

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to amend the general degree requirements for the Associate of Applied Science degree to require that from the selection of a total of 6 credits from Humanities or Social Science or Math or Natural Science, at least 3 credits shall be Math or Natural Science courses at the 100 level or above.

Effective: Fall 1989

Rationale: This addition completes the requirements for the Associate of Applied Science degree.

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED AS AMENDED (Unanimous Approval)

The UAF Faculty Senate moves to amend the policy on make-up work for students participating in university-sponsored activities as follows:

(()) = deletion CAPS = addition

((1. Students who must be absent from class to participate in university-sponsored activities shall be permitted to make up any work they have missed, in a period of time agreed upon between the instructor and student prior to the absence. Such students shall not be penalized for absences incurred for such university-sponsored activities, although students must meet course requirements in all other respects. University-sponsored activities are defined as officially sanctioned functions. Notwithstanding the above, it is still the student's responsibility to determine for himself/herself whether or not such absences unduly risk successful completion of their courses and choose accordingly.))

STUDENTS WHO CHOOSE TO BE ABSENT FROM CLASS TO PARTICIPATE IN UNIVERSITY-SPONSORED OR OTHER ACTIVITIES MAY BE PERMITTED TO MAKE UP ANY WORK THEY HAVE MISSED. ALL ARRANGEMENTS MUST BE MADE BETWEEN THE STUDENT AND INSTRUCTOR PRIOR TO THE ABSENCE. THE STUDENT AND INSTRUCTOR SHOULD MAKE A GOOD FAITH EFFORT TO ASSURE THAT THE STUDENT IS NOT UNDULY PENALIZED FOR EACH ABSENCE. SUCH ACTIVITIES SHOULD NOT BE SCHEDULED SO AS TO CONFLICT WITH THE FINALS SCHEDULE.

Effective: Upon Chancellor's Approval

Rationale: It is disruptive to the academic process for students to be absent from the final. In addition, it is difficult for the instructor to fairly evaluate a student who takes the final at a different time or may have to take a substitute final.

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to amend placement test policy as follows:

(()) = deletion CAPS = addition

1. A placement test is required for all students entering a degree/certificate program for the first time.
2. A placement test is required for all students planning to take a 100 level written communication or mathematics course.
3. A placement test is recommended for ((all entering)) FIRST TIME students.

Effective: Fall 1989

Rationale: This change distinguishes first time college students from transfer students.

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED (Unanimous Approval)

The UAF Faculty Senate moves to adopt the following policy for credits earned prior to and during UAF restructure:

One of the following classifications may be selected for credit earned prior to the 1988 fall semester at former community colleges and rural education centers that are now part of UAF by students who move from one UAF unit to another:

1. RESIDENCE CREDIT: Total credits and all grade point factors earned from work attempted at other UAF units will be brought forward to the UAF record.
2. TRANSFER CREDIT: The total credits earned at other UAF units will be brought forward to the UAF record as transfer credit. (Grade point average factors do not transfer.)

NOTE: UAF correspondence study credit has been approved as residence credit beginning with the 1989 Fall semester. UA/UAF correspondence study credit earned prior to that date would continue to be considered only as transfer credit.

Effective: Upon Chancellor's Approval

Rationale: Before restructuring, students attended units of the University of Alaska knowing that their grade point averages would not transfer if they moved to another UA major academic unit. Although most students would want their grade point averages to be combined, some went to other units with the purpose of taking courses which would not impact their GPA's elsewhere.

Approval of this policy would allow students the choice of whether or not to combine their GPA's and have all work considered as residence credit, or to have the credits earned brought forward as transfer credit with no impact on the GPA. The intent of this policy is to lessen the impact of restructuring on students such as those from the former TVCC who, essentially, have been forced to change institutions.

Credits Earned Prior to and During UAF Restructure Motion
Meeting 10, March 10, 1989
Page Two

Students electing to have total credits and grade point average factors combined on their academic records would be qualified to apply the repeat policy where courses are equivalent according to the Alaska Transfer Guide.

This would not affect students who were able to continue their education in the same unit (i.e., attended Northwest Community College previously and now attend the UA Northwest campus.) Likewise, students attending UAF at the Fairbanks campus have been relatively unaffected by restructuring and have no need to have an option to allow for an adjustment of their grade point averages and this policy would not apply to them.

sen2/15, 12/13

The UAF Faculty Senate approved the following at its Meeting #10 on March 10, 1989:

MOTION PASSED AS AMENDED (Unanimous Approval)

The UAF Faculty Senate moves to amend policy on auditing as exists in catalog to the following:

Auditing

1. A student wishing to enroll in one or more courses for informational purposes only may register as an auditor provided that space is available in the course(s).

An auditor must pay the standard credit fees for the course, but the credit is not included in the computation of study load for full-time/part-time determination or for overload status.

The requirement, acceptance, and review of work and lab privileges are at the discretion of the instructor. No grades will be given, no credit awarded, and courses taken as an audit will not apply toward degree requirements, nor will they transfer to other institutions.

2. The intention to audit a course should be made known within the registration period. The following conditions apply to the change of audit conditions:
 - a. Audit to credit must be completed on or before the deadline to add a course.
 - b. Credit to audit must be completed on or before the deadline for student initiated withdrawals.
3. It is the responsibility of the instructor to set the requirements under which an "AU" is to be recorded and to submit "AU" for those auditors who satisfy the requirements. An auditor not receiving a grade of "AU" receives a "W".
4. A student who has audited a class may not request local credit by examination for that class for at least one year.
5. The official definition of audit that will appear in the catalog is:
"Audit - A registration status indicating that the student has enrolled for informational instruction only. No academic credit is granted."

Effective: Fall 1989

Auditing Motion
Meeting #10, March 10, 1989
Page Two

Rationale: Better enunciates the procedures involved with auditing.
