESEARCH AND BROADER SCIENCE COMMUNITY DEMONSTRATED THROUGH, BUT NOT LIMITED TO, ORGANIZING WORKSHOPS AND CONFERENCE SESSIONS, SERVING AS AN OFFICER IN PROFESSIONAL SOCIETIES, LEADING AND/OR ACTING AS GUEST EDITOR FOR A SPECIAL TOPIC JOURNAL ISSUE, AND DEVELOPING STRONG PARTNERSHIPS BETWEEN IARC AND INDUSTRY OR BETWEEN IARC AND RESOURCE AGENCIES OR BETWEEN IARC AND COMMUNITIES.*

vi. *SERVICE TO IARC AND THE UNIVERSITY THROUGH PARTICIPATION IN COMMITTEES AND ADMINISTRATIVE TASKS.*

vii. *DEMONSTRABLE SERVICE TO THE PUBLIC AND PROFESSIONAL COMMUNITY AT LARGE.*

viii. *MENTORING OF GRADUATE STUDENTS AND TEACHING, ALTHOUGH NOT MANDATORY, IS ENCOURAGED.*

2. *PROMOTION TO RESEARCH PROFESSOR*
TO BE ELIGIBLE FOR PROMOTION TO RESEARCH PROFESSOR:

a. *A Research Associate Professor will have achieved an international reputation for their achievements in scholarly activity and leadership.*

b. *A Research Associate Professor will have demonstrated consistent success in securing external funding to support research programs as principal investigator.*

c. *A research Associate Professor will have demonstrated excellence in service.*

d. *A Research Associate Professor will have a strong record in mentoring new faculty, which may include post docs.*

Evidence of accomplishment for promotion to Research Professor includes but is not limited to:

i. *Publishing in well cited sources, including peer refereed journals, book chapters and edited volumes. Due to the highly interdisciplinary nature of Arctic System Science it is expected that many of these will be multi-author articles but a good number should be first-authored.*

ii. *Invitations to give talks at national and international meetings.*

iii. *Writing of critical reviews of work in the chosen field.*

iv. *Leadership in both international and national research projects.*

v. *Assuming a leadership role in the Arctic Research and broader science community demonstrated through, but not limited to, organizing workshops and conference sessions, serving as an officer in professional Societies, leading and/or acting as guest editor for a special topic journal issue, and developing strong partnerships between IARC and industry or between IARC and resource agencies or between IARC and communities.*

vi. *A demonstrated ability to obtain funding for him/herself and his/her post-docs, graduate students, and technical assistants.*

vii. *Excellence in service to the University and the community at large.*

viii. SUCCESS IN MENTORING GRADUATE STUDENTS AND TEACHING, ALTHOUGH NOT MANDATORY, WILL ALSO BE VIEWED AS POSITIVE INDICATORS OF ACCOMPLISHMENT.

The UAF Faculty Senate passed the following at Meeting #205, March 2, 2015:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Aerospace Engineering, housed in the CEM Department of Electrical and Computer Engineering.

Effective: Fall 2015

Rationale: This new minor will ensure a constant and growing stream of students for academics and research affiliated with UAF aerospace efforts, such as Alaska Space Grant Program (ASGP) and Alaska Center for Unmanned Aircraft Systems Integration (ACUASI). See the program proposal #50-UNP on file in the Governance Office, 312B Signers' Hall.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 3/2/15

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

****

Overview:

Formalizing a minor in Aerospace Engineering leverages the interest by students and the community in aeronautics and space systems engineering, including very popular unmanned aircraft systems (UAS) efforts seen in the news. In addition, this program leverages the new UAS joint position between CEM and the GI's Remote Sensing Directorate/Alaska Center for UAS Integration (ACUASI), Dr Michael Hatfield/ECE. This minor will provide increased ability for UAF engineers to highlight their work in a critical engineering field, and will elevate the status of UAF by the aerospace community and potential students. The program will ensure a constant and growing stream of students for academics and research affiliated with UAF aerospace efforts, such as Alaska Space Grant Program (ASGP) and ACUASI.

As a point of reference, this semester, a graduate course in UAS design was offered in ECE (EE493/693), which already has 10 students enrolled—a very solid turnout given the size of the ECE graduate program.

Proposed Minor Requirements:

Aerospace Engineering Minor

1. Complete the following:*
   - ME 451, Aerodynamics—3 credits
   - ME 452, Introduction to Astrodynamics—3 credits
2. Complete three of the following:*
   - ME 450, Theory of Flight—3 credits
   - ME 453, Propulsion Systems—3 credits
   - ME 408, Mechanical Vibrations—3 credits
   - EE 434, Instrumentation Systems—4 credits
   - EE 444, Embedded Systems Design—4 credits
   - EE 471, Fundamentals of Automatic Control or ME409, Controls—3 credits
   - GEOS 422, Geoscience Applications of Remote Sensing—3 credits
3. Minimum credits required—15 credits

Note: This minor may require substantial additional courses for non-ME and non-EE majors.
*These courses have prerequisites that need to be taken into consideration. Students must earn a C- grade or better in each course.

Relationship to Purposes of the University:

This minor will provide increased ability for UAF engineers to highlight their work in a critical engineering field, and will elevate the status of UAF by the aerospace community and potential students. The program will ensure a constant and growing stream of students for academics and research affiliated with UAF aerospace efforts, such as Alaska Space Grant Program (ASGP) and the Alaska Center for Unmanned Aircraft Systems Integration (ACUASI).

This minor supports the desires of UA President, and efforts of local and state leaders to develop a robust aerospace industry in Alaska. Complementary efforts include UAF's ACUASI program and its role as lead entity in the FAA's Pan Pacific UAS Test Range Complex (PPUTRC), as well as the ASGP, Kodiak Space Launch Facility, Poker Flat Research Range (PFRR), and the proposed Alaska UAS Technical Park being coordinated through the state & borough. These activities represent a significant number of highly skilled jobs for Alaska's economy and increasing focus on UAF programs.

Minor program will be overseen by the College of Engineering & Mines. Dr. Michael Hatfield will act as minor coordinator. Dr. Hatfield has previous experience in administering space systems engineering degree at the US Air Force Academy.

The UAF Faculty Senate passed the following at Meeting #204 on February 2, 2015:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Teaching English to Speakers of Other Languages (TESOL), housed in the CLA Department of Linguistics.

Effective: Fall 2015

Rationale: This new minor will effectively prepare students for careers in English as a second language (ESL) teaching in the U.S. and abroad. See the program proposal #18-UNP on file in the Governance Office, 312B Signers' Hall.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/3/15
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

The Minor in Teaching English to Speakers of Other Languages (TESOL) prepares students for short- and long-term careers in English as a second language (ESL) teaching in the U.S. and abroad. In the minor, coursework in the fundamentals of language, theories of second language learning, and teaching methodology are combined with practical tutoring and instructional work with ESL learners to provide a broad yet practical foundation for future teaching.

Proposed Minor Requirements:

Teaching English to Speakers of Other Languages Minor

The minor in Teaching English to Speakers of Other Languages (TESOL) will provide students with a theoretical and practical foundation for the teaching of English as second language in the United States or as a foreign language in other countries. The curriculum will benefit students in Foreign Languages, Linguistics, English, Education, and other fields of study who are interested in short- or long-term employment in the field TESOL.

1. Complete the following*:

   LING F101 – Nature of Language – 3 credits
   LING F200 – The Field of Teaching English to Speakers of Other Languages – 1 credit
   LING F302 – Second Language Acquisition – 3 credits
   LING F315 – The English Language for Second Language Teaching – 3 credits
   LING F410 – Theory and Methods of Second Language Teaching – 3 credits
   LING F451 – English Second Language Teaching Practicum – 3 credits

2. Minimum credits required—16 credits

Note: 400-level courses require junior standing or instructor permission.

*Students must earn a C- grade or better in every course except for LING F200, which is offered on a pass-fail basis.

Relationship to Purposes of the University:

The proposed minor will help UAF meet its mission to enrich the lives of Alaskan students by preparing them for practical short- and long-term career opportunities in English second language teaching that will help them engage with and learn from English language learners around the world.

Projected enrollments & public demand for the minor:
We estimate that ten to fifteen UAF undergraduates will be enrolled in the minor during each of the first two to three years of its offering. These enrollments are expected to climb in subsequent years through word of mouth and adviser recommendations.

Estimated enrollment figures are based on two sources of information from students: 1) the large number of UAF graduates who pursue short- or long-term positions teaching English as a second language overseas or in the U.S., and 2) the results of written surveys of UAF undergraduates taking upper-division courses in Linguistics, Education, and English during the spring 2014 semester. Details of this student interest are as follows:

1) The UAF Department of Foreign Languages reports that since 2005, 43 of its graduates have taught English as a foreign language (EFL) overseas shortly after graduation. The majority of these graduates majored in Japanese or Spanish.

2) A survey of UAF students (N=63) in several upper-division Linguistics, Education, and English

courses reported a strong interest in the field of teaching English to speakers of other languages (TESOL) and the proposed minor.

	Yes	No	Maybe
Interest in TESOL	28	10	25
Would consider minor	24	15	21

Although UAF has a strong record of placing its graduates in EFL teaching situations, the increasingly professionalized field of TESOL has put a premium on theoretical, methodological, and practical training for new instructors. Students graduating with the Minor in TESOL will have a competitive advantage on the job market for this reason. In addition, the training they receive in the minor will provide them with the confidence and practical resources they will need to succeed during their challenging first few years of teaching.

Support of other programs by the minor's creation:

The minor's creation would most directly support the Linguistics Program through increased undergraduate enrollments in its courses. In addition, students majoring in Linguistics, Foreign Languages and Literatures, Education, and English would receive support through the creation of a minor that enhances their future job prospects in the field of English second language teaching.

The UAF Faculty Senate passed the following at Meeting #204 on February 2, 2015:

MOTION:

The UAF Faculty Senate moves to approve a new Master of Security and Disaster Management, housed in the School of Management (Department of Homeland Security and Emergency Management).

Effective: Fall 2015

Rationale: This program would allow qualified individuals to enter the Emergency Management and Homeland Security enterprise and associated fields, here in Alaska and elsewhere, who have the training and ability to lead and make management decisions in emergency situations and settings. Leaders and managers in agencies at all levels of government must have the ability to effectively implement policy and manage regulatory systems. This on-line program meets an Alaska state need, in that many individuals who work in emergency management and homeland security are based in rural Alaska, where opportunities for education and career advancement are not readily available. Existing programs such as EMT and fire science are career tracks in practical fields. The new Master's in Security and Disaster Management extends that practical education by building higher-level skills that are required for leadership and management decisions. This program will recruit a new class of students, whose needs will be met by faculty resources already in place. There are no negative financial implications for the institution.

See the program proposal #31-GNP on file in the Governance Office, 312B Signers' Hall.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/3/15
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

Brief Statement of Program:

The online Master of Security and Disaster Management program is designed to serve both aspiring and existing homeland defense/security and emergency management practitioners. The program builds upon the experience and education of those within this highly interdisciplinary enterprise, providing graduate level education which focuses on supporting the operational to strategic needs of those leading and managing in today's highly complex world. Leveraging the education provided in the bachelor of emergency management degree, the master's degree requires an extended degree of synthesis and integration of the critical thinking and analysis skills required for managers and leaders in homeland defense/security and emergency management and associated fields.

The primary objectives of the program are:

- To develop individuals to serve in leadership and management roles within the Homeland Security and Emergency Management (HSEM) enterprise.
- To expose individuals to the best practices for integrating community planning, security and aspects of prevention and mitigation when preparing communities and regions for a disaster.
- To underscore the need to adopt and manage an "All Hazards" approach to preparing for and managing disasters at the tactical, operational and strategic levels of the HSEM enterprise.
- To enable individuals to develop the critical thinking skills, analytical abilities and leadership/management capacity to serve at the executive level within public and private sector organizations.

Career opportunities resulting from the MSDM include:

Promotion, resulting from an advanced degree for those who lead and manage first responders or others who serve in HSEM organizations. These organizations include the fire service, various branches of law enforcement and governmental agencies such as the TSA, FEMA, DHS regional commands, various state and executive agencies including for example, Alaska Dept. of Public Safety, Dept. of Natural Resources. Advanced degrees are not common in these fields and, therefore, there is strong demand for graduates.

Proposed Requirements and Catalog Layout:

Master of Security and Disaster Management

In a post-9/11 environment, the challenges faced by emergency management and homeland security professionals have reached unprecedented levels. As the frequency, complexity and severity of manmade, natural and technological disasters increase, ever-increasing demands have been placed on emergency professionals and the skill sets they require to succeed. Today, more than ever before, the integration of federal, state and local resources has become the norm. Issues of terrorism, critical infrastructure protection/management, risk, business continuity, fire, hazardous materials, law enforcement, public health and safety are no longer domains unto themselves but part of the new fabric of this highly integrated, collaborative and complex environment. Consequently, more is now required of our traditional first responders and of those charged with the leadership and management of these individuals and organizations.

Complete the admission process including:

1. a) Applications will be reviewed on a continuous basis

   b) Applicants must submit a score from the Watson-Glaser Critical Thinking exam

2. Complete the general university requirements

3. Complete the master's degree requirements

4. If a student earns grades of two C's, one D, or one F in courses that are part of his/her HSEM program, the student will no longer be in good standing in the HSEM program even if his/her cumulative GPA remains at or above 3.0. HSEM students who are not in good standing will be subject to review and may be dismissed by the HSEM committee. Students may not use more than two F600-level courses with C grades on their Advancement to Candidacy application. An A or B grade must be earned in F400-level courses.

5. Students without a background in HSEM will be required to take HSEM F301, Principles of Emergency Management & Homeland Security. This course will not count toward the MSDM program. In addition, students without a UAF BEM degree will be required to take HSEM F412 prior to HSEM F605, Community Planning. In this case, F412 may be counted as an elective in the MSDM program.

6. Complete the following HSEM courses:
   HSEM F601 Legal Aspects of Homeland Security & Emergency Mgmt.....3
   HSEM F603 Disaster Management Policy.....3
   HSEM F605 Community Planning in Emergency Management.....3
   HSEM F607 Vulnerability and Protection.....3
   HSEM F609 Human Security.....3
   HSEM F632 Project Management.....3
   HSEM F665 Strategic Collaboration.....3

7. Complete 6 credits from the following:.....6
   HSEM F613 International Disaster Management.....3
   HSEM F692 MSDM Seminar (may be repeated when topic changes).....3
   Any 400-level HSEM course not previously taken as an undergraduate.....3

8. Up to 6 graduate level credits may be transferred from: The National Fire Academy, FBI National Academy or Command and General Staff College or similar approved ACE graduate credit. These may substitute for 6 credits from (7) above.

9. Complete HSEM F690 Security and Disaster Management Capstone 3

10. Total credits for degree.....30

Resources Impact Statement, additional financial information, BOR Program Action Request and Summary are included on the following pages.

RESOURCE COMMITMENT TO THE
Masters in Security and Disaster Management DEGREE PROGRAM

Budget Support Documentation for Prospectus and Format 3 Proposal

E. Budget:

1. The budget projections (revenue and expenditures) for each of the first three years of operation:

MSDM Projected Revenues:			
	FY16	FY17	FY18
Unrestricted:	Year 1	Year 2	Year 3
General Fund (includes $145k strategic reallocation and $145k match from SOM)	$290,000	$290,000	$290,000
Student Tuition*	$105,975	$247,275	$209,115
Indirect Cost Recovery	$0	$0	$0
TVEP or Other	$0	$0	$0
Total Unrestricted Revenue	$395,975	$537,275	$499,115
Restricted:			
Federal Receipts	$0	$0	$0
Corporate Donation	$20,000	$10,000	$0
Total Restricted Revenue	$20,000	$10,000	$0
Total Annual Revenues	$415,975	$547,275	$499,115

MSDM Projected Expenses:			
	FY16	FY17	FY18
	Year 1	Year 2	Year 3
Salaries and Benefits:			
MSDM Director .4 FTE	$72,516	$73,966	$75,446
MSDM Term Faculty .2 FTE	$22,109	$22,551	$23,002
MSDM New Term Faculty .2 FTE	$21,675	$22,109	$22,551
MSDM New Tenure-Track Faculty .2 FTE	$0	$21,675	$22,109
MSDM Adjunct Faculty 1 FTE	$54,800	$55,896	$57,014
Graduate Teaching Assistants 1.5 FTE	$44,460	$45,349	$46,256
Support Staff 1 FTE	$83,954	$85,633	$87,346
Relocation Allowance for new hire	$5,000	$5,000	$0
Total Salaries and Benefits	$304,513	$332,179	$333,722
Computers and Online Technology	$75,000	$35,000	$35,000
Office and Classroom furniture	$13,000	$3,000	$3,000
Supplies/Services	$5,500	$5,500	$5,500
Travel (recruiting/elearn training/etc	$16,000	$16,000	$16,000
Total Other Expenses	$109,500	$59,500	$59,500
Total Annual Expenditures	$414,013	$391,679	$393,222

Student Tuition Projections*	Year 1	Year 2	Year 3*
Number of students	15	35	45
Number of credit hrs per student per year	15	15	15
Total # of credit hours generated	225	525	675
Graduate Tuition (FY15 rate)	$403	$403	$403
Total Tuition	$90,675	$211,575	$272,025
Percent of Tuition accruing to SOM	100%	100%	60%
UAF Central Tuition	$0	$0	$108,810
SOM Tuition	$90,675	$211,575	$163,215
SOM Tuition Surcharge (100% to SOM)	$15,300	$35,700	$45,900
Total SOM Tuition + Surcharge	$105,975	$247,275	$209,115
In year 3 the total amount of tuition accruing to SOM for the HSEM will go back down to 60%.			

2. **Revenue and expenditures associated with the change itself:**

MSDM Projected Revenues:	
	FY15
Unrestricted:	
General Fund (includes $75k strategic reallocation and $75k match from SOM)	$150,000
Student Tuition (no tuition in FY15)	$0
Indirect Cost Recovery	$0
TVEP or Other	$0
Total Unrestricted Revenue	$150,000
Restricted:	
Federal Receipts	$0
Corporate Donation	$20,000
Total Restricted Revenue	$20,000
Total FY15 Revenue	$170,000

MSDM Projected Expenses:	
	FY15
Salaries and Benefits:	
MSDM Director .4 FTE	$71,094
MSDM Term Faculty .2 FTE	$21,675
MSDM Adjunct Faculty .7 FTE	$38,360
Support Staff .5 FTE	$41,977
Total Salaries and Benefits	$173,106
Computers and Online Technology	$35,000
Office and Classroom furniture	$3,000
Supplies/Services	$5,500
Travel (recruiting/elearn training/etc	$16,000
Total Other Expenses	$59,500
Total FY15 Expenditures	$232,606

Note: Strategic Reallocation provides $75,000 in FY15 and an additional $70,000 in FY16.

Note: FY15 salaries include program coordination and online course development.

3. **Institutional financial support to be reallocated to accommodate the change:**

The School of Management received a permanent Strategic Reallocation of $75,000 in FY15 and an additional $70,000 in FY16 (for a total of $145,000) for the online MSDM program. The SOM will match the reallocation with existing resources and increased tuition revenue. No additional resources outside of the SOM will be required.

4. **The budgetary and financial implication of the change for the entire institution:**

Initial costs are covered by student tuition. There is negative budgetary or financial implication for the entire institution.

Board of Regents Program Action Request
University of Alaska
Proposal to Add, Change, or Delete a Program of Study

1a. UA University (choose one) UAF	1b. School or College School of Management	1c. Department or Program Masters in Security and Disaster Management

2. Complete Program Title

3. Type of Program

☐ Undergraduate Certificate ☐ Associate ☐ Baccalaureate ☐ Post-Baccalaureate Certificate
☒ Master's ☐ Graduate Certificate ☐ Doctorate

4. Type of Action
☒ Add ☐ Change ☐ Delete

5. Implementation date (semester, year)
☒ Fall ☐ Spring ☐ Summer Year 2015

6. Projected Revenue and Expenditure Summary. Not Required if the requested action is deletion.
(Provide information for the 5th year after program or program change approval if a baccalaureate or doctoral degree program; for the 3rd year after program approval if a master's or associate degree program; and for the 2nd year after program approval if a graduate or undergraduate certificate. If information is provided for another year, specify (1st) and explain in the program summary attached). Note that Revenues and Expenditures are not always entirely new; some may be current (see 7d.)

Projected Annual Revenues in FY 18		Projected Annual Expenditures in FY 18	
Unrestricted		Salaries & benefits (faculty and staff)	$334,474
General Fund	$290,000	Other (commodities, services, etc.)	$ 59,500
Student Tuition & Fees	$163,215	TOTAL EXPENDITURES	$393,974
Indirect Cost Recovery	$0	One-time Expenditures to Initiate Program (if >$250,000)	
TVEP or Other (specify):	$0	(These are costs in addition to the annual costs, above.)	
Restricted		Year 1	$
Federal Receipts	$0	Year 2	$
TVEP or Other (specify): Corporate donation	$ 0	Year 3	$
TOTAL REVENUES	$453,215	Year 4	$

Page # of attached summary where the budget is discussed, including initial phase-in:

7. Budget Status. Items a., b., and c. indicate the source(s) of the General Fund revenue specified in item 6. If any grants or contracts will supply revenue needed by the program, indicate amount anticipated and expiration date, if applicable.

Revenue source	Continuing	One-time
a. In current legislative budget request	$0	$0
b. Additional appropriation required	$0	$0
c. Funded through new internal MAU redistribution	$290,000	$0
d. Funds already committed to the program by the MAU[1]	$0	$27,718
e. Funded all or in part by external funds, expiration date	$0	$0
f. Other funding source Specify Type:	$0	$0

8. Facilities: New or substantially (>$25,000 cost) renovated facilities will be required. ☐ Yes ☒ No

If yes, discuss the extent, probable cost, and anticipated funding source(s), in addition to those listed in sections 6 and 7 above.

[1]Sometimes the courses required by a new degree or certificate program are already being taught by an MAU, e.g., as a minor requirement. Similarly, other program needs like equipment may already be owned. 100% of the value is indicated even though the course or other resource may be shared.

9. Projected enrollments (headcount of majors). If this is a program deletion request, project the teach out enrollments.

Year 1: 15	Year 2: 35	Year 3: 45	Year 4: 50

Page number of attached summary where demand for this program is discussed:

10. Number* of new TA or faculty hires anticipated (or number of positions eliminated if a program deletion):

Graduate TA	1.5 FTE (3@ .5FTE)
Adjunct	1 FTE (10@ .1 FTE)
Term	1 FTE
Tenure track	1 FTE

11. Number* of TAs or faculty to be reassigned:

Graduate TA	
Adjunct	
Term	
Tenure track	

Former assignment of any reassigned faculty:
For more information see page of the attached summary.

12. Other programs affected by the proposed action, including those at other MAUs (please list):

Program Affected	Anticipated Effect

MSDM Program Summary for Board of Regents

1. Program goals and evaluation

- To develop individuals to serve in leadership and management roles....encourage....understanding of policy and implementation...
  - Evaluated through HSEM and HSEM F601 Legal Aspects of HS and EM

- To expose individuals to the best practices for integrating community planning, security and aspects of prevention and mitigation .....
  - Evaluated through HSEM F605, Community Planning in Emergency Management

- To ..... manage an "All Hazards" approach to preparing for and managing disasters ....
  - Evaluated through HSEM F611, Security and Disaster Management Capstone. HSEM F607, Vulnerability and Protection and HSEM F609 Human Security....

- To ... develop the critical thinking skills, analytical abilities and leadership/management capacity ...
  - All courses are focused on thinking critically and analytically about situations, policy etc. This will be assessed at the time of admission and again in HSEM F611 to assess the growth in critical thinking skills as a result of the program.

2. Faculty

Cameron Carlson, HSEM program Director, C-SSHRP Director, Instructor
Duties include oversight of C-SSHRP (make the connection here), oversight of undergraduate Bachelor of Emergency Management program, teaching various courses within the BEM program. CV included in proposal packet.

Sean McGee, Instructor, HSEM Outreach Coordinator
Duties include teaching various courses within the BEM program, teaching courses for TSA contracts, HSEM program outreach and recruiting. Resume included in proposal packet.

Various adjuncts who are leaders and managers in the field of Homeland Security and Emergency Management

3. Enrollment information
   a) Projected:

Current enrollment: Bachelor of Emergency Management: 139. 30% are projected to move on to the graduate level. Interest has been received from outside of the BEM graduates. We project enrollment to be: years 1 (15 students), 2 (20 students), 3, (25 students) 4, (25

students) and 5 (25 students)

b) Minimum enrollment to sustain the program: years 1 (15 students), 2 (15 students), 3, (15 students) 4, (15 students) and 5 (15 students)

c) Maximum enrollment: up to 25 students per semester for a total of 50 incoming students annually

4. Need for Program

Most BEM students are currently employed in Emergency Management fields. This program will draw those similarly employed. The program provides promotional opportunities in agencies where there is little alternative as no other program like this exists.

In addition, the emergency management field is growing and projections are that growth will continue.

The career outlook for emergency management directors is expected to remain stable, growing at a moderate pace. The BLS projects that positions among these professionals will grow by 13 percent between 2010 and 2020.

http://www.schools.com/news/emergency-management-directors-salary-career-outlook.html

US New and World Report (Money) Emergency Management Specialist "As one of the 50 Best jobs of 2011, should have strong growth over the decade."

http://money.usnews.com/money/careers/articles/2010/12/06/best-jobs-2011-emergency-management-specialist

5. Resource Impact

See the Resource Commitment Form, included.

The UAF Faculty Senate passed the following at Meeting #203 on December 1, 2014:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Forest Management, housed in the School of Natural Resources and Extension.

Effective: Fall 2015

Rationale: This new minor will effectively prepare students for careers in forestry. See the program proposal #80-UNP on file in the Governance Office, 312B Signers' Hall.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: _____
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

The Natural Resources Management degree was restructured and three concentrations were lost, including one in forestry which was accredited by the Society of American Foresters (SAF). Providing the accredited degree had allowed our students to obtain forestry positions in state government and with private companies that require a bachelor's degree from an accredited institution. To enable future students to learn the essentials of forestry in our new degree structure (the elimination of the three concentration areas) and be eligible for professional certification by SAF, we propose a new minor in Forest Management. The minor will be available to students in any major that have satisfied course prerequisites. In combination with the NRM major, the Forest Management minor will prepare students for application for professional certification by SAF. This credential identifies individuals with the training and knowledge required to manage the state's forest resources.

This minor will allow our students to apply to take the SAF accreditation exam. The accreditation exam is a key hurdle in the professional development of a Forestry Professional throughout the country. The potential for a Natural Resources Management major to take the exam will allow them of obtain jobs that do require a Forestry Degree. It will have a minor effect on Faculty resulting from

potentially larger class sizes or the need to restructure a class as independent study for potentially smaller class sizes. In one case (NRM F453) an adjunct faculty will have to be located when the course is offered, but this need will exist even in the absence of the minor. There are no anticipated changes in the school's budget or facilities/space requirements as a result of development of this minor degree program.

In addition this Forestry Minor will give us the opportunity to gauge the interest in developing a Forestry Major in the future.

Proposed Minor Requirements:

Forest Management Minor*

1. Students must complete the following courses (cannot count toward major): **
   NRM F375-Natural Resource Ecology-3 credits,
   or BIOL F371-Principles of Ecology-3 credits
   NRM F240-Natural Resources Measurement and Inventory-3 credits
   NRM F251-Silvics and Dendrology-4 credits
2. Complete at least 6 credits from the following (cannot count toward major):**
   NRM F370-lntroduction to Watershed Management-3 credits
   NRM F440-Silviculture-3 credits
   NRM F450-Forest Management-3 credits
   NRM F452-Forest Health and Protection-3 credits
   NRM F453-Harvesting and Utilization of Forest Products-3 credits
3. A student must complete at least 16 credits dedicated to the minor. If the student has taken courses from group 1 in order to complete major requirements, the credits must be made up from additional courses in group 2. **

* *Potential accreditation as a Certified Forester by the Society of American Forests will require completion of the following Natural Resources Management courses: F251, F440, F450, F452, and F453 in combination with the Natural Resource Management BS degree. Prerequisites required for the courses listed are part of the Natural Resources Degree Program but students from other programs will be required to complete the prerequisites specified for individual classes. NRM F452 also requires the completion of either BIOL F239 or NRM F211 as a prerequisite. These two courses are not required for the general Natural Resources Management program. The prerequisites will not apply to the number of credits for the Forest Management Minor.*

** *Student must earn a* C *grade or better in each course.*

Relationship to Purposes of the University:

State Division of Forestry, USFS, native corporations, etc. will all need trained forestry professionals to fill the need for vital forest management tied to various resource uses (e.g. fuelwood, lumber, biomass, wildlife management, park management, etc.).

This minor will help to support the NRM program by attracting students that are interested in the forestry profession. The minor will help to prepare NRM students for the certification exam that is conducted by the Society of American Foresters.

The minor will fill an important existing gap in our ability to meet the employment needs of the state.

The UAF Faculty Senate passed the following at Meeting #202 on November 3, 2014:

MOTION:

The UAF Faculty Senate agrees to the discontinuation of the Bachelor of Arts and Sciences degree program (housed in the School of Education).

EFFECTIVE: Fall 2015

RATIONALE: The need for the BAS degree decreased significantly after the BOR approval of the BA in Elementary Education in the early 2000s. The BAS was kept on a trial basis thereafter. With the availability of the Interdisciplinary General Studies degree options, need and demand for the BAS has further decreased and elimination of the program is now timely.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: _____
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Background and Information:

The original reason for developing the degree no longer exists. The BAS was designed to serve as the undergraduate degree appropriate for students who planned to be elementary teachers but no longer had the option to pursue this degree as an undergraduate student — only through a post-baccalaureate "5th year" option when the UA Board of Regents made the decision to eliminate the undergraduate route for seeking a degree and license in elementary education in 1999. This decision was reversed by the Regents the following year. Many students were caught in the middle of the B.Ed. or BAS degree when the changes occurred. We kept the degree option open primarily for a very few number of student athletes who knew they wanted to be elementary teachers but who could not do this as an undergraduate because of their athletic

training and travel schedules. They planned to complete their licensure requirements as a post-baccalaureate student- but usually at another institution.

There is no discernable or consequential effect of the program deletion. Students who are interested in becoming elementary teachers, but who are not able to complete the internship year requirements because of participation in a varsity level sport, are now able to complete all of the same content courses, along with an education minor, as a student in the General Studies Interdisciplinary degree. No one will be disadvantaged because of the deletion of this degree since there is an appropriate substitute degree available.

There were minimal costs associated with offering this degree because of the small number of students in the degree and because only there was only one required course that wasn't offered as a required course for students in other programs (i.e ., there was only one required course that was designed specifically for this degree). No impact to the School of Education budget is expected.

Since there is now a good alternative for students seeking an interdisciplinary degree (i.e., the General Studies Interdisciplinary degree) and since there has been a marked decrease in the numbers of students pursuing this degree, deletion of the program is timely. The two students who are currently declared BAS majors will be able to successfully complete their degree requirements.

A copy of the full proposal is attached.

FORMAT 4
Submit originals and one copy and electronic copy to **Governance/Faculty Senate Office**
(email electronic copy to fysenat@uaf.edu)

DELETION OF PROGRAM REQUEST
(UA Regulation 10.04.02)

I. Cover Memorandum should include:

A. Name of person preparing report: Carol Barnhardt, Ph.D., Chair of the Department of Elementary Teacher Education

B. Reasons for Requesting deletion of program

- There is another UAF degree option for students who are interested in an interdisciplinary degree. This is the General Studies Interdisciplinary degree
- The numbers of students interested in the BAS degree, since the General Studies Interdisciplinary option became available, has decreased significantly. There are currently only 2 students who have declared the BAS as their major.
- The original reason for developing the degree no longer exists. The BAS was designed to serve as the undergraduate degree appropriate for students who planned to be elementary teachers but no longer had the option to pursue this degree as an undergraduate student — only through a post-baccalaureate "5th year" option when the UA Board of Regents made the decision to eliminate the undergraduate route for seeking a degree and license in elementary education in 1999 This decision was reversed by the Regents the following year. Many students were caught in the middle of the B.Ed. or BAS degree when the changes occurred. We kept the degree option open primarily for a very few number of student athletes who knew they wanted to be elementary teachers but who could not do this as an undergraduate because of their athletic training and travel schedules. They planned to complete their licensure requirements as a post-baccalaureate student — but usually at another institution.

C. Relation of program to other programs in the local unit and system
Summarize the effects of the program deletion. For example, will deletion of the program cause other programs to have to alter their requirements as they utilize courses offered by the elected program.

- There is no discernable or consequential effect of the program deletion. Students who are interested in becoming elementary teachers, but who are not able to complete the internship year requirements because of participation in a varsity level sport, are now able to complete all of the same content courses, along with an education minor, as a student in the General Studies Interdisciplinary degree. No one will be disadvantaged because of the deletion of this degree since there is an appropriate substitute degree available.
- Students will no longer need to petition to waive the LAS 410W, O/2 "Scientific Research Class. This has not been offered the past few years because there were so few students who needed it.

D. Summarize effects on personnel directly involved

- Only two School of Education people have been directly involved in the BAS degree (i.e., advising students and completing required reports relative to the BAS): Carol Barnhardt in her role as Chair of the Department of Elementary Teacher Education and Jann Laiti in her role as Academic Advisor for students in Elementary Education, including those in the BAS degree.

E. Summarize effects deletion of program will have on budget of department

- There will be no impact on the budget of the School of Education other than to minimally decrease the amount of time that Carol Barnhardt and Jann Laiti spend on working with

the very small number of BAS students and on writing up annual reports on the BAS degree. Since we have not had sufficient numbers of students to justify offering the LAS

F. Provide information on current student enrollment in program or courses
If the program currently has declared majors, supply provisions for phasing out program. Provide information on transfer possibilities within the system, if any.

II. Background Information

A copy of the original instructional program request, if available, or equivalent information should be submitted.

If no formal presentation of program approval was made, the following information should be submitted:

1. Identification of Program: Should include a brief description of the program and its goals

The Bachelor of Art and Sciences (BAS) degree program was designed to provide instruction to future elementary teachers in the subject areas encompassed in Alaska teacher content and performance standards: English/language arts, mathematics, science, geography, government and citizenship, history, skills for a healthy life, arts, world languages and technology.

The BAS degree is a broad-based major, concentrating on key principles and content knowledge in mathematics and science, the social sciences, humanities and fine arts.
Students in the BAS degree are advised by the School of Education. BAS majors may choose any approved minor. Students who are interested in being teachers are encouraged to choose the education minor

FROM: Documentation Submitted to Provost Reichardt and UA Board of Regents by Dr. Carol Barnhardt, Spring 2006

PROGRESS REPORT AND RECOMMENDATION FOR CONTINUATION OF BAS DEGREE

MAU: **University of Alaska Fairbanks**
Program Title: **Bachelor of Arts and Sciences (B.A.S.)**

B.A.S. Degree
Minimum Requirements for Degree: 120 credits
The B.A.S. program, housed in the School of Education, is a broad-based, interdisciplinary major, concentrating on key principles and content knowledge in social sciences, mathematics, humanities, and sciences. The degree provides opportunities for students to examine issues related to the ten Alaska student content areas: English/language arts, mathematics, science, geography, government and citizenship, history, skills for a healthy life, arts, world languages, and technology. It serves two purposes: a broad-based "liberal arts" degree, and content area preparation for prospective elementary level teachers who plan to achieve certification or licensure through a post-baccalaureate program. B.A.S. majors may choose any approved minor, but students who are interested in being teachers are encouraged to choose the education minor.

Recommendation
The following actions, relative to the BAS degree requirements, have been taken since the last report was prepared for the Board of Regents.

1. A capstone course, LAS 410W,O/2 "Scientific Research" has been developed and is currently being offered (Spring of 2006). Frequency of offering of the course will be determined by the number of BAS majors. The course requires that students complete a capstone project. (See attached LAS 4120W,O/2 syllabus for Spring 2006).

2. A formal request will be submitted to the Curriculum Review committee of the UAF Faculty Senate to require all BAS majors to enroll in JRN/ED 486 "Media Literacy." This course will replace the previous requirement that BAS majors complete either LAS 420W,O/2 "Social Science Inquiry and Research" or LAS 430W,O/2 "Language Arts and the Humanities: Creative Activities and Research." A request will be made to remove these two LAS courses from UAF course offerings (see attached forms for these program changes). BAS majors enrolled in JRN/ED 486 will be required to choose the "BAS Capstone Project" in order to successfully complete the course (this is one of three final project options available for students enrolled in this course). Effective January 2007.

3. Students will be required to demonstrate technology competence by successfully challenging each of the four ED 237 modules (.5 credit each) or by enrolling in those modules that they are not able to successfully challenge. The four modules include: (a) Operating systems of MAC OS and Windows: (b) Microsoft Word; (c) PowerPoint and Inspiration; and (d) Excel. (See attached forms). Effective January, 2007.

4. BAS students will be required to have Alaska passing scores on the Praxis I and the Praxis II exams. These are two national exams prepared by Educational Testing Services/ETC. Praxis I assesses reading, writing and math. Praxis II "Standardized Content Knowledge" assesses broad knowledge and background in English/Language Arts, Math, Science and Social Sciences.

Background

The Bachelor of Arts and Sciences degree was designed in 1999 to respond to the need for an undergraduate degree that would provide the content area necessary for students who wanted to become elementary teachers. Preparation of a new interdisciplinary degree was necessary because the University of Alaska Board of Regents made the decision to suspend admission to the Bachelor of Education Degree. This decision became effective in 1999. This action resulted in the elimination of the option for students to pursue an elementary teaching license through an undergraduate degree program.

Since there was no existing degree that would prepare teachers for elementary classrooms, a faculty committee was appointed and charged with the task of developing an interdisciplinary arts and science degree for students who would then pursue elementary certification by completing a fifth-year/post-baccalaureate elementary teaching license. The committee used the Alaska Student Content, Performance and Cultural Standards as a guide to determining what coursework would best prepare students with the background necessary to be a competent elementary teacher. The program was originally housed in the College of Liberal Arts but in Spring 2003 was transferred to the School of Education in recognition of its value as preparation for elementary level teachers.

Following approval of the new BAS degree by the UA Board of Regents, the School of Education worked closely with its elementary students to help them understand the new "route" to becoming a licensed elementary teacher (i.e., receive an undergraduate degree and then return for a one-year licensure program provided by the School of Education). During the next several months nearly 100 students chose, or changed, their major to a BAS (76 BAS majors in Fall 2000 and 92 majors in Fall 2001).

However, during the next year, the Board of Regents made the decision to once again allow students to pursue an elementary teaching license through an undergraduate program and a new degree, the BA in Elementary Education, was approved for UAA, UAF and UAS. Upon the

approval of this degree, the large majority of the BAS majors changed their major to the BA in Elementary Education.

Although the numbers of BAS majors dropped significantly after the BA in Elementary Education became available, a decision was made to keep the BAS degree, on a trial basis, to determine whether or not it was useful for other groups of students. With the exception of three capstone courses designed specifically for the BAS degree (LAS 410W, O/2, LAS 420W, O/2 and LAS 430W, O/2), all other degree requirements have been available on an on-going basis at UAF. With the development and offering of the capstone LAS410 course in the spring of 2006, along with the requested deletion of the LAS 420 and LAS 430 courses (to be replaced with JRN/ED 486 in the fall of 2006), all course requirements for the BAS are now available.

Students who are pursuing this degree can be categorized into three primary groups.

(1) Students who intend to be elementary teachers but who are not able to complete all of the teacher licensing requirements as an undergraduate (e.g., military personnel and spouses whose military commitments, travel schedules and relocations do not allow them to complete the BAE requirements; athletes who have scheduling conflicts that do not allow them to do a year-long internship during their senior year).

    These students all intend to pursue their elementary teaching license as part of a 5th year, post-baccalaureate program, but at a time and location that fits with their particular needs.

(2) Students who are interested in an interdisciplinary arts and sciences degree. Since UAF does not have a general liberal arts degree, the BAS provides them with an option for this type of degree.

(3) Students in the BA in Elementary Education degree program who discover that the teaching profession is not the appropriate place for them. Many of the content area requirements are the same for the BAS and the BA in Elementary Education so students are able to utilize the coursework that they have already completed.

Enrollment (past & projected)

UAF BAS Degree Majors by Fiscal Year since program inception				
Fiscal Year	Degree	Major		Count
2000	BAS	ARSC	Arts and Sciences	28
2001	BAS	ARSC	Arts and Sciences	104
2002	BAS	ARSC	Arts and Sciences	100
2003	BAS	ARSC	Arts and Sciences	40
2004	BAS	ARSC	Arts and Sciences	31
2005	BAS	ARSC	Arts and Sciences	18
2006	BAS	ARSC	Arts and Sciences	28

UAF BAS Degree Majors by Fall Term since program inception				
Fall Term	Degree	Major		Count
1999	BAS	ARSC	Arts and Sciences	0
2000	BAS	ARSC	Arts and Sciences	73
2001	BAS	ARSC	Arts and Sciences	87
2002	BAS	ARSC	Arts and Sciences	29
2003	BAS	ARSC	Arts and Sciences	25
2004	BAS	ARSC	Arts and Sciences	13
2005	BAS	ARSC	Arts and Sciences	27

2. **Enrollment Information: Past and present enrollment statistics should be included**

Since this document was submitted to the Board of Regents in 2006, the number of students declared as BAS majors has continued to decrease significantly as is evidenced in the next table.

Fall Term	Degree	Major		Number of Majors
2006	BAS	ARSC	Arts & Sciences	30
2007	BAS	ARSC	Arts & Sciences	34
2008	BAS	ARSC	Arts & Sciences	40
2009	BAS	ARSC	Arts & Sciences	25
2010	BAS	ARSC	Arts & Sciences	13
2011	BAS	ARSC	Arts & Sciences	11
2012	BAS	ARSC	Arts & Sciences	10
2013	BAS	ARSC	Arts & Sciences	3
2014	BAS	ARSC	Arts & Sciences	2

BAS Degrees Awarded

In 2006, when this report was submitted to the Regents, 27 students had graduated from UAF with BAS degrees, and we predicted that three or four degrees might be awarded each year for the foreseeable future.

The actual number of BAS degrees awarded since 2005 is 28.

2006 = 4
2007 = 5
2008 = 10
2009 = 3
2010 = 3
2011 = 2
2012 = 0

2013 = 1
2014 = no graduates expected

3. Resource Requirements of Program: Should include personnel costs as well as support service costs and space requirements
There were minimal costs associated with offering this degree because of the small number of students in the degree and because only there was only one required course that wasn't offered as a required course for students in other programs (i.e., there was only one required course that was designed specifically for this degree).

III. Approval Signature Blocks provided for:

Elementary Department Head: Carol Barnhardt, Ph.D.
Carol Barnhardt 9/30/14

School of Education Curriculum Council Chair: Gary Jacobson, Ph.D.
Gary Jacobson 10/1/14

Dean: Allan Morotti, Ph.D.
Allan Morotti 10/2/2014

President, UAF Faculty Senate: Cecile Lardon, Ph.D.
Cecile Lardon

Chancellor: Brian Rogers

President: Patrick Gambell

III. Provide an executive summary of about one page for inclusion in the Board of Regents' committee agenda.

Background
The Bachelor of Arts and Sciences degree was designed in 1999 to respond to the need for an undergraduate degree that would provide the content area necessary for students who wanted to become elementary teachers. Preparation of a new interdisciplinary degree was necessary because the University of Alaska Board of Regents made the decision to suspend admission to the Bachelor of Education Degree at all three UA institutions. This decision became effective in 1999. This action resulted in the elimination of the option for students to pursue an elementary teaching license through an undergraduate degree program.

Since there was no existing degree that would prepare teachers for elementary classrooms, a faculty committee was appointed and charged with the task of developing an interdisciplinary arts and science degree for students who would then pursue elementary certification by completing a fifth-year/post-baccalaureate elementary teaching license. UAF faculty, from several departments, design the new degree using the Alaska Student Content, Performance and Cultural Standards as a guide to determining what coursework would best prepare students with the background necessary to be a competent elementary teacher. The degree was originally housed in the College of Liberal Arts but in Spring 2003 it was transferred to the School of Education in recognition of its alignment with the Alaska Student Content Standards as good preparation for students who expected to later seek certification as elementary level teachers.

Following approval of the new BAS degree by the UA Board of Regents, the School of Education worked closely with its elementary students to help them understand the new "route" to becoming a licensed elementary teacher (i.e., receive an undergraduate degree and then return for a one-year post-baccalaureate licensure program provided by the School of Education). During the next several months nearly 100 students chose, or changed, their major to a BAS (76 BAS majors in Fall 2000 and 92 majors in Fall 2001).

However, during the next year, the UA Board of Regents made the decision to once again allow students to pursue an elementary teaching license through an undergraduate program and a new degree, the BA in Elementary Education, was approved for UAA, UAF and UAS. Upon the approval of this degree, the large majority of the BAS majors changed their major to the BA in Elementary Education.

Although the numbers of BAS majors dropped significantly after the BA in Elementary Education became available, a decision was made to keep the BAS degree, on a trial basis, to determine whether or not it was useful for other groups of students. With the exception of three capstone courses designed specifically for the BAS degree (LAS 410W, O/2, LAS 420W, O/2 and LAS 430W, O/2), all other degree requirements have been available on an on-going basis at UAF. With the development and offering of the capstone LAS410 course in the spring of 2006, along with the requested deletion of the LAS 420 and LAS 430 courses (to be replaced with JRN/ED 486 in the fall of 2006), all course requirements for the BAS were available until three years ago when the demand for the LAS410 became too small to allow any department to offer it. The few remaining BAS students have petitioned the LAS410 course with a substitute course or they have petitioned to waive the requirement for this course.

Students who have pursued this degree can be categorized into three primary groups.

(1) Students who intend to be elementary teachers but who were not able to complete all of the teacher licensing requirements as an undergraduate (e.g., military personnel and spouses whose military commitments, travel schedules and relocations did not allow them to complete the BAE requirements; athletes who have scheduling conflicts that did not allow them to do a year-long internship during their senior year).

    These students intended to pursue their elementary teaching license as part of a 5th year, post-baccalaureate program, but at a time and, at an institution that fit with where they were currently living.

(2) Students who were interested in an interdisciplinary arts and sciences degree. Since UAF did not have a general liberal arts degree, the BAS provided them with an option for this type of degree.

(3) Students in the BA in Elementary Education degree program who discovered that the teaching profession was not the appropriate profession for them. Many of the content area requirements are the same for the BAS and the BA in Elementary Education so students are able to utilize the coursework that they have already completed.

Since there is now a good alternative for students seeking an interdisciplinary degree (i.e., the General Studies Interdisciplinary degree), since there has been a marked decrease in the numbers of students pursuing this degree, we are proposing that this degree be deleted and that admission to the BAS degree be suspended. The two students who are currently declared BAS majors will be able to successfully complete their degree requirements.

The UAF Faculty Senate passed the following at Meeting #202 on November 3, 2014:

MOTION:

The UAF Faculty Senate moves to change the UAF baccalaureate requirements so that each student must complete a capstone experience in the student's major or program, as broadly described below. It will be the responsibility of each Department, Program, and (or) College/School to create, deliver, evaluate, and assess their capstone experience. Each Dean's office will have a copy of the capstone requirements for all programs in the College/School on file.

RATIONALE: This change is proposed in support of satisfying UAF's Learning outcome #4: *"Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning. Preparation will be demonstrated through production of a creative or scholarly project that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection."*

Many UAF Departments and Programs currently have baccalaureate capstone experience requirements; the purpose of this change is to create a UAF-wide requirement. We envision this proposed change as not adding a significant burden to most UAF faculty and students.

EFFECTIVE: Fall 2016 (AY2016-17)

General Suggestions for Capstone Experience

The Capstone experience should demonstrate students' ability to integrate a wide range of learning. Students should make connections among ideas, skills, and bodies of knowledge, and will synthesize and transfer their learning to new, complex areas of inquiry, products, or situations within or beyond conventional coursework. Specifically,

the Capstone should:

- Require that students demonstrate the appropriate skill levels in communication and (as appropriate) quantitative and (or) qualitative analysis.
- Integrate learning from major requirements.
- Guide students through a project or experience relevant to their educational goals.
- Provide a basis for evaluating student performance.
- Be suitable as a potential means for assessing the major requirements.

Suggested General Instructional Objectives

- The student should integrate and apply learning from multiple disciplines and skill sets.
- The student should demonstrate an ability to contribute to existing knowledge, work in professional settings, and (or) create products relevant to the student's further educational, career and life goals.
- The experience should demonstrate the student possesses intellectual and practical capabilities at a level expected of one receiving a baccalaureate degree from a major university.
- The student should complete the experience or work as a culmination of the student's baccalaureate education.

Course examples:

NORS 484 W/O Seminar in Northern Studies: An interdisciplinary seminar focusing on topics relating to the North with emphasis on the physical sciences, the peoples, and the socioeconomic and political aspects of the area. Specialists in the various fields will assign readings and conduct discussions. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; junior standing; or permission of instructor. (3+0)

PS F499 W Senior Thesis: Thesis will draw from the literature in at least two sub-fields of political science (U.S. government/politics, political theory, public law, comparative politics, international relations) in its analysis. Prerequisites: ENGL F111X; ENGL F211X or ENGL F213X; PS F101; PS F222; senior standing; permission of instructor. (1.5+0+7.5)

Non-course examples:

- Portfolio
- Internship
- Performance / Exhibition
- Participation in competition
- Professional publication
- Student teaching

The UAF Faculty Senate passed the following (as amended) at Meeting #202 on November 3, 2014:

RESOLUTION:

The UAF Faculty Senate agrees with most of the concerns expressed in Staff Council Resolution 2014- 254-1 and offers the following additional suggestions:

WHEREAS
Smoking has been proven to be addictive both mentally and physically; therefore, it will take time for habitual smokers and users to change their habits;

WHEREAS
Rates of tobacco use in the form of smoking vary widely across society, and are higher in some groups the university is seeking to serve;

WHEREAS
The existing policy of limiting smoking to at least 50 feet away from building entrances and fresh air intakes helps considerably in keeping the populated areas of the campus free of toxins;

AND WHEREAS
Under a complete ban we expect illicit smoking would harm indoor air quality and present a fire danger;

THEREFORE BE IT RESOLVED
The UAF Faculty Senate holds that campuses should maintain the ability to designate outdoor areas in which smokers can have safe access to ashtrays and to offer tobacco cessation resources.

President, UAF Faculty Senate

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #201, October 6, 2014:

MOTION:

The UAF Faculty Senate moves to reaffirm the Unit Criteria for the Department of Mathematics and Statistics.

EFFECTIVE: Upon Chancellor's Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted by the Department of Mathematics and Statistics. With minor revisions, the unit criteria were found to be consistent with UAF guidelines.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND *DEPARTMENT OF MATHEMATICS AND STATISTICS* UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE ***DEPARTMENT OF MATHEMATICS AND STATISTICS (DMS).*** ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS. ***THE DOCUMENT GOVERNS EVALUATION OF ALL UAF FACULTY WITH A PRIMARY LOCUS OF RESPONSIBILITIES IN DMS. IT IS NOTED THAT THESE CRITERIA MAY DIFFER FROM THOSE FOUND IN THE NATURAL SCIENCES UNIT CRITERIA. REGULATIONS IN THE NATURAL SCIENCES UNIT CRITERIA DO NOT APPLY TO DMS.***

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.
The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/ her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, **AND DMS UNIT CRITERIA, STANDARDS AND INDICES** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. **THE DMS RECOGNIZES THE VALUE OF ACADEMIC AND SCHOLASTIC DIVERSITY. AS SUCH, THE UNIT DOES NOT REQUIRE EACH CANDIDATE DEMONSTRATE EQUAL STRENGTH IN EACH AREA OF TRIPARTITE RESPONSIBILITY. CANDIDATES WILL BE RANKED IN EACH AREA BY THE DMS PEER REVIEW COMMITTEE (PRC). THE**

PRC CONSISTS OF ALL TENURED MEMBERS OF THE DMS. MEMBERS OF THE PRC WHO ARE ON SABBATICAL OR OFF CAMPUS FOR EXTENDED PERIODS HAVE THE OPTION OF PARTICIPATING, BUT THIS IS NOT REQUIRED. MEMBERS OF THE COMMITTEE MAY ABSTAIN FROM VOTING, BUT ONLY IN ACCORDANCE WITH DMS OPERATING PROCEDURES. CANDIDATES WILL BE RANKED IN EACH CATEGORY OF RESPONSIBILITY ACCORDING TO THE FOLLOWING SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT AND UNACCEPTABLE.

THESE CORRELATE WITH CATEGORIES SOMETIMES USED BY THE UNIVERSITY WIDE COMMITTEE AS OUTLINED BELOW.

DMS		UNIVERSITY WIDE
OUTSTANDING	=	EXCELLENT
SUPERIOR	=	VERY GOOD
SATISFACTORY	=	GOOD
NEEDS	=	SATISFACTORY
UNACCEPTABLE	=	UNSATISFACTORY

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

1. **TENURE. A CANDIDATE FOR TENURE WILL BE JUDGED ON THE BASIS OF PERFORMANCE AND INDICATIONS OF POTENTIAL IN ALL APPLICABLE AREAS OF RESPONSIBILITY, WITH EMPHASIS PLACED ON THE INTERVAL SINCE THE LAST PROMOTION OR HIRE, WHICHEVER IS MOST RECENT. A CANDIDATE NEED NOT DEMONSTRATE EQUAL PERFORMANCE IN ALL THREE AREAS. IN ORDER TO QUALIFY FOR TENURE, A FACULTY MEMBER SHOULD HAVE DEMONSTRATED A SUSTAINED PERFORMANCE IN ALL THEIR AREAS OF RESPONSIBILITY. WHILE THERE IS NO OBJECTIVE DEFINITION OF "SUSTAINED" NOR IS THERE ANY REQUIREMENT FOR ANY LENGTH OF TIME AT ANY PARTICULAR RANK, A TYPICAL CANDIDATE FOR TENURE SHOULD NORMALLY HAVE SERVED AT LEAST FIVE YEARS AT THE RANK OF ASSISTANT PROFESSOR AT UAF OR ELSEWHERE. UNTENURED FACULTY SHOULD REFER TO THEIR COLLECTIVE BARGAINING AGREEMENT AND INITIAL APPOINTMENT LETTER REGARDING MANDATORY YEAR OF TENURE REVIEW. A SUCCESSFUL CANDIDATE SHOULD ATTAIN AT LEAST A SATISFACTORY RATING IN TEACHING, RESEARCH AND SERVICE AND AT LEAST SUPERIOR IN TEACHING OR RESEARCH IN THE VOTE BY THE PRC AT THE TIME OF APPLICATION FOR TENURE.**

2. **ASSISTANT PROFESSOR. A FACULTY MEMBER AT THE ASSISTANT PROFESSOR LEVEL MUST HAVE AN EARNED DOCTORATE OR DEMONSTRATED EQUIVALENT. DEMONSTRATED EQUIVALENCE WILL BE DECIDED ON AN AD HOC BASIS BY THE**

PRC. THOSE WORKING AT THE RANK OF ASSISTANT PROFESSOR SHOULD DEMONSTRATE A COMMITMENT TO TEACHING, RESEARCH AND SERVICE.

3. **ASSOCIATE PROFESSOR. IN ORDER TO QUALIFY FOR THIS RANK, A RECORD OF QUALITY INSTRUCTION AND RESEARCH IS IMPORTANT. THOSE WORKING AT THIS RANK ARE EXPECTED TO DEMONSTRATE A CONTINUING DEDICATION TO RESEARCH, TEACHING AND SERVICE.**

4. **PROFESSOR. THIS IS THE GREATEST SINGLE HONOR THAT THE UNIVERSITY CAN BESTOW UPON A MEMBER OF ITS FACULTY. THE HONOR MUST THEREFOR BE MADE UPON CAREFUL CONSIDERATION OF THE CANDIDATE'S TOTAL DEMONSTRATED CONTRIBUTION TO THE UNIVERSITY AND THE MATHEMATICAL SCIENCES. THE HONOR IS RESERVED FOR THOSE WHO HAVE DEMONSTRATED OUTSTANDING PERFORMANCE IN THEIR FIELDS, WHICH IS SUSTAINED OVER A SIGNIFICANT INTERVAL OF TIME. SPECIFICALLY, IN THE YEAR THE CANDIDATE APPLIES FOR PROMOTION TO PROFESSOR, A VOTE WILL BE TAKEN BY THE PRC. A SUCCESSFUL CANDIDATE FOR PROFESSOR SHOULD ATTAIN AT LEAST A SATISFACTORY RATING IN TEACHING, RESEARCH AND SERVICE IN THE VOTE OF THE PRC. IF ONE OF TEACHING OR RESEARCH IS RANKED SATISFACTORY, THE OTHER MUST BE OUTSTANDING.**

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. **THE DISSEMINATION OF IDEAS OUTSIDE THE CLASSROOM INCLUDES, BUT IS NOT RESTRICTED TO, STATISTICAL AND COMPUTING CONSULTING FOR STUDENTS; ASSISTING**

STUDENTS IN THE DESIGN OF EXPERIMENTS; DIRECTING UNDERGRADUATE AND GRADUATE RESEARCH. FURTHER, IT INCLUDES PUBLICATION OF TEXTBOOKS THAT ARE PRINCIPALLY INTENDED FOR CLASSROOM USE.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

H. DEMAND HIGH PEDAGOGIC STANDARDS ESSENTIAL TO THE DEPARTMENT'S MISSION.

I. DEVELOP A TEXTBOOK THAT IS USED EXTERNAL TO UAF.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s). **THIS IS REQUIRED FOR UNTENURED**

FACULTY AND RECOMMENDED FOR FACULTY APPLYING FOR PROMOTION. THEY WILL BE REVIEWED BY THE PRC (THAT INCLUDES THE DEPARTMENT CHAIR). THIS COMMITTEE WILL SEND REPRESENTATIVES TO REVIEW CLASSROOM PERFORMANCE AS WELL AS SYLLABI AND SAMPLES OF GRADED MATERIAL. REPRESENTATIVES WILL WRITE A REPORT THAT INCLUDES A NARRATIVE PORTION AS WELL AS AN OVERALL RANKING OF TEACHING THAT USES THE SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT AND UNACCEPTABLE. WHEN A FACULTY MEMBER STANDS FOR TENURE, REPORTS FROM AT LEAST TWO YEARS SHOULD BE INCLUDED IN THE FILE, PROVIDED THE FACULTY MEMBER HAS BEEN EMPLOYED AT LEAST THREE YEARS AT THE TIME OF APPLICATION FOR TENURE. IF THE CANDIDATE HAS BEEN EMPLOYED FOR AT LEAST ONE YEAR AT THE TIME OF APPLICATION FOR TENURE, THEN AT LEAST ONE REPORT FROM THE PRC SHOULD BE INCLUDED IN THE FILE. IN THE CASE OF DISAGREEMENT BETWEEN PEER OPINIONS AND STUDENT OPINIONS, THE FORMER WILL BE CONSIDERED TO BE MORE ACCURATE.

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. **CANDIDATES AT ALL LEVELS MUST DEMONSTRATE ACHIEVEMENT CONDUCTING RESEARCH IN AN INDEPENDENT AND CREATIVE FASHION. WORK WILL BE JUDGED FOR IMPORTANCE, ORIGINALITY AND QUALITY. CONSIDERATION WILL INCLUDE, BUT NOT BE RESTRICTED TO, THE CANDIDATE'S PAPERS PUBLISHED IN REFEREED JOURNALS AND REFEREED CONFERENCE PROCEEDINGS; PAPERS, LECTURES AND PRESENTATIONS DELIVERED; OTHER PAPERS AND TECHNICAL REPORTS; BOOKS, BOOK CHAPTERS, RESEARCH PROPOSALS, SOFTWARE DEVELOPED AND RESEARCH DONE THROUGH CONSULTING. THE WORK MUST BE PRESENTED IN A PUBLIC FORUM WHERE ITS CONTRIBUTION CAN BE JUDGED BY PEERS EXTERNAL TO UAF. AS SUCH, LITTLE CONSIDERATION WILL BE GIVEN TO RESEARCH THAT APPEARS IN NON-REFEREED PREPRINTS. NOR WILL WORK THAT IS DONE BY PRIVATE CONTRACTING BE CONSIDERED IF IT APPEARS ONLY IN INTERNAL COMPANY REPORTS. THE RESEARCH CONTRIBUTIONS FOUND IN A BOOK WILL BE BASED ON THE EXPOSITION OF NEW IDEAS. BOOKS THAT ONLY GATHER MATERIAL FOUND IN OTHER LOCATIONS WILL BE CONSIDERED TO BE EXPOSITORY AND NOT RESEARCH DOCUMENTS.**

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

M. RESEARCH RESULTS SHOULD BE MEASURED BY QUALITY, IMAGINATION, LONG TERM IMPACT, DEPTH AND ORIGINALITY. THE DEPARTMENT EXPECTS FACULTY WITH A 30% RESEARCH LOAD TO BE PUBLISHING AT A RATE OF APPROXIMATELY ONE PAPER PER YEAR. AT A 50% LEVEL OR ABOVE THERE SHOULD BE APPROXIMATELY TWO. HOWEVER, IT SHOULD BE EMPHASIZED THAT THIS IS ONLY AN APPROXIMATE GOAL. THE MORE IMPORTANT GOAL IS QUALITY RESEARCH. HIGH QUALITY RESEARCH CAN BE PRODUCED AND DISSEMINATED IN SPECIAL CIRCUMSTANCES AT A LOWER RATE. ACCORDINGLY, CANDIDATES SHOULD NOT TRY TO MEET A RESEARCH TARGET IN TERMS OF NUMBER OF PAPERS PUBLISHED. FURTHER, HEAVY PRODUCTION RATES OF LOW QUALITY PUBLICATIONS IS DISCOURAGED.

N. A CANDIDATE'S PUBLICATION AND FUNDING RECORD SHOULD BE COMPARED WITH INDIVIDUALS IN THE SAME OR RELATED DISCIPLINES. THE PRACTICE OF LISTING COAUTHORS WHO HAVE CONTRIBUTED LITTLE TO A PUBLICATION IS UNCOMMON IN THE MATHEMATICAL SCIENCES. EXCEPT IN UNUSUAL CIRCUMSTANCES, EACH COAUTHOR WILL HAVE MADE A SIGNIFICANT CONTRIBUTION. COAUTHORS ARE OFTEN LISTED ALPHABETICALLY.

O. FOR DMS FACULTY CONDUCTING RESEARCH IN MATHEMATICS EDUCATION, APPROPRIATE RESEARCH PRODUCTS, IN ADDITION TO THOSE NOTED ABOVE, MAY ALSO INCLUDE DEVELOPMENT OF MATHEMATICAL CURRICULA THAT ARE INNOVATIVE AND BASED ON ORIGINAL RESEARCH. IN ADDITION TO JOURNALS INTENDED FOR THE RESEARCH COMMUNITY, DMS WILL ALSO VALUE PEER-REVIEWED JOURNALS INTENDED FOR THE BROADER EDUCATION RESEARCH COMMUNITY. THIS INCLUDES JOURNALS DEVOTED TO TEACHER PREPARATION AND PROFESSIONAL DEVELOPMENT AS WELL AS A READING AUDIENCE OF EDUCATION POLICYMAKERS, TEACHERS AND ADMINISTRATORS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring **OF FACULTY.**

j. Prizes and awards for excellence in university service.

K. SERVICE AS OUTSIDE REVIEWER ON UAF THESIS COMMITTEES.

L. PREPARATION OF UNIVERSITY REPORTS.

M. CONSULTING WITH UAF FACULTY IN AND OUTSIDE DMS IN DISCIPLINE SPECIFIC ACTIVITIES THAT ARE NOT COUNTED AS RESEARCH (E.G. THAT DO NOT LEAD TO A COAUTHORED PUBLICATION).

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

PROFESSIONAL SERVICE INCLUDES, BUT IS NOT LIMITED TO, JOURNAL WORK, SERVICE TO NATIONAL PROFESSIONAL ORGANIZATIONS, WORKING

WITH TESTING ORGANIZATIONS TO DEVELOP STANDARDIZED EXAMS, EDITING FOR TEXTBOOK AND SCIENTIFIC PUBLISHERS, ORGANIZING CONFERENCES, DEVELOPING, ORGANIZING OR PRESENTING IN-SERVICE TRAINING PROGRAMS, GIVING COLLOQUIUM LECTURES, REVIEWING PROPOSALS AND BOOKS. IT INCLUDES PRESENTATION OF EXPOSITORY MATERIAL INCLUDING EXPOSITORY TEXTS, WHICH ARE NOT PRIMARILY MEANT FOR CLASSROOM USE. OUTREACH TO EDUCATORS (E.G. OFFERING INSERVICE WORKSHOPS OR INSTITUTES FOR K-12 MATHEMATICS TEACHERS) IS ALSO APPROPRIATE PROFESSIONAL SERVICE FOR DMS FACULTY.

4. **Evaluation of Service**
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

RATIONALIZATION AND COMMENTARY

THE ABOVE PORTION OF THIS DOCUMENT IS MEANT TO OUTLINE THE PROCESS AND INDICES OF EVALUATION. WHAT FOLLOWS BELOW ARE A FEW REMARKS MEANT TO GIVE SOME EXPLANATION TO THIS SCHEMATIC.

FOR PROMOTION TO THE LEVEL OF ASSOCIATE PROFESSOR A RECORD OF QUALITY INSTRUCTION AND RESEARCH IS IMPORTANT. THE DMS RECOGNIZES THAT AT THE LEVEL OF ASSISTANT PROFESSOR, SERVICE IS SECONDARY TO TEACHING AND RESEARCH. THIS DOES NOT IMPLY SERVICE AT THIS LEVEL IS UNIMPORTANT. FACULTY NEW TO THE PROFESSION CAN PROFITABLY SPEND THEIR TIME ESTABLISHING A RESEARCH RECORD AND PERFECTING TEACHING TECHNIQUE.

DMS TAKES EXCEPTION WITH IDEAS FOUND IN CERTAIN QUARTERS ON SPECIFIC AND OBJECTIVE MEASURES OF IMPACT FACTORS. TO QUOTE FROM THE OCTOBER 2006 NOTICES OF THE AMERICAN MATHEMATICAL SOCIETY,

> **"PEOPLE MISUSE THE IMPACT FACTOR BECASE THERE ARE NO EXPLICIT PRINCIPLES GOVERNING ITS INTERPRETATION. THE IMPACT FACTOR IS USED TO MEASURE THE VALUE OF THINGS FOR WHICH IT WAS NEVER INTENDED (ARTICLES AND AUTHORS, FOR EXAMPLE), AND IT IS USED TO MAKE FAULTY COMPARISONS BETWEEN UNLIKE OBJECTS, INCLUDING JOURNALS THEMSELVES...FOR DECADES, SCHOLARS HAVE COMPLAINED ABOUT THE MISUSE OF THE IMPACT FACTOR, AND THERE IS EXTENSIVE**

LITERATURE OF SUCH COMPLAINTS AND ADMONITIONS. BUT IN A WORLD GONE MAD WITH AN OBSESSION TO EVALUATE EVERYTHING 'OBJECTIVELY', IT IS NOT SURPRISING THAT DESPERATE AND SOMETIMES INCOMPETENT EVALUATORS USE A POORLY UNDERSTOOD, BUT EASILY CALCULATED, NUMBER TO COMFORT THEM."

DMS STRONGLY MAINTAINS THAT IN ADDITION TO ANY QUANTIFIED METRICS WE MUST ADD PERSONAL JUDGEMENT BY PRC AND OUTSIDE EVALUATORS. SCHOLARLY PEERS, SUBJECTIVE THOUGH THEY MAY BE, ARE THE BEST JUDGES OF QUALITY. MAKING SUCH DECISIONS IS HARD WORK BUT A NECESSARY RESPONSIBILITY OF EACH MEMBER OF THE PRC.

TO FURTHER UNDERSCORE THE ABOVE POINTS, WE QUOTE FROM A 2006 WHITE PAPER RELEASED BY THE AMERICAN MATHEMATICAL SOCIETY.

"MATHEMATICS IS OFTEN CONSIDERED AS PART OF THE PHYSICAL AND NATURAL SCIENCES, BUT ITS PUBLICATION PRACTICES DIFFER FROM THESE OTHER DISCIPLINES IN SEVERAL FUNDAMENTAL WAYS.

MATHEMATICIANS TEND TO PUBLISH AT RATES THAT ARE MODEST COMPARED TO SOME OTHER SCIENCES. THE MAJORITY OF MATHEMATICAL RESEARCH IS PUBLISHED IN REFEREED RESEARCH JOURNALS RATHER THAN CONFERENCE PROCEEDINGS OR BOOKS. THE MATHEMATICAL LITERATURE IS SPREAD AMONG A WIDER COLLECTION OF JOURNALS THAN IN MOST RELATED FIELDS. AND, SINCE AN ARTICLE TYPICALLY REPRESENTS A MATURE TREATISE ON A MATHEMATICAL QUESTION, AND SINCE MATHEMATICS RESEARCH IS NOT CONSIDERED TIME-SENSITIVE, DELAYS IN PUBLICATION ARE COMMON.

EVEN SOME OF THE BEST YOUNG MATHEMATICIANS PUBLISH RELATIVELY FEW PAPERS. A STUDY OF THE 40 MATHEMATICIANS WINNING SLOAN FELLOWSHIPS IN 2005-2006 SHOWS THAT 70% PUBLISH AN AVERAGE OF TWO OR FEWER ARTICLES PER YEAR IN THE FIVE YEARS PRECEDING THEIR AWARD. THESE TWO GROUPS REPRESENT AN EXCEPTIONAL GROUP OF HIGHLY PRODUCTIVE MATHEMATICIANS.

OF THE 274 PUBLICATIONS BY THESE GUGGENHEIM FELLOWS, 75% WERE IN REFEREED JOURNALS. ONLY THREE PUBLICATIONS WERE BOOKS. IN FACT, OF ALL ITEMS COVERED BY MATHEMATICAL REVIEWS IN THE YEARS 2001-2005, FULLY 80% WERE FROM REFEREED JOURNALS.

WHEN JUDGING THE WORK OF MOST MATHEMATICIANS, THE KEY MEASURE OF VALUE FOR A RESEARCH PROGRAM IS THE QUALITY OF PUBLICATIONS RATHER THAN RATE. THE INFORMATION ABOVE ABOUT THOSE WHO HAVE WON PRESTIGIOUS AWARDS STRONGLY SUPPORTS THIS VIEW."

CERTAIN DISCIPLINES FOUND IN MATHEMATICAL SCIENCES HAVE LITTLE OPPORTUNITY IN THE WAY OF EXTERNAL FUNDING. ACCORDINGLY, THE ABILITY TO FIND FUNDING SPEAKS WELL FOR A CANDIDATE AT ANY LEVEL. HOWEVER, ABSENCE OF FUNDING MAY NOT NECESSARILY SPEAK AGAINST THE CANDIDATE. DMS DOES NOT CONSIDER THE FUNDING OF GRANT PROPOSALS TO BE THE GOAL OF ANY RESEARCH PROJECT. RATHER, WE FOCUS ON WHAT IS ACHIEVED WITH OR WITHOUT RESEARCH FUNDING.

TO SUMMARIZE, THE PRIMARY RESEARCH METRIC IS NOT NUMBER OF PUBLICATIONS, NOR NUMBER OF CITATIONS, NOR QUANTITY OF GRANT MONEY. IT IS RESEARCH RESULTS AS MEASURED BY QUALITY, IMAGINATION, LONG TERM IMPACT, DEPTH AND ORIGINALITY.

FURTHER INFORMATION ON THE CULTURE OF MATHEMATICS AND DISTINCTIONS FROM OTHER ACADEMIC DISCIPLINES CAN BE FOUND AT:

http://www.ams.org/profession/leaders/culture/culture

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #201, October 6, 2014:

MOTION:

The UAF Faculty Senate moves to reaffirm the Unit Criteria for the Marine Advisory Program.

EFFECTIVE: Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted by the Marine Advisory Program. The unit criteria were found to be consistent with UAF guidelines.

****

Cécile Lardon
President, UAF Faculty Senate

APPROVAL: _____ DATE: 10/7/14
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

UAF Regulations for the Appointment and Evaluations of Faculty And *Marine Advisory Program* Unit Criteria, Standards, and Indices

The following is an adaptation of UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of the Marine Advisory Program (MAP). Items in boldface italics are those specifically added or emphasized because of their relevance to the department's/s' faculty, and because they are additions to UAF regulations.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

Chapter II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies", Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

In accordance with the BOR policy on promotion and tenure, MAP agents and specialists typically have bipartite appointments. Bipartite responsibilities are to be clearly stated at the time of hire and can be any combination of two of the three tripartite missions, i.e., teaching, research, or service. A MAP faculty member can request a tripartite appointment in their employment contract if such a status is consistent with the goals of the Marine Advisory Program.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

MAP faculty members are designated at the time of hiring as either agents or specialists. An agent is a generalist that does not require concentration of their workload to a specific academic, research, or service discipline. Specialists concentrate their workload toward a specific academic, research, or service discipline as designated in their letter of appointment (examples are: Business Specialist and Fisheries Specialist). Workloads and evaluations are to be based on which of those two assignments the individual holds. A MAP faculty member may be granted a change of assignment based on his/her request and the needs of the program.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV ***and MAP unit criteria, standards and indices***, evaluators may consider, but shall not be limited to, whichever

of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school, ***in consultation with the MAP leader,*** shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

MAP faculty may participate in formal teaching when the opportunity arises; however, standard academic teaching is not a common form of informational delivery in the Marine Advisory Program. Instruction often includes contact with clientele through distance delivery methods, workshops, seminars, training, public presentation events, and classroom teaching. A 10% (4 unit) teaching load in MAP is considered 45 to 50 hours of instructional activities.

Development and preparation of instructional materials such as workshop outlines, training syllabuses or lesson plans, handouts, slide presentations, displays, lecture materials etc. are also components of MAP instructional activities. Educational videos and/or other media produced for public education are also included.

Marine Advisory Program agents usually function as generalists by contributing breadth and diversity in their teaching efforts. Rurally located agents usually respond to requests to develop and/or teach discrete sessions, workshops, or short-term courses on subjects not typically available to rural Alaskans.

Specialists have a depth of topical knowledge and primarily focus on teaching technical information in their specialty area to clientele.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers.

   Teaching in the context of a MAP activity is generally defined as proactively planned and delivered instruction. MAP education activities are designed to deliver information relevant to specific clientele and public needs. Clientele may range from kindergarten to adults, and the general public to professionals.

   Effective teachers ***will demonstrate some, but not necessarily all, of the following characteristics in an individual year:***

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students ***and clientele***;

   b. express positive regard for students, ***become familiar with their public***, develop good rapport with students ***and clientele***, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student ***and clientele*** participation for student learning and teacher effectiveness, are sensitive to student ***and clientele*** diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars ***addressing clientele and public needs*** and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, ***instructional publications***, recruiting and advising, training/guiding students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms, ***and/or classroom evaluations, post-instruction surveys and/or student or clientele testimonials,***

   and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair/***other professionals*** classroom observation(s),

d. peer/department chair/***other professionals*** evaluation of course materials.

Systematic university approved student evaluations are not usually available or appropriately designed to evaluate MAP teaching activities. In addition, instruction by MAP faculty is often conducted in rural locations where evaluation by peers or department chair is not available. However, a means of evaluation appropriate to the instructional content should be administered by the principal instructor whenever possible.

Additional indices for documenting effective teaching for MAP faculty seeking promotion and/or tenure to <u>Associate Professor</u> may include:

a. Evidence that teaching addresses client-centered needs, as expressed by requests for courses and by client/student participation in those courses;

b. Evidence that the teaching is meeting specific, quantifiable instructional objectives through student evaluations or follow-up surveys;

c. Demonstration of changes in knowledge, skills and/or attitudes/behavior resulting from MAP information transfer through post instructional evaluations, surveys, and testimonials;

d. Clientele evaluations of both the instructional program and the instructor competence and effectiveness;

e. Testimonials and/or repeated invitations to teach;

f. Documentation of contact hours with clientele as an assessment of response effort;

g. Successful application of distance delivery of educational programming;

h. Evidence of successful teaching by development and application of innovative original teaching methods.

i. Successful mentoring of undergraduate and/or graduate students and participation, as member, in graduate student committees;

Additional indices for documenting effective teaching for MAP faculty seeking promotion to the rank of <u>Professor</u> include:

a. Clientele/student reviews and/or evaluations that show continued quality performance as a teacher,

and at least one of the following:

b. Development and/or adaptation of new methods and approaches in the discipline, such as:

i. Creative use of media and/or distance- delivery methods of instruction which extends the bounds of the discipline and improves educational outreach;

ii. New curriculum or program development that improves the information transfer in the faculty member's area of expertise;

c. Regional, statewide, national and/or international recognition as an expert as illustrated through invitations to and presentations at conferences, meetings, workshops, and trainings;

d. Receipt of state or national awards in recognition of outstanding teaching;

e. Recognition through invitational teaching opportunities;

f. Significant contribution in mentoring of undergraduate and/or graduate students and participation, as member, in graduate student committees.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Many MAP faculty have limited opportunities to conduct traditional research and limited or no access to laboratories and graduate students. Additionally, bipartite faculty may or may not have a research obligation. Faculty without research obligation may conduct research in response to public needs, in this case these activities will be evaluated under service.

Marine Advisory faculty with research responsibilities in their bipartite or tripartite appointments are expected to conduct applied research or engage in other scholarly and creative pursuits that help solve issues facing the people of Alaska.

For MAP faculty, research, scholarly, and creative activities may consist of:

a. Applied research designed to address specific client needs;

b. Production of peer reviewed informational media; and

c. Publication of peer reviewed publications.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum, ***with results and impacts disseminated to appropriate academic and community audiences.***

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution ***and be relevant to Alaskan issues.***

2. **Components of Research, Scholarly and Creative Activity**
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by peers, juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

Additional indices for documenting effective research, scholarly and creative activity for MAP faculty seeking promotion and/or tenure to <u>Associate Professor</u> include:

a. If research composed greater than 60% of a faculty members workload, authorship or co-authorship of a minimum of four (4) refereed publications are expected. These

expectations are based on a workload of 60% effort in research and should be interpreted in the context of actual workload and adjusted accordingly,

and at least one of the following:

b. edit or referee articles or proposals for professional journals or organizations and MAP or Sea Grant publications,

c. adapt existing research-based technology or knowledge in order to solve problems relevant to Alaska,

d. participate in extramurally funded research projects.

Additional indices for documenting effective research, scholarly and creative activity for MAP faculty at the rank of Associate Professor and seeking promotion to the rank of Professor include:

a. If research composed greater than 60% of a faculty members workload, authorship or co-authorship of a minimum of eight (8) refereed publications are expected. The candidate must demonstrate sustained performance in research. These expectations are based on a workload of 60% effort in research and should be interpreted in the context of actual workload and adjusted accordingly,

and at least one of the following:

b. authorship, co-authorship, editor or co-editor of a book or major reference in the faculty member's area of scholarly activity,

c. recipient of a regional, national or international research fellowship or award,

d. participate in extramurally funded research projects in a leadership role (e.g. principal investigator or co-principal investigator),

e. introduce new technology, product, or idea which demonstrably improves the quality of life for Alaskans, and is a clear result of a MAP faculty member's activity.

D. Criteria for Public, University, and Professional Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

A significant portion of the workload of MAP faculty will consist of service. In general, this will be higher than that found in traditional UAF faculty workloads and reflect the community or specific client needs approach of Marine Advisory Program educational activities.

1. **Public Service**

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or advice to government or public committees.

c. ***Collaborations and partnerships with agencies, regional advisory boards, task forces, focus groups or public special interest groups to identify relevant issues and regional concerns.***

d. ***Active participation in constituency organizations.***

e. Active participation in discipline-oriented service organizations.

f. ***Consulting in the faculty member's area of expertise and the discipline consistent with the obligation for public service.***

g. Prizes and awards, for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating, ***at public fora, group meetings and public events.***

j. Radio and TV programs, newspaper articles and columns, ***MAP*** publications, newsletters, films, computer applications, teleconferences and other educational media ***including website designed and/or managed by faculty.***

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. ***Participation in K-12 educational programs.***

m. ***Assessing and/or responding to research needs of clientele and communicating those needs to the research community.***

n. ***Conducting research in response to public needs.***

o. ***Developing and managing effective community and agency partnerships, which extend MAP resources and/ or develop leadership skills.***

p. ***Representing and answering questions at public events.***

q. ***Site visits for problem solving and consultation.***

r. ***Rapidly responding to urgent client needs in a timely, flexible, and appropriate manner.***

s. ***Other service activities consistent with the School of Fisheries and Oceans Sciences to contribute to Alaska's coastal economy.***

2. **University Service**
University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as ***program leader or director***, department chair or term-limited and part-time assignment as assistant/associate dean in a college/school, ***or program.***

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prize and awards for excellence in university service.

k. Representing the University and/or MAP at public events including education displays, tradeshows, booths and exhibits.

l. ***Act as an outreach consultant on research projects conducted by other University faculty.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on ***regional, statewide,*** national or international review panel or committee.

4. **Evaluation of Service**
Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, ***invitations to participate at clientele meetings, conferences, and workshops,*** and other public means of recognition for services rendered.

Additional indices for documenting effective service activity for MAP faculty seeking promotion and/or tenure to <u>Associate Professor</u> includes:

a. ***If service composed greater than 60% of a faculty members workload, creation or co-creation of at least twelve (12) individual service activities, including outreach publications, workshops, conferences, trainings, website development or other service activities. These expectations are based on a workload of 60% effort in service and should be interpreted in the context of actual workload and adjusted accordingly,***

and at least two of the following:

b. Presentation of applied research results to user groups such as public agencies, governmental bodies, private businesses, constituent groups, and lay public, both in published and oral forms.

c. Quality and distribution of media presentations and public interviews, e.g., TV, radio, film, newspapers and videotapes.

d. Evidence of response to new knowledge and developments in the discipline by rapidly raising public understanding and awareness through available educational media and methods.

e. Results of individual consultations.

f. Role and effort involved in the development and planning of conferences and workshops.

g. Writing and distribution of MAP, School of Fisheries and Ocean Sciences, and Sea Grant publications.

h. Documentation of service activities conducted on a continuing basis.

i. Testimonials and letters demonstrating outcomes and/or effectiveness of service activities or other documentation which demonstrates the impacts of MAP faculty service activities.

j. Documentation of public needs and response.

k. Appropriateness of the response effort toward urgent clientele issues.

l. Development and maintenance of partnership relationships.

m. Appointments to public, university, and professional committees and any leadership role in committee assignments.

n. Evidence of support provided to university faculty in their teaching, research, and/or service activities.

o. Evidence of application of ~~applied research or~~ project results by the public.

Additional indices for documenting effective service activity for MAP faculty at the rank of Associate Professor and seeking promotion to the rank of Professor includes:

a. If service composed greater than 60% of a faculty members workload, creation or co-creation of at least twenty-four (24) individual service activities, including outreach publications, workshops, conferences, trainings, website development or other service activities. The candidate must demonstrate sustained performance in service. These expectations are based on a workload of 60% effort in service and should be interpreted in the context of actual workload and adjusted accordingly,

and at least two of the following:

b. Invitation to serve on national or international boards, review committees, award commissions or scholarship commissions.

c. Appointment or election to a leadership position on local, state, national, and international public service committees or organizations.

d. Engaged in profession and scholarly service activities on statewide, national or international level.

e. National leadership in a professional organization.

f. Recognition through invitational speaking engagements on topics that constitute public service.

g. Evidence of effective application of professional expertise to professional or public processes and organizations.

h. Service as committee chair. Session organizer, or officer of professional

organizations.

i. ***Evidence of important contributions to the development of school, departmental, and/or university programs.***

j. ***Recognition through receipt of public service awards, or awards for service to the university.***

k. ***Receipt of a national association, government, or professional society service award.***

l. ***Participation in a voluntary mentoring relationship with junior faculty to facilitate their progress toward promotion and tenure.***

Revised April 10, 2014

The UAF Faculty Senate passed the following at Meeting #201, October 6, 2014:

RESOLUTION:

The UAF Faculty Senate endorses UAF Staff Council's Resolution 2014-252-1 in support of the FY16 UAF capital budget request to expand the Early Childhood Program (Bunnell House).

Cécile Lardon

President, UAF Faculty Senate

****

SC 252 - Approved

Resolution 2014-252-1

University of Alaska Fairbanks
Staff Council
Resolution 2014-252-1

The University of Alaska Fairbanks Staff Council unanimously approved the following resolution at Staff Council Meeting #252, on August 20, 2014.

Resolution 2014-252-1 : Resolution Supporting the University of Alaska Fairbanks FY16 Capital Budget Request Titled "Expanding the Early Childhood Program (Bunnell House)"

WHEREAS in recognition of the summary finding of feedback received during the recent Staff Council "Better Place to Work" Survey: Expand on-site childcare, now;

THEREFORE BE IT RESOLVED, that UAF Staff Council supports the University of Alaska Fairbanks FY 16 capital budget request titled "Expanding the Early Childhood Program (Bunnell House)" for $850 thousand in State Appropriations.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #200 on September 8, 2014:

Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution at Meeting #176 in September 2011, Meeting #184 in September 2012, and Meeting #192 in September 2013. For academic year 2014-2015, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #200 on September 8, 2014.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2014-15 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

****

President, UAF Faculty Senate

The UAF Faculty Senate tabled the following at Meeting #199, May 5, 2014:

MOTION:

The Curricular Affairs Committee moves that the Faculty Senate submit the following changes to the UAF baccalaureate requirements for a faculty vote of approval:

Each student must complete a capstone course or experiential learning opportunity (e.g. internship) in student's major or program (0 – 3 credits). It will be the responsibility of each Department, Program, and (or) College/School to create, deliver, evaluate, and assess their capstone experience.

Effective: Upon approval by faculty vote

Rationale: This change is proposed in support of satisfying UAF's Learning outcome #4: "Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning. Preparation will be demonstrated through production of a creative or scholarly project that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection."

Many UAF Departments and Programs currently have baccalaureate capstone experience requirements; the purpose of this change is to create a UAF-wide requirement. We envision this proposed change as not adding a significant burden to UAF faculty and students.

****

The UAF Faculty Senate passed the following at Meeting #199, May 5, 2014:

MOTION:

The UAF Faculty Senate moves to amend the Group B Administrator Guidelines for the Evaluation Process for Administrators, as follows.

EFFECTIVE: Immediately

RATIONALE: In some years, the Faculty Senate Administrator Review Committee may not be constituted because Group A reviews are behind or none occur. Group B review oversight only calls for an independent verification that proper procedures were followed. This provides a mechanism to accomplish oversight in the event that the Faculty Senate Administrator Review Committee does not exist.

GUIDELINES FOR THE EVALUATION PROCESS FOR ADMINISTRATORS

Group B Administrators:

In addition to be reviewed annually by his/her immediate Supervisor, "Group B" administrators are to undergo a 3-year comprehensive review. At a time designated by the Supervisor during the fall semester of the academic year of comprehensive review, the "Group B" administrator will submit a self-evaluation report to his/her Supervisor. The self-evaluation shall include: (1) comments on the annual performance evaluations; (2) a summary of his/her notable activities/accomplishments in the previous years; and (3) a statement of relevant goals/objectives relative to assigned or planned administrative duties for the upcoming years. The Supervisor's evaluation shall include faculty and/or staff opportunities for comment on the "Group B" administrator's performance. Comments received shall be referenced in anonymous and aggregate summary in the written evaluation provided to the "Group B" administrator. The Supervisor will include, as part of the written evaluation, an appended workload assignment and/or statement of performance expectations for the "Group B" administrator for the subsequent review period. A summary statement of the process used to assure faculty/staff input into the evaluation will be forwarded to the Faculty Senate Office by March 15 of the academic year the "Group B" administrator is scheduled for review. **IF CONSTITUTED, [[T]]**the Faculty Senate Faculty Administrator Review Committee shall review the evaluation process in order to perform their oversight function in the administrator review. **OTHERWISE, THE FACULTY SENATE PRESIDENT AND PRESIDENT-ELECT WILL REVIEW THE PROCESS, SUBJECT TO THE APPROVAL OF THE FACULTY SENATE ADMINISTRATIVE COMMITTEE.**

The following criteria will be used to determine which administrators are placed on or removed from the "Group B" list. As vacancies and appointments occur, changes to the list shall be determined annually by the Provost in consultation with the Faculty Senate President.

- "Group B" administrator responsibilities must administrative in nature.
  ("Group B" administrators must not be Union members, UNAC or ACCFT).
- "Group B" administrators report to "Group A" administrators.
  (Group A" administrators report to the Chancellor, Provost, or Vice Chancellor.)
- "Group B" administrators supervise faculty and are involved in faculty performance reviews.

The UAF Faculty Senate passed the following at Meeting #199 on May 5, 2014:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Computer Science.

EFFECTIVE: Fall 2014
Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted by the Department of Computer Science. With minor revisions, the unit criteria were found to be consistent with UAF guidelines.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND COMPUTER SCIENCE UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE COMPUTER SCIENCE DEPARTMENT OF THE COLLEGE OF ENGINEERING AND MINES. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service. ***THE LEVEL OF PRODUCTIVITY EXPECTED OF A FACULTY MEMBER IN EACH AREA (TEACHING, RESEARCH, AND SERVICE) WILL BE COMMENSURATE WITH THE PERCENTAGE OF HIS OR HER WORKLOAD DEDICATED TO SUCH ACTIVITY.***

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers ***WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:***

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design, ***INCLUDING THE DEVELOPMENT OF DISTILLED KNOWLEDGE (BOOKS, SOFTWARE, DOCUMENTATION) FOR STUDENT USE;***

g. may receive prizes and awards for excellence in teaching*;*

h. ***DISSEMINATE NEW IDEAS TO THE STUDENTS RESULTING FROM RESEARCH AND OTHER ENGINEERING ACTIVITIES, SUCH AS CONSULTING AND SERVICE ON REVIEW PANEL;***

i. ***INVOLVE STUDENTS, ESPECIALLY GRADUATE STUDENTS, IN QUALITY RESEARCH ACTIVITIES;***

SPECIFIC CS CRITERIA FOR TEACHING PERFORMANCE BEFORE PROMOTION/TENURE OR APPOINTMENT TO:

I. ASSISTANT PROFESSOR: ***EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO A QUALITY TEACHING PROGRAM MUST BE PROVIDED, AS WELL AS EVIDENCE OF AN EFFORT TOWARD CONTINUAL IMPROVEMENT.***

II. ASSOCIATE PROFESSOR: ***THE RECORD MUST SHOW THAT THE MATERIAL TAUGHT IS CONTEMPORARY AND RELEVANT, AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT IS NOT LIMITED TO) COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, EFFECTIVE GUIDING AND MENTORING OF STUDENTS, AND EFFECTIVE CLASSROOM TEACHING PERFORMANCE. THERE MUST BE EVIDENCE OF SUCCESSFUL COMPLETION OF GRADUATE STUDENT RESEARCH (AS A MAJOR SUPERVISOR OR COSUPERVISOR).***

III. PROFESSOR: ***SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE MAY INCLUDE, BUT ARE NOT LIMITED TO, CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, UPGRADING OF INSTRUCTIONAL FACILITIES, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS, AND EXEMPLARY TRAINING OF GRADUATE STUDENTS. THERE SHOULD BE A RECORD OF CONTINUING SUCCESSFUL MENTORHSIP OF GRADUATE STUDENTS AS EXEMPLIFIED BY JOINT AUTHORSHIP OF PUBLICATIONS, INVOLVEMENT OF GRADUATE STUDENTS IN RESEARCH PROJECTS, AND COMPLETION OF GRADUATE DEGREES UNDER HIS/HER SUPERVISION SINCE THE PREVIOUS PROMOTION. IT IS EXPECTED THAT ASSESSMENT OF TEACHING BY STUDENTS AND FACULTY DEMONSTRATE CONSISTENTLY HIGH QUALITY PERFORMANCE.***

a. **Components of Evaluation**
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, **and** at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art ***AND ENGINEERING*** work, ***SCIENTIFIC VISUALIZATIONS AND COMPUTER ANIMATIONS*** at galleries, ***CONFERENCES AND MUSEUMS, WHERE*** selection for these exhibitions ***IS*** being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art ***AND ENGINEERING*** works, ***SCIENTIFIC VISUALIZATIONS AND COMPUTER ANIMATIONS,*** and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC CS CRITERIA FOR RESEARCH PERFORMANCE BEFORE PROMOTION/TENURE OR APPOINTMENT TO:

I. ASSISTANT PROFESSOR: EVIDENCE OF RESEARCH ABILITY AND A COMMITMENT TO ESTABLISH A VIABLE RESEARCH PROGRAM.

II. ASSOCIATE PROFESSOR: THE FACULTY MEMBER MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM THAT PRODUCES A SATISFACTORY NUMBER OF PEER-REVIEWED PUBLICATIONS AND PRESENTED RESEARCH RESULTS AT PROFESSIONAL MEETINGS. THE SUBMISSION OF RESEARCH PROPOSALS AND ACQUISITION OF EXTERNAL RESEARCH FUNDING, AND THE COMPLETION OF CONTRACT RESEARCH REPORTS CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE RESEARCH PROGRAM IS OF HIGH QUALITY. SUSTAINED PRODUCTIVITY MUST BE SHOWN WITH ADEQUATE EVIDENCE OF RESEARCH ACTIVITIES AND PUBLICATIONS SINCE INITIAL APPOINTMENT, WITH THE CANDIDATE TAKING A LEADING ROLE IN RESEARCH AND PUBLICATIONS. THE FACULTY MEMBER MUST ALSO SHOW INDEPENDENCE AND LEADERSHIP BY THE CREATION OF RESEARCH IDEAS RESULTING IN PUBLICATIONS THAT INVOLVE STUDENTS.

III. PROFESSOR: THE RESEARCH PROGRAM SHOULD HAVE PRODUCED A SUFFICIENT NUMBER OF PEER-REVIEWED PUBLICATIONS. TO INDICATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM, THE PUBLICATIONS SHOULD BE OF SUFFICIENT QUANTITY

AFTER THE PREVIOUS TENURE/PROMOTION/APPOINTMENT, WITH DOCUMENTED EVIDENCE OF HIGH QUALITY AND SHOULD DEMONSTRATE STUDENT INVOLVEMENT. A NATIONAL OR INTERNATIONAL REPUTATION OF THE CANDIDATE (E.G., AS DEMONSTRATED BY A HIGH NUMBER OF ARTICLE CITATIONS, PROFESSIONAL ACTIVITIES, PRESENTATIONS AT MEETINGS, AND DOCUMENTED OPINIONS OF OTHER ENGINEERS AND SCIENTISTS IN THE FIELD) IS EXPECTED.

THE DISCIPLINE OF COMPUTER SCIENCE DOES NOT PREFER JOURNAL OVER CONFERENCE PUBLICATION, AND A SELECTIVE CONFERENCE (E.G., SIGGRAPH) IS MORE PRESTIGIOUS THAN AN AVERAGE JOURNAL. THUS FACULTY EVALUATION MUST INCLUDE <u>ALL</u> PEER-REVIEWED PUBLICATIONS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY.***

j. Prizes and awards for excellence in university service.

k. ***SERVICE AS OUTSIDE REVIEWER ON THESIS COMMITTEES.***

l. ***PREPARATION OF UNIVERSITY REPORTS AND ONLINE INFORMATION.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. **Evaluation of Service**
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC CS CRITERIA FOR SERVICE PERFORMANCE BEFORE PROMOTION/TENURE OR APPOINTMENT TO:

I. ASSISTANT PROFESSOR: EVIDENCE OF A COMMITMENT TO CONTRIBUTE TO THE SERVICE MISSION OF THE COLLEGE.

II. ASSOCIATE PROFESSOR: POSITIVE CONTRIBUTIONS TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS, EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICES TO THE PROFESSION ARE EXPECTED.

III. PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS INCLUDING COMMITTEE LEADERSHIP OR UAF FACULTY SENATE SERVICE AND ASSOCIATED COMMITTEES ARE EXPECTED. EFFECTIVE APPLICATION OF SERVICE INCLUDES PROFESSIONAL EXPERTISE PROVIDED TO PROFESSIONAL OR PUBLIC ORGANIZATIONS SUCH AS ENGINEERING SOCIETY LEADERSHIP, REVIEWING PROPOSALS, REFEREEING MANUSCRIPTS, AND EDITING FOR PROFESSIONAL ORGANIZATIONS OR PUBLICATIONS.

EXAMPLES OF SERVICE ACTIVITIES APPROPRIATE FOR FACULTY INCLUDE (BUT ARE NOT LIMITED TO):

a. K-12 AND/OR INFORMAL ENGINEERING EDUCATION;

b. PRESENTATION OF ENGINEERING TO THE PUBLIC.

MEASURES OF EFFECTIVENESS OF PERFORMANCE INCLUDE (BUT ARE NOT LIMITED TO):

a. ACCOMPLISHMENTS GAINED THROUGH SERVICE TO ORGANIZATIONS;

b. OPINIONS OF CLIENTS SERVED AND/OR COLLEAGUES INVOLVED IN DELIVERY OF SERVICE.

The UAF Faculty Senate passed the following at Meeting #199, May 5, 2014: [as modified below]

MOTION:

The UAF Faculty Senate moves to endorse the following set of common Student Learning Outcomes as recommended by the General Education Learning Outcomes sub-committee of the UA Faculty Alliance. These replace the learning outcomes enumerated in the "Objectives and Student Learning Outcomes" adopted by the UAF Faculty Senate at meeting #175 (as amended at meeting #179).

Effective: ~~Immediately~~ Upon approval by UAA and UAS Faculty Senates.

Rationale: The UA Board of Regents has directed the Universities of Alaska to align their general education requirements. As a first step toward alignment, the General Education Learning Outcomes sub-committee of the UA Faculty Alliance developed these learning outcomes based largely on the objectives and student learning outcomes adopted at meeting #175 of the UAF Faculty Senate, as amended in meeting #179. This is directed explicitly at baccalaureate programs, and therefore implicitly at AA and AS degree programs. The means of demonstrating achievement in these areas (the "bullet points" on the existing UAF student learning outcomes) will be addressed in the future.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 5/6/14

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

****

All baccalaureate graduates in the University of Alaska system shall achieve the following student learning objectives:

- **Build Knowledge of Human Institutions, Socio-Cultural Processes, and the Physical and Natural World** through study of the natural and social sciences, [[technologies,]] mathematics, humanities, [[histories, languages,]] and the arts.
- **Develop Intellectual and Practical Skills across the curriculum**, including inquiry and analysis, **QUANTITATIVE LITERACY**, critical and creative thinking, problem solving, written and oral communication, information literacy, [[technological competence,]] and collaborative learning.

- **Acquire Tools for Effective Civic Engagement** in local through global contexts, including ethical reasoning and intercultural competence, [[and knowledge of Alaska and Alaskan issues]] **WITH PARTICULAR EMPHASIS ON ALASKA AND THE CIRCUMPOLAR NORTH.**
- **Integrate and Apply Learning,** including [[synthesis and advanced accomplishment]] **ABILITY TO SYNTHESIZE KNOWLEDGE AND SKILLS** across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning.

The UAF Faculty Senate passed the following at Meeting #199, May 5, 2014:

MOTION:

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: a copy of the list is available in the Governance Office, 312B Signers' Hall]

EFFECTIVE: Immediately

RATIONALE: These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, UAF Faculty Senate makes that recommendation.

Outstanding Senator of the Year Award
Academic Year 2014

WHEREAS, Franz Meyer has served the University in the UAF Faculty Senate for three years at UAF; and

WHEREAS, Franz Meyer has served as Senator to the UAF Faculty Senate from 2011 through 2014; and

WHEREAS, Franz Meyer has served on the Faculty Development, Assessment and Improvement Committee from 2011 to the present year, and

WHEREAS, Franz Meyer has served as chair of the Faculty Development, Assessment and Improvement Committee from 2012 to the present year, and

WHEREAS, under Franz Meyer's leadership, the FDAI Committee has actively worked to fulfill its mission to UAF faculty, and

WHEREAS, Franz Meyer engaged actively in examining comprehensive options for replacing hand-written course evaluations with an electronic system and provided valuable and thoughtful leadership in assessing those options during 2012-13, and

WHEREAS, Franz Meyer worked systematically and tirelessly with the Faculty Development, Assessment and Improvement Committee and the Electronic Course Evaluation Workgroup through a second round of electronic system evaluations during 2013-14, and

WHEREAS, Franz Meyer worked diligently to involve the UAF community in active discussion and all phases of the evaluation process for potential electronic course evaluation systems, and

WHEREAS, Franz Meyer provided thoughtful and rational leadership to the workgroup to help create vital recommendations for an electronic course evaluation system which the UAF Faculty Senate have unanimously endorsed, and

WHEREAS, Franz Meyer has consistently and actively contributed to the Faculty Senate Administrative Committee, providing valuable assistance to Senate leadership in handling matters both routine and extraordinary, and

WHEREAS, Franz Meyer consistently is well prepared, takes a thoughtful and well-reasoned approach to issues under discussion, and maintains an open mind to new information, and

WHEREAS, Franz Meyer consistently sets an outstanding example of a committed senator,

THEREFORE, BE IT RESOLVED THAT the UAF Faculty Senate recognizes Franz Meyer as Outstanding Senator of the Year for Academic Year 2013-2014.

_____

President, UAF Faculty Senate
May 5, 2014

RECOGNITION OF SERVICE BY DAVID VALENTINE

WHEREAS, David Valentine has served the University in the UAF Faculty Senate for five years at UAF; and

WHEREAS, David Valentine has served as Alternate to the UAF Faculty Senate from 2009 through 2010; and

WHEREAS, David Valentine has served as Senator to the UAF Faculty Senate from 2010 through 2012; and

WHEREAS, David Valentine served on the Curricular Affairs Committee from 2010 to 2012 and as the first chair of the General Education Revitalization Committee (GERC) in 2010-2011; and

WHEREAS, David Valentine served as President-Elect of the UAF Faculty Senate in 2012-2013; and

WHEREAS, David Valentine has served as President of the UAF Faculty Senate during the current academic year where he has demonstrated sharp insight and made valuable contributions to the issues that directly affect faculty, students and university programs; and

WHEREAS, David Valentine has represented the interests of the UAF Faculty Senate at the Faculty Alliance while also working effectively with our colleagues from UAA and UAS to advocate for faculty and program interests across the UA system; and

WHEREAS, David Valentine has continued his strong commitment to strengthening general education at UAF by serving on the General Education and Learning Outcomes (GELO) Committee during the current academic year – and being a major contributor to a set of **joint** learning outcomes for the UA system; and

WHEREAS, David Valentine has made thoughtful and constructive contributions to the Planning and Budget Committee (for two years) and the Chancellor's Budget Options Group (in the spring of 2014) in order to provide a strong faculty perspective in addressing the serious budget shortfalls UAF is currently faced with; and

WHEREAS, David Valentine has distinguished himself as a strong and engaged leader of the UAF Faculty Senate who can successfully balance the sometimes conflicting needs of "getting it done" and "doing it right"; and

WHEREAS, David Valentine respects and encourages the open debate of issues from diverse perspectives; and

WHEREAS, David Valentine never lost his optimism about the Faculty Senate's ability to have a real and lasting positive impact on faculty and students at UAF; and

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of David Valentine and expresses its appreciation for his exemplary service.

Resolution of Appreciation for Mike Davis

Whereas Mike Davis has been a member of the UAF Faculty Senate for 12 years: 2000-2002, 2003-2007, 2008-2014; and

Whereas Mike Davis has been a member of the Faculty Affairs Committee for eight years: 2000-2002, 2006-2007, 2008-2013; and

Whereas Mike Davis has been a member of the Faculty Development, Assessment & Improvement Committee for four years: 2003-2006, 2013-2014; and

Whereas Mike Davis has been an Associate Professor, Assistant Professor and Instructor, Department of Alaska Native Studies and Rural Development, UAF Bristol Bay Campus: 1996-2014; and

Whereas Mike Davis has coordinated government and leadership student seminars in Juneau, Barrow, Bethel, Dillingham and Unalaska including the Alaska State Legislative Process, Traditional Knowledge, and Environmental Change and Development in the Arctic; and

Whereas Mike Davis has been an Exchange Faculty with Magadan Pedagogical Institute, Russia: 1992; and

Whereas Mike Davis has been a member, United Academics Representative Assembly: 2009-2014; and

Whereas Mike Davis has been a member, House of Representatives, Alaska State Legislature representing Fairbanks District 19: 1982-1990; and

Whereas Mike Davis has used his creativity and knowledge, his dedication to teaching and advising students in rural Alaska, and the latest interactive teaching methods to reach his DANSRD graduate and undergraduate students; and

Whereas Mike Davis has exceeded his academic responsibilities; enhanced the reputation of the Bristol Bay Campus and the entire University of Alaska Fairbanks; and expanded the community's knowledge of government and politics; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Mike Davis to the University of Alaska Fairbanks and wishes him all the best in his retirement and future endeavors.

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #199 on May 5, 2014:

MOTION:

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2014. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 5, 2014

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

****

Cécile Lardon

President, UAF Faculty Senate

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #198 on April 7, 2014:

MOTION:

The Faculty Senate moves to approve the main recommendation formulated in Sections 3.1 – 3.3 of the report on "Assessment of Electronic Course Evaluation Technology and its Applicability to the University of Alaska Fairbanks – Stage 2: AY 14," submitted to the Faculty Senate in March 2014 jointly by the Faculty Development, Assessment and Improvement (FDAI) Committee and the Electronic Course Evaluation Workgroup.

EFFECTIVE: Spring 2014

RATIONALE: In late summer 2012, Provost Henrichs asked Eric Madsen to facilitate a campus-wide discussion about electronic course evaluation systems. In response to this request and in cooperation with the FDAI committee, an Electronic Course Evaluation Workgroup was formed in fall 2012 that has since been analyzing electronic course evaluation technology specifically in light of its applicability to UAF. In careful and intensive evaluation of all involved factors, the workgroup has formulated a three-part recommendation that was presented to and discussed by the Faculty Senate during its meeting in March 2014. With this motion we ask the Faculty Senate to formally approve this recommendation (listed below) in order to allow the process to move forward to the next step.

RECOMMENDATION REGARDING ELECTRONIC COURSE EVALUATION SYSTEMS

as stated in in Sections 3.1 – 3.3 of the report on "Assessment of Electronic Course Evaluation Technology and its Applicability to the University of Alaska Fairbanks – Stage 2: AY 14":

Part 1: The electronic-Course Evaluation Workgroup recommends that UAF should move to an electronic course evaluation system

Paper-based course evaluation systems are costly to deploy, retrieve, and store; they demand large amounts of personnel time; data-analysis is inefficient; refining questions to make them more meaningful is difficult; and security is problematic. In viewing the system demonstrations and questioning the presenters, the workgroup was mindful that electronic course evaluation systems present their own versions of some of these same challenges and introduce others. Throughout the process, we considered as separate questions: Should UAF move to an electronic course evaluation system? Is there an electronic course evaluation system that adequately addresses concerns and offers enough advantages to make a transition worthwhile?

After analyzing the capabilities of state-of-the-art electronic course evaluation technology and assessing the pros and cons of electronic means of course evaluation, the workgroup recommends that UAF should move to an electronic course evaluation system.

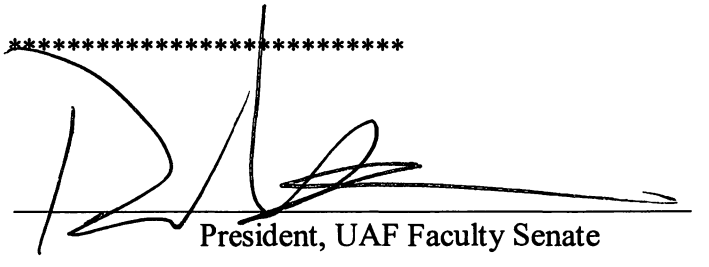
Part 2: The Electronic-Course Evaluation Workgroup recommends eXplorance/Blue Course Evaluations

Based on an initial analysis of 12 e-course evaluation systems and a consecutive more detailed assessment of 4 finalist systems, the workgroup determined that the eXplorance/Blue system met all of the electronic course evaluation features important to UAF and addressed more of those considerations or addressed them more adequately than the other systems considered.

Part 3: A workgroup should be formed by the Provost and Faculty Senate Leadership to help design, oversee, and evaluate a pilot of eXplorance/Blue that is appropriate for UAF

To capture all relevant input, this workgroup shall include representation from faculty, staff (incl. the Office of Information Technology), and administration. The Faculty Senate shall be represented through at least one representative of the FDAI committee. To preserve the expertise collected throughout the course of this study, the membership of this new workgroup should show some overlap with the membership of the outgoing Electronic Course Evaluation team.

The UAF Faculty Senate passed the following at Meeting #198 on April 7, 2014:



MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the UAF Faculty Senate, Section 3, Article V: Committees, subsection E., Permanent Committees, to create a new Information Technology Committee.

EFFECTIVE: AY2014-15

RATIONALE: The creation of this new committee supports the need for UAF Faculty Senate to be able to address information technology issues and needs affecting all aspects of faculty work at this university. The Office of Information Technology has also expressed its willingness to work with such a committee in addressing needs and issues (e.g., criteria and strategies for addressing standards for a UA course management system).

UAF Regulations for the Appointment and Evaluations of Faculty and Department of Foreign Languages& Literatures Unit Criteria, Standards, and Indices

The following is an adaptation of UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of the Foreign Languages & Literatures Department. Items in boldface italics are those specifically added or emphasized because of their relevance to the department's faculty, and because they are additions to UAF regulations.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND DEPARTMENT OF FOREIGN LANGUAGES UNIT CRITERIA, STANDARDS AND INDICES,*** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.
Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

FACULTY IN FOREIGN LANGUAGES ARE REQUIRED TO TEACH ALL LEVELS OF THEIR LANGUAGE, AND OFTEN HAVE UNUSUALLY HIGH TEACHING LOADS. THUS, EXCELLENCE IN TEACHING IS THE DEPARTMENT'S HIGHEST PRIORITY. EXCELLENCE IN RESEARCH AND SERVICE CANNOT COMPENSATE FOR AN INSUFFICIENT TEACHING RECORD.

UNTENURED FACULTY MEMBERS WILL HAVE A YEARLY PEER TEACHING OBSERVATIONS, EITHER BY THE DEPARTMENT CHAIR OR ANOTHER FACULTY MEMBER. STUDENT OPINIONS OF INSTRUCTION WILL ALSO BE CONSIDERED WHEN ASSESSING A CANDIDATE'S TEACHING RECORD. THE CANDIDATE MUST ADDRESS CONSISTENTLY LOW STUDENT OPINIONS OF INSTRUCTION IN HIS OR HER SELF-NARRATIVE.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

ALL PEER-REVIEWED PUBLICATIONS SHALL BE CONSIDERED SIGNIFICANT. THIS INCLUDES NOT ONLY THE WRITING OF JOURNAL ARTICLES AND BOOK CHAPTERS BUT ALSO ANY PEER-REVIEWED TRANSLATION OF ARTICLES, BOOKS OR JOURNAL VOLUMES, AS WELL AS CONTRIBUTIONS TO TEXTBOOKS AND OTHER PEDAGOGICAL RESOURCES.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

PRESENTATIONS AT CONFERENCES ARE ENCOURAGED AND SHOULD BE CONSIDERED VALID PROFESSIONAL RESEARCH ACTIVITY. HOWEVER, TRAVEL FUNDING EITHER FROM THE UNIVERSITY OR OUTSIDE SOURCES IS OFTEN UNAVAILABLE. THE CANDIDATE SHOULD ADDRESS THE FREQUENCY OF CONFERENCE PRESENTATION AND AVAILABILITY OF FUNDING IN HER/HIS NARRATIVE STATEMENT.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. PUBLICATIONS IN FOREIGN JOURNALS ARE STANDARD IN THE DISCIPLINE. CANDIDATES WILL SUPPLY A TRANSLATION OF THE TITLE OF ANY WORK IN A LANGUAGE OTHER THAN ENGLISH AND ARE ENCOURAGED TO PROVIDE AN ABSTRACT IN ENGLISH AS WELL AS A DESCRIPTION OF THE JOURNAL.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. TRANSLATION OF DOCUMENTS FOR THE PUBLIC

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY.***

j. Prizes and awards for excellence in university service.

k. OUTSIDE REVIEWER ON THESIS COMMITTEES.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

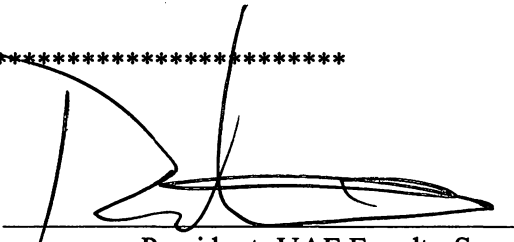
e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The UAF Faculty Senate passed the following at Meeting #198 on April 7, 2014:



MOTION:

The UAF Faculty Senate moves to confirm the nomination of Franz Meyer for the 2013-2014 Outstanding Senator of the Year Award.

EFFECTIVE: Immediately

RATIONALE: The selection committee has carefully reviewed the nominations according to the award criteria, and forwards the nomination of Franz Meyer as Outstanding Senator of the Year for confirmation by the Faculty Senate. Procedure stipulates that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting.

****

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #198 on April 7, 2014:

RESOLUTION:

Be it resolved, that the UAF Faculty Senate ratifies the election of President-Elect for 2014-15 on the basis of the following ballot:

****

Please vote for one individual to serve as the President-Elect of the UAF Faculty Senate for 2014-15:

___ Donie Bret-Harte, Associate Professor, Biology and Wildlife, CNSM / IAB

_X_ Debu Misra, Professor, Geological Engineering, CEM

****

President, UAF Faculty Senate

4/7/2014
Date

The UAF Faculty Senate passed the following at Meeting #198 on April 7, 2014:

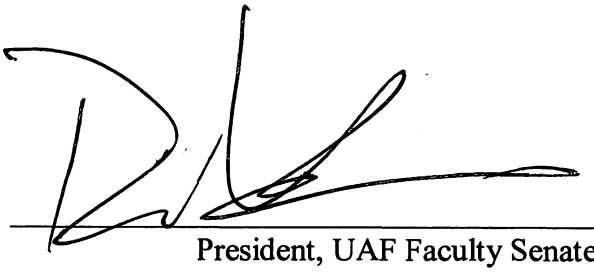
RESOLUTION:

Whereas the State of Alaska in 2008, contracted the McDowell Group to do an extensive study on the cost of living for state employees that live in urban and rural communities across the state; and

Whereas the Alaska Department of Administration used the McDowell study to address pay equity and implemented the recommendations regarding salary differentials for state employees; and

Whereas University of Alaska has not updated its own salary differential for the faculty and staff in many years; and

Whereas the University of Alaska Fairbanks has many employees that live in areas of the state where costs have increased significantly; and



Whereas the current pay differential in place by the University does not reflect the true costs of living for the employees that work for the University in a number of communities in Alaska; and

Whereas the effects of this disparity in pay equity has made it difficult for UAF to recruit and retain employees in many of our communities; and

Whereas the Board of Regents Policy states in P04.05.060:
Geographic differentials may be established by University regulations and be based on the most recent state of Alaska geographic differential study; and

Whereas the UA Regulation states in R04.05.060:
Geographic salary differentials in the university are based on the most current State of Alaska geographic differentials study...The president will adjust the listings as necessary,

Therefore be it resolved, that the UAF Faculty Senate goes on record urging the UA President to adopt the salary differential recently implemented for state employees (from the McDowell 2008 study) for the staff and faculty of the University.

President, UAF Faculty Senate

4/7/2014
Date

The UAF Faculty Senate passed the following at Meeting #197 on March 3, 2014:

MOTION:

The UAF Faculty Senate moves to amend the academic policy regarding undergraduate probation.

EFFECTIVE: Fall 2014

RATIONALE: While an academic plan is an important tool for students on probation, the current policy is neither being followed nor enforced. The dean and advisor may still impose additional conditions on probation students, including the preparation of an academic plan, but the requirement that one be filed before a student is allowed to register is confusing and difficult to enforce. A comprehensive review of probation policies is currently underway.

Proposed *UAF Catalog* policy language (page 51):

PROBATION
Undergraduate students -- Students whose semester and/or cumulative GPA falls below 2.0 after each fall and spring semester will be put on academic probation. Students on probation may not enroll in more than 13 credits a semester, unless an exception is granted by the appropriate dean. Probation may include additional conditions, as determined by the dean of the college or school in which the student's major is located. Students on probation will be referred for developmental advising/education and/or to an advising or support counseling center. The student **[[will]] SHOULD** work with an academic advisor to prepare an academic plan for achieving a higher GPA. **[[**; the advisor is responsible for forwarding this plan to the appropriate dean. A student on probation will not be allowed to register unless the academic plan is on file. **]]** Removal from probation requires the student's cumulative and semester GPAs to be at least 2.0.

The UAF Faculty Senate passed the following at Meeting #197 on March 3, 2014:

MOTION:

The UAF Faculty Senate moves to allow the UA Regulation definition of general education requirements (R10.04.040) to be applied when determining which transfer courses may be used to meet UAF's Perspectives on the Human Condition (PHC) core requirements.

Effective: Fall 2014

Rationale: Students transferring to UAF who do not have an AA, AS, or a bachelor's degree from a regionally accredited institution outside the University of Alaska system do not receive core waivers and their transfer courses are evaluated on a course-by-course basis using the Non-UA Table of Substitutions (page 37 of the 2013-2014 UAF catalog). This results in many transfer students receiving very little UAF PHC credit for transfer courses they have taken to meet general education requirements.. These courses transfer as elective credit. This motion seeks to make it possible for transfer students, who have taken general education classes in good faith at other institutions, to receive a more liberal review of these transfer courses and receive more credits which will meet UAF PHC requirements, based on the BOR definition of general education requirements. We further note (a) these proposed transfer regulations are fully in line with the proposed changes in UAF's General Education requirements, (b) the changes in UAF's General Education requirements will not take place until (at earliest) school year 2015-2016, (c) based on numbers of transfer students with typical transfer courses (approximately 1327 students per academic year) at least 500 students would benefit from this proposed change, and (d) the Registrar, the Provost, and the Dean of General Studies strongly support this proposal.

Proposed Revision to Perspectives on the Human Condition section of the Non-UA Table of Substitutions:

Perspectives on the Human Condition	**Transfer Courses**
HIST F100X--Modern World History ECON/PS F100X--Political Economy ANTH/SOC F100X—Individual, Society and Culture	introductory courses in different social sciences
ENGL/FL F200X--World Literatures	an introductory course in the humanities
ART/MUS/THR F200X, HUMS F201X, ANS F202X--Aesthetic Appreciation	an introductory course in the arts which does not stress skills acquisition
BA F323X, COMM F300X, JUST F300X, NRM F303X, PHIL F322X, PS F300X--Ethics (Values and Choices)	an upper-division course in ethics, or, with approval of the philosophy department, a lower-division course in ethics

The UAF Faculty Senate passed the following at Meeting #197 on March 3, 2014:

MOTION:

The UAF Faculty Senate moves to amend the UAF Regulation for Emeritus Status as follows:

EFFECTIVE: Immediately

RATIONALE: These changes provide clearer instructions for routing nominations in order to facilitate their handling and delivery to the review committee.

****

President, UAF Faculty Senate

CAPS = Additions
[[ ]] = Deletions

A. A full-time faculty member who has already attained the rank of full professor and who has retired after a minimum of ten years at the University of Alaska immediately prior to retirement may be honored through appointment as professor emeritus. Nominations for conferring emeritus status originate with the appropriate dean in consultation with the faculty, or with the faculty. If the nomination originates with the faculty, it shall be the appropriate peer review committee. Recommendations [[are]] **WILL BE** forwarded to the campus promotion committee **BY THE PROVOST'S OFFICE** to be evaluated on the basis of the criteria for promotion to the rank of full professor with the added caveat that the position of professor emeritus is the highest honor that is bestowed upon a retiring faculty member. The committee's recommendations will be made to the Provost who will then forward his/her recommendations to the Chancellor whose decision is final and non-reviewable.

The UAF Faculty Senate passed the following at Meeting #197 on March 3, 2014:

MOTION:

The UAF Faculty Senate moves to approve as revised the Unit Criteria for the Department of Music.

EFFECTIVE: Fall 2014
Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted by the Department of Music. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria were found to be consistent with UAF guidelines.

UAF Regulations for the Appointment and Evaluations of Faculty And Music Unit Criteria, Standards, and Indices

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE __MUSIC___ DEPARTMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

Chapter II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty

position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

TEACHING COMPONENTS OF MUSIC PERFORMANCE FACULTY MAY INCLUDE STUDIO TEACHING, CHAMBER MUSIC COACHING, LARGE ENSEMBLE DIRECTING, AND CLASSROOM COURSES.

Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

h. INVITATIONS TO GIVE LECTURES OR MASTER CLASSES AT OTHER INSTITUTIONS OF HIGHER EDUCATION.

Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

MUSIC FACULTY ARE EXPECTED TO CONSISTENTLY PERFORM IN THEIR AREAS OF EXPERTISE. THE STATURE OF THE PERFORMANCE VENUE OR THE LEVEL OF REVIEW IN ATTAINING THE PERFORMANCE WILL BE CONSIDERED.

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals, ***COMPETITIONS, CONFERENCES,*** or productions, selection for these performances being based on stringent auditions and approval by appropriate judges ***OR INVITATIONS. SOLO, CHAMBER, OR LARGE ENSEMBLE PERFORMANCES ARE ALL ACCEPTABLE RESEARCH COMPONENTS.***

f. Scholarly reviews of publications, art works and performance of the candidate. ***THE LACK OF FORMAL PRESS REVIEWS SHOULD NOT REFLECT NEGATIVELY ON THE RECORD OF THE FACULTY CANDIDATE.***

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship ***OR CREATIVE ARTISTRY.***

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

RESEARCH CRITERIA FOR PROMOTION TO THE RANK OF ASSOCIATE PROFESSOR WILL INCLUDE SIGNIFICANT PERFORMANCES/CREATIVE ACTIVITIES AT THE STATE OR NATIONAL LEVEL.

RESEARCH CRITERIA FOR PROMOTION TO THE RANK OF FULL PROFESSOR WILL INCLUDE SIGNIFICANT PERFORMANCES/CREATIVE ACTIVITIES AT THE NATIONAL OR INTERNATIONAL LEVEL.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the

faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth, ***INCLUDING OUTREACH WITH LOCAL SCHOOLS, SCHOOL PERFORMANCES, PARTICIPATION IN UAF OUTREACH EVENTS, AND MASTER CLASSES FOR PRE-COLLEGE STUDENTS.***

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

g. ADJUDICATIONS AT MUSIC CONTESTS OR FESTIVALS AT LOCAL, STATE, NATIONAL, OR INTERNATIONAL.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The UAF Faculty Senate passed the following at Meeting #197 on March 3, 2014:

MOTION:

The UAF Faculty Senate moves to reaffirm the Unit Criteria for the Graduate Program in Marine Science and Limnology.

EFFECTIVE: Fall 2014
Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted by the Graduate Program in Marine Science and Limnology. Minor revisions were agreed upon by the program representatives and the Unit Criteria Committee, and the unit criteria were found to be consistent with UAF guidelines.

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT, PROMOTION, TENURE, AND SABBATICAL LEAVE AND GRADUATE PROGRAM IN MARINE SCIENCE AND LIMNOLOGY, INSTITUTE OF MARINE SCIENCE, GLOBAL UNDERSEA RESEARCH UNIT STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY WHO TEACH PRIMARILY IN THE GRADUATE PROGRAM IN MARINE SCIENCE AND LIMNOLOGY (GPMSL), AND ARE APPOINTED WITHIN THE SCHOOL OF FISHERIES AND OCEAN SCIENCES (SFOS) TO THE INSTITUTE OF MARINE SCIENCE (IMS) UNIT. ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO GPMSL FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience, and performance requirements are set forth in "UAF Faculty Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval

prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans or schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria
Criteria outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND GPMSL UNIT CRITERIA, STANDARDS AND INDICES,*** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction
A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory
experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

TEACHING IS AN IMPORTANT MISSION OF ALL SFOS TENURE-TRACK FACULTY; TEACHING IN SFOS IS NORMALLY CONDUCTED THROUGH EITHER THE GRADUATE PROGRAM IN MARINE SCIENCE AND LIMNOLOGY (GPMSL), THE UNDERGRADUATE MINOR IN MARINE SCIENCE, OR THE FISHERIES PROGRAM. THE MAJOR TEACHING ACTIVITIES OF MOST GPMSL FACULTY ARE CLASSROOM/LABORATORY/FIELD INSTRUCTION AT THE GRADUATE AND UNDERGRADUATE LEVEL. IT ALSO INCLUDES ADVISING GRADUATE STUDENTS ON THEIR THESIS AND DISSERTATION RESEARCH. GRADUATE CLASSROOM INSTRUCTION OFTEN REQUIRES EFFORT DISPROPORTIONATE TO THE NUMBER OF STUDENTS SERVED. THE NORMAL EXPECTATION FOR FULL-TIME (9 MONTH) TENURE-TRACK FACULTY IS 6 CREDITS PER YEAR. FACULTY CAN REDUCE CLASSROOM TEACHING TO A MINIMUM OF 3 CREDITS PER YEAR WITH EXTERNAL FUNDING BUY-OUT. FOR FACULTY WITH DIFFERENT WORKLOADS, THE EXPECTATION FOR FORMAL TEACHING IS TO BE ADJUSTED PROPORTIONATELY IN ACCORDANCE WITH ANNUAL WORK LOAD STATEMENTS.

1. Effectiveness in Teaching
Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student and clientele diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings i.e. student opinion of instruction summary forms, **and** at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

PERFORMANCE AS MAJOR ADVISOR IS EVALUATED BASED ON DEGREES COMPLETED UNDER THE FACULTY MEMBER'S SUPERVISION, SINCE EACH REPRESENTS A MAJOR INVESTMENT OF FACULTY TIME.

HOWEVER, IT IS RECOGNIZED THAT DEMAND FOR GRADUATE DEGREES IS NOT UNIFORM ACROSS DISCIPLINES, AND LIMITED AVAILABILITY OF STUDENTS MAY LIMIT A FACULTY MEMBER'S ACTIVITY IN GRADUATE ADVISING.

PROMOTION TO ASSOCIATE PROFESSOR REQUIRES THAT AT LEAST ONE M.S. GRADUATE DEGREE HAS BEEN COMPLETED, OR ONE Ph.D. STUDENT HAS MADE SUBSTANTIAL PROGRESS TOWARDS COMPLETION UNDER THE FACULTY MEMBER'S SUPERVISION AS MAJOR ADVISOR IF THE FACULTY MEMBER'S WORKLOAD INCLUDES TEACHING. PROMOTION TO PROFESSOR REQUIRES THAT AT LEAST TWO GRADUATE DEGREES (M.S. OR PH.D.) HAVE BEEN COMPLETED UNDER THE FACULTY MEMBER'S SUPERVISION AS MAJOR ADVISOR IF THE FACULTY MEMBER'S WORKLOAD INCLUDES TEACHING. ADDITIONAL EVIDENCE OF PERFORMANCE QUALITY INCLUDES PUBLICATION OF PEER- REVIEWED JOURNAL ARTICLES OR

BOOK CHAPTERS BASED ON THE ADVISED STUDENT'S THESIS OR DISSERTATION RESEARCH; STUDENT PRESENTATIONS AT NATIONAL AND INTERNATIONAL MEETINGS; AWARDS TO STUDENTS; AND STUDENT SUCCESS IN INITIAL EMPLOYMENT AFTER GRADUATION.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/ space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate the mission of their unit, and equally important, results
of their work must be disseminated through media appropriate to their discipline.
Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

THE PRIMARY EVIDENCE OF HIGH RESEARCH QUALITY IS PUBLICATION OF RESEARCH RESULTS AND INTERPRETATIONS IN RESPECTED, NATIONAL OR INTERNATIONAL, PEER-REVIEWED JOURNALS OR PEER-REVIEWED BOOKS OR BOOK CHAPTERS. IN EVALUATING SUCH PUBLICATIONS, QUALITY, AS JUDGED BY GPMSL/SFOS FACULTY PEERS, IS MORE IMPORTANT THAN QUANTITY.

SECONDARY EVIDENCE OF RESEARCH SUBSTANCE AND QUALITY CAN INCLUDE PUBLICATIONS THAT ARE NOT PEER-REVIEWED, SUCH AS FINAL CONTRACT REPORTS, DATA REPORTS, AND WEBSITES.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

SECONDARY EVIDENCE OF RESEARCH SUBSTANCE AND QUALITY CAN INCLUDE

EXTERNAL FUNDING FROM SOURCES KNOWN FOR RIGOROUS PEER OR ORGANIZATIONAL REVIEW OF PROPOSALS.

IN ADDITION TO OBTAINING EXTERNAL FUNDING, SUPPORT AND TRAINING OF RESEARCH PERSONNELS, SUCH AS POST-DOCTORAL SCHOLARS AND TECHNICIANS THROUGH EXTERNAL GRANTS IS HIGHLY VALUED.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries, selection for these exhibitions being based on rigorous review and approval by peers, juries, recognized artists, or critics.

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. ***Editing or refereeing articles or proposals for professional journals or organizations.***

FACULTY APPLYING FOR PROMOTION OR TENURE MUST PRESENT EVIDENCE OF HIGH-QUALITY CONTRIBUTIONS IN RESEARCH. FOR A FULL-TIME (9-MONTH) WORKLOAD, THE MINIMUM EXPECTATION FOR AWARD OF TENURE AND PROMOTION TO ASSOCIATE PROFESSOR IS A SUSTAINED PUBLICATION RECORD AVERAGING ONE PER YEAR, WITH A MINIMUM OF SIX. THE MINIMUM EXPECTATION OF PEER-REVIEWED PUBLICATIONS FOR PROMOTION TO PROFESSOR IS A SUSTAINED PUBLICATION RECORD AVERAGING ONE PER YEAR, WITH A MINIMUM OF TWELVE. TYPICALLY, AT LEAST HALF OF THE PUBLICATIONS AT EACH PROMOTION LEVEL WILL BE FIRST-AUTHORED BY THE CANDIDATE OR BY A GRADUATE STUDENT, UNDERGRADUATE STUDENT, POST-DOCTORAL SCHOLAR, OR TECHNICIAN UNDER THE CANDIDATE'S DIRECT SUPERVISION. IT IS THE CANDIDATE'S TOTAL PUBLICATION RECORD, REGARDLESS OF AFFILIATION, THAT IS CONSIDERED IN DETERMINING THESE COUNTS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

TO BE CONSIDERED IN PERFORMANCE EVALUATIONS, PUBLIC SERVICE ACTIVITIES MUST BE RELATED TO THE FACULTY MEMBER'S UNIVERSITY POSITION. SOME GPMSL FACULTY HAVE PART-TIME ADMINISTRATIVE POSITIONS THAT PROVIDE SERVICE TO A NATIONAL SCIENTIFIC COMMUNITY AND SIGNIFICANTLY INCREASE THE SERVICE PORTION OF THEIR WORKLOAD. THE PROPORTION OF WORKLOAD ASSIGNED TO FORMAL ADMINISTRATIVE DUTIES AND TO UNIVERSITY, PROFESSIONAL AND PUBLIC SERVICE IS OUTLINED IN THE ANNUAL WORKLOAD STATEMENT.

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities that extend the faculty member's professional, academic, or leadership
competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline,
or other activities in furtherance the goals and mission of the university and its units.
Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. ***VOLUNTARY*** consulting ***IN THE FACULTY MEMBER'S AREA OF EXPERTISE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE.***

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper or trade journal articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair, or term-limited and part-time assignment as assistant/associate dean in a college, school, ***OR PROGRAM.***

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***JUNIOR FACULTY***

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

FOR GPMSL FACULTY, EVIDENCE OF HIGH-QUALITY PERFORMANCE MAY INCLUDE (1) EVALUATION LETTERS FROM PEERS, ADMINISTRATORS, OR OTHERS WITH DIRECT KNOWLEDGE, (2) SPECIFIC ACCOMPLISHMENTS AS REPORTED IN THE SELF-EVALUATION AND/OR ACTIVITY REPORTS, AND (3) EVIDENCE OF REPEATED REQUESTS FOR THE FACULTY MEMBER TO PERFORM NEW OR EXPANDED SERVICE ACTIVITIES. SUCH REQUESTS ARE STRONG EVIDENCE FOR QUALITY PERFORMANCE.

FACULTY APPLYING FOR PROMOTION OR TENURE MUST PRESENT EVIDENCE OF QUALITY SERVICE CONTRIBUTIONS. FOR PROMOTION TO ASSOCIATE PROFESSOR AND TENURE, SERVICE IN AT LEAST TWO OF THE THREE CLASSES OF SERVICE (PUBLIC, UNIVERSITY, PROFESSIONAL) IS NORMALLY EXPECTED. FOR PROMOTION TO PROFESSOR, FACULTY SHOULD DEMONSTRATE AN EXPANDED SERVICE CONTRIBUTION, NORMALLY INCLUDING SERVICE AT THE NATIONAL OR INTERNATIONAL LEVEL.

The UAF Faculty Senate passed the following at Meeting #197 on March 3, 2014:

MOTION:

The UAF Faculty Senate moves to reaffirm the Unit Criteria for the School of Management.

EFFECTIVE: Fall 2014
Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted by the School of Management. Minor revisions were agreed upon by the SOM faculty representatives and the Unit Criteria Committee, and the unit criteria were found to be consistent with UAF guidelines.

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, PERIODIC REVIEW, RE-APPOINTMENT, PROMOTION, AND TENURE AND SCHOOL OF MANAGEMENT UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE SCHOOL OF MANAGEMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE SCHOOL'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I. PURVIEW

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II. INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III.
EVALUATION OF FACULTY FOR TENURE/PROMOTION

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND SOM UNIT CRITERIA, STANDARDS AND INDICES***, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers **WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:**

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

H. DISSEMINATE NEW IDEAS TO THE STUDENTS RESULTING FROM RESEARCH AND OTHER MANAGEMENT ACTIVITIES, SUCH AS CONSULTING AND SERVICE ON REVIEW PANELS;

I. MENTOR STUDENTS, UNDERGRADUATES AS WELL AS GRADUATES, IN QUALITY RESEARCH ACTIVITIES;

J. ENGAGE IN ADVISING STUDENTS.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms.

And at least TWO of:

b. narrative self-evaluation, ***WHICH PROVIDES*** **A CLEAR STATEMENT OF TEACHING OBJECTIVES AND A SELF ASSESSMENT OF HOW THOSE OBJECTIVES ARE MET. EXAMPLES MAY INCLUDE STUDENT PROGRESS, REPRESENTED BY IMPROVEMENTS IN EARLY AND LATE SEMESTER PROJECTS, OR OTHER MECHANISMS THAT CAN DOCUMENT IMPROVEMENT, AND AN INVENTORY OF SKILLS LEARNED SELECTED FROM INDIVIDUAL STUDENTS' WORK.**

c. peer/department chair classroom observation(s).

d. peer/department chair evaluation of course materials.

e. A CLASS PRE TEST AT THE BEGINNING OF THE SEMESTER OF NO MORE THAN TEN QUESTIONS FOLLOWED BY A POST TEST OF SIMILAR FORMAT AT THE END OF THE SEMESTER TO ASSESS STUDENT LEARNING.

f. DOCUMENTATION OF SCORES FROM ANY NATIONALLY NORMED COURSE-SPECIFIC EXAM.

C. Criteria for Research, Scholarly, and Creative Activity Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC SOM CRITERIA FOR RESEARCH PERFORMANCE:

FOR PROMOTION TO ASSOCIATE OR FULL PROFESSOR, IT MAY BE SUFFICIENT FOR A FACULTY MEMBER TO DEMONSTRATE RESEARCH PRODUCTIVITY SINCE THE TIME OF LAST PROMOTION OF AT LEAST SIX JOURNAL ARTICLES THAT ARE EITHER SINGLE OR DOUBLE BLIND REFEREED, OR PUBLISHED IN AN EDITORIALLY REVIEWED JOURNAL OF RECOGNIZED QUALITY. ALTERNATELY, A FACULTY MEMBER MAY PUBLISH FIVE SUCH JOURNAL ARTICLES AND TWO PAPERS PUBLISHED IN LESSER FORMAT, SUCH AS PAPERS AND PROCEEDINGS. HOWEVER, A FACULTY MEMBER MAY NOT RECEIVE CREDIT MORE THAN ONCE FOR A PAPER THAT IS ESSENTIALLY THE SAME CONTENT. THOSE THAT PERFORM SIGNIFICANT PROFESSIONAL ACTIVITY AND ATTAINMENT OF PROFESSIONAL CERTIFICATION AS A CONDITION OF ACCREDITATION MAY CONSIDER A DETAILED PROFESSIONAL/INDUSTRY WORK REPORT OR DOCUMENTATION OF SUCCESSFUL COMPLETION OF A PROFESSIONAL EXAMINATION, SUCH AS C.P.A., C.F.A., OR SIMILAR ACCREDITATION.

ALL FACULTY MEMBERS MUST DEMONSTRATE AN INDEPENDENT AND COHERENT RESEARCH AGENDA. EVIDENCE OF THIS CAN INCLUDE SOLE AUTHORED PAPERS OR A CONVINCING RECORD OF INITIATION OF INDEPENDENT RESEARCH. TO DEMONSTRATE A CONSISTENT FLOW OF RESEARCH, A FACULTY MEMBER WHO HAS COMPLETED WORK BEFORE ARRIVING AT THIS UNIVERSITY CAN COUNT NO MORE THAN THREE PAPERS TOWARD PROMOTION IF THOSE PAPERS WERE PUBLISHED WITHIN SIX YEARS OF THE DATE THE CANDIDATE PETITIONS FOR PROMOTION.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring of faculty.

j. Prizes and awards for excellence in university service.

K. PARTICIPATION IN STUDENT RECRUITING.

***3.* Professional Service**

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC MANAGING CRITERIA FOR SERVICE

A. ASSOCIATE PROFESSOR; POSITIVE CONTRIBUTIONS TO SCHOOL AND OR UNIVERSITY MATTERS, EFFECTIVE PROFESIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICES TO THE PROFESSION ARE EXPECTED.

B. PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF SCHOOL AND/OR UNIVERSITY PROGRAMS SUCH AS COMMITTEE LEADERSHIP OF UAF FACULTY SENATE SERVICE, A UNION COMMITTEE, OR ASSOCIATED COMMITTEES ARE EXPECTED. EFFECTIVE APPLICATION OF SERVICE INCLUDES PROFESSIONAL EXPERTISE PROVIDED TO PROFESSIONAL OR PUBLIC ORGANIZATIONS SUCH AS BUSINESS SOCIETY LEADERSHIP, REVIEWING PROPOSALS, REFEREEING MANUSCRIPTS, AND EDITING FOR PROFESSIONAL ORGANIZATIONS OR PUBLICATIONS.

Graduation "Walk-Through" Policy

To meet the definition of having "essentially completed all degree requirements" (current policy) to "walk through" graduation ceremonies, a student must have met the following requirements:

a. successfully completed all required tests, course work and thesis/project defense **BY THE MONDAY PRECEDING COMMENCEMENT**; and

b. submitted to the Graduate School by the date set for filing a thesis/dissertation in Spring Semester, [[a memorandum]] **THE REQUEST FOR COMMENCEMENT WALK-**

THROUGH FORM signed by the student, [[and]] the major advisor, **ALL COMMITTEE MEMBERS, DEPARTMENT HEAD AND DEAN**, [[certifying]] agreeing that any required revisions to the project/thesis/dissertation can be completed by [[July 31]] **AUGUST 1** of the same year. For a thesis/dissertation, the student must submit the final copy to the Graduate School by **AUGUST 1** of the same year **TO BE ELIGIBLE FOR SUMMER GRADUATION.** If the student is a Ph.D. candidate, the major advisor or designated committee member must also agree to participate in the graduation ceremonies; and

c. for Ph.D. candidates, filed a ≤50 word abstract of the dissertation research along with the signed [[memorandum]] **REQUEST FOR COMMENCEMENT WALK-THROUGH FORM.**

NOTE: Individuals who "walk through" graduation ceremonies will NOT be listed in the graduation program. These students' names, and if Ph.D. recipients, descriptions of dissertation research, will appear in the program of the academic year in which the degree is formally granted.

The UAF Faculty Senate passed the following at Meeting #196, February 3, 2014:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Leadership (housed in the School of Management).

Effective: Fall 2014

Rationale: There is high student interest and strong support across programs for this new minor which will be housed in the School of Management. See the program proposal #1-UNP on file in the Governance Office, 312B Signers' Hall.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/3/14

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

****

Overview:

The purpose of the Leadership minor is to strengthen the abilities of UAF graduates to lead and contribute effectively in both the public and private spheres, especially in the Alaska business community. The minor consists of a choice of two out of three LEAD/BA courses and an additional three courses from among a choice of electives across multiple disciplines.

Proposed Minor Requirements:
Leadership
School of Management
Northern Leadership Center
907-474-5401
www.uaf.edu/som/programs

The minor in leadership and management is administered by the Northern Leadership Center. Its purpose is to strengthen the abilities of UAF graduates to lead and contribute effectively in both the public and private spheres, especially in the Alaskan economy.

Minor

1. Complete 2 of the following: (6-credit hours)
   *LEAD/BA 470 –Leadership Theory and Development--3 credits
   *LEAD/BA 472 —Leading Change--3 credits
   *HSEM/LEAD 456 – Leadership and Influence During Crisis

2. Complete 9-credit hours from one of the following "tracks" OR with the written approval of the Director of the Northern Leadership Center, any three 3-credit hour courses from any combination of tracks.

   Business Administration
   - BA F280 – Sports Leadership
   - BA F307 – Introductory Human Resource Management
   - BA F460O – International Business

   Military Science
   - MILS 101 – Foundations of Officership
   - MILS 102 – Basic Leadership
   - MILS 201 – Individual Leadership Studies
   - MILS 202 – Leadership and Teamwork

   Political Science
   - PS 212 - Introduction to Public Administration
   - *PS 301 – American Presidency
   - *PS/PHIL 412W – Modern Political Theory
   - *PS 437 - United States Foreign Policy

   Communication
   - COMM 330 – Intercultural Communication
   - COMM 331O – Advanced Group Communication
   - COMM 335O – Organizational Communication
   - *COMM 475 – Applied Communication in Training and Development

   Outdoor Leadership
   - NRM 161 – Introduction to Wilderness Leadership (required for this track)
   - *NRM 361 – Advanced Wilderness Leadership (required for this track)

   Select from the following skills courses for the remaining required credits
   - RECR F140H Beginning Rock Climbing
   - RECR F140K Advanced Rock Climbing
   - RECR F170G Intro to Ski Mountaineering
   - RECR F170N Intro to Winter Camping
   - RECR F140L Technical Climbing
   - RECR F140Y Kayaking
   - EMS F150 Wilderness Emergency Care

3. Minimum credits required--15 credits

*These courses have prerequisites that need to be taken into consideration. Consult with the Leadership Minor coordinator.

MEMORANDUM

FEBRUARY 3, 2014

TO: DEPARTMENT OF MATHEMATICS AND STATISTICS

FROM: David Valentine, President
Cecile Lardon, President-Elect
UAF Faculty Senate

SUBJECT: Annual report to the senate concerning revitalization of the PhD program in mathematics

The Faculty Senate Administrative Committee has received and reviewed your "Report to the Faculty Senate and Provost: Revitalizing the Mathematics Ph.D.", submitted in December 2013 pursuant to a motion passed by the Faculty Senate at its May 6 2013 meeting (reference http://www.uaf.edu/files/uafgov/12-13_FS-191-Motion-supporting-continuation-of-PhD-Math-and-revitalization-plan_signed.pdf). The report identifies several areas of progress toward revitalizing the Mathematics Ph.D., and the Administrative Committee unanimously accepted it as demonstrating adequate progress to this point toward a sustainable program. Of course, it is too early to gauge how your efforts will translate into increased numbers of students in the program. We therefore request an update later this spring—before April 23, if possible--to the Faculty Senate and Provost of how many students have committed to matriculation in the Mathematics Ph.D. Program.

Thank you for your work and responsiveness in this matter.

cc: Brian Rogers, UAF Chancellor
Susan Henrichs, UAF Provost

UAF is an affirmative action/equal opportunity employer and educational institution

The UAF Faculty Senate passed the following at Meeting #195, December 2, 2013:

MOTION

The Faculty Senate moves to adopt the following changes to the 2014-15 Catalog that update the Writing placement sections and clarify catalog language on placement and prerequisites.

Effective: Fall 2014

Rationale: This motion amends the current (2013-14) catalog to incorporate changes that result from Statewide alignment of English111X and DEVE placement (see placement table below). It further addresses reading placement, making reading classes a co-requirement with DEVE placement at the DEVE 060 and DEVE 104 level.

The motion also reflects changes in the Placement section amending language in the recently passed Math placement motion (but not amending the Math placement portion of that motion), changes in language that have accumulated in the catalog over time, and language changes that clarify current practice in student placement.

[[ ]] – Deletion

Page 34 of current 13-14 Catalog:

PLACEMENT REQUIREMENTS

Many UAF courses require placement. All students planning to take courses with specific placement requirements must meet those requirements prior to registering for those courses. [[Students who meet basic skills standards in reading, writing and mathematics should enroll in the appropriate 100-level or above courses. Those whose scores place below these standards must enroll in the appropriate developmental education courses. Once these students have satisfactorily met the criteria for these courses, they may register for 100-level courses.]] Specific writing, reading, and math placement requirements are listed in the section**S** below. [[However, many courses have additional prerequisite requirements that are listed in the catalog course description.]]

COURSE PREREQUISITES

Course prerequisites indicate what previous preparation is needed to enroll in a course. An instructor has the right to drop any student from the course if he or she does not meet the prerequisite or has not received a grade of C- or better in all prerequisite courses. An instructor also has the right to waive a course prerequisite if the instructor [[has documentation]] **DOCUMENTS** that the student possesses **SUFFICIENT** background [[required]] to succeed in the class. **STUDENTS WHO TAKE A COURSE AT A HIGHER LEVEL THAN A CORRESPONDING PREREQUISITE COURSE REQUIRED FOR A DEGREE PROGRAM ARE NOT EXEMPT FROM TAKING THAT REQUIRED COURSE.** [[Students need English placement at ENGL F111X or above (including reading) in order to enroll in perspectives on the human condition core courses.]] Students need mathematics placement at DEVM F105 or above, and ENGL F111X placement [[(including reading),]] to register for **CORE** science courses.

[[Reading and w]] **W**riting placement exams must be taken within two calendar years prior to the start of a course; mathematics placement exams must be taken within one calendar year prior. Students enrolling in developmental or lower division core courses must have completed any prerequisite courses within two calendar years of their enrollment. [[Academic advisors will assist with proper course placement for incoming and continuing students.]]

Students who enroll in [[a developmental or core]] **ANY** course without meeting placement or prerequisite requirements may be **DROPPED OR** withdrawn from the course through the faculty-initiated withdrawal process.

[[READING AND]] WRITING

Placement into writing [[and reading]] courses requires **EITHER PREREQUISITE COURSE CREDIT OR A STANDARDIZED PLACEMENT TEST WHICH MEASURES ACADEMIC SKILLS SUCH AS CRITICAL THINKING AND READING. THE SCORE FROM ANY OF THE TESTS (SEE TABLE) PLACES THE STUDENT IN THE APPROPRIATE WRITING CLASS. A WRITING SAMPLE, GIVEN ON THE FIRST DAY OF CLASS, MAY MODIFY THIS PLACEMENT. DEGREE OR CERTIFICATE SEEKING STUDENTS PLACED INTO DEVELOPMENTAL WRITING OR READING COURSES SHOULD REGISTER FOR THEM DURING THEIR FIRST SEMESTER. THESE COURSES ARE DESIGNED TO HELP STUDENTS GAIN COMPETENCIES NECESSARY TO SUCCEED IN COLLEGE-LEVEL COURSES.** [[a scored writing sample: SAT, ACT Writing, ASSET, COMPASS, ACCUPLACER, or a UAF –generated writing sample. Minimum scores for placement into English and Developmental English courses are listed in table 3 and table 4. A student will be placed in English F111X if the

student's ACT writing test score is 7 or above, the ACT English score is 18 or above, or the ACT reading score is 22 or above (or the student's SAT writing score is 430 and SAT critical reading score is 510 or above, or your score on another university-approved placement test is equivalent).]] If the student's standardized test scores are below the[[se]] minimums **IN THE PLACEMENT TABLE BELOW** and if the **STUDENT'S** high school cumulative GPA is 3.0 or higher, the student may **BE GIVEN PERMISSION TO** enroll in English F111X [[with permission of]] **BY** the Director of Composition or rural campus English/Arts and Letters faculty.

[[On the basis of test scores, students may be required to take Developmental English or Developmental Studies (Reading) courses. These courses are designed to help students gain competencies necessary to succeed in college-level courses. Students who earn a C- or higher in DEVE F070 place into English 111X automatically and do not have to re-test]]

MATHEMATICS

Mathematics course placement varies according to the type of degree the student is planning to pursue and the corresponding math course(s) needed. (see the degree program requirements for more detail.) The UAF mathematics placement test used to determine math placement. Minimum test scores for placement into math and developmental math courses are listed in Table 2.

Students who have limited access or limited experience with the internet should contact the department of mathematics and statistics or the department of developmental education for assistance.

Page 44 of the 2013-14 Catalog:

PLACEMENT TESTS

Test results are required for first-time degree or certificate students, transfer students with fewer than 30 [[acceptable]] **TRANSFER** credits, or students planning to take 100-level English, reading, mathematics, natural sciences [[core]] and [[perspectives on the human condition core]] **GENERAL EDUCATION** courses. UAF mathematics placement test results must be on file with the office of admissions and the registrar or the local regional campus registration office before you can register for DEVM, Math, or [[core]] **GENERAL EDUCATION** science classes. Results from American College Testing Program (ACT) or the Scholastic Aptitude Test (SAT) or, for associate degree or certificate students, the ASSET, ACCUPLACER or COMPASS test must be on file with the Office of Admissions and the Registrar before you can register for classes. Your ability to register may be blocked if you have not submitted required test scores.

Test results for English and composition must be less than two years old; for math, less than one year old.

Note: Registrar's Office will also need to update applicable sections including (for example): "Applying for Admission: Certificate or Associate Degree Programs"; "Applying for Admission: Bachelor's Degree Programs."

The UAF Faculty Senate passed the following at Meeting #195, December 2, 2013:

RESOLUTION:

WHEREAS, The University of Alaska System is nearing completion of a major strategic planning effort, now called "Shaping Alaska's Future" (SAF) and described in draft form in a document of that name, and

WHEREAS, The performance and effectiveness of UAF will be measured against the goals and effect statements identified in SAF, and

WHEREAS, The stated goal has been to finalize the SAF document for consideration at the February meeting of the University of Alaska Board of Regents, and

WHEREAS, The University of Alaska Faculty Alliance has offered a number of general criticisms and suggestions for revision of the draft SAF, including much greater faculty input, and

WHEREAS, The UAF Chancellor's Cabinet has offered a fundamental re-casting of the draft SAF document that addresses many of the concerns raised by UAF faculty to the draft SAF document, and

WHEREAS, Very little time remains for faculty to have meaningful input on the SAF document,

THEREFORE, BE IT RESOLVED THAT, The UAF Faculty Senate recommends the following:

1. A revised draft SAF for comment be circulated prior to March 15; and
2. Faculty of every UA institution be given meaningful opportunity to review and provide feedback to the draft SAF documents; and
3. The target date for completion of SAF be delayed until the June 2014 meeting of the UA Board of Regents.

From: Brian Rogers, Chancellor

Re: Mathematics and Developmental Mathematics Placement Policy

I am signing the motion passed at Meeting #194 on November, 4, 2013, but want to make you aware of a policy change that the Board of Regents will soon consider.

The motion states "The Faculty Senate moves to amend the 2014-15 Catalog to reflect a new Mathematics and Developmental Mathematics placement policy, as indicated below."

The President's Cabinet has discussed the value of a single mathematics and developmental mathematics placement policy throughout the University of Alaska system. I expect the President and the Board of Regents to take action on a uniform policy to be effective by 2016. This will require the UAF Faculty Senate to work with your counterparts to determine the best placement process.

I am fully supportive of the direction you are taking, and subject to seeing results at UAF consistent with those at other institutions, will push for systemwide adoption of ALEKS PPL. If the Board, however, establishes a policy of a single set of systemwide placement steps and cut scores, all three universities will need to comply. That may require UAF faculty to accommodate differing viewpoints of the UAA and UAS faculty.

BDR:jp

The UAF Faculty Senate passed the following at Meeting #194, November 4, 2013:
Note: Corrections were made by SADAC Chair on the Senate floor. They are underlined in the paragraph under "Course Prerequisites."

MOTION

The Faculty Senate moves to amend the 2014-15 Catalog to reflect a new Mathematics and Developmental Mathematics placement policy, as indicated below:

EFFECTIVE: Fall 2014

RATIONALE:

This motion is brought to the Senate by the Department of Mathematics, the Department of Developmental Education, the Student Academic Development and Achievement Committee, and the Curricular Affairs Committee.

The Mathematics and Developmental Education Departments are moving to a new UAF Math Placement Test administered by ALEKS PPL (Assessment & Learning in Knowledge Spaces--Preparation, Placement, & Learning) for placement into all core Math and DEVM classes. In order for students to be placed into a DEVM or core MATH course, students who do not meet the prerequisite (either by having taken a prerequisite course at UAF or as a transfer course, or by having AP credit) will be required to take the UAF Math Placement Test, regardless of their SAT/ACT scores. That is, this new UAF Math Placement Test will replace ACT/SAT/ACCUPLACER/COMPASS for placement into Math or DEVM courses. With ALEKS PPL, a student's initial assessment can be done via the internet. Students who are dissatisfied with their initial placement or who want to review material in preparation for their course will have access to a six-week learning module that can be used to study and improve the test score. An additional four re-tests are available to the student at no extra charge, and the total cost of the five placement attempts and the six weeks of targeted individual study is $25.

The Math and Developmental Math faculty believe that the new placement test system provides a clear mechanism for students to challenge a placement and provides a means for students to refresh their memory of prerequisite material in order to place into a higher level math course than they might with a one-time, high-stakes test. ALEKS PPL is specifically designed to address placement into mathematics courses and is a low stakes test. This is in marked contrast to the current assessments: SAT and ACT are both high stakes tests and not designed for placement purposes; ACCUPLACER, while a low stakes test, is insufficiently refined for our placement needs.

Currently ALEKS is being used by DEVM students as a homework tool that tracks improvement through their DEVM class and beyond, and the Math Bridge Program uses ALEKS modules to help prepare students for core math courses. Integrating a teaching tool into a placement tool will make for more appropriate placement of students and will allow them to begin their math classes at UAF using a tool that will support their learning throughout their math sequence. Even though many rural students have limited internet access, ALEKS is a useful tool. It is more than a placement test, and has the potential to support students by filling in gaps in their content

special cases. Students who have limited access to technology or who have disabilities will be provided with extra support or their instructor can provide alternative placement strategies.

The Mathematics Placement Committee is working with the bursar's office, the registrar's office, and the Provost's office to address mechanisms by which this $25 fee will be paid. Currently it is expected that the cost will be added as a one-time course fee to the student's initial DEVM or Math class. If the new placement policy works as expected, fewer students will repeat courses or be placed in courses that are inappropriate to their skill level, reducing their very real cost in tuition expenses and opportunity cost.

The Mathematics and Developmental Education faculty, SADA, and CAC will arrange meetings with rural and Fairbanks advisors and registrars to inform them of the advantages of ALEKS for students and will work together to plan implementation so that all students can have access to ALEKS for placement.

Pages 33-34 of current 2013-14 Catalog:

PLACEMENT [[BY TEST]] **REQUIREMENTS**

[[Students need to have UAF-approved placement test scores prior to registering for their first-semester classes. Students place into classes in the following ways: standardized test scores (ACT Plus Writing, SAT, ASSET, or ACCUPLACER), advanced placement credits, transfer credits or prerequisite coursework. Placement tests and are available at every UAF community campus as well as Testing Services, the Academic Advising Center, Community and Technical College, Rural Student Services, e-

Services, the Academic Advising Center, Community and Technical College, Rural Student Services, e-Learning and Distance Education, and Northern Military Programs at Fort Wainwright, Eielson Air Force Base and Delta Career Advancement Center.]]

MANY UAF COURSES REQUIRE PLACEMENT. ALL STUDENTS PLANNING TO TAKE COURSES WITH SPECIFIC PLACEMENT REQUIREMENTS MUST MEET THOSE REQUIREMENTS PRIOR TO REGISTERING FOR THOSE COURSES. Students who meet basic skills standards in reading, writing and mathematics [[may]] **SHOULD** enroll in the appropriate 100-level or above courses. Those whose scores place below these standards [[are required to]] **MUST** enroll in the appropriate developmental education courses. Once these students have satisfactorily met the criteria for these courses, they may register for 100-level courses. **SPECIFIC WRITING, READING, AND MATH PLACEMENT REQUIREMENTS ARE LISTED IN THE SECTION BELOW. HOWEVER, MANY COURSES HAVE ADDITIONAL PREREQUISITE REQUIREMENTS THAT ARE LISTED IN THE CATALOG COURSE DESCRIPTION.**

COURSE PREREQUISITES

COURSE PREREQUISITES INDICATE WHAT PREVIOUS PREPARATION IS NEEDED TO ENROLL IN A COURSE. AN INSTRUCTOR HAS THE RIGHT TO DROP ANY STUDENT FROM THE COURSE IF HE OR SHE DOES NOT MEET THE PREREQUISITE OR HAS NOT RECEIVED A GRADE OF C- OR BETTER IN ALL PREREQUISITE COURSES. AN INSTRUCTOR ALSO HAS THE RIGHT TO WAIVE A COURSE PREREQUISITE IF THE INSTRUCTOR ~~PROVIDES~~ HAS DOCUMENTATION THAT THE STUDENT POSSESSES THE BACKGROUND REQUIRED TO SUCCEED IN THE CLASS.

Students need English placement at ENGL F111X or above (including reading) in order to enroll in Perspectives on the Human Condition core courses. Students need mathematics placement at DEVM F105 or above, and ENGL F111X placement (including reading), to register for science courses.

READING AND WRITING placement exams must be taken within two calendar years prior to the start of a course; mathematics placement exams must be taken within one calendar year prior. Students enrolling in developmental or lower division core courses must have completed any prerequisite courses within two calendar years of their enrollment. Academic advisors will assist with proper course placement for incoming and continuing students.

Students who enroll in a developmental or core course without meeting placement or prerequisite requirements may be withdrawn from the course through the faculty-initiated withdrawal process.

[[ENGLISH]] **WRITING/READING**

(We will address changes to English (Writing/Reading) placement in a later motion.)

. . .

MATHEMATICS

Mathematics course placement varies according to the type of degree the student is planning to pursue and the corresponding math course(s) needed. (See the degree program requirements for more detail.)

[[ACT Plus Writing, SAT, ACCUPLACER, ASSET, or COMPASS test scores are]] **THE UAF MATHEMATICS PLACEMENT TEST IS** used to determine math placement. Minimum test scores for placement into math and developmental math courses are listed in Table 2.

STUDENTS WHO HAVE LIMITED ACCESS OR LIMITED EXPERIENCE WITH THE INTERNET SHOULD CONTACT THE DEPARTMENT OF MATHEMATICS AND STATISTICS OR THE DEPARTMENT OF DEVELOPMENTAL EDUCATION FOR ASSISTANCE.

[TABLE 2 TO BE CHANGED TO REFLECT POLICY CHANGE.]

Page 44 of the 2013-14 Catalog:

PLACEMENT TESTS

Test results are required for first-time degree or certificate students, transfer students with fewer than 30 acceptable credits, or students planning to take 100-level English, reading, mathematics, natural sciences core and perspectives on the human condition core courses. **UAF MATHEMATICS PLACEMENT TEST RESULTS MUST BE ON FILE WITH THE OFFICE OF ADMISSIONS AND THE REGISTRAR OR THE LOCAL REGIONAL CAMPUS REGISTRATION OFFICE BEFORE YOU CAN REGISTER FOR DEVM, MATH, STATISTICS, OR CORE SCIENCE CLASSES.** Results from American College Testing Program (ACT) or the Scholastic Aptitude Test (SAT) or, for associate degree or certificate students, the ASSET, ACCUPLACER or COMPASS test must be on file with the Office of Admissions and the Registrar before you can register for classes. Your ability to register **MAY BE BLOCKED** if you have not submitted required test scores.

Test results for English and composition must be less than two years old; for math, less than one year old **FROM THE PLACEMENT TEST DATE**.

Note: Registrar's Office will also need to update applicable sections including (for example): "Applying for Admission: Certificate or Associate Degree Programs"; "Applying for Admission: Bachelor's Degree Programs."

The UAF Faculty Senate passed the following at Meeting #194, November 4, 2013:

MOTION:

The UAF Faculty Senate agrees to the discontinuation of the Master of Arts program in Music (housed in the College of Liberal Arts, Music Department).

EFFECTIVE: Fall 2014

RATIONALE: The National Association of Schools of Music (NASM), the accrediting agency for UAF's music programs, noted in its last review (2010) that UAF's current Master of Arts in Music program does not accurately reflect what current graduate students in music at UAF do, nor what an M.A. program should be. The Department of Music does not have the faculty resources necessary to offer an M.A. in Music under current accreditation standards. In addition, most graduate students in Music at UAF are seeking performance-based degrees, and will be better accommodated by the proposed Master of Music in Performance (see accompanying motion). Students who wish to obtain a Master of Arts degree with a focus in music can still apply to the Interdisciplinary Master of Arts program at UAF.

Because the Music Department is restructuring its graduate program to establish a Master's of Music in Performance (M.M.) in place of the M.A. in music, there will be no impact of deleting the M.A. in music program. Existing faculty and resources will offer the M.M. in Performance program, instead of the M.A. in music.

Background and Information:

The UAF Department of Music has proposed restructuring its current graduate degree program as a Master of Music in Performance (M.M.) degree program (Format 3 proposal currently under review). The M.M. degree would replace the current Master of Arts (M.A.) degree. The Department's accrediting agency, the National Association of Schools of Music (NASM), noted in its most recent degree program review (AY2010-2011) that the Department's M.A. degree does not accurately reflect either what an M.A. degree should be or what its graduate music students actually do in their course of study. By implementing the M.M. program, the Department will provide graduate students with the appropriate degree they seek. By replacing the M.A. degree with the M.M. degree, the Department will delete a program for which neither the required curriculum or the required number of faculty positions are in place to properly offer concentrations in Music Theory, Music History, Composition, Conducting, and Music Education.

The UAF Department of Music and its faculty are willing to advise or instruct qualified graduate students enrolling in music classes as part of an M. A. or M. S. in Interdisciplinary Studies program through the Office of the Graduate School.

No faculty or workload displacements will be incurred by deleting the Master of Arts degree program. The proposed Master of Music in Performance degree will require the same faculty and administrative personnel currently involved with the M.A. program.

There are no effects on the Department of Music's budget through deletion of the Master of Arts program, given its replacement with the proposed Master of Music program.

There are currently five students enrolled in the graduate music program. All are in the Music Performance concentration. Two of these students will be graduating in Spring 2014. Another three students are full-time first-year students on track for graduation in Spring 2015. The Department plans to award these students the M.M. degree, subject to its approval and implementation as proposed for AY2014-2015. The Department will provide a teach-out period for one current part-time graduate student who will be allowed to graduate under the current M.A. requirements. With approval of the proposed M.M. degree program, the Department of Music will no longer enroll new students under the current M.A. degree program.

****

President, UAF Faculty Senate

APPROVAL: _____ DATE: 4 NOV 2013

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #194, November 4, 2013:

MOTION:

The UAF Faculty Senate moves to approve the new Master's of Music in Performance.

EFFECTIVE: Fall 2014, with Board of Regents approval.

RATIONALE: Given the profession-wide shift in the last two decades towards performance based degrees, the proposed Master's of Music in Performance (M.M.) will provide better preparation for students applying to doctoral programs in music than the current Master of Arts in Music (M.A.) program does. It will be more suitable for those students who seek performance-based careers. In addition, it better reflects the training and strength of faculty in the UAF Department of Music. The National Association of Schools of Music (NASM), the accrediting agency for UAF's music programs, noted in its last review (2010) that UAF's current M.A. in Music program does not accurately reflect what current graduate students in music at UAF do, nor what an M.A. program should be. Establishment of the M.M. in Performance will bring UAF into compliance with the NASM accreditation standards, and better enable students applying for graduate school in Music at UAF to meet their goals in music performance. Students who wish to obtain a Master of Arts degree with a focus in music can still apply to the Interdisciplinary Master of Arts program at UAF.

Because the Music Department is restructuring its graduate program to eliminate the M.A. in Music program, no new resources will be required, if the current M.A. program is deleted. The M.M. in Performance program will be offered using existing faculty and current resources.

President, UAF Faculty Senate

APPROVAL: _____ DATE: 4 Nov 2013

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

Brief Statement of Program:

The UAF Department of Music proposes restructuring our graduate degree program from a Master of Arts (M.A.) to a Master's of Music in Performance (M.M.) degree program. The proposed M.M. degree will replace our Master of Arts (M.A.) degree. Whereas the M.A. degree emphasizes broad-based experience in music history, theory, analysis, and literature through concentration in academic courses, the M.M. more specifically addresses specialization in music performance.

Our accrediting agency, the National Association of Schools of Music (NASM), noted in our last review (2010) that our M.A. degree does not accurately reflect either what an M.A. degree should be or what our graduate students do. Largely, our proposal rests on complying with the NASM accreditation request for continued accreditation. By implementing an M.M. program, we are adjusting the focus of the degree to more accurately align with objectives within our current departmental capabilities. Major objectives follow:

At degree completion, students will be able to:

- speak extemporaneously about their performance area;
- demonstrate application and synthesis of knowledge in music history and music theory;
- perform competitively at an industry standard for world-wide audition levels
- communicate professionalism on all levels.

Given the profession-wide shift over the last two decades, as evidenced by our peer institutions and aspirational institutions, the M.M. degree seems better suited for students applying to doctoral programs, and it better reflects and utilizes the strengths and training of the faculty in the UAF Department of Music. Finally, career opportunities aligned with acceptance into doctoral programs increase with the M.M. Additionally, specialization in performance through advanced study at UAF provides networking opportunities, international travel and performances, and exposure needed to secure further work in the industry.

Program Goals:

1. To further develop instrumental and vocal performance skills from the Bachelor of Music level to that of a Master's degree. Students will attain and demonstrate superior skills in instrumental or vocal music performance, knowledge of topics in music history and music theory, and demonstrate effective skills in research methods in both written and oral communications. Students will be evaluated with end of semester juries, pre-recital hearings, and degree recitals. Students will also perform in both large and small ensembles and complete a comprehensive oral examination, and write and defend their research project paper.

2. The University of Alaska Fairbanks is the nation's northernmost Land, Sea and Space Grant university and international research center. It is committed to advancing and disseminating knowledge through teaching, research and public service and promotes academic excellence, student success and lifelong learning. As the flagship university of the State of Alaska, UAF offers the only graduate music degree within the UA System. An M.M. in performance upholds UAF's commitment to teaching, research, and service. Students enrolled in the M.M. program have access to world-class faculty, excellent departmental resources, and performance opportunities locally, statewide, nationally, and internationally.

3. Further to the program requirements for the M.M. in performance, students will achieve a thorough understanding of their craft, gain the ability to plan for continued musical and intellectual development, and ultimately meet professional demands in music teaching and performance. Additionally, the benefit for creation of an M.M. in performance is that this program has higher professional status and recognition than does the M.A. for the same area of specialization. Additionally, this degree program change aligns us more closely with the offerings of our peer and aspirational institutions.

4. In order for students to attain a high level of instrumental and vocal performance expertise, the majority of course work in the M.M. performance degree is focused in performance areas including private lessons, large and small performance ensemble participation, and degree recital preparation. Students are also required to take the Topics in Music History (MUS 625) and Topics in Music Theory (MUS 632) courses to better prepare them for their required oral comprehensive examination. Introduction to Graduate Studies (MUS 601) serves to better prepare students to write and defend their project paper requirement.

Proposed Catalog Layout:

Music- College of Liberal Arts
Department of Music, 907-474-7555
www .uaf.edu/music/

MM Degree

Minimum Requirements for Master of Music in Performance Degree: 36 credits minimum

The academic progression of a student's graduate program is determined by the student in coordination with the student's graduate advisory committee. Each graduate student's program is designed to meet the student's individual professional interests and aspirations, consistent with program requirements. The program of study emphasizes both academic achievement and the development of superior musicianship through music performance. Recitals and concerts provide students with a variety of musical experiences that expand upon the curricular offerings. The UAF Department of Music is accredited in good standing through the National Association of Schools of Music (NASM).

Graduate Program – Master of Music in Performance Degree (M.M.)

1. Complete the following Department admission requirements:
   a. Diagnostic examinations in music theory and music history.*
   b. Performance audition, demonstrating knowledge and ability in solo literature of various historical periods and styles. Auditions may be live performances or by performances recorded and submitted on an unedited video disc (DVD).
2. Complete the general university requirements
3. Complete the master's degree requirements.**
4. MUS F601 Introduction to Graduate Study--2 credits
5. MUS F625 Topics in Music History--3 credits
6. MUS F632 Topics in Music Theory—3 credits
7. No more than 12 credits of MUS F697 allowed.
8. MUS F698: Research (6 credits).

9. Complete at least 22 credits in a primary area of specialization, including large ensembles, small ensembles, and private lessons.
10. Students with specialization in vocal performance must demonstrate proficiency in languages appropriate
    to their area of concentration. Proficiency will be determined by the student's graduate advisory committee in conjunction with the Department of Foreign Languages. Graduate students studying applied
    music and/or presenting recitals are governed by the same regulations concerning recital preparation,
    recital jury pre-hearings, and jury examinations as those which apply to undergraduate students. These regulations are described in the Music Handbook.
11. Successfully complete a comprehensive oral examination in music history and theory.
12. Successfully complete an oral defense of a research project paper.

* This preliminary exam, to help determine the areas of strength and deficiency, will cover the following areas: a) music theory, and b) music history and literature. Applicants will be accepted from any accredited institution; before admission to a degree program, however, all students (including UAF graduates) must take these preliminary examinations.
** After completing about one semester of the program, students will meet with their advisory committee to define precisely the student's major area of specialization and course work. Each student will pass a comprehensive oral examination given by their advisory committee. Each student, with the approval of the advisory committee, shall develop an appropriate final research project, write a project paper and successfully defend that paper under the supervision of their advisory committee. Each student will prepare and satisfactorily perform a graduate recital.

RESOURCE COMMITMENT TO THE PROPOSED DEGREE PROGRAM

Resources	Existing	New		Total

Use fractions if appropriate. Graduate TAs are normally 0.5 FTE. The numbers should be consistent with the revenue/expenditure information provided.

Attachments: ☐ Summary of Degree or Certificate Program Proposal ☐ Other (optional)

The UAF Faculty Senate referred the following motion back to committee at Meeting #194, November 4, 2013:

MOTION:

The UAF Faculty Senate moves to revise the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 3, Article V: Committees, subsection E.1, to revise the bylaws for the Graduate Academic and Advisory Committee, a permanent committee of the UAF Faculty Senate.

EFFECTIVE: Immediately

RATIONALE: The Graduate Academic and Advisory Committee (GAAC) has reviewed the bylaws pertaining to GAAC and recommends allowing graduate student representatives to vote; and, deleting tax-related issues from the responsibilities of the committee. The reasons for these changes are as follows:

1. Graduate students who serve on this committee already participate in curriculum review and provide input to other issues discussed by the committee. This motion will allow them to participate fully and acknowledge their contribution.
2. Most members of the committee do not have the expertise to comment on tax-related issues.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND DEPARTMENT OF COMMUNICATION UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE COMMUNICATION DEPARTMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods,

laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching.

   h. UTILIZE AND DEMONSTRATE THEIR KNOWLEDGE OF WHAT CONSTITUTES EFFECTIVE ORAL COMMUNICATION IN THEIR TEACHING METHODS.

   i. DEMONSTRATE CONSISTENT ATTENTION TO STUDENTS IN THE ROLE OF AN ADVISOR REGARDING UAF AND DISCIPLINE RELATED MATTERS.

   j. DEVELOP AND REVISE INSTRUCTIONAL MATERIALS FOR USE IN SUPPORT OF THEIR TEACHING.

   k. ACTIVELY PARTICIPATE IN AND CONTRIBUTE TO THE WORK OF THE FACULTY OR THE DISCIPLINE IN CURRICULUM MATTERS.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

ACHIEVEMENT IN RESEARCH, SCHOLARLY, AND CREATIVE ACTIVITY INVOLVES:

1. ***IDENTIFYING AND EXPLORING NEW RESEARCH PROBLEMS IN THE DISCIPLINE, AND/OR CRITICALLY EXAMINING EXISTING RESEARCH PROBLEMS TO PROVIDE NEW INSIGHTS.***

2. ***DEVELOPING NEW METHODS, THEORIES, OR APPROACHES TO RESEARCH PROBLEMS IN THE DISCIPLINE.***

3. ***DEVELOPING AND MAINTAINING A FOCUSED PROGRAM OR PROGRAMS OF RESEARCH.***

4. ***DEMONSTRATING GROWTH IN KNOWLEDGE OF THE DISCIPLINE, OR GROWTH IN EMPIRICAL AND/OR CRITICAL RESEARCH ABILITIES.***

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic

activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

EFFECTIVENESS IN PUBLIC SERVICE INVOLVES:

1. ***ACTIVELY PARTICIPATING ON AND CONTRIBUTING TO THE WORK OF PUBLIC AND/OR GOVERNMENTAL BODIES.***

2. ***SUMMARIZING AND PRESENTING KNOWLEDGE IN THE DISCIPLINE FOR THOSE OUTSIDE OF UAF.***

3. ***APPLYING THEORIES OR FINDINGS OF THE DISCIPLINE IN PUBLIC SERVICE.***

Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations.

EFFECTIVENESS IN UNIVERSITY SERVICE INCLUDES:

1. ***ACTIVELY PARTICIPATING ON AND CONTRIBUTING TO THE WORK OF COLLEGE, UAF, AND STATEWIDE COMMITTEES, PANELS, TASK FORCES, ETC.***

2. ***EXHIBITING LEADERSHIP AND MANAGERIAL EFFECTIVENESS IN POSITION IN THE DEPARTMENT, COLLEGE, UNIVERSITY OF ALASKA FAIRBANKS, AND STATEWIDE.***

Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations,
OR ORGANIZATIONS CLOSELY RELATED TO THE DISCIPLINE. .

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The UAF Faculty Senate passed the following at Meeting #194, November 4, 2013:

MOTION:

The UAF Faculty Senate moves to reaffirm the Department of Anthropology Unit Criteria.

EFFECTIVE: Fall 2014
Upon Chancellor Approval

RATIONALE: The Unit Criteria Committee reviewed the unit criteria which were submitted with no changes by the Department of Anthropology. They were found to still be consistent with UAF guidelines.

REGULATIONS FOR THE APPOINTMENT AND EVALUATION OF FACULTY
AND DEPARTMENT OF ANTHROPOLOGY UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE DEPARTMENT OF ANTHROPOLOGY. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT OF ANTHROPOLOGY FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND DEPARTMENT OF ANTHROPOLOGY UNIT CRITERIA, STANDARDS AND INDICES,*** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit.

Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching.

   h. ***CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT OF ANTHROPOLOGY WILL EVALUATE THE CURATOR'S TEACHING RECORD.***

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. ***ALL PEER-REVIEWED PUBLICATIONS SHALL BE CONSIDERED SIGNIFICANT. THIS INCLUDES NOT ONLY THE WRITING OF JOURNAL ARTICLES AND BOOK CHAPTERS BUT THE EDITING OF BOOK AND JOURNAL VOLUMES.***

o. ***MULTIPLE-AUTHORED, PEER-REVIEWED PUBLICATIONS SHALL BE EVALUATED IN TERMS OF THE AUTHOR'S CONTRIBUTION, TO BE DELINEATED IN THE NARRATIVE STATEMENT OF THE PROMOTION AND TENURE FILE.***

p. ***RESEARCH CONTRIBUTIONS AS EDITOR OF VOLUMES OF THE APUA (ANTHROPOLOGY PAPERS OF THE UNIVERSITY OF ALASKA) SHALL BE CONSIDERED COMPARABLE TO RESEARCH CONTRIBUTIONS AS EDITOR OF OTHER PEER REVIEWED BOOKS AND JOURNAL VOLUMES.***

q. ***CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT WILL EVALUATE THE CURATOR'S RECORD OF RESEARCH.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic

activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. ***APPLIED ANTHROPOLOGICAL WORK WITH COMMUNITIES AND ORGANIZATIONS.***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR TIME ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT WILL EVALUATE THE CURATOR'S RECORD OF SERVICE TAKING INTO CONSIDERATION THE RECOMMENDATION OF THE UNIVERSITY OF ALASKA MUSEUM COMMITTEE (SEE BELOW).

CURATION

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY IN THE DEPARTMENT OF ANTHROPOLOGY, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH AND SERVICE.

1. ***CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:***

    a. ***MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);***

b. INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;

c. FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;

d. MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);

e. SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

f. WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;

g. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE; AND

h. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS.

i. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS THAT PERTAIN TO THE COLLECTION.

2. <u>SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:</u>

<u>ASSISTANT PROFESSOR AND CURATOR</u>

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

a. CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA AND THE CIRCUMPOLAR NORTH AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.

COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.

b. CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.

c. CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET

OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.

d. *CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGUES OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.*

e. *CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CAUTION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.*

f. *CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA. IN THIS REGARD, PREPARATION OF SMALL EXHIBIT IS APPROXIMATELY THE EQUIVALENTS OF PUBLICATION OF A PROFESSIONAL ARTICLE; PROJECT DIRECTION OF A LARGE COMPLEX EXHIBIT THAT INCLUDES PREPARATION OF A SERIOUS CATALOGUE IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A SCHOLARLY BOOK.*

g. *CURATORS WILL ACTIVELY PREPARE GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.*

ASSOCIATE PROFESSOR AND CURATOR

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH MUST BE EVIDENT.

PROFESSOR AND CURATOR

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. THEY

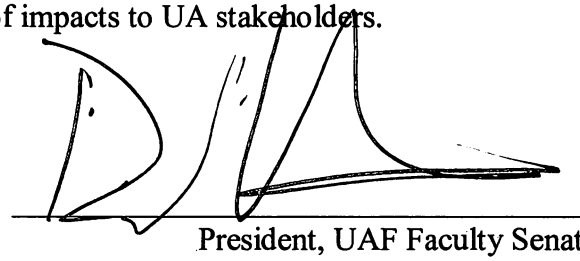
MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.

3. EVALUATION OF CURATION

A COMMITTEE COMPOSED OF THE TENURED CURATORS AT THE MUSEUM WILL PROVIDE AN EVALUATION TO THE UNIT PEER COMMITTEE. IN FORMULATING CRITERIA, STANDARDS AND INDICES FOR EVALUATION, PROMOTION, AND TENURE, THE MUSEUM SHOULD INCLUDE EXAMPLES OF CURATORIAL ACTIVITIES AND MEASURES FOR EVALUATION APPROPRIATE FOR THAT UNIT. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

The UAF Faculty Senate passed the following at Meeting #194, November 4, 2013:

RESOLUTION:



The UAF Faculty Senate affirms its support in principle of efforts to reduce harm from tobacco use, including enforcement of existing policies governing tobacco use. However, the UAF Faculty Senate opposes adoption of a one-size-fits all, zero-tolerance, smoke-free/tobacco-free policy throughout the University of Alaska System.

RATIONALE: At the September 23, 2013 meeting of the UA System Governance Council, one of the discussion items was a potential proposal to ban all use of tobacco on all University of Alaska property across the entire state. The proposal was the initiative of a student group at the University of Alaska Anchorage, who had proposed the ban to the Board of Regents during public comments at a recent meeting.

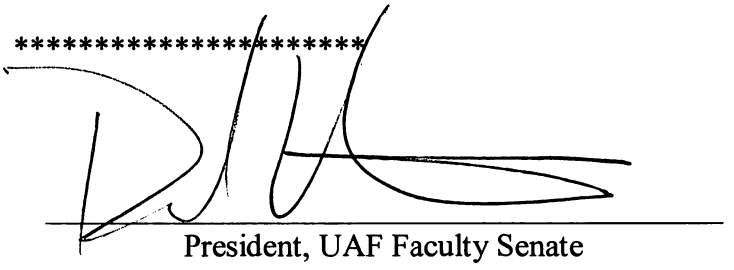
The adverse effects of tobacco use on the health of users and of health insurance systems are manifold and increasing. Efforts to address these problems are to be commended and encouraged. Nevertheless, a zero-tolerance policy applied across all 3 universities comprising the UA system, including their many branch campuses, should not be undertaken without a careful evaluation of its impacts on the members of the UA community and the public we serve.

We acknowledge that the recent UAF Staff Council survey showed a generally mixed attitude of UAF staff to the proposed tobacco free campus proposal.

We join with the Statewide Administrative Assembly in opposing a zero-tolerance, smoke-free/tobacco-free campuses throughout the UA system, and encouraging the UA System Governance Council to consider ways of reducing the adverse impacts of tobacco use that consider all the dimensions of impacts to UA stakeholders.

President, UAF Faculty Senate

The UAF Faculty Senate passed the following motion at Meeting #193 on Oct. 7, 2013:



MOTION:

The UAF Faculty Senate moves to revise the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 2, Article IV: Officers, to establish an internal process for handling appeals by Faculty Senate members to decisions made by the President and/or President-Elect.

EFFECTIVE: Immediately

RATIONALE: In the event that a senator disagrees with a decision or recommendation of the President or President-elect (e.g., a committee appointment), no process currently exists to enable the senator to appeal it beyond asking the President and President-elect to change it. This lack of recourse can lead to the appearance of politically motivated or arbitrary and capricious decision-making. The proposed addition to the by-laws provides a procedure through which a senator may appeal a decision or recommendation to the Faculty Senate Administrative Committee.

****

President, UAF Faculty Senate

****

BOLD CAPS = Addition
[[ ]] = Deletion

Sect. 2 (ART IV: Officers)

The President of the Senate shall be an ex-officio, non-voting member of all elected and appointed committees of the Senate. The President-Elect of the Senate shall be chairperson of the Administrative Committee of the Senate and shall be an ex-officio, non-voting member of such elected and appointed committees of the Senate as the President of the Senate shall direct.

THE FOLLOWING INTERNAL APPEALS PROCESS WILL BE FOLLOWED TO RESOLVE DISAGREEMENTS BETWEEN MEMBERS AND THE FACULTY SENATE PRESIDENT AND/OR PRESIDENT-ELECT.

1. **APPELLANT MAKES A GOOD-FAITH EFFORT TO RESOLVE THE ISSUE DIRECTLY WITH THE PRESIDENT AND/OR PRESIDENT-ELECT. IF APPELLANT IS NOT SATISFIED WITH THE RESOLUTION, CONTINUE WITH THE FOLLOWING STEPS.**

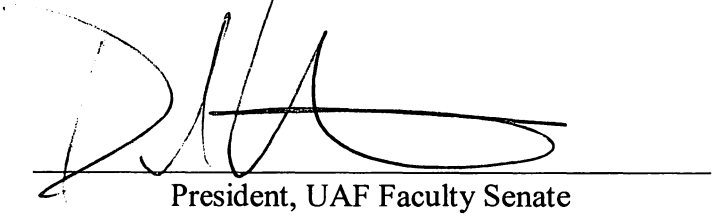
2. **APPELLANT REQUESTS TIME TO SPEAK TO THE ADMINISTRATIVE COMMITTEE AT ITS NEXT REGULARLY SCHEDULED MEETING. (STANDARD TIME ALLOTMENT WILL BE FIVE MINUTES' SPEAKING TIME.) APPELLANT MAY SUBMIT A BRIEF SUMMARY TO BE DISTRIBUTED AS A WRITTEN HANDOUT TO THE COMMITTEE AT THE MEETING, IF DESIRED, IN ADDITION TO BEING PRESENT AND SPEAKING. THE HANDOUT SHOULD BE SUBMITTED FIVE BUSINESS DAYS BEFORE THE ADMINISTRATIVE COMMITTEE MEETING AND INCLUDE A DESCRIPTION OF THE DECISION BEING APPEALED, THE REASONS FOR THE APPEAL, AND THE PROPOSED RESOLUTION.**

3. **AFTER THE APPELLANT HAS SPOKEN, THE PRESIDENT AND PRESIDENT-ELECT MAY RESPOND. (STANDARD TIME ALLOTMENT WILL BE FIVE MINUTES EACH. ONE OR BOTH MAY SPEAK.) THE PRESIDENT OR PRESIDENT-ELECT MAY ALSO PROVIDE A WRITTEN RESPONSE AS A HANDOUT FOR THE CONSIDERATION OF THE ADMINISTRATIVE COMMITTEE.**

4. **THE APPELLANT WILL LEAVE THE MEETING AND THE ADMINISTRATIVE COMMITTEE WILL CONSIDER TWO OPTIONS: A. NO CHANGE TO THE ORIGINAL DECISION; OR, B. SUSTAIN APPEAL AND COME TO AN ALTERNATE DECISION BASED ON THE COMMITTEE'S DELIBERATION. THE ADMINISTRATIVE COMMITTEE WILL VOTE ON THE MATTER. AN AFFIRMATIVE VOTE BY AN ABSOLUTE MAJORITY OF THE COMMITTEE IS REQUIRED TO SUSTAIN THE APPEAL.**

5. **A BRIEF REPORT IS SHARED AT THE NEXT FACULTY SENATE MEETING BY THE CHAIR OF THE FACULTY AFFAIRS COMMITTEE. THERE IS NO FURTHER DISCUSSION ON THE MATTER AT THE SENATE MEETING.**

The UAF Faculty Senate passed the following motion at Meeting #193 on Oct. 7, 2013:



MOTION:

The UAF Faculty Senate moves to amend the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 3, Article V: Committees, subsection B, concerning appointments to Faculty Senate Committees.

EFFECTIVE: Immediately

RATIONALE: It has long been recognized that the committee appointment process is too unwieldy for a committee to undertake. The proposed change to the by-laws codifies existing practice wherein the President and President-elect make the recommendations which are then approved by the Administrative Committee.

****

President, UAF Faculty Senate

****

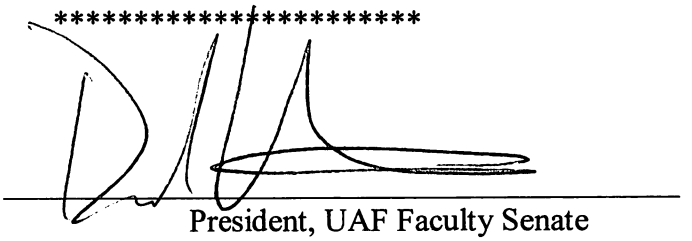
BOLD CAPS = Addition
[[ ]] = Deletion

Sect. 3 (ART V: Committees)

...

B. Membership on standing and permanent committees will be for two years except as noted below with the possibility of re-appointment. The initial appointment or re-appointment is [[made]] **RECOMMENDED** by the [[Administrative Committee]] **PRESIDENT AND PRESIDENT-ELECT** or as specified in the definition of a Permanent Committee, **APPROVED BY THE ADMINISTRATIVE COMMITTEE,** and confirmed by the full Senate. Senators are limited to serving on a maximum of one standing committee at any one time. To provide continuity, terms will be staggered and an initial appointment may be made for one or two years as determined by the Administrative Committee based on need.

The UAF Faculty Senate passed the following motion at Meeting #193 on Oct. 7, 2013:



MOTION:

The UAF Faculty Senate moves to endorse the 2013-2014 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighed against membership distribution from schools and colleges. Now that questions of representation and availability have been resolved, the committee membership may be formally endorsed.

The UAF Faculty Senate tabled the following resolution at Meeting #193 on Oct. 7, 2013:

RESOLUTION:

The UAF Faculty Senate **OPPOSES** adoption of a tobacco-free policy across the University of Alaska System.

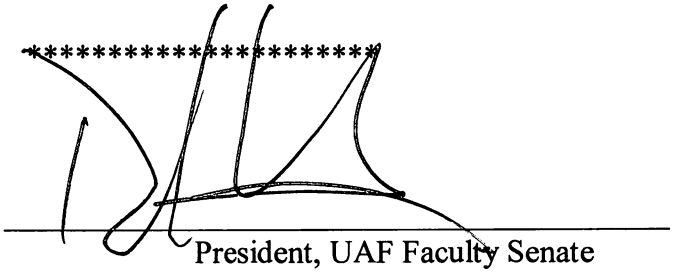
RATIONALE:

At the September 23, 2013 meeting of the UA System Governance Council, one of the discussion items was a potential proposal to ban all use of tobacco on all University of Alaska property across the entire state. The proposal apparently is being offered by the Union of Students at the University of Alaska Anchorage (USUAA), who intend to bring the proposal to the Board of Regents.

The adverse effects of tobacco use on the health of users and of health insurance systems are manifold and increasing. And the efforts of USUAA to address these problems are to be commended and encouraged. Nevertheless, a zero-tolerance policy applied across all three universities comprising the UA system, including their many branch campuses, should not be undertaken without a careful evaluation of its impacts on the members of the UA community and the public we serve.

The UAF Faculty Senate encourages the UA System Governance Council to consider ways of reducing the adverse impacts of tobacco use that consider all the dimensions of impacts—including extent and mechanisms of enforcement—to UA stakeholders.

****



The UAF Faculty Senate passed the following motion at Meeting #192 on Sept. 9, 2013:

MOTION:

The UAF Faculty Senate moves to revise the Faculty Senate Bylaws of the University of Alaska Fairbanks, Section 3, Article V: Committees, subsection E, to establish the Faculty Administrator Review Committee (FARC) as a Permanent Committee of the UAF Faculty Senate.

EFFECTIVE: Immediately

RATIONALE: One of the responsibilities of the discontinued Faculty Appeals and Oversight Committee was to approve the processes used to review Group A and B administrators. Without this committee the responsibility falls to the Administrative Committee. Approximately 5-6 administrator reviews need to be completed per year. The reports are due in March which, of course, is a particularly busy time for the Administrative Committee. The newly formed Faculty Administrator Review Committee would take on that oversight function while also providing some structure and support to the individual Ad Hoc Administrator Review Committee chairs.

****

BOLD CAPS = Addition
[[ ]] = Deletion

Faculty Senate Bylaws, Section 3, Article 5: Committees, subsection E:

E. The standing and permanent committees of the Senate are:

. . .

PERMANENT

. . .

8. **THE FACULTY ADMINISTRATOR REVIEW COMMITTEE (FARC) WILL FACILITATE THE PROCESS OF EVALUATION OF ACADEMIC ADMINISTRATORS IN GROUPS A AND B. THIS WILL INCLUDE ENCOURAGING THE TIMELY COMPLETION OF ALL REVIEWS AND RESULTING LETTERS, AS WELL AS PRESENTATION OF THE RESULTS OF EACH REVIEW TO THE PROVOST, CHANCELLOR, VICE-CHANCELLOR**

FOR RESEARCH, OR OTHER SUPERVISOR IN MARCH. THE FARC WILL ALSO APPROVE THE PROCESS WHICH EACH AD-HOC ADMINISTRATOR REVIEW COMMITTEE UTILIZES.

THE FACULTY ADMINISTRATOR REVIEW COMMITTEE SHALL BE COMPOSED OF THE CHAIRS OF ALL INDIVIDUAL AD-HOC ACADEMIC ADMINISTRATOR REVIEW COMMITTEES PLUS ONE FACULTY SENATE REPRESENTATIVE APPOINTED BY THE FACULTY SENATE PRESIDENT WHO SHALL CHAIR THE COMMITTEE. THE AD-HOC ADMINISTATOR REVIEW COMMITTEE CHAIRS MAY, BUT DO NOT HAVE TO BE, MEMBERS OF THE FACULTY SENATE.

ORIGINAL

The UAF Faculty Senate passed the following motion at Meeting #192 on Sept. 9, 2013:

MOTION:

The UAF Faculty Senate moves to revise the Guidelines for the evaluation process for administrators (Groups A and B) to reflect the establishment of the Faculty Administrator Review Committee as a Permanent Committee (FARC) of the UAF Faculty Senate.

EFFECTIVE: Immediately

RATIONALE: The guidelines need to be formally updated to reflect the establishment of the Faculty Administrator Review Committee.

****

Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

BOLD CAPS = Addition
[[ ]] = Deletion

GUIDELINES FOR THE EVALUATION PROCESS FOR ADMINISTRATORS
Group A:

1. Within the first three weeks of the fall semester, the supervisor of the administrator to be reviewed will appoint an Ad Hoc Administrator Review Committee consisting of five members.[[,]] At least three [[of whom]] **MEMBERS** must be faculty, **AND AT LEAST ONE MUST BE ON THE FACULTY SENATE (INCLUDING ALTERNATES).** (It is recommended that staff be included on the ad hoc committee as appropriate.) [[The chair and

one other member of the committee shall be appointed from the Faculty Senate (including alternates).]]

In the case of evaluation of the Dean of the Graduate School, the Provost will appoint an Ad Hoc Committee consisting of two faculty drawn from the UAF Faculty Senate's Graduate Academic & Advisory Committee, one other [[Senate]] **FACULTY** member [[(including alternates)]], one dean/director, and a graduate student representative.

The Ad Hoc Committee will solicit input from all relevant constituencies on- and off-campus, including faculty, staff, and students. This may be accomplished through various instruments, e.g., a standard questionnaire completed anonymously and returned to the committee chair.

2. The administrator to be evaluated will prepare a narrative self-evaluation of activities performed during the three-year period (academic years) prior to the year of evaluation or since the last evaluation. This narrative should include reflections about how adequately s/he has fulfilled responsibilities of leadership consistent with his/her own performance expectations and those of faculty, staff, and students in the unit. Major or otherwise significant accomplishments should be highlighted. Any issues raised in the last evaluation should be referenced with a view to what progress has been made on those items. Finally, the self-evaluation should identify a limited set of reasonable goals for the unit over the next three years, with some discussion about specific strategies that may be undertaken through his/her administrative leadership.

3. The Ad Hoc Committee will interview a select sample of faculty, staff, students and others as relevant for further evaluative comments about the administrator's performance.

4. The Ad Hoc Committee will interview the administrator either in person or by conference call. The interview shall proceed on the basis of a set of questions which reference the administrator's self-evaluation, the results of returned questionnaires, and the interviews of faculty, staff, and students.

5. The Ad Hoc Committee will prepare an evaluative summary, and submit its report to the Provost (in the case of evaluation of deans) or to the Chancellor (in the case of evaluation of the Provost or any other administrator who reports directly to the Chancellor). The Ad Hoc Committee shall work as expeditiously as possible in completing its report and submit it to the Provost or Chancellor as the case may be by March 15 of the spring semester.

   (a) At a date to be set by the Provost, the Provost or administrator's supervisor shall meet in joint conference with the Ad Hoc Committee and the Faculty Senate **FACULTY** Administrator **REVIEW** Committee **(FARC)** for final review, recommendations, and disposition of the Administrator's evaluation. The specifics of the content of the report of the Ad Hoc committee shall not be discussed if the Administrator's supervisor deems that inappropriate under Board of Regents' Policy P04.01.062. and Alaska Statute. In particular, the Administrator must give written consent for the specific content to be discussed. However, the **FARC** [[Administrative Committee]] shall be provided information on the process followed by the ad hoc committee, excluding the names of persons interviewed unless they have waived confidentiality. The supervisor of the administrator will thereafter provide his/her formal evaluation taking into account the Ad Hoc Committee's report.

   (b) At a date to be set by the Chancellor, the Provost (or other administrator reporting directly to

the Chancellor) and the Chancellor shall meet to discuss the Ad Hoc Committee's evaluation of the Provost (or other administrator reporting directly to the Chancellor). During this meeting the Chancellor and Provost (or other administrator reporting directly to the Chancellor) shall identify performance priorities for the next review period. The Chancellor shall meet in joint conference with the Ad Hoc Committee and the UAF Faculty Senate's **FARC [[Administrative Committee]]** to summarize the evaluation process. The specifics of the content of the Ad Hoc Committee evaluation shall not be discussed if the Chancellor deems it inappropriate under Board of Regents' Policy P04.01.062. and Alaska Statute.

The following statement is included with guidelines when distributed to units:

P04.01.062. Confidentiality of Personnel Records.

A. Dates of present and past employment with the university, position title, type of employment, campus, and salary are public information. The university adopts the policy of AS 39.25.080 so that all other personnel records, including but not limited to applications, leave records, home address and telephone number, performance evaluations and disciplinary matters, relating to any past or present employee of the university are not public records and are not accessible by the public. Personnel records will be released only under the following circumstances:

1. upon receipt of written authorization from the employee, former employee, or applicant, as directed in the authorization;

2. to the employee's supervisors and to university supervisors to whom the employee or former employee has applied for promotion, transfer or rehire;

3. to a state agency authorized by statute to review such university documents upon receipt of a subpoena issued by a competent authority and upon execution of an agreement that confidential information will not be made public;

4. upon receipt of an order of a court of competent jurisdiction;

5. for internal university operations, to persons having a need to know as determined by the regional personnel officer or the custodian of the record.

****

GUIDELINES FOR THE EVALUATION PROCESS FOR ADMINISTRATORS

Group B Administrators:

In addition to being reviewed annually by his/her immediate Supervisor, "Group B" administrators are to undergo a 3-year comprehensive review. At a time designated by the Supervisor during the fall semester of the academic year of comprehensive review, the "Group B" administrator will submit a self-evaluation report to his/her Supervisor. The self-evaluation shall include: (1) comments on the annual performance evaluations; (2) a summary of his/her notable activities/accomplishments in the previous years; and (3) a statement of relevant goals/objectives relative to assigned or planned administrative duties for the upcoming years. The Supervisor's evaluation shall include faculty and/or staff opportunities for comment on the "Group B" administrator's performance. Comments received shall be referenced in anonymous and aggregate summary in the written evaluation provided to the "Group B"

administrator. The Supervisor will include, as part of the written evaluation, an appended workload assignment and/or statement of performance expectations for the "Group B" administrator for the subsequent review period. A summary statement of the process used to assure faculty/staff input into the evaluation will be forwarded to the Faculty Senate Office by March 15 of the academic year the "Group B" administrator is scheduled for review. The Faculty Senate **FACULTY** Administrator **REVIEW** Committee shall review the evaluation process in order to perform their oversight function in administrator review.

The following criteria will be used to determine which administrators are placed on or removed from the "Group B" list. As vacancies and appointments occur, changes to the list shall be determined annually by the Provost in consultation with the Faculty Senate President.

- "Group B" administrator responsibilities must be administrative in nature. ("Group B" administrators must not be Union members, UNAC or ACCFT).
- "Group B" administrators report to "Group A" administrators. ("Group A" administrators report to the Chancellor, Provost, or a Vice Chancellor.)
- "Group B" administrators supervise faculty and are involved in faculty performance reviews.

The UAF Faculty Senate reaffirmed the following resolution at Meeting #192 on Sept. 9, 2013:

Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution at Meeting #176 in September 2011, and at Meeting #184 in September 2012. For academic year 2013-2014, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #192 on September 9, 2013.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

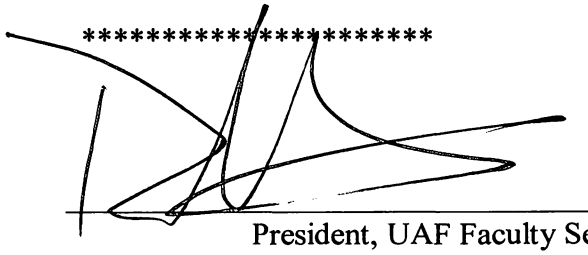
WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2013-14 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.



2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

****

President, UAF Faculty Senate

The UAF Faculty Senate did NOT pass the following motion at Meeting #191 on May 6, 2013:

MOTION:

The UAF Faculty Senate agrees to discontinuation of the PhD Degree in Mathematics.

EFFECTIVE: Fall 2013

RATIONALE: During the 2010-2011 program review process, the Faculty Program Review Committee recommended that the Ph.D. in Mathematics be continued, but stated "DMS should investigate ways to increase this number [of students] or make clear the reasons for the continuation of this program." The Administration Program Review Committee and the Chancellor's Cabinet recommended the Ph.D. in Mathematics program be discontinued. The Mathematics Department (which administers this degree) appealed that recommendation, but the appeal was denied by the Chancellor's Cabinet on the grounds that there was no evidence that enrollment would increase or other compelling reasons for continuation.

Background and Information:

There was total of only two Ph.D. in Mathematics graduates during the period from FY06 to present. Enrollment was 7 in FY06, but since then has ranged between 0 and 3 students. As shown below, there has been zero enrollment for a year. Of the students enrolled in 2009-10, two graduated and the other student is not expected to return.

Program Review Enrollment Data

Degree and major sought:	FY06	FY07	FY08	FY09	FY10
PHD Mathematics	7	2	3	3	2

Enrollment in the Mathematics Ph.D. Program by semester, 2009-present

Program	Su09	Fa09	Sp10	Su10	Fa10	Sp11	Su11	Fa11	Sp12	Su12	Fa12*
PHD	1	2	1	0	3	2	0	1	0	0	0

*As of October 25, 2012.

Additional factors are that the faculty member who has served as major professor for all recent Ph.D. students has left UAF, and that the program has persistently had low enrollment and graduates. During the previous program review period the enrollment had increased from zero (Fall 1999) to six (Fall 2004), but there were no doctoral degrees awarded. So, over the last 13 years there has been a total of only two graduates. The Program Review conducted in 2005-06 concluded in part:

> "We also support continuing the Ph.D. program for the next review period, but it will be subject to a serious re-evaluation in 2010. Several questions that must be addressed at that time are (1) Has a broader group of faculty, especially including some of the recent hires, begun advising Ph.D. students? (2) Has an enrollment of about 5-10 students been sustained? (3) Have a reasonable fraction of the students admitted before 2007 completed their degrees? (4) Have these students had successful outcomes, e.g., employment in their field, publication in peer-reviewed journals, etc.? Negative answers to most of these questions will probably result in termination of the program, or at least, suspension of admissions until a more favorable climate exists."

Discontinuation of this program will have little effect on other programs, personnel, students, or budget. The department will be freed from administrative requirements of student learning outcomes assessment and program review. The vacant faculty position can be refilled to focus on other department needs. There are currently no students enrolled in this program, and admissions have been suspended pending Faculty Senate action. Therefore, the program can be discontinued immediately and does not require a teach out period.

****

The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

MOTION:

The UAF Faculty Senate moves to amend the motion passed at Meeting #189 on March 4, 2013, concerning the application of the grading policy for the grade of C, so that it includes all undergraduate students, and is not limited to baccalaureate students.

Bolded **CAPS** = Additions
[[ ]] = Deletions

The UAF Faculty Senate moves to amend grading policy concerning the grade of C, such that C- (1.7) shall be the minimum acceptable grade that **[[**baccalaureate**]] UNDERGRADUATE** students may receive for courses to count toward the major or minor degree requirements, or as a prerequisite for another course.

EFFECTIVE: Fall 2013

RATIONALE:

1. Consistency with the past. Before +/- grades, a 'C-' was acceptable because a 'C-' was simply a version of C
2. Consistency with faculty who do not use +/- grades. A student who receives a 'C-' from a faculty member who does not use + is ok because that grade gets recorded as a 'C'. Same course, different teacher, this one does use + and the grade is not acceptable.
3. Consistency with BOR policies. BOR defines a C as an acceptable grade. Clearly a 'C-', which is a version of C, also should be acceptable.
4. Consistency with transfer policies: a course with a grade of C- transfers. However, currently it only transfers as 'credit' for a course in one's major or minor. In order to satisfy the requirement for the major or minor the course would need to be re-taken and a grade of C or higher received.
5. A grade of C- is the minimum acceptable for a 'core' course. This is confusing for students, who recognize that sometimes a C- is good enough, and sometimes not.

Note that the proposed change wouldn't change the fact that a student's overall GPA and GPA in the major must be a minimum of 2.0.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Dispute Resolution (housed in the Justice Department of the College of Liberal Arts).

Effective: Fall 2013

Rationale: With high student interest and department support, this new minor is a practical addition to the Justice Program. See the program proposal #194-UNP on file in the Governance Office, 312B Signers' Hall.

****

Jennifer A. Reynolds
President, UAF Faculty Senate

APPROVAL: _____ DATE: 5/7/13
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:

The minor in Dispute Resolution will provide students with a theoretical background for and practice of alternative dispute resolution. The curriculum will support the developing restorative justice emphasis of the B.A. of Justice, as well as being applicable to business administration, social work, psychology and counseling contexts. The core of the minor (JUST F201, JUST F302, JUST F403, and JUST F405) introduce students to concepts involved with dispute resolution systems and restorative practices, provide theoretical background, and have students apply the concepts and skills associated with dispute resolution practices. The electives for the

minor (JUST F315 and JUST F401) look at application of the practices to two separate settings: corrections and cross cultural conflict.

Proposed Minor Requirements:

Minor in Dispute Resolution

1. Complete the following requirements:
   JUST F201, Dispute Resolution and Restorative Practices (3 Credits)
   JUST F302, Dispute Systems Design (3 Credits)
   JUST F403, Law and Science of Arbitration (3 Credits)
   JUST F405, Clinic in Mediation, Conferencing and Circle Practices (3 Credits)

2. Complete one of the following:
   JUST F315, Correctional Counseling and Rehabilitation (3 Credits)*
   JUST F401, Cross Cultural Conflict Analysis and Intervention (3 Credits)
   "C-" grade or better is required in Minor courses.
   400 level courses require Junior standing, but this may be waived by the instructor.

*JUST F315 requires JUST F310. For non-Justice Majors, taking JUST F401 avoids this extra course.

Relationship to the Purposes of the University:

In addition to the Justice professions, business organizations, human relations departments are realizing the need for employees possessing the knowledge and skills to resolve disputes arising within and without the organization. The Minor in Dispute Resolution will aid the State in developing a workforce that is able to work efficiently and cohesively. The minor is particularly well suited to supplement the education of Psychology, Social Work and Communication majors. The Justice Department faculty have spoken with faculty from those disciplines and received enthusiastic support for the creation of the minor. The Department also met with a focus group of Justice majors to query them as to the type of courses they would prefer to see created; restorative justice and dispute resolution courses were high on the list. Justice undergraduate courses are generally fully enrolled, and the courses for the proposed minor will also serve as electives for Justice majors. Thus, it is anticipated that the courses for the new minor will experience full enrollments.

The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

RESOLUTION:

The UAF Faculty Senate recommends that the process of post-tenure performance review of UNAC-represented faculty be modified to eliminate levels of review above that of the dean in cases where both the unit peer committee and the dean have judged the performance to be satisfactory. Review by a university-wide committee and by the Provost should be required if either the unit peer committee or the dean rates performance as unsatisfactory in two of the three areas (teaching, research, service), or if either rates performance as unsatisfactory in one area if that area is the main part of the faculty member's workload.

RATIONALE: According to the Collective Bargaining Agreement (CBA) between the University of Alaska and United Academics, in effect between January 01, 2011 - December 31, 2013: "The post-tenure review process is generally intended to be a formative rather than a summative process of faculty evaluation, focused on faculty development. It is not intended to be the equivalent of the probationary evaluation of tenure track faculty. At the same time the process should review and encourage progress toward promotion where applicable, ongoing development, scholarship and productivity." The post-tenure reviews also serve to identify faculty whose performance is unsatisfactory. The CBA states that "Unit members who receive an unsatisfactory comprehensive post-tenure review shall be ineligible for market and merit salary adjustments until they receive a satisfactory outcome in a subsequent post-tenure review."

The current system of full university-wide review of post-tenure files by a committee of full professors is costly in terms of effort, yet for several reasons these university-wide reviews are useful in only a small number of cases. First, approximately 35 post-tenure reviews are conducted each year at UAF and typically just 0-3 are rated unsatisfactory overall. This low number is expected in light of the fact that tenured faculty have already undergone rigorous review for tenure and promotion, and nearly all continue a high level of performance after tenure. Second, for the stated purpose of faculty development, the portions of the post-tenure reviews that are most useful to the faculty are the reviews at unit peer and dean levels. Third, the need for a university-wide review committee composed of full professors draws experienced faculty away from the university-wide committees on 4th Year Reviews and Promotion & Tenure, where their advice would be more effective.

To fulfill the purpose of post-tenure review, in most cases review by a unit peer committee and the dean will be sufficient. Review by a university-wide committee and the Provost can be reserved for cases in which the results at those levels indicate a possible unsatisfactory rating overall, without compromising the goal of post-tenure review. Results at the unit peer and dean rankings can be used to identify these files. The recommended trigger of an unsatisfactory rating in two of three areas (teaching,

research, service) or an unsatisfactory rating in the main area of the faculty member's workload, by either the unit peer committee or the dean, is based on UAF experience. Focusing on these files would be a more productive use of university resources and would not compromise the purpose of post-tenure review.

Modification of the post-tenure review process will require a change in the CBA because the current CBA requires that comprehensive post-tenure review must include review by MAU Peer Review Committees (at UAF, the university-wide review committees).

The Faculty Senate resolution will be forwarded to the UAF administration and to United Academics. We will request that Labor Relations negotiate an MOA to permit this change under the current CBA, and also request that the change be incorporated into the next CBA.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

MOTION:

The UAF Faculty Senate supports continuation of the PhD Degree in Mathematics on the condition that the Department of Mathematics and Statistics (DMS) submits annual reports to the Faculty Senate and to the Provost demonstrating success in meeting the intent and milestones of its plan ("Revitalizing the Mathematics Ph.D. Program at UAF"), submitted to the Faculty Senate and attached here. These reports are to be submitted by the Program Review document deadline established by the Provost; in 2013, the report is due on December 2. This condition will continue until the program's next formal Program Review, currently scheduled for 2015-16.

EFFECTIVE: Spring 2013

RATIONALE: During the 2010-2011 program review process, the Faculty Program Review Committee recommended that the Ph.D. in Mathematics be continued, but stated "DMS should investigate ways to increase this number [of students] or make clear the reasons for the continuation of this program." The Administration Program Review Committee and the Chancellor's Cabinet recommended the Ph.D. in Mathematics program be discontinued. DMS (which administers this degree) appealed that recommendation, but the appeal was denied by the Chancellor's Cabinet on the grounds that there was no evidence that enrollment would increase or other compelling reasons for continuation.

Program Review stipulates that the Faculty Senate must act on program deletion. Pursuant to this, a motion to delete the PhD Degree in Mathematics was made at Meeting 186 (November 5, 2012) and tabled pending development and receipt of a revitalization plan with identified goals and benchmarks. It was tabled first until the March 4, 2013 meeting, then again until the May 6, 2013 meeting. DMS has submitted a revitalization plan (attached) that the Faculty Senate Administrative Committee deems an adequate basis for recommending against program deletion at this time and for conditional program continuation.

DISAPPROVED: _____ DATE: _____
Chancellor's Office

To Whom it May Concern:

Enclosed please find an draft plan for 'Revitalizing the Mathematics Ph.D. program' at UAF. This plan has been drawn up over the course of several months, in consultation with the Provost and CNSM Dean, who support our revitalization plan at this time. The expectation is that more faculty members will be involved in supervising Ph.D. students in the future, and that enrollment numbers will grow.

MATHEMATICS PH.D. REVITALIZATION PROPOSAL

The Department of Mathematics and Statistics proposes the following plan for revitalizing its Ph.D. Program. We outline a new path for students through the program, we present clear goals for a successful program, and we develop milestones for determining its viability and success.

Context of UAF's mathematics Ph.D.

Mathematics is a foundational discipline that contributes to many fields, and an institutional strength in it is a resource for the entire university. Having a Ph.D. program in Mathematics realizes UAF's vision of integrating teaching and research. Strong research universities that do not offer a Math Ph.D. are rare, or nonexistent, in the U.S. Of the 2012 UAF Equivalent Peer Group institutions, 9 of 11 have a Ph.D. program in Mathematics. All 9 of UAF's Aspirational Peers have a Mathematics Ph.D. program. If the program were deleted, Alaska would be one of only 2 states (with Maine) with no institution offering a Math Ph.D.

The opportunity to train graduate students is important for recruiting and retaining a strong faculty. The department currently has a number of members with strong national and international reputations, and UAF should seek to preserve and build on this strength. DMS personnel collaborate with those in other departments and institutes, and a weakening of the math faculty will have impacts across the full university.

Other institutions maintain Math Ph.D. programs with enrollments similar to UAF's recent enrollments. In general, mathematics Ph.D. programs are smaller than their counterparts in the lab sciences, and research papers are often single-authored or co-authored by a small number of people. Large numbers of graduate students are not necessary for faculty research. Enrollment figures for comparable institutions are given in Table 1 at the end of this document[1], and show UAF's degree production compares favorably with many other low-population state institutions.

Current status

In Spring 2013, the math graduate program has no enrolled or admitted Ph.D. students, and 9 enrolled M.S. students (3 of whom are expected to graduate this year; 1 of whom is expected to lose funding due to inadequate performance; 2 of whom are self-funded; 3 of whom are expected to graduate in 2014). Admission to the Ph.D. program is currently suspended, and M.S. admissions for Fall 2013 are underway. Thus, DMS is in the position of rebuilding the Ph.D. program from relatively low overall graduate enrollment.

Of the 10 full-time tripartite faculty in math, 6 are committed to rebuilding the Ph.D. (Allman, Avdonin, Berman, Rhodes, Rybkin, Williams); the others are either strongly opposed, or not interested. All, however, support the M.S. program and are interested in increasing its size. This plan is designed, therefore, to not require the participation of those faculty who wish to 'opt out' of Ph.D. involvement, but to try to use broad support for a larger program to support growth of the Ph.D.

Date: April 23, 2013.

[1]Data for most universities include faculty in statistics and math education despite the fact they do not supervise math Ph.D.s since faculty figures are compiled only by department by the American Mathematical Society. Two of the three most productive schools (Oregon, N. Dakota) have separate statistics departments, and thus their productivity figure is inflated relative to other schools.

VITALITY GOALS

In the long term, we want to admit 1 to 2 students each year who intend to pursue a Ph.D. at UAF. Some of these students may not yet have a M.S. degree, so following current departmental rules, they will be formally admitted into the M.S. program. However, they will be internally tracked as "M.S./Ph.D." students, so that it is clear that they intend to pursue a Ph.D. There will, of course, be some attrition, so that we envision eventually graduating approximately 2 students every 3 years. This means that at any point, the number of Ph.D. students in the program who are post M.S. will be approximately 4, spread among the interested faculty. (This is based on an expected completion time of 4-6 years post M.S. [2])

This will necessarily require that multiple faculty members are advising both Ph.D. students and masters students. Six faculty members are committed to both active recruiting and Ph.D. advising of students with interests in their research areas.

Given that the first admission to the program cannot be before Fall 2014, we can hope to graduate our first Ph.D. student no earlier than Spring 2018 (assuming the student enters with an M.S. degree and progresses quickly through the program). Graduating our first student in Spring 2019 or Spring 2020 is a more realistic expectation.

To have an effective program, we need to:

(1) Recruit effectively;

(2) Have a clear plan for allowing students to progress through the program, and for recognizing when students are not making adequate progress;

(3) Be able to provide adequate funding to students for program completion;

(4) Assess the effectiveness of the program.

RECRUITMENT

Graduate student recruitment has been difficult for DMS. Faculty have not broadly considered this an individual expectation, nor have we taken effective departmental actions. With the strong efforts of several faculty excepted, we have simply hoped applications would materialize. This needs to change, for both the M.S. and Ph.D. programs, and a sustained effort to draw good students must be made. While we will attempt to recruit Ph.D. students specifically, we will also focus on recruiting more M.S. students. We hope for a mix of students who apply committed to a Ph.D., and other students who decide to continue toward a Ph.D. after successful completion of a M.S.

Specific steps to recruit students to the Ph.D. program may include:

(1) Use of e-mail list servers, such as those of Project NeXT list or MAA sections, to reach faculty with a strong teaching interests across the country. (A trial attempt at this, timed to reach students who may not have been admitted to their first choice programs, generated 3 M.S. applicants within a few days.)

(2) Mailings to smaller liberal arts colleges, especially in the Pacific Northwest and other northern states like Minnesota and Maine, to attract applicants who might not have considered UAF, but might find a smaller program a better fit for them.

(3) Letters to undergraduate universities of recent graduates, emphasizing the program's effectiveness with their former students, and encouraging new applications.

[2]See 2003 NSF data, Tables 3 and 4 from `http://www.nsf.gov/statistics/infbrief/nsf06312/` which lists median Registered Time to Degree for Carnegie-classified research institutions as 6.8 - 7 years in mathematics, with average of 6.9 years for students who are primarily supported by teaching assistantships, which is the case in DMS. Aggregate median registered time to degree for all physical sciences, including mathematics, was 6.7 years in 2011, available at `http://www.nsf.gov/statistics/sed/2011/pdf/tab31.pdf`, but registered time to degree for mathematics specifically does not appear to be easily available.

(4) Improving the DMS Web page, focusing on the goal of recruitment of students.

(5) Mailings and visits to US universities that have MS programs in mathematics, but no Ph.D., to recruit recent graduates.

(6) Leveraging faculty contacts at individual foreign institutions (e.g., UNAM–Morelia, Mexico, University of New Brunswick–Fredericton, Canada, University of Tasmania, University of Canterbury, etc.) to encourage more well-prepared foreign applicants.

(7) Have individual faculty members send targeted emails to colleagues who work in fields related to the faculty member's area of research, soliciting students who are interested in working in that field, and following up with calls to interested students who apply.

(8) Meeting with personnel from the Office of Admissions and CNSM to discuss other ways to enhance recruiting.

Revised program for Ph.D. study

The current Ph.D. requirements, which were designed to reach an acceptable consensus across the full department (including those opposed to the program) are modeled more on those of much larger math departments, and are not practical for our size.

We propose two related paths, one for students who already have a M.S. and one for students who are entering the program directly, without a M.S.

M.S./Ph.D. students (admitted without an M.S. in mathematics).

Year 1: Take masters-level courses. Form interim program committee. Take a M.S. comprehensive exam at the end of the first year.

Year 2: Continue to take courses. Identify a broad proposed area of study through the Ph.D., and form M.S/Ph.D. program committee. Passing all required M.S. comprehensive exams by the end of year two is required. Take one (of two) Ph.D. subject exams, as designed by program committee, and pass it to be guaranteed of funding for year three. (One exam should focus on the intended area of research, and one on either a broader or distinct area.) Typically, earn a M.S. degree.

Year 3: Pass both Ph.D. exams by the end of year three, and if not done already, earn a M.S. degree. Failure to meet these milestones results in withdrawal of funding.

Year 4: Develop a detailed proposal for dissertation research and present it to the committee, in order to advance to candidacy. If a student does not advance to candidacy by the end of the year 5, then funding will be withdrawn.

Years 4 – 6: Do individual research towards the dissertation, in consultation with the student's advisor and committee. Defend the dissertation. Assuming available funding, students would be guaranteed support for years 4 and 5, and then must demonstrate adequate progress to be eligible for funding for a sixth year.

Ph.D. students admitted with an M.S. degree in mathematics.

Year 1: Take graduate courses in the student's proposed area of study. Form Ph.D. program committee. Take a Ph.D. exam (one of two), and pass it to be guaranteed of funding for year two.

Year 2: Pass both Ph.D. exams by the end of year two. Failure to meet these milestones results in withdrawal of funding.

Year 3: Develop a detailed proposal for dissertation research and present it to the committee, in order to advance to candidacy. If a student does not advance to candidacy by the end of year 4, then funding will be withdrawn.

Years 3 – 5: Do individual research towards the dissertation, in consultation with the student's advisor and committee. Defend the dissertation. Assuming available funding and adequate progress, students would be guaranteed support for years 3 and 4, and then must demonstrate adequate progress to be eligible for funding for a fifth year.

Funding

Expanding the mathematics graduate program at the M.S. level and revitalizing the Ph.D. program will require funding a larger number of students than in the past. Nationally, the overwhelming majority of mathematics graduate students are supported by TA-ships through their entire programs, and we must expect to do so as well. Despite a tightening budget at UAF, CNSM Dean Paul Layer is working with us to increase graduate enrollments in DMS. We believe we can expand student funding through the following mixture of approaches.

(1) More active involvement of graduate students in teaching, including online and summer courses, and low level (precalculus) courses: DMS uses a very large number of adjunct faculty, and qualified individuals are difficult to find. With adequate training, and possibly reconfiguring some course delivery, we can use more advanced graduate students to offset some of the need, with salary savings partially offsetting TA costs. On-line courses have generally poor student success rates, and graduate student involvement in support may help us address this persistent problem.

(2) Attracting graduate students from countries which provide financial support for study in the US: Many countries, especially those that are rapidly developing, (such as Kazakhstan, Mexico, Turkey and some others), are eager to send students to US universities, and provide full support.

(3) Individual research grants: Although RA-ships tied to faculty grants are less common in mathematics than in the sciences, there is potential for some faculty to fund students in this way (as has been done in DMS in the past). For students working on interdisciplinary topics, there is also potential to tie support to grants to faculty outside of DMS.

(4) External grants to the department to support graduate students: There are a number of federal programs to support graduate students that the department can apply for, e.g. GAANN (US Dept. of Education), S-STEM (NSF), and LSAMP (NSF). We know of other mathematics departments that have successfully used these to expand their graduate programs. While we probably cannot be competitive until we have a few students in the Ph.D. program, in the longer term we can be.

(5) Joint supervision of Ph.D. students with other universities: It is not uncommon nationally for students to study at several different universities during their graduate program. Under such an arrangement, students are usually supported by a TA-ship at each university during their time there. When appropriate for the student, this would both reduce our need to provide support, and give the student opportunities unavailable at UAF because of the size of our department.

Milestones and Assessment

We propose the following goals:

Year 1:

- Recruit for Ph.D. students
- Admit 1 – 2 Ph.D. students (that is, students who have the intention of pursuing a Ph.D., although we may admit them into the M.S. program)

Year 2:

- Recruit for Ph.D. students
- Admit 1 – 2 Ph.D. students (that is, students who have the intention of pursuing a Ph.D., although we may admit them into the M.S. program)

- If possible, administer a Ph.D. exam

Year 3:

- Recruit for Ph.D. students
- Admit 1 – 2 Ph.D. students (that is, students who have the intention of pursuing a Ph.D., although we may admit them into the M.S. program)
- If possible, administer Ph.D. exams
- Ideally, approve a dissertation research proposal and advance a student to candidacy

Year 4:

- Recruit for Ph.D. students
- Admit 1 – 2 Ph.D. students (that is, students who have the intention of pursuing a Ph.D., although we may admit them into the M.S. program)
- Administer Ph.D. exams
- Advance a student to candidacy, if possible

Long-term: Graduate the equivalent of 2 Ph.D.s every 3 years.

Appendix

Table 1. Enrollments in Mathematics Ph.D. programs for UA Equivalent Peer Group 2012 (All members for which data was available are shown.)

	Tenure-track faculty in Math Dept. (includes math/stats/math education in most cases)	Math Ph.D.s in most recent 3-year period	Annual math Ph.Ds/faculty

The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

MOTION:

The UAF Faculty Senate moves to approve the revised Unit Criteria for the Fisheries Division of the School of Fisheries and Ocean Sciences.

EFFECTIVE: Fall 2013
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the SFOS Fisheries Division. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria were found to be consistent with UAF guidelines.

DISAPPROVED: _____ DATE: _____
Chancellor's Office

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT, PROMOTION, TENURE, AND SABBATICAL LEAVE

AND

FISHERIES DIVISION UNIT CRITERIA

STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN THE FISHERIES DIVISION OF THE SCHOOL OF FISHERIES AND OCEAN SCIENCES. CAPITALIZED TEXT REFLECTS ADDITIONS AND CLARIFICATIONS TO UAF REGULATION. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL AS PROMOTION AND TENURE.

CHAPTER I
Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II
Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience, and performance requirements are set forth in "UAF Faculty Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special

academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans or schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III
Periodic Evaluation of Faculty

A. General Criteria

Criteria outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty

member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service, INCLUDING CURATION.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty. Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. EFFECTIVE TEACHING ENABLES LEARNERS TO GAIN KNOWLEDGE AND /OR SKILLS.

EFFECTIVE TEACHERS:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for THEIR students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subjectS BEING TAUGHT;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at AN appropriate level;

IN ADDITION, EFFECTIVE TEACHERS WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:

a. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

b. may receive prizes and awards for excellence in teaching;

c. SUCCESSFULLY MENTOR GRADUATE STUDENTS;

d. MAY WRITE TEXT BOOKS, TEXTBOOK CHAPTERS, OR ARTICLES ON TEACHING METHODS, DEVELOP CASE STUDIES, ORGANIZE TEACHING WORKSHOPS, OR PREPARE COURSE MODULES FOR BROAD DISTRIBUTION.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

TEACHING IS AN IMPORTANT ROLE OF FISHERIES DIVISION FACULTY. FACULTY MEMBERS DISCHARGE THEIR RESPONSIBILITY BY TEACHING FORMAL COURSES, ADVISING UNDERGRADUATE AND GRADUATE STUDENTS, DIRECTING INDEPENDENT STUDIES (497 OR 697), SUPERVISING EXPERIENTIAL LEARNING AND INTERNSHIPS, AND CONDUCTING INFORMAL COURSES OR WORKSHOPS. TEACHING AND ADVISING GRADUATE STUDENTS IS MORE DEMANDING THAN TEACHING AND ADVISING UNDERGRADUATE STUDENTS; NEVERTHELESS, THE EXTRA EFFORT FACULTY INVEST IN GRADUATE TEACHING AND ADVISING ARE CENTRAL TO FISHERIES DIVISION'S MISSION. FACULTY WORKLOAD ASSIGNMENTS MAY REFLECT DISSIMILAR LOADS RELATED TO FORMAL CLASSROOM TEACHING AND GRADUATE AND UNDERGRADUATE ADVISING LOADS; HOWEVER THE GUIDELINE EXPECTATION IS THAT FACULTY MEMBERS WILL TEACH AT LEAST FOUR ACADEMIC CREDITS IN THE CLASSROOM EACH YEAR. QUALITY OF CLASSROOM TEACHING IS INDICATED BY PEER EVALUATIONS OF COURSE MATERIALS, PEER EVALUATIONS OF TEACHING PERFORMANCE, AND THE RECURRING LEVEL OF ENROLLMENT IN CLASSES. QUALITY GRADUATE ADVISING IS INDICATED BY THE SUCCESS OF STUDENTS IN COMPLETING DEGREES UNDER THE FACULTY MEMBER'S SUPERVISION. FACULTY WILL BE RECOGNIZED FOR ADVISING GRADUATE STUDENTS WHO ARE NOT BASED IN SFOS IN THE SAME WAY THAT THEY ARE RECOGNIZED FOR

ADVISING GRADUATE STUDENTS WHO ARE BASED IN SFOS. ADDITIONAL EVIDENCE OF EFFECTIVE TEACHING AND MENTORING INCLUDES RESULTS OF STUDENT EVALUATIONS, PEER-REVIEWED PUBLICATION OF STUDENTS' THESIS OR DISSERTATION RESEARCH; STUDENT PRESENTATIONS AT REGIONAL, NATIONAL AND INTERNATIONAL MEETINGS; AND AWARDS TO STUDENTS.

RECOGNIZING THAT WORKLOAD ASSIGNMENTS VARY AMONG FACULTY MEMBERS THE GUIDELINE EXPECTATION IS THAT EACH CANDIDATE FOR TENURE AND PROMOTION TO ASSOCIATE PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST TWO SUCCESSFUL GRADUATE STUDENTS WHO HAVE COMPLETED DEGREES UNDER HER OR HIS SUPERVISION (AS COMMITTEE CHAIR OR CO-CHAIR). SIMILARLY, EACH FISHERIES FACULTY MEMBER WITHOUT A JOINT APPOINTMENT WHO IS A CANDIDATE FOR PROMOTION TO PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST SIX SUCCESSFUL GRADUATE STUDENTS UNDER HER OR HIS SUPERVISION. FISHERIES FACULTY WITH JOINT APPOINTMENTS WITH THE MARINE ADVISORY PROGRAM OR THE MUSEUM (FISH CURATION) WHO ARE CANDIDATES FOR PROMOTION TO PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST FOUR SUCCESSFUL GRADUATE STUDENTS UNDER THEIR MENTORSHIP. IN ADDITION, CANDIDATES FOR PROMOTION TO ASSOCIATE PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST TWO REGULARLY SCHEDULED COURSES THAT THEY HAVE DEVELOPED OR HAVE PRIMARY RESPONSIBILITY FOR DELIVERING AND WHICH ARE CENTRAL TO THE UNDERGRADUATE OR GRADUATE PROGRAM REQUIREMENTS.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate TO the mission of their unit, and equally importantLY, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries, selection for these exhibitions being based on rigorous review and approval by peers, juries, recognized artists, or critics.

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

FACULTY IN FISHERIES APPLYING FOR PROMOTION OR TENURE MUST PRESENT EVIDENCE OF SUBSTANTIAL, HIGH-QUALITY CONTRIBUTIONS IN RESEARCH. WHILE THERE IS NO SUBSTITUTE FOR THE EXERCISE OF GOOD JUDGMENT ON THE PART OF THOSE WHO ARE CALLED UPON TO ASSESS RESEARCH AND SCHOLARLY PRODUCTIVITY, IT IS THE RESPONSIBILITY OF EACH FACULTY MEMBER TO EXPLAIN AND/OR OTHERWISE PROVIDE EVIDENCE OF THE SIGNIFICANCE OF THEIR RESEARCH AND SCHOLARLY ACTIVITIES. THE VARIED NATURE OF RESEARCH AND SCHOLARLY CONTRIBUTIONS MAKE IT DIFFICULT TO IDENTIFY SIMPLE CRITERIA FOR ASSESSING THE QUALITY AND SIGNIFICANCE OF SUCH CONTRIBUTIONS. IN GENERAL, THE PRIMARY EVIDENCE OF HIGH QUALITY RESEARCH IS PUBLICATION OF RESEARCH RESULTS AND INTERPRETATIONS IN RESPECTED PEER-REVIEWED JOURNALS, BOOKS OR OTHER MEDIA AND EVIDENCE OF SUBSTANTIAL CONTRIBUTION TO RESEARCH IS PRIMARY AUTHORSHIP BY THE APPLICANT OR HIS OR HER STUDENT, OR LEADERSHIP AS PRINCIPAL INVESTIGATOR OF THE RESEARCH—QUALITY, AS JUDGED BY FISHERIES DIVISION FACULTY PEERS, IS MORE IMPORTANT THAN QUANTITY.

FISHERIES DIVISION FACULTY ARE EXPECTED TO AUTHOR AN AVERAGE OF AT LEAST ONE REFEREED PUBLICATION PER YEAR. THUS CANDIDATES FOR TENURE AND PROMOTION TO ASSOCIATE PROFESSOR ARE EXPECTED TO HAVE AUTHORED AT LEAST SIX REFEREED PUBLICATIONS; CANDIDATES FOR PROMOTION TO PROFESSOR ARE EXPECTED TO HAVE AUTHORED AT LEAST TWELVE REFEREED PUBLICATIONS. THESE EXPECTATIONS SHOULD BE INTERPRETED IN THE CONTEXT OF ACTUAL WORKLOAD AND ADJUSTED ACCORDINGLY.

EACH PROMOTION APPLICANT'S COMPLETE PUBLICATION RECORD, INCLUDING PAPERS PUBLISHED BEFORE THEY WERE AFFILIATED WITH THE UAF FISHERIES DIVISION, IS RELEVANT TO TENURE AND PROMOTION DECISIONS. IN ADDITION, THE NATURE OF THEIR WORKLOAD ASSIGNMENTS AND THEIR OPPORTUNITY FOR PUBLICATION THROUGHOUT THEIR CAREER LEADING UP TO THE REVIEW DATE IS CONSIDERED RELEVANT TO PROMOTION AND TENURE DECISIONS. THE STANDARD FOR TENURE, PROMOTION TO ASSOCIATE PROFESSOR, AND SATISFACTORY POST-TENURE REVIEW IS SATISFACTORY RESEARCH PERFORMANCE FOR THE PERIOD BEING EVALUATED. THE STANDARD FOR PROMOTION TO PROFESSOR IS SUSTAINED, EXCELLENT RESEARCH PERFORMANCE, RECOGNIZED NATIONALLY AND INTERNATIONALLY.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service". The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service".

UNIVERSITY AND PUBLIC SERVICE IS EXPECTED OF ALL FISHERIES FACULTY. PERTINENT SERVICE IS RELATED TO THE FACULTY MEMBER'S PROFESSIONAL EXPERTISE OR UNIVERSITY POSITION. SOME MEMBERS MAY HAVE GREATER OR LESSER THAN AVERAGE ASSIGNMENTS IN SERVICE AND THE EXPECTATIONS OF THEM SHOULD BE ADJUSTED ACCORDINGLY. HOWEVER, EXCEPT FOR FACULTY ON SABBATICAL LEAVE, THE GUIDELINE EXPECTATION IS THAT EVERY FACULTY MEMBER WILL SPEND AT LEAST ONE MONTH OF TIME ANNUALLY ON SERVICE RELATED ACTIVITIES REGARDLESS OF THEIR LEVEL OF RESEARCH AND TEACHING. SERVICE IS TYPICALLY LIMITED TO 5 UNITS (APPROXIMATELY 1.5 MONTHS) UNLESS OTHERWISE AUTHORIZED IN THE WORKLOAD PROPOSAL. SOME FACULTY IN THE FISHERIES DIVISION HAVE A LARGER THAN USUAL SERVICE COMPONENT, WHICH IS REFLECTED ON THEIR ANNUAL WORKLOAD. THE MIX OF PUBLIC, UNIVERSITY, PROFESSIONAL, AND OTHER SERVICE MAY ALSO VARY WITH THE FACULTY MEMBER'S FIELD OF EXPERTISE AND STAGE OF CAREER. SOME FACULTY MAY HAVE SUBSTANTIAL ADMINISTRATIVE OR SPECIAL ASSIGNMENTS THAT INCREASE THE SERVICE PORTION OF THEIR WORKLOAD.

1. **Public Service**

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. AMONG OTHERS, THESE CONSTITUENCIES INCLUDE MEMBERS OF FISHING COMMUNITIES, SEAFOOD INDUSTRY, AND OTHER FISHERY STAKEHOLDERS. It includes all activities that extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance OF the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth, INCLUDING ANSWERING QUESTIONS AND SOLVING PROBLEMS POSED BY THE PUBLIC AND THE INDUSTRY REGARDING FISHERIES, SEAFOOD SCIENCE AND MARINE RESOURCES.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. UNREMUNERATED Consulting IN THE FACULTY MEMBER'S AREA OF EXPERTISE AND DISCIPLINE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, SEMINARS or public INFORMATIONAL meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper or trade journal articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. **University Service**

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair, or term-limited and part-time assignment as assistant/associate dean in a college, school, OR PROGRAM.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. OTHER SERVICE: CURATION

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND THE UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY IN FISHERIES, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH, AND SERVICE.

CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:

a. MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);

b. INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;

c. FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;

d. MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);

e. SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

f. WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;

g. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;

h. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS;

i. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS AND INTERNATIONAL TREATIES AND AGREEMENTS THAT PERTAIN TO THE COLLECTION.

SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:

ASSISTANT PROFESSOR AND CURATOR

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

a. CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA, THE CIRCUMPOLAR NORTH, AND BEYOND AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.

b. COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.

   (I). CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.

   (II). CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.

   (III). CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGS OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.

   (IV). CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CURATION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.

c. CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA.

d. CURATORS WILL ACTIVELY SUBMIT GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

ASSOCIATE PROFESSOR AND CURATOR

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC, AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH MUST BE EVIDENT.

PROFESSOR AND CURATOR

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. HE OR SHE MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

5. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

EVIDENCE OF HIGH-QUALITY PERFORMANCE CAN INCLUDE SPECIFIC ACCOMPLISHMENTS RELATED TO THE SERVICE. SERVICE ON NATIONAL OR INTERNATIONAL BODIES IS EXPECTED OF CANDIDATES FOR PROMOTION TO PROFESSOR.

FOR FACULTY PROVIDING CURATION SERVICES, THE APPLICATION FOR PROMOTION SHOULD INCLUDE A LETTER PREPARED BY A COMMITTEE OF TENURED CURATORS AT THE MUSEUM. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

MOTION

The UAF Faculty Senate moves to approve a new Graduate Certificate in Science Teaching and Outreach (housed in the College of Natural Sciences and Mathematics).

EFFECTIVE: Fall 2014, with Board of Regents approval.

RATIONALE: The UAF 2010 Vision statement includes an emphasis on "linking research discoveries with teaching, service, and community engagement." UAF science graduate students are actively engaged in research, but have few opportunities to explore, understand, and engage in the teaching and service components of faculty workloads. When they do engage in teaching, they are sometimes under-prepared to do so. This program will enhance graduate student ability to teach laboratory sections of science courses, thus improving learning opportunities for undergraduates. The internship component of the proposed certificate will allow graduate students to link their research to university-level teaching and/or community engagement, including productive partnerships with Alaskan schools (SDI theme 2). In addition, the Vision 2017 Task Force recommends, among other things, that UAF "significantly expand internships, externships, and practicum opportunities for all students," and that UAF "emphasize development of career and employability skills throughout the UAF curriculum..." This certificate will allow graduate students to explore and gain hands-on experience with teaching. Earning such a certificate will make graduate students more marketable in the highly competitive job markets they will enter upon completion of their degrees.

The costs of this program are essentially administrative. The majority of the courses required for the certificate are already either permanent, taught as trial courses, or taught as special topics courses. No new resources are required. One of the goals of this certificate offering is to give students who are already enrolled in graduate degree programs in the natural sciences a tangible credential associated with completing several of these classes.

The full proposal, 35-GNP, is on file at the Faculty Senate Office, 312B Signers' Hall. It is also posted online at:
http://www.uaf.edu/uafgov/faculty-senate/meetings/2012-13-fs-meetings/#191

DISAPPROVED: _____ DATE: _____
Chancellor's Office

STATEMENT OF THE PROPOSED PROGRAM, ITS OBJECTIVES AND CAREER OPPORTUNITIES

We hereby propose a new graduate certificate in Science Teaching and Outreach, to be offered at the University of Alaska Fairbanks. Many science graduate students have demonstrated an interest in enhancing their teaching and outreach skills. In response, two courses and a seminar that meet this need have been developed and are currently offered. An additional course on mentoring has previously been offered, but not in the past year. The graduate certificate would package these courses, with the addition of an internship and two 1-credit seminars, to offer a formal credential to science students that are interested in enhancing their teaching skills. The certificate is expected to increase competitive ability in the higher education job market, as well as prepare students to be better communicators of their science.

Program Goals:

1) To provide students with a formal credential that documents their efforts towards enhancing their teaching, mentoring, and/or outreach skills
2) To better prepare future professionals for careers in science and engineering by increasing skill in teaching, mentoring, and/or community engagement
3) To increase student familiarity with pedagogical theory and best practices in teaching

NEED FOR PROGRAM

The need for improvements in how science and engineering graduate students are trained with respect to teaching and mentoring is well-documented (e.g. Committee on Graduate Education, 1998). Despite the multifaceted nature of responsibilities graduate students will have in their careers, most graduate programs in the sciences have not traditionally offered explicit training in teaching and mentoring (Pruitt-Logan et al. 2002). However, this trend is changing—as of 2009, about 45 institutions offered the option of earning a certificate in college teaching to their graduate students (Border and vonHoene, 2010). Some programs focus explicitly on preparing STEM faculty, while other programs are offered across disciplines. Science graduate students at other institutions who have participated in professional development programs related to teaching and learning have reported that their participation resulted in greater knowledge about teaching and learning, and a better understanding of faculty roles, compared to peers who have not had such training (Pruitt-Logan et al. 2002). Such training may enhance a candidate's marketability in higher education and in other science and engineering careers— in a national survey, hiring departments in a broad range of institutions placed high value on teaching readiness, as indicated by college-level teaching credentials (Benassi et al. 2001).

In addition, the certificate will prepare participants (in part) for the service component of faculty and other professional positions by requiring students to work with K-12 and public audiences. This experience should also increase student's ability to create meaningful broader impacts projects for federally funded grant proposals. Finally, participation in the coursework leading to the certificate is expected to have a direct impact on teaching skills in the short term. Because many science graduate students serve

as teaching assistants, this is expected to have positive outcomes for undergraduates taking science courses at UAF.

Proposed General Catalog Layout Copy of Program

Graduate Certificate in Science Teaching and Outreach

The certificate in science teaching and outreach is a voluntary program that prepares science graduate students for science careers that include teaching and/or communicating science to the public. It does NOT meet the requirements for earning a state teaching certificate and will not allow graduates to apply for certified positions in the K-12 school system. Such training will enhance readiness for college-level teaching by providing hands-on training and familiarity with pedagogical theory. The certificate is expected to increase competitive ability in the higher education job market.

Requirements for the Certificate:

1. Complete the general university requirements
2. Have a Bachelor's Degree from an accredited institution
3. Admission to a graduate science or engineering degree program at UAF (CNSM, SFOS, SNRAS, CEM), or prior completion of a graduate degree in the sciences or engineering.
4. Complete the following:

STO 666- Scientific Teaching 2
STO 601- Communicating Science 2
STO 602- Mentoring in the Sciences 2
STO 603- Instructional Design 1
STO 604- Internship 4

11 credits

5. Complete 1 of the following:

STO 692 – Current Topics in Scientific Teaching 1
MATH 600 – Mathematics Teaching Seminar 1
PHYS 605 – Physics Teaching Seminar 1

1 credit

PROGRAM TOTAL: 12 credits

University of Alaska
Proposal to Add, Change, or Delete a Program of Study

1a. Major Academic Unit (choose one) UAF	1b. School or College CNSM	1c. Department BIOL

2. Complete Program Title: Graduate Certificate in Science Teaching and Outreach

3. Type of Program

☐ Undergraduate Certificate ☐ AA/AAS ☐ Baccalaureate ☐ Post-Baccalaureate Certificate
☐ Master's ☒ Graduate Certificate ☐ Doctorate

4. Type of Action	5. Implementation date (semester, year)
☒ Add ☐ Change ☐ Delete	Spring, 2014

6. Projected Revenue and Expenditure Summary. Not Required if the requested action is deletion.
(Provide information for the 5th year after program or program change approval if a baccalaureate or doctoral degree program; for the 3rd year after program approval if a master's or associate degree program; and for the 2nd year after program approval if a graduate or undergraduate certificate. If information is provided for another year, specify (1st) and explain in the program summary attached). Note that Revenues and Expenditures are not always entirely new; some may be current (see 7d.)

Projected Annual Revenues in FY 15		Projected Annual Expenditures in FY 15	
Unrestricted		Salaries & benefits (faculty and staff)	$60,800
General Fund	$5,648	Other (commodities, services, etc.)	$
Student Tuition & Fees	$55,152	TOTAL EXPENDITURES	$60,800
Indirect Cost Recovery	$	One-time Expenditures to Initiate Program (if >$250,000)	
TVEP or Other (specify):	$	(These are costs in addition to the annual costs, above.)	
Restricted		Year 1	$
Federal Receipts	$	Year 2	$
TVEP or Other (specify):	$	Year 3	$
TOTAL REVENUES	$60,800	Year 4	$

Page # of attached summary where the budget is discussed, including initial phase-in: 16

7. Budget Status. Items a., b., and c. indicate the source(s) of the General Fund revenue specified in item 6. If any grants or contracts will supply revenue needed by the program, indicate amount anticipated and expiration date, if applicable.

Revenue source	Continuing	One-time
a. In current legislative budget request	$	$
b. Additional appropriation required	$	$
c. Funded through new internal MAU redistribution	$	$
d. Funds already committed to the program by the MAU[1]	$5,648	$
e. Funded all or in part by external funds, expiration date	$	$
f. Other funding source Specify Type:	$	$

8. Facilities: New or substantially (>$25,000 cost) renovated facilities will be required. ☐ Yes ☒ No

If yes, discuss the extent, probable cost, and anticipated funding source(s), in addition to those listed in sections 6 and 7 above.

[1]Sometimes the courses required by a new degree or certificate program are already being taught by an MAU, e.g., as a minor requirement. Similarly, other program needs like equipment may already be owned. 100% of the value is indicated even though the course or other resource may be shared.

9. Projected enrollments (headcount of majors). If this is a program deletion request, project the teach out enrollments.

Year 1: 6	Year 2: 12	Year 3: 12	Year 4: 12

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

MOTION:

The UAF Faculty Senate agrees to the discontinuation of the Minor in Leadership and Civic Engagement (housed in the College of Liberal Arts, Northern Studies Department).

EFFECTIVE: Fall 2014

RATIONALE: The Northern Studies Department cites lack of student demand and lack of program and faculty resources as reasons they wish to discontinue this program. The School of Management's Northern Leadership Center has been in contact with the Northern Studies Department about this discontinuation, and the Northern Leadership Center will be undertaking development of a new minor in Leadership.

****

Jennifer L. Reynolds
President, UAF Faculty Senate

APPROVAL: _____ DATE: 5/7/13
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Background and Information:

The program was built on introductory and capstone courses within Northern Studies and electives taught by the Political Science and History departments and Rural Development Program. Subsequently the Minor was required for the Bachelors in Emergency Management,

but the School of Management no longer requires the Minor in Leadership and Civic Engagement.

Northern Studies has had so few students taking the minor (with none in the past few years) that deleting the program will not affect History, Political Science or Rural Development. It will take a program off the books that has not been in demand for several years.

The last time the introductory course was taught, the instructor was not paid for teaching it. The capstone course was taught five times as an individual study. Deleting the minor recognizes the reality that there is no demand for this program as presently constituted and CLA and Northern Studies do not have the capital or human resources to devote to this program.

The last time a student graduated with this minor was in 2008. While the faculty associated with the program had envisioned the program would grow and they would receive additional funding to deliver it, this never materialized.

The UAF Faculty Senate passed the following resolution at Meeting #191, May 6, 2013:

RESOLUTION

The UAF Faculty Senate resolves that the Administrative Committee address incidents of sexual harassment at the UAF as exemplified by recent issues of the UAF Sun Star.

Motivation and background

- The Faculty Senate has learned of two offensive articles published in April editions of the UAF student newspaper Sun Star (not an official publication of UAF). A UAF faculty member has charged that these articles constitute sexual harassment.
- Having the Faculty Senate Administrative Committee look into how they might address this matter now rather than in the fall will ensure the matter is not forgotten.

****

President, UAF Faculty Senate

Resolution referred back to committee.
The UAF Faculty Senate passed the following at Meeting #191, May 6, 2013:

RESOLUTION

The UAF Faculty Senate recommends that the current UA system regulation concerning General Education Requirements (GER) for Baccalaureate Degrees (R.10.04.040) be modified to allow for two 5-credit courses in a single non-English language to count toward fulfilling any six of the 15 credits required for the Social Sciences/Humanities/Arts section of the GER.

Motivation and background

- UAF currently does this, probably in violation of UA system regulations. It would be great to clearly be in compliance with UA regulations.
- Doing so will continue to encourage undergraduate students to gain at least modest familiarity with a language other than English.

****

President, UAF Faculty Senate

Tabled
sent back to committee

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #190, April 1, 2013:

MOTION:

The UAF Faculty Senate moves to approve establishment of a central online collection of expanded course descriptions for all UAF courses, using the template provided below. Any changes to the template must be approved by the UAF Faculty Senate. Access to the online collection of expanded course descriptions shall be restricted to the University of Alaska community through a UA login.

This motion supersedes the Faculty Senate motion of October 12, 2009 (Meeting #161) to establish a single website containing sample syllabi for UAF courses.

EFFECTIVE: Immediately.

RATIONALE: Course descriptions in the official UAF catalog are limited to 50 words or less, and there are legal and logistical impediments to longer catalog entries. A centralized online collection of expanded course descriptions will assist students and advisors with course selection based on academic considerations by providing easy access to more detailed information. Discussions in the Faculty Senate and a faculty-wide survey in February 2013 have indicated strong support for this. The survey also indicated a clear preference for posting expanded course descriptions rather than syllabi, and for a restricted-access site.

The template makes use of required elements in a UAF course syllabus, so that most of it can be filled in by simple cut-and-paste from a syllabus. Several additional entries require interpretation of the syllabus or reference to the catalog, but are simple enough that including them should not pose a problem. It should be quick and straightforward to create and update expanded course descriptions using a current syllabus. Some courses are taught by several instructors, but only one expanded course description would be needed because the elements in it should be consistent among instructors.

EXAMPLE #1

Course Title: Omlet Design and Fabrication

Course Number: EGG F637

Designator: none

Credits: 3

Course Format: face-to-face

Lab: no

Prerequisites: EGG 601 (Molecular Gastronomy) and CHEM 451 (Biochemistry--Metabolism)

Course Description:
This is a graduate level course in the design, analysis, and synthesis of the beaten-egg cooked foodstuff known variously as an omelet or omelette. This is a required core course in the Master of Egg degree program, but can be taken as an elective by interested graduate students in related fields. In addition to basic cooking knowledge, a detailed understanding of molecular gastronomy (EGG 601) and metabolic foodstuff processing (CHEM 451) is required to understand the relationships between chemical transformations and crispiness.

Course Goals:
Generally, we will cover the detailed molecular transformations obtained in beating and frying eggs, primarily the effect of anhydrous heat on eggs and yolk, and the determination of the optimal trade-off in cooking times, from blackened Cajun style through tepid and runny.

Student Learning Outcomes:
After completing this course, students will be able to:

- Explain how heat denatures protein chains in egg yolk and whites.
- Explain the effect of glucose-6-phosphate dehydrogenase on ingested lipids.
- Use this knowledge to cook a truly spectacular omelet.

Grading: letter grade

Date of Entry: February 26, 2013

EXAMPLE #2

Course Title: History of Earth and Life

Course Number: GEOS F112

Designator: none

Credits: 4

Course Format: face-to-face

Lab: yes

Prerequisites: GEOS 101 or GE 261

Course Description:
Historical geology is about evolution. This course will explore the evolution of planet Earth and the degree to which geological and biological processes have influenced each other throughout the history of our planet. This is a subject that is deeply concerned with time - large amounts of time. Geological events are typically measured in millions or billions of years. This time scale, *geologic time*, vastly transcends human experience. Events that are exceedingly rare during a human lifetime may be frequent and

inevitable at geological time scales. If you take this course seriously, it will change your frame of reference to incorporate a sense of geologic time, a concept that will transform your understanding of the landscape, the biota, and your place in history.

Course Goals:
The primary mission of this course is to provide you will the tools and skills necessary to reconstruct physical and biological events that occurred deep in Earth's past. To meet this goal, there are three primary course objectives: 1) Explore the ways in which plate tectonics, erosion, and climate change modify the size and topography of continents, using North America as the prime example. 2) Examine the sequence of organic evolution, from the triumphant trilobite to the mighty mammoth. 3) Understand the interrelationships between physical and biological processes and events

Student Learning Outcomes:
Ultimately, you will learn to think like a historical scientist. Labs will allow you to practice interpreting geological data (rocks and fossils) and using basic tools (maps and microscopes), while class discussions and homework assignments will encourage you to think critically. Upon completing this course, you will be able to:

- Use sedimentary rocks to reconstruct past climates and environments
- Identify fossil organisms and use them to reconstruct past habitats
- Reconstruct the tectonic and climatic history of a region based on a geologic map
- Explain the origin of the major physiographic features of North America
- Outline major "breakthroughs" in the history of life on Earth
- Evaluate historical data in terms of quality, reliability, and interpretation
- Investigate a geological topic and display your findings on a poster

Grading: letter grade

Date of Entry: February 26, 2013

EXAMPLE #3

Course Title: Fundamentals of Media Design and Web Tools 2.0

Course Number: ED F432

Designators: none

Credits: 3

Course Format: online

Lab: no

Prerequisites: GEOS F101 or GE F261

Course Description:
Create and publish materials with proper media design for use in teaching and learning. Topics include photo and graphics formatting, video production, video podcast production, SMART technologies, static screen capture, motion screen capture, and analyze for educational content. These productions will be included on the students' MITI eportfolios. This course is a prerequisite for subsequent MITI courses and should be taken after or concurrently with ED 431 Web 2.0 Fundamentals: Participate, Produce, Publish. It is expected that this course will take 135+ hours to complete.

Course Goals:
This course supports the UAF School of Education's mission by providing students with the skills necessary to design thoughtful individualized instructional environments utilizing technologies and strategies appropriate to all learners. Students will acquire skills in the management and implementation of technology that will enhance their professional qualifications based on ISTE and Alaska teacher standards for technology and instructional design.

Student Learning Outcomes:
Students in the course will:

- Capture and manipulate photos in proper format for print, computer display and web publication.
- Create and publish video productions with multiple elements and in correct format.
- Create, publish and video podcasts for educational content.
- Create and publish SMART presentations and incorporate available presentations
- Create, publish, and print tutorials using static screen captures and analyze for educational content.
- Create, publish, and analyze video tutorials using motion screen captures.

Grading: letter grade

Date of Entry: February 26, 2013

The UAF Faculty Senate passed the following at Meeting #190, April 1, 2013:

MOTION:

The UAF Faculty Senate moves to affirm the election of Cecile Lardon as the Faculty Senate President-Elect for 2013-2014.

EFFECTIVE: Immediately

RATIONALE: A single nomination has been received for the President-Elect position; therefore, a secret ballot election need not be held. A simple majority vote will suffice.

****

President, UAF Faculty Senate

****

PERSONAL STATEMENT OF THE NOMINEE:

Cécile Lardon, Ph.D., Associate Professor of Psychology

I came to Fairbanks and to UAF in 1999 after earning an M.A. and Ph.D. in community and organizational psychology at the University of Illinois at Chicago (UIC). I was a member of the Psychology Department for the first 13 years at UAF but joined the Sociology Department this year where I currently serve as the interim department chair. I have long been interested in organizational and community change and in leadership. While at UIC I worked at the Institute of Government and Public Affairs where I participated in organization development and strategic planning with government and not-for-profit agencies. My dissertation was on organizational cultures in state psychiatric hospitals. In Alaska I have worked with Alaska Native communities on health issues. A multi-year NIH funded project aimed to develop a community development approach to health promotion by designing a culturally based planning and evaluation process and then developing local expertise, infrastructure and processes to support that project plan.

I have served on the Faculty Senate for a total of 5 years: My first term in 2005/06 ended prematurely when I needed to take on the role of department chair in the Psychology Department. More recently I have served two full terms. My Faculty Senate committee work has included the Committee on the Status of Women (1 year) and the Faculty Affairs Committee (4 years) which I have chaired this year.

Participating in governance has always been a priority for me. I grew up in Germany in the 60s and 70s as part of the second post-WWII generation. Being an active and critical member of

one's society was a strong societal value that has shaped my life since. I strongly believe in the importance of shared governance in the academy. And to make that work faculty need to be active, informed, and critical participants. Although there are many ways for faculty to participate in the affairs of the university, the Faculty Senate is the main venue for faculty to shape policies and help set priorities that affect our work. To be an effective body the Senate needs to draw on the perspectives and talents of all its members. It also needs to take an active role in developing its future leaders. Serving as Faculty Senate President during a time of high levels of general disengagement and cynicism among the faculty can certainly be a challenge but I also see it as an opportunity to bring new interest in and attention to the issues the Senate deals with. I feel honored to have the opportunity to participate in the Senate's crucial role as a credible and forward thinking partner in university governance.

The UAF Faculty Senate passed the following at Meeting #190, April 1, 2013:

MOTION:

The UAF Faculty Senate moves to approve the new Bachelor of Arts in Secondary Education with Content Area.

EFFECTIVE: Fall 2014, with Board of Regents approval.

RATIONALE: Alaska has a chronic need for teachers. This proposed new major provides a structured path, within a baccalaureate degree, for a student to gain the complete education necessary to become a secondary education teacher in the State of Alaska. The program is structured to improve access to interested students and to increase availability of qualified and successful secondary school teachers in Alaska, particularly in rural Alaska. The additional cost of this program is essentially administrative, with no new courses or faculty required, but the likely benefits are considerable.

Currently a student intending to become a secondary educator earns a baccalaureate degree in a subject area and then undergoes 1-2 years of post-baccalaureate teacher training. There are numerous disadvantages to this approach, including extremely limited financial aid for the post-baccalaureate training and a disconnect between studying the major subject and learning to teaching that subject. The new approach addresses these problems by enrolling the student in a unified, integrated double major in Secondary Education combined with a major in an approved Secondary Education field (English, Mathematics, Art, Biology, etc.).

Other advantages of the proposed program stem directly from identification of interested students early in their career at UAF. These students interact with (and provide moral support to) each other and establish long-term working relationships with the secondary education faculty. Further, through integration of their education coursework and their major they receive consistent encouragement in their intended career path. Finally, through their continuous interaction with the secondary education faculty they receive encouragement to pursue careers in secondary education in rural Alaska.

This program addresses UA's Strategic Direction Initiatives, specifically SDI Theme 2: *Productive Partnerships With Alaska's Schools*, Topic 2.c *Teachers for Alaska Schools*. In particular, the program will address SDI through (1) improving teacher education, (2) providing greater incentives for Alaskan students to teach in rural communities, and (3) providing greater opportunities for incoming Alaskan minority educators. The program is also likely to result in the desired SDI effects of (1) high-quality UA-educated teachers, (2) a greater proportion of UA-educated Alaskan new teacher hires, and (3)-better retention of students interested in a career in secondary education.

The full program proposal, #31-UNP (revised) from the Fall 2012 review cycle, is available at http://www.uaf.edu/uafgov/faculty-senate/committees/curriculum-review-committ/12-13-curric-review/

STATEMENT OF THE PROPOSED PROGRAM, ITS OBJECTIVES AND CAREER OPPORTUNITIES

New Degree Request

The University of Alaska Secondary Education Department prepares teachers for 7-12 grade classrooms. The program's aim is to develop teachers who can demonstrate through standards-based, performance assessment that they will be effective teachers for all students. The primary mission is to provide teachers for the unique environments of Alaska's urban and rural communities. This will be a truly unique degree program as it is the only BA degree that requires a double major. In order for students to be certified by the State of Alaska, they need to complete a teacher education program as well as a content major for which they will be endorsed on their certificate. This double major results in more than 120 credits, which is the minimum number of credits for a degree in a content area. However, a student cannot be certified unless they have an accompanying content major along with the secondary education major.

The Alaska Content/Performance and Cultural Standards for school students are the foundations of education for children in Alaska. The Standards for Alaska Teachers adopted by the Department of Education and Early Development are recognized as indicators of successful teachers. The goal of the Secondary Education Department is to develop teachers who successfully incorporate Content/Performance and Cultural standards into their instruction and who successfully meet all Standards for Alaska Teachers.

To assist in meeting state mandated standards, the effective preparation of teachers requires participation of university faculty and master practitioners actively involved in the teaching profession. Currently, the secondary program involves collaborative partnerships among districts, schools and the university. It draws upon the expertise of public school teachers who serve as mentors throughout the academic year. The program seeks to build a collaborative learning community between the university and secondary faculties from schools throughout the state.

Students in the secondary teacher preparation program are assessed relative to state and national standards, including National Council for Accreditation of Teacher Education (NCATE) standards, the Alaska Teacher Standards, Alaska Content Standards, Alaska Standards for Culturally Responsive Schools and standards relative to academic specialty organizations (i.e. National Council of Teachers of English, National Council of Teachers of Mathematics, National Council of Social Studies, National Science Teachers Association, American Council on the Teaching of Foreign Languages).

Specific Objectives of the new baccalaureate degree are:

1. To provide a teacher certification program that can be completed concurrent with an undergraduate degree.

2. To provide undergraduate teacher certification course work leading to a baccalaureate degree that includes both academic and classroom internship requirements necessary to meet NCATE Standards, standards of academic specialist areas, Alaska Teacher Standards, and Alaska Standards for Culturally Responsive Schools through close and on-going collaboration with districts and schools in urban and rural Alaska.

3. To provide an undergraduate teacher certification degree that responds to the State of Alaska's critical need for more teachers who are prepared to successfully teach in linguistically and culturally diverse schools.

The central components of the new baccalaureate degree include:

1. Identified undergraduate majors in content areas suitable for public school teaching that can be completed concurrently with education courses leading to teaching certification.

2. Early, appropriate and consistent advising of students who seek to enter the teaching profession in an identified content area.

3. An integrated set of education courses and fieldwork experiences in school and community contexts throughout the degree offering to provide the foundation for a successful internship.

4. A year-long school internship with a mentor teacher with concurrent enrollment in professional coursework that focuses on the integration and application of theory, research and practice in both urban and rural school environments.

Career Opportunities

There are unlimited career opportunities for secondary teachers in the State of Alaska, as well as nearly every other state in the United States. This program is designed to help fill the hundreds of positions in the State of Alaska open every year to qualified teachers that are currently filled by candidates from outside the State. Existing and predicted shortages of teachers are well documented in the Alaska Department of Education and Early Development, in the Alaska Teacher Placement Office and in the U.S. Office of Education.

Description of the Program

1. Program title B.A., Secondary Education; Content Area (e.g. English, history, biology, mathematics)

2. Credential level of the program, if appropriate Secondary (7-12) Teacher Licensure

3. Admission Requirements

-Complete the general university requirements.
- Complete the B.A. degree requirements.
- Enrollment in a major in a content area usually taught in public schools AND enrollment in a major in secondary education.

Admission to professional year

a) Senior standing
b) 2.75 Minimum grade point average
c) Three current letters of reference that address potential as a teacher
d) *A personal statement of 500-800 words addressing motivation to enter the teaching profession, self-assessed qualifications to teach, experiences which have prepared candidate for teaching.
e) Alaska passing scores from the Praxis I exam in reading, writing and mathematics
f) Academic Content Testing
Content Area Exams: Candidates must submit a score report from the relevant content knowledge Praxis II Subject test for each content area the applicant expects to teach. The scores must meet the score set by the State of Alaska (www.eed.state.ak.us/TeacherCertification/pdf/Content_Area_Exams_2008.pdf)
World Language Exams: Applicants applying to teach a World Language are required to submit Praxis II scores in the target language AND are required to submit scores for the ACTFL Oral Proficiency Interview (OPI) and Writing Proficiency Test (WPT). Applicants must meet the Advanced Low rating for both tests (www.languagetesting.com).
g) An extemporaneous writing sample
h) Interview with secondary faculty.

Each candidate is evaluated based on the above requirements. Each candidate must receive acceptable rating on each of the criteria and be interviewed by three faculty members prior to being accepted into the professional year. The entire faculty meets and either approves the candidate or rejects the candidate. In rare cases the candidate may be provisionally admitted with areas needing strengthening.

4. Course descriptions of required and recommended elective courses.

These required education courses are currently available through face-to-face delivery on the Fairbanks campus and through a variety of distance delivery modes (synchronous/asynchronous or a combination). Courses have been developed as part of an overall program that connects theory and practice and sufficiently grounds prospective teachers in pedagogical theory and classroom practice.

Content course selections are designed to both meet the requirements for specialty organizations and NCATE and to fulfill requirements for content area majors.

Proposed General Catalog Layout Copy of Program

Bachelor of Arts Secondary Education; Content Area (e.g. English, history, biology, mathematics)
The requirements for a secondary school teaching certificate include completion of both a teaching major in an academic subject area appropriate to the secondary school and the professional education sequence. The degree is awarded as a B.A. with a double major.

Upon declaration of a major in secondary education, students are assigned an advisor in the Education Department to plan the completion of the teaching major and the education sequence of courses.

Teaching Majors
The teaching major must be in an academic subject area approved for a State of Alaska secondary school teaching certificate and available as a B.A. degree: art, biology, chemistry, earth science, economics, English, French, German, history, mathematics, political science, or Spanish.

Course work provides students on the Fairbanks campus and in distance sites with the experience necessary to be eligible for a secondary teacher license. The integrated of content major degree requirements and secondary education degree requirements are designed to prepare students to meet standards that recognize, respect and build upon Alaska's cultural, linguistic and geographic factors.

· Complete the following secondary course work:
EDSC F110—Becoming a Middle School/High School Teacher (1)
EDSC F407--Reading Strategies for Secondary Teachers (3)
EDSC F414--Learning, Development and Special Needs Instruction (3)
or EDSE 422 – Curriculum and Strategies II: High Incidence (3)
or EDSE F482 Inclusive Classrooms for All Children (3)
EDSC F205--Introduction to Secondary Education (3)
or EDSC F415--Foundations of Modern Educational Practices (3)
EDSC F458--Classroom Organization and Management (3)

Must be admitted to the Professional year
EDSC F402--Methods of Teaching in the Secondary School (3)
EDSC F442 --Technology Applications in Education I (1)
EDSC F443--Technology Applications in Education II (2)
EDSC F457--Multicultural Education and School-Community Relations (4)
EDSC F471--Secondary Teaching: School Internship I and Seminar (3)
EDSC F472--Secondary Teaching: School Internship II and Seminar (3-9)
One of the following
EDSC F432--English/Language Arts Secondary Instruction and Assessment (3)*
or EDSC F433--Mathematics Secondary Instruction and Assessment (3)*
or EDSC F434--Science Secondary Instruction and Assessment (3)*
or EDSC F435--Social Studies Secondary Instruction and Assessment (3)*
or EDSC F436--Art Secondary Instruction and Assessment (3) *
or EDSC F437—World Language Secondary Instruction and Assessment (3) *
**Candidates must take the section or course that corresponds with their major teaching content areas*

Complete requirements for a major in content area: art, biology, chemistry, earth science, economics, English, French, German, history, mathematics, political science, or Spanish.

Restricted		Year 1	$-0-
Federal Receipts	$-0-	Year 2	$-0-
TVEP or Other (specify):	$-0-	Year 3	$-0-
TOTAL REVENUES	$-0-	Year 4	$-0-

Page # of attached summary where the budget is discussed, including initial phase-in: **30**

7. Budget Status. Items a., b., and c. indicate the source(s) of the General Fund revenue specified in item 6. If any grants or contracts will supply revenue needed by the program, indicate amount anticipated and expiration date, if applicable.

Revenue source	Continuing	One-time
a. In current legislative budget request	$-0-	$-0-
b. Additional appropriation required	$-0-	$-0-
c. Funded through new internal MAU redistribution	$-0-	$-0-
d. Funds already committed to the program by the MAU[1]	$-0-	$-0-
e. Funded all or in part by external funds, expiration date	$-0-	$-0-
f. Other funding source Specify Type:	$-0-	$-0-

8. Facilities: New or substantially (>$25,000 cost) renovated facilities will be required. ☐ Yes x☐ No
If yes, discuss the extent, probable cost, and anticipated funding source(s), in addition to those listed in sections 6 and 7 above.

[1]Sometimes the courses required by a new degree or certificate program are already being taught by an MAU, e.g., as a minor requirement. Similarly, other program needs like equipment may already be owned. 100% of the value is indicated even though the course or other resource may be shared.

9. Projected enrollments (headcount of majors). If this is a program deletion request, project the teach out enrollments.

Year 1: 15	Year 2: 15	Year 3: 20	Year 4: 20

Page number of attached summary where demand for this program is discussed: **17**

10. Number* of new TA or faculty hires anticipated (or number of positions eliminated if a program deletion):

Graduate TA	None
Adjunct	None
Term	None
Tenure track	None

11. Number* of TAs or faculty to be reassigned:

Graduate TA	None
Adjunct	None
Term	None
Tenure track	None

Former assignment of any reassigned faculty:
For more information see page of the attached summary.

12. Other programs affected by the proposed action, including those at other MAUs (please list):

Program Affected	Anticipated Effect	Program Affected	Anticipated Effect
Teacher education programs at other MAU's.	Some students may be attracted to the Fairbanks campus because of the offering, however the impact to other campuses is likely to be minimal. It is anticipated that the highest number of recruitments will be from rural areas currently served by UAF.	Departments at UAF that offer content majors suitable for teaching (math, English, sciences, history)	Departments may see an increase in enrollment if students choose UAF becau of the baccalaureate degree leading to a degree and teacher license.

Page number of attached summary where effects on other programs are discussed: 20, 22

13. Specialized accreditation or other external program certification needed or anticipated. List all that apply or 'none':
National Council for Accreditation of Teacher Education (NCATE).
(As of January 1, 2013, NCATE will be called Council for the Accreditation of Educator Preparation (CAEP).

14. Aligns with University or campus mission, goals, core themes, and objectives (list):
Educate undergraduate students.
Prepare: Alaska's Career, Technical and Professional Workforce
Connect: Alaska Native, Rural, and Urban Communities through Contemporary and Traditional Knowledge
Engage: Alaskans via Lifelong Learning, Outreach, and Community and Economic Development

Page in attached summary where alignment is discussed: 1, 2, 14, 15, 25. 26

15. State needs met by this program (list):

The Institute for Social and Economic Research 2011 report "Alaska's University for Alaska's Schools, "indicates that 28% of all teachers statewide are prepared in the UA system. Research shows that teachers trained in Alaska stay longer, which means better continuity, especially in the rural areas. More continuity means higher achievement. The need for secondary teachers is significantly more pronounced than that for elementary teachers.

Page in the attached summary where the state needs to be met are discussed: **page 18, 19, 25**

16. Program is initially planned to be: (check all that apply)

x☐ Available to students attending classes at campus(es).
x☐ Available to students via e-learning. **All EDSC courses available by e-learning.**

X☐ Partially available students via e-learning. **Not all content degree courses are available by e-learning.**

Page # in attached summary where e-learning

	is discussed: **25**

The UAF Faculty Senate passed the following at Meeting #190, April 1, 2013:

MOTION:

The UAF Faculty Senate moves to confirm the nomination of Cynthia Hardy for the 2012-2013 Outstanding Senator of the Year Award.

EFFECTIVE: Immediately

RATIONALE: The selection committee has carefully reviewed the nominations according to the award criteria, and forwards the nomination of Cynthia Hardy as Outstanding Senator of the Year for confirmation by the Faculty Senate. Procedure stipulates that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting.

****

Jennifer A. Reynolds

President, UAF Faculty Senate

The UAF Faculty Senate **tabled** the following resolution at Meeting #190, April 1, 2013:

RESOLUTION:

The UAF Faculty Senate recommends that the process of post-tenure performance review of UNAC-represented faculty be modified to eliminate levels of review above that of the dean in cases where both the unit peer committee and the dean have judged the performance to be satisfactory. Review by a university-wide committee and by the Provost should be required if either the unit peer committee or the dean rates performance as unsatisfactory in two of the three areas (teaching, research, service), or if either rates performance as unsatisfactory in one area if that area is the main part of the faculty member's workload.

RATIONALE: According to the Collective Bargaining Agreement (CBA) between the University of Alaska and United Academics, in effect between January 01, 2011 - December 31, 2013: "The post-tenure review process is generally intended to be a formative rather than a summative process of faculty evaluation, focused on faculty development. It is not intended to be the equivalent of the probationary evaluation of tenure track faculty. At the same time the process should review and encourage progress toward promotion where applicable, ongoing development, scholarship and productivity." The post-tenure reviews also serve to identify faculty whose performance is unsatisfactory. The CBA states that "Unit members who receive an unsatisfactory comprehensive post-tenure review shall be ineligible for market and merit salary adjustments until they receive a satisfactory outcome in a subsequent post-tenure review."

The current system of full university-wide review of post-tenure files by a committee of full professors is costly in terms of effort, yet for several reasons these university-wide reviews are useful in only a small number of cases. First, approximately 35 post-tenure reviews are conducted each year at UAF and typically just 0-3 are rated unsatisfactory overall. This low number is expected in light of the fact that tenured faculty have already undergone rigorous review for tenure and promotion, and nearly all continue a high level of performance after tenure. Second, for the stated purpose of faculty development, the portions of the post-tenure reviews that are most useful to the faculty are the reviews at unit peer and dean levels. Third, the need for a university-wide review committee composed of full professors draws experienced faculty away from the university-wide committees on 4th Year Reviews and Promotion & Tenure, where their advice would be more effective.

To fulfill the purpose of post-tenure review, in most cases review by a unit peer committee and the dean will be sufficient. Review by a university-wide committee and the Provost can be reserved for cases in which the results at those levels indicate a possible unsatisfactory rating overall, without compromising the goal of post-tenure review. Results at the unit peer and dean rankings can be used to identify these files. The recommended trigger of an unsatisfactory rating in two of three areas (teaching, research, service) or an unsatisfactory rating in the main area of the faculty member's workload, by either the unit peer committee or the dean, is based on UAF experience. Focusing on these files would be a more productive use of university resources and would not compromise the purpose of post-tenure review.

Modification of the post-tenure review process will require a change in the CBA because the current CBA requires that comprehensive post-tenure review must include review by MAU Peer Review Committees (at UAF, the university-wide review committees).

The Faculty Senate resolution will be forwarded to the UAF administration and to United Academics. We will request that Labor Relations negotiate an MOA to permit this change under the current CBA, and also request that the change be incorporated into the next CBA.

****

President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #189, March 4, 2013:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the Unit Criteria Committee, Section 3, Article V: Committees, subsection E3, (page 17). This amendment updates the list of units and adds representation from the research institutes and the library. The amendment also allows for more flexibility in the final composition of the committee, while maintaining wide representation.

EFFECTIVE: Immediately

RATIONALE: The list of units is out of date and it does not include the research institutes, or the library.

****

BOLD CAPS = Addition
[[ ]] = Deletion

E. The standing and permanent committees of the Senate are:

STANDING

3. The Unit Criteria Committee will review proposed unit criteria for evaluation of faculty submitted by the various peer-review units of UAF, and [[to]] **WILL** work with the heads of those units (or their designees) to ensure that their criteria are consistent with criteria defined in the UAF Faculty Appointment and Evaluation Policies and Regulations "Blue Book". The committee will also review proposed changes to the "Blue Book."

To ensure that perspectives from across UAF are represented, membership will consist of [[faculty senators, with]] **AT LEAST FIVE SENATORS, ONE EACH FROM THE FOLLOWING FIVE** schools/colleges: CLA, [[CRA]] **CRCD**, [[CES]], [[CSEM]] **CNSM**, SFOS, [[Engineering]] and **CEM; and AT LEAST** one from CES, SNRAS, [[SoEd,]] **SOE**, SOM, **OR LIB; AND AT LEAST ONE SENATOR WHO HAS AN APPOINTMENT WITH A RESEARCH INSTITUTE.**

FINAL COMPOSITION OF THE UNIT CRITERIA COMMITTEE WILL BE APPROVED BY THE FACULTY SENATE ADMINISTRATIVE COMMITTEE.

****

President, UAF Faculty Senate

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #189, March 4, 2013:

MOTION:

The UAF Faculty Senate moves to amend grading policy concerning the grade of C, such that C- (1.7) shall be the minimum acceptable grade that baccalaureate students may receive for courses to count toward the major or minor degree requirements, or as a prerequisite for another course.

EFFECTIVE: Fall 2013

RATIONALE:

1. Consistency with the past. Before +/- grades, a 'C-' was acceptable because a 'C-' was simply a version of C
2. Consistency with faculty who do not use +/- grades. A student who receives a 'C-' from a faculty member who does not use + is ok because that grade gets recorded as a 'C'. Same course, different teacher, this one does use + and the grade is not acceptable.
3. Consistency with BOR policies. BOR defines a C as an acceptable grade. Clearly a 'C-', which is a version of C, also should be acceptable.
4. Consistency with transfer policies: a course with a grade of C- transfers. However, currently it only transfers as 'credit' for a course in one's major or minor. In order to satisfy the requirement for the major or minor the course would need to be re-taken and a grade of C or higher received.
5. A grade of C- is the minimum acceptable for a 'core' course. This is confusing for students, who recognize that sometimes a C- is good enough, and sometimes not.

Note that the proposed change wouldn't change the fact that a student's overall GPA and GPA in the major must be a minimum of 2.0.

****

Jennifer R. Reynolds
President, UAF Faculty Senate

APPROVAL: _____ DATE: 5 March 2013
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #189, March 4, 2013:

MOTION:

The UAF Faculty Senate moves to revise the Faculty Senate Bylaws of the University of Alaska Fairbanks, Sect. 1, Article III: Membership, Sections C and D. This revision adds a statement specifying that elections are held in the spring. It also adds a subsection allowing a special election to be held if, and only if, a senator cannot complete his/her term and no alternate is available to represent the affected unit.

EFFECTIVE: Immediately.

RATIONALE: The bylaws currently do not state when elections are to be held – only when terms begin. There is also no bylaw regulating situations where no alternate is available to replace a senator who can no longer serve.

****

BOLD CAPS = Addition
[[ ]] = Deletion

Senate Bylaws:

Sect. 1 (ART III: Membership)

C. Election Procedure

1. Election shall be conducted by the represented units, or by the Senate office for any conglomerate groups to provide representatives to the Senate according to Article III of the Senate Constitution. Elections **ARE TO BE HELD DURING THE SPRING SEMESTER** and election procedures are the responsibility of the units, subject to the following:

D. Vacancies

1. In the case of death, resignation, transfer, or other reason why an elected representative can no longer represent the unit, an alternate shall immediately become the representative. The president of the Senate will appoint a replacement from among the unit's elected alternates with the concurrence of the affected constituency and the consent of the Administrative Committee.

2. IF NO ALTERNATE IS AVAILABLE TO REPLACE THE DEPARTING SENATOR THE AFFECTED UNIT MAY HOLD A SPECIAL ELECTION TO REPLACE THAT SENATOR. THIS SPECIAL ELECTION MUST BE HELD WITHIN 30 DAYS OF THE LAST DAY THE DEPARTING SENATOR SERVED. ALL POLICIES AND PROCEDURES GOVERNING REGULAR SENATE ELECTIONS APPLY TO THESE SPECIAL ELECTIONS.

****

Jennifer R. Reynolds
President, UAF Faculty Senate

The UAF Faculty Senate passed the following at Meeting #189, March 4, 2013:

MOTION:

The UAF Faculty Senate moves to revise the Grade Appeals Policy of the University of Alaska Fairbanks Faculty Senate, Section III: Procedures, Article B, Subsection 5. This revision clarifies the time period within which grade appeals will be reviewed.

EFFECTIVE: January 2013

RATIONALE: As currently stated the policy makes it possible for a grade appeal to be received during the summer when many faculty are off contract. Depending on the department and program it may be difficult to find enough faculty to serve on a grade appeal committee during those summer months. The proposed revisions allow for a more flexible time period for processing grade appeals submitted during the summer.

****

BOLD CAPS = Addition
[[ ]] = Deletion

Sect. III (Article B: Procedures)

III. Procedures

B. If no such error occurred, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and satisfaction is not forthcoming from the appropriate department chair.

1. This review is initiated by the student through a signed, written request to the department chair with a copy to the dean of the college or school in which the course was offered.

a. The student's request for review may be submitted using university forms specifically designed for this purpose and available at the Registrar's Office.

b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration can not influence or affect the outcome of the review.

c. The request for a review must be received **ON OR BEFORE THE 30TH DAY OF INSTRUCTION OF [[**WITHIN 30 CLASS DAYS AFTER THE BEGINNING OF**]]** the next regular semester (i.e., fall semester for grade issued at the end of the

previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester **OR WINTERMESTER**) or within 5 days of receipt of notification of the process by the dean/director of the college or school in which the course was offered.

...

5. The committee must schedule, **WITHIN 10 DAYS OF INSTRUCTION FROM RECEIPT OF THE STUDENT'S REQUEST,** a mutually agreeable date, time and location for the appeal hearing [[within 10 working days of receipt of the student's request]]. **IF THE REQUEST FOR APPEAL IS RECEIVED ANY TIME OTHER THAN DURING A REGULAR SEMESTER, THEN THE HEARING MUST BE SCHEDULED ON OR BEFORE THE 10TH DAY OF INSTRUCTION OF THE NEXT REGULAR SEMESTER.**

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATION OF FACULTY AND **LIBRARY SCIENCE** UNIT CRITERIA STANDARDS AND INDICES

JANUARY 2013

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION AND TENURE SPECIFICALLY DEVELOPED FOR USE IN EVALUATING **LIBRARY SCIENCE** FACULTY. ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. **A MASTER'S DEGREE IN LIBRARY SCIENCE (MLS) OR EQUIVALENT FROM AN AMERICAN LIBRARY ASSOCIATION (ALA) ACCREDITED PROGRAM IS THE**

RECOGNIZED QUALIFICATION FOR ACADEMIC LIBRARIANS. IN SOME CIRCUMSTANCES A MASTER'S OR DOCTORAL DEGREE IN A SPECIFIED FIELD MAY SERVE AS AN ALTERNATIVE. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

LIBRARY SCIENCE FACULTY FREQUENTLY HAVE WORKLOAD DISTRIBUTIONS OF 80 PERCENT SERVICE, 10 PERCENT RESEARCH AND 10 PERCENT TEACHING. SERVICE IS DESCRIBED IN CHAPTER III SECTION D2G.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, **AND LIBRARY SCIENCE UNIT CRITERIA AND INDICES**, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

TEACHING WORKLOADS FOR LIBRARY SCIENCE FACULTY VARY, USUALLY FROM A BASE OF 1-2 UNITS PER YEAR. INSTRUCTION MAY ALSO INCLUDE CONTACT WITH STUDENTS OR OTHER AUDIENCES THROUGH DISTANCE DELIVERY, WORKSHOPS, SEMINARS, TRAINING AND PUBLIC PRESENTATIONS.

1. Effectiveness in Teaching
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers:

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students **AND OTHER AUDIENCES**;

   b. express positive regard for students, develop good rapport with students **AND OTHER AUDIENCES AND** show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student **AND OTHER AUDIENCES** participation for student learning and teacher effectiveness, are sensitive to student **AND OTHER AUDIENCES** diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly **REVISE CURRICULUM AND** develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design. **IN ADDITION TO TEACHING CREDIT COURSES, LIBRARY SCIENCE FACULTY MAY ALSO CONDUCT LECTURES, WORKSHOPS, AND SEMINARS FOR DISCIPLINE-BASED COURSES OR NON-CREDIT PROGRAMS AT ANY LEVEL. THEY MAY ALSO ORGANIZE TEACHING WORKSHOPS OR PREPARE COURSE MODULES FOR BROAD DISTRIBUTION.**

   g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials,

AND OPTIONALLY:

e. STUDENT OPINION SUMMARY FORMS DESIGNED BY LIBRARY SCIENCE FACULTY FOR THE EVALUATION OF WORKSHOPS, SEMINARS, OR GUEST INSTRUCTION SECTIONS,

f. TESTIMONIALS FROM STUDENTS AND OTHER AUDIENCES.

TEACHING CRITERIA FOR PROMOTION TO THE RANK OF FULL PROFESSOR MAY INCLUDE, BUT ARE NOT LIMITED TO:

1. **DEVELOPMENT AND/OR ADAPTATION OF NEW METHODS AND APPROACHES IN THE DISCIPLINE;**

2. **RECEIPT OF UNIVERSITY, STATE OR NATIONAL AWARDS;**

3. **STUDENT/ OTHER AUDIENCE REVIEWS AND TEACHING EVALUATIONS THAT ARE CONSISTENTLY ABOVE AVERAGE;**

4. **INVITED TEACHING.**

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

RESEARCH, SCHOLARLY, AND CREATIVE ACTIVITY ARE A SMALL PORTION OF THE NORMAL LIBRARY SCIENCE FACULTY WORKLOAD, USUALLY FROM A BASE OF ABOUT 1-2 UNITS PER YEAR.

LIBRARY SCIENCE RESEARCH MAY INCLUDE SCHOLARSHIP OF DISCOVERY AND INTEGRATION INVOLVING THE DEVELOPMENT, EVALUATION AND INCORPORATION OF NEW IDEAS INTO EXISTING SYSTEMS OF KNOWLEDGE; SCHOLARSHIP OF INSTRUCTIONAL THEORY, METHODOLOGIES AND RESULTS; SCHOLARSHIP OF APPLICATION ESPECIALLY ADDRESSING SPECIFIC LIBRARY, ARCHIVAL OR CURATORIAL PRACTICES AND THEIR RESULTS.

1. Achievement in Research, Scholarly and Creative Activity
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, **CASE STUDIES, TRANSLATIONS, BOOK CHAPTERS, ANNOTATED BIBLIOGRAPHIES, PRESENTATIONS AND POSTERS AT PROFESSIONAL MEETINGS,** and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

   f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development. **PEER-REVIEWED ADAPTATIONS OF NEW TECHNOLOGY INCLUDING SOFTWARE DEVELOPMENT RELEVANT TO INFORMATION ACCESS AND/OR DELIVERY OF LIBRARY SERVICES.**

m. **PEER-REVIEWED EXHIBIT CURATION.**

RESEARCH CRITERIA FOR PROMOTION TO THE RANK OF FULL PROFESSOR MAY INCLUDE BUT ARE NOT LIMITED TO:

1. **DEVELOPMENT AND/OR ADAPTATION OF NEW METHODS AND APPROACHES IN THEIR AREA OF EXPERTISE;**

2. **RECEIPT OF UNIVERSITY, STATE OR NATIONAL AWARDS;**

3. **ONGOING CONTRIBUTIONS TO PUBLISHED RESEARCH; SCHOLARLY, CREATIVE, OR PROFESSIONAL ACHIEVEMENT;**

4. **INVITED PRESENTATIONS AT THE STATE, NATIONAL OR INTERNATIONAL LEVEL.**

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university

itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

UNIVERSITY SERVICE IS USUALLY THE LARGEST PORTION OF THE LIBRARY SCIENCE WORKLOAD.

1. Public Service
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth.

   b. Service on or to government or public committees.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting **IN THE FACULTY MEMBER'S AREA OF EXPERTISE.**

   g. Prizes and awards for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

   i. Training and facilitating.

   j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

   k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance or specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

ACTIVITIES RELATING TO THE NORMAL AND NECESSARY FUNCTIONING OF THE UAF LIBRARY AND PERFORMED ON A REGULAR BASIS ARE CONSIDERED TO BE COMPONENTS OF UNIVERSITY SERVICE. FOR MOST LIBRARY FACULTY THIS COMPRISES THE BULK OF THEIR UNIVERSITY SERVICE RESPONSIBILITIES. SPECIFIC ACTIVITIES INCLUDE BUT ARE NOT LIMITED TO:

REFERENCE:
REFERENCE SERVICES PROVIDE A LINK BETWEEN LIBRARY PATRONS AND INFORMATION SOURCES. THEY USUALLY INCLUDE PERSONAL ASSISTANCE IN IDENTIFYING, LOCATING, AND USING APPROPRIATE RESOURCE MATERIALS.

COLLECTION DEVELOPMENT:
COLLECTION DEVELOPMENT IS THE PROCESS BY WHICH LIBRARIANS DETERMINE THE BOOKS, JOURNALS, NON-PRINT MEDIA, ON-LINE DATABASES AND OTHER ITEMS TO BE INCLUDED IN THE LIBRARY'S HOLDINGS. THIS PROCESS INCLUDES: ASSESSMENT OF USAGE DATA; LIAISON RELATIONSHIPS WITH ACADEMIC DEPARTMENT; CO-INSTITUTIONAL COOPERATIVE PURCHASES, AND ESTABLISHMENT OF LONG-TERM CONSORTIAL AGREEMENTS.

MANAGEMENT OR ADMINISTRATIVE ACTIVITIES:
RESPONSIBILITIES MAY INCLUDE: BUDGETING; SUPERVISING AND EVALUATING STAFF; STRATEGIC AND OTHER LONG-TERM PLANNING; DEVELOPMENT OF POLICIES AND PROCEDURES; DATA ANALYSIS, AND REPORT WRITING RELATED TO THE FUNCTIONING OF THE LIBRARY.

INFORMATION TECHNOLOGY:
INFORMATION TECHNOLOGY INVOLVES ASSESSMENT AND IMPLEMENTATION OF CURRENT TECHNOLOGIES PERTAINING TO THE LIBRARY'S INFRASTRUCTURE AND OPERATIONS. THIS INCLUDES THE PLANNING, CREATION, INSTALLATION AND MAINTENANCE OF SOFTWARE SYSTEMS; DESIGN OF WEBSITE ARCHITECTURE; AND DEVELOPMENT OF OPERATIONAL POLICIES.

ARCHIVES:
ARCHIVAL ACTIVITIES INVOLVE THE PROVISION OF PUBLIC ACCESS AND RESEARCH SERVICES TO HISTORICAL COLLECTIONS OF PAPERS, PHOTOGRAPHS, MANUSCRIPTS AND OTHER UNIQUE AND UNPUBLISHED MATERIALS. INCLUDED ARE THE ESTABLISHMENT OF DONOR RELATIONSHIPS; GRANT ADMINISTRATION AND OTHER FUNDING OPPORTUNITIES THAT EXTEND NORMAL LIBRARY BUDGETING; APPRAISAL OF COLLECTIONS TO DETERMINE ADMINISTRATIVE OR HISTORICAL VALUE; ARRANGEMENT AND DESCRIPTION OF COLLECTIONS; PRESERVATION OF FRAGILE MATERIALS AND/OR OBSOLETE MEDIA; DEVELOPMENT OF OUTREACH PROGRAMS, AND THE ORGANIZATION AND PRESERVATION OF DIGITAL DATA.

CURATION:

CURATION AT THE UAF LIBRARY TYPICALLY INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED COLLECTION THAT SERVES STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED
TO:

- **i. MAINTAINING, ENHANCING AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT; ARCHIVAL UPGRADES; CONSERVATION AND IDENTIFICATION, AND ADDING OBJECTS TO THE EXISTING COLLECTION);**

ii. INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;

iii. PROMOTING USE OF THE COLLECTIONS THROUGH LOANS, EXCHANGES, AND VISITING RESEARCH ACTIVITIES;

iv. DIRECTING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

v. CREATING EXHIBITS AND EDUCATIONAL ACTIVITIES AND MATERIALS APPROPRIATE TO THE COLLECTION;

vi. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;

vii. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

EFFECTIVENESS IN SERVICE MAY BE EVALUATED BY ANY OF THE FOLLOWING METHODS:

a. LIBRARY ACTIVITIES PERFORMED ON A REGULAR AND CONTINUAL BASIS ARE EVALUATED BY THE ANNUAL REVIEW PROCESS AND MAY BE SUPPLEMENTED BY SUPPORTING DOCUMENTATION FROM PEERS INSIDE OR OUTSIDE THE UNIVERSITY;

b. DOCUMENTATION DEMONSTRATING SUCCESSFUL DEVELOPMENT AND IMPLEMENTATION OF PROJECTS, POLICIES, PROCEDURES AND STANDARDS;

c. LETTERS SUPPLIED BY COLLEAGUES WITHIN AND OUTSIDE THE UNIVERSITY EVALUATING PERFORMANCE, CONTRIBUTIONS TO THE LIBRARY AND ASSISTANCE TO INDIVIDUALS AND/OR GROUPS;

d. TESTIMONIALS DEMONSTRATING OUTCOMES AND/OR EFFECTIVENESS OF SERVICE ACTIVITIES;

e. HONORS AND AWARDS FOR PERFORMANCE EXCELLENCE WITHIN AND OUTSIDE THE UNIVERSITY, INCLUDING LIBRARY AND PROFESSIONAL ORGANIZATIONS AND ASSOCIATIONS.

SERVICE CRITERIA FOR PROMOTION TO THE RANK OF FULL PROFESSOR MAY INCLUDE BUT ARE NOT LIMITED TO:

1. **RECORD OF ACTIVE LEADERSHIP AND MEANINGFUL PARTICIPATION IN INSTITUTIONAL AND PROFESSIONAL ACTIVITIES;**

2. **RECEIPT OF UNIVERSITY, STATE OR NATIONAL AWARDS;**

3. **INVITED CONSULTATIONS AT THE STATE, NATIONAL, OR INTERNATIONAL LEVEL;**

4. **EVIDENCE OF CONTINUING GROWTH AND MAINTAINING CURRENCY IN THE FIELD.**

The UAF Faculty Senate passed the following at Meeting #189, March 4, 2013:

MOTION as amended

The UAF Faculty Senate moves to change UAF Catalog descriptions of letter grades as indicated below.

EFFECTIVE: Fall 2013

RATIONALE: These revised descriptions of letter grades more closely match those found in University Regulation R10.04.090, Section C., "Grade Definitions." The changes eliminate use of the term 'average' in the descriptions and clarify under what circumstances 'D' is an acceptable grade.

****

BOLD CAPS = Addition
[[ ]] = Deletion

Grading System and Grade Point Average Computation [as currently in the *UAF Catalog*, page 48]

...

Grades appearing on academic records are:
[[A An honor grade, indicates originality and independent work, a thorough mastery of the subject and the satisfactory completion of more work than is regularly required.]]
"A" (INCLUDING A+ AND A-) INDICATES A THOROUGH MASTERY OF COURSE CONTENT AND OUTSTANDING PERFORMANCE IN COMPLETION OF COURSE REQUIREMENTS.

[[B Indicates outstanding ability above the average level of performance.]]
"B" (INCLUDING B+ AND B-) INDICATES A HIGH LEVEL OF ACQUIRED KNOWLEDGE AND PERFORMANCE IN COMPLETION OF COURSE REQUIREMENTS.

[[C Indicates a satisfactory or average level of performance.]]
"C" (INCLUDING C+ AND C-) INDICATES A SATISFACTORY LEVEL OF ACQUIRED KNOWLEDGE AND PERFORMANCE IN COMPLETION OF COURSE REQUIREMENTS.

[[D The lowest passing grade, indicates work of below-average quality and performance.]]
"D" (INCLUDING D+ AND D-) INDICATES A MINIMAL LEVEL OF ACQUIRED KNOWLEDGE AND MINIMAL PERFORMANCE IN COMPLETION OF COURSE REQUIREMENTS. THIS GRADE ~~IS ACCEPTABLE FOR ELECTIVE COURSES, BUT~~ DOES NOT SATISFY REQUIREMENTS FOR COURSES IN THE MAJOR, MINOR, CORE, OR GRADUATE PROGRAMS.

[[F Indicates failure.]]
"F" INDICATES FAILURE TO MEET A MINIMAL LEVEL OF UNDERSTANDING OF COURSE CONTENT AND (OR) PERFORMANCE IN COMPLETION OF COURSE REQUIREMENTS. All F grades, including those earned in pass/fail courses, are included in the GPA calculations.

President, UAF Faculty Senate

APPROVAL: _____ DATE: 5 March 2013
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

Meeting #188, Feb. 4, 2013: UAF Faculty Senate referred the following motion back to the Faculty Affairs Committee

MOTION:

The UAF Faculty Senate moves to revise the Grade Appeals Policy of the University of Alaska Fairbanks Faculty Senate, Section III: Procedures, Article B, Subsection 5. This revision clarifies the time period within which grade appeals will be reviewed.

EFFECTIVE: January 2013

RATIONALE: As currently stated the policy makes it possible for a grade appeals to be received during the summer when many faculty are off contract. Depending on the department and program it may be difficult to find enough faculty to serve on a grade appeals committee during those summer months. The proposed revisions allow for a more flexible time period for processing grade appeals submitted during the summer.

****

CAPS & BOLD = Addition
[[**]]** = Deletion

Sect. III (Article B: Procedures)

III. Procedures

B. If no such error occurred, the remaining option is by review for alleged arbitrary and capricious grading, or for instances where the course instructor is unavailable and satisfaction is not forthcoming from the appropriate department chair.

1. This review is initiated by the student through a signed, written request to the department chair with a copy to the dean of the college or school in which the course was offered.

a. The student's request for review may be submitted using university forms specifically designed for this purpose and available at the Registrar's Office.

b. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration can not influence or affect the outcome of the review.

c. The request for a review must be received WITHIN 30 CLASS DAYS AFTER THE BEGINNING OF the next regular semester (i.e., fall semester for grade issued at the end of the previous spring semester or summer session; spring semester for grade issued at the end of the previous fall semester) or within 5 days of receipt of notification of the process by the dean/director of the college or school in which the course was offered.

…

5. The committee must schedule a mutually agreeable date, time and location for the appeal hearing within 10 working days of receipt of the student's request **AS PER B.1.c. ABOVE**. **THE REVIEW OF GRADE APPEALS SUBMITTED DURING THE SUMMER (I.E., AFTER COMPLETION OF FINAL EXAMS IN THE SPRING SEMESTER) MUST BE SCHEDULED NO LATER THAN THE 15TH WORKING DAY OF THE BEGINNING OF THE SUBSEQUENT FALL SEMESTER.**

The UAF Faculty Senate passed the following motion at Meeting #188 on February 4, 2013:

MOTION:

The UAF Faculty Senate moves to amend the Credit by Exam policy as follows:

EFFECTIVE: Immediately

RATIONALE: The addition of this clarifying statement to the current Credit by Exam policy reduces confusion and reflects the current practice at UAF.

****

BOLD CAPS = Addition
[[ ]] = Deletion

CREDIT BY EXAM [as currently in the *UAF Catalog*, pages 38-41]

...

- **UAF Credit by Exam**
  Credit by exam can be earned at UAF by students who are currently enrolled. Most courses are available for credit by exam, except those with numbers ending -90 through -99 (193, 292, 497, etc.). A course challenged for credit cannot duplicate a course for which credit has already been granted or in which the student is currently enrolled. **IT IS UP TO THE DISCRETION OF THE DEPARTMENT AND INSTRUCTOR TO DECIDE WHICH COURSES CAN BE CHALLENGED, AND THE TESTING METHOD AND GRADING PROCEDURES.** Credit by exam may not be requested for audited courses until one year has passed since the end of the semester in which the course was audited.

President, UAF Faculty Senate

APPROVAL: _____ DATE: 2/5/13
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following motion at Meeting #188 on February 4, 2013:

MOTION:

This senate supports the formation of a Faculty Alliance GE Learning Outcomes UA Coordination Subcommittee, to include equal representation from each MAU and to work on the general charge of identifying a common set of General Education learning outcomes (i.e., broad goals) to recommend to the faculty senates at each MAU in late 2013.

Rationale: This January faculty and registrars from UAA, UAF, and UAS met for two days and had a facilitated dialogue with General Education Curriculum and Assessment experts from the Association of American Colleges and Universities.

The workshop focused on presenting current best practices in General Education and Assessment. Topics included the AAC&U LEAP initiative, careful articulation of learning outcomes, logic models for designing assessment of GE outcomes, High Impact Practices, and e-portfolios. The facilitators also encouraged the assembled faculty to consider the GE learning outcomes at each of their MAUs and asked them to identify points of agreement and disagreement across the MAUs. In general the assembled faculty noted more agreement than not and also acknowledged that the modified LEAP outcomes adopted by the UAF faculty senate are a good starting point for an attempt to coordinate GE learning outcomes across the three MAUs. There was also general consensus among the assembled faculty that since BOR policy allows students to freely mix and match GER curriculum between the three MAUs that better coordination of GE learning outcomes would better serve our students and the faculty who anticipate certain general competencies as students engage upper division coursework. The faculty also resolved that a subcommittee of the Faculty Alliance with representation from each MAU be created and charged with having an ongoing dialogue about coordination of GE learning outcomes across the MAUs.

ORIGINAL

The UAF Faculty Senate passed the following motion at Meeting #188 on February 4, 2013:

MOTION:

The UAF Faculty Senate moves to amend the academic policy regarding transfer of credits.

EFFECTIVE: Fall 2013

RATIONALE: The following reasons are submitted as the basis for amending the 2+2 portion of the AA / AS waiver policy:

1. General education requirements are substantially the same among the 6 regional accreditation bodies.
2. As the policy currently stands it is frequently difficult for others (advisors, recruiters, etc.), without consulting the Office of Admissions and the Registrar (OAR), to assure students with these degrees that they will receive waivers.
3. It is difficult to advertise because of the caveats (not everyone understands what NWCCU is and not everyone knows which states have been approved as having a 2+2 agreement.
4. If there is an easily understood policy in place, with a minimum of restrictions, it will make it easier for UAF's schools and colleges to develop MOUs with other institutions.
5. The Registrar's Office wants to produce transfer credit evaluations as quickly as possible so students can decide if they want to come to UAF or go elsewhere, or so they can work with their advisors to get registered. Given the 2+2 limitation it is difficult to complete the AA/AS core waiver portion of the evaluation in a timely fashion.

Transferring Credits [as currently in the *UAF Catalog*, pages 36-38]

...

The following regulations apply to transfer of credit:

1. Students are eligible for transfer of credit if they have been admitted to an undergraduate degree or certificate program.

2. The applicability of transfer credit to a student's major and/or minor requirements is subject to approval by the major and/or minor department. Transfer students must fulfill the UAF graduation and residency requirements, including those specific to their programs.

3. Undergraduate credits earned at the 100-level or above with a C- grade or higher at institutions accredited by one of the six regional accrediting agencies will be considered for transfer. Transfer credit is not granted for courses with doctrinal religious content or for graduate courses (for undergraduate programs).

4. Transfer credit is awarded for courses in which the student received grades of C- or better. Instructor permission may be required for purposes of registration if the transfer credit courses

ORIGINAL

have not satisfied the prerequisite requirements, or if the transferable grade is not equal to a C (2.0) or better (the minimum grade required for prerequisite courses).

5. Any student who has completed a bachelor's degree from a regionally accredited institution will be considered to have completed the equivalent of the baccalaureate core and the associate of arts core when officially accepted to a baccalaureate degree program or associate of arts program at UAF. These students will also be considered to have completed the equivalent of the communication, computation and human relations requirements for the associate of applied science and the certificate.

6. Any student who has completed an associate of arts or an associate of science degree from a regionally accredited school **[[**satisfying one of the criteria below**]]** will be considered as having satisfied the 100- and 200-level UAF general education (core) requirements**[[:]].**

   [[a. The AA or AS degree is from the University of Alaska, or

   b. The public universities in the state in which the community college is located also waive their core requirements in recognition of completing an AA or AS degree, that is, have established a 2+2 program, or

   c. The community college and/or community college district is accredited by the Northwest Commission on Colleges and Universities (the agency that accredits UAF), or

   d. The associate program has been approved by the UAF Core Review Committee as satisfying the 100- and 200-level general education (core) requirements.**]]**

ORIGINAL

The UAF Faculty Senate passed the following motion at Meeting #188 on February 4, 2013:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Military Security Studies (housed in the School of Management).

Effective: Fall 2013

Rationale: See the program proposal #64-UNP on file in the Governance Office, 312B Signers' Hall.

****

Overview:

The Military Security Studies minor focuses on academic aspects of military education and training. Students with military experience may use the structure of this minor to build on their education in military studies as part of a degree at UAF.

Students with a background and interest in military studies frequently go into high value jobs related to national security. The minor can serve as a formal statement of achievement that is useful for those career goals.

Proposed Minor Requirements:

1. Complete the following: 10 credits of MILS electives, as approved by the Program Director, Emergency Management and Homeland Security Department.

2. Choose 2 of the following:*

   HSEM F301 – Principles of Emergency Management and Homeland Security -3 credits
   HSEM F412 – Emergency Planning and Preparedness – 3 credits
   HSEM F423 – Disaster Response Operations and Management – 3 credits
   HSEM F434 – All Hazards Risk Analysis – 3 credits
   HSEM F445 – Business Continuity and Crisis Management – 3 credits
   HSEM F456W – Leadership and Influence During Crisis – 3 credits
   MILS F442 – History of the American Military -3 credits
   Or course(s) pre-approved by the Program Director, Emergency Management and Homeland Security Department

3. Minimum credits required: 16

   * Students must earn a C grade (2.0) or better in these classes.

ORIGINAL

Relationship to the Purposes of the University:

Establishing this minor in Military Security Studies is in keeping with UAF's role in serving the needs of active duty and veteran students. UAF is a designated "Military Friendly Institution."

DISAPPROVED: _____ DATE: _____
Chancellor's Office

ORIGINAL

as amended below

The UAF Faculty Senate passed the following motion at Meeting #188 on February 4, 2013:

MOTION:

The UAF Faculty Senate moves to require that the Office of Admissions and the Registrar distinguish *Master's* degrees within the student's transcript as "Master's with thesis" or "Master's with project" in the title of the degree granted when applicable.

EFFECTIVE: Fall 2013

RATIONALE: At UAF, Master's Degrees can be granted with either a thesis or a project. Projects generally require 6 credits of research (698), while theses often (but not always) require 12 credits of research (699). Many Departments distinguish between Master's Degrees with thesis or with project in the titles of the degree, but not all do. Concern has been raised that confusion arises when a Master's degree is granted with thesis or project and there is no distinction (other than the number and type of credits on the transcript) between degrees, and that this confusion does not serve the students or prospective employers well.

ORIGINAL

The UAF Faculty Senate passed the following motion at Meeting #188 on February 4, 2013:

MOTION

The UAF Faculty Senate moves that the UAF Catalog wording in the section relating to Master's and Ph.D. degrees be changed to include the following language pertaining to graduate degrees: "You must be registered for a minimum of three graduate credits within your discipline and maintain enrollment in the semester that you successfully defend your thesis and you must be registered for a minimum of one graduate credit within your discipline and maintain enrollment during the semester that you graduate."

EFFECTIVE: Fall 2013

RATIONALE: Currently, the Catalog states "You must be registered for at least 3 graduate credits in the semester in which you receive your degree" (p. 205). There is no requirement that these credits be within the discipline of study, or that students maintain enrollment during the semester that they graduate, thus it is possible to register and then drop the credits. Making these proposed changes to the catalog will eliminate these possibilities, but will allow students who have defended their thesis or project but not officially completed degree requirements to register for a minimum of credits in their last semester.

****

CAPS = Addition

Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following resolution as amended below at Meeting #188 on February 4, 2013:

RESOLUTION

The UAF Faculty Senate reaffirms its previous motion to require that both theses and projects for Master's ~~of Arts and Master's of Science~~ degrees be archived in the Rasmuson Library, and to put this requirement into the UAF Catalog. The Rasmuson Library already archives theses, and is willing to centrally archive projects in a variety of formats.

Motivation and Background:

- A Faculty Senate Motion from Meeting #71 (April 1997) concerning Master's degree requirements included the stipulation that Projects are archived at the Library, as well as theses, and that project archival is a degree requirement. The entire motion is copied below.
- Subsequent motions concerning master's degrees (Meeting #88, May 1999; Meeting #123, May 2004) made some credit requirement changes, but did not address the requirement to archive projects.
- The 1999-2000 UAF Catalog (page 43-44) contained the language that projects are archived in the UAF Rasmuson Library for both MA and MS degrees. This language was subsequently dropped from the Catalog in 2000-2001, which was a change that did not involve Faculty Senate approval.
- At the present time, not all Master's projects are archived in the Rasmuson Library. Some are archived in the Rasmuson Library, some are archived by individual departments, and some are not archived at all
- It is in the interest of students and their potential employers that all Master's theses and projects be archived.

****

Jennifer R. Reynolds
President, UAF Faculty Senate

The UAF Faculty Senate passed the following at its Meeting #71 on April 14, 1997:

MOTION PASSED (unanimous)
==========

The UAF Faculty Senate moves to approve the minimum requirements for Master's Degrees shall be as follows:
For all Master's Degree Programs, the following must be met:

a. Submit a Graduate Study Plan (GSP) and an Appointment of Committee Form to the Graduate School by the end of the second semester in attendance.

b. Be registered for at least 6 credits per year (fall, spring, and summer combined), or have an approved leave of absence form on file.

c. Submit an Advancement to Candidacy form to the Graduate School. Once submitted, this form supplants the GSP and serves to formally establish specific degree requirements.
d. Submit an application for graduation and be registered for at least 3 graduate credits in the semester in which the degree is to be awarded; and
e. Complete all degree requirements within the 7-year time limit allowed.

Furthermore, the following additional requirements are the minimum for Master's Degrees:

For a Master's of Science or Master's of Arts Degree - with thesis

Successfully complete at least 30 credits of course work including at least 6 credits of thesis (699). (No more than 12 thesis/research (699/698) credits may be counted towards the minimum degree credits).

At least 24 credits must be at the 600 or above, except for a Master's of Arts in Music, which must have at least 21 credits at the 600 level or above.

Pass a written and/or oral comprehensive exam (may be combined with the thesis defense.

Publicly present and defend thesis.

Submit a completed and signed thesis defense form to the Graduate School.

Archive thesis in UAF Library.

Master's of Science or Master's of Arts Degree - with project

Successfully complete at least 30 credits of course work including at least 6 credits of project work (698). (No more than 6 research (698) credits may be counted towards the minimum degree credits.)

At least 24 credits must be at the 600 level or above, except for a Master's of Arts in Music, which must have at least 21 credits at the 600 level or above.

Pass a written and/or oral comprehensive exam (may be combined with the project defense.)

Publicly present and defend project.

Submit a completed and signed project defense form to the Graduate School.

Archive project in UAF Library.

For a Professional Master's Degree (i.e. Master's of Business Administration, Education, etc.)

Successfully complete at least 30 credits of course work (research or thesis credits NOT included). At least 24 credits must be at the 600 level or above (research or thesis credits NOT included).

Successful completion of a comprehensive exam or capstone course that includes demonstration of the ability to synthesize information in the field at a level appropriate for a Master's degree.

Note on Implementation of Motion: It is the understanding of the Graduate Curricular Affairs Committee that changes to existing programs degree requirements or the name of the degree which may be necessitated by this policy, if implemented, will need final approval of the Graduate Curricular Affairs Committee, but does not constitute a new degree offering, and will not need approval by the Board of Regents. No minimum presented herein prohibits programs from requiring additional work. The adjustments that have been made from existing programs include the requirement for the non-thesis project to be documented and in some manner archived in the Library (i.e. slides, recording, report.)

EFFECTIVE: Fall 1998

RATIONALE: Currently there is great disparity in the administration of Master's degrees using a thesis or non-thesis option. In addition, there is an increasing movement towards Professional Master's Degrees which require only course work. To ensure the quality and workload for a degree is comparable for the thesis, project option, and professional (non-thesis and non-project) minimum must be set and applied across all degrees.

****

The UAF Faculty Senate passed the following motion at Meeting #187 on December 3, 2012:

MOTION:

The UAF Faculty Senate moves to amend the academic policy regarding Attendance.

EFFECTIVE: Fall 2013

RATIONALE: Previous policy language was ambiguous and subject to misinterpretation. It also clarifies that faculty are encouraged, but not required, to accommodate students absent for official UAF-recognized activities. Military activities will be addressed separately in a future policy proposal.

****

[[ ]] = Deletion

Attendance [as currently in the *UAF Catalog*, page 49]

[[You are expected to attend classes regularly; unexcused absences may result in a failing grade. You must have prior written approval to miss the first class meeting or your instructor may drop you. You are responsible for conferring with your instructor concerning absences and the possibility of making up missed work.]]

[[If you are required to participate in either military exercises or UAF-sponsored activities that will cause you to miss class, you must notify your instructor(s) as soon as possible of your absence. You must notify your instructor(s) of all scheduled UAF-required absences for the semester (e.g., travel to athletic events) during the first week of classes.]]

[[You and your instructor will make a good-faith effort to make suitable arrangements to assure that you can make up classes and work you miss and are not penalized for your excused absence. If suitable arrangements cannot be made, you will be allowed to withdraw from the course without penalty. However, your instructor is under no obligation to allow you to make up missed work for unexcused absences or if notification and arrangements are not made in advance of the absence.]]

PROPOSED NEW VERSION:

Attendance

UAF is committed to student success and academic integrity. UAF FACULTY expect that students are committed to academic achievement. You are expected to adhere to the class attendance policies set by your instructors.

General Absences: If you miss class, you are responsible for conferring with your instructor as soon as possible concerning your absence, and to discuss the possibilities for arranging alternative learning opportunities. Note that some departments drop students who miss the first day of class and who fail to obtain their instructor's prior approval for the absence.

UAF Sanctioned Absences: If you are scheduled to miss class for an academic requirement or to represent UAF in an official capacity (e.g. NCAA athletic competition, music ensemble performances), you must notify your instructor in writing by the first Wednesday of the semester in which the absences will occur. The notification should list all scheduled absences, and bear the signature of a UAF school official. Instructors are encouraged to make reasonable accommodations for students who miss class to participate in these official UAF-recognized activities. However, it is your responsibility to follow-up the notification of absence by discussing alternative learning opportunities with your instructors before the end of the drop/add period (typically the second Friday of the semester). Doing so will allow you to drop the class and to add another if, after a good faith effort, you and your instructor cannot arrange for comparable learning opportunities that will enable you to be successful in the class.

The UAF Faculty Senate passed the following motion at Meeting #187 on December 3, 2012:

MOTION:

The UAF Faculty Senate moves to amend the academic policy regarding transfer of credits.

EFFECTIVE: Fall 2013

RATIONALE: Note that (a) we currently accept a baccalaureate degree as fulfilling our core and (b) we accept an AA/AS from a regionally accredited school as fulfilling the lower division parts of the core.

****

CAPS = Addition
[[ ]] = Deletion

Transferring Credits [as currently in the *UAF Catalog*, pages 36-38]

...

The following regulations apply to transfer of credit:

1. Students are eligible for transfer of credit if they have been admitted to an undergraduate degree or certificate program.

2. The applicability of transfer credit to a student's major and/or minor requirements is subject to approval by the major and/or minor department. Transfer students must fulfill the UAF graduation and residency requirements, including those specific to their programs.

3. Undergraduate credits earned at the 100-level or above with a C- grade or higher at institutions accredited by one of the six regional accrediting agencies will be considered for transfer. Transfer credit is not granted for courses with doctrinal religious content or for graduate courses (for undergraduate programs).

4. Transfer credit is awarded for courses in which the student received grades of C- or better. Instructor permission may be required for purposes of registration if the transfer credit courses have not satisfied the prerequisite requirements, or if the transferable grade is not equal to a C (2.0) or better (the minimum grade required for prerequisite courses).

5. Any student who has completed a bachelor's degree from a regionally accredited institution will be considered to have completed the equivalent of the baccalaureate core

and the associate of arts core when officially accepted to a baccalaureate degree program or associate of arts program at UAF. These students will also be considered to have completed the equivalent of the communication, computation and human relations requirements for the associate of applied science and the certificate.

6. Any student who has completed an associate of arts or an associate of science degree from a regionally accredited school satisfying one of the criteria below will be considered as having satisfied the 100- and 200-level UAF general education (core) requirements:

    a. The AA or AS degree is from the University of Alaska, or

    b. The public universities in the state in which the community college is located also waive their core requirements in recognition of completing an AA or AS degree, that is, have established a 2+2 program, or

    c. The community college and/or community college district is accredited by the Northwest Commission on Colleges and Universities (the agency that accredits UAF), or

    d. The associate program has been approved by the UAF Core Review Committee as satisfying the 100- and 200-level general education (core) requirements.

7. **ANY TRANSFER STUDENT WHO HAS COMPLETED THE BACCALAUREATE GENERAL EDUCATION REQUIREMENTS AT ANY REGIONALLY ACCREDITED 4-YEAR INSTITUTION IS CONSIDERED TO HAVE COMPLETED THE BACCALAUREATE CORE REQUIREMENTS (EXCLUDING ORAL INTENSIVE AND WRITING INTENSIVE) AT UAF. THE STUDENT IS RESPONSIBLE FOR PROVIDING AN OFFICIAL STATEMENT AND DOCUMENTATION CERTIFYING GER COMPLETION AT THE PREVIOUS INSTITUTION.**

~~7.~~ **8.** Students who satisfy UAF core degree requirements by meeting criteria described in 5 or 6 above may still need prerequisite classes or instructor permission in order to register.

~~8.~~ **9.** Transfer credit is not included in computation of the UAF GPA, except to determine eligibility for graduation with honors.

~~9.~~ **10.** Class standing (e.g., freshman, sophomore, etc.) is based on the number of college credits accepted in transfer by UAF, combined with any courses completed in residence at UAF.

~~10.~~ **11.** Credits may be awarded for formal service schooling and military occupational specialties (MOS) based on recommendations in the "Guide to the Evaluation of Educational Experience in the Armed Services," published by the American Council on Education. Credit completed through the Community College of the Air Force or Department of Defense courses is included in the category of military experience.

~~11~~. **12.** A student will be awarded credit for currently valid government and professional certifications that have been reviewed and approved for designated course equivalencies at UAF. A list of these programs is available in the Office of Admissions and the Registrar.

~~12~~. **13.** Credit may also be awarded for satisfactory completion of training programs, based on recommendations of the American Council on Education and the National Program on non-Collegiate Sponsored Instruction. The award of credit is subject to review and approval of appropriate UAF faculty.

UAF Regulations for the Appointment and Evaluations of Faculty and Cooperative Extension Service Unit Criteria, Standards, and Indices

The following is an adaptation of UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of the Cooperative Extension Service department. Items in boldface italics are those specifically added or emphasized because of their relevance to the department's faculty, and because they are additions to UAF regulations.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

Chapter II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for

initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, PARAPROFESSIONAL ADVISING AND TRAINING, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

STANDARD ACADEMIC TEACHING IS NOT A COMMON FORM OF INFORMATION DELIVERY IN THE COOPERATIVE EXTENSION SERVICE. INSTRUCTION OFTEN INCLUDES CONTACT WITH CLIENTELE THROUGH DISTANCE DELIVERY METHODS, WORKSHOPS, SEMINARS, TRAINING AND PUBLIC INFORMATION EVENTS. A 10% (4 UNIT) TEACHING LOAD IN EXTENSION IS CONSIDERED 45 TO 50 HOURS TEACHING IN FRONT OF A GROUP

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students AND CLIENTELE;

b. express positive regard for students, BECOME FAMILIAR WITH THEIR COMMUNITY/PUBLIC, develop good rapport with students AND CLIENTELE, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student AND CLIENTELE participation for student learning and teacher effectiveness, are sensitive to student AND CLIENTELE diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars ADDRESSING CLIENTELE AND PUBLIC NEEDS BY DELIVERING INFORMATION RELEVANT TO THOSE NEEDS and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards, AND GRANTS for excellence in teaching.

2. **Components of Evaluation**
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, AND/OR TESTIMONIALS, AND/OR LETTERS OF SUPPORT FROM STUDENTS, OTHER PROFESSIONALS,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

E. DOCUMENTATION OF THE IMPACTS RESULTING FROM TEACHING ACTIVITY SUCH AS KNOWLEDGE GAINED OR CHANGES IN BEHAVIOR OR ATTITUDES OF STUDENTS THROUGH POST INSTRUCTION EVALUATIONS, SURVEYS, AND TESTIMONIALS.

F. REPEATED INVITATIONS TO TEACH IN A COMMUNITY REFLECTS ENGAGEMENT AND EFFECTIVENESS IN TEACHING.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

COOPERATIVE EXTENSION SERVICE FACULTY HAVE LIMITED OPPORTUNITIES TO CONDUCT TRADITIONAL RESEARCH AND VERY LIMITED ACCESS TO LABORATORIES AND GRADUATE STUDENTS. ADDITIONALLY, BIPARTITE FACULTY MAY OR MAY NOT HAVE A RESEARCH OBLIGATION.

COOPERATIVE EXTENSION FACULTY WITH TRIPARTITE RESPONSIBILITIES ARE EXPECTED TO CONDUCT APPLIED RESEARCH OR ENGAGE IN OTHER SCHOLARLY PURSUITS THAT CHALLENGE AND HELP SOLVE ISSUES FACING THE PEOPLE OF ALASKA. MOST GRANTS PURSUED BY BIPARTITE FACULTY RELATE TO SERVICE OR TEACHING ACTIVITIES AND ARE NOT RESEARCH ORIENTED.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum WITH RESULTS AND IMPACTS DISSEMINATED TO APPROPRIATE ACADEMIC AND COMMUNITY AUDIENCES.
b. They must be evaluated, REVIEWED AND VALIDATED by appropriate peers AND BY MEMBERS OF THE COMMUNITY.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution AND BE RELEVANT TO ALASKAN ISSUES.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline,

AUTHORSHIP OF CES PUBLICATIONS OR ARTICLES WITHIN CES PUBLICATIONS OF HIGH QUALITY BASED ON ORIGINAL OR APPLIED RESEARCH WHICH MEETS THE CRITERIA SET FORTH IN CHAPTER III C.1. OF THIS DOCUMENT.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations AND IN-HOUSE CES PUBLICATIONS.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge,* is identified as "public service." The tradition of the university

itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

* CES FACULTY WORK IS COUNTED AS PUBLIC SERVICE EVEN THOUGH THE UNIVERSITY MAY CHARGE A FEE FOR SOME ACTIVITIES. THESE FEES ARE NECESSARY TO RECOVER COSTS SUCH AS THOSE FOR ROOM RENT, PRINTED MATERIALS PROVIDED TO PARTICIPANTS, EQUIPMENT, AND OTHERS AND ARE NOT PAYMENT FOR FACULTY TIME NOR ARE THE FEES EVER RETAINED BY INDIVIDUAL FACULTY.

1. **Public Service**
   Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities that extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

   a. Providing information services to adults or youth INCLUDING REPRESENTING AND ANSWERING QUESTIONS AT CES EDUCATIONAL DISPLAYS, BOOTHS AND EXHIBITS AT PUBLIC EVENTS.

   b. Service on or to government or public committees, COLLABORATIONS & PARTNERSHIPS ESTABLISHED WITH AGENCIES AND GROUPS AND UTILIZATION OF DISTRICT OR REGIONAL ADVISORY BOARDS, TASK FORCES, FOCUS GROUPS OR PUBLIC SPECIAL INTEREST GROUPS TO IDENTIFY RELEVANT ISSUES AND PROBLEMS.

   c. Service on accrediting bodies.

   d. Active participation in professional organizations.

   e. Active participation in discipline-oriented service organizations.

   f. Consulting AS APPROPRIATE TO THE UNIT.

   g. Prizes and awards, AND GRANTS, for excellence in public service.

   h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating AT PUBLIC FORUMS, GROUP MEETINGS AND PUBLIC EVENTS.

j. Radio and TV programs, newspaper articles and columns, CES publications, newsletters, films, computer applications, teleconferences and other educational media, INCLUDING WEB SITES DESIGNED AND/OR MANAGED BY FACULTY. CONTENT MAY RESULT FROM COMMUNITY INTEREST OR ISSUES..

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

L. ENGAGE THE PUBLIC IN ASSESSING RESEARCH NEEDS - AND COMMUNICATE THOSE NEEDS TO THE APPROPRIATE RESEARCH UNITS.

M. MANAGING PARAPROFESSIONAL AND/OR VOLUNTEER PROGRAM TO HELP EXTEND CES RESOURCES OR DEVELOP LEADERSHIP SKILLS.

N. RESPONSE IN EMERGENCY SITUATIONS RENDERED IN AN EXTENSION ROLE, TO CLIENTELE THAT FACED THE EMERGENCY.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair, PROGRAM CHAIR, OFFICE COORDINATOR or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. **Professional Service**
   a. Editing or refereeing articles or proposals for professional journals or organizations.

   b. Active participation in professional organizations.

   c. Active participation in discipline-oriented service organizations.

   d. Committee chair or officer of professional organizations.

   e. Organizer, session organizer, or moderator for professional meetings.

   f. Service on a national or international review panel or committee.

4. **Evaluation of Service**
   Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC INDICES FOR COOPERATIVE EXTENSION SERVICE ACTIVITY, AND FOR PROMOTION & TENURE.

SINCE SERVICE IS THE MAJORITY OF THE WORKLOAD OF CES FACULTY, IN ADDITION TO UNIVERSITY REGULATIONS ON EVALUATION OF PUBLIC AND UNIVERSITY SERVICE ADDITIONAL INDICES FOR DOCUMENTING EFFECTIVE SERVICE FOR CES FACULTY MAY INCLUDE THE FOLLOWING:

ASSOCIATE PROFESSOR: EVIDENCE OF DEPARTMENT, PUBLIC AND UNIVERISTY SERVICE MAY INCLUDE SOME OR ALL, BUT IS NOT LIMITED TO III.D.1 AND III.D.2 AND THE FOLLOWING:

1. AUTHORSHIP OF CES PUBLICATIONS WITH A DOCUMENTED RECORD OF PEER REVIEW.

2. DOCUMENTATION OF SERVICE ACTIVITIES PLANNED IN AN ENGAGED, TWO-WAY, CONTINUING PROGRAMMATIC BASIS.

3.- TESTIMONIALS & LETTERS DEMONSTRATING OUTCOMES

AND/OR EFFECTIVENESS OF SERVICE ACTIVITIES.

4. DOCUMENTING PUBLIC NEEDS AND ENGAGING THE RESOURCES OF THE UNIVERSITY AND OTHER ENTITIES IN MEETING THOSE NEEDS.

5. DOCUMENTING IMPACTS WHICH RESULT FROM ENGAGED PUBLIC SERVICE ACTIVITIES

FULL PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. SIGNIFICANT CONTRIBUTIONS MAY INCLUDE:

1. INVITATIONAL SERVICE ON NATIONAL OR INTERNATIONAL BOARDS, PUBLICATION & GRANT REVIEW COMMITTEES, AWARD COMMISSIONS OR SCHOLARSHIP COMMISSIONS.

2. NATIONAL LEADERSHIP IN A PROFESSIONAL ORGANIZATION.

3. RECOGNITION THROUGH INVITATIONAL SPEAKING ENGAGEMENTS WHICH CONSTITUTE PUBLIC SERVICE SUCH AS KEYNOTE ADDRESSES AT CONFERENCES, MEETINGS AND EVENTS NOT SPONSORED BY CES.

4. OUTSTANDING UNIVERSITY SERVICE, SUCH AS SERVICE AS A FACULTY SENATE OFFICER, FACULTY SENATE COMMITTEE CHAIR, CHAIR OF A FACULTY SEARCH COMMITTEE, OR MEMBER OF A MAJOR ADMINISTRATIVE SEARCH COMMITTEE.

5. RECOGNITION THROUGH RECEIPT OF PUBLIC SERVICE AWARDS, OR AWARDS FOR SERVICE TO THE UNIVERSITY.

6. RECEIPT OF A NATIONAL ASSOCIATION, USDA, OR PROFESSIONAL SOCIETY SERVICE AWARD.

7. PARTICIPATION IN A VOLUNTARY MENTORING RELATIONSHIP WITH JUNIOR FACULTY TO FACILITATE THEIR PROGRESS TOWARD PROMOTION AND TENURE.

*Correction: Effective Fall 2013
per the Office of Admissions and the Registrar

The UAF Faculty Senate passed the following motion at Meeting #187 on December 3, 2012 (as amended on the floor):

MOTION:

The UAF Faculty Senate moves to approve a new minor in Emergency Management within the School of Management.

Effective: Spring 2013*

Rationale: See the program proposal #63-UNP on file in the Governance Office, 312B Signers' Hall.

****

Overview:

There is an increasing interest among students to obtain additional exposure to the growing field of emergency management. Organizations within the public and private sectors are establishing emergency response policies, continuity of operations plans, and actively building and training emergency response teams. This minor allows students with other primary career interests to develop in the emergency management arena, broaden their base of experience and bring additional skills to their careers and communities.

The selected courses provide a base of understanding in emergency issues and allow students some flexibility in choosing courses which interest them. The options allow them to select courses that focus on communications, on business practices or on planning and response in the event of emergency.

Proposed Minor Requirements:

1. Complete the following:*
   HSEM F301 - Principles of Homeland Security & Emergency Management – 3 credits

2. Choose 3 of the following:*
   HSEM F412 – Emergency Planning and Preparedness – 3 credits
   HSEM F423 – Disaster Response Operations and Management – 3 credits
   HSEM F434 – All Hazards Risk Analysis – 3 credits
   HSEM F445 – Business Continuity and Crisis Management – 3 credits
   HSEM F456W – Leadership and Influence During Crisis – 3 credits

3. Choose at least 3 credits from the following:
   GEOS/GEOG F222 - Fundamentals of Geospatial Sciences – 3 credits
   GEOS F120X Glaciers, Earthquakes, and Volcanoes: Past, Present, and Future – 4 credits **
   BA F317W – Employment Law – 3 credits
   BA F490 – Services Marketing – 3 credits

COMM F335O – Organizational Communications – 3 credits
COMM F353 – Conflict, Mediation, and Communication – 3 credits
BA F452W – Internship in Emergency Management – 3 credits
Or course(s) approved by Program Director

* Students must earn a C grade (2.0) or better in these classes.
Note: an Emergency Management minor is not available to students earning a Bachelor of Emergency Management degree.

**May be used to satisfy half of the core science requirement.

Relationship to the Purposes of the University:

Providing a minor in emergency management would meet student demand for those in other programs who have expressed interest in emergency management. Students who have approached the program recognize their future employment requires peripheral knowledge regarding the emergency management profession and that this knowledge would be of benefit in securing employment or promotion.

Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

*Correction: Effective Fall 2013
per the Office of Admissions and the Registrar

The UAF Faculty Senate passed the following motion at Meeting #187 on December 3, 2012:

MOTION:

The UAF Faculty Senate moves to approve a new minor in Interdisciplinary Studies.

Effective: Spring 2013 *

Rationale: See the program proposal #90-UNP on file in the Governance Office, 312B Signers' Hall.

****

Overview:

The Interdisciplinary Minor is intended to add breadth to baccalaureate programs. It provides flexibility to students who have well-defined goals that do not fit into one of the established minors offered by the university. In addition, many students, especially military students, arrive at UAF with substantial transfer credits in fields where UAF does not have a minor. For example, a service member who has completed medic training transfers in a substantial number of credits; however, many of these credits do not transfer in as UAF's Allied Health courses for several reasons. Creation of this minor would allow such students to complete their programs more quickly by recognizing a body of knowledge and skills they have fulfilled at other institutions.

Proposed Minor Requirements:

Interdisciplinary Minor

1. Contact the Academic Advising Center at 907-474-6396 or 1-888-823-8780 for materials and procedures.

2. Prepare and submit a draft declaration of interdisciplinary minor form and submit it electronically to the Academic Advising Center at uaf.advising@alaska.edu or in person at 509 Gruening Building. This form asks the student to provide a title for their minor, briefly describe the body of knowledge and skills intended to fulfill the minor, including courses specifying the knowledge and skills relevant to the minor title (for example, Food Science minor including relevant coursework from transfer credits in Food Science from a regionally accredited university, as well as credits from chemistry, fisheries or natural resources management, and biological sciences). An interdisciplinary minor cannot be titled the same as an existing minor and must demonstrate a cohesive body of knowledge and skills. The approved title will appear on the student's transcript.

3. Three faculty proposed by the student and approved by the Dean of General Studies will serve as the interdisciplinary minor committee. This committee will ensure that an appropriate and cohesive body of knowledge and skills is addressed in the planned minor, ensure that the interdisciplinary minor does not overlap with an existing minor, and discuss alternatives with the student as needed. This committee and the Dean of General Studies must approve the draft declaration of minor for it to become effective.

4. Minimum credits required – 18 credits

*Student must earn a grade of C or better in each course.

Relationship to the Purposes of the University:

Creation of the interdisciplinary minor will allow the university to be responsive to demand. For example, sustainability, climate change, biotechnology, indigenous studies, or other developing emphasis areas could become minors initially through the interdisciplinary program, and, with sufficient demand, could be adopted as specific minors.

Jennifer M. Reynolds
President, UAF Faculty Senate

APPROVAL: _____ DATE: 12/4/12
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

ORIGINAL

The UAF Faculty Senate passed the following motion at Meeting #186 on November 5, 2012:

MOTION:

The UAF Faculty Senate agrees to discontinuation of the M.A.T. degree in Mathematics.

EFFECTIVE: Fall 2013

RATIONALE: During the 2010-2011 program review process, the Faculty Program Review Committee recommended that either the enrollment be increased or the program be discontinued. The Administration Program Review Committee and the Chancellor's Cabinet recommended the program be discontinued. The Mathematics Department did not appeal that recommendation.

Background and Information:

According to the UAF Catalog, M.A.T. (Master of Arts in Teaching) programs are designed "to serve baccalaureate graduates who qualify for the Alaska secondary school certificate, who intend to make secondary school classroom teaching their career, and who wish to take additional work in the teaching major and/or minor..." However, the UAF M.A.T. degrees have not attracted significant enrollment for many years. In particular, there has been only one M.A.T. Mathematics student enrolled and two degrees awarded since FY06. Enrollment has been zero since FY08.

Discontinuation of this program will have no effect on other programs, personnel, students, or budget, except that the department will be freed from administrative requirements of student learning outcomes assessment and program review. There are currently no students enrolled in this program, and admissions have been suspended pending Faculty Senate action. Therefore, the program can be discontinued immediately and does not require a teach out period.

ORIGINAL

The UAF Faculty Senate passed the following motion at Meeting #186 on November 5, 2012:

MOTION:

The UAF Faculty Senate agrees to discontinuation of the M.S. degree in General Science.

EFFECTIVE: Fall 2013

RATIONALE: During the 2010-2011 program review process, the Faculty Program Review Committee, the Administration Program Review Committee and the Chancellor's Cabinet recommended the General Science M.S. program be discontinued. The Physics Department (which administers this degree) did not appeal that recommendation.

Background and Information:

According to the UAF Catalog the general science program "offers MS degrees in the biological sciences, chemistry, the geosciences and physics. The M.S. degree may be described as a breadth degree rather than a depth degree, so the candidate normally pursues a course of study in one of these disciplines and is cooperating with at least one other discipline." A similar course of study could be followed through the Interdisciplinary Program, and there has been no demand for the M.S. in General Science recently. The M.S. in General Science had only one student in each of FY06 and 07, and zero enrollment since then. There have been no graduates since at least FY06.

Discontinuation of this program will have no effect on other programs, personnel, students, or budget, except that the department will be freed from administrative requirements of student learning outcomes assessment and program review. There are currently no students enrolled in this program, and admissions have been suspended pending Faculty Senate action. Therefore, the program can be discontinued immediately and does not require a teach out period.

****

Jennifer R. Reynolds
President, UAF Faculty Senate

APPROVAL: _____ DATE: 6 Nov 12
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate tabled the following motion at Meeting #186 on November 5, 2012:

MOTION:

The UAF Faculty Senate agrees to discontinuation of the PhD Degree in Mathematics.

EFFECTIVE: Fall 2013

RATIONALE: During the 2010-2011 program review process, the Faculty Program Review Committee recommended that the Ph.D. in Mathematics be continued, but stated "DMS should investigate ways to increase this number [of students] or make clear the reasons for the continuation of this program." The Administration Program Review Committee and the Chancellor's Cabinet recommended the Ph.D. in Mathematics program be discontinued. The Mathematics Department (which administers this degree) appealed that recommendation, but the appeal was denied by the Chancellor's Cabinet on the grounds that there was no evidence that enrollment would increase or other compelling reasons for continuation.

****

Background and Information:

There was total of only two Ph.D. in Mathematics graduates during the period from FY06 to present. Enrollment was 7 in FY06, but since then has ranged between 0 and 3 students. As shown below, there has been zero enrollment for a year. Of the students enrolled in 2009-10, two graduated and the other student is not expected to return.

Program Review Enrollment Data

Degree and major sought:	FY06	FY07	FY08	FY09	FY10
PHD Mathematics	7	2	3	3	2

Enrollment in the Mathematics Ph.D. Program by semester, 2009-present

Program	Su09	Fa09	Sp10	Su10	Fa10	Sp11	Su11	Fa11	Sp12	Su12	Fa12*
PHD	1	2	1	0	3	2	0	1	0	0	0

*As of October 25, 2012.

Additional factors are that the faculty member who has served as major professor for all recent Ph.D. students has left UAF, and that the program has persistently had low enrollment and graduates. During the previous program review period the enrollment had increased from zero (Fall 1999) to six (Fall 2004), but there were no doctoral degrees awarded. So, over the last 13 years there has been a total of only two graduates. The Program Review conducted in 2005-06 concluded in part:

> "We also support continuing the Ph.D. program for the next review period, but it will be subject to a serious re-evaluation in 2010. Several questions that must be addressed at that time are (1) Has a broader group of faculty, especially including some of the recent hires, begun advising Ph.D. students? (2) Has an enrollment of about 5-10 students been sustained? (3) Have a reasonable fraction of the students admitted before 2007 completed their degrees? (4) Have these students had successful

> outcomes, e.g., employment in their field, publication in peer-reviewed journals, etc.? Negative answers to most of these questions will probably result in termination of the program, or at least, suspension of admissions until a more favorable climate exists."

Discontinuation of this program will have little effect on other programs, personnel, students, or budget. The department will be freed from administrative requirements of student learning outcomes assessment and program review. The vacant faculty position can be refilled to focus on other department needs. There are currently no students enrolled in this program, and admissions have been suspended pending Faculty Senate action. Therefore, the program can be discontinued immediately and does not require a teach out period.

The UAF Faculty Senate passed the following at Meeting #185 on October 8, 2012:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsection A (page 13). This amendment modifies the bylaws regarding non-voting members of the Faculty Senate to conform with recent and current practice.

EFFECTIVE: Immediately.

RATIONALE: The Bylaws provide for nine non-voting members of the UAF Faculty Senate. These bylaws have not been followed in recent years. The following amendments to the bylaws change the number of non-voting members to seven and adopt recent practices as official Faculty Senate policy.

Jennifer L. Reynolds
President, UAF Faculty Senate

****

CAPS = Addition

[[ ]] = Deletion

Sect. 1 (ART III: Membership)

A. The membership of the Faculty Senate, hereinafter referred to as "Senate," ... **FOUR** [[Six]] non-voting members will be selected by and from other university constituencies as follows: one [[non-graduate student and one graduate]] student selected by the ASUAF; one **DEAN OR DIRECTOR SELECTED BY THE PROVOST** [[professional school dean and one college dean selected by the Deans' Council]]; one staff representative from the registrar's office; and one additional staff member selected by the Staff Council. [[If the staff representative from the registrar's office is APT, the second staff member must come from the classified staff ranks. If the staff representative from the registrar's office is classified, the second staff member must be APT.]] Three additional non-voting members will be selected by and from the **FACULTY** unions as follows: one elected official each from United Academics-AAUP/AFT, UAFT, **AND** Adjuncts (United Academics)-AAUP/AFT.

The UAF Faculty Senate passed the following at Meeting #185 on October 8, 2012:

MOTION:

The UAF Faculty Senate moves to conduct reapportionment of representation among the qualifying units at UAF.

EFFECTIVE: November 2012.

RATIONALE: According to Faculty Senate Bylaws, "Re-apportionment will be done in the year of accreditation review of UAF, expected to be every seven years, or upon two-thirds vote of the Senate." The Libraries faculty have requested that the Faculty Senate conduct reapportionment under the second option, requiring a two-thirds vote of the Senate.

Until recently Library faculty were academically housed in the College of Liberal Arts (CLA) and the Libraries faculty were represented on the Faculty Senate as part of CLA. In the past year the Libraries have become an independent unit and their dean now reports directly to the Provost. They also wish to have separate representation on Faculty Senate.

Reapportionment will be conducted by the Faculty Affairs Committee with October 2012 data provided by the Provost's Office, and the results will take effect with the Faculty Senate elections in Spring 2013.

Jennifer R. Reynolds
President, UAF Faculty Senate

****

The UAF Faculty Senate did not pass the following proposed motion at Meeting #185 on October 8, 2012:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsection B (page 14). This amendment removes a requirement that all represented units have at least 2 Senators.

EFFECTIVE: November 2012

RATIONALE: Apportionment of representatives on the Faculty Senate is calculated based on the number of qualifying faculty in the unit. Units with as few as 9 faculty now qualify for representation, and for the smallest units the "minimum 2 senators" rule (plus 1 alternate) requires participation by up to one third of their faculty at all times. This is likely to result in unwilling and/or unrepresentative Senators, serving neither the interests of the unit nor of the Faculty Senate.

This amendment to the bylaws would drop the "minimum 2 senators" rule, so that the smallest units would be represented by 1 senator rather than 2. It would not change whether or not a unit qualified for representation on the Faculty Senate.

This change would go into effect with the upcoming reapportionment in November 2012 and would affect elections in Spring 2013.

****

CAPS = Addition

[[ ]] = Deletion

Sect. 1 (ART III: Membership)

B. Representation shall be by academic or research unit and based on the number of qualifying faculty in each unit as described below.

[[7. Each unit will have at least 2 representatives.]]

The UAF Faculty Senate did not pass the following at Meeting #185 on October 8, 2012:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsections A and B (pages 13-14). This amendment increases the target number of elected seats in the Faculty Senate.

EFFECTIVE: November 2012

RATIONALE: The Bylaws specify a target number of 35 elected senators, to be apportioned among the units according to the number of qualifying faculty in each unit. In practice, because of the "minimum 2 senators" rule that is addressed by a separate motion the UAF Faculty Senate has had 37 senators for approximately a decade until reapportionment in Fall 2010. This reapportionment added two small units and increased the size of the Faculty Senate to 39 elected members. That is the current size.

The Faculty Senate functions well with 39 elected senators, and it is easier to fully staff the Standing and Permanent Committees with this larger number of senators. If the Faculty Senate removes the rule that all units have a minimum of 2 senators without making other changes to the Bylaws, the number of senators will drop to the Bylaws' target level of 35 senators. This amendment would enable the Faculty Senate to remain at its present size if the "minimum 2 senators" rule is removed. All seats would be distributed proportionately, according to the number of faculty in each unit.

This change would go into effect with the next reapportionment and would affect the first elections thereafter.

****

CAPS = Addition

[[ ]] = Deletion

Sect. 1 (ART III: Membership)

A. The membership of the Faculty Senate, hereinafter referred to as "Senate," shall consist of approximately **45 [[**41**]]** members plus one non-voting presiding officer. Approximately **39 [[**35**]]** members shall be elected by and from the faculty and will have voting privileges.

…

B. Representation shall be by academic or research unit and based on the number of qualifying faculty in each unit as described below.

…

4. Each unit will elect the number of representatives to the Senate equal to the number of qualifying faculty in that unit divided by the total number of qualifying faculty at UAF, multiplied by **39 [[**35**]]** and rounded to the nearest integer.

The UAF Faculty Senate passed the following at Meeting #185 on October 8, 2012:

MOTION:

The UAF Faculty Senate moves to amend the academic policy regarding undergraduate probation.

EFFECTIVE: Fall 2013

RATIONALE: Adding the summer session to the undergraduate probation policy will help clarify this policy. No change is intended to the disqualification policy which would remain as it is (referring to fall/spring and spring/fall semesters).

Jennifer R. Reynolds
President, UAF Faculty Senate

APPROVAL: _____ DATE: 10/15/12

NOTE: The current printed version of the Catalog contains an error to the first sentence of this policy. However, the online version of the Catalog contains correct wording, which is used below.

Current *UAF Catalog* language from the online version, page 50:

PROBATION

Undergraduate students -- Students whose semester and/or cumulative GPA falls below 2.0 after each fall and spring semester will be put on academic probation. Students on probation may not enroll in more than 13 credits a semester, unless an exception is granted by the appropriate dean. Probation may include additional conditions, as determined by the dean of the college or school in which the student's major is located. Students on probation will be referred for developmental advising/education and/or to an advising or support counseling center. The student will work

with an academic advisor to prepare an academic plan for achieving a higher GPA; the advisor is responsible for forwarding this plan to the appropriate dean. A student on probation will not be allowed to register unless the academic plan is on file. Removal from probation requires the student's cumulative and semester GPAs to be at least 2.0.

CAPS = Additions
[[ ]] = Deletions

Proposed *UAF Catalog* policy language:

Undergraduate students -- Students whose semester and (or) cumulative GPA falls below 2.0 after **ANY SEMESTER INCLUDING THE SUMMER SESSION** will be put on academic probation.

...

The UAF Faculty Senate passed the following at Meeting #184 on September 10, 2012:

MOTION:

The UAF Faculty Senate moves to endorse the 2012-2013 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighed against membership distribution from schools and colleges. Now that questions of representation and availability have been resolved, the committee membership may be formally endorsed.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #184, September 10, 2012:

MOTION:

The UAF Faculty Senate moves to approve the elimination of the M.A.T. degree in Biology.

EFFECTIVE: Fall 2013

RATIONALE: As a result of the program review process, the Chancellor's Cabinet, the College of Natural Sciences and Mathematics, and the Department of Biology and Wildlife have recommended the program be discontinued. The proposal to discontinue the program is on file in the Governance Office, 312B Signers' Hall.

Jennifer A. Reynolds 9/10/2012
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 9/13/12
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Background and Information:

The deletion of this program will have virtually no effect on other programs, personnel, students, or budget. There are currently no students enrolled in this program and therefore can be discontinued immediately and will not require a phase out period.

While a copy of the original program approval is not available, the following is an extract from the July 23, 2009 UAF Academic Program Review Committee (a committee formed within CNSM at that time).

"The M.A.T. in Biology program is designed to offer a graduate degree to students who have a B.A. or B.S. in Biology and are interested in teaching biology in K-12 schools."

Further, the committee recommended the program be discontinued at that time:

> "No students have been enrolled in this program since 2003 and only 3 students have been awarded this degree. Doug Schamel, who was very passionate about K-12 education but passed away a number of years ago, led this program. If there were potential students (K-12 teachers/interns) interested in this program and a faculty who were interested in leading it, then it would be a good program to keep in place. However, given the faculty resource allocation in DBW and the lack of interest, the committee recommends removing the program from the DBW even though it currently incurs no cost to the program."

As stated earlier, there are currently no students enrolled in the program; in fact, since the time of the assessment in 2009, there have been no students enrolled in the program.

The UAF Faculty Senate passed the following at Meeting #184 on September 10, 2012:

RESOLUTION

REAFFIRMATION OF COMMITMENT TO SHARED GOVERNANCE

WHEREAS, the University administration has recently demonstrated a lack of commitment to the principle of shared governance through its decisions to close the Office of Multicultural Affairs and Diversity (OMAD) and the UAF Women's Center without including governance organizations in the decision-making process; and

WHEREAS, Regents Policy requires the University to "provide an effective opportunity for university faculty, staff and students to play a meaningful role in matters affecting their welfare"[1] through participation in shared governance; and

WHEREAS, the closing of the UAF Women's Center and OMAD has the potential to not only negatively affect the welfare of women, people of color, and their allies, but will have far-reaching adverse effects on the entire UAF community who have come to rely on these centers for educational outreach, advocacy, nurturing student academic success, cultural programming, support, bridge-building, informational networking, collaborative partnerships with the community and academic departments, student engagement, volunteer opportunities including student internships, referrals, rape awareness, proactive student retention activities, community connections, gathering space, library and other resources, professional development activities, activism against multiple forms of discrimination and prejudice[2]; and

WHEREAS, Faculty Senate and other UAF governance organizations were excluded from the discussions and the decisions about the closure of the two offices whose missions are to advocate for women and people of color who are members of the UAF community; now

THEREFORE BE IT RESOLVED, that the Faculty Senate urges the University administration to reaffirm its commitment to the principle of shared governance.

Jennifer R. Reynolds 9/10/2012

Faculty Senate President Date

[1] Regents Policy, Part III—Faculty, Staff and Student Governance, Chapter 03.01.D.1

[2] From the published mission statements, websites, and publications from OMAD and the Women's Center

The UAF Faculty Senate passed the following at Meeting #184, September 10, 2012:

Background:

The following resolution was first passed at Faculty Senate Meeting #146 in November 2007, and was endorsed by a letter distributed to the UAF faculty in Fall 2008. Since then the Provost has annually provided this resolution to all Faculty Review Committees. The Faculty Senate reaffirmed this resolution (as written) at Meeting #176 in September 2011. For the academic year 2012-2013, the Administrative Committee submits an updated resolution to the Faculty Senate Meeting #184 on September 10, 2012.

RESOLUTION

WHEREAS the members of Faculty Review Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion and Comprehensive review (Pre and Post-tenure);

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University and the integrity of the academic process; and

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review;

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2012-2013 review cycle.

RATIONALE:

1. Faculty Review Committee meetings are first designated "open" or "closed" by the Committee. If the Committee votes to allow "open" meetings, then the choice moves to the candidate, consistent with all other relevant UAF rules and procedures. If the Committee votes for a "closed" meeting, then the candidate has no choice in the matter.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate. This increases confidence in the process.

3. If the candidate is present at the meeting, the Committee can query the candidate for clarification of the file, which can greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational. Candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety and uncertainty about the process.

Jennifer R. Reynolds 9/10/2012

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to adopt the following calendar for its 2012-2013 meetings.

EFFECTIVE: Immediately

RATIONALE: Dates must be firmed up for the meeting schedule to allow for advance planning, and Wood Center room reservations must be scheduled well in advance.

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2012. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 8, 2012

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

*with correction to last page!
"UA Museum of the North"

*Passed with a friendly amendment on the Faculty Senate floor to the Curator statement on the last page of the criteria (see underlined below):

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM OF THE NORTH WITH A FACULTY APPOINTMENT IN ART TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE ART DEPARTMENT WILL EVALUATE THE CURATOR'S SERVICE RECORD TAKING INTO CONSIDERATION THE RECOMMENDATION OF THE UA. MUSEUM OF THE NORTH COMMITTEE.

UAF Regulations for the Appointment and Evaluations of Faculty And Art Department Unit Criteria, Standards, and Indices

The following is an adaptation of UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of the Art Department. Items in boldface italics are those specifically added or emphasized because of their relevance to the department faculty, and because they are additions to UAF regulations.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.
These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

Chapter II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM OF THE NORTH WITH A FACULTY APPOINTMENT IN ART TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED IN TEACHING TO THE DEPARTMENT. THE ART DEPARTMENT WILL EVALUATE THE CURATOR'S TEACHING RECORD***

1. **Effectiveness in Teaching**

   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success ***BY PROVIDING INSIGHTFUL CRITIQUES IN AN INDIVIDUAL OR GROUP CONTEXT; THE ABILITY TO RUN EFFECTIVE, CORDIAL AND INSIGHTFUL GROUP CRITIQUES IS ALSO IMPORTANT;***

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, ***TEACHING RESIDENCIES***, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

h. ***THE "HANDS ON" NATURE OF STUDIO ART MUST BE RECOGNIZED. DEMONSTRATE TECHNICAL MASTERY AND THE ACQUISITION OF NEW TECHNIQUES INCLUDING DIGITAL MEDIA, DATABASES AND THE INTERNET.***

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

ART FACULTY ARE EXPECTED TO CONSISTENTLY CREATE AND EXHIBIT NEW WORK. THE STATURE OF THE EXHIBITION SPACE AND SCALE OF THE EXHIBIT SHOULD ALSO BE CONSIDERED. NOTE THAT AN ART HISTORIAN'S RESEARCH WILL BE LARGELY PRESENTATION, PUBLICATION, AND CURATORIAL WHILE A STUDIO ARTIST'S WILL BE LARGELY EXHIBITION BASED. A DIGITAL ARTIST WILL NORMALLY PRESENT WORK IN WEB BASED OR OTHER DIGITAL FORMAT. STUDIO ARTISTS, BOTH TRADITIONAL MEDIA AND DIGITAL, NORMALLY MAKE PUBLIC SPEAKING PRESENTATIONS AS A PART OF THEIR WORK.

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM OF THE NORTH WITH A FACULTY APPOINTMENT IN ART TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE ART DEPARTMENT WILL EVALUATE THE CURATOR'S CREATIVE ACTIVITY AND RESEARCH RECORD.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings, ***CATALOGS*** and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline. ***ONLINE MAGAZINES AND OTHER DIGITAL PUBLICATIONS ARE VALID VENUES IF SUBJECT TO REVIEW AND APPROVAL BY PEERS.***

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, ***MUSEUMS, ART CENTERS AND ALTERNATIVE SPACES AS WELL AS SITE SPECIFIC LOCATIONS,*** selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics. ***BOTH JURIED AND INVITATIONAL GROUP AND SOLO EXHIBITS ARE VALID FORUMS. ONLINE VENUES ARE ALSO APPROPRIATE FOR DIGITAL WORK EXHIBITION. THE SELECTION PROCESS FOR EXHIBITIONS IS COMPETITIVE AND COMPARABLE TO PUBLISHING IN REFEREED JOURNALS. SOLO EXHIBITIONS SHOULD TAKE PLACE EVERY TWO YEARS ON AVERAGE AND PARTICIPATION IN JURIED OR INVITATIONAL GROUP SHOWS SHOULD TAKE PLACE FREQUENTLY, ON AVERAGE AT LEAST TWO TIMES A YEAR.***

   e. ***SOLO AND COLLABORATIVE*** performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship, ***INCLUDING ACQUISITION OF WORK BY PROMINENT PRIVATE, CORPORATE AND PUBLIC COLLECTIONS.***

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study, **INCLUDING ARTIST-IN-RESIDENCES.**

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. ***CREATION OF PUBLIC ART COMMISSIONED BY LOCAL, STATE OR NATIONAL GOVERNMENT OR PRIVATE ORGANIZATIONS.***

o. ***APPLIED RESEARCH SUCH AS BUILDING AND DESIGN OF EQUIPMENT OR PROCESSES USING HISTORICAL AND/OR CONTEMPORARY TECHNOLOGIES.***

p. ***SERVING AS CURATOR OF AN EXHIBIT AT A RECOGNIZED INSTITUTION SUCH AS A MUSEUM, GALLERY OR ALTERNATIVE SPACE.***

q. ***PUBLIC SCREENING AND BROADCAST OF VIDEO/FILM WORKS.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership

competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. **Professional Service**
   a. Editing or refereeing articles or proposals for professional journals or organizations.

   b. Active participation in professional organizations.

   c. Active participation in discipline-oriented service organizations.

   d. Committee chair or officer of professional organizations.

   e. Organizer, session organizer, or moderator for professional meetings.

   f. Service on a national or international review panel or committee.

4. **Other Service: Curation**
   CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM OF THE NORTH (UAMN) WITH A FACULTY APPOINTMENT IN ART TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE ART DEPARTMENT WILL EVALUATE THE CURATOR'S SERVICE RECORD TAKING INTO CONSIDERATION THE RECOMMENDATION OF THE UAF MUSEUM COMMITTEE.

   CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:

   a. MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);

b. INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;

c. FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;

d. MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);

e. DIRECTING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

f. WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;

g. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;

h. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS.

i. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS THAT PERTAIN TO THE COLLECTION.

j. SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE AT THE RANK OF ASSISTANT PROFESSOR. EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

i. CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA AND THE CIRCUMPOLAR NORTH AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.

ii. COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.

iii. CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.

iv. CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION

STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.

v. *CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGUES OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAMN.*

vi. *CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CURATION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.*

vii. *CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA. IN THIS REGARD, PREPARATION OF SMALL EXHIBIT IS APPROXIMATELY THE EQUIVALENTS OF PUBLICATION OF A PROFESSIONAL ARTICLE; PROJECT DIRECTION OF A LARGE COMPLEX EXHIBIT THAT INCLUDES PREPARATION OF A SERIOUS CATALOGUE IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A SCHOLARLY BOOK.*

viii. *CURATORS WILL ACTIVELY PREPARE GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.*

k. *SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE AT THE RANK OF ASSOCIATE PROFESSOR*

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH MUST BE EVIDENT.

l. *SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE AT THE RANK OF PROFESSOR*

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF

RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. THEY MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.

5. **Evaluation of Service**

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM OF THE NORTH WITH A FACULTY APPOINTMENT IN ART TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE ART DEPARTMENT WILL EVALUATE THE CURATOR'S SERVICE RECORD TAKING INTO CONSIDERATION THE RECOMMENDATION OF THE UAl MUSEUM OF THE NORTH COMMITTEE.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 3, Article V: Committees, subsections A and E. This amendment shall reassign the responsibilities of the Faculty Appeals and Oversight Committee, and then dissolve the Faculty Appeals and Oversight Committee.

EFFECTIVE: Fall 2012

RATIONALE: After a period of discovery and inquiry as to the roles, responsibilities and recent and historic activities of the Faculty Appeals and Oversight Committee, the Faculty Affairs Committee is recommending that the Faculty Appeals and Oversight Committee have its responsibilities reassigned, and thereafter, that committee is dissolved.

After evaluation of the findings and thorough discussion of this topic, the Faculty Affairs Committee arrived at the conclusion that, while activities, roles and duties of the Faculty Appeals and Oversight Committee should be retained by the Faculty Senate, these activities do not warrant a ten-member committee for implementation, as it now stands.

Responsibilities of the Faculty Appeals and Oversight Committee include acting as a pool to provide members, acting on behalf of United Academics, to serve on the faculty Appeals Board. The committee members also oversee evaluation of academic administrators. Per the Grade Appeals Policy and Appeals Policy for Academic Decisions, a member of the Faculty Appeals and Oversight Committee is to be appointed to the (respective) review committees, when qualified members are available.

This motion will reassign oversight of administrator reviews to the Administrative Committee; reassign the "faculty Appeals Board" responsibility to the Faculty Affairs Committee; and Dissolve the Faculty Appeals and Oversight Committee. Reassignment of participation in the processes of Grade Appeals Policy and Appeals Policy for Academic Decisions shall occur in subsequent motions.

Cathie J. Cahill 5/7/12

President, UAF Faculty Senate Date

****

CAPS and **Bolded** – Addition
[[ ]] = Deletion

A. An Administrative Committee will be composed of the chairpersons of all standing Senate committees and of permanent Senate Committees. The Provost of UAF shall be an ex-officio, non-voting member. Specific duties of the Administrative Committee in its obligation to fully prepare the agenda and materials for efficient operation of the Senate are:

1. Receive reports from the president of the Senate, the Provost, and, as deemed timely, other individuals, on issues of current and future importance to the Senate;

2. Accept and review the motions of standing and permanent committees, and from members of the Administrative Committee;

3. Make certain that the motions are ready for Senate action to the maximum degree possible, and if not, refer them back for further work and/or direct them to other relevant committees that may not have considered the motions;

4. Move the motions to the Senate's agenda;
5. Review and approve other items of the Senate's agenda, as deemed necessary;

6. Review reports of all committee work in progress; and

7. Discuss other issues, which may or should lead to later committee and senate actions.

In addition,
8. Within the scope of authority granted by the Senate at the last meeting of the spring semester, the Administrative Committee will represent the Senate from the close of the last Senate meeting in the spring until the opening of the first Senate meeting of the fall semester; and

9. At the first meeting in the fall semester make a report of all actions carried out in the name of the Senate since the last meeting in the spring semester.

10. THE ADMINISTRATIVE COMMITTEE SHALL OVERSEE THE PROCESS OF EVALUATION OF ACADEMIC ADMINISTRATORS.

•

•

•

E. The standing and permanent committees of the Senate are:

STANDING

1. The Curricular Affairs Committee will deal with curricular and academic policy changes on all levels except the graduate level.

In addition to the non-voting ex officio member(s) appointed by the provost, the committee may add non-voting ex officio members for one-year terms as deemed necessary.

2. The Faculty Affairs Committee shall review issues dealing with faculty prerogative and recommend policy changes to the Faculty Senate. Issues of faculty prerogative include academic freedom, faculty ethics, research and creative activity, and legislative and fiscal issues that may impact faculty concerns at the university. The committee will act as a faculty advocate with legislators and candidates. In its concern for fiscal issues the committee shall monitor budget appropriations to the university and evaluate any notice to the faculty of financial exigency. In performing these duties, the committee will coordinate as necessary with the relevant officers (and/or their representatives) of the extant collective bargaining units who serve as non-voting members of the Senate and ex-officio members of this committee.

THE COMMITTEE WILL ALSO ACT AS A POOL TO BE DRAWN UPON TO ACT AS THE UNITED ACADEMICS REPRESENTATIVES TO THE FACULTY APPEALS BOARD. THE CHAIR OF THE FACULTY AFFAIRS COMMITTEE WILL APPOINT,

FROM THE COMMITTEE, TENURED MEMBERS OF THE UNITED ACADEMICS BARGAINING UNIT WHO WILL SERVE ON THE PARTICULAR APPEALS BOARD. IF NO QUALIFIED FACULTY MEMBERS ARE AVAILABLE WITHIN THE FACULTY AFFAIRS COMMITTEE, THE MATTER WILL BE REFERRED TO THE FACULTY SENATE PRESIDENT FOR APPOINTMENT OF FACULTY SENATORS TO THE FACULTY APPEALS BOARD.

3. The Unit Criteria Committee will review proposed unit criteria for evaluation of faculty submitted by the various peer-review units of UAF, and to work with the heads of those units (or their designees) to ensure that their criteria are consistent with criteria defined in the UAF Faculty Appointment and Evaluation Policies and Regulations "Blue Book". The committee will also review proposed changes to the "Blue Book."

To ensure that perspectives from across UAF are represented, membership will consist of faculty senators, with one member drawn from each of the following schools/colleges: CLA; CRA/CES; CSEM; SFOS; Engineering; and one from SNRAS, SoEd, or SOM.

PERMANENT

1. The Graduate Academic & Advisory Committee will include ten faculty members. The Dean of the Graduate School, Director of the Library, the University Registrar, and two graduate student, are non-voting ex-officio members. The committee will be responsible for the review and approval of graduate courses, curriculum and graduate degree requirements, and other academic matters related to instruction and mentoring of graduate students. The committee will also have responsibility for oversight, review and approval of all professional degree courses and programs including 500-level courses. The committee will advise the Dean of the Graduate School and the Provost on administrative matters pertinent to the operation and growth of graduate studies at UAF, including financial and tax-related issues and dealings with other universities.

2. The Student Academic Developmental and Achievement Committee will include one representative from each of the following units of the College of Rural and Community Development: Bristol Bay Campus, Chukchi Campus, Interior-Aleutians Campus, Kuskokwim Campus, Northwest Campus, and the Community and Technical College. One or more of these should be from rural campus student services. The committee will also include one representative from the Department of Developmental Education; two at large representatives from the College of Natural Sciences and Mathematics: one from the Sciences (Biology, Chemistry, Geology, or Physics), and one from Math; one from the College of Liberal Arts English Department; and one each from Rural Student Services, the Academic Advising Center, and the Student Support Services Program.

The Student Academic Developmental and Achievement Committee shall consider policies concerning student development and retention. This committee will function as a curriculum review committee for all developmental education courses and other courses facilitating student progress.

3. The Faculty Development, Assessment and Improvement Committee will be composed of faculty members and a representative from the Office of Faculty Development to be selected by the Provost. This committee will deal with faculty and instructional development and evaluation.

[[4. The Faculty Appeals and Oversight Committee shall be composed of two tenured faculty members, elected from each college/school and confirmed by the Faculty Senate.

Faculty appeals will be dealt with in accordance with the appropriate union contract.

The committee will act as a pool to be drawn upon to act as the United Academics representatives to the Appeals Board. The chair of the Faculty Appeals and Oversight committee will select, from the committee, members of the United Academics bargaining unit who will serve on the particular Appeals Board.

Committee members shall oversee the process of evaluation of academic administrators.]]

4[[5]]. The Curriculum Review Committee evaluates proposed substantive undergraduate course and program additions, changes, and deletions submitted by the appropriate school/college curriculum committees. Among the topics of its review are number and duplication of courses, credit assignment, establishment of need for new programs, and resource impacts of curricular changes. Decisions of the Curriculum Review Committee may be appealed to Curricular Affairs by the department submitting the proposal. The Committee shall be composed of the chairs of the college/school curriculum councils, the University Registrar or the Registrar's designee, and shall be chaired by a member of the Curricular Affairs Committee.

5[[6]]. The Core Review Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the core curriculum at UAF. The Core Review Committee coordinates and recommends changes to the core curriculum, develops the process for assessment of the core curriculum, regularly reports on assessment of the core curriculum, monitors transfer guidelines for core courses, acts on petitions for core credit, and evaluates guidelines in light of the total core experience. This committee will also review courses for oral, written, and natural science core classification.

The committee shall be composed of one faculty member from each of the core component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, and Library Science) and one faculty member from a non-core component area. Membership on the committee will include an undergraduate student, and representatives from the colleges specifically tasked with core assessment.

6[[7]]. The Committee on the Status of Women. Membership will consist of nine people, two of whom will be a senator, the others to be elected at large from among UAF faculty.

The purpose of this committee is to monitor the status of women faculty at UAF and to work proactively for gender equity.

Such actions will include, but are not limited to: Maintaining lists of women faculty with hire, tenure and promotion dates; Organizing and supervising surveys on the status of women and assessing the cultural climate of the university as it pertains to women; Recommending policy to address the needs of women faculty; Supporting mentoring of women, both new and mid-career faculty, including running workshops on mentoring, promotion & tenure, negotiating techniques and other forms of faculty development identified as necessary; Addressing family-work issues, such as child care, parental leave, spousal/partner hire; Coordinating with other campus and university groups which deal with women's and gender issues; and any other issues which would help women to achieve equity at UAF.

7[[8]]. The Research Advisory Committee. The Research Advisory Committee consists of up to ten voting members, a chair and a co-chair, along with at least one ex officio member who is the vice chancellor research. The committee exists to review the issues of researchers at the

University of Alaska Fairbanks and to provide reports, recommendations, and resolutions to the UAF Faculty Senate on behalf of the UAF research community. The Research Advisory Committee will provide a connection between the faculty and the UAF vice chancellor for research, and advise the VCR on developing productive relationships with the different research facilities across UAF.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to amend the UAF Faculty Senate Bylaws, Section 3, Article V: Committees, subsection E, Permanent Committees.6. and to approve the Core Review Committee's authority to revoke O or W status (Oral intensive or Writing intensive designator) for classes following the second consecutive time that they fail to pass review by the Core Review Committee.

EFFECTIVE: Fall 2012

RATIONALE: Many classes with the O or W designator fail multiple assessments by the Core Review Committee. The appropriate Dean and Department Chair are then informed of the need to bring syllabi into conformity with the O or W guidelines, but often no changes are made. It is hoped that this will spur action.

Catherine J. Cahill 5/7/12

President, UAF Faculty Senate Date

CAPS = Addition
[[ ]] = Deletion

SECTION 3 (ART V: COMMITTEES), SUBSECTION E., PERMANENT COMMITTEES:

6. The Core Review Committee reviews and approves courses submitted by the appropriate school/college curriculum councils for their inclusion in the core curriculum at UAF. The Core Review Committee coordinates and recommends changes to the core curriculum, develops the process for assessment of the core curriculum, regularly reports on assessment of the core curriculum, monitors transfer guidelines for core courses, acts on petitions for core credit, and evaluates guidelines in light of the total core experience. This committee will also review courses for oral, written, and natural science core classification. **IF THE COMMITTEE DETERMINES THAT A COURSE FAILS TWICE IN A ROW TO MEET O OR W GUIDELINES AS SPECIFIED BY THE FACULTY SENATE, THE COMMITTEE SHALL HAVE THE POWER TO REVOKE O OR W DESIGNATORS FROM THAT COURSE.* COMMITTEE ACTIONS MADE PRIOR TO MARCH 1 WILL BECOME EFFECTIVE IN THE NEXT YEAR'S CATALOG. DESIGNATORS WILL BE RESTORED AS SOON AS THE COURSE HAS BEEN REAPPROVED BY THE COMMITTEE AS ONCE AGAIN CONFORMING TO O OR W GUIDELINES.**

***AS FOUND AT: HTTP://WWW.UAF.EDU/UAFGOV/FACULTY-SENATE/CURRICULUM/COURSE-DEGREE-PROCEDURES-/GUIDELINES-FOR-CORE-DESIG/**

The committee shall be composed of one faculty member from each of the core component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, and Library Science) and one faculty member from a non-core component area. Membership on the committee will include an undergraduate student and representatives from the colleges specifically tasked with core assessment.

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to adopt the recommendation of the Core Review Committee requiring a syllabus statement for Oral Intensive O and O/2 courses.

EFFECTIVE: Fall 2012 and/or upon chancellor's approval

RATIONALE: The Core Review Committee's assessment of W and O course syllabi has found that there is frequent confusion amongst some faculty members about the general and specific requirements for the three options of the oral intensive O designator and for the single O/2 designator. The inclusion of this statement in a course syllabus will make explicit the general course requirements for the O or O/2 designation and provide a reference location for the numerous specific requirements. Inclusion of this statement will make the syllabus requirement for the O and O/2 courses consistent with the existing syllabus requirement statement for Writing Intensive W courses, per Faculty Senate Meeting #109 on May 6, 2002. No new course requirements result from this action. These syllabus requirements should be added to the Faculty Senate's "UAF Syllabus Requirements."

****

Syllabus Statement Regarding the Oral-Intensive (O) Requirement:
This statement, or a statement similar to it, MUST appear in the syllabus of each "O" or "O/2" course. Courses failing to provide this information jeopardize their continuing status as "O" or "O/2" courses.

This course is designated as Oral-Intensive (O). This designation means that the "O" or "O/2" is evident in the course number on the syllabus (e.g., Education F452 O). The designation applies to upper-division courses. ORAL ACTIVITIES IN THIS COURSE WILL FOLLOW THESE RULES:

- A minimum of 15 percent of the graded work in the O course (7.5 percent for "O/2") will be based on effectiveness of oral communications.
- Students will receive intermediate instructor assistance in developing presentational competency.
- Students will utilize their communication competency across the span of the semester, not just in a final project.
- Students will receive instructor feedback on the success of their efforts at each stage of preparing their presentations.

In addition, THE SPECIFIC REQUIREMENTS APPROPRIATE FOR THE PARTICULAR 'O' OPTION REPRESENTED BY THE COURSE (FOUND AT http://www.uaf.edu/uafgov/faculty-senate/curriculum/course-degree-procedures-/guidelines-for-core-desig/) WILL BE LISTED.

Motion to adopt the recommendation of the Core Review Committee requiring a syllabus statement for Oral Intensive O and O/2 courses.

4. A [[The dean will appoint a]] 5 member review committee **WILL BE APPOINTED AS FOLLOWS** [[composed of the following]]:

a. **THE DEAN SHALL APPOINT** one non-voting tenure-track faculty member from the academic unit in which the course was offered (other than the instructor of the course). This individual shall serve in an advisory role.

b. Two tenure-track faculty members from within the college or school but outside of the unit in which the course was offered **SHALL BE APPOINTED. ONE OF THESE MEMBERS SHALL BE APPOINTED BY THE DEAN. THE OTHER SHALL BE APPOINTED BY THE FACULTY SENATE PRESIDENT. THIS PERSON SHALL BE A MEMBER OF THE FACULTY SENATE (INCLUDING ALTERNATE MEMBERS), IF AVAILABLE.** [[If available, one of these two members will be selected from the members of the UAF Faculty Appeals and Oversight Committee.]]

c. One tenure track faculty member from outside the college or school in which the course was offered. **THIS PERSON SHALL BE A MEMBER OF THE FACULTY SENATE (INCLUDING ALTERNATE MEMBERS). THE SENATE MEMBER SHALL BE APPOINTED BY THE FACULTY SENATE PRESIDENT.** [[If available, this member is to be selected from the members of the UAF Faculty Appeals and Oversight Committee.]]

d. The fifth member, to be appointed by the dean, will be a non-voting student representative.

e. The campus judicial officer or his/her designee shall serve as a nonvoting facilitator for grade appeals hearings. This individual shall serve in an advisory role to help preserve consistent hearing protocol and records.

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Geophysics.

EFFECTIVE: Fall 2012
Upon Chancellor's approval.

RATIONALE: See the program proposal #12-UNP on file in the Governance Office, 312B Signers' Hall.

****

Overview:

The Department of Geology and Geophysics currently has a minor focused on the geology side of the department, but no minor available for those interested in Geophysics. We regularly get students interested in Geophysics because of its application to the oil industry, volcanoes, earthquakes, glaciers, climate, and related studies relevant to living and working in Alaska. Because of the prerequisites necessary to accomplish the coursework proposed for this minor, the most likely students to request it are Physics, Math, Chemistry, Engineering or similar majors. In particular the Geophysics minor can provide these students with rigorous, quantitative, intriguing Earth Science applications for the theories and fundamentals they are acquiring as students in these other departments. UAF has a world-renowned research program in geophysics. The minor would help connect the geophysics expertise to a pool of undergraduate students seeking to gain breadth and flexibility for future opportunities in either academia or the workforce.

Proposed Minor Requirements:

Geophysics Minor

1. Complete the following*:
   - GEOS Fl0IX- The Dynamic Earth ..... 4 credits
   - GEOS F112X- The History of Earth and Life ... 4 credits
   - GEOS F377 0- Ice in the Climate System ..... 3 credits
   - GEOS F318- Solid Earh Geophysics- ..... 3 credits
   - GEOS F406- Volcanology ..... 3 credits
   - GEOS F431- Foundations of Geophysics..... 4 credits
   - Minimum credits required..... 21 credits

Relationship to the "Purposes of the University":

The Geophysics Minor highlights the diversity of topics housed beneath the Geoscience umbrella and provides students with a clear path to a concentration in geophysics. Because the minor consists of courses required for all Geoscience students (GEOS 101 and GEOS 112) and courses

that are central to the Geophysics Option (all other courses), the minor places no additional demands on faculty workloads. Unless this minor attracts more than 5 students per year, we do not foresee a need for additional space. Therefore, while we expect a small increase in enrollments within the Geoscience degree program, the minor provides a service to students at little cost to the department or college.

The Geophysics Minor is intended to provide a path for students in Physics, Math, Chemistry, Engineering or other science who wish to learn in more depth about how the basic sciences can be applied to study the Alaskan landscape. As mentioned above, we regularly get students interested in Geophysics because of its application to the oil industry, volcanoes, earthquakes, glaciers, climate, auroras, environmental engineering, and related studies relevant to living and working in Alaska. This program will provide a connection between UAF undergraduate students and UAF's world renown expertise in Geophysics in research and graduate studies. In particular, this minor would provide a conduit for undergraduate students to engage in innovative research pertinent to Alaska's changing landscapes.

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Geospatial Sciences.

EFFECTIVE:	Fall 2012 Upon Chancellor's approval.
RATIONALE:	See the program proposal #11-UNP on file in the Governance Office, 312B Signers' Hall.

****

Overview:
Earth is our habitat and it is important to understand that it works as a dynamic system that changes with time. Geospatial science uses information technology to understand people, places, and processes on the Earth. Knowledge of fundamental principles behind geospatial sciences, and skill-to use technology and apply it for decision-making, will empower our students to be success in personal and professional life.

The Department of Geology and Geophysics and the Geography Department are heavily vested in Geospatial Sciences. Faculty and leadership of both Departments have been working closely over the last year not only to raise the bar for geospatial science education, but also to make it widely appealing and accessible. This minor strengthens those ongoing efforts.

The positive impact of offering this minor are that it will provide an opportunity to a broad base of undergraduate students to learn about and use geospatial technology for understanding the Earth system and Earth processes. It will prepare the students to use technology for spatial orientation, mapping, planning and decision making. This knowledge and skill-set is high in demand in industry and this minor will prepare students to join the growing geospatial workforce.

This minor will prepare the undergraduate students to first understand that the Earth is a dynamic system and that exploring the evolution of the Earth helps to provide context to the present and future of the planet Earth. The minor then focuses on providing students with an introduction to geospatial sciences (remote sensing, geographic information systems (GIS) and global positioning systems (GPS), followed by honing student's skill sets in using emerging technologies in geospatial sciences.

The sequence of courses prescribed for the minor helps the students to systematically meet the above mentioned objectives.

Proposed Minor Requirements:

Geospatial Sciences
College of Natural Science & Mathematics

1. Complete the following:
   - GEOS FlOIX--The Dynamic Earth ..... 4 credits
   - GEOS Fl12X-The History of Earth and Life ..... 4 credits
   - GEOS/GEOG F222--Fundamentals of Geospatial Sciences ..... 3 credits
   - GEOS F225--Field and Computer Methods in Geology ..... 2 credits
   - GEOS F458--Geoscience Applications of GPS and GIS ..... 3 credits
   - GEOS F422--Geoscience Applications of Remote Sensing ..... 3 credits
2. Minimum credits required ..... 19 credits

Relationship to the "Purposes of the University":

This minor is anticipated to:
- have high appeal
- improve enrollments
- provide experiential learning as courses have hands- on lab component)
- prepare students to join the industry and be successful

Catherine J. Cahill 5/7/12
President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Geographic Information Systems (GIS).

EFFECTIVE:	Fall 2012 Upon Chancellor's approval.
RATIONALE:	See the program proposal #46-UNP on file in the Governance Office, 312B Signers' Hall.

****

Overview:

Geographic Information Systems or GIS has become an industry and agency standard for the collection, manipulation, display and query of all forms of topographic, geographic, climate, environmental (geology, plant communities, landforms) and human (population, culture, infrastructure) spatial data. From within SNRAS, we have been asked to create a minor in GIS for students majoring in Natural Resource Management. GIS perfectly complements, and is in fact often a required tool in most resource and management careers. It is logical that such a minor would equally complement other majors on campus by providing a valuable job skill that today is extensively used in many fields.

The recent development and proposal for a new course GEOG/GEOS 222 Fundamentals of Geospatial Sciences (part of a collaborative effort with Geology and Geophysics and a shared Geospatial Sciences concentration between departments) fits well in the GIS minor and adds a valuable introduction to geospatial sciences and breadth to the minor in GIS.
The NRM degree and concentrations / departments within SNRAS will all benefit by being able offer NRM majors a minor in GIS.

Students majoring in many other disciplines will benefit from the opportunity to complement their course of study with high demand knowledge and skills in GIS. Many federal and state agency jobs have minimum credit requirements in GIS and related coursework, and this minor will improve employment prospects for students applying for jobs in public and private sector fields such as wildlife management, range management, mining, fisheries, forestry, engineering, journalism, natural resource management, emergency management, insurance, environmental impact assessment, urban planning, etc, . It is also expected that a GIS minor on the books will increase enrollment in the courses listed. The opportunity earn a minor in GIS (from a range of disciplines and degrees) may attract more incoming students to UAF as well.

Geography currently offers a minor in "Geography" aimed mostly at students who wish to broaden their education with basic geography, regional, and/or environmental/human geography coursework. This new minor specifically in GIS allows students to have "GIS" on their diploma and clearly defines a set of classes, knowledge and skills acquired.

Geography faculty and faculty from Geology and Geophysics have worked collaboratively to develop a Geospatial Sciences *concentration* within their respective degrees. However, no other minor or certificate program in Geographic Information Systems currently exists at UAF. No negative impact on any programs or departments is expected.

Proposed Minor Requirements:

Geographic Information Systems (GIS)

Complete the following:

GEOG F111X Earth and Environment: Introduction to Physical Geography (4 cr)
GEOG/GEOS F222 Fundamentals of Geospatial Sciences (3 cr)
GEOG F309 Digital Cartography and Geo-visualization (4 cr)
GEOG F338 Introduction to GIS (3 cr)

Complete one of the following:

GEOG 435 GIS Analysis (4 cr)
GEOG F430 Google Earth and Neogeography (3 cr)
NRM F369 GIS and Remote Sensing for Natural Resources
GEOG 300 Internship in Geography (if in GIS, and approved by dept chair)
or any GIS related course approved Geography Dept chair

Minimum credits required 17

Relationship to the "Purposes of the University":

Justification of a GIS Minor at UAF:
We believe that a minor in GIS will serve many students at UAF, allowing them to complement and strengthen their existing major with the highly marketable GIS skills, and geographic perspective, provided in this minor. We have had many requests over the past few years for a GIS minor from students majoring in NRM, Wildlife Biology, Fisheries, Marine Science, etc. A minor in GIS could potentially serve students in biology and wildlife, anthropology, earth science, engineering/mining, social sciences, all areas of management, business, and emergency planning.

GEOG F111X Earth and Environment (a university core natural science lab course) introduces students to the basic principles and driving forces of geologic, biologic, and climatic processes shaping the surface of the Earth. The course explores the interconnectedness of these systems, as well as the impact of human activity on the physical environment. The lab fosters critical thinking through the collection, analysis and evaluation of various types of data. Students are introduced to the concepts of spatial sciences and the practical use of topographic maps, aerial photos, satellite imagery, and some of the technological tools used to view, interpret, and query geographic patterns on Earth. A broad exposure to dynamic natural (geologic, biologic, climatic) systems and processes, and the patterns they create, makes this a perfect course to successfully segue students from various disciplines into the field of geography and the widely applied tools of GIS.

The other courses (GEOG/GEOS 222, GEOG 309, GEOG 338) emphasize the governing principles and tools used in mapping, visualization, and Geographic Information Systems. An ability to choose among specified courses and/ or an internship experience, will allow students to shape part of the GIS minor toward their specific academic and career interests.

Justification and Background in GIS (and application in many career fields):
GIS allows us to view, question, interpret, understand, and visualize data in many ways that reveal relationships, patterns, and trends in physical, biological, climatic and human systems on Earth. The interdisciplinary nature of many problems and the increasingly global nature of human activity is moving the field of Geography and the central tool of Geographic Information Systems (GIS) to the forefront of research, management, and decision making at local, regional, national, and global scales.

Having originally emerged from the discipline of Geography, GIS has become an essential tool in many disciplines from resource management, wildlife biology, planning, hazards and risk assessment, business, and medical and social science fields. Students with a minor in GIS will enter their respective careers with a basic understanding and skill set in GIS.

Justification of Minor in Context of Career Training and Certification:
This program satisfies the educational requirements of the GIS Certification Institute's professional GIS certification. Although there does not currently exist a national standardized GIS certification system, numerous institutes and agencies are working to define certification programs or minimal requirements for specific jobs. This minor is a first logical step in a planned development of certification program in GIS currently being developed in Geography program and School of Natural Resources and Agricultural Sciences. The result could be 'GIS certification' (however that takes shape nationally) earned via a minor in GIS, and/or undergraduate course work (e.g. via Geospatial Sciences concentrations), and/or possibly a post-graduate certification program.

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Paleontology.

EFFECTIVE:	Fall 2012 Upon Chancellor's approval.
RATIONALE:	See the program proposal #10-UNP on file in the Governance Office, 312B Signers' Hall.

****

Overview:

Paleontology is an interdisciplinary field; graduate paleontology programs may be housed within geology or biology departments. We regularly receive inquiries from students of biology and anthropology who are interested in taking paleontology courses, and the recent addition of a vertebrate paleontologist to our faculty has added new breadth and expertise to our paleontology curriculum. The current Geology minor provides a flexible option for students, but does not provide a clear path for students interested in fossil organisms. The proposed Paleontology minor is designed to provide a customized emphasis for interested BA students, Anthropology majors, or Biological Sciences majors who wish to add breadth to focus on a topic of lifelong interest, add breadth to their degree program, or pursue graduate studies in paleontology, respectively. The foundation courses will provide students with a solid grounding in geological concepts and practices. The electives allow students to strengthen their understanding of sedimentary environments and biostratigraphy (GEOS 322), investigate the morphology and evolution ofa particular group (invertebrates GEOS 315W; vertebrates GEOS 486, or plants GEOS 453), master fossil preparation and curation skills (GEOS 3170) or explore the classic and current paleontological literature (GEOS 485).

Proposed Minor Requirements:

Paleontology

College of Natural Science & Mathematics

1. Complete the following foundation courses:
GEOS FIOIX--The Dynamic Earth ..... 4 credits
GEOS F112X-The History of Earth and Life ..... 4 credits

2. Complete three of the following Paleontology electives:
GEOS F315W--Paleobiology and Paleontology ..... 4 credits
GEOS F322--Stratigraphy and Sedimentation ..... 4 credits

GEOS F3170--Paleontological Research and Laboratory Methods..... 2 credits
GEOS 453--Palynology and Paleopalynology ..... 4 credits
GEOS F486--Vertebrate Paleontology ..... 3 credits
GEOS F485-Mass Extinctions, Neocatastrophism and the History of Life ..... 3 credits

3. Minimum credits required ..... 16-20 credits

Relationship to the "Purposes of the University":

Paleontology is an exciting area of current research in Alaska and an area of growing expertise in the Dept. of Geology and Geophysics. UAF paleontologists Druckenmiller and Fowell receive regular inquiries from students who would like to study paleontology, conduct undergraduate research or volunteer at the VA Museum. Because of the interdisciplinary nature of the field, students often have difficulty figuring out which department offers paleontology courses. Many students search for a "paleontology department" and are confused not to find one. The proposed paleontology minor will help students to locate paleontology courses, expose students to results from ongoing research projects, connect faculty with interested undergraduate researchers and volunteers, and provide a conduit for disseminating new discoveries in Alaskan paleontology.

The proposed minor highlights the diversity of topics housed beneath the Geoscience umbrella and provides students with a clear path to a concentration in paleontology. Because the minor consists of courses required for all Geoscience students (GEOS 101 and GEOS 112) and elective courses that are central to the Geology (GEOS 322) and Paleontology Options (all other courses), the minor places no additional demands on faculty workloads. Unless the Paleontology minor attracts upwards of 5 students per year, we do not foresee a need for additional space. Therefore, while we expect a small increase in enrollments within the Geoscience degree program, the minor provides a service to students at little cost to the department or college.

In short, the proposed Paleontology minor will Educate, exposing students to current and classical research in the field of paleontology; Prepare students for graduate studies, biostratigraphy positions in the petroleum industry or jobs as museum technicians; Connect active researchers with an interested undergraduate population; Engage students from other BS and BA programs through active learning and student-driven projects; and Discover, offering research and field opportunities to talented undergraduates.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND SCHOOL OF EDUCATION UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE SCHOOL OF EDUCATION DEPARTMENTS. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENTS' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching, ***INCLUDING CLINICAL SUPERVISION;*** 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

IN ADDITION TO THE UNIVERSITY COMMUNITY, SCHOOL OF EDUCATION FACULTY SERVE ALASKA'S SCHOOL DISTRICTS. MUCH OF OUR TEACHING, RESEARCH, AND SERVICE ARE CONDUCTED IN AND FOR SCHOOLS. WE THEREFORE SERVE THREE CONSTITUENCIES – UNDERGRADUATE AND GRADUATE STUDENTS; OUR PROFESSIONAL RESEARCH COMMUNITY; AND K-12 SCHOOLS, INCLUDING DISTRICTS, TEACHERS, K-12 STUDENTS, AND THEIR FAMILIES AND COMMUNITIES.

SCHOOL OF EDUCATION PROGRAMS AND COURSES ARE RESPONSIVE TO STATE LICENSURE REQUIREMENTS, NATIONAL ACCREDITATION REQUIREMENTS, AND STATE BOARD OF EDUCATION AND UA BOARD OF REGENTS' MANDATES FOR THE PREPARATION OF K-12 TEACHERS, COUNSELORS, AND ADMINISTRATORS. THESE REQUIREMENTS CHANGE PERIODICALLY, WHICH REQUIRES REGULAR REVISION TO OUR CURRICULA. THUS CURRICULAR REVISION IS A REGULAR ASPECT OF THE INSTRUCTIONAL ROLE OF FACULTY.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

FACULTY RESPONSIBLE FOR ADVISING REMOTELY-LOCATED STUDENTS TYPICALLY PROVIDE NUMEROUS SUPPLEMENTAL SERVICES TO STUDENTS. THESE ACTIVITIES MAKE ADVISING OF REMOTELY-LOCATED STUDENTS A TIME INTENSIVE ACTIVITY, WHICH SHOULD BE TAKEN INTO CONSIDERATION IN THE TENURE AND PROMOTION PROCESS.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited

to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

h. MAY ENGAGE IN DIVERSE INSTRUCTIONAL ACTIVITIES SUCH AS TEACHING AT RURAL OR BRANCH CAMPUSES, TEACHING DISTANCEDELIVERED COURSES, TEACHING IN SUMMER SCHOOL, AND DEVELOPMENT OF CURRICULUM MATERIALS, PROFESSIONAL DEVELOPMENT WORKSHOPS AND COURSES FOR TEACHERS AND EDUCATORS, INCLUDING THOSE UNIQUELY SUITED TO ALASKAN SCHOOLS.

i. MAY PROVIDE SUPERVISION OF STUDENTS DURING FORMAL CLINICAL PRACTICE, STUDENT TEACHING, OR INTERNSHIPS.

j. MAY INVOLVE STUDENTS, UNDERGRADUATES AS WELL AS GRADUATES, IN RESEARCH ACTIVITIES.

2. Components of Evaluation

Effectiveness in teaching AND OTHER INSTRUCTIONAL ACTIVITIES will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms, and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s), *OR SIMILAR OBSERVATIONS OF INSTRUCTION OUTSIDE CLASSROOMS,*

d. peer/department chair evaluation of course materials.

ADDITIONAL SOURCES OF EVIDENCE OF EFFECTIVENESS IN TEACHING MAY CONSIST OF BUT ARE NOT LIMITED TO:

e. INSTRUCTOR MAY UTILIZE A CLASS PRETEST/POST TEST.

f. EXAMPLES OF STUDENT PROGRESS OR SKILLS, REPRESENTED BY IMPROVEMENTS IN EARLY AND LATE SEMESTER SKILLS **OR PRODUCTS, OR OTHER MECHANISMS THAT CAN DOCUMENT IMPROVEMENT.**

g. INSTRUCTOR-DESIGNED STUDENT OPINION OF INSTRUCTION TO SUPPLEMENT (NOT REPLACE) UAF-APPROVED INSTRUCTIONAL ASSESSMENT SYSTEM.

h. LETTERS OF SUPPORT FROM STUDENTS OR PEERS.

SPECIFIC SOE CRITERIA FOR INSTRUCTIONAL PERFORMANCE BEFORE PROMOTION TO:

ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE MATERIAL TAUGHT IS RELEVANT AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT NOT LIMITED TO) COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, EFFECTIVE ADVISING AND MENTORING OF STUDENTS, EFFECTIVE CLASSROOM TEACHING PERFORMANCE, AND/OR EVIDENCE OF SUPERVISION OF GRADUATE STUDENT RESEARCH (AS A MAJOR SUPERVISOR OR CO-SUPERVISOR) LEADING TO SUCCESSFUL COMPLETION OF THE DEGREE PROGRAM.

PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE MAY INCLUDE, BUT ARE NOT LIMITED TO: CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS, AWARDS FOR EXCELLENCE IN TEACHING, LEADERSHIP IN DIRECTING GRADUATE STUDENTS' RESEARCH, SIGNIFICANT EXPERIENCE AS GRADUATE COMMITTEE CHAIR LEADING TO SUCCESSFUL COMPLETION OF GRADUATE DEGREE PROGRAM(S), AND/OR EFFECTIVE RECRUITMENT OR RETENTION OF STUDENTS, AS EVIDENCED BY LETTERS OF SUPPORT FROM ADVISEES OR OTHER ADVISORS.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may include ***THE FOLLOWING ITEMS, WHICH THE UNIT CONSIDERS TO BE IMPORTANT SUPPLEMENTARY CONSIDERATIONS IN THE PROMOTION AND TENURE PROCESS***:

   a. Books, ***BOOK CHAPTERS, EDITED BOOKS,*** reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses, ***INCLUDING ELECTRONIC JOURNALS AND PRESSES,*** that accept works only after rigorous review and approval by peers in the discipline.

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

   c. Presentation of research papers ***OR INVITED PAPERS*** before learned societies that accept papers only after rigorous review and approval by peers.

   d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

   e. Performances in recitals or productions ***RELATED TO THE FIELD OF EDUCATION,*** selection for these performances being based on stringent auditions and approval by appropriate judges.

   f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications. ***TEXTBOOKS, CURRICULA, OR CURRICULA MATERIALS FOR K-12 SCHOOLS OR COLLEGES THAT RESULT IN PUBLICATIONS THAT ARE PEER REVIEWED OR EDITORIAL BOARD REVIEWED.***

h. Published abstracts of research papers. ***NATIONAL AND STATE EDUCATIONAL POLICY AND PLANNING THAT RESULTS IN PEERREVIEWED OR EDITORIAL BOARD REVIEWED PUBLICATION.***

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline. ***PRODUCTION OF EDUCATIONAL VIDEOTAPES OR MULTIMEDIA DIGITAL WORKS REVIEWED AND UTILIZED BY SCHOOLS, COLLEGES OR COMMUNITIES.***

j. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as ***EDUCATIONAL MODELS***, computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. DEVELOPMENT OF CURRICULA OR CURRICULA MATERIALS THAT ARE REVIEWED AND UTILIZED BY STATE OR LOCAL AGENCIES, SCHOOL DISTRICTS OR COMMUNITY BOARDS.

SPECIFIC SOE CRITERIA FOR SCHOLARSHIP PERFORMANCE BEFORE PROMOTION TO:

ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH, SCHOLARLY, OR CREATIVE PROGRAM AS EVIDENCED BY ANY OF THE FOLLOWING: REFEREED PROFESSIONAL JOURNALS, BOOKS, BOOK CHAPTERS, AND/OR EDITED BOOKS, PEER REVIEWED OR REVIEWED BY AN EDITORIAL BOARD, PROFESSIONAL REPORTS OR SCHOLARLY PRODUCTS, CURRICULAR MATERIALS, OR OTHER APPROPRIATE CREATIVE PRODUCTS IN THE FIELD OF SPECIALIZATION.

THE SUBMISSION OF RESEARCH PROPOSALS, THE COMPLETION OF CONTRACT RESEARCH REPORTS, AND PUBLICATION IN CONFERENCE PROCEEDINGS CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE SCHOLARLY PROGRAM IS OF HIGH QUALITY. MUST SHOW EVIDENCE OF SUSTAINED SCHOLARLY PRODUCTIVITY. THE FACULTY MEMBER SHOWS INDEPENDENCE AND LEADERSHIP BY THE CREATION OF SCHOLARLY IDEAS THAT INVOLVE COLLABORATIONS WITH PEERS IN

THEIR FIELD OF SPECIALIZATION, STUDENTS, SCHOOL PERSONNEL OR PERSONNEL IN STATE OR NATIONAL ORGANIZATIONS.

RESEARCH AND SCHOLARLY ACTIVITY IN EDUCATION IS NOTABLY COLLABORATIVE IN NATURE. THUS IT IS CONSIDERED COMMON PRACTICE IN THE FIELD TO PRODUCE PUBLICATIONS OR OTHER PRODUCTS COLLABORATIVELY. TO DEMONSTRATE A CONSISTENT FLOW OF RESEARCH, A FACULTY MEMBER'S COMPLETE PUBLICATION RECORD, INCLUDING PAPERS PUBLISHED PRIOR TO THEIR AFFILIATION WITH THE UAF SCHOOL OF EDUCATION IS RELEVANT TO PROMOTION AND TENURE DECISIONS. CANDIDATES WILL DEMONSTRATE RELEVANT RESEARCH THROUOUT THEIR CAREER, AS WELL AS ADEQUATE PERFORMANCE IN RESDIENCE AT UAF.

PROFESSOR: THE SCHOLARLY PROGRAM SHOULD HAVE PRODUCED CLEAR EVIDENCE THAT CANDIDATE IS A LEADER IN THEIR FIELD. PUBLICATIONS AND OTHER PRODUCTS SHOULD BE OF SUFFICIENT QUALITY AND QUANTITY TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL SCHOLARLY PROGRAM. A NATIONAL OR INTERNATIONAL REPUTATION (AS DEMONSTRATED BY PROFESSIONAL ACTIVITIES OR PRESENTATIONS AT MEETINGS, THE RECEIPT OF AWARDS, AND DOCUMENTED OPINIONS OF OTHERS IN THE FIELD IS EXPECTED. THERE SHOULD BE A RECORD OF SUCCESSFUL COMPLETION OF GRADUATE WORK BY HIS OR HER STUDENTS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth. b.

Service on or to government or public committees. c.

Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting ***IN THE FACULTY MEMBER'S AREA OF EXPERTISE AND DISCIPLINE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE.***

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings. i.

Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media, ***NON-REVIEWED CURRICULAR MATERIALS, INFORMATIONAL BULLETINS, JOURNALS AND NEWSLETTERS UTILIZED BY STATE OR LOCAL AGENCIES, SCHOOL DISTRICTS OR COMMUNITY BOARDS.***

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. PROVIDING PROFESSIONAL DEVELOPMENT FOR K-12 TEACHERS AND OTHER K-12 SCHOOL PERSONNEL AND COMMUNITY MEMBERS.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office. f.

Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations. d.

Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings. f.

Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SOE FACULTY TYPICALLY DEVOTE A SIGNIFICANT PERCENTAGE OF THEIR ACTIVITIES TO SERVICE. DUE TO UA BOARD OF REGENTS' AND OTHER UA ADMINISTRATIVE MANDATES, ALASKA DEPARTMENT OF EDUCATION AND EARLY DEVELOPMENT LICENSURE REQUIREMENTS, AND THE REQUIREMENTS OF NATIONAL ACCREDITATION (E.G., NCATE), FACULTY HAVE RESPONSIBILITIES TO NUMEROUS COLLABORATIVE RELATIONSHIPS WITH ENTITIES EXTERNAL AND INTERNAL TO THE UNIT. SOME COLLABORATIONS RESULT IN FREQUENT TRAVEL AND SERVICE ON NUMEROUS COMMITTEES. THESE ACTIVITIES ARE OF

GREAT IMPORTANCE TO THE UNIT AND SHOULD BE EVALUATED AS SUCH.

SPECIFIC SOE CRITERIA FOR SERVICE PERFORMANCE BEFORE PROMOTION TO:

ASSOCIATE PROFESSOR: CONTRIBUTIONS TO DEPARTMENT/ SCHOOL/COLLEGE/UNIVERSITY MATTERS. CONTRIBUTIONS TO THE PUBLIC, INCLUDING INDUSTRY, GOVERNMENT AGENCIES AND SERVICE TO THE PROFESSION.

PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. CONTRIBUTIONS TO DEPARTMENTAL/SCHOOL/ COLLEGE/ UNIVERSITY MATTERS ARE EXPECTED AS WELL AS EFFECTIVE APPLICATION OF EXPERTISE TO PROFESSIONAL AND PUBLIC ORGANIZATIONS.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #183, May 7, 2012:

RESOLUTION:

The UAF Faculty Senate respects the goals of, but nevertheless rejects joining "Complete College America." Instead, the UAF Faculty Senate urges the Alaska State Legislature and the administration of the University of Alaska to support and encourage programs that recognize Alaska's considerable regional diversity and are tailored to address the goals of Alaska's students, rather than to bind Alaska to a rigid set of one-size-fits-all national education rules. Our best strategy is to provide support, preparation, and access to programs and degrees without any real or implied penalty for length of time to degree completion and without compromising the quality of our programs or individual classes.

Motivation

- The entire faculty, staff, and administration of the University of Alaska Fairbanks support measures to increase the ability of students to make use of UAF's educational opportunities.
- We note that 40 percent of incoming UAF students are non-traditional, enrolling after a gap of more than one year after high school graduation. A significant number of UAF students hold jobs, are raising families, and juggle a number of other life concerns while attempting to earn a degree, making graduation in four years as a measure of "success" an unrealistic ideal, yet their graduation after a longer time period is a major accomplishment and success for them.
- A large percentage of students enrolled at UAF transfer in or out at some point, complicating both one-size-fits-all program design and quantitative measures of student completion rates.
- The UAF Faculty Senate holds that no student should be denied the experience of higher education that meets the student's own definition of success or learning goals, and holds that we should be celebrating the graduation of all our students, not just those who are able to graduate the fastest.
- The University of Alaska Fairbanks should continue to work towards finding better ways to provide accessibility and flexibility for ALL our students to realize their educational goals.
- The one-size-fits-all approach of Complete College America is not appropriate for our student body. The University of Alaska Fairbanks is in the best position to evaluate the needs of its own students and determine ways to meet those needs.
- Complying with the additional reporting requirements of Complete College America would be an additional, unproductive burden on university resources.

Background and Discussion

The Complete College America program was initiated in 2009 by the Bill and Melinda Gates Foundation in an effort to enlist state governments, principally the governors, to reform higher education. The program now has additional foundation sponsors. Its goal is to increase completion rates for a "college degree or credential of value" from ~40% to ~60% by 2020. It recruits governors and state legislatures to its cause, seeing the universities and colleges themselves as the impediment to reform. At present, 30 states have joined this program, adopted its goals, and pledged to follow its requirements.

The stated national problem is insufficient completion of higher education degrees in the context of an increasing need for workers with post-secondary education. Specific problems cited are a national ~40% graduation rate in college degree and certificate programs, increasing time-to-degree, increasing student debt which grows with time-to-degree, and persistent attainment gaps for traditionally underrepresented populations.

The premise of the Complete College America program is that best practices/essential steps for increasing completion rates have been identified, but that recalcitrant colleges and universities are invested in current practices and will not change unless paid or forced to do so. State governments, in contrast, have a vested interest in actual success of students and higher education, and also have a great deal of leverage over public colleges and universities. CCA recommends that state governments should force change by requiring their public higher education institutions to adopt these best practices/essential steps. In other words, the idea is to shift higher educational policy-making away from the educational institutions and governing boards (e.g., Board of Regents) to the state legislative and executive branches which would be more responsive to the needs of the state and its students. From the CCA document "The Path Forward":

- "Institutions have strong incentives to shape reporting to mask failure and avoid confronting problems. States are much more likely than individual institutions to share and publish data to drive reform."
- "States are the best positioned to ensure reform across systems and campuses by setting goals, establishing uniform measures, and monitoring progress. They can also serve as the most efficient clearinghouses of best practices, allowing for rapid scaling of successful reforms."
- "Higher education attainment is inextricably linked to future economic success. State leadership will ensure stronger linkages between each state's economic needs and higher education delivery."

The Complete College America program issued the 2011 publication *Time is the Enemy*, which primarily advocates for full-time rather than part-time enrollment as a way to decrease time-to-degree, increase graduation rates, and decrease student debt. It also criticizes "excessive course-taking" and remedial coursework as factors that discourage students or hinder students' ability to complete degrees.

The Complete College America program also issued the 2012 publication *Remediation: Higher Education's Bridge to Nowhere*. The main theme of this publication is that most students who start in remedial classes ultimately do not graduate, and therefore remediation does not work and represents a dead end for students. It asks "Can an 'open access' college be truly open access if it denies so many access to its college-level courses?" Their research "shows that students who skip their remedial assignments do just as well in gateway courses as those who took remediation first." The report advocates either mainstreaming these students in full-credit courses with intensive tutoring support or redirecting them to "high-quality career certificate programs that embed extra help in the context of each course and lead to jobs that pay well."

From the CCA document "Structure and New Models":

> "New models are needed to significantly increase the number of students completing and completing on time. **This is systemic reform.** While colleges can implement these approaches differently, focusing on different programs and/or segments of the student population, colleges should be encouraged to **be responsive to all of these principals, not pick and choose among them**." (emphasis in the original)

The specific recommendations range from the mundane to quite dramatic. The full list is many pages long. Below are examples (some are paraphrased):

- Replace semesters with 4-8 week terms, "with fewer courses per term and fewer weeks away from school between the terms."
- "Utilize year-round attendance; no summers off."
- Require a prescribed set of courses and course sequencing for each program to reduce the complexity of registration, course selection, and the need for course advising.
- "Compress classroom instruction to reduce seat-time requirements and allow students to proceed at an accelerated pace." Classroom instruction is to be supplemented by other resources, e.g., online technology.
- "Embed remediation" in regular courses.
- "Require a certain number of credit hours be taken through online courses."
- "Offer prior learning assessments that allow students to demonstrate mastery of college-level content and test out of and/or earn credits for demonstrated mastery."
- "Require formal, on-time completion plans for every student upon enrollment, updated annually."
- "Require that students transferring with associate degrees have junior-level status at the four-year universities."
- "Enact credit caps of 120 credit hours for a Bachelor's degree and 60 credit hours for an associate degree so students do not earn excessive numbers of credits to complete a degree (allow exceptions only when necessary to maintain program accreditation)."
- "Charge students more for taking excess coursework of more than 12 additional credit hours beyond the credit caps..." [120 credits]

Some of the practices discussed by CCA are already in place in Alaska. For example, students who complete general education requirements at any of the three MAUs (UAA, UAF, UAS) can transfer to another MAU with that completion recognized. This is UA Regents' Policy. Other CCA practices are currently under discussion at UAF. One is the possibility of allowing students to demonstrate mastery of college-level content and waive certain general education (core) requirements, in order to allow students greater flexibility in selecting courses and designing their education while ensuring the intended learning outcomes.

However, some of the CCA requirements would directly contravene educational policies at UAF and systemwide. CCA requires a cap of 120 credit hours for Bachelor's degrees. In the UA system, Regents' Policy sets 120 credits as the minimum, not the maximum. Half of UAF's bachelor's degree programs currently exceed 120 credit hours, including some of its most prominent and successful undergraduate programs. Examples: Education 130 credits, Alaska Native Studies 130 credits, Earth Science 130 credits, Engineering and Mining programs 131-135 credits. There is necessarily a balance between the number of credits/courses to meet the intended learning outcomes for a degree, and the investment of time and resources this requires from both the university and the student. Undergraduate engineering programs nationwide have a higher course requirement and less room for electives than other majors; this is driven by the technical requirements of engineering, and for CCA to arbitrarily mandate that engineering programs (for example) must cap credit requirements at 120 credits would not be in the best interest of our engineering graduates, potential employers, or the State of Alaska. While engineering programs are accredited and might fall under the exception allowed by CCA, they serve as an easily understood example. Other programs also have discipline-specific reasons for their course requirements.

The Complete College America program is designed to interfere in a major way in the design of education programs in colleges and universities. It is deliberately designed as an inflexible, one-size-fits-all program in order to prevent states or higher education institutions from picking and choosing among what it sees as an essential set of prescribed practices. This structure is an attempt to remove options and

to direct the educational system from outside, to reorient it toward a specific set of priorities and "uniform metrics."

Like Complete College America, No Child Left Behind sets an ambitious goal for an educational system and imposes a rigid structure and set of requirements to force institutions to adopt its priorities and approaches. For Alaska, many of its provisions are impractical, counterproductive, and distract from other, locally developed solutions that would be more effective. They also crowd out educational experiences that are not deemed to be "essential." Similarly, the Complete College America program would eliminate much flexibility and choice both in terms of how UAF adapts to a changing world and changing needs of its students, and in terms of options that the students themselves have at UAF.

UAF needs to be able to respond to the needs and goals of its own students, without being constrained by mandates developed for students elsewhere. Ultimately, our priority is to graduate well-prepared students, and we will continue to be proactive in looking for good solutions for our students and our university.

Cathie F. Cahill 5/7/12

President, UAF Faculty Senate Date

OUTSTANDING SENATOR OF THE YEAR AWARD
FOR
ACADEMIC YEAR 2012

WHEREAS, David Valentine has served the University in the UAF Faculty Senate for four years at UAF; and

WHEREAS, David Valentine has served as Senator to the UAF Faculty Senate from 2010 through 2012; and

WHEREAS, David Valentine served on the Curricular Affairs Committee from 2010 to the present year, during which no less than 24 motions were passed and brought before Faculty Senate; and

WHEREAS, David Valentine has distinguished himself as an active and engaged colleague in the UAF Faculty Senate, particularly with regard for the need to revitalize the university core curriculum; and

WHEREAS, David Valentine has worked tirelessly to further the work of the General Education Revitalization Committee (GERC), and was instrumental through his efforts on the Curricular Affairs Committee in the formation of the GERC, chairing GERC in 2010-11 and helping to find a chair for that committee in 2011-12; and

WHEREAS, David Valentine has not only been an active participant in committee meetings, but has listened to his colleagues and treated all ideas and perspectives with respect (even when he has respectfully disagreed!); and

WHEREAS, David Valentine has brought wit, humor, and perspective to committee discussions while simultaneously fighting to uphold the highest possible academic standards at UAF; and

WHEREAS, David Valentine has demonstrated sharp insight and made valuable contributions to many discussions of the Faculty Senate that have far-reaching implications for faculty and students and the direction of university programs; now

THEREFORE BE IT RESOLVED THAT, the UAF Faculty Senate recognizes David Valentine as Outstanding Senator of the Year for Academic Year 2011-12.

Catherine J. Cahill

UAF Faculty Senate President
May 7, 2012

RECOGNITION OF SERVICE BY CATHERINE CAHILL

WHEREAS, Catherine Cahill has served the UAF Faculty Senate for nine years in a manner deserving of the UAF Faculty Senate's highest admiration and respect; and

WHEREAS, Catherine Cahill created a positive atmosphere for participation by UAF Faculty in shared governance of the University; and

WHEREAS, Catherine Cahill served as Senator to the UAF Faculty Senate from 2004-05 through 2006-07, and again during 2008-09; and

WHEREAS, Catherine Cahill served on the Graduate Academic and Advisory Committee as a member in 2004-05 and as chair in 2005-06 and 2006-07; and

WHEREAS, Catherine Cahill served as chair of the Faculty Affairs Committee in 2008-09; and

WHEREAS, Catherine Cahill served on the Faculty Senate Administrative Committee as a member from 2004-05 through 2006-07 and in 2008-09, and served as chair in 2009-10 and 2010-11 (twice as long as anyone in UAF Faculty Senate history); and

WHEREAS, Catherine Cahill served as a member of the UAF Governance Coordinating Committee from 2009-10 through 2011-12; and

WHEREAS, Catherine Cahill served as President-Elect of the UAF Faculty Senate in 2009-10 and 2010-11 (twice as long as anyone in Faculty Senate history); and

WHEREAS, Catherine Cahill served as President of the UAF Faculty Senate in 2011-12 with clear vision, distinguished dedication, and unflagging commitment; and

WHEREAS, Catherine Cahill effectively advocated for UAF Faculty and programs as a member of the UA Faculty Alliance from 2009-10 through 2011-12, notably with regard to the Academic Master Plan and the Tuition Task Force; and

WHEREAS, Catherine Cahill worked strategically and effectively on behalf of UAF Faculty on the Statewide Academic Council and Statewide Governance Council in 2011-12; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the truly outstanding service rendered the Faculty and the University by the work of Catherine Cahill as she concludes her term as President; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Catherine Cahill and expresses its appreciation for her exemplary service. (Hooray!)

Jennifer R. Reynolds

2012-13 UAF Faculty Senate President
May 7, 2012

The UAF Faculty Senate passed the following at Meeting #182, April 2, 2012 (as amended at the Faculty Senate Meeting):

RESOLUTION:

The UAF Faculty Senate recommends the following revised UAF Mission Statement:

****

CAPS = Additions
[[ ]] = Deletions

> The University of Alaska Fairbanks is a Land, Sea, and Space Grant university and an international center for research, [[and]] education, **AND THE ARTS,** emphasizing the circumpolar North and its diverse peoples. UAF integrates teaching, research, and public service as it educates students for active citizenship and prepares them for lifelong learning and careers.

Cathleen F. Cahill 4/3/12

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #182, April 2, 2012:

MOTION:

The UAF Faculty Senate moves to confirm by acclamation the nomination of David Valentine as 2011-2012 Outstanding Senator of the Year.

EFFECTIVE: Immediately

RATIONALE: A single nomination was received for the 2011-2012 Outstanding Senator of the Year Award. It was agreed, however, that the nominee was truly outstanding. Therefore, the Administrative Committee, containing members of the OSYA committee (including past award recipients, the Faculty Senate President-Elect, and the Provost) unanimously agreed to forward the confirmation of this nomination to Faculty Senate. A formal resolution shall be prepared for presentation to the recipient at the May meeting.

Catherine J. Cahill 4/2/12

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #182, April 2, 2012:

RESOLUTION:

WHEREAS
The University of Alaska Statewide administration has proposed a policy that the University of Alaska would not hire tobacco users, or anyone whose spouse or dependents are tobacco users;

WHEREAS
A university employee may have no knowledge or control over the tobacco use of family members such as a 25-year old dependent child;

WHEREAS
Tobacco use rates are high in some countries, including many with highly productive potential university faculty and staff, and this policy would limit hiring of these potential faculty and staff;

WHEREAS
The rate of tobacco use among Alaska Natives is approximately double that of the state population as a whole, and this policy would have a disproportionate effect on the hiring of Alaska Natives by the University of Alaska;

WHEREAS
Extrapolating medical costs from lifestyle choices and its use in hiring decisions suggests the potential of institutional control over other conditions such as weight, exercise, diet, sleep, and blood chemistry, and is a form of discrimination that contradicts University of Alaska non-discriminatory hiring policies;

AND WHEREAS
Many other avenues for cost reduction in the University of Alaska's approach to health care self-insurance have not been explored or tested, including numerous suggestions from the UA Joint Health Care Committee;

THEREFORE BE IT RESOLVED
The UAF Faculty Senate condemns the proposed policy of not hiring a specific group of people based on higher predicted medical expenses, and views this as incompatible with the operation of an open, inclusive institution.

Further, the UAF Faculty Senate urges the University of Alaska administration to actively investigate suggestions from the Joint Health Care Committee, in a collaborative approach to addressing the problem.

MEMORANDUM

DATE: May 2, 2012

TO: Cathy Cahill, President
Faculty Senate

FROM: Pat Gamble, President PKG

RE: Faculty Senate Resolution 182

This memo is in response to the UAF Faculty Senate resolution passed at meeting #182, April 2, 2012.

Thank you for the Faculty Senate input into the proposal that the University of Alaska not hire tobacco users as a long-term cost reduction to overall UA healthcare. I accept your resolution in opposition to the proposal. (Although it has become clear to me that the direction national healthcare is taking will, in fact, in the future, routinely place a personal healthcare cost on individual lifestyle choices ...a cost that is currently absorbed by the entire baseline of employees.) I also accept your observation that other avenues for cost reduction have not been explored. To that end I have approved a formal suggestion by the Staff Alliance to form a small independent task force to examine the multitude of non-traditional concepts you referred to that could replace our current pay-as-you-go process. In the meantime, HR has been directed to go back and, with JHCC, review suggestions made by a consultant a couple of years ago that were either rejected or not fully implemented at that time, to see if they have application today under our present more acute circumstances.

To be clear, nothing has been decided yet and constructive, viable suggestions (of which there are several so far) will get a full and fair vetting by Governance. It's important to keep in mind as we all wrestle with this burden that the costs we share for healthcare are the accumulation of actual individual medical charges for treatment. The university pays the provider directly as the bill comes in. The only fundamental way to significantly reduce those costs is to require less medical care. If we can't find a way to acknowledge

that and deal with it in our potential solution search, we will continue to lose ground to the increasing cost of growing medical bills.

I am committed to working this problem in a search for both near and long-term successful solutions with UAF Faculty Senate, JHCC, and all the Governance advising groups. Please thank your members for me for their contributions.

Warm regards,

PKG

Donald Smith, Interim Chief Human Resources Officer

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #181, March 5, 2012:

MOTION:

The UAF Faculty Senate moves to amend the Bachelor of Arts and the Bachelor of Science degree requirements as indicated below:

EFFECTIVE: Fall 2012

RATIONALE: There are many cases in which a course might be required for a major or a minor (example: PSY F101 for a BA in Psychology) but that course also carries a General Education designator (such as "S" for Social Sciences). Strictly interpreted the way it's written, the PSY F101 could not be counted toward the required credits in Social Sciences and Humanities, no matter how many PSY credits were earned (say, 36). This would have the unintended and unfortunate consequence of requiring well over 120 credits for a B.A. degree and well over 130 for a B.S. degree if the language is not altered. This is something that has been broadly misunderstood in the advising community for many years (ever since the inception of the Core, as far as we can tell). This was brought before Curricular Affairs in 2009 and both the Registrar's Office and the Academic Advising Center was under the impression this change had already taken place.

Note that with this change, no credits used toward the major could be used toward GERs until they have gone over 30, or for a minor over 15.

****

CAPS = additions
[[ ]] = deletions

2011-12 *UAF Catalog*: Pages 136, Beyond the Core:

Under Bachelor of Arts, first column, paragraph after "Minimum credits required for degree":

Of the above, at least 39 credits must be taken in upper-division (300-level or higher) courses. Courses beyond 30 credits in a major complex and 15 credits in a minor complex [[that are not in the primary discipline of that major or minor]] may be used to fulfill the B.A. degree requirements in humanities, social sciences or mathematics. Courses used to fulfill [[minor degree]] requirements **FOR A MINOR** may be used at the same time to fill major or general distribution requirements if so designated.

Similarly, under Bachelor of Science, second column:

Of the above, at least 39 credits must be taken in upper-division (300-level or higher) courses. Courses beyond 30 credits in a major complex and 15 credits in a minor complex **[[**that are not in the primary discipline of that major or minor**]]** may be used to fulfill the B.S. degree requirements in mathematics or natural science. Courses used to fulfill **[[**minor degree**]]** requirements **FOR A MINOR** may be used at the same time to fill major or general distribution requirements if so designated.

The UAF Faculty Senate passed the following at Meeting #181, March 5, 2012:

MOTION

The UAF Faculty Senate moves to amend the Evaluation of Educational Effectiveness policy as indicated below:

EFFECTIVE: Upon approval by the Chancellor

RATIONALE: UAF institutional and specialized accreditation requires outcomes assessment reporting and assessment is important for the continuing improvement of curricula. To ensure that outcomes assessment information is collected regularly, with no long gaps, each program is asked to prepare a report every two years. This is consistent with the typical two year commitments that department chairs make so each department chair will know a report must be filed during their service. In addition, this change will provide timely information to summarize the implementation and results of assessment practices reported annually to the Board of Regents as required in policy P10.06.020.

****

CAPS = Additions
[[ ]] = Deletions

UAF EVALUATION OF EDUCATIONAL EFFECTIVENESS POLICY

In accordance with its mission, the University of Alaska Fairbanks has a continuing responsibility to review and improve performance of its students, faculty, and programs. The UAF therefore establishes the Educational Effectiveness Evaluation to describe the effects of curriculum, instruction, and other institutional programs.

The process will be useful for curricular and institutional reform and will be consistent with UA Board of Regents Policy and institutional and specialized accreditation standards.

The university shall ensure the academic freedom of the academic community in the development and maintenance of this process.

The data gathered and summarized as part of the educational effectiveness evaluation process shall not be used for evaluating individual faculty. Furthermore, no student shall be denied graduation based solely upon information gathered for the educational effectiveness evaluation process.

Each faculty member's activities in developing and/or implementing programmatic and institutional educational effectiveness efforts may be summarized in the instructional section of annual evaluations and promotion and tenure files.

Evaluations shall be conducted with regard to the following:

1) Student Information

   Students shall be assessed upon entry to the university for purposes of course advising and placement, especially in mathematics and English, and

for describing the gender, age, ethnicity, and previous education of students recruited, retained, and graduated over time.

2) Evaluation of the CORE Curriculum
   Evaluation of the CORE curriculum shall include course assessment embedded within CORE courses as well as the assessment of students within upper division courses, especially oral and writing intensive courses.
3) Programmatic assessment
   Each degree and certificate program shall establish and maintain a student outcomes assessment process useful for curricular reform and consistent with institutional and specialized accreditation standards.
4) Evaluation of Out of Class Learning
   An important element of a student's overall education is learning that occurs outside of classes. Therefore, an evaluation of activities and student support services will be conducted.

The chair of each department (or equivalent as identified by the Dean or Director) shall prepare a report at least **EVERY TWO YEARS [[four years]]** summarizing the Educational Effectiveness program for each certificate and degree program offered by that department. The report shall include a summary of the following:

A. Student outcome goals and objectives of the program,
B. The methods and criteria used to evaluate whether the goals and objectives are being met,
C. A description of what information is collected annually, and
D. How the results of such information are being used to improve the curriculum.

The report shall be presented to the dean or director's office **AND THE ACCREDITATION AND ASSESSMENT ASSISTANT IN THE PROVOST'S OFFICE BY THE END OF 9-MONTH FACULTY CONTRACTS IN MAY [[during the month of May]]**. At least some information gathering for this process shall occur annually.

Once an educational effectiveness evaluation program has been implemented for the core, the core review committee of the faculty senate shall prepare a report, at least biannually, summarizing the educational effectiveness of the components of the core curriculum. This report shall be similar in content to the report described above for individual programs but shall provide a summary for the components of the core curriculum. The components of the Core may be summarized in the report on a rotational basis, but at least some information should be gathered annually.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #181, March 5, 2012:
(Missing amended language approved on May 6, 2011 has been added and highlighted below.)

MOTION:

The UAF Faculty Senate moves to approve an updated procedure to accomplish the program review process as required by Board of Regent policy and regulations (10.06).

EFFECTIVE: Immediately

RATIONALE: The existing program review process (Meeting #102, May 2001) does not fully meet Board of Regents policy and regulations on program review (10.06). The proposed process aligns with the new accreditation cycle, is a more efficient process, i.e., it is less burdensome on programs, and is intended to a yield more consistent quality of review. The process is intended for a program review cycle of 5 years, in accordance with Board of Regents policy.

****

The new program review process will be completed as follows:

1. An initial brief review based on centrally generated productivity and efficiency summary and a unit supplied two-page narrative describing mission centrality, the prospective market for graduates, the existence of similar programs elsewhere in UA, and any special circumstances that explain features of the centrally generated productivity and efficiency summary (see attached program review template for more details). The information reviewed meets the requirements set by Board of Regents Policy and Regulation (10.06; attached). A single Faculty Program Review Committee comprised of one tenured-faculty member from each college and school (not including CRCD) plus five CRCD representatives will review the materials and make one of the following recommendations:
   - Continue program
   - Continue program but improve outcomes assessment process and reporting
   - Continue program but improve other specific areas or
   - Discontinue program.

   The committee will provide a brief narrative justifying their recommendation and describe any areas needing improvement prior to the next review.
2. An Administrative Program Review Committee comprised of the Deans of Colleges and Schools and 4 administrative representatives from CRCD will review the recommendations of the Program Review Committee, may request additional information from about the program, and will state their collective agreement or disagreement with the Committee's recommendation.
3. The Provost* will review the recommendations of the Faculty Program Review Committee and the Administrative Program Review Committee and take one of the following actions:
   a. Program continuation is confirmed until next review cycle

* in consultation with Chancellor's Cabinet

b. Program continuation with an action plan prepared by the program and Dean to meet improvements needed by next review cycle. Annual progress reports will be required in some cases. Actions may also include further review by an ad hoc committee.
c. Recommend to discontinue program. Program deletion will require Faculty Senate action. However, when appropriate admissions may be suspended pending action.

The UAF Faculty Senate passed the following at Meeting #181, March 5, 2012:

MOTION:

The UAF Faculty Senate moves to approve a new category of registration, "Directed Study," to allow a student to contract with an instructor to enroll individually in a course that exists in the catalog, outside of the regularly-scheduled sections of the course in a given semester. The difference between "Directed Study" and the current "Individual Study" would be that "Individual Study" would be reserved for contracted 1:1 courses that do not exist in the UAF catalog. Courses taken as Directed Study would be transcripted with the existing subject and course number from the catalog and the suffix (D.S.*).

EFFECTIVE: Fall 2012

RATIONALE: The majority of current Individual Study enrollments are actually for courses that exist in the UAF catalog. The student contracts with an instructor to take an individual section of the course outside of the regular course schedule. These are posted to the student's transcript as a -97 course number. It then raises questions about course content for transfer credit to other institutions; does not meet prerequisites in Banner; and does not automatically feed into degree requirements in DegreeWorks. Reserving the -97 "Independent Study" designation only for courses that do not exist in the UAF catalog would minimize these problems for students and advisors.

The UAF Faculty Senate passed the following at Meeting #180, February 6, 2012:

MOTION:

The UAF Faculty Senate moves to more clearly define the academic credit hour requirements for laboratory instruction at UAF and include this definition in the UAF Catalog (currently found in the 2011-2012 UAF Catalog, page 247).

EFFECTIVE: Fall 2012

RATIONALE: Redefine the academic credit hour requirements for laboratory instruction to bring UAF academic policies in line with **UA Regulation 10.04.090** (emphases added below):

Evaluation of Student Performance and Course Level Definitions.

F. Course Numbering system

2. Academic Credit Courses

Courses with these numbers count toward undergraduate and graduate degrees and certificates as described below. Each course includes a component for evaluation of student performance. Student effort is indicated by credit hours. **One credit hour represents three hours of student work** per week for a 15-week semester (e.g., one class-hour of lecture and two hours of study or **three class-hours of laboratory**) for a minimum of 2250 minutes of total student engagement, which may include exam periods.

****

[[ ]] – Deletion
CAPS – Addition
Underlined – Faculty Senate action from Meeting #175 (May 2, 2011) to be incorporated into the next Catalog.

From the 2011-2012 UAF Catalog, page 247:

Course Credits

One credit represents satisfactory completion of 800 minutes **(1 HOUR/WEEK)** of lecture, 1,600 or 2,400 minutes of laboratory (or studio or other similar activity), whichever is appropriate. (It is understood that an average student will be expected to spend 1,600 **(2 HOURS/WEEK)** minutes of study and preparation outside of class in order to meet the learning objectives for the unit of credit in lecture.)

LABORATORY CLASSES REQUIRE A MINIMUM OF 2400 LAB MINUTES/CREDIT (3 HOURS/WEEK/CREDIT), OR THEY REQUIRE A MINIMUM OF 1600 LAB MINUTES (2 HOURS/WEEK/CREDIT) PLUS 800 MINUTES (1 HOUR/WEEK) OF STUDY AND/OR PREPARATION OUTSIDE OF CLASS. A COURSE SUBMISSION

WITH A LAB COMPONENT MUST INCLUDE A JUSTIFICATION (IN TERMS OF REQUIRED STUDENT WORK MINUTES OUTSIDE OF LABORATORY) IF THE LABORATORY DOES NOT REQUIRE AT LEAST 2400 LAB MINUTES PER CREDIT.

The following standards establish the minimum requirements for an academic unit of credit:

1. 800 minutes of lecture (plus 1,600 minutes of study)
2. 1,600 or 2,400 minutes of laboratory (or studio or other similar activity) + **800 OR 0 MINUTES OF OUTSIDE STUDENT WORK.**
3. 2,400-4,800 minutes of supervised practicum
4. 2,400-8,000 minutes of internship (or externship, clinical)
5. 2,400-4,800 minutes of supervised scholarly activity

Credit hours may not be divided, except half-credit hours may be granted at the appropriate rate. For short courses and classes of less than one semester in duration, course hours may not be compressed into fewer than three days per credit. Any existing semester-long course that is to be offered in a "compressed to less than six weeks" format must be approved by the college or school's curriculum council and the appropriate UAF Faculty Senate committee (Student Academic Development and Achievement Committee, Core Review Committee, Curriculum Review Committee, or Graduate Academic and Advisory Committee). Any new course proposal must indicate those course compression format(s) in which the course will be taught. Only approved course formats will be allowed for scheduling.

Following the title of each course, the number of credits is listed for each semester. Thus "3 credits" means three credits may be earned. Credit may not be given more than once for a course unless the course has been designated as repeatable for credit. Figures in parentheses at the end of course descriptions indicate the number of lecture; laboratory; and practicum, internship or scholarly activity hours the class meets each week for one semester. The first number represents lecture hours; the second, laboratory; and the third, practicum, internship or scholarly activity. For example (2+3) indicates that a class has two hours of lecture and three of laboratory work each week. A designation of (1+0+6) indicates that the course meets for one hour each week of lecture and 6 hours each week of practicum, internship or other scholarly activity.

ORIGINAL

The UAF Faculty Senate passed the following motion at Meeting #179 on December 5, 2011:

MOTION:

The UAF Faculty Senate moves to amend the title of the general education objectives and student learning outcomes adopted by the UAF Faculty Senate at Meeting #175 on May 2, 2011 to clarify the undergraduate degrees to which the objectives and learning outcomes apply.

EFFECTIVE: Spring 2012

RATIONALE: In May 2011, the General Education Revitalization Committee proposed a new set of objectives and student learning outcomes intended to be used for all of UAF's baccalaureate degrees and two of UAF's associate degrees. These were adopted by the UAF Faculty Senate at meeting #175, held May 2, 2011, for the purposes of developing the next general education strategy and the strategies to be used in assessing it. Through unintentional oversight, only BA and BS degrees were listed, omitting the six other baccalaureate degrees offered at UAF. The proposed amendment brings the wording in line with the intended scope of the general education objectives and student learning outcomes.

Brief Statement of Proposed Program:

This certificate program is designed to allow the beginning student to obtain the knowledge and skills to meet the standards of the American Culinary Federation in Baking and Pastry and to successfully gain employment in the culinary and hospitality industry. The certificate transitions easily and directly into the AAS in Culinary Arts. For the past seventeen years, the Culinary Arts and Hospitality program has offered a single certificate in Culinary Arts with three concentrations: culinary arts, baking and pastry, and cooking. In the spring of 2009, the Faculty Senate approved a major change to the program eliminating the three concentrations. Thus, the existing certificate is in Culinary Arts. We propose this separate certificate to replace the Baking and Pastry concentration in the Culinary Arts Certificate. We will no longer offer a Cooking concentration under the Culinary Arts Certificate nor a separate Certificate in Cooking.

Program Goals:

For the past several years the Culinary Arts and Hospitality Department has offered a single Certificate in Culinary Arts with three concentrations: culinary arts, baking and pastry, and cooking. Last year we submitted paperwork to eliminate the cooking concentration and create two distinct certificates: culinary arts, and baking and pastry. The University accepted the culinary arts certificate as modifications to the existing certificate and asked that we forward a new Certificate in Baking and Pastry Arts.

Our goal in developing this certificate is to create a clear pathway for entry level culinarians to develop their skills in baking and pastry with the potential to gain employment. For those students wishing more advanced training, the certificate articulates with the AAS in culinary arts. We anticipate that streamlining this certificate and focusing it specifically in baking and pastry will increase the number of students who can successfully complete the certificate in a reasonable time (generally two semesters). Further, other changes to courses, which were approved last year, have eliminated any pass/fail courses from the degree and aligned the remaining new or revised courses with a curriculum which is based on industry standards and competencies set forth by the American Culinary Federation Education Foundation Accrediting Commission (ACFEFAC). We plan to apply for programmatic accreditation with the ACFEFAC within the next two years.

Certificate

Minimum Requirements for Certificate: 30 credits

The culinary arts program prepares students for a career in this expanding field. Graduates can seek employment in food production or in management of restaurants, bakeries, hotels, hospitals, camps or any other facility that requires food service as part of its operation. This department offers both an associate degree and a certificate.

Certificate Program: Baking and Pastry Arts

1. Complete the general university requirements.

   COMMUNICATIONS (2-3)

2. Complete the certificate requirements.

   COMPUTATION (2-3) or

   CAH 256 Restaurant & Hospitality Cost Management (2 credits)

   HUMAN RELATIONS (2-3) or

   CAH 255 Human Resource & Supervision in Hospitality (3 credits)

3. Complete the following courses:

   CAH F101 – Introduction to the Culinary Field ..... 1 cr
   CAH F140 – Culinary I – Principles and Techniques ..... 4 cr
   CAH F146 – Introduction to Baking & Pastry ..... 4 cr
   CAH F150 – Food Service Sanitation ..... 2 cr
   CAH F248 – Intermediate Baking & Pastry ..... 4 cr

   Choose 6-9 credits from the following:

   CAH F117 – Art in Cake Icing ..... 2 cr
   CAH F154 – Food and Beverage Service ..... 2 cr
   CAH F160 – Culinary Nutrition ..... 2 cr
   CAH F161 – Pastry Tube Art ..... 1.5 cr
   CAH F171 – Gourmet Baking ..... 2 cr
   CAH F230 – Menu Planning ..... 1 cr

   Minimum credits required ..... 30 cr

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #176 on September 12, 2011:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Marine Science.

EFFECTIVE: Fall 2011 and/or
Upon Chancellor's approval.

RATIONALE: See the program proposal #129-UNP on file in the Governance Office, 312B Signers' Hall.

Catherine J. Cahill 9/12/11
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 9/12/11
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Overview:
The minor in Marine Science will be administered by the Graduate Program in Marine Science and Limnology (GPMSL) in the School of Fisheries and Ocean Sciences. The minor outlined in this proposal will be available to undergraduate students in all degree programs. It will consist of three new introductory courses that will form the "core" requirement (2 lecture courses + 1 lab course, 7 credits total) and 6 credits in electives in other marine science courses. In addition, students will choose a minimum of 2 credits of additional electives from among selected courses in Marine Science, Fisheries, Biology and Wildlife, and Economics, for a total of 15 credits required for the minor. This program was created in response to numerous requests from Fisheries, Biology and Wildlife, and Natural Resource Management students who, after taking the single undergraduate Marine Science course currently offered (MSL 111X: The Oceans), were interested in continued coursework in the field. Unfortunately, no additional options currently exist. Fisheries students are thus expected to benefit from the breadth this

program will offer to their curriculum. In addition, we anticipate this program will appeal to students from other disciplines (e.g., Political Science, Earth Sciences, Biology & Wildlife, Environmental Science, Resource Management, Education) in which possible career paths may require and/or benefit from training in marine science (policy-making, resource management, education, seafood industry, etc.).

Objective and relationship to courses proposed:
This program will provide students with a marine-science knowledge base, skill set, and hands-on experience, which will augment their educational experience at UAF. This minor will strengthen the abilities of UAF graduates to address essential issues in research, education, management, administration or industry related to Alaska's marine resources. To address these objectives, the program will include a required two-semester core course with associated lab that will introduce students to the interdisciplinary field of marine science, including study of the unique physical, chemical and biological aspects of the marine environment, and the organisms that inhabit this environment. Building on this core foundation, students will be able to choose from a variety of more focused courses depending on their specific area of interest. The elective courses will provide more detailed study of marine biology and ecology, and the physics and chemistry of the oceans. Available electives will include field courses that will be taught at the UAF marine lab facility, the Kasitsna Bay Laboratory near Homer, AK, and will emphasize hands-on learning and student-centered research projects. Several elective options (e.g., Polar Marine Science, Dynamic Alaskan Coastline, Marine Biology and Ecology Field Course) will also emphasize polar regions, and Alaskan marine ecosystems in particular.

Undergraduates that have completed the minor in Marine Science will possess a knowledge base and skill set that will make them more competitive for a wide variety of agency and organization positions, particularly within the state of Alaska. Training provided here will be applicable in jobs with government management agencies (e.g., Alaska Department of Fish and Game, U.S. Fish and Wildlife Service), Alaska Native Organizations, non-profit conservation organizations, seafood industry, or in other policy-development, fisheries, education, or outreach capacities.

Proposed Minor Requirements:

1. Students *must* complete the following (7 credits):
MSL 211 – Introduction to Marine Science I (3 credits)
MSL 212 – Introduction to Marine Science II (3 credits)
MSL 213L—Marine Science Laboratory (1 credit)

2. Students *must* complete 6 credits from the following:
MSL 317 – Introduction to Marine Mammal Biology (3 credits)
MSL 330 —The Dynamic Alaskan Coastline (3 credits)
MSL 403— Estuaries (2 credits)
MSL 412 —Early Life Histories of Marine Invertebrates (3 credits)
MSL 431 – Polar Marine Science (3 credits)
MSL 449 – Biological Oceanography (3 credits)
MSL 463 – Chemical Coastal Processes (3 credits)

3. Students *must* complete 2 additional credits from the following:

Marine Science and Limnology

MSL 220 – Scientific Diving (2 credits)
MSL 317 – Introduction to Marine Mammal Biology (3 credits)
MSL 330 —The Dynamic Alaskan Coastline (3 credits)
MSL 403— Estuaries (2 credits)
MSL 412 —Early Life Histories of Marine Invertebrates (3 credits)
MSL 421 – Field Course in Subtidal Studies (2 credits)
MSL 431 – Polar Marine Science (3 credits)
MSL 449 – Biological Oceanography (3 credits)
MSL 450 – Marine Biology and Ecology Field Course (4 credits)
MSL 456 – Kelp Forest Ecology
MSL 463 – Chemical Coastal Processes (3 credits)
MSL 497 – Marine Field Experience (Independent Study) (1-2 credits)

Fisheries

FISH 288/BIOL 288 – Marine and Freshwater Fishes of Alaska (3 credits)
FISH 301—Biology of Fishes (3 credits)
FISH 425 – Fish Ecology (3 credits)
FISH 440—Oceanography for Fisheries (3 credits)

Biology and Wildlife

BIOL 305 – Invertebrate Zoology (5 credits)
BIOL 473 – Limnology (4 credits)

Economics

ECON 235 – Introduction to Natural Resource Economics (3 credits)

Relationship to the "Purposes of the University":

The objectives of the minor in Marine Science coincide with the UAF academic mission of providing high-quality education to undergraduates, because the minor will offer a suite of courses to augment student expertise in the natural sciences and resource management, and enable students seeking a career in fisheries or oceanographic research. Thus, the program addresses three core mission areas identified in the UAF strategic plan: Serve students; Provide quality educational opportunities and experiences; Be responsive to the needs of the state of Alaska.

Fisheries majors are expected to receive immediate benefits from this program, and many have expressed interest in additional MSL course offerings being made available to them. The Fisheries program has been growing rapidly over the last several years, with 68 students currently enrolled and numbers projected to increase to 70-80 in the next year. We also expect the program will serve students in other disciplines such as resource management and political science, as described in the sections above, and we intend to advertise the program to draw in students from these other fields.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND COLLEGE OF ENGINEERING AND MINES UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE COLLEGE OF ENGINEERING AND MINES' DEPARMENT/S. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S/S' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service. ***THE LEVEL OF PRODUCTIVITY EXPECTED OF A FACULTY MEMBER IN EACH AREA (TEACHING, RESEARCH, AND SERVICE) WILL BE COMMENSURATE WITH THE PERCENTAGE OF HIS OR HER WORKLOAD DEDICATED TO SUCH ACTIVITY.***

Bipartite Faculty
Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers ***WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR:***

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design; ***INCLUDING THE DEVELOPMENT OF DISTILLED KNOWLEDGE (FOR EXAMPLE: BOOKS, SOFTWARE, DOCUMENTATION) FOR STUDENT USE***;

g. may receive prizes and awards for excellence in teaching.

h. ***DISSEMINATE NEW IDEAS TO THE STUDENTS RESULTING FROM RESEARCH AND OTHER ENGINEERING ACTIVITIES, SUCH AS CONSULTING AND SERVICE ON REVIEW PANEL;***

i. ***INVOLVE STUDENTS, ESPECIALLY GRADUATE STUDENTS, IN QUALITY RESEARCH ACTIVITIES;***

SPECIFIC CEM CRITERIA FOR TEACHING PERFORMANCE BEFORE PROMOTION/TENURE OR APPOINTMENT TO:

I. ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO A QUALITY TEACHING PROGRAM MUST BE PROVIDED, AS WELL AS EVIDENCE OF AN EFFORT TOWARD CONTINUAL IMPROVEMENT.

II. ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE MATERIAL TAUGHT IS CONTEMPORARY AND RELEVANT, AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT IS NOT LIMITED TO) COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, EFFECTIVE GUIDING AND MENTORING OF STUDENTS, AND EFFECTIVE CLASSROOM TEACHING PERFORMANCE. THERE MUST BE EVIDENCE OF SUCCESSFUL COMPLETION OF GRADUATE STUDENT RESEARCH (AS A MAJOR SUPERVISOR OR CO-SUPERVISOR).

III. PROFESSOR: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE MAY INCLUDE, BUT ARE NOT LIMITED TO, CONTRIBUTIONS TO MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, UPGRADING OF INSTRUCTIONAL FACILITIES, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS, AND EXEMPLARY TRAINING OF GRADUATE STUDENTS. THERE SHOULD BE A RECORD OF CONTINUING SUCCESSFUL MENTORSHIP OF GRADUATE STUDENTS AS EXEMPLIFIED BY JOINT AUTHORSHIP OF PUBLICATIONS, INVOLVEMENT OF GRADUATE STUDENTS IN RESEARCH PROJECTS, AND COMPLETION OF GRADUATE DEGREES UNDER HIS/HER SUPERVISION SINCE THE PREVIOUS PROMOTION. IT IS EXPECTED THAT ASSESSMENT OF TEACHING BY STUDENTS AND FACULTY DEMONSTRATE CONSISTENTLY HIGH QUALITY PERFORMANCE.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair classroom observation(s),

   d. peer/department chair evaluation of course materials.

C. **Criteria for Research, Scholarly, and Creative Activity**
   Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art *AND ENGINEERING* work, *SCIENTIFIC VISUALIZATIONS AND COMPUTER ANIMATIONS* at galleries, *CONFERENCES AND MUSEUMS, WHERE* selection for these exhibitions *IS* being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art *AND ENGINEERING* works, *SCIENTIFIC VISUALIZATIONS AND COMPUTER ANIMATIONS,* and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC CEM CRITERIA FOR RESEARCH PERFORMANCE BEFORE PROMOTION/ TENURE OR APPOINTMENT TO:

I. ASSISTANT PROFESSOR: *EVIDENCE OF RESEARCH ABILITY AND A COMMITMENT TO ESTABLISH A VIABLE RESEARCH PROGRAM.*

II. ASSOCIATE PROFESSOR: *THE FACULTY MEMBER MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM THAT PRODUCES A SATISFACTORY NUMBER OF PUBLICATIONS IN REFEREED HIGH-QUALITY PROFESSIONAL JOURNALS (PREFERABLY INDEXED IN THE WEB OF SCIENCE (SCI), THE ENGINEERING INDEX (EI), AND OTHER*

APPROPRIATE SCIENCE OR ENGINEERING INDEXES, WHERE APPLICABLE) AND PRESENTED RESEARCH RESULTS AT PROFESSIONAL MEETINGS. PAPERS IN PROCEEDINGS OF CONFERENCES KNOWN FOR RIGOROUS PEER-REVIEW AND DOCUMENTED LOW ACCEPTANCE RATES MAY BE CONSIDERED AS SUPPLEMENTAL PUBLICATIONS, WHERE APPLICABLE. THE SUBMISSION OF RESEARCH PROPOSALS AND ACQUISITION OF EXTERNAL RESEARCH FUNDING, THE COMPLETION OF CONTRACT RESEARCH REPORTS, AND PUBLICATION IN CONFERENCE PROCEEDINGS CONSTITUTE SUPPLEMENTARY EVIDENCE THAT THE RESEARCH PROGRAM IS OF HIGH QUALITY. SUSTAINED PRODUCTIVITY MUST BE SHOWN WITH ADEQUATE EVIDENCE OF RESEARCH ACTIVITIES AND PUBLICATIONS SINCE INITIAL APPOINTMENT, WITH THE CANDIDATE TAKING A LEADING ROLE IN RESEARCH AND PUBLICATIONS. THE FACULTY MEMBER MUST ALSO SHOW INDEPENDENCE AND LEADERSHIP BY THE CREATION OF RESEARCH IDEAS RESULTING IN JOURNAL AND CONFERENCE PUBLICATIONS THAT INVOLVE STUDENTS.

III. PROFESSOR: THE RESEARCH PROGRAM SHOULD HAVE PRODUCED A SUFFICIENT NUMBER OF PEER-REVIEWED JOURNAL ARTICLES (PREFERABLY INDEXED IN SCI, EI, AND OTHER APPROPRIATE SCIENCE OR ENGINEERING INDEXES WHERE APPLICABLE), CONFERENCE PUBLICATIONS AND OTHER FORMS OF LITERATURE, WHICH ALSO REQUIRE RIGOROUS PEER REVIEW, AND ARE PUBLISHED BY WELL-ESTABLISHED PUBLISHING HOUSES. TO INDICATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM, THE PUBLICATIONS SHOULD BE OF SUFFICIENT QUANTITY AFTER THE PREVIOUS TENURE/PROMOTION/ APPOINTMENT, WITH DOCUMENTED EVIDENCE OF HIGH QUALITY AND SHOULD DEMONSTRATE STUDENT INVOLVEMENT. A NATIONAL OR INTERNATIONAL REPUTATION OF THE CANDIDATE (E.G., AS DEMONSTRATED BY A HIGH NUMBER OF ARTICLE CITATIONS, PROFESSIONAL ACTIVITIES, PRESENTATIONS AT MEETINGS, AND DOCUMENTED OPINIONS OF OTHER ENGINEERS AND SCIENTISTS IN THE FIELD) IS EXPECTED.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be

systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY.***

j. Prizes and awards for excellence in university service.

k. ***SERVICE AS OUTSIDE REVIEWER ON THESIS COMMITTEES.***

l. ***PREPARATION OF UNIVERSITY REPORTS AND ONLINE INFORMATION.***

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

SPECIFIC CEM CRITERIA FOR SERVICE PERFORMANCE BEFORE PROMOTION/TENURE OR APPOINTMENT TO:

I. ASSISTANT PROFESSOR: *EVIDENCE OF A COMMITMENT TO CONTRIBUTE TO THE SERVICE MISSION OF THE COLLEGE.*

II. ASSOCIATE PROFESSOR: *POSITIVE CONTRIBUTIONS TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS, EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE PUBLIC, AND/OR EFFECTIVE SERVICES TO THE PROFESSION ARE EXPECTED.*

III. PROFESSOR: *EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS INCLUDING COMMITTEE LEADERSHIP OR UAF FACULTY SENATE SERVICE AND ASSOCIATED COMMITTEES ARE EXPECTED. EFFECTIVE APPLICATION OF SERVICE INCLUDES PROFESSIONAL EXPERTISE PROVIDED TO PROFESSIONAL OR PUBLIC ORGANIZATIONS SUCH AS ENGINEERING SOCIETY LEADERSHIP, REVIEWING PROPOSALS, REFEREEING MANUSCRIPTS, AND EDITING FOR PROFESSIONAL ORGANIZATIONS OR PUBLICATIONS.*

EXAMPLES OF SERVICE ACTIVITIES APPROPRIATE FOR FACULTY IN ENGINEERING INCLUDE (BUT ARE NOT LIMITED TO):

a. K-12 AND/OR INFORMAL ENGINEERING EDUCATION;

b. PRESENTATION OF ENGINEERING TO THE PUBLIC.

MEASURES OF EFFECTIVENESS OF PERFORMANCE INCLUDE (BUT ARE NOT LIMITED TO):

a. ACCOMPLISHMENTS GAINED THROUGH SERVICE TO ORGANIZATIONS;

b. OPINIONS OF CLIENTS SERVED AND/OR COLLEAGUES INVOLVED IN DELIVERY OF SERVICE.

E. Unit Criteria, Standards and Indices

Unit criteria, standards and indices are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in B, C, D, above, and in "UAF Faculty Appointment and Evaluation Policies," Chapter IV for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review.

Unit criteria, standards and indices may be developed by those units wishing to do so. Units that choose not to develop discipline-specific unit criteria, standards and indices must file a statement stating so with the Office of the Provost, which shall serve as the official repository for approved unit criteria, standards and indices.

A unit choosing to develop discipline-specific criteria, standards and indices shall have such criteria, standards and indices approved by a majority of the discipline faculty. The unit criteria, standards and indices will be reviewed and approved by the cognizant dean who will forward the unit criteria, standards and indices to the provost. The provost will review for consistency with BOR and UAF policies and will forward these criteria, standards and indices to the Faculty Senate, which shall review and approve all discipline-specific criteria according to a process established by the Faculty Senate.

Unit criteria, standards and indices will be reviewed at least every five (5) years by the faculty of the unit. When reorganization results in a unit's placement in another college/school structure, the cognizant dean, in consultation with the unit faculty, shall review unit criteria, standards and indices and revise if warranted. Unit criteria, standards and indices approved by the Faculty Senate prior to a unit's reorganization shall remain in effect until reviewed and revised. Revision of unit criteria, standards and indices must follow the review process established by the Faculty Senate. If the unit criteria, standards and indices are not revised, a statement of reaffirmation of the current unit criteria, standards and indices must be filed with the Office of the Provost, following the review.

Unit criteria, standards and indices, when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is **NOT** optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review to include these approved unit criteria, standards and indices in the application file.

F. Annual Evaluation of Non-tenured Faculty with Academic Rank

1. Process of Evaluation

There will be annual evaluations of all untenured faculty members holding academic rank. Each faculty member shall submit a professional activities report to the campus director or college/school dean according to a schedule announced by the provost. The annual professional activities report will be accompanied by a current curriculum vita.

The evaluations performed by the campus director or college/school dean shall include explicit statements on progress toward meeting criteria for tenure and promotion in their written evaluations. The dean's/director's evaluation shall reference the faculty member's workload agreement in commenting on progress. The director or dean shall provide a copy of a written evaluation to the faculty member.

In the case of a faculty member having a joint appointment, the dean will coordinate the review and recommendation with the director as appropriate.

G. Periodic Evaluation of Tenured Faculty Members

1. Frequency of Evaluation

a) All tenured faculty at UAF shall be evaluated once every three years according to a schedule and process announced by the Provost.

b) For tenured faculty with joint appointments, the cognizant dean will arrange a review that assures that all appropriate administrators provide a written evaluation of the faculty member. The dean will inform the faculty member of these arrangements.

2. Annual Activities Report

All tenured faculty shall prepare a professional activities report annually and submit it to the dean or director according to a schedule announced by the provost.

H. Evaluation of Faculty with Special Academic Rank

Special academic rank faculty are appointed for a specified period of time. They are to provide evidence of effectiveness in their assigned responsibilities during the term of their appointment when requested by their college/school dean or institute director according to the process set forth by the provost.

1. Process of Evaluation

The college/school dean or institute director shall require an annual activities report of a faculty member who has an appointment renewed beyond the initial year of appointment. The review process outlined above for academic rank faculty shall apply. The optional process for the development and approval of the unit criteria, standards and indices as outlined above in Chapter III, E. shall also apply to the definition and evaluation of faculty in special academic rank positions.

The appointment to special academic rank shall terminate on the date specified in the letter of appointment, and implies no expectation of a subsequent appointment.

The UAF Faculty Senate reaffirmed the following resolution at Meeting #176, Sept. 12, 2011:

The following resolution was passed at Faculty Senate Meeting #146 in Fall 2007, and endorsed by a letter distributed to the UAF community in Fall 2008. The Administrative Committee would like to have the Faculty Senate reaffirm the resolution publicly at Faculty Senate Meeting #176 as the current review cycle gets underway.

RESOLUTION

WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2007-08 review cycle.

RATIONALE:

1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

Cathleen J. Cahill 9/12/11

President, UAF Faculty Senate Date

The UAF Faculty Senate presented the following at Meeting #175, May 2, 2011:

OUTSTANDING SENATOR OF THE YEAR AWARD
FOR
ACADEMIC YEAR 2011

WHEREAS, Rainer Newberry has served the university in the UAF Faculty Senate for the past nine years; and

WHEREAS, Rainer Newberry has provided a mother lode of leadership as Chair of the Curricular Affairs Committee during academic years 2003 through 2006, and 2010-2011; and

WHEREAS, Rainer Newberry has also served as Chair of the Curriculum Review Committee for the past seven years; and

WHEREAS, Rainer Newberry has served as a member of the Core Review Committee from 2010-2011; and

WHEREAS, Rainer Newberry has served as a representative of both Curricular Affairs and Curriculum Review on the Faculty Senate Administrative Committee; and

WHEREAS, Rainer Newberry has led the Curricular Affairs Committee to pay dirt in bringing 10 motions before the Faculty Senate; and

WHEREAS, Rainer Newberry engaged faculty in dialog aimed at digging to the core of academic issues ranging from courses designed for high school up to stacked graduate courses; and

WHEREAS, Rainer Newberry, unabashedly ungroomable, has provided down-to-earth, provocative and highly caffeinated advocacy for issues about which he is passionate; now

THEREFORE, BE IT RESOLVED, That the UAF Faculty Senate, not wishing to take his outstanding service for granite, recognizes Rainer Newberry as Outstanding Senator of the Year for Academic Year 2011. He rocks!

The UAF Faculty Senate passed the following at Meeting #175, May 2, 2011:

RESOLUTION OF APPRECIATION FOR JONATHAN DEHN

WHEREAS, Jon Dehn has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's greatest admiration and respect, especially during his two years as President of the UAF Faculty Senate; and

WHEREAS, Jon Dehn has served as Senator to the UAF Faculty Senate from 2006-2008, as a member of the Faculty Affairs Committee from 2006-2008 and as chair of the Faculty Affairs Committee from 2007-2008; and

WHEREAS, Jon Dehn has served as a member of the Administrative Committee from 2007-2008, as Chair of the Administrative Committee and as President-Elect of the UAF Faculty Senate from 2008-2009; and

WHEREAS, Jon Dehn has served as a member of the UAF Governance Coordinating Committee from 2009-20011; and

WHEREAS, Jon Dehn has served as President of the UAF Faculty Senate from 2009-2011 and with keen insight and good humor has successfully led the Faculty Senate through difficult and often contentious discussions; and

WHEREAS, Jon Dehn effectively advocated for UAF faculty as a member of the UA Faculty Alliance from 2009-2011 and as Faculty Alliance Chair from 2009-2010; and

WHEREAS, Jon Dehn, as a member of Faculty Alliance, demonstrated that faculty can collaborate across MAUs to achieve goals of importance to UA, such as finalizing the Academic Master Plan; and

WHEREAS, Jon Dehn, as Chair of Faculty Alliance and President of the UAF Faculty Senate, fought for faculty across MAUs to have a larger voice on academic issues at the UA Statewide level; and

WHEREAS, Jon Dehn constructively led the UAF Faculty Senate's effort to inform the UA Administration of the difficulties with the Health Care Audit, resulting in a change in timelines and an improvement in communications; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Jon Dehn as he concludes his extended term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Jon Dehn and expresses its appreciation for his exemplary service.

Cathie J. Cahill 5/2/11

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #175, May 2, 2011:

RESOLUTION:

The UAF Faculty Senate recommends the Office of International Programs (OIP), in consultation with national immigration legal counsel, review UAF's interpretation of the "completion date" for graduate programs used for international students, and revise the "completion date" definition to enable students to complete all program requirements before losing F-1 status.

Motivation and background

- According to U.S. immigration rules students in F-1 status have to leave the country within 2 months of the expiration of their visa, or the end date of their graduate program, whichever comes first. Currently UAF considers students in F-1 status to have completed their graduate program ten days after the date of their defense or after the last in-person meeting of a required course.
- In contrast the graduate program for non-foreign students terminates at the end of the semester during which the students have fully met all UAF graduate school requirements.
- Students often do not take in-person coursework during the semester they finish their degree, instead taking 698 (non-thesis research project) or 699 (thesis/dissertation, preparing for scholarly or research activity) which does not extend their visa eligibility under the current definition.
- Typically, a students' thesis is not 100% complete at the date of the defense. The graduate committee recommends some amount of additional work, such as collecting supplementary data or refining the existing data analysis.
- This additional post-defense work often requires access to specialized scientific instrumentation, computer software/hardware, sample collections, and datasets that are not accessible from another location.
- Due to the current definition a student can no longer be paid ten days after his/her defense. While this can be overcome by application for Optional Practical Training (OPT), the process of securing F-1 OPT status requires significant advance planning and expenditure of both student and university resources.
- Many universities use a more student-friendly definition of the "completion date," such as the end of the semester in which the student defends the thesis, the date when all requirements are fulfilled or the date of graduation and degree conferral. [See the appendix for examples.]
- Immigration law is complex and contains many ambiguous regulations. Lawyers often specialize in the field of immigration law and dedicate their whole career to serving clients in this area.
- Seeking consultation from a lawyer specializing in immigration law would aid UAF in revising its definition of the "completion date" for graduate students and ensure that U.S. immigration law is complied with.

President, UAF Faculty Senate Date 2 May 2011

Appendix:

What Constitutes 'Graduate Program Completion Date' for International Students at some other US Universities? *(compiled on: April 6, 2011)*

UAFs definition: "If you are graduating this semester and you are enrolled in classes that end in May, your program completion date will be May 12 - the last day of final exams. If you are a graduate student and enrolled in only thesis or research credits, your program completion date will be your date of project or thesis defense plus an additional 2 weeks. If you are employed on a Research or Teaching Assistantship, employment authorization ends effective with the program completion date ~ not the end of the semester ~ unless you have applied for and received your OPT card (see below)." http://www.uaf.edu/oip/news-and-announcements-1/information-and-reminders/

University of Arizona: "For graduate students, a true completion date is typically the submission date of final thesis/dissertation draft (and allowable time for revisions) or the comprehensive exam date if no thesis/dissertation is required (completion date can be any date during the calendar year)" http://internationalstudents.arizona.edu/pageview.aspx?id=19217

Boston University: "Graduate Students in Thesis or Dissertation Programs - Your official date of completion will be the day of the graduation ceremony of the semester in which submit your thesis/dissertation. You must be enrolled in that semester, as well. Please note that all students who will complete and submit their thesis/dissertation during the summer must be registered as continuing students during the summer semester to maintain lawful F-1 status." http://www.bu.edu/isso/students/prospective/immigration/f1/legal.html

University of California Berkeley: "Your completion date is the day on which all degree requirements are fulfilled, such as filing the thesis or dissertation in the Graduate Division."

Johns Hopkins University: "The University considers the date that President Daniels signs the official degree roster (which can only be done after the Graduate Board has signed off on it) as the student's completion date. This is the date referenced for University processes, community wide." http://semps.ses.hsa.jhu.edu/stujob/employer.cfm?pid=4&grad=1&bk=emp

NC State University: "For Master's thesis and Ph.D. students, program completion is defined by OIS for non-immigrant status-related benefits purposes as successful defense and the subsequent draft submission, provided that a student is registered at the time of defense". http://www.ncsu.edu/ois/current/completion.php

Minnesota State University: "Graduate students completion date is the day on which all degree requirements are fulfilled, such as filing your thesis or dissertation in Graduate Programs." http://www.mnstate.edu/intl/opt.cfm

Virginia Tech Graduate School: "International students who have some work remaining on their thesis or dissertation and who plan to defend any time during the semester are required to enroll for 3 credit hours. The 3-hour enrollment documents your need to be physically present on campus for the semester, utilizing university resources and pursuing degree requirements (which are required for continued eligibility for F-1/J-1 status)."

Washington University in St. Louis: "This completion of studies date is the date a student completes all requirements for his/her specific degree program, not necessarily the official commencement date established by the institution." http://oisshome.wustl.edu/students/current/RegResp/F1OPT

The UAF Faculty Senate passed the following at Meeting #175 on May 2, 2011:

MOTION:

The UAF Faculty Senate moves to amend the academic dismissal policy for graduate students (currently stated on page 48 of the 2010-2011 UAF Catalog) as follows:

EFFECTIVE: Fall 2011

RATIONALE: This amendment combines two existing items [(c) and (d)] that are defined to be "unsatisfactory performance." It also adds a paragraph delineating the consequences that may result if one is academically dismissed from a graduate program.

****

[[ ]] = Deletions
CAPS = Additions

ACADEMIC DISMISSAL

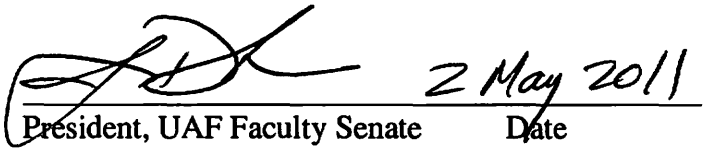
Graduate students –If recommended by the department chair, the graduate advisory committee, and the dean of the college or school, and approved by the Dean of the Graduate School, a student will be dismissed because of unsatisfactory performance. Unsatisfactory performance is deemed as one or more of the following:

a. Exceeding maximum time limit for degree.

b. Not being registered at UAF for a minimum 6 credits per year unless on approved leave of absence.

c. Having less than 3.0 cumulative GPA ON COURSEWORK DIRECTLY RELATED TO DEGREE REQUIREMENTS FOR TWO CONSECUTIVE SEMESTERS. [[for courses taken since admission to graduate school.]]

[[d. Being on probationary status for more than two consecutive semesters.]]



[[e]]**d.** Violating the Student Code of Conduct.

[[f]]**e.** Lacking progress as judged by the advisory committee and documented on the student's annual report.

[[g]]**f.** Having substantive inaccuracies in the student's application for admission.

If the student does not have a graduate advisory committee, dismissal can occur upon the recommendation of the department chair and the dean of the college or school, with approval by the Dean of the Graduate School.

THE CONSEQUENCES OF BEING ACADEMICALLY DISMISSED FROM YOUR GRADUATE PROGRAM ARE SIGNIFICANT AND MAY INCLUDE ALL OF THE FOLLOWING RAMIFICATIONS. YOUR STATUS WILL BE CHANGED FROM BEING A GRADUATE DEGREE-SEEKING STUDENT TO A NON-DEGREE STUDENT. ANY CLASSES YOU MAY HAVE PRE-REGISTERED FOR WILL BE DROPPED. YOU WILL HAVE A PRINTABLE NOTATION ON YOUR TRANSCRIPT THAT WILL STATE YOU WERE "ACADEMICALLY DISMISSED FROM DEGREE PROGRAM." YOU WILL NOT BE ELIGIBLE TO RECEIVE ANY TEACHING OR RESEARCH ASSISTANTSHIPS OR OTHER GRADUATE FELLOWSHIPS. OPPORTUNITIES TO RECEIVE FINANCIAL AID WILL BE SEVERELY LIMITED.

2 May 2011

President, UAF Faculty Senate Date

APPROVAL: _____ DATE: _____
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #175 on May 2, 2011:

MOTION:

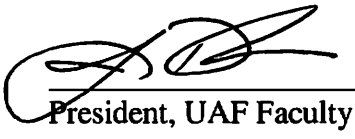
The UAF Faculty Senate moves to approve the following set of objectives and student learning outcomes for the purpose of developing the next general education curriculum and assessment system for all undergraduate students seeking BA, BS, AA, and AS degrees.

General education objectives and learning outcomes for the undergraduate students seeking BA, BS, AA, and AS degrees at the University of Alaska Fairbanks:

1. **Build Knowledge of Human Institutions, Socio-Cultural Processes, and the Physical and Natural World** through study of the natural and social sciences, technologies, mathematics, humanities, histories, languages and the arts.
   - Competence will be demonstrated for the foundational information in each subject area, its context and significance, and the methods used in advancing each.
2. **Develop Intellectual and Practical Skills across the curriculum**, including inquiry and analysis, critical and creative thinking, problem solving, written and oral communication, information literacy, technological competence, and collaborative learning.
   - Proficiency will be demonstrated across the curriculum through critical analysis of proffered information, well-reasoned solutions to problems or inferences drawn from evidence, effective written and oral communication, and satisfactory outcomes of group projects.
3. **Acquire Tools for Effective Civic Engagement** in local through global contexts, including ethical reasoning, intercultural competence, and knowledge of Alaska and Alaskan issues.
   - Facility will be demonstrated through analyses of issues including dimensions of ethics, human and cultural diversity, conflicts and interdependencies, globalization, and sustainability.
4. **Integrate and Apply Learning,** including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning.
   - Preparation will be demonstrated through production of a creative or scholarly product that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection.

EFFECTIVE: Fall 2011

RATIONALE:



The American Association of Colleges and Universities (AACU) has assembled a framework of learning outcomes entitled "Liberal Education and America's Promise" (LEAP). This framework recognizes four broad goals of general education: increase disciplinary knowledge, develop thinking skills, connect academic work with societal issues, and prepare for lifelong learning.

The General Education Revitalization Committee (GERC) and its predecessor, the Core Revitalization and Assessment Group (CRAG), both found support within themselves and among the broader UAF faculty for revision of the UAF Core Curriculum to incorporate a LEAP-based set of learning outcomes. During 2011, the GERC circulated drafts for comment to academic deans, department chairs, curriculum councils, and faculty for comment; it also held two faculty forums to solicit feedback. The overwhelming thrust of the feedback has been supportive of the approach and direction of the working drafts. All of the feedback received has been carefully considered, and much of it has been incorporated into the proposed set of objectives and learning outcomes.

The overall result is a set of learning outcomes that reflects the near-consensus view of the GERC (9 Yea, 0 Nay, 1 Abstain, 1 absent). The challenge has been to set goals that are at once both general enough to not dictate strategy or tactics in achieving them, yet concrete enough that assessment efforts will be able to gain traction. The GERC proposes the following set of learning outcomes with three disclaimers. First, these learning outcomes do not necessarily correspond to courses; many are explicitly envisioned as being addressed across the entire curriculum. Second, the GERC remains divided about how best to advance student understanding of the increasingly pervasive role of technology in society as well as its societal consequences. Third, there should be significant continuity between the committees tasked with establishing the objectives and learning outcomes, the new general education curriculum, and the outcomes assessment.

Therefore the General Education Revitalization Committee, through the Curricular Affairs Committee, proposes

1. that the UAF Faculty Senate adopt the above objectives and learning outcomes as the basis on which to develop the next general education strategy for UAF and to develop assessment strategies for their achievement, and
2. that these objectives and learning outcomes be treated as a "living document" subject to revisions approved by the Faculty Senate or designated committees
3. that these objectives and learning outcomes will not replace the current objectives of the core curriculum until the process of developing a new general education curriculum and outcomes assessment is completed.

2 May 2011

President, UAF Faculty Senate Date

APPROVAL: _____ DATE: _____

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #175 on May 2, 2011:

MOTION:

The UAF Faculty Senate moves to amend the policies on course compression and course approval as shown below:

EFFECTIVE: Fall 2011

RATIONALE: If core courses are important enough to be reviewed for compressed offerings, then why not all courses? Are not all courses important? Doing so creates a uniform evaluation method for this variety of course offerings. Further, we ought to be able to use the lessons learned in compressing core courses to non-core courses. Along those lines we intend to have guidelines for course compression created as part of the 'course and degrees manual'.

****

[[ ]] = Deletions
BOLD CAPS = Additions

Any EXISTING SEMESTER-LONG course THAT IS TO BE OFFERED IN A "compressed to less than six weeks" FORMAT must be approved by the college or school's curriculum council AND THE APPROPRIATE UAF FACULTY SENATE COMMITTEE (SADA, CORE REVIEW, CURRICULUM REVIEW OR GAAC). Any NEW [[core]] course [[compressed to less than six weeks must be approved by the Core Review Committee.]] PROPOSAL MUST INDICATE THOSE COURSE COMPRESSION FORMAT(S) IN WHICH THE COURSE WILL BE TAUGHT. ONLY APPROVED COUSE FORMATS WILL BE ALLOWED FOR SCHEDULING

2 May 2011

President, UAF Faculty Senate Date

APPROVAL: _____ DATE: _____
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #175 on May 2, 2011:

MOTION:

The UAF Faculty Senate moves to enforce core assessment compliance across delivery methods.

EFFECTIVE: Fall 2011

RATIONALE: This motion ensures that courses bearing the core designator will be assessed in the same manner across delivery methods. Currently many correspondence courses and summer session courses do not observe the core assessment.

****

[[ ]] = Deletions
BOLD CAPS = Additions

ALL UAF COURSES BEARING A CORE DESIGNATION MUST COMPLY WITH CORE ASSESSMENT. THIS INCLUDES COURSES OFFERED THROUGH DISTANCE DELIVERY AS WELL AS COURSES NOT OFFERED IN FALL/ SPRING SEMESTERS.

2 May 2011

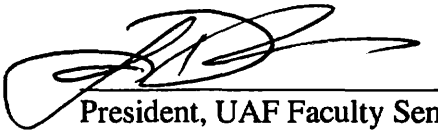
APPROVAL: _____ DATE: _____
Chancellor's Office



DISAPPROVED: _____ DATE: _____
Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #175, May2, 2011:

MOTION:

The UAF Faculty Senate recommends to the Board of Regents that the attached list of individuals be awarded the appropriate UAF degrees pending completion of all University requirements. [Note: a copy of the list is available in the Governance Office, 312B Signers' Hall]

EFFECTIVE:	Immediately
RATIONALE:	These degrees are granted upon recommendation of the program faculty, as verified by the appropriate department head. As the representative governance group of the faculty, UAF Faculty Senate makes that recommendation.

2 May 2011

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #175 on May 2, 2011:

MOTION:

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2011. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 2, 2011

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

Catherine F. Cahill 5/2/11

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #175 on May 2, 2011:

MOTION:

The UAF Faculty Senate moves to adopt the following calendar for its 2011-2012 meetings.

EFFECTIVE: Immediately

RATIONALE: Meetings have to be scheduled well in advance to allow for reservations at the Wood Center and to facilitate planning for Faculty Senate members.

Meeting #:	Date	Time	Type

The UAF Faculty Senate confirmed the following at Meeting #174 on April 4, 2011:

CONFIRMATION:

The Outstanding Senator of the Year Award Screening Committee has carefully reviewed the 2011 nomination according to the award criteria, and forwards the nomination of Rainer Newberry for consideration by the Faculty Senate.

PROCEDURE--After appropriate discussion, the full Senate shall vote by secret ballot. A simple majority vote of those attending will be necessary for the Senate to confirm an OSYA.

This nomination was confirmed on the basis of the following ballot:

CONFIRMATION BALLOT
Outstanding Senator of the Year Award

Please vote to CONFIRM the following nominee to receive the 2011 Outstanding Senator of the Year Award.

_X_ Rainer Newberry

4 April 2011

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at Meeting #174 on April 4, 2011:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership. This amendment adds a new subsection *E. Changes in Unit Representation* that specifies how changes in unit representation on the Faculty Senate will be implemented, including changes that occur in during a representative's term of office.

EFFECTIVE: Fall 2011

RATIONALE: While the existing Bylaws specify how to handle vacancies in existing seats on the Faculty Senate, they do not specify how to implement changes in the number of seats that each unit has, nor changes in unit affiliation of sitting representatives. These issues have arisen in 2010-2011 with the transfer of the Department of Computer Science from CNSM to CEM, and with reapportionment of the Faculty Senate for the first time in at least a decade. The reapportionment takes effect with Faculty Senate elections in Spring, 2011.

The amendment to section *D. Vacancies* broadens the reasons for which an alternate should be appointed to fill a seat on the Faculty Senate. The existing language of the Bylaws, by specifying "death, resignation, or transfer of an elected representative of the Senate," limits appointment of alternates to those circumstances. The addition of "other reason why an elected representative can no longer represent the unit" allows for additional circumstances such as recall (procedure described in section *F. Absenteeism*), a change in unit affiliation of a sitting representative, or other unforeseen events.

The principles underlying the new section *E. Changes in Unit Representation* are: (1) sitting representatives should serve out their terms; and (2) adjustments to the number of representatives for each unit should be made at the time of regularly scheduled elections or by attrition, whichever occurs first.

****

4 April 2011

President, UAF Faculty Senate Date

CAPS = Addition
[[ ]] = Deletion

B. Representation shall be by academic or research unit and based on the number of qualifying faculty in each unit as described below.

C. Election Procedure

D. Vacancies

1. In the case of death, resignation, [[or]] transfer [[of an elected representative of the Senate]], **OR OTHER REASON WHY AN ELECTED REPRESENTATIVE CAN NO LONGER REPRESENT THE UNIT,** an alternate shall immediately become the representative. The president of the Senate will appoint a replacement **FROM AMONG THE UNIT'S ELECTED ALTERNATES,** with the concurrence of the affected constituency[[,]] and the consent of the Administrative Committee.

E. CHANGES IN UNIT REPRESENTATION

1. **CHANGES IN A UNIT'S NUMBER OF REPRESENTATIVES ON THE FACULTY SENATE SHALL BE IMPLEMENTED AT THE TIME OF THE NEXT SCHEDULED ELECTION. REDUCTIONS IN A UNIT'S NUMBER OF REPRESENTATIVES SHALL BE ACCOMPLISHED BY ATTRITION, AS TERMS EXPIRE. INCREASES IN A UNIT'S NUMBER OF SENATE REPRESENTATIVES SHALL BE IMPLEMENTED THROUGH ELECTION OF ADDITIONAL REPRESENTATIVES AT THE NEXT SCHEDULED ELECTION.**

2. **REPRESENTATIVES SHOULD SERVE OUT THE TERMS TO WHICH THEY ARE ELECTED. THIS INCLUDES BUT IS NOT LIMITED TO REPRESENTATIVES WHO HOLD OFFICE AT A TIME OF REAPPORTIONMENT OF THE FACULTY SENATE, AND THOSE WHOSE UNIT AFFILIATION CHANGES DURING A TERM OF OFFICE. IF THE REPRESENTATIVE IS NO LONGER AFFILIATED WITH THE UNIT FROM WHICH THEY WERE ELECTED, THEN AN ALTERNATE SHALL BE APPOINTED AND BOTH SHALL SERVE CONCURRENTLY TO THE END OF THE TERM. THIS MAY LEAD TO A TEMPORARY INCREASE IN THE NUMBER OF ELECTED REPRESENTATIVES SERVING ON THE FACULTY SENATE.**

[[E.]] **F.** Absenteeism

[[F.]] **G.** Recall

The UAF Faculty Senate passed the following at Meeting #174 on April 4, 2011:

MOTION:

The UAF Faculty Senate moves to approve the A.A.S in Paramedicine.

EFFECTIVE: Fall 2012
Upon Board of Regents approval.

RATIONALE: See the full program proposal #38-UNP from the Fall 2010 review cycle on file in the Governance Office, 312B Signers' Hall.

Requires 69-73 credits comprised of A.A.S. degree requirements, and 6 credits for Emergency Medical Technician, 8 credits in Clinical Rotation, 24 credits in Paramedicine, 12 credits in Paramedic Internship, and 8 credits in Anatomy and Physiology and/or Biology core courses.

APPROVAL: _____ DATE: 4 April 2011
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

BRIEF STATEMENT OF PROPOSED PROGRAM

Program Goals

1. Brief identification of objectives and subsequent means for their evaluation

The Mission Statement of the Paramedic Program is to educate paramedic students to be competent entry-level paramedics. The program strives to produce paramedics with outstanding clinical abilities who will be prepared to enter the health professions workforce and be eligible for National certification and an Alaska paramedic license.

To reach the goal of the mission statement the following objectives will be met by the paramedic students at the end of this educational program:

Cognitive Domain: Upon completion of the program students will demonstrate the ability to comprehend, apply and evaluate clinical information to their role as paramedics. (Assessments: Exam, quiz and class assignment scores)

Psychomotor Domain: Upon completion of the program the student will demonstrate the technical proficiency in all skills necessary to fulfill their role as a paramedic. (Assessments: Skill Sheets, Preceptor Evaluations (including evaluation of run reports) review of Clinical Logs)

Affective Domain: Upon completion of the program the student will demonstrate personal behaviors consistent with professional and employer expectations for a paramedic. (Assessments: Professional Behavior Assessment, Preceptor Evaluations)

2. Relationship of program objectives to "Purposes of the University"

The University has a long-standing interest in educating individuals to meet workforce needs in Alaska. Paramedics work for fire departments, hospitals, flight services and other entities engaged in emergency medicine. Further, the Strategic Plan 2010 seeks to increase participation in experiential learning. The proposed Emergency Medical Services AAS includes experiential learning in each of the practicum courses – a total of 36 credit hours. The proposed AAS is also related to statements in Vision 2017, including:

- Emphasize development of career and employability skills throughout UAF curriculum with active involvement of potential employers.
- Identify career pathways and clusters appropriate to all UAF programs, consistent with U.S. Department of Labor categories.
- Ensure basic competencies of all UAF students in communication, computation and critical thinking.

In addition, the proposed AAS is part of a career ladder that begins with tech-prep courses in high school (including a health careers track at Hutchison High School), the paramedic academy, the AAS in Emergency Medical Services, and the Bachelor's of Emergency Management.

3. Occupational/other competencies to be achieved

Fulfill didactic and clinical competency requirements for students to sit for national paramedic exam and become licensed paramedics

Ensure basic competencies of all UAF students in communication, computation and critical thinking.

Proposed Catalog Layout:

Emergency Medical Services

College of Rural and Community Development
Community and Technical College

907-455-2853
www.ctc.uaf.edu/programs/emergency/

A.A.S. Degree

Minimum Requirements for Degree: 69 - 73 credits

The UAF emergency medical services program offers students excellent didactic instruction, clinical experiences, state of the art simulation labs, and practical vocational experience for the student seeking to become a paramedic. Upon completion of the program, the paramedic graduate will demonstrate competency in the following terminal objectives:

1. Be able to safely manage the scene of an emergency.
2. Apply the basic concepts of development, pathophysiology and pharmacology to assessment and management of emergency patients.
3. Establish and/or maintain a patent airway, oxygenate and ventilate a patient.
4. Integrate pathophysiological principles and assessment findings to formulate a
    - field impression and implement a treat plan for:
    - the trauma patient
    - the medical patient
    - neonatal, pediatric, and geriatric patients, diverse patients, and chronically ill patients.
    - patients with common complaints.
5. Take a proper history and perform a comprehensive physical exam on any patient, and communicate the findings to others.
6. Be able to properly administer medications.
7. Be able to communicate effectively with patients,
8. Complete a comprehensive paramedic examination with a minimum score of 80%.

At the completion of the paramedic course, students are able to participate in the national paramedic exam. After receiving their national certification, students can apply for their paramedic license through the Alaska State Medical Board.

Special admission requirements include:

The applicant completes an application prior to being admitted into the paramedic course. The applications are reviewed by the program's medical director and advisory board. This application process ensures the applicants selected do not have a background of criminal activity which would inhibit them from being licensed in the state.

Other special requirements are:

Current EMT-basic certification: EMS 170, "Emergency Medical Technician I."
Complete HLTH 114, "Fundamentals of Anatomy and Physiology."

Major -- A.A.S. Degree
Emergency Medical Services

1. Complete the general university requirements.
2. Complete the A.A.S. degree requirements.
3. Complete the following program (major) requirements:*
   EMS F170--EMT: Emergency Medical Technician I--6 credits
   EMS F181--Clinical Rotation I--4 credits
   EMS F183--Clinical Rotation II--4 credits
   EMS F280--Paramedicine I--12 credits
   EMS F282--Paramedicine II--12 credits
   EMS F283--Paramedic Internship--12 credits
   HLTH F114--Fundamentals of Anatomy and Physiology (4)
   or BIOL F111X and F112X--8 credits
4. Minimum credits required: 69 - 73 credits

*Student must earn a C (2.0) grade or better in each course.

DISAPPROVED: _____ DATE: _____
Chancellor's Office

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT, PROMOTION, TENURE, AND SABBATICAL LEAVE

AND

FISHERIES DIVISION UNIT CRITERIA

STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN THE FISHERIES DIVISION OF THE SCHOOL OF FISHERIES AND OCEAN SCIENCES. CAPITALIZED TEXT REFLECTS ADDITIONS AND CLARIFICATIONS TO UAF REGULATION. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL AS PROMOTION AND TENURE.

CHAPTER I
Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II
Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience, and performance requirements are set forth in "UAF Faculty Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans or schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor’s designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III
Periodic Evaluation of Faculty

A. General Criteria

Criteria outlined in “UAF Faculty Appointment and Evaluation Policies,” Chapter IV**,** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service, INCLUDING CURATION.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty. Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. EFFECTIVE TEACHING ENABLES LEARNERS TO GAIN KNOWLEDGE AND /OR SKILLS. EFFECTIVE TEACHERS WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR.

EFFECTIVE TEACHERS:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for THEIR students;

b. express positive regard for students, develop good rapport with students**,** show interest/enthusiasm for the subjectS BEING TAUGHT;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at AN appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

h. SUCCESSFULLY MENTOR GRADUATE STUDENTS;

i. MAY WRITE TEXT BOOKS, TEXTBOOK CHAPTERS, OR ARTICLES ON TEACHING METHODS, DEVELOP CASE STUDIES, ORGANIZE TEACHING WORKSHOPS, OR PREPARE COURSE MODULES FOR BROAD DISTRIBUTION.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

TEACHING IS AN IMPORTANT ROLE OF FISHERIES DIVISION FACULTY. FACULTY MEMBERS DISCHARGE THEIR RESPONSIBILITY BY TEACHING FORMAL COURSES, ADVISING UNDERGRADUATE AND GRADUATE STUDENTS, DIRECTING INDEPENDENT STUDIES (497 OR 697), SUPERVISING EXPERIENTIAL LEARNING AND INTERNSHIPS, AND CONDUCTING INFORMAL COURSES OR WORKSHOPS. TEACHING AND ADVISING GRADUATE STUDENTS IS MORE DEMANDING THAN TEACHING AND ADVISING UNDERGRADUATE STUDENTS; NEVERTHELESS, THE EXTRA EFFORT FACULTY INVEST IN GRADUATE TEACHING AND ADVISING ARE CENTRAL TO FISHERIES DIVISION'S MISSION. FACULTY WORKLOAD ASSIGNMENTS MAY REFLECT DISSIMILAR LOADS RELATED TO FORMAL CLASSROOM TEACHING AND GRADUATE AND UNDERGRADUATE ADVISING LOADS; HOWEVER THE GUIDELINE EXPECTATION IS THAT FACULTY MEMBERS WILL TEACH AT LEAST FOUR ACADEMIC CREDITS IN THE CLASSROOM EACH YEAR. QUALITY OF CLASSROOM TEACHING IS INDICATED BY PEER EVALUATIONS OF COURSE MATERIALS, PEER EVALUATIONS OF TEACHING PERFORMANCE, AND THE RECURRING LEVEL OF ENROLLMENT IN CLASSES. QUALITY GRADUATE ADVISING IS INDICATED BY THE SUCCESS OF STUDENTS IN COMPLETING DEGREES UNDER THE FACULTY MEMBER'S SUPERVISION, AND IN THEIR SUBSEQUENT EMPLOYMENT IN PROFESSIONAL OR SCIENTIFIC CAPACITIES. FACULTY WILL BE RECOGNIZED FOR ADVISING GRADUATE STUDENTS WHO ARE NOT BASED IN SFOS IN THE SAME WAY THAT THEY ARE RECOGNIZED FOR ADVISING GRADUATE STUDENTS WHO ARE BASED IN SFOS. ADDITIONAL EVIDENCE OF EFFECTIVE TEACHING AND MENTORING INCLUDES RESULTS OF STUDENT EVALUATIONS, PEER-REVIEWED PUBLICATION OF STUDENTS' THESIS OR DISSERTATION RESEARCH; STUDENT PRESENTATIONS AT REGIONAL, NATIONAL AND INTERNATIONAL MEETINGS; AND AWARDS TO STUDENTS.

RECOGNIZING THAT WORKLOAD ASSIGNMENTS VARY AMONG FACULTY MEMBERS THE GUIDELINE EXPECTATION IS THAT EACH CANDIDATE FOR TENURE AND PROMOTION TO ASSOCIATE PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST TWO SUCCESSFUL GRADUATE STUDENTS WHO HAVE COMPLETED DEGREES UNDER HER OR HIS SUPERVISION. SIMILARLY, EACH CANDIDATE FOR PROMOTION TO PROFESSOR SHOULD BE ABLE TO IDENTIFY AT LEAST SIX SUCCESSFUL GRADUATE STUDENTS. IN ADDITION, CANDIDATES FOR PROMOTION SHOULD BE ABLE TO IDENTIFY AT LEAST TWO REGULARLY SCHEDULED COURSES THAT THEY HAVE DEVELOPED OR HAVE PRIMARY RESPONSIBILITY FOR DELIVERING AND WHICH ARE CENTRAL TO THE UNDERGRADUATE OR GRADUATE PROGRAM REQUIREMENTS.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate TO the mission of their unit, and equally importantLY, results of their work must be

disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries, selection for these exhibitions being based on rigorous review and approval by peers**,** juries, recognized artists, or critics.

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

FACULTY IN FISHERIES APPLYING FOR PROMOTION OR TENURE MUST PRESENT EVIDENCE OF SUBSTANTIAL, HIGH-QUALITY CONTRIBUTIONS IN RESEARCH. WHILE THERE IS NO SUBSTITUTE FOR THE EXERCISE OF GOOD JUDGMENT ON THE PART OF THOSE WHO ARE CALLED UPON TO ASSESS RESEARCH AND SCHOLARLY PRODUCTIVITY, IT IS THE RESPONSIBILITY OF EACH FACULTY MEMBER TO EXPLAIN AND/OR OTHERWISE PROVIDE EVIDENCE OF THE SIGNIFICANCE OF THEIR RESEARCH AND SCHOLARLY ACTIVITIES. THE VARIED NATURE OF RESEARCH AND SCHOLARLY CONTRIBUTIONS MAKE IT DIFFICULT TO IDENTIFY SIMPLE CRITERIA FOR ASSESSING THE QUALITY AND SIGNIFICANCE OF SUCH CONTRIBUTIONS. IN GENERAL, THE PRIMARY EVIDENCE OF HIGH QUALITY RESEARCH IS PUBLICATION OF RESEARCH RESULTS AND INTERPRETATIONS IN RESPECTED PEER-REVIEWED JOURNALS, BOOKS OR OTHER MEDIA AND EVIDENCE OF SUBSTANTIAL CONTRIBUTION TO RESEARCH IS PRIMARY AUTHORSHIP BY THE APPLICANT OR HIS OR HER STUDENT, OR LEADERSHIP AS PRINCIPAL INVESTIGATOR OF THE RESEARCH—QUALITY, AS JUDGED BY FISHERIES DIVISION FACULTY PEERS, IS MORE IMPORTANT THAN QUANTITY. FISHERIES DIVISION FACULTY ARE EXPECTED TO AUTHOR AN AVERAGE OF AT LEAST ONE REFEREED PUBLICATION PER YEAR. THUS CANDIDATES FOR TENURE AND PROMOTION TO ASSOCIATE PROFESSOR ARE EXPECTED TO HAVE AUTHORED AT LEAST SIX REFEREED PUBLICATIONS; CANDIDATES FOR PROMOTION TO PROFESSOR ARE EXPECTED TO HAVE AUTHORED AT LEAST TWELVE REFEREED PUBLICATIONS. THESE EXPECTATIONS SHOULD BE INTERPRETED IN THE CONTEXT OF ACTUAL WORKLOAD AND ADJUSTED ACCORDINGLY.

EACH PROMOTION APPLICANT'S COMPLETE PUBLICATION RECORD, INCLUDING PAPERS PUBLISHED BEFORE THEY WERE AFFILIATED WITH THE UAF FISHERIES DIVISION, IS RELEVANT TO TENURE AND PROMOTION DECISIONS. IN ADDITION, THE NATURE OF THEIR WORKLOAD ASSIGNMENTS AND THEIR OPPORTUNITY FOR PUBLICATION THROUGHOUT THEIR CAREER LEADING UP TO THE REVIEW DATE IS CONSIDERED RELEVANT TO PROMOTION AND TENURE DECISIONS. THE STANDARD FOR TENURE, PROMOTION TO ASSOCIATE PROFESSOR, AND SATISFACTORY POST-TENURE REVIEW IS SATISFACTORY RESEARCH PERFORMANCE FOR THE PERIOD BEING EVALUATED. THE STANDARD FOR PROMOTION TO PROFESSOR IS SUSTAINED, EXCELLENT RESEARCH PERFORMANCE, RECOGNIZED NATIONALLY AND INTERNATIONALLY.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service". The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service".

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities that extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. UNREMUNERATED Consulting IN THE FACULTY MEMBER'S AREA OF EXPERTISE AND DISCIPLINE CONSISTENT WITH THE OBLIGATION FOR PUBLIC SERVICE.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper or trade journal articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair, or term-limited and part-time assignment as assistant/associate dean in a college, school, OR PROGRAM.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

g. Editing or refereeing articles or proposals for professional journals or organizations**.**

4. OTHER SERVICE: CURATION

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND THE UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY IN FISHERIES, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH, AND SERVICE.

CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:

a. MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);

b. INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;

c. FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;

d. MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);

e. SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

f. WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;

g. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;

h. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS;

i. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS AND INTERNATIONAL TREATIES AND AGREEMENTS THAT PERTAIN TO THE COLLECTION.

SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:

ASSISTANT PROFESSOR AND CURATOR

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

a. CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA, THE CIRCUMPOLAR NORTH, AND BEYOND AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.

b. COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.

   (I). CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.

   (II). CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.

   (III). CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGS OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.

   (IV). CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CURATION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.

c. CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA.

d. CURATORS WILL ACTIVELY SUBMIT GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

ASSOCIATE PROFESSOR AND CURATOR

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC, AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH MUST BE EVIDENT.

PROFESSOR AND CURATOR

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. HE OR SHE MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

5. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

UNIVERSITY AND PUBLIC SERVICE IS EXPECTED OF ALL FISHERIES FACULTY. PERTINENT SERVICE IS RELATED TO THE FACULTY MEMBER'S PROFESSIONAL EXPERTISE OR UNIVERSITY POSITION. SOME MEMBERS MAY HAVE GREATER OR LESSER THAN AVERAGE ASSIGNMENTS IN SERVICE AND THE EXPECTATIONS OF THEM SHOULD BE ADJUSTED ACCORDINGLY. HOWEVER, EXCEPT FOR FACULTY ON SABBATICAL LEAVE, THE GUIDELINE EXPECTATION IS THAT EVERY FACULTY MEMBER WILL SPEND AT LEAST ONE MONTH OF TIME ANNUALLY ON SERVICE RELATED ACTIVITIES REGARDLESS OF THEIR LEVEL OF RESEARCH AND TEACHING. SERVICE IS TYPICALLY LIMITED TO 5 UNITS (APPROXIMATELY 1.5 MONTHS) UNLESS OTHERWISE AUTHORIZED IN THE WORKLOAD PROPOSAL. THE MIX OF PUBLIC, UNIVERSITY, PROFESSIONAL, AND OTHER SERVICE MAY VARY WITH THE FACULTY MEMBER'S FIELD OF EXPERTISE AND STAGE OF CAREER. SOME FACULTY MAY HAVE SUBSTANTIAL ADMINISTRATIVE OR SPECIAL ASSIGNMENTS THAT INCREASE THE SERVICE PORTION OF THEIR WORKLOAD. EVIDENCE OF HIGH-QUALITY PERFORMANCE CAN INCLUDE SPECIFIC ACCOMPLISHMENTS RELATED TO THE SERVICE. SERVICE ON NATIONAL OR INTERNATIONAL BODIES IS EXPECTED OF CANDIDATES FOR PROMOTION TO PROFESSOR.

FOR FACULTY PROVIDING CURATION SERVICES, THE APPLICATION FOR PROMOTION SHOULD INCLUDE A LETTER PREPARED BY A COMMITTEE OF TENURED CURATORS AT THE MUSEUM. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

The UAF Faculty Senate passed the following at Meeting #173 on March 7, 2011:

MOTION:

The UAF Faculty Senate, upon the recommendation of the Faculty Development, Assessment and Improvement Committee, moves to approve the following actions:

- New electronic student evaluations will not be implemented without Faculty Senate approval.

- More research on this issue will be done at the administrative level in order to complement the FDAI committee's concerns and recommendations (attached).

Effective: Immediately

Rationale: During extensive discussions in the Faculty Development, Assessment and Improvement Committee, areas were identified that indicate that some aspects of online surveys of teaching are unreliable. Reasonable arguments can also be made in favor of electronic evaluations, for example, under the following circumstances:

- electronic evaluations may be the only practical choice in some distance delivery situations.

- security has been an issue at UAF with the paper-based IAS forms; however, switching to electronic evaluations will not necessarily prevent this from ever happening again.

This motion asks for more research on this complex issue that is so crucial to our professional lives as teachers. The motion also seeks to ensure that faculty concerns are addressed before a decision on the implementation of electronic student evaluations is made.

DISAPPROVED: _____ DATE: _____

Chancellor's Office

Attachment to Motion submitted by the FDAI Committee:

To: Faculty Senate
From: Josef Glowa, FDAI

This is a summary of what has been discussed in our committee regarding the pros and cons of electronic student evaluations. Committee member Melanie Arthur deserves special credit for digging more deeply into this issue, and compiling and summarizing some crucial data (see below). Attached are the two articles that best illustrate the current unreliable state of online surveys of teaching.[1]

- The first attached article compares modes of administration (paper vs online), finding a huge difference in response rates for in-class versus online evaluations (70% versus 29%, in the absence of special incentives for online evaluators). They included two additional groups of online evaluations, one in which the instructor provided an in-class demo of the online evaluation website and another in which a "modest" grade incentive was offered for completing the online evaluation. In the extra credit case, the response rates were comparable for paper and online evaluations. It should be noted, though, that no similar incentive was offered to the in-class students. Perhaps they could have gotten a response rate closer to 90% for the in-class evaluations if they had offered extra credit there? This was a single institution study of business classes and has not, to our knowledge, been replicated.
- The second attached article is a lengthier review of practices, emphasizing the quality of ratings by different modes of administration, and emphasizing the importance of response rates. It reviews studies that have compared in-person and online and finds a difference in response rates ranging from 37 to <1% lower, with an average difference of 23% (notably in the 1% case the in-person evaluation only had a 33% response and included only distance ed courses). The author describes strategies that have been used to raise response rates, but notes in summary that these have typically NOT been used. In their absence, online surveys can be expected to fall well below the acceptable response rate. (Of course, this does not engage the question of students' ability to effectively evaluate their instructors, which is outside the scope of this discussion)
- Acceptable response rates: Survey research methods texts (e.g. Babbie's Practice of Social Research) suggest that an absolute minimum response rate from which to draw valid conclusions is 50%, and 70% is desirable.
- There is precedent (described in the second attached article) for using a combination of paper and online within a single institution. It is worth looking into more deeply if the administration appears completely inflexible in their desire to switch to online evaluation.
- There is a lot more research out there on this topic, and both attached articles include lengthy bibliographies if one wishes to dig deeper. These two pieces appeared to be good representatives of the available literature.
- Of note, UAA has not adopted an effective institution-wide strategy for improving response rates. Instead, they now write on their reports that the data cannot be considered valid for evaluative purposes in the case of low response rates.

The UAF Faculty Senate passed the following at Meeting #173 on March 7, 2011:

MOTION:

The UAF Faculty Senate moves to allow a foreign language test exemption and Core credit waiver for qualifying foreign students entering UAF via a formal transfer or articulation agreement as specified below, by adding the following UAF Catalog statement on page 40, as indicated:

Effective: Fall 2011

Rationale: The UAF Core allows students who have studied a foreign language for two semesters or more to substitute such study for six credits of courses from the Perspectives on the Human Condition portion of the Core. Current Faculty Senate policy allows undergraduate students transferring from other universities to transfer such credit if it is earned at the university level.

After the "Credit for Language Testing" section on page 40 of the 2010-2011 *UAF Catalog*, and before the "DANTES-DSST (Standardized Subject Test)," enter:

- **LANGUAGE TEST EXEMPTION/CORE CREDIT WAIVER – INTERNATIONAL ARTICULATION AGREEMENTS**

STUDENTS WHO ARE SPEAKERS OF NON-ENGLISH LANGUAGES TRANSFERRING FROM FOREIGN PARTNER UNIVERSITIES TO UAF ARE EXEMPTED FROM TAKING A FOREIGN LANGUAGE TEST TO DEMONSTRATE FLUENCY IN THAT LANGUAGE. THE "LANGUAGE EXEMPTION/CORE CREDIT WAIVER" FORM SHOULD BE FILLED OUT

AND FILED WITH THE OFFICE OF ADMISSIONS AND THE REGISTRAR. UPON APPROVAL, THE STUDENT WOULD HAVE SIX CREDITS OF CORE PERSPECTIVES ON THE HUMAN CONDITION WAIVED.

NOTE: THIS APPLIES ONLY TO STUDENTS PARTICIPATING IN FORMALIZED ARTICULATION AGREEMENTS ESTABLISHED BETWEEN UAF AND PARTNER INSTITUTIONS.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #172 on February 7, 2011:

MOTION:

The UAF Faculty Senate moves to consider students transferring to UAF with an Associate of Science (AS) or Associate of Arts (AA) degree from a regionally accredited school satisfying one of the criteria below, as having satisfied the **100 and 200 level** UAF General Education (Core) requirements.

Effective: Fall 2011

Rationale: We recognize that UAF's Core Curriculum is a means to an end: ensuring that UAF graduates have a broad liberal education. AA and AS degrees which meet one of the requirements listed below have been purposefully designed to include a broad, liberal education component similar in purpose and scope to our own Core Curriculum. Students graduating from these programs have some exposure to math, science, humanities and social sciences and are adequately prepared to enter upper-division coursework at a 4-year university. Applied degrees (such as AAS) are not included, as they do not have the same broad liberal education component. This policy will allow UAF academic units to create 2+2 articulation agreements with qualified community colleges, and attract qualified students to finish bachelor's degrees at UAF. The goal is to attract students who have demonstrated success at the community college level; who have completed the intermediate goal of the AA or AS; who are ready to step into upper-division standing (where we have significant capacity) and who are likely to succeed and graduate from UAF programs.

Students transferring to UAF with an Associate in Science (AS) or Associate in Arts (AA) degree from a regionally accredited school satisfying one of the criteria below will be considered as having satisfied the **100 and 200 level** UAF General Education (Core) requirements.

1. The AA or AS degree is from the University of Alaska
   OR
2. The public Universities in the State in which the community college is located also waive their core requirements in lieu of completing an AA or AS degree, that is, have an established 2+2 program.
   OR
3. The community college and (or) community college district is accredited by the Northwest Commission on Colleges and Universities. (This is the one we are in).
   OR
4. The associate program has been approved by the Core Review Committee as satisfying the 100 and 200 level General Education requirements.

   HOWEVER, schools and degree programs which meet the above criteria but supply inadequately prepared students may be designated 'unacceptable' if so voted by the Core Review Committee.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #172 on February 7, 2011:

MOTION:

The UAF Faculty Senate moves to adopt the following changes to the readmission of academically disqualified students policy described in the *UAF Catalog* (below):

Effective: Fall 2011

Rationale: Current catalog language is too vague to be helpful to faculty and staff in advising students who have been academically disqualified. It also provides no benchmarks to measure a student's suitability for readmission.

As always, students with extenuating circumstances could request special consideration for readmission. Exceptions to the policy could be made per professional judgment of the Dean, Registrar or Provost/Vice Provost at the request of the student's Advisor.

UAA currently requires completion of 12 credits for readmission to any level program, but is considering a change in their policy to allow readmission after 9 credits. UAS requires raising cumulative GPA to 2.0 for readmission, regardless of the number of credits required to get there.

7 February 2011
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 8 Feb 2011
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Current *UAF Catalog* language: Page 48

Academic Disqualification
Undergraduate students -- Undergraduate students on probation whose semester and cumulative GPAs are less than 2.0 at the end of spring semester will be disqualified from degree-seeking status. Disqualified students may continue their enrollment at UAF only as non-degree students,

are limited to a maximum of 10 credits per semester and must register in person. Credit load overrides are permitted under certain circumstances. To be eligible for reinstatement in an academic degree program, the student is expected to earn at least a C grade (2.0) in all courses taken as a non-degree student. To be restored to degree-seeking status, the student must apply for readmission. A student may be reinstated but may still be on probation.

PROPOSED catalog language:

Academic Disqualification
Undergraduate students – Undergraduate students on probation whose semester and/or cumulative GPA falls below a 2.0 for two consecutive regular (Fall/Spring or Spring/Fall) semesters will be placed on Academic Disqualification. Academically disqualified students may continue their enrollment at UAF only as non-degree students, are limited to 10 credits per semester, and are ineligible for most types of financial aid.

To be eligible for readmission to an academic degree program, the student must:

1. Complete nine (9) credits for a baccalaureate or associate program, or six (6) credits for a certificate program, with a 2.0 GPA or higher for those credits, after being disqualified. The courses may be completed at UAF and/or another regionally-accredited institution and must be letter-graded. Grades of 'P' or 'CR' will not be considered. In considering students for readmission, deans will look for coursework taken that relates to the student's intended program.

   Students seeking readmission into an occupational endorsement program must have a 2.0 cumulative GPA.

OR

2. Achieve a 2.0 cumulative grade point average by repeating courses at UAF previously failed and reapply for admission

Readmission to a degree program is not automatic or guaranteed. The student must reapply and the application must be approved by the dean. The student may apply to the same program from which they were disqualified, or to a different program or level (e.g. baccalaureate, associate or certificate). Readmission may be granted with a status of "probation" or with other conditions as specified by the dean. It is vitally important for academically disqualified students to work closely with their academic advisor in developing a realistic and timely educational plan.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #172 on February 7, 2011:

MOTION:

The UAF Faculty Senate moves to replace the "Grades and Grade Point Average (GPA)" paragraph on page 201 of the 2010-2011 UAF Catalog with the revision shown below.

Effective: Fall 2011

Rationale: Some faculty and students have found the current grade and GPA requirements needed to earn a graduate degree to be vague. Potential confusion could result in delayed graduation and significant cost to complete degree requirements that a student thought were already completed.

UAF Catalog, page 201:

- **Grades and Grade Point Average (GPA)**
  You must have a cumulative GPA of 3.0 in the courses identified on your Advancement to Candidacy form to remain in good standing and to graduate. In addition, for the purpose of satisfying degree requirements you must earn a B (3.0) or better (no P grades) in each F400-level course and a C (2.0) grade or better in each F600-level course. NOTE: A B- is below a 3.0 and, if obtained in an F400 course, will not count for meeting degree requirements; likewise, a C- is below a 2.0 and, if obtained in an F600-level course, will not count for meeting degree requirements.

The UAF Faculty Senate passed the following at Meeting #172 on February 7, 2011:

MOTION:

The UAF Faculty Senate moves to amend Section 3 (Article V: Committees, Permanent) of the Faculty Senate Bylaws by adding the Research Advisory Committee.

EFFECTIVE: Immediately.

RATIONALE: UAF is a nationally ranked research university, and its faculty should have a voice in setting research policy and a vehicle to guide administrators in the needs of the research enterprise. The committee will serve as a conduit of communication both for faculty at large to address issues and needs as well as a sounding board for administration to get a response from faculty on research matters. The committee can also work with and advise other senate committees with regard to research.

Sect. 3 (ART V: Committees)

PERMANENT

8. THE RESEARCH ADVISORY COMMITTEE CONSISTS OF UP TO TEN VOTING MEMBERS, A CHAIR AND CO-CHAIR, ALONG WITH AT LEAST ONE EX OFFICIO MEMBER WHO IS THE VICE CHANCELLOR FOR RESEARCH. THE COMMITTEE EXISTS TO REVIEW ISSUES OF RESEARCHERS AT THE UNIVERSITY OF ALASKA FAIRBANKS AND TO PROVIDE REPORTS, RECOMMENDATIONS, AND RESOLUTIONS TO THE UAF FACULTY SENATE ON BEHALF OF THE UAF RESEARCH COMMUNITY. THE RESEARCH ADVISORY COMMITTEE WILL PROVIDE A CONNECTION BETWEEN THE FACULTY AND THE UAF VICE CHANCELLOR FOR RESEARCH, AND ADVISE THE VCR ON DEVELOPING PRODUCTIVE RELATIONSHIPS WITH THE DIFFERENT RESEARCH FACILITIES ACROSS UAF.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #172 on February 7, 2011:

MOTION:

The Faculty Senate moves to **AMEND THE 2011-12 CATALOG TO REFLECT** a one year math placement test expiration and revise the following UAF catalog statement under the Mandatory Placement heading on page 33, as indicated:

Effective: Fall 2011

Rationale: Placement test expiration periods are inconsistent across the UA system. Students attending different institutions within the system are confused by the differences. A common message is requested.

Furthermore, it is the hope of the SADA Committee and the Developmental Math and Math faculty that this motion leads to Banner enforcement of prerequisites for math placement.

UAF Catalog, page 33:

Mandatory Placement
Students who do not meet basic skills standards in reading, writing and mathematics must complete appropriate Developmental Education courses. Such students may not enroll in

100-level or above courses that depend on these skills until they have satisfactorily met the exit criteria of the appropriate Developmental Education course(s).

Students without appropriate standardized test scores (such as ACT Plus Writing, SAT, ASSET or ACCUPLACER), advanced placement credits, transfer credits or prerequisite coursework must have UAF-approved placement test scores prior to registering for classes their first semester at UAF. Placement exams must be taken within two calendar years prior to the start of the course, **EXCEPT FOR MATHEMATICS PLACEMENT EXAMS WHICH MUST BE TAKEN WITHIN ONE CALENDAR YEAR.** Students may not enroll in classes unless they meet the placement requirements. Placement into appropriate developmental or core classes must be done with the help of an academic advisor. Placement tests are available at every UAF community campus as well as Testing Services, the Academic Advising Center, Tanana Valley Campus, Rural Student Services, Center for Distance Education and Northern Military Programs at Fort Wainwright, Eielson Air Force Base and Delta Career Advancement Center.

For placement into English F111X or any developmental English course, students must also have a scored writing sample such as an SAT or ACT writing sample, or a UAF-generated writing sample given along with ASSET, COMPASS, or ACCUPLACER or other placement tests.

Students who enroll in a developmental or core course without meeting the requirements may be withdrawn from the course through the faculty-initiated withdrawal process. Prerequisite courses must be taken within two calendar years prior to the start of developmental and lower division core math courses. Students may not enroll in Perspectives on the Human Condition courses unless they meet the placement requirements for English F111X (including reading). Students may not enroll in core science classes unless they have placement at DEVM F105 or above and placement into English F111X.

The UAF Faculty Senate passed the following at Meeting #172 on February 7, 2011:

MOTION:

The UAF Faculty Senate moves to request that the System Wide Office address the issue of verification of health care dependents for all employees such that:

(1) delay the timeline for response to the audit to June 1;
(2) utilize existing information at UA, through each HR office, rather than inconvenience every employee at considerable cost;
(3) accept legal liability for unauthorized release and/or loss of personal information in accordance with state and federal law;
(4) set up criteria, such as during open enrollment, to verify this data on a regular basis in house;
(5) publicize the requirements in an inclusive and positive manner to ensure compliance with state and federal law and to avoid misunderstandings in the future;
(6) include employees in decisions regarding their benefits and employment practices through the shared governance vehicle before costly decisions like this are made,
(7) report to the Faculty Senate the costs and benefits of the audit.

EFFECTIVE: Immediately

RATIONALE: A recent request (31 January 2011, see attached) from the Statewide Office of the University of Alaska required every employee to reaffirm the status of their dependents or potentially risk their loss of coverage. The timeline for this was 4 weeks, insufficient time for many in this diverse and dynamic group within the framework of their academic duties at UAF.

Though the need to provide health insurance in a cost effective manner is recognized by the Senate, this approach is neither cost-effective or would even ensure lasting change in the current system. Re-evaluating this policy is recommended to adopt a time-line that would take into account the academic workload and travel for sabbatical and field work, use existing information present at UAF, and prepare a plan to inform employees and update this data using an existing framework.

The current approach is onerous, provides a significant impact on the majority of the employees and was done without recognition of shared governance. As a result it appears to be an ineffective use of precious University resources, financial, expertise and goodwill among the employees.

To all UA Faculty and Staff

As part of University of Alaska's ongoing efforts to control the cost of our health plan, we want to ensure that only eligible dependents are enrolled. ConSova is contacting every employee who has one or more dependents enrolled in a UA's health plan and is asking for verification of their eligibility.

It is important that you review the information ConSova is sending you. It is critical you respond to the verification audit by the February 28 deadline whether or not you have all required documentation.

If you have questions after reviewing the information ConSova sent you, call ConSova at 1-866-430-1267.

Thank you for your cooperation during this important project.

Frequently Asked Questions

Who is ConSova?

ConSova is a Human Resources firm that specializes in the dependent eligibility verification process and has conducted many dependent audits for Fortune 500 companies and governmental organizations.

Can I black out my financial information and Social Security number on these documents?

You may cross out all financial information and the first five digits of your Social Security number on any documents you provide. The last four digits of you SSN are required for accurate data match.

What guarantee do we have that our personal documents will be kept secure?

ConSova considers security and confidentiality a very serious matter. They employ state-of-the-art encryption technology to safeguard sensitive data. All documentation received is scanned and maintained on encrypted drives. In the event a ConSova system is stolen, the data is encrypted and will not be accessible to anyone. The server that maintains Dependent Eligibility Verification systems and scanned images is only accessible on ConSova's Local Area Network located in Lakewood, Colorado. This Local Area Network is a closed system and not accessible via Virtual Private Network or any other interactive connection.

ConSova Associates have audited over 1.5 million dependents in the past seven years, and they have never been accused or alleged to have not protected the private personal information of its clients' employees.

University of Alaska realizes and understands that employees may have concerns about releasing this information to a third party. We assure you that every precaution has been taken to ensure your information is kept confidential. This is no different than what our other service providers must prove (Premera, Caremark, VSP). You can help protect your own privacy by following the instructions included with the

letter you will receive from ConSova.
Will the submitted documents be retained by ConSova? If so, for how long?

Documentation received from University of Alaska employees will be batched and maintained in a secure location monitored only by ConSova employees. ConSova will destroy all documentation and wipe all hard drives containing protected health information 30 days after the dependent verification is completed.

Can my local Human Resources Department review my documents to determine eligibility of my dependents instead of ConSova?

No. The University of Alaska will not review any documentation for the verification process. All documents must be provided to ConSova for review.

If I am unable to supply documentation by the deadline for my eligible dependent, will University of Alaska terminate my dependent from the plan?

The University of Alaska will terminate a dependent due to the inability to provide documentation that verifies eligibility.
However, if you are in contact with ConSova during the verification process and ConSova is aware of an issue you may be experiencing in gathering the appropriate documents, then your dependent will not be automatically terminated if you do not meet the deadline. ConSova is willing to assist you through this process, including helping you contact agencies to locate the documents you need.

Where should I go if I have questions?

The general information documents that have been sent out will be posted online at www.consova.com/universityofalaska. It may help you to review them. If after reviewing you still don't find the answer to your question, call 1-866-430-1267.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #171 on December 6, 2010:

MOTION:

The UAF Faculty Senate urges instructors of letter-graded, undergraduate courses to publicize and distribute to students on the first day of class UAF regulations with regards to the grades of 'C' and below, as applicable to the course taught. These include the material in the table listed below.

Grade	Definition and academic implications	Grade Points
C+	Satisfactory to Fair: satisfactory level of performance, with some mastery of material	2.3
C	Average: satisfactory level of performance and level of competency in the subject. **A minimum grade of C (2.0) is required for all prerequisite and major courses.**	2.0
C-	Barely satisfactory: **Minimum grade required for all Core (X) Courses. A grade of C- (1.7) in a class which is a prerequisite for another class or in a class required for a student's major will result in the student being required to retake the class.**	1.7
D+, D, and D-	Below Average: Fair to poor level of competency in the subject matter. **A grade of D+, D or D- in a Core (X) class will automatically require the student to re-take the class to receive core credit, starting Fall 2011.**	1.3, 1.0, 0.7

EFFECTIVE: Following the approval of the Motion to Specify the Minimum Grade for Baccalaureate Core Courses (currently pending), this motion would be effective Fall 2011.

RATIONALE: Specifying the minimum passing grade for prerequisite, degree major, and core courses will help eliminate grading policy confusion for instructors and their students.

****

4 February 2011

President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 4 Feb 2011

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The UAF Faculty Senate passed the following at Meeting #171 on December 6, 2010:

MOTION:

The UAF Faculty Senate moves to recommend the University Regulation R10.04.090.C.11 be clarified as follows:

[[ ]] – Deletions
CAPS and Bold – Additions

Regents Regulation R10.04.090.C.11:

C. Grades Definitions

11. I, or Incomplete

A grade of "I" indicates that a student has not completed the coursework by the end of the course. A final grade and credit will be withheld without penalty until the course requirements are met within an approved time, not to exceed one year. After one year, the "I" **EITHER** becomes a permanent grade **OR CHANGES TO "F" ACCORDING TO MAU FACULTY SENATE POLICY.**

EFFECTIVE: Following the approval of the Motion to Specify the Minimum Grade for Baccalaureate Core Courses (currently pending), this motion would be effective immediately upon UA President approval.

RATIONALE: UAF Faculty Senate policy (approved Spring 2006) is for an 'I' to become an 'F'. This clarifies the University Regulation (which the UA President can modify) which states 'I" becomes 'permanent I'. Our request is to make UA Regulation in line with UAF Faculty Senate Policy without affecting the other MAUs.

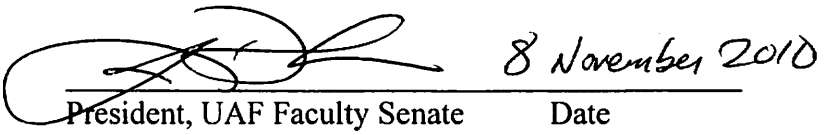
President, UAF Faculty Senate — Date: 4 February 2011

APPROVAL: _____ Chancellor's Office — DATE: 4 Feb 2011

DISAPPROVED: _____ Chancellor's Office — DATE: _____

The UAF Faculty Senate passed the following at Meeting #170, November 8, 2010:

MOTION:



The UAF Faculty Senate moves to amend the Constitution of the Faculty Senate, Article IX, section 1, to state that the most current version of Robert's Rules of Order shall be the parliamentary "guidelines" for the Faculty Senate rather than the "authority".

Effective: Immediately

Rationale: Robert's Rules of Order in regard to a governing body serve the function to facilitate the mission of that body such that they:

- Are subordinate to the Constitution and Bylaws of a governing body
- Support majority rule while preserving the rights of the minority
- Are to facilitate collegial debate regarding matters of policy

In fact, past practice of the UAF Faculty Senate has demonstrated the use of Robert's Rules of Order in this manner. The "authority" of the UAF Faculty Senate is derived from its voting majority and its mandate in the University of Alaska Board of Regents and UAF Policy.

8 November 2010

President, UAF Faculty Senate Date

****

CAPS = Addition

[[ ]] = Deletion

ARTICLE IX - Parliamentary Authority

Sect. 1 The parliamentary [[authority]] **GUIDELINES** shall be the most recent version of Robert's Rules of Order.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #170, November 8, 2010:

MOTION:

The UAF Faculty Senate moves to specify that students must earn a minimum grade of 'C-'(1.7) in all baccalaureate core ('X') classes in order to satisfy core requirements. However, there may be additional constraints on the grade, e.g., minimum of C (2.0) if to be used as a prerequisite for another course.

EFFECTIVE: Fall 2011

RATIONALE: A grade of D+, D, and especially D- means that a student has learned very little from a class. A grade higher than the minimum needed to pass is required for core classes. Under the proposed system, a student who receives a grade less than C- in a core class receives course credit, but not core credit. This will also align UA internal course transfers better with transfers of credit from outside of the UA system. Currently, a course from outside the UA system will only transfer to the UA system if a grade of C- or higher is received.

See next page for suggested UAF Catalog revisions:

Suggested revised page for catalog (page 47)

Grade	Definition and academic implications	Grade Points
A+	Superior performance: awarded to a small fraction of students in any class	4.0
A	Excellent: indicates originality and independent work & a thorough mastery of subject	4.0
A-	Very Good: nearly complete mastery of subject	3.7
B+	Good to very good: considerable competence in the subject matter	3.3
B	Good: ability above the average level of performance	3.0
B-	Good to Fair: some—but incomplete—mastery of the subject matter	2.7
C+	Satisfactory to Fair: satisfactory level of performance, with some mastery of material	2.3
C	Average: satisfactory level of performance and level of competency in the subject. A minimum grade of C (2.0) is required for all prerequisite and major courses.	2.0
C-	Barely satisfactory: Minimum grade required for all Core (X) Courses. A grade of C- (1.7) in a class which is a prerequisite for another class or in a class required for a student's major will result in the student being required to re-take the class. A C- may affect athletic eligibility and academic standing, as a minimum cumulative GPA of 2.0 is required.	1.7
D+	Fair to poor level of competency in the subject matter. A grade of D+ in a core (X) class will automatically require the student to re-take the class to receive core credit.	1.3
D	Below Average: poor level of competency in the subject matter. Receiving this grade will automatically require the student to re-take the class to receive core credit.	1.0
D-	Far below average: the lowest passing grade and one for which core classes will need to be re-taken.	0.7
F	Failure: insufficient mastery of the subject matter. Grade will be counted in the student's GPA calculation but no course credit is received.	0.0

Computing your GPA

Course	Credits	Grade	Credits x Grade points per credit	= Grade points
BIOL F111X	4	A-	4 cr x 3.7 pts	14.8
COMM F131X	3	C	3 cr x 2.0 pts	6.0
ENGL F111X	3	C-	3 cr x 1.7 pts	5.1
MATH F107X	4	B	4 cr x 3 pts	12.0
HIST F131	3	F	3 cr x 0 pts	0.0
Total	16			37.9
			37.9 grade pts / 16 credits =	2.37 GPA

Course	Credits	Grade	Credits x Grade points per credit	= Grade points
BIOL F111X	4	C-	4 cr x 1.7 pts	6.8
COMM F131X	3	C	3 cr x 2.0 pts	6.0
ENGL F111X	3	C	3 cr x 2.0 pts	6.0
MATH F107X	4	C-	4 cr x 1.7 pts	6.8
HIST F131	3	C	3 cr x 2.0 pts	6.0
Total	16			31.6
			31.6 grade pts / 16 credits =	1.98 GPA

Note the effect of the C- grades in the second example. The cumulative GPA is now 1.98 which is below "good standing" and will affect athletic eligibility. The student will be placed on probation if their cumulative GPA is now also below 2.0. In addition, because MATH F107X and BIOL F111X are prerequisites for other courses, the C- grades (1.7) are considered not passing and the student must repeat these courses.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #170, November 8, 2010:

MOTION:

The UAF Faculty Senate moves to approve the Unit Criteria for the Department of Alaska Native Studies and Rural Development.

EFFECTIVE: Fall 2011
Upon Chancellor Approval

RATIONALE: The committee assessed the unit criteria submitted by the Department of Alaska Native Studies and Rural Development. Revisions were agreed upon by the department representatives and the Unit Criteria Committee, and the unit criteria were found to be consistent with UAF guidelines.

8 November 2010
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 29 April 2011
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

See the attached DANSRD Unit Criteria.

This change in unit criteria was held pending clarification of research and service activities, and in determination of "appropriate judges" of research and creative activity. My approval is based on the 18 Feb 2011 memorandum from Executive Dean Bernie Joseph and DANSRD Director Miranda Wright, and discussions with DANSRD Director and faculty. Memo attached. BR

UNIVERSITY OF ALASKA FAIRBANKS

Department of Alaska Native Studies and Rural Development
College of Rural and Community Development

Fairbanks Campus: Brooks Bldg. Room 315, P.O. Box 756500, Fairbanks, AK 99775 · 907-474-6528 office · 907-474-6325 fax
Anchorage Office: 2221 E. Northern Lights Blvd. Ste 200, Anchorage, AK 99508 · 907-279-2700 office · 907-279-2716 fax

MEMO TO: Brian Rogers, Chancellor

THROUGH: Bernice Joseph, Executive Dean

FROM: Miranda Wright, Director, DANSRD

DATE: February 18, 2011

Thank you for meeting with Ralph Gabrielli and me and for letting us know your concerns about our DANSRD unit criteria. Thanks, also, for your very helpful suggestions for clarifying and strengthening our document, and for inviting us to respond in this way.

The first concern relates to possible difficulties in discriminating between research and service. Our department agrees with the language in Regulations: research must be characterized by inquiry and originality and must contain a dissemination element. So while, for example, carrying out a community survey and reporting the results may have value, it is fundamentally a service. If, however, one were to have created the survey tool, and then applied it, interpreting the results and drawing conclusions and making recommendations and reporting and discussing them in some public forum, we would call this research and would be confident that most university colleagues would agree.

The other concern relates to the determination of appropriate judges. This is easy when the work being evaluated is an article sent to a journal with academic standing. In an applied program, however, when the work is the product of action research carried on in a community and done for the benefit of the community, identifying who is the best judge is not so clear. In cases like this, we believe that local or regional leaders who are positioned to say whether a contribution has been made are the best and most appropriate judges. To provide greater clarity and objectivity, however, we propose that when non-traditional judges are intended as evaluators of research and creative activities, the circumstances and individuals will be discussed with CRCD's executive dean and that her approval in advance will be required.

Thank you, again, for sharing your concerns and for your consideration of the approach outlined here.

This motion was amended on the Faculty Senate floor on October 11, 2010 to include "for this year only"; and a friendly amendment on page 2 was proposed by the Provost's Office and approved by the Administrative Committee on May 6, 2011.

The UAF Faculty Senate passed the following at its October 11, 2010 Meeting #169:

MOTION:

The UAF Faculty Senate moves to approve an updated procedure to accomplish the program review process as required by Board of Regent policy and regulations (10.06).

Approved frequency: for this year only, as amended on
EFFECTIVE: Immediately the Senate floor.

RATIONALE: The existing program review process (Meeting #102, May 2001) does not fully meet Board of Regents policy and regulations on program review (10.06). The proposed process aligns with the new accreditation cycle, is a more efficient process, i.e., it is less burdensome on programs, and is intended to a yield more consistent quality of review.

11 October 2010
President, UAF Faculty Senate Date

APPROVAL: _____ **DATE:** 10-12-10
Chancellor's Office

DISAPPROVED: _____ **DATE:** _____
Chancellor's Office

****

The new program review process will be completed as follows:

1. **An initial brief review based on centrally generated productivity and efficiency summary and a unit supplied two-page narrative describing mission centrality, the prospective market for graduates, the existence of similar programs elsewhere in UA, and any special circumstances that explain features of the centrally generated productivity and efficiency summary (see attached program review template for more details). The information reviewed meets the requirements set by Board of Regents Policy and Regulation (10.06; attached). A single Faculty Program Review Committee comprised of one tenured-faculty member from each college and school (not including CRCD) plus five CRCD representatives will review the materials and make one of the following recommendations:**
   - **Continue program**
   - **Continue program but improve outcomes assessment process and reporting**
   - **Continue program but improve other specific areas or**

Program Review Process
Approved by Faculty Senate 10/11/10

- Discontinue program.

The committee will provide a brief narrative justifying their recommendation and describe any areas needing improvement prior to the next review.

2. An Administrative Program Review Committee comprised of the Deans of Colleges and Schools and 4 administrative representatives from CRCD will review the recommendations of the Program Review Committee, may request additional information from about the program, and will state their collective agreement or disagreement with the Committee's recommendation.
3. The Provost will review the recommendations of the Faculty Program Review Committee and the Administrative Program Review Committee and take one of the following actions:
   a. Program continuation is confirmed until next review cycle
   b. Program continuation with an action plan prepared by the program and Dean to meet improvements needed by next review cycle. Annual progress reports will be required in some cases. Actions may also include further review by an ad hoc committee.
   c. Recommend to discontinue program. Program deletion will require Faculty Senate action. However, when appropriate admissions may be suspended pending action.

in consultation with Chancellor's cabinet

Program Review Template

The program will provide the following information (submit electronically to LaNora Tolman <latolman@alaska.edu> by December 1 – your Dean may ask for this information earlier to review it):

1. A current outcomes assessment plan and summary for each academic program (see attached appendix for more detail)
2. Concise narratives responding to the following (no more than 2 pages):
   a. The prospective market for program graduates expressed need by clientele in the service area and documented needs of the state (note if program is included in state high demand job area list) and/or nation. The following sites provide state and national employment related information:
      i. UA System list of high demand job programs
      http://www.alaska.edu/swbir/performance/metrics/MetricDetail/HDJTable1.pdf
      ii. State of Alaska Department of Labor
      http://www.labor.state.ak.us/research/lodata/occproj.htm
      iii. U.S. Department of Labor Bureau of Labor Statistics http://www.bls.gov/oco/

   Programs may use other appropriate data, e.g., placement information they collect or information from professional societies but should avoid anecdotal information. Continuing education such as baccalaureate enrollment for AA or AAS programs or graduate or professional school placement for baccalaureate programs can be included if appropriate. It is recognized that market data may not be available or appropriate for all programs.
   b. A description of unique and significant service achievements by unit faculty during the past three academic years. These service achievements should be ones where local or regional expertise was needed or were exceptional because of the achievement made. Please do not include common service functions such as

refereeing journals, service on UAF committees or science fair judging. The following examples illustrate what is wanted:

i. Civil Engineering faculty worked with the local school district to implement a pre-engineering curriculum track.
ii. A Fisheries faculty member served on the North Pacific Fisheries Management Council
iii. An Anthropology faculty member serves as editor of a major journal in the field
iv. Music faculty participate in the Fairbanks Symphony, a collaboration between UAF and the local community

c. A narrative addressing whether similar programs exist elsewhere in the UA system and briefly describe differences and/or justify program duplication. If the program is special or unique in the national context, the program should describe why.
d. A narrative explaining any unusual features observed in the demand and productivity summaries listed below.
e. Programs with faculty in the fine and performing arts units should supply a list of performances and exhibits by faculty from annual activities reports for 3 years. The Provost's Office will provide a list of publications by unit faculty in the previous three calendar years compiled from annual unit plans.
f. A brief narrative describing successful partnerships resulting in scholarships, equipment or in-kind services during the past three years.
g. Indicate whether the program has specialized accreditation (identify the professional association or accrediting body) or not.

<u>The Provost's Office will provide the following by November 1:</u>

- A list of publications by unit faculty in the previous three calendar years compiled from annual unit plans. Fine and performing arts units should supply a list of performances and exhibits by faculty from annual activities reports for 3 years.
- The UA Statewide annual list of unit principal investigators supported on external funding and the amount of funding over the past three years

<u>PAIR and/or Financial Services will provide the following demand and productivity summaries by November 1:</u>

- A graph illustrating 5- year trends in the following:
  - SCH lower division (developmental coursework listed as well for select units)
  - SCH upper division (500 level SCH not included unless specifically requested)
  - SCH graduate
- A graph illustrating 5-year trends in the following:
  - SCH by students outside the major
  - SCH by students outside the college/school
- A graph or table illustrating 5-year trends in distance SCH partitioned by those offered through the Center for Distance Education (CDE) and those not offered through CDE.
- A graph illustrating 5-year trends in the number of majors by degree/certificate type
- A table or graph illustrating the gender and ethnicity distribution of majors over 5 years
- A graph illustrating 5-year trends in the number of degrees/certificates awarded by type

- Average number of declared majors in program over 4 years /average number of degrees (certificates) over 4 years (no intention to compare across different degrees)
- A numerical summary of the following information for the previous fiscal year:
    - *Total department annual budget
    - **Tuition revenue generated by all designators associated with department
    - FTE faculty positions and a list of faculty funded by the program with an indicator as to whether the faculty member was an active PI
    - FTE staff positions

*= Where department budgets are problematic to obtain, measures of the cost of the program will be developed by the college or school, described and used or college/school budget used.
**= approximate tuition revenue will be determined by ignoring in-state/out-of-state and whether tuition waivers were applied or not.

Appendix A. Evaluating a Programmatic Outcomes Assessment Report

Program will submit the following outcomes assessment information:

- An assessment plan for each program; programs are encouraged, but not required, to include employment placement and/or graduate school enrollment information as part of their assessment process.
- Assessment information collected and summarized during the previous three years
- A summary of programmatic revisions (improvements) resulting from the assessment information

The Program Review Committee will assess the quality of the programmatic assessment process. Quality shall be assessed based on at least the following characteristics:

1) Assessment Plan
    a. Each program has its own outcomes assessment appropriate to the certificate or degree (the same plan for cannot be used programs of different levels, e.g., associate and baccalaureate because the outcomes should differ)
    b. Multiple measures of student outcomes are utilized
    c. Assessment includes direct evidence of student learning (student survey results are considered indirect evidence)

2) Assessment information is collected and summarized on a regular basis.

3) The assessment summary is based on aggregate student information not a statement about individual student outcomes. The intent of the process is to assess the effectiveness of the curriculum not individual performance. In addition, it is important to be able to share assessment information with external evaluators without violating FERPA.

4) Where the assessment process results in the identification of weaknesses in student outcomes, documented curricular changes have occurred intended to improve student outcomes.

ORIGINAL

The UAF Faculty Senate reaffirmed the following resolution at Meeting #168, Sept. 13, 2010

The following resolution was passed at Faculty Senate Meeting #146 in Fall 2007, and endorsed by a letter distributed to the UAF community in Fall 2008. The Faculty Affairs and Administrative Committees would like to have the Faculty Senate reaffirm the resolution publicly at Faculty Senate Meeting #168 as the current review cycle gets underway.

RESOLUTION

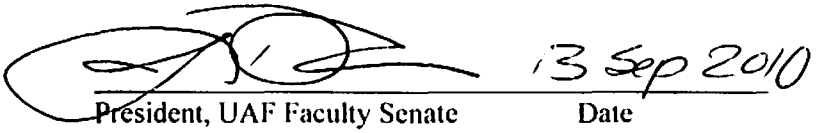
WHEREAS the members of Faculty Committees are called upon under the concept of shared governance to provide professional review of other faculty candidates undergoing Tenure, Promotion, and Comprehensive Review (Pre and Post-tenure),

WHEREAS the faculty portion of the review process must be fair and reasonable in order to maintain the reputation of the University, and the integrity of the academic process,

WHEREAS open and transparent Committee deliberations facilitate fair and reasonable review,

THEREFORE BE IT RESOLVED THAT the UAF Faculty Senate strongly requests that all Faculty Review Committees choose to follow the traditional option of allowing a candidate for Tenure, Promotion, or Comprehensive Review to opt for an "open" meeting, and that "mandatory closed" meetings be avoided, including during the 2007-08 review cycle.

RATIONALE:



1. Faculty Committee meetings are "open" at the request of a candidate and are consistent with all other relevant UAF rules and procedures.

2. Open meetings provide strong incentives for fair and reasonable review, including the oversight of the candidate.

3. The Committee can query a candidate for clarification of the file, which will greatly reduce the number of false assumptions and errors during deliberation.

4. Open meetings are educational—candidates who opt to attend their review have the opportunity to learn about academic traditions and practices.

5. Attendance can reduce candidates' anxiety, and make them feel like a part of the process.

The UAF Faculty Senate passed the following at Meeting #168, Sept. 13, 2010:

MOTION:

The UAF Faculty Senate moves to approve the elimination of the B.S. degree in Statistics.

EFFECTIVE: Fall 2011

RATIONALE: See the program proposal #99-UPCh. on file in the Governance Office, 314 Signers' Hall.

13 Sep 2010
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 21 Sept 2010
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

A proposal to eliminate the B.S. program in Statistics has been submitted because of low enrollments. Changes proposed to makes statistics an option in the mathematics major have been approved. Statistics courses are largely service courses for other departments, so little impact is anticipated.

Elimination of Statistics B.S. Program

Over the past five years the number of students enrolled in the Statistics B.S. program been very small (fewer than 5) and the number of students graduating from the program has never been more than 2 or 3 in a year.

The B.S. program in Mathematics has a statistics option and we have submitted revisions to this program/option to accommodate students interested in statistics. The Statistics baccalaureate program was built upon existing service courses; the existing statistics option in the Mathematics B.S. program will continue to be offered using these courses. Enrollment in statistics courses remains strong at both the undergraduate and graduate level because these courses provide a service to other

departments or the Statistics M.S. program. Thus, we anticipate little impact on other programs, the personnel directly involved with the program, or the budget of the department. This change will allow the statistics faculty to dedicate a bit more of their effort to the much stronger M.S. program in Statistics which helps provide Biometricians for the Alaska Department of Fish and Game and the U.S. Department of Interior, Wildlife Division. Currently 3 baccalaureate students are majored in Statistics. The M.S. program has 8 students enrolled. Undergraduate course enrollments in Statistics courses for Spring and Fall semesters 2008 - 2009 are given below (dashes indicate course not taught that semester).

	Spring 2008	Fall 2008	Spring 2009	Fall 2009
STAT F200	105	85	100	71
STAT F300	21	--	26	25
STAT F401	32	41	32	16
STAT F402	--	15	--	22
STAT F461	17	--	--	--

Students currently in the Statistics B.S. program will be allowed to complete their programs under the catalogs they are eligible to use or move to the old or newly proposed statistics option in the Mathematics program. Only one course change is being implemented that may impact such students; STAT 480, Senior Project, will be eliminated and replaced with STAT 454 Statistical Consulting Seminar in the newly proposed statistics option in the Mathematics program. Students wanting to complete a Senior Project rather than take STAT 454 will be given that option. We will keep the Senior Project in the catalog for the next 3 years to accommodate such students. There is no other statistics program available within the UA System so internal transfers are not an issue.

Background Information

The original instructional program request for the B.S. Degree in statistics is unavailable. The following description of the program and its goals is taken from the UAF course catalogue.

Statistics is a collection of methods and theories for making decisions or estimating unknown quantities from incomplete information. Statistical techniques are useful, for example, in estimation plant, animal and mineral abundances; forecasting social, political and economic trends; planning field plot experiments in agriculture; performing clinical trials in medical research; and maintaining quality control in industry. Employment opportunities are excellent for statisticians in many of these areas of application.

The curriculum for the B.S. degree program in statistics was developed using guidelines proposed by the American Statistical Association and provides graduates with a strong mathematics, computation and statistics background and integrates this with an area of application. The program allows considerable flexibility in the choice of the area of application by requiring a major in any area offered by UAF.

Although enrollment in undergraduate statistics courses is typically high, the number of students declaring the statistics major has remained low. There are currently three students seeking the B.S. degree in statistics. Over the past five years the number of students enrolled in the Statistics

B.S. program been very small (fewer than 5) and the number of students graduating from the program has never been more than 2 or 3 in a year.

The B.S. Degree in Statistics has no space requirements, nor any special personnel or support service costs.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #168, Sept. 13, 2010:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the Faculty Senate, Section 3 (Art. V: Committees) at subsection E.6, addressing membership requirements for the Core Review Committee.

Effective: Immediately

Rationale: Allowing membership of the college representatives who are already tasked with assessing core courses will improve communication between the Core Review Committee and the colleges regarding substantive changes and additions to baccalaureate core courses.

13 Sep 2010

President, UAF Faculty Senate Date

****

CAPS = Addition

[[ ]] = Deletion

Section 3 (ART V: Committees), subsection E.6, paragraph two:

The committee shall be composed of one faculty member from each of the core component areas: (Social Sciences, English, Humanities, Mathematics, Natural Sciences, Communication, and Library Science) and one faculty member from a non-core component area. Membership on the committee will include an undergraduate student, **AND REPRESENTATIVES FROM THE COLLEGES SPECIFICALLY TASKED WITH CORE ASSESSMENT**.

ORIGINAL

The following was passed at the May 3, 2010, Faculty Senate Meeting #167:

MOTION:

The Faculty Senate Curricular Affairs Committee moves to revise the following for the Bachelor of Arts degree (pages 126-127 of the 2009-10 UAF catalog) for all students. This revision addresses that students who bring in a Bachelor's degree from another institution can already have met the minor complex requirement.

EFFECTIVE: Fall 2010

RATIONALE: Currently, some departments are already practicing this (through a petition process) although it is not an official policy. Students who have a bachelor's degree from regionally accredited institution should not be held to meeting the minor requirement for the UAF Bachelor of Arts. Students often bring in courses from a previous bachelor's degree to the BA and often need to petition to meet the minor requirements. Currently, an associate of applied science (A.A.S.) degree or certificate of at least 30 credits earned at another institution may be used to meet requirements for a minor for the Bachelor of Arts (B.A.) degree. This would eliminate the need to petition, and student run around, and streamline graduating processing.

****

CAPS = Addition

[[ ]] = Deletion

Bachelor of Arts (page 126)

Requirements

Complete the baccalaureate core (38 – 39 credits)

Complete the following B.A. requirements in addition to the core:

- Humanities and social sciences (18 credits)
    - Any combination of courses at the F100-level or above, with a minimum of 6 credits from the humanities and a minimum of 6 credits in the social sciences OR up to 12 credits in a single non-English language taken at the university level and a minimum of 6 credits in social science.

ORIGINAL

- Mathematics (3 credits)
  - One course at the F100-level or above in mathematical sciences (math, computer science, statistics)
- Complete one of the following:
  - Minor complex* at least 15

* Departmental requirements for majors and minors may exceed the minimums indicated. Specific requirements are listed in the following section. STUDENTS WHO HOLD A BACHELOR'S DEGREE FROM A REGIONALLY ACCREDITED INSTITUTION ARE NOT REQUIRED TO COMPLETE THE MINOR COMPLEX.

(page 127)

An associate of applied science (A.A.S.) degree or certificate of at least 30 credits earned at any regionally accredited college or university may be used to meet requirements for a minor for the bachelor of arts (B.A.) degree. STUDENTS WHO HOLD A BACHELOR'S DEGREE FROM A REGIONALLY ACCREDITED INSTITUTION ARE NOT REQUIRED TO COMPLETE THE MINOR COMPLEX. See a list of certificate programs and A.A.S. degrees offered at UAF.

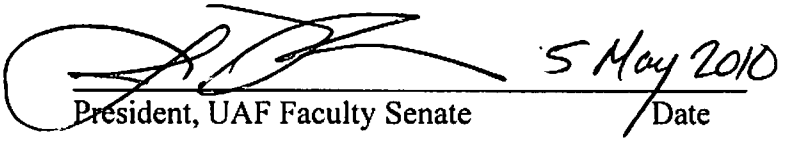
Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

The following was passed at the May 3, 2010, Faculty Senate Meeting #167:



MOTION:

The Faculty Senate Curricular Affairs Committee moves to change study day policy to:

> There will be a study day between the last day of classes and the first day of final exams unless doing so requires that final exams be held on the Saturday immediately before Commencement.

EFFECTIVE: Effective immediately.

RATIONALE: In order to meet the minimum number of contact hours during spring semester, the Last Day of Instruction is required to be the Monday before commencement (when the spring semester begins before Alaska Civil Rights Day). The required one day (passed at Faculty Senate Meeting #20 on 9/17/1991) results in final exams ending the Saturday before commencement. For graduating seniors, this results in conflicts with commencement rehearsal, commencement weekend events and family visitors. Some faculty also schedule their exams on this day.

UAF REGULATIONS FOR THE EVALUATION OF FACULTY:
INITIAL APPOINTMENT, PERIODIC REVIEW, RE-APPOINTMENT,
PROMOTION, AND TENURE
AND
DEPARTMENTS OF ENGLISH AND PHILOSOPHY & HUMANITIES UNIT
CRITERIA
STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE DEPARTMENTS OF ENGLISH AND PHILOSOPHY & HUMANITIES. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENTS' FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA MAY BE USED IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***SOME FACULTY SERVE ON A LARGE NUMBER OF GRADUATE COMMITTEES, AND SUCH WORK IS HIGHLY VALUED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS.***

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design, ***POSSIBLY INCLUDING THE DEVELOPMENT OF VALUED TEACHING RESOURCES SUCH AS IT-BASED EDUCATIONAL TOOLS;***

   g. may receive prizes and awards for excellence in teaching.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms,

   and at least two of the following:

   b. narrative self-evaluation,

   c. peer/department chair classroom observation(s),

   d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity
Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain

active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. **Achievement in Research, Scholarly and Creative Activity**
   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. They must occur in a public forum.

   b. They must be evaluated by appropriate peers.

   c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

   d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
   Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

   a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and/OR approval by peers in the discipline. ***BOOKS AND SCHOLARLY ARTICLES ARE HIGHLY VALUED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS, INCLUDING BOOKS SELECTED BY EDITORS RATHER THAN BY EDITORIAL BOARDS OR THROUGH PEER REVIEW.***

   b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval. ***GRANTS ARE VALUED, BUT THERE IS NO EXPECTATION THAT FACULTY WILL WRITE OR ADMINISTER GRANTS DUE TO THE SMALL NUMBER OF GRANTS AVAILABLE FOR FACULTY WORKING IN THESE DISCIPLINES.***

   c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers. ***PRESENTATION OF RESEARCH PAPERS OR OTHER SCHOLARLY OR CREATIVE WORK IS VALUED. HOWEVER, TRAVEL FUNDS ARE, AT TIMES, DIFFICULT TO OBTAIN FOR FACULTY IN THIS UNIT. A LACK OF SUCH PRESENTATIONS SHOULD NOT COUNT AGAINST FACULTY.***

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications. ***CITATION INDEXES ARE NOT REGARDED AS RELIABLE INDICATORS OF STANDING IN THE HUMANITIES, AND ARE NOT COMMONLY USED. A HIGH LEVEL OF CITATION MIGHT INDICATE A HIGH STANDING IN A FACULTY MEMBER'S FIELD. HOWEVER, A LOW LEVEL OF CITATION SHOULD NOT BE TAKEN TO INDICATE A LACK OF STANDING. THIS UNIT VALUES QUALITATIVE REVIEWS OF RESEARCH, SCHOLARLY, AND CREATIVE ACTIVITY.***

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. ***READINGS OR OTHER PRESENTATIONS OF CREATIVE AND/OR SCHOLARLY WORK (OUTSIDE OF CONFERENCE PRESENTATIONS) ARE VALUED BY THESE DEPARTMENTS***.

o. ***THE CREATIVE AND SCHOLARLY WORKS PRODUCED BY FACULTY ARE EXPECTED TO BE SUBJECT TO A RIGOROUS REVIEW PROCESS THROUGH PEER-REVIEW, REVIEW BY AN EDITORIAL BOARD, OR EDITOR. CREATIVE AND SCHOLARLY PRODUCTIONS ARE VALUED FOR ALL FACULTY, AND MAY INCLUDE (BUT ARE NOT LIMITED TO) POETRY, FICTION, CREATIVE NON-FICTION, FILMS, DRAMATIC WORKS, DRAMATIC PRODUCTIONS, WEBPAGES, AND SCHOLARLY EDITIONS AND***

TRANSLATIONS OF EXISTENT TEXTS. ALTHOUGH THE DEPARTMENTS VALUE CONVENTIONALLY PUBLISHED WORKS, THEY ALSO VALUE WORK RIGOROUSLY REVIEWED BUT DISSEMINATED BY OTHER MEANS, SUCH AS (BUT NOT LIMITED TO) WORK PRESENTED ELECTRONICALLY THROUGH WEBPAGES, OR THROUGH PUBLIC PERFORMANCES.

p. ***THIS UNIT VALUES COLLABORATIVE RESEARCH, SCHOLARSHIP, AND CREATIVE ACTIVITY, INCLUDING WORK PRODUCED WITH COLLABORATORS OUTSIDE THE ENGLISH DEPARTMENT AND THE DEPARTMENT OF PHILOSOPHY AND HUMANITIES.***

q. ***SUCCESSFUL RESEARCH, SCHOLARLY, AND CREATIVE WORK IN THESE FIELDS IS NOT CONTINGENT ON THE AVAILABILITY OF GRANTS OR ON THE SERVICES OF GRADUATE ASSISTANTS AND POSTDOCTORAL RESEARCHERS FUNDED BY THEM.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies. ***SIGNIFICANT FACULTY PARTICIPATION IN DEPARTMENTAL COMMITTEES IS OFTEN EXPECTED IN ORDER TO RUN THE PROGRAMS OFFERED BY THE ENGLISH AND PHILOSOPHY & HUMANITIES DEPARTMENTS, AND THIS WORK IS HIGHLY VALUED. ALSO, SOME FACULTY FROM THIS UNIT PARTICIPATE IN INTERDISCIPLINARY PROGRAMS ON CAMPUS, AND THIS UNIT VALUES THAT SERVICE. NOT ALL FACULTY FROM THIS UNIT ARE INVOLVED IN INTERDISCIPLINARY PROGRAMS, HOWEVER, AND ABSENCE OF SUCH SERVICE SHALL NOT BE VIEWED NEGATIVELY.***

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring ***OF FACULTY***.

j. Prizes and awards for excellence in university service.

k. ***SERVING AS AN OUTSIDE EXAMINER TO OTHER GRADUATE PROGRAMS IN THE UNIVERSITY***.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The following was passed at the May 3, 2010, Faculty Senate Meeting #167:

MOTION:

The UAF Faculty Senate moves to reaffirm the Unit Criteria for the CLA Department of Theatre.

EFFECTIVE: Fall 2010
Upon Chancellor's approval.

RATIONALE: The committee assessed the unit criteria submitted for review by the CLA Department of Theatre. With some minor revisions, the unit criteria were found to be consistent with UAF guidelines.

AND DEPARTMENT OF THEATRE UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE THEATRE DEPARTMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

Chapter II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these

requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

THEATRE FACULTY

THE STANDARDS PRESENTED IN BOLD CAPITALS AS ADDED OR EMPHASIZED FOR THE DEPARTMENT OF THEATRE HEREAFTER IN THIS DOCUMENT ARE DRAWN FROM THE ASSOCIATION FOR THEATRE IN HIGHER EDUCATION (ATHE) GUIDELINES FOR EVALUATING TEACHER/ARTISTS FOR PROMOTION AND TENURE (REV. 5/2000), WHICH STATES IN PART:

> **"THIS DOCUMENT IS INTENDED FOR ALL INSTITUTIONS WITH FACULTY IN THEATRE AND PERFORMANCE STUDIES. IT FOCUSES ON THE ASSUMPTION THAT PREPARATION OF THEATRICAL EVENTS FOR PUBLIC PERFORMANCE ALLOWS THE TEACHER/ARTIST A VIABLE OPPORTUNITY FOR DEMONSTRATING ARTISTIC ACHIEVEMENT WHICH IS CRUCIAL TO PROMOTION AND TENURE DECISIONS…THE PRODUCTION OF PLAYS AND PERFORMANCES (HEREAFTER REFERRED TO AS**

THEATRICAL EVENTS) AND THE STUDY THEREOF CONSTITUTES THE DISCIPLINE OF THEATRE. IN RECOGNITION OF THE ARTISTIC COMPONENT OF THEATRE, MOST INSTITUTIONS OF HIGHER EDUCATION NOW INCLUDE 'CREATIVE ACTIVITY' AS A LEGITIMATE COMPONENT FOR PROMOTION AND TENURE CONSIDERATION…IN ADDITION, THIS DOCUMENT IS CONGRUENT WITH THE NATIONAL ASSOCIATION OF SCHOOLS OF THEATRE (NAST) ACCREDITATION GUIDELINES, WHICH STATE THAT CREATIVE PRODUCTION AND PROFESSIONAL WORK IN THEATRE MUST BE EQUIVALENT TO SCHOLARLY PUBLICATION OR RESEARCH AS A CRITERION FOR ADVANCEMENT."

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. **ADDITIONAL ADVISING OBLIGATIONS IN THE DEPARTMENT OF THEATRE INCLUDE: STUDENT DRAMA ASSOCIATION AND FILM CLUB; STUDENT-PRODUCED THEATRICAL EVENTS, LIKE *WINTER SHORTS*, *FAMOUS FOR FIFTEEN PLAYWRIGHTING FESTIVAL, STUDENT FILM FESTIVAL* AMONG MANY OTHERS BOTH ON AND OFF CAMPUS; STUDENT ACTORS, DIRECTORS, OR DESIGNERS WORKING ON OFF-CAMPUS PROJECTS AT ANOTHER THEATRE COMPANY; UNDERGRADUATE RESEARCH PROJECTS, INCLUDING STUDENT THESIS PROJECTS; COACHING FOR GRADUATE SCHOOL AND U/RTA AUDITIONS AND PORTFOLIO REVIEWS; SUPERVISION OF STUDENT LABOR AND ASSISTANTS IN ALL PRODUCTION AND MANAGEMENT AREAS OVERSEEN BY THE DEPARTMENT.**

- **Effectiveness in Teaching**
  Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. **FACULTY IN THE THEATRE DEPARTMENT HAVE UNUSUALLY HIGH TEACHING AND ADVISING LOADS. EXCELLENCE IN TEACHING IS THE DEPARTMENT'S HIGHEST PRIORITY.**

EXCELLENCE IN RESEARCH/CREATIVE WORK AND SERVICE MAY NOT COMPENSATE FOR AN INSUFFICIENT TEACHING RECORD.

Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. SIGNIFICANTLY REVISE COURSES TO REFLECT NEW DEVELOPMENTS IN THE FIELD;

h. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. ADDITIONAL CLARIFICATION ON THE EVALUATION OF CREATIVE ACTIVITY/ SCHOLARSHIP IN THE DISCIPLINE OF THEATRE

a. DIRECTORS, ACTORS, AND DESIGNERS ARE EVALUATED BY PEERS AND CHOSEN FOR PROFESSIONAL WORK AFTER A SCREENING PROCESS THAT PARALLELS THE REVIEW PROCESS USED FOR PRINTED FORUMS.

b. UAF FACULTY CURRENTLY ARE REQUIRED TO CATEGORIZE THEIR CREATIVE ACTIVITY IN ANNUAL REPORTS, 4TH YEAR REVIEWS, TENURE REVIEWS, AND POST TENURE REVIEWS AS LOCAL, STATEWIDE, NATIONAL, OR INTERNATIONAL. THE FOLLOWING STANDARDS SHOULD BE USED FOR THE PURPOSES OF THIS CATEGORIZATION. A LOCAL OR STATEWIDE THEATRICAL PRODUCTION/ CONFERENCE/ EVENT MAY BE INCLUDED IN THE NATIONAL OR INTERNATIONAL CATEGORY IF IT MEETS ONE OR MORE OF THE FOLLOWING: 1) THE PROFESSIONAL VISIBILITY OF THE THEATRE ARTIST IS JUDGED TO GO BEYOND THE STATE/ COUNTRY 2) THE MAJORITY OF THE THEATRE ARTISTS/ COLLABORATORS/ PARTICIPANTS INVOLVED ARE FROM OUT OF STATE/ COUNTRY 3) THE PRODUCTION DREW AN AUDIENCE WHICH WAS NATIONAL OR INTERNATIONAL IN SCOPE.

c. PART OF A THEATRE ARTIST'S RECORD, HOWEVER THE LACK OF A PRINTED REVIEW SHOULD NOT BE CONSTRUED AS A NEGATIVE ASSESSMENT OF THE WORK OF THE THEATRE ARTIST. THE THEATRE ARTIST CAN HAVE NO CONTROL OVER WHETHER A REVIEWER IS PRESENT OR WHETHER A REVIEW IS ULTIMATELY PRINTED.

d. ALTHOUGH THE THEATRE DEPARTMENT STRIVES TO ACQUIRE GRANTS, GRANT FUNDING IN THE ARTS IS OFTEN SCARCE.

e. **EXTERNAL PEER EVALUATIONS MAY INCLUDE REPRESENTATIVES OF THE LOCAL, STATEWIDE, NATIONAL AND INTERNATIONAL THEATRE COMMUNITIES.**

2. **Achievement in Research, Scholarly and Creative Activity**
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

3. **Components of Research, Scholarly and Creative Activity**
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship **OR CREATIVE ARTISTRY**.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. PLAYWRIGHTING, SCREENWRITING, PRODUCTION DRAMATURGY, NEW PLAY DEVELOPMENT AND WORKSHOPPING, LITERARY MANAGEMENT.

n. CRITICAL REVIEWS, CRITICAL DRAMATURGY, THEATRE ANTHROPOLOGY, BASIC PERFORMANCE RESEARCH, SCRIPT PREPARATION, PEER REVIEWS OF PRACTICE AND WRITING, CONSULTING.

o. DESIGN (LIGHT, SET, COSTUME, SOUND, PROJECTION).

p. DIRECTING, ACTING, COACHING (VOCAL, STYLE, MOVEMENT, STAGE OR SCREEN COMBAT OR STUNTS), CHOREOGRAPHIC WORK.

q. FILM-MAKING, VIDEO DOCUMENTATION, VIDEO EDITING, DVD AUTHORING, MULTI-MEDIA AND WEB CREATION.

r. PRODUCING, SEASON PLANNING, BUDGETING, PRODUCTION MANAGEMENT AND COORDINATION, STAGE MANAGEMENT, TECHNICAL DIRECTION, PUBLIC RELATIONS, MARKETING.

s. INVITED PRESENTATIONS, LECTURES, AND INVITATIONS TO TEACH MASTER CLASSES OR LEAD INTENSIVE WORKSHOPS.

4. DOCUMENTATION OF ABOVE CREATIVE ACTIVITY MAY INCLUDE (BUT IS NOT LIMITED TO):

a. WRITTEN EVALUATION BY THE CHAIR, FACULTY PEERS, EXTERNAL PEERS, OR OUTSIDE EXPERTS.

b. REVIEWS IN THE PROFESSIONAL MEDIA.

c. SCRIPTS OF ORIGINAL PRODUCED PLAYS, INCLUDING ADAPTATIONS AND TRANSLATIONS.

d. PHOTOGRAPHIC IMAGES OF PRODUCTIONS, WORKING DRAWINGS, RENDERINGS, DVDS, CDS, LIGHT PLOTS, SET MODELS, DESIGN PORTFOLIOS, AND OTHER SUPPORTING MATERIAL.

e. RESEARCH AND ANALYTICAL MATERIALS, DIRECTORS' PRODUCTION BOOKS, STUDY GUIDES, PROGRAM NOTES, OUTREACH MATERIALS, AND LABAN NOTATION.

f. MARKETING AND PUBLIC RELATIONS MATERIALS (INCLUDING POSTERS, PROGRAMS, RADIO, TELEVISION, NEWSPAPER, AND WEB-BASED INTERVIEWS).

g. EVIDENCE OF OUTREACH ACTIVITIES, SUCH AS SYMPOSIA, SEMINARS, WORKSHOPS, AND OTHER EVENTS.

h. LETTERS FROM THE PUBLIC.

i. TESTIMONIALS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its

units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth **INCLUDING OUTREACH WITH LOCAL SCHOOLS, SPECIAL SCHOOL PERFORMANCES, SCHOOL VISITS, PARTICIPATION IN CAMPUS-WIDE OUTREACH EVENTS SUCH AS *I'M GOING TO COLLEGE* AND *UAF INSIDE OUT.***

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. **SUPPORT OF LOCAL COMMUNITY MEMBERS OR ORGANIZATIONS, INCLUDING LOANING OF THEATRE UAF COSTUMES AND PROPS.**

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews **INCLUDING AUTHORSHIP OF ACCREDITATION OR OTHER COMPREHENSIVE PROGRAM REPORTS.**

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

k. **DEVELOPMENT OF ASSESSMENT PROGRAMS.**

l. **PARTICIPATION IN FACULTY DEVELOPMENT WORKSHOPS.**

m. **ASSISTING WITH THEATRE DEPARTMENT FUNDRAISING EVENTS.**

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation **OR MEMBERSHIP** in professional organizations **INLCUDING BUT NOT LIMITED TO: AEA, SAG, AFTRA, SDC, IATSE, USA, TCG, ATHE.**

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The following was passed at the May 3, 2010, Faculty Senate Meeting #167:

MOTION:

The UAF Faculty Senate moves to reaffirm the Unit Criteria for Natural Sciences at the College of Natural Science and Mathematics.

EFFECTIVE: Fall 2010
Upon Chancellor's approval.

RATIONALE: The committee assessed the Natural Sciences unit criteria submitted for review by CNSM. With some minor revisions, the unit criteria were found to be consistent with UAF guidelines.

5 May 2010
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 5/13/10
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

September 7, 2004 (with modifications by faculty on 10-02-09)

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: ANNUAL REVIEW, PRE-AND POST-TENURE, PROMOTION, TENURE REVIEW

AND

NATURAL SCIENCES UNIT CRITERIA

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR ANNUAL REVIEW, PRE- AND POST-TENURE, PROMOTION, AND TENURE REVIEW, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING NATURAL SCIENCE FACULTY IN CNSM. ITEMS IN BOLDFACE CAPITAL LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO CNSM FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS. THE CNSM MATHEMATICAL, STATISTICS AND COMPUTER SCIENCE DISCIPLINES CRITERIA ARE SUBMITTED AS A SEPARATE DOCUMENT.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment.

Minimum degree, experience and performance requirements are set forth in UAF Faculty Policies, Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles.

Academic titles must reflect the discipline in which the faculty are appointed and reside within a specific discipline.

C. Process for Appointment of Faculty with Academic Rank.

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall observe procedures for advertisement, review and selection of candidates to fill any vacant faculty positions. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank.

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies, and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the selection process.

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment.

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III.

Periodic Evaluation of Faculty

IT IS EXPECTED THAT THE CRITERIA FOR ASSISTANT PROFESSOR ARE TO BE MET FOR THE FOURTH YEAR COMPREHENSIVE REVIEW. FOR PROMOTION TO AND TENURE AS ASSOCIATE PROFESSOR, AN ASSISTANT PROFESSOR HAS TO MEET THE CRITERIA AT THE ASSOCIATE LEVEL. FOR PROMOTION TO FULL PROFESSOR AN ASSOCIATE PROFESSOR HAS TO MEET THE CRITERIA FOR FULL PROFESSOR. CRITERIA FOR ASSOCIATE AND FULL PROFESSOR INCLUDE AN ASSUMPTION THAT CRITERIA AT THE PREVIOUS LEVEL(S) CONTINUE TO BE MET. LISTED EXAMPLES ARE NOT MEANT TO IMPLY THAT ALL OF THOSE PROVIDED ARE EQUALLY MERITORIOUS.

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV **AND NATURAL SCIENCES UNIT CRITERIA, STANDARDS, AND INDICES**, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. **TRIPARTITE FACULTY APPLYING FOR TENURE AND/OR PROMOTION ARE STRONGLY ENCOURAGED TO GIVE A SEMINAR ON THEIR RESEARCH TO THEIR PEERS BEFORE THE PEER-UNIT COMMITTEE MEETS IN THAT YEAR TO AID IN THESE CONSIDERATIONS.**

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service**.**

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility. The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. **WHEN EVALUATING THE QUALITY OF THE TEACHING, CONSIDERATION SHOULD BE GIVEN TO THE NATURE OF THE COURSE (E.G., CORE, NUMBER OF STUDENTS, WRITING INTENSIVE, STUDENT DEMOGRAPHICS, ETC.).** Effective teachers **WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR**:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching;

2. **Components of Evaluation**

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

SPECIFIC SCIENCES CRITERIA FOR TEACHING PERFORMANCE:

- **ASSISTANT PROFESSOR: EVIDENCE OF TEACHING ABILITY AND A COMMITMENT TO A QUALITY AND CURRENT TEACHING PROGRAM IN THE DEPARTMENT. IAS SCORES SHOULD SHOW THAT THE MAJORITY OF STUDENTS RATE COURSES FAVORABLY (≥3.0 AS A BENCHMARK), AND, IF NOT, THERE SHOULD BE A DEFINITE UPWARD TREND SHOWING IMPROVEMENT IN IAS SCORES OVER TIME. COURSE MATERIALS SUCH AS SYLLABI, EXAMS, PROJECTS AND HOMEWORK SHOULD REFLECT THE COURSE DESCRIPTION AND BE CONTEMPORARY. THE FACULTY SHOULD PROVIDE EVIDENCE FOR ACTIVE SUPPORT OF STUDENT RESEARCH AT THE UNDERGRADUATE AND/OR GRADUATE LEVEL.**

- **ASSOCIATE PROFESSOR: THE RECORD MUST SHOW THAT THE TEACHING MATERIAL IS CONTEMPORARY AND RELEVANT AND THAT THE PRESENTATIONS STIMULATE THE LEARNING PROCESS. EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE - BUT IS NOT LIMITED TO - COURSE AND/OR CURRICULUM DEVELOPMENT, NOVEL APPROACHES TO INSTRUCTION, VERSATILITY IN INSTRUCTIONAL ASSIGNMENTS, EFFECTIVE GUIDING AND MENTORING OF INDIVIDUAL STUDENTS, OR HIGH QUALITY IAS OR OTHER TEACHING EVALUATIONS (E.G. PEER-EVALUATION). THE**

RECORD MUST ALSO SHOW ACTIVE AND SUCCESSFUL MENTORSHIP IN RESEARCH AT THE UNDERGRADUATE AND/OR GRADUATE LEVEL. SUCH MENTORSHIP CAN INCLUDE MEMBERSHIP ON GRADUATE ADVISORY COMMITTEES.

- **<u>PROFESSOR</u>: SIGNIFICANT CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE CONTRIBUTIONS MAY INCLUDE MAJOR IMPROVEMENTS IN COURSE AND CURRICULUM OFFERINGS, SECURING FUNDS TO ENHANCE INSTRUCTIONAL AND/OR LABORATORY SETTINGS, LEADERSHIP IN DEPARTMENTAL LEVEL CURRICULUM CORE REVISIONS, STUDENT LEARNING OUTCOME ASSESSMENTS, STUDENT ADVISING, AND MENTORING OF GRADUATE STUDENTS TO THE COMPLETION OF THEIR DEGREE. THE FACULTY MUST SHOW A CONSISTENT RECORD OF HIGH QUALITY TEACHING.**

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum,

b. They must be evaluated by appropriate peers,

c. They must be evaluated by peers external to this institution so as to allow an objective judgment,

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performance in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges;

f. **INVITATION TO EDIT OR REFEREE ARTICLES OR PROPOSALS FOR PROFESSIONAL JOURNALS OR ORGANIZATIONS CAN BE TAKEN AS EVIDENCE OF OBTAINING STATURE FROM COLLEAGUES**

.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs, and systems for the processing of data,

genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

SPECIFIC CRITERIA FOR SCIENCE RESEARCH PERFORMANCE:

- **ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE AREA OF SPECIALIZATION, NORMALLY A SUB-DISCIPLINE OF THE NATURAL SCIENCES (WITH THE OPTION OF RESEARCH IN SCIENCE EDUCATION). THIS SHOULD INCLUDE SEVERAL OF THE FOLLOWING:**
  - **RECRUITING GRADUATE AND/OR UNDERGRADUATE RESEARCH STUDENTS**
  - **PEER-REVIEWED PUBLICATIONS FROM RESEARCH PERFORMED AT LEAST IN PART DURING THEIR CURRENT APPOINTMENT**
  - **PROPOSALS THAT WERE EITHER FUNDED OR RECEIVED FAVORABLE REVIEWS.**
  - **ACQUIRING DATA THAT PROMISES TO RESULT IN PUBLICATIONS**
  - **ESTABLISHING A PROFESSIONAL REPUTATION THAT DEMONSTRATES VISIBILITY IN THE SCIENTIFIC COMMUNITY**
  - **PRESENTATIONS SUCH AS TALKS OR POSTER PRESENTATIONS AT SCIENTIFIC MEETINGS**

- **ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED AN APPROPRIATE RESEARCH PROGRAM. THE FACULTY MEMBER SHOULD SHOW INDEPENDENCE AND LEADERSHIP BY THE CREATION OF RESEARCH IDEAS THAT TRANSLATE INTO PROJECTS THAT INVOLVE BOTH GRADUATE AND UNDERGRADUATE STUDENTS. EXAMPLES FOR SUCH A SUCCESSFUL RESEARCH PROGRAM MAY INCLUDE:**
  - **PUBLICATIONS IN REFEREED PROFESSIONAL JOURNALS DEMONSTRATING SIGNFICANT SCIENTIFIC CONTRIBUTIONS AS MEASURED BY STANDARD INDICES (E.G. PUBLICATION RATE, CITATION RATES, JOURNAL IMPACT FACTOR). IT IS IMPORTANT FOR THE FACULTY MEMBER TO CLEARLY DISCUSS THE IMPORTANCE OF THEIR SCIENTIFIC CONTRIBUTIONS IN THE NARRATIVE.**
  - **PUBLICATION OF DISCIPLINE-RELEVANT DATA AND METADATA, CONTRIBUTION TO CYBER STRUCTURE, OR CONTRIBUTING TO PUBLICLY AVAILABLE COMPUTER MODELS**

- **PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS**
- **LEADERSHIP IN PREPARATION AND SUBMISSION OF RESEARCH PROPOSALS**
- **ACQUISITION OF EXTERNAL RESEARCH FUNDING**
- **HAVING DEMONSTRATED SUCCESSFUL MENTORING OF GRADUATE STUDENTS IN THE FACULTY'S FIELD OF EXPERTISE WHICH CAN BE DEMONSTRATED FOR INSTANCE BY GRADUATING THE STUDENT, STUDENT PRESENTATIONS AND PUBLICATIONS, STUDENT AWARDS OR GRANT SUCCESS, PROFESSIONAL PLACEMENT OF STUDENTS AFTER GRADUATION.**

- **<u>PROFESSOR</u>: THE RESEARCH PROGRAM SHOULD HAVE PRODUCED A SUFFICIENT QUALITY AND QUANTITY OF PUBLICATIONS TO DEMONSTRATE THE EXISTENCE OF AN ON-GOING, PROFESSIONAL, INDEPENDENT RESEARCH PROGRAM. THERE SHOULD BE A RECORD OF STUDENT INVOLVEMENT INCLUDING SUCCESSFUL MENTORING OF GRADUATE STUDENTS. IT IS EXPECTED THAT THE FACULTY MEMBER SHOULD HAVE ATTAINED AN INTERNATIONAL REPUTATION (AS DEMONSTRATED BY PROFESSIONAL ACTIVITIES OR PRESENTATIONS AT MEETINGS AND BY CITATIONS OF PUBLICATIONS OR DOCUMENTED OPINIONS OF OTHER SCIENTISTS IN THE FIELD). EVIDENCE OF QUALITY PUBLICATIONS MAY INCLUDE DATA CONCERNING:**
  - **THE NUMBER OF CITATIONS EACH PAPER RECEIVED**
  - **THE QUALITY OF THE JOURNALS SUCH AS THEIR "IMPACT FACTOR"**
  - **EXTERNAL REVIEWS STATING THE PAPERS MADE MAJOR CONTRIBUTIONS**
  - **INVITED TALKS AND BOOK CHAPTERS**
  - **PROFESSIONAL AWARDS**

AS A POINT OF CLARIFICATION, THERE IS NO EXPECTATION FOR FACULTY AT ANY RANK TO AMASS PUBLICATIONS AS EITHER FIRST OR SOLE AUTHOR. IT IS COMMON FOR MANY DISCIPLINES TO HAVE THE PRIMARY AUTHOR LISTED LAST (OFTEN AS CORRESPONDING AUTHOR), AND IT IS CONSIDERED FAVORABLE FOR STUDENTS TO BE INCLUDED AS COAUTHORS OR FIRST AUTHORS. IT IS ESSENTIAL FOR THE FACULTY MEMBER TO CLARIFY IN THEIR NARRATIVE THEIR ROLE AND CREATIVE CONTRIBUTIONS IN MULTIPLE-AUTHORED PUBLICATIONS. THIS PHILOSOPHY OF EXPLAINING THE ROLE ALSO APPLIES TO COLLABORATIVE PROPOSALS.

D. Criteria for Public and University Service and PROFESSIONAL SERVICE

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service".

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be a systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, or professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults and/or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations**.**

f. Consulting**.**

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs **CONTRIBUTIONS INCLUDING INTERVIEWS**, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activities include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accrediting reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring **INCLUDING SERVING AS NEW FACULTY MENTORS.**

j. Prizes and awards for excellence in university service.

k. SERVING ON COMMITTEES THAT REPRESENT THE UNIVERSITY AT OTHER PROFESSIONAL INSTITUTIONS.

3. **PROFESSIONAL SERVICE**

a. Editing or refereeing articles or proposals for professional journals or organizations (**IF NOT COUNTED AS RESEARCH; SEE C.2.F.**).

b. Active participation in professional organizations;

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings**.**

f. Service on a national or international review panel or committee.

G. SERVING AS A MENTOR/ADVISOR, COMMITTEE MEMBER OR EXTERNAL EXAMINER FOR STUDENTS AT OTHER INSTITUTIONS.

4. Evaluation of Service

Each faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public, university, and **PROFESSIONAL** service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, and other public means of recognition for services rendered.

MEASURES OF EFFECTIVENESS OF SERVICE PERFORMANCE INCLUDE (BUT ARE NOT LIMITED TO):

- **ACCOMPLISHMENTS OF THE EFFORT OF ORGANIZATION TO WHICH SERVICE WAS PROVIDED.**
- **OFFICIAL RECOGNITION OF QUALITY OF SERVICE (E.G., AWARDS, LETTERS OF RECOMMENDATION).**
- **OPINIONS OF CLIENTS SERVED AND/OR COLLEAGUES INVOLVED IN DELIVERY OF SERVICE.**

SPECIFIC CRITERIA FOR SERVICE PERFORMANCE:

- **ASSISTANT PROFESSOR: NONE IN ADDITION TO UAF CRITERIA.**
- **ASSOCIATE PROFESSOR: POSITIVE CONTRIBUTION TO DEPARTMENTAL AND/OR UNIVERSITY MATTERS, EFFECTIVE PROFESSIONAL CONTRIBUTIONS TO THE**

PUBLIC, AND/OR EFFECTIVE SERVICE TO THE PROFESSION ARE EXPECTED.

- **<u>PROFESSOR:</u> EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS MANDATORY. SIGNIFICANT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS ARE EXPECTED, INCLUDING SERVICE TO THE GENERAL PUBLIC AND/OR ALASKAN TEACHERS.**

<u>E. CRITERIA FOR CURATION AS A SERVICE COMPONENT WHEN</u>

<u>RELEVANT.</u>

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY AT CNSM, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH, AND SERVICE.

1. **CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:**

    A. **MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);**

    B. **INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;**

    C. **FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;**

    D. **MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);**

E. SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;

F. WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;

G. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE;

H. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS;

I. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS AND INTERNATIONAL TREATIES AND AGREEMENTS THAT PERTAIN TO THE COLLECTION.

2. <u>SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:</u>

<u>ASSISTANT PROFESSOR AND CURATOR</u>

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

A. CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA, THE CIRCUMPOLAR NORTH, AND BEYOND AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.

B. COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.

1. CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.

2. CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR

EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.

3. **CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGUES OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.**

4. **CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CURATION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.**

C. **CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA. IN THIS REGARD, PREPARATION OF A SMALL EXHIBIT IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A PROFESSIONAL ARTICLE; PROJECT DIRECTION OF A LARGE AND COMPLEX EXHIBIT THAT INCLUDES PREPARATION OF A SERIOUS CATALOGUE IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A SCHOLARLY BOOK.**

D. **CURATORS WILL ACTIVELY SUBMIT GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.**

<u>ASSOCIATE PROFESSOR AND CURATOR</u>

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC, AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH MUST BE EVIDENT.

<u>PROFESSOR AND CURATOR</u>

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES

AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. HE OR SHE MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR CURATORIAL ACTIVITIES AND COLLECTIONS-BASED RESEARCH.

3. EVALUATION OF CURATION

A COMMITTEE COMPOSED OF THE TENURED CURATORS AT THE MUSEUM WILL PROVIDE AN EVALUATION TO THE UNIT PEER COMMITTEE. IN CASE THERE IS JUST ONE OR NO TENURED CURATORS, IT IS IMPERATIVE THAT TWO OF THE EXTERNAL REVIEWERS BE CURATORS. IN FORMULATING CRITERIA, STANDARDS, AND INDICES FOR EVALUATION, PROMOTION, AND TENURE, THE MUSEUM SHOULD INCLUDE EXAMPLES OF CURATORIAL ACTIVITIES AND MEASURES FOR EVALUATION APPROPRIATE FOR THAT UNIT. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

OUTSTANDING SENATOR OF THE YEAR AWARD FOR JENNIFER REYNOLDS

WHEREAS, Jennifer Reynolds has served the university in the UAF Faculty Senate for six years; and

WHEREAS, Jennifer Reynolds served as a valuable member of the Graduate Academic Advisory Committee during the 2003-04 and 2004-05 academic years, and the Faculty Affairs Committee during the 2007-08 through 2009-10 academic years; and

WHEREAS, Jennifer Reynolds has provided leadership as Chair of the Faculty Affairs Committee during academic year 2009-10; and

WHEREAS, Jennifer Reynolds worked tirelessly to change the Faculty Senate bylaws to ensure all faculty and units are fairly represented in the Faculty Senate; and

WHEREAS, Jennifer Reynolds was instrumental in the careful assessment and evaluation of electronic faculty activity reporting; and

WHEREAS, Jennifer Reynolds has provided thoughtful, well-researched analysis on many issues important to faculty, including promotion and tenure issues; now

THEREFORE BE IT RESOLVED THAT, the UAF Faculty Senate recognizes Jennifer Reynolds as Outstanding Senator of the Year for Academic Year 2009-2010.

OUTSTANDING SENATOR OF THE YEAR AWARD FOR ANNE CHRISTIE

WHEREAS, Anne Christie has served the university in the UAF Faculty Senate for the past three years; and

WHEREAS, Anne Christie has served as a valuable member of the Faculty Affairs Committee during the 2008-09 and 2009-10 academic years; and

WHEREAS, Anne Christie worked tirelessly to change the Faculty Senate bylaws to ensure all faculty and units are fairly represented in the Faculty Senate; and

WHEREAS, Anne Christie performed extensive research to determine the use of non-regular faculty in teaching across UAF; and

WHEREAS, Anne Christie has provided clear and intelligent input on many issues important to faculty, including promotion and tenure issues;

THEREFORE BE IT RESOLVED THAT, the UAF Faculty Senate recognizes Anne Christie as Outstanding Senator of the Year for Academic Year 2009-2010.

The following was passed at the May 3, 2010, Faculty Senate Meeting #167:

MOTION:

The UAF Faculty Senate moves to adopt the following calendar for its 2010-2011 meetings.

EFFECTIVE: Immediately

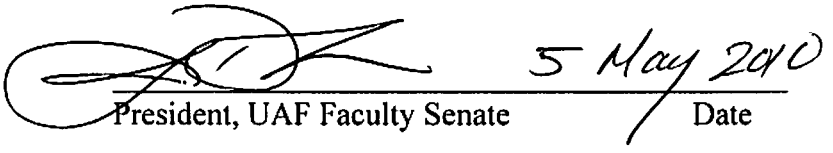
RATIONALE: Meetings have to be scheduled well in advance to allow for reservations at the Wood Center and to facilitate planning for Faculty Senate members.

Meeting #:	Date	Day	Time	Type
168	9-13-2010	Monday	1:00 PM	Video/Audio Conference
169	10-11-2010*	Monday	1:00 PM	Face to Face*
170	11-08-2010	Monday	1:00 PM	Audio Conference
171	12-06-2010	Monday	1:00 PM	Audio Conference
172	2-07-2011	Monday	1:00 PM	Face to Face
173	3-07-2011	Monday	1:00 PM	Video/Audio Conference
174	4-04-2011	Monday	1:00 PM	Audio Conference
175	5-02-2011	Monday	1:00 PM	Face to Face

*Proposed date for possible Chancellor's reception in the evening. Allows rural faculty to plan ahead to attend. Also, the CSW Women Faculty Luncheon occurs the following day.

5 May 2010

President, UAF Faculty Senate / Date



The following was passed at the May 3, 2010, Faculty Senate Meeting #167:

MOTION:

The UAF Faculty Senate moves to endorse the 2010-2011 committee membership as attached.

EFFECTIVE: Immediately

RATIONALE: New Senate members' preference for committee selection were reviewed and weighed against membership distribution from schools and colleges.

The following was passed at the May 3, 2010, Faculty Senate Meeting #167:

MOTION:

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2010. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 3, 2010

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

President, UAF Faculty Senate Date

ORIGINAL

The following was passed at the April 5, 2010, Faculty Senate Meeting #166:

MOTION

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsection B.4 (page 13). This amendment changes the way split appointments are handled in reapportionment calculations for representation on the Faculty Senate.

EFFECTIVE: Fall 2010

RATIONALE: This amendment would drop the use of split appointments to adjust faculty counts for individual units in reapportionment calculations. The change would help to make the reapportionment procedure much less labor-intensive, with minor effect on the outcome.

At present, the Geophysical Institute (GI), the International Arctic Research Center (IARC), and the Institute of Arctic Biology (IAB) are now represented in a Research Institutes "conglomerate group."

In reapportionment calculations using 2008-2009 data, under the current Faculty Senate Bylaws, the GI and IARC would each qualify for separate representation regardless of whether split appointments are taken into account. IAB would qualify for the minimum representation by 2 senators and the representation of CNSM would decrease from 6 to 4 senators. In addition, a new "conglomerate group" emerges, composed of INE, UAA CHSW/SON, ARSC, OFC, and the Museum. This new group would be represented by the minimum 2 senators, increasing the size of the Senate by 2 members.

In contrast, with this amendment that drops consideration of split appointments, IAB would have only 2 faculty with primary appointments in IAB in 2008-09 (and none in 2009-10). Of the 38 qualifying IAB faculty in 2008-09, 35 had appointments split with CNSM, 1 had an appointment split with SNRAS, and 2 had 50-67% research faculty appointments in IAB without an academic appointment elsewhere. IAB would not qualify for separate representation, CNSM would retain its 6 senators, and the new "conglomerate group" would not form, as it depends on the existence of split appointments.

The amendment specifies that in the case of evenly split appointments, for apportionment purposes the faculty member is to be counted in the tenure-granting unit. This is in accord with the concept that faculty should be represented in the unit of the primary appointment, as the rank of faculty with this type of split appointment is set by the tenure-granting unit and thus it may be seen as the primary unit. This is also in accord with a separate proposed amendment to section C.2, stating that faculty with evenly split appointments will vote in the tenure-granting unit.

NOTE: The difference between *Version 1* and *Version 2* is relevant to tenure-track faculty with split appointments in which the fraction of the appointment in a research unit is greater than 50%. In 2008-09, seven faculty with split appointments in CNSM and IAB had 62-75% of their appointments in IAB. Seven others had split appointments with 25% in an academic unit and 75% in the Museum. Thirteen had split appointments with 25% in an academic unit and 75% in GI.

Under *Version 1*, the reapportionment procedure adheres more closely to the actual division of effort by the faculty member for the year in which reapportionment takes place. The primary unit

is considered to be that in which the faculty member has the greatest fraction of his/her appointment, regardless of whether it is in an academic or research unit. IAB still would not qualify for separate representation, but in this version the faculty with > 50% appointment in IAB would be counted in IAB rather than in an academic unit, and would vote with whatever unit IAB decided to affiliate with (i.e., GI, IARC, CNSM, etc.). Note that this procedure would require details of appointments for all faculty with split appointments. This would require less effort than the current procedure, in which details are required for all UAF faculty, but more effort than Version 2.

Under *Version 2*, these faculty would be counted in the tenure-granting unit, even though the majority of their appointment in any given year may be in a research institute. The justification for this is twofold. First, the appointment may change from year to year, and the information on each faculty member's appointment is not readily available; thus it is desirable to avoid using these details for reapportionment. Second, an appointment in a tenure-granting unit may be considered the primary appointment on the grounds that it determines the faculty member's rank.

5 April 2010

President, UAF Faculty Senate Date

VERSION 1

3 ||4.|| **FACULTY WITH SPLIT APPOINTMENTS WILL BE COUNTED ONLY IN THE UNIT OF PRIMARY APPOINTMENT OR, IN THE CASE OF EVENLY SPLIT APPOINTMENT, IN THE TENURE-GRANTING UNIT.** ||Each faculty member whose annual academic appointment is less than 1560 hours will be considered a fractional FTFE with the fraction being the number of hours of annual academic appointment divided by 1560.||

VERSION 2

3 ||4.|| **TENURE-TRACK FACULTY WITH SPLIT APPOINTMENTS WILL BE COUNTED ONLY IN THE TENURE-GRANTING UNIT. RESEARCH FACULTY AND OTHER QUALIFYING FACULTY WITH SPLIT APPOINTMENTS WILL BE COUNTED ONLY IN THE UNIT OF PRIMARY APPOINTMENT.** ||Each faculty member whose annual academic appointment is less than 1560 hours will be considered a fractional FTFE with the fraction being the number of hours of annual academic appointment divided by 1560.||

ORIGINAL

The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, existing subsection B.8 (page 14). This amendment addresses the frequency of reapportionment for the purpose of Faculty Senate representation.

EFFECTIVE: Fall 2010

RATIONALE: The current bylaws require reapportionment "for the elections held in even numbered years or upon two-thirds vote of the Senate." Reapportionment every two years is deemed excessive because the distribution of faculty among units at UAF does not change significantly over two-year time periods. In practice, reapportionment seems to have been conducted at 5-10 year intervals. This motion will change the Bylaws to specify a 7-year interval, and will synchronize the reapportionment process with UAF accreditation reviews in order to make use of the data on faculty distribution that is compiled for that purpose by the Provost's Office. The alternate provision for reapportionment upon a 2/3 vote of the Senate is retained.

5 April 2010

6 [[8]]. Re-apportionment will be done **IN THE YEAR OF ACCREDITATION REVIEW OF UAF, EXPECTED TO BE EVERY SEVEN YEARS,** [[for the elections held in even numbered years]] or upon two-thirds vote of the Senate.

ORIGINAL

The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsection C.1 (page 14). This amendment addresses the procedure for election of representatives from research institutes to the Faculty Senate.

EFFECTIVE: Fall 2010

RATIONALE: The current Bylaws are written with the assumption that the research institutes will not qualify for separate representation on the Faculty Senate. Instead, they are grouped into a "conglomerate group." The Bylaws specify that elections for Faculty Senate representatives for the research institutes are to be held by the Senate office. This provision is reasonable because there is no central organization or administrative office for such a collection of research institutes. However, several research institutes are now large enough for separate representation on the Faculty Senate. Each of them has the same organizational ability to run internal elections as the academic units have. This amendment removes the assumption that research institutes will not have separate representation, and specifies that all individual units represented on the Faculty Senate, i.e., research institutes as well as schools and colleges, are responsible for their own elections and election procedures. The Senate office will continue to have responsibility for elections by any "conglomerate groups."

ORIGINAL

The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsection C.2 (page 14). In reference to election of representatives to the Faculty Senate, this amendment addresses the voting procedure for faculty with split appointments (in multiple units).

EFFECTIVE: Fall 2010

RATIONALE: For the purpose of faculty representation on the UAF Faculty Senate, this change brings the election procedure into alignment with the procedure for reapportionment. In reapportionment, faculty with split appointments will be counted in a single unit. This motion changes the election procedure so that faculty vote in that same unit.

NOTE: Selection of *Version 1* or *Version 2* should match the selection for section B.4 (now B.3) in a separate motion.

UNIVERSITY OF ALASKA FAIRBANKS

REGULATIONS FOR THE

APPOINTMENT AND EVALUATION OF FACULTY

ALASKA NATIVE LANGUAGE CENTER (ANLC) AND ALASKA NATIVE LANGUAGE PROGRAM (ANLP) UNIT CRITERIA
STANDARDS AND INDICES

This adaptation of the UAF and Board of Regents criteria for promotion and tenure is specifically designed for evaluation of Alaska Native Languages faculty and should also be used

for annual evaluations. Items in boldface caps are added because of their relevance to ANLC and ANLP faculty and are additions and clarifications to the existing regulations.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they

become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV **AND ALASKA NATIVE LANGUAGE CENTER/PROGRAM UNIT CRITERIA, STANDARDS AND INDICES,** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of

instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. **INSTRUCTORS OF ALASKA NATIVE LANGUAGES OFTEN DEAL WITH STUDENTS IN SMALLER GROUPS. BECAUSE OF THE DEMOGRAPHY OF ALASKA NATIVES AND THE ENDANGERED STATUS OF ALL ALASKA NATIVE LANGUAGES, INDIVIDUAL STUDY CLASSES ARE OFTEN THE ONLY MEANS OF PROVIDING CRUCIAL INSTRUCTION TO MEMBERS OF SMALL NATIVE GROUPS WHO HAVE THE POTENTIAL TO BECOME LINGUISTS AND LANGUAGE SPECIALISTS.**

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching.

   h. DESIGN THEIR OWN CLASSROOM MATERIALS TO A MUCH GREATER EXTENT THAN IN MOST OTHER DISCIPLINES, SINCE PUBLISHED INSTRUCTIONAL MATERIALS FOR ALASKA NATIVE LANGUAGES ARE LIMITED.

2. **Components of Evaluation**

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. **THE MISSION OF ANLC PROVIDES FOR THE PRODUCTION AND DISTRIBUTION OF NATIVE LANGUAGE PUBLICATIONS TO THE PEOPLE OF ALASKA AND NATIVE GROUPS IN PARTICULAR. THE ALASKA NATIVE LANGUAGE CENTER'S PUBLICATION PROGRAM IS AN EFFECTIVE MEANS OF ACCOMPLISHING THIS GOAL AND IS VIEWED AS A REPUTABLE PRESS IN THE FIELD OF NATIVE AMERICAN LINGUISTICS. ANLC IS FOREMOST IN PUBLISHING IN ATHABASCAN WORLDWIDE AND FOREMOST IN ESKIMO-ALEUT PUBLISHING IN NORTH AMERICA. MANUSCRIPTS TO BE PUBLISHED ARE REVIEWED BY APPROPRIATE SPECIALISTS OUTSIDE THE INSTITUTION WHEREVER POSSIBLE.**

PUBLICATIONS INTENDED FOR THE PUBLIC AND ESPECIALLY THE NATIVE COMMUNITY OFTEN TAKE A DIFFERENT FORM FROM OTHER SCHOLARLY RESEARCH. THESE MATERIALS ARE EVALUATED BY THEIR INTENDED USERS IN LANGUAGE COMMUNITIES AND BY OTHER LINGUISTS AND LANGUAGE SPECIALISTS WHO PRODUCE SIMILAR MATERIALS. ANLC FACULTY ARE EXPECTED TO PRODUCE BOTH SCHOLARLY AND APPLIED PUBLICATIONS.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. **Components of Research, Scholarly and Creative Activity**
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

k. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

l. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

m. **GRAMMARS, DICTIONARIES, TEXTS, AND INSTRUCTIONAL MATERIALS FOR ALASKA NATIVE LANGUAGES.**

n. **OTHER MEANS OF DISSEMINATING INFORMATION ABOUT ALASKA NATIVE LANGUAGES, SUCH AS MAPS, CD'S, AUDIO TAPES, VIDEO TAPES, AND WEB PAGES.**

o. **THE DESIGN OF TEMPLATES FOR DICTIONARIES, GRAMMARS, TEXT COLLECTIONS, AND TEACHING MATERIALS APPLICABLE TO CLOSELY RELATED LANGUAGES.**

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service." **BECAUSE OF ITS STATEWIDE MISSION, ANLC IS STRONGLY COMMITTED TO PUBLIC SERVICE TO ALASKA NATIVE COMMUNITIES.**

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. **TEACHING IN NOT-FOR-CREDIT SITUATIONS.**

m. **PARTNERSHIPS WITH NATIVE ORGANIZATIONS AND LANGUAGE PROGRAM SUPPORT, INCLUDING MATERIALS PRODUCTION AND TEACHER EDUCATION. EVIDENCE OF SUCH SERVICE INCLUDES ACTIVITIES IN SUPPORT OF COMMUNITY LANGUAGE GOALS, SUCH AS WORKSHOPS AND NOT-FOR-CREDIT COURSES, NATIVE LANGUAGE TEACHER EDUCATION, AND MATERIALS RESULTING FROM THESE ACTIVITIES.**

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. **Evaluation of Service**
Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

WITHIN ANLC, EXCELLENCE IN SERVICE IS DEMONSTRATED BY

a. **SUSTAINED ENGAGEMENT AND COLLABORATION WITH LANGUAGE COMMUNITIES THAT RESULT IN LOCAL LEADERSHIP OR RESEARCH IN LANGUAGE EFFORTS,**

b. **PARTICIPANT EVALUATIONS OF WORKSHOPS OR OTHER ACTIVITIES,**

c. **MATERIALS CREATED SPECIFICALLY FOR A WORKSHOP,**

d. **SUCCESSFUL OUTCOMES OF MENTORING.**

E. Unit Criteria, Standards and Indices

Unit criteria, standards and indices are recognized values used by a faculty within a specific discipline to elucidate, but not replace, the general faculty criteria established in B, C, D, above, and in "UAF Faculty Appointment and Evaluation Policies," Chapter IV for evaluation of faculty performance on an ongoing basis and for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review.

Unit criteria, standards and indices may be developed by those units wishing to do so. Units that choose not to develop discipline-specific unit criteria, standards and indices must file a statement stating so with the Office of the Provost, which shall serve as the official repository for approved unit criteria, standards and indices.

A unit choosing to develop discipline-specific criteria, standards and indices shall have such criteria, standards and indices approved by a majority of the discipline faculty. The unit criteria, standards and indices will be reviewed and approved by the cognizant dean who will

forward the unit criteria, standards and indices to the provost. The provost will review for consistency with BOR and UAF policies and will forward these criteria, standards and indices to the Faculty Senate, which shall review and approve all discipline-specific criteria according to a process established by the Faculty Senate.

Unit criteria, standards and indices will be reviewed at least every five (5) years by the faculty of the unit. When reorganization results in a unit's placement in another college/school structure, the cognizant dean, in consultation with the unit faculty shall review unit criteria, standards and indices and revise if warranted. Unit criteria, standards and indices approved by the Faculty Senate prior to a unit's reorganization shall remain in effect until reviewed and revised. Revision of unit criteria, standards and indices must follow the review process established by the Faculty Senate. If the unit criteria, standards and indices are not revised, a statement of reaffirmation of the current unit criteria, standards and indices must be filed with the Office of the Provost, following the review.

Unit criteria, standards and indices, when developed by the faculty and approved by the Faculty Senate, must be used in the review processes by all levels of review. Their use is **NOT** optional. It shall be the responsibility of the candidate for promotion, tenure, 4th year comprehensive and diagnostic review (United Academics only), and post-tenure review to include these approved unit criteria, standards and indices in the application file.

F. Annual Evaluation of Non-tenured Faculty with Academic Rank

1. Process of Evaluation

There will be annual evaluations of all untenured faculty members holding academic rank. Each faculty member shall submit a professional activities report to the campus director or college/school dean according to a schedule announced by the provost. The annual professional activities report will be accompanied by a current curriculum vita.

The evaluations performed by the campus director or college/school dean shall include explicit statements on progress toward meeting criteria for tenure and promotion in their written evaluations. The dean's/director's evaluation shall reference the faculty member's workload agreement in commenting on progress. The director or dean shall provide a copy of a written evaluation to the faculty member.

In the case of a faculty member having a joint appointment, the dean will coordinate the review and recommendation with the director as appropriate.

G. Periodic Evaluation of Tenured Faculty Members

1. Frequency of Evaluation

a) All tenured faculty at UAF shall be evaluated once every three years according to a schedule and process announced by the provost.

b) For tenured faculty with joint appointments, the cognizant dean will arrange a review that assures that all appropriate administrators provide a written evaluation of the faculty member. The dean will inform the faculty member of these arrangements.

2. Annual Activities Report

All tenured faculty shall prepare a professional activities report annually and submit it to the dean or director according to a schedule announced by the provost.

H. Evaluation of Faculty with Special Academic Rank

Special academic rank faculty are appointed for a specified period of time. They are to provide evidence of effectiveness in their assigned responsibilities during the term of their appointment when requested by their college/school dean or institute director according to the process set forth by the provost.

1. Process of Evaluation

The college/school dean or institute director shall require an annual activities report of a faculty member who has an appointment renewed beyond the initial year of appointment. The review process outlined above for academic rank faculty shall apply. The optional process for the development and approval of the unit criteria, standards and indices as outlined above in Chapter III, E. shall also apply to the definition and evaluation of faculty in special academic rank positions.

The appointment to special academic rank shall terminate on the date specified in the letter of appointment, and implies no expectation of a subsequent appointment.

The following was passed at the April 5, 2010, Faculty Senate Meeting #166:

MOTION

The UAF Faculty Senate moves to approve an Associates of Applied Science in Drafting Technology.

EFFECTIVE: Fall 2010

RATIONALE: See the program proposal #37-UNP on file in the Governance Office, 314 Signers' Hall.

5 April 2010
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 4/6/10
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Brief statement of the proposed program, its objectives and career opportunities.

The proposed Associate of Applied Science in Drafting Technology consists of courses that prepare a student for employment in the construction industry as engineering, architectural, or design draftspersons. The existing Certificate in Drafting Technology offers students a basic understanding of computer aided drafting, but little to no knowledge of what they will be asked to draw. The proposed AAS addresses the deficiency by utilizing existing Construction Management courses, and two new course offerings, to familiarize students with the different design disciplines and trades inherent in the construction industry. Students will graduate having the industry vocabulary and knowledge required to meet the skills of employees that architectural, engineering, and construction firms are demanding.

The goals of this A.A.S. program are to:

- Provide a well-rounded exposure of construction technology to students in order that they can effectively communicate with architects, engineers, and contractors.
- Provide focused education and skill development in drafting in order that students enter the workforce with a readily marketable skill.
- Meet the local demands for draftspersons that possess a basic knowledge of construction, accurate and efficient drafting skills, and the flexibility to utilize evolving drafting and design technologies.

Proposed Catalog Layout:

Drafting Technology: Associate of Applied Science

College of Rural and Community Development
Tanana Valley Campus
(907) 455-2845
www.tvc.uaf.edu/programs/drafting/

Minimum credits for the A.A.S.: 60

The A.A.S. degree in drafting technology combines focused training in computer aided drafting with a well-rounded exposure to the professions, trades, and materials common to construction in Alaska. Courses combine technical CAD training with the vocabulary and knowledge needed to communicate with future employers in the architectural, engineering, and construction fields. Students develop skills in mathematics, drawing and multi-functional CAD techniques. Students are instructed in traditional drawing techniques, computer-aided drafting (CAD), and building information modeling (BIM) technologies; giving them the knowledge and flexibility to work traditionally and with the most recent drafting technologies. Required courses cover many aspects of design and construction, including building materials, codes and civil, mechanical, electrical, and structural technologies. Qualified students have the opportunity to work side-by-side with professionals from the architectural and engineering community in internship situations, gaining valuable on-the-job experience.

Major – A.A.S. Degree

1. Complete the general university requirements
2. Complete the A.A.S. requirements (15 credits)

Communications
ENGL 111X – Introduction to Academic Writing 3
ENGL 213X – Academic Writing about the Social and
Natural Sciences
or ENGL 211X Academic Writing about Literature 3
COMM 131X - Fundamentals of communication: group context

or COMM 141X – Fundamentals of communication : public context 3

Computation

DEVM 105 – Intermediate Algebra
or TTCH 131 – Math for the Trades
or MATH at the 100 level or higher 3

Human Relations

ANTH/SOC 100x – Individual, Society, and Culture
or ABUS 154 – Human Relations
or approved human relations course 3

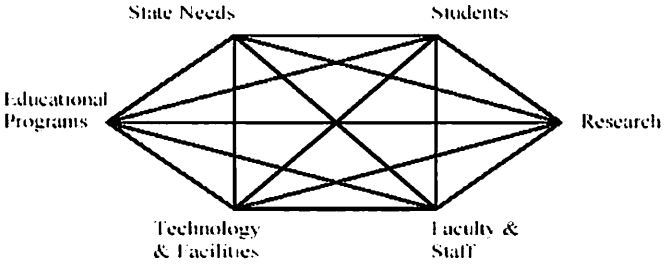
3. Complete the following major requirements (42 credits)

DRT 101 – Introduction to Drafting 3
DRT 140 – Architectural Drafting 3
DRT 150 – Civil Drafting 3
DRT 170 – Beginning CAD 3
DRT 210 – Intermediate CAD 3
DRT 270 – Advanced CAD 3
DRT 145 – Structural Drafting 3
DRT 155 – Mechanical and Electrical Drafting 3
CM 102 – Means and Methods of Building Construction 3
CM 123 – Codes and Standards 3
CM 142 – Mechanical and Electrical Technology 4
CM 213 – Civil Technology 4
CM 231 – Structural Technology 4

4. Select <u>one</u> of the following electives (3 – 6 credits)

DRT 160 – Drafting Internship 3-6
DRT 121 –Construction Documents and Drawings 3
CM 201 – Construction Project Management 3
ES 101* – Introduction to Engineering 3

5. Required credits 60-63



* *This elective requires additional math prerequisites.*

RESOURCE COMMITMENT TO THE PROPOSED DEGREE PROGRAM

University of Alaska Board of Regents
Program Approval Summary Form

MAU: **University of Alaska Fairbanks**
Title: **Associates of Applied Science in Drafting Technology**
Target admission date: **Fall 2010**

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

This program is proposed by the Construction Management and Drafting Technology programs at the Tanana Valley Campus within the College of Rural and Community Development. It has been promoted by the Community Advisory Committee of the Drafting Technology program made up of industry professionals, existing and former students who need additional education before becoming workplace ready and potential employers within the community.

The creation of an Associate of Applied Science program in Construction Management at UAF in 2006 has provided the Drafting Technology program an opportunity to offer much needed additional training to students in the area of construction with a minimal outlay in resources or additional courses. Similar to the Architectural and Engineering Program in Anchorage, the A.A.S. in Drafting Technology would utilize courses taught in Construction Management to bolster the existing Certificate into an A.A.S.

No impact to existing programs across the UA system is expected. The DRT Program in Fairbanks serves a population grounded to the community by work and/or responsibilities. Course offerings are typically in the evenings, allowing students who would otherwise be unable to pursue the degree to do so while meeting other responsibilities.

What **State Needs** met by this program.

According to the Alaska Department of Labor Statistics, there will be a 19.6% increase in drafters employed between 2006 and 2016, exceeding the projected state average employment growth rate of 14%.

The Army Corp of Engineers, a principal source of local construction work, is requiring the use of Building Information Modeling (BIM) on their projects. BIM, a three-dimensional software platform, can be used by designers, contractors, and owners; increasing the need for well-trained drafting technicians that can navigate the software.

What are the **Student** opportunities and outcomes? Enrollment projections?

Feedback from the Drafting Technology Community Advisory Committee, made up of local professionals and potential employers, has consistently supported a program with

greater emphasis on technical training in building technologies in order for students to know how to use the skills in computer aided drafting they learn in the existing Certificate program. The proposed AAS meets this need with little to no additional commitment of resources. Graduating students will leave the program with the vocabulary and knowledge needed to converse with engineers, architects, and contractors- skills needed to seek and retain employment.

The Department of Labor Occupational Outlook Handbook for 2008-2009 clearly states "Opportunities should be best for individuals with at least 2 years of postsecondary training in a drafting program that provides strong technical skills and considerable experience with CADD systems." The report goes on to highlight the increasing need for drafters due to increasing retirement and complexity of drafting software.

The experience of current Drafting Technology Certificate holders strongly reinforces the DOL findings. Most graduates of the program have had difficulty finding or keeping work, primarily because they have little to no knowledge of construction technology. By comparison, those students that have construction experience are more likely to find and keep employment. Unfortunately, those few students are the exception. This proposed AAS will remedy this issue providing students with no construction knowledge with a broad exposure to the construction industry.

Currently, there are 20-25 students in the Drafting Technology program. There are 15 students currently enrolled with the Drafting Technology certificate declared as their primary or secondary major. Of these, 12 list the certificate as their primary program. An additional 5-10 students are enrolled in drafting courses who have not yet declared a major but have expressed intent to pursue the drafting certificate. Preceding semesters have seen enrollment as high as 34 students. Degrees received by Drafting Technology students have seen an upward trend, from no degrees rewarded in 2000 to eighteen in 2008. Given the upward trend in enrollment and graduation, enrollments are expected to be between 25 and 35 students annually.

Describe **Research** opportunities:

Not applicable to this AAS program.

Describe Fiscal Plan for development and implementation:

We do not seek any additional funding in order to develop, implement, or maintain this program. With the exception of two courses, all courses already exist and are taught on a routine basis. The two new proposed courses, Structural Drafting and Mechanical and Electrical Drafting are expected to be taught by adjunct faculty currently working in the industry. The funding for the adjunct faculty will derive from the tuition paid for the course. Administrative support and facilities are all in place and active in supporting the existing Certificate program. If enrollment increases as projected, the program as it now exists has sufficient flexibility to provide the equipment, facilities, and administrative

support with little to no additional costs. Classrooms and equipment currently exist and are used primarily for evening classes 3-4 times weekly. Both could easily be utilized for additional classes with no need for additional space or equipment.

ORIGINAL

The following was passed at the April 5, 2010, Faculty Senate Meeting #166:

MOTION:

The UAF Faculty Senate moves to approve a Minor in Mining Engineering.

EFFECTIVE: Fall 2010 and/or
Upon Chancellor's approval.

RATIONALE: See the program proposal #29-UNP on file in the Governance Office, 314 Signers' Hall.

5 April 2010
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 4/6/10
Chancellor's Office

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

Objectives and Purpose of the New Minor

The main objective of this new minor is to give non-mining engineering majors some background in mining engineering.

The proposed minor alleviates two major problems:

1. The shortage of skilled labor in the mining industry; and,
2. The availability of significant capacity in many mining engineering courses.

The mining industry worldwide has a severe shortage of trained personnel. The entire United States produces only about 100-120 mining engineers every year. Therefore, the industry often hires non-mining engineers and trains them. We asked mine operators in surveys if they would hire a "non-mining" engineer or geologist if they had a minor in mining engineering. They were strongly supportive of hiring "non-mining"

engineers/geologists that had the proposed minor because it saves them training time. Note that the industry currently hires "non-mining" engineers and geologists; but they play a limited role. In conclusion, the employers indicated that any engineering or geology major that had a minor in mining engineering would be significantly more employable in the industry than without. They, however, indicated that the minor would be very useful to them regardless of the major.

The second aspect of the minor is that it would increase enrollment in junior/senior level MIN courses that are currently under capacity. Most classes are non-lab based and, therefore, it is easy to bump up the enrollment without adding to the costs.

Proposed Minor Requirements:

1. Complete MIN electives at the F300-level or above—15 credits
2. Minimum credits required: 15 credits

Mining engineers are trained on a broad variety of topics since mining engineers are normally responsible for many aspects in a mine, such as mine ventilation, ground control, mine operation, economics, environmental laws and labor management. The minor will allow non-mining engineering majors to pick topics within mining engineering courses that are of interest to them as we will not restrict them to any specific courses. Two examples of course sequences are given below:

Here is a sequence (prerequisites are in parentheses):

MIN 301 (ES 208 & ES 307)
MIN 313
MIN 370 (ES 331)
MIN 407 (CHEM F106X; ENGL F111X; ENGL F211X or ENGL F213)
MIN 409

For engineering majors, the above is exactly 15 credits as they will have met other prerequisites.

Another sequence:

MIN 370 (ES 331)
MIN 407 (CHEM F106X; ENGL F111X; ENGL F211X or ENGL F213)
MIN 408
MIN 409
MIN 443 (MIN 370)
MIN 482

Relationship to the "Purposes of the University"
UAF's Academic Development Plan (2007-2012) states this goal at UAF: "Produce

graduates who are job-ready in areas of high employer demand, and conduct training and research applied to the development, planning, and management activities of the State". The proposed minor in mining engineering feeds directly into that since it produces graduates that will be in high demand in a key industry in this resources state.

Need for the minor

As stated earlier, the mining industry has a severe shortage of skilled labor, especially mining engineers. The industry resorts to hiring non-mining engineers and then training them to fulfill mining engineering roles.

Mine operators around the state such as Usibelli Coal Mine, Barrick Gold etc were surveyed on their acceptability of the proposed minor. Their response was clear: they see the minor as a positive development. All respondents thought that a "non-mining engineer" was a lot more employable with the proposed minor than without.

Projections

The number of undergraduate MIN majors currently stands at 25. We expect 5 students to enroll in the minor. The minor will be a success even if we get one student since it is at no cost.

ORIGINAL

The following was passed at the April 5, 2010, Faculty Senate Meeting #166:

MOTION:

The UAF Faculty Senate moves to amend the UAF *Policies and Regulations for the Appointment and Evaluation of Faculty* by addition of a process for the promotion of non-represented faculty (e-class of FN or FR). The new process will be posted online; and then later incorporated into the printed document upon its upcoming revision.

EFFECTIVE: Immediately

RATIONALE: Because the vast majority of faculty are represented by a bargaining unit, the faculty promotion process is typically governed by the collective bargaining agreements between the University and the two bargaining units. However, promotion is granted by and at the discretion of the University therefore, the University is able to offer the opportunity for promotion to faculty who are not members of a bargaining unit due to an administrative assignment (who are in an e-class of FN or FR, versus F9 or A9). As of July 2009, non-represented faculty promotion is not disallowed by Board of Regents Policy or Regulation, nor by the UAF *Policies and Regulations for the Appointment and Evaluation of Faculty* (the "Blue Book"). However, because it is not expressly addressed in those documents, UAF did not have an established process for non-represented faculty promotion prior to AY09-10.

This promotion process is not intended to apply to executives, even though they may have a faculty title and may carry out some faculty duties. Executives are not eligible to stand for promotion via the faculty process.

There are several factors that should be considered before non-represented faculty are encouraged to stand for promotion:

- As within the represented promotion process, the candidate must demonstrate, via the application file, that the criteria for the proposed rank are met or exceeded, as they are defined in UAF's *Policies and Regulations for the Appointment and Evaluation of Faculty*.
- Non-represented faculty may be reviewed for promotion under this policy if the faculty workload is not less than 49% of their assignment.
- Non-represented faculty will be evaluated strictly on the faculty portion of the workload (teaching, research, and service); the administrative portion of the appointment and its accomplishments will not be considered.
- Non-represented faculty are not entitled to the grievance or appeals processes identified in the collective bargaining agreements. Instead, they are subject only to the ad-hoc appeals process that is described in this document.

Non-Represented Faculty Promotion Process

The review schedule for the non-represented faculty promotion process shall be the same as the United Academics review schedule for promotion and tenure. The criteria used in the promotion process for non-represented faculty shall be that described in UAF's *Policies and Regulations for the Appointment and Evaluation of Faculty*. If the faculty portion of a faculty member's workload is within a unit that has approved unit criteria, then the unit criteria will also apply. The promotion process for non-represented faculty shall be that which is described in Chapter IV of UAF's *Regulations for the Appointment and Evaluation of Faculty*, except as amended below:

- All levels of review will be given instructions as to how to evaluate the file. Only work that results from faculty duties is to be evaluated, and that work is to be evaluated relative to the portion of appointment/workload dedicated to faculty duties. This portion of appointment must e not less than 49%. Faculty at 49% appointment will be evaluated relative to unit criteria for half-time faculty.

- As stated in UAF's *Regulations for the Appointment and Evaluation of Faculty*, the provost will prepare and distribute guidelines for the preparation of a candidate's file and the required content. These requirements and guidelines are located on the provost's website (www.uaf.edu/provost) as four documents titled "Guidelines for Promotion/Tenure Review: Part I," "Part II," "Part III," and "Best Practices."

- Chapter IV.B.5.b./Chapter IV.C.4.b. Unit Peer Review. The appropriate peer review committee for non-represented faculty standing for promotion will be appointed by a dean or director from a unit other than that of the candidate. This dean or director will be selected by the provost. At least one committee member must be from the candidate's

unit; if conflicts of interest cannot be avoided in this appointment, then the appointed member will not vote and will participate in an advisory capacity. The peer committee will not include individuals who are supervised by the faculty member, except as described above. Members of the peer committee must not have any other type of conflict of interest. To the extent possible, the peer committee should represent the candidate's discipline and faculty work. (The remainder of this regulation will be followed as written in UAF *Regulations for the Appointment and Evaluation of Faculty*.)

- Chapter IV.B.5.c./Chapter IV.C.4.c. Levels of Review. The levels of review for non-represented faculty will be those associated with the faculty member's previous bargaining unit. (The remainder of this regulation will be followed as written in UAF *Regulations for the Appointment and Evaluation of Faculty*.)

- Chapter IV.B.5.d. Constitution and Operation of the University-wide Promotion and Tenure Committee. The university-wide review committee convened to review promotion of represented faculty candidates will also review the non-represented faculty candidate. The Faculty Senate and provost must take this into account when selecting members for the university-wide review committee. (The remainder of this regulation will be followed as written in UAF *Regulations for the Appointment and Evaluation of Faculty*.)

- Chapter IV.B.6./Chapter IV.C.5. Exclusive process for reconsideration. A non-represented faculty member who is denied promotion may request reconsideration in accordance with the process identified herein.

  Exclusive Process for Reconsideration/Appeals Process for Non-Represented Faculty

  Notice of an appeal must be submitted by the faculty member (i.e., "complainant") to the chancellor's office within ten business days of the faculty member's receipt of official notification of the decision regarding the promotion. The notice of appeal must include a statement of why the decision is being appealed; the reasons why the complainant disagrees with the decision; the remedy sought; and the name, academic unit, telephone number, and address at which the complainant shall receive all correspondence related to the complaint.

  Within ten business days of receipt of the appeal, the chancellor shall transmit the appeal to an ad-hoc appeals committee (hereafter "the committee").

  The committee will be appointed by the chancellor, or by the provost as the chancellor's designee. The committee will be composed of three administrators, three faculty members, and a fourth faculty member to serve as the chair of the committee. No member will be appointed to the committee who has a professional or personal conflict such that they cannot render an impartial judgment.

The function of the committee shall be to hear the evidence relating to an appeal and to render a majority recommendation. The evidence subject to review by the committee is limited to the documentary evidence considered in the original academic decision being appealed. The committee may seek testimony from witnesses for clarification of the documentary evidence.

The committee shall conduct its deliberations according to informal and non-adversarial procedures, which shall be submitted in writing to the provost's office prior to the committee's review of the appeal.

The committee shall, within 30 business days of the receipt of the appeal from the chancellor, prepare a written recommendation addressing each issue included in the appeal presented to the committee. The committee's recommendation shall be forwarded to the chancellor as the final recommendation on the appealed decision. Members of the committee not concurring with the majority opinion may submit a minority recommendation, which shall be presented in a meeting with the chancellor along with the majority recommendation.

Upon advance written notice to the chair of the committee, the chancellor may meet with the committee at any time after having received its recommendation for the sole purpose of seeking clarification concerning the bases and implications of its recommendation.

The chancellor may accept the recommendation of the committee and proceed accordingly; or the chancellor may find that the best interests of the University would not be served in accepting the recommendation. In those cases in which the chancellor does not accept the committee's recommendation, the chancellor shall set forth in writing the reasons for the rejection. The decision of the chancellor shall be rendered in writing within 20 business days of the receipt of the committee's recommendation. The chancellor's decision is final and binding and not subject to further review. Copies of the committee's recommendation and the chancellor's decision shall each be transmitted by the chancellor to the complainant within 10 business days of receipt.

By mutual agreement, the parties may extend the appeal filing and response timelines set forth above. Such agreements shall be confirmed in writing by the party requesting the extension.

ORIGINAL

The following was passed at the April 5, 2010, Faculty Senate Meeting #166:

MOTION:

The UAF Faculty Senate moves to confirm the nominations of Jennifer Reynolds and Anne Christie for the 2010 Outstanding Senator of the Year Award.

EFFECTIVE: Immediately

RATIONALE: The Outstanding Senator of the Year Award Screening Committee has carefully reviewed the 2010 nominations of Jennifer Reynolds and Anne Christie. The committee has concluded that both Jennifer Reynolds and Anne Christie are well-deserving candidates for this award. Procedure stipulates that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to both recipients at the May meeting of the Senate.

5 April 2010

President, UAF Faculty Senate Date

The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

RESOLUTION

The Committee on the Status of Women urges UAF and UA to amend the leave-share policy in order to permit the sharing of sick leave for pregnancy, childbirth, adoption, family and elder care.

Effective: Immediately

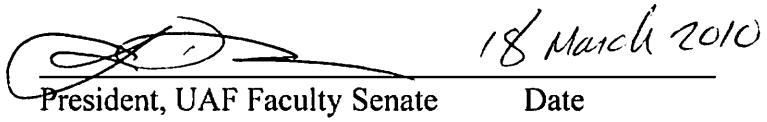
Rationale: The leave-share program allows employees to voluntarily transfer hours from their unused sick leave balance to the sick leave balance of an employee with a qualifying medical condition. While currently leave-share is an excellent example of what UAF is already doing right to support its employees, pregnancy, childbirth, adoption, family and elder care are excluded from the leave-share program. The ability to accept leave hour donations in these instances could be particularly helpful to those whose partners are also UAF employees. Expanding the leave-share program to include pregnancy, childbirth, adoption, family and elder care for any employee who qualifies for Family Medical Leave would be a meaningful way for UAF to demonstrate its support of employees with families and an aid to recruitment and retention of both faculty and staff.

UAF's Work Life Balance Committee formally supports this resolution.

16 March 2010

President, UAF Faculty Senate Date

The following was passed at the March 5, 2010, Faculty Senate Meeting #165:



MOTION:

The Faculty Senate moves to **AMEND THE 2010-11 CATALOG TO REFLECT** a two year placement test expiration and revise the following UAF catalog statement under the Mandatory Placement heading on page 32, as indicated:

Effective: Fall 2010

Rationale: Placement test expiration periods are inconsistent across the UA system. Students attending different institutions within the system are confused by the differences. A common message is requested.

Furthermore, it is the hope of the SADA committee and the Developmental Math and Math faculty that this motion lead to Banner enforcement of prerequisites for math placement.

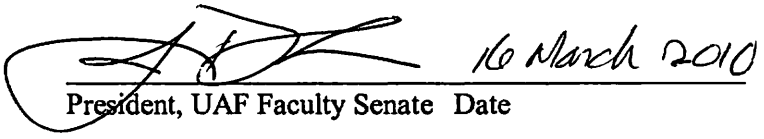
Mandatory Placement
Students who do not meet basic skills standards in reading, writing and mathematics must complete appropriate Developmental Education courses. Such students may not enroll in 100-level or above courses that depend on these skills until they have satisfactorily met the exit criteria of the appropriate Developmental Education course(s).

Students without appropriate standardized test scores (such as ACT, SAT, ASSET or ACCUPLACER), advanced placement credits, transfer credits or prerequisite coursework must have UAF-approved placement test scores prior to registering for classes their first semester at UAF. **PLACEMENT EXAMS MUST BE TAKEN WITHIN TWO CALENDAR YEARS PRIOR TO THE COMMENCEMENT OF THE COURSE.** Students may not enroll in classes unless they meet the placement requirements. Placement into appropriate developmental or core classes must be done with the help of an academic advisor. Placement tests are available at every UAF rural campus as well as Testing Services, Academic Advising Center, Rural Student Services, Center for Distance Education and Northern Military Programs at Fort Wainwright, Eielson Air Force Base and Delta Career Advancement Center.

FOR PLACEMENT INTO ENGLISH F111X OR ANY DEVELOPMENTAL ENGLISH COURSE, STUDENTS MUST ALSO HAVE A SCORED WRITING SAMPLE SUCH AS AN SAT OR ACT WRITING SAMPLE, OR A UAF-GENERATED WRITING SAMPLE GIVEN ALONG WITH ASSET, COMPASS, OR ACCUPLACER OR OTHER PLACEMENT TESTS.

Students who enroll in a **DEVELOPMENTAL OR CORE** course without meeting the requirements [[will]] **MAY** be withdrawn from the course through the faculty-initiated withdrawal process. Prerequisite courses [[and/or placement exams]] must be taken within [[one calendar year]] **TWO CALENDAR YEARS** prior to the commencement of **DEVELOPMENTAL AND LOWER-DIVISION CORE MATH COURSES** [[the course]]. Students may not enroll in Perspectives on the Human Condition courses unless they meet the placement requirements for English F111X (including reading). Students may not enroll in Core science classes unless they have placement at DEVM F105 or above and placement into English F111X.



The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsection A (page 13). This amendment updates a reference to one of the faculty unions in the Bylaws.

EFFECTIVE: Fall 2010

RATIONALE: The Bylaws refer to one of the faculty unions as ACCFT, or Alaska Community Colleges' Federation of Teachers. The name of this bargaining unit was changed in 2008 to UAFT, or University of Alaska Federation of Teachers.

16 March 2010

President, UAF Faculty Senate Date

****

CAPS and **Bolded** - Addition
[[ ]] = Deletion

Sect. 1 (ART III: Membership)

A. The membership of the Faculty Senate, hereinafter referred to as "Senate," shall consist of approximately 41 members plus one non-voting presiding officer. Approximately 35 members shall be elected by and from the faculty and will have voting privileges. Six non-voting members will be selected by and from other university constituencies as follows: one non-graduate student and one graduate student selected by the ASUAF; one professional school dean and one college dean selected by the Deans' Council; one staff representative from the registrar's office; and one additional staff member selected by the Staff Council. If the staff representative from the registrar's office is APT, the second staff member must come from the classified staff ranks. If the staff representative from the registrar's office is classified, the second staff member must be APT. Three additional non-voting members will be selected by and from the unions as follows: one elected official each from United Academics-AAUP/AFT, **UAFT** [[ACCFT]], Adjunct (United Academics)-AAUP/AFT.

The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, existing subsections B.1 and B.7 (page 13). This amendment addresses inconsistencies in the treatment of research institutes for the purpose of Faculty Senate representation.

EFFECTIVE: Fall 2010

RATIONALE: The current Bylaws make provision for the research institutes in apportionment calculations for Faculty Senate representation, but they do so with the assumption that the research institutes will not qualify for separate representation. Instead, the research institutes are collected into a "congolomerate group," as would be done with any schools and colleges that were too small to qualify for representation. However, based on 2008-2009 reapportionment calculations, several research institutes at UAF are now large enough to qualify for separate representation. The proposed amendments to the Bylaws acknowledge this, remove the assumption that the research institutes are too small for representation, and treat them in the same way as the schools and colleges.

18 March 2010

President, UAF Faculty Senate Date

****

CAPS and **BOLDED** = Addition

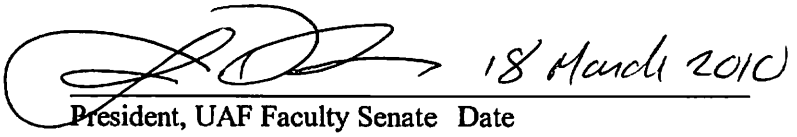
The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

MOTION:

The UAF Faculty Senate moves to amend the Bylaws of the University of Alaska Fairbanks Faculty Senate, Section 1, Article III: Membership, subsections B.2 through B.5 (page 13). This amendment removes the use of Full Time Faculty Equivalents (FTFE) in reapportionment calculations for Faculty Senate representation.



EFFECTIVE: Fall 2010

RATIONALE: The current bylaws for Faculty Senate reapportionment specify that each faculty member with at least a 75% faculty appointment will be counted as 1 Full Time Faculty Equivalent (FTFE), and those with less than 75% faculty appointment must be counted as a fractional FTFE calculated by their actual appointment divided by 75%.

The Bylaws specify this calculation in terms of hours of annual academic appointment. These data are not stored electronically anywhere at UAF, and they change annually with faculty workloads. Obtaining the data for this calculation requires a large investment of time and effort, as they must be compiled manually from faculty appointment letters. This procedure was followed for the 2008-2009 reapportionment calculation. The result was that this labor-intensive adjustment for faculty with less than 75% appointments made no difference in the apportionment of Senate representation among the units. With this amendment, the FTFE adjustment will be dropped from the reapportionment calculation and faculty will qualify for representation simply by holding academic rank or special academic rank.

Furthermore, dropping the use of FTFE adjustments, and instead counting each qualifying faculty member as one whole individual, helps to bring the apportionment procedure in line with the voting procedure in which each qualifying faculty member has one whole vote.

Regarding the new section numbers, note that a new section B.3 is proposed in a separate motion on split appointments.

3. Units with full-time permanent faculty based on other than the Fairbanks campus should elect Senate representatives in a number that is at least equal to the proportion of the non-Fairbanks based **QUALIFYING FACULTY** [[FTFEs]].

ORIGINAL GINAL

The following was passed at the March 5, 2010, Faculty Senate Meeting #165:

MOTION:

The UAF Faculty Senate moves to vote on the extension of the terms of the President and President Elect (Jon Dehn and Cathy Cahill) for one year.

Effective: Immediately

Rationale: The University of Alaska Fairbanks is at a unique point in its history, with a new Chancellor, a new approach to administration, accreditation compressed into two years and under a new set of guidelines, and upcoming financial challenges. Stability in Senate leadership for a single year could be an opportunity to establish a strong voice for the faculty in shared governance and provide consistent feedback to an administration facing difficult choices.

President, UAF Faculty Senate Date

Due to the concerns about the irregularity of the vote on Motion 165/1 on March 5, 2010, and in order to ensure that every Faculty Senator's voice was heard and the Faculty Senate Constitution followed, the Administrative Committee of the Faculty Senate requested that Senators vote again regarding the extension of the terms of President Jon Dehn and President-Elect Cathy Cahill. Voting occurred between March 31 and the morning of April 5, 2010. The results included 25 votes in favor of extending their terms, which was a two-thirds majority vote (as had occurred previously). There were eight votes not in favor of extending terms; and two abstentions.

13 April 2010

President, UAF Faculty Senate Date

ORIGINAL

The Faculty Senate passed the following motion at Meeting #163 on December 7, 2009:

MOTION:

The UAF Faculty Senate moves to approve a Minor in American Sign Language.

EFFECTIVE: Fall 2010

RATIONALE: See the program proposal #23-UNP on file in the Governance Office, 314 Signers' Hall.

Requires completion of 15 credits from the following: ASLG F101, ASLG F202, ASLG F203, ASLG F204, ASLG 205, and ASLG F110 (a 1-credit course that may be repeated for up to 3 credits).

****

Minor, American Sign Language

The objectives of the American Sign Language Department are to provide a depth and breadth of knowledge of the American Deaf culture and history. Each student will be proficient in their ability to sign clearly, to be understood and to comprehend native signers. Students of ASLG will have a greater understanding of diversity, and empathy for people with differing abilities. Critical thinking skills will be developed while acquiring signing skills in ASL. Students will be required to participate in community events and to fully develop an ethical responsibility to the community in which they live.

7 Dec 2009

President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 7 Dec 09

Chancellor's Office

DISAPPROVED: _____ DATE: _____

Chancellor's Office

Proposed Catalog Layout:

1. Complete a minimum of 15 credits from the following classes:*
   ASLG 101 – American Sign Language I - 3 credits
   ASLG 202 – American Sign Language II - 3 credits
   ASLG 203 – American Sign Language III - 3 credits
   ASLG 204 – American Sign Language IV - 3 credits
   ASLG 205 – American Sign Language V - 3 credits
   ASLG 110 – American Sign Language Practice - 1 credit – Can be repeated for up to 3 credits

2. Minimum credits required.....15

*Student must earn a C grade or better in each course.

Note: Courses designated as humanities that are taken for the minor may also be used to fulfill humanities distribution requirements for the B.A. degree. Courses that are taken for the minor may not be used to fulfill the core Perspectives requirements.

Program Justification and Impacts:

Creating a minor for American Sign Language will provide a more complete education for our students. We have students who are taking three or four of these ASLG classes who do not go on to take the final three to six credits as it is not listed as a minor. If students have the opportunity to get a minor by taking one or two more courses, this will provide an opportunity for the instructors to engage the students and for the students to interact with the deaf community, to work on projects within the community and to more fully develop an awareness of the American Deaf culture and history. This also provides an opportunity for ASLG students to complete their university education with a minor which otherwise might not be offered. We have had requests for an ASLG minor for years, and the current avenue is through petition only. The need for ASL teachers and interpreters is great in our community and will only continue to grow as the population grows. Having ASL available as a minor will help educators, students, employees, and the community in general.

The ASLG Department is a part of Academic Programs through TVC and does not currently impact any other departments. This change will only positively affect enrollment in that students who desire this minor will continue their coursework at UAF instead of leaving to attend other colleges that do currently offer this degree.

The following motion was **referred back to the Curricular Affairs Committee** at Meeting #163 on December 7, 2009:

MOTION:
=======

The UAF Faculty Senate moves to restrict Core natural science courses to those which possess hands-on laboratory experiences. Courses with virtual labs do not satisfy the requirement.

EFFECTIVE: Fall 2010

RATIONALE: Science is like swimming. You have to do it to be able to do it.

UAF REGULATIONS FOR THE APPOINTMENT AND EVALUATIONS OF FACULTY AND DEPARTMENT OF ***JOURNALISM*** CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS' CRITERIA FOR ANNUAL REVIEW, PRE-TENURE REVIEW, POST-TENURE REVIEW, PROMOTION, AND TENURE, SPECIFICALLY ADAPTED FOR USE IN EVALUATING THE FACULTY OF THE JOURNALISM DEPARMENT. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT'S FACULTY, AND BECAUSE THEY ARE ADDITIONS TO UAF REGULATIONS.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity ***AND PROFESSIONAL JOURNALISM, WHICH INCLUDES DOCUMENTARY FILM-MAKING, BROADCAST AND/OR NEW MEDIA PRODUCTION***; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. ***OTHER AREAS INCLUDE DEVELOPING INTERNSHIP OPPORTUNITIES FOR STUDENTS AND ASSISTANCE IN FINDING***

JOURNALISM GRADUATES EMPLOYMENT IN JOURNALISM, DOCUMENTARY FILM MAKING AND/OR AUDIO/VIDEO/WEB PRODUCTION.

Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design; ***INCLUDING CREATING OPPORTUNITIES FOR PUBLICATION OF CLASS/STUDENT MATERIAL IN PROFESSIONAL JOURNALISM, BROADCAST AND/OR NEW MEDIA OUTLETS***

g. may receive prizes and awards for excellence in teaching ***AND ADVISING.***

h. PUBLISHED (NEWSPAPERS, WEBSITES, BROADCAST OUTLETS, BLOGS) STUDENT MATERIAL

1. **Components of Evaluation**

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars ***OR PROFESSIONAL JOURNALISTS (WHICH INCLUDES WORK AS BROADCASTERS, NEW MEDIA SPECIALISTS AND/OR FILM MAKERS)***. Consequently, faculty are expected to conduct research or engage in other scholarly, ***PROFESSIONAL*** or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. ***THIS INCLUDES NEWSPAPERS, WEBSITES, TELEVISION AND RADIO STATIONS, MAGAZINES, FILM FESTIVALS AND FILM SCREENINGS.*** Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. ***CREATIVE EXCELLENCE IN JOURNALISM IS RECOGNIZED THROUGH BROADCAST, SCREENING AND/OR PUBLICATION BY ESTABLISHED MEDIA OUTLETS INCLUDING FILM SCREENINGS AND FILM FESTIVALS.***

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers. ***(BE PUBLISHED, BROADCAST, OR SHOWN BY RESPECTED ORGANIZATIONS AND/OR JOURNALISTIC ENTERPRISES)***.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts ***-INCLUDING ORAL HISTORIES (GRANT FUNDED PROJECTS THAT INCLUDE RESEARCH ON A PROMINENT FIGURE. EMPLOYEES, COLLEAGUES CONTEMPORARIES, AND THE SUBJECT ARE INTERVIEWED, THEN RECORDINGS OF THE INTERVIEWS AND BRIEF WRITTEN SUMMARIES ARE HOUSED IN THE RASMUSON LIBRARY AND/OR IN THE STATE ARCHIVES)-*** to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers ***OR BYLINES (A BYLINE SIGNIFIES AUTHORSHIP, RESEARCH AND OTHER ASSOCIATED WORK NEEDED TO COMPLETE A NEWS STORY OR PROGRAM) IN NEWSPAPERS, MAGAZINES, WEBSITES; BROADCAST TELEVISION OR RADIO STATIONS AND ACCEPTANCE OF WORK AT FILM FESTIVALS.***

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and

animal material, and where appropriate obtaining patents and/or copyrights for said development.

N. PRODUCING OR PARTICIPATING IN THE CREATION OF A RADIO, TV, FILM, AUDIO, VIDEO, MULTIMEDIA, OR DIDITAL MEDIA PROGRAM, SERIES, WEB PAGE(S) OR OTHER JOURNALISM-BASED PRODUCT.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

2. Professional Service

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations.

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

3. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

ORIGINAL

The Faculty Senate passed the following motion at Meeting #161 on October 12, 2009:

MOTION:

The UAF Faculty Senate Curricular Affairs Committee moves to establish a single website containing sample syllabi for UAF Courses. Departments will be requested and encouraged to provide syllabi to this website and to provide annual updates.

Effective: Immediately

Rationale: Being able to see how a given course has most recently been taught will be of immense value to students, advisors, and transfer evaluators. While the syllabi posted are unlikely to be identical to those actually presented on the first day of class, they are likely to enhance a reader's understanding of the specific content of a course.

ORIGINAL

The Faculty Senate passed the following motion at Meeting #161 on October 12, 2009:

MOTION:

The Faculty Senate moves that the following five themes be adopted to meet the requirements in Standard 1.B of the new accreditation standards (Draft 5.0, Sept. 1, 2009) of the Northwest Commission on Colleges and Universities:

- Educate: Undergraduate and Graduate Students
- Prepare: Alaska's Career and Technical Workforce
- Discover: Advance Research, Scholarship, and Creative Activity with an emphasis on the North and its peoples
- Connect: Alaska Native and Rural Communities and Traditional Knowledge
- Serve: Public Service, Lifelong Learning and Outreach Across Alaska

Effective: Immediately

Rationale: NWCCU requires in Standard 1.B, Core Themes that "the institution identifies core themes that individually manifest essential elements of its mission and collectively encompass its mission" (1.B.1). The proposed themes describe the major activities of the University and have been developed and articulated through a series of interactions over the past year with faculty, staff, and students. While they do not reflect everything that UAF does, they do convey the breadth and depth of UAF's activities. It is expected that additional activities of the University will be highlighted as objectives are developed for each theme according to Standard 1: "the institution establishes objectives for each of its core themes and identifies meaningful, assessable, and verifiable indicators of achievement that form the basis for evaluating achievement of those objectives". (1.B.2)

MEMORANDUM

DATE: September 10, 2009

TO: Jon Dehn, Faculty Senate President

FROM: Brian Rogers, Chancellor

RE: Faculty Senate Motion - Department of Mathematics and Statistics Unit Criteria

The Department of Mathematics and Statistics and I have agreed to rearrange the proposal approved by the Faculty Senate, which was in turn advanced to me for consideration. I am approving Faculty Senate's motion as rearranged, and ask for your ratification of that rearrangement. Attached are copies of the approved motion, with the rearranged proposal attached.

BDR

Attachment (as stated)

cc: Jayne Harvie, Faculty Senate Coordinator

ORIGINAL

The following was passed at the May 4, 2009 Faculty Senate Meeting #159:

MOTION:
=======

The UAF Faculty Senate moves to moves to reaffirm the Unit Criteria for the Department of Mathematics and Statistics.

EFFECTIVE: Fall 2009 and/or
Upon Chancellor's approval.

RATIONALE: The committee assessed the unit criteria submitted for review by the Department of Mathematics and Statistics. Following some changes agreed to by the department representative, the unit criteria were found to be consistent with UAF guidelines.

Marsha Sousa 5-4-09
President, UAF Faculty Senate Date

As rearranged by Mathematics and Statistics

APPROVAL: _____ DATE: 9-9-09
Chancellor's Office

As originally submitted

DISAPPROVED: _____ DATE: 9-9-09

University of Alaska Fairbanks

Regulations for the
Appointment And Evaluation Of Faculty

AND

DEPARTMENT OF MATHEMATICS AND STATISTICS UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS' CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING DEPARTMENT OF MATHEMATICS AND STATISTICS (DMS) FACULTY IN THE COLLEGE OF NATURAL SCIENCES AND MATHEMATICS. CAPITALIZED ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. IN ADDITION TO PROMOTION AND TENURE, THESE CRITERIA APPLY TO PRE-TENURE, POST-TENURE AND ANNUAL EVALUATIONS. THE DOCUMENT GOVERNS EVALUATION OF ALL UAF FACULTY WITH A PRIMARY LOCUS OF RESPONSIBILITIES IN DMS. IT IS NOTED THAT THESE CRITERIA MAY DIFFER FROM THOSE SUBMITTED BY THE COLLEGE OF NATURAL SCIENCES AND MATHEMATICS. THOSE REGULATIONS DO NOT APPLY.

CHAPTER I

PURVIEW

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

PERIODIC EVALUATION OF FACULTY

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, AND DMS UNIT CRITERIA, STANDARDS AND INDICES evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. THE DMS RECOGNIZES THE VALUE OF ACADEMIC AND SCHOLASTIC DIVERSITY. AS SUCH, THE UNIT DOES NOT REQUIRE EACH CANDIDATE DEMONSTRATE EQUAL STRENGTH IN EACH AREA OF TRIPARTITE RESPONSIBILITY. IN EACH AREA CANDIDATES WILL BE RANKED BY THE DMS PEER REVIEW COMMITTEE (PRC). THE PRC CONSISTS OF ALL TENURED MEMBERS OF THE DMS. MEMBERS OF THE PRC WHO ARE ON SABBATICAL OR OFF CAMPUS FOR EXTENDED PERIODS HAVE THE OPTION OF PARTICIPATING, BUT THIS IS NOT REQUIRED. MEMBERS OF THE COMMITTEE MAY ABSTAIN FROM VOTING, BUT ONLY IN ACCORDANCE WITH DMS OPERATING PROCEDURES. CANDIDATES WILL BE RANKED IN EACH CATEGORY OF RESPONSIBILITY ACCORDING TO THE FOLLOWING SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT AND UNACCEPTABLE.

THESE CORRELATE WITH CATEGORIES SOMETIMES USED BY THE UNIVERSITY WIDE COMMITTEE AS OUTLINED BELOW.

DMS		UNIVERSITY WIDE
OUTSTANDING	=	EXCELLENT
SUPERIOR	=	VERY GOOD
SATISFACTORY	=	GOOD
NEEDS IMPROVEMENT	=	SATISFACTORY
UNSATISFACTORY	=	UNSATISFACTORY

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

1. TENURE. A CANDIDATE FOR TENURE WILL BE JUDGED ON THE BASIS OF PERFORMANCE AND INDICATIONS OF POTENTIAL IN ALL APPLICABLE AREAS OF RESPONSIBILITY, WITH EMPHASIS PLACED ON THE INTERVAL SINCE THE LAST PROMOTION OR HIRE, WHICHEVER IS MOST RECENT. A CANDIDATE NEED NOT DEMONSTRATE EQUAL PERFORMANCE IN ALL THREE AREAS. IN ORDER TO QUALIFY FOR TENURE, A FACULTY MEMBER SHOULD HAVE DEMONSTRATED A SUSTAINED PERFORMANCE IN ALL THEIR AREAS OF RESPONSIBILITY. WHILE THERE IS NO OBJECTIVE DEFINITION OF "SUSTAINED" NOR IS THERE ANY REQUIREMENT FOR ANY LENGTH OF TIME AT ANY PARTICULAR RANK, A TYPICAL CANDIDATE FOR TENURE SHOULD NORMALLY HAVE SERVED AT LEAST FIVE YEARS AT THE RANK OF ASSISTANT PROFESSOR AT UAF OR ELSEWHERE. UNTENURED FACULTY SHOULD REFER TO THEIR COLLECTIVE BARGAINING AGREEMENT AND INITIAL APPOINTMENT LETTER REGARDING MANDATORY YEAR OF TENURE REVIEW. A SUCCESFUL CANDIDATE SHOULD ATTAIN AT LEAST A SATISFACTORY RATING IN TEACHING, RESEARCH AND SERVICE AND AT LEAST SUPERIOR IN TEACHING OR RESEARCH IN THE VOTE BY THE PRC AT THE TIME OF APPLICATION FOR TENURE.

2. ASSISTANT PROFESSOR. A FACULTY MEMBER AT THE ASSISTANT PROFESSOR LEVEL MUST HAVE AN EARNED DOCTORATE OR DEMONSTRATED EQUIVALENT. DEMONSTRATED EQUIVALENCE WILL BE DECIDED ON AN AD HOC BASIS BY THE PRC. A COMMITMENT TO TEACHING, RESEARCH AND SERVICE MUST BE APPARENT.

3. ASSOCIATE PROFESSOR. A RECORD OF QUALITY INSTRUCTION AND RESEARCH IS IMPORTANT.

4. PROFESSOR. THIS IS THE GREATEST SINGLE HONOR THAT THE UNIVERSITY CAN BESTOW UPON A MEMBER OF ITS FACULTY. THE HONOR MUST THEREFOR BE MADE UPON CAREFUL CONSIDERATION OF THE CANDIDATE'S TOTAL DEMONSTRATED CONTRIBUTION TO THE UNIVERSITY AND THE MATHEMATICAL SCIENCES. THE HONOR IS RESERVED FOR THOSE WHO HAVE DEMONSTRATED OUTSTANDING PERFORMANCE IN THEIR FIELDS, WHICH IS SUSTAINED OVER A SIGNIFICANT INTERVAL OF TIME. SPECIFICALLY, IN THE YEAR THE CANDIDATE APPLIES FOR PROMOTION TO PROFESSOR, A VOTE WILL BE TAKEN BY THE PRC. A SUCCESSFUL CANDIDATE MUST ATTAIN AN OVERALL AVERAGE RANKING OF SUPERIOR IN TEACHING, RESEARCH AND SERVICE, WITH NO AREA LOWER THAN SATISFACTORY. ADDITIONALLY, IF ONE OF RESEARCH OR TEACHING IS RANKED SATISFACTORY, THE OTHER MUST BE OUTSTANDING.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. THE DISSEMINATION OF IDEAS OUTSIDE THE CLASSROOM INCLUDES, BUT IS NOT RESTRICTED TO, STATISTICAL AND COMPUTING CONSULTING FOR STUDENTS; ASSISTING STUDENTS IN THE DESIGN OF EXPERIMENTS; DIRECTING UNDERGRADUATE AND GRADUATE RESEARCH. FURTHER, IT INCLUDES PRODUCTION OF TEXTBOOKS THAT ARE PRINCIPALLY INTENDED FOR CLASSROOM USE.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. **are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;**

b. **express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;**

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

H. DEMAND HIGH PEDAGOGIC STANDARDS ESSENTIAL TO THE DEPARTMENT'S MISSION.

I. ONE METRIC OF TEXTBOOK PERFORMANCE WILL BE ADOPTION IN CLASSROOMS EXTERNAL TO UAF.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s). THIS IS REQUIRED FOR UNTENURED FACULTY. THEY WILL BE EVALUATED BY THE PRC (THAT INCLUDES THE DEPARTMENT HEAD). THIS COMMITTEE WILL SEND REPRESENTATIVES TO EVALUATE CLASSROOM PERFORMANCE AS WELL AS SYLLABI AND SAMPLES OF GRADED MATERIAL. REPRESENTATIVES WILL WRITE A REPORT THAT INCLUDES A NARRATIVE PORTION AS WELL AS AN OVERALL RANKING OF TEACHING THAT USES THE SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT AND UNACCEPTABLE. WHEN A FACULTY MEMBER STANDS FOR TENURE, REPORTS FROM AT LEAST TWO YEARS SHOULD BE INCLUDED IN THE FILE, PROVIDED

THE FACULTY MEMBER HAS BEEN EMPLOYED AT LEAST THREE YEARS AT THE TIME OF APPLICATION FOR TENURE. IF THE CANDIDATE HAS BEEN EMPLOYED FOR AT LEAST ONE YEAR AT THE TIME OF APPLICATION FOR TENURE, THEN AT LEAST ONE REPORT FROM THE PRC SHOULD BE INCLUDED IN THE FILE. IN THE CASE OF DISAGREEMENT BETWEEN PEER OPINIONS AND STUDENT OPINIONS, THE FORMER WILL BE CONSIDERED TO BE MORE ACCURATE.

d. **peer/department chair evaluation of course materials.**

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. CANDIDATES AT ALL LEVELS MUST DEMONSTRATE ACHIEVEMENT CONDUCTING RESEARCH IN AN INDEPENDENT AND CREATIVE FASHION. WORK WILL BE JUDGED FOR IMPORTANCE, ORIGINALITY AND QUALITY. CONSIDERATION WILL INCLUDE, BUT NOT BE RESTRICTED TO, THE CANDIDATE'S PAPERS PUBLISHED IN REFEREED JOURNALS AND REFEREED CONFERENCE PROCEEDINGS, PAPERS, LECTURES AND PRESENTATIONS DELIVERED, OTHER PAPERS AND TECHNICAL REPORTS, BOOKS, RESEARCH PROPOSALS, SOFTWARE DEVELOPED AND RESEARCH DONE THROUGH CONSULTING. THE WORK MUST BE PRESENTED IN A PUBLIC FORUM WHERE ITS CONTRIBUTION CAN BE JUDGED BY PEERS EXTERNAL TO UAF. AS SUCH, NO CONSIDERATION WILL BE GIVEN TO RESEARCH THAT APPEARS IN NON-REFEREED PREPRINTS. NOR WILL WORK THAT IS DONE BY PRIVATE CONTRACTING BE CONSIDERED IF IT APPEARS ONLY IN INTERNAL COMPANY REPORTS. THE RESEARCH CONTRIBUTIONS FOUND IN A BOOK WILL BE BASED ON THE EXPOSITION OF NEW IDEAS. BOOKS THAT ONLY GATHER MATERIAL FOUND IN OTHER LOCATIONS WILL BE CONSIDERED TO BE EXPOSITORY AND NOT RESEARCH DOCUMENTS.

1. Achievement in Research, Scholarly and Creative Activity

   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. **They must occur in a public forum.**

   b. **They must be evaluated by appropriate peers.**

c. **They must be evaluated by peers external to this institution so as to allow an objective judgment.**

d. **They must be judged to make a contribution.**

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. **Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.**

b. **Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.**

c. **Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.**

d. **Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by PEERS, juries, recognized artists, or critics.**

e. **Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.**

f. **Editing or refereeing articles or proposals for professional journals or organizations.**

g. **Scholarly reviews of publications, art works and performance of the candidate.**

h. **Citations of research in scholarly publications.**

i. **Published abstracts of research papers.**

j. **Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.**

k. **Prizes and awards for excellence of scholarship.**

l. **Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.**

m. **Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where**

appropriate obtaining patents and/or copyrights for said development.

N. RESEARCH RESULTS SHOULD BE MEASURED BY QUALITY, IMAGINATION, LONG TERM IMPACT, DEPTH AND ORIGINALITY. THE DEPARTMENT EXPECTS FACULTY WITH A 30% RESEARCH LOAD TO BE PUBLISHING AT A RATE OF APPROXIMATELY ONE PAPER PER YEAR. AT A 50% LEVEL OR ABOVE THERE SHOULD BE APPROXIMATELY TWO. HOWEVER, IT SHOULD BE EMPHASIZED THAT THIS IS ONLY AN APPROXIMATE GOAL. THE MORE IMPORTANT GOAL IS QUALITY RESEARCH. HIGH QUALITY RESEARCH CAN BE PRODUCED AND DISSEMINATED IN SPECIAL CIRCUMSTANCES AT A LOWER RATE. ACCORDINGLY, CANDIDATES SHOULD NOT TRY TO MEET A RESEARCH TARGET IN TERMS OF NUMBER OF PAPERS PUBLISHED. FURTHER, HEAVY PRODUCTION RATES OF LOW QUALITY PUBLICATIONS IS DISCOURAGED.

O. A CANDIDATE'S PUBLICATION AND FUNDING RECORD SHOULD BE COMPARED WITH INDIVIDUALS IN THE SAME OR RELATED DISCIPLINES. THE PRACTICE OF LISTING COAUTHORS WHO HAVE CONTRIBUTED LITTLE TO A PUBLICATION IS UNCOMMON IN THE MATHEMATICAL SCIENCES. EXCEPT IN UNUSUAL CIRCUMSTANCES, EACH COAUTHOR WILL HAVE MADE A SIGNIFICANT CONTRIBUTION. COAUTHORS ARE OFTEN LISTED ALPHABETICALLY.

P. FOR DMS FACULTY CONDUCTING RESEARCH IN MATHEMATICS EDUCATION, APPROPRIATE RESEARCH PRODUCTS, IN ADDITION TO THOSE NOTED ABOVE, MAY ALSO INCLUDE DEVELOPMENT OF MATHEMATICAL CURRICULA THAT ARE INNOVATIVE AND BASED ON ORIGINAL RESEARCH. IN ADDITION TO JOURNALS INTENDED FOR THE RESEARCH COMMUNITY, DMS WILL ALSO VALUE PEER-REVIEWED JOURNALS INTENDED FOR THE BROADER EDUCATION RESEARCH COMMUNITY. THIS INCLUDES JOURNALS DEVOTED TO TEACHER PREPARATION AND PROFESSIONAL DEVELOPMENT AS WELL AS A READING AUDIENCE OF EDUCATION POLICYMAKERS, TEACHERS AND ADMINISTRATORS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge is identified as "public service." The tradition of the university itself

provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

PROFESSIONAL SERVICE INCLUDES, BUT IS NOT LIMITED TO, REFEREEING, JOURNAL WORK, SERVICE TO NATIONAL PROFESSIONAL ORGANIZATIONS, WORKING WITH TESTING ORGANIZATIONS TO DEVELOP STANDARDIZED EXAMS, EDITING FOR TEXTBOOK AND SCIENTIFIC PUBLISHERS, ORGANIZING CONFERENCES, IN-SERVICE TRAINING PROGRAMS, GIVING COLLOQUIUM LECTURES, REVIEWING PROPOSALS AND BOOKS. IT INCLUDES PRESENTATION OF EXPOSITORY MATERIAL INCLUDING EXPOSITORY TEXTS, WHICH ARE NOT PRIMARILY MEANT FOR CLASSROOM USE. OUTREACH TO EDUCATORS (E.G. OFFERING INSERVICE WORKSHOPS OR INSTITUTES FOR K-12 MATHEMATICS TEACHERS) IS ALSO APPROPRIATE PUBLIC SERVICE FOR DMS FACULTY.

Examples include, but are not limited to:

a. **Providing information services to adults or youth.**

b. **Service on or to government or public committees.**

c. **Service on accrediting bodies.**

d. **Active participation in professional organizations.**

e. **Active participation in discipline-oriented service organizations.**

f. **Consulting.**

g. **Prizes and awards for excellence in public service.**

h. **Leadership of or presentations at workshops, conferences, or public meetings.**

i. **Training and facilitating.**

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. **Service on university, college, school, institute, or departmental committees or governing bodies.**

b. **Consultative work in support of university functions, such as expert assistance for specific projects.**

c. **Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.**

d. **Participation in accreditation reviews.**

e. **Service on collective bargaining unit committees or elected office.**

f. **Service in support of student organizations and activities.**

g. **Academic support services such as library and museum programs.**

h. **Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.**

i. **Mentoring OF FACULTY.**

j. **Prizes and awards for excellence in university service.**

K. **SERVICE AS OUTSIDE REVIEWER ON UAF THESIS COMMITTEES.**

L. **PREPARATION OF UNIVERSITY REPORTS.**

3. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

RATIONALIZATION AND COMMENTARY

THE ABOVE PORTION OF THIS DOCUMENT IS MEANT TO OUTLINE THE PROCESS AND INDICES OF EVALUATION. WHAT FOLLOWS BELOW ARE A FEW REMARKS MEANT TO GIVE SOME EXPLAINATION TO THIS SCHEMATIC.

AT THE LEVEL OF ASSOCIATE PROFESSOR A RECORD OF QUALITY INSTRUCTION AND RESEARCH IS IMPORTANT. THE DMS RECOGNIZES THAT AT THIS LEVEL SERVICE IS SECONDARY TO TEACHING AND RESEARCH. THIS DOES NOT IMPLY SERVICE AT THIS LEVEL IS UNIMPORTANT. FACULTY NEW TO THE PROFESSION CAN PROFITABLY SPEND THEIR TIME ESTABLISHING A RESEARCH RECORD AND PERFECTING TEACHING TECHNIQUE.

DMS TAKES EXCEPTION WITH IDEAS FOUND IN CERTAIN QUARTERS ON SPECIFIC AND OBJECTIVE MEASURES OF IMPACT FACTORS. TO QUOTE FROM THE OCTOBER 2006 NOTICES OF THE AMERICAN MATHEMATICAL SOCIETY,

> "PEOPLE MISUSE THE IMPACT FACTOR BECASE THERE ARE NO EXPLICIT PRINCIPLES GOVERNING ITS INTERPRETATION. THE IMPACT FACTOR IS USED TO MEASURE THE VALUE OF THINGS FOR WHICH IT WAS NEVER INTENDED (ARTICLES AND AUTHORS, FOR EXAMPLE), AND IT IS USED TO MAKE FAULTY COMPARISONS BETWEEN UNLIKE OBJECTS, INCLUDING JOURNALS THEMSELVES...FOR DECADES, SCHOLARS HAVE COMPLAINED ABOUT THE MISUSE OF THE IMPACT FACTOR, AND THERE IS EXTENSIVE LITERATURE OF SUCH COMPLAINTS AND ADMONITIONS. BUT IN A WORLD GONE MAD WITH AN OBSESSION TO EVALUATE EVERYTHING 'OBJECTIVELY', IT IS NOT SURPRISING THAT DESPERATE AND SOMETIMES INCOMPETENT EVALUATORS USE A POORLY UNDERSTOOD, BUT EASILY CALCULATED, NUMBER TO COMFORT THEM."

DMS STRONGLY MAINTAINS THAT IN ADDITION TO ANY QUANTIFIED METRICS WE MUST ADD PERSONAL JUDGEMENT BY PRC AND OUTSIDE EVALUATORS. SCHOLARLY PEERS, SUBJECTIVE THOUGH THEY MAY BE, ARE THE BEST JUDGES OF QUALITY. MAKING SUCH DECISIONS IS HARD WORK BUT A NECESSARY RESPONSIBILITY OF EACH MEMBER OF THE PRC.

TO FURTHER UNDERSCORE THE ABOVE POINTS, WE QUOTE FROM A 2006 WHITE PAPER RELEASED BY THE AMERICAN MATHEMATICAL SOCIETY.

> "MATHEMATICS IS OFTEN CONSIDERED AS PART OF THE PHYSICAL AND NATURAL SCIENCES, BUT ITS PUBLICATION PRACTICES DIFFER FROM THESE OTHER DISCIPLINES IN SEVERAL FUNDAMENTAL WAYS.
>
> MATHEMATICIANS TEND TO PUBLISH AT RATES THAT ARE MODEST COMPARED TO SOME OTHER SCIENCES. THE

MAJORITY OF MATHEMATICAL RESEARCH IS PUBLISHED IN REFEREED RESEARCH JOURNALS RATHER THAN CONFERENCE PROCEEDINGS OR BOOKS. THE MATHEMATICAL LITERATURE IS SPREAD AMONG A WIDER COLLECTION OF JOURNALS THAN IN MOST RELATED FIELDS. AND, SINCE AN ARTICLE TYPICALLY REPRESENTS A MATURE TREATISE ON A MATHEMATICAL QUESTION, AND SINCE MATHEMATICS RESEARCH IS NOT CONSIDERED TIME-SENSITIVE, DELAYS IN PUBLICATION ARE COMMON.

EVEN SOME OF THE BEST YOUNG MATHEMATICIANS PUBLISH RELATIVELY FEW PAPERS. A STUDY OF THE 40 MATHEMATICIANS WINNING SLOAN FELLOWSHIPS IN 2005-2006 SHOWS THAT 70% PUBLISH AN AVERAGE OF TWO OR FEWER ARTICLES PER YEAR IN THE FIVE YEARS PRECEDING THEIR AWARD. THESE TWO GROUPS REPRESENT AN EXCEPTIONAL GROUP OF HIGHLY PRODUCTIVE MATHEMATICIANS.

OF THE 274 PUBLICATIONS BY THESE GUGGENHEIM FELLOWS, 75% WERE IN REFEREED JOURNALS. ONLY THREE PUBLICATIONS WERE BOOKS. IN FACT, OF ALL ITEMS COVERED BY MATHEMATICAL REVIEWS IN THE YEARS 2001-2005, FULLY 80% WERE FROM REFEREED JOURNALS.

WHEN JUDGING THE WORK OF MOST MATHEMATICIANS, THE KEY MEASURE OF VALUE FOR A RESEARCH PROGRAM IS THE QUALITY OF PUBLICATIONS RATHER THAN RATE. THE INFORMATION ABOVE ABOUT THOSE WHO HAVE WON PRESTIGIOUS AWARDS STRONGLY SUPPORTS THIS VIEW"

CERTAIN DISCIPLINES FOUND IN MATHEMATICAL SCIENCES HAVE LITTLE OPPORTUNITY IN THE WAY OF EXTERNAL FUNDING. ACCORDINGLY, THE ABILITY TO FIND FUNDING SPEAKS WELL FOR A CANDIDATE AT ANY LEVEL. HOWEVER, ABSENCE OF FUNDING MAY NOT NECESSARILY SPEAK AGAINST THE CANDIDATE. DMS DOES NOT CONSIDER THE FUNDING OF GRANT PROPOSALS TO BE THE GOAL OF ANY RESEARCH PROJECT. RATHER, WE FOCUS ON WHAT IS ACHIEVED WITH OR WITHOUT RESEARCH FUNDING.

TO SUMMARIZE, THE PRIMARY RESEARCH METRIC IS NOT NUMBER OF PUBLICATIONS, NOR NUMBER OF CITATIONS, NOR QUANTITY OF GRANT MONEY. IT IS RESEARCH RESULTS AS MEASURED BY QUALITY, IMAGINATION, LONG TERM IMPACT, DEPTH AND ORIGINALITY.

The UAF Faculty Senate Administrative Committee passed the following at its meeting May 13, 2009:

MOTION:

The UAF Faculty Senate moves to recommend that University President Mark Hamilton forgo an international search for the chancellor of the University of Alaska Fairbanks and appoint Interim Chancellor Brian Rogers to the position of chancellor.

EFFECTIVE: Immediately

RATIONALE: Brian Rogers has performed admirably as the interim chancellor of the University of Alaska Fairbanks during the last year. Upon Interim Chancellor Roger's appointment, President Hamilton informed the Faculty Senate that after a one year period he would seek faculty input on whether to hold an international search for a chancellor, or to appoint Brian Rogers. This motion is the answer to the President's inquiry.

The position of chancellor at UAF is arguably one of the hardest jobs in the UA system, and requires a broad knowledge of the State of Alaska and the Interior and the complexities of this unique university system, as well as political acumen. Given that he is a life-long Alaskan, a UAF alumnus, and an adjunct professor, having served as a UA regent and the chair of the Board of Regents, a UAF vice-president as well as a state legislator and local business leader, Brian Rogers is in a unique position to guide the University of Alaska Fairbanks through the coming years.

In his first year, essentially a prolonged job interview, Interim Chancellor Rogers has addressed many of the issues which plagued his predecessors. He began by gathering a list of problems and assets through a series of transition teams involving faculty and staff to get him up to speed with current UAF issues. He has formed committees to address many of the specific problems, and included all stakeholders from students to faculty to staff to alumni. Interim Chancellor Rogers has also taken measured steps to re-organize administration and keep costs down. He is a supporter of shared governance and attended every Faculty Senate meeting, either in person or via teleconference. The policies and plans implemented by Interim Chancellor Rogers have not been based on the two year appointment but have been targeted at the long term goals for UAF.

It is unlikely in the extreme that an international search could come up with a competitive candidate to Interim Chancellor Rogers with his 30 years of experience in the UA system. In addition, the time spent searching for a new

chancellor, bringing the new chancellor to Fairbanks, and educating a new chancellor about the intricacies of the UAF system would mean that a new chancellor would not be prepared in time to assist in the arduous upcoming accreditation process or keep UAF moving forward in the face of ongoing budgetary challenges. In lieu of a search, the majority of the faculty feel that the time is better spent allowing Brian Rogers to move toward his vision of the University of Alaska Fairbanks with the full authority of the office of the chancellor.

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: ANNUAL REVIEW, PRE-AND POST-TENURE, PROMOTION, TENURE REVIEW

AND

SCHOOL OF NATURAL RESOURCES AND AGRICULTURAL SCIENCES/AGRICULTRAL AND FORESTRY EXPERIMENT STATION UNIT CRITERIA, STANDARDS, AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND BOARD OF REGENTS (BOR) CRITERIA FOR ANNUAL REVIEW, PRE- AND POST-TENURE, PROMOTION, AND TENURE REVIEW, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING FACULTY IN THE SCHOOL OF NATURAL RESOURCES AND AGRICULTURAL SCIENCES (SNRAS)/AGRICULTURAL AND FORESTRY EXPERIMENT STATION (AFES). ITEMS IN BOLDFACE CAPITAL LETTERS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO SNRAS/AFES FACULTY, AND BECAUSE THEY ARE ADDITIONS AND CLARIFICATIONS TO UAF REGULATIONS.

I. Purview.

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies", supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The Provost is responsible for coordination and implementation of matters relating to procedures stated herein.

II. EVALUATION OF FACULTY

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies" Chapter IV **AND SNRAS/AFES UNIT CRITERIA, STANDARDS, AND INDICES,** evaluators may consider, but shall not be limited to, whichever of the following are

appropriate to the faculty members' professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service. **EVALUATIONS SHOULD BE CONSISTENT WITH AN INDIVIDUAL FACULTY MEMBER'S JOB DESCRIPTION AND WORKLOAD ASSIGNMENT. THIS APPLIES TO TENURED AND TENURE-TRACK FACULTY AND TO NON-TENURE TRACK FACULTY SUCH AS RESEARCH FACULTY.**

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers **WILL DEMONSTRATE THE FOLLOWING CHARACTERISTICS PERTINENT TO THEIR WORKLOAD ASSIGNMENT**:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity, **CREATE AN ATMOSPHERE OF OPENNESS IN THE CLASSROOM THAT ENCOURAGES STUDENTS TO FREELY EXPRESS THEIR OWN IDEAS AND VIEWPOINTS**;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design, **INCLUDING WEB-BASED MATERIALS AND DISTANCE-DELIVERY TEACHING;**

g. may receive prizes and awards for excellence in teaching;

h. **DEMONSTRATE THOROUGH UNDERSTANDING OF UAF AND SNRAS ACADEMIC REQUIREMENTS IN ORDER TO FACILITATE EFFECTIVE ADVISING AND MENTORING OF INDIVIDUAL STUDENTS DURING THE TERM OF THEIR DEGREE PROGRAM. EVALUATIONS WILL BE BASED ON RESPONSES FROM STUDENTS AT EXIT INTERVIEWS OR TO SURVEY QUESTIONS.**

i. **DEMONSTRATE EFFECTIVE SERVICE AS MAJOR ADVISOR OR MEMBER OF SENIOR THESIS AND GRADUATE COMMITTEES;**

j. **PROMOTE UNDERGRADUATE STUDENT INVOLVEMENT IN FACULTY SCHOLARLY PROJECTS.**

SPECIFIC SNRAS/AFES CRITERIA FOR TEACHING PERFORMANCE:

<u>ASSISTANT PROFESSOR</u>: EVIDENCE OF HIGH QUALITY TEACHING AND A COMMITMENT TO A QUALITY TEACHING PROGRAM IN THE DEPARTMENT AS DEMONSTRATED THROUGH PEER, DEPARTMENT, AND/OR STUDENT TEACHING EVALUATION.

<u>ASSOCIATE PROFESSOR</u>: EVIDENCE OF THE EXPECTED QUALITY OF INSTRUCTIONAL PERFORMANCE MAY INCLUDE (BUT IS NOT LIMITED TO) SUPERIOR CLASSROOM TEACHING AS DEOMONSTRATED BY TEACHING EVALUATIONS, COURSE AND/OR CURRICULUM DEVELOPMENT INCLUDING CONTEMPORARY AND RELEVANT MATERIAL THAT STIMULATES THE LEARNING PROCESS, NOVEL APPROACHES TO INSTRUCTION AND USE OF ASSIGNMENTS, AND EFFECTIVE GUIDING AND MENTORING OF INDIVIDUAL STUDENTS.

<u>PROFESSOR</u>: MAJOR CONTRIBUTIONS TO THE INSTRUCTIONAL PROGRAM ARE EXPECTED. THESE CONTRIBUTIONS MAY INCLUDE (BUT ARE NOT LIMITED TO) EXCELLENT CLASSROOM TEACHING AS

DEMONSTRATED BY TEACHING EVALUATIONS, MAJOR IMPROVEMENTS IN COURSE AND/OR CURRICULUM OFFERINGS, UPGRADING OF INSTRUCTIONAL TECHNIQUES, ABILITY TO MOTIVATE AND/OR INSPIRE STUDENTS. MUST PROVIDE EVIDENCE OF EXCELLENCE IN TRAINING AND MENTORING OF GRADUATE STUDENTS FOR FACULTY IN PROGRAMS THAT GRANT GRADUATE DEGREES.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

   a. systematic student ratings, i.e. student opinion of instruction summary forms, *and clientele response for extension of educational materials to constituents outside the University (if available),* **and** at least two of the following:

   b. narrative self-evaluation.

   c. peer/department chair classroom observations.

   d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

RESEARCHERS WHO RECEIVE FEDERAL AND STATE FORMULA FUNDS (SUCH AS HATCH AND MACINTIRE-STENNIS FUNDS) THROUGH THE AGRICULTURAL AND FORESTRY EXPERIMENT STATION (AFES) HAVE A SPECIAL MISSION TO CONDUCT RESEARCH WITH DIRECT APPLICATION TO GOVERNMENT AGENCIES, PRIVATE BUSINESSES, AGRICULTURAL AND FORESTRY PRODUCERS, NATURAL RESOURCE MANAGERS, EDUCATORS, AND OTHER RESEARCHERS IN ALASKA. THIS IS A FUNDAMENTAL OBLIGATION OF THE AFES TO THE PEOPLE OF ALASKA. EACH FACULTY MEMBER SO FUNDED IS EXPECTED TO DISSEMINATE THE RESULTS OF THEIR RESEARCH IN ACTIVITIES SUCH AS AFES PEER REVIEWED PUBLICATIONS, WORKSHOPS, SEMINARS, CONFERENCES, NEWSLETTERS, AND FORUMS DIRECTED SPECIFICALLY AT END

USERS, AS WELL AS IN APPROPRIATE JOURNALS, CONFERENCES, AND REPORTS TO THE FUNDING AGENCIES.

1. Achievement in Research, Scholarly, and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings, **ELECTRONIC JOURNALS, INTERACTIVE ELECTRONIC PUBLICATIONS, MAPS**, PHOTOGRAPHS and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline AND EXTERNAL TO UAF.

b. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art works at galleries; selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts; these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs, **SOPHISTICATED COMPUTER MODELS THAT HELP IN THE UNDERSTANDING OF COMPLEX SYSTEMS,** and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. **PEER-REVIEWED PUBLICATIONS INTERNAL TO UAF, PUBLISHED BY AFES OR CES, INCLUDING CIRCULARS, BULLETINS, RESEARCH PROGRESS REPORTS, AND MISCELLANEOUS PUBLICATIONS.**

SPECIFIC SNRAS/AFES CRITERIA FOR RESEARCH PERFORMANCE:

ASSISTANT PROFESSOR: EVIDENCE OF THE ABILITY TO ESTABLISH A VIABLE RESEARCH PROGRAM IN THE AREA OF SPECIALIZATION AND SHOW CREATIVITY AND PRODUCTIVITY IN RESEARCH.

ASSOCIATE PROFESSOR: MUST HAVE ESTABLISHED A RESEARCH PROGRAM THAT PRODUCES ORIGINAL PUBLICATIONS IN THE PEER-REVIEWED OR EDITORIAL BOARD REVIEWED, LITERATURE. DEMONSTRATED RECORD OF PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS, SUBMISSION OF RESEARCH PROPOSALS, AND ACQUISITION OF EXTERNAL RESEARCH FUNDING.

PROFESSOR: DEMONSTRATE CONTINUED EXCELLENT RECORD OF PRESENTATION OF RESEARCH RESULTS AT PROFESSIONAL MEETINGS, SUBMISSION OF RESEARCH PROPOSALS, AND ACQUISITION OF EXTERNAL RESEARCH FUNDING. THE RESEARCH PROGRAM SHOULD HAVE PRODUCED HIGH IMPACT, ORIGINAL PUBLICATIONS IN THE PROFESSIONAL LITERATURE. THERE SHOULD BE A RECORD OF GRADUATE INVOLVEMENT FOR FACULTY IN PROGRAMS THAT GRANT GRADUATE DEGREES.

D. Criteria for Public and University Service and PROFESSIONAL SERVICE

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly activity and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. **PUBLIC SERVICE INCLUDES COOPERATION WITH AGENCIES ADMINISTERING NATURAL RESOURCE POLICIES, PUBLIC EDUCATION, AND RESPONSE TO THE PROBLEMS OF LOCAL INDUSTRY, AGRICULTURAL AND FORESTRY PRODUCERS, AND THE ALASKAN PUBLIC.**

Examples include, but are not limited to:

a. Providing information services to adults and youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. **UNPAID** Consulting, **ONE ON ONE CONSULTATION WITH CLIENTELE, SITE VISITATIONS TO AGENCIES, FARMS, AND PRODUCTION FACILITIES FOR PROBLEM-SOLVING CONSULTATION.**

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at **CLIENTELE-ORIENTED** workshops, conferences, or public meetings, FIELD DAYS, CONFERENCES, AND TOURS.

i. Training and facilitating **IN ONE'S DISCIPLINE IN WAYS TO BENEFIT CLIENTELE OR THE GENERAL PUBLIC**.

j. Radio and TV programs **AND INTERVIEWS**, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. **ACTIVE PARTICIPATION IN CONSTITUENCY ORGANIZATIONS.**

m. **USER ORIENTED PRESENTATIONS AT WORKSHOPS, FIELD DAYS, CONFERENCES, AND TOURS,.**

n. **PRODUCTION OF FACT SHEETS AND EXTENSION PUBLICATIONS FOR GENERAL INFORMATION.**

o. **PARTICIPATION IN K-12 OUTREACH PROGRAMS SUCH AS GLOBE, MAP TEACH, MATH IN A CULTURAL CONTEXT, SCHOOL-YARD LTER , ALASKA RURAL RESEARCH PARTNERSHIPS, AND RELATED PROGRAMS..**

p. **PRESENTATIONS OUTSIDE ONE'S SPECIALTY BUT OF A PROFESSIONAL NATURE IN PUBLIC FORUMS SUCH AS COMMUNITY GROUPS, PROFESSIONAL GROUPS, GOVERNMENT BODIES, AND RELATED FORUMS, SUCH AS MEETINGS OF CIVIC ORGANIZATIONS.**

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activities include, but are not limited to;

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accrediting reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring **NEW FACULTY**.

j. Prizes and awards for excellence in university service.

3. **PROFESSIONAL SERVICE**

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations **AND PROFESSIONAL MEETINGS, INCLUDING COMMITTEE CHAIR OR OFFICER OF PROFESSIONAL ORGANIZATIONS, SESSION ORGANIZER OR MODERATOR FOR PROFESSIONAL MEETINGS, AND RELATED ACTIVITIES**

c. Active participation in discipline-oriented service organizations.

4. Evaluation of Service

Each faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individuals units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public, university, and **PROFESSIONAL** service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards**, INVITATIONS TO SPEAK AT CLIENTELE MEETINGS/CONFERENCES**, and other public means of recognition for services rendered.

ASSISTANT PROFESSOR: SHOULD EMPHASIZE PUBLIC SERVICE, LIMITED UNIVERSITY SERVICE, AND PROFESSIONAL SERVICE IN ACCORDANCE WITH DISCIPLINE STANDARDS AND INDIVIDUAL WORKLOAD.

ASSOCIATE PROFESSOR: CONTRIBUTIONS TO THE DEPARTMENT AND THE UNIVERSITY, CONTRIBUTIONS TO THE PUBLIC IN THE FACULTY MEMBER'S AREA OF EXPERTISE, AND SERVICE TO THE FACULTY MEMBER'S PROFESSION ARE EXPECTED.

PROFESSOR: EVIDENCE OF LEADERSHIP IN THE SERVICE AREA IS EXPECTED AND MAY INCLUDE, BUT IS NOT LIMITED TO, SERVICE

AS COMMITTEE CHAIR, SESSION ORGANIZER, OFFICER OF PROFESSIONAL ORGANIZATIONS. EVIDENCE OF EXCELLENT CONTRIBUTIONS TO THE DEVELOPMENT OF DEPARTMENTAL AND/OR UNIVERSITY PROGRAMS AND EXCELLENT APPLICATION OF PROFESSIONAL EXPERTISE TO PROFESSIONAL OR PUBLIC PROCESSES AND ORGANIZATIONS.

MEMORANDUM

DATE: September 10, 2009

TO: Jon Dehn, Faculty Senate President

FROM: Brian Rogers, Chancellor

RE: Faculty Senate Motion - Department of Mathematics and Statistics Unit Criteria

The Department of Mathematics and Statistics and I have agreed to rearrange the proposal approved by the Faculty Senate, which was in turn advanced to me for consideration. I am approving Faculty Senate's motion as rearranged, and ask for your ratification of that rearrangement. Attached are copies of the approved motion, with the rearranged proposal attached.

BDR

Attachment (as stated)

cc: Jayne Harvie, Faculty Senate Coordinator

dlm/memoDehnmathunitcriteriarearrangement

ORIGINAL

The following was passed at the May 4, 2009 Faculty Senate Meeting #159:

MOTION:
=======

The UAF Faculty Senate moves to moves to reaffirm the Unit Criteria for the Department of Mathematics and Statistics.

EFFECTIVE: Fall 2009 and/or
Upon Chancellor's approval.

RATIONALE: The committee assessed the unit criteria submitted for review by the Department of Mathematics and Statistics. Following some changes agreed to by the department representative, the unit criteria were found to be consistent with UAF guidelines.

Marsha Sousa 5-4-09
President, UAF Faculty Senate Date

As rearranged by Mathematics and Statistics

APPROVAL: _____ DATE: 9-9-09
Chancellor's Office

As originally submitted

DISAPPROVED: _____ DATE: 9-9-09
Chancellor's Office

University of Alaska Fairbanks

Regulations for the
Appointment And Evaluation Of Faculty

AND

DEPARTMENT OF MATHEMATICS AND STATISTICS UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS' CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING DEPARTMENT OF MATHEMATICS AND STATISTICS (DMS) FACULTY IN THE COLLEGE OF NATURAL SCIENCES AND MATHEMATICS. CAPITALIZED ITEMS IN BOLDFACE ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. IN ADDITION TO PROMOTION AND TENURE, THESE CRITERIA APPLY TO PRE-TENURE, POST-TENURE AND ANNUAL EVALUATIONS. THE DOCUMENT GOVERNS EVALUATION OF ALL UAF FACULTY WITH A PRIMARY LOCUS OF RESPONSIBILITIES IN DMS. IT IS NOTED THAT THESE CRITERIA MAY DIFFER FROM THOSE SUBMITTED BY THE COLLEGE OF NATURAL SCIENCES AND MATHEMATICS. THOSE REGULATIONS DO NOT APPLY.

CHAPTER I

PURVIEW

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

INITIAL APPOINTMENT OF FACULTY

A. Criteria for Initial Appointment
Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles
Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank
Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank
Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process
The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment
The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

PERIODIC EVALUATION OF FACULTY

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, AND DMS UNIT CRITERIA, STANDARDS AND INDICES evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university. THE DMS RECOGNIZES THE VALUE OF ACADEMIC AND SCHOLASTIC DIVERSITY. AS SUCH, THE UNIT DOES NOT REQUIRE EACH CANDIDATE DEMONSTRATE EQUAL STRENGTH IN EACH AREA OF TRIPARTITE RESPONSIBILITY. IN EACH AREA CANDIDATES WILL BE RANKED BY THE DMS PEER REVIEW COMMITTEE (PRC). THE PRC CONSISTS OF ALL TENURED MEMBERS OF THE DMS. MEMBERS OF THE PRC WHO ARE ON SABBATICAL OR OFF CAMPUS FOR EXTENDED PERIODS HAVE THE OPTION OF PARTICIPATING, BUT THIS IS NOT REQUIRED. MEMBERS OF THE COMMITTEE MAY ABSTAIN FROM VOTING, BUT ONLY IN ACCORDANCE WITH DMS OPERATING PROCEDURES. CANDIDATES WILL BE RANKED IN EACH CATEGORY OF RESPONSIBILITY ACCORDING TO THE FOLLOWING SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT AND UNACCEPTABLE.

THESE CORRELATE WITH CATEGORIES SOMETIMES USED BY THE UNIVERSITY WIDE COMMITTEE AS OUTLINED BELOW.

DMS		UNIVERSITY WIDE
OUTSTANDING	=	EXCELLENT
SUPERIOR	=	VERY GOOD
SATISFACTORY	=	GOOD
NEEDS IMPROVEMENT	=	SATISFACTORY
UNSATISFACTORY	=	UNSATISFACTORY

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

1. TENURE. A CANDIDATE FOR TENURE WILL BE JUDGED ON THE BASIS OF PERFORMANCE AND INDICATIONS OF POTENTIAL IN ALL APPLICABLE AREAS OF RESPONSIBILITY, WITH EMPHASIS PLACED ON THE INTERVAL SINCE THE LAST PROMOTION OR HIRE, WHICHEVER IS MOST RECENT. A CANDIDATE NEED NOT DEMONSTRATE EQUAL PERFORMANCE IN ALL THREE AREAS. IN ORDER TO QUALIFY FOR TENURE, A FACULTY MEMBER SHOULD HAVE DEMONSTRATED A SUSTAINED PERFORMANCE IN ALL THEIR AREAS OF RESPONSIBILITY. WHILE THERE IS NO OBJECTIVE DEFINITION OF "SUSTAINED" NOR IS THERE ANY REQUIREMENT FOR ANY LENGTH OF TIME AT ANY PARTICULAR RANK, A TYPICAL CANDIDATE FOR TENURE SHOULD NORMALLY HAVE SERVED AT LEAST FIVE YEARS AT THE RANK OF ASSISTANT PROFESSOR AT UAF OR ELSEWHERE. UNTENURED FACULTY SHOULD REFER TO THEIR COLLECTIVE BARGAINING AGREEMENT AND INITIAL APPOINTMENT LETTER REGARDING MANDATORY YEAR OF TENURE REVIEW. A SUCCESFUL CANDIDATE SHOULD ATTAIN AT LEAST A SATISFACTORY RATING IN TEACHING, RESEARCH AND SERVICE AND AT LEAST SUPERIOR IN TEACHING OR RESEARCH IN THE VOTE BY THE PRC AT THE TIME OF APPLICATION FOR TENURE.

2. ASSISTANT PROFESSOR. A FACULTY MEMBER AT THE ASSISTANT PROFESSOR LEVEL MUST HAVE AN EARNED DOCTORATE OR DEMONSTRATED EQUIVALENT. DEMONSTRATED EQUIVALENCE WILL BE DECIDED ON AN AD HOC BASIS BY THE PRC. A COMMITMENT TO TEACHING, RESEARCH AND SERVICE MUST BE APPARENT.

3. ASSOCIATE PROFESSOR. A RECORD OF QUALITY INSTRUCTION AND RESEARCH IS IMPORTANT.

4. PROFESSOR. THIS IS THE GREATEST SINGLE HONOR THAT THE UNIVERSITY CAN BESTOW UPON A MEMBER OF ITS FACULTY. THE HONOR MUST THEREFOR BE MADE UPON CAREFUL CONSIDERATION OF THE CANDIDATE'S TOTAL DEMONSTRATED CONTRIBUTION TO THE UNIVERSITY AND THE MATHEMATICAL SCIENCES. THE HONOR IS RESERVED FOR THOSE WHO HAVE DEMONSTRATED OUTSTANDING PERFORMANCE IN THEIR FIELDS, WHICH IS SUSTAINED OVER A SIGNIFICANT INTERVAL OF TIME. SPECIFICALLY, IN THE YEAR THE CANDIDATE APPLIES FOR PROMOTION TO PROFESSOR, A VOTE WILL BE TAKEN BY THE PRC. A SUCCESSFUL CANDIDATE MUST ATTAIN AN OVERALL AVERAGE RANKING OF SUPERIOR IN TEACHING, RESEARCH AND SERVICE, WITH NO AREA LOWER THAN SATISFACTORY. ADDITIONALLY, IF ONE OF RESEARCH OR TEACHING IS RANKED SATISFACTORY, THE OTHER MUST BE OUTSTANDING.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities. THE DISSEMINATION OF IDEAS OUTSIDE THE CLASSROOM INCLUDES, BUT IS NOT RESTRICTED TO, STATISTICAL AND COMPUTING CONSULTING FOR STUDENTS; ASSISTING STUDENTS IN THE DESIGN OF EXPERIMENTS; DIRECTING UNDERGRADUATE AND GRADUATE RESEARCH. FURTHER, IT INCLUDES PRODUCTION OF TEXTBOOKS THAT ARE PRINCIPALLY INTENDED FOR CLASSROOM USE.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. **are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;**

b. **express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;**

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

H. DEMAND HIGH PEDAGOGIC STANDARDS ESSENTIAL TO THE DEPARTMENT'S MISSION.

I. ONE METRIC OF TEXTBOOK PERFORMANCE WILL BE ADOPTION IN CLASSROOMS EXTERNAL TO UAF.

2. Components of Evaluation
Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s). THIS IS REQUIRED FOR UNTENURED FACULTY. THEY WILL BE EVALUATED BY THE PRC (THAT INCLUDES THE DEPARTMENT HEAD). THIS COMMITTEE WILL SEND REPRESENTATIVES TO EVALUATE CLASSROOM PERFORMANCE AS WELL AS SYLLABI AND SAMPLES OF GRADED MATERIAL. REPRESENTATIVES WILL WRITE A REPORT THAT INCLUDES A NARRATIVE PORTION AS WELL AS AN OVERALL RANKING OF TEACHING THAT USES THE SCALE: OUTSTANDING, SUPERIOR, SATISFACTORY, NEEDS IMPROVEMENT AND UNACCEPTABLE. WHEN A FACULTY MEMBER STANDS FOR TENURE, REPORTS FROM AT LEAST TWO YEARS SHOULD BE INCLUDED IN THE FILE, PROVIDED

THE FACULTY MEMBER HAS BEEN EMPLOYED AT LEAST THREE YEARS AT THE TIME OF APPLICATION FOR TENURE. IF THE CANDIDATE HAS BEEN EMPLOYED FOR AT LEAST ONE YEAR AT THE TIME OF APPLICATION FOR TENURE, THEN AT LEAST ONE REPORT FROM THE PRC SHOULD BE INCLUDED IN THE FILE. IN THE CASE OF DISAGREEMENT BETWEEN PEER OPINIONS AND STUDENT OPINIONS, THE FORMER WILL BE CONSIDERED TO BE MORE ACCURATE.

d. **peer/department chair evaluation of course materials.**

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere. CANDIDATES AT ALL LEVELS MUST DEMONSTRATE ACHIEVEMENT CONDUCTING RESEARCH IN AN INDEPENDENT AND CREATIVE FASHION. WORK WILL BE JUDGED FOR IMPORTANCE, ORIGINALITY AND QUALITY. CONSIDERATION WILL INCLUDE, BUT NOT BE RESTRICTED TO, THE CANDIDATE'S PAPERS PUBLISHED IN REFEREED JOURNALS AND REFEREED CONFERENCE PROCEEDINGS, PAPERS, LECTURES AND PRESENTATIONS DELIVERED, OTHER PAPERS AND TECHNICAL REPORTS, BOOKS, RESEARCH PROPOSALS, SOFTWARE DEVELOPED AND RESEARCH DONE THROUGH CONSULTING. THE WORK MUST BE PRESENTED IN A PUBLIC FORUM WHERE ITS CONTRIBUTION CAN BE JUDGED BY PEERS EXTERNAL TO UAF. AS SUCH, NO CONSIDERATION WILL BE GIVEN TO RESEARCH THAT APPEARS IN NON-REFEREED PREPRINTS. NOR WILL WORK THAT IS DONE BY PRIVATE CONTRACTING BE CONSIDERED IF IT APPEARS ONLY IN INTERNAL COMPANY REPORTS. THE RESEARCH CONTRIBUTIONS FOUND IN A BOOK WILL BE BASED ON THE EXPOSITION OF NEW IDEAS. BOOKS THAT ONLY GATHER MATERIAL FOUND IN OTHER LOCATIONS WILL BE CONSIDERED TO BE EXPOSITORY AND NOT RESEARCH DOCUMENTS.

1. Achievement in Research, Scholarly and Creative Activity

   Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

   a. **They must occur in a public forum.**

   b. **They must be evaluated by appropriate peers.**

c. **They must be evaluated by peers external to this institution so as to allow an objective judgment.**

d. **They must be judged to make a contribution.**

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. **Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.**

b. **Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.**

c. **Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.**

d. **Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by PEERS, juries, recognized artists, or critics.**

e. **Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.**

f. **Editing or refereeing articles or proposals for professional journals or organizations.**

g. **Scholarly reviews of publications, art works and performance of the candidate.**

h. **Citations of research in scholarly publications.**

i. **Published abstracts of research papers.**

j. **Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.**

k. **Prizes and awards for excellence of scholarship.**

l. **Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.**

m. **Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where**

appropriate obtaining patents and/or copyrights for said development.

N. RESEARCH RESULTS SHOULD BE MEASURED BY QUALITY, IMAGINATION, LONG TERM IMPACT, DEPTH AND ORIGINALITY. THE DEPARTMENT EXPECTS FACULTY WITH A 30% RESEARCH LOAD TO BE PUBLISHING AT A RATE OF APPROXIMATELY ONE PAPER PER YEAR. AT A 50% LEVEL OR ABOVE THERE SHOULD BE APPROXIMATELY TWO. HOWEVER, IT SHOULD BE EMPHASIZED THAT THIS IS ONLY AN APPROXIMATE GOAL. THE MORE IMPORTANT GOAL IS QUALITY RESEARCH. HIGH QUALITY RESEARCH CAN BE PRODUCED AND DISSEMINATED IN SPECIAL CIRCUMSTANCES AT A LOWER RATE. ACCORDINGLY, CANDIDATES SHOULD NOT TRY TO MEET A RESEARCH TARGET IN TERMS OF NUMBER OF PAPERS PUBLISHED. FURTHER, HEAVY PRODUCTION RATES OF LOW QUALITY PUBLICATIONS IS DISCOURAGED.

O. A CANDIDATE'S PUBLICATION AND FUNDING RECORD SHOULD BE COMPARED WITH INDIVIDUALS IN THE SAME OR RELATED DISCIPLINES. THE PRACTICE OF LISTING COAUTHORS WHO HAVE CONTRIBUTED LITTLE TO A PUBLICATION IS UNCOMMON IN THE MATHEMATICAL SCIENCES. EXCEPT IN UNUSUAL CIRCUMSTANCES, EACH COAUTHOR WILL HAVE MADE A SIGNIFICANT CONTRIBUTION. COAUTHORS ARE OFTEN LISTED ALPHABETICALLY.

P. FOR DMS FACULTY CONDUCTING RESEARCH IN MATHEMATICS EDUCATION, APPROPRIATE RESEARCH PRODUCTS, IN ADDITION TO THOSE NOTED ABOVE, MAY ALSO INCLUDE DEVELOPMENT OF MATHEMATICAL CURRICULA THAT ARE INNOVATIVE AND BASED ON ORIGINAL RESEARCH. IN ADDITION TO JOURNALS INTENDED FOR THE RESEARCH COMMUNITY, DMS WILL ALSO VALUE PEER-REVIEWED JOURNALS INTENDED FOR THE BROADER EDUCATION RESEARCH COMMUNITY. THIS INCLUDES JOURNALS DEVOTED TO TEACHER PREPARATION AND PROFESSIONAL DEVELOPMENT AS WELL AS A READING AUDIENCE OF EDUCATION POLICYMAKERS, TEACHERS AND ADMINISTRATORS.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge is identified as "public service." The tradition of the university itself

provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

PROFESSIONAL SERVICE INCLUDES, BUT IS NOT LIMITED TO, REFEREEING, JOURNAL WORK, SERVICE TO NATIONAL PROFESSIONAL ORGANIZATIONS, WORKING WITH TESTING ORGANIZATIONS TO DEVELOP STANDARDIZED EXAMS, EDITING FOR TEXTBOOK AND SCIENTIFIC PUBLISHERS, ORGANIZING CONFERENCES, IN-SERVICE TRAINING PROGRAMS, GIVING COLLOQUIUM LECTURES, REVIEWING PROPOSALS AND BOOKS. IT INCLUDES PRESENTATION OF EXPOSITORY MATERIAL INCLUDING EXPOSITORY TEXTS, WHICH ARE NOT PRIMARILY MEANT FOR CLASSROOM USE. OUTREACH TO EDUCATORS (E.G. OFFERING INSERVICE WORKSHOPS OR INSTITUTES FOR K-12 MATHEMATICS TEACHERS) IS ALSO APPROPRIATE PUBLIC SERVICE FOR DMS FACULTY.

Examples include, but are not limited to:

a. **Providing information services to adults or youth.**

b. **Service on or to government or public committees.**

c. **Service on accrediting bodies.**

d. **Active participation in professional organizations.**

e. **Active participation in discipline-oriented service organizations.**

f. **Consulting.**

g. **Prizes and awards for excellence in public service.**

h. **Leadership of or presentations at workshops, conferences, or public meetings.**

i. **Training and facilitating.**

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. **Service on university, college, school, institute, or departmental committees or governing bodies.**

b. **Consultative work in support of university functions, such as expert assistance for specific projects.**

c. **Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.**

d. **Participation in accreditation reviews.**

e. **Service on collective bargaining unit committees or elected office.**

f. **Service in support of student organizations and activities.**

g. **Academic support services such as library and museum programs.**

h. **Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.**

i. **Mentoring OF FACULTY.**

j. **Prizes and awards for excellence in university service.**

K. **SERVICE AS OUTSIDE REVIEWER ON UAF THESIS COMMITTEES.**

L. **PREPARATION OF UNIVERSITY REPORTS.**

3. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

RATIONALIZATION AND COMMENTARY

THE ABOVE PORTION OF THIS DOCUMENT IS MEANT TO OUTLINE THE PROCESS AND INDICES OF EVALUATION. WHAT FOLLOWS BELOW ARE A FEW REMARKS MEANT TO GIVE SOME EXPLAINATION TO THIS SCHEMATIC.

AT THE LEVEL OF ASSOCIATE PROFESSOR A RECORD OF QUALITY INSTRUCTION AND RESEARCH IS IMPORTANT. THE DMS RECOGNIZES THAT AT THIS LEVEL SERVICE IS SECONDARY TO TEACHING AND RESEARCH. THIS DOES NOT IMPLY SERVICE AT THIS LEVEL IS UNIMPORTANT. FACULTY NEW TO THE PROFESSION CAN PROFITABLY SPEND THEIR TIME ESTABLISHING A RESEARCH RECORD AND PERFECTING TEACHING TECHNIQUE.

DMS TAKES EXCEPTION WITH IDEAS FOUND IN CERTAIN QUARTERS ON SPECIFIC AND OBJECTIVE MEASURES OF IMPACT FACTORS. TO QUOTE FROM THE OCTOBER 2006 NOTICES OF THE AMERICAN MATHEMATICAL SOCIETY,

> "PEOPLE MISUSE THE IMPACT FACTOR BECASE THERE ARE NO EXPLICIT PRINCIPLES GOVERNING ITS INTERPRETATION. THE IMPACT FACTOR IS USED TO MEASURE THE VALUE OF THINGS FOR WHICH IT WAS NEVER INTENDED (ARTICLES AND AUTHORS, FOR EXAMPLE), AND IT IS USED TO MAKE FAULTY COMPARISONS BETWEEN UNLIKE OBJECTS, INCLUDING JOURNALS THEMSELVES...FOR DECADES, SCHOLARS HAVE COMPLAINED ABOUT THE MISUSE OF THE IMPACT FACTOR, AND THERE IS EXTENSIVE LITERATURE OF SUCH COMPLAINTS AND ADMONITIONS. BUT IN A WORLD GONE MAD WITH AN OBSESSION TO EVALUATE EVERYTHING 'OBJECTIVELY', IT IS NOT SURPRISING THAT DESPERATE AND SOMETIMES INCOMPETENT EVALUATORS USE A POORLY UNDERSTOOD, BUT EASILY CALCULATED, NUMBER TO COMFORT THEM."

DMS STRONGLY MAINTAINS THAT IN ADDITION TO ANY QUANTIFIED METRICS WE MUST ADD PERSONAL JUDGEMENT BY PRC AND OUTSIDE EVALUATORS. SCHOLARLY PEERS, SUBJECTIVE THOUGH THEY MAY BE, ARE THE BEST JUDGES OF QUALITY. MAKING SUCH DECISIONS IS HARD WORK BUT A NECESSARY RESPONSIBILITY OF EACH MEMBER OF THE PRC.

TO FURTHER UNDERSCORE THE ABOVE POINTS, WE QUOTE FROM A 2006 WHITE PAPER RELEASED BY THE AMERICAN MATHEMATICAL SOCIETY.

> "MATHEMATICS IS OFTEN CONSIDERED AS PART OF THE PHYSICAL AND NATURAL SCIENCES, BUT ITS PUBLICATION PRACTICES DIFFER FROM THESE OTHER DISCIPLINES IN SEVERAL FUNDAMENTAL WAYS.
>
> MATHEMATICIANS TEND TO PUBLISH AT RATES THAT ARE MODEST COMPARED TO SOME OTHER SCIENCES. THE

MAJORITY OF MATHEMATICAL RESEARCH IS PUBLISHED IN REFEREED RESEARCH JOURNALS RATHER THAN CONFERENCE PROCEEDINGS OR BOOKS. THE MATHEMATICAL LITERATURE IS SPREAD AMONG A WIDER COLLECTION OF JOURNALS THAN IN MOST RELATED FIELDS. AND, SINCE AN ARTICLE TYPICALLY REPRESENTS A MATURE TREATISE ON A MATHEMATICAL QUESTION, AND SINCE MATHEMATICS RESEARCH IS NOT CONSIDERED TIME-SENSITIVE, DELAYS IN PUBLICATION ARE COMMON.

EVEN SOME OF THE BEST YOUNG MATHEMATICIANS PUBLISH RELATIVELY FEW PAPERS. A STUDY OF THE 40 MATHEMATICIANS WINNING SLOAN FELLOWSHIPS IN 2005-2006 SHOWS THAT 70% PUBLISH AN AVERAGE OF TWO OR FEWER ARTICLES PER YEAR IN THE FIVE YEARS PRECEDING THEIR AWARD. THESE TWO GROUPS REPRESENT AN EXCEPTIONAL GROUP OF HIGHLY PRODUCTIVE MATHEMATICIANS.

OF THE 274 PUBLICATIONS BY THESE GUGGENHEIM FELLOWS, 75% WERE IN REFEREED JOURNALS. ONLY THREE PUBLICATIONS WERE BOOKS. IN FACT, OF ALL ITEMS COVERED BY MATHEMATICAL REVIEWS IN THE YEARS 2001-2005, FULLY 80% WERE FROM REFEREED JOURNALS.

WHEN JUDGING THE WORK OF MOST MATHEMATICIANS, THE KEY MEASURE OF VALUE FOR A RESEARCH PROGRAM IS THE QUALITY OF PUBLICATIONS RATHER THAN RATE. THE INFORMATION ABOVE ABOUT THOSE WHO HAVE WON PRESTIGIOUS AWARDS STRONGLY SUPPORTS THIS VIEW"

CERTAIN DISCIPLINES FOUND IN MATHEMATICAL SCIENCES HAVE LITTLE OPPORTUNITY IN THE WAY OF EXTERNAL FUNDING. ACCORDINGLY, THE ABILITY TO FIND FUNDING SPEAKS WELL FOR A CANDIDATE AT ANY LEVEL. HOWEVER, ABSENCE OF FUNDING MAY NOT NECESSARILY SPEAK AGAINST THE CANDIDATE. DMS DOES NOT CONSIDER THE FUNDING OF GRANT PROPOSALS TO BE THE GOAL OF ANY RESEARCH PROJECT. RATHER, WE FOCUS ON WHAT IS ACHIEVED WITH OR WITHOUT RESEARCH FUNDING.

TO SUMMARIZE, THE PRIMARY RESEARCH METRIC IS NOT NUMBER OF PUBLICATIONS, NOR NUMBER OF CITATIONS, NOR QUANTITY OF GRANT MONEY. IT IS RESEARCH RESULTS AS MEASURED BY QUALITY, IMAGINATION, LONG TERM IMPACT, DEPTH AND ORIGINALITY.

ORIGINAL

The following was passed at the May 4, 2009 Faculty Senate Meeting #159:

RESOLUTION:
=======

The UAF Faculty Senate, in support of student retention and success, resolves that a comprehensive Student Learning Commons be established on the Fairbanks campus in partnership with the Rasmuson Library.

EFFECTIVE: Fall 2009 and/or
Upon Chancellor's approval.

RATIONALE: A failure to retain and nurture students obstructs the mission of the University of Alaska Fairbanks, which is to promote excellence, student success and lifelong learning. Faculty, departments, committees and administration confirm that many students entering UAF need assistance in order to succeed. All student-success specialists emphasize that integrated support programs are salutary, achieving levels of campus-wide coordination and partnership that serve to unite a university. Evidence from programs as diverse as Student Support Services Developmental Education, and the Honors program shows that students at all levels of their education at UAF can benefit from a Student Learning Commons. The attached Summary Report from Student Support Services shows that academic standing, retention and degrees earned even among at-risk students increase when solid learning support is available.

The Student Learning Commons is designed to support all students—urban and rural, at risk and gifted—striving for academic excellence. It will provide a centralized location that enhances students' access to learning support services. No program similar to the one being proposed in this initiative presently exists at UAF. The expected outcome of this initiative will be improved student comprehension, retention, and graduation rates, all of which benefit the entire academic and social community leading to increased revenue generation.

President, UAF Faculty Senate Date

UAF Student Learning Commons Proposal
Student Academic Development & Achievement Committee
April 2009

RESOLUTION:

The Faculty Senate in support of student retention and success resolves that a comprehensive Student Learning Commons be established on the Fairbanks campus in partnership with the Rasmuson Library. The Student Learning Commons would provide and coordinate tutoring, supplemental instruction, computer-assisted instruction, access to informational and instructional technologies, curricular advising, and counseling to all undergraduate students at UAF. Its technology and information-management capabilities would further extend UAF's reach to include rural students.

1. Rationale

A failure to retain and nurture students obstructs the mission of the University of Alaska Fairbanks, which is to promote excellence, student success and lifelong learning. Faculty, departments, committees and administration confirm that many students entering UAF need assistance in order to succeed. All student-success specialists emphasize that integrated support programs are salutary, achieving levels of campus-wide coordination and partnership that serve to unite a university. Evidence from programs as diverse as Student Support Services Developmental Education, and the Honors program shows that students at all levels of their education at UAF can benefit from a Student Learning Commons. The attached Summary Report from Student Support Services shows that academic standing, retention and degrees earned even among at-risk students increase when solid learning support is available.

The Student Learning Commons is designed to support all students—urban and rural, at risk and gifted—striving for academic excellence. It will provide a centralized location that enhances students' access to learning support services. No program similar to the one being proposed in this initiative presently exists at UAF. The expected outcome of this initiative will be improved student comprehension, retention, and graduation rates, all of which benefit the entire academic and social community leading to increased revenue generation. .

2. Mission

The Student Learning Commons (SLC) will support all UAF students by bringing together a wide range of services to enhance student learning. The UAF SLC will be committed to academic excellence, student success and lifelong learning for the most diverse student population of any university in the country. The SLC will function as an information clearinghouse for tutoring services, academic advising, library research, testing, counseling, and other programs promoting student success. Students will be able to work with trained tutors, librarians and advisors, receive mentoring, and attend

orientations and success workshops at a single locale purposely designed to direct and enrich their educational experience. These services will be available both to local students and to students at a distance.

3. Goals

Students participating in the SLC will develop the skills and attitudes necessary for the attainment of academic, career and life goals, including one or more of the following: increase their knowledge of the subjects they are studying, improve their grades, become proficient in using technology and web resources they need for success, become more aware of how they learn best, and develop positive attitudes and confidence in their ability to learn.

4. Proposed Vision – The hope of a comprehensive learning center is not new. Local centers existed in the various Community Campuses before the consolidation and some still exist. Since the early 90's, a learning support center for the Fairbanks Campus has been proposed by many campus committees and organizations. In 2007, a committee including representation from Department of Developmental Education, the English Department Writing Center, Student Support Services, Rural Student Services, TVC advising, and the Academic Advising Center, developed a plan for a comprehensive learning center that the Student Learning Commons would be modeled on. In the past, the major stumbling block for such proposals has been space. With the Library's cooperation, that space would be available and the Student Learning Commons could become a reality.

The following is the model for the Student Learning Commons:

Personnel

A full-time coordinator with a background in learning theory will be in charge of choosing the tutors, training the tutors, scheduling lab hours and organizing tutors, but the tutors will be funded and referred by their respective departments. Assistance from librarians familiar with searching and evaluating information resources will be another component. A full-time administrative assistant will also be needed to support the SLC. A full-time computer technician familiar with educational applications of technology will be needed. The technician will also be utilized by the Writing Center and other identified places which currently cannot afford to keep a technician on staff full-time.

Other professionals assigned to the SLC include the following: a counselor from the Center for Health and Counseling (shared), a learning disabilities specialist (part-time), English as a Second Language (ESL) teaching assistants (part-time), a financial advisor from Financial Aid (shared), and CRLA certified tutors.

Services

To support student success and improve student learning at UAF, a student learning commons located within the Rasmuson Library will provide integrated services to enhance individual and group learning experiences. Most of the library literature about learning commons confirms "The news from the front lines is that the information commons established in college and university libraries are a success. These new spaces are wildly popular with students . . ." (Spencer, M. [2006] "Evolving a new model: the information commons," *Reference Services Review*, 34 (2), 242-7). The UAF Student Learning Commons integrates personal help, instructional and information technologies, and versatile space. This triad enables students to: conceptualize the work for their courses and related learning activities; search for and evaluate information to support their developing ideas; create projects and presentations (including collaboration by groups); bring their work into final production (including multimedia and print production); assess and improve their study skills; learn new information technologies; and be tutored in a variety of disciplines. Development and uses of these learning support components will require collaboration among library personnel, student services throughout UAF, academic departments, and OIT.

The SLC will include its own tutoring center for math, reading, writing, study skills and computer usage. Eventually the existing Writing Center, Speech Center, Developmental Math Lab and the Chapman Math Lab might all be folded into the SLC in order to offer these core-support services at one site. While departments and other service providers will function with different degrees of autonomy, the SLC will encourage synergy. The Student Learning Commons would also be a useful resource for faculty in developing their own instructional materials, and as a venue for some class meetings. A Center for Instructional Design housed in the Rasmuson Library in the near future would be welcome partners with the SLC in creative instructional innovations to help both faculty and students.

The personalized help portion of the triad will require specialized contributions from faculty, librarians, tutors, student services personnel, and IT staff. Students will be able to work with tutors on writing skills, presentation skills, study skills, software uses and web applications. Librarians will provide help with effectively researching topics, locating resources, and evaluating information. Instruction in information literacy will be essential and will reinforce UAF's core curriculum goals. Communication and collaboration among these service providers should be nearly seamless in helping the students. Workshops and similar instructional sessions shall be provided.

Sessions will be offered addressing student success at every level. This will include sessions on how to write different types of lab reports and research papers, as well as how to use computers for research. Student-success sessions—currently offered by Academic Advising and the Developmental Education Department, including various study skills and time management—will be incorporated as well as sessions on motivation, textbook reading, memory improvement and critical thinking skills. Workshops on ESL, math, English and reading skills will be available too. First-year orientation classes will be

developed by the SLC including Supplemental Instruction and linked courses. In addition, a mentoring program pairing new students with more experienced students will be developed. Students will also be able to take tests on various topics such as learning styles and math, English, reading and study skills preparedness. The SLC will house a testing center for assessment, make-up and mastery testing.

Information and instructional technologies form the second part of the triad. The SLC will be an online-learning facility, as well as employ PowerPoint or video presentations, in order to provide students with in-depth information complementing student-success sessions. Workshops on standard productivity software, multimedia software, and collaborative web technologies shall be provided. PC's, Mac's, printers and scanners shall be available, along with wireless networking so that students can utilize their own laptops. Technical help will assist with use of a variety of software and newly developing web technologies, as well as providing the foundation for maintaining the hardware, software, and network connectivity.

The third part of the triad involves spaces for students (singly or teamed) to learn in collaboration with each other as well as to meet with the personnel and use the technologies. We envision an area for students to use the available computers or their own laptops, but it is also an area with flexible furnishings for small and medium-sized groups to work together. Group study rooms and presentation practice rooms with projectors and white boards are essential in the Commons. A smart classroom for instruction sessions, a computer lab for workshops, and spaces for tutoring activities and for in-depth collaborations with support/instruction personnel would all contribute to student success.

In its role as an information clearinghouse, the SLC will include specific information on the following services already established at UAF: specific departments offering tutoring or labs, residential advising and tutoring offered in dormitories, the Student Support Services program, Rural Student Services, Disability Services, the Center for Health and Counseling, the Registrar, Financial Aid, the Academic Advising Center and the TVC Student Assistance and Advising Center, and learning assistance programs offered at all UAF rural campuses. A webpage presenting the SLC and its services will also explain the options available to Distance Education students, such as the Math Hotline (telephonic tutoring), Whiteboard (computer program used for distance tutoring), and Telefax Tutoring (used by the Writing Center).

Assessment

The SLC will include a built-in self-assessment process to measure its effect on student learning and retention. Information gathered will be used to modify services offered by the SLC. For instance, student usage of the SLC can be tracked via computer software such as AccuTrack.

The goals of the commons are to provide: coordinated learning support for all students at UAF; timely advising by trained advisors; tutoring for students in key courses by trained tutors; and tutoring labs (Math Lab, Writing Center, Developmental Math Lab, Developmental Writing Lab etc.) in areas where significant numbers of students need assistance to pass courses.

The expected outcomes are as follows: students will use the available learning support activities; students will be directed to appropriate support activities throughout the UAF system; advising will be available for students within two business days of request; students using tutors 5 or more times during the semester will be successful in courses tutored at a rate at least as high as the general student population taking that course; and students regularly using tutoring labs will be successful in courses tutored at a rate at least as high as the general student population taking that course.

Definition of Success

Success for Student Learning Commons will result in	Students contacting the learning Commons will be directed to appropriate learning services and will utilize those various learning support activities
Successful advising will result in	Students seeking advising at critical times during the semester and receiving advising assistance such as learning support referrals, registration assistance, and other services in a timely manner.
Successful individual tutoring (when a student attends 5 or more hours) will result in	Students completing the tutored course with a "C" or higher.
Successful group tutoring (where a student regularly attends sessions) will result in	Students completing the tutored course with a "C" or higher.
Successful provision of tutors or faculty instructors as individual tutors or in group tutoring sessions.	All tutors will be trained and certified as CRLA tutors or will be appropriate level faculty.

Outcomes Data

Type of data	**Collected by**	**Time of collection**
Semester referral to services • Total headcount • Unduplicated headcount	Student Learning Commons	Throughout the semester
Individual Tutoring • Total headcount • Number of hours attended by individual students	Tutoring unit	Throughout the semester
Student* grades in tutored	Tutoring unit	End of each semester

course.		
Group Tutoring • Total headcount • Number of hours attended by individual students	Tutoring unit	Throughout the semester
Student # grades in tutored course.	Department	End of semester
Tutor training records	Tutor training unit	Each semester
Faculty vita	Tutoring unit	As faculty are assigned to tutoring unit
Faculty Referrals • Number of faculty referring students • Number of new faculty referrals	Student Learning Commons	Throughout semester

* students participating in 5 or more individual tutoring sessions
# students regularly participating in group tutoring sessions

5. Implementation

If this Student Academic Development & Achievement Committee vision is compelling and accepted, we recommend that another committee be formed to continue investigating learning commons in other institutions; to begin conversations with appropriate faculty, student organizations, OIT and student support services to further identify and articulate their needs and garner their support; and to gather additional data about space, staffing, collaborations, assessment, and funding required of UAF in order to achieve viability and practicability for its Student Learning Commons.

Administrative support is needed to move ahead towards implementation. Both immediate and 5-year funding will be needed. Questions to be answered during this phase include the following: Where will the funding come from and is it sustainable? When will significant space become available in Rasmuson Library? What renovations will be needed within the Rasmuson Library building (networking, power, lighting, walls)? Who will pay for staff? What equipment, supplies, and furniture will we need?

The Rasmuson Library—conveniently located near other integral UAF computing, service, and instructional functions—currently has 30 computers on its main floor and 12 more on other floors to be used for searching for information. As of March 2009 seven of these computers also have MS Office software, and the rest have Open Office software. Possibly another 20 would be needed for the additional work on papers, projects and presentations expected in a learning commons. Additional specialized software applications (e.g. Photoshop, Final Cut Pro, statistical software, GIS software) could be required for student work in some disciplines. An area with equipment for final production

of papers, projects, presentations should include printers, photocopiers, a flatbed scanner, possibly equipment for oversize and color productions and should be conveniently close to the computers. The current instructional computer lab is heavily utilized now for library instruction sessions, OIT training sessions, and other campus training. A second instruction lab is essential.

The Media Classroom will need to be supplemented by another, smaller smart classroom. To the current group study rooms (currently 2 are available on Level 3, and 2 on Level 5) would need to be added 4 small rooms (for individual tutoring, testing, and storage) located near each other on the same floor. Additional flexible space for individual tutoring is desirable.

Office space for the SLC coordinator and the administrative assistant is necessary. Service points for Library Reference services and technical help should be merged into one service point with more tech training for the librarians. Several learning commons use paraprofessionals and peer tutors for providing some of these services.

After sustainable funding and facilities have been acquired and renovations to space are completed, the SLC will be set up and its services will be initiated. Tasks during this stage might include, among others, hiring a coordinator and support staff, deciding which services want to be folded into the SLC and which want to remain autonomous, coordinating the efforts of the various support programs already in existence, hiring and certifying tutors, setting up workshops and filming them for online use, creating a web page, setting up an online learning center, and directing students to the commons.

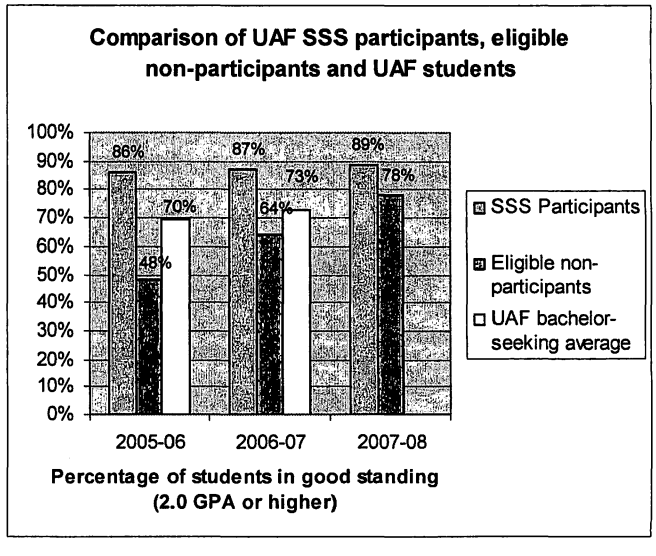
Student Support Services Program
University of Alaska Fairbanks
Program Overview

The **Student Support Services (SSS)** program provides opportunities for academic development, assists students with college requirements, and serves to motivate students towards the successful completion of their degree program. The program is funded by a TRiO Grant from the U.S. Department of Education.

Our services include:

- drop-in tutoring center
- instruction in mathematics skills
- tutorial services
- academic advising and mentoring
- cultural and social engagement
- loan program for laptop computers, and other media
- direct financial assistance to qualified Pell Grant recipients

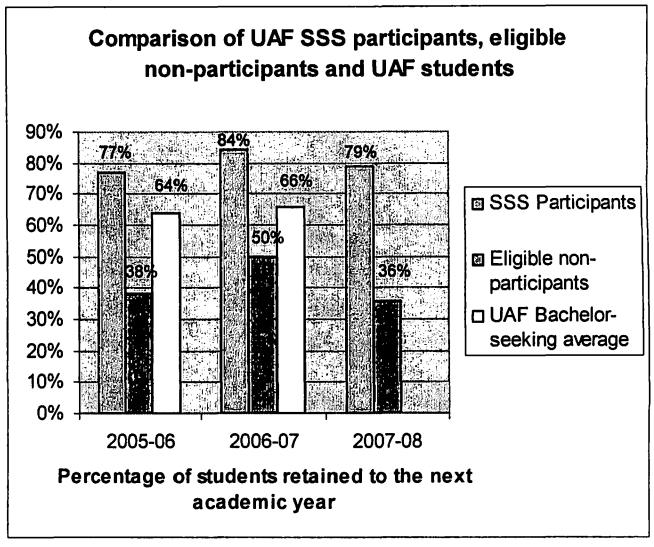
All services are provided free of charge to eligible students. Our program is staffed with both professional and certified student tutors.



To receive SSS program services, a student must have academic need and meet one of the following criteria:

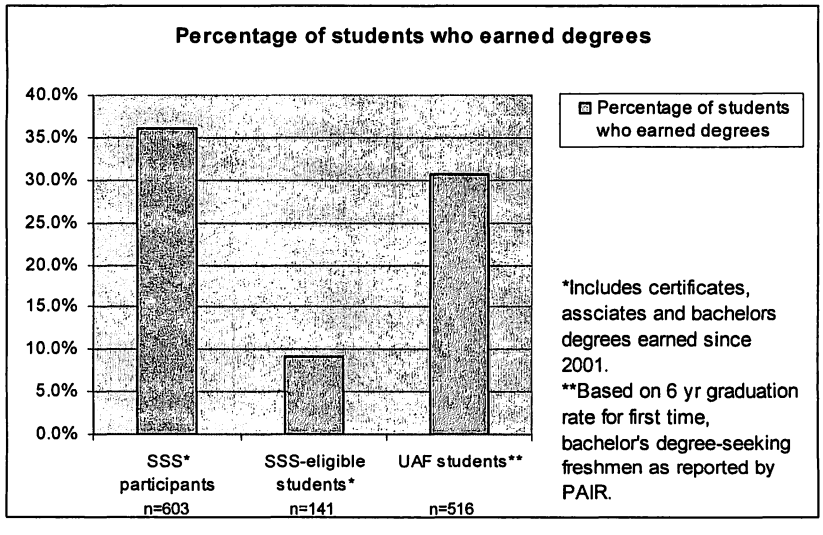
- Financially limited according to federal criteria.
- A first-generation college student (meaning neither parent has earned a Bachelor's degree)
- A student with a documented physical or learning disability

Participants must also be enrolled in at least six hours of academic study, and intend to obtain a Bachelor's degree.



Good Academic Standing

Similarly, the percentage of students in good standing (GPA ≥ 2.0) each year is higher for SSS participants than for potentially eligible but non participating students and baccalaureate seeking students generally.



Retention

Participating SSS students have been retained at a higher rate than UAF baccalaureate students who enroll at least half-time and also at a higher rate than potentially eligible but non-participating students.

DEGREES EARNED BY SSS STUDENTS

Since its inception in 2001, the SSS program at UAF has served 603 students. Those **603 students** have earned **217 degrees** from UAF (Certificate, Associate and Baccalaureate included.) During that same time period 141 students were eligible for the program, but chose not to receive services (the control group.) Those 141 students have earned only 13 degrees from UAF.

Overview:

Bristol Bay Campus designs educational opportunities in partnership with regional entities and communities to empower residents and address economic development. The Environmental Studies (ENVI) certificate will not specifically train a student for one career path but will teach the students a universal skill set that will be used for a broad range of careers. These skills obtained by an ENVI certificate holder will then serve as a foundation for any realm of environmental technician work available in their communities. Training local students in these skills will not only give employers an opportunity to hire locally for technician work that is traditionally completed by non-local technicians, but will also support local economic development.

The following Bristol Bay region communities employ two Tribal Environmental Program employees each. There is a correlation between environmental training and employability in those positions within these communities: Aleknagik, Clark's Point, Ekwok, Manokotak, New Stuyahok, Togiak, Levelock, Pilot Point, and Dillingham.

A partnership has developed between the Bristol Bay Native Association Tribal Environment Program and the Bristol Bay Campus' offering of pilot ENVI courses. Twenty-eight villages in the Bristol Bay region have 45 positions available as Environmental Coordinators or Environmental Assistants. Tribal Environment Program employees are encouraged to participate in pilot ENVI courses to broaden their technician skill set and to improve their knowledge of environmental systems and natural resource dynamics.

In Alaska, landscape level changes are taking place due to both climate change and human activities such as mining, oil exploration, toxicology, tourism, and environmental remediation. The Bristol Bay Advisory Committee for this certificate met in 2006 and recommended the development of a program to address community-level environmental issues. Input from the Committee as to specific employment skills needed in technician-level careers in environmental sciences and natural resources were incorporated into all of the ENVI courses. In 2008, the Committee voted on continued support for the development of this educational program.

Employability needs precipitating the development of this program came from analysis of surveys from 2002 to 2005 conducted by CRCD and UAF BBC indicated that there is need in rural Alaska for more graduates in the environmental sciences. Another area of need recognized during this program development was the American Indian/Alaska Native unemployment rate is about three times as high as the unemployment rate for the non-Native population. The National Center for Educational Statistics (NCES) (2003) reports that American Indians/Alaska Natives students were more likely to have dropped out of school than non-Native students and scored lower, on average, than non-Native students on the SAT and the ACT in 2004. It has been the UAF BBC experience that rural Alaskan high school students are even less prepared than urban students for the academic rigor of science at the university level. Thus, responding to these employability and community needs, the UAF BBC's proposed ENVI certificate will work to provide the preparation needed for students to enter into a science-related associate or baccalaureate degree while gaining the basic academic preparation and sought after vocationally related skills necessary for entry-level careers in the environmental studies.

The mission of the ENVI certificate program is to provide students, including Alaska Native and rural students, with quality academic instruction and training responsive to community needs.

This program will help empower graduates and their communities to adapt to the overwhelming social, ecological, and economic changes presently occurring while protecting and enriching local culture.

The ENVI certificate is a 34-36 credit program and is offered through the UAF BBC of the CRCD and will be a stepping-stone for students pursuing a science-related associate or baccalaureate program.

Objectives:

a) Objectives

- To expose the students to a broad-based, environmental studies background.
- To prepare students to address specific community-based environmental issues.
- Learn the basic interdisciplinary skills needed for general laboratory and field-based work in the environmental sciences such as inventorying biota or monitoring a few key water quality indicators.
- To prepare students to advance into a science or policy related Associate or Baccalaureate program or other undergraduate course work in the sciences.
- To prepare students academically and vocationally for entry-level employment in the field of natural resources and environmental science.
- To develop basic academic skills and gain essential knowledge in environmental studies that is integrated with a community-based environmental perspective.
- To introduce students to the established UAF BBC student support system that will provide tutorial, mentorship, and academic support.
- To provide students with the tools necessary for successful employment.
- To introduce students to university science programs that encourages academic development into advanced degrees.
- To promote skill development that integrates wellness, self-sufficiency, and community development.

ENVIRONMENTAL STUDIES (ENVI) CERTIFICATE OUTLINE

1. Complete the general university requirements

2. Complete the following general Certificate requirements — 9 cr

a. Communication…..(complete one of the following)……3 cr:

1)…ENGL 111X – Introduction to Academic Writing — 3 cr OR

2) ABUS 170 – Business Writing — 3 cr

b. Computation……..(complete one of the following) ……3 cr:

1) Any course at the 100-level or above in mathematical sciences (computer science, math, or statistics)……3 cr OR

2) DEVM 105 – Intermediate Algebra……3 cr

c. Human Relations…..(complete one of the following) ……3 cr;

1) ANTH 100X/SOC 100X – Individual, Society & Culture ……3 cr OR

2) ABUS 154 – Human Relations ……3 cr OR

3) Other program approved discipline-based human relations course or discipline-based with embedded human relation content to total 3 credits

3. Complete the following ENVI requirements — 22-23 cr

a. Science Foundation Courses…(complete one from each of the following) 8 cr;

1)..BIOL 103X – Biology and Society — 4 cr or

2)..BIOL 104X – Natural History of Alaska — 4 cr or

3)..BIOL 115X – Fundamentals of Biology I — 4 cr **

AND

4)..CHEM 103X – Basic General Chemistry — 4 cr OR

5)..CHEM 105X – General Chemistry I — 4 cr *

*Course requires placement in ENG 111 and MATH 107X

**Course requires CHEM 105X as a pre- or co-requisite, and placement in ENG 111 and MATH 107X

b. Environmental Studies Core Courses…(complete all seven below)….. **14-15** cr;

1) ENVI 101 – Introduction to Environmental Science……3 cr

2) ENVI 110 – Introduction to Water Quality I: Measurement ……1 cr

3) ENVI 130 – Introduction to National Environmental Protection Act (NEPA)……1 cr

4) ENVI 160 – Internship in Environmental Studies……1-2 cr

5) ENVI 260 – Field Techniques for Environmental Technicians ……2 cr

6) ENVI 265 – Introduction to Methods in Environmental Studies Reporting……2 cr

7) GEOG 211X – Earth Systems: Elements of Physical Geography 4 cr

4. Complete 3 or 4 credits from the following elective courses — 3-4 cr

a. BIOL 104X – Natural History of Alaska……4 cr

b. BIOL 115X – Fundamentals of Biology I……4 cr

c. CHEM 104X – Beginnings in Biochemistry……4 cr

d. CHEM 105X – General Chemistry I……4 cr

e. DEVS 100 – Introduction to Science ..... 4 cr

APPENDIX B Resource Commitment to Proposed Degree Program

Resources	Existing	New		Total
	College/School	College	Others (USDA Grant 50%, Title III 50%)	
Regular Faculty (FTE's & dollars)	CRCD: In excess of 10 additional faculty members per semester will be involved in providing courses which will be used by students in this program. The amount of effort will vary per instructor based on the number of ENVI students in their classes.		Faculty 100% $70,055	$70,055
Adjunct Faculty (FTE's & dollars)				
Teaching Assistants (Headcount)				
Instructional Facilities (in sq. footage)	10 ft x 30 ft = 300 ft^2			
Office Space (Sq. footage)	12 ft x 8 ft = 96 ft^2			
Lab Space (Sq. Footage)	10 ft x 30 ft = 300 ft^2			
Computer & Networking (in dollars)				
Research/instructional/office Equipment (in dollars)	$50,000.00			$50,000
Support Staff (FTE's & dollars)	Environmental Technician @ 50% (1846.4 biweekly) $22710.50		Environmental Technician @ 50% (1846.4 biweekly) $22710.50	$45,421
Supplies (in dollars)			$5,000	$5,000
Travel (in dollars)			$5,000	$5,000
Totals				$175,476

University of Alaska Board of Regents
Program Approval Summary Form
MAU: UAF
Title: Environmental Studies (ENVI) Certificate
Target admission date: Summer 2009

How does the program relate to the **Education Mission** of the University of Alaska and the MAU?

The ENVI certificate was created by the UAF BBC, in cooperation with employers and educators, and will not specifically train a student for one career path but will teach the students a universal skill set that will be used for a broad range of careers. Training local students in these skills will not only give employers an opportunity to hire locally for technician work that is traditionally completed by non-local technicians, but will also support local economic development.

This program relates to and supports the Education Mission of the University of Alaska by:

- Serving as a program of higher education for traditional and non-traditional Alaska Native students by using the local resources and traditional knowledge of the region to teach skills and techniques desired by employers without requiring students to change or leave their culture or heritage (UA Strategic Plan 2010, Goal 1 and 2).
- Providing high quality undergraduate education in entry-level coursework, increasing the number of Alaska Native students, and increasing the number of degrees awarded to Alaska Native students with particular consideration given to the needs of permanent residents and students in non-traditional settings who seek skills and degrees suited to rural communities (UA Strategic Plan 2010, Goal 3).
- Collaborating with organizations, state and federal agencies, communities, and governments to meet rural Alaska needs in the field of natural resources (UA Strategic Plan 2010, Goal 4).

What **State Needs** are met by this program?

Upon review of this program, agencies in the Bristol Bay region, as well as statewide, (Dillingham City Council, Bristol Bay Borough, Bristol Bay Native Association, Bristol Bay Economic Development Corporation, Wood-Tikchik Land Trust, Alaska Department of Fish and Game, U.S. Fish and Wildlife Service, and National Park Service), have commented on the need for a skill-based, environmental studies education program for their entry-level positions. Finally, entry into and completion of a subsequent associate or baccalaureate science-related degree will qualify individuals for employment in fields varying from teaching to field research in both rural and urban settings.

State statistics

State statistics from the Department of Labor (http://almis.labor.state.ak.us) substantiate workforce and skill development needs in rural Alaska. The ENVI certificate will either prepare the student to directly enter this workforce or will prepare the student for an associate or baccalaureate degree which will provide entry to these high demand jobs.

What are the **Student** opportunities and outcomes?

The mission of the Environmental Studies (ENVI) certificate program is to provide students, including Alaska Native and rural students, with quality academic instruction and training

responsive to community needs. This program will help empower graduates and their communities to adapt to the overwhelming social, ecological, and economic changes presently occurring while protecting and enriching local culture.

Enrollment projections?
Information gathered by UAF BBC through a region-wide survey conducted in Summer 2003 shows a high interest in an ENVI certificate for the potential of skill development relating to job requirements. Piloted courses reached a total of 375 (duplicated headcount) students: 73% of the students enrolled in the pilot classes were Alaska Native and 2% were high school students. Using data gathered in the surveys and the piloted courses as well as observations taken from historical enrollment data (UA in Review and BBC Registration), an approximate enrollment expectation is 8-10 students in AY2010 from the Bristol Bay region and 32 students by 2013.

Describe **Research** opportunities:

Research is a component of this ENVI program. A key student outcome is a directed individual study (capstone project) where the students will design, collect and analyze data, and present results in a scientific format. Stronger collaboration between the scientific community and local entities is an expected result from this program such as the 2008 Western Alaska Interdisciplinary Science Conference in Dillingham.

Describe Fiscal Plan for development and implementation:

ENVI program development and implementation is directly supported by the United States Department of Agriculture (USDA), Cooperative State Research, Education, and Extension Service Alaska Native/Native Hawaiian (CSREES AN/NH) Serving Institutions Higher Education Grants program. This project addresses the USDA goal of increasing the number of AN/NH students engaged in USDA careers. These careers include environmental science, among others. USDA support currently stands at one full-time science faculty member who helped develop the program plus funding for a total of eight Alaska Native students to complete the ENVI certificate within approximately three years.

While the UAF BBC has developed this new program, other fund 1 faculty and staff from all campuses, both urban and rural, will potentially be involved with this program. The program will generate $33,440 per year with a minimum of eight full-time students. As student participation increases, tuition income will increase gradually replacing grant funding.

The primary teaching faculty are already employees of the University. Current faculty are housed within the CRCD as well as Fairbanks-based UAF faculty. Cooperative Extension Service faculty will also participate in development and instruction of some ENVI certificate courses.

CRCD campuses will provide classroom space for ENVI certificate courses. In communities without a local university facility, training space can be found in the private sector and reasonably supported by tuition fees through partnership arrangements. In addition, collaboration with school districts will provide space to teach some university courses. Therefore, through community and school district partnerships, the impact on existing UAF and CRCD technology resources and facilities are limited to existing resources and no new facilities or space will be required.

ORIGINAL

The following was passed at the May 4, 2009 Faculty Senate Meeting #159:

MOTION:
=======

The UAF Faculty Senate moves to approve a Graduate Certificate in Construction Management.

EFFECTIVE: Fall 2009 and/or
Upon Board of Regents approval.

RATIONALE: See the full program proposal #19-GNP from the Fall 2008 review cycle on file in the Governance Office, 314 Signers' Hall.

Marsha Sousa 5-4-09
President, UAF Faculty Senate Date

APPROVAL: _____ DATE: 5-5-2009

Brief Statement of Program:

The objective of the Graduate Certificate in Construction Management is to increase the skills of graduate engineers and other construction professionals in order to accelerate their advancement into more responsible management positions. The program was designed with strong input from construction industry employers and will continue to regard the employer as a partner in the program. Career opportunities are integral to the program.

The graduate certificate is designed to provide the needed skill level by taking short academic courses during the winter season when construction work is slowed. Students can obtain the credential, the graduate certificate, in several years of part-time studies an attainable goal for working students.

Employers will influence the curriculum several ways. First, they already have been involved in the program development. Second, an industry advisory committee will advise the program. Third, the employers will sponsor courses that they believe are most useful to their employees/students. Fourth, the program is flexible enough that new courses can be added that are specific to particular employers or situations. The flexibility derives from the division of the main skills into rubrics, then requiring the students to take a certain amount of courses from each rubric. Within the rubrics, for the individual courses, the academy establishes the quality, but the employer determines the direction. The program will emphasize overarching virtues of ethical practices, respect and fair dealing for the other parties to the construction contract, and effective communications within the project and outside the project, especially to the public. The nature of the self-support and the employer involvement will dictate the success of the program - employers will not pay unless they feel the students/employees are gaining useful skills. Students will lose interest in the program, if they do not feel the program is aiding their advancement. Hence, the student and employer participation in the program is a key benchmark of its success.

Preliminary General Catalog layout copy

Graduate Certificate in Construction Management
College of Engineering and Mines
Department of Civil and Environmental Engineering
(907) 474 xxxx
http://www.alaska.edu/uaf/cem/cee/

Graduate Certificate
Minimum requirements for degree: 15 credits

This program will advance the managerial skill level - the ability to make wise management decisions - of graduate engineers and other professionals in the construction industry to help prepare them for more responsible jobs.

Not for full-time students.

Graduate Program - Graduate Certificate

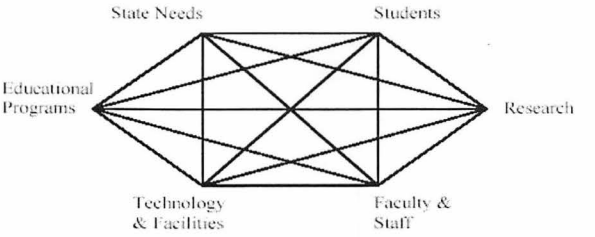
1. Complete the following admission requirements:
    a. Education and Experience:
        i. A four-year ABET college degree in engineering and at least two years construction experience, or
        ii. A four-year non-ABET degree in engineering, science or math field and four years construction experience, or
        iii. A four-year college degree and six years construction experience, or
        iv. At least ten years of management-level construction experience.
    b. Recommendations. Provide three letters of recommendations, at least one from the applicant's line supervisor.
2. Complete the general university requirements (page 182), as adopted for this program
    a. Registration requirement: Students must take at least one course per year to remain in good standing in the program.
    b. There will be a construction management certificate faculty advisor or faculty committee appointed by the College of Engineering and Mines (CEM) dean who will be the student's graduate advisory committee.
    c. The student will complete a graduate study plan after completing five credits.
3. Complete a total of 15 credits of courses from the three main construction management rubrics and two main associated rubrics as approved by the student's advisory committee as follows:
    a. Human relations and communications, 4 to 6 credits
    b. Construction project management and scheduling, 4 to 6 credits
    c. Technical management of construction and costs, 4 to 6 credits
    d. Financial aspects of construction, 0 to 3 credits
    e. Other technical areas, 0 - 3 credits
4. Examples of suitable courses under each rubric are
    a. Human relations and communications, 4 to 6 credits
        i. BA 607, Human Resources Management 3
        ii. ESM 601, Managing and Leading Engineering Organizations 3
        iii. BA 6XX, Big Picture, Systems Thinking and Organizational Dynamics 1
        iv. BA 6XX, Power and Politics and Its Effect On Motivation 1
        v. BA 6XX, Leading Teams 1
        vi. BA 6XX, Supervising Others 1
        vii. BA 6XX, The Legal Ethical and Practical Aspects of Personnel Decision Making 1
        viii. BA 6XX, Making Change 1
        ix. ESM 6XX, Project Interaction with Regulators, Stakeholders, and the Public 1
    b. Construction project management and scheduling, 4 to 6 credits
        i. ESM 609, Project Management 3
        ii. CE 620, Civil Engineering Construction 3
        iii. ESM 608, Legal Principles for Engineering Management 3
        iv. CE 6XX,Construction Claims Case Studies 1

v. CE 6XX, Scheduling for Construction Administration 1
vi. CE 6XX, Network Scheduling Basics 1
vii. CE 6XX, Project Network Scheduling Applications in Owner Organizations 1
viii. CE 6XX, Construction Claims: Prevention, Analysis, and Dispute Resolution 1
ix. CE 6XX, Project Management Organization and Delivery Systems 1
x. CE 6XX, Contact Management for Alternate Project Delivery Systems 1

c. Technical management of construction and costs, 4 to 6 credits
i. CE 451, Construction Cost Estimating and Bid Preparation 3
ii. CE 603, Arctic Engineering 3
iii. ESM 622, Engineering Decisions 3
iv. CE 6XX, Managing Risk 3
v. CE 6XX, Construction Estimating Basics 1
vi. CE 6XX, Introduction to Construction Contract Administration ... 1
vii. CE 6XX, Advanced topics In Cost 1
viii. CE 6XX, Advanced Dirt Estimating 1
ix. CE 6XX, Intro to Right Of Way Law, Procedures, and Issues 1
x. CE 6XX, Construction-Related Law topics 1
xi. CE 6XX, Arctic Construction 1
xii. CE 6XX, Introduction to Safety Engineering 1
xiii. CE 6XX, Quality Control 1

d. Business and Financial aspects of construction, 0 to 3 credits
i. ACCT 602, Accounting for Managers 3
ii. ESM 605, Engineering Economics 3

e. Other technical areas, 0 to 3 credits
i. CE 603, Arctic Engineering 3
ii. ENVE 644, Environmental Laws and Permitting 3



5. Credits obtained toward the GCCM may be applied toward another master's degree.

Attachment 4

RESOURCE COMMITMENT TO THE PROPOSED DEGREE PROGRAM

This program is will approach a self-support program, beyond the one-half faculty position. For example, if travel is needed, it would be in the budget for a particular course and the sponsor would need to pay for it. Many of the courses will be taught by adjuncts, and these will likewise be in the budget for each course. The exceptions are noted below.

Resources	Existing	New		Total
	College/School	College/School	Others (Specify)	
Regular Faculty (FTE's & dollars)	None	One-half FTE $53,000	Income from workforce $40,000	$13,000
Adjunct Faculty (FTE's & dollars)				(self-support)
Teaching Assistants (Headcount)				0
Instructional Facilities (in dollars and/or sq. footage)				0
Office Space (Sq. footage)	Adjunct office			½ adjunct office, 120 SF
Lab Space (Sq. Footage)				0
Computer & Networking (in dollars)			Support of UA Video Conferencing	Support of UA Video Conferencing
Research/ Instructional/ office Equipment (in dollars)				0
Support Staff (FTE's & dollars)	½ FTE $35,000 or as needed		Offset by program income	
Supplies (in dollars)		$3,000	From workforce $3,000	0
Travel (in dollars)		$10,000	From workforce $10,000	$0

University of Alaska Board of Regents
Program Approval Summary Form
Requirements:
1. 2 pages or less
2. Must be a stand-alone document
MAU: UAF
Title: Graduate Certificate in Construction Management
Target admission date: Fall 2009

*How does the program relate to the **Education** mission of the University of Alaska and the MAU?*
This proposed program is a 15 credit graduate certificate in construction management that will provide advanced training for graduate engineers and other professionals in the Alaskan construction workforce. The program was developed in close coordination with Alaska construction industry employers and envisions continuing that relationship with employers sponsoring courses, providing classroom space, and participating in an industry advisory committee.

**Who promoted the development of the program?*
The program developed from the convergence of three trends: 1. UAF engineering's goal of increasing graduate-level courses for working engineers; 2. the nationwide trend of graduate engineering programs to "package" their graduate offerings for particular industries; and 3. the Alaska Department of Transportation's (DOT) need to provide advanced training for its engineers and other professionals who are making decisions that affect the physical and economic wellbeing of Alaskans. In spring 2008, with the support of a Workforce Development Grant, UAF Civil and Environmental Engineering (CEE) led the offering of five one-credit special topics courses in Fairbanks and, via video conferencing, in Juneau and Anchorage. Other team members were the UAF School of Management, UA Corporate Programs (UACP), UAF Center for Distance Education (CDE); and UA Video Conferencing Services.

**What process was followed in development of program (including internal and external consultation)*
UAF CEE had a series of meetings with upper managers of interior Alaska construction organizations in spring and summer 2007. These meetings identified likely course topics and meeting formats used in the spring 2008 courses. In May 2008, UAF CEE sponsored a meeting in Anchorage of state-wide major employers and others interested in the workforce training of graduate engineers and construction mangers, who endorsed the key elements of this proposed program.

**Impact on existing programs and units across MAU and system, including GERs.*
Most of the students will already be four-year college graduates and this program will assume that they have the basic general education requirements. Both UAA and UAF have associates programs in construction management and UAA has a bachelor's program. The proposed program is a graduate program that will allow the next step in a career pathway and fill a gap between the bachelors and masters degrees.

*What **State Needs** met by this program.*
**Information describing program need and why existing programs in VA system are not able to meet it.*
There is currently a nationwide shortage of engineers and technical mid-level managers in all technical fields. The shortage is acute for the construction industry in Alaska with its extreme seasonally, remote project venues, and transient workforce. The shortage is often more acute for Alaska governments with less flexible personnel polices. There is broad agreement that education that is specific to construction management can accelerate the learning cycle for newer engineers into management ranks. For example, about one-third of UAF CEE graduates go into construction directly, and most of the rest of them that stay in Alaska are involved in the construction project cycle. However engineering accreditation requirements make it difficult for them to take construction courses. They enter the difficult world of construction management lacking formal courses in contact and procurement law, construction planning

and cost control, labor relations, and myriad other topics. In addition, most graduates need skills in communications special to the project environment, including dealing with the public.

Both UAA and UAF have graduate programs in engineering management, but not construction management, although some of the engineering management courses might be used in the proposed program. This program approaches a different demographic than the established masters programs, namely those college graduate students with several years of construction experience who are: primarily interested in construction, not attracted to the traditional MS programs, and with employers that will encourage participation in the new degree program.

*What are the **Student** opportunities and outcomes? Enrollment projections?*
This program is designed to reduce the students' time to obtain a credential and improve the students' current job performance and career expectations by offering courses that are specific to the industry needs. Offering the classes in venues convenient to the students invites employer participation. We expect that the typical class size will be 10 to 15 students and 5 to 10 students will obtain degrees each year.

*Describe **Research** opportunities:*
This is not a research program.

Describe Fiscal Plan for development and implementation:

**Identify funding requirement, sources and plan to generate revenue and meet identified costs:*
The overall funding plan is to approach self-support The per credit charge will be double the standard tuition, with half going to CEM directly and half to UAF general tuition account (Fund I). Use of special tuition is warranted for this program, since it serves a special population and, generally, employers will sponsor most courses. UAF faces many demands on general fund dollars to support educational programs. Although there is demand for this program from the perspective of students and employers and significant state need, it does not have a high enough priority to compete for scarce state funds. Thus we propose to meet the needs by self support of the program. The employers will guarantee a minimum number of students. If there is capacity beyond that, students who do not work for that employer may register. Some courses will not be associated with an employer and will be "non-sponsored." The plan calls for administration of tuition and fees by UACP for corporate sponsors or CDE for individual students. The annual income, based on special tuition, offering 6 to 9 classes per year with 10 to 15 students would be $35,000 to $75,000. That, plus a workforce increment to the CEE budget should approach self-support, after the program is developed – two to three years.

**Indirect costs to other units (e.g. GERs, distance delivery)*
There should be no indirect costs other academic units. UAF SoM is participating in this as a partner of CEE, for SoM courses. The support of UA video conferencing is needed for classes that are offered in two locations. In the past, there has not been a charge for this. Students may use Blackboard and library services, but the costs per student should be no more than for typical students.

**Faculty and Staff*
UAF CEE needs another faculty member to help both with this program and other CEE construction management courses. The cost of this is approximately $105,000/year. At some point, the program might need a half time clerical worker. CEM currently has budget for about half this amount. Program revenues could potentially help provide the other half. Program revenues will be needed for overhead expenses such as, start-up, administration, and travel.

**Technology, Facilities and Equipment*
Generally, we plan to offer the classes in employer's locations or at other central off-campus locations. In general, fees for that venue would be paid by the course sponsor. In general, there should be no special charges for facilities or equipment. UA video conferencing has helped with IT for remote classes without charge.

The following was passed at the May 4, 2009 Faculty Senate Meeting #159:

MOTION:
=======

The UAF Faculty Senate moves to adopt the following calendar for its 2009-2010 meetings.

EFFECTIVE: Immediately

RATIONALE: Meetings have to be scheduled well in advance to allow for reservations at the Wood Center and to facilitate planning for Faculty Senate members.

The following was passed at the May 4, 2009 Faculty Senate Meeting #159:

MOTION:
=======

The UAF Faculty Senate moves to authorize the Administrative Committee to act on behalf of the Senate on all matters within its purview, which may arise until the Senate resumes deliberations in the Fall of 2009. Senators will be kept informed of the Administrative Committee's meetings and will be encouraged to attend and participate in these meetings.

EFFECTIVE: May 4, 2009

RATIONALE: This motion will allow the Administrative Committee to act on behalf of the Senate so that necessary work can be accomplished and will also allow Senators their rights to participate in the governance process.

President, UAF Faculty Senate — 4 May 2009 Date

UAF FACULTY SENATE #159
MAY 4, 2009
SUBMITTED BY THE OSYA SCREENING COMMITTEE

OUTSTANDING SENATOR OF THE YEAR AWARD
FOR
AMBER FLORA THOMAS

WHEREAS, Amber Flora Thomas' willingness to serve the university is evident in the fact that she joined the UAF Faculty Senate in her second year; and

WHEREAS, Amber Flora Thomas worked with quiet determination and persistence as co-chair of the Curricular Affairs Committee during 2008-2009; and

WHEREAS, Amber Flora Thomas persisted throughout the year to present a large number of complex and concise motions to the floor of the Faculty Senate; and

WHEREAS, Amber Flora Thomas represents the Curricular Affairs Committee on the Faculty Senate Administrative Committee; and

WHEREAS, Amber Flora Thomas has been able to help formulate program proposals that are complete, academically sound, and meet the needs of a wide range of UAF students; now

THEREFORE BE IT RESOLVED THAT, the UAF Faculty Senate recognizes Amber Flora Thomas as Outstanding Senator of the Year for Academic Year 2008-2009.

UAF FACULTY SENATE #159
MAY 4, 2009
SUBMITTED BY THE ADMINISTRATIVE COMMITTEE

RESOLUTION OF APPRECIATION FOR MARSHA SOUSA

WHEREAS, Marsha Sousa has served the UAF Faculty Senate in a manner deserving of the UAF Faculty Senate's highest admiration and respect; and

WHEREAS, Marsha Sousa has served as senator to the UAF Faculty Senate from 2006-2008, as chair of the Curricular Affairs Committee from 2006-2007; and

WHEREAS, Marsha Sousa has served as a member of the Administrative Committee from 2006-2009, as chair of the Administrative Committee and as president-elect of the UAF Faculty Senate from 2007-2008; and

WHEREAS, Marsha Sousa has served as a member of the UAF Governance Coordinating Committee from 2007-2009; and

WHEREAS, Marsha Sousa effectively advocated for UAF faculty and programs as a member of the UA Faculty Alliance from 2007-2009, particularly with regard to development of the charge for the statewide Academic Master Plan to ensure collaboration with the Faculty Senate; and

WHEREAS, Marsha Sousa has served as President of the UAF Faculty Senate from 2008-2009 and with sharp insight and patient determination has successfully led the Faculty Senate through difficult discussions with far-reaching implications for faculty and the direction of university programs; and

WHEREAS, Marsha Sousa has facilitated the passage through UAF Faculty Senate of no less than 15 occupational endorsements, undergraduate and graduate degrees and certificates; and

WHEREAS, The UAF Faculty Senate wishes to acknowledge the outstanding service rendered the faculty and the University by the work of Marsha Sousa as she concludes her term as president; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate acknowledges the many contributions of Marsha Sousa and expresses its appreciation for her exemplary service.

ORIGINAL

The Faculty Senate passed the following motion at Meeting #158 on April 6, 2009:

MOTION:

The UAF Faculty Senate moves to moves to reaffirm the Unit Criteria for the Marine Advisory Program (MAP).

EFFECTIVE: Fall 2009 and/or
Upon Chancellor's approval.

RATIONALE: The committee assessed the unit criteria submitted for review by the Marine Advisory Program (MAP). The unit criteria were found to be consistent with UAF guidelines.

Marsha Sousa 4-6-09
President, UAF Faculty Senate Date

APPROVAL: Susan Henrichs DATE: 4/8/09
Chancellor's/Provost's Office

DISAPPROVED: _____ DATE: _____
Chancellor's/Provost's Office

****

NOTE: Standard print is the original university criteria, **bold sentence font is the first 2004 unit criteria revision** and **ALL CAPS BOLD UNDERLINED TEXT WAS PROPOSED REVISIONS SENT TO THE UNIT CRITERIA COMMITTEE ON 3/20/09** AND ITEMS IN RED CAPS ARE REVISIONS SUGGESTED BY THE UNIT CRITERIA COMMITTEE AS CONDITIONS FOR APPROVAL ON 3/23/09.

UAF REGULATIONS FOR THE EVALUATION OF FACULTY: INITIAL APPOINTMENT, ANNUAL REVIEW, REAPPOINTMENT, PROMOTION, TENURE, AND SABBATICAL LEAVE AND MARINE ADVISORY PROGRAM (MAP) UNIT CRITERIA STANDARDS AND INDICES

The following is an adaptation of UAF and Board of Regents (BOR) criteria for promotion and tenure, specifically developed for use in evaluating faculty in the Marine Advisory Program (MAP). Items in boldface are those specifically added or emphasized because of their relevance to MAP faculty, and because they are additions and clarifications to UAF regulations. These unit criteria are for use in the annual evaluation of faculty as well.

CHAPTER I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The University, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience, and performance requirements are set forth in "UAF Faculty Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the Chancellor or Chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans or schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit shall establish procedures for advertisement, review and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

In accordance with the BOR policy on promotion and tenure, MAP agents and specialists have bipartite appointments. Bipartite responsibilities are to be clearly stated at the time of hire and can be any combination of two of the three tripartite missions, i.e., teaching, research, or service. A MAP faculty member can request a tripartite appointment in their employment contract if such a status is consistent with the goals of the Marine Advisory Program.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO

policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

MAP faculty members are designated at the time of hiring as either agents or specialists. AN AGENT IS A GENERALIST THAT DOES NOT REQUIRE CONCENTRATION OF THEIR WORKLOAD TO A SPECIFIC ACADEMIC, RESEARCH, OR SERVICE DISCIPLINE. SPECIALISTS CONCENTRATE THEIR WORKLOAD TOWARD A SPECIFIC ACADEMIC, RESEARCH, OR SERVICE DISCIPLINE AS DESIGNATED IN THEIR LETTER OF APPOINTMENT (EXAMPLES ARE: BUSINESS SPECIALIST AND FISHERIES SPECIALIST). **Workloads and evaluations are to be based on which of those two assignments the individual holds. A MAP faculty member may be granted a change of assignment based on his/her request and the needs of the program.**

CHAPTER III

Periodic Evaluation of Faculty

1. General Criteria

Criteria outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, **and MAP unit criteria, standards and indices,** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.
Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual

contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

MAP faculty may participate in formal teaching when the opportunity arises, however, standard academic teaching is not a common form of information delivery by the Marine Advisory Program. Instruction may include community-based or distance-delivered noncredit and/or credit courses, workshops, seminars, trainings and public presentations to adults or K-12 students. Instructional activities primarily deliver information relevant to community needs.

Development and preparation of instructional materials such as workshop outlines, training syllabuses or lesson plans, handouts, slide presentations, displays, lecture materials etc. are also components of MAP teaching activities. Educational videos and/or other media produced for public education are also included.

Marine Advisory Program agents usually function as generalists by contributing breadth and diversity in their teaching efforts. Rurally located agents usually respond to requests to develop and/or teach discrete sessions, workshops, or short-term courses on subjects not available to rural Alaskans.

Specialists have a depth of topical knowledge and primarily focus on teaching technical information in their specialty area to clientele.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers.

TEACHING IN THE CONTEXT OF A MAP ACTIVITY IS GENERALLY DEFINED AS PROACTIVELY PLANNED AND DELIVERED INSTRUCTION AND NOT A SERVICE RESPONSE TO AN IMMEDIATE PUBLIC NEED. OFTEN IN MAP, A TEACHING PROGRAM MAY BEGIN

AS A SERVICE ACTIVITY, BUT WITH CONTINUED REPLICATION WILL EVOLVE INTO A REGULARLY OFFERED INSTRUCTIONAL PROGRAM. **Map education differs from resident education in that the instruction is designed to deliver information relevant to specific clientele and public needs.** CLIENTELE MAY RANGE FROM K TO ADULTS AND THE GENERAL PUBLIC TO PROFESSIONALS.

Effective teaching must enable the learner to gain knowledge and/or skills that can result in changes to attitudes/behavior.

EFFECTIVE TEACHERS WILL DEMONSTRATE SOME, BUT NOT NECESSARILY ALL, OF THE FOLLOWING CHARACTERISTICS IN AN INDIVIDUAL YEAR.

EFFECTIVE TEACHERS:

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students **and clientele**;

b. express positive regard for students, **become familiar with their public,** develop good rapport with students **and clientele,** show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student **and clientele** participation for student learning and teacher effectiveness, are sensitive to student and clientele diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

2. Components of Evaluation

EFFECTIVENESS IN TEACHING WILL BE EVALUATED THROUGH ASSESSMENT OF INFORMATION PERTAINING TO FORMAL AND INFORMAL TEACHING , COURSE AND CURRICULUM MATERIAL,

INSTRUCTIONAL PUBLICATIONS, RECRUITING AND ADVISING, TRAINING/GUIDING STUDENTS, ETC., VALIDATED BY:

a. systematic student ratings i.e. student opinion of instruction summary forms, and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/ department chair evaluation of course materials.

EVALUATION OF TEACHING FOR MAP FACULTY:

Systematic university approved student evaluations are not usually available or appropriately designed to evaluate MAP teaching activities. In addition, instruction by MAP faculty is often conducted in rural locations where evaluation by peers or department chair is not available. However, a means of evaluation appropriate to the instructional content should be administered by the principal instructor whenever possible.

Additional indices for documenting effective teaching for MAP faculty SEEKING PROMOTION AND/OR TENURE TO ASSOCIATE PROFESSOR **may include:**

A. Evidence that teaching addresses client-centered needs, as expressed by requests for courses and by client/student participation in those courses;

B. Evidence that the teaching is meeting specific, quantifiable instructional objectives THROUGH STUDENT EVALUATIONS;

C. Demonstration of changes in knowledge, skills and/or attitudes/behavior resulting from MAP information TRANSFER THROUGH POST INSTRUCTIONAL EVALUATIONS, SURVEYS, AND TESTIMONIALS;

D. Clientele evaluations of both the instructional program and the instructor COMPETENCE AND EFFECTIVENESS;

E. Testimonials and/or repeated invitations to teach;

F. Documentation of contact hours with clientele as an assessment of response effort;

G. **Successful application of distance delivery of educational programming; and**

H. **<u>EVIDENCE OF SUCCESSFUL TEACHING BY DEVELOPMENT AND APPLICATION OF INNOVATIVE ORIGINAL TEACHING METHODS.</u>**

In addition to the indices of effective teaching, additional criteria that qualify a MAP faculty for promotion to the rank of professor may include:

1. **Development and/or adaptation of new methods and approaches in the discipline, such as:**

   A. **Creative use of media and/or distance- delivery methods of instruction which extends the bounds of the discipline and improves educational outreach;**

   B. **New curriculum or program development that improves the information transfer in the faculty member's area of expertise;**

2. **Regional, national and/or international recognition as an expert as illustrated through invitations to and presentations at conferences, meetings, workshops, and trainings;**

3. **Receipt of state or national awards in recognition of outstanding teaching;**

4. **Clientele/student reviews and/or evaluations that show continued quality performance as a teacher; and**

5. **Recognition through invitational teaching opportunities.**

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

Many MAP faculty have limited opportunities to conduct traditional research and limited or no access to laboratories and graduate students.

For MAP faculty, research, scholarly, and creative activities may consist of:

1. **Applied research designed to address specific client needs;**
2. **Production of peer reviewed informational media; and**
3. **Publication of peer reviewed publications.**

1. Achievement in Research, Scholarly, and Creative Activity
Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

1. They must occur in a public forum.
2. They must be evaluated by appropriate peers.
3. They must be evaluated by peers external to this institution so as to allow an objective judgment.
4. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity
Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

Additional indices for documenting effective teaching for MAP faculty SEEKING PROMOTION AND/OR TENURE TO ASSOCIATE PROFESSOR may include:

A. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

B. Competitive grants and contracts to finance the development of ideas; these grants and contracts being subject to rigorous peer review and approval.

C. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

D. Exhibitions of art works at galleries, selection for these exhibitions being based on rigorous review and approval by peers, juries, recognized artists, or critics.

E. Performance in recitals or productions; selection for these performances being based on stringent auditions and approval by appropriate judges.

F. Editing or refereeing articles or proposals for professional journals or organizations **and MAP or Sea Grant publications.**

G. Scholarly reviews of publications, art works and performance of the candidate.

H. Citations of research in scholarly publications.

I. Published abstracts of research papers.

J. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

K. Prizes and awards for excellence of scholarship.

L. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

M. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

N. New and unique adaptations of existing research-based technology or knowledge in order to solve problems relevant to Alaska.

Excellence in the areas of research or scholarly activity by MAP faculty which qualifies him/her for promotion to professor may include:

1. **Authorship of a book or major reference in the faculty member's area of scholarly activity;**

2. **Receipt of a national research fellowship;**

3. **Continuous performance in research with a corresponding publication record; and**

4. **Introduction of a new technology, product, or idea which demonstrably improves the quality of life for Alaskans, and is a clear result of a MAP faculty member's activity.**

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assume a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

For MAP faculty, a significant portion of each workload will consist of service. In general, this will be higher than that found in traditional faculty workloads and reflect the community or specific client needs approach of Marine Advisory Program educational activities.

1. **Public Service**

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities that extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.
b. Service on or to government or public committees.
c. Service on accrediting bodies.

d. Active participation in professional organizations.
e. Active participation in constituency organizations.
f. Active participation in discipline-oriented service organizations.
g. Consulting **in the faculty member's area of expertise and the discipline consistent with the obligation for public service**.
h. Prizes and awards for excellence in public service.
i. Leadership of or presentations at workshops, conferences, or public meetings.
j. Training and facilitating.
k. Radio and TV programs, newspaper or trade journal articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.
l. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.
m. Participation in K-12 educational programs
n. Assessing the research needs of clientele and communicating those needs to the research community.
o. Developing and managing effective community and agency partnerships which extend MAP resources and/ or develop leadership skills.
p. Representing and answering questions at public events.
q. Site visits for problems solving and consultation
o. Rapidly responding to urgent client needs in a timely, flexible, and appropriate manner.
p. Other service activities consistent with the School of Fisheries and Oceans Sciences to contribute to Alaska's coastal economy.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, departmental committees or governing bodies.
b. Consultative work in support of university functions, such as expert assistance for specific projects.
c. Service as department chair, or term-limited and part-time assignment as assistant/associate dean in a college, school, **or program.**
d. Participation in accreditation reviews.
e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.
g. Academic support services such as library and museum programs.
h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

3. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards, **invitations to participate at clientele meetings, conferences, and workshops**, and other public means of recognition for services rendered.

INDICES FOR PUBLIC AND UNIVERSITY SERVICE

In addition to university regulations on the evaluation of UNIVERSITY **AND public service,** Additional indices for documenting effective SERVICE for MAP faculty SEEKING PROMOTION AND/OR TENURE TO ASSOCIATE PROFESSOR may include **the following activities:**

A. Documentation of the quality and distribution of publishing popular press articles and newsletters;

B. Presentation of applied research results to user groups such as public agencies, governmental bodies, private businesses, constituent groups, and lay public, both in published and oral forms;

C. Quality and distribution of media presentations and public interviews, e.g., TV, radio, film, newspapers and videotapes;

D. Evidence of response to new knowledge and developments in the discipline by rapidly raising public understanding and awareness through available educational media and methods;

E. Results of individual consultations;

F. Role and effort involved in the development and planning of conferences and workshops;

H. Writing and distribution of MAP, School of Fisheries and Ocean Sciences, and Sea Grant publications;

I. Documentation of service activities conducted on a continuing basis;

J. Testimonials demonstrating effectiveness of service activities or other documentation which demonstrates the impacts of MAP faculty's public service;

K. Documentation of public needs and response;

L. Appropriateness of the response effort toward urgent clientele issues;

M. Development and maintenance of partnership relationships;

N. APPOINTMENTS TO PUBLIC, UNIVERSITY, AND PROFESSIONAL committees and any leadership role in committee assignments;

O. EVIDENCE OF SUPPORT PROVIDED TO UNIVERSITY FACULTY IN THEIR TEACHING, RESEARCH, AND SERVICE ACTIVITIES;

P. EVIDENCE OF APPLICATION OF APPLIED RESEARCH OR PROJECT RESULTS BY THE PUBLIC;

Evidence of leadership in service which qualifies a MAP faculty member for promotion to professor may include, but is not limited to:

1. Invitation to serve on national or international boards, review committees, award commissions or scholarship commissions;

2. Appointment or election to a leadership position on local, state, national, and international public service committees or organizations;

3. ENGAGED IN PROFESSION AND SCHOLARLY ACTIVITIES ON A NATIONAL AND INTERNATIONAL LEVEL;

4. National leadership in a professional organization;

5. Recognition through invitational speaking engagements on topics which constitute public service;

6. Evidence of effective application of professional expertise to professional or public processes and organizations;

7. **Service as committee chair. Session organizer, or officer of professional organizations;**

8. **Evidence of important contributions to the development of school, departmental, and/or university programs;**

9. **Recognition through receipt of public service awards, or awards for service to the university;**

10. **Receipt of a national association, government, or professional society service award; and**

11. **Participation in a voluntary mentoring relationship with junior faculty to facilitate their progress toward promotion and tenure.**

Revised March 23, 2009

ORIGINAL

The Faculty Senate passed the following motion at Meeting #158 on April 6, 2009:

MOTION:

The UAF Faculty Senate moves to moves to reaffirm the Unit Criteria for the CLA Department of Communication.

EFFECTIVE: Fall 2009 and/or
Upon Chancellor's approval.

RATIONALE: The committee assessed the unit criteria submitted for review by the Department of Communication. The unit criteria were found to be consistent with UAF guidelines.

UAF Regulations for the Appointment and Evaluations of Faculty and Department of Communication Unit Criteria, Standards, and Indices

The following is an adaptation of UAF and Board of Regents' criteria for annual review, pre-tenure review, post-tenure review, promotion, and tenure, specifically adapted for use in evaluating the faculty of the Communication deparment. Items in boldface italics are those specifically added or emphasized because of their relevance to the department's faculty, and because they are additions to UAF regulations.

Chapter I

Purview

The University of Alaska Fairbanks document, "Faculty Appointment and Evaluation Policies," supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. **Effectiveness in Teaching**
   Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

   a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

   b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

   c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

   d. emphasize regular feedback to students and reward student learning success;

   e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

   f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

   g. may receive prizes and awards for excellence in teaching.

   h. UTILIZE AND DEMONSTRATE THEIR KNOWLEDGE OF WHAT CONSTITUTES EFFECTIVE ORAL COMMUNICATION IN THEIR TEACHING METHODS.

   i. DEMONSTRATE CONSISTENT ATTENTION TO STUDENTS IN THE ROLE OF AN ADVISOR REGARDING UAF AND DISCIPLINE RELATED MATTERS.

   j. DEVELOP AND REVISE INSTRUCTIONAL MATERIALS FOR USE IN SUPPORT OF THEIR TEACHING.

   k. ACTIVELY PARTICIPATE IN AND CONTRIBUTE TO THE WORK OF THE FACULTY OR THE DISCIPLINE IN CURRICULUM MATTERS.

2. **Components of Evaluation**
   Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

ACHIEVEMENT IN RESEARCH, SCHOLARLY, AND CREATIVE ACTIVITY INVOLVES:

1. IDENTIFYING AND EXPLORING NEW RESEARCH PROBLEMS IN THE DISCIPLINE, AND/OR CRITICALLY EXAMINING EXISTING RESEARCH PROBLEMS TO PROVIDE NEW INSIGHTS.

2. DEVELOPING NEW METHODS, THEORIES, OR APPROACHES TO RESEARCH PROBLEMS IN THE DISCIPLINE.

3. DEVELOPING AND MAINTAINING A FOCUSED PROGRAM OR PROGRAMS OF RESEARCH.

4. DEMONSTRATING GROWTH IN KNOWLEDGE OF THE DISCIPLINE, OR GROWTH IN EMPIRICAL AND/OR CRITICAL RESEARCH ABILITIES.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Scholarly reviews of publications, art works and performance of the candidate.

g. Citations of research in scholarly publications.

h. Published abstracts of research papers.

i. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

j. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis.

EFFECTIVENESS IN PUBLIC SERVICE INVOLVES:

1. ACTIVELY PARTICIPATING ON AND CONTRIBUTING TO THE WORK OF PUBLIC AND/OR GOVERNMENTAL BODIES.

2. SUMMARIZING AND PRESENTING KNOWLEDGE IN THE DISCIPLINE FOR THOSE OUTSIDE OF UAF.

3. APPLYING THEORIES OR FINDINGS OF THE DISCIPLINE IN PUBLIC SERVICE.

Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations.

EFFECTIVENESS IN UNIVERSITY SERVICE INCLUDES:

1. ACTIVELY PARTICIPATING ON AND CONTRIBUTING TO THE WORK OF COLLEGE, UAF, AND STATEWIDE COMMITTEES, PANELS, TASK FORCES, ETC.

2. EXHIBITING LEADERSHIP AND MANAGERIAL EFFECTIVENESS IN POSITION IN THE DEPARTMENT, COLLEGE, UNIVERSITY OF ALASKA FAIRBANKS, AND STATEWIDE.

Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Professional Service

Examples of such activity include, but are not limited to:

a. Editing or refereeing articles or proposals for professional journals or organizations.

b. Active participation in professional organizations.

c. Active participation in discipline-oriented service organizations, OR ORGANIZATIONS CLOSELY RELATED TO THE DISCIPLINE. .

d. Committee chair or officer of professional organizations.

e. Organizer, session organizer, or moderator for professional meetings.

f. Service on a national or international review panel or committee.

4. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

The Faculty Senate passed the following motion at Meeting #158 on April 6, 2009:

MOTION:

The UAF Faculty Senate moves to confirm the nomination of Amber Flora Thomas for the 2009 Outstanding Senator of the Year Award.

EFFECTIVE:	Immediately
RATIONALE:	The Outstanding Senator of the Year Award Screening Committee has carefully reviewed the 2009 nomination of Amber Flora Thomas. The committee has concluded that Professor Thomas is a well-deserving candidate for this award. Procedure stipulates that a simple majority vote of the Senate shall confirm the nomination, and a formal resolution shall be prepared for presentation to the recipient at the May meeting of the Senate.

Marsha Sousa 4-6-09

President, UAF Faculty Senate Date

The Faculty Senate passed the following resolution at Meeting #158 on April 6, 2009:

RESOLUTION:

BE IT RESOLVED, That the UAF Faculty Senate ratifies the election of Catherine Cahill as President-Elect of the UAF Faculty Senate for 2009-2010 by affirmation.

BALLOT
PRESIDENT-ELECT

X Cathy Cahill

Marsha Sousa 4-6-09
President, UAF Faculty Senate Date

****

Catherine F. Cahill, Associate Professor of Chemistry

I am delighted and honored to be nominated for the position of President-Elect of the UAF Faculty Senate. As a tripartite faculty member with a joint appointment between the Department of Chemistry & Biochemistry and the Geophysical Institute, I feel I understand the needs of faculty conducting the important instructional, research and/or service missions of the university. I believe we can use shared governance to support UAF's faculty and academic programs, retain and highlight UAF's preeminence as the University of Alaska's research and Ph.D. granting campus, ensure the success of our students, and make the upcoming accreditation process as successful, and painless, as possible.

I have been a faculty member at UAF for 10 years and served on Faculty Senate for more than 5 years. During my time in Faculty Senate, I have chaired both the Graduate Academic & Advisory Committee (May 2005-May 2007) and the Faculty Affairs Committee (2008-present). Because I have chaired these two, very different, committees, I am well aware of the diversity of topics handled by the Faculty Senate and the importance of the Standing and Permanent Committees to the success of faculty and academic programs. I believe that we are going to need the full diversity of Faculty

The Faculty Senate passed the following resolution at Meeting #158 on April 6, 2009:

Senate to ensure a successful accreditation process and to demonstrate our position as the premier, Ph.D.-granting institution in the University of Alaska system.

I am a hereditary academic. Both of my parents taught at the University of California, Davis. This environment showed me both the joys and the challenges of being a faculty member. In spite of the challenges facing professors, I decided that I wanted to become a professor and dedicate my life to teaching, research and service. With that goal in mind I received my B.S. in Applied Physics from the University of California, Davis (1990), my M.S. in Atmospheric Sciences from the University of Washington (1994) and my Ph.D. in Atmospheric Sciences from the University of Nevada, Reno and the Desert Research Institute (1996). After a Fulbright Fellowship to University College, Galway, Ireland, and a stint as a Visiting Assistant Research Professor at the Desert Research Institute, I took up my current position as a faculty member at UAF. Since coming to UAF, I have taught courses ranging from general chemistry and chemistry for non-science majors through physical chemistry to graduate atmospheric sciences and environmental chemistry. I have graduated both Ph.D. and M.S. students and received a UAF award for outstanding undergraduate advising (2002). I have also successfully competed for external funding and participated in public, professional and university service.

I believe that UAF is an outstanding, and underappreciated, university. We need to work to highlight our successes and showcase the excellent education we give our students. UAF faculty must communicate our value to the people of the State of Alaska more effectively. Shared governance will assist us in these efforts. Also, as we prepare for our upcoming accreditation, shared governance will be vital for charting the course for UAF, determining our accreditation goals and laying out milestones toward attaining those goals. I look forward these tackling these challenges with you.

The Faculty Senate passed the following motion at Meeting #158 on April 6, 2009:

MOTION:

The UAF Faculty Senate moves to approve a Certificate in Ethnobotany.

EFFECTIVE: Fall 2009 and/or
Upon Board of Regents approval.

RATIONALE: See the full program proposal #73-UNP from the Fall 2008 review cycle on file in the Governance Office, 314 Signers' Hall.

Overview:

Kuskokwim Campus's (KuC) proposed Certificate in Ethnobotany (EBOT) will be the first program in the state of Alaska that will concentrate on traditional knowledge and uses of native plants by indigenous groups. It has grown out of a desire to maintain the traditional knowledge base that exists, to provide the educational foundation for further academic degrees, research, and entry-level positions; and to become the framework for potential development of new uses for native Alaskan plants. This certificate is designed to articulate into the Associate of Science (A.S.) degree, approved by UAF Board of Regents and Northwest Commission on Colleges and Universities (NWCCU) in summer 2008.

Indigenous plants play a major role in the everyday lives of all of Alaska's rural residents. While the western term "ethnobotany" may not be recognized by many of these traditionalists, the importance of indigenous plants and the crucial roles that the flora of the region plays in food, medicine, and community well-being are recognized by all. The EBOT Program will build upon a substantial base of knowledge already in place within rural Alaska. EBOT instructors will be able to draw upon the copious local base of traditional knowledge, regionally-recognized traditional ethnobotanists, and traditional healers who have committed their lives to this science.

KuC is one of the two-year rural campuses of the College of Rural and Community Development (CRCD), University of Alaska Fairbanks (UAF), located in Bethel, Alaska. Bethel is 400 air miles west of Anchorage, the nearest metropolitan area, and lies 70 miles from the mouth of the Kuskokwim River on the Bering Sea. The KuC service area encompasses the Wade Hampton and Bethel census units, and the combined area of these two census units is 57,827 square miles – approximately the size of the state of Illinois. The region covers the lower delta area of the Yukon and Kuskokwim rivers (Y-K Delta). The natural landscape is primarily wet to moist tundra (treeless) with a maze of rivers, streams, ponds and lakes formed through eons of deposits by these two large rivers.

KuC serves 46, primarily Yup'ik/Cup'ik and a few Athabascan, villages with 56 tribes in the Y-K Delta and is the only institution of higher education located in this geographic area. Alaska Natives consistently comprise over 70 percent of the KuC student enrollment. The Yup'ik people are the largest group of Native Americans in Alaska to remain on their traditional lands, speak their native language, and practice a subsistence lifestyle. Year-round hunting, fishing, and related seasonal subsistence practices govern community and family life. Yup'ik/Cup'ik societies continue to emphasize traditional values related to the relationship between the people, the land and customarily used resources.

The proposed Certificate in Ethnobotany is being developed to address several interests. First, statewide statistics on higher education attainment for Alaskans are troubling. Only 28% of 9th graders in the state of Alaska enroll in college four years later. Only 18% are still enrolled in their sophomore year and only 6% graduate from college within six years (Source: NCES: Common Core Data, IPEDS Residency and Migration, Fall Enrollment, and graduation rate surveys, 2004). The educational needs in rural Alaska are particularly acute. High school graduation rates in the Y-K region are the lowest in the state. The results of needs assessments conducted by KuC in the Y-K region noted that many students show neither an aptitude for nor interest in science,

technology, engineering and math (STEM) fields. Improving these statistics will involve effort on many fronts and one is developing programs that can engage students' interest before they get to college, encouraging them to stay in school, enroll in college, obtain useful and marketable skills, and perhaps continue towards a four-year degree. Ethnobotany, a discipline that is intimately connected with the traditional lifeways of rural Alaskans, is a program that can dramatically increase the number of rural students in university courses because it brings academic credence to a familiar and valued aspect of their subsistence lifestyle.

Secondly, there is no ethnobotany degree at the certificate, associate, baccalaureate, or post-graduate levels at any institution of higher learning in the state. With approval of this program, UAF will become the first institution in the United States to provide a Certificate in Ethnobotany (EBOT) and at the A.S level. Currently there are only a handful of colleges and universities in the whole of the United States that award degrees in Ethnobotany and all of them are at more advanced degree levels – either Bachelors or Masters degrees (McClatchey, etal , *An Evaluation of Educational Trends in Economic and Ethnobotany* February 1999 in CIEER - Centre for International Ethnomedicinal Education and Research). In addition, none of the Tribal Colleges in the US with certificate programs offer one in Ethnobotany. Currently, to become trained in Ethnobotany a student must attend an out of state program, as well as pay out of state tuition costs. A multi-year absence from Alaska may result in a student not returning to the state for employment. The EBOT program will provide students with the opportunity to gain academic credentials in a science-oriented field while remaining in their home communities.

Throughout the development of this program we have sought input from local experts both from rural communities and within UAF. An EBOT Advisory Board was assembled in 2006 to help guide the development of this program and it includes the following members (see Appendix A): Ann Garibaldi, Craig Gerlach, Pat Holloway, Stefanie Ickert-Bond, Betty Rogers, Gloria Simeon, and Charles Walsh. In addition we have solicited the expert knowledge and assistance of the EBOT Elder Council (see Appendix B) to help establish a baseline of current traditional knowledge and assemble information for the upcoming publication, *A Yup'ik Manual of Ethnobotany*, which will become the foundation for the EBOT program at KuC and a resource for the communities in the Yup'ik speaking region of Alaska.

The EBOT Program has strong potential for advancing and enriching experiential educational opportunities and offerings in science in rural Alaska. Grounding the new ethnobotany certificate in ethnoscientific and ecological knowledge of Native Alaskans features a rich multidisciplinary foundation that will invite interest from beyond the Y-K region.

The State of Alaska has a great need for individuals trained in the sciences in both rural and urban areas. The EBOT Program, another option for students in the associate of science degree or a specialization for those who advance to baccalaureate programs in STEM fields at other campuses and universities, will offer a core EBOT certificate, including basic biology, chemistry, and math, from which the student can articulate to newly created A.S. degree at CRCD campuses. This program will be a rural-oriented program that is easily adapted for statewide delivery.

Additional employment and educational fields can be entered upon completion of this program. The program will provide a strong educational starting point for students interested in entering an undergraduate program, and students will be able to continue their ethnobotanical studies in several different areas: Biology, Anthropology, Plant Sciences, Linguistics, Yup'ik Language, Education, and Art, for example. In addition, the EBOT certificate will provide a solid transition into other rural-centric programs such as Tribal Resource Management, Rural Development, and Alaska Native Studies.

Course work to complete the Ethnobotany certificate will take approximately two to five years as students entering this program will enter at many different skill levels. Highly motivated students can complete this program within the two-year time frame. Completion time is dependent on many factors affecting students, including number of classes taken per term, job, work, and family commitments. Classes will be delivered primarily by distance education, as well as face-to-face field courses and intensives at KuC, as needed.

Distance delivery in the Y-K region is now being enhanced by the recent partnership that KuC has made with a local phone company, United Utilities Inc. (UUI). Through this project, training of 12 village technology specialists (in communities where UUI has installed satellite towers to support Internet connectivity) is being supported. The agreement has provided nearly $67,000 to KuC for training (*University of Alaska Kuskokwim Campus Component Budget Summary*, State of Alaska FY08 Governors Budget, *http://gov.state.ak.us/omb/08_OMB/budget12.15.07/UA/comp746.pdf*.

Objectives of the EBOT Certificate program:

The Ethnobotany Certificate program fits well within the overall mission of CRCD by providing an entry-level academic area of study that focuses on the cultural and natural resources of the communities in the Y-K region. This area of Alaska represents one of the most culturally intact indigenous populations in the state and, indeed, in the United States as a whole. The communities are mostly subsistence-based, both in spirit and in economy. People of the region are still considered traditionalists; subsistence hunters and gatherers who combine primarily seasonally available wage employment. Few of the professional and managerial jobs are occupied by people from the region. The EBOT program will help to further the mission of Kuskokwim Campus (KuC) by providing new educational opportunities that will allow local people to gain the credentials they need to assume these leadership positions. This will promote economic development and community wellness, in addition to reducing the high cost of importing expertise and services. Students will also be able to investigate related areas of personal and community interest and need through the EBOT electives choices.

The EBOT program is designed to provide students with a smooth segue to the further pursuit of associate and baccalaureate programs.

Objectives of the EBOT Program:

- To provide quality interdisciplinary academic instruction in the areas of biology, botany, ecology, anthropology, and chemistry so that students may gain the skill sets needed to become active stewards in natural and cultural resource management in their communities.

- To provide culturally relevant research opportunities for KuC students and faculty in the life sciences. Partnerships developed will include organizations such as UAFs Institute of Arctic Biology, US Fish and Wildlife Service, Alaska State Fish and Game, NIMA Corporation, Hawaii community colleges, the Pacific Alliance, Alaska Native Science and Engineering Program, etc.

- To provide students, in their home communities, with an attractive, culturally relevant curriculum and an intermediate step in entering the associate and baccalaureate academic pathway in the sciences.

- To provide training that can be used as a stepping stone to higher-level positions for an underemployed rural workforce.
- To promote awareness of the scientific significance and economic potential of Alaska's native flora and model efforts supporting the development of regional economic ethnobotany initiatives and knowledge-based economies in the Yukon-Kuskokwim Delta and all of rural Alaska.

Proposed general catalog layout

Ethnobotany Certificate
College of Rural and Community Development
Kuskokwim Campus
(800) 478-5822
www.bethel.uaf.edu

Ethnobotany Certificate:

An Ethnobotany (EBOT) Program Certificate represents the completion of 30-32 credits in the interdisciplinary study of the role of native plants in indigenous cultures. Students will gain an understanding of native plants, their uses and ecology, in the context of their cultural, social, and economic importance by combining scientific and anthropological concepts and methods in tandem. The certificate emphasizes culturally relevant, place-based course offerings that highlight the ways that this information contributes to other fields of study, such as cultural and natural resource management, community development, adaptive resilience, and human health. It is also designed to serve as a bridge to a variety of natural science and liberal arts associate and baccalaureate programs.

Admission is open to all individuals, especially those employed by or interested in employment with state, federal, or tribal agencies or other local entities in rural Alaska which provide natural resources management services.

Students should have a high school diploma or GED and an interest in science–related fields. It is strongly recommended that students seeking admission to this program have completed two high school, lab-based science courses preferably in biology, chemistry, or physics.

Students whose ACT/SAT scores are not high enough to place them into regular college level classes will be required to take the ASSET, COMPASS, or Accuplacer test and will be placed into the appropriate developmental level course.

To remain in good standing, students must:

a) Maintain an overall 2.0 grade point average
b) Maintain a C grade or better in all required courses

Ethnobotany Certificate Program

1. Complete general university requirements (page 86)
2. Complete the following certificate requirements.....**9-10 credits total**
   a. **Communication**.....**3 credits**

ENG 111X or ABUS 170

b. **Computation .....3-4 credits**
DEVM 105 or MATH 103X or Math 107X (4 credits)

c. **Human Relations .....3 credits**
ANTH/SOC 100X or ABUS 154

3. Complete the following program requirements.....**21-22 credits total**

Natural Science Core Courses (8 credits total)
BIOL 103X (4 credits) – Biology and Society
or
BIOL 104X (4 credits) – Natural History of Alaska
or
BIOL 116X (4 credits) - Fundamentals of Biology II*
and
CHEM 103X (4 credits) – Basic General Chemistry
or
CHEM 105X (4 credits) – General Chemistry I**

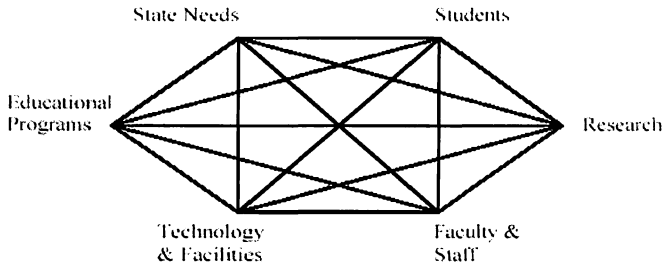
Ethnobotany Core Courses (10 credits total)
EBOT 100 (3 credits) - Introduction to Ethnobotany
EBOT 200 (1 credit) – Seminar in Ethnobotany
EBOT 210 (1 credit) - Ethical Wildcrafting
EBOT 220 (2 credits) – Ethnobotanical Techniques
EBOT 230 (3 credits) - Ethnobotanical Chemistry

Electives (advisor-approved 100 or 200 level course) from the following subject areas (3-4 credits total):
ANL, Alaska Native Languages
ANS, Alaska Native Studies
APAR, Applied Art
ANTH, Anthropology
ECON, Economics
ED, Education
ENGL 212, or ENGL 213X
ESK, Eskimo
BIOL, Biology
NRM, Natural Resource Management

Minimum Credits Required.....30-32 credits total

**Course requires BIOL 115X, CHEM 105X, and placement in ENG 111 and MATH 107X*
***Course requires placement in ENG 111 and MATH 107X*

Appendix D



RESOURCE COMMITMENT TO THE
PROPOSED ETHNOBOTANY CERTIFICATE PROGRAM

University of Alaska Board of Regents
Program Approval **Summary Form**

MAU: UAF (CRCD, KuC)
Title: Certificate in Ethnobotany (EBOT)
Target admission date: Fall 2009

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

This program will encourage rural students to continue their formal academic education beyond high school and to pursue science based studies, an area where few Alaska Natives are currently enrolled. Because native plant use is already an integral part of many rural peoples' life-skills, ethnobotany is an area of high interest to rural students and is one that has immediate applicability. The EBOT program will provide a new learning path for rural, primarily Alaska Native, students to become interested in science as it applies to their lives. The program will also encourage students who wish to pursue undergraduate work in a variety of fields, including: botany, biology, anthropology, business, or education.

The EBOT program represents collaboration between rural community members, professional ethnobotanists, traditional native plant practitioners, University faculty, the Georgeson Botanical Gardens, the UA Museum, and the Alaska business community. Our EBOT Advisory Board (see Appendix A) includes members from all areas listed above who are dedicated to providing culturally and regionally relevant academic instruction to students. This fertile collaboration is bolstered by the participation of many Elders (see Appendix B) from the Y-K region who have shared and continue to share their traditional knowledge of plants with the instructors and students helping to develop the EBOT program.

This type of grass roots effort to create a community-driven program epitomizes the mission of CRCD, whose goal is to be an "engaged institution, positioned to respond to students and partners in developing the economic and social well-being of Alaska Native communities and beyond". It also fits well with UAF's stated purpose to promote student success, provide educational opportunities with an Alaskan emphasis, and facilitate community development for all state residents.

While this is a relatively new field of academic study, the EBOT certificate program is not yet a requirement for other programs. It is, however, designed to provide a new avenue into a variety of existing associate and baccalaureate degree programs, including biology, anthropology, botany, and natural resource management. This training will also provide students with the opportunity of developing the necessary credentials required to gain entry-level employment in local agencies and businesses of the type previously mentioned that were requesting closed-cohort classes from KuC.

The EBOT program will provide educational opportunities for students throughout the state without requiring them to change or leave their culture or heritage. This will be accomplished by using a combination of traditional knowledge systems, standard instructional methods, and cutting edge distance delivery technology. The Kuskokwim Campus is committed to educating Alaska Native and rural residents, assisting them to affect social changes in their communities, thereby enriching the quality of their lives and cultures. The EBOT program applies directly to UAF's emphasis on knowledge related to "Alaska, the North, and their diverse peoples".

What **State Needs** are met by this program.

There is a well-documented need for skills-based education in rural Alaska, and CRCD is ramping up to be able to provide more of the necessary training to its rural community members, as evidenced by the large increase in certificates and personnel that have been added to their ranks in the past several years. Two of these recently-approved certificates, Veterinary Science and High Latitude Range Management, serve as models for community-driven program development.

Like most other states in the US, Alaska does not have an Ethnobotany program. The new EBOT program will represent a significant level of academic innovation by creating the first Certificate in Ethnobotany at the associate of science level available at any institution of higher learning in the state and, indeed, the nation.

Ethnobotany has applications in natural and cultural resource management, home and community business development, community health and well-being, education, and ecotourism. All of these areas are in dire need of educated employees working for local and tribal governments to deal with related issues. This program will provide additional educational opportunities so that local people can gain the credentials they need to assume leadership positions in their communities and begin to reduce the high cost of importing expertise and services.

Urban Alaska would be served by providing a source of regionally-relevant natural and cultural knowledge of the native flora of Alaska. This widely untapped natural resource is available to all Alaskans, both rural and urban.

What are the **Student** opportunities and outcomes? Enrollment projections?

The EBOT Program has been designed to provide students with culturally relevant coursework that has not been previously available. We are encouraged that in the EBOT courses that have been successfully piloted (taught under ANTH and EBOT designators) student response has been very positive. The fact that EBOT courses build on extant community knowledge and life skills means that we have begun with material that will help to address the unique cultural and economic conditions within rural Alaska. Other programs that do this well, including Tribal Management, Construction Trades, and Rural Human Services, have been shown to be successful at attracting and retaining students here at UAF.

The skills and competencies that EBOT students will learn are part of the overall education required to work effectively at an entry level in the fields of ethnobotany, biology, botany, and anthropology. As the demand throughout rural Alaska for regionally-relevant education increases EBOT certificate recipients will have achieved the training skills necessary for entry level employment in natural and cultural resource management, including: local/regional native corporation, Alaska Department of Natural Resources, and US Fish and Wildlife Service. Other occupational opportunities for Ethnobotany Certificate recipients include entrepreneur and ecotourism guide.

An outstanding example of how ethnobotanical opportunities have already begun to be realized in Alaska is *Arxotica* (*http://www.arxotica.com/*), the winner of the top award ($60,000) at the Alaska Federation of Natives (AFN) 2007 Alaska Marketplace competition (*http://www.alaskamarketplace.org/50.cfm*). This company, created and run by the Sparck triplets (three Alaska Native women from the Y-K Delta region), produces "a range of designer skin-care

products of which key ingredients are those traditionally hand gathered from the wilderness that characterizes much of the 42 million acres of the Yukon/ Kuskokwim Delta". Another successful Alaska Native-run ethnobotanical business is *Yup'ik Way*, created and operated by Gloria Simeon (EBOT Advisory Board member), also from the Y-K region of Alaska. While the considerable potential of this type of entrepreneurial endeavor is evident, it is important to note that these companies were forced to go outside of Alaska to obtain the expertise needed to realize these accomplishments because we they were unable to find it here. We will begin to rectify that situation with the EBOT program.

In the past several years KuC has been laying the groundwork for the EBOT program by offering several programs that emphasize training in the fundamentals of science, technology, engineering and math (STEM) fields; including formal efforts like the Emerging Scholars Program (KuC's first-generation college student recruiting and retention program), the NSF-TCUP STEM bridging program, and the summer Talent Search (federal DOE TRIO grant) program geared toward junior high and high school students. Given that this type of science training groundwork has been laid, the EBOT program is in an excellent position to take advantage of this situation and to begin enrolling students by Fall 2009. With a minimum of eight students per year, this program will be serving 24 students by 2011.

Describe **Research** opportunities:

The primary focus of the EBOT certificate is to provide students with a strong academic foundation in science. This type of background will open many doors for rural students in their own future academic endeavors because the program is designed to dovetail into the Associate and Bachelors of Science degrees.

Since one of the goals of the EBOT program is to provide culturally relevant research opportunities for KuC students and faculty in the life sciences, successful completion of the EBOT program requirements will facilitate active development of and participation in research projects by rural and Native Alaskan students and rural campus faculty. The KuC ethnobotany faculty member, Dr. Jernigan, has already met with potential collaborators on the KuC and UAF main campuses and is beginning to develop partnerships with researchers and other stakeholders working in the Y-K region on current and future projects. Students will be included in these research efforts apace, as they progress through the EBOT program. This model of research collaboration can extend to other rural campuses in the state that have also incorporated science instruction into their curriculum.

The paucity of scientifically-trained rural students available to work with researchers on ongoing research projects in rural communities will begin to be addressed, as students become familiar with faculty and research methodology. With this increased awareness will come increased understanding and, it is hoped, an increase in the amount of rural/urban collaboration within the state.

By keeping tabs on student progress, the EBOT program will be providing much-needed data regarding efficacy of distance delivery of courses and community response to regionally-tailored University programs.

Describe **Fiscal Plan** for development and implementation:

Funding for development and faculty salary for the EBOT certificate have been provided by the United States Department of Agriculture's (USDA) Alaska Native/Native Hawaiian Serving Institutions (AN/NH) Higher Education program, whose mandate is to increase the presence of

Alaska Natives and Native Hawaiians in USDA careers. Ethnobotany represents an excellent tie-in for USDA because the practice of using plants as food, medicinals, and fuel is deeply rooted in Alaska Native culture as well as the study and practice of agriculture throughout the world.

Current USDA funding for the program extends to 2011, and also includes coverage of expenses for 20 students to complete the EBOT Certificate program. Much of the cost of student support is allocated to student travel, as EBOT 100 (Introduction to EBOT) is designed to be taught in a natural field setting. Because the success of the EBOT program is of such high priority to KuC, many of the full time faculty and staff there will also be contributing part of their time (total of 55% FTE faculty, 60% FTE support staff) to instruction and student support. KuC also has available for use by the EBOT program 3879 SF of instruction, office and lab space, as well as $52,810 in-kind contribution of networking hardware and software.

The EBOT program will be available to University campuses throughout the state and could generate between at least $9,600 if the minimum of 8 students take an average of 10 credits ($120/credit) per year. We anticipate that as student participation increases these fees will be covered by sources other than grant funding, including village and regional Native corporations. These partnerships have sustained many successful rural programs at UAF (Rural Human Services, Tribal Management, and Construction Trades, for example) and have the potential to do the same for the EBOT program.

The Faculty Senate passed the following motion at Meeting #158 on April 6, 2009:

MOTION:

The UAF Faculty Senate moves to approve an integrated B.S./M.S. degree program in Mechanical Engineering.

EFFECTIVE: Fall 2009 and/or
Upon Board of Regents approval.

RATIONALE: See the full program proposal #32-UNP/#18-GNP from the Fall 2008 review cycle on file in the Governance Office, 314 Signers' Hall.

Marsha Sousa 4-6-09
President, UAF Faculty Senate Date

APPROVAL: Susan Henrichs 4/8/09
Chancellor's Office DATE:

DISAPPROVED: _____
Chancellor's Office DATE: _____

****

Approved at the June '09 BOR meeting.

Proposal Summary

The Department of Mechanical Engineering proposes a NEW integrated B.S./M.S. degree program for qualified undergraduate students to complete B.S. and M.S. degrees in a shorter time than traditional B.S. plus M.S. degrees.

Background

The Department of Mechanical Engineering proposes a combined accelerated degree for Mechanical Engineering undergraduate students. This program is designed for students to complete both a Bachelor of Science and a Master of Science Degree in five years. The basic rationales for the program are:

1. Better use of University resources
2. Leverage existing strong B.S. programs to increase graduate enrollment
3. A national trend in a highly demanding field
4. An attractive option for qualified undergraduate students

Proposed Catalog Layout:

1. Complete the following admission requirements:
    a. ME major (junior preferred) or senior standing.
    b. GPA 3.25 or above (based on minimum of 24 credits in ME major requirements). Students
    must maintain a cumulative GPA of 3.0 to remain in the program.
    c. Submit three letters of references.
    d. Submit GRE (general) scores.
    e. Submit a study goal statement.
    f. Submit a UAF graduate application for admission.

2. Complete the general university requirements.

3. Complete B.S. degree requirements (As part of the B.S. degree requirements, complete MATH F201X, PHYS F211X and PHYS F212X).

4. Complete the master's degree requirements.

5. Complete the following B.S. program (major) requirements:

    ES F101-Introduction to Engineering 3
    ES F201-Computer Techniques 3
    ES F209-Statics 3
    ES F210-Dynamics 3
    ES F301-Engineering Analysis 3
    ES F307-Elements of Electrical Engineering 3

ES F331-Mechanics of Materials 3
ES F341-Fluid Mechanics 4
ES F346-Basic Thermodynamics 3
ESM F450W-Economic Analysis and Operations 3
MATH F202X-Calculus 4
MATH F302-Differential Equations 3
ME F302-Dynamics of Machinery 4
ME F308-Measurement and Instrumentation 3
ME F313-Mechanical Engineering Thermodynamics 3
ME F321-Industrial Processes 3
ME F334-Elements of Materials Science/Engineering 3
ME F403-Machine Design 3
ME F408-Mechanical Vibrations 3
ME 415W-Thermal Systems Laboratory 3
ME 441-Heat and Mass Transfer 3
ME 487 W,O-Design Project 3

6. Complete the following M.S. program (major) requirements:

ME F631-Advanced Mechanics of Materials 3
ME F634-Advanced Materials Engineering 3
ME F641-Advanced Fluid Mechanics 3
ME F642-Advanced Heat Transfer 3
ME F608-Advanced Dynamics 3

7. Complete the thesis or non-thesis requirements:

Thesis
Complete the following:
ME F699-Thesis 6
Electives* 9

Non-Thesis
Complete the following
ME F698-Project 3
Electives** 12
*At least 3 credits at the graduate level.
**At least 6 credits at the graduate level.
Electives are ME or other engineering, science, or mathematics courses at F400-level or above approved by the student's advisory committee.

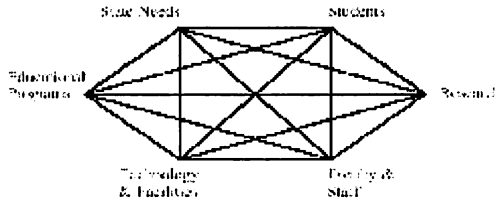
8. A minimum of 150 credits is required for both degrees.

Note: This degree program must be completed in 7 years or the student will be disqualified from the program. If a student is disqualified for exceeding the 7 year limit

for the fast track degree program, a ME B.S. will be awarded if: 1) completed in 10 years, and 2) meet ME B.S .requirements.

Taken separately, the degrees would require 161 credits (131 B.S. and 30 M.S.). The difference of 11 credits comes from the electives of the B.S. program:

a. Taking the B.S. degree and the M.S. degree separately, the student needs to take 11 elective credits (6 for ME electives, 3 for technical electives, and 2 for free electives) for the B.S. degree, another 9 or 12 graduate elective credits for the M.S. degree for the non-thesis and thesis option, respectively.
b. Taking the B.S./M.S. degree, the student needs to take 9 or 12 elective credits (for thesis and non-thesis option, respectively) instead of both B.S. elective credits and M.S. elective credits.



The minimization of overlaps, maximizing the benefits of continuity, and taking graduate level courses in lieu of undergraduate ones justify the reduction.

Resources Requirements

The department had a peak of enrollment of 22 M.S. students in 2003 and 2004 without any issues in resources. Consequently, we are not requesting additional resources for the proposed program.

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks
Title: Fast Track Mechanical Engineering Bachelor/Master Degrees
Target admission date: Fall 2009

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

The proposed program aims to fulfill the education mission of the Department of Mechanical Engineering: To offer the highest quality, contemporary education at the undergraduate and graduate levels and to perform research appropriate to the technical needs of the State of Alaska, the nation and the world.

We have discussed the development of the program within the department, faculty staff and students, colleagues at UAF including the Computer Science Department which has a similar program to the one being proposed. Since this is a Mechanical Engineering specific program, there should be no impact on other existing programs.

What State Needs met by this program

The proposed program, through retaining and advanced training of our own excellent undergraduate students, will provide much needed high-quality workforce for the State of Alaska for economic development.

What are the Student opportunities and outcomes? Enrollment projections?

The combined accelerated degree for Mechanical Engineering undergraduate students is designed for excellent students to complete both a Bachelor in Science and a Master in Science in five years. Students receive advanced training by taking graduate level classes and conducting high-level research at a reduced cost and reduced time. The training should enhance the career paths and options of the graduates.

Projected enrollment is 4 to 8 students per year with a maximum of 30 students total.

Describe Research opportunities:

Students will conduct research through either the project or thesis option. There is a wide range of challenging research topics and projects, many are cold-regions related, for the students to choose.

Describe Fiscal Plan for development and implementation:

Existing resources are adequate for the proposed program.

Approved at Feb. 2011 BOR upon further revisions.

Brief Statement of Program:

Mission:
The mission of the UAF Film Program is to provide students with a critical understanding of the history, theory and technologies of cinema and new media arts, while giving students the opportunities, tools and resources needed for careers in media industries, to pursue graduate study, or become media artists. Through an interdisciplinary approach to film and media studies, the program will produce media literate professionals who can play a leading role in an increasingly information-centered world where virtually every profession will require skilled media creators.

UAF Film Program students will have the opportunities to produce their own creative, time-based content for a wide variety of multi-media applications. Emphasis will be placed on the cultures, lifestyles and environments of Alaska and the North, and the unique opportunities they afford for skilled media creators and artists.

Objectives:

- To unify disparate courses offered throughout the UAF campus into one comprehensive degree curriculum.
- To maintain the interdisciplinary nature of film by integrating faculty, courses, and resources at UAF into a multi-faceted degree program.
- To serve the needs and interests of students of the digital age with comprehensive education.
- To recruit new students and retain students currently studying film at UAF who anticipate transferring to film degree programs outside of Alaska.
- To provide experiential learning opportunities to UAF undergraduate students in the cinematic arts
- To enhance the visibility of UAF, its research, faculty, and students through multi-media projects.

B.A. Degree

Minimum Requirements for Degrees: 120 credits

The mission of the UAF Film Program is to provide students with a critical understanding of the history, theory and technologies of cinema and new media arts, while giving students the opportunities, tools and resources needed for careers in media industries, to pursue graduate study, or become media artists. Through an interdisciplinary approach to film and media studies, the program will produce media literate professionals who can play a leading role in an increasingly information-centered world where virtually every profession will require skilled media creators.

UAF Film Program students will have the opportunities to produce their own creative, time-based content for a wide variety of multi-media applications. Emphasis will be placed on the cultures, lifestyles and environments of Alaska and the North, and the unique opportunities they afford for skilled media creators and artists.

Film Major – B.A. Degree

1. Complete the general university requirements.
2. Complete the B.A. degree requirements, including 39 credits of upper division.
3. Complete the following program major requirements. Students must earn a grade of C or better in each course.

   a. Complete the following 18 credits required of all film majors:

   FLM/ENGL F217- Introduction to the Study of Film 3
   FLM/THR F271- Let's Make a Movie 3
   FLM/JRN F290 – Digital Video Editing 3
   FLM/THR F334W – Movies and Films 3
   FLM/THR F331- Directing Film/Video 3
   FLM/JRN F480 – Documentary Filmmaking 3
   18 Credits

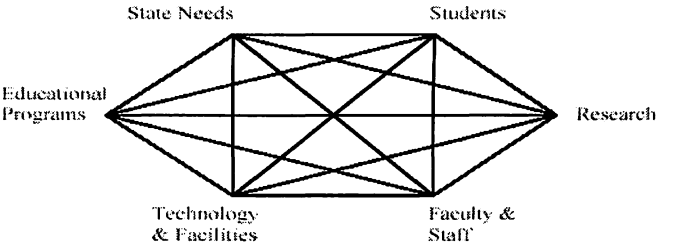
   b. Complete a minimum of 6 credits from Film Studies, including at least one upper division course:

   FLM/JRN F105 - History of the Cinema 3
   FLM/THR F215 - Dramatic Literature 3
   FLM/ENGL F365- Screen writing 3
   FLM/ANS F381 – Alaska Natives in Film 3
   FLM/ JRN F308 – Film Criticism 3
   FLM/JRN/HIST F368 - Topics in American Film History 3
   FLM/ENG F427 - Topics in Film Studies 3
   6 Credits

   c. Complete a minimum of 12 credits from Film Production, including at least one upper division course:

   THR F121—Fundamentals of Acting 3

FLM/THR F245 – Stage and Film Production Management 3
FLM/JRN F251 – Television Production 4
FLM/JRN F280 – Video Storytelling 3
FLM/THRF325—Acting for the Camera 3
FLM/ART F371 Digital Photography and Pixel Painting 3
FLM/THR F347O—Lighting Design 3
FLM/THR F348—Sound Design in the Entertainment Industry 3
FLM/THR F470—Advanced Film and Video Directing 3
FLM /ART F472- Visualization and Animation 3
FLM/ART F475 – Digital Video Compositing 3
FLM/ENG/THR F488 – Dramatic Writing 3
FLM F481 - Special Topics in Film Production 3
FLM F493 – Independent Study 3
FLM F418 – Internship in Film Production 1-6
FLM F498 – Film Research 3
FLM F499- Film Thesis 3



12 Credits

4. Of the above, students must complete 15 credits at the F300- or F400- level, at least 6 credits of which must be at the F400-Level
5. Minimum credits required for Film Major 36
6. Minimum credits required for B.A degree 120
7. Courses used to satisfy the major cannot be used for the minor.

VII Resource Impact

A. Budget - Resource Commitment Form (Signed copy Attached)

Computer & Networking (in dollars)				
Research/ Instructional/ office Equipment (in dollars)	$20,000			$20,000
Support Staff (FTE's & dollars)	.10 FTE - $2480			$2480
Supplies (in dollars)	$250	$500	Materials Fees (9159) $1500	$2250
Travel/Services Software license, phone, copies, airfare, etc. (in dollars)	$250	$1000		$1250

Regents Guidelines
University of Alaska Board of Regents
Program Approval Summary Form

MAU: UAF
Title: Film
Target admission date: Fall 2010

How does the program relate to the **Education** mission of the University of Alaska and the MAU?

The movement towards a major degree in Film began in 1991 when Associate Professor, Anatoly Antohin, founded the UAF Film Club, followed by the approval of the Film Studies minor in 1992. Since this time, the departments of Theatre (who houses the film minor), English, Journalism, and Art, with assistance from the Center of Distance Education, have collaborated to offer courses that meet the needs of this requirement. Each of the aforementioned academic programs have independently, and collaboratively, added courses, technologies, and faculty proficient in areas of Film. The annual assessments of the theatre department from 2000-2004 clearly indicated a growing trend in student interest and previous academic work in media arts, with a decline in performing arts at the high school level. In 2005 the FLM designator for film studies was included in the course catalogue, leading to a clear increase in class enrollments cross listed with FLM.

Over the 2007-2008 academic year, an interdisciplinary committee of UAF faculty formed the Ad Hoc Digital Cinema Curriculum Committee in response to the CLA Curriculum Council's recommendations. This committee, consisting of Miho Aoki (Art), Anatoly Antohin (Theatre), Karen Grossweiner (English), Leonard Kamerling (English/UA Museum), Robert Prince (previously of Journalism), Kade Mendelowitz (Theatre), and Maya Salganek (Committee Chair, Theatre/Film) met regularly to initate this Film program proposal. Maya Salganek ultimately wrote the proposal. UAF's peer institutions were looked to as guidance in demonstrating the need, viability, and academic approach to a program in Media Arts and Film. In particular, the University of Montana in Missoula, University of Cornell, University of Idaho, and the University of Utah were all researched as references to the development of this program. Disxussions with UA's Office of Information Technology, Rasmuson Library, and the Center for Academic Technologies were all consulted along with academic departments.

What **State Needs** met by this program.

Alaska is a film destination, frequently hosting film crews from around the world that seek out the unique landscapes, people, politics, and stories that only Alaska can offer. Hundreds of film professionals work in Alaska annually, and frequently they contact the University of Alaska Fairbanks Theatre department or Journalism department looking for assistants, resources, or advice. Unfortunately, the majority of the time they opt to brining their own production assistants, sound techs, and producers to Alaska as they can not find the support here to help them with their projects.

The University of Alaska has many pockets of media studies and media arts courses, but no definitive program that unites all of the disparate faculty and students, and resources together. As a result, the state needs which are broadcast on a daily basis through the Alaska Film Board's website largely go unaddressed by the University of Alaska.

According to information collected from the State of Alaska Department of Labor and Workforce Development, the number of jobs in the motion picture industry subcategory of video

production (category 512), have increased from a statewide average of 37 jobs in 1997 to an average of 370 jobs in 2007! A 100% increase in video production jobs over 10 years reveals only one aspect of the potential growth of this medium. These numbers do NOT include television broadcasting, advertising, or web/internet based production.

In Spring of 2007, the Alaska State Legislature passes Senate Bill 230 which established a state film office and tax incentive program. This bill was signed into law by Governor Palin on June 4, 2008, and includes a provision that the state will certify an internship program to help develop the demands of the Alaska Film Industry. Maya Salganek testified to the Legislature in favor of SB 230 several times over the past year, and is currently working with the Film Office to develop the UAF Film degree program as a state certified program for the industry.

What are the **Student** opportunities and outcomes? Enrollment projections?

In the Spring of 2007 Theatre UAF offered an internship with Grey Jumper Productions, an independent film company who was producing a film written by a UAF alum. The resulting film produced, *Chronic Town*, was premiered at the Sundance Film Festival in January 2008. This film highlighted UAF campus, students, staff, and faculty as locations, production assistants, producers, extras, and actors.

As an interdisciplinary medium, film and video studies attract students from a wide variety of backgrounds and academic disciplines. Both undergrads and graduate students use digital media for basic research and to enhance the understanding of their research subjects. In May of 2008 the Film program collaborated with the Geophysical Institute, and offered an interdisciplinary class in Barrow, Alaska. Film students learned about arctic documentary filmmaking while focusing on a group of sea-ice scientists and students. The material shot during the Maymester course will become part of a DVD and Sea-Ice Research Manual to be published by UA Press in 2009. Enrolled in the film portion of the course were 10 students, from PhD to undergraduate, working in diverse fields such as Wildlife Biology, Natural Resource Management, Anthropology, and Theatre.

Since beginning the film minor in 1992, we have graduated 24 students with film minors. By offering the FLM (film) designator in the course catalog in Fall 2005, we have noticed a considerable increase in interest and enrollment in classes cross-listed with FLM. Movies and Films FLM/THR F331 had 23 enrolled in Fall 2005 compared to 17 enrolled in Fall 2004 when only the Theatre designator was used. In spring 2007, this same class saw a record total of 30 enrolled students, with 19 of them registered under FLM (63%) and only 11 of them registered under THR (37%). Similarly, in Fall 2006 Intro to the Study of Film FLM/JRN F217 had an enrollment of 26 students compared to 15 enrolled in the Spring of 2005. It is anticipated that numbers will continue to increase as visibility of the program grows. More courses were cross-listed with the Film designator in 2007-2008, which is anticipated to help contribute to the growth of many courses.

Describe **Research** opportunities:

Students of Film will have the opportunity to participate in professional video and film production projects conducted both for UAF programs and outside organizations. Current projects include the Geophysical Institute's Sizonet project documenting sea ice research in conjunction with the International Polar Year; the UAF College of Education Yup'ik Math Program documenting elder's knowledge of traditional mathematics; authoring DVD guides for curriculum instruction for teachers; and the Fairbanks North Star Borough School District's Project ARTiculate documenting the training educators in the visual and performing arts. Students will assist faculty in all stages of video production and will be included as collaborators in the projects.

Describe Fiscal Plan for development and implementation:

By providing video production services – from writing to directing, filming to editing and DVD authoring in conjunction with students, the Film program will be able to help offset costs by working in tandem with departmental grants and grant development in a variety of fields. Student fees would help assist for the annual expenses of computer labs, video and audio equipment, etc.

By pooling the current resources of the Journalism, Art, and Theatre programs, students should have sufficient access to required video production equipment. However, combining these resources and managing them would require a more sophisticated equipment management and maintenance system. Options include using the resources of the Rasmuson Library for equipment check-out, or a similar system for departmental check-out.

In Spring 2009 the Provost awarded Maya Salganek' proposal for purchasing a UAF site license for video editing software, Final Cut Pro. With OIT support, this software should be installed within the year, streamlining editing facilities across campus and significantly contributing to the Film program's needs.

CAPS = Addition

[[ ]] = Deletion

Appeal of Academic Decisions

Grade Error Policy

A grade, other than an incomplete or deferred, submitted by your instructor after a course is completed is your final grade and becomes part of your permanent academic record.

Your grade will not be changed unless your instructor made a legitimate error in calculating the grade. If you believe an error has occurred contact your instructor immediately. Grade error [[s]] CORRECTIONS must be RECEIVED [[corrected]] within 30 class days after the beginning of the next regular semester, and must be approved by the instructor's department head and dean. This is not an appeal of an academic decision.

Grade Appeals Policy

A student who wishes to appeal a faculty decision of final grade must submit a request for a review using university forms available at the Registrar's Office. Appeals must be received WITHIN 30 CLASS DAYS AFTER THE BEGINNING OF [[no later than 20 days after the first day of instruction in]] the next regular semester. By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the grade, and that the university's administration can not influence or affect the outcome of the review. A copy of the full procedure can be obtained ONLINE BY SEARCHING THE UAF WEB SITE FOR "APPEAL OF ACADEMIC DECISION" OR through the university registrar, the vice chancellor of student and enrollment services, the academic advising center OR ANY COMMUNITY CAMPUS OFFICE.

Academic Decisions Other Than Grades

Students who want to appeal an academic decision such as denial of admission, faculty-initiated withdrawal, dismissal from program or pass/fail decisions of a faculty committee on non-course examinations (such as qualifying, comprehensive or thesis examinations) MUST SUBMIT [[should begin]] an appeal within 30 CLASS DAYS AFTER THE BEGINNING OF THE NEXT REGULAR SEMESTER [[15 days after the beginning of the semester in which the decision takes effect.]]

To appeal academic decisions, you should first address the person who made the decision. Often problems can be resolved and misunderstandings cleared up through this step. If the student does not find the informal review decision acceptable, the student may initiate a formal appeal procedure. Formal appeals must be made in writing, and must be received by the Provost no later than 10 days after the student has learned the outcome of the informal review. The office of the provost, university registrar, vice chancellor of student and enrollment services, or dean of the graduate school (for graduate student issues) can give you advice and answers to questions about the process.

By submitting a request for a review, the student acknowledges that no additional mechanisms exist within the university for the review of the decision, and that the university's administration can not influence or affect the outcome of the review.

BOR approval at April 2009 meeting.

Brief Statement of Program:

Alaska Native people constitute 18% of the Alaska population and are the fastest growing ethnic group within the state, making up nearly 25% of the K-12 student population. At UAF, Alaska Natives make up 16% of the student enrollment, but only 3% of the faculty. In May, 2007 UAF awarded a Ph.D. to the fourth Alaska Native to receive such a degree in the University's history. To begin to address these disparities, the UAF 2010 Strategic Plan includes the following goals:

- Increase Alaska Native enrollment in graduate programs by 50%
- Increase the representation and retention of women and minorities in staff and faculty positions
- Increase research programs that address the Arctic and its indigenous people
- Document and disseminate indigenous knowledge
- Generate innovative and useful applications of research that benefit the state of Alaska

The Ph.D. program in Indigenous Studies is intended to directly address these and most other goals of the UAF 2010 Strategic Plan by offering an advanced program of graduate study focusing on issues that are deeply rooted in Alaska's past and are destined to be an integral part of Alaska's future.

The proposed Ph.D. program in Indigenous Studies will draw and build upon longstanding academic and research capabilities at UAF. The program will offer an integrated course of advanced graduate study consisting of a common core curriculum that all students will complete, coupled with five thematic areas of emphasis from which students will choose a concentration:

- Indigenous Studies/Research
- Indigenous Knowledge Systems
- Indigenous Education/Pedagogy
- Indigenous Languages
- Indigenous Leadership

Ph.D. candidates will participate in research activities across a variety of academic disciplines and applied fields at UAF. They will be encouraged to engage in comparative studies with other indigenous peoples around the world and to focus their dissertation research on issues of relevance to Alaska and the Arctic. Using the IGERT and Interdisciplinary Ph.D. model of academic assignment, students' home base will be in the School or College of their major advisor, who will also serve as an affiliate faculty for the program. The program itself will be administered through the UAF Graduate School.

<u>Program Objectives</u>:

1. To provide the programmatic infrastructure for advanced, in-depth, interdisciplinary graduate studies and research in academic fields related to the role of indigenous knowledge and ways of knowing in the contemporary world.
2. To prepare graduates who are capable of conducting basic and applied research on social, political, educational, economic and cultural issues of concern to people and communities in the circumpolar north, with a particular emphasis on Alaska.

3. To expand the pool of knowledgeable and highly skilled Alaskans who can assume leadership and technical positions with public and private sector organizations, including universities, school districts, social service agencies, Native corporations, tribal governments, and state and federal agencies in Alaska and beyond.
4. To provide a venue to sponsor state, national and international seminars, conferences, exchanges and comparative research programs that bring people together around issues of concern to Alaska, the circumpolar north, and indigenous people throughout the world.
5. To contribute to and tap into newly emerging bodies of academic scholarship that address the role of indigenous knowledge systems in fields such as ecological studies, natural resources management, health care. education, language revitalization, community development, social services, justice, and Native studies.
6. To achieve economies-of-scale that put existing university resources and capabilities to more effective and efficient use in addressing issues of concern to all Alaskans.

Preliminary General Catalog layout copy

Ph.D. Program in Indigenous Studies
UAF Graduate School, College of Liberal Arts, School of Education, and College of Rural and Community Development

Ph.D. Degree
Minimum requirement for Degree: 18 thesis credits

The joint Ph.D. program in Indigenous Studies draws and builds upon long-standing academic and research capabilities at UAF to offer an integrated course of advanced graduate study consisting of a common core curriculum that all students complete, coupled with five thematic areas of emphasis from which students choose a concentration:

- Indigenous Studies/Research
- Indigenous Knowledge Systems
- Indigenous Education/Pedagogy
- Indigenous Languages
- Indigenous Leadership

Ph.D. candidates will participate in research activities across a variety of academic disciplines and applied fields at UAF. They are encouraged to engage in comparative studies with other indigenous peoples around the world and to focus their dissertation research on issues of relevance to Alaska and the Arctic. Using the Interdisciplinary Ph.D. model of academic assignment, student's home base will be in the School or College of their major advisor, who also serves as an affiliate faculty for the program.

In collaboration with the graduate committee, each student develops a program of coursework and research that produces a unique intellectual contribution to the applied

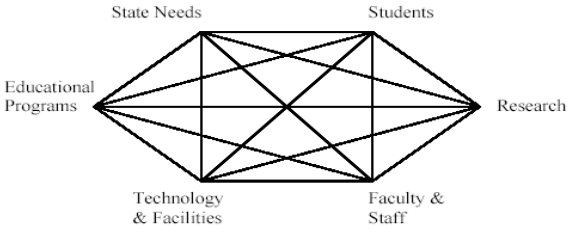
fields associated with Indigenous Studies. Students elect to focus on one of the five thematic areas or they may choose in collaboration with their graduate committee to draw on multiple themes to develop their areas of knowledge and dissertation research.

Graduate Program--Ph.D.

Complete the admissions process and fulfill the following program requirements:

1. Complete the general university requirements listed in the UAF catalog
2. Complete the Ph.D. degree requirements listed in the UAF catalog
3. Complete coursework as determined by the student's graduate advisory committee (completion of 18 UAF semester credits by distance or on-campus will constitute residency)
4. Required and Elective Elements of the Plan of Study
    a. Coursework: All Indigenous Studies Ph.D. students will be required to complete a minimum of two research methods courses and select, in collaboration with their graduate committee, 12 credits from the core courses in Table I (including CCS 608 and CCS 690), plus a minimum of 12 credits in an area of concentration.
    b. Advancement to Candidacy will occur when the student demonstrates mastery in understanding of the problems and theories of indigenous studies and in-depth knowledge of the student's dissertation research topic area. Requirements for Advancement to Candidacy are determined by the graduate committee of the student, and shall be consistent with the candidacy requirements for Ph.D. studies at UAF. The basis of the evaluation will be comprehensive written and oral exams.
    c. Dissertation Defense Seminar and Oral Examination
    d. Doctoral Dissertation (18 credits minimum)
5. Recommended additional academic experience
    a. Students will be encouraged to enroll in a minimum of one semester of coursework at a partner institution with program offerings related to their area of specialization.
    b. Students will be expected to make at least one formal academic presentation at a national or international meeting, as well as a community-level presentation in Alaska.
    c. Students will be encouraged to study a language other than English, as appropriate for the thematic area in which they arc enrolled. Students who select the Indigenous Languages specialty will be expected to acquire a minimum of nine credits in an appropriate indigenous language.

VII. RESOURCE IMPACT



A. Budget (Resource Commitment Form attached)

Table 2:
RESOURCE COMMITMENT TO THE PROPOSED DEGREE PROGRAM

Resources	Existing	New		Total
	College/School	College/School	Others (Specify)	
Regular Faculty (FTE's & dollars)	2 @ $90,000 each	$13,536		$193,536
Adjunct Faculty (FTE's & dollars)	2 @ $3,100 ea			$6200
Grad. Fellowships (headcount)	2 @ 20,106 ea	2 @ $15,000 ea (Grad. School)	4 @ $30,000/yr each (Mellon Fdn)*	$190,212
Instructional Facilities (in sq. footage)	800 sq ft OUP 1,800 sq ft Brk			2,600 sq ft
Office Space (Sq. footage)	1,000 sq ft OUP/Brk/Gruen			1,000 sq ft
Lab Space (sq. Footage)	N/A			N/A
Computer & Networking (dist ed) (in dollars)	$1,600			$1600
Research/ Instructional/ office equipment (in dollars)	$8,000	$2,000	$3,000 (Mellon Fdn)	$13,000
Support Staff (FTE's & dollars)	$18,767	.5 @ $37,535 .5@$45,000	.5 @ $45,000	$127,534
Supplies (in dollars)	$2,000	$2,000	$3,000	$7,000
Travel (in dollars)	$5,000	$5,000	$20,000 (Mellon Fdn)	

* On June 13, 2008 UAF was notified that it has been awarded a $700,000 grant from the Andrew W. Mellon Foundation to help support four indigenous Ph.D. students per year with a $30,000 fellowship plus tuition/fees, travel and mentoring support for four years, with the possibility of further funding if the program is successful.

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks
Title: Ph.D., Indigenous Studies
Target admission date: Fall 2009

1. How does the program relate to the Education mission of the University of Alaska and UAF?

The Ph.D. program in Indigenous Studies will directly address the following goals of the UAF 2010 Strategic Plan by offering an advanced program of graduate study focusing on issues that are deeply rooted in Alaska's past and are destined to be a vital part of Alaska's future.

- Increase Alaska Native enrollment in graduate programs by 50%
- Increase the representation and retention of women and minorities in staff and faculty
- Increase research programs that address the Arctic and its indigenous people
- Document and disseminate indigenous knowledge
- Generate innovative and useful applications of research that benefit the state of Alaska

The proposed program was developed by faculty in the UAF College of Liberal Arts, School of Education and College of Rural and Community Development in response to a growing need for "advanced graduate opportunities for Alaska Native scholars and leaders," as expressed in a 2004 resolution of the Alaska Federation of Natives. Details of the program grew out of a two-day "Indigenous Ph.D. Planning Workshop" hosted by UAF in conjunction with the 2007 Alaska Federation of Natives Convention and funded by the Andrew W. Mellon Foundation. We invited 55 Alaska Natives (out of a list of over 100) with a Master's degree who had expressed an interest in pursuing a PhD to provide input into the planning of the proposed Ph.D. in Indigenous Studies. Following the workshop a survey form was sent to all the participants to obtain a more systematic picture of the level of interest and the conditions under which students would enroll in a Ph.D. program. The survey responses have served as the basis for many of the elements and structure of this proposal. The level of interest in the program is high from both Native and non-Native potential doctoral candidates, provided there is a strong Indigenous core emphasis, multiple avenues for access to the program (on-campus, distance education, intensive seminars, etc.) and sufficient fellowship funding for financial support.

2. What State Needs will be met by this program?

In 2002, the Alaska Federation of Natives conducted a statewide survey to identify all the Alaska Natives who had earned a Ph.D. (30), J.D. (32) or M.D. (12). Of the 30 Alaska Native Ph.D.'s at the time, three had earned their degree from the University of Alaska, with one more graduating in 2007. The dearth of Alaska Natives with advanced degrees has meant a paucity of indigenous perspective in upper level leadership and professional

roles, including as university faculty members, where at UAF they currently constitute 3% of the faculty but 16% of the students.
Most often, upper-level expertise has to be imported from outside Alaska to fill advanced professional and technical positions in the state. Businesses, government agencies, nongovernmental organizations, policy institutes, Native organizations, academic institutions, and other groups in Alaska today need professionals who have competencies in a wide set of Indigenous issues, while also having the in-depth expertise in a specific problem area. The Indigenous Studies program strives to meet these needs by training professionals with analytical skills for understanding human resource problems and cultural sustainability issues.

3. What are the Student opportunities, outcomes and enrollment projections?
The proposed Ph.D. program will draw and build upon long-standing academic and research capabilities at UAF to offer an integrated course of advanced graduate study consisting of a common core curriculum that all students will complete, coupled with five thematic areas of emphasis from which students will choose a concentration: indigenous research; indigenous knowledge systems; indigenous education; indigenous languages; and indigenous leadership. The specific skill set of the graduates will include quantitative analysis, scientific applications, qualitative research methods, research design and program management, along with broad conceptual frameworks for understanding the dynamics of social-cultural-ecological systems. Based on current staffing levels and resource commitments, the program will accommodate six new students each year for an average total enrollment of approximately 20 students spread over three to four years.

4. Describe the Research opportunities:
Ph.D. candidates will participate in research activities across a variety of academic disciplines and applied fields at UAF and with an international network of partner institutions. They will be encouraged to engage in comparative studies with other indigenous peoples around the world and to focus their dissertation research on issues of relevance to Alaska and the Arctic.

5. Describe the Fiscal Plan for development and implementation:
The faculty resources for implementation of the program will be drawn from reallocation of existing workload in cooperating departments across the campus, with the only additional funding being to support program operations during the summer. Facilities and equipment of the Center for Cross-Cultural Studies will be utilized to house the administration of the program. These existing institutional resources will be augmented by funding from the Andrew W. Mellon Foundation to provide doctoral fellowships and student support services.

The UAF Faculty Senate passed the following at Meeting #156 on February 2, 2009:

DISAPPROVED: _____ DATE: _____
Chancellor's Office

****

BOR approval at April 2009 meeting.

Brief Statement of Program:

This Certificate program consists of the courses that prepare a student to apply to the University of Alaska Anchorage Associate of Applied Science in Nursing. UAA distributes the AAS in nursing to each MAU and to specific campuses at each MAU on a rotating schedule. There is need to provide a clearly identified pathway for students and advisors alike, so that each student may proceed efficiently through the pre-requisite courses and be highly qualified for the competitive admission to the AAS in nursing. Further, since only UAA holds the nursing degree, it is not possible to admit UAF students into a pre-nursing degree status at UAF. Virtually all financial aid grantors require that students be enrolled in a degree with a specific sequence of courses. This certificate will provide that degree-seeking status to students, and will result in a transcripted Certificate. Having pre-nursing students identified specifically within the UAF system will also allow UAF faculty and administration to better track the demand for and success of the UAA nursing program as it is distributed to UAF.

Preliminary General Catalog layout copy

Allied Health: Pre-nursing qualifications

College of Rural and Community Development
Tanana Valley Campus
(907) 455-2823
www.tvc.uaf.edu/programs/health/

Minimum credits for the Certificate: 37-42

The Certificate in Allied Health: Pre-Nursing Qualifications is designed to guide the student who is preparing to apply to the University of Alaska Anchorage (UAA) Associate of Applied Science (AAS) in nursing. The certificate includes all of the prerequisite and co-requisite courses for the UAA AAS in nursing. In addition, it includes a clinical course. Students are strongly encouraged to work in a clinical practice prior to applying to the UAA nursing program. Admission to the UAA nursing program is competitive; while this certificate prepares the student to be highly qualified, it does not guarantee admission to the UAA nursing program. Students who have not completed high school chemistry will need to complete either CHEM 100X or CHEM 103X. Students who have not completed high school algebra must take DEVM 105 or MATH at the 100-level or higher. Students who have completed high school algebra may take HLTH 116 to review computation skills used in the medical field. Students must complete the Nurse Entrance Test prior to application to the UAA AAS in nursing. Students should work closely with an advisor while completing this certificate and preparing an application for admission to the nursing program.

1. Complete the general university requirements
2. Complete the following certificate requirements (9 credits)

   Communications

   ENGL 111X – Introduction to Academic Writing 3

   Computation

   DEVM 105 – Intermediate Algebra
   or HLTH 116 – Mathematics in Healthcare
   or MATH at the 100 level or higher 3

   Human Relations

   PSY 101 – Introduction to Psychology 3

3. Complete the following major requirements (24 credits)

   ENGL 211X – Academic writing about literature
   or ENGL 213X (preferred) – Academic writing
   about social and natural sciences 3

   COMM 131X - Fundamentals of communication: group context
   or COMM 141X – Fundamentals of communication :
   public context 3

   PSY 240 – Lifespan developmental psychology 3

   HTLH 203 – Science of nutrition 3

   BIOL 111X – Human anatomy and physiology 4

   BIOL 112X – Human anatomy and physiology II 4

   BIOL 240 – Beginnings in microbiology 4

4. Select <u>one</u> of the following clinical courses (4 – 9 credits)

   HLTH 107 – Nurse Aide training 9

   HLTH 111 – Personal care attendant 4

   HLTH 113 – PCA to CNA bridge 5

   EMS 170 – Emergency Medical Technician I 6
   or other approved clinical course

5. Required credits 37-42

University of Alaska Board of Regents
Program Approval Summary Form

MAU: **University of Alaska Fairbanks**
Title: **Certificate in**
Allied Health:Pre-Nursing Qualifications
Target admission date: **Fall, 2009**

How does the program relate to the Education mission of the University of Alaska and the MAU?

This program is proposed by the Division of Allied Health in the College of Rural and Community Development. It is supported by the University of Alaska Anchorage and by the Allied Health Alliance as a mechanism for identifying and advising students who are preparing for admission to the UAA AAS program in nursing. The Certificate is similar to one at UAS.

Data at UAF was used to determine the number of students seeking admission to the UAA AAS in nursing. That data includes admission to the Allied Health No Major status, the number of applicants to the program and advising information from nursing advisors and others. UAA school of nursing representatives reviewed the proposed certificate and suggested slight modifications to it. The Certificate was modeled after the UAS Certificate in Pre-Nursing Qualifications.

No impact is expected at programs across UAA since this is primarily a mechanism for identifying and advising a group of students who intend to apply to the UAA school of nursing for the AAS degree.

What **State Needs** met by this program.

The need for nurses within the state is well-documented. According to the Alaska Department of Labor Statistics, there will be a 31.2% increase in the number of registered nurses employed between 2004 and 2014. That statistic means that an additional 1530 nurses will be needed.

In response to that need, Statewide UA and UAA collaborated to develop the distance delivered AAS in nursing. The success of that program has resulted in doubling the number of nurses trained in Alaska within the past 5 years. However, for students attending UAF while completing their general education and prerequisite courses, the career pathway has not been very clear. Problems with financial aid and advising remain frustrating for students. To date, students have selected several options: self-advisement, enrollment in degrees they do not intend to pursue, or enrolling as AHNM majors. Many obtain excellent advising through the nursing advisors at TVC; others flounder. Some enroll as UAA students, and then find that they are unable to enroll at UAF to complete their prerequisites or that their financial aid has been sent to Anchorage. We believe that

the creation of the pre-nursing certificate will help direct students more seamlessly into the nursing career path and ensure that they receive excellent advising. The certificate will make it easier for students to apply for and receive financial aid. Lastly, the certificate will allow UAF to clearly identify and track the students who are pursuing nursing, and document the significant role UAF plays in their education.

What are the **Student** opportunities and outcomes? Enrollment projections?

The ultimate goal of this certificate is not actually the certificate in pre-nursing qualifications: no market for a pre-nursing certificate exists. However, there is substantial need for nurses in our state and in the nation. According to the Alaska Department of Labor (DOL) Statistics, there will be a 31.2% increase in the number of registered nurses employed between 2004 and 2014. That statistic means that an additional 1530 nurses will be needed. Students who complete the pre-nursing qualifications certificate and are not admitted to the UAA AAS nursing program will be able to work immediately as nurse aides (or other clinical practitioners, depending on course selection). The Alaska DOL estimates that between 2002 and 2012 there will be a 26% increase in the number of CNAs needed to accommodate aging of the current staff and growth of new staff. In addition, DOL projects a 42% increase in the number of Personal Care Attendants needed in the workplace. Locally, Denali Center and Pioneer Home are the largest employers of CNAs. Denali Center hires approximately 50 CNAs annually.

Describe **Research** opportunities:

Not applicable to this certificate program.

Describe Fiscal Plan for development and implementation:

We do not seek any additional funding in order to develop, implement or maintain this program. All courses currently exist and are taught on a routine basis. Those faculty are supported by general fund revenue. An administrative assistant provides support to the nursing program and to the nurse aide program. The technology, classroom, labs, and offices are available.

The UAF Faculty Senate passed the following at Meeting #155 on December 8, 2008:

RESOLUTION OF REMEMBRANCE FOR PROFESSOR HEINZ M. WIECHEN

WHEREAS, the UAF Faculty Senate mourns the loss of our colleague Dr. Heinz M. Wiechen, Associate Professor of Space Physics and Aeronomy. His passing leaves us bereft of his wealth of experience, teaching and insight; and

WHEREAS, the UAF Faculty Senate wishes to express its sincere condolences and sympathy to the family and friends of Dr. Wiechen; and

WHEREAS, the UAF Faculty Senate honors Dr. Wiechen's contributions to the Faculty Senate and his service on the Graduate Academic and Advisory Committee, and

WHEREAS, The UAF Faculty Senate acknowledges, appreciates, and will miss Dr. Wiechen's contributions to the State of Alaska, the University of Alaska Fairbanks, the College of Natural Science and Mathematics, and the Geophysical Institute; now

THEREFORE, BE IT RESOLVED THAT, as a token of our respect and our desire to honor his memory, the Faculty Senate dedicates a moment of silence to our friend and colleague, Dr. Heinz M. Wiechen, as we reflect on the importance of our colleagues in the community of scholars in our lives.

DISAPPROVED: _____ DATE: _____
Chancellor's Office

Courses approved. BOR approval at June 2009 meeting.

****

1B Brief statement of the proposed program, its objectives and career opportunities:
The primary purpose of the Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program is to provide individuals who already possess (or are eligible for) a current Alaska teaching certificate with specific training in the areas of special education. Special education candidates will progress through a series of developmentally sequenced field experiences for the full range of ages, types and levels of abilities and collaborative opportunities. All students in the program will demonstrate knowledge of the Council for Exceptional Children (CEC) content standards for Special Education Teachers, which the National Council for the Accreditation of Teacher Education (NCATE) approved. The ten standards are: Foundations in special education, Development and Characteristics of Learners,

Individual Learning Differences, Instructional Strategies, Learning Environments and Social Interactions, Communication, Instructional Planning, Assessment, and Professional and Ethical Practice.

According to the most recent Special Education Directors Conference (September 2008) there is a continuing need for the training of special education teachers throughout the state of Alaska. All public education positions are high demand in Alaska, and special education is the greatest need in virtually all school districts. Alaska Teacher Placement Survey of Administrators at the 2008 Legislative Fly-In in Juneau reported special education (23%) and related service (13%) together compromise 39% of the hardest positions to fill. The Teacher Education Group for the FY10 operating Budget Request lists Special Education as the number one priority need for the next three to five years. In addition, to make a cross-MAU program possible, the Teacher Education Group supports the establishment of special education as its first priority, and recommends the addition of one Special Education Faculty at UAF. This position has continued to be in the proposed budget to date. SOE has submitted recruitment information to the Provost Office for dissemination once the budget is approved. Completion of this program meets the State of Alaska requirements for a K-12 special education endorsement. The program shares a strong common core with the Special Education programs at UAA and UAS, provides development in collaboration/consultation models and program development in multicultural settings. The program consists of 30 credits.

Proposed General Catalog Layout

The primary purpose of the Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program is to provide individuals who already possess, or are eligible for, a current Alaska teaching certificate with specific training in the areas of special education. Special education candidates will progress through a series of developmentally sequenced field experiences for the full range of ages, types and levels of abilities and collaborative opportunities. All students in the program will demonstrate knowledge of the Council for Exceptional Children (CEC) content standards for Special Education Teachers.

Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program

Minimum requirements for: 30 credits

The primary purpose of this program is to prepare Special Educators at the graduate level with specific training in the areas of disabilities, assessment, interventions strategies, current law, and implementation of programs including development of legally defensible federal IDEA documents. Completion of this program meets requirements for Alaska as a special education teacher K-12. Students will have mastery of the Council for Exceptional Children (CEC) standards for Special Education teachers which are: Foundations in Special Education, Development and Characteristics of Learners, Individual Learning Differences, Instructional Strategies, Learning Environments and Social Interactions, Communication, Instructional Planning, Assessment, and Professional and Ethical Practice

The program shares a strong common core with the Special Education programs at UAA and UAS, provides development in collaboration/consultation models and program development in multicultural settings. The program consists of 30 credits.

Special Education Requirements

1. Complete the following admission requirements:
    a. Applications to the Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program follow the same admission requirements and procedures as the M. Ed. in Special Education. It will be reviewed on March 1 and Oct. 1 for admission for the following semester.
    b. Admission requires a current teaching certificate or to be eligible for a current Alaska teacher certificate.
2. Complete the general university requirements **(pages xxx).**
3. Complete the following course requirements:
    a. Complete all of the following courses:

EDSE F605 Early Childhood Special Education (3 credits)
EDSE F610 Assessment of Students with Disabilities (3 credits)
EDSE F612 Curriculum and Strategies I: Low Incidence (3 credits)
EDSE F622 Curriculum and Strategies II: High Incidence (3 credits)
EDSE F677 Reading Assessment, Curriculum, and Strategies (3 credits)
EDSE F632 Special Education Law: Principles and Practices (3 credits)

b. Complete one of the following:
EDSE F625 Teaching Mathematics to Special Learners (3 credits)
OR
EDSE F640 Collaboration and Consultative Methods (3 credits)

c. Complete one of the following:
EDSE F633 Autism: Communication and Social Disorders (3 credits)
OR
EDSE F642 Autism & Asperger Syndrome: Social and Behavioral Issues (3 credits)
OR
EDSE F624 Social/Emotional Development Assessment, and Intervention (3 credits)

d. Complete:
EDSE F694 Special Education Practicum (3 credits)*+
EDSE F696 Special Education Portfolio (3 credits) +

Total credits: 30

*Additional fee required. Charges are added to fee statements each semester.
+ Students pursuing a K-12 Special Education certificate must complete a Practicum and Portfolio in a school setting.

VII. Resource Impact

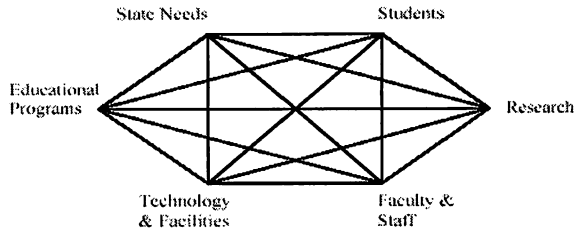
VII A. Budget

The UAF School of Education has submitted a recruitment request for an additional faculty member to teach Special Education courses contingent on funding. There is also a need for additional support staff, which will be internally funded by the SOE.

VII B. Facilities/space needs

Space exists on the Fairbanks campus for our current faculty and staff, but if our programs grow, we will experience immediate challenges finding office space. Our biggest space needs relate to classroom space and to having classrooms with sufficient technology resources for delivery of audio and face-to-face simultaneously. Office space for faculty and staff will be needed.

VII C. Credit hour production



A typical student in the Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program completes 30 credits. Given that the typical year enrollment is 15 students, a total of 450 credit hours will be generated annually.

VII D. Faculty

Currently the Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program includes the one full time faculty and two adjunct faculty. There is a need for a tenure track faculty. To make a cross-MAU program possible, the Teacher Education Group supports the establishment of special education as its first priority, and recommends the addition of one Special Education Faculty at UAF.

VII E Library/Media

Impact anticipated in the area of new acquisitions of books and journals. Rheba Dupras was contacted on 10/8/08 and 10/10/08 to discuss needs and request materials. Currently the library has over 300 book titles related to special education and over 50 professional journals related to special education. A list of fifteen additional book titles was submitted to determine if books needed to be ordered. Once student interest is determined additional titles and journals may be requested; however, the library currently has an excellent selection of materials.

X. Regents Guidelines

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks
Title and Brief Description:
Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program
Target date: Fall 2009

How does the program relate to the Education mission of the University of Alaska and the MAU?

There is substantial evidence that indicates a chronic shortage of fully certified professional Special Education Teachers in Alaska, and throughout the United States. Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program allows students throughout the state, including those in rural areas, to complete the necessary professional training to become certificated as K-12 Special Education Teachers. The proposed certificate program with its well-defined set of courses will allow the university to recognize the professional training students have completed to receive this. It will be useful for job applicants, those seeking professional advancement, and for employers who will have better documentation of the capabilities of their potential employees. In addition, the School of Education, UAF, and UA statewide will be able to gather and analyze data on post-bachelor's or post-master's candidates in a far more accurate manner than is currently possible.

As a public institution the University of Alaska responds to the interests and needs of the people of Alaska. Close working relationships between the K-12 public education system and the State's higher education system are essential for the social and economic well being of our state. The K-12 Special Education Certificate is a direct response to the stated mission of the University of Alaska, which is to "address the needs of the North and its diverse peoples". There most certainly is a need in Alaska for professional Special Education Teachers and for Special Education Teacher preparation programs that prepare people to professionally and respectfully work in our unique Northern context with Alaska's diverse peoples. We would serve as a model to demonstrate how gender, racial and cultural diversity can strengthen a university and society.

In addition to supporting the Mission of the University of Alaska, the Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program at UAF directly supports many of the primary goals of the University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: providing high quality graduate education for traditional and non-traditional students; forming active collaborations with school districts and communities throughout the state by requiring on-going fieldwork in those arenas; actively recruiting Alaska Native students; and providing professional development opportunities for practicing school counselors in rural and urban areas.

What state needs met by this program:

The proposed program for Special Education Teachers will help meet the critical shortage for special education teachers. In addition, anecdotal evidence from the Fairbanks community, Alaska State Special Education Directors' meeting supports the chronic shortage of certificated K-12 Special Education Teachers in the state. Supporting data is also available from each of the 54 Alaska School Districts, the Alaska Department of Education and Early Development, and the Alaska Teacher Placement Service's annual comprehensive report Statewide Educator Supply and Demand. All public education positions are high demand in Alaska, and special education is the greatest need in virtually all school districts. The comment that has been repeated numerous

times is "It's about time, we need it. We've needed it for a long time." Followed by, "When can I enroll?"

What are the student opportunities and outcomes? Enrollment projections?

The continued shortage of Special Education teachers statewide will ensure job placement. Alaska Teacher Placement Survey of Administrators at the 2008 Legislative Fly-In in Juneau reported special education (23%) and related service (13%) together compromise 39% of the hardest positions to fill.

Describe research opportunities:

The Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program assures the ongoing involvement of the UAF education faculty in K-12 education throughout the state. The many fieldwork requirements and the intensive Practicum/Portfolio internship are dependent upon the continuing close working partnerships with schools, districts, and communities.

Describe Fiscal Plan for development and implementation:

The Certificate of Completion for the Post-Baccalaureate K-12 Special Education Licensure Program anticipates a need for additional funding for The Teacher Education Group for the FY10 operating Budget Request lists Special Education and the number one priority need for the next three to five years. In addition, to make an across-MAU program possible, the Teacher Education Group supports the establishment of special education as its first priority, and recommends the addition of one Special Education Faculty at UAF. This position has continued to be in the proposed budget to date. SOE has submitted recruitment information to the Provost Office for dissemination once the budget is approved. Additional support staff will also be needed which will be funded internally.

Brief statement of the proposed program, its objectives and career opportunities.

The primary purpose of the Master of Education in Special Education is to provide individuals who already possess (or are eligible for) a current Alaska teaching certificate with specific training in the areas of special education. Special education candidates will progress through a series of developmentally sequenced field experiences for the full range of ages, types and levels of abilities and collaborative opportunities. All students in the program will demonstrate knowledge of the Council for Exceptional Children (CEC) content standards for Special Education Teachers, which the National Council for the Accreditation of Teacher Education (NCATE) approved. The ten standards are: Foundations in Special Education, Development and Characteristics of Learners, Individual Learning Differences, Instructional

Strategies, Learning Environments and Social Interactions, Communication, Instructional Planning, Assessment, and Professional and Ethical Practice.

According to the most recent Special Education Directors Conference (September 2008) there is a continuing need for the training of special education teachers throughout the state of Alaska. All public education positions are high demand in Alaska, and special education is the greatest need in virtually all school districts. Alaska Teacher Placement Survey of Administrators at the 2008 Legislative Fly-In in Juneau reported special education (23%) and related service (13%) together compromise 39% of the hardest positions to fill. The Teacher Education Group for the FY10 operating Budget Request lists Special Education as the number one priority need for the next three to five years. In addition, to make a cross-MAU program possible, the Teacher Education Group supports the establishment of special education as its first priority, and recommends the addition of one Special Education Faculty at UAF. This position has continued to be in the proposed budget to date. SOE has submitted recruitment information to the Provost Office for dissemination once the budget is approved. Completion of this program meets requirements for Alaska Licensure as a special education teacher. The program shares a strong common core with the Special education Licensure programs at UAA and UAS, provides development in collaboration/consultation models and program development in multicultural settings. The Masters program consists of 36 units.

Proposed General Catalog Layout

The primary purpose of the Master of Education in Special Education is to provide individuals who already possess, or are eligible for, a current Alaska teaching certificate with specific training in the areas of special education. Special education candidates will progress through a series of developmentally sequenced field experiences for the full range of ages, types and levels of abilities and collaborative opportunities. All students in the program will demonstrate knowledge of the Council for Exceptional Children (CEC) content standards for Special Education Teachers.

Master of Education In Special Education

Minimum requirements for M.Ed.: 36 credits

The primary purpose of this program is to prepare Special Educators at the graduate level with specific training in the areas of disabilities, assessment, interventions strategies, current law, and implementation of programs including development of legally defensible federal IDEA documents. Completion of this program meets requirements for Alaska Licensure as a Special Education Teacher. Students will have mastery of the Council for Exceptional Children (CEC) standards for special education teachers which are: Foundations in Special Education, Development and Characteristics of Learners, Individual Learning Differences, Instructional Strategies, Learning Environments and Social Interactions, Communication, Instructional Planning, Assessment, and Professional and Ethical Practice.

The program, which shares a strong common core with the Special Education Master of Education programs at UAA and UAS, provides development in collaboration/consultation models and program development in multicultural settings. The Master of Education program consists of 36 credits.

Program Requirements
1. Complete the general University requirements (**page XXX**).
2. Complete the M.Ed. degree requirements (**page XXX**).
3. Complete the admissions requirements for the Master of Education Degree.
4. Complete the following admission requirements:
a. Admission requires a current teaching certificate and to be eligible for a current Alaskan teacher certificate.
5. Complete the following course requirements:
a. Complete all of the following courses:
EDSE F605 Early Childhood Special Education (3 credits)
EDSE F610 Assessment of Students with Disabilities (3 credits)
EDSE F612 Curriculum and Strategies I: Low Incidence (3 credits)
EDSE F622 Curriculum and Strategies II: High Incidence (3 credits)
EDSE F677 Reading Assessment, Curriculum, and Strategies (3 credits)
EDSE F632 Special Education Law: Principles and Practices (3 credits)

b. Complete one of the following:
EDSE F625 Teaching Mathematics to Special Learners (3 credits)
OR
EDSE F640 Collaboration and Consultative Methods (3 credits)

c. Complete one of the following:
EDSE F633 Autism: Communication and Social Disorders (3 credits)
OR
EDSE F642 Autism & Aspberger Syndrome: Social and Behavioral Issues (3 credits)
OR
EDSE F624 Social/Emotional Development Assessment, and Intervention (3 credits)

d. Complete:
EDSE F694 Special Education Practicum (3 credits)*+
EDSE F696 Special Education Portfolio (3 credits) +
ED F601 Introduction to Applied Social Science Research
ED F603 Field Study Research Methods

Total credits: 36

*Additional fee required. Charges are added to fee statements each semester.
+ Students pursuing a Master of Education in special education must complete a Practicum and Portfolio in a school setting.

VII. Resource Impact

VII A. Budget

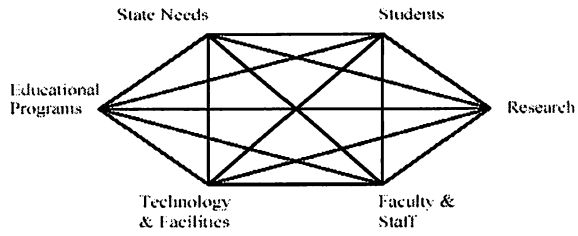
The UAF School of Education has submitted recruitment request for an additional faculty member to teach Special Education courses contingent on funding. There is also a need for additional support staff, which will be internally funded by the SOE.

VII B. Facilities/space needs

Space exists on the Fairbanks campus for our current faculty and staff, but if our programs grow, we will experience immediate challenges finding office space. Our biggest space needs relate to classroom space and to having classrooms with sufficient technology resources for delivery of audio and face-to-face simultaneously. Office space for faculty and staff will be needed.

VII C. Credit hour production

A typical student in the Master of Education in Special Education completes 36 credits. Given that the typical year enrollment is 15-20 students, a total of 540-720 credit hours will be generated annually.



VII D. Faculty

Currently the Master of Education in Special Education includes the one full time faculty and two adjunct faculty. There is a need for a tenure track faculty. To make a cross-MAU program possible, the Teacher Education Group supports the establishment of special education as its first priority, and recommends the addition of one Special Education Faculty at UAF.

VII E Library/Media

Impact anticipated in the area of new acquisitions of books and journals. Rheba Dupras was contacted on 10/8/08 and 10/10/08 to discuss needs and request materials. Currently the library has over 300 book titles related to special education and over 50 professional journals related to special education. A list of fifteen additional book titles was submitted to determine if books needed to be ordered. Once student interest is determined additional titles and journals may be requested; however, the library currently has an excellent selection of materials.

University of Alaska Board of Regents
Program Approval Summary Form

MAU: University of Alaska Fairbanks
Title and Brief Description:
Master of Education in Special Education

Target date: Fall 2009

How does the program relate to the Education mission of the University of Alaska and the MAU?

There is substantial evidence that indicates a chronic shortage of fully certified professional Special Education Teachers in Alaska, and throughout the United States. The Master of Education in Special Education allows students throughout the state, including those in rural areas, to complete the necessary professional training to become certificated as K-12 Special Education Teachers. The proposed certificate program with its well-defined set of courses will allow the university to recognize the professional training students have completed to receive this Licensure. It will be useful for job applicants, those seeking professional advancement, and for employers who will have better documentation of the capabilities of their potential employees. In addition, the School of Education, UAF, and UA statewide will be able to gather and analyze data on post-bachelor's or post-Master's Licensure candidates in a far more accurate manner than is currently possible.

As a public institution the University of Alaska responds to the interests and needs of the people of Alaska. Close working relationships between the K-12 public education system and the State's higher education system are essential for the social and economic well being of our state. The Master of Education in Special Education is a direct response to the stated mission of the University of Alaska, which is to "address the needs of the North and its diverse peoples". There most certainly is a need in Alaska for professional Special Education Teachers and for Special Education Teacher preparation programs that prepare people to professionally and respectfully work in our unique Northern context with Alaska's diverse peoples. We would serve as a model to demonstrate how gender, racial and cultural diversity can strengthen a university and society.

In addition to supporting the Mission of the University of Alaska, the Master of Education in Special Education at UAF directly supports many of the primary goals of the University of Alaska Fairbanks Strategic Plan. This is accomplished through the following: providing high quality graduate education for traditional and non-traditional students; forming active collaborations with school districts and communities throughout the state by requiring on-going fieldwork in those arenas; actively recruiting Alaska Native students; and providing professional development opportunities for practicing special education teachers in rural and urban areas.

What state needs met by this program:

The proposed Master of Education in Special Education will help meet the critical shortage for special education teachers, In addition, anecdotal evidence from the Fairbanks community, Alaska State Special Education Directors' meeting supports the chronic shortage of certificated K-12 Special Education Teachers in the state. Supporting data is also available from each of the 54 Alaska School Districts, the Alaska Department of Education and Early Development, and the Alaska Teacher Placement Service's annual comprehensive report Statewide Educator Supply and Demand. All public education positions are high demand in Alaska, and special education is the greatest need in virtually all school districts. The comment that has been repeated numerous times is "It's about time, Fairbanks needs it. We've needed it for a long time." Followed by, "When can I enroll?"

What are the student opportunities and outcomes? Enrollment projections?

The continued shortage of Special Education teachers statewide will ensure job placement. Alaska Teacher Placement Survey of Administrators at the 2008 Legislative Fly-In in Juneau reported special education (23%) and related service (13%) together compromise 39% of the hardest positions to fill.

Describe research opportunities:

The Master of Education in special education assures the ongoing involvement of the UAF education faculty in K-12 education throughout the state. The many fieldwork requirements and the intensive Practicum/Portfolio internship are dependent upon the continuing close working partnerships with schools, districts, and communities. Faculty may research success of students receiving instruction from highly qualified special educators, the impact of having a qualified special educator in the community versus itinerant, retention of qualified teachers, effects on response to intervention or a myriad of other topics.

Describe Fiscal Plan for development and implementation:

The Master of Education in Special Education anticipates a need for additional funding for adding the proposed Masters program. The Teacher Education Group for the FY10 operating Budget Request lists Special Education and the number one priority need for the next three to five years. In addition, to make an across-MAU program possible, the Teacher Education Group supports the establishment of special education as its first priority, and recommends the addition of one Special Education Faculty at UAF. This position has continued to be in the proposed budget to date. SOE has submitted recruitment information to the Provost Office for dissemination once the budget is approved. Additional support staff will also be needed which will be funded internally.

The UAF Faculty Senate passed the following at Meeting #155 on December 8, 2008:

MOTION:
=======

The Student Academic Development and Achievement Committee of the Faculty Senate moves to amend the Mandatory Placement Policy (passed at Senate meeting #137 on May 1, 2006) to read:

CAPS - Addition
[[ ]] – Deletion

Mandatory Placement
Students who do not meet basic skills standards in reading, writing, and mathematics must complete appropriate Developmental Education course instruction. Such students may not enroll in 100-level or above courses that depend on these skills until they have satisfactorily met the exit criteria of the appropriate Developmental Education course(s).

Students without appropriate standardized test scores (ACT /SAT/ COMPASS / ASSET / **ACCUPLACER**), Advanced Placement credits, transfer credits, or prerequisite coursework must have UAF-approved placement test scores prior to registering for classes their first semester at UAF. Students may not enroll in classes unless they meet the placement requirements. Placement into appropriate developmental or core classes must be done with the help of an advisor. Students who enroll in a course without meeting the requirements will be withdrawn from the course by faculty initiated withdrawal.

For placement into any developmental math course, or any course satisfying core math requirements, prerequisite courses and/or placement exams must be taken within one calendar year prior to commencement of the course.

FOR PLACEMENT INTO ENGLISH F111X OR ANY DEVELOPMENTAL ENGLISH COURSE, STUDENTS MUST ALSO HAVE A SCORED WRITING SAMPLE SUCH AS AN SAT OR ACT WRITING SAMPLE, OR A UAF-GENERATED WRITING SAMPLE GIVEN ALONG WITH ASSET, COMPASS, OR ACCUPLACER OR OTHER PLACEMENT TESTS.

Students may not enroll in Perspectives on the Human Condition courses unless they meet the placement requirements for English **F**111X (including reading). Students may not enroll in core science classes unless they have placement at DEVM **F**105 or above and placement into English **F**111X.

The UAF Faculty Senate reiterates its requirement that financial support for academic resources to assist mandatory placement of students at UAF be increased to an adequate level prior to implementation.

EFFECTIVE: Fall 2009

RATIONALE: There is agreement across the English/ DEVE faculty that the best, most fine-tuned method for placement into freshman-level writing classes must involve trained evaluation of a writing sample. While student placement into English F111X or DEVE classes based on ACT, SAT, Compass, or Accuplacer scores will allow for more accurate placement of students than no placement, it leaves out the writing sample, a significant measure of student ability. For the last twenty years, the rural campuses have used a faculty-designed writing sample and rubric to place their students into English or DEVE classes. That this is a more effective placement, combining a standardized test with a writing sample, is supported by the higher success rate of rural students placed with this method compared to Fairbanks students placed by test scores alone or (until this fall semester) self-placed.

We are proposing adopting the writing sample and rubric used on the rural campuses for evaluation of entering freshmen who don't take ACT or SAT to provide more accurate evaluation of their writing skills and more effective placement into English F111X or DEVE classes.

We further recommend using the writing portion of the SAT or ACT (both of which are hand scored, not computer scored) for writing placement of students who take those tests. Students who place below the English F111X cutoff range can further test using the writing sample.

Students who don't have ACT or SAT scores will be notified that they need to submit a proctored writing sample.

Students will be asked to write for 20 minutes on a standard question without computer support (so that a student's spelling and sentence style will be unaffected by spell-check or grammar-check). This can be done at the Fairbanks campus Testing Services or can be submitted electronically, scanned or faxed from a proctored location such as a library or a school.

Writing samples will be scored by experienced faculty. Scored samples will be added to the student's placement file and scores will be added to the student's record. Students whose writing sample score indicates placement into English F111X will be placed in that class, after consultation with an advisor. Students may also be referred to DEV support classes such as DEVE F068 or DEVS F105 (Reading).

The Student Academic Development and Achievement committee will work with the Department of Developmental Education, the English Department, and other affected departments and committees to develop guidelines for enforcement of placement.

UNIVERSITY OF ALASKA FAIRBANKS

REGULATIONS FOR THE APPOINTMENT AND EVALUATION OF FACULTY

AND

DEPARTMENT OF ANTHROPOLOGY UNIT CRITERIA STANDARDS AND INDICES

THE FOLLOWING IS AN ADAPTATION OF UAF AND REGENTS CRITERIA FOR PROMOTION AND TENURE, SPECIFICALLY DEVELOPED FOR USE IN EVALUATING THE FACULTY IN THE DEPARTMENT OF ANTHROPOLOGY. ITEMS IN BOLDFACE ITALICS ARE THOSE SPECIFICALLY ADDED OR EMPHASIZED BECAUSE OF THEIR RELEVANCE TO THE DEPARTMENT OF ANTHROPOLOGY FACULTY, AND BECAUSE THEY ARE ADDITIONS TO AND CLARIFICATION OF UAF REGULATIONS. THESE UNIT CRITERIA ARE FOR USE IN THE ANNUAL EVALUATION OF FACULTY AS WELL.

CHAPTER I

Purview

The University of Alaska Fairbanks document, “Faculty Appointment and Evaluation Policies,” supplements the Board of Regents (BOR) policies and describes the purpose, conditions, eligibility, and other specifications relating to the evaluation of faculty at the University of Alaska Fairbanks (UAF). Contained herein are regulations and procedures to guide the evaluation processes and to identify the bodies of review appropriate for the university.

The university, through the UAF Faculty Senate, may change or amend these regulations and procedures from time to time and will provide adequate notice in making changes and amendments.

These regulations shall apply to all of the units within the University of Alaska Fairbanks, except in so far as extant collective bargaining agreements apply otherwise.

The provost is responsible for coordination and implementation of matters relating to procedures stated herein.

CHAPTER II

Initial Appointment of Faculty

A. Criteria for Initial Appointment

Minimum degree, experience and performance requirements are set forth in "UAF Faculty Appointment and Evaluation Policies," Chapter IV. Exceptions to these requirements for initial placement in academic rank or special academic rank positions shall be submitted to the chancellor or chancellor's designee for approval prior to a final selection decision.

B. Academic Titles

Academic titles must reflect the discipline in which the faculty are appointed.

C. Process for Appointment of Faculty with Academic Rank

Deans of schools and colleges, and directors when appropriate, in conjunction with the faculty in a unit, shall observe procedures for advertisement, review, and selection of candidates to fill any vacant faculty position. These procedures are set by UAF Human Resources and the Campus Diversity and Compliance (AA/EEO) office and shall provide for participation in hiring by faculty and administrators as a unit.

D. Process for Appointment of Faculty with Special Academic Rank

Deans and/or directors, in conjunction with the faculty in a unit, shall establish procedures for advertisement, review, and selection of candidates to fill any faculty positions as they become available. Such procedures shall be consistent with the university's stated AA/EEO policies and shall provide for participation in hiring by faculty and administrators in the unit.

E. Following the Selection Process

The dean or director shall appoint the new faculty member and advise him/her of the conditions, benefits, and obligations of the position. If the appointment is to be at the professor level, the dean/director must first obtain the concurrence of the chancellor or chancellor's designee.

F. Letter of Appointment

The initial letter of appointment shall specify the nature of the assignment, the percentage emphasis that is to be placed on each of the parts of the faculty responsibility, mandatory year of tenure review, and any special conditions relating to the appointment.

This letter of appointment establishes the nature of the position and, while the percentage of emphasis for each part may vary with each workload distribution as specified in the annual workload agreement document, the part(s) defining the position may not.

CHAPTER III

Periodic Evaluation of Faculty

A. General Criteria

Criteria as outlined in "UAF Faculty Appointment and Evaluation Policies," Chapter IV, ***AND DEPARTMENT OF ANTHROPOLOGY UNIT CRITERIA, STANDARDS AND INDICES,*** evaluators may consider, but shall not be limited to, whichever of the following are appropriate to the faculty member's professional obligation: mastery of subject matter; effectiveness in teaching; achievement in research, scholarly, and creative activity; effectiveness of public service; effectiveness of university service; demonstration of professional development and quality of total contribution to the university.

For purposes of evaluation at UAF, the total contribution to the university and activity in the areas outlined above will be defined by relevant activity and demonstrated competence from the following areas: 1) effectiveness in teaching; 2) achievement in scholarly activity; and 3) effectiveness of service.

Bipartite Faculty

Bipartite faculty are regular academic rank faculty who fill positions that are designated as performing two of the three parts of the university's tripartite responsibility.

The dean or director of the relevant college/school shall determine which of the criteria defined above apply to these faculty.

Bipartite faculty may voluntarily engage in a tripartite function, but they will not be required to do so as a condition for evaluation, promotion, or tenure.

B. Criteria for Instruction

A central function of the university is instruction of students in formal courses and supervised study. Teaching includes those activities directly related to the formal and informal transmission of appropriate skills and knowledge to students. The nature of instruction will vary for each faculty member, depending upon workload distribution and the particular teaching mission of the unit. Instruction includes actual contact in classroom, correspondence or electronic delivery methods, laboratory or field and preparatory activities, such as preparing for lectures, setting up demonstrations, and preparing for laboratory experiments, as well as individual/independent study, tutorial sessions, evaluations, correcting papers, and determining grades. Other aspects of teaching and instruction extend to undergraduate and graduate academic advising and counseling, training graduate students and serving on their graduate committees, particularly as their major advisor, curriculum development, and academic recruiting and retention activities.

1. Effectiveness in Teaching

Evidence of excellence in teaching may be demonstrated through, but not limited to, evidence of the various characteristics that define effective teachers. Effective teachers

a. are highly organized, plan carefully, use class time efficiently, have clear objectives, have high expectations for students;

b. express positive regard for students, develop good rapport with students, show interest/enthusiasm for the subject;

c. emphasize and encourage student participation, ask questions, frequently monitor student participation for student learning and teacher effectiveness, are sensitive to student diversity;

d. emphasize regular feedback to students and reward student learning success;

e. demonstrate content mastery, discuss current information and divergent points of view, relate topics to other disciplines, deliver material at the appropriate level;

f. regularly develop new courses, workshops and seminars and use a variety of methods of instructional delivery and instructional design;

g. may receive prizes and awards for excellence in teaching.

h. ***CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT OF ANTHROPOLOGY WILL EVALUATE THE CURATOR'S TEACHING RECORD.***

2. Components of Evaluation

Effectiveness in teaching will be evaluated through information on formal and informal teaching, course and curriculum material, recruiting and advising, training/guiding graduate students, etc., provided by:

a. systematic student ratings, i.e. student opinion of instruction summary forms,

and at least two of the following:

b. narrative self-evaluation,

c. peer/department chair classroom observation(s),

d. peer/department chair evaluation of course materials.

C. Criteria for Research, Scholarly, and Creative Activity

Inquiry and originality are central functions of a land grant/sea grant/space grant university and all faculty with a research component in their assignment must remain active as scholars. Consequently, faculty are expected to conduct research or engage in other scholarly or creative pursuits that are appropriate to the mission of their unit, and equally important, results of their work must be disseminated through media appropriate to their discipline. Furthermore, it is important to emphasize the distinction between routine production and creative excellence as evaluated by an individual's peers at the University of Alaska and elsewhere.

1. Achievement in Research, Scholarly and Creative Activity

Whatever the contribution, research, scholarly or creative activities must have one or more of the following characteristics:

a. They must occur in a public forum.

b. They must be evaluated by appropriate peers.

c. They must be evaluated by peers external to this institution so as to allow an objective judgment.

d. They must be judged to make a contribution.

2. Components of Research, Scholarly and Creative Activity

Evidence of excellence in research, scholarly, and creative activity may be demonstrated through, but not limited to:

a. Books, reviews, monographs, bulletins, articles, proceedings and other scholarly works published by reputable journals, scholarly presses, and publishing houses that accept works only after rigorous review and approval by peers in the discipline.

b. Competitive grants and contracts to finance the development of ideas, these grants and contracts being subject to rigorous peer review and approval.

c. Presentation of research papers before learned societies that accept papers only after rigorous review and approval by peers.

d. Exhibitions of art work at galleries, selection for these exhibitions being based on rigorous review and approval by juries, recognized artists, or critics.

e. Performances in recitals or productions, selection for these performances being based on stringent auditions and approval by appropriate judges.

f. Editing or refereeing articles or proposals for professional journals or organizations.

g. Scholarly reviews of publications, art works and performance of the candidate.

h. Citations of research in scholarly publications.

i. Published abstracts of research papers.

j. Reprints or quotations of publications, reproductions of art works, and descriptions of interpretations in the performing arts, these materials appearing in reputable works of the discipline.

k. Prizes and awards for excellence of scholarship.

l. Awards of special fellowships for research or artistic activities or selection of tours of duty at special institutes for advanced study.

m. Development of processes or instruments useful in solving problems, such as computer programs and systems for the processing of data, genetic plant and animal material, and where appropriate obtaining patents and/or copyrights for said development.

n. ***ALL PEER-REVIEWED PUBLICATIONS SHALL BE CONSIDERED SIGNIFICANT. THIS INCLUDES NOT ONLY THE WRITING OF JOURNAL ARTICLES AND BOOK CHAPTERS BUT THE EDITING OF BOOK AND JOURNAL VOLUMES.***

o. ***MULTIPLE-AUTHORED, PEER-REVIEWED PUBLICATIONS SHALL BE EVALUATED IN TERMS OF THE AUTHOR'S CONTRIBUTION, TO BE DELINEATED IN THE NARRATIVE STATEMENT OF THE PROMOTION AND TENURE FILE.***

p. ***RESEARCH CONTRIBUTIONS AS EDITOR OF VOLUMES OF THE APUA (ANTHROPOLOGY PAPERS OF THE UNIVERSITY OF ALASKA) SHALL BE CONSIDERED COMPARABLE TO RESEARCH CONTRIBUTIONS AS EDITOR OF OTHER PEER REVIEWED BOOKS AND JOURNAL VOLUMES.***

q. ***CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR WORKLOAD ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT WILL EVALUATE THE CURATOR'S RECORD OF RESEARCH.***

D. Criteria for Public and University Service

Public service is intrinsic to the land grant/sea grant/space grant tradition, and is a fundamental part of the university's obligation to the people of its state. In this tradition, faculty providing their professional expertise for the benefit of the university's external constituency, free of charge, is identified as "public service." The tradition of the university itself provides that its faculty assumes a collegial obligation for the internal functioning of the institution; such service is identified as "university service."

1. Public Service

Public service is the application of teaching, research, and other scholarly and creative activity to constituencies outside the University of Alaska Fairbanks. It includes all activities which extend the faculty member's professional, academic, or leadership competence to these constituencies. It can be instructional, collaborative, or consultative in nature and is related to the faculty member's discipline or other publicly recognized expertise. Public service may be systematic activity that involves planning with clientele and delivery of information on a continuing, programmatic basis. It may also be informal, individual, professional contributions to the community or to one's discipline, or other activities in furtherance of the goals and mission of the university and its units. Such service may occur on a periodic or limited-term basis. Examples include, but are not limited to:

a. Providing information services to adults or youth.

b. Service on or to government or public committees.

c. Service on accrediting bodies.

d. Active participation in professional organizations.

e. Active participation in discipline-oriented service organizations.

f. Consulting.

g. Prizes and awards for excellence in public service.

h. Leadership of or presentations at workshops, conferences, or public meetings.

i. Training and facilitating.

j. Radio and TV programs, newspaper articles and columns, publications, newsletters, films, computer applications, teleconferences and other educational media.

k. Judging and similar educational assistance at science fairs, state fairs, and speech, drama, literary, and similar competitions.

l. ***APPLIED ANTHROPOLOGICAL WORK WITH COMMUNITIES AND ORGANIZATIONS.***

2. University Service

University service includes those activities involving faculty members in the governance, administration, and other internal affairs of the university, its colleges, schools, and institutes. It includes non-instructional work with students and their organizations. Examples of such activity include, but are not limited to:

a. Service on university, college, school, institute, or departmental committees or governing bodies.

b. Consultative work in support of university functions, such as expert assistance for specific projects.

c. Service as department chair or term-limited and part-time assignment as assistant/associate dean in a college/school.

d. Participation in accreditation reviews.

e. Service on collective bargaining unit committees or elected office.

f. Service in support of student organizations and activities.

g. Academic support services such as library and museum programs.

h. Assisting other faculty or units with curriculum planning and delivery of instruction, such as serving as guest lecturer.

i. Mentoring.

j. Prizes and awards for excellence in university service.

3. Evaluation of Service

Each individual faculty member's proportionate responsibility in service shall be reflected in annual workload agreements. In formulating criteria, standards and indices for evaluation, promotion, and tenure, individual units should include examples of service

activities and measures for evaluation appropriate for that unit. Excellence in public and university service may be demonstrated through, e.g., appropriate letters of commendation, recommendation, and/or appreciation, certificates and awards and other public means of recognition for services rendered.

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM WITH A FACULTY APPOINTMENT IN ANTHROPOLOGY TYPICALLY HAVE A PORTION OF THEIR TIME ASSIGNED TO THE DEPARTMENT. THE DEPARTMENT WILL EVALUATE THE CURATOR'S RECORD OF SERVICE TAKING INTO CONSIDERATION THE RECOMMENDATION OF THE UNIVERSITY OF ALASKA MUSEUM COMMITTEE (SEE BELOW).

CURATION

CURATORS AT THE UNIVERSITY OF ALASKA MUSEUM (UAM) CAN HOLD A TENURE-TRACK FACULTY POSITION. RANK AND TENURE ARE HELD WITHIN DEPARTMENTS AT UAF, AND CURATORS ARE THUS TREATED AS JOINT APPOINTMENTS BETWEEN A DEPARTMENT AND UAM. AS IS THE CASE FOR ALL TENURE-TRACK FACULTY IN THE DEPARTMENT OF ANTHROPOLOGY, CURATOR'S PERFORMANCES ARE EVALUATED ON THE BASIS OF THEIR ACTIVITIES IN TEACHING, RESEARCH AND SERVICE.

1. ***CURATION INVOLVES THE MANAGEMENT AND DEVELOPMENT OF A FORMALLY RECOGNIZED UNIVERSITY COLLECTION THAT EXISTS TO SERVE AS A RESEARCH RESOURCE FOR STUDENTS AND RESEARCHERS AT UNIVERSITY, STATE, NATIONAL, AND INTERNATIONAL LEVELS. EXAMPLES OF CURATORIAL ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:***

    a. ***MAINTAINING, ENHANCING, AND ENLARGING THE COLLECTION (INCLUDES COMPUTERIZATION AND DATABASE DEVELOPMENT, ARCHIVAL UPGRADES, SPECIMEN CONSERVATION AND IDENTIFICATION, AND ADDING SPECIMENS OR OBJECTS TO EXISTING COLLECTION);***

    b. ***INTERACTING WITH STATE AND FEDERAL AGENCIES AND WITH THE PUBLIC ON COLLECTIONS-RELATED ISSUES;***

    c. ***FACILITATING COLLECTIONS USE THROUGH LOANS, EXCHANGES, AND VISITING RESEARCHERS;***

    d. ***MAINTAINING APPROPRIATE PERMITS (AS NEEDED FOR THE COLLECTIONS);***

    e. ***SUPERVISING COLLECTIONS MANAGERS, STUDENT EMPLOYEES, AND VOLUNTEERS;***

    f. ***WORKING WITH PUBLIC PROGRAM STAFF TO CREATE EXHIBITS AND EDUCATIONAL ACTIVITIES APPROPRIATE TO THE COLLECTION;***

g. PURSUING FUNDING FOR COLLECTIONS GROWTH AND MAINTENANCE; AND

h. PRODUCING CURATORIAL OR COLLECTIONS-RELATED PUBLICATIONS, REPORTS, AND/OR MANUALS.

i. ENSURING UNIVERSITY COMPLIANCE WITH STATE AND FEDERAL LAWS THAT PERTAIN TO THE COLLECTION.

2. ***SPECIFIC CRITERIA FOR CURATORIAL PERFORMANCE:***

ASSISTANT PROFESSOR AND CURATOR

EVIDENCE OF CURATORIAL ABILITY AND A COMMITMENT TO DEVELOPING AND MANAGING RESEARCH COLLECTIONS RELEVANT TO THE AREA OF SPECIALIZATION INCLUDES THE FOLLOWING:

1. ***CURATORS WILL DEVELOP THE COLLECTIONS AS A PERMANENT RECORD OF THE NATURAL AND/OR CULTURAL DIVERSITY OF ALASKA AND THE CIRCUMPOLAR NORTH AND AS A RESEARCH RESOURCE FOR STUDIES OF BIOLOGICAL AND/OR CULTURAL DIVERSITY.***

2. ***COLLECTIONS CARE INCLUDES RESPONSIBILITY FOR THE PHYSICAL CONDITION AND STORAGE OF OBJECTS/SPECIMENS, CORRESPONDING DOCUMENTATION, BUDGETARY MANAGEMENT, AND ANNUAL REPORTS.***

3. ***CURATORS WILL PRESERVE THE SPECIMENS, ARTIFACTS, OBJECTS, AND MATERIAL UNDER THEIR PURVIEW THROUGH THE USE OF METHODS AND TECHNIQUES PROFESSIONALLY ACCEPTED WITHIN THEIR RESPECTIVE DISCIPLINES.***

4. ***CURATORS WILL ENSURE THAT ALL RECORDS AND FIELD NOTES CONCERNING COLLECTION MATERIALS ARE MAINTAINED IN A SECURE FASHION AND MEET OR EXCEED DOCUMENTATION STANDARDS FOR THEIR RESPECTIVE DISCIPLINE.***

5. ***CURATORS WILL MAINTAIN CURRENT ACCESSION FILES, DEACCESSION FILES, AND CATALOGUES OF OBJECTS IN THEIR COLLECTIONS. THEY WILL DEVELOP ELECTRONIC DATABASES WITH COMPUTER DATA FORMATS THAT FOLLOW DATA STANDARDS OF THE RESPECTIVE DISCIPLINE AND UAM.***

6. ***CURATORS WILL DEVELOP, MAINTAIN, AND REVISE WRITTEN POLICIES AND PROCEDURES FOR CAUTION OF OBJECTS OR SPECIMENS IN THEIR COLLECTIONS.***

7. ***CURATORS WILL TAKE PART IN INTERPRETIVE ACTIVITIES OF THE MUSEUM IN ORDER TO FULFILL THE MUSEUM'S MISSION TO INTERPRET THE NATURAL AND CULTURAL HISTORY OF ALASKA. IN THIS REGARD, PREPARATION OF SMALL EXHIBIT IS APPROXIMATELY THE EQUIVALENTS OF PUBLICATION OF A PROFESSIONAL ARTICLE; PROJECT DIRECTION OF A LARGE COMPLEX EXHIBIT THAT INCLUDES***

PREPARATION OF A SERIOUS CATALOGUE IS APPROXIMATELY THE EQUIVALENT OF PUBLICATION OF A SCHOLARLY BOOK.

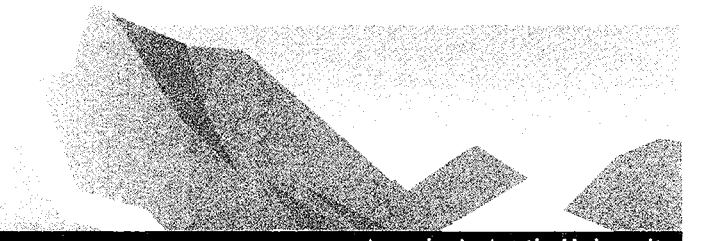
8. ***CURATORS WILL ACTIVELY PREPARE GRANT APPLICATIONS FOR EXTERNAL SUPPORT FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.***

<u>ASSOCIATE PROFESSOR AND CURATOR</u>

CONSISTENT CONTRIBUTIONS TO INTERPRETIVE (EDUCATION AND EXHIBITION) ACTIVITIES OF THE MUSEUM, RESPONSE TO COLLECTION-RELATED INQUIRIES (FROM OTHER PROFESSIONALS, THE PUBLIC AND STATE AGENCIES) AND/OR DEVELOPMENT OF INTERPRETIVE MATERIALS FOR THE PUBLIC-AT-LARGE ARE EXPECTED. USE OF THE COLLECTIONS FOR TEACHING AND/OR RESEARCH MUST BE EVIDENT. ACTIVE SOLICITATION FOR EXTERNAL FUNDS TO SUPPORT CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH MUST BE EVIDENT.

<u>PROFESSOR AND CURATOR</u>

SIGNIFICANT DEVELOPMENT OF THE COLLECTIONS UNDER THE CURATOR'S CARE IS EXPECTED. THIS DEVELOPMENT INCLUDES SUSTAINED GROWTH OF THE COLLECTIONS AS RESEARCH RESOURCES AND AS A MEANS OF FULFILLING THE MUSEUM'S MISSION OF ACQUIRING, PRESERVING IN PERPETUITY, INVESTIGATING, AND INTERPRETING OBJECTS AND SPECIMENS RELATING TO THE NATURAL AND OR CULTURAL HISTORY OF ALASKA AND THE CIRCUMPOLAR NORTH. SIGNIFICANCE OF COLLECTIONS WILL BE MEASURED IN TERMS OF RESEARCH SIGNIFICANCE, VALUE TO UNIVERSITY OF ALASKA RESEARCH AND INSTRUCTIONAL PROGRAMS, AND VALUE TO NATIONAL AND INTERNATIONAL RESEARCH PROGRAMS. THE CURATOR SHOULD BE A RECOGNIZED AUTHORITY IN HIS/HER FIELD, LOCALLY AND NATIONALLY. THEY MUST HAVE A RECORD OF SUCCESS IN ACQUIRING EXTERNAL FUNDS FOR THEIR CURATORIAL ACTIVITIES AND COLLECTION-BASED RESEARCH.



3. ***EVALUATION OF CURATION***

   A COMMITTEE COMPOSED OF THE TENURED CURATORS AT THE MUSEUM WILL PROVIDE AN EVALUATION TO THE UNIT PEER COMMITTEE. IN FORMULATING CRITERIA, STANDARDS AND INDICES FOR EVALUATION, PROMOTION, AND TENURE, THE MUSEUM SHOULD INCLUDE EXAMPLES OF CURATORIAL ACTIVITIES AND MEASURES FOR EVALUATION APPROPRIATE FOR THAT UNIT. EXCELLENCE IN CURATION MAY BE DEMONSTRATED THROUGH, E.G., APPROPRIATE LETTER OF COMMENDATION, RECOMMENDATION, AND/OR APPRECIATION, CERTIFICATES AND AWARDS, AND OTHER PUBLIC MEANS OF RECOGNITION FOR SERVICES RENDERED.

RESOLUTION ON TUITION RATES FOR GRADUATE STUDENTS AFTER TWO YEARS OF STUDY

WHEREAS, out-of-state graduate students pay higher tuition than other UAF graduate students; and

WHEREAS, the amount of annual income from this out-of-state graduate tuition is small compared to the UA budget; and

WHEREAS, UAF seeks to increase the number of graduate students who attend and complete their Master's and Doctoral degree; now

THEREFORE BE IT RESOLVED, that the UAF Faculty Senate recommends that the Board of Regents policy be amended to offer all graduate students a resident tuition rate after completion of two years of full-time graduate study at a UA institution.

Marsha Sousa 10-13-08

President, UAF Faculty Senate Date

ORIGINAL

MOTION:
=======

The UAF Faculty Senate moves to approve the Graduate Certificate in Statistics.

EFFECTIVE: Fall 2009 and/or
Upon Board of Regents approval.

RATIONALE: See the full program proposal #1-GNP from the Fall 2008 review cycle on file in the Governance Office, 314 Signers' Hall.

Certificate is a post-bachelors program, equivalent to a full year of graduate statistics courses. Courses will be in applied statistics, with one theory-based core course (STAT 651) from the M.S. in Statistics.

Overview

College of Natural Science and Mathematics
Department of Mathematics and Statistics

Graduate Certificate in Statistics
Minimum Requirements for the Certificate: 12 credits

The Graduate Certificate in Statistics is designed for students who are pursuing a graduate degree in a quantitative field of study. The curriculum of the Graduate Certificate is designed to expose

the students to a variety of areas in applied statistics along with a core of theoretical statistics that will enable the students to understand advanced statistical techniques. The Certificate program is entirely based on coursework – there are no comprehensive exams, projects or theses. This Graduate Certificate will also demonstrate students' quantitative expertise to future employers.

Graduate Certificate Program

1. Complete the general university requirements
2. Have a Bachelor's Degree from an accredited institution. Prerequisites are Calc. I, II and III (MATH200-201-202) or equivalent with at least a C in each course and a B average overall, and STAT401 (Regression and Analysis of Variance) or equivalent.
3. Complete the following:

   STAT 651-- Statistical Theory I.....3

4. Complete one or more of the following:

   A. One of the following theory courses:
   STAT 652-- Statistical Theory II.....4
   STAT 653-- Statistical Theory III.....3

   OR

   B. Two graduate statistics courses (STAT 602, STAT 605, STAT 611, STAT 621, STAT 631)

2. Complete additional graduate courses to total at least 12 credits by completing graduate STAT courses and/or courses from the following:
   STAT 461—Applied Multivariate Statistics 3
   PHYS 628—Digital Time Series Analysis.....3
   WLF/FISH 625—Analysis of Vertebrate Population Survival and Movement.....3
   FISH 601—Quantitative Fishery Science.....3
   ECON 626—Econometrics.....3
   ECON 627—Adv. Econometrics.....3
   ESM 621-- Operations Research.....3
   MATH 641—Real Analysis.....4
   MIN/GE 653—Geostatistical Ore Reserve Est.....3

6. Minimum credits required.....12

Resources Impact

Implementing the Certificate Program will have virtually no impact on resources. The Department Chair in the Dept. of Mathematics and Statistics or a designated Faculty member will have to answer questions about the program and review applications. There will be program assessment required. There may be a slight increase in enrollment in applied statistics courses. The statistics core courses are likely to have an increase in enrollment, but not one that would require any reallocation of workloads; current enrollment in these courses is 5 to 10. No new courses, new library materials or facilities will be required.

University of Alaska Board of Regents
Program Approval Summary Form

MAU: UAF

Title: Graduate Certificate in Statistics

Target admission date: Spring 2009

How does the program relate to the Education mission of the University of Alaska and the MAU? What State Needs are met by this program?

From UAF Vision Statement, the interests of the university includes spearheading integrated research "emphasizing our complex high latitude physical, biological and social systems"; students success (in general); and "...vitality and creativity of new discoveries and research...". The proposed Graduate Certificate in Statistics will encourage and reward more in-depth study of statistics by graduate students, primarily in the sciences. This will improve the students' employability and improve the quality of research design and analysis.

What are the Student opportunities and outcomes? Enrollment projections? We sent out an informal e-mail survey of interest in the program to graduate students in the College of Natural Sciences and Mathematics and to graduate students in the School of Fisheries and Ocean Science. We received fourteen replies- ten said they were interested but wanted more information while four said that they were likely to enroll. Faculty from the SFOS in Juneau sent the following comment: "Many of our graduate students in Fisheries would be interested in certifying an expertise in statistics. The statistical theory course series in particular would be very useful to us."

Describe Research opportunities: Many research activities involve research design and statistical analysis. To the extent that the Graduate Certificate encourages, recognizes and rewards strong quantitative skills, especially in the fundamentals of statistics, it will support the goals of other graduate programs at UAF.

Describe Fiscal Plan for development and implementation: There are only negligible costs associated with the proposed program. These include a need for annual program assessment, some advising and possibly an increase in the sizes of some statistics courses. This should not result in an appreciable increase in workload.

UNIVERSITY OF ALASKA FAIRBANKS
Department of Mathematical Sciences and Statistics
Graduate Certificate in Statistics
Academic Outcomes Assessment Plan

Date: July 2008

Certificate or Degree Program: Graduate Certificate in Statistics

Mission: We shall provide quality education responsive to the needs of individual students and
the diverse population of Alaska.

Goal: To assure that our graduates are adequately prepared to succeed in the job market through the application of advanced statistics to their primary field of study.

Intended Outcome Objectives	Assessment Criteria	Implementation Procedures (what, when, who)
The Graduate Certificate in Statistics will further students' career and improve the quality of their research in their primary area of expertise.	Alumni survey	Each May, the statistics faculty will send an alumni survey to all students who graduated the previous year. The statistics faculty will evaluate the survey responses. We will ask the alumni for suggestions for improvements in the program, applicability to their academic research and career.
Students' will leave the program with adequate skills in advanced statistical theory and methods.	Evaluation of student learning.	Once each year, the statistics faculty will meet to discuss the performance of Graduate Certificate Students in their courses.
	Evaluating the prerequisites of students entering the program.	Once each year, the statistics faculty will examine the background of all entering students, and determine whether the students are starting the program with adequate skills.

The UAF Faculty Senate tabled the following resolution at its Meeting #152 on September 15, 2008:

RESOLUTION:
==========

TUITION RATES FOR GRADUATE STUDENTS AFTER TWO YEARS OF STUDY

WHEREAS, out-of-state Ph.D. students pay higher tuition than other UAF graduate students; and

WHEREAS, the amount of annual income from this out-of-state Ph.D. tuition is small compared to the UA budget; and

WHEREAS, a separate financial class of students is paying this separate sur-tax on the normal tuition; now

THEREFORE BE IT RESOLVED, That the UAF Faculty Senate recommends that the UAF Graduate School can issue UAF tuition waivers for the non-resident portion of tuition after two years of graduate study.

_____

President, UAF Faculty Senate Date

The UAF Faculty Senate passed the following at its Meeting #152 on Sept. 15, 2008:

RESOLUTION:
==========

RESOLUTION
ON
MAJORITY VOTE OF GRADUATE STUDENT COMMITTEES

WHEREAS, UAF uses committees of three or more faculty to review the scholarship of graduate degree candidates; and

WHEREAS, faculty are obligated to inform students that a majority yes vote constitutes a successful defense of their scholarship and research; now

THEREFORE BE IT RESOLVED, That a majority yes vote of the student's graduate committee constitutes a pass for a comprehensive examination or defending a thesis.

MEMORANDUM

DATE: May 23, 2008

TO: Marsha Sousa, Faculty Senate President

FROM: Steve Jones, Chancellor Steve

RE: Faculty Senate Motion--Electronic Faculty Annual Activities Reports

I have given careful consideration to the above-referenced motion, which was delivered to my office on May 7, 2008. This is such an important issue; I believe it deserves more discussion than I can engage in during the last month of my tenure as UAF chancellor. Therefore, I have disapproved the motion and strongly recommend that Faculty Senate representatives meet with Provost Henrichs and Interim Chancellor Rogers soon to resolve the issue.

UAF is an AA/EO employer and educational institution.

ORIGINAL

The UAF Faculty Senate passed the following at Meeting #151 on May 5, 2008:

MOTION:

The UAF Faculty Senate moves to reject use of the Digital Measures software for electronic Faculty Annual Activities Reports at UAF.

EFFECTIVE: Immediately

RATIONALE: The UAF Administration is in the process of testing an electronic system of Faculty Annual Activities Reports. The company Digital Measures was contracted to customize existing software for the UA system, incorporating requests from administrators and a survey of deans/directors. A beta test of the software was conducted in Fall 2007 with the faculty of the School of Fisheries & Ocean Sciences at UAF. Beta tests were also performed with departments at UAA and UAS.

The faculty of UAA oppose adoption of this system, and it is no longer under consideration for that MAU. The UAF administration wishes to move forward with adoption, focusing its efforts on refining and improving the software. The feedback received from SFOS faculty addressed programming and design issues from the users' point of view, i.e., the nuts and bolts of the data entry. This feedback did not include discussion of the role of these electronic reports at UAF, nor their broader implications.
