CREDITS (including credit distribution)

ADD A STACKED LEVEL (400/600)
Dept. [ ] Course # [ ]
Include syllabi.

How will the two course levels differ from each other? How will each be taught at the appropriate level?:

Stacked course applications are reviewed by the (Undergraduate) Curricular Review Committee and by the Graduate Academic and Advising Committee. Creating two different syllabi—undergraduate and graduate versions—will help emphasize the different qualities of what are supposed to be two different courses. The committees will determine: 1) whether the two versions are sufficiently different (i.e. is there undergraduate and graduate level content being offered); 2) are undergraduates being overtaxed?; 3) are graduate students being undertaxed? In this context, the committees are looking out for the interests of the students taking the course. Typically, if either committee has qualms, they both do. More info online—see URL at top of this page.

ADD NEW CROSS-LISTING

9. **ESTIMATED IMPACT**
   
   WHAT IMPACT, IF ANY, WILL THIS HAVE ON BUDGET, FACILITIES/SPACE, FACULTY, ETC.
   
   This should only increase the requirement for a classroom. The instructor will be a faculty already hired by SOM.

10. **LIBRARY COLLECTIONS**

    Have you contacted the library collection development officer (kljen@alaska.edu, 474-6695) with regard to the adequacy of library/media collections, equipment, and services available for the proposed course? If so, give date of contact and resolution. If not, explain why not.

    The only impact should be on SOM.

12. **POSITIVE AND NEGATIVE IMPACTS**

    Please specify positive and negative impacts on other courses, programs and departments resulting from the proposed action.

13. **JUSTIFICATION FOR ACTION REQUESTED**

    The purpose of the department and campus-wide curriculum committees is to scrutinize course change and new course applications to make sure that the quality of UAF education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you ask for a change in # of credits, explain why; are you increasing the amount of material covered in the class? If you drop a prerequisite, is it because the material is covered elsewhere? If course is changing to stacked (400/600), explain higher level of effort and performance required on part of students earning graduate credit. Use as much space as needed to fully justify the proposed change and explain what has been done to ensure that the quality of the course is not compromised as a result.

    Many students have shown an interest in a personal finance course. Although this is a developed course, it has not been taught in the past five years. We believe that adding this course to the GER options for students will also give them a good basis on personal finance, a topic that every student should have an understanding of after leaving college.
