

CAC GER Implementation Subcommittee Meeting Report  
December 2, 2015

Discussion on cross-listed courses:

1. Intended to be the same, but evolved differently (e.g. ANTH 100x and SOC 100x).
  - a. Should be uncross-listed so that students can take them as different social sciences to meet UA regulations.
2. Are the same course regardless of designator.
  - a. Should ensure that students can only take one designator that counts in ss category.
3. Cross-listed, but only taught under one department.
