

Course evaluation

Your feedback on the course is extremely valuable to me and to UAF. I take your comments in evaluations seriously and use them to improve this course and my teaching. Evaluations are especially useful when all students participate, so I highly encourage you to complete an online evaluation at the end of the course.

BLUE, the online system adopted by UAF to poll students' opinions, can be accessed at this URL: <https://uaf.bluera.com/uaf>. Alternatively, you can click on the e-mailed link you will receive as the evaluation becomes available, or through a dedicated block on the BlackBoard splash page. Any information you provide will be kept **strictly confidential** and will be made available to me anonymously after I release course grades.

[Optional: To encourage your participation, I will provide class time for you to complete the survey].
