DEPARTMENT EMERGENCY ACTION PLAN
IRVING I
VETERINARY MEDICINE WING

Date Adopted: July 2015
Date Revised: July 2015

Prepared By: M. Hoffman
# TABLE OF CONTENTS

## I. DEPARTMENT AND BUILDING INFORMATION
- Building Name(s)
- Room Numbers Occupied by the Department
- Department Coordinator and Alternate
- Employee Accountability Procedures After Evacuation:
- Critical Operations Found in This Department
- Medical and Rescue Duties

## II. EMERGENCY PROCEDURES
- Immediate Emergency Notification
- Building Alarm(s)
- Emergency Notification Procedures
- Evacuation Procedures
- Fire Procedures
- Fire Prevention Procedures

## III. EMERGENCY PREPAREDNESS
- Training and Documentation
- Drills
DEPARTMENT EMERGENCY ACTION PLAN (DEAP)

As a building occupant, you need to be familiar with this plan. Read it carefully. If you have any questions, consult your Supervisor or the Environmental Health, Safety and Risk Management Department. Keep the following in mind as you read through this document:

- Evacuation routes, exit points, and where to report for roll call after evacuating the building
- When and how to evacuate the building
- Locations of emergency supplies and materials that may be needed in an emergency, such as pull alarms and first aid kits.
- Proper procedures for notifying emergency responders about an emergency in the building or work area.
- Additional responsibilities (such as being a roll taker or floor monitor)
- Fire hazards
- Potential exposure to hazardous materials or processes in and around the work area, as well as any means of protecting yourself in the event of an emergency
- A contact list for employees in your department.

I. DEPARTMENT AND BUILDING INFORMATION

Building Name(s): Arctic Health Research Building (AHRB)
Room Numbers Occupied by the Department: Please see attached floor plans. Irving Veterinary Medicine Wing; 1st floor

Department Coordinator Campus Address: P.O. Box 755940, Fairbanks, AK 99775
Department Coordinator Telephone No.: 907-687-0258
Department Coordinator Email Address: mhoffman2@alaska.edu

Alt Dept Coordinator Campus Address: P.O. Box 755940, Fairbanks, AK 99775
Alternate Department Coordinator Telephone No.: 907-978-4748
Alternate Department Coordinator Email Address: cagriseto@alaska.edu

Description of Building(s):
Vet Med has laboratories and offices in AHRB and Irving I. All buildings are located on West Ridge of the UAF campus. Irving I has 5 floors plus a basement. Please see attached floorplans. The laboratories are used for teaching, and house many chemicals and equipment. The offices are in place to accommodate and support the lab personnel, faculty members, support staff, and students. This EAP is specific to Irving I.

Location:
All of Vet Med’s laboratories/offices are located on West Ridge of the UAF campus.

Location of Department Emergency Assembly Area (EAA):
Irving Buildings: North Murie Entrance, or Murie parking lot (back/north side of Murie Building), weather permitting.

Building(s) and Room Number(s):
Irving Veterinary Medicine Wing; 1st floor
Veterinary Medicine – DEAP

**Department Emergency Staff:**
Responsibility/Name                      Department, Telephone No. & Room

**Roll Taker:** Megan Hoffman, Irving     Irving; 907-687-0258
                        Maggie Castellini, Irving        Irving; 907-347-6818

**Employee Accountability Procedures After Evacuation:**
In the event of a fire emergency signed by the building alarm system, all occupants will promptly exit the building by the nearest exit. Once clear of the building, go to the designated point and immediately report to their supervisor or roll taker. After evacuation, each supervisor (or designee) is responsible for accounting for each employee assigned to that designated emergency assembly area and will conduct a head count.

Each employee will be accounted for by name. Each employee is responsible for reporting to his or her supervisor (or designee) so an accurate head count can be made.

**Roll may be taken via text to either roll taker (see phone #s above):** If you are unable to meet at the designated area but are safely out of the evacuated building, you may text either roll taker (above) as a means of checking in. If you are unable to text, you must report in person to the designated area.

**Medical and Rescue Duties for Employees:**
No Veterinary Medicine employees have been assigned medical or rescue duties specific to emergency situations at Arctic Health Research Building, Irving I or II, Murie, or the West Ridge Research Building.

**II. EMERGENCY PROCEDURES**

**Immediate Emergency Notification:**
911 from public or campus telephone

**Life-Threatening Emergency Number:**
911 from public or campus telephone

**Non-Life Threatening Emergency Numbers:**

| University Police                        | 474-7721 |
| UAF Environmental Health, Safety and Risk | 474-5413 |
| UAF Facilities Services                  | 474-7000 |
| Fairbanks City Police                    | 450-6500 |
| Fairbanks Fire/Ambulance                 | 450-6500 |
| Detox Van                                | 456-1053 x2 |
| Fairbanks Memorial Hospital              | 452-8181 |
| Fairbanks Regional Public Health Center  | 452-1776 |
| Tanana Valley Clinic                     | 459-3500 |
| Poison Control Center                    | 1-800-222-1222 |

**UAF Emergency Information:**
UAF Recorded Hotline                      474-7823

Veterinary Medicine – DEAP

Veterinary Medicine Floor Plans—Emergency Equipment
There is one (1) Automated External Defibrillator located on the third floor of Irving I, outside room 311 provided by IAB.

Irving I, 1st Floor
Two (2) Emergency Pull Stations
   By stairs outside of 110 Irving I
   By elevator
Two (2) Emergency Signs
   By stairs outside of 110 Irving I
   By elevator
One (1) Wall-Mounted Fire Extinguisher
   Outside of 103 Irving I, by stairs

Irving I, 2nd Floor
Five (5) Emergency Pull Stations
   Next to elevator
   Outside Room 216
   Near outside door adjacent to O’Neill
   Next to stairs by Room 201
   Outside of 208
Two (2) Emergency Signs
   Next to elevator
   Next to the stairs outside of Room 208

Irving I, 3rd Floor
Four (4) Emergency Pull Stations
   Next to elevator
   Outside Room 314
   Next to stairs by Room 311
   Outside of 307
Two (2) Emergency Signs
   Next to elevator
   Next to the stairs outside of Room 307
One (1) Automated External Defibrillator
   Mounted on the wall outside Room 311

Irving I, 4th Floor
Four (4) Emergency Pull Stations
   Next to elevator
   Outside Room 409
   Next to stairs by Room 401
   Outside of 419
Two (2) Emergency Signs
   Next to elevator
   Next to the stairs outside of Room 401
Building Alarm(s)
All floors in Irving I have horn/strobe assembly alarms. The strobe lights attached to the alarm flash, and the alarm sounds like a very loud horn.
- The evacuation alarm is a horn/strobe alarm.
  - When you hear the evacuation alarm, leave the building. Follow evacuation procedures (see section below).
- The elevator alarm is a bell alarm, and is not as loud.
  - When you hear the elevator alarm, call University Dispatch at 474-7721.
- Fume hood and/or Biosafety Cabinet (BSC) alarms are generally loud and often occur when the sash is open past its limit. If closing the sash does not turn off the alarm, and if there is any other indication that the hood or BSC is compromised or otherwise not functioning properly, please call Facilities Services for assistance at x7000.

Emergency Notification Procedures
Types of emergencies to be reported by site personnel are:

Ø MEDICAL
Ø FIRE
Ø SEVERE WEATHER
Ø BOMB THREAT
Ø CHEMICAL SPILL
Ø STRUCTURE CLIMBING ACCIDENTS
Ø EXTENDED POWER LOSS
Ø WORKPLACE VIOLENCE

When you call 911 from a campus location to request emergency assistance, you will be connected to the University Emergency Dispatch. Call from a safe location and remember to:
- Stay calm.
- Be prepared to answer the following questions:
  - Where is the emergency located?
  - What is the emergency? (Fire, medical, hazardous materials, etc.)
  - How did it happen?
  - When did it happen?
  - Who are you? (your name)
- Gather any information that may be useful for the emergency responders (e.g. are there any injuries involved? Are there any people possibly trapped in the building? Are there any known hazards, such as chemicals or gases, present?)
- Do not hang up until instructed to do so by the dispatcher.

MEDICAL EMERGENCIES
Call medical emergency phone number – 911

Provide the following information:
- Nature of medical emergency
- Location of the emergency (address, building, room number)
- Your name and phone number from which you are calling
Veterinary Medicine – DEAP

- DO NOT move victim unless absolutely necessary (imminent danger to life)
- Call on individuals trained in CPR and First Aid to provide required assistance prior to the arrival of the professional medical help:

**General Evacuation Procedures:**
- Stay calm; do not rush and do not panic.
- Evacuate the building using the nearest exit (or alternate exit if nearest exit is blocked).
- Do not use elevators.
- Gather your personal belongings if it is safe to do so. (Reminder: take prescription medications out with you if at all possible; it may be hours before you are allowed back in the building.)
- Wait for and follow directions given by emergency responders.
- Go to Evacuation Assembly Area (EAA) designated on this building’s emergency evacuation signs.
- Do not leave area/campus until your status is reported to your supervisor, resident advisor, or instructor.
- Do not re-enter the building or work area until you have been instructed to do so by the emergency responders.

**Please take note:**
A building occupant is **required** to evacuate the building when the fire alarm sounds. Move quickly to the Emergency Assembly Area.

**Emergency Information:**
- Posted evacuation diagrams, including routes and fire alarm pull stations are located at the base of stairways, elevator landings and inside public doors.
- Map of department Emergency Assembly Area (EAA)
  - Please see attached.

**Fire Procedures:**
UAF Safety Policy and Procedure, Policy #1220. “Policy: It is the University of Alaska Fairbanks’ policy to have all building occupants evacuate any campus building upon activation of the building’s fire alarm system. In the case of individuals who have disabilities that would preclude them from exiting the building due to elevators not working, see the policy on “Safe Refuge, Policy #1221. There are also some buildings on campus that, although they appear to be connected to each other, are considered separate buildings under the code; i.e., Upper Dorms, Fine Arts complex, Patty complex. When an incident occurs in these buildings, occupants can proceed into the adjacent building and will be considered to have evacuated the alarming building.”

**If there is a fire in your work area:**
- First, notify the fire department by pulling the pull station and (from a safe distance) calling 911 to provide details of the situation (See “Emergency Notification Procedures” above in this document.)
• Evacuate the building as soon as the alarm sounds and proceed to the designated Emergency Assembly Area (EAA) (See “General Evacuation Procedures” in Section II.)
• On your way out, warn others nearby.
• Move away from fire and smoke. Close doors and windows if time permits.
• Touch closed doors. Do not open them if they are hot.
• Use stairs only; do not use elevators.
• Move well away from the building and go to your designated EAA.
• Do not re-enter the building or work area until you have been instructed to do so by the emergency responders.

**If there is a fire in your building:**
Follow evacuation procedures as soon as you hear the fire alarm (See “General Evacuation Procedures” in Section II.)

**Chemical Spill Procedures:**
• If you have not been trained and/or do not have the appropriate personal protective equipment, evacuate the area and please call for assistance.
• Never put yourself or others at risk to cleanup a spill.
• Avoid breathing vapors of the spilled material. Ensure that the fume hood(s) is on. Open windows when appropriate to increase ventilation.
• If the chemical nature of the spill is unknown, treat the spill as you would a highly toxic hazardous material; take all safety precautions and evacuate the area. If the spilled material is flammable, turn off all ignition and heat sources.
• Consult reference materials, including, but not limited to, the MSDS (material safety data sheet) for information regarding the spilled material(s).
• Secure cleanup supplies and the appropriate personnel protective equipment. Ensure protective apparel is resistant to the spill material.
• Confine or contain the spill to the smallest area as possible.
• Utilize methods and procedures as described in the reference material to cleanup the spill.

**EXTENDED POWER LOSS**
In the event of extended power loss to the facility certain precautionary measures should be taken:
• Unnecessary electrical equipment and appliances should be turned off in the event that power restoration would surge causing damage to electronics and effecting sensitive equipment
• UAF Facilities Services, during freezing temperatures will monitor, turn off and drain, as necessary the following:
  o Fire sprinkler system
  o Standpipes
  o Potable water lines
  o Toilets
Upon Restoration of heat and power:

- Electronic equipment should be brought up to ambient temperatures before energizing to prevent condensation from forming on circuitry.

III. EMERGENCY PREPAREDNESS

TRAINING AND DOCUMENTATION

Training is an integral part of the safety awareness for your department and it is all employees should be trained on the Department Emergency Action Plan (DEAP) for the building(s) they occupy. Training must be documented. Each occupant should become familiar with the DEAP, to know evacuation routes and assembly areas, and to attend training(s) given by their department. As a supplement to the training, information is posted in the buildings to ensure all occupants and guests can safely exit during an emergency. Information is also posted online at www.uaf.edu/safety/safetypreaprdness.htm

It is recommended that individual departments make the DEAP available to their department employees. Training is initially required upon work assignment to the department and employees should get annual refresher training to be current and to be informed of any changes in the plan.

DRILLS

Building evacuation drills are optional (with the exception of the residence halls.) If your department wishes to have a drill, contact the UAF Fire Department (474-7721) for coordination.
