

The UAF Staff Council passed the following motion at meeting #201, Wednesday, 14 October 2009.

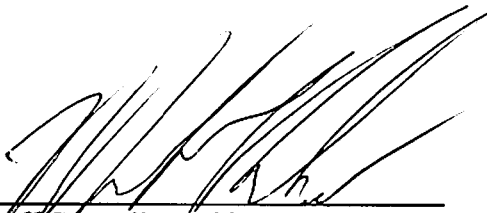

MOTION: (passed unanimously)

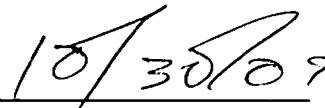

=====

The UAF Staff Council moves to support ASUAF in their endeavor to seek a raise in wages due to the lack of pay increases over the last seven years. Students contribute significantly to UAF staff and the University of Alaska Fairbanks.

EFFECTIVE: Immediately

RATIONALE: The cost of being a student in Alaska has increased significantly since 2001. Student worker wages have not been adjusted in seven or more years. Student worker wages are not competitive with off-campus employers hiring for similar positions. The employment of students by the university is beneficial to the student, employee, and the state. Additionally, the lowest student wage on the university's student wage grid, \$7.50 per hour, will soon be below the state's new minimum wage.
