**CHANGED COURSES**

	<u>Committee Taking Action</u>	<u>Key</u>	<b>See</b>
<b>Graduate</b>			
BA 691 - Sources of Business Information (3+0); change title, description, and frequency of offering to "BA 691 - Advanced Topics in Business (3+0); 3 credits; An advanced course providing necessary training in developing managers' ability to excel in specialized areas of business such as entrepreneurship and risk management." Effective Fall 1995.	Grad. Council		a
CS 605 - Artificial Intelligence (3+0); 3 credits; change description and frequency of offering to "CS 605 - Artificial Intelligence (3+0); 3 credits; Study and writing of AI programs; expert systems, expert system shells, blackboard systems, neural networks. Representation of knowledge, pattern analysis, inference networks, neural network training. Study of software engineering aspects of AI software. (Prerequisite: Consent of CS graduate advisor. Next offered: 1995-96.) Offered alternate Spring"; Effective Fall 1995.	Grad. Council		a
ED 582 - Teaching as Reflective Inquiry (4 credits); change number, prerequisites, and description to "ED 632 - Teaching as Reflective Inquiry (4 credits); Reflective inquiry into the social organization and cultures of large and small schools. Motivation of teachers and stages of professional development. Context of teaching: philosophy, legal framework, school finance, history of American education and education in Alaska. Materials fee: \$30.00 for any combination of ED 632, 634, and 451. (Prerequisites: baccalaureate degree; admission to the Education Graduate Program and Teachers for Alaska Program.)"; Cross-listed, Ed majors using the 90-91 catalog for the B.Ed. secondary program only. Offered every Fall. Effective Fall 1995.	Grad. Council		a#

Changed Courses (cont.)	<u>Committee Taking Action</u> <u>Key</u>	See
<p>ED 583 - Teaching as Decision-Making and Invention (8 credits) change number, prerequisites, and description to "ED 634 - Teaching as Decision-Making and Invention (8 credits); Considers philosophy of education and purposes of the curriculum. Study of methods and research concerning teaching of major subject areas. Exploration of lesson design, curriculum development, social organization of classroom, evaluation and testing, and needs of students in multicultural contexts. Materials fee: \$30.00 for any combination of ED 632, 634, and 451. (Prerequisites: baccalaureate degree; admission to the Education Graduate Program and Teachers for Alaska Program.)"; Cross-listed, Ed majors using the 90-91 catalog for the B.Ed. secondary program only. Offered every Fall. Effective Fall 1995.</p>	Grad. Council	a#
<p>ED 585 - Reflective Inquiry into Multicultural Classrooms and Communities; 3 credits; change number, description, and prerequisites to "ED 643 - Reflective Inquiry into Multicultural Classrooms and Communities; 3 credits; This field-delivered course which accompanies student teaching offers a structured opportunity for student teachers to reflect on the culture of the communities in which they are teaching and the social organization of the school. Students assess their teaching and responses to alternative motivational and pedagogical approaches in relation to the student populations where they teach. (Prerequisites: baccalaureate degree; admission to the Education Graduate Program and to Teachers for Alaska Program.)"; Cross-listed, Ed majors using the 90-91 catalog for the B.Ed. secondary program only. Offered every Spring, Effective Fall 1995.</p>	Grad. Council	a#^
<p>ED 586 - Designing Learning Environments; 3 credits; change number, description, and prerequisites to "ED 644 - Designing Learning Environments; 3 credits; This culminating course of the TFA program involves directed field work projects and brings together the student cohort group for a seminar at the conclusion of their student teaching experience. The full-week seminar features analysis and discussions of their classroom and community experiences during student teaching with additional study of issues which students found troubling and problematic. Students develop "cases" of their own student teaching experience which they discuss with the seminar group. (Prerequisites: baccalaureate degree; admission to the Education Graduate Program and Teachers for Alaska Program.)" Cross-listed, Ed majors using the 90-91 catalog for the B.Ed. secondary program only. Offered every Spring. Effective Fall 1995.</p>	Grad. Council	a#^

Changed Courses (cont.)	<u>Committee Taking Action</u> <u>Key</u>	See
EE 643 - VLSI in Computer System Design (3+3); 4 credits; change description and number of credits to "EE 643 - VLSI in Computer System Design (2+3); 3 credits; In-depth study of Very Large Scale Integrated (VLSI) circuit design techniques and VLSI design tools. Various Metal Oxide Semiconductor (MOS) devices and simple state machinery will be studied from the perspective of fabrication." Effective Fall 1995.	Grad. Council	a
EE 644 - VLSI Fabrication and Testing Practicum (1+3); 2 credits; change description and credits to "EE 664 - VLSI Fabrication and Testing Practicum (0+3); 1 credit; (same as CS 644); Continuation of EE 643 in which the device(s) that were designed in that course are fabricated and, upon receipt from the foundry, are tested for consistency with the design parameters. (Prerequisites: EE 643/CS 643 in previous semester.)" Effective Fall 1995.	Grad. Council	a
MSL 450 - Biology and Ecology of Marine Invertebrates (3+9); 5 credits; change number, description; prerequisites, and course classification to "MSL 651 - Biology and Ecology of Marine Invertebrates (3+9); 5 credits; (same as MSL 450); Advanced understanding of marine invertebrates in an evolutionary and ecological context. Animals studied according to habitat phylogenetic relationships. Field and laboratory work at the Kasitsna Bay Laboratory on Kachemak Bay. Students will be required to write a research proposal related to the course subject matter. (Prerequisites: graduate standing, one year of biology and permission of instructor. Basic courses in ecology and invertebrate zoology recommended.)" Effective Fall 1995.	Grad. Council	a
NRM 641 - Natural Resource Application of Remote Sensing (2+3); 3 credits; change description, prerequisites, and credit to "NRM 641 - Natural Resource Application of Remote Sensing (3+3); 4 credits; Application of remote sensing for inventory and analysis of natural resources. Course topics include aerial photography applications, and digital remote sensing including image display, rectification, classification and accuracy assessment. Prerequisite: NRM 338 or equivalent. Offered alternate Spring. Next offered Spring 1996." Effective Fall 1995.	Grad. Council	a
STAT 631 - Categorical Data Analysis (3+0); 3 credits; change number and prerequisites to "STAT 631 - Categorical Data Analysis (3+0); 3 credits; Statistical methods designed for count and categorical data. Contingency tables. Logistic and related models. Loglinear models. Repeated categorical responses. Survival data. (Prerequisite: STAT 401 or permission of instructor.); offered alternate fall; offered next Fall 1995.	Grad. Council	a

## CHANGED COURSES

See

	<u>Committee Taking Action</u>	<u>Key</u>
<b>Undergraduate</b>		
AIS 101 - Computer Literacy (3+0); change title and description to "AIS 101 - Effective Personal Computer Use (3+0); Introduction to popular PC computer software used in small businesses; course develops proficiency with popular software including word processing, spreadsheets, graphics/presentation, Internet communication, database and checkbook/personal finance management." Effective Fall 1995.	Curriculum Review	a
CAPS 135 - Microcomputer Spreadsheets (3+0); 3 credits; change credits to "1-3 variable;" effective Fall 1995.	Curriculum Review	a
CAPS 160 - Introduction to Word Processing (1+0); 1 credit; change title, description, credits to "Microcomputer Word Processing; 1-3 credits variable; Microcomputer Word Processing is designed for students new to Word Processing. Students will learn to create, format, and revise documents as well as to create new letters, forms and to do desktop publishing. There will be a brief introduction to the Microcomputer Operating System for students who have not used a computer before. Materials fee: \$10.00;" Effective Fall 1995.	Curriculum Review	a
CAPS 220 - Microcomputer Graphics (3+0); 3 credits; change credits to "1-3 variable;" effective Fall 1995.	Curriculum Review	a
CAPS 275 - Microcomputer Databases (3+0); 3 credits; change credits to "1-3 variable;" effective Fall 1995.	Curriculum Review	a
CHEM 321 and 322 (3+0) N; change description, prerequisites and frequency of offering to "CHEM 321 and 322 - Organic Chemistry; A systematic study of the more important functional groups of carbon compounds, including their mechanisms of reaction, methods of synthesis, and physical and spectroscopic properties. (Prerequisite: CHEM 106X for CHEM 321; CHEM 321 with "C" or better for CHEM 322; or permission of instructor." Effective Fall 1995.	Curriculum Review	a
CS 405 - Introduction to Expert Systems (3+0); change title, description, and frequency of offering to "CS 405- Introduction to Artificial Intelligence (3+0); Examine diverse branches of AI placing AI in larger context of computer science and software engineering. Knowledge representation formalism and search technology. Programming methodologies: procedural systems such as expert systems and blackboard systems and non-procedural systems such as neural networks. Software engineering aspects of problem selection, knowledge acquisition, verification and validation." Effective Fall 1995.	Curriculum Review	a

**Changed Courses (cont.)****Committee Taking Action Key**

<p>DEVS 108 - Study Skills Lab (1+0) change description to "Improvement of study skills in areas of greatest need on an individual or small group basis in the lab or other workshop or individualized format. Topics include time and stress management, listening/notetaking, library research, and memory. Course may be repeated for credit when content varies." Effective Fall 1995.</p>	<p>Developmental Studies a</p>
<p>ED 584 - Practicum: Teaching in Small and Large Schools (6 credits); change number, title, and description to "ED 451 - Practicum in Education (6 credits); Practical application of general ideas and techniques addressed in methods courses in which the student is currently enrolled or previously completed (Prerequisites: Ed 201, 330, 402 or equivalent; concurrent enrollment permitted with ED 402; permission of instructor." Offered every fall; effective Fall 1995.</p>	<p>Curriculum Review a</p>
<p>ENGL 306 - Survey of American Literature (3+0) H; change title, description, and frequency of offering to "ENGL 306 - Survey of American Literature: Beginnings to the Civil War (3+0) H; Comprehensive study of American thought as reflected in the works of early explorers, Calvinists, Rationalists, and Transcendentalists. (Prerequisite: ENGL 111 or permission of instructor.)" Effective Fall 1995.</p>	<p>Curriculum Review a</p>
<p>ES 307 - Elements of Electrical Engineering (2+3) 3 credits; change course from (2+3) to (3+0), add lecture topics. Effective Fall 1994.</p>	<p>Curriculum Review a</p>
<p>GEOG 205 - Elements of Physical Geography (3+0 OR 3+3)n; add lab fee: \$25; effective Fall 1995..</p>	<p>Curriculum Review a</p>
<p>GEOG 309 - Cartography (1+9) s; add materials fee: \$150; effective Fall 1995.</p>	<p>Curriculum Review a</p>
<p>GEOG - 402 Culture and Environment (3+0) S; change title and description to "GEOG 402 - Resources and Environment; Interdisciplinary analysis of the earth as a natural resource base, and the management issues of resource extraction, allocation, development, conservation and preservation;" effective Fall 1995.</p>	<p>Curriculum Review a</p>
<p>MIN 407 - Mineral Industry and the Environment (2+0); change title, description, prerequisites, and credit hours to "MIN 407 - Mine Reclamation and Environmental Management, Principles and practices of mine reclamation and waste disposal. Pre-mining assessments and plans. Design of settling and tailings ponds and waste impoundments. Stream bed restoration and revegetation. Course Fee \$20.00 (Prerequisite: ES 341);" first offered Fall 1995; offered every fall.</p>	<p>Curriculum Review a</p>

**Changed Courses (cont.)****Committee Taking Action   Key**

MIN 433 - Mining Access, Safety, and Environmental Law (3+0); change description to "History of mining law. Laws and regulations governing access to property, safety, and environmental control as they pertain to mining. (Next offered: 1995-96)" Effective Fall 1995.	Curriculum Review	a
MIN 447W - Mining Methods for Placer and Offshore Deposits (3+0); change title, description, prerequisites, frequency of offering, and course classification to "MIN 447 - Placer Mining (3+0); Placer formation and identification, reserve estimation, mine and wash plant design, including surface and underground mining methods, equipment specification, environmental compliance and reclamation. Course fee \$20. (Prerequisites: MIN 301, MIN 313. Next offered 1995-96.); alternate spring;" first offered Fall 1995. Effective Fall 1995	Curriculum Review	a
PHYS 211X - General Physics (3+3)n; change prerequisites to "Concurrent enrollment in MATH 201 and one year of high school Physics, or instructor permission." Effective Fall 1995.	Curriculum Review	a
PHYS 212X - General Physics (3+3)n; change prerequisite to "MATH 201; PHYS 211X or ES 208 or concurrent enrollment in ES 210, or instructor permission." Effective Fall 1995.	Curriculum Review	a
PHYS 275 - Astronomy (3+0)n; change title; description; prerequisites; credits; and contact hours to "PHYS 275X - Introduction to Astronomy (3+3)n, 4 credits, The exploration of the universe is one of the most natural of all human drives; people of all eras have sought to determine their basic relationships with the rest of the universe. This course will examine the science of astronomy and its social consequences, with an emphasis on the interrelationships between astronomy and other sciences, and on the inseparable nature of our view of the cosmos and our view of ourselves. The course is designed for non-science majors. (Prerequisites: minimum two years of high school algebra or permission of instructor.)"	Curriculum Review	a
PHYS 276 - Astronomy; separate it from the PHYS 275 course.	Curriculum Review	a
PSY 356 - Foundations of Counseling II (3+0); change number, title, prerequisites, course classification, and drop cross-listing to "PSY 455 - Clinical Psychology (2+3); Survey of Clinical psychology methods and approaches with consideration of psychological assessment and treatment. Topics include specific counseling strategies such as psychoanalysis, behavior therapy, crisis intervention, rational-emotive and humanistic approaches, along with ethics in clinical practice and issues in cross-cultural counseling and psychological assessment and treatment. A clinical lab will allow students to apply their classroom learning and get hands experience in clinical skill. (Prerequisites: PSY 240 and PSY 345.)" Effective Fall 1995.	Curriculum Review	a

**Changed Courses (cont.)**

	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>
PSY 450 - Experimental Psychology (2+6); change number and prerequisites to "PSY 475; (Prerequisites: PSY 101, PSY/SOC 250 or STAT 200, and PSY/SOC 473. Special permission of instructor is required if prerequisites have not been met. Next offered 1996-97.)" Effective Fall 1995.	Curriculum Review	a
PE337W - Psychological Aspects of Physical Activity (3+0); change title, prerequisites, and cross list to "PE 337W/PSY337W Exercise and Sport Psychology; (Prerequisites: PSY 101, PE 316 or 317, or permission of instructor." Effective Fall 1995.	Curriculum Review	a
RD 256 - Advanced Topics in Rural Land Management (1.5+Arr); change title, description, and prerequisites to "RD 256 - Co-Management of Renewable Resources; Examines efforts at cooperative management of natural resources among users and federal and state management agencies. Recent initiatives in Alaska and Canada involving salmon, migratory birds, marine mammals, and brown bear will be discussed." Effective Fall 1995.	Curriculum Review	a
RHS 285 - Case Management (3+2); 3 credits; change credits to "2 credits (2+1)"; effective Fall 1995.	Curriculum Review	a
SOC 100X (3+0), 3 credits, change description and frequency of offering, effective Fall 1995.	Core Review	a
SOC 335- Sociology of Deviant Behavior (3+0); add social science designator; effective Fall 1995.	Curriculum Review	a
SPC 222 - Fundamentals of Interpersonal Communication (3+0); change description and course classification to "COMM 222 - Fundamentals of Interpersonal Communication (3+0) s; The course addresses the cultural and social processes that are necessary for successful understanding and participation in face-to-face interaction. Fundamentals of Interpersonal Communication is designed to introduce students to the basic concepts and terminology used in discussion of dyadic interaction. It is presented at an appropriate level for any student interested in improving his or her interpersonal communication. And, in that face-to-face communication is the most essential context of the Communication discipline, the course prepares students for further courses in Communication that address other contexts. (Next offered: 1995-96.)" Effective Fall 1995.	Curriculum Review	a
SPC 251 - Argumentation and Debate (3+0); change title, description, and course classification to "COMM 251 - Argumentation and Conflict Communication (3+0) s; The study of argumentation as an alternative to aggressive communication. Conflict and cooperation as expressed through human communication behavior will be examined through the current approaches to argumentation and debate. (Prerequisite: Any 100 level communication course or permission of instructor. Next offered: 1996-97.)" Effective Fall 1995.	Curriculum Review	a

**Changed Courses (cont.)**

	<b><u>Committee Taking Action</u></b>	<b><u>Key</u></b>
SPC 320 - Communication and Language (3+0); change course classification to "COMM 320 - Communication and Language (3+0) s;" Effective Fall 1995.	Curriculum Review	a
SPC 351 - Communication and Women (3+0) s; change title and description to "COMM/WMS 351 - Gender Communication (3+0) s; Basic socialization differences exist in the communication practices of women and men in every culture, resulting in differing cultural constructions of male and female gender. Those differences are addressed in the interpersonal, organizational, and cultural contexts. The course explores our cultural female/male dichotomy as well as individual similarities. (Prerequisite: any lower division communication course or permission of instructor. Next offered 1995-96.)" Effective Fall 1995.	Curriculum Review	a
SPC 401- Communication Research Methods (3+0); change description and course classification to "COMM 401 - Communication Research Methods (3+0) s; Quantitative and qualitative research methodologies employed in the conduct of research on communication phenomena. (Prerequisite: Any 300 level course in communication or permission of instructor. Next offered: 1995-96.)" Effective Fall 1995.	Curriculum Review	a
SPC 475 - Applied Communication in Training and Development (3+0) s; change description and course classification to "COMM 475S and delete speech from prerequisite, next offered 1997-98." Effective Fall 1995.	Curriculum Review	a
SPC 482 - Seminar in Speech Communication (3+0); change classification to "COMM 482S and delete speech from the course description;" effective Fall 1995.	Curriculum Review	a
THR 247 - Introduction to Theatrical Design (3+0); add humanities designator; effective Fall 1995.	Curriculum Review	a
THR 348 - Sound Design in the Theatre (2+2); add humanities designator; effective Fall 1995.	Curriculum Review	a
THR 447 - Lighting Design II (2+2); add humanities designator; effective Fall 1995.	Curriculum Review	a
THR 481 - Thesis Project (1+4) h; change number and frequency of offering to "THR 499 - Thesis Project; offered every semester." Effective Fall 1995.	Curriculum Review	a
