**CHANGED COURSES**

	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>	<b>See</b>
<b>Graduate</b>			
BIOL/CHEM 653-Molecular Biology in the Real World (3+0); change description and prerequisites to: "A lecture course providing in depth coverage of eukaryotic and prokaryotic gene function, including the applications of recombinant DNA technology to the biological sciences.: (Prerequisites: BIOL 262, CHEM 321 or BIOL 303); change frequency to alternate fall. (Cross-list BIOL/CHEM 453)	Grad. Council		a
CHEM 612-Advanced Analytical Chemistry (3+0); change title to: "Environmental Analytical Chemistry; change description and prerequisite to: "Advanced topics in analytical chemistry as applied to environmental chemistry. This includes discussion of instrumental methods used in the determinative step of analysis and strategies of experimental design, sampling, calibration, ultratrace analyses, sample preparation, and quality control." (Prerequisites: Chem 332, 412 or permission of the instructor; Next offered 1995-96).	Grad. Council		a
CHEM 622-Advanced Organic Chemistry (3+0); change title to: Environmental Organic Chemistry; change description to: "Role or organic compounds and their transformations in the environment. Topics include biogeochemical cycles of natural and synthetic organics, pollutant chemistry in atmospheric, terrestrial and aquatic systems, geochemistry of fossil fuel formation." Next offered Fall 1994.	Grad. Council		a
CHEM 631-Advanced Physical Chemistry (3+0); change title to: description to: "Application of thermodynamic, kinetic, and spectroscopic theories in understanding environmental chemical problems in natural water systems and the atmosphere." Next offered 1995-96.	Grad. Council		a
CHEM/BIOL 653-Molecular Biology in the Real World (3+0); change description and prerequisites to: "A lecture course providing in depth coverage of eukaryotic and prokaryotic gene function, including the applications of recombinant DNA technology to the biological sciences.: (Prerequisites: BIOL 262, CHEM 321 or BIOL 303); change frequency to alternate fall. (Cross-list CHEM/BIOL 453)	Grad. Council		a
CHEM 673-Bioenergetics (3+0); change title to: Microbial Biochemistry & Bioenergetics; change description to: "Course seeks to develop a working knowledge of energy transduction in biological systems. Particular emphasis will be on the molecular mechanisms involved in the generation of transmembrane potentials and solute flux and how microorganisms use these processes to control their environment." (Cross-listed with MSL 673)	Grad. Council		a

<b>Changed Courses (cont.)</b>			
	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>	<b>See</b>
EE 635-Advanced Electronic Circuit Design (3+3); change title	Grad. Council		a

and credit distribution to: Microwave Design II (2+3); change description and prerequisites to: "Analysis and design of solid-state microwave circuits. Amplifier and oscillator circuits are designed and fabricated using microstrip construction techniques and computer-aided design tools. (Prerequisite: EE 634 or permission of instructor). Change frequency of offering to alternate spring; next offered 1995-96.

ENGL 609-Studies in American Literature: Colonial Period and 19th Centuries (3+0); change title to: Early American Literature; change description to: "Variable subject matter in significant topics in American Literature of the colonial and early national periods." Change frequency to Alternate Spring; next offered: 1994-95.	Grad. Council	a
ENGL 609-Studies in American Literature: 20th Century (3+0); change title to: Modern American Literature; change frequency to Alternate Spring; next offered: 1995-96.	Grad. Council	a
GEOS 611-Tectonics & Sedimentation (3+0); change title to: Advanced Structural Geology and Tectonics; change description, prerequisites and frequency of offering to: "An advanced course providing an in-depth treatment of specific aspects of structural geology and tectonics. Topics to be considered in different semesters include: (A) Tectonics and sedimentation, (B) Mountain belts of the world, (C) Structural analysis, (D) Structural geology of a specific tectonic setting (such as fold-and-thrust belts or rifts), and (E) Other special topics in structural geology or tectonics." (Prerequisites: Geos. 314 or equivalent and graduate student standing or instructor permission). Offered every Fall.	Grad. Council	a
GEOS 635-Advanced Economic Geology, 1-4 credits (1-4+0-3); change description & prerequisites to: "An advanced course providing an in-depth treatment of various aspects of economic geology. Specific topics will be considered in different semesters. They include: (a) studies of major ore deposit types, (b) advanced geochemistry, (c) isotopic studies of ore deposits. Only one topic will be presented at a time." (Prerequisites: Geos. 432 or 332 and Geos. 417).	Grad. Council	a
GEOS 647-Advanced Sedimentology (3+0); change title to: Advanced Sedimentology and Stratigraphy; change description to: "An advanced course dealing with various topics in sedimentology and stratigraphy. Specific offering to be presented at various times include: (A) sequence stratigraphy and sea-level analysis, (b) sandstone petrology, (c) thermal maturation and geohistory analysis of sediments." (Prerequisite: Geos. 322).	Grad. Council	a

**Changed Courses (cont.)****Committee Taking Action Key**

JUST/NORS 651-Justice and Social Control in the Circumpolar North (3+0); change title to: Law, Justice, and Society in the Circumpolar North; change description to: "This course analyzes the legal systems and constitutional frameworks of circumpolar countries, with special attention to the status of Native peoples. Questions of individual and collective rights, as well as cultural, environmental, and resource conflicts, will be considered in the context of institutions, policy-making, legal theory." Drop JUST cross-listing and add PS listing.	Grad. Council	a
MATH 603-Real and Complex Analysis (3+0); change number, title and credits to: Math 641-Real Analysis I (4+0); change description to: "General theory of Lebesgue measure and Lebesgue integration on the real line. Covergence properties of the integral. Differentiation, the product measures, and an introduction to LP spaces."	Grad. Council	a
MATH 604-Real and Complex Analysis II (3+0); change number, title, and credits to: Math 645-Complex Analysis (4+0); change description to: "Analytic functions, power series, Cauchy integral theory, Residue Theorem. Basic topology of the complex plane and the structure theory of analytic functions. The Reimann mapping theorem. Infinite products." (Prerequisite: Math 641 or permission of instructor.	Grad. Council	a
MATH 631-Theory of Modern Algebra (3+0); change title and credits to: Theory of Modern Algebra I (4+0); change description to: Rigorous development of groups, rings, and fields. Introduction to category theory, module theory, homological algebra and Galois theory." Change frequency to: every fall.	Grad. Council	a
MATH 651-Topology (3+0); change credits to: (4+0); change description to: "Treatment of the fundamental topics of point-set topology. Separation axioms, product and quotient spaces, covergence via nets and filters, compactness and compactifications, paracompactness, metrization theorems, countability properties, and connectedness. Set theory as needed for examples and proof techniques." Change frequency to: alternate spring; next offered Spring 1995.	Grad. Council	a
MSL 652-Marine Ecosystems (3+0); change credits to: 2 credits (2+0); change description and prerequisites to: "Understanding ecosystems of the sea in the context of evaluating the impact of human activities. The course focuses on current concepts, trends, and perspectives rather than being a survey." (Prerequisites: BIOL 472, MSL 650, and MSL 620 or permission of instructor.).	Grad. Council	a

**Changed Courses (cont.)****Committee Taking Action   Key****See**

MSL 673-Bioenergetics (3+0); change title to: Microbial Biochemistry & Bioenergetics; change description to: "Course seeks to develop a working knowledge of energy transduction in biological systems. Particular emphasis will be on the molecular mechanisms involved in the generation of transmembrane potentials and solute flux and how microorganisms use these processes to control their environment." (Cross-listed with CHEM 673)	Grad. Council	a
NORS/JUST 651-Justice and Social Control in the Circumpolar North (3+0); change title to: Law, Justice, and Society in the Circumpolar North; change description to: "This course analyzes the legal systems and constitutional frameworks of circumpolar countries, with special attention to the status of Native peoples. Questions of individual and collective rights, as well as cultural, environmental, and resource conflicts, will be considered in the context of institutions, policy-making, legal theory." Drop JUST cross-listing and add PS listing.	Grad. Council	a
STAT 602-Experimental Design (3+0); add 1 hour of lab (3+1); change frequency of Fairbanks offering to alternate Spring; next offered Spring 1995.	Grad. Council	a
PSY 630-Community Psychology (3+0); change description to: "Current status of community psychology, focusing on person-environment interactions and societal and cultural impacts upon individual and community functioning. An advanced level overview of theory, research, and practice of community psychology with particular emphasis on cross-cultural themes. Students are expected to apply their learning in a community-based experience. Aim is to empower students to contribute to effective change in their communities."	Grad. Council	a
PSY 631-Community Psychology: Cross-Cultural Applications & the Ethics of Change (3+0); change description and prerequisites to: Advanced study of the application of community psychology with an emphasis on the design and evaluation of interventions which facilitate psychological competence and empowerment, prevent disorder, and promote social change. Value-context of community psychology and the ethics of intervention are examined with particular emphasis on applications to cross-cultural settings and indigenous approaches to change. Students are expected to continue and broaden their community-based experience." (Prerequisites: PSY 630 or permission of instructor.)	Grad. Council	a

## CHANGED COURSES

See

	<u>Committee Taking Action</u>	<u>Key</u>
<b>Undergraduate</b>		
ABUS 151-Village Based Entrepreneurship (3+0); change credits to 1-3 credits, may be offered in 1 credit modules (a, b, and c); add frequency as demand warrants.	Curriculum Review	a
ABUS 188-Personal Income Tax (2+0); change credits to 1 (1+0).	Curriculum Review	a
ABUS 231-Introduction to Personnel (3+0); change credits to 1-3 credits, may be offered in 1 credit modules.	Curriculum Review	a
ABUS 256-Small Hotel, Bed and Breakfast, and Lodge Operations (3+0); change credits to 1-3 credits, may be offered in 1 credit modules.	Curriculum Review	a
ACCT 361/362-Intermediate Accounting (3+0); change description to: "Financial accounting topics are discussed from the perspective of both accounting practice and theory. Working capital and fixed asset accounts are emphasized in the Fall semester. Long-term liabilities and stockholders equity are emphasized in the Spring semester. Ethical and international accounting issues are emphasized throughout the sequence."	Curriculum Review	a
ACCT 401W-Advanced and International Accounting (3+0); change description to: "A study of accounting for business combinations, parent-subsidiary relationships, home office/branch relationships, partnerships, and multi-national enterprises." Change frequency of offering to Spring; delete "W" intensive designator.	Curriculum Review	a
ACCT 452-Auditing (3+0); change description and prerequisites to: "Introduction to the professional standards and procedures applicable to an auditor's examination of financial statements. Compliance and Operational auditing, ethical and legal responsibilities, and international auditing issues will also be emphasized." (Prerequisite: Acct 362 and AIS 316).	Curriculum Review	a
AFPM 235-Aircraft Reciprocating Engines, 5 credits (5+0); change credits to: 4.5 credits; change material fee to: \$190. Change prerequisite to: Admission to A & P program or permission of instructor.	Curriculum Review	a
AFPM 240-Turbine Engines, 1.5 credits (1.5+0); change credits to: 2 credits; add material fee of: \$20. Change prerequisite to: Admission to A & P program or permission of instructor.	Curriculum Review	a
AFPM 245-Ignition Systems, 2.5 credits (2.5+0); change credits to: 2 credits; change material fee to: \$45.	Curriculum Review	a
AFPM 246-Fuel Metering Systems, 1.5 credits (1.5+0); change description to: "Fundamental operation of fuel metering systems in aircraft powerplants. Technical data to repair and overhaul carburetors and components. Inspection, troubleshoot, and adjust turbine engine fuel metering systems and electronic fuel controls;" change credits to: 2 credits; change material fee to: \$30.	Curriculum Review	a

**Changed Courses (cont.)**

	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>
AFPM 253-Position and Warning Systems, .5 credits (.5+0); change title, credits, & description to: Transport Category Aircraft, 1 credit (1+0), "Introduction to transport category aircraft systems and components." Add material fee: \$5.	Curriculum Review	a
AFPM 260-Aircraft Landing Gear Systems, 2 credits (2+0); change credits to: 1.5 credits (1.5+0) Add to description: "Aircraft speed and configuration warning systems, electric brake controls, antiskid systems, landing gear position and warning systems." Add material fee: \$25.	Curriculum Review	a
AFPM 261-Wood Structures, .5 credits (.5+0); change title, credits, & description to: Non Metallic Structures, 1 credit (1+0), "Inspection, service and repair of wood structures. Preliminary and secondary repair of interior and service of plastic, honeycomb, bonded, and composite and laminated structure." Change material fee to: \$10.	Curriculum Review	a
AFPM 264-Sheet Metal Structures, 3.5 credits; change credits to: 3 credits (3+0); delete from description: "repair of interiors and service of plastic, honeycomb and bonded structures." Change material fee to: \$130. Add prerequisite: Admission to A & P program or permission of instructor.	Curriculum Review	a
AVTY 119-Flight Simulator Instruction Basic Procedures (0+3); add material fee and statement: "A minimum of four hours of simulator instruction is required. Simulator time is \$25 per hour. \$25 for the first hour will be charged at registration."	Curriculum Review	a
AVTY 200-Instrument Ground School (3+3); change description to read: ...Laboratory consists of at least four hours of instrument instruction by an authorized instructor in an FAA-approved instrument ground trainer (individually scheduled by the student through the Aviation Department); add material fee and statement: "Simulator time is \$25 per hour. \$25 for the first hour will be charged at registration."	Curriculum Review	a
AVTY 208-Flight Simulator Operation (3+0); change credits to: 3 credits (2+3); add to description: (individually scheduled through the Aviation Department). Add material fee and statement: "A minimum of four hours of simulator instruction is required. Simulator time is \$25 per hour. \$25 for the first hour will be charged at registration."	Curriculum Review	a
AVTY 210-Simulated Flight Instruction: Advanced Procedures (0+3); edit description; add material fee and statement: "A minimum of four hours of simulator instruction is required. Simulator time is \$25 per hour. \$25 for the first hour will be charged at registration."	Curriculum Review	a
BA 343-Principles of Marketing (3+0); change description to: "Management of a firm's marketing effort focusing on products, distribution, pricing, and promotion to targeted consumers. Practices appropriate to domestic or international, small or large, goods or services, and for-profit or non-profit organizations are included. Also available via Independent Learning." (Prerequisite: Junior standing).	Curriculum Review	a

**Changed Courses (cont.)**

	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>	
BA 436-Consumer Behavior (3+0); delete first line of description and add "Qualitative methodologies like focus groups are covered in this course." Delete ECON 227 and STAT 200 as prerequisites.	Curriculum Review	a	
BA 441-Promotion Management (3+0); change description to: "Advertising, publicity, sales management, sales promotion, direct marketing, and the interrelationships necessary for effective promotions in domestic or international, small or large, goods or services, and for-profit or non-profit organizations are included." (Prerequisite: BA 343).	Curriculum Review	a	
BA 445W-Marketing Research (3+0); add to description: "Practices appropriate to domestic or international, small or large, goods or services, and for-profit or non-profit organizations are included." Change prerequisites to: (BA 343, STAT 200 or equivalent.).	Curriculum Review	a	
BIOL 210-Animal Physiology (3+3)n; change number to BIOL 310; add BIOL 262 & BIOL 271 to list of prerequisites.	Curriculum Review	a	
BIOL 362-Principles of Genetics (3+3)n; change number to BIOL 262; change credits to (4+0); change frequency to spring.	Curriculum Review	a#	
BIOL/CHEM 445-Molecular Evolution (3+3) n; cross-list with BIOL 645/CHEM 645	Curr. Review/Grad. Council		a#
CHEM/BIOL 445-Molecular Evolution (3+3) n; cross-list with BIOL 645/CHEM 645	Curr. Review/Grad. Council		a
CHEM 434-Physical Instrumental Laboratory (1+6)n; change title and description to: Instrumental Methods in Physical Chemistry, "A modern laboratory course with three major components: (1) experiments related to concepts learned in Chem 331 and 332 including, but not limited to, spectroscopy, conductance, and diffusion; (2) computer use in problem solving, data analysis, and word processing; and (3) technical writing with emphasis on preparation of papers for publication.	Curriculum Review	a	
CS 401-Software Engineering (3+0); change description & prerequisites; Cross-list 601; next offered Fall 1995.	Curr. Review/Grad. Council		a#
DRT 170-Beginning Auto-Cad (3+0); add material fee \$50.00.	Curricular Review	a	
DRT 270-Advanced Auto-Cad (2+5); add material fee \$50.00.	Curricular Review	a	
DEVM 052-Alternative Approaches to Math: Basic College Math, 3 credits (3+0); change credits to 2 (2+0); change frequency to Fall only.	Curriculum Review	a	
DEVM 065-Mathematics Lab (0+3-9); change description to: "Designed to assist students in reviewing and reinforcing course concepts covered by DEVM 050, 060, and 070. Consist of instruction which may include lab instruction, individual student work or group work. Recommended for students who need more time and help to master the material in Developmental Math courses." Change frequency of offering to fall and spring.	Curriculum Review	a	

**Changed Courses (cont.)**

	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>
DEVS 058-Reading Skills Lab, 1-3 credit; change title and description to: Reading Comprehension Lab, "Emphasis on improving reading comprehension using texts from other classes or lab materials. Focus on paragraph structure to recognize main idea, supporting details and author's purpose. Also study techniques for recognizing new vocabulary. Small groups allow individually designed course of instruction to meet the needs of the students. Open entry/open exit; enrollment may be repeated."	Curriculum Review	a
ED 101-Orientation to Alaska Native Education, 1 credit (1+0); change credits to 2 (2+2).	Curriculum Review	a
FIRE 110-Introduction to Hazardous Waste Operations and Emergency Response (3+0); change description to: "Review of Federal & State hazardous materials laws & regulations. Career opportunities related to the field of Hazardous Materials including transportation, emergency response and site clean up. This course meets the requirements for the 8-hour Hazardous Materials Awareness Level (First Responder to Hazardous Material Incidents) Basic Incident Command System (ICS)."	Curriculum Review	a
FIRE 208-Fire Service Records and Reports (3+0); change description to: "Provides the student with a basic understanding in the use of records and reports systems including computers, ANFIRS reporting, maintenance of training, equipment & apparatus records, writing and submitting narrative reports, accident/injury reports, managing documentation, and legal requirements for maintaining records."	Curriculum Review	a
FIRE 218-Rescue Practices II (3+0); change description to: "Provides instruction in four of the most common rescue situations that fire departments encounter in the Interior of Alaska. Rescue; vehicular extrication, rope rescue, confined space rescue & ice/water rescue. Class stresses basic knowledge & hands on experience."	Curriculum Review	a
FIRE 231-Hazardous Materials Tactical Operations (2.5+1); change description to: "This course will prepare students to handle tactical operations involving hazardous materials at fixed facilities as well as transportation incidents. Incidents would deal with flammable & combustibles liquids, corrosives, poisons, cryogenics, oxidizers, LPG, etiological materials, etc."	Curriculum Review	a
FIRE 258-Prescribed Burning and Fuels Management (3+0); Change title & description to: Wildland Fuels Management, "The use of fire as a resource management tool. Natural and prescribed fire planning. Development and procedures to meet management objectives, components for conducting safe, prescribed burning."	Curriculum Review	a

**Changed Courses (cont.)**

	<b>Committee Taking Action</b>	<b>Key</b>	
FISH 400-Fisheries Science (F 2+3; J 3+0); change credits to: (3+0); change description to: "The subject of fishery science is reviewed to reflect the emerging concept of a study area integrated over a broad sweep of disciplines; oceanography, limnology, marine biology, fish population dynamics, aquaculture, economics, processing, product quality and development, and marketing. The course shows how such different subjects have feed-back loops to one another, and stresses the science fundamentals involved."	Curriculum Review	a	
GEOS 304-Geomorphology (2+3)n; change credit hour split to (3+0); drop lab fee.	Curriculum Review	a	
GEOS 417-Introduction to Geochemistry (3+0); change description & prerequisites to: "Application of chemical principles and elemental/isotopic behavior to the study of the earth. Topics include: aqueous geochemistry, high-temperature mineral-elemental chemistry, isotopic chemistry, kinetics and thermochemistry." (Prerequisites: Chem 105, 106 and either Geos. 213, 214 and 322, or Chem 331 and 332). Students in Geos. 618 will do additional reading and problems, and must have the above course work and graduate standing in geology. Cross-list with Geos. 618.	Curriculum Review	a	
HIST 340-Russian Eastward Expansion (3+0) s; change number to HIST 465 and cross-list with NORS 665.	Curr. Review/Grad Council		a#
HIST 341-History of Alaska (3+0) s; change number to HIST 461 and cross-list with NORS 661.	Curr. Review/Grad Council		a#
HIST 344-History of Russia (3+0) s; change number to HIST 464 and cross-list with NORS 664.	Curr. Review/Grad Council		a#
HIST 380-Polar Exploration and its Literature (3+0) s; change number to HIST 481 and cross-list with NORS 681.	Curr. Review/Grad Council		a#
HIST 382-History of Circumpolar Research (3+0) s; change number to HIST 482 and cross-list with NORS 682.	Curr. Review/Grad Council		a#
HIST 384-20th Century Circumpolar History (3+0) s; change number to HIST 483 and cross-list with NORS 683.	Curr. Review/Grad Council		a#
HONR 390-Liability and Ethics: Practical Questions in Today's Complex Society (3+0) s; change title, description & classification to: Liability and Values (3+0) h, "The study of standards of conduct and moral judgement. The professional, moral and ethical responsibilities of the individual to employers, employees and society will be examined."	Curriculum Review	f	
JB 204-Photojournalism (2+3) h; change course number to JB 404; change frequency to fall.	Curriculum Review	a	
JB 380/WMS 380-Women, Minorities and the Media (3+0); add social science classification.	Curriculum Review	a	
JB 402-Advanced Photography (2+3); add humanities classification.	Curriculum Review	a	
JUST 460-Justice Processes (3+0) s; change title to: Political Philosophy of Crime Control.	Curriculum Review	a

LS 101X-Library and Information Strategies (1+0); change grading from Pass/fail to letter grade; change description to: "An introductory course which presents library information-finding and research strategies, and principles of information organization and retrieval. Printed, electronic, and microform resources are covered. This is a lecture-based course."	Curriculum Review	a	
NRM 102-Practicum in Natural Resources Management, 1-3 credits; change credits to 1-2; add "and permission of instructor" to prerequisites.	Curriculum Review	a	
NRM 411-Plant Propagation (2+3); change number and description to: NRM 215, "Principles and practices of plant propagation useful in horticulture, botany, forestry, agronomy, revegetation projects and plant research. Emphasis is on both macro- and micropropagation (tissue culture) of Alaska native plants by seeds, spores and vegetative propagules such as cuttings." (Prerequisites: NRM 211 or permission of instructor. Next offered 1994-95).	Curriculum Review	a	
NRM 480-Soils Conservation (3+0); change title and description to: Soil Management for Quality and Conservation, "Managing soil in disturbed and natural ecosystems to reduce soil losses and maintain or improve soil quality. Methods for maintaining soil quality, preserving soil against loss from erosion, remediating contaminated soil, and reclaiming degraded soils will be discussed." (Next offered: 1995-96).	Curriculum Review	a	
OMT 151-Microcomputer Word Processing/ WordPerfect (2+0); change title, credits, description and prerequisites to: Word Perfect, 1-3 credits, "Provides instruction on an IBM/PC or MacIntosh computer using Wordperfect software. The applications cover basic, intermediate, and advanced topics." (Prerequisite: Keyboarding speed of 35 wpm or permission of instructor).	Curriculum Review	a	
OMT 153-Microsoft Word (2+0); change credits to 1-3; change description and prerequisites to: "Provides instruction on an IBM/PC or MacIntosh computer using Microsoft Word software. The applications cover basic, intermediate, and advanced topics." (Prerequisite: Keyboarding speed of 35 wpm or permission of instructor).	Curriculum Review	a	
PHYS 381-Physics Laboratory, 2 credits (0+6); change credits to 3 credits (1+6).	Curr. Review/Grad. Council		a
PHYS 382-Physics Laboratory, 2 credits (0+6); change credits to 3 credits (1+6).	Curr. Review/Grad. Council		a
PLS 240-Family Law (3+0); add material fee: \$10.00.	Curriculum Review	a	

**Changed Courses (cont.)**

	<b>Committee Taking Action</b>	<b>Key</b>
PS 201-Comparative Politics: Western Political Systems (3+0) s; change title and description to: Comparative Politics, "This course provides an introduction to the systematic study of government and politics in countries other than the United States. Through lecture and discussion, students will explore such questions as why some countries are democracies and other countries dictatorships; why some remain stable and peaceful, while others seem in constant turmoil. Please note this is a prerequisite for all other courses in comparative politics."	Curriculum Review	a
PS 202-Comparative Politics: Non-Western Political Systems (3+0) s; change title, description and prerequisites to: Cases in Comparative Politics, "Building on the concepts developed in PS 201, this course will examine in depth various types of government as they appear in different regions of the world. Particular countries will be chosen as subjects for lecture, group discussions, and individual research projects. Cases may be drawn from Western, Eastern or Central Europe, Latin America, Asia or Africa. Recommended as preparation for 300 and 400 level courses in comparative politics." (Prerequisite: PS 201 or instructor's permission).	Curriculum Review	a
PS 311-Government and Politics of the Soviet Union and Eastern Europe (3+0) s; change title, description, and prerequisites to: Government and Politics of Russia and the Periphery. "Examines current developments in Russia from a number of perspectives: the effect of history and geography on political change; the nature of Russian government and society; the legacies of Lenin, Stalin, Gorbachev, and the ideological nature of regimes and leadership; economic forces and the political struggle in governance; revolution, democracy, and reform; and the international role of Russia, particularly in relation to the former Soviet republics, Eastern Europe, and other border areas." (Prerequisite: PS 201 or instructor permission).	Curriculum Review	a
PS 312-Government and Politics of China and East Asia (3+0) s; change title, description and prerequisites to: East Asian Governments and Politics, "Modern East Asia (including China, Taiwan, Japan, North and South Korea) politics and society, including governmental institutions, political processes and regional and global foreign relations." (Prerequisite: PS 201 or consent of instructor) Next offered 1995-96.	Curriculum Review	a
PS 321-International Politics (3+0) s; change description to: "An introduction to the problems, literature, and terminology of international relations. This course provides a basis for understanding current international developments and the long-term political implications of change in international affairs. The course will examine relations between nations, regions, and groups, as well as ideas of conflict, security, trade, technology, negotiation, cooperation, revolution, modernization, and community."	Curriculum Review	a

**Changed Courses (cont.)**

	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>
PS 322-International Law and Organizations (3+0) s; change title, description and prerequisite to: International Law and Organization, "Case studies in international law (rights and duties of states, jurisdiction and sovereignty, treaties, use of force, and adjudication processes); development of regional organizations and integration; the United Nations." (Prerequisite: PS 221 or instructor permission. Next offered 1994-95).	Curriculum Review	a
PS 330-Law, Justice and Society (3+0) s; change description & prerequisites to: "Examines legal reasoning and major legal theories through lecture, debate, and discussion. Recommended as preparation for PS 435 and 436 (Constitutional Law I & II) and for pre-law students." (Prerequisite: PS 101); remove JUST cross-listing.	Curriculum Review	a
PS 401-Political Behavior (3+0) s; change description to: "Attitudes, opinions, beliefs of the American electorate and the impact of these factors on political behavior; role of political organizations (parties and interest groups) in modern American politics." Change frequency of offering to: as demand warrants.	Curriculum Review	a
PS 437-American Foreign Policy (3+0) s; change description and prerequisites to: "U.S. foreign policy in the postwar and post cold-war period, including development of policy (domestic and foreign influences), administration of political, economic, and military policies, and evaluation of policy effectiveness. Analyzes the historical background of the U.S. role in the world today, and leading personalities and events that are a part of it." (Prerequisite: PS 221 or permission of instructor. Next offered 1995-96).	Curriculum Review	a
PSY 210-Cross-Cultural Psychology (3+0) s; change number, description and prerequisites to: PSY 310, "Major theories and research related to understanding the impact of culture on psychological development, cognition, social behavior, perception, and models for the conceptualization of distress and disease. Models for research and inquiry across culture will be discussed in the context of examining the cross-cultural research on selected topics." (Prerequisites: PSY 101 and PSY 240.)	Curriculum Review	a
PSY 445W-Community Psychology (3+0) s; delete cross-listing HMSV 445; change credit distribution to (2+3); change description and prerequisite to: "Survey of principles and applications of community psychology, emphasizing person-environment interactions and societal and cultural impacts upon individual and community functioning. Attention given to interventions which facilitate psychological competence and empowerment, prevent disorder, and promote social change. Experiential learning emphasized through community experience/volunteer lab requirement." (Prerequisites: PSY 101, PSY/SOC 330).	Curriculum Review	a

<b>Graduate</b>			
MBA, Business Administration-Delete ECON 611 from required course list; add BA/ECON 475 to list.	Grad. Council		a
M.Ed., Guidance & Counseling-Add option to do either a research project or thesis.	Grad. Council		a
MS, Atmospheric Sciences-Add non-thesis option requiring 33 credits of course work including a research project.	Grad. Council		a
MS, Computer Science-Add a new track called Software Engineering to meet the educational needs of software practitioners. Degree requirements include: Required courses-15 credits; approved electives-12 credits; Seminar & Project-6 credits. Title the original track the Technical track.	Grad. Council		a
MS, Natural Resource Management-Delete NRM 630 & 631 as required courses and reduce the number of credits in NRM 692 (Seminar) to 3. Add as required courses a research methods and a statistics course above the 200 level.	Grad. Council		a
MS, Physics-Add non-thesis option requiring 33 credits of course work including a research project.	Grad. Council		a
MS, Space Physics-Add non-thesis option requiring 33 credits of course work including a research project.	Grad. Council		a
Ph.D., Biochemistry & Molecular Biology-Change requirement #3 to: 12 credit hours of core courses plus 4 electives, 18 credit hours of thesis, and a foreign language (or research tool) requirement. Effective Fall 1994.	Grad. Council		a
<b>Undergraduate</b>			
Certificate, Drafting Technology-Add third option "Architectural & Civil Drafting", 35 credits; delete DRT 100; add DRT 170 & 270; list elective courses.	Curriculum Review	a	
Certificate, Native Language Education-Add Inupiaq Eskimo option.	Curriculum Review	a	
Certificate, Office Management & Technology-Eliminate obsolete courses, include computer courses and rearrange requirements and electives.	Curriculum Review	a	
Certificate, Wildlands Fire Control-Change suggested course sequence as follows: Fall Semester: Change major electives from 6 to 3 credits; add Fire 262 in place of 3 elective credits. Spring Semester: Change to read: EMS 103-Emergency Trauma Training (ETT)...3 credits and major electives...3 credits or EMS 119-Emergency Medical Technician I...6 credits; delete major electives...2-3 credits; change subtotal to 15 credits. Change Certificate total to 30 credits.	Curriculum Review	a	

<b>Program/Degree Revisions (cont.)</b>	<b>Committee Taking Action</b>	<b>Key</b>
Certificate & A.A.S., Community Health Aid Practitioner-Change Certificate and A.A.S. degree title to: Community Health.	Curriculum Review	a
AAS, Applied Small Business-Shift specialization emphasis from "Managing Small Corporations" to "Entrepreneurship," expand "Tourism" and add "Computer Applications" and delete "Retail" specialization.	Curriculum Review	a
AAS, Human Service Technology-Drop HST 101 and replace with SWK 103; move HST 105 from required to elective courses.	Curriculum Review	a
AAS, Native Language Education-Add Inupiaq Eskimo option.	Curriculum Review	a
AAS, Office Management & Technology-Eliminate obsolete courses, include computer courses and rearrange requirements and electives.	Curriculum Review	a
AAS, Renewable Resources-Provides two tracks for students going beyond the A.A.S., one leading to B.A. in Rural Development and a second leading to a B.S. in Natural Resources Management, Wildlife, Biology, or Fisheries.	Curriculum Review	a
B.A., English-Add ENGL 317 into list of course options.	Curriculum Review	a
B.A., Foreign Language -Clarify language concerning second language and add statement regarding use of 100-level courses to satisfy core and/or humanities requirements.	Curriculum Review	a
B.A., Japanese Studies-Changes in course listings reflect course and program changes in International Business and Humanities which have occurred through Program Review.	Curriculum Review	a
B.A., Journalism-Update course lists, dropping JB 303 and adding JB 403 and 404	Curriculum Review	a
B.A., Justice-Add course to core requirement list, eliminate the 12 upper-division requirement for Justice electives and add linkage to HST courses.	Curriculum Review	a
B.A., Linguistics-Add new course to list of electives.	Curriculum Review	a
B.A., Political Science-Changes reflect goals of program to offer majors more options and to better organize courses into groups. Reduce major credit requirement from 36 to 33 and require one course in 4 of 5 subdisciplinary groups instead of all 5. From course list drop deleted courses, change course numbers and add new courses.	Curriculum Review	a
B.A., Political Science, Minor -Drop subdisciplinary headings and require minors to complete PS 101 and 12 credits in PS from among 4 of 5 subgroups	Curriculum Review	a
B.A., Theater-Changes in degree requirements will help students focus on specific fields of interest. Change adds two courses to required list and provides four emphasis tracks: Performance, Northern Theatre Performance, Directing, and Design/Technical Theatre.	Curriculum Review	a
BA, BS, Statistics; Minor -Drop 2 courses from list of approved MATH, STAT or STAT related work, correct course number.	Curriculum Review	a
BA, BS, Biological Sciences; Minor-Development of "core" courses; Elimination of defined options; ability to substitute BIOL 303 for CHEM 321-322; addition of BIOL 481 or 482; and overall fewer specified required Biology courses.	Curriculum Review	a
