JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus-wide curriculum committees is to scrutinize program/degree change applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you drop a course, is it because the material is covered elsewhere? Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the program is not compromised as a result.

Development of this course—i.e., a special education course designed specifically for students who are preparing to become elementary classroom teachers—provided us with a course in which we could focus directly on special education topics and issues that are of importance and relevance for students preparing to become elementary classroom teachers. This is the special education course that is most appropriate for students who are pursuing the elementary education minor.
