Draft New UAF Mission Statement:

The University of Alaska Fairbanks integrates teaching, research, and engagement, emphasizing the circumpolar north and its diverse peoples, as it educates students for careers, leading roles in their communities, and lifelong learning.

The faculty senate suggested the following revision on Monday:

The University of Alaska Fairbanks integrates teaching, research, and engagement, emphasizing the circumpolar north and its diverse peoples, as it educates students, preparing them for life, careers, and leading roles in their communities.

Specifically they noted the following:

- Careers should not be first in the list of why we educate
- The draft does not represent graduate education well; it focuses on undergraduate
- The draft does not align well with the themes (see below) because emphasizing the north and its diverse peoples is only specifically addressed in the Research (revised Discover) theme.
- Insufficient international feel to mission and core themes

Current UAF Mission Statement:

The University of Alaska Fairbanks, the nation's northernmost Land, Sea and Space Grant university and international research center, advances and disseminates knowledge through teaching, research and public service with an emphasis on Alaska, the circumpolar North and their diverse peoples. UAF--America's arctic university--promotes academic excellence, student success and lifelong learning.
