

## Attachment 2

### Chancellor's Diversity Action Committee –

In March CDAC completed the Campus Climate Survey, which received about 970 responses. This is very exciting and the committee is looking forward to the results of the quantitative and qualitative data analysis to be done this summer. We expect to have the results at our first meeting and layout an action plan based on it. We will also distribute the analysis to the campus at-large at that time.

At the April meeting Chancellor Rogers directed the committee to propose a new vision to strengthen UAF's commitment to diversity in light of recent developments. Those developments include the announcement by Earlina Bowden of her intent to retire September 1, the completion of the Campus Climate Survey and the inclusion of 'sexual orientation' as a protected class in Board of Regents Policy. There is a draft proposal before the committee, which will meet one last time on Friday the 20<sup>th</sup>. The committee is also scheduled to elect chairs at this meeting.
