

- I. **Approve Minutes of last meeting**
- II. **Formally approve 3 motions + 1 discussion item to move forward to Faculty Senate**
 (see following pages) Note that motion to Change 'Learning Outcomes' will be part of the Faculty Senate Agenda—these revised LOs are different in important ways from the current ones!
- III. **Strategy for moving forward**
 - A. Faculty Senate meeting in September largely devoted to Curricular Affairs???
 - B. Create a mechanism to get agreement between UAA-UAS-UAF on Univ Regulations
 - C. How to get faculty buy-in: faculty vote? By school/college? By department?

NEEDS TO BE MODIFIED....how???

Current General Education University Regulations

Credit Distribution for the Common Core of the General Education Requirements for Baccalaureate Degrees

Written Communication Skills	6 credits minimum
Oral Communication Skills	3 credits minimum
Humanities/Social Sciences	15 credits minimum
at least 3 credits in the arts	
at least 3 credits in general humanities [change this, too??]	
at least 6 credits in the social sciences, from <u>2 different disciplines</u>	
Quantitative Skills/Natural Sciences	10 credits minimum
at least 3 credits in mathematics	
at least 4 credits in the natural sciences, including a laboratory	

Total	34 credits minimum

MOTION #1

=====

The Curricular Affairs Committee moves that the Faculty Senate submit the following changes to the UAF baccalaureate requirements for a faculty vote of approval:

Each student must complete a capstone course or experiential learning opportunity (e.g. internship) in student's major or program (0 – 3 credits). It will be the responsibility of each Department, Program, and (or) College/School to create, deliver, evaluate, and assess their capstone experience.

Rationale: This change is proposed in support of satisfying UAF's Learning outcome #4: "Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning. *Preparation will be demonstrated through production of a creative or scholarly project that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection.*"

Many UAF Departments and Programs currently have baccalaureate capstone experience requirements; the purpose of this change is to create a UAF-wide requirement. We envision this proposed change as not adding a significant burden to UAF faculty and students.

MOTION #2

The Curricular Affairs Committee moves that the Faculty Senate submit the following change to the UAF baccalaureate requirements for a faculty vote of approval:

Replace the current requirement for 2 written-intensive and one oral intensive class with three courses marked 'C', that integrate several kinds of communication practices with upper-division content, typically in a student's major, as described below.

Draft Guidelines for 'C' courses Minimum criteria for course approval:

1. Explicitly address at least three of these objectives:

- A. Students will be able to revise written work in response to instructor and peer feedback.
- B. Students will be able to write effectively for diverse audiences.
- C. Students will be able to recognize and navigate the concepts, genres, and conventions of the course discipline.
- D. Students will be able to select appropriate writing technologies to collaborate in personal, professional and civic relationships.
- E. Students will be able to listen effectively and respond effectively to communication practices in the course.

2. At least 50% of the grade must come from assignments utilizing the types of writing and combination of written and non-written forms of communication most appropriate to disciplinary needs and standards and course content. Non-written forms of communication may include, but are not limited to: oral presentations, discussions, training, videography, podcasting, or performance.

3. Provide guided and prompt feedback and opportunities for student revision on student projects, presentations, and papers.

4. In addition to written and spoken communication, address other forms of communication in the course discipline, such as reading and listening and multimodal, digital, or visual communication.

5. Address and practice accurate and ethical referencing/citation practices of source material as it pertains to source authority, academic honesty, and personal credibility.

6. Faculty must have attended a training workshop, to be offered every semester

Rationale: This change is proposed in support of satisfying UAF's Learning outcome #4: "Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning. *Preparation will be demonstrated through production of a creative or scholarly project that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection.*"

Notes concerning the proposed requirement:

- 1. The ultimate rules for 'C' courses are not yet fixed; these are the proposed rules and are included to give faculty members a better understanding of what the 'C' courses would likely entail.
- 2. Based on the above, all existing O and W courses would need to be revised and reviewed to qualify for 'C' status. None would automatically become 'C' courses.
- 3. It is not clear how current W,O or W, O_{1/2} courses would fit into this scheme. Would they become C2, C², or simply be counted as 'C'?
- 4. Although the majority of Curricular Affairs Committee members do not favor the motion, out of respect to the GERC sub-committee of CAC, we offer it to the Faculty Senate for their consideration.

MOTION #3

The Curricular Affairs Committee moves that the Faculty Senate submit the following change to the UAF baccalaureate requirements for a faculty vote of approval:

"Replace the current requirement for two written-intensive and one oral-intensive class with a requirement that all baccalaureate degrees contain a communication element integrated within the upper-division course requirements."

The School/College/Program/Department (i.e., hereafter referred to as the applicable unit) in control of each degree is responsible for creating a specific list of communication objectives for each degree and implementing a plan to integrate appropriate communication components within the degree course requirements. The applicable unit shall also create appropriate assessment criteria, collect and review relevant assessment data, and take appropriate actions to close-the-loop in the assessment process. The applicable unit will report on communication actions in a separate section of the report filed as part of the regular UAF program review process.

Rationale

The motion is intended to de-centralize UAF's communications requirements beyond the 34-credit UA GER. Assessment and monitoring of the existing communications requirement has been difficult and ineffective. Piggybacking on the existing assessment and program review processes will likely increase the effectiveness of both monitoring student communications outcomes and taking more appropriate remedial action that may be necessary to ensure that students meet the communication objectives.

Taking this approach would allow individual applicable units to tailor their communications requirements to the specific needs of students in a given applicable unit. Both the number of courses to be so required and the content of the courses would potentially vary across between applicable units.

Use of the existing assessment and program review processes will potentially be more efficient for both faculty and administrators.

Taking this approach would require that each applicable unit take responsibility for ensuring the communications abilities of its students. This is both a golden opportunity and a heavy responsibility.

The current system of 2Ws + 1 O is conceptually simple and easy to enforce on students but is a 'one size fits all' approach to a complex problem. Having a single set of rules for the O and W classes theoretically makes them possess uniform characteristics—but in practice neither course content nor effectiveness are actually monitored.

DRAFT MOTION: For discussion only at this time

=====

The Curricular Affairs Committee moves that the Faculty Senate submit the following changes to the UAF baccalaureate requirements for a faculty vote of approval:

Each student must take one course with each of these attributes:

- (E) Civic Engagement (3 credits)
- (A) Alaska and the Circumpolar North (3 credits)
- (D) Intercultural Competence and Diversity (3 credits)

Courses taken to satisfy these (E, A, D) requirements may also satisfy any other baccalaureate requirements.

Total credits to meet this requirement: 9 credits

Total credits in addition to the GER required to satisfy this requirement: 0 credits

Explanatory Notes

(E) attribute courses will offer coursework and/or experiential learning opportunities that enhance students' understanding in at least one of the following areas: civic identity and commitment, civic communication, civic action and reflection, and civic contexts and structures. These courses will include either direct civic engagement (e.g. a service learning project) with an academic reflection on the experience; address multiple ethical frameworks that inform relationships within and among communities; or explore how historical contexts, issues and developments shape human conflicts and interdependencies from local to global and inform the search for possible solutions to contemporary social problems

(A) attribute courses include topics such as Alaska/northern ecosystems and/or climate change; indigenous peoples, languages and world views; intercultural relations and politics in Alaska and the Arctic; economic development,

industry, engineering challenges, and their relation to the environment in the north; natural resources and systems. Courses with this attribute address Alaskan and circumpolar issues as a substantial component of the course and have at least 50% of the readings and assignments of the course devoted to topics relating to Alaska and the circumpolar North.

(D) attribute courses will place social justice in historical and political context; enable students to articulate insights into their own cultural rules and biases; demonstrate a complex understanding of the complexity of the history, values, politics, beliefs, and practices of other cultures; interpret intercultural experiences from more than one worldview; and articulate a complex understanding of cultural differences in verbal and non-verbal communication. Courses in this category may focus on differences among people in the United States and/or on understanding contemporary issues from a global perspective or understanding cultures and societies different from those in the United States. Such courses explicitly address at least two of the instructional objectives listed above; address issues of race, ethnicity, gender and sexual identity, and other markers of cultural difference as a substantial component of the course; emphasize the cultural interactions between the Western and non-Western worlds, and/or the interplay between various identity groups within the United States; and have at least 50% of the readings and assignments of the course devoted to topics relating to diversity and intercultural competence.

- Students will be provided with lists of courses with these attributes and such courses will also be indicated in their catalog descriptions. Faculty Senate committees will determine whether a course should have a certain attribute based on the above criterion.
- These requirements should not necessitate taking additional credits to satisfy a student's common baccalaureate requirements, although depending on the choices, the courses could increase that total.
- Majors are not required to offer courses marked A, E, or D.
- It is intended that foreign languages, Alaska Native or American Sign Language, and many Study Abroad programs will satisfy the D requirement.

Rationale:

The purpose of this change is to satisfy UAF's General Education Learning Outcome 3: "Acquire Tools for Effective Civic Engagement in local through global contexts, including ethical reasoning, intercultural competence, and knowledge of Alaska and Alaskan issues. *Facility will be demonstrated through analyses of issues including dimensions of ethics, human and cultural diversity, conflicts and interdependencies, globalization, and sustainability.*"

Why only a discussion item at this time:

The intention of GERC is that a baccalaureate student **could** satisfy the A, D, and E requirements through taking designated Arts/Humanities/Social Science (and possibly Natural Science) courses while satisfying the BOR 34 credit GERs. (They could also satisfy the requirement by taking courses in addition to the 34 minimum if desired, but the intention is to **not add to the credits** required for baccalaureate degrees). BA students can easily take additional courses with A, D, and E attributes without being overloaded with credit requirements because the B.A. also requires an additional '18 credits of social science and humanities courses'. However, other baccalaureate programs do not have the same flexibility.

Based on responses to the GERC proposal, a requirement for adding A,D, and E attributes is only acceptable to schools/colleges with non-B.A. baccalaureate programs IF the attributes can be incorporated within the 34 credit 'General Education Requirements'. However, requirements for the attributes (e.g., 'have at least 50% of the readings and assignments of the course devoted to topics relating to Alaska and the circumpolar North') seemingly violate the **current restriction** of acceptable GER social science courses to "broad survey courses"). Further, how do we coordinate with UAA and UAS concerning this addition to the requirements for acceptable GER courses?

In sum, although an A, D, E attribute requirement could be put in place and certainly courses outside of the 34 General Education Requirement credit could be so designated, it's not clear how we can go about incorporating the attributes into the 34 'unified UA General Education' credits. For example, one possible solution is for UAA and UAS to add A, D, and E attributes to their GER courses. Of course, they'd have to agree to do so....
