

ORIGINAL

The UAF Faculty Senate passed the following at its Meeting #17 on March 9, 1990:

MOTION PASSED (unanimous approval)

=====

A UAF undergraduate minor shall consist of at least 15 hours of coursework to be designated by each discipline or department offering a minor. Such designation shall specify whether courses used to fulfill minor degree requirements may be used at the same time to fill major or general distribution requirements.

EFFECTIVE: September 1991; earlier, by petition

RATIONALE: Since UAF began offering bachelor of science majors the option of obtaining a minor, there has been some confusion as to the content and requirements of minors among different academic disciplines. Implementation of this motion would eliminate confusion and give academic disciplines the freedom as well as the obligation to determine minor degree requirements.
